

General Information

Graduate Study at Hunter

Hunter College, the second oldest college in The City University of New York, offers master's degrees in more than 50 fields of study and doctoral programs – some at Hunter exclusively and some in cooperation with the CUNY Graduate Center. We have graduate programs in the arts, sciences, languages and literature – as well as in the professional fields of accounting, education, health sciences, nursing, public health, social work and urban planning – and all are considered exceptional. Currently about 6,500 students enroll in these programs.

One of our most important areas – now, as throughout our more than 140-year history – is teacher education. The School of Education today offers a broad range of graduate programs designed to prepare teachers, counselors and administrators for practice, leadership and innovation in education.

The Hunter-Bellevue School of Nursing, the School of Health Sciences, and the CUNY School of Public Health at Hunter College are nationally recognized for new approaches to teaching, research and service in health care. The School of Nursing provides a wide array of accredited programs designed to prepare students for leadership positions in health care (including the new Doctor of Nursing Practice, DNP); the School of Health Sciences offers an outstanding master's program in speech-language pathology, a doctorate in physical therapy and a new master's in medical laboratory management. The CUNY School of Public Health, sharing a beautiful new facility in East Harlem with the Silberman School of Social Work, offers environmental and occupational health, community health education, epidemiology, nutrition and public health. Through the City University Graduate Center, doctoral degrees in audiology, nursing science and public health are available.

The Silberman School of Social Work, now located in its new home in East Harlem, offers several flexible program options leading to the master of social work degree. It is one of the top graduate social work schools in the country. Its faculty is renowned both for training leaders and innovative thinkers in social work and for providing expert service to New York's multicultural community. Through leading-edge course work, opportunities for challenging field experience, method-based training and a practice-centered education, the Silberman School provides unequaled opportunities to learn and excel in our dynamic urban environment.

The School of Arts and Sciences has a first-rate roster of graduate programs in the fine arts, humanities, social sciences, sciences and mathematics. Throughout the long history of graduate studies at Hunter, graduates of these programs have gone on to elite doctoral programs and distinguished careers. Enhanced by excellent performance facilities, research laboratories, and art studio space, our programs define the frontiers of knowledge in areas as diverse as biotechnology, creative writing and social research, among many others. We offer doctoral degrees in the sciences in cooperation with the CUNY Graduate School. With Hunter's central location on Manhattan's East Side, the city's major museums, concert halls and galleries are within easy walking distance, as are famed biomedical research facilities, which offer extraordinary opportunities for collaborative study and research.

Hunter's faculty includes many distinguished scholars, educators, and creative artists, all of whom play major roles in New York's academic, cultural, civic and educational life. With over \$50 million annually in research grants and awards, Hunter's faculty is internationally respected for its creativity, energy and scholarship.

Hunter College of The City University of New York

695 Park Avenue
New York, NY 10065

Course Descriptions

Numbering System Each course in the curriculum is defined by an alphabetical prefix and a 3-digit number. The 3-digit number indicates the level of study: 500-, 600-, and 700-level courses are graduate courses.

Alphabetical Prefixes The following prefixes are used, preceding the 3-digit number, to designate the field of study. They are listed here alphabetically, with the field and department or program to which they pertain. Specific departments and programs appear alphabetically in the table of contents and the index.

Accounting

Students who have satisfied the requirements of the Hunter BS degree in Accounting (or their equivalent) will have met all course prerequisites other than those indicated below. Students who have not satisfied such requirements will need permission of the program adviser to take any of these courses.

ECO 66000 - Managerial Economics for Accountants

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

prereq: ECO 32100 and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances*

Hours 3

Credits 3

** If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.*

ECO 77000 - Research Techniques in Accounting

The course will clarify the nature of accounting research for the student, and survey important research methods and techniques.

ECO 77100 - Advanced Financial Accounting Theory

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

ECO 77200 - Accounting Information Systems

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

ECO 77300 - Advanced Federal Income Taxation

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.

ECO 77400 - Advanced Managerial Accounting

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

ECO 77500 - Advanced Auditing

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer- assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

ECO 77600 - Governmental Accounting

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

ECO 77700 - State and Local Taxation

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

ECO 78000 - Business Ethics, Communications, and Research Project

Ethical issues in accountancy will be covered, as well as ethical concerns in marketing, corporate social responsibility, and global operations. Business communication skills will be developed. A capstone research project will be completed.

prereq: ECO 77000

Anthropology Independent Study or Research

ANTH 78500 - Independent Study

Directed research in any of the 4 subdisciplines on topic chosen by student. permission of instructor and grad adviser required prior to registration

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 78600 - Research in Anthropology

Directed research in any of the 4 subdisciplines on topic chosen by student. permission of instructor and grad adviser required prior to registration

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course. Courses offered upon sufficient student demand

Anthropology Thesis

ANTH 70600 - Master's Thesis Seminar

Individual research under supervision of student's thesis adviser, limited to students matriculated in the MA program. Credit awarded upon approval of master's thesis.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

Archaeology

ANTH 75000 - Archaeology (Core Course)

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 75100 - Seminar in Archaeology

Each of the following advanced seminars deals with a set of theoretical and methodological topics related to current developments in archaeology: Regional Analysis – a survey and discussion of approaches to the analysis of ancient settlement patterns. Faunal Analysis – an introduction to methods and theoretical problems involved in the use of animal bone evidence for prehistoric economies. Analytical Methods – an introduction to a range of methods of data management and analysis in archaeology; includes training in the use of computer software. Field Methods – an introduction to the problems of practical field research design in archaeology and basic field techniques. Use of basic surveying equipment is covered, with extensive hands-on experience provided.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 75600 - Prehistoric Human Ecology

Problems in analysis of interaction of human economies and changing natural environments. Archaeological view of human role in various ancient ecosystems.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 75800 - Rise of Civilization

Theoretical and empirical investigation of evolution of urbanism and state in both hemispheres.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 75900 - Archaeology of Europe

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 76000 - Archaeology of Africa

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 76100 - Archaeology of Near East

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 76200 - Archaeology of New World

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 76300 - Archaeology of Mesoamerica

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

Biological Anthropology

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79100 - Seminar in Biological Anthropology

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79200 - Human Ecology and Population Dynamics

From viewpoint of biological anthropology, course examines environmental factors that affect distribution, growth, and senescence of human populations.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79300 - Human Evolutionary Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79900 - Human Fossil Record

Fossil evidence on human evolution from Pliocene Australopithecus to modern Homo sapiens. Considers paleoecology, morphology, chronology, and phylogeny.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

Ethnology

ANTH 70100 - Ethnology (Core Course)

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 70200 - Seminar in Ethnology

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 70300 - History of Anthropological Theory

Treatment of major currents and schools in anthropological thought from 19th century to present.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 70700 - Kinship and Social Structure

Comparative analysis of kinship systems including kinship terminology, descent groups, family and household forms, and various models of explanation.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 70800 - Religion and Ideology

Comparative analysis of religious beliefs and practices, cosmology, and other aspects of ideology, especially in non-Western societies.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 71200 - Hunters and Gatherers

Analyzes both modern and prehistoric foraging societies with particular emphasis on ecological approach.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 71500 - Cultural Ecology

Evolutionary view of interactions of human populations and their environment with emphasis on processes of cultural adaptation.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 71600 - Medical Anthropology

Health and disease viewed comparatively in terms of how societies perceive, explain, prevent, and treat illness.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 71800 - Applied Anthropology

Cross-cultural aspects of development work in U.S. and abroad. Theoretical foundations and practical aspects with emphasis on necessary ancillary skills.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 72000 - Political Anthropology

Examination of different systems of political organization with emphasis on tribal and peasant societies.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 72100 - Anthropology of Art

Comparative study of expressive culture in Western and non-Western societies with special emphasis on plastic arts.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 72500 - Sex and Gender in Anthropological Perspective

Reading and research on human sexual dimorphism, reproductive behavior, and cultural conditioning of gender roles.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 72600 - Ethnology of Africa

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 72700 - Ethnology of Europe

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 72800 - Ethnology of Near East

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 72900 - Ethnology of Southeast Asia

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 73000 - Ethnology of China and East Asia

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 73100 - Ethnology of Caribbean

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 73400 - Ethnology of South America

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 73500 - Ethnology of North American Indians

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

Linguistics

ANTH 77000 - Linguistics (Core Course)

Structure of verbal behavior. Analytic description of phonology, grammar, semantics, pragmatics. Language in social action. Language prehistory.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77100 - Seminar in Linguistics

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77700 - Language and Culture

Role of language, dialect, and bilingualism in social life, including language of politics, language in education, language variation as related to context, sex, status, topic, etc.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77800 - Seminar in Sociolinguistics

Selected topics in language and society, such as language and ethnicity, bilingualism, language contact, creole languages, etc.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

Anthropology: Courses offered upon sufficient student demand

ANTH 70400 - Field Research

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 70500 - Quantitative Measures

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 70900 - Folklore and Mythology

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 71000 - Psychological Anthropology

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 71100 - Economic Anthropology

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77200 - Phonological Analysis and Theory

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77300 - Grammatical Analysis and Theory

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77500 - Linguistic Field Techniques and Methods

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77600 - Cognitive Anthropology

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79400 - Primate Ecology and Behavior

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79500 - Primate Paleontology

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

Art History

Art History courses serve both MA and MFA student populations

ARTH 60200 - Research Methods of Art History

Training in bibliographical materials and research methods through examination of special problems in art history and writing of research paper.

*Hours 45 hrs,
Credits 3 cr
offered every semester*

ARTH 61900 - Greek Art

Greek sculpture and painting from Geometric to Hellenistic period. Emphasis on masterpieces of Archaic, Classical, and Hellenistic eras.

*Hours 45 hrs,
Credits 3 cr*

ARTH 62000 - Roman Art

Roman art from Republican period to Age of Constantine. Emphasis on imperial reliefs, portraits, sarcophagi, and wall painting.

*Hours 45
Credits 3*

ARTH 62100 - Modern Art I

Origins and history of modern art in 19th century.

*Hours 45
Credits 3*

ARTH 62200 - Modern Art II

Modern art in 20th century.

spring only

ARTH 62300 - Renaissance Art I

Studies in art of 14th and 15th centuries.

*Hours 45
Credits 3*

ARTH 62400 - Renaissance Art II

Studies in art of 16th century.

ARTH 62500 - Baroque Art

Studies in art of 17th century.

ARTH 63600 - Chinese and Japanese Art

Studies in Chinese and Japanese painting.

ARTH 63700 - Medieval Art I

Studies in art of early Middle Ages.

ARTH 63800 - Medieval Art II

Studies in art of later Middle Ages.

spring only

ARTH 64100 - Islamic Art

Art and architecture of Islamic world from Spain to India.

ARTH 73400 - Theory and Criticism of Art

Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

ARTH 74000 - Photography in the 19th Century

Studies in 19th Century photography.

Hours 45

Credits 3

ARTH 75000 - Photography in the Twentieth Century

An historical and critical survey of the art of photography in Europe and in the United States from the avant-gardes in the early twentieth century to conceptual art and postmodernism in the 1970s.

ARTH 78000 - Special Topics in Art

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

ARTH 78007 - Modern Art III

Studies in contemporary art.

Art History Independent Research

ARTH 75500 - Independent Study

Independent studies in history or theory of art under direction of faculty member.

Credits 3

ARTH 79900 - Thesis Research

Limited to matriculated MA students in art who have completed 20 grad cr. Independent research toward MA thesis under direction of faculty member.

Studio Art - Tutorials

ARTCR 61100 - Advanced Painting I

Individual tutorial with full-time faculty member.

Hours 45 hrs,

Credits 3 cr

MFA majors in painting only

ARTCR 61200 - Advanced Painting II

Individual tutorial with full-time faculty member.

Hours 45 hrs,

Credits 3 cr

MFA majors in painting only

ARTCR 61300 - Advanced Painting III

Individual tutorial with full-time faculty member.

Hours 45 hrs,

Credits 3 cr

MFA majors in painting only

ARTCR 62100 - Advanced Sculpture I

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

Hours 45 hrs,

Credits 3 cr

ARTCR 62200 - Advanced Sculpture II

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

*Hours 45 hrs,
Credits 3 cr*

ARTCR 62300 - Advanced Sculpture III

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

*Hours 45 hrs,
Credits 3 cr*

ARTCR 62500 - Advanced Graphic Arts I

Individual tutorial with full-time faculty member. Woodcut (black and white and color) printing. Soft ground and hard ground etching. Aquatint. Line engraving on metal. Dry point. Color printing with metal; surface printing offset, and intaglio color from traditional to latest experimental methods.

*Hours 45 hrs,
Credits 3 cr
MFA majors in graphics only*

ARTCR 62600 - Advanced Graphic Arts II

*Hours 45 hrs,
Credits 3 cr*

ARTCR 62700 - Advanced Graphic Arts III

*Hours 45 hrs,
Credits 3 cr*

ARTCR 62900 - Combined Media

Individual tutorial with full-time faculty member. Tutorial in various experimental media such as environmental, conceptual, film, video, etc.

*Hours 45 hrs,
Credits 3 cr*

ARTCR 63100 - Advanced Photography I

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,

Credits 3 cr

MFA majors in photography only

ARTCR 63200 - Advanced Photography II

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,

Credits 3 cr

MFA majors in photography only

ARTCR 63300 - Advanced Photography III

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,

Credits 3 cr

MFA majors in photography only

ARTCR 63500 - Advanced Ceramics I

Individual tutorial with full-time faculty member.

Hours 45 hrs,

Credits 3 cr

MFA majors in clay and casting only

ARTCR 63600 - Advanced Ceramics II

Individual tutorial with full-time faculty member.

Hours 45 hrs,

Credits 3 cr

MFA majors in clay and casting only

ARTCR 63700 - Advanced Ceramics III

Individual tutorial with full-time faculty member.

Hours 45 hrs,

Credits 3 cr

MFA majors in clay and casting only

Studio Art - Seminars

Corequirement: All seminars are to be taken simultaneously with a tutorial in the student's area of concentration. See Studio Art -Tutorials listings.

ARTCR 65100 - Seminar in Two-dimensional Art I

A weekly seminar to discuss students' work and related topics.

Hours 45 hrs,

Credits 3 cr

ARTCR 65200 - Seminar in Two-dimensional Art II

A weekly seminar to discuss students' work and related topics.

Hours 45 hrs,

Credits 3 cr

ARTCR 65300 - Seminar in Two-dimensional Art III

A weekly seminar to discuss students' work and related topics.

Hours 45 hrs,

Credits 3 cr

ARTCR 65500 - Seminar in Three-dimensional Art I

A weekly seminar to discuss students' work and related topics.

Hours 45 hrs,

Credits 3 cr

ARTCR 65600 - Seminar in Three-dimensional Art II

A weekly seminar to discuss students' work and related topics.

Hours 45 hrs,

Credits 3 cr

ARTCR 65700 - Seminar in Three-dimensional Art III

A weekly seminar to discuss students' work and related topics.

Hours 45 hrs,

Credits 3 cr

ARTCR 66100 - Seminar in Combined Media

A weekly seminar to discuss students' work and related topics.

*Hours 45 hrs,
Credits 3 cr*

Studio Electives

ARTCR 64000 - Advanced Drawing I

A studio elective for MFA students.

*Hours 4
Credits 3*

ARTCR 64100 - Advanced Drawing II

A studio elective for MFA students.

*Hours 4
Credits 3*

ARTCR 64200 - Advanced Drawing III

A studio elective for MFA students.

*Hours 4
Credits 3*

ARTCR 75000 - Independent Study in Studio Art 1, 2

*Hours 45 hrs,
Credits 3 cr
These credits are used when a student travels to one of our exchange programs.*

ARTCR 75100 - Special Topics in Studio Art

Special projects in photography, ceramics, color theory, three-dimensional form theory, collage, time-based media and related topics. Topics offered vary from semester to semester.

*Hours 4
Credits 3*

ARTCR 75156 - Apprenticeship

Teaching Assistantship with a Full-time Faculty Member

prereq: must have passed Mid-Program Review, permission of the instructor

Studio Art MFA Thesis Project

ARTCR 79100 - MFA Project

Limited to matriculated students in MFA program who have completed 42 graduate credits. Independent research toward the MFA project under direction of faculty member.

*Hours 45 hrs,
Credits 6 cr*

Audiology

AUD 70000 - Anatomy and Physiology of the Audio-Vestibular System

Investigation of the embryology, structure, and function of the auditory and vestibular systems.

*Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 70300 - Acoustics and Psychoacoustics

Exploration of the decibel, sound transmission, complex stimuli, psychoacoustic methods, signal detection theory, auditory sensitivity, masking, loudness, pitch, binaural hearing.

*coreq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology
Hours 30 hours lecture, 15 hours laboratory,
Credits 3 cr*

AUD 70500 - Speech-Language Sciences

Exploration of phonological, lexical syntacticmorphological, and pragmatic aspects of human communication associated with speech, language, hearing and related disorders, normal processes of speech and language comprehension and production over the life span.

*Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 70900 - Instrumentation in Audiology

Measurement and calibration of the physical characteristics of acoustic, electric, and other non-acoustic stimuli; instrumentation, digital technology; bio-electrical hazards.

*prereq: Psychoacoustics
coreq: Physiological Acoustics
Hours 15 hours lecture; 30 hours laboratory,
Credits 3 cr*

AUD 71000 - Diagnostic Audiology

Study of audiological test procedures and interpretation in the assessment of peripheral and functional hearing impairment.

prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology; Psychoacoustics
Hours 30 hours lecture plus conference; 15 hours laboratory,
Credits 4 cr

AUD 71200 - Speech-Language Pathology for Audiologists

Exploration of the effects of communication disorders and differences on audiological testing, treatment and counseling; screening and prevention of communication disorders across the life span. In accordance with the American Speech-Language-Hearing Association's certification standards, students will complete the hours of speech and language screenings in a variety of settings.

prereq: Speech-Languages Sciences
coreq: Diagnostic Audiology
Hours 15 hours lecture plus conference, 15 hours laboratory,
Credits 3 cr

AUD 71600 - Physiological Acoustics

Detailed study of the pneumatic/mechanical/hydraulic/electrical interfaces involved in the transduction of acoustic energy through the auditory system. In-depth investigation of the external ear biophysics, the middle ear transfer function, cochlear hydrodynamics and hydromechanics, auditory biopotentials, cochlear non linearity, neural transduction and neural coding in the peripheral and central auditory systems.

prereq: courses in Anatomy & Physiology of the Audio-Vestibular System and Psychoacoustics
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 71800 - Introduction to Research Methods

Exploration of issues and concepts in study design and analysis including types of research, controlling for confounding variables, measurement errors and their effects, statistical methods, and their applications to clinical populations.

prereq: 30 hours lecture plus conference
Credits 3 cr

AUD 72000 - Multicultural Issues for Audiologists

Examination of multicultural influences on the prevalence of auditory, vestibular, and otologic disorders; dialectical considerations for suprathreshold speech-recognition assessment; multicultural influences on attitudes toward health care providers, health care, disability, and deaf; ramifications of cultural diversity for professional practice; using culturally sensitive measures and protocols for assessment and management.

prereq: Diagnostic Audiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 73000 - Amplification I

Examination of hearing-aid components, hearing aid candidacy, output limiting/compression, electroacoustic and real-ear measures, prescriptive procedures, amplification, earmolds and earmold acoustics, cerumen management, binaural issues including deprivation and acclimatization, approaches to hearing aid evaluation.

prereq: Diagnostic Audiology, Physiological Acoustics, and 1 cr of Audiology Practicum

Hours 30 hours lecture plus conference; 15 hours laboratory,

Credits 4 cr

AUD 73300 - Communication Skills of Adults with Hearing Loss

A comprehensive approach to rehabilitation of adults with hearing impairment. Assessment of adult communicative function including auditory/visual speech perception, and use of selfassessment using cochlear implants and other sensory aids.

prereq: Diagnostic Audiology and 1 cr of Audiology Practicum

coreq: Amplification I

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 73500 - Auditory Electrophysiology

Advanced differential diagnosis of auditory disorders. Exploration of theoretical bases and clinical aspects of otoacoustic emissions and middle ear measurement.

prereq: Diagnostic Audiology and 1 cr of Audiology Practicum

coreq: 2nd cr of Audiology Practicum

Hours 15 hours lecture and conference; 15 hours laboratory,

Credits 3 cr

AUD 73700 - Prevention and Identification of Hearing Loss

Exploration of procedures to prevent the onset and minimize the development of hearing disorders; identifying individuals at risk for hearing impairment throughout the lifespan; screening individuals for hearing impairment and disability/handicap; administering hearing conservation programs.

prereq: courses in Diagnostic Audiology and Auditory Evoked Responses

coreq: course in Audiology Electrophysiology

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 74000 - Aural Habilitation

Roles and responsibilities of the audiologist in clinical and educational settings. Assessment and management of communicative function in children with hearing impairment, including those with minimal hearing loss. Development of strategies for improving speech perception skills, including usage of assistive technology.

prereq: Auditory Evoked Responses; Speech-Language Pathology for Audiologists; and, 2 cr of Audiology Practicum

coreq: Audiology Electrophysiology

*Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 74200 - Auditory Evoked Responses

Exploration of the theoretical bases and clinical applications of the auditory evoked potentials.

*prereq: Audiology Electrophysiology and 2 cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr*

AUD 74600 - Pediatric Audiology

Exploration of the effects of hearing loss on child development, prevalence of hearing loss in childhood, embryology, genetic issues, development of auditory function, hearing and balance disorders in children, pediatric audiology assessment battery, pediatric considerations in amplification, assessment of special populations.

*prereq: Amplification I, Auditory Evoked Responses and 2 cr of Audiology Practicum
coreq: Audiology Electrophysiology, Prevention and Identification of Hearing Loss
Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 74800 - Amplification II

Advanced signal processing, verification, validation/outcome measures, pediatric amplification fitting, noise-reduction strategies, multi-microphone/directional technology, troubleshooting/repair, hearing-aid orientation.

*prereq: Amplification I and 2 cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr*

AUD 75000 - Counseling

Contemporary theories of counseling. Application of principles and methods to problems faced by individuals with communication, hearing, vestibular and tinnitus disorders and their families. Counseling strategies to maximize individual's ability to understand, adapt and cope with his/her disorder.

*prereq: Diagnostic Audiology
Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 76000 - Medical Audiology

Medical and audiological aspects of hearing and balance disorders, including issues in genetics, otologic assessment and treatment, and use of imaging studies.

*prereq: Auditory Evoked Responses and 2 cr of Audiology Practicum
coreq: Audiology Electrophysiology
Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 76300 - Vestibular and Tinnitus Evaluation and Management

Investigation of balance tests including electronystagmography, posturography, and rotary chair; vestibular rehabilitation; electrophysiologic and behavioral techniques for the assessment of tinnitus; tinnitus management.

prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology, Diagnostic Audiology, Auditory Evoked Responses, Audiology Electrophysiology

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 76500 - Audiologic Research Proposal

Critiquing of research and the development of individual research proposals. Development of Institutional Review Board (IRB) application.

prereq: Introduction to Research Methods and completion of 45 Au.D. credits

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 76700 - Amplification III

Advanced programming. FM fitting and evaluation; special fittings; developing technologies; current research in amplification.

prereq: Amplification I and 2 cr of Audiology Practicum

Hours 15 hours lecture and conference; 15 hours laboratory,

Credits 3 cr

AUD 77000 - Cochlear Implants and other Sensory Aids

Effects of electrical stimulation on the auditory system; exploration of candidacy, principles of signal processing, and audiologic management for children and adults who use cochlear implants and other sensory aids.

prereq: courses in Anatomy & Physiology of the Audio-Vestibular System; Acoustics and Psychoacoustics; Speech-Language Sciences; Physiological Acoustics; Instrumentation in Audiology, Amplification I

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 77200 - Auditory Processing Disorders: Assessment and Treatment

Relevant neuroanatomy and physiology of auditory pathways; behavioral and physiological assessment techniques and management procedures for children and adults with auditory processing disorders.

prereq: Auditory Evoked Responses; Auditory Electrophysiology, Speech-Language Pathology for Audiologists, Pediatric Audiology, Audiologic Habilitation and 2 cr of Audiology Practicum

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 77400 - Hearing and Aging

Examination of the biological, physiological and sociological changes accompanying the aging process; protocols for evaluating and treating older adults with hearing impairment.

prereq: courses in Diagnostic Audiology and Anatomy & Physiology of the Audio-Vestibular System; Auditory Electrophysiology; Communication Skills of Adults with Hearing Loss

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 77600 - Seminar in Professional Practice - Business Practices

Issues of a professional nature that impact on the practice of audiology. Topics include licensure, accreditation/certification, quality assurance, reimbursement, establishing a private practice, professional liability, privacy/confidentiality and ethics.

prereq: courses in Diagnostic Audiology; Audiology Practicum; Audiology Seminar; Amplification II

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 78000 - Audiologic Research

Students, under the direction of their clinical research project committee, will carry out the proposal developed in Audiologic Research Proposal.

prereq: Audiologic Research Proposal

Hours 15 hours,

Credits 1 cr

AUD 79000 - Audiology Practicum

Clinical Practicum in assessment and management of a wide variety of hearing disorders under the supervision of an ASHA certified and New York licensed audiologist.

Hours 15 hours laboratory,

Credits 1 cr

AUD 79600 - Seminar in Audiology

Examination of ethical issues, certification standards, Center policies and procedures, infectious disease and infection control, history taking, report-writing, counseling, case studies, procedures and protocol in various settings.

Hours 15 hours,

Credits 1 cr

AUD 79800 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

Hours Conference,

Credits 1-3 cr

AUD 79900 - Audiology Residency

Students will be placed and supervised in setting(s), which will meet CAA standards for the certificate of Clinical Competence for the clinical residency year. Student must successfully complete this course two times.

coreq: Audiology Residency Seminar.

Credits 1-3 cr

prereq for the 1st semester of Audiology Residency: Completion of 6 credits of Audiology Practicum and 6 credits of Audiology Seminar

Baruch College Courses

PAF 91000 - Introduction to Public Affairs

Systematic study of the institutions Americans have developed to pursue the public interest; government, markets, nonprofit organizations, the family. Overview of political economy, institutions, and culture; the policy process; role of values and ethics.

PAF 91030 - Communication in Public Settings

Introduces students to communication in public settings and provides extensive opportunities for practice with basic written and oral forms. Interrelationships among communicative activities and organizational goals. Internal and external messages are given equal weight. Argumentative structures necessary for constructing sound policy and persuasive techniques relevant to funding, regulation, client, and public constituencies. Topics will vary somewhat from semester to semester depending on the instructor's and students' interests. The course follows a workshop/laboratory format with intensive attention to student work as a fulcrum for the application of theory and refinement of skills.

PAF 91200 - Managing Organizations in the Public and Not-for-Profit Sectors

Fundamental concepts and techniques for managing government and not-for-profit agencies, including schools. This course focuses on structural models, individual behavior, including group dynamics and leadership, and political and cultural frameworks. Questions of effectiveness, responsibility, and professional relations are considered.

PAF 91230 - Program Evaluation

Examination of the process and techniques of program evaluation and the assessment of effectiveness of public sector policies. Various performance assessment criteria, problems of evaluation research, and the politics of program evaluation are reviewed.

Hours 2 hours plus conference

Credits 3

PAF 91300 - Economic Analysis and Public Policy

Introduction to concepts and analytic tools necessary to economic examination of individual and firm behavior; analysis of causes and consequences of public sector intervention in the economy.

PAF 91400 - Budgeting, Accounting and Financial Analysis

Introduction to budgeting, accounting and financial analysis. Overview of the context of budgeting in the government decision process and analysis of the fiscal cycle through budget development, implementation, and review. Incorporates basic accounting concepts and information presentation and retrieval skills.

PAF 91700 - Research and Analysis I

The first course in a two-course sequence (the second course is PAF 91720) that provides an introduction to research and analytical methods as applied to public policy and management. Students will develop expertise as consumers of research findings and learn methods for designing and conducting research. This first course provides an introduction to data analysis and statistical inference, with an emphasis on policy and management applications. Topics include graphing and numerical summaries, normal distributions, descriptive correlation and regression, basic probability and sampling distributions, confidence intervals, significance tests, chi-square tests, and inference for regression. Students learn these techniques through hands-on work with real data and statistical software.

PAF 91720 - Applying Information, Research, and Analysis II

This course is the second in a two-course sequence that provides an introduction to research and analytical methods as applied to public policy and management. Students will develop expertise as consumers of research findings and learn methods for designing and conducting research.

PAF 91800 - Policy Analysis

Overview of the use of analytic techniques in solving public sector problems and designing government programs. Topics include agenda setting, approaches to problem solving, the role of values in policy making and policy analysis, policy-relevant data collection and analysis, principles of benefit-cost analysis, techniques of policy analysis (e.g., queuing, simulations, formal modeling), strategies for policy adoption and implementation, and the politics of policy analysis.

Hours 2 hours plus conference
Credits 3

PAF 97350 - Health Politics and Policymaking

This course examines the evolution of the major governmental programs involved with health insurance and health care in the United States. The goal is an understanding of the political dynamics that lead to successes and failures in health policymaking, and the development of strategies that can be used by governmental and non-governmental actors to accomplish policy change.

Hours 3
Credits 3

Biochemistry

Please consult Courses in Biological Sciences and Courses in Chemistry or the courses in the Biochemistry - MA program for additional required courses in the program

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs,

Credits 3 cr

Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry

Hours 3

Spring only, offered at the Graduate Center

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8

Credits 4

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 79901 - Thesis Research

Credits (Master's) 1

BIOCHEM 79902 - Thesis Research

Credits (Master's) 2

BIOCHEM 79903 - Thesis Research

Credits (Master's) 3

offered Fall, Spring, and Summer Open only to students writing a thesis as part of the requirements

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry

Hours 3 hrs,

Credits 3 cr

fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000

Hours 3 hrs,

Credits 3 cr

Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020

Molecular and Cell Biology

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr
fall only

BIOL 71014 - Molecular Biology Laboratory

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry
Hours 105 hrs lab and conf,
Credits 4 cr
Fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 79049 - Computational Molecular Biology

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.
spring only

Genetics and Developmental Biology

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

BIOL 79070 - Neuroscience II

Given at CUNY Graduate Center. Introduction to sensory and motor systems and to neural behavioral development.

spring only

Physiology and Neuroscience

BIOL 79051 - Neuroscience I

Given at CUNY Graduate Center. Comprehensive introduction to neuroscience with regard to structure and function at the cellular level.

fall only Students must register for Neuroscience I at City College of CUNY.

Biotechnology

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

*Hours 30 hrs/wk for 4 wks,
Credits 4 cr*

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

*prereq: BIOL 61000
Credits 3 months, 4 cr*

Biological Sciences Seminars

BIOL 79051 - Seminar

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

*prereq: BIOL 70005 and BIOL 71013
Fall and Spring*

BIOL 79099 - Seminar

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

prereq: BIOL 70005 and BIOL 71014

Biological Sciences Tutorials

BIOL 79202 - Tutorial

*prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr*

BIOL 79204 - Tutorial

*prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr*

Biological Sciences Thesis Research - MA

BIOL 79910 - Thesis Research-MA

prereq: permission of graduate adviser

Hours 15, 30, or 45 hrs,

Credits 1, 2, or 3 cr, respectively

BIOL 79920 - Thesis Research-MA

prereq: perm grad adviser

Hours 15, 30, or 45 hrs,

Credits 1, 2, or 3 cr, respectively

BIOL 79930 - Thesis Research-MA

prereq: permission of graduate adviser

Hours 15, 30, or 45 hrs,

Credits 1, 2, or 3 cr, respectively

Biological Sciences Independent Doctoral Research

BIOL U89910 - Independent Doctoral Research

prereq: permission from graduate adviser

BIOL U89910 - Independent Doctoral Research

prereq: permission from graduate adviser

Hours each 15 to 150 hrs,

Credits 1 to 10 cr

(Course listed in the schedule of classes at the CUNY Graduate Center)

Biological Sciences: Special Topics

BIOL 790xx - Special Topics Courses

Seminar in Immunology, Cancer Research, Signal Transduction, Bioinformatics, Neurobiology, etc.

Credits 3

Biological Sciences Program for Teachers of Adolescent Education

BIOL 60000 - Molecular Biology for Science Teachers

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

*prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.
Fall only*

BIOL 60210 - Molecular Genetics for Science Teachers

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

*prereq: BIOL 60000 or equivalent and permission of instructor
Spring only*

BIOL 61055 - Laboratory Workshop in Biology Education

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

*prereq: a graduate course in biology or permission of instructor
Hours 120 hrs,
Credits 3 cr*

BIOL 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: BIOL 61055 or permission of instructor

BIOL 66000 - Challenging Concepts in the Biological Sciences

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor
Hours 4 hrs,
Credits 4 cr*

Biological Sciences: Courses offered only upon sufficient student demand

BIOL 65000 - Cell and Tissue Culture

BIOL 72202 - Endocrinology

BIOL 77006 - Laboratory in Cell Structure

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

Hours 7 (2 lecture, 5 lab)

Credits 4.5

BIOL 77101 - Analysis of Mammalian Cells in Tissue Culture

Chemistry

CHEM U79000 - Basic Laboratory Techniques for Research in Biochemistry

Lecture and laboratory work dealing with the theories and applications of modern approaches to the solution of chemical problems.

Credits 4 cr

CHEM U79500 - First Level Doctoral Laboratory Research

Hours to be arranged, credits variable.

CHEM U81010 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester

Offered at The Graduate Center

CHEM U81040 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester

Offered at The Graduate Center

CHEM 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: permission of instructor

Credits 3

CHEM 64000 - Biochemistry 1

Organic and physical chemistry of proteins, Enzymes: kinetics and mechanism of action. Biological oxidation: Krebs cycle, transport, oxidative phosphorylation. Carbohydrate metabolism.

Credits lec., 3 cr

CHEM 64100 - Biochemistry 2

Metabolism, biomedical genetics, immuno-biochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000

Credits lec., 3 cr

CHEM 64300A - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

CHEM 64300B - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent

Hours 4 hrs,

Credits 4 cr

Fall

CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

Hours 4 hrs,

Credits 4 cr

CHEM 69803 - Chemical Genomics

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

Hours 3

Credits 3

CHEM 71000 - Advanced Inorganic Chemistry

The theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

prereq: an advanced undergraduate inorganic chemistry course or CHEM 76000

Hours 45 hrs,

Credits 3 cr

CHEM 79900 - Thesis Research

Individual research under supervision. Limited to students matriculated for the MA in chemistry.

Credits 3 cr

permission of department required

Chemistry Fundamental

CHEM 75000 - Advanced Organic Chemistry I

Fundamentals of organic chemical principles, reactions and structures.

*Hours 45 hrs,
Credits 3 cr*

CHEM 75100 - Advanced Organic Chemistry II

A continuation of CHEM 75000

*Hours 45 hrs,
Credits 3 cr*

CHEM 75200 - Quantum Organic Chemistry

The application of modern theoretical techniques to organic chemical problems

*prereq: CHEM 75000 and CHEM 76000
Hours 45 hrs,
Credits 3 cr*

CHEM 76000 - Introductory Quantum Chemistry

Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

*Hours 45 hrs,
Credits 3 cr*

CHEM 76100 - Spectroscopy

A continuation of CHEM 76000

*Hours 45 hrs,
Credits 3 cr*

CHEM 77000 - Chemical Thermodynamics

The development of the thermodynamic foundations of chemical processes: both the classical and statistical-mechanical approaches will be used.

*Hours 45 hrs,
Credits 3 cr*

Chinese

CHIN 70100 - Chinese Phonology and Romanization

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

Hours 3

Credits 3

CHIN 70200 - Modern Chinese Pedagogical Grammar

This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.

Hours 3

Credits 3

CHIN 70300 - Chinese Orthography and Lexicology

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

Hours 3

Credits 3

CHIN 70500 - Topics in Advanced Conversation

This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70600 - Topics in Advanced Writing

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70700 - Topics in Advanced Reading

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70800 - Topics in Chinese Culture and Society

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70900 - Independent Study

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

Classics

CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

Hours 45 hrs, including conferences,

Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

Hours 45 hrs, including conferences,

Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70300 - A Survey of Classical Literature in Translation

An analysis, by genre, of the major traditions of classical literature. Students may take either semester for credit.

Hours 45 hrs, including conferences,

Credits 3

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70400 - A Survey of Classical Literature in Translation

An analysis, by genre, of the major traditions of classical literature. Students may take either semester for credit.

Hours 45 hrs, including conferences,

Credits 3

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70600 - Supervised Reading

Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

CLA 70700 - A Survey of Classical Literature in Translation

Communication Sciences Prerequisite Courses

COMSC 60400 - Introduction to Language Science

An introduction to the nature of language and communication. Topics include components of the linguistic system, relationship between verbal and non-verbal communication, and language acquisition across the life span.

Hours 45

Credits 3

COMSC 60700 - Phonetics of American English

Phonetic features of oral American English and dialectal variations of American English and non-native English speech.

Hours 45

Credits 3

COMSC 61500 - Speech and Its Production

An overview of the structure of speech and the basic mechanisms involved the production of speech sounds; a foundation for a more in-depth study of speech science and its application to clinical practice in speech-language pathology and audiology; structure and organization of the ventilatory, laryngeal, supralaryngeal and orofacial mechanisms; issues in basic speech acoustics and perception.

Hours 45

Credits 3

COMSC 62000 - Introduction to Speech-Language Pathology

Introduction to organic and behavioral correlates of human communication; its development and disorders. The influence of culture, heritage, and socioeconomic status on the disorders of voice, articulation, fluency, and language.

Hours 45

Credits 3

COMSC 64000 - Introduction to Audiology

Etiology and pathology of hearing disorders, basic properties of the auditory stimulus: measurement of pure tone thresholds by air and bone conduction. Overview of the audiologist in diagnosis and management of hearing disorders.

Hours 45

Credits 3

Communication Sciences

COMSC 70000 - Introduction to Research Methods

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none

Hours 45

Credits 3

COMSC 70200 - Multicultural Issues in Counseling and Communication

This course presents a multicultural perspective of counseling theories, techniques and strategies for persons with disorders and their families. It addresses the impact of cultural, ethnic, gender, socioeconomic and individual variations in culturally appropriate delivery of services to individuals with speech-language disorders as well as those acquiring English as a second language.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800

Hours 45

Credits 3

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter college will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none

Hours 45

Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none

Hours 45

Credits 3

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300

Hours 45

Credits 3

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 71800 - Language and Literacy Disorders in School-Age Children

The impact of language disorders in school-age children and adolescents on their acquisition of academic skills required for the development of literacy skills and written language (reading, spelling and writing); cognitive and social aspects of communication; formal and informal assessment; collaborative management strategies; cultural diversity issues.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60

Credits 4

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200

Hours 45

Credits 3

COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the

nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45

Credits 3

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none

Hours 60

Credits 4

COMSC 72500 - Developmental Motor Speech and Swallowing Disorders

Diagnosis and management of childhood dysarthrias, developmental apraxia of speech and related disorders of swallowing.

prereq: COMSC 70800, 71200

Hours 45 hrs,

Credits 3 cr

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200

Hours 45 hrs,

Credits 3 cr

COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72000, 73300

Credits 1 cr

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1 cr

COMSC 72904 - Clinical Practicum in Speech- Language Pathology 1

for students in the bilingual extension, designates a special section of **COMSC 72900** for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1

COMSC 73000 - Cleft Palate and Craniofacial Disorders of Speech

Broad spectrum of velopharyngeal incompetence, including embryogenesis, classification of clefts, aspects of cleft palate speech, associated disorders, modes of formal and informal assessment and intervention strategies within the home, school, hospital and work environments; current surgical and prosthetic management of cleft lip, palate and related craniofacial disorders; impact on learning and literacy acquisition.

prereq: COMSC 70800, 71200

Hours 45 hrs,

Credits 3 cr

COMSC 73100 - Assessment and Management of Speech, Voice, and Swallowing Following Surgical Intervention for Head and Neck Cancer

Assessment and management of surgically based swallowing disorders in children, adolescents and adults; rehabilitation of speech, voice following oral and laryngeal surgery including the use of speech aids.

prereq: COMSC 70800, 71200

*Hours 45 hrs,
Credits 3 cr*

COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

*prereq: COMSC 72000
Hours 30
Credits 2*

COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals; and school-based curriculum.

*prereq: COMSC 73300
coreq: COMSC 77100
Hours 30
Credits 2*

COMSC 73600 - Clinical Seminar in Speech-Language Pathology 1

Assessment measures and intervention strategies for individuals with disorders of speech and language across the lifespan; development of professional oral and written communication skills.

*prereq: COMSC 73300
Hours 30 hrs,
Credits 2 cr*

COMSC 73700 - Clinical Seminar in Speech-Language Pathology: Alternative and Augmentative Communication (AAC)

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of AAC assessment, diagnostic intervention planning & implementation, data collection & interpretation, and follow-up assessment for monitoring progress across the life span. Presentation of no-tech (unaided communication), low-tech, mid-tech, and high-tech supports will be made available.

*prereq: COMSC 73600
coreq: COMSC 73900*

*Hours 30 hrs,
Credits 2 cr*

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

*prereq: none
Credits 3*

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

*prereq: COMSC 72900
coreq: COMSC 73700
Credits 1 cr*

COMSC 73904 - Clinical Practicum in Speech-Language Pathology 2

For students in the bilingual extension, designates a special section of COMSC 73900 for practicum with Spanish-speaking children eligible for bilingual services.

*prereq: COMSC 72900
coreq: COMSC 73700
Hours 45 hrs,
Credits 3 cr*

COMSC 75200 - Audiology for Speech-Language Pathologists

This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered. Particular emphasis will be on the role of speech-language pathologists in aural rehabilitative processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

*prereq: none
Hours 45
Credits 3*

COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 73300

Credits 1 cr

COMSC 77200 - Summer Clinical Practicum in Speech-Language Pathology 2

Second year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood, adolescence, as well as with adults.

prereq: COMSC 77100

Credits 1 cr

COMSC 78100 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum

Hours Hours to be arranged

Credits 2 cr

COMSC 78200 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum

Hours Hours to be arranged

Credits 2 cr

COMSC 79000 - Special Topics in Speech-Language Pathology or Audiology

Hours 45 hrs,

Credits 3 cr

COMSC 79600 - Special Problems

Directed study under supervision of faculty members. For doctoral credit, must be supervised by member of doctoral faculty.

Hours 45 hrs,

Credits 3 cr

COMSC 79900 - Thesis Seminar

Individual research under supervision.

Hours Hours to be arranged

Credits 3 cr

Community Health Education Required Courses

All COMHE Courses are 3 credits

COMHE 71300 - Addictions and Dependencies

Recent findings concerning legal and illegal drugs. Recent legislation. Emphasis on behavioral aspect with focus on abuser rather than substances being abused.

COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000

Credits 3

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75500, COMHE 75000, COMHE 75100

Credits 3

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.

Credits 3 cr

COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200

Credits 3 cr

Community Health Education Elective Courses

All COMHE Electives are 3 Credits

COMHE 77000 - Topics in Community Health Education

Courses on current topics in community health education.

offered periodically

COMHE 77025 - Maternal and Child Health

This course explores maternal and child health issues both domestically and internationally.

Credits 3

Dance

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program

Hours 3

Credits 2

Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background

Hours 3

Credits 3

DAN 73000 - Studies of Forms

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional

showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department
Hours 3

Credits 3

This course is repeatable once for credit.

DAN 73300 - Process and Projects

This course asks the Dance student to explore unfamiliar genres, styles and methodologies through a variety of choreographic project assignments. An inventory of each student's past experiences leads to a collaboratively designed and individualized series of assignments designed to stretch the student's experiences and capabilities.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department
Hours 3

Credits 3

DAN 73500 - Performance and Presentation

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA, MA
Hours 3

Credits 1

This course is repeatable once for credit.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs

Hours 3

Credits 3

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.

Hours 3

Credits 3

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

prereq: Admission to one of the graduate dance programs

Hours 3

Credits 3

Can be repeated for credit with different content areas

DAN 75000 - Topics in Teaching for College/University

Intensive examination of the relationship between pedagogy, teaching artistry, and curriculum design. Includes study of the history, philosophy, and cultures of dance in higher education. Topics include lesson, unit, course, and curriculum structuring, assessment strategies; application of choreographic principles to course design; the relationship between higher education and the changing dance environment, and understanding the administrative hierarchy in higher ed. Students are observed and mentored in their roles as teachers.

prereq: DANED 76000

Hours 3

Credits 3

Economics

Equivalent courses at other institutions satisfy prerequisite and corequisite requirements.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B

prereq or coreq: MATH 15500

ECO 70300 - Macroeconomic Theory

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B

prereq or coreq: MATH 15500

ECO 71000 - Monetary Theory and Policy

Factors determining demand for and supply of money; theories of rate of interest; issues of monetary policy.

prereq: ECO 21000

prereq or coreq: ECO 70300 and ECO 72100

ECO 71100 - Banking and Financial Markets

Factors determining banking and financial structure in US. Issues involving financial crises and bank failure, allocation of financial resources, regulation and competition.

prereq: ECO 21000

prereq or coreq: ECO 70300 and ECO 72100

ECO 71500 - Public Finance

Principles of taxation and government spending; efficiency and equity trade offs; decentralized public finance and fiscal federalism.

prereq or coreq: ECO 70100 and ECO 72100

ECO 72100 - Economic Statistics

Rigorous statistical foundation for the study of econometrics. Topics include probability theory; asymptotic theory; parameter estimation; hypothesis testing; least squares regression; matrix algebra.

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B

prereq or coreq: MATH 15500

ECO 72200 - Econometrics

Econometric methods for single equation models; ordinary least squares, generalized least squares, and variance estimation; maximum likelihood and limited dependent variables.

prereq: ECO 72100

prereq or coreq: MATH 16000

ECO 72300 - Time Series and Forecasting

Econometrics of time-series data; application of autoregressive and moving average (ARIMA) models to economic data.

prereq: ECO 72200

ECO 72400 - Microeconometrics

Introduction to advanced econometric techniques commonly used in applied microeconomic research. The topics covered will be panel data, instrumental variables estimation, limited dependent variables, truncated, censored and selected samples, and duration models.

prereq: ECO 72200

ECO 72600 - Policy and Program Evaluation

Econometric techniques for evaluating programs. Topics include randomized experiments, propensity score matching, instrumental variables, difference-in-difference estimates, regression discontinuity models and the ethics of human subject research. Most of the assignments will be problems sets involving analysis of data using a statistical package and written up in the form of research reports. Estimates 5 reports of 5 pages each. One term paper of 15 pages.

prereq: ECO 72200 or STAT 70700

Hours 3

Credits 3

ECO 73000 - Economic Development

Theories of economic development and economic issues of developing countries. Possible topics include the analysis of poverty, inequality, rural financial markets, labor and land markets, trade and environmental policies.

prereq or coreq: ECO 70100 or ECO 70300, and ECO 72100

ECO 73200 - Economic Growth

Investigation of the issue of why some countries become rich while other do not. Study of the factors that contribute to and retard economic growth.

prereq or coreq: ECO 70100 and ECO 70300

ECO 73500 - Urban Economics

Economic analysis of form and functioning of big cities. Analyses of location of economic activity within metropolitan areas and market for land; analyses of major urban policy issues, including housing, transportation, urban poverty, urban public finance.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74000 - International Trade: Theory and Policy

International trade theory and analysis of current economic problems; terms of trade; balance of payments; trade regulations and policies, international financial institutions, foreign aid, regional integration.

prereq or coreq: ECO 70100 and ECO 72100 recommended prereq or coreq: ECO 70300

ECO 74100 - International Finance

Examination of the international financial system, models of exchange rate determination, open economy macroeconomics, and international financial markets.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74500 - Labor Economics

Economic theory and research on differences in employment and compensation; effects of demographic characteristics, human capital, labor unions, and income maintenance policies.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74800 - Health Economics

Economic analysis of the health care industry to explain the demand for and supply of medical care. Includes analysis of behavior of consumers, producers, and insurers; and public policies to regulate the industry and to provide services for the poor and elderly.

prereq or coreq: ECO 70100 and ECO 72100

ECO 75500 - Industrial Organization

Product market decisions by firms in monopoly and oligopoly; the boundaries of the firm and vertical integration; applications to antitrust and regulatory policy.

prereq or coreq: ECO 70100 and ECO 72100

ECO 75600 - Law and Economics

A study of economic foundations of law. Topics include the role of property rights and liability rules in the control of externalities, controlling the cost of accidents, the control of criminal behavior, product failure and damage, medical malpractice. Consideration of the economic logic underlying the law.

prereq or coreq: ECO 70100 and ECO 72100

ECO 76000 - Financial Economics

Examination of the models of finance: optimization over time, asset valuation and risk management. Applications to models of asset pricing, including stocks, bonds and options; portfolio selection; and problems in corporate finance including investment analysis and capital structure.

prereq or coreq: ECO 70100 and ECO 72100

ECO 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes, and potential problems that can arise in the application of financial derivatives.

prereq: ECO 76000

ECO 76200 - Corporate Governance

Economic analysis of how institutional arrangements distribute power, authority, and control across different stakeholders of the firm; contractual agreements as a means to render such institutional arrangements unnecessary.

prereq or coreq: ECO 70100 and ECO 72100

ECO 76500 - Games and Information

Game theory offers a framework for analyzing social interactions and emergent behavior in a very wide variety of human contexts. The purpose of this course is to offer a critical introduction to game theory and its applications. Economic applications include the analysis of conflict and the emergence of trust and cooperation out of anarchy, the analysis of firms' strategic behavior in concentrated markets, or of herd behavior and panics in financial markets. Asymmetric information economics and mechanism- design extend game theory by exploring how the design of the rules of a game, or the initial distribution of information might affect equilibrium behavior outcomes, and therefore how one might choose to set up the rules of the game to govern their interactions.

prereq or coreq: ECO 70100

ECO 78500 - Internship

Internships with organizations engaged in economic research. Students write a research paper under direction of said organization and concomitant supervision of instructor. Open to MA students who have completed at least 15 cr of graduate work; may be taken only once.

Open to MA students who have completed at least 15 cr of graduate work; may be taken only once.

ECO 79000 - Independent Study

Intensive study of special field of economics under supervision of member of graduate faculty.

prereq: permission of instructor and graduate adviser

ECO 79100 - Independent Study

Intensive study of special field of economics under supervision of member of graduate faculty.

prereq: perm instr and graduate adviser

Credits 1 cr

May be taken only once.

ECO 79500 - Economics Seminar

Special topic and research in economics.

May be repeated for credit by perm chair or graduate adviser

ECO 79800 - Thesis Research

Preparation of acceptable MA thesis under faculty supervision.

credit not granted until thesis is accepted

Economics - Courses offered upon sufficient student and faculty interest

ECO 72500 - Economics of Consumption

This course may be offered depending on student and faculty interest

ECO 73100 - American Economic History

This course may be offered depending on student and faculty interest

ECO 74700 - Income Distribution and Public Policy

This course may be offered depending on student and faculty interest

ECO 75000 - Comparative Economic Systems

This course may be offered depending on student and faculty interest

ECO 75100 - Economic Development of Latin America

This course may be offered depending on student and faculty interest

Education: School Administration and Supervision

ADSUP 70400 - Leadership to Enhance Human Resources

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work

Credits 4

ADSUP 70600 - School-Based Field Experience Seminar in Administration and Supervision

An intensive school-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

Hours 200 hrs of leadership experiences in field work

ADSUP 70700 - District/Region Field Experience Seminar in Administration and Supervision

An intensive district/region-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

Hours 200 hrs of leadership experiences in field work

ADSUP 71500 - Supervision for the Improvement of Instruction

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work

Credits 4

ADSUP 71600 - Leadership Strategies for School Reform

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work

Credits 4

ADSUP 71700 - Seminar in Evaluating and Applying Educational Research

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work

Credits 4

ADSUP 72100 - Legal Issues, Finance, Facilities and Operations

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work

Credits 4

ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 74100 - School District Leadership: Problems and Issues

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract
Credits 4

ADSUP 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, CEDC 75600, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours includes 10 hrs field experience
Credits 3

Education: Adolescent Education

CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12

The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

prereq or coreq: SEDF 70400 or permission of the adviser

CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

prereq or coreq: CHND 71200 and SEDF 70500 or permission of the adviser

Hours 30 hrs plus 36 hrs fieldwork,

Credits 2

CHND 73100 - Student Teaching in Chinese, Grades 7-12

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

prereq or coreq: CHND 71300 or permission of the adviser.

Hours 60 days, 30 hrs seminar plus workshops and conferences,

Credits 5

CHND 74110 - Practicum in Chinese, Grades 7-9

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take **CHND 74110** must also take **CHND 74120**.

prereq or coreq: CHND 71200 or permission of the adviser.

Hours 30 hrs plus conferences

Credits 2

CHND 74120 - Practicum in Chinese, Grades 10-12

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take **CHND 74120** must also take CHND 74110

prereq or coreq: CHND 71200 or permission of the adviser.

Hours 30 hrs plus conferences,

Credits 2

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 71600 - Math: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the contents of mathematics programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of mathematics. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs

Credits 3

SEDC 71700 - Social Studies: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of social studies programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of social studies. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45

Credits 3

SEDC 71800 - Science: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of science programs and curricula in grades 7–12 and formulate teaching methodology for the meaningful learning of science. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100
prereq or coreq: SEDF 70500
Hours 45 plus 36 hrs fieldwork
Credits 3

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 45 plus 36 hrs fieldwork
Credits 3

SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 45 plus 36 hrs fieldwork,
Credits 3

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 45 plus 36 hrs fieldwork
Credits 3

SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71500
prereq or coreq: SEDF 70500
Hours 45 plus 36 hrs fieldwork
Credits 3

SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

SEDC 75100 - Student Teaching in English, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100, SEDF 706

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75201 - Student Teaching in French, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 722, SEDF 706

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75202 - Student Teaching in Italian, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75203 - Student Teaching in Spanish, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further

develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75401 - Student Teaching in Biology, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400, SEDF 70600

prereq or coreq: SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75402 - Student Teaching in Chemistry, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75403 - Student Teaching in Physics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75404 - Student Teaching in Earth Science, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75500 - Student Teaching in Social Studies, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72500, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 75600 - Student Teaching in Music, Pre-K–12

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 76110 - Student Teaching in English, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100

prereq or coreq: SEDF 70600

Hours 30 hours, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76110 must also complete SEDC 76120 or SEDC 77120.

SEDC 76120 - Student Teaching in English, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100

prereq or coreq: SEDF 70600

Hours 30 hours, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76120 must also complete SEDC 76110 or SEDC 77110.

SEDC 76211 - Student Teaching in French, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus, 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76211 must also complete SEDC 76221 or SEDC 77221.

SEDC 76212 - Student Teaching in Italian, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76212 must also complete SEDC 76222 or SEDC 77222.

SEDC 76213 - Student Teaching in Spanish, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76213 must also complete SEDC 76223 or SEDC 77223.

SEDC 76221 - Student Teaching in French, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76221 must also complete SEDC 76211 or SEDC 77211.

SEDC 76222 - Student Teaching in Italian, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76222 must also complete SEDC 76212 or SEDC 77212.

SEDC 76223 - Student Teaching in Spanish, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76223 must also complete SEDC 76213 or SEDC 77213.

SEDC 76310 - Student Teaching in Mathematics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.

SEDC 76320 - Student Teaching in Mathematics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.

SEDC 76411 - Student Teaching in Biology in Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76411 must also complete SEDC 76421 or SEDC 77421.

SEDC 76412 - Student Teaching in Chemistry, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76412 must also complete SEDC 76422 or SEDC 77422.

SEDC 76413 - Student Teaching in Physics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76413 must also complete SEDC 76423 or SEDC 77423.

SEDC 76414 - Student Teaching in Earth Science, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76414 must also complete SEDC 76424 or SEDC 77424.

SEDC 76421 - Student Teaching in Biology, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76421 must also complete SEDC 76411 or SEDC 77411.

SEDC 76422 - Student Teaching in Chemistry, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76422 must also complete SEDC 76412 or SEDC 77412.

SEDC 76423 - Student Teaching in Physics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76423 must also complete SEDC 76413 or SEDC 77413.

SEDC 76424 - Student Teaching in Earth Science, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76424 must also complete SEDC 76414 or SEDC 77414.

SEDC 76510 - Student Teaching in Social Studies, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDF 72500

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76510 must also complete SEDC 76520 or SEDC 77520.

SEDC 76520 - Student Teaching in Social Studies, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDF 72500

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76520 must also complete SEDC 76510 or SEDC 77510.

SEDC 76610 - Student Teaching in Music, Grades Pre-K–6

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76610 must also complete SEDC 76520 or SEDC 77520.

SEDC 76620 - Student Teaching in Music, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76620 must also complete SEDC 76510 or SEDC 77510.

SEDC 77110 - Practicum in English, Grades 7–9

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 771.10** must also take **SEDC 77120**.

prereq: SEDC 72100, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77120 - Practicum in English, Grades 10–12

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77120** must also take **SEDC 77110**.

prereq: SEDC 72100, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77211 - Practicum in French, Grades 7–9

Supervised practicum for teachers of French in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

Students who take **SEDC 77211** must also take **SEDC 77221** .

prereq: SEDC 72200

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77212 - Practicum in Italian, Grades 7–9

Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77212** must also take **SEDC 77222** .

prereq: SEDC 72200

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77213 - Practicum in Spanish, Grades 7–9

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77213** must also take **SEDC 77223**.

prereq: SEDC 72200, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77221 - Practicum in French, Grades 10–12

Supervised practicum for teachers of French in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77221** must also take **SEDC 77211**.

prereq: SEDC 72200, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77222 - Practicum in Italian, Grades 10–12

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77222** must also take **SEDC 77212**.

prereq: SEDC 72200, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77223 - Practicum in Spanish, Grades 10

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

prereq: SEDC 72200, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320 .

prereq: SEDC 72300

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310 .

prereq: SEDC 723, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 774.11 must also take SEDC 774.21.

SEDC 77412 - Practicum in Chemistry, Grades 7–9

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77412 must also take SEDC 77422.

SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77424.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2

SEDC 77414 - Practicum in Earth Science, Grades 7–9

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take SEDC 77424.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2

SEDC 77421 - Practicum in Biology, Grades 10-12

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77421 must also take SEDC 77411.

SEDC 77422 - Practicum in Chemistry, Grades 10–12

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77422 must also take SEDC 77412.

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413 .

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77424 - Practicum in Earth Science, Grades 10–12

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77424** must also take SEDC 77414.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77510 - Practicum in Social Studies, Grades 7–9

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

prereq: SEDC 72500, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77520 - Practicum in Social Studies, Grades 10–12

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

prereq: SEDC 72500, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77610 - Practicum in Music, Grades Pre-K–6

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620 .

prereq: MUSED 67800, SEDF 70600
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77620 - Practicum in Music, Grades 7–12

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800, SEDF 70600
Hours 30 hrs plus conferences,
Credits 2 cr

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

prereq: SEDF 20500
Credits 2

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

coreq:

Hours 30 hrs, plus lab,

Credits 2 cr

SEDF 71400 - Adolescent Development and Learning: Grades 7-12

This course prepares teacher candidates to think about how adolescents develop and learn by examining the process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and levels of ability. Emphasis will be placed on creating culturally compatible classrooms, motivating students, and assessing their learning.

Hours 45

Credits 3

Education: Bilingual Education

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

prereq or coreq: BILED 77100

Hours 30

Credits 2

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to

preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100

Hours 75 hrs,

Credits 1 cr

BILED 71200 - Bilingual Literacy-French

This course will be conducted in French and English and will present how to differentiate the instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30

Credits 2

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050

Hours 45 hrs,

Credits 3 cr

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MSED/Childhood Education Grades 1-6 with bilingual extension; for the MSED in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45

Credits 3

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: EDF 70900 or CEDF 70900 and BILED 70100 and EDC 70400 or CEDC 70400

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: EDF 70900 and BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator

Hours 30 hrs plus lab,

Credits 2 cr

BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq or coreq: completion of 39 cr of course work or permission of the program coordinator

Hours 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar

Credits 4

BILED 78300 - Practicum in Grades 1–3

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 15 hrs of seminar plus conferences

Credits 2 cr

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 15 hrs of seminar plus conferences,

Credits 2 cr

BILED 78500 - Student Teaching in Grades 1–3

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 30 days student teaching, 15 hrs of seminar plus conferences,

Credits 2 cr

BILED 78600 - Student Teaching in Grades 4–6

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

prereq: completion of 39 credits of course work or permission of the program coordinator

Hours 30 days student teaching, 15 hrs of seminar plus conferences,

Credits 2 cr

Education: Childhood Education

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

CEDC 71200 - Advanced Methods of Teaching Math in Elementary Schools

Ways to set up and monitor mathematical investigations designed to promote flexible problem solving, active learning, finding patterns, reasoning logically, formulating and verifying hypotheses. Error analysis and remediation.

prereq: CEDC 70500
Hours 45 hrs,
Credits 3 cr

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

CEDC 71400 - Advanced Educational Technology for Elementary School Teachers

Students will link prior knowledge of instructional technology with curriculum development strategies to design integrated learning events.

prereq: CEDF 70900, and a course on computers or demonstrated literacy in basic computer skills and tool applications (word processing, spreadsheets, database, and presentation as well as the Internet)
Hours 45 hrs,
Credits 3 cr

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

prereq: CEDF 70900
coreq: CEDC 73000 and 72200
Hours 75 hrs of fieldwork,
Credits 1 cr

CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

Hours 45 hrs,
Credits 3 cr

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq: CEDF 70900

coreq: CEDC 71500 and CEDC 73000

Hours 30 hrs,

Credits 2

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2 cr

CEDC 72400 - Student Teaching in Grades 1–3 and 4–6

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus a minimum of 60 days of student teaching,

Credits 5 cr

CEDC 72500 - Student Teaching in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800 . Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student Teaching

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700 . Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72800.

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800 . Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72500.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

*Hours 30 hrs of seminar plus supervision and conferences,
Credits 2 cr*

CEDC 72800 - Practicum in Grades 4–6

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700 .

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

*Hours 30 hrs of seminar plus supervision and conferences,
Credits 2 cr*

Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72600.

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr*

CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting
Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr*

CEDC 73000 - Perspectives on Literacy Across the Content Areas

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

prereq: CEDF 70900 and CEDC 70400

coreq: CEDC 71500 and 72200
Hours 30 hrs,
Credits 2 cr

CEDC 73800 - The English Language: Theories and Pedagogical Implications

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.

Hours 45 hrs,
Credits 3 cr

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs,
Credits 3 cr

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

prereq: CEDC 74400, CEDC 77600 and CEDC 777000
Hours 45 hrs,
Credits 3 cr

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

prereq or coreq: CEDC 71600 and CEDC 73800 and CEDC 74000 and CEDC 74400 and CEDC 77600 and CEDC 77700 and CEDF 71600
Hours 45 hrs,
Credits 3 cr

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300
prereq or coreq: None

*Hours 45 hrs,
Credits 3 cr*

CEDC 74600 - Geographic Perspectives in Elementary Education

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

*Hours 45
Credits 3*

CEDC 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

*Cross-listed SPED 75500
prereq or coreq: SPED 75300 and SPED 75400
Hours 45, includes 20 hrs field experience
Credits 3*

CEDC 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

*Cross-listed SPED 75600, ADSUP 76500, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours includes 10 hrs field experience
Credits 3*

CEDC 76000 - Special Topics in the Arts

The theory and application of children's artistic development. Course includes visual arts contents, instructional techniques, technology, materials and their use across the elementary school curriculum. Through hands-on workshops the teacher candidate will understand how to plan and utilize a visual arts curriculum to enhance student's cognitive, perceptual, expressive and imaginative abilities.

*prereq: CEDC 70700
Hours 45 hrs,
Credits 3 cr*

CEDC 77600 - Planet Earth: Life Science, Environmental and Earth Science for Elementary School Teachers

Concepts in the biological sciences, ecological and earth sciences necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

*Hours 45 hrs,
Credits 3 cr*

CEDC 77700 - Physical Science for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

*Hours 45 hrs,
Credits 3 cr*

CEDCF 70050 - The Art and Science of Effective Teaching

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

Hours includes 5 hrs of fieldwork

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

*prereq: CEDF 70900 and CEDF 71500
Hours 45 hrs,
Credits 3 cr*

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

*prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr*

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900

Hours includes 5 hrs of field work

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work

Credits 4

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs,

Credits 3 cr

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

prereq: CEDF 70900 and CEDF 71000

CEDF 71700 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1 cr

permission of faculty adviser and chairperson required

CEDF 71800 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2 cr

permission of faculty adviser and chairperson required

CEDF 71900 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3 cr

permission of faculty adviser and chairperson required

CEDF 75000 - Special Topics in Diversity

An examination of the history and adaptation of diverse groups in the U.S. and their experience in the American educational system. Emphasis is on the role of culture, structure and policy in facilitating and/or hindering opportunities for these groups to achieve educational equity.

prereq: CEDF 70900

prereq or coreq: CEDF 70600

Hours 45 hrs,

Credits 3 cr

CEDF 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed SPED 75300

Hours includes 10 hrs field experience
Credits 3

CEDF 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 75600, CEDC 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours includes 10 hrs field experience
Credits 3

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

prereq: completion of 31 credits of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser
Hours 45 hrs,
Credits 3 cr

Education: Dance Education

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct “action research” in order to identify conditions that support or hinder productive teaching and learning. This first phase of the “methods” course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance
Hours 3 hrs + 36 hours of fieldwork
Credits 3 cr.

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000

Hours 3

Credits 3

DANED 76400 - Practicum

Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: DANED 76000, DANED 76200

Hours 2 hours and 15 hour seminar required

Credits 2

Students must apply in the fall semester if they have completed prerequisite courses and expect to register for Practicum in the spring, and in the spring semester if they wish to register for Practicum in the fall.

Open to MA/Dance Track 2 students with initial certification in dance OR by advisement, Track 1 students who are currently teaching dance in accredited schools that do not require teacher certification in dance.

DANED 76602 - Student Teaching

Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200

Hours 20 days plus 15 hour seminar

Credits 2

Students must apply in the fall semester if they have completed prerequisite courses and expect to student teach in the spring, and in the spring semester if they wish to student teach in the fall. All field placements are designated by Hunter College in New York City public schools. Scores on the LAST and the ATS-W exams must be received by the coordinator of adolescent education prior to enrollment in student teaching. The dance content exam scores are required before graduation.

Open to Track 3 students with initial certification in a subject area other dance OR by advisement for students who are currently teaching dance in accredited schools that do not require teacher certification in dance.

All students must, the semester before taking this course, apply for student teaching through the education division and the dance program.

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200

Hours 60 days + 15 hours seminar

Credits 5

Students must apply in the fall semester if they have completed prerequisite courses and expect to student teach in the spring, and in the spring semester if they wish to student teach in the fall. All field placements are designated by Hunter College in New York City public schools. Scores on the LAST and the ATS-W exams must have been received by the coordinator of adolescent education prior to enrollment in student teaching. The dance content exam scores are required before graduation.

Education: Early Childhood

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000

*Hours 45 hrs,
Credits 3 cr*

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

*prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs,
Credits 3 cr*

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs,
Credits 1 cr*

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

*prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels*

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

*prereq or coreq: ECC 70300
Hours 45 hrs,
Credits 3 cr*

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,

Credits 1 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))

Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 20 days each at different age/grade levels (Pre-K–K and 1–2).

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 30 hrs of seminar plus 40 days of student teaching

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800 . (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

Hours 15 hrs of seminar plus conferences,

Credits 1 cr

ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

Hours 15 hrs of seminar plus conferences,

Credits 1 cr

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K– K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700 . (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: prereqs: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)

*Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr*

ECC 71850 - Early Childhood Bilingual Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750 . (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

*Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr*

ECC 71951 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

*prereq: special permission of an early childhood education adviser
Hours 15, 30, and 45 hrs,
Credits 1, 2, and 3 cr*

ECC 71952 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

*prereq: special permission of an early childhood education adviser
Hours 15, 30, and 45 hrs,
Credits 1, 2, and 3 cr*

ECC 71953 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

*prereq: special permission of an early childhood education adviser
Hours 15, 30, and 45 hrs,
Credits 1, 2, and 3 cr*

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr*

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,
Credits 3 cr*

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

Early Childhood Special Education

SPEDE 71400 - History and Context of Early Intervention and Early Childhood Special Education

Historical and current views of infants and young children with developmental delays and disorders; “War on Poverty” antecedents of current early childhood special education services; federal, state, and city regulations covering intervention services to young children with disabilities.

*Hours 15 hrs,
Credits 1 cr*

SPEDE 76500 - Special Topics in Early Childhood Special Education

One-credit special topics courses focus on narrowly defined topics of high current relevance in the field of early childhood special education.

*prereq: SPEDE 76800 and 76900 or permission of the coordinator of the early childhood special education program
Hours 15 hrs,
Credits 1 cr*

SPEDE 76700 - Field Experiences in Early Childhood Special Education with an Annotation in Severe Disabilities

*prereq: SPEDE 77000, SPED 79000, and SPED 79100
prereq or coreq: SPEDE 77100
Hours 15 hour seminar plus 30 hrs of fieldwork in one of the following age/grade levels: 0-3; 3-5; or Kindergarten, grades 1 and 2 in a program for children with severe disabilities,
Credits 1 cr*

SPEDE 76800 - Characteristics and Developmental Problems of Infants and Young Children with Special Needs

Definition of populations; effects of disabilities on cognitive, social/emotional, language, and motor development; implications for early intervention and education.

*Hours Includes 2.5 hrs field experience,
Credits 3*

SPEDE 76900 - Assessment of Development and Learning in Infants and Young Children with Special Needs

Processes and procedures appropriate for assessing the development and learning of children from infancy through age 7 (second grade), including multidisciplinary screening and assessment; uses and limitations of assessment measures; practice in the use of selected assessment tools

*prereq or coreq: G SPEDE 76800
Hours Includes 5 hrs field experience,
Credits 3*

SPEDE 77000 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for

use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation.

prereq or coreq: SPEDE 71400 and SPEDE 76900 or SPED 79100

Hours Includes 5 hrs field experience,

Credits 3

SPEDE 77100 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome.

prereq or coreq: SPEDE 776 and one of the following: SPED 70600, 70650, 73000, 74000, 75000, 77000, 78000, 78100, 79000, or permission of the early childhood special education program coordinator

Hours Includes 5 hrs of field experience

Credits 3

SPEDE 77200 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs.

prereq or coreq: SPEDE 77100 or permission of the coordinator of the early childhood special education program

Hours Includes 5 hrs of field experience

Credits 3

SPEDE 77300 - Developing Partnerships with Families for Their Child's Development and Learning

The roles of parents in the development and education of infants and young children with special needs; communicating and relating appropriately and effectively with parents of diverse educational, language, economic, and ethnic backgrounds; including parents in the intervention team; resources for parents.

prereq or coreq: SPEDE 76800 or SPED 79000

Hours 15 hrs includes 2.5 hrs field experience

Credits 1

SPEDE 77400 - Reading and Writing for Students with Special Education Needs, Grades K-2

Methods for developing reading and writing in students with disabilities and special education needs, grades K–2; instructional approaches and specific methodologies effective with young children who have a variety of learning disorders. From this instructional base, teachers can make informed decisions regarding the importance and propriety of special teaching strategies for use with particular students.

prereq or coreq: SPEDE 76800 or SPEDE 76900 or SPED 79000

Hours Includes 5 hrs field experience

Credits 3

SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

prereq or coreq: SPEDE 76700 and SPEDE 77100 and SPEDE 77200 and SPEDE 77300

Hours 15 hrs,

Credits 1 cr

SPEDE 77600 - Field Experiences in Early Childhood Special Education

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre–K (Birth–five), Kindergarten, grades 1 or 2; one of these experiences must be in a program using an ABA approach with children who have autistic spectrum disorders, while the other experience must be in a program with a different approach.

prereq or coreq: SPEDE 77000 or SPEDE 76900

Hours 30 hr seminar plus 60 hrs of field experience,

Credits 2 cr

SPEDE 77651 - Field Experiences in Early Childhood and/or Childhood Special Education with an Annotation in Severe Disabilities: Autism

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre–K (Birth–5), Kindergarten, grades 1 and 2, grades 306; both of these experiences must be with children who have autism spectrum disorders.

prereq or coreq: SPEDE 77100 or permission of the program coordinator

Hours 30 hours seminar plus 60 hours of field experience,

Credits 2 cr

SPEDE 77700 - Student Teaching: Early Childhood Special Education

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels: Pre–K (Birth–five); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200

prereq or coreq: SPEDE 77100, SPEDE 77200, SPEDE 77300

Hours 30 hrs seminar plus 40 days,

Credits 4

SPEDE 77750 - Student Teaching: Early Childhood Special Education with Annotation in Severe Disabilities

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels; Pre-K (Birth–5); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 76700

Hours 30 hrs seminar plus 40 days,

Credits 4 cr

SPEDE 77800 - Student Teaching in Early Childhood Special Education

Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200

prereq or coreq: SPEDE 77100

Hours 30 hrs seminar plus 20 days,

Credits 2

(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

SPEDE 77850 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

prereq: SPEDE 76700 and ECC 71200 and SPEDE 77100

Hours 30 hrs seminar plus 20 days,

Credits 2 cr

(Note that students who take SPEDE 77850 must also take SPEDE 77950 and the placements must be at different age/grade levels. Students must be in an early childhood program with learners with severe disabilities for the entire semester.)

SPEDE 77900 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200

prereq or coreq: SPEDE 77100

Hours 30 hrs seminar plus conferences,

Credits 2

(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth-five], Kindergarten, grades 1-2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

SPEDE 77950 - Practicum in Early Childhood Special Education with an Annotation in Severe Disabilities

Supervised practicum in an age/grade level other than that used in SPEDE 77850 practice in the implementation of skills developed through coursework and field experiences. Students must be in an early childhood program with learners with severe disabilities for the entire semester.

prereq: SPEDE 76700

Hours 30 hrs seminar plus conferences,

Credits 2 cr

SPEDE 78000 - Language Teaching Approaches and Strategies for Young Children with Autism Spectrum Disorders

Assessment and instructional approaches to teaching language to young children with autism, including picture communication systems. Verbal behavior and visual supports for early literacy: collaboration with speech language therapists and parents.

prereq or coreq: SPEDE 77100 or permission of the program coordinator

Credits 1 cr

SPEDE 78100 - Incidental Teaching and Other Naturalistic Behavioral Strategies

Overview of naturalistic behavioral strategies used in the education of young children with autistic spectrum disorders including incidental teaching, pivotal response training, natural language paradigm, and establishing operations to teach in the natural environment; involving parents.

prereq or coreq: SPEDE 77100 or permission of the program coordinator

Credits 1 cr

SPEDE 78200 - Higher Functioning Children with Autism Spectrum Disorders

Understanding the special needs of higher functioning children with autism spectrum disorders; assessment, instructional approaches, models, and methods for use in educational settings.

prereq or coreq: SPEDE 771 or permission of the program coordinator

Credits 1 cr

SPEDE 78300 - Inclusion of Children with Autism Spectrum Disorders

Why, when and how to include children with autism spectrum disorders in the educational mainstream; strategies that work for different types of students, families, and school environments.

prereq or coreq: SPEDE 771 or permission of the program coordinator
Credits 1 cr

Education: Counseling

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs,
Credits 3 cr

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs,
Credits 3 cr

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs,
Credits 3 cr

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self- concept, and adjustment in a handicapping world.

Hours 45 hrs,
Credits 3 cr

COCO 70500 - Vocational Assessment and Placement

Application of principles of occupational development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of the disabled. Sources and uses of occupational information, labor market trends. Emphasis on vocational evaluation, job development, follow-up.

Hours 45 hrs,
Credits 3 cr

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200

Hours 45 hrs,

Credits 3 cr

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs,

Credits 3 cr

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs,

Credits 3 cr

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs,

Credits 3 cr

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs,

Credits 3 cr

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800

Hours 45 hrs,

Credits 3 cr

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs,

Credits 4 cr

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs,

Credits 3 cr

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

prereq: COCO 70000 and COUNS 71700 or COUNM 71600 or COUNR 71600

coreq: COCO 71900

prereq or coreq: COCO 70600

Hours 100

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800

Hours 45

Credits 3

COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

Hours 45 hrs,

Credits 3 cr

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900

prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100

Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500
Hours 45
Credits 3

COCO 72700 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

Hours 45 hrs,
Credits 3 cr

COCO 72800 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

Hours 45 hrs,
Credits 3 cr

COCO 73500 - Seminar in Chemical Dependency

Counseling Skills and Techniques Introduces students to the various types of counseling involved in working with people who are chemically dependent. Students will have the opportunity to test skills and techniques necessary for counseling in a variety of settings that serve people with chemical dependencies.

Hours 45 hrs,
Credits 3 cr

COCO 74100 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 15 hrs (supervised),
Credits 1 cr

COCO 74200 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 30 hours (supervised),
Credits 2 cr

COCO 74300 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 45 hrs hours (supervised),

Credits 3 cr

COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

pre- or coreq: DSM-IV Workshop

COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

prereq or coreq: COUNM 71600

Hours 45

Credits 3

COUNM 72000 - Mental Health Counseling: Program Development and Evaluation

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

prereq or coreq: COUNM 71600 and COUNM 71700

Hours 45

Credits 3

COUNS 71700 - Foundations of School Counseling

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor's role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

Hours 45
Credits 3

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800
Hours 45
Credits 3

COUNS 72200 - School Based Consultation

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

prereq or coreq: COCO 72500
Hours 45
Credits 3

Education: Counseling/Rehabilitation

COUNR 71600 - Resources and Foundations of Rehabilitation

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

Hours 45 hrs,
Credits 3 cr

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs,
Credits 3 cr

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs,
Credits 3 cr*

Education: School Counseling

COUNS 72000 - Culminating Seminar in School Counseling

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

*prereq: COCO 70900
prereq or coreq: COCO 72600
Hours 45
Credits 3*

Education: Educational Psychology

EDPS 70000 - Educational Psychology Proseminar

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits : none

EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

*Hours 60
Credits 4*

EDPS 70200 - Educational Research Methods

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

Hours 60

Credits 4

EDPS 70300 - Learning and Behavior Theories

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60

Credits 4

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200

coreq: EDPS 70300

Hours 60

Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200

Hours 60

Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300

Hours 60

Credits 4

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200

Hours 60

Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100 and EDPS 70200

Hours 60

Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60

Credits 4

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300

Hours 60

Credits 4

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

EDPS 74900 - Independent Study in Educational Psychology

Permission of faculty adviser and chairperson required. Independent study in the area of educational psychology. A maximum of 4 credits of independent study may be counted toward the degree.

Credits 1 - 4

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits

Hours 60

Credits 4

EDPS 79501 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits

Hours 30

Credits 2

EDPS 79502 - Educational Psychology Thesis Research 2

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits

Hours 30

Credits 2

Education: Health Education

HED 71400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Education: Latin Education

LATED 47110 - Practicum in Latin, Grades 7–9

Supervised practicum in the teaching of Latin in grades 7–9.

prereq: LATED 71300

prereq or coreq: SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who receive a grade of C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take LATED 74110 must also take either LATED 75120 or LATED 74120

LATED 71200 - Methods 1: Classroom Organization, Management, and Assessment of Instruction in Latin

Familiarizes prospective teachers of grades 7–12 with classroom organization patterns, rules and routines appropriate to the teaching of Latin. Close work with the design and evaluation of classroom lessons and materials in the context of national and state standards will be emphasized.

prereq: completion of 18 credits of graduate Latin courses

prereq or coreq: SEDF 70400

Hours 45 hrs, including conferences,

Credits 3

LATED 71300 - Methods 2: Teaching for Diverse Learners in Latin

Familiarizes prospective teachers of grades 7–12 with pedagogical approaches for teaching a diverse body of learners, in light of national and state standards, in part by utilizing aspects of diversity in the ancient world. Innovative uses of technology, development of instructional units, individualizing for students with special needs, exploring aspects for a student-centered classroom will be emphasized.

prereq: LATED 71200

prereq or coreq: SEDF 70500

Hours 30 hrs plus 36 hrs fieldwork,

Credits 2

LATED 73100 - Student Teaching in Latin, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program.

prereq: LATED 71300

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

LATED 74110 - Practicum in Latin, Grades 7-9

Supervised practicum in the teaching of Latin in grades 7–9. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take **LATED 74110** must also take **LATED 74120**.

prereq: LATED 71300

Hours 30 hrs plus conferences,

Credits 2 cr

LATED 74120 - Practicum in Latin, Grades 10-12

Supervised practicum in the teaching of Latin in grades 10–12. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take **LATED 74120** must also take **LATED 74110**.

prereq: LATED 71300

Hours 30 hrs plus conferences,

Credits 2 cr

LATED 75110 - Student Teaching in Latin in Grades 7-9

Teacher candidates complete 30 days of student teaching at grades 7-9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction and will assume significant responsibility for classroom instruction and management.

prereq: LATED 71300

prereq or coreq: SEDF 70600

Hours 30 hrs, plus 30 days and conferences,

Credits 3 cr

students who enroll in LATED 75110 must also complete LATED 75120 or LATED 74120 See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LATED 75120 - Student Teaching in Latin in Grades 10-12

Teacher candidates complete 30 days of student teaching at grades 10-12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction and will assume significant responsibility for classroom instruction and management.

prereq: LATED 71300

prereq or coreq: SEDF 70600

Hours 30 hrs, plus 30 days and conferences,

Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

Education: Literacy Education

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500

Hours includes 10 hrs in the field analyzing language use of ESL learners

Credits 3 cr

EDLIT 73100 - Literacy Assessment: Birth–Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500

Hours Includes 15 hrs in the field assessing diverse learners 45 hrs,

Credits 3 cr

EDLIT 73200 - Children's Literature

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

Hours Includes 5 hrs in a classroom-based dramatic demonstration

Credits 3 cr

EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

Hours Includes 15 hours in the field observing and analyzing writing development

Credits 3 cr

EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500

Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy

Credits 3 cr

EDLIT 73500 - Survey of Instructional Approaches for Language and Literacy Development: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork

Credits 3 cr

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

prereq: EDLIT 73100

Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties

Credits 3 cr

EDLIT 73700 - Practicum in Remedial Reading

Theoretical consideration and procedures in the instruction of students with reading difficulties.

prereq: EDLIT 73600

Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College

Credits 3 cr

EDLIT 73800 - Literacy Programs: Organization and Resources

Seminar of a survey of literacy programs in diverse settings utilizing a range of techniques and organizational approaches in the literacy instruction of students, with and without discernible reading difficulties.

prereq: EDLIT 73100 (for Birth-Grade 6 students only)

Hours Includes 15 hours of survey for the enhancement of literacy programs

Credits 3 cr

EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6

prereq or coreq: None
Credits 3

EDLIT 73901 - Delays in Early Language and Literacy Development in Young Children with Special Needs

Historical, theoretical, and research-based teaching practice issues related to literacy and language instruction for children with special needs, ages birth through second grade.

coreq: ECC 70400
Hours Includes 5 hrs observation in an inclusive early childhood setting or a program with special needs focus, 15 hrs,
Credits 1 cr

EDLIT 73902 - Special Needs Issues in Literacies within the Curriculum

Adaptation, modification and management of instruction, curriculum, the learning environment, materials and technology across the curriculum for children with special learning needs.

prereq: EDLIT 73901
Hours 15 hrs,
Credits 1 cr

EDLIT 73903 - Adaptations and Modifications in Approaches to Literacy for Students with Special Needs

Adaptation and modification of instructional strategies, technology and curriculum in literacy for full inclusion of children with disabilities.

prereq: EDLIT 73902
Hours 15 hrs,
Credits 1 cr

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: minimum of 27 cr. in the literacy program
Hours 45 hrs,
Credits 3 cr

EDLIT 74100 - Selected Topics

In-depth study of emerging areas related to literacy education for children birth through grade 6.

prereq or coreq: approval of the instructor

*Hours 45 hrs,
Credits 3 cr
This is an elective course.*

EDLIT 74200 - Practicum in Literacy

Fifty-hour college-supervised practicum divided into two 25-hour placements; one at early childhood level and one at the childhood level.

*prereq: 15 credit hours in the literacy master's program
Hours 15 hr seminar plus 50 hrs in the field,
Credits 1 cr*

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

*Hours includes 15 hours fieldwork
Credits 3*

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

*Hours includes 10 hours in classrooms focused on literacies within the disciplines
Credits 3*

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

*Hours includes 15 hours fieldwork
Credits 3*

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading)

grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core

Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600

Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students

Credits 3

Education: Music Education

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400

Hours 45 hrs plus 18 hrs of fieldwork

Credits 2

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700

prereq or coreq: SEDF 70500

*Hours 45 hrs plus 18 hrs fieldwork,
Credits 2*

Education: Special Education

CEDC 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the fulltime gifted school.

*Cross-listed SPED 75400
Hours includes 10 hrs field experience
Credits 3*

EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

*prereq or coreq: SPEDE 77100
Hours 45
Credits 3*

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

*prereq: EDABA 79500
Hours 45
Credits 3*

EDABA 79700 - Applied Behavior Analysis Research Methods and Ethics

This course is an introduction to research methods used in applied behavior analysis. Topics include the development of research questions, measurement of behavior, single-subject experimental design, data collection, and data analysis. In addition, this course covers ethics and professional behavior for applied behavior analysts as they relate to research and practice.

Hours 45

Credits 3

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

Hours 45

Credits 3

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

prereq: EDABA 79500 or EDABA 79800

Hours 45

Credits 3

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45

Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45

Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100

Hours Includes 20 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000

coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000

Hours 15 hrs,

Credits 1 cr

SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000

Hours 30 hrs lab,

Credits 1 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 10 hours of field experience, 45 hrs,

Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 74200 or SPED 79100

Hours (includes 10 hours of field experience),

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45

Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice (For those in Advanced Preparation in Special Education)

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45

Credits 3

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SPED 71051 - Independent Study in Special Education

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71052 - Independent Study in Special Education

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71053 - Independent Study in Special Education

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71151 - Independent Study in Deaf and Hard-of-Hearing

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71152 - Independent Study in Deaf and Hard-of-Hearing

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71153 - Independent Study in Deaf and Hard-of-Hearing

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71251 - Independent Study in Blindness and Visual Impairment

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71252 - Independent Study in Blindness and Visual Impairment

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71253 - Independent Study in Blindness and Visual Impairment

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment

Credits 1 cr

SPED 72000 - American Sign Language I

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience, 90 hrs lab,

Credits 3 cr

SPED 72100 - American Sign Language II

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000

Hours Includes 10 hrs of field experience 90 hrs lab,

Credits 3 cr

SPED 72200 - The Study of ASL Educational Linguistics

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

prereq: SPED 72100

Hours 60 hrs lab,

Credits 2 cr

SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

Hours Includes 10 hours of field experience 45 hrs,

Credits 3 cr

SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

prereq or coreq: SPED 73000

Hours Includes 15 hrs of field experience 45 hrs,

Credits 3 cr

Fall only

Must take SPED 73300 in semester immediately following.

SPED 73300 - Math and Across-the Curriculum Adaptations for Students who are Deaf and Hard-of Hearing: Methods 2

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

prereq: SPED 70000 and in the immediate preceding semester SPED 73100

Hours Includes 15 hrs of field experience

Spring only

SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000

Hours Includes 5 hrs of field experience

Credits 3

SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000

Hours Includes 5 hrs of field experience

SPED 73700 - Student Teaching: Deaf and Hard-of- Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,

Credits 4 cr

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 73752 - Practicum: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 73753 - Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching
Credits 2

SPED 73762 - Supervised Practicum: Deaf and Hard-of- Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

SPED 73763 - Supervised Practicum: Deaf and Hard-of- Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing.

Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 7210, SPED 73300

Hours 30 hrs seminar, plus conferences,

Credits 2

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100

Hours Includes 15 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq or coreq: SPED 74300 and SPED 74200

Hours 45 hrs,

Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300

Hours 15 hrs,

Credits 1 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,

Credits 4 cr

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours structured conferences, plus 20 days student teaching,

Credits 1

SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences, plus 20 days student teaching

Credits 1 cr

SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences

Credits 1 cr

SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences

Credits 1 cr

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

Hours includes 10 hrs field experience, 45 hrs,

Credits 3 cr

SPED 75000 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

prereq or coreq: SPED 70000

Hours Includes 20 hrs of field experience

SPED 75051 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000

Hours Includes 20 hrs of field experience

Credits 3

SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

prereq or coreq: SPED 75000

Hours 45

Credits 3

SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,

Credits 4 cr

SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar plus conferences,

Credits 2 cr

SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed (Cross-listed with CEDF 75300.)

Hours 45 hrs includes 10 hrs field experience

Credits 3 cr

SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

Cross-listed (Cross-listed with CEDF 75400)

prereq or coreq: SPED 75300

Hours Includes 10 hrs field experience

Credits 3

SPED 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed (Cross-listed with CEDC 755.)

prereq or coreq: SPED 75300 and SPED 75400

Hours Includes 20 hrs field experience

SPED 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600

prereq or coreq: SPED 75500 or CEDC 75500

Hours Includes 10 hrs field experience

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100

Hours Includes 10 hrs field experience

Credits 3

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000

Hours includes 10 hrs field experience

Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100

Hours 45 hrs,

Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments

including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

prereq or coreq: SPED 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

prereq: G SPED 76500

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq: G SPEDE 77000 and G SPED 79000 and G SPED 79100

Hours 30 hrs seminar, plus conferences plus 340 hours of internship,

Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment of the systems of mobility used by persons who are visually impaired and develops competencies in teaching indoor travel techniques used by persons with visual impairments. Two week summer course.

prereq: SPED 74700

Credits 2 cr

Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course demonstrates practical application of Orientation and Mobility instructional techniques as they are applied in outdoor settings under blindfold and with low vision simulators. Content related to instructional strategies will be provided during the in-class seminar. Two week summer course.

prereq: G SPED 76800 and G SPED 76500

Credits 2

Two week summer course.

SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200

prereq or coreq: SPED 70000

Hours 45 plus 10 field hours

Credits 3

SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100

prereq or coreq: SPED 70000

Hours 30 hours of seminar plus 25 field hours

Credits 2

SPED 77300 - Methods of Teaching Writing, Math, and Organization for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing skills in (1) writing and (2) mathematics in grades 7–12, with special attention paid to organizational aspects of learning. Students will learn the writing process in general, along with various strategies that promote writing skills of adolescents across the content

areas. In addition, students will learn specific strategies that support struggling learners in mathematics classrooms.

prereq: SPED 77100 and 77200

coreq: SPED 77400

Hours 45

Credits 3

SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

prereq: SPED 77100 and 77200

coreq: SPED 77300

Hours 30 hours of seminar plus 31 field hours working with a student

Credits 2

SPED 77500 - Student Teaching of Adolescents with Learning Disabilities

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100, and 77200

Hours 30 hours seminar plus conferences plus 40 days student teaching

Credits 2

SPED 77550 - Supervised Practicum: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100 and 77200

Hours 30 hours seminar, plus conferences

Credits 2

SPED 77551 - Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100, and 77200

Hours 30 hours seminar, plus conferences, plus 20 days student teaching

Credits 2

SPED 77552 - Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100, and 77200

Hours 30 hours seminar, plus conferences, plus 20 days student teaching

Credits 2

SPED 77700 - Supervised Clinical Teaching of Students with Learning Disabilities

Year-long course. On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100

prereq or coreq: SPED 70000

Hours 15 hours seminar, plus 22 lab/clinical teaching hours

Credits 2

Year-long course

SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

prereq or coreq: SPED 70000

Hours 45

Credits 3

SPED 78100 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

coreq: SPED 78200

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

Credits 3

Only in the fall semester (note: must take concurrently with SPED 78200 and must take SPED 78300/78400 in semester immediately following)

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr

Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

*Hours 15 hrs seminar, plus 20 hrs lab
Credits 2*

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200

coreq: SPED 78400

Hours 45

Credits 3

Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning,

memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/ 782

coreq: SPED 783

Hours 15 hrs seminar, plus 20 hrs lab,

Credits 2 cr

Spring only

SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab

Credits 2

SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or

mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching,

Credits 4 cr

SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

SPED 78552 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

prereq or coreq: SPED 700

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

SPED 78900 - Practicum in Adolescent Special Education

On-the-job supervised year-long classroom practicum on providing specially designed instruction in a special education teacher position/role for students in grades 7 - 12 with learning disabilities, behavior disorders and/or mild/moderate mental retardation. Entails supervisory observations by Hunter College faculty, with feedback conferences and individually tailored follow-up assignments for improving instructional planning, teaching, assessment, and student interactions. The 30-hour seminar focuses on effective instructional and behavioral strategies for the first year of teaching, including meeting the needs of students with severe/multiple disabilities (requires successful completion of

online workshop related to students with severe/multiple disabilities).

prereq or coreq: SPED 70000

Hours 30 hours seminar, plus conferences

Credits 2

Year-long course

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800 or SPEDE 76900

Hours Includes 15 hrs of field experience

SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities

including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

Hours includes 15 hrs of field experience
Credits 3

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

prereq: SPED 70600
Hours Includes 5 hrs of field experience,
Credits 1 cr

SPED 79500 - Student Teaching: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness in grades 1–3 and 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 40 days of student teaching at two grade levels,
Credits 4 cr

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including

deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus 20 days of student teaching,

Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hours seminar, plus conferences,

Credits 2 cr

SPED 79700 - Topics in Special Education

prereq or coreq: SPED 70000
Hours 15-45 hrs.
Credits 1-3

SPED 79800 - Topics in Special Education

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700
Hours 15-45 hrs,
Credits 1-3 cr

SPED 79900 - Topics in Special Education

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700
Hours 15-45 hrs,
Credits 1-3 cr

SPEDE 77051 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborativeteaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation. Advanced students must complete individually-tailored assignments.

prereq or coreq: SPEDE 71400 and SPEDE 76900 or SPED 79100
Hours includes 5 hrs field experience
Credits 3

SPEDE 77151 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome. Advanced students must complete individually-tailored assignments.

Hours includes 5 hrs of field experience.
Credits 3

SPEDE 77251 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs. Advanced students must complete individually-tailored assignments.

prereq or coreq: SPEDE 76900 or SPED 79000

Hours includes 5 hrs of field experience

Credits 3

SPEDE 77951 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

prereq or coreq: SPEDE 776

Hours 30 hrs seminar plus conferences

Credits 2

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar plus 36 days pre-K) plus conferences

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days) Pre-K

Credits 2

SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar plus 36 days student teaching K-2) , plus conferences

Credits 2

SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days) K-2

Credits 2

SPEDE 79552 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) Pre-K

Credits 2

SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar, pre-K), plus conferences

Credits 2

SPEDE 79553 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) K-2

Credits 2

SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar, K-2), plus conferences

Credits 2

Education: English as a Second Language

CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

Hours includes 10 hrs of fieldwork

Credits 4

EDESL 70100 - Selected Topics in TESOL

EDESL 701-704 Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser

Credits 1

EDESL 70200 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser

Credits 2

EDESL 70300 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser

Credits 3

EDESL 70400 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser

Credits 4

EDESL 70500 - Structure of English: A Pedagogical View

The total grammatical system of English seen functionally and pedagogically. Students examine research on various English language structures and develop optimum teaching approaches for presenting these structures.

prereq: LING 70100 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Required of students in Programs One, Two, and the Adult Program.

EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser

Credits 4

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in **Program 1** and **Program 2**.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

includes 10 hrs fieldwork

EDESL 77000 - Content and Curriculum & Materials in Adult TESOL

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

prereq or coreq: pre- or coreq: EDESL 79600 or permission of TESOL adviser

Hours includes 10 hrs of fieldwork in Adult ESL classrooms,

Credits 4

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610

prereq or coreq: G EDESL 79600 or G EDESL 79610 or G EDESL 79620

Hours includes 20 hrs fieldwork in K-12 classrooms

Credits 4

20 hrs fieldwork.

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: LING 70200

Hours includes 10 hrs fieldwork

Credits 4

EDESL 77600 - Language Assessment in Adult TESOL

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

prereq: G LING 70200

Hours includes 10 hrs of fieldwork in Adult ESL classrooms,

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural

awareness needed for effective language pedagogy.

prereq or coreq: G LING 70200

Credits 4

10 hours of field experience.

EDESL 77800 - Teaching Oral Language Skills in Adult TESOL

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students' skills in these areas. For students in Program 3.

prereq or coreq: G EDESL 77000

Credits 4

EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.

prereq: prereq: EDESL 79600

prereq or coreq: pre- or coreqs: EDESL 7700 or EDESL 78700 or EDESL 77500

Credits 4

EDESL 78000 - Seminar in Educational Research (Master's Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination.

prereq: completion of 24 credits and permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Registration by adviser's approval only. Elective for all students.

EDESL 78100 - Curriculum and Materials in TESOL

Overview of the various curriculum and materials options for learning ESL/EFL (listening and an oral comprehension, speaking and conversation, reading and vocabulary building, writing and composing, textbook series for children and adults, dictionaries, computer-assisted learning materials, video programs and others). Attention is given to classroom management tasks, setting up and exploiting various learning environments, and general literacy concerns.

prereq or coreq: LING 70100, EDESL 78300 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

(Required of students in Programs One, Two, and the Adult Program.)

EDESL 78200 - TESOL in Adult Education

A treatment of effective TESOL practices, classroom management, and learning environments appropriate to the adult classroom. Twenty-five hours of field experience/observation is a part of this course.

prereq: LING 70100, EDESL 78300 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Required of students in the Adult Program and an elective for students in the Pre-K-12 Programs One and Two who have been waived from a required course.

EDESL 78400 - Fieldwork in TESOL with Adults

Teaching practicum in a field setting with adult learners of English in the Community Outreach Program in English (COPE) on Saturdays. (Sabbath observers meet during the week.) During a weekly seminar, emphasis is placed on peer dynamics, classroom management and setting and exploiting learning activities and environments.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs,

Credits 3 cr

Required of students in the Adult Program.

EDESL 78410 - Practicum in TESOL for Adults

A hands-on Practicum/teaching experience with adult ESL students in the Community Outreach Program in English (COPE) at Hunter College, that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar immediately after their COPE classes. Required of students in Program 3.

prereq: prereq: completion of 24 credits or permission of TESOL adviser

Hours 30 hrs plus 60 hrs classroom teaching,

Credits 2

EDESL 78420 - Student Teaching in TESOL for Adults

A student teaching experience (with the guidance of a cooperating teacher) in an academic ESL context (either an Intensive ESL Program or a college ESL class), that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar to discuss their student teaching experiences. Required of students in Program 3.

prereq: prereq: completion of 24 credits or permission of TESOL adviser

Hours 30 hrs plus 60 hrs classroom teaching,

Credits 2

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

EDESL 78510 - Supervised Student Teaching in the Elementary School: Pre-K–6

Supervised student teaching in Pre-K through grade 6 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in Pre-K–6; (2) Students with prior certification in another area must teach 20 days in Pre-K–6.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus student teaching and conferences,
Credits 2 cr
Required of students in Programs One and Two. note: students should not take 788.10 if they are in this course

EDESL 78520 - Supervised Student Teaching in the Secondary School: Grades 7–12

Supervised student teaching in grades 7–12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in grades 7–12; (2) Students with prior certification in another area must teach 20 days in grades 7–12.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 5 hrs seminar plus student teaching and conference,
Credits 2 cr
Required of students in Programs One and Two. note: students should not take 788.20 if they are in this course

EDESL 78600 - Phonetics of American English

Phonological (phonetic and phonemic) analysis of contemporary American speech.

prereq or coreq: LING 70100 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Required of students in the Adult Program and for students in Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 78700 - TESOL for Children: Pre-K–12

Applications of methods, techniques, and approaches for teaching English as a second/foreign language to children. Intensive treatment coverage of classroom management and the setting and exploitation of learning environments.

prereq: LING 70100, EDESL 78300 or permission of TESOL adviser
Hours Includes 25 hrs fieldwork
A field experience is a part of this course. Required of students in both Pre-K–12 Programs One and Two.

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs seminar plus student teaching and conference

Credits 2

this is a year-long course

EDESL 78810 - Supervised Practicum in the Elementary School: Pre-K–6

Teaching practicum at the elementary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices

prereq: completion of 30 credits or permission of TESOL adviser

Hours 15 hr seminar plus supervised teaching and conferences,

Credits 1 cr

For students in Programs One and Two who teach ESL in an elementary school setting. note: students should not take 785.10 if they are in this course

EDESL 78820 - Supervised Practicum in the Secondary School: Grades 7–12

Teaching practicum at the secondary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

prereq: completion of 30 credits or permission of TESOL adviser

Hours 15 hr seminar plus supervised teaching and conferences,

Credits 1 cr

For students in Programs One and Two who teach ESL in a secondary school setting. note: students should not take 785.20 if they are in this course

EDESL 78900 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/ELF to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, materials development.

prereq: LING 701 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Elective for students in the Adult Program and for students in the Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 79000 - Technology in TESOL: Adults

Through reading, class discussions, demonstrations, and hands-on applications, students are introduced to a range of technologies available to adult language learners in the computer laboratory, through distance learning, and on the Internet; students are also exposed to procedures in computer-assisted language learning (CALL) and computer-assisted instruction (CAI).

Hours 45 hrs,

Credits 3 cr

An elective for students in Program 3 and for students in Programs 1 and 2 who have been waived from a required course.

EDESL 79100 - Language Assessment in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

prereq: LING 70100 or BILED 77100

prereq or coreq: EDESL 70500 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79200 - Second Language Literacy: Reading and Writing, Pre-K–12

An in-depth treatment of theory and practice in the teaching of literacy skills, specifically reading and writing, to English language learners in the public schools.

prereq: LING 70100, EDESL 70500 or permission of TESOL adviser; EDC 70400

Hours 45 hrs,

Credits 3 cr

Required of students in both Pre- K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79300 - Technology in TESOL: Pre-K–12

This mini-course covers basic technology and computer operations/concepts (second language learning software; accessing, generating, manipulating data, and publishing results); the use of technology in personal/professional growth; and the applications of technology for language instruction.

Hours 15 hrs,

Credits 1 cr

Required of students in both Programs One and Two and an elective in the Adult Program.

EDESL 79400 - Teaching ESL Students with Disabilities: Pre-K–12

Overview of issues and practices relevant to the teaching and learning of second language learners with special education needs.

Hours 15 hrs,

Credits 1 cr

Required of students in Programs One and Two.

EDESL 79500 - Health Education for Teachers of ESL: Pre-K–12

An overview of health promotion and wellness for teachers of ESL students from diverse ethnic/cultural backgrounds and different abilities in grades pre-K through grade 12. It includes child abuse and neglect, drug education, fire safety

education, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Required of students in Programs One and Two.

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

Credits 4

includes 30 hours fieldwork

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork

Credits 4

20 hours fieldwork

ESESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Programs 1 and 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Hours includes 10 hrs fieldwork

Credits 4

ESESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610

Credits 4

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork
Credits 4

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference of the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: G LING 70200
Credits 4
5 hours of field work.

English - Introductory Courses

ENGL 70100 - Introduction to Literary Studies

Introduction to methods of literary criticism, textual scholarship, and major critical approaches of the last eighty years.

ENGL 70200 - Introduction to Literary Theory and Criticism

Foundation course on the history of literary interpretation and contemporary approaches to texts.

Hours 45 hrs,
Credits 3 cr

English - Creative Writing

ENGL 79000 - Topics in Fiction Writing: Workshop

Studio-style workshop of students' fiction, with weekly submissions and critique.

Hours 45 hrs,
Credits 3 cr

ENGL 79100 - Topics in Poetry Writing: Workshop

Studio-style workshop of students' poetry, with weekly submissions and critique.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79200 - Topics in the Craft of Fiction

Seminar in craft of fiction; topics and readings will vary by semester.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79400 - Topics in the Craft of Poetry

Seminar in craft of poetry; topics and readings will vary by semester.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79500 - Topics in Memoir Writing: Workshop

Graduate writing workshop in memory and autobiography. Students will present memoir and autobiographical writings to be critiqued by members of the workshop and the instructor.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79600 - Topics in the Craft of Memoir:

Participants will study the writer's craft in creative non-fiction in memoir, essay, and/or autobiography. Particular attention will be paid to narration, description, dialogue, characterization, and use of time, through both set examples and writing exercises suggested by the works read.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79701 - Poetry Thesis One

This course gives students the conceptual framework to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time.

*prereq: ENGL 79101 and ENGL 79403
Hours 3
Credits 3
Second Year MFA students only*

ENGL 79702 - Poetry Thesis Two

This course is a continuation of Thesis One and gives students the conceptual framework with which to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time. To this end, this course begins with an exploration of the history of the Modern Poetic Sequence and the Long Poem.

*prereq: Workshop 79101 and Craft 79403 , Thesis One 79701
Second Year MFA students only*

ENGL 79800 - Writing in Conference

Individual tutorial directed by a member of the writing faculty.

*Hours 45 hrs,
Credits 3 cr
To be taken in sequence with ENGL 79900 (MFA Thesis).*

ENGL 79900 - MFA Thesis

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

*Hours 45 hrs,
Credits 3 cr
To be preceded in sequence by ENGL 79800 (Writing in Conference).*

English - Medieval and Early Modern Literature

ENGL 70400 - Beowulf and Other Early Texts

Detailed study of Beowulf and other selected texts written in Britain in the early Middle Ages, in their cultural, political and historical contexts.

ENGL 70500 - Chaucer's Early Works

A study of Chaucer's earlier works (exclusive of The Canterbury Tales) in their cultural, political and historical contexts.

*Hours 45
Credits 3*

ENGL 70600 - Chaucer: Canterbury Tales and Later Works

Detailed study of The Canterbury Tales and later works in their cultural, political and historical contexts.

*Hours 45 hrs,
Credits 3 cr*

ENGL 70700 - Studies in Medieval Literature

Selected Medieval texts in poetry and prose, both British and continental European, in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 71200 - 16th-century Poetry and Prose

Reading and analysis of texts of the sixteenth century in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 71300 - Shakespeare's Early Works

Study of selected texts, with emphasis on works written before 1600, in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 71400 - Shakespeare's Late Works

Study of selected texts, with emphasis on works written after 1600, in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 71500 - Studies in Shakespeare

Selected works by Shakespeare in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45

Credits 3

ENGL 71600 - 16th- and 17th-century Drama excluding Shakespeare

Exploration of British dramatic texts of the Early Modern period, in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 71700 - 16th- and Early 17th-Century Poetry and Prose

Study of major forms of Early Modern poetry and prose, in their cultural, political and historical contexts.

ENGL 71800 - Studies in Early Modern Literature

Selected studies in the literature of the sixteenth through early eighteenth centuries, in its cultural, political and historical contexts.

ENGL 72200 - Milton: Early Works and Paradise Lost

A critical study of Milton's early works and his major epic *Paradise Lost*, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 72300 - Studies in Milton

Selected works by Milton in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45 hrs,

Credits 3 cr

ENGL 72500 - Studies in Restoration and 18th-century Literature

Literary works of the Restoration and eighteenth century in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

English - Eighteenth and Nineteenth Century Literature

ENGL 73000 - 18th-century Poetry

Reading and analysis of eighteenth-century poems in their cultural, political and historical contexts.

ENGL 73100 - 18th-century Prose

An analysis of the rise of the British novel in the eighteenth century, and a consideration of other forms of prose in the period in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 73300 - Studies in 18th-century Literature

Selected study of eighteenth-century British and/or transatlantic poetry and prose in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 73400 - Early American Literature

A study of literature in the Americas from the sixteenth through eighteenth centuries in its cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 74000 - Romantic Poetry

Selected British and Continental poetry from the Romantic period, the late-eighteenth and early-nineteenth centuries, in its cultural, political and historical context.

Hours 45
Credits 3

ENGL 74100 - Studies in Romanticism

Selected study of British, Continental European, or transatlantic Romanticism in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45,
Credits 3

ENGL 74300 - Victorian Literature

Study of nineteenth century British poetry and prose works in their cultural, political and historical contexts.

Hours 45,
Credits 3

ENGL 74900 - 19th-century Prose of the United States

A study of selected nineteenth century prose works of the United States, both fiction and nonfiction, in their cultural, political and historical contexts.

Hours 45
Credits 3

ENGL 75000 - 19th-century Poetry of the United States

A study of selected nineteenth century poetic works of the United States, in their cultural, political and historical contexts.

Hours 45
Credits 3

ENGL 75100 - 19th-century African American Literature

An examination of poetry and/or prose, written by African Americans during the nineteenth century, in their cultural, political and historical contexts.

Hours 45
Credits 3

ENGL 75200 - Studies in 19th-century Literature

Selected study of British, American and/or other Anglophone nineteenth century literature in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45
Credits 3

ENGL 75300 - Studies in Late Victorian and Early Modernist Literature

A study of literature of the fin-de-siècle in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45

Credits 3

English - Twentieth and Twenty-First Century Literature

ENGL 75400 - 20th-century British and Irish Prose

A study of prose works of the twentieth century, written in Britain or Ireland, or by British or Irish writers, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75500 - 20th-century British and Irish Poetry

A study of poetic works of the twentieth century, written in Britain or Ireland, or by British or Irish writers, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75600 - 20th-century Prose of the United States

Fiction and nonfiction prose in twentieth century U.S. literature, in its cultural, political and historical context.

Hours 45

Credits 3

ENGL 75700 - 20th-century Poetry of the United States

Study of poetry written in the U.S. and the various poetic movements of the century, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75800 - 20th-century African American Literature

An examination of poetry and/or prose, written by African Americans during the twentieth century, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75900 - Studies in Modernism

Study of literary works of the modernist movement of the earlier twentieth century in U.S. and/or British literature, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 76000 - Later 20th-/Early 21st-century literature

Selected works in British and/or United States literature from the 1950s to the present in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 76100 - Studies in 20th- and 21st-century literature

Study of representative literary works from the later 20th and early 21st centuries in their cultural, political and historical contexts.

Hours 45

Credits 3

English - Topics In Literature, Language, Culture and Theory

ENGL 76500 - Studies in British and American Literature

Study of a topic, figure, critical issue or period in either British or American literature in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 76600 - Studies in Ethnicity and Race in Literature

Exploration of a specific topic pertaining to ethnicity and racial formation as it relates to the study of literature.

ENGL 76700 - Studies in Postcolonial/Transnational Literature and Theory

Study of postcolonial and/or transnational literatures in their cultural, political and historical contexts.

ENGL 76800 - Studies in South Asian and Indian Diasporic Literature

Study of South Asian literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 76900 - Studies in African and African Diasporic Literature Outside the U.S.

Study of African literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77000 - Studies in Caribbean Literature

Study of Caribbean literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77100 - Studies in African American Literature

Selected African American poetry and prose, in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 77200 - Studies in Asian American and Asian Diasporic Literature

Study of Asian American literatures in their cultural, political and historical contexts.

ENGL 77300 - Studies in U.S. Latina/o Literature

Study of U.S. Latina/o literatures in their cultural, political and historical contexts

ENGL 77400 - Studies in Native American Literature

Study of Native American literatures in English in their cultural, political and historical contexts.

ENGL 77500 - Studies in Irish Literature

Study of Irish literatures from precolonial, colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77600 - Studies in Digital Media

Study of British and American literary texts in relation to the digital arts, and exploration of theories of digital literary production.

ENGL 77800 - Studies in Comparative Literature

A study of two or more literary figures, genres, national or scholarly periods, or theoretical approaches, across or within national languages.

ENGL 78000 - Studies in Drama, Theatre and Performance

A literary studies approach to drama, theatre and performance.

ENGL 78100 - Studies in Gender and Sexuality in Literature and Theory

Exploration of the role of gender and sexuality in literature and literary theory.

ENGL 78200 - Studies in Literature by Women

An in-depth critical analysis of literature written by women, focusing on a specific period, topic and/or set of critical questions.

ENGL 78400 - Studies in the Work of a Single Writer

An in-depth study of a single writer, the critical conversations surrounding that writer, and that writer's legacy in her or his genre(s).

ENGL 78500 - Studies in Literature and Language

Study of the ways in which literary language reflects differing social and cultural contexts; exploration of phonology, semantics, and discourse theory.

ENGL 78600 - Studies in Rhetoric

Exploration of rhetoric in its cultural, political and historical contexts.

ENGL 78700 - Studies in Literary Theory and Criticism

An in-depth investigation of foundational and current trends in literary theory.

English - Teacher Education

ENGL 60700 - English Linguistics

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

*Hours 45 hrs,
Credits 3 cr*

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

*Hours 45 hrs,
Credits 3 cr*

ENGL 68100 - Reading Credit

Course of readings designed according to student's interests and needs. Work is directed by member of department.

*Hours 45 hrs,
Credits 1-3*

English - Concluding Courses

ENGL 78800 - Reading Credit

Course of readings designed according to student's interests and needs. Work is directed by a full-time faculty member of the department.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Environmental and Occupational Health Sciences Required Courses

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

Credits 3

EOHS 70500 - Environmental Chemistry

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

Credits 3

EOHS 74100 - Environmental and Industrial Hygiene Laboratory

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

prereq or coreq: EOHS 70500

Hours 90 hrs lec and lab,

Credits 4 cr

EOHS 74700 - Hazard Evaluation and Instrumentation

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

prereq: PH 75000 or 75100, EOHS 70200, EOHS 70500

Credits 3

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

prereq: PH 75400 and EOHS 70500

Credits 3

EOHS 75500 - Industrial Ventilation and Environmental Control

Fundamentals of industrial ventilation: air flow, local and dilution exhaust ventilation systems, hood and piping design, fan type and selection, air cleaning devices, system-testing; problem-solving; engineering controls.

Credits 3

EOHS 75700 - Principles of Industrial Hygiene

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

prereq: EOHS 70200 and 70500

Credits 3

EOHS 76000 - Supervised Fieldwork (EOHS-MPH)

Directed field experiences in government, private or not-for-profit environmental or occupational health settings for MPH students. Placement in relationship to academic background and career expectations. Emphasis on applying classroom-acquired concepts and skills.

Hours 210 hours (15 months full-time or the equivalent)

EOHS 76200 - Noise and Radiation Hazards and Controls

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

prereq or coreq: EOHS 70500

Credits 3

EOHS 76500 - Environmental Audits and Remediation

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

prereq: PH 75000 or 75100

Credits 3

EOHS 77061 - Supervised Fieldwork (EOHS-MS)

Directed field experiences in government, private or not-for-profit environmental or occupational health settings for MS students. Placement in relationship to academic background and career expectations. Emphasis on applying classroom-acquired concepts and skills.

Hours 210 hours (15 months full-time or the equivalent)

Environmental and Occupational Health Sciences Elective Courses

EOHS 71000 - Industrial Safety and Safety Management

Fundamental concepts and principles of industrial accident prevention and loss control; safety program organization; hazard recognition and evaluation; accident investigation; machine guarding; tire protection; personal protective equipment.

Credits 3

EOHS 74300 - Air Resource Management

Air pollution sources, types of pollutants, transport phenomena, effects on health and on vegetation and materials; air quality monitoring, criteria, standards, and control methods.

Credits 3

EOHS 74500 - Hazardous Waste Management

A review of the sources, transportation and control of hazardous chemical wastes. Regulatory requirements, disposal methods and health effects will also be presented.

Credits 3

EOHS 74600 - Water Resources

Water and waste water technology related to public health. Sources of water supply, distribution, treatment, chemical, biological and physical water pollutants and their health consequences. Review of federal legislation. Field trip to waste water treatment plant.

EOHS 75900 - Industrial Processes and Plant Visits

A review of major industrial processes and health hazards associated with each. Includes site visits to metropolitan NY industrial facilities during working hours.

prereq: EOHS 75700

Credits 3

EOHS 77000 - Topics in Environmental and Occupational Health Sciences

Courses on current topics in environmental and occupational health sciences.

Offered periodically.

EOHS 77025 - Topics: Biohazards and Emergency Response

This cross-listed undergraduate/masters class covers the biology of microorganisms and toxins most frequently considered in perpetrated attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, emergency communication, and prevention. In addition to classroom activities, students participate in group projects to simulate bioterrorism events and responses; government regulation, chain of evidence, and related topics are covered.

Cross-listed MLS 40066

Hours 3

Credits 3

EOHS 77500 - Indoor Air Quality

A review of sources indoor air pollution and its evaluation and control. Topics include assessment techniques, air sampling, HVAC assessment and remediation approaches.

Credits 3

Epidemiology and Biostatistics Required Courses

BIOS 75000 - Applied Biostatistics I

A follow up course to PH 7500/75100 and PH 75200/75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

Cross-listed STAT 75000

prereq: PH 7500 or 75100 and PH 75200 or 75300

Credits 3

BIOS 75100 - Applied Biostatistics II

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

Cross-listed STAT 75100

prereq: BIOS 75000

EPI 75000 - Epidemiologic Methods I: Study Research Design

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications.

Examples will be based on the health of New York City residents. Prereq: ,

Cross-listed GC PH 82000

prereq: PH 75100, PH 75300

Credits 3

EPI 75100 - Epidemiologic Methods II: Survey and Research Methods

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

Cross-listed GC PH 82100

prereq: EPI 75000

Credits 3

EPI 75200 - Applied Research: Data management and analysis

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it

prereq: BIOS 75100, EPI 75100 or instructor's permission

Credits 3

Epidemiology and Biostatistics Elective Courses

All EPI and BIOS Elective Courses are 3 Credits

BIOS 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression and log-linear models.

Cross-listed STAT 75200

prereq: BIOS 75000

BIOS 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal & random effects models, time-dependent covariates, missing values.

Cross-listed STAT 75300

prereq: BIOS 75000

BIOS 75400 - Design and Analysis of Complex Surveys

This course provides an introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

Cross-listed STAT 75400

prereq: BIOS 75000

BIOS 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data, using case studies.

Cross-listed STAT 75500

prereq: BIOS 75000

BIOS 75600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics include: data summaries; transformations; the jackknife and resampling schemes; robust estimation; and robust regression methods.

Cross-listed STAT 71600

prereq: BIOS 75000

BIOS 75800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics including: one, two and many way layouts; decomposition and partitioning of variance; fixed, random, and mixed effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

Cross-listed STAT 71800

prereq: BIOS 75000

BIOS 77000 - Topics in Biostatistics

Courses on current topics in biostatistics.

Offered periodically

BIOS 77001 - Applied Biostatistics III

An advanced biostatistics course that focuses on mixed models, GEE for analysis of correlated data, management of missing data and imputation, propensity scoring, and causal inference.

prereq: BIOS 75100 and EPI 75100

Credits 3

EPI 75300 - Clinical Trials and Experimental Design

This course provides students with the basic foundation of experimental design, with a focus on clinical trials (single and multi-center), intervention trials, and quasi experimental design, particularly in the field of public health. The

strengths and limitations of these approaches in comparison with related observational epidemiologic studies will also be covered. Specific topics to be discussed include design options (sampling, treatment allocation, cluster randomization), sample size and power considerations, adverse event monitoring, and statistical analysis of trial data.

prereq: PH 75000/75100 and PH 75200/75300

Credits 3

EPI 75400 - Social Epidemiology

This course will introduce public health and other interested graduate students to the sub-discipline of social epidemiology, including theory and methods. Specifically, students will gain an understanding of how an individual's interactions with factors associated with the social fabric of the society affect and shape health outcomes. This class will also examine the etiology and prevention of disease within both ecological (multi-level) and multidisciplinary frameworks.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75500 - Epidemiology of Chronic Diseases

This course provides students with epidemiological background information for the most common chronic disease conditions. In addition, the course provides students with hands on experience to characterize the frequency and impact of chronic diseases and their risk factors in New York City (NYC) using public data available through the Department of Health and Mental Hygiene.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75600 - Epidemiology of Infectious Diseases

This course will examine the role of epidemiology in understanding transmission, surveillance and control of infectious diseases. Special focus will be on emerging infectious diseases in urban settings.

prereq: PH 75000 or 75100, PH 75200 or 75300

Offered periodically.

EPI 75700 - Reproductive and Perinatal Epidemiology

This course covers current research, controversial issues, and methodological problems in the epidemiology of male and female reproduction and perinatal health. Topics include: epidemiology of fertility and infertility, contraception and hormone usage, reproductive cancers and other diseases, pregnancy complications, maternal mortality, adverse pregnancy outcomes and birth defects.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75800 - Nutritional Epidemiology

This course teaches concepts and principles used in nutritional epidemiology. It provides skills required to critically evaluate dietary assessment methodology and reviews current topics in nutritional epidemiology. In addition, the role of nutrition in health and how this applies to public health is discussed.

Cross-listed GC PH 81200

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75900 - Environmental and Occupational Epidemiology

Using a case study approach, this course will explore epidemiologic methods for studying environmentally and occupationally related diseases. Key methodologic issues, such as exposure and outcome assessment, cumulative and multiple exposures, exposure pathways, research ethics, and policy implications of epidemiological findings will also be discussed. The focus will be on the environmental and occupational health of urban populations.

prereq: PH 75000 or PH 75100, PH 75200 or 75300, PH 75400

EPI 77000 - Topics in Epidemiology

Courses on current topics in epidemiology.

Offered periodically.

EPI 77005 - Epidemiological Methods IV

This seminar is intended to help students integrate the concepts and methods of epidemiologic research with specific inquiry directed at understanding and improving the health of urban populations. This seminar requires students to develop proposals for epidemiologic research, identify strategies for data analysis that incorporate the lessons learned in Epidemiology Methods courses I, II, and III, and to examine the application of those strategies to existing research. This course helps to "bring together" the epidemiology theory and methods that have been discussed throughout the rest of curriculum with the particular exigencies of urban public health.

prereq: EPI 75000/77000 or PUBH 82200 (CUNY Graduate Center)

Credits variable credits

EPI 77100 - Experimental Courses in Epidemiology

Experimental courses on current topics in epidemiology

Credits variable

Film and Media: IMA Analytical Seminars

(Where an intellectual foundation for socially aware and ethically responsible media work is an overarching objective)

IMA 70100 - Social and Historical Roots of Mass Culture

A study of the social and historical context that propelled and was influenced by the media from 15th century to present. This seminar is a core requirement of the program.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70200 - The History of New Media

An exploration of the history of digital internet-based media, as well as the convergence and integration of emerging media with film, print media, radio and television and its effects on culture.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70400 - Communications and the City

Urban imagery in mass media and its varying relations to problems of urban life.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70500 - Social Class, Racism and the Media

Analysis of interrelations between social classes, racism and the media.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70800 - International Communication in the Contemporary World

Current problems and issues of international communications.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70900 - History and Criticism of the Documentary

A historical and critical examination of nonfiction film and video from Lumiere to the present.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71000 - Alternative Media: Examples and Experiences

Review of the history and role of small-scale alternative media. Includes critical readings, viewing and critique.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71200 - Feminist Approaches to the Mass Media

A historical perspective on feminist cultural theories as they have addressed the representation of women in American mass culture.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71300 - Social Inequality and the Media

An examination of the relation between the media and class, race and gender inequality.

Hours 3

Credits 3

IMA 71300 - Visible Evidence: Realist Strategies in Film, Video and TV

An examination of the representational strategies through which film, video and TV images achieve verisimilitude, the appearance of transparently and objectively displaying reality.

prereq: IMA 70100

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71500 - Media and the Public Sphere

An examination of notions of the public sphere and democracy in relation to historically evolving forms of mass media.

prereq: IMA 70100

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78029 - Disease and Disaster in Media and Culture

Using examples from traditional media and digital culture, students explore the social, historical, and economic context in which apocalyptic notions of a world on the verge of catastrophe and disaster emerge.

Hours 2

Credits 3

IMA 78030 - Media and Law

This course focuses on the legal foundations and principles connected with narrative and documentary film. Students examine doctrinal approaches to intellectual property rights and their effects on technical innovation, democratic debate, cultural formation and international politics.

Hours 2

Credits 3

Film and Media: IMA Words Workshops

(Channel where writing for the media is an essential focus)

IMA 72100 - Online Journalism

The Internet provides journalists with new sources of information, a major news beat in itself and innovative forms of publication. This course explores each of these dimensions with the goal of enabling students to use the Internet for journalistic research and report in depth on its cultural, legal and economic dimensions.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72200 - Literary Journalism

The criticism and practice of literary journalism, i.e., factual reporting rendered with the qualitative detail and vividness of imaginative writing.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72300 - Public Interest Journalism

A study of critiques of journalism's alleged failure to serve the public interest as the basis for a variety of news writing assignments designed to represent social issues with fuller context and nuance.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72400 - Research and Writing for the Documentary

Research and writing proposals, treatments, budgets and production plans for video documentaries.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78043 - Neighborhood News

Students write articles for a community newspaper, the Hunts Point Express, and accompanying website, (www.huntspointexpress.com). As reporters, students spend time in the South Bronx to research stories on topics that include environmental justice issues, education, housing, health, jobs, gentrification and crime. Work may include multimedia component.

Hours 4

Credits 3

IMA 78052 - Story Strategies

This course examines a broad range of approaches to storytelling in the fictional narrative feature film. Students will closely examine tactical narrative elements including dramatic structure, character/voice, time, tone and genre in conventional and alternative work. Students will develop treatment and beginning of an original screenplay. Satisfies WORDS cluster requirement.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79551 - Advanced Studio - Words

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of written work. Independent work and individual meetings are required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies WORDS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Film and Media: IMA Visions Workshops

(Where the visual communication of ideas and information is a comprehensive goal)

IMA 70300 - Documentary Expression

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

prereq: none

Hours 4

Credits 3

Material Fee: \$20

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74100 - Nonfiction Video Production

This workshop will guide students through the process of developing and producing a documentary video project.

prereq: IMA 76000, IMA 74000 or permission of instructor

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4 hrs,

Credits 3 cr

Material Fee: \$20

IMA 74200 - Web Documentary

The production of nonfiction narratives for the Internet. Students explore how social issues can be explored in new media formats including games and hypertext.

This course may be counted towards the VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74300 - Collective Documentary

This production workshop involves the student in all aspects of a collectively produced documentary that explores a general theme or issue, with all students producing segments for the project. The workshop also examines the theoretical issues of truth, authorship, subjectivity and storytelling in the documentary form.

Satisfies VISIONS cluster requirement

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74400 - Digital Design: Print and Interactive Media

In this studio workshop course, the communicative capacities of various digital design formats and techniques will be creatively applied to the creation of four functional design projects.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74700 - Digital Editing Workshop

Technology and principles of digital non-linear editing; its distinctive features and creative potential for both sound and image. Students are expected to bring projects, produced in previous classes, to a fine cut stage.

Satisfies VISIONS cluster requirement

prereq: IMA 74000, IMA 74100 IMA 76000 or permission of instructor

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4

Credits 3

Material Fee: \$20

IMA 78017 - Microcultural Incidents: Ethnography & Experimental Media

A production course in which students explore the intersection of ethnographic and experiment in film and video practices. Readings, screenings and discussion include experiment and media and visual anthropology.

Satisfies VISIONS cluster requirement

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78021 - Media, Community Advocacy & the Urban Environment

In this workshop students collaborate with students in the Urban Affairs & Planning Department to develop media aimed at helping local groups and improving the quality of local environments, and explore impact of media on community stakeholders and policy-makers.
Satisfies VISIONS cluster requirement.

prereq: IMA 74000, IMA 76000 or permission of instructor.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79561 - Advanced Studio - Visions

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of work in visual media. Independent work and individual meetings are required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies VISIONS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Film and Media: IMA Channels Workshops

(Where designs for exhibition and distribution of media work, for publicizing ideas, and for using media to enhance the quality of community interaction are key objectives.)

IMA 76000 - Tools and Techniques of Digital Production

A hands-on workshop in core digital media production, including image acquisition, creation and editing; video editing and encoding; and multimedia delivery on the web. It is designed to give students a basic introduction to the tools and techniques used in the Integrated Media Arts program. Satisfies VISIONS or CHANNELS cluster.

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4

Credits 3

Material Fee: \$20

IMA 76200 - Interactive Expression

Aesthetics and techniques of Web-site and interactivity design, encompassing both graphic presentation and information architecture. Satisfies VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 76300 - Advanced Interactive Expression

The production of websites incorporating animation, sound and video. This course may be counted towards the VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000, IMA 76200 or permission of instructor

Hours 4 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 76600 - Three Dimensional Virtual Environments

An introduction to fundamental skills and creative approaches for the development of computer generated 3D interactive virtual environments. Satisfies CHANNELS cluster requirement

prereq: IMA 76000 or permission of instructor

Hours 3

Credits 3

IMA 78046 - Three Dimensional Modeling & Animation

This hands-on production course examines essential concepts and practices that form the basis of 3D animation. Includes critical readings, viewing and critique. Satisfies CHANNELS cluster requirement

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78081 - Sound Environments

An exploration of contemporary issues and techniques of sonic media. Course explores critical writings in music history, sound and media theory while students experiment with designing linear and non-linear sound installations. Satisfies CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79571 - Advanced Studio - Channels

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of work in emerging media. Independent work and individual meetings are

required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies CHANNELS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Film and Media: IMA Capstone Courses and Additional Offerings

IMA 78001 - Media Activism

An exploration of the rich history and representational strategies of alternative media used by movements for social change from the 1930s until the present. This course introduces students to the techniques and approaches of social change and development media in a context of theoretical discussion.

Satisfies VISIONS or CHANNELS cluster requirement.

prereq: IMA 74000, IMA 76000 or permission of instructor.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78025 - Media and the Public Sphere

This analytical course explores notion of the public sphere and public debate in light of television and the Internet's actual and potential roles as forums for discussion of civil society issues.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78048 - Culture Jamming

Theory and technique of art and design strategies that subvert popular media frameworks. Students will learn non-traditional methods of circulating messages which circumvent or critique mass media communications.

Satisfies VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78051 - Non-linear Storytelling

This workshop examines different types of non-linear narrative as students develop stories for non-linear forms. Students study the representation of memory and time in documentary and fictional forms, and look at how emerging media enable multiple forms of storytelling through hypertextual, collaborative and networked environments. Satisfies CHANNELS cluster requirement.

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78053 - Interactive Installation

Students work collaboratively to create projects integrating video, sound and movement. Lectures focus on usability design, coding concepts, and interface design. Satisfies CHANNELS cluster requirement

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78056 - Grant Writing

In this workshop students pitch ideas, develop proposals, as well as examining strategies for researching funding sources and developing creative approaches for their projects. Satisfies WORDS cluster requirement

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78100 - Collaborative Media Project/Creative Residency

Hours and in-house project or external creative residency must be defined in conjunction with graduate adviser. The project or creative residency must involve collaboration among different media makers.

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78800 - Master of Fine Arts Thesis Project

This project must be completed satisfactorily before graduation. Project must incorporate elements from all three creative clusters as well as a critical component.

Credits 3

Approval of graduate adviser required. Non-matriculated students require permission of instructor for enrollment in any MFA/ IMA course.

IMA 79000 - Independent Study

Rubric for student's independent study.

Hours Hrs to be arranged.

Credits 1

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79100 - Independent Study

Rubric for student's independent study.

Hours Hrs to be arranged.

Credits 2

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79200 - Interdisciplinary Research

Rubric for student's interdisciplinary research requirement.

Hours Hrs to be arranged.

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Human Geography, Nature/Society and Regional Geography

GEOG 50100 - Principles of Geography

Introduction to human and physical geography.

prereq: graduate standing, member of the Teacher Education Program, and department permission

Hours 45 hrs including conference,

Credits 3 cr

Open to students who have never had a college level geography course. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 62100 - Geography of the United States

A regional analysis of the major features of the natural and cultural environment of the United States.

prereq: graduate standing, member of the Teacher Education Program, and department permission

Hours 45 hrs including conference,

Credits 3 cr

Not open to students who have had a similar college-level course. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 62151 - Geography of New York State

An analysis of the major features of the natural and cultural environment of New York State. Topics include sequence settlement, land use, economic and social interrelationships with the natural environment, and environmental problems.

prereq: graduate standing, member of the Teacher Education Program, and department permission

Hours 45 hrs including conference,

Credits 3 cr

Not open to students who have had a similar college-level course. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference

Credits 3

spring only

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,

Credits 1 cr

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70500 - Cultural and Social Geography

Review of recent work in cultural and social geography; emphasis on literature, critiques.

prereq: GEOG 34700 and 34100 or permission of instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70528 - Introduction to Environmental Ethics

Do animals have rights? Do ecosystems have interests? Are humans separate from the environment? How have the answers to these questions been shaped by scientific understanding and religious belief? How should they be? The development of environmental philosophies and ethics, and how they have interacted with controversial environmental issues, will be explored. Reading assignments include canonical and contemporary philosophers as well as environmentalists. In addition to theory, we will discuss the applications of these ideas in local to global environmental problems. The course will focus on ethical philosophies from the western world, but non-western philosophies might also be discussed.

prereq: none

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70562 - Post-Socialist Geographies

For graduate students in geography, anthropology, economics, sociology, environmental psychology and other related fields. This course examines major political, economic, and social theories that aim to explain the current transformations in post-socialist countries. The neo-liberal theories and policies of transition to capitalism and their consequences are critically examined. The devastating effects of capitalism uncontrolled by democratic governments and labor are discussed.

prereq: GEOG278 or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70592 - Ethnic Geography of Hawaii

Lecture and field examination of historical and contemporary ethnic geographies of Hawaii, particularly in relation to land tenure, land use, immigration, the sugar plantation economy, annexation, and statehood. Ethnic landscapes and ethnic economies of the Honolulu metropolitan area.

prereq: permission from the department

Credits 3

winter session Acceptance into Hunter College Study Abroad Program and fee for transportation, accommodations required.

GEOG 70600 - Latin Americanist Geography

Major paradigms, theories and methodologies in geographic research on Latin America including historical, cultural, social, economic, urban, physical, and environmental geography.

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70800 - The Geographies of Urban Space

Critical geographic perspectives on urban development and internal urban space. Latest literature in urban political economy, feminist, and post-structuralist geography with a focus on class, gender and ethnicity in urban space.

prereq: graduate standing and GEOG70100 or GEOG 74300 or equivalent or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70900 - Geography of Selected World Regions

Intensive examination of physical and social geography of specific world regions. (Each semester one or two regions will be covered.)

prereq: permission of the graduate adviser

Hours 45 hrs including conference

Credits 3 cr

Field courses may be offered during intersession periods. GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70957 - Geography of The New York Metropolitan Area

An historical and contemporary geography of the New York Metropolitan area structured around the New York State Social Studies Core Curriculum and the National Geography Standards. The course will address the relationship between the physical and social geographies of the five boroughs and the surrounding areas of the Hudson and Long Island; the impacts of significant historical and political events on the region's social and economic geography; and the impacts of changing transportation modes in the evolution of the region.

Hours 45 hrs,

Credits 3 cr

GEOG 70957 - Regional Geography of the New York Metropolitan Area

Geographic basis of the development and functioning of the NYC metropolitan area. Physical site and situation; spatial aspects of its political, social and economic structures.

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71000 - Economic Geography

Interactions between people and the natural environment on economic, political and cultural endeavors. Formation of labor markets and their segmentation by class, gender, and ethnicity/ race. Change in production systems and economic globalization. Interconnections between economic systems across local, regional, national, and international scales.

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71156 - Coastal Zone Management

The increasing pressure on the coast is demonstrated with competing demand that leads to conflicts with respect to the carrying capacity of our most precious resource area. The course addresses critical issues related to environmental constraints, the carrying capacity of coastal areas and the need for coastal zone management.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71200 - Geography of Sustainable Development in Developing Countries

Analysis of factors that influence sustainable development, e.g., available resources, environment, population, food production, water supply in developing countries.

prereq: graduate standing and one course focusing on development of a developing region, or permission of instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 71300 - Rural Water Supply in Developing Regions

Quality, problems, management, and sustainability of rural water supply and sanitation in developing countries.

prereq: graduate standing and one course focusing on development of a developing area, or permission of instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71500 - International Pollution Issues

Global environmental hazards are covered. Issues ranging from intergovernmental efforts to document pollution, to the policy needed to curtail pollution of the future will be addressed. A focus will be on transboundary air and water pollution.

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 74100 - Population Geography

Theoretical and empirical analyses of spatial distribution of population. Particular emphasis is on processes and impacts of migration, residential mobility, and immigration.

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74200 - International Migration and Ethnicity

Asynchronous online seminar. Examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analyses of ethnic and racial minorities in the United States.

Hours 45 hrs including conference,

Credits 3 cr

GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74300 - Urban Geographic Theory

Spatial analysis of contemporary and theoretical issues concerning the economic growth, transportation, land use, social segregation, and urban governance in metropolitan areas.

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 79100 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 1, 2 or 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79200 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 1, 2 or 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79300 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 1, 2 or 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79900 - Thesis Research in Geography

Open to students electing the thesis option only.

prereq: GEOG 701 and permission of the department

1-6cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Geographic Methods and Techniques

GTECH 785xx - GIS Applications

Selected topics in GIS applications to human and physical geographic problems

prereq: GTECH 71000 or equivalent or permission of the department

Hours 3

Credits 3

GTECH 785xx - GIS Applications

Selected topics in GIS applications to human and physical geographic problems.

prereq: GTECH 71000 or permission of the department

Hours 45 including conference

Credits 3

GTECH 785XX - GIS Applications

Selected topics in GIS applications to human and physical geographic problems.

prereq: GTECH 71000 or equivalent and permission of the department

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 785XX - GIS Applications: Modeling the Urban Environment

Development of GIS data models for all thematic dimensions of the urban environment with an eye for interoperability.

prereq: GTECH 71000 or equivalent and permission of the department

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70200 - Multivariate Statistics in Geography

Multivariate analysis of spatial data; prediction, analysis and explanation of spatial and environmental phenomena; statistical software packages; lab exercises.

prereq: Introductory Statistics or equivalent or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70356 - Applied Statistics in Hydrology

This course is designed as an applied, group research project for graduate students. It will be given on an irregular basis, and will be a research project based on a current problem. The goal of the course is to write an article of publishable quality.

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. The prerequisites will vary depending on the problem being studied, but will usually include two courses: (1) either hydrology, climatology, or a similar course; and (2) multivariate statistics in geography, or a similar course.

GTECH 70400 - Seminar in Spatial Modeling

Development of advanced spatial models; indepth consideration of specific topics; statistical modeling, mathematical modeling, computer modeling, and simulation.

prereq: GTECH 70100 or equivalent or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70452 - Introduction to Environmental Modeling

Introduction to the techniques and vocabulary of numerical modeling of environmental systems using differential equations. Focus on systems dynamics.

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$ 15

GTECH 71000 - Introduction to GIS

Thorough introduction to geographic information systems with an emphasis on spatial data handling and project management.

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$ 15

GTECH 71100 - Earth from Above

Use and interpretation of air photos and satellite remote sensing images as applied to agriculture, forestry, urbanization, oceanography and atmosphere; lab exercises.

Hours 60 (2 lecture and 2 hour labs weekly),

Credits 3

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$ 15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor

Hours 60 hours (2 lecture and 2 hour labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71300 - Digital Image Processing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra

Hours 90 hrs including conference (2 lectures, 4 labs weekly),

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 71400 - Special Topics in Remote Sensing

Advanced work on topics in remote sensing; may be repeated for credit; lab work.

Hours 45 hrs-90 hrs including conference,

Credits 2-4 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. Prereq and lecture/lab mix to vary with topic.

GTECH 71500 - Seminar in Remote Sensing

Examination and discussion of current published research work in remote sensing. Topics to vary with instructor and student interest.

prereq: GTECH 712. GTECH 713 recommended

Hours 45 hrs including conference,

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 72200 - Automated Cartography

Computer and other automated applications; theory and algorithms; production of computer-generated maps; lab exercises.

prereq: GTECH 71000 or equivalent

Hours 75 hrs including conference (1 lecture 4 labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 72300 - Seminar in Cartographic Research

Development of cartographic research methods by participation in research projects; reviews of current cartographic literature; library research techniques.

prereq: GTECH 721

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 73100 - Computer Programming for Geographic Applications

Object-oriented programming methods specific to geographic and cartographic applications; programming assignments; graphics. A programming language helpful but not required.

prereq: GTECH 71000 or equivalent

Hours 90 hrs including conference (2 lectures, 4 labs weekly),

Credits 4 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73200 - Advanced GIS

Expansion of GTECH 71000 concentrating on advanced GIS functionality, data models, and algorithms.

prereq: GTECH 71000

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73300 - GIS: Modeling and Problem Solving

Theory and applications of geographic information science (GIS). Data models and advanced spatial and temporal modeling techniques are discussed and implemented in an object-based paradigm.

prereq: GTECH 73100 or equivalent, and GTECH 73200 and permission of the graduate adviser

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 75100 - Field Techniques in Geography

Observation and analysis of the physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as data collection and recording, ground-truthing of remotely sensed images, and the use of maps, compasses and GPS to navigate. Additional fee for transportation, room and food allowance required.

prereq: GTECH 71000 or equivalent, any two additional GEOG, GEOL, PGEOG or GTECH courses, and permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 78501 - Urban Applications of GIS

Discussion of data, methodology, and examples of using GIS to solve urban problems in economic, social, planning, and political settings. Students are expected to conduct small research projects addressing real world issues.

prereq: GTECH 71000 or equivalent and permission of the department

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 78502 - GIS Applications in Social Geography

Data representation and analysis of socio-spatial processes and environmental problems. The course is oriented to problem solving and independent data analysis. Students will fulfill an independent GIS project from data collection and database design to analysis and interpretation of results.

prereq: GTECH 710 or equivalent or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 79100 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 1

A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

GTECH 79200 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

May be repeated for a maximum of 6 credits with permission of the graduate adviser.

prereq: permission of the instructor or the graduate adviser

Credits 2

A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

GTECH 79300 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 3

A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

Physical Geography

PGEOG 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 70100 - Special Topics in Physical Geography

Examination of one physical geography topic such as hydrology, climatology, soils; lab exercises.

Hours 45 hrs-75 hrs including conference,

Credits 2-4 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70152 - Hydrology

Provides students an understanding of the hydrologic cycle - the most fundamental principle of hydrology and emphasizes an understanding of the complete hydrological cycle processes at global, regional and watershed scales.

prereq: PGEOG 130 or permission from the instructor

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70160 - Biogeography

This course provides an understanding of the geographic distribution and temporal variability of species, communities, and other organizing units over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics.

prereq: PGEOG 13000 or GEOG 10100 or BIO 10000/10200 or permission from the instructor

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70179 - Geology of NYC and Vicinity

Focus on the complexity of the geology of the New York Metro area and its vicinity. Using urban public transportation, walking, and hiking, students will directly observe natural exposures of the large variety of rock outcroppings in the area. Course consists of lectures, laboratory exercise, and geologic field trips. Recommended for students in the Teachers of Earth Science (7-12) MA program.

prereq: GEOL 10100 or an equivalent course in introductory geology

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70180 - Geology of New York State

Links fundamental knowledge about the earth materials and earth processes to the complex geology of New York State. Covers the latest information about the geologic ages of rock formations in New York State, plate tectonics, bedrock geology, including metamorphic, igneous, and sedimentary rocks, fossils, and ancient environments. The course consists of lecture, laboratory exercises, and field trips to the Catskill Mountains, Hudson Highlands, the Manhattan Prong, and Montauk Point. Recommended for students enrolled in the Teachers of Earth Science (7-12) MA program. There will be an additional charge for transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70300 - Coastal Dynamics

Quantitative focus on the dynamic processes affecting the coast and the resulting varied geomorphology. In particular, this course will focus on waves, beaches, barrier island evolution, storm systems and coastal erosion, using the Atlantic coast of New York as a case study. Research and field work expected.

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70400 - Urban and Metropolitan Coasts

Physical and quantitative rationale for planning coastal constructions with emphasis on urban coasts. Lectures will focus on natural and anthropogenic influences on coastal environments, and problems facing seaside communities.

Hours 45 hrs including conference,

Credits 3 cr

spring only Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70563 - Earth Science Today

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth's lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 70564 - Introducing Earth Science at the Museum of Natural History

This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 70567 - Science of Rocks – Petrology

Composition, distribution, and origin of rocks, their scientific description and systematic classification with the focus on the rocks of the New York Metro area. Topics include rock microscopy; field observations of rocks and the relation to the principles of geology; interpretation of geologic maps; lithospheric rock cycle in the context of plate tectonics and earth evolution; and the geology of New York City and its relationship to urban issues. Recommended for earth science students and others interested in the study and uses of rock. There will be an additional charge for local transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70568 - Earth Materials Research

Collection, preparation, identification, and preservation of earth materials-rocks, minerals, and fossils using earth materials from the collection of the Department of Geography. Observations will be based on direct research, measurement, microscopy, and microchemistry. Trips to the American Museum of Natural History, Franklin and Sterling mines (NJ) and the St. Claire and Deer Lake fossil sites (PA) for specimen collection. Recommended for earth science students and others interested in the study of earth materials. There will be an additional charge for transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 71000 - Introduction to GIS

This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 73200 - Global Climatic Change

Examination of the pre-Quaternary, Quaternary, post-glacial, historical and instrumentally recorded climates; greenhouse gases; aerosols; radiative forcing; processes and modeling; feedbacks; observed changes; detecting the greenhouse effect; sea level rise; effects on ecosystems.

prereq: a course in atmospheric, geological or environmental science.

Hours 45 hrs including conference,

Credits 3 cr

spring only Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 79100 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200, and permission of the instructor or the graduate adviser

Credits 1, 2 or 3

May be repeated for a maximum of 6 credits with the permission of the graduate adviser

PGEOG 79200 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200 and permission of the instructor or graduate adviser

Credits 1, 2 or 3

May be repeated for a maximum of 6 credits with the permission of the graduate adviser

PGEOG 79300 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200 and permission of the instructor or the graduate adviser

Credits 1, 2 or 3

May be repeated for a maximum of 6 credits with permission of the graduate adviser.

Geography: Courses offered if demand is sufficient

GEOG 70300 - Location Theory and Spatial Analysis

GEOG 70400 - Topics in Human Geography

This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70572 - GIS Law

GEOG 71100 - Environmental Conservation

GEOG 72100 - Transportation Geography

GEOG 77200 - Field Work in Peru

Credits 3 cr

GTECH 72100 - Advanced Cartography

Material Fee:\$ 15

PGEOG 70200 - Seminar in Physical Geography

PGEOG 70500 - Topics in Earth Science

American History

HIST 74151 - Era of American Revolution

The development of the English-American colonies from early settlement through 1763.

Hours 3 including conference,

Credits 3

HIST 74250 - Nineteenth-century United States: Early Republic

Economic, social, and political aspects of American history from 1789 to 1828.

Hours 45 hrs including conference,

Credits 3 cr

HIST 74400 - Twentieth-century United States

Study of reform movements and of political, economic, and social developments in U.S. in the 20th century.

Hours 3 including conference,

Credits 3

HIST 74500 - Twentieth-century United States: United States as a World Power

This course considers America's impact on the world in the twentieth-century and, at the same time looks at the way the world influenced life in twentieth-century America.

Hours 3 including conference,

Credits 3

HIST 75000 - History of the American Labor Movement

The history of the American labor movement from the late-nineteenth through the late-twentieth centuries, with a focus on the various ways American laborers organized themselves and struggled for control over their work and their daily lives.

Hours 3 including conference,

Credits 3

HIST 75500 - Growth of the American City

Development of the city as physical environment, social experience, political entity, and cultural symbol from the colonial era to the present.

Hours 45 hrs including conference,

Credits 3 cr

HIST 75650 - U.S. Constitutional History

The development of American constitutionalism from its English origins to the implementation of the U.S. Constitution

Hours 3

Credits 3

HIST 77207 - Race and Racism in U.S. History

Examines the centrality of racial politics and racism in U.S. history. Considers the social experiences produced by racialization and various political movements for racial equality.

Hours 3 including conference

Credits 3

HIST 77409 - Gender and Sexuality in the U.S.

Examines recent work in the twentieth-century history of gender and sexuality in the United States.

Hours 3

Credits 3

HIST 77427 - United States Since 1865

Considers the history of the U.S. from 1865 to the Vietnam war. Focuses on political, social and international developments.

Hours 3 including conference

Credits 3

Asian History

HIST 76802 - East Asia: 1600 - Present

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.

Hours 3 including conference

Credits 3

HIST 76804 - East Asia: Ancient Times to 1600

Συρραει οφ τραδιτιοναλ χυλτυρες ανδ σοχιοπολιτιχαλ στρυχτυρες οφ Χηινα, θαπαν, Κορεα αν δ ζιετναμ το αβουτ 1600

Hours 3 including conference

Credits 3

HIST 76805 - China Since 1800

Internal and external challenges to China's traditional order; the collapse of the imperial system and the establishment of a republic; the warlord period; the war against Japan; the civil war between Communist and Nationalist forces; China since the rise of the Communist Party to state power in 1949.

Hours 3

Credits 3

HIST 77461 - Rise and Fall of Chinese Communism

Examines the intellectual, political and international context of the origin of the Chinese Communist Party, explores debates and factional struggles between party leaders and inquires into the challenges posed from without the party. Introduces contending explanations of the Communist Party's rise to state power and its shifting policies and ideological justifications since that time.

Hours 3

Credits 3

History Advanced Research

HIST 77800 - Individual Tutorial Research

Hours 45 hrs including conference,

Credits 3 cr

HIST 77900 - Thesis Seminar: Independent Research

Required of all candidates for MA in history.

Hours 45 hrs including conference,

Credits 3 cr

HIST 78000 - History Colloquium for First-Year MA Students

This team-taught course, which MA students will be strongly encouraged to take, is designed to help incoming students gain greater understanding of different geographic and thematic fields of historical study.

Hours 3

Credits 3

Fall semester discussion-based seminar; grading is Pass-Fail

HIST 79000 - Research Methods for First-Year MA Students

This course, which MA students will be strongly encouraged to take, is designed to help first-year students develop their skill as researchers and writers, as they prepare to begin working on their theses in the second year of the program.

Hours 3

Credits 3

Spring semester

History Internship

HIST 79800 - Internship

Fieldwork in organizations engaged in historical research.

prereq: perm grad adviser

Hours 45 hrs including conference,

Credits 3 cr

Jewish History

HIST 74000 - Modern Jewish Social and Intellectual History

Jewish movements and thinkers since 18th century; changing aspects of Jewish identity, new philosophies, impact of anti-Semitism and Zionism.

Hours 45 hrs including conference,

Credits 3 cr

HIST 74800 - American Jewish History

Jewish life, 17th century to present: immigration, distribution, community structure, leaders, cultural creativity, economic and social integration, minority/majority relations.

Hours 3 including conference,

Credits 3

Latin American History

HIST 76600 - Colloquium in Latin American History

Hours 3 hrs

Credits 3 cr.

HIST 77411 - Colonial Latin America

Provides an overview of the early political, economic, cultural and social history of Latin America (1400s – 1820s) from the immediate pre-Hispanic era until the wars of independence in the 1820s.

Hours 3

Credits 3

Middle Eastern History

HIST 76801 - Middle East, 1500 – Present

Introduces Middle East history from the sixteenth century, during the period of the time of the great Ottoman and Persian empires, to the present.

Hours 3

Credits 3

HIST 76804 - Middle East to 1800

Introduces the origins and development of the history and civilization of the Middle East since the advent of Islam in the Arabian peninsula until 1800.

Hours 3

Credits 3

HIST 77444 - Women and Gender in Islam

Examines, through translated works, the various roles that Muslim women have assumed, and the wide variety of their experiences since the beginning of Islam in the sixth century to the modern period.

Hours 3

Credits 3

Russian, Soviet and Eastern European History

HIST 72900 - Soviet Foreign Relations in a Changing World

Objectives and strategies which the Soviet leadership adopted and mapped out at each stage in the period 1917 to 1945.

Hours 3 including conference,

Credits 3

Global and Transnational History

HIST 77472 - Human Rights and the Non-Western World

Focuses on the idea of human rights as it has been understood and propagated in the non-Western world. The primary focus is on the twentieth century.

Hours 3

Credits 3

History: Courses offered only with sufficient student demand

HIST 71252 - Modern Intellectual History 18th – 20th Centuries

Hours 45 hrs including conference,

Credits 3 cr

HIST 72700 - History of African Americans in the United States

Hours 45 hrs including conference,

Credits 3 cr

HIST 74150 - Colonial America

HIST 74300 - History of Civil War and Reconstruction Era in United States

Hours 45 hrs including conference,

Credits 3 cr

HIST 74700 - Nineteenth-century American Reform Movements

Hours 45 hrs including conference,

Credits 3 cr

HIST 75400 - Contemporary Europe

*Hours 45 hrs including conference,
Credits 3 cr*

HIST 76803 - Gandhi

*Hours 3
Credits 3*

HIST 77301 - The Long Nineteenth Century: Comparative History

*Hours 3
Credits 3*

HIST 77302 - Making the Nation in Nineteenth-Century Europe

*Hours 3
Credits 3*

HIST 77303 - Britain's Long Century: 1688 – 1830

*Hours 3
Credits 3*

HIST 77412 - Topics and Themes: Debating the Rise of the West

*Hours 3
Credits 3*

HIST 77414 - Revolutionary England 1603-1714

*Hours 3
Credits 3*

HIST 77414 - Women in Modern Europe

*Hours 3
Credits 3*

HIST 77429 - Concepts in Jewish History

*Hours 3
Credits 3*

HIST 77434 - Reformation and Wars of Religion

Hours 3
Credits 3

HIST 77440 - Modern European History: Fact and Fiction

Hours 3
Credits 3

HIST 77450 - Hitler and National Socialism, 1919 - 1945

Hours 3
Credits 3

HIST 77453 - Biography and Autobiography in U.S. History

HIST 77457 - Immigration and Ethnicity in the United States

Hours 3
Credits 3

HIST 77462 - Women and Family in the United States

Hours 3
Credits 3

HIST 77471 - History of Judaism

Hours 3
Credits 3

HIST 77497 - Major Works and Themes in US History

Hours 3
Credits 3

Latin

LAT 70100 - Literature of the Early Republic

Early history of the Latin language and the development of Latin literary forms and styles.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70200 - Literature of the Late Republic

Selections from authors of the late republic.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70300 - Literature of the Early Empire

Selections from authors of the early empire.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70400 - Literature of the Late Empire

Selections from authors of the late empire.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70500 - Caesar

Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70600 - Cicero

Selections from the orations, philosophical treatises, and letters of Cicero.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70700 - Vergil

Selections from the Aeneid, Eclogues, and Georgics.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70800 - Supervised Reading

Independent reading in individual Roman authors or particular literary genres supervised by a faculty member.

Prior approval of graduate director required. May be taken three times for credit. See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70900 - Latin Composition

History of the Latin language, including analysis of Latin grammar and syntax. Translation of short passages from English into Latin.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 71000 - Topics in Latin literature.

May be taken three times for credit.

LAT 71100 - Literature of the Republic

Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

LAT 71200 - Literature of the Augustan Age

Selections from poetry and prose authors of the Augustan period.

LAT 71300 - Literature of the Empire

Selections from poetry and prose authors of the Imperial period.

LAT 72500 - Ovid

Selections from the *Metamorphoses* and *Amores*.

LAT 72600 - Horace and Catullus

Selections.

LAT 72700 - Speaking and Writing Latin

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.

Mathematics

MATH 60100 - Mathematical Methods for the Physical Sciences

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

prereq: a course in ordinary differential equations

Hours 45 hrs,

Credits 3 cr

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 62100 - Introduction to Abstract Algebra

Introduction to the theory of groups and rings.

prereq: a course in linear algebra

Hours 45 hrs,

Credits 3 cr

MATH 62200 - Further Topics in Advanced Abstract Algebra

Elements of Galois theory, construction with ruler and compass, advanced topics in ring theory and linear algebra.

prereq: a course in introductory abstract algebra

Hours 45 hrs,

Credits 3 cr

MATH 62300 - Theory of Numbers

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

prereq: a course in linear algebra

Hours 45 hrs,

Credits 3 cr

MATH 62800 - Number Systems

Postulational construction of the positive integers. Development of the rational integers, the rational numbers, the real numbers, the complex numbers, together with binary operations and order relations. Topics from hypercomplex number systems or the theory of transfinite numbers.

Hours 45

Credits 3

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry.

prereq: MATH 63000

Hours 3

Credits 3

MATH 63400 - Geometries I

Topics in affine and projective geometry and/or topics in differential geometry.

prereq: a course in linear algebra

Hours 45

Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics.

Hours 3

Credits 3

MATH 64000 - Topics in Calculus

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

prereq: MATH 63000

Hours 45

Credits 3

Open only to Teacher Education Program students

MATH 64100 - Mathematical Analysis I

Mature consideration of theory and processes of calculus, including the Heine-Borel and Bolzano-Weierstrass Theorems.

prereq: MATH 26000 and either MATH 25400 or 25500

Hours 45 hrs,

Credits 3 cr

MATH 64200 - Introduction to Theory of Functions of a Complex Variable

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: a course in advanced calculus

Hours 45

Credits 3

MATH 64500 - Mathematical Analysis II

Continuation of MATH 64100 with an emphasis on functions of several variables.

prereq: MATH 64100

Hours 45

Credits 3

MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

prereq: a course in multivariate calculus and a course in linear algebra

Hours 45

Credits 3

Familiarity with MAPLE or MATHEMATICA encouraged

MATH 66100 - History of Mathematics

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

Hours 45

Credits 3

MATH 67100 - Fundamental Concepts of Modern Mathematics

An axiomatic approach to theory of sets; axiom of choice, Zorn's Lemma, transfinite arithmetic.

prereq: any 2 courses chosen from linear algebra, modern algebra, or advanced calculus I and II

Hours 45

Credits 3

MATH 67200 - Mathematical Logic

A survey of the central results and techniques of metalogic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem Theorem; and Church's Theorem on undecidability.

prereq: a course in linear algebra or permission of instructor

Hours 45

Credits 3

MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations

Hours 45

Credits 3

MATH 69000 - Advanced Topics in Mathematics for Teachers

Topics to be studied in any given term will be announced prior to registration.

prereq: MATH 62000 or 63000; additional prereqs vary with specific topics and will be announced at time of course offering

Hours 45

Credits 3

May be repeated as topics vary, but not more than twice.

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other fall semester in even numbered years The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

MATH 72200 - Modern Algebra II

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other fall semester in odd numbered years The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every spring semester

The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

MATH 74200 - Analytic Functions

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

prereq: MATH 35300 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other spring semester in even numbered years.

A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and L_p spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 45

Credits 3

MATH 74700 - Theory of Functions of a Real Variable II

L_p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

Offered in alternate years during the summer session. The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74700, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

MATH 75000 - Calculus on Manifolds

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

prereq: MATH 26000 and MATH 35200 or permission of the instructor.

MATH 75100 - General Topology

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

prereq: advanced calculus or permission of Department

Hours 45

Credits 3

MATH 75200 - Algebraic Topology

An introduction to algebraic topology including homotopy and the fundamental group of a space. Classification of spaces via their fundamental group. Applications to algebra and differential geometry.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

Offered alternate years during spring semester

MATH 77200 - Seminar

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 3

MATH 77300 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 1

MATH 77400 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 1

MATH 77500 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 2

MATH 77600 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 2

MATH 77700 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 3

MATH 77800 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 3

MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 and departmental permission

Hours 3

Credits 3

Offered alternate years during the summer session One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

MATH 78700 - Advanced Numerical Analysis, Finite Elements

Finite element method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 or equivalent and departmental permission

Hours 3

Credits 3

Offered alternate years during the summer session

MATH 79500 - Advanced Topics in Mathematics

Topics to be studied in any given term will be announced prior to registration.

prereq: varies with specific topics and will be announced at the time of course offering

Hours 45

Credits 3

May be repeated as topics vary, but not more than twice.

Statistics

STAT 61200 - Discrete Probability

Hours 3

Credits 3

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 45 hrs,

Credits 3 cr

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

STAT 70700 - General Linear Models II

A review of multivariate linear model and maximum likelihood estimation. Nonlinear regression models. Logistic and Poisson regression models. Family of generalized linear models. Multidimensional tables. Odds ratio. Model selection and evaluation. Computer-based exploratory data analysis. Examples from the life sciences.

prereq: STAT 70600 or equivalent

Hours 45

Credits 3

STAT 71400 - Topics in Statistical Inference

Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

Hours 45

Credits 3

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

STAT 71600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re sampling schemes; robust estimation; and robust regression methods.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

This course is cross-listed with BIOS 75600

STAT 71700 - Multivariate Analysis

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection- pursuit.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course; familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

STAT 71800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics include: one-, two- and many way layouts; decomposition and partitioning of variance; fixed-, random-, and mixed-effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course; familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

This course is cross-listed with BIOS 75800

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability

Hours 45

Credits 3

STAT 72400 - Topics in Applied Mathematics I

Selected topics. Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

prereq: permission of the department

Hours 45

Credits 3

STAT 72500 - Topics in Applied Mathematics II

Selected topics. Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

prereq: permission of the department

Hours 45

Credits 3

STAT 72600 - The Theory and Methods of Sampling

The techniques of modern sampling with applications to human population studies. Structured sampling designs. Unequal probability sampling. Efficient sampling. Accuracy, precision and the sources of bias. Longitudinal panel

study design. The study of available Federal data bases relating to the health and welfare of US residents.

prereq: STAT 70100 or equivalent, or permission of the department

Hours 45

Credits 3

STAT 73900 - Bayesian Statistics

Conditional probability. Normal prior and likelihood. Conjugate and improper prior distributions. Bayesian statistical paradigm and inference using sample-based numerical methods (e.g., EM, MCMC). Markov chains and Hidden Markov Models. Computer lab sessions.

prereq: prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed. Familiarity with a computing environment is encouraged.

Hours 45

Credits 3

STAT 75000 - Applied Biostatistics I

A first course in biostatistics for public health research. Topics include: simple and multiple linear regression; one-way and two-way analysis of variance; nonparametric tests. Focus on practical applications, utilizing statistical software.

prereq: C or better in STAT 21300 or an equivalent introductory statistics course. Not open to students who have taken STAT 21400 or STAT 61400. The prerequisites are also satisfied with the combination of PH 70000 and PH 70300.

STAT 75100 - Applied Biostatistics II

A second course in statistics covering quantitative methods applicable in the life sciences. Topics include experimental design, life table analysis, ethical issues, survival analysis, logistic regression, and Cox regression.

prereq: STAT 75000 or BIOS 75000 or an equivalent biostatistics course.

Hours 45

Credits 3

STAT 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression, and log-linear models.

Cross-listed BIOS 75200 Analysis of Categorical Data

prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

Hours 45

Credits 3

STAT 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal and random effects models, time-dependent covariates, missing values.

Cross-listed BIOS 75300

prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

Hours 45

Credits 3

STAT 75400 - Design and Analysis of Complex Surveys

An introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

Hours 45

Credits 3

STAT 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data and case studies.

Cross-listed BIOS 75500

prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

Hours 45

Credits 3

STAT 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes such as hedging and speculation, and potential problems that can arise in the application of financial derivatives.

prereq: permission of the department

Hours 45

Credits 3

STAT 78600 - Visualization for Statistics and Applied Mathematics

The structure and purpose of visualization systems, including fully developed examples from statistics and applied mathematics. Final project using advanced analysis techniques required.

prereq: STAT 61400 or MATH 68500 or permission of the instructor

Hours 45

Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or

permission of the instructor

Hours 45

Credits 3

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 45

Credits 3

STAT 79100 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 1 cr, 2 cr, or 3 cr

STAT 79200 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 1 cr, 2 cr, or 3 cr

STAT 79300 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 1 cr, 2 cr, or 3 cr

Mathematics and Statistics: Courses offered only if student demand is sufficient

MATH 74100 - Functional Analysis

Hours 45

Credits 3

STAT 63800 - Special Topics in Applied Statistics

Hours 45

Credits 3

Medical Laboratory Sciences

MLS 60000 - Fundamental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. Mastery of additional content and an independent project are required of graduate students.

This course is cross-listed with MLS 30000.

prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv. and admission to the post-baccalaureate certificate program in Medical Laboratory Technology

Hours 3 (2 lecture, 1 lab)

Credits 3

MLS 61000 - Clinical Practicum in Medical Laboratory Technology I

This course (and MLS 62000) comprise the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology

Credits 6

MLS 62000 - Clinical Practicum in Medical Laboratory Technology II

This course (with MLS 61000) provides training in the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology

prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology

Credits 6

MLS 70000 - Concepts of Disease: Diagnostic Strategies

This course will explore newly described and established disease syndromes from the perspective of strategizing for effective laboratory diagnosis and management. Broad strategies such as classical biochemistry and cultivation, immunochemical, molecular or histochemical techniques and compared using original literature. Upon completion,

students will be able to design a rational and cost effective laboratory strategy based on fundamental science; skills will also have application to biomedical laboratory research, assisting in the development of protocols for fundable projects.

Hours 45

Credits 3

MLS 70100 - Emerging Laboratory Technologies

Developed as a complement to MLS 70000, this course explores new technologies in the biomedical laboratory. Such areas as genomics, proteomics, immunohistochemistry and cytogenetics have been developed recently and may not have been formally studied in the student's previous scientific education. Students completing this course will have the skills to perform and/or supervise a wide range of analyses, and as managers they will be able to evaluate complex technologies for adoption.

Hours 3

Credits 3

MLS 71000 - Management Practicum

Students will be assigned to laboratory sites in hospital and proprietary clinical laboratories, research institutions, and academic laboratories to gain experience as management interns. Schedules will be arranged to meet the needs of students and sites, and a minimum of 150 hours will be required. A site-based mentor will be responsible for designing the practicum for each student placed and evaluating his/her performance in partnership with college-based faculty. Students will prepare an extensive project report in print and presentation format. Students completing this capstone course will be able to apply for positions in an area of biomedical laboratory management that reflects their unique combination of technical and management expertise.

Music

MUS 68100 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,

Credits 1 cr

MUS 68200 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,

Credits 1 cr

MUS 68300 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

*Hours 15 hrs,
Credits 1 cr*

MUS 68400 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

*Hours 15 hrs,
Credits 1 cr*

MUS 70000 - Music Bibliography and Research Techniques

Study of sources and bibliographical methods as applied to musical material.

*Hours 45 hrs,
Credits 3 cr*

MUS 71000 - Hunter Symphony

Rehearsal and performance of orchestral works.

*prereq: audition and perm instr.
Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.*

MUS 71100 - Hunter College Choir

Rehearsal and public performance of major choral Works.

*Hours 30
Credits 1
May be taken four times for credit.*

MUS 71300 - Chamber Music

Rehearsal and public performance of instrumental chamber works.

*Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.*

MUS 71400 - Collegium Musicum

Study and public performance of chamber chorus works from the medieval, Renaissance, and Baroque periods.

*prereq: audition and perm instr.
Hours 30
Credits 1
May be taken four times for credit.*

MUS 71500 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz and musical comedy. One public performance per semester.

Hours 30 hrs,

Credits 1 cr

May be taken four times for credit.

MUS 71600 - Jazz Vocal Workshop Ensemble

Open to all vocalists and rhythm section instrumentalists by audition. Jazz performance and improvisation. One public performance per semester.

Hours 30 hrs,

Credits 1 cr

May be taken four times for credit.

MUS 71700 - Piano Performance Class

Seminar in performance for advanced piano students. Study and performance of representative works of piano repertoire. Individual attention to problems of public performance.

Hours 30 hrs,

Credits 1 cr

May be taken four times for credit.

MUS 71800 - Vocal Performance Class

Course in seminar/workshop format concentrating on the literature for solo voice, both classical and popular (musical theater, jazz, gospel); but also including ensemble repertory from opera and musical theater. Singers are coached in performance technique and interpretation, while working with an accompanist to prepare the semester's repertoire.

Hours 30 hrs,

Credits 1 cr

May be taken four times for credit.

MUS 71900 - Special Topics in Music Performance

Number of works are studied, rehearsed, and performed. Topics to be announced.

Hours 30

Credits 1

May be taken four times for credit.

MUS 72000 - Opera Performance

Preparation and performance of a fully staged opera.

prereq: prereq. audition and graduate adviser's permission.

May be taken two times for credit.

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

prereq: 4 sem. of undergraduate music theory courses

Hours 45 hrs,

Credits 3 cr

MUS 72500 - Advanced Studies in Music Theory 2

Analysis and theory of compositional styles from 1900 to the present.

prereq: 4 sem. of undergraduate music theory courses

Hours 45

Credits 3

MUS 73100 - Composition 1

Fundamental musical materials and compositional techniques of the 20th century. Students will complete weekly compositional exercises, each emphasizing a specific technique.

Hours 45

Credits 3

MUS 73200 - Composition 2

A continuation of the study of compositional techniques of the 20th century through reading, analysis, and practice. Students will complete several small works intended for performance.

Hours 45

Credits 3

MUS 73500 - Orchestration

Study of the capabilities of musical instruments; analysis of orchestration techniques; arranging compositions for various instrumental combinations.

prereq: 2 semesters of undergraduate music theory and permission of the instructor

Hours 45

Credits 3

MUS 73600 - Computer Music

Making music with computers using technologies such as MIDI sequencing, hardware synthesis, and digital audio. Promises and limitations of these tools.

prereq: permission of the instructor

Hours 45

Credits 3

MUS 73800 - Jazz Techniques and Arranging

Study of jazz harmony and rhythm, jazz composition, and jazz arranging and its application to commercial music.

prereq: permission of department

Hours 3

Credits 3

MUS 73900 - Jazz Improvisation

Study and performance of jazz improvisational techniques.

prereq: MUS 73800 or permission of department.

Hours 3

Credits 3

MUS 74000 - Seminar in Music Theory and Analysis

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

Hours 45

Credits 3

May be taken 3 times for credit.

MUS 74200 - Seminar in Style Criticism

Intensive study of a small number of closely related works of music. Topics to be announced.

Hours 45

Credits 3

May be taken twice for credit.

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 75300 - Transcription and Analysis in Ethnomusicology

Critical examination and application of contemporary techniques to selected examples from various cultures.

Hours 45

Credits 3

MUS 76000 - Seminar in Music History

Problems in research and analysis in selected areas of music history.

Hours 45 hrs,

Credits 3 cr

May be taken twice for credit.

MUS 77500 - Seminar in Ethnomusicology 1

A history of the discipline; the development of theories and methods; selected problems.

Hours 45

Credits 3

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

Hours 45

Credits 3

MUS 77700 - Seminar in Urban Ethnomusicology

Major concepts and areas of research in urban ethnomusicology. Application of ethnomusicological methods to individual field studies in New York City.

Hours 45

Credits 3

MUS 77800 - Special Topics in Ethnomusicology: Issues/Regions

Specialized study of the music of a specific region or a current issue in ethnomusicology. Topics to be announced. More than one topics course may be allowed for the degree.

Hours 45

Credits 3

MUS 78100 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

MUS 78200 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78300 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

MUS 78400 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

MUS 78500 - Private Lessons in Composition

Advanced individualized training in original music composition.

prereq: MUS 73100, 73200, and permission of the instructor

MUS 78900 - Seminar in Music Performance

Preparation, rehearsal, and performance of small and large ensemble works. Emphasis on researching and analyzing the music being studied.

May be taken twice for credit.

MUS 79100 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 15 hrs,

Credits 1 cr

May be taken 4 times for credit. 8 cr maximum

MUS 79200 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 30 hrs,

Credits 2 cr

May be taken 4 times for credit. 8 cr maximum

MUS 79300 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 45 hrs,

Credits 3 cr

May be taken 4 times for credit. 8 cr maximum

MUS 79400 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 60 hrs,

Credits 4 cr

May be taken 4 times for credit. 8 cr maximum

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Credits 3

Music Courses for Music Education

MUS 61900 - Vocal Pedagogy

Fundamentals of teaching posture, breath control, and tonal production. Emphasis on physiological and acoustical nature of the voice. Vocalises and songs.

Hours 225 hrs,

Credits 1 cr

MUS 64100 - Strings

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 225

Credits 1

MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 45

Credits 3

Nursing

NURS 66400 - Legal Issues in Nursing

The purpose of this course is to examine the multiple relationships between nursing and the law, with a particular focus on accountability for advanced and specialty practice. The course examines sources of law and the role of the courts in the continuing development and application of law to health care and the health professions. Specific legal issues, such as malpractice and informed consent, are analyzed. Distinctions between civil and criminal liability are explored, along with the roles of licensing boards and other government agencies. The course also examines relationships between law, ethics, policy and global health.

Hours 3 hrs

Credits 3 cr.

NURS 69903 - Therapeutic Modalities in Counseling and Advanced Nursing Practice

Exploration of evidence-based guidelines for treating individuals with psychological health issues of therapeutic modalities including Cognitive Behavioral Therapy, Dialectic Behavioral Therapy, Interpersonal Therapy and Play Therapy with children.

Hours 45

Credits 3

NURS 69984 - Therapeutic Touch, Meditation and Imagery: Health Patterning Across the Life Span

Presents Therapeutic Touch, meditation, and imagery as modalities in health patterning for nursing using Rogers' Science of Unitary Human Beings as the theoretical framework.

Hours 45 hrs,

Credits 3 cr

Lecture plus practice.

NURS 69986 - Integrative Modalities in Health

Examines the science of wholeness emerging across disciplines as a basis for integrative approaches to health. Presents a survey of major modalities and health applications.

NURS 69995 - Transforming Death in Health Care

This course prepares graduate students to oversee and provide quality care to those who are dying and their loved ones. Concepts, theories and practices associated with death, dying and end-of-life care will be discussed along with exploration of the multiplicity of issues surrounding societal needs at the end-of-life will be discussed. At the completion of the course and with full attendance on the dates that ELNEC (end-

of-life education consortium curriculum) modules are taught, students will be designated “ELNEC trained”.

NURS 69997 - Interdisciplinary Approach on Diabetes Management

Analysis of interdisciplinary approaches in providing diabetes management to people with diabetes in a culturally competent manner.

NURS 69998 - Diabetes Prevention: Interdisciplinary Perspectives

This course will review existing approaches to diabetes prevention. Also covers prevention strategies, the impact of food and culture on lifestyle behaviors, the social and behavioral causes of diabetes, and the development of public health diabetes prevention interventions.

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 70700 - Nursing of Persons with HIV Infection

Analysis and evaluation of nursing strategies at the level of secondary prevention with persons who are HIV-positive in order to assist them to maintain optimum levels of wellness.

NURS 70800 - Nursing of Persons with AIDS

Analysis and evaluation of nursing strategies at the level of tertiary prevention with persons with AIDS in order to assist them to maintain and restore health.

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

NURS 71900 - Psychopharmacology

Course provides evidence-based guidelines of pharmacology in treating mentally ill individuals. Neuro-biology and psychopharmacology theories, current clinical practice of pharmacology for major psychiatric diagnoses, and practical clinical application of relevant pharmacotherapy will be explored.

NURS 73000 - Instructional Design in Nursing Education

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

prereq: NURS 70000 or equivalent course

NURS 73100 - Practicum in Nursing Education

Preceptored-supervised practicum emphasizing utilization of practice-related role of nurse educator and application of theoretical formulations in educational settings in nursing.

prereq: NURS 730

Hours 15 hrs seminar, 135 hrs practice,

Credits 4 cr

NURS 73500 - Leadership and Management in Health Care I

Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.

prereq: NURS 70000, NURS 70200, NURS 74900

coreq: PAF 91000, PAF 91030

Hours 30 hours theory, 15 hours seminar, 166 hours practicum,

Credits 5 cr

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500, PAF 91200, PAF 91720

coreq: PAF 91400, PAF 91300

Hours 30 hours theory, 15 hours seminar, 167 hours practicum,

Credits 5 cr

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000

prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,

Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742

prereq or coreq: NURS 704

Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300

Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,

Credits 5 cr

NURS 74500 - Capstone Seminar for the MS/MPA in Nursing Administration

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

Cross-listed (Cross-listed with PAF 97930)

prereq: NURS 74000

Hours 30 hours theory, 15 hours seminar, 167 hours practicum,

Credits 5 cr

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900

Hours 45 hrs practicum,

Credits 3 cr

NURS 75200 - Advanced Concepts in Nursing Education

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

prereq: NURS 73000

NURS 75400 - Psychosocial Behavioral Patterns of Older Adults

Integration of the theoretical foundations of biological, psychological, social, and cultural patterns of aging that form the assessment data base for the case management of older adults, families, and communities

prereq: NURS 70000

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900

prereq or coreq: NURS 71700, NURS 75000, NURS 75100

Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,

Credits 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100

Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars

Credits 10

NURS 76600 - Advanced Medical Surgical Nursing I

Provides specialized knowledge and clinical experience in order to implement the diverse roles of the clinical nurse specialist (CNS) in a variety of settings and with patients of different age groups.

prereq: NURS 76100

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

NURS 76700 - Advanced Medical Surgical Nursing II

Builds on specialized knowledge and clinical experience in order to implement the diverse roles of the clinical nurse specialist (CNS) in a variety of settings and with patients of different age groups.

prereq: NURS 76600

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5 cr

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

coreq: NURS 755

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3 cr

NURS 77100 - Community/Public Health Nursing I

Analysis of how clinical specialists in community/public health nursing conduct a community health assessment and participate on multidisciplinary teams that work in partnership with culturally diverse communities.

prereq: NURS 700, PH 700

prereq or coreq: NURS 702, NURS 749

Hours 30 hrs theory, 166 hrs practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

NURS 77600 - Interdisciplinary Approaches to Diabetes Management

This course will provide an overview of the field of diabetes and diabetes management. It will examine and analyze the interdisciplinary approaches in providing diabetes management in an effective and culturally competent manner.

Cross-listed PH 77013

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 79100 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 15 hrs,

Credits 1 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79200 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 30 hrs,

Credits 2 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79300 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 45 hrs,

Credits 3 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 80400 - Finance and Management Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 81100 - Advanced DNP Procedures

Students will perform clinical procedures that assist in the diagnosis and treatment of acute and chronic conditions encountered in the primary care setting. Students are expected to draw on knowledge from pathophysiology and advanced assessment in order to demonstrate competence in performing advanced procedures.

prereq or coreq: NURS 75100

Hours 3, 15 lab

Credits 3

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Hours 15 lecture, 15 seminar and 125 clinical

Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical

Credits 3

NURS 84200 - DNP PMHNP Practice I

Clinical practicum in mental and behavioral health care delivery system and with current mental health policy makers, with seminar discussions of current mental health policy and politics in relation to the role of advanced practice nursing in the field of mental health systems.

prereq: NURS 85100

coreq: NURS 74200

Hours 5 seminar, 50 clinical

Credits 1

NURS 84300 - DNP PMHNP Practice II

Clinical practicum in advanced practice geriatric-mental health with seminar discussions of current gerontological and geriatric mental health theories, research and strategies for primary care nursing of older adults who need psychiatric or mental health services.

prereq or coreq: NURS 74300

Hours 5 seminar, 50 clinical

Credits 1

NURS 84400 - DNP PMHNP III

Clinical practicum in addictions nursing practice with seminar discussions of current addictions theories, research and strategies for the clients with substance abuse and dependence diagnosis.

prereq or coreq: NURS 74400

Hours 5 seminar, 50 clinical

Credits 1

NURS 84500 - DNP PMHNP Practice IV

This course provides a framework for DNP psychiatric mental health nurse practitioner (PMHNP) students in how to synthesize theoretical, scientific, and clinical knowledge for the assessment and management of both mental health and illness states of child- and adolescent-specific populations.

prereq: NURS 74400

Hours 30 lecture, 15 seminar, 210 clinical

Credits 6

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900

coreq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 85500 - DNP Practice with Adults/Older Adults I

Application of advanced practice strategies for primary care nursing of adults and older adults and their families and the health care organizations that provide services for them. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care for adult and older patients and their families and the health care systems that care for them.

prereq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 85700 - DNP Practice with Women

Application of advanced practice strategies for primary care nursing of women and their families. Evidence-based practice guidelines are reviewed and applied in the simulation lab and clinical setting. Information systems/technology and patient care technology to improve the quality of care for women and their families will be utilized in the clinical setting.

prereq or coreq: NURS 75700

Hours 5 seminar, 40 clinical

Credits 1

NURS 86900 - DNP Practice with Older Adults

Application of advanced practice strategies for primary care nursing of older adults and their families and communities. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care to older adult patients and their families and communities, as well as the health care systems that care for them.

prereq or coreq: NURS 76900

Hours 15 seminar, 105 clinical

Credits 3

NURS 87000 - Acute Care DNP Practice

This course provides students with specialized knowledge and clinical experience in applying evidence-based national standards and treatment guidelines in the care of adolescents, adults, and older adults with acute and complex health problems. Leadership role expectations of doctorate-prepared nurse practitioners are explored and synthesized throughout the course content.

prereq: NURS 75100

Hours 30 theory, 15 seminar, 250 clinical

Credits 6

NURS 87100 - Advanced Practice Public Health Nursing I

Analysis of the Advanced Practice Public Health Nurses (AAPHN) role in the use of technology to promote population health in order to achieve the DNP Competency Areas: Technology & Information Literacy Analysis and Quality of Practice.

prereq or coreq: NURS 77100, NURS 85000

Hours 15 seminar, 86 clinical

Credits 1

NURS 87200 - DNP in Public Health Nursing II

Analysis of the role of Advanced Practice Public Health Nurses (AAPHN) related to providing population health through partnerships and coalitions with the goal to achieve the DNP Competency Areas: Leadership in Practice, Independent Practice, and Health Delivery System.

prereq or coreq: NURS 77200, NURS 87100

Hours 15 seminar, 87 clinical

Credits 1

NURS 87300 - DNP in Public Health Nursing III

Analysis of evidence-based practice in the role of Advanced Practice Public Health Nurses (AAPHN) through community-based participatory research (CBPR), in order to achieve the DNP Competency Areas: Scientific Foundation for Practice, Healthcare Policy, and Practice Inquiry in Area Associated with Population Health.

prereq or coreq: NURS 77300, NURS 87200
Hours 15 seminar, 87 clinical
Credits 1

NURS 87400 - DNP in Public Health Nursing IV

Advanced Practice Public Health Nurses (APPHN) translate research into practice in a culturally competent manner by piloting their intervention using community-based research principles.

prereq or coreq: NURS 77300, NURS 87300
Hours 30, 15 seminar, 200 clinical
Credits 6

NURS 90000 - DNP Capstone I

Students develop plans for capstone projects that demonstrate synthesis of their development in advanced practice nursing and lay the groundwork for future practice development.

prereq: NURS 80200
Hours 45
Credits 3

NURS 90100 - DNP Capstone II

Students complete their capstone project and write final reports with continual mentorship by the faculty and community mentors.

prereq: NURS 90000
Hours 60
Credits 5

Nutrition Required Courses

All NUTR courses are three credits except NUTR 75700, which is one credit

NUTR 70000 - Seminar in Dietetics Practice

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70300 - Pre-Professional Practice in Dietetics: Community

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

Credits 3

Open to DI students only.

NUTR 70500 - Nutrition and Biochemistry

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

NUTR 71000 - Principles of Public Health Nutrition

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

NUTR 71500 - Food Service and Management

An overview of good service operations and theories, functions and tasks of management

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 72500 - Nutrition Research

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR 73100 - Human Nutrition and Metabolism

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

prereq: NUTR 70500

NUTR 73200 - Advanced Nutrition II

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

prereq: NUTR 73100

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

NUTR 73400 - Clinical Nutrition I

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

NUTR 73800 - Public Health Nutrition Seminar

In-depth analysis of the literature and research in specific areas of public health nutrition.

NUTR 74600 - Nutrition and Disease

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

NUTR 74700 - Advanced Nutrition and Assessment Laboratory

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

NUTR 75600 - Food Science and the Environment

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

NUTR 75700 - Food Science and the Environment Laboratory

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600

Credits 1

NUTR 76000 - Practicum

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

Nutrition Elective Courses

All NUTR Elective Courses are 3 Credits

NUTR 73000 - Nutritional Assessment of Urban Communities and Populations at Risk

The collection and analysis of data for the purposes of identification of, and designing interventions for, individuals and urban populations at nutritional risk.

NUTR 73710 - Public Health Nutrition Fieldwork I

Directed field experiences in public health nutrition agencies and/or programs.

*Hours 210 hrs,
Credits 3 cr*

NUTR 73720 - Public Health Nutrition Fieldwork II

Directed field experiences in public health nutrition agencies and/or programs.

NUTR 74100 - Nutritional Assessment

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of individuals.

prereq: NUTR 73100

NUTR 75100 - Nutritional Contribution of Foods

Nutrient and non-nutrient components of foods. Physical and chemical properties of foods and their relationship to health.

NUTR 75200 - Food Service and Personnel Management

The organization and administration of food service operations, especially in community settings.

NUTR 77000 - Topics in Public Health Nutrition

Courses on current topics in public health nutrition.

Offered periodically.

NUTR 77010 - Cultural Aspects of Food and Nutrition

Study of the ways in which cultural and social factors influence food behaviors and dietary patterns.

NUTR 77020 - Consumer and Food

Available food supply, world hunger, marketing, and legislation.

Physics First-level

PHYS 60500 - Mathematical Physics

Introduction to basic mathematical techniques used in physics.

Hours 45

Credits 3

PHYS 61500 - Electromagnetic Theory

Electrostatics; electromagnetics; Maxwell's equations with application to waves; waves in guides; radiation.

Hours 45

Credits 3

PHYS 62100 - Electronics

Fundamental ideas of electronic circuits with special emphasis on solid state devices.

Hours 45

Credits 3

PHYS 62500 - Introduction to Quantum Mechanics

Fundamental ideas in the study of atomic sized systems.

Hours 45

Credits 3

PHYS 63000 - Science and Society

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

prereq: one graduate-level physics course or permission of instructor

Hours 45

Credits 3

PHYS 64500 - Solid State Physics

Introduction to basic theory and techniques in study of matter on solid state.

Hours 45

Credits 3

PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

prereq: PHYS 63000 and two elective courses in physics or permission of instructor

Hours 60

Credits 4

PHYS 68500 - Numerical Methods I

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

Cross-listed (Cross-listed with MATH 68500.)

prereq: MATH 15500

Hours 45

Credits 3

PHYS 69500 - Numerical Methods II

Topics in numerical methods selected from solutions of linear equations, interpolating functions, root finding methods, nonlinear equations, Fourier series and the fast Fourier transform, partial differential equations. A major term project

Cross-listed (Cross-listed with MATH 69500.)

prereq: PHYS 68500

Hours 45

Credits 3

Physics Second-level

PHYS U70100 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U70200 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71100 - Analytical Dynamics

Study of advanced classical mechanics.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71500 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71600 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72500 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72600 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U701

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U74100 - Kinetic Theory and Statistical Mechanics

Study of physical properties of systems consisting of very large numbers of particles.

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U77100 - Research or Independent Study

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,

Credits 1-4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U77200 - Research or Independent Study

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,

Credits 1-4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U77300 - Research or Independent Study

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,

Credits 1-4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

Physics - courses offered according to student demand

PHYS U73800 - Introduction to Non-equilibrium Statistical Mechanics

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U74500 - Solid State Physics

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U74600 - Solid State Physics

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U75700 - Astrophysics

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS 61100 - Analytical Mechanics

Course offered if demand is sufficient

PHYS 62400 - Plasma Physics

Course offered if demand is sufficient

PHYS 67100 - Modern Physics Laboratory

Course offered if demand is sufficient

Psychology 600-level

Note: Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 680xx - Special Topics in Psychology

Readings and discussion on a selected problem or topic area — varies from semester to semester.

Hours 45 hrs including conference

Credits 3

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 60500 - Abnormal Psychology: Advanced Course (A)

Covers facts and theories about the etiology of mental disorders; consideration of deviations commonly found in the population, such as mental retardation.

prereq: Psych 22000 or 22300

PSYCH 63000 - Theories and Methods of Psychotherapy (A)

Evolution of theories and methods of individual psychotherapy with a focus on central issues in the field.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 64100 - Comparative Psychology (B)

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 64600 - Physiological Psychology (B)

The basics of neuroscience as sampled from the behavioral aspects. Topics covered include: structure and function of cells in the nervous system; neural communication: physiology and pharmacology; structure of the nervous system and endocrine system; research methods of physiological psychology; sensory and motor systems; aggressive behavior; anatomy of learning.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 65100 - Psychology of Small Groups (A)

Therapeutic groups have experienced massive development and rapid spread: over ten million adults currently participate in the US. The course consists of a didactic part (including such topics as leadership, group structure and power, norm formation, and conditioning) as well as a clinical part (in which students participate both as potential

leaders and clients). The aim is to familiarize students with group processes and an understanding of group dynamics.

Hours 15 hrs lecture, 30 hrs lab, incl conf,

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. Instructor's permission

PSYCH 65151 - Family and Couples System (A)

Family and couples communication as seen through the lens of systems theory. Topics include interpersonal meanings and patterns, conflict, and barriers to intimacy. Conceptual material is complemented by real case examples and TV and film illustrations.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 67600 - Psychology of Personality (A)

Frameworks for the study of personality, including classical psychoanalysis, American psychiatry, behaviorism, and phenomenology. Theorists studied include Freud, Adler, Jung, Sullivan, Dollard and Miller, Rogers, and Binswanger and Boss.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 69000 - Independent Research in Psychology – 3 credits

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69100 - Independent Research in Psychology – 1 credit

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000, such as a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 15 hrs,

Credits 1 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69200 - Independent Research in Psychology – 2 credits

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000 but more extensive than that required for PSYCH 69100. This may involve a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 30 hrs,

Credits 2 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

Psychology 700-level

PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70200 - Proseminar in Psychology

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent

Hours 30 hrs lecture, 30 hrs conf or lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70600 - Statistical Methods in Psychology II

PSYCH 706 Statistical Methods in Psychology II

Covers advanced topics in statistics, including multivariate analysis, multiple regression, analysis of variance for complex designs, and analysis of covariance.

prereq: PSYCH 705

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70702 - Thesis Research

Additional semester of individual research under the supervision of a department faculty member. A formally approved Thesis Proposal and written approval from the faculty sponsor is required.

prereq: PSYCH 70701

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. Limited to students working on their MA thesis.

PSYCH 71000 - Advanced Physiological Psychology I (Neuroscience I) (B)

An introduction to fundamental methodology in neuroscience research and a focus on the functioning of individual neurons and communication between neurons. This team-taught course is part of a two-term sequence covering fundamental concepts in neuroscience.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Instructor's permission. Neuroscience I is not a prerequisite for Neuroscience II.

PSYCH 71100 - Advanced Physiological Psychology II (Neuroscience II) (B)

Topics in neuroscience, including development of neural patterns, cellular differentiation, pathways and synaptic connections, the genetics of neural development, neural sexual differentiation, neural plasticity and endocrine factors, somatosensation, motor systems, and vision.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 72000 - Developmental Psychology I (S)

Topics in development, including pre- and perinatal influences on development, learning, cognition, and aggression. The course uses a variety of perspectives to examine issues in development.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73000 - Psychology of Learning (B)

PSYCH 730. Psychology of Learning (B)

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

PSYCH 73700 - Cognitive Development (S)

The development of cognition, i.e., the development of higher mental processes. Areas covered include infancy, conceptual development, memory, social cognition, and language.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73800 - Cognitive Psychology (S)

A theoretical and experimental overview of cognitive psychology. Topics include cognitive architecture, attention, pattern recognition, memory, language processing, and representation of knowledge.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73900 - Research Methods in Animal Behavior (A, B)

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74200 - Contemporary Psychoanalytic Theories (A)

An exploration of the British object relations theorists and their influence on contemporary psychoanalytic approaches. Students should have some background in basic psychoanalytic theory.

prereq: PSYCH 22000 or 67600, and PSYCH 22300 or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74600 - Social Psychology (S)

An advanced overview of the field, includes a focus on: the development of social psychological theory; beliefs, attitudes, and social behavior; stereotyping and prejudice; influencing attitudes and changing behavior; interpersonal perception; the self and social identity; social interaction and interpersonal relationships; group dynamics; and implications of social psychology for understanding society.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74700 - Experimental Social Psychology

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74800 - Psychological Theories of Ethnic and Cultural Identity (S)

Current research and theory on ethnic and racial identity development, including components of ethnic/racial/ cultural identity; historical and conceptual issues; the state of theory and research on ethnic identity as it pertains to particular ethnic groups; racial and ethnic socialization; language and ethnic identity; applications of the ethnic identity construct.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75000 - Special Topics in Psychology

Readings and discussion on a selected problem or topic area – varies from semester to semester.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75104 - Basic Psychological Processes 2: Development, Cognition and Language (S)

Covers the basic concepts in memory, language and cognitive development. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75300 - Attitudes and Attitude Change (S)

Covers traditional and current theory and research on attitudes and persuasion in social psychology, including attitude formation, structure, and measurement; the link between attitudes and behavior; prejudice and discrimination; and persuasion theories including cognitive dissonance, message learning, fear appeals, and elaboration likelihood.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75400 - Applied Animal Welfare & Behavior (B)

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.

PSYCH 75500 - Psychopathology I (A)

Familiarizes students with thinking and research about diagnosis, etiology, course and treatment of abnormal behavior. Topics covered include diagnosis and the principles and techniques of assessment; research methodology (experimental and correlational); the schizophrenias, mood disorders, neuroses, personality disorders, and stress reactions.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75700 - Animal Thinking and Communication (S, B)

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

prereq: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator

Credits 3

PSYCH 78400 - Colloquium in Animal Behavior and Biopsychology

The fall colloquium is organized by doctoral students in the Biopsychology, Behavioral Neuroscience program and includes presentations on a variety of topics by students, faculty and outside speakers. The spring colloquium is a themed set of symposia in which distinguished visiting scientists discuss their work in relation to current issues in the field.

Credits 1 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

Psychology: Courses not offered on a regular basis

PSYCH 70000 - History of Psychology

PSYCH 70400 - Instrumentation in Experimental Psychology

PSYCH 72100 - Developmental Psychology II

PSYCH 73500 - Psychology of Perception

PSYCH 73600 - Sensory Perception

PSYCH 74000 - Personality

PSYCH 74100 - Evolution of Psychoanalytic Theory

PSYCH 75003 - Comparative Cognition and Learning

PSYCH 75200 - Language and Thought

PSYCH 75600 - Psychopathology II

PSYCH 76000 - Psychometric Methods

PSYCH 76100 - Measurement of Abilities

PSYCH 76300 - Psychophysical Methods

PSYCH 76400 - Personality Measurement I

PSYCH 76500 - Personality Measurement II: Projective Techniques

PSYCH 78000 - Quantitative Methods in Psychology

PSYCH 78300 - Mathematical Models in Psychology

PSYCH 79000 - Experimental Psychopharmacology

Public Health Required Courses

PH XXXXX - Cities, Society and Health

Examination of the impact of city living on health with a focus on US cities in the last six decades. Recommended as a substitute for PH 71000 for students who enter with extensive public health experience or advanced degrees in related fields. (formerly COMHE 77097)

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH XXXXX - Interdisciplinary Urban Health Research

Preparation to design research studies on complex urban health problems that transcend single disciplinary perspective, level of social organization or research methods. (formerly COMHE 77041)

prereq: PH 70000, 70300

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 770XX - Emerging Infectious Diseases

This course examines historical, cultural, social, political, biological and environmental factors related to the emergence, transmission and control of infectious diseases. Popular and public health approaches to risk characterization and management of infectious diseases are critically examined. (formerly COMHE 77048)

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 770XX - Ethics in Public Health

This course examines contemporary ethical and moral dilemmas – such as those related to privacy, autonomy and corporate responsibility – that arise in epidemiologic and biomedical research and public health, practice and policy. (formerly COMHE/EOHS 77024)

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 770XX - Food Politics and Policy

This course examines the effects of the food industry and government policy on health promotion and disease prevention in the US.

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 770XX - GIS and Public Health

This course is designed to provide students with hands-on experience in obtaining, analyzing and mapping health data in relation to demographic, land-use, environmental and other variables. The uses and limitations of spatial analysis in understanding the distribution and causes of disease will be critically examined. (formerly EOHS/GIS 77040)

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 770XX - Immigration and Health

This course offers a comprehensive overview of immigrant health in the US. By relying on the sociological, anthropological and public health literature, this course will examine policy issues involving immigrant populations in the US (e.g., immigration law and changes in welfare reform), service provision, the diversity of alternative healing

systems and practices among immigrant groups, and the importance of socioeconomic and cultural determinants on immigrants' health outcomes. Immigrants' differences in terms of culture and nationality, class, race/ethnicity, age, and gender will also be considered. (formerly COMHE 77076)

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 770XX - Infectious Disease Control

This course covers epidemiologic approaches to infectious disease transmission, investigation, surveillance, analysis and control. (formerly COMHE 77005)

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 770XX - Management of Public Health Programs

The challenges facing public health managers are complex and require a broad range of knowledge and skills. This course provides an overview of public health management issues, focusing both on theory and practical skills useful in developing effective managerial approaches in today's health care economic environment. (formerly COMHE/EOHS 77021)

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 770XX - Social Epidemiology

This course examines social and economic determinants of health and disease and the potential role and limitations of epidemiology in analyzing and addressing them. (formerly COMHE 77004)

prereq: PH 70000, PH 71000, PH 70300 or instructor's permission.

Hours 45 hrs, including conferences,

Credits 3 cr

*Note: These and other courses address broad urban public health issues of potential interest to students across all 3 UPH tracks (COMHE, EOHS and NUTR). *Pending approval*

PH 70100 - Principles of Health Care Administration

Interaction of official and voluntary health agencies at local, regional, and national levels. Examination of objectives, organization, and administration. Emphasis on financing, access and quality of care.

Hours 45 hrs, including conferences,

Credits 3 cr

PH 70200 - Environmental Health and Safety

Survey of chemical, physical, and biological factors influencing quality of ambient, workplace, and home environments. Topics include: air and water pollution, radiation and noise hazards, hazardous substances, solid wastes, food protection, natural and human-made disasters, and specific hazards such as lead, asbestos, mold and pesticides.

Hours 45 hrs, including conferences,

Credits 3 cr

PH 70300 - Biostatistics and Epidemiology II

A continuation of PH 70000. Lectures, and hands-on workshops on concepts, principles, and uses of epidemiology. Study of selected communicable and chronic diseases to illustrate the distribution and analysis of causes of disease and application of epidemiology to planning, monitoring and evaluation of public health programs.

prereq: PH 70000

Hours 45 hrs, including conferences,

Credits 3 cr

PH 71000 - Urban Health Promotion

Examines the impact of social and political forces on the health of urban populations and describes roles for and history of public health professionals in promoting health of urban communities.

Hours 45 hrs, including conferences,

Credits 3 cr

PH 73700 - Supervised Fieldwork

Students will carry out directed field experiences in public health agencies or programs. Placements are in relation to student's academic background, specialization and career expectations. Emphasis is on applying classroom-acquired concepts and skills. The content and scope of the fieldwork should be similar to work performed by an entry level public health professional.

prereq: Completion of 18 credits toward the master's degree, including at least 3 required core courses (biostatistics, epidemiology, and the course most relevant to your specialization) and at least 2 courses in students' specialization.

PH 73800 - Capstone Project

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the MPH or MS program. Students will complete either a paper based on fieldwork, a research paper or a Master's Essay. The paper must be completed no sooner than during students' penultimate or final semester.

prereq: Completion of at least 36 credits of coursework toward the Master of Public Health (MPH) or Master of Science degree, including at least one course in each of the 5 core areas of public health (biostatistics, epidemiology, social and behavioral sciences, public health policy and environmental health and safety); and at least 3 specialization courses.

PH 74000 - Public Health and Public Policy

Through in-depth exploration of major health issues, this course examines how government policies and social and economic factors influence the practice of public health in urban settings and how public health professionals can influence policy.

prereq: At least 30 cr including PH 700,701,702,703, and 710
Hours 45 hrs, including conferences,
Credits 3 cr

PH 75000 - Introduction to Biostatistics

This course is designed to enable students to analyze, present and interpret population health data.

prereq: Elementary statistics or calculus or equivalent.

PH 75100 - Principles of Biostatistics

This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores ≥ 550 and analytic scores ≥ 4.5 .

PH 75200 - Introduction to Epidemiology

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

prereq: PH 75000

PH 75300 - Principles of Epidemiology

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

prereq or coreq: PH 75100
Hours 3
Credits 3

PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

Hours 3
Credits 3

PH 75500 - Urban Health and Society

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

Hours 3
Credits 3

PH 75600 - Public Health and Health Care Policy and Management

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

Hours 3
Credits 3

Public Health Elective Courses

All courses are 3 credits unless otherwise noted.

PH 71100 - Visual Media, Technology and Health

In this intensive and hands-on course students will learn how to use a critical media literacy perspective to disrupt dominant images and representations of health, illness and the body, while they will also take part in creating their own participatory media project (digital ethnography or short [10 minutes or less] digital video). From the first day, the class will meet in a computer lab and students will create their own media

PH 71300 - Immigration and Health

This course offers a comprehensive overview of immigrant health in the US. By relying on the sociological, anthropological and public health literature, this course will examine policy issues involving immigrant populations in the US (e.g., immigration law and changes in welfare reform), service provision, the diversity of alternative healing systems and practices among immigrant groups, and the importance of socioeconomic and cultural determinants on immigrants' health outcomes. Immigrants' differences in terms of culture and nationality, class, race/ethnicity, age, and gender will also be considered.

PH 71400 - Human Rights and Public Health

This course focuses on the skills needed to investigate, analyze, and document abuses of human rights as they relate to health and public health practice.

PH 71700 - Global Health

This course is intended to meet the needs of students who are committed to becoming experts and practitioners in both the theory and practice of global health. Globalization trends, and their effect on population health, will be studied from a comparative perspective in both the developed and the developing world. To that end, this course aims at promoting awareness on the cultural, socioeconomic and political effects of the globalization process on population health. During the semester, students will examine the emerging field of global health from an interdisciplinary perspective, by addressing the main health issues experienced by vulnerable populations worldwide.

PH 71800 - Perspectives on Public Mental Health Policy and Practice

This course examines the evidence-base that supports a wider appreciation for the public health significance of mental health and the translation of this evidence-base into relevant social policy and multi-disciplinary approaches to public health and social work practice.

PH 71900 - Healthy Urban Aging: Economics and Policy Issues

This course examines key social, economic, and policy issues at the intersection of the changing demographics of aging, urbanization, public health.

PH 72000 - Cities, Society and Health

This course presents an ecological, multilevel approach to the study of urban health and brings together public health and social science disciplines to examine the impact of city living on population health. Its focus is on changes in health in US urban populations in the post-World War II period. It is required for all DPH students

PH 72200 - Food Politics and Policy

This policy course examines the influence of the food industry and of government on the U.S. food system and the way we eat, and on efforts to prevent and treat chronic diet-related conditions, such as obesity. This is a hybrid course that meets in person 5 times during the semester; the remainder of the time the course is conducted online asynchronously through Blackboard

Cross-listed GC PH 81400

prereq: 30 MPH credits

PH 72300 - Chronic Disease Management

This course studies the extensive knowledge and understanding of multidisciplinary approaches to managing chronic disease. The course will provide students with the opportunity to study specific issues relating to chronic disease management and link this to their own practice

PH 72400 - Ethics in Public Health

This seminar course will consider questions about the practice of health promotion, disease control, and health research -- questions about morality, not effectiveness

PH 77000 - Topics in Public Health

Courses on current topics in public health.

Offered periodically.

PH 77013 - Interdisciplinary Approaches to Diabetes Management

This course will provide an overview of the field of diabetes and diabetes management. It will examine and analyze the interdisciplinary approaches in providing diabetes management in an effective and culturally competent manner.

Cross-listed NURS 77600

Hours 45

Credits 3

PH 78300 - 1, 2, 3 Independent Study in Urban Public Health

Directed reading, research or field study designed to permit exploration of a single area related to urban health in depth, with faculty guidance. A faculty sponsor must agree to sponsor independent study prior to registration. Each of the research centers affiliated with the MPH and MS programs offer supervised independent study projects.

prereq: perm program director, matriculated status, and completion of at least 12 cr. hrs to be arranged
Credits 1, 2 or 3

PH 78400 - 1, 2, 3 Independent Study in Urban Public Health

Directed reading, research or field study designed to permit exploration of a single area related to urban health in depth, with faculty guidance. A faculty sponsor must agree to sponsor independent study prior to registration. Each of the research centers affiliated with the MPH and MS programs offer supervised independent study projects.

prereq: perm program director, matriculated status, and completion of at least 12 cr hrs to be arranged
Credits 1, 2 or 3

Public Health Policy and Management Required Courses

HPM 75000 - Public Health Management

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

prereq: PH 75500, PH 75600

HPM 75100 - Public Health and Health Care Law

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

prereq or coreq: PH 75500, PH 75600 or with instructor's permission for those with at least one year of health care experience

HPM 75200 - Comparative Analyses of Urban Health Care Systems

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75400

HPM 75300 - Public Health Policy Analysis

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

HPM 75400 - Public Health Advocacy

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600

Students can take this course or HPM 75200

HPM 75500 - Health Economics

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600

Public Health Policy and Management Elective Courses

HPM 77000 - Topics in Public Health Policy and Management

Courses on current topics in public health policy and management.

Offered periodically

Romance Languages

RLNG 70100 - Introduction to Romance Linguistics I

Comparative study of evolution of French, Italian, and Spanish.

Hours 30 hrs plus conferences,

Credits 3 cr

(Required for MA in Arts and Sciences, if RLNG 70200 is not taken.)

RLNG 70200 - Introduction to Romance Linguistics II

Development of phonology and morphology. Schools and theories of Romance linguistics.

Hours 30 hrs plus conferences,

Credits 3 cr

May be taken independently of RLNG 70100.

French

FREN 70100 - History of the French Language

Hours 30 hrs plus conferences,

Credits 3 cr

FREN 72100 - French Poetry of 16th Century Classical and Italian Influences

The Lyons poets, the Pléiade, Protestant poets.

Hours 30 hrs plus conferences,

Credits 3 cr

FREN 72500 - Main Currents of French Renaissance

Study of different aspects of French Renaissance in the works of major authors.

Hours 30 hrs plus conferences,

Credits 3 cr

FREN 73200 - French Tragedy of 17th Century

Study of characteristics of French tragic theatre from Baroque to Classicism. Emphasis on plays and prefaces of Corneille and Racine.

Hours 30 hrs plus conferences,

Credits 3 cr

FREN 73300 - Theatre of Molière

Analysis of major plays. Discussion of theatrical life of the period.

Hours 30 hrs plus conferences,

Credits 3 cr

FREN 73400 - French Moralists of Classical Period

Works by such authors as La Rochefoucauld, Bossuet, La Fontaine, Madame de Sévigné, Fénelon, La Bruyère, Saint-Simon.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 74100 - Diderot

Study of novels and aesthetic and philosophical theories. Diderot's influence through the Encyclopédie.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 75300 - Balzac and Stendhal

Major novels of Balzac and Stendhal. Comparative analysis of their themes, and narrative techniques. Study of intellectual, social and political trends of the period.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 75400 - Flaubert, Zola, and Maupassant

Analysis of selected works. Study of Realism and Naturalism and their impact on French fiction.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 75500 - French Fiction from Romanticism to the Decadence

Impact of antipositivistic thought on novel and related genres of 19th-century French fiction. Works by Hugo, Sand, Mérimée, Nerval, Gautier, Barbey d'Aurevilly, Huysmans, Villiers de l'Isle-Adam.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 75600 - 19th-Century French Theatre

Main trends from Melodrama to Théâtre Libre. Readings from Pixérécourt, Hugo, Vigny, Musset, Scribe, Labiche, Dumas fils, Sardou, Becque, Feydeau, Maeterlinck, Courteline. Study of dramatic theory and styles of theatrical production.

*Hours 30 hrs plus conferences,
Credits 3*

FREN 76000 - Aspects of 20th-Century French Fiction

Analysis and discussion of novels by Mauriac, Duhamel, Alain-Fournier, Rolland, Colette, Saint-Exupéry, Malraux, Sartre, Camus and le Nouveau roman.

*Hours 30 hrs plus conferences,
Credits 3 cr
(For Gide and Proust, see FREN 76100.)*

FREN 76100 - Gide and Proust

Analysis of authors' major fiction. Study of their style and creative process.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 76500 - Aspects of Modern French Theatre

Analysis and discussion of plays by such authors as Claudel, Giraudoux, Romain, Montherlant, Anouilh, Sartre, Camus, Beckett, Ionesco, Duras.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79100 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79200 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79300 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79400 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79500 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79600 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79700 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79800 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79900 - Special Topics in French Literature

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 79903 - Independent Study in French Literature

French: Courses offered only if student demand is sufficient

FREN 60000 - Basic Course in French for Graduate Students

FREN 61100 - Explication de Texte

FREN 62100 - Genre Studies I: French Poetry

FREN 62200 - Genre Studies II: The Theatre in France

FREN 62300 - Genre Studies III: The French Novel

FREN 62400 - Literature of Ideas

FREN 70200 - Studies in French Criticism

FREN 70800 - Methods of Research

FREN 71100 - Medieval French Literature

FREN 71200 - Medieval French Literature II

FREN 72200 - Rabelais and Montaigne

FREN 73100 - Descartes and Pascal

FREN 74200 - Voltaire and Rousseau

FREN 75000 - Era of Chateaubriand

FREN 75100 - Romanticism and the Parnasse

FREN 75200 - French Poetry from Baudelaire to Symbolism

FREN 76300 - Major Currents of Modern French Poetry

Italian

ITAL 70100 - History of the Italian Language

Hours 30 hrs plus conferences,

Credits 3 cr

ITAL 70200 - Italian Stylistics and Rhetoric

History of Italian rhetoric art and stylistics applied to literary text.

Hours 30 hrs plus conferences,

Credits 3 cr

ITAL 71100 - Italian Literature from its Origins to 13th Century

Hours 30 hrs plus conferences,

Credits 3 cr

ITAL 71200 - Dante's Vita nuova and Inferno

Dante's works in the political and intellectual context of Medieval Europe.

Hours 30 hrs plus conferences,

Credits 3 cr

ITAL 71300 - Dante's Purgatorio

Intensive study of the cantica's background, symbolism, poetical significance and content.

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 71400 - Dante's Paradiso

A study of the Paradiso's poetics, its theo-philosophical and cosmological content.

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 71500 - Poetry and Humanism of Petrarch

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 71600 - Boccaccio's Decameron and Other Works

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 72000 - Dante's Prose Works

Literary, historical and philosophical analysis of Vita nuova, Convivio, De vulgari eloquentia and Monarchia.

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 72100 - Ariosto

Analysis of Orlando furioso, Satire and theatre.

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 72200 - Machiavelli: Political Theorist and Moralist

Study of Istorie fiorentine, Lettere, Mandragola, Principe and Discorsi.

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 72500 - Tasso's Gerusalemme liberata

Study of Tasso's epic poem and related linguistic, historical and philosophical issues.

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 72600 - Italian Theatre I – From Machiavelli to Alfieri

Study of Renaissance comedy, Commedia dell'arte, Goldoni, Alfieri.

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 72700 - Italian Theatre II – From Manzoni to Contemporaries

Study of theatre from Risorgimento to D'Annunzio, Pirandello and contemporary playwrights.

*Hours 30 hrs plus conferences,
Credits 3 cr*

ITAL 75200 - Art and Humanism of Manzoni

Study of the Promessi sposi and poetic, dramatic, and critical works.

*Hours 30 hrs plus conferences,
Credits 3 cr*

Sociology/Social Research Core

GSR 70200 - Contemporary Sociological Theory

Methodological philosophies and findings of major sociological theorists.

Hours 45

Credits 3

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70800 - Statistics I

Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

prereq: SOC 24100 or equiv

Hours 45

Credits 3

fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70900 - Statistics II

Topics covered include analysis of variance, multiple regression and other multivariate techniques.

prereq: GSR 70800 with grade of B or better

Hours 45

Credits 3

spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71000 - Research Methods I

Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

prereq: SOC 24100 or equiv or perm instr

Hours 45 hrs,

Credits 3 cr

fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71100 - Research Methods II

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

prereq: GSR 71000 or permission of instructor

Hours 45 hrs,

Credits 3 cr

spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71600 - Workshop in Using Information Technology for Research

Use of the Internet and web for both qualitative and quantitative research; includes search and evaluation strategies, access to full text data bases, and interactive statistical and spatial analysis. Presentation of findings in formats suitable for delivery via the web.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71700 - Seminar in Applied and Evaluation Research

Theoretical and methodological issues in applied evaluation research; achieving agreement on program goals and qualifying goals.

prereq: GSR 70900, GSR 71000 and GSR 71100

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71800 - Research Internship

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

Credits 6 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

Hours 45

Credits 3

Spring only. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Sociology/Social Research Special Topics Seminars and Independent Research

GSR 79000 - Special Topics Seminar

The program offers experimental special-topics seminars. Check with program office for more information.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Marketing Research and Consumer Behavior

GSR 72200 - Consumer Behavior

Cultural, social, and psychological influences on consumer decision-making and consumer satisfaction; Consumerism.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 72300 - Nonprofit and Social Marketing

Application of marketing and marketing research to non-business organizations.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Media Research and Analysis

GSR 73100 - Television Programming and Audiences

Socioeconomic analysis of television programming and the various audiences served, including the cable universe; review of relevant theoretical approaches, research methods and audience data, patterns of television consumption.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 73200 - Motion Pictures

Analysis of contemporary American motion picture industry with special emphasis on independent production; social structure of production, product analysis, audience appeal and marketing; review of relevant theoretical approaches and current research.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 73300 - The New Electronic Media and Information Markets

Investigation of new media and information technologies and the markets they create (digital television, Internet, etc.); relation between these media and markets and the class structure; analysis of the consumptive and pragmatic use of information.

Hours 45 hrs,

Credits 3 cr

Students can take graduate courses in the Department of Film and Media Studies provided they are directly related to media analysis and research. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Evaluation

GSR 75200 - Focus Group Research

Theory and application of focus group research. Methodological procedures, conceptualization of research problem, organization of group, listening and probing techniques, analysis of verbal and nonverbal data, report writing.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76700 - Interpersonal Process in Organizations

Analysis of social relations in organizations; interpersonal processes in management, conflict negotiations, and interdepartmental relations.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Policy Analysis/Nonprofit Sector

GSR 74100 - Social Policy

Planning procedures and program evaluation in public, corporate, and other private-sector settings; sources of error in forecasting.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 74200 - Public Policy Analysis

Theories, concepts, and methods in public- policy analysis applied to select policy areas such as social service, criminal justice, and education.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 74600 - Organizational Dynamics

Organizational design, processes and analysis in the business, public, and nonprofit sectors.

Hours 45 hrs,

Credits 3 cr

With appropriate approval, students may take graduate courses offered by the Department of Urban Affairs such as URBG 74800 (Management Control of Nonprofit Organizations) and URBG 76200 (Health Regulation). Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Training in International Development

GSR 73400 - Electronic Media in Developing Countries

Electronic media use in developing countries with emphasis on television and developmental applications; policy and research issues; role of social marketing (the TELEVISA model); the international digital divide, and related issues.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76100 - Development Theories and Practices

History of the evolution of theories of development and analysis of their application to post colonial societies from 1945 to 1989; assessment of development practices and their implications for poverty alleviation and social change; analysis of the conditions under which development aid is provided and its impact on a sample of countries from Africa, the Middle East and Asia.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76200 - Rethinking Development in the Global Era

Critical analysis of the shift from the old development discourse to a new one centered on “post development” or the “global” economy; identification of the ways in which developing societies attempt to integrate themselves into the global economy; assessment of the cultural, social and political impacts of the switch from socialist or mixed economies to market economies; analysis of the role of IMF, the World Bank, and world trade agreements in reshaping developing societies. Methodologies of social development, conflict resolution, legal reform and poverty alleviation used in aid organizations.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to

advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76300 - International Development Practicum

Structures and functions of international aid organizations. Training in program/project analysis; training in gender and development; advocacy for a number of development issues as well as governance.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Social Work: Clinical Practice With Individuals and Families

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice With Individuals and Families concentration majors

SSW 72100 - Social Casework I

Development and use of casework theory, practice and process. Integration and application of the values that underpin social work practice.

prereq: SSW 71700

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72200 - Social Casework II

Application of casework principles. Knowledge from human behavior and the social environment and social welfare policy and services areas and research findings is applied to the assessment of clients and their situations.

prereq: SSW 72100

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72300 - Social Casework III

Expands and deepens knowledge and skills for professional practice. Intervention modes, based on biopsychosocial assessment, are presented. Dealing with problem assessment and intervention; cultural specificity.

prereq: SSW 72100 and 72200

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72400 - Social Casework IV Sections: Brief Therapies, Child Therapy, Cognitive/Behavioral, Family Therapy, Trauma Therapy, and Treatment of Pairs

Students identify professional issues and dilemmas in both knowledge and practice. Special emphasis is on assuring competence.

prereq: SSW 72100, 72200, 72300 or SSW 72500 and SSW 72600

Credits 3 cr

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72500 - Social Casework for Non-Majors

Development and use of casework theory, practice and process with individuals and families. Integration and application of the values that underpin social work practice.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72600 - Social Casework II for Non-Majors

Application of knowledge from the human behavior and the social environment areas and research findings to clients and situations. Principles addressing individual and family practice are highlighted.

prereq: SSW 72500

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79200 - Social Work Practice with Children and Adolescents

Effective practice with children and adolescents, adoptees, and those in foster and residential care. Social work skills needed when working with urban young people under the age of 19; strengths perspective; biopsychosocial model.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

An assessment of the family from a systems approach. Family developmental life cycle, family structure evaluation; tracking interactional patterns.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Community Organization, Planning and Development

NOTE: SSW 74100, 74200 and 74300 are required for all Community Organization concentration majors.

SSW 74100 - Community Organization and Planning-I

Theory and practice of community organization and planning. Models and strategies for professional practice for community and client participation and empowerment. Community needs and resources; practice dynamics; dilemmas.

prereq: SSW 71700

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74200 - Community Organization and Planning-II

Development of community organization skills in relation to group structure and development. Group dynamics, role theory and reference group theory. Community power and influence on problem solving structures.

prereq: SSW 74100

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information .

SSW 74300 - Community Organization and Planning-III

Role of the social worker and social planner; theoretical and practice aspects of program development and community planning within a political system. Concepts and techniques in management of social service programs.

prereq: SSW 74100 and 74200

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74700 - Community Organization for Non-Majors

The community as a dimension of professional practice. Models and strategies for community intervention on behalf of those seeking improved access to resources and services; knowledge and skills needed to build supports and programs.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74800 - Grantsmanship and Proposal Writing

Techniques of fundraising, proposal preparation, and grantsmanship. Proposal writing and negotiation with funding sources.

prereq: one methods course

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Field Education

SSW 76100 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information and full course descriptions.

SSW 76200 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76300 - Field Instruction III

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100 and 76200. Advanced standing program students enroll without prereq.

Credits 3

Material Fee: \$15

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76400 - Field Instruction IV

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76200 and 76300

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76700 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 6

OYR and Dual Degree students only. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76800 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76700

Credits 6

OYR and Dual Degree students only

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Group Work

NOTE: SSW 73100, 73200 and 73300 are required for all Group Work majors.

SSW 73100 - Social Group Work I

Prepares students for working with groups in community-based and clinical settings. Understanding social group work as a problem-solving method in widely varied settings and fields of practice.

prereq: SSW 71700

Credits 3

NOTE: SSW 731, 732 and 733 are required for all Group Work majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 73200 - Social Group Work II

Role of the worker in the middle and ending stages of group development; interventions; dealing with problematic roles; dealing with group conflict.

prereq: SSW 73100

Credits 3

NOTE: SSW 73100, 73200 and 73300 are required for all Group Work majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 73300 - Social Group Work III

Application of practice principles. Advocate, develop and deliver ethical and effective group work services in current agency settings.

prereq: SSW 73200

Credits 3

NOTE: SSW 73100, 73200 and 73300 are required for all Group Work majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu> for additional information.

SSW 73400 - Group Work IV: The Purposeful Use of Activity in Social Group Work Practice (open to selected non-majors)

Relationship between group stage theory and activity to enhance stage-appropriate participation. Psychosocial needs of groups and their members. Use of activity as content of choice and with widely varied group types.

prereq: SSW 73200

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 73500 - Social Group Work I for Non-Majors

Major theories, concepts, and practice principles of social group work.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 73600 - Social Group Work II for Non-Majors

Expands the knowledge and skills taught in SSW 735. Practice principles and their differential application as well as implications of intervention choices.

prereq: SSW 73500; students should have the concurrent opportunity to work with a group

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Human Behavior and the Social Environment

NOTE: SSW 711, 712 and 713 are required. All other HBSE courses are electives.

SSW 71100 - Human Behavior and the Social Environment I

Identification and integration of pertinent concepts relevant to each phase of the life cycle; biological, psychological, and social systems theories within the conceptual framework of human behavior and its interaction with the social environment.

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71200 - Human Behavior and the Social Environment II

Required sequel to SSW 711. Exploration of normative life span progress from adolescence through older adulthood using theories of multicausality, gender, social class, and cultural pluralism and diversity.

prereq: SSW 711

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71300 - Human Behavior and the Social Environment III

Understanding dysfunction. Concepts of mental health and illness, deviance and conformity; classification systems; influences on the diagnosis and treatment processes. Theories of etiology and treatment in relation to the needs of families, groups and communities. Attendance at an additional 2-hour lecture on psychopharmacology is required.

prereq: SSW 711 and 712

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79158 - Human Sexuality

Human sexuality within the context of human behavior and the social environment; understanding unique client groups.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Organizational Management and Leadership

NOTE: SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership concentration majors.

SSW 78000 - Administration of Social Agencies

Principles and processes of administration in social work for non-majors. Organization and administration; planning, personnel management, budget and financing, and relationships among boards, committees, executives, professional staff, and volunteers.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78100 - Social Welfare Administration I

Theoretical understanding of the operation of social agencies. Organizational structure, authority, goal setting and service implementation, interorganizational positioning, stability and survival, and staff and administrative functioning.

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78200 - Social Welfare Administration II

Personnel management, staff training, volunteers and paraprofessionals, decision-making processes, budgeting, boards and committees, public relations and marketing, and methods of accountability.

prereq: SSW 78100 or dept perm

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78300 - Social Welfare Administration III

Program design in social agencies. Emphasis on assuring access, consistency, continuity and comprehensiveness of services, as well as client feedback mechanisms. Financial management, budgeting, strategic planning.

prereq: SSW 78100 and 78200

Credits 3

SSW 781, 782 and 783 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78600 - Advanced Administration for Non-Majors

Techniques of budgeting, public relations, staff training, working with paraprofessionals, hiring/firing, committee processes, working with boards, and developing personnel policies in social agencies.

prereq: SSW 78000 or 78700

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78700 - Supervision in Social Agencies

Basic techniques of supervising professional social workers.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Professional Seminar

SSW 79000 - Professional Seminar

Utilization and integration of practice, research and policy to determine how an issue may be ameliorated or resolved. Taken in the final semester.

Credits 3

This is a required course for all students.

Social Welfare Policy and Services

NOTE: SSW 701 and one SSW 702 course are required.

NOTE: Students may choose one of the following SSW 702 courses to fulfill the advanced social policy requirement.

SSW 70100 - Social Welfare Policy and Services I: Introduction to Social Welfare Policy and Services

Circumstances that give rise to social problems and their policy solutions; frameworks for analyzing these developments; values and skills needed to understand social policy and engage in advocacy and social change are stressed.

Credits 3

SSW 70100 and one SSW 702xx course are required. SSW 70100 is a prerequisite for all SSW 702xx courses.

Students may choose the following SSW 702 course to fulfill the advanced social policy requirement. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 70210 - The Organization and Delivery of Social Services to Workers and Their Families

Human and fiscal resources and opportunities for innovative policy and program development in the world of work. Issues of economic, social and political organization in the workplace; union and industry programs as models for creative occupational social work policy and practice.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70211 - Political Economy of Social Welfare

U.S. social welfare policy and the social work profession in the context of contradictions in political economy. History of economic development; analysis of current economic and political conflicts in the global economy; strategies for change.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70213 - Women and Social Welfare

U.S. social welfare policy through the lens of gender: women's rights, feminist perspective and the impact of gender stereotypes.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70214 - Health and Mental Health Systems

U.S. health and mental health systems; effect of major policy shifts in service delivery on both health care services and populations at risk.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70215 - Policy and Practice in Child Welfare

Interplay of child welfare policy, service and practice issues from historical, political, socioeconomic and legal perspectives. Organization; assessment; children's vs. parents' rights; and other issues.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70216 - Social Welfare Policy with the Homeless

Ways in which social welfare policies and social services have affected homelessness; the role of social work in this policy arena.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70217 - Social Welfare Policy in the Field of Aging

Aging policy and legislation; health care, retirement, work, and family issues. Organization, utilization and impact of services on the aging; attention given to special populations.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70218 - Seminar in Social Welfare

Social welfare policy and social change issues are studied. Topics vary each semester.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70219 - Immigrants and Refugees: Policies and Issues

History and development of immigration and social policies that affect immigrants and refugees in America. Policy theories, dynamics and patterns related to immigration policy; delivery of service; social welfare policy advocacy.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70220 - Clients' Rights, the Legal System and Social Policy

The role of legal rights in the welfare state with reference to special populations. Origins, history and the current status of the legal rights of clients; use of laws to promote social justice and social change; advocacy by social workers for clients' rights.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70221 - Social Welfare and Disabilities

Implications of the Americans with Disabilities Act (ADA) and other legislation on social work practice with people who have disabilities. Creation of effective service delivery systems.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70222 - International Social Welfare Policy and Services

International social welfare policy and services in social work. Review of past, present and future challenges produced by history, economic change, and globalization and their implication.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

Social Work Practice Learning Lab

NOTE: SSW 71700 & 71800 are required for all students

SSW 71700 - Social Work Practice Learning Lab 1

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

Credits 3

SSW 71700 and 71800 are required. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71800 - Social Work Practice Learning Lab 2

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

prereq: SSW 71700

Credits 3

SSW 71700 and 71800 are required. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work Research

NOTE: SSW 75100 and 75200 are required for all students.

SSW 75100 - Social Work Research I

Principles of social research methods in the context of social work practice. Problem formulation, research design and role of research in social work, ethical issues, sampling, measurement and data collection.

Credits 3

SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75200 - Social Work Research II

Measurement strategies, qualitative data analysis, descriptive and inferential statistics, and methods of quantitative data analysis; data management. Data collected by students from their research projects is analyzed.

prereq: SSW 75100 or equivalent

Credits 3

SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work Ways of Knowing and Communicating

SSW 77500 - Special Topics in Social Work Ways of Knowing and Communicating

Courses in this grouping build students' capacity to acquire, appraise, analyze and integrate multiple sources of knowledge, communicate both orally and in writing through the use of common assignments used in the study of substantive content areas.

Credits 3

SSW 77500 is required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 77501 - Ways of Knowing: Theories and Perspectives on Aging

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77502 - Ways of Knowing: Theories and Perspectives on Child Welfare

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77503 - Ways of Knowing: Theories and Perspectives on Health

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77504 - Ways of Knowing: Theories and Perspectives on Domestic Violence

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77505 - Ways of Knowing: Theories and Perspectives on Mental Health

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77506 - Ways of Knowing: Theories and Perspectives on Criminal Justice

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77507 - Ways of Knowing: Theories and Perspectives on Authority Settings

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77508 - Ways of Knowing: Theories and Perspectives on Trauma

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77509 - Ways of Knowing: Theories and Perspectives on Immigrant Experience

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77510 - Ways of Knowing: Theories and Perspectives on Trauma and Co-Occurring Disorders

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77511 - Ways of Knowing: Theories and Perspectives on Social Work and the Arts

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77512 - Ways of Knowing: Theories and Perspectives on Drugs and Alcohol

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77513 - Ways of Knowing: Theories and Perspectives on Schools

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77514 - Ways of Knowing: Theories and Perspectives: Early Development

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77515 - Ways of Knowing: Theories and Perspectives: Youth Development

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

Social Work: Electives

All other courses listed under this heading are electives.

SSW 71500 - Seminar in Psychodynamics

Dimensions of psychodynamic theory: modern drive theory, ego psychology and object relations theory. Relationship to clinical practice.

prereq: SSW 71100 and 71200

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71900 - Foundations of Social Work Practice

An orientation to the profession of social work, the use of research in practice, the multicultural context of practice, the common base of practice and some of the unique aspects of clinical work with individuals and families, group work, community organization and administration.

Credits 3

SSW 72700 - Social Work with Clients in Authoritarian Settings: Working with Mandated and Involuntary Clients

Services to individuals and groups involved with parole, probation, court clinics, institutions for offenders, and child and adult protection agencies.

Credits 3

SSW 77000 - Alcoholism and Substance Abuse

The state of knowledge relating to substance abuse: nature and extent of the problem, its complexity and strategies for intervention. Prevention and psychosocial treatment.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 77300 - Social Work Ethics and Values

Moral and philosophical analysis of ethical problems and value issues as presented in social work practice. Application of philosophical theories to the analysis of practice dilemmas; principles for decision-making.

Credits 3

SSW 79157 - Social Work with Victims of Violence against Women

Domestic violence and the complex interactions between affected individuals and their environments (children, families, communities). Interventions.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79171 - Social Work Practice with Immigrants and Refugees

Services for immigrants and refugees; assimilation, acculturation, bi-culturalism and ethnic identity; feelings for the homeland; resettlement and family reunification; problems of terrorism, immigration and anti-immigration.

prereq: SSW 71700 and one method course

Credits 3

SSW 79175 - Social Work and AIDS

The needs of people with AIDS and their families; confidentiality, mortality and human sexuality from a holistic clinical perspective.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79176 - Social Services to the Gay and Lesbian Community

Developmental models for positive lesbian, gay, bisexual or transgendered identity; social work skills for assessment and intervention.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79186 - Social Work and the Arts

Art forms are explored to provide services to populations at risk, including the elderly and the physically and mentally impaired.

Credits 3

SSW 79188 - Spirituality and Healing

Spiritual domain of human functioning. Viewing human need, strengths and experience with a spiritual lens. Spirituality and human striving for a sense of meaning and fulfillment; understanding and responsiveness to spiritual perspectives.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79189 - Perspectives on the Aging Process: Implications for Social Work Practice

Biopsychosocial relationship between health and aging with emphasis on family, culture, individual coping, and environmental stress and support.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79652 - Social Work with Workers and Their Families

Significance of work, unemployment and the changing workplace in the lives of clients and communities. Opportunities for practice with labor and management in occupational social work settings.

prereq: SSW 71700 and one method course

Credits 3

SSW 79653 - Clinical Practice in Child Welfare

Issues in child abuse and neglect. Clinical work with families involved with the child welfare system. Treatment; transference and countertransference; development of empathy. Interventions.

prereq: SSW 71700 and one method course

Credits 3

SSW 79658 - Contemporary Psychosocial Approaches in the Treatment of Chronic Mental Illness

Evidence-based practices, within a recovery-oriented paradigm, as a general approach to practice. Specific evidence-based interventions to use for individuals with a diagnosis of serious mental illness.

prereq: SSW 71700 and one method course

Credits 3

SSW 79660 - The Aging Process: Clinical Issues in Social Work Practice with the Aged

Theoretical frameworks of human aging, including the myths and realities of major biopsychosocial problems facing older adults and their families. Practice implications.

prereq: SSW 71700 and one method course

Credits 3

SSW 79661 - Social Work Practice in School Settings

Roles and functions of social workers within a complex ecological system of home/school/community are explored with an emphasis on skill development for practice with urban children and their families.

prereq: SSW 71700 and one method course

Credits 3

SSW 79662 - Social Work Practice with AIDS and Chronic Illness

Unique approach in social work to HIV/AIDS. Illness trajectory of HIV with other epidemics and chronic illnesses. Practice techniques. Impact on women, people of color, and LGBT individuals.

prereq: SSW 71700 and one method course

Credits 3

SSW 79665 - Electoral Activism and Social Work Practice

Involvement in the electoral arena that advances social work values and empowers social workers, clients and communities to become active participants in civic life.

prereq: SSW 71700 and SSW 74100

Credits 3

SSW 79701 - Clinical Social Work Practice in Health Settings

Spectrum of reactions to illness; change and adaptation; loss, grief and bereavement; uncertainty; value dilemmas and ethical issues related to illness, health care and social work intervention.

prereq: SSW 71700 and one method course

Credits 3

SSW 79801 - Multicultural Social Work Practice

Trends, issues and concerns in social work practice with racially and ethnically diverse individuals, families and groups in the urban environment.

prereq: SSW 71700 and one method course

Credits 3

Social Work: Tutorials

SSW 75800 - Tutorial

A reading and independent study course for students under faculty guidance.

prereq: completion of the first semester of graduate social work study and dept perm

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75801 - Tutorial

Credits 1

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75802 - Tutorial

Credits 2

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75803 - Tutorial

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Theatre History, Theory, and Criticism

THC 70200 - History of Theatrical Theory

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

Hours 30 hours, including conferences,

Credits 3

THC 70500 - Theatre in Society

Study of influence of social, philosophical, and religious concepts on content and form of modern theatre.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 71000 - Studies in Dramatic Genre

Theories and changing forms of traditional theatrical genres: tragedy, comedy, tragicomedy, farce, melodrama.

Hours 30 hrs, including conferences,

Credits 3 cr

May be repeated for credit.

THC 71100 - Theatre Criticism

Analysis of practical modern criticism.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 75300 - History of American Theatre

Theatre in United States from Colonial times to present, with emphasis on its importance as a social and cultural force.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 75800 - Asian Performance

Study of traditional performance genres in India, China, Japan and Southeast Asia.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 76000 - Studies in Theatre History and Production

Intensive study of history and theory of one of the component arts of theatre. Subjects announced in advance.

Hours 30 hrs, including conferences,

Credits 3 cr

May be repeated for credit.

Theatre: Dramaturgy

THC 76100 - Dramaturgy Research and Case Studies

Consideration of general problems of production research, including its application in rehearsal; specific examples will be analyzed.

Hours 45 hrs, plus hrs to be arranged,

Credits 3 cr

THC 76200 - History of Directing

Seminar on the history of the directing profession, with emphasis on innovative 19th- and 20th-century artists.

Hours 45 hrs,

Credits 3 cr

THC 76300 - Dramaturgy Workshop

Workshop in the theory and practice of production dramaturgy emphasizing performance projects conceptualized by students working in director-dramaturgy pairs.

prereq: THC 75100, 75200, 79100, or perm instr

Hours 45 hrs,

Credits 3 cr

THC 76400 - Translation Workshop

Workshop in the theory and practice of translating plays. Each student will translate a play or other theatre-related text during the semester.

prereq: perm instr

Hours 45 hrs,

Credits 3 cr

THC 76500 - Dramaturgy Practicum

Independent study as a dramaturgy-assistant at a local professional theatre, supervised by a faculty member.

prereq: THC 761, 762, 763, or perm instr

Hours Hrs to be arranged.

Credits 3 cr

May be repeated twice for credit.

Theatre: Playwriting

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

Hours 3

Credits 3

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

prereq: (and/or other special conditions):

THC 73100 or permission of instructor.

Hours 3

Credits 3

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

prereq: THC 73200 or permission of the instructor

Hours 3

Credits 3

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

prereq: THC 72100 Playwriting III

coreq: THC 72400 Production Workshop II

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

prereq: Playwriting II

coreq: Playwriting III

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III

coreq: THC 72200 Playwriting IV

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 79300 - Playwriting I

Study of techniques of playwriting based on student's own work with special emphasis on scenes and one- act form.

Hours 45 hrs,

Credits 3 cr

THC 79400 - Playwriting II

Writing and criticism of original material with emphasis on full-length form.

prereq: THC 79300

Hours 45 hrs,

Credits 3 cr

THC 79500 - Seminar in Playwriting and Directing

Designed for playwrights at work on new scripts and for directors desirous of staging original material.

prereq: THC 79400 or 79200

Hours 45 hrs,

Credits 3 cr

May be repeated for credit.

THC 79600 - Film Writing

Study of problems of writing for film. Students are required to prepare original scripts for class critique.

Hours 45 hrs,

Credits 3 cr

Theatre: Studies in Production and Performance

THC 73000 - Harold Clurman Seminar in Theatre

A seminar named in honor of Harold Clurman that features guest artists from the professional theatre discussing various aspects of theatre.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 75400 - Contemporary Styles of Production

Theories in style and method of dramatic production.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 75500 - Visual Elements of Theatre I

Study and practice of director's and playwright's conceptual approach to visual requirements of plays.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 75600 - Visual Elements of Theatre II

Study and practice of scene and lighting design with special emphasis on their value to the director as important tools of interpretation.

prereq: THC 755

Hours 30 hrs, including conferences,

Credits 3 cr

THC 78500 - Theories and Styles of Acting

Intensive study in theories and techniques of acting, with emphasis on historical and modern styles.

Hours 45 hrs,

Credits 3 cr

THC 79100 - Advanced Directing and Rehearsal

Study of problems in play direction, with practice in presentation of scenes and plays.

Hours 45 hrs,

Credits 3 cr

THC 79200 - Special Problems in Directing

Interrelation of director and playwright through project work on original scripts.

prereq: THC 79100

Hours 45 hrs,

Credits 3 cr

Theatre Independent Research and Special Topics

THC 72000 - Independent Research

Directed program of reading, research, or creative presentation under supervision of graduate faculty member.

prereq: perm instr

Hours Hrs to be arranged.

Credits 3 cr

THC 72500 - Special Topics

Studies in specialized areas of theatre.

Hours 30 hrs, including conferences,

Credits 3 cr

May be repeated for credit.

Theatre Thesis

THC 79900 - Master's Essay

Individually supervised research and writing of a thesis, leading to graduation with honors.

Credits 3

Urban Affairs

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,

Credits 3 cr

URBG 70300 - Demographic Issues in Planning and Development

Survey of current demographic trends including national population growth, age distribution patterns and changes in household composition. Discussion of how patterns relate to planning practice.

Hours 45 hrs,

Credits 3 cr

URBG 70400 - Comparative International Planning

Comparison of approaches to urban planning in developing nations with emphasis on large-scale project planning and management. Focus on development plan as tool for resource allocation and decision-making.

Hours 45 hrs,

Credits 3 cr

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,

Credits 3 cr

URBG 70700 - Graphical Communication for Urban Planners

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

*Hours 45 hrs,
Credits 3 cr*

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

URBG 71400 - Computer Applications in Planning and Urban Affairs

Review of computers and their roles in urban professions. Survey of spreadsheets, data bases and word- processing programs as well as simple programming, computer mapping and mainframe computers.

*Hours 45 hrs,
Credits 3 cr*

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,
Credits 3 cr*

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

prereq: URBG 72700 or permission of the adviser

*Hours 45 hrs,
Credits 3 cr*

URBG 72900 - International Human Settlements

Review of habitats in urbanized world. Highlight of experience from Third World including squatting, slum upgrading, service delivery, new towns and settlement policies.

*Hours 45 hrs,
Credits 3 cr*

URBG 73000 - Law of Housing and Urban Development

Focus on legal aspects of key housing and community development policy. Examination of federal and state housing programs, landlord-tenant laws and rent controls.

*Hours 45 hrs,
Credits 3 cr*

URBG 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multi functional plan to guide development.

*Hours 90 hours including conferences,
Credits 6 cr*

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning*

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

*Hours 45 hrs,
Credits 3 cr*

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

*Hours 45 hrs,
Credits 3 cr*

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,

Credits 3 cr

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,

Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,

Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,

Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,

Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,

Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,

Credits 3 cr

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBG 77500 - Urban Affairs Internship Seminar

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 77600 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 77700 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 77800 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser

Credits 6 cr

URBG 79100 - Grantwriting and Fundraising Practicum

Focus on problem-solving skills used to resolve crucial issues in urban community; program development procedures including program planning, strategizing, implementation, administration and funding. Students work with selected organizational and community concerns as consultants-in-training.

prereq: permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser

Hours 45 hrs,

Credits 3 cr

Urban Planning

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45

Credits 3

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45

Credits 3

URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

Hours 45

Credits 3

URBP 70100 - History and Theory of Urban Planning

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

Hours 45

Credits 3

URBP 70500 - Introduction to the Planning Process

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy.

Hours 45

Credits 3

URBP 71100 - Planning Information

Survey of public and private data bases available to planners focusing on traditional and nontraditional sources. Exploration of utilization and implications of data.

Hours 45

Credits 3

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

Hours 45

Credits 3

URBP 71300 - Planning Methods for Optimization and Decision-making

Introduction to quantitative techniques for optimization and decision-making. Applications of techniques in planning contexts.

Hours 45

Credits 3

URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.

Credits 3

URBP 71900 - Land Use, People and the Environment

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

Hours 45

Credits 3

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

Hours 45

Credits 3

URBP 72100 - Law of Land Use Regulation II

Focus on inclusionary and exclusionary zoning; growth management; aesthetics and historic preservation; transfer of development rights; regional and state planning and development control; and tax policies and land use control.

prereq: URBP 72000

Hours 45 hrs,

Credits 3 cr

URBP 72200 - Land Use Planning Workshop

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

prereq: URBP 71900 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

Hours 45 hrs,

Credits 3 cr

URBP 72400 - Urban Design Workshop

Application of urban design concepts in studio setting to develop design solutions for typical physical planning problems.

prereq: URBP 72300 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

Hours 45 hrs,

Credits 3 cr

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

prereq: URBG 72700 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,
Credits 3 cr*

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

*prereq: permission of the instructor
Hours 45 hrs,
Credits 3 cr*

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

*Hours 45 hrs,
Credits 3 cr*

URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

*Hours 45 hrs,
Credits 3 cr*

URBP 73600 - Energy Planning and Policy Seminar

Introduction to conceptual and operational aspects of plans and policies promoting the efficient use of energy in urban communities. Review of national and global energy markets and appropriate responses in transportation, housing, land use and related areas.

*Hours 45 hrs,
Credits 3 cr*

URBP 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multifunctional plan to guide development.

*Hours 90 including confences
Credits 6*

URBP 73800 - Planning Studio I

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73900 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 73900 - Planning Studio II

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73800 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,
Credits 3 cr*

URBP 78000 - Independent Research

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.*

URBP 78100 - Independent Research

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.*

URBP 78200 - Independent Research

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.*

URBP 78300 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 45 hrs,

Credits 3 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78400 - Independent Study

Supervised study of topics of special interest to advanced students.

Credits 1 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78500 - Independent Study

Supervised study of topics of special interest to advanced students. Students may not take more than 3 credits of Independent Study per semester.

Credits 2 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Cross-listed URBG 78700

Programs of Study

Advanced Certificate

Applied Behavior Analysis - Advanced Certificate

This 15-credit advanced certificate program provides intensive training in Applied Behavior Analysis to professionals working with children, youth, and adults on the autism spectrum as well as to the supervisors and administrators of the programs in which they work. This program is designed to prepare professionals to implement Applied Behavior Analytic intervention for individuals with autism spectrum disorders. In addition, students who complete the Advanced Certificate will have the graduate training necessary to sit for the international Board Certified Behavior Analyst® exam.

Admission Requirements

1. A master's degree in education, psychology, social work, counseling, speech-language pathology, nursing or related field.
2. Completed a graduate level course in autism spectrum disorders. Applicants who have not completed such a course will be conditioned in SPEDE 77100 , Autism Spectrum Disorders, and must complete that course during their first semester in the program.
3. On-site interview will be required.

Advanced Certificate in Applied Behavior Analysis Course of Study

Total Credits: 15 credits

EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

prereq or coreq: SPEDE 77100

Hours 45

Credits 3

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

prereq: EDABA 79500

Hours 45

Credits 3

EDABA 79700 - Applied Behavior Analysis Research Methods and Ethics

This course is an introduction to research methods used in applied behavior analysis. Topics include the development of research questions, measurement of behavior, single-subject experimental design, data collection, and data analysis. In addition, this course covers ethics and professional behavior for applied behavior analysts as they relate to research and practice.

Hours 45

Credits 3

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

Hours 45

Credits 3

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

prereq: EDABA 79500 or EDABA 79800

Hours 45

Credits 3

Progress Standards/Exit Standards

No course grade below B.

Bilingual Education Extension NYS Teacher Certificate - Advanced Certificate

We offer two different advanced certificate programs in bilingual education extension. This six-course, 14-credit program is for teachers with NYS certification.

The program has been designed to prepare individuals to become effective bilingual practitioners with high levels of competence using two languages as mediums of instruction.

Admission Requirements

1. Either a master's degree with an overall GPA of at least 3.5 from an accredited institution acceptable to Hunter College or a bachelor's degree with an overall GPA of at least 2.8 and NYS teacher certification (initial, permanent or professional).

- Early childhood education (birth-grade 2)
- Childhood education (grades 1- 6)
- Common Branches PreK-grade 6
- Middle childhood education (grades 5 - 9)
- Adolescent education (grades 7 - 12)
- Special subjects

- Literacy education
 - Students with disabilities in early childhood, childhood, middle childhood, or adolescent education or special education K-12
 - Teachers of students who are blind or visually impaired, deaf or hard of hearing, or speech and language impaired
2. An on-site writing sample in English and in Spanish or French and an interview conducted in English and in Spanish or French.
3. Two letters of recommendation, including one from a supervisor.

Bilingual Extension NYS Teacher Certification Course of Study

Total Credits: 14 credits

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork
Credits 3 cr*

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100 and CEDF 70900
Hours includes 5 hrs of fieldwork
Credits 3 cr*

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: EDF 70900 or CEDF 70900 and BILED 70100 and EDC 70400 or CEDC 70400
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr*

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

prereq or coreq: BILED 77100

Hours 30

Credits 2

OR

BILED 71200 - Bilingual Literacy-French

This course will be conducted in French and English and will present how to differentiate the instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30

Credits 2

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100

Hours 75 hrs,

Credits 1 cr

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MEd/Childhood Education Grades 1-6 with bilingual extension; for the MEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45

Credits 3

OR

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: EDF 70900 and BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

Exit Standards:

1. An overall GPA of 3.0
2. A grade of at least B in the field experience course BILED 71150.

Bilingual Extension for Pupil Personnel Services

This Advanced Certificate Program is a course of study leading to a Bilingual Extension in Pupil Personnel Services, consistent with regulations of the New York State Education Department. The program is designed for bilingual pupil personnel professionals currently working full time without the bilingual certificate or through nomination and commitment by the district superintendent, building principal, or preschool director to appoint the applicant to a full-time position as a result of participating in and completing the program.

Admission Requirements

1. A master's degree and either permanent or professional certification in:

- Administration and Pupil Personnel Services
- School Counseling
- School Social Work
- School Psychology

OR

A bachelor's degree and provisional certification as a school counselor, social worker, or school psychologist.

2. An undergraduate GPA of at least 2.8 or a master's degree GPA of at least 3.5.
3. An on-site writing sample in English and in Spanish and an interview conducted in English and Spanish with two professors.
4. A recommendation from a supervisor.

Exit Standards

1. An overall GPA of 3.0.
2. A grade of at least B in the field experience course BILED 71150.

Intensive Teacher Institute (ITI) Additional Requirements

In addition, students who wish to receive ITI funding must meet the following criteria:

1. Currently working full time (100%) as bilingual pupil personnel professional (guidance counselor, social worker, or psychologist)

OR

2. A nomination and commitment by the district superintendent, building principal, or preschool director to appoint the applicant to a full-time position in bilingual pupil personnel services as a result of participating in and completing the ITI program.

- Applicants for the Bilingual Education Extension must already possess oral and written language proficiency in English and in the native language of instruction.
- Applicants must be working in either a NYSED-approved bilingual education preschool or in the K–12 grade continuum in a New York State school district.
- Applicants must complete the ITI application in its entirety and provide **all** required documentation.
- Applicants must agree to serve as bilingual pupil personnel professionals for 2 years in the nominating district/school or preschool upon completion of the ITI program.
- Applicants must **not** have received prior NYCDOE scholarships or funding incentives for shortage areas.

Curriculum

Course of Study for Pupil Personnel Services: Bilingual Education Extension (15 credits)

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050

Hours 45 hrs,

Credits 3 cr

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900

Hours includes 5 hrs of fieldwork

Credits 3 cr

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs,

Credits 3 cr

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

prereq: COCO 70000 and COUNS 71700 or COUNM 71600 or COUNR 71600

coreq: COCO 71900

prereq or coreq: COCO 70600

Hours 100

Blind and Visually Impaired: Orientation and Mobility - Advanced Certificate

Blind and Visually Impaired Program Coordinator: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

The 18-credit advanced certificate program in orientation and mobility is designed to prepare rehabilitation teachers who have master's degrees and academy certification and/or teachers of the blind and visually impaired who have New York State certification to serve as orientation and mobility specialists in educational programs for infants, toddlers, children and youths, and adults who are blind and visually impaired, including those with multiples disabilities. The focus is on the development of specialized knowledge and skills through course work and internship experiences in the field of blindness and visual impairment. Graduates of this program will be eligible to obtain national certification from the academy for certification of vision rehabilitation and education professionals as orientation and mobility specialists.

Admissions Standards

1. Undergraduate BA or BS degree from an accredited institution, with a GPA 2.8 or better, plus teacher of the blind and visually impaired teaching certificate.

OR

- Master's degree from an approved college in rehabilitation teaching or teacher of the blind and visually impaired with a GPA of 3.5 or better,
2. Evidence of acceptable written languages skills,
 3. Three letters of recommendation,
 4. Evidence of work, volunteer or personal experience with individuals with visual impairments,
 5. An interview with a special education faculty member.

Progress Standards

1. Students must maintain an overall GPA of at least 3.0 in order to continue the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

NOTE: It is recommended that students with two or more INs take an official leave of absence.

Orientation and Mobility Course of Study

Total Credits: 18 credits

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs,

Credits 3 cr

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

Hours includes 10 hrs field experience, 45 hrs,

Credits 3 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

prereq or coreq: SPED 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

prereq: G SPED 76500

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq: G SPEDE 77000 and G SPED 79000 and G SPED 79100

Hours 30 hrs seminar, plus conferences plus 340 hours of internship,

Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment of the systems of mobility used by persons who are visually impaired and develops competencies in teaching indoor travel techniques used by persons with visual impairments. Two week summer course.

prereq: SPED 74700

Credits 2 cr

Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course demonstrates practical application of Orientation and Mobility instructional techniques as they are applied in outdoor settings under blindfold and with low vision simulators. Content related to instructional strategies will be provided during the in-class seminar. Two week summer course.

prereq: G SPED 76800 and G SPED 76500

Credits 2

Two week summer course.

Exit Standards

1. Students must attain an overall GPA at least 3.0 to be recommended for the certificate.
2. Students must demonstrate consistently satisfactory written English in all coursework.

Blind and Visually Impaired: Teacher of the Blind and Visually Impaired - Advanced Certificate

Blind and Visually Impaired Program Coordinator: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

The 22-credit advanced certificate program in teacher of the blind and visually impaired is designed to prepare special education teachers who have master's degrees and New York State Certification in special education to serve as teachers of the blind and visually impaired in educational programs for infants, toddlers, children and youths, including those with multiple disabilities. The focus is on the development of specialized knowledge and skills through course work and practicum experiences in the field of blindness and visual impairment. Graduates of this program will be eligible for New York State Certification as teacher of the blind and visually impaired.

Admission Requirements

1. Teaching certificate in New York State: initial, professional or permanent certification in any area
2. Master's degree in education or a related services field (speech and language pathology, physical therapy, nursing) with a GPA of 3.5 or better.
3. Completion of SPED 70000 (Issues and Practices in Educationg Students with Disabilities) or the equivalent with a grade of B or better for all applicants without a master's degree in Special Education
4. Evidence of acceptable writing skills.
5. Three letters of recommendation.
6. Evidence of work, volunteer, or personal experience with individuals with visual impairments.
7. An interview with a special education faculty member.

Progress Standards

1. Students must maintain an overall GPA of at least 3.0 in order to continue the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence to complete their INs.

Teacher of the Blind and Visually Impaired Course of Study

Total Credits: 22 credits

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100

Hours Includes 15 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq or coreq: SPED 74300 and SPED 74200

Hours 45 hrs,

Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300

Hours 15 hrs,

Credits 1 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment

Credits 1 cr

And one of the following

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all coursework.
3. Students must pass the School of Education technology assessment.

Gifted Education Extension - Advanced Certificate

Gifted Education Program Coordinator:

909 West Building; (212) 650-3599

This is a 12-credit course of study for students who already have NYS teacher certification or who are in the process of completing such certification. It is designed to provide educators with a solid background of expertise in gifted education, enabling them to work effectively with exceptionally capable learners and to take leadership roles in the field. Achievement of specialized expertise in gifted education will be recognized by a post-master's degree certificate.

Admission Requirements

1. NYS teacher certification and at least 15 credits of graduate study in education for a specific school population, with at least one course in human development (including child or adolescent development).
2. A GPA of at least 3.5 in graduate courses.
3. Two letters of recommendation from appropriate professional or academic sources.

Extension in Gifted Education Course of Study

Total Credits: 12 credits

SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed (Cross-listed with CEDF 75300.)

Hours 45 hrs includes 10 hrs field experience

Credits 3 cr

SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

Cross-listed (Cross-listed with CEDF 75400)

prereq or coreq: SPED 75300

Hours Includes 10 hrs field experience

Credits 3

SPED 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed (Cross-listed with CEDC 755.)

prereq or coreq: SPED 75300 and SPED 75400

Hours Includes 20 hrs field experience

SPED 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600

prereq or coreq: SPED 75500 or CEDC 75500

Hours Includes 10 hrs field experience

Progress Standards/Exit Standards

No course grade below B.

Nursing Education Advanced Certificate

Specialization Coordinator: Joan Arnold, jar0004@hunter.cuny.edu

This specialization is for registered nurses who hold a master's degree in nursing from an accredited school preparing nurses for beginning positions as educators in both academic settings and in health care agencies. The 13 credit program consists of four courses, one of which is a 4 credit practicum including 135 hours of preceptored practice teaching. Graduates are eligible for to sit for certification as a Nursing Educator by the National League for Nursing.

Specialization Courses: 13 credits

NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

NURS 73000 - Instructional Design in Nursing Education

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

prereq: NURS 70000 or equivalent course

NURS 75200 - Advanced Concepts in Nursing Education

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

prereq: NURS 73000

NURS 73100 - Practicum in Nursing Education

Preceptored-supervised practicum emphasizing utilization of practice-related role of nurse educator and application of theoretical formulations in educational settings in nursing.

prereq: NURS 730

Hours 15 hrs seminar, 135 hrs practice,

Credits 4 cr

Nursing: Psychiatric Nurse Practitioner Advanced Certificate

Specialization Coordinators: Anna Acee, Kunsook Bernstein, aacee@hunter.cuny.edu, kbernst@hunter.cuny.edu

This specialization for registered nurses who hold a master's degree in nursing from an accredited school, prepares nurses to assume an advanced practice nursing role in a variety of

community as well as institutional settings, in private practice, and in such fields as liaison nursing and hospice care. Faculty and preceptor supervised clinical experiences of a total of 600 clinical hours are in hospitals, private practice office, OPD, clinics, and community settings. Graduates of the program are eligible for certification as psychiatric/mental health nurse practitioners by New York State and meet educational requirements for application to the national certification examination by the American Nurses Credentialing Center.

Advanced Practice Core: 9 credits

(May be waived)

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900

Hours 45 hrs practicum,

Credits 3 cr

Advanced Practicce Specialization Courses: 15 credits

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000

prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,

Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742

prereq or coreq: NURS 704

Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300

Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,

Credits 5 cr

Highly Recommended Elective: 3 credits

NURS 71900 - Psychopharmacology

Course provides evidence-based guidelines of pharmacology in treating mentally ill individuals. Neuro-biology and psychopharmacology theories, current clinical practice of pharmacology for major psychiatric diagnoses, and practical clinical application of relevant pharmacotherapy will be explored.

Post-Graduate Certificate Programs in Social Work

The Silberman School of Social Work at Hunter College offers post-graduate certificate programs designed for MSW's seeking to further their education in an area of interest to them, who wish to remain current in the field or who want to become certified within a specific area of study. Generally these programs are not part of any academic degree-granting program and do not carry academic credit. For detailed information see the program descriptions at www.hunter.cuny.edu/socwork/programs/post-masters-programs.html. Each program has separate criteria for admission.

In addition to these programs the School has launched **Center for Advanced Clinical Education**. This program is home base for a variety of classes, conferences, and other special events that address specific issues of current focus in clinical social work. The specific offerings change regularly and are responsive to both individual practitioners and agency training needs. Teleconferencing is available for distance as well as classroom learning. Upcoming offerings will be posted on the Silberman School of Social Work at Hunter College website.

Some classes within this Center satisfy the additional clinical education credit needs of those LMSW social workers who are seeking eligibility for the LCSW. These classes will be identified as such on the website, along with specific contact information.

Advanced Clinical Social Work: Individual and Family Treatment

This certificate program is designed to meet the needs of LMSWs and LCSWs who want to deepen their clinical practice knowledge for work in a variety of social work settings. The Post Master's Certificate Program in Advanced Clinical Practice is a one year program intended to provide continuing education to clinical practitioners working in

multi-cultural urban settings. Collaboratively designed by social work educator-clinicians based in the university and the community, it reflects a commitment to the shared responsibility of the academic and practice sectors of the social work profession for continuing education.

It is designed to deepen skills for clinical social work practice with individuals and families through focusing on the integration of theory and practice. Course content includes assessment and diagnosis, treatment approaches, and trauma interventions through a developmental lens with an emphasis on the role of social-cultural factors. An integrative case seminar takes place during both semesters and includes group discussion, role play, observation and application of treatment strategies.

All courses are taught by instructors experienced in agency-based social work. This course takes place on Thursday evenings from 6 to 9 pm. For further information or application, please call 212-396-7610.

Social Work Administration

The Post Master's Certificate Program in Social Work Administration is given in conjunction with the Harold Weissman Center for the Study of Social Administration. This program was developed in response to a growing interest in raising the standards of administrative practice in the social welfare field and reflects a belief that management is rooted in the values and principles of social work practice. The program includes course work on supervision, strategic planning, non-profit financial management, program evaluation, policy analysis, fundraising and grant writing. All courses involve a practice component, and all faculty members are practicing managers.

For further information or application, please call 212-396-7588.

School Building Leader/School District Leader - Advanced Certificate

Program Coordinator:

Marcia Knoll; 1025 West Building; (212) 772-4761; mknoll@hunter.cuny.edu

Hunter College offers qualified candidates a program in the administration and supervision of nursery, Pre-K, elementary, and secondary schools. The program leads to an advanced certificate granted by Hunter College. Students who complete the program qualify for New York State certification as school building leader (SBL) and school district leader (SDL). Leadership experiences of 25-35 hours, which provide field applications of course knowledge, skills and dispositions, are required in each course in the program. Students must also pass the required NY State exams to be certified in SBL and SDL.

All students must meet with a faculty member for advisement prior to registration each semester. All courses must be completed in five years.

Admission Requirements

1. Completion of an approved master's degree with a minimum average of B (3.0).
2. NYS certification as a teacher and/or pupil personnel service provider within grades N-12 is required.

3. A minimum of three years of approved teaching and/or school service within grades N-12 under regular appointment (or its equivalent for counselors, social workers, and school psychologists) or two years approved teaching and/or school service and at least one year of relevant management/leadership experience.
4. Submission of two letters of recommendation, including a letter of support from the candidate's immediate site supervisor
5. Promise of success in educational supervision and administration as determined by the completion of a comprehensive interview process that includes both oral and written activities.

Total Credits 32

ADSUP 70400 - Leadership to Enhance Human Resources

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 71500 - Supervision for the Improvement of Instruction

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 71600 - Leadership Strategies for School Reform

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 71700 - Seminar in Evaluating and Applying Educational Research

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 72100 - Legal Issues, Finance, Facilities and Operations

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract
Credits 4

ADSUP 74100 - School District Leadership: Problems and Issues

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

Exit Requirements

1. The culminating experiences of the program consist of an oral exit interview and a program portfolio review of selected leadership experiences and reflections on the learning process.
2. Students must pass the School of Education technology assessment.
3. Passing both parts of the NYSTCE School District Leader exam.

Master of Arts - MA / Advanced Certificate

Adolescent Biology - MA / Advanced Certificate

Education Adviser

Stephen Demeo
(212) 772-4776
908 West
sdemeo@hunter.cuny.edu

Biology Department Adviser (master's degree only)

Patricia Rockwell
(212) 650-3234
821 North
rockwell@genectr.hunter.cuny.edu

These programs are designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative GPA of 2.8.
2. A minimum of 21 credits in biology to include a year of introductory biology with laboratory and a semester of organic chemistry.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one course in calculus.
4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in biology and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in introductory biology with laboratory and a semester of organic chemistry.
2. A general education core in the liberal arts and sciences to include the following (in addition to biology): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one course in calculus.
3. Two professional references to be included with the application for admission.
4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in biology.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop series for teachers before being permitted to register for any further courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which

may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent Biology Course of Study

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the Biology courses listed below. (For other biology courses, go to Biological Sciences)

22-24 credits: Advanced Certificate program for students who matriculated before Fall 2011.

37-41 credits: Master's Degree program for students who matriculated before Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

41-44 credits: Master's Degree program for students who matriculated on or after Fall 2011.

Education Courses for Advanced Certificate and Master's Degree Programs

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

coreq:

Hours 30 hrs, plus lab,

Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300

prereq or coreq: SEDF 70500

Hours 45 plus 36 hrs fieldwork

Credits 3

Take either

SEDC 75401 - Student Teaching in Biology, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400, SEDF 70600

prereq or coreq: SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

-or-

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 774.11 must also take SEDC 774.21.

plus

SEDC 77421 - Practicum in Biology, Grades 10-12

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77421 must also take SEDC 77411.

Biological Science Courses for Master's Degree Programs

BIOL 61055 - Laboratory Workshop in Biology Education

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

prereq: a graduate course in biology or permission of instructor

Hours 120 hrs,

Credits 3 cr

BIOL 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: BIOL 61055 or permission of instructor

BIOL 66000 - Challenging Concepts in the Biological Sciences

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor

Hours 4 hrs,

Credits 4 cr

Category A:

For students who have completed molecular biology and molecular genetics at the undergraduate level. Choose one:

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

Category B:

For students who have not taken either molecular biology or molecular genetics at the undergraduate level. Students must take both courses below:

BIOL 60000 - Molecular Biology for Science Teachers

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.
Fall only

BIOL 60210 - Molecular Genetics for Science Teachers

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

prereq: BIOL 60000 or equivalent and permission of instructor
Spring only

Culminating Experiences

- Professional teaching portfolio

Culminating Project in Biology:

Students will be expected either to prepare a research proposal or to conduct a research project while enrolled in the following, which serves as the capstone course in biology.

BIOL 66000 - Challenging Concepts in the Biological Sciences

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor

Hours 4 hrs,

Credits 4 cr

Exit Standards

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students will also be expected to prepare a research proposal or to conduct a research project while enrolled in BIOL 66000 - Challenging Concepts in the Biological Sciences, which serves as the capstone course in biology.

Students must pass the School of Education technology assessment.

Adolescent Chemistry - MA / Advanced Certificate

Education Adviser Stephen Demeo; (212) 772-4776; sdemeo@hunter.cuny.edu

Chemistry Department Adviser (Master's Degree only) Pamela Mills; (212) 772-5331; pam.mills@hunter.cuny.edu

These programs are designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. A minimum of 29 credits in science and mathematics to include two years of chemistry (general and organic), one year of introductory physics with laboratory, and one semester of calculus.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.
4. Two professional references to be included with the application for admission.
5. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in chemistry and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in introductory chemistry with laboratory, one year of introductory physics with laboratory, and one semester of calculus.
2. A general education core in the liberal arts and sciences to include the following (in addition to chemistry): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or better satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.
3. Two professional references to be included with the application for admission.
4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in chemistry.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent Chemistry Course of Study

Education Courses

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the Chemistry courses listed below.

22-24 credits: Advanced Certificate program for students who matriculated before Fall 2011.

37-41 credits: Master's Degree program for students who matriculated before Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

41-44 credits: Master's Degree program for students who matriculated on or after Fall 2011.

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

coreq:

Hours 30 hrs, plus lab,

Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum

in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300

prereq or coreq: SEDF 70500

Hours 45 plus 36 hrs fieldwork

Credits 3

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Take Either

SEDC 75402 - Student Teaching in Chemistry, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

Or

SEDC 77412 - Practicum in Chemistry, Grades 7–9

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77412 must also take SEDC 77422.

Plus One of the Following

SEDC 77422 - Practicum in Chemistry, Grades 10–12

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77422 must also take SEDC 77412.

Chemistry Courses

For Master's Degree Program Only (For other chemistry courses go to, Chemistry Department)

Minimum of 15 credits

CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: permission of instructor

Credits 3

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

Hours 4 hrs,

Credits 4 cr

- Two electives chosen from 600- or 700-level courses in chemistry or biochemistry at least 5 cr.

for students who have not taken physical chemistry, one of the electives must be:

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent

*Hours 4 hrs,
Credits 4 cr
Fall*

Culminating Experiences

- Professional teaching portfolio

Culminating Project in Chemistry:

See Exit Standards

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*Hours 4 hrs,
Credits 4 cr*

Exit Standards

An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in CHEM 66000 - Challenging Concepts in Chemistry, which serves as the capstone course in chemistry.

Students must pass the School of Education technology assessment.

Adolescent Earth Science - MA / Advanced Certificate

Education Adviser Stephen Demeo; (212) 772-4776; 908 West Building; sdemeo@hunter.cuny.edu

Geography Department General Advising Jochen Albrecht; 1030 North Building; (212) 772-5221; geog@geo.hunter.cuny.edu

This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. A major of at least 30 credits in the liberal arts or sciences.
3. At least 21 credits in geology, physical geography, earth science, or environmental science, including geographic techniques.
4. A general education core in the liberal arts and sciences to include: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets this requirement).
5. Two professional references to be included with the application for matriculation.
6. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in earth science and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in introductory earth science with laboratory, one of introductory physics with laboratory, and one semester of calculus.
2. A general education core in the liberal arts and sciences to include the following (in addition to earth science): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or better satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.
3. Two professional references to be included with the application for admission.
4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in earth science.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent Earth Science Course of Study

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the Geography courses listed below.

22-24 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

38-41 credits: Master's Degree program for students who matriculated on or after Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

42-44 credits: Master's Degree program for students who matriculated on or after Fall 2011.

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

coreq:

Hours 30 hrs, plus lab,

Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300

prereq or coreq: SEDF 70500

Hours 45 plus 36 hrs fieldwork

Credits 3

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Take Either

SEDC 75404 - Student Teaching in Earth Science, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

Or

SEDC 77414 - Practicum in Earth Science, Grades 7–9

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77414** must also take **SEDC 77424**.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2

Plus

SEDC 77424 - Practicum in Earth Science, Grades 10–12

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77424** must also take SEDC 77414.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Earth Science Courses

For Master's Degree Programs Only (For other earth science courses go to, Geography Department)

Minimum of 16 credits

PGEOG 70563 - Earth Science Today

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth's lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

GTECH 71000 - Introduction to GIS

Thorough introduction to geographic information systems with an emphasis on spatial data handling and project management.

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

PGEOG 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

Students lacking a significant background in geology or earth science may be required to take the following course as their elective:

PGEOG 70564 - Introducing Earth Science at the Museum of Natural History

This course is part of the MA Teacher Education Program in Earth Sciences.

Culminating Experiences

- Professional teaching portfolio

Culminating Project in Earth Science:

Students will be expected either to prepare a research proposal or to conduct a research project while enrolled in the following, which serves as the capstone course in earth science.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

Exit Standards

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in PGEOG 660, which serves as the capstone course in earth science.

Students must pass the School of Education technology assessment.

Adolescent English - MA / Advanced Certificate

Education Adviser Melissa Schieble; (212) 772-4044; 902 West Building; mschiebl@hunter.cuny.edu

English Department Adviser (Master's Degree only) Angela Reyes; (212) 772-5076; 1248 West Building; gradenglished@hunter.cuny.edu

These programs are designed to serve individuals who do not have initial, professional, or permanent certification in the teaching of English. Provisionally certified teachers should apply for the MA in English .

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. A minimum of 21 credits of advanced courses in British, American or World Literature written in English (no more than 3 credits of the latter).
3. A general education core in the liberal arts and sciences to include the following (in addition to English major): 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Students must submit a writing sample of about 10 pages (preferably an undergraduate research paper of literary criticism).
5. Two references (preferably including at least one academic reference) to be included with the application for matriculation.
6. A personal statement to be completed as part of the application for matriculation.

Advanced Certificate

1. An undergraduate major of at least 30 credits in English, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.
2. A general education core in the liberal arts and sciences to include the following (in addition to English): 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or better fulfills this requirement), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).
3. Two professional references to be included with the application for admission.
4. A personal statement to be completed as part of the application for admission.
5. In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in English.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

Please note: Nonmatriculated students should apply for matriculation at the beginning of the semester in

which they will complete 12 credits in the program.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent English Course of Study

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the English courses listed below.

22-24 credits: Advanced Certificate program for students who matriculated before Fall 2011.

46-48 credits: Master's Degree program for students who matriculated before Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

50-51 credits: Master's Degree program for students who matriculated on or after Fall 2011.

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

coreq:

Hours 30 hrs, plus lab,

Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
Credits 1 cr*

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

*prereq: SEDC 71100
prereq or coreq: SEDF 70500
Hours 45 plus 36 hrs fieldwork
Credits 3*

Take Either

SEDC 75100 - Student Teaching in English, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72100, SEDF 706
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr*

Or

SEDC 77110 - Practicum in English, Grades 7–9

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 771.10** must also take **SEDC 77120**.

*prereq: SEDC 72100, SEDF 70600
Hours 30 hrs plus conferences,
Credits 2 cr*

Plus

SEDC 77120 - Practicum in English, Grades 10–12

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77120** must also take SEDC 77110 .

prereq: SEDC 72100, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

English Department Courses

(see English Programs and Courses, for course descriptions)

For Master's Degree Programs

Minimum 24 credits

- **Literature** Eighteen credits in literature courses given by the English department, including 3 credits in Shakespeare, 3 credits in literature with a multicultural/minority emphasis, 6 credits in American literature, and 6 credits in electives.

ENGL 60700 - English Linguistics

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

Hours 45 hrs,

Credits 3 cr

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

Hours 45 hrs,

Credits 3 cr

Exit Criteria: Culminating Experiences

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the

program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students must also pass a written comprehensive examination in British and American literature.

Students must pass the School of Education technology assessment.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent Italian Course of Study

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the Italian courses listed below.

22-24 credits: Advanced Certificate program for students who matriculated before Fall 2011.

43-45 credits: Master's Degree program for students who matriculated before Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

47-48 credits: Master's Degree program for students who matriculated on or after Fall 2011.

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

coreq:

Hours 30 hrs, plus lab,

Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200

prereq or coreq: SEDF 70500

Hours 45 plus 36 hrs fieldwork
Credits 3

Take Either

SEDC 75202 - Student Teaching in Italian, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200, SEDF 70600
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

Or

SEDC 77212 - Practicum in Italian, Grades 7–9

Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77212 must also take SEDC 77222 .

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

Plus

SEDC 77222 - Practicum in Italian, Grades 10–12

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77222 must also take SEDC 77212.

prereq: SEDC 72200, SEDF 70600
Hours 30 hrs plus conferences,
Credits 2 cr

Romance Languages (Italian) Courses

For Master's Degree Program Only

21 Credits

Graduate level Italian literature. See Romance Languages

Exit Criteria: Culminating Experiences

Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection.

Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation). See the School of Education Graduate Handbook in Adolescent Education, available in the Office of Educational Services, Room 1000 West Building, for specific guidelines.

See the Romance Languages section of the catalog for information about the comprehensive examination in Italian.

Students must pass the School of Education technology assessment.

Adolescent Latin - MA / Advanced Certificate

Education Adviser Carla Asher; (212) 772-4621; 1000 West Building; carla.asher@hunter.cuny.edu

Classical and Oriental Studies Department Adviser Larry Kowerski; (212) 772-5007; 1435 West Building; lkowerski@hunter.cuny.edu

This program is offered with the Classical and Oriental Studies Department. The applicant must be admitted by both the School of Education and the Classical and Oriental Studies Department.

The MA program in the teaching of Latin is designed for students who have majored in Latin on the undergraduate level and want to pursue a teaching career in adolescent education, and for teachers certified in another area who wish to gain certification in Latin. This program is not for individuals with initial or provisional certification in Latin.

Admission Criteria

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. An index of at least 3.0 in an undergraduate major or the equivalent in Latin or classics. Students with 18 credits in Latin may be admitted provisionally if they are certified to teach a language other than Latin.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 3 credits in the arts, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references to be included with the application for matriculation.
5. A personal statement to be completed as part of the application for matriculation.

Advanced Certificate

1. Minimum of 30 credits in Latin at the undergraduate and/or graduate level, and a master's degree in Classics, Latin, or Ancient Greek with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.
2. A general education core in the liberal arts and sciences to include the following (in addition to Latin): 6 credits in English, 3 credits in the arts, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
3. Two professional references to be included with the application for matriculation.
4. A personal statement to be completed as part of the application for matriculation.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC, SEDF, or LATED course work will not be allowed to continue in the program.
3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop series before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Latin Course of Study

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and Latin courses listed below.

25-26 credits for Advanced Certificate Program students.

46-47 credits for Masters of Education students who matriculated before Fall 2011.

49-50 credits for Masters of Education students who matriculated on or after Fall 2011.

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

LATED 71200 - Methods 1: Classroom Organization, Management, and Assessment of Instruction in Latin

Familiarizes prospective teachers of grades 7–12 with classroom organization patterns, rules and routines appropriate to the teaching of Latin. Close work with the design and evaluation of classroom lessons and materials in the context of national and state standards will be emphasized.

prereq: completion of 18 credits of graduate Latin courses

prereq or coreq: SEDF 70400

Hours 45 hrs, including conferences,

Credits 3

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

LATED 71300 - Methods 2: Teaching for Diverse Learners in Latin

Familiarizes prospective teachers of grades 7–12 with pedagogical approaches for teaching a diverse body of learners, in light of national and state standards, in part by utilizing aspects of diversity in the ancient world. Innovative uses of technology, development of instructional units, individualizing for students with special needs, exploring aspects for a student-centered classroom will be emphasized.

prereq: LATED 71200

prereq or coreq: SEDF 70500

Hours 30 hrs plus 36 hrs fieldwork,

Credits 2

Take Either

LATED 73100 - Student Teaching in Latin, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program.

prereq: LATED 71300

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

Or

LATED 74110 - Practicum in Latin, Grades 7-9

Supervised practicum in the teaching of Latin in grades 7–9. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take **LATED 74110** must also take **LATED 74120**.

prereq: LATED 71300

Hours 30 hrs plus conferences,

Credits 2 cr

plus

LATED 74120 - Practicum in Latin, Grades 10-12

Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take **LATED 74120** must also take **LATED 74110**.

prereq: LATED 71300

Hours 30 hrs plus conferences,

Credits 2 cr

Latin Literature and Composition and Classical Culture Courses (24 credits)

Each course is 45 hours, including conferences, and 3 credits unless otherwise noted.

For Master's Degree Programs Only

Latin 18 credits

LAT 72700 - Speaking and Writing Latin

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.

LAT 71000 - Topics in Latin literature.

May be taken three times for credit.

A. At least 3 credits from the following courses:

LAT 71100 - Literature of the Republic

Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

LAT 71200 - Literature of the Augustan Age

Selections from poetry and prose authors of the Augustan period.

LAT 71300 - Literature of the Empire

Selections from poetry and prose authors of the Imperial period.

B. At least 3 credits from the following courses:

LAT 70500 - Caesar

Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70600 - Cicero

Selections from the orations, philosophical treatises, and letters of Cicero.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70700 - Vergil

Selections from the Aeneid, Eclogues, and Georgics.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 72500 - Ovid

Selections from the *Metamorphoses* and *Amores*.

LAT 72600 - Horace and Catullus

Selections.

6 additional credits from the courses in section A and/or B or LAT 708 or LAT 710 (LAT 708 and LAT 710 may each be taken up to 3 times total).

Classical Culture 6 credits

CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

Hours 45 hrs, including conferences,

Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

Hours 45 hrs, including conferences,

Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70700 - A Survey of Classical Literature in Translation

CLA 70600 - Supervised Reading

Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

Culminating Experiences

Comprehensive examination in Latin and Classical Culture: Classics Division

See Exit Criteria

Note (s)

Students who enter with initial or provisional certification in adolescent education in a language other than English will be required to take LATED 712, LATED 713, and either LATED 731 or two of the other student teaching/practicum courses that cover grades 7–9 and 10–12 (9–11 credits). Based on a transcript review by the School of Education, such students may be required to complete additional courses in the pedagogical sequence as well. The minimum number of credits for the degree for students who enter with certification in adolescent education is 39 credits. Students may be exempted from up to 6 credits based on prior equivalent course work.

Exit Criteria: Culminating Experiences

An overall GPA of 3.0.

At the completion of all course work, candidates are required to take comprehensive examinations in Latin translation, Latin grammar, and classical culture. See the Classics section of this catalog for further information about these examinations.

Students will also develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Students must pass the School of Education technology assessment.

Check with the Classical and Oriental Studies Department adviser for information about the Comprehensive Examination in Latin and Classical Culture.

Adolescent Mathematics - MA / Advanced Certificate

Program Coordinator Patrick Burke

1138 West Building; (212) 772-4728;

patrick.burke@hunter.cuny.edu

The master's degree and advanced certificate degree programs are designed to serve individuals who do not have initial, professional, or permanent certification in the teaching of mathematics.

Applicants with permanent or professional certification in mathematics should apply to the Professional Certificate master's degree program.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. 24 or more credits in mathematics approved by the graduate mathematics adviser, including a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra. Applicants may be admitted on the condition that they complete up to 12 credits of additional course work in mathematics. A transcript review will determine which additional credits, if any, are needed.
3. A grade point average of at least 2.7 in mathematics courses.
4. A general education core in the liberal arts and sciences to include the following in addition to math: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 6 credits in science/technology, 3 credits in the arts.
5. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in mathematics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra.
2. A general education core in the liberal arts and sciences to include the following (in addition to mathematics): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or higher satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in science and technology.
3. Two professional references to be included with the application for admission.
4. A personal statement to be completed as part of the application for admission.
In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in mathematics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent Mathematics Course of Study

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the Mathematics courses listed below.

22-24 credits: Advanced Certificate program for students who matriculated before Fall 2011.

37-39 credits: Master's Degree program for students who matriculated before Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

41-42 credits: Master's Degree program for students who matriculated on or after Fall 2011.

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3*

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they

explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300

prereq or coreq: SEDF 70500

plus

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310 .

prereq: SEDC 723, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Mathematics and Statistics Course of Study

Master's Degree Only (For other courses go to Mathematics and Statistics Department)

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of

non-Euclidean hyperbolic geometry.

prereq: MATH 63000

Hours 3

Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics.

Hours 3

Credits 3

STAT 61200 - Discrete Probability

Hours 3

Credits 3

Or

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

Note:

1. *Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser.*
2. *Although students are required to take EITHER STAT 612 or STAT 714, students are encouraged to take both courses.*

Culminating Experiences

Comprehensive examination in two parts: mathematics and pedagogy:

See Exit Standards

Mathematics and Statistics department

Professional teaching portfolio

School of Education

Exit Standards

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students must also pass a comprehensive examination in mathematics. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the mathematics/statistics chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the students can take the exam a third and final time.

Students must pass the School of Education technology assessment.

Adolescent Physics - MA / Advanced Certificate

Education Adviser Stephen Demeo; (212) 772-4776; 908 West Building; sdemeo@hunter.cuny.edu

Physics and Astronomy Department Adviser (Master's Degree Only) Rodney Varley; (212) 772-5252; 1216 North Building; rvarley@hunter.cuny.edu

This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. A major in physics.
3. A general education core in the liberal arts and sciences to include the following (in addition to a physics major): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references to be included with the application for admission.
5. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in physics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.

2. A general education core in the liberal arts and sciences to include the following (in addition to physics): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or higher satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in physics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent Physics Course of Study

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the Physics courses listed below.

22-24 credits: Advanced Certificate program for students who matriculated before Fall 2011.

38-40 credits: Master's Degree program for students who matriculated before Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

42-43 credits: Master's Degree program for students who matriculated on or after Fall 2011.

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45*

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300

prereq or coreq: SEDF 70500

Hours 45 plus 36 hrs fieldwork

Credits 3

Take either

SEDC 75403 - Student Teaching in Physics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

-or-

SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77424.

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2

plus

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413 .

prereq: SEDC 72400, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Physics Courses*

For Master's Degree Programs Only

16 Credits

PHYS 63000 - Science and Society

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

prereq: one graduate-level physics course or permission of instructor

Hours 45

Credits 3

PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

prereq: PHYS 63000 and two elective courses in physics or permission of instructor

Hours 60

Credits 4

Plus three electives (9 cr)

PHYS 60500 - Mathematical Physics

Introduction to basic mathematical techniques used in physics.

Hours 45

Credits 3

PHYS 61500 - Electromagnetic Theory

Electrostatics; electromagnetics; Maxwell's equations with application to waves; waves in guides; radiation.

Hours 45

Credits 3

PHYS 62500 - Introduction to Quantum Mechanics

Fundamental ideas in the study of atomic sized systems.

Hours 45

Credits 3

PHYS 64500 - Solid State Physics

Introduction to basic theory and techniques in study of matter on solid state.

Hours 45

Credits 3

PHYS 68500 - Numerical Methods I

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

Cross-listed (Cross-listed with MATH 68500.)

prereq: MATH 15500

Hours 45

Credits 3

** Note: 700-level physics courses offered at the Graduate Center can be substituted for 600-level courses with permission of the graduate adviser.*

Culminating Experiences

Culminating Project in Physics: See Exit Standards

Physics Department

Professional teaching portfolio

School of Education

Exit Standards

An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will be implemented to assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in PHYS 660, which serves as the capstone course in physics.

Students must pass the School of Education technology assessment.

Adolescent Social Studies - MA / Advanced Certificate

Education Adviser Terrie Epstein; (212) 772-4675; 1108 West Building; tepstein@hunter.cuny.edu

History Department Adviser (Master's Degree only) Jonathan Rosenberg; (212) 772-5546; 1519A West Building; jrosen8637@aol.com

This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of social studies.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. A major of at least 30 credits in one of the areas of social studies (history, political science, geography, or economics) with a GPA of 3.0, including at least 12 credits in history, 3 credits in geography, 3 credits in political science, and 3 credits in economics. The course work in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references to be included with the application for admission.
5. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in one of the areas of social studies, and a master's degree in the discipline (history, political science, geography, or economics) with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include 21 credits of history, 3 credits in geography, 3 credits in political science and 3 credits in economics. The coursework in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.
 2. A general education core in the liberal arts and sciences to include the following (in addition to social studies): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school fulfills this requirement), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).
 3. Two professional references to be included with the application for admission.
 4. A personal statement to be completed as part of the application for admission
- In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in social studies.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course

work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent Social Studies Course of Study

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the history and geography courses listed below.

22-24 credits: Advanced Certificate program for students who matriculated before Fall 2011.

40-42 credits: Master's Degree credits for students who matriculated before Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

44-45 credits: Master's Degree credits for students who matriculated on or after Fall 2011.

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students

with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

coreq:

Hours 30 hrs, plus lab,

Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71500

prereq or coreq: SEDF 70500

Hours 45 plus 36 hrs fieldwork

Credits 3

Take either

SEDC 75500 - Student Teaching in Social Studies, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72500, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

-or-

SEDC 77510 - Practicum in Social Studies, Grades 7–9

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

prereq: SEDC 72500, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

plus

SEDC 77520 - Practicum in Social Studies, Grades 10–12

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

prereq: SEDC 72500, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

History And Geography Courses

For Master's Degree Programs Only

18 Credits

History and Geography Courses

History 15 credits in history including 3 credits in each of the following areas: U.S. history, European history, world or non-Western history. Students who have completed 6 credits in any one of these areas at the undergraduate level will have fulfilled this requirement for that particular area, but will still have to complete at least 15 credits in graduate history courses. Within the 15 credits required in history, at least 3 credits should focus on gender in history and 3 credits should focus on an analysis of diversity in the U.S.

Plus 3 Credits (One Course) from the Following:

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70500 - Cultural and Social Geography

Review of recent work in cultural and social geography; emphasis on literature, critiques.

prereq: GEOG 34700 and 34100 or permission of instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70600 - Latin Americanist Geography

Major paradigms, theories and methodologies in geographic research on Latin America including historical, cultural, social, economic, urban, physical, and environmental geography.

*Hours 45 hrs including conference,
Credits 3 cr*

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70900 - Geography of Selected World Regions

Intensive examination of physical and social geography of specific world regions. (Each semester one or two regions will be covered.)

*prereq: permission of the graduate adviser
Hours 45 hrs including conference
Credits 3 cr*

Field courses may be offered during intersession periods. GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 71200 - Geography of Sustainable Development in Developing Countries

Analysis of factors that influence sustainable development, e.g., available resources, environment, population, food production, water supply in developing countries.

*prereq: graduate standing and one course focusing on development of a developing region, or permission of instructor
Hours 45 hrs including conference,
Credits 3 cr*

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74100 - Population Geography

Theoretical and empirical analyses of spatial distribution of population. Particular emphasis is on processes and impacts of migration, residential mobility, and immigration.

*Hours 45 hrs including conference,
Credits 3 cr*

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74200 - International Migration and Ethnicity

Asynchronous online seminar. Examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analyses of ethnic and racial minorities in the United States.

Hours 45 hrs including conference,

Credits 3 cr

GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

Culminating Experiences

Comprehensive examination in history: History department (see Exit Standards)

Professional teaching portfolio: School of Education

Exit Standards

An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students must also pass a written comprehensive examination in history. These examinations are offered twice each year, in February and September. A student who fails the examination twice is dropped from the program but may appeal in writing to the Graduate Committee, Department of History, to take the examination a third time.

Students must pass the School of Education technology assessment.

Adolescent Spanish - MA / Advanced Certificate

Education Advisor Jenny Castillo; (212) 772-4614; 905 West Building; jmcastil@hunter.cuny.edu

Romance Languages Department Adviser, Spanish (Master's Degree only) Magdalena Perkowska; (212) 772-5132; 1319 West Building; mperkows@hunter.cuny.edu

and/or

Rolando Perez; (212) 772-5126; 1349A West Building; rperez@hunter.cuny.edu

This program is designed to serve individuals who do not have initial or provisional certification in the teaching of Spanish.

Admission Criteria

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8, or better, and a major in Spanish with a GPA of 3.0, with a minimum of 18 credits in upper-level Spanish literature (not to include courses in civilization/culture, linguistics or advanced language).

Or

2. Applicants who do not have a Spanish major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) or at least 30 credits may take a Spanish literature exam designed and administered by the Department of Romance Languages. Candidates must achieve a passing score on the Department's test of Spanish literature, which will be graded by the Department. They must also achieve a minimum grade of Advanced Low on the ACTFL Writing Proficiency Test.

Plus (for all applicants)

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. An essay to be completed as part of the application for admission.

6. Oral proficiency at the Advanced Low level on the American Council on the Teaching of Foreign Language (ACTFL) Advanced Level Check Oral Proficiency Interview (OPI).

Advanced Certificate

1. An undergraduate major of at least 30 credits in Spanish, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.

2. A general education core in the liberal arts and sciences to include the following (in addition to Spanish): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

5. Oral proficiency at the Advanced Low level on the American Council on the Teaching of Foreign Language (ACTFL) Advanced Level Check Oral Proficiency Interview (OPI).

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in Spanish.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Graduate Adolescent Education Course Sequence in Languages Other Than English (Spanish)

Advanced certificate students take only the education courses in the program. Master's degree students take both education courses and the Spanish courses listed below.

22-23 credits: Advanced Certificate program for students who matriculated before Fall 2011.

43-45 credits: Master's Degree program for students who matriculated before Fall 2011.

26-27 credits: Advanced Certificate program for students who matriculated on or after Fall 2011.

44-45 credits: Master's Degree program for students who matriculated on or after Fall 2011.

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3*

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200

prereq or coreq: SEDF 70500

Hours 45 plus 36 hrs fieldwork

Credits 3

Take Either

SEDC 75203 - Student Teaching in Spanish, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

Or

SEDC 77213 - Practicum in Spanish, Grades 7–9

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

prereq: SEDC 72200, SEDF 70600
Hours 30 hrs plus conferences,
Credits 2 cr

Plus

SEDC 77223 - Practicum in Spanish, Grades 10

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

prereq: SEDC 72200, SEDF 70600
Hours 30 hrs plus conferences,
Credits 2 cr

Romance Languages (Spanish) Courses

For Master's Degree Program Only (18 Credits)

Graduate Credits in Spanish to include 3 credits in Structures of Modern Spanish (SPAN 601) to be taken during the first year; 15 credits in literature (2 courses in Spanish, 2 courses in Latin American Literature, and one in either). See Romance Languages department.

Culminating Experiences

- A final examination in Spanish based on a short reading list (42 titles: 21 in Spanish literature, 21 in Latin American literature). This exam will be different from the one offered to MA students in Spanish, although it may be administered on the same day. Passing score is 80.
- Professional teaching portfolio
- Technology Assessment

Total Credits for Master's Degree Program

44-45 credits

Exit Standards

Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection.

Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation). See the School of Education Graduate Handbook in Adolescent Education, available in the Office of Educational Services, Room 1000 West Building, for specific guidelines.

See the Romance Languages section of the catalog for information about the comprehensive examination in Spanish.

Students must pass the School of Education technology assessment.

Educational Psychology - MA

Program Coordinator Priscilla Hambrick-Dixon; 1129 West; (212) 772-4627; phambric@hunter.cuny.edu

The mission of the Hunter College Educational Psychology Program is to advance understanding and generate knowledge of human learning, development, and motivation; and to develop a solid foundation of research, measurement, assessment, program evaluation, and applied statistics in educational settings and related fields.

The Educational Psychology program at Hunter offers two concentrations of study: (1) General Educational Psychology; and (2) Assessment, Research, and Evaluation. This 32-credit program is designed for students with no prior experience in education as well as those who have a background in education and want to expand their skills and knowledge. All students will engage in analytical and scholarly approaches to assessing theoretical perspectives, research, and practice within and across disciplines.

The program is appropriate for students with diverse goals. Students in this program may use the degree as a bridge to a doctoral program in Educational Psychology or a related discipline. Alternatively, students may prepare for professional careers in program evaluation; institutional research; assessment, measurement and testing; and instruction and curriculum development in public and private institutions. The skills and knowledge base acquired in the program can be used in schools, education-related and government agencies, and business and health-related settings.

Admission Requirements

1. Prospective applicants must hold a Bachelor's degree from a regionally accredited institution, comparable in standard and content to a Bachelor's degree from Hunter College. Degrees granted on the basis of work completed at institutions that are not fully accredited, or on the basis of nonacademic prior learning, test scores, and any coursework other than organized supervised coursework in academic subjects may not be considered comparable.
2. A 2.8 minimum undergraduate GPA. Students who do not meet the minimum GPA requirement may submit scores on the general aptitude test of the Graduate Record Examination (GRE) to serve as evidence of their ability to complete graduate-level work.
3. On-site interview.

Progress Standards

1. Students must maintain an overall GPA of 3.0 to continue in the program.
2. Students with more than one course grade below B in the first 12 credits of EDPS coursework will not be allowed to continue in the program.
3. Any student who receives a grade of F in the first 12 credits will not be allowed to continue in the program.

Educational Psychology Course of Study

Total Credits: 32 credits

Core Courses

All students in the Master's Program are required to take 3 core courses and a proseminar.

EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

Hours 60

Credits 4

EDPS 70200 - Educational Research Methods

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

Hours 60

Credits 4

EDPS 70300 - Learning and Behavior Theories

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60

Credits 4

EDPS 70000 - Educational Psychology Proseminar

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits : none

Concentration Area Courses

Students are required to select 8 credits in their concentration area.

Concentration I: General Educational Psychology

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200

coreq: EDPS 70300

Hours 60

Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200

Hours 60

Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300

Hours 60

Credits 4

Or

Concentration II: Assessment, Research, and Evaluation

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200

Hours 60

Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100 and EDPS 70200

Hours 60

Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60

Credits 4

Elective Courses in Educational Psychology

Students select 8 additional credits either from a concentration area or from the following electives:

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work

Credits 4

CEDF 71700 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1 cr

permission of faculty adviser and chairperson required

CEDF 71800 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2 cr

permission of faculty adviser and chairperson required

CEDF 71900 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3 cr

permission of faculty adviser and chairperson required

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200

coreq: EDPS 70300

Hours 60

Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200

Hours 60

Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300

Hours 60

Credits 4

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200

Hours 60

Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100 and EDPS 70200

Hours 60

Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60

Credits 4

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300

Hours 60

Credits 4

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

(EDPS 711, EDPS 712, EDPS 713, EDPS 721, EDPS 722, EDPS 723) For students not using these courses to fulfill the concentration area requirement.

Culminating Courses

As a culminating experience, students elect either a thesis or a non-thesis option.

Students electing Thesis Research (EDPS 79501) and (EDPS 79502) will prepare a report of a research investigation in which they design and execute an empirical study under the supervision of a faculty advisor. Students electing the non-thesis option will enroll in a seminar course (EDPS 79000) in which they prepare a scholarly publishable-quality review of the research literature on a topic approved by the faculty.

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits

Hours 60

Credits 4

or

EDPS 79501 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits

Hours 30

Credits 2

and

EDPS 79502 - Educational Psychology Thesis Research 2

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits

Hours 30

Credits 2

Exit Standards

1. An overall GPA of 3.0.
2. Completion of all required courses (32 credits).
3. Completion of Culminating Experience.
4. Students must pass the School of Education technology assessment.

Post-Baccalaureate Certificate

Animal Behavior & Conservation Certificate

The Department of Psychology offers a Certificate Program in the Advanced Psychology of Animal Behavior & Conservation (ABC) registered with the New York State Education Department. The ABC certificate provides formal recognition of the training in ABC for students who already possess a baccalaureate or graduate degree in another area and, by virtue of prior educational or practical experience in animal behavior and conservation, are qualified for the additional training described in this program.

Courses are scheduled so that the certificate requirements can be completed within two years. All required, and most other courses, are offered after 5:30 PM enabling students to complete the requirements for the certificate while working.

Requirements

Students are required to complete at least 15 credits in the ABC area required for the MA in Animal Behavior & Conservation. Although a thesis is not required for non-degree students, the ability to conduct research in the ABC area must be demonstrated either through prior experience or completion of a research project while in the Certificate Program. Students who do not have an adequate background in statistics and/or research methodology will be required to take such courses in addition to those required for the Certificate.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Plus three additional ABC-related courses (9 credits)—see listing of courses for the MA in Animal Behavior & Conservation.

Geographic Information Science Post-Baccalaureate Certificate

Return to: Geography Department

The Post-Baccalaureate Certificate Program in Geographic Information Science was established in 2001 to meet the demand for people with expertise in GIS. The GIS Certificate program is a 15-credit post-baccalaureate professional program that offers advanced training in Geographic Information Science (GIS). Students are required to take five graduate-level GIS classes including GTECH 71000 (Introduction to GIS), GTECH 73200 - Advanced GIS (Advanced GIS), and three other GTECH or related courses. Students who are interested in GIS development are encouraged to take two programming-oriented classes (GTECH 73100 and GTECH 73300). Students planning a career in GIS applications are encouraged to choose from the wide range of applications courses. Students interested in remote sensing may take the sequence of GTECH 71100 through GTECH 71300 courses.

Courses taken to fulfill the requirements of the GIS certificate program may also count towards fulfillment of the Geography MA degree. This happens automatically for GIS certificate students who concurrently enroll as MA students. For students who enroll in the GIS certificate program prior to enrolling in the MA program, the student must request the transfer of credits. The GIS Certificate program does not accept transfer credits to satisfy the minimum 15 credits required for the program.

As the GIS certificate program is a non-degree program, GIS certificate students are considered “non-matriculated.” Enrollment in the GIS certificate program does not guarantee eligibility for financial aid or for a student visa. For more information contact the United States Citizenship and Immigration Services (<http://www.uscis.gov/portal/site/uscis>).

Geography Department

Admission Requirements

For applicants who are currently matriculated and in good standing in a graduate-degree program at Hunter College, there is one requirement to be considered for admission:

The student must have passed a college-level statistics course that covers hypothesis testing and simple statistical modeling techniques.

All other applicants must meet the following minimum requirements in order to be considered:

1. The student must hold a bachelor's degree from a regionally accredited institution, comparable in standard and content to a bachelor's degree from Hunter College.
2. The student must demonstrate the ability to pursue graduate work successfully. In general, the minimum requirements for consideration are a B-minus average in the undergraduate record as a whole and a B average in the major.
3. The student must have taken a college-level statistics course which covers basics such as hypothesis testing and simple statistical modeling techniques.

Requirements for the Certificate

Completion of the post-baccalaureate certificate program in GIS requires a minimum of 15 credits, which include:

Required courses (6 cr.)

GTECH 71000 - Introduction to GIS

Thorough introduction to geographic information systems with an emphasis on spatial data handling and project management.

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73200 - Advanced GIS

Expansion of GTECH 71000 concentrating on advanced GIS functionality, data models, and algorithms.

prereq: GTECH 71000

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

Electives (9 or more cr)

GTECH 70200 - Multivariate Statistics in Geography

Multivariate analysis of spatial data; prediction, analysis and explanation of spatial and environmental phenomena; statistical software packages; lab exercises.

prereq: Introductory Statistics or equivalent or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71100 - Earth from Above

Use and interpretation of air photos and satellite remote sensing images as applied to agriculture, forestry, urbanization, oceanography and atmosphere; lab exercises.

Hours 60 (2 lecture and 2 hour labs weekly),

Credits 3

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor

Hours 60 hours (2 lecture and 2 hour labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71300 - Digital Image Processing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra

Hours 90 hrs including conference (2 lectures, 4 labs weekly),

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 72100 - Advanced Cartography

Material Fee:\$ 15

GTECH 72200 - Automated Cartography

Computer and other automated applications; theory and algorithms; production of computer-generated maps; lab exercises.

prereq: GTECH 71000 or equivalent

Hours 75 hrs including conference (1 lecture 4 labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73100 - Computer Programming for Geographic Applications

Object-oriented programming methods specific to geographic and cartographic applications; programming assignments; graphics. A programming language helpful but not required.

prereq: GTECH 71000 or equivalent

Hours 90 hrs including conference (2 lectures, 4 labs weekly),

Credits 4 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73300 - GIS: Modeling and Problem Solving

Theory and applications of geographic information science (GIS). Data models and advanced spatial and temporal modeling techniques are discussed and implemented in an object-based paradigm.

prereq: GTECH 73100 or equivalent, and GTECH 73200 and permission of the graduate adviser

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative

and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 785XX - GIS Applications

Selected topics in GIS applications to human and physical geographic problems.

prereq: GTECH 71000 or equivalent and permission of the department

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Equivalent GIS applications courses offered through other Hunter departments such as Public Health, Sociology, or Urban Planning.

Minimum GPA Requirement

3.0 average or better on all core and elective courses. Additional elective courses may be added to this list or may be used as substitutes with the approval of the GIS Certificate adviser.

Application Deadline

For fall semester: July 1 (April 1 for international students)

For spring semester: January 1 (November 1 for international students)

Return to: Geography Department

Medical Laboratory Technology: Post-Baccalaureate Certificate

The Post-baccalaureate Certificate in Medical Technology 15-credit course of study was developed within the Medical Laboratory Sciences (MLS) program to help meet the increasing demand for qualified, licensed medical technologists. It provides an opportunity for students with degrees in chemistry, biology, or the physical sciences to meet licensing standards without having to acquire a second baccalaureate degree. An accelerated path, this certificate can be completed in as little as 13 months, and, if followed by successful completion of the licensure examination, allows immediate entry to the profession. For more information go to: <http://www.hunter.cuny.edu/mls/graduate/advanced-certificate-in-medical-technology>.

Admission Requirements

- A baccalaureate degree in the biological, chemical, or physical sciences.
- Completion of certain pre-requisite courses: general biology (or anatomy and physiology), general chemistry
- Achievement of a minimum GPA of 3.0 in the degree and the pre-requisite courses

Requirements for the Certificate

Students enrolled in the certificate program will be assigned for training to a clinical affiliate following successful completion of MLS 60000. The curriculum is as follows:

Required Courses

After the completion of MLS 60000, the practicum courses provide approximately 10 months of clinical training in 2-month rotations, consistent with the clinical structure of training sites.

MLS 60000 - Fundamental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. Mastery of additional content and an independent project are required of graduate students.

This course is cross-listed with MLS 30000.

prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv. and admission to the post-baccalaureate certificate program in Medical Laboratory Technology

Hours 3 (2 lecture, 1 lab)

Credits 3

MLS 61000 - Clinical Practicum in Medical Laboratory Technology I

This course (and MLS 62000) comprise the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology

Credits 6

MLS 62000 - Clinical Practicum in Medical Laboratory Technology II

This course (with MLS 61000) provides training in the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology

prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology

Credits 6

Accelerated Bachelor of Arts/Master of Arts - BA/MA

Physics - Accelerated BA/MA

This special program for a limited number of well-qualified undergraduate students leads to a bachelor of arts and a master of arts degree. Students are offered the opportunity quickly to reach a level where they can stand in competition for admission into any doctoral program in physics. The program requires 124-126 credits (including the 30 credits required for a physics major BA degree and 30 credits from the graduate curriculum). Because this program requires a large number of physics courses, many of which have other physics courses as prerequisites, students in this program should begin taking physics courses in their first or second undergraduate semester. Students should consult the department chair, undergraduate adviser, or graduate adviser for details as early as possible.

Bachelor of Arts/Master of Arts - BA/MA

BA/MA in Environmental Studies and Adolescent Education.

The Geography Department together with the School of Education also offers a 5-year combined BA/MA Program in Environmental Studies and Adolescent Education. This program is designed for highly qualified Environmental Studies majors who, during the course of their sophomore year, decide to pursue a career in secondary school teaching. For more information please contact the Department of Geography.

Biological Sciences with Specialization in Biotechnology - BA/MA

In this five-year program, qualified undergraduate Hunter College biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology, and a foundation for application of these skills in careers in the biotechnology/pharmaceutical industry, academic research, or public health. Successful completion of the biotechnology workshop, an essential program component, entitles students to a summer internship in an industrial or private research laboratory.

Economics - BA/MA

The Department of Economics makes it possible for students to earn both a BA and an MA degree in economics within the credits required for a BA at Hunter. BA/MA students must complete the requirements for both the BA and MA degree.

Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index, with a minimum grade of B in ECO 300, and ECO 321, and a C in Math 150, or their equivalents. Continuing in the program is contingent upon maintaining a 3.0 GPA in Economics and the cumulative index and receiving a minimum grade of B in ECO 301 and an average grade of B in Math 150 and Math 160.

Mathematics Grades 7-12 Adolescent Education - BA/MA

Students interested in secondary school teaching may pursue a combined BA/MA program in teaching. This program requires a minimum of 141 credits.

Admission Requirements for the BA/MA in Teaching

1. Completion of at least 45 credits with a GPA of 2.8
2. Completion of at least 10 credits in mathematics, including a year of calculus (**MATH 150** and **155** or the equivalent), with an average of 2.7 in these major courses.
3. Admission to the School of Education

Degree Requirements for the BA/MA in Teaching

BA in Mathematics or Statistics

The 33 credits required for the BA in Mathematics **OR** the 32 credits required for the BA in Statistics, as described in the Undergraduate Catalog

Graduate Courses in Mathematics and Statistics

The following 15 graduate credits:

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

Comprehensive Examination in Mathematics

Also required is a comprehensive examination in mathematics. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the Mathematics/Statistics Chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the student can take the exam a third and final time.

School of Education Courses

The student should consult the School of Education section of the graduate college catalog for the sequence of teacher education courses

Mathematics or Statistics and Applied Mathematics - BA/MA

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's degree requirements with a minimum of 120 credits. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the departmental graduate adviser for further information regarding eligibility and curriculum requirements.

Option 1: Accelerated BA/MA Program in Mathematics

Students complete the BA in pure mathematics with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

Option 2: Accelerated BA/MA Program in Statistics and Applied Mathematics

Students complete the BA in statistics or mathematics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.

Music Dual - BA/MA

Return to: Music Department

The department offers unusually gifted undergraduate students the opportunity to obtain a master's degree in four years with a minimum of 120 credits. Requirements are the same as those for the 42-credit BA, plus 30 credits at the graduate level. Matriculation is open only to those who are currently undergraduate students at Hunter College. Interested students should consult with the undergraduate adviser to set up a curriculum appropriate to their individual backgrounds. In addition, the graduate adviser must be consulted about the MA requirements; see <http://www.hunter.cuny.edu/music/grad-students/admissions/ba-ma/?searchterm=ba/ma> for details.

Music Teacher Education - BA/MA

Return to: Music Department

Exceptionally qualified undergraduate students may obtain a master's degree in teacher education in 5-6 years with a minimum of 140 credits. Requirements are the same as those for the 42-credit BA plus those for the MA in teacher education (45 credits at the graduate level). Matriculation is open to undergraduates with at least 60 credits who have a cumulative grade point average of 2.8 or better and a major subject index of at least 3.0. Students must have completed at least 24 credits of course work in music, including at least two semesters of music history, four semesters of music theory, and two semesters of performance techniques. At least 12 credits, including at least 6 credits in music major courses, must have been taken at Hunter College. Students must have passed the music department's piano proficiency examination, and they must demonstrate reasonable mastery on an instrument (which may be a keyboard instrument) or voice. They must be admitted to the program by both the music department and the School of Education. They must maintain the grade point averages required for admission at all times in order to remain in the program; see

<http://www.hunter.cuny.edu/music/grad-students/admissions/ba-ma/?searchterm=ba/ma> for details.

Bachelor of Arts/Master of Science - BA/MS

Biological Sciences/Environmental and Occupational Health Sciences - BA/MS

Return to: Programs and Courses in Biology

This is an accelerated program leading to a BA in biology and an MS in environmental and occupational health sciences in five years. Hunter College Biology majors admitted to the program start graduate work in their senior year. Interested students should contact a Biology Department adviser — as well as the coordinator of the Program in Environmental and Occupational Health Sciences at the Brookdale Campus — early in their undergraduate studies. See Environmental and Occupational Health Sciences - MS (part of the CUNY School of Public Health at Hunter College) for more information.

Social Research - BA/MS

For a limited number of qualified undergraduate students, the sociology department offers an accelerated five-year program leading to a BA in sociology and an MS in social research. The program requires a total of 145 credits of college work (100 undergraduate, 45 graduate). To get the maximum financial benefit from BA/MS program, students should apply before the number of cumulative credits taken (including those being taken currently) exceeds 100 credits. All credits above 120 will be charged at the graduate tuition rates. The BA/MS program is a full-time program requiring 12 graduate credits per term.

In order to be admitted to the program students must complete their basic requirements, including their major, pass an honors course or its equivalent (cross listed graduate course, honors independent study), have an overall GPA of at least 3.5 and meet other requirements of the MS program as listed below (with the exception of the GRE exam). BA/MS applicants should have no more than 100 credits completed before entering the program and can apply for fall or spring admission. Applications on forms provided by the undergraduate advising office are filed with the undergraduate advisor, and include a copy of the current transcript and two letters of recommendation.

Students are admitted to the BA/MS program at the end of their junior year but must consult with the undergraduate advisor before they file the application.

Bachelor of Science/Master of Arts - BS/MA

Medical Laboratory Sciences/Biological Sciences with Specialization in Biotechnology - BS/MA

Return to: Programs and Courses in Biology

Qualified Hunter College seniors majoring in medical lab sciences in the School of Arts & Sciences may apply to the new BS/MA collaboration between the Department of Medical Laboratory Sciences and the Department of Biology. An intensive techniques workshop (BIOL 41000) is taken prior to graduation and upon successful completion, students may continue with professional internship, and the accelerated MA program.

Bachelor of Science/Master of Science - BS/MS

Accelerated BS/MS in Nutrition (DPD)

This pathway is for third year NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement (students will be provisionally accepted into the program in their junior year but must maintain grade requirements to matriculate into the MS-DPD program).

This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework providing students the opportunity for academic acceleration to a graduate degree.

Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Commission on Accreditation for Dietetics Education (CADE), the credentialing arm of the American Dietetic Association (ADA), it will qualify students from this BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

for further information consult the undergraduate catalog hunter.acalogadmin.com/preview/preview_program.php and the Nutrition MS program in this catalog

Doctor of Audiology - AuD

Clinical Doctoral Program in Audiology (AuD)

The City University, through a joint program offered by Hunter College, Brooklyn College and the Graduate Center, offers a clinical doctoral program in audiology. For a description of the program, see the Bulletin of the Graduate Center or go to <http://web.gc.cuny.edu/ClinicalDoctoral/audiology-overview.asp>

Doctor of Nursing Practice - (DNP)

Doctor of Nursing Practice (DNP)

The program leading to the Doctor of Nursing Practice (DNP) at Hunter College is part of a national trend to require that all advanced practice nurses be educated at the doctoral level and that this education be clinical rather than research in focus. According to the leading nursing organizations, the DNP is designed to address the problems and shortfalls in the current health care system, in particular questions about the quality of health care, the lack of primary care providers, and cost. This DNP program is designed to complement the Doctor of Nursing Science (DNS) degree by preparing primary care clinicians who are well prepared to translate basic science to the bedside or community. The DNP program at Hunter College consists of four tracks: the Family Nurse Practitioner (FNP) DNP, the Adult/Gerontological (ANP/GNP) DNP, the Psychiatric-Mental Health (PMH) DNP, and the Public Health (PH) DNP. The Master's of Nursing Science advanced practice programs remain open, and the DNP program utilizes many of the same graduate nursing courses. The DNP program is designed as a post-baccalaureate program that requires 90 graduate credits and 1000 hours of clinical practice. This program meets all the requirements of the New York State Department of Education and of the leading nursing organizations for a doctorally prepared advanced practice nurse.

Admission Requirements

Applicants must meet the general university requirements for doctoral study stated in the Graduate Center Catalog as well as the following additional requirements:

- Current RN licensure in New York State
- Satisfactory score on the Graduate Record Exam (at or above 1200 on Math and English combined)
- Bachelor's degree in nursing from an accredited program
- Superior academic record (GPA of 3.5 or above in both the major and the cumulative GPA)
- Completion of an undergraduate statistics course
- Completion of a discrete undergraduate nursing research course

Curriculum

The curriculum consists of a total 90 credits and 1000 clinical hours at the post-baccalaureate nursing degree level.

Core Courses Completed by All DNP Students

The courses listed below are completed by all DNP students for a total of 48 credits in nursing science, economics and healthcare policy, and translational research and leadership.

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing

roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900
Hours 45 hrs practicum,
Credits 3 cr

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

PH 75000 - Introduction to Biostatistics

This course is designed to enable students to analyze, present and interpret population health data.

prereq: Elementary statistics or calculus or equivalent.

PH 75200 - Introduction to Epidemiology

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

prereq: PH 75000

Second Component

The second component consists of the advanced practice core content specific to one of the population tracks.

Family/Individual Across the Lifespan

NURS 80400 - Finance and Management Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

NURS 81100 - Advanced DNP Procedures

Students will perform clinical procedures that assist in the diagnosis and treatment of acute and chronic conditions encountered in the primary care setting. Students are expected to draw on knowledge from pathophysiology and advanced assessment in order to demonstrate competence in performing advanced procedures.

prereq or coreq: NURS 75100

Hours 3, 15 lab

Credits 3

Adult/Gerontology

NURS 80400 - Finance and Management Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

NURS 81100 - Advanced DNP Procedures

Students will perform clinical procedures that assist in the diagnosis and treatment of acute and chronic conditions encountered in the primary care setting. Students are expected to draw on knowledge from pathophysiology and advanced assessment in order to demonstrate competence in performing advanced procedures.

prereq or coreq: NURS 75100

Hours 3, 15 lab

Credits 3

Psychiatric-Mental Health

NURS 71900 - Psychopharmacology

Course provides evidence-based guidelines of pharmacology in treating mentally ill individuals. Neuro-biology and psychopharmacology theories, current clinical practice of pharmacology for major psychiatric diagnoses, and practical clinical application of relevant pharmacotherapy will be explored.

NURS 69903 - Therapeutic Modalities in Counseling and Advanced Nursing Practice

Exploration of evidence-based guidelines for treating individuals with psychological health issues of therapeutic modalities including Cognitive Behavioral Therapy, Dialectic Behavioral Therapy, Interpersonal Therapy and Play Therapy with children.

Hours 45

Credits 3

Community/Public Health

PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

Hours 3
Credits 3

PH 75600 - Public Health and Health Care Policy and Management

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

Hours 3
Credits 3

Third Component

The third component consists of the courses with clinical experiences that are required in one of the four population options: Family Nurse Practitioner (FNP), Adult/Gerontological Nurse Practitioner (ANP/GNP), Psychiatric-Mental Health Practitioner (PMHNP), and Community/Public Health Nurse Practitioner (Advanced Practice Public Health Nurse, APPHN).

Specialization tracks, role, populations, and clinical courses:

Family/Individual Across the Lifespan

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

coreq: NURS 755

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3 cr

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Hours 15 lecture, 15 seminar and 125 clinical

Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical

Credits 3

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900

coreq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 85500 - DNP Practice with Adults/Older Adults I

Application of advanced practice strategies for primary care nursing of adults and older adults and their families and the health care organizations that provide services for them. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care for adult and older patients and their families and the health care systems that care for them.

prereq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 85700 - DNP Practice with Women

Application of advanced practice strategies for primary care nursing of women and their families. Evidence-based practice guidelines are reviewed and applied in the simulation lab and clinical setting. Information systems/technology and patient care technology to improve the quality of care for women and their families will be utilized in the clinical

setting.

prereq or coreq: NURS 75700

Hours 5 seminar, 40 clinical

Credits 1

NURS 86900 - DNP Practice with Older Adults

Application of advanced practice strategies for primary care nursing of older adults and their families and communities. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care to older adult patients and their families and communities, as well as the health care systems that care for them.

prereq or coreq: NURS 76900

Hours 15 seminar, 105 clinical

Credits 3

Adult/Gerontology

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

coreq: NURS 755

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3 cr

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900

coreq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 85500 - DNP Practice with Adults/Older Adults I

Application of advanced practice strategies for primary care nursing of adults and older adults and their families and the health care organizations that provide services for them. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care for adult and older patients and their families and the health care systems that care for them.

prereq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 85700 - DNP Practice with Women

Application of advanced practice strategies for primary care nursing of women and their families. Evidence-based practice guidelines are reviewed and applied in the simulation lab and clinical setting. Information systems/technology and patient care technology to improve the quality of care for women and their families will be utilized in the clinical setting.

prereq or coreq: NURS 75700

Hours 5 seminar, 40 clinical

Credits 1

NURS 86900 - DNP Practice with Older Adults

Application of advanced practice strategies for primary care nursing of older adults and their families and communities. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care to older adult patients and their families and communities, as well as the health care systems that care for them.

prereq or coreq: NURS 76900

Hours 15 seminar, 105 clinical

Credits 3

NURS 87000 - Acute Care DNP Practice

This course provides students with specialized knowledge and clinical experience in applying evidence-based national standards and treatment guidelines in the care of adolescents, adults, and older adults with acute and complex health problems. Leadership role expectations of doctorate-prepared nurse practitioners are explored and synthesized

throughout the course content.

prereq: NURS 75100

Hours 30 theory, 15 seminar, 250 clinical

Credits 6

Psychiatric-Mental Health

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000

prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,

Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742

prereq or coreq: NURS 704

Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300

Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,

Credits 5 cr

NURS 84200 - DNP PMHNP Practice I

Clinical practicum in mental and behavioral health care delivery system and with current mental health policy makers, with seminar discussions of current mental health policy and politics in relation to the role of advanced practice nursing in the field of mental health systems.

prereq: NURS 85100

coreq: NURS 74200

Hours 5 seminar, 50 clinical

Credits 1

NURS 84300 - DNP PMHNP Practice II

Clinical practicum in advanced practice geriatric-mental health with seminar discussions of current gerontological and geriatric mental health theories, research and strategies for primary care nursing of older adults who need psychiatric or mental health services.

prereq or coreq: NURS 74300

Hours 5 seminar, 50 clinical

Credits 1

NURS 84400 - DNP PMHNP III

Clinical practicum in addictions nursing practice with seminar discussions of current addictions theories, research and strategies for the clients with substance abuse and dependence diagnosis.

prereq or coreq: NURS 74400

Hours 5 seminar, 50 clinical

Credits 1

NURS 84500 - DNP PMHNP Practice IV

This course provides a framework for DNP psychiatric mental health nurse practitioner (PMHNP) students in how to synthesize theoretical, scientific, and clinical knowledge for the assessment and management of both mental health and illness states of child- and adolescent-specific populations.

prereq: NURS 74400

Hours 30 lecture, 15 seminar, 210 clinical

Credits 6

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900

coreq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

Community/Public Health

NURS 77100 - Community/Public Health Nursing I

Analysis of how clinical specialists in community/public health nursing conduct a community health assessment and participate on multidisciplinary teams that work in partnership with culturally diverse communities.

prereq: NURS 700, PH 700

prereq or coreq: NURS 702, NURS 749

Hours 30 hrs theory, 166 hrs practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900

coreq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 87100 - Advanced Practice Public Health Nursing I

Analysis of the Advanced Practice Public Health Nurses (AAPHN) role in the use of technology to promote population health in order to achieve the DNP Competency Areas: Technology & Information Literacy Analysis and Quality of Practice.

prereq or coreq: NURS 77100, NURS 85000

Hours 15 seminar, 86 clinical

Credits 1

NURS 87200 - DNP in Public Health Nursing II

Analysis of the role of Advanced Practice Public Health Nurses (AAPHN) related to providing population health through partnerships and coalitions with the goal to achieve the DNP Competency Areas: Leadership in Practice, Independent Practice, and Health Delivery System.

prereq or coreq: NURS 77200, NURS 87100

Hours 15 seminar, 87 clinical

Credits 1

NURS 87300 - DNP in Public Health Nursing III

Analysis of evidence-based practice in the role of Advanced Practice Public Health Nurses (AAPHN) through community-based participatory research (CBPR), in order to achieve the DNP Competency Areas: Scientific Foundation for Practice, Healthcare Policy, and Practice Inquiry in Area Associated with Population Health.

prereq or coreq: NURS 77300, NURS 87200

Hours 15 seminar, 87 clinical

Credits 1

NURS 87400 - DNP in Public Health Nursing IV

Advanced Practice Public Health Nurses (APPHN) translate research into practice in a culturally competent manner by piloting their intervention using community-based research principles.

prereq or coreq: NURS 77300, NURS 87300

Hours 30, 15 seminar, 200 clinical

Credits 6

Doctor of Philosophy - PhD

Doctor of Philosophy in Physics

Doctor of Philosophy

Hunter College offers Doctor of Philosophy in Physics jointly with the Graduate Center.

Courses of Study

The student's course of study must have the approval of an adviser. Of the 60 credits of graduate work required for the degree, no more than 9 credits may be in first-level courses; with special permission, up to 18 credits may be taken in subjects other than physics. After students pass the First Examination, they are encouraged to choose a thesis field and adviser; these decisions should normally be made within the first year of study. Doctoral students are expected to attend the regularly held colloquia.

First Examination

The student must pass the First Examination, which includes quantum mechanics, analytic dynamics, electromagnetic theory, and general physics, which covers topics selected from the fields of atomic and nuclear physics, solid state, thermodynamics and statistical mechanics and optics. For students specializing in fluid-geophysics, an examination in that area may be substituted for the quantum mechanics part of the First Examination.

Second Examination

The Second Examination tests the student's knowledge of the general areas of physics bearing on his or her field of research as well as the student's readiness to undertake a specific piece of research. Detailed information concerning the examination is available from the Executive Officer.

Dissertation

The student is required to prepare the dissertation under the guidance of a thesis adviser. Upon completion, the dissertation will be submitted to the guidance committee appointed for the student. The degree is recommended upon approval of the dissertation by the committee and upon successful completion of an oral defense of the dissertation before the committee. The dissertation must be of such a caliber as to be acceptable for publication in a standard journal when suitably condensed.

College Teaching

Each student is required to participate in some teaching of undergraduate physics courses. Specific requirements are determined for each student in consultation with the Executive Officer and the Department Chairman. In special cases research may be substituted for this requirement.

FINANCIAL AID

Every student admitted for doctoral study in Physics will have financial support for five full years of study, as long as they remain in good academic standing and progress on schedule in their doctoral research. The five-year CUNY Science Scholarship includes a full tuition waiver, annual health insurance coverage and \$24,000/year financial support.

Doctoral Program in Biological Sciences

Return to: Programs and Courses in Biology

Doctor of Philosophy

Students are encouraged to apply directly to the Doctoral Program in Biological Sciences, which is offered jointly by Hunter College and the CUNY Graduate School and University Center. Doctoral dissertation research is carried out in the Hunter College Department of Biological Sciences. A PhD in Biochemistry is also offered jointly with the CUNY Graduate School and University Center. For further information contact Professor Patricia Rockwell, 821 North Building, (212) 396-6202 or visit the Graduate Center website at <http://www.gc.cuny.edu>.

Hunter MA students who have been accepted to the joint Hunter College/CUNY Doctoral Program in Biological Sciences will have their required MA Comprehensive Exam as equivalent to a Doctoral First-Level Exam. If a Hunter College applicant is accepted into the Doctoral Program, a passing grade at the doctoral level on the exam will allow acceptance into the Doctoral Program as a Second-Level doctoral student.

Social Welfare PhD at the Graduate Center

Doctor of Philosophy

The PhD program in Social Welfare of the Graduate Center of City University of New York was established in 1973. The Graduate Center offers this doctoral program in social welfare at the Silberman School of Social Work. The PhD

program draws the majority of its 22-member doctoral faculty from the Hunter College MSW program. For further information, go to: <http://web.gc.cuny.edu/Socialwelfare/>

Requests for applications should be addressed to:

Admissions Office
The Graduate Center
The City University of New York
365 Fifth Avenue
New York, NY 10016

**Specific inquiries about program details
should be addressed to:**

The Executive Officer
PhD Program in Social Welfare
Silberman School of Social Work at Hunter College
2180 Third Avenue
New York, New York 10035

Doctor of Physical Therapy - DPT

Physical Therapy - DPT

Executive Officer of Clinical Doctoral Degree Programs, CUNY, Barbara Weinstein; Room 3310, 365 Fifth Avenue; (212) 817-7980

Director and Adviser, Gary Krasilovsky; Room E 007, Brookdale Campus, Hunter College; (212) 481-4469; gkrasilo@hunter.cuny.edu

Associate Professors: Krasilovsky, Lipovac, Rosen

Assistant Professors: Babyar, Holland, Ibrahim, Pivko

Academic Coordinator of Clinical Education: Pivko

Website: www.hunter.cuny.edu/schoolhp/pt or www.gc.cuny.edu/doctoral_programs

The Physical Therapy program is a three-year post-baccalaureate Doctor of Physical Therapy degree curriculum. The DPT program is a collaboration between the Graduate Center of CUNY and the physical therapy programs at Hunter College and the College of Staten Island. These two sites have different admissions deadlines and admit separate groups of students. You must indicate which site you are seeking to attend!

Upon completion of the program, students will receive a doctor of physical therapy (DPT) degree. Please go to the Physical Therapy Program or the Graduate Center (CUNY) website for updated information on the present curriculum, the admissions requirements and process, open-house dates, and to download clinical experience and other forms.

Physical therapists, as essential members of the health care team, address health maintenance and the prevention of disabilities, the identification and assessment of impaired motor function, and rehabilitation toward optimal health and function. The physical therapist provides therapeutic services to individuals of all ages with musculoskeletal, neurological, sensorimotor, cardiovascular, and other physiological dysfunctions. Physical therapists may be employed in hospitals and extended-care facilities, ambulatory clinics, school systems and sports medicine centers. They may also be self-employed professionals in private practice.

The present graduate program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) of the American Physical Therapy Association. Graduates are prepared for the National Licensing Examination in Physical Therapy.

Admission Requirements

Admission requirements for entry into the DPT degree program are described below.

The bachelor's degree requirement for entry is based upon the CAPTE criterion that mandates that physical therapy programs are "built on a balance of course work in social sciences, humanities, and natural sciences, which is appropriate in depth and breadth, to develop the ability in students to think independently, to weigh values, to understand fundamental theory, and to develop skill for clinical practice, including critical thinking and communication."¹

The pathway requires the following prerequisite course work and admissions procedures. Students enter the graduate physical therapy program in the fall semester; the program is designed for full-time study during the day.

1. A bachelor's degree from an accredited four-year institution by the end of the spring semester prior to entry into the DPT program.
2. Two semesters of anatomy and physiology for science majors with lab
3. Two semesters of physics for science majors with lab
4. Two semesters of chemistry for science majors with lab
5. Two semesters of psychology (including one semester of developmental psychology or child psychology).
¹ *Commission on Accreditation in Physical Therapy Education (1996). Evaluative Criteria for the Accreditation of Education Programs for the Preparation of Physical Therapists, Effective January, 1998. Alexandria, VA: American Physical Therapy Association.*
6. One semester of mathematics (precalculus or college algebra and trigonometry).
7. One semester of statistics.
8. One semester of English composition (expository writing)
9. The Graduate Record Examination must be completed and scores sent to the Graduate Center of CUNY (ID # 2113)
10. Cardiopulmonary Resuscitation Certification by the American Heart Association or the Red Cross
11. An undergraduate grade point average (GPA), calculated from all college courses, of 3.0 or above
12. Documented clinical experience of at least 100 hours in the United States under the supervision of a licensed physical therapist, with a minimum of 50 hours in a hospital-based setting.

Applicants may inquire at any hospital or other facility about volunteering in its physical therapy department as a means of gaining access to clinical experience. A Clinical Experience Form will be provided by the physical therapy program and is available from our website. The completed documentation should be provided by the supervising physical therapist by the dead- line of December 1 prior to the summer semester for which admission is sought.

13. Filing of an online Graduate Center (GSUC) Application by the December 1st deadline.
14. An interview may be required with faculty of the Hunter College Physical Therapy Program, which will include an essay as determined by the physical therapy program faculty.
15. For applicants who have not studied in English-speaking countries, a score of at least 550 on the TOEFL examination.
16. Students who have not completed up to 6 credits of prerequisites may be conditionally accepted for the incoming class, but all requirements must be met before the starting date of the program in the fall semester. The application process is self-managed. Applicants must file on line via a link from the Admissions office of the Graduate Center. All other documents are to be obtained by the applicant and submitted in sealed envelopes to the Graduate Center Admissions Office. This includes all transcripts and letters of recommendation. Documents submitted by eligible applicants will be reviewed for clinical experience and other relevant experience in health care to identify those eligible for interviews. Subsequent to the interviews, a standardized scoring form will be used to evaluate each applicant, based on GPA, GRE & TOEFL scores, clinical experience, essay quality, and interview scores.

Meeting these minimum requirements does not guarantee acceptance to the program, which is based, by necessity, on the limitations of space and resources. The Graduate Center/Hunter College Physical Therapy Program is dedicated to equal opportunity for all applicants who meet admission requirements.

Requirements for Graduation

Specialization (Courses designated PT) 105 credits

First Year

(Summer semester)

PHT 70100 - Clinical Anatomy

An in depth study of the human body, with emphasis on the neuromuscular and musculoskeletal systems.

prereq: acceptance into the Physical Therapy Program

Hours 90 hrs,

Credits 4 cr

PHT 70200 - Medical Terminology

This programmed computerized self-study will provide students with the ability to analyze medical terms, define basic terms and abbreviations used in documenting health records and identify common terms related to diagnosis, therapies, and diagnostic tests.

prereq: acceptance into the Physical Therapy Program

Credits 1 cr

On-line

(Fall semester)

PHT 70300 - Foundations PT Care

An introduction to the physical therapy profession and includes the history and scope of physical therapy practice.

prereq: acceptance into the Physical Therapy Program

Hours 60 hrs,

Credits 2 cr

PHT 70400 - Introduction to Physical Therapy Practice and Ethics

This course examines the multifaceted role of the physical therapist in the health care delivery system.

prereq: acceptance into the Physical Therapy Program

Hours 30 hrs,

Credits 2 cr

PHT 70500 - Upper Extremity Kinesiology and Assessment

An introduction to the application of anatomy for human movement.

prereq: acceptance into the Physical Therapy Program

Hours 45 hrs,

Credits 2 cr

PHT 70600 - Psychosocial Aspects of Clinical Practice

This course is designed to increase understanding of the profound psychological and social impact that illness and disability can have on people with chronic illness and traumatic injury.

prereq: acceptance into the Physical Therapy Program

Hours 30 hrs,

Credits 2 cr

PHT 71000 - Research Design

Introduction to the scientific methods of inquiry used in research and their meaning in physical therapy practice.

prereq: PHT 70100, PHT 70200, PHT 70300, PHT 70400

Hours 30 hrs,

Credits 2 cr

PHT 72000 - Human Physiology and Exercise Physiology

This course provides an overview of cellular structures and functions which regulates body homeostasis from the point of cell division and genetic control of protein synthesis.

prereq: PHT 70100, PHT 70200, PHT 70300, PHT 70400

Hours 60 hrs,

Credits 4 cr

PHT 75000 - Physical Modalities - Clinical Decision Making and Application

Principles and practical application of thermal, mechanical, electromagnetic and other energies in physical therapy is presented.

prereq: PHT 71000, PHT 72000

Hours 75 hrs,

Credits 3 cr

(Spring semester)

PHT 73000 - Structure and Function of the Nervous System

This course provides an overview of microscopic, gross, and developmental anatomy of the human nervous system with emphasis on neurological process, structural and functional relationships.

prereq: PHT 72000, PHT 71000

Hours 45 hrs,

Credits 4 cr

PHT 74000 - PT Prevention and Intervention

Basic concepts of mobility and exercise for prevention and restoration of function.

prereq: PHT 71000, PHT 72000

Hours 90 hrs

Credits 4 cr

PHT 76000 - Lower Extremity Kinesiology and Assessment

The structure and function of joints and muscles will be reviewed for the lower extremities and trunk.

prereq: PHT 71000, PHT 72000

Hours 60 hrs,

Credits 2 cr

PHT 77000 - Research Seminar I

To provide the students with basic patterns of research from review of the literature to the design of multiple variable research, involved in the clinical physical therapy environment.

prereq: PHT 71000, PHT 72000

Hours 15 hrs,

Credits 1 cr

PHT 78000 - Clinical Medicine

An overview of disease and injury with an emphasis on condition encountered in physical therapy.

prereq: PHT 71000, PHT 72000

Hours 45 hrs,

Credits 3 cr

PHT 79500 - Integumentary System: Assessment and Intervention

The course focuses on evaluation and management of individuals with integumentary dysfunction.

prereq: PHT 71000, PHT 72000

Hours 15 hrs,

Credits 1 cr

PHT 80100 - Pulmonary PT

This course is designed to promote clinical reasoning skills in the examination, assessment, and intervention of patients with pulmonary dysfunctions.

prereq: PHT 72000, PHT 71000.

Hours 45 hrs,

Credits 2 cr

Second Year

(Summer semester)

PHT 80900 - Research Seminar II

Data collected and completion of research results.

prereq: PHT 80600

Hours 1 hour/week,

Credits 1 cr

(independent study)

(Fall semester)

PHT 80200 - Clinical Education: Education Theories

This course is designed to introduce the student to the principals and theories of educational strategies.

prereq: PHT 73000, PHT 74000, PHT 75000, PHT 78000

Hours 30 hrs,

Credits 2 cr

PHT 80300 - Differential Diagnosis and Intervention in Clinical Orthopedics

This course is designed to promote clinical reasoning skills in the examination, assessment, and intervention of patients with orthopedic dysfunctions.

prereq: PHT 73000, PHT 76000, PHT 79000.

Hours 30 hrs,

Credits 2 cr

PHT 80400 - Introduction to Neurological PT

Foundations, examination, and interventions for the treatment of disorders of the Central Nervous System.

prereq: PHT 73000, PHT 76000

Hours 45 hrs,

Credits 2 cr

PHT 80500 - Musculoskeletal Examination and Interventions I

Basic examination techniques utilizing selective tissue tension tests that will be applied to evaluate and diagnose lower extremity orthopedic conditions.

prereq: PHT 76000, PHT 78000, PHT 74000

Hours 60 hrs,

Credits 3 cr

PHT 80700 - Proprioceptive Neuromuscular Facilitation

The historical and theoretical framework of Proprioceptive Neuromuscular Facilitation (PNF) that will serve as the foundation for learning these specialized hands on exercise techniques.

prereq: PHT 80600

Hours 30 hrs,

Credits 1 cr

PHT 80800 - Differential Diagnosis in Neurological Evaluation

A system of testing peripheral, central and autonomic nervous system function will be presented with an emphasis on specificity and sensitivity of the tests.

prereq: PHT 80600

Hours 30 hrs,

Credits 1 cr

PHT 80900 - Research Seminar II

Data collected and completion of research results.

prereq: PHT 80600

Hours 1 hour/week,

Credits 1 cr

(independent study)

PHT 81100 - Cardiac Rehabilitation

The physical therapy management of individuals with cardiovascular dysfunction is covered in this course. Physical therapy evaluations and treatment approaches

prereq: PHT 72000, PHT 71000

*Hours 45 hrs,
Credits 2 cr*

PHT 79700 - Colloquium Elective

This elective will provide students with the opportunity to enroll in an intense clinically based course presented by an expert in physical therapy.

*prereq: PHT 72000, PHT 71000
Hours TBA hrs,
Credits 1 cr*

(Spring semester)

PHT 81000 - Neurological Interventions I

The course includes a description of the principles of rehabilitation, etiology of spinal cord injury and traumatic brain injury, anatomical and physiological considerations, and understanding of special problems faced by adults with physical disabilities, evaluation and treatment techniques, an understanding of adapted equipment and wheelchairs, evaluation of the home environment and appropriate modifications.

*prereq: PHT 80800, PHT 80900
Hours 75 hrs,
Credits 3 cr*

PHT 82000 - Clinical Orthopaedics II/Radiology and Imaging

Etiology and therapeutic management of selected orthopedic conditions of the upper extremity and introduction to radiology and imaging.

*prereq: PHT 80800, PHT 80900
Hours 30 hrs,
Credits 2 cr*

PHT 83000 - Orthotics and Prosthetics

This course is designed to orient the student to the role and responsibilities of the physical therapist in the field of prosthetics and orthotics.

*prereq: PHT 80600, PHT 80700, PHT 80800
Hours 30 hrs,
Credits 2 cr*

PHT 84000 - Differential Diagnosis and Intervention in Clinical Neurology

This course describes specific neurological systems and presents the clinical implications of disease or injury on each of these systems.

*prereq: PHT 80600, PHT 80700, PHT 80800
Hours 45 hrs,
Credits 3 cr*

PHT 85000 - Musculoskeletal Examination II

Basic examination techniques utilizing selective tissue tension tests will be applied to clarify common upper extremity orthopaedic diagnoses.

prereq: PHT 80600, PHT 80700

Hours 75 hrs,

Credits 3 cr

PHT 88200 - Pediatrics

Through lecture, laboratory experiences, discussion, videos and assigned readings, the student will be able to examine and understand normal and abnormal human development; theory and practice of physical therapy intervention in developmental disabilities.

prereq: PHT 81000, PHT 84000

Hours 30 hrs,

Credits 2 cr

PHT 86000 - Research Seminar III

Students will complete research project and prepare for a publishable manuscript following protocol in Guide for Authors. Progress toward completion of publishable research project.

prereq: PHT 80900

Hours 15 hrs,

Credits 1 cr

Third Year

(Summer semester)

PHT 88600 - Clinical Affiliation II

A 10 week affiliation in a facility that will serve to further refine and enhance student's skills while building on past clinical experiences.

prereq: PHT 88000 and PHT 88200

Credits 5 cr

10 weeks

PHT 88700 - Clinical Decision Making

This seminar will bring students together to integrate clinical decision making through case studies, case scenarios, administrative issues and the resolution of conflict within the workplace.

prereq: PHT 88000

Hours 1/week,

Credits 1 cr

(Fall semester)

PHT 88000 - Neurological Interventions II

Foundations, assessment procedures, and application of the classical therapeutic exercise with a neurophysiological basis for the treatment of adult and pediatric disorders of the Central Nervous System, with emphasis on the techniques taught by the Bobaths (N. D. T.).

prereq: PHT 81000

Hours 60 hrs,

Credits 2 cr

PHT 88100 - Seminar on Organization and Management

This course is designed to provide information and develop skills to manage an organized physical therapy service.

prereq: PHT 87000, PHT 81000, PHT 86000

Hours 45 hrs,

Credits 3 cr

PHT 88300 - Pharmacology and Systems Review

This course provides an overview of previously covered physiology and pathophysiology of different body systems and provides rationale for use of drugs and other available treatments in different diseases.

prereq: PHT 81000, PHT 85000

Hours 45 hrs,

Credits 3 cr

PHT 88400 - Musculoskeletal Examination and Intervention III

Advanced management of the spine including selective tissue testing techniques.

prereq: PHT 85200, PHT 84000

Hours 75 hrs,

Credits 3 cr

PHT 88500 - Electroneuromyography and Motion Analysis

This course provides the student with the physiological basis and techniques of the electrodiagnostic evaluation of the neuromuscular system through the use of nerve conduction studies and needle electromyography.

prereq: PHT 81000, PHT 84000

Hours 30 hrs,

Credits 2 cr

PHT 87000 - Health Promotion Through the Lifespan

This course defines the role of physical therapy in health prevention, promotion, and wellness.

prereq: PHT 80600, PHT 80700, PHT 80900
Hours 30 hrs,
Credits 2 cr

PHT 88800 - Research Seminar IV

Implement the research project at the locations designated and start data collection once all IRB approval(s) are in hand.

prereq: PHT 88600
Hours 1/week,
Credits 1 cr

PHT 88900 - Colloquium Elective in Physical Therapy

This colloquium will provide students with the opportunity to interact with a renowned expert in physical therapy.

prereq: PHT 79700, PHT 88900
Hours 15 hrs,
Credits 1 cr

(Spring semester)

PHT 88950 - Clinical Affiliation III

This is the third of four clinical internship placements throughout the curriculum.

prereq: PHT 88600, PHT 88800
Credits 5 cr
9 weeks

PHT 89000 - Clinical Affiliation IV

This is the fourth of four clinical internship placements throughout the curriculum.

prereq: PHT 88950
Hours 105 hrs,
Credits 5 cr

PHT 90000 - Research Seminar V

Complete the research project and prepare to submit research to a professional journal.

prereq: PHT 88800
Hours 1 hr/week,
Credits 1 cr

Grading Policy

Academic and Clinical Education Grading Policy Summary

Students are required to maintain a cumulative GPA of 3.0 or above to remain in good academic standing (refer to section on Academic Policies and Regulations in this catalog). Students earning a grade below C in any required academic course in the physical therapy program will not be permitted to continue the sequence of physical therapy courses. A meeting with the faculty will be scheduled to discuss whether the student should take a leave of absence in order to retake the course and reapply for admission at least two months before the beginning of the semester in which the student plans to resume studies. The total time permitted for completion of the physical therapy program curriculum is five years (see section on Degree Requirements in this catalog). This will not prevent the student from continuing at Hunter College in another major area.

If a student repeats a failed course, it is required that a grade of C be earned in the repeated course and that the student's GPA remain above 3.0. If the student earns below a C grade in the repeated course, the student will be offered counseling toward another major area. Students are permitted to repeat only one course while enrolled in the Physical Therapy Program, and they are permitted to repeat that course only once. This policy also applies to clinical affiliation grades, which are credit/no credit (CR/NC). A student is limited to repeating one clinical affiliation throughout the entire curriculum sequence. If a clinical affiliation is graded no credit (NC), the student is placed in one make-up clinical affiliation. This make-up clinical affiliation, and any and all remaining clinical affiliations, must be graded as credit (CR) for successful continuation and graduation from the program. The grade of credit (CR) or no credit (NC) does not influence the student's GPA. If a student withdraws from any course, the Academic Policies and Regulations as stated in the Hunter College Graduate Catalog will be followed.

The grading policy in courses which include a practical (laboratory) examination or checkout as part of the grade is determined by the faculty member teaching the course. Students must pass all practical examinations. The policy for the passing criteria is included in the course syllabus.

1. These courses are scheduled during the first nine weeks of the semester.
2. PHT 80600 is a six-week, full-time clinical externship, which is scheduled for the last six weeks of the fall semester.

Master of Arts - MA

Adolescent Chinese - MA

Program Adviser Fang Dai;

1426 West Building; (212) 772-5062;

fdai@hunter.cuny.edu

The MA program in the teaching of Chinese is designed for students who have majored in Chinese at the undergraduate level and want to pursue a teaching career in adolescent education. This program is not for individuals with initial, professional, or permanent certification in Chinese. The Teacher Education Program in Chinese does not offer an advanced certificate program.

Admission Requirements

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 and a major in Chinese with a grade point average of 3.0, including a minimum of 18 credits in Chinese literature above the intermediate level and oral proficiency at the advanced low level of the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI);

OR

2. Applicants who do not have a Chinese major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits can take two exams to meet the Chinese coursework requirement: the Oral Proficiency Interview (OPI) and the Written Proficiency Test (WPT) administered by American Council on the Teaching of Foreign Language (ACTFL). Candidates must achieve a minimum score of advanced-low on each to meet the admission requirement and must achieve a passing score on the on-site written test in Chinese/English about Chinese literature.

PLUS (for ALL applicants)

3. A general education core in the liberal arts and science to include the following: 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

6. An interview conducted in Chinese/English with program adviser.

7. An on-site English writing sample.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC, SEDF, or CHND course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Adolescent Chinese Course of Study

33-34 credits for students who matriculated before Fall 2011.
37-38 credits for students who matriculated on or after Fall 2011.

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12

The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

prereq or coreq: SEDF 70400 or permission of the adviser

CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

prereq or coreq: CHND 71200 and SEDF 70500 or permission of the adviser

Hours 30 hrs plus 36 hrs fieldwork,

Credits 2

Take Either

CHND 73100 - Student Teaching in Chinese, Grades 7-12

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

prereq or coreq: CHND 71300 or permission of the adviser.

Hours 60 days, 30 hrs seminar plus workshops and conferences,

Credits 5

or

CHND 74110 - Practicum in Chinese, Grades 7-9

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take **CHND 74110** must also take **CHND 74120**.

prereq or coreq: CHND 71200 or permission of the adviser.

Hours 30 hrs plus conferences

Credits 2

plus

CHND 74120 - Practicum in Chinese, Grades 10-12

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take **CHND 74120** must also take CHND 74110

prereq or coreq: CHND 71200 or permission of the adviser.

Hours 30 hrs plus conferences,

Credits 2

Chinese Courses

CHIN 70100 - Chinese Phonology and Romanization

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

Hours 3

Credits 3

CHIN 70300 - Chinese Orthography and Lexicology

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

Hours 3

Credits 3

CHIN 70200 - Modern Chinese Pedagogical Grammar

This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.

Hours 3

Credits 3

Advanced Language and Culture Training (may choose 1 or more)

CHIN 70500 - Topics in Advanced Conversation

This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70600 - Topics in Advanced Writing

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70700 - Topics in Advanced Reading

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70800 - Topics in Chinese Culture and Society

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70900 - Independent Study

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

Notes:

1. *Students who enter with initial or professional certification in adolescent education in another area will not be required to take any SEDC or SEDF courses. They will be required to take all CHIN and CHND courses in the program.*
2. *The minimum number of credits for the degree for students who enter with certification in adolescent education is 24 credits.*
3. *Students without certification may be exempted from up to 6 credits based on prior equivalent course work.*

Culminating Experiences

Professional teaching portfolio - School of Education

Students must pass the School of Education technology assessment.

Adolescent Education

Return to: School of Education

Master's degree and advanced certificate programs at Hunter College prepare prospective teachers to serve as highly effective educators in urban middle and high schools. Through rigorous course work, fieldwork and student teaching experiences in New York City schools, students learn how to provide an academically rigorous education to students of diverse backgrounds, abilities and interests.

Content Knowledge

Courses in the academic discipline offered by the School of Arts & Sciences will deepen teacher candidates' subject knowledge. They will learn how to use knowledge of their subject to design and implement classroom instruction that reflects State and professional standards.

Professional Knowledge

Teacher candidates will learn the theory and practice of effective pedagogy in their subject area. They will gain a grounding in the history, philosophy, psychology and sociology of education that will inform their teaching. They will study research-based theories and methods of teaching their subject to students with special needs, including special education students and English language learners.

Skills

Teacher candidates will learn to design lessons and units of work for students, and to adapt their instruction to students' prior knowledge and level of skill. They will gain expertise in analyzing and using assessments of student achievement to guide and inform their instruction. They will master the use of technology as a tool for teaching their subject. They will learn to manage their classrooms to provide effective instruction for all students. They will practice ways to assess and reflect on their teaching practice in order to strengthen their work with students and grow as professionals.

Creating Community

Teacher candidates will learn to create humane and ethical learning communities in their classrooms and schools in which all students receive the support they need to achieve academically. They will learn to communicate effectively with parents, families, community members and other members of the school faculty and staff in order to provide this support.

Adolescent Mathematics Professional Certificate- MA

Program Coordinator Patrick Burke

1138 West Building; (212) 772-4728;
patrick.burke@hunter.cuny.edu

This 30-credit program provides advanced coursework in methods of teaching mathematics, as well as coursework in mathematics focused on the needs of secondary teachers. It is intended for teachers holding initial certification in mathematics 7-12 and leads to professional certification in adolescent mathematics. It is also intended for teachers who already hold professional or permanent certification and who are seeking to further their knowledge/skills, and gain additional graduate credits. Teachers holding initial, permanent or professional certification in adolescent mathematics may apply to this program. Students who do not hold New York State certification in mathematics should refer to the Adolescent Mathematics program, which leads to initial certification.

The program is designed to increase students' pedagogical and content knowledge in mathematics. Coursework includes courses in the School of Education and in the Mathematics Department of the School of Arts & Sciences.

Admission Requirements

1. Completion of an approved bachelor's degree program with a minimum overall GPA of 2.8
2. New York State Certification to teach mathematics in grades 7-12.
3. Students must have at least 24 undergraduate credits in mathematics with a B average, including courses in Calculus and Linear Algebra.
4. Students who possess a master's degree in mathematics or mathematics education must have a minimum overall GPA of 3.0 in their graduate courses, with a B average in mathematics courses.

Professional Certification in Mathematics Course of Study

Total Credits: 33 credits

(For other courses in Mathematics or Statistics go to, Mathematics and Statistics Department)

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

*Hours 45 hrs,
Credits 3 cr*

SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 62300 - Theory of Numbers

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

prereq: a course in linear algebra

Hours 45 hrs,

Credits 3 cr

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

Electives (Choose 2): Any MATH or STAT 600 or 700 Level Course (6 cr)

Exit Standards

An overall GPA of 3.0.

Students must pass the School of Education technology assessment.

Animal Behavior & Conservation-MA

The growing scientific and public sentiment, awareness, and interest in conservation and animal welfare science and the importance of enrichment for zoo, laboratory, and farm animals, recently reflected in new legislation and in zoo policy has created a growing need for highly trained scientists and professionals. This 36-credit Master's Program within the Psychology Department prepares students interested in animal behavior and conservation (ABC) to develop and enhance their research skills and understanding of the behavior of animals and to acquire credentials for employment in fields related to ABC.

Admission Requirements

Students must hold a bachelor's degree comparable to that from Hunter College. Twelve undergraduate credits in psychology, including courses in statistics and experimental psychology, are generally required; however, students lacking this but with high undergraduate GPA and general GRE scores may be admitted without a strong background in psychology. Applicants are ranked according to their undergraduate grade point average, GRE exam scores, letters of recommendation, and personal statement, as well as prior course work and experience relevant to animal behavior and conservation. Note: There is no foreign-language requirement for the MA in psychology. The GRE advanced test in psychology is not required for admission.

Curriculum

Students who elect the ABC master's degree are required to complete 36 credits, consisting of a minimum of 15 credits in the ABC area in addition to the 12 credits in courses required for all Psychology MA students. All courses carry 3 credits.

Most courses are offered after 5:30 p.m. so that students can work while in the program. The sequence of course offerings enables students taking 3 courses (9 credits) per semester to graduate in 2 years.

Required Courses for all Psychology MA Students: 12 Credits

PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74700 - Experimental Social Psychology

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

This requirement can also be met for ABC students by:

PSYCH 73900 - Research Methods in Animal Behavior (A, B)

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70200 - Proseminar in Psychology

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent

Hours 30 hrs lecture, 30 hrs conf or lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Required Courses for ABC Students: 6 Credits

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Elective Courses for ABC Students: Minimum of 9 Credits

PSYCH 64100 - Comparative Psychology (B)

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 69000 - Independent Research in Psychology – 3 credits

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 73000 - Psychology of Learning (B)

PSYCH 730. Psychology of Learning (B)

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

PSYCH 75400 - Applied Animal Welfare & Behavior (B)

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.

PSYCH 75700 - Animal Thinking and Communication (S, B)

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

prereq: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator

Credits 3

PSYCH 75000 - Special Topics in Psychology

Readings and discussion on a selected problem or topic area – varies from semester to semester.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

*** Note**

Special Topics courses and Independent Research projects related to ABC will depend upon student and faculty interests. Recent topics included *Companion Animals in Society* and *Conservation Biology/Psychology*. ABC students may also meet the ABC-relevant course requirement by taking courses in other departments such as Anthropology and Geography with permission of the Director of the ABC program.

Breadth Requirement

ABC students satisfy a breadth requirement by taking a 3-credit course in the applied psychology area and a 3-credit course in the social/cognitive/developmental area of psychology.

Thesis Requirement

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student's thesis committee, consisting of the supervisor plus at least another reader, and by the ABC Director. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

Anthropology - MA

The Department of Anthropology at Hunter College offers the only master's program in general anthropology within the City University. The program has a commitment to a four-field approach to graduate training, requiring a substantial background in cultural anthropology (ethnology), physical anthropology, anthropological archaeology and anthropological linguistics, in order to prepare students for flexibility in future careers in research, teaching and related fields.

The entire program is scheduled in the evening, to accommodate students who hold full-time jobs.

Virtually all students who complete the MA program and apply to PhD programs at other institutions are admitted to a program.

A substantial proportion of MA students are accepted in PhD programs before completing requirements for the Hunter MA. Hunter MA students may take courses at the CUNY Graduate Center. Most of the Hunter anthropology faculty are also members of the faculty of the Graduate Center doctoral program in anthropology.

Students are encouraged to participate in faculty research, much of which is externally funded, providing limited opportunities for part-time employment. Scholarships are also available for students in the program to participate in field schools and to conduct field research. Write or email the graduate adviser for further information.

Requirements for Admission

In addition to meeting the general requirements for admission, students must have at least 9 credits in undergraduate anthropology or a related field, although in special cases this requirement may be waived.

Requirements for the Degree

1. 30 credits

A minimum of 30 credits beyond the BA

2. Fields of the discipline

The program of study must be chosen to fulfill a general knowledge in all four fields of the discipline. The four fields are: anthropological linguistics, anthropological archaeology, biological anthropology, and ethnology.

3. The following courses are required:

ANTH 70100 - Ethnology (Core Course)

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 75000 - Archaeology (Core Course)

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77000 - Linguistics (Core Course)

Structure of verbal behavior. Analytic description of phonology, grammar, semantics, pragmatics. Language in social action. Language prehistory.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

Additional Information

The examinations in each of these courses represent the qualifying exam for each of the four fields. Students are required to pass those courses with a grade of "B" or better. Students are strongly advised to complete these courses early in their graduate training. Overlaps in undergraduate and graduate course requirements for BA/MA students may justify some adjustments in consultation with the graduate adviser on a case-by-case basis, but qualifying exams will be required in any case. BA/MA students must complete the requirements for both degrees.

4. Foreign language

A reading knowledge of at least one foreign language appropriate to the field of specialization, or a demonstrated competence in statistics

5. A master's thesis

Art History - MA

The MA in art history, granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.

Admission Requirements

Applicants are admitted in both fall and spring semesters. The applicant must have completed 12 credits of undergraduate courses in art history. Reading knowledge of a foreign language (French, German, or Italian) is required. All supporting material requested by the college's Graduate Admissions Office (GRE score, official transcript, two to three letters of recommendation) as well as the completed on-line application form must be supplied by the application deadlines. **Application Deadlines: for fall admission, February 1; for spring admission, October 1.**

Requirements for the MA in Art History (30 cr)

1. Course distribution:

Students are required to take ARTH 60200 (Research Methods in Art History), as early as possible in their course of study. At least one course must be taken in art historical theory or historiography, such as ARTH 73400, or a special topics course directly related to one of these areas. In addition, at least one course must be taken in each of three of the following areas, a, b, c, and d:

- a. Ancient and Medieval Art
- b. Renaissance, Baroque, and 18th-century Art
- c. Modern (19th- or 20th-century) and American Art
- d. Non-Western Art

2. Permission of the graduate adviser:

With the permission of the graduate adviser, candidates for the MA in art history may take up to 6 credits in studio courses or in courses in related areas.

3. Transfer students:

Students may apply for transfer of up to, but no more than, 9 credits from another institution (including the Graduate Center of the City University of New York). Permission to transfer credits is not guaranteed and is considered on a case by case basis.

4. Examinations:

Students must take and pass two examinations before they are permitted to proceed beyond 15 credits. It is recommended that they take these examinations as early in their careers as possible. Both examinations are given once each semester.

Language Examination:

Students must demonstrate their ability to use at least one foreign language as a research tool by passing a written examination in French, German or Italian.

Comprehensive Examination:

Passing a written examination in the history of art is required of all candidates.

5. Mid-program evaluation:

The progress of each student will be reviewed upon the completion of 15 credits. Students will be permitted to proceed if they have demonstrated proficiency in writing and research skills and have passed the comprehensive and foreign language examinations.

6. Incomplete credit:

Students with 6 credits of IN ("Incomplete") will not be permitted to register for courses.

7. Master's thesis:

A thesis is required. The following (Thesis Research) (3 cr) is an elective.

ARTH 79900 - Thesis Research

Limited to matriculated MA students in art who have completed 20 grad cr. Independent research toward MA thesis under direction of faculty member.

Additional Information

For further information write the Graduate Adviser, Art History Program.

Facilities

The department functions in two main locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 450 West 41st Street. The North Building at 68th Street houses the administration and the library and has fully equipped, newly renovated workshops on the 11th floor in photography, graphics, metal, wood, plaster, computer graphics and general painting studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop. The MFA Building houses the graduate studios, the MFA Gallery, and the graduate photo, wood, metal and ceramics studios.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Art Department of Hunter College.

The MFA Gallery at 450 West 41st Street is a 12,000-sq. ft. space renovated by graduate students and faculty.

The entire exhibition program maximizes student and faculty participation to expand the parameters of the graduate programs in both fine arts and art history.

Scholarships and Travel Grants

The Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to \$1,200 each are given every semester to an MA and MFA student. Tony Smith Awards are given to students at the discretion of faculty.

Biochemistry - MA

Return to: Biochemistry

Requirements for Admission

General admission requirements to Hunter's graduate programs are observed including GRE (verbal and quantitative reasoning); TOEFL (for foreign students whose native language is other than English).

In addition, the student must have completed the following courses: general chemistry (including qualitative analysis) (one year), quantitative analysis, organic chemistry (one year), physical chemistry (one semester lecture and laboratory), biology (one year), biochemistry lecture and laboratory (one semester). Deficiencies may be made up during the first three semesters of graduate study.

Requirements for the Degree

Comprehensive Examination or Thesis:

Students may complete the requirements for the MA through either of the following two plans:

- Plan (1): A minimum of 30 credits of course work plus a passing grade in a comprehensive examination.
- Plan (2): A minimum of 24 credits of course work, plus 6 credits from a thesis on an original research problem. The thesis must be approved by the student's adviser, and it must be defended before a thesis committee.

Courses:

The student must complete the following courses from the list below. Note that no more than 10 credits of 600-level courses may be taken.

Plan (1):

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry

Hours 3 hrs,

Credits 3 cr

fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000

Hours 3 hrs,

Credits 3 cr

*Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020
may be substituted, respectively by*

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs,

Credits 3 cr

*Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010
and BIOCHEM U71020.*

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs,

Credits 3 cr

*Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM
U71010 and BIOCHEM U71020.*

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8

Credits 4

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry
Hours 3
Spring only, offered at the Graduate Center

A minimum of two courses in biology (8 or 9 credits) that must come from

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only
or

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,

Credits 4 cr

fall only

or

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

or

BIOL 71014 - Molecular Biology Laboratory

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry

Hours 105 hrs lab and conf,

Credits 4 cr

Fall only

or

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

or

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

Hours 30 hrs/wk for 4 wks,

Credits 4 cr

Additional Information

Any remaining or additional credits may be taken by choosing courses in biology or chemistry as electives.

Plan (2):

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry

Hours 3 hrs,

Credits 3 cr

fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000

Hours 3 hrs,

Credits 3 cr

*Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020
may be substituted, respectively by*

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs,

Credits 3 cr

Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8

Credits 4

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 79901 - Thesis Research

Credits (Master's) 1

BIOCHEM 79902 - Thesis Research

Credits (Master's) 2

BIOCHEM 79903 - Thesis Research

Credits (Master's) 3

offered Fall, Spring, and Summer Open only to students writing a thesis as part of the requirements

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry

Hours 3

Spring only, offered at the Graduate Center

A minimum of 6 credits of courses in biology, with at least one course chosen from

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

or

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

or

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

or

BIOL 71014 - Molecular Biology Laboratory

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry

Hours 105 hrs lab and conf,

Credits 4 cr

Fall only

or

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic

regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

or

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

Hours 30 hrs/wk for 4 wks,

Credits 4 cr

Biological Sciences - MA

Return to: Biological Sciences

The degree is offered either as a terminal degree or as the first year toward the PhD within CUNY. Both introductory and advanced graduate courses are available at Hunter College.

Requirements for Admission

In addition to the general requirements for admission to graduate programs, the following departmental requirements must be met:

1. One year of organic chemistry with laboratory
2. One year of college physics
3. One semester of calculus and a second semester of either calculus or statistics
4. An undergraduate major in biology, botany, physiology, zoology, chemistry, physics, or other appropriate discipline. A minimum of 18 credits in appropriate undergraduate science and mathematics courses should be presented. Chemistry or physics majors must offer at least one year of appropriate life science for admission to any of the majors in the MA program in biological sciences including a semester of genetics, molecular biology or biochemistry.
5. General Test of the Graduate Record Examination (GRE) (verbal and quantitative). Other examination scores, including the MCAT, may not be substituted for the GRE.
6. TOEFL Test for international students with a non-English speaking background.

Requirements for the Degree

The program of course work, planned with the graduate adviser, is concentrated in one of the following major areas: molecular and cell biology, cancer biology, molecular and developmental genetics, molecular neuroscience, and biotechnology.

Required Courses

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

Additional Information

Up to 4 credits of tutorial are accepted toward the degree. Only one 600-level course including courses outside Biological Sciences, such as Biochemistry may be credited toward the degree.

Matriculated Students May Fulfill Requirements for the MA

Matriculated Students may fulfill requirements for the MA through either of the following plans:

- **Plan A - Comprehensive Exam Only:** A minimum of 30 credits of course work plus a passing grade in a written Comprehensive Examination in the areas covered by the four required core courses. The Comprehensive Examination is given annually in June. Only fully matriculated students who have completed all four required courses may take the comprehensive examination.
- **Plan B - Comprehensive Exam and Thesis:** A minimum of 24 credits of course work plus a passing grade in a written Comprehensive Examination and a minimum of 6 credits of original research that is summarized in a written thesis. The completed thesis must be approved by the student's faculty mentor, the MA adviser, and the Office of the Dean of Arts & Sciences at least one month before the expected date of graduation. An oral presentation of the MA thesis is required."

Courses for Non-matriculated Graduate Students

Students with a baccalaureate degree may register for some graduate courses without matriculation. After being admitted as a non-matriculating graduate student, students may take BIOL 70005 - Genetics (fall only) or BIOL 71401 - Cell Biology (spring only) without prior departmental permission. For all other courses, non-matriculating students must get permission directly from the course instructor. Specific graduate courses being offered each semester are listed at <http://registrar.hunter.cuny.edu/subpages/searchclass.shtml>

There is no dedicated adviser for non-matriculating students who want to take graduate Biology courses. Non-matriculating students should see any Biology faculty member during regular office hours for advising. Please contact the department secretary at 212-772-5293 to find out faculty office hours.

Return to: Biological Sciences

Biology with Specialization in Biotechnology - MA

Return to: Biological Sciences

Admission Requirements

GPA 3.0

GRE (general part) to be taken before registering for 700-level courses

Baccalaureate degree in biology or related fields

Degree Requirements

30 credits plus a passing grade on a comprehensive examination or a thesis

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000
Credits 3 months, 4 cr

Core Courses for the MA (21-28 credits)

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

Hours 30 hrs/wk for 4 wks,

Credits 4 cr

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000

Credits 3 months, 4 cr

Electives (5-13 credits)

Additional Information

For additional elective courses, consult department adviser.

Return to: Biological Sciences

Chemistry - MA

An MA in chemistry will be offered. Students will have to receive departmental permission to enroll in the classes they need according to the master's track they wish to pursue.

Dance Pre-K - 12 - MA

Students applying for the MA program in Dance Education have the choice of applying to one of three tracks:

Track 1 - 49-credit MA: Those students who have a minimum of 34 credits in dance but who do not have NYS certification to teach dance in preK-12. This 49-credit program includes 27 credits in education (16 credits taken in the School of Education and 11 credits taken in the Dance Program). An additional 22 graduate credits in dance are required.

Track 2 - 30-credit MA: Those students who already have initial NYS certification to teach dance in preK-12. This 30-credit program includes 8 credits in education taken in the Dance Program in addition to 22 credits in dance.

Track 3 - 30-credit MA: Those students who have initial NYS certification in a subject area other than dance and have a minimum of 34 credits in dance. This 30-credit program includes 8 credits in education taken in the Dance Program in addition to 22 credits in dance.

Admission Requirements

All applicants to the MA in Dance Education must complete and submit the on-line Hunter Graduate School application. Minimum requirements for admission include:

A. Matriculation Requirements for Teacher Education Program in Dance

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average of 2.8.
2. A minimum of 34 credits in dance with a grade point average in dance of 3.0.
3. For Track I only: A general education core in the liberal arts and sciences to include the following (in addition to dance): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. DVD or link to 1-3 clips of your creative work - between 5-15 minutes in total and a curriculum vitae. For more information on the additional admission requirements, visit the Dance program website: www.hunter.cuny.edu/dance.

Meeting the minimum requirements for admission does not guarantee acceptance to the program, which is based on the limitations of space and resources. Selected candidates, based on review of application, will be invited to an on-campus audition/interview.

B. Admission with Conditions

A student who is otherwise qualified for the MA in Dance but who has not completed all program prerequisites may be admitted with conditions, provided deficiencies do not exceed 12 credits. Work to remove conditions must begin in the first semester and be completed in no more than three consecutive semesters. Any course taken to satisfy a deficiency will not be credited towards the Master's Degree in Dance.

Dance Course of Study

Track I

49 Graduate Credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr*

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
Credits 1 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance

Hours 3 hrs + 36 hours of fieldwork

Credits 3 cr.

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000

Hours 3

Credits 3

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200

Hours 60 days + 15 hours seminar

Credits 5

Students must apply in the fall semester if they have completed prerequisite courses and expect to student teach in the spring, and in the spring semester if they wish to student teach in the fall. All field placements are designated by Hunter College in New York City public schools. Scores on the LAST and the ATS-W exams must have been received by the coordinator of adolescent education prior to enrollment in student teaching. The dance content exam scores are required before graduation.

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program

Hours 3

Credits 2

Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background

Hours 3

Credits 3

DAN 73000 - Studies of Forms

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department

Hours 3

Credits 3

This course is repeatable once for credit.

DAN 73500 - Performance and Presentation

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA, MA

Hours 3

Credits 1

This course is repeatable once for credit.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs

Hours 3

Credits 3

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.

Hours 3

Credits 3

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

prereq: Admission to one of the graduate dance programs

Hours 3

Credits 3

Can be repeated for credit with different content areas

Track II

30 Credits

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance

Hours 3 hrs + 36 hours of fieldwork

Credits 3 cr.

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000

Hours 3

Credits 3

DANED 76400 - Practicum

Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: DANED 76000, DANED 76200

Hours 2 hours and 15 hour seminar required

Credits 2

Students must apply in the fall semester if they have completed prerequisite courses and expect to register for Practicum in the spring, and in the spring semester if they wish to register for Practicum in the fall.

Open to MA/Dance Track 2 students with initial certification in dance OR by advisement, Track 1 students who are currently teaching dance in accredited schools that do not require teacher certification in dance.

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program

Hours 3

Credits 2

Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background

Hours 3

Credits 3

DAN 73000 - Studies of Forms

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department

Hours 3

Credits 3

This course is repeatable once for credit.

DAN 73500 - Performance and Presentation

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA, MA

Hours 3

Credits 1

This course is repeatable once for credit.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. prereq: Admission to one of the graduate dance programs

Hours 3

Credits 3

Can be repeated for credit with different content areas

Track III

30 Credits

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance

Hours 3 hrs + 36 hours of fieldwork

Credits 3 cr.

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000

Hours 3

Credits 3

DANED 76602 - Student Teaching

Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200

Hours 20 days plus 15 hour seminar

Credits 2

Students must apply in the fall semester if they have completed prerequisite courses and expect to student teach in the spring, and in the spring semester if they wish to student teach in the fall. All field placements are designated by Hunter College in New York City public schools. Scores on the LAST and the ATS-W exams must be received by the coordinator of adolescent education prior to enrollment in student teaching. The dance content exam scores are required before graduation.

Open to Track 3 students with initial certification in a subject area other than dance OR by advisement for students who are currently teaching dance in accredited schools that do not require teacher certification in dance.

All students must, the semester before taking this course, apply for student teaching through the education division and the dance program.

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program

Hours 3

Credits 2

Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motion training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

Credits 3

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

prereq: Admission to one of the graduate dance programs

Hours 3

Credits 3

Can be repeated for credit with different content areas

Economics - MA

Hunter's master's program in economics equips students with analytic tools that can be directly applied to business and public policy. The program integrates economic theory, quantitative methods and practical applications, and emphasizes elective courses in international trade and finance, economic development, financial economics, industrial organization, corporate governance, labor economics and public finance. Hunter MAs regularly move into interesting, well-paid positions in business, government, and international organizations. They are equally prepared to enter PhD programs at top-ranking universities.

Under the direction of professors who combine distinguished academic credentials with wide experience in economic research and applications, students studying for an MA at Hunter may participate in such major ongoing projects as: taxation, government spending, and economic growth; earnings of immigrants and minority groups; saving and investment in rural economies; taxation and the regional economy; social security and public welfare; tax competition; health outcomes; corporate investment and financial decisions; regulatory policy; corporate control; location choices of immigrants.

The program is offered in the evening to accommodate students who hold full- and part-time jobs.

Requirements for Admission

Applicants to the MA program in economics must provide their scores on either the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT). In addition to the other general requirements for graduate admission to Hunter, the following departmental requirements must be met: at least 18 credits of undergraduate courses in economics, at least 9 credits of undergraduate courses in mathematics, and two letters of recommendation from college teachers, including one from a member of an economics department. The credits in economics must include at least six in principles of economics, and at least three in each of the following courses: economic statistics, introductory econometrics, intermediate microeconomics, and intermediate macroeconomics. The credits in mathematics must include two semesters of calculus and one of matrix algebra. Intermediate microeconomics, intermediate macroeconomics, introductory econometrics, calculus I and II, and matrix algebra are prerequisites for required courses in the MA program.

Students who have not completed these courses at the time of admission will be required to complete the needed course(s) during their first semester at Hunter. (Completion of such courses cannot be counted towards the MA.)

Requirements for the Degree

Of the 30 credits required for the degree, at least 24 must be devoted to courses in economics. The remaining 6 may be taken in related fields with permission of the department. All candidates are required to complete the following.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 70300 - Macroeconomic Theory

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 72100 - Economic Statistics

Rigorous statistical foundation for the study of econometrics. Topics include probability theory; asymptotic theory; parameter estimation; hypothesis testing; least squares regression; matrix algebra.

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500

ECO 72200 - Econometrics

Econometric methods for single equation models; ordinary least squares, generalized least squares, and variance estimation; maximum likelihood and limited dependent variables.

prereq: ECO 72100
prereq or coreq: MATH 16000

The degree can be earned in two ways:

1. Completion of 27 credits of course work and 3 credits of Thesis Research. Students must submit a satisfactory master's thesis written under the supervision of a member of the economics faculty.
2. Completion of 30 credits of course work. Students must prepare a supervised extended research paper in two of their courses and earn at least a B+ on each paper.

English - MA

The MA program in British and American literature offers opportunities for both professional advancement and personal development. It may be taken as a terminal course of study or as preparation for doctoral work in English or other humanities fields. In addition to the usual lecture, discussion, and seminar classes, the program offers reading tutorials and the opportunity for writing a research essay under the guidance of a senior faculty member.

Admission Requirements

In addition to the general requirements for admission, the following departmental requirements must be met: 18 credits of advanced undergraduate courses in British and American literature (exclusive of courses in journalism and writing),

a writing sample of about 10 pages (preferably an undergraduate research paper) and the GRE General Test. Students who have done their major work in English in non-English-speaking countries are usually not eligible for admission to graduate courses in English without additional undergraduate preparation in an American college or university.

Degree Requirements

Courses

Each candidate must complete an approved program of study of at least 30 credits, which must include ENGL 78900 (Master's Thesis). We strongly recommend that students take ENGL 78700 (Studies in Literary Theory and Criticism) in their first or second semester. Courses other than those offered in the Department of English may be credited toward the 30 credits with the approval of the graduate adviser but they may in no case exceed 6 credits. Six credits of relevant graduate work done at another institution may be credited when approved by the graduate adviser.

ENGL 78700 - Studies in Literary Theory and Criticism

An in-depth investigation of foundational and current trends in literary theory.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Foreign Language

The candidate must demonstrate a reading knowledge of French, German, Latin or Spanish. Another language may be substituted with the approval of the graduate adviser.

Comprehensive Examination

The candidate must pass a written comprehensive examination in British and American literature.

Master of Arts Thesis

The candidate must submit a satisfactory master of arts thesis, incorporating original work and research, which will be approved by two appropriate members of the faculty and the graduate adviser. Two copies prepared for binding are required.

Nonmatriculants

After applicants have been accepted by Hunter College as nonmatriculant students, their records must be evaluated prior to registration by the graduate adviser before they can be admitted to English Department courses. Acceptance by Hunter College does not guarantee acceptance by the Department of English. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

Geography - MA

Return to: Geography Department

The Department of Geography offers a Master of Arts in Geography with a range of courses in human geography, physical geography, regional geography, and geographic techniques and methods. There are four broad concentration areas: environmental studies, geographic information science, places and cultures, and urban geography studies. The program accommodates students with a variety of professional backgrounds, and with academic training in social sciences, computer science, environmental science / engineering as well as traditional geography.

The program emphasizes geographic theory, skills, and analytical methodologies in social, physical, and environmental geography, as well as geographic information science. A limited number of research, teaching, and college assistantships are available. The MA degree can be completed through either a thesis or a non-thesis option. Full-time students may be able to complete the M.A. within three semesters, but the average time for degree completion is three years. Many courses are offered in the evening to accommodate part-time and working students.

An MA in Geography from Hunter can lead to employment with local and national governments, international agencies, non-government organizations, corporations, consultants and information technology companies. The New York area is home to diverse urban communities, dynamic economies and cultures, government structures of all levels (from local to international), and corporate headquarters. Located on Manhattan's upper east side, Hunter College is close to these activities. Students who wish to continue graduate work at the PhD level will find themselves well prepared and equipped with the research and technical skills necessary for advanced research.

Admissions Requirements

Admissions procedures are as established by the Hunter College Office of Graduate Admissions. Candidates must have a BA or BS or equivalent, an undergraduate GPA of at least a B minus, with a B average in the major, and (normally) the completion of at least 18 credit hours in geography. A lack of a background in geography will not impede admission, but the student is expected to gain basic knowledge of geography prior to graduation in consultation with the student's adviser. It is recommended that students enter the program with knowledge of basic statistics. All students are required to take the Graduate Record Examination. Foreign students whose first language is not English must take the Test of English as a Foreign Language. Two letters of recommendation are required.

If you have any questions about the information in this catalogue, please contact the Geography MA advisor (Prof. Allan Frei, afrei@hunter.cuny.edu)

Application Deadlines

For fall semester: April 1 (February 1 for international students) For spring semester: November 1 (September 1 for international students)

We encourage graduate application submissions by early deadlines of September 1 and February 1. This will help with allocation of scholarships and funding if these are available.

Requirements for the Degree

The Master of Arts consists of 31 or 36 graduate credits, depending on the program option chosen, selected from three types of courses: **GEOG**, **PGEOG** and **GTECH**. **GEOG** classes cover human geography, nature/society, and regional geography, while **PGEOG** classes cover physical geography and environmental science. **GTECH** courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing, and cartography. Classes vary in their structure from laboratory classes to lecture/discussions and seminars. Graduate courses outside of the **GEOG**, **GTECH** and **PGEOG** prefixes may be applied to the degree within the parameters listed below.

Students must complete a minimum of credits in one of the following options:

A. Thesis Option:

A minimum of 31 credits consisting of:

1. A minimum of 30 credits of course work consisting of

(exclusive of GEOG 799)

GEOG 70100, 70200, 70154 (7 cr)

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference

Credits 3

spring only

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,

Credits 1 cr

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

A minimum of 11 additional credits

A minimum of 11 additional credits selected from GEOG, GTECH and PGEOG courses.*

A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH or PGEOG courses as approved by the graduate adviser. **

2. One credit of the following leading to a thesis approved by the student's graduate advisers

GEOG 79900 - Thesis Research in Geography

Open to students electing the thesis option only.

prereq: GEOG 701 and permission of the department

1-6cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

3. Formal approval of a study proposed for thesis research.***

4. A completed thesis.

5. A formal presentation of the student's thesis research.

B. Examination Option:

A minimum of 36 credits consisting of:

1. Geography (7 cr)

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,

Credits 1 cr

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference

Credits 3

spring only

A minimum of 17 additional credits

A minimum of 17 additional credits selected from GEOG, GTECH, and PGEOG courses.*

3. A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH, and PGEOG courses as approved by the graduate adviser.**

4. A passing grade on the comprehensive examination

A passing grade on the comprehensive examination conducted by the student's graduate committee.

5. A research paper of publishable quality

A research paper of publishable quality prepared in the format of *The Professional Geographer* or its equivalent.

6. A formal presentation of the student's research paper.

Additional Information

Students who are accepted into the program, who have already earned credits with a grade of B or higher as nonmatriculated students, may transfer only two (2) courses or eight (8) credits, whichever is greater, from nonmatriculated status to matriculated status. In exceptional situations, up to 12 credits earned as a nonmatriculated student may be transferred to matriculated status.

Although both options may prepare students for additional graduate work, the thesis option is recommended for those who might wish to pursue the PhD in geography or an allied field. The examination option is recommended for students seeking a terminal MA.

Students who are accepted into the Geography MA program and register for courses may transfer up to a maximum of 9 credits of relevant graduate coursework from regionally accredited institutions, including courses taken at Hunter College while enrolled in another degree program, whether a master's degree was awarded or not. Transfer of credits is subject to review and approval by the Graduate Adviser. Applicants to this program should be aware that there is no promise of automatic transfer of credit on the graduate level. With the approval of the Graduate Adviser, students may include up to 9 credits of graduate-level courses taken outside the Department of Geography at Hunter College toward completion of their degree, including transferred courses and courses taken in other CUNY graduate programs. (Exception: students who have received their B.A. in Geography or Environmental Studies from Hunter College may, with the approval of the Graduate Adviser, include up to twelve credits taken outside the department.)

Language Requirement

A foreign language is not required for the MA in geography. However, students interested in regional studies or further graduate work are strongly encouraged to master a foreign language. Students emphasizing technical skills are strongly encouraged to master one or more computer programming languages.

Completion Time

The School of Arts and Sciences allows four years to complete a MA degree. A petition to the Dean is required to exceed the limit. Most full-time students are able to complete the MA requirements in 4 semesters or fewer. To accommodate all students, many courses are offered during the evening.

Assistantships

A limited number of teaching and research assistantships are available from the department. Students seeking assistantships should state so in their statement of purpose included with the application. They should also indicate what skills and qualifications they have for research or teaching assistance.

Note(s)

** Graduate students entering the program without a geography background will be required to take 6 credits in geography outside their principal area of concentration (GEOG, PGEOG or GTECH).*

*** Graduate students entering the program without a geography background will be limited to 6 credits taken outside the program. Students who were undergraduate majors in geography can appeal to the Graduate Committee to take more than 12 credits outside the program.*

**** Students must submit to their committee the proposal for thesis research no later than the end of the semester in which they finish their 20th credit in the program.*

Return to: Geography Department

Graduate Adolescent Education Course Sequence: Mathematics Track I

(37-39 credits)

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr*

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

Take Either

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

Or One of the Following

SEDC 76310 - Student Teaching in Mathematics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.

SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320 .

prereq: SEDC 72300

Hours 30 hrs plus conferences,

Credits 2 cr

Plus One of the Following

SEDC 76320 - Student Teaching in Mathematics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310 .

prereq: SEDC 723, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Mathematics and Statistics Department Courses for Track I

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

MATH 64000 - Topics in Calculus

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

prereq: MATH 63000

Hours 45

Credits 3

Open only to Teacher Education Program students

MATH 66100 - History of Mathematics

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

Hours 45

Credits 3

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

Culminating Experiences

- Comprehensive examination in two parts: mathematics and pedagogy
- Professional teaching portfolio

Note(s)

* Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser. See mathematics and statistics department.

See the Mathematics and Statistics section of the catalog for information about the comprehensive examination in mathematics.

Graduate Adolescent Education Course Sequence: Mathematics Track II

(34.5-38 credits)

Note: The course sequence listed below is minimal. A transcript review will determine which, if any, additional courses from the full pedagogical sequence (see Track I) will be required.

Education Courses

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

One of the Following:

SEDC 76310 - Student Teaching in Mathematics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.

SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320 .

prereq: SEDC 72300

Hours 30 hrs plus conferences,

Credits 2 cr

Plus One of the Following

SEDC 76320 - Student Teaching in Mathematics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310 .

prereq: SEDC 723, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Mathematics and Statistics Department Courses for Track II

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

MATH 64000 - Topics in Calculus

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

prereq: MATH 63000

Hours 45

Credits 3

Open only to Teacher Education Program students

MATH 62100 - Introduction to Abstract Algebra

Introduction to the theory of groups and rings.

prereq: a course in linear algebra

Hours 45 hrs,

Credits 3 cr

MATH 62300 - Theory of Numbers

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

prereq: a course in linear algebra

Hours 45 hrs,

Credits 3 cr

MATH 66100 - History of Mathematics

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

Hours 45

Credits 3

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

Electives

- Courses in math and statistics or such areas as computer science, with approval of graduate mathematics adviser. 4 1/2 – 6 cr

Culminating Experiences

- Comprehensive examination in two parts: mathematics and pedagogy
- Professional teaching portfolio

Note(s)

** Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser. See mathematics and statistics department.*

History - MA

The MA is offered either as a terminal degree or as the first year (30 credits) of work toward fulfilling the requirements of the PhD within the City University. The university's doctoral program in history is described in the Bulletin of the Graduate Center. <http://web.gc.cuny.edu/History/>

Advanced doctoral seminars and university colloquia are offered at the CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016.

Requirements for Admission

General admission requirements to the graduate programs in the arts and sciences are observed. Eighteen undergraduate credits in History, a 3.0 average, and satisfactory GRE scores are required, as well as two letters of recommendation.

Requirements for the Degree

Each candidate must complete an approved program of study of at least 30 credits, including the thesis seminar, with a B average. Students will be strongly encouraged to take the following two courses: HIST 78000 - History Colloquium for First-Year MA Students and HIST 79000 - Research Methods for First-Year MA Students, a colloquium and a research methods course. Courses other than those in the Department of History at Hunter College may be credited toward the 30 credits with the approval of the graduate adviser, but they may in no case exceed 9 credits.

A reading knowledge of one foreign language is required, to be determined by a written examination offered twice per year. The choice of language must have the approval of the graduate adviser.

After completion of all other requirements, the candidate for the degree must present a satisfactory master's thesis prepared in conjunction with the thesis seminar (HIST 77900), approved by two faculty scholars in the appropriate field of history and the graduate adviser. Guidelines for the writing of the master's thesis are available from the graduate adviser online and in the History Department office.

Mathematics: Pure Mathematics - MA

Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in math. But there are always several with an undergraduate degree in a related topic and a few students, whose undergraduate background is completely unrelated. In both of these cases the students filled out their math background prior to applying for admissions.

Students use this program for various purposes. Many use their added math background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Admission Requirements for the MA in Pure Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. The Department's requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other fall semester in even numbered years The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

and at least one of

MATH 72200 - Modern Algebra II

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other fall semester in odd numbered years The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

or

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every spring semester

The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

2. Analysis Requirement

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and L_p spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 45

Credits 3

and at least one of

MATH 74200 - Analytic Functions

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

prereq: MATH 35300 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other spring semester in even numbered years.

A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

or

MATH 74700 - Theory of Functions of a Real Variable II

L_p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

Offered in alternate years during the summer session. The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74700, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

3. Geometry and Topology Requirement

at least one of

MATH 75100 - General Topology

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

prereq: advanced calculus or permission of Department

Hours 45

Credits 3

or

MATH 75000 - Calculus on Manifolds

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

prereq: MATH 26000 and MATH 35200 or permission of the instructor.

4. Elective Course Requirement (15 credits)

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department's course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

5. Written comprehensive examination

Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Note

For further information on the MA in Pure Mathematics, please contact Professor John Loustau: jloustau@msn.com.

Music - MA

Return to: Music Department

The MA program in music offers students an opportunity to grow as musicians by refining and augmenting their skills as scholars, teachers and performers. The department encourages its graduate students to take courses both of a broad scope and of a detailed nature. The latter courses mark the beginning of professional specialization. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see <http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons> for details). Students may also study with an outside teacher of their choice, pending approval by the Music Department.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, music history, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

Requirements for the Degree

The following programs are required for students concentrating in composition, ethnomusicology, music history, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

Core courses required of all students:

MUS 70000 - Music Bibliography and Research Techniques

Study of sources and bibliographical methods as applied to musical material.

*Hours 45 hrs,
Credits 3 cr*

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses
Hours 45 hrs,
Credits 3 cr*

MUS 72500 - Advanced Studies in Music Theory 2

Analysis and theory of compositional styles from 1900 to the present.

*prereq: 4 sem. of undergraduate music theory courses
Hours 45
Credits 3*

-OR-

MUS 75300 - Transcription and Analysis in Ethnomusicology

Critical examination and application of contemporary techniques to selected examples from various cultures.

*Hours 45
Credits 3*

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 45
Credits 3*

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 77500 - Seminar in Ethnomusicology 1

A history of the discipline; the development of theories and methods; selected problems.

Hours 45

Credits 3

-OR-

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

Hours 45

Credits 3

-OR-

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 45

Credits 3

Required courses for each concentration (may be modified with permission of the graduate adviser):

Composition: 9 cr

MUS 73100 - Composition 1

Fundamental musical materials and compositional techniques of the 20th century. Students will complete weekly compositional exercises, each emphasizing a specific technique.

Hours 45

Credits 3

MUS 73200 - Composition 2

A continuation of the study of compositional techniques of the 20th century through reading, analysis, and practice. Students will complete several small works intended for performance.

Hours 45

Credits 3

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Credits 3

Ethnomusicology: 9 cr

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

Hours 45

Credits 3

ANTH 70100 - Ethnology (Core Course)

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

Note(s)

MUS 75300 and MUS 77500 must be included in core.

History: 9 cr

MUS 76000 - Seminar in Music History

Problems in research and analysis in selected areas of music history.

Hours 45 hrs,

Credits 3 cr

May be taken twice for credit.

Must be taken twice

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

Theory: 9 cr

MUS 74000 - Seminar in Music Theory and Analysis

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

Hours 45

Credits 3

May be taken 3 times for credit.

Must be taken twice

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

Note

MUS 72500 must be included in core.

Performance: 9 cr

MUS 78100 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

MUS 78200 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78300 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

Electives in all concentrations: 3 cr

Foreign Language

The candidate must demonstrate a reading knowledge of a foreign language, preferably French, German, or Italian. The foreign-language examination must be passed before a student may proceed beyond 18 credits.

Proficiency Examination

Students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Thesis or Final Project

A final project consisting of a thesis, a public recital, or another approved piece of work (such as a research project in music education, a lecture-recital, or an internship plus a written report) is required of each student. This project may receive 0-3 credits, depending on the nature and scope of the work involved. A written proposal must be approved by the music department before a student may begin work on the project. Approval of the completed project requires the agreement of two faculty members.

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Credits 3

Music Education: Pre-K-12 – MA

Education Adviser Carla Asher; (212) 772-4621; 1000 West Building; carla.asher@hunter.cuny.edu

Music Department Adviser Victor Bobetsky; (212) 650-3574; 400A North Building;
victor.bobetsky@hunter.cuny.edu

The MA program in the teaching of Music is designed for students who have majored in music on the undergraduate level and want to pursue a teaching career in K-12 education. This program is not for individuals with initial, professional, or permanent certification in Music. The Teacher Education Program in Music does not offer an advanced certificate.

Admission Requirements

Applicants must be admitted by both the School of Education and the Music Department.

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. A major in music (with a minimum of 24 credits) or the equivalent. See the Music department section of the Hunter College catalog for additional requirements.
3. A general education core in the liberal arts and sciences to include the following (in addition to music): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (with at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references to be included with the application for admission.
5. A personal statement to be completed as part of the application for admission.
6. An audition and interview.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Music Education Course of Study

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45*

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400

Hours 45 hrs plus 18 hrs of fieldwork

Credits 2

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700

prereq or coreq: SEDF 70500

Hours 45 hrs plus 18 hrs fieldwork,

Credits 2

Take either

SEDC 75600 - Student Teaching in Music, Pre-K–12

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800, SEDF 70600

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

-or-

SEDC 77610 - Practicum in Music, Grades Pre-K–6

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620 .

prereq: MUSED 67800, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

plus

SEDC 77620 - Practicum in Music, Grades 7–12

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800, SEDF 70600

Hours 30 hrs plus conferences,

Credits 2 cr

Music Department Courses

MUS 64100 - Strings

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 225

Credits 1

MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

prereq: 4 sem. of undergraduate music theory courses

Hours 45 hrs,

Credits 3 cr

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 45

Credits 3

Music electives: Courses chosen in consultation with graduate adviser

** Students who have studied these subjects at the undergraduate level may be exempted from these requirements.*

*** Please note that students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.*

Culminating Experiences

Professional teaching portfolio

School of Education

Total credits: 39-46 credits

Exit Standards

1. An overall GPA of 3.0

2. Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

3. A project involving research is required of each student in the teacher education program. On completion of the courses of study and after approval of the project by the Graduate Faculty Committee, a candidate will be examined

orally on the topic of the project and related issues. Students may register for 1 credit of independent study (MUS 791) if they wish to receive credit toward the MA degree for work done in fulfilling the TEP Project.

4. Students must pass the School of Education technology assessment.

Physics - MA

The MA in physics is offered as a terminal degree, either separately or as part of the BA/MA program. The MA in physics may also, with the approval of the CUNY Graduate Center, form part of the degree work required for the CUNY PhD degree. Thesis research toward the CUNY PhD may also be carried out at Hunter College.

Admission Requirements

Applicants must meet Hunter's general admission requirements; however, the physics department no longer requires the Graduate Record Examination. In addition, the following departmental requirements must be met:

1. A minimum of 36 credits total in undergraduate physics and mathematics courses. These should include intermediate mechanics, electricity, modern physics, and differential equations. A B average is required for these courses.
2. Approval by the department's Graduate Physics Committee. If deficiencies are noted in certain undergraduate courses, the applicant may be required to take these courses without graduate credit.

Degree Requirements

1. Program of courses

A program of courses designed in consultation with the graduate adviser and approved by the department's Graduate Physics Committee.

2. Completion of 30 credits of graduate work including:

- a. Not more than 6 credits earned at a graduate institution other than CUNY.
- b. At least 15 credits earned at Hunter College.
- c. The following courses or their equivalents:

PHYS U70100 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71100 - Analytical Dynamics

Study of advanced classical mechanics.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71500 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72500 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

d. No more than 6 credits in 600-level courses.

Note(s)

The courses listed in sections 2(c) and 2(d) are generally offered during the daytime hours.

3. Mathematics, Astronomy, Engineering, and Physical Chemistry

A maximum of 9 credits may be accepted in physics department approved graduate courses in mathematics, astronomy, engineering, and physical chemistry.

4. Comprehensive examination

The candidate will be required to pass a comprehensive examination based on the required courses listed in section 2(c) above or complete a thesis, under a faculty member's supervision, that is approved by the department's Graduate Physics Committee. The first PhD exam may be substituted for the comprehensive examination.

5. Residence of two semesters

A minimum residence of two semesters at Hunter College. Courses taken as a nonmatriculant may be counted toward the degree upon matriculation with the approval of the department's Graduate Physics Committee.

6. There are no foreign language requirements.

Financial Aid

Financial aid is not generally available from the department for MA students.

Psychology - MA

The MA degree is in general psychology, but students may focus their course work, independent study, and thesis research in one of three content areas: (1) applied and evaluative psychology; (2) social, cognitive, and developmental psychology; (3) biopsychology and comparative psychology. Students interested in animal behavior and conservation may choose the MA in Animal Behavior & Conservation offered by the Psychology Department.

1. Applied and evaluative psychology. Faculty research interests include topics in personality, psychopathology, theories of therapeutic methods, group dynamics, health and gender, stress and stress management, substance use, tests and measurements. Although the department offers theoretical courses on clinical topics, it does not offer supervision in counseling or therapy.
2. Social, cognitive, and developmental psychology. Faculty research interests include multicultural issues, cognitive and linguistic development, discursive social psychology, gender and cognition, attitudes, political psychology, psycholinguistics, decisionmaking, memory function in different populations.
3. Biopsychology and comparative psychology. Faculty research interests include hormonal influences on and neural control of behavior, mechanisms of drug abuse, developmental neuroscience, vision, animal learning and comparative cognition, evolution of behavior, animal orientation and communication, cerebral specialization of function.

Research Opportunities and Facilities

Students are encouraged to engage in research under faculty supervision. Laboratories at Hunter College provide specialized equipment for studies on human and animal physiology, acoustic analysis, human and animal learning, language and cognitive development, social development, and social psychology. Research is also possible at facilities of other universities and organizations where individual faculty members engage in collaborative research.

Requirements for Admission

Applicants are evaluated on the basis of their undergraduate grade point average, general GRE scores, background in psychology, two letters of recommendation (preferably from college instructors), and a statement of intellectual and research interests. Generally a minimum of 12 undergraduate credits in psychology, including one course in statistics and one laboratory course in experimental psychology are required; however, students who have a high undergraduate grade point average and high general GRE scores but lack a full psychology background may apply for admission. Such students may be required to take preparatory statistics and experimental courses. Note: There is no foreign-language requirement for the MA in psychology. The GRE advanced test in psychology is not required for admission.

Requirements for the MA Degree

Each candidate is required to complete an approved program of study including a thesis. A minimum of 30 credits is required for the general Psychology MA.

Required courses for all MA students (12 credits):

PSYCH 70200 - Proseminar in Psychology

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent

Hours 30 hrs lecture, 30 hrs conf or lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73900 - Research Methods in Animal Behavior (A, B)

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74700 - Experimental Social Psychology

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Breadth Requirement

One course selected from each of the following three categories. See the course listing for category or categories into which each course falls.

1. A (applied and evaluative psychology)
2. S (social, cognitive, and developmental psychology)
3. B (biopsychology and comparative psychology)

Thesis Requirement

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student's thesis committee, consisting of the supervisor plus at least another reader, and by the graduate adviser. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

Financial Assistance

The college offers some financial aid programs through the Financial Aid Office. Students should consult that office for information. In addition, some faculty have research grants on which students can work as research assistants. Small grants and awards for funding MA research are sometimes available.

Research/Industrial/Teaching Chemistry - MA

Requirements for Admission

General admission requirements to the graduate programs in the Arts and Sciences are observed.

Departmental Requirements for Matriculation

Undergraduate record:

1. Undergraduate work in chemistry to include a minimum of one-year courses in each of the following fields: general, analytical, organic, and physical chemistry, or their equivalents.
2. A strong record in all undergraduate chemistry courses and a general undergraduate record indicating ability to profit from graduate study. Performance on the Graduate Record Examination and letters of recommendation are also considered.

Departmental Requirements for the Degree

A. Residence

A minimum residence of two full semesters or four half-time semesters.

B. Course distribution

1. 30 graduate credits

A minimum of 30 graduate credits.

2. Required courses (one semester each)

The department graduate committee may at its discretion waive or modify some of these required courses for students who have had the equivalent training. In such cases the student may be required to show competence through formal or informal examination.

CHEM 71000 - Advanced Inorganic Chemistry

The theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

prereq: an advanced undergraduate inorganic chemistry course or CHEM 76000

Hours 45 hrs,

Credits 3 cr

CHEM 75000 - Advanced Organic Chemistry I

Fundamentals of organic chemical principles, reactions and structures.

*Hours 45 hrs,
Credits 3 cr*

CHEM 76000 - Introductory Quantum Chemistry

Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

*Hours 45 hrs,
Credits 3 cr*

CHEM U79000 - Basic Laboratory Techniques for Research in Biochemistry

Lecture and laboratory work dealing with the theories and applications of modern approaches to the solution of chemical problems.

Credits 4 cr

CHEM 64300A - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

CHEM 64300B - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

Total 15

3. Proficiency

Students must be able to demonstrate proficiency in laboratory techniques. Students unable to demonstrate such proficiency may be required to take whatever laboratory work the graduate committee deems necessary.

4. Foreign language

Demonstrated ability to read and utilize in research the foreign language chosen from French, German, or Russian, most closely related to the student's program of graduate study.

5. Mathematics, Physics and Chemical Engineering

Graduate courses in mathematics, physics and chemical engineering up to maximum of 6 credits may be taken with the approval of the departmental committee.

C. Comprehensive examination

A comprehensive examination will be required of all candidates.

Romance Languages (French, Italian, Spanish) - MA

The master's degree in French, Italian, or Spanish provides opportunities for professional advancement in teaching and professional fields that require a good knowledge of other languages and cultures. It is also a means of intellectual development for those who want to expand their knowledge in the humanities.

The MA may be taken either as a final degree or as preparation for doctoral work. It is accepted in lieu of the first year of study in the PhD program at the City University. See the Bulletin of the Graduate Center for a description of the PhD programs.

Requirements for Admission

Admission to graduate study is contingent upon admission requirements of Hunter College and upon approval by a departmental committee. Where general scholarship is superior, but the applicant did not major in the field, or preparation in that field is deemed to be insufficient, an examination and/or enrollment in specified undergraduate courses will be required. Before matriculation, applicants must demonstrate proficiency in the language of specialization.

Requirements for MA

1. Courses.

A total of 30 credits from the Literature of Specialization including a Thesis Seminar (3cr) for those students electing to write a master's essay.

2. Languages.

In addition to a high degree of competence in the language of specialization, candidates must demonstrate a reading knowledge of a second Romance language, German, or Latin.

3. Comprehensive Examination.

Candidates must pass a written examination on the field of study, in the language of specialization.

4. Master's essay.

The master's essay is optional. Topic is determined in consultation with the principal adviser. Thesis Seminar, to be taken concurrently with preparation of the essay, is completed when the essay is approved by the principal adviser and another faculty member.

Statistics and Applied Mathematics - MA

Three program sequences are available for the MA in Statistics and Applied Mathematics, Track I: Statistics and Track II: Applied Mathematics, Track III: Bioinformatics.

- Statistics and Applied Mathematics - Track I: Statistics
- Statistics and Applied Mathematics - Track II: Applied Mathematics
- Statistics and Applied Mathematics Track III: Bioinformatics

Statistics and Applied Mathematics - Track I: Statistics

[Return to: Programs and Courses in Mathematics and Statistics](#)

Admission Requirements for Track I: Statistics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (Math 260) and one semester of Multivariate Calculus (Math 250). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Statistics

Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 45 hrs,

Credits 3 cr

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

STAT 70700 - General Linear Models II

A review of multivariate linear model and maximum likelihood estimation. Nonlinear regression models. Logistic and Poisson regression models. Family of generalized linear models. Multidimensional tables. Odds ratio. Model selection and evaluation. Computer-based exploratory data analysis. Examples from the life sciences.

prereq: STAT 70600 or equivalent

Hours 45

Credits 3

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the **MATH 700** and/or **STAT 700** level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Project (3 credits, 1 course)

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 45

Credits 3

Note(s)

*For further information on the MA in Statistics, please contact Professor Edward Binkowski;
ed.binkowski@gmail.com*

**The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.*

***Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30 credit (10 course) total.*

Return to: Programs and Courses in Mathematics and Statistics

Statistics and Applied Mathematics - Track II: Applied Mathematics

Return to: Programs and Courses in Mathematics and Statistics

Most students in Track II do their project in differential equations. The context may be engineering or finance. The techniques may be from numerical analysis or statistics or a combination of these.

Admission Requirements - Track II: Applied Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (Math 260) and one semester of Multivariate Calculus (Math 250). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Applied Mathematics

Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

MATH 60100 - Mathematical Methods for the Physical Sciences

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

prereq: a course in ordinary differential equations

Hours 45 hrs,

Credits 3 cr

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and L_p spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 45

Credits 3

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 45 hrs,

Credits 3 cr

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the **MATH 700** and/or **STAT 700** level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Suggested electives are:

MATH 64200 - Introduction to Theory of Functions of a Complex Variable

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: a course in advanced calculus

Hours 45

Credits 3

MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations

Hours 45

Credits 3

MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 and departmental permission

Hours 3

Credits 3

Offered alternate years during the summer session One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

prereq: a course in multivariate calculus and a course in linear algebra

Hours 45

Credits 3

Familiarity with MAPLE or MATHEMATICA encouraged

MATH 74700 - Theory of Functions of a Real Variable II

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

Offered in alternate years during the summer session. The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74700, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70700 - General Linear Models II

A review of multivariate linear model and maximum likelihood estimation. Nonlinear regression models. Logistic and Poisson regression models. Family of generalized linear models. Multidimensional tables. Odds ratio. Model selection and evaluation. Computer-based exploratory data analysis. Examples from the life sciences.

prereq: STAT 70600 or equivalent

Hours 45

Credits 3

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability

Hours 45

Credits 3

STAT 72600 - The Theory and Methods of Sampling

The techniques of modern sampling with applications to human population studies. Structured sampling designs. Unequal probability sampling. Efficient sampling. Accuracy, precision and the sources of bias. Longitudinal panel study design. The study of available Federal data bases relating to the health and welfare of US residents.

prereq: STAT 70100 or equivalent, or permission of the department

Hours 45

Credits 3

STAT 73900 - Bayesian Statistics

Conditional probability. Normal prior and likelihood. Conjugate and improper prior distributions. Bayesian statistical paradigm and inference using sample-based numerical methods (e.g., EM, MCMC). Markov chains and Hidden Markov Models. Computer lab sessions.

prereq: prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed. Familiarity with a computing environment is encouraged.

Hours 45

Credits 3

STAT 78600 - Visualization for Statistics and Applied Mathematics

The structure and purpose of visualization systems, including fully developed examples from statistics and applied mathematics. Final project using advanced analysis techniques required.

prereq: STAT 61400 or MATH 68500 or permission of the instructor

Hours 45

Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or permission of the instructor

Hours 45

Credits 3

Project

The student, guided by a member of the faculty, prepares a project in applied mathematics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 45

Credits 3

MATH 77700 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 3

Note(s)

**The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.*

***Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30 credit (10 course) total.*

[Return to: Programs and Courses in Mathematics and Statistics](#)

Statistics and Applied Mathematics Track III: Bioinformatics

[Return to: Programs and Courses in Mathematics and Statistics](#)

Admission Requirements for Track III: Bioinformatics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (Math 260) and one semester of Multivariate Calculus (Math 250). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

The Bioinformatics track allows students with career plans in the biomedical sciences and without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics. In addition to the above departmental requirements for admission to the MA program in Statistics and Applied Mathematics, it is required that the student have an adequate undergraduate training in biological sciences, chemistry, or related fields, as well as strong computer programming skills. The following track requirements, or their equivalents, are the minimal requirements that the student must meet in order to enter the Bioinformatics track:

1. One semester of introductory biology (BIOL 100 or equivalent)
2. One year of general chemistry (CHEM 102-105 or equivalent)
3. One semester of organic chemistry (CHEM 222 or equivalent)
4. One semester of biological chemistry (BIOL 300 or equivalent)
5. Familiarity with UNIX and database programming (CSCI 132-232 or equivalent)

Degree Requirements for Track III: Bioinformatics

**Thirty credits (10 courses) chosen as follows:*

Core Curriculum** (15 credits, 5 courses)

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

STAT 71600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re sampling schemes; robust estimation; and robust regression methods.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

This course is cross-listed with BIOS 75600

STAT 71700 - Multivariate Analysis

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection- pursuit.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course; familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

STAT 73900 - Bayesian Statistics

Conditional probability. Normal prior and likelihood. Conjugate and improper prior distributions. Bayesian statistical paradigm and inference using sample-based numerical methods (e.g., EM, MCMC). Markov chains and Hidden Markov Models. Computer lab sessions.

prereq: prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed. Familiarity with a computing environment is encouraged.

Hours 45

Credits 3

Electives (12 credits, 4 courses)

Four graduate courses in biology, chemistry, or related fields. These must constitute a cohesive curriculum in bioinformatics, and must be approved by the Graduate Bioinformatics Adviser.

Suggested electives in the natural sciences are:

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79300 - Human Evolutionary Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

BIOL 79049 - Computational Molecular Biology

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.

spring only

CHEM 69803 - Chemical Genomics

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course,

students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

Hours 3

Credits 3

Project (3 credits, 1 course)

The student, guided by a member of the faculty, prepares a project in bioinformatics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 45

Credits 3

Notes

For further information on the MA in Bioinformatics, please contact Professor Ronald Neath: rneath@hunter.cuny.edu.

*The 30 credits (10 courses) must be approved by an advisor and constitute a concentration.

**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30 credit (10 course) total.

TESOL Adult Program - MA

Program Coordinator: Anne Eideger; 1022 West Building; (212) 772-4686; aediger@hunter.cuny.edu

The TESOL Adult Program prepares students to teach adults in college, continuing education, literacy, business, private, and other community, academic and professional programs in the United States or abroad. It does not prepare teachers for New York State certification to teach in the public schools.

The MA program in TESOL is interdisciplinary. It encompasses courses that provide students with a theoretical and practical background in general linguistics, phonetics, the structure of American English, second language acquisition, related psychological, sociological, and anthropological aspects, as well as the methods and materials of English language instruction to various populations. Student must also complete a student teaching/practicum at the level(s) at which they intend to teach. Courses in the TESOL curriculum reflect three levels of hierarchy: introductory,

intermediate and advanced. Because introductory courses are prerequisites for more advanced courses, students are to take courses in this sequence.

Students may be exempted from up to six credits of course work in any of the TESOL programs, subject to program approval, if they have taken similar content elsewhere.

Meeting minimum admission requirements does not guarantee acceptance into the program. Admission to the program is highly competitive. Each applicant's grade point average, college coursework, written personal statement and interview, English language proficiency, foreign language credits, letter of recommendation and quality of experience are all carefully considered for admission to the program.

Links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter.

Admission Requirements

1. A cumulative undergraduate GPA of 2.8 from an accredited bachelor's degree program or a GPA of 3.5 from a master's degree program. Applicants who have an undergraduate GPA between 2.5 and 2.8 may be interviewed by the TESOL faculty and accepted on a non-matriculated basis if space is available.
2. Twelve (12) credits of foreign-language study documented on the transcript or equivalent credits on a standardized proficiency test like the College Level Proficiency Program (CLEP) or the NYU Proficiency Test in a Foreign Language.
3. Submission of two letters of recommendation to be included in the graduate application.
4. Submission of statement of purpose to be included in the graduate applicant.
5. Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit an official TOEFL score report. These applicants must score at least 600 on the paper-administered test or 250 on the computer-administered test or 75 (less speaking component) on the TOEFL IBT. They must score at least 5.0 on the Test of Written English (TWE) or 24 on the IBT Writing Section; and 50 on the Test of Spoken English (TSE) or 26 on the IBT Speaking Section.
6. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subject as well as in teacher education, in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Student who receive a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

B. Fieldwork Benchmarks

- Fieldwork and clinical experience courses (EDESL 77900 and EDESL 77800) must be passed with at least a B.

TESOL Adult Program Course of Study

Total Credits: 36 credits

Core Requirements (24 credits)

EDESL 79630 - Methodology of Teaching English to Speakers of Other Languages

Hours 25 hrs fieldwork

Credits 4

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork

Credits 4

EDESL 77000 - Content and Curriculum & Materials in Adult TESOL

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

prereq or coreq: pre- or coreq: EDESL 79600 or permission of TESOL adviser

Hours includes 10 hrs of fieldwork in Adult ESL classrooms,

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: G LING 70200

Credits 4

10 hours of field experience.

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications to the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: G LING 70200

Credits 4

5 hours of field work.

EDESL 79800 - Student Teaching in Academic ESL

Hours 60 hrs fieldwork.

Credits 2

EDESL 79900 - Adult Fieldwork / Practicum

Hours 60 hrs fieldwork.

Credits 2

At Least Two of the Following (8 credits):

At least two of the following three courses must be taken before taking EDESL 79900 or EDESL 79800.

EDESL 77600 - Language Assessment in Adult TESOL

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

prereq: G LING 70200

Hours includes 10 hrs of fieldwork in Adult ESL classrooms,

Credits 4

EDESL 77800 - Teaching Oral Language Skills in Adult TESOL

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students' skills in these areas. For students in Program 3.

prereq or coreq: G EDESL 77000

Credits 4

EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the

wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.

prereq: prereq: EDESL 79600

prereq or coreq: pre- or coreqs: EDESL 7700 or EDESL 78700 or EDESL 77500

Credits 4

4 Credits of Electives From Among (but not limited to) the Following Courses

EDESL 70100 - Selected Topics in TESOL

EDESL 701-704 Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser

Credits 1

EDESL 70200 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser

Credits 2

EDESL 70300 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser

Credits 3

EDESL 70400 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12

Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser

Credits 4

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

Hours 45 hrs,

Credits 3 cr

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser

Credits 4

Exit Standards

1. An overall GPA of 3.0.
2. Comprehensive examination or a master's essay (EDESL 76000); the master's essay course may be used to fulfill the program elective requirement.

3. Students must pass the School of Education technology assessment.

TESOL PreK-12 - MA

Program Coordinator Anne Ediger; 1022 West Building; (212) 772-4686; aediger@hunter.cuny.edu

The TESOL program is designed to educate people who wish to teach students for whom English is a second or foreign language – either children or adults. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the MA program in TESOL.

The MA program in TESOL is interdisciplinary. It encompasses courses that provide students with a theoretical and practical background in general linguistics, phonetics, the structure of American English, second language acquisition, related psychological, sociological, and anthropological aspects, as well as the methods and materials of English language instruction to various populations. Student must also complete a student teaching/practicum at the level(s) at which they intend to teach. Courses in the TESOL curriculum reflect three levels of hierarchy: introductory, intermediate and advanced. Because introductory courses are prerequisites for more advanced courses, students are to take courses in this sequence.

TESOL Programs 1 and 2 satisfy the requirements for New York State certification:

These tracks are not interchangeable, and students must specify one of them for their applications to be processed.

Students may be exempted from up to six credits of course work in any of the TESOL programs, subject to program approval, if they have taken similar content elsewhere.

Meeting minimum admission requirements does not guarantee acceptance into the program. Admission to the program is highly competitive. Each applicant's grade point average, college coursework, written personal statement and interview, English language proficiency, foreign language credits, letter of recommendation and quality of experience are all carefully considered for admission to the program.

In these programs, links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter. All fieldwork experience must be done in New York City public schools.

Admission Requirements

Program 1 for Students Without Prior Certification

The Pre-K-12 Program 1 prepares students for New York State certification in TESOL, for which students apply through the college during the last semester in the program.

1. A cumulative undergraduate grade point average of 2.8 from an accredited bachelor's degree program or 3.5 from a master's degree program; those applicants who have a GPA between 2.5 and 2.8 may be interviewed by the TESOL faculty and accepted on a non-matriculated basis if space is available.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include:

- 12 credits of foreign language documented on a transcript or equivalent credits on a standardized proficiency test like the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language
 - 9 credits in communication and English with at least one course in written analysis and expression and one course in English literature
 - 9 credits in science and mathematics, with at least one course in math and one course in science (a college course in calculus satisfies 6 credits of this requirement)
 - 6 credits in social studies (including at least one course in history or geography)
 - 3 credits in the arts
 - 3 credits in information retrieval (library studies, research, computer literacy, or educational technology)
4. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample.
 5. Submission of two letters of recommendation to be included in the graduate application.
 6. A statement of purpose to be included in the graduate application.
 7. Applicants who have taken all or part of their undergraduate education in a country where English is not the native language countries are required to submit an official TOEFL test score report. These applicants must score at least 600 on the paper administered test or 250 on the computer administered test or 75 (less speaking component) on the TOEFL IBT. They must score at least 5.0 on the Test of Written English (TWE) or 24 on the IBT Writing Section; and 50 on the Test of Spoken English (TSE) or 26 on the IBT Speaking section.

Program 2 for Students With Prior Certification

The Pre-K-12 Program 2 is intended for students who already have prior New York State certification in another subject area. Students completing this program qualify for New York State certification in TESOL, in this case, an additional certification.

1. A cumulative undergraduate grade point average of 2.8 from an accredited bachelor's degree program or a GPA of 3.5 from a master's program.
2. 12 credits of foreign language documented on a transcript or equivalent credits on a standardized proficiency test like the College Level Examination Program (CLEP) or the NYU Proficiency Test in a Foreign Language.
3. Proof of New York State teacher certification in an area other than TESOL (specifically, early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy).
4. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample.
5. Submission of two letters of recommendation, to be included in the graduate application.

6. Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit an official TOEFL score report. These applicants must score at least a 600 on the paper-administered test or 250 on the computer-administered test or 75 (less speaking component) on the TOEFL IBT. They must score at least 5.0 on the Test of Written English (TWE) or 24 on the IBT Writing Section; and 50 on the Test of Spoken English (TSE) or 26 on the IBT Speaking Section.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subjects as well as in teacher education, in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in a college writing course or workshop series approved by an adviser before being permitted to register for any additional courses.

B. Fieldwork Benchmarks

Students must receive a grade of at least B in EDESL 79610, EDESL 78500 and EDESL 78800. Any student who receives a grade of B-, C+ or C must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU will not be allowed to continue in the program.

TESOL Program 1 Course of Study

Total Credits: 30-42 credits

Core Requirements

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

Credits 4
includes 30 hours fieldwork

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork
Credits 4

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference of the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: G LING 70200
Credits 4
5 hours of field work.

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: G LING 70200
Credits 4
10 hours of field experience.

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610
prereq or coreq: G EDESL 79600 or G EDESL 79610 or G EDESL 79620
Hours includes 20 hrs fieldwork in K-12 classrooms
Credits 4
20 hrs fieldwork.

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in **Program 1** and **Program 2**.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

includes 10 hrs fieldwork

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: LING 70200

Hours includes 10 hrs fieldwork

Credits 4

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work

Credits 4

CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

Hours includes 10 hrs of fieldwork
Credits 4

Plus One of the Following:

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

And One of the Following:

EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser
Credits 4

Comprehensive Examination

Note(s)

Students may transfer, waive, or be exempted from up to 8 credits if they have taken equivalent course work elsewhere. Credit transfers, waivers, and exemptions are determined by the School of Education upon presentation of acceptable supporting paperwork. Taking EDESL 76000 MA Essay adds 4 credits to the degree.

**Student teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.*

***Practicum Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.*

TESOL Program 2 Course of Study

Total Credits: 25-37 credits

Core Requirements

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork
Credits 3 cr*

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in **Program 1** and **Program 2**.

*prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Credits 4
includes 10 hrs fieldwork*

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

*prereq: EDESL 79600/79610
prereq or coreq: G EDESL 79600 or G EDESL 79610 or G EDESL 79620
Hours includes 20 hrs fieldwork in K-12 classrooms
Credits 4
20 hrs fieldwork.*

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: LING 70200

Hours includes 10 hrs fieldwork

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: G LING 70200

Credits 4

10 hours of field experience.

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork

Credits 4

20 hours fieldwork

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork

Credits 4

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference of the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: G LING 70200

Credits 4
5 hours of field work.

Plus One of the Following

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference

this is a year-long course

And One of the Following

EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser
Credits 4
Or
Comprehensive Examination

Note(s)

Students may be exempted from up to eight credits if they have taken equivalent course work elsewhere

**Student Teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.*

***Practicum Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.*

Exit Standards

1. A passing score on the comprehensive examination or successful completion of a master's essay (EDES 76000).
2. Students must demonstrate graduate-level academic oral and written communication skills in their coursework, and the ability to serve as appropriate models of the English language for their future students. Students who cannot demonstrate this level of language ability must take a non-credit writing course offered by the School of Education in order to enroll in any courses after completing 12 credits.
3. An overall GPA of 3.0.
4. Students must pass the School of Education technology assessment.

TESOL Program 2

TESOL Pre-K-12 Program for Students with Prior Certification

Admission Requirements

The Pre-K-12 Program 2 is intended for students who already have prior New York State certification in another subject area. Students completing this program qualify for New York State certification in TESOL, in this case, an additional certification.

1. A cumulative undergraduate grade point average of 2.8 from an accredited bachelor's degree program or a GPA of 3.5 from a master's program.
2. 12 credits of foreign language documented on a transcript or equivalent credits on a standardized proficiency test like the College Level Examination Program (CLEP) or the NYU Proficiency Test in a Foreign Language.
3. Proof of New York State teacher certification in an area other than TESOL (specifically, early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy).
4. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample.
5. Submission of two letters of recommendation, to be included in the graduate application.
6. Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit an official TOEFL score report. These applicants must score at least a 600 on the paper-administered test or 250 on the computer-administered test or 75 (less speaking component)

on the TOEFL IBT. They must score at least 5.0 on the Test of Written English (TWE) or 24 on the IBT Writing Section; and 50 on the Test of Spoken English (TSE) or 26 on the IBT Speaking Section.

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subjects as well as in teacher education, in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in a college writing course or workshop series approved by an adviser before being permitted to register for any additional courses.

B. Fieldwork Benchmarks

Students must receive a grade of at least B in EDESL 79610, EDESL 78500 and EDESL 78800. Any student who receives a grade of B-, C+ or C must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU will not be allowed to continue in the program.

TESOL Program 2 Course of Study

Total Credits: 25-37 credits

Core Requirements

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork

Credits 4

20 hours fieldwork

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork

Credits 4

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference of the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: G LING 70200

Credits 4

5 hours of field work.

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

**Student Teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.*

***Practicum Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.*

Exit Standards

1. A passing score on the comprehensive examination or successful completion of a master's essay (EDESL 76000).
2. Students must demonstrate graduate-level academic oral and written communication skills in their coursework, and the ability to serve as appropriate models of the English language for their future students. Students who cannot demonstrate this level of language ability must take a non-credit writing course offered by the School of Education in order to enroll in any courses after completing 12 credits.
3. An overall GPA of 3.0.
4. Students must pass the School of Education technology assessment.

Theatre - MA

The MA program in theatre is designed to offer concentrated study in the areas of theatre history, theory, and criticism; dramaturgy; production and performance studies; and playwriting. The curriculum integrates theory with practice and accommodates the various backgrounds and career goals of theatre professionals, dramaturgs, and educators. Most students continue professional work or go on to PhD programs. In addition to the permanent faculty, well-known theatre artists, critics, and scholars teach on a part-time basis. Individual counseling is an integral part of the program. Through meetings with the graduate adviser, a program of study that meets each student's needs is developed.

The Hunter Playwrights Project offers playwriting students the opportunity to see their work performed in staged readings or in productions with professional actors and directors. Other worthwhile scripts by advanced writers in the Hunter graduate theatre program may be given workshop productions by their student colleagues. The John Golden Fund provides awards for promising writers.

Students concentrating in dramaturgy may work in internship programs at professional theatre companies.

Requirements for Admission

General admission requirements to the graduate program in the arts and sciences are observed. An undergraduate theatre major is not needed for admission to the MA program in theatre. Students enter with a wide variety of academic backgrounds.

Requirements for the Degree

Courses

Each candidate must complete an approved program of study of at least 30 credits, including following. Courses other than those in the Department of Theatre may be applied toward the 30 credits with the approval of the graduate adviser, but may not exceed 9 credits. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

THC 70200 - History of Theatrical Theory

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,
Credits 3*

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,
Credits 3 cr*

Examination

The student is required to pass a three-hour comprehensive examination covering general knowledge in theatre history, criticism, and production. The comprehensive exam may be repeated if failed, but may be taken no more than three times. The department no longer requires a proficiency examination in one foreign language.

MA with Honors

Master's Essay: Upon completion of the comprehensive examination, the graduate committee will determine which students shall be invited to submit a proposal for a Master's Essay. This decision will be based on academic performance: papers, class participation, and the quality of the comprehensive examination. Honors students must register for THC 79900 - Master's Essay to complete the 30 required credits when the proposal is approved.

THC 79900 - Master's Essay

Individually supervised research and writing of a thesis, leading to graduation with honors.

Credits 3

Recent Electives

Our course offerings also include a continually changing roster of electives

Recent Electives:

Advanced Directing
Theatre and the Middle East
Law and American Drama
Intercultural Theatre
Greek Drama
History of Opera
Puppetry and Performing Objects On-stage
Performing Arts of Kerala, India
Goethe's Faust: Text, Background, Tradition

Master of Fine Arts - MFA

Creative Art - MFA

Hunter's ideal location in Manhattan offers students and faculty many intellectual, cultural and creative resources. In New York, as nowhere else, the student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of our educational goal: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. In this programmatic context students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory, criticism and history of art. Electives in a range of studio practices are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

Admission Requirements

Applications are reviewed once a year. The applicant must have completed at least 24 credits of undergraduate courses in studio art and 9 credits in art history, as well as an undergraduate degree from an accredited institution. Applicants who have a previously completed MFA in art cannot be considered for admission to the studio art program at Hunter College. Applicants must submit the on-line Hunter College Graduate Application for Admission. This application, with all supporting materials, must be submitted prior to the January 15 deadline. In addition, applicants must upload their portfolio and statement of purpose to slideroom.com. Further instructions can be found on the Art Department website at:

http://www.hunter.cuny.edu/art/MFA/mfa_application.htm

The Art Department Graduate Admissions Committee will select finalists for admission to the MFA program. All finalists will be scheduled for an interview. Final decisions will be determined by mid-April.

MFA Application Deadline: January 15 for admission in the following academic year.

Requirements for the MFA in Creative Art (48 cr)

Each candidate for the MFA must select one field of concentration in studio art: painting, sculpture, printmaking/drawing/works on paper, photography, clay & casting, or combined media, and present an MFA project in that area.

Candidates must complete 48 credits, distributed as follows:

- 9 credits of tutorial work;
- 9 credits of seminar work;
- 9 credits of studio electives (exclusive of the area of concentration);
- 9 credits of liberal arts electives in the history, theory, and criticism of art;
- 6 elective credits which may be used for additional art history or studio electives, or non-traditional courses or projects such as apprenticeships, teaching assistantships or participation in the foreign exchange program;
- Mid Program Review: Eligibility to continue to work toward the degree is evaluated by a committee of all MFA faculty in the semester of the second tutorial and seminar.
- 6 credit MFA Thesis Project (ARTCR 79100) completed under the guidance of a faculty Thesis Advisor.

All students are provided individual work spaces in the MFA Studio Building and are required to work in them throughout their residency. There are four floors (approximately 10,000 sq. ft. each) for student studios, seminar rooms, and workshop and exhibition areas. The regular curriculum will be supplemented by a monthly lecture series, providing a forum for the presentation of aesthetic ideas by artists, critics, historians, and resident faculty.

Foreign Exchange Program

Several MFA students are selected each year to receive stipends for a period of one semester at the Glasgow School of Art, Scotland; the Ecole des Beaux-Arts, Paris; the Royal College of Art, London; the Hochschule der Künste, Berlin, Frank Mohr Institute, the Netherlands.

Scholarships and Travel Grants

Among other awards, the Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Also, grants from the Tony Smith fund are awarded to selected MFA students upon graduation. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to \$1,200 each are given every semester to an MA and MFA student.

Creative Writing - MFA

Hunter's Creative Writing MFA is a highly selective program in which students work closely with distinguished writers to perfect their writing skills. The course comprises workshops, craft seminars, one-on-one supervisions with faculty, and literature classes. There are three concentrations, fiction, creative nonfiction and poetry, with 12 students in each. Each year, several students are named Hertog Fellows (fiction and nonfiction) and Friedman Scholars (poetry). These students receive a generous stipend and are paired with well-established writers, for whom they conduct research for one semester.

Departmental Requirements for Admission

Candidates must have completed a BA or equivalent at an accredited institution. In addition to the Hunter College application, the candidate must submit a creative writing manuscript (10-20 pages of poetry or 20-30 pages of fiction or creative nonfiction) and a 500-word personal statement describing the candidate's relationship to his/her creative work, literary influences, and why the MFA would be beneficial to the candidate's writing career. In addition, creative nonfiction candidates must submit a 500-word memoir proposal. The GRE is not required.

Departmental Requirements for the Degree

Each candidate must complete an approved program of study of at least 36 credits, which must include:

- 1) Four writing workshops in chosen genre
- 2) Six courses in MA literature and/or MFA craft seminars in chosen genre
- 3) One course in Writing in Conference

ENGL 79800 - Writing in Conference

Individual tutorial directed by a member of the writing faculty.

Hours 45 hrs,

Credits 3 cr

To be taken in sequence with ENGL 79900 (MFA Thesis).

-or-

ENGL 79701 - Poetry Thesis One

This course gives students the conceptual framework to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time.

prereq: ENGL 79101 and ENGL 79403

Hours 3

Credits 3

Second Year MFA students only

4) One course in MFA thesis

ENGL 79900 - MFA Thesis

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

Hours 45 hrs,

Credits 3 cr

To be preceded in sequence by ENGL 79800 (Writing in Conference).

-or-

ENGL 79702 - Poetry Thesis Two

This course is a continuation of Thesis One and gives students the conceptual framework with which to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time. To this end, this course begins with an exploration of the history of the Modern Poetic Sequence and the Long Poem.

prereq: Workshop 79101 and Craft 79403 , Thesis One 79701

Second Year MFA students only

Master of Fine Arts Thesis

The candidate must submit a satisfactory master of fine arts thesis consisting of either 40-60 pages of poetry or 75-125 pages of short stories, novella or novel-in-progress (for fiction candidates) or 75-125 pages of personal essays or memoir (for creative nonfiction candidates), which will be approved by two members of the writing faculty. Two copies prepared for binding are required.

Integrated Media Arts - MFA

The MFA Program in Integrated Media Arts offers advanced studies in nonfiction media making, using state-of-the-art digital technologies. Unlike most graduate media programs, which train students in specific media crafts, this program is one of the first in the nation to educate multi-disciplinary media professionals, socially aware and knowledgeable in the wide range of media skills that are brought together in the digital media environment.

Hunter's MFA in Integrated Media Arts offers a 48-credit course of study, combining analytical seminars, interdisciplinary research and creative workshops in writing, visual communication, and media distribution and exhibition. Building on a foundation of research and analysis, MFA students explore and create new ways to advance information and ideas, balancing critical thinking with aesthetics, theory with practice, traditional methods with new technologies, contemporary issues with an historical perspective. They also engage in collaborative production labs at Hunter or external industry creative residencies that are calculated to provide hands-on understanding of real world media environments.

Hunter's MFA/IMA educates students who will be prepared to assume positions of creative leadership in the professional media world. In this program, a coming generation of media makers trains to become tomorrow's preeminent communicators, twenty-first century pamphleteers employing new digital media to inform, enliven and extend the possibilities of the public square.

Admissions Requirements

Students are accepted into the program for fall semester enrollment only. February 1st is the closing date for completed fall applications. The MFA/IMA Program is highly selective, enrolling only 15-20 students each year. Applicants are expected to present the following:

- A bachelor's degree, with a minimum GPA of 3.0 on a 4.0 scale.
- 3 letters of recommendation from people able to comment on an applicant's creative and academic talent and determination.
- A portfolio of media works, indicating talent and promise. Submitted works may include videos and films, interactive digital design, photography, sound, graphic design, journalistic writings, etc.
- A personal statement describing the applicant's long-term objectives as a media maker and the social impact they hope their work will have. Statements should also explain why Hunter's MFA Program in Integrated Media Arts is particularly relevant to the applicant's creative goals.
- An official transcript of undergraduate studies.
- A completed graduate application form
- Applicants whose native language is not English must take the Test of Written English (TWE) component of the TOEFL examination.

Degree Requirements

The coursework in IMA is organized under five broad aspects of media study. They are:

Analytical Seminars

Where an intellectual foundation for socially aware and ethically responsible media work is an overarching objective

IMA 70100 - Social and Historical Roots of Mass Culture

A study of the social and historical context that propelled and was influenced by the media from 15th century to present. This seminar is a core requirement of the program.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70200 - The History of New Media

An exploration of the history of digital internet-based media, as well as the convergence and integration of emerging media with film, print media, radio and television and its effects on culture.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71500 - Media and the Public Sphere

An examination of notions of the public sphere and democracy in relation to historically evolving forms of mass media.

prereq: IMA 70100

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70400 - Communications and the City

Urban imagery in mass media and its varying relations to problems of urban life.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70500 - Social Class, Racism and the Media

Analysis of interrelations between social classes, racism and the media.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71300 - Visible Evidence: Realist Strategies in Film, Video and TV

An examination of the representational strategies through which film, video and TV images achieve verisimilitude, the appearance of transparently and objectively displaying reality.

prereq: IMA 70100

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70800 - International Communication in the Contemporary World

Current problems and issues of international communications.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70900 - History and Criticism of the Documentary

A historical and critical examination of nonfiction film and video from Lumiere to the present.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71000 - Alternative Media: Examples and Experiences

Review of the history and role of small-scale alternative media. Includes critical readings, viewing and critique.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71200 - Feminist Approaches to the Mass Media

A historical perspective on feminist cultural theories as they have addressed the representation of women in American mass culture.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71300 - Social Inequality and the Media

An examination of the relation between the media and class, race and gender inequality.

Hours 3

Credits 3

IMA 78029 - Disease and Disaster in Media and Culture

Using examples from traditional media and digital culture, students explore the social, historical, and economic context in which apocalyptic notions of a world on the verge of catastrophe and disaster emerge.

Hours 2

Credits 3

IMA 78030 - Media and Law

This course focuses on the legal foundations and principles connected with narrative and documentary film. Students examine doctrinal approaches to intellectual property rights and their effects on technical innovation, democratic debate, cultural formation and international politics.

Hours 2

Credits 3

Interdisciplinary Research

In an ancillary field, an approved graduate level seminar or formal independent study project with a faculty member in an appropriate department other than Film and Media and/or interdisciplinary program at Hunter, The Graduate Center, another CUNY graduate program, or at an approved graduate institution outside CUNY

Words Workshops

Where writing for the media is an essential focus

IMA 72100 - Online Journalism

The Internet provides journalists with new sources of information, a major news beat in itself and innovative forms of publication. This course explores each of these dimensions with the goal of enabling students to use the Internet for journalistic research and report in depth on its cultural, legal and economic dimensions.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72200 - Literary Journalism

The criticism and practice of literary journalism, i.e., factual reporting rendered with the qualitative detail and vividness of imaginative writing.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72300 - Public Interest Journalism

A study of critiques of journalism's alleged failure to serve the public interest as the basis for a variety of news writing assignments designed to represent social issues with fuller context and nuance.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72400 - Research and Writing for the Documentary

Research and writing proposals, treatments, budgets and production plans for video documentaries.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78043 - Neighborhood News

Students write articles for a community newspaper, the Hunts Point Express, and accompanying website, (www.huntspointexpress.com). As reporters, students spend time in the South Bronx to research stories on topics that include environmental justice issues, education, housing, health, jobs, gentrification and crime. Work may include multimedia component.

Hours 4

Credits 3

IMA 78052 - Story Strategies

This course examines a broad range of approaches to storytelling in the fictional narrative feature film. Students will closely examine tactical narrative elements including dramatic structure, character/voice, time, tone and genre in conventional and alternative work. Students will develop treatment and beginning of an original screenplay. Satisfies WORDS cluster requirement.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79551 - Advanced Studio - Words

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of written work. Independent work and individual meetings are required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies WORDS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Visions Workshops

Where the visual communication of ideas and information is a comprehensive goal

IMA 70300 - Documentary Expression

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

prereq: none

Hours 4

Credits 3

Material Fee: \$20

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74100 - Nonfiction Video Production

This workshop will guide students through the process of developing and producing a documentary video project.

prereq: IMA 76000, IMA 74000 or permission of instructor

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4 hrs,

Credits 3 cr

Material Fee: \$20

IMA 74200 - Web Documentary

The production of nonfiction narratives for the Internet. Students explore how social issues can be explored in new media formats including games and hypertext.

This course may be counted towards the VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74300 - Collective Documentary

This production workshop involves the student in all aspects of a collectively produced documentary that explores a general theme or issue, with all students producing segments for the project. The workshop also examines the theoretical issues of truth, authorship, subjectivity and storytelling in the documentary form.

Satisfies VISIONS cluster requirement

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74400 - Digital Design: Print and Interactive Media

In this studio workshop course, the communicative capacities of various digital design formats and techniques will be creatively applied to the creation of four functional design projects.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74700 - Digital Editing Workshop

Technology and principles of digital non-linear editing; its distinctive features and creative potential for both sound and image. Students are expected to bring projects, produced in previous classes, to a fine cut stage.

Satisfies VISIONS cluster requirement

prereq: IMA 74000, IMA 74100 IMA 76000 or permission of instructor

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4

Credits 3

Material Fee: \$20

IMA 78017 - Microcultural Incidents: Ethnography & Experimental Media

A production course in which students explore the intersection of ethnographic and experiment in film and video practices. Readings, screenings and discussion include experiment and media and visual anthropology.

Satisfies VISIONS cluster requirement

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78021 - Media, Community Advocacy & the Urban Environment

In this workshop students collaborate with students in the Urban Affairs & Planning Department to develop media aimed at helping local groups and improving the quality of local environments, and explore impact of media on community stakeholders and policy-makers.

Satisfies VISIONS cluster requirement.

prereq: IMA 74000, IMA 76000 or permission of instructor.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79561 - Advanced Studio - Visions

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of work in visual media. Independent work and individual meetings are required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies VISIONS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Channels Workshops

Where designs for exhibition and distribution of media work, for publicizing ideas, and for using media to enhance the quality of community interaction are key objectives

IMA 76000 - Tools and Techniques of Digital Production

A hands-on workshop in core digital media production, including image acquisition, creation and editing; video editing and encoding; and multimedia delivery on the web. It is designed to give students a basic introduction to the tools and techniques used in the Integrated Media Arts program. Satisfies VISIONS or CHANNELS cluster.

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4

Credits 3

Material Fee: \$20

IMA 76200 - Interactive Expression

Aesthetics and techniques of Web-site and interactivity design, encompassing both graphic presentation and information architecture. Satisfies VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 76300 - Advanced Interactive Expression

The production of websites incorporating animation, sound and video. This course may be counted towards the VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000, IMA 76200 or permission of instructor

Hours 4 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 76600 - Three Dimensional Virtual Environments

An introduction to fundamental skills and creative approaches for the development of computer generated 3D interactive virtual environments. Satisfies CHANNELS cluster requirement

prereq: IMA 76000 or permission of instructor

Hours 3

Credits 3

IMA 78046 - Three Dimensional Modeling & Animation

This hands-on production course examines essential concepts and practices that form the basis of 3D animation. Includes critical readings, viewing and critique. Satisfies CHANNELS cluster requirement

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78081 - Sound Environments

An exploration of contemporary issues and techniques of sonic media. Course explores critical writings in music history, sound and media theory while students experiment with designing linear and non-linear sound installations. Satisfies CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79571 - Advanced Studio - Channels

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of work in emerging media. Independent work and individual meetings are required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies CHANNELS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Capstone and additional courses complete the program

To fulfill the 48-credit degree requirement, the student must take:

IMA 70100 - Social and Historical Roots of Mass Culture

A study of the social and historical context that propelled and was influenced by the media from 15th century to present. This seminar is a core requirement of the program.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

- At least two additional ANALYTICAL seminars 6 credits
- Interdisciplinary Research in ancillary field 3 credits
- Ten workshops within: WORDS, VISIONS*, CHANNELS* 30 credits

IMA 78100 - Collaborative Media Project/Creative Residency

Hours and in-house project or external creative residency must be defined in conjunction with graduate adviser. The project or creative residency must involve collaboration among different media makers.

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78800 - Master of Fine Arts Thesis Project

This project must be completed satisfactorily before graduation. Project must incorporate elements from all three creative clusters as well as a critical component.

Credits 3

Approval of graduate adviser required. Non-matriculated students require permission of instructor for enrollment in any MFA/ IMA course.

Additional Courses

IMA 78025 - Media and the Public Sphere

This analytical course explores notion of the public sphere and public debate in light of television and the Internet's actual and potential roles as forums for discussion of civil society issues.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78048 - Culture Jamming

Theory and technique of art and design strategies that subvert popular media frameworks. Students will learn non-traditional methods of circulating messages which circumvent or critique mass media communications.

Satisfies VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78051 - Non-linear Storytelling

This workshop examines different types of non-linear narrative as students develop stories for non-linear forms.

Students study the representation of memory and time in documentary and fictional forms, and look at how emerging media enable multiple forms of storytelling through hypertextual, collaborative and networked environments.

Satisfies CHANNELS cluster requirement.

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78053 - Interactive Installation

Students work collaboratively to create projects integrating video, sound and movement. Lectures focus on usability design, coding concepts, and interface design.

Satisfies CHANNELS cluster requirement

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78056 - Grant Writing

In this workshop students pitch ideas, develop proposals, as well as examining strategies for researching funding sources and developing creative approaches for their projects.

Satisfies WORDS cluster requirement

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79000 - Independent Study

Rubric for student's independent study.

Hours Hrs to be arranged.

Credits 1

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79100 - Independent Study

Rubric for student's independent study.

Hours Hrs to be arranged.

Credits 2

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79200 - Interdisciplinary Research

Rubric for student's interdisciplinary research requirement.

Hours Hrs to be arranged.

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Note(s)

*The following is a prerequisite for all interactive media courses and may be counted towards **VISIONS** or **CHANNELS** cluster requirement

IMA 76000 - Tools and Techniques of Digital Production

A hands-on workshop in core digital media production, including image acquisition, creation and editing; video editing and encoding; and multimedia delivery on the web. It is designed to give students a basic introduction to the tools and techniques used in the Integrated Media Arts program. Satisfies VISIONS or CHANNELS cluster.

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4

Credits 3

Material Fee: \$20

Students must take at least two courses and no more than four courses within each creative cluster. Some workshop courses may qualify within more than one cluster as indicated in the course description.

Total for MFA in IMA 48 credits

Playwriting MFA

Announcing the Rita and Burton Goldberg MFA in Playwriting, a selective two year program with a strong emphasis on production. Students will not only study playwriting, theater history, dramatic literature and play analysis in Hunter's Department of Theatre, they will also learn how to collaborate with actors, directors, designers, and dramaturgs through the rehearsal process, readings and full productions. This training will include electives in other disciplines, as well as work with the most exciting theatre artists in New York City, under the guidance of Distinguished Lecturer in Playwriting Mark Bly and Playwright in Residence, Tina Howe. The Rita and Burton Goldberg MFA in playwriting is all about making theatre in the theatre capital of the world.

The program also offers a new component for students unique in Graduate Playwriting Programs across the United States today. The students' thesis plays will not only be fully produced, but the productions will be staffed by professional directors, actors, and designers and student actors. No other existing playwriting program in our country offers students such a rare opportunity to learn from seasoned theatre professionals about the process of working on a new play in the midst of producing their thesis project. These productions, known as the Hunter Playwrights Festival, will be supervised by Thesis Adviser and Production Manager Mark Bly and Tina Howe, Playwright in Residence and will be presented in the Spring each year. This Festival will be an extraordinary opportunity for the playwrights to showcase their work before an invited audience of distinguished local and national industry professionals.

Admissions

Applicants to the Rita and Burton MFA in playwriting are required to have a bachelor's degree; they must submit two letters of recommendation, GRE scores and a full length play or a one act play of at least 40 pages, both as hard copy and as a PDF attachment. An interview is strongly recommended. (Only matriculated students will be eligible to take MFA courses.) Admission will be decided by the Artistic Director and the MFA faculty. The deadline for application is March 15.

Degree Requirements

This two year program encourages playwrights to discover and celebrate their unique voice. Towards that end they'll be given a thorough grounding in theatre history, dramatic literature, play analysis, and the craft of playwriting as well have the opportunity to take electives in other departments. Well known theatre artists will also be invited in to share their experience and expertise. In conjunction with this academic grounding and focus on individual needs, there will be hands-on workshops in which students learn how to collaborate with actors, directors and designers, culminating in staged readings and full productions of their plays.

Required Courses (27 credits)

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

Hours 3

Credits 3

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

prereq: (and/or other special conditions):

THC 73100 or permission of instructor.

Hours 3

Credits 3

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

prereq: THC 73200 or permission of the instructor

Hours 3

Credits 3

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

prereq: THC 72100 Playwriting III
coreq: THC 72400 Production Workshop II

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

prereq: Playwriting II
coreq: Playwriting III

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III
coreq: THC 72200 Playwriting IV

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,
Credits 3 cr*

Electives (9 credits)

Nine credits are to be chosen from Courses in Theatre

Sample Program of Study

First Semester

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

*Hours 3
Credits 3*

THC elective: select from the following courses Courses in Theatre

Second Semester

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

*prereq: (and/or other special conditions):
THC 73100 or permission of instructor.*

*Hours 3
Credits 3*

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,
Credits 3 cr*

Third Semester

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

*prereq: THC 73200 or permission of the instructor
Hours 3
Credits 3*

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

*prereq: Playwriting II
coreq: Playwriting III*

- THC elective or Internship: select from the following courses Courses in Theatre

Fourth Semester

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

prereq: THC 72100 Playwriting III

coreq: THC 72400 Production Workshop II

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III

coreq: THC 72200 Playwriting IV

THC elective or Internship: select from the following courses: Courses in Theatre

Master of Public Health - MPH

Public Health - MPH

Admission Requirements

1. General admissions requirements to the graduate programs in the arts and sciences are observed.
2. The Graduate Record Examination General Test (quantitative, verbal, written) or a prior master's degree from an accredited U.S. university
3. Students are expected to present a background in both natural sciences and social sciences

Applicants to the Environmental and Occupational Health Sciences Program should have a background in science and mathematics, usually at least 18 undergraduate credits, including a course in statistics or calculus.

Applicants to the Nutrition Program should have a background in science and mathematics, usually at least 18 undergraduate credits, including a course in statistics or calculus and are required to have completed coursework in food, nutrition, biology and chemistry.

Applicants to the Epidemiology-Biostatistics Program should demonstrate evidence of quantitative abilities, such as GRE quantitative score of 550 or better.

Applications to the Public Health Policy and Management Program should have completed at least 3 undergraduate courses in economics, accounting, business administration, management, public policy, urban affairs, sociology, or political science or a related field.

4. At least one year of work or volunteer experience related to public health, nutrition, environmental or occupational health, social services or community health, health-related research, or health policy, management, administration or a related field is required.

5. For graduates of universities in non-English-speaking nations, a TOEFL score of 600 (paper-based), 250 (computer-administered), or 75 (internet-based, less the speaking component.) is required for admission.

Academic Requirements

45 credits chosen as follows: All courses in Group A (15 credits) Public Health Core courses (see below under Course Distribution); Group B (15-18cr) Specialization courses within one of five areas: community health education, environmental and occupational health sciences, epidemiology and biostatistics, public health policy and management or public health nutrition; Group C (0-9 credits) Elective courses; and Group D (6-12 credits) Supervised Fieldwork and Culminating Experience.

The culminating experience consists of a professional portfolio and either: a seminar, and paper and oral presentation based on an aspect of the student's fieldwork; or, for student's with GPA's ≥ 3.7 and strong research and writing skills, a master's essay. The capstone project allows students to synthesize academic knowledge with practical skills and experiences. It is designed to assess student skills and competencies in public health, urban health and the specialty area. A list of these competencies is available through the CUNY School of Public Health at Hunter College.

Course Distribution

Group A - Public Health Core Required: 15 cr

PH 75000 - Introduction to Biostatistics

This course is designed to enable students to analyze, present and interpret population health data.

prereq: Elementary statistics or calculus or equivalent.

-or-

PH 75100 - Principles of Biostatistics

This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores ≥ 550 and analytic scores ≥ 4.5 .

PH 75200 - Introduction to Epidemiology

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

prereq: PH 75000

-or-

PH 75300 - Principles of Epidemiology

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

prereq or coreq: PH 75100

Hours 3

Credits 3

PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

Hours 3

Credits 3

PH 75500 - Urban Health and Society

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

Hours 3

Credits 3

PH 75600 - Public Health and Health Care Policy and Management

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

Hours 3

Credits 3

Group B Specialization Courses Required:

15-18 cr in one specialization area

COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000

Credits 3

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75500, COMHE 75000, COMHE 75100

Credits 3

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.

Credits 3 cr

COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200

Credits 3 cr

-or-

Environmental and Occupational Health Sciences

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

Credits 3

EOHS 70500 - Environmental Chemistry

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

Credits 3

EOHS 74700 - Hazard Evaluation and Instrumentation

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

prereq: PH 75000 or 75100, EOHS 70200, EOHS 70500

Credits 3

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

prereq: PH 75400 and EOHS 70500

Credits 3

EOHS 76500 - Environmental Audits and Remediation

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

prereq: PH 75000 or 75100

Credits 3

-or-

Epidemiology and Biostatistics

BIOS 75000 - Applied Biostatistics I

A follow up course to PH 7500/75100 and PH 75200/75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

Cross-listed STAT 75000

prereq: PH 7500 or 75100 and PH 75200 or 75300

Credits 3

BIOS 75100 - Applied Biostatistics II

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

Cross-listed STAT 75100

prereq: BIOS 75000

EPI 75000 - Epidemiologic Methods I: Study Research Design

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq: ,

Cross-listed GC PH 82000

prereq: PH 75100, PH 75300

Credits 3

EPI 75100 - Epidemiologic Methods II: Survey and Research Methods

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

Cross-listed GC PH 82100

prereq: EPI 75000

Credits 3

EPI 75200 - Applied Research: Data management and analysis

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it

prereq: BIOS 75100, EPI 75100 or instructor's permission

Credits 3

-or-

Public Health Policy and Management

HPM 75000 - Public Health Management

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

prereq: PH 75500, PH 75600

HPM 75100 - Public Health and Health Care Law

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

prereq or coreq: PH 75500, PH 75600 or with instructor's permission for those with at least one year of health care experience

HPM 75200 - Comparative Analyses of Urban Health Care Systems

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600

Students can take this course or HPM 75400

-or-

HPM 75400 - Public Health Advocacy

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600

Students can take this course or HPM 75200

HPM 75300 - Public Health Policy Analysis

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

HPM 75500 - Health Economics

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600

-or-

Nutrition

NUTR 71000 - Principles of Public Health Nutrition

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

PH 72200 - Food Politics and Policy

This policy course examines the influence of the food industry and of government on the U.S. food system and the way we eat, and on efforts to prevent and treat chronic diet-related conditions, such as obesity. This is a hybrid course that meets in person 5 times during the semester; the remainder of the time the course is conducted online asynchronously through Blackboard

Cross-listed GC PH 81400

prereq: 30 MPH credits

- COMHE 75000 and either
- COMHE 75300 (for NUTR non-DI students)

-or-

NUTR 70000 - Seminar in Dietetics Practice

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

Group C - Elective/Concentration Courses required, 0-9 credits

COMHE 9 credits

EOHS 9 credits

EPI/BIOS 9 credits of which at least 6 must be from EPI75300-75900 for students who choose EPI option or BIOS 75200-75800 for students who choose BIOS option. EPI-BIOS students may also take electives in mapping public health data and clinical trials or other topical electives offered..

HPM 9 credits of which at least 3 credits must be in finance or economics and 3 must be in program or policy evaluation

NUTR 6 credits (for NUTR non-Dietetic Internship (DI) students) and 0 credits for NUTR – DI students

Group D - Supervised Field Work and Capstone Project

Supervised Fieldwork required, 3 credits

PH 73700 (210 hrs) or NUTR 70100 NUTR 70300 NUTR 70200 for NUTR-DI Students

Capstone Seminar required, 3 credits

PH 73800

Note: To be eligible for the American Dietetic Association's Dietetic Internship Certificate, a requirement for taking the examination to become a registered dietitian, students in the public-health nutrition specialization must complete NUTR 70000 NUTR 70100 NUTR 70200 NUTR 70300 .

Master of Science - MS

Accountancy - MS

The MS in Accounting program at Hunter College is designed for students who have satisfied the academic requirements for an undergraduate degree in accounting. It will provide intensive training in accounting research, information systems, ethics, and advanced coverage of the core topics in accountancy. Students completing the program will be well equipped for a successful career in accounting. Hunter's MS in Accounting has been approved by the New York State Department of Education as a CPA licensure-qualifying program for students who have earned a BS in Accounting at Hunter College or an equivalent undergraduate program.

Beginning in August of 2009, New York State requires all CPA candidates to have completed 150-credit hours in order to sit for the Uniform CPA Examinations. The graduates of the MS program will be able to fulfill this requirement.

The MS program is a 30-credit program consisting of six required courses, two accounting electives, and two non-accounting electives. It can be pursued on a full-time or part-time basis. The program curriculum and admission requirements are outlined below. The accounting faculty within the Economics Department at Hunter College has established a record of teaching excellence, and has produced research of the highest quality within the field of accounting.

Requirements for Admission

A BS degree in Accounting from Hunter College or the equivalent from another regionally accredited college or university with:

- An overall GPA of 2.75 and A GPA of 3.0 in accounting courses
- Two letters of recommendation
- A GMAT score
- A TOEFL score (if an applicant has received all or part of the undergraduate education in a country where English is not the native language).

Students applying with undergraduate degrees other than a BS in Accounting from Hunter may be accepted under the above standards but will need to meet the academic requirements of Hunter's BS in Accounting in addition to the requirements for the MS degree. (The undergraduate requirements include an accounting core comprised of **ECO 27100** and **27200**, Principles of Accounting I and II; **ECO 37100** and **37200**, Intermediate Accounting I and II; **ECO 47100** and **47200**, Advanced Accounting I and II; **ECO 28000** and **38000**, Business Law I and II; **ECO 37400**, Cost Accounting; **ECO 37300** and **47300**, Individual and Business Taxation; and **ECO 47500**, Auditing. For a complete description of the undergraduate requirements, see the Hunter College Undergraduate Catalog.).

Requirements for the Degree

The MS in Accounting program requires a student to earn 30 credits: 18 credits from a required core of six courses, 6 credits in accounting electives, and 6 credits in non-accounting electives, as outlined below. Additionally, a capstone research project will be undertaken as part of the required coursework.

Required courses

The following 3-credit courses are required of all students in the program:

ECO 77000 - Research Techniques in Accounting

The course will clarify the nature of accounting research for the student, and survey important research methods and techniques.

ECO 77100 - Advanced Financial Accounting Theory

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

ECO 77200 - Accounting Information Systems

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

ECO 66000 - Managerial Economics for Accountants

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

prereq: ECO 32100 and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances*

Hours 3

Credits 3

** If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.*

ECO 78000 - Business Ethics, Communications, and Research Project

Ethical issues in accountancy will be covered, as well as ethical concerns in marketing, corporate social responsibility, and global operations. Business communication skills will be developed. A capstone research project will be completed.

prereq: ECO 77000

ECO 77500 - Advanced Auditing

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer- assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

Note(s)

**The following may be substituted for ECO 66000 with permission of the program adviser.*

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

Electives

An additional twelve (12) credit hours, selected from among the following 3-credit courses, are also required. Students are required to take two courses from the accounting electives and two from liberal arts (non-accounting electives).

Accounting Electives

ECO 77300 - Advanced Federal Income Taxation

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.

ECO 77400 - Advanced Managerial Accounting

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

ECO 77600 - Governmental Accounting

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

ECO 77700 - State and Local Taxation

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

Other (Non-Accounting) Electives

Any other 600- or 700-level course offered by the Hunter College Economics Department may be taken as a non-accounting elective.

Graduate level courses within the Department of Urban Affairs and Planning and the graduate program in Social Research may also be taken as electives.

Biomedical Laboratory Management-MS

The MS in Biomedical Laboratory Management (BLM) is a collaborative offering of the Medical Laboratory Sciences (MLS) program of Hunter College and the School of Professional Studies, CUNY (SPS/CUNY). The purpose of this degree is to provide a career ladder for laboratory staff. It will focus on the knowledge and skills needed for clinical technologists, research assistants and other technical professionals in biomedical laboratories to move into positions of leadership. This degree does not provide NYS clinical licensure. Full details can be found at <http://www.hunter.cuny.edu/mls/graduate/ms-in-biomedical-laboratory-management>.

HEGIS CODE 0499.00 NYSED 33447 (Articulating with CUNY School of Professional Studies Advanced Certificate in Management, **HEGIS 0506.00, NYSED 31789**)

Admission Requirements

See general graduate admission requirements for Hunter programs.

Additional Requirements:

- Bachelor's degree in clinical laboratory science, biology, chemistry or other related discipline with a GPA of at least 3.0 (on a 4.0 scale).
- Official score report of the Graduate Record Exam (GRE).
- At least one year of bench experience employed in a biomedical laboratory.
- Two references (one preferably from current place of employment) .

Curriculum

The required 30 credits are divided between Hunter College, offering science and biomedicine classes, and the School of Professional Studies, CUNY, offering business and management classes. The MS degree will be granted by Hunter College following transfer of courses making up the Advanced Certificate in Management from SPS/CUNY.

Required courses from Hunter College are:

- Concepts of Disease: Diagnostic Strategies (MLS 70000)
- Emerging Laboratory Technologies (MLS 70100)
- Topics: Biohazards and Emergency Response (MLS 40066/EOHS 77025)
- Management Practicum (MLS 71000)
- Risk Management for the Biomedical Laboratory (TBA)

Courses from Hunter that may be used to fulfill the 6 credit elective requirement are:

- Graduate Independent study (TBA)
- Principles of Epidemiology (PH 75300)
- Introduction to Biostatistics (PH 75000)

The SPS certificate requires 9 credits (the required courses are shown below).

- Financial Management (MGT 681)
- Organizational Behavior (ORG 680)
- Human Resource Management (MGT 680)

In addition, the following courses from SPS may be used to fulfill the 6 credit elective requirement:

- Health Care Administration (HCA 600)
- Evaluation of Healthcare Policy (HCA 603)

- Labor-Management Relations (LABR 603)

Communication Sciences: Speech-Language Pathology - MS

The 68-credit Speech-Language Pathology (SLP) curriculum leading to an MS degree prepares individuals to become speech-language pathologists working in hospitals, rehabilitative centers, college or university clinics, health-care agencies, specialized clinical settings, or private practice and prepares students for professional practices in preschools, elementary and secondary schools, and early-intervention developmental centers. Successful completion of the SLP curriculum prepares students to meet the academic and clinical requirements for ASHA certification, New York State licensure, and recommendation for NY State certification as a teacher of students with speech and language disabilities (TSSLD). Additional requirements for certification following graduation include the completion of a clinical fellowship year and passage of PRAXIS examination in Speech Language Pathology. Students seeking TSSLD additionally must take the New York State Teacher Certification Examinations: LAST (Liberal Arts and Science Test) and Elementary (or Secondary) Assessment of Teaching Skills-Written (ATS-W) prior to graduation.

Admission Requirements

Hunter College maintains only electronic processes for Graduate Admissions. Applicants are responsible for creating an admissions account and correctly submitting the following:

- Official transcripts from undergraduate and graduate schools verifying completion of degrees, GPAs and coursework
- GRE scores
- Two letters of recommendation
- Narrative statement

Visit Hunter College's Graduate Admissions page for more information regarding the application process.

Individuals wishing to matriculate into the COMSC program must demonstrate completion of 45 credits of prerequisite coursework in Communications Sciences and Disorders as well as Liberal Arts and Sciences.

The breakdown of the prerequisite coursework is outlined below.

Fifteen credits of foundations courses in Communication Sciences and Disorders are required. Each of the following must be at least 3 credits.

- Introduction to Language
- Anatomy and Physiology of Speech Mechanisms
- Phonetics of American English
- Introduction to Speech Pathology
- Introduction to Audiology

Thirty credits in Liberal Arts and Sciences courses are required of each applicant. Applicants should review catalog descriptions of courses they have taken to ensure correct matching of the following requirements:

- Biological science (3 credits)—examples are botany, biology, ecology, genetics, marine biology, nutrition, physiology, zoology
- Physical science (3 credits)—examples are chemistry, physics, earth science, oceanography, geology, astronomy, weather

- Mathematics or Statistics (3 credits)—examples are algebra, calculus, trigonometry, statistics (remedial, historical, or methods courses **do not** fulfill this requirement)
- Behavioral and/or social science (6 credits)—(study that pertains to understanding normal/abnormal human behavior, development across the life span, social interaction, and issues of culturally diverse populations)—examples include anthropology, criminology, sociology, psychology, human behavior, cultural diversity, gender issues
- English (6 credits)—at least 3 credits of intensive writing
- U.S. history or political science (3 credits)
- Art (3 credits)—examples include pottery, painting, drawing, theater performance, dance, musical instrument performance, art or music appreciation
- Language other than English (3 credits)—American Sign Language, Spanish, French, German, Hebrew, Arabic, Greek, etc.

When applying to become a matriculated student applicants should understand:

- Courses must be taken at an accredited college or university
- At least a B grade is necessary for all prerequisite coursework
- Advanced Placement (AP) credit will be accepted; however, AP must be recorded on the student's official undergraduate transcript(s)
- Pass/fail grades will not be considered as having fulfilled the Communication Sciences or Liberal Arts and Sciences prerequisite requirements
- Being a native speaker of a language will not fulfill the language requirement; the language requirement must be documented on an official transcript
- College-Level Examination Program (CLEP) scores will not be considered as having fulfilled admissions requirements

If unsure that a class meets a prerequisite course requirement, students applying to the COMSC Program may wish to include with their application a catalog description and/or syllabus for that course.

Suggested Curriculum

Fall 1 (15 credits)

COMSC 70000 - Introduction to Research Methods

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none

Hours 45

Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice

acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800

Hours 45

Credits 3

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none

Hours 45

Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none

Hours 45

Credits 3

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200

Hours 45

Credits 3

Spring 1 (15 credits)

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200

Hours 45 hrs,

Credits 3 cr

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72000, 73300

Credits 1 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

prereq: COMSC 72000

Hours 30

Credits 2

COMSC 75200 - Audiology for Speech-Language Pathologists

This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered. Particular emphasis will be on the role of speech-language pathologists in aural rehabilitative processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

prereq: none

Hours 45

Credits 3

Summer 1 (6)

COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals; and school-based curriculum.

prereq: COMSC 73300

coreq: COMSC 77100

Hours 30

Credits 2

COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 73300

Credits 1 cr

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

prereq: CEDF 70900 and CEDF 71500

Hours 45 hrs,

Credits 3 cr

Fall 2 (16 credits)

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60

Credits 4

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none

Hours 60

Credits 4

COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or

adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1 cr

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none

Credits 3

Spring 2 (16 credits)

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter college will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300

Hours 45

Credits 3

COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45

Credits 3

COMSC 73700 - Clinical Seminar in Speech-Language Pathology: Alternative and Augmentative Communication (AAC)

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of AAC assessment, diagnostic intervention planning & implementation, data collection & interpretation, and follow-up assessment for monitoring progress across the life span. Presentation of no-tech (unaided communication), low-tech, mid-tech, and high-tech supports will be made available.

prereq: COMSC 73600

coreq: COMSC 73900

Hours 30 hrs,

Credits 2 cr

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900

coreq: COMSC 73700

Credits 1 cr

Total Credits: 68

TSSLD with Bilingual Extension (Spanish-English)

The Teachers of Students with Speech and Language Disabilities with Bilingual Extension (Spanish-English) option is available to students in the SLP curriculum who meet the admission requirements regarding demonstration of bilingual proficiency. A written and oral Spanish/English proficiency exam is administered to candidates by the Communication Sciences program. The bilingual requirements include an additional 12 credits of coursework:

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: EDF 70900 and BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900

Hours includes 5 hrs of fieldwork

Credits 3 cr

and a bilingual school-based practicum

COMSC 72904 - Clinical Practicum in Speech- Language Pathology 1

for students in the bilingual extension, designates a special section of **COMSC 72900** for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

Credits 4

includes 30 hours fieldwork

Additional Bilingual Examinations

Students seeking TSSLD with Bilingual Extension are required to take the Bilingual Content Specialty Test (CST). In addition to the requirements for TSSLD, candidates for a bilingual extension must also take two language examinations — one in the target language (Spanish) and the other in English.

Environmental and Occupational Health Sciences - MS

This program is designed for individuals seeking careers as environmental and occupational health professionals. While emphasizing the recognition, evaluation, and control of environmental and occupational factors affecting health, the curriculum also includes consideration of economic, sociopolitical, and regulatory issues. Offerings are designed so that students may also pursue study in environmental health science in addition to specialization in occupational health and safety. Opportunities are available for internships with numerous outside organizations (see list of field instruction centers below) as well as for research with faculty members. Together with several other major professional training institutions, this program is a component of the Education and Research Center designated for this region by the National Institute for Occupational Safety and Health. A limited number of tuition scholarships are available to qualified students.

Graduates of the program are qualified for research, management, and planning positions in a variety of private and public institutions. Career options include air and water pollution control, hazardous waste management, industrial hygiene, occupational health and safety, environmental planning, and environmental public health. After a prescribed period of work experience, graduates can qualify for examinations to become certified industrial hygienists (CIH), certified safety professionals (CSP), certified hazardous materials managers (CHMM).

Scholarships may be available from the National Institute for Occupational Safety and Health (NIOSH) (EOHS Students) and other public and private sources. Contact the program office for further information.

Admission Requirements

1. General admission requirements to the graduate programs in arts and sciences are observed.
2. The aptitude section of the Graduate Record Examination or a master's degree from an accredited U.S. university

An undergraduate major in science or engineering is desirable.

Students are expected to have completed at least 40 credits in undergraduate or graduate-level basic science and math courses such as courses in organic chemistry (with labs), general chemistry, general physics, biology, and environmental or health sciences. Generally, an undergraduate major in biology, chemistry, environmental sciences or

physics would satisfy these requirements. Students must also have completed one semester of calculus and one of statistics. Students with a good academic record who do not meet the above requirements may be admitted with conditions upon recommendation of the program admissions committee.

Academic Requirements

46 credits chosen as follows: All courses in Group A (15 credits) Public Health Core courses (see below under Course Distribution); Group B (19 credits) Specialization courses within environmental and occupational health sciences; Group C (6 credits) Elective courses; and Group D (6 credits) Supervised Fieldwork and Capstone Project.

The capstone project consists of a comprehensive examination, a professional portfolio and either: A seminar, and paper and oral presentation based on an aspect of the student's fieldwork; or, for student's with GPA's ≥ 3.7 and strong independent research and writing skills, a master's essay. The Capstone Project allows students to synthesize academic knowledge with practical skills and experiences. It is designed to assess student skills and competencies in public health and the specialty area. A list of these competencies is available through the CUNY School of Public Health at Hunter College.

Course Distribution

Group A - Public Health Core Courses required, 15 credits

PH 75100 - Principles of Biostatistics

This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores ≥ 550 and analytic scores ≥ 4.5 .

PH 75200 - Introduction to Epidemiology

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

prereq: PH 75000

-or-

PH 75300 - Principles of Epidemiology

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

prereq or coreq: PH 75100

Hours 3

Credits 3

PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

Hours 3

Credits 3

PH 75500 - Urban Health and Society

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

Hours 3

Credits 3

PH 75600 - Public Health and Health Care Policy and Management

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

Hours 3

Credits 3

Group B Specialization Courses required, 19 credits

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

Credits 3

EOHS 74100 - Environmental and Industrial Hygiene Laboratory

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

prereq or coreq: EOHS 70500

Hours 90 hrs lec and lab,

Credits 4 cr

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

prereq: PH 75400 and EOHS 70500

Credits 3

EOHS 75500 - Industrial Ventilation and Environmental Control

Fundamentals of industrial ventilation: air flow, local and dilution exhaust ventilation systems, hood and piping design, fan type and selection, air cleaning devices, system-testing; problem-solving; engineering controls.

Credits 3

EOHS 75700 - Principles of Industrial Hygiene

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

prereq: EOHS 70200 and 70500

Credits 3

EOHS 76200 - Noise and Radiation Hazards and Controls

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

prereq or coreq: EOHS 70500

Credits 3

Group C Elective Courses required, 6 credits

Group D Supervised Fieldwork and Culminating Experience, 6 credits

Supervised Fieldwork required, 3 credits

PH 73700 - Supervised Fieldwork

Students will carry out directed field experiences in public health agencies or programs. Placements are in relation to student's academic background, specialization and career expectations. Emphasis is on applying classroom-acquired concepts and skills. The content and scope of the fieldwork should be similar to work performed by an entry level public health professional.

prereq: Completion of 18 credits toward the master's degree, including at least 3 required core courses (biostatistics, epidemiology, and the course most relevant to your specialization) and at least 2 courses in students' specialization.

PH 73800 - Capstone Project

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the MPH or MS program. Students will complete either a paper based on fieldwork, a research paper or a Master's Essay. The paper must be completed no sooner than during students' penultimate or final semester.

prereq: Completion of at least 36 credits of coursework toward the Master of Public Health (MPH) or Master of Science degree, including at least one course in each of the 5 core areas of public health (biostatistics, epidemiology,

social and behavioral sciences, public health policy and environmental health and safety); and at least 3 specialization courses.

Paper based on fieldwork, research paper or master's essay, 3 credits

Nursing: Adult Health/Med-Surg Nursing MS

(42 Credits)

Specialization Coordinator Dr. Christine Cutugno

ccutugno@hunter.cuny.edu

The program prepares nurses to assume an advanced practice nursing role as a Clinical Nurse Specialist in a variety of health care settings, from acute care to home care. Nurses who earn this degree are preparing themselves for advanced practice positions in medical-surgical specialties within acute care or community-based nursing services.

Through course work, practicums (500 hours), and carefully selected electives, students develop expertise in such specialties as cardiovascular nursing, oncology, rehabilitation, and critical care. The advanced practicums are offered in a variety of medical-surgical specialties. Students also have an opportunity to participate in community-based programs aimed at serving a selected target population and promoting policy changes in the health care delivery system. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center (ANCC).

Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Practice Core: 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

*prereq: NURS 74900
Hours 45 hrs practicum,
Credits 3 cr*

Advanced Practice Specialization Courses: 15 credits

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

*prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900
prereq or coreq: NURS 71700, NURS 75000, NURS 75100
Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,
Credits 5*

NURS 76600 - Advanced Medical Surgical Nursing I

Provides specialized knowledge and clinical experience in order to implement the diverse roles of the clinical nurse specialist (CNS) in a variety of settings and with patients of different age groups.

*prereq: NURS 76100
Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum
Credits 5*

NURS 76700 - Advanced Medical Surgical Nursing II

Builds on specialized knowledge and clinical experience in order to implement the diverse roles of the clinical nurse specialist (CNS) in a variety of settings and with patients of different age groups.

prereq: NURS 76600

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

Electives: 6 credits

Nursing: Clinical Nurse Leader MS

(42 Credits)

Specialization Coordinator Mattia Gilmartin

mgilmar@hunter.cuny.edu

The program prepares nurses to assume a Clinical Nurse Leader™ role in a variety of health care settings, from acute care to home care. Students learn to apply theories and research findings to practice through course work and in a series of practica for a total of 500 hours. Nurses who earn this degree are preparing themselves for practice as advanced generalists with competence in providing clinical outcomes management, care environment management, and clinical leadership for setting specific practice throughout the healthcare delivery system. Graduates of the program meet educational requirements for specialty certification by the American Association of Colleges of Nursing (AACN).

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Practice Core: 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900

Hours 45 hrs practicum,

Credits 3 cr

Specialization Courses: 15 credits

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900

prereq or coreq: NURS 71700, NURS 75000, NURS 75100

Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,

Credits 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100

Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars

Credits 10

Electives: 6 credits

Nursing: Community/Public Health Nursing MS

(42 credits)

Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu

The program prepares nurses as advanced public health nurses to assume leadership roles in community/public health nursing in a variety of settings including home care, public health, and community-based agencies. Students learn to apply theories and research findings to nursing practice through course work and a series of practicums for a total of 500 hours. Graduates of the program meet additional requirements for specialty certification by the American Nurses Credentialing Center.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Public Health Core Courses: 9 credits

PH 75000 - Introduction to Biostatistics

This course is designed to enable students to analyze, present and interpret population health data.

prereq: Elementary statistics or calculus or equivalent.

PH 75200 - Introduction to Epidemiology

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

prereq: PH 75000

PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

Hours 3

Credits 3

Specialization Courses: 15 credits

NURS 77100 - Community/Public Health Nursing I

Analysis of how clinical specialists in community/public health nursing conduct a community health assessment and participate on multidisciplinary teams that work in partnership with culturally diverse communities.

prereq: NURS 700, PH 700

prereq or coreq: NURS 702, NURS 749

Hours 30 hrs theory, 166 hrs practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

Electives: 6 credits

Nursing: Gerontological/Adult Health Nurse Practitioner Program MS

42 credits

Specialization Coordinator: Steven Baumann, sbaumann@hunter.cuny.edu

This specialization prepares nurses to assume a leadership role in primary care for adults and older adults in the community and in a variety of health care settings. Students learn to apply select theories and research in 735 hours of preceptored practicums. Graduates of the program will be eligible for certification as adult nurse practitioners and gerontological nurse practitioners by the New York State Education Department and by the American Nurses Credentialing Center after passing the national certification examination.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Practice Core: 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900

Hours 45 hrs practicum,

Credits 3 cr

Specialization Courses: 18 credits

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5 cr

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

coreq: NURS 755

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3 cr

Electives: 3 credits

Select courses such as NURS 75400 - Psychosocial Behavioral Patterns of Older Adults

Nursing: Psychiatric Nurse Practitioner MS

42 credits

Specialization Coordinators: Anna Acee/Kunsook Bernstein, aacee@hunter.cuny.edu, kbernst@hunter.cuny.edu

This specialization prepares nurses to assume an independent and autonomous role in psychiatric nursing and primary care for the mentally ill population in the community and in a variety of health care settings. Students learn to work with other mental health professionals in providing preventive mental health services to target populations in the community and in designing and implementing new treatment approaches. Specialization courses provide advanced nursing content and guided learning experiences in a variety of settings and roles completing a total of 600 clinical hours. Graduates of the program are eligible for certification as psychiatric/mental health nurse practitioners by New York State Education Department, and meet educational requirements for specialty certification by the American Nurses Credentialing Center.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Practice Core: 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900

Hours 45 hrs practicum,

Credits 3 cr

Specialization Courses: 15 credits

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000

prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,

Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742

prereq or coreq: NURS 704

Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300

Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,

Credits 5 cr

Electives: 6 credits

Selections may be from graduate offerings in nursing, health science or other disciplines as applicable.

Highly recommended elective 3 credits

NURS 71900 - Psychopharmacology

Course provides evidence-based guidelines of pharmacology in treating mentally ill individuals. Neuro-biology and psychopharmacology theories, current clinical practice of pharmacology for major psychiatric diagnoses, and practical clinical application of relevant pharmacotherapy will be explored.

Nutrition MS

The MS degree in Nutrition is designed for individuals seeking to attain the RD credential. The MS in Nutrition is an accredited didactic program in dietetics (DPD), completion of which certifies eligibility to apply for a dietetic internship. Graduates of the NUTR-MS program may work as nutritionists in a wide variety of health care facilities including hospitals and public health agencies.

Admission Requirements

1. General Admission Requirements to the graduate programs in arts and sciences are observed.
2. An undergraduate major in any field.
3. The aptitude section of the Graduate Record Examination or a master's degree from an accredited U.S. university.

4. At least 30 credits in the following undergraduate or graduate-level basic science and math courses: one semester each of undergraduate courses in introductory foods, introductory nutrition, general chemistry (with lab), organic chemistry (with lab), microbiology (with lab), and statistics or calculus, and two semesters of anatomy and physiology (with lab).

Academic Requirements and Course Distribution

41 credits as follows:

NUTR 70500 - Nutrition and Biochemistry

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

NUTR 71500 - Food Service and Management

An overview of food service operations and theories, functions and tasks of management

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 72500 - Nutrition Research

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR 73100 - Human Nutrition and Metabolism

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

prereq: NUTR 70500

NUTR 73200 - Advanced Nutrition II

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

prereq: NUTR 73100

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

NUTR 73400 - Clinical Nutrition I

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

NUTR 74600 - Nutrition and Disease

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

NUTR 74700 - Advanced Nutrition and Assessment Laboratory

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

NUTR 75600 - Food Science and the Environment

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

NUTR 75700 - Food Science and the Environment Laboratory

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600

Credits 1

NUTR 76000 - Practicum

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

PH 75000 - Introduction to Biostatistics

This course is designed to enable students to analyze, present and interpret population health data.

prereq: Elementary statistics or calculus or equivalent.

Comprehensive Exam

All graduate students in the MS-Nutrition Program will be required to take a comprehensive exam to demonstrate understanding of the DPD course content. This exam will be given in the last semester of the program and will serve as the final exam in the Practicum course. The exam will be a multiple-choice exam that is similar in style to the ADA national registration exam for dietitians. In order to obtain the Verification Statement, a student must score at least 75% on the comprehensive exam and maintain good standing in the department. If a student scores < 75% on the exam, then the student will be allowed to retake the exam.

Social Research - MS

The Department of Sociology offers an intensive program in social research leading to the master of science degree. The program is designed for individuals who wish to pursue a career in applied social research and related areas, as well as for those who wish to upgrade their research skills. All courses are scheduled in the evening.

Graduates are prepared for professional research positions in business corporations, organizations involved with international development, government agencies and non-profit organizations.

The program offers four broad areas of research application: market research and consumer behavior; media research and analysis; research in international development; and research and policy analysis in the public and nonprofit sector. Students may focus on one of the program's areas of specialization or, with faculty guidance, develop a customized course of study if a student is interested in an area of research other than those given above.

Students train for careers in research through a combination of course work, research in their areas of specialization, and a supervised internship in a professional research setting. By carrying out a research project during the internship outside the university setting, students gain firsthand experience in the conduct of applied research and familiarity with practical problems in their field of interest. Frequently, agencies and companies providing internships appoint former interns to full-time positions after graduation. Internship sites have included such companies and organizations as Community Service Society; CBS; Children's Television Workshop; numerous state and city agencies; Warnako Corp.; Time-Warner, Inc.; Lou Harris Interactive; Nielsen Corp. and the United Nations. Students who are already working in research positions may use on-the-job projects as the basis of an internship, with permission of the program director.

Students wishing to learn more about the program are encouraged to talk with the Program Director, **Professor Howard Lune**, who can be reached in the program office in 1601 Hunter West or by email at hlune@hunter.cuny.edu.

Admission Requirements

All applicants must have successfully completed at least 3 credits in statistics at either the undergraduate or the graduate level. Three credits in research methods and a background in sociology or other social science are desirable but not required. General admission requirements for arts and sciences graduate programs apply, including a minimum grade point average of 3.0 and the Graduate Record Exam (GRE) or the Graduate Management Admission Test (GMAT). Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit minimum scores on the Test of English as a Foreign Language (TOEFL) of 550 on the paper based test or 213 on the computer administered test or 60 (less speaking component) on the TOEFL IBT.

Applicants who do not meet these requirements in full may apply and request special permission to enter after a mandatory personal interview.

Degree Requirements

Completion of the graduate program in social research requires a minimum of 45 credits, which include:

1. Core Courses

GSR 70800 - Statistics I

Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

prereq: SOC 24100 or equiv

Hours 45

Credits 3

fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70900 - Statistics II

Topics covered include analysis of variance, multiple regression and other multivariate techniques.

prereq: GSR 70800 with grade of B or better

Hours 45

Credits 3

spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71000 - Research Methods I

Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

prereq: SOC 24100 or equiv or perm instr

Hours 45 hrs,

Credits 3 cr

fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71100 - Research Methods II

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

prereq: GSR 71000 or permission of instructor

Hours 45 hrs,

Credits 3 cr

spring only Students must consult the program advisers before registering for courses. Some graduate courses are

open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70200 - Contemporary Sociological Theory

Methodological philosophies and findings of major sociological theorists.

Hours 45

Credits 3

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71600 - Workshop in Using Information Technology for Research

Use of the Internet and web for both qualitative and quantitative research; includes search and evaluation strategies, access to full text data bases, and interactive statistical and spatial analysis. Presentation of findings in formats suitable for delivery via the web.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71700 - Seminar in Applied and Evaluation Research

Theoretical and methodological issues in applied evaluation research; achieving agreement on program goals and qualifying goals.

prereq: GSR 70900, GSR 71000 and GSR 71100

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

Hours 45

Credits 3

Spring only. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

2. Electives

Fifteen credits are taken in courses according to the student's interests. Some may be taken in areas of specialization among GSR courses, some may be selected from courses in other Hunter departments or CUNY colleges. See advisers.

3. Internship Requirements

Degree candidates must work as research interns in public or private organizations for a minimum of three (full-time) or six (part-time) months. A 9-credit sequence based on the internship includes 6 credits for completion of the internship.

GSR 71800 - Research Internship

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

Credits 6 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Additional Information

The program can be completed in two years on a full-time basis, or seven semesters on a part-time basis (two courses per semester minimum).

Research Facilities and Affiliations

Graduate social research students have access to college-wide research and computing facilities and libraries of Hunter College, as well as to GSR program facilities, including a social sciences computer lab and a focus group facility.

Course Sequence

The following links provide a recommended model for timely completion of the program. Actual student schedules will depend on student interest and advisement.

- [Social Research Recommended Path for Full-Time Study, 2 years](#)
- [Social Research, Recommended Paths for Part-Time Study, 3 - 3 1/2 Years](#)

Note(s)

All courses offered by the program are open to students from other graduate programs provided the appropriate prerequisites are met.

Teachers of Students with Speech-Language Disabilities – Bilingual (English-Spanish Extension) MS

Requirements for Admission

In addition to all of the requirements for admission to the TSSLD curriculum, students applying for the bilingual (Spanish and English) extension must pass a Communication Sciences Program-administered evaluation of written and oral proficiency in Spanish and English.

Requirements for the Degree

In addition to all of the TSSLD requirements identified above, students must complete the following Extension requirements:

A. 12 additional credits of coursework:

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork

Credits 4

20 hours fieldwork

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: EDF 70900 or CEDF 70900 and BILED 70100 and EDC 70400 or CEDC 70400

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: EDF 70900 and BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

B. School-based Language Practicum

A school-based language practicum (COMSC 72900 for 1 credit) must involve work with Spanish-speaking children eligible for bilingual education services.

C. NYSTCE Tests for English Language Proficiency

NYSTCE tests for English Language Proficiency Assessment (LPA) and the Target Language Proficiency Assessment (TLPA).

Urban Affairs - MS

The 36-credit MS in Urban Affairs program contains a flexible curriculum that launches students into the study of cities and the urban environment. The interdisciplinary nature of the program allows students to tailor their education to career aspirations and/or interests of their own choosing. The program is designed to accommodate both full and part time attendees. It can be completed in either two full semesters and a summer session or over a longer period of time. In combining both theory and practice, the program seeks to foster an understanding of urbanism while teaching practical skills to prepare students for the changing urban environment.

Our faculty specializes in a diverse range of urban disciplines with expertise and specializations that include: urban planning and history, governance, education, health, housing, immigration, comparative government, economic development, community advocacy, transportation, environment, law, and integrated technologies. The program boasts a distinguished part-time faculty, bringing years of practical experience and knowledge in both public and non-profit sectors. It is not uncommon to take courses from high level New York City professionals and practitioners.

In order to accommodate the needs and interests of an increasingly diverse student body, the faculty has recently redefined course requirements so that students have more choices in constructing their program. These changes are reflected in the distribution of the requirements listed below.

Our students are drawn from a diverse population locally, nationally and internationally. While most have been out of college for some time and many are already in the midst of their careers, an increasing number are arriving one or two years out of college. Most plan or are pursuing careers in the public and non-profit sectors. Students may substitute courses from other departments and/or CUNY schools that more appropriately address their substantive interest for the course listed in each of the Required Disciplines.

Requirements for Admission to the Master of Science in Urban Affairs Program

Applicants must meet Hunter's general graduate admission requirements, except for the Graduate Record Examination, which is not required. Applicants must present at least 12 undergraduate credits in social science. Students with relevant undergraduate majors or nonacademic experience may, after consultation with the graduate adviser, request admission with special conditions.

Requirements for the Master of Science in Urban Affairs Program

Core Requirements (12 credits)

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser

Credits 6 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser

Hours 45 hrs,

Credits 3 cr

URBG 77500 - Urban Affairs Internship Seminar

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: permission of the adviser

Hours 45 hrs,

Credits 3 cr

Required Disciplines (6 credits)

One of each of the following is required:

Political Structure Requirement (3 credits)

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,

Credits 3 cr

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

Hours 45 hrs,

Credits 3 cr

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to

overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

Methods/Skills Requirement (3 credits)

URBG 79100 - Grantwriting and Fundraising Practicum

Focus on problem-solving skills used to resolve crucial issues in urban community; program development procedures including program planning, strategizing, implementation, administration and funding. Students work with selected organizational and community concerns as consultants-in-training.

prereq: permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,

Credits 3 cr

GTECH 71000 - Introduction to GIS

Thorough introduction to geographic information systems with an emphasis on spatial data handling and project management.

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

Specializations (9 credits)

Students choose one area of specialization from among the three designated areas of specialization that include: urban policy, non-profits, neighborhood development from which nine credits of coursework must be taken. Students with approval of the program adviser may also develop their own specializations.

Urban Policy

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,
Credits 3 cr*

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

*Hours 45 hrs,
Credits 3 cr*

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

*Hours 45 hrs,
Credits 3 cr*

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,
Credits 3 cr*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,
Credits 3 cr*

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,
Credits 3 cr*

URBG/URBP 78700 special topics course can be taken to fill the concentration

Neighborhood Development

URBG 70700 - Graphical Communication for Urban Planners

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

*Hours 45 hrs,
Credits 3 cr*

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URBG 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr*

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,

Credits 3 cr

Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,

Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,

Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,

Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,

Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,

Credits 3 cr

URBG/URBP 78700 special topics course can be taken to fill the concentration

Non-Profit Sector

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,
Credits 3 cr*

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,
Credits 3 cr*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

*Hours 45 hrs,
Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

URBG/URBP 787 Special topics course can be taken to fill the concentration

Unrestricted Electives (9 credits)

In addition, students must complete an additional 9 credits in unrestricted electives.

Additional Courses

A wide variety of courses are offered each semester in the department, including special topics courses to meet the requirements. Students are encouraged to consult course listings in other departments within Hunter in which to take classes that are in line with their course of study. Up to 9 credits can be taken outside the Department of Urban Affairs and Planning in other departments at Hunter or within the CUNY system.

Master of Science in Education - MSED

Advanced Preparation in Special Education - MSED

This is a 30-credit program leading to a master's degree in Special Education: Advanced Preparation in Special Education as well as NYS Professional Certification in Childhood Special Education or Early Childhood Special Education. The program offers three tracks, each designed for teachers certified in special education who are seeking advanced preparation related to Special Education: Learning Disabilities (LD), Behavior Disorders (BD) or Early Childhood Special Education. The program is designed for those with initial NYS teacher certification in special education who are in need of graduate work leading to a master's degree and Professional Certification in Childhood Special Education or Early Childhood Special Education. It is also designed for those who hold NYS teacher certification in Special Education and a master's degree (e.g., those with permanent or professional certification at any age-level of special education) who are seeking to further their knowledge/skills, gain additional graduate credits, and, at the same time, add an extension, annotation, or additional age-level certificate.

The purpose of this program is to provide an advanced master's program that encourages practicing teachers to continue their professional development via individually tailored and highly practical graduate preparation focused on effective practices and specially designed instruction in Special Education.

Admission Requirements

1. New York State initial or professional teacher certification in Students with Disabilities grades 1-6 or birth to grade 2 or New York State permanent certification in special education, K-12.
2. An undergraduate BA or BS degree with a GPA of 2.8 or higher from an approved college **or** a graduate degree in special education (any age-level) with a GPA of 3.5 or higher.
3. Two professional references to be included with the application for admission.
4. A personal statement to be included as part of the application for admission.

Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.

Advanced Preparation in Special Education Course of Study

Total Credits: 30 credits

Learning Disabilities (Track 1)

16-Credit Core of Courses

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab

Credits 2

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab

Credits 2

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45

Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45

Credits 3

Plus

14 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—

to be determined jointly in mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.

Behavior Disorders (Track 2)

Total Credits: 30 credits

18-credit Core of Courses

SPED 75051 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

prereq or coreq: SPED 75000

Hours 45

Credits 3

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45

Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45

Credits 3

Plus

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.

Early Childhood Special Education (Track 3)

Total Credits: 30 credits

17-Credit Core of Courses

SPEDE 77151 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome. Advanced students must complete individually-tailored assignments.

Hours includes 5 hrs of field experience.
Credits 3

SPEDE 77251 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs. Advanced students must complete individually-tailored assignments.

prereq or coreq: SPEDE 76900 or SPED 79000
Hours includes 5 hrs of field experience
Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

SPEDE 77951 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

prereq or coreq: SPEDE 776

Hours 30 hrs seminar plus conferences
Credits 2

Plus

SPEDE 77051 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborativeteaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation. Advanced students must complete individually-tailored assignments.

prereq or coreq: SPEDE 71400 and SPEDE 76900 or SPED 79100
Hours includes 5 hrs field experience
Credits 3

SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

Hours includes 15 hrs of field experience
Credits 3

Or

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

Plus

13 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student teaching , Supervised Practicum, and Clinical Teaching Lab:
 - A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.
 - B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.
4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity:
A comprehensive research-based oral presentation on a current special education issue
and either an original written research proposal
or a written proposal for competitive grant funding.
5. Students must pass the School of Education technology assessment.

Blind and Visually Impaired - MSEd

Blind and Visually Impaired Program Coordinator: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

Admission Requirements

Program 1

For applicants who do not hold New York State Certification

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in liberal arts and sciences to include a minimum of 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

For applicants who hold early childhood, childhood, PreK-grade 6, middle school or adolescent education New York State teacher certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. New York State initial, professional, or permanent teacher certification in early childhood, childhood, PreK-grade 6, middle school or adolescent education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. Any student who receives an F will not be allowed to continue.
5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. A student with two or more INs is prohibited from registering for any course.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

D. In order to enroll in student teaching or supervised practicum, all students must:

Have an overall GPA of at least 3.0

Have no outstanding INs.

Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 700, 701 or 791 and 702 or 702.50 Have taken or be registered concurrently for one methods course (e.g., SPED 706, 706.50, 731, 741, 751, 781, 781.50) Students in early childhood special education must complete SPEDE 776 or 767.

Blind and Visually Impaired Course of Study

Program 2

Total Credits: 40-41 credits

Cross-Categorical Core Courses (12 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience
Credits 3

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 74200 or SPED 79100
Hours (includes 10 hours of field experience),
Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,
Credits 3 cr

Blind and Visually Impaired Specialization

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 15 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200
Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq or coreq: SPED 74300 and SPED 74200

Hours 45 hrs,

Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300

Hours 15 hrs,

Credits 1 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours includes 10 hrs of field experience

Credits 3 cr

Take either

SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,

Credits 4 cr

Or one of the following:

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or

visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

Plus one of the following:

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours structured conferences, plus 20 days student teaching,

Credits 1

SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences, plus 20 days student teaching

Credits 1 cr

SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences

Credits 1 cr

SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences

Credits 1 cr

Additional Requirements for Program 1

Program 1

Total Credits: 47-60 credits

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab

A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity. Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 707, Research Seminar: Issues in Special Education):

a comprehensive research-based oral

presentation on a current special education issue

- and either
an original written research proposal
or
a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Childhood Education, Grades 1-6 - MEd

Program Coordinator Jason Riffaterre; 1001 West; (212) 772-4638; jriffate@hunter.cuny.edu

Hunter College's program in childhood education has been nationally recognized by the Association for Childhood Education International (ACEI). This program, which focuses on preparing teachers for New York City public schools is designed for students who do not have New York State certification in childhood education. Applicants who have initial certification in childhood education should apply to one of the other graduate teacher education programs at Hunter College such as Literacy; Childhood Special Education, Grades 1-6; TESOL (pre-K - 12); Early Childhood Education, Birth through Grade 2; or the Childhood Education Math/Science Specialist program. A master's degree from any of these programs will meet the academic requirements for a professional certificate in that area as well as in childhood education.

The number of credits required to complete this master's degree program is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 45-47 credits. Students may be exempted from up to 12 credits based on prior equivalent course work.

Admission Requirements

1. An undergraduate degree with a grade point average of at least 2.8.
2. A liberal arts or sciences major (or interdisciplinary concentration) of at least 30 credits.
3. A liberal arts core to include the following: 6 credits in English, including one course in English composition in with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better); 6 credits in social studies (one course in must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 3 credits in the arts; 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); and 3 credits in information retrieval (library studies, research, computer literacy or educational technology).
4. A personal statement to be completed as part of the application for admission.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork CEDC 715. Any student who receives a grade of B-, C+ or C must apply to the Chairperson of the Department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU will not be allowed to continue in the program.

Childhood Education Course of Study

Total Credits: 36 - 49 credits

This program includes four types of courses: Initial Core; Literacy Core; Extended Core; and Culminating Core. Teacher candidates should complete the courses in the Initial Core before starting the Literacy Core. Matriculated students may take courses from the Extended Core at any time as long as they meet the individual course prerequisite requirements. The Culminating Core is completed during the last semester or last two semesters of the program.

Initial Core:

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

*Hours 45 hrs,
Credits 3 cr*

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

Literacy Core:

CEDC 73000 - Perspectives on Literacy Across the Content Areas

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

prereq: CEDF 70900 and CEDC 70400
coreq: CEDC 71500 and 72200
Hours 30 hrs,
Credits 2 cr

CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq: CEDF 70900
coreq: CEDC 71500 and CEDC 73000
Hours 30 hrs,
Credits 2

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

prereq: CEDF 70900

coreq: CEDC 73000 and 72200

Hours 75 hrs of fieldwork,

Credits 1 cr

Extended Core:

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900

Hours includes 5 hrs of field work

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900

Hours includes 5 hrs of fieldwork

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

prereq: CEDF 70900 and CEDF 71000

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

prereq: CEDF 70900 and CEDF 71500

Hours 45 hrs,

Credits 3 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Culminating Core

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

prereq: completion of 31 credits of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser

Hours 45 hrs,

Credits 3 cr

Choose either:

CEDC 72400 - Student Teaching in Grades 1–3 and 4–6

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus a minimum of 60 days of student teaching,

Credits 5 cr

Or one of the following:

CEDC 72500 - Student Teaching in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800 . Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student Teaching

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800 . Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72500.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences,

Credits 2 cr

Plus either

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700 . Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72800.

Or

CEDC 72800 - Practicum in Grades 4–6

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700 .

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences,

Credits 2 cr

Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72600.

Exit Standards

1. An overall GPA of at least 3.0.
2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum, which may be repeated only once. Students must complete all required days for student teaching. Those who do not complete the minimum required days will receive a grade of Incomplete in that course, preventing them from graduating that semester.
3. Completion of Integrative Seminar (CEDF 792) with a grade of B or better.
4. Students must pass the School of Education technology assessment.

Childhood Education, Grades 1-6 Bilingual (French/English)-MSEd

The number of credits required to complete the master's degree in childhood education with a bilingual extension is determined by the student's educational background.

Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 49 credits. Master's candidates who have completed some pedagogical coursework may be exempted from up to 12 required credits by providing transcripts and course syllabi as evidence that the content is equivalent and a grade of at least B has been attained. In such cases, the minimum number of credits for the degree is 34.

This program is for students who do not have New York State initial or provisional teacher certification. The purpose of the program is to prepare individuals to become effective bilingual teachers. The focus of the program is to develop high levels of teaching competencies in the participants based on using two languages as mediums of instruction.

Admission Requirements

1. A bachelor's degree from an accredited institution acceptable to Hunter College with a GPA of 2.8 or better.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general core in the liberal arts and sciences of at least 27 credits, distributed as follows: 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); 6 credits in English including one course in English composition with a grade of at least B plus a writing intensive course in any discipline with a grade of B or better; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Completion of a satisfactory writing sample in English and in French as part of the application process.
5. An on-site writing sample in English and in French and an interview conducted with at least two professors.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Course of Study

Total Credits: 37–49

(Master's candidates who have completed some pedagogical coursework may be exempted from up to 12 required credits by providing transcripts and course syllabi as evidence that the content is equivalent and a grade of at least B has been attained. In such cases, the minimum number of credits for the degree is 37.)

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

CEDCF 70050 - The Art and Science of Effective Teaching

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers;

instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

Hours includes 5 hrs of fieldwork

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900

Hours includes 5 hrs of fieldwork

Credits 3 cr

CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting

Hours 15 hrs of seminar plus 50 hrs fieldwork,

Credits 1 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: EDF 70900 or CEDF 70900 and BILED 70100 and EDC 70400 or CEDC 70400

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

BILED 71200 - Bilingual Literacy-French

This course will be conducted in French and English and will present how to differentiate the instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30

Credits 2

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100

Hours 75 hrs,

Credits 1 cr

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2 cr

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000

CEDC 71400 - Advanced Educational Technology for Elementary School Teachers

Students will link prior knowledge of instructional technology with curriculum development strategies to design integrated learning events.

prereq: CEDF 70900, and a course on computers or demonstrated literacy in basic computer skills and tool applications (word processing, spreadsheets, database, and presentation as well as the Internet)
Hours 45 hrs,
Credits 3 cr

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050
Hours 45 hrs,
Credits 3 cr

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MEd/Childhood Education Grades 1-6 with bilingual extension; for the MEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100
Hours 45
Credits 3

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator

Hours 30 hrs plus lab,

Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Take Either

BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq or coreq: completion of 39 cr of course work or permission of the program coordinator

Hours 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar

Credits 4

Or One of the Following

BILED 78300 - Practicum in Grades 1–3

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator
Hours 15 hrs of seminar plus conferences
Credits 2 cr

BILED 78500 - Student Teaching in Grades 1–3

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator
Hours 30 days student teaching, 15 hrs of seminar plus conferences,
Credits 2 cr

Plus One of the Following

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500

prereq: completion of 39 cr of course work or permission of the program coordinator
Hours 15 hrs of seminar plus conferences,
Credits 2 cr

BILED 78600 - Student Teaching in Grades 4–6

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

prereq: completion of 39 credits of course work or permission of the program coordinator
Hours 30 days student teaching, 15 hrs of seminar plus conferences,
Credits 2 cr

Exit Standards

1. Overall GPA of 3.0.
2. A grade of B or better in student teaching and/or practicum.

Any student who obtains a grade of F or WU in student teaching and/or practicum will not be allowed to continue in the program.

Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum, which may be repeated only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN (Incomplete) and must fulfill the remaining days.

3. Completion of the culminating experience BILED 780 (Bilingual Research Seminar), with a grade of B or better.

4. Students must pass the School of Education technology assessment.

Childhood Education, Grades 1-6 Bilingual (Spanish/English) - MSEd

This program is for students who do not have New York State initial or provisional teacher certification. The purpose of this program is to prepare individuals to become effective bilingual teachers. The focus of the program is to develop high levels of teaching competencies in the participants based on using two languages as mediums of instruction.

Admission Requirements

1. A bachelor's degree from an accredited institution acceptable to Hunter College with a GPA of 2.8 or better.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general core in the liberal arts and sciences of at least 27 credits, distributed as follows: 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); 6 credits in English including one course in English composition with a grade of B plus a writing intensive course in any discipline with a grade of B or better; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.
5. An on-site writing sample in English and in Spanish and an interview conducted with at least two professors.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Childhood Education With a Bilingual Extension: Course of Study

Total Credits: 37-49 credits

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

CEDCF 70050 - The Art and Science of Effective Teaching

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

Hours includes 5 hrs of fieldwork

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900
Hours includes 5 hrs of fieldwork
Credits 3 cr

CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting
Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: EDF 70900 or CEDF 70900 and BILED 70100 and EDC 70400 or CEDC 70400
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150
prereq or coreq: BILED 77100
Hours 30
Credits 2

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2 cr

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050

Hours 45 hrs,

Credits 3 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: EDF 70900 and BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator

Hours 30 hrs plus lab,

Credits 2 cr

Take Either

BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq or coreq: completion of 39 cr of course work or permission of the program coordinator

Hours 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar

Credits 4

Or One of the Following

BILED 78500 - Student Teaching in Grades 1–3

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 30 days student teaching, 15 hrs of seminar plus conferences,

Credits 2 cr

BILED 78300 - Practicum in Grades 1–3

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 15 hrs of seminar plus conferences

Credits 2 cr

Plus One of the Following

BILED 78600 - Student Teaching in Grades 4–6

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

prereq: completion of 39 credits of course work or permission of the program coordinator

Hours 30 days student teaching, 15 hrs of seminar plus conferences,

Credits 2 cr

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 15 hrs of seminar plus conferences,

Credits 2 cr

* Master's candidates who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Exit Standards

1. An overall GPA of 3.0.
2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or

practicum, which may be repeated only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN (Incomplete) and must fulfill the remaining mandated days.

3. Completion of the culminating experience BILED 780 (Bilingual Research Seminar), with a grade of B or better.
4. Students must pass the School of Education technology assessment.

Childhood Education: Mathematics/Science Specialization - MSEd

Program Coordinator Patrick Burke; 1138 West Building; (212) 772-4728; patrick.burke@hunter.cuny.edu

This is a 33-credit program that prepares students with NYS initial/permanent certification in childhood education to become better qualified in the teaching of mathematics and science in the elementary grades. This program leads to professional certification in childhood education.

Admission Requirements

1. Undergraduate degree with a GPA of at least 2.8.
2. New York State initial professional or permanent certification in childhood education.
3. Completion of a satisfactory writing sample as part of the application process.
4. Two letters of recommendation including one from a supervisor.
5. Successful completion with a grade of C or better of college level mathematics course and a lab science course. Those who do not meet the mathematics requirement must successfully complete MATH 104 and MATH 105 in the School of Arts and Sciences. Those who do not meet the science requirement must take a one semester course in a lab science (biology, chemistry, physics or geology.)

Course Waivers

1. Master's candidates may transfer in and/or waive up to three required courses in the master's in mathematics and science education by providing evidence of prior equivalent coursework.
2. An elective course must be substituted for a waived course with adviser's approval.
3. Waived courses provide an opportunity for teacher candidates to deepen their knowledge by taking advantage of the academic wealth available in the departments within the School of Education or the School of Arts and Sciences. Any graduate course(s) in either the School of Education or the School of Arts and Sciences for which prerequisites have been met may be substituted for waived courses with the permission of the program coordinator.

Progress Standards

1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subject as well as in teacher education, in order to continue the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

Childhood Education Mathematics/Science Specialization Course of Study

Total Credits: 33 credits

CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

*Hours 45 hrs,
Credits 3 cr*

CEDC 73800 - The English Language: Theories and Pedagogical Implications

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.

*Hours 45 hrs,
Credits 3 cr*

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

*Hours 45 hrs,
Credits 3 cr*

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

prereq: CEDC 74400, CEDC 77600 and CEDC 777000

*Hours 45 hrs,
Credits 3 cr*

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

prereq or coreq: CEDC 71600 and CEDC 73800 and CEDC 74000 and CEDC 74400 and CEDC 77600 and CEDC 77700 and CEDF 71600

*Hours 45 hrs,
Credits 3 cr*

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300

prereq or coreq: None

*Hours 45 hrs,
Credits 3 cr*

CEDC 77600 - Planet Earth: Life Science, Environmental and Earth Science for Elementary School Teachers

Concepts in the biological sciences, ecological and earth sciences necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

*Hours 45 hrs,
Credits 3 cr*

CEDC 77700 - Physical Science for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

*Hours 45 hrs,
Credits 3 cr*

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

prereq: CEDF 70900 and CEDF 71000

CEDC 74600 - Geographic Perspectives in Elementary Education

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

Hours 45

Credits 3

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

** Note: Students who have already completed an introductory special education course may enroll in SPED 783.50 Math, Organizational and Social Strategies for Students with Learning Disabilities (for those not in the LD specialization).*

*** Independent study may be taken in lieu of a required course with permission of the program coordinator.*

Exit Standards

1. Overall GPA of 3.0 or better.
2. Students must pass the School of Education technology assessment.

Childhood Special Education: Behavior Disorders - MSEd

Behavior Disorders Program Coordinator: Tom McIntyre; 914 West Building; (212) 772-4706;
thomas.mcintyre@hunter.cuny.edu

Childhood Special Education: Admission Requirements

Program 1

For applicants who do not hold New York State Childhood or PreK-6 Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus
2. A liberal arts or science major or interdisciplinary concentration of at least 30.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus
2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements

regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Childhood Special Education: Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

- All field experiences and student teaching will take place in New York City public schools.
- Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. Students with a grade of F will not be allowed to continue.

D. In order to enroll in student teaching or supervised practicum all students must:

- Have an overall GPA of at least 3.0.
- Have no outstanding INs.
- Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Childhood Special Education: Behavior Disorders Course of Study

Program 2: 36 Credits

Cross-Categorical Core Courses (20 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000

coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000

Hours 15 hrs,

Credits 1 cr

SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000

Hours 30 hrs lab,

Credits 1 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 10 hours of field experience, 45 hrs,

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

Behavior Disorders Specialization (16 cr)

SPED 75000 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

prereq or coreq: SPED 70000

Hours Includes 20 hrs of field experience

SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000

Hours Includes 20 hrs of field experience

Credits 3

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

Plus Either:

SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,

Credits 4 cr

Or two of the following (must include two different grade levels):

SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar plus conferences,

Credits 2 cr

Additional Course Requirements

Program 1: 43-55 Credits

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or the undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork

must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork,

Credits 1 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Special Education: Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student teaching , Supervised Practicum, and Clinical Teaching Lab:
 - A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.
 - B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.
4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):

A comprehensive research-based oral presentation on a current special education issue

and either an original written research proposal **or** a written proposal for competitive grant funding.
5. Students must pass the School of Education technology assessment.

Childhood Special Education: Admission Requirements

Program 1

For applicants who do not hold New York State Childhood or PreK-6 Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus
2. A liberal arts or science major or interdisciplinary concentration of at least 30.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus
2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Childhood Special Education: Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

- All field experiences and student teaching will take place in New York City public schools.
- Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. Students with a grade of F will not be allowed to continue.

D. In order to enroll in student teaching or supervised practicum all students must:

- Have an overall GPA of at least 3.0.
- Have no outstanding INs.
- Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Learning Disabilities Course of Study

Program 2: 35-37 Credits

Cross-Categorical Core Courses (20 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000

coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000

Hours 15 hrs,

Credits 1 cr

SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000

Hours 30 hrs lab,

Credits 1 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 10 hours of field experience, 45 hrs,

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

Learning Disabilities Specialization (15-17 cr)

SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

prereq or coreq: SPED 70000

Hours 45

Credits 3

SPED 78100 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

coreq: SPED 78200

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

Credits 3

Only in the fall semester (note: must take concurrently with SPED 78200 and must take SPED 78300/78400 in semester immediately following)

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100

prereq or coreq: SPED 70000

Hours 15 hrs seminar, plus 20 hrs lab,

Credits 2 cr

Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200

coreq: SPED 78400

Hours 45

Credits 3

Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/ 782

coreq: SPED 783

Hours 15 hrs seminar, plus 20 hrs lab,

Credits 2 cr

Spring only

Either:

SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching,

Credits 4 cr

Or:

SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

Or both of the following:

SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

SPED 78552 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

prereq or coreq: SPED 700

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

Additional Course Requirements

Program 1: 42-56 Credits

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork

must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork,

Credits 1 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Special Education: Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student teaching , Supervised Practicum, and Clinical Teaching Lab:
 - A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.
 - B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.
4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):

A comprehensive research-based oral presentation on a current special education issue

and either an original written research proposal **or** a written proposal for competitive grant funding.
5. Students must pass the School of Education technology assessment.

Childhood Special Education: Severe/Multiple Disabilities (including Deafblindness) - MSeD

Severe/Multiple Disabilities (including Deafblindness) Program Coordinators:

Rosanne K.Silberman; 916 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu

Childhood Special Education: Admission Requirements

Program 1

For applicants who do not hold New York State Childhood or PreK-6 Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus
2. A liberal arts or science major or interdisciplinary concentration of at least 30.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus
2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Childhood Special Education: Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

- All field experiences and student teaching will take place in New York City public schools.
- Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. Students with a grade of F will not be allowed to continue.

D. In order to enroll in student teaching or supervised practicum all students must:

- Have an overall GPA of at least 3.0.
- Have no outstanding INs.
- Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Severe/Multiple Disabilities (Including Deafblindness) Course of Study

Program 2: 37 Credits

Cross-Categorical Core Courses (12 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100

Hours Includes 20 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 74200 or SPED 79100

Hours (includes 10 hours of field experience),

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

Severe/Multiple Disabilities (including Deafblindness) Specialization (25 cr)

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800 or SPEDE 76900

Hours Includes 15 hrs of field experience

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000

Hours includes 10 hrs of field experience, 30 hrs

Credits 2 cr

SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

prereq: SPED 70600

Hours Includes 5 hrs of field experience,

Credits 1 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

Either:

SPED 79500 - Student Teaching: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness in grades 1–3 and 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus 40 days of student teaching at two grade levels,

Credits 4 cr

Or two of the following (must include two different grade levels):

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus 20 days of student teaching,

Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum

strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr

Additional Course Requirements

Program 1: 44-56 Credits

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork,

Credits 1 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Special Education: Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student teaching , Supervised Practicum, and Clinical Teaching Lab:
 - A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once.  - B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.
4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):

A comprehensive research-based oral presentation on a current special education issue

and either an original written research proposal **or** a written proposal for competitive grant funding.
5. Students must pass the School of Education technology assessment.

Deaf and Hard-of-Hearing - MEd

Deaf and Hard-of-Hearing Program Coordinator: Elaine Gale; 918 West Building; (212) 772-4702;
egale@hunter.cuny.edu

Admission Requirements

Program 1

For applicants who do not hold New York State Certification

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.

3. General education core in liberal arts and sciences to include a minimum of 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

For applicants who hold early childhood, childhood, PreK-grade 6, middle school or adolescent education New York State teacher certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. New York State initial, professional, or permanent teacher certification in early childhood, childhood, PreK-grade 6, middle school or adolescent education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. Any student who receives an F will not be allowed to continue.
5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. A student with two or more INs is prohibited from registering for any course.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

D. In order to enroll in student teaching or supervised practicum, all students must:

Have an overall GPA of at least 3.0

Have no outstanding INs.

Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 700, 701 or 791 and 702 or 702.50 Have taken or be registered concurrently for one methods course (e.g., SPED 706, 706.50, 731, 741, 751, 781, 781.50) Students in early childhood special education must complete SPEDE 776 or 767.

Deaf and Hard of Hearing Course of Study

Program 2

Total Credits: 33-39 credits

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

SPED 72000 - American Sign Language I

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience, 90 hrs lab,

Credits 3 cr

SPED 72100 - American Sign Language II

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000

Hours Includes 10 hrs of field experience 90 hrs lab,

Credits 3 cr

SPED 72200 - The Study of ASL Educational Linguistics

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

prereq: SPED 72100

Hours 60 hrs lab,

Credits 2 cr

SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

Hours Includes 10 hours of field experience 45 hrs,

Credits 3 cr

SPED 73300 - Math and Across-the Curriculum Adaptations for Students who are Deaf and Hard-of Hearing: Methods 2

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

prereq: SPED 70000 and in the immediate preceding semester SPED 73100

Hours Includes 15 hrs of field experience

Spring only

SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

prereq or coreq: SPED 73000

Hours Includes 15 hrs of field experience 45 hrs,

Credits 3 cr

Fall only

Must take SPED 73300 in semester immediately following.

SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000

Hours Includes 5 hrs of field experience

SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000

Hours Includes 5 hrs of field experience

Credits 3

Notes(s)

** Students entering program with ASL proficiency may be exempted from either or both of the ASL courses, without being required to replace those credits with other course work. Such students would, thus, complete the specialization sequence with either 24 or 21 credits.*

Take either:

SPED 73700 - Student Teaching: Deaf and Hard-of- Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,

Credits 4 cr

Or two of the following (must include two different grade levels):

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching
Credits 2

SPED 73762 - Supervised Practicum: Deaf and Hard-of- Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

SPED 73763 - Supervised Practicum: Deaf and Hard-of- Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 7210, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

Additional Course Requirements for Program 1

Program 1

Total Credits: 40-58 Credits

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab

A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity. Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 707, Research Seminar: Issues in Special Education):

a comprehensive research-based oral

presentation on a current special education issue

and either
 an original written research proposal
or
 a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Early Childhood Education, Birth - Grade 2 Bilingual (Spanish/English or French/English) - MEd

There are three master's degree programs in Early Childhood Education with a Bilingual Extension.

- Program 1 is for students without prior NYS certification.
- Program 2 is for students with initial certification in childhood education or with provisional certification in elementary education, special education, or TESOL.
- Program 3 is for students who have initial certification in early childhood education.

Program 1

The number of credits required to complete Program 1 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 52 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

Program 2

The number of credits required to complete Program 2 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 45 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

Program 3

The number of credits required to complete Program 3 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 36 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 6 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

Admission Standards

Program 1

1. A bachelor's degree from an accredited institution acceptable to Hunter College with a GPA of 2.8 or better.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general core in the liberal arts and sciences distributed as follows: 9 credits in math and science (a college course in calculus meets 6 credits of this requirement); 6 credits in English; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Completion of a satisfactory on-site writing sample in English and in Spanish or French as part of the application process.
5. Demonstration of satisfactory oral English and Spanish or French through an interview.

Program 2

1. Undergraduate degree with GPA of 2.8 or master's degree with GPA of 3.5 or better.
2. NYS initial/professional/permanent teacher certification in childhood education, elementary education Pre-K-6, special education, or TESOL.
3. Completion of a satisfactory writing sample in English and in Spanish or French as part of the application process.
4. An on-site writing sample in English and in Spanish or French and an interview.

Program 3

1. Undergraduate degree with GPA of 2.8 or master's degree with GPA of 3.5 or better.
2. NYS initial teacher certification in early childhood education.
3. Completion of a satisfactory writing sample in English and in Spanish or French as part of the application process.
4. An on-site writing sample in English and in Spanish or French and an interview.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of coursework. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork BILED 71150. Any student who receives a grade of B-, C+ or C must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU will not be allowed to continue in the program.

Early Childhood Bilingual Education Birth through Grade 2, with a Bilingual Extension Course of Study

Total Credits: Program 1: 40-52 credits Program 2: 33-45 credits Program 3: 30-36 credits

Program 1

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr*

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,
Credits 3 cr*

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs,

Credits 3 cr

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,

Credits 1 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150
prereq or coreq: BILED 77100
Hours 30
Credits 2

OR

BILED 71200 - Bilingual Literacy-French

This course will be conducted in French and English and will present how to differentiate the instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education
Hours 30
Credits 2

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: EDF 70900 or CEDF 70900 and BILED 70100 and EDC 70400 or CEDC 70400

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MEd/Childhood Education Grades 1-6 with bilingual extension; for the MEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45

Credits 3

OR

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: EDF 70900 and BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900

Hours includes 5 hrs of fieldwork

Credits 3 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 20 days each at different age/grade levels (Pre-K–K and 1–2).

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 30 hrs of seminar plus 40 days of student teaching

Or

ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

Hours 15 hrs of seminar plus conferences,

Credits 1 cr

Plus

ECC 71850 - Early Childhood Bilingual Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 15 hrs of seminar plus 20 days of student teaching,

Credits 2 cr

Program 2

33-45 credits

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr*

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,
Credits 3 cr*

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

*prereq or coreq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

prereq or coreq: BILED 77100

Hours 30

Credits 2

OR

BILED 71200 - Bilingual Literacy-French

This course will be conducted in French and English and will present how to differentiate the instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30

Credits 2

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100

Hours 75 hrs,

Credits 1 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: EDF 70900 or CEDF 70900 and BILED 70100 and EDC 70400 or CEDC 70400

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MEd/Childhood Education Grades 1-6 with bilingual extension; for the MEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45

Credits 3

OR

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: EDF 70900 and BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900

Hours includes 5 hrs of fieldwork

Credits 3 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 20 days each at different age/grade levels (Pre-K–K and 1–2).

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800;

ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)
Hours 30 hrs of seminar plus 40 days of student teaching

Or

ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

Hours 15 hrs of seminar plus conferences,
Credits 1 cr

Plus

ECC 71850 - Early Childhood Bilingual Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr

Program 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

prereq or coreq: BILED 77100

Hours 30

Credits 2

OR

BILED 71200 - Bilingual Literacy-French

This course will be conducted in French and English and will present how to differentiate the instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30

Credits 2

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900

Hours includes 5 hrs of fieldwork

Credits 3 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 20 days each at different age/grade levels (Pre-K–K and 1–2).

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)
Hours 30 hrs of seminar plus 40 days of student teaching

Or

ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

Hours 15 hrs of seminar plus conferences,
Credits 1 cr

Plus

ECC 71850 - Early Childhood Bilingual Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750 . (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr

Plus 7-13 credits from the courses below based on a transcript review of prior coursework in early childhood education

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000
Hours 45 hrs,
Credits 3 cr

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

Master's candidates who have completed some pedagogical courses may be exempted from up to 12 credits (Program 2) or 6 credits (program 3) of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Exit Standards

1. An overall GPA of 3.0
2. A grade of B or better in Student Teaching and/or Practicum. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for Student Teaching and/or Practicum, which may be repeated only once. Any student who obtains a grade of F in Student Teaching and/or Practicum will not be allowed to continue in the program.
3. Completion of ECC 72000 (Integrative Seminar in Early Childhood Education) with a grade of B or better.
4. Students must pass the School of Education technology assessment.

Early Childhood Education, Birth through Grade 2 - MEd

Coordinator Christina Taharally; (212) 772-4679; 1103 West Building; christina.taharally@hunter.cuny.edu

There are two programs within this early childhood education master's degree program. Program 1 is for students without prior teaching certification. Program 2 is for students with NYS initial, professional, or permanent certification in childhood education, elementary education pre-K-6, special education, or TESOL. The early childhood programs are not for applicants who already have initial certification in early childhood education (ECE). Students who seek a master's degree and who already have ECE initial certification may want to consider the early childhood special education program or some other certification area at the graduate level. The programs in early childhood education have been recognized by the National Association for the Education of Young Children.

Admission Requirements

PROGRAM 1

(For applicants who do not hold New York State Certification)

1. A cumulative undergraduate grade point average (GPA) of 2.8 from an accredited bachelor's degree program or a master's degree with a GPA of 3.5 or better.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general education core in the liberal arts and sciences distributed as follows: 9 credits in math, and science with at least one course in math and one course in science (a course in calculus meets 6 credits of this requirements); 6 credits in English; 6 credits in social studies (of which at least one course must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. A personal statement to be completed as part of the application for admission.
5. Two letters of recommendation.

PROGRAM 2:

(For applicants who hold New York State Certification in childhood education, preK-6 education, childhood or early childhood special education, or TESOL)

1. Undergraduate degree with GPA of 2.8 or master's degree with GPA of 3.5 or better.
2. New York State initial, professional, or permanent teacher certification in childhood education, elementary education Pre-K-6, special education, or TESOL.
3. A personal statement.
4. Two letters of recommendation.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Program 1 students must receive a grade of at least B in fieldwork ECC 71200. Any student who receives a grade of B-, C+ or C must apply to the Chairperson of the Department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU will not be allowed to continue in the program.

Early Childhood Education Course of Study - Program 1

Total Credits: 36-42 credits

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr*

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,
Credits 3 cr*

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

*prereq or coreq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs,

Credits 3 cr

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs,

Credits 1 cr

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students

will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,

Credits 1 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))

Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program

Or

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800 . (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

*Hours 15 hrs of seminar plus conferences,
Credits 1 cr*

Plus

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K– K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700 . (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: prereqs: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)

*Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr*

Note(s)

Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.

Early Childhood Education Course of Study - Program 2

Total Credits: 30-35 credits

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr*

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,
Credits 3 cr*

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

*prereq or coreq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs,

Credits 1 cr

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

*Hours 45 hrs,
Credits 3 cr*

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs,
Credits 1 cr*

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

*prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))
Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program*

Or

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800 . (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

*Hours 15 hrs of seminar plus conferences,
Credits 1 cr*

Plus

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K– K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700 . (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: prereqs: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)

Hours 15 hrs of seminar plus 20 days of student teaching,

Credits 2 cr

Note(s)

Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.

Exit Standards

1. An overall GPA of 3.0.
2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum and repeat this experience. Students will be allowed to repeat student teaching and/or practicum only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN and must fulfill the remaining mandated days.
3. Completion of ECC 720 (Integrative Seminar in Early Childhood Education).
4. Students must pass the School of Education technology assessment.

Early Childhood Education, Birth through Grade 2: Program 1

(For applicants who do not hold New York State Certification)

Admission Requirements

1. A cumulative undergraduate grade point average (GPA) of 2.8 from an accredited bachelor's degree program or a master's degree with a GPA of 3.5 or better.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general education core in the liberal arts and sciences of at least 36 credits, distributed as follows: 9 credits in math and science with at least one course in math and one course in science (a course in calculus meets 6 credits of this requirements); 6 credits in English; 6 credits in social studies (of which at least one course must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. A personal statement as part of the application for admission.
5. Two letters of recommendation.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Program 1 students must receive a grade of at least B in fieldwork (ECC 712). Any student who receives a grade of B-, C+ or C must apply to the Chairperson of the Department for permission to repeat the course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

Exit Standards

1. Overall GPA of at least 3.0.
2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of

B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum and repeat this experience. Students will be allowed to repeat student teaching and/or practicum only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN and must fulfill the remaining mandated days.

3. Completion of ECC 720 (Integrative Seminar in Early Childhood Education).
4. Students must pass the School of Education technology assessment.

Early Childhood Course of Study — Program 1:

36-42 credits

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr*

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,
Credits 3 cr*

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs,

Credits 3 cr

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs,

Credits 1 cr

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,

Credits 1 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))

Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program

Or

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800 . (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

Hours 15 hrs of seminar plus conferences,

Credits 1 cr

Plus

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K– K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700 . (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: prereqs: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)

*Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr*

Total credits: 36-42

Note(s)

ECF refers to courses in the foundations of education; ECC refers to courses in curriculum.

Please note: Students who qualify for waivers may take ECC 71951 , ECC 71952 , ECC 71953 (Special Topics in Early childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.

Early Childhood Education, Birth through Grade 2: Program 2

Admission Requirements: Program 2

(For students with New York State teacher certification.)

1. Undergraduate degree with GPA of 2.8 or master's degree with GPA of 3.5 or better.
2. New York State initial, professional, or permanent teacher certification in childhood education, elementary education Pre-K-6, special education, or TESOL.
3. A personal statement.
4. Two letters of recommendation.

Progress Standards

A. 12 Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Exit Standards

1. Overall GPA of at least 3.0
2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum and repeat this experience. Students will be allowed to repeat student teaching and/or practicum only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN and must fulfill the remaining mandated days.
3. Completion of ECC 720 (Integrative Seminar in Early Childhood Education).
4. Students must pass the School of Education technology assessment.

Early Childhood Course of Study — Program 2:

ECC 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr*

ECC 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,
Credits 3 cr*

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

*prereq or coreq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs,
Credits 1 cr*

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))
Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program

Or

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800 . (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

Hours 15 hrs of seminar plus conferences,
Credits 1 cr

Plus

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K– K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700 . (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: prereqs: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)

Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr

Total credits: 30-35

Note(s)

ECF refers to courses in the foundations of education; ECC refers to courses in curriculum.

Please note: Students who qualify for waivers may take ECC 71951 , ECC 71952 , ECC 71953 (Special Topics in Early childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Early Childhood Special Education - MEd

Early Childhood Special Education Program Coordinators:

Jamie Bleiweiss; 929 West Building; (212) 772-4229; jbleiwei@hunter.cuny.edu

Donia Fahim; 919 West Building; (212) 772-4745; dfahim@hunter.cuny.edu

Angela Mouzakitis; 929 West Building; (212) 772-4709; amouzak@hunter.cuny.edu

Admission Requirements: Program 1

Program 1A

For applicants who do not hold New York State Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better or a graduate degree from an approved college with a GPA of 3.5 or better
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 1B

This program is for applicants who hold New York State Certification in an area other than early childhood. Those with a childhood or preK-6 certificate complete 36-40 credits. Those with certification in an area other than childhood complete 40-50 credits.

1. Any New York State teacher certificate other than early childhood education.
2. An undergraduate BA or BS from an approved college with a GPA of 2.8 or a graduate degree from an approved college with a GPA of 3.5 or better.

Admission Requirements: Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher or a graduate degree from an approved college with a GPA of 3.5 or better
2. New York State initial/permanent teacher certification in early childhood or preK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.

5. Program 1A students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST and who does poorly on the test of written analysis and expression must enroll in a college writing course or workshop series approved by an adviser, before being permitted to register for any courses.

B. Fieldwork Benchmark

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

C. In order to enroll in student teaching or supervised practicum, all students must:

1. Have an overall GPA of at least 3.0; and

2. Have no outstanding INs.

Early Childhood Special Education Course of Study

Program 2

Total Credits: 36 credits

SPEDE 71400 - History and Context of Early Intervention and Early Childhood Special Education

Historical and current views of infants and young children with developmental delays and disorders; “War on Poverty” antecedents of current early childhood special education services; federal, state, and city regulations covering intervention services to young children with disabilities.

*Hours 15 hrs,
Credits 1 cr*

SPEDE 76800 - Characteristics and Developmental Problems of Infants and Young Children with Special Needs

Definition of populations; effects of disabilities on cognitive, social/emotional, language, and motor development; implications for early intervention and education.

*Hours Includes 2.5 hrs field experience,
Credits 3*

SPEDE 76900 - Assessment of Development and Learning in Infants and Young Children with Special Needs

Processes and procedures appropriate for assessing the development and learning of children from infancy through age 7 (second grade), including multidisciplinary screening and assessment; uses and limitations of assessment measures; practice in the use of selected assessment tools

*prereq or coreq: G SPEDE 76800
Hours Includes 5 hrs field experience,
Credits 3*

SPEDE 77000 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation.

prereq or coreq: SPEDE 71400 and SPEDE 76900 or SPED 79100

Hours Includes 5 hrs field experience,

Credits 3

SPEDE 77100 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome.

prereq or coreq: SPEDE 776 and one of the following: SPED 70600, 70650, 73000, 74000, 75000, 77000, 78000, 78100, 79000, or permission of the early childhood special education program coordinator

Hours Includes 5 hrs of field experience

Credits 3

SPEDE 77200 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs.

prereq or coreq: SPEDE 77100 or permission of the coordinator of the early childhood special education program

Hours Includes 5 hrs of field experience

Credits 3

SPEDE 77300 - Developing Partnerships with Families for Their Child's Development and Learning

The roles of parents in the development and education of infants and young children with special needs; communicating and relating appropriately and effectively with parents of diverse educational, language, economic, and ethnic backgrounds; including parents in the intervention team; resources for parents.

prereq or coreq: SPEDE 76800 or SPED 79000

Hours 15 hrs includes 2.5 hrs field experience
Credits 1

SPEDE 77400 - Reading and Writing for Students with Special Education Needs, Grades K–2

Methods for developing reading and writing in students with disabilities and special education needs, grades K–2; instructional approaches and specific methodologies effective with young children who have a variety of learning disorders. From this instructional base, teachers can make informed decisions regarding the importance and propriety of special teaching strategies for use with particular students.

prereq or coreq: SPEDE 76800 or SPEDE 76900 or SPED 79000
Hours Includes 5 hrs field experience
Credits 3

SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

prereq or coreq: SPEDE 76700 and SPEDE 77100 and SPEDE 77200 and SPEDE 77300
Hours 15 hrs,
Credits 1 cr

SPEDE 77600 - Field Experiences in Early Childhood Special Education

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre–K (Birth–five), Kindergarten, grades 1 or 2; one of these experiences must be in a program using an ABA approach with children who have autistic spectrum disorders, while the other experience must be in a program with a different approach.

prereq or coreq: SPEDE 77000 or SPEDE 76900
Hours 30 hr seminar plus 60 hrs of field experience,
Credits 2 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

*Hours Includes 10 hours of field experience, 45 hrs,
Credits 3 cr*

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

*Hours 45 hrs,
Credits 3 cr*

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

*prereq or coreq: SPED 70000 or SPEDE 76800 or SPEDE 76900
Hours Includes 15 hrs of field experience*

Take either:

SPEDE 77700 - Student Teaching: Early Childhood Special Education

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels: Pre-K (Birth–five); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.

*prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100, SPEDE 77200, SPEDE 77300
Hours 30 hrs seminar plus 40 days,
Credits 4*

Or:

SPEDE 77800 - Student Teaching in Early Childhood Special Education

Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

*prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100*

Hours 30 hrs seminar plus 20 days,

Credits 2

(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

Plus*:

SPEDE 77900 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200

prereq or coreq: SPEDE 77100

Hours 30 hrs seminar plus conferences,

Credits 2

(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

Note(s)

** or a second semester of SPEDE 778. Students on Internship Certificates may complete a second semester of SPEDE 779. Students may also be exempted from the second semester of student teaching or practicum. Please see the program adviser for the criteria.*

Additional Course Requirements for Program 1

Program 1A

Program 1A (47-54 credits) is for students who do not have any teaching certificate. Students must take between 11-18 credits of early education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 7 credits of the coursework listed below on the basis of equivalent courses taken at the graduate or undergraduate level.

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,

Credits 3 cr

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECC 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs,

Credits 3 cr

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs,

Credits 1 cr

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,

Credits 1 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Program 1B

Program 1B (36-40 credits) is for students who have a teaching certificate in an age level or area other than early childhood education. Students in Program 1B who have teacher certification in childhood education or in elementary preK-grade 6 will complete the 36-credit special education sequence plus the two early childhood courses listed below (unless a student is exempted from one or both of those courses based on an analysis of the applicant's prior coursework).

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,

Credits 1 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab.

A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity. Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 707, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue

and either

an original written research proposal

or

a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Early Childhood Special Education: Severe/Multiple Disabilities - MSED

Early Childhood Special Education Program Coordinators:

Jamie Bleiweiss; 929 West Building; (212) 772-4229; jbleiwei@hunter.cuny.edu

Donia Fahim; 919 West Building; (212) 772-4745; dfahim@hunter.cuny.edu

Angela Mouzakitis; 929 West Building; (212) 772-4709; amouzak@hunter.cuny.edu

Admission Requirements: Program 1

Program 1A

For applicants who do not hold New York State Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better or a graduate degree from an approved college with a GPA of 3.5 or better
2. A liberal arts or science major or interdisciplinary concentration of at least 30.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 1B

This program is for applicants who hold New York State Certification in an area other than early childhood. Those with a childhood or preK-6 certificate complete 36-40 credits. Those with certification in an area other than childhood complete 40-50 credits.

1. Any New York State teacher certificate other than early childhood education.
2. An undergraduate BA or BS from an approved college with a GPA of 2.8 or a graduate degree from an approved college with a GPA of 3.5 or better.

Admission Requirements: Program 2

For applicants who hold early childhood New York State Certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher or a graduate degree from an approved college with a GPA of 3.5 or better
2. New York State initial/permanent teacher certification in early childhood or preK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.

5. Program 1A students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST and who does poorly on the test of written analysis and expression must enroll in a college writing course or workshop series approved by an adviser, before being permitted to register for any courses.

B. Fieldwork Benchmark

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

C. In order to enroll in student teaching or supervised practicum, all students must:

1. Have an overall GPA of at least 3.0; and
2. Have no outstanding INs.

Early Childhood Special Education with an Annotation in Severe/Multiple Disabilities Course of Study

Program 2

Total Credits: 41 credits

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 74200 or SPED 79100

Hours (includes 10 hours of field experience),

Credits 3 cr

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800 or SPEDE 76900

Hours Includes 15 hrs of field experience

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000

Hours includes 10 hrs of field experience, 30 hrs

Credits 2 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

SPEDE 77000 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation.

prereq or coreq: SPEDE 71400 and SPEDE 76900 or SPED 79100

Hours Includes 5 hrs field experience,

Credits 3

SPEDE 77100 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome.

prereq or coreq: SPEDE 776 and one of the following: SPED 70600, 70650, 73000, 74000, 75000, 77000, 78000, 78100, 79000, or permission of the early childhood special education program coordinator

Hours Includes 5 hrs of field experience

Credits 3

SPEDE 77200 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs.

prereq or coreq: SPEDE 77100 or permission of the coordinator of the early childhood special education program

Hours Includes 5 hrs of field experience

Credits 3

SPEDE 77300 - Developing Partnerships with Families for Their Child's Development and Learning

The roles of parents in the development and education of infants and young children with special needs; communicating and relating appropriately and effectively with parents of diverse educational, language, economic, and ethnic backgrounds; including parents in the intervention team; resources for parents.

prereq or coreq: SPEDE 76800 or SPED 79000

Hours 15 hrs includes 2.5 hrs field experience

Credits 1

SPEDE 77400 - Reading and Writing for Students with Special Education Needs, Grades K–2

Methods for developing reading and writing in students with disabilities and special education needs, grades K–2; instructional approaches and specific methodologies effective with young children who have a variety of learning disorders. From this instructional base, teachers can make informed decisions regarding the importance and propriety of special teaching strategies for use with particular students.

prereq or coreq: SPEDE 76800 or SPEDE 76900 or SPED 79000

Hours Includes 5 hrs field experience

Credits 3

SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

prereq or coreq: SPEDE 76700 and SPEDE 77100 and SPEDE 77200 and SPEDE 77300

Hours 15 hrs,

Credits 1 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

Take Two of the Following (Must Include Two Different Grade Levels)

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar plus 36 days pre-K) plus conferences

Or

SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar, pre-K), plus conferences

Credits 2

And

SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar plus 36 days student teaching K-2) , plus conferences

Credits 2

Or

SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar, K-2), plus conferences

Credits 2

Additional Course Requirements for Program 1

Program 1A

Total Credits: 52-59 credits students must take between 11-18 credits of early childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 7 credits of the coursework listed below on the basis of equivalent courses taken at the graduate or undergraduate level.

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,

Credits 3 cr

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs,

Credits 3 cr

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs,

Credits 1 cr

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs,

Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,

Credits 1 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,

Credits 3 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Program 1B

Total Credits: 41-45 credits Students in Program 1B who have teacher certification in childhood education or preK-grade 6 will complete the 41-credit special education sequence plus the two early childhood courses listed below (unless a student is exempted from one or both of these courses on the basis of an analysis of the applicant's prior coursework).

Students whose prior certification is in an area other than childhood or elementary education (e.g., adolescent education, middle school education, music, dance, TESOL) may need to do additional coursework in early childhood education. The additional required number of credits and specific courses will be determined by an analysis of the applicant's prior coursework.

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,

Credits 1 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab.
 - A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.
 - B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity. Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 707, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue

and either

an original written research proposal

or

a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Literacy Education: Birth - Grade 6 - MEd

Program Coordinator Yang Hu; 901 West Building; (212) 772-4753; yang.hu@hunter.cuny.edu

This is a 31-37 credit program that prepares teachers with NYS initial, professional, or permanent certification to meet New York State requirements for permanent certification as a teacher of literacy-birth through grade 6. The program has been nationally recognized by the International Reading Association (IRA).

Admission Requirements

1. Undergraduate degree with a GPA of at least 2.8.
2. New York State initial, professional, or permanent teacher certification in early childhood education, childhood education, elementary education, TESOL or special education.
3. Submission of a letter of recommendation from a supervisor as one of the two letters of recommendation to be included in the graduate application.
4. Completion of a satisfactory on-site writing sample after the application is reviewed.
5. Completion of a satisfactory interview.

Progress Standards

1. Master's candidates must maintain a GPA of a minimum of 3.0 on all courses taken in the literacy master's program.
2. Master's candidates with any course grades below B- in literacy courses EDLIT 736, EDLIT 737, EDLIT 742 and EDLIT 740 will not be allowed to continue in the program.
3. Master's candidates with a grade of Incomplete in any course will be restricted from registering for more than one course.
4. Master's candidates with two or more grades of Incomplete are prohibited from registering for more than one course. Those with two or more grades of Incomplete are prohibited from registering for any more courses until the Incomplete grades are removed.

Note: It is recommended that students with two or more INs take an official leave of absence.

Literacy Education: Birth through Grade 6 Course of Study

Total Credits: 31-37 credits

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

prereq or coreq: ECF 70000

Hours 45 hrs,

Credits 3 cr

EDLIT 73200 - Children's Literature

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

Hours Includes 5 hrs in a classroom-based dramatic demonstration

Credits 3 cr

EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

Hours Includes 15 hours in the field observing and analyzing writing development

Credits 3 cr

EDLIT 73500 - Survey of Instructional Approaches for Language and Literacy Development: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork

Credits 3 cr

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500

Hours includes 10 hrs in the field analyzing language use of ESL learners

Credits 3 cr

EDLIT 73100 - Literacy Assessment: Birth-Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500

Hours Includes 15 hrs in the field assessing diverse learners 45 hrs,

Credits 3 cr

EDLIT 73400 - Literacies within the Disciplines: K-Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500

Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy

Credits 3 cr

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

prereq: EDLIT 73100

Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties

Credits 3 cr

EDLIT 73700 - Practicum in Remedial Reading

Theoretical consideration and procedures in the instruction of students with reading difficulties.

prereq: EDLIT 73600

Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College

Credits 3 cr

EDLIT 73800 - Literacy Programs: Organization and Resources

Seminar of a survey of literacy programs in diverse settings utilizing a range of techniques and organizational approaches in the literacy instruction of students, with and without discernible reading difficulties.

prereq: EDLIT 73100 (for Birth-Grade 6 students only)

Hours Includes 15 hours of survey for the enhancement of literacy programs

Credits 3 cr

EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6

prereq or coreq: None

Credits 3

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: minimum of 27 cr. in the literacy program

Hours 45 hrs,

Credits 3 cr

EDLIT 74200 - Practicum in Literacy

Fifty-hour college-supervised practicum divided into two 25-hour placements; one at early childhood level and one at the childhood level.

prereq: 15 credit hours in the literacy master's program

Hours 15 hr seminar plus 50 hrs in the field,

Credits 1 cr

Students may be exempted from up to 6 credits on the basis of prior or equivalent coursework.

Exit Standards

1. Overall GPA of 3.0 or better.

2. An "achieved the standard" rating, or better, on the Professional Teaching Portfolio during final presentation to the Master's in Literacy Portfolio Review Committee.
3. A grade of B or better in literacy courses EDLIT 736, EDLIT 737, EDLIT 742, and EDLIT 740.
4. Students must pass the School of Education technology assessment.

Literacy Education: Grades 5-12 - MEd

Program Coordinator Yang Hu; 901 West Building; (212) 772-4753; yang.hu@hunter.cuny.edu

This is a 27-30 credit program that prepares teachers with NYS initial, professional, or permanent certification to meet New York State requirements for certification as a teacher of adolescent literacy. The program has been nationally recognized by the International Reading Association (IRA).

Admission Requirements

1. A cumulative undergraduate GPA of at least 2.8 from an accredited bachelor's degree program or a GPA of at least 3.5 from a master's program.
2. New York State initial, professional, or permanent teacher certification as a middle childhood (5-9) or adolescent (7-12) content teacher.
3. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample, after the application is reviewed.
4. Submission of a letter of recommendation from a supervisor to be included in the application as one of two required recommendations.

Progress Standards

1. Master's candidates must maintain an overall GPA of at least 3.0.
2. Master's candidates with more than one course grade below B- in literacy courses will not be allowed to continue in the program.
3. Master's candidates with a grade of Incomplete in any course will be restricted from registering for more than one course. Those with two or more grades of Incomplete are prohibited from registering for any courses.

Note: It is recommended that students with two or more IN's take an official leave of absence.

Literacy Education: Adolescent Grades 5-12 Course of Study

Total Credits: 27-30 credits

Content Core (15 Credits)

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500

Hours includes 10 hrs in the field analyzing language use of ESL learners

Credits 3 cr

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork

Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

Hours includes 10 hours in classrooms focused on literacies within the disciplines

Credits 3

EDLIT 73500 - Survey of Instructional Approaches for Language and Literacy Development: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork

Credits 3 cr

Intervention Core (9 Credits)

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork

Credits 3

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core

Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600

Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students

Credits 3

Leadership Core (6 Credits)

EDLIT 73800 - Literacy Programs: Organization and Resources

Seminar of a survey of literacy programs in diverse settings utilizing a range of techniques and organizational approaches in the literacy instruction of students, with and without discernible reading difficulties.

prereq: EDLIT 73100 (for Birth-Grade 6 students only)

Hours Includes 15 hours of survey for the enhancement of literacy programs

Credits 3 cr

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: minimum of 27 cr. in the literacy program

Hours 45 hrs,

Credits 3 cr

Students may be exempted from up to 3 credits based on prior equivalent coursework.

Exit Standards

1. An overall GPA of 3.0.
2. A grade of B or better in EDLIT 740, in which a culminating project is completed.
3. A grade of B or better in EDLIT 756.
4. An "achieved the standard" rating, or better, on the Professional Teaching Portfolio during final presentation to the Master's in Literacy Portfolio Review Committee.
5. Students must pass the School of Education technology assessment.

Mental Health Counseling - MSED

Program Coordinator Markus Bidell; 1114 West Building; (212) 772-4714; mbidell@hunter.cuny.edu

The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. Mental Health Counseling students select one elective from a sequence of predetermined courses. School Counseling students do not take electives. The curriculum integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The **Mental Health Counseling Program** prepares graduates to work as mental health counselors in hospital, agency and community settings as well as in private practice. This program leads to professional licensure in New York State; professional licensure is required to practice mental health counseling.

Students in the mental health counseling program are eligible for licensure by New York State. Students in rehabilitation counseling may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work.

Philosophy of the Graduate Programs

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

Admission Standards

1. Minimum undergraduate grade point average of 2.7; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Interviews with faculty members, alumni, or currently enrolled students. Central purposes of these interviews include assessing counselor potential, applicability of work and life experience, and candidate expectations about both the programs and the field.
5. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
6. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.

Progress Standards

1. Students must maintain a 3.0 GPA to remain in the program and must complete the total number of credits of course work to graduate.
2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.
3. Active participation in small group seminars and community and professional activities is required.
4. A student receiving a grade below B, including WU, in any of the following courses cannot continue in the programs: COCO 70100, COCO 70600, COCO 71800, COCO 71900, COCO 72500 and COCO 72600.
5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.

6. Seven courses – COCO 701, 706, 707, 718, 719, 725, 726 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

Mental Health Counseling Course of Study

Total Credits: 60 credits

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

*Hours 45 hrs,
Credits 3 cr*

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,
Credits 3 cr*

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

*Hours 45 hrs,
Credits 3 cr*

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self- concept, and adjustment in a handicapping world.

*Hours 45 hrs,
Credits 3 cr*

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

*prereq: COCO 70100 and COCO 70200
Hours 45 hrs,
Credits 3 cr*

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

*Hours 45 hrs,
Credits 3 cr*

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

*Hours 45 hrs,
Credits 3 cr*

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

*Hours 45 hrs,
Credits 3 cr*

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

*prereq: COCO 70600 and COCO 71800
Hours 45 hrs,
Credits 3 cr*

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

*Hours 60 hrs,
Credits 4 cr*

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

*Hours 45 hrs,
Credits 3 cr*

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

prereq: COCO 70000 and COUNS 71700 or COUNM 71600 or COUNR 71600

coreq: COCO 71900

prereq or coreq: COCO 70600

Hours 100

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800

Hours 45

Credits 3

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900

prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100

Hours Each 300 hrs to be arranged in selected field settings

Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500

Hours 45

Credits 3

COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

pre- or coreq: DSM-IV Workshop

COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

prereq or coreq: COUNM 71600

Hours 45

Credits 3

Electives (Select One Course)

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs,

Credits 3 cr

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs,

Credits 3 cr

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800

Hours 45

Credits 3

Exit Standards

1. An overall GPA of 3.0.
2. Students must pass the School of Education technology assessment.

Rehabilitation Counseling - MEd

Program Coordinator Arnold Wolf; 1127 West Building; (212) 772-4616; awo@hunter.cuny.edu

The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. Rehabilitation Counseling students select two electives from a sequence of predetermined courses. The curriculum integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The Rehabilitation Counseling Program prepares students to assist people with disabilities to realize personal goals and maximize their physical, emotional, social, intellectual and vocational potential. Rehabilitation counselors work with youth and adults in a variety of community-based settings such as hospitals, rehabilitation centers, colleges, chemical dependency agencies and career/vocational counseling programs.

Students in rehabilitation counseling may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work.

Philosophy of the Graduate Programs

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

Admission Requirements

1. Minimum undergraduate grade point average of 2.7; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Interviews with faculty members, alumni, or currently enrolled students. Central purposes of these interviews include assessing counselor potential, applicability of work and life experience, and candidate expectations about both the programs and the field.
5. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
6. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.

Progress Standards

1. Students must maintain a 3.0 GPA to remain in the program and must complete the total number of credits of course work to graduate.
2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.
3. Active participation in small group seminars and community and professional activities is required.

4. A student receiving a grade of below B including WU, in any of the following courses cannot continue in the programs: COCO 70100, COCO 70600, COCO 71800, COCO 71900, COCO 72500 and COCO 72600.
5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.
6. Seven courses – COCO 701, 706, 707, 718, 719, 725, 726 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

Rehabilitation Counseling Sequence of Courses

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs,

Credits 3 cr

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs,

Credits 3 cr

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs,

Credits 3 cr

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self- concept, and adjustment in a handicapping world.

Hours 45 hrs,

Credits 3 cr

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200

Hours 45 hrs,

Credits 3 cr

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs,

Credits 3 cr

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs,

Credits 3 cr

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs,

Credits 3 cr

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800

Hours 45 hrs,

Credits 3 cr

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs,

Credits 4 cr

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs,

Credits 3 cr

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

prereq: COCO 70000 and COUNS 71700 or COUNM 71600 or COUNR 71600

coreq: COCO 71900

prereq or coreq: COCO 70600

Hours 100

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800

Hours 45

Credits 3

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900

prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100

Hours Each 300 hrs to be arranged in selected field settings

Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500

Hours 45

Credits 3

COUNR 71600 - Resources and Foundations of Rehabilitation

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

Hours 45 hrs,

Credits 3 cr

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs,
Credits 3 cr*

Electives (select two courses)

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

*Hours 45 hrs,
Credits 3 cr*

COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

*Hours 45 hrs,
Credits 3 cr*

COCO 72700 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

*Hours 45 hrs,
Credits 3 cr*

Total 54 credits

Exit Standards

1. An overall GPA of 3.0.
2. Students must pass the School of Education technology assessment.

School Counseling - MSED

Program Coordinator Cynthia Walley; 1148 West Building; (212) 650-3983; cwalley@hunter.cuny.edu

The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. The curriculum integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The School Counseling Program primarily prepares graduates for careers in a variety of school settings, including elementary schools, junior high schools, senior high schools and colleges. School counselors can also be employed by organizations that are not primarily educational, such as correctional facilities, hospitals, and a wide variety of community-based organizations.

Those students specializing in school counseling may apply individually for the New York State provisional certificate for school counselor at the completion of 30 credits and a school-based practicum experience. Permanent certification recommendation is made after graduation.

In addition, school counseling students fluent in Spanish and English have the option of obtaining a New York State Department of Education Bilingual (Spanish/English) Extension in Pupil Personnel Services.

Philosophy of the Graduate Programs

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

Admission Requirements

1. Minimum undergraduate grade point average of 2.7; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas
3. Evidence of oral and written expression consonant with graduate-level study.
4. Interviews with faculty members, alumni, or currently enrolled students. Central purposes of these interviews include assessing counselor potential, applicability of work and life experience, and candidate expectations about both the programs and the field.
5. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
6. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.

Progress Standards

1. Students must maintain a 3.0 GPA to remain in the program and must complete a minimum of 51 credits of course work to graduate.
2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.
3. Active participation in small group seminars and community and professional activities is required.
4. A student receiving a grade below B including WU in any of the following courses cannot continue in the programs. COCO 70100, COCO 70600, COCO 71800, COCO 71900, COCO 72500, COCO 72600

5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.
6. Seven courses – COCO 701, 706, 707, 718, 719, 725, 726 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

School Counseling Course of Study

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,
Credits 3 cr*

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

*Hours 45 hrs,
Credits 3 cr*

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self- concept, and adjustment in a handicapping world.

*Hours 45 hrs,
Credits 3 cr*

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

*prereq: COCO 70100 and COCO 70200
Hours 45 hrs,
Credits 3 cr*

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

*Hours 45 hrs,
Credits 3 cr*

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

*Hours 45 hrs,
Credits 3 cr*

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

*Hours 45 hrs,
Credits 3 cr*

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

*prereq: COCO 70600 and COCO 71800
Hours 45 hrs,
Credits 3 cr*

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

*Hours 60 hrs,
Credits 4 cr*

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

*prereq: COCO 70000 and COUNS 71700 or COUNM 71600 or COUNR 71600
coreq: COCO 71900
prereq or coreq: COCO 70600
Hours 100*

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800

Hours 45

Credits 3

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900

prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100

Hours Each 300 hrs to be arranged in selected field settings

Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500

Hours 45

Credits 3

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs,

Credits 3 cr

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs,

Credits 3 cr

COUNS 71700 - Foundations of School Counseling

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor's role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

Hours 45

Credits 3

COUNS 72000 - Culminating Seminar in School Counseling

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

prereq: COCO 70900
prereq or coreq: COCO 72600
Hours 45
Credits 3

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800
Hours 45
Credits 3

COUNS 72200 - School Based Consultation

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

prereq or coreq: COCO 72500
Hours 45
Credits 3

Total 60 credits

Bilingual (Spanish/English) Extension In Pupil Personnel Services

Students in the School Counselor Program at Hunter College may obtain a Bilingual (Spanish/English) Extension in Pupil Personnel Services. Students who elect to take this option will be evaluated for written and oral proficiency in both Spanish and English. Students who are determined to be bilingually proficient will take the following two courses in addition to the Counseling Programs Sequence of Courses:

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100 and CEDF 70900

Hours includes 5 hrs of fieldwork

Credits 3 cr

Total 66 credits

Exit Standards

1. An overall GPA of 3.0.
2. Students must pass the School of Education technology assessment.

Special Education - MEd

Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special school, special classes, resource rooms, pre-schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter have been nationally recognized by the Council for Exceptional Children.

Completion of any one of Hunter's for the master's degree in special education leads to New York State teacher certification. Hunter's specializations are:

- childhood special education: learning disabilities
- childhood special education: behavior disorders
- childhood special education with an annotation in severe/multiple disabilities (including deafblindness)
- early childhood special education
- early childhood with an annotation in severe/multiple disabilities (including deafblindness)
- deaf and hard-of-hearing
- blind and visually impaired

Students who enter the programs with no previous certification and subsequently complete the master's degree will meet the education requirements for New York State initial and professional certification in either childhood special education or early childhood special education and either childhood general education or early childhood general education. Students without prior teacher certification enter the Program 1 track.

Students who enter the childhood special education program with initial certification in grades 1-6 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in childhood/elementary education as well as for professional certification in childhood special education grades 1-6. Students with prior childhood certification enter the program 2 track.

Similarly, students who enter the early childhood special education program with initial certification in early childhood Birth to Grade 2 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in early childhood education as well as for professional certification in early childhood special education Birth to Grade 2. Students who hold early childhood certification enter the Program 2 track in early childhood special education.

The early childhood master's programs are designed for students whose primary interest is in teaching children from infancy through kindergarten. While students in the early childhood special education programs will also be prepared to teach grades 1 and 2, applicants whose primary interest is in these grades should apply to the childhood special education program, which encompasses grades 1-6.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a range of education settings; specializations provide in-depth preparation for working with students within a particular disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.

Special Education: Visual Impairment: Rehabilitation Teaching

40 cr in total or 55 cr with optional sequence in O&M

Cross-Categorical Core Courses (3 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

Visual Impairment: Rehabilitation Teaching Specialization (37 cr)

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq or coreq: SPED 74300 and SPED 74200

Hours 45 hrs,

Credits 3 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100

Hours Includes 10 hrs field experience

Credits 3

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000

Hours includes 10 hrs field experience

Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100

Hours 45 hrs,

Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs,

Credits 3 cr

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs,
Credits 3 cr*

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,
Credits 3 cr*

Optional Sequence in Orientation and Mobility (15 cr)

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

*prereq or coreq: SPED 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr*

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

*prereq: G SPED 76500
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr*

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

*prereq: G SPEDE 77000 and G SPED 79000 and G SPED 79100
Hours 30 hrs seminar, plus conferences plus 340 hours of internship,
Credits 2 cr*

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

*Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr*

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment of the systems of mobility used by persons who are visually impaired and develops competencies in teaching indoor travel techniques used by persons with visual impairments. Two week summer course.

*prereq: SPED 74700
Credits 2 cr
Two week summer course.*

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course demonstrates practical application of Orientation and Mobility instructional techniques as they are applied in outdoor settings under blindfold and with low vision simulators. Content related to instructional strategies will be provided during the in-class seminar. Two week summer course.

*prereq: G SPED 76800 and G SPED 76500
Credits 2
Two week summer course.*

Note(s)

** The Rehabilitation Teaching program alone does not lead to New York State teacher certification.*

Visual Impairment: Rehabilitation Teaching - MSED

Visual Impairment: Rehabilitation Teaching Program Coordinators: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

The Hunter College's master's degree program in Rehabilitation Teaching (RT) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments. Upon completion of the program, candidates will be eligible for national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals. This Program does not lead to New York State Teacher Certification.

Admission Requirements

An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher **or** a graduate degree from an approved college with a GPA of 3.5 or better.

Progress Standards

12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

Visual Impairment: Rehabilitation Teaching Course of Study

Total Credits: 40 credits

The Rehabilitation Teaching program alone does not lead to New York State teacher certification.

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq or coreq: SPED 74300 and SPED 74200

Hours 45 hrs,

Credits 3 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100

Hours Includes 10 hrs field experience

Credits 3

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000

Hours includes 10 hrs field experience

Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100

Hours 45 hrs,

Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments

including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs,

Credits 3 cr

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs,

Credits 3 cr

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs,

Credits 3 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student teaching , Supervised Practicum, and Clinical Teaching Lab:
 - A. Students are required to attain a minimum grade of B in the internship courses (SPED 76300 and 76400). Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once.

Any student who receives a grade of F will not be allowed to continue.
 - B. Students must complete all required days and hours for each of the internship courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSeD

Blind and Visually Impaired Program Coordinator: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

The Hunter College's master's degree program in Rehabilitation Teaching (RT) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments. Upon completion of the program, candidates will be eligible for national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals. Those completing the combined program are also eligible to become Orientation and Mobility specialists. The Combined Master's Degree in Rehabilitation Teaching and Orientation and Mobility includes 40 credits of the RT Master's Degree and 12 credits in Orientation and Mobility.

Admission Standards

1. Undergraduate BA or BS degree from an accredited institution, with a GPA 2.8 or better, plus teacher of the blind and visually impaired teaching certificate.

OR

- Master's degree from an approved college in rehabilitation teaching or teacher of the blind and visually impaired with a GPA of 3.5 or better,
2. Evidence of acceptable written languages skills,
3. Three letters of recommendation,
4. Evidence of work, volunteer or personal experience with individuals with visual impairments,
5. An interview with a special education faculty member.

Progress Standards

1. Students must maintain an overall GPA of at least 3.0 in order to continue the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

NOTE: It is recommended that students with two or more INs take an official leave of absence.

Rehabilitation Teaching and Orientation and Mobility Course of Study

Total Credits: 52 credits

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq or coreq: SPED 74300 and SPED 74200

Hours 45 hrs,

Credits 3 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000 and SPED 74100 and SPED 74200

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100

Hours Includes 10 hrs field experience

Credits 3

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000

Hours includes 10 hrs field experience

Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100

Hours 45 hrs,

Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

prereq or coreq: SPED 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

prereq: G SPED 76500

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq: G SPEDE 77000 and G SPED 79000 and G SPED 79100

Hours 30 hrs seminar, plus conferences plus 340 hours of internship,

Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment of the systems of mobility used by persons who are visually impaired and develops competencies in teaching indoor travel techniques used by persons with visual impairments. Two week summer course.

prereq: SPED 74700

Credits 2 cr

Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course demonstrates practical application of Orientation and Mobility instructional techniques as they are applied in outdoor settings under blindfold and with low vision simulators. Content related to instructional strategies will be provided during the in-class seminar. Two week summer course.

prereq: G SPED 76800 and G SPED 76500

Credits 2

Two week summer course.

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs,

Credits 3 cr

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs,
Credits 3 cr*

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,
Credits 3 cr*

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab

A. Students are required to attain a minimum grade of B in the internship courses (SPED 763 and 764). Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once.

Any student who receives an F will not be allowed to continue.

B. Students must complete all required days and hours for each of the internship courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

Master of Science/Master of Public Administration - MS/MPA

Nursing: Nursing Administration/Public Administration MS/MPA Dual Degree with Baruch College

57 credits

Specialization Coordinator: David Keepnews, dkeepnew@hunter.cuny.edu

This specialization prepares nurses to assume positions of leadership in nursing in a variety of health care settings, systems and agencies. The program emphasizes multidisciplinary approaches to management and policy in nursing and health care including practicum experiences (500 hours). Graduates of the program meet the educational requirements for specialty certification by the American Nurses Credentialing Center.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Core Courses: 18 credits

PAF 91000 - Introduction to Public Affairs

Systematic study of the institutions Americans have developed to pursue the public interest; government, markets, nonprofit organizations, the family. Overview of political economy, institutions, and culture; the policy process; role of values and ethics.

PAF 91720 - Applying Information, Research, and Analysis II

This course is the second in a two-course sequence that provides an introduction to research and analytical methods as applied to public policy and management. Students will develop expertise as consumers of research findings and learn methods for designing and conducting research.

PAF 91200 - Managing Organizations in the Public and Not-for-Profit Sectors

Fundamental concepts and techniques for managing government and not-for-profit agencies, including schools. This course focuses on structural models, individual behavior, including group dynamics and leadership, and political and cultural frameworks. Questions of effectiveness, responsibility, and professional relations are considered.

PAF 91300 - Economic Analysis and Public Policy

Introduction to concepts and analytic tools necessary to economic examination of individual and firm behavior; analysis of causes and consequences of public sector intervention in the economy.

PAF 91400 - Budgeting, Accounting and Financial Analysis

Introduction to budgeting, accounting and financial analysis. Overview of the context of budgeting in the government decision process and analysis of the fiscal cycle through budget development, implementation, and review. Incorporates basic accounting concepts and information presentation and retrieval skills.

PAF 91030 - Communication in Public Settings

Introduces students to communication in public settings and provides extensive opportunities for practice with basic written and oral forms. Interrelationships among communicative activities and organizational goals. Internal and external messages are given equal weight. Argumentative structures necessary for constructing sound policy and persuasive techniques relevant to funding, regulation, client, and public constituencies. Topics will vary somewhat from semester to semester depending on the instructor's and students' interests. The course follows a workshop/laboratory format with intensive attention to student work as a fulcrum for the application of theory and refinement of skills.

Specialization Courses: 15 credits

NURS 73500 - Leadership and Management in Health Care I

Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.

prereq: NURS 70000, NURS 70200, NURS 74900

coreq: PAF 91000, PAF 91030

Hours 30 hours theory, 15 hours seminar, 166 hours practicum,

Credits 5 cr

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500, PAF 91200, PAF 91720

coreq: PAF 91400, PAF 91300

Hours 30 hours theory, 15 hours seminar, 167 hours practicum,

Credits 5 cr

NURS 74500 - Capstone Seminar for the MS/MPA in Nursing Administration

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

Cross-listed (Cross-listed with PAF 97930)

prereq: NURS 74000

Hours 30 hours theory, 15 hours seminar, 167 hours practicum,

Credits 5 cr

Nursing Electives: 3 credits

Public Affairs Electives: 9 credits

PAF 91700 - Research and Analysis I

The first course in a two-course sequence (the second course is PAF 91720) that provides an introduction to research and analytical methods as applied to public policy and management. Students will develop expertise as consumers of research findings and learn methods for designing and conducting research. This first course provides an introduction to data analysis and statistical inference, with an emphasis on policy and management applications. Topics include graphing and numerical summaries, normal distributions, descriptive correlation and regression, basic probability and sampling distributions, confidence intervals, significance tests, chi-square tests, and inference for regression. Students learn these techniques through hands-on work with real data and statistical software.

Plus two additional electives, including (for example)

PAF 91800 - Policy Analysis

Overview of the use of analytic techniques in solving public sector problems and designing government programs. Topics include agenda setting, approaches to problem solving, the role of values in policy making and policy analysis, policy-relevant data collection and analysis, principles of benefit-cost analysis, techniques of policy analysis (e.g., queuing, simulations, formal modeling), strategies for policy adoption and implementation, and the politics of policy analysis.

Hours 2 hours plus conference

Credits 3

PAF 97350 - Health Politics and Policymaking

This course examines the evolution of the major governmental programs involved with health insurance and health care in the United States. The goal is an understanding of the political dynamics that lead to successes and failures in health policymaking, and the development of strategies that can be used by governmental and non-governmental actors to accomplish policy change.

Hours 3

Credits 3

PAF 91230 - Program Evaluation

Examination of the process and techniques of program evaluation and the assessment of effectiveness of public sector policies. Various performance assessment criteria, problems of evaluation research, and the politics of program evaluation are reviewed.

Hours 2 hours plus conference

Credits 3

Master of Science/Master of Public Health - MS/MPH

Nursing: Community/Public Health Nursing/Urban Public Health MS/MPH Dual Degree

57 credits

Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu

The program prepares nurses as advanced public health nurses to assume leadership roles in community/public health nursing in a variety of settings including home care, public health, and community-based agencies. Students learn to apply theories and research findings to nursing practice through course work and a series of practicums for a total of 500 hours. Students who select the dual degree option attain additional knowledge of public health sciences with the option of either environmental and occupational health or community health education. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Practice Core: 9 credits

PH 75000 - Introduction to Biostatistics

This course is designed to enable students to analyze, present and interpret population health data.

prereq: Elementary statistics or calculus or equivalent.

PH 75200 - Introduction to Epidemiology

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

prereq: PH 75000

PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

Hours 3

Credits 3

Specialization Courses: 15 credits

NURS 77100 - Community/Public Health Nursing I

Analysis of how clinical specialists in community/public health nursing conduct a community health assessment and participate on multidisciplinary teams that work in partnership with culturally diverse communities.

prereq: NURS 700, PH 700

prereq or coreq: NURS 702, NURS 749

Hours 30 hrs theory, 166 hrs practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

Public Health Core Courses: 9 credits

PH 75500 - Urban Health and Society

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

Hours 3

Credits 3

PH 75600 - Public Health and Health Care Policy and Management

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

Hours 3

Credits 3

Choice of:

Community Health Education Courses: 9 credits

COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000
Credits 3

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.

Credits 3 cr

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75500, COMHE 75000, COMHE 75100
Credits 3

-or-

Environmental and Occupational Health Sciences Courses: 9 credits

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

Credits 3

EOHS 75700 - Principles of Industrial Hygiene

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

prereq: EOHS 70200 and 70500
Credits 3

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of

toxicological testing and evaluation.

prereq: PH 75400 and EOHS 70500

Credits 3

Electives: 3 credits

Master of Social Work - MSW

Social Work - MSW

The MSW curriculum reflects a commitment to social justice, diversity and practice in the urban environment. The school offers several program tracks leading to the master of social work (MSW) degree. These include the full-time Two-Year, the One-Year Residency (work study), the Accelerated Program, the Advanced Standing Program for those possessing a BSW, and the Dual Degree program with the Bank Street College of Education.

The social work curriculum is designed to assure that graduates master the core competencies and practice behaviors identified as essential for all social workers by the Council on Social Work Education, our accrediting body. The curriculum assures that students also acquire advanced practice behaviors in their practice concentration and a field of practice. Please see http://www.hunter.cuny.edu/socwork/download/Competencies_and_Practice_Behaviors.pdf for a listing of these competencies and advanced practice behaviors.

The curriculum includes courses in human behavior and the social environment, social welfare policy and services, social work research, social work practice, including four practice concentrations: clinical practice with individuals and families; group work; community organizing, planning and development; organizational management and leadership. In addition to course work, all students are expected to complete at least one field practicum that is an internship in an approved field agency. All two year program students and accelerated full time students are expected to have two fieldwork placements of two semesters each, which involve three days per week in a field agency. Students accepted into the work-study program (OYR) complete only one year of fieldwork with four day per week assignments. All students enroll in a year long Social Work Practice Learning Lab. All students are required to take three courses in one of four practice concentrations. The field practicum must be taken concurrently with a practice course. In addition, students must select advanced courses which focus on a field of practice: a specific social problem, population or institutional auspice. The fields of practice offered are: children, youth and families; gerontology; world of work; health and mental health; global social work and practice with immigrants and refugees. Elective courses in these areas and in specialized skills and problem areas such as family treatment, treatment of trauma, and substance abuse are also offered.

Admission Requirements

Successful performance in graduate social work education requires emotional maturity and stability, interest in working with people and readiness to assume professional responsibilities. The applicant's knowledge of professional social work and/or experience in social work settings is an important consideration for admission. The criteria for admission are as follows:

- Applicants must hold a bachelor's degree from an accredited college or university. Undergraduate preparation should demonstrate a liberal arts background and intellectual capacity for graduate study.
- Records of international students require special evaluation and should be submitted as early as possible. All applicants whose prior language of instruction was not English are required to take the TOEFL and achieve a minimum score of 213; 80 IBT (internet-based test).

- Good undergraduate preparation along with tested understanding of the profession gained through voluntary, internship and/or paid experience are the keys to a successful application for admission.
- Advanced Standing applicants, in addition, must have an overall GPA of 3.0 and GPA of 3.2 in the social work major and must have received the BSW degree within the last 5 years. Advanced Standing students must submit Core Competency forms from their faculty advisor and senior placement field instructor which rate the applicant on the core (foundational) practice behaviors identified by SSSW.
- One Year Residency (OYR) applicants, in addition, must have a minimum of two years full time work experience as a social service worker or supervisor of social service workers. OYR applicants must provide a letter from their agency executive documenting full time employment, and the Agency Executive Agreement Form which commits the agency to provide schedule flexibility for the student for classes and to collaborate with the school to develop meaningful learning assignments as part of the student's work assignment. The agency also commits to provide the student with a new field instructor during Time Frame II, the residency year.
- All applicants must submit an application, transcripts from all previous academic study, three professional letters of reference, and application fees. Completed applications for admission should be submitted by the deadline date established by the School each year. All admissions are subject to limitations of available seats in the school and placement in a field practicum. Applications for admission into the MSW program must be submitted online.

Applicants may be required to participate in a group discussion as part of the admissions process.

For further information on admissions, e-mail admissions:grad.socworkadvisor@hunter.cuny.edu or swapp@hunter.cuny.edu or see the School's website at www.hunter.cuny.edu/socwork

Transfer

Up to 12 non-matriculated credits of graduate social work courses, with a grade of B or better, completed within five years of MSW degree completion may be transferred from a social work program accredited by the Council on Social Work Education.

Students must complete a **Transfer of Credit Form** and supply a course description and syllabus for each course for which they are requesting transfer credit. Once all the documentation has been collected, the packet should be sent to the Admissions Office (for new students) or to the Student Affairs Office (for continuing students). The associate dean for academic and faculty affairs reviews all requests for transfer of credit. The maximum number of transfer credits is waived in the cases of applicants who apply and enter the program as transfer students. Once an applicant is accepted into the program and their documentation packet is collected, their transfer credits will be assessed, a course of study outlined, and the credits added to your Hunter College transcript as appropriate. Unfortunately, no academic credit can be given for life experience or previous work experience.

Professional Liability Insurance

As a condition of registration for fieldwork, students must have professional liability insurance. Professional liability insurance is provided through a school group policy, and payment for this policy is made at the time of registration. Cost of liability insurance does not exceed \$20 per year. Fieldwork agencies may also require that students undergo a background check and pay for fingerprinting. The cost of fingerprinting varies.

MSW Degree Program

Degree Requirements

All students in the MSW Program must complete 60 credits composed of 16 three-credit courses and a requirement for a field practicum designed to ensure that students master the core (foundation) and advanced practice behaviors. The curriculum is organized into content areas; each area includes one to three courses required for degree completion. These areas are:

Human Behavior and the Social Environment

Social Welfare Policy and Services

Social Work Ways of Knowing and Communicating

Social Work Practice Learning Lab

Research

Practice Methods

Professional Seminar

Field Education

All work must be completed within a five-year period with grades of "Credit" or "Honors".

Degree Program Tracks

Two-Year Full-time Program

The two-year full-time program is for qualified students who can devote themselves to full-time academic and field study. Full-time students are expected to attend classes two days a week, and to be in a field placement three days a week, for two academic years.

One-Year Residence (OYR) Work-Study Program

The one-year residence (OYR) program is a work-study program designed to provide graduate social work education for experienced students whose personal responsibilities make the two year full-time program impractical. In this work-study model of social work education, the student's field work requirements are met at the agency of employment. As a result, the student is able to remain employed while earning MSW degree credits through all phases of the program until completion of the degree.

At the time of application OYR applicants must have completed at least two years of full-time employment in a recognized social welfare organization or agency and their current social welfare employer must agree to sponsor them. Sponsorship requires the agency to agree to provide the student with an educationally sound field work assignment. The field placement could expand on the student's current work assignment, incorporating new opportunities for learning in a social work capacity: for example, the addition of new cases, groups or projects. The agency must also provide a field instructor who is a licensed social worker as well as flexible scheduling for the student to attend classes during the residency year.

The program is organized around three "time frames," which include both part-time and full-time study. In total, in the standard OYR program students enroll in course work for five semesters and two summers. Students are permitted to take up to 30 hours of course work on a part-time basis while remaining in full-time employment. The program offers opportunity for acceleration for students who are in good academic standing.

Time Frame I is completed in evening or day classes over two semesters and one summer. Most students complete the first time frame in one year, earning 21 credits.

Time Frame II, also known as the “residency” year, occurs during the second year of matriculation. Students enroll in three courses while completing their single 900 hour field work requirement in their chosen method of practice. The requirement for a single practicum is based on the student's prior knowledge of social service organizations and the delivery of social services on a pre-professional level. The practicum requirement can be completed in four days a week (28 hours per week) during the fall and spring including January when classes may not be in session or three days a week in fall, spring, and summer. Students can take classes all on one day during the day, late afternoon and evening and/or Saturday.

Time Frame III represents the culmination of course work requirements. Classes are held in the evening.

The Accelerated OYR program takes 24 months to complete. Students enter in the spring and complete Time Frame I with intensive study in the evenings during spring and summer. Time Frame II is essentially the same as in the standard OYR program (see above) with additional study required in the winter session. Students complete their remaining requirements in their second summer and the following fall. Because of its acceleration, this program is intense and requires a significant commitment of time and energy.

Accelerated Full-Time and Accelerated OYR Programs

The Accelerated Programs are designed for outstanding students prepared to participate in an intensive, year-round learning experience beginning in January. The Accelerated Program option is available only to those students wishing to specialize in Clinical Practice with Individuals and Families. Full-time students complete the program in three semesters plus two summers of study. Availability for class in the afternoon and evening during the first semester and summer of enrollment is essential. These students are assigned field placements and complete their first year requirements by the end of the summer in their first 8 months of enrollment. They start their third semester in the fall and graduate in the following August.

Students who are already working in the human service field and meet the entry criteria for the One-Year Residency Program described above, complete the program in four semesters and two summers of study. They enter the Accelerated OYR program beginning with evening study in January through the summer and complete their Time Frame II studies in the following fall and spring. They are eligible to graduate in their second summer or the following December. Winter session study is also required.

Advanced Standing Program

The advanced standing program is an intensive program for outstanding students who have graduated from a baccalaureate social work program accredited by the Council on Social Work Education. A limited number of qualified applicants are accepted. Applicants must have received their undergraduate degree within the last five years.

Applicants to the advanced standing program must have an overall grade point average (GPA) of 3.0 and a GPA of 3.2 in the social work major. Applicants must meet all other admission criteria for acceptance into the graduate social work program at Hunter. Some courses required in the first year of the MSW program will be waived for applicants accepted in the advanced standing program. Hunter's advanced standing students either begin in the summer and continue through the following academic year of full-time study or start in the fall and complete their work the following summer..

Dual Degree Program: Silberman School of Social Work at Hunter College and the Bank Street College of Education Infant and Parent Development Program

This dual degree program is designed to prepare social workers to understand and work with the special needs and vulnerabilities of children from birth to age three and their families. The program prepares social workers for professional roles that combine both educational and clinical skills. The curriculum design incorporates theoretical and

practice aspects of each degree into a cohesive educational and professional program. Applicants apply to each institution separately. The program requirements satisfy the accreditation standards for each degree.

In the first two years, students attend the two institutions sequentially, pursuing an intensive program at each of them. In the third year, students move between institutions to complete course work. Both institutions require a supervised field practicum. Applicants must meet all admission standards of the MSW program and are required to have experience in working with children.

Program for Non-matriculated Students

The School has learning opportunities for both pre- and post-masters students. Taking courses as a non-matriculated student can be a stimulating introduction to the MSW program and often motivates participants to apply for admission to a degree program. A maximum of nine credits is allowed and may be credited toward the degree upon matriculation. Only one course may be taken per semester.

Those students who already have completed their MSW may seek additional clinical learning to meet licensing requirements. Such students should contact the Associate Dean for Academic and Faculty Affairs at ssw.office@hunter.cuny.edu.

Inquiries for pre-masters non-matriculation should be directed to the Admissions Office at the main campus (68th Street) of Hunter College. See <http://www.hunter.cuny.edu/graduateadmissions>.

Field Practicum

The Silberman School of Social Work has strong ties to many social agencies, which provide students with field placements in a variety of practice areas. Qualified agency staff members serve as student field instructors. The field practicum is an integral part of the social work curriculum. Agencies used as field practicum sites by the school are selected and approved by the school's Office of Field Education. Approval criteria include field learning opportunities and availability of qualified agency-based field instructors. Students are expected to follow agency policies, including conducting home visits.

MSW Curriculum

The School of Social Work holds that social work education must integrate core social work values and knowledge with practical application in the field. Professional, academic and field learning experiences must satisfy the highest standards of excellence. The curriculum is designed to instill a sense of respect for human integrity, a concern for social conditions and a commitment to service within the value system of the profession.

The curriculum is developed according to the standards of the Commission on Accreditation of the Council on Social Work Education. Copies of these standards and the Educational Policy Statement are available in the reserve section of the Social Work Library, and in the office of the dean. These are also available online at <http://www.cswe.org/File.aspx?id=13780>. Consistent with CSWE standards our curriculum is designed to assure that graduates master the core competencies and practice behaviors identified as essential for all social workers. The curriculum assures that students also acquire advanced practice behaviors in their practice concentration and a field of practice. Please see http://www.hunter.cuny.edu/socwork/download/Competencies_and_Practice_Behaviors.pdf for a listing of these competencies and advanced practice behaviors.

The orienting knowledge courses at the core of the curriculum are related to human needs, particularly to the problems of the more vulnerable and disadvantaged populations of New York City. The required courses, electives and majors are all constructed to teach the social work approach to meeting the needs of society.

In addition to courses offered for credit, the school provides workshops on topics such as child abuse and neglect, cultural diversity, ethics, and government benefits, as required by the New York State Department of Education, Division of Professional Licensing. Course work is augmented and reinforced by the all-important field practicum.

Agencies and service organizations in the various areas of social work practice, with their qualified agency supervisors and field instructors, provide the vital training and experience for students. The curriculum is organized into five professional curriculum areas and five fields of practice that reflect human needs and values and their associated social institutions and services. The curriculum includes foundation and advanced courses in:

Human Behavior and the Social Environment
Social Welfare Policy and Services
Social Work Ways of Knowing and Communicating
Practice including Social Work Practice Learning Lab
Practice Method Concentrations
Social Work Research
Professional Seminar
Field Education

Human Behavior and the Social Environment

This three-course sequence SSW 71100 SSW 71200 SSW 71300 and its related electives address the person-in-situation matrix with a specific focus of attention on issues of diversity (culture, class, ethnicity, race, age, sexual orientation, spirituality, ability, and gender). Stages of development across the life span define one axis, while critical contexts (individual, family, function and role-based groups, communities, organizations, and society) define the other axis of environmental forces that may impinge on social functioning.

Social Welfare Policy and Services

This two-course sequence SSW 70100 and one course in the 70200 series explores the history, planning, intent and operations of the US social welfare system. The courses identify key ideological frameworks that shape the current public debates over social welfare policy, analyze the structure of the social welfare system, and explore issues of poverty in the context of oppression, diversity and social justice. The 70200 courses each focus on a selected social welfare issue or special population.

Social Work Ways of Knowing and Communicating

This single course Special Topics in Social Work Ways of Knowing and Communicating SSW 77500 builds students' capacity to acquire critical thinking skills, information literacy and to communicate both orally and in writing. Taken in the first semester, a menu of sections is available to students, each with a different topical focus.

- Ways of Knowing and Communicating series course must be taken in the first semester for those students in the Two-Year Program and within the first year or enrollment for OYR students.

SSW 77501 - Ways of Knowing: Theories and Perspectives on Aging

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77502 - Ways of Knowing: Theories and Perspectives on Child Welfare

Credits 3

This is an example of a required Ways of Knowing topics class. More than

10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77503 - Ways of Knowing: Theories and Perspectives on Health

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77504 - Ways of Knowing: Theories and Perspectives on Domestic Violence

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77505 - Ways of Knowing: Theories and Perspectives on Mental Health

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77506 - Ways of Knowing: Theories and Perspectives on Criminal Justice

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77507 - Ways of Knowing: Theories and Perspectives on Authority Settings

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77508 - Ways of Knowing: Theories and Perspectives on Trauma

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77509 - Ways of Knowing: Theories and Perspectives on Immigrant Experience

Credits 3

This is an example of a required Ways of Knowing topics class. More than

10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77510 - Ways of Knowing: Theories and Perspectives on Trauma and Co-Occurring Disorders

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77511 - Ways of Knowing: Theories and Perspectives on Social Work and the Arts

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77512 - Ways of Knowing: Theories and Perspectives on Drugs and Alcohol

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77513 - Ways of Knowing: Theories and Perspectives on Schools

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77514 - Ways of Knowing: Theories and Perspectives: Early Development

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77515 - Ways of Knowing: Theories and Perspectives: Youth Development

Credits 3

This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

Social Work Practice Learning Lab

The development of foundation competence is required in cross methods practice. This is achieved through enrollment in the Social Work Practice Learning Lab 1 & 2 and related field practicum skill workshops.

In the first year all students take SSW 71700 and SSW 71800 Social Work Practice Learning Lab. This course explores the institutional and social context of social work practice, the problem areas and populations served by social workers, and the differential use of practice methods and builds foundation competencies in professional social work. After successful completion of SSW 71700 students commence courses in their concentration.

SSW 71700 - Social Work Practice Learning Lab 1

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

Credits 3

*SSW 71700 and 71800 are required. Please consult the School of Social Work website:
<http://www.hunter.cuny.edu/socwork/> for additional information.*

SSW 71800 - Social Work Practice Learning Lab 2

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

prereq: SSW 71700

Credits 3

*SSW 71700 and 71800 are required. Please consult the School of Social Work website:
<http://www.hunter.cuny.edu/socwork/> for additional information.*

Social Work Research

SSW 75100 - Social Work Research I

Principles of social research methods in the context of social work practice. Problem formulation, research design and role of research in social work, ethical issues, sampling, measurement and data collection.

Credits 3

*SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website:
<http://www.hunter.cuny.edu/socwork/> for additional information.*

SSW 75200 - Social Work Research II

Measurement strategies, qualitative data analysis, descriptive and inferential statistics, and methods of quantitative data analysis; data management. Data collected by students from their research projects is analyzed.

prereq: SSW 75100 or equivalent

Credits 3

*SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website:
<http://www.hunter.cuny.edu/socwork/> for additional information.*

Practice Methods Concentrations

Development of advanced competence in one of the following practice method concentrations: clinical practice with individuals and families; group work; community organization, planning, and development; and organizational management and leadership is required. Every student majors in one of these concentrations and must take three sequential courses in that concentration or (with permission) two sequential courses in that concentration and an approved multi-method practice elective. Additional method and practice courses are offered; sequencing of requirements varies according to the various programs.

Clinical Practice with Individuals and Families

The clinical practice with individuals and families concentration prepares students for agency-based clinical practice in the urban environment. Students in this concentration are prepared to counsel individuals, pairs and families in order to help with a variety of personal, interactional and social problems. Concepts of clinical assessment and intervention are taught from a biopsychosocial perspective. Students are exposed to a variety of theoretical modalities that are augmented by evidence-based-practice perspectives. Issues of diversity and oppression are integrated into the study of assessment, treatment planning and intervention as well as the professional relationship. Emphasis is placed on differential assessment and intervention with a variety of diverse client groups. Clinical services are offered in a wide range of practice settings, such as child and family agencies, unions, industries, hospitals, mental health and substance abuse clinics, courts and settlement houses. The setting of the service makes possible in-depth teaching about specific populations and problems, managing service needs and styles and such specific intervention models as crisis intervention, advocacy, and various brief and long-term treatment modalities.

SSW 72100 - Social Casework I

Development and use of casework theory, practice and process. Integration and application of the values that underpin social work practice.

prereq: SSW 71700

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72200 - Social Casework II

Application of casework principles. Knowledge from human behavior and the social environment and social welfare policy and services areas and research findings is applied to the assessment of clients and their situations.

prereq: SSW 72100

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72300 - Social Casework III

Expands and deepens knowledge and skills for professional practice. Intervention modes, based on biopsychosocial assessment, are presented. Dealing with problem assessment and intervention; cultural specificity.

prereq: SSW 72100 and 72200

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Group Work

Students are prepared to provide in-depth work with individuals in small groups. Groups may be formed around commonality of need or problem ranging from socialization to social action. The curriculum emphasizes group formation within a psycho-socio-political context and uses group-development theory as the primary paradigm for shaping practice with diverse populations in widely varied clinical and community settings. Concepts central to practice are contextual assessment, planning, group stage theory, group development, mutuality, mutual aid, common ground, roles, dual focus, decentralized authority, and problem solving.

Field practicum settings in group work include mental health clinics, hospitals, settlement houses, schools, community centers, senior centers, and day treatment and substance abuse programs. Social group work practice is used with a variety of populations from children to older adults, for meeting a range of needs from normal development to managing acute crisis situations and for dealing with all types of problems ranging from interpersonal to social action.

SSW 73100 - Social Group Work I

Prepares students for working with groups in community-based and clinical settings. Understanding social group work as a problem-solving method in widely varied settings and fields of practice.

prereq: SSW 71700

Credits 3

NOTE: SSW 731, 732 and 733 are required for all Group Work majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 73200 - Social Group Work II

Role of the worker in the middle and ending stages of group development; interventions; dealing with problematic roles; dealing with group conflict.

prereq: SSW 73100

Credits 3

NOTE: SSW 73100, 73200 and 73300 are required for all Group Work majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 73300 - Social Group Work III

Application of practice principles. Advocate, develop and deliver ethical and effective group work services in current agency settings.

prereq: SSW 73200

Credits 3

NOTE: SSW 73100, 73200 and 73300 are required for all Group Work majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/> for additional information.

Community Organization, Planning and Development

This concentration develops students' competence for community-based practice. It stresses the skills, techniques and strategies needed to mobilize people and resources to solve basic social problems at either the neighborhood or city-

wide level. The social planning and social reform aspects of social work practice are underscored in seeking change to alleviate individual and family problems. Education and training are developed in collective action, advocacy, program evaluation, proposal writing, community outreach, legislative advocacy and other vital organizing roles. Field practicums occur in a number of settings in international organizations, city and state planning agencies, legislative offices, community engagement arms of human service organizations, and a wide variety of grassroots organizations. Students in these placements work on everything from local economic development issues, food and hunger projects, and tenant advocacy to LGBTQ issues and women's rights.

SSW 74100 - Community Organization and Planning-I

Theory and practice of community organization and planning. Models and strategies for professional practice for community and client participation and empowerment. Community needs and resources; practice dynamics; dilemmas.

prereq: SSW 71700

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74200 - Community Organization and Planning-II

Development of community organization skills in relation to group structure and development. Group dynamics, role theory and reference group theory. Community power and influence on problem solving structures.

prereq: SSW 74100

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information .

SSW 74300 - Community Organization and Planning-III

Role of the social worker and social planner; theoretical and practice aspects of program development and community planning within a political system. Concepts and techniques in management of social service programs.

prereq: SSW 74100 and 74200

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Organizational Management and Leadership

Students who elect to concentrate in Organizational Management and Leadership (OML) are prepared to assume varied management positions in social agencies, including the traditional supervisory, middle management, and executive positions as well as jobs as program planner and analyst, staff trainer, program director, or budget analyst. Those focusing on OML develop conscious and strategic use of self in managing the complex tasks of program managers. Students seeking to concentrate in OML should have some prior experience either in management and/or social work or human services line work. Field practicums are available in a wide range of public and private social agencies. Many students entering OML are in our One-Year Residency Program. A wide variety of placements are available for two-year OML students with the many graduates of SSSW in leadership roles around the city.

SSW 78100 - Social Welfare Administration I

Theoretical understanding of the operation of social agencies. Organizational structure, authority, goal setting and service implementation, interorganizational positioning, stability and survival, and staff and administrative functioning.

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78200 - Social Welfare Administration II

Personnel management, staff training, volunteers and paraprofessionals, decision-making processes, budgeting, boards and committees, public relations and marketing, and methods of accountability.

prereq: SSW 78100 or dept perm

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78300 - Social Welfare Administration III

Program design in social agencies. Emphasis on assuring access, consistency, continuity and comprehensiveness of services, as well as client feedback mechanisms. Financial management, budgeting, strategic planning.

prereq: SSW 78100 and 78200

Credits 3

SSW 781, 782 and 783 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Professional Seminar

The Professional Seminar is a capstone seminar that requires students to identify an emerging practice issue or concern, examine the known evidence, and design a study that better addresses the issue at hand. The course is designed as an integrating and synthesizing experience, wherein students consult with one another in addressing a specific concern. The course launches students into the profession with a keen sense that they can influence the context in which they will practice as social workers.

SSW 79000 - Professional Seminar

Utilization and integration of practice, research and policy to determine how an issue may be ameliorated or resolved. Taken in the final semester.

Credits 3

This is a required course for all students.

Field Education

This two-to-four-term sequence of on-site work in social service agencies is an integral component of all pathways to the MSW degree. Students in field placement must be concurrently enrolled in a practice course: Social Work Practice Learning Lab, methods course or other practice course. Training is provided by a field instructor; it is monitored by the instructional faculty and the student's adviser.

Two-Year and Advanced Standing Programs

SSW 76100 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information and full course descriptions.

SSW 76200 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76300 - Field Instruction III

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100 and 76200. Advanced standing program students enroll without prereq.

Credits 3

Material Fee: \$15

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76400 - Field Instruction IV

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76200 and 76300

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

One-Year Residency and Dual Degree Programs

SSW 76700 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 6

OYR and Dual Degree students only. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76800 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76700

Credits 6

OYR and Dual Degree students only

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Electives

Students may choose from a menu of courses within each curriculum area.

Fields of Practice Specializations

Students are, expected to specialize in one of the following Fields of Practice. This includes an appropriate field practicum, enrollment in two pre-designated courses, and a specialization focus in research or professional seminar. Students should consult their faculty adviser for details.

Children, Youth and Families

This field of practice is designed for students interested in working in public and/or private child welfare agencies, schools, or children, youth, and family organizations in direct service, supervisory, or administrative capacities. The developmental needs of children, youth and families; crises and disruptions in family life (broadly defined); conflicts and violence; child placement issues are a focus of attention. It prepares social workers to provide a broad range of services to individuals, groups and families in all phases of the family life cycle.

Gerontology

This specialization explores the aging process and the variety of issues affecting older adults and their family systems. It is guided by the principle that older adults are individuals and members of a family and community with rights and responsibilities—who must be afforded the necessary protection and assistance to participate fully in family, cultural and social life.

Health and Mental Health

This field of practice is designed for students interesting in meeting the changing needs of people with medical and psychiatric problems; addressing patients' rights, delivering services in hospitals, ambulatory care or primary care facilities, community-based clinics; chronic and long-term care settings.

World of Work

The theme of work over the life span including services to employed, unemployed, and underemployed adults, older adults and their families, often through management or labor-sponsored service programs.

Immigrants and Global Social Work

Indigenous perspectives from around the globe inform learning and practice in international contexts, and with immigrants and refugees in the urban environment. Special attention is paid to understanding the diverse meaning of adversity, strength and well-being towards developing sustainable, rights-driven and culturally relevant policy and practice.

Master of Urban Planning - MUP

Urban Planning - MUP

The Master of Urban Planning program has four integrated components: a core curriculum, an area of concentration, an internship, and a studio. Its purpose is to train planners who, like their counterparts throughout the nation, have general expertise in planning theory and methods, an understanding of urban structure, specialized knowledge of a chosen planning concentration, and the skills and intellectual maturity to operate in the professional arena.

The 54-credit program is structured to provide students with the expertise essential to professional practice and to allow for flexibility to accommodate individual professional and academic aspirations. The core curriculum (21 credits) provides basic training in planning. It has a dual purpose: to place planning in its societal and theoretical context and to teach the skills of the profession. The area of concentration (12 credits) allows for in-depth training in a specific subfield of general planning practice. The studio (6 credits) provides experience in applied planning. Unrestricted electives (12 credits) allow for the exploration of a range of planning topics in elective courses and through independent research.

In organizing their programs, students work closely with faculty advisers.

Each student must also take one 3-credit internship. As interns, students may work for city and suburban planning agencies, neighborhood development groups, banks, municipal housing or budgeting units, planning journals, and other groups approved by the department. For many students, field experiences have led to full-time employment in their internship agencies after graduation.

In addition, the department has several internal work opportunities generated by the faculty and the Center for Community Planning and Development, which count towards the internship requirement. Faculty members routinely include in their research grant proposals funds to support graduate research assistants.

The Hunter College graduate program in urban planning is accredited by the Planning Accreditation Board of the American Planning Association, the Association of Collegiate Schools of Planning, and the American Institute of Certified Planners. Students with multiple professional interests may wish to pursue joint degree programs with other New York universities. For example, a joint master of urban planning/juris doctor, available through a cooperative program with Brooklyn Law School, allows students to earn the two degrees in four years of full time study. Other joint degree programs may be pursued with the approval of the department.

Admission Requirements

Requirements for Admission to the Planning Program

Traditionally, most applicants come from the social sciences (economics, geography, sociology, political science, and urban and American studies), engineering, and architecture. English majors and students of religion, art history, and

business have also enrolled. While many students enter Hunter directly from undergraduate study, a large percentage have spent time away from school and return to develop their knowledge and expertise or to prepare for a new career. Applicants must meet the general admission requirements for Hunter graduate programs, except for the Graduate Record Examination, which is not required. These requirements include the submission of transcripts and two letters of recommendation, along with a completed application form obtained from the Hunter College Graduate Admissions Office. Applicants are encouraged to visit the department during scheduled open house sessions and to contact the program director by e-mail with specific questions. Applicants are also encouraged to reach out to individual faculty members who may share their professional or research interests.

Degree Requirements

Requirements for the Master of Urban Planning

The degree requires 54 credits of graduate study. Of these, 42 must be selected within course offerings of the Hunter College graduate program in urban planning. With the approval of the department, 12 credits may be elected from other graduate programs.

Credits are distributed as follows:

Core Curriculum	21 credits
Area of Concentration	12 credits
Planning Studio	6 credits
Internship	3 credits
Unrestricted Electives	12 credits

Core Curriculum

The core curriculum includes content and courses in four areas: theories and process of urban planning, urban structures, public policy and law, and planning methods and information management. Students must take required courses, except where choices are allowed. The core consists of:

URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

Hours 45

Credits 3

URBP 70100 - History and Theory of Urban Planning

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

Hours 45

Credits 3

URBP 71900 - Land Use, People and the Environment

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

Hours 45

Credits 3

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,

Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,

Credits 3 cr

Plus, choice of two of the following methods courses:

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

Hours 45

Credits 3

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

GTECH 71000 - Introduction to GIS

Thorough introduction to geographic information systems with an emphasis on spatial data handling and project management.

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

Areas of Concentration

Areas of Concentration

The graduate program offers the following areas of concentration: Community Planning and Advocacy (including Human Services), Sustainability and the Environment, Transportation and Infrastructure, Housing and the Built Environment (including Urban Design and Historic Preservation), Economic Development, and General Practice. Each concentration is designed to give students a working knowledge of specific foci within the field of planning. To fulfill the concentration requirement, students select four courses related to the concentration in consultation with their adviser, from the suggested list.

Students with special interests may create their own concentration. In developing their programs, students may combine Hunter courses with the resources of the larger City University community or other approved institutions. Some individually tailored specializations may include Education Planning and Policy, Immigration and Global Change, and Urban Information Systems.

Representative Courses in the Areas of Concentration

Community Planning and Advocacy (including Human Services)

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

prereq: URBG 72700 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,

Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,

Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,

Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,

Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,

Credits 3 cr

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45

Credits 3

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45

Credits 3

URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.

Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

Sustainability and the Environment

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

Hours 45

Credits 3

URBP 72200 - Land Use Planning Workshop

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

prereq: URBP 71900 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

*Hours 45 hrs,
Credits 3 cr*

URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

*Hours 45 hrs,
Credits 3 cr*

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

Transportation and Infrastructure

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,
Credits 3 cr*

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

*Hours 45 hrs,
Credits 3 cr*

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,
Credits 3 cr*

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

prereq: permission of the instructor

Hours 45 hrs,

Credits 3 cr

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

Housing and the Built Environment (including Urban Design and Historic Preservation)

URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

Hours 45 hrs,

Credits 3 cr

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,

Credits 3 cr

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

Hours 45 hrs,

Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URBG 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr*

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

*Hours 45 hrs,
Credits 3 cr*

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

Economic Development

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning*

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

*Hours 45 hrs,
Credits 3 cr*

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,

Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,

Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,

Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,

Credits 3 cr

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45

Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

General Practice

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,
Credits 3 cr*

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

*prereq: URBG 72700 or permission of the instructor
Hours 45 hrs,
Credits 3 cr*

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,
Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental

agencies and the private sector.

Hours 45 hrs,

Credits 3 cr

Planning Studio

To solidify knowledge and skills gained in the core curriculum and other courses, students are required to participate in a 6-credit planning studio. This requirement is satisfied by completion of URBP 73700 (6 credits) or URBP 73800 (Planning Studio I, 3 credits) and URBP 73900 (Planning Studio II, 3 credits), which are taken consecutively. Ordinarily students take the studio course in their second year of study or after completion of at least 30 credits of work.

School of Arts and Sciences

School of Arts and Sciences

Hunter College has a long-standing commitment to graduate education. Known for its academic excellence and very fine faculty, the college has been teaching graduate courses since September 1921. Today most departments in the School of Arts and Sciences offer graduate courses of study leading to MA, MS, MUP and/or MFA degrees. They also provide opportunities for non-degree advanced study. In addition to Hunter's graduate programs, faculty members in all our departments are affiliated with PhD programs at the City University of New York's Graduate Center.

Master's degrees

To gain admission as a matriculated student, the applicant must satisfy the college's general graduate admission requirements unless otherwise specified by a department.

Prospective students apply to the program of their choice through the college's Office of Graduate Admissions 695 Park Avenue, Room 223 North, New York, NY 10065; (212) 396-6049. For further information on admission and degree requirements, consult the individual departmental listings in this catalog and on our website: www.hunter.cuny.edu.

Most graduate programs in the School of Arts and Sciences are housed at the East 68th Street campus of Hunter College (at Lexington Avenue) in the East, West, Thomas Hunter, and North Buildings; Studio Art is located near Times Square, at 450 West 41 Street.

Anthropology

About the Department

Anthropology is the study of humanity in all its cultural and biological diversity. In the United States, the discipline traditionally includes four fields: archaeological, biological, sociocultural, and linguistic anthropology, although research increasingly examines questions at the borders of the fields or which span more than one field. The department maintains a commitment to a four-field approach to graduate training despite a national trend towards increasing specialization at earlier stages of graduate training. A student with a solid four-field background can readily opt to specialize, while one-field specialists are hard to retrain as generalists. Anthropology provides essential foundations and perspectives for the study of the social and natural sciences and the humanities, as well as for applied professions such as education, public health, and social work. The Anthropology curriculum emphasizes original research, scholarly writing, informed critical thinking, and the understanding of, and tolerance for diverse cultures and ways of life.

We consider hands-on training in ethnographic fieldwork, archaeology, biological anthropology, and quantitative methods to be an integral part of graduate training. The faculty is actively involved in interdisciplinary teaching, interdepartmental collaborative efforts, and individual and team research projects, including many that involve new information technologies, cultural resource management, environmental impact assessment, ethnicity and gender, regional and area studies, and economic development-- to name a few. The Department is also committed to involving graduate students in ongoing faculty-supported research, and in encouraging independent student-initiated research projects.

The entire Master's Degree Program is tied to an evening course schedule thereby offering a unique educational resource in an urban area where the majority of potential graduate students are self-supporting and hold full-time jobs.

Gregory A. Johnson, Professor; PhD, Michigan; Archaeology, Complex Societies, Middle East, Quantitative Analysis

Yukiko Koga, Assistant Professor; PhD, Columbia; China, Japan, Colonialism, Post-colonial theory, Memory

Thomas H. McGovern, Professor; PhD, Columbia; Archaeology, Paleoecology, Faunal Analysis, Norse and Inuit Cultures, Human Dimensions of Global Change

William J. Parry, Professor; PhD, Michigan; Southwest U.S., Mesoamerica, Lithic Analysis, Hunter-Gatherers

Herman Pontzer, Assistant Professor; PhD, Harvard; Human Foragers, Energetics and Evolution of Bipedalism, Hominin Biomechanics

Jessica Rothman, Assistant Professor; PhD, Cornell; Primate Ecology and Behavior, Nutrition, Evolutionary Ecology, Tropical Forest Ecology, Africa

Jonathan Shannon, Associate Professor; PhD, CUNY; Cultural Anthropology, Aesthetics, Ethnomusicology, The Middle East, Islamic Society

Michael Steiper, Associate Professor; PhD, Harvard; Biological Anthropology, Molecular Evolution and Phylogenetics, Population Genetics, Primates

Ida Susser, Professor; PhD, Columbia; Medical Anthropology, Contemporary U.S., Urban, Political Economy, Gender, South Africa

Anthropology - MA

The Department of Anthropology at Hunter College offers the only master's program in general anthropology within the City University. The program has a commitment to a four-field approach to graduate training, requiring a substantial background in cultural anthropology (ethnology), physical anthropology, anthropological archaeology and anthropological linguistics, in order to prepare students for flexibility in future careers in research, teaching and related fields.

The entire program is scheduled in the evening, to accommodate students who hold full-time jobs.

Virtually all students who complete the MA program and apply to PhD programs at other institutions are admitted to a program.

A substantial proportion of MA students are accepted in PhD programs before completing requirements for the Hunter MA. Hunter MA students may take courses at the CUNY Graduate Center. Most of the Hunter anthropology faculty are also members of the faculty of the Graduate Center doctoral program in anthropology.

Students are encouraged to participate in faculty research, much of which is externally funded, providing limited opportunities for part-time employment. Scholarships are also available for students in the program to participate in field schools and to conduct field research. Write or email the graduate adviser for further information.

Requirements for Admission

In addition to meeting the general requirements for admission, students must have at least 9 credits in undergraduate anthropology or a related field, although in special cases this requirement may be waived.

Requirements for the Degree

1. 30 credits

A minimum of 30 credits beyond the BA

2. Fields of the discipline

The program of study must be chosen to fulfill a general knowledge in all four fields of the discipline. The four fields are: anthropological linguistics, anthropological archaeology, biological anthropology, and ethnology.

3. The following courses are required:

ANTH 70100 - Ethnology (Core Course)

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 75000 - Archaeology (Core Course)

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 77000 - Linguistics (Core Course)

Structure of verbal behavior. Analytic description of phonology, grammar, semantics, pragmatics. Language in social action. Language prehistory.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

Additional Information

The examinations in each of these courses represent the qualifying exam for each of the four fields. Students are required to pass those courses with a grade of "B" or better. Students are strongly advised to complete these courses early in their graduate training. Overlaps in undergraduate and graduate course requirements for BA/MA students may justify some adjustments in consultation with the graduate adviser on a case-by-case basis, but qualifying exams will be required in any case. BA/MA students must complete the requirements for both degrees.

4. Foreign language

A reading knowledge of at least one foreign language appropriate to the field of specialization, or a demonstrated competence in statistics

5. A master's thesis

Art

About the Department

The Hunter College art department offers two distinguished master's programs, an MA in art history and an MFA in creative art. The department boasts world renowned faculty in art history and studio art.

Hunter is situated within walking distance of a range of resources unsurpassed anywhere for the study of art history: outstanding museums, galleries and specialized research libraries. The Art History - MA , granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.

In New York, as nowhere else, the Creative Art - MFA student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of the goal of the MFA program: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. Students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory and history of art. Electives in a range of studio practices broaden student experience and are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

Facilities

The department functions in two main Manhattan locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 450 West 41st Street. The main campus at 68th Street houses the administration, the Leubsdorf Art Gallery, and the new Zabar Art Library with extensive databases including Artstor, a digital source of over one million images in the arts and humanities. It also houses fully equipped workshops on the 11th floor in photography, graphics (printmaking), metal, wood and plaster, as well as a computer lab and painting and drawing studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop.

The MFA Building is a large, unique facility that plays a significant role in the life of the college and, indeed, the city as a whole. It includes approximately 140 studios, averaging 300 square feet in size, and the 11,000 square foot Time Square Gallery. The building houses a number of workshops and labs including photography, wood, metal, printmaking and ceramics studios, as well as digital labs.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Art Department of Hunter College.

The Times Square Gallery at 450 West 41st Street is a 11,000-sq. ft. space renovated by graduate students and faculty.

Students in both programs have opportunities to make curatorial and research contributions to shows mounted at the Hunter College Galleries.

Art History - MA

The MA in art history, granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.

Admission Requirements

Applicants are admitted in both fall and spring semesters. The applicant must have completed 12 credits of undergraduate courses in art history. Reading knowledge of a foreign language (French, German, or Italian) is required. All supporting material requested by the college's Graduate Admissions Office (GRE score, official transcript, two to three letters of recommendation) as well as the completed on-line application form must be supplied by the application deadlines. **Application Deadlines: for fall admission, February 1; for spring admission, October 1.**

Requirements for the MA in Art History (30 cr)

1. Course distribution:

Students are required to take ARTH 60200 (Research Methods in Art History), as early as possible in their course of study. At least one course must be taken in art historical theory or historiography, such as ARTH 73400, or a special topics course directly related to one of these areas. In addition, at least one course must be taken in each of three of the following areas, a, b, c, and d:

- a. Ancient and Medieval Art
- b. Renaissance, Baroque, and 18th-century Art
- c. Modern (19th- or 20th-century) and American Art
- d. Non-Western Art

2. Permission of the graduate adviser:

With the permission of the graduate adviser, candidates for the MA in art history may take up to 6 credits in studio courses or in courses in related areas.

3. Transfer students:

Students may apply for transfer of up to, but no more than, 9 credits from another institution (including the Graduate Center of the City University of New York). Permission to transfer credits is not guaranteed and is considered on a case by case basis.

4. Examinations:

Students must take and pass two examinations before they are permitted to proceed beyond 15 credits. It is recommended that they take these examinations as early in their careers as possible. Both examinations are given once each semester.

Language Examination:

Students must demonstrate their ability to use at least one foreign language as a research tool by passing a written examination in French, German or Italian.

Comprehensive Examination:

Passing a written examination in the history of art is required of all candidates.

5. Mid-program evaluation:

The progress of each student will be reviewed upon the completion of 15 credits. Students will be permitted to proceed if they have demonstrated proficiency in writing and research skills and have passed the comprehensive and foreign language examinations.

6. Incomplete credit:

Students with 6 credits of IN ("Incomplete") will not be permitted to register for courses.

7. Master's thesis:

A thesis is required. The following (Thesis Research) (3 cr) is an elective.

ARTH 79900 - Thesis Research

Limited to matriculated MA students in art who have completed 20 grad cr. Independent research toward MA thesis under direction of faculty member.

Additional Information

For further information write the Graduate Adviser, Art History Program.

Facilities

The department functions in two main locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 450 West 41st Street. The North Building at 68th Street houses the administration and the library and has fully equipped, newly renovated workshops on the 11th floor in photography, graphics, metal, wood, plaster, computer graphics and general painting studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop. The MFA Building houses the graduate studios, the MFA Gallery, and the graduate photo, wood, metal and ceramics studios.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Art Department of Hunter College.

The MFA Gallery at 450 West 41st Street is a 12,000-sq. ft. space renovated by graduate students and faculty.

The entire exhibition program maximizes student and faculty participation to expand the parameters of the graduate programs in both fine arts and art history.

Scholarships and Travel Grants

The Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to \$1,200 each are given every semester to an MA and MFA student. Tony Smith Awards are given to students at the discretion of faculty.

Creative Art - MFA

Hunter's ideal location in Manhattan offers students and faculty many intellectual, cultural and creative resources. In New York, as nowhere else, the student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of our educational goal: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. In this programmatic context students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory, criticism and history of art. Electives in a

range of studio practices are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

Admission Requirements

Applications are reviewed once a year. The applicant must have completed at least 24 credits of undergraduate courses in studio art and 9 credits in art history, as well as an undergraduate degree from an accredited institution. Applicants who have a previously completed MFA in art cannot be considered for admission to the studio art program at Hunter College. Applicants must submit the on-line Hunter College Graduate Application for Admission. This application, with all supporting materials, must be submitted prior to the January 15 deadline. In addition, applicants must upload their portfolio and statement of purpose to slideroom.com. Further instructions can be found on the Art Department website at:

http://www.hunter.cuny.edu/art/MFA/mfa_application.htm

The Art Department Graduate Admissions Committee will select finalists for admission to the MFA program. All finalists will be scheduled for an interview. Final decisions will be determined by mid-April.

MFA Application Deadline: January 15 for admission in the following academic year.

Requirements for the MFA in Creative Art (48 cr)

Each candidate for the MFA must select one field of concentration in studio art: painting, sculpture,

printmaking/drawing/works on paper, photography, clay & casting, or combined media, and present an MFA project in that area.

Candidates must complete 48 credits, distributed as follows:

- 9 credits of tutorial work;
- 9 credits of seminar work;
- 9 credits of studio electives (exclusive of the area of concentration);
- 9 credits of liberal arts electives in the history, theory, and criticism of art;
- 6 elective credits which may be used for additional art history or studio electives, or non-traditional courses or projects such as apprenticeships, teaching assistantships or participation in the foreign exchange program;
- Mid Program Review: Eligibility to continue to work toward the degree is evaluated by a committee of all MFA faculty in the semester of the second tutorial and seminar.
- 6 credit MFA Thesis Project (ARTCR 79100) completed under the guidance of a faculty Thesis Advisor.

All students are provided individual work spaces in the MFA Studio Building and are required to work in them throughout their residency. There are four floors (approximately 10,000 sq. ft. each) for student studios, seminar rooms, and workshop and exhibition areas. The regular curriculum will be supplemented by a monthly lecture series, providing a forum for the presentation of aesthetic ideas by artists, critics, historians, and resident faculty.

Foreign Exchange Program

Several MFA students are selected each year to receive stipends for a period of one semester at the Glasgow School of Art, Scotland; the Ecole des Beaux-Arts, Paris; the Royal College of Art, London; the Hochschule der Künste, Berlin, Frank Mohr Institute, the Netherlands.

Scholarships and Travel Grants

Among other awards, the Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Also, grants from the Tony Smith fund are awarded to selected MFA students upon graduation. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to \$1,200 each are given every semester to an MA and MFA student.

Biochemistry

About the Department

The interdisciplinary program in Biochemistry is jointly administered and staffed by members of the Biological Sciences and Chemistry departments. The master's degree is offered as a terminal degree. Both first-year courses and advanced courses are available at Hunter College and/or at the Graduate Center, 365 Fifth Avenue, New York, NY 10016.

Biochemistry - MA

[Return to: Biochemistry](#)

Requirements for Admission

General admission requirements to Hunter's graduate programs are observed including GRE (verbal and quantitative reasoning); TOEFL (for foreign students whose native language is other than English).

In addition, the student must have completed the following courses: general chemistry (including qualitative analysis) (one year), quantitative analysis, organic chemistry (one year), physical chemistry (one semester lecture and laboratory), biology (one year), biochemistry lecture and laboratory (one semester). Deficiencies may be made up during the first three semesters of graduate study.

Requirements for the Degree

Comprehensive Examination or Thesis:

Students may complete the requirements for the MA through either of the following two plans:

- Plan (1): A minimum of 30 credits of course work plus a passing grade in a comprehensive examination.
- Plan (2): A minimum of 24 credits of course work, plus 6 credits from a thesis on an original research problem. The thesis must be approved by the student's adviser, and it must be defended before a thesis committee.

Courses:

The student must complete the following courses from the list below. Note that no more than 10 credits of 600-level courses may be taken.

Plan (1):

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry

Hours 3 hrs,

Credits 3 cr

fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000

Hours 3 hrs,

Credits 3 cr

*Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020
may be substituted, respectively by*

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs,

Credits 3 cr

Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8

Credits 4

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry

Hours 3

Spring only, offered at the Graduate Center

A minimum of two courses in biology (8 or 9 credits) that must come from

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

or

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

or

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

or

BIOL 71014 - Molecular Biology Laboratory

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry

Hours 105 hrs lab and conf,

Credits 4 cr

Fall only

or

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

or

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

Hours 30 hrs/wk for 4 wks,

Credits 4 cr

Additional Information

Any remaining or additional credits may be taken by choosing courses in biology or chemistry as electives.

Plan (2):

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry

Hours 3 hrs,

Credits 3 cr

fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000

Hours 3 hrs,

Credits 3 cr

*Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020
may be substituted, respectively by*

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs,

Credits 3 cr

Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8

Credits 4

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 79901 - Thesis Research

Credits (Master's) 1

BIOCHEM 79902 - Thesis Research

Credits (Master's) 2

BIOCHEM 79903 - Thesis Research

Credits (Master's) 3

offered Fall, Spring, and Summer Open only to students writing a thesis as part of the requirements

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry

Hours 3

Spring only, offered at the Graduate Center

A minimum of 6 credits of courses in biology, with at least one course chosen from

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

or

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Credits 4 cr

Biological Sciences

About the Department

The Department of Biological Sciences has graduate and post-graduate research programs in molecular and cell biology, cancer biology, molecular and developmental genetics, and molecular neuroscience. Students may obtain the MA from Hunter College and/or the PhD jointly from Hunter College and the City University Graduate Center. The doctoral program is designed to prepare students to cope with the radical changes in direction and experimental approaches that will characterize future developments in biology, as well as to train highly qualified research scientists who are fully equipped to teach and to direct research in a wide variety of university and industry programs in the biological sciences.

Faculty of the department are pursuing projects in the forefront of modern research. In addition to the individual research laboratories, a number of shared facilities are housed in the department. They include transmission and scanning electron microscopes, a sequencing and synthesis facility equipped with a DNA synthesizer, a peptide synthesizer, a gasphase sequencer, DNA sequencer and advanced HPLC and data processing equipment, a bioimaging facility, a fluorescence-activated cell sorter and a biopreparation facility. Several facilities are available through the chemistry department, including X-ray diffraction, NMR, mass spectroscopy and biomolecular computation. Shared modern animal facilities are also available.

Biological Sciences - MA

Return to: Biological Sciences

The degree is offered either as a terminal degree or as the first year toward the PhD within CUNY. Both introductory and advanced graduate courses are available at Hunter College.

Requirements for Admission

In addition to the general requirements for admission to graduate programs, the following departmental requirements must be met:

1. One year of organic chemistry with laboratory
2. One year of college physics
3. One semester of calculus and a second semester of either calculus or statistics
4. An undergraduate major in biology, botany, physiology, zoology, chemistry, physics, or other appropriate discipline. A minimum of 18 credits in appropriate undergraduate science and mathematics courses should be presented. Chemistry or physics majors must offer at least one year of appropriate life science for admission to any of the majors in the MA program in biological sciences including a semester of genetics, molecular biology or biochemistry.
5. General Test of the Graduate Record Examination (GRE) (verbal and quantitative). Other examination scores, including the MCAT, may not be substituted for the GRE.
6. TOEFL Test for international students with a non-English speaking background.

Requirements for the Degree

The program of course work, planned with the graduate adviser, is concentrated in one of the following major areas: molecular and cell biology, cancer biology, molecular and developmental genetics, molecular neuroscience, and biotechnology.

Required Courses

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

Additional Information

Up to 4 credits of tutorial are accepted toward the degree. Only one 600-level course including courses outside Biological Sciences, such as Biochemistry may be credited toward the degree.

Matriculated Students May Fulfill Requirements for the MA

Matriculated Students may fulfill requirements for the MA through either of the following plans:

- **Plan A - Comprehensive Exam Only:** A minimum of 30 credits of course work plus a passing grade in a written Comprehensive Examination in the areas covered by the four required core courses. The Comprehensive Examination is given annually in June. Only fully matriculated students who have completed all four required courses may take the comprehensive examination.
- **Plan B - Comprehensive Exam and Thesis:** A minimum of 24 credits of course work plus a passing grade in a written Comprehensive Examination and a minimum of 6 credits of original research that is summarized in a written thesis. The completed thesis must be approved by the student's faculty mentor, the MA adviser, and the Office of the Dean of Arts & Sciences at least one month before the expected date of graduation. An oral presentation of the MA thesis is required."

Courses for Non-matriculated Graduate Students

Students with a baccalaureate degree may register for some graduate courses without matriculation. After being admitted as a non-matriculating graduate student, students may take BIOL 70005 - Genetics (fall only) or BIOL 71401 - Cell Biology (spring only) without prior departmental permission. For all other courses, non-matriculating students must get permission directly from the course instructor. Specific graduate courses being offered each semester are listed at <http://registrar.hunter.cuny.edu/subpages/searchclass.shtml>

There is no dedicated adviser for non-matriculating students who want to take graduate Biology courses. Non-matriculating students should see any Biology faculty member during regular office hours for advising. Please contact the department secretary at 212-772-5293 to find out faculty office hours.

Return to: Biological Sciences

Biological Sciences with Specialization in Biotechnology - BA/MA

In this five-year program, qualified undergraduate Hunter College biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology, and a foundation for application of these skills in careers in the biotechnology/pharmaceutical industry, academic research, or public health. Successful completion of the biotechnology workshop, an essential program component, entitles students to a summer internship in an industrial or private research laboratory.

Biological Sciences/Environmental and Occupational Health Sciences - BA/MS

Return to: Programs and Courses in Biology

This is an accelerated program leading to a BA in biology and an MS in environmental and occupational health sciences in five years. Hunter College Biology majors admitted to the program start graduate work in their senior year. Interested students should contact a Biology Department adviser — as well as the coordinator of the Program in Environmental and Occupational Health Sciences at the Brookdale Campus — early in their undergraduate studies. See Environmental and Occupational Health Sciences - MS (part of the CUNY School of Public Health at Hunter College) for more information.

Biology with Specialization in Biotechnology - MA

Return to: Biological Sciences

Admission Requirements

GPA 3.0

GRE (general part) to be taken before registering for 700-level courses

Baccalaureate degree in biology or related fields

Degree Requirements

30 credits plus a passing grade on a comprehensive examination or a thesis

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000

Credits 3 months, 4 cr

Core Courses for the MA (21-28 credits)

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

Hours 30 hrs/wk for 4 wks,

Credits 4 cr

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000

Credits 3 months, 4 cr

Electives (5-13 credits)

Additional Information

For additional elective courses, consult department adviser.

Return to: Biological Sciences

Doctoral Program in Biological Sciences

Return to: Programs and Courses in Biology

Doctor of Philosophy

Students are encouraged to apply directly to the Doctoral Program in Biological Sciences, which is offered jointly by Hunter College and the CUNY Graduate School and University Center. Doctoral dissertation research is carried out in the Hunter College Department of Biological Sciences. A PhD in Biochemistry is also offered jointly with the CUNY Graduate School and University Center. For further information contact Professor Patricia Rockwell, 821 North Building, (212) 396-6202 or visit the Graduate Center website at <http://www.gc.cuny.edu>.

Hunter MA students who have been accepted to the joint Hunter College/CUNY Doctoral Program in Biological Sciences will have their required MA Comprehensive Exam as equivalent to a Doctoral First-Level Exam. If a Hunter College applicant is accepted into the Doctoral Program, a passing grade at the doctoral level on the exam will allow acceptance into the Doctoral Program as a Second-Level doctoral student.

Medical Laboratory Sciences/Biological Sciences with Specialization in Biotechnology - BS/MA

Return to: Programs and Courses in Biology

Qualified Hunter College seniors majoring in medical lab sciences in the School of Arts & Sciences may apply to the new BS/MA collaboration between the Department of Medical Laboratory Sciences and the Department of Biology. An intensive techniques workshop (BIOL 41000) is taken prior to graduation and upon successful completion, students may continue with professional internship, and the accelerated MA program.

Chemistry

About the Department

The Department of Chemistry offers a range of graduate educational opportunities with strengths in both the fundamental areas of the discipline and in emerging fields and applications. Students may obtain the PhD degree from Hunter College jointly with the City University of New York (CUNY) Graduate Center with concentrations in: Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, Biophysical Chemistry, Biochemistry, Nano-technology and Materials Chemistry and Environmental Chemistry. In any subdiscipline, PhD students can opt for an interdisciplinary radiochemistry component that is funded by a National Science Foundation Integrative Graduate Education and Research Training (NSF-IGERT) program. Additionally, students may also obtain the MA degree in Biochemistry jointly offered by the Department of Chemistry and the Department of Biology from Hunter College, or an MA in education jointly offered by the Department of Chemistry and the School of Education of Hunter College. Graduate level courses are offered at Hunter College and in the CUNY Graduate Center. Master's

programs can be completed as a full or part-time student, with or without a research thesis. Most graduate courses are offered in the evening to facilitate enrollment of part-time students.

A major goal of our graduate programs is to train research scientists to create new knowledge that impacts both fundamental scientific principles and addresses societal needs. The continuing success and future development of most areas in academic, industrial, and government institutions will increasingly depend on a well-trained science workforce for innovation, planning, and policy. The vibrant and well-funded research labs of our faculty in the Department of Chemistry at Hunter College provide the essential part of research training of the graduate programs. Students in Ph.D. program are expected to start their independent research at the end of the first year of study, and to complete their thesis on an original research subject under the supervision of our faculty. Students can also opt to pursue an independent pedagogical research project as part of their thesis research. The research activities are further supported by an array of shared facilities and the state-of-art instruments including the NMR facility, the X-ray crystallography and electron microscope facility and the Mass-spectrometry facility. Other facilities and instruments are available in the Department of Biosciences and in the NIH funded Hunter Gene center.

Chemistry - MA

An MA in chemistry will be offered. Students will have to receive departmental permission to enroll in the classes they need according to the master's track they wish to pursue.

Research/Industrial/Teaching Chemistry - MA

Requirements for Admission

General admission requirements to the graduate programs in the Arts and Sciences are observed.

Departmental Requirements for Matriculation

Undergraduate record:

1. Undergraduate work in chemistry to include a minimum of one-year courses in each of the following fields: general, analytical, organic, and physical chemistry, or their equivalents.
2. A strong record in all undergraduate chemistry courses and a general undergraduate record indicating ability to profit from graduate study. Performance on the Graduate Record Examination and letters of recommendation are also considered.

Departmental Requirements for the Degree

A. Residence

A minimum residence of two full semesters or four half-time semesters.

B. Course distribution

1. 30 graduate credits

A minimum of 30 graduate credits.

2. Required courses (one semester each)

The department graduate committee may at its discretion waive or modify some of these required courses for students who have had the equivalent training. In such cases the student may be required to show competence through formal or informal examination.

CHEM 71000 - Advanced Inorganic Chemistry

The theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

prereq: an advanced undergraduate inorganic chemistry course or CHEM 76000

Hours 45 hrs,

Credits 3 cr

CHEM 75000 - Advanced Organic Chemistry I

Fundamentals of organic chemical principles, reactions and structures.

*Hours 45 hrs,
Credits 3 cr*

CHEM 76000 - Introductory Quantum Chemistry

Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

*Hours 45 hrs,
Credits 3 cr*

CHEM U79000 - Basic Laboratory Techniques for Research in Biochemistry

Lecture and laboratory work dealing with the theories and applications of modern approaches to the solution of chemical problems.

Credits 4 cr

CHEM 64300A - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

CHEM 64300B - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

Total 15

3. Proficiency

Students must be able to demonstrate proficiency in laboratory techniques. Students unable to demonstrate such proficiency may be required to take whatever laboratory work the graduate committee deems necessary.

4. Foreign language

Demonstrated ability to read and utilize in research the foreign language chosen from French, German, or Russian, most closely related to the student's program of graduate study.

5. Mathematics, Physics and Chemical Engineering

Graduate courses in mathematics, physics and chemical engineering up to maximum of 6 credits may be taken with the approval of the departmental committee.

C. Comprehensive examination

A comprehensive examination will be required of all candidates.

Classical and Oriental Studies

The Department of Classical and Oriental Studies participates in Adolescent Education MA programs through the division of Classics (Latin) and the division of Chinese Language and Literature (Chinese).

Dance

From a campus in the heart of New York City, the Hunter dance student has the unique opportunity of interfacing with many professional dance companies, choreographers, and critics who live and work in New York. The modern dance-based curriculum provides the student with opportunities to pursue careers in performance, choreography, teaching, arts administration, and production. The curriculum is enriched by community outreach performances, repertory classes with New York-based choreographers, speciality workshops, dance clubs, international performances, internships and New York State teaching certification. In addition, Hunter Dance hosts "Sharing the Legacy," an ongoing series of conferences, forums, and concerts devoted to experiencing dance masterworks of the twentieth and twenty-first centuries.

The Graduate Dance Program at Hunter College has two programs in conjunction with the School of Education:

- MA/Dance Education focusing on preparation for Pre-K-12 teaching and NYS certification, in the School of Education
- BA/MA/Dance Education focusing on preparation for Pre-K-12 teaching and NYS certification, in the School of Education

This innovative and ambitious array of graduate training is specifically designed to offer a wide and strongly integrated professional training environment in which mature, motivated and gifted performers, choreographers and teachers will work with each other and with world-class faculty toward individual career goals.

Economics/Accounting

About the Department

The Department of Economics at Hunter College is home to a faculty that is dedicated to excellence in research and teaching. In addition to faculty, graduate students are also actively engaged in the research and teaching missions of the department. The Department has two Master's degree programs, one in Economics and the other in Accounting. Both programs equip students with analytic tools that can be directly applied to business and public policy. Because both programs integrate theory, quantitative methods, and practical applications, Hunter MA and MS graduates regularly move into interesting, well-paid positions in business, government, and international organizations.

They are also prepared to enter Ph.D programs at top-ranking universities. In addition, Accounting graduates are qualified to take the CPA examination in New York State.

Programs and courses

Programs and Courses in Economics and Accounting

Economics - Doctor of Philosophy

The PhD program in economics is based at the City University Graduate Center. Under special circumstances, advanced students in the MA program may take up to 12 credits and transfer them to Hunter towards their MA. In addition, students in the PhD program who wish to transfer to the Hunter MA program may transfer up to 12 credits towards the Hunter MA. PhD students at the City University Graduate Center who wish to earn an en passant master's degree after completing 45 credits at the Graduate Center – in cooperation with Hunter College – should consult the executive officer of the PhD program. <http://web.gc.cuny.edu/Economics/>

Toshiaki Mitsudome, Associate Professor; PhD, Baruch; Financial and Managerial Accounting, International Accounting

Michael E. Schleifer, Lecturer; MBA (Taxation), Pace; Auditing, Financial Accounting, Taxation

Accountancy - MS

The MS in Accounting program at Hunter College is designed for students who have satisfied the academic requirements for an undergraduate degree in accounting. It will provide intensive training in accounting research, information systems, ethics, and advanced coverage of the core topics in accountancy. Students completing the program will be well equipped for a successful career in accounting. Hunter's MS in Accounting has been approved by the New York State Department of Education as a CPA licensure-qualifying program for students who have earned a BS in Accounting at Hunter College or an equivalent undergraduate program.

Beginning in August of 2009, New York State requires all CPA candidates to have completed 150-credit hours in order to sit for the Uniform CPA Examinations. The graduates of the MS program will be able to fulfill this requirement.

The MS program is a 30-credit program consisting of six required courses, two accounting electives, and two non-accounting electives. It can be pursued on a full-time or part-time basis. The program curriculum and admission requirements are outlined below. The accounting faculty within the Economics Department at Hunter College has established a record of teaching excellence, and has produced research of the highest quality within the field of accounting.

Requirements for Admission

A BS degree in Accounting from Hunter College or the equivalent from another regionally accredited college or university with:

- An overall GPA of 2.75 and A GPA of 3.0 in accounting courses
- Two letters of recommendation
- A GMAT score
- A TOEFL score (if an applicant has received all or part of the undergraduate education in a country where English is not the native language).

Students applying with undergraduate degrees other than a BS in Accounting from Hunter may be accepted under the above standards but will need to meet the academic requirements of Hunter's BS in Accounting in addition to the requirements for the MS degree. (The undergraduate requirements include an accounting core comprised of **ECO 27100** and **27200**, Principles of Accounting I and II; **ECO 37100** and **37200**, Intermediate Accounting I and II; **ECO 47100** and **47200**, Advanced Accounting I and II; **ECO 28000** and **38000**, Business Law I and II; **ECO 37400**, Cost Accounting; **ECO 37300** and **47300**, Individual and Business Taxation; and **ECO 47500**, Auditing. For a complete description of the undergraduate requirements, see the Hunter College Undergraduate Catalog.).

Requirements for the Degree

The MS in Accounting program requires a student to earn 30 credits: 18 credits from a required core of six courses, 6 credits in accounting electives, and 6 credits in non-accounting electives, as outlined below. Additionally, a capstone research project will be undertaken as part of the required coursework.

Required courses

The following 3-credit courses are required of all students in the program:

ECO 77000 - Research Techniques in Accounting

The course will clarify the nature of accounting research for the student, and survey important research methods and techniques.

ECO 77100 - Advanced Financial Accounting Theory

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

ECO 77200 - Accounting Information Systems

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

ECO 66000 - Managerial Economics for Accountants

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

prereq: ECO 32100 and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances*

Hours 3

Credits 3

** If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.*

ECO 78000 - Business Ethics, Communications, and Research Project

Ethical issues in accountancy will be covered, as well as ethical concerns in marketing, corporate social responsibility, and global operations. Business communication skills will be developed. A capstone research project will be completed.

prereq: ECO 77000

ECO 77500 - Advanced Auditing

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer- assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

Note(s)

**The following may be substituted for ECO 66000 with permission of the program adviser.*

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

*prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500*

Electives

An additional twelve (12) credit hours, selected from among the following 3-credit courses, are also required. Students are required to take two courses from the accounting electives and two from liberal arts (non-accounting electives).

Accounting Electives

ECO 77300 - Advanced Federal Income Taxation

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.

ECO 77400 - Advanced Managerial Accounting

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

ECO 77600 - Governmental Accounting

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

ECO 77700 - State and Local Taxation

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

Other (Non-Accounting) Electives

Any other 600- or 700-level course offered by the Hunter College Economics Department may be taken as a non-accounting elective.

Graduate level courses within the Department of Urban Affairs and Planning and the graduate program in Social Research may also be taken as electives.

Economics - BA/MA

The Department of Economics makes it possible for students to earn both a BA and an MA degree in economics within the credits required for a BA at Hunter. BA/MA students must complete the requirements for both the BA and MA degree.

Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index, with a minimum grade of B in ECO 300, and ECO 321, and a C in Math 150, or their equivalents. Continuing in the program is contingent upon maintaining a 3.0 GPA in Economics and the cumulative index and receiving a minimum grade of B in ECO 301 and an average grade of B in Math 150 and Math 160.

Economics - MA

Hunter's master's program in economics equips students with analytic tools that can be directly applied to business and public policy. The program integrates economic theory, quantitative methods and practical applications, and emphasizes elective courses in international trade and finance, economic development, financial economics, industrial organization, corporate governance, labor economics and public finance. Hunter MAs regularly move into interesting, well-paid positions in business, government, and international organizations. They are equally prepared to enter PhD programs at top-ranking universities.

Under the direction of professors who combine distinguished academic credentials with wide experience in economic research and applications, students studying for an MA at Hunter may participate in such major ongoing projects as: taxation, government spending, and economic growth; earnings of immigrants and minority groups; saving and investment in rural economies; taxation and the regional economy; social security and public welfare; tax competition; health out-comes; corporate investment and financial decisions; regulatory policy; corporate control; location choices of immigrants.

The program is offered in the evening to accommodate students who hold full- and part-time jobs.

Requirements for Admission

Applicants to the MA program in economics must provide their scores on either the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT). In addition to the other general requirements for graduate admission to Hunter, the following departmental requirements must be met: at least 18 credits of undergraduate courses in economics, at least 9 credits of undergraduate courses in mathematics, and two letters of recommendation from college teachers, including one from a member of an economics department. The credits in economics must include at least six in principles of economics, and at least three in each of the following courses: economic statistics, introductory econometrics, intermediate microeconomics, and intermediate macroeconomics. The credits in mathematics must include two semesters of calculus and one of matrix algebra. Intermediate microeconomics, intermediate macroeconomics, introductory econometrics, calculus I and II, and matrix algebra are prerequisites for required courses in the MA program.

Students who have not completed these courses at the time of admission will be required to complete the needed course(s) during their first semester at Hunter. (Completion of such courses cannot be counted towards the MA.)

Requirements for the Degree

Of the 30 credits required for the degree, at least 24 must be devoted to courses in economics. The remaining 6 may be taken in related fields with permission of the department. All candidates are required to complete the following.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 70300 - Macroeconomic Theory

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public

policies on employment, inflation and economic growth.

prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B

prereq or coreq: MATH 15500

ECO 72100 - Economic Statistics

Rigorous statistical foundation for the study of econometrics. Topics include probability theory; asymptotic theory; parameter estimation; hypothesis testing; least squares regression; matrix algebra.

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B

prereq or coreq: MATH 15500

ECO 72200 - Econometrics

Econometric methods for single equation models; ordinary least squares, generalized least squares, and variance estimation; maximum likelihood and limited dependent variables.

prereq: ECO 72100

prereq or coreq: MATH 16000

The degree can be earned in two ways:

1. Completion of 27 credits of course work and 3 credits of Thesis Research. Students must submit a satisfactory master's thesis written under the supervision of a member of the economics faculty.
2. Completion of 30 credits of course work. Students must prepare a supervised extended research paper in two of their courses and earn at least a B+ on each paper.

English

About the Department

Students make the choice to pursue graduate study in English for a number of reasons, both professional and personal, and bring to this study a wide variety of experiences and strengths. MA programs in English at Hunter are designed with this intellectual and practical diversity in mind. Through study with the Department's research-inclined and pedagogically committed teaching faculty, our students are afforded myriad opportunities to develop and practice more sophisticated reading, writing and research skills than those required at the undergraduate level. In addition, those who enroll receive guidance in improving their own expertise as not just scholars but teachers of literature. Interested students may choose an English - MA in British and American Literature, an MA in Adolescent English - MA / Advanced Certificate, or a Creative Writing - MFA .

Programs and Courses for MA and Creative Writing MFA Degrees

Programs and Courses in English

Program for Teachers of Adolescent Education (Grades 7-12) – English MA

See the School of Education section of this catalog for additional information on admission and program requirements. The School of Education also offers an Advanced Certificate in Adolescent Education for holders of an English MA.

- Adolescent English - MA / Advanced Certificate

Doctor of Philosophy

The PhD program in English is based at the City University Graduate Center. See Bulletin of the Graduate Center for a description of the PhD program and the complete list of courses. See also the Graduate Center website <http://www.gc.cuny.edu/>

Faculty

Tanya Agathocleous, Associate Professor; PhD, Rutgers; 19th and 20th century British literature and Culture, Global Anglophone literature

Meena Alexander, Distinguished Professor; PhD, Nottingham; Creative Writing, Romantic Poetry, Post-colonial Literature

Cristina León Alfar, Associate Professor; PhD, Washington; Shakespeare, Early Modern Drama, Critical Theory, Women's Studies

Jeffrey Allred, Associate Professor; PhD, Pennsylvania; American Literature, Modernism, American Studies, Visual Culture

Kevin Black, Assistant Professor; PhD, California at Berkeley; Literature from the Restoration to the present; 19th century British and American Literature

Peter Carey, Distinguished Professor; Fiction Writing

Sarah Chinn, Associate Professor; PhD, Columbia; American Literature, Gay and Lesbian Studies

Chong Chon-Smith, Assistant Professor; PhD, California at San Diego; Asian American Studies, American Studies, Cultural Studies, Visual/Film Studies, Comparative Ethnic Studies

Rebecca Connor, Associate Professor; PhD, Stanford; 18th-century British Literature, Visual and Material Culture

Louise DeSalvo, Jenny Hunter Professor of Creative Writing; PhD, NYU; Modern British Fiction, Creative Writing, Biography and Memoir

Michael Dowdy, Assistant Professor; PhD, North Carolina; 20th century American Poetry, Literary Theory, Latino/a Literature, 20th century Latin American Poetry

Jeremy Glick, Assistant Professor; PhD, Rutgers; Contemporary Drama, African Diaspora and Caribbean Literature

Karen Greenberg, Professor; PhD, NYU; Theoretical and Applied Linguistics, Contemporary Rhetorical and Composition Theory, Multimedia

Lynne Ann Greenberg, Associate Professor; PhD, CUNY; Milton, 17th-century British Literature and Law

Wendy Hayden, Assistant Professor; PhD, Maryland; Rhetoric and Composition, Women's Studies

Marlene Villalobos Hennessy, Associate Professor; PhD, Columbia; Chaucer, Old and Middle English Literature, Medieval Women, Medieval Manuscripts, History of the Book, Medieval Religious Culture

Gavin Hollis, Assistant Professor; PhD, Michigan; Shakespeare, Early Modern Drama

Nico Israel, Associate Professor; PhD, Yale; 20th-century Literature, Literary Theory, Visual Culture

Candice Jenkins, Associate Professor; PhD, Duke; African-American Literature, 20th-century American Literature

Leigh Ann Jones, Assistant Professor, PhD, Arizona; Ancient and 20th century Rhetoric, Nationalism Studies, Gender Studies, Performance Studies, Composition Theory and Pedagogy

Richard Kaye, Associate Professor; PhD, Princeton; 19th-century British Literature, Queer Theory, History of the Novel

Jan Heller Levi, Associate Professor; BA, Sarah Lawrence; Creative Writing, 20th-century American Poetry, Women's Studies

Harriet Luria, Associate Professor; EdD, Columbia; Applied Linguistics, American Literature

Ramesh Mallipeddi, Assistant Professor; PhD, Cornell; Restoration and 18th century British literature; Sentimentalism, Colonial and Postcolonial studies, Critical Theory

Donna Masini, Associate Professor; MA, NYU; Creative Writing, Contemporary Poetry

Mark Miller, Assistant Professor; PhD, Pennsylvania; Early American Literature, Native American Literature, Critical Theory

Janet Neary, Assistant Professor; PhD, California at Irvine; 19th century African American Literature and Visual Culture, Cultural Studies, Critical and Feminist Theory

Kate Parry, Professor; EdD, Columbia; Language and Culture, Literacy, History of English

Sonali Perrera, Assistant Professor; PhD, Columbia; Post-Colonial Literature

Angela Reyes, Associate Professor; PhD, Pennsylvania; Linguistics, Sociolinguistics, Urban Linguistics, Discourse Analysis, Linguistic Anthropology, Ethnography, Video, Asian American Studies, Education

Amy Moorman Robbins, Assistant Professor; PhD, California at Riverside, 20th century American Poetry and Literature, Feminist Theory, Multicultural American Literature

Gary Schmidgall, Professor; PhD, Stanford; Renaissance Poetry, Shakespeare, Oscar Wilde, Walt Whitman, Gay Studies

Jenefer Shute, Professor; PhD, UCLA; Creative Writing, Contemporary Fiction and Drama

Thomas Sleight, Distinguished Professor; MA, Johns Hopkins; Creative Writing, Contemporary Poetry

Trudith Smoke, Professor; PhD, NYU; Rhetoric and Applied Linguistics, American Literature

Michael Thomas, Assistant Professor; MFA Warren Wilson; Fiction Writing, Creative Non-fiction, 20th century Fiction

Neal Tolchin, Associate Professor; PhD, Rutgers; American Literature, Ethnic Literature

Sylvia Tomasch, Professor; PhD, CUNY; Chaucer, Medieval Literature, Rhetorical Cartography, Medieval Ethnic Studies

Alan Vardy, Associate Professor; PhD, Washington; Romanticism, Literary Theory

Barbara Webb, Associate Professor; PhD, NYU; African-American Literature, African-Caribbean Literature, African Literature

David Winn, Assistant Professor; MA, Colorado; Creative Writing, Modern American Fiction

Jason Wirtz, Assistant Professor; PhD, Michigan; Rhetoric and Composition, Creative Writing, English Education

Creative Writing - MFA

Hunter's Creative Writing MFA is a highly selective program in which students work closely with distinguished writers to perfect their writing skills. The course comprises workshops, craft seminars, one-on-one supervisions with faculty, and literature classes. There are three concentrations, fiction, creative nonfiction and poetry, with 12 students in each. Each year, several students are named Hertog Fellows (fiction and nonfiction) and Friedman Scholars (poetry). These students receive a generous stipend and are paired with well-established writers, for whom they conduct research for one semester.

Departmental Requirements for Admission

Candidates must have completed a BA or equivalent at an accredited institution. In addition to the Hunter College application, the candidate must submit a creative writing manuscript (10-20 pages of poetry or 20-30 pages of fiction or creative nonfiction) and a 500-word personal statement describing the candidate's relationship to his/her creative work, literary influences, and why the MFA would be beneficial to the candidate's writing career. In addition, creative nonfiction candidates must submit a 500-word memoir proposal. The GRE is not required.

Departmental Requirements for the Degree

Each candidate must complete an approved program of study of at least 36 credits, which must include:

1) Four writing workshops in chosen genre

2) Six courses in MA literature and/or MFA craft seminars in chosen genre

3) One course in Writing in Conference

ENGL 79800 - Writing in Conference

Individual tutorial directed by a member of the writing faculty.

Hours 45 hrs,

Credits 3 cr

To be taken in sequence with ENGL 79900 (MFA Thesis).

-or-

ENGL 79701 - Poetry Thesis One

This course gives students the conceptual framework to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time.

prereq: ENGL 79101 and ENGL 79403

Hours 3

Credits 3

Second Year MFA students only

4) One course in MFA thesis

ENGL 79900 - MFA Thesis

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

Hours 45 hrs,

Credits 3 cr

To be preceded in sequence by ENGL 79800 (Writing in Conference).

-or-

ENGL 79702 - Poetry Thesis Two

This course is a continuation of Thesis One and gives students the conceptual framework with which to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time. To this end, this course begins with an exploration of the history of the Modern Poetic Sequence and the Long Poem.

prereq: Workshop 79101 and Craft 79403 , Thesis One 79701

Second Year MFA students only

Master of Fine Arts Thesis

The candidate must submit a satisfactory master of fine arts thesis consisting of either 40-60 pages of poetry or 75-125 pages of short stories, novella or novel-in-progress (for fiction candidates) or 75-125 pages of personal essays or

memoir (for creative nonfiction candidates), which will be approved by two members of the writing faculty. Two copies prepared for binding are required.

English - MA

The MA program in British and American literature offers opportunities for both professional advancement and personal development. It may be taken as a terminal course of study or as preparation for doctoral work in English or other humanities fields. In addition to the usual lecture, discussion, and seminar classes, the program offers reading tutorials and the opportunity for writing a research essay under the guidance of a senior faculty member.

Admission Requirements

In addition to the general requirements for admission, the following departmental requirements must be met: 18 credits of advanced undergraduate courses in British and American literature (exclusive of courses in journalism and writing), a writing sample of about 10 pages (preferably an undergraduate research paper) and the GRE General Test. Students who have done their major work in English in non-English-speaking countries are usually not eligible for admission to graduate courses in English without additional undergraduate preparation in an American college or university.

Degree Requirements

Courses

Each candidate must complete an approved program of study of at least 30 credits, which must include ENGL 78900 (Master's Thesis). We strongly recommend that students take ENGL 78700 (Studies in Literary Theory and Criticism) in their first or second semester. Courses other than those offered in the Department of English may be credited toward the 30 credits with the approval of the graduate adviser but they may in no case exceed 6 credits. Six credits of relevant graduate work done at another institution may be credited when approved by the graduate adviser.

ENGL 78700 - Studies in Literary Theory and Criticism

An in-depth investigation of foundational and current trends in literary theory.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Foreign Language

The candidate must demonstrate a reading knowledge of French, German, Latin or Spanish. Another language may be substituted with the approval of the graduate adviser.

Comprehensive Examination

The candidate must pass a written comprehensive examination in British and American literature.

Master of Arts Thesis

The candidate must submit a satisfactory master of arts thesis, incorporating original work and research, which will be approved by two appropriate members of the faculty and the graduate adviser. Two copies prepared for binding are required.

Nonmatriculants

After applicants have been accepted by Hunter College as nonmatriculant students, their records must be evaluated prior to registration by the graduate adviser before they can be admitted to English Department courses. Acceptance by Hunter College does not guarantee acceptance by the Department of English. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

Film and Media Studies

About the Department

With a world class faculty and up-to-date production facilities, Hunter College's Department of Film & Media Studies offers two undergraduate programs of study. One program leads toward a major in Film, combining film history and theory with film production. The other leads toward a major in Media Studies, combining critical media analysis with creative practice using a mix of contemporary media forms (video, print, digital graphics and the Internet).

The department's graduate degree, and MFA in Integrated Media Arts, focuses on politically and socially engaged creative work and the social role of media and technology. Our program educates multi-disciplinary media professionals, socially aware and competent in the diverse range media skills that are being brought together in a digital media environment.

Kelly Anderson, Assistant Professor; BA, Brown; Film and Video Production, Digital Editing

Stuart Ewen, Distinguished Professor; PhD, SUNY; Social and Cultural History, Visual Culture, Graphics

Michael Gitlin Assistant Professor; BA Indiana, MFA Bard, Film and Video Production

Tami Gold, Professor; BA, Friends World College; Documentary and Dramatic Video Production, Video Art

Steve Gorelick, Professor: PhD, CUNY; Media Studies, media and violence

William Herman, Assistant Professor; Ph.D, .Penn, Media Policy, Copyright & digital rights, Media and Culture

Mick Hurbis-Cherrier, Professor; MFA, Northwestern; Film and Video Production, Screenwriting

Martin Lucas, Lecturer; BFA, NYU; Film & Video Production, New Media, Digital Culture.

Andrew Lund, Associate Professor; MFA, JD Columbia; Directing, Screenwriting, Film and Video Production, Entertainment Law

Ivone Margulies, Professor; PhD, NYU; Issues of Realism in Film and Video, Feminist Film Criticism, Experimental Film and Video

Peter Parisi, Professor; PhD, Indiana; Literary Journalism, News Narrative, Criticism

Isabel Pinedo, Professor; PhD, CUNY; Media and the Public Sphere; Media and Society

Tim Portlock, Associate Professor; MFA University of Chicago; MFA University of Illinois at Chicago; Digital Imaging; Real Time Graphics; 3D Modeling

Bernard L. Stein, Professor; BA, Columbia; Journalism

Shanti Thakur, Assistant Professor: MFA Temple; Film Production, Film Theory and Aesthetics.

Ricardo Zuniga, Assistant Professor, MFA, Carnegie Mellon; Interactive Media Production, Digital Cultural Studies.

Integrated Media Arts - MFA

The MFA Program in Integrated Media Arts offers advanced studies in nonfiction media making, using state-of-the-art digital technologies. Unlike most graduate media programs, which train students in specific media crafts, this program is one of the first in the nation to educate multi-disciplinary media professionals, socially aware and knowledgeable in the wide range of media skills that are brought together in the digital media environment.

Hunter's MFA in Integrated Media Arts offers a 48-credit course of study, combining analytical seminars, interdisciplinary research and creative workshops in writing, visual communication, and media distribution and exhibition. Building on a foundation of research and analysis, MFA students explore and create new ways to advance information and ideas, balancing critical thinking with aesthetics, theory with practice, traditional methods with new technologies, contemporary issues with an historical perspective. They also engage in collaborative production labs at Hunter or external industry creative residencies that are calculated to provide hands-on understanding of real world media environments.

Hunter's MFA/IMA educates students who will be prepared to assume positions of creative leadership in the professional media world. In this program, a coming generation of media makers trains to become tomorrow's preeminent communicators, twenty-first century pamphleteers employing new digital media to inform, enliven and extend the possibilities of the public square.

Admissions Requirements

Students are accepted into the program for fall semester enrollment only. February 1st is the closing date for completed fall applications. The MFA/IMA Program is highly selective, enrolling only 15-20 students each year. Applicants are expected to present the following:

- A bachelor's degree, with a minimum GPA of 3.0 on a 4.0 scale.
- 3 letters of recommendation from people able to comment on an applicant's creative and academic talent and determination.
- A portfolio of media works, indicating talent and promise. Submitted works may include videos and films, interactive digital design, photography, sound, graphic design, journalistic writings, etc.
- A personal statement describing the applicant's long-term objectives as a media maker and the social impact they hope their work will have. Statements should also explain why Hunter's MFA Program in Integrated Media Arts is particularly relevant to the applicant's creative goals.
- An official transcript of undergraduate studies.
- A completed graduate application form
- Applicants whose native language is not English must take the Test of Written English (TWE) component of the TOEFL examination.

Degree Requirements

The coursework in IMA is organized under five broad aspects of media study. They are:

Analytical Seminars

Where an intellectual foundation for socially aware and ethically responsible media work is an overarching objective

IMA 70100 - Social and Historical Roots of Mass Culture

A study of the social and historical context that propelled and was influenced by the media from 15th century to present. This seminar is a core requirement of the program.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70200 - The History of New Media

An exploration of the history of digital internet-based media, as well as the convergence and integration of emerging media with film, print media, radio and television and its effects on culture.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71500 - Media and the Public Sphere

An examination of notions of the public sphere and democracy in relation to historically evolving forms of mass media.

prereq: IMA 70100

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70400 - Communications and the City

Urban imagery in mass media and its varying relations to problems of urban life.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70500 - Social Class, Racism and the Media

Analysis of interrelations between social classes, racism and the media.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71300 - Visible Evidence: Realist Strategies in Film, Video and TV

An examination of the representational strategies through which film, video and TV images achieve verisimilitude, the appearance of transparently and objectively displaying reality.

prereq: IMA 70100

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70800 - International Communication in the Contemporary World

Current problems and issues of international communications.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70900 - History and Criticism of the Documentary

A historical and critical examination of nonfiction film and video from Lumiere to the present.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71000 - Alternative Media: Examples and Experiences

Review of the history and role of small-scale alternative media. Includes critical readings, viewing and critique.

Hours 2 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71200 - Feminist Approaches to the Mass Media

A historical perspective on feminist cultural theories as they have addressed the representation of women in American mass culture.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 71300 - Social Inequality and the Media

An examination of the relation between the media and class, race and gender inequality.

Hours 3

Credits 3

IMA 78029 - Disease and Disaster in Media and Culture

Using examples from traditional media and digital culture, students explore the social, historical, and economic context in which apocalyptic notions of a world on the verge of catastrophe and disaster emerge.

Hours 2

Credits 3

IMA 78030 - Media and Law

This course focuses on the legal foundations and principles connected with narrative and documentary film. Students examine doctrinal approaches to intellectual property rights and their effects on technical innovation, democratic debate, cultural formation and international politics.

Hours 2

Credits 3

Interdisciplinary Research

In an ancillary field, an approved graduate level seminar or formal independent study project with a faculty member in an appropriate department other than Film and Media and/or interdisciplinary program at Hunter, The Graduate Center, another CUNY graduate program, or at an approved graduate institution outside CUNY

Words Workshops

Where writing for the media is an essential focus

IMA 72100 - Online Journalism

The Internet provides journalists with new sources of information, a major news beat in itself and innovative forms of publication. This course explores each of these dimensions with the goal of enabling students to use the Internet for journalistic research and report in depth on its cultural, legal and economic dimensions.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72200 - Literary Journalism

The criticism and practice of literary journalism, i.e., factual reporting rendered with the qualitative detail and vividness of imaginative writing.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72300 - Public Interest Journalism

A study of critiques of journalism's alleged failure to serve the public interest as the basis for a variety of news writing assignments designed to represent social issues with fuller context and nuance.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 72400 - Research and Writing for the Documentary

Research and writing proposals, treatments, budgets and production plans for video documentaries.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78043 - Neighborhood News

Students write articles for a community newspaper, the Hunts Point Express, and accompanying website, (www.huntspointexpress.com). As reporters, students spend time in the South Bronx to research stories on topics that include environmental justice issues, education, housing, health, jobs, gentrification and crime. Work may include multimedia component.

Hours 4

Credits 3

IMA 78052 - Story Strategies

This course examines a broad range of approaches to storytelling in the fictional narrative feature film. Students will closely examine tactical narrative elements including dramatic structure, character/voice, time, tone and genre in conventional and alternative work. Students will develop treatment and beginning of an original screenplay. Satisfies WORDS cluster requirement.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79551 - Advanced Studio - Words

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of written work. Independent work and individual meetings are required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies WORDS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Visions Workshops

Where the visual communication of ideas and information is a comprehensive goal

IMA 70300 - Documentary Expression

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

prereq: none

Hours 4

Credits 3

Material Fee: \$20

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74100 - Nonfiction Video Production

This workshop will guide students through the process of developing and producing a documentary video project.

prereq: IMA 76000, IMA 74000 or permission of instructor

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4 hrs,

Credits 3 cr

Material Fee: \$20

IMA 74200 - Web Documentary

The production of nonfiction narratives for the Internet. Students explore how social issues can be explored in new media formats including games and hypertext.

This course may be counted towards the VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74300 - Collective Documentary

This production workshop involves the student in all aspects of a collectively produced documentary that explores a general theme or issue, with all students producing segments for the project. The workshop also examines the theoretical issues of truth, authorship, subjectivity and storytelling in the documentary form.

Satisfies VISIONS cluster requirement

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74400 - Digital Design: Print and Interactive Media

In this studio workshop course, the communicative capacities of various digital design formats and techniques will be creatively applied to the creation of four functional design projects.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 74700 - Digital Editing Workshop

Technology and principles of digital non-linear editing; its distinctive features and creative potential for both sound and image. Students are expected to bring projects, produced in previous classes, to a fine cut stage.

Satisfies VISIONS cluster requirement

prereq: IMA 74000, IMA 74100 IMA 76000 or permission of instructor

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4

Credits 3

Material Fee: \$20

IMA 78017 - Microcultural Incidents: Ethnography & Experimental Media

A production course in which students explore the intersection of ethnographic and experiment in film and video practices. Readings, screenings and discussion include experiment and media and visual anthropology.

Satisfies VISIONS cluster requirement

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78021 - Media, Community Advocacy & the Urban Environment

In this workshop students collaborate with students in the Urban Affairs & Planning Department to develop media aimed at helping local groups and improving the quality of local environments, and explore impact of media on community stakeholders and policy-makers.

Satisfies VISIONS cluster requirement.

prereq: IMA 74000, IMA 76000 or permission of instructor.

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79561 - Advanced Studio - Visions

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of work in visual media. Independent work and individual meetings are required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies VISIONS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Channels Workshops

Where designs for exhibition and distribution of media work, for publicizing ideas, and for using media to enhance the quality of community interaction are key objectives

IMA 76000 - Tools and Techniques of Digital Production

A hands-on workshop in core digital media production, including image acquisition, creation and editing; video editing and encoding; and multimedia delivery on the web. It is designed to give students a basic introduction to the tools and techniques used in the Integrated Media Arts program. Satisfies VISIONS or CHANNELS cluster.

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4

Credits 3

Material Fee: \$20

IMA 76200 - Interactive Expression

Aesthetics and techniques of Web-site and interactivity design, encompassing both graphic presentation and information architecture. Satisfies VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 76300 - Advanced Interactive Expression

The production of websites incorporating animation, sound and video. This course may be counted towards the VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000, IMA 76200 or permission of instructor

Hours 4 hrs,

Credits 3 cr

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 76600 - Three Dimensional Virtual Environments

An introduction to fundamental skills and creative approaches for the development of computer generated 3D interactive virtual environments. Satisfies CHANNELS cluster requirement

prereq: IMA 76000 or permission of instructor

Hours 3

Credits 3

IMA 78046 - Three Dimensional Modeling & Animation

This hands-on production course examines essential concepts and practices that form the basis of 3D animation. Includes critical readings, viewing and critique. Satisfies CHANNELS cluster requirement

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78081 - Sound Environments

An exploration of contemporary issues and techniques of sonic media. Course explores critical writings in music history, sound and media theory while students experiment with designing linear and non-linear sound installations. Satisfies CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 4

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79571 - Advanced Studio - Channels

Provides students the opportunity to participate in group and individual critiques with MFA faculty. Particular emphasis will be on creating a strong body of work in emerging media. Independent work and individual meetings are required in this course. Students must present a project for approval by the instructor before registering for the course. Students are allowed to take this Advanced Studio a maximum number of 3 times for credit with different projects. Satisfies CHANNELS cluster.

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Capstone and additional courses complete the program

To fulfill the 48-credit degree requirement, the student must take:

IMA 70100 - Social and Historical Roots of Mass Culture

A study of the social and historical context that propelled and was influenced by the media from 15th century to present. This seminar is a core requirement of the program.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

- At least two additional ANALYTICAL seminars 6 credits
- Interdisciplinary Research in ancillary field 3 credits
- Ten workshops within: WORDS, VISIONS*, CHANNELS* 30 credits

IMA 78100 - Collaborative Media Project/Creative Residency

Hours and in-house project or external creative residency must be defined in conjunction with graduate adviser. The project or creative residency must involve collaboration among different media makers.

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78800 - Master of Fine Arts Thesis Project

This project must be completed satisfactorily before graduation. Project must incorporate elements from all three creative clusters as well as a critical component.

Credits 3

Approval of graduate adviser required. Non-matriculated students require permission of instructor for enrollment in any MFA/ IMA course.

Additional Courses

IMA 78025 - Media and the Public Sphere

This analytical course explores notion of the public sphere and public debate in light of television and the Internet's actual and potential roles as forums for discussion of civil society issues.

Hours 2

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78048 - Culture Jamming

Theory and technique of art and design strategies that subvert popular media frameworks. Students will learn non-traditional methods of circulating messages which circumvent or critique mass media communications. Satisfies VISIONS or CHANNELS cluster requirement.

prereq: IMA 76000 or permission of instructor

Hours 3

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78051 - Non-linear Storytelling

This workshop examines different types of non-linear narrative as students develop stories for non-linear forms. Students study the representation of memory and time in documentary and fictional forms, and look at how emerging media enable multiple forms of storytelling through hypertextual, collaborative and networked environments. Satisfies CHANNELS cluster requirement.

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78053 - Interactive Installation

Students work collaboratively to create projects integrating video, sound and movement. Lectures focus on usability design, coding concepts, and interface design. Satisfies CHANNELS cluster requirement

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78056 - Grant Writing

In this workshop students pitch ideas, develop proposals, as well as examining strategies for researching funding sources and developing creative approaches for their projects.

Satisfies WORDS cluster requirement

Hours 3

Credits 4

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79000 - Independent Study

Rubric for student's independent study.

Hours Hrs to be arranged.

Credits 1

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79100 - Independent Study

Rubric for student's independent study.

Hours Hrs to be arranged.

Credits 2

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 79200 - Interdisciplinary Research

Rubric for student's interdisciplinary research requirement.

Hours Hrs to be arranged.

Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Note(s)

*The following is a prerequisite for all interactive media courses and may be counted towards **VISIONS** or **CHANNELS** cluster requirement

IMA 76000 - Tools and Techniques of Digital Production

A hands-on workshop in core digital media production, including image acquisition, creation and editing; video editing and encoding; and multimedia delivery on the web. It is designed to give students a basic introduction to the tools and techniques used in the Integrated Media Arts program. Satisfies VISIONS or CHANNELS cluster.

prereq or coreq: Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Hours 4

Credits 3

Material Fee: \$20

Students must take at least two courses and no more than four courses within each creative cluster. Some workshop courses may qualify within more than one cluster as indicated in the course description.

Total for MFA in IMA 48 credits

Geography

About the Department

The Hunter College Department of Geography is the largest and one of the most technologically advanced geography programs in the New York City metropolitan region. The M.A. program serves New York City's and New York State's needs for educated geographers and geography/earth science teachers; supports the development of geographical databases and analytic tools to improve the social, environmental, and economic well being for New York and its citizens; and serves as a pioneering center in advancing the careers of underrepresented groups in geography and related fields.

Facilities

The Department of Geography has state of the art computer labs that are available to our students 24 hours per day / seven days per week. The labs' hardware, including computers and the high capacity network, is upgraded regularly to accommodate the most up-to-date versions of relevant software packages, including major GIS and remote sensing applications.

CARSI

The Center for Advanced Research of Spatial Information (CARSI) is a state-of-the-art geographic information science research laboratory. Funded in part by the City of New York, it maintains the New York City base map (NYCMap). The CARSI Lab is involved in a number of New York City-related, state and federal research projects as well as other projects where techniques of geographic information science and spatial analysis are used.

Programs and Courses

- Programs and Courses in Geography

Programs Offered in the School of Education

The Department of Geography contributes to three graduate level programs in conjunction with the School of Education: an M.A. Program for the Preparation of Teachers of Earth Science, an M.A. Program for the Preparation of Teachers of Social Studies, and a five-year combined BA/MA program in Environmental Studies and Adolescent Education in Earth Science. These programs provide certification for graduates to teach in New York State. The

combined BA/MA program requires students to fulfill the requirements of the Department of Geography BA in Environmental Studies along with the School of Education's requirements. For more information on these programs, please check the web page of the School of Education <http://www.hunter.cuny.edu/school-of-education> or contact the Department of Geography.

Earth Science MA—Program for Teachers of Adolescent Education (Grades 7-12)

See the School of Education section of this catalog for additional information on admission and program requirements.

- Adolescent Earth Science - MA / Advanced Certificate

Social Studies MA—Program for Teachers of Adolescent Education (Grades 7-12)

See the School of Education section of this catalog for additional information on admission and program requirements.

- Adolescent Social Studies - MA / Advanced Certificate

BA/MA Program in Environmental Studies and Adolescent Education

- BA/MA in Environmental Studies and Adolescent Education.

Doctor of Philosophy

The Department of Geography participates in the PhD Program in Earth and Environmental Sciences based at the CUNY Graduate Center. Students in this program may select Hunter College as their “home” college and geography as their specialty. Since 2005 this program has a separate track in geography. For application forms and further information, write to: Executive Officer, PhD Program in Earth and Environmental Sciences, CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016 or go to <http://web.gc.cuny.edu/Ees/home.html>

Faculty

Sean Ahearn, Professor and Director, Center for Advanced Research of Spatial Information (CARSI); PhD, Wisconsin (Madison); agent-based models, space-time analysis, digital image analysis, ecological modeling, emergency response, urban geographic systems

Jochen Albrecht, Associate Professor; PhD, Vechta (Germany); Dynamic or process GIS, spatio-temporal analysis, landscape ecology, crime and health applications

Frank Buonaiuto, Assistant Professor; PhD, SUNY (Stony Brook); Oceanography, coastal processes, numerical modeling of waves, tides and sediment transport

Allan Frei, Associate Professor; PhD, Rutgers; Climate change, snow and Water resources, modeling

Hongmian Gong, Associate Professor; PhD, Georgia; Urban geography, GIS, transportation, China

Charles A. Heatwole, Professor; PhD, Michigan State; Cultural, recreation, religion, geographic education

Mohamed Ibrahim, Assistant Professor; PhD, Alberta; Environmental studies, resource management, sustainable development, Africa, rural water supply and sanitation

Teodosia Manecan, Lecturer; PhD, Bucharest; Igneous and metamorphic petrology, geology of NYC

Peter Marcotullio, Associate Professor; PhD, Columbia; Global Cities, Urban environmental transitions, globalization and urban development, ecosystem approaches to urban and regional environmental planning and management and impacts of urbanization on the environment

Ines Miyares, Professor and Chair; PhD, Arizona State; Geographies of immigration and ethnicity, spacial impacts of immigration and refugee law, Latin America - Andean Peru

Wenge Ni-Meister, Associate Professor; PhD, Boston; Remote sensing, land-atmosphere interaction, meteorology, climatology, biogeography

Rupal Oza, Associate Professor; PhD, Rutgers; Race, gender, postcolonial theory, feminist theory, cultural studies, social theory, globalization

Marianna Pavlovskaya, Associate Professor; PhD, Clark; Urban geography, post-socialist Russia, gender and class, feminist geography, geographic information science (GIS), social implications of GIS

Randy Rutberg, Assistant Professor; PhD, Columbia; paleoclimatology, oceanography, geochemistry, environmental science, environmental public policy

Haydee Salmun, Associate Professor; PhD, Johns Hopkins; Oceanography, global climate, environmental fluid dynamics, land surface-atmosphere-ocean interface

William Solecki, Professor; PhD, Rutgers; Urban environmental change and management, land Use/land cover studies, GIS Applications

Karl Szekielda, Research Associate Professor; PhD, Marseille; Remote sensing, oceanography, harmful algae blooms

Traci Warkentin, Assistant Professor; PhD, York; Environmental and geographic education, environmental ethics, animal studies, environmental feminism, environment and culture, phenomenological biology

Affiliated Faculty

Saul B. Cohen, University Professor Emeritus and Regent of the State of New York; PhD, Harvard; Political Geography, Middle East, Geography and Psychology, International Development, Geographic Education

Vinay Gidwani, Professor of Geography; PhD, Berkeley; Post-Socialism and Justice, Labor Geographies, Marxism, Identity Politics and Subaltern Social Movements, Geographies of Work, Agroecological Transformations, Social Theory, India

Roger A. Hart, Professor of Environmental Psychology, Developmental Psychology and Geography; PhD, Clark; Children's Geographies and the Geography of Children, Participatory Community Development, The Political Participation of Children and Youth

David Harvey, Distinguished Professor of Anthropology; PhD Cambridge, UK; Geography and Social Theory, Urban Political Economy, Uneven Geographical Development

Cindi Katz, Professor of Geography; PhD, Clark; Cultural Geography, Social Reproduction and Everyday Life, Children's Geographies, Urban Geography, Gender and the Environment, Nature and Society

John E. Seley, Professor of Environmental Psychology and Earth and Environmental Sciences; PhD, Pennsylvania; Urban Geography; GIS for Policy, the Nonprofit Sector

Neil Smith, Distinguished Professor of Anthropology and Geography; Ph.D, Johns Hopkins; Political Economy, Urban Geography, History of Geography, Global Restructuring

BA/MA in Environmental Studies and Adolescent Education.

The Geography Department together with the School of Education also offers a 5-year combined BA/MA Program in Environmental Studies and Adolescent Education. This program is designed for highly qualified Environmental Studies majors who, during the course of their sophomore year, decide to pursue a career in secondary school teaching. For more information please contact the Department of Geography.

Geographic Information Science Post-Baccalaureate Certificate

Return to: Geography Department

The Post-Baccalaureate Certificate Program in Geographic Information Science was established in 2001 to meet the demand for people with expertise in GIS. The GIS Certificate program is a 15-credit post-baccalaureate professional program that offers advanced training in Geographic Information Science (GIS). Students are required to take five graduate-level GIS classes including GTECH 71000 (Introduction to GIS), GTECH 73200 - Advanced GIS (Advanced GIS), and three other GTECH or related courses. Students who are interested in GIS development are encouraged to take two programming-oriented classes (GTECH 73100 and GTECH 73300). Students planning a career in GIS applications are encouraged to choose from the wide range of applications courses. Students interested in remote sensing may take the sequence of GTECH 71100 through GTECH 71300 courses.

Courses taken to fulfill the requirements of the GIS certificate program may also count towards fulfillment of the Geography MA degree. This happens automatically for GIS certificate students who concurrently enroll as MA students. For students who enroll in the GIS certificate program prior to enrolling in the MA program, the student must request the transfer of credits. The GIS Certificate program does not accept transfer credits to satisfy the minimum 15 credits required for the program.

As the GIS certificate program is a non-degree program, GIS certificate students are considered "non-matriculated." Enrollment in the GIS certificate program does not guarantee eligibility for financial aid or for a student visa. For more information contact the United States Citizenship and Immigration Services (<http://www.uscis.gov/portal/site/uscis>).

Geography Department

Admission Requirements

For applicants who are currently matriculated and in good standing in a graduate-degree program at Hunter College, there is one requirement to be considered for admission:

The student must have passed a college-level statistics course that covers hypothesis testing and simple statistical modeling techniques.

All other applicants must meet the following minimum requirements in order to be considered:

1. The student must hold a bachelor's degree from a regionally accredited institution, comparable in standard and content to a bachelor's degree from Hunter College.
2. The student must demonstrate the ability to pursue graduate work successfully. In general, the minimum requirements for consideration are a B-minus average in the undergraduate record as a whole and a B average in the major.
3. The student must have taken a college-level statistics course which covers basics such as hypothesis testing and simple statistical modeling techniques.

Requirements for the Certificate

Completion of the post-baccalaureate certificate program in GIS requires a minimum of 15 credits, which include:

Required courses (6 cr.)

GTECH 71000 - Introduction to GIS

Thorough introduction to geographic information systems with an emphasis on spatial data handling and project management.

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73200 - Advanced GIS

Expansion of GTECH 71000 concentrating on advanced GIS functionality, data models, and algorithms.

prereq: GTECH 71000

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

Electives (9 or more cr)

GTECH 70200 - Multivariate Statistics in Geography

Multivariate analysis of spatial data; prediction, analysis and explanation of spatial and environmental phenomena; statistical software packages; lab exercises.

prereq: Introductory Statistics or equivalent or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71100 - Earth from Above

Use and interpretation of air photos and satellite remote sensing images as applied to agriculture, forestry, urbanization, oceanography and atmosphere; lab exercises.

Hours 60 (2 lecture and 2 hour labs weekly),

Credits 3

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor

Hours 60 hours (2 lecture and 2 hour labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71300 - Digital Image Processing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra

Hours 90 hrs including conference (2 lectures, 4 labs weekly),

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 72100 - Advanced Cartography

Material Fee:\$ 15

GTECH 72200 - Automated Cartography

Computer and other automated applications; theory and algorithms; production of computer-generated maps; lab exercises.

prereq: GTECH 71000 or equivalent

Hours 75 hrs including conference (1 lecture 4 labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73100 - Computer Programming for Geographic Applications

Object-oriented programming methods specific to geographic and cartographic applications; programming assignments; graphics. A programming language helpful but not required.

prereq: GTECH 71000 or equivalent

Hours 90 hrs including conference (2 lectures, 4 labs weekly),

Credits 4 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73300 - GIS: Modeling and Problem Solving

Theory and applications of geographic information science (GIS). Data models and advanced spatial and temporal modeling techniques are discussed and implemented in an object-based paradigm.

prereq: GTECH 73100 or equivalent, and GTECH 73200 and permission of the graduate adviser

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative

and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 785XX - GIS Applications

Selected topics in GIS applications to human and physical geographic problems.

prereq: GTECH 71000 or equivalent and permission of the department

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Equivalent GIS applications courses offered through other Hunter departments such as Public Health, Sociology, or Urban Planning.

Minimum GPA Requirement

3.0 average or better on all core and elective courses. Additional elective courses may be added to this list or may be used as substitutes with the approval of the GIS Certificate adviser.

Application Deadline

For fall semester: July 1 (April 1 for international students)

For spring semester: January 1 (November 1 for international students)

Return to: Geography Department

Geography - MA

Return to: Geography Department

The Department of Geography offers a Master of Arts in Geography with a range of courses in human geography, physical geography, regional geography, and geographic techniques and methods. There are four broad concentration areas: environmental studies, geographic information science, places and cultures, and urban geography studies. The program accommodates students with a variety of professional backgrounds, and with academic training in social sciences, computer science, environmental science / engineering as well as traditional geography.

The program emphasizes geographic theory, skills, and analytical methodologies in social, physical, and environmental geography, as well as geographic information science. A limited number of research, teaching, and college assistantships are available. The MA degree can be completed through either a thesis or a non-thesis option. Full-time students may be able to complete the M.A. within three semesters, but the average time for degree completion is three years. Many courses are offered in the evening to accommodate part-time and working students.

An MA in Geography from Hunter can lead to employment with local and national governments, international agencies, non-government organizations, corporations, consultants and information technology companies. The New York area is home to diverse urban

communities, dynamic economies and cultures, government structures of all levels (from local to international), and corporate headquarters. Located on Manhattan's upper east side, Hunter College is close to these activities. Students who wish to continue graduate work at the PhD level will find themselves well prepared and equipped with the research and technical skills necessary for advanced research.

Admissions Requirements

Admissions procedures are as established by the Hunter College Office of Graduate Admissions. Candidates must have a BA or BS or equivalent, an undergraduate GPA of at least a B minus, with a B average in the major, and (normally) the completion of at least 18 credit hours in geography. A lack of a background in geography will not impede admission, but the student is expected to gain basic knowledge of geography prior to graduation in consultation with the student's adviser. It is recommended that students enter the program with knowledge of basic statistics. All students are required to take the Graduate Record Examination. Foreign students whose first language is not English must take the Test of English as a Foreign Language. Two letters of recommendation are required.

If you have any questions about the information in this catalogue, please contact the Geography MA advisor (Prof. Allan Frei, afrei@hunter.cuny.edu)

Application Deadlines

For fall semester: April 1 (February 1 for international students) For spring semester: November 1 (September 1 for international students)

We encourage graduate application submissions by early deadlines of September 1 and February 1. This will help with allocation of scholarships and funding if these are available.

Requirements for the Degree

The Master of Arts consists of 31 or 36 graduate credits, depending on the program option chosen, selected from three types of courses: **GEOG**, **PGEOG** and **GTECH**. **GEOG** classes cover human geography, nature/society, and regional geography, while **PGEOG** classes cover physical geography and environmental science. **GTECH** courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing, and cartography. Classes vary in their structure from laboratory classes to lecture/discussions and seminars. Graduate courses outside of the **GEOG**, **GTECH** and **PGEOG** prefixes may be applied to the degree within the parameters listed below.

Students must complete a minimum of credits in one of the following options:

A. Thesis Option:

A minimum of 31 credits consisting of:

1. A minimum of 30 credits of course work consisting of

(exclusive of GEOG 799)

GEOG 70100, 70200, 70154 (7 cr)

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference

Credits 3

spring only

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,

Credits 1 cr

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

A minimum of 11 additional credits

A minimum of 11 additional credits selected from GEOG, GTECH and PGEOG courses.*

A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH or PGEOG courses as approved by the graduate adviser. **

2. One credit of the following leading to a thesis approved by the student's graduate advisers

GEOG 79900 - Thesis Research in Geography

Open to students electing the thesis option only.

prereq: GEOG 701 and permission of the department

1-6cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

3. Formal approval of a study proposed for thesis research.***

4. A completed thesis.

5. A formal presentation of the student's thesis research.

B. Examination Option:

A minimum of 36 credits consisting of:

1. Geography (7 cr)

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,

Credits 1 cr

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference

Credits 3

spring only

A minimum of 17 additional credits

A minimum of 17 additional credits selected from GEOG, GTECH, and PGEOG courses.*

3. A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH, and PGEOG courses as approved by the graduate adviser.**

4. A passing grade on the comprehensive examination

A passing grade on the comprehensive examination conducted by the student's graduate committee.

5. A research paper of publishable quality

A research paper of publishable quality prepared in the format of *The Professional Geographer* or its equivalent.

6. A formal presentation of the student's research paper.

Additional Information

Students who are accepted into the program, who have already earned credits with a grade of B or higher as nonmatriculated students, may transfer only two (2) courses or eight (8) credits, whichever is greater, from nonmatriculated status to matriculated status. In exceptional situations, up to 12 credits earned as a nonmatriculated student may be transferred to matriculated status.

Although both options may prepare students for additional graduate work, the thesis option is recommended for those who might wish to pursue the PhD in geography or an allied field. The examination option is recommended for students seeking a terminal MA.

Students who are accepted into the Geography MA program and register for courses may transfer up to a maximum of 9 credits of relevant graduate coursework from regionally accredited institutions, including courses taken at Hunter College while enrolled in another degree program, whether a master's degree was awarded or not. Transfer of credits is subject to review and approval by the Graduate Adviser. Applicants to this program should be aware that there is no promise of automatic transfer of credit on the graduate level. With the approval of the Graduate Adviser, students may include up to 9 credits of graduate-level courses taken outside the Department of Geography at Hunter College toward completion of their degree, including transferred courses and courses taken in other CUNY graduate programs. (Exception: students who have received their B.A. in Geography or Environmental Studies from Hunter College may, with the approval of the Graduate Adviser, include up to twelve credits taken outside the department.)

Language Requirement

A foreign language is not required for the MA in geography. However, students interested in regional studies or further graduate work are strongly encouraged to master a foreign language. Students emphasizing technical skills are strongly encouraged to master one or more computer programming languages.

Completion Time

The School of Arts and Sciences allows four years to complete a MA degree. A petition to the Dean is required to exceed the limit. Most full-time students are able to complete the MA requirements in 4 semesters or fewer. To accommodate all students, many courses are offered during the evening.

Assistantships

A limited number of teaching and research assistantships are available from the department. Students seeking assistantships should state so in their statement of purpose included with the application. They should also indicate what skills and qualifications they have for research or teaching assistance.

Note(s)

** Graduate students entering the program without a geography background will be required to take 6 credits in geography outside their principal area of concentration (GEOG, PGEOG or GTECH).*

*** Graduate students entering the program without a geography background will be limited to 6 credits taken outside the program. Students who were undergraduate majors in geography can appeal to the Graduate Committee to take more than 12 credits outside the program.*

**** Students must submit to their committee the proposal for thesis research no later than the end of the semester in which they finish their 20th credit in the program.*

Return to: Geography Department

History

About the Department

The department offers two graduate level programs in history. The first is a master's degree through a joint program with the School of Education. This degree prepares students for New York State certification, which will enable them to teach social studies at the adolescent level (grades 7 – 12). The second leads to an MA in History with a concentration selected by the student in consultation with the faculty. This degree serves as either a terminal degree or as preparation for historical study on the doctoral level, which students can undertake at other institutions.

Faculty

Angelo Angelis, Assistant Professor; PhD, CUNY; American colonial history, US Constitution

Richard Belsky, Associate Professor; PhD, Harvard; East Asian history, social and political history of Modern China

Manu Bhagavan, Associate Professor; PhD, Texas at Austin; modern South Asia, comparative colonialism and nationalism

Eduardo Contreras, Assistant Professor; PhD, Chicago: Twentieth-century US, US Latinos, urban politics, race and ethnicity, feminist/queer communities, liberalism and conservatism.

Devin Fergus, Assistant Professor; PhD Columbia: Twentieth-century US with emphasis on politics and society, race

Donna T. Haverty-Stacke, Associate Professor; PhD, Cornell; US labor history, urban history, cultural history

Thomas Head, Professor; PhD, Harvard; medieval history, history of pre-modern Christianity

Benjamin Hett, Professor; PhD, Harvard; German history, US legal history

Daniel Hurewitz, Assistant Professor; PhD, California at Los Angeles; Twentieth century US History; Queer History; politics of sexuality

Karen Kern, Associate Professor; PhD, Columbia; history of the Middle East, comparative imperialism and nationalism

Michael M. Luther, Associate Professor; PhD, Columbia; European history, history of Russia and Soviet Union, international relations, Soviet foreign policy, Russian intellectual history

Daniel Margocsy, Assistant Professor, PhD, Harvard: the scientific revolution, the Dutch Golden Age, material and visual culture

Bernadette McCauley, Associate Professor; PhD, Columbia; Twentieth-century US, immigration, ethnicity, health care, American Catholicism, history of medicine

Marta Petruszewicz, Professor; Laurea (dottorato), University of Bologna; modern European history, European economic history

Mary Roldán, Dorothy Epstein Professor of Latin American History and acting chair; PhD, Harvard; history of Latin America, history of Colombia

Jonathan Rosenberg, Associate Professor; PhD, Harvard; Twentieth-century US international history, civil rights

Robert M. Seltzer, Professor; PhD, Columbia; Jewish history, historiography, intellectual history

Laura Schor, Professor; PhD, Rochester; modern France, modern European Jewish History, European women's history

J. Michael Turner, Associate Professor; PhD, Boston; Nineteenth and Twentieth-century Latin American history, African history

Barbara Welter, Professor; PhD, Wisconsin; US History to Twentieth-century, American women, American religion

History - MA

The MA is offered either as a terminal degree or as the first year (30 credits) of work toward fulfilling the requirements of the PhD within the City University. The university's doctoral program in history is described in the Bulletin of the Graduate Center. <http://web.gc.cuny.edu/History/>

Advanced doctoral seminars and university colloquia are offered at the CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016.

Requirements for Admission

General admission requirements to the graduate programs in the arts and sciences are observed. Eighteen undergraduate credits in History, a 3.0 average, and satisfactory GRE scores are required, as well as two letters of recommendation.

Requirements for the Degree

Each candidate must complete an approved program of study of at least 30 credits, including the thesis seminar, with a B average. Students will be strongly encouraged to take the following two courses: HIST 78000 - History Colloquium for First-Year MA Students and HIST 79000 - Research Methods for First-Year MA Students, a colloquium and a research methods course. Courses other than those in the Department of History at Hunter College may be credited toward the 30 credits with the approval of the graduate adviser, but they may in no case exceed 9 credits.

A reading knowledge of one foreign language is required, to be determined by a written examination offered twice per year. The choice of language must have the approval of the graduate adviser.

After completion of all other requirements, the candidate for the degree must present a satisfactory master's thesis prepared in conjunction with the thesis seminar (HIST 77900), approved by two faculty scholars in the appropriate field of history and the graduate adviser. Guidelines for the writing of the master's thesis are available from the graduate adviser online and in the History Department office.

Mathematics and Statistics

About the Department

The Department of Mathematics and Statistics offers a choice of master's programs. The MA in Pure Math is a 30-credit degree. The course work largely mirrors the first two years of a doctoral program in Mathematics. Achievement of the degree includes a comprehensive examination. In addition students must show reading competency in a foreign language.

The MA Program in Statistics and Applied Mathematics is intended for students interested in applications to business, science, engineering, industry, biology, and medicine, as well as teaching and research. This is a 30-credit degree. There are three tracks.

Statistics is Track I, Applied Mathematics is Track II, and Bioinformatics is Track III. Achievement of the degree requires a final project as well as working knowledge of two computer languages. The final projects provide the student with the opportunity to investigate a problem whose outcome is not previously known. Our faculty mentor the projects.

The department also has combined BA/MA programs in Mathematics or Statistics and Applied Mathematics. In addition, the department offers, jointly with the School of Education, an MA in Adolescent Mathematics Education Grades 7-12, and a combined BA/MA in Adolescent Mathematics Education. The MA in Mathematics Education is designed for individuals without provisional certification in mathematics. Individuals who already have provisional certification in mathematics should pursue either the MA in pure mathematics or the MA in statistics and applied mathematics or the new Professional Certification Master's Program.

William H. Williams, Professor; PhD, Iowa State; Sampling Theory, Time Series, Econometrics

Mathematics Grades 7-12 Adolescent Education - BA/MA

Students interested in secondary school teaching may pursue a combined BA/MA program in teaching. This program requires a minimum of 141 credits.

Admission Requirements for the BA/MA in Teaching

1. Completion of at least 45 credits with a GPA of 2.8
2. Completion of at least 10 credits in mathematics, including a year of calculus (**MATH 150** and **155** or the equivalent), with an average of 2.7 in these major courses.
3. Admission to the School of Education

Degree Requirements for the BA/MA in Teaching

BA in Mathematics or Statistics

The 33 credits required for the BA in Mathematics **OR** the 32 credits required for the BA in Statistics, as described in the Undergraduate Catalog

Graduate Courses in Mathematics and Statistics

The following 15 graduate credits:

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged

Hours 45

Credits 3

Comprehensive Examination in Mathematics

Also required is a comprehensive examination in mathematics. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the Mathematics/Statistics Chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the student can take the exam a third and final time.

School of Education Courses

The student should consult the School of Education section of the graduate college catalog for the sequence of teacher education courses

Mathematics or Statistics and Applied Mathematics - BA/MA

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's degree requirements with a minimum of 120 credits. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the departmental graduate adviser for further information regarding eligibility and curriculum requirements.

Option 1: Accelerated BA/MA Program in Mathematics

Students complete the BA in pure mathematics with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

Option 2: Accelerated BA/MA Program in Statistics and Applied Mathematics

Students complete the BA in statistics or mathematics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.

Mathematics: Pure Mathematics - MA

Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in math. But there are always several with an undergraduate degree in a related topic and a few students, whose undergraduate background is completely unrelated. In both of these cases the students filled out their math background prior to applying for admissions.

Students use this program for various purposes. Many use their added math background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Admission Requirements for the MA in Pure Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. The Department's requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other fall semester in even numbered years The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

and at least one of

MATH 72200 - Modern Algebra II

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other fall semester in odd numbered years The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

or

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

Offered every spring semester

The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

2. Analysis Requirement

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and L_p spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 45

Credits 3

and at least one of

MATH 74200 - Analytic Functions

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

prereq: MATH 35300 or equivalent and departmental permission

Hours 3

Credits 3

Offered every other spring semester in even numbered years.

A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

or

MATH 74700 - Theory of Functions of a Real Variable II

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

Offered in alternate years during the summer session. The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74700, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

3. Geometry and Topology Requirement

at least one of

MATH 75100 - General Topology

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

prereq: advanced calculus or permission of Department

Hours 45

Credits 3

or

MATH 75000 - Calculus on Manifolds

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

prereq: MATH 26000 and MATH 35200 or permission of the instructor.

4. Elective Course Requirement (15 credits)

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department's course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

5. Written comprehensive examination

Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Note

For further information on the MA in Pure Mathematics, please contact Professor John Loustau: jloustau@msn.com.

Statistics and Applied Mathematics - MA

Three program sequences are available for the MA in Statistics and Applied Mathematics, Track I: Statistics and Track II: Applied Mathematics, Track III: Bioinformatics.

- Statistics and Applied Mathematics - Track I: Statistics
- Statistics and Applied Mathematics - Track II: Applied Mathematics
- Statistics and Applied Mathematics Track III: Bioinformatics

Statistics and Applied Mathematics - Track I: Statistics

Return to: Programs and Courses in Mathematics and Statistics

Admission Requirements for Track I: Statistics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (Math 260) and one semester of Multivariate Calculus (Math 250). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Statistics

Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 45 hrs,

Credits 3 cr

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

STAT 70700 - General Linear Models II

A review of multivariate linear model and maximum likelihood estimation. Nonlinear regression models. Logistic and Poisson regression models. Family of generalized linear models. Multidimensional tables. Odds ratio. Model selection and evaluation. Computer-based exploratory data analysis. Examples from the life sciences.

prereq: STAT 70600 or equivalent

Hours 45

Credits 3

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the **MATH 700** and/or **STAT 700** level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Project (3 credits, 1 course)

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 45

Credits 3

Note(s)

*For further information on the MA in Statistics, please contact Professor Edward Binkowski;
ed.binkowski@gmail.com*

**The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.*

***Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30 credit (10 course) total.*

Return to: Programs and Courses in Mathematics and Statistics

Statistics and Applied Mathematics - Track II: Applied Mathematics

Return to: Programs and Courses in Mathematics and Statistics

Most students in Track II do their project in differential equations. The context may be engineering or finance. The techniques may be from numerical analysis or statistics or a combination of these.

Admission Requirements - Track II: Applied Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (Math 260) and one semester of Multivariate Calculus (Math 250). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Applied Mathematics

Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

MATH 60100 - Mathematical Methods for the Physical Sciences

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

prereq: a course in ordinary differential equations

Hours 45 hrs,

Credits 3 cr

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and L_p spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 45

Credits 3

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 45 hrs,

Credits 3 cr

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The

analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the **MATH 700** and/or **STAT 700** level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Suggested electives are:

MATH 64200 - Introduction to Theory of Functions of a Complex Variable

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: a course in advanced calculus

Hours 45

Credits 3

MATH 68500 - Numerical Methods
