Intent to Pursue Accelerated Graduate Placement

I _______________________________ formally declare my intent to pursue Accelerated Graduate Placement during the completion of the undergraduate degree program in which I am currently enrolled. My signature below confirms that I understand each policy below regarding Accelerated Graduate Placement course work.

Notice: This form must be completed within two weeks of beginning an AGP eligible undergraduate course in the long semester, if I meet all of the requirements for graduate-level competency, including earning a minimum grade of B (3.0 GPA) for the undergraduate class, I may submit documentation to the Graduate Programs Office for inclusion in my AGP file.

Documentation Required:
- Transcript showing completion of the undergraduate paired course with a minimum of a B.
- Signed Attestation of Graduate Competency Achievement confirming that the student has fulfilled the graduate-level learner-centered outcome(s) and successfully produced one or more artifacts demonstrating graduate-level knowledge and skills.

I understand that
- AGP credit may only be earned for identified paired courses from the table found in the DBU Catalog.
- No course substitutions are permitted for the earning of AGP credit at the undergraduate or graduate level.
- AGP credit may only be applied toward graduate program completion if the paired graduate course applies to the graduate program degree plan.
- No course credit substitutions based upon AGP credit may be applied to a graduate program.
- AGP credit can only be applied to graduate programs of greater than 30 credit hours.
- AGP credit can only be applied for the number of graduate hours required in excess of 30 for the graduate program.
- A minimum of 30 independent, non-AGP semester hours successfully completed at the graduate level are required to complete any graduate program.
- Determination of the student’s successful demonstration of graduate competency may only be made by a qualified faculty member with a terminal degree in the field.
- It is the responsibility of the student to ensure that courses for which he or she seeks AGP credit will apply to the graduate program he or she intends to pursue. Careful review of specific graduate program requirements for each degree plan should be conducted before the student elects to pursue AGP credit. Regular consultation with the graduate program advisor is strongly recommended.
