Statement of Nondiscrimination

The College of Staten Island is an Equal Opportunity and Affirmative Action institution. The College does not discriminate on the basis of race, color, creed, national origin, ethnicity, ancestry, religion, age, sex (including sexual harassment), sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, pregnancy, or status as a victim of domestic violence/stalking/sex offenses, or any other legally prohibited basis in accordance with federal, state, and city laws, in its student admissions, employment, access to programs, and administration of educational policies.

The Director of the Office of Diversity and Compliance, serves as the College's Compliance Officer, Title IX Coordinator, and 504 Coordinator. This office is located in Building (1A), Room 205, and the telephone number is 718.982.2250.

Important Notice of Possible Changes

The City University of New York reserves the right, because of changing conditions, to make modifications of any nature in the academic programs and requirements of The University and its constituent colleges without advance notice. Tuition and fees set forth in this publication are similarly subject to change by the Board of Trustees of The City University of New York. The University regrets any inconvenience this may cause. The responsibility for compliance with the regulations in each catalog rests entirely with the student.

Welcome to the College of Staten Island

Greetings! It is my pleasure to welcome you to the College of Staten Island, a senior college of The City University of New York, the nation's leading urban university.

CSI is committed to providing you a richly integrated learning experience, with a variety of learning opportunities, both in and outside of the classroom, at home, and around the world.

As the only public institution of higher learning in the borough, CSI is committed to providing you with a variety of learning opportunities both in and outside of the classroom, which, in combination with your own hard work, we are sure will help you continue toward your educational, philosophical, and professional goals. Here on our beautiful 204-acre campus, you will join other students who are pursuing doctoral degrees, advanced certificate programs, and master's degrees, as well as bachelor's and associate's degrees.

We offer a broad spectrum of disciplines on campus, with courses taught by highly credentialed faculty from leading institutions around the world. A hallmark of a CSI education is the opportunity for undergraduate students to experience real-world, hands-on research using sophisticated equipment, side by side with leading scientists and authorities in their fields.

CSI also offers a comprehensive array of international programs to further enhance your education. Whether you choose to take advantage of dynamic study abroad and exchange programs in over 35 countries, enroll in our Virtual Classroom that connects you with fellow classmates at leading institutions around the world via a high-speed video link, or enrich your education through internships at leading companies in New York City, your CSI experience will help you attain your educational, philosophical, and professional goals.

CSI's administration, faculty, and staff are singularly dedicated to your success, and as we affirm in the College's mission statement, “practice their commitment to educational excellence as they instill in students preparing to enter their chosen careers an enduring love of learning, a sensitivity to pluralism and diversity, a recognition of their responsibility to work for the common good, and an informed respect for the interdependence of all people.”

This focus on mutual interdependence and civic responsibility is illustrated by the many international partnerships that the College maintains worldwide through our Center for International Service, as well as by the relationship that CSI enjoys with the larger Staten Island community; our Office of Continuing Education and Professional Development administers programs focused on developing career-related skills; and our Small Business Development Center assists local businesses.

CUNY has recognized the College's flagship research status by designating certain programs as Research Centers. CSI's Center for Developmental Neuroscience and Developmental Disabilities works closely with the New York State Institute for Basic Research (IBR) to conduct, promote, and sponsor research, education, and training in the developmental neurosciences with special emphasis on research and educational programs in the specific field of developmental disabilities; our Center for Environmental Science, established in 1987, provides support for research and policy recommendations concerning environmental problems and the quality of life; and our Center for Engineered Polymeric Materials actively fosters the development of complex polymeric materials based on multiple phases with significant structures at the nanometer scale.

Further, we offer programs to help our students succeed at every level: from our summer immersion program, which provides tuition-free instruction aimed toward helping students pass the CUNY skills assessment tests, to our FIRST program's specialized academic and personal support services for freshmen who have passed all three of these tests, CSI strives to ease our first-year students' transition into college. Other programs, such as the Macaulay Honors College at CSI and The Verrazano School at CSI are designed for gifted and highly motivated students, while the Teacher Education Honors Academy educates a new generation of exceptional teachers of science and mathematics.

These are only a few examples of what you will find at CSI. I encourage you to explore our Web site to learn more about the programs and the people of our College community. Congratulations on taking this first step into what I know will be a bright future, and welcome!

Sincerely,

William J. Fritz
President

About the College

The College of Staten Island is a four-year, senior college of The City University of New York that offers exceptional opportunities to all of its students. Programs in the liberal arts and sciences and professional studies lead to bachelor’s and associate’s degrees. The master’s degree is awarded in 18 professional and liberal arts and sciences fields of study.

The College offers a doctorate in Physical Therapy and doctorate in Adult-Gerontological Nursing Practice. In addition, the college participates in doctoral programs of The City University Graduate School and University Center in Biology, Chemistry, Computer Science, and Physics.
A broad general education is assured through requirements that allow students to explore a range of fields of knowledge and acquire educational breadth in mathematics, the sciences, social sciences, arts, and humanities. Requirements for the bachelor’s degree provide a disciplined and cumulative program of study in a major field of inquiry. Enrollment in baccalaureate programs requires freshman admission standards consonant with those of CUNY senior colleges. Enrollment in associate’s degree programs is open to all students with a high school diploma or the equivalent.

The College of Staten Island is one of eight campuses that participate in the Macaulay Honors College of CUNY. Students accepted into this highly competitive program complete their degree requirements, including honors in their chosen major, at the College of Staten Island. Special seminars, research opportunities, and co-curricular activities are challenging and enriching elements of the program. The Macaulay Honors College at CSI is designed for a limited number of students who have demonstrated a well-developed commitment to learning and who intend to continue their undergraduate education in graduate and/or professional schools. Students who have earned, or expect to earn, a high school academic diploma with an average of at least 90 with competitive SAT or ACT scores are eligible to apply for admission.

The academic year follows a two-semester pattern, with a separate summer and winter session. Classes are scheduled days, evenings, and weekends. The College has an extensive Continuing Education program and offers off-campus courses with and without credit.

CSI was founded in 1976 through the union of two existing colleges—Staten Island Community College and Richmond College. Staten Island Community College, the first community college in the University, opened in 1956. Richmond College, an upper-division college that offered undergraduate and graduate degrees to students who had successfully completed the first two years of college study elsewhere, was founded in 1967. The merger of these two colleges resulted in the only public four-year institution of higher learning on Staten Island.

**Mission, Vision, Values and Strategic Priorities**

**Mission**
Grounded in the tradition of the liberal arts and sciences, the College of Staten Island is committed to the highest standards in learning, teaching, research, scholarship, and service. As the only public institution of higher education in the Borough, and as a senior campus of The City University of New York, the College has provided access to excellence in higher education since 1956. The College is dedicated to helping its students fulfill their creative and educational aspirations through competitive and rigorous undergraduate, graduate, and professional programs. We embrace the strength of our diversity, foster civic-mindedness, and nurture responsible citizens for our city, state, country, and the world.

Vision

Providing students with an outstanding educational experience guides everything the College of Staten Island undertakes. The College is committed to enhancing the success of all students and to evidence-based initiatives and opportunities. We strive to provide rigorous undergraduate and graduate degrees at all levels and to respond to the changing educational and professional aspirations of students in a complex and dynamic world through innovative disciplinary and interdisciplinary programs. Excellence in scholarship, research, and creative activities provides a strong foundation for our academic programs and student learning experiences, and by attracting and retaining an outstanding faculty we will also attract strong graduate students to our masters and doctoral programs and to work in our laboratories. We aspire to be a vibrant center of intellectual and cultural exchange and to broaden the horizons of our students by increasing the integration of global perspectives through our curriculum, scholarship and international opportunities. At the same time we will enhance students’ educational experiences by expanding opportunities to engage with our more immediate community through research, service, and civic engagement, consistent with our commitment to borough stewardship. The College is enriched by the diversity of its students, faculty, and staff, and we will expand efforts to ensure an inclusive and increasingly diverse campus community. We will be a leader in conserving resources, will be creative in aligning resource allocations with strategic priorities, and will be data-informed in our decision-making. Through these accomplishments the College of Staten Island will become a destination for students, faculty, and staff, with greater regional, national and international recognition.

Values

Strong commitment to teaching, scholarship, research, creative activities, and service. • We set and meet high expectations in our academic programs through innovative teaching, scholarship, and research. We promote engagement among students and faculty. We explore the broader impacts of our work and are proud of recognition received at local, national and international venues.

Emphasis on campus pride and the cultivation of a welcoming and inclusive environment.

• We cultivate pride in our institution in everything that we do. We strive to ensure that all who come to campus feel welcomed and valued. We enjoy celebrating our successes. Together we work to achieve greater recognition through advancement and the promotion of campus activities.

Facilitation of serious conversations about difficult subjects.

• We seek to make our campus a place for the open exchange of ideas. We encourage critical thinking, curiosity and creative expression. We see value in thoughtful conversation and the consideration of differing viewpoints. We promote events on campus that are relevant and related to larger questions that have impact on our lives.

Innovative approaches to student success.

• As a comprehensive college, we provide support for students from pre-college through doctoral degrees. We embrace innovative approaches to increase student engagement and encourage progress in achieving individual academic and career goals. We also work with all students to help them overcome barriers to their success.

Commitment to integrity and mutual respect.

• We expect honesty and fairness in our interactions with each other and in the work that we do. Ensuring integrity builds trust among students, faculty, and staff. Mutual respect is required to encourage open dialogue, critical reflection and a diversity of perspectives. We value all members of the College community, as all play a vital role in making us a quality institution.

Reliance on informed decision-making and shared governance.

• We seek to ensure that all of our decisions are informed by deliberation and data. We are continuously engaged in gathering information related to our institutional goals. We foster a model of shared governance. We are engaged in cross-institutional, national conversations related to best practices in higher education and support visionary leadership within every unit of the College.

Strategic Priorities

Strategic Priority 1 STUDENT SUCCESS

... Lifting as We Rise
The College of Staten Island is committed to fostering success for students at all levels, as well as ensuring the strongest possible experience for students, including timely progress toward their degrees. Strong student engagement, both inside and outside the classroom, as well as helping students to develop a “growth mindset,” are essential ingredients in achieving these objectives. The College is committed to embracing the success of all students and eliminating achievement gaps, wherever they exist, to improve educational equity and inclusion. To address this priority, the College will work toward the following goals:

- Provide a comprehensive approach to student support services, including mentoring and advising with a focus on assessing student progress and an emphasis on improving retention, reducing achievement gaps, and increasing graduation rates.
- Provide a framework of professional development for teaching and non-teaching staff to support student engagement and student success, relying on relevant research and literature.
- Promote a growth mindset for students through a combination of student involvement and high-impact practices and educational experiences that are relevant to the world today.
- Promote improvements in learning effectiveness and services that embrace our responsibility as a comprehensive college to serve students at all levels of preparation and achievement.

**Strategic Priority 2  GLOBAL ENGAGEMENT**

The College of Staten Island is committed to creating a campus that embodies global perspectives in all its endeavors and engaging students, faculty, and staff to become global citizens who are inextricably connected to the world. To instill in CSI students a sense of global social responsibility and action through local, national, and international engagement.

- Increase emphasis on global perspectives across the curriculum.
- Increase the presence of international students and scholars, and encourage meaningful exchanges and communications among members of the campus community with varied international knowledge and experiences.
- Promote and support research, scholarship, and creative activities on global issues.

- Strengthen the capacity of campus structures, including the Center for Global Engagement, to extend our global reach and perspectives.

**Strategic Priority 3 BOROUGH STEWARDSHIP**

The College of Staten Island is fully committed to advancing its role as a “Steward of Place” through direct, two-way interaction with the Staten Island community through the development, exchange, and application of knowledge, information, and expertise for mutual benefit in such areas as health and safety initiatives, educational partnerships, and economic and career/workforce development.

- Provide opportunities and encouragement for students to be involved in community service, volunteerism, and civic engagement.
- Advance the College’s standing as a cultural and intellectual center and a leader in public advocacy and discourse.
- Broaden the impact of faculty and student research and scholarship on the community.
- Advance a multi-dimensional, reciprocal approach to community development and partnership to identify and meet community needs, in such areas as health and safety initiatives, educational partnerships, and economic and career/workforce development.

**Strategic Priority 4 DESTINATION CAMPUS**

The College of Staten Island will be a destination campus: a preferred choice institution. Students, faculty, and staff will tell our story to various stakeholders, fostering a campus culture that supports and reflects the best of CSI, and cultivating relationships both on and off campus. We will enhance the physical beauty and natural surroundings through the preservation and improvement of the campus infrastructure, facilities, and safety features.

- Develop a first-choice mindset for students, faculty, and staff by more effectively “telling our story” about successes, unique qualities, signature programs, and best-selling features such as smaller classes.
- Identify and promote the special mix of attributes that make us a unique comprehensive institution located in New York City, through branding and communication of that image to stakeholders in a sustained and effective way.
• Embark on a campaign to develop an esprit de corps and promote school spirit among students, faculty, and staff.
• Create an environment, reflected both in our campus climate and physical surroundings, where students, faculty, and staff can thrive and meet their personal and/or professional goals. **Strategic Priority 5  SCHOLARSHIP-DRIVEN EDUCATION**

A Community of Scholars

Excellence in scholarship, research, and creative activities strengthens academic programs and provides the foundations for many “high-impact” scholarship-based student learning experiences. Opportunities for student engagement through undergraduate and graduate student research, artistic and creative expression, academic internships, and experiential learning, both in the curriculum and as part of campus life, will strengthen the value of the degree that students attain at graduation.

• Provide opportunities for students at all levels to engage in high-impact learning opportunities including faculty-mentored research, scholarship, and creative activities, and for experiential learning across the curriculum.
• Support the integration of faculty research, scholarship, and creative activities into teaching and campus life to enhance student learning and faculty engagement through professional development, recognition, and resources.
• Build a strong and effective infrastructure to support and recognize faculty, staff, and student scholarship and research, through institutional and research funding opportunities and provision of venues in which such activities may be shared with campus and public audiences.
• Ensure access to essential and specialized tools of research – such as dedicated research and experiential learning areas, collaborative spaces, and, most especially, the Library – to enable our students, faculty, and College community to engage in up-to-date and responsive scholarship. **Strategic Priority 6 RESOURCE MANAGEMENT**

Aspirations and Resources Aligned

The College of Staten Island has received recognition for its signature high-quality, low-cost education. As a steward of public resources, the College will be deliberate regarding how and where it invests its funds, on conserving resources, and being more creative in developing and maintaining revenue streams and aligning resource allocations to strategic priorities.

• Invest in applications that will facilitate improved analytic capability of financial, academic, and enrollment data sources to support informed decision making and resource allocation.
• Leverage technology to improve efficiencies, workflows, and productivity.
• Diversify funding streams by strategically incorporating resources from related entities (Auxiliary Services, the Foundation, the Association, and the Research Foundation) in support of the College Mission.
• Align budget and campus resources strategically with faculty and staff recruitment initiatives. Identify gaps in systems and staffing, and invest in resources to address these gaps.

**Research Institutes and Centers**

**Center for Developmental Neuroscience and Developmental Disabilities**
Dr. Alejandra Alonso, Director

The Center for Developmental Neuroscience and Developmental Disabilities (CDNDD) is a CUNY Center that conducts, promotes, and sponsors research, education, and training in the developmental neurosciences with special emphasis on research and educational programs in the specific field of developmental disabilities. The Center serves as a hub for collaborative efforts between the College and other research institutions in offering a Master of Science degree in Neuroscience and Developmental Disabilities, and also partnering with the CUNY Doctoral programs in multiple disciplines in mentoring Ph.D. students. On the CSI campus, the Center has established research laboratories for investigations in cellular, molecular, behavioral, and clinical neuroscience and provides advanced research training for graduate and undergraduate students.

**Center for Environmental Science**
Dr. Alfred M. Levine, Director

The Center for Environmental Science, established in 1987, provides support for research and policy recommendations concerning environmental problems. One of the major purposes of the Center is to define and solve environmental problems on Staten Island and its environs through research that includes studies of respiratory diseases, toxic and carcinogenic chemicals in the air, and the population at risk for lung cancer.

**Center for the Study of Staten Island: Staten Island Project (SIP)**
Dr. Richard Flanagan and Dr. Jonathan Peters, Co-Directors
The Center for the Study of Staten Island is designed to integrate the work of the College with the public affairs concerns of the people of Staten Island. To that end, it mediates and facilitates the collaboration of the College's faculty, students, and staff with government, civic organizations, and businesses in order to identify and assist in finding solutions to the borough's pressing public issues. More specifically, the Center serves as an information and consultation resource to prepare citizens and leaders to make better informed decisions about public life; it fosters the development of faculty research and undergraduate and graduate education through engagement with the Staten Island community; and it builds bridges to other public affairs institutes and local communities as a spur to innovations in public life on Staten Island. Whenever possible, the Center seeks to partner with community groups and agencies in advancing initiatives of mutual interest and in fulfilling consonant missions.

While encouraging and facilitating debate that accommodates differing and sometimes conflicting positions on controversial issues crucial to the community, the Center is committed to maintaining a nonpartisan stance.

Center for Interdisciplinary Applied Mathematics and Computational Sciences

The Center for Interdisciplinary Applied Mathematics and Computational Sciences brings together a wide range of research faculty and students with interests in interdisciplinary applications of mathematics and computational science.

The Center’s activities include the use of the campus supercomputer, faculty collaboration, grant writing, student mentoring, undergraduate research, and sponsored lectures. More information can be found at Center for Interdisciplinary Applied Mathematics.

CUNY High Performance Computer Center (HPCC)

Building (1M) Room 206

The CUNY High Performance Computing Center (HPCC) advances the University’s educational and research mission by providing high-performance computing technology resources and technical assistance to CUNY faculty and students. The HPCC has a central role in the support of initiatives and sustaining intellectual growth by interacting with local and regional industries as well as the scientific community. Across the University, researchers have achieved significant accomplishments and published works using the HPCC. More information can be found at CUNY High Performance Computing Center.

Accreditation

The College of Staten Island is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104; 267.284.5000. The Commission is a voluntary, non-governmental membership association that defines, maintains, and promotes educational excellence across institutions with diverse missions, student populations, and resources. It is recognized by the U.S. Secretary of Education and the Commission on Recognition of Postsecondary Accreditation.

The Bachelor of Science in Chemistry and Biochemistry is accredited by the American Chemical Society (ACS), 1155 Sixteenth Street, NW, Washington, DC 20036; 800.227.5558.

The Bachelor of Science Computer Science is accredited by the Computing Accreditation Commission (CAC) of ABET.

The Education Programs are accredited by the National Council for Accreditation of Teacher Education (NCATE), 2010 Massachusetts Ave NW, Suite 500, Washington, DC 20036, 202.466.7496.

The Bachelor of Science in Engineering Science is accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET) http://www.abet.org., 111 Market Place, Suite 1050, Baltimore, MD 21202-4012.

The Bachelor in Science in Electrical Engineering is accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology, Inc. (ABET) http://www.abet.org., 111 Market Place, Suite 1050, Baltimore, MD 21202-4012.

The Master of Arts in Clinical Mental Health Counseling is accredited by the Masters in Psychology and Counseling Accreditation Council (MPCAC), www.mpcaaccreditation.org, 595 New Loudon Road, #265, Latham, NY 12110, 518.785.1980.

The Nursing Programs are accredited by the Accreditation Commission for Nursing Education (ACEN) http://www.acenursing.org, 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, 404.975.5020.

The Doctorate in Physical Therapy is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, VA 22314-1488; 703.706.3245 accredits the Physical Therapy program.

The Bachelor of Science in Social Work is accredited by the Council on Social Work (CSWE), 1701 Duke Street, Suite 200, Alexandria, VA 22314; 703.683.8080.
The Master of Social Work is accredited by the Council on Social Work (CSWE), 1701 Duke Street, Suite 200, Alexandria, VA 22314; 703.683.8080.

The Master in Art in Liberal Studies is accredited by the Association of Graduate Liberal Studies Programs (AGLSP), c/o Duke University, Box 90095, Durham, NC, 27708; 919.684.1987.

The Bachelor of Science degree in Medical Technology program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) and utilizes hospital affiliations accredited by NAACLS, 5600 N. River Road, Suite 720, Rosemont, IL 60018-5119; 847.939.3597.

The CSI Counseling Center is accredited by the International Association of Counseling Services (IACS)

Copies of these accreditation documents, as well as the respective accreditation documents for the various academic disciplines, are available for review through the Office of Academic Affairs.

The Campus

Completed in 1994, the 204-acre campus of CSI/CUNY is the largest site for a college in New York City. Set in a park-like landscape, the campus is centrally located on Staten Island. Mature trees and woodlands, flowering trees and ornamental plantings, fields and outdoor athletic facilities, the great lawn, sculpture, and seating areas create a rural oasis in an urban setting.

Fourteen renovated neo-Georgian buildings serve as classrooms, laboratories, and offices. The academic buildings house 300 classrooms, laboratories and instructional spaces, study lounges, department and program offices, and faculty offices.

North and South Academic Quadrangles are connected by the Alumni Walk, with the Library and Campus Center as focal points. The Center for the Arts is located midway between the Quadrangles at the fountain plaza. The Sports and Recreation Center and the athletic fields are located near the main entrance to the campus.

Sixteen works of art, a permanent collection of works either commissioned or purchased through the Art Acquisitions Program of the Dormitory Authority of the State of New York, are installed throughout the campus. The artists and their free-standing sculptures and reliefs are: Vincenzo Amato, Body of Hector/Glaucus; Miriam Bloom, Shooliloo; Fritz Bultman, Garden at Nightfall (extended loan); Chryssa, Untitled; Lucille Friedland, Big Stride (gift of the artist); Red Grooms, Marathon; Sarah Haviland, Staten Island Arch; Jon Isherwood, Borromini’s Task; Zero Higashida, Maquette for a Small Universe; Valerie Jaudon, Untitled; Niki Ketchman, Red Inside; Win Knowlton, Ellipse; Mark Mennin, Torak; Don Porcaro, Moon Marker; and Hans Van de Bovenkamp, Stele in the Wind.

Astrophysical Observatory: The 16-foot dome astrophysical observatory was completed in 1996. In addition to serving students in astronomy courses, the facility is used for faculty and student research projects, environment monitoring projects, and community programs.

Biological Sciences/Chemical Sciences Building: An ultramodern facility, the building contains classrooms, laboratories, faculty offices, research facilities for faculty and students, the Center for Environmental Science, and the Center for Developmental Neuroscience and Developmental Disabilities.

Campus Center: The Campus Center provides facilities for a complete student life including offices for student organizations, food services, health services, a study lounge, bookstore, and the studios of WSIA-FM, the student-operated radio station.

Center for the Arts: Entered from the Great Lawn and from the Alumni Walk, the Center houses two academic wings for programs in the arts as well as superb public spaces: the Clara and Arleigh B. Williamson Theatre, a 900-seat concert hall, a recital hall, an experimental theater, lecture halls, an art gallery, and a small conference center.

Library: Designed with inviting reading rooms, open shelves, and study carrels, the Library research and study facilities are enhanced by computer data-based operations available to all students. The Library Media Services make accessible pedagogical multimedia materials to distant classrooms and laboratories by means of the campus fiber-optic network.

Sports and Recreation Center: This 77,000 square-foot multipurpose facility and surrounding athletic fields serve the intercollegiate and intramural sports and recreation programs for students. On a membership basis, faculty, staff, alumni, and the general public also have access to the facilities.
Admissions
Office of Recruitment and Admissions
Director, Emmanuel Esperance, Jr.
Building 2A, Room 103
718.982.2010
Visit our Website: www.csi.cuny.edu/admissions

Procedures for admission as a first-year or transfer student from another college are outlined below. Campus tours are available Thursdays at 3:30pm, by appointment only, for prospective students and their guests. In addition, special on-campus programs and open houses are scheduled each semester. Students are also invited to visit particular departments by request.

Matriculated and Non-Degree (Non-Matriculated) Students
Students are classified into two groups according to their enrollment status: matriculated and non-degree. Matriculated students are those who have met the College admission requirements and are enrolled in a program of study leading to a degree. Non-degree (non-matriculated) students are those who are enrolled for credit courses but who are not officially registered in a degree program. Credits earned as a non-matriculated student may later be transferred to a degree program.

Students may enroll as candidates for the bachelor’s degree or the associate’s degree. Bachelor’s degree programs are designed to be completed in four years and associate’s degree programs in two years. The programs for the junior and senior years of study, upper-division programs, are structured for smooth articulation for students graduating with associate’s degrees and students transferring from community colleges. The College has also developed auxiliary and pre-entry programs with support systems for those students returning to the classroom after an interruption in their education and for the not-so-recent high school graduate.

Academic Requirements for Admission to Bachelor’s Degree Programs (Four-Year)
Freshman Admission to Bachelor’s Degree Programs
1. An applicant for admission to a bachelor’s degree program must pass the three CUNY Assessment Tests, unless he/she qualifies for exemption based on a satisfactory performance on the SAT or ACT standardized tests or Regents Examinations.
2. Admission to a bachelor’s degree program is determined by an applicant’s score on the College’s admissions index. The index is based on the applicant’s high school courses and academic average and the combined verbal and mathematics SAT scores. An applicant whose score reaches or exceeds the College’s minimum index number will be admitted to a bachelor’s degree program. A faculty admissions committee may consider the baccalaureate admission of applicants whose scores approach the College’s minimum index number.

Applicants who are not admitted to a bachelor's degree program may be eligible for admission to an associate's degree program (p. 12) at the College.

Transfer Students Admission to Bachelor’s Degree Programs
Students are encouraged to continue in bachelor’s degree programs from associate’s degree programs at CSI, and they may also transfer from other colleges and universities into bachelor’s degree programs. Students must have passed the CUNY Assessment Tests in mathematics, writing, and reading prior to enrolling in a bachelor’s degree program. Final degree credit for transfer work depends on grades earned and College and departmental requirements. With some exceptions, a course with a grade of C or higher may be transferred. In the case of transfers from CUNY colleges, D grades are usually acceptable. Transfer credits carry a grade of Pass (P) on the CSI transcript. Transfer students from other CUNY colleges are encouraged to visit CUNY’s online Transfer Information and Program Planning System (CUNY TIPPS) at www.tipps.cuny.edu for information about transfer credits.

Based on University policy, all liberal arts and sciences courses taken in one City University college are considered transferable, with full credit, to each college of The City University, and full credit will be granted for these courses in all departments and programs and recognized for the fulfillment of degree requirements. See section on Pathways General Education Requirements for details on transfer of courses in this category.

Students must earn a minimum of 30 credits at the College and, to qualify for a bachelor’s degree, at least half of the credits required for the major. Students who transfer with 30 or fewer credits must complete 12 College Option credits. Students who transfer with more than 30 credits but without an Associates Degree must complete a maximum of 9 College Option credits. Students who transfer with a completed Associates Degree must complete a maximum of 6 College Option credits.

Work completed at other colleges may be used to fulfill Pathways General Education and other requirements. The Office of the Registrar will evaluate each student’s transcript. Every effort will be made to apply the course
work previously completed by transfer students to the
general education requirements at CSI.

In many programs, particularly in professional and scientific
disciplines, students are required to complete specific
courses before being considered for admission to these
programs. Generally, these courses are taken during the first
two years of study as necessary preparation for the advanced
work required. Students seeking admission to these
programs may have to spend additional time completing
pre-major courses.

Academic Requirements for Admission to
the Macaulay Honors College

Students who are entering college for the first time may
apply for admission to the Macaulay Honors College of
CUNY at the College of Staten Island. Applicants are
expected to have an academic diploma with an average of at
least 90. The admissions committee for the Macaulay
Honors College considers the following documents
submitted by applicants: high school transcript; scores on
Regents Examinations; scores on the SAT, ACT, and
achievement tests; Advanced Placement courses;
extracurricular activities; evidence of talents and interests;
letters of recommendation; and personal essay. Personal
interviews are also required. Admission is limited and
competitive. Details on the Macaulay Honors College
University Scholars Program admission process are
available online at: www.csi.cuny.edu/honorscollege/.

Academic Requirements for Admission to
the Teacher Education Honors Academy

Entering freshmen or students with less than 30
undergraduate credits may apply for admission to the
Teacher Education Honors Academy. Entering freshmen
are expected to have a high overall high school average (a
minimum of an 85 College Admissions Average); a college
preparatory program in science and mathematics; high
grades in mathematics and science courses; high Regents
scores in mathematics and science subjects; and high SAT
or ACT scores. Students with college credits must have a
college GPA of 3.0. All candidates must submit two
recommendations that include at least one from a math or
science teacher and must have a strong desire to be a teacher
in a New York City high school or middle school.

For information or an application, please call 718.982.3609.

Academic Requirements for Admission to
The Verrazano School

Entering freshmen or students with fewer than 11
undergraduate credits may apply for admission to The
Verrazano School at the College of Staten Island. Admission for these students to The Verrazano School is
based upon the following criteria:

- Verrazano Supplemental Application, including two
  letters of recommendation;
- Strong academic high school record;
- High SAT or ACT standardized test scores;
- Passing of, or exemption from, all three CUNY
  Assessment Tests;
- Acceptance to a baccalaureate program at CSI;
- Demonstration of leadership, community service,
  creativity, talent, and enthusiasm. Personal
  characteristics that will contribute to The Verrazano
  School community are also considered.

The Verrazano School also accepts applications from
transfer and current students who have accumulated more
than 11 credits and fewer than 36 undergraduate credits at
the conclusion of the term of their application. Admission to
The Verrazano School for current CSI students and transfer
students is based upon the following criteria:

- Verrazano Supplemental Application, including two
  letters of recommendation;
- Full time enrollment in a baccalaureate program at CSI;
- A minimum 3.0 cumulative GPA at CSI or another
  accredited institution.
- Passing of, or exemption from, all three CUNY
  Assessment Tests;
- Demonstration of leadership, community service,
  creativity, talent, and enthusiasm. Personal
  characteristics that will contribute to The Verrazano
  School community are also considered.

For information or an application, please visit
www.csi.cuny.edu/verrazanoschool or call 718.982.4171.

Academic Requirements for Admission to
Associate’s Degree Programs (Two-Year)

Freshman Admission to Associate’s Degree Programs

Applications for matriculation as a first-time student will be
accepted from persons who have never attended any
institution of higher education (with the exception of those
students who have taken college courses while in high
school) and who have either:

1. graduated from an accredited high school, or
2. earned an equivalency diploma (GED), or
3. are currently attending high school and will receive a
diploma prior to enrollment.
A diploma from an accredited high school is required for admission to the College. Scores on either the New York State Equivalency Diploma Examination or the General Education Development Examination are accepted as substitutes for the high school diploma provided that the student attains a score of 35 or higher on each of the five tests, with a total score of 225 or higher.

Starting in the Fall 2009 semester, in order to advance into nursing clinicals, students must provide documentation for one of the following categories:

1. United States citizenship
2. Permanent residency
3. International student with F1 status
4. Granted asylum, refugee status, temporary protected status, withholding of removal, deferred enforced departure; or deferred action status by the United States government

Transfer Student Admission to Associate’s Degree Programs

Applicants who have attended another college must file a transfer application. Applications for matriculation will be accepted from transfer students who have an official transcript verifying attendance at another college. As a general rule, the College requires a grade point average equivalent to a C for transfer as a matriculated student.

The Office of the Registrar will evaluate credits of transfer students for advanced standing. Final degree credit for transfer work depends on grades earned and College and departmental requirements. With some exceptions, a course with a grade of C or higher may be transferred. In the case of transfers from CUNY colleges, D grades are usually acceptable. Transfer credits carry a grade of Pass (P) on the CSI transcript. However, all students must complete a minimum of 30 credits at the College, including at least one-half of the credits required for the core, in order to earn an associate’s degree.

Starting in the Fall 2009 semester, in order to advance into nursing clinicals, students must provide documentation for one of the following categories:

1. United States citizenship
2. Permanent residency
3. International student with F1 Status
4. Granted asylum, refugee status, temporary protected status, withholding of removal, deferred enforced departure; or deferred action status by the United States government

Admissions Committee

An Admissions Committee of six members of the faculty and administrative staff considers all matters affecting the admission of students to the College of Staten Island, including academic requirements.

Filing an Application

Filing an Application

Applicants must apply online at www.cuny.edu. CSI has continuous admissions; however, applications should be filed early. Priority deadline for the Fall semester is February 1. Priority deadline for the Spring semester is September 15th.

Freshman Applicants

Freshman (first time) applicants are students who have not previously attended any college, university, and/or proprietary school within or outside the United States since graduating from high school or secondary school. Applicants are required to submit the following to be considered for admission to the College of Staten Island:

- Completed freshman application
- $65 application fee
- Official high school transcript
- Copy of high school diploma or high school equivalency diploma and scores
- SAT or ACT scores (required for entrance to baccalaureate programs)

Transfer Applications

Transfer applicants are students who have attended any college, university, and/or proprietary school since graduating from high school or secondary school. This applies whether or not the applicant is seeking transfer credit and/or changing program of study. Applicants are required to submit the following to be considered for admission to the College of Staten Island:

- Completed transfer application
- $70 application fee
- Official college transcript(s)
- Official high school transcript
- Copy of high school diploma or GED diploma and scores

Students must meet the standards of proficiency in the basic skills areas of reading, writing, and mathematics established by the University to transfer to a bachelor's degree program.
Non-Degree (Non-Matriculated) Applications

Non-matriculated (non-degree) students may obtain an Undergraduate Non-Degree application from Enrollment Services in Building 2A, Room 106; online at www.csi.cuny.edu/registrar/importantforms; or at the time of registration.

College Preparatory Initiative (CPI)

The College Preparatory Initiative (CPI), a collaborative effort between The City University of New York and the New York City Board of Education, was designed to strengthen the academic preparation of high school students. This requirement for all students entering CUNY colleges is 16 units. See section on Degree Requirements (p. 52) for complete details.

High school students should consult with guidance counselors to ascertain which courses meet the CPI requirements. GED students will receive units in English and mathematics based on their test scores. Students who have not completed the CPI requirements prior to enrolling in the University will be required to demonstrate skills and knowledge in the discipline areas in which they lack preparation. In most cases, this will be accomplished by taking college courses in designated academic areas. No student will be eligible for graduation from CSI until all CPI requirements are satisfied.

Advanced Placement

As of Fall 2018, the College will grant course credit for advanced placement courses offered in secondary school when students score 3 or higher on the advanced placement test. A maximum of 30 credits will be awarded on the basis of special examinations taken prior to admission. These include approved high school advanced placement examinations, Regents Examinations, Educational Testing Service examinations, Departmental Challenge examinations, New York State College Proficiency examinations, and the College Level Examination Program (CLEP). Further information is available from the Office of the Registrar and at http://www.csi.cuny.edu/transferguide/.

International Baccaulreate

The college will award 30 credits to students who have completed an International Baccalaureate (IB) diploma with a score of 30 or higher. Specific course credit will be awarded for exams with scores of 5 or higher, general credit will be awarded up to 30 credits after individual exams with 5 have been accounted for. Students who receive a score of 29 or less can be awarded credit for higher-level IB exams with scores of 5 or better. The credits awarded apply toward the overall number of credits required for graduation.

International Students

The Center for Global Engagement at CSI facilitates admission and registration for international students. The Center is located in the Building 2A, Room 206; telephone 718.982.2100 or visit our Website: www.csi.cuny.edu/international.

SEEK Program

SEEK Director Gloria Garcia, South Administrative Building (1A), Room 112
The SEEK Program (Search for Education, Elevation, and Knowledge) is a New York State program for residents who are in need of both academic and financial assistance in order to obtain a college education. Information about the program and the application process may be obtained from the SEEK Office, 1A, Room 112; telephone 718.982.2410 or visit our Website: www.csi.cuny.edu/seek.

After Acceptance to the College of Staten Island

After Acceptance to the College of Staten Island

Please visit the New Student Information Guide for detailed information. The Guide will lead you through the enrollment process, saving you time and enhancing your registration experience. Generally, the enrollment process will include:

• Completion of CUNY Assessment Tests and/or Placement Examination
• Payment of a commitment deposit
• Submission of immunization and medical records
• Orientation, academic advisement, and registration
  • Attend a mandatory two-day New Student Orientation which includes academic advisement and registration (freshmen only)
  • Meet with a Transfer Registration and Advisement Communication (TRAC) team member in the Center for Advising and Academic Success for advisement and registration (transfers only)
• Paying your bill

Other related services and possible enrollment steps include:
• Applying for financial aid (All students are strongly encouraged to file)
• Test preparation for the CUNY Assessment Tests
Conditional Admissions/Remediation Policy for Non-Exempt Students

The outcomes of the CUNY Assessments Tests may impact your admission status, enrollment in the immersion programs and at the college. Please be aware of the following enrollment requirements:

All students who have failed:

• parts 1 & 2 of the CUNY Assessment Test in Mathematics are required to complete CSI's free July Math Immersion program prior to enrolling at the College.

• the CUNY Assessment Tests in Reading, Writing and Mathematics (parts 1 & 2) must enroll in and complete at least one semester of the CUNY Start program and pass one or more of the Assessment Tests in order to enroll at the college. Such students may choose to enroll in the July Immersion Program and then continue in CUNY Start in the fall.

• the CUNY Assessment Tests in Reading and Writing, and have failed one part of the Mathematics Test must enroll in and complete Reading and Writing Immersion in the July and August sessions. Upon completing Immersion, these students must have passed the Reading and Writing Assessment tests in order to enroll at the College and must register for and complete Math 20 in the semester following Immersion. Students who have not passed both must enroll in CUNY Start.

Students who have failed the CUNY Assessment Tests in Reading and Writing but have passed at least one part of the Mathematics Test and decide not to enroll in Immersion must enroll in CUNY Start and cannot enroll at the College.

Admission of Sex Offenders

The College reserves the right to deny admission to any student if in its judgment, the presence of that student on campus poses an undue risk to the safety and security of the College or the College community. That judgment will be based on an individualized determination taking into account any information that the College has about a student's criminal record and the particular circumstances of the College, including the presence of a childcare center, a public school, or public school students on the campus.
Registrar
Office of the Registrar
Interim Registrar, Kerri Gerson
Building 2A, Room 110
718.982.2120
Visit our Website: https://www.csi.cuny.edu/students/registrar

The Office of the Registrar assists students in navigating the necessities of the school. The Office performs a variety of services both online and in person for students including: registration, transcript ordering, grade reporting, enrollment certification, final examination scheduling, the schedule of classes, academic calendars, transfer credit evaluation, degree audit, and graduation evaluation.

Registration
Students must register each semester using their CUNYfirst self-service account. Registration and appointment materials are sent by the Office of the Registrar prior to registration to all current, readmitted, and newly admitted students. Instructions for using CUNYfirst are also available online. An open registration period is scheduled at the beginning of each semester for students who miss their registration appointments or who are returning to CSI too late for an appointment to be scheduled.

Students who do not meet the course prerequisites will be unable to complete the registration process. Undergraduate course prerequisites could include any one or more of the following: matriculated or non-matriculated undergraduate student status; curriculum restrictions; completion of other courses; completion of other courses with a minimum grade; corequisite courses (which must be taken with the course); class or standing; and/or department/program approval/permission.

A detailed registration schedule and class listings and course information are available online each semester on the Registrar's website. Registration is not complete until all financial obligations have been satisfied.

Special Categories of Registration
Permit/Visiting Students
Permit students from within The City University must submit a valid CUNY permit through the ePERMIT system from their home college to the CSI Registrar’s Office prior to registration. Visiting students from outside The City University must submit the Visiting Student Application available online on the Registrar’s website along with documentation from their home schools that they have permission to enroll at CSI.

Undergraduate first-year students in Macaulay, and CUNY BA programs can take e-permit courses in their first semester, and throughout their college careers; other undergraduate students can start taking e-permit courses in their second semester and can continue thereafter. First semester transfer students may also take a course on ePermit, with eligibility based on the previous college GPA.

Senior Citizens
Senior citizens, 60 years and older, may be permitted to enroll in undergraduate courses as non-matriculated students, on a space-available basis, without tuition and fees, provided they do so on an audit basis. Senior citizens enrolling as auditors are charged an administrative fee and a Consolidated Service Fee for the semester as indicated in the Fee Schedule.

A senior citizen may enroll in courses for credit but cannot be enrolled in the same semester for courses on both an audit basis (no tuition) and a credit or degree basis (tuition charged).

Readmission
Undergraduate students who do not register for a semester and then decide to return in a subsequent semester must file an application for readmission with the Registrar. Readmission is routine unless the student is applying for a different curriculum, which may entail a review of qualifications. Applications may be filed online at https://www.csi.cuny.edu/students/registrar. Students who have been academically dismissed by the College will be readmitted only upon successful appeal to the Committee on Course and Standing. Please refer to the Counseling Center for further information on Readmission and Grade Appeals.

Immunization Requirement
New York State Public Health Law requires immunization against measles, mumps, and rubella for some students. All students born on or after January 1, 1957, who are enrolling for six or more equated credits, must have proof of immunization on file at the College Health Center, Campus Center (1C), Room 112, one week prior to registration. Transfer students must request that their health records be transferred to CSI. Information and the immunization forms are available at the Health Center and at the Registrar’s Office.

New York State Public Health Law 2167 requires that all college and university students be informed of the meningococcal disease, a potentially fatal bacterial infection commonly referred to as meningitis. The College of Staten
Island is required to maintain a record of the following for each student:

- A response to receipt of meningococcal disease and vaccine information signed by the student or if a student is under the age of 18, by the student’s parent or guardian. The information provided to you must include information on the availability and cost of meningococcal meningitis vaccine (Menomune™); 
  AND EITHER
- A record of meningococcal meningitis immunization within the past ten years;
  OR
- An acknowledgment of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student or if a student is under the age of 18, by the student’s parent or guardian.

Meningitis is rare. However, when it strikes, its flu-like symptoms make diagnosis difficult. If not treated early, meningitis can lead to an increase in fluid surrounding the brain and spinal column as well as severe and permanent disabilities, such as hearing loss, brain damage, seizures, limb amputation, and even death. Cases of meningitis among teens and young adults 15 to 24 years of age (the age of most college students) have more than doubled since 1991. The disease strikes about 3,000 Americans each year and claims about 300 lives. Between 100 and 125 meningitis cases occur on college campuses and as many as 15 students will die from the disease. A vaccine is available that protects against four types of the bacteria that cause meningitis in the United States: types A, C, Y, and W-135. These types account for nearly two-thirds of meningitis cases among college students. The College of Staten Island does not offer meningococcal immunization. The meningitis vaccine is provided at the New York City Department of Health Travelers’ clinics, wwwnc.cdc.gov/travel/contentFindClinic.aspx. The meningitis vaccine may or may not be covered by insurance. The vaccine cost is approximately $75. The Ryan Chelsea Clinton Community Center, 645 Tenth Avenue (between 45th and 46th) New York, NY 10036, 212.265.4500, offers the meningitis vaccine at a low and affordable cost. Note: Per public health law, the College may not permit any student to attend the institution in excess of 30 days without complying with this law.

To learn more about meningitis and the vaccine, please consult your physician. You can also find information about the disease at:

The College Health Center’s Website:
https://www.csi.cuny.edu/campus-life/student-services/health-and-wellness-services

New York State Department of Health Website:

I.D. Cards

Each student will be provided with a photo identification card. Each semester the I.D. cards are validated upon completion of registration. Validated I.D. cards must be carried by a student on campus at all times. Duplicate I.D. cards are available at a cost of $5.
Tuition and Fees
Bursar, Michael D. Baybusky
Building (2A), Room 105
718.982.2060
Visit our Website: https://www.csi.cuny.edu/admissions/paying-college/bursar

All tuition and fees listed in this Catalog and in any registration materials issued by the College are subject to change without prior notice by action of the CUNY Board of Trustees.

All tuition and fee schedules are necessarily subject to change without notice, at any time, upon action by the Board of Trustees of The City University of New York regardless of tuition and fee schedules in effect at the time of this printing.

If you do not make full payment on your tuition and fees and other college bills and your account is sent to a collection agency, you will be responsible for all collection costs, including agency fees, attorney fees, and court costs, in addition to whatever amounts you owe the College.

In addition, non-payment or a default judgment against your account may be reported to a credit bureau and reflected in your credit report.

Payment
Students are responsible for all Tuition and Fee payments based upon their registration. Once a student registers for a semester they are considered to be enrolled at the college unless they officially withdraw through the Registrar’s Office. If a student does not officially withdraw prior to the start of the semester they are responsible for all tuition and fee charges based upon the CUNY’s academic calendar regardless of their class attendance. Any student that does not pay their bill in full by their due date is subject to removal from their classes at the discretion of the College.

Senior Citizens
Individuals satisfying the New York City/State residency requirements and who are 60 years of age or older (as of the first day of the semester or session) are permitted to enroll in undergraduate courses on a space-available basis. Proof of age is required by the College; the following forms of proof of age are acceptable: Medicare card, driver’s license, or birth certificate.

Administrative fee: A non-refundable administrative fee of $65 per semester or session is charged senior citizens who are enrolling on an audit basis. The application fee and Student Activity Fee are not charged. Senior citizens as students are responsible for the Consolidated Service Fee and any other fees they might incur.

Undergraduate courses: For senior citizens enrolled in undergraduate courses, tuition will not be charged provided credit is not given for the course(s). Senior citizens are preceding the first day of classes for the semester under consideration, and state their intention to live permanently and maintain their principal place of abode in New York State. The residence of a person under the age of 18 is that of his/her parents unless the person is an emancipated minor (one whose parents have intentionally and voluntarily renounced all the legal duties and surrendered all the legal rights of their position as parents). Students currently classified as non-residents, who wish to apply for resident status, must present proof that the above conditions have been met to the Office of Admissions or the Office of the Registrar.

Student Status
Full-Time and Part-Time
Undergraduate students are considered part-time if they are registered for 11 equated credits or less. A student is considered full-time if registered for 12 or more equated credits in a semester. Students applying for TAP should see the requirements for TAP eligibility on the Office of Financial Aid's website.

Part-time undergraduate matriculated students are charged the tuition rate on a per equated credit basis (1-11 equated credits).

Undergraduate full-time students are charged tuition on a per semester basis; undergraduate non-resident full-time students are charged tuition on a per equated credit basis.

Summer session and non-degree students are billed on a per equated credit basis regardless of the number of equated credits for which they register. There are no maximum tuition limits for summer session or non-degree students.

Non-degree students (as of June 1, 1992) pay a higher rate than matriculated students.

Place of Residence
Students are eligible for the tuition rate for residents of New York State if they meet the following requirements for resident status: are 18 years of age or older, are United States citizens or aliens with permanent resident status, have maintained their principal place of abode in New York State for a period of 12 consecutive months immediately preceding the first day of classes for the semester under consideration, and state their intention to live permanently and maintain their principal place of abode in New York State. The residence of a person under the age of 18 is that of his/her parents unless the person is an emancipated minor (one whose parents have intentionally and voluntarily renounced all the legal duties and surrendered all the legal rights of their position as parents). Students currently classified as non-residents, who wish to apply for resident status, must present proof that the above conditions have been met to the Office of Admissions or the Office of the Registrar.
enrolled on an audit basis and will receive an AUD grade. Senior citizens who wish to enroll for credit must pay the applicable tuition and fees, including the application fee and the Student Activity Fee. Senior citizens cannot be registered on both an audit basis (no tuition) and a credits basis (tuition charged) during the same semester.

Graduate courses: Senior citizens are not permitted to register free of tuition or fee for graduate-level courses. Senior citizens may register for graduate courses on a space-available basis and are charged the graduate tuition rate regardless. No exception is made for matriculated or non-matriculated status. The Student Activity Fee and application fee must also be paid.

*Academic Excellence Fee is applicable to all Graduate Nursing Programs.

**Rate for full-time resident continuing students (enrolled prior to academic year 2017-2018).

***Rate for full-time resident students in the cohort entering academic year 2017-2018.

The last date for submitting documentation for a residency status change for tuition billing purposes is the last day of final examinations (see the academic calendar located on the Registrar's home page).

**Matriculated Status**

If a student’s matriculation status changes on or after the first day of classes, the lower matriculation tuition charge will not be effective until the next semester’s registration. No refunds will be issued for the semester in which the reclassification occurs. Students who have satisfied their baccalaureate degree requirements (graduated) and wish to take additional credits beyond the degree will automatically be coded non-degree and charged the higher non-degree rate per credit, unless they have filed for a second undergraduate degree in the Registrar’s Office by the last business day before the first day of classes.

**Non-Instructional Fees**

Fees are subject to change without prior notice by the CUNY Board of Trustees.

Transcript $7 each (except for copies going to other CUNY colleges for which there is no charge). Check or money order only.

Reprocessing $15 for bad checks

Duplicate Bill $5

Maintenance of Matriculation NYS Resident $220 per semester for matriculated graduate students who do not wish to register for courses during the current semester

Maintenance of Matriculation NYS Non-Resident $360 per semester for matriculated graduate students who do not wish to register for courses during the current semester

Duplicate Diploma $15

Duplicate ID Card $5

Duplicate Record $5

Special Examination $25 for the first; $5 each additional examination

*Included in the Student Activity Fee is the NYPIRG ($4) fee.

Library Fines

Overdue books: General circulation: 10 cents per day, including days on which the Library is closed, to a maximum of the current price of the item.

Reserve items: $1.20 per overdue hour to a maximum of the current price of the item.

Damaged book: Borrower must pay any overdue fines up to and including the date the item is reported as being damaged, plus an amount to be determined by the nature and extent of the damage, not to exceed the current price of the item, plus a processing charge of $10.

Lost item: Borrower must pay a $10 processing charge in addition to the current price of the item.

Tuition and Fee Refunds

When courses are canceled by the College, a full refund of appropriate tuition and fees will be made. In cases of student-initiated withdrawals, the date on which the withdrawal application is received by the Registrar, not the last date of attendance, is considered the official date of withdrawal for the purpose of computing refunds. Withdrawal from a course before the beginning of classes allows a 100 percent refund of tuition and the CUNY accelerated study fee; and withdrawal from the College in order to register at another unit of The City University during the same semester allows a 100 percent refund of tuition and the CUNY accelerated study fee. Information about refunds for withdrawal under other circumstances is shown in the Academic Calendar located on the Registrar’s home page. Class non-attendance, informing the instructor of withdrawal, or altering the bill to indicate intention to drop a course DOES NOT constitute an official withdrawal. If a portion of the tuition has been paid with federal financial aid funds, that portion of any tuition refund is returned to the appropriate financial aid program.

Students should be aware that withdrawal or failure to complete a course affects their financial aid obligations. Questions about financial aid obligations should be referred to the Office of Financial Aid.

Except for the NYPIRG portion of the Student Activity Fee, there are no fee refunds. The NYPIRG amount ($4) is refundable through the NYPIRG Office only.

Return of Title IV Funds

Title IV (Pell, SEOG, Direct, and Perkins Loans) recipients who withdraw from all courses, officially or unofficially, are subject to a calculation to determine earned Federal aid. The amount for which the student is responsible is calculated as follows:

- The amount is based on the percentage of time the student remained enrolled.
- The calculation is done using the same percentages that are used for determining eligibility for Federal aid.
- The amount is subtracted from any Federal aid the student received during the academic period.
- The amount is returned to the appropriate Federal aid program.

Material Fees

Special material fees of $10 or more are required in some courses and subject to change at any time by the Board of Trustees of The City University of New York. (Materials charges are not refundable).
Financial Aid. This calculation may require a payment toward tuition and fees that previously were determined to have been satisfied.

Medical Withdrawals

Medical withdrawals, which must include documentation from a physician, should be addressed to the College Health Center. Medical withdrawals are subject to the regular College refund policy. Refer to the Registrar's website for more details.
Financial Aid

Student Financial Aid Office
Building 2A, Room 401
Director, Philippe Marius
Telephone: 718.982.2030
Fax: 718.982.2037
E-mail: FinancialAid@csi.cuny.edu
Website: https://www.csi.cuny.edu/admissions/paying-college/financial-aid

The mission of the Office of Student Financial Aid of the College of Staten Island is to facilitate students’ access to public and private financial assistance programs for post-secondary education. The Office assists students and their families in applying for aid and aims to generate delivery of aid funds to students most expeditiously within all applicable rules, regulations and procedures of funding entities, CUNY, and the College.

For more information about the financial aid application process and eligibility requirements, please visit our website at https://www.csi.cuny.edu/admissions/paying-college/financial-aid or contact us by email FinancialAid@csi.cuny.edu.

Service Hours:
Enrollment Services
Building 2A, 1st Floor
Monday, Tuesday, Wednesday, Friday: 9:00am–4:45pm.
Thursday: 9:00am-7pm.
Scholarships and Awards

Scholarship Committee
Director, Caryl Watkins
Career and Scholarship Center
Building 1A, Room 105
718.982.2300
Website: www.csi.cuny.edu/career

The scholarship program at the College of Staten Island recognizes academic excellence and college or community service. In addition to scholarships offered directly by the College, the CSI Foundation, and departments and associations of the College, memorial scholarships have been endowed through the generosity of many individuals and organizations who value higher education. Scholarships support, in varying ways, the education of the men and women of our community.

Eligibility: General Standards

Scholarship awards generally require a minimum grade point average of 3.5. College and/or community service is also generally required. Financial need is required only when indicated. Scholarships are awarded to students enrolled for 12 or more credits at all levels of study—first-year students, sophomores, juniors, and seniors. Some scholarships may be available for part-time undergraduate and graduate students.

Requirements

• Registered for at least 12 credits (matriculated), with the exception of a few specialized scholarships for part-time and graduate students.
• Academic excellence (GPA 3.25 or above).
• School and/or community service.
• Incoming students: high school average of 95% or above.

Relationship to Financial Aid

In most instances, scholarship awards do not affect TAP awards. New York State TAP regulations require that tuition-based scholarships be used as a resource in determining eligibility for a TAP award. Because most of the awards offered by CSI are not designated as tuition scholarships, they will have no effect on TAP awards. Only awards specifically designated as tuition awards, such as the Williamson Scholarship, affect eligibility for TAP. Students who wish additional information on the relationship between these awards and financial aid should contact the Office of Student Financial Aid.

How to Apply

Scholarship applicants must be current students at the College of Staten Island or must have applied for admission. Application forms and information about scholarships are available online or from the Career and Scholarship Center and academic departments and student services offices. In the high schools, application forms are available from the College Advisor. The scholarship application can also be found online by visiting www.csi.cuny.edu/career and clicking on the Scholarships and Awards option in the left tool bar.

Notification to Recipients

Applicants are notified by the Scholarship Committee. An awards ceremony and reception is held every year for scholars and their family and friends.

Other Awards

Study Abroad: Scholarships and awards for study abroad are available through the Center for International Service. CSI students are also eligible for Study/Travel Opportunities for CUNY Students grants, a CUNY program promoting short-term (summer or January inter-session) study abroad, and for scholarships offered by the College Consortium for International Studies. Information is available from the Center for International Service.

Graduate Students: Assistance is available in the form of financial aid and assistantships to selected students in Master’s degree programs in Adult Health-Gerontological Nursing, Biology, Cinema and Media Studies, Computer Science, Education, English, Environmental Science, History, Liberal Studies, and Physical Therapy. Graduate fellowships and assistantships are available to qualified students enrolled in doctoral programs offered in conjunction with the Graduate School. See the department chairperson or the graduate program coordinator for further information.

Commencement Awards: Awards and prizes have been established by the faculty to recognize the exceptional achievements of graduating students. Information on Commencement awards is available from the Office of the Vice President for Student and Enrollment Services and from department chairpersons.
Academic Policies and Procedures

This chapter covers the College’s general academic policies and policies that govern the academic standards and requirements to maintain matriculated status and to qualify for a degree.

Academic Freedom

The City University subscribes to the American Association of University Professors 1940 Statement of Principles on Academic Freedom, and the College of Staten Island respects academic freedom for faculty and students as well as freedom in their personal lives for all individuals in the campus community.

Academic Integrity, Plagiarism, and Cheating

Integrity is fundamental to the academic enterprise. It is violated by such acts as borrowing or purchasing assignments (including but not limited to term papers, essays, and reports) and other written assignments, using concealed notes or crib sheets during examinations, copying the work of others and submitting it as one’s own, and misappropriating the knowledge of others. The sources from which one derives one’s ideas, statements, terms, and data, including Internet sources, must be fully and specifically acknowledged in the appropriate form; failure to do so, intentionally or unintentionally, constitutes plagiarism.

Violations of academic integrity may result in a lower grade or failure in a course and in disciplinary actions with penalties such as suspension or dismissal from the College. More information on the CUNY policies on Academic Integrity can be found in Appendix iii (p. 371).

Academic Standing

Credit Load

<table>
<thead>
<tr>
<th>Fall and Spring Semesters</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students may attend full-time or part-time as either matriculated or non-degree students. They may attend day, evening, or weekend sessions in any combination. A full-time student is one registered for 12 or more equated credits in a semester; six must be degree credits (three in the case of first-time freshmen). Equated credits are generally the same as degree credits except for courses below the 100 level. In courses below the 100 level, equated credits are equivalent to the contact hours of the course.</td>
</tr>
</tbody>
</table>

Students with a GPA of 3.1 - 3.49 are permitted to register for 20 credits. Students with a GPA of 3.5 - 4.0 are permitted to register for 22 credits. Students with less than a 3.0 (B) average and/or fewer than 30 credits who wish to take more than 18 credits must request permission. If students wish to request exemptions to the policy (e.g. requesting more credits than GPA would permit), the Registrar’s office will direct the student to her/his major department chair, program coordinator, or embedded advisor for consideration. Students majoring in Business will be directed to the Dean’s Office of the School of Business. The Honors’ program coordinators will make decisions about overloads for their students. Students who have not declared a major will be sent to CAAS.

Summer and Winter Sessions

For summer session, students may register for a total of eight credits (two courses). Students with a 3.0 GPA, or above, may register for more than two courses, in total, and may register for two in the same session. For winter session, students may register for only one course. For winter session, students with a 3.0 GPA, or above, may register for two courses.

Class or Standing

Class, or standing, as freshman, sophomore, junior, and senior is determined by the number of credits completed:
College of Staten Island Undergraduate Catalog 2018-2019

Lower Freshman  0-14.9 credits completed
Upper Freshman  15-29.9 credits completed
Lower Sophomore 30-44.9 credits completed
Upper Sophomore 45-59.9 credits completed
Lower Junior  60-74.9 credits completed
Upper Junior  75-89.9 credits completed
Lower Senior  90-104.9 credits completed
Upper Senior  105-120+ credits completed

Standing is sometimes listed as a course prerequisite.

Dean’s List
A matriculated undergraduate student, full-time merits inclusion on the annual dean’s list by: Attaining a GPA of 3.5 or above during the preceding academic year, provided at least 12 credits were earned in the fall semester and 12 credits were earned in the spring semester. Only credits earned at the College of Staten Island will enter the computation. Students who have received a grade of INC, F, P, WN, or WU during the period under consideration are not eligible.

Committee on Course and Standing
The Committee on Course and Standing is chaired by the Vice President for Academic Affairs or a designee; and its membership consists of the Registrar and one member of the faculty from each instructional department. In addition to reviewing student records, the Committee considers student appeals related to readmission, and graduation.

Students can petition the Committee through an appeals counselor in the Division of Student and Enrollment Services. The appeals counselors, whose names are available through the Registrar’s Office, will advise the students in the preparation of their petition, which will then be referred to the Committee.

Minimum GPA
Students are expected to maintain a minimum GPA of 2.0 (C) throughout their academic careers at the College. Whenever a student’s GPA falls below 2.0, the student’s record will be reviewed by the Committee on Course and Standing. Students must achieve a GPA of 2.0 in the courses in the core or major requirements; some majors require a higher minimum GPA.

Academic Standards Policy
At the end of each semester, students must meet the following academic standards:

<table>
<thead>
<tr>
<th>Credits Attempted</th>
<th>Minimum Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-12</td>
<td>1.50</td>
</tr>
<tr>
<td>13-24</td>
<td>1.75</td>
</tr>
<tr>
<td>25-above</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Academic Warning
Students with 0 to 24 credits attempted will be placed on academic warning if they meet the academic standards (above) but fail to achieve a 2.00 grade point average.

Academic Probation
Students will be placed on academic probation if their grade point average falls below the minimum grade point average for the number of credits attempted: 0-12 attempted credits, 1.50 grade point average; 13-24 attempted credits, 1.75 grade point average; 25 credits-above, 2.0 grade point average.

Students on academic probation who meet the College’s academic standards at the end of the probation semester will be removed from academic probation. Students on academic probation will not be dismissed but automatically continued on probation as long as they achieve a grade point average of 2.5 or better in both the fall and spring semesters immediately prior to dismissal or a grade point average of 2.75 in either of those semesters until they have reached the required minimum grade point average. Students who fail to achieve the minimum 2.5 grade point average for any semester while on probation will be dismissed.

Students on academic warning or academic probation may not register for more than 14 credits a semester. Summer session students may not register for more than a total of nine credits in the summer session (two courses plus PED 190).

Academic Dismissal
Students who do not meet the academic standards outlined above at the end of the probation semester will be dismissed from the College.

Readmission after Academic Dismissal
Students dismissed from the College for failure to meet the standards set forth in this policy may apply for readmission after a separation from the College of at least one fall or spring semester. Students who apply for readmission after this separation period must have their application reviewed by the Committee on Course and Standing. Students wishing to apply for readmission should obtain information from the Counseling Center, Building 1A, Room 109.

College Credit Examinations
International Baccalaureate

The college will award 30 credits to students who have completed an International Baccalaureate (IB) diploma with a score of 30 or higher. Specific course credit will be awarded for exams with scores of 5 or higher, general credit will be awarded up to 30 credits after individual exams with 5 have been accounted for. Students who receive a score of 29 or less can be awarded credit for higher-level IB exams with scores of 5 or better. The credits awarded apply toward the overall number of credits required for graduation.

Credit-by-Examination

External Agencies:

The College will grant matriculated students a maximum of 30 credits on the basis of, among others, the following: Advanced Placement Courses (AP), Regents College Examinations, American College Testing Proficiency (ACT-PEP), and College Level Examination Programs (CLEP).

The College grants credit for designated CLEP General Examinations. For CLEP introductory subject exams with separate essay test, the College requires that students take both the multiple-choice objective test and the separate essay test. Award of credit is based on performance on both parts of the subject exam. In order to receive credit, students must pass the subject examinations with a scaled score in at least the 50th percentile and minimally equivalent to a passing grade of C.

Academic departments or programs may authorize the assignment of specific course equivalents for credit-by-examination through outside agencies. Otherwise, such credits will be acceptable only as elective credits. Credits granted by examination through outside agencies will appear on student records appropriately identified by type of exam, subject, number of credits, and P (passing) grade. No credit will be awarded for a subject area examination in which the student has already taken an equivalent college course or completed a higher-level, more advanced college course. Based on faculty review and recommendations, the Office of Recruitment and Admissions monitors and coordinates the awarding of credit by examinations taken through outside agencies and the implementation of uniform College policy on credit-by-examination.

Departmental Challenge Examinations

At the discretion of academic departments or programs, students may take departmental challenge examinations to demonstrate college-level competency in courses that have not been taken at CSI (or at any other college), and for which no credit has already been received.

Experiential Learning

Matriculated students who have completed 15 credits may receive a maximum of 15 credits for experiential learning. This learning must be at college level; it may match the content of specific courses or not. Credit is awarded by the appropriate department after detailed assessment of the documentation provided by the student to that department. Further information is available at the Office of Registrar, Building 2A, Room 110.

General Policies

Attendance

The College has different attendance policies for regular courses and for remedial courses.

Regular Courses: A student who is absent for more than 15 percent of the class hours in the semester will be assigned a grade of WU (withdrew unofficially), subject to the discretion of the instructor. Fifteen percent equals eight hours for a course that meets four hours a week, six hours for a course that meets three hours a week. A student who does not attend a course at all will be assigned a grade of WN (never attended).

Remedial Courses: (all remedial courses in reading, writing, mathematics, and in English as a Second Language): A student who is absent seven or more hours (in a course meeting four hours a week) will receive a grade of WU (withdrew unofficially), unless excused by the instructor. A student who is absent four or more hours (in a course meeting three hours a week) will receive a grade of WU (withdrew unofficially), unless excused by the instructor. A student who does not attend a course at all will be assigned a grade of WN (never attended).

Both policies give instructors discretion to permit fewer or more absences. Some instructors enforce strict attendance policies; others are more liberal, believing that the consequences of frequent absences are low grades. Instructors will include their attendance policies in their syllabi and explain these policies at the beginning of the course.

Withdrawal from College and Leave of Absence

Students who leave the College before the end of a term must file an official withdrawal request. Failure to do so will result in WU grades for all courses in progress, and the result will be a negative impact on the grade point average. Students intending to withdraw from the College must see a counselor and complete the required forms. There is no fee. Registration materials for the semester following
withdrawal will be sent automatically. There is no formal leave of absence from the College for undergraduates.

Readmission

Undergraduate students who do not register for a semester and then decide to return must file an application for readmission to qualify for a priority registration appointment. Generally, readmission is routine. Students requesting a change in curriculum or major may be subject to a review of qualifications. Additionally, if a student does not attend the College for four consecutive fall and spring semesters, the student must satisfy the degree requirements in effect in the semester of their readmission. Students who have been academically dismissed by the College will be readmitted only upon successful appeal to the Committee on Course and Standing. Applications may be filed online at www.csi.cuny.edu/registrar/forms.php4.

Repeating Courses

Remedial courses: Students may repeat a given remedial course only once.

Passing Grade: Students who receive a passing grade in a course (D or better) sometimes wish to repeat the course in the expectation of improving the grade. If a course is repeated, both grades will remain on the student’s transcript and both grades will be computed in the student’s grade point average, but the student will receive credit only once for the course. For example: a student takes HST 100 for three credits and receives a D, then repeats the course and receives a B. The transcript will list HST 100 with the grade of D for the first time and with a grade of B for the second. The student will receive a total of three credits for HST 100, not six, but the three credits of D and the three credits of B will be calculated in the student’s grade point average. The repeated course may not count toward the 12 credits required for full-time and TAP status unless the Catalog states that the course must be repeated.

Failing Grade: An undergraduate student may repeat up to 16 credits of failed courses; if the subsequent grade is C or higher, this subsequent grade will be included in the calculation of the cumulative GPA. The failing grade(s) will not be included (although the course and the grade remain on the record). The cumulative GPA will be used in determining if College admissions, progress, and graduation standards have been satisfied. F grades will be used in calculating the GPA for graduation honors and may affect the determination of admission to specific programs and progress in specific majors. If the subsequent grade is a D, both the original F and the subsequent D will be included in the GPA calculation.

This policy is subject to the following limitations:

1. The course in which the failing grade was received must have been originally taken after September 1, 1984 and repeated after September 1, 2002. Courses repeated between September 1, 1990 and August 31, 2002 will be governed by the policy in the 2001-2002 Catalog.

2. No more than 16 credits of failing grades may be recalculated in the above manner.

3. The 16-credit limit applies cumulatively to courses taken in all CUNY colleges.

4. If two or more failing grades have been received for the same course and a grade of C or better is subsequently earned, all of the failing grades may be recalculated, subject to the 16-credit limit.

5. The repeated course must be taken at the same college as the initially failed course.

6. The failing grades remain on the academic record.

7. The regulation applies to undergraduates only.

Auditing a Course

A student may audit a course by registering for the course and presenting a written statement of intent to audit the course, signed by the instructor, to the Registrar within the first three weeks of class. The Registrar will record a final grade of AUD, effective at the end of the semester. Once the declaration to audit has been made, the student may no longer choose to receive credit for the course. The regular tuition and fee schedule applies to audited courses.

Undergraduate Students in Graduate Courses

Undergraduate students with 90 or more credits and a 3.0 GPA may be granted permission to register for a graduate course for undergraduate credit. Permission is required from the course instructor and the coordinator of the graduate program offering the course; and must be noted on the registration form.

Permission to Take Courses at Other Colleges

Students wishing to take a course at another college must receive permission in advance if the course is to be credited toward a degree at the College of Staten Island. Permission to take courses at other colleges is granted only to currently enrolled matriculated students. Applications for permission, which require the approval of the department chairperson and the Registrar, are available in the Registrar’s Office. Tuition for courses taken on permit at other CUNY colleges must be paid at the College of Staten Island during the regular registration period. The Bursar’s receipt for this registration, together with the approved permit form, will enable students to register at another CUNY college. Tuition and fees for a course taken on permit at a non-CUNY school must be paid directly to the host school. Courses taken on permit will be transferred to CSI with the grade assigned by the host college.

Students on permit must request that a transcript be sent from the host college to the Registrar at the College of
Staten Island. A student who registers for permit courses but who is unable to complete the course registration at the host college should officially withdraw from the permit course(s) promptly. The University refund schedule applies to dropping permit credits unless the student presents a letter from the host college that the student was unable to register for the permit courses.

</table>

A brief explanation of the grades receiving no quality points follows:
F  No credit is received for a course in which the student is assigned a grade of F. If a student wishes to receive credit for the course, it must be repeated with a passing grade; however, the F remains on the transcript (see section on Repeating Courses).

P  Course requirements have been satisfied. This grade is used only for specially designated courses and for courses taken at another college for which a student receives advanced standing.

W  Students may withdraw without academic penalty from any course up to the end of the ninth week of the semester (see College calendar for date); a grade of W will be assigned. After that date, students may petition the instructor and the chairperson for permission to withdraw until the last day of classes. Consult the Office of the Registrar for the procedures to be followed when withdrawing from a course. If these procedures are not followed, students may receive a penalty grade of WU. In cases of illness, students may apply to the Health Center for a medical withdrawal. Under no circumstances will a W be assigned after the last day of classes without positive action by the Committee on Course and Standing or its designee.

WA Students not in compliance with the New York State immunization requirement receive the grade of WA. This grade carries no academic penalty.

WN  Non-Attendance. No credit is received for a course in which this grade is assigned. This grade carries no academic penalty.

WN  Non-Attendance. No credit is received for a course in which this grade is assigned; it is equivalent to a grade of F and only applies to terms from Fall 2008 through Summer 2009.

*WN  Never Attended. No credit is received for a course in which this grade is assigned. This grade carries no academic penalty.

WU An unofficial withdrawal results in a grade of WU. No credit is received for a course in which this grade is assigned; it is equivalent to a grade of F.
The grade INC is a temporary grade assigned when, in the instructor’s judgment, course requirements are not completed for valid reasons. Recipients of INC are required to complete all assignments before the end of classes during the succeeding semester. Students should not register a second time for a course in which an INC is given. Rather, arrangements should be made with the instructor to complete the remaining work. If a student registers again for a course in which an INC was awarded, the INC will become a FIN and the course will appear a second time on the student’s transcript with the grade earned.

If a grade of INC is not changed before the last day of classes of the succeeding semester, it will automatically be changed to a grade of FIN. If the required work is not completed for continuing valid reasons, the course instructor may grant an extension. Such extensions shall not exceed a period of more than two years beyond the original due date of the uncompleted work.

Students may audit courses for which they are registered by presenting a written statement to the Registrar declaring their status as auditors within the first three weeks of the semester. This statement must be countersigned by the instructor of the course. No credit is received for an audited course.

The pending grade is used in the first semester of a two-semester course.

An administrative grade assigned when no grade has been submitted by the instructor.

Undergraduate matriculated students of the College of Staten Island have the option to elect a Pass/Fail grade with the following restrictions:

1. Students may not elect the pass/fail option for any courses satisfying general education, pre-major, major, minor, or certification requirements.
2. Academic departments may exclude additional courses and may prohibit pass/fail courses from being used as prerequisites for degree requirements.
3. Courses taken on permit at other institutions and independent study courses may not be taken on a pass/fail basis.

The student may not elect more than eight credits (8) total as Pass/Fail. The total number of P grades on a transcript may not exceed 90 credits. This includes all credits transferred from other institutions.

For courses taken as Pass/Fail, letter grades “A through C” are converted to P; letter grades of D and F are converted to F. A pass “P” grade is not counted in the student’s grade point average. A fail “F” grade is counted in the student’s grade point average.

A student must be matriculated, with sophomore, junior, or senior standing. Transfer students must have completed a minimum of 12 credits at the College of Staten Island. To elect this option, the student must have a GPA greater than or equal to 2.25.

Students must elect the pass/fail option each semester by the “last day to withdraw from course(s) without a grade of “W” as listed in the academic calendar for that semester. Students may not elect the pass/fail option retroactively. Once the election of pass/fail has been made, the student may no longer choose to receive a letter grade other than P/F for the course.

Students wishing to appeal a grade other than WU or FIN must do so within 60 school days following the end of the semester*. Appeals must be submitted in writing to the chairperson of the department in which the course was offered. Upon receipt of the appeal, the chairperson shall direct the student to discuss the issue with the instructor who assigned the grade. If the issue remains unresolved, the student may request a review by the Department Committee on Grade Appeals.

This Committee on Grade Appeals shall review all information presented by the student and shall meet with the instructor. The committee shall render a decision within 30 days after the student requested the grade review by the committee because the student and instructor had not resolved the matter. If the committee upholds the appeal by a vote of 3-0, the chairperson shall change the grade to reflect the decision of the committee. If the committee does not uphold the student, there is no further appeal within the College.

In all deliberations on grade appeals, the burden shall be on the student to prove that a violation of the College’s regulations occurred or that the instructor’s own stated criteria for grading, which shall have been enunciated at the beginning of the semester, have not been followed. Students needing advice on the procedure may consult an academic and personal counselor.

Students wishing to have a WU or a FIN grade changed to a grade of W must file a written petition supported by documentation to the Committee on Course and Standing.
*Summer and winter session months are not included in the 60 day appeal deadline.

**Grade Point Average (GPA)**

The grade point average (GPA) is determined by dividing the total quality points earned by the total number of credits attempted. All credits for which the student is officially registered after the change of program period of each semester shall be considered "attempted credits," except where the grades carry no penalty (i.e., grades of W, WA, INC, AUD, and PEN). For example:

<table>
<thead>

Total Credits 14  Total Quality Points 33

GPA = \( \frac{\text{Quality Points}}{\text{Total Credits Attempted}} \) = \( \frac{33}{14} \) = 2.36

Students may calculate current and prospective grade point averages using the GPA Calculator.
Transcripts and Grade Reports

Students may access their transcript records and review semester grades by logging on to their CUNYfirst self-service account. Email notification is sent to students each semester when grades are available.

Students may request copies of their transcripts online at https://www.csi.cuny.edu/students/registrar/request-transcript. To be official, transcripts must be signed and sealed by the Registrar.

Graduation

Application for Graduation

In order to be considered for graduation, students must file an application with the Registrar. The deadlines to apply for graduation are March 1 for the spring and the summer term and October 1 for the fall term. There is no fee for this application. Application for graduation must be submitted online through the CUNYfirst Self-Service Student Center or apply in-person at the Office of the Registrar, North Administration Building (2A), Room 107. Students applying for graduation need to make sure they are in their correct major at the time of application or it will delay their semester of graduation. Students must have completed a minimum of 34 credits to apply for an associate’s degree; and 94 credits to apply for a baccalaureate degree.

Students who have graduated but wish to take additional credits beyond the degree will be changed to the non-degree status and will be charged the higher non-degree rate per credit unless they have filed for a second degree prior to the first day of classes. A change from non-degree to degree status on or after the first day of classes will not take effect until the next semester for tuition billing purposes. Non-degree students are not entitled to state or federal financial aid including federal loans.

Core or Major Requirements

The successful completion of all core or major requirements is required for graduation.

Credit Requirement

Bachelor’s degree programs require a minimum of 120 credits with a minimum cumulative grade point average of 2.0 (C). Some Bachelor’s degree programs require more than the minimum credits and GPA; please consult the specific degree program for details.

Associate’s degree programs require a minimum of 60 credits with a minimum grade point average of 2.0 (C). Some Associate’s degree programs require more than the minimum credits and GPA; please consult the specific degree program for details.

CUNY Assessment Tests

All students must pass the three CUNY Assessment Tests.

Departmental Honors

Students may graduate with honors in their field of study in most bachelor’s degree majors. To receive honors, the student must have at least a 3.5 grade point average in courses taken in the major and/or pass a comprehensive examination in the subject. The student must also complete an honors thesis or project. This last requirement is the heart of the honors program, for each student must work closely with a faculty member to define the project, carry out the research and investigation, and write the final report or prepare the final project. Students may receive credit through independent study for their work on an honors project. The projects must be accepted by the department. Students who successfully complete these requirements will receive the notation on their transcript that they have graduated with honors in their field of study. For specific requirements, see the section on Honors Requirements under the bachelor’s degree program description.

General Education Requirements

The successful completion of all general education requirements is required for graduation.

GPA Requirement

All degree programs require at least a 2.0 grade point average in the core or major course requirements to qualify for the degree. Some majors require a grade point average above 2.0. Please consult the specific degree program.

Graduation with Honors

Undergraduates who meet the qualifications will receive the associate’s or bachelor’s degree summa cum laude, magna cum laude, or cum laude as follows:

Cumulative GPA of at least 3.90: summa cum laude
Cumulative GPA of at least 3.75: magna cum laude
Cumulative GPA of at least 3.50: cum laude.

Students who have completed all of the requirements for the bachelor’s degree may graduate with honors in their major provided they meet the requirements of the department as explained in the section on Degree Requirements.

Incomplete (INC) Grade

If a student earns an INC in the semester that they expect to graduate, regardless of whether the INC course is needed for graduation, he/she may not graduate. The student may postpone the graduation to the next semester at which time
a final grade must be received by the last day of classes for that semester, otherwise the grade will be changed to an FIN and will negatively affect the graduating GPA as well as cumulative GPA. If the student does not wish to postpone the graduating semester, a grade for the INC must be submitted by the conferral date. Once a student has been granted a degree, grade changes for courses taken in semesters prior to receiving the degree are not permitted.

**Liberal Arts and Science Requirement for Degrees**

Courses are classified as liberal arts and sciences or as non-liberal arts and sciences. For undergraduate degrees, the New York State Department of Education requires that a portion of the credit hours in the degree program must be in the liberal arts and sciences. These requirements are:

- Associate in Arts (AA), three-quarters of the credits shall be in the liberal arts and sciences
- Associate in Science (AS), one-half of the credits shall be in the liberal arts and sciences
- Associate in Applied Science (AAS), one-third of the credits shall be in the liberal arts and sciences
- Bachelor of Arts (BA), three-quarters of the credits shall be in the liberal arts and sciences
- Bachelor of Science (BS), one-half of the credits shall be in the liberal arts and sciences
- Bachelor of Fine Arts (BFA), one-fourth of the credits shall be in the liberal arts and sciences

For more information please refer to the NYSED policy statement on liberal arts and sciences.

**Minimum Credits in Residence**

To obtain a degree, associate’s or baccalaureate, from the College of Staten Island, students must earn a minimum of 30 credits through courses taken at the College.

To qualify for a bachelor’s degree from the College, students must also earn at least half (50%) of the credits required for the major through courses taken at the College.

To obtain a One-Year Certificate from the College of Staten Island, at least half (50%) of the required credits must be earned in courses taken at the College.

**Second Degree Requirements**

To receive a second baccalaureate degree or a second associate’s degree from the College of Staten Island, students must complete a minimum of 30 credits in addition to the number of credits required for the first degree.

**The “Grandfather” Clause**

Requirements in this Catalog were approved effective summer/fall 2012.

For Major and Minor Requirements, the “Grandfather” clause provides protection from changes in degree requirements for students who maintain continuous enrollment in a program, curriculum, major, or minor.

However, when a student chooses a new program, curriculum, major, or minor, the student must satisfy the degree requirements for the program, curriculum, major, or minor in which he/she enrolled that are in effect in the semester in which the change was effective. Additionally, if a student does not attend the College for four consecutive fall and spring semesters, the student must satisfy the degree requirements in effect in the semester of their readmission.

For general education requirements only, the “Grandfather” clause provides that for ten years after the initial date of matriculation in which a student received a grade for at least one credit, a student may follow the general education requirements in effect the year of that initial matriculation. Students who do not have a break in attendance of more than four consecutive fall and spring semesters may continue to follow the general education requirements in effect the year of the initial matriculation even if that is more than ten years ago.

However, students who do not attend the College for four consecutive fall and spring semesters and who matriculated and received a grade for at least one credit more than ten years before the semester of readmission must follow the general education requirements in effect the semester of readmission.

Students may choose to follow the set of requirements for either general education or for their program, curriculum, major, or minor in effect at the time of their graduation by requesting to do so in writing to the Registrar.

**Independent Study and Internships**

Current matriculated students may arrange independent study and internships in most of the fields of study in the College’s curriculum. To arrange for such courses, students must take the initiative in approaching faculty sponsors and in defining the project. Independent Study undergraduate courses are numbered 591-594 and Internships are numbered 595-598. Both are awarded one to four credits.

The following definitions and policies apply:

**Independent Study** (numbered 591-594 in the discipline)

Independent Study is defined as an individual library or laboratory research or creative arts project under the direct supervision of a full-time faculty member. All Independent Study courses will be designated as liberal arts and sciences courses.

**Internships** (numbered 595-598 in the discipline)
Internships are experiences in a work situation that integrate an academic area of study with work experience. Courses designated Internships are individual, non-classroom, extended learning projects. They require an onsite supervisor as well as a full-time faculty member as project sponsor. Internships require a daily log of activities, an assigned reading list or preparation of a relevant bibliography, and a final paper that summarizes the way in which goals were achieved and demonstrates the relationship of academic material to the work done during the internship.

Internship courses are considered non-liberal arts and sciences. Internship students may not receive credit for paid employment unless they demonstrate the relationship of an appropriate body of academic material to the work required in their employment. The policy on individual Internship projects does not govern the regularly established professional internships (e.g., medical technology, communications).

Internships in professional programs may have different limits and requirements.

**Policies on Independent Study and Internships**

1. Credit for Independent Study is awarded for study or research outside normal course offerings; credit for Internships is awarded for work experience related to an academic program, not for performing a job.

2. Students must have at least one introductory course or equivalent experience in an area as a prerequisite to Independent Study and Internships. Independent Study students are required to spend at least three hours of work per week per credit. Internship students are expected to spend at least two hours per week per credit at the on-site location and at least one additional hour per week per credit in reading, study, and preparation.

3. No more than four credits will be granted for an Independent Study or Internship. Credit will be granted only once for the same or a similar work situation or placement. No more than nine credits of Independent Study and Internship coursework will be accepted toward the 60+ credits required for the associate’s degree; no more than 15 credits of Independent Study and Internship coursework will be accepted toward the 120+ credits for the baccalaureate degree. The nine-and 15-credit limits are the maximum for the combined number of Independent Study and Internship credits. Enrollment in more than four credits of coursework in Independent Study and an Internship in any given semester is not encouraged; permission will be granted only in unusual circumstances. Internships in professional programs may have different limits and requirements.

4. Students interested in Independent Study or an Internship must make arrangements with a full-time faculty member to sponsor the project. Internship students also require an onsite supervisor to evaluate their project. The individuals involved will sign a contract stipulating the expectations for completion of the course, evaluation criteria, and awarding of credit.

5. Arrangements for Independent Study and Internships must be made during the semester before the student wishes to enroll in these courses and must be approved by the faculty sponsor, onsite supervisor (where applicable), and the chairperson of the department or coordinator of the program.

6. For Internships, at least one onsite visit must be made by the faculty sponsor during the semester. At this time a joint conference with all participants in the project will be held for evaluation. For all Independent Study and Internship students a meeting and an evaluation of progress with the faculty sponsor is expected at least bimonthly. Internships in professional programs may have different limits and requirements.

7. Independent Study and Internship proposals are kept on file in the Academic Department. Registration for Independent Study and Internship courses must be completed within the first three weeks of the semester.

8. Independent Study and Internship courses may not be used to satisfy general education requirements for any degree program. Independent Study and Internship courses may be used as electives in fulfillment of core or major requirements only if the application explicitly states that the course may so be used.

**The Major**

**Declaration of Major**

Each matriculated student in the College is recorded in the Registrar’s Office as enrolled in a specific curriculum or major leading to a degree. Students are responsible for informing the Registrar of their specific curriculum or major. Deadlines for changing a major for the current semester are posted in the academic calendar. This can be done online. There is no fee. Assignment of an academic advisor is based upon this official listing.

All students who have completed 45 credits and have passed all three CUNY Assessment Tests who expect to receive a bachelor’s degree from the College should declare a bachelor’s degree major. Students who have completed fewer than 45 credits may also declare a bachelor’s degree major provided they meet the following criteria: have passed or are exempt from the three CUNY Assessment Tests and have successfully completed 12 credits at or above the 100 level and have a GPA of 2.00 or above.
In addition, individual departments may modify this policy for entry into their curricula as follows:

1. The department may require a chairperson’s approval before a student with fewer than 40 credits may choose a major in that department.
2. The department may require a GPA greater than 2.0 for entrance into its major.
3. The department may require minimum grades in specific courses before a student may choose a major in that department.
4. The department may require the submission of an application.

Change of Major

Students who wish to change their major should file a Declaration/Change of Major form with the Registrar’s Office. Deadlines for changing your major for the current semester are posted in the academic calendar. This can be done online. There is no fee. Students applying for graduation need to make sure they are in their correct major at the time of application or it will delay their semester of graduation.

Credits toward the Major

All courses listed as major requirements, including courses that apply toward concentrations, specializations, or options, are counted toward completion of the minimum credits meeting requirements for the major. Credits for pre-major courses are not included.

GPA in the Major

The GPA in the major is calculated in the same manner as the overall GPA using only the courses that fulfill major requirements: all courses listed in the major requirements, including courses in concentrations, specializations, options, and all courses taken in the discipline other than those in the pre-major. Students are required to achieve at least a 2.0 GPA in their core or major requirements in order to earn an undergraduate degree. Some programs require a GPA higher than 2.0.

Second Major

Students who wish to declare a second major should file a Declaration/Change of Major form with the Registrar’s Office. This can be done online. There is no fee.

Testing

CUNY Assessment Tests

Each undergraduate student must successfully complete The City University of New York Assessment Tests in reading, writing, and mathematics unless exempted. All students, including transfer students, must take the tests before they may register for the first time as matriculated students.

Students are exempted from taking the CUNY Assessment Tests in reading and writing if their verbal score on the SAT is 480 or higher; if their verbal score on the ACT is 20 or higher; or if their score on the New York State Regents Examination in English is 75 or higher. Students are exempt from the Math CUNY Assessment Test if their mathematics score on the SAT is 500 or higher; if their mathematics score on the ACT is 21 or higher; or if their score on the New York State Regents Examination in Mathematics A or Sequential II or III is 75 or higher; or by scoring 80 or higher on any of the new Regents examinations (Integrated Algebra, Geometry, Algebra 2 and Trigonometry) and successfully completing Algebra 2 and Trigonometry or a higher level course. However, all students must take Part III of the COMPASS Mathematics Test for placement into appropriate mathematics courses.

External, non-CUNY transfer students who have completed a course in English composition of 3 credits or more with a minimum grade of C at another institution are exempt from the CUNY Assessment Test in reading and the CUNY Assessment Test in writing provided that the students are transferring from United States-accredited colleges or universities. External transfer students who have completed a mathematics course of at least 3 credits with a minimum grade of C are exempt from CUNY Assessment Test in mathematics. However, all transfer students must take Part III of the COMPASS Mathematics Test for placement purposes. External transfer students with foreign credentials are subject to the CUNY Assessment Tests upon entry.

Students admitted to associate’s degree programs who fail one or more of the tests are expected to complete the remedial courses that qualify them to enter college-level writing and mathematics courses and pass all three CUNY Assessment Tests in one year, which may include, in addition to semesters, a pre-freshman and a post-freshman summer immersion course and a winter intersession workshop. Students for whom English is a second language (ESL students) have two academic years to pass the CUNY Assessment Tests in reading and writing. The tests are administered at the end of every academic intervention that students complete (remedial or ESL courses, summer immersion, January intersession, or tutorial workshops). Students who do not pass the CUNY Assessment Tests within this time limit will be dismissed from the College.

Students may not enroll in college-level English or mathematics courses until the appropriate test has been passed. In addition, some courses require passage of one or more of the tests as prerequisites. A passing score on the CUNY Assessment Test in Reading is a prerequisite to all courses at the 200 level or higher.

All students required to take Part I and Part II of the COMPASS Mathematics Test and who fail both Part I and
Part II must complete a pre-freshman math immersion course.

No associate’s or bachelor’s degree will be awarded unless proficiency has been demonstrated.

**COMPASS Reading Test**

Students who fail the COMPASS Reading Test on entrance are required to take the appropriate 0-level reading course in their first semester.

**CUNY ACT/Writing Sample**

Students who score 6 on the CUNY/ACT Writing Sample Test on entrance are required to take the appropriate 0-level writing course within their first 12 equated credits. Students who score 5 or below on the C/AWST on entrance are required to take the appropriate 0-level writing course within their first eight equated credits.

**COMPASS Mathematics Test**

Students who have not passed each of the first two parts of the COMPASS Mathematics Test are required to take the appropriate 0-level mathematics course.

All students required to take Part I and Part II of the COMPASS Mathematics Test and who fail both Part I and Part II must complete a pre-freshman math immersion course.

**Placement Examinations**

Placement examinations are offered by the Department of Biology and the Department of World Languages and Literatures. These examinations determine placement at the appropriate course level. Students entering the Health Sciences programs in which BIO 150 Human Anatomy and Physiology I is a pre-major requirement must take the Biology Department Placement Examination. Students are referred to the Testing Office for information.

See the section on Attendance Policies (p. 29) for information on the special attendance policies that apply to 0-level courses.
Academic and Student Services

Office of Academic Affairs
Office of Academic Affairs
Building 1A, Room 305
Senior Vice President and Provost, Gary Reichard
718.982.2440

As the College’s chief academic officer, the Provost provides vision, leadership, and oversight to the maintenance and development of quality academic programs including support for the development of a distinguished faculty in both the liberal arts and sciences and professional studies and support of faculty research and graduate education at the master’s and doctoral levels.

The Provost reports directly to the President and is the ranking member of the executive management team, with responsibility for all academic units and departments. The Provost is responsible for promoting academic excellence and for assuring that students have access to intellectual and practical experiences that will enrich their lives and prepare them for their post-collegiate careers.

Accelerated Study in Associate Programs (ASAP)

Email: asap@csi.cuny.edu

ASAP students at CSI are assisted in earning both their Associate and Baccalaureate Degrees in four years with financial, academic, and personal support. For more information please visit the ASAP website.

Alumni Relations
Building 1A, Room 110

The Office of Alumni Relations maintains contact with alumni through ongoing social, educational, athletic, and cultural events.

The Office also assists the CSI Alumni Association and its elected Board of Directors, who serve as the representative voice for over 50,000 alumni worldwide. The Alumni Association was established in 1980 and its mission is dedicated to promoting a lifelong spirit of pride, fellowship, loyalty, and learning among alumni, students, and the community.

All persons who have a degree or six-year certificate from CSI or its predecessor institutions, Richmond College and Staten Island Community College, are members of the Alumni Association. Alumni seeking further information or wishing to obtain a permanent alumni photo ID are invited to call 718.982.2290, email alumni@csi.cuny.edu or visit the Office.

Center for Advising and Academic Success (CAAS)

“Empowering Proactive Learning and Providing the Foundation for Lifelong Success”
Building (1A), Room 101

The Center for Advising and Academic Success (CAAS) is responsible for teaching the principles and philosophy of general education and its relevance in curricula. CAAS provides advisement support to new students, matriculated continuing students who have earned less than 45 credits and to students who are declared as Associate Degree Liberal Art majors. Committed to utilizing the most effective advisement practices in support of student academic success, it empowers students to proactively become involved in their own educational experience.

Here, while students find academic assistance with educational goal planning, major, minor, and career identification, general education requirements, DegreeWorks (the degree audit self-advisement tool), TAP eligibility and academic policies and regulations; faculty can find assistance with advisor training and development and evening & weekend services. Additionally, CAAS is responsible for administration of the Pathfinder Program, a career exploration workshop series designed to help students determine potential career pathways and related academic majors. Further information about advisement, Pathfinder, and other services can be found at www.csi.cuny.edu/academicadvisement.

All students assigned faculty or professional advisors are required to meet with an advisor minimally once each semester. The Early Advisement Period (each March and October) is designed to provide students with ample opportunity to discuss their educational plans and to complete their upcoming semester’s course selection process. Prior to the Priority Registration Period (each April and November), students receive notification of the priority registration access date. Students should meet with their advisor to complete their educational plans, have their Advisement Stop removed, and prepare to complete their registration process at least 3 weeks before their priority registration access date.

Center for Global Engagement
Building 2A, Room 206
Director, Stephen M. Ferst

The Center for Global Engagement encourages and supports the international component of the academic life of the College. The Center provides direction and assistance in matters affecting the College’s international student population, sponsors study abroad programs, directs scholar and student exchange programs, and facilitates international
development programs. Guidance for the Center’s activities is provided by a faculty advisory committee.

**English Language Institute (ELI)**

Building 2A, Room 206  
Academic Coordinator, Joanne Riggiio

The Institute, a member of the American Association of Intensive English Programs, offers intensive English language study and programs in American language and culture to international students and professionals. The Institute is supported by course fees. Admission to the English Language Institute does not constitute admission to the College.

**Foreign Student and Scholar Services**

The staff, serving foreign students and scholars, processes immigration documentation; facilitates admission procedures; provides academic advisement, counseling, adjustment, and orientation to college life in the U.S.; and assists in off-campus housing.

**Study Abroad Programs**

The Center offers a variety of study abroad programs for undergraduate credit only with partner institutions around the world including the following: Nanjing University, Shanghai University, and the City University of Hong Kong in China; the Danish Institute for Study Abroad (DIS) in Copenhagen, Denmark; the Catholic University of Guayaquil and the University of San Francisco de Quito in Ecuador; Middlesex University in London, England; The American College of Thessaloniki in Greece; Scuola Lorenzo deMedici in Florence and Tuscany, The American University of Rome, and the Istituto Venezia in Italy; the Universidad Internacional Menéndez Pelayo in Santander, Spain; IPAG in Nice and Paris, France; Seinan Gakuin University in Fukuoka, Japan; and Dublin Institute of Technology in Ireland. Overseas study programs in more than 25 countries are open to CSI students through membership in the College Consortium for International Studies.

There is no foreign language prerequisite; however, students are required to study the language of the country and are placed in courses suitable to their ability. A minimum grade point average of 2.5 is required for participation in most of the CSI-sponsored study abroad programs. The staff provides assistance and information about admissions, financial aid, orientation, and re-entry. To prepare effectively for participation in the program, students are encouraged to investigate the overseas study opportunities early in their academic careers. Most student financial aid plans are applicable to study abroad programs and special scholarship funds are available for eligible students.

**International Faculty Activities**

The Center coordinates a faculty exchange program with Shanghai University in China on behalf of The City University. The Center also has responsibility for CSI exchange programs and faculty development activities and international projects in various countries. On-campus programs for faculty and students include the World on Wednesday lecture series, International Education Week Events, and special programs.

**Institutional Advancement and External Affairs**

Building 1A, Room 401  
Vice President for Institutional Advancement and External Affairs, Khatmeh Osseiran-Hanna

The Office of Institutional Advancement and External Affairs is responsible for advancing the mission of the College and developing financial support for the College from alumni, faculty and staff, the community, and private industry. The CSI Foundation, Inc. was established to provide leadership and volunteer assistance to the College in its fundraising programs.

**Collegiate Science and Technology Entry Program (CSTEP)**

The CSTEP program seeks to increase enrollment and graduation, among historically underrepresented students, in undergraduate and graduate programs leading to professional licensure or to careers in the fields of science, technology, and education at the College of Staten Island (CSI). Through exposure to research opportunities in technology, scientific research, and teaching, CSTEP students will begin to view themselves as professionals and will help to reshape the culture of these professional fields as they reach their desired career goals.

The CSTEP Program is designed for New York State residents, including permanent residents, who must be full-time students and have good academic standing, which includes a 2.75 grade point average and enrollment in an approved scientific, technical, health-related, pre-professional, or professional undergraduate or graduate program of study. Students must be of African, Hispanic/Latino, or Native American/Alaskan Native descent or be economically disadvantaged (based on criteria established by New York State.) Students enrolled in State-funded opportunity programs (AMP, HEOP, EOP, SEEK, or College Discovery) are also eligible to participate in the CSTEP program.

**CUNY Language Immersion Program**

Building 4N, Room 210  
Coordinator: Elizabeth Schade

The CUNY Language Immersion Program (CLIP) is an intensive English language program for students who are non-native speakers of English and have been admitted to a CUNY college but have not passed the CUNY reading
and/or writing assessment tests. CLIP offers students the opportunity to spend more time learning English in an academic environment before formally enrolling in or returning to college courses. CLIP provides a full-time immersion approach to English language study that does not draw upon a student's financial aid allocation; students pay only a nominal fee for the program.

**CUNY Black Male Initiative at CSI (BMI)**

Building 1A, Room 310  
Coordinator: Debra Evans-Greene

The College Success Initiative is the Black Male Initiative Program (BMI) at the College of Staten Island. This program was designed by The City University of New York (CUNY) to engage successful minority students in the recruitment and retention of other minority students, especially males, at the college and high school levels.

The College Success Initiative is open to all academically eligible students, faculty, and staff without regard to race, gender, national origin, or other characteristic. The program is a collaborative effort of parents, college faculty and staff, and high school principals and teachers, as well as members of the Staten Island community, to attain the same goals with our minority students.

**Teacher Education Honors Academy**

Director, Dr. Jane Coffee, Building 1S, Room 212

The goal of the Teacher Education Honors Academy is to educate undergraduate students who have a demonstrated talent in science and mathematics and who have a sincere desire to teach in the high schools or middle schools. Teacher Academy students have a choice of four majors: biology, chemistry, mathematics, or physics. They must complete all the requirements for their chosen major as well as the undergraduate sequence of education courses required for initial teacher certification. The Teacher Education Honors Academy students acquire hands-on experience in New York City public middle or high schools and this experience begins in the first semester in the Teacher Education Honors Academy program. Students in the Teacher Education Honors Academy are eligible for financial and academic assistance and for internships in middle and high schools.

Please see the section on academic requirements for Admissions to Teacher Education Honors Academy (p. 12).

**Evening and Weekend Services**

“Empowering Practice Learning and Providing the Foundation for Lifelong Success”

Building 1A, Room 101

Evening & Weekend Services is a unit within the operation of the Center for Advising and Academic Success. It is the central administrative office of the College during evening and weekend hours and serves students, faculty, and staff by providing administrative and academic assistance; information about College programs, policies, and procedures; and other special services. Additionally, the Office advocates for those various evening and weekend student provisions and support services which are needed and during times which are convenient for this specialized population.

Center for Advising and Academic Success is an integral part of this operation. The College regularly schedules a wide choice of courses in the evening and on the weekend to accommodate those students in all of its degree programs who prefer to take classes at these times. Evening class sessions start at 6:30pm or later; and both Saturday and Sunday morning and afternoon classes are available to help students with their course selection process. Over a period of time, evening and weekend students can fulfill general education requirements and complete degree requirements for a number of specific majors. Please check www.csi.cuny.edu/academicadvisement for our current schedule of operating hours.

**Learning Communities**

Learning Communities are composed of a minimum of two or more courses that are linked together through common topics, assignments, readings, or activities. They offer students a more personalized environment and create supportive peer groups through common enrollments in the linked courses. In learning communities, students are able to apply skills learned to multiple contexts, which is necessary for success in college. Some learning communities also provide support services directly linked to the courses. Participation in learning communities has been shown to increase student retention rates and also overall academic success. The courses included in learning communities fulfill general education requirements. To be enrolled in the learning communities, students must register for all components. For more information, please contact Donna Scimeca at 718.982.3405.

**Information Technology**

Building 2A, Room 303  
Vice President for Technology Systems, Michael Kress

The Office of Information Technology (OIT) advances and supports the use of information technology at the College. OIT administers 20 general purpose computer laboratories and over 30 specialized computing laboratories in conjunction with academic departments. Over 2,500 desktop computers are connected through a high-speed local area network running Windows XP or Windows 2000. This hardware configuration allows students, faculty, and staff full access to specialized software, the Internet, online library resources, and email.
Four open computer labs running Windows XP or Windows 2000 are equipped with the software that students need to do their assignments. Computer labs for students with disabilities include software like JAWS, Dragon, etc. as well as ADA-compliant furniture. In addition to the open labs, there are computers available in the lobbies of Building 1S, 2S, 3S, 4S, 5S, 1N, 2N, 3N, 4N, and 5N, and systems are also located in the Cybercafe and the Campus Center. These stations allow students to use the Internet.

“CSI unplugged,” wireless access is via 802.1 b/g technology. The network can be accessed from any of the academic or administrative buildings. The College of Staten Island's Data network spans 19 buildings and provides access for all campus staff, faculty, and students, 24 hours a day, seven days a week. Wireless Hotspots are designed to expand service to users with laptops or PDAs equipped for wireless networking. With Hotspots, wireless computers have high-speed access to the Internet and College Web Services.

The OIT home page is: www.csi.cuny.edu/technologysystems.

Office of Academic Support

Library (1L), Room 117
Director, Linda Sharib
The Office of Academic Support (OAS) offers a variety of programs to enhance the academic preparation of all CSI students. The Immersion Program provides intensive reading, writing, and mathematics workshops for students who have not passed one or more of the assessment tests. The Pre-Test Preparation workshops provide important CUNY Assessment Test preparation for students, enabling them to become familiar with the testing formats and to experience practice tests, thereby increasing their chances for success on the tests. Furthermore, OAS houses CSI’s multi-disciplinary tutoring lab and also coordinates the ten campus tutoring centers.

Laboratories

Building 6S, home of the Department of Biology, the Department of Chemistry, the Center for Environmental Science, and the Center for Developmental Neuroscience and Developmental Disabilities, contains 74 state-of-the-art laboratories for study and research. The ten departmental buildings in the academic quadrangles house instructional, tutorial, and research laboratories, and personal computer classrooms.

Liberty Partnerships Program

The program is a collaborative effort of the College and the Staten Island Branch of the New York Urban League, the local school district, and community-based organizations and individuals that provides a broad range of educational, enrichment, and support services for high school students who are at risk of dropping out of school.

Library/Media Services

Library 1L, Room 109
Interim Chief Librarian, Associate Professor Amy Stempler
The Library is the focal point of the South Academic Quadrangle. The building, with its distinctive rotunda, is the home to five central services: a study center for the campus community; a broad collection of books and journals in the liberal arts and sciences; computer facilities, online services, and databases that serve as points-of-access to informational resources beyond the walls of the Library; an instructional facility for the teaching of information retrieval and information literacy; an Archives and Special Collections unit; and media distribution services in support of instruction.

One hundred and seventy-five computer workstations for student use are available throughout the building. The general reference area is located on the first floor, as is the faculty Center for Excellence in Learning Technology. The second floor leads to the elegant archives facility, the distance-learning center, the document center, the Library instruction facility, and the Media Services unit. The circulating book collection and the print journal holdings are housed on the third floor.

Hours of Service:
Monday–Friday 8:00am–midnight
Saturday 8:30am–9:00pm
Sunday noon–9:00pm

Hours of service during summer session, intersession, and holidays are posted at the Library entrance and on the Library homepage, www.library.csi.cuny.edu.

Borrowing Privileges: Students and faculty from CSI and other CUNY colleges must present current ID cards in order to borrow books. Students and faculty may obtain ID cards from the College Office of Public Safety. Overdue books, lost books, or unpaid fines may result in the suspension of borrowing privileges.

The Collection: The holdings include 245,000 bound volumes of books, 143 online databases (of which more than 50,000 are full text), 155,000 e-books, 215 print journal subscriptions, 53,000 e-journals 3,500 films and videos, 5,000 sound recordings, and 1,300 linear feet of archival materials.

The Online Catalog: The CSI Library is a member of the CUNY-wide integrated library system. Access to CUNY+, the online union catalog portion of the system, is available throughout the campus as well as from offsite.
Reference librarians provide service at the General Reference Desk on the first floor at all times when the Library is open. The Library instruction service includes orientation tours, open workshops, presentations to classes by reference specialists in connection with specific course assignments, and the compilation of bibliographic aids.

**Media Services**

Library (1L), Room 201  
Director: Mark Lewental

Media Services provides viewing and listening facilities and classroom services for its collections of videotapes, DVDs, slides, audiotapes, and recordings. The Media Distribution System provides access to the media collections via fiber-optic technology, connecting over 40 classrooms, laboratories, and conference rooms. Media Services operates the Videoconferencing Lab, a network of wireless laptops for use in the Library, and oversees the Center for Excellence in Learning Technology, which assists faculty in using technology to promote better learning.

**Macaulay Honors College**

Building 1A, Room 206  
Director: Associate Professor Charles Liu

The William E. Macaulay Honors College of CUNY is designed for highly motivated and capable students who meet rigorous admissions criteria. During their first and second years at the College of Staten Island, Macaulay Honors College students enroll in a variety of innovative and challenging courses and develop with their faculty a cohesive intellectual community. In their third and fourth years, Macaulay Honors College students pursue their fields of study in a wide range of majors and specializations, and must meet the program’s criteria for graduation with honors. In addition to their academic work, Macaulay Honors College students must complete co-curricular requirements.

Please see the sections on Admissions (p. 11) and on Programs (p. 71) and Course Descriptions (p. 187) for details about the requirements and further information about the program.

**The Pathfinder Program**

Sponsored by the Center for Advising and Academic Success, The Pathfinder Program has been created to meet the unique needs of College of Staten Island students as they begin exploring majors and careers. This unique, three-part Career Exploration Workshop series allows students to discover those interests that will lead them towards a successful career. Our workshops will teach students about the career decision-making process, how to choose a major, and how to conduct relevant career research.

The final part of the Pathfinder Program provides students with the opportunity to make an appointment to meet with Career Coaches, who are specially trained advisors and counselors who can guide students toward making good career decisions. The Career Coaching program is the result of collaboration between the Career & Scholarship Center and the Center for Advising and Academic Success. Additional information about the program can be found at [www.csi.cuny.edu/pathfinder](http://www.csi.cuny.edu/pathfinder).

**Science and Technology Entry Program (STEP)**

The STEP program at the College of Staten Island (CSI) focuses on helping students to build self-esteem and develop positive behaviors toward learning. A Saturday enrichment and academic program, STEP services students from Staten Island and Brooklyn in grades 7 through 12 who demonstrate a career interest in the fields of science, engineering, technology or education. Through the program, students come to CSI and engage in science, computer math, communication arts, and PSAT and SAT prep with an interdisciplinary learning approach. The STEP program also encourages students to strive for good grades throughout their secondary school years so that they eventually have the experience to choose from a broader range of choices when pursuing a career.

Participation in the STEP program is free. The only cost is student commitment and parental involvement.

**Testing Services**

Building 1A, Room 104  
Director, Alan Hoffner

The Testing Office tests in the following areas: the CUNY Assessment Tests in writing, reading, and mathematics; the departmental placement examination in Biology; the National League for Nursing (NLN) pre-admissions exam; and the test that enables students to earn college credits, the College Level Examination Program (CLEP).

**The Percy Ellis Sutton SEEK Program**

Building 1A, Room 112  
The Percy Ellis Sutton SEEK Program Director Gloria Garcia

The SEEK Program (Search for Education, Elevation, and Knowledge) is a New York State program for residents who are in need of both academic and financial assistance in order to obtain a college education. Information about the program and the application process may be obtained from the SEEK Office. The telephone number is 718.982.2410 or visit our Website: [www.csi.cuny.edu/seek](http://www.csi.cuny.edu/seek).

**The Verrazano School**

Building 5N, Room 113  
Director, Dr. Charles Liu  
Coordinator, Cheryl Craddock
The Verrazano School at CSI is a competitive, highly selective program for undergraduates at the College of Staten Island. Established in 2007, The Verrazano School offers students the opportunity to be part of a dynamic, academically motivated learning community while enjoying the benefits of a comprehensive public institution within The City University of New York. Outstanding faculty, a wide range of academic disciplines, and extensive student services are some of the resources available through The Verrazano School.

Information about the program and admission requirements can be found online at www.csi.cuny.edu/verrazanoschool or contact 718.982.4171.

**The Bertha Harris Women’s Center**

Building 2N, Room 106
Coordinator, Associate Professor Ellen J. Goldner

The Bertha Harris Women’s Center promotes the education and personal growth of women students and the men who support their concerns. It encourages a confidential support network among students and faculty and serves as a conduit of information about counseling and other resources available to women both on campus and in the broader communities of Staten Island and New York City. The Bertha Harris Women’s Center raises awareness about issues important to women and encourages community service by CSI students at organizations that serve women on campus, on Staten Island, and in New York City. In response to needs and interests voiced by students each semester, The Women’s Center organizes student activities, panels, and speakers on a variety of topics and other events. Visit us in Building 2N, room 106 or on the Web at www.csi.cuny.edu/womenscenter.

**The Writing Center**

Building 2S, Room 216
Director, Robert Brandt

The Writing Center is under the supervision of the Department of English. The Center provides assistance to students who need to enhance their reading and writing skills. Instructors from any discipline may refer students to The Writing Center, or students themselves may choose to visit it and make appointments to work with tutors. Tutors do not edit papers or do homework assignments for students, but help them to work on the skills they need to develop. The Writing Center serves students for whom English is a first or second language.

**Division of Student and Enrollment Services**

South Administration Building (1A), Room 301
Vice President, Jennifer S. Borroto, Esq.
718.982.2335

The Division of Student and Enrollment Services supports and enriches the student learning experience and helps shape student success. Our mission is to facilitate access to a high quality education and engage students by providing learning opportunities and services that promote academic, personal, and professional growth. Each area within the Division strategically plans, implements, and assesses practices and programs to ensure the highest level of service. The staff members are here to support you in realizing your goal of becoming a CSI graduate!

Reporting to the Vice President for Student and Enrollment Services are:

**Assistant Vice President for Student Services and Dean of Students**

**Center for Career and Professional Development**

Counseling Center
Dolphin Cove Student Housing Services
Health and Wellness Services
Office of Student Life
Veterans Support Services

**Center for the Arts**

**Counseling Center**

**Dolphin Cove Student Housing**

**Enrollment Services Center**

**Financial Aid**

**First Star CSI Academy**

**Recruitment and Admissions**

**Children’s Center**

**CSI Association, Inc.**

**CSI St. George**

**Director of Enrollment Management**

**Office of Student Life**

**Spalding Student Entertainment Program**

**Auxiliary Services Corporation**

**Bookstore, Cafeteria, Park Café, the College Health Center, the Wellness Program, and the Peer Drop-in Center are located in the Campus Center. Lounges for entertainment and studying, a computer lab, a video game room, conference and meeting rooms, and locker rentals are available for student use. WSIA-FM (88.9) broadcasts from the Campus Center. Questions regarding use of facilities and locker
rentals may be directed to the Campus Center, Room 201. The telephone number is 718.982.3071.

**The Career and Scholarship Center**

Building 1A, Room 105
The Center assists current students and graduates with their career, internship, and placement needs. Résumé critique and referral, mock interviews, on-campus employer recruitment, collegiate job fairs and the Senior Employment Referral Program help students to meet their employment goals.

Students seeking an internship can review a database of over 400 internship opportunities and can learn about the Summer Internship Stipend Program and internship referral program.

Assistance with the fellowship, scholarship, and special opportunity application process is provided as well as review of mission statements and personal essays that may be required for select fellowship and graduate school applications.

Career coaching is available to students who are unsure about their career choice. Career assessment testing for first year students is available through the Pathfinder Program, which is now administered by the Center for Advising and Academic Success.

Career-related workshops are given throughout the year and computers are available to students who want to access the database of full- and part-time jobs, internships, and fellowships.

**Adults Returning to College Program (ARC)**

Office of Recruitment and Admissions, Building 2A, Room 103
Consistent with the college’s mission, it proudly supports the Adults Returning to the Classroom (ARC) Program. This program supports those adults who may be coming to college for the first time, or returning after a prolonged absence and offers personalized services from pre-admissions counseling through registration, and provides guidance and support as adult students make choices about their careers and education. Interested adults (those who are at least 25 years old) not yet admitted to the College should have an initial consultation with an admissions counselor: please call 718.982.2470 or send an e-mail to sean.walsh@csi.cuny.edu. If you have previously attended CSI and would like to return, please complete a Readmission Form. If you have any questions about ARC or the readmission form please email neila.green@csi.cuny.edu.

**Children's Center**

Building 2R
The Children's Center is sponsored by the CSI Association and provides early education and childcare services for students who may be attending classes, working, participating in other school-related activities, or who need personal time. The programs for infants/toddlers and preschool children are licensed by the Bureau of Day Care of the NYC Department of Health and Mental Hygiene. The program for school-age children is registered with the School Age Division of the NYS Office of Children and Family Services. The Center is funded through the Student Activity Fee; city, state, and federal grant money; and parent fees. For further information please call 718.982.3190 or visit [www.csi.cuny.edu/childcare](http://www.csi.cuny.edu/childcare).

**Clubs and Organizations**

The CSI Student Government and the Office of Student Life charter and recognize student clubs and organizations. Any group of students with a common interest may request a charter for a student club or organization from the Student Government Office, and students may join any of the existing groups that receive a charter each year. Members of clubs associate around a broad range of interests and identifications. Approximately 40 clubs are organized by students with common interests rising out of academic studies, social commitments, or personal values. Sports-related clubs file for a charter initially with Student Government before applying for funding from the Intramural and Recreation Program. The telephone number is 718.982.3088.

**College of Staten Island Association, Inc.**

The College of Staten Island Association, Inc. is a non-profit corporation that administers the Student Activity Fee. The Association is governed by a board of directors comprised of six students, three administrators, three faculty, and the President or designee. The Association allocates designated portions of the Fee, traditionally applied to graduation exercises, intercollegiate athletics and intramural programs, the Children's Center, Health and Wellness, WSIA, and the Campus Activities Board.

**Center for the Arts**

Center for the Arts 1P, Room 116
Director, John Jankowski
The Center for the Arts contains, in the instructional wing, the Department of Performing and Creative Arts, the Department of Media Culture, studios, performance and rehearsal spaces, a screening room, a studio theater, film and video production facilities, and laboratories for communications and graphics. The workshops include facilities for print making, painting, sculpture, photography, electronic music, and recording.

The Center for the Arts is home to the Clara and Arleigh B. Williamson Theatre, a 430-seat proscenium-stage theater;
the 893-seat Concert Hall; the 150-seat Recital Hall; the 150-seat Lecture Hall; the 150-seat Lab Theatre for student productions; the CFA Atrium; the Conference Room; the Art Gallery, for major exhibitions; and the Student Art Gallery. Each academic year, the CFA presents a full schedule of innovative performing and visual arts public programming that features guest artists, CSI arts faculty, and CSI art students. The CFA also administers a theater rental program open to the Staten Island community.

Counseling Services
Building 1A, Room 109
The Counseling Center provides personal and academic counseling services for students at the College of Staten Island. Students are given the opportunity to explore issues that can help them to achieve success. Professionally trained counselors provide individual and group counseling to address various issues that affect academic performance and experiences in college and one's personal life. With a few legal exceptions, counseling is a confidential process. Personal counseling is designed to help students address concerns, come to a greater understanding of themselves, and develop effective strategies for dealing with life's challenges. Academic counseling assists students with maximizing their academic performance. Counselors help students with a variety of issues that affect academic success such as test anxiety, time management, study strategies, and concentration.

Center for Student Accessibility
Center for the Arts (1P)
The Center for Student Accessibility has responsibility for providing reasonable accommodations and services to students with a documented disability. The Center also serves as a resource for faculty and staff in their work with CSI students with disabilities. To qualify for services, students must submit documentation to the Center and request services. All documentation is kept confidential and should be submitted directly to the Center. Services include pre-admissions counseling and accessibility information, advisement, priority registration, and testing accommodations. Assistive technology software, scientific calculators, audio recorders, and assistance in facilitating the use of alternate formats are also available. The Resource Center for the Deaf serves the specific needs of deaf and hard of hearing students providing interpreters and CART services to students who are hard-of-hearing. Interpreters are available for academic advisement, conferences with professors, and other College business. The College's policy for students with disabilities conforms to federal guidelines and the Center offers services mandated by federal and state law. All students with disabilities are encouraged to use the services of the Center. Services are also available to students who are temporarily disabled.

Email Accounts
The Office of Technology Systems will generate a College email/computer login account for all currently registered students. If you have any questions or forget your password after changing it, come to the Library (1L), Room 204. A validated student ID card is required. For more information, please call 718.982.4080, visit www.csi.cuny.edu/cix/index.php and click on the appropriate links, or visit www.csi.cuny.edu/currentstudents and select the link “Look up CSI's email & Login ID to access CSI's computers.”

Intercollegiate and Intramural Athletics
CSI fields women's and men's teams in competition throughout the East Coast, primarily in the New York/New Jersey metropolitan area. Team and individual sports include men's and women's cross-country, basketball, swimming, tennis, and soccer; men's baseball; and women's softball and volleyball. The College is a member of the National Collegiate Athletic Association (NCAA Division III), the Eastern College Athletic Conference (ECAC), and The City University of New York Athletic Conference (CUNYAC). The intercollegiate athletic program is supported by funding from the CSI Association.

To be eligible for intercollegiate competition, a student must be matriculated as a full-time student. The following criteria must also be met.

1. Proof of good health; physician's examination and review by CSI medical staff;
2. Good Academic Standing - Incoming students must meet the CSI Index for baccalaureate eligibility. For continuing student-athletes having acquired over 12 credits, good academic standing is defined as a minimum 2.0 cumulative Grade Point Average.
3. Maintenance of satisfactory progress toward completion of a bachelor's degree. For continuing student-athletes, this requires successful completion of a minimum of eight credits in the semester previous to the semester of competition in order to meet satisfactory progress requirements. For two-semester sports (Basketball, Swimming and Diving), this requires successful completion of a minimum of eight credits during each semester. Students completing less than eight credits in a required semester who can show good cause may appeal to the committee on student athlete appeals one time during their collegiate playing career.

The recreational and intramural sports program provides opportunities for all students, staff, and faculty to participate in individual and team sports, including competitive, non-competitive, and recreational.
Ombudsperson
Building 1A, Room 301
Reporting to the Vice President for Student and Enrollment Services, the Ombudsperson is authorized to investigate student concerns and to make recommendations regarding the outcome of those investigations. The Ombudsperson, available to all students enrolled at the College, is a source of information about College policies and procedures and, in certain situations, will provide mediation and advocacy services. Students may be advised to visit other College offices to file official student concerns as well.

The Ombudsperson helps students to develop positive strategies to resolve problems and conflicts and acts as a neutral party to hear any type of student concern or dispute related to the College.

The Office deals with academic matters such as grade appeals, accusations of cheating and plagiarism, faculty/student disputes, and non-academic matters such as billing disagreements, conduct issues, campus issues, and interpersonal conflict. This is not a comprehensive list, as it is understood that each individual may have concerns and needs that are unique.

Students can file an official complaint or put information "on the record" at the Office of the Ombudsperson.

New Student Programs
Building 2A, Room 208
The New Student Programs Office maintains up-to-date records on students' progress toward meeting the New Student Orientation Requirement as described in the Catalog section on Degree Requirements. Students may obtain information about current and planned CLUE-certified events, programs, and activities, and may also check on their status in meeting the requirement. Two enrichment programs called CLUE Challenge and CLUE Pathways encourage students to commit themselves to a broad involvement in the out-of-the-classroom life of the College and its surrounding community. Information about orientation and the CLUE program is available at the CLUE Office. The telephone number is 718.982.2529.

Pluralism and Diversity
Building 2A, Room 208
The Office of Pluralism and Diversity seeks to develop in all aspects of the College's activities a climate that fosters respect for the pluralism and diversity of U.S. society. The Office offers programming, workshops, and training sessions on sensitivity and diversity. The telephone number is 718.982.3088.

Campus Activities Board (CAB)
The Campus Activities Board, a joint committee of the CSI Association and the CSI Student Government, is a student programming board that allocates a designated portion of the Student Activity Fee for social, cultural, and educational programs. The board develops programs that culturally enlighten, intellectually stimulate, and entertain. The planning and decision making process is one in which students learn many skills, especially those related to working with other students on campus-wide projects. Proposals for programs, events, and activities may be made by students and members of the College community. The telephone number is 718.982.3268.

Publications
Students at CSI publish a biweekly newspaper, The Banner; a political journal, The College Voice; a politics and literary arts magazine, Third Rail; an art and literature magazine, Serpentine/Artifacts; a literary journal, Caesura; and the Dolphin yearbook. Publications are funded by Student Activity Fees allocated through the Publication Board. Students interested in participating in the production of these publications as writers, photographers, editors, or layout artists, or in starting new publications are invited to visit the publications' offices or the Office of Student Life in the Campus Center.

The Percy Ellis Sutton SEEK Program
Building 1A, Room 112
The Percy Ellis Sutton SEEK Program Interim Director Stefanie Gardiner
The SEEK Program (Search for Education, Elevation, and Knowledge) is a New York State program for residents who are in need of both academic and financial assistance in order to obtain a college education. Information about the program and the application process may be obtained from the SEEK Office. The telephone number is 718.982.2410 or visit our Website: www.csi.cuny.edu/seek.

Sports and Recreation Center
Building 1R
The Sports and Recreation Center houses a full range of facilities and equipment for individual and team sports and games: a gymnasium with seating capacity for 1,200 spectators, an auxiliary gymnasium, two fitness rooms, racquetball courts, and a 25-meter pool. Outdoor facilities include a track, tennis courts, and ball fields.

Student Life
Campus Center (1C), Room 201
The Office of Student Life assists and advises students involved in student organizations, governance committees, and campus activities to develop a rich and diverse co-curricular campus life. The Student Life team also involves staff from the CSI Association, the Student Government, and the Campus Activities Board. The Office sponsors leadership programs for chartered clubs and the general
student population and is responsible for the operations of the Campus Center. The telephone number is 718.982.3088.

**Student Government**

The College of Staten Island Student Government is composed of 20 representatives (senators) elected by the student body each spring semester. Organized into commissions with a specific mandate (e.g., Academic and Curricular Affairs; Clubs; Elections; Finance; Part-time, Evening, and Weekend Students; Student Center; and Student Services), the Student Government represents student interests to the administration and faculty of the College and serves as an advocate for student services. Through its commissions, the Student Government charters and funds all student clubs and associations, administers student elections, allocates a designated portion of the Student Activity Fee, advocates for the special needs of students, and advises the College on the utilization of Campus Center space to serve students in their co-curricular activities. Student Government senators serve on planning and decision making committees with faculty and members of the CSI administration. The telephone number is 718.982.3082.

**Health Center and Wellness Program**

**Health Center and Wellness Program**

Health and Wellness Services provides prevention and treatment services to enhance health and encourage healthy lifestyle decisions. In collaboration with Staten Island University Hospital, nurse practitioners provide episodic treatment for acute health problems, first aid, college related physicals, immunizations, and tuberculosis skin test (PPD). Rapid confidential HIV testing services, pregnancy testing, and blood pressure checks are also available. This office provides confidential health education appointments with professional staff, student-centered health information, educational outreach programs and a peer education program. Health promotion events include wellness fairs, blood drives, as well as special health-screening events. Services are partially funded by the Student Activity Fee. The telephone number is 718.982.3045.

**WSIA - 88.9 FM**

WSIA, the only radio station on Staten Island, is licensed to the College. The station is staffed by student volunteers working under the guidance of professional staff and broadcasts at 88.9 FM. The state-of-the-art studios, include a digital recording facility, music studio, computerized news operation, and a 40,000-volume record and CD collection. Station programming emphasizes diverse and creative music, local news and public affairs, and Staten Island sports. Students interested in working as DJs, newscasters, sportscasters, and engineers should visit the studio and fill out an application. The telephone number is 718.982.3050.

Undergraduate Degree Requirements

This section provides detailed information on college preparation, testing, orientation, requirements applicable to all degree programs, liberal arts and sciences, core/major, minor, honors, general education, and information about the course numbering system at CSI.

College Preparatory Initiative (CPI)

The College Preparatory Initiative (CPI) is a collaborative effort between CUNY and the New York City Board of Education designed to strengthen the academic preparation of high school students.

Bachelor’s degree students and associate’s degree students entering CSI are expected to have a minimum of 16 CPI units, including four units of English, three units of mathematics, two units of laboratory science, four units of social sciences, two units of foreign language, and one unit of fine arts.

Core/Major Requirements

Programs leading to a degree (with the exception of the AA and AS degrees in Liberal Arts and Sciences) require a concentrated study of a particular subject. This requirement is called the core requirement for associate’s degrees and the major requirement for bachelor’s degrees. The core and major requirements for each degree are listed under the degree.

Some cores and majors require courses that must be taken during the freshman and sophomore years to provide the background necessary for the required core or major courses. These courses are identified as pre-major and listed under the degree description.

Course Alpha/Numerical Designation

Programs and course descriptions lists the requirements and courses for the degree programs in alphabetical order by the alpha designation for the courses in the discipline, from ACC for Accounting to WGS for Women’s, Gender, and Sexuality Studies. The alpha designation of core or major requirements is followed by the course number (001-499), assigned by the Registrar.

Topics courses, independent study, and individual internships are designated at the 500 level with the alpha designation for the course discipline. Courses at the 500 level, by their very nature, may not have a registered description and may not be listed under courses for the disciplines. Topics courses may be taught for a maximum of three semesters and may not be used to fulfill requirements.

The numerical designations for topics courses are: 500-590 (1-4 credits); independent study courses, 591-594 (1-4 credits); internships, 595-598 (1-4 credits).

Credit Requirements

With some exceptions, baccalaureate degree programs require the successful completion of 120 credits and associate’s degree programs require the successful completion of 60 credits. Exceptions are the following programs: Bachelor of Science (BS): Biology, Computer Science, Engineering Science, Medical Technology; Associate in Applied Science (AAS): Computer Technology, Electrical Engineering Technology, Nursing.

CUNY Assessment Tests

ENGLISH: Each student must be exempt or successfully complete The City University of New York Skills Assessment Tests in reading and writing.

MATHEMATICS: Each student must be exempt or successfully complete The City University of New York Skills Assessment Test in mathematics, which tests proficiency in basic mathematics skills.

( Please refer to Testing (p. 39) for additional information.)

Students needing remediation are expected to complete the remedial courses that qualify them to enter college-level writing and mathematics courses in one year, which may include, in addition to two semesters, a pre-freshman and a post-freshman summer immersion course and a winter intersession workshop.

Departmental Honors

Students may graduate with honors in their field of study in most bachelor’s degree majors. To receive honors, the student must have at least a 3.5 grade point average in courses taken in the major and/or pass a comprehensive examination in the subject. The student must also complete an honors thesis or project. This last requirement is the heart of the honors program, for each student must work closely with a faculty member to define the project, carry out the research and investigation, and write the final report or prepare the final project. Students may receive credit through independent study for their work on an honors project. The projects must be accepted by the department. Students who successfully complete these requirements will receive the notation on their transcript that they have graduated with honors in their field of study. For specific requirements, see the section on Honors Requirements under the bachelor’s degree program description.
Double Degrees

To receive a second degree of the same type, for example History (BA) and Spanish (BA), it is necessary to complete the requirements of the second field of study and to complete at least 30 credits more in residence than the number of credits required to complete the first degree.

If a student chooses to major in two disciplines offering different types of degree, for example History (BA) and Biology (BS), the student must earn two degrees by earning a minimum of 30 credits in residence above the credits required for the first degree.

Double Major

To major in more than one field of study, students must complete all of the core or major requirements for each of the fields. If the Pathways General Education requirements of the two fields differ, the student must complete the more restrictive and demanding of the two. If the total credits required differ, the student must complete the larger number. To have the second core or major recorded on the final transcript the student must apply for both fields when filing for graduation. Upon satisfactory completion of the requirements, both fields of study will be recorded on the final transcript.

Electives

Each associate’s and bachelor’s degree program requires a specified total number of credits. Credits not counted toward general education, pre-major, or core/major requirements are electives. Students may freely choose their elective courses from among the courses offered at the College. However, students should keep in mind the liberal arts and sciences requirement; in some programs it may be necessary to choose as electives only those courses that are designated as liberal arts and sciences courses in order to accumulate the required number of liberal arts and sciences credits to qualify for the degree. Several programs have particular courses or groups of courses that are recommended as electives. Students should consult their advisor when choosing elective courses.

GPA

All students are required to achieve at least a 2.0 grade point average in their core or major requirements in order to earn an undergraduate degree at the College. Some programs require a higher GPA.

Honors Requirements

Undergraduates who meet the qualifications will receive the associate’s or bachelor’s degree summa cum laude, magna cum laude, or cum laude as follows:
Cumulative GPA of at least 3.90: summa cum laude
Cumulative GPA of at least 3.75: magna cum laude
Cumulative GPA of at least 3.50: cum laude.

Liberal Arts and Science Requirement for Degrees

Courses are classified as liberal arts and sciences or as non-liberal arts and sciences. For undergraduate degrees, the New York State Department of Education requires that a portion of the credit hours in the degree program must be in the liberal arts and sciences. These requirements are:

- Associate in Arts (AA), three-quarters of the credits shall be in the liberal arts and sciences
- Associate in Science (AS), one-half of the credits shall be in the liberal arts and sciences
- Associate in Applied Science (AAS), one-third of the credits shall be in the liberal arts and sciences
- Bachelor of Arts (BA), three-quarters of the credits shall be in the liberal arts and sciences
- Bachelor of Science (BS), one-half of the credits shall be in the liberal arts and sciences
- Bachelor of Fine Arts (BFA), one-fourth of the credits shall be in the liberal arts and sciences.

For more information please refer to the NYSED policy statement on liberal arts and sciences.

New Student Orientation Requirement

Students who enter the College with fewer than six credits are required to complete the orientation requirement. Students are expected to complete this requirement during their first semester or prior to the completion of 12 equated credits.

To satisfy the requirement, students may choose between two options:

(A) Successful completion of a one-credit freshman orientation course:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPD 101</td>
<td>Issues in College Life (RNL)</td>

<tr>
<td>OR</td>
<td></td>
<td></td>
</tr>
<tr>
<td>SKO 100</td>
<td>Freshman Orientation (RNL)</td>
<td>1</td>
</tr>
</tbody>
</table>

SKO 100: open only to SEEK students or

(B) Complete the five components of the non-credit College Life Unit Experiences (CLUE) program, which include:
Attendance at a general orientation session on such topics as the purposes of higher education, an overview of College policies and services, and an appreciation of diversity. Students should attend the orientation session prior to the beginning of classes.

and

(C) Attendance at four CLUE-certified events: two Personal Growth Experiences and two Co-curricular Experiences.

Personal Growth topics include study skills, career development, self-development, substance abuse, and pluralism. Co-curricular Experiences include events offered in conjunction with the scholarly, cultural, and civic programs presented regularly at the College.

Minor Requirements

In addition to completing the requirements of a major for a bachelor’s degree, students may choose to declare a minor. Students shall not declare minors in the same discipline as their majors. Requirements for completing a particular minor may be found in the section describing programs and courses in that field. Students are encouraged to consider taking a minor to guide their choice of elective courses into a coherent package and to enhance their career opportunities.

Deadlines for changing your minor for the current semester are posted in the academic calendar. This can be done online. There is no fee. Students applying for graduation need to make sure they are in their correct minor at the time of application or it will delay their semester of graduation.

Previous Degree

Students who hold a completed Associates Degree must complete a maximum of 6 College Option credits. Students who hold a baccalaureate degree from an accredited post-secondary institution are considered to have completed general education requirements.

Writing Across the Curriculum

Students develop college-level writing skills in courses that are chosen across the curriculum. Quality writing skills are learned in courses that include a significant writing component in the laboratory sciences, social sciences, literature, and languages.

Pathways General Education Requirements

The new general education model adopted by the CUNY Board of Trustees it is implemented through a process known as Pathways. This process defines 30 credits of a Common Core general education requirement for all students at CSI and gives some parameters for up to 12 additional credits of general education requirements known as the College Option. Pathways also aligns gateway courses for a number of popular majors. Details about Pathways are available at www.cuny.edu/academics/initiatives/degreepathways.html

**Common Core Structure:**

I. Required Core: 12 credits

1. 6 credits of “English Composition” (RECR)
2. 3 (or more) credits of “Mathematical and Quantitative Reasoning” (RMQR)
3. 3 (or more) credits of “Life and Physical Sciences” (RLPR)

II. Flexible Core: 18 credits

Students must take six three-credit liberal arts and sciences courses, with at least one course from each of the following five areas and no more than two courses in any discipline or interdisciplinary field. The five areas are:

1. World Cultures and Global Issues (FWGR)
2. U.S. Experience in its Diversity (FUSR)
3. Creative Expression (FCER)
4. Individual and Society (FISR)
5. Scientific World (FSWR)

III. The College Option: 12 credits

The “College Option” allows a Baccalaureate-granting institution, such as the College of Staten Island, to require up to an additional 12 credits for general education. For transfer students, this requirement can be reduced to 6 or 9 credits. For some students in majors that are accredited by outside agencies these credits may not be required.

Specifics of the Pathways Framework at the College of Staten Island:

The guiding principle of the College of Staten Island's Pathways Framework is to retain the current CSI general education program with as little loss and disruption as possible. Specifically, the General Education Committee believes that BS programs (excepting the BS in Art, Business with International Business concentration, Communications, Dramatic Arts, Music, and Social Work), which do not currently include a language requirement, should not be obliged to add a new component to the existing general education provisions.

For Macaulay Honors College, Business (AAS), Computer Technology (AAS), Electrical Engineering Technology (AAS), and the Nursing (AAS) program please refer to the
specific section of the Catalog addressing the Pathways General Education requirements for these programs.

The Computer Science (BS) program, the Engineering Science (AS) program, the Engineering Science (BS) program, the Electrical Engineering (BS) program, the Medical Technology (BS) program, the Nursing (BS), and the Physics (7-12) (BS) program have received waivers from CUNY to specify particular courses students must take in STEM areas of the Common Core, Flexible Core and/or the College Option. If students take different courses other than those specified in these areas, they will be certified as having completed the Pathways General Education areas, but it may not be possible for them to finish their degree program within the regular number of credits. Please refer to the specific section of the Catalog addressing the Pathways General Education requirements for these programs.

I. Pathways Required Core 12 credits

e. Scientific World* Course List (FSWR)

Some course in the Scientific World area will have an associated required 1 credit/2 hour laboratory course that is in the College Option. To fulfill the requirements non-
transfer baccalaureate students must take at least one course from this area with a linked laboratory. Associate students need not take such a course.

*No student is required to complete more than 3 credits to fulfill requirements in the Scientific World area but may choose to do so using the STEM variant.

### III. Pathways College Option 12 credits

#### III. College Option 12 credits

The College Option allows a Baccalaureate granting institution, such as the College of Staten Island, to require up to an additional 12 credits for general education. For transfer students this requirement can be reduced to 6 or 9 credits. For some students in majors that are accredited by outside agencies these credits may not be required.

The College Option at CSI is marked by the college's grounding in a Liberal Arts tradition and its belief in challenging its students. Except for laboratory and language courses as outlined below, all courses taken in the College Option will be at the 200 level or higher. The requirements are as follows:

- **Textual Aesthetic, and Linguistic Analysis (TALA):** One 200-level or above course must be taken within the area of TALA.
- **Social Scientific Analysis (social science):** One 200-level or above course must be taken within the area of social science.
- **Contemporary World (cont. wrld):** One 200-level or above course taken to fulfill the Flexible Core and/or College Option must fulfill the Contemporary World requirement.
- **Pluralism and Diversity (p&d):** One 200-level or above course taken to fulfill the Flexible Core and/or College Option must fulfill the Pluralism and Diversity requirement.

Requirements below apply to students who are required to take 12 College Option credits. For those requiring 9 credits, they may be earned by taking two four-credit courses from either of the three main areas and a science lab. For those requiring just 6 credits, these may be satisfied by taking two courses from any two of the three areas.

All BA Majors and BS Majors which require 114-level language proficiency (BS in Art; Business/International Business concentration; Communications; Dramatic Arts; Music, Social Work)

Social Scientific Analysis (social science)*

Textual, Aesthetic, and Linguistic Analysis (TALA)*

Science lab co-requisite with Life and Physical Sciences (RLPR)

Science lab co-requisite with Scientific World (FSWR)

114-level language***

Contemporary World (cont. wrld.)

Pluralism and Diversity (p&d)

At least six credits at the 200 level or higher in the Flexible Core and College Option combined

*STEM disciplines may allow students to replace either one TALA or one Social Science requirement with a broadly-defined STEM course.

**3 credits is the minimum requirement. Students may opt to take course bearing 4 credits and either 3 or 4 hours to fulfill these requirements; additional credits will be applied towards electives.

***If the 114-level language requirement has been met through testing or exemption, an additional TALA or Social Science course must be substituted.

****These requirements may be fulfilled by courses taken to complete the TALA or Social Science requirements.

Pathways College Option For Transfer Students

Pathways College Option For Transfer Students 6*, 9**, 12*** credits

*Students who transfer with a completed Associate Degree must complete a maximum of 6 College Option credits.

1. Transfer students who have not demonstrated proficiency to the second university level in a foreign language and whose major and degree program requires this proficiency will complete the foreign language requirement of the College Option.

2. Transfer students whose major and degree program do not require language proficiency should complete enough credits in STEM (depending on their choice of major), TALA or Social Science buckets of the College Option to bring the total to 6 credits.

3. Transfer students with a completed Associate Degree are encouraged to complete at least six credits at the 200 level.

**Students who transfer in from an Associate Degree program with more than 30 credits but without an Associate Degree must complete a maximum of 9 College Option credits.

1. Transfer students who have not completed two science courses with laboratories must take two laboratory courses (2 credits, 4 hours).

2. Transfer students who have not demonstrated proficiency to the second university level in a foreign language and whose major and degree program requires this proficiency will complete the foreign language requirement of the College Option.

3. Transfer students who are not required to take a language for their degree program will take either a STEM course or a TALA/Social Science course depending on their major (3 credits).

4. Additional courses to complete 9 credits in the College Option hours must be chosen from TALA/Social Science in the College Option or any area in the Flexible Core to bring the total to 9.

5. Transfer students must complete at least four credits at the 200 level in the College Option.

***Students who transfer in from a Bachelor's Degree program to CSI must complete 12 College Option credits and all the requirements below, including the requirement to
Undergraduate Degree Requirements

take 6 credits at the 200 level in the Common Core and College Option combined.

STEM disciplines may allow students to replace either on TALA or one Social Science requirement with a broadly-defined STEM course.

***3 credits is the minimum requirement. Students may opt to take course bearing 4 credits and either 3 or 4 hours to fulfill these requirements; additional credits will be applied towards electives.

****If the 114-level language requirement has been met through testing or exemption, an additional TALA or Social Science course must be substituted.

These requirements may be fulfilled by courses taken to complete the TALA or Social Science requirements.

**College Option Social Scientific Analysis (Social Science)**

These 200-level and above courses with ENG 111 as a minimal prerequisite provide an introduction to the social sciences: the role of institutions, groups, and individuals in society. They examine human behavior and thought in its political, economic, social, cultural, and/or geographic context. Students are introduced to the fundamental methodologies of the social sciences, such as, hypothesis development, data collection and analysis, and the critical evaluation of evidence. Courses fulfilling this requirement are in the disciplines of African American studies, American studies, anthropology, communications, economics, geography, history, philosophy, political science, psychology, sociology, and women’s studies. Courses satisfying this requirement are marked (social science) at the end of the course description.

**College Option Social Scientific Analysis (social science) Course List**

Courses that are marked with an asterisk (*) also fulfill the Pluralism and Diversity requirement and are identified as (p&d) at the end of the course descriptions. Courses that are marked with a caret (^) also fulfill the Contemporary World requirement and are identified as (cont. wrld.) at the end of the course descriptions.

College Option Textual, Aesthetic, and Linguistic Analysis (TALA)

These 200-level and above courses introduce students to the literary, visual, and performing arts. Students will examine the historical and cultural aspects of various works, as well as methods for their analysis and/or creation. This requirement aims to encourage active inquiry into the complexity of language, art, and communication. Courses included in this category are of a general, fundamental nature. The 200-level courses have a significant writing component and subscribe to the principles of writing across the curriculum. Courses satisfying this requirement are marked (TALA).

College Option Textual, Aesthetic, and Linguistics Analysis (TALA) Course List

Courses that are marked with an asterisk (*) also fulfill the Pluralism and Diversity requirement and are identified (p&d) at the end of the course descriptions. Courses that are marked with a caret (^) also fulfill the Contemporary World requirement and are identified (cont. wrld.) at the end of the course descriptions.

Any 300- or 400-level course in foreign literature or equivalent courses in other languages, if offered. Some of these courses require a reading knowledge of the language; others allow students without knowledge of the language to read the works in English translation. Foreign language courses at the 300- or 400-level are included since many students place directly into these upper-level courses and need not pass through the prerequisite language courses. (4 credits)

Contemporary World Course List  
Contemporary World Requirement: Courses fulfilling this requirement are designed to provide an understanding of global and regional contexts. This requirement will cover contemporary global issues, ideas, and institutions. The courses will emphasize the interactions of societies along political, economic, and cultural dimensions. Courses will cover the development, formation, and impact of the global context and ways in which different nations, societies, and cultures influence and are influenced by global forces. Students will use comparative and historical analytic frameworks for understanding the contemporary world. 
Contemporary World courses at the 200-level or above, ENG 151 and COR 100 as minimal prerequisites, have a significant writing component, and subscribe to the principles of writing across the curriculum. They may be selected either from those courses marked with a caret (^) on the lists of Social Scientific Analysis; Textual Aesthetic, and Linguistic Analysis; Pluralism & Diversity; or from among those listed under Contemporary World. Courses satisfying this requirement are marked (cont. wld.) at the end of the course description. 
Courses that are marked with a (*) also satisfy the Pluralism and Diversity requirement and are identified as (p&d) at the end of the course descriptions.

### Pluralism and Diversity Course List

Pluralism and Diversity courses are at the 200-level or above, have ENG 111 as a minimal prerequisite, and subscribe to the principles of writing across the curriculum. They may be selected either from those courses marked with an asterisk on the lists for Social Scientific Analysis; Contemporary World; Textual, Aesthetic, and Linguistic Analysis; or from among those listed under Pluralism and Diversity. Courses satisfying this requirement are marked (p&d) at the end of the course descriptions.

Courses that are marked with a caret (^) also fulfill the Contemporary World requirement and are identified as (cont. wrld.) at the end of the course descriptions.

**Technology in Teaching and Learning**

Technology is used in classes at the College of Staten Island to enhance students’ learning experience, reinforce class discussion, and provide better communication. In order for the College to successfully infuse technology in teaching and learning to enhance the College experience, the following applications are used: Blackboard, Internet search/research, Excel, Access, Email (with attachments), Word, PowerPoint.

Students should anticipate using these applications and are expected to have some knowledge of them. The College requires and cultivates technological literacy in its students and employees. The Office of Information Technology at CSI offers tutorials and workshops for students. More information on technology tutorials and workshops is available on the College Website at [http://www.csi.cuny.edu/studenthelpdesk/Training/index.htm](http://www.csi.cuny.edu/studenthelpdesk/Training/index.htm) or call 718.982.3695.
Student Professional Development

Student Professional Development
Division of Student and Enrollment Services Building 1A, Room 301
Office of the Vice President of Student and Enrollment Services
Vice President, Jennifer S. Borrero, Esq.

Students who enter the College with fewer than six credits are required to complete a Student Professional Development course, SPD 101 Issues in College Life, or SKO 100 Freshman Orientation (open only to SEEK students), or to complete the non-credit College Life Unit Experience Program (CLUE). See the section on Degree Requirements for the New Student Orientation requirement. Other courses offered by the department do not meet the New Student Orientation requirement.

Student Professional Development Courses (p. 357)
Divisions, Schools, Departments and Programs

Interrelationships between fields of knowledge are emphasized by grouping academic departments together within the larger categories of humanities and social sciences or science and technology.

The Division of Humanities and Social Sciences includes the following departments: English, History, Media Culture, Performing and Creative Arts, Philosophy, Political Science and Global Affairs, Psychology, Social Work, Sociology/Anthropology, and World Languages and Literatures. The office for the Dean of the Division of Humanities and Social Sciences is located in Building 1A.

The Division of Science and Technology includes the following departments: Biology, Chemistry, Computer Science, Engineering Science and Physics, Library, and Mathematics. The office for the Dean of the Division of Science and Technology, is located in Building 1A. The office of the Chief Librarian is located in Building 1L, 109.

The School of Business includes the following departments: Accounting and Finance, Economics, Management, and Marketing. The office for Dean of the School of Business, is located in Building 3N.

The School of Education includes the following departments: Curriculum and Instruction, and Educational Studies. The office for the Dean of the School of Education is located in Building 3S.

The School of Health Sciences includes the following departments: Nursing, and Physical Therapy. The office for the Dean of the School for Health Sciences is located in 5S.

Division of Humanities and Social Sciences

The Division of Humanities and Social Sciences includes the following departments: English, History, Media Culture, Performing and Creative Arts, Political Science and Global Affairs, Psychology, Sociology/Anthropology, and World Languages and Literatures.

Department of English

Building 2S
Lee Papa, Chairperson and Associate Professor
Distinguished Professor: Sarah Shulman

The department offers the Bachelor's degree in English, with options in Literature, Writing, and Linguistics; and the Master's degree. The department also offers non-credit courses in reading and writing for both native and non-native speakers of English.

A general course of study provides students in career programs and in baccalaureate programs with essentials in the important areas of writing and literature. A more advanced series of courses is available for students interested in obtaining a deeper and broader understanding of the discipline, including those students who will pursue English as a major. Students with majors in other disciplines may minor in English with a literature, linguistics, or writing option. The department offers a program in Communications jointly with the faculty of the Department of Media Culture and programs in Drama and Dramatic Literature jointly with faculty of the Department of Performing and Creative Arts. The Master's degree program is coordinated by Professor Katharine Goodland. The Bachelor’s degree program in Women’s, Gender, and Sexuality Studies is coordinated by Associate Professor Matt Brim.

English

(Bachelor of Arts, Minor, Master of Arts, see Graduate Catalog)
Department of English, Building 2S, Room 218
Chairperson and Associate Professor Lee Papa

The Department of English offers a major and a minor in English with options in Literature, Writing, and Linguistics, and a minor in Speech-Language Pathology. A concentration in Dramatic Literature is offered in cooperation with the Department of Performing and Creative Arts. English Courses (p. 253)
ENH Literature Courses (p. 254)
ENL Literature Courses (p. 256)
LING Linguistics Courses (p. 304)

English (BA)

The Department offers four concentrations in the BA degree program in English. They are: Literature, Writing, Linguistics, and Dramatic Literature
Major Requirements: 44-48 credits

Literature Concentration (44-48 credits):

A. Three Required Courses (12 credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENL 290</td>
<td>Introduction to Literary Studies (RLA)</td>
<td>4</td>
</tr>
<tr>
<td>ENL 300</td>
<td>British and American Literary Traditions I (RLA)</td>
<td>4</td>
</tr>
<tr>
<td>ENL 310</td>
<td>World Literature in Contexts (RLA)</td>
<td>4</td>
</tr>
</tbody>
</table>

B. Required Literary Coverage Areas (20 credits)

Students must take one ENL course in each of the following literary coverage areas, and no course may satisfy more than one coverage area.

NOTE: At least one of the courses must be pre-1800.

1. British literature (including period, movement or major figure).
2. American literature (including period, movement or major figure)
3. Literature in translation (including period, movement, or major figure)
4. Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America, and the Caribbean (including period, movement, or major figure)
5. Genre or theme. ENL 323 (Coming of Age Narratives), which falls under this category, is strongly recommended for English majors in the Adolescence Education Sequence.

C. Remaining Courses (12 credits)

These twelve credits may be Linguistics (LING 201/LING 300-Level or higher), Literature (ENL), Dramatic Literature (ENL), or Writing (ENL).

NOTE: Twelve credits must be taken at the 300- or 400-level.

D. Foreign Language Requirements (0-4 credits)

Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Linguistics Concentration (44-48 credits):

A. Three Required Courses (12 credits)

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

D. Remaining Courses (12 credits)

These twelve credits may be Linguistics (LING 201/LING 300-level or higher), Literature (ENL), Dramatic Literature (ENL), or Writing (ENL).*

*English majors in the Adolescence Education sequence are required to take ENL 323 and either LING 201 or LING 301. Students in the Literature, Writing, or Linguistics options planning to complete the Adolescence Education sequence may count the required education courses as electives.

E. Foreign Language Requirement (0-4 credits)

Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Electives: 10-34 credits

Total Credits Required: 120

Honors

Graduating English majors may apply for graduation with honors in English. Candidates must have a grade point average of 3.5 or higher and must take an independent study with a full-time faculty member, in order to write an honors-quality paper, which will be submitted to the Honors Committee on the dates described below.

The paper submitted need not be a new work; it may be a revision or extension of a paper previously submitted in a course. Research papers, critical papers, and original works of prose or poetry are acceptable. Candidates should ask an English Department faculty member of their choosing to supervise the preparation of the paper; papers submitted to the Honors Committee must have the signature of this faculty member on the title page.

Honors projects should demonstrate superior originality, depth, and research, and critical or creative intelligence. Papers must be technically correct and research papers must have accurate MLA citations.

Students planning to apply for graduation with honors in English are strongly urged to begin preparation of their Honors projects before the semester of their graduation. Papers for majors graduating in January must be submitted to the English Department Office (Building 2S, Room 218) by November 20; papers for majors graduating in June or August by April 1st.

Department Policy for Independent Studies:

In order to take an Independent Study, students must have completed a minimum of 24 credits in the major with a minimum GPA of 3.0. Students may take no more than 8 credits of Independent Studies in the major. Applications for Independent Studies must be completed and submitted to the department chair by 5:00 pm on Friday at the end of the first full week of the semester in which the student is to complete the study. No Independent Studies may be offered during the winter and summer sessions.

English Minors

Linguistics Minor

At least 12 credits in LING linguistics courses.

Speech-Language Pathology

Minor

Requirements: (12 credits)

<table>

</table>
Disorders (RLA)

Prerequisite courses: (12 credits)
LING 301 Introduction to Linguistics 4
(RLA)
LING 302 Phonetics (RLA) 4
AND
BIO 106 Principles of Biology I (RLPR) 3
BIO 107 Principles of Biology I Laboratory (RLA) 1
OR
BIO 170 General Biology I (RLPR) 3
BIO 171 General Biology I Laboratory (RLA) 1

Literature Minor
At least 12 credits in ENL literature courses (at least one of which in literature before 1800).

Writing Minor
At least 12 credits in writing (ENL), at least one at or above the 300 level.

Linguistics
Minor
Department of English, Building 2S, Room 218
Chairperson and Associate Professor Lee Papa

These courses are for students interested in studying Linguistics. Those courses designated as LING 201 and LING 300-level and above count as Linguistics courses in the Linguistics concentration (English major), as well as electives for English majors in the other concentrations (Literature, Writing, and Dramatic Literature).

Linguistics Courses (p. 304)

Department of History
Marchi Hall 2N
Eric Ivison, Chairperson and Professor

The department offers a Bachelor’s degree and a Master’s degree in History. Its courses combine the traditional function of the scholarly examination of the past for its value in general education with the utilitarian concern for preparing students with the basic skills to enable them to live more meaningfully. It seeks to train future historians, to update the teaching of history by secondary school teachers, and to provide opportunities for lifelong education. History may also be taken as a minor. Assistant Professor John Dixon coordinates the Master’s degree program in History and the Advanced Certificate in Public History.

Associate Professor Emmanuel Mbah is the director of the interdisciplinary Bachelor’s degree program in African and African Diaspora Studies.

History
(Bachelor of Arts, Minor; Master of Arts and Advanced Certificate in Public History, see Graduate Catalog)
Department of History, Marchi Hall (2N), Room 215
Chairperson and Professor Eric Ivison

History Courses (p. 284)

History (BA)
Electives: 4-38
Total Credits Required: 120

Honors
To graduate with honors in the History major, a student must have a minimum of a 3.5 grade point average in courses in the major and a 3.0 cumulative grade point average. In addition, a student must complete either an HSSH 594 Independent Study Honors in History or a Divisional Honors Seminar. Finally, a student must complete an honors thesis under the supervision of a History faculty member who will oversee and approve each step of the thesis process. The research paper submitted as the thesis need not be a new work; it may be a substantial revision or extension of a paper previously submitted in a course at CSI. Students must submit a one-to two-page thesis proposal to their advisor and the coordinator of honors in History (Associate Professor Catherine Lavender) stating the scope of research or revisions, as well as questions and new source materials to be addressed before registering for HSSH 594 or a Divisional Honors Seminar. The 20-30 page thesis should demonstrate a superior command of the historical topic and evidence of rigorous critical thinking. The thesis must be approved by the faculty advisor and a second reader appointed by the coordinator of honors in History.

History Minor
Minor
At least 12 credits of courses in history at or above the 200-level including courses from at least two of the following categories: pre-1700 history; modern European history; United States history; World history.

Department of Media Culture
Center for the Arts 1P
Cynthia Chris, Chairperson and Associate Professor

The department offers Bachelor’s degrees in Cinema Studies and in Communications, and a Master’s degree in Cinema and Media Studies. Programs in this department focus on the principles of media, interactions with the media, and the cultures dependent upon communications technologies. The department serves students interested in the history and theory of film and various electronic and computer-related media, and in producing works with these media. The program in Communications is offered in collaboration with the Department of English. A minor is also awarded in the Baccalaureate programs. The Master’s degree program in Cinema and Media Studies is co-coordinated by Professor Edward Miller and Professor Valerie Tevere.

**Cinema Studies**

(Bachelor of Arts, Minor; Master of Arts - see Graduate Catalog)

Department of Media Culture, Center for the Arts (1P), Room 226

Chairperson and Associate Professor Cynthia Chris

The program leading to the BA in Cinema Studies combines courses in film history, theory, and criticism with studies in film and video production. The guiding philosophy of the program is that future filmmakers will expand their creative possibilities through critical studies of film while those who write about film will enhance their work through an understanding of the filmmaking process. This combination of theory and practice prepares students for a variety of career opportunities in the film world.

Cinema Courses (p. 219)

**Cinema Studies (BA)**

**I. Critical Studies Concentration**

**Pre-Major Requirements: 6 credits**

Students planning to major in Cinema Studies must complete the following pre-major requirements:

</tr>
</tbody>
</table>
C. The remaining ten credits must be taken from within the cinema studies course offerings including at least seven credits at the 300 level or higher.

D. Foreign Language Requirement (0-4 credits)

Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Electives: 33 credits

Total Credits Required: 120

II. Production Concentration

Pre-Major Requirements: 6 credits

Students planning to major in the Production Option in Cinema Studies must complete the following pre-major requirements:

- **CIN 100** Introduction to Film (RLA) (FCER) 3
- **CIN 111** Video I (RNL) 3

Production Concentration in the Cinema Major Requirements: 45-49 credits

Students majoring in Cinema Studies with the Production Option must complete the following courses:

- **CIN 120** Video II (RNL) 3
- **CIN 210** Film Theory (RLA) 4
- **CIN 220** Film History (RLA) 4
- **CIN 497** Senior Project (RNL) 4
- **OR**
- **CIN 390** Media Internship (RNL) 3-4

**NOTE:** The production option requires a senior thesis project in the form of a short film or video. A senior thesis project must be approved by a member of the cinema faculty in the semester prior to undertaking the production in a CIN 300 or higher-level production course or independent study.

In addition to the above the following areas must be fulfilled:

A. Twelve credits in Film History, Theory and Aesthetics at the 200 level or higher chosen from the following: (4 credits each)

- **CIN 203** Chinese Cinema (RLA) 4
- **CIN 204** Politics, Cinema, Media (RLA) 4
- **CIN 206** African Americans in the Media (RLA) 4
- **CIN 208** Latina/o Media (RLA) 4
- **COM 220** History of Radio and Television (RLA) 4
- **CIN 230** American Film and American Myth (RLA) 4
- **CIN 240** Third Cinema (RLA) 4
- **CIN 271** Women and Film (RLA) 4
- **CIN 274** Introduction to Screen Writing (RLA) 4

- **CIN 301** Screen Adaptations (RLA) 4
- **CIN 303** Screen Comedy (RLA) 4
- **CIN 304** Nonfiction Film and Television (RLA) 4
- **CIN 305** Film Genres (RLA) 4
- **CIN 309** Electronic Media: Alternative Video Histories (RLA) 4
- **CIN 325** East Asian Popular Cultures (RLA) 4
- **CIN 326** Japanese Cinema: Theory & History (RLA) 4
- **CIN 401** American Directors Before 1960 (RLA) 4
- **CIN 402** American Directors After 1960 (RLA) 4
- **CIN 404** French Directors Before 1960 (RLA) 4
- **CIN 405** French Directors After 1960 (RLA) 4
- **CIN 406** Postwar Italian Cinema (RLA) 4

B. Six credits in Intermediate Production chosen from the following: (3 credits each)

- **CIN 211** Cinematography (RNL) 3
- **CIN 212** Documentary Video (RNL) 3
- **COM 240** Media Workshop: Acting, Directing, and Producing for the Media (RNL) 3
- **COM 261** Television Studio Production (RNL) 3

C. Twelve credits in Advanced Production chosen from the following: (3-4 credits each)

- **CIN 311** Video Workshop (RNL) 3
- **CIN 312** Non-Lineare and Multimedia Production (RLN) 3
- **CIN 314** Introduction to 16mm Filmmaking (RLN) 3
- **CIN 318** Advanced TV Studio Production (RLA) 4
- **CIN 390** Media Internship (RNL) 3-4
- **CIN 436** Screen Writing (RLA) 4

D. Foreign Language Requirement (0-4 credits)

Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Electives: 27 credits

Total Credits Required: 120 Credits

Liberal Arts and Sciences Requirement

Film production courses are non-liberal arts and sciences.
Honors
To graduate with honors in Cinema Studies a student must have a 3.5 grade point average in cinema studies courses and must complete an honors thesis or project, which may include the production of a film, approved by a faculty advisor.

Cinema Studies Minor

Minor
Prerequisite courses: 6 credits
CIN 100 Introduction to Film (RLA) 3
CIN 111 Video I (RNL) 3

Minor requirements: 12 credits
CIN 210 Film Theory (RLA) 4
CIN 220 Film History (RLA) 4

One or more of the following courses: (4 credits)
CIN 203 Chinese Cinema (RLA) 4
CIN 230 American Film and American Myth (RLA) 4
CIN 240 Third Cinema (RLA) 4
CIN 274 Introduction to Screen Writing (RLA) 4
CIN 301 Screen Adaptations (RLA) 4
CIN 302 
CIN 303 Screen Comedy (RLA) 4
CIN 304 Nonfiction Film and Television (RLA) 4
CIN 305 Film Genres (RLA) 4
CIN 309 Electronic Media: Alternative Video Histories (RLA) 4
CIN 401 American Directors Before 1960 (RLA) 4
CIN 402 American Directors After 1960 (RLA) 4
CIN 404 French Directors Before 1960 (RLA) 4
CIN 405 French Directors After 1960 (RLA) 4
CIN 406 Postwar Italian Cinema (RLA) 4
CIN 407 European Cinema (RLA) 4
CIN 408 Global Cinema (RLA) 4

Communications
(Bachelor of Science, Minor)
Department of Media Culture, Center for the Arts (1P), Room 226
Chairperson and Associate Professor Cynthia Chris

The program offers the following areas of specialization: Media Studies, Corporate Communications, Design and Digital Media, and Journalism. Students will study the history and theory of industries and forms, and engage in the production of diverse media, such as print, advertising, radio, film, public relations, television, the Internet, and other emerging media. This program is offered by the Department of Media Culture in collaboration with the Department of English and in association with the School of Business and the Department of Sociology and Anthropology.

Communication Courses (p. 222)

Communications (BS)

Major Requirements: 51-58

Common Core: required for all concentrations: (27-32 credits)

1. History and Theory of Communications (15 credits)
CIN 100 Introduction to Film (RLA) 3
COM 150 Introduction to Communications (RLA) 4
COM 203 Theories of Communications (RLA) 4

And one of the following:
CIN 220 Film History (RLA) 4
COM 200 Media and Culture (RLA) 4
COM 205 Media Industries (RLA) 4
COM 220 History of Radio and Television (RLA) 4
COM 230 History of Print Media (RLA) 4
COM 232 History of Design and Digital Media (RLA) 4

2. Practical and Applied (12-13 credits)
Demonstration of proficiency in a language through the intermediate level, 213 or above.

Communications majors must elect one of the following specializations: Media Studies, Corporate Communications, Design and Digital Media, or Journalism.

COM 115 Introduction to Design and Digital Media Environments (RNL) 1
COM 315 Media Analysis (RLA) 4
COM 390 Media Internship (RNL) 3-4
COM 450 Senior Seminar in Communications Research (RLA) 4

3. Foreign Language Requirement (0-4 credits)
Demonstration of proficiency in a language through the intermediate level, 213 or above.
4. Areas of Specialization (22-26 credits)

Communications majors must elect one of the following specializations: Media Studies, Corporate Communications, Design and Digital Media, or Journalism.

Specializations:

I. Media Studies

The specialization in Media Studies prepares students for careers in media production and media research. Students are introduced to the histories and theories of media, as well as the institutional and cultural contexts in which mediated communication occurs. They will gain production skills in video, radio, television, or digital media.

Requirements: 24-26 credits

II. Corporate Communications

The Corporate Communications area of specialization is designed for students to study communications and their practices for entry into media businesses, and corporate and non-profit settings. The curriculum provides knowledge of media organizations and their operations, theoretical frameworks of strategic communications and media, and their practical application in writing, digital media, public relations, advertising, and other communications practices.

III. Design and Digital Media

The Design and Digital Media area of specialization is designed for students to study graphic design, digital imaging, and Web design for entry into positions in print and Web design, and publishing organizations. The curriculum emphasizes visual literacy and design history,
theory, and technique. The practicum provides students with the opportunity to develop skills and competence using professional design software in one or more areas of practical and aesthetic application: graphic design, digital imaging, and the Web.

Note: Courses may only be used once to fulfill a requirement area.

IV. Journalism

The specialization in Journalism prepares students for entry-level positions in print, broadcast, online, and converged journalism. In an era where media is “everywhere,” the specialization also prepares students to critically produce, understand, and interrogate reporting and production practices, even if they are not full-time journalists. The curriculum also provides students with a broad background in communication and in English language, linguistics, and literature, and with the development of writing and reportorial skills suited to contemporary journalism. This area of concentration is offered in collaboration with the Department of English.

Department of Performing and Creative Arts

Center for the Arts 1P

Kevin Judge, Chairperson and Associate Professor

Professors: Sylvia Kahan, Beatrix Reinhardt, Nanette Solamon, George Emilio Sánchez, Maurya Wickstrom.

Associate Professors: Tracey Jones, Kevin Judge, Charles Thomas, Marianne Weil, Siona Wilson. Assistant Professors: Miguel Aragón, Dan Auerbach, William Bauer, Sean F. Edgecomb, David Keberle, and Chris Verene.

Lecturer: Michael Morreale. Higher Education Assistants: Craig Manister, Jennifer Straniere.

The department offers BA and BFA degrees. The areas in which degrees are offered include Art, (with concentrations in Photography and Studio Art), Drama; and Music (with concentrations in Classical Performance, Theory and Literature; Music Technology; and Jazz Studies and Performance). There is also a Dramatic Literature concentration jointly offered with the Department of English. Students may minor in Art, Dance, Dramatic Arts, Music and Photography. Assistant Professor William Bauer is the director of the Interdisciplinary Bachelor's degree program in American Studies.
The department serves the needs of students who wish to pursue both the practice and the theory of the arts. In addition to preparing students majoring in the arts and those planning to continue in graduate school, the department’s courses meet the needs and interests of students in the liberal arts and sciences and in career programs, and foster the role of the arts within the framework of a liberal education.

**Art**

(Bachelor of Arts, Bachelor of Fine Arts, Minor)
(Photography Minor)
Department of Performing and Creative Arts, Center for the Arts (1P), Room 203
Chairperson and Associate Professor Kevin Judge

The Art program is designed for students interested in both studio art and art history. The department is located in the Center for the Arts with outstanding studio and workshop spaces.

Art Courses (p. 200)
Photography Courses (p. 332)

**Art (BA)**

The program offers two concentrations in the BA degree in Art. They are: Studio Art and Photography.

**Studio Art Concentration**

| ART 250  | Intermediate Sculpture (RNL) |
| ART 275  | Studio Art Theory and Practice (RNL) |
| ART 320  | Advanced Drawing (RLN) |
| ART 325  | Portrait Drawing III (RLN) |
| ART 330  | Advanced Painting (RLN) |
| ART 345  | Intermediate Printmaking (RLN) |
| ART 350  | Advanced Sculpture (RLN) |
| ART 375  | Intermediate Studio Art Theory and Practice (RNL) |
| ART 445  | Advanced Printmaking (RLN) |
C. An additional 17 credits from art history or studio art courses beyond the 100 level.

NOTE: ART 320, ART 325, ART 330, ART 350, and ART 445 may be repeated for credit and ART 212 may be repeated once for credit. ART 305 may only be used once toward fulfilling these 17 additional credits; it does not fulfill any of the art history requirements. ART 305 may be repeated once for elective credit, with the permission of the instructor.

D. Foreign Language Requirement: (0-4 credits)
Demonstration of proficiency in a language through the intermediate level, 213 or above.

Electives: 26-30 credits

Total Credits Required: 120

Photography Concentration

Pre-Major Requirements: 17 credits
Students planning to major in Art with the Photography concentration must complete the following pre-major courses, some of which may also satisfy general education requirements.

Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 200</td>
<td>History of Art to the Renaissance (RLA)</td>
<td>4</td>
</tr>
<tr>
<td>ART 201</td>
<td>History of Art after the Renaissance (RLA)</td>
<td>4</td>
</tr>
<tr>
<td>PHO 101</td>
<td>Introduction to Photography (RLA)</td>
<td>3</td>
</tr>
</tbody>
</table>

And one of the following: (3 credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 130</td>
<td>Introductory Painting (RNL)</td>
<td>3</td>
</tr>
<tr>
<td>ART 150</td>
<td>Introductory Sculpture (RNL)</td>
<td>3</td>
</tr>
</tbody>
</table>

Major Requirements: 34-38 credits

It is recommended that students complete an internship with an artist/photographer, museum, gallery or foundation.

A. Photography Courses (12 credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHO 201</td>
<td>Introduction to Darkroom Techniques (RLA)</td>
<td>3</td>
</tr>
</tbody>
</table>

AND

Nine additional credits of photography courses at or above the 200-level, including one course at the 300- or 400-level. (9 credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHO 206</td>
<td>Digital Photography (RNL)</td>
<td>3</td>
</tr>

</table>

PHO 215 | Historical & Alternative Photographic Processes (RNL) | 4       |

PHO 220 | Intermediate Photography (RLA)             | 3       |

PHO 230 | Color Photography (RNL)                    | 3       |

PHO 235 | Fashion Photography (RLA)                  | 3       |

PHO 240 | Documentary Methods in Photography (RLA)   | 3       |

PHO 250 | Studio Photography I (RLA)                 | 3       |

PHO 305 | Photography In New York (RLA)              | 3       |

PHO 307 | Fine Art Digital Printing (RNL)            | 3       |

PHO 314 | Contemporary Issues in Photography (RLN)   | 4       |

PHO 315 | Visiting Artist Workshop (RLN)             | 3       |

PHO 320 | The Photographic Portfolio (RNL)           | 3       |

PHO 360 | Studio Photography II (RLN)                | 3       |

PHO 365 | Conceptual and Aesthetic Concerns of Image Making - Photography III (RLA) | 4       |

B. Art History Courses (8 credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 303</td>
<td>History of Photography (RLA)</td>
<td>4</td>
</tr>
</tbody>
</table>

AND

One additional art history course at or above the 200-level. (4 credits)

C. The remaining 14 credits can be chosen from courses in ART and PHO beyond the 100 level. (14 credits)

ART 305 may only be used once toward fulfilling these 14 additional credits; it does not fulfill any of the art history requirements. ART 305 may be repeated once for elective credit, with the instructor permission.

D. Foreign Language Requirement: (0-4 credits)
Demonstration of proficiency in a language through the intermediate level, 213 or above.

Electives: 23-27 credits

Total Credits Required: 120

Note: Courses may only be used once to fulfill a requirement area except PHO 315 which may be repeated three times. ART 305 may be repeated once for elective credit with instructor permission, but does not fulfill any of the art history requirements.

Liberal Arts and Sciences Requirement
All studio art and photography courses are non-liberal arts and sciences. Most photography classes are non-liberal arts and sciences, except: PHO 305, PHO 314 and PHO 365.

Honors
To graduate with honors in art a student must have a 3.5 grade point average in art courses and must complete a body of independent work approved by one or more full-time art faculty advisors. The work should be presented in an exhibition if possible. Art history students may undertake the writing of a research paper with the approval and supervision of a faculty adviser.

Art (BFA)
The Bachelor of Fine Arts (BFA) degree in Art is intended for students who have serious ambitions towards becoming practicing artists and/or photographers who may also aim to further their studies with an advanced degree. It provides intensive instruction in art history, drawing, painting, printmaking, photography, and sculpture as well as a broad liberal arts education. The Bachelor of Fine Arts (BFA) in Art offers concentrations in Photography and Studio Art.

All students initially enroll in the Bachelor of Arts (BA) in Art or the Bachelor of Arts (BA) in Art with a concentration in Photography. Departmental approval for admission to the Bachelor of Fine Arts (BFA) in Art degree is required. Students may apply for admission into the Bachelor of Fine Arts (BFA) in Art degree program providing they fulfill the following requirements:

1. Successful completion of ART 120, and two of the following three studio or photo courses; ART 130, ART 150, or PHO 101. Students must also successfully complete the two foundational Art History courses, ART 200 and ART 201. A cumulative 3.0 GPA in these ART courses must be achieved to qualify as an applicant to the BFA program.

2. A positive evaluation by the CSI studio faculty committee of a portfolio containing 15-20 pieces of the student's artwork comprised of work from pre-major studio classes as well pieces produced independently.

*Students interested in the photography concentration are required to take PHO 101.

Students are strongly advised to complete the 100 level courses and ART 200 and ART 201 within the first 60 credits of their education.

Pre-Major Requirements: 17 credits

Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 200</td>
<td>History of Art to the Renaissance (RLA)</td>
<td>4</td>
</tr>
<tr>
<td>ART 201</td>
<td>History of Art after the Renaissance (RLA)</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, students must complete two of the following three courses: (6 credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHO 101</td>
<td>Introduction to Photography (RLA)</td>
<td>3</td>

</table>
ART 345  Intermediate Printmaking (RNL)  3  ART 205  Modern Art in Latin America (RLA)  4  
ART 350  Advanced Sculpture (RNL)  3  ART 207  Nineteenth-Century Art (RLA)  4  
ART 375  Intermediate Studio Art Theory and Practice (RNL)  3  ART 208  Twentieth-Century Art (RLA)  4  
ART 445  Advanced Printmaking (RNL)  3  ART 209  Art and Society in America (RLA)  4  

C. All students enrolled in the ART BFA must complete the following:  
ART 480  Senior Project in Art and Photography (RLA)  3  

D. Foreign Language Requirement (0-4 credits)  
Demonstration of proficiency in a language through the intermediate level, 213 or above.  

Total Credits Required: 120  

It is recommended that students complete an internship with an artist/photographer, museum, gallery, or foundation while studying at CSI.  

Note: Courses may only be used once to fulfill a requirement area except for PHO 315. This class can be repeated three times. ART 305 may be repeated once for elective credit with instructor permission, but does not fulfill any of the art history requirements.  

Liberal Arts and Sciences Requirement  
All studio art/photography courses are non-liberal arts and sciences except PHO 101 and PHO 365. The BFA degree requires a minimum of 30 credits in the liberal arts and sciences.  

Honors  
To graduate with honors in art a student must have a 3.5 grade point average in art courses and must complete a body of independent work approved by one or more full-time art faculty advisors. The work should be presented in an exhibition if possible. Art history students may undertake the writing of a research paper with the approval and supervision of a faculty adviser.  

Art Minor  
Minor (17-18 credits)  
Two different paths may be taken to complete an Art minor:  

Path I: Art History  
ART 200  History of Art to the Renaissance (RLA)  4  ART 220  Intermediate Drawing (RNL)  3 
ART 201  History of Art after the Renaissance (RLA)  4  ART 225  Portrait Drawing II (RNL)  3 

and at least 10 credits of art history beyond the 100 level:  
ART 203  Art of the Ancient World (RLA)  4  ART 230  Intermediate Painting (RNL)  3  

Path II: Studio Art  
Students select three out of the following four courses:  
ART 130  Introductory Painting (RNL)  3  ART 240  Women and the Fine Arts (RLA)  4  
ART 150  Introductory Sculpture (RNL)  3  ART 300  Medieval and Renaissance Art (RLA)  4  
PHO 101  Introduction to Photography (RLA)  3  ART 301  Baroque Art (RLA)  4  

and at least nine credits of studio art courses beyond the 100 level:  
ART 220  Intermediate Drawing (RNL)  3  ART 230  Intermediate Painting (RNL)  3 
ART 245  Printmaking (RNL)  3  ART 250  Intermediate Sculpture (RNL)  3  
ART 275  Studio Art Theory and Practice (RLN)  3  ART 320  Advanced Drawing (RLN)  3 
ART 325  Portrait Drawing III (RLN)  3  ART 330  Advanced Painting (RLN)  3  
ART 345  Intermediate Printmaking (RLN)  3  ART 350  Advanced Sculpture (RNL)  3 

Dance (Minor)

Department of Performing and Creative Arts
Chairperson and Associate Professor Kevin Judge
Coordinator: Associate Professor Charles Thomas, Center for the Arts (1P), Room 224

Dance Courses (p. 234)

Dance Minor

The minor in Dance is available to students in all baccalaureate programs. In conjunction with a major in Psychology, this minor prepares students for graduate work in dance therapy.

Requirements: 18 credits

Required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>DAN 101</td>
<td>Contemporary Dance Technique I (RNL)</td>
<td>2</td>
</tr>
<tr>
<td>DAN 111</td>
<td>Choreography I (RNL)</td>
<td>3</td>
</tr>
<tr>
<td>DAN 184</td>
<td>Afro-Haitian Rhythms I (RNL)</td>
<td>2</td>
</tr>
</tbody>
</table>

Eleven credits to be selected from the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>DAN 112</td>
<td>Choreography II (RNL)</td>
<td>3</td>
</tr>
<tr>
<td>DAN 150</td>
<td>Dance History: Twentieth-Century (RLA)</td>
<td>3</td>
</tr>
<tr>
<td>DAN 171</td>
<td>Improvisation I (RNL)</td>
<td>2</td>
</tr>
<tr>
<td>DAN 172</td>
<td>Improvisation II (RNL)</td>
<td>2</td>
</tr>
<tr>
<td>DAN 231</td>
<td>Fundamentals of Ballet I (RNL)</td>
<td>2</td>
</tr>
<tr>
<td>DAN 232</td>
<td>Fundamentals of Ballet II (RNL)</td>
<td>2</td>
</tr>
<tr>
<td>DAN 261</td>
<td>Modern Jazz Dance I (RNL)</td>
<td>2</td>
</tr>
<tr>
<td>DAN 262</td>
<td>Modern Jazz Dance II (RNL)</td>
<td>2</td>
</tr>
<tr>
<td>DAN 331</td>
<td>Private Study in Dance I (RNL)</td>
<td>2</td>
</tr>
</tbody>
</table>

It is recommended that DAN 160 Modern Dance Technique I or DAN 180 International Folk Dancing be taken as electives; these courses cannot be taken for credit toward the minor. A medical examination form must be on file in the College Health Center (Campus Center) prior to registration for DAN 160 and DAN 180.

Drama

(Bachelor of Science, Minor)

Department of Performing and Creative Arts
Chairperson and Associate Professor Kevin Judge
Drama Program Coordinator: Professor Maurya Wickstrom, Center for the Arts (1P), Room 203

This is a liberal arts Drama major. Students will acquire an inter-disciplinary education while simultaneously developing competence in the history, literature, theory, and practice of theater, performance studies, and performance art. The program is especially designed to introduce students not only to traditional acting but to a broad range of performance practices and their many social and professional applications. These include the development of skills in collaboration, creativity, and self-presentation that are valuable in any profession. Students will have the opportunity to participate in faculty and student productions and, with faculty approval, to initiate their own performance/theater projects.

All courses will include both artistic and academic work. All courses require attendance at theater and performance events in Manhattan and Brooklyn. All prospective Drama majors should request an academic advisor from the Drama faculty, and should expect to work with this advisor to maintain a record of academic excellence.

Drama Courses (p. 236)

Drama (BS)

Core Major Requirements: 56-60 Credits

- DRA 380 Women in Performance (RLA) 4

Music

(Bachelor of Arts, Bachelor of Science, Minor)
Department of Performing and Creative Arts
Chairperson and Associate Professor Kevin Judge
Coordinator: Michael Morreale, Lecturer of Music, Center for the Arts (1P), Room 128-A
Telephone: 718.982.2073

The College of Staten Island offers the following undergraduate degrees in Music:
Bachelor of Arts (B.A.)

Bachelor of Science (B.S.) with concentrations in
- Classical Performance, Literature, and Theory
- Music Technology
- Jazz Studies and Performance

Music Courses (p. 318)

Music (BA)

The Bachelor of Arts in Music degree provides basic training in all areas of music and serves as a foundation for graduate study of any specialized aspect of the field. It requires no fewer than four consecutive semesters of courses in music theory, musicianship, and music history. All sequences begin in the fall. Prospective majors must plan their programs so that they are prepared to begin major courses in a fall semester at least two years before they plan to graduate. It is preferable to begin the 200-level major courses three years before graduation to allow time in the senior year for advanced electives.

Students must complete or exempt through examination MUS 120 and MUS 123 or MUS 124 and complete and pass MUS 125 (spring semester) before taking 200-level theory, musicianship, or music history classes. Prospective majors must earn a minimum grade of B- in all three courses or proficiency exams in order to declare the Music major. Once you have taken or been exempted from these courses, you may file your Music major declaration with the Registrar. The declaration form is available at www.csi.cuny.edu/registrar/importantforms.

In order to declare the BA in Music students must complete the following:
• ENG 111, ENG 151, COR 100, PED 190 before entering the first semester of 200-level Music major courses, preferably within the first 36 credits.

• ENG 151 is the pre or corequisite for Music History I-IV. This course satisfies the General Education requirement of a second level writing course.

• Students must complete or exempt through examination MUS 120 and MUS 123 or MUS 124, and complete and pass MUS 125 (spring semester) before taking 200-level theory, musicianship, or music history classes. Prospective majors must earn a minimum grade of B- in all three courses or proficiency exams in order to declare the Music major.

• Piano skills are critical for all musicians. All potential Music majors must demonstrate elementary proficiency at the piano before declaring the major. Students should plan to fulfill this requirement no later than the Spring semester in which they take MUS 125. Students entering CSI with limited keyboard background may take MUS 123 Piano I and, if necessary, MUS 124 Piano II (both of which are offered every semester) as a pre-major requirement, or they may take private lessons in piano at their own expense. The Music Program has a list of recommended piano teachers.

• All Music majors are expected to have a working knowledge of a music notation software program such as Sibelius (the program used in the CSI Music Lab) or Finale before they enter the major. Basic Sibelius skills are taught in MUS 125 Introduction to Music Theory. Transfer students and other students who do not take MUS 125 are required to acquire basic knowledge of a music software program by the end of MUS 225 Music Theory I.

In addition to ENG 111, ENG 151, COR 100, and PED 190, students must complete an ENH 200-level course in order to register for any music courses at the 300-level and above.

The BA in Music offers students a strong general music education. All undergraduate music majors include training in performance, musicianship, music theory, and music history, in the context of a strong liberal-arts degree program. It provides basic training in all areas of music and services as foundation for graduation study of an aspect of the field. Many other subjects, including composition, jazz studies, and music technology, are available as electives.

Requirements: 40-49 credits

Pre-Major requirements for the BA in Music: 0-5 credits

Advanced Music elective: one course at the 200-level or above (2-4 credits)

AND

Foreign Language Requirement (0-4 credits)

Demonstration of proficiency in a language through the intermediate level, 213 or above.

Electives: 34-38 credits

Total Credits Required: 120

A student must earn a grade of C or higher in all prerequisite Music courses in order to advance to the next core course in the sequence of required courses. Exceptionally, a student who receives a D may be given permission to continue in the sequence if recommended by both the instructor and the full-time Music faculty.

Ensemble Requirement

Participation in all ensembles is contingent on an audition and permission of a full-time Music faculty member. All music students are required to participate in a minimum of four semesters of a performing ensemble. Enrollment in a performing ensemble course each semester is encouraged. Ensemble courses taken after the fourth semester may count as electives, but will not apply toward the credits required for the BA in Music.

Private Instruction in Voice and Instrument

The college funds private lessons for a limited number of qualified Music majors in the B.A. program. Students who are pursuing a major in Music, who earn a 2.7 GPA in required pre-major or core Music courses and who are making appropriate progress toward fulfilling the degree requirements, are eligible for enrollment in college-funded private instruction for credit. Admission into private instruction is determined by audition, which must take place prior to registration in MUS 181. In order to qualify for private lessons, students will be asked to perform major and minor scales and arpeggios, two prepared pieces, and will be asked to read a short musical composition at sight. In the B.A., private lessons are elective. Students enrolled in private lessons must maintain a 2.7 cumulative average in core music courses. For each semester of private lessons, the student must be enrolled in at least six credits of music classes and must be enrolled in an Ensemble. These courses (MUS 181, MUS 191, MUS 281, MUS 291, MUS 381, MUS 391, MUS 481, MUS 491)—which may not be repeated—are non-liberal arts and sciences courses and should be taken in sequence. Performance Workshop (MUS 180, MUS 190, MUS 280, MUS 290, MUS 380, MUS 390, MUS 480, MUS 490) is co-requisite with private lessons. Students who are enrolled in college-funded lessons must satisfy the following criteria in order to remain eligible on a semester-by-semester basis:

1. earn an average GPA of 2.7 in pre-major or core Music courses;

2. receive a grade of B in the juried examination that takes place at the end of each semester;

3. make satisfactory progress towards completing the B.A. in Music through:
   a. full-time enrollment status at CSI (12 credits or more for each semester of lessons);
   b. enrollment in 6 or more credits of Music courses in each semester of study;

4. be enrolled in an ensemble for each semester of enrollment in private lessons.

Enrollment in Chamber Music and Other Small Ensembles

The college funds enrollment in chamber music, small jazz ensembles, and other small ensembles for a limited number of qualified Music majors. Students who are pursuing a major in Music and who are making appropriate progress toward fulfilling the degree requirements are eligible for enrollment in college-funded private instruction for credit. Admission into small ensembles is determined by audition, which must take place prior to registration in MUS 115.

Students enrolled in chamber music, small jazz ensembles, and small ensembles must maintain a 2.7 cumulative average in academic music classes (theory, history, and musicianship). For each semester of private lessons, the student must be enrolled in at least six credits of music classes. (Some flexibility is possible for first- and last-semester students.) Students may receive credit for a maximum of eight semesters of private lessons. These courses (MUS 115, MUS 116, MUS 215, MUS 216) are non-liberal arts and sciences courses and should be taken in sequence. MUS 216 may be repeated for credit. Students who are enrolled in college-funded small ensembles must satisfy the following criteria in order to remain eligible on a semester-by-semester basis:

1. rehearse with the ensemble every week;
2. give a public performance, which serves as a final examination, at the end of each semester of enrollment;
3. maintain full-time enrollment status at CSI (12 credits or more for each semester of ensemble);
4. make satisfactory progress toward completing the Music degree.

Junior and Senior Project Courses

Courses numbered MUS 383, MUS 394, MUS 483, and MUS 494 are project courses. They are available to Music majors who wish to perform a full-length public recital, write a large-scale composition, or complete a research project in music theory or music history of significant scope and length. A full-time music faculty member and/or applied music instructor must supervise any of these endeavors.

Students who wish to enroll in MUS 383 Junior Project in Performance and MUS 483 Senior Project in Performance must fulfill the following requirements:
1. be enrolled in private lessons with a CSI applied music professor for no fewer than two consecutive semesters prior to registering for a junior or senior recital;
2. earn a grade of B+ or higher every semester before enrollment in junior or senior recital;
3. maintain full-time enrollment status at CSI (12 credits or more for each semester of ensemble); and
4. at the end of the semester before the recital, perform before a jury of Music faculty members a 20-minute audition of music in diverse styles representative of the repertoire to be performed on the recital.

At the request of the student, when the grade point average warrants the appellation, these courses may be designated as Junior Honors Project or Senior Honors Project. Juniors who hope to enroll in either MUS 383 or MUS 393 must have completed at least 25 credits of the general education requirement, including ENG 151, COR 100, and PED 190.

Honors

To graduate with honors in Music a student must have a 3.5 grade point average in music courses and must complete an honors thesis in composition or performance under the supervision of a full-time faculty member.

Liberal Arts and Sciences Requirement

For the BA in Music, at least 90 credits must be in liberal arts and sciences courses. For the BS in Music, at least 60 credits must be in liberal arts and sciences courses. Music performance courses are non-liberal arts and sciences.

Music (BS)

The B.S. degree in Music is intended for musically and academically talented students who have serious ambitions in the field of music performance, teaching, scholarship, or related fields. It provides intensive instruction in the student's major instrument or voice, as well as solid training in music theory, history, technology, and a broad, liberal arts education. Admission to this program is conditional on passing an audition demonstrating a high level of skill in performance.

Students accepted into this program generally begin the degree in their second year in the Music major, after the completion of MUS 204, MUS 224, MUS 226 and MUS 244, and MUS 258 for student's wishing to pursue the Music Technology concentration. In addition to performance classes, the degree requires no fewer than four semesters of advanced courses (300-level and above). All sequences begin in the Fall. Prospective majors must plan their programs so that they are prepared to begin major courses in a Fall semester at least three years before they plan to graduate to allow time in the senior year for advanced electives and the completion of a Senior Project.

All Music students at CSI begin in the Bachelor of Arts degree. During the second year as a declared music major, students must complete MUS 203, MUS 223, MUS 225, and MUS 243 and must earn a GPA of 2.7 in these Music courses, and must have a GPA of 2.5 overall in order to enter the BS degree program.

Applications for the B.S. in Music with a Music Technology concentration will be accepted during the student's second year as a declared music major. Eligibility for the B.S. with a Music Tech concentration will be determined based on a special interview/audition. Students who wish to apply for this program must also submit a digital audio recording no more than 15 minutes in length of examples of the student's most recent work in the field of Music Technology.

Entry into the B.S. concentrations in Performance, Literature, and Theory (Classical or Jazz) requires application and a special audition, usually taken during the second year in the B.A. Auditions for entrance into the B.S. degree program are held in the Spring semester of the second year, usually in March.

To schedule an audition, please call the Department of Performing and Creative Arts at (718) 982-2520 at least three weeks prior to the audition date. In preparing for the audition, we suggest that you choose two contrasting selections that best demonstrate your technique and musicianship. These selections should be chosen from the standard classical repertoire and should represent different styles and periods. Memorization is recommended, but not required. Singers should prepare at least one work in a language other than English. All auditioners should also bring copies of the music to the audition to give to the accompanists that will be provided for you. All who audition should be able to read musical notation comfortably.
For students who wish to pursue a concentration in Classical Performance, French or Italian is recommended.

In addition to ENG 111, ENG 151, COR 100, and PED 190, students must complete an ENH 200-level course in order to register for any music courses at the 300-level and above. Please refer to the section in the Undergraduate Catalog on general education requirements (p. 54) for approved course lists and complete details.

Requirements for the BS in Music (59-72 credits)

Pre-Major Requirements (0-5 credits)

MUS 120  Rudiments of Music (RLA)  3

OR

MUS 125  Introduction to Music Theory (RLA)  3

MUS 123  Piano I (RNL)  1
MUS 124  Piano II (RNL)  1

MUS 120, MUS 123, MUS 124, MUS 125: may be waived through examination

MUS 125: Students who intend to declare the BA in Music should complete MUS 125 in the Spring semester before declaration of the major.

MUS 123 is only offered in the Spring semester.

A minimum grade of B- must be earned in all required pre-major courses in order to advance to core Music courses at the 200-level.

Major Requirements for the BS in Music (59-67 credits)

Students must earn a grade of B in MUS 125 and make progress toward completing the piano proficiency requirement before registering for the Music major sequence, which begins in the second year. The standard sequence of courses is MUS 203, MUS 223, MUS 225, and MUS 243, taken in the fall semester, and MUS 204, MUS 224, MUS 226 and MUS 244, taken in the spring semester. Music majors should request an advisor from the full-time Music faculty. Each student chooses one area of concentration beyond the core course requirements. Concentrations are available in classical Performance, Theory and Literature; Music Technology, and Jazz Studies and Performance.

Students in the BS program (Concentration in Classical Performance, Theory and Literature, Music Technology, and Jazz Studies and Performance) must earn a B- or higher in all Music courses in order to advance to the next core course in the sequence of required courses. Retention in the major requires a 2.7 GPA in core Music courses and a 2.5 GPA overall. Exceptionally, students who receive grades lower than a B- in Music courses may be given permission to continue in the sequence if recommended by both the instructor and full-time music faculty.

**A. Concentration in Classical Performance, Theory, and Literature (13-15 credits)**

1. **Advanced Music History Requirement (3 credits)**
   
   One course from the following:
   - MUS 400 The Music of J.S. Bach (RLA) 3
   - MUS 402 Major Composer I (RLA) 3
   - MUS 403 Major Composer II (RLA) 3
   - MUS 450 History and Literature of the Symphony (RLA) 3
   - MUS 460 History and Literature of Chamber Music (RLA) 3
   - MUS 470 History and Literature of Opera (RLA) 3

2. **Advanced Music Theory/Composition Requirement (2-3 credits)**
   
   One course from the following:
   - MUS 242 Harmonic Practice in the Jazz Tradition (RLA) 3
   - MUS 258 Introduction to Music Technology (RLA) 3
   - MUS 270 Composition I (RLN) 2
   - MUS 360 Twentieth-Century Directions (RLA) 3

3. **Senior Project (3 credits)**
   
   One course from the following:
   - MUS 473 Senior Project (Composition) (RLA) 3

**MUS 144, MUS 145, MUS 249, MUS 349: Students in the Concentration in Jazz Studies and Performance must take MUS 144, MUS 145, MUS 249, MUS 349 in order to satisfy the Ensemble requirement. MUS 249 and MUS 349 may be repeated in order to satisfy the Ensemble requirement.**

**B. Concentration in Jazz Studies and Performance (11-14 credits)**

1. **Required courses (8 credits)**
   
   One course from the following list: (3 credits)
   - MUS 242 Harmonic Practice in the Jazz Tradition (RLA) 3
   - MUS 338 Innovators in Jazz (RLA) 3
   - MUS 340 Arranging for Jazz Ensemble (RLN) 2

2. **Advanced Music Theory and/or Performance**
   
   Once course from the following list: (3 credits)
   - MUS 339 Jazz Composition and Analysis (RLN) 3
   - MUS 483 Senior Project (Performance) (RLN) 3

**C. Concentration in Music Technology Concentration (15 credits)**

Five courses from the list below:
- MUS 258 Introduction to Music Technology (RLA) 3
- MUS 365 Multitrack Recording (RLN) 3
- MUS 366 Multitrack Mixing and Mastering (RLA) 3
- MUS 361 Audio for Moving Images (RLA) 3
- MUS 362 Performance with Computer and Electronics (RLA) 3

Students may also choose one of the following to fulfill the 15-credit Music Technology requirements:
- MUS 473 Senior Project (Composition) (RLA) 3
- MUS 483 Senior Project (Performance) (RLN) 3

**4. Electives (5-6 credits)**

Choose two upper-level courses from the list below or from list 1, 2, or 3.
- MUS 301 Improvisation (RLN) 2
- MUS 338 Innovators in Jazz (RLA) 3
- MUS 361 Audio for Moving Images (RLA) 3
- MUS 362 Performance with Computer and Electronics (RLA) 3
- MUS 365 Multitrack Recording (RLN) 3
- MUS 366 Multitrack Mixing and Mastering (RLA) 3
- MUS 373 Junior Project (Composition) (RLA) 3
- MUS 383 Junior Project (Performance) (RLN) 3
- MUS 393 Junior Project Research (RLA) 3

Foreign Language Requirement: 0-4 credits
Demonstration of proficiency through the intermediate level, 213 or above.
For students who wish to pursue a concentration in Classical Performance, French or Italian is recommended.

Electives: 6-19 credits

Total Credits Required: 120

Private Instruction in Voice and Instrument
Four semesters of private instruction in voice or an instrument are required for the B.S. degree. Students who are pursuing a major in Music, who earn a 2.7 GPA in required pre-major or core Music courses, who earn a 2.5 GPA overall, and who are making appropriate progress toward fulfilling the degree requirements are eligible for enrollment in college-funded private instruction for credit. Admission into private instruction is determined by audition, which must take place prior to registration in MUS 181. In order to qualify for private lessons, students will be asked to perform major and minor scales and arpeggios, two prepared pieces, and will be asked to read a short musical composition at sight. In the BA, private lessons are elective.

Students enrolled in private lessons must maintain a 2.7 cumulative average in core music courses. For each semester of private lessons, the student must be enrolled in at least six credits of music classes and must be enrolled in an Ensemble. These courses (MUS 181, MUS 191, MUS 281, MUS 291, MUS 381, MUS 391, MUS 481, MUS 191)—which may not be repeated—are non-liberal arts and sciences courses and should be taken in sequence. Performance Workshop (MUS 180, MUS 190, MUS 280, MUS 290, MUS 380, MUS 390, MUS 480, MUS 490) is co-requisite with private lessons. Students who are enrolled in college-funded lessons must satisfy the following criteria in order to remain eligible on a semester-by-semester basis:

1. earn an average GPA of 2.7 in pre-major or core Music courses and a 2.5 GPA overall;
2. receive a grade of B in the juried examination that takes place at the end of each semester;
3. make satisfactory progress towards completing the B.S. in Music through:
   a. full-time enrollment status at CSI (12 credits or more for each semester of lessons);
   b. enrollment in 6 or more credits of Music courses in each semester of study;
4. be enrolled in an ensemble for each semester of enrollment in private lessons.

Enrollment in Chamber Music and Other Small Ensembles
The College funds enrollment in chamber music and other small ensembles for a limited number of qualified Music majors. Students who are pursuing a major in Music and who are making appropriate progress toward fulfilling the degree requirements are eligible for enrollment in College-funded private instruction for credit. Admission into small ensembles is determined by audition, which must take place prior to registration for MUS 115.

Students enrolled in private lessons must maintain a 2.7 cumulative average in academic music classes (theory, history, and musicianship). For each semester of private lessons, the student must be enrolled in at least six credits of music classes. (Some flexibility is possible for first- and last-semester students.) Students may receive credit for a maximum of eight semesters of private lessons. These courses (MUS 115, MUS 116, MUS 215, MUS 216) are non-liberal arts and sciences courses and should be taken in sequence. MUS 216 may be repeated for credit. Students who are enrolled in College-funded small ensembles must satisfy the following criteria in order to remain enrolled on a semester-by-semester basis:

1. rehearse with the ensemble at least six hours per week;
2. give a public performance, which serves as a final examination, at the end of each semester of enrollment;
3. maintain full-time enrollment status at CSI (12 credits or more for each semester of lessons); and
4. make satisfactory progress toward completing the Music degree.

Junior and Senior Project Courses
Courses numbered MUS 373, MUS 383, MUS 393, MUS 473, MUS 483, and MUS 493 are project courses. They are available to Music majors who wish to perform a full-length public recital, write a large-scale composition, or complete...
a research project in music theory or music history of significant scope and length.

Students in the B.S. program (Concentration in Classical Performance, Theory, and Literature) must complete either MUS 473, MUS 483, or MUS 493 as a capstone course. A full-time music faculty member and/or applied music instructor must supervise any of these endeavors.

Students who wish to enroll for Project Courses in Performance must fulfill the following requirements:

1. be enrolled in private lessons with a CSI applied music professor for no fewer than two consecutive semesters prior to registering for a junior or senior recital;
2. earn a grade of B+ or higher every semester before enrollment in junior or senior recital;
3. at the end of the semester before the recital, perform before a jury of Music faculty members a 20-minute audition of music in diverse styles representative of the repertoire to be performed on the recital.

At the request of the student, when the grade point average warrants the appellation, these courses may be designated as Junior Honors Project or Senior Honors Project. Juniors who hope to enroll in either MUS 373 or MUS 383 or MUS 393 must have completed at least 25 credits of the general education requirement, including ENG 151, COR 100, and PED 190.

Honors
To graduate with Honors in Music, a student must have a 3.5 grade point average in music courses and must complete an honors thesis in composition or performance under the supervision of a full-time faculty member.

Liberal Arts and Sciences Requirement
For the BA in Music, at least 90 credits must be in liberal arts and sciences courses. For the BS in Music, at least 60 credits must be in liberal arts and sciences courses. Music performance courses are non-liberal arts and sciences courses.

Music Minor

Music Minor

Pre-Major Requirements: 3-4 credits
MUS 125 Introduction to Music Theory (RLA) 3
MUS 123 Piano I (RNL) 1
MUS 125: Students who intend to minor in Music should complete MUS 125 in the spring semester of their first year at CSI.

Minor Requirements: 18 credits

At least 18 credits of music courses must be completed for the minor. The following core courses are required for the minor:

Music Theory and Musicianship (5 credits)
MUS 223 Keyboard Musicianship I (RNL) 1
MUS 225 Music Theory I (RLA) 3
MUS 243 Musicianship I (RNL) 1

Music History: one course from the following list:
MUS 203 Music History I: History of Jazz (RLA) 3
MUS 204 Music History II - History of Western Music from Antiquity to 1750 (RLA) 3
MUS 303 Music History III: History of Western Music from 1750 to 1900 (RLA) 3
MUS 304 Music History IV: Western Art Music from 1900-Present (RLA) 3

An additional 9-10 credits are to be determined in consultation with a Music faculty Advisor. (9-10 credits)

At a maximum of 2 credits of Ensemble courses at the 100 level (MUS 106, MUS 115, MUS 116, MUS 130, MUS 131, MUS 144, MUS 145, MUS 150, MUS 151, MUS 164, MUS 165) may count towards fulfillment of the minor requirements. MUS 105, MUS 108, and MUS 110 do not count towards fulfillment of the minor requirements. For Music majors switching to the minor: private lessons (MUS 181, MUS 191, etc.) and Performance Workshops (MUS 180, MUS 190, etc.) do not count towards completion of the minor requirements.

Photography
(Minor)
Department of Performing and Creative Arts, Center for the Arts (1P), Room 203
Chairperson and Associate Professor Kevin Judge
Coordinator: Professor Beatrix Reinhardt, Center for the Arts (1P), Room 209

Photography Courses (p. 332)

Photography Minor

Pre-Minor Requirements: 6 credits

Required Courses
PHO 101 Introduction to Photography (RLA) 3
PHO 201 Introduction to Darkroom Techniques (RLA) 3

Minor Requirements: 12 credits

At least 12 credits in photography at or above the 200 level.
The faculty strongly recommends at least one course that emphasizes the theoretical or historical underpinnings of photography chosen from: PHO 220, PHO 365, ART 303 (History of Photography), PHO 314 /ART 314.

**Liberal Arts & Sciences Requirement:**
Since most photography courses are non-liberal arts and sciences, students in this program should pay special attention to this requirement.

**Department of Philosophy**
Marchi Hall 2N
Mark D. White, Chairperson and Professor
Professors: Barbara Montero, Peter Simpson, Mark White.
Associate Professors: Rob Lovering, Stephen Morris.
Assistant Professors: Andrew Lambert.

The department offers a Bachelor's degree, a minor in Philosophy, a minor in Ethics; and it offers a dual major jointly with the Department of Political Science and Global Affairs in Philosophy and Political Science. Courses meet the needs of students in a variety of programs in the liberal arts and sciences, and the department’s programs provide a solid background for a number of careers as well as for graduate or professional school. The minor in East Asian Studies is coordinated by Assistant Professor Andrew Lambert.

**Philosophy**
(Bachelor of Arts in Philosophy, Bachelor of Arts in Philosophy and Political Science, Philosophy Minor, Ethics Minor)
Department of Philosophy, Marchi Hall (2N), Room 224
Chairperson and Professor Mark D. White

Philosophy Courses (p. 328)

**Philosophy (BA)**

**Major Requirements: 28 credits**
At least 28 credits of courses at the 200 level or higher. These 28 credits must include courses in at least three of the following four areas, including a minimum of two in (1) History of Philosophy, and one in (2) Knowledge, Logic, and Scientific Method.

1. History of Philosophy (PHL 200-219, PHL 300-319)
4. Culture and Religion (PHL 240-249, PHL 340-349)

The 28 credits must also include at least two courses at the 300 level and a Senior Seminar (PHL 400, PHL 401, or PHL 490).

In addition, students must complete at least 12 credits of work in related subjects chosen in consultation with an advisor. Relevant areas include history, politics, psychology, sociology, literature, science, law, economics, education, public administration, and the arts. These courses may also be used to satisfy general education requirements.

**Electives: 50 credits**

**Total Credits Required: 120**

**Honors**
To graduate with honors in Philosophy a student must have a 3.5 grade point average in philosophy courses and must complete a thesis or project determined by the student and his or her faculty sponsor and the course POL/ECO/PHL/EG 490 Senior Seminar in Political Science, Economics, Philosophy, and Geography.

**Philosophy Minor**

**Minor Prerequisite course: (3 credits)**
Any 100-level philosophy course

**Minor Requirements (12 credits)**
At least 12 credits in philosophy at or above the 200-level.

**Ethics Minor**

**Minor Requirements: 15 credits**

**Required Courses**

PHL 336  Advanced Topics in Ethics and Social Philosophy (RLA)  4

Department of Political Science and Global Affairs

Marchi Hall 2N
Richard Flanagan, Chairperson and Professor

The department offers a Bachelor’s degree in Political Science and Geography. A dual major is offered jointly with the Department of Philosophy in Philosophy and Political Science. Minors are offered in Geography, Legal Studies, Political Science, and Public Administration. Courses meet the needs of students in a variety of programs in the liberal arts and sciences, and the department’s programs provide a solid background for a number of careers as well as for graduate or professional school. Associate Professor Michael Paris is the advisor to students planning to apply to law school, and is the coordinator of the Legal Studies program.

Geography

(Bachelor of Arts, Minor)
Department of Political Science and Global Affairs
Chairperson and Professor Richard Flanagan
Co-Coordinators: Associate Professor Peter Kabachnik and Associate Professor Cary Karacas, Marchi Hall (2N), Room 230

Geography Courses (p. 277)

Geography (BA)

This program offers students a study of the complex forces that interact to shape the world allowing them to develop an understanding and appreciation of the diversity of the earth's physical and cultural environments, as well as the mutually reinforcing interrelationships between people and places on a variety of scales. For continuation and graduation from the Bachelor of Arts degree program in Geography, students must maintain a minimum cumulative GPA of 2.5.

Geography Major Requirements: 42-46 credits

Pre-Major Requirements: 3 credits
GEG 100  Introduction to Geography (FWGR)  3
GEG 101  World Regional Geography (FWGR)  3

Major Requirements: 39-43 credits

A minimum of 16 credits of geography must be taken at the 300 level or above.

A.
GEG 102  People and Their Environment (RLA)  3
GEG 212  Introduction to GIS (RLA)  4
GEG 400  Geographical Imaginations (RLA)  4

At least two geography courses designated as topics courses.
At least one geography course designated as a regional course.
At least one geography course designated as an environmental course.

B. An additional 12 credits of geography courses at the 300 level or higher.

Geography Internship or Geography Independent Study at the 500-level may be used to satisfy this requirement. Two courses (8 credits) may be taken outside the Geography major with the permission of the Geography advisor.

C. Foreign Language Requirement (0-4 credits)
Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Total Credits Required: 120

NOTE: Geography Independent Study (GEG 591-594) and Geography Internship (GEO 598-599) may be applied toward the major with the permission of a faculty advisor.

Honors

To graduate with honors in Geography a student must have a 3.5 grade point average in geography courses and must complete a thesis or research project determined by the student under the direction of a faculty advisor.

Geography Minor

Minor Requirements: 15 credits

One of the following courses: (3 credits)
GEG 100  Introduction to Geography (FWGR)  3
OR
GEG 101  World Regional Geography (FWGR)  3
OR
GEG 102  People and Their Environment (RLA)  3

And

At least 12 credits at or above the 200 level (12 credits)
Legal Studies

Interdisciplinary Program
Coordinator: Associate Professor Michael Paris
Department of Political Science & Global Affairs, Bldg 2N-226
718.982.3011

Legal Studies Minor

Students in any major may minor in Legal Studies.

Minor Requirements: 16 credits

Required Courses (8 credits)

- POL 222 The American Legal System (RLA) 4
- PHL 331 Legal Philosophy (RLA) 4

And

One course in Legal Philosophy and American Constitutionalism chosen from among the following: (4 credits)

- PHL 336 Advanced Topics in Ethics and Social Philosophy (RLA) 4
- POL 336 American Constitutional Law (RLA) 4
- POL 338 Civil Rights and Liberties (RLA) 4

And

One course in Law, Courts, and Public Policy chosen from among the following: (4 credits)

- POL 223 Public Administration (RLA) 4
- POL 233 CUNY Internship Program in New York Government and Politics I (RLA) 4
- POL 234 CUNY Internship Program in New York Government and Politics II (RLA) 4
- POL 237 Criminal Courts and Defendants’ Rights (RLA) 4
- POL 238 Criminal Law and Procedure (RLA) 4
- ECO 331 Law and Economics (RLA) 4
- POL 320 The Judiciary in Politics (RLA) 4
- POL 321 Race, Law, and Public Policy in the Contemporary United States (RLA) 4
- POL 323 Public Policy Analysis (RLA) 4

Political Science

(Bachelor of Arts, Dual Major with Philosophy, Minor)
Department of Political Science and Global Affairs
Chairperson and Professor Richard Flanagan

Marchi Hall (2N), Room 224

Political Science Courses (p. 337)

Political Science (BA)

Pre-Major Requirements: 6-7 credits

Required Courses

- POL 100 American Government and Politics (FUSR) 3
  OR
- POL 235 The American Political System (RLA) 4
  AND
- POL 103 Understanding the Political World: An Introduction to Political Science (FWGR) 3

Major Requirements: 36-44 credits

In addition to the pre-major requirement, 36 credits in Political Science, including 16 credits at the 300-level or above, and at least one course in each of the four sub-fields of political science (Political Theory, American Politics, Comparative Politics, and International Politics) at the 200-level or above.

1. Courses in Political Theory (POL 200-219, 300-319)
2. Courses in American Politics other than POL 235 (POL 220-234, 236-239, 320-339)
3. Courses in Comparative Politics (POL 240-259, 340-359)
4. Courses in International Politics (POL 260-279, 360-394)

Students must demonstrate either proficiency in a foreign language through the intermediate level, 213, or proficiency in research methods through successful completion of MTH 113 and POL 198.

NOTE: Political Science courses numbered above the 300-level, and Independent Study and Internship credit at the 500-level, apply toward the major, and, with the permission of a faculty advisor, can be used to satisfy the requirement that students take one course in each of the four subfields of political science.

Total Credits Required: 120

Honors

To graduate with honors in Political Science, a student must have a 3.5 grade point average in political science courses and must complete a thesis or research project determined by the student under the direction of a faculty sponsor.
Political Science Minor

Requirements: 22-23 credits

Required Courses

POL 100 American Government and Politics (FUSR) 3
OR
POL 235 The American Political System (RLA) 4
AND
POL 103 Understanding the Political World: An Introduction to Political Science (FWGR) 3

An additional 16 credits of POL courses including at least one at the 300 level or higher.

Public Administration

Interdisciplinary Program
Coordinators: Professor Richard Flanagan, Associate Professor Vasilios Petratos

Public Administration Minor

Students in any major may minor in Public Administration.

Minor Requirements: 15-16 credits

Required courses:

MGT 223 Public Administration (RLA) 4
SOC 274 Social Welfare (RLA) 4
MGT 320 Management of Organizational Behavior (RNL) 4

NOTE: SOC 370 Urban Sociology may be substituted for SOC 274 with permission of a program coordinator.

One course from the following list:

Economics
ECO 392 Urban Economics (RLA) 4
ECO 330 Public Finance (RLA) 4
ECO 338 Government and Business (RLA) 4

Management
MGT 322 Human Resource Administration (RNL) 4
SOC 380 Sociology of Organizations (RLA) 4

Government
POL 231 City Hall and Albany (RLA) 4
MGT 323 Public Policy Analysis (RLA) 4
MGT 339 Administrative Law (RLA) 4
HST 248 New York City: History and Problems (RLA) 4
HST 251 History of the U.S. City (RLA) 4
POL 233 CUNY Internship Program in New York Government and Politics I (RLA)
(or another internship for at least 3 credits)

Department of Psychology

Building 4S
Kathleen (Katie) Cumiskey, Chairperson and Associate Professor
Professors: Sarah Berger, Patricia Brooks, Darryl Hill, John Lawrence, Edward Meehan, Bertram Ploog, Irina Sekerina, Nan Sussman.
Associate Professors: Comfort Asanbe, Florette Cohen, Kathleen (Katie) Cumiskey, Darryl Hill, Dan McCloskey.
The department offers both Bachelor of Arts and Bachelor of Science degrees. Students can also earn a minor in psychology which can be combined with many other majors. In addition, the department offers and Advanced Certificate in Autism Spectrum Disorders and the Master of Arts degree in Clinical Mental Health Counseling. The department participates in the Master’s program in Neuroscience, Mental Retardation, and Developmental Disabilities. The director of the Master's degree program in Clinical Mental Health Counseling is Dr. Frances Melendez. The coordinator of the Advanced Certificate in Autism Spectrum Disorder is Dr. Kristen Gillespie-Lynch.

Psychology

(Bachelor of Arts, Bachelor of Science, Minor)
Department of Psychology, Building 4S, Room 108
Chairperson and Professor Betram Ploog
(See the Graduate Catalog for information on graduate programs.)

Psychology Courses (p. 343)

Psychology (BA)

Degree Requirements for the Psychology BA

Pre-Major Requirements: 7 credits
PSY 100 Psychology (FISR) 3
MTH 123 College Algebra and Trigonometry (RMQR)
MTH 123 or higher (except MTH 217/MTH 218)
A minimum grade of C is required in both PSY 100 and MTH 123 or higher (except MTH 217/MTH 218). Students will be allowed to repeat courses, if necessary.

Major Requirements: 38-42 credits
Effective Fall 2015 for entry, continuation, and graduation from the Bachelor of Arts in Psychology, students must have at minimum 2.5 grade point average (GPA).

Psychology majors must complete:

A.  
PSY 201  Foundations of Psychological Research (RLA)  4  
PSY 266  Statistics in Psychology (RLA)  4  
PSY 352  History and Systems of Psychology (RLA)  4  

and a psychology laboratory course chosen from:  
PSY 330  Experimental Psychology: Cognition and Perception (RLA)  6  
OR  
PSY 333  Experimental Psychology: Learning and Behavior (RLA)  6  
OR  
PSY 334  Experimental Psychology: Social and Personality (RNL)  6  
OR  
PSY 335  Experimental Psychology: Child Development (RNL)  6  

B. Twenty additional credits in psychology at the 200 level or higher including at least four credits at the 300 or 400 level. (20 credits)  
Courses should be chosen in consultation with an advisor in accordance with student goals for graduate study. PSY 593, PSY 594, PSY 597, and PSY 598 may count (for up to 4 credits) as equivalent to a 200-level course.  

C. Foreign Language Requirement (0-4 credits)  
Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.  

Electives: 33-37 credits  

Total Credits Required: 120  
PSY 103, PSY 211, PSY 340, and PSY 368 are non-liberal arts and science courses.  

Honors  
To graduate with honors in Psychology, students must have and maintain a 3.5 grade point average in their psychology courses. They must also complete an honors thesis under the supervision of a Psychology faculty member. Typically, these are research projects that span more than one semester of work. These are graded by the supervisor (pass/fail) based on the feedback received by two other faculty readers. The department as a whole votes to confer honors on students at the April department meeting. It is expected that these will be presented at a suitable research conference or the annual CSI Undergraduate Research Conference. To meet these deadlines, the final thesis must be completed by April 1 for June or August graduation, and November 1 for January graduation.  

Psychology (BS)  
Degree Requirements for the Psychology BS  
(Recommended for Pre-Neuroscience, Pre-Medicine, and Pre-Physical Therapy students)  

Pre-Major Requirements: 7 credits  
PSY 100  Psychology (FISR)  3  
MTH 123  College Algebra and Trigonometry (RMQR)  4  
MTH 123 or higher (except MTH 217/MTH 218). A minimum grade of C is required in both PSY 100 and MTH 123 or higher (except MTH 217/MTH 218). Students will be allowed the repeat the courses, if necessary.  

Major Requirements: 42 credits  
Effective Fall 2015 for entry, continuation, and graduation from the Bachelor of Science in Psychology, students must have at least a 2.5 grade point average (GPA).  

A.  
PSY 201  Foundations of Psychological Research (RLA)  4  
PSY 266  Statistics in Psychology (RLA)  4  
PSY 352  History and Systems of Psychology (RLA)  4  

B.  
PSY 242  Developmental Psychology (RLA)  4  

and one course in Physiological Psychology  
PSY 232  Physiological Psychology: Cognitive and Behavioral Neuroscience (RLA)  4  
OR  
PSY 239  Physiological Psychology: Motivated Behavior (RLA)  4  

and one course in Cognitive Psychology  
PSY 288  Cognitive Psychology (RLA)  4  
OR  
PSY 342  Language Development (RNL)  4  
OR  
PSY 385  Psychology of Memory (RNL)  4  

C. A psychology laboratory course chosen from:  
PSY 330  Experimental Psychology: Cognition and Perception (RLA)  6  
PSY 333  Experimental Psychology: Learning and Behavior (RLA) 6
OR
PSY 334  Experimental Psychology: Social and Personality (RNL) 6
OR
PSY 335  Experimental Psychology: Child Development (RNL) 6

D. Twelve additional credits in psychology at the 200-level of higher. (20 credits)

These additional 12 credits in psychology at the 200-level or higher including at least four credits at the 300- or 400-level. Courses should be chosen in consultation with an advisor in accordance with student goals for graduate study. Please note: PSY 593, PSY 594, PSY 597, and PSY 598 may count (for up to 4 credits) as equivalent to a 200-level course.

Electives: 37 credits

Total Credits Required: 120

Honors

To graduate with honors in Psychology, students must have and maintain a 3.5 grade point average in their psychology courses. They must also complete an honors thesis under the supervision of a Psychology faculty member. Typically, these are research projects that span more than one semester of work. These are graded by the supervisor (pass/fail) based on the feedback received by two other faculty readers. The department as a whole votes to confer honors on students at the April department meeting. To meet these deadlines, the final thesis must be completed by April 1 for June or August graduation, and November 1 for January graduation.

Psychology Minor

Pre-minor requirement

Required Course
PSY 100  Psychology (FISR) 3

Requirements: 16 credits

Any four PSY courses at the 200 level or higher.

Sociology and Anthropology (Bachelor of Arts, Minor)

Department of Sociology and Anthropology, Building 4S, Room 223
Chairperson and Associate Professor Jeanne Halley

The joint major in Sociology and Anthropology offers several options: most of the 40-44 credit requirement may be met by courses in sociology or in anthropology, according to the student’s primary interest; courses from both disciplines may be mixed equally. The program prepares students for such areas as teaching sociology or anthropology, social work, urban planning, public health, management, and law. Selected sociology and anthropology courses will also be of particular interest to majors in Biology, Psychology, History, Economics, International Studies, Nursing, and Computer Science.

Anthropology Courses (p. 196)
Sociology Courses (p. 351)

Sociology/Anthropology (BA)

Major Requirements: 40-44 credits

Required Courses
SOC 200  Sociological Theory (RLA) 4
SOC 201  Methods of Sociological Research (RLA) 4
ANT 201  Cultural Anthropology (RLA) 4
ANT 203  Social Analysis (RLA) 4
SOC 400  Research Seminar in Sociology/Anthropology (RLA) 4
OR
ANT 400  Research Seminar in Sociology/Anthropology (RLA) 4

Foreign language Requirement: (0-4 credits)

Demonstration of proficiency in a language through the intermediate level, 213 or above.
Twenty additional credits of Sociology or Anthropology at or above the 200-level which include: (20 credits)

One Anthropology course at or above the 200-level

A minimum of 12 credits of Sociology or Anthropology at the 300 level or above

Electives: 34-38 credits

Total Credits Required: 120

Honors

To graduate with honors in Sociology/Anthropology a student must have a 3.5 grade point average in sociology/anthropology courses and must complete an honors thesis or project under the supervision of a Sociology or Anthropology faculty member.

Sociology/Anthropology Minor

Pre-minor requirements: 3 credits

Required Course
SOC 100 Sociology (FISR) 3

Minor Requirements: 16 credits

Two of the following courses:
SOC 200 Sociological Theory (RLA) 4
SOC 201 Methods of Sociological Research (RLA) 4
ANT 201 Cultural Anthropology (RLA) 4

and

Eight additional credits in Sociology or Anthropology courses at or above the 200-level (8 credits)

Of the 16 credits, at least 4 credits must be in Anthropology.

Department of World Languages and Literatures

Building 2S
Lucas Marchante-Aragón, Chairperson and Associate Professor

The department offers programs of study leading to Bachelor of Arts degrees in Italian Studies and Spanish; minors in American Sign Language, Arabic, Chinese, French, Italian, and Spanish. The programs are designed to give students knowledge about the literature and culture of the language studied, in addition to linguistic competence.

The director of the Science Letters and Society program is Professor Francisco Soto. Associate Professor Sarah Pollack is a co-director of the minor program in Latin American, Caribbean, and Latina/o Studies.

American Sign Language

Department of World Languages and Literatures, Building 2S, Room 109
Chairperson and Associate Professor Lucas Marchante-Aragon

American Sign Language Courses (p. 204)

American Sign Language Minor

Minor Requirements: 12 credits

12 credits of courses in ASL (ASL) at or above the 200 level.

Arabic

(Minor)

Department of World Languages and Literatures
Chairperson and Associate Professor Lucas Marchante-Aragon

All students with prior training in Arabic must take a proficiency examination to determine placement at an appropriate level.

Arabic Courses (p. 199)

Arabic Minor

Minor Requirements: 12 Credits

12 credits of courses in Arabic (ARB) at or above the 200 level.

Chinese

(Minor)

Department of World Languages and Literatures
Chairperson and Associate Professor Lucas Marchante-Aragon

All students with prior training in Chinese must take a proficiency examination to determine placement at an appropriate level.

Chinese Courses (p. 218)

Chinese Minor

Minor Requirements: 12 Credits

12 credits of courses in Chinese (CHN) at or above the 200 level.

French

(Minor)
Department of World Languages and Literature, Building 2S, Room 109
Chairperson and Associate Professor Lucas Marchante-Aragón

All students with prior training in French must take a proficiency examination to determine placement at an appropriate level.

French Courses (p. 276)

French Minor

Minor Requirements:
At least 12 credits of courses in French at the 200 level or above.

Italian Courses (p. 301)

Italian Studies (BA)

1. Track One: Italian Studies:

Pre-Major Requirements: 16 credits

Four semesters of college-level language study (ITL 112 or 113, ITL 114, ITL 213, ITL 215) or the equivalent (ITL 120, ITL 220, ITL 215). Students who enter the College with ability in Italian take a placement examination to determine the level at which they should begin language study. These courses may also be used to satisfy general education requirements.

Major Requirements: 36 credits

Students majoring in Italian Studies must complete the following requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITL 313</td>
<td>Advanced Communication Skills (RLA)</td>
<td>4</td>
</tr>
<tr>
<td>ITL 320</td>
<td>Italian Civilization and Culture (RLA)</td>
<td>4</td>
</tr>
<tr>
<td>ITL 341</td>
<td>Literary Survey I: Medieval Renaissance (RLA)</td>
<td>4</td>
</tr>
<tr>
<td>ITL 342</td>
<td>Literary Survey II: Modern Italian Studies (RLA)</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>An additional 20 credits of Italian courses at the 300- or 400-level</td>
<td>20</td>
</tr>
</tbody>
</table>

One course may be taken outside of the department with the permission of the Italian Studies advisor. These courses may be offered in fields such as English, History, Art History, or Political Science. When necessary, one course may be completed as an independent study on an approved topic with a CSI faculty member. Certain courses currently offered that are strongly suggested for majors include HST 249 Italian American History, HST 276 History of Italy, ENL 399 Themes in Literature: Italian/American Experience in Literature, ART 300 Medieval and Renaissance Art.

Electives: 2-26 credits

Total Credits Required: 120

Liberal Arts and Sciences Requirement

Most education courses are non-liberal arts and sciences.

Honors

To graduate with honors in Italian Studies a student must have a 3.5 grade point average in Italian courses and must complete a special project under the direction of a faculty member. A faculty committee will vote on the recommendation for honors.

Italian Minor

At least 12 credits of courses in ITL courses at the 200 level or above.

Spanish (Bachelor of Arts, Minor)

The department offers a major in Spanish (Track 1) and a major in Spanish with an Adolescence Education sequence (Track 2) that prepares students for teacher certification for grades 7-12.

All students with prior training in Spanish must take a proficiency examination to determine placement at an appropriate level.

Transfer students must take at least four courses at the 300- or 400-level.

Spanish Courses (p. 358)

Spanish (BA)

1. Track One: Spanish:

Pre-Major Requirements: 16 credits

Four semesters of college-level language study (SPN 112, SPN 114, SPN 213, SPN 215) or (SPN 113, SPN 114, SPN 213, SPN 215) or the equivalent (SPN 120, SPN 220, SPN 215). Students who enter the College with ability in Spanish take a placement examination to determine the level at which they should begin language study. These courses may also be used to satisfy general education requirements.
Major Requirements: 36 credits

Students majoring in Spanish must complete the following requirements:

An advanced communication skills course (4 credits)
SPN 313 Advanced Communication Skills (RLA) 4

A Spanish Society and Literature course (4 credits)
SPN 339 Spanish Society and Literature through 1700 (RLA) 4
SPN 341 Spanish Society and Literature from 1700 to the Present (RLA) 4

A Spanish-American Society and Literature course (4 credits)
SPN 342 Spanish American Society and Literature through Modernism (RLA) 4
SPN 343 Spanish American Society and Literature from Modernism to the 21st Century (RLA) 4

An additional 24 credits of courses chosen from 300- or 400-level Spanish courses 24

Electives: 2-36 credits

Total Credits Required: 120

Liberal Arts and Sciences Requirement

Most education courses are non-liberal arts and sciences.

Honors

To graduate with honors in Spanish, a student must have a 3.5 grade point average in Spanish language courses and must complete a special project under the direction of a faculty member. A faculty committee will vote on the recommendation for honors.

Spanish Minor

At least 12 credits of courses in Spanish at or above the 200 level.

Division of Science and Technology

The Division of Science and Technology includes the following departments: Biology, Chemistry, Computer Science, Engineering and Environmental Science, Mathematics, and Physics and Astronomy.

Department of Biology

Building 6S, Room 143

Chairperson and Professor, Chang-Hui Shen

The department offers the Bachelor’s degree in Biology, with concentrations in: Bioinformatics; Ecology, Evolution, and Behavioral Biology; Molecular, Cellular, and Developmental Biology; Neuroscience; and Health Science. The department offers the Bachelor's degree in Biology Adolescence Education (7-12). The department offers a Master of Science degree in Biology. The department participates in the joint program for the Bachelor’s degree in Biochemistry and a minor in Biochemistry, and in the interdisciplinary program leading to the Bachelor’s degree in Medical Technology. The department is active in the University’s Doctoral program in Biology, with many students in Ecology, Evolution and Behavior and Molecular, Cell and Developmental Biology; and Neuroscience. The Medical Technology program utilizes hospital affiliations accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS).

The MS program in Biology is coordinated by Professor Jianying Gu. Assistant Professor Jimmie Fata serves as Chair of the advisory committee for pre-medicine students.

Biology

Department of Biology, Building 6S, Room 143
Chairperson and Professor Chang Hui-Shen

Study of the biological sciences is a major requirement for students who wish to specialize in such fields as plant or animal research, and for students who plan to enter various health professions, such as medicine, nursing, dentistry, medical technology, physician assistant, and physical therapy. The Department offers a varied and balanced program for biology and health profession majors.

Biology Courses (p. 206)

Biology (BS)

Study of the biological sciences is a major requirement for students who wish to specialize in such fields as plant or animal research, and for students who plan to enter various health professions, such as medicine, dentistry, medical technology, physician assistant, and physical therapy;
research in fields from cells and molecules to organisms to ecosystems, and education at both the high school and collegiate levels. The Department offers a varied and balanced program for biology and health profession majors. The five tracks in the BS degree program in Biology: 1) Bioinformatics, 2) Ecology, Evolution and Behavioral Biology, 3) Molecular, Cellular and Developmental Biology, 4) Neuroscience, or 5) Health Science.

**Pre-Major Requirements: 16-19 credits**

A. All four of the following courses:
- BIO 170 General Biology I (RLPR) 3
- BIO 171 General Biology I Laboratory (RLA) 1
- BIO 180 General Biology II (FSWR) 3
- BIO 181 General Biology II Laboratory (RLA) 1

B. One of the following two units: (4-7 credits)
- MTH 230 Calculus I with Pre-Calculus (RMQR) 6
- MTH 229 Calculus Computer Laboratory (RLA) 1
- OR
- MTH 231 Analytic Geometry and Calculus I (RMQR) 3
- MTH 229 Calculus Computer Laboratory (RLA) 1

C. One of the following two courses: (4 credits)
- BIO 272 Biometrics (RLA) 4
- MTH 214 Applied Statistics Using Computers (RMQR) 4

**Track Requirements: 78-90 credits**

Each student chooses one track beyond the pre-major requirements. Tracks are available in 1) Bioinformatics, 2) Ecology, Evolution and Behavioral Biology, 3) Molecular, Cellular and Developmental Biology, 4) Neuroscience, or 5) Health Science.

A minimum grade of C is required for a biology course to be used to satisfy a prerequisite for a biology course required for the major requirements for the BS in Biology. To qualify for graduation, students must have at least a 2.5 grade point average (GPA) in the courses that make up the Biology major.

1. Bioinformatics (90 credits)

D. Required courses (35 credits)
- BIO 205 General Physiology (RLA) 4
- BIO 312 Genetics (RLA) 4
- BIO 322 Evolution (RLA) 4
- BIO 326 Introduction to Bioinformatics and Genomics (RLA) 4
- BIO 327 Molecular Biology (RLA) 4
- AND
- BIO 352 Cell Biology (RLA) 4
- OR
- BIO 360 Ecology (RLA) 4
- AND
- BIO 370 Biochemistry I (RLA) 4
- OR
- BIO 372 Cell Biochemistry (RLA) 4
- AND
- BIO 415 Mathematical Biology (RLA) 4

One advanced six-hour laboratory course from the following: (3 credits)
- BIO 424 Molecular Biology and Biotechnology Laboratory (RNL) 3
- BIO 450 Experimental Methods in Animal Physiology (RLA) 3
- BIO 452 Experimental Methods in Behavioral Biology (RLA) 3
- BIO 454 Advanced Methods in Cell Biology (RLA) 3
- BIO 456 Experimental Methods in Ecology (RLA) 3
- BIO 458 Experimental Methods in Cell Biochemistry (RLA) 3
- BIO 460 Experimental Methods in Advanced Genetics (RLA) 3

Two Biology electives (8 credits)
- BIO 215 Invertebrate Zoology and Paleontology (RLA) 4
- BIO 228 Botany (RLA) 4
- BIO 335 Gene Regulatory Systems (RLA) 4
- BIO 376 Biochemistry II (RLA) 4
- BIO 594 Biology Ind Study (RLA) 4

*BIO 594: Requires approval of the chairperson to be credited toward the major. BIO 594 may only be credited once toward the major.*

**Required related science courses: (47 credits)**
- MTH 231 Analytic Geometry and Calculus I (RMQR) 3
- AND
- PHY 116 Physics I (RLPR) 4
- OR
- PHY 120 General Physics I (RLPR) 3
- PHY 121 General Physics I Laboratory (RLA) 1
- AND
- PHY 156 Physics II (FSWR) 4
- OR
- PHY 160 General Physics II (FSWR) 3
- PHY 161 General Physics II Laboratory (RLA) 1

*BIO 594: Requires approval of the chairperson to be credited toward the major. BIO 594 may only be credited once toward the major.*
Laboratory (RLA)

CHM 250  Organic Chemistry I (FSWR)  4
CHM 256  Organic Chemistry II (RLA)  4

Total Credits Required: 128

With the permission of the program coordinator, BIO 150 and BIO 160 Anatomy and Physiology I and II may be substituted for BIO 170 and BIO 171 General Biology I and Laboratory, but BIO 150 and BIO 160 may not be used to satisfy the Scientific Analysis requirement in general education.

A student who has educational background or work experience that may be equivalent to the stated pre- or corequisite for a biology course should contact the chairperson of the Biology Department. If it is determined that a student has the appropriate background, a course requisite waiver will be issued.

Honors

The honors program in Biology is available to eligible seniors with a 3.5 grade point average or better. The program requires a minimum of one year to complete. The student may receive up to eight credits for independent study (BIO 594) while completing the honors program. However, students do not automatically gain entrance into the honors program by registering for independent study.

To be accepted into the honors program, the student must first obtain approval from a full-time member of the department to carry out an honors research project. This faculty member will then serve as the student’s advisor. Thereafter, the student will prepare and present a detailed written preliminary proposal of the honors research project for approval to a three-member departmental committee, consisting of the faculty adviser and two other faculty members. The committee will evaluate the proposal. After an oral presentation by the student and upon the recommendation of the committee, the student will be accepted into the program. The student will meet with his or her committee midway through the first semester for evaluation of the project. In addition, the student will submit a written progress report to the committee at the end of the first semester. On the basis of this report, the committee will decide whether the student should proceed further. If the student does not continue in the honors program, he or she may still acquire the credits for independent study.

When the research is completed, the student is required to write up the research in the form of a thesis that will be evaluated at early and final stages by the committee. The thesis format must adhere to that used by leading biological journals, or as outlined in the AIBS style manual. The ultimate decision on thesis format lies with the committee.

Because it will take at least one year to complete the honors program in Biology, it is suggested that the student begin work during the summer immediately following the junior year.

Biology Minor

Minor

Prerequisite courses:

BIO 170  General Biology I (RLPR)  3
AND
BIO 171  General Biology I Laboratory (RLA)  1
BIO 180  General Biology II (FSWR)  3
AND
BIO 181  General Biology II Laboratory (RLA)  1

Requirements: (14-16 credits)

Four biology courses at the 200 level or above, at least two of which must have laboratory components.

Medical Technology (BS)

Department of Biology, Building 6S, Room 143
Chairperson and Professor Chang-Hui Shen
Program Director:
Barbara Davis, PhD, MT (ASCP)
Building 1P, Room 203
Email: barbara.davis@csi.cuny.edu
Telephone: 718.982.3961
Clinical Coordinator:
Abdeslem El Idrissi, PhD
Building 6S, Room 320A
Email: abdeslem.idrissi@csi.cuny.edu
Telephone: 718.982.3863
Academic Advisor:
Nancy Liu Sullivan, PhD
Building 6S, Room 136A
Email: nancy.liusullivan@csi.cuny.edu
Telephone: 718.982.4189

The Medical Technology baccalaureate program prepares students for meaningful and rewarding careers in the field of clinical laboratory sciences.

The Medical Technology Program requires three and a half years of coursework and six months of full-time clinical training. The clinical training may be completed in hospital programs accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) or in hospitals approved for training by the New York State Department of Health. The CSI Medical Technology Program has been granted NAACLS accreditation and is continually
negotiating more clinical training sites to provide even more choices for our students.

The skills acquired encompass a broad range of disciplines, which include hematology, clinical chemistry, molecular diagnostics, microbiology, immunology/serology, histology, and blood transfusion technology. Employment opportunities are available in laboratories of public, private, and voluntary hospitals; in industrial, pharmaceutical, and private clinical laboratories; and in physicians' offices.

On completion of the program, the student is awarded the BS degree in Medical Technology. Graduates are then eligible to take the American Society of Clinical Pathology (ASCP) certification exam as Medical Laboratory Scientists (MLS) (http://www.ascp.org/Board-of-Certification). Graduates are eligible for licensure by New York State (please visit http://www.op.nysed.gov/ for details).

Admissions: The Medical Technology Program has an admissions process and will accept students on a rolling admissions basis. Admission is competitive and based on clinical internship site availability. Eligibility depends upon academic record (minimum pre-major GPA > 3.000 on a 4.000 scale), a completed application and two letters of reference, along with a personal narrative. In addition, there is an interview for applicants administered by the Medical Technology Program Admissions Committee. More admissions information can be found on the Medical Technology Webpage.

A minimum grade of C is required for all MDT classes, pre-major as well as major courses. To qualify for graduation, students must have at least a 3.0 grade point average (GPA) in the courses that make up the Medical Technology major.

Graduates will have all the necessary classes to go on to further education, including Medical School, Dental School, Vet School, PA and PT programs while working in a growing field. The need for Medical Technologists has grown substantially, and our graduates are in constant demand.

Clinical training placement is competitive and acceptance is influenced strongly by academic performance. The College is affiliated with a number of hospitals and provides guidance so that as many students as possible are placed. All students ready for clinical training are placed for clinical training.

Students join ASCP for free.

Medical Technology (BS)

Medical Technology

The Medical Technology Program has an admissions process and will accept students for Fall semesters each year. Admission is competitive and based on clinical internship site availability. Eligibility depends upon academic record, application completion and letters of reference, along with a personal narrative. In addition, there is an interview for applicants as well, performed by the Medical Technology Program Admissions Committee. More admissions information can be found on the Medical Technology Website.

Pathways Required Core: 13 credits

English Composition (RECR) (6 credits)
ENG 111 Introduction to College Writing (RECR) 3
ENG 151 College Writing (RECR) 3

Mathematical and Quantitative Reasoning (4 credits)
Students are required to complete the following course:
MTH 123 College Algebra and Trigonometry (RMQR) 4

Life and Physical Sciences (RLPR) (3 credits)
Students are required to complete the following course:
BIO 170 General Biology I (RLPR) 3

BIO 170: Also fulfills pre-major requirements.
Pathways Flexible Core: 20 credits

Students may take no more than two courses from any discipline or interdisciplinary field in the Flexible Core.

U.S. Experience in its Diversity (FUSR) (3 credits)

Students are required to take the following course:

COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3

Individual and Society (FISR) (3 credits)

Students are required to complete the following course:

PHL 130 Introduction to Ethics (FISR) 3

Scientific World (FSWR) (8 credits)

Students are required to complete the following courses:

CHM 240 Analytical Chemistry (FSWR) 4
CHM 250 Organic Chemistry I (FSWR) 4

CHM 240, CHM 250: Also fulfills major requirements.

World Cultures and Global Issues (FWGR) (3 credits)

Creative Expression (FCER) (3 credits)

College Option: 12 credits

Social Science or TALA (4 credits)

Science Lab for RLPR: (1 credit)

Students are required to complete the following course:

BIO 171 General Biology I Laboratory (RLA) 1

BIO 171: Also fulfills pre-major requirements.

STEM

PHY 116 Physics I (RLPR) 4

CHM 141 General Chemistry I (RLPR) 3

CHM 141: Also fulfills pre-major requirements.

Note: This program has received a waiver to specify particular courses students must take in the areas of the Common Core and the College Option. If students take different courses in these areas, they will be certified as having completed the Common Core and the College Option area, but it may not be possible for them to finish their degree program within the regular number of credits.

Pre-Major Requirements: 51 credits

Students planning to major in the Medical Technology option must complete the following pre-major requirements.

Students should consult a medical technology advisor about the desirability of choosing additional courses in preparation for the major.

BIO 150 Human Anatomy and Physiology I (RLPR) 4

BIO 160 Human Anatomy and Physiology II (FSWR) 4

BIO 170 General Biology I (RLPR) 3

BIO 171 General Biology I Laboratory (RLA) 1

BIO 272 Biometrics (RLA) 4

MTH 214 Applied Statistics Using Computers (RMQR) 4

CHM 141 General Chemistry I (RLPR) 3

CHM 121 General Chemistry I Laboratory (RLA) 1

CHM 142 General Chemistry II (FSWR) 3

CHM 127 General Chemistry II Laboratory (RLA) 1

CHM 250 Organic Chemistry I (FSWR) 4

CHM 256 Organic Chemistry II (RLA) 4

MTH 123 College Algebra and Trigonometry (RMQR) 4

PHL 130 Introduction to Ethics (FISR) 3

PHY 116 Physics I (RLPR) 4

PHY 156 Physics II (FSWR) 4

Subtotal: 0

BIO 170, BIO 171, CHM 141, CHM 250, PHL 130, PHY 116, and MTH 123 all satisfy general education requirements.

1. A student must complete a minimum of 16 credits in residence at the College of Staten Island in course designated as pre-clinical to receive the Bachelor of Science degree in Medical Technology. These credits must include CHM 250 and CHM 256.

2. BIO 170/BIO 171, CHM 141/CHM 121 and CHM 142/CHM 127 are co-requisites that must be enrolled simultaneously.

3. Students who are exempt from MTH 123 will be waived from this requirement.

Major Requirements: 77 credits

A minimum grade of C is required for a biology course to be used to satisfy a prerequisite for a biology course required for the major requirements for the BS in Medical Technology. A minimum grade of C is required all pre-major and major courses for the BS in Medical Technology.

To qualify for graduation, students must have at least a 3.0 grade point average (GPA) in the courses that make up the Medical Technology major.

Major Required Courses: 58 credits
### Divisions, Schools, Departments and Programs

3

**Total Credits Required: 128**

**Notes**

- A minimum grade of C is required for all pre-major and major courses required for the BS in Medical Technology. To qualify for graduation, students must have at least a 3.0 grade point average (GPA) in the courses that make up the Medical Technology major.

- Students admitted prior to May 2015 are not required to enroll in BIO 346, MDT 371 and MDT 372. In consultation with an advisor the students will be required to register for MDT 380 for a total of 10 credits, MDT 375 for 3 credits, MDT 384 for 2 credits, and MDT 48 for a total of 12 credits. Those who wish to follow the most current curriculum requirements, must speak to a Medical Technology coordinator.

- Independent Study, with the approval of a Medical Technology coordinator, may be used to satisfy degree requirements.

- Graduation is not contingent upon passing an external examination such as ASCP-BOC or the NYS MLS licensure examination.

### Liberal Arts and Sciences Requirement

All courses designated MDT and the course BIO 316 are non-liberal arts and sciences.

### Honors

To graduate with Honors in Medical Technology a student must have a 3.5 grade point average in medical technology courses and must complete an eight-credit Independent Study project under the tutelage of a faculty member from one of the physical or biological sciences. The project must be reviewed and approved by the Interdisciplinary Committee for Medical Technology.

### Department of Physics and Astronomy

(Bachelor of Science, Minor)

Department of Physics and Astronomy, Building 1N, Room 226

Chairperson and Associate Professor Vadim Oganesyan  
Building 1N

Professors: Anshel Gorokhovsky, Vivian Incera, Anatoly Kuklov, Vadim Oganesyan,  
William Schreiber, Alexandre Zaitsev.  
Associate Professors: Charles Liu.  
Assistant Professors: Li Ge, Emily Rice. Senior College Lab Technicians: Jackeline Figueroa.

The faculty, undergraduates, and graduate students of the Department conduct leading-edge research in numerous areas of study including astrophysics and cosmology; condensed matter physics, theoretical and applied; nanotechnology; and quantum physics including solids, liquids, and optics. The Department offers undergraduate Bachelor's of Science degrees in Physics (major and minor), including degrees with a focus in Astrophysics or in Adolescence Education (grades 7-12). We also mentor and advise Ph.D. students in Physics and Astronomy through our consortial partnership with the CUNY Graduate Center; and we provide service courses in astronomy and physics to more than 2,000 CSI students each year.

### Physics Courses

#### Physics

Department of Physics and Astronomy, Building 1N, Room 226

Chairperson and Associate Professor Vadim Oganesyan

### Physics (BS)

**Pre-Major Requirements: 32-35 credits**

Students planning to major in Physics must complete the following pre-major requirements.
These courses may also be used to satisfy general education requirements.

MTH 311 Probability Theory and an Introduction to Mathematical Statistics (RLA) 4
MTH 331 Applied Mathematical Analysis II (RLA) 4
PHY 309 Basic Measurements Laboratory (RNL) 2
PHY 310 Thermodynamics (RLA) 4
PHY 315 Advanced Physics Laboratory (RLA) 2
PHY 316 Dynamics (RLA) 4
PHY 356 Theory of Electromagnetic Radiation (RLA) 4
PHY 442 Quantum Mechanics (RLA) 4
PHY 485 Properties of Materials (RLA) 4

One but not both PHY 318 and PHY 381 may be used to satisfy this requirement.

Students interested in pursuing a focus in Astrophysics should take AST 396 and PHY 425, in consultation with an advisor, as part of their major requirements.

Total Credits Required: 120

Honors in Physics:

To graduate with Honors in Physics a student must meet the following requirements:

1. Fulfillment of all the requirements for the Physics degree;
2. An overall grade point average of 3.5 and a grade point average of 3.5 in the major;
3. A senior paper supervised by a mentor, and approved by the mentor and the Department Chair.

Physics Minor

Pre-Minor requirements:

A. Mathematics

B. Physics

PHY 120 General Physics I (RLPR) 3
PHY 121 General Physics I Laboratory (RLA) 1
PHY 160 General Physics II (FSWR) 3
PHY 161 General Physics II Laboratory (RLA) 1

Minor Requirements: 25 credits

Required Courses

PHY 240 Waves and Modern Physics (FSWR) 3
PHY 309 Basic Measurements Laboratory (RNL) 2
PHY 310 Thermodynamics (RLA) 4
CHM 330 Physical Chemistry: Equilibria (RLA) 4
PHY 356 Theory of Electromagnetic Radiation (RLA) 4
PHY 442 Quantum Mechanics (RLA) 4

Electives (300-400 level) (8 credits)

Alternatively, choose two courses from the following list:

PHY 312 Nuclear Physics (RLA) 4
PHY 316 Dynamics (RLA) 4
PHY 360 Relativity (RLA) 4
PHY 365 Optics (RLA) 4
PHY 425 Astrophysics (RLA) 4
PHY 463 Introduction to Nanotechnology (RNL) 4
PHY 485 Properties of Materials (RNL) 4

At least 12 credits of the requirements listed above may not be used to satisfy a requirement for another major or minor.

NOTE: Upper level courses in Mathematics, Chemistry, and Biology may be substituted for electives subject to the approval of an academic advisor.

Department of Chemistry

Building 6S, Room 236
Chairperson and Professor Qiao-Sheng Hu
Distinguished Professor: Fred Naider

The department offers the Bachelor’s degree in Chemistry and participates in the joint program leading to the Bachelor’s degree in Biochemistry. Minors are offered in Chemistry and Biochemistry. The department also participates in the interdisciplinary program leading to the Bachelor’s degree in Medical Technology. The University’s Doctoral program in Polymer Chemistry is coordinated by Professor Nan-Loh Yang.

Chemistry

(Bachelor of Science, Minor; see Graduate Catalog for information on graduate programs)

Department of Chemistry, Building 6S, Room 236
Chairperson and Professor Qiao-Sheng Hu

A degree in chemistry or biochemistry is essential to anyone interested in working in the chemical or pharmaceutical industries and in related fields such as teaching and chemical sales. The degree affords the opportunity to participate in pure chemical research, product development, marketing, and sales. A student with a BS in Chemistry may branch out and become involved in government jobs in geochemistry, toxicology, and environmental chemistry. The Chemistry major also might elect to work in the more medically oriented fields such as pharmacology, biochemistry, bioengineering, or medicinal chemistry or to enter the teaching profession. For students who wish to pursue graduate study in the sciences or enter professional schools (medicine, dentistry, optometry, pharmacy), a BS degree in Chemistry or Biochemistry is viewed quite favorably by admissions committees.

Chemistry Courses (p. 215)

Chemistry (BS)

Pre-Major Requirements: 26-29 credits

Required Courses (10-13 credits)

CHM 141 General Chemistry I (RLPR) 3
CHM 121 General Chemistry I Laboratory (RLA) 1
CHM 142 General Chemistry II (FSWR) 3
CHM 127 General Chemistry II Laboratory (RLA) 1
PHY 120 General Physics I (RLPR) 3
PHY 121 General Physics I Laboratory (RLA) 1
PHY 160 General Physics II (FSWR) 3
PHY 161 General Physics II Laboratory (RLA) 1
MTH 229 Calculus Computer Laboratory (RNL) 1
MTH 230 Calculus I with Pre-Calculus (RMQR) 6
MTH 231  Analytic Geometry and Calculus I (RMQR)  3  
AND  
MTH 232  Analytic Geometry and Calculus II (RMQR)  3  
MTH 233  Analytic Geometry and Calculus III (RMQR)  3  

Major Requirements: 36-40 credits  

Track 1 (40 credits)  
This track will lead to an ACS Accredited BS in Chemistry  
CHM 240  Analytical Chemistry (FSWR)  4  
CHM 250  Organic Chemistry I (FSWR)  4  
CHM 256  Organic Chemistry II (RLA)  4  
CHM 330  Physical Chemistry: Equilibria (RLA)  4  
CHM 336  Physical Chemistry: Processes (RLA)  4  
CHM 337  Experimental Methods in Physical Chemistry (RLA)  4  
CHM 360  Inorganic Chemistry (RLA)  4 
CHM 370  Biochemistry I (RLA)  4  

Two additional chemistry electives from the following list: (8 credits)  
CHM 340  Instrumental Methods of Chemical Analysis (RLA)  4  
CHM 350  Advanced Organic Chemistry (RLA)  4  
CHM 376  Biochemistry II (RLA)  4  
CHM 594  Independent Study for Honors Research (RLA)  4  

Track 2 (36 credits)  
CHM 240  Analytical Chemistry (FSWR)  4  
CHM 250  Organic Chemistry I (FSWR)  4  
CHM 256  Organic Chemistry II (RLA)  4  
CHM 330  Physical Chemistry: Equilibria (RLA)  4  
CHM 336  Physical Chemistry: Processes (RLA)  4  
CHM 337  Experimental Methods in Physical Chemistry (RLA)  4  
CHM 360  Inorganic Chemistry (RLA)  4  

Two additional chemistry electives at the 300- or 400-level (8 credits)  
All Chemistry majors are encouraged to take an Independent Study course (CHM 591-594) as an elective.  

Total Credits Required: 120  
Transfer students are expected to fulfill their advanced major requirements (300-level and higher) at the College of Staten Island.

Honors  
A student may be eligible for admission to the honors program in Chemistry if he or she enters the senior year with a 3.5 grade point average. With the concurrence of a faculty supervisor, the student must submit (by September 15) a one-page summary of a proposed research project. The chairperson of the Department and the faculty supervisor will appoint a three-member committee to evaluate and/or modify the proposal (by October 15), then grant or deny admission to the honors program.  

While pursuing honors research the student may receive eight credits for Independent Study (CHM 594), four each in the fall and spring semesters. Additionally, it is highly recommended that the student begin work on the project during the summer or spring semester that immediately precedes the senior year. Progress of the research will be monitored as follows: (1) the student will meet with his or her committee by November 1 of the first semester; (2) the student will submit a five-page progress report by January 15; (3) the committee will recommend for or against continuation in the program by February 1; (4) the student will submit a thesis, following the style of major journals, by May 1; (5) the student will present an oral defense of the thesis to the committee by the end of the final exam period.  

The deadline dates noted above are based on a June graduation date, but corresponding guidelines may be designed for January graduation. In either case, it is expected that completion of the honors program will require at least one year of student research.  

See the Catalog section on Education (p. 143) for additional requirements.  

Chemistry Minor  

Minor  

Prerequisite courses: (8 credits)  
CHM 141  General Chemistry I (RLPR)  3  
CHM 121  General Chemistry I Laboratory (RLA)  1  
CHM 142  General Chemistry II (FSWR)  3  
CHM 127  General Chemistry II Laboratory (RLA)  1  

Requirements:  
CHM 240  Analytical Chemistry (FSWR)  4  
OR  
CHM 340  Instrumental Methods of Chemical Analysis (RLA)  4  
CHM 250  Organic Chemistry I (FSWR)  4  
CHM 256  Organic Chemistry II (RLA)  4
AND
One 300 level or above chemistry course 4

Department of Computer Science
Building 1N, Room 215
Shunqun Zhang, Chairperson and Professor

The department offers programs leading to the Bachelor’s and Master’s degrees in Computer Science. The Bachelor’s degree in Computer Science/Mathematics is offered jointly with the Department of Mathematics; the Bachelor’s degree in Information Systems and Informatics is offered jointly with the School of Business; and the department participates in the University Doctoral program. Baccalaureate students majoring in other disciplines may also minor in Computer Science. The department offers an Associate’s degree program in Computer Technology that provides sound career preparation as well as a solid foundation for continued study in the field. Faculty in the department participate with the Interdisciplinary Coordinating Committee for the Associate in Applied Science degree program in Electrical Engineering Technology. The Bachelors program in Computer Science is accredited by the Computer Science Accreditation Commission (CAC) of ABET. Professor Shuqun Zhang is the coordinator of the Master's degree program.

Computer Science and Computer Technology
(Bachelor of Science, Associate in Applied Science, Minor; Master of Science - see Graduate Catalog)
Department of Computer Science, Building 1N, Room 215 Chairperson and Professor Shunqun Zhang

Computer User Responsibilities
Students are expected to be familiar with the computer user responsibilities detailed in Students Rights and Responsibilities section of the catalog (p. 371).

Computer Science Courses (p. 228)

Computer Technology (AAS)
The College offers a Computer Technology program that focuses on general applications programming. Students seeking a Bachelor’s degree in Computer Science should consult the requirements for the BS in Computer Science or the BS in Computer Science/Mathematics.

Pathways Common Core Requirements: 24-26
Pathways Required Core: 12-13 credits

English Composition (RECR) (6 credits)
ENG 111 Introduction to College Writing (RECR) 3
ENG 151 College Writing (RECR) 3

Mathematical and Quantitative Reasoning (RMQR) (3 or more credits)
Students are required to complete the following courses:
MTH 231 Analytic Geometry and Calculus I (RMQR) 3

MTH 231: Also fulfills major requirement.

Life and Physical Sciences (RLPR) (3 or more credits)
Students are required to complete one of the following courses:
AST 120 Space Science I (RLPR) 4
BIO 170 General Biology I (RLPR) 3
CHM 141 General Chemistry I (RLPR) 3
GEO 115 Fundamentals of Physical Geology (RLPR) 3
PHY 120 General Physics I (RLPR) 3

Pathways Flexible Core: 12-13 credits
Students may take no more than two courses from any discipline or interdisciplinary field in the Flexible Core.

U.S. Experience in its Diversity (FUSR) (3 credits)
Students are required to complete the following course:
COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3

Scientific World (FSWR) (3 or more credits)
Students are required to complete one of the following courses:
AST 160 Space Science II (FSWR) 4
BIO 180 General Biology II (FSWR) 3
CHM 142 General Chemistry II (FSWR) 3
ESC 110 Meteorology and Climatology (RLA) (FSWR) 3
GEO 102 Earth Systems History (FSWR) 3

PHYS 160 General Physics II (FSWR) 3

NOTE: These courses are part of a sequence and require specific prerequisites and/or corequisites. Please click on the course for prerequisite and/or corequisite information.

In addition to the above, students must select 2 courses from the following areas of the Flexible Core: (6 credits)
1. World Cultures and Global Issues (FWGR)
2. Creative Expression (FCER)
3. Individual and Society (FISR)

NOTE: Students may take courses in STEM areas of the Common Core that have 3 or more credits. This may result
in students finishing their degree with more than the regular number of credits required.

**Pre-Core Requirement: 4 credits**

**Electives: 0-4 credits**

**Total Credits Required: 60**

**Computer Science (BS)**

The Computer Science program offers a full four-year curriculum in computer science that prepares students for careers as computer professionals and/or for graduate study. The major provides a broad-based background in computer science and includes courses in computer software, systems, mathematics, and computer engineering. A student, under the guidance of a computer science advisor, may also select additional courses to pursue particular interests. Students interested in transferring into the program from the two-year Computer Technology program should consult the department chairperson.

**Program Educational Objectives:**

A few years after graduation, graduates will:

1. Hold responsible positions in computing related fields and/or be pursuing an advanced computing-related degree;
2. Remain current in their field through the pursuit of lifelong learning; and
3. Use their core computing and problem-solving knowledge.

The program in Computer Science is accredited by the Computer Accreditation Commission (CAC) of ABET, 111 Market Place, Suite 1050, Baltimore, Maryland 21202-4012; 410.347.7700.

Pathways Common Core Requirements: 27-33 credits

Pathways Required Core: 12-13 credits

**English Composition (RECR) (6 credits)**
- ENG 111 Introduction to College Writing (RECR) 3
- ENG 151 College Writing (RECR) 3

**Mathematical and Quantitative Reasoning (RMQR) (3 or more credits)**

Students are required to complete the following courses:
- MTH 231 Analytic Geometry and Calculus I (RMQR)

*MTH 231: Also fulfills pre major requirement.

**NOTE:** Students may be required to take a prerequisite for MTH 231

**Life and Physical Sciences (RLPR) (3 or more credits)**

Students are required to complete one of the following courses:
- AST 120 Space Science I (RLPR) 4
- BIO 170 General Biology I (RLPR) 3
- CHM 141 General Chemistry I (RLPR) 3
- GEO 115 Fundamentals of Physical Geology (RLA) 3
- PHY 120 General Physics I (RLPR) 3

*AST 120, BIO 170, CHM 141, GEO 115, PHY 120: Also fulfills pre major requirement.

**NOTE:** Students will be required to register for the sequence of science courses in the pre-major.

**Pathways Flexible Core: 19-20 credits**

Students may take no more than two courses from any discipline or interdisciplinary field in the Flexible Core.

1. **U.S. Experience in its Diversity (FUSR) (3 credits)**

Students are required to complete the following course:
- COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3

2. **Scientific World (FSWR) (3 or more credits)**

CSC 126 Introduction to Computer Science (FSWR) 4

3. **World Cultures and Global Issues (WC) (3 credits)**

4. **Creative Expression (CE) (3 credits)**

5. **Individual and Society (IS) (3 credits)**

6. **In addition to the above, students must select 1 course from any of the Flexible Core areas. (3 credits)**

**College Option (12 credits)**

Students are required to complete the following course:

**Social Science or TALA (4 credits)**

At least six credits must be taken at the 200 level or higher in the Flexible Core and College Option combined. At least one course taken must fulfill the Contemporary World requirement. At least one course taken must fulfill the Pluralism and Diversity requirement.

**Science Lab for RLPR or Math Lab for RMQR (1 credit)**

- BIO 171 General Biology I Laboratory (RLA) 1
- CHM 121 General Chemistry I Laboratory (RLA) 1
- GEO 116 Fundamentals of Physical Geology Laboratory (RLA) 1
- PHY 121 General Physics I Laboratory (RLA) 1
- MTH 229 Calculus Computer Laboratory (RLA) 1

**STEM (3 credits)**

- MTH 232 Analytic Geometry and Calculus II (RMQR) 3

*MTH 232: Also fulfills pre major requirement.*

**STEM (4 credits)**

*Also fulfills pre major requirement.*

- AST 120 Space Science I (RLPR) 4
- AST 160 Space Science II (FSWR) 4
- BIO 170 General Biology I (RLPR) 3
- BIO 171 General Biology I Laboratory (RLA) 1

GEO 115  Fundamentals of Physical Geology (RLA) (RLPR)  3
GEO 116  Fundamentals of Physical Geology Laboratory (RLA)  1
OR
ESC 110  Meteorology and Climatology (FSWR)  3
ESC 111  Meteorology and Climatology Laboratory (COPR)  1

NOTE: Students may take courses in STEM areas of the Common Core that have 3 or more credits. This program has received a waiver to specify particular courses students must take in the areas of the Common Core and College Option. If students take different courses in these areas, they will be certified as having completed the Common Core and the College Option area, but it may not be possible for them to finish their degree program within the regular number of credits.

Pre-Computer Science Sequence: 4 credits

Required Course
CSC 126  Introduction to Computer Science (FSWR)  4

A grade of C or above in CSC 126 is required for admission to the Computer Science Baccalaureate program. Students will be allowed to repeat the course, if necessary.

Pre-Major Requirements: 27-30 credits

Required Courses
MTH 229  Calculus Computer Laboratory (RLA)  1
MTH 230  Calculus I with Pre-Calculus (RMQR)  6
MTH 232  Analytic Geometry and Calculus II (RMQR) OR
MTH 229  Calculus Computer Laboratory (RLA)  1
MTH 231  Analytic Geometry and Calculus II (RMQR) OR

MTH 232  Analytic Geometry and Calculus II (RMQR) AND
CSC 211  Intermediate Programming (RLN)  4
CSC 220  Computers and Programming (RLN)  4

AND

A one-year science sequence chosen from the list of courses below:

Space Science I and II
AST 120  Space Science I (RLPR)  4
AST 160  Space Science II (FSWR)  4

General Biology I and II with laboratories
BIO 170  General Biology I (RLPR)  3
BIO 171  General Biology I Laboratory (RLA)  1
BIO 180  General Biology II (FSWR)  3
BIO 181  General Biology II Laboratory (RLA)  1

General Chemistry I and II with laboratories
CHM 141  General Chemistry I (RLPR)  3
CHM 121  General Chemistry I Laboratory (RLA)  1
CHM 142  General Chemistry II (FSWR)  3
CHM 127  General Chemistry II Laboratory (RLA)  1

Geology with Laboratories
GEO 115  Fundamentals of Physical Geology (RLA) (RLPR)  3
GEO 116  Fundamentals of Physical Geology Laboratory (RLA) AND
GEO 102  Earth Systems History (FSWR)  3
GEO 103  Earth Systems History Lab (RLA) OR
ESC 110  Meteorology and Climatology (RLA) (FSWR)  3
ESC 111  Meteorology and Climatology Laboratory (COPR)  1

General Physics I and II with laboratories
PHY 120  General Physics I (RLPR)  3
PHY 121  General Physics I Laboratory (RLA)  1
PHY 160  General Physics II (FSWR)  3
PHY 161  General Physics II Laboratory (RLA)  1
Four additional credits of science courses that provide the foundation for further study in the sciences. (4 credits)

**Major Requirements: 55-58 credits**

Students majoring in Computer Science must complete:

<table>

An additional four credit MTH course having MTH 232 or higher as a prerequisite. MTH 306 may not be used to fulfill this requirement.

A grade of C or above is required in all CSC courses that are prerequisites for courses in the major requirements. Students will be allowed to repeat courses, if necessary.

**NOTE:** Students planning to pursue a higher degree in Computer Science are recommended to take MTH 233.

Electives will vary by student.

**Total Credits Required: 124**

**Computer Science Minor**

**Pre-Minor Requirements: 16 credits**

and two courses chosen from the following list:
CSC 332 Operating Systems I (RLA) 3
CSC 435 Advanced Data Communications (RNL) 4
CSC 446 Computer Architecture (RNL) 4

2. Computer Science minor sequence for students with an interest in applications programming:
CSC 326 Data Structures (RNL) 4
CSC 330 Object-Oriented Software Design (RNL) 4
CSC 424 Advanced Database Management Systems (RNL) 4

and one course chosen from the following list:
CSC 332 Operating Systems I (RLA) 3
CSC 420 Concepts of Programming Languages (RLA) 4
CSC 430 Software Engineering (RNL) 4
CSC 435 Advanced Data Communications (RNL) 4
CSC 470 Introductory Computer Graphics (RNL) 4
CSC 480 Artificial Intelligence (RNL) 4

Department of Engineering and Environmental Science
Building 1N, Room 226
Chairperson and Professor Neophytos (Neo) Antoniades
Program Coordinator: Jane Alexander
BS in Earth and Engineering Science and K-12 An innovative program in the very "hot" area of Earth and the Environment is being offered with much success. The program focuses on the issues affecting our environment and prepares our students for exciting opportunities in an inter-disciplinary range of fields from Science to Engineering and anything that relates to our Earth and what surrounds us. An interesting program that prepares teachers in K-12 is also being offered in this field of study.

Earth and Environmental Science (BS)

Total Credits Required: 120

**Honors**

Students may graduate with honors if they maintain a 3.5 GPA in the major, and complete GEO 460 Capstone Research Seminar and Thesis.

**Electrical Engineering**

(Bachelor of Science)

Department of Engineering and Environmental Science, Building 1N, Room 226

Chairperson and Professor Neophytos (Neo) Antoniades

One of the classic and perhaps most prestigious of all engineering degrees, namely the Bachelor of Science in Electrical Engineering (BS EE), offers students with opportunities in the vast field of electrical engineering and other cross-cutting disciplines like mechatronics, bio-photonics, and nano-technology to name a few.

The high-tech field of Electrical Engineering has historically exhibited steady growth and has been the breeding ground for modern advances in telecommunications, automation, and networking among other technologies. CSI is only the second institution within CUNY and one of only a handful in the greater metropolitan area offering the Bachelor of Science in Electrical Engineering.

The Electrical Engineering bachelor’s degree program is accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology, Inc. (ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012).

**Electrical Engineering (BS)**

**Pathways General Education Requirements: 42 credits**

**Pathways Required Core: 12 credits**

**Required English Composition Requirement (RECR)**

- ENG 111 Introduction to College Writing (RECR) 3
- ENG 151 College Writing (RECR) 3

**Required Mathematical and Quantitative Reasoning Requirement (RMQR)**

Students are required to complete the following course:

- MTH 231 Analytic Geometry and Calculus I (RMQR) 3

*MTH 231: Also fulfills pre-major requirements.*

**Required Life and Physical Sciences Requirement (RLPR)**

Students are required to complete the following course:

- PHY 120 General Physics I (RLPR) 3

*PHY 120: Also fulfills pre-major requirements.*

**Pathways Flexible Core: 18 credits**

**Flexible U.S. Experience in its Diversity Requirement (FUSR)**

Students are required to complete the following course:

- COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3
Flexible Scientific World Requirement (FSWR)

Students are required to complete the following courses:

PHY 160  General Physics II (FSWR)  3
AND
PHY 240  Waves and Modern Physics (FSWR)  3

PHY 160: Also fulfills pre-major requirements.

In addition to the above, students must select 3 courses from the following areas with no more than one course from any area and no more than two courses from any discipline or interdisciplinary field.

Flexible World Cultures and Global Issues Requirement (FWGR) (3 credits)

Flexible Creative Expression Requirement (FCER) (3 credits)

Flexible Individual and Society Requirement (FISR) (3 credits)

College Option 12 credits

Students are required to complete the following courses:

Social Science
ECO 251  International Political Economy (RLA)  4

ECO 251: Also fulfills pre-major requirements.

Lab for RLPR
PHY 121  General Physics I Laboratory (RLA)  1

PHY 121: Also fulfills pre-major requirements.

Lab for FSWR
PHY 161  General Physics II Laboratory (RLA)  1

PHY 161: Also fulfills pre-major requirements.

STEM
MTH 232  Analytic Geometry and Calculus II (RMQR)  3
OR
MTH 233  Analytic Geometry and Calculus III (RMQR)  3

MTH 232: Also fulfills pre-major requirements.

STEM1
CHM 141  General Chemistry I (RLPR)  3

CHM 141: Also fulfills pre-major requirements.

Note: This program has received a waiver to specify particular courses students must take in the STEM areas of the Common Core (Mathematical and Quantitative Reasoning, Life and Physical Sciences, and Scientific World) and College Option. If students take different courses in these areas, they will be certified as having completed the Common Core and the College Option area, but it may not be possible for them to finish their degree program within the regular number of credits.

Pre-Major Requirements: 46 credits

Students beginning the Electrical Engineering program as freshmen should complete the following requirements:

ENS 100  Introduction to Engineering (RLA)  2

ENS 136  Computer-Aided Engineering I (RLN)  2

ENS 220  Introduction to Computer Engineering (RLN)  4

ENS 221  Digital Electronics Laboratory (RLN)  2

ENS 241  Electrical and Electronic Circuits (RLN)  4

ENS 249  Basic Measurements Laboratory (RLN)  2

CHM 141  General Chemistry I (RLPR)  3

CHM 121  General Chemistry I Laboratory (RLA)  1

CSC 270  Introduction to Scientific Computing (FSWR)  4

ECO 251  International Political Economy (RLA)  4
OR
ECO 285  Economics for Engineers (RLA)  4

MTH 229  Calculus Computer Laboratory (RLA)  1

MTH 231  Analytic Geometry and Calculus I (RMQR)  3

MTH 232  Analytic Geometry and Calculus II (RMQR)  3

MTH 233  Analytic Geometry and Calculus III (RMQR)  3

PHY 120  General Physics I (RLPR)  3

PHY 121  General Physics I Laboratory (RLA)  1

PHY 160  General Physics II (FSWR)  3

PHY 161  General Physics II Laboratory (RLA)  1

*MTH 230 Calculus I with Pre-Calculus can be substituted for MTH 231 Analytic Geometry and Calculus I

Major Requirements: 67 credits

Required Courses

MTH 311  Probability Theory and an Introduction to Mathematical Statistics (RLA)  4

MTH 330  Applied Mathematical Analysis I (RLA)  4

PHY 240  Waves and Modern Physics (FSWR)  3

ENS 310  Thermodynamics (RLA)  4

ENS 322  Signals and Noise (RLN)  3
ENS 331  Digital Signal Processing (RLA)  4
ENS 336  Computer-Aided Engineering (RNL)  4
ENS 342  Electrical and Electric Circuits II (RNL)  3
ENS 345  Solid State Device Fundamentals (RNL)  3
ENS 356  Theory of Electromagnetic Radiation (RLA)  4
ENS 362  Microcontrollers (RNL)  4
ENS 371  Systems Analysis (RNL)  3
ENS 420  Analog and Digital Systems Design (RNL)  4
ENS 432  Digital and Analog Communication Systems (RNL)  3
ENS 439  Systems Laboratory (RNL)  2
ENS 491  Advanced Engineering Design I (RNL)  2
ENS 492  Advanced Engineering Design II (RNL)  2

Electives: 2 credits

Total Credits Required: 133

Liberal Arts and Sciences Requirement

Of the 133 credits required for the BS in Electrical Engineering, at least 66 must be in liberal arts and sciences courses. Most courses designated ENS are non-liberal arts and sciences; those ENS courses that are cross-listed in mathematics (MTH) or physics (PHY) are liberal arts and sciences.

Electrical Engineering Technology*

(Associate in Applied Science, Minor)
Chairperson and Professor Neophytos (Neo) Antoniades
Department of Engineering and Environmental Science
Interdisciplinary Coordinating Committee Chairperson:
Professor Neophytos (Neo) Antoniades, Building 4N, Room 201
*Admission to this program has been suspended

This two-year career program, accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (TAC/ABET, 111 Market Street, Suite 1050, Baltimore, MD 21202; telephone 410.347.7700), is designed to provide a theoretical and practical course of study in the basic principles and applications of electrical and electronics technology with emphasis on the computer. The curriculum includes classes in communications, microcomputers, and computer programming. Graduates are prepared for employment as systems field and customer engineers, facilities managers, junior programmers, and sales representatives in the computer and electronics industries and in firms using modern computer systems in PC support, communications, networks, programming, research, development, and sales. Graduates of the program may continue in the BS degree programs in Computer Science, Engineering Science, or Economics at CSI. Students in bachelor’s degree programs may choose a minor in Electrical Engineering Technology.

Electrical Engineering Technology Courses (p. 252)

Electrical Engineering Technology (AAS)

The Educational Objectives of our Electrical Engineering Technology program are that our graduates shall:
1. Have the technical knowledge required for entry level positions in the various electrical/electronic industries.
2. Have the practical and professional skills needed to function effectively in a real world environment in the electric/electronic field.
3. Have sufficient academic backgrounds of a diverse nature that will allow them to continue their education towards a baccalaureate degree at an accredited
institution or achieve career advancement in their chosen fields.

**Pathways Common Core: 21-24 credits**

**Pathways Required Core: 12-14 credits**

**English Composition (RECR) (6 credits)**
- ENG 111 Introduction to College Writing (RECR) 3
- ENG 151 College Writing (RECR) 3

**Mathematical and Quantitative Reasoning (RMQR) (3 or more credits)**
- Students are required to complete one of the following courses:
  - MTH 123 College Algebra and Trigonometry (RMQR) 4
  - OR
  - MTH 130 Pre-Calculus Mathematics (RMQR) 3

*MTH 123, MTH 130: Also fulfills major requirements.*

**Life and Physical Sciences (RLPR) (3 or more credits)**
- Students are required to complete one of the following courses:
  - PHY 116 Physics I (RLPR) 4
  - OR
  - PHY 120 General Physics I (RLPR) 3

*PHY 116, PHY 120: Also fulfills major requirements.*

**Pathways Flexible Core: 9-10 credits**

Students may take no more than two courses from any discipline or interdisciplinary field in the Flexible Core.

**U.S. Experience in its Diversity (FUSR) (3 credits)**
- Students are required to complete the following course:
  - COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3

**Scientific World (FSWR) (3 or more credits)**
- Students are required to complete one of the following courses:
  - PHY 156 Physics II (FSWR) 4
  - OR
  - PHY 160 General Physics II (FSWR) 3

*PHY 156, PHY 160: Also fulfills major requirements.*

**In addition to the above, students must select one course from any of the following areas of the Flexible Core: (3 credits)**
1. World Cultures and Global Issues (FWGR)
2. Creative Expression (FCER)
3. Individual and Society (FISR)

*NOTE: Students may take courses in STEM areas of the Common Core (Mathematical and Quantitative Reasoning, Life and Physical Sciences, and Scientific World) that have 3 or more credits. This may result in students finishing their degree with more than the regular number of credits required.*

**Major Requirements (52 credits)**

**Required Courses**
- ELT 113 Introduction to Electronics (RNL) 1
- ELT 114 Computer-aided Technology (RNL) 1
- ELT 224 Electrical Circuit Analysis (RLN) 4
- ELT 225 Electrical Circuit Analysis Laboratory (RLN) 1
- ELT 331 Electronics Laboratory (RNL) 1
- ELT 334 Electronics (RNL) 3
- ENS 100 Introduction to Engineering (RLA) 2
- ENS 110 Engineering Graphics (RNL) 2
- ENS 220 Introduction to Computer Engineering (RNL) 4
- OR
- CSC 346 Switching and Automata Theory (RNL) 4
- ENS 221 Digital Electronics Laboratory (RNL) 2
- OR
- CSC 347 Computer Circuits Laboratory (RNL) 1
- ENS 362 Microcontrollers (RNL) 4
- ELT 437 Electrical Power Transmission and Distribution (RLN) 4
- ENS 464 Embedded Systems Analysis and Design (RLN) 4
- ELT 466 Telecommunications Systems Engineering (RLN) 4

**Physics Sequence (8 credits)**
- PHY 116 Physics I (RLPR) 4
  - OR
- PHY 120 General Physics I (RLPR) 3
  - AND
- PHY 121 General Physics I Laboratory (RLA) 1
- PHY 156 Physics II (FSWR) 4
  - OR
- PHY 160 General Physics II (FSWR) 3
  - AND
- PHY 161 General Physics II Laboratory (RLA) 1
A sequence of at least seven credits of mathematics from the level of MTH 123 or higher from the following courses:

- **MTH 123**: College Algebra and Trigonometry (RMQR) 4
- **MTH 130**: Pre-Calculus Mathematics (RMQR) 3
- **MTH 229**: Calculus Computer Laboratory (RLA) 1
- **MTH 230**: Calculus I with Pre-Calculus (RMQR) 6
- **MTH 231**: Analytic Geometry and Calculus I (RMQR) 3

**Total Credits Required: 64**

Note: This program has received a waiver to specify particular courses students must take in the STEM areas of the Common Core (Mathematical and Quantitative Reasoning, Life and Physical Sciences, and Scientific World). If students take different courses in these areas, they will be certified as having completed the Common Core area, but it may not be possible for them to finish their degree program within the regular number of credits.

**Liberal Arts and Sciences Requirement:**

All courses designated ELT and ENT are non-liberal arts and sciences.

**Electrical Engineering Technology Minor**

The minor in Electrical Engineering Technology is for students enrolled in a bachelor’s degree program.

**Minor Requirement: 16 credits**

**Required Courses**

- **ENS 102**: Introduction to Electrical and Electronic Technology (FSWR) 3
- **ENS 110**: Engineering Graphics (RNL) 2
- **ELT 113**: Introduction to Electronics (RNL) 1
- **ELT 224**: Electrical Circuit Analysis (RNL) 4
- **ELT 225**: Electrical Circuit Analysis Laboratory (RLN) 1
- **MTH 123**: College Algebra and Trigonometry (RMQR) 4

**MTH 123 or higher**

**Engineering Science**

(Bachelor of Science, Associate in Science)

Department of Engineering and Environmental Science, Building 1N, Room 226

Chairperson and Professor Neophytos (Neo) Antoniades

The Bachelor of Science degree in Engineering Science at the College of Staten Island is a modern practical approach to engineering education. The engineering student receives a broad engineering, mathematical and scientific background which permits flexibility and adjustment to the rapidly changing techniques of contemporary engineering. Students study in brand new high-tech equipped laboratories. The program also has several state-of-the-art research laboratories that provide opportunities for undergraduate students to participate in research programs at the college. We have found that students who qualify for research programs are also more highly employable in today's engineering marketplace.

The Engineering Science bachelor’s degree program is accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology, Inc. (ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012).

The program offers three specializations (tracks) usually taken in the senior year for students to explore and prepare for particular areas of engineering and to prepare for graduate work in a specialized field. Specializations are available in: Mechanical, Computer and Electrical Engineering

Engineering Science Courses (p. 269)

**Engineering Science (AS)**

Our Associate in Science program in Engineering Science (AS in Engineering Science) is a very popular 2-year program that prepares students for the 4-year BS degrees in Engineering or is used for a basic technical education background in the technology field by our young graduates.

**Pathways Common Core: 30 credits**

**Pathways Required Core: 12-14 credits**

**English Composition (RECR) (6 credits)**

- **ENG 111**: Introduction to College Writing (RECR) 3
- **ENG 151**: College Writing (RECR) 3

**Mathematical and Quantitative Reasoning (RMQR) (3-6 credits)**

Students are required to complete the following course:

- **MTH 231**: Analytic Geometry and Calculus I (RMQR) 3

**MTH 231**: Also fulfills major requirements.

**Life and Physical Sciences (RLPR) (3 credits)**

Students are required to complete the following course:

- **PHY 120**: General Physics I (RLPR) 3

**Pathways Flexible Core: 18 credits**
Students must take six three-credit liberal arts and sciences courses, with at least one course from each of the following five areas and no more than two courses in any discipline or interdisciplinary field. The five areas are:

1. **U.S. Experience in its Diversity (FUSR) (3 credits)**
   - Students are required to complete the following course:
     - COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3
     - *PHY 160: Also fulfills major requirements.*

2. **Scientific World (FSWR) (3 credits)**
   - Students are required to complete the following courses:
     - PHY 120 General Physics I (RLPR) 3
     - PHY 121 General Physics I Laboratory (RLA) 1

3. **World Cultures and Global Issues (FWGR) (3 credits)**

4. **Creative Expression (FCER) (3 credits)**

5. **Individual and Society (FISR) (3 credits)**

**NOTE:** Students may take courses in STEM areas of the Common Core (Mathematical and Quantitative Reasoning, Life and Physical Sciences, and Scientific World) that have 3 or more credits. This may result in students finishing their degree with more than the regular number of credits required.

**Core Requirements: 42 credits**

**Required Life and Physical Sciences Requirement (RLPR)**

Students are required to complete the following course:
PHY 120  General Physics I (RLPR)  3  
PHY 120: Also fulfills pre-major requirements.

Pathways Flexible Core: 18 credits

Students may take no more than one course from any area and no more than two courses from any discipline or interdisciplinary field in the Flexible Core.

Flexible U.S. Experience in its Diversity Requirement (FUSR)

Students are required to complete the following course:
COR 100  United States: Issues, Ideas, and Institutions (FUSR)  3

Flexible Scientific World Requirement (FSWR)

Students are required to complete the following courses:
PHY 160  General Physics II (FSWR)  3
AND
ENS 250  Engineering Mechanics (FSWR)  3

PHY 160, ENS 250/PHY 250: Also fulfills pre-major requirements.

Flexible World Cultures and Global Issues Requirement (FWGR) (3 credits)

Flexible Creative Expression Requirement (FCER) (3 credits)

Flexible Individual and Society Requirement (FISR) (3 credits)

College Option 12 credits

Students are required to complete the following courses:
Social Science
ECO 251  International Political Economy (RLA)  4  
ECO 251: Also fulfills pre-major requirements.

Lab for RLPR
PHY 121  General Physics I Laboratory (RLA)  1  
PHY 121: Also fulfills pre-major requirements.

STEM
MTH 232  Analytic Geometry and Calculus II (RMQR)  3  
OR
MTH 233  Analytic Geometry and Calculus III (RMQR)  3  
OR
PHY 240  Waves and Modern Physics (FSWR)  3  

MTH 232: Also fulfills pre-major requirements.

STEM
CHM 141  General Chemistry I (RLPR)  3  
CHM 141: Also fulfills pre-major requirements.

Pre-Major Requirements: 50 credits

Students beginning the Engineering Science program as freshmen should complete the following requirements:

ENS 100  Introduction to Engineering (RLA)  2  
ENS 110  Engineering Graphics (RNL)  2  
ENS 136  Computer-Aided Engineering I (RNL)  2  
ENS 220  Introduction to Computer Engineering (RNL)  4  
ENS 221  Digital Electronics Laboratory (RNL)  2  
ENS 241  Electrical and Electronic Circuits (RNL)  4  
ENS 249  Basic Measurements Laboratory (RLA)  2  
ENS 250  Engineering Mechanics (FSWR)  3  
CSC 270  Introduction to Scientific Computing (FSWR)  4  

ECO 285  Economics for Engineers (RLA)  4  
OR
ECO 251  International Political Economy (RLA)  4  

MTH 229  Calculus Computer Laboratory (RLA)  1  
MTH 231  Analytic Geometry and Calculus I (RMQR)  3  
MTH 232  Analytic Geometry and Calculus II (RMQR)  3  
MTH 233  Analytic Geometry and Calculus III (RMQR)  3  

PHY 120  General Physics I (RLPR)  3  
PHY 121  General Physics I Laboratory (RLA)  1  
PHY 121: Also fulfills pre-major requirements.

PHY 160  General Physics II (FSWR)  3  
PHY 161  General Physics II Laboratory (RLA)  1  
CHM 141  General Chemistry I (RLPR)  3  
CHM 141: Also fulfills pre-major requirements.
CHM 121   General Chemistry I  1
Laboratory (RLA)

*MTH 230 Calculus I with Pre-Calculus can be substituted
for MTH 231 Analytic Geometry and Calculus I

Major Requirements: 60 credits

There are three specializations in the Engineering Science BS. They are: Computer Engineering Specialization (CES); Electrical Engineering Specialization (EES); Mechanical Engineering Specialization (MES). Students may choose to
follow one of these specializations.

Required Courses

MTH 330   Applied Mathematical
Analysis I (RLA)  4

MTH 311   Probability Theory and an
Introduction to Mathematical
Statistics (RLA)  4

MTH 331   Applied Mathematical
Analysis II (RLA)  4

PHY 240   Waves and Modern Physics
(FSWR)  3

ENS 310   Thermodynamics (RLA)  4

ENS 331   Digital Signal Processing
(RLA)  4

ENS 450   Fluid Mechanics (RLA)  4

ENS 336   Computer-Aided Engineering
(RNL)  4

CSC 332   Operating Systems I (RLA)
AND
CSC 305   Operating Systems
Programming Laboratory (RNL)

ENS 356   Theory of Electromagnetic
Radiation (RLA)  4

ENS 316   Dynamics (RLA)  4

ENS 362   Microcontrollers (RNL)  4
ENS 371   Systems Analysis (RNL)  3

CSC 326   Data Structures (RNL)
OR
ENS 420   Analog and Digital Systems
Design (RNL)

ENS 380   Mechanics of Solids (RNL)  4

ENS 439   Systems Laboratory (RNL)  2

ENS 459   Applied Mechanics
Laboratory (RNL)  2

ENS 485   Properties of Materials (RNL)  4
ENS 491   Advanced Engineering Design
I (RNL)  2
ENS 492   Advanced Engineering Design
II (RNL)  2

Four credits of technical electives approved by an
engineering science advisor. (4 credits)

Pending the approval of the departmental advisor, any 300-
or 400-level course in Engineering, Biology, Computer
Science, Chemistry, Mathematics or Physics may be used to
satisfy this requirement.

At least eight credits of advanced ENS electives (8
credits)
The total number of ENS credits must be at least 57, as
approved by an engineering science adviser.

Computer Engineering Specialization (CES):

Courses fulfilling the pre-major and major
requirements should include:

ENS 100   Introduction to Engineering
(RLA)  2
ENS 110   Engineering Graphics (RNL)  2
ENS 136   Computer-Aided Engineering
I (RNL)  2
ENS 220   Introduction to Computer
Engineering (RNL)  4
ENS 221   Digital Electronics Laboratory
(RNL)  2
ENS 241   Electrical and Electronic
Circuits (RNL)  4
ENS 249   Basic Measurements
Laboratory (RLA)  2
ENS 250   Engineering Mechanics
(FSWR)  3
ENS 310   Thermodynamics (RLA)  4
ENS 331   Digital Signal Processing
(RLA)  4
ENS 336   Computer-Aided Engineering
(RNL)  4
ENS 362   Microcontrollers (RNL)  4
ENS 371   Systems Analysis (RNL)  3
ENS 439   Systems Laboratory (RNL)  2
ENS 485   Properties of Materials (RNL)  4
ENS 491   Advanced Engineering Design
I (RNL)  2
ENS 492   Advanced Engineering Design
II (RNL)  2
CSC 326   Data Structures (RNL)  4
CSC 305   Operating Systems  1
Programming Laboratory (RNL)
CSC 332 Operating Systems I (RLA) 3

The courses fulfilling the advanced ENS electives should be chosen from the following:
ENS 420 Analog and Digital Systems Design (RNL) 4
ENS 436 Electrical Machines and Energy Systems (RNL) 3
ENS 441 Electrical Power Transmission and Distribution (RNL) 4
ENS 463 Introduction to Nanotechnology (RNL) 4
ENS 466 Telecommunications Systems Engineering (RNL) 4
ENS 471 Control Systems (RLA) 3
ENS 473 Image and Video Processing in Engineering (RNL) 4
CSC 435 Advanced Data Communications (RNL) 4

One of the courses fulfilling the technical elective must be:
CSC 446 Computer Architecture (RNL) 4

Electrical Engineering Specialization (EES):
Courses fulfilling the pre-major and major requirements should include:
ENS 100 Introduction to Engineering (RLA) 2
ENS 110 Engineering Graphics (RNL) 2
ENS 136 Computer-Aided Engineering I (RNL) 2
ENS 220 Introduction to Computer Engineering (RNL) 4
ENS 221 Digital Electronics Laboratory (RNL) 2
ENS 241 Electrical and Electronic Circuits (RNL) 4
ENS 249 Basic Measurements Laboratory (RLA) 2
ENS 250 Engineering Mechanics (FSWR) 3
ENS 310 Thermodynamics (RLA) 4
ENS 331 Digital Signal Processing (RLA) 4
ENS 336 Computer-Aided Engineering (RLN) 4
ENS 356 Theory of Electromagnetic Radiation (RLA) 4
ENS 362 Microcontrollers (RNL) 4
ENS 371 Systems Analysis (RNL) 3
ENS 420 Analog and Digital Systems Design (RLN) 4
ENS 439 Systems Laboratory (RNL) 2
ENS 485 Properties of Materials (RNL) 4
ENS 491 Advanced Engineering Design I (RLN) 2
ENS 492 Advanced Engineering Design II (RLN) 2

The courses fulfilling the advanced ENS electives should be chosen from the following:
ENS 441 Electrical Power Transmission and Distribution (RNL) 4
ENS 434 Energy Conversion (RNL) 4
ENS 436 Electrical Machines and Energy Systems (RNL) 3
ENS 438 Power Plant Design and Analysis (RNL) 4
ENS 446 Computer Architecture (RNL) 4
ENS 463 Introduction to Nanotechnology (RNL) 4
ENS 464 Embedded Systems Analysis and Design (RNL) 4
ENS 466 Telecommunications Systems Engineering (RNL) 4
ENS 471 Control Systems (RLA) 3
ENS 473 Image and Video Processing in Engineering (RNL) 4

Mechanical Engineering Specialization (MES):
Courses fulfilling the pre-major and major requirements should include:
ENS 100 Introduction to Engineering (RLA) 2
ENS 110 Engineering Graphics (RNL) 2
ENS 136 Computer-Aided Engineering I (RNL) 2
ENS 220 Introduction to Computer Engineering (RLN) 4
ENS 221 Digital Electronics Laboratory (RNL) 2
ENS 241 Electrical and Electronic Circuits (RNL) 4
ENS 249 Basic Measurements Laboratory (RLA) 2
ENS 250 Engineering Mechanics (FSWR) 3
ENS 310 Thermodynamics (RLA) 4
ENS 316 Dynamics (RLA) 4
ENS 336 Computer-Aided Engineering (RNL) 4
ENS 362 Microcontrollers (RNL) 4
ENS 371 Systems Analysis (RNL) 3
ENS 380 Mechanics of Solids (RNL) 4
ENS 450 Fluid Mechanics (RLA) 4
ENS 459 Applied Mechanics Laboratory (RLN) 2
ENS 485 Properties of Materials (RNL) 4
ENS 491 Advanced Engineering Design 2
ENS 492 Advanced Engineering Design II (RLN)

The courses fulfilling the advanced ENS electives should be chosen from the following:

- ENS 410 Heat Transfer (RNL) 4 credits
- ENS 434 Energy Conversion (RNL) 4 credits
- ENS 436 Electrical Machines and Energy Systems (RNL) 3 credits
- ENS 438 Power Plant Design and Analysis (RNL) 4 credits
- ENS 441 Electrical Power Transmission and Distribution (RNL) 4 credits
- ENS 463 Introduction to Nanotechnology (RNL) 4 credits
- ENS 470 Introduction to Environmental Engineering (RLN) 4 credits
- ENS 471 Control Systems (RLA) 3 credits

Free Electives: 4 credits

Total Credits Required: 133

Honors

To graduate with honors in Engineering Science a student must meet the following requirements:

1. Fulfillment of all the requirements for the Engineering Science degree
2. An overall grade point average of 3.5 and a grade point average of 3.5 in the major
3. Outstanding achievement as demonstrated by ONE or more of the following:
   a. Exceptional senior project
   b. Authorship in a paper or abstract at the refereed conference or journal proceedings in the field
   c. Major recognition award for undergraduate research work within the CUNY community
4. In order for the honors option to be awarded, the student needs to be nominated by faculty or apply before graduation and honors status will be judged and awarded by a departmental committee.

The Engineering Science program offers a number of senior-level electives for students interested in further work in a particular area of engineering and for students interested in graduate work in engineering. Students should consult an advisor in the program for details. Concentrations are available in the following areas:

- Computer Engineering - Communications and Networking
- Computer Engineering - Operating Systems
- Computer Engineering - Architecture and Organization
- Computer Engineering - Artificial Intelligence
- Electrical Engineering - Electronics
- Electrical Engineering - Control Systems
- Electrical Engineering - Communication Systems
- Electrical Engineering - Energy Systems
- Mechanical Engineering - Heat Transfer
- Mechanical Engineering - Fluids and Aerodynamics
- Mechanical Engineering - Biomedical Applications
- Mechanical Engineering - Environmental Control

Liberal Arts and Sciences Requirement

Of the 133 credits required for the BS in Engineering Science, at least 66 must be in liberal arts and sciences courses. Most courses designated ENS are non-liberal arts and sciences; those ENS courses that are cross-listed in mathematics (MTH) or physics (PHY) are liberal arts and sciences.

Transfer Program

Students who have graduated with a two-year Associate in Applied Science (AAS) degree in one of the engineering technologies can be admitted to the BS degree program. Their previous courses are evaluated, and they are usually required to take such bridging courses as PHY 230 Physics for Engineers and CSC 126 Introduction to Computer Science or CSC 270 Introduction to Scientific Computing, as well as additional mathematics courses.

The requirements for the transfer program are identical to those given above for the BS in Engineering Science.

Pre-Major Requirements:

Same as BS in Engineering Science

Major Requirements:

Same as BS in Engineering Science

Electives: 4 credits (for all three specializations)

Total Credits Required: 133

Geology

Minor

Department of Engineering and Environmental Science.
Building 1N, Room 226
Chairperson and Professor Neophytos (Neo) Antoniades

A minor in Geology is offered consisting of a number of very interesting courses that enhance the student knowledge in this exciting field.

Geology Courses (p. 280)

Geology Minor

Minor Requirements

Minor Requirements: 23-24 credits

GEO 102 Earth Systems History (FSWR) 3 credits
The department offers the Bachelor of Science degree in Mathematics and the Bachelor of Science degree in Computer Science-Mathematics jointly with the Department of Computer Science. A minor in Mathematics is available for students with majors in other disciplines.

### Mathematics

(Bachelor of Science in Mathematics, Computer Science/Mathematics, Preparation for Teaching in Grades 7–12, Minor; see also Computer Science-Mathematics (BS); see also Education/Adolescence Education Program (p. 147).)

Department of Mathematics, Building 1S, Room 215
Chairperson and Professor Carlo Lancellotti

Mathematics is a gateway to many desirable professions in both the private and public sectors. Research teams at nearly all large corporations recruit Math majors. The analytical and problem solving skills cultivated by students majoring in Mathematics are both versatile and highly valued in government, industry, and education.

There are three major emphases for the BS degree in Mathematics: Applied Mathematics—for those interested in applying mathematical ideas and techniques to model and solve real-world problems; Pure Mathematics—for those primarily interested in mathematical concepts and who excel at abstract and analytical thinking; Secondary Education—for those interested in teaching high school-level mathematics.

A joint Mathematics-Computer Science major is also offered for those interested in both fields. This option involves a synthesis from both fields and gives students the advantage of broader opportunities in a growing area of research.

Mathematics Courses (p. 312)

### Mathematics (BS)

#### Pre-Major Requirements: 22-25 credits

**10 credits**

- MTH 229 Calculus Computer Laboratory (RLA)
- MTH 231 Analytic Geometry and Calculus I (RMQR)
- MTH 232 Analytic Geometry and Calculus II (RMQR)
- MTH 233 Analytic Geometry and Calculus III (RMQR)

**13 credits**

- MTH 229 Calculus Computer Laboratory (RLA)
- MTH 230 Calculus I with Pre-Calculus (RMQR)

**Electives: 14-17 credits**

(including courses in education, required for students interested in secondary education teacher certification)

**Total Credits Required: 120**

Following are three different emphases for a BS degree in Mathematics.

**Pure Mathematics Emphasis**

Students who wish to focus on theoretical aspects of mathematics are advised to include courses from Differential Equations, Real and Complex Analysis (MTH 331, MTH 342, MTH 431), Number Theory and Algebra (MTH 347, MTH 442), Geometry and Topology (MTH 329, MTH 441), or Logic and Foundations (MTH 350, MTH 440).

**Applied Mathematics Emphasis**

Students who wish to explore mathematical topics that have applications to other fields, including sciences, engineering, medicine, economics, or business, are advised to include courses that emphasize Mathematical Modeling such as Combinatorics/Graph Theory, Actuarial Mathematics, Operations Research and Mathematical Biology (MTH 337, MTH 360, MTH 370, MTH 415), Differential Equations
and Dynamical Systems (MTH 331, MTH 435), Numerical Analysis (MTH 335), Mathematical Statistics (MTH 410, MTH 411), or Mathematics of Finance (MTH 416).

Honors

To graduate with honors in Mathematics a student must have at least a 3.5 grade point average in Mathematics courses and must complete an honors thesis or project. The student must work closely with a Mathematics faculty member to define the project, carry out the research and investigation, and write the final report or prepare the final project. The student may receive credit through Independent Study for work on an honors project. The project must be accepted by the Honors Committee of the Department of Mathematics.

Mathematics Minor

Minor

Pre-Minor requirements:

10 credits

MTH 229 Calculus Computer Laboratory (RLA) 1
MTH 231 Analytic Geometry and Calculus I (RMQR) 3
MTH 232 Analytic Geometry and Calculus II (RMQR) 3
MTH 233 Analytic Geometry and Calculus III (RMQR) 3

or

11 credits

MTH 229 Calculus Computer Laboratory (RLA) 1
MTH 235 Accelerated Calculus I (RMQR) 5
MTH 236 Accelerated Calculus II (RLA) 5

or

13 credits

MTH 229 Calculus Computer Laboratory (RLA) 1
MTH 230 Calculus I with Pre-Calculus (RMQR) 6
MTH 232 Analytic Geometry and Calculus II (RMQR) 3
MTH 233 Analytic Geometry and Calculus III (RMQR) 3

Requirements: 12 credits

At least 12 credits of Mathematics courses at the 300- or 400-level including at least one four-credit course that has not been used to satisfy a requirement for another major. A GPA of 2.0 or higher.

Mathematics Testing

(See also Academic Policies/Testing (p. 39))

Every student entering The City University of New York must take a mathematics proficiency and placement test. Prior to fall 2004 the test used was the five-part CUNY Mathematical Assessment Test (CMAT). Beginning in fall 2004, the test used is the COMPASS Exam. This new exam is a computer adaptive test, which consists of four parts: Part I - Numerical Skills/Pre-Algebra, Part II - Algebra, Part III College Algebra, and Part IV - Trigonometry. Mathematics proficiency can be demonstrated by appropriate scores on the COMPASS Exam, Parts I and II or an appropriate score on prior mathematics exams such as the math section of the SAT or the NYS Regents Mathematics exams. Students who have sufficient background in mathematics can be exempted from the proficiency part of the exam, but are still required to take the placement section of the COMPASS Exam beginning with Part II - Algebra, for placement into the appropriate level of mathematics courses.

Students who do not get the required score on Part I and Part II of the COMPASS Exam and are not exempt based upon the SAT and NYS Regents score are not considered to be math proficient.

These students are required to achieve proficiency within one year. This one year includes the pre- and post-freshmen Summer Immersion Program, the Winter Immersion Program, and the fall and spring remedial coursework. Students who do not achieve proficiency in mathematics within one year will be dismissed.

All non-proficient students who fail both Part I and Part II of the COMPASS exam must complete a pre-freshman math immersion course. Other non-proficient students may enroll in an Immersion Program the appropriate 0-level mathematics course (MTH 020).

Mathematics Placement

All incoming students must take the COMPASS Exam, a mathematics proficiency and placement test. Those who are exempt from the proficiency part of the exam are required to take the placement part of the exam beginning with Part II - the Algebra section, in order to be placed into an appropriate mathematics course that is consistent with their curriculum.

Placement in mathematics courses is governed by the following Mathematics Department policies:

1. Incoming students who have failed to exhibit mathematics proficiency are eligible only for placement into either MTH 015 (6 hours.) for students who failed both parts of the proficiency exam or MTH 020 (4 hours.) for students who failed only one part of the proficiency exam and are not eligible to take any other
Students who have mathematics proficiency but do not have a sufficiently high score on Part II (Algebra) of the COMPASS Exam need further work in elementary algebra are only eligible for placement into MTH 020. Students who have mathematics proficiency and in addition have sufficiently high scores on the appropriate parts of the (four-part) COMPASS Exam, or NYS Regents are eligible for placement into MTH 030, MTH 102, MTH 108, MTH 109, MTH 113, MTH 121, MTH 123, MTH 130, MTH 217, MTH 221, MTH 223, MTH 230, or MTH 231, according to the current Mathematics Placement Score table published by the Department of Mathematics. These courses may have additional prerequisites or restrictions.

2. Transfer students should bring documentation of previous coursework in mathematics to the Mathematics Department for evaluation and placement as soon as possible after admission to the College. If applicable, students should provide a copy of their high school transcripts with NYS Regents scores. Transfer students should bring catalog descriptions of their previous mathematics courses, along with copies of their transcripts with the original grades.

3. Students who complete MTH 123 with a grade of A may go directly to Calculus I MTH 231. Students who complete MTH 123 with a grade of A or B may go directly to MTH 230. In either case, however, students who need additional background in trigonometry are advised to take MTH 130 before taking Calculus I.

4. Initial placement into all mathematics courses, including MTH 015 or MTH 020, MTH 030, MTH 102, MTH 108, MTH 109, MTH 113, MTH 121, 123 MTH, 130 MTH, 217, MTH 221, MTH 223, MTH 230, or MTH 231 for students not covered by the policies above is determined by the recommendation of faculty advisors in the Department of Mathematics, based on documentation or demonstration of the student’s mathematics preparation.

Selecting Appropriate Mathematics Courses

The College offers several introductory mathematics courses and course sequences meeting a variety of student interests and needs.

College-level Mathematics Courses

The College offers several introductory mathematics courses, meeting a variety of student interests and needs.

1. Standard Calculus sequence: the College offers a standard sequence in single and multivariable calculus: MTH 230 or MTH 231 (with MTH 229), MTH 232, and MTH 233 for students in Chemistry, Computer Science, Engineering Sciences, and Mathematics, and students who wish to take more advanced courses in mathematics. It is recommended for students considering graduate work in any field requiring advanced mathematics including business and economics. Students should take MTH 123 and MTH 130 to prepare for this sequence (see also the section on Placement above (p. 133)).

2. Business Calculus sequence: for students in Accounting, Business, or Economics majors who are not planning to undertake graduate study. The courses, MTH 121 Finite Mathematics and MTH 221 Applied Finite Mathematics and Business Calculus, introduce students to mathematical topics used to solve problems in business and economics.

3. General Education 100-level courses: for liberal arts students in AA or BA degree programs. These introductory courses, MTH 102 Mathematics for Liberal Arts Students, MTH 109 Mathematics and the Environment, and MTH 113 Introduction to Probability and Statistics with Computer Applications, are designed to provide a background in contemporary mathematical thinking.

4. SLS Mathematics sequence: for students seeking certification in Early Childhood and Childhood Education: The courses MTH/SLS 217 Fundamentals of Mathematics I and MTH/SLS 218 Fundamentals of Mathematics II are designed for students interested in teaching from pre-kindergarten through the sixth grade. Students must take a 100-level general education mathematics course prior to taking this sequence.

School of Business

Susan L. Holak, PhD
Dean of the School of Business
Building 3N Room 220
Phone: 718.982.2920

The School of Business at the College of Staten Island prepares and shapes business leaders for the New York metropolitan region and beyond. Built on a legacy of teaching, scholarship, and professional engagement the School of Business offers strong programs that combine business discipline skills, exposure to the latest technology, and the breadth of the liberal arts and sciences through its comprehensive curricula.

The School of Business includes the following departments: Accounting and Finance, Economics, Management, and Marketing.

Business

(Bachelor of Science, Associate in Applied Science, Minor)
School of Business, Building 3N, Room 235
Founding Dean, Susan Holak, BS, MPhil, PhD

The Associate’s degree program offers options in Accounting, Finance, Information Systems, International Business, Management, and Marketing.

Graduates may enter directly into the job market or continue study toward the bachelor’s degree and should consult an advisor and plan their programs accordingly.

Students can obtain both exemption from and course credit for BUS 150 by successfully completing four Microsoft Office User Specialist (MOUS) exams: Version 2002 or later, in Word, Excel, PowerPoint, and Access. For information on MOUS test standards and administration, see Microsoft Office Specialist Certification Requirements at www.Microsoft.com.

Business Courses (p. 212)
Finance Courses (p. 275)
Management Courses (p. 309)
Marketing Courses (p. 311)

**Business (AAS)**

**Pathways Required Core: 12 credits**

**English Composition (RECR) (6 credits)**

- ENG 111 Introduction to College Writing (RECR) 3
- ENG 151 College Writing (RECR) 3

**Mathematical And Quantitative Reasoning (RMQR) (3 or more credits)**

Students are required to complete one of the following courses:

- MTH 121 Finite Mathematics (RMQR) 3
- MTH 123 College Algebra and Trigonometry (RMQR) 4
- MTH 130 Pre-Calculus Mathematics (RMQR) 3
- MTH 230 Calculus I with Pre-Calculus (RMQR) 6
- MTH 231 Analytic Geometry and Calculus I (RMQR) 3
- MTH 235 Accelerated Calculus I (RMQR) 5

**Life and Physical Sciences (RLPR) (3 or more credits)**

**Pathways Flexible Core: 9 credits**

Select 3 courses from the following five areas with no more than two courses from any discipline or interdisciplinary field in the Flexible Core. The five areas of the Flexible Core are:

1. World Cultures and Global Issues (FWGR)
2. Creative Expression (FCER)

3. **U.S. Experience in its Diversity (FUSR)**

Students are required to complete the following course:

- COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3

4. **Individual and Society (FISR)**

5. **Scientific World (FSWR)**

   **NOTE:** Students may take courses in STEM areas of the Common Core (Mathematical and Quantitative Reasoning, Life and Physical Sciences, and Scientific World) that have 3 or more credits. This may result in students finishing their degree with more than the regular number of credits required.

**Core Requirements: 28 credits**

(Please note that the prerequisites for several Core courses include a specific math course (MTH 121, or MTH 123, MTH 130, MTH 230, MTH 231). Students may also use this course to fulfill a General Education requirement)

**Required Courses**

- ACC 114 Introduction to Accounting I (RNL) 4
- ACC 121 Introduction to Accounting II (RNL) 4
- BUS 160 Business Law I (RNL) 3
- BUS 215 Information Management (RNL) 4
- ECO 111 Introduction To Microeconomics (RLA) OR
- ECO 112 Introduction to Macroeconomics (RLA) 4
- FNC 240 Managerial Finance I (RLA) 3
- MGT 110 Organizational Theory and Management (RNL) 3
- MKT 111 Marketing (RNL) 3

**Specialization requirements: 7-8 credits selected from the following recommended courses:**

**Accounting:**

Any two accounting courses above ACC 121.

**Finance:**

Any two finance courses at the 200 level or above.

**Information Systems:**

Two courses chosen from the following: CSC 126 or any 200-level or above Information Systems and Informatics (ISI) course(s).

**International Business:**
BUS 200 and (ECO 250 or ECO 252 or ECO 256 or ECO 251/POL 251 or POL 261)

**Management:**
Any two management courses at the 200 level or above.

**Marketing:**
Any two marketing courses at the 200 level or above.

**Total Credits Required: 60**

**Liberal Arts and Sciences Requirement**
All courses designated ACC and BUS, and most courses designated FNC, MKT, and MGT are non-liberal arts and sciences. Courses double-listed with economics (ECO) or political science (POL) are liberal arts and sciences.

**Business (BS)**
This program offers students a strong general business education together with the opportunity for a concentration in finance, international business, management, or marketing. The BS degree program in Business is appropriate for graduates of associate’s degree programs as well as for new and transfer students. For admission, continuation, and graduation from the Bachelor of Science degree program in Business students must maintain a minimum cumulative GPA of 2.5. A 2.5 GPA is not a requirement for students to enroll in the AAS program, for students pursuing a minor in the School of Business, or for students enrolling in individual courses.

**Pre-Major Requirements: 39-43 credits**
(Please note that the prerequisites for several Core courses include a specific math course (MTH 121, or MTH 123, MTH 130, MTH 230, MTH 231). Students may also use this course to fulfill a General Education requirement)

| Required Courses | 
|------------------|------------------|
| ACC 114 | Introduction to Accounting I (RNL) | 4 |
| ACC 121 | Introduction to Accounting II (RNL) | 4 |
| BUS 160 | Business Law I (RNL) | 3 |
| BUS 215 | Information Management (RNL) | 4 |
| ECO 111 | Introduction To Microeconomics (RLA) | 4 |
| ECO 112 | Introduction to Macroeconomics (RLA) | 4 |
| FNC 240 | Managerial Finance I (RLA) | 3 |
| MKT 111 | Marketing (RNL) | 3 |
| MGT 110 | Organizational Theory and Management (RNL) | 3 |
| MGT 230 | Introduction to Managerial and Economic Statistics (RLA) | 4 |

In addition to the course taken to satisfy Mathematical and Quantitative Reasoning (RMQR), students must take an additional math course from the following list: (3-6 credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 130</td>
<td>Pre-Calculus Mathematics (RMQR)</td>
</tr>
<tr>
<td>MTH 221</td>

**Foreign Language* (0-8 credits)**

*Students who are exempt from the foreign language course requirement must take additional credits from the courses listed below to complete the 34-36 credits required in the concentration.

1. **Business:** At least two courses chosen from the following:
MGT 325  International Management (RNL) 4
MKT 320  International Marketing (RNL) 4
BUS 598  Business Internship (RNL) 4

At least one course chosen from each of the following categories:

2. Economics/Political Science
- ECO 250  International Economics (RLA) 4
- ECO 252  Economic Geography (RLA) 4
- ECO 356  Economic Growth and Development (RLA) 4
- ECO 251  International Political Economy (RLA) 4
- POL 260  International Politics: In Search of a New World Order (RLA) 4
- POL 261  International Organizations (RLA) 4

3. Country Focus
- BUS 420  Global Business Seminar: Doing Business Abroad (RNL) 3
- HST 206  Modern China (RLA) 4
- HST 207  History of Africa (RLA) 4
- HST 208  History of Modern Latin America (RLA) 4
- HST 209  Modern Japan (RLA) 4
- HST 210  History of Modern India (RLA) 4
- HST 235  The Modern Middle East (RLA) 4
- HST 271  Modern British History: 1900 to the Present (RLA) 4
- HST 272  Modern Germany (RLA) 4
- HST 284  The Soviet Union and Contemporary Russia (RLA) 4
- LNG 230  Aspects of Contemporary China (RLA) 4

Management Concentration: 26-28 credits
- MGT 210  Management Process (RNL) 4
- MGT 320  Management of Organizational Behavior (RNL) 4
- MGT 410  Business Policy (RNL) 4
- MGT 416  Capstone Business Simulation (RNL) 4

Plus two (2) courses chosen from the following list or any other 200-level or higher MGT course: (6-8 credits)
- MGT 223  Public Administration (RLA) 4
- MGT 314  Small Business Management (RNL) 4
- MGT 321  Production Management 4

MGT 322  Human Resource Administration (RNL) 4
MGT 325  International Management (RNL) 4
MGT 326  Sports Management (RNL) 4
BUS 200  Introduction to International Business (RNL) 4
BUS 211  Communications in a Corporate Setting (RLA) 3
BUS 238  Ethical Issues in Business and Society (RLA) 4
MKT 215  Principles of Selling (RNL) 3
FNC 111  Personal Financial Management (RLA) 3

Plus any one (1) business-related course (except BUS 100) with the written approval of the student’s advisor. (3-4 credits)

Marketing Concentration: 30-32 credits
- MKT 211  Advertising (RNL) 4
- MKT 310  Consumer Behavior (RNL) 4
- MKT 360  Digital Marketing (RNL) 4
- MKT 410  Marketing Research (RNL) 4
- MKT 420  Marketing Management (RNL) 4
- MGT 416  Capstone Business Simulation (RNL) 4

Please one course chosen from the following Marketing Electives (3-4 credits)
- BUS 598  Business Internship (RNL) 4
- MKT 311  Personal Selling and Sales Management (RNL) 4
- MKT 316  Retailing and Channels of Distribution (RLN) 4
- MKT 320  International Marketing (RNL) 4
- MKT 325  Advertising Buying Strategy (RNL) 4
- MKT 370  Advanced Marketing Strategy I (RNL) 4
- MKT 371  Advanced Marketing Strategy II (RNL) 4
- MKT 490  Marketing Seminar (RNL) 3

AND

One additional business related course (3-4 credits)
Courses with any of the following designations: ACC or BDA or BUS or ECO or FNC or ISI or MGT or MKT may be used to satisfy this requirement.

Please check the catalog for course prerequisites.

Total Credits Required: 120

Liberal Arts and Sciences Requirement
Since most business courses are non-liberal arts and sciences, students in this program should pay special attention to this requirement.

**Honors**

To graduate with honors in Business a student must have a 3.5 grade point average in business courses and must have a 3.25 grade point average overall. An honors thesis or project supervised by a member of the business faculty must be completed.

**Business Minors**

**Minors**

The Business minors are available to students in any of the College’s bachelor’s degree majors.

**Business Data Analytics Minor**

**Twenty credits chosen from the following:**

**Required Courses**

- BDA 301 Business Data (RNL) 4
- BUS 215 Information Management (RNL) 4
- MGT 230 Introduction to Managerial and Economic Statistics (RLA) 4
- MGT 324 Introduction to Econometrics (RLA) 4

**One additional course selected from the following**

- FNC 360 Investment Analysis (RLA) 4
- ISI 334 Business Intelligence and Analytics (RLN) 4
- MGT 321 Production Management (RNL) 4
- MKT 410 Marketing Research (RNL) 4

**Management Minor**

At least 18 credits of courses including:

- ACC 114 Introduction to Accounting I (RLN) 4
- MGT 110 Organizational Theory and Management (RLN) 3
- MGT 210 Management Process (RNL) 4
- MGT 320 Management of Organizational Behavior (RLN) 4

**Marketing Minor**

At least 18 credits of courses including:

- ACC 114 Introduction to Accounting I (RLN) 4
- MKT 111 Marketing (RNL) 3
- MKT 211 Advertising (RNL) 4
- MKT 310 Consumer Behavior (RNL) 4

**Department of Accounting and Finance**

Building 3N

George Wang, Chairperson and Associate Professor

Professors: Max Gottlieb, Laura Nowak, Jonathan Peters.

Associate Professors: Baruch Englard, Mary, Recor, Jihazhuo Wang. Assistant Professors: Deborah Brickman, Patricia Galleta, Barry Martin, John Sandler, Cynthia Scarinci.

The department offers Associate, Bachelor, and Master-level degree programs. The Associate's degree is offered with options in Accounting, Finance. Graduates with an AAS degree may enter the job market directly or continue to study toward the bachelor's degree, and should consult an advisor and plan their programs accordingly. The Bachelor of Science degree is offered in Accounting, and in Business with concentrations in Finance. The Bachelor's degree
program in Accounting prepares students for careers in accounting and advanced study toward the CPA examination. The Master's degree program in Accounting is coordinated by Assistant Professor John Sandler.

**Accounting**

(Bachelor of Science, Minor)
School of Business, Dean, Susan Holak, BS, MPhil, PhD
Building 3N, Room 219
Chairperson and Associate Professor George Wang

The program offers preparation for careers in finance and managerial accounting. For admission, continuation, and graduation from the Bachelor of Science degree program in Accounting, students must maintain a cumulative 2.5 GPA. This requirement does not apply to students enrolled in the AAS program, non-Accounting students pursuing an Accounting minor, or non-Accounting students enrolling in individual courses.

**Accounting Courses (p. 191)**

**Accounting (BS)**

This program offers students a strong general business education together with the opportunity for a concentration in finance, international business, management, or marketing. The BS degree program in Accounting is appropriate for graduates of associate's degree programs as well as for new and transfer students. For admission, continuation, and graduation from the Bachelor of Science degree program in Accounting students must maintain a minimum cumulative GPA of 2.5. A 2.5 GPA is not a requirement for students to enroll in the AAS program, for students pursuing a minor in the School of Business, or for students enrolling in individual courses.

**Accounting Requirements**

**Pre-Major Requirements: 39-43 credits**

(Please note that the prerequisites for several Core courses include a specific math course (MTH 121, or MTH 123, MTH 130, MTH 230, MTH 231). Students may also use this course to fulfill a General Education requirement)

- ACC 114 Introduction to Accounting I (RLN) 4
- ACC 121 Introduction to Accounting II (RLN) 4
- BUS 160 Business Law I (RLN) 3
- BUS 215 Information Management (RLN) 4
- ECO 111 Introduction To Microeconomics (RLA) 4
- ECO 112 Introduction to Macroeconomics (RLA) 4
- FNC 240 Managerial Finance I (RLA) 3
- MGT 110 Organizational Theory and Management (RLN) 3
- MGT 230 Introduction to Managerial and Economic Statistics (RLA) 4
- MKT 111 Marketing (RLN) 3

**In addition to the course taken to satisfy Mathematical and Quantitative Reasoning (RMQR), students must take an additional math course from the following list: (3-6 credits)**

<table>

Department of Economics
Building 3N
Simone Wegge, Chairperson and Professor

The department offers Bachelor of Science degrees in Economics. In cooperation with the School of Business, a Business and Finance Concentrations are offered within the Bachelor’s degree program in Economics.

Economics
(Bachelor of Arts, Bachelor of Science, Business Specialization, Finance Specialization, Minor)
School of Business
Founding Dean, Susan Holak, BS, MPhil, PhD
Department of Economics, Building 2N, Room 224
Chairperson and Professor, Simone Wegge

The Economics program serves several different student needs. It provides a major in Economics for students interested in the study of the subject at the bachelor’s degree level or in preparation for graduate study of economics. A Business specialization and a Finance specialization are available for those interested in pursuing the bachelor of science degree in Economics. The bachelor of arts degree requires that ¾ of the credits towards the degree be liberal arts and science courses. The bachelor of science degree requires that half of the credits towards the degree be liberal arts and science courses.

Computer Proficiency Requirement: (0-4 credits)
In addition, Economics majors must demonstrate computer proficiency in one of the following ways:
- Successful completion of any course in computer science
- Successful completion of BUS 150 Essential Software Tools for Business
- Demonstration of proficiency with computers in a manner satisfactory to the Economics faculty
(CSC 108, CSC 112, CSC 114, CSC 116, CSC 118, special focus, abbreviated courses, do not meet this requirement.)

Electives: 30-34 credits
Total Credits Required: 120

Liberal Arts and Sciences Requirement:
The New York State Department of Education requires that ¾ of the credit hours in a Bachelor of Arts (BA) program be liberal arts and sciences credits. For further information
please refer to the Liberal Arts and Science Requirement section of the catalog.

Honors
To graduate with honors in Economics a student must have a 3.5 grade point average in economics courses and must complete a thesis or project determined by the student and his or her faculty sponsor, and the course POL/ECO/PHL 490 Senior Seminar in Political Science, Economics, and Philosophy.

Economics (BS)
Within the major in Economics, the College offers two specializations, Business and Finance, combining the major in Economics with the study of selected courses in business. The program is administered jointly by the Department of Economics and the School of Business. The specialization adds courses useful to students who plan to pursue careers in business or finance and/or continue their education.

ECO 212 Intermediate Macroeconomics (RLA) 4
ECO 230 Introduction to Economic and Managerial Statistics (RLA) 4
One 300-or 400-level course in economics 4

Department of Management
Building 3N
Gordon DiPaolo, Chairperson and Associate Professor
Associate Professors: Deepa Aravind, Dorothy Lang.
Assistant Professors: Heidi Bertels, Alexei Matveev.
The department offers Associate, Bachelor, and Master-level degree programs. The Associate's degree is offered with an option in Management. Graduates with an AAS degree may enter the job market directly or continue to study toward the bachelor's degree, and should consult an advisor and plan their programs accordingly. The Bachelor of Science degree is offered in Business with a concentration in Management. The Master's degree program in Business Management is coordinated by Assistant Professor Heidi Bertels. The Master's degree program in Healthcare Management is coordinated by Associate Professor Gordon DiPaolo.

Department of Marketing
Building 3N
Thomas Tellefsen, Chairperson and Professor
Professors: Susan Holak, Soon Chun, Alan Zimmerman.
Associate Professors: Rosane Gertner, Paul Herskovitz.
Assistant Professors: Dan Zhang. Lecturers: Daniel Gagliardi.
The department offers Associate, Bachelor-level degree programs. The Associate's degree is offered with an option in Marketing.

Phone: 718.982.3720

Teaching is a vital profession, perhaps now more than ever. To do it well requires passion and dedication but also a fundamental understanding of children and learning, proficiency in a variety of pedagogies, the ability to formulate a sound plan, and the wisdom to know when to deviate from it. To do it well rewards you with deep relationships with children and adolescents and psychic pleasure in watching them learn and grow under your tutelage. To do it well in the 21st century results in opportunities for many students that they would not otherwise have. The School of Education is committed to following these principles as it enhances its academic offerings and co-curricular opportunities in ways that meet the needs of students, schools and communities.

The School of Education includes the following departments: Curriculum and Instruction, and Education Studies.

**Department of Curriculum and Instruction**
Building 3S
Margaret Berci, Chairperson and Associate Professor

The department provides initial preparation and undergraduate programs for teaching at the Early Childhood level and in elementary and secondary schools; graduate programs in Childhood Education, Adolescence Education, Special Education; and a Post-Master’s Advanced Certificate for Leadership in Education.

**Department of Educational Studies**
Building 3S
Eleni (Nelly) Tournaki, Chairperson and Professor

The department provides initial preparation and undergraduate programs for teaching at the Early Childhood level and in elementary and secondary schools; graduate programs in Childhood Education, Adolescence Education, Special Education; and a Post-Master’s Advanced Certificate for Leadership in Education.

**Education**
School of Education
Dean, Kenneth Gold, BA, MA, PhD
Department of Educational Studies
Chairperson and Associate Professor Ruth Powers Silverberg
Department of Curriculum and Instruction
Chairperson and Associate Professor Margaret Berci
(See the Graduate Catalog for information on master’s degree programs.)

The College of Staten Island offers a full selection of programs to prepare students for certification as teachers at all levels. Students at the College do not major in Education; they major in academic subjects and complete a sequence of courses in teacher education that provides the academic work necessary for a recommendation for initial certification by the State of New York. Students seeking initial certification from the State Education Department of New York must pass the appropriate teacher certification examinations.

Education courses are identified and the descriptions arranged alphabetically according to the following designations:

- EDA - Supervision and Administration
- EDC - Early Childhood (p. 246)
- EDD - General Education (p. 249)
- EDE - Childhood Education (Elementary Education) (p. Error! Bookmark not defined.)
- EDL - Teaching of English to Speakers of Other Languages (TESOL)
- EDM - Middle School Education
- EDP - Special Education (p. 249)
- EDS - Adolescence Education (Secondary Education) (p. 249)

(Graduate courses are described in the Graduate Catalog)

**Fieldwork**
A New York State mandated minimum of 100 hours of fieldwork is required before student teaching.

**Academic Major**
Students in the Early Childhood Education program and in the Childhood Education program must complete the requirements for the major in Science, Letters, and Society leading to the BA degree. Completion of all degree
requirements for the Science, Letters, and Society major with the Early Childhood Education sequence may require at least 124 credits.

**General Criteria for Entry into the Education Sequences**

Students must have a minimum cumulative GPA of 3.0 or above to enroll in introductory (foundations) education courses (EDC 105, EDC 108, EDC 215, EDE 200, EDE 260, EDS 201, EDS 202). Students whose GPAs are below 3.0 but above 2.9 may appeal for special permission to enroll in an introductory foundations course. All students apply for admission to an educational sequence while enrolled in one of the 200-level foundations courses listed above. Applicants must have already taken the NYSTCE Academic Literacy and Skills Test (ALST). Students who are denied admission to the an educational sequence may appeal the decision. Instructions for the appeal processes, including deadlines, are available in the School of Education office located in Building 3S, Room 208.

**Criteria for Continuing in the Educational Sequences**

Students must develop and maintain a program portfolio as outlined in the program handbook. Students must earn a C+ or above in each education class. Students must maintain a minimum cumulative GPA of 3.0 throughout the program.

**Liberal Arts and Sciences Requirement**

Because most required education courses are non-liberal arts and sciences, students in education usually do not have room for non-liberal arts and sciences courses beyond those required for the education sequence. Students who take other non-liberal arts and sciences courses may find that they need to take more than 120 credits to complete their degree. Education courses that fulfill the Liberal Arts and Sciences requirement are marked (LA&S).

Teacher certification is governed by the New York State Board of Regents and the New York State Education Departments. These requirements are subject to change. Students are advised to contact the Department of Education for the latest degree requirements.

**Early Childhood Education (Birth-2)**

**Early Childhood Education (Birth-2)**

This program is designed for students wishing to specialize in the education of children from birth to second grade. It provides the academic course content necessary for New York State certification at the early childhood level.

**Academic Major: 36-40 credits**

**Education Sequence: 36 credits**

Students wishing to be recommended by the College for initial certification must successfully complete the following sequence of education courses, as well as the Science, Letters, and Society major. Students are expected to begin the Early Childhood sequence in the spring semester of the first year of college. The courses are tightly sequenced with prerequisites and/or corequisites and students move through as a cohort. The sequence must be started by the beginning of the sophomore year. For admission and continuation in the early childhood education sequence and all early childhood education courses students must have a minimum cumulative GPA of 3.0.

**Fieldwork in Early Childhood**

This is a field-intensive program. Students' time in the field typically occurs in addition to the regularly scheduled class times of a course. The amount of time and the nature of the field experience are in some cases assigned to specific courses and in others linked to all courses taken as a corequisite(s) in a given semester. Students who are granted approval by the Program Committee to deviate from this sequencing will have their field requirements adjusted by their early childhood education faculty advisor in conjunction with the Director Fieldwork.

**Early Childhood Education (Birth-2) Sequence (36 credits)**

**Early Childhood (Birth-2) Education Sequence: 36 credits**

This program is designed for students wishing to specialize in the education of children from birth to second grade. It provides the academic course content necessary for New York State certification at the early childhood level.

Students wishing to be recommended by the College for initial certification must successfully complete the following sequence of education courses, as well as the Science, Letters, and Society major. Students are encouraged to begin the Early Childhood sequence in the sophomore year. To complete the sequence when 45 credits have been completed, it must be started by the beginning of the junior year. For admission and continuation in the early childhood education sequence and all early childhood courses students must have a minimum cumulative GPA of 3.0.

Total Credits Required: 120

Childhood Education (1-6)

This program provides the academic course content necessary for New York State certification as a childhood teacher at the first- through sixth-grade level (1-6).

Academic Major: 34-36 credits

Education Sequence: 32 credits

Students wishing to be recommended by the College for certification must successfully complete the following sequence of childhood education courses, as well as the Science, Letters, and Society major. In addition, students are required to submit and orally present an exit program portfolio for evaluation and approval to the Education Department upon completion of the Education sequence. Students may enroll in the Childhood Education sequence once they have 45 total credits earned including three credits in psychology, six in the social sciences, and/or philosophy, and ENG 151 (three). For admission and continuation in the childhood education sequence and all childhood education courses students must have a minimum cumulative GPA of 3.0. Students receiving a grade of C or lower in any education course must repeat the course.

- EDE 402  Reflection and Analysis in Student Teaching in Elementary Education (RNL)  2

Total Credits Required: 120

Adolescence Education (7-12)
This program provides the academic course content necessary for certification as a teacher at the adolescence level in the fields of English, foreign languages, mathematics, science, and social studies.

Academic Major

Students must complete the requirements of a major in the field in which they plan to teach. This sequence provides the academic course content necessary for certification as a teacher at the adolescence level in the fields of biology, chemistry, earth science, English, foreign language, history, physics, and mathematics disciplines.

Students planning to teach social studies major in History, and they complete at least 50 credits in the social sciences, including at least four credits in geography, at least four credits in U.S. history, and at least four credits in non-U.S. history.

Students planning to teach Mathematics must include, within the set of advanced courses required by the mathematics major, one or more upper-level mathematics courses covering (1) Euclidean and non-Euclidean geometry and (2) history of mathematics. This requirement may be met by taking MTH 329 Geometry, and MTH 306 History of Mathematical Thought.

Adolescence Education Sequence: 24 credits
Students wishing to be recommended by the College for certification must successfully complete the following sequence of education courses, as well as their academic major. To complete the sequence in two years it must be begun by the beginning of the junior year. For admission and continuation in the adolescence education sequence and all adolescence education courses students must have a minimum cumulative GPA of 3.0.

- EDS 201  Social Foundations of Secondary Education (RLA)  4

Biology (7-12) (BS)

Biology/Adolescence Education, grades 7-12

Study of the biological sciences is a major requirement for students who wish to specialize in such fields as plant or animal research, and for students who plan to enter various health professions, such as medicine, dentistry, medical technology, physician assistant, and physical therapy; research in fields from cells and molecules to organisms to ecosystems, and education at both the high school and collegiate levels. The Biology/Adolescence Education, grades 7-12 prepares students for a career in biology education.

Pre-Major Requirements: 16-19 credits

A. All four of the following courses:
  BIO 170  General Biology I (RLPR) 3
  BIO 171  General Biology I Laboratory (RLA) 1
  BIO 180  General Biology II (FSWR) 3
  BIO 181  General Biology II Laboratory (RLA) 1

B. One of the following two units: (4-7 credits)
  MTH 230  Calculus I with Pre-Calculus (RMQR) 6
  MTH 229  Calculus Computer Laboratory (RLA) 1

Laboratory (RLA)
OR
MTH 231  Analytic Geometry and Calculus I (RMQR) 3
MTH 229  Calculus Computer Laboratory (RLA) 1

C. One of the following two courses: (4 credits)
  BIO 272  Biometrics (RLA) 4
  MTH 214  Applied Statistics Using Computers (RMQR) 4

D. GPA Requirements

A minimum grade of C is required for a biology course to be used to satisfy a prerequisite for a biology course required for the major requirements for the BS in Biology. To qualify for graduation, students must have at least a 2.5 grade point average (GPA) in the courses that make up the major. Students wishing to be recommended by the College for certification must successfully complete the education sequence requirements, as well as the biology major requirements. To complete the education sequence in two years it must be begun by the beginning of the junior year. Students must have a minimum cumulative average of 3.0 to be admitted to all adolescence education courses.

E. Biology Major Requirements: (86-87 credits)

A minimum grade of C is required for a biology course to be used to satisfy a prerequisite for a biology course required for the major requirements for the BS in Biology. To qualify for graduation, students must have at least a 2.5 grade point average (GPA) in the courses that make up the Biology major.

Required courses: (24 credits)
  BIO 205  General Physiology (RLA) 4
  BIO 312  Genetics (RLA) 4
  BIO 322  Evolution (RLA) 4
  BIO 352  Cell Biology (RLA) 4
  BIO 360  Ecology (RLA) 4

One advanced six-hour laboratory course from the following: (3 credits)
  BIO 424  Molecular Biology and Biotechnology Laboratory (RNL) 3
  BIO 450  Experimental Methods in Animal Physiology (RLA) 3
  BIO 452  Experimental Methods in Behavioral Biology (RLA) 3
  BIO 454  Advanced Methods in Cell Biology (RLA) 3
  BIO 456  Experimental Methods in Ecology (RLA) 3
  BIO 458  Experimental Methods in Cell Biochemistry (RLA) 3
  BIO 460  Experimental Methods in 3
Advanced Genetics (RLA)

*NOTE: EDP 220 is a requirement for NYS Certification. Students are encouraged to take this course prior to graduation.*

**Total Credits Required: 128**

With the permission of the program coordinator, BIO 150 and BIO 160 Anatomy and Physiology I and II may be substituted for BIO 170 and BIO 171 General Biology I and Laboratory, but BIO 150 and BIO 160 may not be used to satisfy the Scientific Analysis requirement in general education.

A student who has educational background or work experience that may be equivalent to the stated pre- or corequisite for a biology course should contact the chairperson of the Biology Department. If it is determined that a student has the appropriate background, a course requisite waiver will be issued.

**Honors**

The honors program in Biology is available to eligible seniors with a 3.5 grade point average or better. The program requires a minimum of one year to complete. The student may receive up to eight credits for independent study (BIO 594) while completing the honors program. However, students do not automatically gain entrance into the honors program by registering for independent study.

To be accepted into the honors program, the student must first obtain approval from a full-time member of the department to carry out an honors research project. This faculty member will then serve as the student’s advisor. Thereafter, the student will prepare and present a detailed written preliminary proposal of the honors research project for approval to a three-member departmental committee, consisting of the faculty adviser and two other faculty members. The committee will evaluate the proposal. After an oral presentation by the student and upon the recommendation of the committee, the student will be
accepted into the program. The student will meet with his or her committee midway through the first semester for evaluation of the project. In addition, the student will submit a written progress report to the committee at the end of the first semester. On the basis of this report, the committee will decide whether the student should proceed further. If the student does not continue in the honors program, he or she may still acquire the credits for independent study.

When the research is completed, the student is required to write up the research in the form of a thesis that will be evaluated at early and final stages by the committee. The thesis format must adhere to that used by leading biological journals, or as outlined in the AIBS style manual. The ultimate decision on thesis format lies with the committee.

Because it will take at least one year to complete the honors program in Biology, it is suggested that the student begin work during the summer immediately following the junior year.

**Chemistry (7-12) (BS)**

**Pre-Major Requirements: 26-29 credits**

**Two additional chemistry electives at the 300- or 400-level (8 credits)**

All Chemistry majors are encouraged to take an Independent Study course (CHM 591-594) as an elective.

Transfer students are expected to fulfill their advanced major requirements (300-level and higher) at the College of Staten Island.

**Preparation for Teaching (Grades 7-12)**

See also Education/Adolescence Education (p. 147).

Students who wish to be recommended for New York State certification for teaching science at the secondary level (grades 7 - 12) must complete all general education, pre-major, and major requirements for the Chemistry BS. For admission and continuation in the education sequence and all education courses (EDC, EDE, EDS) students must have a minimum cumulative GPA of 3.0. Students must also include as electives the following Adolescence Education...
(EDS) course sequence offered by the Department of Education (24 credits):

**Education Sequence (24 credits)**
- EDS 201 Social Foundations of Secondary Education (RLA) 4
- EDS 202 Psychological Foundations of Secondary Education (RLA) 4
- EDS 304 The Pedagogy of Secondary School in Science (RNL) 4
- EDS 318 The Secondary School Curriculum in Science (RNL) 4
- EDS 400 Student Teaching in Secondary Education (RNL) 6
- EDS 401 Reflection and Analysis in Student Teaching in Secondary Education (RNL) 2

NOTE: EDP 220 is required for NYS Teacher Certification. Students are encouraged to take this course prior to graduation.

Total Credits Required: 120

See the Catalog section on Education (p. 143) for additional requirements.

**Earth Science (7-12) (BS)**
Bachelor of Science
Department of Engineering Science and Physics, Building 1N, Room 226
Chairperson an Professor Neophytos (Neo) Antoniades
School of Education
Dean Kenneth Gold,
Program Coordinator: Jane Alexander

**Pathways General Education Requirements: 42 Credits**

**Pathways Required Core: 12 credits**

**Required English Composition Requirement (RECR)**
- ENG 111 Introduction to College Writing (RECR) 3
- ENG 151 College Writing (RECR) 3

**Required Mathematical and Quantitative Reasoning Requirement (RMQR)**
Students are required to complete the following course:
- MTH 231 Analytic Geometry and Calculus I (RMQR) 3

NOTE: Students may be required to take a prerequisite for MTH 231.
MTH 231: Also fulfills major requirements.

**Required Life and Physical Sciences Requirement (RLPR)**
Students are required to complete the following courses:
- CHM 141 General Chemistry I (RLPR) 3
- CHM 141: Also fulfills major requirements.

**Pathways Flexible Core: 18 credits**
Students may take no more than one course from any area and no more than two courses from any discipline or interdisciplinary field in the Flexible Core.

**Flexible U.S. Experience in its Diversity Requirement (FUSR)**
Students are required to complete the following course:
- COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3

**Flexible Scientific World Requirement (FSWR)**
Students are required to complete the following courses:
- CHM 142 General Chemistry II (FSWR) 3
- CHM 142: Also fulfills major requirements.

**Flexible Individual and Society Requirement (FISR)**
- PSY 100 Psychology (FISR) 3

**Flexible World Cultures and Global Issues Requirement (FWGR) (3 credits)**

**Flexible Creative Expression Requirement (FCER) (3 credits)**

**College Option: 12 credits**
Students are required to complete the following courses:

**Social Science**
- EDP 220 Special Educational Needs of People with Disabilities (RLA) 3

**Science Lab for RLPR**
- CHM 121 General Chemistry I Laboratory (RLA) 1
- CHM 121: Also fulfills major requirements.

**Science Lab for FSWR**
- CHM 127 General Chemistry II Laboratory (RLA) 1
- CHM 127: Also fulfills major requirements.

**STEM**
- MTH 232 Analytic Geometry and Calculus II (RMQR) 3
- MTH 232: Also fulfills major requirements.

**STEM**
- GEO 210 Earth Materials (RLA) (RLPR) 4
- GEO 210: Also fulfills major requirements.

**Note:** This program has received a waiver to specify particular courses students must take in the areas of the Common Core and Scientific World) and College Option. If students take different courses in these areas, they will be certified as having completed the Common Core and the...
College Option area, but it may not be possible for them to finish their degree program within the regular number of credits.

**Major requirements: 67-70 credits**

**Required Courses**

Total Credits Required: 120

**Honors**

Students may graduate with honors if they maintain a 3.5 GPA in the major, and complete GEO 460 Capstone Research Seminar and Thesis.

**English (7-12) (BA)**

The Department offers four concentrations in the BA degree program in English. They are: Literature, Writing, Linguistics, and Dramatic Literature

**Major Requirements: 44-48 credits**

**Literature Concentration (44-48 credits):**

**A. Three Required Courses (12 credits):**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENL 290</td>
<td>Introduction to Literary Studies (RLA)</td>
<td>4</td>
</tr>
<tr>

<td>4</td>
</tr>
<tr>
<td>ENL 310</td>
<td>World Literature in Contexts (RLA)</td>
<td>4</td>
</tr>
</tbody>
</table>

**B. Required Literary Coverage Areas (20 credits):**

Students must take one ENL course in each of the following literary coverage areas, and no course may satisfy more than one coverage area.

NOTE: At least one of the courses must be pre-1800.

1. British literature (including period, movement or major figure).
2. American literature (including period, movement or major figure)
3. Literature in translation (including period, movement, or major figure)
4. Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America, and the Caribbean (including period, movement, or major figure)
5. Genre or theme. ENL 323 (Coming of Age Narratives), which falls under this category, is strongly recommended for English majors in the Adolescence Education Sequence.

C. Remaining Courses (12 credits)

These twelve credits may be Linguistics (LING 201/LING 300-level or higher), Literature (ENL), or Writing courses (ENL), or ENL 302. *English majors in the Adolescence Education sequence are required to take ENL 323 and either LING 201 or LING 301.

D. Foreign Language Requirements (0-4 credits)

Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Writing Concentration (44-48 credits):

A. Three Required Courses (12 credits)

<table>
<thead>

</tr>
<tr>
<td>ENL 310</td>
<td>World Literature in Contexts (RLA)</td>
<td>4</td>
</tr>
</tbody>
</table>

B. Twenty credits in ENL Writing courses. (20 credits)

NOTE: Twelve credits must be taken at the 300- or 400-level.

C. Remaining Courses (12 credits)

These twelve credits may be Linguistics (LING 201/LING 300-Level or higher), Literature (ENL), Dramatic Literature (ENL), or Writing (ENL).*

*English majors in the Adolescence Education sequence are required to take ENL 323 and either LING 201 or LING 301. Students in the Literature, Writing, or Linguistics options planning to complete the Adolescence Education sequence may count the required education courses as electives.

D. Foreign Language Requirements (0-4 credits)

Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Dramatic Literature Concentration (44-48 credits):

A. Three Required Courses (12 credits)

<table>

D. Remaining Courses (12 credits)

These twelve credits may be Linguistics (LING 201/LING 300-level or higher), Literature (ENL), Dramatic Literature (ENL), or Writing (ENL).*

*English majors in the Adolescence Education sequence are required to take ENL 323 and either LING 201 or LING 301. Students in the Literature, Writing, or Linguistics options planning to complete the Adolescence Education sequence may count the required education courses as electives.

E. Foreign Language Requirement (0-4 credits)

Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Adolescence Education Sequence: 24 Credits

Students wishing to be recommended by the College for certification must successfully complete the Adolescence Education sequence courses, as well as their academic major. The sequence may be begun in the sophomore year. To complete the sequence in two years it must be begun by the beginning of the junior year. For admission and continuation in the adolescence education sequence and all adolescence education courses students must have a minimum cumulative GPA of 3.0. Please refer to the Education/Adolescence Education section of the Catalog (p. 147) for the Adolescence Education sequence course listing.

Adolescence Education Sequence (24 credits)

EDS 201  Social Foundations of Secondary Education (RLA)  4
EDS 202  Psychological Foundations of Secondary Education (RLA)  4
EDS 301  The Pedagogy of Secondary School in English (RLN)  4
EDS 302  The Pedagogy of Secondary School in Social Studies (RNL)  4
EDS 315  The Secondary School Curriculum in the Social Studies (RNL)  4
EDS 316  The Secondary School Curriculum in English (RNL)  4
EDS 400  Student Teaching in Secondary Education (RNL)  6
EDS 401  Reflection and Analysis in Student Teaching in Secondary Education (RNL)  2

NOTE: EDP 220 is a requirement for NYS Certification. Students are encouraged to take this course prior to graduation.

Electives: 10-34 credits

Total Credits Required: 120

Department Policy for Independent Studies:

In order to take an Independent Study, students must have completed a minimum of 24 credits in the major with a minimum GPA of 3.0. Students may take no more than 8 credits of Independent Studies in the major. Applications for Independent Studies must be completed and submitted to the department chair by 5:00 pm on Friday at the end of the first full week of the semester in which the student is to complete the study. No Independent Studies may be offered during the winter and summer sessions.

History (7-12) (BA)

History (7-12) Four Year Plan

Adolescence Education Sequence: 24 Credits

Students wishing to be recommended by the College for certification must successfully complete the Adolescence Education sequence courses, as well as their academic major. Students planning to teach social studies major in History and they complete at least 50 credits in the social sciences, including at least four credits in geography, at least four credits in U.S. history, and at least four credits in non-U.S. history. The sequence may be begun in the sophomore year. To complete the sequence in two years it must be begun by the beginning of the junior year. For admission and continuation in the adolescence education sequence and all adolescence education courses, students must have a minimum cumulative GPA of 3.0.

Required Courses

EDS 201  Social Foundations of Secondary Education (RLA)  4
EDS 202  Psychological Foundations of Secondary Education (RLA)  4
EDS 301  The Pedagogy of Secondary School in Social Studies (RNL)  4
EDS 315  The Secondary School Curriculum in the Social Studies (RNL)  4
EDS 400  Student Teaching in Secondary Education (RNL)  6
EDS 401  Reflection and Analysis in Student Teaching in Secondary Education (RNL)  2

Electives: 4-38

Total Credits Required: 120
Italian Studies (7-12) (BA)

1. Track One: Italian Studies:

Pre-Major Requirements: 16 credits

Four semesters of college-level language study (ITL 113, ITL 114, ITL 213, ITL 215) or the equivalent (ITL 120, ITL 220, ITL 215). Students who enter the College with ability in Italian take a placement examination to determine the level at which they should begin language study. These courses may also be used to satisfy general education requirements.

Major Requirements: 36 credits

Students majoring in Italian Studies must complete the following requirements:

- ITL 313 Advanced Communication Skills (RLA) 4
- ITL 320 Italian Civilization and Culture (RLA) 4
- ITL 341 Literary Survey I: Medieval, Renaissance (RLA) 4
- ITL 342 Literary Survey II: Modern Italian Studies (RLA) 4
- An additional 20 credits of Italian courses at the 300- or 400-level 20

One course may be taken outside of the department with the permission of the Italian Studies advisor. These courses may be offered in fields such as English, History, Art History, or Political Science. When necessary, one course may be completed as an independent study on an approved topic with a CSI faculty member. Certain courses currently offered that are strongly suggested for majors include HST 249 Italian American History, HST 276 History of Italy, ENL 399 Themes in Literature: Italian/American Experience in Literature, ART 300 Medieval and Renaissance Art.

2. Track Two:

Preparation for Teaching Italian Studies (Grades 7-12):

In addition to the requirements for the Italian Studies major, students wishing to be recommended by the College for teacher certification must complete the Adolescence Education sequence. To complete the sequence in two years it must be begun by the beginning of the junior year. For admission and continuation in the Adolescence Education sequence and all adolescence education courses, students must have a minimum cumulative GPA of 3.0.

- EDS 201 Social Foundations of Secondary Education (RLA) 4
- EDS 202 Psychological Foundations of Secondary Education (RLA) 4
- EDS 305 The Pedagogy of Secondary 4

School in Foreign Language (RNL)

- EDS 319 The Secondary School Curriculum in Foreign Language (RNL) 4
- EDS 400 Student Teaching in Secondary Education (RNL) 6
- EDS 401 Reflection and Analysis in Student Teaching in Secondary Education (RNL) 2

See also Education/Adolescence Education (p. 147).

Electives: 2-26 credits

Total Credits Required: 120

Liberal Arts and Sciences Requirement

Most education courses are non-liberal arts and sciences.

Mathematics (7-12) (BS)

1. Track Two:

Pre-Major Requirements: 22-25 credits

(10 credits)

- MTH 229 Calculus Computer Laboratory (RLA) 1
- MTH 231 Analytic Geometry and Calculus I (RMQR) 3
- MTH 232 Analytic Geometry and Calculus II (RMQR) 3
- MTH 233 Analytic Geometry and Calculus III (RMQR) 3

OR

(13 credits)

- MTH 229 Calculus Computer Laboratory (RLA) 1
- MTH 230 Calculus I with Pre-Calculus (RMQR) 6
- MTH 232 Analytic Geometry and Calculus II (RMQR) 3
- MTH 233 Analytic Geometry and Calculus III (RMQR) 3

One of the following

- CSC 126 Introduction to Computer Science (FSWR) 4

OR

- CSC 270 Introduction to Scientific Computing (FSWR) 4

OR

- MTH 214 Applied Statistics Using Computers (RMQR) 4

AND

A one-year science sequence chosen from the following list of courses:

Space Science I and II

- AST 120 Space Science I (RLPR) 4

In addition, four other mathematics courses at the 300 or 400 level chosen with the approval of an advisor. (16 credits)

Note: Whenever possible all Mathematics majors are strongly advised to include in their curriculum a Computer Science course (CSC 126 or CSC 270) and MTH 214 (one of them as an elective.)

Preparation for Teaching (Grades 7-12)

See also Education/Adolescence Education (p. 147).

Students who wish to be recommended for New York State certification for teaching mathematics at the secondary level (grades 7 - 12) must complete all general education, pre-major, and major requirements for the Mathematics BS.

For admission and continuation in the Adolescence Education Sequence and all Adolescence Education courses students must have a minimum cumulative GPA of 3.0. Students must include, within the set of advanced courses required by the major, one or more upper-level Mathematics courses covering (1) Euclidean and non-Euclidean geometry and (2) history of mathematics: this requirement may be met by taking MTH 329, and MTH 306. Students must also include as electives the following Adolescence Education (EDS) course sequence offered by the Department of Education (24 credits):

NOTE: EDP 220 is a requirement for NYS Certification. Students are encouraged to take this course prior to graduation.

Electives: 14-17 credits

(including courses in education, required for students interested in secondary education teacher certification)

Total Credits Required: 120
Physics (7-12) (BS)

Pathways General Education Requirements: 42 Credits

Pathways Required Core: 12 credits

Required English Composition Requirement (RECR)
ENG 111 Introduction to College Writing (RECR) 3
ENG 151 College Writing (RECR) 3

Required Mathematical and Quantitative Reasoning Requirement (RMQR)
Students are required to complete the following course:
MTH 231 Analytic Geometry and Calculus I (RMQR)
NOTE: Students may be required to take a prerequisite for MTH 231.
MTH 231: Also fulfills pre-major requirements.

Required Life and Physical Sciences Requirement (RLPR)
Students are required to complete the following courses:
PHY 120 General Physics I (RLPR) 3
PHY 120: Also fulfills pre-major requirements.

Pathways Flexible Core: 18 credits

Students may take no more than one course from any area and no more than two courses from any discipline or interdisciplinary field in the Flexible Core.

Flexible U.S. Experience in its Diversity Requirement (FUSR)
Students are required to complete the following course:
COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3

Flexible Scientific World Requirement (FSWR)
Students are required to complete the following courses:
PHY 160 General Physics II (FSWR) 3
AND
PHY 240 Waves and Modern Physics (FSWR)
PHY 160, PHY 240: Also fulfills pre-major requirements.

Flexible Individual and Society Requirement (FISR)
PSY 100 Psychology (FISR) 3

Flexible World Cultures and Global Issues Requirement (FWGR) (3 credits)
Flexible Creative Expression Requirement (FCER) (3 credits)

College Option (12 credits)
Students are required to complete the following courses:
EDP 220 Special Educational Needs of People with Disabilities (RLA)

Science Lab for RLPR
PHY 121 General Physics I Laboratory (RLA) 1
PHY 121: Also fulfills pre-major requirements.

Science Lab for FSWR
PHY 161 General Physics II Laboratory (RLA) 1
PHY 161: Also fulfills pre-major requirements.

STEM
MTH 232 Analytic Geometry and Calculus II (RMQR) 3
MTH 232: Also fulfills pre-major requirements.

STEM
CSC 126 Introduction to Computer Science (FSWR) 4
CSC 126: Also fulfills major requirements.

Note: This program has received a waiver to specify particular courses students must take in the areas of the Common Core and Scientific World and College Option. If students take different courses in these areas, they will be certified as having completed the Common Core and the College Option area, but it may not be possible for them to finish their degree program within the regular number of credits.

Pre-Major Requirements: 33 credits

Students planning to major in Physics 7-12 must complete the following pre-major requirements.

These courses may also be used to satisfy general education requirements.
BIO 170 General Biology I (RLPR) 3
BIO 171 General Biology I Laboratory (RLA) 1
CHM 141 General Chemistry I (RLPR) 3
CHM 121 General Chemistry I Laboratory (RLA) 1
CHM 142 General Chemistry II (FSWR) 3
CHM 127 General Chemistry II Laboratory (RLA) 1
PHY 240 Waves and Modern Physics (FSWR) 3
MTH 229 Calculus Computer Laboratory (RLA) 1
MTH 231 Analytic Geometry and Calculus I (RMQR) 3
MTH 232 Analytic Geometry and Calculus II (RMQR) 3
MTH 233 Analytic Geometry and Calculus III (RMQR) 3
PHY 120 General Physics I (RLPR) 3
Major Requirements: 42 credits

Required Courses
- CSC 126 Introduction to Computer Science (FSWR) 4
- MTH 311 Probability Theory and an Introduction to Mathematical Statistics (RLA) 4
- MTH 330 Applied Mathematical Analysis I (RLA) 4
- PHY 309 Basic Measurements Laboratory (RLA) 2
- PHY 310 Thermodynamics (RLA) 4
- PHY 316 Dynamics (RLA) 4
- PHY 356 Theory of Electromagnetic Radiation (RLA) 4
- PHY 381 History of Modern Physics (RLA) 4
- PHY 425 Astrophysics (RLA) 4
- PHY 442 Quantum Mechanics (RLA) 4
- PHY 485 Properties of Materials (RNL) 4

Education Sequence: 24 credits

For admission and continuation in the adolescence education sequence and all adolescence education courses students must have a minimum cumulative GPA of 3.0.

Required Courses
- EDS 201 Social Foundations of Secondary Education (RLA) 4
- EDS 202 Psychological Foundations of Secondary Education (RLA) 4
- EDS 303 The Pedagogy of Secondary School in Mathematics (RNL) 4
- EDS 318 The Secondary School Curriculum in Science (RNL) 4
- EDS 400 Student Teaching in Secondary Education (RNL) 6
- EDS 401 Reflection and Analysis in Student Teaching in Secondary Education (RNL) 2

See the Catalog section on Education (p. 143) for additional requirements.

Total Credits Required: 120

Honors in Physics:

To graduate with Honors in Physics a student must meet the following requirements:

1. Fulfillment of all the requirements for the Physics degree.
2. An overall grade point average of 3.5 and a grade point average of 3.5 in the major.
3. A senior paper supervised by a mentor, and approved by the mentor and the Department Chair.

Spanish (7-12) (BA)

1. Track One: Spanish:

Pre-Major Requirements: 16 credits

Four semesters of college-level language study (SPN 112, SPN 114, SPN 213, SPN 215) or (SPN 113, SPN 114, SPN 213, SPN 215) or the equivalent (SPN 120, SPN 220, SPN 215). Students who enter the College with ability in Spanish take a placement examination to determine the level at which they should begin language study. These courses may also be used to satisfy general education requirements.

Major Requirements: 36 credits

Students majoring in Spanish must complete the following requirements:

An advanced communication skills course (4 credits)
- SPN 313 Advanced Communication Skills (RLA) 4

A Spanish Society and Literature course (4 credits)
- SPN 339 Spanish Society and Literature through 1700 (RLA) 4
- SPN 341 Spanish Society and Literature from 1700 to the Present (RLA) 4

A Spanish-American Society and Literature course (4 credits)
- SPN 342 Spanish American Society and Literature through Modernism (RLA) 4
- SPN 343 Spanish American Society and Literature from Modernism to the 21st Century (RLA) 4

An additional 24 credits of courses chosen from 300- or 400-level Spanish courses 24

2. Track Two: Preparation for Teaching Spanish (Grades 7-12)

In addition to the requirements for the Spanish major, students wishing to be recommended by the College for teacher certification must complete the following sequence of education courses (24 credits). For admission and continuation in the adolescence education sequence and all
adolescence education courses students must have a minimum cumulative GPA of 3.0.

**Electives: 2-36 credits**

**Total Credits Required: 120**

**Liberal Arts and Sciences Requirement**

Most education courses are non-liberal arts and sciences.

**School of Health Sciences**

Marcus C. Tye, PhD
Dean of the School of Health Sciences
Building 5S, Room 212
Phone: 718.982.3690

CSI’s School of Health Sciences has faculty who contribute innovative research while caring deeply about clinical and professional education, and preparing students for personally fulfilling and rewarding careers in the health professions. Our accredited programs in Nursing, Physical Therapy, and Social Work attract students from throughout the metro region, United States and overseas, and our alumni thrive in fields which improve the quality of human life while offering graduates excellent employment prospects.

The School of Health Sciences includes the following departments: Nursing, Physical Therapy, and Social Work.

**Department of Nursing**

Marcus Hall 5S
Arlene Farren, Chairperson and Associate Professor

The department offers the Associate's degree program that prepares students for the New York State Board of Nursing Examination for license as a Registered Nurse, an upper-division program leading to the Bachelor of Science degree in Nursing, and graduate programs including a Master of Science degree program in Adult-Gerontological Health Nursing (Clinical Nurse Specialist of Nurse Practitioner), the Post Master's Advanced Certificate in Adult-Gerontological Health Nursing (Clinical Nurse Specialist or Nurse Practitioner), Advanced Certificates in Cultural Competence and Nursing Education. The Post Bachelor's Doctor of Nursing Practice (DNP) program for advanced practice nurses (Clinical Nurse Specialist or Nurse Practitioner), the clinical doctorate prepares nurses for the highest level of nursing practice, is a new addition to our degree programs. The Associate's degree, Bachelor's degree, and Master's degree programs are accredited by the National League for Nursing Accrediting Commission and all programs hold New York State Certification. Health Education courses fulfilling the Physical Education requirement are offered by this department. Professor Arlene Farren is Deputy Chairperson. Professor June M. Como is coordinator for the Graduate and Doctor of Nursing Practice program and Professor Patricia Murray-Given is coordinator of the Nurse Practitioner program.

**Nursing**

(Associate in Applied Science, Bachelor of Science, Master of Science in Adult Health Nursing - see Graduate Catalog for information on graduate program)

School of Health Sciences
Department of Nursing, Marcus Hall (5S), Room 213
Chairperson and Associate Professor Arlene Farren

Nursing Courses (p. 325)

**Nursing (AAS)**

Admission to the Nursing program is competitive. Students must: (1) have a minimum of one semester’s residency; (2) Submission of SAT I and SAT II (BIO) OR the National League for Nursing (NLN) Pre-Admission Examination (PAX) – RN scores for evaluation; (3) Successful completion of the prerequisite courses; (4) Submit completed health and immunization record to the College Health Center by date designated in the admission materials. When the pre-clinical courses have been completed, it is recommended that students register for other outstanding requirements such as the Biology sequence, English, and/or PED 190. Students should consult with a Nursing advisor to assist with appropriate course selection.

Effective fall 2012 semester students must have a minimum grade point average (GPA) of 3.0 in the prerequisite courses,
and a minimum of a 2.5 cumulative GPA, with a minimum grade of C in BIO 150 to be considered for admission to the clinical phase of the Nursing program. The number of admissions is limited.

Students who have repeated any of the prerequisite courses may not be considered for admission to the Nursing program. The letter grades earned in prerequisite courses at other colleges are used in the calculation of the index in the prerequisite courses for transfer students.

Transfer students from other colleges must be in good academic standing. Students who are on academic probation, or who have been academically or administratively dismissed from a Nursing program at previous school(s), are not eligible for admission to Nursing at the College of Staten Island.

Once admitted to Nursing, any student who fails to complete NRS 110 successfully must reapply for admission to the program on an appeals basis.

Admissions to the Nursing program are made in June and January each year. Applications for admission are available during each registration online at www.csi.cuny.edu/nursing.

Health Documentation: Each student must maintain a completed health and immunization record on file in the Health Center Office, Campus Center (1C), Room 112. At the beginning of each semester, the student must present a current copy of the health and immunization record to the clinical instructor. This includes an annual physical examination, required immunizations, proof of measles and varicella vaccination or blood titer, PPD test, and drug screen (urine) results. Hepatitis B immunization is highly recommended.

Insurance: Malpractice insurance for Nursing students must be maintained during the time enrolled in the Nursing Education program and is to be renewed yearly. Applications for the insurance are issued at registration. Clinical practice may not begin until the insurance is in effect.

Uniforms: Nursing students are required to wear a uniform during clinical practice. Information about uniforms is available from the department.

CPR Certification: At the start of each clinical course, each student must submit proof of current American Red Cross, National Safety Council, or American Heart Association certification for cardiopulmonary resuscitation.

Starting in the Fall 2009 semester, in order to advance into nursing clinicals, students must provide documentation for one of the following categories:

1. United States Citizenship
2. Permanent Residency
3. International Student with F1 Status
4. Granted Asylum, Refugee Status, Temporary Protected Status, Withholding of Removal, Deferred Enforced Departure; or Deferred Action Status by the United States government

Pathways Common Core Requirements: 20

Electives: 0-3 credits

Total Credits Required: 64

Liberal Arts and Sciences Requirement:

Courses in human services, health education, and nursing are non-liberal arts and sciences.

Criteria for Continuation in Associate’s Degree Nursing Curriculum:

1. The student must be admitted to and matriculated in the clinical phase of the Nursing curriculum in order to register for any required nursing course.
2. The student must achieve a minimum grade of C+ in each of the required courses and a minimum grade of C in the required biology courses. The student may repeat only one biology course with a minimum grade of C and only one nursing course with a minimum grade of B. Withdrawal (WU) from any nursing and/or required biology course will be permitted only once.
3. Students with two withdrawals (W) in nursing courses must apply to the Departmental Advisory Committee to request permission to register for any further nursing courses.
4. The time limit for completion of the clinical phase of the Associate’s degree Nursing program is five years.
5. Students seeking readmission to the clinical phase after a break of three or more years in enrollment in clinical courses must apply to the Department Advisory Committee. In the event of readmission, the Committee may require additional work, including repeating a previously completed clinical course.
6. Students are expected to adhere to standards that reflect ethical and professional responsibility.
7. Failure of a student to meet any of the above standards will warrant review by the Department Advisory Committee.

Nursing (BS)

The College offers an upper-division program leading to the BS degree with a major in Nursing. The program is designed for students who are licensed registered nurses but do not hold the baccalaureate degree.

Admission Requirements:

Applicants to RN to BS completion program in Nursing must be graduates of a nursing program from a degree-granting associate degree program, or an accredited diploma-granting nursing school, or an associate degree program affiliated with an accredited diploma-granting nursing school that prepares students for licensure as Registered Professional Nurses.

Applicants should have at least a 2.5 cumulative grade point average and at least a 2.5 in all nursing courses taken prior to application. Deadlines for applications to CSI and the Department of Nursing, including supporting documentation, are March 15th for the fall semester and October 15th for the spring semester. Information on the RN to BS completion program application process is available on the Registrar’s website.

Pathways Requirements: 37

Pathways Required Core: 14 credits

English Composition (RECR) (6 credits)
ENG 111 Introduction to College Writing (RECR) 3
ENG 151 College Writing (RECR) 3
ENG 111: Also fulfills pre-major requirements.

Mathematical and Quantitative Reasoning (3 or more credits)

Students are required to complete the following course:
MTH 113 Introduction to Probability and Statistics (RMQR) 4

Life and Physical Sciences (RLPR) (3 or more credits)

Students are required to complete the following course:
BIO 150 Human Anatomy and Physiology I (RLPR) 4
BIO 150: Also fulfills pre-major requirements.

Pathways Flexible Core: 19 credits

Students may take no more than two courses from any discipline or interdisciplinary field in the Flexible Core.

U.S. Experience in its Diversity (FUSR)

Students are required to take the following course:
COR 100 United States: Issues, Ideas, and Institutions (FUSR) 3

Individual and Society (FISR) (6 credits)

Students are required to complete the following courses:
PHL 130 Introduction to Ethics (FISR) 3
PSY 100 Psychology (FISR) 3
PHL 130, PSY 100: Also fulfills pre-major requirements.

Scientific World (FSWR) (3 or more credits)

Students are required to complete the following course:
BIO 160: Also fulfills pre-major requirements.

World Cultures and Global Issues (FWGR) (3 credits)
Creative Expression (FCER) (3 credits)

College Option: 4 credits

Students are required to complete the following course:

STEM
PHY 114 Introduction to Physics (RLPR)

PHY 114: Also fulfills major requirements.

Note: This program has received a waiver to specify particular courses students must take in the areas of the Common Core and Scientific World) and College Option. If students take different courses in these areas, they will be certified as having completed the Common Core and the College Option area, but it may not be possible for them to finish their degree program within the regular number of credits.

Honors

To graduate with honors in Nursing, a student must have a 3.5 grade point average in Nursing courses, an overall GPA of 3.25, and must complete an honors project. Upon approval by the Baccalaureate Nursing Curriculum Committee, the student will work under the close supervision of a member of the Nursing faculty while conducting this project. Students may receive credit through Independent Study for their work on an honors project.

Criteria for Progression to 400-level courses:

All students must meet the following requirements prior to taking NRS 400 courses:

1. Current New York State license as a Registered Professional Nurse.

2. Completion of the pre-major requirements, either by examination or by completion of the appropriate courses. A maximum of 34 nursing credits are applied toward the BS in Nursing.

Upon successful completion of these requirements, the student must file a Change in Curriculum Form in the BS in Nursing program with the Office of the Registrar (Registrar’s curriculum designation N4).

To qualify for continuation in and graduation from the Nursing curriculum, students must have received a grade of at least C in each of the required nursing and biology courses. A student may repeat only one of the required
nursing courses and only one of the required biology courses if a grade of less than C is received. Only one Withdrawal (WU) from required courses in nursing or biology is permitted.

Health Documentation
Students taking NRS 410/NRS 411 and NRS 421 must present the following on the first clinical day: a completed copy of the College Health Record that includes annual physical examination, required immunizations, proof of measles and varicella vaccination or a positive titer, PPD test, and drug screen (urine) result. Hepatitis B immunization is highly recommended.

Professional Documentation
Students taking NRS 410/NRS 411 and NRS 421 must present the following on the first clinical day: copy of current RN license; copy of malpractice insurance face-sheet showing dates and coverage.

(See section under AAS (p. 159) for more information on health and insurance regulations.)

Department of Physical Therapy
Building 5N, Room 207
Zaghloul Ahmed, PT, DPT, Chairperson and Professor

The College of Staten Island offers a clinical Doctoral program in Physical Therapy leading to the Doctorate in Physical Therapy (DPT). The DPT Program is accredited by the Commission of Accreditation in Physical Therapy Education (CAPTE).

Department of Social Work
Building 2A, Room 201
Christine Flynn Saulnier, Chairperson and Professor
Professor: Christine Flynn Saulnier. Associate Professor: Barbara Teater. Assistant Professor: Vandana Chaudhry, Esther Son. Lecturers: Patti Gross, Kari Meyer.

The Social Work Programs at the College of Staten Island, the City University of New York are committed to excellence in teaching, service, and the creation and dissemination of knowledge. We draw upon social constructionism to inform and guide transformative social work practices. We strive to create an environment in which the human rights of all people are respected, diversity is embraced, and the values and ethics of the social work profession are upheld. We provide graduates with the knowledge, skills and values to dismantle oppression and injustice; foster human and community well-being; and create a world that is socially and economically just and equitable.

To achieve this mission, the College of Staten Island offers social work degrees at the undergraduate and graduate levels. The Bachelor of Science in Social Work (BSSW) degree prepares students for entry level generalist urban practice. The BSSW program provides a local and global context for understanding and addressing the experiences of people and societies that includes knowledge of cultural, economic, and political factors; and that fosters human and community well-being, with particular emphasis on matters of social and economic justice, and global interconnectedness. The Master of Social Work (MSW) degree prepares students for advanced urban transformative practice with people with disabilities (intellectual, physical, sensory, psychiatric, chronic health and other impairments). The MSW program educates social workers from a critical disabilities perspective to employ transformative social work practices with people with disabilities. Acknowledging our global interconnectedness, we strive to understand and address the experiences of diverse people and societies; foster human and community well-being; and, create a world that is socially and economically just and equitable.

Social Work
(Bachelor of Science)
Department of Social Work (2A), Room 201G
Chairperson and Professor Christine Flynn Saulnier

The curriculum of the Bachelor of Science in Social Work, also called the BSSW, is designed to prepare students for social work practice as generalists and for advanced study in graduate schools of social work. The BSSW is recognized as the entry level by the social work profession. As practitioners, graduates are able to work with people of diverse backgrounds and needs in a variety of settings in such fields as child welfare, mental health, family services, criminal justice, housing, services to people with disabilities, services to people who are elderly, urban development, community organizing, and health and medical care.

Social Work Courses (p. 362)

Social Work (BS)

Admission and Retention Requirements
Students must have completed 40 credits and must have a 2.5 GPA, including SWK 200 and MTH 113 for entry into the program. Students are required to maintain a 2.5 cumulative CUNY College of Staten Island GPA in Social Work courses to remain in good standing in the BSSW Program. Students must earn a grade of C or better in all Social Work courses, except SWK 350 and SWK 360 and
SWK 365, where a grade of B or better is required to advance. SWK 454 and SWK 464 are graded pass/fail.

The academic records of transfer students will be reviewed and equated with the academic major and general education course offerings of the College of Staten Island to determine the placement of the students in the program.

Application forms can be obtained from the Department of Social Work website or from the Department of Social Work office. In addition to the application form, applicants will need to include copies of academic transcripts, a resume detailing volunteer, paid, and unpaid experience, and a well-written and structured personal statement addressing questions specified in the application form. Deadline for applications are February 15th for entry into the Fall of that same year. Applications are reviewed by at least two members of the BSSW Admissions Committee and applicants will be notified of decisions in April of the year of the application. Please consult the Program Director for specific admission procedures.

**Pre-Major Requirement: 7-28 credits**

**Foreign Language Requirement: (0-4 credits)**

Demonstration of proficiency in a language through the intermediate level, 213 or above.

**Total credits required: 120**

**Fieldwork**

Fieldwork courses are included in the Professional Foundation Content Requirement. Fieldwork is designed to facilitate the integration of theoretical knowledge and professional skills. Students are placed in health, education, and social service agencies on Staten Island and in other boroughs for two semesters during their senior year. Under the supervision of professional social workers, students work with individuals, families, groups, and communities. Students are evaluated by the agency supervisor at the end of each semester. Students participate in the evaluation process and sign the evaluation forms.

**Interdisciplinary Studies**

**African and African Diaspora Studies**

(Bachelor of Arts, Minor)
The African and African Diaspora Studies program offers a baccalaureate degree and a minor. The program employs methods used in many academic disciplines to examine the following: the interplay of culture, history, socioeconomic and political forces shaping the experiences of the people of sub-Saharan Africa and their descendants (diaspora) in different parts of the world; the roles that Africans and their descendants have played in the creation of the United States and other New World projects; Africa's history relationship with the Mediterranean and Atlantic Worlds; and the ideas and experiences of race in the United States and the world and how they change over time and space. Coursework includes the study of history, literature, sociology, religion, geography, politics, and the arts.

African and African Diaspora Studies Courses (p. 187)

**African and African Diaspora Studies (BA)**

**Major Requirements: 31-35 credits**

Students majoring in African and African Diaspora Studies must complete:

1. **Complete the following course (3 credits)**
   - AAD 160 African American History: 1619 to the Present (FUSR) (RLA)

2. **Five courses at the 200 level including at least one in each of the following categories: (20 credits)**
   - **Africa:**
     - AAD 247 Peoples and Cultures of Africa (RLA) * 4
     - AAD 253 African Politics (RLA) * 4
     - AAD 260 History of Africa (RLA) * 4
     - AAD 264/HST 264 The African Diaspora (COPR) 4
   - **Caribbean:**
     - AAD 223 Introduction to African Diaspora Literature (RLA) 4
     - AAD 225 Literature of Social Protest (RLA) 4
     - AAD 265 History of the Caribbean (RLA) 4
     - AAD 266 Contemporary African Issues (RLA) * 4
   - **United States:**
     - AAD 202 African American Drama 4

3. **Two courses at the 300 level or above, one of which may be an independent study course (8 credits)**

4. **Foreign Language Requirement: (0-4 credits)**
   - Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

**Electives: 43-47 credits**

**Total Credits Required: 120**

**African and African Diaspora Studies Minor**

**Minor Requirements: 16 Credits**

Sixteen credits of courses in African and African Diaspora Studies at the 200 level or above including one course from each of the following: Africa, the Caribbean, the United States.

**American Studies**

(Bachelor of Arts, Minor)

Interdisciplinary Program, Bldg (1P), Room 206

Director: Assistant Professor Bill Bauer

American Studies is the interdisciplinary study of American cultures, both past and present. American Studies courses examine the arts, literature, history, and popular culture of the United States and, more generally, North America. American Studies provides a strong foundation and essential skills for those preparing for careers in law, government, public history, archival management, education, social service, journalism, publishing, and communications. Individual courses in American Studies are recommended as cultural background for students in any major.

American Studies Courses (p. 192)
American Studies (BA)

American Studies Requirements: 39-43

Pre-Major Requirements: 3 credits
AMS 101  America: An Introduction (RLA)  3

Major Requirements: 36-40 credits

American Literature (8 credits)
ENH 203  Literary History of the United States to 1855 (RLA)  4
ENH 204  Literary History of the United States since 1855 (RLA)  4

American History (8 credits)
HST 244  United States History: 1607-1865 (RLA)  4
HST 245  United States History: 1865-Present (RLA)  4

American Studies (16 credits)
16 credits beyond AMS 101, including at least two courses at the 300 level or above.

Research Seminar
AMS 311  The American Cultural Experience (RLA)  4

Foreign Language Requirement (0-4 credits)
Demonstration of proficiency in a foreign language through the intermediate level, 213 or above. 0-4 credits

Electives: 35-39

Total Credits Required: 120

Honors

Graduating American Studies majors may apply for graduation with honors in AMS. To graduate with honors a student must have:

• Fulfilled the requirements for the AMS major
• Earned a 3.5 grade point average or better in AMS courses
• Been recommended for honors by the AMS Honors Committee. To be recommended a student must have submitted a proposal for an honors thesis and have completed this thesis to the satisfaction of the Honors Committee.

The honors thesis should be a substantial research paper supervised by a committee of two AMS faculty members. One member of this committee will be the primary supervisor with whom the student will register for up to eight credits of independent study. Candidates should ask an AMS faculty member of their choosing to be their primary supervisor. The primary supervisor and the program coordinator will appoint the other member of the candidate’s committee in consultation with the candidate. The thesis submitted need not be a new work; it can be an extension of a paper previously submitted in a course. Theses submitted to the Honors Committee chair must have the signature of both members of the candidate’s committee on the title page.

Students planning to apply for graduation with honors must submit a one-page proposal for their Honors thesis, signed by the members of their committee, to the AMS Honors Committee in the final semester of their junior year. Honors thesis for majors graduating in January must be submitted to the AMS coordinator by November 20 for majors graduating in June or by April 1 for majors graduating in August.

American Studies Minor

Minor Requirements: 23 credits

Required Courses
AMS 101  America: An Introduction (RLA)  3

American literature (8 credits):
ENH 203  Literary History of the United States to 1855 (RLA)  4
ENH 204  Literary History of the United States since 1855 (RLA)  4

American history (8 credits):
HST 244  United States History: 1607-1865 (RLA)  4
HST 245  United States History: 1865-Present (RLA)  4

And any additional AMS course at the 200 level or above. (4 credits)

Biochemistry

(Bachelor of Science, Minor)
Department of Biology
Chairperson and Professor Chang-Hiu Shen
Department of Chemistry
Chairperson and Professor Qiao-Sheng Hu, Building 6S, Room 235

A degree in Biochemistry prepares students interested in working in the fast-growing biotechnology field; in the chemical and pharmaceutical industries; in research, product development, marketing, and sales; and in such related fields as teaching. For students who wish to pursue graduate study in the sciences or enter professional schools (medicine, dentistry, optometry, pharmacy), a BS degree in
Biochemistry is viewed quite favorably by admissions committees.

**Biochemistry (BS)**

The Biochemistry Bachelor of Science degree program offers two tracks. Track 1 will lead to an American Chemical Society (ACS) Accredited Bachelor of Science degree in Biochemistry. Students majoring in Biochemistry must complete the following pre-major and major requirements. These courses may also be used to satisfy general education requirements. A detailed guide to course choices for Biochemistry and Chemistry majors is available from the Department of Chemistry.

### Pre-Major Requirements: 38 credits

BIO 442  Immunology (RLA)  4
BIO 454  Advanced Methods in Cell Biology (RLA)  3
BIO 460  Experimental Methods in Advanced Genetics (RLA)  3

BIO 322, BIO 326, BIO 365, BIO 454, and BIO 460 require prerequisites or corequisites not required in the pre-major or major requirements.

BIO 322, BIO 326, BIO 365, BIO 428, BIO 454, BIO 460 require pre or corequisites not included in the premajor or major requirements.

All Biochemistry majors are encouraged to take Independent Study (BIO 591-594 or CHM 591-594) to facilitate laboratory research as an elective.

Total Credits Required: 120

Honors

A student may be eligible for admission to the honors program in Biochemistry if he or she enters the senior year with a 3.5 grade point average. With the concurrence of a faculty supervisor, the student must submit (by September 15) a one-page summary of a proposed research project. The chairperson of the department and the faculty supervisor will appoint a three-member committee to evaluate and/or modify the proposal (by October 15), then grant or deny admission to the honors program.

While pursuing honors research the student may receive eight credits for Independent Study (BIO 594 or CHM 594), four each in the fall and spring semesters. Additionally, it is highly recommended that the student begin work on the project during the summer or spring semester that immediately precedes the senior year. Progress of the research will be monitored as follows: (1) the student will meet with his or her committee by November 1 of the first semester; (2) the student will submit a five-page progress report by January 15; (3) the committee will recommend for or against continuation in the program by February 1; (4) the student will submit a thesis, following the style of major journals, by May 1; (5) the student will present an oral defense of the thesis to the committee, by the end of the final exam period.

The deadline dates noted above are based on a June graduation date, but corresponding guidelines may be designed for January graduation. In either case, it is expected that completion of the honors program will require at least one year of student research.

Biochemistry Minor

Computer Science–Mathematics (BS)

The Departments of Computer Science and Mathematics offer a joint BS degree program in Computer Science and Mathematics that provides a balance between these two disciplines with an emphasis on their applied aspects and their relationship to each other.
Pre-Computer Science Sequence: 4 credits

Required Course
CSC 126 Introduction to Computer Science (FSWR) 4

A grade of C or above in CSC 126 will be required for admission to the Computer Science-Mathematics Baccalaureate program. Students will be allowed to repeat the course, if necessary.

Pre-Major Requirements: 25-29 credits

Students planning to major in Computer Science-Mathematics should complete the following requirements prior to their junior year.

Disability Studies

(Minor)
Interdisciplinary Program
Coordinator: Professor Eleni Tournaki
Department of Educational Services, Bldg 3S-219
718.982.3728

Disability Studies Minor

The minor in Disability Studies is an interdisciplinary course of study in which students select from a variety of courses concerned with matters of interest to persons with disabilities. The student is required to take a core set of courses in the social and psychological sciences supplemented by a choice from a list of disability-related courses. The minor may be taken in combination with any baccalaureate degree.

Minor Requirements 14-15 credits

Information Systems and Informatics (Bachelor of Science)

Interdisciplinary Program
Directors: Professor Soon Chun, School of Business, Building 3N, Room 210
Associate Professor Zhanyang Zhang, Department of Computer Science, Building 1N, Room 206.

The program in Information Systems and Informatics, offered as an interdisciplinary collaboration between the Departments of Marketing and Computer Science, provides students with core business and technical competencies to traverse the boundary between management and computer information technology. Students learn to design, develop, and implement state-of-the-art information systems to support managerial decision making, statistical modeling, and advanced analytics. The program prepares students for careers as business and systems analysts, designers and developers; data administrators; information systems consultants; and managers in information technology.

The curriculum is based upon the guidelines provided by several professional associations including AACSB (The Association to Advance Collegiate Schools of Business), ABET (the Accreditation Board for Engineering and Technology), and ACM (American Computing Machinery).

A minimum GPA of 2.5 is required for admission to and continuation in the Information Systems major and for graduation. There is no minimum GPA requirement for students enrolling in individual courses.

Information Systems and Informatics Courses (p. 300)

Pre-Major Requirements: 33-36 credits

Required Courses

<table>
<thead>
<tr>

Bus 160 Business Law I (RNL) 3
CSC 126 Introduction to Computer Science (FSWR) 4
BUS 215 Information Management (RLN) 4
ISI 300 Information Structures for Business (RLA) 4
ECO 111 Introduction To Microeconomics (RLA) 4
MGT 110 Organizational Theory and Management (RLN) 3
ECO 230 Introduction to Economic and Managerial Statistics (RLA) 4

In addition to the course taken to satisfy Mathematical and Quantitative Reasoning (RMQR), students must take an additional math course from the following list:

MTH 221 Applied Finite Mathematics and Business Calculus (RMQR) 4
OR
MTH 229 Calculus Computer Laboratory (RLA) 1
MTH 230 Calculus I with Pre-Calculus (RMQR) 6
OR
MTH 229 Calculus Computer Laboratory (RLA) 1
MTH 231 Analytic Geometry and Calculus I (RMQR) 3
OR
MTH 232 Analytic Geometry and Calculus II (RMQR) 3

Note: Students should take the highest-level mathematics course for which they qualify. Student may be required to take MTH 123 to fulfill the pre- or corequisites for CSC 126, MTH 221, or MTH 230; and/or MTH 130 for MTH 231.

Major Requirements: 35 credits

Required Courses

</tbody>
</table>

In addition to the major requirements each student chooses one area of concentration.

Concentration One: 16 credits
Choose three courses from the following and one course from Concentration Two.

**ISI 315**  
Information Security and Risk Management  4

**ISI 334**  
Business Intelligence and Analytics (RNL)  4

**ISI 364**  
Enterprise Computing Strategies (RNL)  4

**ISI 374**  
Information Systems Project Management (RNL)  4

**Concentration Two: 16 credits**

- **CSC 421**  
Internet Data Communications (RNL)  4

- **CSC 424**  
Advanced Database Management Systems (RNL)  4

- **CSC 438**  
Mobile Application Development (RNL)  4

AND

One course chosen from the Concentration One.

Total credits: 120 credits

**Liberal Arts and Sciences Requirement**

Since most business courses and computer science courses are non-liberal arts and sciences courses, students in this program should pay special attention to this requirement. At least 60 credits of the 120 credit total must be in this area.

**International Studies**

*(Bachelor of Arts and Minor)*

Interdisciplinary Program

Director: Associate Professor Jane Marcus-Delgado

The International Studies major is an interdisciplinary major with a predominantly social science emphasis—history, political science, economics—that allows for a measure of geopolitical specialization. Students choose courses from the categories of economics/geography, culture and society, and political science. They also select classes that focus on a geographical area: Africa/Middle East, Asia, Caribbean/Latin America, or Europe.

Study Abroad: International Studies majors are strongly urged to plan and schedule a semester of study abroad in their junior or senior year through the Center for International Service.

Internship: International Studies majors are urged to plan and schedule an internship with an international organization through the Division of Humanities and Social Sciences.

International Studies Courses (p. 299)

---

**International Studies (BA)**

For the major in International Studies, two and one-half years of college-level study of the same language (one semester beyond the 215-level course) or evidence of proficiency at that level is required. All languages qualify.

**Pre-Major Requirements: 12 credits**

**Required Courses**

- **INT 100**  
International Studies (RLA)  3

and three of the following courses

- **ANT 100**  
Understanding Our Worlds (FWGR)  3

- **ECO 101**  
Introduction to Economics (FISR)  3

- **GEG 100**  
Introduction to Geography (FWGR)  3

- **HST 100**  
Past and Present (FISR)  3

- **POL 103**  
Understanding the Political World: An Introduction to Political Science (FWGR)  3

**Major Requirements: 36 credits**

Students will demonstrate fluency in a language other than English by successfully completing five semesters of study in a foreign language or by demonstrating proficiency through examination.

**Within the major requirements at least 12 credits must be at the 300 level or above.**

- **INT 367**  
Globalization and the World System (RNL)  4

**And**

**Five Courses chosen from the following two categories: (20 Credits)**

1. **Economics, Politics, and Geography**

- **BUS 200**  
Introduction to International Business (RNL)  4

- **ECO 250**  
International Economics (RLA)  4

- **GEG 225**  
Cultural Geography (RLA)  4

- **GEG 250**  
Conservation and Humanity (RLA)  4

- **ECO 252**  
Economic Geography (RLA)  4

- **GEG 260**  
Urban Geography (RLA)  4

- **ECO 256**  
Analysis of Underdeveloped Areas (RLA)  4

- **ECO 291**  
Political Economy of War and Peace (RLA)  4

- **ECO 370**  
International Finance (RLA)  4

- **POL 240**  
Comparative Government (RLA)  4

- **ECO 251**  
International Political Economy (RLA)  4

- **POL 259**  
International Security (RLA)  4
And

Three courses chosen from one of the of the following geographical areas: (12 credits)

A. Three African/Middle East area courses that emphasize comparative or general issues chosen from the following:

Students who minor in International Studies must take INT 200 The World and the West: Contemporary Issues, which qualifies for fulfillment of the Contemporary World requirement for general education.

Two years of college-level study of the same language (one semester beyond the 213-level course) or evidence of proficiency at that level. All languages satisfy the requirement.

Latin American, Caribbean, and Latina/o Studies (Minor)
Division of Humanities and Social Sciences, 1A, Room 312
Co-Directors: Associate Professor Alvaro Sarah Pollock and Associate Professor Rafael dela Dehesa

Latin American Caribbean, Latina/o Studies Minor

Minor Requirements: 16 credits
A minimum of 12 credits must be done in residence.

Students must demonstrate proficiency in a Latin American language (i.e., Spanish, French, Portuguese, or other language with faculty permission) through the 215 level.

Proficiency in a Latin American language through the 215 level. (i.e., Spanish, French, Portuguese, or other language with faculty permission).

1. A history course chosen from the following: (4 credits)

ANT 365, ANT 370, and SOC 340 will towards the Minor when the topic is related to Latin American, Caribbean and/or Latina/o Studies. See an advisor for details.

4. One course elective from above lists or a language class at the 215 level or above: (4 credits)

Liberal Arts and Sciences

Liberal Arts and Sciences (AA)

The Liberal Arts and Sciences Associate in Arts degree is the transfer degree for all students, other than those in the sciences, mathematics, or computer science, who plan to matriculate in a four-year bachelor’s degree program. The AA degree allows considerable flexibility: it enables students to survey areas of academic interest, to concentrate in a particular area, to begin work on a major in the sophomore year, and to combine career courses with the study of the liberal arts and sciences. Graduates may continue study toward a bachelor’s degree at the College in one of many major fields of study.

Pathways Required Core: 12 credits

English Composition (RECR) (6 credits)
Mathematical And Quantitative Reasoning (RMQR) (3 or more credits)
Life and Physical Sciences (RLPR) (3 or more credits)

Pathways Flexible Core: 18 credits

Select 6 courses from the following five areas with no more than two courses from any discipline or interdisciplinary field. The five areas of the Flexible Core are:

1. World Cultures and Global Issues (FWGR)
2. U.S. Experience in its Diversity (FUSR)

Students are required to take the following course:
COR 100  United States: Issues, Ideas, and Institutions (FUSR)  3

3. Creative Expression (FCER)

4. Individual and Society (FISR)

5. Scientific World (FSWR)

Electives: 30 credits

The remaining courses should be chosen in consultation with an advisor. Students interested in pursuing a bachelor’s degree should consult with advisors in the discipline in which they plan to major and may begin working in their majors while completing the requirements for the associate’s degree.

Total Credits Required: 60

Liberal Arts and Sciences (AS)

This is the basic degree for students interested, in the future, in matriculating in a Bachelor’s degree program in the sciences, Mathematics, or Computer Science. Graduates may continue in the baccalaureate programs in Biochemistry, Biology, Chemistry, Computer Science, Computer Science-Mathematics, Engineering Science,
Medical Technology, and Physics offered by the College. Students are recommended to consult an academic adviser about appropriate pre-major courses to prepare for the baccalaureate programs.

**Pathways Required Core: 12 credits**

**English Composition (RECR) (6 credits)**

**Mathematical And Quantitative Reasoning (RMQR) (3 or more credits)**

**Life and Physical Sciences (RLPR) (3 or more credits)**

**Pathways Flexible Core: 18 credits**

Select 6 courses from the following five areas with no more than two courses from any discipline or interdisciplinary field. The five areas of the Flexible Core are:

1. **World Cultures and Global Issues (FWGR)**
2. **U.S. Experience in its Diversity (FUSR)**
3. **Creative Expression (FCER)**
4. **Individual and Society (FISR)**
5. **Scientific World (FSWR)**

**Requirements: 11 credits:**

Eight credits chosen from the following sequences:

**Contemporary Theories of the Solar System and Contemporary Theories of the Universe with laboratories**

Minimum of two science or math courses at the 200-level or above chosen from astronomy, biology, chemistry, computer science, engineering science, geology, math, or physics. Students should consult with an academic advisor in the discipline of interest as early as possible.

**Electives: 19 credits**

**Total Credits Required: 60**
Philosophy and Political Science (BA)

Dual Major in Philosophy and Political Science (BA)

Requirements for the dual major in Philosophy and Political Science (BA) include the general education requirements and 19 credits in Philosophy, and 19-20 credits in Political Science. A total of 120 credits required.

Dual Major Requirements: 42-43 credits

- PHL 101 Introduction to Philosophy (FISR) 3
- OR
- PHL 130 Introduction to Ethics (FISR) 3

Four 200-level or above courses in Philosophy including at least one course at the 300 level or above. (16 credits)

Of these four courses, one must be in the History of Philosophy (PHL 200-219, 300-319) and one in Philosophical Method (PHL 220-229, PHL 320-329, PHL 420).

(3-4 credits)

- POL 100 American Government and Politics (FUSR) 3
- OR
- POL 235 The American Political System (RLA) 4

Four 200-level or above courses in political science including at least one course at the 300 level or above. (16 credits)

These four courses must be chosen from at least two of the following areas: American politics (POL 220-239; POL 320-339), political theory (POL 200-219; POL 300-319), comparative government (POL 240-259; POL 340-359), international politics (POL 260-279, POL 360-379).

(4 credits)

- POL 490 Senior Seminar in Geography, Economics, Political Science, and Philosophy (RLA) 4
- OR
- GEG 490 Senior Seminar in Geography, Economics, Political Science, and Philosophy (RLA) 4

Elective credits: 35-36

Total Credits Required: 120

Honors

To graduate with honors in the Philosophy and Political Science (BA) a student must have a 3.5 grade point average in philosophy and political science courses and must complete a thesis or project determined by the student and his or her faculty sponsor and the course POL/ECO/PHL/GEG 490 Senior Seminar in Political Science, Economics, Philosophy, and Geography.

Preparation for Professional School

Pre-Medical Advisory Committee

Students interested in pre-medical, pre-dental, pre-optometry should consult the Pre-Medical Advisory Committee, chaired by Associate Professor Dan McCloskey, Department of Psychology, as soon as possible after enrolling in the College. The Committee will advise students about their choice of courses starting with the freshman year. A student guide for the Pre-Medical Advisory Committee letter of recommendation is available from the Office of the Dean of Health Sciences.

Pre-Chiropractic Preparation

Chiropractic schools in the United States do not require or recommend any particular undergraduate major for applicants.

Most schools suggest that they study in depth any of the liberal arts and sciences which are valuable preparation for chiropractic medicine studies. All programs in chiropractic medicine require a strong foundation in the natural sciences (biology, chemistry, physics, and mathematics), effective communication skills, and a solid background in the social sciences and humanities. Some chiropractic programs have established admissions criteria and additional recommendations. It is important for students to choose appropriate courses to prepare for admission to professional schools. Since pre-chiropractic requirements vary, students should become familiar with the recommendations of the schools to which they intend to apply. The minimum pre-professional requirements for admission to a chiropractic program in the United States are: one year of English, biology with laboratories, general physics with laboratories, and general chemistry and organic chemistry with laboratories. Also recommended are at least one year of advanced mathematics, and one or more advanced courses in science. Most chiropractic schools evaluate college grades as the most important determinant of admission to a chiropractic program. Also considered are letters of recommendation, research experience, extracurricular activities, work-related experience, required essay, and personal interview.

For detailed information, consult the Pre-Medical Advisory Committee.

Pre-Dentistry Preparation

Dental schools in the United States do not require or recommend any particular field of study as an undergraduate
major for applicants. Most schools suggest that they study in depth any of the liberal arts and sciences which are valuable preparation for dentistry. Some dental schools have established admissions criteria and additional recommendations. It is important for pre-dental students to choose appropriate courses to prepare for admission to dental school. Students should become familiar with the recommendations of the schools to which they intend to apply. The minimum requirements for admission to dental schools in the United States are: one year of English, biology with laboratories (may include a half-year of genetics and a half-year of botany), general physics with laboratories, and organic chemistry with laboratories. Also recommended are at least one year of advanced mathematics, and one or more advanced courses in science, sociology, and psychology.

All applicants to dental schools in the United States must participate in the Dental College Admission Testing Program and take the Dental College Admissions Test (DAT). The four examinations that comprise the testing program cover: principles of biology, general chemistry, organic chemistry; perceptual ability; reading comprehension; and quantitative reasoning. Most dental schools use the DAT scores, evaluated in conjunction with college grades, as predictors of performance in dental school. DAT scores and college transcripts are the most important determinants of admission to dental school. Also considered are letters of recommendation, extracurricular activities, work-related experience, required essay, and personal interview.

For detailed information, consult the Pre-Medical Advisory Committee.

Pre-Medicine Preparation

Medical schools in the United States do not require or recommend any particular undergraduate major for applicants. Most schools suggest that they study in depth any of the liberal arts and sciences which are valuable preparation for medical studies. All medical schools require a strong foundation in the natural sciences (biology, chemistry, physics, and mathematics), effective communication skills, and a solid background in the social sciences and humanities. Some medical schools have established admissions criteria and additional recommendations. It is important for pre-medicine students to choose appropriate courses to prepare for admission to medical school. Students should become familiar with the recommendations of the schools to which they intend to apply. The minimum requirements for admission to medical schools in the United States are: one year of English, general biology with laboratories, general chemistry with laboratories, general physics with laboratories, and organic chemistry with laboratories. Also recommended are at least one year of advanced mathematics, including calculus, and one or more advanced courses in science.

All applicants to medical schools in the United States must take the Medical College Admission Test (MCAT). The four areas tested are: verbal reasoning, physical sciences, biological sciences, and writing. Most medical schools use the MCAT scores, evaluated in conjunction with college grades, as predictors of performance in medical school. MCAT scores and college transcripts are the most important determinants of admission to medical school. Also strongly considered are a letter of recommendation from the College’s pre-medical advisory committee, research experience, extracurricular activities, work-related experience, required essay, and personal interview.

In recent years, graduates of CSI have been admitted to medical schools throughout the region including: Albert Einstein, SUNY Upstate and Downstate, Harvard, Cornell, New York University, Buffalo, Baltimore, Albany, Stony Brook, and Mount Sinai.

For detailed information, consult the Pre-Medical Advisory Committee.

Pre-Optometry Preparation

The College of Staten Island has an affiliation agreement with the State University of New York College of Optometry, located in Manhattan. The foundation of this affiliation is a seven-year program that allows students to complete their baccalaureate and professional studies through three years of study at CSI followed by the four-year Optometry program at the College of Optometry. The bachelor’s degree is awarded after one year of successful study in the optometry program.

The minimum pre-optometry requirements are: one year of general biology, general physics, general chemistry, social science; one year of calculus (I & II), English composition and literature, one semester of general psychology, organic chemistry, and statistics.

In addition, a student must maintain a 3.2 grade point average, achieve a score of 320 on the Optometry Admissions Test, and have a successful personal interview.

For detailed information, consult the Pre-Medical Advisory Committee.

Pre-Law Preparation

Recommended preparation for the study of law includes study of the social sciences, the humanities, and the technological aspects of contemporary life, as well as mastery of the English language. There is no particular Pre-Law curriculum. Students should consult the faculty advisor early in the planning of their program. The Law School Admission Test, required by most law schools, should be
taken early in the senior year. Associate Professor Michael Paris, Department of Political Science and Global Affairs, is the pre-law advisor.

**Pre-Speech Disorders**

Students interested in future careers related to Speech Disorders/Pathology should consult with the Linguistics Concentration Advisors in the English Department (Professors Jason Bishop and Christina Tortora), who will advise students about their choice of courses in this field of study.

**Science, Letters, and Society**

*(Bachelor of Arts)*

Interdisciplinary Program

Science, Letters, and Society Office, Building 3S, Room 209

Director, Professor Francisco Soto

Liaison with the School of Education, Dr. Margaret E. Bérci, Building (3S), Room 105b

The major in Science, Letters, and Society (SLS) is designed for students seeking an overview of the liberal arts and sciences rather than a specialization in a single discipline. It undertakes to present a unified view of the modern intellectual enterprise. Consequently, the program requires a balanced sequence of broadly conceived upper-level courses in the humanities, social sciences, mathematics, and science. The development of high levels of competence in reading and writing is particularly emphasized. For admission to and continuation in the major of Science, Letters, and Society, a minimum GPA of 3.0 is required.

SLS is the major ordinarily required of students seeking certification in early childhood and childhood education. These students receive academic advisement from both the coordinator of SLS and an advisor from the appropriate program in the School of Education. Issues relating to substitution of another liberal arts and sciences major for the SLS major must be referred to the SLS-Education Undergraduate Admissions and Standing Committee; students seeking to pursue a major other than SLS should write to the Committee, care of the Dean, School of Education, Building 3S, Room 208.

Science, Letters, and Society Courses (p. 350)

**Science, Letters, and Society (BA)**

For admission to and continuation in the major of Science, Letters, and Society a minimum cumulative GPA of 3.0 is required.

**Foreign Language Requirement: 0-4 credits**

Demonstration of proficiency in a language through the intermediate level, 213 or above.

*Note: Students with advanced preparation or appropriate transfer credits in one of the above areas of study may be permitted some substitution of courses in that area, if approved by the coordinator of the SLS program.*

**Total Credits Required: 120**
Women’s, Gender, and Sexuality Studies
(Bachelor of Arts, Minor)
Interdisciplinary Program
Director: Associate Professor Matt Brim, Building (2S), Room 214

Women’s, Gender, and Sexuality Studies is an interdisciplinary program that draws on anthropological, artistic, economic, historical, literary, psychological, and sociological perspectives to explore women’s lives, and the significance of gender in general, in contemporary and past societies both in the United States and across the globe.

5. Foreign Language Requirement: 0-4 credits
Demonstration of proficiency in a foreign language through the intermediate level, 213 or above.

Electives: 38-42 credits

Total Credits Required: 120

Honors
Graduating Women’s, Gender, and Sexuality Studies majors may apply for graduation with honors in Women’s, Gender, and Sexuality Studies. To graduate with honors a student must have:
1. Fulfilled the requirements for the Women’s, Gender, and Sexuality Studies major
2. Earned a 3.5 grade point average or better in WGS courses
3. Been recommended for Honors by the Women’s, Gender, and Sexuality Studies Honors Committee. To be recommended, a student must have submitted a proposal for an honors thesis and have completed this thesis to the satisfaction of the Honors Committee.

The honors thesis should be a substantial research paper supervised by a committee of two Women’s, Gender, and Sexuality Studies faculty members. One member of this committee will be the primary supervisor with whom the student will register for up to eight credits of Independent Study. Candidates should ask a Women’s, Gender, and Sexuality Studies faculty member of their choosing to be their primary supervisor. The primary supervisor and the program coordinator will appoint the other member of the candidate’s committee in consultation with the candidate. The thesis submitted need not be a new work; it can be an extension of a paper previously submitted in a course. Theses submitted to the Honors Committee Chair must have the signature of both members of the candidate’s committee on the title page.

Students planning to apply for graduation with honors must submit a one-page proposal for their Honors thesis, signed by the members of their committee, to the Women’s, Gender, and Sexuality Studies Honors Committee in the final semester of their junior year. Honors thesis for majors graduating in January must be submitted to the Women’s, Gender, and Sexuality Studies office (Building 2N, Room 105) by November 20; for majors graduating in June or August, thesis must be submitted by April 1.

Women’s, Gender, and Sexuality Studies Minor

Minor Requirements: 15-16 credits

A total of 15-16 credits in Women’s, Gender, and Sexuality Studies courses, with at least 12 credits at the 200-level or higher, including:
1. At least one WGS course with a focus in history, American studies, or African and African Diaspora studies, as listed for the major requirements.
2. At least one WGS course with a focus in English, modern languages, or arts, as listed for the major requirements.
3. At least one WGS course with a focus in psychology, political science, sociology, or anthropology, as listed for the major requirements.
4. One additional WGS course, as listed for the major requirements.
Department of the Library

Library 1L
Amy Stempler, Associate Dean and Chief Librarian
Professors: James Kaser, Wilma Jones, Associate Professors: Rebecca Adler Schiff, Andrew Leykam, Amy Stempler, Judy Xiao. Assistant Professors: Jonathan Cope, Ewa Dzurak, Anne Hays, Mark Aaron Polger. Lecturer: Rachel Jirka. Higher Education Officer: Mark Lewental. Higher Education Assistant: Antonio Gallego. College Lab Technicians: Brian Farr, Stanley Zimmerman. The Library supports the entire range of academic programs at the College through its collections, periodical subscriptions, and microforms. Computer facilities for database searching provide access to City University and national catalogs. The Library’s own resources are supplemented by an array of modern networking arrangements at regional, state, and national levels. The Library is the center for the implementation of multimedia programs in pedagogy.
CUNY Baccalaureate

Campus Coordinator: Suzy Shepardson, Bldg 1A, Room 101

Established in 1971, the CUNY BA/BS program is a small, University-wide alternate degree program intended for self-directed, academically strong students who have well-formulated academic and career goals. Students who are admitted to the program work on an individualized area of specialization with guidance from a CUNY faculty member who agrees to serve as a mentor. Students in this alternate degree program must also satisfy a core of general education requirements. Although students in the program are matriculated at one CUNY college, they are free to take courses at any of the other CUNY colleges. To be eligible to apply, students must have a clear academic goal and must have completed at least 15 college credits with a grade point average of 2.50 or higher. The CUNY BA and BS degrees are fully accredited and are awarded by The City University rather than by an individual college. The program operates under the auspices of the CUNY Graduate School and University Center. Additional information may also be obtained at www.cunyba.cuny.edu.
Macaulay Honors College at CSI

Director: Associate Professor Charles Liu, Building 1A, Room 206

The Macaulay Honors College University Scholars Program at the College of Staten Island provides a select group of highly motivated students with a special curriculum of innovative and challenging courses. These courses, taught in small class settings by select faculty members, provide a broad but coherent foundation for the baccalaureate degree. Included in this curriculum is a series of four seminars investigating New York City from a variety of viewpoints and using the City itself as a classroom. Class work involves field study, independent and collaborative research experience, and study-abroad opportunities, as well as participation in cross-campus events involving students from all Macaulay Honors College campuses. Students are also required to complete 30 hours of community service over the course of the four-year program. Third- and fourth-year University Scholars pursue study in a wide range of majors in which they are required to achieve departmental honors. If honors in the major is not available, students must complete an honors project or an honors thesis. Students accepted into the Macaulay Honors College receive a comprehensive package of financial and academic assistance including full tuition reimbursement for four years, an academic stipend to defray travel abroad and internship expenses, a cultural passport providing free or discounted admission to New York’s diverse cultural offerings, and a free laptop computer. CSI’s Macaulay Honors College staff includes a full-time academic advisor and a program coordinator. University Scholars benefit from personalized and individualized attention ranging from priority course registration to ongoing academic and career advisement. Local and CUNY-wide initiatives provide University Scholars with opportunities to successfully compete for prestigious internships, fellowships, and admission to post-graduate programs. CSI’s Macaulay Honors College also houses a student lounge and a designated computer lab for student use.

Honors Courses (p. 283)

I. Macaulay Honors College Pathways

Required Core: 12 credits

a. English Composition* (RECR) (6 credits)

b. Mathematical and Quantitative Reasoning* (RMQR) (3 or more credits*)

c. Life and Physical Sciences* (RLPR) (3 or more credits*)

*Macaulay Honors College section is required.

II. Macaulay Honors College Flexible Core: 18 credits

Students must take six three-credit liberal arts and sciences courses, with at least one course from each of the following five areas and no more than two courses in any discipline of interdisciplinary field.

The five areas are:

a. World Cultures and Global Issues (FWGR)

It is recommended that all BA Majors and BS Majors which require 213-level language proficiency (BS in Art; Business/International Business concentration; Communications; Dramatic Arts; Music, Social Work) take a 112-level language course to satisfy this area of the Flexible Core.

b. U.S. Experience in its Diversity (FUSR)

Macaulay students are required to take the following course to satisfy the FUSR requirement:

HON 122 The Peopling of New York (FUSR)

3

c. Creative Expression (FCER)

Macaulay students are required to take the following course to satisfy the FCER requirement:

HON 121 The Arts in New York City (FCER)

3

d. Individual and Society (FISR)

Macaulay students are required to take the following course to satisfy the FISR requirement:

HON 224 Shaping the Future of New York City (FISR)

3

e. Scientific World (FSWR)

Macaulay students are required to take the following course to satisfy the FSWR requirement:

HON 223 Science and Technology in New York City (FSWR)

3

*Macaulay Honors College section is required.

Courses

AAD - African and African Diaspora Studies

AAD 105 - Contemporary African Issues (3) (FWGR)
(Also HST 105). 3 hours; 3 credits. An examination of post-colonial African issues, including the colonial legacy/neocolonialism; conflict and human rights; development, poverty and the debt problem; healthcare and infrastructure; globalization, democracy and multiparty politics; and, how these relate to the world at large. Not open to students who have completed HST 267 or AAD 266. (FWGR).
Crosslisted as: HST 105.

AAD 122 - Black Dance Workshop (RNL)
(Also DAN 122). 4 hours; 3 credits. Based on traditions of the peoples of Africa and the Caribbean, this course develops the technical language of Black dance, emphasizing the cultural interaction of native tradition and Western influence; the retelling of legends and tales through dance while weaving intricate designs and rhythms disguised in unrecognizable symbolism.
Crosslisted as: DAN 122.

AAD 160 - African American History: 1619 to the Present (3) (FUSR) (RLA)
(Also HST 160). 3 hours; 3 credits. From the forced migration of the first Africans in the 17th century to the contemporary struggles for equality; emphasis on such topics as slavery, abolition, Reconstruction, the origins of Jim Crow, urban migrations, the struggle for civil rights, non-violence, and the new militancy. (FUSR).
Crosslisted as: HST 160.

AAD 167 - The Black Experience (3) (FUSR)
3 hours; 3 credits. Drawing on the social sciences-i.e. anthropology, history, political science, and sociology-the course examines the black experience in Colonial America and the United States. Not open to students who have completed AFA 267. (FUSR).

AAD 202 - African American Drama (4) (RLA)
(Also DRA 202). 4 hours; 4 credits. A study of the emergence of the Black Theater in the United States and an examination of the theater as a manifestation of the black genius. For African and African Diaspora Studies majors and minors, this is designated as a United States course.
Crosslisted as: DRA 202.

AAD 203 - Workshop in Black Theater (4) (RNL)
4 hours; 4 credits. A workshop expressly designed to explore experimental improvisational techniques and methods by utilizing a wide range of movements, sources, and materials. The workshop is concerned with the development of individual awareness and creativity through the active and personal discovery of movement and is open to all students interested in the potentialities of ethnic dance for attaining freedom of movement.

AAD 204 - Ethnomusicology of African Americans (4) (RLA)
4 hours; 4 credits. History of African American music with emphasis on its relation to religion and culture. Examination and analysis of the musical styles of spirituals, gospel hymns, blues, and jazz in their cultural setting. For African and African Diaspora Studies majors and minors, this is designated as a United States course.

AAD 205 - African American Musical Theater (4) (RLA)
(Also DRA 205). 4 hours; 4 credits. A study of the musical theater of African Americans from its early beginnings in African culture to genius manifested in the 19th century, its influence on early vaudeville, its unique contribution to American musical theater, and the present-day popularity of its style. Current productions will be attended by the class and studied in detail when available.
Crosslisted as: DRA 205.

AAD 211 - American Culture in Black and White (4) (RLA) *
(Also AMS 211). 4 hours; 4 credits. Mutual perceptions of Blacks and Whites in 19th- and 20th-century America, how these perceptions were born, and how they have changed. For African and African Diaspora Studies majors and minors, this is designated as a United States course. Please Note: This course satisfies the college option. (social science) (p&d). Prerequisites: ENG 111, COR 100.
Crosslisted as: AMS 211.

AAD 216 - Geography of Africa (4) (RLA)
(Also GEG 216) 4 hours; 4 credits. Provides an introduction to the physical and human geography of Africa. After a focus on climatic and geomorphological features, biogeography, and distribution of natural resources, the course will cover human geographic features including cultural landscapes, historical geographies, demography, industrialization, urbanization and globalization. For African and African Diaspora Studies majors and minor this is designated as an Africa course. For geography majors, this is designated as a regional course. Prerequisite: ENG 151, COR 100.
Crosslisted as: GEG 216.

AAD 221 - African American Literature (4) (RLA) *
(Also ENH 221). 4 hours; 4 credits. A study of literature by African American writers. Texts studied may represent a variety of thematic concerns, literary genres and/or historical time periods. For English majors and minors, this is designated as an ENH literature course. Please Note: This course satisfies the college option. (literature) (p&d) (TALA). Prerequisite: ENG 151.

Crosslisted as: ENH 221.

AAD 223 - Introduction to African Diaspora Literature (4) (RLA)
(Also ENH 223) 4 hours; 4 credits. A study of literature by African, Caribbean, African American, and/or other black writers. Texts examined focus on a variety of themes or issues and represent a range of literary genres and historical periods. Prerequisite: ENG 151.

Crosslisted as: ENH 223.

AAD 225 - Literature of Social Protest (4) (RLA)
(Also ENH 225) 4 hours; 4 credits. A study of the literature created to protest injustice and oppression, primarily against people of African, Asian, Caribbean, Indigenous American, Latin American and/or Middle Eastern descent. Texts examined may represent a variety of literary genres as well as political, social, historical or geographical contexts. Prerequisite: ENG 151. Please Note: This course satisfies the college option.

Crosslisted as: ENH 225.

AAD 235 - Policing and Mass Incarceration (4) (RLA)
(Also ANT 235/INT 235/SOC 235). 4 hours; 4 credits. Provides a critical perspective of historical and current fighting-crime strategies such as one-strike, zero tolerance and the war on drugs, and their intended and unintended consequences for historically marginalized populations. The course will deal with legal/institutional trends in technologies of policing, the militarization of urban America and activist responses to current ‘crisis’ of police violence against minority groups in the US and beyond. Prerequisites: ENG 151 and (SOC/ANT 203 or SOC 212 or SOC 200).

Crosslisted as: ANT 235/INT 235/SOC 235.

AAD 240 - African and African Diaspora: Interdisciplinary Perspectives (4) (RLA)
(Also LNG 240/INT 240). 4 hours; 4 credits. A conceptual and thematic exploration of African-Diasporic identities and communities in the Caribbean, Brazil and Western Europe. It proposes an excavation of the African heritage in the Americas, and a study of the aesthetic, cultural and political legacy forged by people who embrace shared historical trajectories. It will adopt an interdisciplinary approach to analyze literary traditions and socio-cultural issues in the selected areas. Emphasis will be placed on political, economic and social-cultural issues. For African and African Diaspora Studies majors and minors, this is designated as The Caribbean course. Please Note: This course satisfies the college option. (social science) (cont. wrld.) (p&d) Prerequisites: ENG 151 and COR 100.

Crosslisted as: LNG 240/INT 240.

AAD 247 - Peoples and Cultures of Africa (4) (RLA) *
(Also HST 266). 4 hours; 4 credits. A descriptive survey of the peoples and cultures of the African continent. Emphasis is on those features and/or qualities of the African pattern of life that are common to the African people as a whole. (p&d). For African and African Diaspora Studies majors and minors, this is designated as an Africa course. Please Note: This course satisfies the college option. Prerequisites: ENG 111 and (any college-level history course or COR 100).

Crosslisted as: HST 266.

AAD 253 - African Politics (4) (RLA) *
(Also POL 253). 4 hours; 4 credits. An examination of the colonial and post-colonial problems of Africa, and the developmental process in general. Other topics to be discussed include the sociopolitical and historical-philosophical appeal of communism to Africa; ideology, strategy, and the communist model of development; and the idea of revolution as an agent of rapid transformation versus the Euro-American model of evolutionary change. For African and African Diaspora Studies majors and minors, this is designated as an Africa course. Please Note: This course satisfies the college option. (social science) (p&d) Prerequisites: ENG 111, COR 100.

Crosslisted as: POL 253.

AAD 260 - History of Africa (4) (RLA) *
(Also HST 207). 4 hours; 4 credits. Nineteenth-century African history, the story of European imperialism, and the emergence of modern, independent Africa and its problems. For African and African Diaspora Studies majors and minors, this is designated as an Africa course. Please Note: This course satisfies the college option. (p&d) (social science). Prerequisites: ENG 111, and COR 100 or any college-level history course.
AAD 262 - African American History: 1619-1865 (4) (RLA) *

(Also HST 262). 4 hours; 4 credits. A study of the African American experience in the Western hemisphere. Emphasis on the slave trade, slave life, slave revolts, and the struggle for freedom. For history majors and minors, this is designated as a United States history course. For African and African Diaspora Studies majors and minors, this is designated as a United States course. Please Note: This course satisfies the college option. (social science) (p&d). Prerequisites: ENG 111, and COR 100 or any college-level history course.

Crosslisted as: HST 262.

AAD 263 - African American History: 1865 to the Present (4) (RLA) *

(Also HST 263). 4 hours; 4 credits. Continuing role of African Americans in the building of their own nations. Emphasis on freedom movements as shown in literature, in civil rights movements, and in nationalist and other political organizations. (social science) (p&d). Prerequisites: ENG 111, and COR 100 or any college-level history course. Note: This course satisfies the college option.

Crosslisted as: HST 263.

AAD 264 - The African Diaspora (4) (COPR)

(Also HST 264). 4 hours; 4 credits. A survey of the historical connections of the African diaspora from pre-transatlantic slave trade to post-colonial movements. This course examines the political and socio-economic institutions and interactions between Africans before and during the transatlantic slave trade, the reasons why Africans were enslaved, the inland and middle passages, the impact of the trade on African societies, African communities in the Diaspora, the end of the trade and the beginning of European colonial rule in Africa, as well as the legacies of both the transatlantic slave trade and colonialism in post-colonial Africa. For History majors and minors, this is designated as a world history course. For African and African Diaspora Studies majors and minors, this is designated as an Africa course. Please Note: This course satisfies the college option. (social science) (p&d) Prerequisites: ENG 111 and (COR 100 or any college history course).

Crosslisted as: HST 264.

AAD 265 - History of the Caribbean (4) (RLA)

(Also HST 265). 4 hours; 4 credits. Precolonial and colonial history of the Caribbean; an examination of the policies of the metropolitan powers, and the emergence of anticolonialist movements. For history majors and minors, this is designated as a World history course. For African and African Diaspora Studies majors and minors, this is designated as The Caribbean course. Please Note: This course satisfies the college option. (social science) (p&d). Prerequisites: ENG 111 and (COR 100 or any college-level history course).

Crosslisted as: HST 265.

AAD 266 - Contemporary African Issues (4) (RLA) *

(Also HST 267). 4 hours; 4 credits. An examination of post-colonial African issues, including the colonial legacy/neocolonialism; conflict and human rights; development, poverty and the debt problems; healthcare and infrastructure; globalization; democracy, and multiparty politics; and, how these relate to the world at large. For History majors and minors, this is designated as a World history course. (p&d) (cont. wld.) (social science). For African and African Diaspora Studies majors and minors, this is designated as an Africa course. Please Note: This course satisfies the college option. Prerequisites: ENG 151, COR 100 and any college-level history course or African and African Diaspora Studies course.

Crosslisted as: HST 267.

AAD 267 - The Black Experience (4) (RLA)

4 hours; 4 credits. A workshop designed especially for teachers, students, and professionals working in the Black community. The course will cover a wide range of topics in literature, music, dance, drama, economics, history, and anthropology.

AAD 269 - Blacks in Urban America: 1900 to the Present (4) (RLA) *

(Also HST 269). 4 hours; 4 credits. An examination of various aspects of Black life in major American cities. Particular emphasis will be placed on the causes of the migration; ecological development of Black communities; urban violence; Blacks' participation in conventional and radical politics; Blacks in the labor force; and the impact of urbanization on the Black family. For history majors and minors this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and (COR 100 or any college-level history course). Please Note: This course satisfies the college option.

Crosslisted as: HST 269.

AAD 275 - Place, Race, and Racism (4) (RLA)

(Also GEG 275). 4 hours; 4 credits. This course explores how race is socially constructed and the role that place plays in the construction of racial and ethnic identities. From the formation of racialized places such as ghettos and
Chinatowns to media coverage of school shootings in suburbs, we will examine the how, why, and where of racism and discrimination. The focus will be on racial issues in the United States, coupled with case studies from other regions for comparative purposes. (social science) (p&d). Prerequisites: ENG 151 and COR 100. Please Note: This course satisfies the college option.

Crosslisted as: GEG 275.

**AAD 307 - African Literature (4) (RLA)**

(Also ENL 307). 4 hours; 4 credits. An introduction to sub-Saharan African literature exploring a variety of regions, authors, genres, and literary traditions. Texts will be discussed in relation to their aesthetic, cultural, historical, and philosophical context, and may include indigenous, anglophone, francophone, and lusophone literatures. Texts not originally in English will be read in English translation. Topics may include: influence of precolonial oral traditions; effect of colonialism and anticolonial struggles; gender and sexuality; social and cultural movements in the twentieth century, e.g. négritude and Pan-Africanism. For English majors and minors, this is designated as a literature, women, American minorities, writers in Asia (including the Middle East), Africa, Latin America and the Caribbean, world literature, and genre course. Prerequisite: An ENH-200 level course or ENL 290.

Crosslisted as: ENL 307.

**AAD 321 - Race, Law, and Public Policy in the Contemporary United States (4) (RLA)**

(Also POL 321). 4 hours; 4 credits. An examination of race relations in the United States through the prism of law and courts. In 1903, W.E.B.DuBois wrote: "The problem of the twentieth century is the problem of the color line." This course examines questions such as: How does race matter today? Does the struggle for racial justice persist? Should the government use racial categories in the pursuit of equality? Policy areas to be studied include desegregation and the problem of urban education, employment discrimination and equal opportunity in the workplace, among other topics. Prerequisites: (POL 100 or POL 235), ENG 151 and sophomore standing

Crosslisted as: POL 321.

**AAD 323 - Literature of the African Diaspora (4) (RLA)**

(Also ENL 392). 4 hours; 4 credits. A study of literature by writers of African descent residing outside of Africa that engages such issues of identity formation, cultural hybridity and the legacy of colonialism and/or slavery. For English majors or minors concentrating in literature, this course fulfills the requirement for literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. For African and African Diaspora Studies majors or minors, this course provides additional upper-level course offerings in literature. (literature) (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: An ENH-200 level course or ENL 290.

Crosslisted as: ENL 392.

**AAD 332 - Social Movements and Social Justice (4) (RLA)**

(Also ANT 332/INT 332/SOC 332). 4 hours; 4 credits. An introduction to key sociological theories and concepts in the study of social movements. Addressing various questions, including: how have powerless groups of people organized social movements to try to improve their lives and change the society in which they lived? What did these movements accomplish in terms of improving people’s day-to-day lives? What role has policing and police played in social movements? Prerequisite: ENG 151 and (SOC/ANT 203 or SOC 212 or SOC 200).

Crosslisted as: ANT 332/INT 332/SOC 332.

**AAD 333 - Colonialism and the African Experience (4) (RLA)**

(Also HST 333). 4 hours; 4 credits. An examination of the experience of Africans under colonial rule from the average person to traditional chiefs or the aristocratic class. This course analyzes the reactions of various classes of African society to colonial rule, focusing on the methods used by Africans to manipulate European colonial authorities, as well as the colonial response. For History majors and minors, this is designated as a World history course. (p&d) (social science) Prerequisites: Any 200-level history course or 200-level African and African Diaspora Studies course and ENG 151. Please Note: This course satisfies the college option.

Crosslisted as: HST 333.

**AAD 361 - The Heritage of Marcus Garvey and W.E.B. DuBois (4) (RLA)**

(Also HST 361). 4 hours; 4 credits. Marcus Garvey, the man and the idealist, his influence on African American consciousness; W.E.B. DuBois, the man and the thinker, his influence on African American consciousness and Pan-Americanism. (p&d) (social science). Prerequisites: Any 200-level history course and ENG 151. Please Note: This course satisfies the college option.

Crosslisted as: HST 361.
AAD 377 - The African-American Literary Tradition (4) (RLA)
(Also AMS 377/ENL 377). 4 hours; 4 credits. A study of the African-American literary tradition engaging such issues as the struggle for human rights and dignity, the definition and representation of African-American culture and identity, and double consciousness. Readings may include works by Frederick Douglass, Harriet Jacobs, W.E.B. DuBois, Langston Hughes, Zora Neale Hurston, Richard Wright, Ralph Ellison, Gwendolyn Brooks, James Baldwin, and Toni Morrison. For English majors or minors concentrating in literature, this course fulfills the requirements for Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

Crosslisted as: AMS 377/ENL 377.

ACC - Accounting

ACC 114 - Introduction to Accounting I (4) (RNL)
4 hours; 4 credits. Introduction to the concepts and principles of accounting. Data accumulation technique. Emphasis on preparation and interpretation of financial statements. Areas of concentration include the accounting cycle, accounting for sole proprietorship, and introduction to partnership and corporate accounting. Prerequisite: MTH 030 or an appropriate score on the CUNY Math Assessment Test and a passing score on the CUNY Assessment Tests in Reading and Writing, or the equivalent.

ACC 121 - Introduction to Accounting II (4) (RNL)
4 hours; 4 credits. A continuation of ACC 114. Partnership, corporations, and an introduction to cost accounting. Other topics discussed are current and long-term liabilities and statements of cash flow. Prerequisite: ACC 114.

ACC 215 - Intermediate Accounting I (4) (RNL)
4 hours; 4 credits. Intense coverage of accounting principles, valuation, and accounting for current assets, plant assets, acquisitions, disposals, depreciation and depletion, intangible assets, current and long-term liabilities, and concepts of present and future value. Emphasis is placed on pronouncements of the Financial Accounting Standards Board and Accounting Principles Board. Prerequisite: ACC 121. Pre- or corequisites: (BUS 150 or BUS 215 or BUS 250 or CSC 102).

ACC 225 - Intermediate Accounting II (4) (RNL)
4 hours; 4 credits. In-depth examination of long-term liabilities, stockholders’ equity, and income determination. Topics include bonds, stock issuance, retained earnings, leases, pensions, deferred taxes, and analysis of the statement of cash flow. Prerequisite: ACC 215.

ACC 235 - Government and Not-for-Profit Accounting (3) (RNL)
3 hours; 3 credits. Thorough discussion and analysis of accounting for state and local governments and other not-for-profit institutions such as universities, hospitals, and voluntary health and welfare organizations. Topics discussed will include budgetary accounting, fund accounting, account groups, and financial statements. Prerequisite: ACC 215.

ACC 241 - Federal Income Taxation I (3) (RNL)
3 hours; 3 credits. A comprehensive study of federal income tax principles and concepts as they apply to individuals. Tax treatment of the individual is stressed initially with emphasis on rates and exemptions, concepts of gross income, recognition and realization of income, and capital gain and loss concepts. Additional topics include exclusions, deductions and credits, analysis of property transactions, federal tax research, preparation of individual federal income tax returns, and computer tax returns. Prerequisite: ACC 121.

ACC 250 - Accounting Information Systems (4) (RNL)
4 credits; 4 hours. This course introduces the concept of computer information systems in accounting. The course has a two-pronged approach. First, the general accounting cycles (general ledger, A/R, A/P, etc.) in an accounting information system are introduced. Second, the accounting cycles are related to the use of computer information technology. Concepts such as flow charting, data flow diagrams, security, and control are stressed. Prerequisites: ACC 121 and (BUS 150 or BUS 215 or BUS 250 or CSC 102 or CSC 108 or CSC 116 or CSC 118).

ACC 251 - Federal Income Taxation II (3) (RNL)
3 hours; 3 credits. A broad study of the federal income tax pertaining to corporations and partnerships. A comprehensive study of tax accounting principles as applied to corporations and partnerships, corporate organization and reorganizations, corporate liquidations, corporate distributions, and special classes of corporations. Includes such areas as special deductions and computation of the normal tax, surtax, and tax on net long-term capital gains. Prerequisite: ACC 241.

ACC 300 - International Accounting (4) (RNL)
4 hours; 4 credits. An overall view of the significant areas of transnational accounting that are relevant to accounting practices, procedures, and requirements of enterprises engaged in international operations. These areas include: foreign currency translation, accounting for inflation,
ACC 310 - Cost Accounting I (3) (RNL)
3 hours; 3 credits. Principles of cost accounting applicable to job order and process cost systems. Additional topics include cost-volume-profit relationships, standard costing, variable costing, and budgets. Prerequisite: ACC 121.

ACC 315 - Analysis of Financial Statements (3) (RNL)
3 hours; 3 credits. The tools and techniques needed to explore the balance sheet, income statement, and the statement of cash flow. Heavy emphasis is on the use of ratios to evaluate the statements. Not open to Accounting majors. Prerequisite: ACC 121.

ACC 318 - New York State and Local Taxes (3) (RNL)
3 hours; 3 credits. A comprehensive study of various forms of State and municipal taxation, including personal income, unincorporated business, franchise, unemployment insurance, and occupancy taxes. Prerequisite: ACC 121.

ACC 414 - Advanced Accounting (4) (RNL)
4 hours; 4 credits. An intensive course in specialized areas of accounting. Current topics, which have influenced the accounting profession and the financial community, such as partnerships, accounting for business combinations, government accounting, and foreign operations, are studied. Emphasis is placed on areas stressed on the CPA examination. The authoritative pronouncements of the Financial Accounting Standards Board and its predecessor, the Accounting Principles Board, are interwoven into class discussions and problems assigned throughout the course. The application of advanced accounting theories to complex, practical problems is an integral part of the course. Prerequisite: ACC 225.

ACC 415 - CPA Problems and Current Issues (3) (RNL)
3 hours; 3 credits. An analysis of the current areas of controversy in the accounting profession, such as pensions and deferred taxes. The course will also serve as an intensive review for the F.A.R.E. and A.R.E. portions of the CPA examination. Prerequisite: ACC 225.

AMS - American Studies

AMS 101 - America: An Introduction (3) (RLA)
3 hours; 3 credits. Classic interpretations of American culture through a broad interdisciplinary survey of the men and women, ideas, and events that have contributed to the American experience. The abiding ideas, values, and myths that have shaped the nation's arts, actions, and beliefs, drawing from painting, architecture, film, music, history, and literature. From 17th-century witchcraft to 20th-century witch hunts, from General Washington to (General Hospital), from the assembly line to assembler language, from Revere to Rambo.

AMS 150 - Dance History: Twentieth-Century Survey (3) (RLA)
(Also DAN 150) 4 hours; 3 credits. Concentrating on the "pioneers of modern dance" - Duncan, Denishawn, Graham, Humphrey, Weidman, and others as well as on the experimental and avant-garde, using lectures, demonstrations, video, and film to illustrate examples of outstanding choreography. The course includes the dance of India and Black dance coordinated with professional concerts and student reports. Includes "Happenings in Today's World of Dance". No dance background required. (arts & com.).

Crosslisted as: DAN 150.

AMS 205 - Modern Art in Latin America (4) (RLA)
(Also ART 205) 4 hours; 4 credits. An introduction to the development of modern art in Latin America. We will study the emergence of key art movements in Latin America and how artists participated in and responded to important historical events and social changes across the Americas. How have Latin American artists portrayed the idea of "Latin America" or being "Latino" in their work? Other issues will include: negotiating with their colonial past and with European models of modernity; art and revolution; the question of indigenous art forms and the "popular"; diasporic continuities within Latin America, Latino experience in the United States, and mestizaje (cultural mixing). (arts & com) (p&d) (T ALA). Prerequisites: ENG 111 and (ART 100 or ART 200 or ART 201 or AMS 101). Please Note: This course satisfies the college option.

Crosslisted as: ART 205.

AMS 208 - Latina/o Media (4) (RLA)
(Also CIN 208/COM 208). 4 hours; 4 credits. Examines the production, content, and reception of Latina/o-oriented media in the U.S. from a transnational perspective.
AMS 209 - Art and Society in America (4) (RLA)

(Also ART 209). 4 hours; 4 credits. Three hundred years of American art, studied as an expression of American life. Works of art are viewed in terms of style and also as guides to the complexities of American history and culture. (arts & com.) (TALA). Prerequisites: ENG 111; and (ART 100 or ART 200 or ART 201 or AMS 101). Please Note: This course satisfies the college option.

Crosslisted as: ART 209.

AMS 210 - American Philosophy (4) (RLA)

(Also PHL 210). 4 hours; 4 credits. A study of philosophy in America. Topics of inquiry will be selected from such movements and figures as the following: Puritanism, empiricism, idealism, and pragmatism; Jonathan Edwards, Ralph Waldo Emerson, Josiah Royce, Charles S. Peirce, William James, John Dewey, George Santayana, and Alfred North Whitehead. (social science). Prerequisites: ENG 111, COR 100. Please Note: this course satisfies the college option.

Crosslisted as: PHL 210.

AMS 211 - American Culture in Black and White (4) (RLA)

(Also AAD 211). 4 hours; 4 credits. Mutual perceptions of Blacks and Whites in 19th- and 20th-century America; how these perceptions were born, and how they have changed. For African and African Diaspora Studies majors and minors, this is designated as a United States course. Please Note: This course satisfies the college option. (social science) (p&d). Prerequisites: ENG 111, COR 100.

Crosslisted as: AAD 211.

AMS 212 - Twentieth-Century America (4) (RLA)

4 hours; 4 credits. An examination of selected works that are landmarks in the development of 20th-century American culture. Authors will include Hemingway, Faulkner, Ellison, Wright, Miller, Mailer, and Beattie; Harrington, Friedan, and Galbraith. (social science) Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

AMS 214 - America in the World (4) (RLA)

4 hours; 4 credits. Cross-cultural perspectives on American values, arts, and events. What foreign observers have thought about the United States. How our experience has paralleled, or differed from, that of Europe since the 18th century. What the important similarities, differences, and influences are between Western and Eastern cultures. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

AMS 220 - Geography of the United States (4) (RLA)

(Also GEG 222). 4 hours; 4 credits. This course explores the geographic variety of the United States. The country's physical characteristics are regionally diverse and provide an array of resources. Different populations have put them to use in various ways. The course traces who lives where, why, what they have found there, what have they done with it. Emphasis is placed on the contrasting threads of regional variation and national homogenization. (social science). Prerequisite: ENG 111 and COR 100. Please Note: This course satisfies the college option.

Crosslisted as: GEG 222.

AMS 221 - The American Dream (4) (RLA)

(Also HST 221). 4 hours; 4 credits. The hopes, the frustrations, and, particularly, the dreams of American society as observed by foreign and native commentators in the past and present. This course will attempt to assess not only the idealization of the American dream but also disillusionment with it as expressed by such writers as Franklin, Tocqueville, Emerson, Whitman, Henry Adams, and Norman Mailer. (social science). Prerequisites: ENG 111 and (COR 100 or any American Studies or history course). Please Note: This course satisfies the college option.

Crosslisted as: HST 221.

AMS 222 - The City in American Culture (4) (RLA)

4 hours; 4 credits. Impressions and analyses (literary, social, historical, cinematic, and photographic) of the varied cultures, institutions, and environments that are the substance of American urban life. A course that posits few facile solutions to the urban crisis but knows which questions are to be asked and which myths must be demolished if cities are ever to become humane and pleasurable organisms rather than death- and profit-bound ones. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

AMS 224 - Religion in America (4) (RLA)

(Also HST 246). 4 hours; 4 credits. Addresses the development of religion - Protestant, Catholic, Jewish, and others - in the context of American social, cultural, and intellectual history. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

Crosslisted as: HST 246.
AMS 227 - The Geography of Drugs (4) (RLA)
(Also GEG 227). 4 hours; 4 credits. This course combines cultural and economic geography to examine the illicit drug trade. Students will develop an understanding of the global nature of the commodity chains associated with specific major drugs, the ecological and social impact on producing regions, and the operation of drug-trafficking organizations and drug markets here in the U.S. For geography majors this is designated as a topics course. Prerequisite: ENG 151, COR 100.

Crosslisted as: GEG 227.

AMS 230 - American Film and American Myth (4) (RLA)
(Also CIN 230). 4 hours; 4 credits. The American film and its relationship to American myth, society, and culture. Topics to be included are: the American West, the gangster, rural and urban life, the nature of war, race and class, comic views of America. (arts & com.) (TALA). Prerequisite: ENG 111. Please Note: this course satisfies the college option.

Crosslisted as: CIN 230.

AMS 231 - American Myths and Realities (4) (RLA)
4 hours; 4 credits. American society, chiefly in the 19th and 20th centuries, and its problems, including democracy in an industrial order, the city, class stratification, and racial conflict, as seen by such representative realistic writers as Henry James, Dreiser, Veblen, William Dean Howells, and W.E.B. DuBois. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

AMS 236 - Music in American Life (4) (RLA)
(Also MUS 236). 4 hours; 4 credits. The music-making and listening habits of the American people, examining the musical activities, the musicians, and the social setting. The course focuses on the history and significance of rock as an American and international phenomenon, exploring issues of gender, race, and the multicultural musical traditions that have enriched American popular music. This course develops the ability to understand music as an expression of cultural values, and does not require instrumental training or the ability to read music. This course does not meet requirements for the major or the minor in Music. (arts & com.) (TALA). Prerequisite: ENG 111. Please Note: this course satisfies the college option.

Crosslisted as: MUS 236.

AMS 237 - American Musical Theater (3) (RLA)
(Also MUS 237). 3 hours; 3 credits. A survey of American musical theater and its development from the second half of the 19th century to our own times, considered in the context of a changing America. Sousa, Herbert, Friml, Cohan, Kern, Gershwin, Bernstein, Arlen, Weill, Thomson, and Copland are some of the composers whose works will be covered. (arts & com.) (TALA). Prerequisite: ENG 111; for Music majors, MUS 120 or permission of the instructor. Please Note: this course satisfies the college option.

Crosslisted as: MUS 237.

AMS 239 - The American Civil War (4) (RLA)
4 hours; 4 credits. The course focuses on the civil and military aspects of the Civil War, including the events and issues leading up to the war, the struggle over the expansion of slavery, the Union's and the Confederacy's military strategies, and analysis of key battles. The course will examine the presidency of Lincoln and will explore major constitutional issues, such as the right of secession and the problems of maintaining civil liberties during a civil war. Prerequisites: ENG 111, COR 100.

AMS 241 - Popular Culture and Mass Society (4) (RLA)
4 hours; 4 credits. Popular entertainment as the expression of American cultural values: television, radio, music, and sports; westerns, detective stories, and soap operas. Functional analysis of entertainment as the myth and ritual of mass society. The problems of aesthetic standards in a culture dominated by commercialized taste. Relationships between popular entertainment and political values. Readings from Durkheim, Ellul, McLuhan, Nye, and Browne. (arts & com.) (TALA). Prerequisite: ENG 111. Please Note: this course satisfies the college option.

AMS 243 - American Humor (4) (RLA)
4 hours; 4 credits. Humor in America shares some characteristics found in all cultures, past and present, and sometimes has seemed peculiarly "native". This course traces the variety and development of American humor from colonial days to the present through literature, drama, art, cartoons, and film. Humor will be examined as psychological phenomenon, as philosophical outlook, and as intellectual history. (literature) (TALA). Prerequisite: ENG 111. Please Note: this course satisfies the college option.

AMS 245 - American Ideas (4) (RLA)
(Also HST 240). 4 hours; 4 credits. A major idea in American intellectual history will be examined from the perspective of two or more disciplines. This course will demonstrate the interdisciplinary method and philosophy of American Studies. Puritanism, transcendentalism, the idea of freedom, social Darwinism, Freudianism, and socialism are possible topics. (social science). Prerequisites: ENG 111 and (COR 100 or AMS 101 or any history course). Please Note: This course satisfies the college option.
Courses | 195

Crosslisted as: HST 240.

**AMS 252 - American Arts (4) (RLA)**

4 hours; 4 credits. A major artistic theme will be traced through two or more of the American arts. This course will demonstrate the interdisciplinary method and philosophy of American Studies. Realism and romanticism, functionalism and formalism, naturalism and the genteel tradition, and organic form are possible topics. (arts & com.) (TALA). Prerequisites: ENG 111 and COR 100. Please Note: this course satisfies the college option.

**AMS 258 - Vietnam and America: 1945-1975 (4) (RLA)**

(Also HST 258). 4 hours; 4 credits. An examination of the history of American involvement in Vietnam, the experience of Americans and Vietnamese who fought the Second Indochina war and its effects on American society. For History majors and minors, this is designated as a United States history course. (social science). Prerequisites: ENG 111 and (COR 100 or any college-level history course). Please Note: This course satisfies the college option.

Crosslisted as: HST 258.

**AMS 303 - U.S. Fiction, Early National Period to Late Nineteenth Century (4) (RLA)**

(Also ENL 303) 4 hours; 4 credits. A study of US fiction from the early national period to the late nineteenth century. Works will be examined in relation to literacy and other cultural-historical contexts. Topics covered may include the idea of "Americanness," slavery, nationhood, US expansion, gender issues, and industrialism. For English majors and minors, this is designated as a literature, American literature, and genre course. Prerequisite: Any ENH 200 level course or ENL 290.

Crosslisted as: ENL 303.

**AMS 304 - US Fiction, Early North American Literature (4) (RLA)**

(Also ENL 304/LNG 304) 4 hours; 4 credits. A study of North American literature to 1830 across a variety of genres, authors, and cultural traditions. For English majors and minors this is designated as a literature, American literature and genre course. Prerequisite: An ENH 200-level course or ENL 290.

Crosslisted as: ENL 304/LNG 304.

**AMS 306 - Latinas/os in the United States (4) (RLA)**

(Also ANT 306/SOC 306). 4 hours; 4 credits. An examination of the sociological and anthropological literature on Latinas/os in the United States. The main goal is to acquaint students with the most important economic, political, and social aspects that contemporary Latino communities are experiencing. Using ethnographies, the course will focus on community formation, social movements, race and ethnicity, gender and sexuality issues, immigration, and transnationalism. Class discussions will also address differences based on national origin, class, and generation. This is a reading and writing intensive course in which students are expected to conduct primary research. (p&d) (social science). Prerequisites: ANT 201 and (SOC 200 or SOC 201 or SOC 240 or SOC 260). Please Note: This course satisfies the college option.

Crosslisted as: SOC 306/ANT 306.

**AMS 308 - American Art Since 1945 (4) (RLA)**

(Also ART 308). 4 hours; 4 credits. The course will examine the development of American art since World War II. Prerequisite: ART 100 or ART 200 or ART 201 or AMS 212 or ART 208 or permission of the instructor.

Crosslisted as: ART 308.

**AMS 309 - U.S. Literature in Comparative Contexts (4) (RLA)**

(Also ENL 309/LNG 309). 4 hours; 4 credits. An examination of U.S. literature in a comparative, transnational frame by considering U.S. writing with relation to what lies outside national borders and emphasizing the role of international cultures, literatures, and politics in the development of U.S. writing. The course will cover, variously, hemispheric studies, transatlantic studies (beyond U.S.-British), transpacific studies, and Africa-U.S. studies. Prerequisite: An ENH 200-level course or ENL 290.

Crosslisted as: ENL 309/LNG 309.

**AMS 311 - The American Cultural Experience (4) (RLA)**

4 hours; 4 credits. A senior seminar for American Studies majors who will do independent research on a common theme of the American experience and meet to discuss and analyze their findings. Examples of such topics are Puritan religion, the frontier, slavery, reform, feminism, big business, radicalism, literary naturalism, imperialism, and popular culture. Prerequisite: A 200-level American studies course.

**AMS 335 - Society and Culture in the United States (4) (RLA)**

(Also HST 335). 4 hours; 4 credits. Major artistic and intellectual developments in America from the 18th century to the present, and their relationship to changing social and political realities. For History majors and minors, this is designated as a United States history course. Prerequisites: (Any 200-level history course or any 200-level American studies course) and ENG 151.
Crosslisted as: HST 335.

AMS 377 - The African-American Literary Tradition (4) (RLA)
(Also AAD 377/ENL 377). 4 hours; 4 credits. A study of the African-American literary tradition engaging such issues as the struggle for human rights and dignity, the definition and representation of African-American culture and identity, and double consciousness. Readings may include works by Frederick Douglass, Harriet Jacobs, W.E.B. DuBois, Langston Hughes, Zora Neale Hurston, Richard Wright, Ralph Ellison, Gwendolyn Brooks, James Baldwin, and Toni Morrison. For English majors or minors concentrating in literature, this course fulfills the requirements for Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ANT - Anthropology

ANT 203 - Social Analysis (4) (RLA)
(Also SOC 203). 4 hours; 4 credits. This course will provide students entering the Sociology/Anthropology Major with a grounding in the history of the two disciplines, an introduction to key topics and theorists, and training in the basic skills of reading and writing for the social sciences. It will serve as a gateway course for students interested in majoring in Sociology/Anthropology. Prerequisite: ENG 151, COR 100.

Crosslisted as: SOC 203.

ANT 205 - Native American Societies (4) (RLA)
4 hours; 4 credits. Origins of Native North American societies and their transformation following contact with Europeans. Special emphasis on the diverse ways native people have coped with, adapted to, and resisted continually changing circumstances from colonial times to the present. (p&d) (social science). Prerequisites: ENG 111, COR 100, AND (ANT 100 or SOC 100 or SOC/ANT 203). Please note: This course satisfies the college option.

ANT 225 - Multicultural Literacy (4) (RLA)
(Also COM 225). 4 hours; 4 credits. An exploration of culture as it is defined by various disciplines and understood through prisms of class, race, gender, ethnicity, and the nation state. The class approaches literacy and culture from interdisciplinary perspectives, drawing on anthropology, sociology, literary theory, media studies, and gender studies. (social science) (art & com.) (p&d.) (TALA). Prerequisites: ENG 151, COR 100, and (SOC/ANT 203 or any 100-level ANT, COM, HST, POL, SOC or WGS course). Please note: This course satisfies the college option.

ANT 235 - Policing and Mass Incarceration (4) (RLA)
(Also AAD 235/INT 235/SOC 235). 4 hours; 4 credits. Provides a critical perspective of historical and current fighting-crime strategies such as one-strike, zero tolerance and the war on drugs, and their intended and unintended consequences for historically marginalized populations. The course will deal with legal/institutional trends in technologies of policing, the militarization of urban America and activist responses to current ‘crisis’ of police violence against minority groups in the US and beyond. Prerequisites: ENG 151 and (SOC/ANT 203 or SOC 212 or SOC 200).

Crosslisted as: AAD 235/INT 235/SOC 235.

ANT 305 - Power and Society in Latin America (4) (RNL)
(Also INT 305/SOC 305). 4 hours; 4 credits. This course will offer students a general overview of the political, economic, and cultural forces shaping Latin American
societies. It will focus particular attention on social inequalities and the effects of contemporary global changes on the region. Readings and class discussions will address both specific countries and trends affecting the region more broadly. Prerequisites: SOC 200 or SOC 240 or SOC 260 or ANT 201 or permission of the instructor.

Crosslisted as: INT 305/SOC 305.

ANT 306 - Latinas/os in the United States (4) (RLA)
(Also AMS 306/SOC 306) 4 hours; 4 credits. An examination of the sociological and anthropological literature on Latinas/os in the United States. The main goal is to acquaint students with the most important economic, political, and social aspects that contemporary Latino communities are experiencing. Using ethnographies, the course will focus on community formation, social movements, race and ethnicity, gender and sexuality issues, immigration, and transnationalism. Class discussions will also address differences based on national origin, class, and generation. This is a reading and writing intensive course in which students are expected to conduct primary research. (p&d) (social science). Prerequisites: ANT 201 and (SOC 200 or SOC 201 or SOC 240 or SOC 260). Please Note: This course satisfies the college option.

Crosslisted as: AMS 306/SOC 306.

ANT 307 - Caribbean Societies (4) (RLA)
(Also INT 307/SOC 307). 4 hours; 4 credits; An introduction to the sociological and anthropological literature on Caribbean societies. The main objective is to acquaint students with the most important economic, political, and social aspects of the region. Using ethnographies, the course will focus on the development of plantation society, nation-state formation, race and ethnicity, gender, political economy, and transnationalism. Class discussions will also address the issues of economic development, human rights, globalization, and U.S. foreign policies on the region. This is a reading and writing intensive course in which students are expected to conduct primary research. Prerequisite: INT 200 or ANT 203 or any ANT or SOC 200-level course.

Crosslisted as: INT 307/SOC 307.

ANT 308 - Anthropology of Human Rights (4) (RLA)
4 hours; 4 credits. An examination of the different ways in which anthropologists have approached human rights, from attempts to understand human rights - as most disciplines and advocates do - as abstract, codified principles, to work that takes human rights as an anthropological object, constituted by specific social practices and meanings. It examines how anthropologists have addressed human rights through a range of themes from activism, the state and citizenship, truth and reconciliation to health care, child prostitution, the trade in human organs, in order to develop a critical sense of human rights as an anthropological object. Prerequisite: ENG 151 and ANT 201.

ANT 313 - Modern Korean Culture (4) (RLA)
(Also SOC 313). A survey of modern Korean culture and society since 1945. The course will examine key dimensions of South Korean society, including the division of the peninsula, the legacies of the Korean War, projects of national economic development, gender dynamics, and social movements, to the most recent social and cultural phenomena and multiculturalism under the aegis of Global Korea. Prerequisite: ENG 151 and a sociology course at the 200-level.

Crosslisted as: SOC 313.

ANT 314 - The High Cost of Cheap Food (4) (RLA)
(Also SOC 314). 4 hours; 4 credits. An examination of the problems associated with the mass consumption of industrialized food such as exploitation of labor, environmental degradation, animal abuse, widespread obesity and illness, and the erosion of social and cultural ties. We will critically examine the ways in which the industrialization of our food supply has made calories cheap and plentiful and how the society at large pays for cheap food's hidden costs. Some of the questions we will ask include: How has social stratification historically affected people's relationship to (consumption of) industrial food? Why do most Americans struggle to eat well? How is the work force in America's farms, factories and food service establishments raced and gendered? In what ways has the food industry worked to obscure its own practices? How have government regulations been shaped to cater to the needs of food companies rather than consumers? Through the lens of industrial food, this course focuses particular attention on issues of labor, immigration and capitalism. Prerequisite: COR 100, ENG 151 and (ANT/SOC 203 or
ANT 331 - Women and Work (4) (RLA)

(Also SOC 330/WGS 330). 4 hours; 4 credits; The social and cultural constraints affecting women's participation and attainments in the world of work. Conflicts between work role expectations and gender role expectations (e.g., femininity, nurturance, maternity). The effects of class background and race/ethnicity on women's occupations, professions, and incomes. (p&d) (social science). Prerequisites: ENG 151 and (any 200-level SOC/ANT course or WGS 230 or WGS 238). Please note: This course satisfies the college option.

Crosslisted as: SOC 330, WGS 330.

ANT 332 - Social Movements and Social Justice (4) (RLA)

(Also AAD 332/INT 332/SOC 332). 4 hours; 4 credits. An introduction to key sociological theories and concepts in the study of social movements. Addressing various questions, including: how have powerless groups of people organized social movements to try to improve their lives and change the society in which they lived? What did these movements accomplish in terms of improving people's day-to-day lives? What role has policing and police played in social movements? Prerequisite: ENG 151 and (SOC/ANT 203 or SOC 212 or SOC 200).

Crosslisted as: AAD 332/INT 332/SOC 332.

ANT 350 - Foraging Societies (4) (RLA)

4 hours; 4 credits; Studies of small bands of hunters and gatherers in which basic human biological evolution and cultural development have taken place over three million years. Their social organization, gender and family relations, the tensions and alliances of gift-based economies, religions without leaders, and politics without chiefs. The contemporary situation of such societies. (p&d) (social science). Prerequisites: ANT 201. Please note: This course satisfies the college option.

ANT 365 - Political Anthropology (4) (RLA)

4 hours; 4 credits. The central topic in political anthropology is the emergence of the state and urban society from tribal societies. This course will examine different explanations for the emergence of states and show the importance of this problem to anthropology as a whole. Prerequisites: (ANT 100, SOC 100 or SOC/ANT 203) and (any 200-level SOC or ANT course).

ANT 367 - Globalization and the World System (4) (RNL)

(Also SOC 367/INT 367); 4 hours; 4 credits; This course explores major issues and current approaches in sociological thinking on globalization and the world system. Globalization will be examined as a multifaceted phenomenon, encompassing changing economic and political forces and the movement of people, ideas, images, and technologies across national boundaries. Particular attention will be given to how global forces structure inequalities both across nations and within them. Prerequisites: (SOC 200 or SOC 240 or SOC 260 or ANT 201) or permission of the instructor.

Crosslisted as: SOC 367/INT 367.

ANT 370 - Urban Anthropology (4) (RLA)

4 hours; 4 credits. The social and cultural organization of urban life examined from two perspectives: detailed and comparative studies of households, neighborhoods, homeless shelters, and other urban institutions, and the transformations in the Third World involving mass migrations and industrial relocation. Prerequisites: (ANT 100, SOC 100 or SOC/ANT 203) and (any 200-level SOC or ANT course).

ANT 375 - Sex and Society (4) (RLA)

(Also SOC 375/WGS 375). 4 hours; 4 credits. An overview of the diverse ways that human beings think about, organize, and experience sexuality, sex and gender roles and identities, intimacy and love, marriage, domestic and sexual labor, and other forms of intimate human relationships. We will critically examine the development of sexuality as an object of study within the social sciences while exploring different theoretical approaches and concepts developed to understand it. We will consider various questions, including: what counts as sex? How have constructions of sexuality varied in different social and historical contexts and why? How are the ideologies and regulation of sexuality and gender related to power, social inequality, and the material realities of the political economy and people's everyday lives? The course has transnational perspective, and focuses particular attention on differences and similarities in the experience of sexual relationships across lines of gender, sex, class, race, and sexual orientation. Prerequisite: ENG 151, COR 100.

Crosslisted as: SOC 375/WGS 375.

ANT 400 - Research Seminar in Sociology/Anthropology (4) (RLA)

(Also SOC 400). 4 hours; 4 credits. The course is intended to enable students to integrate a variety of interest areas in sociology and/or anthropology, thereby culminating the major with a synthesis provided through theoretical
perspectives. Prerequisite: SOC 200, SOC 201, minimum grade of C or better in SOC/ANT 203, minimum 8 credits in SOC/ANT at the 300 level or above.

Crosslisted as: SOC 400.

ANT 450 - Anthropology of Philosophy and Religion (4) (RLA)

4 hours; 4 credits. The intellectual confrontation with nature and the attempt to reduce nature to a knowable and controllable form. A survey of philosophical and religious systems as efforts by people to define their place in the world. Special topics will include witchcraft, magic, ritual, and esoteric religious systems. Prerequisite: (ANT 100 or SOC 100 or SOC/ANT 203) and (any 200-level SOC or ANT course).

ANT 460 - Personality and Culture (4) (RLA)

4 hours; 4 credits. Examination of the different ways of understanding human nature in specific social contexts. Topics will include the development of anthropological theories of personality and culture, and Western and non-Western concepts of personhood and mental health. (p&d) Prerequisites: ANT 201 and (PSY 212 or PSY 226 or PSY 236 or PSY 242 or SOC 200 or SOC 201 or SOC 226 or SOC 292) or permission of the instructor. Please note: This course satisfies the college option.

ARB - Arabic

Department of World Languages and Literatures, Building 2S, Room 109
Chairperson and Associate Professor Gerry Milligan

ARB 112 - Basic Arabic I (3) (RLA)

3 hours; 3 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the World Languages and Literatures Media Center is required. Not open to native speakers or students who have taken ARB 113 or higher. Prerequisite: Passing the CUNY Assessment Tests in Reading and Writing; closed to native speakers.

ARB 113 - Basic Arabic I (4) (RLA)

4 hours; 4 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.) Not open to students who have completed ARB 112. Prerequisite: Passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing.

ARB 114 - Basic Arabic II (4) (RLA)

4 hours; 4 credits. A continuation of ARB 112 or 113. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.) Note: This course satisfies the college option. Prerequisite: ARB 112 or ARB 113 or equivalent. Passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing.

ARB 213 - Continuing Arabic I (4) (RLA)

4 hours; 4 credits. This course is for those students who have successfully completed the second semester of Basic Arabic or who have been placed into this intermediate level. The course will further develop skills and proficiency in listening, speaking, reading, and writing in Arabic. Greater emphasis will be placed on transitioning from spoken to written Arabic. Prerequisite: ARB 114.

ARB 214 - Advanced Communications Skills in Arabic (4) (RLA)

4 hours; 4 credits. Refinement of written and oral expression through composition, translation, oral reports, and critical study of Arabic grammar based on the analysis of selected literary and cultural materials. (foreign lang.). Prerequisites: ARB 114

ARB 215 - Continuing Arabic II (4) (RLA)

4 hours; 4 credits. This course is for those students who have successfully completed the first semester of Continuing Arabic, (ARB 213) or who have been placed into this intermediate level. The course will further develop skills and proficiency in listening, speaking, reading, and writing in Arabic. Greater emphasis will be placed on transitioning from spoken to written languages. Prerequisite: ARB 213.

ARB 313 - Advanced Communication Skills (4) (RLA)

4 hours; 4 credits. Refinement of oral and written expression through oral reports, composition, translation, and critical study of readings that are of advanced difficulty and involve more complex grammatical structures. Prerequisite: ARB 215.

ARB 320 - Arabic Civilization & Culture (4) (RLA)

4 hours; 4 credits. A panoramic approach to the history, art, literature, political and social systems of the Arabic-speaking world. Designed to provide a basic knowledge of Arabic civilization. (literature) (TALA) NOTE: This course satisfies the College Option. Prerequisite: ARB 313

ARB 340 - Arabic Literature (4) (RLA)

4 hours; 4 credits. An introduction to Arabic literature. The course focuses on the refinement of written and oral expression through composition, oral reports, and critical analysis of literary readings. (literature) (TALA).
Prerequisites: ARB 213 or ARB 214. Please Note: this course satisfies the college option.

ART - Art

(See Photography for photography course descriptions (p. 332.).)

ART 100 - Introduction to the Visual Arts (3) (FCER)
3 hours; 3 credits. A selective examination of the materials and forms of the visual arts -- including painting, sculpture, and architecture -- designed to provide students with a critical and historical framework for evaluating visual experience. The course will combine slide lectures and films with a number of museum and gallery visits. (arts & com.) (FCER).

ART 106 - Art in Rome (3) (RLA)
3 hours; 3 credits. A course designed to familiarize students with the vast artistic patrimony of Rome. Visits to archaeological sites, churches, palaces, museums, and galleries. The course is for the non-art major. It is conducted almost entirely on site. (Offered only at the American University of Rome.).

ART 120 - Introductory Drawing (3) (RNL)
4 hours; 3 credits. This course studies drawing as a primary tool of vision and consequently as a means of apprehending the world around us. The essentials of perspective, anatomy, and drawing from observation are followed by an introduction to the analysis of compositional dynamics. Students may work from the human form, still life, and/or landscape. Studio classes are tutorial by nature and are supplemented by group critiques, outside assignments, museum visits, written papers, and student presentations. Students will become familiar with various drawing media, which may include charcoal, conté crayon, pastel, ink, and graphite. (arts & com.)

ART 125 - Portrait Drawing I (3) (RNL)
4 hours; 3 credits. Basic study of the human head and facial expressions with particular attention to the problems of portraiture. Students are introduced to basic concepts of proportion, perspective, anatomy, and drawing the human head/figure from observation. Various drawing media may be employed, such as: charcoal, pencil, conte crayon, and/or pastel. Studio classes are tutorial by nature and are supplemented by group critiques, outside assignments, museum visits, written papers, and student presentations.

ART 130 - Introductory Painting (3) (RNL)
4 hours; 3 credits. An introduction to the fundamentals of painting a picture. Students are first familiarized with materials, equipment, and studio maintenance. Basic pictorial concepts such as color, composition, perspective, space, and the picture plane are introduced. Studio classes are tutorial by nature and are supplemented by group critiques, outside assignments, museum visits, written papers, and student presentations. Students choose from a wide variety of unusual still lifes. They allow the student to return to his/her picture repeatedly over several weeks and outside of class time. Prolonged work allows the imagination to generate new possibilities from the initial attempt as the student is made to see as an artist does. (arts & com.)

ART 150 - Introductory Sculpture (3) (RNL)
4 hours; 3 credits. An introduction to the fundamentals of creating sculpture. Students work in a variety of sculptural media in conjunction with learning the formal principles and skills relevant to the creation of sculpture and the safe and responsible use of hand tools. Projects are introduced through class presentations, demonstrations and discussion. Studio work helps students to develop an understanding of and competency in material, technique, theoretical and conceptual aspects of sculpture. Media includes wood, stone, mixed-media construction, cardboard, clay, metal, and plaster. Some drawing is required for the development of individual projects. Contemporary and historical works are examined and researched in order to develop and support individual direction. (arts & com.)

ART 200 - History of Art to the Renaissance (4) (RLA)
4 hours; 4 credits. This survey course will trace the development of painting, sculpture, and architecture from their beginnings in the Stone Age to the Early Renaissance. Emphasis will be placed on the relationship between the historical setting and the works themselves. Introduction to the history of the visual arts. (arts & com.) (TALA). Prerequisite: ENG 111. Please Note: this course satisfies the college option.

ART 201 - History of Art after the Renaissance (4) (RLA)
4 hours; 4 credits. A continuation of ART 200, this survey course traces further developments in the visual arts from the Renaissance to the works of the 20th-century masters. (arts & com.) (TALA). Prerequisite: ENG 111. Please Note: this course satisfies the college option.

ART 203 - Art of the Ancient World (4) (RLA)
4 hours; 4 credits. An examination of the art and architecture of predynastic Egypt, the Near East, the Aegean, mainland Greece, and Republican and Imperial Rome. While the course is, of necessity, a survey, particular emphasis will be placed on the evolution of the classical tradition. (arts & com.) (TALA). Prerequisites: (ART 100 or 103 or 104 or permission of the instructor) and ENG 111. Please Note: This course satisfies the college option.
ART 205 - Modern Art in Latin America (4) (RLA)
(Also AMS 205). 4 hours; 4 credits. An introduction to the development of modern art in Latin America. We will study the emergence of key art movements in Latin America and how artists participated in and responded to important historical events and social changes across the Americas. How have Latin American artists portrayed the idea of "Latin America" or being "Latino" in their work? Other issues will include: negotiating with their colonial past and with European models of modernity; art and revolution; the question of indigenous art forms and the "popular"; diasporic continuities within Latin America, Latino experience in the United States, and mestizaje (cultural mixing). (arts & com) (p&d) (TALA). Prerequisites: ENG 111 and (ART 100 or ART 200 or ART 201 or AMS 101). Please Note: This course satisfies the college option.

Crosslisted as: AMS 205.

ART 207 - Nineteenth-Century Art (4) (RLA)
4 hours, 4 credits. An analysis of the principal currents of European and American art from the revolutionary period through the origins of modernism in the last years of the century. Topics to be covered include Neoclassicism, Romanticism, Realism, and Impressionism. (arts & com.) (TALA) Prerequisites: ENG 111 and (ART 100 or ART 200 or ART 201 or permission of the instructor). Please Note: this course satisfies the college option.

ART 208 - Twentieth-Century Art (4) (RLA)
4 hours, 4 credits. An analysis of the principal developments in art from the end of the 19th century through the present. (arts & com.) (TALA) Prerequisites: ENG 111 and (ART 100 or ART 200 or ART 201 or permission of the instructor). Please Note: this course satisfies the college option.

ART 209 - Art and Society in America (4) (RLA)
(Also AMS 209). 4 hours; 4 credits. Three hundred years of American art, studied as an expression of American life. Works of art are viewed in terms of style and also as guides to the complexities of American history and culture. (arts & com.) (TALA). Prerequisites: ENG 111; and (ART 100 or ART 200 or ART 201 or permission of the studio art coordinator). Please Note: This course satisfies the college option.

Crosslisted as: AMS 209.

ART 210 - The Architect and Society (4) (RLA)
4 hours; 4 credits. A selective review of the practice of architecture from antiquity to the present. The course will analyze changing formal and aesthetic concepts in the light of contemporaneous social and economic factors. (arts & com.) (TALA). Prerequisites: ENG 111 and (ART 100 or ART 200 or ART 201) or permission of the instructor. Please Note: this course satisfies the college option.

ART 211 - History of Printmaking (4) (RLA)
4 hours; 4 credits. The history of printmaking from its origins in the 15th century to the present. While the main emphasis will be placed on the relation of printmaking to contemporaneous activity in paintings, an effort will be made to define the individual character of such techniques as woodblock printing, engraving, etching, mezzotint, aquatint, lithography, and screenprinting. The course will encourage connoisseurship by combining slide lectures with visits to museums and graphics studios. Prerequisites: ENG 111 and (ART 100 or ART 200 or ART 201) or permission of the instructor.

ART 212 - Visiting Artist Projects (3) (RNL)
4 hours; 3 credits. An overview of the three major artistic disciplines: painting, printmaking, and sculpture. Three visiting artists, one from each discipline, will each instruct a five week segment. Students will be introduced to techniques and theoretical concepts unique to each visiting artist's discipline. Each visiting artist will assign students readings and a specific project to complete for their respective workshop. Through a combination of the three studio projects, readings, and discussions students will gain an understanding and respect for working in three artistic disciplines. This may be repeated twice for credit. Prerequisite: ART 120 and one of the following ART 130, ART 150, or ART 245 or permission of the studio art coordinator.

ART 220 - Intermediate Drawing (3) (RNL)
4 hours; 3 credits. Concentrated study of the figure, complex problems in perspective and composition, detailed rendering in light and shade, and work in ink with brush and pen. Prerequisite: ART 120.

ART 225 - Portrait Drawing II (3) (RNL)
4 hours; 3 credits. Basic study of the human head and facial expressions with particular attention to the problems of portraiture. For intermediate students. Prerequisite: ART 125.

ART 230 - Intermediate Painting (3) (RNL)
4 hours; 3 credits. Representation of complex textures, problems of color, composition from figurative to abstract, and expression in the medium. Prerequisite: ART 130.

ART 240 - Women and the Fine Arts (4) (RLA)
(Also WGS 270). 4 hours; 4 credits. This course examines the two-fold relationship of women to the fine arts; their role as subjects and as artists. Topics such as the portrayal of women as goddess, mother, and housewife, and as artist will be undertaken with a view to the social and historical input
and implication of this imagery. The circumstances of women artists from the Renaissance to the present will also be considered. (arts & com) (p&d) (TALA). Prerequisites: ENG 111, and (WGS 100 or ART 100, ART 200 or ART 201) or the permission of the instructor. Please Note: this course satisfies the college option.

Crosslisted as: WGS 270.

ART 245 - Printmaking (3) (RNL)
4 hours; 3 credits. Instruction and practice in the fundamentals of the intaglio process; its relationship to the design and meaning of the print. Prerequisites: ART 120 or ART 130

ART 250 - Intermediate Sculpture (3) (RNL)
4 hours; 3 credits. An intermediate sculpture course that reinforces the fundamental processes, techniques and methods employed in creating sculpture. Students develop in-depth studio projects utilizing hand and power tools in a range of materials. Techniques include: modeling, fabricating, enlarging, carving and casting. By semester's end students will demonstrate a high level of competency with tools, their application and formulate studio projects which encompass both the personal and historical perspectives. Students are required to maintain a detailed sketchbook and a mixed-media sketchbook, and to write and present a research paper on a selected sculpture exhibition. Prerequisite: ART 150.

ART 275 - Studio Art Theory and Practice (3) (RNL)
4 hours; 3 credits. The aim of this course is to open a thorough understanding of two-dimensional organization in painting and drawing and, by extension, of three-dimensional concepts in sculpture. The study will involve a design analysis of selected paintings from the 15th and 16th centuries. Students are expected to produce drawings and paintings based on these explorations. Prerequisite: ART 120.

ART 300 - Medieval and Renaissance Art (4) (RLA)
4 hours; 4 credits. An attempt to differentiate and define the major stylistic developments in medieval and Renaissance art and architecture and to locate them within the broader context of contemporaneous European culture. Prerequisites: ENG 111, and ART 100 or 200 or 201, or permission of the instructor.

ART 301 - Baroque Art (4) (RLA)
4 hours; 4 credits. An analysis of the Baroque style, which developed in Italy at the beginning of the 17th century and spread throughout Europe. Particular emphasis will be placed on discussion of the varying intellectual, religious, and socioeconomic factors that affected such important questions as the role of patronage. Prerequisites: ENG 111, and ART 100 or 200 or 201, or permission of the instructor.

ART 302 - Garden Architecture in Italy (3) (RLA)
3 hours; 3 credits. An examination of the evolution of Italian garden architecture from the late Republican period to Neoclassicism with special emphasis placed on literary sources and with extensive site visits. (Offered only in the Study Abroad program at the Scuola Lorenzo di Medici in Florence.). Prerequisite: ART 100 or ART 200 or ART 201.

ART 303 - History of Photography (4) (RLA)
4 hours; 4 credits. A critical study of the history of photography from its beginning in the early 19th century through contemporary developments. Topics to be covered include the aesthetic relation of form and content, portraiture, the documentary and abstract approaches, and color photography. The primary emphasis will be on photography as an art, but emphasis will be given to the development of photographic equipment, materials, and techniques as they influence the art. Students will utilize slides and books to study the work of major artists. No previous study of photography is necessary. Prerequisites: ENG 111, and ART 100 or 200 or 201, or permission of the instructor.

ART 305 - Museum and Gallery Training (4) (RNL)
4 hours; 4 credits. Students interested in studio art or art history are given an opportunity to combine theory and practical experience by working with an adviser at the College and in selected museums and private galleries in New York City. Since serious commitment is essential, prospective students will be interviewed by the adviser before registration. Hours will be arranged. This course may be repeated once for credit, with permission of the instructor. Prerequisites: ENG 111, and ART 100 or 200 or 201, or permission of the instructor.

ART 308 - American Art Since 1945 (4) (RLA)
(Also AMS 308). 4 hours; 4 credits. The course will examine the development of American art since World War II. Prerequisite: ART 100 or ART 200 or ART 201 or AMS 212 or ART 208, or permission of the instructor

Crosslisted as: AMS 308.

ART 310 - Aspects of Renaissance Art (3) (RLA)
3 hours; 3 credits. This course examines the development of European art and architecture from 1400 to 1520, stressing the Italian contribution and focusing particularly on style, iconography, and patronage. (Offered only at the American University of Rome.). Prerequisites: ENG 111, and ART 100 or 200 or 201, or permission of the instructor.
ART 311 - Baroque Art and Architecture (3) (RLA)
3 hours; 3 credits. An analysis of the Baroque style that developed in Italy at the beginning of the 17th century and spread throughout Europe. Particular emphasis will be placed on discussion of the varying intellectual, religious, and socioeconomic factors that affected such important issues as patronage. The role played by the city of Rome will be given particular consideration. (Offered only at the American University of Rome.) Prerequisite: ART 100 or 200 or 201, or permission of the instructor.

ART 314 - Contemporary Issues in Photography (4) (RNL)
(Also PHO 314). 4 hours; 4 credits. This course will investigate contemporary issues in photography from aesthetic, art historical, and philosophical perspectives. It will be team-taught by an art historian and photographer. Students are strongly advised to take ART 303 prior to enrolling. Prerequisites: (ART 100 or ART 200 or ART 201 or PHO 220) and ENG 151
Crosslisted as: PHO 314.

ART 319 - The Role of Art in the Modern World (3) (RLA)
3 hours; 3 credits. A seminar exploring the current ideas and debates regarding art's role in the world. The class will investigate the nature of what the art activity was and is, as well as what purpose it served in the past and what purpose it serves currently. Oral presentations will be made. Concepts such as modernism, postmodernism, multiculturalism, and deconstruction will be introduced and discussed. Prerequisites: Any 200- or 300-level studio art course and ART 100 or ART 201, or permission of the instructor

ART 320 - Advanced Drawing (3) (RNL)
4 hours; 3 credits. Individual studio projects and advanced figure compositions in all drawing media. This course may be repeated for credit. Prerequisite: ART 220.

ART 325 - Portrait Drawing III (3) (RNL)
4 hours; 3 credits. Basic study of the human head and facial expressions with particular attention to the problems of portraiture. For advanced students. This course may be repeated for credit. Prerequisite: ART 225.

ART 330 - Advanced Painting (3) (RNL)
4 hours; 3 credits. Individual studio projects with emphasis on development of personal direction. This course may be repeated for credit. Prerequisite: ART 230.

ART 340 - Design Workshop I (3) (RNL)
4 hours; 3 credits. Introduces the student to the basic conceptual and executional skills necessary in the field of graphic design. Areas to be covered will include two-dimensional space, color relationships, space relationships, and three-dimensional construction.

ART 341 - Design Workshop II (3) (RNL)
4 hours; 3 credits. More advanced two- and three-dimensional problem solving with emphasis on the technical skills necessary for reproduction. Areas to be covered will include design problems and applications, typography, and methods of reproduction. Prerequisite: ART 340.

ART 345 - Intermediate Printmaking (3) (RNL)
4 hours; 3 credits. Development of technical and expressive skills through selected areas of study in one or more of the graphic processes. Prerequisite: ART 245.

ART 350 - Advanced Sculpture (3) (RNL)
4 hours; 3 credits. A continuation of ART 250. An advanced sculpture course that requires students to work closely with the professor to develop individual projects in media of their choice. Students prepare work suitable for submission in a graduate-student portfolio. By semester's end, students will have the ability to objectively critique and articulate content and vision in ones work and concretely place it in an historical context. Students are required to maintain a detailed sketchbook that includes artistic vision, and to write and present an in-depth research paper on a selected exhibition of a sculptor. This course may be repeated for credit. Prerequisite: ART 250

ART 375 - Intermediate Studio Art Theory and Practice (3) (RNL)
4 hours; 3 credits. A continuation of the study of two-dimensional systems and concepts. The central focus will be an understanding of the development and structure of Cubism and fragmented patterns. Studies will be made in both black and white and in color. Students are expected to produce drawings and paintings that transpose realist paintings into Cubist manner. Prerequisite: ART 275.

ART 401 - Contemporary Art: Ideas and Practices (4) (RLA)
4 hours; 4 credits. Covering the major transformations in contemporary art. Students will study developments in traditional media alongside the proliferation of new media practices. The class will address theoretical ideas and issues that have informed the work of contemporary artists and look at key writings by critics, art historians, and artists themselves. Prerequisites: ART 200, ART 201 and a 300-level studio art class or a 300-level photography class.

ART 410 - Major Artist I (4) (RLA)
4 hours; 4 credits. This course will explore the work of an artist of established historical importance as well as the context in which the artist worked and the art-historical and
art-theoretical issues bearing on our effort to understand that artist. May be repeated for credit with the approval of the instructor. Prerequisites: ENG 151, ART 200, ART 201, and a 300-level art history course, or permission of the instructor.

ART 411 - Major Artist II (4) (RLA)
4 hours; 4 credits. This course will explore the work of an artist of established historical importance as well as the context in which the artist worked and the art-historical and art-theoretical issues bearing on our efforts to understand that artist. May be repeated for credit with the approval of the instructor. Prerequisite: ENG 151, ART 200, ART 201 and a 300-level art history course, or permission of the instructor.

ART 440 - Contemporary Art Theory I (4) (RLA)
4 hours; 4 credits. A seminar for advanced students in the arts. Part I will review the historical developments that led to the establishment of the New York School. Prerequisite: Permission of the instructor.

ART 441 - Contemporary Art Theory II (4) (RLA)
4 hours; 4 credits. The seminar will continue with an attempt to correlate individual student research on recent movements with the shifts in aesthetic theory from the 1930s to the present. Prerequisite: ART 440 or permission of the instructor.

ART 445 - Advanced Printmaking (3) (RNL)
4 hours; 3 credits. Individual projects in one or more of the printmaking processes. Emphasis on the development of individual style with a mature level of expression and the compiling of a portfolio of prints. This course may be repeated for credit. Prerequisite: ART 345.

ART 475 - Advanced Studio Art Theory and Practice (3) (RNL)
4 hours; 3 credits. This course will probe the interrelationship of realist and abstract painting. Realism and abstraction will be compared and explored for the elements they share as well as for their differences. From a simple still life the student will develop studies that result in two distinct series of paintings, one abstract, the other realist. This course may be repeated for credit. Prerequisite: ART 375.

ART 480 - Senior Project in Art and Photography (3) (RLA)
4 hours; 3 credits. Open to Art and Photography majors who wish to complete their senior project exhibition. This course advances students in making the transition from college to the professional world of art-making. Prior to enrolling in this course, all students must have an existing body of highly developed studio work in painting, drawing, printmaking, sculpture, photography or installation. Through reading assignments and lectures, students will articulate, in written and oral forms, the aesthetic components of their creative practice while critically engaging with the work of their peers. Prerequisite: ART 200, ART 201 and senior standing. Corequisite: a 300-level studio art class or a 300-level photography class

ASL - American Sign Language

ASL 112 - Basic American Sign Language I (3) (FWGR)
3 hours; 3 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the Modern Languages Media Center is required. Not open to students who have taken ASL 113 or higher. (foreign lang.) (FWGR) Prerequisite: Passing the CUNY Assessment Tests in Reading and Writing.

ASL 113 - American Sign Language I (4) (RLA)
4 hours; 4 credits. An introduction to the fundamentals of American Sign Language (ASL) with particular attention to basic grammatical structures and the history of American deaf persons. (foreign lang.). Prerequisite: Passing the CUNY Assessment Test in Reading and the CUNY Assessment Test in Writing. Not open to students who have completed ASL 112.

ASL 114 - American Sign Language II (4) (RLA)
4 hours; 4 credits. An introduction to the fundamentals of American Sign Language with particular attention to basic grammatical structures and the history of American deaf persons. (foreign lang.) (COPT) Prerequisites: Passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing and successful completion of ASL 112 or ASL 113 or its equivalent.

ASL 213 - American Sign Language III (4) (RLA)
4 hours; 4 credits. A continuation of ASL 112 or ASL 113 emphasizing vocabulary development and increased fluency in the language's grammar and structure, as well as a further examination of Deaf culture. (foreign lang.) (COPT) Prerequisites: Passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing and successful completion of ASL 112 or ASL 113 or its equivalent.

ASL 215 - American Sign Language IV (4) (RLA)
4 hours; 4 credits. A continuation of American Sign Language II with emphasis on ordinal numbers, the use of vertical space, and further development of visual receptive skills. (foreign lang.) Prerequisite: Successful completion of ASL 114 or its equivalent.
ASL 313 - Advanced Communication in American Sign Language (4) (RLA)

4 hours; 4 credits. Refinement of communication skills through presentations, translation, and critical study of the grammar of American Sign Language through the analysis of selected literary works of advanced difficulty. Regular attendance in the World Languages and Literatures Media Center is required. Prerequisite: ASL 215.

AST - Astronomy

AST 100 - Contemporary Theories of the Solar System (3) (FSWR)

3 hours; 3 credits. The nature of the sun, moon, planets, comets, meteors, and meteorites; early and modern history of the Earth; the origin of the solar system; evolution of life on Earth and in the cosmos. Field trips and/or day and evening astronomical observation sessions will be required. Students may not receive credit for both INS 100 and AST 100. (science) (FSWR). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: AST 101.

AST 101 - Planetary Laboratory (1) (RLA)

2 laboratory hours; 1 credit. Experiments on the properties of light and telescopes, the celestial sphere and time, eclipses, planetary orbits, meteors, sunspots, lunar geography, and observation work. (science). Corequisite: AST 100.

AST 102 - Contemporary Theories of the Universe (3) (RLPR)

3 hours; 3 credits. A presentation of the galaxy, atomic structure, star populations, nuclear energy, stellar evolution, galactic structure, and the universe. Field trips and/or day and evening astronomical observation sessions will be required. (science) (RLPR). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: AST 103.

AST 103 - Galactic Laboratory (1) (RLA)

2 laboratory hours; 1 credit. Experiments on atomic properties of matter, stellar atmosphere, variable and nova stars, galaxy classification, stellar clusters, and observation work. (science) Corequisite: AST 102.

AST 105 - Observational Astronomy (4) (RNL)

3 class hours, 2 laboratory hours; 4 credits. Topics covered are aligning and using computerized telescopes; celestial coordinate systems; time keeping; observations of the planets, moon, sun, asteroidal motions, and variable stars; astrophotography with CCD imaging cameras; photometric techniques. Day and evening astronomical observation sessions will be required beyond regularly scheduled hours. (science). Prerequisites: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test, AST 100 or AST 102.

AST 108 - Survey of the Universe (3) (RLPR)

3 hours; 3 credits. A laboratory-embedded course covering topics exploring major concepts in our knowledge of the universe. Experiments and topics chosen from: the nature of the night sky, predicting celestial events, seasons, motions of the sun and moon, the nature of time and its measurement, the laws of motion and the force of gravity, the nature of light, the sun's rotation and energy, radiometric dating, asteroid detection, planetary materials, atomic spectra, and galaxy classification, and Hubble's Law. Field trips, term paper, and/or day and evening astronomical observation sessions will be required. (science) (RLPR). Prerequisite: MTH 020 or higher.

AST 110 - Life in the Universe (3) (FSWR)

3 hours; 3 credits. An introduction to Astrobiology. Topics: life beyond the Earth, Matter and Energy, Life on Earth: (basic building blocks of life, cells, DNA, the origins of life and evolution), life in our solar system, Mars, Jovian Moons, the habitable Zone around stars, the search for extra terrestrial Intelligence, and Interstellar Travel, A Term paper, Field trips and/or day and evening astronomical observation sessions will be required. (scientific analysis) (FSWR). Prerequisite: MTH 020 or higher. Corequisite: AST 111.

AST 111 - Life in the Universe Laboratory (1) (RLA)

2 hours; 1 credit. Experiments and activities on the nature of science, remote sensing, nature of life, genes, extreme environments, water and life, terraforming, habitable zones around stars, discovering extra-solar planets, the Drake equation, and aliens? (science). Prerequisite: MTH 020 or higher. Corequisite: AST 110.

AST 120 - Space Science I (4) (RLPR)

3 class hours, 2 laboratory hours; 4 credits. Observations and telescopes. The structure and origin of the solar system, the sun-Earth connection, and space physics; space weather, comparative planetology. Laboratory emphasis will be on quantitative measures of celestial positions (i.e., astrometry, as well as solar system photometry). Field trips and/or day and evening astronomical observation sessions will be required. (RLPR) (STEM) (science). Pre- or corequisite: MTH 230 or MTH 231.

AST 160 - Space Science II (4) (FSWR)

3 class hours, 2 laboratory hours; 4 credits. Energy transport; stellar structure and evolution and origins; interstellar medium and star birth; galactic and extragalactic astronomy and cosmology; the Big Bang and beyond. Laboratory emphasis will be on stellar photometry and
spectroscopy. Field trips and/or day and evening astronomical observation sessions will be required. (FSWR) (STEM) (science). Prerequisite: AST 120. Corequisite: MTH 232.

AST 230 - Planetary Geology (3) (RLA)
(Also GEO 230). 4 hours; 3 Credits. The study of the geology of the celestial bodies such as the planets and their moons, asteroids, comets, and meteorites. Specific topics covered are: determining the internal structure of the terrestrial planets, planetary volcanism, impact craters, fluvial and Aeolian processes, structures of the giant planets and their moons, make-up of the minor bodies of the solar system, such as asteroids, the Kuiper Belt, and comets, and Exoplanets (The nature of planets found beyond our Solar System). A Term paper, Field trips and/or day and evening astronomical observation sessions will be required. Prerequisite: (GEO 115 and GEO 116 or GEO 100 and GEO 101) and MTH 123.

Crosslisted as: GEO 230.

AST 396 - Introduction to Astrophysics (3) (RLA)
3 hours; 3 credits. Celestial mechanics, electromagnetic radiations; their detectors and remote sensing; special relativity, stellar pulsation, general relativity and black holes, the nature and evolution of galaxies, origins, Newtonian and relativistic cosmology. Field trips and/or day and evening astronomical observation sessions will be required. Prerequisite: AST 160.

BDA - Business Data Analytics

BDA 301 - Business Data (4) (RNL)
4 hours; 4 credits. An introduction to the analysis techniques that can applied to large scale data sets. Focused on teaching data analysis skills in a fun and engaging environment. Structured to engage students in direct hands on analysis and to broaden the skills sets that are generally provided by the undergraduate programs in Business, Accounting and Economics. Students from outside of the Business School fields are welcome to attend and should provide documentation of their level of computational preparation. Prerequisites: BUS 215 and ECO/MGT 230.

BIO - Biology

BIO 103 - Introduction to Biology (3) (RLPR)
3 hours; 3 credits. An introduction to biological principles and how they apply to the structure and function of living organisms, especially the human body. (science) (RLPR). Pre- or corequisite: MTH 020

BIO 105 - Molecular Foundations of Cell Function (1) (RLA)
1 lecture hour, 1 recitation hour; 1 credit; the course meets four hours per week for one-half semester. This course offers an introductory survey of molecular biology, cellular metabolism, and cellular mechanisms. It is designed to run concurrently with BIO 150 Human Anatomy and Physiology I, and to provide the necessary background for the study of human anatomy and physiology. This course may not be used to satisfy the Scientific Analysis requirement. Prerequisite: BIO 106 and BIO 107 or BIO 170 and BIO 171 with a minimum grade of C or a satisfactory score on the Biology Placement Test. Corequisite: BIO 150. Note: Students planning to enter the programs in Nursing, Physical Therapy, Physician Assistant, or the Nuclear Medicine option in Medical Technology are assigned this course by the Department of Biology on the basis of scores attained on the Biology Placement Test.

BIO 106 - Principles of Biology I (3) (RLPR)
3 hours; 3 credits. Introductory biology for non-science majors. Structure and function of the body and the effects of the environment on it. Fundamental biological principles and concepts and their applications to relevant concerns such as drug addiction, food additives, physical fitness, and the population explosion. Not credited toward the Biology major. (scientific analysis) (RLPR) Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: BIO 107.

BIO 107 - Principles of Biology I Laboratory (1) (RLA)
2 laboratory hours; 1 credit. Laboratory experiences illustrating principles and topics discussed in BIO 106. (scientific analysis) Corequisite: BIO 106.

BIO 108 - Principles of Biology II (3) (FSWR)

BIO 109 - Principles of Biology II Laboratory (1) (RLA)
2 laboratory hours; 1 credit. Laboratory experiences illustrating principles and topics discussed in BIO 108. (scientific analysis). Corequisite: BIO 108.
BIO 146 - Nutrition (3) (RLA)
3 hours; 3 credits. This course presents fundamental principles, concepts, and applications of normal nutrition. Stress will also be placed on the relation of good nutrition to good health. Emphasis will be placed on the common restrictive diets generally used in medical office practice. Open to non-medical assistant students as an elective. May not be used to satisfy major requirements for the BS in Biology. Prerequisite: BIO 102 or (BIO 170 and 171) or (BIO 106 and 107) or BIO 150.

BIO 150 - Human Anatomy and Physiology I (4) (RLPR)
4 lecture hours; 3 laboratory hours; 4 credits. The first half of a comprehensive two-semester course in human biology. Integrated lecture and laboratory sessions deal with the structure and function of cells, tissues, and the following systems: integumentary, musculoskeletal, blood-cardiovascular, immune, and respiratory. (STEM) (RLPR). Prerequisites: (BIO 106 and BIO 107) or (BIO 170 and BIO 171) with a minimum grade of C or a satisfactory score on the Biology Placement Test. Note: Students who have previously registered two or more times for BIO 150 will be permitted to register again only on a space-available basis, as determined at the close of registration. Students must receive a grade of C or better in BIO 150 to proceed to BIO 160. This is a required course for students planning to enter the programs in Nursing and Medical Technology.

BIO 160 - Human Anatomy and Physiology II (4) (FSWR)
3 class hours, 3 laboratory hours; 4 credits. This course is a continuation of BIO 150. Lecture and laboratory sessions deal with the structure and function of the urinary, digestive, nervous, endocrine, and reproductive systems. (STEM) (FSWR). NOTE: This course has a material fee. Prerequisites: BIO 150. Note: Students must receive a grade of C or better in BIO 150 to proceed to BIO 160. This is a required course for students planning to enter the programs in Nursing and Medical Technology.

BIO 170 - General Biology I (3) (RLPR)
3 hours; 3 credits. Fundamental biological principles of cell metabolism, energy transformations, and plant and animal functions including support, digestion, respiration, circulation, excretion, and integration, and selected current topics. For science, Medical Technology, appropriate pre-professional majors, and other interested students in consultation with an adviser. (scientific analysis) (RLPR). Pre- or corequisite: ENG 111, MTH 123 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: BIO 171.

BIO 171 - General Biology I Laboratory (1) (RLA)
3 laboratory hours; 1 credit. Fundamental biological principles of cell metabolism, energy transformations, and plant and animal functions including support, digestion, respiration, circulation, excretion, and integration, and selected current topics. For science, Medical Technology, appropriate pre-professional majors, and other interested students in consultation with an advisor. (scientific analysis) (RLPR) (STEM). Pre- or corequisite: ENG 111, MTH 123 or an appropriate score on the CUNY Mathematics Assessment Test.

BIO 180 - General Biology II (3) (FSWR)
3 hours; 3 credits. A continuation of BIO 170, including plant and animal diversity, microbes and disease, reproduction, development, patterns of inheritance, the origins of life, evolution, ecology, and selected topics. For science, Medical Technology, appropriate pre-professional majors, and other interested students in consultation with an adviser. (scientific analysis) (FSWR) Prerequisites: Minimum grade of C in BIO 170, Minimum grade of C in BIO 171, ENG 111, and MTH 123 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: BIO 181

BIO 181 - General Biology II Laboratory (1) (RLA)
3 laboratory hours; 1 credit. A continuation of BIO 171. A laboratory examination of the material covered in BIO 180. For science, Medical Technology, appropriate pre-professional majors, and other interested students in consultation with an advisor. (scientific analysis) (STEM). NOTE: This course has a material fee. Prerequisites: Minimum grade of C in BIO 170, Minimum grade of C in BIO 171, ENG 111, and MTH 123 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: BIO 180.

BIO 205 - General Physiology (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. A study of systemic physiology with emphasis on cell physiology, homeostasis, and control mechanisms in vertebrates, particularly mammals. Laboratory exercises include physiographic studies of various systems. Required for Biology and Medical Laboratory Technology majors. Prerequisites: BIO 160 or (BIO 180 and 181) and CHM 141 and CHM 121.

BIO 213 - Vertebrate Zoology (4) (RLA)
2 class hours, 4 laboratory hours; 4 credits. A comparative study of the chordates with emphasis on both extant and extinct taxa, ecology, behavior and morphological and physiological specializations. Projects conducted outdoors at local field sites and a museum trip. Prerequisites: BIO 180 and 181.
BIO 214 - Biological Approach to Human Sexuality (3) (RLA)
3 hours; 3 credits. Developmental anatomy of female and male reproductive systems, basic endocrinology and reproductive cycles; physiology of sexual functions; pregnancy and birth; fertility, stimulation, and control; sexual disorders, venereal disease, and other diseases including cancer; biological origins and variations of behavior. May not be used to satisfy the major requirements for the BS in Biology. Prerequisite: BIO 180 and 181 or BIO 160.

BIO 215 - Invertebrate Zoology and Paleontology (4) (RLA)
2 class hours, 4 laboratory hours; 4 credits. Taxonomy, ecology, evolution, paleontology, and phylogeny of the invertebrates, emphasizing the medical, economic, and evolutionary importance of the various groups. Introduction to the use of zoological literature and preparation of a scientific paper. Prerequisites: BIO 180 and 181.

BIO 217 - Introduction to Tropical Ecology (3) (RLA)
3 hours; 3 credits. An introduction to tropical ecology, with emphasis on differences in the tropical versus temperate system: differences in climatic regimes, habitat types, phenology of natural processes, and species to be found in the tropical versus eastern North American temperate environments. It is a short, but intensive immersive course held at a tropical field station, providing opportunities for study of tropical environments and a different culture. Prerequisites: BIO 180 and 181.

BIO 222 - Field Biology (4) (RLA)
2 class hours, 4 laboratory or field hours; 4 credits. This course provides instruction in standard procedures of collecting, preserving, and analyzing specimens and data observed during off-campus field trips. Analysis will include introduction to descriptive statistics; comparisons and indices of species diversity, dispersion, and community similarity. One field study will be made of animal behavior. One weekend field trip is scheduled. Reports using scientific format, labeled specimen collections, and a field notebook are required. Prerequisites: BIO 180 and 181.

BIO 225 - Conservation Biology (4) (RLA)
4 hours; 4 credits. The applied, integrative, and multidisciplinary science of maintaining the earth's biological diversity. The objectives of this course are to understand the conceptual foundations of conservation biology, the primary threats to biodiversity, the consequences of small populations, and approaches to solving conservation problems. Through reading assignments, discussions, exercises, field trips to local sites of conservation interest, exams and a presentation, the course will significantly foster student-active learning of conservation biology in an evolutionary and ecological context. Prerequisite: BIO 180, BIO 181, MTH 123, and ENG 111.

BIO 228 - Botany (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. An introduction to the major structural and functional characteristics of the groups of plants that comprise the plant kingdom: bacteria, algae, fungi, mosses, ferns, gymnosperms, and angiosperms. Interrelationships of evolution, diversity, and ecology are stressed throughout the examination of all major disciplines of plant biology. Prerequisites: BIO 180 and 181.

BIO 230 - Marine Biology and Oceanography (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. An introduction to the chemical, physical, geological and biological processes governing the formation of the world's oceans and the distribution and ecology of its inhabitants. Lectures will introduce the biological, chemical, and geological features of saltwater environments, and field trips to local marine habitats and associated laboratory work will complement these lectures. The multidisciplinary character of marine biology and oceanography will be stressed. Fundamental principles in all disciplines are discussed. Prerequisites: BIO 180 and 181.

BIO 232 - Social Problems in Biology (3) (RLA)
3 hours; 3 credits. A course exploring the application of biology to crucial issues in the world today: drugs, pollution, overpopulation, birth control, abortion, the right to die, test-tube babies, genetic engineering, the rebuilding of humans, and the conquest of diseases. May not be used to satisfy the major requirements for the BS in Biology. Prerequisites: BIO 102 or BIO 170 and 171 or BIO 106 and 107.

BIO 240 - The Biology of Disease (4) (RLA)
4 hours; 4 credits. Biological aspects of the major diseases of humans, including heart disease, cancer, autoimmune diseases such as arthritis and multiple sclerosis; hereditary diseases such as sickle cell anemia and hemophilia; and bacterial and viral diseases such as tuberculosis, colds, and influenza. Principles of immunology, chemotherapy, and genetic engineering are among the major concepts that will be studied. Prerequisites: (BIO 180 and 181) or BIO 160.

BIO 242 - History of Biology (3) (RLA)
3 hours; 3 credits. A survey of the historical development of some of the major biological concepts including an examination of the life and times of various biologists and the factors that influenced their work. Original scientific research papers will be read. May not be used to satisfy the
major requirements for the BS in Biology. Prerequisites: BIO 180 and 181.

**BIO 272 - Biometrics (4) (RLA)**
4 hours; 4 credits. A course for science majors emphasizing applications of statistics to problems in experimental biology, field biology, and environmental science. It covers descriptive statistics, probability and probability distributions, confidence intervals, hypothesis testing, and design of experiments. The following techniques are included: goodness of fit tests, t-tests, analysis of variance, correlation and regression, time series analysis, and nonparametric methods. Prerequisites: BIO 160 or BIO 180 and 181) and (MTH 123 or MTH 130).

**BIO 312 - Genetics (4) (RLA)**
3 class hours, 3 laboratory hours; 4 credits. A study of the mechanics and molecular basis of inheritance. The lectures will cover patterns of inheritance, structure and function of nucleic acids, recombinant DNA, bacterial genetics, and population genetics. Laboratory exercises will include studying patterns of inheritance with Drosophila melanogaster and techniques related to recombinant DNA work. Required of Biology majors. Prerequisites: BIO 205 and CHM 142 and CHM 127.

**BIO 314 - General Microbiology (4) (RLA)**
3 class hours, 3 laboratory hours; 4 credits. Topics will include immunology, biotechnology, and the metabolism, genetics, morphology, and growth of microorganisms. Required of Medical Technology majors. Prerequisites: BIO 160 or BIO 180, BIO 181, and CHM 141.

**BIO 316 - Clinical Microbiology (4) (RNL)**
2 class hours, 4 laboratory hours; 4 credits. Medical and diagnostic microbiology: a study of host microbe interactions, the principles and applications of the immune response, the epidemiology of infectious disease, and the pathogenesis of the major microbial diseases. In the laboratory the procedures used in laboratory diagnosis are applied. Required of Medical Technology majors. A non-liberal arts and sciences course, not credited toward the Biology major. Prerequisite: BIO 314.

**BIO 318 - Histology (4) (RLA)**
2 class hours, 4 laboratory hours; 4 credits. A study of the microscopic structure of mammalian cells, tissues, and organs with emphasis on functional correlations. Laboratory sessions include technical procedures for fixing, sectioning, staining, and mounting tissue specimens, and examination of prepared microscopic slides of human/mammalian tissues and organs. Prerequisite: BIO 160 or BIO 205.

**BIO 322 - Evolution (4) (RLA)**
4 hours; 4 credits. The principles of the neo-Darwin theory of evolution; the origin and evolution of life; mechanisms of evolution and the roles of genetic variation, natural selection, isolation, and chance; species concepts and speciation; phylogeny; the tempo and mode of evolution; molecular evolution; the impact of genomics on evolutionary relationships; and an introduction to the use of pertinent scientific literature. Prerequisite: BIO 312.

**BIO 324 - Developmental Biology (4) (RLA)**
3 class hours, 3 laboratory hours; 4 credits. Early development of representative organisms, including fertilization, cleavage, origin of germ layers, and organ systems; biochemical events during differentiation. Prerequisites: BIO 180 and 181; CHM 142. Pre- or corequisite: BIO 205.

**BIO 325 - Diagnostic Molecular Biology (4) (RLA)**
(Also MDT 325). 3 class hours, 3 laboratory hours; 4 credits. This course will address the theoretical and practical framework for the understanding and application of molecular biology techniques in the clinical laboratory. The course material will cover the principles and applications of recombinant DNA technology including DNA-DNA hybridization, DNA amplification, and nonradioactive in situ hybridization (HISH) for the detection and identification of microorganisms associated with infectious diseases. Prerequisites: BIO 314, CHM 142.

Crosslisted as: MDT 325.

**BIO 326 - Introduction to Bioinformatics and Genomics (4) (RLA)**
3 class hours, 3 laboratory hours; 4 credits. Introduction to the representation and analysis of biological sequence and structural information. Description and use of nucleic acid, protein, structure, sequence motif, genome, literature, and other relevant databases. Overview and discussion of basic sequence manipulations and analyses including sequence assembly and editing, restriction and protease analysis, coding region identification, gene prediction, database searching and similarity analysis, pairwise and multiple sequence alignment, PCR primer design, phylogenetic analyses, protein structure and property prediction, RNA structure prediction, microarray analyses, etc. Laboratory includes demonstrations and practical exercises illustrating the analyses and concepts presented and discussed in lecture. Recommended: BIO 312, BIO 370, BIO 352 or the equivalent. Prerequisite BIO 327.

**BIO 332 - Advanced Physiology (4) (RLA)**
4 hours; 4 credits. An in-depth study of representative physiological mechanisms at the molecular and cellular levels of organization. Course topics include the function of
biological macromolecules, bioenergetics and metabolism, cell surface dynamics, functional microanatomy of neurons, neural information transfer and integration, organization of reflexes, hormones and other bioactive chemical messengers, renal regulation of the internal environment. Prerequisite: BIO 205, BIO 206 with a minimum grade of C.

BIO 335 - Gene Regulatory Systems (4) (RLA)
4 hours; 4 credits. This course explores the structure, function and evolution of gene regulatory systems, with particular emphasis in transcriptional and developmental gene regulatory networks. The computer lab component includes the use of genomic tools that facilitate the study of gene regulatory networks. Prerequisite: BIO 312

BIO 338 - Behavioral Biology (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. This course will cover the areas of animal behavior, neurophysiology, sensory physiology, and neuroendocrinology to provide an integrated point of view of the biological basis of behavior. Prerequisites: BIO 205 and CHM 142.

BIO 342 - Advanced Human Anatomy (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. In-depth study of the human body with emphasis on the neuromuscular system. Examines structural interrelationships as a basis for normal functions. Directed laboratory experiences with cadaver dissection and skeletal materials and models. Prerequisites: BIO 160 and acceptance into the Physical Therapy or Physician Assistant Programs or permission of the appropriate program coordinator.

BIO 346 - General Virology (3) (RLA)
3 hours; 3 credits. Study of major groups of viruses and includes structural and biochemical characteristics, cell-virus interactions, and viral diseases. Prerequisite: BIO 314.

BIO 350 - Microbiology and Cellular Pathology (3) (RLA)
3 hours; 3 credits. A one-semester course that surveys the major groups of microorganisms with emphasis on those involved in human health problems. The principles of immunity and hypersensitivity, microbial control, and the principal microbial diseases are discussed. Not credited toward the Biology major. Prerequisite: BIO 160. Corequisite: BIO 351.

BIO 351 - Microbiology and Cellular Pathology Laboratory (1) (RLA)
3 laboratory hours; 1 credit. Laboratory exercises correlated with topics covered in BIO 350. Prerequisite: BIO 160. Corequisite: BIO 350.

BIO 352 - Cell Biology (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. The eukaryotic cell is treated as a highly compartmentalized functional unit. Emphasis on cell cycle, DNA and chromosomal organization and functions, replication, transcription and translation, also organization and functional interrelationship of surface and internal membrane systems, exo/endocytosis and cytoskeleton. The lab component deals with selected topics illustrating key cell biology concepts. Required for Biology majors. Prerequisites: BIO 205 and CHM 142. Corequisite: CHM 250.

BIO 360 - Ecology (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. How interactions between organisms, and between organisms and the physical environment bring about adaptations in response to natural selection, and change in species diversity through evolutionary time. Population genetics, growth, and demography; competition; predation; and community and ecosystem structure and function are other major areas covered. Principles of ecology will be emphasized in laboratory work and in field studies of various natural habitats. Required for Biology majors. It is recommended that students take BIO 215 or BIO 228 prior to taking this course. Prerequisite: BIO 312.

BIO 365 - Principles of Neurobiology (4) (RNL)
3 class hours, 3 laboratory hours; 4 credits. A study of basic mechanisms regulating activity of nerve cells including mechanisms of memory and brain disorders. Laboratory exercises include electrophysiological recordings of neuronal activity in vitro and biochemical characterization of components of the nervous tissue. Prerequisites: BIO 180 and BIO 181, or BIO 160. Corequisite: CHM 250.

BIO 368 - Neuroscience (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. Examines the structure and function of the central nervous system and sensory receptors. Includes laboratory sessions on the dissection of the human brain, examination of sections of the spinal cord and brain stem, and experiments with functions of the nervous system. Prerequisites: BIO 332, BIO 342, PHT 200.

BIO 370 - Biochemistry I (4) (RLA)
(Also CHM 370). 4 hours; 4 credits. The major constituents of cells: physical and chemical properties of carbohydrates, lipids, proteins, and nucleic acids. Properties of enzymes including specificity and kinetics. Prerequisite: CHM 256. Pre- or corequisites: PHY 110 and 111 or PHY 116, or PHY 120 and 121.
Corequisite: CHM 370.
BIO 372 - Cell Biochemistry (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. Chemical approaches to cell function: bioenergetics, cell replication, control of biosynthetic processes, and metabolism. Use of analytic methods to study the properties of cells and subcellular components. Prerequisites: BIO 205, CHM 256.

BIO 376 - Biochemistry II (4) (RLA)
(Also CHM 376). 4 hours; 4 credits. Intermediary metabolism, metabolism of carbohydrates, lipids, amino acids, and nucleotides. Introduction to bioenergetics and biochemical genetics. Prerequisite: BIO 370/CHM 370. Pre- or corequisites: PHY 150 and PHY 151 or PHY 156 or PHY 160 and PHY 161.

BIO 378 - Radiation Biology (4) (RLA)
4 hours; 4 credits. The biological effects of chronic and acute exposure to ionizing and non-ionizing radiation. The mechanisms underlying the events occurring during and after the interaction between macromolecules, isolated cells, organs, and entire organisms with irradiation. The effects of radiation at all levels of biological organization, and the biological basis for radiation safety practices are discussed. Prerequisite: BIO 205. Pre- or corequisites: PHY 150 and 151 or PHY 156 or PHY 160 and 161.

BIO 415 - Mathematical Biology (4) (RLA)
(Also MTH 415). 4 hours; 4 credits. This course will address the growing interaction between mathematics and the biological sciences and will provide a practical context for the mathematical description and analysis of biological processes. The emphasis will be on the construction and analysis of models consistent with empirical data. Biological problems in ecology and conservation, epidemiology, cell biology, and neuroscience will be used to illustrate the equations, including especially nonlinear equations. The computer program MATLAB will be used extensively. Prerequisites: MTH 230 and MTH 231 or equivalent; MTH 229, and one BIO 300-level course. Crosslisted as: MTH 415.

BIO 420 - Comparative Endocrinology (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. Role of major endocrine glands (including neuroendocrines) in cell function and metabolic pathways. Emphasis upon phylogeny and comparative physiology of the endocrine system. Pertinent methodology will be treated. Prerequisites: BIO 205, CHM 256, and one additional physiology course.

BIO 424 - Molecular Biology and Biotechnology Laboratory (3) (RNL)
6 laboratory hours; 3 credits. Methods in the cloning, expression, isolation, and analysis of nucleic acids (RNA and DNA) and recombinant proteins; introduction to computer methods and analysis in biotechnology; DNA sequencing and sequence analysis; experimental approaches for the analysis of regulation of gene expression including transfection, report analysis, etc. Recommended students take BIO 312, BIO 370, or BIO 352 prior to this course. Prerequisites: BIO 205, CHM 142, and CHM 127. Pre- or corequisite: BIO 327.

BIO 425 - Computational Molecular Biology (3) (RNL)
3 hours; 3 credits. Overview of theoretical and computational methods in bioinformatics with an emphasis on the application of algorithms and use of statistical methods in nucleic acid and protein sequence analysis. Emphasis on the mathematical basis of sequence alignment including database searches using Smith-Waterman dynamic programming, pair-wise sequence alignment using dynamic programming and scoring matrices, and multiple sequence alignment using hidden Markov model and genetic algorithms. Prerequisites: BIO 326 and (BIO 272 or MTH 214) and (MTH 230 or MTH 231 or MTH 235).

BIO 428 - Plant Physiology (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. Examination of the basic physiological processes common to all vascular plants. Topics covered include cell structure and function, water transport, transpiration, photosynthesis, solute translocation, nutrient uptake, mineral nutrition, phytohormones, plant tropisms, growth, development, and reproduction. Laboratory exercises will include plant cells, water relations, tissue culture, photosynthesis, phytohormones, reproduction, competition, and symbiosis. Prerequisite: BIO 205 or BIO 228. Pre- or corequisite: CHM 250.

BIO 432 - Clinical Pathology (3) (RLA)
3 hours; 3 credits. Study of the disease processes and their clinical manifestations beginning with the cellular and tissue levels leading to the organ level. Surveys medical conditions and their management as they relate to physical therapy practice. Areas include cardiology, orthopedics,
autoimmune system, epidemiology. Prerequisites: BIO 342, BIO 332. Corequisite: BIO 318.

**BIO 434 - Comparative Physiology (4) (RLA)**

4 hours; 4 credits. The study of the maintenance of internal homeostasis in different animal groups. Emphasis will be placed upon the phylogeny of the processes of regulation and integration. Prerequisites: BIO 205 and (BIO 213 or BIO 215). Corequisite: CHM 250.

**BIO 442 - Immunology (4) (RLA)**

2 lecture hours, 4 laboratory hours; 4 credits. An introduction to immunology, with attention to the formation and nature of antibodies, the nature of antigens, and problems of antigen-antibody interactions. Such subjects as antibody-mediated hypersensitivity and histocompatibility are also considered. Prerequisite: BIO 314 or 350.

**BIO 443 - Scanning Electron Microscopy and X-ray Microanalysis (4) (RLA)**

(Also CHM 443). 2 hours lecture, 4 hours laboratory; 4 credits. A course to familiarize undergraduate students with the principles and practices of scanning electron microscopy and x-ray microanalyses. The course content will focus on the SEM and its modes of operation, electron beam-specimen interactions, image formation, generation of x-rays, x-ray spectral measurement, and qualitative and quantitative x-ray analyses. The lecture will present the historical and theoretical backgrounds to these integrated topics, and the laboratory will provide hands-on experiences for biological, materials, and polymer samples. The designed experiments will allow students to apply the techniques learned in class to realistic systems, and the laboratory reports will help students develop the skill in scientific and technical writing. This course is directed toward advanced biology/chemistry students. Prerequisites: Permission of instructor. Crosslisted as: CHM 443.

**BIO 450 - Experimental Methods in Animal Physiology (3) (RLA)**

6 laboratory hours; 3 credits. Procedures and instrumentation used in testing physiological phenomena. Some of the areas explored are muscle contraction, nerve responses, renal function, active transport, and basal metabolism. Prerequisites: BIO 205, CHM 250. Pre- or corequisite: CHM 256.

**BIO 452 - Experimental Methods in Behavioral Biology (3) (RLA)**

6 laboratory hours; 3 credits. Emphasis will be placed on the laboratory analysis of factors that influence the behavior of animals in the laboratory and field. Field trips will be required. Prerequisites: BIO 338 and (BIO 272 or MTH 214).

**BIO 454 - Advanced Methods in Cell Biology (3) (RLA)**

6 laboratory hours; 3 credits. Current procedures for the microscopic study of tissues and cells. Advanced histological procedures involving paraffin embedding, sectioning, and staining with selected reactions will be used to study normal and experimentally modified tissues. Autoradiography and enzyme histochemistry will also be examined. Prerequisites: BIO 352 and CHM 142.

**BIO 456 - Experimental Methods in Ecology (3) (RLA)**

6 laboratory hours; 3 credits. Introduction to natural communities. Emphasis on quantitative methods for community and ecosystem analysis. Field trips to be arranged. Prerequisites: BIO 360 and (BIO 272 or MTH 214).

**BIO 458 - Experimental Methods in Cell Biochemistry (3) (RLA)**

6 laboratory hours; 3 credits. The course consists of the application of modern analytical methods to the study of the properties of cells and subcellular components. Emphasis will be placed on the mastering of laboratory techniques. Not credited toward the biochemistry major. Prerequisite: BIO 370 or 372.

**BIO 460 - Experimental Methods in Advanced Genetics (3) (RLA)**

6 laboratory hours; 3 credits. Current procedures in basic recombinant DNA techniques will be utilized including DNA isolation, restriction digestion, ligation, and analysis of recombinant products. Prerequisite: BIO 312.

**BIO 594 - Biology Ind Study (4) (RLA)**

Biology Ind Study

**BUS - Business**

**BUS 100 - Introduction to Business (3) (RLN)**

3 hours; 3 credits. The role of business is examined in relation to the environment, government, and society with the emphasis on decision making. An investigation is made of the major aspects of business practice including accounting, finance, management, marketing, data processing, and international business.

**BUS 102 - Entrepreneurship (3) (RLN)**

3 hours; 3 credits. An in-depth examination of the requirements, process, and possible outcomes of starting a small business. Students participate in computer simulation in which they propose, design, and launch a new business. Topics include market selection, product/service design,
financing, marketing, organizing, and staffing a startup business. Prerequisite: Successful completion of the CUNY Assessment Tests in Writing, Reading, and Math or the equivalent.

**BUS 135 - Introduction to Information Systems (3) (RNL)**

(Also CSC 135). 2 lecture hours, 2 laboratory hours; 3 credits. A hands-on laboratory course in the effective use of technology tools for problem solving. Students will understand how copyright laws apply to software and the need to acknowledge material from outside sources, including online material and the work of others. Corequisite: CSC 126.

Crosslisted as: CSC 135.

**BUS 140 - Business Communications (3) (RNL)**

3 hours; 3 credits. Composition of effective business correspondence: credit and collection letters, request and response letters, job applications, résumés, and reports. Detailed attention is given to the principles of grammar, spelling, punctuation, and form as they apply to contemporary business writing.

**BUS 150 - Essential Software Tools for Business (3) (RNL)**

4 hours; 3 credits. This course is a hands-on introduction to the use of microcomputers in business. The emphasis will be on the operating system and practical use of the most popular application software including spreadsheets, word processing, and database management. Data exchange among different applications and usage of external databases will also be introduced. Not open to students who have successfully completed CSC 102. Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Note: Students can obtain both exemption from and course credit for BUS 150 by successfully completing four Microsoft Office Specialist (MOS) exams, Versions 2002 or later, in Word, Excel, PowerPoint, and Access. For information on MOS test standards and administration, see Microsoft Office Specialist Certification Requirements at www.Microsoft.com.

**BUS 160 - Business Law I (3) (RNL)**

3 hours; 3 credits. An introduction to law and its relationship to business and the American legal system. The study of the law of contracts, agency, personal property, bailments, real property, mortgages, fire and casualty insurance, and accountant's legal liability. Prerequisites: ENG 111 and successful completion of the CUNY Assessment Test in Math or the equivalent.

**BUS 200 - Introduction to International Business (4) (RNL)**

4 hours; 4 credits. An examination of international business in relation to technological, competitive, economic, legal, social, and cultural factors. Introduction to the use of the Internet to develop the latest information for course assignments. Major areas of analysis include the evolution of international business, the ongoing development of opportunities in international business, the growth in global e-commerce, and the responses of multinational firms to these opportunities. Introduction to international aspects of the traditional business functions of marketing, finance, management, and accounting. Pre- or corequisites: ECO 101 or ECO 112 and MGT 110 or MKT 111.

**BUS 210 - Government Policy and Multinational Enterprises (4) (RNL)**

4 hours; 4 credits. This course examines the major issues affecting relations between multinational enterprises (MNEs) and home and host governments. Students will be exposed to the processes by which conflicting interests are resolved. The impact of international controls on MNEs by the United Nations (UN), Organization for Economic Cooperation and Development (OECD), and the European Economic Community (EEC) will be examined in detail. (Offered only at the American University of Rome.). Prerequisite: MGT 110 or BUS 100 and POL 100 or POL 240.

**BUS 211 - Communications in a Corporate Setting (3) (RLA)**

(Also COM 211). 4 hours; 3 credits. An introduction to types of communication in business settings. These will include oral communication (with presentations) and written communication both within the organization as well as to external recipients (such as investors, government agencies, and the community). Data communication both for internal needs and for external needs will be covered. Security for all types of communication will be discussed. This course will help students to master effective professional communication through skills development and applications in diverse organizational contexts. Prerequisites: ENG 151 and one of the following: BUS 150, BUS 215, BUS 250 or CSC 102.

Crosslisted as: COM 211.

**BUS 215 - Information Management (4) (RLA)**

4 hours; 4 credits. An introduction to the use and application of Business Information Systems and Technology. It examines how information technologies support business functions, satisfy management needs, and promote collaboration. Students analyze and develop methods of information technology management for organizational effectiveness, strategic advantage, and value creation for
different types of organizations. They discuss the impact of information technology on individuals, organizations, and society. Prerequisites: MGT 110.

**BUS 230 - Quantitative Analysis of Business and Economic Problems (3) (RNL)**

(Also ECO 231). 3 hours; 3 credits. The application of mathematical techniques to business and economic problems. An introduction to operations research, linear programming, PERT, and related materials. Prerequisites: MGT 110 and MGT 230.

Crosslisted as: ECO 231.

**BUS 238 - Ethical Issues in Business and Society (4) (RLA)**

(also PHL 238). 4 hours; 4 credits. Critical examination of economic and social responsibility of business in the U.S. and around the world; exploration of the appropriate scope of ethical involvement from the points of view of management and society; the limitations of responsibility and the establishment of ethical criteria for the evaluation of business performance; the role of public policy in shaping corporate responsibility; consideration of ethical issues arising from the changing nature and implementation of computer and information technology. Prerequisites: ENG 111; PHL 101 or PHL 130 or MGT 110 or sophomore standing.

Crosslisted as: PHL 238.

**BUS 250 - Computers in Information Processing (3) (RNL)**

2 class hours, 2 laboratory hours; 3 credits. A business-oriented approach to the use of computers in the management of information systems. Study of hardware and software concepts as they relate to solving problems and making decisions in business organizations. Use of advanced software options and applications. The laboratory component will involve projects utilizing widely used office productivity software available on microcomputers including spreadsheets, databases, presentations, and other software. Prerequisites: ACC 114 and BUS 150, BUS 215, CSC 102 or passing score on a departmental placement test demonstrating basic proficiency in Windows, word processing, spreadsheets, databases, data presentations, and computer concepts.

**BUS 260 - Business Law II (3) (RNL)**

3 hours; 3 credits. The study of the Law of Sales, commercial paper (negotiable instruments), documents of title, and partnership. The lecture and case study methods will be employed. Prerequisite: BUS 160.

**BUS 310 - International Trade (4) (RNL)**

4 hours; 4 credits. This course presents an integrated treatment of theory, policy, and enterprise in international trade and investment. The course is directed toward the acquisition of knowledge and understanding of these subjects. Among the topics to be investigated are: foreign exchange rates, balance of payments, tariff and non-tariff trade barriers. (Offered only at the American University of Rome).

**BUS 360 - Business Law III (3) (RNL)**

3 hours; 3 credits. The study of the law of corporations, estates, trusts and wills, regulation of employment, and securities regulations (Federal Securities Acts) will be covered in depth. Trade regulation, consumer protection, constitutional law, administrative law, criminal law, intentional torts, negligence, and strict liability will be discussed. The lecture and case study methods will be employed. Prerequisite: BUS 260.

**BUS 405 - Applied Concepts in Information Systems (4) (RNL)**

(Also CSC 405). 3 lecture hours, 3 laboratory hours; 4 credits. Examination of applied concepts in information systems. Theory and methodology for the design, development, and implementation of large-scale reliable business software projects, and tools and techniques for managing business software projects will be discussed. Presentations and GUI interfaces will be emphasized. Prerequisites: CSC 326 and BUS 352.

Crosslisted as: CSC 405.

**BUS 410 - Media Administration (4) (RNL)**

(Also COM 410). 4 hours; 4 credits. A course dealing with the skills and concepts necessary for the competent management of a media production department. Topics include production planning and control, cost analysis procedures, contract and copyright law in relation to the media, and organization theory. Prerequisite: COM 150, and COM 261 or COM 270 or CIN 111.

Crosslisted as: COM 410.

**BUS 415 - Global Strategy and Decision Making (4) (RNL)**

4 hours; 4 credits. This advanced course builds on lower level Business courses and is recommended for all students enrolled in the Business degree with a concentration in International Business. Students will have the opportunity to integrate earlier learning in the concentration to analyze business problems, develop strategies and policies and make specific business decisions. Students will choose a market and product and develop a full global business plan taking into account global and country macro and micro factors,
ethical and cultural considerations, trade theory and knowledge from all functional areas. Prerequisite: BUS 200 or ECO 250. Pre- or corequisite: FNC 300/ECO 370

BUS 420 - Global Business Seminar: Doing Business Abroad (3) (RNL)

45 hours; 3 credits. International business is examined first-hand on site in a chosen country. This course is designed to combine a review of a particular country's economy using a cultural and historical perspective. Students will be exposed to the culture and history as well as the most important business functions in this particular country. Prerequisites: Completion of pre-major requirements for Accounting or Business; minimum 3.0 GPA.

BUS 598 - Business Internship (4) (RNL)

Internships are experiences in a work situation that integrate an academic area of study with work experience. Courses designated Internships are individual, non-classroom, extended learning projects. They require an on-site supervisor as well as a full-time faculty member as project sponsor. Internships require a daily log of activities, an assigned reading list or preparation of a relevant bibliography, and a final paper that summarizes the way in which goals were achieved and demonstrates the relationship of academic material to the work done during the internship. Internship courses are considered non-liberal arts and sciences. Internship students may not receive credit for paid employment unless they demonstrate the relationship of an appropriate body of academic material to the work required in their employment. The policy on individual Internship projects does not govern the regularly established professional internships (e.g., medical technology, communications).

CHM - Chemistry

CHM 100 - Introduction to Chemistry (3) (RLA)

3 lecture hours, 1 recitation hour; 3 credits. Course material includes matter and energy, atoms and molecules, the periodic table, nomenclature, equations, mole concept, stoichiometry, solutions. Prerequisite: MTH 025 or MTH 030. Corequisite: CHM 101. Note: This course is intended for those students who have had no previous chemistry and for those returning to the subject after some years. The course is designed to prepare students for entry into CHM 141.

CHM 101 - Introduction to Chemistry Laboratory (1) (RLA)

2 hours; 1 credit. A laboratory course emphasizing basic chemical laboratory techniques. The experiments provide illustrations of concepts discussed in CHM 100. Use of computer software for laboratory data analysis and computer-assisted instruction. Corequisite: CHM 100.

CHM 104 - Chemistry in a Nutshell (3) (RLPR)

3 hours; 3 credits. This combined lecture and laboratory course will introduce students to basic chemical concepts including atomic theory, the nature of molecules, chemical formulae and equations, bonding, gas laws, nuclear chemistry, oxidation-reduction, and acids and bases. Laboratory classes will accompany the lecture topics to illustrate the various topics introduced in the lecture. (science) (RLPR). Prerequisite: MTH 020

CHM 106 - Chemistry for Today I (3) (RLPR)

3 hours; 3 credits. Basic chemical concepts including atomic theory, the nature of molecules, chemical formulae and equations, bonding, gas laws, nuclear chemistry, oxidation-reduction, and acids and bases. (scientific analysis) (RLPR). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: CHM 107.

CHM 107 - Chemistry for Today I Laboratory (1) (RLA)

2 laboratory hours; 1 credit. Laboratory experiences illustrating principles and topics discussed in CHM 106. (scientific analysis). Pre- or corequisite: CHM 106.

CHM 108 - Chemistry for Today II (3) (RLA)

3 hours; 3 credits. A continuation of Chemistry 106. Topics will be chosen from among the following: fossil fuels and pollution, humankind's effect on the environment, food additives, household chemicals, the chemistry of drugs and the human mind, farm chemistry, and plastics. (science). Prerequisite: CHM 106. Corequisite: CHM 109.

CHM 109 - Chemistry for Today II Laboratory (1) (RLA)

2 laboratory hours; 1 credit. Laboratory experiences illustrating principles and topics discussed in CHM 108. (scientific analysis). Pre- or corequisite: CHM 108.

CHM 110 - Principles of Chemistry I (3) (RLPR)

3 hours; 3 credits. Modern concepts of the atom and chemical bonding, chemical calculations, states of matter, chemistry of water, purification of water, types of solutions, acids and bases, nuclear chemistry, and radioactivity. The concepts necessary for an understanding of our technological society are developed. (science). (RLPR) (STEM). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Examination Test. Corequisite: CHM 111.

CHM 111 - Principles of Chemistry I Laboratory (1) (RLA)

2 laboratory hours; 1 credit. Experiments illustrating principles studied in CHM 110. (scientific analysis).
(STEM). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: CHM 110.

**CHM 116 - Principles of Chemistry II (3) (FSWR)**
3 hours; 3 credits. Chemistry and biochemistry of carbon compounds. A study of the nomenclature, structure, properties, and reactions of organic and biochemical compounds. A number of special topics are discussed, some of which are the petroleum industry, giant molecules (synthetic and biopolymers), environmental chemistry, drugs, and oral contraceptives. (science). (FSWR) (STEM). Prerequisite: CHM 110 and 111 or permission of the instructor. Corequisite: CHM 117.

**CHM 117 - Principles of Chemistry II Laboratory (1) (RLA)**
2 laboratory hours; 1 credit. Laboratory experiments concerned with the synthesis, isolation, and purification and analysis of a variety of organic and biochemical compounds of the types considered in CHM 116. (scientific analysis). (STEM). Prerequisites: CHM 110 and CHM 111. Corequisite: CHM 116.

**CHM 121 - General Chemistry I Laboratory (1) (RLA)**
3 laboratory hours; 1 credit. Experiments reinforce important chemical concepts discussed in lectures, teach modern lab techniques, and emphasize present day interpretations of lab measurements. (scientific analysis) (STEM). Prerequisite: CHM 121.

**CHM 127 - General Chemistry II Laboratory (1) (RLA)**
3 laboratory hours; 1 credit. A continuation of CHM 121. Inorganic qualitative analysis. (scientific analysis) (STEM). Prerequisite: CHM 121.

**CHM 141 - General Chemistry I (3) (RLPR)**
3 lecture hours, 1 recitation hour; 3 credits. A study of the fundamental principles and laws concerning the structure and behavior of matter. The first semester covers atomic and molecular structure, chemical bonding, reactions, stoichiometry, and the gaseous, liquid, and solid states of matter. Note: Students are advised that satisfactory completion of one year of high school chemistry or a college-level introductory chemistry course is essential preparation for this course. (science). (RLPR) (STEM). Prerequisite: One year of high school Chemistry or CHM 100. Pre- or corequisite: MTH 123. Corequisite: CHM 121.

**CHM 142 - General Chemistry II (3) (FSWR)**

**CHM 240 - Analytical Chemistry (4) (FSWR)**
4 class hours, 4 laboratory hours; 4 credits. A study of the quantitative aspects of chemical changes, chemical equilibria, the stoichiometry and energetics of chemical reactions. Theory and laboratory in volumetric, optometric, electrostatic, and kinetic methods of chemical analysis. An introduction to instrumental methods of analysis. (RLPR) (STEM). Prerequisites: CHM 142 and 127.

**CHM 250 - Organic Chemistry I (4) (FSWR)**
3 class hours, 4 laboratory hours; 4 credits. The structure and properties of organic compounds are examined. Emphasis is given to reactions and synthesis of aliphatic and aromatic molecules. Stereochemistry and organic reaction mechanisms are introduced and thoroughly discussed. (RLPR) (STEM). Prerequisites: CHM 142 and CHM 127.

**CHM 256 - Organic Chemistry II (4) (RLA)**
3 class hours, 4 laboratory hours; 4 credits. A continuation of CHM 250 with an emphasis on functional group chemistry and bioorganic chemistry. By the end of the two- semester sequence IR and NMR analysis are discussed in detail in conjunction with classical methods of structural determination. (RLPR) (STEM). Prerequisite: CHM 127.

**CHM 290 - Introduction to Undergraduate Research in Chemistry (2) (RNL)**
2 hours; 2 credits. An introduction to the design and execution of original research in chemistry. This seminar course provides a framework to guide the laboratory activities of students who are beginning Independent Study courses with departmental faculty members, including ethics, safety, searching of the literature, planning of experiments, recording and interpretation of data, and presentation of results in oral, poster, and written formats. Prerequisites: CHM 142 and 127. Pre- or corequisite: CHM 592.

**CHM 313 - Computational Physics (4) (RLA)**
(Also PHY 313). 4 hours; 4 credits. This upper division course is aimed to provide training in computational modeling, data analysis and computational thinking to well-motivated undergraduates in physics, chemistry/biochemistry, engineering and math. In addition, students will be given assignments/projects, which will be completed using the HPC facility. Note: Students may request permission of instructor in order to enroll. Prerequisite: PHY 240 and (MTH 311 or MTH 331). Crosslisted as: PHY 313.
CHM 330 - Physical Chemistry: Equilibria (4) (RLA)
4 hours; 4 credits. Chemical thermodynamics and its application to phase and chemical equilibria. Prerequisite: MTH 233 or MTH 236, PHY 160, CHM 240.

CHM 336 - Physical Chemistry: Processes (4) (RLA)
4 hours; 4 credits. Kinetic theory and transport processes, introductory quantum and statistical chemistry, atomic and molecular spectroscopy, and chemical kinetics. Prerequisite: MTH 233 or MTH 236, PHY 160, CHM 240.

CHM 337 - Experimental Methods in Physical Chemistry (4) (RLA)
8 hours; 4 credits. Introduction to techniques of physical measurement applied to chemical systems. Vacuum and gas handling techniques, optico-chemical methods, transport and electrochemical processes. Corequisite: CHM 330 or CHM 336.

CHM 340 - Instrumental Methods of Chemical Analysis (4) (RLA)
2 class hours, 4 laboratory hours; 4 credits. Fundamental considerations underlying the theory and design of instrumental methods and procedures of analysis. General treatment of the operating characteristics of instruments. A consideration of ultraviolet-visible, infrared, nuclear magnetic, and electron spin resonance spectroscopy; column and gas chromatography; flame photometry; atomic absorption; polarography; fluorimetry; radiochemical and thermal analysis; electrophoresis; and other analytical methods. Basic instrumentation electronics, including operational amplifiers, triodes, transistors, and transducers. Prerequisites: CHM 142 and CHM 127, CHM 240.

CHM 350 - Advanced Organic Chemistry (4) (RLA)
4 hours; 4 credits. An introduction to the theory of bonding and structure; acids and bases; an introduction to physical organic chemical concepts and the application of these, together with stereochmical concepts, to the study of reaction mechanisms. Prerequisite: CHM 256. Corequisite: CHM 330 or CHM 336.

CHM 360 - Inorganic Chemistry (4) (RLA)
3 lecture hours, 3 laboratory hours; 4 credits. The course covers general bonding theories of inorganic compounds, symmetry elements and point groups, acid-base properties, coordination chemistry and reaction mechanism, organometallic chemistry, and an introduction to bioinorganic chemistry. Prerequisite: CHM 240. Pre- or corequisites: CHM 330 or CHM 336 or CHM 340.

CHM 370 - Biochemistry I (4) (RLA)
(Also BIO 370). 4 hours; 4 credits. Biochemistry and the living state. Regulation of energy-yielding and energy-requiring reactions in cells. Molecular components of cells, enzyme mechanisms, bioenergetics, and an introduction to biosynthetic principles. Prerequisite: CHM 256. Pre or Corequisite: PHY 110 and PHY 111 or PHY 116 or PHY 120 and PHY 121.

CHM 376 - Biochemistry II (4) (RLA)
(Also BIO 376). 4 hours; 4 credits. Respiration, photosynthesis, membrane structure and transport, biosynthesis of macromolecules, biochemical genetics, and the regulation of metabolic activity in mammals. Prerequisite: CHM 370 or BIO 370. Pre or Corequisite: PHY 150 and 151 or PHY 160 and 161 or PHY 156.

CHM 377 - Experimental Biochemistry (4) (RLA)
8 laboratory hours; 4 credits. Through a study of a commonly occurring genetic defect, this course introduces students to biochemical concepts and techniques used in current research. Techniques used include protein purification, enzymology, Western blotting, RNA isolation, DNA isolation, PCR-amplification of mutated regions of genes, cloning of PCR products into vectors, culturing of mammalian brain cells, immunocytochemistry, and retrieving and processing of genetic information using various databases and software packages. Prerequisite: CHM 240 or BIO 312 or BIO 352. Pre- or corequisite: CHM 370/BIO 370.

CHM 442 - Spectroscopy: Theory and Applications (4) (RLA)
4 hours; 4 credits. Theory and applications of molecular spectroscopy in gases and condensed phases, including rotation, vibration, electronic, and magnetic resonance techniques. Applications to structural problems in biochemistry and polymer chemistry. Pre- or corequisite: CHM 330 or 336.

CHM 443 - Scanning Electron Microscopy and X-ray Microanalysis (4) (RNL)
(Also BIO 443) 2 lecture hours, 4 laboratory hours; 4 credits. A course to familiarize undergraduate students with the principles and practices of scanning electron microscopy and x-ray microanalyses. The course content will focus on the SEM and its modes of operation, electron beam-specimen interactions, image formation, generation of x-rays, x-ray spectral measurement and qualitative and quantitative x-ray analyses. The lecture will present the historical and theoretical backgrounds to these integrated topics, and the laboratory will provide hands-on experiences for biological, materials, and polymer samples. The designed experiments will allow students to apply the techniques learned in class to realistic systems, and the
laboratory reports will help students develop the skill in scientific and technical writing. This course is directed toward advanced biology/chemistry students. Prerequisite: Permission of instructor

Crosslisted as: BIO 443.

CHM 452 - Polymer Chemistry (4) (RLA)

CHM 594 - Independent Study for Honors Research (4) (RLA)
4 credits. Intended for undergraduates including chemistry and biochemistry majors who are conducting independent study the guidance of a faculty mentor. At the end of the semester the student will submit a detailed written report in an ACS-journal style, documenting the results of the project, to the faculty mentor and the department head. Prerequisites: CHM 240 or CHM 250.

CHN - Chinese

CHN 101 - Conversational Mandarin Chinese I (2) (RLA)
2 hours; 2 credits. This course is for those students interested in learning how to speak Mandarin Chinese to meet their educational and personal goals, or to address special needs in learning Mandarin. The course will focus on training the students oral communicational skills through selected real-life situations and topics. The course will also introduce the phonetic system of Pinyin, some conversational skills, and sentence patterns. Cantonese or other dialect speakers can also use the course to practice the official Mandarin pronunciation and oral language. This course does not fulfill the General Education requirement.

CHN 102 - Conversational Mandarin Chinese II (2) (RLA)
2 hours; 2 credits. This course is for those students who have completed CHN 101 or have been placed into this level by the Department of Modern Languages, and who are interested in continuing their studies of spoken Mandarin Chinese. The course will focus on training the students' oral communicational skills through selected real-life situations and topics. The course will continue to review the phonetic system of Pinyin, and teach additional conversational skills and sentence patterns. Cantonese or other dialect speakers can also use the course to practice the official Mandarin pronunciation and oral language. After completing this sequence, students may wish to take additional courses that focus on reading and writing. This course does not fulfill the general education requirement. Prerequisite: CHN 101

CHN 112 - Beginning Mandarin Chinese I (3) (FWGR)
3 hours; 3 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the World Languages and Literatures Media Center is required. Not open to students who have taken CHN 113 or higher. (foreign lang.) (FWGR) Prerequisite: Passing CUNY Assessment Tests in Reading and Writing.

CHN 113 - Basic Mandarin Chinese I (4) (RLA)
4 hours; 4 credits. A beginning course in the fundamentals of Mandarin Chinese. The course will teach Pinyin, the standard pronunciation system, daily-life vocabulary, and basic sentence structures through real-life situations. The course will focus on developing basic skills and proficiency in listening, speaking, reading, and writing Mandarin Chinese, using a computer-assisted approach. (foreign lang.) Not open to students who have completed CHN 112. Prerequisites: Passing the CUNY/ACT Writing and Reading tests.

CHN 114 - Basic Mandarin II (4) (RLA)
4 hours; 4 credits. This is the second-semester beginning Chinese course. The course will review the Pinyin pronunciation system, build up daily-life vocabulary, and teach basic sentence structures through real-life situations. The course will continue to focus on developing basic skills and proficiency in listening, speaking, reading, and writing Mandarin Chinese, using a computer-assisted approach. Prerequisites: CHN 112 or CHN 113 or placement. Passing the CUNY Assessment Test in Writing and the CUNY Assessment Test in Reading. Note: This course satisfies the college option.

CHN 120 - Intensive Mandarin Chinese I (6) (RLA)
6 hours; 6 credits. A beginning intensive course in the fundamentals of expression and communication for students with no previous knowledge of Mandarin and who are interested in pursuing upper-division courses in Mandarin Chinese. By the end of the semester the student will have completed a program that provides a strong basis in the functional literacy in Mandarin. (foreign lang.). Prerequisites: Passing the CUNY Assessment Tests in Reading and Writing.

CHN 213 - Continuing Mandarin Chinese I (4) (RLA)
4 hours; 4 credits. This course is for those students who have successfully completed the second semester of Basic Mandarin Chinese or who have been placed into this intermediate level. Using computer-assisted technology, the course will further develop skills and proficiency in
Courses | 219

listening, speaking, reading, and writing in Mandarin Chinese. Greater emphasis will be placed on transitioning from spoken to written language. (foreign lang.) Prerequisites: CHN 114 or placement. Passing the CUNY Assessment Test in Writing and the CUNY Assessment Test in Reading.

CHN 215 - Continuing Mandarin Chinese II (4) (RLA)
4 hours; 4 credits. This course is for those students who have successfully completed the first semester of Continuing Mandarin Chinese (CHN 213) or who have been placed into this intermediate level. Using computer-assisted technology, the course will further develop skills and proficiency in listening, speaking, reading, and writing in Mandarin Chinese. Greater emphasis will be placed on transitioning from spoken to written languages. (foreign lang.). Prerequisites: CHN 213 or placement, Passing the CUNY Assessment Test in Writing and the CUNY Assessment Test in Reading.

CHN 220 - Intensive Mandarin Chinese II (6) (RLA)
6 hours; 6 credits. A continuing intensive course in the fundamentals of expression and communication for those who have successfully completed CHN 120 and are interested in pursuing upper-division courses in the language. Particular emphasis will be placed on written and oral communication based on selected cultural readings. (foreign lang.). Prerequisites: CHN 120.

CHN 308 - Gender and Sexuality in China and Japanese Literature (4) (RLA)
(Also LNG 308/WGS 308). 4 hours; 4 credits. A survey on the construction of gender relations in China and Japan, from the late imperial to the contemporary era. Topics include: the representation of gender identities in literature, the patterns and politics that inform these narratives, and the relations between the construction of gender and national identities during China and Japan’s critical historical transitions. Prerequisite: An ENH 200-level course or a CHN 213-level course.

CHN 313 - Advanced Communication Skills in Mandarin Chinese (4) (RLA)
4 hours; 4 credits. Refinement of oral and written expression through oral reports, composition, translation, and critical study of readings that are of advanced difficulty and involve more complex grammatical structures. Prerequisites: CHN 215 or equivalent.

CHN 315 - Languages in Contrast: English and Chinese (4) (RLA)
(Also LNG 315). 4 hours; 4 credits. A systematic comparison of English and Chinese in various respects, e.g. phonology, morphology, syntax, information structure, and writing system. While the two languages differ from each other in many respects, which are the focus of this course, there are universals and general principles that hold true of both of them. The course is intended to cultivate students' ability to appreciate the differences between the two languages on the one hand and to seek the principles that apply to both English and Chinese on the other. (literature). (TALA). NOTE: This course is taught in English and may not be used to satisfy the foreign language requirement. Please Note: this course satisfies the college option. Prerequisites: ENG 151 and completion of one semester of foreign language or linguistic course or exemption from the Foreign Language requirement of General Education.

Crosslisted as: LNG 315.

CHN 405 - Modern Chinese and Sinophone Literature (4) (RNL)
4 hours; 4 credits. An advanced Chinese reading course. The course focuses on fiction, essays, poems, and personal letters composed in Mainland China, Taiwan, and Hong Kong during the twentieth century. Students enrolled in this class need to have a good command of spoken and written Chinese. Prerequisite: CHN 313

CHN 406 - Linguistic Aspects of Mandarin Chinese (4) (RNL)
4 Credits; 4 Hours. A linguistic examination of Mandarin Chinese in various respects, including its typological features, tone structure, writing system, syllable structure, word categories, morphological structure, grammatical relations, syntactic constructions, and information structure. Prerequisite: CHN 313, not open to students who are taking or have taken CHN/LNG 315.

CIN - Cinema Studies

CIN 100 - Introduction to Film (3) (RLA) (FCER)
4 hours; 3 credits. An introduction to the terms and methods of film analysis. The course emphasizes critical viewing and writing, with attention to cinematography, editing, sound, narrative, authorship, genre, and ideology. (arts & com.) (FCER).

CIN 111 - Video I (3) (RNL)
4 hours; 3 credits. An introductory workshop in the basic techniques of video production. Visual awareness as applied to composition and continuity is developed in a series of practical class projects. This course is a prerequisite for 200- and 300-level work in film/video production and is intended for Cinema and Communications majors and minors. (arts & com).
CIN 120 - Video II (3) (RNL)
4 hours; 3 credits. An introductory course with an emphasis on digital video post-production software. Students' original material will be the basis for progressive exercises in nonlinear editing platforms. Prerequisites: CIN 111 or permission of the Department of Media Culture.

CIN 203 - Chinese Cinema (4) (RLA)
4 hours; 4 credits. A study of Chinese cinema's major movements and events, featuring major directors from Hong Kong, the People's Republic of China, and Taiwan. (TALA) (cont. wrld.) Prerequisites: ENG 151 and COR 100. Please Note: this course satisfies the college option.

CIN 204 - Politics, Cinema, Media (4) (RLA)
(Also POL 219). 4 hours, 4 credits. Analyzes political and social aspects of cinema and media within historical and contemporary contexts. Possible topics include race, class, gender, ethnicity, globalization, colonialism, imperialism, nationalism and its discontents, as they relate to cinema and the media. (arts & com.) (social science) (TALA). Prerequisites: ENG 111, COR 100. Please note: This course satisfies the college option.

Crosslisted as: POL 219.

CIN 206 - African Americans in the Media (4) (RLA)
(Also COM 206). 4 hours; 4 credits. This course examines the historical and theoretical issues concerning the representation of African Americans in the media. Covering a wide range of media that includes the categories of film, television, print, and the Internet, this course considers matters of production, reception, and representation across both mainstream and independent media texts. The course will highlight the diverse nature of black images from the perspectives of social and political significance, stylistic influences, and cultural context. Both contemporary and classic works will be screened. Prerequisite:ENG 151

Crosslisted as: COM 206.

CIN 208 - Latina/o Media (4) (RLA)
(Also AMS 208/COM 208). 4 hours; 4 credits. Examines the production, content, and reception of Latina/o-oriented media in the U.S. from a transnational perspective. Prerequisite: ENG 151 and (CIN 100 or COM 100 or COM 150 or any AMS course).

Crosslisted as: AMS 208/COM 208.

CIN 210 - Film Theory (4) (RLA)
4 hours; 4 credits. Study of film theory and its relation to international cinema of the silent and sound periods. Readings include the major theoretical works of various critics, philosophers, and filmmakers. Required for the Cinema Studies major. Prerequisites: minimum grade of C in CIN 100 and ENG 111.

CIN 211 - Cinematography (3) (RNL)
4 hours; 3 credits. A basic workshop in cinematography. Visual exercises will focus on techniques of composition, lighting, and camera movement. Prerequisite: CIN 120.

CIN 212 - Documentary Video (3) (RNL)
4 hours; 3 credits. Advanced training in the strategies, techniques, decision-making processes and structures of nonfiction videomaking. Prerequisites: CIN 120.

CIN 220 - Film History (4) (RLA)
4 hours; 4 credits. Survey history of world cinemas. The course will consider research practices, historiography, film style, and industrial models of production; viewing and discussion of films by various American and international filmmakers. Required for the Cinema Studies major. Prerequisites: minimum grade of C in CIN 100 and ENG 111.

CIN 230 - American Film and American Myth (4) (RLA)
(Also AMS 230). 4 hours; 4 credits. An interdisciplinary consideration of American filmmaking practices in relation to national mythmaking. Topics include: American film genre (the Western, film noir, the musical, and other dominant narrative models); gender, race, and class identities in film; cinematic aesthetics and nationalism; and cinematic treatments of international cultural and political relations involving the United States. (arts & com.) (TALA). Prerequisite: ENG 111 and COR 100. Please Note: This course satisfies the college option.

Crosslisted as: AMS 230.

CIN 240 - Third Cinema (4) (RLA)
4 hours; 4 credits. A survey of cinema from and about the Third World that emphasizes the effort to construct an identity within a post-colonial multinational context. Considered and analyzed will be films from Africa, Latin America, the Middle East, and Asia, as well as films of the diaspora made by emigrés. (p&d) (TALA). Prerequisite: CIN 100. Please Note: this course satisfies the college option.

CIN 271 - Women and Film (4) (RLA)
(Also WGS 271). 4 hours; 4 credits. Explores the historical trajectory of the representation and self-representation of women in film, with particular attention to the significant developments in the status and achievements of women as stars, screenwriters, directors, consumers, and spectators. Screenings of key films, techniques of critical analysis of the moving image, weekly readings, discussions, and
lectures, will all help to shape this consideration of film representations of what gender is, and what it has produced, over a period of more than 100 years. Prerequisites: ENG 151.

Crosslisted as: WGS 271.

CIN 274 - Introduction to Screen Writing (4) (RLA)
(Also ENL 274). 4 hours; 4 credits. Writing for television and film. Class discussions of students' work and the problems of creating in this field. Selected readings. Prerequisite: ENG 151.

Crosslisted as: ENL 274.

CIN 301 - Screen Adaptations (4) (RLA)
4 hours; 4 credits. A study of the theory and practice of adapting literary fictions into narrative films and dramatic television programs. Prerequisites: ENG 151 and CIN 210 or CIN 220.

CIN 303 - Screen Comedy (4) (RLA)
4 hours; 4 credits. An examination of screen comedy. The course will consider comedy as a form of performance and as a mode of film practice, with attention to techniques that create laughter. Readings include critical and theoretical works on the nature of comedy and the role of the comic performer in generating meaning. Prerequisites: ENG 151 and CIN 210 or CIN 220.

CIN 304 - Nonfiction Film and Television (4) (RLA)
4 hours; 4 credits. A critical and historical examination of nonfiction film and television practices including documentary, newsreels, television news, and "reality TV". This course analyzes the cultural, social, and ideological impact of film and television production as it has developed since cinema's origins. Prerequisites: CIN 100 and ENG 151.

CIN 305 - Film Genres (4) (RLA)
4 hours; 4 credits. Study of film genre. The course examines the concept of genre in film and other media, while considering the formal characteristics, narrative patterns, characteristic themes, and conventions of one or more specific film genres. Prerequisite: CIN 210 or CIN 220.

CIN 309 - Electronic Media: Alternative Video Histories (4) (RLA)
4 hours; 4 credits. An exploration of the history and aesthetics of video from its inception with the development of the light weight portapak in the mid-1970s. The relationship of video to television and cinema, its significance as an international art practice supported by the major cultural institutions, and its use by individual artists and by media collectives are major themes in the course. Screenings of key videos, the critical vocabulary specific to the medium, weekly readings, discussions, and lectures, will frame this consideration of how video has managed to permeate our culture in little more than two generations. Prerequisites: CIN 210 or CIN 220; ENG 151.

CIN 312 - Non-Linear and Multimedia Production (3) (RNL)
4 hours; 3 credits. Individual projects in video and multimedia with an emphasis on digital post-production. This course may be repeated for credit. Prerequisites: CIN 120, and either CIN 211 or COM 261.

CIN 318 - Advanced TV Studio Production (4) (RLA)
(Also COM 318). 4 hours; 4 credits. An advanced workshop in the techniques and concepts of live studio production. This course emphasizes a disciplined approach to practical application, the ability to work in production crews, and critical thinking as it relates to audience, message, and aesthetic choices. Students develop works through individual and group productions acquainting them with industry standards. Prerequisite: COM 261.

Crosslisted as: COM 318.

CIN 325 - East Asian Popular Cultures (4) (RLA)
(Also COM 325). 4 hours; 4 credits. This course examines different forms of popular culture in East Asian from historical, sociological, anthropological and media studies perspectives. Looking at TV drama, cinema, animation, music, fashion and fast food, the course investigate how popular culture works and how it shapes people's lives. In particular, how are cultural forms communicated and circulated in different places, in regional as well as global contexts and how do local dynamics re-shape the forms? Seeing popular culture as terrains of power struggles and articulation, we will explore how class, gender and national identities are constructed and contested through popular culture that is in turn shaped by these social relationships in specific political and historical contexts. Prerequisite: ENG 151 and (HST 204 or COM 203 or CIN 210 or CIN 220).

Crosslisted as: COM 325.

CIN 326 - Japanese Cinema: Theory & History (4) (RLA)
(Also COM 326). 4 hours; 4 credits. This course surveys Japanese cinema from its prehistory to the present, interrogating the relationship between cinema and Japanese society through familiar concepts such as auteur, genre, national characteristics and ethnicity, gender and racial hierarchy, culture, Tradition vs. Modernity, the East and the West. We will focus on both historical specificities of "Japan" and formal aspect of filmic texts. Defining cinema as a social practice, our discussion will cover ideological negotiations involved in film exhibition and identity
formation. Prerequisite: ENG 151 and (HST 204 or COM 203 or CIN 210 or CIN 220).

Crosslisted as: COM 326.

**CIN 390 - Media Internship (3-4) (RNL)**

(Also COM 390). 3-4 credits. An internship work and learning experience with a media organization or in positions engaging in communications practices. This may include work in the production, distribution, or exhibition of media material, as well as in public relations and advertising. Students are required to keep a work journal and write an analytical paper of their work experience. This course may be repeated for credit. Prerequisites: COM 200 or COM 203 or COM 205 or COM 220 or COM 230 or COM 232 or CIN 210 or CIN 220, and the permission of a faculty advisor.

Crosslisted as: COM 390.

**CIN 401 - American Directors Before 1960 (4) (RLA)**

4 hours; 4 credits. Study of film authorship in relation to one or more directors who worked in the United States film industry before 1960. (arts & com.) (TALA). Prerequisites: ENG 151 and CIN 210 or CIN 220. Please Note: this course satisfies the college option.

Crosslisted as: ENL 436.

**CIN 407 - European Cinema (4) (RLA)**

4 hours; 4 credits. Specialized study of European cinema, with attention to films or filmmakers of one or more of the countries of Europe. (arts & com.) (TALA). Prerequisites: ENG 151 and CIN 210 or CIN 220. Please Note: this course satisfies the college option.

**CIN 408 - Global Cinema (4) (RLA)**

4 hours; 4 credits. Specialized study of films produced outside of Europe and the United States. (arts & com.) (TALA). Prerequisites: ENG 151 and CIN 210 or CIN 220. Please Note: this course satisfies the college option.

**CIN 436 - Screen Writing (4) (RLA)**

4 hours; 4 credits. Study of the craft of constructing the screenplay, treatment, synopsis, and shooting script. The student will work on the problems of creating the original filmscript as well as adapting a piece of existing material for the screen. Prerequisite: CIN 274/ENL 274 or permission of the instructor.

Crosslisted as: LNG 406.

**CIN 497 - Senior Project (4) (RNL)**

4 hours; 4 credits. An interdisciplinary seminar focused on students' Honors and Thesis projects in the Cinema major. Prerequisite: 12 credits in 300-400-level cinema courses.

**COM - Communications**

**COM 100 - Introduction to Media (3) (FCER)**

3 hours; 3 credits. An introduction to media, providing an overview of the media industries, as well as the political, social, and cultural uses of modern media. (arts & com.) (FCER). Prerequisites: passing the CUNY Assessment Tests in Reading and Writing.

**COM 101 - Media Literacy (3) (FCER)**

3 hours; 3 credits. Develops skills to become critical consumers and producers of media. Students will learn how to analyze and evaluate different forms of media such as newspapers, television, radio, magazines, video games, films, and websites. Students will also be introduced to making media, particularly social media, in an age in which anyone can be a media producer. (arts & com.) (FCER). Prerequisite: Passing the CUNY Assessment Test in Reading and Writing.

**COM 115 - Introduction to Design and Digital Media Environments (1) (RNL)**

1 hour; 1 credit. Introduces students to the fundamental tools, skills, and principles that are a prerequisite to using a computer for graphic design, digital imaging, and web
design. Students will be instructed in the computer's operating system, and introduced to the basic software programs and peripheral devices. This course is the prerequisite for all communication production courses.

**COM 150 - Introduction to Communications (4) (RLA)**
4 hours; 4 credits. An introduction to the study of communications modes, codes, and institutions. The course also examines the histories, contexts, content, and reception of different media. Prerequisites: ENG 151.

**COM 200 - Media and Culture (4) (RLA)**
4 hours; 4 credits. An examination of interrelationships among media, cultural production, and their social, historical, political, and economic contexts. This course considers the interdisciplinary approaches of visual culture and cultural studies to understand the roles of institutions, groups, and individuals in creating and using cultural representations and engaging in cultural practices, with an emphasis on the integration of mediated cultural production into everyday life. (arts & com.) (TALA). Prerequisite: COM 150. Please Note: this course satisfies the college option.

**COM 201 - History and Theory of Television (4) (RLA)**
4 hours; 4 credits. Examines the development of commercial television broadcasting, its genesis in radio, its creation of distinctive genres, and its change and diversification in the age of cable and satellite broadcasting. The course considers different theoretical approaches to the analysis of television, investigating theories of the effects of television, the impact of television on other media, and television's "mythic" content. (arts & com.) (TALA). Prerequisite: ENG 111. Please Note: this course satisfies the college option.

**COM 203 - Theories of Communications (4) (RLA)**
4 hours; 4 credits. An examination of the development of communications as an interdisciplinary academic field, drawing on rhetoric, social psychology, political science, sociology, anthropology, and other disciplines. Emphasis will be placed on theories of mass communication and media. Students learn to make connections and distinguish between various theories and models. Prerequisites: minimum grade of C in COM 150.

**COM 204 - Introduction to Online Journalism (4) (RLA)**
4 hours; 4 credits. Introduces students to the range of basic skills - blogging, online reporting, podcasting, online video and audio - necessary to operate successfully in the world of online journalism. The course will also familiarize students with some of the major intellectual issues that lie at the heart of the emergence of online journalism. Prerequisites: ENG 151 and COM 115.

**COM 205 - Media Industries (4) (RLA)**
4 hours; 4 credits. An examination of U.S. media organizations and their practices. This course explores the historical, regulatory, and economic context of their operations, highlighting contemporary issues of media convergence, conglomerations, ownership, regulation, policy, and the political economy of the media. Prerequisites: COM 150.

**COM 206 - African Americans in the Media (4) (RLA)**
(Also CIN 206). 4 hours; 4 credits. This course examines the historical and theoretical issues concerning the representation of African Americans in the media. Covering a wide range of media that includes the categories of film, television, print, and the Internet, this course considers matters of production, reception, and representation across both mainstream and independent media texts. The course will highlight the diverse nature of black images from the perspectives of social and political significance, stylistic influences, and cultural context. Both contemporary and classic works will be screened. Prerequisite: ENG 151. Crosslisted as: CIN 206.

**COM 208 - Latina/o Media (4) (RLA)**
(Also AMS 208/CIN 208). 4 hours; 4 credits. Examines the production, content, and reception of Latina/o-oriented media in the U.S. from a transnational perspective. Prerequisite: ENG 151 and (CIN 100 or COM 100 or COM 150 or any AMS course). Crosslisted as: AMS 208/CIN 208.

**COM 211 - Communications in a Corporate Setting (4) (RLA)**
(Also BUS 211). 4 hours; 4 credits. An introduction to types of communication in business settings. These will include oral communication (with presentations) and written communication both within the organization as well as to external recipients (such as investors, government agencies, and the community). Data communication both for internal needs and for external needs will be covered. Security for all types of communication will be discussed. This course will help students to master effective professional communication through skills development and applications in diverse organizational contexts. Prerequisite: ENG 151 and one of the following: BUS 150, BUS 215, BUS 250 or CSC 102. Crosslisted as: BUS 211.

**COM 220 - History of Radio and Television (4) (RLA)**
4 hours; 4 credits. This course examines the development of radio and television broadcasting systems in the United States, from their origins in "wireless telegraphy" to the current age of multichannel cable and satellite transmission.
The course considers different theoretical approaches to the analysis of radio and television; their distinct genres; economic, regulatory, technological, and aesthetic features of these commercial media and public broadcasting; and their roles as key social institutions. Prerequisites: COM 150 or CIN 220

COM 225 - Multicultural Literacy (4) (RLA)
(Also ANT 225). 4 hours; 4 credits. An exploration of culture as it is defined by various disciplines and understood through prisms of class, race, gender, ethnicity, and the nation state. The class approaches literacy and culture from interdisciplinary perspectives, drawing on anthropology, sociology, literary theory, media studies, and gender studies. (social science) (arts & com.) (p&d) (TALA). Prerequisites: ENG 151, COR 100, and (SOC/ANT 203 or any 100-level ANT, COM, HST, POL, SOC or WGS course). Please note: This course satisfies the college option. Crosslisted as: ANT 225.

COM 230 - History of Print Media (4) (RLA)
(Also ENL 230). 4 hours; 4 credits. An introductory survey of the evolution of newspapers, periodicals, and the publishing industry, focusing on technological developments, major innovations, legal and ethical issues, and societal impact. (TALA). Note: This course satisfies the college option. Prerequisites: ENG 151 and COM 150. Crosslisted as: ENL 230.

COM 232 - History of Design and Digital Media (4) (RLA)
4 hours; 4 credits. An exploration of the work of major designers and the movements they started, from its origins in the printing press as well as the interrelationship of design and fine art. We will focus on mainstream uses of graphic design as well as countercultural/activist appropriation of design techniques. Prerequisites: COM 150.

COM 240 - Media Workshop: Acting, Directing, and Producing for the Media (3) (RNL)
4 hours; 3 credits. An examination of the actor/director relationship as it applies in the various media: stage, film, and television. Students will have an opportunity to work both as actors, directors, and screenwriters. Students will write, rehearse, and stage new screenplays. Prerequisites: CIN 111.

COM 249 - Workshop in Typesetting (1) (RNL)
2 hours; 1 credit. An intensive five-week course designed to introduce the student to the various capabilities and applications of desktop publishing.

COM 250 - Typography and Design (3) (RNL)
4 hours; 3 credits. A study of the communicative and aesthetic characteristics of graphic design and typography. The course focuses on the organization of visual space employing graphic design principles and strategies. Through the use of various digital techniques, students will produce graphic and typographic design projects. Prerequisite: minimum grade of C in COM 115.

COM 251 - Digital Imaging I (3) (RNL)
4 hours; 3 credits. A study of strategies in digital imaging production and treatment. Students will learn and employ digital design applications to composite images for print. Design exercises and projects emphasize problem solving, creativity, and presentation. Lectures focus on production and theory, referencing both historical and contemporary work as examples. Prerequisites: Minimum grade of C in COM 115.

COM 261 - Television Studio Production (3) (RNL)
4 hours; 3 credits. The emphasis is on studio production and the application of controlled studio techniques to the production of video programs. Increasingly complex projects will be planned, scripted, and carried through to a final edit. Prerequisites: ENG 111 and CIN 111.

COM 270 - Radio Production (3) (RNL)
4 hours; 3 credits. This course is designed to give the student an understanding of radio production, theory, and practice. This includes audio principles and aesthetics; the purpose and operation of primary (microphones, tape machines, consoles, turntables) and secondary (compressors, equalizers, delays) studio equipment; and the techniques of the production process.

COM 271 - Radio/TV Newscasting (3) (RNL)
4 hours; 3 credits. This course provides students with an understanding of newscasting through an evaluation of the impact of broadcast news, and investigation of journalistic tenets and applications that include organizing, writing, and producing news programs. Prerequisite: COM 261 or COM 270.

COM 277 - Introduction to Journalism (4) (RLA)
(Also ENL 277). 4 hours; 4 credits. A general introduction to the principles of journalism. Work on reporting, editing, and layout, and an examination of distribution/feedback systems. Prerequisite: ENG 151. Crosslisted as: ENL 277.

COM 312 - Theories of Mass Media (4) (RLA)
(Also ENL 312). 4 hours; 4 credits. A survey of contemporary communications theory defining the language, structure, systems, effects, and rhetoric of the
mass media. Practical examples in journalism, advertising, publishing, radio, television, and film will be analyzed. Prerequisite: ENG 151. Pre or corequisite: An ENH 200 level course or ENL 290.

Crosslisted as: ENL 312.

COM 313 - Principles of Editorial Design: Integration of Writing and Graphics (4) (RLA)

4 hours; 4 credits. Emphasis on the integration of publication design, graphics, information organization, and language. Course topics focus on various formats of multi-page layout design for print, their meaning and significance; editorial concepts, and the publication process. Further emphasis is placed on group organization, collaboration, and co-authorship. Prerequisites: ENG 151 and COM 250 or COM 317, or permission of instructor.

COM 315 - Media Analysis (4) (RLA)

4 hours; 4 credits. An intensive theory and writing course introducing students to diverse approaches to media analysis, from semiotics, psychoanalysis, intertextuality, and discourse analysis. Students explore ways to read and understand different kinds of media texts, including print, audio, visual, and digital texts. Students will also learn to explore and explain their ideas and arguments in writing about media texts. Prerequisites: COM 203.

COM 316 - Radio/Tv Performance (4) (RNL)

See Catalog For Description.

COM 317 - Information Design (4) (RNL)

4 hours; 4 credits. An exploration of the relationship between form and information. This course examines systems for organizing and presenting effective, efficient, and understandable information. Students will learn and employ vector-based computer illustration software to complete their assignments. Prerequisite: COM 250.

COM 318 - Advanced TV Studio Production (4) (RLA)

(Also CIN 318) 4 hours; 4 credits. An advanced workshop in the techniques and concepts of live studio production. This course emphasizes a disciplined approach to practical application, the ability to work in production crews, and critical thinking as it relates to audience, message, and aesthetic choices. Students develop works through individual and group productions acquainting them with industry standards. Prerequisite: COM 261

Crosslisted as: CIN 318.

COM 320 - Motion Graphics (4) (RNL)

4 hours; 4 credits. A course focusing on the language and tools of motion graphics. Emphasis is on the construction of image, typography, and accelerated sequences, as well as historical and theoretical topics. Students will learn to integrate sound and image as they develop and storyboard their projects. Prerequisite: COM 251 or CIN 120.

COM 325 - East Asian Popular Cultures (4) (RLA)

Also CIN 325. This course examines different forms of popular culture in East Asian from historical, sociological, anthropological and media studies perspectives. Looking at TV drama, cinema, animation, music, fashion and fast food, the course investigate how popular culture works and how it shapes peoples lives. In particular, how are cultural forms communicated and circulated in different places, in regional as well as global contexts and how do local dynamics re-shape the forms? Seeing popular culture as terrains of power struggles and articulation, we will explore how class, gender and national identities are constructed and contested through popular culture that is in turn shaped by these social relationships in specific political and historical contexts.Prerequisite: ENG 151 and (HST 204 or COM 203 or CIN 210 or CIN 220)

COM 326 - Japanese Cinema: Theory & History (4) (RLA)

Also CIN 326. This course surveys Japanese cinema from its prehistory to the present, interrogating the relationship between cinema and Japanese society through familiar concepts such as auteur, genre, national characteristics and ethnicity, gender and racial hierarchy, culture, Tradition vs. Modernity, the East and the West. We will focus on both historical specificities of "Japan" and formal aspect of filmic texts. Defining cinema as a social practice, our discussion will cover ideological negotiations involved in film exhibition and identity formation.Prerequisite: ENG 151 and (HST 204 or COM 203 or CIN 210 or CIN 220)

COM 332 - History and Theory of Advertising and Public Relations (4) (RLA)

4 hours; 4 credits. The history of advertising and public relations in the United States. This course explores theories regarding their implications in relation to media institutions, politics, public opinion, society, and culture. Prerequisite: COM 205.

COM 341 - Communications Design Workshop (4) (RNL)

4 hours; 4 credits. An examination of theoretical and practical approaches to visual culture. This course focuses on the role of subject, voice, and audience in determining appropriate visual and verbal forms. Through the use of various digital techniques, students will produce graphic and conceptual design projects where layers of meaning are created through the combination of images and text. Prerequisite: COM 251.
COM 351 - Digital Imaging II (4) (RNL)
4 hours; 4 credits. An advanced creative, practical, and theoretical study of digital imaging as it is used in visual communication. Students will enhance their understanding of design and visual practice through thematic digital imaging assignments. Technical topics include advanced features of hardware and software and digital camera use. Theoretical concerns focus on the evolution of digital imagery, digital photography, and representation. Prerequisites: COM 250 and COM 251.

COM 370 - Web Design, Graphics, and Theory (4) (RLA)
4 hours; 4 credits. An exploration of web design, new media, digital culture, and cyberspace. This course is concerned with the technical skills of web design and development, and the theoretical implications of Web-based design. Students will create projects employing Web design software. Along with production, COM 370 focuses on the psychological, cultural, social, economic, and political relationships associated with Internet culture. Prerequisites: COM 203 and COM 251.

COM 371 - Media and the Margins (4) (RLA)
(Also SOC 371). 4 hours; 4 credits. An examination of the role of the mass media as cultural institutions that shape the images and self-images of marginalized groups. The course engages with definitions based on, but not limited to, age, disability, ethnicity, gender, race, and sexuality. (P&D) (TALA). Prerequisites: COM 150 or a 100-level and 200-level SOC or ANT course. Please Note: this course satisfies the college option.
Crosslisted as: SOC 371.

COM 374 - Mass Media in Modern Society (4) (RLA)
(Also SOC 374). 4 hours; 4 credits. Sociological analysis of the mass media: their comparative histories and organizations, and their political and social effects. Attention will be given to their persuasive role in propaganda and public opinion, as well as to their function in providing information and entertainment for the common culture. Prerequisites: COM 150 and a 200-level SOC or ANT course.
Crosslisted as: SOC 374.

COM 380 - Web Design, Animation, and Theory (4) (RNL)
4 hours; 4 credits. A course focusing on digital animation for the Internet. This course will cover the technical aspects of digital animation, as well as historical and theoretical topics. Students will create animations as stand-alone pieces and as components in web pages. Prerequisite: COM 370.

COM 390 - Media Internship (3-4) (RNL)
(Also CIN 390). 3-4 credits. An internship work and learning experience with a media organization or in positions engaging in communications practices. This may include work in the production, distribution, or exhibition of media material, as well as in public relations and advertising. Students are required to keep a work journal, and write an analytical paper of their work experience. This course may be repeated for credit. Prerequisites: COM 200 or COM 203 or COM 205 or COM 220 or COM 230 or COM 232 or CIN 210 or CIN 220, and the permission of Department.
Crosslisted as: CIN 390.

COM 410 - Media Administration (4) (RLA)
(also BUS 410). 4 hours; 4 credits. A course dealing with the skills and concepts necessary for the competent management of a media production department. Topics include production planning and control, cost analysis procedures, contract and copyright law in relation to the media, and organization theory. Prerequisite: COM 150, and COM 261 or COM 270 or CIN 111.
Crosslisted as: BUS 410.

COM 412 - Broadcast Journalism (4) (RLA)
(Also ENL 412). 4 hours; 4 credits. An introduction to the theory, history, and practice of modern newscasting. The class will also focus on the way that traditional broadcast is converging with digital video production and distribution in the creation of news. Special emphasis will be placed on preparing material for broadcast on radio, television, and online. Readings will explore the economic realities of broadcasting, legal sanctions, and social impact. Students will monitor newscasts, analyze them, and write copy suitable for broadcast. For students wishing to register for the course COM 100 is recommended. Prerequisite: COM 277/ENL 277 and COM 204.
Crosslisted as: ENL 412.

COM 415 - Media Audiences (4) (RLA)
4 hours; 4 credits. A comparison of industry and scholarly approaches to understanding media audiences and media effects, focusing on the medium of television. This course also draws cases from film, radio, and new media. We will examine the tools of media industry audience research (such as audience measurement, ratings systems, and focus groups), as well as critical scholarship on the social impact of the fragmentation of the mass audience, and the results of ethnographic audience research. Prerequisite: COM 315.

COM 420 - Global Media (4) (RLA)
4 hours; 4 credits. An examination of contemporary media as global phenomena, stressing the multidirectionality of
media flows, influences, power, and practices. Students explore global connections in different media, including print, electronic, audio, visual, television, film, as well as the interconnectedness of these media on a global scale. Prerequisite: COM 315.

COM 425 - Media Regulation (4) (RLA)
4 hours; 4 credits. A survey of the regulation of media, including print, film, and telecommunications in the United States. The course examines the history of media regulation in terms of both the structure of media industries and their contents, including the First Amendment rights extended to individual expression and print, censorship and the limitations placed on broadcasting; the governance of intellectual property, in copyright and fair use laws; the role of the Federal Communications Commission, trends in de-regulation in recent decades, and the role of regulations in developing new media such as the Internet. Prerequisite: COM 315.

COM 432 - Corporate Communications Practices (4) (RLA)
4 hours; 4 credits. An extensive examination of corporate communications and public relations approaches, and their application. Case studies and examples of a variety of corporate communications practices will be analyzed in terms of their meaning, purposes, and targeted publics to study and develop skills in building communications strategies, tactics, and execution techniques. Students will work on projects dealing with the planning and execution of strategic communications. Prerequisite: COM 332.

COM 438 - Newspaper Reporting (4) (RLA)
(Also ENL 438). 4 hours; 4 credits. An introduction to the theory, history, and practice of modern reportorial journalism. The class will focus on the way that traditional newswriting is converging with other media forms online, yet remains a skill of its own with specific needs, ethics, and best practices. For students wishing to register for the course COM 100 is recommended. For English majors and minors, this is designated as a writing course. Prerequisite: COM 277/ENL 277 and COM 204.

Crosslisted as: ENL 438.

COM 445 - Journalism and Society (4) (RLA)
(Also ENL 445). 4 hours; 4 credits. Learning to "read" and write the news. Analysis of the ways in which news stories define our understanding of society. The course will consider both the effect of print and broadcast journalism on politics, values, and social standards and the pressures on the press that define its values. Topics vary from term to term. Prerequisites: COM 277/ENL 277 and COM 204 and (COM 412/ENL 412 or ENL 438/COM 438 or COM 446) Crosslisted as: ENL 445.

COM 446 - Digital Design for Journalists (4) (RLA)
4 hours; 4 credits. Digital design skills needed for developing skills in writing for traditional electronic media (such as radio and television) as well as new media (such as the Internet). This writing-intensive course emphasizes the translation of ideas into written text or spoken dialogue appropriate to the medium, genre, and target audience, as well as treatments, proposals, and other forms of pre-production writing. Prerequisites: COM/ENL 277 and COM 204 or COM 317.

COM 450 - Senior Seminar in Communications Research (4) (RLA)
4 hours; 4 credits. The capstone class for communications majors. The course provides an overview of communications research and introduces students to basic research procedures, paradigms, and methods. Students learn research goals, methodologies, and strategies in communications. They use these tools to formulate a research problem of their own and to conduct research in libraries, through media resources, and through fieldwork. Prerequisite: COM 315.

COM 451 - Advanced Design and Digital Media Workshop (4) (RLA)
4 hours; 4 credits. Workshop course designed for advanced students to complete extended projects. The students will apply their mastery of the concepts and skills of design and digital media to one large project or body of work; this work will be proposed by the student and agreed upon by the professor. Prerequisites: COM 250 and COM 370. Pre- or corequisite: COM 314 or COM 341 or COM 317 or COM 320 or COM 351 or COM 380.

COM 465 - Writing for the Media (4) (RLA)
(Also ENL 465). 4 hours; 4 credits. Developing skills in writing for traditional electronic media (such as radio and television) as well as new media (such as the Internet). This writing-intensive course emphasizes the translation of ideas into written text or spoken dialogue appropriate to the medium, genre, and target audience, as well as treatments, proposals, and other forms of pre-production writing. For English majors and minors, this is designated as a writing course. Prerequisites: A 200-level course COM and ENG 151.

Crosslisted as: ENL 465.

COM 475 - Writing for Advertising and Public Relations (4) (RLA)
(also ENL 475). 4 hours; 4 credits. An introduction to the techniques of developing concepts and writing copy for advertising in print and broadcast media, and public relations material such as press releases newsletters, brochures, and publicity material. The course analyzes
advertising, public relations, and other corporate communications tactics in terms of their target audience, message, and effectiveness, as well as the channels of communication. Students will be assigned a number of writing projects including copywriting, concept development proposals, press releases, and newsletter articles. Prerequisite: COM 332 or permission of instructor.

Crosslisted as: ENL 475.

**COM 480 - Studies in Advanced Journalism (4) (RNL)**
(Also ENL 480). 4 hours; 4 credits. Analysis of the techniques required for good feature writing, magazine writing, personal journalism, investigative reporting, interviewing, etc. Overview of the changing journalism environment and the techniques and skills necessary to build a successful journalism organization. Overview of the job and skills of a news editor. Emphasis amongst these different options varies from term to term. Prerequisite: COM/ENL 277 and COM 204 and (COM 412/ENL 412 or COM 438/ENL 438 or COM 466).

Crosslisted as: ENL 480.

**COM 492 - Senior Project for Design and Digital Media (4) (RNL)**
4 hours; 4 credits. Advanced individual exploration of techniques and principles introduced in 200- and 300-level design and digital media courses. This course provides the opportunity for students to develop cohesive portfolios to a quality required for entry-level positions in the field. Critiques of student work will be held with fellow students and the faculty advisor periodically throughout the semester. Prerequisites: Senior standing and COM 250 and COM 370. Pre- or corequisite: COM 314 or COM 341 or COM 317 or COM 320 or COM 317 or COM 380.

**COR - Core**

Division of Humanities and Social Sciences, Building 1A, Room 312
Dean Nan Sussman
Coordinator, Donna Scimeca, Marchi Building (2N), Room 218

**COR 100 - United States: Issues, Ideas, and Institutions (3) (FUSR)**
3 hours; 3 credits. COR 100 is a required general education course that introduces CSI students to contemporary America's constitutional democracy, multiracial society, and market economy, using the tools of the social sciences. The course seeks historical perspective by examining three formative periods in U.S. history: the American Revolution and debate over the Constitution, the African American freedom struggle from slavery through the civil rights movement, and the evolving relationship between government regulation and the market economy during the 20th century. The course is writing intensive and is intended to develop logical, critical thought and expression. (FUSR) Pre- or corequisite: ENG 111.

**CSC - Computer Science**
The courses in computer science are listed below. Students should consult a computer science advisor before registering for courses. CSC 102 Computing for Today is a general introductory course in computers. This course is not credited toward the major. CSC 115 fulfills the scientific analysis requirements. CSC 126 Introduction to Computer Science is the introductory course in the Associate’s degree Computer Technology program and the Bachelor's degree in Computer Science program. CSC 126 is a general introductory course in computer science for engineering students and others with similar needs.

**CSC 102 - Computers for Today (4) (RNL)**
6 hours; 4 credits. Basic computer concepts including hardware, operating systems, application software (word processing, spreadsheets, and database manager), networks, and the Internet. Internet protocols, Internet, intranets and the Web, Web development, multimedia, research, privacy, cyber security, e-commerce, and ethical issues. Not open to students who have successfully completed a 200-level computer course or BUS 150. Prerequisite: An appropriate score on the Math Proficiency/Placement Test or MTH 015 or MTH 020.

**CSC 112 - Introduction to Word Processing (1) (RNL)**
1 class hour, 2 laboratory hours - 7 weeks; 1 credit. The latest version of a popular word processing program will be taught. Topics will include creating and editing a file, using the speller and the thesaurus, formatting, printing, merging, footnotes, and macros. Not open to students who have successfully completed CSC 102.

**CSC 114 - Elements of Computer Programming for the Technologies (2) (RNL)**
1 class hour, 3 laboratory hours; 2 credits. Elements of computer programming for the technologies; arithmetic and logical operations and functions, comparison operators, loops, subroutines, input and output. Programs will be written in a higher-level computer language. Specialized packages for technological applications will be used. Pre- or corequisite: MTH 123.

**CSC 115 - Introduction to Computer Technology (3) (FSWR)**
3 hours; 3 credits. An introduction for non-science students to fundamental concepts in computers and technology including information representation, development and application of algorithms, network and communication
principles, and critical evaluation of technology tools. Not open to students who have taken CSC 119. (liberal arts and sciences) (scientific analysis). (FSWR) Prerequisite: MTH 015 or MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: CSC 117

CSC 116 - Introduction to Database (1) (RNL)
1 class hour, 2 laboratory hours - 7 weeks; 1 credit. The latest version of a widely used database program will be taught. Topics will include creating and editing a file, sorting and indexing, printing reports and labels. Not open to students who have successfully completed CSC 102. Prerequisite: Passing the CUNY Mathematics Assessment Test.

CSC 117 - Computer Technology Lab (1) (RLA)
2 laboratory hours; 1 credit. A laboratory experience illustrating the principles and topics in CSC 115. Not open to students who have taken CSC 119. (scientific analysis). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: CSC 115

CSC 118 - Introduction to Spreadsheets (1) (RNL)
1 class hour, 2 laboratory hours - 7 weeks; 1 credit. The latest version of a widely used spreadsheet program will be taught. Topics will include creating and problem solving using spreadsheets, entering data and formulas, correcting errors, the range, copy and formatting instructions, printing, tables, and graphs. Not open to students who have successfully completed CSC 102. Prerequisite: Passing the CUNY Mathematics Assessment Test.

CSC 119 - Computer Technology Concepts (3) (FSWR)
3 hours; 3 credits. An introduction to the concepts of representation, storage, usage, retrieval and protection of data in the digital world. (FSWR). Not open to students who have taken CSC 115. Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test.

CSC 120 - Introduction to Computer Science (4) (FSWR)
3 class hours, 3 laboratory hours; 4 credits. Computing and information processing. Basic computer structure. Programming methodology: analysis, design, documentation, implementation, and evaluation. Algorithmic approach to problem solving. Computer solutions of several numerical and non-numerical problems. (FSWR) (STEM). Pre- or corequisite: MTH 123 or MTH 130 or MTH 221 or MTH 230 or MTH 231 or MTH 235.

CSC 135 - Introduction to Information Systems (3) (RNL)
(Also BUS 135). 2 class hours, 2 laboratory hours; 3 credits. A hands-on laboratory course in the effective use of technology tools for problem solving. Students will understand how copyright laws apply to software and the need to acknowledge material from outside sources, including online material and the work of others. Corequisite: CSC 126. Crosslisted as: BUS 135.

CSC 140 - Algorithms and Computation (3) (FSWR)
3 hours; 3 credits. An introduction to the major ideas of the science of computer programming such as abstraction, design, recursion, concurrency, simulations, and the limits of computation. Course includes an overview of the current social and ethical and scientific issues in the applications of programming, and the relevance of computer science concepts to society. (scientific analysis) (FSWR). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: CSC 141.

CSC 141 - Algorithms and Computation Laboratory (1) (RLA)
2 laboratory hours; 1 credit. Lab corequisite for CSC 140. (scientific analysis) Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: CSC 140.

CSC 205 - Basic Desktop Publishing (2) (RNL)
1 class hour, 2 laboratory hours; 2 credits. This course will introduce the novice to the essentials of Windows usage. Topics will include controlling the Windows graphical environment, customizing the desktop, screensavers, running programs, copying data between programs, and managing files with the File Manager. The supplied programs of Windows, the accessories, will be explored: Write, Terminal, Paintbrush, Notepad, Cardfile, Recorder, Calendar, and Calculator. Groups and the installation of programs will be taught. Not open to students who have completed CSC 326 or above. Prerequisite: Passing the CUNY Mathematics Assessment Test.

CSC 210 - Applications Programming (4) (RNL)
3 class hours, 3 laboratory hours; 4 credits. Application of programming techniques to problems in business and data
processing. State-of-the-art software packages to analyze and manipulate data for standard business applications will be taught. Prerequisite: A grade of C or above in either CSC 126 or CSC 270.

CSC 211 - Intermediate Programming (4) (RNL)
3 hours, 3 laboratory hours; 4 credits. A second course in programming. Programming techniques emphasizing reliability, maintainability, and reusability. Module design and multi-file programs. Abstract data types. Data representation and conversion. Addresses, pointers, and dynamic storage allocation. Recursion and function parameters. User interface design. Prerequisite: CSC 126 with a grade C or better and MTH 123 (or higher: specifically MTH 130, 221, 230, 231, or 235).

CSC 215 - Assistive Technology for Universal Applications (3) (RLA)
3 hours; 3 credits. An overview of the technological needs and the laws for accommodating persons with disabilities; descriptions of the technologies for persons with disabilities (blindness/visual impairments, audiological disabilities, physical disabilities, and cognitive disabilities); technologies used in the classroom, industry, independent living, and social interactions; training programs for these technologies. Hands-on labs with the appropriate technologies will be utilized. Prerequisite: ENG 151.

CSC 220 - Computers and Programming (4) (RNL)
4 hours; 4 credits. Binary and hexadecimal number systems and digital representation of data. Introduction to computer systems organization, and architecture, processor, memory, and external devices. CPU instruction formats and execution, addressing techniques. Assembly language, programming techniques, program segmentation and linkage. The role of assembly language in software development. Students will complete computer projects in assembly language. Note: This course will be held in a laboratory. Prerequisite: A grade of C or above in either CSC 126 or 270.

CSC 223 - Computer Hacking Revealed (3) (RNL)
2 hour lecture, 2 hour laboratory; 3 credits. A theoretical and practical survey of computer network and Web security, attack methods, and algorithms for defending computers and computer networks. Students learn about major security threats, methods and technologies used, and how threats affect the development and functioning of computer software and hardware. Prerequisite: CSC 126 with a grade of C or higher.

CSC 225 - Introduction to Web Development and the Internet (3) (RNL)
3 Hours; 3 credits. An introduction to the Internet and Web page creation and management, using a markup language, a scripting language, a current editor, and a graphics program. Topics include incorporating graphics, sound, video and proper Web page development concepts. Students will prepare Web pages incorporating text, digitized images, scripts, animations, sound, and video. Prerequisites: MTH 123.

CSC 226 - Web Database Applications (3) (RNL)
3 Credits; 3 Hours. This course offers students a mixture of theoretical and practical information on creating Web database applications. Students will learn open source technologies that are often combined to develop these applications. Student will model and design databases and query remotely located databases on the Web. Searching, browsing, storing user data, validating user input, managing user transactions, and security issues are discussed. Prerequisites: CSC 126 with a grade of C or higher.

CSC 227 - Introductory Computer Game Programming (3) (RLN)
2 lecture hours; 2 laboratory hours; 3 Credits. This course covers the process of game development. It also discusses the importance of testing, and how developers use the results of testing to improve their games. Students will be expected to develop simple games, or portions of games, using appropriate game development tools. Prerequisites: CSC 126 or permission of instructor.

CSC 228 - Discrete Mathematical Structures for Computer Science (4) (RLA)
(Also MTH 228). 4 hours; 4 credits. A discrete mathematics course where concepts of discrete structures will be applied to computer science. Topics include elementary set theory, logic, functions, relations, Boolean algebra, elements of graph theory, matrix representation of graphs, matrix manipulations, mathematical induction, counting techniques and discrete probability theory. Prerequisites: CSC 211 with a grade of C or higher; MTH 123 or MTH 130 or MTH 230 or MTH 231 or MTH 235. Crosslisted as: MTH 228.

CSC 229 - Introduction to High Performance Computing (3) (RNL)
2 lecture hours; 2 laboratory hours; 3 credits. An introduction to High Performance Computing. Parallel memory architectures and programming models with an emphasis on the MPI programming model. Issues related to designing parallel programs will be discussed. Examples of how to parallelize simple serial programs will be covered. Prerequisites: CSC 126 with a grade of C or higher.

CSC 235 - Robotic Explorations (3) (RLA)
2 lecture hours; 2 laboratory hours; 3 credits. This course focuses on the theory behind robots and how it applies to
existing platforms in the lab and in the field. Students will be introduced to the fundamentals of robotics. Concepts such as robot architectures, sensing, control, locomotion, and ethics are explored via hands-on exercises using multiple robot platforms. Prerequisite: CSC 126 with a grade of C or higher & MTH 123.

**CSC 270 - Introduction to Scientific Computing (4) (FSWR)**

6 hours; 4 credits. An introductory programming course with an emphasis on real-world engineering and scientific problem solving. Operators, input/output, mathematical functions, control, structures, and arrays. Introduction to programming numerical techniques. Topics may include: interpolation, linear modeling (regression), root finding, numerical integration, solutions to simultaneous equations, graphing, signal processing. Not open to those who have successfully completed CSC 126. (FSWR) STEM. Prerequisite: MTH 231 or MTH 230.

**CSC 305 - Operating Systems Programming Laboratory (1) (RNL)**

2 laboratory hours; 1 credit. Operating systems in practice. History of OS development. Methods of memory, process, file, and device management for specific OS. User command line interface. Developing software applications in OS environment. Prerequisite: (CSC 220 or ENS 362) and CSC 326. Corequisite: CSC 332.

**CSC 310 - Input/Output Operations and File Management (4) (RNL)**

3 class hours, 3 laboratory hours; 4 credits. Files and file structures. Physical versus logical files. Secondary storage devices and system software. Input/output and access techniques. File organizations, indexing and processing. The capabilities of file handling in at least one higher-level programming language will be explored. Prerequisite: CSC 126.

**CSC 315 - Introduction to Database Systems (4) (RLA)**

4 hours; 4 credits. This course is an introduction to database systems with an emphasis on database design and implementation, business data modeling and analysis using modern data modeling languages and tools (i.e. Entity Relationship or UML models), as well as SQL query design and development for efficient and dynamic data processing in database applications. Topics also include fundamental database design techniques, basic concepts, methodologies and best practices for database optimizations and data integrity. Prerequisites: CSC 326 or ISI 300.

**CSC 326 - Data Structures (4) (RNL)**

3 lecture hours, 3 laboratory hours. 4 credits. Fundamental data structures and their implementations, including lists, stacks, queues, priority queues and trees. Recursion, ADTs (abstract data types), algorithms for searching and sorting, basic algorithm analysis. Prerequisites: CSC 211 with a grade of C or higher or ENS 336; a knowledge of C programming language.

**CSC 330 - Object-Oriented Software Design (4) (RNL)**

3 class hours, 3 laboratory hours; 4 credits. Large-scale software design issues, object-oriented design paradigms, encapsulation, polymorphism, inheritance, reusability, and specifics of an object-oriented language and associated development tools. Students will be required to implement a substantial and well-engineered project using an object-oriented language. Prerequisite: CSC 326 with a grade of C or higher.

**CSC 332 - Operating Systems I (3) (RLA)**

3 hours; 3 credits. Introduction to operating systems. Task management and scheduling. Process and data management. Interrupts. Resource allocation and management. Time sharing. Deadlock mutual exclusion, and synchronization. Memory management. (liberal arts and sciences) Prerequisites: CSC 220 with a grade of C or higher or ENS 362, and CSC 326 with a grade of C or higher. Corequisite: CSC 305.

**CSC 334 - Computer System Fundamentals (4) (RNL)**

4 hours; 4 credits. The course covers concepts of hardware and software systems and programming concepts common to the corporate data processing environment. Topics include fundamentals of hardware and software, rudiments of operating systems, and communication between microcomputers and mainframes. Various software application and utility packages utilizing both mainframes and microcomputers will be studied. Prerequisite: CSC 211.

**CSC 346 - Switching and Automata Theory (4) (RLN)**

4 hours; 4 credits. Codes - error checking and correcting capabilities. Boolean algebra, minimization of combinational circuits. Definition and representation of finite state automata and sequential machines. Equivalence of states and machines, congruence, reduced machines, and analysis and synthesis of machines. Prerequisites: CSC 220 with a grade of C or higher. Corequisite: CSC 347 with a grade of C or higher.

**CSC 347 - Computer Circuits Laboratory (1) (RNL)**

2 hours; 1 credit. The design and implementation of circuitry found in modern computers. Physical realizations of

**CSC 382 - Analysis of Algorithms (4) (RLA)**

4 hours; 4 credits. Algorithm development, including running time analysis and correctness arguments. Topics include: asymptotic notation and complexity analysis; use of mathematical techniques to determine the computational complexity of algorithms such as sorting and searching. The course provides an introduction and analysis of elementary graph algorithms and programming techniques such as greedy, backtracking, and dynamic programming. Projects will be assigned to correlate the computational complexity and real-time execution time of the algorithms. Prerequisites: CSC 326 with a grade of C or higher and CSC/MTH 228 with a grade of C or higher and MTH 232.

**CSC 405 - Applied Concepts in Information Systems (4) (RNL)**

(Also BUS 405). 3 class hours, 3 laboratory hours; 4 credits. The course covers applied concepts in information systems. Theory and methodology for the design, development, and implementation of large-scale reliable business software projects; and tools and techniques for managing business software projects will be discussed. Presentations and GUI interfaces will be emphasized. Prerequisites: CSC 326 and BUS 352.

Crosslisted as: BUS 405.

**CSC 420 - Concepts of Programming Languages (4) (RNL)**

4 hours; 4 credits. Definition of programming languages, data types and declaration, storage allocation, statement types, operations, control structures, binding time, procedure, subroutine, function declaration, parameters, string manipulation. Several programming languages will be discussed and problems using these languages will be assigned. Prerequisites: CSC 220 and CSC 326.

**CSC 421 - Internet Data Communications (4) (RNL)**

4 hours; 4 credits. An introduction to the Internet, Internet applications, and computer networking. Examining the key concepts, principles, and technologies that make today's Internet possible. More specifically, it covers Internet design and implementation, layered architectures, network components, applications and related protocols, transport protocols, flow and congestion controls, Internet protocols (IPv4, IPv6), routing algorithms, data link protocols, network programming, and network security. Prerequisites: CSC 326 with a grade of C or higher or ISI 300 Information Structure for Business

**CSC 424 - Advanced Database Management Systems (4) (RNL)**

4 hours; 4 credits. Extend the knowledge of database systems to cover non-traditional databases. Topics covered may include: Parallel system for Online Transaction Processing (OLTP), column stores for Online Analytical Processing (OLAP), transaction management, concurrent and distributed databases (cloud databases), object-oriented and multimedia databases, as well as NoSQL based databases. Use of Hadoop and Map Reduce for cloud databases. Prerequisite: CSC 315 with a grade of C or higher.

**CSC 425 - Shared Memory Parallel Computing (4) (RNL)**

3 lecture hours, 2 laboratory hours; 4 credits. Parallel computing based on shared memory platform. Emphasis will be on shared memory architecture, OpenMP and GPU programming, analysis of correctness and performance of an OpenMP and GPU program, and algorithms that can be used on shared memory systems. The course will include both a theoretical component and a programming component. Prerequisite: CSC 326

**CSC 426 - Applied Cryptography (4) (RNL)**

4 hours; 4 credits. An introduction to cryptography and its applications. The course examines cryptographic primitives that are building blocks of various cryptographic applications. The cryptographic primitives include pseudorandom functions, symmetric cryptography, hash functions and message authentication codes, asymmetric cryptography, digital signatures and key exchange, and protocols. Also covered are implementation issues (e.g., key lengths, key management, standards, etc.), attacks, and a number of real-life applications such as cryptocurrency and blockchain. Prerequisite: CSC 326 with a grade of C or higher or ISI 300 with a grade of C or higher.

**CSC 427 - Advanced Computer Game Programming (4) (RNL)**

4 hours; 4 credits. This course covers advanced principles and practices of computer game programming. The student will be exposed to the different aspects of game development including 2D and 3D asset creation, rendering and animation, sprites, AI for games, programming, and testing. The course emphasizes the hands-on computer programming aspect. Students will work in groups to develop and program games. Prerequisite: CSC 326 with a grade of C or higher.

**CSC 429 - Advanced High Performance Computing (4) (RNL)**

3 class hours, 2 laboratory hours; 4 credits. Foundations of parallel computing. Algorithms for shared- and distributed-
memory systems. Parallel computer architectures, performance, decomposition techniques for parallel algorithms, parallel programming models such as Open MP and MPI models, analytical modeling of parallel algorithms. Classical parallel algorithms and their implementation on parallel machines and performance analysis will be discussed. Prerequisites: CSC 326 with a grade of C or higher.

**CSC 430 - Software Engineering (4) (RNL)**

3 class hours, 2 laboratory hours; 4 credits. Developing large-scale reliable software systems. Theory and methodology for the design and implementation of software systems from requirements analysis through design and implementation, testing, integration, and maintenance. Tools and techniques for all phases of a software system's life cycle will be discussed. Documentation, testing, and management of large-scale systems. A significant project will be required. Prerequisite: CSC 330 with a grade of C or higher.

**CSC 432 - Operating Systems II (4) (RNL)**

4 hours; 4 credits. Concurrent processing. Linear and tree-structured address space. Resource allocation for multiprogramming. Queuing and network control policies. Protection mechanisms. Case studies of various state-of-the-art systems and implementation of a small operating system. Prerequisite: CSC 332.

**CSC 434 - Compiler Construction (4) (RNL)**

4 hours; 4 credits. Review of assembly techniques of symbol table techniques and macros, and of compilation, loading, and execution. One-pass compilation techniques. Translation of arithmetic expressions from prefix form to machine language. Detailed organization of a simple complete compiler. Prerequisites: CSC 330 and CSC 326.

**CSC 435 - Advanced Data Communications (4) (RNL)**

4 hours; 4 credits. Concepts of circuit, packet, and message switched networks; local, campus, metropolitan, and wide area networks; concepts of data transmission; the emerging telecommunications industry, private networks, and integrated services digital networks. Prerequisite: CSC 346.

**CSC 446 - Computer Architecture (4) (RNL)**

(Also ENS 446). 4 hours; 4 credits. Instruction formats and addressing schemes. Arithmetic and logic unit design. Control unit design: hardwired and microprogrammed. Main memory technology. Virtual, high-speed, associative, and read-only memories. Programmable logic arrays. Computer organizations including stack, parallel, and pipeline. System structures: time sharing, multiprocessing, and networking. Digital communications. Input/Output systems; direct memory access. Prerequisite: CSC 346 with a grade of C or higher or ENS 220.

Crosslisted as: ENS 446.

**CSC 450 - Honors Workshop (4) (RNL)**

4 hours; 4 credits. Students, with the approval of the department, work in teams on large-scale projects. Prerequisites: Computer Science major with senior standing and departmental approval.

**CSC 462 - Microcontrollers (4) (RNL)**

(Also ENS 362). 2 class hours, 4 laboratory hours; 4 credits. Introduction to microcontrollers with an overview of the CPU architecture, instruction set, interface with target board, testing and program development using the structured assembly preprocessor. Interrupts and interrupt timing, analog-to-digital conversion and programming of peripheral chips will be some of the concepts covered in this class. Prerequisite: ENS 220 with a grade of C or higher or CSC 346.

Crosslisted as: ENS 362.

**CSC 470 - Introductory Computer Graphics (4) (RNL)**

4 hours; 4 credits. Introduction to the basic concepts and techniques of interactive computer graphics including the hardware and software components of computer graphics systems and mathematical handling of graphical objects. Algorithms for two-dimensional and three-dimensional graphics: windowing, clipping, and transformations. Viewing with parallel and perspective projections. Possible additional topics include: curves and surface modeling; realistic rendering (shading with illumination and material, shadowing, reflection and surface texturing). Prerequisite: CSC 326 with a grade of C or higher.

**CSC 475 - Image Processing in Computer Science (4) (RNL)**

4 hours; 4 credits. An introduction to the basic computational techniques and algorithms of digital image/video processing. The student will learn modern approaches to image acquisition, image enhancement, image compression, and image analysis. Prerequisite: CSC 326 with a grade of C or higher. Corequisite: MTH 338.
CSC 480 - Artificial Intelligence (4) (RNL)
4 hours; 4 credits. General introduction to artificial intelligence. Topics may include intelligent agents, search methods, heuristics, machine learning, logic and robotics. Current topics in artificial intelligence will be introduced. Prerequisite: CSC 326 with a grade of C or higher.

CSC 482 - Discrete Simulation (4) (RNL)

CSC 484 - Theory of Computation (4) (RNL)

CSC 490 - Seminar in Computer Science (3) (RLA)
3 hours; 3 credits. Invited speakers and students will lead discussions on the ethical and societal impact of the computer. Students will write and present papers on current research topics in the computing field. Prerequisite: Computer Science major with senior standing, ENG 151 and CSC 330 with a grade of C or higher.

DAN - Dance

DAN 101 - Contemporary Dance Technique I (2) (RNL)
3 hours; 2 credits. The progressive stages in the development of a technical vocabulary and movement patterns into the art form and expression of modern dance. Each stage develops naturally from the preceding one, contributing to the total advancement of the dance. For beginning students.

DAN 102 - Contemporary Dance Technique II (2) (RNL)
3 hours; 2 credits. The progressive stages in the development of a technical vocabulary and movement patterns into the art form and expression of modern dance. Each stage develops naturally from the preceding one, contributing to the total advancement of the dance. For beginning students. Prerequisite for DAN 102: DAN 101 or permission of the instructor.

DAN 111 - Choreography I (3) (RLN)
3 hours; 3 credits. I: Elements of Composition; II: Dance Composition. The art of the dance as a creative expression that offers students the opportunity to explore the traditional and experimental approach to choreography through interaction of time, space, and energy. It commands a critical judgment of one's own creative experience and expression. For beginning students.

DAN 112 - Choreography II (3) (RLN)
3 hours; 3 credits. I: Elements of Composition; II: Dance Composition. The art of the dance as a creative expression that offers students the opportunity to explore the traditional and experimental approach to choreography through interaction of time, space, and energy. It commands a critical judgment of one's own creative experience and expression. For beginning students. Prerequisite for DAN 112: DAN 111 or permission of the instructor.

DAN 122 - Black Dance Workshop (3) (RNL)
(Also AAD 122). 4 hours; 3 credits. Based on traditions of the peoples of Africa and the Caribbean, this course develops the technical language of Black dance, emphasizing the cultural interaction of native tradition and western influence; the retelling of legends and tales through dance rhythms and symbolism. Crosslisted as: AAD122.

DAN 150 - Dance History: Twentieth-Century (3) (RLA)
(Also AMS 150). 4 hours; 3 credits. Concentrating on the "pioneers of modern dance"Duncan, Denishawn, Graham, Humphrey, Weidman, and others as well as on the experimental and avant-garde, using lectures, demonstrations, video, and film to illustrate examples of outstanding choreography. The course includes the dances of other countries, coordinated with professional concerts and student reports. Includes "Happenings in Today's World of Dance." No dance background required. (arts & com.). Crosslisted as: AMS 150.

DAN 160 - Modern Dance Technique I (1) (RLN)
2 hours; 1 credit. Technical movement skills used in dance to further the appreciation of dance as an art form and experiment with dance movement for the beginning student. Professional dance films will be shown. Open to all students.

DAN 171 - Improvisation I (2) (RLN)
3 hours; 2 credits. Experimenting with movement exploration to help develop sensitivity and creative response through free movement patterns. Simple props sometimes used in improvising.
DAN 172 - Improvisation II (2) (RNL)
3 hours; 2 credits. Experimenting with movement exploration to help develop sensitivity and creative response through free movement patterns. Simple props sometimes used in improvising. Prerequisite for DAN 172: DAN 171 or permission of the instructor.

DAN 180 - International Folk Dance (1) (RNL)
2 hours; 1 credit. Group dancing for both style and pleasure geared to the national characteristics and traditional folk dances from the British Isles, Russia, Germany, Greece, Israel, and the Scandinavian countries.

DAN 184 - Afro-Haitian Rhythms I (2) (RNL)
3 hours; 2 credits. The history, theory, and practice of dance as performed in Haiti and other parts of the Caribbean. This course will introduce the student to the historical and anthropological sources of Afro-Haitian dance, as well as to its choreometrics.

DAN 185 - Afro-Haitian Rhythms II (2) (RNL)
3 hours; 2 credits. The history, theory, and practice of dance as performed in Haiti and other parts of the Caribbean. This course will introduce the student to the historical and anthropological sources of Afro-Haitian dance, as well as to its choreometrics. Prerequisite for DAN 185: DAN 184.

DAN 201 - Contemporary Dance Techniques III (2) (RNL)
3 hours; 2 credits. The progressive stages in the development of a technical vocabulary and movement patterns translated into the art form and expression of modern dance, each stage developing naturally from the preceding one, contributing to the total advancement of the dance. For intermediate students. Prerequisite: DAN 102 or permission of the instructor.

DAN 202 - Contemporary Dance Techniques IV (2) (RNL)
3 hours; 2 credits. The progressive stages in the development of a technical vocabulary and movement patterns translated into the art form and expression of modern dance, each stage developing naturally from the preceding one, contributing to the total advancement of the dance. For intermediate students. Prerequisite: DAN 201 or permission of the instructor.

DAN 211 - Choreography III (3) (RNL)
3 hours; 3 credits. Elements of composition. The art of the dance as a creative expression that offers students the opportunity to explore the traditional and experimental approach to choreography through interaction of time, space, and energy. It commands a critical judgment of one's own creative experience and expression. For intermediate students only. Prerequisite: DAN 112 or permission of the instructor.

DAN 212 - Choreography IV (3) (RNL)
3 hours; 3 credits. Elements of composition. The art of the dance as a creative expression that offers students the opportunity to explore the traditional and experimental approach to choreography through interaction of time, space, and energy. It commands a critical judgment of one's own creative experience and expression. For intermediate students only. Prerequisite: DAN 112 or permission of the instructor.

DAN 231 - Fundamentals of Ballet I (2) (RNL)
3 hours; 2 credits. Using the five fundamental positions of feet and legs, and the associated positions of the arms, a vocabulary of classical ballet is developed and combined into longer dance phrases. Emphasis is placed on fluidity of movement for mastery of expression.

DAN 232 - Fundamentals of Ballet II (2) (RNL)
3 hours; 2 credits. Using the five fundamental positions of feet and legs, and the associated positions of the arms, a vocabulary of classical ballet is developed and combined into longer dance phrases. Emphasis is placed on fluidity of movement for mastery of expression.

DAN 261 - Modern Jazz Dance I (2) (RNL)
3 hours; 2 credits. The course includes basic technique and style of dance used with rhythmic improvisation in contemporary American jazz dance.

DAN 262 - Modern Jazz Dance II (2) (RNL)
3 hours; 2 credits. The course includes basic technique and style of dance used with rhythmic improvisation in contemporary American jazz dance. Prerequisite: DAN 261.

DAN 331 - Private Study in Dance I (2) (RNL)
2 credits. Students interested in the development of style and technical skills necessary for performance may earn credit through study under an approved teacher in repertory class. Evaluation of the work will include performances in dance workshops and concerts. Registration is by permission of a full-time member of the dance faculty. Prerequisite: Permission of instructor.

DAN 332 - Private Study in Dance II (2) (RNL)
2 credits. Students interested in the development of style and technical skills necessary for performance may earn credit through study under an approved teacher in repertory class. Evaluation of the work will include performances in dance workshops and concerts. Registration is by permission of a full-time member of the dance faculty. Prerequisite: Permission of instructor.
DAN 333 - Private Study in Dance III (2) (RNL)
2 credits. Students interested in the development of style and technical skills necessary for performance may earn credit through study under an approved teacher in repertory class. Evaluation of the work will include performances in dance workshops and concerts. Registration is by permission of a full-time member of the dance faculty. Prerequisite: Permission of instructor

DAN 334 - Private Study in Dance IV (2) (RNL)
2 credits. Students interested in the development of style and technical skills necessary for performance may earn credit through study under an approved teacher in repertory class. Evaluation of the work will include performances in dance workshops and concerts. Registration is by permission of a full-time member of the dance faculty. Prerequisite: Permission of instructor

DRA - Drama

DRA 100 - Introduction to Theater (3) (RLA)
3 hours; 3 credits. Students will have an opportunity to gain a basic understanding of theatre. Students will learn about theatre through lectures, readings, viewing, in-class discussions, theatre exercises, presentations, small group creative work and by attending one on-campus theater production and professional performance. (arts & com.)

DRA 110 - Acting I (4) (RNL)
4 hours; 4 credits. An introductory class in acting built on exercises that may include those that develop the physicality, discipline, dramatic imagination, connection to character, and improvisatory skills of the actor. Students may also study beats and units of action, character development, and scene study.

DRA 140 - Theater Studies (4) (RNL)
4 hours, 4 credits. An initial overview of the leading texts, performance styles, and visual aesthetics of theater. The class will include performance work, key dramatic texts and their cultural contexts and production histories, an introduction to dramaturgy, and a focus on learning to write about plays and performance. Students must receive a B or better in this class to proceed with a Drama major. Prerequisite: ENG 151.

DRA 141 - Theater Production (3) (RNL)
3 hours, 3 credits. Introduction to theory of stage design and technical theater through an exploration of types of theaters, different styles of scenery, costume and lighting design, textual analysis from a design point of view, sound effects and sound design, set construction drafting, white models, color wheel, sewing, and fabric swatches. Corequisite: DRA 142.

DRA 142 - Theater Production Lab (1) (RNL)
2 hours, 1 credit. The practical application of design and technical skills to a specific production. Students will work on faculty or student productions, under the supervision of the instructor of Theater Production, and/or other production designers. May be repeated for credit. Pre- or corequisites: DRA 141 and approval of either the instructor or the Performing and Creative Arts Department.

DRA 202 - African American Drama (4) (RLA)
(Also AAD 202). 4 hours; 4 credits. A study of the emergence of Black theater in the United States, including the Harlem Renaissance, the radical theater of the 1960s and 1970s, and the work of contemporary Black playwrights and directors. For African and African Diaspora Studies majors and minors, this is designated as a United States course. Crosslisted as: AFA 202.

DRA 205 - African American Musical Theater (4) (RLA)
(Also AFA 205). 4 hours; 4 credits. A study of the musical theater of African Americans from its early beginnings in African culture to genius manifested in the 19th century, its influence on early vaudeville, its unique contribution to American musical theater, and the present-day popularity of its style. Whenever possible, current productions will be attended and studied in detail. Crosslisted as: AFA 205.

DRA 210 - Acting II (4) (RNL)
4 hours; 4 credits. This class will develop and deepen work begun in Acting I. At the instructor's discretion, students may be introduced to various acting and performance methods. Students will have the opportunity to perform before an audience. Prerequisite: DRA 110.

DRA 215 - Modes of Drama (4) (RLA)
(Also ENH 212). 4 hours; 4 credits. An introduction to the variety of forms and themes of dramatic literature. Major problems treated by dramatists will be examined, as well as genres: tragedy, comedy, farce, melodrama, tragicomedy, and the thesis play. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

DRA 217 - Voice and Diction for Performance Communication (4) (RNL)
4 hours; 4 credits. Concentration on pronunciation, enunciation, accent reduction, diaphragmatic breathing, relaxation techniques, and body alignment. Especially good for anyone considering a career in the public arena,
including politics, management, theater, education, and communications. This may be repeated for credit.

DRA 218 - Movement for Theatre and Performance (4) (RLA)
4 hours; 4 credits. A historical overview of movement styles in the theatre, and a secondary focus on the history of 20th century dance. Students simultaneously engage in developing a critical understanding of the expressive power of movement through embodied practice. The class will expose students to multiple ways of using their bodies as a resource for creative expression, both through established techniques and through exercises to develop individual capacities in sensory awareness, flexibility, presence, rhythm, ensemble movement, use of the variables of time, space and energy. Prerequisite: DRA 110, DRA 140.

DRA 219 - Theatre Learning Lab (4) (RLA)
4 hours; 4 credits. Students will create a research and/or art-based project during a semester in which they have an acting role, or function as stage manager, assistant director, assistant designer, or dramaturg in a department main stage production. With faculty guidance, students will develop their respective projects in a way that is related to their involvement in the production, using provided project categories and guidelines specific to each category. Prerequisite: DRA 140.

DRA 221 - Topics on Production (4) (RNL)
4 hours; 4 credits. A study of the interdisciplinary issues that intersect with the play currently being directed by a member of the theater faculty. Students may also study alternative or updated versions of the play, and experiment with related performance genres. Plays will be chosen specifically for the richness of their historical and cultural scope. The instructor for this course and the director of the play, if they are not the same person, will work together on materials for this course. All students taking this course will be involved in some way in the production itself: as actors, assistant designers, carpenters, lighting technicians, or technical crew. Prerequisite: DRA 140.

DRA 235 - Introduction to Stage Management (3) (RNL)
4 hours; 3 credits. Principles and practices of contemporary stage management. Interprets the function of the stage manager in the entire production process. Identifies the relationship of the stage manager to the director, designers, technical director, actors, stage hands, and costume and properties managers. Specifies responsibilities and practices. Prerequisite: ENG 111.

DRA 241 - Theatrical Imagination (4) (RLA)
4 Credits, 4 Hours. An investigation of theatre as a unique medium that is dependent upon using the imagination in three dimensions through bodies, movement, objects, light and space. The theatrical imagination is the subject of this class as we work to understand specifically what it is, and how we can develop and enrich it. We also want to learn to push on the boundaries of our more familiar images, both of theatre and the world and develop the ability to think theatre in striking and new ways. Not open to students that completed DRA 373. Prerequisite: DRA 140.

DRA 271 - Performance II (3) (RNL)
4 hours; 3 credits. Performance of a play. Students will be involved in various aspects of theatrical presentation. Prerequisite: Permission of the instructor.

DRA 272 - Performance Histories (Ancient to Early Modern) (4) (RLA)
4 hours, 4 credits. Survey of historical performance forms from Egyptian, Sanskrit, and Greek, through the European Medieval theater, Asian theater through 1600, the European Renaissance, and the Spanish Golden Age. Performance will be considered in this class as an integral and vital part of social, political, and cultural dynamics. This survey will put the Western theater tradition in perspective as only one of many traditions that exist, or have existed, across the world at different times. Students who wish to continue in the major should earn a B- or better in the course. (arts & com.) (tala). Prerequisite: ENG 151 or DRA 140. Please Note: this course satisfies the college option.

DRA 273 - Performance Histories (1600-1900) (4) (RLA)
4 hours; 4 credits. A survey of the English Restoration, French Neo-Classicism and the comedies of Molière, and the ensuing century of diverse theatrical forms during the 1700s in England and France. Students will also study Asian and African forms of performance and then the emergence of theater in the U.S., including populist entertainments like the Wild West show, minstrelsy, and melodrama, and move back to Europe for the beginnings of realism and naturalism with Ibsen and Chekhov. Performance will be considered in this class as an integral and vital part of social, political, and cultural dynamics. Students who wish to continue in the major should earn a B- or better in the course. (arts & com.). Prerequisite: ENG 151 or DRA 140. Please Note: this course satisfies the college option.

DRA 274 - Performance Histories (1901-Present) (4) (RLA)
4 hours; 4 credits. A survey of the range of 20th-century performance beginning with the historical avant-garde movements in Europe and the U.S. after World War I. It also includes South Asian Indian, Asian, and/or South Asian performance forms, especially including cross- or intercultural experimentation. It may include the Harlem Renaissance, feminist theater, the experimental theater of
the 1960s and 1970s, Latino theater, Gay theater, political street theater, performance art, image theater, and puppetry. Performance will be considered in this class as an integral and vital part of social, political, and cultural dynamics. Students who wish to continue in the major should earn a B- or better in the course. (arts & com.) (tala). Prerequisite: ENG 151 or DRA 140. Please Note: this course satisfies the college option.

DRA 280 - Performance Industry Structure (4) (RLA)
4 hours; 4 credits. An overview of the current organizations and structures in place nationally for the creation of performance with an emphasis on those in the New York City area. In addition major unions, not-for-profit theaters, producers, practitioners and government organizations will have their structures, history, and functions examined. Through a combination of research and creative projects students will gain an understanding of the reasons for the existing industry structure and how it can be successfully utilized and subverted. Prerequisite: DRA 140.

DRA 305 - Fusions: Theatre and Identity in the 21st Century (4) (RLA)
4 hours; 4 credits. An investigation into current theatre and performance practices which create innovations in issues of identity, including race and ethnicity, gender, sexuality, nationality, and class. Students will look at how theatre companies, playwrights and producing organizations are working at new crossroads to forge specifically 21st century expressions of identity. The course asks how are identities located and unsettles and recombined with regard to geopolitics? How does place re-making happen? How does shared space provide opportunity for community/communality that re-shapes identity politics? And how do we understand our own position with regard to re-negotiations between identity, politics and performance? Prerequisite: DRA 140 and (DRA 272 or DRA 273 or DRA 274).

DRA 306 - Text/Performance/Adaptation (4) (RLA)
4 hours; 4 credits. An advanced course in theatrical literature and performance. Students will read three foundational Western plays from each of three historical contexts during which theatrical production was especially intense and innovative; Athenian, Renaissance, and the mid-20th century avant-garde, or equivalents. These plays provide a platform from which to understand how these texts have generated new work across cultural, temporal, geopolitical and affective frames. The course moves through the practice of reading the traditional and classic "play" to its inter-connective and inter-textual qualities as performance at multiple sites and situations. Students will both be exposed to these foundational plays and understand their complexities as active, social and performed entities. Prerequisite: DRA 140 and (DRA 272 or DRA 273 or DRA 274).

DRA 310 - Acting III (3) (RNL)
4 hours; 3 credits. Work on scenes, encouraging the actor to explore a variety of characters and to perform them before an audience. Prerequisite: DRA 210.

DRA 314 - Media Workshop for Actors/Directors (4) (RNL)
(Also COM 314).4 hours; 4 credits. An examination of the actor/director relationship as it applies in the various media: stage, film, and television. Students will have an opportunity to work both as actors and directors. New work from writing classes will be encouraged for student projects. Crosslisted as: COM 314.

DRA 315 - Theater and Education (4) (RLA)
4 hours; 4 credits. A theoretical and experiential approach to the ways that theater can be used as a tool by elementary and secondary school teachers. Students will study excerpts of key texts and learn theatrical games and exercises for application in the classroom. Prerequisite: Any 200-level ENH course.

DRA 321 - Directing (4) (RNL)
4 hours; 4 credits. An introduction to the complex art of directing. Students will begin by considering the question of what it is that a director does, and developing a range of directing skills in conceptualizing a design and preparing materials to direct a scene. Students are required to act in the scenes and exercises directed by other students. Prerequisites: DRA 110, DRA 373.

DRA 331 - Design for the Theater (4) (RNL)
4 hours; 4 credits. An overview of design practices in theater history with a combined emphasis on developing student skills in conceptualizing a design and preparing materials to present that design.

DRA 345 - Spanish Theater (4) (RLA)
(Also SPN 345). 4 hours; 4 credits. Discussion of ideas, background, and staging traditions of representative Spanish-language plays from the Golden Age to the present. The course is taught in English. Readings and assignments in Spanish required for majors; readings and assignments may be done in English for non-majors. (literature) (TALA). Prerequisite: (SPN 313 or equivalent for those doing readings and assignments in Spanish), (ENG 151 or a 200-level English course for those doing readings and assignments in English). Please Note: this course satisfies the college option. Crosslisted as: SPN 345.
DRA 350 - Theater for Social Action (4) (RLA)
4 hours; 4 credits. A survey of the history and practice of community-based theater. Theater groups like the San Francisco Mime Troupe, El Teatro Campesino, At the Foot of the Mountain, and The Heart of the Beast, will be studied as examples of how the significance of theater as an art form can be expanded through a commitment to social justice and aesthetic diversity. Prerequisites: DRA 110 and DRA 272 or DRA 273 or DRA 274.

DRA 352 - Theater and Therapy (4) (RNL)
4 hours; 4 credits. An overview of how theater and theater techniques can be applied for therapeutic needs and as an alternative to violence. Through exercises, students will be encouraged to experience their physicality, develop their ability to express their emotions, and to nurture individual insight and awareness of themselves and others. The work of Augusto Boal will form the foundation for the course. Prerequisite: DRA 110 or any 200-level ENH course.

DRA 354 - English Drama to 1800 (4) (RLA)
(Also ENL 354). 4 hours; 4 credits. Selected works with emphasis on Elizabethan and Jacobean drama (exclusive of Shakespeare), and Restoration and 18th-century drama. Prerequisite: An ENH 200-level course or ENL 290. Crosslisted as: ENL 354.

DRA 355 - Modern European Drama (4) (RLA)
(Also ENL 355). 4 hours; 4 credits. A study of the major dramatists of the modern European theater, with an emphasis placed upon the development of dramatic styles and themes, as well as the theatrical context in which the plays were produced. Prerequisite: An ENH 200-level course or ENL 290. Crosslisted as: ENL 355.

DRA 356 - American Drama (4) (RLA)
(Also ENL 356). 4 hours; 4 credits. Readings of plays by O'Neill, Williams, Miller, and others who have dramatized the conflicts and predicaments of 20th-century Americans. Prerequisite: An ENH 200-level course or ENL 290. Crosslisted as: ENL 356.

DRA 357 - World Drama to 1800 (4) (RLA)
(Also ENL 357). 4 hours; 4 credits. Selected plays from the Greeks to 1800. Prerequisite: An ENH 200-level course or ENL 290. Crosslisted as: ENL 357.

DRA 358 - World Drama since 1800 (4) (RLA)
(Also ENL 358). 4 hours; 4 credits. Selected plays from 1800 to the present. Prerequisite: An ENH 200-level course or ENL 290. Crosslisted as: ENL 358.

DRA 359 - Contemporary Drama (4) (RLA)
(Also ENL 359). 4 hours; 4 credits. Major figures, works, and movements in dramatic literature since World War II, with special emphasis on the last two decades. Prerequisite: An ENH 200-level course or ENL 290. Crosslisted as: ENL 359.

DRA 361 - The Early Shakespeare (4) (RLA)
(Also ENL 361). 4 hours; 4 credits. A selection of Shakespeare's work written before 1600: early and middle comedies, the major histories, the earlier tragedies, and the poems. Prerequisite: An ENH 200-level course or ENL 290. Crosslisted as: ENL 361.

DRA 362 - The Later Shakespeare (4) (RLA)
(Also ENL 362). 4 hours; 4 credits. A selection of Shakespeare's work written after 1600: the major tragedies, the problem plays, the late comedies and romances. Prerequisite: An ENH 200-level course or ENL 290. Crosslisted as: ENL 362.

DRA 375 - New Performance (4) (RNL)
4 hours; 4 credits. A consideration of artists who work in performance art, solo performance, puppetry, performance-choreography, and performance-technology. Students will create their own works in one or more of these genres. Each student will be expected to write original performance texts. Students are welcome to work with video, film, and or Web-based technology in this class. Prerequisites: DRA 110, DRA 373.

DRA 380 - Women in Performance (4) (RLA)
(Also WGS 380). 4 hours; 4 credits. This class is a study of performing women, in particular women performance artists, who have made a significant difference in helping women's images and voices to achieve greater representation in culture as a whole. Students will study works by the artists, reviews and critical writing about the works, and create their own performances. Prerequisite: Any 200-level ENH or WGS course. Crosslisted as: WGS 380.

DRA 410 - Acting IV (3) (RNL)
4 hours; 3 credits. Work on more complex scenes leading to their performance before an audience. Prerequisite: DRA 310.
DRA 425 - The Golden Age of Spanish Drama (4) (RLA)
(Also SPN 425). 4 hours; 4 credits. Works by Cervantes, Lope de Vega, Tirso de Molina, Guillén de Castro, Mira De Amescua, Ruiz de Alarcón, Calderón de la Barca, Rojas Zorrilla, Agustín Moreto, and others. (literature) (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.
Crosslisted as: SPN 425.

DRA 426 - Classical French Drama (4) (RLA)
(Also FRN 426). 4 hours; 4 credits. Plays of Corneille, Racine, Molière, with special emphasis on the continuing role of Molière in the world's theater. (literature) (TALA). Prerequisite: (FRN 313 or equivalent for those doing readings and assignments in French); (ENG 151 for those doing readings and assignments in English) and at least two 300-level courses in dramatic literature or English. Note: This course satisfies the college option.
Crosslisted as: FRN 426.

DRA 465 - Spanish Theater in the 20th Century (4) (RLA)
(Also SPN 465). 4 hours; 4 credits. Principal tendencies in Spanish theater in the 20th century. Including an analysis of the major works of dramatists such as Benavente, Valle-Inclán, García Lorca, Mihura, Buero Vallejo, Alfonso Sastre, Carlos Muniz, Lauro Olmo, Arrabal, Antonio Gala, and others. (literature) (TALA). Prerequisite: SPN 313 or equivalent. Dramatic Literature concentrators should also consider: ENL 272 Playwriting I, ENL 373 Playwriting II, and ENL 435 Playwright's Workshop. Please Note: this course satisfies the college option.
Crosslisted as: SPN 465.

DRA 470 - Junior Project (4) (RNL)
4 hours; 4 credits. Student-initiated work that extends and develops his or her area of interest. Proposed to and supervised by a faculty member, a student might wish to develop an acting scene or monologue, direct a scene or one-act, design a puppetry piece, or performance installation, do a theater-based video piece, design a one-act, design a puppetry piece, or performance installation, do a theater-based video piece, design a one-act, design a puppetry piece, or performance installation, do a theater-based video piece, design a one-act, design a puppetry piece, or performance installation. The project is undertaken by an individual student, but that student may ask other students to participate in his or her project. Sophomores may be granted permission by a faculty member to do stage management and get credit for the Junior Project. Prerequisite: Permission of instructor.

DRA 480 - Senior Seminar (4) (RLA)
4 hours; 4 credits. An advanced course for seniors taught by members of the Drama faculty according to faculty specialties in the field of theatre and performance. Course content will therefore be different in each class, but will be expected to introduce students in a rigorous way to contemporary scholarship, research and artistic practice within a particular area of interest. Students will meet in a seminar format, discussing in-depth readings and independent research. The class is a capstone for students, allowing them to accomplish a final level of research skills and critical practice necessary for post-graduation work. Additionally, some class meetings will be devoted to a presentation of post-graduation options for students, with the goal of aiding students in understanding how they can most effectively continue on in pursuit of their interests and capacities. Prerequisite: (Two courses from the DRA 272, DRA 273, DRA 274) and two 300-level DRA courses.

EAS - East Asian Studies

EAS 245 - Introduction to Asian Traditions (4) (RLA)
4 hours; 4 credits. Introduction to the philosophical texts and ideas found in the traditions of China, Japan and India. The focus is on Confucian, Daoist, Buddhist, Shinto and Samurai thought. Themes addressed include: the nature of reality and human nature, the self, knowledge, how to live well, and the good society. Where possible, comparisons will be made with classical Greek and European Enlightenment thinkers. Prerequisites: A 100-level philosophy course in philosophy or sophomore standing; ENG 111, COR 100. NOTE: This course may be used to satisfy the East Asian Studies Minor.
Crosslisted as: PHL 245.

EAS 344 - Eastern Philosophy (4)
(Also PHL 344). 4 hours; 4 credits. An inquiry, both theoretical and experiential, into the great philosophies of the Far East. Readings selected from the classical writings of Hinduism, Buddhism, Confucianism, and Taoism. Attention will also be paid to such modern thinkers as Gandhi and Mao Zedong. (p&d) (TALA). Prerequisite: At least one 200-level course in philosophy or permission of the department. Please Note: this course satisfies the college option. NOTE: This course may be used to satisfy the East Asian Studies Minor.
Crosslisted as: PHL 344.
ECO - Economics

ECO 101 - Introduction to Economics (3) (FISR)
3 hours; 3 credits. An examination of the principles of economics in the context of the operation of the United States economy. Both microeconomic theory (behavior of firms and households) and macroeconomic theory (total output, inflation, employment and unemployment, economic growth) will be introduced as will economic approaches to social problems. (FISR). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test.

ECO 111 - Introduction To Microeconomics (4) (RLA)
4 hours; 4 credits. An introduction to microeconomic concepts and analysis. Topics include: theory of the consumer, theory of the firm, choice under uncertainty, inter-temporal decisions, perfect competition, monopoly and monopsony, monopolistic competition, oligopoly and game theory, markets with imperfect information, and externalities and public goods. Application of analytical tools to current economic problems. Pre- or corequisite: MTH 030 or an appropriate score on the CUNY Mathematics Assessment Test.

ECO 112 - Introduction to Macroeconomics (4) (RLA)
4 hours; 4 credits. An introduction to basic macroeconomic concepts such as national income accounting, levels of output and employment, government spending, taxation, debt, money supply, inflation, interest rates, exchange rates and trade balance. The course will provide a unified framework to address these issues and to study the impact of different fiscal and monetary policies on the aggregate behavior of individuals, firms and government. These analytical tools will be used to understand the recent experience of the United States and other countries and to address how current policy initiatives affect their macroeconomic performance. Pre- or corequisite: MTH 030 or an appropriate score on the CUNY Mathematics Assessment Test.

ECO 210 - Intermediate Microeconomics (4) (RLA)
4 hours; 4 credits. A rigorous examination of the optimizing behavior of individual consumers and firms, the coordination of individual decisions through markets, and the evaluation of market outcomes. Emphasis is placed on deviations from perfect competition due to market power, strategic interdependence, externalities, asymmetric information, imperfect rationality, and on applications of microeconomic theory to policy debates. Prerequisites: ECO 111 and (MTH 121 or MTH 123).

ECO 212 - Intermediate Macroeconomics (4) (RLA)
4 hours; 4 credits. Aggregate economic analysis from the classical and the modern post-Keynesian point of view. The major objective is an understanding of the factors that determine the levels of national income, output, employment, overall prices, and rates of economic growth. The roles of consumption, investment, and alternative governmental policies are demonstrated. Measurement of national income and output is also studied. Prerequisites: ECO 112 and (MTH 121 or MTH 123).

ECO 213 - Money and Capital Markets (4) (RLA)
(Also FNC 213). 4 hours; 4 credits. The course examines financial markets from the standpoint of investors and users. Markets studied are those for money market instruments, T-bill futures, Ginnie Mae futures, T-bond futures, stocks, stock options, bonds, mortgages, and Eurocurrencies. Federal Reserve operations, U.S. Treasury operations, and international financing are considered with regard to their effects on financial markets. Prerequisites: Successful completion of CUNY Assessment Test in Reading and Writing or equivalent and ECO 101 or (ECO 111 and ECO 112).

Crosslisted as: FNC 213.

ECO 214 - Money and Banking (4) (RLA)
(Also FNC 214). 4 hours; 4 credits. An analytical, institutional, and historical examination of the monetary systems of the United States. Particular attention will be paid to the operation of commercial banks, and to the powers, purposes, and performance of the Federal Reserve System. The influence of the quantity of money on the level of economic activity will be considered. Prerequisites: Successful completion of the CUNY Assessment Test in Reading and the CUNY Assessment Test in Writing and ECO 101 or (ECO 111 and ECO 112).

Crosslisted as: FNC 214.

ECO 230 - Introduction to Economic and Managerial Statistics (4) (RLA)
(Also MGT 230). 4 hours; 4 credits. Development and application of modern statistical methods, including such elements of descriptive statistics and statistical inference as correlation and regression analysis, probability theory, sampling procedures, normal distribution and binomial distribution, estimation, and testing of hypotheses. Prerequisites: Successful completion of the CUNY Assessment Test in Writing and the CUNY Assessment Test in Reading and (ECO 101 or ECO 111 or ECO 112) and (MTH 121 or MTH 123 or higher ) and (BUS 150 or BUS 215 or BUS 250 or CSC 102 or CSC 126).

Crosslisted as: MGT 230.
ECO 231 - Quantitative Analysis of Business and Economic Problems (3) (RLA)

(Also BUS 230). 3 hours; 3 credits. The application of mathematical techniques to business and economic problems. An introduction to operations research, linear programming, PERT, and related materials. Prerequisites: MGT 110 and 230.

Crosslisted as: BUS 230.

ECO 240 - Managerial Finance I (3) (RLA)

(Also FNC 240). 3 hours; 3 credits. Examination of securities markets, analysis of methods of long-term financing, financial ratio analysis, budgeting, current asset management, present value concepts, capital budgeting, cost of capital, and dividend policy. Prerequisite: ECO 101 or ECO 111 and ECO 112). Pre- or corequisite: ACC 121 and (MTH 121 or higher).

Distribution: N. Crosslisted as: FNC 240.

ECO 250 - International Economics (4) (RLA)

4 hours; 4 credits. A study of the effects and causes of trade between nations. Tariffs and non-tariff barriers to free trade will be analyzed, as will the effect of common markets on international trade. Historical patterns of international trade, and the theory and evidences of imperialism will be considered. The course will include an introduction to the financial aspects of international trade. (cont. wld.) (social science). Prerequisites: ECO 101 or ECO 111 and ECO 112). Pre- or corequisite: ACC 121 and (MTH 121 or higher).

Crosslisted as: GEG 252.

ECO 251 - International Political Economy (4) (RLA)

(Also POL 251). 4 hours; 4 credits. This course examines the relationships among nation states, corporations, and key international trade and financial organizations in today's global environment. It also examines how globalization and world politics affect distribution of economic wealth and, in turn, how economic growth/changes affect world politics and the global order. (social science) (cont. wld.) (p&d). Prerequisites: At least one political science or economics course, ENG 151, COR 100. Please note: This course satisfies the college option.

Crosslisted as: POL 251.

ECO 252 - Economic Geography (4) (RLA)

(Also GEG 252). 4 hours; 4 credits. Examination of how geographic factors influencing economic activity, and culture, technology, resources, location, and labor intersect to produce different economic environments, and how globalization and local conditions interact. For Geography majors this is designated as a topics course. (social science) (cont. wld.) NOTE: This course satisfies the College Option. Prerequisites: ENG 151, COR 100.

ECO 253 - United States History Economic History (4) (RLA)

(Also HST 253). 4 hours; 4 credits. A survey of the development of the U.S. economy and the factors influencing the pace of long-run economic growth. Key changes in technology, business organization, financial markets, and legal and government policy that have influenced the course of U.S. economic development are examined. For history majors and minors, this is designated as a United States history course. Prerequisites: ENG 111, COR 100 and (ECO 101 or ECO 111 or ECO 112 or any college-level history course.)

Crosslisted as: HST 253.

ECO 256 - Analysis of Underdeveloped Areas (4) (RLA)

4 hours; 4 credits. An examination of economic problems confronting underdeveloped countries and the exploration of possible solutions. Historical perspectives of economic development and general theories of retardation followed by specific policy issues facing economic planners. Problem areas to be discussed include social capital, agriculture, industry, manpower utilization, fiscal policy, foreign aid, and the interaction of political, social, and cultural factors as they affect economic development. (social science) (p&d) NOTE: This course satisfies the College Option. Prerequisites: ECO 101 or (ECO 111 and ECO 112), ENG 111, COR 100. Please note: This course satisfies the college option.

ECO 257 - The Japanese Economy (4) (RLA)

4 hours; 4 credits. This course explores factors that influence the contemporary economy of Japan: historical components, including the Meiji Restoration and the expansion of the Japanese empire, World War II and the post-war Allied occupation, more recent components, principles of Japanese business, management style, government-business relations, education, labor relations, trade restrictions and agreements, and influence on the U.S. economy, and Japanese goals. (social science) (p&d). Prerequisites: ENG 111, ECO 101 or (ECO 111 and ECO 112), COR 100. Please note: This course satisfies the college option.

ECO 261 - Labor Relations (4) (RLA)

(Also MGT 261). 4 hours; 4 credits. History, theories, structure, and objectives of trade unionism. Grievance procedures, collective bargaining, union power, strikes and other weapons, mediation and arbitration. Government regulation of the labor sector. Students will participate in the re-enactment of actual arbitration cases. Crosslisted as: MGT 261.
ECO 285 - Economics for Engineers (4) (RLA)
4 hours; 4 credits. An accelerated calculus-based course. Introduction to contemporary macroeconomic and microeconomic theory. Topics include output, unemployment, inflation, functioning of markets, government policy, and productivity. The course concludes with engineering applications. (social science) NOTE: This course satisfies the College Option. Prerequisites: ENG 111, COR 100; (MTH 230 or MTH 231 or MTH 235), (CSC 126 or CSC 270 or other evidence of equivalent proficiency with computers).

ECO 291 - Political Economy of War and Peace (4) (RLA)
(Also POL 268). 4 hours; 4 credits. An interdisciplinary introduction to political and economic decision making as it concerns national defense spending, focusing on such issues as the "military-industrial complex," the draft, a volunteer army, the question of national priorities, the impact of war and peace on such economic problems as inflation, recession, employment, growth, and the federal budget. Prerequisite: ENG 111.

ECO 296 - History of American Business (4) (RLA)
4 hours; 4 credits. The history of business in American life; theories of business evolution; the role of business in shaping American social institutions and values; the effect of the American social, political, and economic environment upon business thought and practice. Prerequisite: ENG 111.

ECO 315 - Monetary Theory and Policy (4) (RLA)
(Also FNC 315). 4 hours; 4 credits. Theoretical and applied problems of monetary policy. Emphasis is placed on contemporary developments. Current controversies concerning the use of monetary policy, relationship to fiscal policy, and impact on economic activity. Prerequisites: ECO 212 and either ECO 213/FNC 213 or ECO 214/FNC 214.

ECO 318 - Economic and Business Forecasting (4) (RLA)
4 hours; 4 credits. Forecasting the nation's economy and economic trends over the short term and the longer term. Also forecasts of business trends and sales of individual businesses will be considered within the economic framework. Prerequisites: ECO 111, ECO 112, ECO/MGT 230.

ECO 323 - Introduction to Econometrics (4) (RLA)
(Also MGT 324). 4 hours; 4 credits. This course will examine the relationship between economic theory and statistical measurement. It will deal mainly with the general linear regression and correlation model. A selected number of other statistical tools will also be treated. Emphasis will be on the understanding of the concepts rather than on their mathematical derivation. Prerequisites: ECO 111, ECO 112 and ECO 230/MGT 230 or permission of the instructor.

Crosslisted as: MGT 324.

ECO 326 - Introduction to Mathematical Economics (4) (RLA)
4 hours; 4 credits. The use of mathematical analysis in solving economic problems. Methods of calculus, matrix algebra, deductive logic, and elementary set theory will be developed and employed to understand the equilibrium of the market, firm, and consumer. The uses and misuses of the mathematical method in economics will also be discussed. Prerequisites: ECO 111, ECO 112, ECO 210, ECO, 212 and (MTH 121 or MTH 123 or the equivalent)

ECO 327 - Intermediate Mathematical Economics (4) (RLA)
4 hours; 4 credits. A continuation of ECO 326. Differential and difference equations, elementary dynamic models and stability of equilibrium, rigorous development of modern microeconomic and macroeconomic theory using the mathematical approach. Prerequisite: ECO 326 or permission of the instructor.

ECO 330 - Public Finance (4) (RLA)
4 hours; 4 credits. Analysis of the causes and effects of government expenditure and taxation in the United States economy. Some treatment of determination of optimal types and amounts of government expenditure on goods and services, but greater emphasis on various types of taxation examined for equity, efficiency, role in fiscal policy, and effect on productive effort. Some attention to standards of income distribution and to inter-governmental fiscal relationships in the United States. Prerequisite: ECO 210.

ECO 331 - Law and Economics (4) (RLA)
(Also POL 331). 4 hours; 4 credits. Fundamental concepts of economics, especially efficiency, will be utilized to explain and evaluate legal rulings. The tools of economics will be employed to analyze not only tort, contract, and property principles, but also marriage and divorce law, criminal law, and constitutional issues such as abortion, the death penalty, and racial and gender-based discrimination. Prerequisites: ECO 101 or ECO 111 or ECO 112 and BUS 160 or any two POL courses.

Crosslisted as: POL 331.

ECO 332 - Health Economics (4) (RLA)
4 hours; 4 credits. The demand and supply of medical care; the dynamics of competition in the health care industry, the role of government in medical care; general understanding
of health care institutions, including Medicare, Medicaid, managed care, hospital and physician behavior, and pharmaceutical markets; and healthcare reform. Prerequisites: ENG 111; ECO 101 or ECO 111; and sophomore standing.

ECO 333 - Economics and Philosophy (4) (RLA)
(Also PHL 333). 4 hours; 4 credits. This course will cover topics that overlap in the fields of economics and philosophy. It will enlighten economics majors about the philosophical underpinnings of economics and introduce philosophy majors to the more "thoughtful" aspects of economics. Topics discussed will include: rational choice and ethics; social welfare; justice, efficiency, and equity; social choice; and game theory. Prerequisites: ENG 111 and any introductory-level economics or philosophy course.

Crosslisted as: PHL 333.

ECO 335 - Behavioral Economics (4) (RLA)
4 hours; 4 credits. This course surveys the most salient dimensions known to the discipline of Behavioral Economics. It compares the traditional behavioral approaches in economics with those developed in recent times. Students in this course are introduced to various human irrationalities, their prevalence, causes, and economic consequences. Behavioral biases discussed in this class include sunk-cost fallacy, present-biased preferences, status quo bias, self-serving bias, gambler's fallacy, inequity aversion, reciprocity, endowment effect, disposition effect, greed and fear, and herd behavior. The course also encompasses the important implications of the above mentioned biases on several economic facets of social life such as saving and investment for retirement, insurance, education, and race and gender wage discrimination. Prerequisites: ENG 151 and ECO 210.

ECO 336 - Industrial Organization (4) (RLA)
4 hours; 4 credits. The rise and development of industrial combinations and their effect on the structure and performance of the United States economy; models of monopoly and oligopoly pricing; analysis of the power of monopoly and oligopoly in relation to efficient allocation of resources, technological growth, inflation, and political influence; causes and effects of mergers; government policies aimed at the preservation of competition in industrial markets; and regulation of trade practices. Prerequisites: ECO 210 and ECO 230.

ECO 338 - Government and Business (4) (RLA)
4 hours; 4 credits. The relationship between government and business in the United States will be investigated under three general headings: antitrust policy, regulation, and the promotion of specific business interests. Theoretical issues, historical developments, political and economic interrelationships, legislation and its judicial and quasijudicial interpretation relevant to each area will be explored. Prerequisite: ECO 210.

ECO 345 - Managerial Finance II (4) (RLA)
(Also FNC 345). 4 hours; 4 credits. Working capital management, current asset management, sources of short-term financing, financial structure and use of leverage, valuation and rates of return, dividend policy and internal financing, mergers and acquisitions, and liquidation; includes computer lab for solving financial management problems. Prerequisites: ECO 240/FNC 240 and MGT 230/ECO 230.

Crosslisted as: FNC 345.

ECO 352 - Comparative Economic Systems (4) (RLA)
4 hours; 4 credits. An analysis of economic systems through formulation of abstract economic models and an analysis of actual economic societies, including comparison of capitalism and socialism. Prerequisites: ECO 101 or ECO 111 or ECO 112 and at least two other courses in the social sciences.

ECO 356 - Economic Growth and Development (4) (RLA)
4 hours; 4 credits. This course studies cross-country development patterns using an analytical framework grounded in economic theory. The topics covered include population growth, technological progress and its international diffusion, globalization, income inequality, natural resource misallocation, government policy, political institutions, corruption, and their connection with economic growth and development. A wealth of economic data and case studies from developed and developing countries are presented and analyzed using theoretical models of economic development. Pre-Requisite: (ECO 101 or ECO 111), ECO 112, ENG 151.

ECO 360 - Investment Analysis (4) (RLA)
(Also FNC 360). 4 hours; 4 credits. Survey of the principles governing the investment of individual and institutional capital funds: the theory and mechanics of investments, general analysis and valuation procedures including quantitative and qualitative tests for judging security values, valuation to fixed income securities and common stocks. Introduction to the analysis of industrial, public utility, and governmental securities. Management of an individual investor's portfolio. Prerequisites: ECO 345/FNC 345 and FNC 213/ECO 213 or FNC 214/ECO 214.

Crosslisted as: FNC 360.

ECO 361 - Labor Economics (4) (RLA)
4 hours; 4 credits. A critical examination of theories of wage determination; factors responsible for wage differentials;
Courses | 245

the effect of unionism upon wages; empirical trends in wage differentials and average wage levels; wage push inflation, unemployment, minimum wage laws, and automation; human capital, educational expenditures, and manpower analysis. Prerequisites: ENG 151, ECO 111 and ECO 230/MGT 230.

ECO 370 - International Finance (4) (RLA)
(Also FNC 300). 4 hours; 4 credits. The financial interrelationship between countries. Analysis of balance of payments, fixed and flexible exchange rates exchange rates, the role of international reserves. Historical trends in payments and exchange; implications of the rise of the multinational corporation; current international policy problems facing the United States, other developed nations, and underdeveloped nations, and current institutional changes designed to meet them. Prerequisite: FNC 240/ECO 240.

Crosslisted as: FNC 300.

ECO 376 - Non-Profit Institution (4) (RLA)
4 hours; 4 credits. The finances, management, and decision making of such nonprofit institutions as the university, school systems, governmental departments, hospitals, and foundations. The effects of the nonprofit institution upon society. Evaluation of the achievements of nonprofit institutions. Prerequisite: ECO 101 or ECO 111 and ECO 112.

ECO 385 - Engineering Economics (4) (RLA)
4 hours; 4 credits. Applications of economic theory and operations analysis in the formulation of business policies and decisions. Marginal and incremental analysis of business opportunities, demand analysis and forecasting, production and price setting, capital budgeting and investment analysis, and regulation of business. Introduction to the techniques and applications of econometrics and linear programming. Not open to students who have successfully completed ECO 387. Prerequisite: MTH 121 or MTH 123 or equivalent.

ECO 387 - Managerial Economics (4) (RLA)
4 hours; 4 credits. Applications of economic theory and operations analysis in the formulation of business policies and decisions. The course will include marginal and incremental analysis of business opportunities, demand analysis and forecasting, production and price setting, and regulation of business. Introduction to the techniques and applications of econometrics and linear programming will also be included. Topics will be studied through consideration of actual business cases and problems. Not open to students who have successfully completed ECO 385. Prerequisites: MTH 121 or 123 or equivalent and ECO 210.

ECO 388 - Economics of Natural Resources and the Environment (4) (RLA)
4 hours; 4 credits. An economic approach to the problems of depleting natural resources and environmental pollution. Intertemporal allocation of resources, recycling, renewable resources, energy, pollution, acid rain, global warming, ozone depletion. The role of markets and the role of government. Prerequisite: ECO 210.

ECO 389 - Economics and Technology (4) (RLA)
4 hours; 4 credits. The economics of research and development in the single firm and the economy as a whole. Implications for society will be explored. Topics will include: determinants of research and development expenditures by the firm, selection and management of research and development projects, technological forecasting, the role of government and nonprofit organizations in research and development, the economics of the patent system, antitrust legislation, and technological innovation. Prerequisite: ECO 101 or ECO 111 or ECO 112.

ECO 390 - History of Economic Thought (4) (RLA)
4 hours; 4 credits. The development of economic thought from antiquity to modern times. Emphasis on the contrast and similarities between such divergent schools of thought as mercantilism, the physiocratic school, the classical school, the socialist school, the historical school, and the neoclassical school. Prominent thinkers such as Aristotle, Aquinas, Mun, Hume, Quesnay, Adam Smith, Ricardo, Malthus, Mill, Cournot, von Thunen, Marx, Menger, Jevons, Walras, Marshall, Keynes, Samuelson, Schumpeter, and von Hayek will be discussed, as well the periodic resurgence of various themes and the links between economic thought and economic history. Prerequisites: ECO 101 or ECO 111 or ECO 112.

ECO 392 - Urban Economics (4) (RLA)
4 hours; 4 credits. Economic factors in the emergence of urban centers and historical changes in their economic functions. Determinants of the size and location of cities and the occupational characteristics of the urban labor force. Analysis of the proper economic scope of local government and the financing of its expenditures. Allocating and pricing public services. Aspects of urban renewal and study of the urban ghetto. Prerequisites: ECO 210 and ECO 230.

ECO 395 - Foundations of Modern Capitalism (4) (RLA)
4 hours; 4 credits. An examination of the historical and intellectual origins of capitalist society, the role of capitalism in the growth and development of modern industrial society, an evaluation of the future of capitalism. Prerequisites: ECO 101 or ECO 111 or ECO 112 and at least two other courses in the social sciences.
ECO 410 - Seminar in Economic Analysis (4) (RLA)
4 hours; 4 credits. Selected topics in economic theory including production theory, capital theory, welfare economics, growth theory, and investment in human capital. Students prepare detailed presentations and analyses of classic works for discussion and evaluation. Prerequisites: ECO 210 and 212 and ECO 323.

ECO 490 - Senior Seminar in Geography, Economics, Political Science, and Philosophy (4) (RLA)
(Also GEG 490/PHL 490/POL 490). 4 hours; 4 credits. Selected topics in which ideas and approaches from economics, political science, philosophy, and geography either mesh or collide will be explored. Required of all students expecting to graduate with honors in Political Science, Economics, Philosophy, or Geography, but not limited to these students. Prerequisite: Senior standing and completion of at least 16 credits in intermediate and advanced social science courses and permission of the instructor.

Crosslisted as: POL 490 and PHL 490.

EDC - Education: Early Childhood

Note: Student teaching courses are graded Pass/Fail.

EDC 105 - Introductory Seminar on Infants and Toddlers in Early Childhood Education (1) (RNL)
1 Credit. A seminar to provide teacher candidates’ opportunities to observe early childhood education settings for young children (especially focusing on infant and toddlers), learning about young children’s development and learning, appropriate environment, and developmentally appropriate practice. The one-week seminar is held in two different early childhood sites for five full days. This course is graded Pass/Fail. Prerequisites: GPA of 3.0. Pre or corequisite: ENG 111

EDC 108 - Introduction to Early Childhood Education (3) (RNL)
3 hours; 3 credits. An introduction to Early Childhood curriculum patterns, activities, and materials as related to young children’s growth, development, and learning. Deals with a study of early childhood programs, curriculum and practice, including play-based learning, early childhood environment, and application of developmental theories for learning and teaching young children. Discussions of contemporary issues are placed in the context of the history of early childhood curriculum and curriculum theory. This course includes 20 hours of fieldwork. Pre- or corequisites: EDC 105 Pre- or corequisite: ENG 111

EDC 215 - Psychological Foundations of Early Childhood Education (3) (RLA)
3 hours; 3 credits. An examination of the developing child, focusing on the period from birth through age eight, with an introduction to children with special needs. Major developmental theories are critically examined and are illuminated through students’ field experiences with children in diverse and inclusive settings. Recent research on child abuse and abduction is examined within the context of the teacher’s responsibilities. This course includes fifteen hours of fieldwork prior to student teaching. (LAS) Prerequisites: ENG 151, PSY 100 and a GPA of 3.0.

EDC 217 - Affective Development of the Child (3) (RNL)
3 hours; 3 credits. An examination of the relationship between the infant and the primary caretaker, and its importance in personality development. Influences on the primary relation, broadening of affectional ties; comparison of child rearing across and within cultures. Students learn to use a variety of observational approaches and recording techniques to increase their understanding of children who are developing normally and children with disturbances in development. School and community partnerships are explored for their emotional impact on children. Diverse infant and toddler programs are studied through 20 hours of fieldwork. Prerequisites: EDC 215 and a GPA of 3.0 or above.

EDC 218 - Language and Literacy in the Early Childhood Curriculum (3) (RNL)
3 hours; 3 credits. The course examines early communication and spoken and written language in the early childhood curriculum (infancy through prekindergarten), by providing (1) an overview of how very young learners communicate and learn language, including English language learners, (2) an inquiry-based focus on practices and curricula that promote communication, talk, and emergent literacy in educational settings for children with a range of abilities, and (3) a sociocultural framework for teaching in the diverse contexts in which teachers and children can work toward social justice. This course includes one day of field work per week. Prerequisites: EDC 108, EDC 215 and a GPA of 3.0

EDC 310 - Reading and Writing in the Primary Grades (3) (RNL)
3 hours; 3 credits. An examination of early communication and spoken and written language in the early childhood curriculum (infancy through prekindergarten), by providing (1) an overview of how very young learners communicate and learn language, including English language learners, (2) an inquiry-based focus on practices and curricula that promote communication, talk, and emergent literacy in
educational settings for children with a range of abilities, and (3) a sociocultural framework for teaching in the diverse contexts in which teachers and children can work toward social justice. This course includes one day of field work per week. The course examines the theory, research, and practice of teaching reading and writing in primary (K-2) classrooms. Students (1) are aware of how children develop as listeners, speakers, readers, and writers—cognitively, socially, linguistically, culturally; (2) become familiar with a variety of instructional practices that support young literacy learners; and (3) develop a working knowledge of assessment-driven literacy instruction. In addition, several critical topics and themes are foundational to the course: working closely with families; valuing cultural diversity; exploring genre and author studies; and, developing literacy curricula for democratic classrooms. A fieldwork component of one half day per week is included. NOTE: This course has a material fee. Prerequisites: EDC 218 and a GPA of 3.0 or above. Corequisite: EDP 220

EDC 316 - Social Contexts of Early Childhood Education (3) (RLA)

3 hours; 3 credits. A required multidisciplinary course for prospective early childhood teachers. Perspectives from such academic disciplines as philosophy, history, sociology, anthropology, political science, and economics are brought to bear on early childhood education in its relationships with contemporary society and with later education. The major purpose of this course is to bring the student to an understanding, through readings and reflection on the student teaching experience, of how values, attitudes, and structures in society as a whole influence the education of young children. Prerequisites: EDC 340, EDC 342 and a GPA of 3.0. Corequisites: EDC 360 and EDC 440.

EDC 332 - Creative Arts in an Integrated Early Childhood Curriculum (3) (RNL)

3 hours; 3 credits. Learn how to integrate Creative Arts—music, rhythmic movement, dramatic play, and visual arts—in an early childhood curriculum. Students learn to select materials and develop creative activities that are developmentally appropriate for the needs of young children in pre-K and primary grades. A variety of media and computer technologies are explored to determine how they can enhance musical experience. This course includes fieldwork practices in early childhood education setting(s). Field experience in this course is linked with student teaching. Prerequisites: EDC 440; and a GPA of 3.0 or above. Corequisite: EDC 441.

EDC 340 - Early Childhood Mathematics Education (3) (RNL)

3 hours; 3 credits. Focus on enabling early childhood teacher candidates to gain an understanding of a developmentally appropriate approach to design and implement mathematical concepts in an inclusive setting which considers the varying abilities of young students, the integration of instructional technology into the curriculum, and multiple approaches to the assessment of learning. In this course, preservice teachers will explore the importance of play as an essential context for children’s mathematical learning experiences. The role of context, culture, and language will also be explored as they relate to the development of Mathematical concepts, strategies, and emergent models in the early years. For this course and its corequisite, students will spend a total of two half-days per week in the field. NOTE: This course has a material fee. Prerequisites: EDC 310, MTH217/SLS 217 and a GPA of 3.0. Corequisites: EDC 342.

EDC 342 - Teaching Science As Inquiry in Early Childhood (3) (RNL)

3 hours; 3 credits. Teacher candidates will learn how to plan and implement meaningful and developmentally appropriate thematic investigations that educate and challenge young children. Teacher candidates will be guided in planning and implementing a curriculum and developing experiential environments that will actively engage children so that they ask questions, investigate, pose challenges, solve problems, make discoveries, as well as enhance and extend their understanding of scientific concepts. Teacher candidates will also learn a range of strategies used by children with special needs. Informal and formal assessment tools will be presented as well as classroom management strategies for whole-class and small-group instruction. The course will also examine educational technology in early childhood science instruction for its usefulness and developmental flexibility. NOTE: Students will spend a total of two half-days per week in the field. Prerequisite: EDC 310; SLS 261; and a GPA of 3.0 or above. Corequisite: EDC 340.

EDC 350 - Fieldwork in Preschool Classrooms (2) (RNL)

2 credits. This field-based course introduces students to preschool classrooms in diverse and inclusive settings. This course connects practice with prior education coursework and is especially related to the content of EDC 218 Language Development through an Integrated Curriculum. In addition, students are given opportunities both to observe and to practice long- and short-term curriculum planning that reflects specific provisioning for children with special needs and linguistically diverse children. Students also practice a variety of observational approaches and recording techniques in order to assess the development of individual children. Students are observed interacting with small and larger groupings of children. Alcohol, tobacco, and drug abuse, and other dangers to children are discussed within the context of pre-natal and infant development with specific attention paid to the teachers' role and responsibilities.
Students will be in attendance at the assigned school three mornings a week for a full semester, which accounts for 150 hours of fieldwork prior to student teaching. This is graded Pass/Fail. Prerequisites: EDC 215, EDC 216, and a GPA of 3.0 or above. Pre- or corequisite: EDC 217, EDC 218.

EDC 360 - Social Studies in Early Childhood Education (3) (RNL)

3 hours; 3 credits. The Social Studies for the early childhood curriculum includes the developmentally appropriate application for all the National, State and NAEYC standards to its core curriculum. A solid background in the Social Studies for the young learner will provide a solid foundation for later education in civic responsibility, decision making and character development. Therefore, the main focus of this course is to expose teacher candidates to a wide range of approaches to connect the Social Studies content, teaching and learning to foster development of knowledge, skills and dispositions of the Social Studies, in early childhood students. Formal and informal assessment tools, thematic planning, as well as classroom management strategies for whole-class and small group interaction are included. Field experience in this course is linked with student teaching. Prerequisites: EDC 310, EDC 340; and a GPA of 3.0 or above. Corequisite: EDC 440.

EDC 402 - Reflection and Analysis in Student Teaching (Early Childhood) (2) (RNL)

2 hours; 2 credits. This course is designed to supplement and enhance student teaching responsibilities occurring in EDC 440. Candidates will have an opportunity to synthesize information learned throughout their program and produce and deliver meaningful, effective lessons addressing diverse learners and learning styles, as well as state and local standards. The course will also focus on assessing student learning and integrating technology into instruction. Several sessions will be devoted to New York City Licensing and New York State Certification requirements for the reporting of child abuse and maltreatment, in addition to drug, alcohol and violence prevention training. Prerequisites: EDC 217, EDC 310, EDC 332, EDC 340, EDC 350, EDC 360; SLS 218 and SLS 262 and a GPA of 3.0 or above. Corequisite: EDC 440. In addition, students must meet each of the following criteria: An overall grade point average of 3.0, A grade point average of 3.0 in all education courses, A minimal grade of C+ in all education courses, Three faculty recommendations, at least one from a professor who can attest to your performance in the field, and Satisfactory fieldwork evaluations.

EDC 412 - Reading in Primary and Upper Elementary Classroom II (3) (RNL)

3 hours; 3 credits. The objective of this course is to enable students to apply principles of reading instruction to the actual field situation for individual children. Conferences and field supervision. Prerequisites: EDC 215, EDC 216, EDC 310, and a GPA of 3.0 or above.

EDC 440 - Student Teaching and Seminar in Early Childhood Education I (2-4) (RNL)

2-4 credits: 2 hours. Practice and problem-solving in early childhood classrooms, pre-K through 2. Designed for public schools. Students will be in attendance at the assigned school 2.5 days per week for a complete semester. Students will be observed provisioning and interacting with small and larger groupings of children. Students meet once a week for two hours in a seminar to reflect upon the educational philosophies they have studied and the methodologies they are currently implementing in their own classrooms as they develop their own approaches to teaching and learning. Application for a student teaching assignment must be completed and filed with the Student Teaching Office the semester preceding the semester in which the student plans to student teach. Students must also submit three letters of recommendation from full-time Education faculty. Graded Pass/Fail. Prerequisites: EDC 340, EDC 342, and a GPA of 3.0. Corequisites: EDC 360, EDC 316. In addition, students must meet each of the following criteria: A grade point average of 3.0 in all education courses, A minimal grade of C+ in all education courses, Three letters of recommendation from full-time Education faculty, at least one from a professor who can attest to your performance in the field, and Satisfactory fieldwork evaluations.

EDC 441 - Student Teaching and Seminar in Early Childhood Education II (3) (RNL)

3 credits. Practice and problem-solving in early childhood classrooms, pre-K through 2. Designed for public schools. Students will be in attendance at the assigned school three half and two full days a week for a full semester. Candidates meet once a week for two hours in a seminar to synthesize information learned throughout their program and produce and deliver meaningful, effective lessons addressing diverse learners and learning styles, as well as state and local standards. The course will also focus on assessing student learning and integrating technology into instruction. Several sessions will be devoted to New York State Certification and New York City Licensing requirements, including required workshops. Application for a student teaching assignment must be completed and filed with the Student Teaching Office the semester preceding the semester in which the student plans to complete EDC 441. Graded Pass/Fail. Prerequisites: EDC 360, EDC 316, EDC 440, SLS 218, SLS 262, and a cumulative GPA of 3.0. Corequisite: EDC 332. In addition, students must meet each of the following criteria: A grade point average of 3.0 in all education courses, A minimal grade of C+ in all education courses, Three letters of recommendation from full-time Education faculty, at least one from a professor who can
attest to your performance in the field, and Satisfactory fieldwork evaluations.

**EDD - Education: General**

Note: Student teaching courses are graded Pass/Fail.

**EDD 252 - History of Education in the United States (4) (RLA)**

(Also HST 252). 4 hours; 4 credits. The history and social foundation of American education. Topics include: the historical development of American public schools, the schools and race, the social function of compulsory schooling, the expansion of higher education in the post-World War II period, and the conceptual differentiation between schooling as socialization and education for personal growth. (social science) (p&d). Prerequisites: ENG 111, COR 100, or college-level history course. Please Note: This course satisfies the college option.

Crosslisted as: HST 252.

**EDP - Education: Special**

Note: Student teaching courses are graded Pass/Fail.

**EDP 220 - Special Educational Needs of People with Disabilities (3) (RLA)**

3 hours; 3 credits. This course is required for teacher certification. The course examines current trends, including state and federal laws and regulations related to special education, in providing special education services to individuals (pre-school, school-age, adult) with developmental disabilities. The approach of the course follows the process of assessment, instructional planning, instruction and evaluation of instruction in each of four areas of development disabilities: sensory disabilities, physical disabilities, communication disabilities and behavioral disabilities. The emphasis is placed on understanding instructional techniques, and how they meet the needs of the students with developmental disabilities. (pd) (SOCIAL SCIENCE)Pre-requisite: ENG 111. Please Note: This course satisfies the college option.

**EDP 311 - Survey of Exceptional Children II (4) (RLN)**

4 hours; 4 credits. The first half of this course provides an orientation to the physical, social, and psychological aspects and educational needs of students with physical handicaps and emotional disturbances, while the second half considers these aspects as they apply to students with learning disabilities and mental retardation. The survey includes philosophy, history, classification, characteristics, etiology, and special educational provisions as well as psychological and educational assessment procedures in special education. Active fieldwork experiences are required.

**EDS - Education: Secondary**

Note: Student teaching courses are graded Pass/Fail.

**EDS 201 - Social Foundations of Secondary Education (4) (RLA)**

4 hours; 4 credits. This course examines the historical, philosophical, and cultural roots of contemporary education. The issues of race, class, gender, ability, immigration, and language acquisition are examined for their impact on the learning of adolescents. The course deepens students' understanding of the power that social, political, and economic forces have on the work of teachers and on the lives of adolescents, families, and communities. Students spend fifteen (15) hours in diverse and inclusive educational environments examining the relationship between theory and practice. (LAS). Prerequisites: Sophomore standing and a GPA of 3.0 or above.

**EDS 202 - Psychological Foundations of Secondary Education (4) (RLA)**

4 hours; 4 credits. This course examines major theories of pre-adolescent and adolescent development, with emphasis on implications for education. Major theories of development and the interaction between cognitive, emotional, and physical development are emphasized. Adolescents will be considered in the context of the larger community, with attention to language, culture, gender, and socioeconomic factors. Fifteen (15) hours of fieldwork in diverse and inclusive secondary educational settings increase the student's awareness of children with special needs and the implications for classroom learning. (LAS). Prerequisites: Sophomore standing including three credits of psychology and a GPA of 3.0 or above.

**EDS 298 - Teacher Academy Fieldwork Seminar (1) (RLN)**

1 hour; 1 credit. This seminar will focus on several aspects of development as a professional educator and the work that an educator does as identified in Continuum of Teacher Development. It will support and deepen understandings acquired during fieldwork experience in host schools undertaken before the student begins a formal education.
program. Particular focus will be on identifying answers to the questions: What kind of a learner am I? How will this influence my teaching? How does a teacher reach students who have different learning styles? Aspiring teachers will continually reflect on their host school experience. Pre- or corequisite: Permission of the Office of Fieldwork in the CSI School of Education, Department of Curriculum and Instruction. Open only to Teacher Education Honors Academy students.

**EDS 299 - Education Fieldwork Seminar (1) (RNL)**

1 credit. A focus on several aspects of development as a professional educator and the work that an educator does as identified in Continuum of Teacher Development. It will support and deepen understandings acquired during fieldwork experience in host schools undertaken before the student begins a formal education program. Particular focus will be on identifying answers to the questions: What kind of a learner am I? How will this influence my teaching? How does a teacher reach students who have different learning styles? Aspiring teachers will continually reflect on their host school experience. Pre- or corequisite: Permission of the Office of Fieldwork in the CSI Department of Education, a minimum of 50 hours of fieldwork along with the seminar.

**EDS 301 - The Pedagogy of Secondary School in Social Studies (4) (RNL)**

4 hours; 4 credits. Students explore a range of effective and differentiated strategies for designing, implementing, and assessing teaching and learning in the secondary social studies classroom. Issues of language and literacy acquisition related of the social studies are discussed and the uses of technology are highlighted. A fieldwork component of 35 hours is included. Prerequisites: EDS 201, EDS 202, EDS 315, and a GPA of 3.0 or above.

**EDS 302 - The Pedagogy of Secondary School in English (4) (RNL)**

4 hours; 4 credits. Issues of teaching and learning English language arts and literature are examined with attention to planning, instruction, assessment, management, and the educational application of technology. Reading and learning activities and literature depicting multicultural settings are explored in relation to developing strategies for instruction and providing for students' differing special needs. A fieldwork component of 35 hours is included. Prerequisites: EDS 201, EDS 202, EDS 316, and a GPA of 3.0 or above.

**EDS 303 - The Pedagogy of Secondary School in Mathematics (4) (RNL)**

4 hours; 4 credits. Issues of teaching and learning mathematics are examined with attention to planning, instruction, assessment, management, and the application of technology. Mathematical concepts, structures, and language are explored in relation to developing strategies for instruction and providing for students' differing special needs. A fieldwork component of 35 hours is included. Prerequisites: EDS 201, EDS 202, EDS 317, and a GPA of 3.0 or above.

**EDS 304 - The Pedagogy of Secondary School in Science (4) (RNL)**

4 hours; 4 credits. Issues of teaching and learning science are examined with attention to planning, instruction, assessment, management, and the educational application of technology. Scientific concepts, structures, and language are explored in relation to developing strategies for instruction and providing for students' differing special needs. A fieldwork component of 35 hours is included. Prerequisites: EDS 201, EDS 202, EDS 318, and a GPA of 3.0 or above.

**EDS 305 - The Pedagogy of Secondary School in Foreign Language (4) (RNL)**

4 hours; 4 credits. Issues of teaching and learning a foreign language are examined with attention to planning, instruction, assessment, management, and the educational application of technology. Issues of language acquisition, written and oral communication, and grammar are explored in relation to developing strategies for instruction and providing for students' differing special needs. A fieldwork component of 35 hours is included. Prerequisites: EDS 201, EDS 202, EDS 319, and a GPA of 3.0 or above.

**EDS 307 - Discovery Learning and Interdisciplinary Instruction (4) (RNL)**

4 hours; 4 credits. Development of a conceptual understanding of the teaching of transcending content defined by its subject areas. Discovery learning is explored and used to bridge the school disciplines and to address the different strengths and needs of adolescents. Students in Mathematics, English, History, Spanish, Biology, and Chemistry majors work together to create integrated curricula as relevant research on child development and learning is discussed. A thirty-five- (35) hour fieldwork component is included. Prerequisites: EDS 201, EDS 202, and a GPA of 3.0 or above. Corequisite: EDS 301 or EDS 302 or EDS 303 or EDS 304 or EDS 305. Distribution: N.

**EDS 315 - The Secondary School Curriculum in the Social Studies (4) (RNL)**

4 hours; 4 credits. This course focuses on the social studies curriculum for the secondary school and calls upon the students' preparation in the History major to inform their study, particularly with respect to the selection, scope, and sequence of topics. In this way, the curriculum is examined from the specialist's standpoint. Central to this examination
is the process of transforming knowledge of contact and curriculum for the purpose of teaching and learning. Topics include general principles for developing a social studies curriculum, connections to state and national standards, and resources for teaching the social studies. A field work component of 35 hours is included. Prerequisite: EDS 201, EDS 202, and a GPA of 3.0 or above; Admission into Adolescence Education program; History major.

**EDS 316 - The Secondary School Curriculum in English (4) (RNL)**

4 hours; 4 credits. This course focuses on the English curriculum for the secondary school and calls upon the students' preparation in the English major to inform their study, particularly with respect to the selection, scope, and sequence of topics. In this way, the curriculum is examined from the specialist's standpoint. Central to this examination is the process of transforming knowledge of contact and curriculum for the purpose of teaching and learning. Topics include general principles for developing an English curriculum, connections to state and national standards, and resources for teaching English. A field work component of 35 hours is included. Prerequisite: EDS 201, EDS 202, and a GPA of 3.0 or above; Admission into Adolescence Education program; English major.

**EDS 317 - The Secondary School Curriculum in Mathematics (4) (RNL)**

4 credits; 4 hours. This course focuses on the mathematics curriculum for the secondary school and calls upon the students' preparation in the Mathematics major to inform their study, particularly with respect to the selection, scope, and sequence of topics. In this way, the curriculum is examined from the specialist's standpoint. Central to this examination is the process of transforming knowledge of contact and curriculum for the purpose of teaching and learning. Topics include general principles for developing a mathematics curriculum, connections to state and national standards, and resources for teaching mathematics. A field work component of 35 hours is included. Prerequisite: EDS 201, EDS 202, and a GPA of 3.0 or above; Admission into Adolescence Education program; Mathematics major.

**EDS 318 - The Secondary School Curriculum in Science (4) (RNL)**

4 hours; 4 credits. This course focuses on the science curriculum for the secondary school and calls upon the students' preparation in the Biology or Chemistry major to inform their study, particularly with respect to the selection, scope, and sequence of topics. In this way, the curriculum is examined from the specialist's standpoint. Central to this examination is the process of transforming knowledge of contact and curriculum for the purpose of teaching and learning. Topics include general principles for developing a science curriculum, connections to state and national standards, and resources for teaching science. A field work component of 35 hours is included. Prerequisite: EDS 201, EDS 202, and a GPA of 3.0 or above; Admission into Adolescence Education program; Biology or Chemistry or Earth Science or Physics major.

**EDS 319 - The Secondary School Curriculum in Foreign Language (4) (RNL)**

4 hours; 4 credits. This course focuses on the foreign language curriculum for the secondary school and calls upon the students' preparation in the Spanish and Italian Studies majors to inform their study, particularly with respect to the selection, scope, and sequence of topics. In this way, the curriculum is examined from the specialist's standpoint. Central to this examination is the process of transforming knowledge of contact and curriculum for the purpose of teaching and learning. Topics include general principles for developing a foreign language curriculum, connections to state and national standards, and resources for teaching a language other than English. A field work component of 35 hours is included. Prerequisite: EDS 201, EDS 202, and a GPA of 3.0 or above; Admission to the Adolescence Education program; Spanish or Italian Studies major.

**EDS 400 - Student Teaching in Secondary Education (6) (RNL)**

6 credits. Practice and problem solving in student teaching in secondary schools. Students are required to be in attendance at an assigned school full-time, (8:30am-3:00pm) five days per week for one full semester. Students will have a grades 7-9 and a grades 10-12 placement. Application for a student teaching assignment must be filed with the Student Teaching Office the semester preceding the semester in which the student plans to student teach. Students must also submit three letters of recommendation from full-time Education faculty. To be taken concurrently with EDS 401. Graded Pass/Fail. Prerequisites: EDS 201, EDS 202 and (EDS 315 or EDS 316 or EDS 317 or EDS 318 or EDS 319) and (EDS 301 or EDS 302 or EDS 303 or EDS 304 or EDS 305). Corequisite: EDS 401. In addition, students must meet each of the following criteria: An overall grade point average of 3.0; a grade point average of 3.0 in all education courses; a minimal grade of C+ in all education courses; three faculty letters of recommendation, at least one from faculty in the student's major. Satisfactory fieldwork evaluations.
EDS 401 - Reflection and Analysis in Student Teaching in Secondary Education (2) (RNL)

2 hours; 2 credits. Student teachers reflect upon the educational philosophies that they have studied and the methodologies that they are implementing as they develop their own philosophical approaches to teaching and learning. The teacher's role in developing environments that are safe and nurturing as well as intellectually stimulating and challenging for all students is examined. Hazards to children, including child abuse and substance abuse, will be discussed. To be taken concurrently with EDS 400. Prerequisite: A GPA of 3.0 or above.

EDS 402 - Std Tchg/Sec Ed Para (6) (RNL)

See Catalog For Description.

ELT - Electrical Technology

ELT 113 - Introduction to Electronics (1) (RNL)

3 laboratory hours; 1 credit. Introduction to the study of electronics. Diode and transistor characteristics are discussed and used in the construction of an electronic device. Students design, photo-etch, and assemble a printed circuit. Characteristics of the device and component voltages are measured. Prerequisite: MTH 030 or equivalent or higher.

ELT 114 - Computer-aided Technology (1) (RNL)

3 laboratory hours; 1 credit. Application of computer-based tools and simulations to analyze testing and debugging of electrical circuits and systems. Introduction to building virtual instruments. Acquisition and measurements of electrical signals and data analysis through virtual instruments. Pre- or corequisite: ELT 113

Distribution: N.

ELT 224 - Electrical Circuit Analysis (4) (RNL)

4 hours; 4 credits. This course begins with physical electrical concepts and continues through the analysis of various specific circuit configurations with dc and ac sources. Topics include resistance capacitance, and inductance in series, parallel, and series-parallel connection, transient circuit analysis, ac analysis using phasors, single and polyphase power concepts, resonance and filters, network theorems, and transformer theory. Applications for the various circuits will also be discussed. Pre- or corequisites: MTH 030 and ENS 102; or MTH 123 or higher.

ELT 225 - Electrical Circuit Analysis Laboratory (1) (RNL)

3 hours; 1 credit. Laboratory experiments will be performed using various instruments from analog meters to the digitizing oscilloscope. Experiments will be based upon validating the theory of ELT 224 Electrical Circuit Analysis as well as demonstrating the applications of the various circuit configurations. A detailed laboratory report will be written and/or oral presentation will be required for the experiments. Pre- or corequisite: ELT 224.

ELT 331 - Electronics Laboratory (1) (RNL)

3 laboratory hours; 1 credit. Semiconductor circuitry and electronics laboratory instrumentation. Transistor amplification, biasing, and frequency response. Transistor power amplifiers. Power supplies. Negative feedback and linear integrated circuit amplifiers. Introduction to computer-aided circuit analysis using the personal computer. Prerequisites: ELT 113, ELT 224. Pre- or corequisites: ELT 334.

ELT 334 - Electronics (3) (RNL)

3 hours; 3 credits. Physics and characteristics of semiconductor solid state devices. Analysis and application of transistor circuits. Time varying signal behavior of solid device circuits and systems including power applications and frequency response. Introduction to modulation and communications. Prerequisites: ELT 113, ELT 224, MTH 123 or higher.

ELT 345 - Microprocessor Laboratory (1) (RNL)

3 laboratory hours; 1 credit. Experiments including register, memory, and stack operation. Data and address bus structure, signature analysis and other fault location techniques. Introduction to microprocessor trainers based on 8085 and 2920 and logic analyzers will be used. Pre- or corequisite: ELT 344.

ELT 437 - Electrical Power Transmission and Distribution (4) (RNL)

2 hours lecture, 4 hours laboratory; 4 credits. Power and three-phase circuits power transmission, and transformers. Real and reactive power, power flow and power handling capacity of parallel lines. Long haul high voltage power transmission. Power distribution between two parallel lines. Three-phase distribution transformer configurations. Prerequisite: ELT 331

ELT 442 - Computer Hardware Technology (4) (RNL)

3 class hours, 3 laboratory hours; 4 credits. Study of the electrical and mechanical function of computer systems such as the advanced personal computer. Hardware and software principles are explored. Topics include memory, video, communication, disk drives, printer, keyboard, assembler software, and debugging tools. Includes hands-on work with computer hardware and peripherals. Prerequisite: ENS 221 or CSC 347.
ELT 466 - Telecommunications Systems Engineering (4) (RNL)
2 hours lecture, 4 hours laboratory; 4 credits. Communication system overview; signals, noise & impairments; frequency, phase and bandwidth. Analog & digital signal formats; modulation & demodulation techniques. Data communication systems. Transmission lines and RF techniques; fiber optic components & systems. Multiple access for mobile communications. Prerequisites: ENS 221. Preor corequisite: ENS 331.

ENG - English (ENG)

CUNY Assessment Test in Reading and CUNY Assessment Test in Writing

Students who fail the CUNY Assessment Test in Reading on entrance are required to take the appropriate 0-level reading course in their first semester.

Students who score 6 on the CUNY Assessment Test in Writing on entrance are required to take the appropriate 0-level writing course within their first 12 equated credits.

Students who score 5 or below on the CUNY Assessment Test in Writing on entrance are required to take the appropriate 0-level writing course within their first eight equated credits.

Students needing remediation are expected to complete the remedial courses that qualify them to enter college-level writing courses in one year, which may include, in addition to two semesters, a pre-freshman and a post-freshman Summer Immersion course and a Winter Intersession. Students for whom English is a second language (ESL students) have two academic years to pass the assessment tests in reading and writing. The tests are administered at the end of most academic interventions that students complete (remedial courses, Summer Immersion, January Intersession, or tutorial workshops).

000: Remedial and Developmental

0-Level Courses in Reading and Writing for Native Speakers of English

The following courses above are designed for native speakers of English who fail the CUNY Assessment Test in Reading and/or the CUNY Assessment Test in Writing.

ENG 001
ENG 002
ENG 003
ENG 004
ENG 014

0-Level Courses in Reading and Writing for Non-Native Speakers of English

The following courses are designed for those students who are not native speakers of English who fail the CUNY Assessment Test in Reading and/or the CUNY Assessment Test in Writing.

ENG 007
ENG 008
ENG 009
ENG 010
ENG 037
ENG 039

ENG 001 - Developmental Writing I (0)
4 hours; 0 credit, 4 equated credits. Intensive work in writing with fluency and correctness in a variety of modes, both informal and formal. Prerequisite: Failing the CUNY Assessment Test in Writing (CAT-W).

ENG 002 - Basic Reading (0)
4 hours; 0 credit, 4 equated credits. Intensive work on reading, both fiction and nonfiction. Emphasis on decoding, fluency, and accuracy. Frequent writing. Prerequisites: Failing the Accuplacer and/or interview and placement by the English Department Developmental Coordinator or designer.

ENG 003 - Developmental Writing II (0)
4 hours; 0 credit, 4 equated credits. Intensive work in revising, proofreading, and editing. Prerequisites: Failing the CUNY Assessment Test in Writing (CAT-W) and/or earning a passing grade in ENG 001.

ENG 004 - Developmental Reading (0)
4 hours; 0 credit, 4 equated credits. Introduction to college-level reading and techniques for improving comprehension. Frequent writing. Prerequisites: Failing the Accuplacer and either earning a passing grade in ENG 002 or interview and placement by the English Department Developmental Coordinator or designer.

ENG 007 - Developmental English for Non-Native Speakers (0)
4 hours; 0 credit, 4 equated credits. Intensive work in oral and written expression. Prerequisites: Failing the CUNY Assessment Test in Writing (CAT-W) and/or interview and placement by the English Department ESL Coordinator or designer.
ENG 008 - Developmental Writing for Non-Native Speakers of English (0)

4 hours; 0 credit, 4 equated credits. Intensive work in writing. Prerequisites: Failing the CUNY Assessment Test in Writing (CAT-W) and/or interview and placement by the English Department ESL Coordinator or designer.

ENG 009 - Basic Reading for Non-Native Speakers of English (0)

4 hours; 0 credit, 4 equated credits. Intensive study of the sounds and spellings of English. Prerequisites: Failing the Accuplacer or interview and/or placement by the English Department ESL Coordinator or designer.

ENG 010 - Developmental Reading for Non-Native Speakers of English (0)

4 hours; 0 credit, 4 equated credits. Introduction to college-level reading. Techniques for vocabulary expansion will be stressed. Prerequisites: Failing the Accuplacer or interview and/or placement by the English Department ESL Coordinator or designer.

ENG 014 - Reading For College (0)

4 hours; 0 credit, 4 equated credits. Intensive work in college-level reading and techniques for improving comprehension. Frequent writing. An additional hour each week will be scheduled in the English Department Skills Center for instruction and practice in test taking. Prerequisites: Failing the Accuplacer and either earning a passing grade in ENG 004 or interview and placement by the English Department Developmental Coordinator or designer.

ENG 037 - Writing for Non-Native Speakers of English (0)

4 hours; 0 credit, 4 equated credits. Practice in writing the complete essay with review of necessary basic skills. Prerequisites: Failing the CUNY Assessment Test in Writing (CAT-W) and/or interview and placement by the English Department ESL Coordinator or designer.

ENG 039 - Reading for Non-Native Speakers of English (0)

4 hours; 0 credit, 4 equated credits. Emphasis on comprehension of longer fictional and textbook material. Prerequisites: Failing the CUNY Assessment Test in Reading, interview and placement by English Department ESL coordinator or designer.

ENG 111 - Introduction to College Writing (3) (RECR)

4 hours; 3 credits. Introduction to and development of critical and analytic writing/reading/thinking skills through class discussion of student work and selected texts. Intensive instruction in techniques for the planning, drafting, revising, and editing of college-level expository essays. Introduction to using the various research options available at the CSI Library. Prerequisite: Successful completion of the CUNY Assessment Test in Reading and the CUNY Assessment Test in Writing. (RECR).

ENG 151 - College Writing (3) (RECR)

4 hours; 3 credits. This course builds on the work of ENG 111. It emphasizes expository and analytic writing and longer papers. Attention to reading, library skills, and research methods. Sections may be focused on particular themes, to be announced in the Semester Information. (RECR). Prerequisites: ENG 111 and Successful completion of the CUNY Assessment Test in Reading and the CUNY Assessment Test in Writing.

ENH - English (ENH)

ENH 201 - British Literature to 1800 (4) (RLA)

4 hours; 4 credits. A study of British literature in its cultural context from the early periods through the 18th century. (literature) (TALA). NOTE: This course satisfies the College Option. Prerequisite: ENG 151.

ENH 202 - British Literature since 1800 (4) (RLA)

4 hours; 4 credits. A study of British literature in its cultural context since the early 19th century. Readings may include literature from Ireland, Scotland, and parts of the British Commonwealth in addition to literature from England. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 203 - Literary History of the United States to 1855 (4) (RLA)

4 hours; 4 credits. American literary expression, ranging from the histories of the Puritans to the poetry of Walt Whitman, studied in the context of the developing American culture. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 204 - Literary History of the United States since 1855 (4) (RLA)

4 hours; 4 credits. A history of American literary expression, ranging from the poetry of Dickinson to the novels of Hemingway and Faulkner. Special attention will be given to placing the works in the context of the developing American culture. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite:ENG 151.
ENH 205 - Classics of European Literature (4) (RLA)
4 hours; 4 credits. A study of the principal forms, themes, and values of older European literature from Greek times to the Renaissance. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 206 - Classics of Modern World Literature (4) (RLA)
4 hours; 4 credits. A study of major works and movements in modern and contemporary world literature. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 207 - Asian Literatures Before 1900 (4) (RLA)
4 hours; 4 credits. A study of works from Asia before the 20th century organized according to specific themes and issues. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 208 - Contemporary Literature (4) (RLA)
4 hours; 4 credits. An examination of important figures and trends in literature since World War II. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 209 - Literature and Global Cultures (4) (RLA)
4 hours, 4 credits. This course will investigate the traditions of cultural production that arose around the world during the last 100 years, focusing on artistic forms including fiction, nonfiction, theater, music, and film. For English majors and minors, this is designated as an ENH literature course. (cont. wld.) (literature) (TALA). Please Note: This course satisfies the college option. Prerequisites: COR 100, ENG 151.

ENH 210 - Introduction to Fiction (4) (RLA)
4 hours; 4 credits. An examination of various types of fiction. Special attention to such elements as plot, character development, setting, theme, point of view, style. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 211 - Introduction to Poetry (4) (RLA)
4 hours; 4 credits. A critical study of the variety of poetry, focusing on such recurring themes as the artist, the hero, belief and alienation, self and society, fantasy and reality, and love. For English majors and minors, this is designated as an ENH literature course. For African and African Diaspora Studies majors and minors, this is designated as a United States course. (literature) (p&d) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 212 - Introduction to Drama (4) (RLA)
(Also DRA 215). 4 hours; 4 credits. An introduction to the variety of forms and themes of dramatic literature. Major problems treated by dramatists will be examined, as well as genres: tragedy, comedy, farce, melodrama, tragicomedy, and the thesis play. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

Crosslisted as: DRA 215.

ENH 213 - Introduction to Nonfiction (4) (RLA)
4 hours; 4 credits. An examination of great works of prose focusing on the ways they have been used to illuminate the self and society. Readings will be drawn from a variety of nonfiction genres such as autobiography, biography, letters and journals, journalism, essays, criticism, historical accounts and analysis, manifestos, theoretical treatises. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisites: ENG 151.

ENH 214 - Trends In Literature And Film (4) (RLA)
4 hours; 4 credits. An investigation into the ways in which film has become a literary genre and what seem to be the future relationships between literature and film. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 215 - Literature and Humanities (4) (RLA)
4 hours; 4 credits. The treatment of major humanistic concerns in literature. The specific focus of each section will be announced in the Semester Information. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 216 - The Bible and Later Literature (4) (RLA)
4 hours; 4 credits. A study of the Bible as a literary work and its importance as an influence on later literature. For English majors and minors, this is designated as an ENH literature course. (literature) (TALA). Please Note: This course satisfies the college option. Prerequisite: ENG 151.

ENH 217 - Introduction to Shakespeare (4) (RLA)
4 hours; 4 credits. Representative works from across the spectrum of Shakespeare's career. The course is designed to introduce students to Shakespeare's language, interests, visions, and styles and to give them a sense of his historical
context. For English majors and minors, this is designated as an ENH literature course. Please Note: This course satisfies the college option. Prerequisite: ENG 151.

**ENH 218 - Introduction to the Study of Literature (4) (RLA)**

4 hours; 4 credits. An introduction to the study of literature and specifically to the ways that people think, talk, and write about literature. It addresses the basic questions of literary study and its vocabulary: What is literature? What are the main kinds of literature? What are the main approaches to the study of literature? The course includes reading and writing about a selection of major works that represent a variety of periods and movements. It is required of all English majors and offers the rudiments of the knowledge necessary for further study and teaching in the field. Satisfies the general education category of Textual, Aesthetic, and Linguistic Analysis for non-English majors. This course is intended primarily for English and Education majors. For English majors and minors, this is designated as an ENH literature course. Please Note: This course satisfies the college option. Prerequisite: ENG 151.

**ENH 219 - Introduction to Popular Literature (4) (RLA)**

4 hours; 4 credits. A study of popular literary modes such as detective fiction, fantasy, graphic novels, horror, romance, and science fiction. This course will introduce students to the conventions, histories, and theories of one or more genres of popular literature. Prerequisite: ENG 151.

**ENH 221 - African American Literature (4) (RLA)**

(Also AAD 221). 4 hours; 4 credits. A study of literature by African American writers. Texts studied may represent a variety of thematic concerns, literary genres and/or historical time periods. For English majors and minors, this is designated as an ENH literature course. Please Note: This course satisfies the college option. (literature) (TALA). Prerequisite: ENG 151.

Crosslisted as: AAD 221.

**ENH 222 - Women And Literature (4) (RLA)**

(Also WGS 222). A study of works by and about women drawn from a variety of periods and genres. (literature) (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: ENG 151.

Crosslisted as: WGS 222.

**ENH 223 - Introduction to African Diaspora Literature (4) (RLA)**

(Also AAD 223) 4 hours; 4 credits. A study of literature by African, Caribbean, African American, and/or other black writers. Texts examined focus on a variety of themes or issues and represent a range of literary genres and historical periods. Prerequisite: ENG 151.

Crosslisted as: AAD 223.

**ENH 224 - U.S. Literature: Multicultural Perspectives (4) (RLA)**

4 hours; 4 credits. Literature by and about members of ethnic, racial, religious, sexual, and other minorities in the U.S. (literature) (p&d) (TALA). NOTE: This course satisfies the College Option. Prerequisites: ENG 111, ENG 151.

**ENH 225 - Literature of Social Protest (4) (COPR)**

(Also AAD 225). 4 hours; 4 credits. A study of the literature created to protest injustice and oppression, primarily against people of African, Asian, Caribbean, Indigenous American, Latin American and/or Middle Eastern descent. Texts examined may represent a variety of literary genres as well as political, social, historical or geographical contexts. (literature) (p&d) (TALA). Prerequisite: ENG 151. Please Note: This course satisfies the college option.

Crosslisted as: AAD 225.

**ENL - English (ENL)**

**ENL 112 - Public Speaking (3) (RLA)**

3 hours; 3 credits. A basic course in public speaking, with emphasis on student performance.

**ENL 212 - Discussion and Debate (3) (RLA)**

3 hours; 3 credits. Techniques of leading and participating in group discussions, and the principles and practice of debating. Parliamentary rules of order are covered. Pre- or corequisite: ENG 111.

**ENL 230 - History of Print Media (4) (RLA)**

(Also COM 230). 4 hours; 4 credits. An introductory survey of the evolution of newspapers, periodicals, and the publishing industry, focusing on technological developments, major innovations, legal and ethical issues, and societal impact. (TALA). Note: This course satisfies the college option. Prerequisites: ENG 151 and COM 150.

Crosslisted as: COM 230.

**ENL 265 - Journal I (4) (RLA)**

4 hours; 4 credits. During the semester, each student keeps a journal, including fragments of responses to whatever
moments and situations (personal, domestic, social, cultural) about which he/she wishes to write. Students will be encouraged to develop these fragments and their connections as an understanding of them deepens. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.

Distribution: N.

**ENL 267 - Craft of Creative Writing (4) (RLA)**
4 hours; 4 credits. Craft of Creative Writing introduces students to the literary conventions of creative nonfiction, fiction, poetry, and playwriting. The course will explore the elements that set the genres apart, the elements they share, and the relationship between reading and writing. Texts will be taken from the four major genres and used as models for students' creative writing. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.

**ENL 272 - Playwriting I (4) (RLA)**
4 hours; 4 credits. A course that will start with the writing of short dramatic scenes and will culminate in the writing of a one-act play or a single act of a larger play. Attendance at productions and reading from dramatic literature will be encouraged. For English majors and minors, this is designated as a writing and dramatic literature course. Prerequisite: ENG 151.

**ENL 274 - Introduction to Screen Writing (4) (RLA)**
(Also CIN 274). 4 hours; 4 credits. Writing for television and film. Class discussions of students' work and the problems of creating in this field. Selected readings. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.
Crosslisted as: CIN 274.

**ENL 277 - Introduction to Journalism (4) (RLA)**
(Also COM 277). 4 hours; 4 credits. A general introduction to the principles of journalism. Work on reporting, editing, and layout, and an examination of distribution/feedback systems. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.
Crosslisted as: COM 277.

**ENL 280 - Introduction to Women's Written Expression (4) (RLA)**
(Also WGS 280). 4 hours; 4 credits. A course to develop skill in both imaginative and critical writing based primarily on the students' personal experiences, with some analysis of poetry and short stories written by selected women authors. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.
Crosslisted as: WGS 280.

**ENL 281 - Writing and Peer Tutoring (4) (RLA)**
4 class hours, 2 laboratory hours; 4 credits. Provides an in-depth knowledge of the skills of exposition and advanced prose style through the writing and criticism of expository essays. The student will work with students in need of help in the College's English Learning Center for two hours per week in addition to the four hours of classroom work. For English majors and minors, this is designated as a writing course. Prerequisites: ENG 151 and a letter of recommendation from the student's ENG 151 instructor.

**ENL 290 - Introduction to Literary Studies (4) (RLA)**
4 hours; 4 credits. An introduction to the study of literature and specifically to the ways that people think, talk, and write about literature. It addresses the basic questions of literary study and its vocabulary: What is literature? What are the main kinds of literature? What are the main approaches to the study of literature? The course includes reading and writing about a selection of major works that represent a variety of periods and movements. It offers the rudiments of the knowledge necessary for further study in the field. This course is required for all English majors. Prerequisite: ENG 151. Pre- or corequisite: Any 200 level ENH course.

**ENL 300 - British and American Literary Traditions I (4) (RLA)**
4 hours; 4 credits. A one-semester survey of British and American literature from the Medieval through the Romantic periods. It will include important works from many genres and modes, placing those works in their aesthetic and cultural contexts. This course is required for all English majors. Not open to students who took ENL 376. Pre- or corequisite: ENL 290

**ENL 301 - American and British Literary Traditions II (4) (RLA)**
4 hours; 4 credits. A one-semester survey of British and American literature from the early nineteenth century through the twentieth century, including representative texts from at least three modern movements (such as Romanticism, Realism, and Modernism). This course begins where ENL 300 leaves off and includes works from many genres and modes, placing those works in their aesthetic and cultural contexts. For English majors and minors, this is designated as a literature course. Pre- or corequisite: An ENH 200-level course or ENL 290.
ENL 302 - Oral Interpretation of Literature (4) (RLA)
4 hours; 4 credits. The oral interpretation of poetry, drama, fiction, and historical speeches. Students will prepare for oral performance by reading aloud, raising questions of meaning, doing library research, writing paraphrases, comparing other interpretations, and consulting an author’s other works. Pre- or corequisite: An ENL 200-level course or ENL 290.

ENL 303 - U.S. Fiction, Early National Period to Late Nineteenth Century. (4) (RLA)
(Also AMS 303). 4 hours; 4 credits. A study of US fiction from the early national period to the late nineteenth century. Works will be examined in relation to literacy and other cultural-historical contexts. Topics covered may include the idea of “Americanness,” slavery, nationhood, US expansion, gender issues, and industrialism. For English majors and minors, this is designated as a literature, American literature, and genre course. Prerequisite: Any ENH 200 level course or ENL 290.

ENL 304 - U.S. Fiction, Early North American Literature (4) (RLA)
(Also LNG 304/AMS 304). 4 hours; 4 credits. A study of North American literature to 1830 across a variety of genres, authors, and cultural traditions. For English majors and minors this is designated as a literature, American literature and genre course. Prerequisite: An ENH 200-level course or ENL 290.

ENL 305 - Critical Approaches to Children's Literature (4) (RLA)
4 hours; 4 credits. An introduction to histories, theories, and criticism of children's literature. It focuses on the ways the genre conceptualizes childhood, especially in relation to other social categories such as race, ethnicity, class, gender, and/or sexuality. Primary texts that will be examined include picture books, early readers, middle-grade novels, and poetry. For English majors and minors, this is designated as a literature and genre course. Prerequisite: An ENH 200-level course or ENL 290.

ENL 306 - Disabilities in Literature and Culture (4) (RLA)
4 credits; 4 hours. An examination of representations of disability in a variety of genres. Fiction and non-fiction, poetry, aural and visual materials may be used. There may be focus on a particular disability or on a variety of disabilities. The role of ableism in the wider culture, and the intersections of disability with other kinds of minority identities, will be considered. Prerequisite: ENG 151. Pre or corequisite: An ENH 200-level course or ENL 290.

ENL 307 - African Literature (4) (RLA)
(Also AAD 307). 4 hours; 4 credits. An introduction to sub-Saharan African literature exploring a variety of regions, authors, genres, and literary traditions. Texts will be discussed in relation to their aesthetic, cultural, historical, and philosophical context, and may include indigenous, anglophone, francophone, and lusophone literatures. Texts not originally in English will be read in English translation. Topics may include: influence of precolonial oral traditions; effect of colonialism and anticolonial struggles; gender and sexuality; social and cultural movements in the twentieth century, e.g. négritude and Pan-Africanism. For English majors and minors, this is designated as a literature, women, American minorities, writers in Asia (including the Middle East), Africa, Latin America, and the Caribbean, world literature, and genre course. Prerequisite: An ENH-200 level course or ENL 290.

ENL 308 - Theories of Composition (4) (RLA)
4 hours; 4 credits. Explore the principal issues and debates in writing pedagogy and scholarship. Students will come to understand rhetoric and composition as a discipline of study, along with the field’s key scholars and areas of study. Additionally, students will learn about major themes in the field of writing studies, such as personal writing, multicultural learners, multimodal composing, and many others. The course will also focus on students’ own writing processes through peer workshops and multiple assignment drafts. Prerequisite: ENG 151.

ENL 309 - U.S. Literature in Comparative Contexts (4) (RLA)
(Also AMS 309/LNG 309). 4 hours; 4 credits. This course examines U.S. literature in a comparative, transnational frame by considering U.S. writing with relation to what lies outside national borders and emphasizing the role of international cultures, literatures, and politics in the development of U.S. writing. The course will cover, variously, hemispheric studies, transatlantic studies (beyond U.S.-British), transpacific studies, and Africa-U.S. studies. Prerequisite: An ENH 200-level course or ENL 290.

ENL 310 - World Literature in Contexts (4) (RLA)
4 hours, 4 credits. An exploration of the literatures of several cultures amid specific historical contexts, as well as a study of cultural differences and similarities and cross-cultural
ENL 317 - English Literature of Medieval England (4) (RLA)
4 hours; 4 credits. A study of medieval English literature, with attention to both the Old English and Middle English periods. Readings may include texts such as the Old English epic Beowulf, the Middle English romance Gawain and the Green Knight, and the visionary writings of William Langland, Julian of Norwich, and Margery Kempe. Some texts may be read in translation. For English majors or minors concentrating in literature, this course fulfills the requirements for British literature and literature before 1800. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 318 - 16th-Century English Literature (4) (RLA)
4 hours; 4 credits. A study of the literature of sixteenth-century England, including works by women and writers inside and outside courtly circles, with an emphasis on non-dramatic texts. Authors may include Sir Thomas Wyatt, Sir Philip Sidney, Elizabeth I, Emilia Lanier, Christopher Marlowe, Edmund Spenser, and Thomas Nashe. For English majors or minors concentrating in literature, this course fulfills the requirements for British Literature and literature before 1800. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 319 - European Literature of the Renaissance and 17th Century (4) (RLA)
4 hours; 4 credits. A study of the literature of the major works of European literature from the late 14th century through the 17th century. For English majors and minors, this is designated as a literature, literature in translation, and pre-1800 course. Prerequisite: An ENH 200-level course or ENL 290.

ENL 320 - 17th-Century English Literature (4) (RLA)
4 hours; 4 credits. A study of the literature of seventeenth-century England. Readings may include works such as Milton's Paradise Lost, Behn's Oroonoko, and the poetry of Donne, Herbert, Wroth, Herrick, Cavendish, Marvell, and Dryden. For English majors or minors concentrating in literature, this course fulfills the requirements for British Literature and literature before 1800. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 321 - South Asian Literature (4) (RLA)
4 hours; 4 credits. A study of South Asian literatures in English and in English translation. Texts will be discussed in relation to their aesthetic, cultural, historical, economic, and/or philosophical context and may cover various genres,
ENL 322 - 18th-Century English Literature (4) (RLA)
4 hours; 4 credits. A study of the literature of eighteenth-century England. Readings may include texts such as the novels of Richardson, Burney, and Fielding; the satires of Pope and Swift; and the essays of Addison and Steele. For English majors or minors concentrating in literature, this course fulfills the requirements for British Literature and literature before 1800. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 323 - Coming of Age Narratives (4) (RLA)
4 hours, 4 credits. This course explores representations of adolescent experiences in a variety of historical and cultural contexts. This course is required for all English majors in the adolescence education sequence. For English majors and minors, this is designated as a literature and genre course. Pre- or corequisite: An ENH 200-level course or ENL 290.

ENL 324 - Readings in English Romanticism (4) (RLA)
4 hours; 4 credits. A study of selected texts by Blake, Wordsworth, Coleridge, Shelley, Byron, Keats, and others. For English majors and minors, this is designated as a literature and British literature course. Prerequisite: An ENH 200-level course or ENL 290.

ENL 325 - Readings in Victorian Literature (4) (RLA)
4 hours; 4 credits. A survey of British poetry of the Victorian period (from the mid-nineteenth century to the early twentieth century). Poets may include Tennyson, Barrett-Browning, Browning, Christina Rossetti, Hopkins, Arnold, Wilde, Hardy, and W.B. Yeats. For English majors or minors concentrating in literature, this course fulfills the requirements for British Literature or Genre/Theme. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 326 - European Literature of the Romantic Period (4) (RLA)
4 hours; 4 credits. Readings in European literature and related intellectual texts of the Romantic period with a view toward tracing the emergence of a modern consciousness. Authors may include: Rousseau, Goethe, Schiller, Holderlin, Hugo, Leopardi, Byron, Wollstonecraft, Pushkin, and Madame de Stael. For English majors or minors concentrating in literature, this course fulfills the requirements for literature in translation. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 327 - 20th Century American Poetry (4) (RLA)
4 hours; 4 credits. A survey of twentieth-century American poetry, ranging from early Modernism through the turn of the century. Poets may include such modernist figures as Frost, Eliot, Pound, Moore, W.C. Williams, Stevens, Hughes, and Hart Crane; such mid-century figures as Elizabeth Bishop, Robert Lowell, Gwendolyn Brooks, and Sylvia Plath; and such later figures as Adrienne Rich, James Merrill, John Ashbery, Louise Glück, and Rita Dove. For English majors concentrating in literature, this course fulfills the requirements for American Literature or genre/theme. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 328 - Victorian Poetry (4) (RLA)
4 hours; 4 credits. A survey of British poetry of the Victorian period (from the mid-nineteenth century to the early twentieth century). Poets may include Tennyson, Barrett-Browning, Browning, Christina Rossetti, Hopkins, Arnold, Wilde, Hardy, and W.B. Yeats. For English majors or minors concentrating in literature, this course fulfills the requirements for British Literature or Genre/Theme. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 329 - Migration and Diasporas in Literature and Culture (4) (RLA)
4 hours; 4 credits. This course examines literatures and cultures born of international and national migrations. Students explore ideas relating to immigration, exile, diasporization, globalization, multilingualism, and nationalism through literary, cinematic, and cultural creativity. Examples from world literature and culture are taught with an emphasis on cross-cultural contact and conflict within and beyond national contexts. For English majors and minors, this course is designated as literature, literature in translation, genre/theme, and women, American minorities, writers in Asia (including the Middle East), Africa, Latin America, and the Caribbean. (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisites: ENG 151. Pre- or corequisite: An ENH 200-
ENL 330 - The American Renaissance (4) (RLA)
4 hours; 4 credits. A study of literature of the United States from the 1830's through the 1860's across a variety of authors, genres, and cultural traditions. The course will engage in literary questions about changing critical views of "The American Renaissance." Readings will include texts from genres such as romance, sentimental writing, the slave narrative, the essay, and poetry. For literature concentrators this course fulfills the major requirement for American literature. It counts as an elective in all concentrations in the major. Prerequisite: An ENH 200-level course or ENL 290.

ENL 331 - The Modernists I (4) (RLA)
4 hours; 4 credits. A study of the development of the modernist sensibility from the symbolists through World War I. For English majors and minors, this is designated as a literature course. Prerequisite: An ENH 200-level course or ENL 290.

ENL 332 - The Modernists II (4) (RLA)
4 hours; 4 credits. A study of the modernist sensibility from the 1920s through the Existentialists. For English majors and minors, this is designated as a literature course. Prerequisite: An ENH 200-level course or ENL 290.

Prerequisite: Any 200-level ENH course or ENL 290 or Music Majors with junior or senior standing.

Crosslisted as: MUS 405.

**ENL 412 - Broadcast Journalism (4) (RLA)**

(Also COM 412). 4 hours; 4 credits. An introduction to the theory, history, and practice of modern newscasting. The class will also focus on the way that traditional broadcast is converging with digital video production and distribution in the creation of news. Special emphasis will be placed on preparing material for broadcast on radio, television, and online. Readings will explore the economic realities of broadcasting, legal sanctions, and social impact. Students will monitor newscasts, analyze them, and write copy suitable for broadcast. For students wishing to register for the course COM 100 is recommended. Prerequisite: COM 277/ENL 277 and COM 204.

Crosslisted as: COM 412.
ENL 429 - Autobiographical Writing (4) (RLA)
4 hours; 4 credits. A writing and discussion course for students who, working in various literary genres, will be exploring autobiography as the basis for content. Conferences and group sessions on the student-author's work. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.

ENL 430 - Creative Writing (4) (RLA)
4 hours; 4 credits. A series of experiments in the writing of poetry and prose fiction, designed to develop writing skills through extensive practice. Production and publication of selected projects. Class meetings and individual conferences. For English majors and minors, this is designated as a writing course. Prerequisite: ENL 267 or permission of the instructor.

ENL 431 - Fiction Workshop (4) (RLA)
4 hours; 4 credits. An advanced workshop, ENL 431 concerns aspects of formal technique in the writing of fiction. Students' work may be directed toward narrative sequencing, pacing, character development, dialogue, shifts in point-of view and tense, metafiction, and the many structures to which short and long works of fiction adhere and reinvent. For English majors and minors, this is designated as a writing course. Pre- or corequisite: ENL 267 or ENL 371.

ENL 432 - Poetry Workshop (4) (RLA)
4 hours; 4 credits. An advanced workshop, this course directs students with a particular emphasis on aspects of form. Students may write poems in free-verse and traditional forms, which may include the sonnet, the sestina, and the villanelle. Students will use assigned texts as models for the creation of original poems. The course will involve classroom critique of students' poetry. For English majors and minors, this is designated as a writing course. (liberal arts and sciences) Pre- or corequisite: ENL 267 or ENL 372.

ENL 433 - Nonfiction Writing (4) (RLA)
4 hours; 4 credits. A course intended to develop the student's skill in expository and critical writing. Attention will be given to the problems of structure and style with a view to writing with more persuasiveness. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.

ENL 434 - Creative Nonfiction Workshop (4) (RLA)
4 hours; 4 credits. An advanced workshop in creative nonfiction. The class may focus on the outline and structure of nonfiction stories; on reporting techniques; choosing a narrative voice and strategy; and on crafting leads, overtures, and transitions. The workshop will also require substantial readings of nonfiction pieces. Texts may cover: autobiography, memoir, journals, narrative journalism, and literary essays. Class discussion of students' long work. For English majors and minors, this is designated as a writing course. Prerequisite: ENL 267 or ENL 370.

ENL 435 - Playwrighting Workshop (4) (RLA)
4 hours; 4 credits. An advanced workshop in playwriting. Skills developed in this course include the creation of more complex plots, dialogue, and characters, as well as greater expertise to critique the works of others with more depth and attention to detail. For English majors and minors, this is designated as a writing course. Pre- or corequisite: ENL 267 or ENL 373.

ENL 436 - Screen Writing (4) (RLA)
(Also CIN 436). 4 hours; 4 credits. Study of the craft of constructing the screenplay, treatment, synopsis, and shooting script. The student will work on the problems of creating the original filmscript as well as adapting a piece of existing material for the screen. For English majors and minors, this is designated as a writing course. Prerequisite: CIN 274/ENL 274 or permission of the instructor.

ENL 437 - Writing in the Business World (4) (RLA)
4 hours; 4 credits. Communications, reports, descriptive statements, promotional writing, etc., which form the basis for written work in business, advertising, and industry. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.

ENL 438 - Newspaper Reporting (4) (RLA)
(Also COM 438). 4 hours; 4 credits. An introduction to the theory, history, and practice of modern reportorial journalism. The class will focus on the way that traditional newswriting is converging with other media forms online, yet remains a skill of its own with specific needs, ethics, and best practices. For students wishing to register for the course COM 100 is recommended. For English majors and minors, this is designated as a writing course. Prerequisite: COM/ENL 277 and COM 204.

ENL 440 - Magazine Writing (4) (RLA)
4 hours; 4 credits. A writing and discussion course for students who want to break into the magazine publishing world. Writing for popular, specialized, little, and broad-circulation magazines will be covered, as well as the broader aspects of the publishing market. Conferences and group sessions on the student-author's work. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.
ENL 441 - Writing about Media (4) (RLA)
4 hours; 4 credits. A writing and discussion course for students who are interested in producing articles and books concerning films, records, and television. Conferences and group sessions on the student-author's work. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151.

ENL 442 - Women's Written Expression (4) (RLA)
(Also WGS 442). 4 hours; 4 credits. A seminar to develop skills in both imaginative and critical writing, incorporating an analysis and comparison of the stylistic developments of women authors. For English majors and minors, this is designated as a writing course. Prerequisite: ENG 151. Crosslisted as: WGS 442.

ENL 445 - Journalism and Society (4) (RLA)
(Also COM 445). 4 hours; 4 credits. Learning to "read" and write the news. Analysis of the ways in which news stories define our understanding of society. The course will consider both the effect of print and broadcast journalism on politics, values, and social standards and the pressures on the press that define its values. Topics vary from term to term. For English majors and minors, this is designated as a writing course. Prerequisite: (COM/ENL 277 and COM 204) and (COM 412/ENL 412 or ENL 438/COM 438 or COM 446). Crosslisted as: COM 445.

ENL 465 - Writing for the Media (4) (RLA)
(Also COM 465). 4 hours; 4 credits. Developing skills in writing for traditional electronic media (such as radio and television) as well as new media (such as the Internet). This writing-intensive course emphasizes the translation of ideas into written text or spoken dialogue appropriate to the medium, genre, and target audience, as well as treatments, proposals, and other forms of pre-production writing. For English majors and minors, this is designated as a writing course. Prerequisites: A 200-level course COM and ENG 151. Crosslisted as: COM 465.

ENL 470 - Senior Seminar in Literature (4) (RLA)
4 hours; 4 credits. Various topics in literature, differing from semester to semester. For English majors and minors, this is designated as a literature course. Pre- or corequisite: An ENH 200-level course or ENL 290.

ENL 475 - Writing for Advertising and Public Relations (4) (RLA)
(Also COM 475). 4 hours; 4 credits. An introduction to the techniques of developing concepts and writing copy for advertising in print and broadcast media, and public relations material such as press releases newsletters, brochures, and publicity material. The course analyzes advertising, public relations, and other corporate communications tactics in terms of their target audience, message, and effectiveness, as well as the channels of communication. Students will be assigned a number of writing projects including copywriting, concept development proposals, press releases, and newsletter articles. For English majors and minors, this is designated as a writing course. Prerequisite: COM 332. Crosslisted as: COM 475.

ENL 480 - Studies in Advanced Journalism (4) (RLA)
(Also COM 480). 4 hours; 4 credits. Analysis of the techniques required for good feature writing, magazine writing, personal journalism, investigative reporting, interviewing, etc. Overview of the changing journalism environment and the techniques and skills necessary to build a successful journalism organization. Overview of the job and skills of a news editor. Emphasis amongst these different options varies from term to term. For English majors and minors, this is designated as a writing course. Prerequisite: (COM 277/ENL 277 and COM 204) and (COM 412/ENL 412 or COM 438/ENL 438 or COM 466). Crosslisted as: COM 480.

ENS - Engineering Science

ENS 100 - Introduction to Engineering (2) (RLA)
4 hours; 2 credits. Introduction to engineering disciplines, organizations, and ethics; basic engineering parameters; engineering standards and codes, principles for engineering data acquisition and presentations, and effective experimentation; engineering statistics and data analysis; problem solving and case studies illustrating engineering solutions. Prerequisites: Passing the CUNY Assessment Test in Reading, passing the CUNY Assessment Test in Writing, and passing the CUNY COMPASS Mathematics Test.

ENS 102 - Introduction to Electrical and Electronic Technology (3) (FSWR)
3 hours; 3 credits. Introduction to the nature, measurement, generation, and utilization of electricity in our modern world including industrial and consumer electronics, computers, robots, communications. (scientific analysis) (FSWR). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: ENS 103.
ENS 103 - Introduction to Electrical & Electronic Technology Laboratory (1) (RLA)

2 laboratory hours; 1 credit. Measurement, AC and DC voltage, current, and power; series and parallel resistive circuits; transformers; resistive, inductive, and capacitive (RLC) circuits. Power circuits and house wiring. Signal measurements through oscilloscope. Half-wave and full-wave rectifiers. (scientific analysis) Corequisite: ENS 102.

ENS 104 - Introduction to Digital Technology (3) (FSWR)

3 hours; 3 credits. Digital revolution and its impact in social, economic, and environmental contexts. Fundamentals of digital electronics: logic operators and memory devices. Digital arithmetic: addition, subtraction, and multiplication. Introduction to integrated circuits (ICs): Up-down counters, timers, analog to digital (A/D) and digital to analog (D/A) converters, and programmable devices. Course will cover several applications of digital technology in everyday life. (scientific analysis) (FSWR). Prerequisite: MTH 020 or higher or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: ENS 105.

ENS 105 - Introduction to Digital Technology Laboratory (1) (RLA)

2 laboratory hours; 1 credit. Fundamentals of digital electronics: logic operators and memory devices. Digital arithmetic: addition, subtraction, and multiplication. Introduction to integrated circuits (ICs): BCD and binary up-down counters, timers, analog to digital (A/D) and digital to analog (D/A) converters, and programmable devices. Course will cover several applications of digital technology in everyday life. (scientific analysis) (COPR) Prerequisite: MTH 020 or higher or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: ENS 104.

ENS 110 - Engineering Graphics (2) (RNL)

3 hours; 2 credits. CAD (computer-aided drafting) is used throughout the course. Orthographic projections, and drawings, dimensioning, working drawings, 3D space, spatial analysis, isometric drawings. Prerequisites: Passing the CUNY Reading, Writing and Mathematics Assessment Tests.

ENS 136 - Computer-Aided Engineering I (2) (RNL)

3 laboratory hours; 2 credits. Introduction to building virtual instruments. Acquisition and measurement of electrical signals and data analysis through virtual instruments. Introduction to AutoCAD as an engineering graphing tool. Pre- or corequisites: ENS 100 and MTH 123 or higher.

ENS 220 - Introduction to Computer Engineering (4) (RNL)

4 hours; 4 credits. Number systems and codes. Logic functions, gates and assertion levels. Combinational circuit design and minimization. MSI and LSI circuits and their applications. Sequential machine fundamentals, analysis, and design. Prerequisite: ENS 136 or ETL 114.

ENS 221 - Digital Electronics Laboratory (2) (RNL)

4 laboratory hours; 2 credits. Design, construction, testing, and evaluation of digital systems. Counters, registers, and multiplexers are used to build combinational circuits and sequential machines, including a sequence detector. Labs will be simulated prior to hardware construction. Prerequisite: ENS 220.

ENS 241 - Electrical and Electronic Circuits (4) (RNL)

2 lecture hours, 4 laboratory hours; 4 credits. Analysis of linear time invariant passive and active circuits, Kirchoff's laws, Thevenin and Norton equivalents, node and mesh analysis. Signal waveforms, diodes, bipolar, and MOS transistors. Transistor-level digital circuit analysis and design. Analysis and design of single-stage amplifiers. Operational amplifiers and their applications. Prerequisites: PHY 160 and MTH 232

ENS 249 - Basic Measurements Laboratory (2) (RLA) (Also PHY 309)

(Also PHY 309). 4 laboratory hours; 2 credits. Basic instrumentation and precise measurements in engineering applications. Design, construction, testing, and analysis of simple analog systems using the circuit design tools and simulation software. Comparison of measured data to simulated data and reconciliation of discrepancies is emphasized. Prerequisite: ENS 241 and ENG 111 Crosslisted as: PHY 309.

ENS 250 - Engineering Mechanics (3) (FSWR)

3 hours; 3 credits. Three-dimensional vector algebra. Equivalence of force-coupled systems and equilibrium of rigid bodies. Engineering application of statics. Analysis of trusses, frames, and machines. Friction and moment of inertia. Introduction to stress and strain. Prerequisites: ENS 100, and PHY 120 and PHY 121, or PHY 230. Pre- or corequisite: MTH 233.

ENS 310 - Thermodynamics (4) (RLA)

ENS 316 - Dynamics (4) (RLA)
Crosslisted as: PHY 316.

ENS 322 - Signals and Noise (3) (RNL)
3 credits; 3 hours. Representation and analysis of continuous time (CT), discrete time (DT) signals and systems and an introduction to random variables and processes. Time domain representations of CT and DT systems. Fourier series representation of CT and DT periodic signals; CT and DT Fourier transform: Time and Frequency characterization of signals and systems; Nyquist sampling theorem. Introduction to probability: random variables, normal distribution; expectation, basic stochastic processes and noise. Prerequisite: ENS 136. Pre or co-requisite: MTH 311

ENS 331 - Digital Signal Processing (4) (RLA)

ENS 336 - Computer-Aided Engineering (4) (RNL)
2 hours lecture, 4 hours laboratory; 4 credits. Application of numerical analysis and computer simulation to the solution of engineering design problems. Topics include optimization and error analysis; solution of nonlinear equations; systems of algebraic equations; data analysis; regression and interpolation; numerical differentiation and integration; solution of ordinary and partial differential equations; finite difference and finite element methods; and introduction to programming for parallel processing and multimode machine. Theory will be implemented with several projects emphasizing design applications. Prerequisite: ENS 136 and CSC 270. Pre- or corequisite: MTH 330.

ENS 342 - Electrical and Electric Circuits II (3) (RNL)
2 lecture hours, 2 laboratory hours; 3 credits. Review of phasors (complex numbers), AC fundamentals, sinusoids and sinusoidal steady-state analysis, reactance (capacitive and inductive). Steady-state AC analysis of RLC circuits. Real and reactive power and power flow calculations.
Three-phase AC fundamentals. Single and three-phase transformers. Three phase rectification. Inverters. Prerequisite: ENS 241

ENS 345 - Solid State Device Fundamentals (3) (RNL)
2 lecture hours, 2 laboratory hours; 3 credits. Basic properties of solid state, properties of semiconductors, device related elements of quantum mechanics, energy band theory, charge carrier statistics, non-equilibrium charge carriers, charge carrier transport, p-n junction, heterojunction, diodes, bipolar transistors, field-effect transistors, principles of MOS technology and devices, light-emitting devices, photo-detectors. Pre-Requisite: PHY 240. Pre or co-Req: ENS 241.

ENS 350 - Transport Processes (4) (RLA)
(Also PHY 350). 4 hours; 4 credits. Introduction to momentum, heat, and mass transfer. Introduction to continuous media, control volume formulation of conservation laws, momentum and energy consideration of fluid flow, heat transfer by conduction and radiation, mass diffusion, analogies and breakdown of analogies among momentum, heat, and mass transfer. Prerequisites: ENS 310 and CSC 126 or CSC 270. Pre- or corequisite: MTH 330.
Crosslisted as: PHY 350.

ENS 356 - Theory of Electromagnetic Radiation (4)
(Also PHY 356). 4 hours; 4 credits. Production, propagation, scattering, and absorption of electromagnetic waves. Maxwell's equations in differential form, wave equation, energy transfer, and the behavior of waves at metallic and dielectric surfaces. Production of radiation by dipoles and its absorption. Design of antennas, wave guides, and other applications. Prerequisites: PHY 160 and CSC 270. Pre- or corequisite: MTH 330.
Crosslisted as: PHY 356.

ENS 359 - Mechanical Materials Laboratory (2) (RNL)
4 hours; 2 credits. Introduction to the measurement of mechanical properties of materials. Testing of materials in tension, compression, shear, and torsion. Experiments with beams and columns. Stress and strain measurement. Exercises involving design, building, testing, and evaluation. Pre- or corequisite: ENS 380.

ENS 362 - Microcontrollers (4) (RNL)
(Also CSC 462). 2 class hours, 4 laboratory hours; 4 credits. Introduction to microcontrollers with an overview of the CPU architecture, instruction set, interface with target board, testing and program development using the structured assembly preprocessor.Interrupts and interrupt timing, analog-to-digital conversion and programming of
Peripheral chips will be some of the concepts covered in this class. Prerequisite: ENS 220 or CSC 346

Crosslisted as: CSC 462.

ENS 371 - Systems Analysis (3) (RNL)
2 hours lecture, 2 hours laboratory; 3 credits. Applications of Convolution. Complete responses of first, second, and higher order-circuits. Transient analysis and frequency response. Analog filter design. Analogy to mechanical, fluid, and thermal systems. Introduction to feedback control system and the application of Laplace transform in analysis of response of dynamic systems. Prerequisites: ENS 241, ENS 310, and MTH 330

ENS 380 - Mechanics of Solids (4) (RNL)
4 hours; 4 credits. Introduction to engineering applications of static behavior of rigid and deformable systems. Definition of state of stress and strain at a point. Dependence of strain upon stress and temperature. Basic analysis of axial loading, pressure vessels, torsional strain, and stresses. Flexural loading and deflections. Stress-transforming equations and Mohr's circle. Analysis of statically indeterminate members. Columns and buckling. Application to stress distribution and deformations. Prerequisites: CSC 126 or CSC 270 and ENS 250. Pre- or corequisite: MTH 330.

ENS 383 - Electrical Properties of Materials (3) (RLA)
(Also PHY 383). 3 hours; 3 credits. Electrons in atoms, electrons in crystals, contacts between materials and p-n junctions, bipolar transistors, optoelectronic devices, field-effect transistors, charge transfer devices, integrated circuits, solid state lasers. Photo cells and LEDs. Prerequisites: PHY 240, and CSC 126 or CSC 270.

Crosslisted as: PHY 383.

ENS 384 - Mechanical Properties of Materials (3) (RLA)
(Also PHY 384). 3 hours; 3 credits. Structure of crystalline and noncrystalline solids. Phase transformations. Thermodynamics of multicomponent systems, surfaces, reaction rates, diffusion, and structural change. Mechanical properties, plasticity, strengthening. Ceramics and polymers, electronic and optical properties, thermoelectricity, magnetism. Prerequisites: ENS 310 and CSC 270.

Crosslisted as: PHY 384.

ENS 410 - Heat Transfer (4) (RNL)

ENS 415 - Network Systems Engineering (3) (RNL)
2 lecture hours; 2 laboratory hours; 3 credits. The fundamental building blocks of modern networks, protocols, media, topologies, hardware, network cabling, TCP/IP, Ethernet, wireless transmission, cloud computing and remote access, virtual networks, network risk management, network performance management, industrial and enterprise networking, network troubleshooting. Prerequisite: ENS 221. Pre- or corequisite: ENS 362

ENS 416 - Applied Elasticity (4) (RNL)
4 hours; 4 credits. Introduction to the theory of elasticity, and application of advanced strength of materials concepts to the design of elements of machines and structures. Prerequisite: ENS 380. Pre- or corequisites: MTH 331 and ENS 336.

ENS 420 - Analog and Digital Systems Design (4) (RNL)

ENS 432 - Digital and Analog Communication Systems (3) (RNL)
2 lecture hours; 2 laboratory hours; 3 credits. Bandwidth limitations on communication system capacity. Sampling theorems. Performance measures. Analog modulation: AM, FM. Digital modulation: ASK, OOK, FSK, PSK. Time and frequency division multiplexing. Detection of signals in noise and basic principles of information theory and coding. Prerequisite: ENS 322. Pre- or corequisite: ENS 331

ENS 434 - Energy Conversion (4) (RNL)
4 hours; 4 credits. Fundamental principles of conversion of such prime energy sources as chemical, nuclear, and solar into thermal, electrical, mechanical, and other forms of energy. Applications of thermochemical, electrochemical, and electromagnetic devices. Power plants and energy transmission. Direct energy conversion. Prerequisite: ENS 310.

ENS 436 - Electrical Machines and Energy Systems (3) (RNL)
2 lecture hours, 2 laboratory hours; 3 credits. Fundamental concepts and operational considerations of electrical machines and energy systems. DC Generators/Motors. Three-phase AC analysis; synchronous generators/motors; single and three-phase transformers; substations. Fossil fuel
vs renewable energy systems with an emphasis on solar and wind power systems. Prerequisite: ENS 241.

**ENS 438 - Power Plant Design and Analysis (4) (RNL)**

**ENS 439 - Systems Laboratory (2) (RNL)**
4 laboratory hours; 2 credits. Choice of projects that illustrate the principles, operation, and characteristics of electrical and electromechanical systems. Additional choices involve modulation, transmission, and detection in analog and digital communication systems, and signal processing techniques. Projects will be designed and simulated using the appropriate hardware and software tools. Measured data will be compared to simulated results. These projects fulfill the course objective of translation of theory into operating circuitry and systems. Prerequisite: ENS 249.

**ENS 441 - Electrical Power Transmission and Distribution (4) (RNL)**
2 lecture hours, 4 laboratory hours; 4 credits. Power and three-phase circuits, power transmission, and transformers. Real and reactive power, power flow and power handling capacity of parallel lines. Long haul high-voltage power transmission. Power distribution between two parallel lines. Phase shift and auto transformers. Power fluctuations under abnormal transmission phase shift and auto transformers. Power fluctuations under abnormal transmission line conditions. Transmission line faults. Three-phase distribution transformer configurations. Prerequisite: ENS 241 Corequisite: MTH 330

**ENS 446 - Computer Architecture (4) (RNL)**
(Also CSC 446). 4 hours; 4 credits. Instruction formats and addressing schemes. Arithmetic and logic unit design. Control unit design: hardwired and microprogrammed. Main memory technology. Virtual, high-speed, associative, and read-only memories. Programmable logic arrays. Computer organizations including stack, parallel, and pipeline. System structures: time sharing, multiprocessring, and networking. Digital communications. Input/output systems; direct memory access. Prerequisite: CSC 346 or ENS 220.
Crosslisted as: CSC 446.

**ENS 450 - Fluid Mechanics (4) (RLA)**
(Also PHY 450). 4 hours; 4 credits. Fluid properties, fluid statics, buoyancy and stability, fluids in rigid-body motion. Basic fluid equations in differential and integral form, Navier-Stokes equation. Euler equation, Bernoulli equation and engineering applications. Dimensional analysis and similitude. Internal incompressible viscous flow and flow measurement. Prerequisite: ENS 310. Pre- or corequisite: MTH 330.
Crosslisted as: PHY 450.

**ENS 459 - Applied Mechanics Laboratory (2) (RNL)**
4 hours; 2 credits. Experiments in conduction, convection, and radiation. Experiments with floating body stability, fluid losses under different flow configurations. Experiments with engines, governors, and pumps. Design, building, testing, and evaluation of simple heat transfer and mechanical systems. Prerequisite: ENS 249. Pre- or corequisite: ENS 450.

**ENS 463 - Introduction to Nanotechnology (4) (RNL)**
(Also PHY 463). 2 lecture hours, 4 laboratory hours; 4 credits. An introductory course on nanotechnology. It covers the physical basics of submicron- and nano-size structures, methods and materials of nanotechnology, characterization of nanostructures and their industrial applications. The course covers (i) mechanical, electronic, and optical properties of nanoscopic systems; (ii) engineering approaches in nano-electro-mechanics; nanoelectronics, and nanophotonics; (iii) practical computer simulation and design of nanodevices; (iv) practical nanofabrication of rudimentary nanodevices with focused ion beams. Prerequisite: (ENS 485 or PHY 485) or ENS 345.
Crosslisted as: PHY 463.

**ENS 464 - Embedded Systems Analysis and Design (4) (RNL)**
2 lecture hours, 4 laboratory hours; 4 credits. An introduction to theoretical and experimental concepts in embedded design involving a microcontroller an will focus on the concept of engineering analysis and design. It will serve as an integrating experience where students will build a microcontroller-based project that will be tested and documented in the laboratory. The course will emphasize engineering design subject to realistic constraints covering applications in areas such as energy conservation, biomedical instrumentation, space science, computer architectures, and robotics. Prerequisite: ENS 362 or CSC 462.

**ENS 466 - Telecommunications Systems Engineering (4) (RNL)**
2 lecture hours, 4 laboratory hours; 4 credits. Communication system overview; signals, noise & impairments; frequency, phase and bandwidth. Analog & digital signal formats; modulation & demodulation
techniques. Data communication systems. Transmission lines and RF techniques; fiber optic components & systems. Multiple access for mobile communications. Prerequisite: ENS 221. Pre- or corequisite: ENS 331.

ENS 470 - Introduction to Environmental Engineering (4) (RNL)
4 hours; 4 credits. Principles of systems analysis as applied to environmental problems. Topics to be chosen from air and water pollution, energy utilization, thermal pollution, transportation systems, solid and liquid waste disposal, etc. Prerequisite: ENS 310 or permission of the instructor.

ENS 471 - Control Systems (3) (RLA)

ENS 473 - Image and Video Processing in Engineering (4) (RNL)
2 lecture hours, 4 laboratory hours; 4 credits. An introduction to digital image fundamentals, digital image systems, image enhancement, image transforms, image restoration, image segmentation, and image/video compression techniques with applications in areas of radar, forward-looking infra-red (FLIR), medical imaging, and astrophysics. Prerequisites: ENS 331, ENS 336.

ENS 485 - Properties of Materials (4) (RNL)

Crosslisted as: PHY 485.

ENS 491 - Advanced Engineering Design I (2) (RNL)
4 laboratory hours; 2 credits. This is the first course of a two-semester sequence dealing with the major design experience; which provides an integration of the analytical techniques of engineering science and mathematics, and their application to engineering design. Topics covered: problem identification, formulation of the problem, proposed solution(s), theoretical foundation and simulation of the proposed solution. Prerequisites: ENS 336 and ENS 362. Pre- or corequisite: ENS 439 or ENS 459.

ENS 492 - Advanced Engineering Design II (2) (RNL)
4 laboratory hours; 2 credits. This is the second course of a two-semester sequence dealing with the major design experience. Topics covered: engineering standards, realistic constraints including but not limited to economic, environmental, social, ethical, and political considerations, manufacturability, health and safety, and sustainability; system design adaptation under realistic constraints, and design implementation and demonstration of functionality. Prerequisite: (ECO 285 or ECO 251) and ENS 371 and ENS 491.

ESC - Environmental Science

ESC 110 - Meteorology and Climatology (3) (RLA) (FSWR)
3 hours; 3 credits. Atmospheric composition and structure related to weather events and their impact on humans and ecosystems. Explore basic physical laws of energy and motion to explain temperature, precipitation, atmospheric circulation and storms. Earth's climate system and atmospheric energy balance. (FSWR) (STEM). Prerequisite: MTH 123 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: ESC 111.

ESC 111 - Meterology and Climatology Laboratory (1) (COPR)
2 hours; 1 credit. Exercises in weather monitoring, climate zones and interpretation of storms and other meteorological events. Interpretation of models and data sets relating to anthropogenic changes to atmospheric chemistry and climate. (STEM). Corequisite: ESC 110.

ESC 302 - Hydrology (3) (RLA)
3 hours; 3 credits. The hydrologic Cycle, precipitation, evapotranspiration, infiltration and soil water processes, runoff and stream processes, hydrologic data analysis, uniform open channel flow, human impacts on the hydrologic cycle, practical exercises on conducting and reporting hydrologic studies. Prerequisite: GEO 115, GEO 116 and (MTH 230 or MTH 231).
ESC 402 - The Science of Global Warming (3) (RLA)
3 hours; 3 credits. Fundamental principles of the climate system, structure and circulation of the atmosphere and oceans, radiation balance, the greenhouse effect, anthropogenic climate forcings, role of the sun/volcanoes/greenhouse gases/aerosols/land use, climate sensitivity, climate variability, the carbon cycle, global temperature change from instrumental records, climate reconstructions of the past 1000 years, climate from glaciers/boreholes/tree-rings, climate modeling, future predictions, sea level change, the Intergovernmental Panel on Climate Change. Prerequisite: ESC 110, ESC 111, GEO 310/

FNC - Finance

FNC 111 - Personal Financial Management (3) (RLA)
3 hours; 3 credits. Discussion of the problems involved in handling personal financial matters: Topics will include managing credit and money, financial planning, asset allocation, taxes, life insurance, investments and securities, annuities, wills, trusts, retirement and estate planning, and budgeting. Prerequisites: ENG 151 and MTH 015 or MTH 020 or higher or equivalent score on CUNY Mathematics Assessment Test.

FNC 213 - Money and Capital Markets (4) (RLA)
(Also ECO 213). 4 hours; 4 credits. The course examines financial markets from the standpoint of investors and users. Markets studied are those for money market instruments, T-bill futures, Ginnie Mae futures, T-bond futures, stocks, stock options, bonds, mortgages, and Eurocurrencies. Federal Reserve operations, U.S. Treasury operations, and international financing are considered with regard to their effects on financial markets. Prerequisites: Successful completion of CUNY Assessment Test in Reading and Writing or equivalent and ECO 101 or (ECO 111 and ECO 112).

FNC 214 - Money and Banking (4) (RLA)
(Also ECO 214), 4 hours; 4 credits. An analytical, institutional, and historical examination of the monetary systems of the United States. Particular attention will be paid to the operation of commercial banks, and to the powers, purposes, and performance of the Federal Reserve System. The influence of the quantity of money on the level of economic activity will be considered. Prerequisites: Successful completion of the CUNY Assessment Test in Reading and the CUNY Assessment Test in Writing and ECO 101 or (ECO 111 and ECO 112).

FNC 240 - Managerial Finance I (3) (RLA)
3 hours; 3 credits. (Also ECO 240). Examination of securities markets, analysis of methods of long-term financing, financial ratio analysis, budgeting, current asset management, present value concepts, capital budgeting, cost of capital, and dividend policy. Prerequisite: ECO 101 or (ECO 111 and ECO 112). Pre- or corequisites: ACC 121 and MTH 121 or higher.

FNC 300 - International Finance (4) (RLA)
(Also ECO 370), 4 hours; 4 credits. The financial interrelationships between countries. Analysis of balance of payments, fixed and flexible exchange rates, the role of international reserves. Historical trends in payments and exchange; implications of the rise of the multinational corporation; current international policy problems facing the United States, other developed nations, and underdeveloped nations, and current institutional changes designed to meet them. Prerequisite: FNC 240/ECO 240.

FNC 315 - Monetary Theory and Policy (4) (RLA)
(Also ECO 315), 4 hours; 4 credits. Theoretical and applied problems of monetary policy. Emphasis is placed on contemporary developments. Current controversies concerning the use of monetary policy, relationship to fiscal policy, and impact on economic activity. Prerequisites: ECO 212 and (ECO 213/FNC 213 or ECO/FNC 214).

FNC 345 - Managerial Finance II (4) (RLA)
(Also ECO 345), 4 hours; 4 credits. Working capital management, current asset management, sources of short-term financing, financial structure and use of leverage, valuation and rates of return, dividend policy and internal financing, mergers and acquisitions, and liquidation; includes computer lab for solving financial management problems. Prerequisites: FNC 240/ECO 240 and MGT 230/ECO 230.

FNC 350 - Advanced Corporate Finance (4) (RNL)
4 hours; 4 credits. A case problem approach to business policy including a theoretical and practical study of assets and liabilities, capital management, financial markets, and the legal concepts of corporate finance. Problems in industry structure, mergers, and acquisitions. Prerequisite: FNC 345/ECO 345.
FNC 360 - Investment Analysis (4) (RLA)
(Also ECO 360). 4 hours; 4 credits. Survey of principles governing the investment of individual and institutional capital funds: the theory and mechanics of investments; general analysis and valuation procedures including quantitative and qualitative tests for judging security values; valuation of fixed income securities and common stocks. Introduction to the analysis of industrial, public utility, and government securities. Management of an individual investor's portfolio. Prerequisites: FNC 345/ECO 345 and (FNC 213/ECO 213 or FNC 214/ECO 214).
Crosslisted as: ECO 360.

FNC 415 - Derivatives and Risk Management (4) (RNL)
4 hours; 4 credits. Advanced financial market course focused on derivative investment vehicles. Survey of derivative investments (options, futures, forwards, and swaps) in detail; review of options and futures markets; review of option pricing models such as the Binomial Model and the Black-Scholes-Merton Model; advanced derivatives portfolio management and strategies involving future, forwards, and swaps; risk management techniques and applications. The student will also simulate trading and management strategies learned using a portfolio simulator. Prerequisite: ECO360/FNC 360.

FNC 416 - Mathematics of Finance (4) (RNL)
(Also MTH 416). 4 hours; 4 credits. Introduction to the mathematical theory of derivative pricing; binomial trees and martingales; Black-Scholes formula; stochastic differential equations and Ito calculus; Girsanov theorem. Prerequisite: MTH 311.
Crosslisted as: MTH 416.

FRN - French
All students with prior training in French must take a proficiency examination to determine placement at an appropriate level.

FRN 101 - French Conversation I (2) (RLA)
2 hours; 2 credits. Practical French for business, community relations, travel, and simple technical application. For beginners with no previous knowledge of the language. Regular attendance in the World Languages and Literatures Media Center is required.

FRN 102 - French Conversation II (2) (RLA)
2 hours; 2 credits. A continuation of FRN 101. Regular attendance in the World Languages and Literatures Media Center is required. Prerequisite: FRN 101 or equivalent.

FRN 112 - Basic French I (3) (FWGR)
3 hours; 3 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the Modern Languages Media Center is required. Not open to students who have taken FRN 113 or higher. (foreign lang.) (FWGR). Prerequisite: Passing CUNY Assessment Tests in Reading and Writing.

FRN 113 - Basic French I (4) (RLA)
4 hours; 4 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.) Not open to students who have completed FRN 112. Prerequisite: Passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing. Note: This course satisfies the college option.

FRN 114 - Basic French II (4) (RLA)
4 hours; 4 credits. A continuation of FRN 113. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.). Prerequisites: FRN 112 or 113 or equivalent. Passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing. Note: This course satisfies the college option.

FRN 208 - French for Native Speakers (4) (RLA)
4 hours; 4 credits. For students with fluency in spoken French but lacking experience in writing and reading the language.

FRN 213 - Continuing French I (4) (RLA)
4 hours; 4 credits. Grammar review and more intensive training in the fundamentals of expression and communication. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.). Prerequisite: FRN 212 or equivalent.

FRN 215 - Continuing French II (4) (RLA)
4 hours; 4 credits. A continuation of FRN 213 with stress on written and oral composition and on selected cultural and literary readings of intermediate difficulty. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.). Prerequisite: FRN 213 or equivalent.

FRN 313 - Advanced Communication Skills (4) (RLA)
4 hours; 4 credits. Refinement of written and oral expression through composition, translation, oral reports, and critical study of the French grammar based on the analysis of selected literary readings of advanced difficulty. Regular attendance in the World Languages and Literatures Media Center is required. (literature) (TALA). Prerequisite: FRN
215 or equivalent. Note: This course satisfies the college option.

FRN 325 - French Civilization (4) (RLA)
4 hours; 4 credits. The art, literature, history, and political and social systems of the French-speaking world. A panoramic approach designed to provide a basic knowledge of French civilization. Prerequisite: FRN 313 or equivalent.

FRN 340 - An Introduction to the Literature of France (4) (RLA)
4 hours; 4 credits. A chronological survey of the literature of France from the Middle Ages to the present. (literature). (TALA). Prerequisite: FRN 313 or equivalent. Note: This course satisfies the college option.

FRN 350 - The Feminist Challenge in French Literature (4) (RLA)
(Also WGS 353). 4 hours; 4 credits. A study of the most important women writers in French literature, focusing primarily on selected works of Christine de Pisan, Marguerite de Navarre, Madame de Staël, George Sand, Colette, Simone de Beauvoir, Françoise Sagan, Nathalie Sarraute. Taught in French. (literature). (TALA). Prerequisite: FRN 313 or equivalent. Please Note: this course satisfies the college option. Crosslisted as: WGS 353.

FRN 426 - Classical French Drama (4) (RLA)
(Also DRA 426). 4 hours; 4 credits. Plays of Corneille, Racine, Molière, with special emphasis on the continuing role of Molière in the world's theater. (literature) (TALA) Prerequisite: FRN 313 or equivalent for those doing readings and assignments in French; ENG 151 or a former ENG 200 course for those doing readings and assignments in English. Please Note: this course satisfies the college option. Crosslisted as: DRA 426.

FRN 450 - Contemporary French Literature (4) (RLA)
4 hours; 4 credits. An analysis of representative masterpieces of 20th-century French literature from Proust, Gide, and Malraux to Sartre, Camus, and Robbe-Grillet. (literature). (TALA). Prerequisite: FRN 313 or equivalent. Note: This course satisfies the college option.

FRN 465 - French Existentialist Literature (4) (RLA)
4 hours; 4 credits. A study of French existentialist literature through the works of Sartre, Simone de Beauvoir, Proust, and Camus. (literature). (TALA). Prerequisite: FRN 313 or equivalent. Note: This course satisfies the college option.

GEG - Geography

GEG 100 - Introduction to Geography (3) (FWGR)
3 hours; 3 credits. An overview to the field of geography. It approaches the central issues of the discipline through a systematic fashion, exploring the basics of such themes as: physical geography, climate change, political geography, cultural geography, urban geography, economic geography, agriculture, globalization, and resources and development. (FWGR).

GEG 101 - World Regional Geography (3) (FWGR)
3 hours; 3 credits. Introduction to the major world geographic regions and countries with emphasis on population, place, location, environment, and economic development. (FWGR).

GEG 102 - People and Their Environment (3) (RLA)
3 hours; 3 credits. An introduction to the Earth as home to human beings. Course first surveys physical geography in order to understand various natural processes (weather and climate, formations of soils and biological systems, hydrologic cycle) that allowed for emergence of human civilization. The second part examines the advent of the Holocene, the current epoch in which human beings are transforming the planet. Required for Geography majors, open to all students.

GEG 212 - Introduction to GIS (4) (RLA)
4 hours; 4 credits. An introduction to the Geographic Information Systems (GIS) production process from data modeling and acquisition to editing, analysis, and cartographic output. It is divided between lectures that introduce the theory and implications of GIS and lab exercises to familiarize students with the many applications of the software. Required for Geography majors, open to all students. (social science). NOTE: This course satisfies the College Option. Prerequisite: ENG 111.

GEG 215 - The Geography of Latin America and the Caribbean (4) (RLA)
4 hours; 4 credits. Provides an introduction to the physical and human geography of Latin America and the Caribbean. After a focus on climatic and geomorphological features, biogeography, and distribution of natural resources, the course will cover human geographic features including cultural landscapes, historical geographies, demography, industrialization, urbanization, and globalization. For geography majors, this is designated as a regional course. Prerequisite: ENG 151, COR 100.

GEG 216 - Geography of Africa (4) (RLA)
(Also AAD 216). 4 hours; 4 credits. Provides an introduction to the physical and human geography of Africa.
After a focus on climatic and geomorphological features, biogeography, and distribution of natural resources, the course will cover human geographic features including cultural landscapes, historical geographies, demography, industrialization, urbanization and globalization. For geography majors, this is designated as a regional course. Prerequisite: ENG 151, COR 100

Crosslisted as: AAD 216.

**GEG 220 - Geography of Western Europe (4) (RLA)**

4 hours; 4 credits. Demographic, economic, and political effects on the nations of Western Europe of the intraregional variations in such fundamental geographic factors as geomatic position, climate, soils, minerals, and elevation. Emphasis on selected nations in the context of 20th-century industrial development. For Geography majors this is designated as a regional course. Prerequisite: ENG 111 and COR 100.

Crosslisted as: SLS 232.

**GEG 221 - Geography of East Asia (4) (RLA)**

4 hours; 4 credits. An introduction to the physical and human geography of China, Japan, and Korea. After a focus on climatic and geomorphological features, biogeography, and distribution of natural resources, the course will cover human geographic features including cultural landscapes, demography, industrialization, urbanization, and globalization. For Geography majors, this is designated as a regional course. (cont. wrld.) NOTE: This course satisfies the College Option. Prerequisite: ENG 151 or COR 100

Distribution: N.

**GEG 222 - Geography of the United States (4) (RLA)**

(Also AMS 220). 4 hours; 4 credits. This course explores the geographic variety of the United States. The country’s physical characteristics are regionally diverse and provide an array of resources. Different populations have put them to use in various ways. The course traces who lives where, why, what they have found there, what have they done with it. Emphasis is placed on the contrasting threads of regional variation and national homogenization. For Geography majors this is designated as a regional course. (social science) NOTE: This course satisfies the College Option. Prerequisite: ENG 111 and COR 100.

Crosslisted as: AMS 220.

**GEG 223 - American Landscapes (4) (RLA)**

(Also HST 223). 4 hours; 4 credits. A study of American landscapes through historical geography and history. This course examines the making of American landscapes, including not only the "natural" processes but also the social, cultural, and ideological forces that have shaped them. For Geography majors this is designated as a regional course. (social science) NOTE: This course satisfies the College Option. Prerequisites: ENG 111, COR 100, or any college-level history course.

Crosslisted as: HST 223.

**GEG 225 - Cultural Geography (4) (RLA)**

4 hours; 4 credits. This course will provide a global context to explore various cultural issues while highlighting the role of human impact on places, landscapes, and the planet. Students will develop an understanding of the basic concepts of cultural geography, including those related to population, migration, religion, ethnicity, urbanization, agriculture, nature and environment, resource use, and territoriality. For Geography majors this is designated as a topics course. (social science) (cont. wld.) NOTE: This course satisfies the College Option. Prerequisites: ENG 151 and COR 100.

**GEG 227 - The Geography of Drugs (4) (RLA)**

(Also AMS 227). 4 hours; 4 credits. This course combines cultural and economic geography to examine the illicit drug trade. Students will develop an understanding of the global nature of the commodity chains associated with specific major drugs, the ecological and social impact on producing regions, and the operation of drug-trafficking organizations and drug markets here in the U.S. For Geography majors this is designated as a topics course. Prerequisite: ENG 151 and COR 100.

Crosslisted as: AMS 227.

**GEG 229 - Geography of New York City (4) (RLA)**

4 hours; 4 credits. An exploration of the human geography of New York City. Using concepts and methodologies related to various sub-disciplines of geography (urban, social, cultural, and economic) particular attention will be paid to the colonial imprint upon the urban landscape; nineteenth and twentieth century immigration and housing patterns; urban planning, building, and redevelopment; and transportation and infrastructure systems. Participation in field trips is required. Prerequisite: COR 100 and ENG 151.

**GEG 232 - Social Geography (4) (RLA)**

(Also SLS 232). 4 hours; 4 credits. A social geographic approach in examining the spatial organization of human behavior and people’s relationship with their environment. Students will develop an understanding of the concepts of social geography as related to the major aspects of human behavior on the Earth, including population increase, migration throughout the world, the urbanization of the majority of humanity, and the modification of the surface of the planet via agricultural practices, industrialization, and natural resource exploitation. Prerequisite: A GPA of 3.0 and ENG 151.

Crosslisted as: SLS 232.
GEG 250 - Conservation and Humanity (4) (RLA)
4 hours; 4 credits. Analysis of the nature and extent of pollution and depletion of essential resources of humankind, with emphasis on food, water, and oxygen. Study will include inquiry into economic, legal, and political problems of control, detection, and prevention of pollution and depletion of resources. For Geography majors, this is designated as an environmental course. (social science) (cont. wld.) NOTE: This course satisfies the College Option. Prerequisites: ENG 151, COR 100.

GEG 252 - Economic Geography (4) (RLA)
(Also ECO 252). 4 hours; 4 credits. Examination of how geographic factors influencing economic activity, and culture, technology, resources, location, and labor intersect to produce different economic environments, and how globalization and local conditions interact. For Geography majors this is designated as a topics course. (social science) (cont. wld.) NOTE: This course satisfies the College Option. Prerequisites: ENG 151, COR 100. Crosslisted as: ECO 252.

GEG 260 - Urban Geography (4) (RLA)
4 hours; 4 credits. A study of urbanization, urban growth, and urban form, both within the metropolitan area and as part of a system. The course examines how societies shape space to employ their human and physical resources to develop their urban landscapes and how old patterns are replaced by new ones as a result of economic, political, and social transformations. The course will cover urban geography in several societies. For Geography majors this is designated as a topics course. (social science) (cont. wld.) NOTE: This course satisfies the College Option. Prerequisite: ENG 151 and COR 100.

GEG 264 - Political Geography (4) (RLA)
(Also POL 264). 4 hours; 4 credits. All politics are embedded in geographical space. This course examines the ways in which people have territorially arranged the Earth's surface, internal and external relationships of politically organized areas, the effects of political actions on social and economic conditions, and the significance of geographical factors behind political situations, problems, and conflicts within and between different territories. (cont. wld.) (social science). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option. Crosslisted as: POL 264.

GEG 266 - Environmental Ethics (4) (RLA)
(Also PHL 266). 4 hours; 4 credits. This course provides a critical forum to examine the roots and results of our attitudes toward the environment. How should we view the apparent connections between pollution, economic development, and poverty; what (if anything) do we owe future generations; how should we consider non-human animals in the environment; is there justice or injustice in environmental civil disobedience? The course will draw on issues related to philosophy, geography, biology, economics, geology, and political science; and will challenge the exercise of global consciousness in "real-world" terms. Prerequisites: A 100-level course in philosophy or sophomore standing; ENG 151, COR 100.

GEG 275 - Place, Race, and Racism (4) (RLA)
(Also AAD 275). 4 hours; 4 credits. This course explores how race is socially constructed and the role that place plays in the construction of racial and ethnic identities. From the formation of racialized places such as ghettos and Chinatowns to media coverage of school shootings in suburbs, we will examine the how, why, and where of racism and discrimination. The focus will be on racial issues in the United States, coupled with case studies from other regions for comparative purposes. For Geography majors this is designated as a topics course. (social science) (p&d) NOTE: This course satisfies the College Option. Crosslisted as: AAD 275.

GEG 301 - Special Topics of Geography (4) (RLA)
4 hours; 4 credits. Contemporary global issues examined from a geographical perspective. Examination of major environmental, social, political, and economic trends that involve the restructuring of society and space at a variety of scales. Themes vary from semester to semester. Specific topics will be announced at time of registration. (cont. wld.) (social science). Prerequisites: ENG 151 and COR 100. Note: This course satisfies the college option.

GEG 312 - Food, Self, and Society (4) (RLA)
(Also ANT 312/SOC 312/WGS 312). 4 hours; 4 credits. A sociological, anthropological, and geographical examination of the ways in which the production and consumption of food shape and are shaped by the self and the social world. A major theme of the course will be the gendering of food through topics such as women's traditional roles as home cooks. women laborers in global food production, and female body image. Particular attention will be given to the meaning of practices of eating, preparing and sharing food for the individual family, community, and nation, and how these practices are influenced by larger forces such as social inequality and globalization. Students are expected to conduct primary research. Prerequisite: ENG 151 and (ANT 201 or SOC 201). Crosslisted as: ANT 312/SOC 312/WGS 312.
**GEG 322 - Intermediate GIS (4) (RLA)**

4 hours; 4 credits. A study of intermediate concepts in Geographic Information Systems (GIS). Utilizing both raster and vector applications, this course will focus on how to generate spatial data through geographical analysis. It is divided between lectures that introduce advanced theories and implications of GIS and lab exercises to familiarize students with the many applications of the software. Attention will be given to various real world applications of GIS through several case studies. Prerequisites: GEG 212 and (MTH 102, MTH 113 or MTH 123).

**GEO 324 - Environmental History (4) (RLA)**

(HST 324). 4 hours; 4 credits. An examination of the field of environmental history throughout the world, which is broadly defined as the study of humanity's relationships with the rest of nature over time. The course takes a global approach to the important problems, questions, and topics addressed by environmental historians, including landscape change, property regimes, deforestation, pollution, colonialism, disease, urbanization, resource conflict, climate change, natural disasters, conservation, preservation, sustainability, environmentalism, and environmental justice. For History majors and minors, this is designated as a world history course. Prerequisites: Any 200-level history course and ENG 151.

Crosslisted as: HST 324.

**GEG 364 - Geopolitics of United States (4) (RLA)**

4 hours; 4 credits. This course will analyze geopolitical concepts and strategies. Analysis of America's geopolitical discourses and practices around the world. The course will offer a critical overview and analysis of US foreign interventions, the debates and justifications regarding them, and their implications. (cont. wld.) (social science). Note: This course satisfies the college option. Prerequisite: ENG 151 and COR 100

**GEG 365 - The City of East Asia (4) (RLA)**

4 hours; 4 credits. A survey of the cities and processes of urbanization in the region of East Asia. Following development of an understanding of general features of urbanization and different analytical approaches to explaining urban phenomena, this course will examine urbanization in both Imperial China and Tokugawa Japan. It will then examine how colonialism, industrialization, war, and economic globalization continued to shape cities from the nineteenth to the early twenty-first century. For geography majors this is designated as a topics course. Prerequisite: ENG 151, COR 100

**GEG 400 - Geographical Imaginations (4) (RLA)**

4 hours; 4 credits. Analysis and history of trends and themes in the discipline of geography. Explores major geographical traditions in research and pedagogy. Training in various geographic research methods and skills. Prerequisites: Geography major or minor and senior standing.

**GEG 490 - Senior Seminar in Geography, Economics, Political Science, and Philosophy (4) (RLA)**

(Also, ECO 490/PHL 490/POL 490). 4 hours; 4 credits. Selected topics in which ideas and approaches from economics, political science, philosophy, and geography either mesh or collide will be explored. Required of all students expecting to graduate with honors in Political Science, Economics, Philosophy, or Geography, but not limited to these students. Prerequisite: Senior standing and completion of at least 16 credits in intermediate and advanced social science courses and permission of the instructor.

**GEO - Geology**

**GEO 100 - Planet Earth (3) (RLPR)**

3 hours; 3 credits. An introduction to the physical characteristics of the planet Earth. The focus is on processes and interactions of the four components of the Earth system: atmosphere, hydrosphere, lithosphere and biosphere. An understanding of the human impact on Earth systems is also developed and maintained in perspective. Satellite information, aerial photography, maps, charts and other Geographic Information Systems technologies are used to study planet Earth in this course. A full day field trip and a report on the field trip are required. (scientific analysis) (RLPR) (STEM) Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: GEO 101.

**GEO 101 - Planet Earth Laboratory (1) (RLA)**

2 hours; 1 credit. The study of planet earth; identification and methods of classifying earth materials; Using Satellite information, aerial photography, topographic maps, charts and Geographic Information Systems to study the surface of the earth. (scientific analysis) (STEM) Prerequisite: MTH 020 or higher or an appropriate score on the CUNY Mathematics Assessment Test. Corequisite: GEO 100.

**GEO 102 - Earth Systems History (3) (FSWR)**

3 hours; 3 credits. Geologic history of the Earth. Application of fundamental principles of stratigraphy to the reconstruction of paleogeographic, ancient sedimentary, and tectonic relationships. The evolution of life is traced from the fossil record. Participation in scheduled field trips is required. (scientific analysis) (FSWR). (STEM). Prerequisite: ENG 111; (GEO 115 & GEO 116 or GEO 100 & GEO 101); MTH 123. Corequisite: GEO 103.
GEO 103 - Earth Systems History Lab (1) (RLA)
2 laboratory hours; 1 credit. Classification and identification of major fossil groups. Interpretation of rock record with emphasis on stratigraphic correlation. Major geological features of the United States. (scientific analysis) (STEM). Corequisite: GEO 102.

GEO 105 - Environmental Geology (4) (RLA)
3 class hours, 2 laboratory hours; 4 credits. Application of the principles of the Earth sciences to problems associated with urban and regional development. Water, minerals, and fuel resources, waste disposal, subsurface storage, hazards of nature (earthquakes, fire, flood, landslides, extreme climate, and weather variations). Physical properties of rocks and soil. Case histories. Participation in scheduled field trips is required. (science). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test.

GEO 106 - Earth Resources (3) (FSWR)
3 hours; 3 credits. An introduction to Earth resources, including energy, mineral resources, water supply and soils. The class will explore how these resources are produced by geologic processes and how we find them. It will also investigate how human population growth and changing lifestyles on these resources and the environmental impacts associated with their use. A full day fieldtrip is required. Prerequisite: MTH 020 or appropriate score on the CUNY Mathematics Assessment Test. Corequisite: GEO 107.

GEO 107 - Earth Resources Laboratory (1) (RLA)
2 laboratory hours; 1 credit. Laboratory class introducing Earth resources, their formation, use and environmental impact. Hands on exercises using maps, photographs, online data sets and lab measurements to interpret the geologic processes forming these resources, understand our use of these resources and analyze the environmental impact of using these resources. Prerequisite: MTH 020 or appropriate score on the CUNY Mathematics Assessment Test. Corequisite: GEO 106.

GEO 110 - Field and Environmental Geology of Hawaii (4) (RNL)
45 lecture hours (minimum); 30 laboratory and field application hours (minimum). A total of 75 hours. 4 credits - 3 credits lecture and 1 credit laboratory. A supervised geologic study of the island of Hawaii, stressing the field and environmental geology of active volcanoes within a framework of plate tectonics and hot-spot geology. Fundamental igneous, sedimentary, and metamorphic processes will be emphasized. Students will be introduced to geologic mapping techniques, including the use of aerial photographs, topographic maps, and the Brunton compass in the construction of geologic maps and cross-sections. (scientific analysis). Prerequisite: GEO 100 or equivalent course with the approval of the instructor.

GEO 111 - Geological Hazards and Natural Disasters (3) (FSWR)
3 hours; 3 credits. An introduction to geological hazards, their causes and the natural disasters that result. Processes at the surface of the Earth and in the atmosphere and hydrosphere. Geologic hazards that occur due to surface processes, including slope failure, stream and coastal flooding, severe weather events, wildfires, climate change and impacts. The Theory of Plate Tectonics, and the earthquakes, tsunamis and volcanoes produced as a result of tectonic processes. A full day fieldtrip is required. Prerequisite: MTH 020 or appropriate score on the CUNY Mathematics Assessment Test. Corequisite: GEO 112.

GEO 112 - Geological Hazards and Natural Disasters Laboratory (1) (RLA)
2 laboratory hours; 1 credit. Laboratory class introducing geologic hazards, their causes and the natural disasters that result. Hands on exercises using maps, online data sets and lab measurements to interpret geologic hazards that occur due to surface processes and plate tectonics. Prerequisite: MTH 020 or appropriate score on the CUNY Mathematics Assessment Test. Corequisite: GEO 111.

GEO 114 - Pollution and Waste Disposal Laboratory (2) (RLA)
2 laboratory hours; 1 credit. Laboratory class introducing Earth resources, their formation, use and environmental impact. Hands on exercises using maps, photographs, online data sets and lab measurements to interpret the geologic processes forming these resources, understand our use of these resources and analyze the environmental impact of using these resources. Prerequisites: MTH 020. Corequisite: GEO 113.

GEO 115 - Fundamentals of Physical Geology (3) (RLA) (RLPR)
3 Credits: 3 Hours. An introduction to rocks and minerals, geologic time, global tectonics and other earth processes. Field simulations and exercises provide students with the framework for rock and mineral identification, mapping, model interpretations, and process visualization. A Field trip is required. (RLPR) (STEM). Pre- or corequisite: MTH 123. Corequisite: GEO 116.

GEO 116 - Fundamentals of Physical Geology Laboratory (1) (RLA)
GEO 210 - Earth Materials (4) (RLA) (RLPR)
3 lecture hours, 3 laboratory hours; 4 Credits. Structure, classification and chemistry of rock forming minerals. The description, analysis, and interpretation of Earth materials. Methods used to identify the mineralogy and texture of volcanic, plutonic, and metamorphic rocks, their classification and interpretation, and formation of major igneous and metamorphic rock associations in relation to plate tectonics. (RLPR) (STEM). Prerequisite: (GEO 115 and GEO 116) or (a minimum grade of B in GEO 100 and GEO 101) and (CHM 141 and CHM 142).

GEO 212 - Sedimentology and Stratigraphy (4) (RLA)
3 lecture hours, 3 laboratory hours; 4 credits. Sediment origin, transportation and deposition. Diagenesis and lithification of sedimentary rocks. Correlation of stratigraphic units and interpretation of sedimentary environments. Lab work on the mineralogy, texture and other properties of sediments and sedimentary rocks and stratigraphic correlation. Participation in field trips is required. Prerequisite: GEO 102, GEO 103.

GEO 220 - General Geophysics (3) (RLA)
3 hours; 3 credits. Physical properties of the Earth, including gravitational magnetic and electrical properties of the geosphere and atmosphere. Interpretation of seismic waves. The use of geophysical data to interpret properties of the Earth's interior, geodesy, and techniques of geophysical exploration. Prerequisite: GEO 115 or GEO 100 and PHY 120.

GEO 230 - Planetary Geology (3) (RLA)
(Also AST 230). 4 hours; 3 credits. The study of the geology of the celestial bodies such as the planets and their moons, asteroids, comets, and meteorites. Specific topics covered are: determining the internal structure of the terrestrial planets, planetary volcanism, impact craters, fluvial and Aeolian processes, structures of the giant planets and their moons, make-up of the minor bodies of the solar system, such as asteroids, the Kuiper Belt, and comets, and Exoplanets (The nature of planets found beyond our Solar System). A Term paper, Field trips and/or day and evening astronomical observation sessions will be required. Prerequisite: (GEO 115 and GEO 116) or (GEO 100 and GEO 101) and MTH 123.

Crosslisted as: AST 230.

GEO 310 - Geochemistry (4) (RLA)
3 lecture hours, 2 laboratory hours; 4 credits. Chemical composition and properties of the Earth. Chemical interactions between the geosphere and the hydrosphere, biosphere and atmosphere. Includes topics of atomic theory, chemical bonding, crystal chemistry and chemical equilibria. Labs include chemical analysis and calculations.
Prerequisite: GEO 115, GEO 116, GEO 210, (MTH 230 or MTH 231).

GEO 315 - Residential Field Course (4) (RLA)
5 hours; 4 credits. Exploration of the geology of a region outside the greater New York area. This course will allow students to put their field techniques into practice and interpret the data using knowledge from the core courses in Earth and Environmental Science. Location will vary. Prerequisites: GEO 210, GEO 212.

GEO 320 - Invertebrate Paleontology (4) (RLA)
3 class hours, 3 laboratory hours; 4 credits. Classification, morphology, evolution, stratigraphic distribution and paleoecology of invertebrate fossils. The use of fossils in paleogeographic and paleoenvironmental reconstructions. Techniques of fossil collection and identification. Required field trip. Prerequisite: GEO 212 and BIO 180.

GEO 322 - Structural Geology (4) (RLA)
3 lecture hours, 3 laboratory hours; 4 credits. Analysis and interpretation of rock formation, including folds, faults, joints, igneous, sedimentary, and metamorphic structures, and their relation to plate tectonic and other geologic processes. Lab and field based exercises using geologic maps, cross sections and stereographic projections, including interpretation of data collected in the field. Prerequisite: GEO 212.

GEO 325 - Marine Geology (3) (RLA)
2 lecture hours, 2 laboratory hours; 3 credits. Geology of the world's oceans. Formation of the ocean basins, processes at spreading centers, sedimentation in ocean basins, continental margins and ocean mineral and fuel resources. Field trips are required. Prerequisite: GEO 212 and BIO 230.

GEO 410 - Geospatial Data Analysis (4) (RLA)
5 hours; 4 credits. Tools such as Geographical Information Systems (GIS) and Google Earth are utilized to interpret geologic and environmental data. This course introduces earth and environmental science students to applications of geographic information systems, emphasizing hands-on field experience in collecting spatial location data and in mapping geologic and environmental data using GIS software. Topics include: geodesy; spherical and plane coordinate systems; spatial data concepts, including error, accuracy, and precision; location measurement technologies including GPS: vector and raster GIS data structures and file types, basic GIS operations, including georeferencing of raster files and editing of vector files; assembly of field data over a base map; analysis of spatial relationships using GIS tools; symbology and methods of map presentation. Prerequisite: GEO 212 and GEO 310.
GEO 450 - Internship (4) (RLA)
4 Credits. Approved internship working or conducting research in Earth and/or Environmental Science, with a minimum of 120 hours. Prerequisite: GEO 210 and GEO 212.

GEO 460 - Capstone Research Seminar and Thesis (4) (RLA)
4 hours; 4 credits. Establishment of an independent research project and presentation of results. Students will become familiar with current topics in Earth and Environmental Science through reading recent research papers and interpreting the results. They will then conduct a research project with a faculty mentor and present the results in a thesis. Prerequisite: GEO 210 and GEO 212 and GEO 310.

HED - Health Education

HED 111 - First Aid and Safety (3) (RNL)
2 hours, 2 laboratory hours; 3 credits. Theory and practice of first aid to the injured. Safety procedures when emergency first aid is needed and medical assistance is delayed. Includes cardio-pulmonary resuscitation (CPR), care and prevention of accidental injuries, and sudden illness.

HON - Honors College Seminars

HON 101 - The American Experience: Humanities (4) (RLA)
4 hours; 4 credits. A writing-intensive introduction to selected areas and topics of the American experience through the humanities; the specific focus will be determined by the instructor. Prerequisite: Admission to Macaulay Honors College University Scholars Program.

HON 121 - The Arts in New York City (3) (FCER)
3 hours; 3 credits. An introduction to the arts in New York City from the multiple perspectives of scholarship, creativity, and production. Students will attend theatrical, operatic, or musical performances; exhibitions of visual art; or other highlights of the current cultural season. By writing frequently about these and other examples of the visual, performing, and literary arts, students will develop their analytic and communication skills. Required for Macaulay Honors. (FCER). Prerequisite: First-semester standing in the Macaulay Honors College University Scholars Program.

HON 122 - The Peopling of New York (3) (FUSR)
3 hours; 3 credits. An investigation of the role of immigration and migration in shaping New York City's identity in the past and present. Topics will include the factors that have driven and drawn people to the city since the 17th century; the different ways that religion, race, gender, and ethnicity have shaped immigrant encounters with the city; the formation and social organization of immigrant communities; the impact of successive waves of newcomers on urban culture and politics; and the continuing debate over assimilation and Americanization. Required for Macaulay Honors. (FUSR). Prerequisite: Third-semester standing in the Macaulay Honors College University Scholars Program.

HON 205 - Non-U.S. Experience: Humanities (4) (RLA)
4 hours; 4 credits. A writing-intensive seminar using the humanities to explore human experience in a non-U.S. region. The specific focus will be determined by the instructor. (cont. wrld.) (TALA). Prerequisite: Admission to the Macaulay Honors College University Scholars Program. Please Note: this course satisfies the college option.

HON 206 - The Non-Western Experience: Social Sciences (4) (RLA)
4 hours; 4 credits. A writing-intensive introduction to selected areas and topics of the non-Western experience through the social sciences; the specific focus will be determined by the instructor. (cont. wrld) (social science). Prerequisite: Admission to the Macaulay Honors College University Scholars Program. Please Note: This course satisfies the college option.

HON 223 - Science and Technology in New York City (3) (FSWR)
3 hours; 3 credits. An investigation into the impact that science and technology have had on contemporary New York. The intellectual and historical roots and the ethical, legal, social, and economic ramifications of such issues as the computer, urban health, the environment, and energy are examined. Scholars visit important institutions related to the field of science and technology within New York City and engage in the process of scientific inquiry as they investigate seminar topics. (FSWR) Prerequisite: Third-semester standing in Macaulay Honors College University Scholars Program.

HON 224 - Shaping the Future of New York City (3) (FISR)
3 hours, 3 credits. An exploration of the ongoing interplay of social, economic, and political forces that shape the physical form and social dynamics of New York City. Major topics will include important historical junctures and economic development initiatives that illustrate how
decisions are made and power is distributed in the city; the larger context of the city within the region, the nation, and the world; the institutional agents of change in the city; and inequality and its relationship to race, class, and gender. Required for Macaulay Honors. (FISR). Prerequisite: Fourth-semester standing in the Macaulay Honors College University Scholars Program.

HON 301 - Interdisciplinary Honors Seminar (4) (RLA)
4 hours, 4 credits. An examination of the nature and process of scholarship and research in the multiple disciplines that comprise the spectrum of pure and applied arts and sciences— including creative arts, humanities, mathematics, social sciences, natural sciences, and technology— and their interdisciplinary connections, both subtle and profound. Students will be engaged in various stages of independent scholarly work. Through interactions with peers, students develop communication skills and position their own research and scholarship within a broader context of human inquiry. Prerequisite: Completion of at least 45 credits and permission of the instructor.

HON 400 - Honors Seminar in the Humanities and Social Sciences (4) (RNL)
4 hours; 4 credits; The Honors Seminar in the Humanities and Social Sciences will focus on a particular methodological problem or central issue in one or more disciplines of the humanities and/or social sciences. Over the course of the semester, students will be required to (1) familiarize themselves with the current literature in a particular problem area and (2) pursue original research in that area. Students will also be required to read extensively, engage in seminar discussions, and participate in individual conferences with the instructor. Prerequisites: Matriculation in one of the disciplines under the aegis of the Division of Humanities and Social Sciences; completion of 64 credits; selection by a faculty committee.

HST - History
HST 100 - Past and Present (3) (FISR)
3 hours; 3 credits. An interdisciplinary approach to historical experience since the Renaissance, with particular emphasis on significant themes and events and on concepts such as freedom, power, social roles, bureaucracy, and historical cycles. (FISR).

HST 105 - Contemporary African Issues (3) (FWGR)
(Also AAD 105). 3 hours; 3 credits. An examination of post-colonial African issues, including the colonial legacy/neocolonialism; conflict and human rights; development, poverty and the debt problem; healthcare and infrastructure; globalization, democracy and multiparty politics; and, how these relate to the world at large. Not open to students who have completed HST 267 or AAD 266. (FWGR).

Crosslisted as: AAD 105.

HST 106 - Africa Encounters Europe (3) (FWGR)
3 hours; 3 credits. A study of the interactions between Africans and Europeans since the 15th century. This course examines African societies just prior to the Atlantic slave trade; its consequences for African, European, and American societies; colonialism and nationalism; and problems facing African societies in the postcolonial and post-Cold war periods. Not open to students who have completed HST 290. (FWGR). Pre- or corequisite: ENG 111.

HST 110 - Individual and Society in Ancient Greece (3) (FISR)
A course examining social relations in the ancient Greek world through a variety of sources, which could include literature, history and archaeology. Themes and topics may include the soldier and the citizen, the aristocrat and the commoner, women and children both in their respective roles and in their mutual relations within the society in which they live. (FISR). Pre- or corequisite: ENG 111.

HST 112 - New Approaches to History (3) (RLA)
4 hours; 3 credits. Innovative approaches to the study of History using engaging primary and secondary source works with a History discovery lab component. It introduces students to approaches taken in recent historical writing and research. Approaches covered will vary by semester and reflect the expertise of the instructor. Emphasis will be placed on the development of analytical skills and argumentative writing. Pre- or corequisite: ENG 111.
HST 115 - Comparative Ancient Religion (3) (FWGR)
3 hours; 3 credits. Close reading and comparison among a range of religious texts coming from different regions of the ancient world. The texts are interpreted against their cultural and historical backgrounds. (FWGR). Pre- or corequisite: ENG 111.

HST 116 - Freshman Seminar in History (3) (RLA)
3 hours; 3 credits. An interdisciplinary approach to historical experience since the Renaissance with selected emphasis on significant themes and events, and on concepts such as freedom, power, social roles, bureaucracy, and historical cycles. The seminar is designed to give students special instruction in communications skills. It is offered in conjunction with a designated section of ENG 001. Students must register for both the seminar and the designated English course. Students who successfully complete the Freshman Seminar in History may not register for any additional 100-level courses in history without permission of the department chairperson.

HST 160 - African American History: 1619 to the Present (3) (FUSR)
(Also AAD 160). 3 hours; 3 credits. From the forced migration of the first Africans in the 17th century to the contemporary struggles for equality; emphasis on such topics as slavery; abolition, Reconstruction, the origins of Jim Crow, urban migrations, the struggle for civil rights, nonviolence, and the new militancy. (USED).
Crosslisted as: AAD 160.

HST 182 - Women's History and Feminist Theory (3) (RLA)
(Also WGS 100). 3 hours; 3 credits. This course explores both the history of women's experience and feminist interpretations of their historical condition. Emphasis is on the development of analytic and writing skills.
Crosslisted as: WGS 100.

HST 200 - Historical Method (4) (RLA)
4 hours; 4 credits. An introduction to the basic skills of historical reasoning, research, and writing. Students receive training in the interpretation of primary sources and the evaluation of historical data, and are acquainted with the notion of historiography. Particular emphasis is placed on the preparation of research papers and book reviews; the use of library, electronic, and archival resources; and the critical evaluation of secondary monographic works. Required for History majors, open to all students. Prerequisites: ENG 111 and any college-level history course.

HST 201 - History of Western Civilization: Antiquity to 1500 (4) (RLA)
4 hours; 4 credits. The historical development of Western civilization in ancient, medieval, and Renaissance times, with emphasis on the individuals, issues, ideas, institutions, and events that highlight its evolution. For History majors and minors, this is designated as a pre-1700 history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 202 - History of Western Civilization since 1500 (4) (RLA)
4 hours; 4 credits. The historical development of Western civilization from the 16th century to the present. The focus is on Europe, but developments in other areas of the world are considered in relation to Western ideas. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 203 - The World Since 1900 (4) (RLA)
4 hours; 4 credits. A survey of the major political, economic, social, and cultural developments in the world history from the beginning of the 20th century to the present day. The course will focus on the processes of imperialism, decolonization and modernization around the globe. Topics include imperialism, world revolution, the world economic depression, the world wars, decolonization and globalization (cont. wld.) (social science). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 204 - Introduction to Asian Civilization (4) (RLA)
4 hours; 4 credits. An introductory course on the nature of Asian civilization and culture. The first part will deal with an analysis of the historical role of Buddhism, Confucianism, and Taoism; the second, with different paths to modernization emphasizing China, India, and Japan. For History majors and minors, this is designated as a world history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 206 - Modern China (4) (RLA)
4 hours; 4 credits. A survey of China from the 19th century to the present. The course will analyze the character of early Western involvement and Chinese responses, the rise of Chinese communism, and China's struggle to modernize. For History majors and minors, this is designated as a world history course. (cont. wld.) (p&d). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.
HST 207 - History of Africa (4) (RLA)
(Also AAD 260). 4 hours; 4 credits. Nineteenth-century African history, the story of European imperialism, and the emergence of modern, independent Africa and its problems. For History majors and minors, this is designated as a world history course. For African and African Diaspora Studies majors and minors, this is designated as an Africa course. Please Note: This course satisfies the college option. (p&d) (social science). Prerequisites: ENG 151 and COR 100 or any college-level history course.

Crosslisted as: AAD 260.

HST 208 - History of Modern Latin America (4) (RLA)
4 hours; 4 credits. A survey of the social, economic, political, and cultural development of Latin America since independence. The course will focus on the prevailing colonial influences on modern institutions; Cuba, Venezuela, and Brazil as developmental models; and on United States-Latin American relations. For History majors and minors, this is designated as a world history course. (p&d) (cont. wld.). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 209 - Modern Japan (4) (RLA)
4 hours; 4 credits. An exploration of themes in Japanese history, such as the indigenous roots of the late 19th-century transformation, the debate on the origins of military rule of the 1930s, the reasons for the economic success story of the post-war period, and the human and ecological cost of the great changes over the 19th and 20th centuries. For History majors and minors, this is designated as a world history course. (cont. wld.) (p&d). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 210 - History of Modern India (4) (RLA)
4 hours; 4 credits. A survey of the history of India from the end of the Mogul period to the present. Emphasis will be placed on the nature of British imperialism, the Independence movement, and India's attempts to modernize. For History majors and minors, this is designated as a world history course. (p&d) (cont. wld.) (social science). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 211 - Japanese Civilization (4) (RLA)
4 hours, 4 credits. A survey of Japanese history from the beginning of the historical period through the 18th century. The course will examine major themes such as the early Japanese traditions, China's influence, the Japanese adaptation of Chinese ideas and institutions, the changing nature of elite status, relations with outsiders, and Japanese religious and philosophical traditions. For History majors and minors, this is designated as a world history course. (social science) (p&d). Prerequisite: ENG 111 and COR 100 or any college-level history course. Note: This course satisfies the college option.

HST 212 - History of the Ancient Near East (4) (RLA)
4 hours; 4 credits. An interdisciplinary approach to ancient Near Eastern civilizations of the pre-Christian era. Attention will be given to the literature, history, mythology, philosophy, religions, art, and architecture of Egypt, Mesopotamia, Persia, and ancient Palestine. For History majors and minors, this is designated as a pre-1700 history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 213 - Chinese Civilization (4) (RLA)
4 hours; 4 credits. A survey of Chinese history from the beginning of the historical period through the 18th century. The course will examine major themes such as the imperial state, philosophical and religious traditions, the changing nature of elite status, relations with Inner Asia, and the agrarian-based society and the emergence of the commercial economy. For History majors and minors, this is designated as either a pre-1700 history course or a world history course. (social science) (p&d). Prerequisite: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 214 - Greece and the Hellenistic World (4) (RLA)
4 hours; 4 credits. An interdisciplinary approach to ancient Near Eastern civilizations of the pre-Christian era. Integration of background with various aspects of Greek and Hellenistic culture, for example, philosophy, political thought, and religion. Emphasis on the interpretation of primary and secondary sources in historical study. For History majors and minors, this is designated as a pre-1700 history course. (social science) (p&d). Prerequisite: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 215 - The Origins of Western Europe: 400-1000 CE (4) (RLA)
4 hours; 4 credits. A survey of the history and culture of Western Europe from the dissolution of the Western Roman Empire to the year 1000. This period of change and transformation saw the settlement of migrating peoples in the former provinces of the Western Roman Empire and the emergence of new states and new societies. This course aims to introduce students to the political, social, cultural, and demographic changes that laid the foundations of modern Europe. For History majors and minors, this is designated a pre-1700 course. (social science). Prerequisites: ENG 111
HST 216 - Byzantine Thought and Civilization (4) (RLA)

4 hours; 4 credits. A survey of various aspects of the culture of the East Roman or Byzantine Empire (ca. 600-1200 CE). Special emphasis is placed on the church, state, and social classes in the creation of a distinctive Byzantine civilization, identity, and world-view. This course also examines achievements in the arts, philosophy, literature, and spirituality. This course is interdisciplinary in approach and includes readings in historical documents and slide lectures. For History majors and minors, this is designated a pre-1700 course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

Crosslisted as: WGS 217.

HST 217 - Introduction to Women's History (4) (RLA)

(Also WGS 217) 4 hours; 4 credits. An overview of the history of women and the role of gender in history, focusing especially on the period since the 1700s. The course will examine key texts regarding women and their status in world history and address the development of the discipline of women's history within the larger field of women's studies. For History majors and minors, this is designated as a world history course. (social science) (p&d). Prerequisite: ENG 111 and COR 100. Please Note: This course satisfies the college option.

HST 218 - The Roman World (4) (RLA)

4 hours; 4 credits. Aspects of Roman history in relation to the historical background, for example, the growth of the Roman constitution in the age of the republic, Rome's expansion in the Mediterranean world, the Roman revolution, the principate, the problems of primary and secondary sources in historical study. For History majors and minors, this is designated as a pre-1700 history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 219 - Greek and Roman Mythology (4) (RLA)

4 hours; 4 credits. An overview of mythology as a cultural expression of the Ancient Greek and Roman civilizations taught against a historical background. The course covers a period between 1200 BCE through 200 CE across the Mediterranean basin. For History majors and minors this is designated as a pre-1700 history course. (social science). Prerequisites: ENG 111 and COR 100 or any college level history course. Please Note: This course satisfies the college option.

HST 220 - Medieval Thought and Civilization (4) (RLA)

4 hours; 4 credits. Various aspects of the culture of the Middle Ages from the creation of the Carolingian empire (ca. 800-1300CE) in relation to the historical background; special emphasis on the interaction of the church, state, and medieval social classes in the creation of a distinctive medieval civilization. The course is interdisciplinary in approach and includes readings in literature and slide lectures. For History majors and minors, this is designated as a pre-1700 history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 221 - The American Dream (4) (RLA)

(Also AMS 221). 4 hours; 4 credits. The hopes, the frustrations, and, particularly, the dreams of American society as observed by foreign and native commentators in the past and present. This course will attempt to assess not only the idealization of the American dream but also disillusionment with it as expressed by such writers as Franklin, Tocqueville, Emerson, Whitman, Henry Adams, and Norman Mailer. For History majors and minors, this is designated as a United States history course. (social science). Prerequisites: ENG 111 and COR 100 or any American studies or history course. Please Note: This course satisfies the college option.

HST 222 - Islam: Religion and Culture (4) (RLA)

4 hours; 4 credits. A survey course on Islam as a system of belief embodied in practice. Students will be introduced to a variety of interpretations of Islam from both Western and Islamic perspectives, from the medieval to the modern. Topics will include: the Qur'an, the Hadith, Islamic Law (Shari'a), philosophy, theology (Kalam), and the various intellectual tendencies (Sufi, Shi'a, Sunni) within the Islamic tradition. For History majors and minors, this is designated as a world history course. (social science) (p&d) (RLA). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 223 - American Landscapes (4) (RLA)

(Also GEG 223). 4 hours; 4 credits. A study of American landscapes through historical geography and history. This course examines the making of American landscapes, including not only the "natural" processes but also the social, cultural, and ideological forces that have shaped them. For History majors and minors, this is designated as a United States history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.
Crosslisted as: GEG 223.

**HST 224 - Jewish History (4) (RLA)**

4 hours; 4 credits. The history of the Jewish people including their culture, religion, education, and economic conditions from the Babylonian exile (586 BCE) through the present day; domination by Persia, Greece, and Rome; Jewish life in Babylonia and neighboring Eastern lands; Jews in the Western world from medieval to modern times; the development of Jewish communities and the distinctive features of life in Italy, Spain, France, Germany, England, Russia, Poland, and the United States; the world wars and the Jews; the State of Israel. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 225 - History of Christianity (4) (RLA)**

4 hours; 4 credits. A cultural approach to early Christianity, featuring an examination of the New Testament; a study of the history of the medieval church and the emergence of Protestantism in the modern world. Examples of church art, architecture, and music in the Christian tradition. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 228 - Renaissance and Reformation Europe (4) (RLA)**

4 hours; 4 credits. A study of the interaction of the socioeconomic, intellectual, cultural, and religious trends of Europe from the close of the Middle Ages to the end of the 16th century. For History majors and minors, this is designated as a pre-1700 history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 230 - Early Modern England (4) (RLA)**

4 hours; 4 credits. English history from the Reformation to the end of the 17th century. The emphasis is on political history and the underlying social and economic forces. Topics generally include Protestantism and the rise of capitalism, origins of the English Revolution, and the background to American colonial and constitutional history. For History majors and minors, this is designated as a pre-1700 history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 231 - Reacting to the Past (4) (RLA)**

4 hours; 4 credits. A course that immerses students in three historic periods, widely separated in time and place, assigning them roles as actors in the events they are studying. Arguments come from works containing speeches and actions that the historical characters used in their times.

The instructor functions as game master while the students play the game themselves. (social science). Prerequisites: ENG 111 and COR 100. Please Note: This course satisfies the college option.

**HST 234 - Asian Tigers since 1945 (4) (RLA)**

4 hours; 4 credits. Focus is on the "Asian Tigers" (Hong Kong, Singapore, South Korea, and Taiwan), and exploration of themes such as post-1945 development and its connection to the common cultural heritage shared by these places; the British (Hong Kong and Singapore) and Japanese (South Korea and Taiwan) colonial heritages; and the post-1945 economy. The course will also examine the relationship of these places to their respective hinterlands and the sense of identity of the respective populations in relation to the mainland and the world at large. Overall, this class will examine the proposition that there is an East Asian developmental model. For History majors and minors, this is designated as a world history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 235 - The Modern Middle East (4) (RLA)**

4 hours; 4 credits. A survey of the main political, social, economic, and intellectual currents of the 19th and 20th centuries. Emphasis on historical background and development of current problems in the region. Topics of study include imperialism, religion, culture, women, class formation, oil, and the Arab-Israeli conflict. For History majors and minors, this is designated as a world history course. (social science) (p&d). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 236 - Asian American History (4) (RLA)**

4 hours; 4 credits. An introductory survey of the major Asian groups in the U.S. from their earliest migration to the present. The course will examine the immigration history, experiences, and major problems encountered by each group. For History majors and minors, this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 238 - World Civilization I (4) (RLA)**

(Also SLS 240). 4 hours; 4 credits. A comparative study of the growth and development of the major global civilizations from earliest times to the onset of modernity. An overview of the development of civilizations, examining their structure and organization, characteristic ideas and institutions, and the processes of cultural diffusion and conflict within and between them. For History majors and minors, this is designated as a pre-1700 history course.
Courses | 289

HST 239 - World Civilization II (4) (RLA)
(Also SLS 241). 4 hours; 4 credits. The growth and development of the major civilizations around the globe from the onset of modernity to present times, with particular attention to the changing relationships among global communities. (p&d) (social science) (world history for majors and minors). Prerequisites: A minimum GPA of 3.0, ENG 111 and ENG 151. Please Note: This course satisfies the college option.

Crosslisted as: SLS 240.

HST 240 - American Ideas (4) (RLA)
(Also AMS 251). 4 hours; 4 credits. A major idea in American intellectual history will be examined from the perspective of two or more disciplines. This course will demonstrate the interdisciplinary method and philosophy of American Studies. Puritanism, transcendentalism, the idea of freedom, social Darwinism, Freudianism and socialism are possible topics. (social science) Prerequisites: ENG 111, and COR 100 or AMS 101 or any history course. Please Note: This course satisfies the college option.

Crosslisted as: AMS 251.

HST 244 - United States History: 1607-1865 (4) (RLA)
4 hours; 4 credits. An examination of U.S. from the English colonization of Virginia to the Civil War. Attention will focus on the major political, economic, social, and intellectual developments of the period. For History majors and minors, this is designated as a United States history course. (social science). Prerequisites: ENG 111, and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 245 - United States History: 1865-Present (4) (RLA)
4 hours; 4 credits. A historical survey of U.S. from the abolition of slavery to the present. Some of the topics to be examined are: Reconstruction, the development of industrial America, the Progressive movement, World War I, the Depression, World War II, the McCarthy Era, the Civil Rights movement, Feminist movement, and the Vietnam War. For History majors and minors, this is designated as a United States history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 246 - Religion in America (4) (RLA)
(Also AMS 224). 4 hours; 4 credits. Addresses the development of religion - Protestant, Catholic, Jewish, and others - in the context of American social, cultural, and intellectual history. For History majors and minors, this is designated as a United States history course. (social science) Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

Crosslisted as: AMS 224.

HST 248 - New York City: History and Problems (4) (RLA)
4 hours; 4 credits. The history of neighborhoods and communities of New York City. Each student will study a community in detail by tracing its history, interviewing inhabitants, and creating plans for its future. Special emphasis on the culture, life, and governmental services of Staten Island and Brooklyn. For History majors and minors, this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 249 - Italian American History (4) (RLA)
4 hours; 4 credits. A survey of the history of Italian Americans from their earliest migration to the present. Attention will focus on the generational problems of acculturation and the present position of Italian Americans in the community. For History majors and minors, this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 251 - History of the U.S. City (4) (RLA)
4 hours; 4 credits. An urban studies course with special emphasis on the impact of industrialization and immigration on the development of the U.S. city and urban culture. For History majors and minors, this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 252 - History of Education in the United States (4) (RLA)
(Also EDD 252). 4 hours; 4 credits. The history and social foundation of American education. Topics include: the historical development of American public schools, the schools and race, the social function of compulsory schooling, the expansion of higher education in the post-World War II period, and the conceptual differentiation between schooling as socialization and education for personal growth. (social science) (p&d). Prerequisites: ENG
111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

Crosslisted as: EDD 252.

**HST 253 - United States Economic History (4) (RLA)**

(Also ECO 253). 4 hours; 4 credits. A survey of the development of the U.S. economy and the factors influencing the pace of long-run economic growth. Key changes in technology, business organization, financial markets, and legal and government policy that have influenced the course of U.S. economic development are examined. For History majors and minors, this is designated as a United States history course. Prerequisites: ENG 111, COR 100 and (ECO 101 or ECO 111 or ECO 112 or any college-level history course).

HST 254 - History of Staten Island (4) (RLA)

4 hours; 4 credits. A study of the architectural, industrial, environmental, political, and ethnic history of the borough from colonial times through today. For History majors and minors, this is designated as a United States history course. Prerequisite: ENG 111 and COR 100 or any college-level history course.

**HST 257 - The History of American Immigration (4) (RLA)**

4 hours; 4 credits. This course will examine the pushes and pulls leading to the immigration and (or) restriction of northwestern European, southeastern European, Caribbean, Asian, Mexican, and other groups. Such theories as the "White Anglo-Saxon Protestant Ideal," the melting pot, and cultural pluralism are to be studied. Implications for neighborhood structures, educational policy, and politics will be discussed. For History majors and minors, this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 258 - Vietnam and America: 1945-1975 (4) (RLA)**

(Also AMS 258). 4 hours; 4 credits. An examination of the history of American involvement in Vietnam, the experience of Americans and Vietnamese who fought the second Indochina war. For History majors and minors, this is designated as a United States history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

Crosslisted as: AMS 258.

**HST 260 - U.S.History, First Encounters to the Present (4) (RLA)**

4 hours; 4 credits. A one semester survey of the United States History. While designed to contribute to the liberal arts general education of CSI students and to the training of history majors, the course will be especially valuable to students intending careers as elementary and middle school social studies teachers, since it is based on the content and skills required of elementary and middle school social studies teachers in New York City and State. Students will collect primary and secondary materials in each of the time periods covered in the elementary school curriculum, including time-lines and maps, and New York State, City, and Staten Island historical materials, thus assembling a portfolio to be used in their social studies classrooms. Emphasis will be on the skills students will foster in their own work as elementary school teachers: thinking, research and writing, interpersonal and group relations, sequencing and chronology, map and globe, and graph and image analytic skills. For history majors and minors, this is designated as a United States History course. (social science) NOTE: Students majoring in SLS must take this course in order to satisfy the social science 200 level requirement. Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

**HST 262 - African American History: 1619-1865 (4) (RLA)**

(Also AAD 262). 4 hours; 4 credits. A study of the African American experience in the Western hemisphere. Emphasis on the slave trade, slave life, slave revolts, and the struggle for freedom. For History majors and minors, this is designated as a United States history course. For African and African Diaspora Studies majors and minors, this is designated as a United States course. Please Note: This course satisfies the college option. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course.

Crosslisted as: AAD 262.

**HST 263 - African American History: 1865 to the Present (4) (RLA)**

(Also AAD 263). 4 hours; 4 credits. The continuing role of African Americans in the building of their own nation. Emphasis on freedom movements as shown in literature, in civil rights movements, in nationalist and other political organizations. For History majors and minors, this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

Crosslisted as: AAD 263.
HST 264 - The African Diaspora (4) (RLA)
(Also AAD 264) 4 hours; 4 credits. A survey of the historical connections of the African diaspora from pre-transatlantic slave trade to post-colonial movements. This course examines the political and socio-economic institutions and interactions between Africans before and during the transatlantic slave trade, the reasons why Africans were enslaved, the inland and middle passages, the impact of the trade on African societies, African communities in the Diaspora, the end of the trade and the beginning of European colonial rule in Africa, as well as the legacies of both the transatlantic slave trade and colonialism in post-colonial Africa. For History majors and minors, this is designated as a world history course. (social science) (p&d) NOTE: This course satisfies the college option. Prerequisites: ENG 111, COR 100 or any college history course.

Crosslisted as: AAD 264.

HST 265 - History of the Caribbean (4) (RLA)
(Also AAD 265). 4 hours; 4 credits. Pre-colonial and colonial history of the Caribbean; an examination of the policies of the metropolitan powers, and the emergence of anticolonialist movements. For History majors and minors, this is designated as a world history course. For African and African Diaspora Studies majors and minors, this is designated as The Caribbean course. Please Note: This course satisfies the college option. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course.

Crosslisted as: AFA 265.

HST 266 - Peoples and Cultures of Africa (4) (RLA)
(Also AAD 247). 4 hours; 4 credits. A descriptive survey of the peoples and cultures of the African continent. Emphasis is on those features and/or qualities of the African pattern of life that are common to the African people as a whole. For History majors and minors, this is designated as a world history course. (p&d) (social science). For African and African Diaspora Studies majors and minors, this is designated as an Africa course. Please Note: This course satisfies the college option. Prerequisites: ENG 111 and (any college-level history course or COR 100).

Crosslisted as: AAD 247.

HST 267 - Contemporary African Issues (4) (RLA)
(Also AAD 266) 4 hours; 4 credits. An examination of post-colonial African issues, including the colonial legacy/neocolonialism; conflict and human rights; development, poverty and the debt problems; healthcare and infrastructure; globalization; democracy, and multiparty politics; and, how these relate to the world at large. For History majors and minors, this is designated as a World History course. (p&d) (cont. wld.) (social science). Prerequisites: ENG 151, and COR 100 and any college-level history course or African American Studies course. Please Note: this course satisfies the college option.

Crosslisted as: AAD 266.

HST 269 - Blacks in Urban America: 1900-Present (4) (RLA)
(Also AAD 269) 4 hours; 4 credits. An examination of various aspects of Black life in major American cities. Particular emphasis will be placed on the causes of the migration; ecological development of Black communities; urban violence; Blacks, participation in conventional and radical politics; Blacks in the labor force; and the impact of urbanization on the Black family. For History majors and minors, this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

Crosslisted as: AAD 269.

HST 270 - Modern British History: 1700-1900 (4) (RLA)
4 hours; 4 credits. A study of selected problems of British social and political history in the 18th and 19th centuries. The origins and immediate impact of industrialization in Britain and the rise of the British Empire. For History majors and minors, this is designated as a modern European history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 271 - Modern British History: 1900 to the Present (4) (RLA)
4 hours; 4 credits. A study of selected problems of British social and political history in the late 19th and 20th centuries. Topics generally include the decline of empire, the creation of the welfare state, and the British role in the world wars. For History majors and minors, this is designated as a modern European history course. (cont. wld.). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: this course satisfies the college option.

HST 272 - Modern Germany (4) (RLA)
4 hours; 4 credits. The history of 19th- and 20th-century Germany - cultural flowering, national unification, industrialization, world empire and war, Nazism, division into East and West Germany, and reunification. Particular
focus on the origins, nature, and consequences of Hitler and the Nazi state. For History majors and minors, this is designated as a modern European history course. (social science) (cont. wld.). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 273 - Medieval Russia (4) (RLA)

4 hours; 4 credits. A survey of Russian history from the tenth century to the reign of Peter the Great, with an emphasis on political, religious, social, and intellectual history. For History majors and minors, this is designated as a pre-1700 history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 274 - History of Modern Russia (4) (RLA)

4 hours; 4 credits. A survey of Russian developments since the 18th century with special emphasis on the Russian Revolution and the history of the Soviet Union. For History majors and minors, this is designated as a modern European history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 275 - Imperial Russia (4) (RLA)

4 hours; 4 credits. A survey of the history of Imperial Russia, from Peter the Great to the Russian Revolution of 1917. For history majors and minors, this is designated as a European history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 276 - History of Italy (4) (RLA)

4 hours; 4 credits. A survey of modern Italian history from the Risorgimento to the present. Topics include the legacy and heritage of the Renaissance and city-states, the creation of Italy as a nation, the question of the South, emigration, Italian imperialism, fascism, and anti-fascism, the Mafia and the Berlusconi era. For History majors and minors, this is designated as a modern European history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 277 - History of Nineteenth-Century Europe (4) (RLA)

4 hours; 4 credits. A survey of Europe's "long Nineteenth Century" from 1789 to the eve of World War One. Topics include the French Revolution, the Napoleonic era, the evolution of mature capitalism, the revolutions of 1848, the formation of the national bourgeoisies and the working classes, the synthesis of national-liberalism at home and imperialism abroad; the challenge of emerging socialist forces on the left and new forms of conservatism on the right; and European culture from Romanticism to the fin-de-siecle. For History majors and minors, this is designated as a modern European history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: This course satisfies the college option.

HST 278 - The History of Twentieth-Century Europe (4) (RLA)

4 hours; 4 credits. A survey of selected aspects of European civilization in the 20th Century from its pinnacle of world dominance in 1900 through its self-destruction in world war and genocide to the crises of the present day. Topics include European imperialism, the origins and impact of World War I, the Russian Revolution, Fascism and Nazism, the Great Depression, World War II and the Holocaust, the Cold War division of Europe, Decolonization, welfare state versus state socialism, the Revolutions of 1989-91 and problems of European integration. For History majors and minors, this is designated as a modern European history course. (cont. wld.) (social science). Prerequisites: ENG 151 and COR 100 or any college-level history course. Please Note: this course satisfies the college option.

HST 279 - History of the Balkans: 1453 to the Present (4) (RLA)

4 hours; 4 credits. Overview of the social, economic, political, and cultural history of Southeastern Europe starting with the Ottoman conquest in the 15th century and ending with the post communist transitions after 1989. Course emphasizes the Ottoman millet system, village household structure, the practice of multiple religions, imperial influences, the rise of regional and Mediterranean trading networks, 19th century National revolutions, pre-World War I modernization without industrialization, the state socialist system, and the challenge of post socialist European integration. For History majors and minors, this is designated as a modern European history course. (social science). Prerequisites: ENG 111 and COR 100 or any college-level history course. Note: This course satisfies the college option.

HST 280 - History of Science (4) (RLA)

4 hours; 4 credits. An examination of several major scientific world-views, such as Aristotelian and Newtonian physics, Darwinism, Freudianism, and relativity. For History majors and minors, this is designated as a modern European history course. Prerequisites: ENG 111 and COR 100 or any college-level history course.

HST 281 - History of Work (4) (RLA)

4 hours; 4 credits. Work as a central experience in medieval, early industrial, and modern history. A study of employment choice, work satisfaction, the impact of technology, training, worker organizations, social consequences, the role
of government, leisure, and the job milieu. Prerequisites: ENG 111 and COR 100 or any college-level history course.

**HST 284 - The Soviet Union and Contemporary Russia (4) (RLA)**

4 hours; 4 credits. A survey of the history of the Soviet Union and its successor states from 1917 to the present. For history majors and minors, this is designated as a European history course. (social science) (cont. wld.). Prerequisites: ENG 151 and COR 100. Please Note: this course satisfies the college option.

**HST 285 - The World of the 21st Century (4) (RLA)**

4 hours; 4 credits. This course uses history to examine the possible makeup of future society. Topics include the prospect of world government, limits of growth, and changes in morality and behavior as well as questions about the validity of projecting the future from past experience. Prerequisites: ENG 111 and COR 100 or any college-level history course.

**HST 286 - History of American Women (4) (RLA)**

(Also WGS 286). 4 hours; 4 credits. This course introduces students to broad themes in American Women's History from colonial times to the present and focuses on women as historical actors and on the historical forces shaping the construction of womanhood. The course will pay particular attention to differences among women with respect to race, class, ethnicity, and sexual orientation. For History majors and minors, this is designated as a United States history course. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level course history course. Please Note: this course satisfies the college option.

Crosslisted as: WGS 286.

**HST 290 - The West and the World: Africa Encounters Europe (4) (RLA)**

4 hours; 4 credits. A study of the interactions between Africans and Europeans since the 15th century. This course examines African societies just prior to the Atlantic slave trade; its consequences for African, European, and American societies; colonialism and nationalism; and problems facing African societies in the postcolonial and post-Cold War periods. For History majors and minors, this is designated as a world history course. Prerequisites: ENG 111 and COR 100 or any college-level history course

**HST 291 - The Atlantic World (4) (RLA)**

4 hours; 4 credits. A survey of the diverse historical experiences that resulted from contact in the Atlantic world among the indigenous populations of the Americas, Europeans, and Africans from the 15th through the 19th centuries. This course examines pre-Columbian historical development in the Americas, the European historical contexts of expansion, patterns of contact and settlement, the negotiation of indigenous peoples with European empires, the economic and social impact of slavery and emancipation, and the role of revolutions in the historical development of diverse social and political systems in the Western hemisphere. For History majors and minors, this is designated as a World history course. (social science). Prerequisites: ENG 111 and COR 100 and any college-level history course. Please Note: this course satisfies the college option.

**HST 292 - The West and the World: Cross-Cultural Encounters in the Medieval World (4) (RLA)**

4 hours; 4 credits. A comparative and cross-cultural study of the consequences of encounters among pagans, Western and Eastern Christians, Jews, and Muslims in the Middle Ages. This course examines the diversity of the medieval world through patterns of exchange, interaction, and cultural fusion. The impact of conquest and settlement, cultural imperialism, and religious conversion will be discussed together with the natures of multicultural societies in the Middle Ages. For History major and minors, this is designated as a world history course. Prerequisites: ENG 111 and COR 100 or any college-level history course.

**HST 300 - Historiography (4) (RLA)**

4 hours; 4 credits. An introduction to key analytical concepts, schools of historiography, and great historians through the centuries, as well as major theories, methods, and historical interpretations. Required for History majors, open to all students. Prerequisites: ENG 151, HST 200, and an additional 200-level history course.

**HST 305 - Women in Latin America (4) (RLA)**

(Also WGS 305). 4 hours; 4 credits. This course traces the history of women in Latin America from the late colonial era to the present. Women's lives in Latin America challenge many common assumptions about gender learned in the United States. Latin America is a region where patriarchal legal systems exist alongside economic enclaves owned and operated almost completely by women. Our goal will be to map out he differences between and commonalities among Latin American women's lives and understand how these lives changed over time. Our exploration of the question of change leads us to examine as well the major political, economic, and social trends in Latin American history, asking how women's choices contributed to them, as well as how women's lives were affected by them. For History majors and minors, this is designated a World History course. Prerequisite: Any 200-level history course and ENG 151

Distribution: N. Crosslisted as: WGS 305.
HST 307 - Medieval England (4) (RLA)
4 hours; 4 credits. An examination of various aspects of English history during the Middle Ages, with special emphasis on the period from the Norman conquest (11th century) to the 14th century. The course is interdisciplinary in approach and will draw upon a wide variety of reading materials, historical and literary, to be supplemented by slide lectures in medieval English art and architecture. For History majors and minors, this is designated as a pre-1700 history course. Prerequisites: Any 200-level history course and ENG 151.

HST 315 - The European Discovery of America and the Encounter with the Native Peoples: 1492 to 1581 (4) (RLA)
4 hours; 4 credits. A study of the European discovery of America and the conquest of the native peoples up to the establishment of an imperial system in 1581. Emphasis will be placed on the issue of the "discovery" by Columbus in 1492; the impact of America on European thought; the character of the Spanish conquests of the Caribbean, Mexico, and Peru; the role of the Catholic church in Hispanicizing the culture of those regions; and the creation of an imperial system. For History majors and minors this is designated as either a pre-1700 history course or a world history course. Prerequisites: Any 200-level history course and ENG 151.

HST 318 - Themes in Byzantine History (4) (RLA)
4 hours; 4 credits. This course examines themes in the history and culture of the medieval Eastern Roman or Byzantine Empire (Byzantium). It discusses important political, social, and cultural developments; analyzes the catalysts for change, both internal and external; discusses the interaction of Roman political ideology, Christianity, and ancient Greek culture; and assesses the impact of Byzantium on other cultures as well as on its own peoples. For History majors and minors, this is designated as a pre-1700 history course. Prerequisites: Any 200-level history course and ENG 151.

HST 319 - Medieval Cities (4) (RLA)
4 hours; 4 credits. An examination of aspects of the history and culture of medieval cities between 300-1200 CE from a comparative perspective. Starting with the transformation of ancient urban culture under the Christian Roman Empire, this course compares and contrasts urban life in three areas of the medieval world: Western Europe, Byzantium, and the Islamic Middle East. Particular emphasis is placed on: concepts of "the city"; the state and the city; the impact of established religion; the urban economy; civic government and institutions; change and continuity; patterns of daily life; and causes of urban decline and revival. For History majors and minors, this is designated as a pre-1700 course. Prerequisites: Any 200-level history course and ENG 151.

HST 320 - Topics in Ancient and Medieval History (4) (RLA)
4 hours; 4 credits. Europe after the fall of Rome to the rise of the nation-state. The emergence of feudal classes, the Catholic church and the state, the rise of medieval cities, East-West relations, Islam and the Byzantine Empire, political theory, and humanism. For History majors and minors, this is designated as a pre-1700 history course. Prerequisites: Any 200-level history course and ENG 151.

HST 321 - Themes In Classical and Hellenistic History (4) (RLA)
4 hours; 4 credits. The history and culture of the Greek civilization and from its early times through its expansion in the Hellenistic period. This course discusses important issues in the development of classical Greece and its subsequent encounters with the history and culture of the Ancient Near East and Egypt after the conquest of Alexander the Great. For History majors and minors, this is designated as a pre-1700 history course. Prerequisites: ENG 151 and any 200-level history course.

HST 322 - The Late Antique World (4) (RLA)
4 hours; 4 credits. This course addresses aspects of the history and culture of Late Antiquity (285-641 CE). It examines the historical watershed known as the "End of the Ancient World" and the "Birth of the Middle Ages" by analyzing the transformation of the Later Roman Empire into the medieval worlds of Germanic Europe, Byzantium, and Islam. Particular emphasis is placed on concepts of monotheism and universalism in an age of diversity and innovation; the synthesis of Christianity and Classical culture; imperial autocracy and the Christian church; social and intellectual changes; the nature of the economy and problems of imperial defense; and the collapse and transformation of the Roman State and emergence of its successors. For History majors and minors, this is designated as a pre-1700 history course. Prerequisites: Any 200-level history course and ENG 151.

HST 323 - Themes in Roman Republican and Imperial History (4) (RNL)
4 hours; 4 credits. The history of Rome, from village to empire, through the discussion of political as well as social, economic, and cultural issues. For History majors and minors, this is designated as a pre-1700 course. Prerequisites: ENG 151 and any 200-level history course.

HST 324 - Environmental History (4) (RLA)
4 hours; 4 credits. An examination of the field of environmental history throughout the world, which is broadly defined as the study of humanity's relationships with the environment.
with the rest of nature over time. The course takes a global approach to the important problems, questions, and topics addressed by environmental historians, including landscape change, property regimes, deforestation, pollution, colonialism, disease, urbanization, resource conflict, climate change, natural disasters, conservation, preservation, sustainability, environmentalism, and environmental justice. For History majors and minors, this is designated as a world history course. Prerequisites: Any 200-level history course and ENG 151.

Crosslisted as: GEG 324.

**HST 325 - The Silk Road (4) (RLA)**

4 hours; 4 credits. An exploration of the rise, flourishing, and fading of the Silk Road, the series of long-range trade routes which linked Eastern, Western, and Southern Asia with Europe and Africa, from the first to the fifteenth centuries C.E. Beyond facilitating the transfer of luxury goods, such as Chinese silk, Indian gems and spices, Roman glass, and Central Asian jade throughout the Eastern Hemisphere, the establishment of these trade routes led to technological, artistic, and religious exchanges which profoundly changed the Afro-Eurasian world. This course examines topics such as the relationship between nomadic peoples and sedentary empires, elite desires for exotic goods, the diffusion of Hellenistic art to South and Central Asia, and the spread of Buddhism and Islam. The experiences of individual Silk Road travelers, including women, merchants, warriors, monks, and slaves are also considered. Contemporary issues addressed may include the re-discovery of the Silk Road, the sometimes-controversial role played by early-twentieth century archeologists in unearthing Silk Road treasures, and current threats to Silk Road cultural heritage. For History majors and minors, this is designated as a world history or pre-1700 course. Prerequisite: Any 200-level history course and ENG 151.

**HST 327 - The World of Late Imperial China (4) (RLA)**

4 hours; 4 credits. Cultural, social, economic, and political cultural life in China during the late Ming dynasty and early Qing dynasty (ca. 15th to 18th centuries). Its chief aim is to give students already familiar with Chinese history an appreciation of late Chinese imperial civilization beyond political events and the historical narrative. For History majors and minors, this is designated as a world history course. Prerequisites: Any 200-level history course and ENG 151.

**HST 328 - Early Modern Europe (4) (RLA)**

4 hours; 4 credits. A study of the social and ideological forces that have created modern Europe from the collapse of feudal Europe to the end of the 18th century, including the Renaissance and Reformation, the rise of capitalism, the scientific revolution, and the Enlightenment. For History majors and minors, this is designated as a modern European history course. Prerequisites: Any 200-level history course and ENG 151.

**HST 330 - Nationalist Movements and the Process of Independence in Africa (4) (RLA)**

4 hours; 4 credits. The objective of this course is to provide a broad view of important historical developments on the African continent: nationalist movements and the process of independence. These movements occurred between 1945, at the end of World War II, and 1990, when the entire African continent was decolonized. The course will be divided into two parts: the first will discuss the causes of nationalist movements and the second will focus on the process of independence. For History majors and minors, this is designated as a world history course. Prerequisites: Any 200-level history course and ENG 151. Please Note: this course satisfies the college option.

**HST 331 - Black Intellectual Thought in the African Diaspora (4) (RLA)**

4 hours; 4 credits. A seminar course that examines the foundations, implementations, and implications of intellectual thought(s) of the African diaspora from the period of slavery in the Americas through the present. For History majors and minors, this is designated as a world history course. (cont. wld.) (p&d.) (social science). Prerequisites: Any 200-level history course and ENG 151.

**HST 332 - The Age of Revolutions: 1765-1820 (4) (RLA)**

4 hours; 4 credits. This course will begin by examining the Enlightenment in Europe and the social and economic changes that resulted from European worldwide colonization. It will focus on the uprisings and revolutions from 1765 to 1820 that broke out in the Old and New Worlds, emphasizing the Great Revolution in France. For History majors and minors, this is designated as a modern European history course. Prerequisites: Any 200-level history course and ENG 151.

**HST 333 - Colonialism and the African Experience (4) (RLA)**

(Also AAD 333) 4 hours; 4 credits. An examination of the experience of Africans under colonial rule from the average person to traditional chiefs or the aristocratic class. This course analyzes the reactions of various classes of African society to colonial rule, focusing on the methods used by Africans to manipulate European colonial authorities, as well as the colonial response. For History majors and minors, this is designated as a World history course. (p&d) (social science) Prerequisites: Any 200-level history course or 200-level African and African Diaspora Studies course
and ENG 151. Please Note: This course satisfies the college option.

Crosslisted as: AAD 333.

HST 335 - Society and Culture in the United States (4) (RLA)
(Also AMS 335). 4 hours; 4 credits. Major artistic and intellectual developments in the U.S. from the 18th century to the present, and their relationship to changing social and political realities. For History majors and minors, this is designated as a United States history course. Prerequisites: Any 200-level history course or any 200-level American Studies course and ENG 151.

Crosslisted as: AMS 335.

HST 336 - Themes in United States History: 1607-1788 (4) (RLA)
4 hours; 4 credits. Selected topics in U.S. history from the colonial period through the establishment of a national government under the Constitution. The course will examine significant political, social, economic, and intellectual developments. For History majors and minors, this is designated as a United States history course. Prerequisites: Any 200-level history course and ENG 151.

HST 337 - Early American Republic: 1788-1850 (4) (RLA)
4 hours; 4 credits. An exploration of major developments in the new nation, from the ratification of the Constitution to the Compromise of 1850. Topics will include political culture, the market revolution, westward expansion, the wars with Britain and Mexico, slavery, and reform. For History majors and minors, this is designated as a United States history course. Prerequisites: Any 200-level history course and ENG 151.

HST 338 - Themes in United States History: 1877-1914 (4) (RLA)
4 hours; 4 credits. Selected topics in U.S. history from the end of Reconstruction to the nation's emergence as an international power. The course will examine significant political, social, economic, and intellectual developments. For History majors and minors, this is designated as a United States history course. Prerequisites: Any 200-level history course and ENG 151.

HST 339 - Themes in United States History: 1914-1945 (4) (RLA)
4 hours; 4 credits. Selected topics in U.S. history from 1914-1945. The course will examine significant political, social, economic, and intellectual developments. For History majors and minors, this is designated as a United States history course. Prerequisites: Any 200-level history course and ENG 151.

HST 340 - United States Foreign Policy in the 20th Century (4) (RLA)
4 hours; 4 credits. The development of U.S. foreign policy from isolationism to empire. The focus will be on the expanding role of the United States in world affairs and the impact of World Wars I and II on contemporary society. For History majors and minors, this is designated as a United States history course. Prerequisites: Any 200-level history course and ENG 151.

HST 344 - War and Society in Modern America (4) (RLA)
4 hours; 4 credits. An examination of the impact of the Cold War and its resulting international tensions upon U.S. society. Among the topics are: the origins of the Cold War; the role of the military in the nuclear age; secret intelligence operations and their influence upon a democratic society; and the quest for security in a divided world. All questions will be considered within the framework of an attempt to assess the United States' traditional values and define its national goals. For History majors and minors, this is designated as a United States history course. Prerequisites: Any 200-level history course and ENG 151.

HST 348 - The Holocaust in European History (4) (RLA)
4 hours; 4 credits. A history and historiography of the Holocaust, covering both Western and Eastern Europe from 1933 to 1945. The course will provide an analytical investigation of the role of anti-Semitism in the Holocaust, the rise of radical right-wing movements in Europe, the development of Nazi policy and racial science, the role of collaborator regimes, the role of non-state actors, and Jewish and non-Jewish responses. Consideration of debates concerning the causes and interpretations of genocide in modern Europe will be offered. For History majors and minors, this is designated as a modern European history course. Prerequisite: Any 200-level history course and ENG 151.

HST 349 - United States History since 1945 (4) (RLA)
4 hours; 4 credits. A survey of U.S. cultural, social, political, and diplomatic history from the conclusion of World War II to the present. For History majors and minors, this is designated as a United States history course. Prerequisites: Any 200-level history course and ENG 151.

HST 350 - Comparative Urban History (4) (RLA)
4 hours; 4 credits. A study of urban life in various periods and societies with a view toward spelling out similarities and differences. Prerequisites: Any 200-level history course and ENG 151.
HST 351 - Spain and Its World, 1469-1808 (4) (RLA)
4 hours; 4 credits. A history of early modern Spain from the marriage of Queen Isabel of Castile and King Fernando of Aragon in 1469 to the invasion of Napoleon's army in 1808. The course examines the politics, geography, economy, and society of Spain as well as Spain's encounters with the wider world. Topics generally include the rise to prominence of Spain in Europe in the late fifteenth century, the making of an extensive empire in the Americas and Asia, and its struggle to support a grandiose foreign policy to defend its interests around the world. For History majors and minors, this is designated as a pre-1700 course. Prerequisite: Any 200-level history course and ENG 151.

HST 352 - Resistance and Revolt in Latin America (4) (RLA)
4 hours; 4 credits. An examination of a range of revolts, revolutions, and reform movements in Latin America between the late-colonial period and the early twenty-first century. It also considers subtler, less easily classified forms of resistance, such as sabotage and work stoppage, and cultural examples of resistance. With each case we examine, the course considers the causes and consequences of the movement, broadly defined. For history majors and minors, this is designated a world history course. Prerequisite: Any 200-level history course and ENG 151.

HST 351 - The 1960s in Europe (4) (RLA)
4 hours; 4 credits. An examination of the 1960s in Europe, the turbulent and transformative period between the era of decolonization in the 1950s and the descent into economic and political stagnation in the 1970s. In the course of a decade, the seemingly conformist and unchanging societies of the immediate post-Second World War period were shaken by social and political rebellion, leading to the brink of revolution in 1968 and far-reaching transformations in daily life. We will consider the impact of consumer society, sexual liberation, the student rebellions, the rise of feminism, the revolts of 1968 in both East and West, the failure of reform in the Communist Bloc, and the descent of political revolution into terrorism. For History majors and minors, this is designated as a Modern European history course. Prerequisites: Any 200-level history course and ENG 151.

HST 352 - The World of Tokugawa Japan (4) (RLA)
4 hours; 4 credits. An examination of the material, cultural, and social history of Tokugawa Japan (1603-1868). The course takes a global approach to Japanese history by examining many of the course topics in the light of global early modernity. For history majors and minors, this is designated a world history course. Prerequisites: Any 200-level history course and ENG 151.

HST 351 - Economic History of Soviet Russia (4) (RLA)
4 hours; 4 credits. An examination of the creation and development of the Stalinist economic system in the USSR after 1928 and in the European part of the Soviet bloc after 1945. The economic structure and policy will be investigated as both cause and effect of internal policy and Soviet foreign policy, as well as its applicability as a model for development in the Third World. For History majors and minors, this is designated as a modern European history course. Prerequisites: Any 200-level history course and ENG 151.

HST 352 - Nazi Germany (4) (RLA)
4 hours; 4 credits. The history of the rise of National Socialism and the Nazi regime in Germany from 1933 to 1945. The course considers the position of Nazism in German History, the heritage of German colonialism and the First World War, the reasons for the failures of German democracy, and the nature of the Nazi dictatorship: the role of Hitler, Nazi state and society, persecution, consent and resistance. For History majors and minors, this is designated as a Modern European history course. Prerequisites: Any 200-level history course and ENG 151.

HST 351 - War and Society (4) (RLA)
4 hours; 4 credits. An introduction to the study of war. The central focus of the course will examine why wars begin,
how they are won and lost, and what kind of impact war has had on recent Western history. Prerequisites: Any 200-level history course and ENG 151.

HST 384 - Social and Political Ideologies in the Modern World (4) (RLA)
4 hours; 4 credits. A survey of the major social and political ideologies and cultural movements that developed from the French Revolution to the present, analyzing their historical context and content. Topics include liberalism, conservatism, socialism, nationalism, imperialism, communism, fascism, feminism, and anti-colonialism. For History majors and minors, this is designated as a modern European history course. Prerequisites: Any 200-level history course and ENG 151.

HST 386 - The Recovery of Women's Past (4) (RLA)
(Also WGS 386). 4 hours; 4 credits. An examination of the history of women, beginning with ancient and classical notions of patriarchy in Mediterranean and Near Eastern cultures. Review of Jewish, Christian, and Islamic prescriptions about women as a basis for understanding the changes in modern Western history. Approximately half of the course will examine the past two centuries when women's movements, feminisms, gender analysis, and sexual liberation evolved. For History majors and minors, this is designated as a modern European history course. (p&d) (social science). Prerequisites: Any 200-level history course and ENG 151. Please Note: this course satisfies the college option.

HST 388 - Imperialism (4) (RLA)
4 hours; 4 credits. The history and analysis of modern imperialism. Students will survey major theorists of imperialism from Hobson, Lenin, and their critics to the present. The range of theories of imperialism will be tested by applying them to the history of Western expansion, principally in the past century. For History majors and minors, this is designated as a modern European history course. Prerequisites: Any 200-level history course and ENG 151. Please Note: This course satisfies the college option.

INS - Integrated Science

INS 100 - Integrated Physical Science I (3) (RLA)
3 hours; 3 credits. For students whose major interests are not in science. Elements of astronomy, early and present-day theories of the solar system. Development of the laws and theories basic to the study of humankind's physical world: force and motion, gravitation, energy, properties of matter, heat, electricity, and magnetism. Students may not receive credit for both INS 100 and AST 100 Contemporary Theories of the Solar System. (scientific analysis). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test.

INS 101 - Integrated Physical Science I Laboratory (1) (RLA)
2 laboratory hours; 1 credit. Laboratory experiments and demonstrations illustrative of subject matter of INS 100 and the scientific method. Experiments on motion of the Earth and moon; free fall; Newton's laws; properties of matter; heat, electricity, and magnetism. (scientific analysis). Pre- or corequisite: INS 100.

INS 110 - Integrated Physical Science II (3) (RLA)
3 hours; 3 credits. Structure of the atom; the periodic table; the chemistry of carbon, plastics, food, water, air, drugs, nuclear power; the study of the Earth, rocks, and minerals; volcanism, weathering, erosion, fossils, and Earth history. (science). Prerequisite: MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test.

INS 111 - Integrated Physical Science II Laboratory (1) (RLA)
2 laboratory hours; 1 credit. Preparation and study of simple chemicals, identification of rocks and minerals, elementary laboratory techniques. (science). Pre- or corequisite: INS 110.
INS 591 - Ins Idependnt Study (1) (RNL)

Ins Idependnt Study

INT - International Studies

INT 100 - International Studies (3) (RLA)
3 hours; 3 credits. This course examines the impact and implications of today's dynamic international context for nations and their citizens. To operate in this global context, citizens, corporations, and governments must know other cultures and political-economic systems and how global forces influence domestic activities, both public and private. Analyzing the social, cultural, economic, and current political characteristics of the international environment, students will learn how these characteristics may affect their lives and choices. (social science) (COPT)

INT 200 - Contemporary Global Issues (4) (RLA)
4 hours; 4 credits. An interdisciplinary course will analyze contemporary issues in the dynamic relationships among and within countries and cultures. Social, cultural, historical, political, and economic factors affecting these interactions will be considered. This course provides students the opportunity, skill, and knowledge to acquire and interpret information necessary for comparing and analyzing contemporary issues from a variety of disciplinary perspectives. (social science) (cont. wld.) (p&d) NOTE: This course satisfies the College option. Prerequisites: ENG 151 and COR 100.

INT 201 - Latin American Perspectives (4) (RLA)
4 hours; 4 credits. This course will analyze how Latin America has historically interacted with the West, and the West with Latin America. Emphasis will be placed on the historical legacies of the encounters between the West and Latin America, the geographical/social diversity of this area, an appreciation of the region's artistic and literary contributions, as well as the technological challenges facing this part of the world today. (cont. wld.) (social science). Prerequisites: ENG 151 and COR 100. Please Note: This course satisfies the college option.

INT 203 - Gender in the Contemporary World (4) (RLA)
(Also WGS 203) 4 hours; 4 credits. An introduction to issues of gender worldwide. This interdisciplinary course draws on literary, cultural, social scientific, and historical approaches to explore the significance of gender in societies in Africa, Asia, Latin America, and the Middle East, and to enable students to think critically about gender issues. (cont. world) (PD) Prerequisites: ENG 151 and COR 100. Please Note: This course satisfies the college option. Crosslisted as: WGS 203.

INT 230 - Aspects Cont China (4) (RLA)
Also LNG 230 4 hours; 4 credits. An introduction to various aspects of contemporary China, such as political and economic systems, philosophy, religion, music, drama, or medicine. It will be taught in English. (cont. wld.) (p&d) (tala) Prerequisites: ENG 151 and COR 100. Please Note: This course satisfies the college option. Crosslisted as: LNG 230.

INT 235 - Policing and Mass Incarceration (4) (RLA)
4 hours; 4 credits. (Also ANT/AAD/SOC 235). Provides a critical perspective of historical and current fighting-crime strategies such as one-strike, zero tolerance and the war on drugs, and their intended and unintended consequences for historically marginalized populations. The course will deal with legal/institutional trends in technologies of policing, the militarization of urban America and activist responses to current 'crisis' of police violence against minority groups in the US and beyond. Prerequisites: ENG 151 and SOC/ANT 203 or SOC 212 or SOC 200.

INT 240 - The African Diaspora: Interdisciplinary Perspectives (4) (RLA)
(Also AAD 240/LNG 240). 4 hours; 4 credits. A conceptual and thematic exploration of African-Diasporic identities and communities in the Caribbean, Brazil and Western Europe. It proposes an excavation of the African heritage in the Americas, and a study of the aesthetic, cultural and political legacy forged by people who embrace shared historical trajectories. It will adopt an interdisciplinary approach to analyze literary traditions and socio-cultural issues in the selected areas. Emphasis will be placed on political, economic and social-cultural issues. For African and African Diaspora Studies majors and minors, this is designated as The Caribbean course. Please Note: This course satisfies the college option. (social science) (cont. wld.) (p&d). Prerequisites: ENG 151 and COR 100.

INT 305 - Power and Society in Latin America (4) (RNL)
(Also SOC 305/ANT 305). 4 hours; 4 credits. This course will offer students a general overview of the political, economic, and cultural forces shaping Latin American societies. It will focus particular attention on social inequalities and the effects of contemporary global changes on the region. Readings and class discussions will address both specific countries and trends affecting the region more
broadly. Prerequisite: (SOC 200 or SOC 240 or SOC 260 or ANT 201) or permission of the instructor.
Distribution: N. Crosslisted as: SOC 305/ANT 305.

**INT 307 - Caribbean Societies (4) (RLA)**

(Also ANT 307/SOC 307) 4 hours; 4 credits. An introduction to the sociological and anthropological literature on Caribbean societies. The main objective is to acquaint students with the most important economic, political, and social aspects of the region. Using ethnographies, the course will focus on the development of plantation society, nation-state formation, race and ethnicity, gender, political economy, and transnationalism. Class discussions will also address the issues of economic development, human rights, globalization, and U.S. foreign policies on the region. This is a reading and writing intensive course in which students are expected to conduct primary research. Prerequisite: INT 200 or INT 203 or any ANT or SOC 200-level course

Crosslisted as: ANT 307/SOC 307.

**INT 332 - Social Movements and Social Justice (4) (RLA)**

(Also AAD 332/ANT 332/SOC 332) 4 hours; 4 credits. An introduction to key sociological theories and concepts in the study of social movements. Addressing various questions, including: how have powerless groups of people organized social movements to try to improve their lives and change the society in which they lived? What did these movements accomplish in terms of improving people’s day-to-day lives? What role has policing and police played in social movements? Prerequisite: ENG 151 and SOC/ANT 203 or SOC 212 or SOC 200

**INT 367 - Globalization and the World System (4) (RNL)**

(Also SOC/ANT 367) 4 hours; 4 credits. This course explores major issues and current approaches in sociological thinking on globalization and the world system. Globalization will be examined as a multifaceted phenomenon, encompassing changing economic and political forces and the movement of people, ideas, images, and technologies across national boundaries. Particular attention will be given to how global forces structure inequalities both across nations and within them. Prerequisites: (SOC 200 or SOC 240 or SOC 260 or ANT 201) or permission of the instructor.

Crosslisted as: SOC 367/ANT 367.

**INT 400 - Sen Sem Internat Stud (4) (RNL)**

See Catalog For Description.

**INT 591 - Internatl Ind Stdy (1) (RLA)**

Internatnal Intern

**ISI - Information System and Infomatics**

**ISI 205 - Data Communications and IT Infrastructure (4) (RNL)**

4 hours; 4 credits. This course covers topics related to both computer/systems architecture and communication networks, with an overall focus on IT infrastructure services and capabilities. Includes organizational computing infrastructure components and architecture such as hardware, operating systems, networking, data centers, cloud-based systems. Service Oriented Architecture, mobile infrastructure, and others. Also includes internet protocols and infrastructure standards, security and risk management. Not open to students who have completed BUS 205. Prerequisites: BUS 215 and MTH 123 or higher.

**ISI 300 - Information Structures for Business (4) (RLA)**

5 hours; 4 credits. This course covers basic data structures. Topics covered in this course include classes, exception handling, dynamic memory management, and fundamental data structures including vectors, linked lists, and queues. Standard library classes will be used to implement various data structures in order to solve various business problems. Algorithmic development and analysis will be illustrated using advanced sorting and searching algorithms. Not open to students who have completed CSC 326. Prerequisites: CSC 126, BUS 215.
ISI 315 - Information Security and Risk Management (4)
4 hours; 4 credits. An introduction to the principles of information risk analysis, security controls, security planning and management. This course provides the foundation for understanding the key technical and managerial issues associated with threats and risks in information assets, security and compliance requirements faced in IT-intensive business environment. It covers methodologies for risk assessment, security planning, mechanisms for protection against risks and responses to security incidents, maintaining acceptable risks and compliance requirements. Not open to students who have taken BUS 315. Prerequisite: BUS 215.

ISI 334 - Business Intelligence and Analytics (4) (RNL)
4 hours; 4 credits. An introduction to the tools and techniques of data analytics for gaining business intelligence to support reliable decision making. It introduces data warehouse and data marts concepts and data mining techniques for analytical reporting, trend analysis, performance analysis, what-if analysis and predictive analysis. Students will learn the different aspects of business data analytics, such as identifying data sources, extracting, combining, exploring, analyzing, modeling, visualizing, and interpreting data. Not open to students that have completed BUS 334. Prerequisite: CSC 315 and ECO 230/MGT 230.

ISI 352 - Introduction to Systems Analysis (4) (RNL)
4 hours; 4 credits. The course covers the concept of IS system development life cycle and introduces methodologies for addressing business needs, articulating business requirements for technology solutions, specifying alternative approaches to acquiring technology capabilities needed to address business requirements, and specifying the requirements for information systems solutions. Not open to students that have completed BUS 352. Prerequisites: CSC 315 and ACC 114.

ISI 364 - Enterprise Computing Strategies (4) (RNL)
4 hours; 4 credits. This course explores the design, selection, implementation and management of enterprise architecture solutions. The focus is on architecture and infrastructure alternatives that can fulfill the strategic vision of a business. Students learn current infrastructure solutions, such as Enterprise Systems, Service Oriented Architecture and Cloud infrastructures, and learn the technical and management challenges in distributed enterprise computing environments. The relevant data integration and migration strategies, mobile and social strategies, and application and service integration issues will be covered. Factors influencing the choice of enterprise IT solutions, such as total cost of ownership calculation, IT investment, security/privacy risks, and audit compliance will be discussed and analyzed. Prerequisite: BUS 215.

ISI 374 - Information Systems Project Management (4) (RNL)
4 hours; 4 credits. This course discusses the processes, methods, techniques and tools that organizations use to manage their information systems projects. The course covers a systematic methodology for initiating, planning, executing, controlling, and closing projects. Students will learn various types of technologies including project management software as well as software to support group collaboration, and how to propose, plan, acquire, and manage the required resources necessary for leading the IS projects. Prerequisite: BUS 215.

ISI 490 - Project in Information Systems and Informatics (4) (RLA)
4 hours; 4 credits. A capstone project course in Information Systems, including strategies in the development of IS applications. Students will develop a significant Information Systems project including planning, analysis, design and implementation. Students will investigate a real-life application, analyze business requirements, design systems architecture and deliver a working system. Prerequisite: ISI 352.

ITL - Italian
All students with prior training in Italian must take a proficiency examination to determine placement at an appropriate level.

ITL 101 - Italian Conversation I (2) (RLA)
2 hours; 2 credits; Practical Italian for business, community relations, travel, and simple technical application. For beginners with no previous knowledge of the language. Regular attendance in the World Languages and Literatures Media Center is required.

ITL 102 - Italian Conversation II (2) (RLA)
2 hours; 2 credits. A continuation of ITL 101. Regular attendance in the World Languages and Literatures Media Center is required. Prerequisite: ITL 101 or equivalent.

ITL 112 - Basic Italian I (3) (FWGR)
3 hours; 3 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the Modern Languages Media Center is required. Not open to students who have taken ITL 113, ITL 120 or higher (foreign lang.) (FWGR) Prerequisite: Passing CUNY Assessment Tests in Reading and Writing.
ITAL 113 - Basic Italian I (4) (RLA)
4 hours; 4 credits; A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.) Not open to students who have completed ITL 112. Prerequisite: Passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing.

ITAL 114 - Basic Italian II (4) (RLA)
4 hours; 4 credits; A continuation of ITL 112 or 113. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.) Prerequisite: ITL 112 or ITL 113 or equivalent; passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing.

ITAL 120 - Intensive Italian I (6) (RLA)
6 hours; 6 credits. A beginning intensive course in the fundamentals of expression and communication for those who have had no previous work in the language and are interested in pursuing upper-division courses in Italian. By the end of the semester the student will have completed a program that provides a strong basis in the functional literacy in Italian. (foreign lang.). Prerequisites: Passing the CUNY Assessment Test in Writing and passing the CUNY Assessment Test in Reading.

ITAL 208 - Italian for Native Speakers (4) (RLA)
4 hours; 4 credits. For students fluent in spoken Italian but lacking experience in writing and reading the language.

ITAL 213 - Continuing Italian I (4) (RLA)
4 hours; 4 credits. Grammar review and more intensive training in the fundamentals of expression and communication, both written and oral, based on selected cultural readings. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.) Prerequisite: ITL 114 or equivalent

ITAL 215 - Continuing Italian II (4) (RLA)
4 hours; 4 credits. A continuation of ITL 213 with stress on written and oral composition and on selected cultural and literary readings of intermediate difficulty. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.). Prerequisite: ITL 213 or equivalent.

ITAL 220 - Intensive Italian II (6) (RLA)
6 hours; 6 credits. A continuing intensive course in the fundamentals of expression and communication for those who have successfully completed ITL 120 Intensive Italian I, and are interested in pursuing upper-division courses in Italian. Particular emphasis will be placed on written and oral communication based on selected cultural readings. (foreign lang.). Prerequisites: Passing the CUNY Assessment Test in Writing and passing the CUNY Assessment Test in Reading; ITL 120

ITAL 313 - Advanced Communication Skills (4) (RLA)
4 hours; 4 credits; Refinement of written and oral expression through composition, translation, oral reports, and critical study of the Italian grammar based on the analysis of selected literary readings of advanced difficulty. Regular attendance in the World Languages and Literatures Media Center is required. Prerequisite: ITL 215 or equivalent.

ITAL 320 - Italian Civilization and Culture (4) (RLA)
4 hours; 4 credits. A survey of major currents in Italian Civilization in the fields of art, literature, and science. (literature). (TALA). Prerequisite: ITL 313 Note: This course satisfies the college option.

ITAL 325 - Italian Experience in the Americas (4) (RLA)
4 hours; 4 credits. A survey of the major cultural and historical moments that defined Italian immigration into the United States and the Americas. Places specific emphasis on literature written both in English and Italian about the experience of emigration and immigration. (literature) (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313.

ITAL 330 - History of Italian Cinema (4) (RLA)
4 hours; 4 credits. The purpose of this course is to introduce different periods and movements in Italian Cinema from the Silent era to Neo-Auteur cinema of the early 21st century and the basic elements of film analysis. Areas discussed will include Silent Cinema, Fascist Cinema, Neorealism, Auteur Cinema, Neo-Neorealism, and Neo-Auteur Cinema. Large attention will be dedicated to the films of renowned auteurs such as Rossellini, De Sica, Visconti, Fellini, and Pasolini. In-class screenings will provide a framework for students to produce cogent critical readings and analysis of cinematic text. The course will be offered in Italian. Prerequisite: ITL 313

ITAL 340 - Introduction to Italian Literature (4) (RLA)
4 hours; 4 credits. An introduction to major works of Italian literature from the Sicilian school to the contemporaries. (literature). (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313 or equivalent.

ITAL 341 - Literary Survey I: Medieval, Renaissance (4) (RLA)
4 hours; 4 credits. Focuses on the primary literary texts of the Italian Middle Ages and Renaissance, roughly 1250-
1600. Authors include Dante, Catherine of Siena, Petrarch, Boccaccio, Alberti, Machiavelli, Ariosto and Tasso. (literature). (TALA). Note: This course satisfies the college option. Prerequisites: ITL 313.

**ITL 342 - Literary Survey II: Modern Italian Studies (4) (RLA)**

4 hours; 4 credits. An introduction to the major literary works and cultural movements of Italian literature from the eighteenth century to the present. (literature). (TALA). Note: This course satisfies the college option. Prerequisites: ITL 313

**ITL 345 - Italian Theatre (4) (RLA)**

4 hours; 4 credits. A study of the developments in Italian theatre, from the historical "rediscovery" of the genre in the fifteenth century to today. Prerequisite: ITL 313

**ITL 350 - Gender in Italian Literature (4) (RLA)**

4 hours; 4 credits. An examination of the complex intersections of gender and literature. In most cases, an emphasis will be placed on women authors in selected periods of Italian literature. (literature). (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313

**ITL 352 - Themes in Medieval and Renaissance Literature (4) (RLA)**

4 hours; 4 credits. A focused study of literature of the middle ages and Renaissance. Course either examines a theme in several literary texts or is limited to a select author from the period. (literature). (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313

**ITL 353 - Themes in Modern and Contemporary Italian Literature (4) (RLA)**

4 hours; 4 credits. A focused study on a specific thematic topic or genre of Modern and Contemporary Italian literature, roughly from 1700 to the present. (literature). (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313

**ITL 360 - Italian Short Story (4) (RLA)**

4 hours; 4 credits. A study of development of the genre of the Italian short story from the Middle Ages to its modern forms. (literature). (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313

**ITL 370 - Structures of Italian (4) (RLA)**

4 hours; 4 credits. An introduction to topics in Italian linguistics. It covers the complex history of Italian and the Italian dialects through a socio-historical lens, and examines the phonetics, phonology, morphology, and syntax of Standard Italian, also with reference to the Italian dialects. Prerequisites: ITL 313

**ITL 410 - Dante (4) (RLA)**

4 hours; 4 credits. A close examination of Dante's poetic, philosophical and political writ (literature) (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313 and any ITL 300-level course

**ITL 420 - Italian Literary Renaissance (4) (RLA)**

4 hours; 4 credits. A study of major humanist and Renaissance texts from fifteenth-and-sixteenth-century Italian literature with particular attention given to the cultural context of these works. (literature) (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313 and any ITL 300-level course

**ITL 440 - Italian 19th-Century Literature (4) (RLA)**

4 hours; 4 credits. An examination of major figures and their works in Italian 19th-century literature, from Foscolo and Leopardi to Manzoni and De Sanctis. (literature). (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313 and any 300 level ITL

**ITL 450 - Modern Italian Literature (4) (RLA)**

4 hours; 4 credits. A highly focused study of major works of twentieth-century Italian literature, with particular emphasis given to major cultural and historical context. (literature) (TALA). Note: This course satisfies the college option. Prerequisite: ITL 313

**ITL 470 - Genre, Theme, Key Author: Medieval and Renaissance Literature (4) (RLA)**

4 hours; 4 credits. A highly focused study of the literature, culture and history of the Italian Middle Ages and Renaissance. Course will either examine a theme in several texts or be limited to a select author from the period. (literature)(TALA). Note: This course satisfies the college option. Prerequisites: ITL 313 and any other 300-level ITL

**ITL 471 - Genre, Theme, Key Author: Modern and Contemporary Literature (4) (RLA)**

4 hours; 4 credits. A highly focused study on a genre, specific thematic topic or author of Modern and Contemporary Italian literature, roughly from 1800 to the present. (literature) (TALA). Note: This course satisfies the college option. Prerequisites: ITL 313 and any other 300-level ITL

**LAT - Latin**

**LAT 113 - Basic Latin I (4) (FWGR)**

4 hours; 4 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the World Languages and Literatures Media Center is required. (foreign lang.). Prerequisite: Passing the CUNY
Assessment Test in Reading and Writing; closed to native speakers

**LAT 114 - Basic Latin II (4) (RLA)**

4 hours; 4 credits. A continuation of LAT 113. Regular attendance in the World Languages and World Literatures Media Center is required. (foreign lang.) NOTE: This course satisfies the College Option. Prerequisite: LAT 113 or equivalent. Passing the CUNY Assessment Test in Reading and Writing tests; closed to native speakers.

**LAT 213 - Continuing Latin I (4) (RLA)**

4 hours; 4 credits. A comprehensive review of the complete Latin grammar and syntax based on the reading of original Latin texts of different genres like historiography, lyric poetry, epic poetry, epistolography. Translation from Latin to English and from English to Latin; rudiments of Latin composition (golden Latin). (foreign lang.). Prerequisite: LAT 114 or equivalent.

**LIB - Library Studies**

**LIB 102 - Beyond Google; Research for College Success (1) (RNL)**

2 hours; 1 credit. Designed to provide students with foundational research skills needed to succeed in college. Students will learn to develop well-thought out research strategies, effectively use library research tools and new media sources. Students will be able to identify, locate, evaluate, and use appropriate information resources in keeping with academic integrity and ethical standards. Plagiarism and appropriate use of citation styles will be addressed.

**LING - Linguistics**

See Linguistics section (p. 74) of the catalog.

**LING 101 - Linguistic Diversity (3) (RLA)**

3 hours; 3 credits. An overview of linguistic diversity in the world today, and the factors that influence it. Questions asked include: How do languages originate? How are different languages related? How do social, cultural, and biological factors both contribute to and limit linguistic diversity? Major themes in this course will be language endangerment (the likely disappearance of 90% of human languages in the next 100 years) and the parallels between linguistic diversity and biodiversity. Prerequisites: ENG 111.

**LING 201 - Introduction to Language (4) (RLA)**

4 hours; 4 credits. This course is an introduction to the study of language. It explores the following relationships: language and society; language and culture; language and thought; language and biology.(literature) (TALA). Prerequisite: ENG 151.

**LING 301 - Introduction to Linguistics (4) (RLA)**

4 hours; 4 credits. The scientific study of language: sounds, grammar, words, animal communication, language families, etc. Special consideration is given to the dialect of New York City. For English majors and minors, this is designated as a linguistics course. Prerequisite: ENG 151.

**LING 302 - Phonetics (4) (RLA)**

4 hours; 4 credits. An introduction to the articulation and basic acoustics of speech sounds used in the world's languages, including English in comparison with other languages. This course includes extensive practice in speech-sound perception, phonetic transcription using the International Phonetic Alphabet (IPA), and a basic introduction to phonemic analysis. Prerequisite: LING 301.

**LING 303 - Phonology I (4) (RLA)**

4 hours; 4 credits. An introduction to phonology, the analysis of linguistic sound systems, applied primarily to varieties of English and closely related languages. Emphasis is on learning how to examine sound patterns in terms of rules, features, and underlying forms. For English majors and minors, this is designated as a linguistics course: NOTE: It is recommended that students complete LING 302 prior to enrolling for this course. Prerequisite: LING 301.

**LING 304 - Syntax I (4) (RLA)**

4 hours; 4 credits. This course is an introduction to syntax, the study of phrase structure in human language. Through examination primarily of English varieties, students will develop various skills in scientific analysis, such as: the identification of evidence to support hypotheses; the ability to deduce the nature of lexical and syntactic categories (such as noun, verb, noun phrase, subject, object); and the ability to recognize the abstract properties, elements, and operations which give rise to e.g. syntactic ambiguity, recursion, and the variety of surface forms we recognize as distinct "constructions," such as active vs. passive, interrogatives, and relative clauses. Prerequisite: LING 301.

**LING 305 - Second Language Learning (4) (RLA)**

(Also LNG 426). 4 hours; 4 credits. Introduction to the study of second language learning, with focus on understanding the nature of the underlying grammatical processes involved, and the ways in which second language learning by adults differs from first language acquisition by children. Prerequisites: LING 301.

Crosslisted as: LNG 426.
LING 350 - The Structure of Words (4) (RLA)
4 hours; 4 credits. An introduction to linguistic morphology, the study of word structure and word formation in languages of the world. This course will explore how words can be analyzed into smaller units of meaning and sound, the semantic properties of words, the origin of English words, and how word structure interacts with sound and sentence structure. For English majors and minors, this is designated as a linguistics course. Prerequisite: ENG 151.

LING 360 - Word and Sentence Prosody (4) (RLA)
4 hours; 4 credits. An introduction to the prosodic structure of human languages. The course will provide an overview of stress, tone, and pitch accent systems (at the word-level), as well as rhythmic and melodic organization (at the sentence-level) from the perspective of Intonational Phonology. Note: LING 302 is recommended prior to enrolling in this course. Prerequisite: LING 201 or LING 301.

LING 370 - Language Change (4) (RLA)
4 hours; 4 credits. How languages change and why, using the English language and the Indo-European family as examples. For English majors and minors, this is designated as a linguistics course. Pre- or corequisite: LING 301.

LING 380 - Sociology of Language (4) (RLA)
(Also SOC 427). 4 hours; 4 credits. Areas of discussion include language and class, language and sex, language and race, and language and ethnicity. For English majors and minors, this is designated as a linguistics course. Prerequisite: ENG 151.
Crosslisted as: SOC 427.

LING 390 - History of English (4) (RLA)
4 hours; 4 credits. How the sounds, grammar, spelling, and words of English came to be the way they are. For English majors and minors, this is designated as a linguistics course. Prerequisite: ENG 151.

LING 402 - Speech Science (4) (RLA)
4 hours; 4 credits. An introduction to the experimental methods used to study speech production and perception. Using the facilities of the CSI Speech Laboratory, students will learn to analyze speech acoustically and physiologically. This course will also involve research design and the writing of research papers. For English majors and minors, this is designated as a linguistics course. Prerequisite: LING 302

LING 403 - Phonology II (4) (RLA)
4 hours; 4 credits. A second course in phonological theory and analysis, including introductions to autosegmental theory, metrical theory, and constraint-based approaches to grammar. Sound patterns in a wide variety of languages and language families are examined. For English majors and minors, this is designated as a linguistics course. Prerequisite: LING 303

LING 404 - Syntax II (4) (RLA)
4 hours; 4 credits. An introduction to modern syntactic theory. Through the study of a variety of grammatical phenomena and processes across different languages, students will gain an understanding of one of the central enterprises in linguistics, namely the development of a general theory of the rules governing the syntactic structures of particular languages, and of the general syntactic principles governing all natural languages. Students will learn to engage in scientific analysis, and will become proficient in syntactic argumentation. Prerequisite: LING 304.

LING 405 - Semantics and Pragmatics (4)
4 hours; 4 credits. An introduction to linguistic meaning, exploring how sentences obtain their meanings from both structure and from context. Other topics addressed include lexical (word) meaning, discourse meaning, and intonational meaning. Prerequisite: LING 304.

LING 410 - First Language Acquisition (4) (RLA)
4 hours; 4 credits. An examination of how typically-developing children naturally acquire their first language, surveying what is known about grammatical development at the levels of phonetics, phonology, morphology, and syntax. Both theory and data on child language acquisition are discussed, with special emphasis on developmental universals. Prerequisites: LING 302 and LING 304.

LING 411 - Psycholinguistics (4) (RLA)
4 hours; 4 credits. An introduction to issues in language comprehension and production, with emphasis on how linguistic theory guides experimental investigation. Topics include speech perception, word segmentation, word recognition, lexical processing, and syntactic parsing. This course incorporates both lab work and quantitative methodology. Prerequisites: (LING 302 or LING 303) and LING 304.

LING 412 - Sign Language Linguistics (4) (RLA)
4 hours; 4 credits. A cross-linguistic survey of the structure of sign languages. Major emphases include the exploration of (a) how various areas of linguistic theory (e.g., phonetics, phonology, morphology, syntax) apply to sign languages, and (b) structural aspects that are specific to the world’s sign
languages. The course will also include discussion of the acquisition of sign languages, as well as their sociolinguistic and psycholinguistic aspects. Knowledge of a sign language (e.g., Nicaraguan Sign Language, Swedish Sign Language, American Sign Language, etc.) is not required for this course. Prerequisites: (LING 302 or LING 303) and LING 304.

LING 420 - Anatomy and Physiology for Speech Science (4) (RLA)
4 hours; 4 credits. An introduction to the typically-developed anatomy and physiology of the structures involved in the production of human speech and in hearing. Topics include the mechanisms of respiration, phonation, articulation, and audition. Prerequisite: LING 302; (BIO 106 and BIO 107) or (BIO 170 and BIO 171).

LING 430 - Phonetic and Phonological Disorders (4) (RLA)
4 hours; 4 credits. An introduction to major disorders of linguistic speech sounds, both phonetic (articulatory) and phonological (cognitive) in nature. The course highlights theories of description and assessment, and linguistic approaches to intervention. Prerequisite: LING 302

Distribution: N.

LING 450 - Audiology (4) (RLA)
4 hours; 4 credits. An introduction to the field of audiology. Topics covered include the anatomy and physiology of the auditory system, auditory disorders and their etiologies, types of hearing loss, and hearing loss management. Students will gain familiarity with standard audiological assessment tools, assessment procedures, interpretation of audiometric and tympanometric data, and post-evaluation patient referral. Prerequisite: LING 302, LING 402, LING 420.

LING - Language

LING 156 - Contemporary European Drama (3) (RLA)
3 hours; 3 credits. The works of Pirandello, Brecht, Pinter, Beckett, and Genet as well as such antirealistic movements as theatricalism, epic theater, alienation, the absurd, and cruelty.

LING 162 - Western European Culture - France (3) (RLA)
3 hours; 3 credits. An overview of the unique cultural aspects of France, emphasizing language, literature, music, and art. Taught in English. Not to be credited to a major in a foreign language.

LING 163 - Western European Culture - Germany (3) (RLA)
3 hours; 3 credits. An overview of the unique cultural aspects of Germany, emphasizing language, literature, music, and art. Taught in English. Not to be credited to a major in a foreign language.

LING 164 - Western European Culture - Italy (3) (RLA)
3 hours; 3 credits. An overview of the unique cultural aspects of Italy, emphasizing language, literature, music, and art. Taught in English. Not to be credited to a major in a foreign language.

LING 165 - Western European Culture - Spain (3) (RLA)
3 hours; 3 credits. An overview of the unique cultural aspects of Spain, emphasizing language, literature, music, and art. Taught in English. Not to be credited to a major in a foreign language.

LING 168 - Latin American Culture (3) (RLA)
3 hours; 3 credits. An overview of the varied cultural aspects of the Latin American countries, emphasizing language, literature, music, and art. Both European and Pre-Columbian influences will be considered. Taught in English. Not to be credited to a major in a foreign language.

LING 230 - Aspects of Contemporary China (4) (RLA)
(Also INT 230). 4 hours; 4 credits; An introduction to various aspects of contemporary China, such as political and economic systems, philosophy, religion, music, drama, or medicine. It will be taught in English.(TALA) (cont. wld.) (p&d) Prerequisites: ENG 151 and COR 100. Please Note: this course satisfies the college option. Crosslisted as: INT 230.

LING 240 - The African Diaspora: Interdisciplinary Perspectives (4) (RLA)
(Also AAD 240/INT 240). 4 hours; 4 credits. A conceptual and thematic exploration of African-Diasporic identities and communities in the Caribbean, Brazil and Western Europe. It proposes an excavation of the African heritage in the Americas, and a study of the aesthetic, cultural and political legacy forged by people who embrace shared historical trajectories. It will adopt an interdisciplinary approach to analyze literary traditions and socio-cultural issues in the selected areas. Emphasis will be placed on political, economic and social-cultural issues. For African and African Diaspora Studies majors and minors, this is designated as The Caribbean course. Please Note: This course satisfies the college option. (social science) (cont. wld.) (p&d). Prerequisites: ENG 151 and COR 100. Crosslisted as: AAD 240/INT 240.
LNG 266 - Women in European Literature to the Renaissance (4) (RLA)
(Also WGS 266). 4 hours; 4 credits. Women as writers and characters in European literature from classical antiquity to the Renaissance. (literature) (p&d) (TALA). Prerequisites: ENG 111, ENG 151. Please Note: This course satisfies the college option.
Crosslisted as: WGS 266.

LNG 267 - Women in European Literature after the Renaissance (4) (RLA)
(Also WGS 267). 4 hours; 4 credits. Women as writers and characters in European literature from the Renaissance to modern times. (literature) (p&d) (TALA). Prerequisites: ENG 111, ENG 151. Please Note: this course satisfies the college option.
Crosslisted as: WGS 267.

LNG 304 - US Fiction, Early North American Literature (4) (RLA)
(Also AMS 304/ENL 304). 4 hours; 4 credits. A study of North American literature to 1830 across a variety of genres, authors, and cultural traditions. For English majors and minors this is designated as a literature, American literature and genre course. Prerequisite: An ENH 200-level course or ENL 290.
Crosslisted as: AMS 304/ENL 304.

LNG 308 - Gender and Sexuality in China and Japanese Literature (4) (RLA)
(Also CHN 308/WGS 308). 4 hours; 4 credits. A survey on the construction of gender relations in China and Japan, from the late imperial to the contemporary era. Topics include: the representation of gender identities in literature, the patterns and politics that inform these narratives, and the relations between the construction of gender and national identities during China and Japan’s critical historical transitions. Prerequisite: An ENH 200-level course or a CHN 213-level course
Crosslisted as: CHN 308/WGS 308.

LNG 309 - U.S. Literature in Comparative Contexts (4) (RLA)
(Also AMS 309/ENL 309). 4 hours; 4 credits. An examination of U.S. literature in a comparative, transnational frame by considering U.S. writing with relation to what lies outside national borders and emphasizing the role of international cultures, literatures, and politics in the development of U.S. writing. The course will cover, variously, hemispheric studies, transatlantic studies (beyond U.S.-British), transpacific studies, and Africa-U.S. studies. Prerequisite: An ENH 200-level course or ENL 290.
Distribution: N. Crosslisted as: AMS 309/ENL 309.

LNG 315 - Languages in Contrast: English and Chinese (4) (RLA)
(Also CHN 315). 4 hours; 4 credits. A systematic comparison of English and Chinese in various respects, e.g. phonology, morphology, syntax, information structure, and writing system. While the two languages differ from each other in many respects, which are the focus of this course, there are universals and general principles that hold true of both of them. The course is intended to cultivate students' ability to appreciate the differences between the two languages on the one hand and to seek the principles that apply to both English and Chinese on the other. (literature) (TALA). NOTE: This course is taught in English and may not be used to satisfy the foreign language requirement. Prerequisites: ENG 151 and completion of one semester of foreign language or linguistic course or exemption from the Foreign Language requirement of General Education. Please Note: this course satisfies the college option.
Crosslisted as: CHN 315.

LNG 364 - Anglophone Arab Literature (4) (RLA)
(Also ENL 364). 4 hours; 4 credits. A study of Arab literature written in English from the nineteenth century to the present. Works will be examined in relation to literary and other cultural-historical contexts. Topics covered may include: nationalism, colonialism and post-colonialism, cultural hybridity and cosmopolitanism, gender issues, diasporic identities, immigration, and ties to the old and new countries. For English majors or minors concentrating in literature, this course fulfills the requirements for Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America, and the Caribbean. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.
Crosslisted as: ENL 364.

LNG 367 - Arabic Literature in Translation (4) (RLA)
(Also ENL 367). 4 hours; 4 credits. A study of Arabic literature in translation covering a variety of genres, authors, cultural traditions, and historical periods. Works will be examined in relation to literary and other cultural-historical contexts. Topics covered may include: the rise of nationalism, colonialism, and post-colonialism, hybrid identities, gender issues, national traumas, and dystopias.
for English majors or minors concentrating in literature, this course fulfills the requirements for literature in translation. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

Crosslisted as: ENL 367.

**LNG 387 - Major World Author I (4) (RLA)**
(Also ENL 387). 4 hours; 4 credits. Intensive study of the works of a major world author. Prerequisite: An ENH 200-level course or ENL 290. NOTE: This course satisfies the College Option.

Crosslisted as: ENL 387.

**LNG 388 - Major World Author II (4) (RLA)**
(Also ENL 388). 4 hours; 4 credits. Intensive study of the works of a major world author in English translation. (literature) Prerequisite: An ENH 200-level course or ENL 290. NOTE: This course satisfies the College Option.

Crosslisted as: ENL 388.

**LNG 389 - Major World Author III (4) (RLA)**
(Also ENL 389). 4 hours; 4 credits. Intensive study of the works of a major world author in English translation. (literature) Prerequisite: An ENH 200-level course or ENL 290. NOTE: This course satisfies the College Option.

Crosslisted as: ENL 389.

**LNG 396 - Studies in Global Literature I (4) (RLA)**
(Also ENL 396). 4 hours; 4 credits. Focus on literature from outside the U.S. and Europe. For English majors and minors, this is designated as a literature, Literature in Translation, and Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: An ENH 200-level course or ENL 290.

Crosslisted as: ENL 396.

**LNG 397 - Studies in Global Literature II (4) (RLA)**
(Also ENL 397). 4 hours; 4 credits. Focus on literature from outside the U.S. and Europe. For English majors and minors, this is designated as a literature, Literature in Translation, and Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: An ENH 200-level course or ENL 290.

Crosslisted as: ENL 397.

**LNG 406 - Postwar Italian Cinema (4) (RNL)**
(Also CIN 406). 4 hours; 4 credits. A study of the political and cultural roots of Neorealism and of the personal style and vision of such postwar directors as Visconti, DeSica, Rossellini, Fellini, Antonioni, and Bertolucci. Prerequisites: CIN 210 and ENG 111.

Crosslisted as: CIN 406.

**LNG 426 - Second Language Learning (4) (RLA)**
(Also LING 305). 4 hours; 4 credits. Introduction to the study of second language learning, with focus on understanding the nature of the underlying grammatical processes involved, and the ways in which second language learning by adults differs from first language acquisition by children. Prerequisites: LING 301

Crosslisted as: LING 305.

**MDT - Medical Technology**

**MDT 100 - Hematology (4) (RNL)**
3 class hours, 3 laboratory hours; 4 credits. Introduction to the study of hematology with emphasis on the formation and functions of normal blood cells, identification of normal and abnormal blood cell types, variations in blood picture associated with hematologic disorders, and hemostasis and coagulation. Laboratory practice includes complete blood counts, studies of peripheral blood and bone marrow smears, special tests for hematologic disorders, and basic coagulation procedures. Prerequisite: BIO 090 or a satisfactory score on the Biology Placement Test. Students must receive a grade of C or better in MDT 100 to proceed to MDT 105. Pre- or corequisites: BIO 170 and BIO 171.

**MDT 160 - Clinical Science (4) (RNL)**
3 class hours, 3 laboratory hours; 4 credits. Introduction to clinical chemistry and fundamentals of body fluid and urine analysis. Emphasis on theory and practice of both manual and automated techniques used in clinical chemistry laboratories. Students will learn to operate the autoanalyzer, flame photometer, microgasometer, spectrophotometer, microzone electrophoresis, densitometer, and other instruments. Normal metabolism, abnormal metabolism, and the clinical significance of laboratory tests are discussed. Students must receive a grade of C or better in MDT 160 to proceed to MDT 265. Prerequisites: MDT 100 or CHM 141.
MDT 310 - Blood Transfusion Technology (4) (RNL)

2 class hours, 4 laboratory hours; 4 credits. An introduction to the nature, significance, and distribution of blood group antigens and antibodies; fundamentals of basic immunology, compatibility testing, and other procedures associated with a clinical blood bank. Laboratory practice includes duplicate testing for blood groups, cross-matching, antibody screening, hepatitis antigen testing, component preparation, and other significant tests. Prerequisites: BIO 180, 181, and MDT 100 or equivalent.

MDT 325 - Diagnostic Molecular Biology (4) (RLA)

(Also BIO 325). 3 class hours, 3 laboratory hours; 4 credits. This course will address the theoretical and practical framework for the understanding and application of molecular biology techniques in the clinical laboratory. The course material will cover the principles and applications of recombinant DNA technology including DNA-DNA hybridization, DNA amplification and nonradioactive in situ hybridization (HISH) for the detection and identification of microorganisms associated with infectious diseases. Prerequisites: BIO 314, CHM 142.

MDT 371 - Clinical Parasitology (3) (RNL)

3 hours; 3 credits. As a survey of clinically relevant parasites, this course is designed to expose students to the identification and clinical relevance of a variety of microscopic and macroscopic vectors of disease. Prerequisite: BIO 316.

MDT 372 - Medical Mycology (3) (RNL)

3 hours; 3 credits. A survey of morphology, cultural characteristics and taxonomy of pathogenic fungi and their role in human disease. Prerequisite: BIO 316.

MDT 375 - Comprehensive Review (2) (RNL)

2 hours; 2 credits. An overview of the Medical Technology curriculum designed to validate the knowledge acquired during the course of study which further prepares Medical Technology students to take the American Society of Clinical Pathology (ASCP) National Certification exam or a State licensing exam when required. Students utilizing various methodologies will review and demonstrate a comprehensive understanding of Clinical Chemistry, Hematology and Coagulation, Immunohematology, Microbiology, Parasitology, Mycology, Immunology, Serology, and Body Fluid Analysis. Practice exams for the National Certification exam will demonstrate proficiency/competency in each of these areas. Prerequisite: BIO 325/MDT 325.

MDT 380 - Medical Technology Training I (10) (RNL)

10 credits. Prerequisite: CHM 240, MDT 100, MDT 160, MDT 310, MDT 371, MDT 372, MDT 384 and Permission of the Medical Technology coordinator.

MDT 384 - Laboratory Operations and Management (2) (RLA)

2 hours; 2 credits. A laboratory operations and management course to prepare Medical Technology students to take the American Society of Clinical Pathologists (ASCP) National Certification exam and the New York State licensing exam. It will prepare students for the career advancement in the laboratory, beyond entry level employment. Students will have a comprehensive understanding of Principles of Laboratory Management, Operations, Human Resource Management, Financial Management, and Strategies for Career Success. Included among these are an understanding of ethical issues in laboratory management, career planning, managerial problem solving and decision making, and education techniques. (liberal arts & science). Prerequisite: CHM 240.

MDT 480 - Medical Technology Training II (3) (RNL)

3-12 credits. A continuation of MDT 380. Prerequisites MDT 380.

MGT - Management

MGT 110 - Organizational Theory and Management (3) (RNL)

3 hours; 3 credits. The course introduces key management functions including planning, organizing, leading, and controlling. It also provides introduction to management concepts including organizational structure, culture, decision making, leadership, motivation, and groups and teams. Prerequisites: ENG 111 and MTH 30 or an appropriate score on the CUNY Math Assessment Test.

MGT 210 - Management Process (4) (RNL)

4 hours; 4 credits. Advanced study of organizational structure and practice in light of management theory. Management functions: planning, organizing, and controlling, along with the secondary functions of staffing, personnel management, and external representation will be studied. Prerequisites: MGT 110, ECO 101 or ECO 111, ACC 114.

MGT 223 - Public Administration (4) (RLA)

(Also POL 223). 4 hours; 4 credits. A course examining concepts in the execution of public policy. Relationships of administrative process to the executive, legislative bodies, the public, special interest groups, the clientele, and the courts. Considers personnel administration and administrative law and regulation. (social science).
Prerequisite: ENG 111, COR 100. Please Note: This course satisfies the college option.

Distribution: N. Crosslisted as: POL 223.

MGT 230 - Introduction to Managerial and Economic Statistics (4) (RLA)

(Also ECO 230). 4 hours; 4 credits. Development and application of modern statistical methods, including such elements of descriptive statistics and statistical inference as correlation and regression analysis, probability theory, sampling procedures, normal and binomial distributions, estimation, and testing of hypotheses. Prerequisites: Successful completion of CUNY/ACT Writing Skills Test and CUNY/ACT Reading Sample Test and (ECO 101 or ECO 111 or ECO 112), and (MTH 121 or 123), and (BUS 150 or BUS 215 or BUS 250 or CSC 102 or CSC 126).

Crosslisted as: ECO 230.

MGT 261 - Labor Relations (4) (RLA)

(Also ECO 261). 4 hours; 4 credits. History, theories, structure, and objectives of trade unionism. Grievance procedures, collective bargaining, union power, strikes and other weapons, mediation and arbitration. Government regulation of the labor sector. Students will participate in the reenactment of actual arbitration cases.

Crosslisted as: ECO 261.

MGT 314 - Small Business Management (4) (RNL)

4 hours; 4 credits. An overview of the entrepreneur: definition, traits, and development; the role of the entrepreneur in our society and importance to the economy; the launching of a new venture; managing an ongoing venture; planning, financing, staffing, and control. Prerequisite: MGT 110, MKT 111.

MGT 320 - Management of Organizational Behavior (4) (RNL)

4 hours; 4 credits. A systematic, analytical approach to understanding, predicting, and controlling human behavior in organizations. Students will learn the theoretical foundation of important concepts that are relevant to understanding human behaviors at the levels of the individual, groups and organizations. Different types of organizational structures and the development of organizational culture, as well as their impacts on people, will be introduced. Prerequisites: MGT 110 and (ECO 101 or ECO 111).

MGT 321 - Production Management (4) (RNL)

4 hours; 4 credits. Examines the theory and application of decision analytics to management. Includes a detailed review of the concepts, techniques, models, and software used to analyze business problems. Students will familiarize themselves with the concepts and methods for improving operational performance on three key dimensions: productivity, responsiveness, and quality, and learn to analyze, quantify, and solve those problems in a variety of business situations. Prerequisite: MGT 110, BUS 215, (MTH 121 or MTH 123 or MTH 130 or MTH 230, or MTH 231 or higher).

MGT 322 - Human Resource Administration (4) (RNL)

4 hours; 4 credits. The course provides an introduction to the functions of the personnel executive. A historical and theoretical background is provided. Stress is placed upon the technical, analytical, and legal skills necessary in performing the job itself. Specific topics include recruiting and selecting, employee development, reward and penalty systems, job descriptions, records, and industrial relations. Prerequisites: MGT 110.

MGT 323 - Public Policy Analysis (4) (RLA)

(Also POL 323). 4 hours; 4 credits. A study of how government deals with problems in such areas as health, energy, environment, education, crime, and economic stability. In addition to focusing on substantive policies in these fields, the course will examine how problems come to government's attention and analyze various techniques for determining whether a governmental program is successful. Prerequisite: POL 100 or ECO 101.

Crosslisted as: POL 323.

MGT 324 - Introduction to Econometrics (4) (RLA)

(Also ECO 323). 4 hours; 4 credits. This course will examine the relationship between economic theory and statistical measurement. It will deal mainly with the general linear regression and correlation model. A selected number of other statistical tools will also be treated. Emphasis will be on the understanding of the concepts rather than on their mathematical derivation. Prerequisites: ECO 111, ECO 112 and ECO/MGT 230 or permission of the instructor.

Crosslisted as: ECO 323.

MGT 325 - International Management (4) (RNL)

4 hours; 4 credits. An examination of international management in relation to the international environment, cultural differences, and effective management strategies across cultures. Major areas of analysis including current worldwide developments multiculturalism in organizations, managing a multicultural workforce, the role of culture and communication in international management, comparative country and culture analysis, international and multidomestic strategic management practices, and cross-cultural ethical dilemmas. NOTE: Not open to students who have taken MGT 425. Prerequisites: MGT 110 and (BUS 200 or MGT 210).
MGT 326 - Sports Management (4) (RNL)
4 hours; 4 credits. An examination of sports management. Major topics include the history of sports, the emergence of organized sports, and the major elements of sports management including organizational design, leadership, financing, and promotion. Consideration is also given to the role of legal issues, risk management, and ethics in the current environment. Prerequisite: MGT 110 and MKT 111.

MGT 339 - Administrative Law (4) (RLA)
(Also POL 339). 4 hours; 4 credits. Emphasizes the judicial, legislative, and executive control of decisions made by bureaucrats. Topics such as the possibility and scope of judicial review of administrative decision making; ripeness for review and exhaustion of administrative remedies; and the legislative veto. The Administrative Procedure Act's requirements for rule making and adjudication will also be analyzed. Prerequisite: POL 223/MGT 223 or POL 336 or POL 338.

Crosslisted as: POL 339.

MGT 410 - Business Policy (4) (RNL)
4 hours; 4 credits. This course focuses on the introduction and application of the concepts, theories, and frameworks of strategic management. Students will learn to analyze a firm's internal and external environment and formulate strategy on the functional and business level. Students will also be introduced to corporate-level strategy and strategy implementation including ethics. Prerequisite: Completion of the business pre-major requirements and senior standing or permission of the instructor.

MKT - Marketing

MKT 111 - Marketing (3) (RNL)
3 hours; 3 credits. Survey of the nature of the United States distributive system, covering the principles, policies, and practices used by manufacturers, wholesalers, and retailers. Emphasis is placed on the planning, development, and efficient use of marketing tools and institutions in the creation and expansion of markets. Current trends and developments in modern marketing practice are analyzed. Prerequisites: ENG 111, MTH 030, or permission of the Mathematics Department or the equivalent score on the CUNY Math Assessment Test.

MKT 211 - Advertising (4) (RNL)
4 hours; 4 credits. The course examines the principles and applications of advertising in modern business, details the procedures and techniques necessary for advertising campaigns and execution via preparation of a marketing/advertising plan, and stresses marketing/advertising strategy. Evaluation of social and ethical responsibilities of advertising. Prerequisite: MKT 111.

MKT 215 - Principles of Selling (3) (RNL)
3 hours; 3 credits. Sales strategy and methods; development of the sales plan; coordination of selling effort; budgeting; making the sales presentation; use of sales aids; critique and discussion. Prerequisite: MKT 111.

MKT 310 - Consumer Behavior (4) (RNL)
4 hours; 4 credits. The study of consumer behavior from a theoretical and practical standpoint. The course seeks to understand the role of the behavioral sciences (e.g., anthropology, sociology, psychology) in buying behavior and to integrate the theoretical world of the behavioral sciences with the practical world of marketing. Social, interpersonal, and mediating influences are examined and evaluated as a basis for marketing decisions. Prerequisites: MKT 111, (PSY 100 or SOC 100), or permission of the instructor.

MKT 311 - Personal Selling and Sales Management (4) (RNL)
4 hours; 4 credits. A thorough examination of the sales function in a competitive environment. Provides a detailed discussion of the methods of personal selling, the tools of sales management, and the theory and practice of effective sales leadership. Prerequisites: MKT 111 AND BUS 215.

MKT 316 - Retailing and Channels of Distribution (4) (RNL)
4 hours; 4 credits. An integrated review of retailing and supply channels. Includes a detailed examination of
retailing strategy, merchandise management, and store management. Also explores the merger of onsite and online retail experiences and the integration of front end retailing with back end supply channels to provide customer satisfaction and competitive advantage. Prerequisites: MKT 111 and BUS 215.

**MKT 320 - International Marketing (4) (RNL)**

4 hours; 4 credits. An analytical approach to solving international business problems considering the multiple environments of international business. This course requires the student to investigate the relationship of marketing strategy to cultural, economic, legal, political, and technological conditions in various national markets. NOTE: Not open to students who have taken MKT 415. Prerequisite: MKT 111 and BUS 215.

**MKT 325 - Advertising Buying Strategy (4) (RNL)**

4 hours; 4 credits. Examines the role and application of advertising media in marketing strategies. Includes a detailed analysis of the strategic factors that link marketing planning, target market characteristics, and media selection. Students learn how to determine which media vehicles will deliver an advertising message to a given target audience most effectively. Students will receive instruction in effective media planning and buying and will practice the design and implementation of advertising media plans. Prerequisite: MKT 211 and BUS 215.

**MKT 360 - Digital Marketing (4) (RNL)**

4 hours; 4 credits. Examines digital marketing from a strategic and tactical perspective. Addresses online, email, mobile, social media, and other forms of digital marketing. Combines theory and practice in an interactive, iterative environment to provide students with the theoretical understanding of the digital marketplace necessary to adapt to its any changes and also equip them with the skills needed to perform vital marketing functions. Prerequisites: MKT 211 and BUS 215.

**MKT 370 - Advanced Marketing Strategy I (4) (RNL)**

4 hours; 4 credits. The application of marketing theories, models, and techniques to develop fully integrated marketing plans in response to a case competition conducted by a major marketing association. Prerequisite: Completion of pre-major business requirements, senior standing with 90 or more credits and permission of the instructor.

**MKT 371 - Advanced Marketing Strategy II (4) (RNL)**

4 hours; 4 credits. Application of advanced marketing theories and techniques to critique and enhance fully integrated marketing plans and present them in a professional manner to academics and industry leaders during a national case competition. This course may be repeated once for credit. Prerequisite: MKT 370 and permission of the instructor.

**MKT 410 - Marketing Research (4) (RNL)**

4 hours; 4 credits. Encompasses survey of research processes, problem formulation, the types of problems for which market research is used, primary and secondary data collection methods, questionnaire design, and sampling plans. Analysis and interpretation of data and research report formats. Prerequisites: MKT 111, MGT 230/ECO 230, and (MKT 211 or MKT 310).

**MKT 420 - Marketing Management (4) (RNL)**

4 hours; 4 credits. The course focuses on the major decisions facing marketing management in its attempt to harmonize the objectives and resources of the company with the opportunities found in the marketplace. The course is analytical in nature and draws heavily on the basic disciplines of economics, behavioral science, and mathematics. Prerequisites: Completion of business core requirements, MKT 310, senior standing, or permission of instructor.

**MKT 490 - Marketing Seminar (3) (RNL)**

3 hours; 3 credits. The use of a selected broad-gauge marketing topic as a focal point for the semester's work to bring about an integration of concepts and knowledge from a number of related disciplines. New ways of thinking about problems faced by marketing management are sought. Individual study by each student of a specific topic and preparation of a report giving the results of research. Prerequisites: Completion of business core requirements, senior standing, and permission of the instructor.

**MTH - Mathematics**

---

**MTH 015 - Elementary Algebra with Proficiency Exam Review**

6 hours; 0 credits; Selected topics from elementary algebra including factoring, operations on polynomials, solving and graphing linear equations and applications to word problems. Additional topics found on the CUNY Math Proficiency Exam. Prerequisite: Open to students who failed both part I and part II of the CUNY math proficiency exam and have completed the appropriate immersion program at the College in either Summer or Winter.

**MTH 020 - Elementary Algebra**

4 hours; 0 credits; Selected topics from elementary algebra including factoring, operations on polynomials, solving and graphing linear and quadratic equations. Applications to word problems. Prerequisite: An appropriate score on the
CUNY proficiency/placement exam or permission of the Department of Mathematics

MTH 025 - Selected Topics in Intermediate Algebra
4 hours; 0 credits. Linear equations, linear inequalities, absolute value equations, absolute value inequalities, word problems, polynomials, rational functions, factoring, exponents, equations of straight lines, graphing, functions, systems of linear equations in two variables. Not open to students who have passed MTH 015 or MTH 020. Prerequisite: An appropriate score on the CUNY proficiency/placement exam or permission of the Department of Mathematics.

MTH 030 - Intermediate Algebra (0)
4 hours; 0 credits. This course is for students who have competency in elementary algebra and require further study of mathematics for their degree program. It is a prerequisite for courses required in many curriculums including Accounting, Business, Computer Science, Economics, Science, Letters, and Society/Education, and all science, technology, or engineering programs. Prerequisite: MTH 015 or MTH 020 or an appropriate score on the CUNY Assessment Test in Mathematics or permission of the Department of Mathematics.

MTH 035 - Intermediate Algebra
2 hours; 0 credits. A co-requisite recitation course to reinforce intermediate algebra skills for a select cohort of MTH 123 Students. Requisites: (Corequisite: MTH 123 & Prerequisite: MTH 20 with a grade of "S") or (Corequisite: MTH 123 & an appropriate score on the CUNY MATH Assessment Test) or Permission of the Department of Mathematics.

MTH 102 - Mathematics for Liberal Arts Students (3)
3 hours; 3 credits. This course is intended to introduce the nonspecialist to contemporary mathematical thinking. Topics include probability and statistics and other topics chosen by the instructor, such as inductive and deductive reasoning, sequences, geometry, linear programming, graph theory, and mathematics for computer science. (scientific analysis) (math) (RMQR). Prerequisite: MTH 020 or an appropriate score on the Mathematics Assessment Test or permission of the Department of Mathematics.

MTH 103 - Mathematical Ideas (4) (RNL)
4 hours; 4 credits. A course to strengthen mathematical thinking and quantitative skills, while demonstrating the relevance and importance of mathematics. Students will learn how to model and solve real-world problems with mathematics. In addition to foundational concepts, topics may include personal finance, statistical reasoning, geometry and voting systems. (math). Prerequisite: CUNY Math Proficiency

MTH 104 - Thinking Mathematically (3) (RLA)
6 hours; 3 credits. A course intended to introduce various applications of mathematics for students who have not demonstrated elementary algebra proficiency. Topics may include: personal finance, measurement, geometry, elementary probability, descriptive statistics, or voting methods. Sufficient elementary algebra background will be introduced to ensure a mathematical rigor for each topic. Prerequisite: Student must have demonstrated arithmetic proficiency through entrance examination score or high school record.

MTH 108 - Medical Dosage Calculations (2) (RLA)
2 hours; 2 credits. Calculations of medical dosages involving conversions between the metric, apothecary, and household systems of measurement. Emphasis on complex computation of parenteral, non-parenteral, and pediatric dosages, and calculation and quantitative estimating of medical dosages. Prerequisite: MTH 015 or MTH 020 or an appropriate score on the CUNY proficiency/placement exam or permission of the Department of Mathematics.

MTH 109 - Mathematics and the Environment (3) (RLA)
3 hours; 3 credits. Mathematical topics including sequences, graphs, statistics, probability, solution of equations, and mathematical reasoning applied to environmental issues such as population growth, energy demand, and dwindling natural resources. (math). Not open to students who have taken and successfully completed MTH 106. Prerequisite: MTH 015 or MTH 020 or an appropriate score on the CUNY Math Proficiency/Placement Exam or permission of the Department of Mathematics.

MTH 113 - Introduction to Probability and Statistics (4) (RMQR)
4 hours; 4 credits. Measures of central tendency and dispersion, the normal curve, hypothesis testing. Linear correlation and regression, basic concepts in probability with application to problems in the social, behavioral, physical, and biological sciences. Statistical computer programs will be used extensively. Not open to students who have completed MTH 214. (math) (RMQR). Prerequisite: MTH 015 or MTH 020 or MTH 108 or an appropriate score on the CUNY Math Proficiency/Placement Exam or permission of the Department of Mathematics.

MTH 121 - Finite Mathematics (3) (RMQR)
3 hours; 3 credits. Linear functions and equations, graphing techniques, matrix algebra, applications of matrices to systems of linear equations and to business problems, quadratic functions and equations, exponential and
logarithmic functions. (math) (RMQR). Prerequisite: MTH 030 or higher, or an appropriate score on the Mathematics Assessment Test.

**MTH 123 - College Algebra and Trigonometry (4)** (RMQR)
4 hours; 4 credits; Topics in algebra, including inequalities, logarithmic, exponential, trigonometric functions, graphs and equations, inverse functions, elements of analytic geometry. Introduction to the use of graphing calculators. (math). Prerequisite: MTH 30 or Corequisite: MTH 35 or an appropriate score on the CUNY Math Proficiency/Placement Exam or permission of the Department of Mathematics.

**MTH 130 - Pre-Calculus Mathematics (3)** (RMQR)
4 hours; 3 credits. A functional approach to algebra and trigonometry. Selected topics such as trigonometric functions, trigonometric identities, inverse trigonometric functions, complex numbers, rational functions, introduction to analytic geometry, inequalities, absolute value, theory of equations. Graphing calculators are used. (math). (RMQR). (STEM). Prerequisite: MTH 123 or an appropriate score on the CUNY Math Proficiency/Placement Exam or permission of the Department of Mathematics.

**MTH 214 - Applied Statistics Using Computers (4)** (RMQR)
4 hours; 4 credits. An introduction to statistics using modern statistical software to facilitate exploration of real-world data. The course includes exploratory data analysis, central tendency and spread, elementary probability, confidence intervals, tests of hypotheses, non-parametric tests, and linear regression. (math). (RMQR). (STEM). Prerequisite: MTH 123 or an appropriate score on the CUNY Math Proficiency/Placement Exam or permission of the instructor.

**MTH 217 - Fundamentals of Mathematics I (4)** (RLA)
(Also SLS 217). 4 hours; 4 credits: A study of the conceptual basis of arithmetic operations on integers, decimals and fractions designed for students seeking certification as elementary school teachers. Ideas behind familiar algorithms are explored using visual models, verbal problems, and other concrete representations. Emphasis is placed on students being able to provide verbal and written explanations for these ideas. Prerequisites: A minimum GPA of 3.0 and MTH 123 or an appropriate score on the CUNY Mathematics Assessment Test.

Crosslisted as: SLS 217.

**MTH 218 - Fundamentals of Mathematics II (4)** (RLA)
(Also SLS 218) 4 hours; 4 credits; A study of geometry, data representation, probability, and statistics designed for students planning to teach at the elementary or early-childhood level, with an emphasis on mathematical reasoning, problem solving, and communication. Builds on and is a continuation of MTH/SLS 217. Prerequisite: A minimum GPA of 3.0, MTH/SLS 217 with a grade of C or higher.

Crosslisted as: SLS 218.

**MTH 221 - Applied Finite Mathematics and Business Calculus (4)** (RMQR)
4 hours; 4 credits. Linear programming (simplex method), decision analysis, mathematics of finance, Markov chains, elementary techniques of differentiation and integration of polynomial functions, maxima and minima problems, applications to business problems. This course is intended primarily for business and economics students. (math) (RMQR) (STEM). Prerequisite: MTH 121 or MTH 123.

**MTH 228 - Discrete Mathematical Structures for Computer Science (4)** (RLA)
(Also CSC 228). 4 hours; 4 credits. A discrete mathematics course where concepts of discrete structures will be applied to computer science. Topics include elementary set theory, logic, functions, relations, Boolean algebra, elements of graph theory, matrix representation of graphs, and matrix manipulations, mathematical induction, counting techniques and discrete probability theory. Prerequisites: CSC 211; MTH 123 or MTH 230 or MTH 231 or MTH 235

Crosslisted as: CSC 228.

**MTH 229 - Calculus Computer Laboratory (1)** (RLA)
2 laboratory hours; 1 credit. Computer projects to reinforce calculus concepts from numerical and graphical points of view will be presented. Suitable mathematical software will be utilized. Problem solving techniques using the computer will be discussed. The students will be assigned a number of projects to be completed individually or in small groups. NOTE: This course satisfies the College Option.

Corequisite: MTH 230 or MTH 231 or MTH 235.

**MTH 230 - Calculus I with Pre-Calculus (6)** (RMQR)
6 hours; 6 credits.: Pre-calculus material including functions, inverse functions, identities, theory of equations, and the binomial theorem. Material on calculus and analytic geometry corresponding to MTH 231 including limits, derivatives, rules of differentiation, trigonometric functions and their derivatives, differentiation, graph sketching, maxima/minima problems, related rates, antiderivatives, exponential and logarithmic functions. (math) (RMQR) (STEM). Not open to students who have completed MTH 130. Prerequisite: MTH 123 with a grade of B or better or an appropriate score on the CUNY Math Proficiency/Placement exam or permission of the Department of Mathematics. Corequisite: MTH 229
MTH 231 - Analytic Geometry and Calculus I (3) (RMQR)

4 hours; 3 credits. The first of a three-semester sequence in calculus. Topics include limits, derivatives, rules of differentiation, trigonometric functions and their derivatives, differentials, graph sketching, maximum and minimum problems, related rates, antiderivatives, areas, exponential and logarithmic functions. (math) (RMQR) (STEM). Prerequisite: MTH 123 with a grade of A or MTH 130 or an appropriate score on the CUNY Proficiency/Placement Exam or permission of the Department of Mathematics. Corequisite: MTH 229.

MTH 232 - Analytic Geometry and Calculus II (3) (RMQR)

4 hours; 3 credits. The second of a three-semester sequence in calculus. Topics include areas between curves, volumes of solids of revolution, techniques of integration, sequences and series, improper integrals, polar coordinates, and parametric representation of curves. (math) (STEM) (RMQR). Prerequisite: MTH 230 with a grade of C or higher, or MTH 231 with a grade of C or higher. Pre- or corequisite: MTH 229.

MTH 233 - Analytic Geometry and Calculus III (3) (RMQR)

4 hours; 3 credits. The third of a three-semester sequence in calculus, this course explores vector and multivariable calculus. Topics include vector algebra and geometry, partial derivatives, multiple integrals, and vector fields; with applications. (math) (RMQR). Prerequisite: MTH 230 with a grade of C or higher, or MTH 231 with a grade of C or higher. Pre- or corequisite: MTH 229.

MTH 235 - Accelerated Calculus I (5) (RMQR)

6 hours; 5 credits. Differential and integral calculus of functions of a single variable; the derivative, integration, transcendental functions; evaluation of integrals. (math) (RMQR) (STEM). Prerequisite: MTH 130 or an appropriate score on the CUNY Proficiency/Placement Exam or permission of the Department of Mathematics. Corequisite: MTH 229.

MTH 236 - Accelerated Calculus II (5) (RLA)

6 hours; 5 credits. Differential and integral calculus of functions of more than one variable. Infinite sequences and series, polar coordinates, elements of vector analysis, partial derivatives, multiple integrals. Prerequisite: MTH 235. Pre- or corequisite: MTH 229.

MTH 306 - History of Mathematical Thought (4) (RLA)

4 hours; 4 credits. Babylonian and Egyptian mathematics. The Greek achievement: Eudoxus, Euclid, Archimedes, and Apollonius; mathematics of the Hindus, Muslims, and Chinese. The medieval period in Europe. Algebra in the 16th and 17th centuries. The creation of the calculus. Selected developments in the 18th and 19th centuries. Prerequisite: MTH 233 or MTH 236.

MTH 311 - Probability Theory and an Introduction to Mathematical Statistics (4) (RLA)

4 hours; 4 credits. A calculus-based treatment of elementary probability theory, where the notion of sample space, events, and probability is introduced. The basic probability models are discussed. Notion of density and distribution function is introduced. Furthermore, conditioning, independence, and expectation are discussed. Basic concepts of statistics, sample, parameter estimation, confidence interval, hypothesis testing, central limit theorem are treated. Prerequisite: MTH 233 or MTH 236.

MTH 329 - Geometry (4) (RNL)

4 hours; 4 credits. This course addresses fundamental topics in Euclidean and coordinate geometry in two and three dimensions, introduces concepts from non-Euclidean geometry, and explores applications to areas such as image processing or map making. Topics include classical axiomatic geometry, symmetry and similarity, transformations and matrix representation, characterization of polygons and polyhedra, and representation of curves and surfaces. Prerequisite: MTH 233 or MTH 236.

MTH 330 - Applied Mathematical Analysis I (4) (RLA)

6 hours; 4 credits. Advanced mathematics for engineering and science students. Ordinary differential equations, linear algebra, eigenvalue problems, systems of ordinary linear differential equations, Laplace transforms. Credit will not be given for both MTH 330 and MTH 334. Prerequisite: MTH 233 or MTH 236.

MTH 331 - Applied Mathematical Analysis II (4) (RLA)

4 hours; 4 credits. Elements of applied mathematics for scientists and engineers. Topics include integral vector calculus; Sturm-Liouville theory; Fourier analysis, boundary value problems; and second order, linear PDEs using separation of variables. Prerequisite: MTH 330 or MTH 334.

MTH 334 - Differential Equations (4) (RLA)

4 hours; 4 credits. Formulation and solution of ordinary differential equations. Reduction of order, operational techniques, a place system of equations, Frobenius methods, boundary value problems, transform solutions, special functions, and existence and uniqueness theorems. Applications from science and engineering. Credit will not be given for both MTH 330 and MTH 334. Prerequisite: MTH 233 or MTH 236.
MTH 335 - Numerical Analysis (4) (RLA)
4 hours; 4 credits. Solution of equations, interpolation, and approximation; convergence; numerical differentiation and numerical solution of initial value problems in ordinary differential equations; selected algorithms programmed for solution on computers. The solution of linear systems by direct and iterative methods. Matrix inversion, the calculation of eigenvectors and eigenvalues of matrices. Numerical integration; approximation of polynomials. Prerequisites: (CSC 126 or CSC 270) and MTH 338 or Corequisite: MTH 330.

MTH 337 - Applied Combinatorics and Graph Theory (4) (RLA)
4 hours; 4 credits. Arrangements selection and counting methods, generating functions, recurrence relations, the principle of inclusion and exclusion, and the pigeonhole principle. Introduction to graph theory, trees and searching, Eulerian and Hamiltonian Circuits, planar graphs and coloring of graphs, applications to optimization problems such as network flows. Prerequisite: MTH 233 or MTH 236.

MTH 338 - Linear Algebra (4) (RLA)
4 hours; 4 credits; An introduction to the computational and theoretical aspects of linear systems and linear transformations and to the writing of mathematical proofs. This is a core topic in mathematics, with applications in many fields. Topics include systems of linear equations, matrices, matrix equations, determinants, vector spaces, linear transformations, linear independence, eigenvalues, and eigenvectors; with selected applications. Prerequisite: MTH 232

MTH 339 - Applied Algebra (4) (RLA)
4 hours; 4 credits. Group Theory: groups of symmetries, modular number systems, equivalence relations, properties of groups, subgroups, permutation groups, Lagrange's Theorem, Burnside's Theorem, homomorphism, isomorphism theorems. Group Codes: construction of group codes and error-correcting codes. Prerequisites: MTH 233 or MTH 236. Pre- or corequisite: MTH 338 or permission of the instructor.

MTH 341 - Advanced Calculus I (4) (RLA)
4 hours; 4 credits. The real number system, continuous functions, functions of several variables, partial differentiation, implicit functions, integration theory, infinite series, and power series. Prerequisite: MTH 233 or MTH 236.

MTH 342 - Advanced Calculus II (4) (RLA)
4 hours; 4 credits. Vectors, multiple integrals, line and surface integrals, transformation of coordinates, improper integrals, and special functions. Prerequisite: MTH 341.

MTH 347 - Number Theory (4) (RLA)
4 hours; 4 credits. Mathematical induction, divisibility, prime numbers, Euclidean algorithm, factorization methods, Diophantine equations, congruences, Chinese remainder theorem, systems of congruences, Fermat's little theorem, multiplicative functions, public key cryptography, primitive roots, primality tests, quadratic reciprocity, Pythagorean triples, Fermat's last theorem, and sums of squares. Other topics may include continued fractions and partitions. Prerequisite: MTH 232.

MTH 349 - Cryptology (4) (RLA)
4 hours; 4 credits; Cryptology includes cryptography, cryptanalysis, and several other related problems. Cryptography is the art and science of concealing messages; cryptanalysis is the discovery of concealed messages. In this course, the students will learn several pre-cold-war systems of cryptography, the mathematics behind their crytanalysis; several modern systems, and understand why the modern systems do not suffer from the same defects. Prerequisite: MTH 232.

MTH 350 - Mathematical Logic (4) (RLA)

Crosslisted as: PHL 321.

MTH 360 - Actuarial Science (2) (RLA)
2 hours; 2 credits. Intensive review of concepts from calculus and linear algebra with special attention to actuarial applications. This course may not be used to satisfy the requirements for the Mathematics major. Prerequisite: MTH 330 or MTH 338.

MTH 370 - Operations Research (4) (RLA)
4 hours; 4 credits. An introduction to Operations Research, an interdisciplinary branch of applied mathematics which is widely used for complex decision making. The course will develop mathematical models for optimization problems, emphasizing Linear Programming (LP), and including other basic models, such as Integer Programming (IP) and Network Flow. Solution of LP problems using the Simplex method will be studied, along with methods of other models. Students will solve problems using software packages. Additional topics may include LP duality and sensitivity
analysis, IP methods such as Branch-and-Bound, transportation models, shortest-path and maximum flow problems, or critical-path analysis. Use of linear programming in minimization and maximization problems and the solution of such problems by computer. Topics will include convex sets, linear inequalities, the simplex method, duality, degeneracy procedures, and the transportation model. Prerequisites: MTH 338

MTH 410 - Mathematical Statistics I (4) (RLA)
4 hours; 4 credits. A course in the basic concepts of applied mathematical statistics: parametric models, estimation, confidence intervals, hypotheses testing. Prerequisite: MTH 311.

MTH 411 - Mathematical Statistics II (4) (RLA)
4 hours; 4 credits. A continuation of MTH 410, topics in applied mathematical statistics including regression and correlation, the linear model, analysis of variance, randomized block designs, non-parametric methods. Prerequisite: MTH 410.

MTH 415 - Mathematical Biology (4) (RLA)
(Also BIO 415). 4 hours; 4 credits. This course will address the growing interaction between mathematics and the biological sciences and will provide a practical context for the mathematical description and analysis of biological processes. The emphasis will be on the construction and analysis of models consistent with empirical data. Biological problems in ecology and conservation, epidemiology, cell biology, and neuroscience will be used to illustrate the equations, including especially nonlinear equations. The computer program MATLAB will be used extensively. Prerequisites: MTH 230 and MTH 231 or equivalent, MTH 229, and one BIO 300-level course. Crosslisted as: BIO 415.

MTH 416 - Mathematics of Finance (4) (RNL)
(Also FNC 416). 4 hours; 4 credits. Introduction to the mathematical theory of derivative pricing; binomial trees and martingales; Black-Scholes formula; stochastic differential equations and Ito calculus; Girsanov theorem. Prerequisite: MTH 311.

MTH 430 - Partial Differential Equations (4) (RLA)
4 hours; 4 credits. An introduction to partial differential equations for advanced undergraduates. Topics covered include first order PDE's and methods of characteristics, classification of second order PDE's, analysis of prototype hyperbolic, parabolic, and elliptic equations with applications to physics and engineering, Fourier series solutions to second order PDE's. Prerequisite: MTH 330 or MTH 334

MTH 431 - Complex Analysis (4) (RLA)
4 hours; 4 credits. Functions of a complex variable; Cauchy integral theorem; power series, residues, and poles; elementary conformal mapping. Applications to problems in physics and engineering will be considered. Prerequisite: MTH 330 or MTH 334.

MTH 435 - Nonlinear Dynamics and Chaos (4) (RLA)
4 hours; 4 credits. An introduction to nonlinear problems in mathematics. Subjects to be covered include bifurcation theory, nonlinear oscillation, phase plane analysis, limit cycles. Poincare and Lienard theorems. Lorenz equations and chaos, strange attractors, the logistic equation, period doubling, fractals. Applications are to problems in biological and physical systems and engineering science. The course will make extensive use of computers. Prerequisite: MTH 330 or MTH 334

MTH 437 - Introduction to Mathematical Modeling (4) (RNL)
4 hours; 4 credits. A project-based introduction to the essential components of mathematical modeling. Using fully developed case studies and exploratory student projects, the aim is to provide a broad perspective on modeling physical, biological, and societal phenomena using modern mathematical methods. In particular, emphasis will be placed on three prototypical modeling paradigms: dynamical systems, statistical/probabilistic modeling, and optimization. Prerequisite: Differential equations and linear algebra (MTH 330 or equivalent) or mathematical probability (MTH 311 or equivalent) or permission of the instructor.

MTH 440 - Foundations of Mathematics (4) (RLA)
(Also PHL 420). 4 hours; 4 credits. Postulate systems and their interpretations; sets, groups, rings, and ordered fields; partially ordered sets and lattices; theory of cardinal and ordinal numbers; well-ordered sets and transfinite induction; Boolean rings; mathematical logic. Prerequisite: MTH 339 or MTH 350. Crosslisted as: PHL 420.

MTH 441 - Topology (4) (RLA)
4 hours; 4 credits. Set theory; topology of the real line, Cauchy sequences, open sets, connected sets, limit points and closed sets, bounded sets, compactness, continuous functions; topological spaces, mappings, subspaces, homomorphisms, metric spaces. Prerequisite: MTH 233, MTH 339 or MTH 341.

MTH 442 - Abstract Algebra (4) (RLA)
4 hours; 4 credits. Rings, integral domains, fundamental theorems of ring theory, polynomial rings, fields, extension
fields, algebraic extensions, introduction to Galois Theory, coding theory, polynomial codes. Prerequisite: MTH 339.

MTH 445 - Introduction to Differential Geometry (4) (RLA)
4 Credits, 4 Hours. An introduction to calculus on curves and surfaces in two and three dimensional Euclidean spaces using the techniques of differential and integral calculus and linear algebra. Topics will be selected from Frenet-Serret frames, intrinsic and extrinsic properties of surfaces, Gaussian and mean curvature, geodesics, minimal surfaces, and the Gauss-Bonnet theorem. Prerequisite: (MTH 330 or MTH 334) and MTH 338

MUS - Music

MUS 105 - World Music (3) (FCER)
3 hours; 3 credits. An introduction to ethnomusicology geared to students with no musical training. A study of music as a world phenomenon, with emphasis on its relationship to indigenous societal and cultural values and customs, function, and significance. The course will aid students in understanding how different instruments and sounds are integral to all humanity, and will guide students toward becoming better critical and analytical musical listeners and interpreters. (arts & com.) (FCER).

MUS 106 - Jazz Performance Techniques (1) (RNL)
1 hour; 1 credit. A workshop setting with the goal increasing their skills in the jazz idiom. Emphasis will be on basic musicianship techniques including sight reading and phrasing, as well as melodic interpretation, approaches to improvisation, and a basic understanding of song forms associated with jazz performance. Depending on the individual student, the course can be assigned as a prerequisite to or in conjunction with the CSI jazz ensemble. This course may be repeated four times for credit. Prerequisite: MUS 125

MUS 108 - Introduction to Jazz History (3) (FCER)
3 hours; 3 credits. A survey of music in the jazz perspective from Scott Joplin to the present, including the social impact of the music on American and European cultures. (arts & com.) (FCER).

MUS 110 - Introduction to Music History (3) (FCER)
3 hours; 3 credits. A study of the evolution of musical style through representative works from every era of the Western musical tradition. Assigned readings, listening, and concerts. (arts & com.) (FCER).

MUS 115 - Ensemble I (1) (RNL)
2 hours; 1 credit. Small ensembles such as instrumental or vocal chamber music groups or small jazz ensembles will be formed based on personnel and repertoire available, and performance ability. Groups will rehearse and receive coaching on a weekly basis, with the goal of public performance. Prerequisites: MUS 120 or MUS 125 and permission of a full-time Music faculty member

MUS 116 - Ensemble II (1) (RNL)
2 hours; 1 credit. Small ensembles such as instrumental or vocal chamber music groups or small jazz ensembles will be formed based on personnel and repertoire available, and performance ability. Groups will rehearse and receive coaching on a weekly basis with the goal of public performance. Prerequisites: MUS 115 and permission of a full-time Music faculty member.

MUS 120 - Rudiments of Music (3) (RLA)
4 hours; 3 credits. Introduction to music reading and notation; performing of rhythmic exercises; structure of scales, intervals, and triads; musical terms; introduction to the keyboard. (arts & com.).

MUS 123 - Piano I (1) (RNL)
2 hours; 1 credit. Basic piano technique; playing simple pieces. Prerequisite: the ability to read music.

MUS 124 - Piano II (1) (RNL)
2 hours; 1 credit. Continuation of MUS 123. Prerequisite: MUS 123.

MUS 125 - Introduction to Music Theory (3) (RLA)
2 class hours; 2 laboratory hours; 3 credits. For students with prior knowledge of the rudiments of music (meters, major and minor scales, key signatures, intervals). Review of the rudiments of music, introduction to chord construction and diatonic harmony; introduction to composition; introduction to sight-singing and ear-training; introduction to music technology. This course is a pre-major requirement for students intending to major or minor in music. Prerequisite: MUS 120. Pre or corequisite: For Music pre-majors or majors, MUS 123.

MUS 130 - Guitar Ensemble I (1) (RNL)
2 hours; 1 credit. An ensemble of guitarists and other instrumentalists who will perform works in the classical and popular idioms. Several public performances will be given. Prerequisites: Audition and permission of the instructor or full-time Music faculty member.

MUS 131 - Guitar Ensemble II (1) (RNL)
2 hours; 1 credit. Continuation of MUS 130. Prerequisite: MUS 130.

MUS 144 - Jazz Ensemble I (1) (RNL)
2 hours; 1 credit. An ensemble consisting of a balanced group of selected instrumentalists who perform works in the
jazz idiom. Several public performances will be given. Prerequisite: Audition and permission of instructor or full-time Music faculty member.

**MUS 145 - Jazz Ensemble II (1) (RNL)**

2 hours; 1 credit. Continuation of MUS 144. Prerequisite: MUS 144.

**MUS 150 - Chorus I (1) (RNL)**

2 hours; 1 credit. A mixed chorus of soprano, alto, tenor, and bass (SATB) that sings both classical and popular works. The group presents a public performance at the end of the semester. Prerequisites: MUS 120 or MUS 125 or the ability to read music and audition and permission of the instructor or full-time Music faculty member.

**MUS 151 - Chorus II (1) (RNL)**

2 hours; 1 credit. Continuation of MUS 150. Prerequisite: MUS 150 or permission of the instructor or full-time Music Faculty Member.

**MUS 164 - Orchestra I (1) (RNL)**

2 hours; 1 credit. Rehearsal and performance of orchestral literature from all periods. May be taken at another CUNY campus. Pre- or corequisites: MUS 120 or MUS 125 and audition and permission of the instructor or full-time Music faculty member.

**MUS 165 - Orchestra II (1) (RNL)**

2 hours; 1 credit. Continuation of MUS 164. Rehearsal and performance of orchestral literature from all periods. Prerequisites: MUS 164 and permission of instructor.

**MUS 180 - Performance Workshop I (1) (RNL)**

1 hour; 1 credit. Music students will meet once a week to perform before each other and music faculty in a supportive environment. Discussion of stage deportment, performance anxiety, issues of style, and other topics with the goal of developing readiness for public performance. Performance calendar will be arranged in consultation with the student's private teacher and the program coordinator. Prerequisites: MUS 120 and permission of a full-time Music faculty member. Corequisite: MUS 181

**MUS 181 - First-Semester Private Lessons (1) (RNL)**

1 hour; 1 credit. Weekly instruction that helps the student to develop the technical and musical skills necessary to perform as a singer or instrumentalist. The student will be assigned standard repertoire for the voice/instrument according to ability, with the goal of public performance. Pre- or corequisites: ENG 111; COR 100; PED 190; MUS 120 or MUS 125 and MUS 123 and an audition and permission of a full-time Music faculty member. Corequisite: MUS 180

**MUS 190 - Performance Workshop II (1) (RNL)**

1 hour; 1 credit. Music students will meet once a week to perform before each other and Music faculty in a supportive environment. Discussion of stage deportment, performance anxiety, issues of style, and other topics with the goal of developing readiness for public performance. Performance calendar will be arranged in consultation with the student's private teacher and the program coordinator. Prerequisites: MUS 180 and MUS 181 and permission of a full-time Music faculty member. Corequisite: MUS 191

**MUS 191 - Second-Semester Private Lessons (1) (RNL)**

1 hour; 1 credit. Prerequisites: Permission of a full-time Music faculty member and MUS 181. Corequisite: MUS 190.

**MUS 203 - Music History I: History of Jazz (3) (RLA)**

3 hours; 3 credits; A survey of Jazz from its origins to the present, through a study of representative composers, performers, and musical works from each era of stylistic development. Special consideration will be given to the lives and contributions of people of color. (arts & com) (p&d) (TALA) Prerequisites: ENG 111, COR 100, PED 190; for Music majors and minors a grade of B- or higher in MUS 123 and MUS 125; Corequisites: MUS 223, MUS 225, MUS 243. Please Note: this course satisfies the college option.

**MUS 204 - Music History II - History of Western Music from Antiquity to 1750 (3) (RLA)**

4 hours; 3 credits. A survey of the history of musical style and materials from antiquity through the Baroque era and the music of J. S. Bach and Handel; a study of representative works from each era of stylistic development and the cultural forces that influenced composition and performance practice. Introduction to music research methods and the techniques of writing about music. Prerequisites: ENG 151; MUS 203 and MUS 223 and MUS 225 and MUS 243. Corequisites: MUS 224 and MUS 226 and MUS 244.

**MUS 215 - Ensemble III (1) (RNL)**

2 hours; 1 credit. Small ensembles such as instrumental or vocal chamber music groups or small jazz ensembles will be formed based on personnel and repertoire available, and performance ability. Groups will rehearse and receive coaching on a weekly basis with the goal of public performance. Prerequisites: MUS 116 and permission of a full-time Music faculty member.

**MUS 216 - Ensemble IV (1) (RNL)**

2 hours; 1 credit; Small ensembles such as instrumental or vocal chamber music groups or small jazz ensembles will be formed based on personnel and repertoire available, and performance ability. Groups will rehearse and receive
coaching on a weekly basis with the goal of public performance. Prerequisites: MUS 215 and permission of a full-time Music faculty member.

**MUS 223 - Keyboard Musicianship I (1) (RNL)**

1 hour; 1 credit. For Music majors. Chord progressions; constructing a piano accompaniment from lead sheet notation and from Roman numerals. Simple song harmonizations and transpositions. Prerequisites: ENG 111, COR 100, PED 190, for Music majors and minors a grade of B- or higher in MUS 125 and MUS 123. Co-requisites: MUS 203 and MUS 225 and MUS 243. Pre- or Corequisite: ENG 151

**MUS 224 - Keyboard Musicianship II (1) (RNL)**

1 hour; 1 credit. Continuation of MUS 223, including simple figured bass realizations at the keyboard; textural figuration patterns such as Alberti bass, waltz, and march accompaniments; chromatic chord progressions, and cadence patterns. Prerequisites: MUS 203 and MUS 223 and MUS 225 and MUS 243 and an ENH 200-level course. Corequisites: MUS 204 and MUS 226 and MUS 244.

**MUS 225 - Music Theory I (3) (RLA)**

3 hours; 3 credits. A study of the functional relationships among scale degrees, chords, scales and keys that create tonality. Construction of triads and seventh chords, root function and diatonic chord progressions, four-part diatonic harmony, advanced notation. Introduction to harmonic analysis using lead sheet notation and Roman numerals. Cadences, phrase structure, and an introduction to formal analysis. Figured bass notation. Prerequisite: ENG 111, COR 100, PED 190; for Music majors and minors a grade of B- or higher in MUS 123 and MUS 125. Corequisites: MUS 203 and MUS 223 and MUS 243; Pre- or corequisite: ENG 151.

**MUS 226 - Music Theory II (3) (RLA)**

3 hours; 3 credits. A continuation of MUS 225, with an emphasis on chromatic harmony and modulation. Construction of secondary dominants- and diminished-seventh chords, advanced root function and chord progressions, advanced harmonic dictation, four-part chromatic harmony, advanced notation. Advanced harmonic and formal analysis. Prerequisites: MUS 203 and MUS 223 and MUS 225 and MUS 243 and an ENH 200-level course. Co-requisites: MUS 204 and MUS 224 and MUS 244.

**MUS 227 - Music Theory III (3) (RLA)**

3 hours; 3 credits. Advanced harmonic analysis and formal composition. Prerequisites: MUS 203 and MUS 223 and MUS 225 and MUS 243 and an ENH 200-level course. Co-requisites: MUS 204 and MUS 224 and MUS 244.

**MUS 228 - Music Theory IV (3) (RLA)**

3 hours; 3 credits. Advanced harmonic and formal analysis. Prerequisites: MUS 203 and MUS 223 and MUS 225 and MUS 243 and an ENH 200-level course. Co-requisites: MUS 204 and MUS 224 and MUS 244.

**MUS 229 - Music Theory V (3) (RLA)**

3 hours; 3 credits. Advanced harmonic and formal composition. Prerequisites: MUS 203 and MUS 223 and MUS 225 and MUS 243 and an ENH 200-level course. Co-requisites: MUS 204 and MUS 224 and MUS 244.

**MUS 232 - Classic Guitar I (1) (RNL)**

2 hours; 1 credit. Beginning students will learn the fundamentals of classic guitar playing (School of Tarrega) through the study of technique; scales, chords, etudes, simple pieces, and sightreading. Prerequisites: MUS 120, or equivalent, and permission of the instructor.

**MUS 233 - Guitar Ensemble III (1) (RNL)**

2 hours; 1 credit. Continuation of MUS 131. Prerequisite: MUS 131.

**MUS 234 - Guitar Ensemble IV (1) (RNL)**

2 hours; 1 credit. Continuation of MUS 233. May be repeated for credit. Prerequisite: MUS 233.

**MUS 236 - Music in American Life (4) (RLA)**

(Also AMS 236). 4 hours; 4 credits. The music making and listening habits of the American people, examining the musical activities, the musicians, and the social setting. The course focuses on the history and significance of rock as an American and international phenomenon, exploring issues of gender, race, and the multicultural musical traditions that have enriched American popular music. This course develops the ability to understand music as an expression of cultural values, and does not require instrumental training or the ability to read music. This course does not meet requirements for the major or the minor in Music. (arts & com.) (TALA). Prerequisite: ENG 111. Please Note: this course satisfies the college option. Crosslisted as: AMS 236.

**MUS 237 - American Musical Theater (3) (RLA)**

(Also AMS 237). 3 hours; 3 credits. A survey of U.S. musical theater and its development from the second half of the 19th century to our own times, considered in the context of a changing United States. Sousa, Herbert, Friml, Cohan, Kern, Gershwin, Bernstein, Arlen, Weill, Thomson, and Copland are some of the composers whose works will be covered. (arts and com.) (TALA). Prerequisites: ENG 111; for music majors, MUS 120 or permission of instructor. Please Note: this course satisfies the college option. Crosslisted as: AMS 237.

**MUS 242 - Harmonic Practice in the Jazz Tradition (3) (RLA)**

3 hours; 3 credits. A practical study of the basic principles and applications of chord harmony in the jazz idiom. Topics include chord types, extensions, voicings, progressions and form (blues form, for example), and substitutions, using the Be-Bop era as a common practice period and progressing to later style trends. The primary emphasis will be on composition, but the course will also include study of scales and modes relating to improvisation. Compositions of seminal jazz musicians will be used as prototypes for written analysis and other assignments. The course also includes studies in keyboard harmony, harmonic and melodic ear-training, and basic arranging skill. Prerequisites: MUS 203 and MUS 204 and MUS 224 and MUS 226 and MUS 244 and an ENH 200-level course.
MUS 243 - Musicianship I (1) (RNL)
2 hours; 1 credit. Techniques in the expressive performance of rhythm, pitch, dynamics, and timbre. Recognition and writing of musical elements through rhythmic and melodic dictation exercises. Improved reading and interpretation of musical notation through sight-singing exercises. Prerequisites: ENG 111, COR 100; PED 190; for Music majors and minors, a grade of B- or higher in MUS 123 and MUS 125. Corequisites: MUS 203 and MUS 223 and MUS 225. Pre- or corequisite: ENG 151

MUS 244 - Musicianship II (1) (RNL)
2 hours; 1 credit. Continuation of MUS 243. Prerequisites: MUS 203 and MUS 223 and MUS 225 and MUS 243 and an ENH 200-level course. Corequisites: MUS 204 and MUS 224 and MUS 226

MUS 246 - Jazz Ensemble III (1) (RNL)
2 hours; 1 credit. Continuation of MUS 145. Prerequisite: MUS 145.

MUS 247 - Jazz Ensemble IV (1) (RNL)
2 hours; 1 credit. Continuation of MUS 246. May be repeated for credit. Prerequisite: MUS 246.

MUS 249 - Jazz Combo (1) (RNL)
2 hours; 1 credit. A small group performance setting to further develop musicianship in the jazz idiom. Emphasis will be on the performance of standard jazz literature culminating with a public performance of memorized material. The combo size can range from 3 to 7 musicians. This course may be repeated for credit. Prerequisite: MUS 145

MUS 250 - Chorus III (1) (RNL)
2 hours; 1 credit. Continuation of MUS 151. Prerequisite: MUS 151.

MUS 251 - Chorus IV (1) (RNL)
2 hours; 1 credit. Continuation of MUS 250. May be repeated for credit. Prerequisite: MUS 250.

MUS 252 - Musical Performance I (1) (RNL)
3 hours; 1 credit. Study and performance of representative literature from all periods of music history, involving instrumental as well as vocal ensembles. May be taken without credit. Prerequisites: Permission of the instructor.

MUS 253 - Musical Performance II (3) (RNL)
3 hours; 1 credit. Study and performance of representative literature from all periods of music history, involving instrumental as well as vocal ensembles. May be taken without credit. Prerequisites: MUS 252, permission of the instructor.

MUS 258 - Introduction to Music Technology (3) (RLA)
3 hours; 3 credits. A survey of hardware and software resources in the electronic music lab. Development of music notation skills using Desktop Music Notation; introduction to basic Audio and MIDI studio techniques; history of the electronic music medium. Prerequisites: MUS 203 and MUS 223 and MUS 225 and MUS 243. Corequisites: MUS 204 and MUS 224 and MUS 226 and MUS 244.

MUS 264 - Orchestra III (1) (RNL)
2 hours; 1 credit. Continuation of MUS 165. Rehearsal and performance of orchestral literature from all periods. Prerequisites: MUS 165 and permission of instructor.

MUS 265 - Orchestra IV (1) (RNL)
2 hours; 1 credit. Continuation of MUS 264. Rehearsal and performance of orchestral literature from all periods. May be repeated for credit. Prerequisites: MUS 264 and permission of instructor.

MUS 270 - Composition I (2) (RNL)
2 hours; 2 credits. Composition of original music in a seminar setting. Extensive writing and listening assignments. Study of contemporary music literature in a variety of styles. Aspects of orchestration and arranging. Prerequisites: Junior standing, MUS 203 and MUS 204 and an ENH 200-level course. Corequisites: MUS 303 and MUS 322 and MUS 323 and MUS 363.

MUS 280 - Performance Workshop III (1) (RNL)
1 hour; 1 credit. Music students will meet once a week to perform before each other and music faculty in a supportive environment. Discussion of stage deportment, performance anxiety, issues of style, and other topics with the goal of developing readiness for public performance. Performance calendar will be arranged in consultation with the student's private teacher and the program coordinator. Prerequisites: MUS 190 and MUS 191. Corequisite: MUS 281.

MUS 281 - Third-Semester Private Lessons (1) (RNL)
1 hour; 1 credit. Prerequisites: Permission of a full-time music faculty member and MUS 191. Corequisite: MUS 280.

MUS 290 - Performance Workshop IV (1) (RNL)
1 hour; 1 credit. Music students will meet once a week to perform before each other and Music faculty in a supportive environment. Discussion of stage deportment, performance anxiety, issues of style, and other topics with the goal of developing readiness for public performance. Performance calendar will be arranged in consultation with the student's private teacher and the program coordinator. Prerequisites:
MUS 280 and MUS 281 and permission of a full-time Music faculty member. Corequisite: MUS 291.

MUS 291 - Fourth-Semester Private Lessons (1) (RNL)
1 hour; 1 credit. Prerequisites: Permission of a full-time music faculty member and MUS 281. Corequisite: MUS 290.

MUS 301 - Improvisation (2) (RNL)
2 hours; 2 credits. An introduction to methods of instrumental and vocal improvisation through rhythmic, melodic, and harmonic etudes that develop the ability to craft well-formed musical statements spontaneously. Both jazz and non-jazz idioms will be explored, through the application of techniques learned in music theory and musicianship courses. Prerequisites: Junior standing, MUS 203 and MUS 204, and an ENH 200-level course. Pre- or corequisites: MUS 303 and MUS 322 and MUS 323 and MUS 363.

MUS 303 - Music History III: History of Western Music from 1750 to 1900 (3) (RLA)
4 hours; 3 credits; A survey of the history of musical style and materials from the Classical Era to the present; a study of representative works from each era of stylistic development and the cultural forces that influenced composition and performance practice. Introduction to the forms and genres of common practice music. Introduction to music research methods and the techniques of writing about music. Prerequisites: An ENH 200-level course, MUS 204 and MUS 224 and MUS 226 and MUS 244. Corequisites: MUS 302 and MUS 322 and MUS 323 and MUS 363.

MUS 304 - Music History IV: Western Art Music from 1900-Present (3) (RLA)
3 hours; 3 credits. A survey of Western art music in Europe and the Americas from the last decade of the nineteenth century through the current day. Students will study the history of modernist and post-modernist music and its evolution through time, as well as the cultural and political events that helped shape and were shaped by this music. Discussions will include the development of various musical styles and compositional procedures. Prerequisite: ENG 151

MUS 322 - Counterpoint (3) (RLA)
3 hours; 3 credits. Introduction to polyphonic composition and the analysis of two and three part linear textures in music from 1600 to the present. A study of melodic construction using modal and tonal materials. The application of ear-training techniques to contrapuntal etudes in one, two, and three parts. Prerequisites: MUS 224, MUS 226, MUS 244, MUS 203, MUS 204 and an ENH 200-level course. Corequisites: MUS 303, MUS 323, MUS 363.

MUS 323 - Keyboard Musicianship III (1) (RLA)
1 hour; 1 credit. Continuation of MUS 224. Prerequisite: MUS 224, MUS 226, MUS 244, MUS 303, and an ENH 200-level course. Corequisites: MUS 303, MUS 322, MUS 363.

MUS 325 - Keyboard Musicianship IV (1) (RLN)
1 hour; 1 credit. Continuation of MUS 323. Prerequisite: MUS 322, MUS 323, MUS 363, MUS 303. Corequisites: MUS 304, MUS 424, MUS 364.

MUS 326 - Instrumentation and Scoring (2) (RLA)
2 hours; 2 credits. The study of woodwinds, brass, strings, and percussion; ranges and voicing; score analysis and notation; articulation and phrasing. Prerequisites: Junior Standing, MUS 224, MUS 226, MUS 244, MUS 204 and an ENH 200-level course. Corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

MUS 332 - Classical Guitar II (1) (RLN)
2 hours; 1 credit. Study of Segovia major and minor scales through four sharps and one flat; Roch transcriptions, Tarrega preludes, and studies by Sor, Aguado, Carcassi, and others. Ensemble performance of transcriptions of Renaissance and Baroque compositions. Prerequisites: MUS 232 with a grade of C or better, or equivalent, and permission of the instructor.

MUS 338 - Innovators in Jazz (3) (RLA)
3 hours; 3 credits. Analysis of style and form of major figures in jazz history. Prerequisites: MUS 224, MUS 226, MUS 244, MUS 204 and an ENH 200-level course. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

MUS 339 - Jazz Composition and Analysis (3) (RNL)
3 hours; 3 credits. Continued study of more advanced jazz harmony, arranging, and even improvisational techniques with the goal (and requirement) of having original student compositions performed by student or student/faculty ensembles. Prerequisites: MUS 203, MUS 242, MUS 338, MUS 340.

MUS 340 - Arranging for Jazz Ensemble (2) (RNL)
2 hours; 2 credits. A practical study of voicing techniques in the jazz idiom. Ranges, transpositions, and characteristics of instruments associated with jazz performance. Students will be expected to orchestrate for ensembles ranging from combo to big band. Prerequisites: Junior Standing, MUS 203, MUS 204, MUS 242, and an ENH 200-level course. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 326, MUS 363.
MUS 349 - Jazz Repertoire Combo (1) (RNL)
2 hours; 1 credit. Small group jazz (3-7 musicians) at an advanced level. This entails eventual performance(s) of memorized material which will challenge the student, either from intricate arrangements, advanced improvisational style, particular jazz vernacular, and/or a combination of all. Semester's work will also include the study of compositions by one (or a few) particular composer(s). This course may be repeated for credit. Prerequisites: MUS 249 or Audition.

MUS 352 - Musical Performance III (1) (RNL)
3 hours; 1 credit. See description for MUS 252. Prerequisite: MUS 253 or permission of the instructor.

MUS 353 - Musical Performance IV (1) (RNL)
3 hours; 1 credit. See description for MUS 252. May be repeated for credit. Prerequisite: MUS 352 or permission of the instructor.

MUS 360 - Twentieth-Century Directions (3) (RLA)
3 hours; 3 credits. A survey of the literature and techniques of 20th- and 21st-century composition. Analysis and written assignments. Prerequisites: Junior Standing, MUS 204, MUS 224, MUS 226, MUS 244 and an ENH 200-level course. Pre- or corequisites: MUS 303, MUS 322, MUS 323, and MUS 363.

MUS 361 - Audio for Moving Images (3) (RLA)
3 hours; 3 credits. This course covers the techniques and methodology of creating music to accompany moving visual images. The beginning of the class deals with the aesthetics, terminology and technical aspects of creating the sound. The student will subsequently apply these skills towards the creation of a recorded score for a short film or video. Prerequisites: Junior Standing, MUS 204, MUS 223, MUS 225, MUS 243, MUS 258. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

MUS 362 - Performance with Computer and Electronics (3) (RLA)
3 hours; 3 credits. The course will examine various works from the last 100 years, which involve some kind of electronic interaction with or complement to a live musical performance. It will begin with the early pieces which make use of noise, progressing on to live electronics and subsequently arriving at today's real time interaction between computer and performer. Ultimately the class will involve the creation of short live performance compositions/improvisations utilizing the computer and the software MAX/MSP. Prerequisites: Junior Standing, MUS 204, MUS 223, MUS 225, MUS 243, MUS 258. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

MUS 363 - Musicianship III (1) (RNL)
2 hours; 1 credit. Continuation of MUS 244. Prerequisites: MUS 204, MUS 224, MUS 226, MUS 244 and an ENH 200-level course. Corequisites: MUS 303, MUS 322, MUS 323.

MUS 364 - Musicianship IV (1) (RNL)
2 hours; 1 credit. Continuation of MUS 363. Prerequisites: MUS 204, MUS 224, MUS 226, MUS 244 and an ENH 200-level course. Corequisites: MUS 304, MUS 325.

MUS 365 - Multitrack Recording (3) (RNL)
3 hours; 3 credits; This course covers the technique and methodology of live sound recording. It includes the study of microphones, microphone placement, mixing consoles, signal processing, an introduction to multiple track recording software, and the basic editing and studio procedures found in today's recording studio. Prerequisites: Junior standing, ENG 151, COR 100, PED 190, an ENH 200-level course, MUS 258.

MUS 366 - Multitrack Mixing and Mastering (3) (RLA)
3 hours; 3 credits; An introduction to the techniques and methodology of studio sound recording with an emphasis on Mixing and Mastering. Specifically, the course will concentrate on the post recording and post-production of multitrack-recorded material, in preparation for, and including, the final mix down into CD stereo. The class also includes a study of audio, mixing consoles, mastering techniques, monitors, digital audio software, editing techniques and related plug-ins. Prerequisites: Junior Standing, MUS 204, MUS 223, MUS 225, MUS 243, MUS 258. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 303, MUS 363.

MUS 370 - Composition II (2) (RNL)
2 hours; 2 credits. Composition of original music in a seminar setting. Extensive writing and listening assignments. Study of contemporary music literature in a variety of styles. Aspects of orchestration and arranging. Prerequisite: Junior standing; MUS 203, MUS 204, and an ENH 200-level course. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 303, MUS 363.

MUS 373 - Junior Project (Composition) (3) (RLA)
1 hour; 3 credits. An independent study project for upperclass composition students. The final composition or compositions may be written either for acoustic instruments/voice or for electronic-music media. Prerequisites: Junior standing, an ENH 200-level course, (MUS 258 or MUS 270), permission of a full-time music faculty member.
**MUS 380 - Performance Workshop V (1) (RNL)**

1 hour; 1 credit. Music students will meet once a week to perform before each other and Music faculty in a supportive environment. Discussion of stage deportment, performance anxiety, issues of style, and other topics with the goal of developing readiness for public performance. Performance calendar will be arranged in consultation with the student's private teacher and the program coordinator. Prerequisites: Junior standing, ENG 151, COR 100, PED 190, an ENH 200-level course, MUS 290, MUS 291, and permission of a full-time Music faculty member. Corequisite: (MUS 381 or MUS 383).

**MUS 381 - Fifth-Semester Private Lessons (1) (RLA)**

1 hour; 1 credit. Prerequisites: Junior standing, ENG 151, COR 100, PED 190, an ENH 200-level course, MUS 291, and permission of a full-time Music faculty member. Corequisite: MUS 380

**MUS 383 - Junior Project (Performance) (3) (RNL)**

1 hour; 3 credits. Open to Music Majors who wish to perform a full-length public recital of significant scope and length. A full-time music faculty member and/or applied music instructor must supervise any of these endeavors. At the request of the student, when the grade point average warrants the appellation, these courses may be designated as Juniors Honor Project. Prerequisites: Junior standing, MUS 291, an ENH 200-level course and permission of a full-time music faculty member. Corequisite: (MUS 380 or MUS 390).

**MUS 390 - Performance Workshop VI (1) (RNL)**

1 hour; 1 credit. Music students will meet once a week to perform before each other and music faculty in a supportive environment. Discussion of stage deportment, performance anxiety, issues of style, and other topics with the goal of developing readiness for public performance. Performance calendar will be arranged in consultation with the student's private teacher and the program coordinator. Prerequisites: (MUS 381 or MUS 383), MUS 380 and permission of a full-time Music faculty member. Corequisite: (MUS 380 or MUS 390).

**MUS 391 - Sixth-Semester Private Lessons (1) (RLA)**

1 hour; 1 credit. Prerequisites: Permission of a full-time music faculty member and MUS 381. Corequisite: MUS 390.

**MUS 393 - Junior Project Research (3) (RLA)**

1 hour; 3 credits. Open to Music Majors who wish to complete a research project in music theory or music history of significant scope and length. A full-time Music Faculty member and/or applied music instructor must supervise any of these projects. Prerequisites: Junior standing, an ENH 200-level course, and permission of a full-time Music faculty member.

**MUS 400 - The Music of J.S. Bach (3) (RLA)**

3 hours; 3 credits. An examination of the music of J. S. Bach in a variety of genres: keyboard, chamber music, orchestral, and cantata. Issues of musical style and structure will be emphasized. Secondary considerations include issues of theology, symbolism, and historical theory. Extensive listening assignments. Prerequisites: Junior standing; MUS 204, MUS 224, MUS 226, MUS 244 and an ENH 200-level course. Pre- or corequisite: MUS 304, MUS 325.

**MUS 402 - Major Composer I (3) (RLA)**

3 hours; 3 credits. The course will focus on a particular composer or composers. It will cover the composer's life, major repertoire in various genres, and significant contributions to the music literature. Issues of form and style will be emphasized. The course will include extensive listening assignments and score analysis. Prerequisites: Junior Standing, MUS 204, MUS 224, MUS 226, MUS 244, and an ENH 200-level course. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

Distribution: N.

**MUS 403 - Major Composer II (3) (RLA)**

3 hours; 3 credits. The course will focus on a particular composer or composers. It will cover the composer's life, major repertoire in various genres, and significant contributions to the music literature. Issues of form and style will be emphasized. The course will include extensive listening assignments and score analysis. Prerequisites: Junior Standing, MUS 204, MUS 224, MUS 226, MUS 244, and an ENH 200-level course. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

**MUS 424 - Score Analysis (3) (RLA)**

3 hours; 3 credits. Study of works that demonstrate the variety of musical forms found in Western music. Prerequisites: Junior standing, MUS 303, MUS 322, MUS 323, MUS 363 and an ENH 200-level course. Pre- or corequisites: MUS 304, MUS 325, MUS 364.

**MUS 431 - Conducting (2) (RNL)**

2 classroom hours; 1 laboratory hour; 2 credits; Baton techniques; score reading; the study of choral and instrumental repertory and associated problems of interpretation; preparation for performance of representative compositions. Prerequisites: Junior Standing, MUS 303, MUS 322, MUS 323, MUS 363 and an ENH 200-level course. Pre- or corequisites: MUS 304, MUS 325, MUS 364.

**MUS 431 - Conducting (2) (RNL)**

2 classroom hours; 1 laboratory hour; 2 credits; Baton techniques; score reading; the study of choral and instrumental repertory and associated problems of interpretation; preparation for performance of representative compositions. Prerequisites: Junior Standing, MUS 303, MUS 322, MUS 323, MUS 363 and an ENH 200-level course. Pre- or corequisites: MUS 304, MUS 325, MUS 364.
MUS 450 - History and Literature of the Symphony (3) (RLA)
3 hours; 3 credits. A study of the origins, content, and style of significant works in the symphonic literature. Prerequisites: Junior Standing, MUS 204, MUS 224, MUS 226, MUS 244 and an ENH 200-level course. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

MUS 460 - History and Literature of Chamber Music (3) (RLA)
3 hours; 3 credits. A study of the origins, content, and style of significant works in the chamber music literature. Prerequisites: Junior Standing, MUS 204, MUS 224, MUS 226, MUS 244 and an ENH 200-level course. Pre- or corequisite: MUS 303, MUS 322, MUS 323, MUS 363.

MUS 470 - History and Literature of Opera (3) (RLA)
3 hours; 3 credits. A study of the origins, content, and style of significant works in the opera literature. Prerequisites: Junior Standing, MUS 204, MUS 224, MUS 226, MUS 244 and an ENH 200-level course. Pre- or corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

MUS 473 - Senior Project (Composition) (3) (RLA)
1 hour; 3 credits; An independent study project for upperclass composition students. The final composition or compositions may be written either for acoustic instruments/voice or for electronic-music media. Prerequisites: Senior standing; an ENH 200-level course; MUS 204, MUS 224, MUS 226, MUS 244. Corequisites: MUS 303, MUS 322, MUS 323, MUS 363.

MUS 480 - Performance Workshop VII (1) (RNL)
1 hour; 1 credit. Music students will meet once a week to perform before each other and music faculty in a supportive environment. Discussion of stage deportment, performance anxiety, issues of style, and other topics with the goal of developing readiness for public performance. Performance calendar will be arranged in consultation with the student's private teacher and the program coordinator. Prerequisites: Senior standing; MUS 383 or MUS 391, MUS 390 and permission of a full-time Music faculty member. Corequisite: MUS 483.

MUS 481 - Seventh-Semester Private Lessons (1) (RNL)
1 hour; 1 credit. Prerequisites: Senior Standing, MUS 391 and permission of a full-time faculty member. Corequisite: MUS 480.

MUS 483 - Senior Project (Performance) (3) (RNL)
1 hour; 3 credits. Open to Music Majors who wish to perform a full-length public recital of significant scope and length. A full-time Music Faculty member and/or applied music instructor must supervise any of these endeavors. At the request of the student, when the grade point average warrants the appellation, these courses may be designated as a Senior Honors Project. Prerequisites: Senior standing and permission of a full-time Music faculty member. Corequisite: MUS 480 or MUS 490.

MUS 490 - Performance Workshop VIII (1) (RNL)
1 hour; 1 credit. Music students will meet once a week to perform before each other and music faculty in a supportive environment. Discussion of stage deportment, performance anxiety, issues of style, and other topics with the goal of developing readiness for public performance. Performance calendar will be arranged in consultation with the student's private teacher and the program coordinator. Prerequisites: MUS 481 or MUS 483, MUS 480 and permission of a full-time Music faculty member. Corequisite: MUS 483 or 491.

MUS 491 - Eighth-Semester Private Lessons (1) (RNL)
1 hour; 1 credit. Prerequisites: Permission of a full-time Music faculty member and MUS 481. Corequisite: MUS 490.

MUS 493 - Senior Project (Research) (3) (RLA)
1 hour; 3 credits. Open to Music majors who wish to complete a research project in music theory or music history of significant scope and length. A full-time Music faculty member and/or applied music instructor must supervise these projects. Prerequisites: Senior standing and permission of a full-time Music faculty member.

NRS - Nursing

NRS 110 - Medical-Surgical Nursing I (6) (RNL)
3 class hours, 9 laboratory hours; 6 credits. Principles and concepts basic to the practice of nursing. Emphasis is on the maintenance and meeting of the basic needs of the adult patient. Introduces the student to alterations in human basic needs as a result of simple health problems. Clinical experience in a general hospital or long term facility. Prerequisite: Satisfactory completion of the Pre-Nursing sequence. Corequisite: NRS 115.

NRS 115 - Nursing Therapeutics and Pharmacologic Management in Patient-Centered Care (3) (RNL)
3 Credits, 3 Hours. Designed to establish a foundation in nursing therapeutics as it relates to pharmacologic management. Emphasis is placed on the application of pharmacology in safe, effective, patient-centered nursing care and patient education of diverse individuals and families. A major focus will be the application of the nursing process and use of clinical reasoning skills supported by reliable evidence for patients receiving pharmacologic agents. The course will include the integration of technology
for nursing therapeutics and pharmacologic management. Methods of medication administration and dosage calculation will be addressed. Prerequisite: (Appropriate Score on CUNY Mathematics Assessment Test or MTH 020). Corequisite: NRS 110

NRS 120 - Medical-Surgical Nursing II (9) (RNL)

6 class hours, 9 laboratory hours; 9 credits. Focus is on clinical reasoning and identification of alterations in human basic needs to provide safe, quality, patient-centered care for diverse patients and families. Clinical experience in a general hospital. NOTE: This course has a material fee. Prerequisites: NRS 110 and NRS 115

NRS 210 - Medical-Surgical Nursing III (4.5) (RNL)

6 class hours, 9 laboratory hours for one-half semester; 4.5 credits. Focus is on the nursing problems of a patient with catastrophic illness. Short- and long-term goals of care will be included and the many ramifications that these illnesses have upon the patient, family, society, and the nurse. Clinical experience in general hospital and community agencies. Prerequisite: NRS 120. Pre- or corequisites: BIO 350 and BIO 351.

NRS 211 - Psychiatric Mental Health Nursing (4.5) (RNL)

6 class hours, 9 laboratory hours for one-half semester; 4.5 credits. The development of concepts and skills in psychiatric nursing. Special emphasis is placed on developing increased understanding of the nurse's own behavior and the role she/he plays in interpersonal relationships. The student learns to recognize the components of mental health and the impact of mental illness upon the patient, the patient's family, and the community. Laboratory experiences in clinical settings and community agencies. Prerequisite: NRS 120. Pre- or corequisites: BIO 350 and BIO 351.

NRS 220 - Family-Centered Maternity Nursing (4.5) (RNL)

6 class hours, 9 laboratory hours for one-half semester; 4.5 credits. Development of concepts and skills in identifying and meeting the complex needs of the expectant family. The family structure and changing roles are emphasized throughout the pregnancy and birth cycle, and special emphasis is placed on the pregnancy, birth, and neonate at risk. Laboratory experiences in clinical settings and community agencies. Prerequisites: NRS 210 and 211.

NRS 221 - Child Health Nursing (4.5) (RNL)

6 class hours, 9 laboratory hours for one-half semester; 4.5 credits. Focus is on complex nursing care of well and ill children as a member of the family and community. Encompasses nursing assessment and intervention in the promotion, maintenance, and restorative aspects of basic and complex childcare. Psycho-social aspects of growth and development are emphasized. Laboratory experiences in general hospital and community agencies. Prerequisites: NRS 210 and 211.

NRS 303 - Seminar in Professional Development (3) (RNL)

3 hours; 3 credits. This course consists of interactive discussions of nursing as a profession and a science. The theory aspects of professional evidenced-based practice are explored. The history of nursing provides a foundation for growth as professionals. Model for health promotion, quality and safety as a foundation for culturally competent nursing care of individuals, families and communities. Theories of critical thinking are applied through the use of case studies. Prerequisite: Accepted Students in the RN to BS program in Nursing or permission of the Department of Nursing.

NRS 305 - Women's Health Issues Across the Lifecycle (3) (RLA)

3 hours; 3 credits. An examination from a holistic perspective of a wide spectrum of health care problems and issues that affect women across the lifecycle as individuals, family members, and members of communities. The physical, psychosocial, socioeconomic, and family implications of health issues are examined, and the impact of women's well-being is determined. The development communication of culturally competent strategies and evidence-based interventions of health promotion and maintenance to provide care that improves women's well-being and quality of life are emphasized. (p&d). Pre- or corequisites: NRS 303, NRS 310.

NRS 310 - Interpersonal Dynamics for Professional Nurses (3) (RNL)

2 lecture hours, 2 laboratory hours; 3 credits. Culturally competent, verbal and nonverbal, written and digital communications are explored. Theories and research are introduced addressing aspects of communication and interpersonal relations contributing to safe, quality nursing care and collaborative practice. Prerequisite: Matriculated status in the BS degree program in Nursing.

NRS 315 - Cultural Immersion and Global Health (6) (RLA)

45 lecture hours, 90 clinical hours; 6 credits. Provides a cultural immersion experience with a focus on global health
issues. Students will be introduced to Costa Rican culture and will practice Spanish language skills with particular attention to health care related content. Students will observe the delivery of health care in various Costa Rican clinical settings. As part of the cultural immersion, students will live with a Costa Rican host family. Students will have opportunities to apply transcultural nursing theories; psychosocial concepts; and nursing, biological, and public health knowledge as it relates to the Costa Rican health care environment. Pre- or corequisites: NRS 303, NRS 310 and NYS RN License and permission.

NRS 319 - Nursing in the Information Age (3) (RNL)

3 hours; 3 credits. This course provides an overview of the significance of the nursing role of integrating the data, information, and knowledge required for evidenced based nursing practice, administration, education, and research. Topics will focus on the role of the nurse in managing the collection and handling of sensitive client data, including ensuring accuracy in collection, confidentiality, and security. Nursing documentation to accurately reflect quality, safe nursing assessments, nursing interventions, planning, nurse resource use, and client outcomes will be examined. The nursing role in system change, selection, and evaluation of clinical health information systems will be explored. Ethical, legal, and social issues and trends relative to information technology, electronic health record, communications, and culturally competent nursing care of the individual, family and community will be discussed. Pre- or corequisites: NRS 303, NRS 310.

NRS 320 - Health Assessment and Physical Examination (3) (RNL)

2 lecture hours, 2 laboratory hours; 3 credits. The skills and techniques to perform culturally competent comprehensive health assessment and physical examination for generalist-nursing practice are refined. Nursing assessments of normal health parameters serve to differentiate the health patterns of culturally diverse individuals across the life span. Communication strategies, health histories, data from interviews, and case studies will be critically analyzed for the significance of the nursing role of integrating the data, information, and knowledge required for evidenced based research. Emphasis will be on culturally competent clinical nursing research including both quantitative and qualitative designs used with individual, family, and community samples. Prerequisites: NRS 303, NRS 310. Pre- or corequisite: MTH 113.

NRS 323 - Health Care Needs of Vulnerable Populations (3) (RNL)

3 hours; 3 credits. An exploration of the concept of vulnerability and its effect on health care needs. The physical, psychological, sociological, political, and economic factors that predispose individuals, families, and communities to vulnerability are investigated. The development of quality, safe, evidence-based interventions that break the cycle of vulnerability are determined. Students use a variety of technological modalities in the exploration of vulnerable groups and program development to meet the needs of the vulnerable. Pre- or corequisites: NRS 303, NRS 310.

NRS 324 - Nursing Care of Older Adults (3) (RNL)

3 hours; 3 credits. Provides the student with a foundation for culturally competent gerontological nursing practice. This course examines, from a holistic perspective, varied health care concerns of older adults. The physical, psychosocial, socioeconomic, family and community implications will be examined. Through this course, students develop knowledge and awareness of the spectrum of factors that can impact on care of the older adult across various health care settings and in the community. The development of strategies and interventions of health promotion and maintenance to improve wellness in older adults is emphasized. Pre- or corequisites: NRS 303, NRS 310.

NRS 325 - Nursing Care at the End of Life (3) (RNL)

3 hours; 3 credits. Explores evidence-based care of individuals and families at the end of life. Quality and safety issues are addressed in providing holistic care in assessing, planning, and meeting the physical, cultural, social, and spiritual needs of the dying patient and their families. As a member of the multidisciplinary team, collaboration, and communication are identified to reduce the burden and distress of those facing life's end. Pre- or corequisites: NRS 303, NRS 310.

NRS 410 - Community Health Nursing (6) (RNL)

3 class hours, 6 laboratory hours; 6 credits. Nursing, public health theories and evidence based research are integrated to provide students with knowledge for culturally competent nursing care of individuals, families, and communities. Safe and quality nursing care of populations are emphasized related to health promotion, health protection and disease management. Professional nursing care is developed through communication skills in mutual collaboration with consumers and interdisciplinary teams. Pre- or corequisite:
BIO 382, NRS 310, NRS 303, NRS 320, Matriculated in RN to BS program and New York State RN license.

**NRS 411 - Leadership and Management in Nursing (6) (RNL)**

3 hours lecture/week, 6 hours clinical/week; 6 credits. Nursing, leadership, and management theories are discussed and analyzed in relation to their influence on care of diverse individuals, families, and communities in the practice setting. Nursing leadership and management roles and responsibilities are discussed as they apply to individuals, staff, and organizations. Conceptual themes of critical thinking, decision making, and therapeutic nursing interventions in relation to quality improvement initiatives are integrated throughout the course. Evidence-based practice and research findings are examined for their relevance in refining and extending the role of leader in professional nursing practice. Prerequisite: NRS 303, NRS 310, and NYS RN License. Corequisite: NRS 321.

**NRS 421 - Nursing in Critical Illness (3) (RNL)**

3 hours; 3 credits. This course focuses on the roles of professional nurses in the specialty of critical care nursing in the delivery of quality and safe culturally competent nursing care of the individual patient and communities with critical illness. It explores advances in nursing in a rapidly changing health care system, where critically ill patients are in a variety of settings. Emphasis is on nursing research and evidence based practice, as well as technological developments. Students use technology and evidence-based research in the implementation of an educational project incorporating best clinical practices geared towards the patient or nursing personnel population. Pre- or corequisite: NRS 320, NRS 321, BIO 382.

**NRS 423 - Issues in Health Care and Professional Nursing (3) (RNL)**

3 hours; 3 credits. Current issues in health care and nursing are discussed and analyzed in relation to their influence on culturally competent care of individuals, families, and communities. Pro and con positions are addressed through discussions, papers, and other teaching-learning activities and technologies aimed at enhancing quality and safe care. Individual, group, and political strategies to negotiate and effect change are outlined and demonstrated. Critical appraisal of research, theories, historical and current events, ethical and legal guidelines, professional associations, networking, mentoring, and other resources to promote cultural competence in the diverse workplace and advance the nursing profession are explored. This course should be taken in the student's last semester of the BS degree program in Nursing. Pre- or corequisites: NRS 410 and NRS 411.

**PED - Physical Education**

**PED 190 - Fitness for Life (1) (RNL)**

2 hours; 1 credit. This course is designed to inform students about current issues and practices in fitness and wellness. It combines theory and practice in lectures and physical activities to enable students to plan for a healthy independent future. Prerequisite: Current medical examination on file with the Health and Wellness Center.

**PHL - Philosophy**

**PHL 100 - Introduction to Logic and Science (3) (FSWR)**

3 hours; 3 credits. Identification and critical evaluation of arguments in philosophical, scientific, and ordinary contexts from a logical point of view. They will do so by learning about various kinds of arguments (deductive, inductive, abductive, deductive-hypothetico, etc.), the logical principles which underlie good arguments, the logical fallacies which render arguments defective, and more. They will learn about these things both directly (through examination and discussion of a logic textbook) and indirectly (through examination and discussion of philosophical, scientific, and other works which may be evaluated from a logical point of view). (FSWR) NOTE: PHL 100 can be used to satisfy the sixth area of the Flexible Core.

**PHL 101 - Introduction to Philosophy (3) (FISR)**

3 hours; 3 credits. A study of those systems of Western thought that have had the greatest effect and that have best illuminated the central problems of human existence. (FISR).

**PHL 130 - Introduction to Ethics (3) (FISR)**

3 hours; 3 credits. Social and individual conduct in the light of important ethical theories of Western civilization. Topics include the meaning of good and evil, the meaning of right and wrong, free will, and the validity of ethical judgment. (social scientific analysis) (FISR).

**PHL 204 - American Political and Legal Thought (4) (RLA)**

(Also POL 204). 4 hours; 4 credits. A study of the political ideology dominating several periods of American history, including the Puritan, revolutionary, pre-Civil War, populist, and New Deal eras. Analysis of the writing of at least one current theorist and one major legal philosopher. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

Crosslisted as: POL 204.
PHL 210 - American Philosophy (4) (RLA)
(Also AMS 210). 4 hours; 4 credits. A study of philosophy in America. Topics of inquiry will be selected from such movements and figures as the following: Puritanism, empiricism, idealism, and pragmatism; Jonathan Edwards, Ralph Waldo Emerson, Josiah Royce, Charles S. Peirce, William James, John Dewey, George Santayana, and Alfred North Whitehead. (social science). Prerequisites: ENG 111, COR 100. Please Note: this course satisfies the college option.

Crosslisted as: AMS 210.

PHL 213 - Existentialism (4) (RLA)
4 hours; 4 credits. Major figures and directions in existential philosophy will be studied, including such figures as Kierkegaard, Nietzsche, Heidegger, Sartre, Camus, and Ricoeur. Existential philosophy will be considered both as a reaction against rationalist and positivist thought and as a new attempt to examine and define human values. The course will pay some attention to related developments in religion and psychology. (social science). Prerequisites: A 100-level course in philosophy or sophomore standing; ENG 111, COR 100. Please Note: This course satisfies the college option.

PHL 215 - Philosophy of Sport (4) (RLA)
4 hours; 4 credits. Introduction to philosophical issues surrounding the playing, watching and production of sport. Topics include the problem of defining 'sport', the impact of sport on society and individuals, the value of sportsmanship, drug use in sport, and how to assess the life of the sports fan. Prerequisites: (A 100-level philosophy course in philosophy or sophomore standing), ENG 111, COR 100.

PHL 216 - Ideas and the World: 600 BCE to 1600 CE (4) (RLA)
4 hours; 4 credits. The development of philosophy from pre-Socratic times through the 16th century. Emphasis on the dialogues of Plato and the writings of Aristotle with attention to such other thinkers as Epicurus, Marcus Aurelius, Plotinus, Augustine, and Aquinas. (social science). Prerequisites: (A 100-level course in philosophy or sophomore standing), ENG 111, COR 100. Please Note: This course satisfies the college option.

PHL 217 - Ideas and the World: 1600 to the Present (4) (RLA)
4 hours; 4 credits. The development of philosophy from the beginning of the 17th century to the present through the study of philosophical texts. Readings will be drawn from such authors as Descartes, Hume, Kant, Marx, Mill, Nietzsche, Dostoyevsky, and Ayer. (social science). Prerequisites: (A 100-level course in philosophy or sophomore standing), ENG 111, COR 100. Please Note: This course satisfies the college option.

PHL 218 - Major Philosopher I (4) (RLA)
4 hours; 4 credits. This course will focus on a particular philosopher. It will cover the life, the main theories and ideas, the main contributions, and the main problems and difficulties. Philosophers will be chosen from all periods of philosophy (ancient, medieval, modern) and from all cultures (American, European, Asian, Islamic, African, etc.). Typical assignments will be quizzes on the philosopher's life and ideas, and on logical analysis; three or four analytical papers; final examination. The course is open to majors and non-majors. Prerequisites: ENG 111 and COR 100.

PHL 219 - Major Philosopher II (4) (RLA)
4 hours; 4 credits. Intensive study of the work of a major philosopher. Prerequisites: ENG 111 and COR 100.

PHL 220 - Experience and Knowledge (4) (RLA)
4 hours; 4 credits. A study of various theories of knowledge and of the relation of experience to knowledge. Inquiry will include such topics as experience and nature, knowledge and belief, perception, memory and the past, meaning and meaningfulness, thought and feeling, and observation in the natural and social sciences. (social science). Prerequisites: A 100-level course in philosophy or sophomore standing; ENG 111, COR 100. Please Note: This course satisfies the college option.

PHL 221 - Logic and Scientific Method (4) (RLA)
4 hours; 4 credits. An analysis of the pitfalls of language, and an investigation into the formal structure and methodology of deductive and empirical sciences. (social science). Prerequisites: A 100-level course in philosophy or sophomore standing; ENG 111, COR 100. Please Note: This course satisfies the college option.

PHL 222 - Selected Issues in Metaphysics (4) (RLA)
4 hours; 4 credits. This course will explore different types of philosophical argument with the aim of developing the student's capacity for critical thought. Important texts from the history of philosophy will be analyzed in class discussions and essays; students will also be asked to develop and to criticize arguments on the issues discussed. Emphasis will be on the methods of philosophy rather than on its history. (social science). Prerequisites: A 100-level course in philosophy or sophomore standing; ENG 111, COR 100. Please Note: This course satisfies the college option.
PHL 225 - Political Philosophy (4) (RLA)

4 hours; 4 credits. Overview of the most influential ideas in the history of political philosophy. The course will begin by examining ancient political thought and will transition up to the ideas of some contemporary political thinkers. Throughout the course, students will consider criticisms of the historical texts. Among the issues addressed are the justifications for political systems, the connection between human nature and the ideal political arrangement, and the influence that economic factors have on political structures. In the course of these investigations students will become familiar with various schools of political thought which may include social contract theory, utilitarianism, socialism, communism, libertarianism, and anarchism. (social science). Prerequisite: A 100-level course in philosophy or sophomore standing. Please Note: This course satisfies the college option.

PHL 233 - Race Discrimination: A Philosophical Analysis (4) (RLA)

4 hours; 4 credits. The fundamental nature of racism is examined by studying its meaning, causality, and "usefulness" to the individual and to society. Ethical analysis will be made, and students can choose to do research at organizations dedicated to fighting discrimination. Prerequisite: A 100-level course in philosophy or sophomore standing.

PHL 236 - Life and Death: Bioethics (4) (RLA)

4 hours; 4 credits. An examination of basic human mysteries and dilemmas including the nature of life and self-identity, the implications of death, and the complex moral issues arising from technological advances. Among topics considered are euthanasia, abortion, human experimentation, behavioral and genetic control, and the rights and responsibilities of patients and professionals. Open to all students, it will have special significance for those preparing for health care services. (social science) . Prerequisites: ENG 111, COR 100; a 100-level course in philosophy or sophomore standing. Please Note: This course satisfies the college option.

PHL 238 - Ethical Issues in Business and Society (4) (RLA)

4 hours; 4 credits. Critical examination of the economic and social responsibility of business in the U.S. and around the world; exploration of the appropriate scope of ethical involvement from points of view of management and society; the limitations of responsibility and the establishment of ethical criteria for the evaluation of business performance; the role of public policy in shaping corporate responsibility; consideration of ethical issues arising from the changing nature and implementation of computer and information technology. Prerequisites: ENG 111, (PHL 101 or PHL 130 or MGT 110 or sophomore standing).

PHL 240 - Philosophy of Religion (4) (RLA)

4 hours; 4 credits. A study of some of the classical problems in the philosophy of religion, including arguments for the existence of God, religious language, the unique features of religious experience, and the relation between reason and faith. (social science). Prerequisites: A 100-level course in philosophy or sophomore standing; ENG 111, COR 100. Please Note: This course satisfies the college option.

PHL 242 - Biblical Themes (4) (RLA)

4 hours; 4 credits. An introduction to the fundamentals of Biblical research and a close examination of selected themes in the Old and New Testaments: creation, covenant, prophetic protest, messiah, community, and the meaning and fulfillment of history. The purpose will be to gain an overall view of the Bible and to develop skills requisite to its fuller understanding. Prerequisites: ENG 111 and a 100-level course in philosophy or sophomore standing.

PHL 243 - Comparative Religion (4) (RLA)

4 hours; 4 credits. A study of the great religious systems (e.g., Hinduism, Buddhism, Confucianism, Taoism, Zoroastrianism, Judaism, Christianity, and Islam). Challenges to the life of contemporary religions, demographic patterns, ethical stands, the role of women, ecological concern, and interfaith conflict and cooperation will be explored (cont. wld.) (p&d) (TALA). Prerequisite: A 100-level course in philosophy or sophomore standing; ENG 151, COR 100. Please Note: this course satisfies the college option.
PHL 245 - Introduction to Asian Traditions (4) (RLA)
(Also EAS 245). 4 hours; 4 credits. Introduction to the philosophical texts and ideas found in the traditions of China, Japan and India. The focus is on Confucian, Daoist, Buddhist, Shinto and Samurai thought. Themes addressed include: the nature of reality and human nature, the self, knowledge, how to live well, and the good society. Where possible, comparisons will be made with classical Greek and European Enlightenment thinkers. Prerequisites: A 100-level philosophy course in philosophy or sophomore standing; ENG 111, COR 100. NOTE: This course may be used to satisfy the East Asian Studies Minor.
Crosslisted as: EAS 245.

PHL 266 - Environmental Ethics (4) (RLA)
(Also GEG 266). 4 hours; 4 credits. This course provides a critical forum to examine the roots and results of our attitudes toward the environment. How should we view the apparent connections between pollution, economic development, and poverty; what (if anything) do we owe future generations; how should we consider non-human animals in the environment; is there justice or injustice in environmental civil disobedience? The course will draw on issues related to philosophy, geography, biology, economics, geology, and political science, and will challenge the exercise of global consciousness in "real-world" terms. Prerequisites: A 100-level course in philosophy or sophomore standing; ENG 111, COR 100.
Crosslisted as: GEG 266.

PHL 307 - History of Legal Thought (4) (RLA)
(Also POL 307). 4 hours; 4 credits. An analysis of the writings of major legal philosophers from classical times to the present. Writers to be studied include Aristotle, Cicero, Aquinas, Austin, Savigny, Cardozo, and Holmes. Prerequisites: Sophomore standing and any political science or philosophy course.
Crosslisted as: POL 307.

PHL 320 - Philosophy, Religion, and Psychology (4) (RLA)
4 hours; 4 credits. A study of the common and conflicting aspects of philosophy, religion, and psychology and their assumptions and methods; the debate between science and religion; contrasting views of the human predicament, proposals for change, and their intended results. Consideration of such authors as Freud, Jung, James, Fromm, Teilhard de Chardin, Watts, Tillich, and Skinner. Prerequisite: At least one 200-level course in philosophy or permission of the department.

PHL 321 - Mathematical Logic (4) (RLA)
Crosslisted as: MTH 350.

PHL 331 - Legal Philosophy (4) (RLA)
(Also POL 330). 4 hours; 4 credits. The nature of legal principles and, in particular, their application to moral and political life. Such topics as: freedom of speech, the control of sexual behavior, the distribution of property and income, punishment, the morality of war, the choice of political means. Particular attention will be paid to the question of the extent to which the state should employ the technique of law in enforcing the community's moral and political principles. Prerequisite: At least one 200-level course in philosophy or two POL courses or permission of the department.
Crosslisted as: POL 330.

PHL 332 - Ethical Theory (4) (RLA)
4 hours; 4 credits. An examination of the two fundamental divisions of ethical theory: normative ethics and metaethics. Normative ethics is the study of what we ought to do, desire, feel, or be, either in particular cases or in general. Normative ethical questions include: Which acts are morally right/wrong and why? What kinds of persons should we be and why? Metaethics is the study of the nature and status of normative ethics. Metaethical questions include: Do objective moral truths exist? If so, what is their origin and how can we come to know them? Are there reasons beyond self-interest for being moral? Prerequisites: (PHL 101 or PHL 130) and at least one PHL 200-level course.

PHL 333 - Economics and Philosophy (4) (RLA)
(Also ECO 333). 4 hours; 4 credits. This course will cover topics that overlap in the fields of economics and philosophy. It will enlighten Economics majors about the philosophical underpinnings of economics and introduce Philosophy majors to the more "thoughtful" aspects of economics. Topics discussed will include: rational choice and ethics; social welfare; justice, efficiency, and equity; social choice; and game theory. Prerequisites: ENG 111 and any introductory-level ECO or PHL course.
Crosslisted as: ECO 333.

PHL 336 - Advanced Topics in Ethics and Social Philosophy (4) (RLA)
4 hours; 4 credits. A study of a selected issue or issues in ethics and social philosophy. The particular topic for the
semester will be announced in the Semester Information. Possible topics include physician-assisted suicide, eugenics, health care rights, welfare, and property rights. Prerequisite: At least one PHL 200-level course or permission of the department.

PHL 344 - Eastern Philosophy (4) (RLA)

(Also EAS 344) 4 hours; 4 credits. An inquiry, both theoretical and experiential, into the great philosophies of the Far East. Readings selected from the classical writings of Hinduism, Buddhism, Confucianism, and Taoism. Attention will also be paid to such modern thinkers as Gandhi and Mao Zedong. (p&d) (TALA). Prerequisite: At least one PHL 200-level course or permission of the department. NOTE: This course satisfies the college option. NOTE: This course may be used to satisfy the East Asian Studies Minor.

Crosslisted as: EAS 344.

PHL 345 - Art and Criticism (4) (RLA)

4 hours; 4 credits. A discussion of theories concerning the nature of art and of aesthetic experience; the ideas of mimesis, beauty, and expression; methods of criticism and standards of judgment in the arts; the relation of art to morals and politics. Prerequisite: At least one PHL 200-level course or permission of the department.

PHL 400 - Senior Seminar I (4) (RLA)

4 hours; 4 credits. Advanced seminar and directed study for majors. A special theme integrating coursework in the Philosophy major will be adopted each semester. In addition, students will select individual projects needed to round out their programs. The course involves research, conferences, oral reports, and a term paper presented for class discussion. Prerequisite: Twenty credits in PHL courses.

PHL 420 - Foundations of Mathematics (4) (RLA)

(Also MTH 440). 4 hours; 4 credits. Postulate systems and their interpretations; sets, groups, rings, and ordered fields; partially ordered sets and lattices; theory of cardinal and ordinal numbers; well-ordered sets and transfinite induction; Boolean rings; mathematical logic. Prerequisite: MTH 339 or MTH 350.

Crosslisted as: MTH 440.

PHL 490 - Senior Seminar in Geography, Economics, Political Science, and Philosophy (4) (RLA)

(Also, ECO 490/GEG 490/PHL 490). 4 hours; 4 credits. Selected topics in which ideas and approaches from economics, political science, philosophy, and geography either mesh or collide will be explored. Required of all students expecting to graduate with honors in Political Science, Economics, Philosophy, or Geography, but not limited to these students. Prerequisite: Senior standing and completion of at least 16 credits in intermediate and advanced social science courses and permission of the instructor.

Crosslisted as: ECO 490 and POL 490.

PHO - Photography

PHO 101 - Introduction to Photography (3) (RLA)

4 hours; 3 credits. An introduction to the practice of photography. It is an introduction to photographic seeing and the visual grammar of photography. The class combines basic design problems, exercises in seeing elements of the medium, and the history and development of photography as an art form as well as basic principles and techniques of camera, photographic materials, processes, and techniques for image processing and print production are covered. (arts & com). This course is a prerequisite for all other photography courses.

PHO 201 - Introduction to Darkroom Techniques (3) (RLA)

4 hours; 3 credits. An introduction to the practice of darkroom based black and white photography. A study of the history and development of black and white photography as an art form as well as basic principles and techniques of 35mm film camera and darkroom practice will be covered, including the use of a variety of films, developers, and papers. The course addresses mastery of materials as a creative tool. Students are required to provide a 35mm manual SLR film camera. NOTE: Student must demonstrate through a portfolio a good understanding about the basics of camera techniques. Prerequisite: PHO 101.

PHO 206 - Digital Photography (3) (RNL)

4 hours; 3 credits. An introduction to digital photography including principles and techniques of a Digital Single-Lens Reflex (DSLR) camera, color management, types of paper, monitor profiling and image enhancement techniques in relation to input and output are discussed and demonstrated. The class will cover fundamentals of image editing, including RAW conversion, localized adjustments, and color to black-and-white conversions, as well as printer profiles, driver settings, and soft-proofing. Through demonstrations and hands-on sessions, students will learn the basics of using DSLR cameras and imaging software on a Macintosh computer to produce digital photographs. Prerequisite: PHO 101.

PHO 215 - Historical & Alternative Photographic Processes (4) (RNL)

4 hours; 4 credits. Exploration and practice of historic and new methods and materials beyond the standard silver gelatin print. Students will learn to make pinhole cameras,
paper negatives, wet-collodion negatives & ambrotypes, digital negatives for contact printing and different hand-coated printing processes. These practices will be put in historical and contemporary contexts by the introduction of different photographic movements, historical events, and through looking at the work of photographers using the processes. Prerequisites: PHO 101 and 201.

PHO 220 - Intermediate Photography (3) (RNL)
4 hours; 3 credits. The course combines an emphasis on interpretive camera and darkroom techniques with a thoughtful approach to the making of a photograph. Development of visual perception and individual style are emphasized. Included are fiber-based paper printing, toning, bleaching, pushed film processing, selective contrast, and an introduction to color. Prerequisites: PHO 101 and PHO 201.

PHO 230 - Color Photography (3) (RNL)
4 hours; 3 credits. An introduction to expressive color photography, exploring the technical, conceptual, and aesthetic uses of color photography. This class provides an in-depth study of the dynamics of color as a creative tool. Projects will explore the creative and technical possibilities of color film, and introduces students to computer tools that manipulate and enhance photographic images. Students will learn the skills to retouch and enhance these images from varied sources in order to create high-quality digital outputs. Assignments are designed to help master basic techniques and expand the photographer's creative horizons. Prerequisites: PHO 101 and PHO 201.

PHO 235 - Fashion Photography (3) (RLA)
4 hours; 3 credits. An examination of the aesthetic and technical strategies of editorial fashion photography, ranging from glamour to magazine work to advertising campaigns. Students will develop and execute complex photographic strategies, creating a portfolio of images for editorial stories. The course uses a teamwork-based studio practice, with students playing the roles of photographer, art director, photo editor, and photo stylist, as well as making work on their own. The course will teach the practice of editorial fashion photography via a critical and theoretical analysis of its history, with an emphasis on its intersection with fine art photography. Prerequisites: PHO 101 and PHO 201.

PHO 240 - Documentary Methods in Photography (3) (RNL)
4 hours; 3 credits. An in-depth study of approaches and styles of documentary photography, and the concepts of narrative, sequence, story, and series, and their journalistic and artistic applications. An examination of how other photographers have employed these conventions in their work will be explored. Students will develop a body of work based on what they have learned. Prerequisites: PHO 101 and PHO 201.

PHO 250 - Studio Photography I (3) (RNL)
4 hours; 3 credits. Photography studio techniques. Students will work both in large and small formats, utilizing tungsten and studio strobe lighting. Techniques of still life, portraiture, fashion, and figure photography will be stressed. Prerequisite: PHO 201.

PHO 307 - Fine Art Digital Printing (3) (RNL)
4 hours; 3 credits. To further the understanding and control of digital color in making high quality fine art prints. Making exhibition-quality digital prints takes time and expertise. Students learn ways to bring out detail and fine-tune color and contrast in specific areas of an image to improve its overall quality. Topics include masking techniques, blending mode options, advanced sharpening techniques, noise reduction methods, and various means of retouching. A hands-on interactive approach with shared print production and class critiques will enable students to build a final portfolio that is both aesthetically and technically cohesive. This class will introduce large-scale printing. We recommend that students take PHO 205 or PHO 230 prior to enrolling. Prerequisites: PHO 101 and PHO 201.

PHO 314 - Contemporary Issues in Photography (4) (RNL)
(Also ART 314). 4 hours; 4 credits. This course will investigate contemporary issues in photography from aesthetic, art historical, and philosophical perspectives. It will be team-taught by an art historian and photographer. Students are strongly advised to take ART 303 prior to enrolling. Prerequisites: (ART 100 or ART 200 or ART 201 or PHO 220) and ENG 151.
Crosslisted as: Art 314.

PHO 315 - Visiting Artist Workshop (3) (RNL)
4 hours; 3 credits. This course will consist of three individual workshops with fine arts photographers who will each teach a four-to-five week segment. Students will get acquainted with their work and have the opportunity to have in-depth discussions with the artists about their motivation, research, procedure, and execution processes used in creating their respective bodies of work. Students will be introduced to specific technical processes, readings, and theoretical concepts that each artist considers fundamental to his/her work process. Each workshop will conclude with a visual assignment that addresses the specific issues and techniques discussed. This course may be repeated for credit. Prerequisites: PHO 201 and PHO 220.
PHO 320 - The Photographic Portfolio (3) (RNL)
4 hours; 3 credits. Goals and marketing for photography. The definition and preparation of a personal photographic portfolio. A survey of ideas leading to a photographic direction, and the techniques necessary to realize the portfolio needed to pursue that direction. This course may be repeated for credit. Prerequisite: Any 200-level PHO course or permission of the instructor.

PHO 360 - Studio Photography II (3) (RNL)
4 hours; 3 credits. Methodology of producing pictures under totally controlled conditions. Lighting and camera techniques for portraiture, still life, and illustrations will be stressed. Both artistic concerns and professional studio practices are covered. Prerequisite: PHO 250 or permission of the instructor.

PHO 365 - Conceptual and Aesthetic Concerns of Image Making - Photography III (4) (RLA)
4 hours; 4 credits. An appreciation of the intellectual bases of photographic works and their theoretical ramifications. Furthermore, it will expand the student's critical and aesthetic understanding of the photographic image beyond the standard silver gelatin print. The course shall provide students with the intellectual tools to develop their own individual work and to critically determine if they have done so in a meaningful and substantial manner. Students will study a spectrum of motivations and expressions that exist in the field of photography and apply the gained knowledge to their work. Prerequisites: PHO 201 and any other 200-level PHO course.

PHY - Physics

PHY 102 - Sound and Light (4) (RLA)
3 class hours, 2 laboratory hours; 4 credits. Study of sources, transmission, and reception of sound and light. Application to music, art, and photography. Topics to be discussed will include the general nature of waves, optical and musical instruments, pigments, physics of seeing and hearing, and other related subjects. (scientific analysis). Prerequisite: MTH 015 or MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test.

PHY 103 - Matter and Antimatter (4) (RLA)
3 class hours, 2 laboratory hours; 4 credits. A study of the elementary particles in the universe. Interactions, symmetries, accelerators, and cosmic rays. Designed for non-science students. (scientific analysis). Prerequisite: MTH 015 or MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test.

PHY 105 - Galileo to Newton and Beyond (4) (RLA)
3 class hours, 2 laboratory hours; 4 credits. A presentation of traditional physics that considers its historical development. The coverage of topics is traditional: mechanics, fluids, and heat; taking into account the innovative contributions of the major figures in physics. Readings in the original literature in English translation will be required. (scientific analysis). Prerequisites: MTH 015 or MTH 020 or an appropriate score on the CUNY Assessment Test in Mathematics, Reading and Writing.

PHY 107 - Maxwell to Einstein and Beyond (3) (FSWR)
3 hours; 3 credits. A presentation of traditional physics that takes into account its historical development. The coverage of topics is traditional: electricity and magnetism; waves, light, and modern physics; taking into account the innovative contributions of the major figures in these areas of physics. (scientific analysis) (FSWR). Prerequisite: MTH 030 or higher or an appropriate score on the CUNY Assessment Test in Mathematics.

PHY 110 - College Physics I (3) (RLA)
3 hours; 3 credits. Non-calculus physics for technology students. Units, vectors, uniformly accelerated motion; forces, equilibrium, Newton's laws and applications; work energy, conservation laws, circular motion; temperature, expansion, heat capacity, thermal properties. (scientific analysis). Pre- or corequisite: MTH 123 or Mathematics Department Examination. Corequisite: PHY 111.

PHY 111 - College Physics I Laboratory (1) (RLA)
2 laboratory hours; 1 credit. Measurement, density, pendulum, vectors, free fall, projectiles acceleration, friction, Newton's laws, circular motion, collisions, energy, rigid body. (scientific analysis). Corequisite: PHY 110.

PHY 114 - Introduction to Physics (4) (RLPR)
2 laboratory hours, 3 class hours; 4 credits. A quantitative survey of physics with emphasis on the scientific method. Topics covered are motion, energy, temperature and heat; electricity and magnetism, light, sound, atomic structure, and nuclear radiation. Not intended for physical science majors. (scientific analysis) (RLPR) (STEM) Prerequisite: MTH 015 or MTH 020 or an appropriate score on the CUNY Mathematics Assessment Test or MTH 108.

PHY 116 - Physics I (4) (RLPR)
3 class hours, 2 laboratory hours; 4 credits. Intended for Biology and Health Science majors. Weight, balance; forces and torques exerted by muscles; introduction to motion and fluid flow; conservation of energy in animate and inanimate systems; energy consumption and metabolism; heat, gravitation, molecular potential energies; energy levels and transitions; binding and dissociation in large and small
systems; free energy in chemistry and biology. Articulated experiments include mechanical systems simulating forces and torques in the human arm, energy conversion such as electrical energy to heat. (scientific analysis) (RLPR) (STEM). Prerequisite: MTH 123.

**PHY 120 - General Physics I (3) (RLPR)**

4 hours; 3 credits. Calculus-based physics for Science and Engineering majors. Vectors, forces, kinematics, Newton's laws and applications, particle dynamics, work, energy, conservation laws, collisions, rotational dynamics, ideal gas, thermal properties, heat transfer, thermodynamics. (scientific analysis) (RLPR) (STEM). Pre- or corequisites: (MTH 230 or MTH 231 or MTH 235) and PHY 121.

**PHY 121 - General Physics I Laboratory (1) (RLA)**

2 laboratory hours; 1 credit. Measurement, pendulum, gravity, projectiles, force equilibrium, acceleration, friction, energy, collisions, centripetal force, calorimetry, Boyle's law. (scientific analysis) (COPR). Corequisite: PHY 120.

**PHY 153 - Waves, Optics, and Modern Physics (4) (RLA)**

3 class hours, 2 laboratory hours; 4 credits. Non-calculus physics for electrical technology students. Simple harmonic motion, wave motion, sound, light, optics, electric and magnetic fields, atomic and nuclear physics. (scientific analysis). Prerequisite: PHY 110.

**PHY 156 - Physics II (4) (FSWR)**

3 class hours, 2 laboratory hours; 4 credits. Continuation of PHY 116 for students requiring one year of physics. Extension of the energy concept to atoms and electricity; nuclear energy and radioactivity; electricity as energy and information transfer in animate and inanimate systems; magnetism; mass spectroscopy and its uses; light, with applications to the eye, the camera, microscopes, fiber-optical diagnostic instruments, and spectroscopy. Articulated experiments include optics, optical and mass spectroscopy, electricity, heat, instrumentation. (scientific analysis) (FSWR) (STEM). Prerequisite: PHY 116.

**PHY 160 - General Physics II (3) (FSWR)**

4 hours; 3 credits. Calculus-based physics for Science and Engineering majors. Electrostatics, potential, Ohm's law, resistance, capacitance, RC circuits, magnetism, induction, waves, and geometric optics. (scientific analysis) (FSWR) (STEM) Prerequisite: PHY 120. Corequisites: MTH 232 or MTH 236, and PHY 161.

**PHY 161 - General Physics II Laboratory (1) (RLA)**

2 laboratory hours; 1 credit. Millikan experiment, electric fields, capacitance, Ohm's law, Wheatstone bridge, DC circuits, meters, RC circuits, electron beams, CRO, AC circuits, standing waves, spectroscope. (scientific analysis) (COPR). Corequisite: PHY 160.

**PHY 206 - Nature of Physical Processes (4) (RLA)**

(Also SLS 261). 3 class hours, 2 laboratory hours; 4 credits. A culturally oriented course and associated laboratory for liberal arts students who seek to deepen their understanding and appreciation of the style and status of modern physical inquiry. Topics will be drawn from Newtonian mechanics, quantum theory, relativity, and nuclear physics. Prerequisites: A minimum GPA of 3.0; MTH 030 or an appropriate score on the Mathematics Department Placement Examination; and at least one Scientific Analysis course other than ELT, MET, or SCI courses. Crosslisted as: SLS 261.

**PHY 230 - Physics for Engineers (4) (RLA)**

6 hours; 4 credits. A review of the natural laws necessary for the understanding of engineering and applied problems. Included will be topics in classical mechanics, electricity and magnetism, and wave motion. Prerequisite: PHY 150 or equivalent. Corequisite: ENS 200 or equivalent.

**PHY 240 - Waves and Modern Physics (3) (FSWR)**

4 hours; 3 credits. Calculus-based physics for engineering and physical science majors. Wave mechanics, electromagnetic spectrum, radiation, photoelectric and Compton effects, spectra. Introductory quantum mechanics, harmonic oscillator, hydrogen atom, many-electron atoms, binding and energy bands in solids. Prerequisite: PHY 160 or 230. Pre- or corequisite: MTH 330.

**PHY 250 - Engineering Mechanics (3) (FSWR)**

(Also ENS 250). 3 hours; 3 credits. Three-dimensional vector algebra, equilibrium of force systems, static structures. Kinematics and dynamics of a particle; kinematics and dynamics of rigid bodies. Work, conservation of energy and momentum. Engineering applications of mechanics. (FSWR) (STEM) Prerequisites: PHY 120 and 121 or PHY 230. Pre- or corequisites: MTH 233 or MTH 236.

Crosslisted as: ENS 250.

**PHY 309 - Basic Measurements Laboratory (2) (RNL)**

(Also ENS 249). 4 laboratory hours; 2 credits. Basic instrumentation and precise measurements in engineering applications. Design, construction, testing, and analysis of simple analog systems using the circuit design tools and simulation software. Comparison of measured data to simulated data and reconciliation of discrepancies is emphasized. (Non-liberal arts and sciences). Prerequisite: ENS 241 and ENG 111

Crosslisted as: ENS 249.
PHY 310 - Thermodynamics (4) (RLA)
(Also ENS 310). 4 hours; 4 credits. Basic concepts: systems, temperature, work, and heat. First and second laws of thermodynamics. Entropy, vapor, and gas power systems. Refrigeration and heat pump systems. Nonreacting gas mixtures and psychrometrics. Prerequisite: PHY 160 or PHY 230. Pre- or corequisite: MTH 233 or MTH 236.
Crosslisted as: ENS 310.

PHY 312 - Nuclear Physics (4) (RLA)
4 hours; 4 credits. Nuclear force, nuclear structure, applications of special relativity, nuclear reactions, radioactive decay. Prerequisite: PHY 240.

PHY 313 - Computational Physics (4) (RLA)
(Also CHM 313) 4 hours; 4 credits. This upper division course is aimed to provide training in computational modeling, data analysis and computational thinking to well-motivated undergraduates in physics, chemistry/biochemistry, engineering and math. In addition, students will be given assignments/projects, which will be completed using the HPC facility. Prerequisite: PHY 240 and MTH 311 or MTH 331 or permission of the instructor.
Crosslisted as: CHM 313.

PHY 315 - Advanced Physics Laboratory (2) (RLA)
4 laboratory hours; 2 credits. Experiments in atomic absorption spectroscopy, fluids, mechanics, microwaves, optics, semiconductors, statistical physics, and turbulence. Prerequisite: PHY 309.

PHY 316 - Dynamics (4) (RLA)
Crosslisted as: ENS 316.

PHY 318 - The Scientific Revolution (4) (RLA)
4 hours; 4 credits. The history of physics from Galileo to Newton. Readings and study in the original literature. Prerequisite: MTH 233 or MTH 236.

PHY 350 - Transport Processes (4) (RLA)
(Also ENS 350). 4 hours; 4 credits. Introduction to momentum, heat, and mass transfer. Introduction to continuous media, control volume formulation of conservation laws, momentum and energy consideration of fluid flow, heat transfer by conduction and radiation, mass diffusion, analogies and breakdown of analogies among momentum, heat, and mass transfer. Prerequisites: PHY 310 and CSC 126. Pre- or corequisite: MTH 330.
Crosslisted as: ENS 350.

PHY 356 - Theory of Electromagnetic Radiation (4) (RLA)
(Also ENS 356). 4 hours; 4 credits. This course is designed to give the student an understanding of the way in which electromagnetic waves are produced, propagated, scattered, and absorbed. Building on the knowledge obtained from an introductory treatment of electromagnetism, students proceed to a study of the Maxwell equations in differential form, of wave equation, energy transfer, and the behavior of waves at metallic and dielectric surfaces. Production of radiation by dipoles and its absorption. Antennas, wave guides, and other applications. Prerequisites: PHY 160 and CSC 270. Pre- or corequisite: MTH 330.
Crosslisted as: ENS 356.

PHY 360 - Relativity (4) (RLA)
4 hours; 4 credits. The principle of relativity, the Michelson-Morley experiment, the relativity of simultaneity, the relativity of length and time, the Lorentz transformation, relativistic momentum and energy, relativistic mechanics, relativistic electromagnetism, general relativity. Prerequisite: PHY 240.

PHY 365 - Optics (4) (RLA)
4 hours; 4 credits. Applications of Maxwell's equations, polarization, Fresnel equations, Fermat's principle, interaction of light with matter, nonlinear optical phenomena. Prerequisite: PHY 240.

PHY 381 - History of Modern Physics (4) (RLA)
4 hours; 4 credits. The history of modern physics. Selected topics from relativity, quantum theory, nuclear physics, solid state physics, and particle physics. Readings in the original literature. Pre- or corequisite: PHY 240.

PHY 383 - Electrical Properties of Materials (3) (RLA)
(Also ENS 383). 3 hours; 3 credits. Electrons in atoms, electrons in crystals, contacts between materials and p-n junctions, bipolar transistors, optoelectronic devices, field-effect transistors, charge transfer devices, integrated circuits, solid state lasers. Photo cells and LEDs. Prerequisites: PHY 240 and CSC 270.
Crosslisted as: ENS 383.

PHY 384 - Mechanical Properties of Materials (3) (RLA)
(Also ENS 384). 3 hours; 3 credits. Structure of crystalline and noncrystalline solids. Phase transformations.
Courses | 337

Thermodynamics of multicomponent systems, surfaces, reaction rates, diffusion, and structural change. Mechanical properties, plasticity, strengthening. Ceramics and polymers, electronic and optical properties, thermoelectricity, magnetism. Prerequisites: PHY 310 and CSC 270.

Crosslisted as: ENS 384.

**PHY 425 - Astrophysics (4) (RLA)**

4 hours; 4 credits. Applications of the major areas of physics in space-related fields. Random processes-the Boltzman and Saha equations and thermodynamic applications; relativistic effects-Poynting-Robertson drag and synchrotron radiation; Electromagnetic-Faraday rotation, plasmas, and Compton effect; Quantum-Ionized hydrogen spectra, cosmic masers, radiative transfer in stellar atmospheres. Prerequisites: PHY 310, PHY 316 and PHY 356.

**PHY 442 - Quantum Mechanics (4) (RLA)**

4 hours; 4 credits. Schrodinger equation, solutions to barrier and well potentials, quantum harmonic oscillator, angular momentum and spin, perturbation theory, atomic structure and transitions. Prerequisite: PHY 240.

**PHY 443 - Applied Quantum Physics (4) (RLA)**

4 hours; 4 credits. A continuation of PHY 442. Applications of quantum mechanics in modern technology will be studied quantitatively. Prerequisite: PHY 442.

**PHY 450 - Fluid Mechanics (4) (RLA)**

(Also ENS 450). 4 hours; 4 credits. Fluid properties, fluid statics, buoyancy and stability, fluids in rigid-body motion. Basic fluid equations in differential and integral form, Navier-Stokes equation. Euler equation, Bernoulli equation, and engineering applications. Dimensional analysis and similitude. Internal incompressible viscous flow and flow measurement. Prerequisite: PHY 310. Pre- or corequisite: MTH 330.

Crosslisted as: ENS 450.

**PHY 463 - Introduction to Nanotechnology (4) (RNL)**

(Also ENS 463). 2 class hours, 4 laboratory hours; 4 credits. This is an introductory course on nanotechnology. It covers the physical basics of submicron- and nano-size structures, methods, and materials of nanotechnology; characterization of nanostructures; and their industrial applications. The course covers (i) mechanical, electronic, and optical properties of nanoscopic systems; (ii) engineering approaches in nano-electro-mechanics, nanoelectronics, and nanophotonics; (iii) practical computer simulation and design of nanodevices; (iv) practical nanofabrication of rudimentary nanodevices with focused ion beams. Prerequisite: (ENS 485 or PHY 485).

Crosslisted as: ENS 463.

**PHY 485 - Properties of Materials (4) (RNL)**

Crosslisted as: ENS 485.

**POL - Political Science**

**POL 100 - American Government and Politics (3) (FUSR)**

3 hours; 3 credits. A study of the structure and operations of the U.S. political system, the process of its evolution, the philosophical principles and theories on which it rests, the social pressures and forces operating on it. Not open to students who have taken POL/SLS 235. (FUSR).

**POL 103 - Understanding the Political World: An Introduction to Political Science (3) (FWGR)**

3 hours; 3 credits. An introduction to the world of politics and the fundamentals of political science. Major topics: the basics of politics: power, government, nation, state; forms of political behavior from democratic participation to revolutionary violence; political ideas and norms; varieties of democratic and non-democratic forms of government; politics and society; the global context of politics. (FWGR).

**POL 198 - Tools of the Trade: The Art and Science of Political Research (4) (RLA)**

4 hours; 4 credits. An introduction to the social-scientific study of political phenomena. What tools and techniques do political scientists and analysts use to create knowledge? How should political arguments and data encountered in newspapers, policy reports and journal articles be evaluated? Topics include the logic of the scientific method, research design, measurement of political concepts, research methods, data collection, case-study design and selection, statistical techniques for describing date, statistical inference, survey research and qualitative research procedures. Criteria for evaluating sources and arguments in political research considered. Prerequisites: (POL 100 or POL 103) and (MTH 020 or higher, or an appropriate score on the CUNY Math Assessment Test).
POL 201 - Early Western Political Theory (4) (RLA)
4 hours; 4 credits. Analysis of major ideas and concepts of Western political theory from the Greeks to Hobbes. Such questions as the ends of politics, the nature of citizenship, the extent and limits of political obligation, and the relationship between rulers and the ruled will be discussed. (social science). NOTE: This course satisfies the college option. Prerequisites: ENG 111, COR 100.

POL 202 - Modern Western Political Theory (4) (RLA)
4 hours; 4 credits. The development of modern theories of the state, with emphasis on democracy and theories of representation, the forces underlying political change and revolution, and the growth of "collectivism." Such authors as Locke, Rousseau, Hegel, Mill, and Marx will be read. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

POL 204 - American Political and Legal Thought (4) (RLA)
(Also PHL 204). 4 hours; 4 credits. A study of the political ideology dominating several periods of U.S. history, including the Puritan, revolutionary, pre-Civil War, populist, and New Deal eras. Analysis of the writing of at least one current theorist and one major legal philosopher. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

POL 218 - Politics and the Novel (4) (RLA)
4 hours; 4 credits. An analysis of a number of 19th- and 20th-century novels dealing with the relationship of the individual to the political world. Writers such as Conrad, Stendhal, Malraux, and Mailer will be read and discussed. Prerequisites: ENG 111, COR 100.

POL 219 - Politics, Cinema, Media (4) (RLA)
(Also CIN 204). 4 hours; 4 credits. Analyzes political and social aspects of cinema and media within historical and contemporary contexts. Possible topics include race, class, gender, ethnicity, globalization, colonialism, imperialism, and nationalism and its discontents, as they relate to cinema and the media. (arts & com.) (social science) (TALA). Prerequisites: ENG 111, COR 100. Please note: This course satisfies the college option.

POL 221 - The American Presidency (4) (RLA)
4 hours; 4 credits. A study of the executive branch of the federal government, including the U.S. presidency. The President's relations with Congress, political parties, and the cabinet. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

POL 222 - The American Legal System (4) (RLA)
4 hours; 4 credits. The role of law and the courts in U.S. society and the historical background and philosophical principles upon which the U.S. legal system is based. Examination of the powers and workings of courts, how judges and lawyers act, and how U.S. citizens are affected by the legal system. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

POL 223 - Public Administration (4) (RLA)
(Also MGT 223). 4 hours; 4 credits. Examination of the concepts in the execution of public policy. Relationships of administrative process to the executive, legislative bodies, the public, special interest groups, the clientele, and the courts. Considers personnel administration and administrative law and regulation. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

POL 225 - Congressional Politics (4) (RLA)
4 hours; 4 credits. The process and politics by which Congress makes policy in competition with the President and in response to interest groups and constituents. Policy struggle on urban issues will be emphasized. Prerequisites: ENG 111 and (POL 100 or POL 103)

POL 227 - Political Parties, Elections, and Interest Groups (4) (RLA)
4 hours; 4 credits. The role and significance of political parties and interest groups in the U.S. political process; the development, organization functions, the finances of U.S. political parties; campaigning and voting behavior, and the goals and techniques of the major formal and informal pressure groups that influence public policy in the United States. Prerequisites: ENG 111, COR 100.

POL 231 - City Hall and Albany (4) (RLA)
4 hours; 4 credits. A study of New York City's mayorality, New York State's governorship, the City and State legislatures, the interest groups and political parties to which these institutions are sometimes beholden, and the use and decline of patronage. Attention will be paid to City-State relations and to the financial problems and the racial-ethnic tensions that City and State must confront. Comparisons with other cities and states will be made. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

Distribution: N.
POL 233 - CUNY Internship Program in New York Government and Politics I (4) (RLA)
4 hours; 4 credits. A program common to all the senior colleges of The City University that involves working eight hours a week for a public official, city agency, or public service organization. In addition, all students attend four seminars a month, one at the University's graduate center and three at their own college. (social science). Prerequisites: Permission of the instructor, ENG 111, COR 100. Please Note: This course satisfies the college option.

POL 234 - CUNY Internship Program in New York Government and Politics II (4) (RLA)
4 hours; 4 credits. A continuation of POL 233. (social science). Prerequisite: POL 233. Please Note: This course satisfies the college option.

POL 235 - The American Political System (4) (RLA)
(Also SLS 235). 4 hours; 4 credits. Study of major American political institutions: the Presidency, Congress, Supreme Court, bureaucracy, and the Democratic and Republican parties. The course will emphasize the extent to which the actual workings of our political systems differ from, and are affected by, constitutional theory and legal rules and thus will discuss the impact of pressure groups and public opinion. It will also cover selected state and local political issues. (social science). Not open to students who have taken POL 100. Prerequisites: A minimum GPA of 3.0; ENG 111 and ENG 151, COR 100. Please Note: This course satisfies the college option.
Crosslisted as: SLS 235.

POL 237 - Criminal Courts and Defendants' Rights (4) (RLA)
4 hours; 4 credits. This course deals with the purposes and aims of the criminal justice and the criminal court system. It examines law enforcement arraignments and bail, the legal profession, plea bargaining, and sentencing. The structure, concepts, and theories of criminal law are studied and a comparison is made between the adversary and inquisitorial systems. Prerequisites: ENG 111, COR 100.

POL 238 - Criminal Law and Procedure (4) (RLA)
4 hours; 4 credits. An examination of the development, structure, and practice of the U.S. criminal justice system, focusing on criminal law, law enforcement, the courts and corrections. Topics include theories and explanations of criminal behavior; ethical issues confronting prosecutors, defense attorneys and judges; social problems with specific attention given to how these issues impact on the criminal justice system. Prerequisites: POL 100 and ENG 151.

POL 240 - Comparative Government (4) (RLA)
4 hours; 4 credits. An examination of contemporary political systems in the global context. Studies the nature of globalization; its effects on the nation-state; its impact on the political institutions, economic systems, and societies of the advanced liberal democracies, post-Communist, and developing nations; and the interaction between politics, economy, and society in today's interdependent world. (cont. wld.) (p&d) (social science). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

POL 241 - Western European Politics: United Kingdom, France, Italy, Germany (4) (RLA)
4 hours; 4 credits. An introduction to four Western European democracies, with the principal focus on the United Kingdom, France, Germany, and Italy. Student understanding of the democratic experience is broadened by comparing four different forms of democratic government, their relationship to market economics, their way of dealing with social diversity, their divergent solutions to social and economic problems. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

POL 246 - Nazism and The Holocaust (4) (RLA)
4 hours; 4 credits. An examination of the political, moral, and legal problems arising out of the extermination of the European Jews. The course will study the rise of Nazism, the construction of a totalitarian society, the terror apparatus, the institution of the concentration camp, and the planning and implementation of the killing process. There will be further examination of the responses of the Jews, the Allies, neutrals, and important institutions like the church and the Red Cross. At all points the question will be asked: What does this phenomenon reveal about the nature of modern society and modern politics? (social science). Prerequisites: ENG 111, COR 100; sophomore standing or permission of the instructor. Please Note: This course satisfies the college option.

POL 250 - Latin American Politics (4) (RLA)
4 hours; 4 credits. An introduction to Latin American political systems and the relationships among the region's governments and its citizens. Particular emphasis is placed on challenges to democratization, legacies of authoritarianism and dictatorship, and ethnic, linguistic and racial diversity. Prerequisites: Passing the CUNY Reading and Writing Assessment Tests.

POL 251 - International Political Economy (4) (RLA)
(Also ECO 251). 4 hours; 4 credits. This course examines the relationships among nation-states, corporations, and key international trade and financial organizations in today's
global environment. It also examines how globalization and world politics affect distribution of economic wealth and, in turn, how economic growth/changes affect world politics and the global order. (cont. wld.) (p&d). Prerequisites: At least one POL or ECO course, ENG 151, COR 100. Please note: This course satisfies the college option.

Crosslisted as: ECO 251.

**POL 252 - Middle East Politics (4) (RLA)**

4 hours; 4 credits. This course analyzes various stages of regional and international relations in the Middle East from the conclusion of World War II to the present. The course will also provide an introduction to the domestic politics of the region's most important countries, paying special attention to the religious, cultural, and ideological uniqueness of the modern Middle East. (social science) (p&d). Prerequisites: ENG 111, COR 100; sophomore standing. Please Note: This course satisfies the college option.

**POL 253 - African Politics (4) (RLA)**

(Also AAD 253). 4 hours; 4 credits. An examination of the colonial and post-colonial problems of Africa, and the developmental process in general. Other topics to be discussed include the sociopolitical and historical-philosophical appeal of communism to Africa; ideology, strategy, and the communist model of development; and the idea of revolution as an agent of rapid transformation versus the Euro-American model of evolutionary change. (p&d) (social science). Prerequisites: ENG 111, COR 100 and (ECO 101 or ECO 111 or ECO 112) or (any college level HST Course). Please Note: This course satisfies the college option.

Crosslisted as: AFA 253.

**POL 256 - East Asian Politics (4) (RLA)**

4 hours; 4 credits. This course examines the transformation of China, Japan, and other Southeast Asian countries since World War II, focusing on their historical development and more recent experiences of revolutionary turmoil. It compares the different paths to modernization taken by these countries, differences in their economic and political systems, and the economic, cultural, ideological, and political changes they have undergone in the contemporary period. Global importance and foreign policies of these countries will also be analyzed. (cont. wld.) (p&d) (social science). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

**POL 259 - International Security (4) (RLA)**

4 hours; 4 credits; This course examines conceptions of security comparing traditional and contemporary understandings of international security including human security. The course discusses the causes, conduct, and consequences of international conflict, while also recognizing other sources of insecurity such as the environment, education, and health. Topics in the course include causes of inter-state war and intra-state conflict, weapons of mass destruction, new wars, terrorism, economic security, and environmental security. The class studies these topics with reference to representative contemporary cases. (cont. wld.) (social science). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

**POL 260 - International Politics: In Search of a New World Order (4) (RLA)**

4 hours; 4 credits. An analysis of the political and economic problems of the world today. The emphasis is on current trends in international relations, problems of war and peace, globalization, and prospects for the development of a new world order or global chaos. (social science) (cont. wld.). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

**POL 261 - International Organizations (4) (RLA)**

4 hours; 4 credits. Examines how international organizations (intergovernmental, non-governmental, supranational, regional, functionally specialized) shape and are shaped by the contemporary global order. Special emphasis on the structures and functions of the United Nations, regional organizations (e.g., EEU, Organization of American States, Arab League, ASEAN), and the WTO. (cont. wld.) (social science). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

**POL 264 - Political Geography (4) (RLA)**

(Also GEG 264). 4 hours; 4 credits. All politics are embedded in geographical space. This course examines the ways in which people have territorially arranged the Earth's surface, internal and external relationships of politically organized areas, the effects of political actions on social and economic conditions, and the significance of geographical factors behind political situations, problems, and conflicts within and between different territories. (cont. wld.) (social science). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

Crosslisted as: GEG 264.

**POL 303 - Recent Western Political Theory (4) (RLA)**

4 hours; 4 credits. An examination of leading works in political theory of the late 19th and 20th centuries. The central theme will be the attacks on and the reaffirmations of liberal democratic thought. Discussion of problems of order and violence, social and political revolutions, and democratic processes. Readings will be drawn from original works in political theory by writers such as Arendt, Dewey,
Freud, Hayek, Lenin, Marx, and Sorel. Prerequisites: (POL 100 or POL 103) and any 200-level political science course.

**POL 307 - History of Legal Thought (4) (RLA)**

(Also PHL 307). 4 hours; 4 credits. An analysis of the writings of major legal philosophers from classical times to the present. Writers to be studied include Aristotle, Cicero, Aquinas, Austin, Savigny, Cardozo, and Holmes. Prerequisites: Sophomore standing and any political science or philosophy course.

Crosslisted as: PHL 307.

**POL 310 - Political Sociology (4) (RLA)**

4 hours; 4 credits A discussion of key issues dealing with understanding political and social structure and the distribution of power in society. Such problems as personality, elites, leadership, political culture, power, legitimacy, consensus, and political change will be discussed. Prerequisites: Sophomore course or any 100-level POL or PHL course.

**POL 315 - Psychology and Politics (4) (RLA)**

4 hours; 4 credits An examination of the political implications of psychological theories. How psychological statements about the nature of self and relationship between individuals and social institutions relate to classic questions of politics. Readings will be drawn from such authors as Freud, B. F. Skinner, and Erikson. The course will conclude with an examination of the problems and issues raised by psycho-history. Prerequisite: POL or PHL 100-level course and sophomore level standing.

**POL 316 - The Politics of Evil (4) (RLA)**

4 hours; 4 credits. The development of the concept of evil in modern political thought. The emphasis is on its role in defining a just political order. Readings are based on Voltaire, Nietzsche, Freud and the Critical Theorists. The purpose is to give perspective to the meaning of the malice and terror which define us today with a political understanding of what evil tells us and has told us about ourselves. Prerequisites: (POL 100 or POL 103) and a POL 200-level or above.

**POL 317 - Revolutions and Revolutionaries (4) (RLA)**

4 hours; 4 credits. The character of revolutions as states of exception and their constitution as state power. Focusing on three transformative revolutions—the American, Russian and Chinese Revolutions—this emphasis is on the justification for the seizures of power and their underlying legitimacy for state institutions. This should lead to a more complete understanding of contemporary revolutions.

Prerequisites: (POL 100 or POL 103) and a POL 200-level or above.

**POL 320 - The Judiciary in Politics (4) (RLA)**

4 hours; 4 credits. An examination of judicial processes and politics in the United States with a focus on the relationship among strategies of legal mobilization, law, and public policy. The course starts with political theorist Alexis de Tocqueville's observation that "there is hardly a political question in the United States which does not sooner or later turn into a judicial one." The role and effectiveness of the courts and judges as policymakers, and the role of the courts in the policy implementation process will be considered.

The central goal of this seminar is to familiarize students with some of the theoretical frameworks and the analytical skills they need to make sense of the exceptional role of law and courts in American political life. Prerequisites: (POL 100 or POL 235), ENG 151 and sophomore standing.

**POL 321 - Race, Law, and Public Policy in the Contemporary United States (4) (RLA)**

(Also AAD 321). 4 hours; 4 credits. An examination of race relations in the United States through the prism of law and the courts. In 1903, W.E.B. DuBois wrote: "The problem of the twentieth century is the problem of the color line." This course examines questions such as: How does race matter today? Does the struggle for racial justice persist? Should the government use racial categories in the pursuit of equality? Policy areas to be studied include school desegregation and the problem of urban education, employment discrimination and equal opportunity in the workplace, among other topics. Prerequisites: (POL 100 or POL 235), ENG 151 and sophomore standing

Crosslisted as: AFA 321.

**POL 323 - Public Policy Analysis (4) (RLA)**

(Also MGT 323). 4 hours; 4 credits. A study of how government deals with problems in such areas as health, energy, environment, education, crime, and economic stability. In addition to focusing on substantive policies in these fields, the course will examine how problems come to government's attention and analyze various techniques for determining whether a governmental program is successful. Prerequisite: POL 100 or ECO 101.

Crosslisted as: MGT 323.
POL 325 - Storming Washington: Presidential and Congressional Elections (4) (RLA)

4 hours; 4 credits. An examination of United States congressional and presidential campaigns and elections, including electoral rules, the primary selection process, the role of the media and interest groups, campaign organization and finance, candidate strategy, and the linkages that elections forge between citizens and political leaders. Prerequisites: POL 100, ENG 151 and junior or senior standing.

POL 330 - Legal Philosophy (4) (RLA)

(Also PHL 331). 4 hours; 4 credits. The nature of legal principles and, in particular, their application to moral and political life. Such topics as freedom of speech, the control of sexual behavior, the distribution of property and income, punishment, the morality of war, the choice of political means. Particular attention will be paid to the question of the extent to which the state should employ the technique of law in enforcing the community's moral and political principles. Prerequisite: At least one 200-level course in PHL or two POL courses or permission of the department. Crosslisted as: PHL 331.

POL 331 - Law and Economics (4) (RLA)

(Also ECO 331). 4 hours; 4 credits. Fundamental concepts of economics, especially efficiency, will be utilized to explain and evaluate legal rulings. The tools of economics will be employed to analyze not only tort, contract, and property principles, but also marriage and divorce law, criminal law, and constitutional issues such as abortion, the death penalty, and racial and gender-based discrimination. Prerequisites: (ECO 101 or ECO 111 or ECO 112), (BUS 160 or any two POL courses).
Crosslisted as: ECO 331.

POL 335 - Internships in New York State Government (12) (RNL)

12 credits. Students spend an entire semester in Albany interning for the New York State Senate, New York State Assembly, or an interest group dealing with the New York State legislature. Internship duties average 35 hours a week and may include research, memoranda and bill writing, lobbying, talking with lobbyists, and meeting constituents. All students write a term paper of 12-15 pages based upon their experiences and assigned readings. Students interning for the State Assembly must attend a course on New York State politics given by a professional social scientist employed by the Assembly. Majors in Political Science may apply these 12 credits toward their major. Minors in Political Science may apply eight of these credits toward their minor. Prerequisites: Sophomore standing, permission of the instructor, prior acceptance by the internship program.

POL 336 - American Constitutional Law (4) (RLA)

4 hours; 4 credits. An examination of how the Supreme Court has interpreted the economic and military powers of the federal government, how it deals with state attempts to regulate business, and how it has resolved disputes about the proper jurisdiction of the three branches of the federal government. The problems facing the U.S. court systems, and the variables affecting the formulation of judicial policy are considered. Prerequisite: Sophomore standing or permission of the instructor.

POL 338 - Civil Rights and Liberties (4) (RLA)

4 hours; 4 credits. A normative and empirical analysis of the behavior and decisions of the Supreme Court in the area of civil rights and liberties. Emphasis on freedom of speech and association, church-state relations, racial problems, and the rights of the criminal defendant. (p&d) (social science). Prerequisite: Sophomore standing or permission of the instructor. Please Note: This course satisfies the college option.

POL 340 - Uniting Europe: The Political Economy of the European Union (4) (RLA)

4 hours; 4 credits. The course focuses on the post-1945 movement toward the economic, monetary, and political union of European states. It examines the origins of European integration, the evolution from a six-nation common market in the 1950s to a single European market with a common currency. Analyzes the European Union's distinctive political system - its governing institutions, policy process, party politics, the problems created by expanding membership, persisting tensions between national and European interests - as well as Europe's external relations and role as global actor. Prerequisite: A college-level course in political science, POL 240 is recommended, or permission of the instructor.

POL 342 - Comparative Politics of Developing Countries (4) (RLA)

4 hours; 4 credits. A study of political systems of developing countries; some theories and problems of political and economic development. Countries in Latin America, Africa, and Southeast Asia will be studied as examples. (p&d) (social science). Prerequisites: A previous college-level course in POL or ECO or permission of the instructor. POL 240 is recommended. Please Note: This course satisfies the college option.

POL 343 - Democracy and Democratization (4) (RLA)

4 hours; 4 credits. Designed to examine the social, economic, and political conditions needed for democracy to emerge; the nature and problems of transitions to democracy in different settings; the difficulties of consolidating democracies; why democracies survive or break down. The
original emergence of democracy will be compared to recent
democratic transitions in Southern Europe, former
communist nations, and the Third World. Prerequisite:
Sophomore standing or permission of instructor.

POL 349 - Comparative Human Rights (4) (RLA)
4 hours; 4 credits. A comparison of how human rights
are conceptualized and protected in various Western and non-
Western nations. The focus will be on such rights as speech,
religion, fair trial, and equitable treatment of ethnic and
racial minorities in countries such as Canada, the United
Kingdom, India, Russia, South Africa, Nigeria, Israel, and
China. (social science) (p&d). Prerequisite: (POL 100 or
POL 240 or POL 336 or POL 338). Please Note: This course
satisfies the college option.

POL 353 - China: Politics and Foreign Relations (4)
(RLA)
4 hours; 4 credits. A discussion of basic institutions and
major issues in contemporary Chinese politics and China's
behavior both at home and internationally. It examines the
communist revolution and its aftermath in China, and
political development under Mao Zedong; but the focus of
this course is on the policies (both internal and foreign),
process, and problems of the changing communist system in
China under the post-Mao reforms. (social science) (p&d).
Prerequisites: Sophomore standing and ENG 111. Please
Note: This course satisfies the college option.

POL 364 - International Negotiations and Conflict
Management (4) (RLA)
4 hours; 4 credits. An examination of strategies and tactics
of international negotiations and conflict management. This
course aims to provide the students with hand-on experience
in international negotiation and foreign policy decision-
making in an effort to illustrate the problems and
possibilities of international interactions. Students will
participate in an online negotiation simulation and in-class
negotiations exercises. Prerequisite: POL 260, ENG 151 or
permission of the instructor

POL 365 - Current American Foreign Policy (4) (RLA)
4 hours; 4 credits. An analysis of the historical roots of U.S.
foreign policy: how it is made, how it affects the average
U.S. citizen, and how it is likely to develop. Includes an
examination of the Cold War, Vietnam, military alliances,
the United States in the United Nations, and American
policy in the multipolar world of today. Prerequisite: (POL
100 or POL 260 or POL 261 or POL 262).

POL 371 - Terrorism (4) (RLA)
4 hours; 4 credits. An examination of terrorism as a form of
political action; the causes and consequences of terrorism,
and the strategy and tactics of terrorists. Various
counterterrorism security approaches will be explored, as
well as attempts to find patterns and trends in the incidence
of domestic and international terrorism. The course will
review prospects for the future as they relate to terrorism.
(social science) Prerequisite: POL 260 and an addition POL
course at the 200 level of above.

POL 375 - International Law (4) (RLA)
4 hours; 4 credits. A study of the nature and sources of
international law, tracing its historical development, and
concluding with a discussion of recent proposals to
strengthen world law and recent events that have made
international law more enforceable. Some time will be
devoted to an analysis of the work of international tribunals,
including the International Court of Justice. Prerequisite:
Sophomore standing or permission of the instructor.

POL 394 - CUNY World Affairs Internship (4) (RNL)
4 hours; 4 credits. A program common to all the senior
colleges of The City University that involves working eight
to ten hours a week for an international or domestic
governmental agency or non-governmental organization
involved with international affairs. In addition, all students
attend four seminars per month, one at the University's
Graduate Center and three at their own college.
Prerequisites: Junior or senior standing, POL 260, and
permission of the instructor.

POL 490 - Senior Seminar in Geography, Economics,
Political Science, and Philosophy (4) (RLA)
(Also, ECO 490/GEG 490/PHL 490). 4 hours; 4 credits.
Selected topics in which ideas and approaches from
economics, political science, philosophy, and geography
either mesh or collide will be explored. Required of all
students expecting to graduate with honors in Political
Science, Economics, Philosophy, or Geography, but not
limited to these students. Prerequisite: Senior standing and
completion of at least 16 credits in intermediate and
advanced social science courses and permission of the
instructor.

Crosslisted as: ECO 490 and PHL 490.

PSY - Psychology

PSY 100 - Psychology (3) (FISR)
3 hours; 3 credits. A study of the important facts and theories
concerning human behavior and its motivation. Included
will be research methodology; at least three topics from
learning, cognition, testing, physiology, and
phenomenology; and at least three topics from personality,
psychopathology, emotion and motivation, history and
systems, development, and social factors. Topics will be
related to major trends in recent cultural history and to
current social and moral issues. (FISR) Prerequisite: Passing
the CUNY Assessment Test in Reading and Writing.
PSY 103 - Stress Management (3) (RNL)
(Also SKO 103). 3 hours; 3 credits. A comprehensive presentation of the physical, social, and psychological understanding of the human stress response. Opportunities for students to learn concrete scientific insights, practical stress management skills, and beneficial relaxation techniques are offered. Prerequisite: Passing the CUNY Assessment Test in Reading and Writing.
Crosslisted as: SKO 103.

PSY 201 - Foundations of Psychological Research (4) (RLA)
4 hours; 4 credits. An introduction to the methods of psychological research. Comparison, evaluation, and illustration of research methods such as survey, case study, questionnaire, interview, experiential, correlational, and experimental using a broad range of psychological topics such as physiological, developmental, learning, perception, personality, social, clinical, and industrial. Research design, data presentation and analysis, relation of data and theory, and ethical problems in research will be discussed. Majors should take the course within their first 12 credits in psychology. Prerequisites: Minimum grade of C in PSY 100 and minimum grade of C in MTH 123 or higher (except MTH 217/MTH 218). Students will be allowed to repeat the courses, if necessary.

PSY 202 - Psychopathology (4) (RLA)
4 hours; 4 credits. A study of the development, symptoms, prevention, and treatment of a wide variety of behavioral disorders including anxiety, depressive, personality, somatoform, and psychotic disorders. These and other disorders will be examined from a variety of theoretical perspectives. Equivalent to courses titled Abnormal Psychology. (social science). Prerequisites: PSY 100, ENG 111, COR 100. Please Note: This course satisfies the college option.

PSY 203 - Child Psychopathology (4) (RNL)
4 hours; 4 Credits. An investigation into psychological disorders of children. The course will emphasize research-based knowledge about the etiology, diagnosis, and treatment of childhood psychological disorders and highlight ethical and social issues involved. Major topics will include deviancy of development, behavior, emotion, learning, and communication. Prerequisites: PSY 100.

PSY 211 - Methods of Applied Behavior Analysis (4) (RNL)
4 hours; 4 credits; Introduction to the methods of applied behavior analysis (ABA). ABA is the application of the scientific study of behavior toward improved human well-being. Over many decades, it has been established as one of the most effective and cost-efficient technologies and therapies in clinical psychology, education, and behavior/or organizational management. It has been helpful in particular for persons with developmental disabilities such as autism but also has been applied widely to ordinary daily life issues (e.g., work performance, family relations, self-help, and community services). This course follows the guidelines for courses to be approved by the Behavior Analyst Certification Board®. For this it will cover: defining and measuring behavior, treatment program development and evaluation, token economies, self-management techniques, and professional responsibilities and ethics. The course will focus on skill acquisition through hands-on experience. Prerequisite: Successful completion of the CUNY Mathematics Assessment Test.

PSY 212 - Social Psychology (4) (RLA)
4 hours; 4 credits. Social psychology is the study of human social behavior viewed from an interpersonal perspective. The role of others in shaping self-concept will be explored as well as the formation of attitudes, attribution theory, the causes and methods of reducing prejudice, social influence and obedience, interpersonal attraction, aggression, altruism, and the development of gender roles and stereotypes, and nonverbal behavior. Research methods and results will serve as the context in which each topic will be discussed. (social science). Prerequisites: PSY 100 and ENG 151. Please Note: This course satisfies the college option.

PSY 213 - Cross-Cultural Psychology (4) (RLA)
4 hours; 4 credits. The pervasive role of culture in shaping behavior, thought, motivations, and emotions will be introduced. Various theories will be described that explain the transmission and modification of culture, the psychological outcomes of cultural transitions, and the behavioral and attributional errors that occur as a result of the lack of cultural understanding. Students will be exposed to various research methodologies and will utilize several of these analytic tools. Empirical findings will be applied to education, health care, and work settings. (p&d) (cont. wld.). Prerequisite: PSY 100, ENG 151, COR 100. Please Note: This course satisfies the college option.

PSY 215 - Psychological Perspectives on Disabilities (4) (RLA)
4 hours; 4 credits. Contributions of psychology to the study of disabilities will be discussed in a framework including physical, emotional, and cognitive disabilities. Topics may include the measurement of intelligence, eugenics, mental disorders, nomenclature and diagnosis, treatment methods coping strategies, cross-cultural issues, and quality of life and activism of people with disabilities and their families. (p&d). Prerequisites: PSY 100 and ENG 151. Please Note: This course satisfies the college option.
PSY 216 - Drugs and Behavior (4) (RLA)
4 hours; 4 credits. An examination of the effects of psychoactive drugs (including alcohol, nicotine, and caffeine) on mood, motivation, thinking, and behavior. Emphasis is on the pharmacology, therapeutic potential, and side effects of these substances and how they aid brain function and mental disorders. The course also considers how drugs affect reproductive and neonatal health, and alternative non-drug treatments of mental disorders. Prerequisite: PSY 100.

PSY 217 - Psychology and Chinese Culture (4) (RLA)
4 hours; 4 credits. An examination of the role of Chinese culture in shaping psychological concepts, thinking and behavior, and of the growth of the discipline of academic psychology throughout the Chinese world. (p&d). Prerequisite: PSY 100 and COR 100 and ENG 151. Please Note: This course satisfies the college option.

PSY 223 - Health Psychology (4) (RLA)
4 hours; 4 credits. Health psychology is the study of the relationships among cognition, behavior, social environment, and health. The class will focus on the interaction between social/psychological factors, stress, immunology, and diseases. There will be an emphasis on how health professionals can promote health-enhancing behaviors and modify health-compromising behaviors. Pre-or corequisite: PSY 100.

PSY 225 - Introduction to Forensic Psychology (4) (RLA)
4 hours; 4 credits. An introduction to a broad perspective of the field of forensic psychology and is designed to promote an understanding between psychology and law by showing how psychological research and theory can inform the legal process. This course will examine the roles and responsibilities of forensic psychologists in police work, criminal investigation, eyewitness identification, mental defenses and competency issues, sexual abuse issues, juvenile forensics and death penalty cases. While the course is aimed at BREADTH rather than DEPTH, it does provide many resources and references on each topic enabling students to inquire further into areas of interest. Prerequisite: PSY 100, ENG 151

PSY 226 - Theories of Personality (4) (RLA)
4 hours; 4 credits; A survey of the important factors and theories underlying personality patterns, their origins, and development. Such topics as the review of major theories, integration and conflict, and the development of personality in childhood and adolescence. Emphasis on experimental, clinical, and cross-cultural data with special attention to case studies. (social science). Prerequisites: PSY 100, ENG 151, COR 100. Please Note: This course satisfies the college option.

PSY 232 - Physiological Psychology: Cognitive and Behavioral Neuroscience (4) (RLA)
4 hours; 4 credits. A study of the brain-behavior relationship with focus on neuroanatomy, neuronal potentials, neuronal conduction, synaptic chemistry, sensory psychophysiology, learning and memory, language, and lateralization. Prerequisite: PSY 100.

PSY 235 - Gender and Sexuality (4) (RLA) (Also WGS 235). 4 hours; 4 credits. A critical examination of the way in which human sexual functioning has been viewed by both women and men. Critical consideration of theories of sexuality in psychology, including psychoanalytic, evolutionary, social constructionist, and feminist theories of sexuality. Evaluation of recent research on AIDS/HIV, lesbian and gay issues, sexual violence against women, and sex education. Special attention to cultural factors that influence women's and men's understandings of their sexuality and of other sexually transmittable diseases. Present problems and practices as well as future possibilities will be discussed. (p&d). Prerequisite: ENG 111. Please Note: This course satisfies the college option.

PSY 239 - Physiological Psychology: Motivated Behavior (4) (RLA)
4 hours; 4 credits. A study of the nervous system mechanisms that operate in the control of feeding, drinking, sexual and reproductive behavior, temperature regulation, sleep and dreaming, wakefulness, attention, and psychopathology. Prerequisite: PSY 100.

PSY 242 - Developmental Psychology (4) (RLA)
4 hours; 4 credits. A survey of psychological growth and development with emphasis on developmental tasks distinguishing successive life stages. Patterns of intellectual growth, psychological growth under different social-cultural conditions, personality, and social development will be considered. (social science) Prerequisites: PSY 100, ENG 111, COR 100. Please Note: This course satisfies the college option.

PSY 266 - Statistics in Psychology (4) (RLA)
4 hours; 4 credits. A study of statistical methods most commonly used in psychology. Descriptive techniques including the measurement of central tendency, dispersion, and association as well as inferential techniques including the analysis of differences among groups will be considered, as will parametric and nonparametric techniques. Prerequisites: Minimum grade of C in PSY 201; and
Minimum grade of C in MTH 123 or higher (except MTH 217/MTH 218). Students will be allowed to repeat the courses if necessary.

**PSY 268 - Psychology of Women (4) (RLA)**

(Also WGS 268). 4 hours; 4 credits. A critical review of theories and issues concerning the psychology of women. Theories of gender including biological, psychoanalytic, and social learning, among others will be discussed. Issues particularly relevant to the lives of women and to the psychology of gender will be explored, including gender stereotypes, physical and mental health issues, sexuality, personal relationships, and violence against women. (p&d). Prerequisite: PSY 100. Please Note: This course satisfies the college option.

Crosslisted as: WGS 268.

**PSY 280 - Psychological Perspectives on Religion (4) (RLA)**

4 hours; 4 credits. A review of the positions that various psychologists have taken regarding the function of religious experience in human life. Included are viewpoints that deny the validity of such experience (e.g., Freud and Watson, as well as those who believe it is of central importance, e.g., James, Jung, Allport, Maslow, Frankl, and Watts). The probable nature of the function of religious experience is explored. A discussion of the truth value of religions is outside the scope of this course. Prerequisite: ENG 151, COR 100, PSY 100.

**PSY 286 - Psychology of Creativity (4) (RLA)**

4 hours; 4 credits. Theory and research concerning the identification, measurement, development, and appreciation of creativity. Cognitive processes underlying creativity are discussed and possible physiological components in creativity are explored. Analysis of selected works of music, literature, art, and/or scientific problem solving illustrate basic concepts. Prerequisite: PSY 100.

**PSY 288 - Cognitive Psychology (4) (RLA)**

4 hours; 4 credits; Cognitive psychology encompasses a broad range of topics related to higher mental processes, including such areas as research methodology, brain physiology, learning, memory, and language. This course is designed as an introduction to the field of study in cognition. Through lectures, demonstrations, and video presentations, several objectives will be met. Students will learn about the important issues and debates in cognitive psychology, how to apply this knowledge to real-world situations, how to critically evaluate research and ongoing debates in cognitive psychology, and to develop critical thinking skills. Readings, writing assignments, and tests will all reflect these objectives. (social science) NOTE: This course satisfies the college option. Prerequisites: PSY 100, ENG 111 and COR 100.

**PSY 315 - Psychology and the Law (4) (RNL)**

4 hours; 4 credits; This course will examine the interface of psychology and the law. Social science impacts of the legal process and psychologists are increasingly being asked to participate by providing knowledge to this system. This course examines the breadth of the psychology and the application of psychological science to the American justice system. Sample topic areas include use of psychologists as expert witnesses, legal competence, jury consulting/selection, the insanity defense, and predictions of dangerousness. Prerequisites: PSY 202

**PSY 322 - Industrial Psychology (4) (RLA)**

4 hours; 4 credits. A study of the application of psychological principles to business and industry. Topics discussed will include personnel selection and placement, employee and public relations, analysis and design of the work environment, organizational psychology. Prerequisite: PSY 266

**PSY 324 - Environmental Psychology (4) (RLA)**

4 Credits, 4 Hours. The study of the dynamic relationship between individuals and the natural and built environment. This course will introduce students to the ecological view of psychological issues and the methods used to research and analyze person-environment transactions. In-class assignments and exercises will promote the analysis of the psychological dimension of issues such as personal space, crowding, privacy, territoriality, wayfinding, place attachment, building design, and energy conservation, among other. Conservation psychology and the psychology of environmental problems will also be addressed. Prerequisite: PSY 201

**PSY 330 - Experimental Psychology: Cognition and Perception (6) (RLA)**

4 class hours, 4 laboratory hours; 6 credits. A laboratory course introducing basic findings and techniques in the scientific study of behavior. Topics discussed will include research design, data analysis and presentation, and research in cognition and perception. In the laboratory, students will collect and analyze data from representative areas of psychology and write laboratory reports in APA format. Prerequisites: minimum grade of C in PSY 266; PSY 288 or PSY 232 or PSY 239.

**PSY 332 - Psychological Tests and Measurements (4) (RLA)**

4 hours; 4 credits. Introduction to test construction and application: item analysis, reliability, validity, establishing norms, and scoring procedures. A survey of available tests is undertaken: intelligence, aptitude, achievement,
personality. Special problems in test administration and interpretation are considered. Prerequisite: PSY 266 or permission of the instructor.

**PSY 333 - Experimental Psychology: Learning and Behavior (RLA)**

4 class hours, 4 laboratory hours; 6 credits. Basic principles of behavior analysis will be taught in a systematic fashion and applied to the analysis of simple and complex animal and human behavior. Students also conduct experiments designed to illustrate basic concepts in learning theory and principles of scientific methodology as appropriate for experimental psychology. Acquisition and analysis of experimental data and relating empirical data to theoretical concepts will be emphasized. Laboratory reports are written in APA format. Prerequisite: Minimum grade of C in PSY 266.

**PSY 334 - Experimental Psychology: Social and Personality (6) (RNL)**

4 lecture hours, 4 laboratory hours; 6 credits. This laboratory course introduces basic findings and techniques in the study of social behavior and personality. It will review all phases of research including research design, ethics, data collection, analysis, and presentation, with a specific focus on current methods used in personality and social psychology. In the laboratory, students will design and complete group or individual research projects illustrative of the major topics covered, as well as a term-long major project. Prerequisites: PSY 212 or PSY 226 and PSY 266 with minimum grade of C.

**PSY 335 - Experimental Psychology: Child Development (6) (RNL)**

4 lecture hours, 4 laboratory hours; 6 credits. This laboratory course introduces basic findings and techniques in the study of developmental psychology. It will review all phases of research including research design, ethics, data collection, analysis, and presentation, with a specific focus on current methods used to study the psychological development of children. In the laboratory, students will design and complete group research projects illustrative of the major topics covered, culminating in APA-style research papers. Prerequisites: PSY 242 and Minimum grade of C in PSY 266

**PSY 340 - Mentoring and Adolescent Development (4) (RNL)**

(Also WMS 340). 3 lecture hours, 2 fieldwork hours; 4 credits. Introduction to the developmental concerns and clinical skills needed to form mentoring relationships with at-risk adolescent populations. Course work entails review of the literature on mentoring as well as specific issues regarding adolescent development, with an emphasis on gender identity. Other topics addressed may include race, ethnicity, class, and sexual orientation. Students do on-site mentoring under faculty supervision and have the opportunity to evaluate these fieldwork experiences in class. Prerequisites: PSY 266, PSY 242, Permission of the instructor, and a minimum of 45 credits completed. Crosslisted as: WMS 340.

**PSY 342 - Language Development (4) (RNL)**

4 hours; 4 credits. Research in social and cognitive processes involved in language development and early communication is explored. Topics include listening to speech in the first year of life, babbling, word learning, grammatical development, the critical period hypotheses, and developmental language disorders such as dyslexia and Specific Language Impairment. Prerequisite: PSY 242.

**PSY 343 - Infancy (4) (RLN)**

4 hours; 4 credits. This course is concerned with how infants come to understand the world around them. Students will learn classic and current theoretical perspectives on infant development as well as methodologies and results from recent empirical papers. We will discuss what sort of evidence would provide a meaningful answer to the question of how learning occurs. Topics to be discussed include prenatal development, physical and motor development, and cognitive, perceptual, language, and emotional development. Prerequisite: PSY 242.

**PSY 345 - Motor Development (4) (RNL)**

4 hours; 4 credits. A central goal for this class is to understand the psychological aspects of motor development. Over their first two years of life, babies' bodies, skills, and environments change rapidly and dramatically. How do infants learn to cope with a changeable body in a variable world? In this class, we will discuss infant motor development in the context of traditionally separate domains of psychology-perceptual, cognitive, and social development. Prerequisite: PSY 242.

**PSY 350 - Prejudice and Social Identity (4) (RLA)**

4 hours; 4 credits. The relationship between prejudice, stereotyping, and social identity will be discussed. Social psychological research on prejudice in regard to areas such as ageism, gender, ethnicity, sexual orientation, and body weight will be reviewed. Students will be introduced to a variety of research paradigms in social psychology including cognitive, attitudinal, behavioral, social identity, feminist, and postmodern frameworks. Students will also gain research experience by conducting an interview and an observational study. Prerequisite: PSY 212.

**PSY 352 - History and Systems of Psychology (4) (RLA)**

4 hours; 4 credits. Historical development of contemporary psychology including a critical survey of its chief
contemporary systems: structuralism, functionalism, psychoanalysis, behaviorism, Gestalt psychology, and others. Prerequisite: PSY 201 and eight additional credits at the 200 level or higher.

**PSY 355 - Contemporary Issues in Human Sexuality (4) (RNL)**

(Also WGS 355). 4 hours; 4 credits. This course focuses on current issues in the psychological study of human sexuality, with an emphasis on social psychological perspectives. It will review contemporary debates in the psychological theory and research on human sexuality. It will begin with an overview of current theories, research methods, and issues related to the study of sexuality in psychology. It will then cover current controversies in the measurement of sexuality, theories of sexual desire, debates about sexual pathologies and treatments, the impact of technology on sexuality and, conclude with a few unresolved issues and future directions. Prerequisite: PSY 235

Crosslisted as: WGS 3554.

**PSY 362 - Approaches to Psychotherapy (4) (RLA)**

4 hours; 4 credits. Primary source readings in representative schools of psychotherapy. Undertaken is an evaluation, description, and comparison of major treatment theories and techniques (e.g., the rationale and methods involved in one-to-one therapy, group therapy, encounter and sensitivity groups, and counseling). Prerequisite: PSY 202 or PSY 226.

**PSY 368 - Counseling Psychology (5) (RNL)**

3 lecture hours, 5 fieldwork hours; 5 credits. Introduction to the principles of counseling, psychological and philosophical issues in counseling, the interview and its role in counseling. This course includes five hours per week of fieldwork experience in a school guidance setting or another psychological service. Students must reserve one day per week for this fieldwork assignment. Prerequisites: PSY 202 and permission of the instructor.

**PSY 385 - Psychology of Memory (4) (RNL)**

4 hours; 4 credits. This course will bring together two major cognitive psychology approaches to studying memory, theoretical and applied. The theoretical topics will cover the history of research on memory; classical laboratory research on short-term, working, and long-term memory; and memory impairments. The applied topics will include memory in everyday life, memory and the law, and memory improvement. Prerequisite: PSY 288 or PSY 232.

**PSY 390 - Evolutionary Psychology (4) (RLA)**

4 hours; 4 credits; Overview of the scientific perspective of evolutionary psychology, which investigates psychological mechanisms from the standpoint that they arise from the function of the brain, which has been shaped by the process of biological evolution. The course covers the basic principles of biological evolution and addresses the evolutionary forces that are likely to have influenced the development of specialized psychological mechanisms such as individual survival, reproduction, group/social living, and biological constraints on learning (ontogeny). The course will also cover emerging topics in evolutionary psychology such as the development of culture and the potential role of memes in manipulating human behavior. Prerequisites: PSY 201

**PSY 398 - Internship in Psychology (4) (RNL)**

2 lecture hours, 8 fieldwork hours; 4 credits. An undergraduate field-based experiential course that allows students to integrate an academic (2-hour weekly) class with an 8-hour weekly work experience in an internship setting. Students observe professionals to obtain experiences within the social service agency, school, psychiatry, industrial organization, applied social psychology, research, cross-cultural training, developmental, and other psychology career-related settings. This course is designed for upper level junior and senior students to expose them to professional roles in psychology-related professions including: professional responsibilities, skills development, and ethics. Students need the approval of the instructor to register for the class. Prerequisites: (PSY 202 or PSY 226) and upper junior standing.

**PSY 416 - Group Dynamics (4) (RLA)**

4 hours; 4 credits. Group experience as a path to effective interpersonal relationships. The course aims to provide an understanding of the nature of group goal setting and leadership training. Explored are one's attitudes toward oneself and their relationship to ethnic groups and social action. A variety of encounter techniques will be used to achieve course aims. Prerequisites: A minimum of 12 credits in PSY at the 200-level or higher, including at least two from PSY 202, PSY 212, PSY 226, PSY 362; and permission of the instructor.

**PSY 420 - Advanced Seminar in Psychology (4) (RLA)**

4 hours; 4 credits. Critical study of a selected area of psychology. Students will be encouraged to work on experimental, theoretical, and applied problems. Prerequisite: Permission of the instructor.

**PSY 464 - Applied Behavior Analysis (4) (RLA)**

4 hours; 4 credits. Introduction to the methods and theory of applied behavior analysis with a special focus on individuals with developmental disabilities. Topics include, but are not limited to, classical and operant conditioning, reinforcement theory, schedules of reinforcement, stimulus control, single-subject design, development of treatment programs, assessment procedures, data analysis, token economies, and
department or coordinator of the program. Students can the student wishes to enroll in these courses and must be Independent Study must be made during the semester before permission of the professor only. Arrangements for be accepted at the faculty member's discretion and by sponsor the project. Applications for Independent Study will first three weeks of the semester. Independent Study courses must be completed within the credits for the baccalaureate degree. Registration for Internship coursework will be accepted toward the 120+ degree; no more than 15 credits of Independent Study and Internship coursework will be accepted toward the 60+ credits required for the associate's more than nine credits of Independent Study will be to spend at least three hours of work per week per credit. No more than nine credits of Independent Study coursework must be made during the semester before the student wishes to enroll in these courses and must be approved by the faculty sponsor, on-site supervisor (where applicable), and the chairperson of the department or coordinator of the program. Students can register for 1 (591) to 4 (594) credits. Students are required to spend at least three hours of work per week per credit. No more than nine credits of Independent Study will be accepted toward the 60+ credits required for the associate's degree; no more than 15 credits of Independent Study and Internship coursework will be accepted toward the 120+ credits for the baccalaureate degree. Registration for Independent Study courses must be completed within the first three weeks of the semester. PSY 591-594 - Independent Study 1-4 credits. Students interested in Independent Study must make arrangements with a full-time faculty member to sponsor the project. Applications for Independent Study will be accepted at the faculty member's discretion and by permission of the professor only. Arrangements for Independent Study must be made during the semester before the student wishes to enroll in these courses and must be approved by the faculty sponsor and the chairperson of the department or coordinator of the program. Students can register for 1 (591) to 4 (594) credits. Students are required to spend at least three hours of work per week per credit. No more than nine credits of Independent Study will be accepted toward the 60+ credits required for the associate's degree; no more than 15 credits of Independent Study and Internship coursework will be accepted toward the 120+ credits for the baccalaureate degree. Registration for Independent Study courses must be completed within the first three weeks of the semester. PSY 595-598 - Internship 1-4 credits. Internships are experiences in a work situation that integrate an academic area of study with work experience. Courses designated Internships are individual, non-classroom, extended learning projects. They require: an on-site supervisor as well as a full-time faculty member as project sponsor; a daily log of activities, an assigned reading list or preparation of a relevant bibliography; and, a final paper that summarizes the way in which goals were achieved and demonstrates the relationship of academic material to the work done during the internship. Internship students may not receive credit for paid employment unless they demonstrate the relationship of an appropriate body of academic material to the work required in their employment. Credit for Internships (595=1 credit, 596=2 credits, 3 597=3 credits, 598=4 credits) is awarded for work experience related to an academic program, not for performing a job. Students must have at least one introductory course or equivalent experience in an area as a prerequisite to Internships. Internship students are expected to spend at least two hours per week per credit on the on-site location and at least one additional hour per week per credit in reading, study, and preparation. No more than nine credits of Independent Study and Internship coursework will be accepted toward the 60+ credits required for the associate’s degree; no more than 15 credits of Independent Study and Internship coursework will be accepted toward the 120+ credits for the baccalaureate degree. This internship course counts as a 200-level elective. Students interested in an Internship must make arrangements with a full-time faculty member to sponsor the project. Internship students also require an on-site supervisor to evaluate their project. The individuals involved will sign a contract stipulating the expectations for completion of the course, evaluation criteria, and awarding of credit. Arrangements for Internships must be made during the semester before the student wishes to enroll in these courses and must be approved by the faculty sponsor, on-site supervisor (where applicable), and the chairperson of the department or coordinator of the program. For Internships, at least one on-site visit must be made by the faculty sponsor during the semester. At this time a joint conference with all participants in the project will be held for evaluation. For all Internship students a meeting and an evaluation of progress with the faculty sponsor is expected at least bi-monthly. Registration for Internship courses must be completed within the first week of the semester. SCI - Science SCI 106 - Power, Pollution, and Energy (4) (RLA) 3 class hours, 2 laboratory hours; 4 credits. Topics include the effects of radioactivity, noise, heat, and various forms of energy on the environment. The physical principles will be developed to understand these phenomena and the scope of the related environmental problem. Laboratory studies and student projects illustrative of the fundamental principles associated with power, pollution, and energy complement the lectures. Not intended for the Physics or Engineering Science major. (science). Prerequisite: MTH 025 or MTH 030 or an appropriate score on the CUNY Mathematics Assessment Test. SKO - SEEK Skills Development SKO 100 - Freshman Orientation (1) (RNL) 2 class hours; 1 credit. A means of helping incoming freshmen to develop educational and career goals through a group process of self-awareness with an emphasis on learning as a cooperative venture. In addition to providing information relative to the College setting, the course offers a systematic vehicle for interaction between student and counselor. A major theme throughout is a focus on the responsibility of the student for his or her own life and
college career. The course also offers assistance with basic study skills and study habits.

**SKO 101 - Psycho-Dynamics of Student Life (2)**
4 hours; 4 equated credits; 2 credits. An analysis of personal and contemporary issues that affect the everyday life of students. Emphasis is on topics that play a major role in student development and the educational process such as adjustment to college life, strategies for change, and insights into personal success.

**SKO 102 - Learning to Learn (3) (RNL)**
3 hours; 3 credits. A learning approach that provides study techniques geared to college success. The course focuses on the use of an inquiry method for new subject matter by which students learn to identify the component parts of complex principles and ideas in content courses. Topics include note taking, time management, reading and writing techniques, information mapping, and test taking strategies. Informal feedback mechanisms are included to help students assess their own progress. Prerequisite: Permission of the department.

**SKO 103 - Stress: Understanding and Management (3) (RNL)**
(Also PSY 103). 3 hours; 3 credits. A comprehensive presentation of the physical, social, and psychological understanding of the human stress response. Opportunities for students to learn concrete scientific insights, practical stress management skills, and beneficial relaxation techniques are offered.

Crosslisted as: PSY 103.

**SLS - Science Letters and Society**

**SLS 217 - Fundamentals of Mathematics I (4) (RLA)**
(Also MTH 217). 4 hours; 4 credits: A study of the conceptual basis of arithmetic operations on integers, decimals and fractions designed for students seeking certification as elementary school teachers. Ideas behind familiar algorithms are explored using visual models, verbal problems, and other concrete representations. Emphasis is placed on students being able to provide verbal and written explanations for these ideas. Prerequisites: A minimum GPA of 3.0 and MTH 123 or an appropriate score on the CUNY Mathematics Assessment Test.

Crosslisted as: MTH 217.

**SLS 218 - Fundamentals of Mathematics II (4) (RLA)**
(MTH 218). 4 hours; 4 credits: A study of geometry, data representation, probability, and statistics designed for students planning to teach at the elementary or early-childhood level, with an emphasis on mathematical reasoning, problem solving, and communication. Builds on and is a continuation of MTH 217/SLS 217. Prerequisites: A minimum GPA of 3.0, MTH 217/SLS 217 with a grade of C or higher.

**SLS 230 - American Society (4) (RLA)**
4 hours; 4 credits. An introduction to the forces that have shaped American society. Emphasis is placed on the interaction of political, economic, and cultural factors. Themes include the creation of American myths, the triumph of majority traditions, the American heritage of dissent, and the responses to social crises. (social science). Prerequisites: A minimum GPA of 3.0, ENG 111, ENG 151, COR 100. Please Note: This course satisfies the college option.

**SLS 232 - Social Geography (4) (RLA)**
(Also GEG 232). 4 hours; 4 credits. A social geographic approach in examining the spatial organization of human behavior and people’s relationship with their environment. Students will develop an understanding of the concepts of social geography as related to the major aspects of human behavior on the Earth, including population increase, migration throughout the world, the urbanization of the majority of humanity, and the modification of the surface of the planet via agricultural practices, industrialization, and natural resource exploitation. Prerequisite: A GPA of 3.0 and ENG 151.

Crosslisted as: GEG 232.

**SLS 235 - The American Political System (4) (RLA)**
(Also POL 235). 4 hours; 4 credits. Study of major U.S. political institutions-the Presidency, Congress, Supreme Court, bureaucracy, and the Democratic and Republican parties. The course will emphasize the extent to which the actual workings of our political systems differ from, and are affected by, constitutional theory and legal rules and thus will discuss the impact of pressure groups and public opinion. It will also cover selected state and local political issues. (social science). Not open to students who have taken POL 100. Prerequisites: A minimum GPA of 3.0, ENG 111, ENG 151, COR 100. Please Note: This course satisfies the college option.

Crosslisted as: POL 235.

**SLS 240 - World Civilization I (4) (RLA)**
(Also HST 238). 4 hours; 4 credits. A comparative study of the growth and development of the major global civilizations from earliest times to the onset of modernity. An overview of the development of civilizations, examining their structure and organization, characteristic ideas and institutions, and the processes of cultural diffusion and conflict within and between them. (p&d). Prerequisites: A
SLS 241 - World Civilization II (4) (RLA)

(Also HST 239). 4 hours; 4 credits. The growth and development of the major civilizations around the globe from the onset of modernity to present times, with particular attention to the changing relationships among global communities. (p&d). Prerequisites: A minimum GPA of 3.0 and ENG 151. Please Note: This course satisfies the college option.

Crosslisted as: HST 238.

SLS 245 - Contemporary Social Issues (4) (RLA)

(Also SOC 245). 4 hours; 4 credits; A study of selected contemporary social problems such as poverty, criminal justice, ethnicity, or race relations from the perspectives of political science, economics, and sociology. The emphasis will be on urban problems. The course will explore the types of questions that might be raised about the topics by persons trained in the social sciences and will explore the methods used to answer such questions. Relationships between modes of inquiry, types of questions asked, and the answers obtained. An emphasis on developing the ability to read, understand, and think critically about writings in the social sciences. (social science). Prerequisites: ENG 111, ENG 151, COR 100, and a GPA of 3.0 or above. Please Note: This course satisfies the college option.

Crosslisted as: SOC 245.

SLS 261 - Nature of Physical Processes (4) (RLA)

(Also PHY 206). 3 class hours, 2 laboratory hours; 4 credits. A culturally oriented course and associated laboratory for liberal arts students who seek to deepen their understanding and appreciation of the style and status of modern physical inquiry. Topics will be drawn from Newtonian mechanics, quantum theory, relativity, and nuclear physics. Prerequisites: A minimum GPA of 3.0; MTH 030 or an appropriate score on the Mathematics Department Placement Examination; and at least one Scientific Analysis course other than ELT, MET, or SCI courses.

Crosslisted as: PHY 206.

SLS 262 - Life Science in Context (4) (RLA)

3 class hours, 2 laboratory hours; 4 credits. The connections among fundamental issues from the daily world and the respective underlying life-science concepts. It is integrated with and complements SLS 261 by stimulating a perception of an interconnected nature. Through lectures and laboratory work, students will analyze concepts and phenomenon in nature such as the properties of air, pollutants, the chemistry of global warming, acid rain, plastics and polymers, nutrition, and genetic engineering. The course will develop the student's independent problem/analysis skill while building a global awareness of chemical processes. Prerequisite: A minimum GPA of 3.0 and a minimum grade of C in SLS 261.

SLS 301 - Humanities I: Ancient Culture (4) (RLA)

4 hours; 4 credits. A study of selected works from the literature, history, and philosophy of ancient civilization with some attention to the fine arts of the period. Prerequisites: A minimum GPA of 3.0, ENG 111, ENG 151, and an ENH 200-level course.

SLS 302 - Humanities II: Medieval and Early Modern Culture (4) (RLA)

4 hours; 4 credits. A study of selected works from the literature and philosophy of medieval and early modern world, with some attention to the fine arts of the period. Prerequisites: A minimum GPA of 3.0, SLS 301.

SLS 303 - Humanities III: Modern Culture (4) (RLA)

4 hours; 4 credits. A study of selected works from the literature and philosophy of modern civilization with some attention to the fine arts of the period. Prerequisites: A minimum GPA of 3.0, SLS 302.

SLS 325 - Social Thought (4) (RLA)

(Also SOC 325). 4 hours; 4 credits. Analysis of key trends in social theory from ancient times to the present. Includes the study of thought concerning the early organization of human society, the development of agricultural and feudal societies, the effects of industrialization and the modern age, and the already-significant impacts of the computer age and the Internet. The course is especially concerned with major social questions in science, philosophy, urbanism, and political economy. Emphasis on reading and discussing original sources. Prerequisites: A minimum GPA of 3.0, ENG 111, ENG 151, and a 200-level Social Scientific Analysis course. Please Note: This course satisfies the college option.

Crosslisted as: SOC 325.

SOC - Sociology

SOC 100 - Sociology (3) (FISR)

3 hours; 3 credits. A study of modern society with emphasis on such fundamental groupings as the family, class, the community, the state, the interaction between cultures and the individual, and the processes by which institutions come into being and develop, and important social theories. (social scientific analysis) (FISR).
SOC 120 - Social Problems (3) (RLA)
3 hours; 3 credits. Conditions defined by sociocultural groups and institutions as social problems, as well as potential solutions, are examined from various sociological perspectives. Emphasis is given to problem issues prevalent in contemporary metropolitan settings such as physical and mental health issues, access to social services, poverty, and prejudice and discrimination. (social science).

SOC 200 - Sociological Theory (4) (RLA)
4 hours; 4 credits. Nineteenth- and early 20th-century European sociological theory as it bears on our own time. How Marx, Weber, and Durkheim analyze society, culture, religion, the economy, modes of domination, suicide, alienation, charisma, and other social phenomena. Cultural and gender biases in social thought. Prerequisites: SOC 100 or SOC 203/ANT 203 and one 200-level SOC course.

SOC 201 - Methods of Sociological Research (4) (RLA)
4 hours; 4 credits. How sociologists collect and analyze data. Examination of various methods of research, including questionnaires, interviews, participant observation, and the use of historical and literary sources. Prerequisites: ENG 111, COR 100, and (SOC 100 or SOC 203/ANT 203).

SOC 202 - Gender, Race, Ethnicity, and Class (4) (RLA)
(Also WGS 202). 4 hours; 4 credits. How gender, race, ethnicity, and class interact with each other and influence personal identities, opportunities, and life experiences. The effects of these factors on attitudes and ideology, from the perspectives of scholars to those of political groups within and among nation states. The effects of political economy and the division of labor on gender, race, and class. (social science) (p&d). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option. Crosslisted as: WGS 202.

SOC 203 - Social Analysis (4) (RLA)
(Also ANT 203). This course will provide students entering the Sociology/Anthropology Major with a grounding in the history of the two disciplines, an introduction to key topics and theorists, and training in the basic skills of reading and writing for the social sciences. It will serve as a gateway course for students interested in majoring in Sociology/Anthropology. Prerequisite: ENG 151, COR 100. Crosslisted as: ANT 203.

SOC 210 - Sociology of Health and Medicine (4) (RLA)
4 hours; 4 credits. Examination of the norms, values, beliefs, role relationships, and organizations of medical practice as a form of human behavior. Emphasis on the social processes that occur in the medical setting. Analysis of the medical environment from a sociological perspective. (social science). Prerequisites: ENG 111, COR 100 and ANT 100 or SOC 100, or SOC/ANT 203. Please Note: This course satisfies the college option.

SOC 212 - Criminology (4) (RLA)
4 hours; 4 credits. Sociological research and theory on crime and criminal behavior. Social, cultural, economic, and psychological factors affecting crime. The definition of crime in historical and cross-cultural perspectives: interpersonal violence, organized crime, corporate crime, and political violations of human rights. (social science). Prerequisites: ENG 111, COR 100 and ANT 100 or SOC 100 or PSY 100 or SOC/ANT 203. Please Note: This course satisfies the college option.

SOC 220 - Marriage and the Family (4) (RLA)
4 hours; 4 credits. Marriage and the family as social institutions. The historical development of these institutions, with special emphasis on the personal and social problems of the matrimonial relationship and of modern family life. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

SOC 226 - Socialization of the Child (4) (RLA)
4 hours; 4 credits. The socialization of the child will be examined in detail in the context of social, cultural, economic, and political institutions; various sociological and psychological theories concerning child rearing. Adolescent socialization, moral development, and the impact of factors such as sex, birth order, social class, and ethnicity will be discussed. (social science). Prerequisites: ENG 111, COR 100 and ANT 100 or SOC 100 or SOC/ANT 203. Please Note: This course satisfies the college option.

SOC 230 - Sociology of Women (4) (RLA)
(Also WGS 230). 4 hours; 4 credits. Social and cultural forces affecting women’s lives. The problems, struggles, and accomplishments of women in social and historical contexts. Changing sex roles and relationships as affected by ethnicity, race, and class. (social science) (p&d) NOTE: This course satisfies the College Option. Prerequisites: ENG 111, COR 100.

SOC 232 - Sociology of Aging (4) (RLA)
(Also WGS 230). 4 hours; 4 credits. Social and cultural forces affecting women’s lives. The problems, struggles, and accomplishments of women in social and historical contexts. Changing sex roles and relationships as affected by ethnicity, race, and class. (social science) (p&d) NOTE: This course satisfies the College Option. Prerequisites: ENG 111, COR 100.

SOC 230 - Sociology of Women (4) (RLA)
(Also WGS 230). 4 hours; 4 credits. Social and cultural forces affecting women’s lives. The problems, struggles, and accomplishments of women in social and historical contexts. Changing sex roles and relationships as affected by ethnicity, race, and class. (social science) (p&d) NOTE: This course satisfies the College Option. Prerequisites: ENG 111, COR 100.

Crosslisted as: WGS 230.

SOC 232 - Sociology of Aging (4) (RLA)
4 hours; 4 credits. Social implications of aging in contemporary society. The changing roles, relationships, and opportunities of people as they grow older, affected by
soc, cultural, medical, political, and economic conditions. 
Issues related to the elderly who need care. (social science). 
Prerequisites: ENG 111, COR 100 and ANT 100 or SOC 100 or SOC 203/ANT 203. Please Note: This course satisfies the college option.

**SOC 235 - Policing and Mass Incarceration (4) (RLA)**
(Also AAD 235/ANT 235/INT 235) 4 hours; 4 credits. Provides a critical perspective of historical and current fighting-crime strategies such as one-strike, zero tolerance and the war on drugs, and their intended and unintended consequences for historically marginalized populations. The course will deal with legal/institutional trends in technologies of policing, the militarization of urban America and activist responses to current ‘crisis’ of police violence against minority groups in the US and beyond. Prerequisites: ENG 151 and SOC 203/ANT 203 or SOC 212 or SOC 200.

Crosslisted as: AAD 235/ANT 235/INT 235.

**SOC 238 - Sociology of Men (4) (RLA)**
(Also WGS 238). 4 hours; 4 credits. Comparative, historical perspectives on the male gender role and male domination through social institutions and male gender role socialization. Issues regarding the relationships of men with each other as well as between men and women. (p&d) (social science. Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

Crosslisted as: WGS 238.

**SOC 240 - Minority Groups (4) (RLA)**
4 hours; 4 credits. Social, political, economic, and historical factors affecting minority group status. The roots of prejudice and discrimination; analysis of their psychological and social causes and consequences in modern societies. Emphasis will be placed on a comparison of different cultures in a global context. (social science) (cont. wld.) (p&d). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

**SOC 245 - Contemporary Social Issues (4) (RLA)**
(Also SLS 245). 4 hours; 4 credits. A study of selected contemporary social problems such as poverty, criminal justice, ethnicity, or race relations from the perspectives of political science, economics, and sociology. The emphasis will be on urban problems. The course will explore the types of questions that might be raised about the topics by persons trained in the social sciences and will explore the methods used to answer such questions. Relationships between modes of inquiry, types of questions asked, and the answers obtained. An emphasis on developing ability to read, understand, and think critically about writings in the social sciences. (social science). Prerequisites: ENG 111, ENG 151, COR 100 and a GPA of 3.0 or above. Please Note: This course satisfies the college option.

Crosslisted as: SLS 245.

**SOC 250 - Sociology of Religion (4) (RLA)**
4 hours; 4 credits. The relationship between religion and society from historical and cross-cultural perspectives. Effects of religion on the culture of groups and societies. The effects of social structure and social change on religion; emergence of new religious forms. (social science). Prerequisites: ENG 111, COR 100 and (ANT 100 or SOC 100 or SOC 203/ANT 203). Please Note: This course satisfies the college option.

**SOC 255 - Sociology of the Arts (4) (RLA)**
4 hours; 4 credits. The relationship between the arts and other institutions of contemporary society (e.g., economics, politics, religion). The structure of different art worlds, and the function of both High and Popular art forms in both strengthening and weakening class boundaries. (social science). Prerequisites: ENG 111, COR 100 and (ANT 100 or SOC 100 or SOC 203/ANT 203). Please Note: This course satisfies the college option.

**SOC 260 - Class, Status, and Power (4) (RLA)**
4 hours; 4 credits. Historical and comparative analysis of social classes and strata-their emergence, persistence, and change-in different types of societies. The effects of class, status, and power on the quality of life and social relations. Recent changes in class structure. (p&d) (social science) (cont. wld.). Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

**SOC 270 - The Community (4) (RLA)**
4 hours; 4 credits. Processes of neighborhood identity formation, cohesion, conflict, decline, and revitalization. The role of women, and ethnic and class-determined groups in community institutions and community organizing. Staten Island as a case study. (social science). Prerequisites: ENG 111, COR 100 and ANT 100 or SOC 203/ANT 203. Please Note: This course satisfies the college option.

**SOC 274 - Social Welfare (4) (RLA)**
(Also SWK 274). 4 hours; 4 credits. The social welfare system in the contemporary state. Social functions and the historical, economic, and political foundations of the welfare system, including the structure of transfer payments and the social relations that it establishes. (social science). Prerequisites: ENG 111, COR 100, SOC 100. Please Note: This course satisfies the college option.

Crosslisted as: SWK 274.
SOC 275 - Sociology of Education (4) (RLA)
4 hours; 4 credits. The changing social and cultural context of contemporary American education. The relationship between education and social inequality, social mobility, and social change. Issues and debates regarding contemporary education. This course does not meet New York State requirements for teacher certification. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

SOC 280 - Sociology and Politics (4) (RLA)
4 hours; 4 credits. The social background of political elites and movements, bureaucracy and the problem of political power, conflict and social class, and industrial and postindustrial society. Readings from classical theorists and contemporary empirical work. (social science). Prerequisites: ENG 111, COR 100 and (ANT 100 or SOC 100 or SOC 203/ANT 203). Please Note: This course satisfies the college option.

SOC 292 - The Individual in Society (4) (RLA)
4 hours; 4 credits. The social context and meaning of individual behavior and face-to-face interaction. An examination of sociological theory and research, from the classic writings of Mead to recent phenomenologists and critics of psychotherapy. (social science). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.

SOC 301 - Computerized Research Analysis (4) (RLA)
4 hours; 4 credits. This course will help students to acquire quantitative research skills by introducing them to important computer applications in the social sciences. It covers data management and analysis using appropriate software packages such as SPSS. Topics on social statistics will focus on the understanding of principles, selection of procedures, and interpretation of results. Prerequisites: SOC 201; MTH 102, MTH 113, or a higher-level mathematics course.

SOC 302 - Contemporary Sociological Theory (4) (RLA)
4 hours; 4 credits. Theoretical traditions and schools of thought within contemporary sociology including those of functionalism, conflict theory, exchange theory, neo-Marxism, feminism, ethnomethodology, world-systems theory, and historical-comparative theory. Underlying assumptions and cultural biases in social thought. Prerequisite: SOC 200.

SOC 305 - Power and Society in Latin America (4) (RLA)
Also ANT 305/INT 305). 4 hours; 4 credits. This course will offer students a general overview of the political, economic, and cultural forces shaping Latin American societies. It will focus particular attention on social inequalities and the effects of contemporary global changes on the region. Readings and class discussions will address both specific countries and trends affecting the region more broadly. Prerequisite: (SOC 200 or SOC 240 or SOC 260 or ANT 201) or permission of the instructor. Crosslisted as: ANT 305/INT 305.

SOC 306 - Latinas/os in the United States (4) (RLA)
Also ant 306/AMS 306). 4 hours; 4 credits. An examination of the sociological and anthropological literature on Latinas/os in the United States. The main goal is to acquaint students with the most important economic, political, and social aspects that contemporary Latino communities are experiencing. Using ethnographies, the course will focus on community formation, social movements, race and ethnicity, gender and sexuality issues, immigration, and transnationalism. Class discussions will also address differences based on national origin, class, and generation. This is a reading and writing intensive course in which students are expected to conduct primary research. (p&d) Prerequisite: ANT 201 and one of the following: SOC 200, SOC 201, SOC 240, or SOC 260. Please Note: This course satisfies the college option. Crosslisted as: AMS 306/ANT 306.

SOC 307 - Caribbean Societies (4) (RLA)
Also ANT 307/INT 307). 4 hours; 4 credits; An introduction to the sociological and anthropological literature on Caribbean societies. The main objective is to acquaint students with the most important economic, political, and social aspects of the region. Using ethnographies, the course will focus on the development of plantation society, nation-state formation, race and ethnicity, gender, political economy, and transnationalism. Class discussions will also address the issues of economic development, human rights, globalization, and U.S. foreign policies on the region. This is a reading and writing intensive course in which students are expected to conduct primary research. Prerequisite: INT 200 or INT 203 or any ANT or SOC 200-level course. Crosslisted as: ANT 307/INT 307.

SOC 312 - Food, Self, and Society (4) (RLA)
Also ANT 312/WGS 312/GEG 312). 4 hours; 4 credits. A sociological and anthropological examination of the ways in which the production and consumption of food shape and are shaped by the self and the social world. A major theme of the course will be the gendering of food through topics such as women's traditional roles as home cooks, women laborers in global food production, and female body image. Particular attention will be given to the meaning of practices of eating, preparing, and sharing food for the individual,
family, community, and nation, and how these practices are influenced by larger forces such as social inequality and globalization. Students are expected to conduct primary research. Prerequisites: ENG 151 and (ANT 201 or SOC 201).

Crosslisted as: ANT 312/WGS 312/GEG 312.

SOC 313 - Modern Korean Culture (4) (RLA)
(Also ANT 313). 4 hours; 4 credit. A survey of modern Korean culture and society since 1945. The course will examine key dimensions of South Korean society, including the division of the peninsula, the legacies of the Korean War, projects of national economic development, gender dynamics, and social movements, to the most recent social and cultural phenomena and multiculturalism under the aegis of Global Korea. Prerequisite: ENG 151 and SOC 200-level.

Crosslisted as: ANT 313.

SOC 314 - The High Cost of Cheap Food (4) (RLA)
(Also ANT 314). 4 hours; 4 credits. An examination of the problems associated with the mass consumption of industrialized food such as exploitation of labor, environmental degradation, animal abuse, widespread obesity and illness, and the erosion of social and cultural ties. We will critically examine the ways in which the industrialization of our food supply has made calories cheap and plentiful and how the society at large pays for cheap food's hidden costs. Some of the questions we will ask include: How has social stratification historically affected people's relationship to (consumption of) industrial food? Why do most Americans struggle to eat well? How is the work force in America's farms, factories and food service establishments raced and gendered? In what ways has the food industry worked to obscure its own practices? How have government regulations been shaped to cater to the needs of food companies rather than consumers? Through the lens of industrial food, this course focuses particular attention on issues of labor, immigration and capitalism. Prerequisite: COR 100, ENG 151 and (ANT/SOC 200 or SOC 200 or SOC 200 or SOC 312/ANT 312/WGS 312/GEG 312).

Crosslisted as: ANT 314.

SOC 322 - Sociology of the Environment and Ecology (4) (RLA)
4 hours; 4 credits. An overview of various aspects, approaches, key issues, and case studies relevant to the sociology of the environment and environmental issues, focusing on overlaps between the sociological perspective or imagination and ecological thinking. This course covers the basic facts of major environmental issues, both local (such as Fresh Kills, Love Canal, and cancer rates and pollution on Staten Island and Long Island) and global (such as the Deepwater Horizon disaster, industrialized food production, and citizens' movements for environmental awareness). Importantly, this course in Environmental Sociology will focus on the roles played by class, the market, labor interests, social geography, race, gender, and colonialism in the development, classification, and treatment of environmental problems. Prerequisite: ENG 151 and (one or more of the following: SOC 200, SOC 201, ANT 201, SOC 260).

Crosslisted as: SLS 325.

SOC 328 - Meat Markets, Gender and Violence in the Lives of Humans and Other Animals (4) (RLA)
4 hours; 4 credits. A sociological study of gender and violence in the lives of humans and other animals. Using a sociological lens, this course explores violence in both the meat industry and intimate human lives. We also look at cultural notions about which groups are violent, and social realities of where violence actually happens in our relationships, homes and workplaces. Throughout the term, we focus on differences and similarities in experiences of violence across lines of class, race, sexuality and species. Prerequisite: ENG 151 and one of the following: SOC 200 or SOC 200 or SOC 203/ANT 203.

Crosslisted as: WGS 330, ANT 331.

SOC 330 - Women and Work (4) (RLA)
(Also WGS 330/ANT 331). 4 hours; 4 credits. The social and cultural constraints affecting women's participation and attainments in the world of work. Conflicts between work role expectations and gender role expectations (e.g., femininity, nurturance, maternity). The effects of class background and race/ethnicity on women's occupations, professions, and incomes. (p&d). Prerequisites: ENG 151 and (any 200-level SOC/ANT course or WGS 230 or WGS 238). Please note: This course satisfies the college option.

Crosslisted as: WGS 330, ANT 331.
SOC 332 - Social Movements and Social Justice (4) (RLA)

(Also AAD 332/ANT 332/INT 332). 4 hours; 4 credits. An introduction to key sociological theories and concepts in the study of social movements. Addressing various questions, including: how have powerless groups of people organized social movements to try to improve their lives and change the society in which they lived? What did these movements accomplish in terms of improving people’s day-to-day lives? What role has policing and police played in social movements? Prerequisite: ENG 151 and (SOC 203/ANT 203 or SOC 212 or SOC 200).

SOC 340 - Ethnicity and Immigration (4) (RLA)

4 hours; 4 credits. Social, cultural, and historical factors affecting ethnic group experience and socioeconomic status, both in the United States and among immigrants in other societies. Comparison of immigrant groups of first, second, and third generations. The role of women in different ethnic groups. (p&d). Prerequisites: (ANT 100, SOC 100 or SOC 203/ANT 203) and a 200-level ANT or SOC course. Please Note: This course satisfies the college option.

SOC 345 - Sociology of Mental Illness (4) (RLA)

4 hours; 4 credits. An examination of the sociological dimensions of mental illness. The foundation of this course is to critically analyze the social, cultural and historical constructions of the concept of "mental illness," paying particular attention to the ways in which both disordered and normal patterns of thinking are medicalized. Some of the questions we will ask include: What is mental illness? How does social stratification along lines of race, class and gender affect who gets labeled as mentally ill and how they are treated? What is the history of modern psychiatry? How has industry affected the rise in diagnoses of mental illness? What is the relationship between prisons and mental institutions? How is psychiatric treatment used as a form of social control? What are alternative ways of thinking about mental illness? Prerequisite: ENG, 151, COR 100 and (SOC 100 or ANT/SOC 203 or PSY 100).

SOC 350 - Psychosocial Aspects of Disability (4) (RLA)

4 hours; 4 credits. The psychosocial impact of disability, differential development, and social adjustment among disabled groups, friendships, intimacy, and sexuality. The changing role and status of the disabled in our society with particular emphasis on the issues of stigmatization and labeling. (p&d). Prerequisites: SWK 107 and (SOC 100 or SOC 203/ANT 203). Please Note: This course satisfies the college option.

SOC 360 - Sociology of Work and Leisure (4) (RLA)

4 hours; 4 credits. Analysis of the world of work and the separate world of leisure, and their social and economic pre-conditions and consequences. Theories of occupations and professions, career patterns, and their relationship to the social structuring of class, status, power, race, and gender. Prerequisites: (ANT 100, SOC 100, or SOC 203/ANT 203) and a 200-level ANT or SOC course.

SOC 367 - Globalization and the World System (4) (RNL)

(Also ANT 367/INT 367). 4 hours; 4 credits; This course explores major issues and current approaches in sociological thinking on globalization and the world system. Globalization will be examined as a multifaceted phenomenon, encompassing changing economic and political forces and the movement of people, ideas, images, and technologies across national boundaries. Particular attention will be given to how global forces structure inequalities both across nations and within them. Prerequisites: SOC 200 or SOC 240 or SOC 260 or ANT 201. Crosslisted as: ANT 367/INT 367.

SOC 370 - Urban Sociology (4) (RLA)

4 hours; 4 credits. The social structure and culture of city life. Issues of urban politics, racial and ethnic relationships, housing, crime, cultural institutions, economics, communications, city planning and design. Historical origins of the city in the Western world; the future of cities worldwide. New York City as a case study. Prerequisites: (ANT 100, SOC 100 or SOC 203/ANT 203) and a 200-level ANT or SOC course.

SOC 371 - Media and the Margins (4) (RLA)

(Also COM 371). 4 hours; 4 credits; An examination of the role of the mass media as cultural institutions that shape the images and self-images of marginalized groups. The course engages with definitions based on, but not limited to, age, disability, ethnicity, gender, race, and sexuality. (p&d). Prerequisites: COM 150 or (a 100-level and a 200-level ANT or SOC course). Please Note: This course satisfies the college option. Crosslisted as: COM 371.

SOC 372 - Institutions of Control (4) (RLA)

4 hours; 4 credits; How leading social institutions (family, schools, mass media, government, and the economy) shape and control U.S. society. The role of racism, sexism, violence, and economic exploitation as forms of social control. Existing patterns of domination and subordination. Prerequisites: ANT 100, SOC 100 or SOC 203/ANT 203 and a 200-level ANT or SOC course.

SOC 374 - Mass Media in Modern Society (4) (RLA)

(Also COM 374). 4 hours; 4 credits; Sociological analysis of the mass media: their comparative histories and
organizations, and their political and social effects. Their persuasive role in propaganda and public opinion, and their function in providing information and entertainment for the common culture. Prerequisites: COM 150 and a 200-level ANT or SOC course.

Crosslisted as: COM 374.

SOC 375 - Sex and Society (4) (RLA)
(Also ANT 375/WGS 375). 4 hours; 4 credits. An overview of the diverse ways that human beings think about, organize, and experience sexuality, sex and gender roles and identities, intimacy and love, marriage, domestic and sexual labor, and other forms of intimate human relationships. We will critically examine the development of sexuality as an object of study within the social sciences while exploring different theoretical approaches and concepts developed to understand it. We will consider various questions, including: what counts as sex? How have constructions of sexuality varied in different social and historical contexts and why? How are the ideologies and regulation of sexuality and gender related to power, social inequality, and the material realities of the political economy and people's everyday lives? The course has transnational perspective, and focuses particular attention on differences and similarities in the experience of sexual relationships across lines of gender, sex, class, race, and sexual orientation. Prerequisite: ENG 151, COR 100.

Crosslisted as: ANT 375/WGS 375.

SOC 376 - Social Change (4) (RLA)
4 hours; 4 credits. Analysis of societal and cultural transformations. Leading theories of social change. Empirical case studies in interpersonal relationships and race relations as well as technological, economic, and political changes. The role of mass media, communities, and organizations. Prerequisites: ANT 100, SOC 100 or SOC 203/ANT 203 and a 200-level ANT or SOC course.

SOC 378 - Social Planning (4) (RLA)
4 hours; 4 credits. Analysis of the underlying assumptions and values embedded in social policy with respect to such issues as poverty, homelessness, education, drug abuse, family violence, community development, human rights, and affirmative action. Cross-cultural models of social planning and the planning process. Prerequisite: SOC 274.

SOC 380 - Sociology of Organizations (4) (RLA)
4 hours; 4 credits. The analysis of modern organizational structures and processes, focusing on social control through specific collective and bureaucratic organizations (business, educational, medical, legal, service, etc). Comparison of internal organizational cultures in public, voluntary, and private sectors. Prerequisites: (ANT 100 or SOC 100) and SOC 203/ANT 203 and a 200-level ANT or SOC course.

SOC 400 - Research Seminar in Sociology/Anthropology (4) (RLA)
(Also ANT 400). 4 hours; 4 credits. The course is intended to enable students to integrate a variety of interest areas in sociology and/or anthropology, thereby culminating the major with a synthesis provided through theoretical perspectives. Prerequisite: SOC 200, SOC 201, Minimum grade of C or better in SOC 203/ANT 203, Minimum 8 credits in SOC/ANT 300 level or above.

Crosslisted as: ANT 400.

SOC 410 - Sociological Issues (4) (RLA)
4 hours; 4 credits; Detailed exploration of selected social issues according to student interest (e.g., homelessness, health care, substance abuse, domestic violence), as affected by such variables as social class, race, religion, gender, technological change. Prerequisite: SOC 201 or permission of the instructor.

SOC 420 - Birth and Death (4) (RLA)
(Also WGS 420). 4 hours; 4 credits. An exploration of the different sociological renderings of birth and death in contemporary societies. Understanding the concepts of birth and death from a sociological perspective offers an excellent opportunity to explore the intersections of race, class, gender, spirituality, and age. This course will be heavily geared toward feminist and critical perspectives. It will explore recent technological innovations and their implications for representations of conception, birth, and death. Prerequisites: ENG 151 and any 200-level SOC/ANT course or WGS 230 or WGS 238.

Crosslisted as: WGS 420.

SOC 427 - Sociology of Language (4) (RLA)
(Also LING 380). 4 hours; 4 credits. Areas of discussion include language and class, language and sex, language and race, and language and ethnicity. Prerequisite: ENG 151.

Crosslisted as: LING 380.

SPD - Student Service Dev. Courses

SPD 101 - Issues in College Life (1) (RNL)
2 hours; 1 credit. A developmental overview of college life. Emphasis is placed on those concepts and skills that relate to broader life issues. Through discussion of the individual's educational goals, attitudes, and values, the student explores the learning community, educational options, choices, and techniques to improve study and college survival skills. The course is graded Pass/Fail. Not to be taken in the same semester with SPD 102.
SPD 102 - Career Development (1) (RNL)
2 hours; 1 credit. Factors to be considered in career decision making; the value and limitations of test data; clarification of work values; mid-career change; non-traditional careers; trends in the world of work; career opportunities in various professional, technical, and business fields; the changing labor market; reasons for attending college; educational options; job finding techniques (resources, résumés, interviews).

SPD 105 - Personal Growth and Development (1) (RNL)
2 hours; 1 credit. Exploration of personal growth, individual differences and their origins, methods of coping with stress, and personality change. The focus is on the development of the self and the influences of external and internal forces on it. Strategies for coping with life's challenges will be discussed and explored.

SPN - Spanish

SPN 101 - Spanish Conversation I (2) (RLA)
2 hours; 2 credits. Practical Spanish for business, community relations, travel, and simple technical application. For beginners with no previous knowledge of the language. Regular attendance in the Modern Languages Media Center is required.

SPN 102 - Spanish Conversation II (2) (RLA)
2 hours; 2 credits; A continuation of SPN 101. Regular attendance in the Modern Languages Media Center is required. Prerequisite: SPN 101 or equivalent.

SPN 112 - Basic Spanish I (3) (FWGR)
A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the Modern Languages Media Center is required. Not open to native/heritage speakers. (foreign lang.) (FWGR) Prerequisite: Passing CUNY Assessment Tests in Reading and Writing.

SPN 113 - Basic Spanish I (4) (RLA)
4 hours; 4 credits. A beginning course in the fundamentals of expression and communication for those who have had no previous work in the language. Regular attendance in the Modern Languages Media Center is required. Not open to students who have taken SPN 113 or higher. Not open to native/heritage speakers. (foreign lang.) Prerequisite: SPN 112 or equivalent. Passing the CUNY/ACT Reading and Writing tests; Not open to native/heritage speakers.

SPN 114 - Basic Spanish II (4) (RLA)
4 hours; 4 credits. A continuation of SPN 113. Regular attendance in the Modern Languages Media Center is required. (foreign lang.) Prerequisite: SPN 112 or SPN 113 or equivalent. Passing the CUNY/ACT Reading and Writing tests; Not open to native/heritage speakers.

SPN 119 - Elementary Spanish for Heritage Speakers (3) (RLA)
4 hours; 3 credits. Elementary Spanish for Heritage Speakers is designed for Hispanic bilinguals educated in the U.S., who have little or no formal instruction in the language. The course offers those students opportunities to study Spanish formally in an academic setting through a review of specific grammar structures, expansion or development of vocabulary, and discussion of rhetorical techniques. Regular attendance in the World Languages and Literatures Media Center is required. Prerequisite: Passing the CUNY Assessment Test in Reading and passing the CUNY Assessment Test in Writing.

SPN 120 - Intensive Spanish I (6) (RLA)
6 hours; 6 credits. A beginning intensive course in fundamentals of expression and communication for those who have had no previous work in the language and are interested in pursuing upper-division courses in Spanish. By the end of the semester the student will have completed a program that provides a strong basis in the functional literacy in Spanish. (foreign lang.) Prerequisite: Passing the CUNY Assessment Test in Reading and Writing.

SPN 213 - Continuing Spanish I (4) (RLA)
4 hours; 4 credits. Grammar review and more intensive training in the fundamentals of expression and communication, both written and oral, based on selected cultural readings. Regular attendance in the Modern Languages Media Center is required. (foreign lang.). Closed to Native Speakers. Prerequisite: SPN 213 or equivalent.

SPN 215 - Continuing Spanish II (4) (RLA)
4 hours; 4 credits. A continuation of SPN 213 with stress on written and oral composition and on selected cultural and literary readings of intermediate difficulty. Regular attendance in the Modern Languages Media Center is required. (foreign lang.). Prerequisite: SPN 213 or equivalent.

SPN 219 - Intensive Spanish for Heritage Speakers (5) (RLA)
5 hours; 5 credits. A course that develops the linguistic assets of heritage speakers of Spanish to further enhance their written and spoken Spanish to achieve a minimum of intermediate proficiency as defined by the American Council on the Teaching of Foreign Languages (ACTFL). (foreign lang.). Prerequisite: SPN 119 or Permission from the instructor.
SPN 220 - Intensive Spanish II (6) (RLA)
6 hours; 6 credits. A continuing intensive course in fundamentals of expression and communication for those who have successfully completed SPN 120, and are interested in pursuing upper-division courses in Spanish. Particular emphasis will be placed on written and oral communication based on selected cultural readings. (foreign lang.). Prerequisite: Passing the CUNY Assessment Test in Reading and Writing and SPN 120.

SPN 313 - Advanced Communication Skills (4) (RLA)
4 hours; 4 credits. Refinement of written and oral expression through composition, translation, oral reports, and critical study of the Spanish grammar based on the analysis of selected literary readings of advanced difficulty. Regular attendance in the Modern Languages Media Center is required. Prerequisite: SPN 215 or equivalent.

SPN 315 - Advanced Composition (4) (RLA)
4 hours; 4 credits. Designed to improve students' written Spanish and to provide advanced training. Students will write in a variety of situations, learn to distinguish between spoken and written styles, and focus on problems of contrastive grammar. Emphasis is on developing fluency and accuracy in the written language. Regular attendance in the Modern Languages Media Center is required. Prerequisite: SPN 313 or equivalent.

SPN 316 - Introduction to Hispanic Linguistics (4) (RLA)
4 hours; 4 credits. An introduction to topics in Hispanic linguistics. The course starts with the introduction of concepts that help students understand the nature of language, such as prescriptive and descriptive grammar, grammatical judgments, linguistic prejudice, and the nature and goals of linguistic inquiry. Seven different areas of Hispanic linguistics are presented in the course: phonetics, phonology, morphology, syntax, history of the Spanish language, sociolinguistics, and acquisition of Spanish as a first and second language. The general goal of the course is to present a broad view of the nature of human language using Spanish as an example. Prerequisite: SPN 313.

SPN 319 - Introduction to Translation (4) (RLA)
4 hours; 4 credits. Development of skills for reading and translating technical and literary Spanish into English. Emphasis on the use of general and specialized dictionaries and other tools of the professional translator. Prerequisites: (SPN 313 or equivalent) and (ENG 151 or an ENH 200-level course).

SPN 320 - The Civilization of Spain (4) (RLA)
4 hours; 4 credits. A panoramic approach to the history, art, literature, and other aspects of Spanish civilization. Prerequisite: SPN 313 or equivalent.

SPN 325 - The Civilization of Pre-Colombian Spanish America (4) (RLA)
4 hours; 4 credits. The Mayan, Incan, and Aztec cultures of pre-Columbian Spanish America. Taught bilingually. Readings and assignments in Spanish required for majors; readings and assignments may be done in English for non-majors. (p&d). Prerequisite: SPN 313 or equivalent. Please Note: this course satisfies the college option.

SPN 330 - The Civilization of Spanish America (4) (RLA)
4 hours; 4 credits. A panoramic approach to the history, art, literature, and other aspects of the civilization of Spanish America. (p&d). Prerequisite: SPN 313 or equivalent. Please Note: this course satisfies the college option.

SPN 339 - Spanish Society and Literature through 1700 (4) (RLA)
4 hours; 4 credits. The purpose of this course is to introduce the historical and cultural movements in Spain through the 1700s. This course will explore the main historical, literary, and cultural tendencies that occurred in Spain from the Middle Ages until the 18th century. Topics will include the link between literature, history, and the arts, society and its traditions. The student will study a main text on the civilization and the culture of Spain as well as selections of literary, critical, and/or artistic works related to the topics discussed in class. Prerequisite: SPN 313 or equivalent.

SPN 340 - An Introduction to the Literature of Spain (4) (RLA)
4 hours; 4 credits. A survey of Spanish literature from medieval times through the Romantic period. (literature). Prerequisite: SPN 313 or equivalent.

SPN 341 - Spanish Society and Literature from 1700 to the Present (4) (RLA)
4 hours; 4 credits. The purpose of this course is to introduce the historical and cultural movements in Spain from the 1700s to present times. This course will explore the main historical, literary and cultural tendencies that occurred in Spain from the 18th century to 21st century. Topics will include: the link between literature, history, and the arts, society and its traditions. The student will study a main text on civilization and culture of Spain as well as selections of literary, critical, and/or artistic works related to the topics discussed in class. Prerequisite: SPN 313 or equivalent.
**SPN 342 - Spanish American Society and Literature through Modernism (4) (RLA)**

4 hours; 4 credits. The purpose of this course is to introduce the student to the literature and sociocultural context of Spanish America from the pre-Colombian civilizations through the "modernismo" period at the end of the 19th century. Through the reading of historical accounts, essays, excerpts of novels, short stories, and poetry, as well as through the analysis of art, film, and music from the different regions, we will span over 400 years of Spanish American literature and culture up to the emergence of the independent American states. Prerequisite: SPN 313.

**SPN 343 - Spanish American Society and Literature from Modernism to the 21st Century (4) (RLA)**

4 hours; 4 credits. The purpose of this course is to introduce the student to the literature and sociocultural context of Spanish America from the "modernismo" period at the end of the 19th century up to the most recent literary movements in the 21st century. Through the reading of historical accounts, essays, excerpts of novels, short stories, and poetry, as well through the analysis of art, film, and music from the different regions, we will span over a century of Spanish American literature and culture. Prerequisite: SPN 313.

**SPN 345 - Spanish Theater (4) (RLA)**

(Also DRA 345). 4 hours; 4 credits. Discussion of ideas, background, and staging traditions of representative Spanish-language plays from the Golden Age to the present. The course is taught in English. Readings and assignments in Spanish required for majors; readings and assignments may be done in English for non-majors. (literature). Prerequisite: (SPN 313 or equivalent for those doing readings and assignments in Spanish), (ENG 151 or a 200-level English course for those doing readings and assignments in English). Please Note: this course satisfies the college option.

Crosslisted as: DRA 345.

**SPN 350 - Introduction to Spanish American Literature (4) (RLA)**

4 hours; 4 credits. A survey of the development of Spanish American literature from pre-Colombian literature to modernism. (literature) (p&d) (TALA). Prerequisite: SPN 313 or equivalent. Please Note: this course satisfies the college option.

**SPN 352 - Studies in Spanish American Literature and Culture I (4) (RLA)**

4 hours; 4 credits. Intensive study of selected topics in Spanish American literature and culture. The specific emphasis will vary from semester to semester. This course may be repeated for credit. (literature) (TALA). Prerequisite: SPN 313. Note: This course satisfies the college option.

**SPN 359 - Studies in Peninsular Spanish Literature and Culture I (4) (RLA)**

4 hours; 4 credits. Intensive study of selected topics in Peninsular Spanish literature and culture. The specific emphasis will vary from semester to semester. This course may be repeated for credit. (literature) (TALA). Prerequisite: SPN 313. NOTE: This course satisfies the college option.

**SPN 370 - Varieties of Spoken Spanish (4) (RLA)**

4 hours; 4 credits. A descriptive and critical overview of the different varieties of oral Spanish. This course concentrates on Spanish varieties spoken in Spain, Latin America, and the United States, but will also give an overview of other varieties of Spanish, e.g., Judeo-Spanish and Afro-Spanish. The main objective of the course is to develop critical and linguistic awareness about the relationship between language, individual, and society, in the context of the spread of Spanish in the world. There will be a special emphasis on migration and Spanish-speaking communities (monolingual and bilingual) in Spain, Latin America, and the United States. The course includes a required research component. Prerequisite: SPN 313 or equivalent

**SPN 415 - Transatlantic Cinema (4) (RNL)**

4 Credits; 4 Hours. An interdisciplinary survey of motion pictures as an art form, entertainment industry, and communication medium via screenings, discussions, and readings about contemporary cinema and culture from both Spain and Latin America. The course will be entirely taught in Spanish. Prerequisite: SPN 313.

**SPN 425 - The Golden Age of Spanish Drama (4) (RLA)**

(Also DRA 425). 4 hours; 4 credits. Works by Cervantes, Lope de Vega, Tirso de Molina, Guillén de Castro, Mira De Amescua, Ruiz de Alarcón, Calderón de la Barca, Rojas Zorrilla, Agustín Moreto, and others. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

Crosslisted as: DRA 425.

**SPN 430 - Cervantes: Don Quixote and Other Works (4) (RLA)**

4 hours; 4 credits. A study of the language, thought, and art of Cervantes as seen in his masterpieces. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.
SPN 450 - The Modern Spanish Novel (4) (RLA)
4 hours; 4 credits. A study of Spanish novelist from Galdós to the present. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 452 - Studies in Spanish American Literature and Culture II (4) (RLA)
4 hours; 4 credits. Intensive study of selected topics in Spanish American literature and culture. The specific emphasis will vary from semester to semester. This course may be repeated for credit. (literature) (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 453 - Modernism and The Generation of 98 (4) (RLA)
4 hours; 4 credits. This course examines the role of the Generation of 98 in late-19th and early-20th-century Spanish literature (1895-1936). The members of the Generation were deeply committed to the fervent political and cultural debate that began before 1898 and persisted until the Civil War. Recent research has also extolled the Modernist features of their works. In order to place the Generation of 98 in its historical, cultural, and literary contexts, this course discusses a selection of texts (prose, poetry, and drama), that show the concern of these "Noventayochistas" in the scrutiny of Spanish national identity and of its role in the Spanish decadence that led to the 1898 crisis; Spanish politics from the 1880s to the Civil War; the impact of the crisis in the early-20th-century novel, poetry and drama; the representations of Modernism; and the influence of the Generation of 98 upon later literary groups, especially Novecentismo. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 455 - The Modern Spanish American Novel (4) (RLA)
4 hours; 4 credits. Reading and interpretation of the works of representative modern and contemporary writers from several Spanish American countries. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 459 - Studies in Peninsular Spanish Literature and Culture II (4) (RLA)
4 hours; 4 credits. Intensive study of selected topics in Peninsular Spanish literature and culture. The specific emphasis will vary from semester to semester. This course may be repeated for credit. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 462 - Lorca and the Spanish Poetry of the 20th Century (4) (RLA)
4 hours; 4 credits. The works of Lorca, Machado, Unamuno, J.R. Jiménez, Aleixandre, Guillén, Cernuda, and Salinas will be considered. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 463 - Spanish American Poetry from Modernism to the 21st Century (4) (RLA)
4 hours; 4 credits. The purpose of this course is to introduce the student to a panoramic survey of Spanish American poetry. We will begin with the irruption of "modernismo", an innovative trend through which poets such as Rubén Darío, José Martí, and Manuel Gutiérrez Nájera imported European models and renovated Spanish American poetry. The course will then study the various Spanish American avant-garde movements to conclude with the most important poetic projects of the second half of the 20th century, including the works of Octavio Paz, Nicanor Parra, José Lezama Lima, and Jorge Luis Borges. (literature) (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 465 - Spanish Theater in the 20th Century (4) (RLA)
(Also DRA 465). 4 hours; 4 credits. Principal tendencies in Spanish theater in the 20th century. Including an analysis of the major works of dramatists such as Benavente, Valle-Inclán, García Lorca, Miñura, Buero Vallejo, Alfonso Sastre, Carlos Muniz, Lauro Olmo, Arrabal, Antonio Gala, and others. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.
Crosslisted as: DRA 465.

SPN 470 - Spanish American Theater in the 20th Century (4) (RLA)
4 hours; 4 credits. A study of the main trends and an analysis of the most significant plays of contemporary Spanish American playwrights. (literature). (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 475 - The Contemporary Spanish American Short Story (4) (RLA)
4 hours; 4 credits. Readings and discussion of the works of outstanding contemporary authors. (literature), (TALA). Prerequisite: SPN 313 or equivalent. Note: This course satisfies the college option.

SPN 480 - Literature of the Hispanic Caribbean (4) (RLA)
4 hours; 4 credits. Reading and discussion of literary works of outstanding modern and contemporary Cuban,
SWK - Social Work

SWK 105 - Introduction to Disability Studies (3) (RLA)
3 hours; 3 credits. An introduction to the emerging, multidisciplinary field of disability. The course will cover the social construction of disabilities, which is distinct from a medical model of disabilities. Included are definitions, early history of disabilities, the disability rights movements, eugenics, policy that impacts people with disabilities, legal issues, self-advocacy, and disability culture.

SWK 107 - Introduction to Developmental Disabilities (3) (RNL)
3 hours; 3 credits. Overview of the key knowledge on developmental disabilities. Issues to be explored include defining the disabled throughout the life cycle, normalization, deinstitutionalization, mainstreaming, case management and advocacy, ethical and legal issues, the Developmental Disabilities Movement and its impact on the family and community.

SWK 200 - Introduction to Social Work (3) (RNL)
3 hours; 3 credits. An introduction to the profession of social work through an examination of its value base, fields of practice, and role in society. Major social problems, philosophies of the delivery of social welfare provision, program and policy initiatives, and the response of social work as a profession are addressed. The obligation of professional social workers to promote social and economic justice on behalf of populations vulnerable to or oppressed by ethnocentrism, racism, heterosexism, ableism, ageism, or religious/spiritual affiliations is emphasized. Pre- or corequisites: ENG 111, SOC 100

SWK 220 - Social Work practice with Older Adults (3) (RLA)
3 hours; 3 credits. An introduction to gerontological social work, a field of social work practice which focuses on the biopsychosocial needs of older adults and their families and the social services and health care systems which promote successful aging. This course is open to majors and non-majors. Prerequisite: ENG 151

SWK 300 - Social Work Research I (3) (RNL)
3 hours; 3 credits. This course provides an examination of the principles and theory underlying scientific inquiry and the practices of social science research. The focus is on developing informed consumers of social work research. The course introduces students to critical reading, understanding, and the use of library research and web resources in social work practice, often referred to as evidence-based practice, steps in conducting research, and research efforts toward developing and evaluating social work knowledge and skills. Prerequisite: Admission to the BSSW program and MTH 113. Pre- or corequisite: SWK 305 (if taken as a prerequisite, requires a grade of C or higher).

SWK 302 - Social Work Research II (3) (RNL)
3 hours; 3 credits. Continuation of SWK 300. This course deals with identifying appropriate research methods, and evaluating and applying standard social science research methods. Qualitative and quantitative methods are explored. Descriptive and inferential statistics are presented. In addition, the course covers the logic of data preparation and analysis. It reviews the basic skills required to evaluate and write research reports including graphic and statistical analysis and presentation. This course fosters an appreciation for diversity and an awareness of and sensitivity to social work research with diverse groups, based on multiple dimensions including race, ethnicity, gender, sexual orientation, and disability. Prerequisite: SWK 300 with a grade of C or higher.

SWK 305 - Diversity in Social Work (3) (RNL)
3 hours; 3 credits. A framework for the development of the cultural competency skills needed to work with diverse clients, social groups, and communities. The course introduces the student to Critical Multicultural Theory, a theoretical framework for understanding and respecting culturally diverse populations. The theories presented in this course are the basis for the integration of cultural diversity issues throughout the curriculum. Prerequisite: Admission to the BSSW program.

SWK 306 - Community Service Learning & Professional Development Seminar (3) (RLA)
3 hours; 3 credits. Students will participate in a 65-hour service learning experience within a local social service agency, school, or other human service organization. Concurrently, students will attend a two-hour weekly seminar-format class. The purpose of the seminar service learning experience is to expose students to professional community-based human service practice and help students prepare for the senior field practicum (SWK 454). The course is designed to expose students to the beginning engagement skills, with particular attention to professional roles and boundaries of social work, social work values and ethics, self-reflection, development of the professional self, the importance of social justice values, cultural competency and cultural humility in providing services to clients and the policy contexts of services. Note: a grade of B or higher is required for students to be eligible to enter a field placement (SWK 454). This course may be repeated once. Prerequisite: Admission to the BSSW program.
SWK 301 - Human Behavior in the Social Environment I (3) (RNL)

3 hours; 3 credits. The first of two foundation theory courses. The course will provide the student with the theoretical framework needed to develop as a generalist social work practitioner. Students learn to apply key theoretical frameworks to the exploration of societal issues and the impact of racial, ethnic, class, cultural, religious/spiritual, and gender diversity on behavior. The course will examine the reciprocal nature of these interactions on persons, families, social groups, communities, organizations, and institutions. Prerequisite: Admission to the BSSW program. Pre- or corequisite: SWK 305 (if taken as a prerequisite requires a grade of C or higher).

SWK 311 - Human Behavior in the Social Environment II (3) (RNL)

3 hours; 3 credits. The second of two foundation theory courses. The course will provide the student with the theoretical framework needed to develop as a generalist social work practitioner. This course will provide the generalist social worker with a broad, theoretical knowledge base to work effectively with individuals, families, groups, organizations, and communities. The students will study human development from a life course perspective recognizing patterns in the human behavior related to biological age, psychological age, and social age norms. The course will cover diversity in the life course related to historical time, gender, race, ethnicity, social class, current global trends, and other dimensions. Prerequisite: SWK 311 with a grade of C or higher.

SWK 307 - Drugs and Alcohol (3) (RNL)

3 hours; 3 credits. Drugs and alcohol from a social work perspective. This course focuses on the social reality of drug use, and drug users, within contemporary society and includes a historical analysis of the social construction of drug use, drug users, abuse, and addiction. Students will investigate complex relationships among individual behavior, group behavior, and social structure. Central concepts such as social learning, labeling, power, and inequality, as well as socio-cultural definitions of drugs, behavior, and the people who use drugs, will be the tools of analysis. Special attention will be given to the complex legal history surrounding drug use, the link between drugs and crime, the impact of the medicalization of human behavior, and varying perspectives on "doing something about drugs". Pre- or corequisite: SWK 305 (if taken as a prerequisite requires a grade of C or higher).

SWK 321 - Social Work Practice with Older Adults (3) (RLA)

3 hours; 3 credits. An introduction to gerontological social work, a field of social work practice which focuses on the biopsychosocial needs of older adults and their families and the social services and health care systems which promote successful aging. Prerequisite: ENG 151

SWK 322 - Social Work Ethics and Human Rights (3) (RLA)

3 hours; 3 credits. Explores social work ethics and human rights. The goal of this course is to equip students with the skills they need when facing ethical dilemmas across micro, mezzo and macro fields of practice. Specific emphasis is placed on values, ethics and human rights as they are embodied in contemporary practice. This course will be particularly directed to social ethics addressing the moral quality of societal arrangements and the values and ethical principles that guide social policies that deal with ethical obligations of society. Prerequisites: Admission to the BSSW program.

SWK 350 - Social Work Practice I (3) (RNL)

3 hours; 3 credits. First of three courses in social work practice. In preparation for practice in the field, this course emphasizes practice with individuals and families. Assessment, intervention and evaluation are taught from a social work perspective. Students study the NASW code of professional values and ethics. Issues of diversity and working with populations at risk in the urban environment are integrated. Skill development includes interviewing and recording skills analysis of need, use of self, communication techniques, and the problem-solving process. This course may be repeated once. NOTE: To graduate, a grade of B or higher is required in SWK 350. Prerequisites: Admission to the BSSW program and SWK 200 with a grade of C or higher. Pre- or corequisite: SWK 311 with a grade of C or higher.

SWK 360 - Social Work Practice II (3) (RNL)

3 hours; 3 credits. Second of three courses in social work practice. As preparation for practice in the field, this second course emphasizes practice with groups. Group assessment, intervention and evaluation are taught from a social work perspective. Students study the NASW code of professional values and ethics. Issues of diversity and working with populations at risk in the urban environment are integrated. Skill development includes use of self, communication techniques, and the problem-solving process. The types of groups studies will vary from social action to support groups. This course may be repeated once. NOTE: A grade of B or high is required in SWK 360 for graduation. Prerequisite: SWK 350 with a grade of B or higher.
SWK 365 - Social Work Practice III (3) (RLA)
3 hours; 3 credits. Third of three courses in social work practice. The social work practice sequence provides an introduction to the basic theory and methods of generalist social work practice with individuals, families, groups, organizations and communities. As a preparation for practice in the field, this third course emphasizes practice with organizations, neighborhoods and communities. Change strategies such as social action, legislative policy, citizen participation, advocacy and service development are explored. All case material is studied within the context of the values of the social work profession and the recognition of the importance of cultural diversity. This course may be repeated once. NOTE: A grade of B or higher is required in SWK 365 for graduation. Prerequisite: SWK 350 with a grade of B or higher.

3 hours; 3 credits; An introduction to fundamental concepts, values, terminology, frameworks, and ethical issues that define social welfare policy. Students will be introduced to the historical and philosophical bases of American social welfare programs. This course will help students understand the contemporary welfare state in terms of its underlying motivations - political, economic, ideological, religious, and social - their impact on social welfare institutions, and the role of the profession of social work in this context. This is the first of a two-part sequence, designed to prepare generalist practitioners with an understanding of the evolution of the social welfare system in the United States, as well as in the global context. The course specifically emphasizes how historically under represented groups (e.g. people of color, people with disabilities, women, LGBTQ people, and children) have been affected by social welfare policy throughout history. Prerequisite: POL 100 and SWK 305.

SWK 440 - Internship in Developmental Disabilities (4) (RLN)
2 class hours, 6 field hours; 4 credits. The student is assigned to an agency devoted to the care and supervision of persons with developmental disabilities. The two hours per week in class are devoted to feedback and discussion of issues related to field experiences. Written records are an integral part of the field experience. In semesters when this course is not offered, students may register for an individual internship.

SWK 454 - Social Work Field Practicum I (4) (RNL)
16 field hours; 4 credits. A practicum where each student is placed at a community agency. Students are expected to spend a minimum of 240 hours during the semester (16 hours per week) in the agency. Direct interaction with individuals and groups from diverse backgrounds, reflective supervision, and process recordings will aid the student in developing greater cultural awareness and sensitivity. Students will gain skills while working under the instruction of professional social work practitioners who are "teachers" in the field, in conjunction with the guidance of the Social Work faculty at CSI. The Practicum will be graded as Pass/Fail, however a grade will not be assigned until SWK 464, which is a continuation of SWK 454, is completed. Prerequisite: Senior Standing. SWK 300, SWK 302, SWK 305, SWK 311, SWK 312, SWK 350 and SWK 370. In addition, student must meet the following criteria: Completed all general education requirements, an overall GPA of 2.5, a grade of C in all SWK courses, except SWK 350 where a B or better is required to advance. Pre- or corequisite: SWK 360 (if taken as a prerequisite a grade of B or higher). Corequisite: SWK 455.

SWK 455 - Social Work Field Seminar I (2) (RNL)
2 class hours, 2 credits. First course of a two-semester sequence taken in conjunction with field practicum. The purpose of the seminar is to facilitate students' integration of the educational experience in class and the field. During the Field Seminar, students will be supported in their learning in various ways. Students will discuss issues related to field placement and problem solve with their peers. Students will be introduced to a variety of topics including the NASW Code of Ethics, professional roles, cultural competency, effective interventions and documentation. Prerequisite: Senior Standing. SWK 300, SWK 302, SWK 305, SWK 311, SWK 312, SWK 350 and SWK 370. In addition, student must meet the following criteria: Completed all general education requirements, an overall GPA of 2.5, a grade of C or better in all SWK courses, except SWK 350 where a B or better is required to advance. Pre- or corequisite: SWK 360 (if taken as a prerequisite a grade of B or higher). Corequisite: SWK 454.

SWK 464 - Social Work Field Practicum II (4) (RNL)
16 field hours; 4 credits. A continuation of the Field Practicum I. Students are expected to spend a minimum of 240 hours during the semester (16 hours per week) in the agency. Direct interaction with individuals and groups from diverse backgrounds, reflective supervision, and process recordings will aid the student in developing greater cultural awareness and sensitivity. Students will gain skills while working under the instruction of professional social work practitioners who are "teachers" in the field in conjunction with the guidance of the Social Work faculty at CSI. The Practicum will be graded as Pass/Fail. Prerequisite: SWK 454 with a passing grade; SWK 455 with a passing grade.

SWK 465 - Social Work Field Seminar II (2) (RNL)
2 credits, 2 hours. The second course of a two-semester sequence which continues to facilitate students' integration
of the educational experience in class and the field. In addition, the field seminar is the capstone course in the social work program that synthesizes theory, research, policy, and practice methods. Students are to produce documents that combine research and analysis applied to practice in the field. Understanding of social work concepts and readiness/competency to begin the professional social work practice is the goal of the capstone course. Students will explore significant social work issues, bringing their experience and knowledge to bear on the interaction of their values and skills within the major. Prerequisite: SWK 454 with a passing grade; SWK 455 with a passing grade. Corequisite: SWK 464

3 hours; 3 credits. This is the second policy course in a two semester sequence. This course builds on the historical perspectives presented in SWK 370. It is designed to offer students knowledge of issues surrounding the development, implementation, and evaluation of social welfare policies that have affected and continue to affect historically oppressed groups in the United States. Specific policy areas to be discussed include healthcare, mental health, child welfare, people with disabilities, the elderly, and criminal justice. Students in this course will understand the need for social work involvement in political arenas, advocacy groups, and as part of organizational change, to advance social, political, and economic justice. The course will demonstrate the various policy analysis tools to teach students to better understand how policy affects practice and how social workers can influence policy. Prerequisite: SWK 370 with a grade of C or higher.

SWK 594 - Social Work Independent Study (4) (RNL)
4 hours; 4 credits.

WGS - Women's, Gender and Sexuality Studies

WGS 100 - Women's History and Feminist Theory (3) (RLA)
(Also HST 182). 3 hours; 3 credits. This course explores both the history of women's experience and feminist interpretations of their historical condition. Emphasis is on the development of analytic and writing skills. Crosslisted as: HST 182.

WGS 201 - Introduction to Women's, Gender, and Sexuality Studies (4) (RLA)
4 hours; 4 credits. An introduction to the study of women, gender (including femininity and masculinity), and sexuality as they have developed over time, paying particular attention to the importance of political engagement and social movements and to markers/questions of difference, such as race, ethnicity, class, religion, and physical ability. The course will highlight the interdisciplinary nature of the study of women, gender, and sexuality, exposing students to a range of foundational texts including film, performance, literature, and other relevant media.(p&d) (TALA) (social science). NOTE: This course may count for either TALA or for Social Science, but not for both. Prerequisites: ENG 151, COR 100. Please Note: This course satisfies the college option.

WGS 202 - Gender, Race, Ethnicity and Class (4) (RLA)
(Also SOC 202). 4 hours; 4 credits; How gender, race, ethnicity, and class interact with each other and influence personal identities, opportunities, and life experiences. The effects of these factors on attitudes and ideology, from the perspectives of scholars to those of political groups within and among nation-states. The effects of political economy and the division of labor on gender, race, and class. (social science) (p&d). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option. Crosslisted as: SOC 202.

WGS 203 - Gender in the Contemporary World (4) (RLA)
(Also INT 203). 4 hours; 4 credits; An introduction to issues of gender worldwide. This interdisciplinary course draws on literary, cultural, social scientific, and historical approaches to explore the significance of gender in societies in Africa, Asia, Latin America, and the Middle East, and to enable students to think critically about gender issues. (cont world) (p&d). Prerequisites: COR 100, ENG 151. Please Note: This course satisfies the college option. Crosslisted as: INT 203.

WGS 217 - Introduction to Women's History (4) (RLA)
(Also HST 217). 4 hours; 4 credits; An overview of the history of women and the role of gender in history, focusing especially on the period since the 1700s. The course will examine key texts regarding women and their status in world history and address the development of the discipline of women's history within the larger field of women's studies. For History majors and minors, this is designated as a world history course. (social science) (p&d). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option. Crosslisted as: HST 217.

WGS 222 - Women and Literature (4) (RLA)
(Also ENH 222). 4 hours; 4 credits; A study of works by and about women drawn from a variety of periods and genres.
WGS 230 - Sociology of Women (4) (RLA)
(Also SOC 230). 4 hours; 4 credits; Social and cultural forces affecting women's lives. The problems, struggles, and accomplishments of women in social and historical contexts. Changing sex roles and relationships as affected by ethnicity, race, and class. (social science) (p&d). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.
Crosslisted as: SOC 230.

WGS 235 - Gender and Sexuality (4) (RLA)
(Also PSY 235). 4 hours; 4 credits. A critical examination of the way in which human sexual functioning has been viewed by both women and men. Critical consideration of theories of sexuality in psychology, including psychoanalytic, evolutionary, social constructionist, and feminist theories of sexuality. Evaluation of recent research on AIDS/HIV, lesbian and gay issues, sexual violence against women, and sex education. Special attention to cultural factors that influence women's and men's understandings of their sexuality and of other sexually transmittable diseases. Present problems and practices as well as future possibilities will be discussed. (p&d). Prerequisite: ENG 111. Please Note: This course satisfies the college option.
Crosslisted as: PSY 235.

WGS 238 - Sociology of Men (4) (RLA)
(Also SOC 238). 4 hours; 4 credits. Comparative, historical perspectives on the male gender role and male domination through social institutions and male gender role socialization. Issues regarding the relationships of men with each other as well as between men and women. (social science) (p&d). Prerequisites: ENG 111, COR 100. Please Note: This course satisfies the college option.
Crosslisted as: SOC 238.

WGS 240 - Sex Roles and the Law (4) (RLA)
4 hours; 4 credits. Examination of the legal rights of women and men in employment, marital law, housing, and other areas where sex discrimination can be observed.

WGS 266 - Women in European Literature to the Renaissance (4) (RLA)
(Also LNG 266). 4 hours; 4 credits; Women as writers and characters in European literature from classical antiquity to the Renaissance. (literature) (p&d). Prerequisites: ENG 111, ENG 151. Please Note: This course satisfies the college option.
Crosslisted as: LNG 266.

WGS 267 - Women in European Literature after the Renaissance (4) (RLA)
(Also LNG 266). 4 hours; 4 credits; Women as writers and characters in European literature from classical antiquity to the Renaissance. (literature) (p&d). Prerequisites: ENG 111, ENG 151. Please Note: This course satisfies the college option.
Crosslisted as: LNG 266.

WGS 268 - Psychology of Women (4) (RLA)
(Also PSY 268). 4 hours; 4 credits; A critical review of theories and issues concerning the psychology of women. Theories of gender including biological, psychoanalytic, and social learning, among others, will be discussed. Issues particularly relevant to the lives of women and to the psychology of gender will be explored including gender stereotypes, physical and mental health issues, sexuality, personal relationships, and violence against women. (p&d). Prerequisite: PSY 100. Please Note: This course satisfies the college option.
Crosslisted as: PSY 268.

WGS 270 - Women and the Fine Arts (4) (RLA)
(Also ART 240). 4 hours; 4 credits. This course examines the twofold relationship of women to the fine arts; their role as subjects and as artists. Topics such as the portrayal of women as goddess, mother and housewife, and as artist will be undertaken with a view to the social and historical input and implications of this imagery. The circumstances of women artists from the Renaissance to the present will also be considered. (arts & com.) (p&d). Prerequisites: (ENG 111 and WGS 100) or (ART 100 or 103 or 104) or permission of the instructor. Please Note: this course satisfies the college option.
Crosslisted as: ART 240.

WGS 271 - Women and Film (4) (RLA)
(Also CIN 271). 4 hours; 4 credits; Explores the historical trajectory of the representation and self-representation of women in film, with particular attention to the significant developments in the status and achievements of women as stars, screenwriters, directors, consumers, and spectators. Screenings of key films, techniques of critical analysis of the moving image, weekly readings, discussions, and lectures, will all help to shape this consideration of film representations of what gender is, and what it has produced, over a period of more than 100 years. Prerequisites: ENG 151
Crosslisted as: CIN 271.
WGS 272 - Women as Creative Persons (4) (RLA)
4 hours; 4 credits. Exploration of women's aesthetic in the visual arts.

WGS 280 - Introduction to Women's Written Expression (4) (RLA)
(Also ENL 280). 4 hours; 4 credits; A course to develop skills in both imaginative and critical writing based primarily on the student's personal experiences with some analysis of poetry and short stories written by selected women authors. Prerequisite: ENG 151

Crosslisted as: ENL 280.

WGS 286 - History of American Women (4) (RLA)
(Also HST 286). 4 hours; 4 credits; This course introduces students to broad themes in American women's history from colonial times to the present and focuses on women as historical actors and on the historical forces shaping the construction of womanhood. The course will pay particular attention to differences among women with respect to race, class, ethnicity, and sexual orientation. (social science) (p&d). Prerequisites: ENG 111 and COR 100 or any college-level history course. Please Note: this course satisfies the college option.

Crosslisted as: HST 286.

WGS 300 - Research Problems in Feminism (4) (RLA)
4 hours; 4 credits; Review of current feminist research emphasizing specific problems. Students will complete original research projects.

WGS 305 - Women in Latin America (4) (RLA)
(Also HST 305). 4 hours; 4 Credits. This course traces the history of women in Latin America from the late colonial era to the present. Women's lives in Latin America challenge many common assumptions about gender learned in the United States. Latin America is a region where patriarchal legal systems exist alongside economic enclaves owned and operated almost completely by women. Our goal will be to map out the differences between and commonalities among Latin American women's lives and understand how these lives changed over time. Our exploration of the question of change leads us to examine as well the major political, economic, and social trends in Latin American history, asking how women's choices contributed to them, as well as how women's lives were affected by them. For History majors and minors, this is designated a World History course. Prerequisite: Any 200-level history course and ENG 151.

Crosslisted as: HST 305.

WGS 306 - Community Workshop (4) (RLA)
4 hours; 4 credits; This course will provide students with an opportunity to learn about and discuss methods for social change, to plan their own fieldwork, and to evaluate its effectiveness.

WGS 308 - Gender and Sexuality in China and Japanese Literature (4) (RLA)
(Also CHN 308/LNG 308). 4 hours; 4 credits. A survey on the construction of gender relations in China and Japan, from the late imperial to the contemporary era. Topics include: the representation of gender identities in literature, the patterns and politics that inform these narratives, and the relations between the construction of gender and national identities during China and Japan’s critical historical transitions. Prerequisite: An ENH 200-level course or a CHN 213-level course.

Crosslisted as: CHN/LNG 308.

WGS 312 - Food, Self, and Society (4) (RLA)
(Also SOC 312/ANT 312/GEG 312); 4 hours; 4 credits; A sociological and anthropological examination of the ways in which the production and consumption of food shape and are shaped by the self and the social world. A major theme of the course will be the gendering of food through topics such as women's traditional roles as home cooks, women laborers in global food production, and female body image. Particular attention will be given to the meaning of practices of eating, preparing and sharing food for the individual, family, community and nation, and how these practices are influenced by larger forces such as social inequality and globalization. Students are expected to conduct primary research. Prerequisites: ENG 151 and (ANT 201 or SOC 201).

Crosslisted as: SOC 312/ANT 312/GEG 312.

WGS 340 - Mentoring and Adolescent Development (4) (RNL)
(Also PSY 340). 3 lecture hours, 2 fieldwork hours; 4 credits; Introduction to the developmental concerns and clinical skills needed to form mentoring relationships with at-risk adolescent populations. Coursework entails review of the literature on mentoring as well as specific issues regarding adolescent development, with an emphasis on gender identity. Other topics addressed may include race, ethnicity, class, and sexual orientation. Students do onsite mentoring under faculty supervision and have the opportunity to evaluate these fieldwork experiences in class. Prerequisites: Permission of the instructor, a minimum of 45 credits completed, and successful completion of PSY 226 or PSY 242.

Crosslisted as: PSY 340.
**WGS 348 - Women Novelists (4) (RLA)**

(Also ENL 348). 4 hours; 4 credits. Significant novels by such women authors as Jane Austen, George Eliot, Elizabeth Gaskell, Willa Cather, Virginia Woolf, Doris Lessing, Jean Rhys. For English majors and minors, this is designated as a literature, genre, and Literature written by women, American minorities, writers in Asia (including the Middle East), Africa, Latin America, and the Caribbean. (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: An ENH 200-level course or ENL 290.

Crosslisted as: ENL 348.

**WGS 353 - The Feminist Challenge in French Literature (4) (RLA)**

(Also FRN 350). 4 hours; 4 credits. A study of the most important women writers in French literature, focusing primarily on selected works of Christine de Pisan, Marguerite de Navarre, Madame de Staël, George Sand, Colette, Simone de Beauvoir, Françoise Sagan, Nathalie Sarraute. Taught in French. (literature). Prerequisite: FRN 313 or equivalent. Please Note: this course satisfies the college option.

Crosslisted as: FRN 350.

**WGS 355 - Contemporary Issues in Human Sexuality (4) (RNL)**

(Also PSY 355). 4 hours; 4 credits. This course focuses on current issues in the psychological study of human sexuality, with an emphasis on social psychological perspectives. It will review contemporary debates in the psychological theory and research on human sexuality. It will begin with an overview of current theories, research methods, and issues related to the study of sexuality in psychology. It will then cover current controversies in the measurement of sexuality, theories of sexual desire, debates about sexual pathologies and treatments, the impact of technology on sexuality, and conclude with a few unresolved issues and future directions. Prerequisite: PSY 235.

Crosslisted as: PSY 355.

**WGS 368 - Queer Studies (4) (RLA)**

(Also ENL 368). 4 hours; 4 credits. An introduction to the field of lesbian/gay/bisexual/transgender and queer studies. Readings will be drawn from a variety of literary and critical works that explore sexual identity categories and their meaning in culture (p&d) Pre- or corequisite: An ENH 200-level course or ENL 290. Please Note: this course satisfies the college option.

Crosslisted as: ENL 368.

**WGS 369 - Gender and the Negotiation of Difference (4) (RLA)**

(Also ENL 369). 4 hours; 4 credits. A study of intersections of gender with race, class and/or sexualities, in various literary genres and national traditions. For English majors or minors concentrating in literature, this course fulfills the requirements for Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. For linguistics, writing, and dramatic literature concentrators, it counts as an elective in the major. Prerequisite: An ENH 200-level course or ENL 290.

Crosslisted as: ENL 369.

**WGS 375 - Sex and Society (4) (RLA)**

(Also ANT 375/SOC 375). 4 hours; 4 credits. An overview of the diverse ways that human beings think about, organize, and experience sexuality, sex and gender roles and identities, intimacy and love, marriage, domestic and sexual labor, and other forms of intimate human relationships. We will critically examine the development of sexuality as an object of study within the social sciences while exploring different theoretical approaches and concepts developed to understand it. We will consider various questions, including: what counts as sex? How have constructions of sexuality varied in different social and historical contexts and why? How are the ideologies and regulation of sexuality and gender related to power, social inequality, and the material realities of the political economy and people's everyday lives? The course has transnational perspective, and focuses particular attention on differences and similarities in the experience of sexual relationships across lines of gender, sex, class, race, and sexual orientation. Prerequisite: ENG 151, COR 100.

Crosslisted as: ANT 375/SOC 375.

**WGS 380 - Women in Performance (4) (RLA)**

(Also DRA 380). 4 hours; 4 credits; This class is a study of performing women, in particular women performance artists, who have made a significant difference in helping women's images and voices achieve greater representation in culture as a whole. Students will study works by the artists, reviews, and critical writing about the works, and create their own performances. Prerequisites: Any 200-level ENH or WGS course.

Crosslisted as: DRA 380.
WGS 385 - Major Women Author II (4) (RLA)
(Also ENL 385). 4 hours; 4 credits. Intensive study of the works of a major woman author. For English majors and minors, this is designated as a literature and Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: An ENH 200-level course or ENL 290.
Crosslisted as: ENL 385.

WGS 386 - The Recovery of Women's Past (4) (RLA)
(Also HST 386). 4 hours; 4 credits. An examination of the history of women, beginning with ancient and classical notions of patriarchy in Mediterranean and Near Eastern cultures. Review of Jewish, Christian, and Islamic prescriptions about women as a basis for understanding the changes in modern Western history.;Approximately half of the course will examine the past two centuries when women's movements, feminisms, gender analysis, and sexual liberation evolved. (p&d). Prerequisites: Any 200-level history course and ENG 151. Please Note: this course satisfies the college option.
Crosslisted as: HST 386.

WGS 387 - Major Women Author III (4) (RLA)
(Also ENL 386). 4 hours; 4 credits. Intensive study of the works of a major woman author. For English majors and minors, this is designated as a literature and Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: An ENH 200-level course or ENL 290.
Crosslisted as: ENL 386.

WGS 389 - Themes in American Women's History (4) (RLA)
(Also HST 389). 4 hours; 4 credits. An exploration of selected themes in American women' history from the colonial era to the present. This course, which is organized either around a chronological period, a thematic topic, or a geographical region, also examines women's historical methodology and literature. (p&d). Prerequisites: Any 200-level history course and ENG 151. Please Note: This course satisfies the college option.
Crosslisted as: HST 389.

WGS 390 - Studies in Women in Literature and the Arts (4) (RLA)
(Also ENL 390). 4 hours; 4 credits. This course examines women’s literature, art, and film as shaped by national culture, historical circumstances, class, and age. For English majors and minors, this is designated as a literature, Literature in Translation, Genre, and Literature written by women, American minorities, or writers in Asia (including the Middle East), Africa, Latin America and the Caribbean. (p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: An ENH 200-level course or ENL 290.
Crosslisted as: ENL 390.

WGS 391 - Woman as Hero (4) (RLA)
(Also ENL 391). 4 hours; 4 credits. Selected readings from Greek drama through current literature, revealing the position and experience of women as heroes. For English majors and minors, this is designated as a literature and Women, American minorities, writers in Asia (including the Middle East), Africa, Latin America, and the Caribbean and world literature course.(p&d) (TALA) NOTE: This course satisfies the College Option. Prerequisite: An ENH 200-level course or ENL 290.
Crosslisted as: ENL 391.

WGS 420 - Birth and Death (4) (RLA)
(Also SOC 420). 4 hours; 4 credits. An exploration of the different sociological renderings of birth and death in contemporary societies. Understanding the concepts of birth and death from a sociological perspective offers an excellent opportunity to explore the intersections of race, class, gender, spirituality, and age. This course will be heavily geared toward feminist and critical perspectives. It will explore recent technological innovations and their implications for representations of conception, birth, and death. Prerequisites: ENG 151 and any 200-level SOC/ANT course or WGS 230 or WGS 238.
Crosslisted as: SOC 420.

WGS 442 - Women's Written Expression (4) (RLA)
(Also ENL 442). 4 hours; 4 credits. A seminar to develop skills in both imaginative and critical writing, incorporating an analysis and comparison of the stylistic developments of women authors. Prerequisites: ENG 111, ENG 151.
Crosslisted as: ENL 442.

WGS 490 - Gender Based Activism Internship (4) (RLA)
10 hours internship, 1 hour seminar; 4 credits. An experience in activism in which students collaborate to build and extend a feminist community on campus and strengthen ties between the Women's Center and organizations on Staten Island that serve women and gender/sexuality equality. Interns develop skills for activism, as they plan and run events that support women and others concerned with gender and sexuality. The course includes a one-hour
weekly seminar in which students place their experience in the context of feminist history, theory and/or the practice of other activists. The course is open to WGS majors and minors, and students from other majors who have taken at least 30 credits and who have completed coursework in WGS. This course may be repeated once for credit. Prerequisites: Sophomore standing, any 200- or 300- level WGS course, and permission of instructor.
Appendix i - Policy on Student Conduct
For information please visit the Policy on Student Conduct.

Appendix ii - Computer User Responsibilities
The computer resources of The City University of New York and the College of Staten Island must be used in a manner that is consistent with the University's educational purposes and environment. All users of computer resources are expected to act in a spirit of mutual respect and cooperation, and to adhere to the regulations for their use set forth in this document. As a user of CUNY computer resources:

• You are required to have a valid authorized account to use computer resources that require one and may use only those computer resources that are specifically authorized. You may use your account only in accordance with its authorized purposes and may not use an unauthorized account for any purpose.

• You are responsible for the safeguarding of your computer account. For a mainframe computer account, you should change your password frequently and should not disclose it to anyone. You should take all necessary precautions in protecting the account, no matter what type of computer resource is being used.

• You may not circumvent system protection facilities.

• You may not knowingly use any system to produce system failure or degraded performance.

• You may not engage in unauthorized duplication, alteration or destruction of data, programs or software. You may not transmit or disclose data, programs or software belonging to others and may not copy material protected by copyright.

• You may not engage in abusive or improper use of computer hardware. This includes, but is not limited to, tampering with equipment, unauthorized attempts at repairing equipment and unauthorized removal of equipment components.

• You may not use computer resources for private purposes, including, but not limited to, the use of computer resources for profit-making or illegal purposes.

• You may not use computer resources to engage in abuse of computer personnel or other uses. Such abuse includes the sending of abusive or obscene messages within CUNY or beyond via network facilities.

• The use of college computer resources may be subject to college regulations, and you are expected to be familiar with those regulations.

• These regulations and college regulations are subject to revision. You are expected to be familiar with any revisions in the regulations.

The University reserves the right to monitor, under appropriate conditions, all data contained in the system to protect the integrity of the system and to ensure compliance with regulations.

Any user who is found to be in violation of these rules is subject to the following:

• Suspension and/or termination of computer privileges;

• Disciplinary action by appropriate college and/or University officials;

• Referral to law enforcement authorities for criminal prosecution;

• Other legal action, including action to recover civil damages and penalties.

“Computer Resources” is an inclusive term referring to any and all computing/information technology: hardware, software, and access. Hardware includes, but is not limited to, terminals, personal computers, workstations, printers, wire, monitors, cabling, peripheral devices. Software includes, but is not limited to, mainframe shared software, networked software, and stand-alone software residing on personal computers. Access includes, but is not limited to, accounts on timesharing systems as well as access to stand-alone personal computing systems and other relevant technology.

Appendix iii - CUNY Policy on Academic Integrity
For more information please visit the CUNY Policy on Academic Integrity.

For policy information and forms please visit https://www.ccny.cuny.edu/academicaffairs/integrity-policies

Appendix iv - Immunization Requirement
New York State law requires that students attending postsecondary institutions be immunized against measles, mumps, and rubella. Specifically, all matriculated students born on or after January 1, 1957 must file a form with the Medical Office, signed by a physician, certifying immunity to these diseases prior to registering for more than five credits.
Appendix ix - Policy on Sexual Misconduct

For more information please visit the Policy on Sexual Misconduct.

Appendix v - New York State Education Law Section 224-a

Students unable because of religious beliefs to register or attend classes on certain days:

1. No person shall be expelled from or be refused admission as a student to an institution of higher education for the reason that he/she is unable, because of his/her religious beliefs, to register or to attend classes or to participate in any examination, study, or work requirements on a particular day or days.

2. Any student in an institution of higher education who is unable, because of his/her religious beliefs, to register or attend classes on a particular day or days shall, because of such absence on the particular day or days, be excused from any examination or any study or work requirements.

3. It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his or her religious beliefs, an equivalent opportunity to register for classes or to make up any examination, study, or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.

4. If registration, classes, examinations, study, or work requirements are held on Friday after four o’clock post meridian or on Saturday, similar or makeup classes, examinations, study, opportunity to register, or work requirements shall be made available on other days, where it is possible and practicable to do so. No special fees shall be charged to the student for these classes, examinations, study, registration, or work requirements held on other days.

5. In effectuating the provisions of this section, it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his or her availing himself or herself of the provisions of this section.

6. Any student, who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section, shall be entitled to maintain an action or proceeding in the supreme court of the county in which such institution of higher education is located for the enforcement of his/her rights under this section.

6-a. It shall be the responsibility of the administrative officials of each institution of higher education to give written notice to students of their rights under this section, informing them that each student who is absent from school, because of his or her religious beliefs, must be given an equivalent opportunity to register for classes or to make up any examination, study, or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to each student such equivalent opportunity.

7. As used in this section, the term “institution of higher education” shall mean any institution of higher education, recognized and approved by the regents of the University of the State of New York, which provides a course of study leading to the granting of a postsecondary degree or diploma. Such term shall not include any institution which is operated, supervised, or controlled by a church or by a religious or denominational organization whose educational programs are principally designed for the purpose of training ministers or other religious functionaries or for the purpose of propagating religious doctrines. As used in this section, the term “religious belief” shall mean beliefs associated with any corporation organized and operated exclusively for religious purposes, which is not disqualified for tax exemption under section 501 of the United States Code.

Appendix vi - Rights Concerning Education Records

For information on the CUNY Policy on Rights Concerning Education Records please visit www.csi.cuny.edu/currentstudents/FERPA.pdf.

Policy on Equal Opportunity and Non-Discrimination, and Against Sexual Harrassment

For more information please visit the Policy on Equal Opportunity and Non-Discrimination, and Against Sexual Harrassment.

Reasonable Accomodations Policy

The City University of New York and the College of Staten Island (“the College” or “CSI”), in compliance with Sections 503 and 504 of the Federal Rehabilitation Act of 1973 (“Rehabilitation Act”), the Americans with Disabilities Act of 1990 (“ADA”), New York State
Executive Law §296, and New York City Human Rights Law, provides qualified individuals with disabilities the opportunity to participate in programs, activities, or employment.

For the full policy please visit the Reasonable Accommodations Policy.

**Campus Safety and Security**

The Campus is patrolled by uniformed Campus Peace Officers 24 hour a day 365 days a year. The Public Safety Office is located in building 2A room 108. There are two Public Safety satellite desks located at the front entrance of the campus center (1C) and the lobby of the Library (1L). The Office of Public Safety is charged with the maintenance of security and personal safety of all members of the College community and visitors while on campus. All students and members of the faculty and staff are required to have a valid, updated college identification card in their possession while on campus.

**Crime Awareness and Campus Security Act**

The Federal Crime Awareness and Campus Security Act of 1990 mandates that every college in the nation publicize the incidents of crime reported on its campus. For more information please visit the College of Staten Island's Annual Security Report.

**Tobacco Policy**

The College complies with The City University policy prohibiting the use of tobacco on all grounds and facilities under CUNY jurisdiction, including indoor locations and parking lots; outdoor locations such as playing fields; entrances and exits to buildings; and smoking, which prohibits smoking inside all facilities of the College; tobacco industry promotions, advertising, marketing, and distribution of marketing materials on campus properties; and tobacco industry sponsorship of athletic events and athletes. For more information on please visit the CUNY Tobacco Free Policy website http://www.cuny.edu/about/resources/healthycuny/tobaccofreecuny/DevelopmentofTobaccoFreePolicy.html.

**The City University of New York Campus and Workplace Violence Policy**

For more information please visit The City University of New York Campus and Workplace Violence Prevention Policy.
Directories

New York State Registration

The following listing gives the title of each of the undergraduate degree programs of the College and the Program Code number under which that program is registered with the New York State Department of Education, Office of Higher Education and the Professions, Cultural Education Center, Room 5B28, Albany, NY 12230; 1.528.474.5851.

### Faculty and Staff

**Ahmed, Zaghloul, Professor, PT, PhD**  
Department of Physical Therapy; BS, University of Cairo (Egypt); MA, PT, PhD, CUNY Graduate Center

**Alexander, Jane, Lecturer**  
Department of Engineering and Environmental Science; BS, University of Edinburgh, Scotland; PhD, University College, London, England

**Allen, David, Associate Professor of Education**  
Department of Curriculum and Instruction; BA, Oberlin College; MA, Brown University; EdD, Teachers College, Columbia University

**Alves, Jaime, Assistant Professor**  
Department of Sociology and Anthropology; BA, Universidade de Ribeirao Preto; MA, PhD, The University of Texas (Austin)

**Anastopoulou, Chrisanthi, Higher Education Associate**  
Associate Director of Immersion Programs, Office of Academic Support; AA, BA, College of Staten Island; MA, Queens College

**Anderson, Christopher, Associate Professor of Communications**  
Department of Media Culture; PhD, Columbia University; MA, Columbia University, BA, Indiana University

**Anderson, Michael, Higher Education Officer**  
Director of Academic Assessment; BA, Walsh University; MA, PhD, University of Cincinnati

**Antoniades, Neophytos (Neo), Professor of Electrical Engineering**  
Department of Engineering and Environmental Science; BS, MS, MP, PhD, Columbia University

**Arca-Contreras, Karen, Assistant Professor**  
Department of Nursing; BS, College of Staten Island; MS, Hunter College; PhD, Farleigh Dickinson University

**Arena, Jay, Associate Professor of Sociology**  
Department of Sociology and Anthropology; MA, PhD, Tulane University

** Arenas-Mena, Cesar, Associate Professor of Biology**  
Department of Biology, BS, Universidad de Alcala de Henares and Universitat de Barcelona, PhD, Universitat de Barcelona

**Arievitch, Igor, Professor of Education**  
Department of Educational Studies; MS, PhD, Moscow State University

**Armitage, Deirdre, Higher Education Associate**  
Department of Educational Studies; BA, University of Massachusetts; EDM, PhD, SUNY Buffalo

**Auerbach, Dan, Assistant Professor Music**  
Department of Performing and Creative Arts, BM, MM, The Julliard School; DMA, Mason Gross School of Arts

**Asanbe, Comfort, Associate Professor of Psychology**  
Department of Psychology; BA, University of Ilorin (Nigeria); MEd, MA, Austin Peay State University; PhD, Tennessee State University

**Averbuch, Bryan, Assistant Professor of History**  
Department of History; BA, MA, University of Washington (Seattle); PhD, Harvard University

**Awerbuch, Janice, Higher Education Officer**  
Director of Design Services; BA, Rutgers University

**Baez, Jillian, Assistant Professor of Communications**  
Department of Media Culture; BA, Hunter College; PhD University of Illinois - Urbana Champaign

**Baker, Victoria, Higher Education Assistant**  
Coordinator, Psychology Laboratory, Department of Psychology; BA, College of Staten Island
Balsamini, Dean, Higher Education Associate
  Director, Small Business Development Center; AAS, Brooklyn College; BBA, Baruch College; MBA, Pace University

Banerjee, Probol, Professor of Chemistry/Biochemistry
  Department of Chemistry; BS, MS, Jadavpur University (India); PhD, Indian Institute of Science

Bardsley, Alyson, Associate Professor of English
  Department of English; BA, George Washington University; PhD, University of California (Berkeley)

Baquero-Pecino, Alvaro, Assistant Professor of Spanish
  Department of World Languages and Literatures; MA, New Mexico State University; PhD, Georgetown University

Batson, Michael, Lecturer
  Department of History; BA, College of Staten Island

Bauer, William R., Assistant Professor of Music
  Department of Performing and Creative Arts; BS, Empire State College (SUNY); MA, Columbia University; MPhil, PhD, CUNY Graduate Center

Baybusky, Michael, Higher Education Officer
  Bursar, Office of the Bursar; AAS, Kingsborough Community College; BBA, Baruch College

Becker, Maureen C., Associate Professor of Physical Therapy
  School of Health Sciences; BS, SUNY Downstate; MS, Queens College; DHSc, Institute of Physical Therapy

Bell, Warrick, Executive Associate to the Dean
  School of Business, NZCS, Auckland University of Technology; BA, MA, College of Staten Island (CUNY)

Bellamy, Maria Rice, Associate Professor of English
  Department of English; AB, Harvard University; MA, Middlebury College; MA, Rutgers University; PhD, Rutgers University

Benesch, Sarah, Professor of English
  Department of English; BA, Washington University; MA, PhD, New York University

Benimoff, Alan, Professor
  Department of Engineering and Environmental Science; AS, Staten Island Community College; BS, MA, Brooklyn College; PhD, Lehigh University

Berci, Margaret E., Associate Professor of Education
  Department of Curriculum and Instruction; BSEd, MS, PhD, University of Calgary (Canada)

Berger, Sarah, Professor of Psychology
  Department of Psychology; BA, University of Texas; MA, PhD, New York University

Bernhardt, William, Associate Professor of English
  Department of English; BA, Reed College; MA, Cornell University

Berte, Hope, Higher Education Associate
  Chief of Staff, Office of the President; BA, Brooklyn College

Berteau, Jean-Philippe, Assistant Professor
  Department of Physical Therapy; MSc, PhD, Aix-Marseille University

Bertels, Heidi Malvina Josephus, Assistant Professor
  Department of Management; BS, MA, Higher Institute for Product Development (Belgium); PhD, Stevens Institute of Technology

Binford, Leigh, Professor
  Department of Sociology and Anthropology; BA, University of Memphis; MA, California State University; PhD, University of Connecticut

Blois, Louis E., Lecturer
  Department of Mathematics; BS, Wagner College; MS, New York University

Bologh, Roslyn, Professor of Sociology
  Department of Sociology and Anthropology; BA, Hunter College; PhD, CUNY Graduate Center

Bongiorno, Angelo, Assistant Professor
  Department of Chemistry; PhD, Ecole Polytechnique Federale de Lausanne (EPFL)

Booth, Ann, Higher Education Officer
  Director, Counseling Center; BS, MS, PsyD, Nova Southeastern University

Borrore, Jennifer S., Vice President for Student and Enrollment Services
  Student and Enrollment Services Division; BA, Hampton University; MBA, Baruch College; J.D., Creighton University

Brandt, Robert, Higher Education Assistant
  Director of the Writing Center; BA, Brooklyn College; MA, City College of New York

Brescia, Diane, Higher Education Assistant
  Department of Curriculum and Instruction; BA, Pace University

Brickman, Deborah, Assistant Professor of Accounting
  Department of Accounting and Finance; BBA, Baruch College; MA, Brooklyn College; CPA, NY

Brillhart, Susan, Assistant Professor of Nursing
  Department of Nursing, PhD, CUNY Graduate Center

Brim, Matthew, Associate Professor of English
  Department of English; BA, Wabash College; MA, PhD, Indiana University
Brocatto, Lorraine, Higher Education Associate
Office of Academic Affairs; BA, MA, College of Staten Island

Broga, Donna, Higher Education Assistant
Office of Financial Aid; BA, College of Staten Island

Brooks, Patricia, Professor of Psychology
Department of Psychology; BA, Johns Hopkins University; MA, PhD, New York University

Brogan, Carol, Higher Education Officer
Director of Student Life; BA, SUNY Albany; MA, New York University

Brown, Gregory, Higher Education Associate
Associate Director, Student Life; BA, William Patterson University; MA, Montclair State University

Buonacore-Artz, Michelle, Higher Education Associate
Assistant Director of Recruitment and Admissions; BA, MS, St. John's University

Bussolini, Jeffrey, Associate Professor of Sociology
Department of Sociology and Anthropology; BS, Georgetown University; PhD, CUNY Graduate Center

Camhi (Niekrash), Joanne, Senior College Laboratory Technician
Department of Psychology; BA, College of Staten Island

Camillo Cassandra, Senior College Laboratory Technician
Department of Biology; BS, MS, College of Staten Island

Cammarano, Shannon, Higher Education Officer
Student and Enrollment Services Division; AA, BA, College of Staten Island

Cammarata, Elizabeth, Higher Education Assistant
Bursar's Office; BA, Montclair State University

Campbell, Tracy J., Senior College Laboratory Technician
Department of Engineering Science and Physics; AAS, BS, College of Staten Island

Cappellari, Paolo, Assistant Professor of Information Management
Department of Marketing; MS, PhD, Universita Roma Tre (Rome)

Carbonaro, Lewis, Higher Education Assistant
Coordinator of Facilities, Department of Mathematics; AAS, BS, College of Staten Island

Carlo, Rosanne, Assistant Professor of English
Department of English; BA, Eastern Connecticut State University; MA, University of Arizona, PhD, University of Arizona

Casey, Dennis, Assistant to Higher Education Officer
Security; BA, John Jay College

Casey, Nancy, Higher Education Officer
Director of Finance and Business Services, Accounting Department, CPA; AAS, New York City Technical College; BBA, Baruch College

Chamberlain, Rebecca, Lecturer
Department of Biology; BS, University of Rochester; MS, College of Staten Island

Champamaner, Abhijit, Associate Professor of Mathematics
Department of Mathematics; BS, MS, Bombay University; PhD, Columbia University

Chaudhry, Vandana, Assistant Professor of Social Work
Department of Social Work PhD, BA, MPH, University of New Delhi (India); MSW, TATA Institute of Social Sciences (MUMBAI); University of Illinois, Chicago

Cheplick, Gregory, Professor of Biology
Department of Biology; BS, Edinboro University (Pennsylvania); MS, PhD, Rutgers University

Chiacchiero, Michael; Associate Professor of Physical Therapy
Department of Physical Therapy; BA, College of Staten Island; BS, Penn State University; MS, Rutgers University; DPT, Massachusetts General Hospital

Chin, Ava, Associate Professor of English
Department of English; BA, Queens College; MA, Johns Hopkins University; PhD, University of Southern California

Chris, Cynthia, Associate Professor of Media Culture
Department of Media Culture; BFA, MA, The School of the Art Institute of Chicago; PhD, University of California (San Diego)

Chun, Soon, Professor of Information Systems
Department of Marketing; BA, Busan National University (South Korea); MA, MS, SUNY Buffalo; MBA, PhD, Rutgers University

Ciaccio, Leonard A., Professor of Biology
Department of Biology; BA, Marist College; PhD, Princeton University

Clark-Oropeza, Barbara, Higher Education Associate
Assistant Director, Center for International Service; BA, MA, EdD, University of Iowa

Coffee, Jane P., Professor of Mathematics
Department of Mathematics; BA, Smith College; PhD, University of Pennsylvania

Cohen, Barbara, Higher Education Assistant
Coordinator, Survey Research, Office of Institutional Research; BS, SUNY New Paltz; MSED, Wagner College
Cohen, Florette, Associate Professor  
Department of Psychology; BS, Brooklyn College; MS, PhD, Rutgers University

Collins, Jacob, Assistant Professor  
Department of History; BA, Cornell University; MA, PhD, University of California (Los Angeles)

Condis, Chris, Assistant Professor of Mathematics  
Department of Mathematics; BS, University of Toronto; BS, PhD, University of Chicago

Conte, Linda, Higher Education Associate  
Wellness Coordinator, Division of Student Services; BA, College of Staten Island; MPS, New York Institute of Technology

Cope, Jonathan, Assistant Professor  
Department of the Library; BA, Antioch College; MLS, Queens College MA CUNY Graduate Center

Corin, Robert, Associate Professor of Biology  
Department of Biology; BA, Boston University; PhD, University of Massachusetts

Costa, Peter, Lecturer  
Department of Psychology; BA, Iona College; MA, Fairfield University; EDD, University of Sarasota

Coull, Linda, Lecturer  
Department of Economics; BS, College of Staten Island

Corinien, Enrica, Higher Education Officer  
Director of Development; BA, SUNY Stony Brook

Cumiskey, Kathleen, Associate Professor of Psychology  
Department of Psychology; BA, Douglass College, Rutgers University; MA, Hunter College; PhD, CUNY Graduate Center

Curcio, Danna L., Lecturer  
Department of Nursing; AAS, College of Staten Island; BS, College of Staten Island; MS, FNP, Wagner College; PhD CUNY Graduate Center

D'Alessandro, Mario, Higher Education Officer  
Student and Enrollment Services Division; BA, MA, Brooklyn College

Dang, Soa Thi Thu, Senior College Laboratory Technician  
Department of Chemistry; AAS, BS, College of Staten Island

Das, Satyaprakash, Associate Professor of Engineering  
Department of Engineering Science and Physics; BE, Mysore University (India); MT, Indian Institute of Technology; PhD, University of Newcastle (Australia)

D'Aversa, Ileana, College Laboratory Technician  
Department of Biology; BS, College of Staten Island

Davis, Russell, Higher Education Assistant  
Coordinator CUNY/China Programs, Center for International Service; BA, University of Oklahoma; MA, University of Hawaii (Manoa)

Dawson, Ashley, Professor of English  
Department of English; BA, University of the South; MA, University of Virginia; PhD, Columbia University

de la Dehesa, Rafael, Associate Professor of Sociology  
Department of Sociology and Anthropology; BA, University of Texas; MA, Brown University; MA, Johns Hopkins University; PhD, Harvard University

Del Carmen Alonso, Alejandra, Professor of Biology  
Department of Biology; MS, PhD, Universidad Nacional De Cordóba

DeDepartment of Biology; AAS, College of Staten Island

DeMartinis Hartman, Carol, Senior College Laboratory Technician  
Department of Biology; AAS, College of Staten Island

Derderian, Jean-Claude, Associate Professor of Mathematics  
Department of Mathematics; BA, PhD, Wayne State University

DeSimone, Deborah M., Associate Professor of Education  
Department of Curriculum and Instruction; BA, Brown University; MA, EdD, Teachers College, Columbia University

Diaz, Andrew, Higher Education Associate  
Director of Operational Services; BS, St. John's University

DiCicco-Bloom, Barbara, Associate Professor of Nursing  
Department of Nursing; PhD, New York University

DiMeglio, Veronica, Higher Education Associate  
Curriculum Coordinator; BA, Wagner College; MS, Hunter College

DiMeo-Lyons, Joan, Higher Education Assistant  
Career and Scholarship Center Coordinator; BA, MS, Brooklyn College

Dimitrov, Esq., Danielle E., Higher Education Officer  
Director of Diversity and Compliance; BS, University of Tennessee; MA, New York University; JD, State University of New York

DiPaolo, Gordon, Associate Professor of Management  
Department of Management; BA, Brooklyn College; MBA, PhD, New York University

Dixon, John, Assistant Professor of History
Department of History; BA, University of Birmingham, England; MA, University of East Anglia, England; PhD, University of California
Donoghue, Eileen F., Associate Professor of Education
Department of Curriculum and Instruction; BA, St. Mary's College; MAT, Northwestern University; MS, EdD, Teachers College, Columbia University
Dooley, Margaret, Associate Professor of Biology
Department of Biology; AB, Cornell University; PhD, Syracuse University
Duran-Narucki, Valkiria (Valky), Lecturer
Department of Psychology; MA, New York University; PhD, CUNY Graduate Center
Dzurak, Ewa, Assistant Professor
Department of the Library; MLS, Simmons College, MA, Warsaw University

Faculty and Staff E-H

Edgecomb, Sean F., Assistant Professor of Drama
Department of Performing and Creative Arts, PhD, Tufts University
El Idrissi, Abdeslem, Professor of Biology
Department of Biology; BS, University of Science (Morocco); MA, Brooklyn College; MP, PhD, CUNY Graduate Center
Eng, Winnie, Higher Education Associate
Department of Student Services; BA, Brown University; MA, Temple University
Englard, Baruch, Associate Professor of Accounting
Department of Accounting and Finance; BA, Yeshiva University; MBA, Long Island University; MS, College of Staten Island; CPA, NY
Esperance, Emmanuel, Higher Education Officer
Director, Office of Recruitment and Admissions; BA, Brooklyn College; MS, Baruch College
Fairlie, Dawn, Assistant Professor
Department of Nursing; BS, MS, Wagner College, PhD CUNY Graduate Center
Falkin, James, Lecturer of Political Science
Department of Political Science and Global Affairs; BA, Lawrence University; PhD, University of London.
Farr, Brian, College Laboratory Technician
Department of Library; BA, University of Texas (Austin)
Farren, Arlene T., Associate Professor of Nursing
Department of Nursing; BS, SUNY Downstate; MA, New York University; PhD, New York University; RN, NY
Fata, Jimmie, Assistant Professor of Biology
Department of Biology; BSC, University of Guelph; PhD, University of Toronto
Feola, Maryann, Professor of English
Department of English; BS, Richmond College; MA, Hunter College; PhD, CUNY Graduate Center
Feria, Eral H., Professor
Department of Engineering Science and Physics; BE, ME, City College of New York; PhD, CUNY Graduate Center
Ferrara, Catherine, Higher Education Associate
Office of Diversity and Compliance; BA, SUNY Stonybrook; JD, Albany Law School
Ferrer, Efrain J., Professor
Department of Physics and Astronomy; BS, Havana University; PhD, Lebedev Physical Institute
Ferrari, Chiara, Assistant Professor
Department of World Languages and Literatures; BA, Brooklyn College; MA, PhD, New York University
Ferst, Stephen M., Higher Education Officer
Executive Director, Center for International Service; BA, MEd, Ed.D, Rutgers University
Feuer, Mark, Professor
Department of Engineering and Environmental Science; BA, Harvard; PhD, Yale University
Figueroa, Jackeline, Senior College Laboratory Technician
Department of Physics and Astronomy; AAS, Borough of Manhattan Community College; BS, College of Staten Island
Fischetti, Natalie, Assistant Professor of Nursing
Department of Nursing; BS, MS, Wagner College, PhD, Rutgers University
Flanagan, Richard, Professor of Political Science
Department of Political Science and Global Affairs; BA, Drew University; PhD, Rutgers University
Flynn, Elaine, Higher Education Assistant
Assistant Director, New Student Orientation/CLUE and Pluralism and Diversity; BA, MA, College of Staten Island
Flynn Saulnier, Christine, Professor of Social Work
Department of Social Work; AA, Lansing Community College; BS, Michigan State University; MSW, Boston University, PhD, University of California (Berkley)
Foldes, Antonia, Professor of Mathematics
Department of Mathematics; PhD, Eotvos University, Budapest (Hungary)
Franzblau, Deborah, Associate Professor of Mathematics
Department of Mathematics; BS, University of California (Berkeley); PhD, Massachusetts Institute of Technology

Fritz, William, President and Professor of Geology
Department of Engineering Science and Physics, BS, MS, Walla Walla College, PhD, University of Montana (Missoula)

Fuchs, Gunter, Associate Professor of Mathematics
Department of Mathematics; M.Sc., PhD, Humboldt-University Berlin

Gagliardi, Daniel, Lecturer
Department of Marketing; AAS, BBA, College of Staten Island; MBA, Pace University

Gallego, Antonio, Higher Education Assistant
Assistant Director, Media Services, Department of the Library; AS, BS, MS, College of Staten Island

Galletta, Patricia Z., Assistant Professor of Accounting
Department of Accounting and Finance; BS, St. John's University; MBA, Pace University

Gambetti, Sandra, Professor of History
Department of History; BA, Universita Degli Studi di Bologna; MA, PhD, University of California (Berkeley)

Garambone, Donna, Assistant to Higher Education Officer
Office of Alumni Relations; BA, Rider College

García Colón, Ismael, Associate Professor of Anthropology
Department of Sociology and Anthropology; PhD, University of Connecticut

Gardiner, Stefanie, Higher Education Associate
Office of Financial Aid; BS, MS, College of Staten Island

Garvey, Maureen, Assistant Professor and Evening/Weekend Instruction Librarian
Department of Library; BA, MA, National University of Ireland; MS, City University (London)

Gates, Racquel, Assistant Professor of Media Culture
Department of Media Culture; BS, Georgetown University; MA, University of Chicago; PhD, Northwestern University

Gaymon, Alana, Higher Education Assistant
Academic Program Specialist, Division of Health Sciences; MSc, Central Connecticut State University

Ge, Li, Assistant Professor of Electrical Engineering
Department of Engineering Science and Physics; PhD, Yale University

Gerstle, Donna, Higher Education Associate
Associate Director, Center for Environmental Science; BS, Seton Hall University; MSED, MA, College of Staten Island; JD, New York Law School

Gerson, Kerri, Higher Education Associate
Associate Registrar; BS, Arizona State University; MA, Columbia University

Gerstner, David, Professor of Cinema Studies
Department of Media Culture; BA, MA, SUNY Buffalo; PhD, University of California (Los Angeles)

Gertner, Rosane, Associate Professor of Marketing
Department of Business; BSc, Federal University of Rio de Janeiro (Brazil); MBA, The COPPhead Graduate School of Business (Brazil); MSC, Northwestern University

Gigliotti, Lisa, Senior College Lab Technician
Department of Biology; BS, College of Staten Island

Gigliotti, Eileen, Professor of Nursing
Department of Nursing; BS, Hunter College; MA, PhD, New York University; RN, NY

Gillespie-Lynch, Kristen, Assistant Professor
Department of Psychology; BS, Indiana University; MA, Queens College, CUNY; PhD, UCLA

Giordano, Christoper, M., Assistant Vice President for Student Affairs and Dean of Students
Student and Enrollment Services Division; BA, Rowan University; MS, Upsala College; PhD, University of Toledo

Giordano, Marie, Assistant Professor
Department of Nursing; BS, SUNY Downstate; MS, Hunter College, PhD, CUNY Graduate Center

Gold, Kenneth, Dean of Education and Associate Professor of Education
School of Education; BA, Princeton University; MA, PhD, University of Michigan

Goldner, Ellen, Associate Professor of English
Department of English; BA, Cornell University; MFA, University of Massachusetts; PhD, Brandeis University

Goner, Ozlem, Assistant Professor
Department of Sociology and Anthropology; PhD University of Massachusetts, Amherst

Gonzalez, Manuel, Higher Education Assistant
Coordinator of Special Events; BS, Wagner College; MA, College of Staten Island

Gonzalez-Lama, Regina, Lecturer
Department of Nursing; BS, Lehman College; MS, Colombia University

Goodland, Katharine, Professor of English
Gopalakrishnan, Sarang, Assistant Professor
Department of Physics and Astronomy; BA, Amherst College; PhD, University of Illinois (Urbana-Champaign)

Gomes, Charles, Athletic Director
Sports and Recreation; BA, University of Massachusetts (Amherst); MEd, Springfield College

Gordonov, Anatoliy, Assistant Professor of Computer Science
Department of Computer Science; MS, Moscow Institute of Electronic Engineering; PhD, Russian Academy of Science

Gorokhovsky, Anshel, Professor of Physics
Department of Physics and Astronomy; Dipl (MS equivalent), Institute of Fine Mechanics and Optics (St. Petersburg); PhD (equivalent), Institute of Physics, Estonian Academy of Sciences

Gottlieb, Max, Professor of Accounting and Information Systems
Department of Accounting and Finance; BS, MBA, New York University; PhD (equivalent), University of Gdansk (Poland); CPA, NY

Gray, Timothy, Professor of English
Department of English; BA, Franklin and Marshall College; MA, PhD, University of California (Santa Barbara)

Green, Herman, Higher Education Assistant
Assistant Registrar; BA Drew University; MEd, Baruch

Green, Neila, Higher Education Officer
Student and Enrollment Services Division; BS, Brooklyn College; MEd, Rutgers University

Griffiths, Barbara, Assistant Professor of Nursing
Department of Nursing; AAS, Staten Island Community College

Gross, Patti, Lecturer in Social Work
Department of Social Work; BS, Eastern Michigan University; MSW, New York University

Gruber, Orit, Chief College Laboratory Technician
Department of Computer Science; BS, MS, Polytechnic Institute of New York

Gu, Jianying, Assistant Professor of Biology
Department of Biology; BS, Fudan University (China); MS, Shanghai Institute of Plant Physiology (China), Academia Sinica; MS, PhD, Iowa State University

Gueorguieva, Natacha, Professor of Computer Science
Department of Computer Science; BS, MS, Technical University, Sofia (Bulgaria); PhD (equivalent), Moscow Technical University

Guo, Chang, Senior College Laboratory Technician
Department of Computer Science; BA, Northwestern University; BS, Salem-Teikyo University

Guo, Nancy, Assistant Professor
Department of Marketing; PhD, Rutgers University

Haber, Aleksandar, Assistant Professor
Department of Engineering and Environmental Science; MSc, University of Belgrade; PhD, Delft University of Technology

Hagedorn, Christina, Assistant Professor of English
Department of English; MA, PhD, University of Southern California

Haj, Samira, Professor of History
Department of History; BA, Beirut College for Women (Lebanon); MA, PhD, University of California (Los Angeles)

Hale, Chris, Assistant Professor of Education
Department of Education Studies; PhD, CUNY Graduate Center

Halley, Jean, Professor
Department of Sociology and Anthropology; MA, Harvard; PhD, The Graduate Center of the City University of New York

Hamkins, Joel D., Professor of Mathematics
Department of Mathematics; BS, California Institute of Technology; CPhil, PhD, University of California (Berkeley)

Han, Bang-Geul, Assistant Professor of Communications
Department of Media Culture; BFA, Seoul National University; MFA, Alfred University

HaysAnne, Assistant Professor
Department of Library; BA, Smith College, MFA, Sarah Lawrence College; MLIS, Queens College

Heller, Sherman, Associate Professor of Mathematics
Department of Mathematics; BS, Queens College; MS, PhD, Brooklyn Polytechnic Institute

Heller, Sherry, Higher Education Associate
Business Office; BS, Ithaca College

Hendrickson, Rosheen, Associate Professor of Political Science
Department of Political Science and Global Affairs; BA, University of Washington; MA, PhD, Northwestern University

Herskovitz, Paul J., Associate Professor of Business Law
Hill, Darryl, Professor of Psychology  
Department of Psychology; BA, MA, University of Saskatchewan (Canada); PhD, University of Windsor (Canada)

Hladek, James, Associate Professor of Mechanical Engineering  
Department of Engineering and Environmental Science; BME, Cooper Union; MME, Pratt Institute; PE, NY

Hoeller, Hildegard, Professor of English  
Department of English; BA, BS, University of Saarland (Germany); MA, PhD, Rutgers University

Hoffner, Alan, Higher Education Officer  
Director, College Testing; AA, Kingsborough Community College; BA, Brooklyn College; MSED, Baruch College

Holak, Susan, Dean of Business and Professor of Marketing  
School of Business; BS, University of Pennsylvania; MPhil, PhD, Columbia University

Holder, Calvin B., Professor of History  
Department of History; AB, City College of New York; AM, PhD, Harvard University

Hollan, Joanne, Higher Education Assistant  
Assistant Director, Career and Scholarship Center; BS, SUNY New Paltz; MS, St. John's University

Hu, Qiao-Sheng, Professor of Chemistry  
Department of Chemistry; BS, Lanzhou University (China); MS, PhD, Shanghai Institute of Organic Chemistry-Chinese Academy of Sciences (China)

Huang, Zheng, Associate Professor of Mathematics  
Department of Mathematics; BS, MS, University of Science and Technology of China; PhD, Rice University

Hunt, Sandra, Assistant Professor of Psychology  
Department of Psychology; BA, University of Missouri; MA, Southern Illinois University; PhD, University of Massachusetts (Amherst)

Huo, Yumei, Associate Professor of Computer Science  
Department of Computer Science; BS, MS, University of Science & Technology (China); PhD, New Jersey Institute of Technology

Hwang, Seokyoun, Assistant Professor  
Department of Accounting & Finance; MBA, University of Maryland; PhD, Rutgers University

Faculty and Staff I-L

Incera, Vivian, Dean of Science and Technology Division of Science and Technology; BS, Havana University; PhD, Lebedev Physical Insitute in Moscow

Ivison Eric, Professor of History  
Department of History; BA, MA, PhD, University of Birmingham (England)

Iwama, Ken, Esq., Higher Education Officer  
Vice President of Economic Development; BA, University of New Hampshire; JD Seton Hall University School of Law

Jankowski, John, Higher Education Associate  
Theater Operations Manager, Center for the Arts; BA, Hunter College; MFA, Yale University

Jeffreys, Marianne, Professor of Nursing  
Department of Nursing; BSN, SUNY Plattsburgh; MEd, MA, EdD, Teachers College, Columbia University; RN, NY; RN, NJ

Jess, Tyehimba, Associate Professor  
Department of English; BA, University of Chicago; MFA, New York University

Jiang, Xin (Jessica), Associate Professor of Engineering  
Department of Engineering and Environmental Science; BS, MS, PhD, Tsinghua University (China); MBA, University of Southern California

Jin, Shi, Associate Professor of Chemistry  
Department of Chemistry; BS, Nanjing Univerity, PhD; Nanjing University (China); PhD, University of Akron

John, Linda, Higher Education Officer  
Director of Computer Labs/LAN Systems, Office of Information Technology; BS, St. John's University; MS, College of Staten Island

Jones, Wilma, Professor  
Department of the Library; AA, Parkland Community College; BA, MA, MA, Northern Illinois University; PhD, New York University

Judge, Kevin, Associate Professor of Drama  
Department of Performing and Creative Arts; BFA, University of Michigan, MFA, University of California (San Diego)

Kabachnik, Peter, Associate Professor of Geography  
Department of Political Science and Global Affairs; MA, Rutgers University; PhD, University of California (Los Angeles)

Kahan, Sylvia, Professor of Music  
Department of Performing and Creative Arts; BA, Oberlin Conservatory; MA, Michigan State University; DMA, CUNY Graduate Center

Kandiyoti, Dalia, Associate Professor of English
Karacas, Cary, Associate Professor of Geography
Department of Political Science and Global Affairs;
MA, San Francisco State University; PhD, University of
California (Berkeley)

Karasic, Lana, Assistant Professor of Psychology
Department of Psychology; PhD New York University

Kaser, James A., Professor and Archivist
Department of the Library; BA, Kenyon College; MA,
Bowling Green State University; MLS, Kent State
University; PhD, Bowling Green State University

Kaufman, Frederick, Professor of English
Department of English; BA, Yale University; MA,
PhD, CUNY Graduate Center

Keating, Kinnea, Senior College Laboratory Technician
Department of Biology, AAS, Morris County College;
BA, University of Southern Maine; MS, Texas Tech
University

Keberle, David, Assistant Professor of Music
Department of Performing and Creative Arts; BM,
Indiana University; Master of Music Composition,
New England Conservatory of Music; PhD, University
of Pittsburgh

Kee, Debra, Higher Education Assistant
Coordinator, Student Clubs and Organizations; BA,
University of Charleston; MS, Eastern Illinois
University

Kee, Robert, Higher Education Assistant
Coordinator of Leadership Program, BS, Penn State
University

Keil, Peter, Assistant Professor of English
Department of English; BA, MA, New York University

Kerekes, Judit Molnar, Associate Professor of Education
Department of Curriculum and Instruction, MA, Jozsef
A. University, Hungary; MA, EdD, Eotvos University,
Hungary

Kim, Chang-Min, Associate Professor
Department of Engineering and Environmental
Science; BS, Sung Kyun Kwan University (South
Korea); MS, PhD, University of Wyoming

Kim, Hosu, Associate Professor of Sociology
Department of Sociology, Anthropology, and Social
Work; BS Dong-A University; MA, Indiana State
University; PhD, Graduate Center of the City
University of New York

Kim, Jinyoung, Associate Professor of Education

Kimball, Natalie (Tasha), Assistant Professor of History
Department of History; PhD, University of Pittsburgh

Knikou, Maria, Professor of Physical Therapy
Department of Physical Therapy; BS, Technological
and Educational Institute of Athens (Greece); BS,
National and Kapodistriakon University of Athens
(Greece); PhD, University of Strathclyde (Scotland)

Kofman, Ilya, Associate Professor of Mathematics
Department of Mathematics; ScB, Brown University;
PhD, University of Maryland

Koutavas, Anthanasios, Professor
Department of Engineering and Environmental
Science; BS, University of Thessaloniki (Greece); MS,
New York University; MPhil, PhD, Columbia
University

Kritt, David, Associate Professor of Education
Department of Educational Studies; BS, Michigan State
University; MA, University of Rochester; PhD, CUNY
Graduate Center

Kruk, Michal, Professor of Chemistry
Department of Chemistry; MS, Maria Curie-
Sklodowska University (Poland); PhD, Kent State
University

Kudsieh, Suha, Assistant Professor
Department of English; MA, University of
Washington; PhD, University of Toronto

Kuklov, Anatoly, Professor of Physics
Department of Physics and Astronomy; MS, Moscow
Engineering and Physics Institute; PhD, Odessa
University

Kumar, Ankur, Higher Education Associate
Department of Computer Science; BA, University of
California Los Angeles; MEd, University of Southern
California

L'Amoreaux, William, Professor of Biology
Department of Biology; BS, Arkansas State University;
MS, Memphis State University; PhD, University of
Memphis

Lambert, Andrew, Assistant Professor
Department of Philosophy; BA, University of
Sheffield; MA, Durham University; PhD, University of
Hawaii

Lancellotti, Carlo, Professor of Mathematics
Department of Mathematics; MS, PhD, University of
Virginia; PhD, University of Milan
Landry, Shawn
Director of the CSI New York State- Education-supported Liberty Partnerships Program (LPP); MSW, New York University; BS, MS, Metropolitan College of New York

Lang, Dorothy, Associate Professor of Management
Department of Marketing; AB, Barnard College; MBA, Baruch College; PhD, CUNY Graduate Center

Lauria, Thomas, Higher Education Officer
Director of Office Automation and User Support, Office of Information Technology; BS, MS, College of Staten Island

Lavender, Catherine J., Associate Professor of History
Department of History; BA, MA, PhD, University of Colorado

Lawrence, John W., Professor of Psychology
Department of Psychology; BA, University of California (Berkeley); BS, University of California (Santa Barbara); PhD, University of Miami

LeBlanc, Jacqueline M., Professor of Biology
Department of Biology; BS, Wagner College; MS, University of Maryland; PhD, New York University

Lee, Frances, Assistant to Higher Education Officer
Office of Student Financial Aid; BA, Hunter College

Lentol, Carylly, Higher Education Assistant
Office of Student Financial Aid; BS, College of Staten Island

Levine, Alfred M., Professor of Engineering Science
Department of Engineering and Environmental Science; Center for Environmental Science; BEE, Cooper Union; MA, PhD, Princeton University; PE, NY

Lewental, Mark, Higher Education Officer
Director of Media Services, Department of the Library; AA, Kingsborough Community College; BA, College of Staten Island; MA, College of Staten Island

Lewis, Mark A., Associate Professor of History
Department of History; AB, Stanford University; PhD, University of California

Leykam, Andrew, Associate Professor
Department of the Library; BA, MA, Hunter College; MLS, Queens College

Li, Chao, Associate Professor of Chinese
Department of World Languages and Literatures; BA, Hebei Normal University; MA, Peking University; PhD, Yale University

Li, Lihong (Connie), Professor of Engineering Science
Department of Engineering and Environmental Science; BS, MS, Xi'an Jiaotong University (China); PhD, SUNY Stony Brook

Lindo-Artichati, David, Assistant Professor
Department of Engineering and Environmental Science; MS, Polytechnic University of Catalonia; PhD, University of the Canary Islands

Liu, Charles, Associate Professor of Astrophysics
Department of Physics and Astronomy; AB, Harvard University; PhD, University of Arizona

Liu, Huiyu, College Laboratory Technician
Department of Chemistry; BS, Shandong University of Technology (China); MA, Brooklyn College

Liu-Sullivan, Nancy, Assistant Professor of Biology
Department of Biology; PhD, SUNY Stony Brook

Lombardi, Giancarlo, Professor of Italian
Department of World Languages and Literatures; Laurea, Università di Roma, “La Sapienza”; MA, PhD, Cornell University

Loverde Sharon, Assistant Professor of Chemistry
Department of Chemistry; PhD. University of Pennsylvania

Lovering, Rob, Associate Professor of Philosophy
Department of Philosophy; BA, California Polytechnic State University; MA, University of Colorado-Boulder; PhD, University of Colorado-Boulder

Lucia, Marcello, Associate Professor of Mathematics
Department of Mathematics; BS, MS, MSC, University of Lausanne; PhD, École Polytechnique Fédérale de Lausanne

Lufrano, Richard, Associate Professor of History
Department of History; BA, SUNY New Paltz/Binghamton; MA, PhD, Columbia University

Lynch, Jennifer, Higher Education Associate
Associate Director of Annual Fund Office of Institutional Advancement; BA, SUNY Stony brook; MSW, Columbia University

Lyons, Alan, Professor of Chemistry
Department of Chemistry; PhD, Polytechnic University of New York

Lyublinskaya, Irina, Professor of Education
Department of Curriculum and Instruction; MS, Leningrad State University, St. Petersburg; PhD, Leningrad State University and Russian Pedagogic University, St. Petersburg

Faculty and Staff M-P

MacLeod, Dina, Finance Accountant
Account Payable Office; BA, Seton Hall University
Maher, Joseph, Associate Professor of Mathematics  
Department of Mathematics; BA, Cambridge University; MA, PhD, University of California (Santa Barbara)

Maloney, Nora, Lecturer  
Department of Nursing; AAS, College of Staten Island; BS, MS Wagner College

Malz, Abraham, Senior College Laboratory Technician  
Department of Chemistry; BS, SUNY New Paltz

Mammem, Kristin, Assistant Professor  
Department of Economics; BA, Columbia College, MA, PhD, Princeton University

Mandiberg, Michael, Professor of Media Culture  
Department of Media Culture; BA, Brown University; MFA, California Institute of the Arts

Manister, Craig, Higher Education Assistant  
Supervisor, Art Studio, Gallery, Slide Collection, and Photography, Department of Performing and Creative Arts; AAS, Queensborough Community College; BA, Richmond College; MFA, New York Studio School; Professional Certificate, New York University

Manne, Lisa, Associate Professor of Biology  
Department of Biology; BS, Otterbein College; MS, PhD, University of Tennessee

Marchante-Aragon, Lucas, Assistant Professor  
Department of World Languages and Literatures; BA Universidad de Cádiz (Spain); MA, Villanova; PhD, University of Pennsylvania

Marcus-Delgado, Jane, Associate Professor of Political Science  
Department of Political Science and Global Affairs; BA, University of Chicago; MA, PhD, Johns Hopkins University

Mares, Terence, Higher Education Associate  
Publications Manager, Design Services; BA, MA, Northern Illinois University

Marius, Philippe-Richard, Higher Education Officer  
Director of Financial Aid; AA, Kingsborough Community College; BFA, New York University

Martin, Barry, Assistant Professor of Accounting  
Department of Accounting and Finance; BS, MS, Long Island University; CPA, NY

Marvin, Catherine, Professor of English  
Department of English; BA, Marlboro College; MFA, University of Houston; MFA, University of Iowa; PhD, University of Cincinnati

Mastrorilli, Tara, Higher Education Officer  
Director of the Office of Institutional Research, BA, University of Delaware, MA, PhD, CUNY Graduate Center

Matiek, Tara, Assistant Professor  
Department of Media Culture; BA, Hampshire College; MFA, Rensselaer Polytechnic Institute

Matveev, Alexei V., Assistant Professor of Management  
Department of Management; BS, Moscow Institute of Fine Chemical Technology; MBA, PhD, Ohio University

Mbah, Emmanuel, Associate Professor of History  
Department of History; AAS, South Plains College, BA, MA, The University of Yaounde (Cameroon); PhD, University of Texas

McCloskey, Dan, Associate Professor of Psychology  
Department of Psychology, BA, SUNY Oswego; MA, PhD, SUNY Stonybrook

McEvilly, Christine, Assistant Professor and Electronic Resources Librarian  
Department of Library; BS, Massachusetts Institute of Technology; MA, Yale University

McGinn, Lillian, Higher Education Officer  
Chief Facilities Officer; BS, SUNY Plattsburgh

McGowan, Douglas, Assistant to Higher Education Officer  
Office of Recruitment and Admissions; AA, Staten Island Community College; BA, New York University

Mee, Susan, Assistant Professor of Nursing  
Department of Nursing; BS, Hunter College; MS, Seton Hall University

Meehan, Edward, Professor of Psychology  
Department of Psychology; BA, MA, PhD, Adelphi University

Melendez, Frances, Lecturer  
Director of Clinical Mental Health Counseling Graduate Program; Department of Psychology, BA, MA, College of Staten Island; PhD, CUNY Graduate Center

Meyer, Kari, Lecturer  
Department of Social Work; MSW, Boston University

Miller, Christopher, Professor of English  
Department of English; AB, Amherst College; PhD, Harvard University

Miller, Edward, Professor of Communications  
Department of Media Culture; BA, University of Massachusetts; MA, PhD, New York University

Miller, Matthew, College Laboratory Technician  
Department of Engineering and Environmental Science; BS, College of Staten Island
Milligan, Gerry, Associate Professor of Italian
Department of World Languages and Literatures; BA, University of Tennessee; MA, PhD, University of Wisconsin

Millner, Sherry, Professor of Media Culture
Department of Media Culture; BFA, California Institute of Arts; MFA, University of California (San Diego)

Misra, Prabudh Ram, Professor of Mathematics
Department of Mathematics; BS, Ewing Christian College (India); MS, Allahabad University (India); PhD, Indian Institute of Technology (Kanpur)

Mitchell-Cho, Grace, Associate Professor of Sociology
Department of Sociology and Anthropology; BA, Brown University; MEd, Harvard University; PhD, Graduate Center of the City University of New York

Mitra, Shibal, Assistant Professor of Biology
Department of Biology; BA, Cornell University; MS, PhD, University of Chicago

Monte, Steven V., Associate Professor of English
Department of English; BA, Princeton University; PhD, Yale University

Montero, Barbara, Professor of Philosophy
Department of Philosophy; BA, University of California (Berkeley); PhD, University of Chicago

Morgado, Nuria, Associate Professor of Spanish
Department of World Languages and Literatures; Licenciatura, Universidad Autooma de Barcelona; MA, PhD, University of Arizona

Morreale, Michael, Lecturer
Department of Performing and Creative Arts; BA, City College; MA Brooklyn College

Morris, Stephen, Associate Professor of Philosophy
Department of Philosophy; BA, University of Florida, Gainesville; MA, Florida State University, Tallahassee; PhD, Florida State University, Tallahassee

Mukherjea, Ananya, Associate Professor of Sociology
Department of Sociology and Anthropology; BA, New College; PhD, CUNY Graduate Center

Murphy, Mary, Higher Education Associate
Assistant Director of the Counseling Center; BA, National University of Ireland (Galway); MS, Trinity College, University of Dublin (Ireland)

Murphy, Melissa
Assistant Director of the CSI New York State-Education-supported Liberty Partnerships Program (LPP); BA, College of Staten Island

Naider, Fred, Distinguished Professor of Chemistry/Biochemistry
Department of Chemistry; BS, MS, Cornell University; PhD, Polytechnic Institute of Brooklyn

Ng Dudley, Janet, Professor of English
Department of English; BA, Barnard College; MA, MPhil, PhD, Columbia University

Niv-Solomon, Anat, Assistant Professor of Political Science
Department of Political Science and Global Affairs, BA University of New Haven; MA, University of Connecticut; PhD, University of Connecticut

Nowak, Laura S., Professor of Finance
Department of Accounting and Finance; BA, City College of New York; MA, Hunter College; PhD, CUNY Graduate Center

O'Bryant, Kevin, Professor of Mathematics
Department of Mathematics; MsC, PhD, University of Illinois (Urbana)

Oganesyan, Vadim, Associate Professor of Engineering
Department of Physics and Astronomy; BS, Carnegie Mellon University; PhD, University of California (Los Angeles)

Orzechowski, Paul, Assistant Professor
Department of Accounting and Finance, PhD, The New School

Osakue, John U., Assistant Professor of Economics
Department of Economics, University of Ibadan (Nigeria); MA, University of Wisconsin; PhD, University of Nebraska

Owens, John D., Associate Professor of Computer Science
Department of Computer Science; BS, Columbia University; MS, New York University

Pagan, Ralph, Higher Education Assistant
SEEK Program; BA, MA, Brooklyn College

Papa, Lee, Associate Professor of English
Department of English; BA, MA, University of Southwestern Louisiana; PhD, University of Tennessee

Paradiso, Catherine, Assistant Professor of Nursing
Department of Nursing; BS, Wagner College; DNP, Buffalo University, ANP-BC, PSYMH NP-BC

Paris, Michael, Associate Professor of Political Science
Department of Political Science and global Affairs; BA, Hobart and Colleges; JD, Columbia University School of Law; PhD, Brandeis University

Park, Tai, Chief College Laboratory Technician
Department of Chemistry; BS, Korea University (Seoul); MA, Brooklyn College; MS, Polytechnic University
Peetz, Ralf, Associate Provost of Undergraduate Studies and Associate Professor of Chemistry
Department of Chemistry; BS, Martin-Luther University (Germany); MS, PhD, University of Hamburg (Germany)

Perez-Lai, Miriam, Higher Education Associate
SEEK Program; BA, Richmond College; MSW, Fordham University

Peters, Jonathan, Professor of Finance
Department of Accounting and Finance; BS, College of Staten Island, MA, Hunter College; PhD, CUNY Graduate Center

Petingi, Louis, Professor of Computer Science
Department of Computer Science; BS, Rutgers University; MS, PhD, Stevens Institute of Technology

Petratos, Vasilios, Associate Professor of Economics
Department of Economics; BA, City College of New York; PhD, New York University

Phillips, Greg, Associate Professor of Biology
Department of Biology; PhD, The Scripps Research Institute of La Jolla

Pieve-Hyland, Doriann, Higher Education Associate
Help Desk Manager and Technology Trainer, Office of Information Technology; BA, College of Staten Island

Pipe, Margaret-Ellen, Associate Provost of Graduate Studies, Research and Institutional Effectiveness
Office of Academic Affairs; BA, PhD, University of Auckland

Pizzuto, David, Higher Education Associate
Associate Director, Sports and Recreation Center; BS, College of Staten Island

Pipeog, Bertram, Professor of Psychology
Department of Psychology; BA, MA, PhD, University of California (San Diego)

Pojet, Sebastien, Assistant Professor Chemistry
Department of Chemistry; MS, University of Basel (Switzerland); PhD, University of Cambridge (UK)

Poignant, David, Assistant to Higher Education Officer Reprographics

Pojé, Andrew, Professor of Mathematics
Department of Mathematics; BE, SUNY Stony Brook; PhD, Cornell University

Polger, Mark Aaron; Assistant Professor of Library
Department of the Library; BA: MA, MLS, University of Western Ontario

Pollack, Sarah Shoshana, Associate Professor of Spanish
Department of World Languages and Literatures; BA, Earlham College; MA, University of Arizona; PhD, University of Texas at Austin

Powers, Richard G., Professor of History
Department of History; AB, College of the Holy Cross; PhD, Brown University

Powers Silverberg, Ruth, Associate Professor of Education
Department of Educational Studies; BS, SUNY Oneonta; MS, College of St. Rose; EdD, Hofstra University

Profis, Sergey, Higher Education Associate
Counseling Center; BA, Boston University; MA, PhD, Adelphi University

Faculty and Staff Q-T

Quagliano, Eileen, Chief College Laboratory Technician
Department of Nursing; BS, MS, Wagner College

Raja, Krishnaswami, Associate Professor of Chemistry
Department of Chemistry; BS, St. Stephen's College (India); MS, PhD, Indian Institute of Science

Ray, Sohomjit, Assistant Professor of English
Department of English; PhD, Kent University

Raychaudhuri, Arundhati, Professor of Mathematics
Department of Mathematics; BSEE, Indian Institute of Technology (Kharagpur); MS, MSEE, SUNY Stony Brook; PhD, Rutgers University

Reader, Simon, Assistant Professor English
Department of English; BA, MA, Concordia University, PhD, University of Toronto

Recor, Mary, Associate Professor of Accounting
Department of Accounting and Finance; BA, College of Staten Island; MS, Baruch

Reichard, Gary, Senior Vice President for Academic Affairs
Office of the Provost; BA, College of Wooster; MA, Vanderbilt University; PhD, Cornell University

Reinhardt, Beatrix, Professor of Photography
Department of Performing and Creative Arts; BA, Freie University of Berlin (Germany); MA, New School for Social Research; MFA, Illinois State University

Rice, Emily, Assistant Professor of Astronomy and Astrophysics
Department of Physics and Astronomy, Science & Physics; PhD, University of California (Los Angeles)

Richards, Dwight, Associate Professor of Engineering
Department of Engineering and Environmental Science; BE, ME, City College of New York; PhD, CUNY Graduate Center

Ricker, Timothy, Assistant Professor of English
Riggio, Joanne
English Language Institute; BS, MBA, Wagner College; MSEd, St. John's University

Rivelli, Victoria, College Laboratory Technician
Department of Engineering and Environmental Science; BA, College of Staten Island

Rizvi, Syed, Associate Professor of Engineering Science
Department of Engineering and Environmental Science; BSEE, University of Engineering and Technology (Pakistan); MS, PhD, SUNY Buffalo

Rocco, Susan, Lecturer
Department of English; AA, BA, MSEd, College of Staten Island

Rodberg, Thomas, College Laboratory Technician
Department of Engineering and Environmental Science; BS, College of Staten Island; MSEE, New York University

Rogers, Bethany, Associate Professor of Education
Department of Educational Studies; BA, Dartmouth College; MA, Harvard University; PhD, New York University

Rogers-Sirin, Lauren, Assistant Professor of Psychology
Department of Psychology; BA, The College of New Jersey; MA, PhD, Boston College

Rosen, Jay, Distinguished Professor of Mathematics
Department of Mathematics; BA, Harvard University; PhD, Princeton University

Rosen, Russell, Assistant Professor
Department of World Languages and Literatures; AB, The University of Chicago, PhD, Columbia University

Rowden, Terry, Associate Professor of English
Department of English; University of Arkansas-Pine Bluff; MA, PhD, Cornell University

Saccardo, James, Higher Education Associate
Laboratory Safety Officer, Environmental Health and Safety Office; AS, BS, College of Staten Island

Salomon, Nanette, Professor of Art History
Department of Performing and Creative Arts; BA, Queens College; MA, PhD, New York University

Samuels, William (El), Higher Education Associate
Department of Education; BS, Juniata College; MS, PhD, University of Texas

Sanchez, George Emilio, Professor of Dramatic Arts
Department of Performing and Creative Arts; MFA, Bard College

Sandler, John, Assistant Professor of Accounting
Department of Accounting and Finance; BS, Queens College; MS, C.W. Post College; JD, Touro Law School

Sassi, Jonathan D., Professor of History
Department of History; AB, Princeton University; MA, PhD, University of California (Los Angeles)

Scafiddi, Melissa, Higher Education Assistant
ASAP; BIS, Arizona State University

Scarinci, Cynthia, Assistant Professor of Accounting and Information Systems
Department of Accounting and Finance; BBA, MBA, Pace University; CPA, NY

Schäfer, Tobias, Professor of Mathematics
Department of Mathematics; MSc, PhD, Heinrich-Heine-Universität (Germany)

Schiano, Barbara, Lecturer
Department of Nursing; BS, Wagner College; MA, New York University

Schreiber, William, Professor of Physics
Department of Physics and Astronomy; BA, MA, PhD, Yeshiva University

Schulman, Sarah, Distinguished Professor of English
Department of English; BA, Empire State College (SUNY)

Scimeca, Donna, Higher Education Associate
Coordinator of CORE 100; BA, MA, College of Staten Island

Seals, Gregory, Associate Professor of Education
Department of Educational Studies; BS, Missouri Western State College; MA, University of Iowa; PhD, Georgia State University

Sekerina, Irina A., Professor of Psychology
Department of Psychology; BA, Moscow State University; MA, PhD, CUNY Graduate Center

Selby, Don, Assistant Professor of Anthropology
Department of Sociology, Anthropology and Social Work; MA, New School of Social Research; MA, McGill University; PhD, Johns Hopkins University

Serrano, Carlos A., Assistant Vice President for Finance and Budget
Business Office; BS, Long Island University

Sharib, Linda, Higher Education Officer
Academic Program Director, Office of Academic Support; AA, BA, MA, College of Staten Island

Shen, Chang-Hui, Professor of Biology
Department of Biology; BS, MS, National Chung-Hsing University (Taiwan); PhD, University of Edinburgh (Scotland)

Shepardson, Suzy, Higher Education Associate
Center for Academic Advising and Success; BS, Oneonta; MS, Sage Graduate School

Shew, Chwen-Yang, Professor of Chemistry
Department of Chemistry; BS, MS, National Tsing Hua University (Taiwan); PhD, CUNY Graduate School

Shim, Hyoung Suk, Assistant Professor of Finance
Department of Accounting & Finance; BA, BS, Yonsei University (Korea); PhD, CUNY Graduate School

Shor, Ira, Professor of English
Department of English; BA, University of Michigan (Dearborn); MA, PhD, University of Wisconsin (Green Bay)

Schimier, Stephanie, Assistant Professor
Department of Curriculum and Instruction

Shulman, Vivian, Associate Professor of Education
Department of Educational Studies; BA, City College of New York; MPhil, PhD, CUNY Graduate School

Sigler, Phil S., Associate Professor of Sociology
Department of Sociology and Anthropology; BA, Youngstown State University; MA, Ohio State University; PhD, Boston University

Simon, Jason, Professor of Media Culture
Department of Media Culture; BA, Sarah Lawrence College; MFA, University of California (San Diego)

Simpson, Peter P., Professor of Philosophy.
Department of Philosophy; BA, Oxford University (England); MA, PhD, University of Manchester (England)

Smith, Patricia, Associate Professor
Department of English; MFA, University of Southern Maine

Smith-Peter, Susan, Associate Professor of History
Department of History; BS, Ohio University; PhD, University of Illinois (Urbana)

Son, Esther, Assistant Professor of Social Work
Department of Social Work; MA, Yonsei University, PhD, Rutgers, The State University of New Jersey

Soto, Francisco, Professor of Spanish
Department of World Languages and Literatures; BA, MA, PhD, New York University

Spence, Sasha, Higher Education Associate
Assistant Director of Graduate Recruitment and Admissions; BA, College of Staten Island; MA, Queens College

Stempler, Amy, Associate Dean and Chief Librarian
Department of the Library; BA, MA, George Washington University, MLIS, Pratt Institute

Stewart, Kiesha, Higher Education Officer
Director of Purchasing; AAS, New York City Technical College; BS, Baruch College

Straniere, Jennifer, Higher Education Assistant
Department of Performing and Creative Arts; BA, MS, Richmond College

Sturm, Deborah, Associate Professor of Computer Science
Department of Computer Science; BS, Brooklyn College; MS, New York University; PhD, CUNY Graduate Center

Sullivan, Susan, Professor of Education
Department of Educational Studies; BA, Elmira College; MAT, Johns Hopkins University; EdM, EdD, Teachers College, Columbia University

Sussman, Nan, Professor of Psychology
Department of Psychology; BA, University of Pittsburgh; MA, PhD, University of Kansas

Takas, Sarolta, Dean of Humanities and Social Sciences and Professor of History
Department of History; BA, University of California (Irvine); MA, PhD, University of California (Los Angeles)

Tao, Liqing, Associate Professor of Education
Department of Curriculum and Instruction; MA, Fudan University (China); PhD, University of Georgia

Tate Moore, Calandra R, Assistant Professor of Mathematics
Department of Mathematics; BS, Xavier University of Louisiana; PhD, University of Maryland

Taylor, Joyce, Higher Education Officer
Deputy to the Vice President for Technology Systems, Office of Information Technology; BA, Brooklyn College; MBA, Wagner College

Teater, Barbara, Associate Professor of Social Work
Department of Social Work; MSW, University of Illinois (Chicago); PhD, The Ohio State University

Tellefsen, Thomas, Professor of Marketing
Department of Marketing; AAS, College of Staten Island; BBA, MBA, Baruch College; PhD, CUNY Graduate Center

Tesdall, Allen, Associate Professor of Mathematics
Department of Mathematics; BS, MS, University of Arkansas; PhD, University of California (Davis)

Tevere, Valerie, Professor of Media Culture
Thomas, Charles C., Associate Professor of Performing Arts
Department of Performing and Creative Arts; BA, Langston University (Oklahoma); MFA, Brooklyn College

Thorne, Harry, Lecturer of English
Department of English

Todaro Franceshi, Vidette, Professor of Nursing
Department of Nursing; AAS, Staten Island Community College; BS, College of Staten Island; MS, Hunter College; PhD, New York University

Toor, Saadia, Associate Professor of Sociology
Department of Sociology and Anthropology; AB, Mt. Holyoke College; MS, PhD, Cornell University

Torres, José, Professor of Engineering Science
Department of Engineering Science and Physics; BS, National University of Mexico; MSc, University of Aston (England); PhD, Dartmouth College

Tortora, Christina M., Professor of English
Department of English; BA, SUNY Stony Brook; MA, PhD, University of Delaware

Tournaki, Eleni (Nelly), Professor of Education
Department of Educational Studies; BA, College of Athens (Greece); MA, New School for Social Research; PhD, New York University

Tsui, Jean, Assistant Professor
Department of World Languages and Literatures; BA, M.Phil, University of Hong Kong; PhD, University of California (Irvine)

Tye, Marcus, Dean of Health Sciences and Professor of Psychology
School of Health Sciences; AB, Princeton University; MA, PhD, University of North Dakota

Faculty and Staff U-Z

Ureni, Paola, Associate Professor
Department of World Languages and Literatures; MA, PhD, New York University

Vachadze, George, Assistant Professor of Economics
Department of Economics; MS, Tbilisi State University; PhD, University of Wisconsin; PhD, CERGE, Prague, Czech Republic

Vaishampayan, Vinay, Professor Electrical Engineering
Department of Engineering and Environmental Science; BTech, Indian Institute of Technology (Delhi, India); MS, PhD, University of Maryland (College Park)

Varo, Enza, Higher Education Associate
Executive Associate to the Dean, Humanities and Social Sciences, BBA, MEd, Hofstra University

Vijverberg, Chu-Ping C., Professor
Department of Economics; University of Pittsburgh, PhD; Southern Methodist University, PhD

Veit, Richard, Professor of Biology
Department of Biology; BA, MS, University of Massachusetts; PhD, University of California (Irvine)

Vento, Richard, Higher Education Assistant
Assistant Director of Tutoring, Academic Support Services; MA, College of Staten Island

Verzani, John, Professor of Mathematics
Department of Mathematics; BA, Whitman College; MS, University of Colorado; PhD, University of Washington

Vitellio, Ursula, Higher Education Assistant
Pell/UPAC Specialist, Office of Financial Aid; AAS, Kingsborough Community College; BS, Regents College at Albany

Voicu, Alexandru, Associate Professor of Economics
Department of Economics; BA, Polytechnical Institute (Romania); MA, Central European University (Czech Republic); PhD, Rutgers University

Volscho, Thomas, Associate Professor of Sociology
Department of Sociology and Anthropology; BA, MA, PhD, University of Connecticut

Vukadinovic, Jesenko, Associate Professor of Mathematics
Department of Mathematics; Diploma, Ludwig-Maximilians Universität; PhD, Indiana University

Wagner, Jennifer, Assistant Professor of Psychology
Department of Psychology; BS, Massachusetts Institute of Technology; PhD, Stanford University

Wallace, William, Professor of Biology
Department of Biology; AA, Middlesex County Community College; BS, Stockton State College, MS, PhD, SUNY Stony Brook

Wang, Jihazhuo, Associate Professor of Business
Department of Accounting and Finance; BA, MA, Peking University (China); PhD, SUNY Albany

Watkins, Caryl, Higher Education Officer
Director, Career and Scholarship Center; BA, Seton Hall University; MA, Fairleigh Dickinson University

Weber, Bryan S., Assistant Professor of Economics
Wegge, Simone, Professor of Economics
Department of Economics; BA, University of California (Berkeley); MA, PhD, Northwestern University

Weil, Marianne, Associate Professor of Art
Department of Performing and Creative Arts; BA, Goddard College; MFA, School of Visual Arts

White, Mark D., Professor of Philosophy
Department of Philosophy; BS, BA, Ohio Northern University; PhD, University of Cincinnati

Wickstrom, Maurya, Professor of Dramatic Arts
Department of Performing and Creative Arts; BA, Franklin and Marshall College; MFA, Tulane University, PhD, CUNY Graduate Center

Grace Petrone, Dean of Students
Barbara Quart, English
The City University of New York

The City University of New York (CUNY), of which the College of Staten Island is a part, traces its beginning to 1847 and a public referendum that provided tuition-free higher education for residents of New York City. The municipal college system grew rapidly and its various colleges were consolidated as The City University of New York by an act of the New York State Legislature in 1961. CUNY is comprised of 11 senior colleges, seven community colleges, the William E. Macaulay Honors College at CUNY, the CUNY Graduate Center, the CUNY Graduate School of Journalism, the CUNY School of Law, the CUNY School of Professional Studies, and the CUNY School of Public Health and Health Policy. It is the largest municipal college system and the third largest university in the nation.

The Board of Trustees

CUNY is governed by the Board of Trustees composed of 17 members, ten of whom are appointed by the Governor of New York State, and five by the Mayor of New York City. The chairperson of the University Faculty Senate serves ex officio, without vote; the chairperson of the University Student Senate serves ex officio, with vote. The individual colleges of CUNY have considerable latitude in governing their own affairs through various bodies representing faculty, students, and administrators. The Board of Trustees decides overall University policy and approves major new collegiate plans and programs.

Board of Trustees

Chairperson William C. Thompson, Jr.
Vice Chairperson Barry F. Schwartz
Trustee Michael Arvanites
Trustee Henry T. Berger
Trustee Una S. T-Clarke
Trustee Fernando Ferrer
Trustee Kevin D. Kim
Trustee Mayra Linares-Garcia
Trustee Robert F. Mujica
Trustee Brian D. Obergfell
Trustee Jill O'Donnell-Tormey
Trustee Charles A. Shorter
Trustee Ken Sunshine
Trustee Sandra Wilkin
Trustee Katherine M. Conway, Ex Officio
Trustee John Aderounmu, Ex Officio

Council of Presidents

GRADUATE SCHOOLS, HONORS COLLEGE and PROFESSIONAL SCHOOLS

Graduate Center
  Chase Robinson, President
Graduate School of Journalism
Sarah Bartlett, Dean

School of Law
Mary Lu Bilek, Dean

School of Professional Studies
John Mogulescu, Dean

Macaulay Honors College
Ann Kirschner, Dean

School of Public Health at Health Policy
Ayman El Mohandes, Dean

THE SENIOR COLLEGES

Baruch College
Mitchel B. Wallerstein, President

Brooklyn College
Michelle J. Anderson, President

City College
Vincent Boudreau, Interim President

College of Staten Island
William J. Fritz, President

Hunter College
Jennifer J. Raab, President

John Jay College of Criminal Justice
Jeremy Travis, President

Lehman College
Jose Luis Cruz, President

Medgar Evers College
Rudolph F. Crew, President

New York City College of Technology
Russell K. Hotzler, President

Queens College
Felix V. Matos Rodriguez, President

York College
Marcia Keizs, President

THE COMMUNITY COLLEGES

Borough of Manhattan Community College
Antonio Pérez, President

Bronx Community College
Thomas A. Isekenegbe, President

Hostos Community College
David Gomez, President

Kingsborough Community College
Farley Herzek, President

LaGuardia Community College
Gail O. Mellow, President

Guttman Community College
Scott E. Evenbeck, President

Queensborough Community College
Diane Call, President

University Administration

Chancellor
James B. Milliken

Executive Vice Chancellor and University Provost
Vita C. Rabinowitz

Interim General Counsel and Vice Chancellor for Legal Affairs
Jane Sovern

Vice Chancellor & University CIO
Brian Cohen

Interim Vice Chancellor for Student Affairs
Christopher Rosa

Senior Vice Chancellor for Budget and Finance
Matthew Sapienza

Vice Chancellor for Labor Relations
Pamela S. Silverblatt

Interim University Vice Provost for Research
Mark E. Hauber

Vice Chancellor for Human Resources Management
Gloriana B. Waters

Vice Chancellor for Facilities Planning, Construction and Management
Judith Bergtraum

Associate Vice Chancellor for Corporate, Foundation and Major Gifts Development
Andrea Shapiro Davis

Senior University Dean/Special Counsel to the Chancellor
Dave Fields

Senior Advisor to the Chancellor for Fiscal Policy
Marc V. Shaw

Senior Advisor to the Chancellor
Ann Kirschner
Directions and Parking

By Bus

Buses on the Victory Boulevard route stop at the main entrance to the College. Buses on the Forest Hill Road route stop at the East entrance to the College.

Victory Boulevard buses - St. George/Travis
S62 - frequent weekday service and service every 30 minutes on Saturdays and Sunday. From 8:30am to 11:30pm to the ferry, and from 7:30am to 12:20am from the ferry; the S62 makes a stop inside the Victory Boulevard entrance to the campus.
S92 - commuter schedule from Travis every 15 minutes from 6:30am to 7:42am and from St. George every 15 minutes from 4:50pm to 6:00pm.

Richmond Avenue buses - North/South route
The Richmond Avenue and Victory Boulevard stop is two blocks from the entrance to the campus.
S44 - frequent service on weekdays and runs every 30 minutes on Saturday and Sunday.
S59 - every 30 minutes every day.

Forest Hill Road buses - South Shore/St. George route
S61 - frequent daily and weekend service.
S91 - commuter schedule weekdays.

Brooklyn buses
S53  Bay Ridge - 95th Street/Port Richmond
S93  The S93 runs limited service Monday-Friday between 86th Street and 4th Avenue R subway station in Brooklyn and the College. This route eliminates bus transfer and saves you up to 15 minutes a trip.

Manhattan/Staten Island Express bus
X-10 Express bus - frequent daily schedule from 57th Street and 3rd Avenue to Victory Boulevard and the return route; stops at the campus main entrance.
Call 718.330.1234 for information and schedules for local buses and Manhattan/Staten Island express buses.

By automobile from the Staten Island Expressway (Interstate 278)

Traveling westbound on the Staten Island Expressway from the Verrazano-Narrows Bridge, take the Victory Boulevard Exit (#10). At Victory Boulevard, turn left and continue under the Expressway and turn left into the campus at the first traffic light. Eastbound on the SI Expressway, take the Victory Boulevard Exit (#8) and turn left onto Victory Boulevard, and turn right at the traffic light to enter the campus.

Parking

On-campus parking is available to registered students and employees who purchase a decal and agree to observe all parking regulations. Decals are available from the Office of Parking & DolphinCard Services located in Building 3A, Room 106, telephone 718.982.2294. Students are sold permits for on-campus parking at the time of registration on a first-come, first-served basis. A detailed parking information booklet is available upon request. Speed limit: 25 mph.
