For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of science programs and curricula in grades 7–12 and formulate teaching methodology for the meaningful learning of science. Strong emphasis will be placed on teaching students with special needs and English language learners.

*Hours 45 hrs
Credits 3*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
Credits 1 cr*

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork,
Credits 2

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71500

prereq or coreq: SEDF 70500

Hours 30 hrs fieldwork

Credits 2

SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

SEDC 75100 - Student Teaching in English, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75201 - Student Teaching in French, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75202 - Student Teaching in Italian, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75203 - Student Teaching in Spanish, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75401 - Student Teaching in Biology, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75402 - Student Teaching in Chemistry, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75403 - Student Teaching in Physics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75404 - Student Teaching in Earth Science, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

SEDC 75500 - Student Teaching in Social Studies, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72500

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences

Credits 5

SEDC 75600 - Student Teaching in Music, Pre-K–12

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

SEDC 76110 - Student Teaching in English, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100

prereq or coreq: SEDF 70600

Hours 45 hours, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76110 must also complete SEDC 76120 or SEDC 77120.

SEDC 76120 - Student Teaching in English, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100

prereq or coreq: SEDF 70600

Hours 30 hours, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76120 must also complete SEDC 76110 or SEDC 77110.

SEDC 76211 - Student Teaching in French, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45 hrs plus, 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76211 must also complete SEDC 76221 or SEDC 77221.

SEDC 76212 - Student Teaching in Italian, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76212 must also complete SEDC 76222 or SEDC 77222.

SEDC 76213 - Student Teaching in Spanish, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76213 must also complete SEDC 76223 or SEDC 77223.

SEDC 76221 - Student Teaching in French, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76221 must also complete SEDC 76211 or SEDC 77211.

SEDC 76222 - Student Teaching in Italian, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76222 must also complete SEDC 76212 or SEDC 77212.

SEDC 76223 - Student Teaching in Spanish, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76223 must also complete SEDC 76213 or SEDC 77213.

SEDC 76310 - Student Teaching in Mathematics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 45 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.

SEDC 76320 - Student Teaching in Mathematics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.

SEDC 76411 - Student Teaching in Biology in Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76411 must also complete SEDC 76421 or SEDC 77421.

SEDC 76412 - Student Teaching in Chemistry, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76412 must also complete SEDC 76422 or SEDC 77422.

SEDC 76413 - Student Teaching in Physics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of

instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76413 must also complete SEDC 76423 or SEDC 77423.

SEDC 76414 - Student Teaching in Earth Science, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76414 must also complete SEDC 76424 or SEDC 77424.

SEDC 76421 - Student Teaching in Biology, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76421 must also complete SEDC 76411 or SEDC 77411.

SEDC 76422 - Student Teaching in Chemistry, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76422 must also complete SEDC 76412 or SEDC 77412.

SEDC 76423 - Student Teaching in Physics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76423 must also complete SEDC 76413 or SEDC 77413.

SEDC 76424 - Student Teaching in Earth Science, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 30 hrs plus 30 days and conferences,

Credits 3 cr

Students who enroll in SEDC 76424 must also complete SEDC 76414 or SEDC 77414.

SEDC 76510 - Student Teaching in Social Studies, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDF 72500

prereq or coreq: SEDF 70600

Hours 45 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76510 must also complete SEDC 76520 or SEDC 77520.

SEDC 76520 - Student Teaching in Social Studies, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDF 72500

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76520 must also complete SEDC 76510 or SEDC 77510.

SEDC 76610 - Student Teaching in Music, Grades Pre-K–6

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76610 must also complete SEDC 76520 or SEDC 77520.

SEDC 76620 - Student Teaching in Music, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800

prereq or coreq: SEDF 70600

Hours 30 hrs, 30 days student teaching plus conferences,

Credits 3 cr

Students who enroll in SEDC 76620 must also complete SEDC 76510 or SEDC 77510.

SEDC 77110 - Practicum in English, Grades 7–9

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77110** must also take **SEDC 77120**.

prereq: SEDC 72100

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

SEDC 77120 - Practicum in English, Grades 10–12

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77120** must also take SEDC 77110 .

prereq: SEDC 72100

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77211 - Practicum in French, Grades 7–9

Supervised practicum for teachers of French in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

Students who take **SEDC 77211** must also take **SEDC 77221**.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

SEDC 77212 - Practicum in Italian, Grades 7–9

Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77212 must also take SEDC 77222.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences

Credits 3

SEDC 77213 - Practicum in Spanish, Grades 7–9

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

SEDC 77221 - Practicum in French, Grades 10–12

Supervised practicum for teachers of French in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77221 must also take SEDC 77211.

prereq: SEDC 72200

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77222 - Practicum in Italian, Grades 10–12

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77222 must also take SEDC 77212.

prereq: SEDC 72200

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77223 - Practicum in Spanish, Grades 10-12

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

prereq: SEDC 72200

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 45 hrs plus conferences

Credits 3

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77320 must also take SEDC 77310 .

prereq: SEDC 723

Hours 30 hrs plus conferences,

Credits 2 cr

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77411 must also take SEDC 77421.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

SEDC 77412 - Practicum in Chemistry, Grades 7–9

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77412 must also take SEDC 77422.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77423.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

SEDC 77414 - Practicum in Earth Science, Grades 7–9

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take **SEDC 77424**.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences

Credits 3

SEDC 77421 - Practicum in Biology, Grades 10-12

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77421 must also take SEDC 77411.

SEDC 77422 - Practicum in Chemistry, Grades 10–12

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77422 must also take SEDC 77412.

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413 .

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77424 - Practicum in Earth Science, Grades 10–12

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77424** must also take SEDC 77414.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77510 - Practicum in Social Studies, Grades 7–9

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

prereq: SEDC 72500
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences
Credits 3

SEDC 77520 - Practicum in Social Studies, Grades 10–12

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

prereq: SEDC 72500
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77610 - Practicum in Music, Grades Pre-K–6

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77610 must also take SEDC 77620 .

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77620 - Practicum in Music, Grades 7–12

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800

Hours 30 hrs plus conferences,

Credits 2 cr

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

Hours 30 hrs, plus lab,

Credits 2 cr

SEDF 71400 - Adolescent Development and Learning: Grades 7-12

This course prepares teacher candidates to think about how adolescents develop and learn by examining the process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and levels of ability. Emphasis will be placed on creating culturally compatible classrooms, motivating students, and assessing their learning.

Hours 45

Credits 3

Education: Bilingual Education

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

prereq or coreq: BILED 77100

Hours 30

Credits 2

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100

Hours 75 hrs,

Credits 1 cr

BILED 71200 - Bilingual Literacy-French

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners.

The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education
Hours 30
Credits 2

BILED 71300 - Bilingual Literacy-Chinese

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150
Hours 30
Credits 2
For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050
Hours 45 hrs,
Credits 3 cr

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MEd/Childhood Education Grades 1-6 with bilingual extension; for the MEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100
Hours 45
Credits 3

BILED 76900 - Instruction through the Native Language-Chinese

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork
Credits 3
Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF

70900; For the MEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator

Hours 30 hrs plus lab,

Credits 2 cr

BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq or coreq: completion of 39 cr of course work or permission of the program coordinator

Hours 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar

Credits 4

BILED 78300 - Practicum in Grades 1–3

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 15 hrs of seminar plus conferences

Credits 2 cr

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 15 hrs of seminar plus conferences,

Credits 2 cr

BILED 78600 - Student Teaching in Grades 4–6

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

prereq: completion of 39 credits of course work or permission of the program coordinator

Hours 30 days student teaching, 15 hrs of seminar plus conferences,

Credits 2 cr

Education: Childhood Education

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork
Credits 3

CEDC 70100 - Beginning Elementary Literacy Methods

Beginning Elementary Literacy Methods is the first of a two-part sequence designed for pre-service graduate teacher candidates as an introduction to the content and procedures used to teach English language arts to elementary students. Students will learn how children develop reading and writing concepts and abilities, become familiar with children's literature, both nonfiction and fiction, and understand current practices of literacy instruction and assessment.

coreq: This course should be taken with CEDF 70900, CEDC 70500, EDSEL 79600, CEDC 77200 Fieldwork & Teaching Seminar 1.
Hours 45
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900
Credits 3

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70600 - Reflective Practice in Elementary School Social Studies Curriculum Development

The course addresses the knowledge, skills, and attitudes for teaching the Social Studies curriculum to elementary grade students. This course is designed to introduce the content of the New York State Social Studies curriculum and the national standards for teaching Social Studies (<http://www.socialstudies.org/standards/strands/>) and focus on multiple instructional strategies to deliver this curriculum. There is an emphasis on integrating children's literature, the arts, and technology into the Social Studies curriculum and on experiencing the kinds of instructional methods and strategies recommended as current best practices for teaching the Social Studies curriculum.

prereq or coreq: To be taken with CEDF 71000, CEDC 70300, CEDC 72200, CEDC 70200, CEDC 77300.
Hours 45
Credits 3

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3

CEDC 71200 - Advanced Methods of Teaching Math in Elementary Schools

Ways to set up and monitor mathematical investigations designed to promote flexible problem solving, active learning, finding patterns, reasoning logically, formulating and verifying hypotheses. Error analysis and remediation.

prereq: CEDC 70500

Hours 45 hrs,

Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3

CEDC 71400 - Advanced Educational Technology for Elementary School Teachers

Students will link prior knowledge of instructional technology with curriculum development strategies to design integrated learning events.

prereq: CEDF 70900, and a course on computers or demonstrated literacy in basic computer skills and tool applications (word processing, spreadsheets, database, and presentation as well as the Internet)

Hours 45 hrs,

Credits 3

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

prereq: CEDF 70900

coreq: CEDC 73000 and 72200

Hours 75 hrs of fieldwork,

Credits 1

CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

Hours 45 hrs.

Credits 3

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq: CEDF 70900

coreq: CEDC 71500 and CEDC 73000

Hours 30 hrs,

Credits 2

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2

CEDC 72400 - Student Teaching in Grades 1–3 and 4–6

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops.

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus a minimum of 60 days of student teaching

Credits 5

CEDC 72500 - Student Teaching in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800 . Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Not for students who have completed CEDC 72400 or 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching

Credits 3

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700 . Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3. Not for students who have completed CEDC 72400 or 72800.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching

Credits 3

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800.

Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Not for students who have completed CEDC 72400 or 72500.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences

Credits 2

CEDC 72800 - Practicum in Grades 4–6

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700 .

Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Not for students who have completed CEDC 72400 or 72600.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences

Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork

Credits 1

CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting

Hours 15 hrs of seminar plus 50 hrs fieldwork

Credits 1

CEDC 73000 - Perspectives on Literacy Across the Content Areas

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

prereq: CEDF 70900; CEDC 70400

coreq: CEDC 71500 and 72200

Hours 30 hrs,

Credits 2

CEDC 73800 - The English Language: Theories and Pedagogical Implications

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.

Hours 45 hrs,

Credits 3

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.

Credits 3

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

prereq: all program courses except CEDC 74300

Hours 45 hrs

Credits 3

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs

Credits 3

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300

Hours 45 hrs

Credits 3

CEDC 74600 - Geographic Perspectives in Elementary Education

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

Hours 45

Credits 3

CEDC 74700 - Number Theory and Algebra in Elementary Curriculum

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

Hours 45 hrs

Credits 3

CEDC 74800 - Geometry and Measurement in the Elementary

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

Hours 45

Credits 3

CEDC 74900 - Leadership in Elementary School Mathematics

A study of mathematics leadership and the development of mentors, coaches, and leaders of professional development.

prereq: This course is intended for students in the Elementary Mathematics Specialist program. Completion of at least 24 credits in the program.

Hours 45

Credits 3

CEDC 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed SPED 75500

prereq or coreq: SPED 75300 and SPED 75400

Hours 45, includes 20 hrs field experience

Credits 3

CEDC 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 76500, CEDF 75600

prereq or coreq: SPED 75300 and SPED 75400

Hours includes 10 hrs field experience

Credits 3

CEDC 76000 - Special Topics in the Arts

The theory and application of children's artistic development. Course includes visual arts contents, instructional techniques, technology, materials and their use across the elementary school curriculum. Through hands-on workshops the teacher candidate will understand how to plan and utilize a visual arts curriculum to enhance student's cognitive, perceptual, expressive and imaginative abilities.

prereq: CEDC 70700

Hours 45 hrs

Credits 3

CEDC 77200 - Fieldwork & Teaching Seminar 1

Fieldwork & Teaching Seminar 1 is the initial experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

coreq: This course should be taken with CEDF 70900, CEDC 70500, CEDC 70100, EDESL 77100.

Hours 30

Credits 2

30 days (field) & 15 hrs (course)

CEDC 77300 - Fieldwork & Teaching Seminar 2

Fieldwork & Teaching Seminar 2 is the second experience in an elementary partner school for the clinically rich track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600, CEDC 70200.

Hours 30

Credits 2

30 days (field) & 15 hrs (course)

CEDC 77400 - Fieldwork & Teaching Seminar 3

Fieldwork & Teaching Seminar 3 is the third experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71600, CEDC 73900, CEDC 70700, CEDC 71300.

Hours 30

Credits 3

45 days (field) & 15 hrs (course)

CEDC 77500 - Fieldwork & Teaching Seminar 4

Fieldwork & Teaching Seminar 4 is the fourth and final experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDC 71000.

Hours 45

Credits 3

75 days (field) & 15 hrs (course)

CEDC 77600 - Planet Earth: Earth and Space Sciences for Elementary School Teachers

Methods and content of teaching Earth and Space sciences topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3 hrs

Credits 3

CEDC 77700 - Physical Science Background for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

Hours 45 hrs

Credits 3

CEDC 77800 - Life Sciences

The methods and content of teaching life science topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3
Credits 3

CEDC 77900 - Robotics and Engineering

New methods of teaching innovative school curricula in robotics and engineering. Students will design and program their own robotic vehicles and learn elementary school materials by a hands-on process and project work. The curriculum is modeled on the First LEGO League competitions popular at the grade school-level. Engineering is Elementary, a school curriculum to improve children's understanding of engineering principles, is also explored from a student-centered perspective. These new STEM curriculum for elementary schools are supported by K-12 Next Generation Science Standards (2013). All students who enroll in the course will emerge with training to teach these curricula in elementary schools, in informal settings and after school programs.

Hours 3
Credits 3

CEDCF 70050 - The Art and Science of Effective Teaching

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

Hours includes 5 hrs of fieldwork
Credits 3

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs
Credits 3

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900
Hours 45 hrs
Credits 3

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

Credits 3

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900

Hours includes 5 hrs of field work

Credits 3

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work

Credits 4

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs

Credits 3

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of

assessment.

Credits 3

CEDF 71700 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

permission of faculty adviser and chairperson required

CEDF 71800 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

permission of faculty adviser and chairperson required

CEDF 71900 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

permission of faculty adviser and chairperson required

CEDF 75000 - Special Topics in Diversity

An examination of the history and adaptation of diverse groups in the U.S. and their experience in the American educational system. Emphasis is on the role of culture, structure and policy in facilitating and/or hindering opportunities for these groups to achieve educational equity.

prereq: CEDF 70900

prereq or coreq: CEDF 70600

Hours 45 hrs

Credits 3

CEDF 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed SPED 75300

Hours includes 10 hrs field experience

Credits 3

CEDF 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 75600, CEDC 75600

prereq or coreq: SPED 75300 and SPED 75400

Hours includes 10 hrs field experience

Credits 3

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

prereq: completion of 31 cr. of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser

Hours 45 hrs

Credits 3

Education: Dance Education

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance

Hours 3 hrs + 36 hrs of fieldwork

Credits 3

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000

Credits 3

DANED 76400 - Practicum

Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: DANED 76000, DANED 76200

Hours 2 hrs plus 15 hrs seminar required

Credits 2

DANED 76602 - Student Teaching

Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200

Hours 20 days plus 15 hrs seminar

Credits 2

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200

Hours 60 days plus 15 hrs seminar

Credits 5

Education: Doctoral

EDF 80200 - Quantitative Methods and Measurement

The purpose of this course is to increase students' understanding of quantitative research methods and design issues relevant to the pursuit of research in education, with a focus on correlational, experimental and quasi-experimental design. This course also addresses essential issues in the measurement of educational constructs, including the following topics: reliability, validation, item analysis, test bias, dimensionality, item response theory, and the use of high-stakes testing in educational policy.

prereq: Introduction to Statistics and Statistical Computing (EDPS 701)

Credits 4

EDF 80400 - Analysis of Major Issues in Contemporary Education Reform

For hundreds of years, ever since the United States Constitution omitted any explicit reference to Education, the policies that shape our PK-12 education system have been largely debated and resolved at the state and local levels. To be sure, the Supreme Court of the United States has intervened – most often through the first amendment (on the 'separation' of church and state) and the fourteenth amendment (equal protection under the law) – on issues of segregation and the public funding of aspects of religious schools. Congress has also provided funding (largely through Title 1 grants to the states) to support the education of especially disadvantaged students. But the basic funding structures were state and local (even today, only about 7 cents on the education dollar come from Washington DC); the policies around testing, curricula, the hiring and firing of teachers, the preparation of teachers and principles, and all other major aspects of our PK-12 practices were locally resolved.

In the last several decades, much has changed. Since the publication of a now famous report "The Nation at Risk" in 1984; through the passage of the No Child Left Behind legislation, to the Federally funded "Race to the Top" and not excluding findings from the Supreme Court that have (largely) validated voucher programs of school choice, actions in Washington DC have profoundly altered our education policies across the country. A deep concern for the relative performance of American students by contrast to their international peers combined with massive evidence of an ever-persisting performance gap between affluent and underprivileged students, especially from our African American and Hispanic families, have prompted waves of reform efforts, many of them driven from the US Dept. of Education.

After a brief review of the history of education reform efforts, we will study the major debates and policy initiatives that have shaped the contemporary structures of American public education. We will seek to understand what is at stake in these initiatives, the evidence behind their adoption and resistance to them.

Hours 3

Credits 3

EDF 81000 - Mind, Brain, and Education

This course provides students with knowledge from the neuro and cognitive sciences that can be applied in practice. This course begins with an introduction to mapping the physical features of the brain before leading into contemporary research on "brain-based" research and educational curricula and programs. Students will engage in examining research and separate "neuromyth" from "neuroscience" in order to be informed by new knowledge from the science of learning.

Hours 3

Credits 3

EDF 83000 - Dissertation Proposal Seminar

This course is a seminar designed to provide students with a general overview of the structure and components of a dissertation proposal. It serves as common ground for all cohort members to prepare for highly individualized work with a dissertation advisor in subsequent semesters. Throughout this course, students will focus upon the following components: (1) the background of the problem to be investigated; (2) formulating a research question(s); (3) developing a theoretical framework; (4) conducting a literature review; (5) choosing research methods to collect data; (6) analyzing findings; and (7) generating implications. These elements will be taught in relation to a "traditional" five-chapter dissertation, along with variations and expansions of this structure. In addition, students will review and become certified in appropriate

IRB requirements. A major goal of this seminar is to individualize support with view to preparing each student to develop a topic for approval that will continue to be worked upon with a dissertation advisor during the following semester.

Hours 3

Credits 3

EDF 83100 - Dissertation Advisement I

Dissertation Advisement I is a customized course of study taken immediately after Dissertation Seminar. The purpose of this course is to provide individualized support to doctoral students as they continue to engage with components of their dissertation to develop a robust proposal. The dissertation proposal must minimally consist of the first three chapters that include the following components:

- the background of the problem to be investigated;
- research question(s);
- a theoretical framework, where appropriate;
- a literature review;
- selected research methods to collect data;
- tentative description of intended analysis. In addition, it should be sufficient to be the basis of creating an IRB research proposal.

Note: This course is cross listed with SPED 83100

prereq: Dissertation Proposal Seminar (Pre-Requisite)

Hours 2

Credits 2

EDUC 80100 - Research on Curriculum and Teaching of English Language Learners

The focus of this course is on effective curriculum and instruction supporting the academic, social, and emotional development of ELLs. Topics and assignments provide a direct connection of research to programming, and policy for ELLs in P-12 school contexts. Analysis of research on ELL education, including review of quantitative and qualitative studies of instruction and curriculum for ELLs will provide the foundation for the course content. This course will prepare doctoral students to critically evaluate educational research on ELLs, deeply understand the core components of quality instruction for ELLs in P-12 classrooms, and be able to clearly identify appropriate methods for addressing and improving instruction and curriculum for ELLs. Topics and assignments are designed to provide theory that directly connects to the design of instructional models of and curricula for ELL instruction.

Hours 3

Credits 3

EDUC 80300 - Research on Effective Practice and Curriculum in Math

The course will examine the current research on effective mathematical teaching, assessment practices, student learning, and curriculum design. Students will synthesize research and engage in research explorations focused on problems of practice.

Hours 3

Credits 3

EDUC 80400 - Research on Effective Practice and Curriculum in Arts and Humanities

This course examines current research in Arts and Humanities curriculum and its implementation. It addresses a host of theoretical and policy-oriented approaches to the teaching and learning of the arts and humanities. Particular attention will be paid to research on arts and humanities instruction and interventions that serve the needs of diverse students in urban schools.

Hours 3
Credits 3

EDUC 80600 - Effective Professional Development of Teachers

In-depth study of research and practice in professional development for educators. Students will explore the literature about effective methods, contexts, and delivery of coaching, mentoring, and professional learning for teachers and other educators. Focus on understanding the strengths and weaknesses of different approaches to professional development, and on learning how to assess the appropriateness of a professional development strategy with respect to content and the teacher population to be served.

Hours 3
Credits 3

EDUC 80700 - Professional Communications for Educational Settings

This course explores a range of educational and school-based writing genres and writing for a variety of audiences. Resources and practices related to developing and writing within a variety of genres from traditional print publications to new media outlets will be introduced, explored and, most importantly, enacted.

Hours 3
Credits 3

EDUC 80800 - Action Research

The purpose of this course is to explore various aspects of a movement in education and educational research in which educators (e.g., P-12 teachers, school administrators, etc.) actively participate in making change in their practice through conducting systematic inquiry and research. The course will provide a broad overview of the epistemological, political, and methodological issues associated with the idea of practitioner research.

prereq or coreq: EDS 80300 Qualitative Research Methods
Hours 3
Credits 3

EDUC 80900 - Case Studies in Education: Institutions, Schools, Programs, Classrooms, and Individuals.

This course examines case study as a research design in educational contexts. The unit of study can include institutions, schools, programs, and individuals. A variety of topics will be explored, including becoming familiar with types of case studies, conceptualizing case study research, creating research questions, generating data, use of analytic methods, and application of case study findings to leadership and practice. In addition, the course will feature related, sometimes overlapping, methodological approaches such as portraiture and narratives. The course engages students in substantial study and critique of current and "classic" cases in educational research based on candidates' fields of interest. Particular attention will be paid to ethical considerations in conducting case study research in urban schools and communities.

Hours 3
Credits 3

SPED 80000 - Introduction to Doctoral Studies: Theory and Research in Curriculum and Teaching

This course provides a brief overview of theory and research in curriculum and teaching. Students will consider how their own positionality influences ways in which they read and interpret educational research. Conversely, students will also understand how a researcher's positionality influences all aspects of their research, including: questions asked; theoretical framework adopted; methodologies chosen; data collection; analysis and interpretation of data; results or findings; and implications. Students will also engage in studying selected influences of curriculum history, particularly post 1945-present. These influences include: The Cold War, Civil Rights Movement, The War on Poverty, No Child Left Behind, and the Standards Movement. This course will serve as a beginning to cultivating student interests in developing their own research studies by weaving together theory, research, practice, and policy within education.

Hours 3 hrs.

Credits 3 cr.

Education: Early Childhood

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs

Credits 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs

Credits 1

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs

Credits 3

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs
Credits 3

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs,
Credits 1 cr*

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 30 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

*prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))
Hours 30 hrs of seminar plus 60 days of student teaching
Credits 3*

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 30 days each at different age/grade levels (Pre-K–K and 1–2).

*prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)
Hours 30 hrs of seminar plus 60 days of student teaching
Credits 3*

ECC 71700 - Supervised Practicum in Early Childhood

This course has two key components: (1) A full semester of practicum in Pre- K, K, or grades 1-2 and (2) biweekly seminar (30 hours). It builds on prior coursework and field experiences by providing guidance and reflective discussion that allow teacher candidates to enhance their teaching skills in early childhood education settings. Specific information regarding professional issues, ethical behaviors, and child advocacy is provided and reviewed. In addition, this course will align the practicum experience with the expectations of the edTPA in order to support teacher candidates with the preparation and submission of their portfolios.

*prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200
Hours Bi-weekly seminar (30 hrs)
Credits 2*

ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

*Hours 15 hrs of seminar plus conferences,
Credits 1*

ECC 71800 - Early Childhood Student Teaching

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700 . This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200

Hours Bi-weekly seminar (15 hrs)

Credits 1

ECC 71850 - Early Childhood Bilingual Student Teaching

Student teaching for 30 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 15 hrs of seminar plus 30 days of student teaching

Credits 2

ECC 71951 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

prereq: special permission of an early childhood education adviser

Hours 15, 30, and 45 hrs

Credits 1, 2, and 3

ECC 71952 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

prereq: special permission of an early childhood education adviser

Hours 15, 30, and 45 hrs

Credits 1, 2, and 3

ECC 71953 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

prereq: special permission of an early childhood education adviser

Hours 15, 30, and 45 hrs

Credits 1, 2, and 3

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)
Credits 3

ECC 80100 - Research and Practice in Early Childhood Education

Overview of the historical and social influences on early childhood research and practice. Candidates will gain a comprehensive understanding of the significant policy, programmatic and pedagogical factors affecting the formal, symbolic and societal curricula, within and across early childhood education and care settings.

Hours 45
Credits 3

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

Hours 45 hrs
Credits 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000
Hours 45 hrs
Credits 3

Early Childhood Special Education

SPEDE 76500 - Special Topics in Early Childhood Special Education

One-credit special topics courses focus on narrowly defined topics of high current relevance in the field of early childhood special education.

prereq: SPEDE 76800 and 76900 or permission of the coordinator of the early childhood special education program

Hours 15 hrs,

Credits 1 cr

SPEDE 76700 - Field Experiences in Early Childhood Special Education with an Annotation in Severe Disabilities

prereq: SPEDE 77000, SPED 79000, and SPED 79100

prereq or coreq: SPEDE 77100

Hours 15 hour seminar plus 30 hrs of fieldwork in one of the following age/grade levels: 0-3; 3-5; or Kindergarten, grades 1 and 2 in a program for children with severe disabilities,

Credits 1 cr

SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only)

Hours Includes 5 hrs field experience,

Credits 3

SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768

Hours Includes 15 hrs field experience,

Credits 3

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790

*Hours Includes 15 hrs field experience,
Credits 3*

SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

*prereq or coreq: SPEDE 770
Hours Includes 5 hrs of field experience
Credits 3 cr*

SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

*prereq: SPEDE 768 OR SPED 700
Hours Includes 5 hrs of field experience
Credits 3 cr*

SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices

This course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

*prereq or coreq: SPEDE 770
Hours includes 5 hrs field experience
Credits 3 cr*

SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

*prereq: SPEDE 770 and SPEDE 772 (for all programs); and ECC 706 and ECC 709 (for Program 1 students only)
Hours Includes 5 hrs field experience
Credits 3 cr.*

SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

prereq or coreq: SPEDE 76900

Hours 15 hrs,

Credits 1 cr

SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education

Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

prereq: ECC 71200 (for Program 1 students only)

prereq or coreq: SPEDE 77000

Hours 2 hrs.

Credits 2 cr.

SPEDE 77651 - Field Experiences in Early Childhood and/or Childhood Special Education with an Annotation in Severe Disabilities: Autism

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1 and 2, grades 306; both of these experiences must be with children who have autism spectrum disorders.

prereq or coreq: SPEDE 77100 or permission of the program coordinator

Hours 30 hours seminar plus 60 hours of field experience,

Credits 2 cr

SPEDE 77750 - Student Teaching: Early Childhood Special Education with Annotation in Severe Disabilities

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels; Pre-K (Birth–5); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 76700

Hours 30 hrs seminar plus 40 days,

Credits 4 cr

SPEDE 77800 - Student Teaching in Early Childhood Special Education

Supervised student teaching for 30 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200

prereq or coreq: SPEDE 77100

Hours 30 hrs seminar plus 30 days student teaching

Credits 2

(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

SPEDE 77810 - Initial Student Teaching in Early Childhood Special Education

First, full semester, supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.10 must also take either SPEDE 77820 or SPEDE 77920 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77600

Hours 3 hrs. plus full semester of student teaching

Credits 3 cr.

SPEDE 77820 - Final Student Teaching in Early Childhood Special Education

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77400 and either SPEDE 77810 or SPEDE 77910

Hours 3 hrs. plus full semester of student teaching

Credits 3 cr.

SPEDE 77850 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

prereq: SPEDE 76700

Hours 30 hrs seminar plus 20 days,

Credits 2 cr

(Note that students who take SPEDE 77850 must also take SPEDE 77950 and the placements must be at different age/grade levels. Students must be in an early childhood program with learners with severe disabilities for the entire semester.)

SPEDE 77900 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200

prereq or coreq: SPEDE 77100

Hours 30 hrs seminar plus conferences,

Credits 2

(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

SPEDE 77910 - Initial Practicum in Early Childhood Special Education

First intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.10 must also take SPEDE 77820 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPEDE 77600

Hours 3 hrs plus full semester of practicum experience in worksite

Credits 3 cr.

SPEDE 77920 - Final Practicum in Early Childhood Special Education

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPEDE 77400 and SPEDE 77810

Hours 3 hrs. plus full semester of practicum experience in worksite

Credits 3 cr.

SPEDE 77950 - Practicum in Early Childhood Special Education with an Annotation in Severe Disabilities

Supervised practicum in an age/grade level other than that used in SPEDE 77850 practice in the implementation of skills developed through coursework and field experiences. Students must be in an early childhood program with learners with severe disabilities for the entire semester.

prereq: SPEDE 76700

Hours 30 hrs seminar plus conferences,

Credits 2 cr

SPEDE 77951 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

prereq: By permission

*Hours 3 hrs
Credits 3 cr.*

SPEDE 78000 - Language Teaching Approaches and Strategies for Young Children with Autism Spectrum Disorders

Assessment and instructional approaches to teaching language to young children with autism, including picture communication systems. Verbal behavior and visual supports for early literacy: collaboration with speech language therapists and parents.

*prereq or coreq: SPEDE 77100 or permission of the program coordinator
Credits 1 cr*

SPEDE 78100 - Incidental Teaching and Other Naturalistic Behavioral Strategies

Overview of naturalistic behavioral strategies used in the education of young children with autistic spectrum disorders including incidental teaching, pivotal response training, natural language paradigm, and establishing operations to teach in the natural environment; involving parents.

*prereq or coreq: SPEDE 77100 or permission of the program coordinator
Credits 1 cr*

SPEDE 78200 - Higher Functioning Children with Autism Spectrum Disorders

Understanding the special needs of higher functioning children with autism spectrum disorders; assessment, instructional approaches, models, and methods for use in educational settings.

*prereq or coreq: SPEDE 771 or permission of the program coordinator
Credits 1 cr*

SPEDE 78300 - Inclusion of Children with Autism Spectrum Disorders

Why, when and how to include children with autism spectrum disorders in the educational mainstream; strategies that work for different types of students, families, and school environments.

*prereq or coreq: SPEDE 771 or permission of the program coordinator
Credits 1 cr*

SPEDE 79900 - Field Experiences in Childhood Special Education

This is a supervised practicum and seminar with practice in the implementation of skills developed through coursework and field experiences. this course will provide the teacher candidate with an expanded range of experiences in early childhood special education settings. In addition, the course will heighten the teacher candidate's focus on critical features of best practice as defined by the recommendations of the Council for Exceptional Children. This will help to strengthen the teacher candidate's skills in analyzing and utilizing a range of instructional strategies.

*Hours 30
Credits 2
This is a year-long course*

Education: Counseling

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs

Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs

Credits 3

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs

Credits 3

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self- concept, and adjustment in a handicapping world.

Hours 45 hrs

Credits 3

COCO 70500 - Vocational Assessment and Placement

Application of principles of occupational development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of the disabled. Sources and uses of occupational information, labor market trends. Emphasis on vocational evaluation, job development, follow-up.

Hours 45 hrs

Credits 3

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200

Hours 45 hrs

Credits 3

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs

Credits 3

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs

Credits 3

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs

Credits 3

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs

Credits 3

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800

Hours 45 hrs

Credits 3

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs

Credits 4

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs.

Credits 3 cr.

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900

prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600

Hours 100

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800

Hours 45

Credits 3

COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

Hours 45 hrs,

Credits 3 cr

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900

prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100

Hours Each 300 hrs to be arranged in selected field settings

Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500

Hours 45

Credits 3

COCO 72700 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

Hours 45 hrs.

Credits 3 cr.

COCO 72800 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

Hours 45 hrs,

Credits 3 cr

COCO 73500 - Seminar in Chemical Dependency

Counseling Skills and Techniques Introduces students to the various types of counseling involved in working with people who are chemically dependent. Students will have the opportunity to test skills and techniques necessary for counseling in a variety of settings that serve people with chemical dependencies.

Hours 45 hrs,

Credits 3 cr

COCO 74100 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 15 hrs (supervised),

Credits 1 cr

COCO 74200 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 30 hours (supervised),

Credits 2 cr

COCO 74300 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 45 hrs hours (supervised),

Credits 3 cr

COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

prereq or coreq: DSM-IV Workshop
Credits 3

COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

Hours 45
Credits 3

COUNM 72000 - Mental Health Counseling: Program Development and Evaluation

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

prereq or coreq: COUNM 71600 and COUNM 71700
Hours 45
Credits 3

COUNS 71700 - Foundations of School Counseling

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor's role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

Hours 45
Credits 3

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800
Hours 45
Credits 3

COUNS 72200 - School Based Consultation

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

prereq or coreq: COCO 72500

Hours 45

Credits 3

Education: Counseling/Rehabilitation

COUNR 71600 - Resources and Foundations of Rehabilitation

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

Hours 45 hrs

Credits 3

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs

Credits 3

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs

Credits 3

Education: School Counseling

COUNS 72000 - Culminating Seminar in School Counseling

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

prereq: COCO 70900

prereq or coreq: COCO 72600

Hours 45

Credits 3

Education: Educational Psychology

EDPS 70000 - Educational Psychology Proseminar

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits : none

EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

Hours 60

Credits 4

EDPS 70200 - Educational Research Methods

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

Hours 60

Credits 4

EDPS 70300 - Learning and Behavior Theories

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60

Credits 4

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200

coreq: EDPS 70300

Hours 60

Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200

Hours 60

Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300

Hours 60

Credits 4

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200

Hours 60

Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100, EDPS 70200

Hours 60

Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60

Credits 4

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300

Hours 60

Credits 4

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

EDPS 74900 - Independent Study in Educational Psychology

Permission of faculty adviser and chairperson required. Independent study in the area of educational psychology. A maximum of 4 credits of independent study may be counted toward the degree.

Credits 1 - 4

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits

Hours 60
Credits 4

EDPS 79501 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits
Hours 30
Credits 2

EDPS 79502 - Educational Psychology Thesis Research 2

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits
Hours 30
Credits 2

Education: Health Education

HED 71400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Education: Literacy Education

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500

Hours includes 10 hrs in the field analyzing language use of ESL learners

Credits 3 cr

EDLIT 73100 - Literacy Assessment: Birth–Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500

Hours 45 hrs and 15 hrs in the field assessing diverse learners

Credits 3 cr

EDLIT 73200 - Children's Literature

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

Hours Includes 5 hrs in a classroom-based dramatic demonstration

Credits 3 cr

EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

Hours Includes 15 hours in the field observing and analyzing writing development

Credits 3 cr

EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500

Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy

Credits 3 cr

EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork

Credits 3 cr

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

prereq: EDLIT 73100

Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties

Credits 3 cr

EDLIT 73700 - Practicum in Remedial Reading

Theoretical and practical consideration and procedures in the instruction of students with reading difficulties.

prereq: EDLIT 73600

Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College

Credits 3 cr

EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6

Exploration of historical and theoretical perspectives, and research-based teaching practices/issues related to literacy and language instruction for struggling readers and writers, including children with special needs. Study of assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcomes of struggling readers/writers and special needs students in pre-kindergarten and elementary school settings.

prereq or coreq: None

Credits 3

EDLIT 73901 - Delays in Early Language and Literacy Development in Young Children with Special Needs

Historical, theoretical, and research-based teaching practice issues related to literacy and language instruction for children with special needs, ages birth through second grade.

coreq: ECC 70400

Hours Includes 5 hrs observation in an inclusive early childhood setting or a program with special needs focus, 15 hrs,

Credits 1 cr

EDLIT 73902 - Special Needs Issues in Literacies within the Curriculum

Adaptation, modification and management of instruction, curriculum, the learning environment, materials and technology across the curriculum for children with special learning needs.

prereq: EDLIT 73901

Hours 15 hrs,

Credits 1 cr

EDLIT 73903 - Adaptations and Modifications in Approaches to Literacy for Students with Special Needs

Adaptation and modification of instructional strategies, technology and curriculum in literacy for full inclusion of children with disabilities.

prereq: EDLIT 73902

Hours 15 hrs,

Credits 1 cr

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: EDLIT 74500; minimum of 27 credits in the literacy program

Hours 45 hrs

Credits 3 cr

EDLIT 74100 - Selected Topics

In-depth study of emerging areas related to literacy education for children birth through grade 6.

prereq or coreq: approval of the instructor

Hours 45 hrs,

Credits 3 cr

This is an elective course.

EDLIT 74200 - Practicum in Literacy

Fifty-hour college-supervised practicum divided into two 25-hour placements; one at early childhood level and one at the childhood level.

prereq: 15 credit hours in the literacy master's program

Hours 15 hr seminar plus 50 hrs in the field,

Credits 1 cr

EDLIT 75200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: 15 to 18 hours in the literacy Masters Program

Hours 15 hours in seminar and 50 hours of field experience

Credits 1

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork

Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

Hours includes 10 hours in classrooms focused on literacies within the disciplines

Credits 3 cr.

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core

Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600

Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students

Credits 3

Education: Special Education

CEDC 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the fulltime gifted school.

Cross-listed SPED 75400

Hours includes 10 hrs field experience

Credits 3

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.

Hours 45

Credits 3

EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45

Credits 3

EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

prereq or coreq: SPEDE 77100

Hours 45

Credits 3

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

prereq: EDABA 79500

Hours 45

Credits 3

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

Hours 45

Credits 3

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

prereq: EDABA 79500 or EDABA 79800

Hours 45

Credits 3

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45

Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45

Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100

Hours Includes 20 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000

coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000

Hours 15 hrs,

Credits 1 cr

SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000

Hours 30 hrs lab,

Credits 1 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 10 hours of field experience, 45 hrs,

Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

*Hours (includes 10 hours of field experience),
Credits 3 cr*

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

*Hours 45 hrs,
Credits 3 cr*

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

*Hours 45
Credits 3*

SPED 70751 - Advanced Seminar in Special Education Practice (For those in Advanced Preparation in Special Education)

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

*Hours 45
Credits 3*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3*

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SPED 71051 - Independent Study in Special Education

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71052 - Independent Study in Special Education

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71053 - Independent Study in Special Education

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71151 - Independent Study in Deaf and Hard-of-Hearing

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71152 - Independent Study in Deaf and Hard-of-Hearing

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71153 - Independent Study in Deaf and Hard-of-Hearing

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71251 - Independent Study in Blindness and Visual Impairment

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71252 - Independent Study in Blindness and Visual Impairment

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71253 - Independent Study in Blindness and Visual Impairment

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

Hours 15-45 hrs,

Credits 1-3 cr

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment

Credits 1 cr

SPED 72000 - American Sign Language I

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience, 90 hrs lab,

Credits 3 cr

SPED 72100 - American Sign Language II

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000

Hours Includes 10 hrs of field experience 90 hrs lab,

Credits 3 cr

SPED 72200 - The Study of ASL Educational Linguistics

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

prereq: SPED 72100

Hours 60 hrs lab,

Credits 2 cr

SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

Hours Includes 10 hours of field experience 45 hrs,

Credits 3 cr

SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

prereq: SPED 70000 and SPED 73000

coreq: must take SPED 73300 in semester immediately following.

Hours 3 hrs

Credits 3 cr.

Fall only

SPED 73300 - Math and Across-the Curriculum Adaptations for Students who are Deaf and Hard-of Hearing: Methods 2

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

prereq: (immediate preceding semester) SPED 73100

prereq or coreq: SPED 70000

Hours Includes 15 hrs of field experience

Spring only

SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000

Hours Includes 5 hrs of field experience

Credits 3

SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000

Hours Includes 5 hrs of field experience

SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,

Credits 4 cr

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 73752 - Practicum: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 73753 - Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching

Credits 2

SPED 73762 - Supervised Practicum: Deaf and Hard-of- Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences,

Credits 2

SPED 73763 - Supervised Practicum: Deaf and Hard-of- Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 7300, SPED 73300

Hours 30 hrs seminar, plus conferences,

Credits 2

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

Credits 3

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100

Hours Includes 15 hrs of field experience

Credits 3

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100

Hours Includes 10 hrs of field experience

Credits 3

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300

Hours 45 hrs,

Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300

Hours 15 hrs,

Credits 1 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

Credits 3

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,

Credits 4 cr

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours structured conferences, plus 20 days student teaching,

Credits 1

SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences, plus 20 days student teaching

Credits 1 cr

SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences

Credits 1 cr

SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences

Credits 1 cr

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

*Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr*

SPED 75000 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

*prereq or coreq: SPED 70000
Hours Includes 20 hrs of field experience*

SPED 75051 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.

*Hours 45
Credits 3*

SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

*prereq or coreq: SPED 75000
Hours Includes 20 hrs of field experience
Credits 3*

SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,

Credits 4 cr

SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar plus conferences,

Credits 2 cr

SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed (Cross-listed with CEDF 75300.)

Hours 45 hrs includes 10 hrs field experience

Credits 3 cr

SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

Cross-listed (Cross-listed with CEDF 75400.)

Hours Includes 10 hrs field experience

Credits 3

SPED 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed (Cross-listed with CEDC 755.)
prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 20 hrs field experience

SPED 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 10 hrs field experience

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100
Hours Includes 10 hrs field experience
Credits 3

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000
Hours includes 10 hrs field experience
Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100
Hours 45 hrs,
Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,

Credits 2 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

prereq or coreq: SPED 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr.

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

prereq or coreq: SPED 76500, 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq or coreq: SPED 76500, 76600, 76800, 76900

Hours 30 hrs seminar, plus conferences plus 340 hours of internship,

Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

prereq or coreq: permission of adviser

Hours 3 hrs

Credits 3 cr.

Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

prereq: SPED 76800

Hours 3 hrs

Credits 3 cr.

Two week summer course.

SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200

prereq or coreq: SPED 70000

Hours 45 plus 10 field hours

Credits 3 cr.

SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math

instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100

prereq or coreq: SPED 70000

Hours 30 hours of seminar plus 25 field hours

Credits 2 cr.

SPED 77300 - Methods of Teaching Writing, Math, and Organization for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing skills in (1) writing and (2) mathematics in grades 7–12, with special attention paid to organizational aspects of learning. Students will learn the writing process in general, along with various strategies that promote writing skills of adolescents across the content areas. In addition, students will learn specific strategies that support struggling learners in mathematics classrooms.

prereq: SPED 77100 and 77200

coreq: SPED 77400

Hours 45

Credits 3

SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

prereq: SPED 77100 and 77200

coreq: SPED 77300

Hours 30 hours of seminar plus 31 field hours working with a student

Credits 2

SPED 77500 - Student Teaching of Adolescents with Learning Disabilities

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100, and 77200

Hours 30 hours seminar plus conferences plus 60 days student teaching

Credits 2 cr.

SPED 77550 - Supervised Practicum: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100 and 77200
Hours 30 hours seminar, plus conferences
Credits 2

SPED 77551 - Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100, and 77200
Hours 30 hours seminar, plus conferences, plus 20 days student teaching
Credits 2 cr.

SPED 77552 - Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100, and 77200
Hours 30 hours seminar, plus conferences, plus 20 days student teaching
Credits 2 cr.

SPED 77700 - Supervised Clinical Teaching of Students with Learning Disabilities

Year-long course. On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hours seminar, plus 22 lab/clinical teaching hours
Credits 2
Year-long course

SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

prereq or coreq: SPED 70000
Hours 45
Credits 3

SPED 78100 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

coreq: SPED 78200

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

Credits 3

Only in the fall semester (note: must take concurrently with SPED 78200 and must take SPED 78300/78400 in semester immediately following)

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3 cr.

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200
coreq: SPED 78400
Hours 45
Credits 3
Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or

mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/ 782

coreq: SPED 783

Hours 15 hrs seminar, plus 20 hrs lab,

Credits 2 cr

Spring only

SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq or coreq: SPED 70000
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching,
Credits 4 cr

SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

prereq or coreq: SPED 70000
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.

prereq or coreq: SPED 70000
Hours 30 hrs seminar, plus conferences, plus 30 days of student teaching,
Credits 2 cr

SPED 78552 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

prereq or coreq: SPED 700

*Hours 30 hrs seminar, plus conferences, plus 30 days of student teaching,
Credits 2 cr*

SPED 78900 - Practicum in Adolescent Special Education

On-the-job supervised year-long classroom practicum on providing specially designed instruction in a special education teacher position/role for students in grades 7 - 12 with learning disabilities, behavior disorders and/or mild/moderate mental retardation. Entails supervisory observations by Hunter College faculty, with feedback conferences and individually tailored follow-up assignments for improving instructional planning, teaching, assessment, and student interactions. The 30-hour seminar focuses on effective instructional and behavioral strategies for the first year of teaching, including meeting the needs of students with severe/multiple disabilities (requires successful completion of online workshop related to students with severe/multiple disabilities).

*prereq or coreq: SPED 70000
Hours 30 hours seminar, plus conferences
Credits 2 cr.
Year-long course*

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

*prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.*

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

*prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
Credits 3*

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience

SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

Hours includes 15 hrs of field experience
Credits 3

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

prereq: SPED 70600
Hours Includes 5 hrs of field experience,
Credits 1 cr

SPED 79500 - Student Teaching: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness in grades 1–3 and 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 40 days of student teaching at two grade levels,
Credits 4 cr

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus 20 days of student teaching,

Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hours seminar, plus conferences,

Credits 2 cr

SPED 79800 - Topics in Special Education

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700

Hours 15-45 hrs,

Credits 1-3 cr

SPED 79900 - Topics in Special Education

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700

Hours 15-45 hrs,

Credits 1-3 cr

SPEDE 77051 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.

prereq: By permission

Hours 3 hrs

Credits 3 cr.

SPEDE 77151 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq: By permission

Hours 3 hrs

Credits 3 cr.

SPEDE 77251 - Positive Behavior Support (PBS) and Its Applications to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: By permission

Hours 3 hrs

Credits 3 cr.

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar plus 36 days pre-K) plus conferences

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days) Pre-K
Credits 2 cr.

SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar plus 36 days student teaching K-2) , plus conferences
Credits 2

SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days) K-2
Credits 2

SPEDE 79552 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) Pre-K
Credits 2

SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar, pre-K), plus conferences
Credits 2 cr.

SPEDE 79553 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) K-2
Credits 2 cr.

SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar, K-2), plus conferences
Credits 2 cr.

Education: English as a Second Language

CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

Hours includes 10 hrs of fieldwork
Credits 4

EDESL 70100 - Selected Topics in TESOL

EDESL 701-704 Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 1

EDESL 70200 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 2

EDESL 70300 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 3

EDESL 70400 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 4

EDESL 70500 - Structure of English: A Pedagogical View

The total grammatical system of English seen functionally and pedagogically. Students examine research on various English language structures and develop optimum teaching approaches for presenting these structures.

prereq: LING 70100 or permission of TESOL adviser

Hours 45 hrs

Credits 3

Required of students in Programs One, Two, and the Adult Program.

EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser

Credits 4

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in **Program 1** and **Program 2**.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

includes 10 hrs fieldwork

EDESL 77000 - Content and Curriculum & Materials in Adult TESOL

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

prereq or coreq: pre- or coreq: EDESL 79600 or permission of TESOL adviser

Hours includes 10 hrs of fieldwork in Adult ESL classrooms

Credits 4

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610

Hours includes 20 hrs fieldwork in K-12 classrooms

Credits 4

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: EDESL 79600/79610 and LING 70200 or permission of TESOL adviser

Hours includes 10 hrs fieldwork

Credits 4

EDESL 77600 - Language Assessment in Adult TESOL

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

prereq: EDESL 79600, LING 70200, EDESL 77000; coreqs: EDESL 77800, 77900, or permission of TESOL adviser

Hours includes 10 hrs of fieldwork in Adult ESL classrooms

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610

Credits 4

10 hours of field experience.

EDESL 77800 - Teaching Oral Language Skills in Adult TESOL

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students' skills in these areas. For students in Program 3.

prereq: EDESL 79600

prereq or coreq: pre- or coreq: EDESL 77000

Credits 4

EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.

prereq: prereq: EDESL 79600

prereq or coreq: pre- or coreqs: EDESL 7700 or EDESL 78700 or EDESL 77500

Credits 4

EDESL 78000 - Seminar in Educational Research (Master's Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination.

prereq: completion of 24 credits and permission of TESOL adviser

Hours 45 hrs

Credits 3

Registration by adviser's approval only. Elective for all students.

EDESL 78100 - Curriculum and Materials in TESOL

Overview of the various curriculum and materials options for learning ESL/EFL (listening and an oral comprehension, speaking and conversation, reading and vocabulary building, writing and composing, textbook series for children and adults, dictionaries, computer-assisted learning materials, video programs and others). Attention is given to classroom management tasks, setting up and exploiting various learning environments, and general literacy concerns.

prereq or coreq: LING 70100, EDESL 78300 or permission of TESOL adviser

Hours 45 hrs

Credits 3

(Required of students in Programs One, Two, and the Adult Program.)

EDESL 78200 - TESOL in Adult Education

A treatment of effective TESOL practices, classroom management, and learning environments appropriate to the adult classroom. Twenty-five hours of field experience/observation is a part of this course.

prereq: LING 70100, EDESL 78300 or permission of TESOL adviser

Hours 45 hrs

Credits 3

Required of students in the Adult Program and an elective for students in the Pre- K-12 Programs One and Two who have been waived from a required course.

EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

Hours 45 hrs

Credits 3

Required for students in Program Two and Program Three (Adult Program).

EDESL 78400 - Fieldwork in TESOL with Adults

Teaching practicum in a field setting with adult learners of English in the Community Outreach Program in English (COPE) on Saturdays. (Sabbath observers meet during the week.) During a weekly seminar, emphasis is placed on peer dynamics, classroom management and setting and exploiting learning activities and environments.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs

Credits 3

Required of students in the Adult Program.

EDESL 78410 - Practicum in TESOL for Adults

A hands-on Practicum/teaching experience with adult ESL students in the Community Outreach Program in English (COPE) at Hunter College, that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar immediately after their COPE classes. Required of students in Program 3.

prereq: prereq: completion of 24 credits or permission of TESOL adviser
Hours 30 hrs plus 60 hrs classroom teaching,
Credits 2 cr.

EDESL 78420 - Student Teaching in TESOL for Adults

A student teaching experience (with the guidance of a cooperating teacher) in an academic ESL context (either an Intensive ESL Program or a college ESL class), that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar to discuss their student teaching experiences. Required of students in Program 3.

prereq: prereq: completion of 24 credits or permission of TESOL adviser
Hours 30 hrs plus 60 hrs classroom teaching,
Credits 2

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

EDESL 78510 - Supervised Student Teaching in the Elementary School: Pre-K–6

Supervised student teaching in Pre-K through grade 6 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in Pre-K–6; (2) Students with prior certification in another area must teach 20 days in Pre-K–6.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus student teaching and conferences,
Credits 2 cr.
Required of students in Programs One and Two. note: students should not take 788.10 if they are in this course

EDESL 78520 - Supervised Student Teaching in the Secondary School: Grades 7–12

Supervised student teaching in grades 7–12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in grades 7–12; (2) Students with prior certification in another area must teach 20 days in grades 7–12.

prereq: completion of 30 credits or permission of TESOL adviser

Hours 5 hrs seminar plus student teaching and conference,

Credits 2 cr

Required of students in Programs One and Two. note: students should not take 788.20 if they are in this course

EDESL 78600 - Phonetics of American English

Phonological (phonetic and phonemic) analysis of contemporary American speech.

prereq or coreq: LING 70100 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Required of students in the Adult Program and for students in Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 78700 - TESOL for Children: Pre-K–12

Applications of methods, techniques, and approaches for teaching English as a second/foreign language to children. Intensive treatment coverage of classroom management and the setting and exploitation of learning environments.

prereq: LING 70100, EDESL 78300 or permission of TESOL adviser

Hours Includes 25 hrs fieldwork

A field experience is a part of this course. Required of students in both Pre-K–12 Programs One and Two.

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs seminar plus student teaching and conference

Credits 2

this is a year-long course

EDESL 78810 - Supervised Practicum in the Elementary School: Pre-K–6

Teaching practicum at the elementary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices

prereq: completion of 30 credits or permission of TESOL adviser

Hours 15 hr seminar plus supervised teaching and conferences,

Credits 1 cr

For students in Programs One and Two who teach ESL in an elementary school setting. note: students should not take 785.10 if they are in this course

EDESL 78820 - Supervised Practicum in the Secondary School: Grades 7–12

Teaching practicum at the secondary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

prereq: completion of 30 credits or permission of TESOL adviser

Hours 15 hr seminar plus supervised teaching and conferences,

Credits 1 cr

For students in Programs One and Two who teach ESL in a secondary school setting. note: students should not take 785.20 if they are in this course

EDESL 78900 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/ELF to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, materials development.

prereq: LING 701 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Elective for students in the Adult Program and for students in the Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 79000 - Technology in TESOL: Adults

Through reading, class discussions, demonstrations, and hands-on applications, students are introduced to a range of technologies available to adult language learners in the computer laboratory, through distance learning, and on the Internet; students are also exposed to procedures in computer-assisted language learning (CALL) and computer-assisted instruction (CAI).

Hours 45 hrs,

Credits 3 cr

An elective for students in Program 3 and for students in Programs 1 and 2 who have been waived from a required course.

EDESL 79100 - Language Assessment in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

prereq: LING 70100 or BILED 77100

prereq or coreq: EDESL 70500 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79200 - Second Language Literacy: Reading and Writing, Pre-K–12

An in-depth treatment of theory and practice in the teaching of literacy skills, specifically reading and writing, to English language learners in the public schools.

prereq: LING 70100, EDESL 70500 or permission of TESOL adviser; EDC 70400

Hours 45 hrs,

Credits 3 cr

Required of students in both Pre- K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79300 - Technology in TESOL: Pre-K–12

This mini-course covers basic technology and computer operations/concepts (second language learning software; accessing, generating, manipulating data, and publishing results); the use of technology in personal/professional growth; and the applications of technology for language instruction.

Hours 15 hrs,

Credits 1 cr

Required of students in both Programs One and Two and an elective in the Adult Program.

EDESL 79400 - Teaching ESL Students with Disabilities: Pre-K–12

Overview of issues and practices relevant to the teaching and learning of second language learners with special education needs.

Hours 15 hrs,

Credits 1 cr

Required of students in Programs One and Two.

EDESL 79500 - Health Education for Teachers of ESL: Pre-K–12

An overview of health promotion and wellness for teachers of ESL students from diverse ethnic/cultural backgrounds and different abilities in grades pre-K through grade 12. It includes child abuse and neglect, drug education, fire safety education, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Required of students in Programs One and Two.

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

Credits 4 cr.

includes 30 hours fieldwork

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork

Credits 4

20 hours fieldwork

EDESL 79630 - Methodology of Teaching English to Speakers of Other Languages

Hours 25 hrs fieldwork
Credits 4 cr.

EDESL 79800 - Student Teaching in Academic ESL

Hours 60 hrs fieldwork.
Credits 2

EDESL 79900 - Adult Fieldwork / Practicum

Hours 60 hrs fieldwork.
Credits 2 cr.

ESESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Programs 1 and 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Hours includes 10 hrs fieldwork
Credits 4

ESESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4

Department of Curriculum and Teaching

About the Department

Welcome to the Department of Curriculum and Teaching at Hunter College, the home of a wide variety of graduate and undergraduate programs that will prepare you for one of the highest callings in society: education. Along with the other departments in the School of Education, we carry on the original mission of Hunter College: the preparation of educators.

As part of the largest department in the Hunter College School of Education, Curriculum & Teaching programs prepare teachers and other school personnel in the areas of Childhood Education (elementary), Adolescent Education (secondary), Early Childhood Education, Literacy, Bilingual Education, Teaching English to Speakers of Other Languages (TESOL—K-12 and Adult), and Administration & Supervision. Our primary mission is to prepare teachers

for any classroom environment, although we are particularly committed to preparing teachers for the challenges of public education in an urban setting.

The Department of Curriculum and Teaching houses the majority of the programs and courses in the Hunter College School of Education, working closely with departments in the School of Arts & Sciences to train teachers in content area knowledge, and in the methods of teaching such subject areas as English/Language Arts, Social Studies, Foreign Languages, Music, ESL, Bilingual Education, Math, and Science. Its programs ask future teachers and administrators to be thoughtful and knowledgeable educators, advocates for children and other learners, active promoters of social justice, knowledgeable resources, and effective future leaders in education.

Education: Adolescent Education

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100

coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500

Hours 15 hours of seminar; 48 hours of fieldwork

Credits 1

Education: Childhood Education

CEDC 70200 - Advanced Elementary Literacy Methods

Advanced Elementary Literacy Methods is the second course of a two-part sequence designed for graduate, pre-service teacher candidates to expand and apply their understanding of the pedagogical strategies and content necessary to teach English language arts to elementary students. In this course, teacher candidates will demonstrate effective literacy instruction through assessing, planning, and teaching elementary students' learning in all facets of literacy and

throughout the content areas.

coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600 Reflective Practice in Elementary School Social Studies Curriculum Development, SPED 70800, CEDC 77300 Fieldwork & Teaching Seminar 2.

Hours 45

Credits 3

CEDC 73900 - Advanced Methods in Elementary School: Mathematics, Science, and Social Studies

This graduate advanced methods builds on and extends the initial methods courses in the areas of mathematics, science, and social studies and also explicitly connects theory from mathematics, social studies, and science methods courses to practice by supporting teacher candidates to design and enact lessons in the context of the elementary school classroom. Students will grapple with the complexities of how students learn content and design/conduct assessments, develop lesson plans and unit plans, and critically reflect on their teaching practice. Students will face the realities of teaching content in schools given the school resources in terms of curriculum and technology and within the curriculum guidelines of the state and district.

prereq or coreq: CEDC 70300, CEDC 70600, CEDC 70500

Credits 3

In order to take this course students have to be accepted into the 'clinically rich' track of the Masters in Childhood Education program that leads to certification.

Education: Literacy Education

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork

Credits 3

Department of Educational Foundations

About the Department

The Department of Educational Foundations & Counseling Programs prepares students to enter the teaching and counseling professions, eventually to obtain the appropriate certification(s), which will help them establish, improve and maintain themselves within these professions.

Departmental courses are the basis of training in education and human services. The Department of Educational Foundations includes the disciplines of psychology, sociology, anthropology, history and philosophy. Research in these areas, when applied to education and counseling, provides the foundation for understanding individuals in the learning and counseling process and the social psychological context in which personal development and learning occur. In addition, the study of the history and the philosophic foundations of American education and counseling is essential for

enabling future teachers and counselors to meet the ever-changing intellectual and social needs of a diverse body of individuals in a pluralistic, democratic society.

Departmental course offerings are offered in three distinct areas: psychological foundations; social foundations and counseling. All courses are anchored in theory and research-based knowledge from which we emphasize applications to the urban environment, the applied use of theory to influence policy and practice, and solutions to concrete and practical problems that school and counseling professionals experience in daily practice.

The department's preparation of teachers and counselors goes beyond the acquisition of specific skills and methods. The focus of the department is on the professional identity and development of students so that they understand and seek to influence the social, political and economic context in which they function.

Department of Special Education

About the Department

Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special schools, special classes/inclusive classrooms, resource rooms, pre-self-contained classrooms, special schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter College have been nationally recognized by the Council for Exceptional Children.

The School of Education offers master's degree and advanced certificate programs in special education that lead to New York State teacher certification. Specializations in special education include: early childhood special education; early childhood special education with an annotation in severe/multiple disabilities (including deafblindness); childhood special education, learning disabilities; childhood special education, behavior disorders; childhood special education with an annotation in severe/multiple disabilities (including deafblindness); deaf and hard-of-hearing; blind and visually impaired; and adolescent special education generalist.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a variety of disabilities to be applied across a range of education settings. Specializations provide in-depth preparation for working with students within a particular disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.

Education: Doctoral

SPED 80100 - Research on Effective Practice and Curriculum for Students with Disabilities

Throughout history, society has responded to students with disabilities in many ways—from placing them in specialized schools to providing no education whatsoever. Grounded within the Civil Rights Movement, the institution of special education evolved as society's response to children and youth with disabilities who had traditionally experienced a significantly inferior education in comparison to their non-disabled counterparts. In 1975, with the passage of P. L. 94-142, The Education of All Handicapped Children Act, children and youth with disabilities came to enjoy the same rights as children without disabilities, being guaranteed a "free and appropriate" public education. However, the institution of special education has always inspired disagreement among various constituents in society, including parents, policy makers, theoreticians, researchers, educators, and people with disabilities. It has offered hope to countless families whose disabled children. It also guarantees an education to all citizens, reduces the number of students with disabilities dropping out of school, increases the number attending college, and develops many forms of innovative pedagogy. Critics have pointed out special education's relationship to: stigmatizing difference; maintaining racial stratification in schools; segregating many migrant and indigenous children; diluting the curriculum; and contributing to the "school-to-prison pipeline" in which three-quarters of those incarcerated have significant struggles in literacy.

Given these tangled issues, some questions that they raise include: Who defines disability within schools? Who benefits? Who is disadvantaged? Where and how should students with disabilities be educated? What constitutes effective teaching practices and curriculum for students with disabilities? Whose responsibility are they? What are some differences among scholars who look at disability as scientific fact versus those who view it as a natural form of human variation? Most importantly, in what ways does how to understand disability impact upon creating and executing research upon students with disabilities?

This course provides the opportunity to consider disability in the context of schools and society—with view to engaging with, and critiquing, existing research in the fields of special education and disability studies in education (DSE). We will be mindful of how the disposition and paradigm of researchers influences all aspects of their work including: problems identified; questions asked; methods used; analysis employed; findings or results; interpretations, and: implications. This course focuses on the nature of evidence-based practice involving students with disabilities within specific contexts. The course is designed to provide a foundation for the course work, independent scholarship, and educational research that students will undertake in the process of completing the doctoral degree.

Hours 3 hrs.

Credits 3 cr.

Education: Special Education

EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.

Hours 3 hrs

Credits 3

SPED 79700 - Topics in Special Education

prereq or coreq: SPED 70000

Hours 15-45 hrs.

Credits 1-3

SPEDE 70700 - Research Seminar: Issues in Early Intervention and Early Childhood Special Education

Integration of theory, research and practice as related to the field of early childhood special education. Focus is on researching and applying evidence-based practices with fidelity across individuals and environments.

prereq or coreq: SPEDE 778.10 OR SPEDE 779.10

Hours 3 for 5 weeks

Credits 1 cr.

Programs and Courses in English

English

About the Department

Students make the choice to pursue graduate study in English for a number of reasons, both professional and personal, and bring to this study a wide variety of experiences and strengths. MA programs in English at Hunter are designed with this intellectual and practical diversity in mind. Through study with the Department's research-inclined and pedagogically committed teaching faculty, our students are afforded myriad opportunities to develop and practice more sophisticated reading, writing and research skills than those required at the undergraduate level. In addition, those who enroll receive guidance in improving their own expertise as not just scholars but teachers of literature. Interested students may choose an English - MA in Literature, Language, and Theory, an MA in Adolescent English - MA / Advanced Certificate, or a Creative Writing - MFA .

Programs and Courses for English

Programs and Courses for MA and Creative Writing MFA

Adolescent English - MA / Advanced Certificate (Program for Teachers of Adolescent Education (Grades 7-12))

Note: See the School of Education section of this catalog for additional information on admission and program requirements. The School of Education also offers an Advanced Certificate in Adolescent Education for holders of an English MA.

Doctor of Philosophy

The PhD program in English is based at the City University Graduate Center. See Bulletin of the Graduate Center for a description of the PhD program and the complete list of courses. See also the Graduate Center website <http://www.gc.cuny.edu/>

Graduate Masters

Creative Writing - MFA

Hunter's Creative Writing MFA is a highly selective program in which students work closely with distinguished writers to perfect their writing skills. The course comprises workshops, craft seminars, one-on-one supervisions with faculty, and literature classes. There are three concentrations, fiction, creative nonfiction and poetry, with 12 students in each. Each year, several students are named Hertog Fellows (fiction and nonfiction) and Friedman Scholars (poetry). These students receive a generous stipend and are paired with well-established writers, for whom they conduct research for one semester.

Departmental Requirements for Admission

Candidates must have completed a BA or equivalent at an accredited institution. In addition to the Hunter College application, the candidate must submit a creative writing manuscript (10-20 pages of poetry or 20-30 pages of fiction or creative nonfiction) and a 500-word personal statement describing the candidate's relationship to his/her creative work, literary influences, and why the MFA would be beneficial to the candidate's writing career. In addition, creative nonfiction candidates must submit a 500-word memoir proposal. The GRE is not required.

Departmental Requirements for the Degree

Each candidate must complete an approved program of study of at least 36 credits, which must include:

- 1) Four writing workshops in chosen genre
- 2) Two courses in MA literature (not including ENGL 788)
- 3) Four MFA craft seminars in chosen genre

ENGL 79800 - Writing in Conference

Individual tutorial directed by a member of the writing faculty.

Hours 45 hrs,

Credits 3 cr

To be taken in sequence with ENGL 79900 (MFA Thesis).

-or-

ENGL 79701 - Poetry Thesis One

This course gives students the conceptual framework to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time.

prereq: ENGL 79101 and ENGL 79403

Hours 3
Credits 3
Second Year MFA students only

4) One course in MFA thesis

ENGL 79900 - MFA Thesis

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

Hours 45 hrs,
Credits 3 cr
To be preceded in sequence by ENGL 79800 (Writing in Conference).
-or-

ENGL 79702 - Poetry Thesis Two

This course is a continuation of Thesis One and gives students the conceptual framework with which to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time. To this end, this course begins with an exploration of the history of the Modern Poetic Sequence and the Long Poem.

prereq: Workshop 79101 and Craft 79403 , Thesis One 79701
Second Year MFA students only

Master of Fine Arts Thesis

The candidate must submit a satisfactory master of fine arts thesis consisting of either 40-60 pages of poetry or 75-125 pages of short stories, novella or novel-in-progress (for fiction candidates) or 75-125 pages of personal essays or memoir (for creative nonfiction candidates), which will be approved by two members of the writing faculty. Two copies prepared for binding are required.

English - MA

The MA program in Literature, Language, and Theory offers opportunities for both professional advancement and personal development. It may be taken as a terminal course of study or as preparation for doctoral work in English or other humanities fields. In addition to the usual lecture, discussion, and seminar classes, the program offers reading tutorials and the opportunity for writing a research essay under the guidance of a senior faculty member.

Admission Requirements

In addition to the general requirements for admission, the following departmental requirements must be met: 18 credits of advanced undergraduate courses in British and American literature (exclusive of courses in journalism and writing), a writing sample of about 10 pages (preferably an undergraduate research paper) and the GRE General Test. Students who have done their major work in English in non-English-speaking countries are usually not eligible for admission to graduate courses in English without additional undergraduate preparation in an American college or university.

Degree Requirements

Each candidate must complete an approved program of study of at least 30 credits, which must include one course in British literature before 1800 and ENGL 78900 (Master's Thesis). We strongly recommend that students take ENGL 78700 (Studies in Literary Theory and Criticism) in their first or second semester. Courses other than those offered in the Department of English may be credited toward the 30 credits with the approval of the graduate adviser but they may in no case exceed 6 credits. Six credits of relevant graduate work done at another institution may be credited when approved by the graduate adviser.

Courses

ENGL 78700 - Studies in Literary Theory and Criticism

An in-depth investigation of foundational and current trends in literary theory.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Foreign Language

The candidate must demonstrate a reading knowledge of French, German, Latin or Spanish. Another language may be substituted with the approval of the graduate adviser.

Comprehensive Examination

The candidate must pass a written take-home examination/paper in literature, language, and theory.

Master of Arts Thesis

The candidate must submit a satisfactory master of arts thesis, incorporating original work and research, which will be approved by two appropriate members of the faculty and the graduate adviser. Two copies prepared for binding are required.

Nonmatriculants

After applicants have been accepted by Hunter College as nonmatriculant students, their records must be evaluated prior to registration by the graduate adviser before they can be admitted to English Department courses. Acceptance by Hunter College does not guarantee acceptance by the Department of English. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

English - Introductory Courses

ENGL 70100 - Introduction to Literary Studies

Introduction to methods of literary criticism, textual scholarship, and major critical approaches of the last eighty years.

ENGL 70200 - Introduction to Literary Theory and Criticism

Foundation course on the history of literary interpretation and contemporary approaches to texts.

*Hours 45 hrs,
Credits 3 cr*

English - Creative Writing

ENGL 79000 - Topics in Fiction Writing: Workshop

Studio-style workshop of students' fiction, with weekly submissions and critique.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79100 - Topics in Poetry Writing: Workshop

Studio-style workshop of students' poetry, with weekly submissions and critique.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79200 - Topics in the Craft of Fiction

Seminar in craft of fiction; topics and readings will vary by semester.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79400 - Topics in the Craft of Poetry

Seminar in craft of poetry; topics and readings will vary by semester.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79500 - Topics in Memoir Writing: Workshop

Graduate writing workshop in memory and autobiography. Students will present memoir and autobiographical writings to be critiqued by members of the workshop and the instructor.

*Hours 45 hrs,
Credits 3 cr*

ENGL 79600 - Topics in the Craft of Memoir:

Participants will study the writer's craft in creative non-fiction in memoir, essay, and/or autobiography. Particular attention will be paid to narration, description, dialogue, characterization, and use of time, through both set examples

and writing exercises suggested by the works read.

Hours 45 hrs,

Credits 3 cr

ENGL 79701 - Poetry Thesis One

This course gives students the conceptual framework to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time.

prereq: ENGL 79101 and ENGL 79403

Hours 3

Credits 3

Second Year MFA students only

ENGL 79702 - Poetry Thesis Two

This course is a continuation of Thesis One and gives students the conceptual framework with which to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time. To this end, this course begins with an exploration of the history of the Modern Poetic Sequence and the Long Poem.

prereq: Workshop 79101 and Craft 79403 , Thesis One 79701

Second Year MFA students only

ENGL 79800 - Writing in Conference

Individual tutorial directed by a member of the writing faculty.

Hours 45 hrs,

Credits 3 cr

To be taken in sequence with ENGL 79900 (MFA Thesis).

ENGL 79900 - MFA Thesis

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

Hours 45 hrs,

Credits 3 cr

To be preceded in sequence by ENGL 79800 (Writing in Conference).

English - Medieval and Early Modern Literature

ENGL 70400 - Beowulf and Other Early Texts

Detailed study of Beowulf and other selected texts written in Britain in the early Middle Ages, in their cultural, political and historical contexts.

ENGL 70500 - Chaucer's Early Works

A study of Chaucer's earlier works (exclusive of The Canterbury Tales) in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 70600 - Chaucer: Canterbury Tales and Later Works

Detailed study of The Canterbury Tales and later works in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 70700 - Studies in Medieval Literature

Selected Medieval texts in poetry and prose, both British and continental European, in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 71200 - 16th-century Poetry and Prose

Reading and analysis of texts of the sixteenth century in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 71300 - Shakespeare's Early Works

Study of selected texts, with emphasis on works written before 1600, in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 71400 - Shakespeare's Late Works

Study of selected texts, with emphasis on works written after 1600, in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 71500 - Studies in Shakespeare

Selected works by Shakespeare in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45

Credits 3

ENGL 71600 - 16th- and 17th-century Drama excluding Shakespeare

Exploration of British dramatic texts of the Early Modern period, in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 71700 - 16th- and Early 17th-Century Poetry and Prose

Study of major forms of Early Modern poetry and prose, in their cultural, political and historical contexts.

ENGL 71800 - Studies in Early Modern Literature

Selected studies in the literature of the sixteenth through early eighteenth centuries, in its cultural, political and historical contexts.

ENGL 72200 - Milton: Early Works and Paradise Lost

A critical study of Milton's early works and his major epic Paradise Lost, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 72300 - Studies in Milton

Selected works by Milton in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45 hrs,

Credits 3 cr

ENGL 72500 - Studies in Restoration and 18th-century Literature

Literary works of the Restoration and eighteenth century in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

English - Eighteenth and Nineteenth Century Literature

ENGL 73000 - 18th-century Poetry

Reading and analysis of eighteenth-century poems in their cultural, political and historical contexts.

ENGL 73100 - 18th-century Prose

An analysis of the rise of the British novel in the eighteenth century, and a consideration of other forms of prose in the period in their cultural, political and historical contexts.

Hours 45 hrs,

Credits 3 cr

ENGL 73300 - Studies in 18th-century Literature

Selected study of eighteenth-century British and/or transatlantic poetry and prose in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 73400 - Early American Literature

A study of literature in the Americas from the sixteenth through eighteenth centuries in its cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 74000 - Romantic Poetry

Selected British and Continental poetry from the Romantic period, the late-eighteenth and early-nineteenth centuries, in its cultural, political and historical context.

Hours 45

Credits 3

ENGL 74100 - Studies in Romanticism

Selected study of British, Continental European, or transatlantic Romanticism in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45,

Credits 3

ENGL 74300 - Victorian Literature

Study of nineteenth century British poetry and prose works in their cultural, political and historical contexts.

Hours 45,

Credits 3

ENGL 74900 - 19th-century Prose of the United States

A study of selected nineteenth century prose works of the United States, both fiction and nonfiction, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75000 - 19th-century Poetry of the United States

A study of selected nineteenth century poetic works of the United States, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75100 - 19th-century African American Literature

An examination of poetry and/or prose, written by African Americans during the nineteenth century, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75200 - Studies in 19th-century Literature

Selected study of British, American and/or other Anglophone nineteenth century literature in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45

Credits 3

ENGL 75300 - Studies in Late Victorian and Early Modernist Literature

A study of literature of the fin-de-siècle in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 45

Credits 3

English - Twentieth and Twenty-First Century Literature

ENGL 75400 - 20th-century British and Irish Prose

A study of prose works of the twentieth century, written in Britain or Ireland, or by British or Irish writers, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75500 - 20th-century British and Irish Poetry

A study of poetic works of the twentieth century, written in Britain or Ireland, or by British or Irish writers, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75600 - 20th-century Prose of the United States

Fiction and nonfiction prose in twentieth century U.S. literature, in its cultural, political and historical context.

Hours 45

Credits 3

ENGL 75700 - 20th-century Poetry of the United States

Study of poetry written in the U.S. and the various poetic movements of the century, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75800 - 20th-century African American Literature

An examination of poetry and/or prose, written by African Americans during the twentieth century, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 75900 - Studies in Modernism

Study of literary works of the modernist movement of the earlier twentieth century in U.S. and/or British literature, in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 76000 - Later 20th-/Early 21st-century literature

Selected works in British and/or United States literature from the 1950s to the present in their cultural, political and historical contexts.

Hours 45

Credits 3

ENGL 76100 - Studies in 20th- and 21st-century literature

Study of representative literary works from the later 20th and early 21st centuries in their cultural, political and historical contexts.

Hours 45

Credits 3

English - Topics In Literature, Language, Culture and Theory

ENGL 76500 - Studies in British and American Literature

Study of a topic, figure, critical issue or period in either British or American literature in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 76600 - Studies in Ethnicity and Race in Literature

Exploration of a specific topic pertaining to ethnicity and racial formation as it relates to the study of literature.

ENGL 76700 - Studies in Postcolonial/Transnational Literature and Theory

Study of postcolonial and/or transnational literatures in their cultural, political and historical contexts.

ENGL 76800 - Studies in South Asian and Indian Diasporic Literature

Study of South Asian literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 76900 - Studies in African and African Diasporic Literature Outside the U.S.

Study of African literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77000 - Studies in Caribbean Literature

Study of Caribbean literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77100 - Studies in African American Literature

Selected African American poetry and prose, in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 77200 - Studies in Asian American and Asian Diasporic Literature

Study of Asian American literatures in their cultural, political and historical contexts.

ENGL 77300 - Studies in U.S. Latina/o Literature

Study of U.S. Latina/o literatures in their cultural, political and historical contexts

ENGL 77400 - Studies in Native American Literature

Study of Native American literatures in English in their cultural, political and historical contexts.

ENGL 77500 - Studies in Irish Literature

Study of Irish literatures from precolonial, colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77600 - Studies in Digital Media

Study of British and American literary texts in relation to the digital arts, and exploration of theories of digital literary production.

ENGL 77800 - Studies in Comparative Literature

A study of two or more literary figures, genres, national or scholarly periods, or theoretical approaches, across or within national languages.

ENGL 78000 - Studies in Drama, Theatre and Performance

A literary studies approach to drama, theatre and performance.

ENGL 78100 - Studies in Gender and Sexuality in Literature and Theory

Exploration of the role of gender and sexuality in literature and literary theory.

ENGL 78200 - Studies in Literature by Women

An in-depth critical analysis of literature written by women, focusing on a specific period, topic and/or set of critical questions.

ENGL 78400 - Studies in the Work of a Single Writer

An in-depth study of a single writer, the critical conversations surrounding that writer, and that writer's legacy in her or his genre(s).

ENGL 78500 - Studies in Literature and Language

Study of the ways in which literary language reflects differing social and cultural contexts; exploration of phonology, semantics, and discourse theory.

ENGL 78600 - Studies in Rhetoric

Exploration of rhetoric in its cultural, political and historical contexts.

ENGL 78700 - Studies in Literary Theory and Criticism

An in-depth investigation of foundational and current trends in literary theory.

English - Teacher Education

ENGL 60700 - English Linguistics

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

Hours 45 hrs,

Credits 3 cr

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

Hours 45 hrs,

Credits 3 cr

ENGL 68100 - Reading Credit

Course of readings designed according to student's interests and needs. Work is directed by member of department.

Hours 45 hrs,

Credits 1-3

English - Concluding Courses

ENGL 78800 - Reading Credit

Course of readings designed according to student's interests and needs. Work is directed by a full-time faculty member of the department.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Programs and Courses in Geography

Geography

About the Department

The Department of Geography at Hunter College is the largest and one of the most technologically advanced geography programs in the New York City metropolitan region. The Master of Arts in Geography program focuses on urban geography, earth science and physical geography, nature-society interaction, and GeoInformatics/GIS (Geographic Information Systems). Our faculty teach and mentor students in areas related to urban economic change and gentrification; ethnicity, race, and gender geographies; urban sustainability; climate change, water resources, and sea level rise; environmental modeling; remote sensing and Lidar; geospatial technology and GIS applications. MA graduates often continue with their graduate work in PhD programs in Geography and related fields. Many also become professionals whose expertise in the above areas is widely used by the governments and administrations of New York City and New York State, the U.S. Bureau of the Census, and private industry; they also develop careers as geography/earth science teachers. In addition, the department offers a post-baccalaureate Certificate in GIS that MA students can earn concurrently. We also co-advise, with the School of Education, the BA/MA program in Environmental Studies and Adolescent Education.

Faculty and students participate in various research projects that often focus on New York City populations, environments, and neighborhoods. Many of the projects use geospatial technologies and tools for analysis of geospatial information including open source tools. The Department of Geography takes pride in helping to advance the careers of underrepresented groups in geography and related fields.

Programs and Courses

Programs and Courses in Geography

Programs Offered in the School of Education

Programs Offered in the School of Education

Doctor of Philosophy

The Department of Geography participates in the PhD Program in Earth and Environmental Sciences based at the CUNY Graduate Center. Students in this program may select Hunter College as their "home" college and geography as their specialty. Since 2005 this program has a separate track in geography. For application forms and further information, write to: Executive Officer, PhD Program in Earth and Environmental Sciences, CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016 or go to www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Earth-and-Environmental-Sciences

Graduate Certificate

Geographic Information Science Post-Baccalaureate Certificate

Return to: Geography Department

The Post-Baccalaureate Certificate Program in Geographic Information Science was established in 2001 to meet the demand for people with expertise in GIS. The GIS Certificate program is a 15-credit post-baccalaureate professional program that offers advanced training in Geographic Information Science (GIS). Students are required to take five graduate-level GIS classes including GTECH 71000 - Concepts and Theories in GeoInformatics , GTECH 73200- Advanced GeoInformatics , and three other GTECH or related courses. Students are strongly urged to include GTECH 70900 - Introduction to Geographic Information Systems in their list of courses. Those interested in GIS development are encouraged to take two programming-oriented classes (GTECH 73100 - GeoComputation I and GTECH 73300 - GeoComputation II). Students planning a career in GIS applications are encouraged to choose from the wide range of applications courses. Students interested in remote sensing may take the sequence of GTECH 71200 - Remote Sensing of Environment through GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing courses and those interested in cartography and geovisualization may take GTECH 72100 - Introduction to Cartographic Design and Geovisualization and GTECH 72200 - Advanced Topics in GeoVisualization.

Courses taken to fulfill the requirements of the GIS certificate program may also count towards fulfillment of the Geography MA degree. This happens automatically for GIS certificate students who concurrently enroll as MA students. For students who enroll in the GIS certificate program prior to enrolling in the MA program, the student must request the transfer of credits. The GIS Certificate program does not accept transfer credits to satisfy the minimum 15 credits required for the program.

As the GIS certificate program is a non-degree program, GIS certificate students are considered "non-matriculated." Enrollment in the GIS certificate program does not guarantee eligibility for financial aid or for a student visa. For more information contact the United States Citizenship and Immigration Services (<http://www.uscis.gov/portal/site/uscis>).

[Return to the Geography Department](#)

Admission Requirements

For applicants who are currently matriculated and in good standing in a graduate-degree program at Hunter College, there is one requirement to be considered for admission:

The student must have passed a college-level statistics course that covers hypothesis testing and simple statistical modeling techniques.

All other applicants must meet the following minimum requirements in order to be considered:

1. The student must hold a bachelor's degree from a regionally accredited institution, comparable in standard and content to a bachelor's degree from Hunter College.
2. The student must demonstrate the ability to pursue graduate work successfully. In general, the minimum requirements for consideration are a B-minus average in the undergraduate record as a whole and a B average in the major.
3. The student must have taken a college-level statistics course which covers basics such as hypothesis testing and simple statistical modeling techniques.

Requirements for the Certificate

Completion of the post-baccalaureate certificate program in GIS requires a minimum of 15 credits, which include:

Required courses (6 cr.)

GTECH 71000 - Concepts and Theories in GeoInformatics

Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science.

coreq: GTECH 70900

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73200 - Advanced GeoInformatics

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

prereq: GTECH 70900 and GTECH 71000

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$15

Electives (9 or more cr)

GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

prereq: Permission by instructor

Hours 3 hrs

Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics.and permission of the instructor

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

GTECH ourses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the

middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor

Hours 60 hours (2 lecture and 2 hour labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra

Hours 6

Credits 3`

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900

Hours 4 hrs

Credits 3 cr.

Material Fee: \$15

GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in the current issues and technology in cartography and geographic visualization. It takes the fundamentals acquired in GTECH 72100 and expands into animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 72100 or equivalent

Hours 75 hrs including conference (1 lecture 4 labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science,

quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$15

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

prereq: GTECH 71000 or equivalent

Hours 6

Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$ 15

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser

Hours 3

Credits 3

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 785XX - GIS Applications

Selected topics in GIS applications to human and physical geographic problems.

prereq: GTECH 71000 or equivalent and permission of the department

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Equivalent GIS applications courses offered through other Hunter departments such as Public Health, Sociology, or Urban Planning.

Minimum GPA Requirement

3.0 average or better on all core and elective courses. Additional elective courses may be added to this list or may be used as substitutes with the approval of the GIS Certificate adviser.

Application Deadline

For fall semester: July 1 (April 1 for international students)
For spring semester: January 1 (November 1 for international students)

[Return to: Geography Department](#)

Graduate Masters

Geography - MA

[Return to: Geography Department](#)

The Department of Geography offers a Master of Arts in Geography with a range of courses in human geography, physical geography, regional geography, and geographic techniques and methods. There are four broad concentration areas: environmental studies, geographic information science, places and cultures, and urban geography studies. The program accommodates students with a variety of professional backgrounds, and with academic training in social sciences, computer science, environmental science / engineering as well as traditional geography.

The program emphasizes geographic and social theory and analytical methodologies in human, physical, and environmental geography, as well as geographic information science. A limited number of research, teaching, and college assistantships are available. The MA degree can be completed through either a thesis or exam. Full-time students may be able to complete the MA within three semesters, but the average time for degree completion is three years. Many courses are offered in the evening to accommodate part-time and working students.

An MA in Geography from Hunter can lead to employment with local and national governments, international agencies, non-government organizations, corporations, consultants and information technology companies. The New York area is home to diverse urban communities, dynamic economies and cultures, government structures of all levels (from local to international), and corporate headquarters. Located on Manhattan's Upper East Side, Hunter College is close to these activities and is highly accessible from all parts of New York City and surrounding areas. Students who wish to continue graduate work at the PhD level will find themselves well prepared and equipped with the research and technical skills necessary for advanced research.

Admissions Requirements

Admissions procedures are as established by the Hunter College Office of Graduate Admissions. See Graduate Admissions: General . Candidates must have a BA or BS or equivalent, an undergraduate GPA of at least a B minus, with a B average in the major, and (normally) the completion of at least 18 credit hours in geography. A lack of a background in geography will not impede admission, but the student is expected to gain basic knowledge of geography prior to graduation in consultation with the student's adviser. It is recommended that students enter the program with knowledge of basic statistics. All students are required to take the Graduate Record Examination. Foreign students whose first language is not English must take the Test of English as a Foreign Language. Two letters of recommendation are required.

If you have any questions about the information in this catalog, please contact the Geography MA adviser (Prof. Hongmian Gong, gong@hunter.cuny.edu).

Application Deadlines

For fall semester: April 30 (February 1 for international students) For spring semester: November 30 (September 1 for international students)

We encourage graduate application submissions by early deadlines of September 1 and February 1. This will help with allocation of scholarships and funding if these are available.

Requirements for the Degree

The Master of Arts consists of 31 or 36 graduate credits, depending on the program option chosen, selected from three types of courses: **GEOG**, **PGEOG** and **GTECH**. **GEOG** classes cover human geography, nature/society, and regional geography, while **PGEOG** classes cover physical geography and environmental science. **GTECH** courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing, and cartography. Classes vary in their structure from laboratory classes to lecture/discussions and seminars. Graduate courses outside of the **GEOG**, **GTECH** and **PGEOG** prefixes may be applied to the degree within the parameters listed below.

Students must complete a minimum of credits in one of the following options:

A. Thesis Option:

A minimum of 31 credits consisting of:

1. A minimum of 30 credits of course work consisting of

(exclusive of GEOG 799)

GEOG 70100, 70200, 70154 (7 cr)

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference

*Credits 3
spring only*

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

*Hours 15 hrs including conference,
Credits 1 cr*

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

A minimum of 11 additional credits

A minimum of 11 additional credits selected from GEOG, GTECH and PGEOG courses.*

A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH or PGEOG courses as approved by the graduate adviser. **

2. One credit of the following leading to a thesis approved by the student's graduate advisers

GEOG 79900 - Thesis Research in Geography

Open to students electing the thesis option only.

prereq: GEOG 701 and permission of the department

1-6cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

3. Formal approval of a study proposed for thesis research.***

4. A completed thesis.

5. A formal presentation of the student's thesis research.

B. Examination Option:

A minimum of 36 credits consisting of:

1. Geography (7 cr)

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,

Credits 1 cr

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference

Credits 3

spring only

A minimum of 17 additional credits

A minimum of 17 additional credits selected from GEOG, GTECH, and PGEOG courses.*

3. A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH, and PGEOG courses as approved by the graduate adviser.**

4. A passing grade on the comprehensive examination

A passing grade on the comprehensive examination conducted by the student's graduate committee.

5. A research paper of publishable quality

A research paper of publishable quality prepared in the format of *The Professional Geographer* or its equivalent.

6. A formal presentation of the student's research paper.

Additional Information

Students who are accepted into the program, who have already earned credits with a grade of B or higher as nonmatriculated students, may transfer only two (2) courses or eight (8) credits, whichever is greater, from nonmatriculated status to matriculated status. In exceptional situations, up to 12 credits earned as a nonmatriculated student may be transferred to matriculated status.

Although both options may prepare students for additional graduate work, the thesis option is recommended for those who might wish to pursue the PhD in geography or an allied field. The examination option is recommended for students seeking a terminal MA.

Students who are accepted into the Geography MA program and register for courses may transfer up to a maximum of 9 credits of relevant graduate coursework from regionally accredited institutions, including courses taken at Hunter College while enrolled in another degree program, whether a master's degree was awarded or not. Transfer of credits is subject to review and approval by the Graduate Adviser. Applicants to this program should be aware that there is no promise of automatic transfer of credit on the graduate level. With the approval of the Graduate Adviser, students may include up to 9 credits of graduate-level courses taken outside the Department of Geography at Hunter College toward completion of their degree, including transferred courses and courses taken in other CUNY graduate programs. (Exception: students who have received their B.A. in Geography or Environmental Studies from Hunter College may, with the approval of the Graduate Adviser, include up to twelve credits taken outside the department.)

Language Requirement

A foreign language is not required for the MA in geography. However, students interested in regional studies or further graduate work are strongly encouraged to master a foreign language. Students emphasizing technical skills are strongly encouraged to master one or more computer programming languages.

Completion Time

The School of Arts and Sciences allows four years to complete a MA degree. A petition to the Dean is required to exceed the limit. Most full-time students are able to complete the MA requirements in 4 semesters or fewer. To accommodate all students, many courses are offered during the evening.

Assistantships

A limited number of teaching and research assistantships are available from the department. Students seeking assistantships should state so in their statement of purpose included with the application. They should also indicate what skills and qualifications they have for research or teaching assistance.

Note(s)

** Graduate students entering the program without a geography background will be required to take 6 credits in geography outside their principal area of concentration (GEOG, PGEOG or GTECH).*

*** Graduate students entering the program without a geography background will be limited to 6 credits taken outside the program. Students who were undergraduate majors in geography can appeal to the Graduate Committee to take more than 12 credits outside the program.*

**** Students must submit to their committee the proposal for thesis research no later than the end of the semester in which they finish their 20th credit in the program.*

Return to: Geography Department

Undergraduate Major/Graduate Masters

BA/MA in Environmental Studies and Adolescent Education.

The Geography Department together with the School of Education also offers a 5-year combined BA/MA Program in Environmental Studies and Adolescent Education. This program is designed for highly qualified Environmental Studies majors who, during the course of their sophomore year, decide to pursue a career in secondary school teaching. For more information please contact the Department of Geography.

Human Geography, Nature/Society and Regional Geography

GEOG 50100 - Principles of Geography

Introduction to human and physical geography.

prereq: graduate standing, member of the Teacher Education Program, and department permission

Hours 45 hrs including conference,

Credits 3 cr

Open to students who have never had a college level geography course. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference

Credits 3

spring only

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,

Credits 1 cr

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70500 - Cultural and Social Geography

Review of recent work in cultural and social geography; emphasis on literature, critiques.

prereq: GEOG 34700 and 34100 or permission of instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70528 - Introduction to Environmental Ethics

Do animals have rights? Do ecosystems have interests? Are humans separate from the environment? How have the answers to these questions been shaped by scientific understanding and religious belief? How should they be? The development of environmental philosophies and ethics, and how they have interacted with controversial environmental issues, will be explored. Reading assignments include canonical and contemporary philosophers as well as environmentalists. In addition to theory, we will discuss the applications of these ideas in local to global environmental problems. The course will focus on ethical philosophies from the western world, but non-western philosophies might also be discussed.

prereq: none

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70562 - Post-Socialist Geographies

For graduate students in geography, anthropology, economics, sociology, environmental psychology and other related fields. This course examines major political, economic, and social theories that aim to explain the current transformations in post-socialist countries. The neo-liberal theories and policies of transition to capitalism and their consequences are critically examined. The devastating effects of capitalism uncontrolled by democratic governments and labor are discussed.

prereq: GEOG278 or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70592 - Ethnic Geography of Hawaii

Lecture and field examination of historical and contemporary ethnic geographies of Hawaii, particularly in relation to land tenure, land use, immigration, the sugar plantation economy, annexation, and statehood. Ethnic landscapes and ethnic economies of the Honolulu metropolitan area.

prereq: permission from the department

Credits 3

winter session Acceptance into Hunter College Study Abroad Program and fee for transportation, accommodations required.

GEOG 70600 - Latin Americanist Geography

Major paradigms, theories and methodologies in geographic research on Latin America including historical, cultural, social, economic, urban, physical, and environmental geography.

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70800 - The Geographies of Urban Space

Critical geographic perspectives on urban development and internal urban space. Latest literature in urban political economy, feminist, and post-structuralist geography with a focus on class, gender and ethnicity in urban space.

prereq: graduate standing and GEOG70100 or GEOG 74300 or equivalent or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70957 - Geography of The New York Metropolitan Area

An historical and contemporary geography of the New York Metropolitan area structured around the New York State Social Studies Core Curriculum and the National Geography Standards. The course will address the relationship between the physical and social geographies of the five boroughs and the surrounding areas of the Hudson and Long Island; the impacts of significant historical and political events on the region's social and economic geography; and the impacts of changing transportation modes in the evolution of the region.

*Hours 45 hrs,
Credits 3 cr*

GEOG 70957 - Regional Geography of the New York Metropolitan Area

Geographic basis of the development and functioning of the NYC metropolitan area. Physical site and situation; spatial aspects of its political, social and economic structures.

*Hours 45 hrs including conference,
Credits 3 cr*

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71000 - Economic Geography

Interactions between people and the natural environment on economic, political and cultural endeavors. Formation of labor markets and their segmentation by class, gender, and ethnicity/ race. Change in production systems and economic globalization. Interconnections between economic systems across local, regional, national, and international scales.

*Hours 45 hrs including conference,
Credits 3 cr*

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71156 - Coastal Zone Management

The increasing pressure on the coast is demonstrated with competing demand that leads to conflicts with respect to the carrying capacity of our most precious resource area. The course addresses critical issues related to environmental constraints, the carrying capacity of coastal areas and the need for coastal zone management.

*Hours 45 hrs including conference,
Credits 3 cr*

Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71200 - Geography of Sustainable Development in Developing Countries

Analysis of factors that influence sustainable development, e.g., available resources, environment, population, food production, water supply in developing countries.

*prereq: graduate standing and one course focusing on development of a developing region, or permission of instructor
Hours 45 hrs including conference,*

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 71300 - Rural Water Supply in Developing Regions

Quality, problems, management, and sustainability of rural water supply and sanitation in developing countries.

prereq: graduate standing and one course focusing on development of a developing area, or permission of instructor
Hours 45 hrs including conference,
Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71500 - International Pollution Issues

Global environmental hazards are covered. Issues ranging from intergovernmental efforts to document pollution, to the policy needed to curtail pollution of the future will be addressed. A focus will be on transboundary air and water pollution.

Hours 45 hrs including conference,
Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 74100 - Population Geography

Theoretical and empirical analyses of spatial distribution of population. Particular emphasis is on processes and impacts of migration, residential mobility, and immigration.

Hours 45 hrs including conference,
Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74200 - International Migration and Ethnicity

Asynchronous online seminar. Examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analyses of ethnic and racial minorities in the United States.

Hours 45 hrs including conference,
Credits 3 cr

GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74300 - Urban Geographic Theory

Spatial analysis of contemporary and theoretical issues concerning the economic growth, transportation, land use, social segregation, and urban governance in metropolitan areas.

Hours 45 hrs including conference,
Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 79100 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 1, 2 or 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79200 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 1, 2 or 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79300 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 1, 2 or 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79900 - Thesis Research in Geography

Open to students electing the thesis option only.

prereq: GEOG 701 and permission of the department

1-6cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Geographic Methods and Techniques

GTECH 785xx - GIS Applications

Selected topics in GIS applications to human and physical geographic problems

prereq: GTECH 71000 or equivalent or permission of the department

Hours 3

Credits 3

GTECH 785xx - GIS Applications

Selected topics in GIS applications to human and physical geographic problems.

prereq: GTECH 71000 or permission of the department

Hours 45 including conference

Credits 3

GTECH 785XX - GIS Applications

Selected topics in GIS applications to human and physical geographic problems.

prereq: GTECH 71000 or equivalent and permission of the department

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 785XX - GIS Applications: Modeling the Urban Environment

Development of GIS data models for all thematic dimensions of the urban environment with an eye for interoperability.

prereq: GTECH 71000 or equivalent and permission of the department

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

prereq: Permission by instructor

Hours 3 hrs

Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science,

quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 70800 - Seminar in GeoInformatics

This seminar is an introduction to the wider GeoInformatics field/industry. Students will be exposed to a number of professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the community. The goals of this seminar course are twofold: to introduce students to the wider GeoInformatics community, and to promote networking and lasting interactions with local and regional GeoInformatics professionals. Students will identify, approach, and invite local and/or regional GeoInformatics professionals to give a talk in one of the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of the course, the student will be required to discuss the speaker's work, and the research, news, or information that the speaker presented.

Hours 1 hr.

Credits 1 cr.

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

coreq: GTECH 71000

Hours 4 hrs.

Credits 3 cr.

GTECH 71000 - Concepts and Theories in GeoInformatics

Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science.

coreq: GTECH 70900

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor

Hours 60 hours (2 lecture and 2 hour labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$ 15

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra

Hours 6

Credits 3`

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 71400 - Special Topics in Remote Sensing

Advanced work on topics in remote sensing; may be repeated for credit; lab work.

Hours 45 hrs-90 hrs including conference,

Credits '2-4 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. Prereq and lecture/lab mix to vary with topic.

GTECH 71500 - Seminar in Remote Sensing

Examination and discussion of current published research work in remote sensing. Topics to vary with instructor and student interest.

prereq: GTECH 712. GTECH 713 recommended

Hours 45 hrs including conference,

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900

Hours 4 hrs

Credits 3 cr.

Material Fee: \$15

GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in the current issues and technology in cartography and geographic visualization. It takes the fundamentals acquired in GTECH 72100 and expands into animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 72100 or equivalent

Hours 75 hrs including conference (1 lecture 4 labs weekly),

Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$15

GTECH 72300 - Seminar in Cartographic Research

Development of cartographic research methods by participation in research projects; reviews of current cartographic literature; library research techniques.

prereq: GTECH 721

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

prereq: GTECH 71000 or equivalent

Hours 6

Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 73200 - Advanced GeoInformatics

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

prereq: GTECH 70900 and GTECH 71000

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: \$15

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser

Hours 3

Credits 3

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 73400 - GeoWeb Services

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial and open source software solutions and learn how to set up, manage, and use these services. Students will explore the different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on readings provided by the instructor. In the second half of the semester, each student will work on a project that involves the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

prereq: GTECH 73100 GeoComputation I

Hours 3 hrs.

Credits 3 cr.

GTECH 73500 - Location Based Services

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present a topic to the class based on readings provided by the instructor, and each student will participate in the group work to develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google Glass) will be provided.

prereq: One of the following:

GTECH 70500 Spatial Data Analysis

GTECH 73100 GeoComputation I

CSCI 13500 Software Design and Analysis I

Hours 3 hrs.

Credits 3 cr.

GTECH 75100 - Field Techniques in Geography

Observation and analysis of the physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as data collection and recording, ground-truthing of remotely sensed images, and the use of maps, compasses and GPS to navigate. Additional fee for transportation, room and food allowance required.

prereq: GTECH 71000 or equivalent, any two additional GEOG, GEOL, PGEOG or GTECH courses, and permission

of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 78501 - Urban Applications of GIS

Discussion of data, methodology, and examples of using GIS to solve urban problems in economic, social, planning, and political settings. Students are expected to conduct small research projects addressing real world issues.

prereq: GTECH 70900

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 78502 - GIS Applications in Social Geography

Data representation and analysis of socio-spatial processes and environmental problems. The course is oriented to problem solving and independent data analysis. Students will fulfill an independent GIS project from data collection and database design to analysis and interpretation of results.

prereq: GTECH 70900

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

GTECH 79100 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 1

A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

GTECH 79200 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

May be repeated for a maximum of 6 credits with permission of the graduate adviser.

prereq: permission of the instructor or the graduate adviser

Credits 2

A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

GTECH 79300 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser

Credits 3

A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

Physical Geography

PGEOG 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 70100 - Special Topics in Physical Geography

Examination of one physical geography topic such as hydrology, climatology, soils; lab exercises.

Hours 45 hrs-75 hrs including conference,

Credits '2-4 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70152 - Hydrology

Provides students an understanding of the hydrologic cycle - the most fundamental principle of hydrology and emphasizes an understanding of the complete hydrological cycle processes at global, regional and watershed scales.

prereq: PGEOG 130 or permission from the instructor

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70160 - Biogeography

This course provides an understanding of the geographic distribution and temporal variability of species, communities, and other organizing units over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics.

prereq: PGEOG 13000 or GEOG 10100 or BIO 10000/10200 or permission from the instructor

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70179 - Geology of NYC and Vicinity

Focus on the complexity of the geology of the New York Metro area and its vicinity. Using urban public transportation, walking, and hiking, students will directly observe natural exposures of the large variety of rock outcroppings in the area. Course consists of lectures, laboratory exercise, and geologic field trips. Recommended for students in the Teachers of Earth Science (7-12) MA program.

prereq: GEOL 10100 or an equivalent course in introductory geology

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70180 - Geology of New York State

Links fundamental knowledge about the earth materials and earth processes to the complex geology of New York State. Covers the latest information about the geologic ages of rock formations in New York State, plate tectonics, bedrock geology, including metamorphic, igneous, and sedimentary rocks, fossils, and ancient environments. The course consists of lecture, laboratory exercises, and field trips to the Catskill Mountains, Hudson Highlands, the Manhattan Prong, and Montauk Point. Recommended for students enrolled in the Teachers of Earth Science (7-12) MA program.

There will be an additional charge for transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70300 - Coastal Dynamics

Quantitative focus on the dynamic processes affecting the coast and the resulting varied geomorphology. In particular, this course will focus on waves, beaches, barrier island evolution, storm systems and coastal erosion, using the Atlantic coast of New York as a case study. Research and field work expected.

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70400 - Urban and Metropolitan Coasts

Physical and quantitative rationale for planning coastal constructions with emphasis on urban coasts. Lectures will focus on natural and anthropogenic influences on coastal environments, and problems facing seaside communities.

Hours 45 hrs including conference,

Credits 3 cr

spring only Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70563 - Earth Science Today

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth's lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 70564 - Introducing Earth Science at the Museum of Natural History

This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 70567 - Science of Rocks – Petrology

Composition, distribution, and origin of rocks, their scientific description and systematic classification with the focus on the rocks of the New York Metro area. Topics include rock microscopy; field observations of rocks and the relation to the principles of geology; interpretation of geologic maps; lithospheric rock cycle in the context of plate tectonics and earth evolution; and the geology of New York City and its relationship to urban issues. Recommended for earth science students and others interested in the study and uses of rock. There will be an additional charge for local transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70568 - Earth Materials Research

Collection, preparation, identification, and preservation of earth materials-rocks, minerals, and fossils using earth materials from the collection of the Department of Geography. Observations will be based on direct research, measurement, microscopy, and microchemistry. Trips to the American Museum of Natural History, Franklin and Sterling mines (NJ) and the St. Claire and Deer Lake fossil sites (PA) for specimen collection. Recommended for earth science students and others interested in the study of earth materials. There will be an additional charge for transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 71000 - Introduction to GIS

This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 73200 - Global Climatic Change

Examination of the pre-Quaternary, Quaternary, post-glacial, historical and instrumentally recorded climates; greenhouse gases; aerosols; radiative forcing; processes and modeling; feedbacks; observed changes; detecting the greenhouse effect; sea level rise; effects on ecosystems.

prereq: a course in atmospheric, geological or environmental science.

Hours 45 hrs including conference,

Credits 3 cr

spring only Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 79100 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200, and permission of the instructor or the graduate adviser

Credits 1, 2 or 3

May be repeated for a maximum of 6 credits with the permission of the graduate adviser

PGEOG 79200 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200 and permission of the instructor or graduate adviser

Credits 1, 2 or 3

May be repeated for a maximum of 6 credits with the permission of the graduate adviser

PGEOG 79300 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200 and permission of the instructor or the graduate adviser

Credits 1, 2 or 3

May be repeated for a maximum of 6 credits with permission of the graduate adviser.

Geography: Courses offered if demand is sufficient

GEOG 70300 - Location Theory and Spatial Analysis

GEOG 70400 - Topics in Human Geography

This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70572 - GIS Law

GEOG 71100 - Environmental Conservation

GEOG 72100 - Transportation Geography

PGEOG 70200 - Seminar in Physical Geography

PGEOG 70500 - Topics in Earth Science

Programs and Courses in History

History

About the Department

The department offers two graduate level programs in history. The first is a master's degree through a joint program with the School of Education. This degree prepares students for New York State certification, which will enable them to teach social studies at the adolescent level (grades 7 – 12). The second leads to an MA in History with a concentration selected by the student in consultation with the faculty. This degree serves as either a terminal degree or as preparation for historical study on the doctoral level, which students can undertake at other institutions.

Programs and Courses

Programs and Courses in History

Program for Teachers of Adolescent Education (Grades 7-12) — Social Studies Master of Arts

See the School of Education section of this catalog for additional information on admission and program requirements.

Graduate Masters

History - MA

The MA is offered either as a terminal degree or as the first year (30 credits) of work toward fulfilling the requirements of the PhD within the City University. The university's doctoral program in history is described in the Bulletin of the Graduate Center. <http://web.gc.cuny.edu/History/>

Advanced doctoral seminars and university colloquia are offered at the CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016.

Requirements for Admission

General admission requirements to the graduate programs in the arts and sciences are observed. Eighteen undergraduate credits in History, a 3.0 average, and satisfactory GRE scores are required, as well as two letters of recommendation.

Requirements for the Degree

Each candidate must complete an approved program of study of at least 30 credits, including the thesis seminar, with a B average. Students will be strongly encouraged to take the following two courses: HIST 78000 - History Colloquium for First-Year MA Students and HIST 79000 - Research Methods for First-Year MA Students, a colloquium and a research methods course. Courses other than those in the Department of History at Hunter College may be credited toward the 30 credits with the approval of the graduate adviser, but they may in no case exceed 9 credits.

A reading knowledge of one foreign language is required, to be determined by a written examination offered twice per year. The choice of language must have the approval of the graduate adviser.

After completion of all other requirements, the candidate for the degree must present a satisfactory master's thesis prepared in conjunction with the thesis seminar (HIST 77900), approved by two faculty scholars in the appropriate field of history and the graduate adviser. Guidelines for the writing of the master's thesis are available from the graduate adviser online and in the History Department office.

American History

HIST 74151 - Era of American Revolution

The development of the English-American colonies from early settlement through 1763.

*Hours 3 including conference,
Credits 3*

HIST 74250 - Nineteenth-century United States: Early Republic

Economic, social, and political aspects of American history from 1789 to 1828.

*Hours 45 hrs including conference,
Credits 3 cr*

HIST 74400 - Twentieth-century United States

Study of reform movements and of political, economic, and social developments in U.S. in the 20th century.

*Hours 3 including conference,
Credits 3*

HIST 74500 - Twentieth-century United States: United States as a World Power

This course considers America's impact on the world in the twentieth-century and, at the same time looks at the way the world influenced life in twentieth-century America.

*Hours 3 including conference,
Credits 3*

HIST 75000 - History of the American Labor Movement

The history of the American labor movement from the late-nineteenth through the late-twentieth centuries, with a focus on the various ways American laborers organized themselves and struggled for control over their work and their daily lives.

*Hours 3 including conference,
Credits 3*

HIST 75500 - Growth of the American City

Development of the city as physical environment, social experience, political entity, and cultural symbol from the colonial era to the present.

*Hours 45 hrs including conference,
Credits 3 cr*

HIST 75650 - U.S. Constitutional History

The development of American constitutionalism from its English origins to the implementation of the U.S. Constitution

*Hours 3
Credits 3*

HIST 77207 - Race and Racism in U.S. History

Examines the centrality of racial politics and racism in U.S. history. Considers the social experiences produced by racialization and various political movements for racial equality.

Hours 3 including conference
Credits 3

HIST 77409 - Gender and Sexuality in the U.S.

Examines recent work in the twentieth-century history of gender and sexuality in the United States.

Hours 3
Credits 3

HIST 77427 - United States Since 1865

Considers the history of the U.S. from 1865 to the Vietnam war. Focuses on political, social and international developments.

Hours 3 including conference
Credits 3

Asian History

HIST 76802 - East Asia: 1600 - Present

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.

Hours 3 including conference
Credits 3

HIST 76804 - East Asia: Ancient Times to 1600

Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600

Hours 3 including conference
Credits 3

HIST 76805 - China Since 1800

Internal and external challenges to China's traditional order; the collapse of the imperial system and the establishment of a republic; the warlord period; the war against Japan; the civil war between Communist and Nationalist forces; China since the rise of the Communist Party to state power in 1949.

Hours 3
Credits 3

HIST 77461 - Rise and Fall of Chinese Communism

Examines the intellectual, political and international context of the origin of the Chinese Communist Party, explores debates and factional struggles between party leaders and inquires into the challenges posed from without the party. Introduces contending explanations of the Communist Party's rise to state power and its shifting policies and ideological justifications since that time.

Hours 3

Credits 3

History Advanced Research

HIST 77800 - Individual Tutorial Research

Hours 45 hrs including conference,

Credits 3 cr

HIST 77900 - Thesis Seminar: Independent Research

Required of all candidates for MA in history.

Hours 45 hrs including conference,

Credits 3 cr

HIST 78000 - History Colloquium for First-Year MA Students

This team-taught course, which MA students will be strongly encouraged to take, is designed to help incoming students gain greater understanding of different geographic and thematic fields of historical study.

Hours 3

Credits 3

Fall semester discussion-based seminar; grading is Pass-Fail

HIST 79000 - Research Methods for First-Year MA Students

This course, which MA students will be strongly encouraged to take, is designed to help first-year students develop their skill as researchers and writers, as they prepare to begin working on their theses in the second year of the program.

Hours 3

Credits 3

Spring semester

History Internship

HIST 79800 - Internship

Fieldwork in organizations engaged in historical research.

prereq: perm grad adviser

Hours 45 hrs including conference,

Credits 3 cr

Jewish History

HIST 74000 - Modern Jewish Social and Intellectual History

Jewish movements and thinkers since 18th century; changing aspects of Jewish identity, new philosophies, impact of anti-Semitism and Zionism.

*Hours 45 hrs including conference,
Credits 3 cr*

HIST 74800 - American Jewish History

Jewish life, 17th century to present: immigration, distribution, community structure, leaders, cultural creativity, economic and social integration, minority/majority relations.

*Hours 3 including conference,
Credits 3*

Latin American History

HIST 76600 - Colloquium in Latin American History

*Hours 3 hrs
Credits 3 cr.*

HIST 77411 - Colonial Latin America

Provides an overview of the early political, economic, cultural and social history of Latin America (1400s – 1820s) from the immediate pre-Hispanic era until the wars of independence in the 1820s.

*Hours 3
Credits 3*

Middle Eastern History

HIST 76801 - Middle East, 1500 – Present

Introduces Middle East history from the sixteenth century, during the period of the time of the great Ottoman and Persian empires, to the present.

*Hours 3
Credits 3*

HIST 76804 - Middle East to 1800

Introduces the origins and development of the history and civilization of the Middle East since the advent of Islam in the Arabian peninsula until 1800.

Hours 3
Credits 3

HIST 77444 - Women and Gender in Islam

Examines, through translated works, the various roles that Muslim women have assumed, and the wide variety of their experiences since the beginning of Islam in the sixth century to the modern period.

Hours 3
Credits 3

Russian, Soviet and Eastern European History

HIST 72900 - Soviet Foreign Relations in a Changing World

Objectives and strategies which the Soviet leadership adopted and mapped out at each stage in the period 1917 to 1945.

Hours 3 including conference,
Credits 3

Global and Transnational History

HIST 77472 - Human Rights and the Non-Western World

Focuses on the idea of human rights as it has been understood and propagated in the non-Western world. The primary focus is on the twentieth century.

Hours 3
Credits 3

History: Courses offered only with sufficient student demand

HIST 71252 - Modern Intellectual History 18th – 20th Centuries

Hours 45 hrs including conference,
Credits 3 cr

HIST 72700 - History of African Americans in the United States

Hours 45 hrs including conference,
Credits 3 cr

HIST 74150 - Colonial America

HIST 74300 - History of Civil War and Reconstruction Era in United States

Hours 45 hrs including conference,
Credits 3 cr

HIST 74700 - Nineteenth-century American Reform Movements

*Hours 45 hrs including conference,
Credits 3 cr*

HIST 75400 - Contemporary Europe

*Hours 45 hrs including conference,
Credits 3 cr*

HIST 76803 - Gandhi

*Hours 3
Credits 3*

HIST 77301 - The Long Nineteenth Century: Comparative History

*Hours 3
Credits 3*

HIST 77302 - Making the Nation in Nineteenth-Century Europe

*Hours 3
Credits 3*

HIST 77303 - Britain's Long Century: 1688 – 1830

*Hours 3
Credits 3*

HIST 77412 - Topics and Themes: Debating the Rise of the West

*Hours 3
Credits 3*

HIST 77414 - Revolutionary England 1603-1714

*Hours 3
Credits 3*

HIST 77414 - Women in Modern Europe

Hours 3
Credits 3

HIST 77429 - Concepts in Jewish History

Hours 3
Credits 3

HIST 77434 - Reformation and Wars of Religion

Hours 3
Credits 3

HIST 77440 - Modern European History: Fact and Fiction

Hours 3
Credits 3

HIST 77450 - Hitler and National Socialism, 1919 - 1945

Hours 3
Credits 3

HIST 77453 - Biography and Autobiography in U.S. History

HIST 77457 - Immigration and Ethnicity in the United States

Hours 3
Credits 3

HIST 77462 - Women and Family in the United States

Hours 3
Credits 3

HIST 77471 - History of Judaism

Hours 3
Credits 3

HIST 77497 - Major Works and Themes in US History

Hours 3
Credits 3

Programs and Courses in Integrated Media Arts

Film and Media Studies

About the Department

With a world class faculty and up-to-date production facilities, Hunter College's Department of Film & Media Studies offers two undergraduate programs of study. One program leads toward a major in Film, combining film history and theory with film production. The other leads toward a major in Media Studies, combining critical media analysis with creative practice using a mix of contemporary media forms.

The department's graduate degree, and MFA in Integrated Media Arts, focuses on politically and socially engaged creative work and the social role of media and technology. Our program educates multi-disciplinary media professionals, socially aware and competent in the diverse range media skills that are being brought together in a digital media environment.

Mathematics Grades 7-12 Adolescent Education - BA/MA

Students interested in secondary school teaching may pursue a combined BA/MA program in teaching. This program requires a minimum of 141 credits.

Admission Requirements for the BA/MA in Teaching

1. Completion of at least 45 credits with a GPA of 3.0.
2. Completion of at least 10 credits in mathematics, including a year of calculus (**MATH 150** and **155** or the equivalent), with an average of 2.7 in these major courses.
3. Admission to the School of Education

Degree Requirements for the BA/MA in Teaching

BA in Mathematics or Statistics

The 33 credits required for the BA in Mathematics **OR** the 32 credits required for the BA in Statistics, as described in the Undergraduate Catalog

Graduate Courses in Mathematics and Statistics

The following 15 graduate credits:

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission

Hours 3

Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none

Hours 3

Credits 3

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300

Hours 3

Credits 3

-or-

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.

Hours 45

Credits 3

Comprehensive Examination in Mathematics

Also required is a comprehensive examination in mathematics mathematics consisting of three parts covering the material in MATH 62000, 63000 and 63300. Students may sit for the comprehensive examination only after having taken all three courses. Students who fail any part of the examination need only retake that part of the examination. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the Mathematics/Statistics Chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the student can take the exam a third and final time.

School of Education Courses

The student should consult the School of Education section of the graduate college catalog for the sequence of teacher education courses

Mathematics or Statistics and Applied Mathematics - BA/MA

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's degree requirements with a minimum of 120 credits. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the departmental graduate adviser for further information regarding eligibility and curriculum requirements.

Option 1: BA/MA Program in Mathematics

Students complete the BA in pure mathematics with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

Option 2: BA/MA Program in Statistics and Applied Mathematics

Students complete the BA in statistics or mathematics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.

Mathematics: Pure Mathematics - MA

Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in mathematics. But there are always several students with an undergraduate degree in a related topic and a few whose undergraduate background is completely unrelated. In both of these cases, the students filled out their mathematics background prior to applying for admissions.

Students use this program for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Admission Requirements for the MA in Pure Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. The Department's requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

and at least one of

MATH 72200 - Modern Algebra II

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

or

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

2. Analysis Requirement

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and L_p spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 45

Credits 3

and at least one of

MATH 74200 - Analytic Functions

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

prereq: MATH 35300 or equivalent and departmental permission

Hours 3

Credits 3

A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

or

MATH 74700 - Theory of Functions of a Real Variable II

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

3. Geometry and Topology Requirement

at least one of

MATH 75100 - General Topology

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

prereq: advanced calculus or permission of Department

Hours 45

Credits 3

or

MATH 75000 - Calculus on Manifolds

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

prereq: MATH 26000 and MATH 35200 or permission of the instructor.

Hours 3

Credits 3

4. Elective Course Requirement (15 credits)

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department's course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

5. Written comprehensive examination

Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Note

For further information on the MA in Pure Mathematics, please contact Professor John Loustau: jloustau@msn.com.

Statistics and Applied Mathematics - MA

Three program sequences are available for the MA in Statistics and Applied Mathematics, Track I: Statistics and Track II: Applied Mathematics, Track III: Bioinformatics.

- Statistics and Applied Mathematics - Track I: Statistics
- Statistics and Applied Mathematics - Track II: Applied Mathematics
- Statistics and Applied Mathematics Track III: Bioinformatics

Statistics and Applied Mathematics - Track I: Statistics

Return to: Programs and Courses in Mathematics and Statistics

Admission Requirements for Track I: Statistics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Statistics

Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 45 hrs,

Credits 3 cr

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

STAT 70700 - General Linear Models II

A review of multivariate linear model and maximum likelihood estimation. Nonlinear regression models. Logistic and Poisson regression models. Family of generalized linear models. Multidimensional tables. Odds ratio. Model selection and evaluation. Computer-based exploratory data analysis. Examples from the life sciences.

prereq: STAT 70600 or equivalent

Hours 45

Credits 3

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the **MATH 70000** and/or **STAT 70000** level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Project (3 credits, 1 course)

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 45

Credits 3

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

Note(s)

For further information on the MA in Statistics, please contact the statistics adviser.

**The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.*

***Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.*

Return to: Programs and Courses in Mathematics and Statistics

Statistics and Applied Mathematics - Track II: Applied Mathematics

Return to: Programs and Courses in Mathematics and Statistics

Most students in Track II do their project in differential equations. The context may be engineering or finance. The techniques may be from numerical analysis or statistics or a combination of these.

Admission Requirements - Track II: Applied Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Applied Mathematics

Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

MATH 60100 - Mathematical Methods for the Physical Sciences

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

prereq: a course in ordinary differential equations

Hours 45 hrs,

Credits 3 cr

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and L_p spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 45

Credits 3

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 45 hrs,

Credits 3 cr

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the **MATH 70000** and/or **STAT 70000** level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Suggested electives are:

MATH 64200 - Introduction to Theory of Functions of a Complex Variable

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: a course in advanced calculus

Hours 45

Credits 3

MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations

Hours 45

Credits 3

MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 and departmental permission

Hours 3

Credits 3

One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

prereq: a course in multivariate calculus and a course in linear algebra

Hours 45

Credits 3

Familiarity with MAPLE or MATHEMATICA encouraged

MATH 74700 - Theory of Functions of a Real Variable II

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70700 - General Linear Models II

A review of multivariate linear model and maximum likelihood estimation. Nonlinear regression models. Logistic and Poisson regression models. Family of generalized linear models. Multidimensional tables. Odds ratio. Model selection and evaluation. Computer-based exploratory data analysis. Examples from the life sciences.

prereq: STAT 70600 or equivalent

Hours 45

Credits 3

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 45

Credits 3

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability

Hours 45

Credits 3

STAT 72600 - The Theory and Methods of Sampling

The techniques of modern sampling with applications to human population studies. Structured sampling designs. Unequal probability sampling. Efficient sampling. Accuracy, precision and the sources of bias. Longitudinal panel study design. The study of available Federal data bases relating to the health and welfare of US residents.

prereq: STAT 70100 or equivalent, or permission of the department

Hours 45

Credits 3

STAT 73900 - Bayesian Statistics

Conditional probability. Normal prior and likelihood. Conjugate and improper prior distributions. Bayesian statistical paradigm and inference using sample-based numerical methods (e.g., EM, MCMC). Markov chains and Hidden Markov Models. Computer lab sessions.

prereq: prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.

Hours 3

Credits 3

STAT 78600 - Modeling and Visualization

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences.

prereq: Departmental permission

Hours 3

Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or permission of the instructor

Hours 45

Credits 3

Project

The student, guided by a member of the faculty, prepares a project in applied mathematics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department
Hours 45
Credits 3

MATH 77700 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 45
Credits 3

Note(s)

**The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.*

***Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.*

Return to: Programs and Courses in Mathematics and Statistics

Statistics and Applied Mathematics Track III: Bioinformatics

Return to: Programs and Courses in Mathematics and Statistics

Admission Requirements for Track III: Bioinformatics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

The Bioinformatics track allows students with career plans in the biomedical sciences and without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics. In addition to the above departmental requirements for admission to the MA program in Statistics and Applied Mathematics, it is required that the student have an adequate undergraduate training in biological sciences, chemistry, or related fields, as well as strong computer programming skills. The following track requirements, or their equivalents, are the minimal requirements that the student must meet in order to enter the Bioinformatics track:

1. One semester of introductory biology (BIOL 10000 or equivalent)
2. One year of general chemistry (CHEM 10200-10500 or equivalent)
3. One semester of organic chemistry (CHEM 22200 or equivalent)
4. One semester of biological chemistry (BIOL 30000 or equivalent)

5. Familiarity with UNIX and database programming (CSCI 13200-23200 or equivalent)

Degree Requirements for Track III: Bioinformatics

*Thirty credits (10 courses) chosen as follows:

Core Curriculum** (15 credits, 5 courses)

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

STAT 71600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re sampling schemes; robust estimation; and robust regression methods.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 45

Credits 3

This course is cross-listed with BIOS 75600

-or-

STAT 71700 - Multivariate Analysis

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection- pursuit.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 45

Credits 3

STAT 73900 - Bayesian Statistics

Conditional probability. Normal prior and likelihood. Conjugate and improper prior distributions. Bayesian statistical paradigm and inference using sample-based numerical methods (e.g., EM, MCMC). Markov chains and Hidden Markov Models. Computer lab sessions.

prereq: prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.

Hours 3

Credits 3

Electives (12 credits, 4 courses)

Four graduate courses in biology, chemistry, or related fields. These must constitute a cohesive curriculum in bioinformatics, and must be approved by the Graduate Bioinformatics Adviser.

Suggested electives in the natural sciences are:

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

ANTH 79300 - Human Evolutionary Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

BIOL 79049 - Computational Molecular Biology

An introduction to bioinformatics **theories** and **practices**. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.

spring only

CHEM 69803 - Chemical Genomics

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the

other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

Hours 3

Credits 3

Project (3 credits, 1 course)

The student, guided by a member of the faculty, prepares a project in bioinformatics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 45

Credits 3

Notes

For further information on the MA in Bioinformatics, please contact the *statistics adviser*.

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.

**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.

Mathematics

MATH 60100 - Mathematical Methods for the Physical Sciences

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

prereq: a course in ordinary differential equations

Hours 45 hrs,

Credits 3 cr

MATH 61000 - Mathematics for the Elementary School from an Advanced Standpoint

Study, from an advanced standpoint, of the mathematics involved in the elementary school common core, with special focus on Numbers and Quantities; Algebra and Change. Open only to Teacher Education Program students.

prereq: MATH 10400 and MATH 10500 or their equivalent. Entry is by departmental permission.

Hours 3 hrs

Credits 3 cr.

The course is intended for students in the Elementary Mathematics Specialist Program.

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 62100 - Introduction to Abstract Algebra

Introduction to the theory of groups and rings.

prereq: a course in linear algebra

Hours 45 hrs,

Credits 3 cr

MATH 62200 - Further Topics in Advanced Abstract Algebra

Elements of Galois theory, construction with ruler and compass, advanced topics in ring theory and linear algebra.

prereq: a course in introductory abstract algebra

Hours 45 hrs,

Credits 3 cr

MATH 62300 - Theory of Numbers

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

prereq: a course in linear algebra

Hours 45 hrs,

Credits 3 cr

MATH 62800 - Number Systems

Postulational construction of the positive integers. Development of the rational integers, the rational numbers, the real numbers, the complex numbers, together with binary operations and order relations. Topics from hypercomplex number systems or the theory of transfinite numbers.

Hours 45

Credits 3

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission

Hours 3

Credits 3

MATH 63400 - Geometries I

Topics in affine and projective geometry and/or topics in differential geometry.

prereq: a course in linear algebra

Hours 45

Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none

Hours 3

Credits 3

MATH 64000 - Topics in Calculus

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

prereq: MATH 63000

Hours 45

Credits 3

Open only to Teacher Education Program students

MATH 64100 - Mathematical Analysis I

Mature consideration of theory and processes of calculus, including the Heine-Borel and Bolzano-Weierstrass Theorems.

prereq: MATH 26000 and either MATH 25400 or 25500
Hours 45 hrs,
Credits 3 cr

MATH 64200 - Introduction to Theory of Functions of a Complex Variable

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: a course in advanced calculus
Hours 45
Credits 3

MATH 64500 - Mathematical Analysis II

Continuation of MATH 64100 with an emphasis on functions of several variables.

prereq: MATH 64100
Hours 45
Credits 3

MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

prereq: a course in multivariate calculus and a course in linear algebra
Hours 45
Credits 3
Familiarity with MAPLE or MATHEMATICA encouraged

MATH 65500 - Challenging Concepts in Mathematics: Using Research to Identify Common Misconceptions and Assess Student Learning

Students will explore the key concepts in mathematics that have been identified to cause particular difficulties for students in secondary schools (7-12), as well as in the introductory courses in college. The research literature will be surveyed with a particular emphasis on the methodologies used to uncover these key concepts and to identify student misconceptions. Teaching strategies to enhance student understanding of these key concepts will be explored. Students are expected to produce a research paper.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.

MATH 66100 - History of Mathematics

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

Hours 45
Credits 3

MATH 67100 - Fundamental Concepts of Modern Mathematics

An axiomatic approach to theory of sets; axiom of choice, Zorn's Lemma, transfinite arithmetic.

prereq: any 2 courses chosen from linear algebra, modern algebra, or advanced calculus I and II

Hours 45

Credits 3

MATH 67200 - Mathematical Logic

A survey of the central results and techniques of metalogic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem Theorem; and Church's Theorem on undecidability.

prereq: a course in linear algebra or permission of instructor

Hours 45

Credits 3

MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations

Hours 45

Credits 3

MATH 69000 - Advanced Topics in Mathematics for Teachers

Topics to be studied in any given term will be announced prior to registration.

prereq: MATH 62000 or 63000; additional prereqs vary with specific topics and will be announced at time of course offering

Hours 45

Credits 3

May be repeated as topics vary, but not more than twice.

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

MATH 72200 - Modern Algebra II

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3

Credits 3

The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

MATH 74200 - Analytic Functions

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

prereq: MATH 35300 or equivalent and departmental permission

Hours 3

Credits 3

A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and L_p spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 45

Credits 3

MATH 74700 - Theory of Functions of a Real Variable II

L_p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

MATH 75000 - Calculus on Manifolds

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

prereq: MATH 26000 and MATH 35200 or permission of the instructor.

Hours 3

Credits 3

MATH 75100 - General Topology

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

prereq: advanced calculus or permission of Department

Hours 45

Credits 3

MATH 75200 - Algebraic Topology

An introduction to algebraic topology including homotopy and the fundamental group of a space. Classification of spaces via their fundamental group. Applications to algebra and differential geometry.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3

Credits 3

MATH 77200 - Seminar

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 3

MATH 77300 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 1

MATH 77400 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 1

MATH 77500 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 2

MATH 77600 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 2

MATH 77700 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 3

MATH 77800 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 45

Credits 3

MATH 78000 - Advanced Discrete Structures

Advanced concepts in mathematics of discrete domains such as sets, functions/relations, logic, and graphs. These domains are critical to almost every advanced computer science application including programming languages, software engineering, security, compilers, and computational models.

prereq: departmental permission

Hours 3 hrs

Credits 3 cr.

MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 and departmental permission

Hours 3

Credits 3

One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

MATH 78700 - Advanced Numerical Analysis, Finite Elements

Finite element method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 or equivalent and departmental permission

Hours 3

Credits 3

One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

MATH 79500 - Advanced Topics in Mathematics

Topics to be studied in any given term will be announced prior to registration.

prereq: varies with specific topics and will be announced at the time of course offering

Hours 45

Credits 3

May be repeated as topics vary, but not more than twice.

Statistics

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300

Hours 3

Credits 3

STAT 61300 - An Introduction to Statistics

An Introduction to statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports..Data analysis uses appropriate statistical software. This course is intended for teachers.

Hours 3 hrs.

Credits 3 cr.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.

Hours 45

Credits 3

STAT 70100 - Advanced Probability Theory I

Non-measure theoretic probability. Combinatorics, random variables, distributions. Moment generation functions. Limit laws.

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 45

Credits 3

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 45 hrs,

Credits 3 cr

STAT 70300 - Mathematical Statistics

Bernoulli, binomial, Poisson and other discrete density functions. Continuous distributions: the normal, t, chi square and F distributions. Order Statistics. Point and interval estimation, maximum likelihood and Bayes' estimation. Testing hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

prereq: permission of the department

Hours 45

Credits 3

STAT 70600 - General Linear Models I

The multivariate linear model. Model building. Indicator variables. Variable screening. Residual analysis. Weighted regression. Correlated errors. Multi-collinearity. Polynomial regression. The principles of experimental design. The analysis of variance. Computer lab sessions.

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 45 hrs,

Credits 3 cr

STAT 70700 - General Linear Models II

A review of multivariate linear model and maximum likelihood estimation. Nonlinear regression models. Logistic and Poisson regression models. Family of generalized linear models. Multidimensional tables. Odds ratio. Model selection and evaluation. Computer-based exploratory data analysis. Examples from the life sciences.

prereq: STAT 70600 or equivalent

Hours 45

Credits 3

STAT 71400 - Topics in Statistical Inference

Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

Hours 45

Credits 3

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 45

Credits 3

STAT 71600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re sampling schemes; robust estimation; and robust regression methods.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 45

Credits 3

This course is cross-listed with BIOS 75600

STAT 71700 - Multivariate Analysis

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection- pursuit.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 45

Credits 3

STAT 71800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics include: one-, two- and many way layouts; decomposition and partitioning of variance; fixed-, random-, and mixed-affects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 45

Credits 3

This course is cross-listed with BIOS 75800

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability

Hours 45

Credits 3

STAT 72400 - Topics in Applied Mathematics I

Selected topics. Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

prereq: permission of the department

Hours 45

Credits 3

STAT 72500 - Topics in Applied Mathematics II

Selected topics. Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

prereq: permission of the department

Hours 45

Credits 3

STAT 72600 - The Theory and Methods of Sampling

The techniques of modern sampling with applications to human population studies. Structured sampling designs. Unequal probability sampling. Efficient sampling. Accuracy, precision and the sources of bias. Longitudinal panel study design. The study of available Federal data bases relating to the health and welfare of US residents.

prereq: STAT 70100 or equivalent, or permission of the department

Hours 45

Credits 3

STAT 73900 - Bayesian Statistics

Conditional probability. Normal prior and likelihood. Conjugate and improper prior distributions. Bayesian statistical paradigm and inference using sample-based numerical methods (e.g., EM, MCMC). Markov chains and Hidden Markov Models. Computer lab sessions.

prereq: prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.

Hours 3

Credits 3

STAT 75000 - Applied Biostatistics I

A first course in biostatistics for public health research. Topics include: simple and multiple linear regression; one-way and two-way analysis of variance; nonparametric tests. Focus on practical applications, utilizing statistical software.

Cross-listed BIOS 75000

prereq: C or better in STAT 21300 or an equivalent introductory statistics course. Not open to students who have taken STAT 21400 or STAT 61400. The prerequisites are also satisfied with the combination of PH 70000 and PH 70300.

Hours 3

Credits 3

STAT 75100 - Applied Biostatistics II

A second course in statistics covering quantitative methods applicable in the life sciences. Topics include experimental design, life table analysis, ethical issues, survival analysis, logistic regression, and Cox regression.

Cross-listed BIOS 75100

prereq: STAT 75000 or BIOS 75000 or an equivalent biostatistics course.

Hours 45

Credits 3

STAT 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression, and log-linear models.

Cross-listed BIOS 75200

prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

Hours 3

Credits 3

STAT 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal and random effects models, time-dependent covariates, missing values.

Cross-listed BIOS 75300

prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

Hours 3

Credits 3

STAT 75400 - Design and Analysis of Complex Surveys

An introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

Cross-listed BIOS 75400

prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

Hours 3

Credits 3

STAT 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data and case studies.

Cross-listed BIOS 75500

prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

Hours 3

Credits 3

STAT 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes such as hedging and speculation, and potential problems that can arise in the application of financial derivatives.

prereq: permission of the department

Hours 45

Credits 3

STAT 78600 - Modeling and Visualization

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences.

prereq: Departmental permission

Hours 3

Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or

permission of the instructor

Hours 45

Credits 3

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations

research to complex real problems.

prereq: permission of the department

Hours 45

Credits 3

STAT 79100 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 1

STAT 79200 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 2

STAT 79300 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 3

Mathematics and Statistics: Courses offered only if student demand is sufficient

MATH 74100 - Functional Analysis

Hours 45

Credits 3

STAT 63800 - Special Topics in Applied Statistics

Hours 45

Credits 3

Programs and Courses in Medical Laboratory Sciences

Medical Laboratory Sciences

Programs and Courses in Medical Laboratory Sciences

Certificate in Medical Laboratory Technology

Biomedical Laboratory Management-MS

Biomedical Laboratory Management-MS

The MS in Biomedical Laboratory Management (BLM) is a collaborative offering of the Medical Laboratory Sciences (MLS) Department of Hunter College and the School of Professional Studies, CUNY (SPS/CUNY). The purpose of this degree is to provide a career ladder for laboratory staff. Its focus is the knowledge and skills needed for clinical technologists, research assistants and other technical professionals in biomedical laboratories to move into positions of leadership. This degree does not provide NYS clinical licensure. Full details can be found at [Advanced Certificate in Management](#)

HEGIS CODE 0499.00 NYSED 33447 (Articulating with CUNY School of Professional Studies Advanced Certificate in Management, **HEGIS 0506.00, NYSED 31789**)

Admission Requirements

See general graduate admission requirements for Hunter programs.

You must meet the following minimum requirements in order to be considered for admission. Meeting these minimum requirements does not guarantee acceptance to the program.

- A bachelor's degree in clinical lab science, biology, chemistry or a related discipline from a regionally accredited institution comparable in standard and content to a bachelor's degree from Hunter College.
- Minimum undergraduate grade point average of 3.0
- A course (or equivalent experience) in Molecular Biology (pre- or co-requisite)
- A minimum of one year of bench experience in a biomedical laboratory
- Two letters of recommendation from appropriate academic or professional references.
- A statement of purpose of approximately 500 words, including a bit about the path that brought you to this degree, and your motivation to pursue opportunities for a position in laboratory management.
- The GRE is not required for admission.
- Applicants whose native language is not English and who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit scores on the Test of English as a Foreign Language (TOEFL). The following minimum scores must be obtained:
 - Paper Based Test: 550
 - Computer Administered Test: 213
 - Internet Based Test: 60 (less speaking component)

Curriculum

The required 30 credits are divided between Hunter College, offering science and biomedicine classes, and the School of Professional Studies, CUNY, offering business and management classes. The MS degree will be granted by Hunter College following transfer of courses making up the Advanced Certificate in Management from SPS/CUNY.

Required courses from Hunter College are:

- Concepts of Disease: Diagnostic Strategies (MLS 70000)
- Emerging Laboratory Technologies (MLS 70100)
- Topics: Biohazards and Emergency Response (MLS 40066/EOHS 77025)
- Management Practicum (MLS 71000)
- Risk Management for the Biomedical Laboratory (MLS 72000)

Courses from Hunter that may be used to fulfill the 6 credit elective requirement are:

- Graduate Independent study (MLS 77000)
- Principles of Epidemiology (PH 75300)
- Introduction to Biostatistics PH 75000)

The SPS certificate requires 9 credits (the required courses are shown below).

- Financial Management (MGMT 681)
- Organizational Behavior (ORG 680)
- Human Resource Management (MGMT 680)

In addition, the following courses from SPS may be used to fulfill the 6 credit elective requirement:

- Health Care Administration (HCA 600)
- Evaluation of Healthcare Policy (HCA 603)
- Labor-Management Relations (LABR 603)

Cytotechnology: Post-Baccalaureate Certificate

Cytotechnology is an allied health profession that specializes in the study of cells from the human body. Working with a microscope and a variety of analytical technologies, some of which are automation-assisted, cytotechnologists evaluate cell samples from gynecologic (e.g., Pap smears), nongynecologic and fine needle aspiration (FNA) specimens to detect cancer, precancerous lesions, benign tumors, and infectious processes. Cytotechnologists are trained laboratory professionals who help to save lives by identifying diseases early on and monitoring a patient's response to therapy.

The AC in Cytotechnology will prepare graduates for the professional practice of cytotechnology. Cytotechnologists evaluate cell samples from patients to detect cancer, precancerous lesions, benign tumors and infectious processes. The AC will be administered in collaboration with Memorial Sloan-Kettering Cancer Center (MSKCC). The program is an intense three-semester (Fall/Spring/Summer) training program that will be conducted at the laboratory facility of the MSKCC Cytology Service.

Program

A 26-credit graduate level post-baccalaureate Advanced Certificate (AC) in Cytotechnology within the Medical Laboratory Sciences (MLS) department of Hunter College (HC). Students who complete the AC will be eligible to take the New York State Department of Education (NYSED) cytotechnologist licensure examination, which is the same as the American Society of Clinical Pathology (ASCP) Board of Certification's Cytotechnologist Certification

Examination. A New York State (NYS) cytotechnologist license is required for individuals practicing cytotechnology in a NYS clinical laboratory. As described below the AC in Cytotechnology is designed as a collaboration between HC and the currently existing School of Cytotechnology at Memorial Sloan Kettering Cancer Center (MSKCC).

Admission criteria

Admission criteria are designed to satisfy the requirements for cytotechnology curricula as described in Article 165, Section 52.39 of the Clinical Laboratory Technology Practice Act (<http://www.op.nysed.gov/prof/clt/part52-39.htm>). They consist of a baccalaureate or higher degree in the major of medical laboratory sciences, biology, chemistry or the physical sciences with the following pre-requisite courses or their equivalent as determined by the program: inorganic chemistry, organic chemistry, anatomy & physiology, cell biology, mathematics and statistics, human genetics, immunology and clinical microbiology. Minimum GPA of 3.0/4.0.

NYS Licensure Curricular Requirements for Registered Cytotechnology Programs

The curriculum for the AC in cytotechnology was developed to meet the coursework and curricular content stipulated in NYS regulations, Section 52.39: Registration of Curricula for programs seeking registration as a cytotechnology licensure-qualifying program. It contains didactic and clinical training as well as supervised clinical experience within the MSKCC Cytology laboratory throughout the span of the three semester program.

Cytotech courses

MLS 63000 - Introduction to Cytopathology

Students will be introduced to the discipline of cytopathology including historical perspective, established terminology, basic cell structure and cell biology and concepts of cellular response to injury and neoplasia. The applicability of immunochemistry, cytogenetics and other molecular studies to cytology specimens will also be discussed.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.

Hours 1 hr

Credits 1 cr.

fall only

MLS 63200 - Gynecologic Cytopathology

Students will be introduced to the cytopathology of infectious, inflammatory, premalignant, and malignant pathologic processes of the female genital tract. They will learn how to identify benign and abnormal cytologic findings in gynecologic specimens and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.

coreq: MLS 63000

Hours 4 hrs

Credits 4 cr.

fall only

MLS 63500 - Microscopic Evaluation 1

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance. (limited to gynecologic, respiratory and gastrointestinal specimens)

coreq: MLS 63000, MLS 63200 and MLS 64000

Hours 2 hrs

Credits 2 cr.

fall only

MLS 63600 - Microscopic Evaluation 2

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63500; enrollment in the AC Cytotechnology Program or departmental permission required.

coreq: MLS 64100, MLS 65000 & MLS 65100

Hours 2 hrs

Credits 2 cr.

spring only

MLS 63700 - Microscopic Evaluation 3

An extension of MLS 63500 and MLS 63600. Students continue to apply acquired didactic material in a supervised clinical practice setting acquiring speed and proficiency in cytologic screening. This course also allows students to gain experience in fine needle aspiration specimen adequacy assessment and specimen triage for ancillary studies. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63600; enrollment in the AC Cytotechnology Program or departmental permission required.

Hours 4 hrs

Credits 2 cr.

8-week summer session I

MLS 64000 - Exfoliative Cytopathology 1

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the respiratory and gastrointestinal tracts. Students will learn how to assess respiratory and gastrointestinal specimens for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.

coreq: MLS 63000

Hours 2

*Credits 2 cr.
fall only*

MLS 64100 - Exfoliative Cytopathology 2

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the urinary tract, body cavities and central nervous system. Students will learn how to assess specimens from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

*prereq: MLS 64000; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 2 cr.
spring only*

MLS 64400 - Research Methods 1

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

*prereq: enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 63000, MLS 63200 and MLS 64000
Hours 1 hr
Credits 1 cr.
fall only*

MLS 64500 - Research Methods 2

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

*prereq: MLS 64400; enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 64100, MLS 65000, MLS 65100
Hours 1
Credits 1 cr.
spring only*

MLS 64600 - Research Methods 3

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

*prereq: MLS 64500; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 1 cr.
8-week summer session I*

MLS 64700 - Cytopreparatory Techniques 1

Provides instruction and hands-on experience in the basic principles of cytopreparation and applicable quality assurance and quality control activities. Students learn established cytopreparatory techniques, such as smear preparation, cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.

coreq: MLS 630

Hours 1 hr

Credits 1 cr.

fall only

MLS 64800 - Cytopreparatory Techniques 2

A continuation of MLS 64700; provides more in depth instruction in laboratory safety and additional hands-on experience in cytopreparation. Students learn established cytopreparatory techniques such as smear preparation, cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: MLS 64700; enrollment in the AC Cytotechnology Program or instructor permission required.

Hours 1 hr

Credits 1 cr.

MLS 64900 - Cytopreparatory Techniques 3

A continuation of MLS 64700 and MLS 64800; provides more hands-on experience in cytopreparation. Students apply principles of established cytopreparatory techniques and quality control under the supervision of licensed clinical personnel.

prereq: MLS 64800; enrollment in the AC Cytotechnology Program or instructor permission required.

Hours 2 hrs

Credits 1 cr.

8-week summer session I

MLS 65000 - Fine Needle Aspiration Cytology 1

Provides instruction in the principles of fine needle aspiration cytopathology of the lung, mediastinum, breast, thyroid, salivary gland and lymph nodes. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required

Hours 2 hrs

Credits 2 cr.

spring only

MLS 65100 - Fine Needle Aspiration Cytology 2

Provides instruction in the principles of fine needle aspiration cytopathology of the liver, pancreas, kidney, adrenal glands, retroperitoneum, bone and soft tissue. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.

Hours 2 hrs

Credits 2 cr.

spring only

MLS 65200 - Cytology Laboratory Management and Operations

Provides instruction in the management principles of a cytology laboratory including regulatory requirements, laboratory safety, quality management, quality assurance, quality control and equipment maintenance.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.

Hours 2 hrs

Credits 1 cr.

8-week summer session I

CAAHEP Accreditation Curriculum Requirements and Cytotechnologist Entry-Level Competencies

The AC in cytotechnology curriculum is also designed to meet CAAHEP accreditation standards which mandate that a program's curriculum in cytotechnology is robust enough to prepare students to meet defined entry-level competencies.¹⁶ These competencies are developed by the Cytotechnology Programs Review Committee (CPRC), the cytotechnology accreditation arm for CAAHEP, with input from communities of interest that have a stake in the cytotechnology profession. They represent minimum competencies that cytotechnology graduates must be able to demonstrate upon entering the profession. These entry-level competencies are reviewed on a periodic basis by the CPRC and with input from communities of interest to ensure that they reflect the current practice of cytotechnology. The AC in cytotechnology curriculum meets accreditation entry-level competencies and will be reviewed periodically to ensure that these accreditation standards are met when entry-level competency revisions are made by the CPRC/CAAHEP.

CAAHEP accreditation also requires that programs must ensure that students have a minimum of 28 credits of sciences including chemistry and the biological sciences and 3 credits of mathematics and/or statistics upon graduation from a cytotechnology program.¹⁶ These requirements will be satisfied either within the AC program or as pre-requisite coursework prior to admission to the AC program.

Medical Laboratory Technology: Post-Baccalaureate Certificate

The Post-baccalaureate Certificate in Medical Technology 15-credit course of study was developed within the Medical Laboratory Sciences (MLS) Department to help meet the increasing demand for qualified, licensed medical technologists. It provides an opportunity for students with degrees in chemistry, biology, or the physical sciences to meet licensing standards without having to acquire a second baccalaureate degree. An accelerated path, this certificate can be completed in 12-13 months, and, if followed by successful completion of the licensure examination, allows immediate entry to the profession. Visit <http://www.hunter.cuny.edu/mls/graduate/advanced-certificate-in-medical-technology> for crucial information prior to application.

Admission Requirements

- A baccalaureate degree in the biological, chemical, or physical sciences.
- Completion of certain pre-requisite courses: general biology (or anatomy and physiology), general chemistry
- Achievement of a minimum GPA of 3.0 in the degree and the pre-requisite courses

Requirements for the Certificate

Overview. Admission to and completion of the AC is a competitive and demanding process. Students enrolled in the certificate program take MLS 60000 in Summer Session I. Upon successful completion they are assigned to a clinical affiliate beginning on August 1st for 10 months of full time clinical training divided into 2-month rotations.. The curriculum is as follows:

Required Courses

MLS 60000 - Fundamental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. Mastery of additional content and an independent project are required of graduate students.

This course is cross-listed with MLS 30000.

prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv. and admission to the post-baccalaureate certificate program in Medical Laboratory Technology

Hours 3 (2 lecture, 1 lab)

Credits 3

MLS 61000 - Clinical Practicum in Medical Laboratory Technology I

This course (and MLS 62000) comprise the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology

Credits 6

MLS 62000 - Clinical Practicum in Medical Laboratory Technology II

This course (with MLS 61000) provides training in the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology

prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology

Credits 6

Programs and Courses in Music

Music

About the Department

The Department of Music at Hunter College offers a variety of courses and degree programs catering to the needs of a diverse student body. Undergraduate degree programs include Bachelor of Arts with major in Music and Bachelor of Music with concentration in performance. Graduate degree programs include Master of Arts with a variety of concentrations and Master of Arts in Teacher Education. Courses include topics in music performance, composition theory, history, ethnomusicology, and music education. Private lessons are available on all instruments and voice, either with Hunter faculty members or with expert teachers outside the College. There are approximately 150 undergraduate music majors and 80 graduate students in the department. In addition to academic courses and private lessons, the Music Department sponsors activities such as concerts, lectures, master classes, and social events.

Programs and Courses

- Music - MA
- Music Dual - BA/MA
- Music Teacher Education - BA/MA

Admission requirements and other information about the Music Education (Pre-K-12) MA program is available through the School of Education.

Graduate Masters

Music - MA

Return to: Music Department

The MA program in music offers students an opportunity to grow as musicians by refining and augmenting their skills as scholars, teachers and performers. The department encourages its graduate students to take courses both of a broad scope and of a detailed nature. The latter courses mark the beginning of professional specialization. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see <http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons> for details). Students may also study with an outside teacher of their choice, pending approval by the Music Department. The Cutler Scholarships in Orchestral Performance offer new opportunities for support for MA students who qualify to be leaders in the orchestra and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, music history, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

For admissions requirements, see <http://www.hunter.cuny.edu/music/gradstudents/admissions/ma-music>.

Requirements for the Degree

The following programs are required for students concentrating in composition, ethnomusicology, music history, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

Core courses required of all students:

MUS 70000 - Music Bibliography and Research Techniques

Study of sources and bibliographical methods as applied to musical material.

*Hours 45 hrs,
Credits 3 cr*

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses
Hours 45 hrs,
Credits 3 cr*

MUS 72500 - Advanced Studies in Music Theory 2

Analysis and theory of compositional styles from 1900 to the present.

*prereq: 4 sem. of undergraduate music theory courses
Hours 45
Credits 3*

-OR-

MUS 75300 - Transcription and Analysis in Ethnomusicology

Critical examination and application of contemporary techniques to selected examples from various cultures.

Hours 45
Credits 3

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45
Credits 3

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45
Credits 3

MUS 77500 - Seminar in Ethnomusicology 1

A history of the discipline; the development of theories and methods; selected problems.

Hours 45
Credits 3

-OR-

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

Hours 45
Credits 3

-OR-

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 45
Credits 3

Required courses for each concentration (may be modified with permission of the graduate adviser):

Composition: 9 cr

MUS 73100 - Composition 1

Fundamental musical materials and compositional techniques of the 20th century. Students will complete weekly compositional exercises, each emphasizing a specific technique.

Hours 45

Credits 3

MUS 73200 - Composition 2

A continuation of the study of compositional techniques of the 20th century through reading, analysis, and practice. Students will complete several small works intended for performance.

Hours 45

Credits 3

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Credits 3

Ethnomusicology: 9 cr

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

Hours 45

Credits 3

ANTH 70100 - Ethnology (Core Course)

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

Hours 45 hrs, including conferences,

Credits 3 cr

All students must consult with the graduate adviser before registering for any course.

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

Note(s)

MUS 75300 and MUS 77500 must be included in core.

History: 9 cr

MUS 76000 - Seminar in Music History

Problems in research and analysis in selected areas of music history.

Hours 45 hrs,

Credits 3 cr

May be taken twice for credit.

Must be taken twice

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

Theory: 9 cr

MUS 74000 - Seminar in Music Theory and Analysis

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

Hours 45

Credits 3

May be taken 3 times for credit.

Must be taken twice

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

Note

MUS 72500 must be included in core.

Performance: 9 cr

MUS 78100 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

MUS 78200 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78300 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

Electives in all concentrations: 3 cr

Foreign Language

The candidate must demonstrate a reading knowledge of a foreign language, preferably French, German, or Italian. The foreign-language examination must be passed before a student may proceed beyond 18 credits.

Proficiency Examination

Students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Thesis or Final Project

A final project consisting of a thesis, a public recital, or another approved piece of work (such as a research project in music education, a lecture-recital, or an internship plus a written report) is required of each student. This project may receive 0-3 credits, depending on the nature and scope of the work involved. A written proposal must be approved by the music department before a student may begin work on the project. Approval of the completed project requires the agreement of two faculty members.

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Credits 3

Undergraduate Major/Graduate Masters

Music Dual - BA/MA

Return to: Music Department

The department offers unusually gifted undergraduate students the opportunity to obtain a master's degree in four years with a minimum of 120 credits. Requirements are the same as those for the 42-credit BA, plus 30 credits at the graduate level. Matriculation is open only to those who are currently undergraduate students at Hunter College. Interested students should consult with the undergraduate adviser to set up a curriculum appropriate to their individual backgrounds. In addition, the graduate adviser must be consulted about the MA requirements; see <http://www.hunter.cuny.edu/music/grad-students/admissions/ba-ma/?searchterm=ba/ma> for details.

Music Teacher Education - BA/MA

Return to: Music Department

Exceptionally qualified undergraduate students may obtain a master's degree in teacher education in 5-6 years with a minimum of 140 credits. Requirements are the same as those for the 42-credit BA plus those for the MA in teacher education (45 credits at the graduate level). Matriculation is open to undergraduates with at least 60 credits who have a cumulative grade point average of 3.0 or better and a major subject index of at least 3.0. Students must have completed at least 24 credits of course work in music, including at least two semesters of music history, four semesters of music theory, and four semesters of musicianship (sight singing, ear training, and keyboard studies). At least 12 credits, including at least 6 credits in music major courses, must have been taken at Hunter College. Students must have passed the music department's piano proficiency examination, and they must demonstrate reasonable mastery on an instrument (which may be a keyboard instrument) or voice. They must be admitted to the program by both the music department and the School of Education. They must maintain the grade point averages required for admission at all times in order to remain in the program; see

<http://www.hunter.cuny.edu/music/grad-students/admissions/ba-ma/?searchterm=ba/ma> for details.

Education: Music Education

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400

Hours 45 hrs plus 18 hrs of fieldwork

Credits 2

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 45 hrs plus 18 hrs fieldwork,
Credits 2

Music

MUS 68100 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,
Credits 1 cr

MUS 68200 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,
Credits 1 cr

MUS 68300 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,
Credits 1 cr

MUS 68400 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,
Credits 1 cr

MUS 70000 - Music Bibliography and Research Techniques

Study of sources and bibliographical methods as applied to musical material.

Hours 45 hrs,
Credits 3 cr

MUS 71000 - Hunter Symphony

Rehearsal and performance of orchestral works.

prereq: audition and perm instr.
Hours 30 hrs,

Credits 1 cr
May be taken four times for credit.

MUS 71100 - Hunter College Choir

Rehearsal and public performance of major choral Works.

Hours 30
Credits 1
May be taken four times for credit.

MUS 71300 - Chamber Music

Rehearsal and public performance of instrumental chamber works.

Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.

MUS 71400 - Collegium Musicum

Study and public performance of chamber chorus works from the medieval, Renaissance, and Baroque periods.

prereq: audition and perm instr.
Hours 30
Credits 1
May be taken four times for credit.

MUS 71500 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz and musical comedy. One public performance per semester.

Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.

MUS 71600 - Jazz Vocal Workshop Ensemble

Open to all vocalists and rhythm section instrumentalists by audition. Jazz performance and improvisation. One public performance per semester.

Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.

MUS 71700 - Piano Performance Class

Seminar in performance for advanced piano students. Study and performance of representative works of piano repertoire. Individual attention to problems of public performance.

*Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.*

MUS 71800 - Vocal Performance Class

Course in seminar/workshop format concentrating on the literature for solo voice, both classical and popular (musical theater, jazz, gospel); but also including ensemble repertory from opera and musical theater. Singers are coached in performance technique and interpretation, while working with an accompanist to prepare the semester's repertoire.

*Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.*

MUS 71900 - Special Topics in Music Performance

Number of works are studied, rehearsed, and performed. Topics to be announced.

*Hours 30
Credits 1
May be taken four times for credit.*

MUS 72000 - Opera Performance

Preparation and performance of a fully staged opera.

*prereq: prereq. audition and graduate adviser's permission.
Hours 3
Credits 3
May be taken two times for credit.*

MUS 72100 - Jazz and Popular Music Combos

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

*prereq: Audition; dept. permission required
Hours 2
Credits 1*

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses
Hours 45 hrs,
Credits 3 cr*

MUS 72500 - Advanced Studies in Music Theory 2

Analysis and theory of compositional styles from 1900 to the present.

prereq: 4 sem. of undergraduate music theory courses

Hours 45

Credits 3

MUS 73100 - Composition 1

Fundamental musical materials and compositional techniques of the 20th century. Students will complete weekly compositional exercises, each emphasizing a specific technique.

Hours 45

Credits 3

MUS 73200 - Composition 2

A continuation of the study of compositional techniques of the 20th century through reading, analysis, and practice. Students will complete several small works intended for performance.

Hours 45

Credits 3

MUS 73500 - Orchestration

Study of the capabilities of musical instruments; analysis of orchestration techniques; arranging compositions for various instrumental combinations.

prereq: 2 semesters of undergraduate music theory and permission of the instructor

Hours 45

Credits 3

MUS 73600 - Computer Music

Making music with computers using technologies such as MIDI sequencing, hardware synthesis, and digital audio. Promises and limitations of these tools.

prereq: permission of the instructor

Hours 45

Credits 3

MUS 73800 - Jazz Harmony and Arranging

Study of jazz harmony and rhythm, jazz composition, and jazz arranging and its application to commercial music.

prereq: MUSTH 20100, 22100, 23100 -or- permission of department

Hours 3

Credits 3

MUS 73900 - Jazz Improvisation

Study and performance of jazz improvisational techniques.

prereq: MUS 73800 or permission of department.

Hours 3

Credits 3

MUS 74000 - Seminar in Music Theory and Analysis

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

Hours 45

Credits 3

May be taken 3 times for credit.

MUS 74200 - Seminar in Style Criticism

Intensive study of a small number of closely related works of music. Topics to be announced.

Hours 45

Credits 3

May be taken twice for credit.

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 75300 - Transcription and Analysis in Ethnomusicology

Critical examination and application of contemporary techniques to selected examples from various cultures.

Hours 45

Credits 3

MUS 76000 - Seminar in Music History

Problems in research and analysis in selected areas of music history.

*Hours 45 hrs,
Credits 3 cr
May be taken twice for credit.*

MUS 77500 - Seminar in Ethnomusicology 1

A history of the discipline; the development of theories and methods; selected problems.

*Hours 45
Credits 3*

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

*Hours 45
Credits 3*

MUS 77700 - Seminar in Urban Ethnomusicology

Major concepts and areas of research in urban ethnomusicology. Application of ethnomusicological methods to individual field studies in New York City.

*Hours 45
Credits 3*

MUS 77800 - Special Topics in Ethnomusicology: Issues/Regions

Specialized study of the music of a specific region or a current issue in ethnomusicology. Topics to be announced. More than one topics course may be allowed for the degree.

*Hours 45
Credits 3*

MUS 78100 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

MUS 78200 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78300 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

MUS 78400 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3

MUS 78500 - Private Lessons in Composition

Advanced individualized training in original music composition.

prereq: MUS 73100, 73200, and permission of the instructor

MUS 78900 - Seminar in Music Performance

Preparation, rehearsal, and performance of small and large ensemble works. Emphasis on researching and analyzing the music being studied.

May be taken twice for credit.

MUS 79100 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 15 hrs,

Credits 1 cr

May be taken 4 times for credit. 8 cr maximum

MUS 79200 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 30 hrs,

Credits 2 cr

May be taken 4 times for credit. 8 cr maximum

MUS 79300 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 45 hrs,

Credits 3 cr

May be taken 4 times for credit. 8 cr maximum

MUS 79400 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 60 hrs,

Credits 4 cr

May be taken 4 times for credit. 8 cr maximum

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Credits 3

Music Courses for Music Education

MUS 64100 - Strings

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 225

Credits 1

MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

Hours 1.5 hrs

Credits 1 cr.

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 45

Credits 3

Programs and Courses in Nursing

School of Nursing

About the School

The mission of the School of Nursing is to provide quality nursing education to promote health and provide care to culturally diverse urban and global communities through research, scholarship and service.

The School offers accredited programs leading to the Master of Science (MS) and the Doctor of Nursing Practice (DNP) degrees. The School also offers a post-Master's advanced certificate program. Graduates of all of these programs are prepared to make significant contributions to the health of diverse urban populations.

The MS program educates nurses for roles as gerontological/adult nurse practitioners (NPs), psychiatric/mental health NPs, adult clinical nurse specialists, and community/public health and nurse administrators. The post-master's certificate program prepares psychiatric/mental health NPs. The DNP program offers concentrations for Adult/Gerontological NPs, Family NPs, Psychiatric/Mental Health NPs and Community/Public Health Nurses.

Graduates meet the educational requirements for national board certification in their specialties. The MS and DNP programs at the Hunter-Bellevue School of Nursing are accredited by the Commission on Collegiate Nursing Education (<http://www.aacn.nche.edu/ccne-accreditation>).

In addition, a PhD program in Nursing is offered by the City University of New York Graduate Center in conjunction with Hunter College, Lehman College, and The College of Staten Island. For information, please go to www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Nursing.

Community/Public Health Nursing DNP Sample Full-Time Program Plan

Return to Community/Public Health Nursing DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Spring

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 2

Fall

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Spring

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

- Elective

Year 3

Fall

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

Spring

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

Summer

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

Year 4

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

Year 5

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

- Elective 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Community/Public Health Nursing DNP Sample Part-Time Program Plan

Return to: Community/Public Health Nursing DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

Summer

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 2

Fall

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

Spring

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Summer

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 3

Fall

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

- Elective 3 cr.

Spring

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

- Elective 3 cr.

Summer

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Credits 3 cr.

Spring

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

Community/Public Health Nursing DNP Track

Return to: Nursing: Doctor of Nursing Practice (DNP)

Curriculum

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health,

and EOHS-MS or departmental permission.

Hours 3

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Family Nurse Practitioner DNP Sample Full-Time Program Plan

Return to: Family Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

Spring

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

Year 2

Fall

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100
prereq or coreq: NURS 75000
Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum
Credits 5 cr

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Hours 15 lecture, 15 seminar and 125 clinical

Credits 3

Spring

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

Summer

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical

Credits 3

Year 3

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

- Elective 2 cr.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 4

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon

Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

- Elective 3 cr.

Year 5

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Family Nurse Practitioner DNP Sample Part-Time Program Plan

Return to: Family Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

Year 2

Fall

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

Spring

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

- Elective 3 cr.

Year 3

Fall

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

*Hours 15 lecture, 15 seminar and 125 clinical
Credits 3*

Spring

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

*prereq: NURS 75500
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5*

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

*prereq or coreq: NURS 75500
Hours 15 hrs seminar, 105 hrs practicum,
Credits 3*

Summer

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

*prereq: NURS 71700, NURS 75000, NURS 75100
Hours 15 lecture, 15 seminar, 125 clinical
Credits 3*

Year 4

Fall

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

Winter

- Elective 3 cr.

Spring

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 5

Fall

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

- Elective 3 cr.

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Summer

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

Family Nurse Practitioner DNP Track

Return to: Nursing: Doctor of Nursing Practice (DNP)

Curriculum

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

*Hours 15 hrs seminar, 105 hrs practicum,
Credits 3*

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

*Hours 3
Credits 3*

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400
Hours 45
Credits 3*

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000
Hours 45
Credits 3*

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Hours 15 lecture, 15 seminar and 125 clinical

Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Gerontology/Adult Nurse Practitioner DNP Sample Full Time Program

Return to: Gerontology/Adult Primary Care Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Spring

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 2

Fall

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

- Elective 3 cr.

Spring

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

*Hours 15 hrs seminar, 105 hrs practicum,
Credits 3*

Summer

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

*prereq: NURS 75700
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5 cr*

Year 3

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours 45
Credits 3*

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

*prereq: NURS 70200
Hours 45
Credits 3*

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

- Elective 3 cr.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 4

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

- Elective

Year 5

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Gerontology/Adult Nurse Practitioner DNP Sample Part Time Program

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5 cr

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Nursing: Adult-Gerontology Clinical Nurse Specialist (42 cr.) - MS

Faculty Coordinator: Christine Cutugno, ccutugno@hunter.cuny.edu

The program prepares nurses to assume an advanced practice nursing role as an Adult-Gerontology Clinical Nurse Specialist in a variety of health care settings, from acute care to home care. Nurses who earn this degree are preparing themselves for advanced practice positions in medical-surgical specialties within acute or skilled nursing facilities or in community-based nursing services.

Through course work, supervised practicum hours (500 hours) and carefully selected electives, students develop broad clinical knowledge in the assessment and clinical management of patients across the adult life span in acute and chronic care settings. Practicum placements are offered in a wide variety of medical-surgical specialty settings. There is also a strong focus on the consultative component of the CNS role, incorporating education and patient care improvement content throughout the curriculum. Students also have an opportunity to participate in programs aimed at serving the target adult population and promoting policy changes in the health care delivery system. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center (ANCC).

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Practice Core: 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Specialization Courses: 15 credits

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900

prereq or coreq: NURS 71700, NURS 75000, NURS 75100

Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,

Credits 5

NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

prereq: NURS 76100

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

prereq: NURS 76600

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

Electives: 6 credits

Nursing: Community/Public Health Nurse-MS

(42 credits)

Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu

The program prepares advanced public health nurses who can assume leadership roles in community and population health in a variety of settings, including community-based programs, clinics and public health agencies. Students learn

to apply advanced knowledge and research findings to practice through coursework and 500 hours of supervised clinical experience. Graduates of the program meet the educational requirements for board certification as Advanced Public Health Nurses by the American Nurses Credentialing Center.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Public Health Core Courses: 9 credits

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Specialization Courses: 15 credits

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

*Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr*

Electives: 6 credits

Nursing: Doctor of Nursing Practice (DNP)

Faculty Coordinator: Caroline Hewitt, ch516@hunter.cuny.edu

Website: <http://www.hunter.cuny.edu/nursing/>

The Doctor of Nursing Practice (DNP) program at Hunter College prepares nurse practitioners and advanced public health nurses who can meet the increasingly complex health needs of diverse urban populations by providing evidence-based, advanced nursing services in a wide variety of settings. The program includes four tracks: the Family Nurse Practitioner (FNP) DNP, the Gerontological/ Adult Nurse Practitioner (GNP/ANP) DNP, the Psychiatric-Mental Health Nurse Practitioner (PMHNP) DNP, and the Community/Public Health Nursing (C/PHN) DNP.

The DNP program is open to registered nurses with a Bachelor's or Master's degree in nursing. The program requires completion of 48-90 credits and a total of 1000 supervised clinical hours. Students without a prior Master's degree in nursing from an accredited program complete 90 credits and 1000 supervised clinical hours. Students with a prior Master's degree in nursing from an accredited program may be admitted with advanced standing. Based on an individual assessment of the prior graduate record, (1) required coursework may be reduced by up to 42 credits for the same or equivalent coursework completed for the Master's degree with a grade of B or better; and (2) relevant supervised clinical hours completed for the Master's degree may be counted toward the 1000 supervised clinical hours required for the DNP degree.

Graduates of the DNP program meet the requirements for national certification in their specialty area. Graduates of the GNP/ANP, FNP, and PMHNP tracks qualify for New York State certification as a nurse practitioner.

Admission Requirements

Individuals who meet the following criteria may apply for admission to the DNP program:

1. For students without a Master's degree in nursing from an accredited program:

- New York State RN licensure and current registration
- A bachelor's degree in nursing from an accredited program
- A Grade Point Average (GPA) of 3.5 or above in both the major and overall undergraduate record
- Completion of an undergraduate statistics course
- Completion of a discrete undergraduate nursing research course
- Satisfactory written descriptions of career goals and capstone project interest
- Satisfactory interview

2. For students who hold a Master's degree in nursing from an accredited program:

- New York State RN licensure and current registration
- A graduate GPA of 3.5 or higher
- Satisfactory written descriptions of career goals and capstone project interests
- National certification in a nursing specialty at an advanced level (i.e., requiring a graduate degree)
- Satisfactory interview

Programs

- Gerontology/Adult Primary Care Nurse Practitioner DNP Track
- Family Nurse Practitioner DNP Track
- Psychiatric/Mental Health Nurse Practitioner Track
- Community/Public Health Nursing DNP Track

Study Plans: Full-and Part-Time

Sample Full-Time Programs

- Gerontology/Adult Nurse Practitioner DNP Sample Full Time Program
- Family Nurse Practitioner DNP Sample Full-Time Program Plan
- Psychiatric Mental Health Nurse Practitioner DNP Sample Full-time Program Plan
- Community/Public Health Nursing DNP Sample Full-Time Program Plan

Sample Part-Time Programs

- Gerontology/Adult Nurse Practitioner DNP Sample Part Time Program
- Family Nurse Practitioner DNP Sample Part-Time Program Plan
- Psychiatric Mental Health Nurse Practitioner DNP Sample Part-time Program Plan
- Community/Public Health Nursing DNP Sample Part-Time Program Plan

Nursing: Gerontological/Adult Nurse Practitioner - 42 cr. MS

Acting Coordinator: Anita Nirenberg, anirenbe@hunter.cuny.edu

This specialization prepares nurses to provide primary care for adults and older adults in the community and in a variety of health care settings. Students learn to apply expert knowledge and research findings through coursework and 735 hours of supervised clinical experience. Graduates of the program meet the educational requirements for national board certification as adult nurse practitioners and gerontological nurse practitioners by the American Nurses Credentialing Center and the American Academy of Nurse Practitioners Certification Program. They are also eligible for New York State NP certification.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Practice Core: 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab
Credits 3 cr

Specialization Courses: 18 credits

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100
prereq or coreq: NURS 75000
Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum
Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5 cr

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500
Hours 15 hrs seminar, 105 hrs practicum,
Credits 3

Electives: 3 credits

Nursing: Graduate Certificate

The Hunter-Bellevue School of Nursing offers a post-master's advanced certificate program in psychiatric nursing. It is open to currently licensed New York State registered nurses who hold a master's degree in nursing from an accredited program.

Nursing: Master of Sciences

The Master of Science program at the Hunter-Bellevue School of Nursing offers the following specializations:

Nursing: Gerontological/Adult Nurse Practitioner - 42 cr. MS

Nursing: Clinical Nurse Leader-MS

Nursing: Community/Public Health Nurse-MS

Nursing: Advanced Public Health Nurse/Urban Public Health-MS/MPH (Dual Degree Program with School of Urban Public Health)

Nursing: Adult-Gerontology Clinical Nurse Specialist (42 cr.) - MS

Nursing: Psychiatric Nurse Practitioner (48 cr.)-MS

Admission Requirements

In addition to meeting the general requirements for graduate admission to Hunter College, applicants to the School of Nursing master's degree programs must meet the following requirements. (Please note that these are the minimum requirements to be considered for admission; meeting them does not guarantee admission).

1. Completion of an accredited baccalaureate program in nursing.
2. A cumulative undergraduate GPA of 3.0. (An applicant with an undergraduate GPA below 3.0 may be considered for admission as a nonmatriculated student. Nonmatriculated students may be considered for admission to matriculated status after completion of 9-12 graduate nursing credits with a cumulative GPA of at least 3.0).
3. New York State registered nurse licensure and current registration.
4. Completion of a basic statistics course. (An applicant who does not meet this requirement may be admitted conditional on completing a statistics course by the end of the first semester).
5. Professional résumé listing education and relevant work experiences.

6. Statement of purpose clearly identifying why the applicant seeks admission to the particular specialization to which she or he is applying.

7. Applicants for the dual-degree MS /MPH program also meet requirements for admission to the MPH program.

8. Applicants for the dual-degree MS/ MPA program must also meet requirements for admission to the Baruch MPA program, including GRE scores. (Applicants may request a waiver of the GRE requirement based on an undergraduate GPA of at least 3.0).

Nursing: Psychiatric Nurse Practitioner (48 cr.)-MS

Faculty Coordinator: Kunsook Bernstein, kbernst@hunter.cuny.edu

This program prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through coursework and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification.

Foundations of Nursing Practice: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

Advanced Practice Core: 21 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900
Hours 15 hrs.
Credits 1 cr.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
Hours 45 hrs.
Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication

plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

Specialization Courses: 15 credits

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Total: 48 Credits

MS Psychiatric Mental Health Nurse Practitioner Program Outline:

Full time study Proposal

Year 1:

Semester 1

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

Semester 2

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

Year 2:

Semester 1

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric-mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

Semester 2

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

*Hours 22.5 hours - Seminar, 315 hours – Clinical
Credits 4.5 cr.*

Year 3:

Semester 1

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

*prereq: NURS 78200
Hours 22.5 hours –Seminar, 315 hours - Clinical
Credits 4.5 cr.*

Part time Study Proposal

Year 1:

Semester 1

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
Credits 3*

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

*coreq: NURS 70000
Hours 15 hours
Credits 1 cr.*

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

Semester 2

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

Year 2:

Semester 1

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

Semester 2

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 3:

Semester 1

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

Semester 2

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric-mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

Year 4:

Semester 1

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

Semester 2

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Nursing: Psychiatric Nurse Practitioner Advanced Certificate

Faculty Coordinator: Kunsook Bernstein, kbernst@hunter.cuny.edu

The Hunter-Bellevue School of Nursing offers a post-master's advanced certificate program in psychiatric nursing. It is open to currently licensed New York State registered nurses who hold a master's degree in nursing from an accredited program.

This specialization prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through classwork and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for national board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification.

Program Outline (27-36 cr.):

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced

family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Note: (*) NURS 71700, NURS 75000, NURS 75100 may be waived based on equivalent prior coursework.

Psychiatric Mental Health Nurse Practitioner DNP Sample Full-time Program Plan

Return to: Psychiatric/Mental Health Nurse Practitioner Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 2

Fall

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900,

NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

Spring

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric-mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

*Hours 15 hrs.
Credits 1 cr.*

Year 3

Fall

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

*prereq: NURS 78100
Hours 22.5 hours - Seminar, 315 hours – Clinical
Credits 4.5 cr.*

Spring

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

*prereq: NURS 78200
Hours 22.5 hours –Seminar, 315 hours - Clinical
Credits 4.5 cr.*

Year 4

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours 45
Credits 3*

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 5

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Psychiatric Mental Health Nurse Practitioner DNP Sample Part-time Program Plan

Return to: Psychiatric/Mental Health Nurse Practitioner Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing

roles.

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Year 2

Fall

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900,

NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

Spring

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 3

Fall

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

Spring

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric-mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

Year 4

Fall

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

Spring

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Summer

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 5

Fall

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

Spring

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 6

Fall

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Spring

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Summer

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

Year 7

Fall

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Psychiatric/Mental Health Nurse Practitioner Track

Return to: Nursing: Doctor of Nursing Practice (DNP)

Curriculum

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900,

NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

1) common mental disorders including etiology, theories, and epidemiology;

2) diagnostic evaluation of each disorder;

3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

NURS 66400 - Legal Issues in Nursing

The purpose of this course is to examine the multiple relationships between nursing and the law, with a particular focus on accountability for advanced and specialty practice. The course examines sources of law and the role of the courts in the continuing development and application of law to health care and the health professions. Specific legal issues, such as malpractice and informed consent, are analyzed. Distinctions between civil and criminal liability are explored, along with the roles of licensing boards and other government agencies. The course also examines relationships between law, ethics, policy and global health.

Hours 3 hrs

Credits 3 cr.

NURS 69984 - Therapeutic Touch, Meditation and Imagery: Health Patterning Across the Life Span

Presents Therapeutic Touch, meditation, and imagery as modalities in health patterning for nursing using Rogers' Science of Unitary Human Beings as the theoretical framework.

Hours 45 hrs,

Credits 3 cr

Lecture plus practice.

NURS 69986 - Integrative Modalities in Health

Examines the science of wholeness emerging across disciplines as a basis for integrative approaches to health. Presents a survey of major modalities and health applications.

NURS 69995 - Transforming Death in Health Care

This course prepares graduate students to oversee and provide quality care to those who are dying and their loved ones. Concepts, theories and practices associated with death, dying and end-of-life care will be discussed along with exploration of the multiplicity of issues surrounding societal needs at the end-of-life will be discussed. At the completion of the course and with full attendance on the dates that ELNEC (end-of-life education consortium curriculum) modules are taught, students will be designated “ELNEC trained”.

NURS 69998 - Diabetes Prevention: Interdisciplinary Perspectives

This course will review existing approaches to diabetes prevention. Also covers prevention strategies, the impact of food and culture on lifestyle behaviors, the social and behavioral causes of diabetes, and the development of public health diabetes prevention interventions.

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 70700 - Nursing of Persons with HIV Infection

Analysis and evaluation of nursing strategies at the level of secondary prevention with persons who are HIV-positive in order to assist them to maintain optimum levels of wellness.

NURS 70800 - Nursing of Persons with AIDS

Analysis and evaluation of nursing strategies at the level of tertiary prevention with persons with AIDS in order to assist them to maintain and restore health.

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 73000 - Instructional Design in Nursing Education

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

NURS 73100 - Practicum in Nursing Education

Teaching practicum in academic and institutional settings under the guidance of experienced educators. Emphasis is on the development, implementation, and evaluation of educational programs.

prereq: NURS 73000, NURS 75200, NURS 70100

Hours 30 hours lecture, 15 hrs seminar, 105 hrs clinical
Credits 4 cr

NURS 73400 - Writing, Communication, and Healing

This course provides learners with opportunities to improve their writing skills; to increase their confidence in their expressive ability; to produce a clear, publishable paper; to communicate more effectively; and to explore the use of reflective writing as a healing method.

Hours 45
Credits 3

NURS 73500 - Leadership and Management in Health Care I

Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.

prereq: NURS 70000, NURS 70200, NURS 74900
coreq: PAF 91000, PAF 91030
Hours 30 hours theory, 15 hours seminar, 166 hours practicum,
Credits 5 cr

NURS 73600 - Trauma Nursing: The First 72 Hours

This course provides specialized content on the assessment, management, and prevention of complications in the multiple trauma patient in the first 72 hours.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500, PAF 91200, PAF 91720
coreq: PAF 91400, PAF 91300
Hours 30 hours theory, 15 hours seminar, 167 hours practicum,
Credits 5 cr

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000

prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,

Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742

prereq or coreq: NURS 704

Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300

Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,

Credits 5 cr

NURS 74500 - Leadership and Management in Health Care III

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

Cross-listed (Cross-listed with PAF 97930)

prereq: NURS 74000

Hours 30 hours theory, 15 hours seminar, 167 hours practicum,

Credits 5 cr

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 75200 - Advanced Concepts in Nursing Education

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

prereq: NURS 73000

NURS 75400 - Psychosocial Behavioral Patterns of Older Adults

Integration of the theoretical foundations of biological, psychological, social, and cultural patterns of aging that form the assessment data base for the case management of older adults, families, and communities

prereq: NURS 70000

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900

prereq or coreq: NURS 71700, NURS 75000, NURS 75100

Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,

Credits 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100

Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars

Credits 10

NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

prereq: NURS 76100

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

prereq: NURS 76600

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5 cr

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

NURS 77600 - Interdisciplinary Approaches to Diabetes Management

This course will provide an overview of the field of diabetes and diabetes management. It will examine and analyze the interdisciplinary approaches in providing diabetes management in an effective and culturally competent manner.

Cross-listed PH 77013

Hours 45

Credits 3

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This

course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric-mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of

diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 79100 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 15 hrs,

Credits 1 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79200 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 30 hrs,

Credits 2 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79300 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 45 hrs,

Credits 3 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing

practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 81100 - Advanced DNP Procedures

Students will perform clinical procedures that assist in the diagnosis and treatment of acute and chronic conditions encountered in the primary care setting. Students are expected to draw on knowledge from pathophysiology and advanced assessment in order to demonstrate competence in performing advanced procedures.

prereq or coreq: NURS 75100

Hours 3, 15 lab

Credits 3

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Hours 15 lecture, 15 seminar and 125 clinical

Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical

Credits 3

NURS 84200 - DNP PMHNP Practice I

Clinical practicum in mental and behavioral health care delivery system and with current mental health policy makers, with seminar discussions of current mental health policy and politics in relation to the role of advanced practice nursing in the field of mental health systems.

prereq: NURS 85100

coreq: NURS 74200

Hours 5 seminar, 50 clinical
Credits 1

NURS 84300 - DNP PMHNP Practice II

Clinical practicum in advanced practice geriatric-mental health with seminar discussions of current gerontological and geriatric mental health theories, research and strategies for primary care nursing of older adults who need psychiatric or mental health services.

prereq or coreq: NURS 74300
Hours 5 seminar, 50 clinical
Credits 1

NURS 84400 - DNP PMHNP III

Clinical practicum in addictions nursing practice with seminar discussions of current addictions theories, research and strategies for the clients with substance abuse and dependence diagnosis.

prereq or coreq: NURS 74400
Hours 5 seminar, 50 clinical
Credits 1

NURS 84500 - DNP PMHNP Practice IV

This course provides a framework for DNP psychiatric mental health nurse practitioner (PMHNP) students in how to synthesize theoretical, scientific, and clinical knowledge for the assessment and management of both mental health and illness states of child- and adolescent-specific populations.

prereq: NURS 74400
Hours 30 lecture, 15 seminar, 210 clinical
Credits 6

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900
coreq: NURS 75100

Hours 5 seminar, 40 clinical
Credits 1

NURS 85500 - DNP Practice with Adults/Older Adults I

Application of advanced practice strategies for primary care nursing of adults and older adults and their families and the health care organizations that provide services for them. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care for adult and older patients and their families and the health care systems that care for them.

prereq: NURS 75100
Hours 5 seminar, 40 clinical
Credits 1

NURS 85700 - Women's Health in Primary Care

Application of advanced practice strategies for primary care nursing of women and their families. Evidence-based practice guidelines are reviewed and applied in the simulation lab and clinical setting. Information systems/technology and patient care technology to improve the quality of care for women and their families will be utilized in the clinical setting.

prereq or coreq: NURS 75700
Hours 5 seminar, 40 clinical
Credits 1

NURS 86900 - DNP Practice with Older Adults

Application of advanced practice strategies for primary care nursing of older adults and their families and communities. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care to older adult patients and their families and communities, as well as the health care systems that care for them.

prereq or coreq: NURS 76900
Hours 15 seminar, 105 clinical
Credits 3

NURS 87000 - Acute Care DNP Practice

This course provides students with specialized knowledge and clinical experience in applying evidence-based national standards and treatment guidelines in the care of adolescents, adults, and older adults with acute and complex health problems. Leadership role expectations of doctorate-prepared nurse practitioners are explored and synthesized throughout the course content.

prereq: NURS 75100
Hours 30 theory, 15 seminar, 250 clinical
Credits 6

NURS 87100 - Advanced Practice Public Health Nursing I

Analysis of the Advanced Practice Public Health Nurses (AAPHN) role in the use of technology to promote population health in order to achieve the DNP Competency Areas: Technology & Information Literacy Analysis and Quality of Practice.

prereq or coreq: NURS 77100, NURS 85000

Hours 15 seminar, 86 clinical

Credits 1

NURS 87200 - DNP in Public Health Nursing II

Analysis of the role of Advanced Practice Public Health Nurses (AAPHN) related to providing population health through partnerships and coalitions with the goal to achieve the DNP Competency Areas: Leadership in Practice, Independent Practice, and Health Delivery System.

prereq or coreq: NURS 77200, NURS 87100

Hours 15 seminar, 87 clinical

Credits 1

NURS 87300 - DNP in Public Health Nursing III

Analysis of evidence-based practice in the role of Advanced Practice Public Health Nurses (AAPHN) through community-based participatory research (CBPR), in order to achieve the DNP Competency Areas: Scientific Foundation for Practice, Healthcare Policy, and Practice Inquiry in Area Associated with Population Health.

prereq or coreq: NURS 77300, NURS 87200

Hours 15 seminar, 87 clinical

Credits 1

NURS 87400 - DNP in Public Health Nursing IV

Advanced Practice Public Health Nurses (APPHN) translate research into practice in a culturally competent manner by piloting their intervention using community-based research principles.

prereq or coreq: NURS 77300, NURS 87300

Hours 30, 15 seminar, 200 clinical

Credits 6

NURS 89000 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course.

Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.

Hours 52.5 practicum hours; individual or group conferences with faculty

Credits 0.5 cr.

NURS 89100 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 105 practicum hours; individual or group conferences with faculty
Credits 1 cr.

NURS 89200 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 210 practicum hours; individual or group conferences with faculty
Credits 2 cr.

NURS 89300 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 315 practicum hours; individual or group conferences with faculty
Credits 3

NURS 90000 - DNP Capstone I

Students develop plans for capstone projects that demonstrate synthesis of their development in advanced practice nursing and lay the groundwork for future practice development.

prereq: NURS 80200
Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

NURS 90100 - DNP Capstone II

Students complete their capstone project and write final reports with continual mentorship by the faculty and community mentors.

prereq: NURS 90000

Hours 60

Credits 5

Programs and Courses in Nursing

School of Nursing

About the School

The mission of the School of Nursing is to provide quality nursing education to promote health and provide care to culturally diverse urban and global communities through research, scholarship and service.

The School offers accredited programs leading to the Master of Science (MS) and the Doctor of Nursing Practice (DNP) degrees. The School also offers a post-Master's advanced certificate program. Graduates of all of these programs are prepared to make significant contributions to the health of diverse urban populations.

The MS program educates nurses for roles as gerontological/adult nurse practitioners (NPs), psychiatric/mental health NPs, adult clinical nurse specialists, and community/public health and nurse administrators. The post-master's certificate program prepares psychiatric/mental health NPs. The DNP program offers concentrations for Adult/Gerontological NPs, Family NPs, Psychiatric/Mental Health NPs and Community/Public Health Nurses.

Graduates meet the educational requirements for national board certification in their specialties. The MS and DNP programs at the Hunter-Bellevue School of Nursing are accredited by the Commission on Collegiate Nursing Education (<http://www.aacn.nche.edu/ccne-accreditation>).

In addition, a PhD program in Nursing is offered by the City University of New York Graduate Center in conjunction with Hunter College, Lehman College, and The College of Staten Island. For information, please go to www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Nursing.

Graduate Doctorate

Community/Public Health Nursing DNP Sample Full-Time Program Plan

Return to Community/Public Health Nursing DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Spring

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 2

Fall

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Spring

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

- Elective

Year 3

Fall

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

Spring

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

Summer

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

Year 4

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

Year 5

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

- Elective 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Community/Public Health Nursing DNP Sample Part-Time Program Plan

Return to: Community/Public Health Nursing DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Credits 3

Year 3

Fall

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

- Elective 3 cr.

Spring

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

- Elective 3 cr.

Summer

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

Year 4

Fall

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

Spring

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

Year 5

Fall

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Spring

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

Community/Public Health Nursing DNP Track

Return to: Nursing: Doctor of Nursing Practice (DNP)

Curriculum

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

*Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,
Credits 5 cr*

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of

health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Family Nurse Practitioner DNP Sample Full-Time Program Plan

Return to: Family Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Spring

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 2

Fall

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum
Credits 5 cr

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100
Hours 15 lecture, 15 seminar and 125 clinical
Credits 3

Spring

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500
Hours 15 hrs seminar, 105 hrs practicum,
Credits 3

Summer

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100
Hours 15 lecture, 15 seminar, 125 clinical
Credits 3

Year 3

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

- Elective 2 cr.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 4

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

- Elective 3 cr.

Year 5

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Family Nurse Practitioner DNP Sample Part-Time Program Plan

Return to: Family Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

Year 2

Fall

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

Spring

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

- Elective 3 cr.

Year 3

Fall

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Hours 15 lecture, 15 seminar and 125 clinical

Credits 3

Spring

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

Summer

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical

Credits 3

Year 4

Fall

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Family Nurse Practitioner DNP Track

Return to: Nursing: Doctor of Nursing Practice (DNP)

Curriculum

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100
prereq or coreq: NURS 75000
Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum
Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and

applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Hours 15 lecture, 15 seminar and 125 clinical

Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Gerontology/Adult Nurse Practitioner DNP Sample Full Time Program

Return to: Gerontology/Adult Primary Care Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

Spring

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 2

Fall

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

- Elective 3 cr.

Spring

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

Summer

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5 cr

Year 3

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

- Elective 3 cr.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3

Year 4

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

- Elective

Year 5

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Gerontology/Adult Nurse Practitioner DNP Sample Part Time Program

Return to: Gerontology/Adult Primary Care Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

Year 2

Fall

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

Spring

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

- Elective 3 cr.

Year 3

Fall

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

Spring

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

Summer

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5 cr

Year 4

Fall

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

Winter

- Elective 3 cr.

Spring

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 5

Fall

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

Nursing: Doctor of Nursing Practice (DNP)

Faculty Coordinator: Caroline Hewitt, ch516@hunter.cuny.edu

Website: <http://www.hunter.cuny.edu/nursing/>

The Doctor of Nursing Practice (DNP) program at Hunter College prepares nurse practitioners and advanced public health nurses who can meet the increasingly complex health needs of diverse urban populations by providing evidence-based, advanced nursing services in a wide variety of settings. The program includes four tracks: the Family Nurse Practitioner (FNP) DNP, the Gerontological/ Adult Nurse Practitioner (GNP/ANP) DNP, the Psychiatric-Mental Health Nurse Practitioner (PMHNP) DNP, and the Community/Public Health Nursing (C/PHN) DNP.

The DNP program is open to registered nurses with a Bachelor's or Master's degree in nursing. The program requires completion of 48-90 credits and a total of 1000 supervised clinical hours. Students without a prior Master's degree in nursing from an accredited program complete 90 credits and 1000 supervised clinical hours. Students with a prior Master's degree in nursing from an accredited program may be admitted with advanced standing. Based on an individual assessment of the prior graduate record, (1) required coursework may be reduced by up to 42 credits for the same or equivalent coursework completed for the Master's degree with a grade of B or better; and (2) relevant supervised clinical hours completed for the Master's degree may be counted toward the 1000 supervised clinical hours required for the DNP degree.

Graduates of the DNP program meet the requirements for national certification in their specialty area. Graduates of the GNP/ANP, FNP, and PMHNP tracks qualify for New York State certification as a nurse practitioner.

Admission Requirements

Individuals who meet the following criteria may apply for admission to the DNP program:

1. For students without a Master's degree in nursing from an accredited program:

- New York State RN licensure and current registration
- A bachelor's degree in nursing from an accredited program
- A Grade Point Average (GPA) of 3.5 or above in both the major and overall undergraduate record
- Completion of an undergraduate statistics course
- Completion of a discrete undergraduate nursing research course
- Satisfactory written descriptions of career goals and capstone project interest
- Satisfactory interview

2. For students who hold a Master's degree in nursing from an accredited program:

- New York State RN licensure and current registration
- A graduate GPA of 3.5 or higher
- Satisfactory written descriptions of career goals and capstone project interests

- National certification in a nursing specialty at an advanced level (i.e., requiring a graduate degree)
- Satisfactory interview

Return to: Psychiatric/Mental Health Nurse Practitioner Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 2

Fall

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

Spring

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

Year 3

Fall

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

Spring

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Year 4

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Year 5

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Psychiatric Mental Health Nurse Practitioner DNP Sample Part-time Program Plan

Return to: Psychiatric/Mental Health Nurse Practitioner Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Year 2

Fall

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

Spring

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 3

Fall

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

Spring

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological

management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

Year 4

Fall

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

Spring

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Summer

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 5

Fall

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This

course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Graduate Certificate

Nursing: Graduate Certificate

The Hunter-Bellevue School of Nursing offers a post-master's advanced certificate program in psychiatric nursing. It is open to currently licensed New York State registered nurses who hold a master's degree in nursing from an accredited program.

Nursing: Psychiatric Nurse Practitioner Advanced Certificate

Faculty Coordinator: Kunsook Bernstein, kbernst@hunter.cuny.edu

The Hunter-Bellevue School of Nursing offers a post-master's advanced certificate program in psychiatric nursing. It is open to currently licensed New York State registered nurses who hold a master's degree in nursing from an accredited program.

This specialization prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through classwork and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for national board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification.

Program Outline (27-36 cr.):

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Note: (*) NURS 71700, NURS 75000, NURS 75100 may be waived based on equivalent prior coursework.

Graduate Masters

Nursing: Adult-Gerontology Clinical Nurse Specialist (42 cr.) - MS

Faculty Coordinator: Christine Cutugno, ccutugno@hunter.cuny.edu

The program prepares nurses to assume an advanced practice nursing role as an Adult-Gerontology Clinical Nurse Specialist in a variety of health care settings, from acute care to home care. Nurses who earn this degree are preparing themselves for advanced practice positions in medical-surgical specialties within acute or skilled nursing facilities or in community-based nursing services.

Through course work, supervised practicum hours (500 hours) and carefully selected electives, students develop broad clinical knowledge in the assessment and clinical management of patients across the adult life span in acute and chronic care settings. Practicum placements are offered in a wide variety of medical-surgical specialty settings. There is also a strong focus on the consultative component of the CNS role, incorporating education and patient care improvement content throughout the curriculum. Students also have an opportunity to participate in programs aimed at serving the target adult population and promoting policy changes in the health care delivery system. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center (ANCC).

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Advanced Practice Core: 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Specialization Courses: 15 credits

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900

prereq or coreq: NURS 71700, NURS 75000, NURS 75100

Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,

Credits 5

NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

prereq: NURS 76100

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

prereq: NURS 76600

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

Electives: 6 credits

Nursing: Community/Public Health Nurse-MS

(42 credits)

Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu

The program prepares advanced public health nurses who can assume leadership roles in community and population health in a variety of settings, including community-based programs, clinics and public health agencies. Students learn to apply advanced knowledge and research findings to practice through coursework and 500 hours of supervised clinical experience. Graduates of the program meet the educational requirements for board certification as Advanced Public Health Nurses by the American Nurses Credentialing Center.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

Public Health Core Courses: 9 credits

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3

Credits 3

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3

Credits 3

Specialization Courses: 15 credits

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

Electives: 6 credits

Nursing: Gerontological/Adult Nurse Practitioner - 42 cr. MS

Acting Coordinator: Anita Nirenberg, anirenbe@hunter.cuny.edu

This specialization prepares nurses to provide primary care for adults and older adults in the community and in a variety of health care settings. Students learn to apply expert knowledge and research findings through coursework and 735 hours of supervised clinical experience. Graduates of the program meet the educational requirements for national board certification as adult nurse practitioners and gerontological nurse practitioners by the American Nurses Credentialing Center and the American Academy of Nurse Practitioners Certification Program. They are also eligible for New York State NP certification.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

Advanced Practice Core: 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

Specialization Courses: 18 credits

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100
prereq or coreq: NURS 75000
Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum
Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5 cr

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

Electives: 3 credits

Nursing: Master of Sciences

The Master of Science program at the Hunter-Bellevue School of Nursing offers the following specializations:

Nursing: Gerontological/Adult Nurse Practitioner - 42 cr. MS

Nursing: Clinical Nurse Leader-MS

Nursing: Community/Public Health Nurse-MS

Nursing: Advanced Public Health Nurse/Urban Public Health-MS/MPH (Dual Degree Program with School of Urban Public Health)

Nursing: Adult-Gerontology Clinical Nurse Specialist (42 cr.) - MS

Nursing: Psychiatric Nurse Practitioner (48 cr.)-MS

Admission Requirements

In addition to meeting the general requirements for graduate admission to Hunter College, applicants to the School of Nursing master's degree programs must meet the following requirements. (Please note that these are the minimum requirements to be considered for admission; meeting them does not guarantee admission).

1. Completion of an accredited baccalaureate program in nursing.
2. A cumulative undergraduate GPA of 3.0. (An applicant with an undergraduate GPA below 3.0 may be considered for admission as a nonmatriculated student. Nonmatriculated students may be considered for admission to matriculated status after completion of 9-12 graduate nursing credits with a cumulative GPA of at least 3.0).
3. New York State registered nurse licensure and current registration.
4. Completion of a basic statistics course. (An applicant who does not meet this requirement may be admitted conditional on completing a statistics course by the end of the first semester).
5. Professional résumé listing education and relevant work experiences.
6. Statement of purpose clearly identifying why the applicant seeks admission to the particular specialization to which she or he is applying.
7. Applicants for the dual-degree MS /MPH program also meet requirements for admission to the MPH program.
8. Applicants for the dual-degree MS/ MPA program must also meet requirements for admission to the Baruch MPA program, including GRE scores. (Applicants may request a waiver of the GRE requirement based on an undergraduate GPA of at least 3.0).

Nursing: Psychiatric Nurse Practitioner (48 cr.)-MS

Faculty Coordinator: Kunsook Bernstein, kbernst@hunter.cuny.edu

This program prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through coursework and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification.

Foundations of Nursing Practice: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

Advanced Practice Core: 21 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400
coreq: NURS 71700, NURS 71900
Hours 15 hrs.
Credits 1 cr.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900,

NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
Hours 45 hrs.
Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800
coreq: NURS 75000

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600
coreq: NURS 75100, 71700, 74800
Hours 30 hrs.
Credits 2 cr.

Specialization Courses: 15 credits

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric-mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the

process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students

to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Total: 48 Credits

MS Psychiatric Mental Health Nurse Practitioner Program Outline:

Full time study Proposal

Year 1:

Semester 1

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

Semester 2

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900,

NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

Year 2:

Semester 1

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

Semester 2

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

Year 3:

Semester 1

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Part time Study Proposal

Year 1:

Semester 1

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45

Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

Semester 2

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

Year 2:

Semester 1

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
Hours 45 hrs.
Credits 3 cr.

Semester 2

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

Year 3:

Semester 1

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

Semester 2

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric-mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

Year 4:

Semester 1

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

Semester 2

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

Nursing

NURS 66400 - Legal Issues in Nursing

The purpose of this course is to examine the multiple relationships between nursing and the law, with a particular focus on accountability for advanced and specialty practice. The course examines sources of law and the role of the courts in the continuing development and application of law to health care and the health professions. Specific legal issues, such as malpractice and informed consent, are analyzed. Distinctions between civil and criminal liability are explored, along with the roles of licensing boards and other government agencies. The course also examines relationships between law, ethics, policy and global health.

Hours 3 hrs

Credits 3 cr.

NURS 69984 - Therapeutic Touch, Meditation and Imagery: Health Patterning Across the Life Span

Presents Therapeutic Touch, meditation, and imagery as modalities in health patterning for nursing using Rogers' Science of Unitary Human Beings as the theoretical framework.

*Hours 45 hrs,
Credits 3 cr
Lecture plus practice.*

NURS 69986 - Integrative Modalities in Health

Examines the science of wholeness emerging across disciplines as a basis for integrative approaches to health. Presents a survey of major modalities and health applications.

NURS 69995 - Transforming Death in Health Care

This course prepares graduate students to oversee and provide quality care to those who are dying and their loved ones. Concepts, theories and practices associated with death, dying and end-of-life care will be discussed along with exploration of the multiplicity of issues surrounding societal needs at the end-of-life will be discussed. At the completion of the course and with full attendance on the dates that ELNEC (end-of-life education consortium curriculum) modules are taught, students will be designated "ELNEC trained".

NURS 69998 - Diabetes Prevention: Interdisciplinary Perspectives

This course will review existing approaches to diabetes prevention. Also covers prevention strategies, the impact of food and culture on lifestyle behaviors, the social and behavioral causes of diabetes, and the development of public health diabetes prevention interventions.

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
Credits 3*

NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45

Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45

Credits 3

NURS 70700 - Nursing of Persons with HIV Infection

Analysis and evaluation of nursing strategies at the level of secondary prevention with persons who are HIV-positive in order to assist them to maintain optimum levels of wellness.

NURS 70800 - Nursing of Persons with AIDS

Analysis and evaluation of nursing strategies at the level of tertiary prevention with persons with AIDS in order to assist them to maintain and restore health.

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45

Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.

Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800

coreq: NURS 75000

NURS 73000 - Instructional Design in Nursing Education

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

NURS 73100 - Practicum in Nursing Education

Teaching practicum in academic and institutional settings under the guidance of experienced educators. Emphasis is on the development, implementation, and evaluation of educational programs.

prereq: NURS 73000, NURS 75200, NURS 70100

Hours 30 hours lecture, 15 hrs seminar, 105 hrs clinical

Credits 4 cr

NURS 73400 - Writing, Communication, and Healing

This course provides learners with opportunities to improve their writing skills; to increase their confidence in their expressive ability; to produce a clear, publishable paper; to communicate more effectively; and to explore the use of reflective writing as a healing method.

Hours 45

Credits 3

NURS 73500 - Leadership and Management in Health Care I

Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.

prereq: NURS 70000, NURS 70200, NURS 74900

coreq: PAF 91000, PAF 91030

Hours 30 hours theory, 15 hours seminar, 166 hours practicum,

Credits 5 cr

NURS 73600 - Trauma Nursing: The First 72 Hours

This course provides specialized content on the assessment, management, and prevention of complications in the multiple trauma patient in the first 72 hours.

Hours 45

Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500, PAF 91200, PAF 91720

coreq: PAF 91400, PAF 91300

Hours 30 hours theory, 15 hours seminar, 167 hours practicum,

Credits 5 cr

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000

prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,

Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742

prereq or coreq: NURS 704

Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300

Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,

Credits 5 cr

NURS 74500 - Leadership and Management in Health Care III

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

Cross-listed (Cross-listed with PAF 97930)

prereq: NURS 74000

Hours 30 hours theory, 15 hours seminar, 167 hours practicum,

Credits 5 cr

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.

Credits 1 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400

coreq: NURS 71700, NURS 71900

Hours 15 hrs.

Credits 1 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 45

Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45

Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.

Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab

Credits 3 cr

NURS 75200 - Advanced Concepts in Nursing Education

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

prereq: NURS 73000

NURS 75400 - Psychosocial Behavioral Patterns of Older Adults

Integration of the theoretical foundations of biological, psychological, social, and cultural patterns of aging that form the assessment data base for the case management of older adults, families, and communities

prereq: NURS 70000

NURS 75500 - Primary Care Nursing I

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100

prereq or coreq: NURS 75000

Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum

Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900

prereq or coreq: NURS 71700, NURS 75000, NURS 75100

Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,

Credits 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100

Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars

Credits 10

NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

prereq: NURS 76100

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

prereq: NURS 76600

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum

Credits 5

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,

Credits 5 cr

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,

Credits 3

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100

prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

Credits 5 cr

NURS 77600 - Interdisciplinary Approaches to Diabetes Management

This course will provide an overview of the field of diabetes and diabetes management. It will examine and analyze the interdisciplinary approaches in providing diabetes management in an effective and culturally competent manner.

Cross-listed PH 77013

Hours 45

Credits 3

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.

Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

- 1) common mental disorders including etiology, theories, and epidemiology;
- 2) diagnostic evaluation of each disorder;
- 3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600

coreq: NURS 75100, 71700, 74800

Hours 30 hrs.

Credits 2 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 77700, NURS 77800

Hours 30 hrs.

Credits 2 cr.

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 15 hrs.

Credits 1 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hours - Seminar, 315 hours – Clinical

Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical

Credits 4.5 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000

Hours 15 hours

Credits 1 cr.

NURS 79100 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 15 hrs,

Credits 1 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79200 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 30 hrs,

Credits 2 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79300 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 45 hrs,

Credits 3 cr

A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45

Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45

Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45

Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200

coreq: NURS 71600

Hours 45

Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45

Credits 3

NURS 81100 - Advanced DNP Procedures

Students will perform clinical procedures that assist in the diagnosis and treatment of acute and chronic conditions encountered in the primary care setting. Students are expected to draw on knowledge from pathophysiology and advanced assessment in order to demonstrate competence in performing advanced procedures.

prereq or coreq: NURS 75100

Hours 3, 15 lab

Credits 3

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Hours 15 lecture, 15 seminar and 125 clinical

Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical

Credits 3

NURS 84200 - DNP PMHNP Practice I

Clinical practicum in mental and behavioral health care delivery system and with current mental health policy makers, with seminar discussions of current mental health policy and politics in relation to the role of advanced practice nursing in the field of mental health systems.

prereq: NURS 85100

coreq: NURS 74200

Hours 5 seminar, 50 clinical

Credits 1

NURS 84300 - DNP PMHNP Practice II

Clinical practicum in advanced practice geriatric-mental health with seminar discussions of current gerontological and geriatric mental health theories, research and strategies for primary care nursing of older adults who need psychiatric or mental health services.

prereq or coreq: NURS 74300

Hours 5 seminar, 50 clinical

Credits 1

NURS 84400 - DNP PMHNP III

Clinical practicum in addictions nursing practice with seminar discussions of current addictions theories, research and strategies for the clients with substance abuse and dependence diagnosis.

prereq or coreq: NURS 74400

Hours 5 seminar, 50 clinical

Credits 1

NURS 84500 - DNP PMHNP Practice IV

This course provides a framework for DNP psychiatric mental health nurse practitioner (PMHNP) students in how to synthesize theoretical, scientific, and clinical knowledge for the assessment and management of both mental health and illness states of child- and adolescent-specific populations.

prereq: NURS 74400

Hours 30 lecture, 15 seminar, 210 clinical

Credits 6

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45

Credits 3

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical

setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900

coreq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 85500 - DNP Practice with Adults/Older Adults I

Application of advanced practice strategies for primary care nursing of adults and older adults and their families and the health care organizations that provide services for them. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care for adult and older patients and their families and the health care systems that care for them.

prereq: NURS 75100

Hours 5 seminar, 40 clinical

Credits 1

NURS 85700 - Women's Health in Primary Care

Application of advanced practice strategies for primary care nursing of women and their families. Evidence-based practice guidelines are reviewed and applied in the simulation lab and clinical setting. Information systems/technology and patient care technology to improve the quality of care for women and their families will be utilized in the clinical setting.

prereq or coreq: NURS 75700

Hours 5 seminar, 40 clinical

Credits 1

NURS 86900 - DNP Practice with Older Adults

Application of advanced practice strategies for primary care nursing of older adults and their families and communities. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care to older adult patients and their families and communities, as well as the health care systems that care for them.

prereq or coreq: NURS 76900

Hours 15 seminar, 105 clinical

Credits 3

NURS 87000 - Acute Care DNP Practice

This course provides students with specialized knowledge and clinical experience in applying evidence-based national standards and treatment guidelines in the care of adolescents, adults, and older adults with acute and complex health problems. Leadership role expectations of doctorate-prepared nurse practitioners are explored and synthesized throughout the course content.

prereq: NURS 75100

Hours 30 theory, 15 seminar, 250 clinical

Credits 6

NURS 87100 - Advanced Practice Public Health Nursing I

Analysis of the Advanced Practice Public Health Nurses (AAPHN) role in the use of technology to promote population health in order to achieve the DNP Competency Areas: Technology & Information Literacy Analysis and Quality of Practice.

prereq or coreq: NURS 77100, NURS 85000

Hours 15 seminar, 86 clinical

Credits 1

NURS 87200 - DNP in Public Health Nursing II

Analysis of the role of Advanced Practice Public Health Nurses (AAPHN) related to providing population health through partnerships and coalitions with the goal to achieve the DNP Competency Areas: Leadership in Practice, Independent Practice, and Health Delivery System.

prereq or coreq: NURS 77200, NURS 87100

Hours 15 seminar, 87 clinical

Credits 1

NURS 87300 - DNP in Public Health Nursing III

Analysis of evidence-based practice in the role of Advanced Practice Public Health Nurses (AAPHN) through community-based participatory research (CBPR), in order to achieve the DNP Competency Areas: Scientific Foundation for Practice, Healthcare Policy, and Practice Inquiry in Area Associated with Population Health.

prereq or coreq: NURS 77300, NURS 87200

Hours 15 seminar, 87 clinical

Credits 1

NURS 87400 - DNP in Public Health Nursing IV

Advanced Practice Public Health Nurses (APPHN) translate research into practice in a culturally competent manner by piloting their intervention using community-based research principles.

prereq or coreq: NURS 77300, NURS 87300

Hours 30, 15 seminar, 200 clinical

Credits 6

NURS 89000 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.

Hours 52.5 practicum hours; individual or group conferences with faculty

Credits 0.5 cr.

NURS 89100 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 105 practicum hours; individual or group conferences with faculty
Credits 1 cr.

NURS 89200 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 210 practicum hours; individual or group conferences with faculty
Credits 2 cr.

NURS 89300 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 315 practicum hours; individual or group conferences with faculty
Credits 3

NURS 90000 - DNP Capstone I

Students develop plans for capstone projects that demonstrate synthesis of their development in advanced practice nursing and lay the groundwork for future practice development.

prereq: NURS 80200
Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Hours 30 hours lecture; 105 practicum hours

Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Hours 15 hours lecture; 210 practicum hours

Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours

Credits 3 cr.

NURS 90100 - DNP Capstone II

Students complete their capstone project and write final reports with continual mentorship by the faculty and community mentors.

prereq: NURS 90000

Hours 60

Credits 5

Graduate Doctorate

Doctor of Philosophy in Physics

Return to Physics and Astronomy

Doctor of Philosophy

Hunter College offers Doctor of Philosophy in Physics jointly with the Graduate Center. Students may be accepted into this Program with the approval of the Admissions Committee of the Doctoral Program in Physics at the Graduate Center.

Students enrolled in the Hunter College MA program who achieve satisfactory records and pass CUNY's first PhD examination may be admitted to the PhD program subject to the approval of the Admissions Committee of the Graduate Center. Courses taken in the Hunter MA program may be counted as part of the course work required for the PhD. Thesis research toward the doctorate may also be carried out at Hunter College.

Courses of Study

The student's course of study must have the approval of an adviser. Of the 60 credits of graduate work required for the degree, no more than 9 credits may be in first-level courses; with special permission, up to 18 credits may be taken in subjects other than physics. After students pass the First Examination, they are encouraged to choose a thesis field and adviser; these decisions should normally be made within the first year of study. Doctoral students are expected to attend the regularly held colloquia.

First Examination

The student must pass the First Examination, which includes quantum mechanics, analytic dynamics, electromagnetic theory, and general physics, which covers topics selected from the fields of atomic and nuclear physics, solid state, thermodynamics and statistical mechanics and optics. For students specializing in fluid-geophysics, an examination in that area may be substituted for the quantum mechanics part of the First Examination.

Second Examination

The Second Examination tests the student's knowledge of the general areas of physics bearing on his or her field of research as well as the student's readiness to undertake a specific piece of research. Detailed information concerning the examination is available from the Executive Officer.

Dissertation

The student is required to prepare the dissertation under the guidance of a thesis adviser. Upon completion, the dissertation will be submitted to the guidance committee appointed for the student. The degree is recommended upon approval of the dissertation by the committee and upon successful completion of an oral defense of the dissertation before the committee. The dissertation must be of such a caliber as to be acceptable for publication in a standard journal when suitably condensed.

College Teaching

Each student is required to participate in some teaching of undergraduate physics courses. Specific requirements are determined for each student in consultation with the Executive Officer and the Department Chairman. In special cases research may be substituted for this requirement.

FINANCIAL AID

Every student admitted for doctoral study in Physics will have financial support for five full years of study, as long as they remain in good academic standing and progress on schedule in their doctoral research. The five-year CUNY Science Scholarship includes a full tuition waiver, annual health insurance coverage and \$24,000/year financial support.

Graduate Masters

Physics - MA

The MA in physics is offered as a terminal degree, either separately or as part of the BA/MA program. The MA in physics may also, with the approval of the CUNY Graduate Center, form part of the degree work required for the CUNY PhD degree. Thesis research toward the CUNY PhD may also be carried out at Hunter College.

Admission Requirements

Applicants must meet Hunter's general admission requirements ; however, the physics department no longer requires the Graduate Record Examination. In addition, the following departmental requirements must be met:

1. A minimum of 36 credits total in undergraduate physics and mathematics courses. These should include intermediate mechanics, electricity, modern physics, and differential equations. A B average is required for these courses.
2. Approval by the department's Graduate Physics Committee. If deficiencies are noted in certain undergraduate courses, the applicant may be required to take these courses without graduate credit.

Degree Requirements

1. Program of courses

A program of courses designed in consultation with the graduate adviser and approved by the department's Graduate Physics Committee.

2. Completion of 30 credits of graduate work including:

- a. Not more than 6 credits earned at a graduate institution other than CUNY.
- b. At least 15 credits earned at Hunter College.
- c. The following courses or their equivalents:

PHYS U70100 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71100 - Analytical Dynamics

Study of advanced classical mechanics.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71500 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72500 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

d. No more than 6 credits in 600-level courses.

Note(s)

The courses listed in sections 2(c) and 2(d) are generally offered during the daytime hours.

3. Mathematics, Astronomy, Engineering, and Physical Chemistry

A maximum of 9 credits may be accepted in physics department approved graduate courses in mathematics, astronomy, engineering, and physical chemistry.

4. Comprehensive examination

The candidate will be required to pass a comprehensive examination based on the required courses listed in section 2(c) above or complete a thesis, under a faculty member's supervision, that is approved by the department's Graduate Physics Committee. The first PhD exam may be substituted for the comprehensive examination.

5. Residence of two semesters

A minimum residence of two semesters at Hunter College. Courses taken as a nonmatriculant may be counted toward the degree upon matriculation with the approval of the department's Graduate Physics Committee.

6. There are no foreign language requirements.

Financial Aid

Financial aid is not generally available from the department for MA students.

Undergraduate Major/Graduate Masters

Physics - Accelerated BA/MA

This special program for a limited number of well-qualified undergraduate students leads to a bachelor of arts and a master of arts degree. Students are offered the opportunity quickly to reach a level where they can stand in competition for admission into any doctoral program in physics. The program requires 124-126 credits (including the 30 credits required for a physics major BA degree and 30 credits from the graduate curriculum). Because this program requires a large number of physics courses, many of which have other physics courses as prerequisites, students in this program should begin taking physics courses in their first or second undergraduate semester. Students should consult the department chair, undergraduate adviser, or graduate adviser for details as early as possible.

Physics First-level

PHYS 60500 - Mathematical Physics

Introduction to basic mathematical techniques used in physics.

Hours 45

Credits 3

PHYS 61500 - Electromagnetic Theory

Electrostatics; electromagnetics; Maxwell's equations with application to waves; waves in guides; radiation.

Hours 45
Credits 3

PHYS 62100 - Electronics

Fundamental ideas of electronic circuits with special emphasis on solid state devices.

Hours 45
Credits 3

PHYS 62500 - Introduction to Quantum Mechanics

Fundamental ideas in the study of atomic sized systems.

Hours 45
Credits 3

PHYS 63000 - Science and Society

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

prereq: one graduate-level physics course or permission of instructor
Hours 45
Credits 3

PHYS 64500 - Solid State Physics

Introduction to basic theory and techniques in study of matter on solid state.

Hours 45
Credits 3

PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

prereq: PHYS 63000 and two elective courses in physics or permission of instructor
Hours 60
Credits 4

PHYS 68500 - Numerical Methods I

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and

integration, differential equations.

Cross-listed (Cross-listed with MATH 68500.)

prereq: MATH 15500

Hours 45

Credits 3

PHYS 69500 - Numerical Methods II

Topics in numerical methods selected from solutions of linear equations, interpolating functions, root finding methods, nonlinear equations, Fourier series and the fast Fourier transform, partial differential equations. A major term project

Cross-listed (Cross-listed with MATH 69500.)

prereq: PHYS 68500

Hours 45

Credits 3

Physics Second-level

PHYS U70100 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U70200 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71100 - Analytical Dynamics

Study of advanced classical mechanics.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71500 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71600 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72500 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72600 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U701

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U74100 - Kinetic Theory and Statistical Mechanics

Study of physical properties of systems consisting of very large numbers of particles.

Hours 60 hrs,

Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U77100 - Research or Independent Study

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,

Credits 1-4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U77200 - Research or Independent Study

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,

Credits 1-4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U77300 - Research or Independent Study

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,

Credits 1-4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

Physics - courses offered according to student demand

PHYS U73800 - Introduction to Non-equilibrium Statistical Mechanics

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U74500 - Solid State Physics

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U74600 - Solid State Physics

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U75700 - Astrophysics

Course offered if demand is sufficient

The prefix “U” indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS 61100 - Analytical Mechanics

Course offered if demand is sufficient

PHYS 62400 - Plasma Physics

Course offered if demand is sufficient

PHYS 67100 - Modern Physics Laboratory

Course offered if demand is sufficient

Faculty

Psychology Faculty

Animal Behavior & Conservation Certificate

The Department of Psychology offers a Certificate Program in the Advanced Psychology of Animal Behavior & Conservation (ABC) registered with the New York State Education Department. The ABC certificate provides formal recognition of the training in ABC for students who already possess a baccalaureate or graduate degree in another area and, by virtue of prior educational or practical experience in animal behavior and conservation, are qualified for the additional training described in this program.

Courses are scheduled so that the certificate requirements can be completed within two years. All required, and most other courses, are offered after 5:30 PM enabling students to complete the requirements for the certificate while working.

Requirements

Students are required to complete at least 15 credits in the ABC area required for the MA in Animal Behavior & Conservation. Although a thesis is not required for non-degree students, the ability to conduct research in the ABC area must be demonstrated either through prior experience or completion of a research project while in the Certificate Program. Students who do not have an adequate background in statistics and/or research methodology will be required to take such courses in addition to those required for the Certificate.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Plus three additional ABC-related courses (9 credits)—see listing of courses for the Animal Behavior & Conservation-MA.

Animal Behavior & Conservation-MA

The growing scientific and public sentiment, awareness, and interest in conservation and animal welfare science and the importance of enrichment for zoo, laboratory, and farm animals, recently reflected in new legislation and in zoo policy has created a growing need for highly trained scientists and professionals. This 36-credit Master's Program within the Psychology Department prepares students interested in animal behavior and conservation (ABC) to develop and enhance their research skills and understanding of the behavior of animals and to acquire credentials for employment in fields related to ABC.

Admission Requirements

Students must hold a bachelor's degree comparable to that from Hunter College. Twelve undergraduate credits in psychology, including courses in statistics and experimental psychology, are generally required; however, students lacking this but with high undergraduate GPA and general GRE scores may be admitted without a strong background in psychology. Applicants are ranked according to their undergraduate grade point average, GRE exam scores, letters of recommendation, and personal statement, as well as prior course work and experience relevant to animal behavior and conservation. General GRE scores are optional for those students who hold the Advanced Certificate in Animal Behavior and Conservation from Hunter College.

Note: There is no foreign-language requirement for the MA in psychology

Curriculum

The MA consists of 36 credits in graduate-level course, and all courses listed carry three credits.

Most courses are offered after 5:30 p.m. so that students can work while in the program. The sequence of course offerings enables students taking 3 courses (9 credits) per semester to graduate in 2 years.

Required Courses 18 credits

PSYCH 69000 - Independent Research in Psychology – 3 credits

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 73900 - Research Methods in Animal Behavior (A, B)

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

-or-

PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

-or-

PSYCH 74700 - Experimental Social Psychology

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent

Hours 30 hrs lecture, 30 hrs confor lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Elective Courses (minimum of 9 credits from the following)

PSYCH 64100 - Comparative Psychology (B)

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 680xx - Special Topics in Psychology

Readings and discussion on a selected problem or topic area — varies from semester to semester.

Hours 45 hrs including conference

Credits 3

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 69000 - Independent Research in Psychology – 3 credits

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69100 - Independent Research in Psychology

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000, such as a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 15 hrs,

Credits 1 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69200 - Independent Research in Psychology

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000 but more extensive than that required for PSYCH 69100. This may involve a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 30 hrs.

Credits 2 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 73000 - Psychology of Learning (B)

PSYCH 730. Psychology of Learning (B)

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

PSYCH 75400 - Applied Animal Welfare & Behavior (B)

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.

PSYCH 75700 - Animal Thinking and Communication (S, B)

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

prereq: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator
Credits 3

PSYCH 75800 - Conservation Biology/Psychology

An understanding of biodiversity, human impacts on biodiversity, the theory and practice of maintaining biodiversity in a developing world, and the social psychology of motivating action to protect nature. Special emphasis will be placed on how human and animal behavior threatens biodiversity. This course serves a basis for more specialized courses and provides the framework within which behavioral studies are implemented to inform conservation action with special consideration of factors that influence desire and willingness to take such actions.

prereq: Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

Hours 45 hrs. including conferences

Credits 3 cr.

PSYCH 75000 - Special Topics in Psychology

Readings and discussion on a selected problem or topic area – varies from semester to semester.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

***NOTE:** Special Topics courses and Independent Research projects related to ABC will depend upon student and faculty interests. Recent topics included Companion Animals in Society and Conservation Biology/Psychology. ABC students may also meet the elective course requirements by taking courses in any department such as Anthropology and Geography with permission of the Director of the ABC program.

Breadth Requirement

ABC students satisfy a breadth requirement by taking a 3-credit course in the applied psychology area and a 3-credit course in the social/cognitive/developmental area of psychology.

Thesis Requirement

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student's thesis committee, consisting of the supervisor plus at least another reader, and by the ABC Director. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

Psychology - MA

The MA degree is in general psychology, but students may focus their course work, independent study, and thesis research in one of three content areas: (1) applied and evaluative psychology; (2) social, cognitive, and developmental psychology; (3) biopsychology and comparative psychology. Students interested in animal behavior and conservation may choose the MA in Animal Behavior & Conservation offered by the Psychology Department.

1. Applied and evaluative psychology. Faculty research interests include topics in personality, psychopathology, theories of therapeutic methods, group dynamics, health and gender, stress and stress management, substance use, tests and measurements. Although the department offers theoretical courses on clinical topics, it does not offer supervision in counseling or therapy.
2. Social, cognitive, and developmental psychology. Faculty research interests include multicultural issues, cognitive and linguistic development, discursive social psychology, gender and cognition, attitudes, political psychology, psycholinguistics, decisionmaking, memory function in different populations.
3. Biopsychology and comparative psychology. Faculty research interests include hormonal influences on and neural control of behavior, mechanisms of drug abuse, developmental neuroscience, vision, animal learning and comparative cognition, evolution of behavior, animal orientation and communication, cerebral specialization of function.

Research Opportunities and Facilities

Students are encouraged to engage in research under faculty supervision. Laboratories at Hunter College provide specialized equipment for studies on human and animal physiology, acoustic analysis, human and animal learning, language and cognitive development, social development, and social psychology. Research is also possible at facilities of other universities and organizations where individual faculty members engage in collaborative research.

Requirements for Admission

Applicants are evaluated on the basis of their undergraduate grade point average, general GRE scores, background in psychology, two letters of recommendation (preferably from college instructors), and a statement of intellectual and research interests. Generally a minimum of 12 undergraduate credits in psychology, including one course in statistics and one laboratory course in experimental psychology are required; however, students who have a high undergraduate grade point average and high general GRE scores but lack a full psychology background may apply for admission. Such students may be required to take preparatory statistics and experimental courses. Note: There is no foreign-language requirement for the MA in psychology. The GRE advanced test in psychology is not required for admission.

Requirements for the MA Degree

Each candidate is required to complete an approved program of study including a thesis. A minimum of 30 credits is required for the general Psychology MA.

Required courses for all MA students (12 credits):

PSYCH 70200 - Proseminar in Psychology

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent

Hours 30 hrs lecture, 30 hrs conf or lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73900 - Research Methods in Animal Behavior (A, B)

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74700 - Experimental Social Psychology

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

Breadth Requirement

One course selected from each of the following three categories. See the course listing for category or categories into which each course falls.

1. A (applied and evaluative psychology)
2. S (social, cognitive, and developmental psychology)
3. B (biopsychology and comparative psychology)

Thesis Requirement

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student's thesis committee, consisting of the supervisor plus at least another reader, and by the graduate adviser. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

Financial Assistance

The college offers some financial aid programs through the Financial Aid Office. Students should consult that office for information. In addition, some faculty have research grants on which students can work as research assistants. Small grants and awards for funding MA research are sometimes available.

PSYCH 680xx - Special Topics in Psychology

Readings and discussion on a selected problem or topic area — varies from semester to semester.

Hours 45 hrs including conference

Credits 3

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 60500 - Abnormal Psychology: Advanced Course (A)

Covers facts and theories about the etiology of mental disorders; consideration of deviations commonly found in the population, such as mental retardation.

prereq: Psych 22000 or 22300

PSYCH 63000 - Theories and Methods of Psychotherapy (A)

Evolution of theories and methods of individual psychotherapy with a focus on central issues in the field.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 64100 - Comparative Psychology (B)

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 64600 - Physiological Psychology (B)

The basics of neuroscience as sampled from the behavioral aspects. Topics covered include: structure and function of cells in the nervous system; neural communication: physiology and pharmacology; structure of the nervous system and endocrine system; research methods of physiological psychology; sensory and motor systems; aggressive behavior; anatomy of learning.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 65100 - Psychology of Small Groups (A)

Therapeutic groups have experienced massive development and rapid spread: over ten million adults currently participate in the US. The course consists of a didactic part (including such topics as leadership, group structure and power, norm formation, and conditioning) as well as a clinical part (in which students participate both as potential leaders and clients). The aim is to familiarize students with group processes and an understanding of group dynamics.

Hours 15 hrs lecture, 30 hrs lab, incl conf,

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. Instructor's permission

PSYCH 65151 - Family and Couples System (A)

Family and couples communication as seen through the lens of systems theory. Topics include interpersonal meanings and patterns, conflict, and barriers to intimacy. Conceptual material is complemented by real case examples and TV and film illustrations.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 67600 - Psychology of Personality (A)

Frameworks for the study of personality, including classical psychoanalysis, American psychiatry, behaviorism, and phenomenology. Theorists studied include Freud, Adler, Jung, Sullivan, Dollard and Miller, Rogers, and Binswanger and Boss.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 69000 - Independent Research in Psychology – 3 credits

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69100 - Independent Research in Psychology

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000, such as a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 15 hrs,

Credits 1 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69200 - Independent Research in Psychology

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000 but more extensive than that required for PSYCH 69100. This may involve a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 30 hrs.

Credits 2 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the

instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 70000 - History of Psychology

PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70200 - Proseminar in Psychology

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70400 - Instrumentation in Experimental Psychology

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent

Hours 30 hrs lecture, 30 hrs conf or lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70600 - Statistical Methods in Psychology II

PSYCH 706 Statistical Methods in Psychology II

Covers advanced topics in statistics, including multivariate analysis, multiple regression, analysis of variance for complex designs, and analysis of covariance.

prereq: PSYCH 705

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70702 - Thesis Research

Additional semester of individual research under the supervision of a department faculty member. A formally approved Thesis Proposal and written approval from the faculty sponsor is required.

prereq: PSYCH 70701

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. Limited to students working on their MA thesis.

PSYCH 71000 - Advanced Physiological Psychology I (Neuroscience I) (B)

An introduction to fundamental methodology in neuroscience research and a focus on the functioning of individual neurons and communication between neurons. This team-taught course is part of a two-term sequence covering fundamental concepts in neuroscience.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Instructor's permission. Neuroscience I is not a prerequisite for Neuroscience II.

PSYCH 71100 - Advanced Physiological Psychology II (Neuroscience II) (B)

Topics in neuroscience, including development of neural patterns, cellular differentiation, pathways and synaptic connections, the genetics of neural development, neural sexual differentiation, neural plasticity and endocrine factors, somatosensation, motor systems, and vision.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

instructor's permission

PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

PSYCH 72000 - Developmental Psychology I (S)

Topics in development, including pre- and perinatal influences on development, learning, cognition, and aggression. The course uses a variety of perspectives to examine issues in development.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 72100 - Developmental Psychology II

PSYCH 73000 - Psychology of Learning (B)

PSYCH 730. Psychology of Learning (B)

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

PSYCH 73500 - Psychology of Perception

PSYCH 73600 - Sensory Perception

PSYCH 73700 - Cognitive Development (S)

The development of cognition, i.e., the development of higher mental processes. Areas covered include infancy, conceptual development, memory, social cognition, and language.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73800 - Cognitive Psychology (S)

A theoretical and experimental overview of cognitive psychology. Topics include cognitive architecture, attention, pattern recognition, memory, language processing, and representation of knowledge.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73900 - Research Methods in Animal Behavior (A, B)

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74000 - Personality

PSYCH 74100 - Evolution of Psychoanalytic Theory

PSYCH 74200 - Contemporary Psychoanalytic Theories (A)

An exploration of the British object relations theorists and their influence on contemporary psychoanalytic approaches. Students should have some background in basic psychoanalytic theory.

prereq: PSYCH 22000 or 67600, and PSYCH 22300 or permission of the instructor

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74400 - Stress, Trauma, and Resilience

This course covers the interrelated topics of stress, trauma, and resilience. It uses a clinical science perspective to emphasize both normative (healthy) and problematic physiological and psychological responses to stress and trauma, as well as factors that influence resilience. Students are expected to have a working knowledge of abnormal psychology and research methods. Students will be expected to have completed Research Methods and Abnormal Psychology.

prereq: Permission of the Graduate Advisor

Hours 3 hrs

Credits 3 cr.

PSYCH 74600 - Social Psychology (S)

An advanced overview of the field, includes a focus on: the development of social psychological theory; beliefs, attitudes, and social behavior; stereotyping and prejudice; influencing attitudes and changing behavior; interpersonal perception; the self and social identity; social interaction and interpersonal relationships; group dynamics; and implications of social psychology for understanding society.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74700 - Experimental Social Psychology

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics

Hours 30 hrs lecture, 30 hrs lab,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74800 - Psychological Theories of Ethnic and Cultural Identity (S)

Current research and theory on ethnic and racial identity development, including components of ethnic/racial/ cultural identity; historical and conceptual issues; the state of theory and research on ethnic identity as it pertains to particular ethnic groups; racial and ethnic socialization; language and ethnic identity; applications of the ethnic identity construct.

*Hours 45 hrs including conference,
Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75000 - Special Topics in Psychology

Readings and discussion on a selected problem or topic area – varies from semester to semester.

*Hours 45 hrs including conference,
Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75003 - Comparative Cognition and Learning

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

*Hours 45 hrs including conference,
Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75104 - Basic Psychological Processes 2: Development, Cognition and Language (S)

Covers the basic concepts in memory, language and cognitive development. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

*Hours 45 hrs including conference,
Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75200 - Language and Thought

PSYCH 75300 - Attitudes and Attitude Change (S)

Covers traditional and current theory and research on attitudes and persuasion in social psychology, including attitude formation, structure, and measurement; the link between attitudes and behavior; prejudice and discrimination; and persuasion theories including cognitive dissonance, message learning, fear appeals, and elaboration likelihood.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75400 - Applied Animal Welfare & Behavior (B)

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.

PSYCH 75500 - Psychopathology I (A)

Familiarizes students with thinking and research about diagnosis, etiology, course and treatment of abnormal behavior. Topics covered include diagnosis and the principles and techniques of assessment; research methodology (experimental and correlational); the schizophrenias, mood disorders, neuroses, personality disorders, and stress reactions.

Hours 45 hrs including conference,

Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75600 - Psychopathology II

PSYCH 75700 - Animal Thinking and Communication (S, B)

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

prereq: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator

Credits 3

PSYCH 75800 - Conservation Biology/Psychology

An understanding of biodiversity, human impacts on biodiversity, the theory and practice of maintaining biodiversity in a developing world, and the social psychology of motivating action to protect nature. Special emphasis will be placed on how human and animal behavior threatens biodiversity. This course serves a basis for more specialized courses and provides the framework within which behavioral studies are implemented to inform conservation action with special consideration of factors that influence desire and willingness to take such actions.

prereq: Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of

*the instructor as well. This course requires a stronger background than that required for most 600 level courses.
Hours 45 hrs. including conferences
Credits 3 cr.*

PSYCH 76000 - Psychometric Methods

PSYCH 76100 - Measurement of Abilities

PSYCH 76300 - Psychophysical Methods

PSYCH 76400 - Personality Measurement I

PSYCH 76500 - Personality Measurement II: Projective Techniques

PSYCH 78000 - Quantitative Methods in Psychology

PSYCH 78300 - Mathematical Models in Psychology

PSYCH 78400 - Colloquium in Animal Behavior and Biopsychology

The fall colloquium is organized by doctoral students in the Biopsychology, Behavioral Neuroscience program and includes presentations on a variety of topics by students, faculty and outside speakers. The spring colloquium is a themed set of symposia in which distinguished visiting scientists discuss their work in relation to current issues in the field.

Credits 1 cr

*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.
instructor's permission*

PSYCH 79000 - Experimental Psychopharmacology

Programs and Courses in Sociology/Social Research

Areas of research application within MS in Social Research

- Market Research and Consumer Behavior
- Media Research and Analysis
- Research and Policy Analysis in the Public and Nonprofit Sector
- Research in International Development

Other options may be designed by students in consultation with the program director.

Faculty

Faculty

Graduate Masters

Social Research - MS

The Department of Sociology offers an intensive program in social research leading to the master of science degree. The program is designed for individuals who wish to pursue a career in applied social research and related areas, as well as for those who wish to upgrade their research skills. All courses are scheduled in the evening.

Graduates are prepared for professional research positions in business corporations, organizations involved with international development, government agencies and non-profit organizations.

The program offers four broad areas of research application: market research and consumer behavior; media research and analysis; research in international development; and research and policy analysis in the public and nonprofit sector. Students may focus on one of the program's areas of specialization or, with faculty guidance, develop a customized course of study if a student is interested in an area of research other than those given above.

Students train for careers in research through a combination of course work, research in their areas of specialization, and a supervised internship in a professional research setting. By carrying out a research project during the internship outside the university setting, students gain firsthand experience in the conduct of applied research and familiarity with practical problems in their field of interest. Frequently, agencies and companies providing internships appoint former interns to full-time positions after graduation. Internship sites have included such companies and organizations as Community Service Society; CBS; Children's Television Workshop; numerous state and city agencies; Warnako Corp.; Time-Warner, Inc.; Lou Harris Interactive; Nielsen Corp. and the United Nations. Students who are already working in research positions may use on-the-job projects as the basis of an internship, with permission of the program director.

Students wishing to learn more about the program are encouraged to talk with the Program Director, **Professor Howard Lune**, who can be reached in the program office in 1601 Hunter West or by email at hlune@hunter.cuny.edu.

Admission Requirements

All applicants must have successfully completed at least 3 credits in statistics at either the undergraduate or the graduate level. Three credits in research methods and a background in sociology or other social science are desirable but not required. General admission requirements for arts and sciences graduate programs apply, including a minimum grade point average of 3.0 and the Graduate Record Exam (GRE) or the Graduate Management Admission Test (GMAT). Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit minimum scores on the Test of English as a Foreign Language (TOEFL) of 550 on the paper based test or 213 on the computer administered test or 60 (less speaking component) on the TOEFL IBT.

Applicants who do not meet these requirements in full may apply and request special permission to enter after a mandatory personal interview.

Degree Requirements

Completion of the graduate program in social research requires a minimum of 45 credits, which include:

1. Core Courses

GSR 70800 - Statistics I

Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

prereq: SOC 24100 or equiv

Hours 45

Credits 3

fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70900 - Statistics II

Topics covered include analysis of variance, multiple regression and other multivariate techniques.

prereq: GSR 70800 with grade of B or better

Hours 45

Credits 3

spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71000 - Research Methods I

Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

prereq: SOC 24100 or equiv or perm instr

Hours 45 hrs,

Credits 3 cr

fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71100 - Research Methods II

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

prereq: GSR 71000 or permission of instructor

Hours 45 hrs,

Credits 3 cr

spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70200 - Contemporary Sociological Theory

Methodological philosophies and findings of major sociological theorists.

Hours 45

Credits 3

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71600 - Workshop in Using Information Technology for Research

Use of the Internet and web for both qualitative and quantitative research; includes search and evaluation strategies, access to full text data bases, and interactive statistical and spatial analysis. Presentation of findings in formats suitable for delivery via the web.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to

advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71700 - Seminar in Applied and Evaluation Research

Theoretical and methodological issues in applied evaluation research; achieving agreement on program goals and qualifying goals.

prereq: GSR 70900, GSR 71000 and GSR 71100

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

Hours 45

Credits 3

Spring only. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

2. Electives

Fifteen credits are taken in courses according to the student's interests. Some may be taken in areas of specialization among GSR courses, some may be selected from courses in other Hunter departments or CUNY colleges. See advisers.

3. Internship Requirements

Degree candidates must work as research interns in public or private organizations for a minimum of three (full-time) or six (part-time) months. A 9-credit sequence based on the internship includes 6 credits for completion of the internship.

GSR 71800 - Research Internship

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

Credits 6 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Additional Information

The program can be completed in two years on a full-time basis, or seven semesters on a part-time basis (two courses per semester minimum).

Research Facilities and Affiliations

Graduate social research students have access to college-wide research and computing facilities and libraries of Hunter College, as well as to GSR program facilities, including a social sciences computer lab and a focus group facility.

Course Sequence

The following links provide a recommended model for timely completion of the program. Actual student schedules will depend on student interest and advisement.

- [Social Research Recommended Path for Full-Time Study, 2 years](#)
- [Social Research, Recommended Paths for Part-Time Study, 3 - 3 1/2 Years](#)

Note(s)

All courses offered by the program are open to students from other graduate programs provided the appropriate prerequisites are met.

Social Research Recommended Path for Full-Time Study, 2 years

[Return to Social Research - MS](#)

First Year

Fall Semester

GSR 70200 - Contemporary Sociological Theory

Methodological philosophies and findings of major sociological theorists.

Hours 45

Credits 3

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70800 - Statistics I

Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

prereq: SOC 24100 or equiv

Hours 45

Credits 3

fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71000 - Research Methods I

Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

prereq: SOC 24100 or equiv or perm instr

Hours 45 hrs,

Credits 3 cr

fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

- GSR Elective

Spring Semester

GSR 70900 - Statistics II

Topics covered include analysis of variance, multiple regression and other multivariate techniques.

prereq: GSR 70800 with grade of B or better

Hours 45

Credits 3

spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71100 - Research Methods II

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

prereq: GSR 71000 or permission of instructor

Hours 45 hrs,

Credits 3 cr

spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

- GSR Elective

Second Year

Fall Semester

GSR 71700 - Seminar in Applied and Evaluation Research

Theoretical and methodological issues in applied evaluation research; achieving agreement on program goals and qualifying goals.

prereq: GSR 70900, GSR 71000 and GSR 71100

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71800 - Research Internship

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

Credits 6 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

- GSR Elective

Spring Semester

GSR 71600 - Workshop in Using Information Technology for Research

Use of the Internet and web for both qualitative and quantitative research; includes search and evaluation strategies, access to full text data bases, and interactive statistical and spatial analysis. Presentation of findings in formats suitable for delivery via the web.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

Hours 45

Credits 3

Spring only. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

- GSR Elective
- GSR Elective

Undergraduate Major/Graduate Masters

Social Research - BA/MS

For a limited number of qualified undergraduate students, the sociology department offers an accelerated five-year program leading to a BA in sociology and an MS in social research. The program requires a total of 145 credits of college work (100 undergraduate, 45 graduate). To get the maximum financial benefit from BA/MS program, students should apply before the number of cumulative credits taken (including those being taken currently) exceeds 100 credits. All credits above 120 will be charged at the graduate tuition rates. The BA/MS program is a full-time program requiring 12 graduate credits per term.

In order to be admitted to the program students must complete their basic requirements, including their major, pass an honors course or its equivalent (cross listed graduate course, honors independent study), have an overall GPA of at least 3.5 and meet other requirements of the MS program as listed below (with the exception of the GRE exam). BA/MS applicants should have no more than 100 credits completed before entering the program and can apply for fall or spring admission. Applications on forms provided by the undergraduate advising office are filed with the undergraduate advisor, and include a copy of the current transcript and two letters of recommendation.

Students are admitted to the BA/MS program at the end of their junior year but must consult with the undergraduate advisor before they file the application.

Sociology/Social Research Core

GSR 70200 - Contemporary Sociological Theory

Methodological philosophies and findings of major sociological theorists.

Hours 45

Credits 6 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

Hours 45

Credits 3

Spring only. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Sociology/Social Research Special Topics Seminars and Independent Research

GSR 79000 - Special Topics Seminar

The program offers experimental special-topics seminars. Check with program office for more information.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Marketing Research and Consumer Behavior

GSR 72200 - Consumer Behavior

Cultural, social, and psychological influences on consumer decision-making and consumer satisfaction; Consumerism.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 72300 - Nonprofit and Social Marketing

Application of marketing and marketing research to non-business organizations.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Media Research and Analysis

GSR 73100 - Television Programming and Audiences

Socioeconomic analysis of television programming and the various audiences served, including the cable universe; review of relevant theoretical approaches, research methods and audience data, patterns of television consumption.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 73200 - Motion Pictures

Analysis of contemporary American motion picture industry with special emphasis on independent production; social structure of production, product analysis, audience appeal and marketing; review of relevant theoretical approaches and current research.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 73300 - The New Electronic Media and Information Markets

Investigation of new media and information technologies and the markets they create (digital television, Internet, etc.); relation between these media and markets and the class structure; analysis of the consumptive and pragmatic use of information.

Hours 45 hrs,

Credits 3 cr

Students can take graduate courses in the Department of Film and Media Studies provided they are directly related to media analysis and research. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Evaluation

GSR 75200 - Focus Group Research

Theory and application of focus group research. Methodological procedures, conceptualization of research problem, organization of group, listening and probing techniques, analysis of verbal and nonverbal data, report writing.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76700 - Interpersonal Process in Organizations

Analysis of social relations in organizations; interpersonal processes in management, conflict negotiations, and interdepartmental relations.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Policy Analysis/Nonprofit Sector

GSR 74100 - Social Policy

Planning procedures and program evaluation in public, corporate, and other private-sector settings; sources of error in forecasting.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 74200 - Public Policy Analysis

Theories, concepts, and methods in public- policy analysis applied to select policy areas such as social service, criminal justice, and education.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 74600 - Organizational Dynamics

Organizational design, processes and analysis in the business, public, and nonprofit sectors.

Hours 45 hrs,

Credits 3 cr

With appropriate approval, students may take graduate courses offered by the Department of Urban Affairs such as URBG 74800 (Management Control of Nonprofit Organizations) and URBG 76200 (Health Regulation). Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Training in International Development

GSR 73400 - Electronic Media in Developing Countries

Electronic media use in developing countries with emphasis on television and developmental applications; policy and research issues; role of social marketing (the TELEVISA model); the international digital divide, and related issues.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76100 - Development Theories and Practices

History of the evolution of theories of development and analysis of their application to post colonial societies from 1945 to 1989; assessment of development practices and their implications for poverty alleviation and social change; analysis of the conditions under which development aid is provided and its impact on a sample of countries from Africa, the Middle East and Asia.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76200 - Rethinking Development in the Global Era

Critical analysis of the shift from the old development discourse to a new one centered on “post development” or the “global” economy; identification of the ways in which developing societies attempt to integrate themselves into the global economy; assessment of the cultural, social and political impacts of the switch from socialist or mixed economies to market economies; analysis of the role of IMF, the World Bank, and world trade agreements in reshaping developing societies. Methodologies of social development, conflict resolution, legal reform and poverty alleviation used in aid organizations.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76300 - International Development Practicum

Structures and functions of international aid organizations. Training in program/project analysis; training in gender and development; advocacy for a number of development issues as well as governance.

Hours 45 hrs,

Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Program and Courses in Speech-Language Pathology

Programs and Courses in Speech-Language Pathology and Audiology

PROGRAM OBJECTIVES

The primary objective of the Communication Sciences Program is to provide a broad theoretical background in human communication and its disorders that fulfill the academic and clinical requirements for the American

Speech-Language-Hearing Association (ASHA) professional certification (Certificate of Clinical Competence) and New York State licensure. The COMSC Master of Science (MS) degree program in Speech-Language Pathology (SLP) is accredited by the Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing Association. The course of study generally requires two years of full-time participation including summers.

Definition of a Speech-Language Pathologist

Speech-language pathologists (SLPs) are autonomous professionals who identify, assess, prevent, and manage communicative disorders as well as swallowing or other upper aerodigestive disorders. Speech-language pathologists seek to optimize the communicative abilities of individuals, across the lifespan. Speech-language pathologists provide services to individuals

in nine clinical areas: articulation and phonology, fluency and stuttering, voice and resonance, receptive and expressive language, swallowing, cognitive aspects of communication (e.g., executive functioning), hearing, social aspects of communication (e.g., communication opportunities, social skills), and communication modalities (i.e., oral, manual, augmentative and alternative communication; assistive technologies).

Center for Communication Disorders

The Hunter College Center for Communication Disorders (Speech-Language-Hearing Clinic) is located at the Brookdale Health Sciences campus, 425 East 25 St., Room 133 North. The Center is an integral part of the Communication Sciences Program. The Center provides diagnostic and therapeutic services for a wide variety of language, speech, voice, fluency, swallowing, hearing, communication modality, and social communication disorders. Audiological services include complete audiological evaluations, auditory processing disorder testing, and auditory brainstem response assessment with state of the art instrumentation. Services are available to the Hunter College community as well as the general public. Appointments can be made by calling (212) 481-4464.

Clinical Doctoral Program in Audiology (AuD)

The City University, through a joint program offered by Hunter College, Brooklyn College and the Graduate Center, offers a clinical doctoral program in audiology. For a description of the program, see the Bulletin of the Graduate Center or go to [http://www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Audiology-\(Au-D\)](http://www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Audiology-(Au-D))

Communication Sciences: Speech-Language Pathology - MS

The 68-credit Speech-Language Pathology (SLP) curriculum leading to an MS degree prepares individuals to become speech-language pathologists working in hospitals, rehabilitative centers, college or university clinics, health-care agencies, specialized clinical settings, or private practice and prepares students for professional practices in preschools, elementary and secondary schools, and early-intervention developmental centers. Successful completion of the SLP curriculum prepares students to meet the academic and clinical requirements for ASHA certification, New York State licensure, and recommendation for NY State certification as a teacher of students with speech and language disabilities (TSSLD). Additional requirements for certification following graduation include the completion of a clinical fellowship

year and passage of PRAXIS examination in Speech Language Pathology. Students seeking TSSLD additionally must take the New York State Teacher Certification Examinations: LAST (Liberal Arts and Science Test) and Elementary (or Secondary) Assessment of Teaching Skills-Written (ATS-W) prior to graduation.

Admission Requirements

Hunter College maintains only electronic processes for Graduate Admissions. Applicants are responsible for creating an admissions account and correctly submitting the following:

- Official transcripts from undergraduate and graduate schools verifying completion of degrees, GPAs and coursework
- GRE scores
- Two letters of recommendation
- Narrative statement

Visit Hunter College's Graduate Admissions page for more information regarding the application process.

Individuals wishing to matriculate into the COMSC program must demonstrate completion of 45 credits of prerequisite coursework in Communications Sciences and Disorders as well as Liberal Arts and Sciences.

The breakdown of the prerequisite coursework is outlined below.

Fifteen credits of foundations courses in Communication Sciences and Disorders are required. Each of the following must be at least 3 credits.

- Introduction to Language
- Anatomy and Physiology of Speech Mechanisms
- Phonetics of American English
- Introduction to Speech Pathology
- Introduction to Audiology
- Language Acquisition

Thirty credits in Liberal Arts and Sciences courses are required of each applicant. Applicants should review catalog descriptions of courses they have taken to ensure correct matching of the following requirements:

- Biological science (3 credits)—examples are botany, biology, ecology, genetics, marine biology, nutrition, physiology, zoology
- Physical science (3 credits)—examples are chemistry, physics, earth science, oceanography, geology, astronomy, weather
- Mathematics or Statistics (3 credits)—examples are algebra, calculus, trigonometry, statistics (remedial, historical, or methods courses **do not** fulfill this requirement)
- Behavioral and/or social science (6 credits)—(study that pertains to understanding normal/abnormal human behavior, development across the life span, social interaction, and issues of culturally diverse populations)—examples include anthropology, criminology, sociology, psychology, human behavior, cultural diversity, gender issues
- English (6 credits)—at least 3 credits of intensive writing
- U.S. history or political science (3 credits)
- Art (3 credits)—examples include pottery, painting, drawing, theater performance, dance, musical instrument performance, art or music appreciation
- Language other than English (3 credits)—American Sign Language, Spanish, French, German, Hebrew, Arabic, Greek, etc.

When applying to become a matriculated student applicants should understand:

- Courses must be taken at an accredited college or university

- At least a B grade is necessary for all prerequisite coursework
- Advanced Placement (AP) credit will be accepted; however, AP must be recorded on the student's official undergraduate transcript(s)
- Pass/fail grades will not be considered as having fulfilled the Communication Sciences or Liberal Arts and Sciences prerequisite requirements
- Being a native speaker of a language will not fulfill the language requirement; the language requirement must be documented on an official transcript
- College-Level Examination Program (CLEP) scores will not be considered as having fulfilled admissions requirements

If unsure that a class meets a prerequisite course requirement, students applying to the SLPA Program may wish to include with their application a catalog description and/or syllabus for that course.

Suggested Curriculum

Fall 1 (15 credits)

COMSC 70000 - Introduction to Research Methods

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none

Hours 45

Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800

Hours 45

Credits 3

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none

Hours 45

Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none

Hours 45

Credits 3

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200

Hours 45

Credits 3

Spring 1 (15 credits)

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200

Hours 45 hrs,

Credits 3 cr

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72000, 73300

Credits 1 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

prereq: COMSC 72000

Hours 30

Credits 2

COMSC 75200 - Audiology for Speech-Language Pathologists

This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered. Particular emphasis will be on the role of speech-language pathologists in aural rehabilitative processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

prereq: none

Hours 45

Credits 3

Summer 1 (6)

COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals; and school-based curriculum.

prereq: COMSC 73300

coreq: COMSC 77100

Hours 30

Credits 2

COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 73300

Credits 1 cr

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs

Credits 3

Fall 2 (16 credits)

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60
Credits 4

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none
Hours 60
Credits 4

COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200
Hours 30
Credits 2

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300
coreq: COMSC 73600
Credits 1 cr

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none
Credits 3

Spring 2 (16 credits)

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter college will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300

Hours 45

Credits 3

COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for

understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45

Credits 3

COMSC 73700 - Clinical Seminar in Speech-Language Pathology: Alternative and Augmentative Communication (AAC)

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of AAC assessment, diagnostic intervention planning & implementation, data collection & interpretation, and follow-up assessment for monitoring progress across the life span. Presentation of no-tech (unaided communication), low-tech, mid-tech, and high-tech supports will be made available.

prereq: COMSC 73600

coreq: COMSC 73900

Hours 30 hrs,

Credits 2 cr

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900

coreq: COMSC 73700

Credits 1 cr

Total Credits: 68

TSSLD with Bilingual Extension (Spanish-English)

The Teachers of Students with Speech and Language Disabilities with Bilingual Extension (Spanish-English) option is available to students in the SLP curriculum who meet the admission requirements regarding demonstration of bilingual proficiency. A written and oral Spanish/English proficiency exam is administered to candidates by the Communication Sciences program. The bilingual requirements include an additional 12 credits of coursework:

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr

and a bilingual school-based practicum

COMSC 72904 - Clinical Practicum in Speech- Language Pathology 1

for students in the bilingual extension, designates a special section of **COMSC 72900** for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300
coreq: COMSC 73600
Credits 1

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

Credits 4 cr.
includes 30 hours fieldwork

Additional Bilingual Examinations

Students seeking TSSLD with Bilingual Extension are required to take the Bilingual Content Specialty Test (CST). In addition to the requirements for TSSLD, candidates for a bilingual extension must also take two language examinations — one in the target language (Spanish) and the other in English.

Teachers of Students with Speech-Language Disabilities – Bilingual (English-Spanish Extension) MS

Requirements for Admission

In addition to all of the requirements for admission to the TSSLD curriculum, students applying for the bilingual (Spanish and English) extension must pass a Communication Sciences Program-administered evaluation of written and oral proficiency in Spanish and English.

Requirements for the Degree

In addition to all of the TSSLD requirements identified above, students must complete the following Extension requirements:

A. 12 additional credits of coursework:

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork

Credits 4

20 hours fieldwork

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

B. School-based Language Practicum

A school-based language practicum (COMSC 72900 for 1 credit) must involve work with Spanish-speaking children eligible for bilingual education services.

C. NYSTCE Tests for English Language Proficiency

NYSTCE tests for English Language Proficiency Assessment (LPA) and the Target Language Proficiency Assessment (TLPA).

AUD 70000 - Anatomy and Physiology of the Audio-Vestibular System

Investigation of the embryology, structure, and function of the auditory and vestibular systems.

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 70300 - Acoustics and Psychoacoustics

Exploration of the decibel, sound transmission, complex stimuli, psychoacoustic methods, signal detection theory, auditory sensitivity, masking, loudness, pitch, binaural hearing.

coreq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology

Hours 30 hours lecture, 15 hours laboratory,

Credits 3 cr

AUD 70500 - Speech-Language Sciences

Exploration of phonological, lexical syntactic morphological, and pragmatic aspects of human communication associated with speech, language, hearing and related disorders, normal processes of speech and language comprehension and production over the life span.

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 70900 - Instrumentation in Audiology

Measurement and calibration of the physical characteristics of acoustic, electric, and other non-acoustic stimuli; instrumentation, digital technology; bio-electrical hazards.

prereq: Psychoacoustics

coreq: Physiological Acoustics

*Hours 15 hours lecture; 30 hours laboratory,
Credits 3 cr*

AUD 71000 - Diagnostic Audiology

Study of audiological test procedures and interpretation in the assessment of peripheral and functional hearing impairment.

*prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology; Psychoacoustics
Hours 30 hours lecture plus conference; 15 hours laboratory,
Credits 4 cr*

AUD 71200 - Speech-Language Pathology for Audiologists

Exploration of the effects of communication disorders and differences on audiological testing, treatment and counseling; screening and prevention of communication disorders across the life span. In accordance with the American Speech-Language-Hearing Association's certification standards, students will complete the hours of speech and language screenings in a variety of settings.

*prereq: Speech-Languages Sciences
coreq: Diagnostic Audiology
Hours 15 hours lecture plus conference, 15 hours laboratory,
Credits 3 cr*

AUD 71600 - Physiological Acoustics

Detailed study of the pneumatic/mechanical/hydraulic/electrical interfaces involved in the transduction of acoustic energy through the auditory system. In-depth investigation of the external ear biophysics, the middle ear transfer function, cochlear hydrodynamics and hydromechanics, auditory biopotentials, cochlear non linearity, neural transduction and neural coding in the peripheral and central auditory systems.

*prereq: courses in Anatomy & Physiology of the Audio-Vestibular System and Psychoacoustics
Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 71800 - Introduction to Research Methods

Exploration of issues and concepts in study design and analysis including types of research, controlling for confounding variables, measurement errors and their effects, statistical methods, and their applications to clinical populations.

*prereq: 30 hours lecture plus conference
Credits 3 cr*

AUD 72000 - Multicultural Issues for Audiologists

Examination of multicultural influences on the prevalence of auditory, vestibular, and otologic disorders; dialectical considerations for suprathreshold speech-recognition assessment; multicultural influences on attitudes toward health care providers, health care, disability, and deaf; ramifications of cultural diversity for professional practice; using culturally sensitive measures and protocols for assessment and management.

prereq: Diagnostic Audiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 73000 - Amplification I

Examination of hearing-aid components, hearing aid candidacy, output limiting/compression, electroacoustic and real-ear measures, prescriptive procedures, amplification, earmolds and earmold acoustics, cerumen management, binaural issues including deprivation and acclimatization, approaches to hearing aid evaluation.

prereq: Diagnostic Audiology, Physiological Acoustics, and 1 cr of Audiology Practicum
Hours 30 hours lecture plus conference; 15 hours laboratory,
Credits 4 cr

AUD 73300 - Communication Skills of Adults with Hearing Loss

A comprehensive approach to rehabilitation of adults with hearing impairment. Assessment of adult communicative function including auditory/visual speech perception, and use of selfassessment using cochlear implants and other sensory aids.

prereq: Diagnostic Audiology and 1 cr of Audiology Practicum
coreq: Amplification I
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 73500 - Auditory Electrophysiology

Advanced differential diagnosis of auditory disorders. Exploration of theoretical bases and clinical aspects of otoacoustic emissions and middle ear measurement.

prereq: Diagnostic Audiology and 1 cr of Audiology Practicum
coreq: 2nd cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr

AUD 73700 - Prevention and Identification of Hearing Loss

Exploration of procedures to prevent the onset and minimize the development of hearing disorders; identifying individuals at risk for hearing impairment throughout the lifespan; screening individuals for hearing impairment and disability/handicap; administering hearing conservation programs.

prereq: courses in Diagnostic Audiology and Auditory Evoked Responses
coreq: course in Audiology Electrophysiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 74000 - Aural Habilitation

Roles and responsibilities of the audiologist in clinical and educational settings. Assessment and management of communicative function in children with hearing impairment, including those with minimal hearing loss. Development of strategies for improving speech perception skills, including usage of assistive technology.

prereq: Auditory Evoked Responses; Speech-Language Pathology for Audiologists; and, 2 cr of Audiology Practicum
coreq: Audiology Electrophysiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 74200 - Auditory Evoked Responses

Exploration of the theoretical bases and clinical applications of the auditory evoked potentials.

prereq: Audiology Electrophysiology and 2 cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr

AUD 74600 - Pediatric Audiology

Exploration of the effects of hearing loss on child development, prevalence of hearing loss in childhood, embryology, genetic issues, development of auditory function, hearing and balance disorders in children, pediatric audiology assessment battery, pediatric considerations in amplification, assessment of special populations.

prereq: Amplification I, Auditory Evoked Responses and 2 cr of Audiology Practicum
coreq: Audiology Electrophysiology, Prevention and Identification of Hearing Loss
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 74800 - Amplification II

Advanced signal processing, verification, validation/outcome measures, pediatric amplification fitting, noise-reduction strategies, multi-microphone/directional technology, troubleshooting/repair, hearing-aid orientation.

prereq: Amplification I and 2 cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr

AUD 75000 - Counseling

Contemporary theories of counseling. Application of principles and methods to problems faced by individuals with communication, hearing, vestibular and tinnitus disorders and their families. Counseling strategies to maximize individual's ability to understand, adapt and cope with his/her disorder.

prereq: Diagnostic Audiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 76000 - Medical Audiology

Medical and audiological aspects of hearing and balance disorders, including issues in genetics, otologic assessment and treatment, and use of imaging studies.

prereq: Auditory Evoked Responses and 2 cr of Audiology Practicum
coreq: Audiology Electrophysiology

*Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 76300 - Vestibular and Tinnitus Evaluation and Management

Investigation of balance tests including electronystagmography, posturography, and rotary chair; vestibular rehabilitation; electrophysiologic and behavioral techniques for the assessment of tinnitus; tinnitus management.

*prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology, Diagnostic Audiology, Auditory Evoked Responses, Audiology Electrophysiology
Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 76500 - Audiologic Research Proposal

Critiquing of research and the development of individual research proposals. Development of Institutional Review Board (IRB) application.

*prereq: Introduction to Research Methods and completion of 45 Au.D. credits
Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 76700 - Amplification III

Advanced programming. FM fitting and evaluation; special fittings; developing technologies; current research in amplification.

*prereq: Amplification I and 2 cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr*

AUD 77000 - Cochlear Implants and other Sensory Aids

Effects of electrical stimulation on the auditory system; exploration of candidacy, principles of signal processing, and audiologic management for children and adults who use cochlear implants and other sensory aids.

*prereq: courses in Anatomy & Physiology of the Audio-Vestibular System; Acoustics and Psychoacoustics; Speech-Language Sciences; Physiological Acoustics; Instrumentation in Audiology, Amplification I
Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 77200 - Auditory Processing Disorders: Assessment and Treatment

Relevant neuroanatomy and physiology of auditory pathways; behavioral and physiological assessment techniques and management procedures for children and adults with auditory processing disorders.

*prereq: Auditory Evoked Responses; Auditory Electrophysiology, Speech-Language Pathology for Audiologists, Pediatric Audiology, Audiologic Habilitation and 2 cr of Audiology Practicum
Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 77400 - Hearing and Aging

Examination of the biological, physiological and sociological changes accompanying the aging process; protocols for evaluating and treating older adults with hearing impairment.

prereq: courses in Diagnostic Audiology and Anatomy & Physiology of the Audio-Vestibular System; Auditory Electrophysiology; Communication Skills of Adults with Hearing Loss

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 77600 - Seminar in Professional Practice - Business Practices

Issues of a professional nature that impact on the practice of audiology. Topics include licensure, accreditation/certification, quality assurance, reimbursement, establishing a private practice, professional liability, privacy/confidentiality and ethics.

prereq: courses in Diagnostic Audiology; Audiology Practicum; Audiology Seminar; Amplification II

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 78000 - Audiologic Research

Students, under the direction of their clinical research project committee, will carry out the proposal developed in Audiologic Research Proposal.

prereq: Audiologic Research Proposal

Hours 15 hours,

Credits 1 cr

AUD 79000 - Audiology Practicum

Clinical Practicum in assessment and management of a wide variety of hearing disorders under the supervision of an ASHA certified and New York licensed audiologist.

Hours 15 hours laboratory,

Credits 1 cr

AUD 79600 - Seminar in Audiology

Examination of ethical issues, certification standards, Center policies and procedures, infectious disease and infection control, history taking, report-writing, counseling, case studies, procedures and protocol in various settings.

Hours 15 hours,

Credits 1 cr

AUD 79800 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

Hours Conference,

Credits 1-3 cr

AUD 79900 - Audiology Residency

Students will be placed and supervised in setting(s), which will meet CAA standards for the certificate of Clinical Competence for the clinical residency year. Student must successfully complete this course two times.

coreq: Audiology Residency Seminar.

Credits 1-3 cr

prereq for the 1st semester of Audiology Residency: Completion of 6 credits of Audiology Practicum and 6 credits of Audiology Seminar

COMSC 60400 - Introduction to Language Science

An introduction to the nature of language and communication. Topics include components of the linguistic system, relationship between verbal and non-verbal communication, and language acquisition across the life span.

Hours 45

Credits 3

COMSC 60700 - Phonetics of American English

Phonetic features of oral American English and dialectal variations of American English and non-native English speech.

Hours 45

Credits 3

COMSC 61500 - Speech and Its Production

An overview of the structure of speech and the basic mechanisms involved the production of speech sounds; a foundation for a more in-depth study of speech science and its application to clinical practice in speech-language pathology and audiology; structure and organization of the ventilatory, laryngeal, supralaryngeal and orofacial mechanisms; issues in basic speech acoustics and perception.

Hours 45

Credits 3

COMSC 62000 - Introduction to Speech-Language Pathology

Introduction to organic and behavioral correlates of human communication; its development and disorders. The influence of culture, heritage, and socioeconomic status on the disorders of voice, articulation, fluency, and language.

Hours 45

Credits 3

COMSC 64000 - Introduction to Audiology

Etiology and pathology of hearing disorders, basic properties of the auditory stimulus: measurement of pure tone thresholds by air and bone conduction. Overview of the audiologist in diagnosis and management of hearing disorders.

Hours 45

Credits 3

COMSC 70000 - Introduction to Research Methods

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none

Hours 45

Credits 3

COMSC 70200 - Multicultural Issues in Counseling and Communication

This course presents a multicultural perspective of counseling theories, techniques and strategies for persons with disorders and their families. It addresses the impact of cultural, ethnic, gender, socioeconomic and individual variations in culturally appropriate delivery of services to individuals with speech-language disorders as well as those acquiring English as a second language.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800

Hours 45

Credits 3

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter college will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none

Hours 45

Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none

Hours 45

Credits 3

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300

Hours 45

Credits 3

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 71800 - Language and Literacy Disorders in School-Age Children

The impact of language disorders in school-age children and adolescents on their acquisition of academic skills required for the development of literacy skills and written language (reading, spelling and writing); cognitive and social aspects of communication; formal and informal assessment; collaborative management strategies; cultural diversity issues.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60

Credits 4

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and

procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200

Hours 45

Credits 3

COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45

Credits 3

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none

Hours 60

Credits 4

COMSC 72500 - Developmental Motor Speech and Swallowing Disorders

Diagnosis and management of childhood dysarthrias, developmental apraxia of speech and related disorders of swallowing.

prereq: COMSC 70800, 71200

Hours 45 hrs,

Credits 3 cr

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200

Hours 45 hrs,

Credits 3 cr

COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72000, 73300

Credits 1 cr

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1 cr

COMSC 72904 - Clinical Practicum in Speech- Language Pathology 1

for students in the bilingual extension, designates a special section of **COMSC 72900** for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1

COMSC 73000 - Cleft Palate and Craniofacial Disorders of Speech

Broad spectrum of velopharyngeal incompetence, including embryogenesis, classification of clefts, aspects of cleft palate speech, associated disorders, modes of formal and informal assessment and intervention strategies within the home, school, hospital and work environments; current surgical and prosthetic management of cleft lip, palate and related craniofacial disorders; impact on learning and literacy acquisition.

prereq: COMSC 70800, 71200

Hours 45 hrs,

Credits 3 cr

COMSC 73100 - Assessment and Management of Speech, Voice, and Swallowing Following Surgical Intervention for Head and Neck Cancer

Assessment and management of surgically based swallowing disorders in children, adolescents and adults; rehabilitation of speech, voice following oral and laryngeal surgery including the use of speech aids.

prereq: COMSC 70800, 71200

Hours 45 hrs,

Credits 3 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

prereq: COMSC 72000

Hours 30

Credits 2

COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals; and school-based curriculum.

prereq: COMSC 73300

coreq: COMSC 77100

Hours 30
Credits 2

COMSC 73600 - Clinical Seminar in Speech-Language Pathology 1

Assessment measures and intervention strategies for individuals with disorders of speech and language across the lifespan; development of professional oral and written communication skills.

prereq: COMSC 73300
Hours 30 hrs,
Credits 2 cr

COMSC 73700 - Clinical Seminar in Speech-Language Pathology: Alternative and Augmentative Communication (AAC)

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of AAC assessment, diagnostic intervention planning & implementation, data collection & interpretation, and follow-up assessment for monitoring progress across the life span. Presentation of no-tech (unaided communication), low-tech, mid-tech, and high-tech supports will be made available.

prereq: COMSC 73600
coreq: COMSC 73900
Hours 30 hrs,
Credits 2 cr

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none
Credits 3

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900
coreq: COMSC 73700
Credits 1 cr

COMSC 73904 - Clinical Practicum in Speech-Language Pathology 2

For students in the bilingual extension, designates a special section of COMSC 73900 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72900

coreq: COMSC 73700

Hours 45 hrs,

Credits 3 cr

COMSC 75200 - Audiology for Speech-Language Pathologists

This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered. Particular emphasis will be on the role of speech-language pathologists in aural rehabilitative processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

prereq: none

Hours 45

Credits 3

COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 73300

Credits 1 cr

COMSC 77200 - Summer Clinical Practicum in Speech-Language Pathology 2

Second year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood, adolescence, as well as with adults.

prereq: COMSC 77100

Credits 1 cr

COMSC 78100 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum

Hours Hours to be arranged

Credits 2 cr

COMSC 78200 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum

Hours Hours to be arranged

Credits 2 cr

COMSC 79000 - Special Topics in Speech-Language Pathology or Audiology

Hours 45 hrs,

Credits 3 cr

COMSC 79600 - Special Problems

Directed study under supervision of faculty members. For doctoral credit, must be supervised by member of doctoral faculty.

Hours 45 hrs,

Credits 3 cr

COMSC 79900 - Thesis Seminar

Individual research under supervision.

Hours Hours to be arranged

Credits 3 cr

Programs and Courses in Theatre

Theatre

About the Department

The Hunter College Theatre Department offers students the opportunity to study theatre while exploring New York's vibrant theatre scene. We offer classes in acting, directing, and playwriting and design in addition to theatre history, literature, and theory. We believe that critical thinking and practical skills nourish each other. Our accomplished faculty members bring their professional experience as practitioners and scholars outside the college to the classroom. The Department produces one mainstage and several smaller productions each semester, with students taking part in all areas of performance and production.

Doctor of Philosophy

The City University of New York offers a PhD program in theatre. See the Graduate Center webpage www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Theatre for a description of the PhD program and the complete list of courses. Students take their courses where they are offered, in

any of the branches of CUNY and at the CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016. All Hunter's Theatre MA program courses are accepted toward the CUNY PhD.

Faculty

Theatre Faculty

Graduate Masters

Playwriting MFA

The Rita and Burton Goldberg MFA in Playwriting is an affordable, selective two-year program that fuses rigorous academic theatre classes with intensive, hands-on writing workshops. Our distinguished playwriting faculty -- Master-Artists-in-Residence ANNIE BAKER and BRANDEN JACOBS-JENKINS, plus a Distinguished Lecturer to be named -- work with a small cohort of students who develop their voice, vision, and craft under the personal mentorship of these accomplished writers.

We supplement this program with a wide range of cultural offerings and professional development made possible by our New York City location.

Admissions

Applicants to the Rita and Burton MFA in playwriting are required to have a bachelor's degree; they must submit two letters of recommendation, GRE scores and a full length play or a one act play of at least 40 pages, both as hard copy and as a PDF attachment. An interview is strongly recommended. (Only matriculated students will be eligible to take MFA courses.) Admission will be decided by the Artistic Director and the MFA faculty. The deadline for application is March 15.

Degree Requirements

This two year program encourages playwrights to discover and celebrate their unique voice. Towards that end they'll be given a thorough grounding in theatre history, dramatic literature, play analysis, and the craft of playwriting as well have the opportunity to take electives in other departments. Well known theatre artists will also be invited in to share their experience and expertise. In conjunction with this academic grounding and focus on individual needs, there will be hands-on workshops in which students learn how to collaborate with actors, directors and designers, culminating in staged readings and full productions of their plays.

Required Courses (27 credits)

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

Hours 3

Credits 3

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

prereq: (and/or other special conditions):

THC 73100 or permission of instructor.

Hours 3

Credits 3

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

prereq: THC 73200 or permission of the instructor

Hours 3

Credits 3

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

prereq: THC 72100 Playwriting III

coreq: THC 72400 Production Workshop II

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

prereq: Playwriting II

coreq: Playwriting III

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III

coreq: THC 72200 Playwriting IV

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,
Credits 3 cr*

Electives (9 credits)

Nine credits are to be chosen from Courses in Theatre

Sample Program of Study

First Semester

THC 75100 - History of Theatre I

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,
Credits 3 cr*

Third Semester

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

*prereq: THC 73200 or permission of the instructor
Hours 3
Credits 3*

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

prereq: Playwriting II

coreq: Playwriting III

- THC elective or Internship: select from the following courses Courses in Theatre

Fourth Semester

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

prereq: THC 72100 Playwriting III

coreq: THC 72400 Production Workshop II

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III

coreq: THC 72200 Playwriting IV

THC elective or Internship: select from the following courses: Courses in Theatre

Theatre - MA

The MA program in theatre is designed to offer concentrated study in the areas of theatre history, theory, and criticism; dramaturgy; production and performance studies; and playwriting. The curriculum integrates theory with practice and accommodates the various backgrounds and career goals of theatre professionals, dramaturgs, and educators. Most students continue professional work or go on to PhD programs. In addition to the permanent faculty, well-known theatre artists, critics, and scholars teach on a part-time basis. Individual counseling is an integral part of the program. Through meetings with the graduate adviser, a program of study that meets each student's needs is developed.

MA students may take MFA Playwriting classes with permission. A one-act play must be submitted for consideration.

Requirements for Admission

General admission requirements to the graduate program in the arts and sciences are observed. An undergraduate theatre major is not needed for admission to the MA program in theatre. Students enter with a wide variety of academic backgrounds.

Requirements for the Degree

Courses

Each candidate must complete an approved program of study of at least 30 credits, including following. Courses other than those in the Department of Theatre may be applied toward the 30 credits with the approval of the graduate adviser, but may not exceed 9 credits. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

THC 70200 - History of Theatrical Theory

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,
Credits 3*

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,
Credits 3 cr*

Examination

The student is required to pass a three-hour comprehensive examination covering general knowledge in theatre history, criticism, and production. The comprehensive exam may be repeated if failed, but may be taken no more than three times. The department no longer requires a proficiency examination in one foreign language.

MA with Honors

Master's Essay: Upon completion of the comprehensive examination, the graduate committee will determine which students shall be invited to submit a proposal for a Master's Essay. This decision will be based on academic performance: papers, class participation, and the quality of the comprehensive examination. Honors students must register for THC 79900 - Master's Essay to complete the 30 required credits when the proposal is approved.

THC 79900 - Master's Essay

Individually supervised research and writing of a thesis, leading to graduation with honors.

Credits 3

Recent Electives

Our course offerings also include a continually changing roster of electives

Recent Electives:

Advanced Directing

Theatre and the Middle East

Law and American Drama

Intercultural Theatre

Greek Drama

History of Opera

Puppetry and Performing Objects On-stage

Performing Arts of Kerala, India

Goethe's Faust: Text, Background, Tradition

THC 70200 - History of Theatrical Theory

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

Hours 30 hours, including conferences,

Credits 3

THC 70500 - Theatre in Society

Study of influence of social, philosophical, and religious concepts on content and form of modern theatre.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 71000 - Studies in Dramatic Genre

Theories and changing forms of traditional theatrical genres: tragedy, comedy, tragicomedy, farce, melodrama.

Hours 30 hrs, including conferences,

Credits 3 cr

May be repeated for credit.

THC 71100 - Theatre Criticism

Analysis of practical modern criticism.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 72000 - Independent Research

Directed program of reading, research, or creative presentation under supervision of graduate faculty member.

prereq: perm instr

Hours Hrs to be arranged.

Credits 3 cr

THC 72500 - Special Topics

Studies in specialized areas of theatre.

Hours 30 hrs, including conferences,

Credits 3 cr

May be repeated for credit.

THC 73000 - Harold Clurman Seminar in Theatre

A seminar named in honor of Harold Clurman that features guest artists from the professional theatre discussing various aspects of theatre.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

Hours 3

Credits 3

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

*prereq: (and/or other special conditions):
THC 73100 or permission of instructor.*

*Hours 3
Credits 3*

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

*prereq: THC 73200 or permission of the instructor
Hours 3
Credits 3*

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

*prereq: THC 72100 Playwriting III
coreq: THC 72400 Production Workshop II*

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

*prereq: Playwriting II
coreq: Playwriting III*

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III
coreq: THC 72200 Playwriting IV

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 75300 - History of American Theatre

Theatre in United States from Colonial times to present, with emphasis on its importance as a social and cultural force.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 75400 - Contemporary Styles of Production

Theories in style and method of dramatic production.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 75500 - Visual Elements of Theatre I

Study and practice of director's and playwright's conceptual approach to visual requirements of plays.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 75600 - Visual Elements of Theatre II

Study and practice of scene and lighting design with special emphasis on their value to the director as important tools of interpretation.

prereq: THC 755
Hours 30 hrs, including conferences,
Credits 3 cr

THC 75800 - Asian Performance

Study of traditional performance genres in India, China, Japan and Southeast Asia.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 76000 - Studies in Theatre History and Production

Intensive study of history and theory of one of the component arts of theatre. Subjects announced in advance.

*Hours 30 hrs, including conferences,
Credits 3 cr
May be repeated for credit.*

THC 76100 - Dramaturgy Research and Case Studies

Consideration of general problems of production research, including its application in rehearsal; specific examples will be analyzed.

*Hours 45 hrs, plus hrs to be arranged,
Credits 3 cr*

THC 76200 - History of Directing

Seminar on the history of the directing profession, with emphasis on innovative 19th- and 20th-century artists.

*Hours 45 hrs,
Credits 3 cr*

THC 76300 - Dramaturgy Workshop

Workshop in the theory and practice of production dramaturgy emphasizing performance projects conceptualized by students working in director-dramaturgy pairs.

*prereq: THC 75100, 75200, 79100, or perm instr
Hours 45 hrs,
Credits 3 cr*

THC 76400 - Translation Workshop

Workshop in the theory and practice of translating plays. Each student will translate a play or other theatre-related text during the semester.

*prereq: perm instr
Hours 45 hrs,
Credits 3 cr*

THC 76500 - Dramaturgy Practicum

Independent study as a dramaturgy-assistant at a local professional theatre, supervised by a faculty member.

prereq: THC 761, 762, 763, or perm instr

Hours Hrs to be arranged.

Credits 3 cr

May be repeated twice for credit.

THC 78500 - Theories and Styles of Acting

Intensive study in theories and techniques of acting, with emphasis on historical and modern styles.

Hours 45 hrs,

Credits 3 cr

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

Hours 30 hrs, including conferences,

Credits 3 cr

THC 79100 - Advanced Directing and Rehearsal

Study of problems in play direction, with practice in presentation of scenes and plays.

Hours 45 hrs,

Credits 3 cr

THC 79200 - Special Problems in Directing

Interrelation of director and playwright through project work on original scripts.

prereq: THC 79100

Hours 45 hrs,

Credits 3 cr

THC 79300 - Playwriting I

Study of techniques of playwriting based on student's own work with special emphasis on scenes and one-act form.

Hours 45 hrs,

Credits 3 cr

THC 79400 - Playwriting II

Writing and criticism of original material with emphasis on full-length form.

prereq: THC 79300

Hours 45 hrs,

Credits 3 cr

THC 79500 - Seminar in Playwriting and Directing

Designed for playwrights at work on new scripts and for directors desirous of staging original material.

prereq: THC 79400 or 79200

Hours 45 hrs,

Credits 3 cr

May be repeated for credit.

THC 79600 - Film Writing

Study of problems of writing for film. Students are required to prepare original scripts for class critique.

Hours 45 hrs,

Credits 3 cr

THC 79900 - Master's Essay

Individually supervised research and writing of a thesis, leading to graduation with honors.

Credits 3

Graduate Masters

Urban Planning - MUP

The Master of Urban Planning program has four integrated components: a core curriculum, an area of concentration, an internship, and a studio. Its purpose is to train planners who, like their counterparts throughout the nation, have general expertise in planning theory and methods, an understanding of urban structure, specialized knowledge of a chosen planning concentration, and the skills and intellectual maturity to operate in the professional arena.

The 54-credit program is structured to provide students with the expertise essential to professional practice and to allow for flexibility to accommodate individual professional and academic aspirations. The core curriculum (21 credits) provides basic training in planning. It has a dual purpose: to place planning in its societal and theoretical context and to teach the skills of the profession. The area of concentration (12 credits) allows for in-depth training in a specific subfield of general planning practice. The studio (6 credits) provides experience in applied planning. Unrestricted electives (12 credits) allow for the exploration of a range of planning topics in elective courses and through independent research.

In organizing their programs, students work closely with faculty advisers.

Each student must also take one 3-credit internship. As interns, students may work for city and suburban planning agencies, neighborhood development groups, banks, municipal housing or budgeting units, planning journals, and other groups approved by the department. For many students, field experiences have led to full-time employment in their internship agencies after graduation.

In addition, the department has several internal work opportunities generated by the faculty and the Center for Community Planning and Development, which count towards the internship requirement. Faculty members routinely include in their research grant proposals funds to support graduate research assistants.

The Hunter College graduate program in urban planning is accredited by the Planning Accreditation Board (PAB), which is the national accrediting body of urban planning degree programs. The PAB is sponsored by the Association of Collegiate Schools of Planning (ACSP), the American Institute of Certified Planners (AICP), and the American Planning Association (APA). Students with multiple professional interests may wish to pursue joint degree programs with other New York universities. For example, a joint master of urban planning/juris doctor, available through a cooperative program with Brooklyn Law School, allows students to earn the two degrees in four years of full-time study.

Admission Requirements

Requirements for Admission to the Planning Program

Traditionally, most applicants come from the social sciences (economics, geography, sociology, political science, and urban and American studies), engineering, and architecture. English majors and students of religion, art history, and business have also enrolled. While many students enter Hunter directly from undergraduate study, a large percentage have spent time away from school and return to develop their knowledge and expertise or to prepare for a new career. Applicants must meet the general admission requirements for Hunter graduate programs, except for the Graduate Record Examination, which is not required. These requirements include the submission of transcripts and two letters of recommendation, along with a completed application form obtained from the Hunter College Graduate Admissions Office. Applicants are encouraged to visit the department during scheduled open house sessions and to contact the program director by e-mail with specific questions. Applicants are also encouraged to reach out to individual faculty members who may share their professional or research interests.

Degree Requirements

Requirements for the Master of Urban Planning

The degree requires 54 credits of graduate study. Of these, 42 must be selected within course offerings of the Hunter College graduate program in urban planning. With the approval of the department, 12 credits may be elected from other graduate programs.

Credits are distributed as follows:

Core Curriculum	21 credits
Area of Concentration	12 credits
Planning Studio	6 credits
Internship	3 credits

Unrestricted Electives 12 credits

Core Curriculum

The core curriculum includes content and courses in four areas: theories and process of urban planning, urban structures, public policy and law, and planning methods and information management. Students must take required courses, except where choices are allowed. The core consists of:

URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

Hours 45

Credits 3

URBP 70100 - History and Theory of Urban Planning

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

Hours 45

Credits 3

URBP 71900 - Land Use, People and the Environment

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

Hours 45

Credits 3

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,

Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,

Credits 3 cr

Plus, choice of two of the following methods courses:

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

Hours 45

Credits 3

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

coreq: GTECH 71000

Hours 4 hrs.

Credits 3 cr.

Areas of Concentration

Areas of Concentration

The graduate program offers the following areas of concentration: Community Planning and Advocacy (including Human Services), Sustainability and the Environment, Transportation and Infrastructure, Housing and the Built Environment (including Urban Design and Historic Preservation), Economic Development, and General Practice. Each concentration is designed to give students a working knowledge of specific foci within the field of planning. To fulfill the concentration requirement, students select four courses related to the concentration in consultation with their adviser, from the suggested list.

Students with special interests may create their own concentration. In developing their programs, students may combine Hunter courses with the resources of the larger City University community or other approved institutions. Some individually tailored specializations may include Education Planning and Policy, Immigration and Global Change, and Urban Information Systems.

Representative Courses in the Areas of Concentration

Community Planning and Advocacy (including Human Services)

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

prereq: URBG 72700 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,

Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,

Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,

Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,

Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

*Hours 45
Credits 3*

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

*Hours 45
Credits 3*

URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.

Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

Sustainability and the Environment

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for

controlling urban growth.

Hours 45

Credits 3

URBP 72200 - Land Use Planning Workshop

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

prereq: URBP 71900 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

Hours 45 hrs,

Credits 3 cr

URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

Hours 45 hrs,

Credits 3 cr

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

Transportation and Infrastructure

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,

Credits 3 cr

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

Hours 45 hrs,

Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

Hours 45 hrs,

Credits 3 cr

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

prereq: permission of the instructor

Hours 45 hrs,

Credits 3 cr

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

Housing and the Built Environment (including Urban Design and Historic Preservation)

URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

Hours 45 hrs,

Credits 3 cr

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,
Credits 3 cr*

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, “cluster” residential developments, and low-density commercial or institutional growth.

*Hours 45 hrs,
Credits 3 cr*

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URBG 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr*

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

*Hours 45 hrs,
Credits 3 cr*

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

Economic Development

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,

Credits 3 cr

Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,

Credits 3 cr

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,

Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,

Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,

Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,

Credits 3 cr

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45

Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

General Practice

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,

Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,

Credits 3 cr

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

prereq: URBG 72700 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,
Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

Planning Studio

To solidify knowledge and skills gained in the core curriculum and other courses, students are required to participate in a 6-credit planning studio. This requirement is satisfied by completion of URBP 73700 (6 credits) or URBP 73800 (Planning Studio I, 3 credits) and URBP 73900 (Planning Studio II, 3 credits), which are taken consecutively. Ordinarily students take the studio course in their second year of study or after completion of at least 30 credits of work.

Urban Policy and Leadership - MS

The 36-credit MS in Urban Policy and Leadership contains a flexible curriculum that launches students into the study of cities and the urban environment. The interdisciplinary nature of the program allows students to tailor their education to career aspirations and/or interests of their own choosing. The program is designed to accommodate both full and part time attendees. It can be completed in either two full semesters and a summer session or over a longer period of time. In combining both theory and practice, the program seeks to foster an understanding of urbanism while teaching practical skills to prepare students for the changing urban environment.

Our faculty specializes in a diverse range of urban disciplines with expertise and specializations that include: urban planning and history, governance, education, health, housing, immigration, comparative government, economic development, community advocacy, transportation, environment, law, and integrated technologies. The program boasts a distinguished part-time faculty, bringing years of practical experience and knowledge in both public and non-profit sectors. It is not uncommon to take courses from high level New York City professionals and practitioners.

In order to accommodate the needs and interests of an increasingly diverse student body, the faculty has recently redefined course requirements so that students have more choices in constructing their program. These changes are reflected in the distribution of the requirements listed below.

Our students are drawn from a diverse population locally, nationally and internationally. While most have been out of college for some time and many are already in the midst of their careers, an increasing number are arriving one or two years out of college. Most plan or are pursuing careers in the public and non-profit sectors. Students may substitute

courses from other departments and/or CUNY schools that more appropriately address their substantive interest for the course listed in each of the Required Disciplines.

Requirements for Admission to the Master of Science in Urban Policy and Leadership

Applicants must meet Hunter's general graduate admission requirements , except for the Graduate Record Examination, which is not required. Applicants must present at least 12 undergraduate credits in social science. Students with relevant undergraduate majors or nonacademic experience may, after consultation with the graduate adviser, request admission with special conditions.

Requirements for the Master of Science in Urban Policy and Leadership

Core Requirements (12 credits)

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser
Credits 6 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser
Hours 45 hrs,
Credits 3 cr
and either

URBG 70000 - Introduction to Urban Policy Processes

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

Hours 3 hrs
Credits 3 cr.

-or-

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a

core requirement for MS students in the non-profit track, and an elective for others.

Hours 3 hrs

Credits 3 cr.

Required Disciplines (9 credits)

One of Political Structure course and two Methods/Skills courses are required:

Political Structure Requirement (3 credits)

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,

Credits 3 cr

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

Methods/Skills Requirement (6 credits)

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,

Credits 3 cr

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

coreq: GTECH 71000

Hours 4 hrs.

Credits 3 cr.

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

Specializations (9 credits)

Students choose one area of specialization from among the three designated areas of specialization that include: urban policy, non-profits, neighborhood development from which nine credits of coursework must be taken. Students with approval of the program adviser may also develop their own specializations.

Urban Policy

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,

Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,

Credits 3 cr

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,

Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

*Hours 45 hrs,
Credits 3 cr*

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,
Credits 3 cr*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,
Credits 3 cr*

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,
Credits 3 cr*

URBG/URBP 78700 special topics course can be taken to fill the concentration

Neighborhood Development

URBG 70700 - Graphical Communication for Urban Planners

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

*Hours 45 hrs,
Credits 3 cr*

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URBG 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr*

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

*Hours 45 hrs,
Credits 3 cr*

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,
Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

URBG/URBP 78700 special topics course can be taken to fill the concentration

Non-Profit Sector

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,
Credits 3 cr*

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,
Credits 3 cr*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

*Hours 45 hrs,
Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

URBG/URBP 787 Special topics course can be taken to fill the concentration

Unrestricted Electives (6 credits)

In addition, students must complete an additional 6 credits in unrestricted electives.

Total credits required: 36

Additional Courses

A wide variety of courses are offered each semester in the department, including special topics courses to meet the requirements. Students are encouraged to consult course listings in other departments within Hunter in which to take classes that are in line with their course of study. Up to 9 credits can be taken outside the Department of Urban Affairs and Planning in other departments at Hunter or within the CUNY system.

Urban Affairs

URBG 70000 - Introduction to Urban Policy Processes

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

*Hours 3 hrs
Credits 3 cr.*

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

*Hours 3 hrs
Credits 3 cr.*

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,

Credits 3 cr

URBG 70300 - Demographic Issues in Planning and Development

Survey of current demographic trends including national population growth, age distribution patterns and changes in household composition. Discussion of how patterns relate to planning practice.

Hours 45 hrs,

Credits 3 cr

URBG 70400 - Comparative International Planning

Comparison of approaches to urban planning in developing nations with emphasis on large-scale project planning and management. Focus on development plan as tool for resource allocation and decision-making.

Hours 45 hrs,

Credits 3 cr

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,

Credits 3 cr

URBG 70700 - Graphical Communication for Urban Planners

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

Hours 45 hrs,

Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,

Credits 3 cr

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

URBG 71400 - Computer Applications in Planning and Urban Affairs

Review of computers and their roles in urban professions. Survey of spreadsheets, data bases and word- processing programs as well as simple programming, computer mapping and mainframe computers.

*Hours 45 hrs,
Credits 3 cr*

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,
Credits 3 cr*

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URBG 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr*

URBG 72900 - International Human Settlements

Review of habitats in urbanized world. Highlight of experience from Third World including squatting, slum upgrading, service delivery, new towns and settlement policies.

*Hours 45 hrs,
Credits 3 cr*

URBG 73000 - Law of Housing and Urban Development

Focus on legal aspects of key housing and community development policy. Examination of federal and state housing programs, landlord-tenant laws and rent controls.

*Hours 45 hrs,
Credits 3 cr*

URBG 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multi functional plan to guide development.

*Hours 90 hours including conferences,
Credits 6 cr*

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning*

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

*Hours 45 hrs,
Credits 3 cr*

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

*Hours 45 hrs,
Credits 3 cr*

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

*Hours 45 hrs,
Credits 3 cr*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

*Hours 45 hrs,
Credits 3 cr*

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,
Credits 3 cr*

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,
Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBG 77500 - Urban Affairs Internship Seminar

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 77600 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 77700 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 77800 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the ‘anatomy’ of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to

overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser
Credits 6 cr

URBG 79100 - Grantwriting and Fundraising Practicum

Focus on problem-solving skills used to resolve crucial issues in urban community; program development procedures including program planning, strategizing, implementation, administration and funding. Students work with selected organizational and community concerns as consultants-in-training.

prereq: permission of the adviser
Hours 45 hrs,
Credits 3 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser
Hours 45 hrs,
Credits 3 cr

Urban Planning

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45
Credits 3

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban

health care systems.

Hours 45

Credits 3

URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

Hours 45

Credits 3

URBP 70100 - History and Theory of Urban Planning

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

Hours 45

Credits 3

URBP 70500 - Introduction to the Planning Process

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy.

Hours 45

Credits 3

URBP 71100 - Planning Information

Survey of public and private data bases available to planners focusing on traditional and nontraditional sources. Exploration of utilization and implications of data.

Hours 45

Credits 3

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

Hours 45

Credits 3

URBP 71300 - Planning Methods for Optimization and Decision-making

Introduction to quantitative techniques for optimization and decision-making. Applications of techniques in planning contexts.

Hours 45

Credits 3

URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.

Credits 3

URBP 71900 - Land Use, People and the Environment

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

Hours 45

Credits 3

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

Hours 45

Credits 3

URBP 72100 - Law of Land Use Regulation II

Focus on inclusionary and exclusionary zoning; growth management; aesthetics and historic preservation; transfer of development rights; regional and state planning and development control; and tax policies and land use control.

prereq: URBP 72000

Hours 45 hrs,

Credits 3 cr

URBP 72200 - Land Use Planning Workshop

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

prereq: URBP 71900 or permission of the instructor
Hours 45 hrs,
Credits 3 cr

URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

Hours 45 hrs,
Credits 3 cr

URBP 72400 - Urban Design Workshop

Application of urban design concepts in studio setting to develop design solutions for typical physical planning problems.

prereq: URBP 72300 or permission of the instructor
Hours 45 hrs,
Credits 3 cr

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

Hours 45 hrs,
Credits 3 cr

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

prereq: URBG 72700 or permission of the instructor
Hours 45 hrs,
Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

Hours 45 hrs,
Credits 3 cr

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

prereq: permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

Hours 45 hrs,

Credits 3 cr

URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

Hours 45 hrs,

Credits 3 cr

URBP 73600 - Energy Planning and Policy Seminar

Introduction to conceptual and operational aspects of plans and policies promoting the efficient use of energy in urban communities. Review of national and global energy markets and appropriate responses in transportation, housing, land use and related areas.

Hours 45 hrs,

Credits 3 cr

URBP 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multifunctional plan to guide development.

Hours 90 including confences

Credits 6

URBP 73800 - Planning Studio I

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73900 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 73900 - Planning Studio II

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73800 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,

Credits 3 cr

URBP 78000 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 45 hrs,

Credits 3 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78100 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 45 hrs,

Credits 3 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78200 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 45 hrs,

Credits 3 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78300 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 45 hrs,

Credits 3 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78400 - Independent Study

Supervised study of topics of special interest to advanced students.

Credits 1 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78500 - Independent Study

Supervised study of topics of special interest to advanced students. Students may not take more than 3 credits of Independent Study per semester.

Credits 2 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Graduate Masters

Urban Planning - MUP

The Master of Urban Planning program has four integrated components: a core curriculum, an area of concentration, an internship, and a studio. Its purpose is to train planners who, like their counterparts throughout the nation, have general expertise in planning theory and methods, an understanding of urban structure, specialized knowledge of a chosen planning concentration, and the skills and intellectual maturity to operate in the professional arena.

The 54-credit program is structured to provide students with the expertise essential to professional practice and to allow for flexibility to accommodate individual professional and academic aspirations. The core curriculum (21 credits) provides basic training in planning. It has a dual purpose: to place planning in its societal and theoretical context and to teach the skills of the profession. The area of concentration (12 credits) allows for in-depth training in a specific subfield of general planning practice. The studio (6 credits) provides experience in applied planning. Unrestricted electives (12 credits) allow for the exploration of a range of planning topics in elective courses and through independent research.

In organizing their programs, students work closely with faculty advisers.

Each student must also take one 3-credit internship. As interns, students may work for city and suburban planning agencies, neighborhood development groups, banks, municipal housing or budgeting units, planning journals, and other groups approved by the department. For many students, field experiences have led to full-time employment in their internship agencies after graduation.

In addition, the department has several internal work opportunities generated by the faculty and the Center for Community Planning and Development, which count towards the internship requirement. Faculty members routinely include in their research grant proposals funds to support graduate research assistants.

The Hunter College graduate program in urban planning is accredited by the Planning Accreditation Board (PAB), which is the national accrediting body of urban planning degree programs. The PAB is sponsored by the Association of Collegiate Schools of Planning (ACSP), the American Institute of Certified Planners (AICP), and the American Planning Association (APA). Students with multiple professional interests may wish to pursue joint degree programs with other New York universities. For example, a joint master of urban planning/juris doctor, available through a cooperative program with Brooklyn Law School, allows students to earn the two degrees in four years of full-time study.

Admission Requirements

Requirements for Admission to the Planning Program

Traditionally, most applicants come from the social sciences (economics, geography, sociology, political science, and urban and American studies), engineering, and architecture. English majors and students of religion, art history, and business have also enrolled. While many students enter Hunter directly from undergraduate study, a large percentage have spent time away from school and return to develop their knowledge and expertise or to prepare for a new career. Applicants must meet the general admission requirements for Hunter graduate programs, except for the Graduate Record Examination, which is not required. These requirements include the submission of transcripts and two letters of recommendation, along with a completed application form obtained from the Hunter College Graduate Admissions Office. Applicants are encouraged to visit the department during scheduled open house sessions and to contact the program director by e-mail with specific questions. Applicants are also encouraged to reach out to individual faculty members who may share their professional or research interests.

Degree Requirements

Requirements for the Master of Urban Planning

The degree requires 54 credits of graduate study. Of these, 42 must be selected within course offerings of the Hunter College graduate program in urban planning. With the approval of the department, 12 credits may be elected from other graduate programs.

Credits are distributed as follows:

Core Curriculum	21 credits
Area of Concentration	12 credits
Planning Studio	6 credits
Internship	3 credits
Unrestricted Electives	12 credits

Core Curriculum

The core curriculum includes content and courses in four areas: theories and process of urban planning, urban structures, public policy and law, and planning methods and information management. Students must take required courses, except where choices are allowed. The core consists of:

URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

Hours 45

Credits 3

URBP 70100 - History and Theory of Urban Planning

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

Hours 45

Credits 3

URBP 71900 - Land Use, People and the Environment

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

Hours 45

Credits 3

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,

Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

Plus, choice of two of the following methods courses:

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

*Hours 45
Credits 3*

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

*coreq: GTECH 71000
Hours 4 hrs.
Credits 3 cr.*

Areas of Concentration

Areas of Concentration

The graduate program offers the following areas of concentration: Community Planning and Advocacy (including Human Services), Sustainability and the Environment, Transportation and Infrastructure, Housing and the Built Environment (including Urban Design and Historic Preservation), Economic Development, and General Practice. Each concentration is designed to give students a working knowledge of specific foci within the field of planning. To fulfill the concentration requirement, students select four courses related to the concentration in consultation with their adviser, from the suggested list.

Students with special interests may create their own concentration. In developing their programs, students may combine Hunter courses with the resources of the larger City University community or other approved institutions. Some individually tailored specializations may include Education Planning and Policy, Immigration and Global Change, and Urban Information Systems.

Representative Courses in the Areas of Concentration

Community Planning and Advocacy (including Human Services)

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

prereq: URBG 72700 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,

Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,

Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,

Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,

Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,

Credits 3 cr

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45

Credits 3

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45

Credits 3

URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.

Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

Sustainability and the Environment

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

Hours 45

Credits 3

URBP 72200 - Land Use Planning Workshop

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

prereq: URBP 71900 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

Hours 45 hrs,

Credits 3 cr

URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

Hours 45 hrs,

Credits 3 cr

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

Transportation and Infrastructure

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,

Credits 3 cr

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

*Hours 45 hrs,
Credits 3 cr*

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,
Credits 3 cr*

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

*prereq: permission of the instructor
Hours 45 hrs,
Credits 3 cr*

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

Housing and the Built Environment (including Urban Design and Historic Preservation)

URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

*Hours 45 hrs,
Credits 3 cr*

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,
Credits 3 cr*

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, “cluster” residential developments, and low-density commercial or institutional growth.

Hours 45 hrs,

Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,

Credits 3 cr

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

prereq: URBG 72700 or permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,

Credits 3 cr

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

Economic Development

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,

Credits 3 cr

Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,

Credits 3 cr

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,

Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,

Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,

Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,

Credits 3 cr

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45

Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,

Credits 3 cr

General Practice

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,

Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,

Credits 3 cr

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

prereq: URBG 72700 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

Hours 45 hrs,

Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

Planning Studio

To solidify knowledge and skills gained in the core curriculum and other courses, students are required to participate in a 6-credit planning studio. This requirement is satisfied by completion of URBP 73700 (6 credits) or URBP 73800 (Planning Studio I, 3 credits) and URBP 73900 (Planning Studio II, 3 credits), which are taken consecutively. Ordinarily students take the studio course in their second year of study or after completion of at least 30 credits of work.

Urban Policy and Leadership - MS

The 36-credit MS in Urban Policy and Leadership contains a flexible curriculum that launches students into the study of cities and the urban environment. The interdisciplinary nature of the program allows students to tailor their education to career aspirations and/or interests of their own choosing. The program is designed to accommodate both full and part time attendees. It can be completed in either two full semesters and a summer session or over a longer period of time. In combining both theory and practice, the program seeks to foster an understanding of urbanism while teaching practical skills to prepare students for the changing urban environment.

Our faculty specializes in a diverse range of urban disciplines with expertise and specializations that include: urban planning and history, governance, education, health, housing, immigration, comparative government, economic development, community advocacy, transportation, environment, law, and integrated technologies. The program boasts a distinguished part-time faculty, bringing years of practical experience and knowledge in both public and non-profit sectors. It is not uncommon to take courses from high level New York City professionals and practitioners.

In order to accommodate the needs and interests of an increasingly diverse student body, the faculty has recently redefined course requirements so that students have more choices in constructing their program. These changes are reflected in the distribution of the requirements listed below.

Our students are drawn from a diverse population locally, nationally and internationally. While most have been out of college for some time and many are already in the midst of their careers, an increasing number are arriving one or two years out of college. Most plan or are pursuing careers in the public and non-profit sectors. Students may substitute courses from other departments and/or CUNY schools that more appropriately address their substantive interest for the course listed in each of the Required Disciplines.

Requirements for Admission to the Master of Science in Urban Policy and Leadership

Applicants must meet Hunter's general graduate admission requirements , except for the Graduate Record Examination, which is not required. Applicants must present at least 12 undergraduate credits in social science. Students with relevant undergraduate majors or nonacademic experience may, after consultation with the graduate adviser, request admission with special conditions.

Requirements for the Master of Science in Urban Policy and Leadership

Core Requirements (12 credits)

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser
Credits 6 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser
Hours 45 hrs,
Credits 3 cr

and either

URBG 70000 - Introduction to Urban Policy Processes

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

Hours 3 hrs
Credits 3 cr.

-or-

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

Hours 3 hrs
Credits 3 cr.

Required Disciplines (9 credits)

One of Political Structure course and two Methods/Skills courses are required:

Political Structure Requirement (3 credits)

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs,
Credits 3 cr*

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

Methods/Skills Requirement (6 credits)

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

*coreq: GTECH 71000
Hours 4 hrs.
Credits 3 cr.*

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

Specializations (9 credits)

Students choose one area of specialization from among the three designated areas of specialization that include: urban policy, non-profits, neighborhood development from which nine credits of coursework must be taken. Students with approval of the program adviser may also develop their own specializations.

Urban Policy

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,
Credits 3 cr*

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

*Hours 45 hrs,
Credits 3 cr*

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

*Hours 45 hrs,
Credits 3 cr*

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,
Credits 3 cr*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,
Credits 3 cr*

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,
Credits 3 cr*

URBG/URBP 78700 special topics course can be taken to fill the concentration

Neighborhood Development

URBG 70700 - Graphical Communication for Urban Planners

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

*Hours 45 hrs,
Credits 3 cr*

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

prereq: URBG 72700 or permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,

Credits 3 cr

Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,

Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,

Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,

Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,

Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental

agencies and the private sector.

Hours 45 hrs,

Credits 3 cr

URBG/URBP 78700 special topics course can be taken to fill the concentration

Non-Profit Sector

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,

Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,

Credits 3 cr

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,

Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,

Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,

Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,

Credits 3 cr

URBG/URBP 787 Special topics course can be taken to fill the concentration

Unrestricted Electives (6 credits)

In addition, students must complete an additional 6 credits in unrestricted electives.

Total credits required: 36

Additional Courses

A wide variety of courses are offered each semester in the department, including special topics courses to meet the requirements. Students are encouraged to consult course listings in other departments within Hunter in which to take classes that are in line with their course of study. Up to 9 credits can be taken outside the Department of Urban Affairs and Planning in other departments at Hunter or within the CUNY system.

Urban Affairs

URBG 70000 - Introduction to Urban Policy Processes

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

Hours 3 hrs

Credits 3 cr.

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

Hours 3 hrs

Credits 3 cr.

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,

Credits 3 cr

URBG 70300 - Demographic Issues in Planning and Development

Survey of current demographic trends including national population growth, age distribution patterns and changes in household composition. Discussion of how patterns relate to planning practice.

Hours 45 hrs,

Credits 3 cr

URBG 70400 - Comparative International Planning

Comparison of approaches to urban planning in developing nations with emphasis on large-scale project planning and management. Focus on development plan as tool for resource allocation and decision-making.

Hours 45 hrs,

Credits 3 cr

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,

Credits 3 cr

URBG 70700 - Graphical Communication for Urban Planners

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

Hours 45 hrs,

Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,

Credits 3 cr

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

URBG 71400 - Computer Applications in Planning and Urban Affairs

Review of computers and their roles in urban professions. Survey of spreadsheets, data bases and word- processing programs as well as simple programming, computer mapping and mainframe computers.

Hours 45 hrs,

Credits 3 cr

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,

Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,

Credits 3 cr

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

prereq: URBG 72700 or permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 72900 - International Human Settlements

Review of habitats in urbanized world. Highlight of experience from Third World including squatting, slum upgrading, service delivery, new towns and settlement policies.

Hours 45 hrs,

Credits 3 cr

URBG 73000 - Law of Housing and Urban Development

Focus on legal aspects of key housing and community development policy. Examination of federal and state housing programs, landlord-tenant laws and rent controls.

Hours 45 hrs,

Credits 3 cr

URBG 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multi functional plan to guide development.

*Hours 90 hours including conferences,
Credits 6 cr*

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning*

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

*Hours 45 hrs,
Credits 3 cr*

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

*Hours 45 hrs,
Credits 3 cr*

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

*Hours 45 hrs,
Credits 3 cr*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

*Hours 45 hrs,
Credits 3 cr*

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,
Credits 3 cr*

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,
Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBG 77500 - Urban Affairs Internship Seminar

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

*prereq: permission of the adviser
Hours 45 hrs,
Credits 3 cr*

URBG 77600 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser
Hours 45 hrs,
Credits 3 cr

URBG 77700 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser
Hours 45 hrs,
Credits 3 cr

URBG 77800 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser
Hours 45 hrs,
Credits 3 cr

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,
Credits 3 cr

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the ‘anatomy’ of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and

program evaluation techniques.

prereq: permission of the adviser

Credits 6 cr

URBG 79100 - Grantwriting and Fundraising Practicum

Focus on problem-solving skills used to resolve crucial issues in urban community; program development procedures including program planning, strategizing, implementation, administration and funding. Students work with selected organizational and community concerns as consultants-in-training.

prereq: permission of the adviser

Hours 45 hrs,

Credits 3 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser

Hours 45 hrs,

Credits 3 cr

Urban Planning

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45

Credits 3

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45

Credits 3

URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields

including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

Hours 45

Credits 3

URBP 70100 - History and Theory of Urban Planning

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

Hours 45

Credits 3

URBP 70500 - Introduction to the Planning Process

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy.

Hours 45

Credits 3

URBP 71100 - Planning Information

Survey of public and private data bases available to planners focusing on traditional and nontraditional sources. Exploration of utilization and implications of data.

Hours 45

Credits 3

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

Hours 45

Credits 3

URBP 71300 - Planning Methods for Optimization and Decision-making

Introduction to quantitative techniques for optimization and decision-making. Applications of techniques in planning contexts.

Hours 45

Credits 3

URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.

Credits 3

URBP 71900 - Land Use, People and the Environment

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

Hours 45

Credits 3

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

Hours 45

Credits 3

URBP 72100 - Law of Land Use Regulation II

Focus on inclusionary and exclusionary zoning; growth management; aesthetics and historic preservation; transfer of development rights; regional and state planning and development control; and tax policies and land use control.

prereq: URBP 72000

Hours 45 hrs,

Credits 3 cr

URBP 72200 - Land Use Planning Workshop

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

prereq: URBP 71900 or permission of the instructor

Hours 45 hrs,

Credits 3 cr

URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

*Hours 45 hrs,
Credits 3 cr*

URBP 72400 - Urban Design Workshop

Application of urban design concepts in studio setting to develop design solutions for typical physical planning problems.

*prereq: URBP 72300 or permission of the instructor
Hours 45 hrs,
Credits 3 cr*

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

*Hours 45 hrs,
Credits 3 cr*

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

*prereq: URBG 72700 or permission of the instructor
Hours 45 hrs,
Credits 3 cr*

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,
Credits 3 cr*

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

*prereq: permission of the instructor
Hours 45 hrs,
Credits 3 cr*

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

*Hours 45 hrs,
Credits 3 cr*

URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

*Hours 45 hrs,
Credits 3 cr*

URBP 73600 - Energy Planning and Policy Seminar

Introduction to conceptual and operational aspects of plans and policies promoting the efficient use of energy in urban communities. Review of national and global energy markets and appropriate responses in transportation, housing, land use and related areas.

*Hours 45 hrs,
Credits 3 cr*

URBP 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multifunctional plan to guide development.

*Hours 90 including confences
Credits 6*

URBP 73800 - Planning Studio I

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73900 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 73900 - Planning Studio II

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73800 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,
Credits 3 cr*

URBP 78000 - Independent Research

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.*

URBP 78100 - Independent Research

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.*

URBP 78200 - Independent Research

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.*

URBP 78300 - Independent Research

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.*

URBP 78400 - Independent Study

Supervised study of topics of special interest to advanced students.

*Credits 1 cr
Students may not take more than 3 credits of Independent Research per semester.*

URBP 78500 - Independent Study

Supervised study of topics of special interest to advanced students. Students may not take more than 3 credits of Independent Study per semester.

Credits 2 cr

Students may not take more than 3 credits of Independent Research per semester.

URBP 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Cross-listed URBG 78700

Programs and Courses Romance Languages

Romance Languages

About the Department

The Department of Romance Languages' Graduate Division offers MA degrees in French, Italian, and Spanish as a terminal degree or as a preparation for a doctoral program in the respective areas. The Department also offers an MA/TEP (Teacher Education Program) in each language in conjunction with the School of Education. This MA/TEP Program is designed to prepare candidates to teach in elementary and secondary schools. The department enjoys the teaching and scholarship of professors who have acquired high reputation in their respective fields.

Programs and Courses

Romance Languages (French, Italian, Spanish) - MA

Program for Teachers of Adolescent Education (Grades 7-12) - French, Italian, and Spanish MA

See the School of Education section of this catalog for additional information on admission and program requirements.

- Adolescent French - MA / Advanced Certificate
- Adolescent Italian - MA / Advanced Certificate
- Adolescent Spanish - MA / Advanced Certificate

Doctor of Philosophy

PhD programs in Romance languages are based at the City University Graduate Center. See the bulletin of the Graduate Center for a description of the PhD programs and a complete list of courses or go to www.gc.cuny.edu/

Graduate Masters

Romance Languages (French, Italian, Spanish) - MA

The master's degree in French, Italian, or Spanish provides opportunities for professional advancement in teaching and professional fields that require a good knowledge of other languages and cultures. It is also a means of intellectual development for those who want to expand their knowledge in the humanities.

The MA may be taken either as a final degree or as preparation for doctoral work. It is accepted in lieu of the first year of study in the PhD program at the City University. See the Bulletin of the Graduate Center for a description of the PhD programs.

Requirements for Admission

Admission to graduate study is contingent upon admission requirements of Hunter College and upon approval by a departmental committee. Where general scholarship is superior, but the applicant did not major in the field, or preparation in that field is deemed to be insufficient, an examination and/or enrollment in specified undergraduate courses will be required. Before matriculation, applicants must demonstrate proficiency in the language of specialization.

Requirements for MA

1. Courses.

A total of 30 credits from the Literature of Specialization including a Thesis Seminar (3cr) for those students electing to write a master's essay.

2. Languages.

In addition to a high degree of competence in the language of specialization, candidates must demonstrate a reading knowledge of a second Romance language, German, or Latin.

3. Comprehensive Examination.

Candidates must pass a written examination on the field of study, in the language of specialization.

4. Master' s essay.

The master's essay is optional. Topic is determined in consultation with the principal adviser. Thesis Seminar, to be taken concurrently with preparation of the essay, is completed when the essay is approved by the principal adviser and another faculty member.

FREN 60000 - Basic Course in French for Graduate Students

FREN 61100 - Explication de Texte

FREN 62100 - Genre Studies I: French Poetry

FREN 62200 - Genre Studies II: The Theatre in France

FREN 62300 - Genre Studies III: The French Novel

FREN 62400 - Literature of Ideas

FREN 70100 - History of the French Language

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 70200 - Studies in French Criticism

FREN 70800 - Methods of Research

FREN 71100 - Medieval French Literature

FREN 71200 - Medieval French Literature II

FREN 72100 - French Poetry of 16th Century Classical and Italian Influences

The Lyons poets, the Pléiade, Protestant poets.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 72200 - Rabelais and Montaigne

FREN 72500 - Main Currents of French Renaissance

Study of different aspects of French Renaissance in the works of major authors.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 73100 - Descartes and Pascal

FREN 73200 - French Tragedy of 17th Century

Study of characteristics of French tragic theatre from Baroque to Classicism. Emphasis on plays and prefaces of Corneille and Racine.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 73300 - Theatre of Molière

Analysis of major plays. Discussion of theatrical life of the period.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 73400 - French Moralists of Classical Period

Works by such authors as La Rochefoucauld, Bossuet, La Fontaine, Madame de Sévigné, Fénelon, La Bruyère, Saint-Simon.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 74100 - Diderot

Study of novels and aesthetic and philosophical theories. Diderot's influence through the Encyclopédie.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 74200 - Voltaire and Rousseau

FREN 75000 - Era of Chateaubriand

FREN 75100 - Romanticism and the Parnasse

FREN 75200 - French Poetry from Baudelaire to Symbolism

FREN 75300 - Balzac and Stendhal

Major novels of Balzac and Stendhal. Comparative analysis of their themes, and narrative techniques. Study of intellectual, social and political trends of the period.

Hours 30 hrs plus conferences,

Credits 3 cr

FREN 75400 - Flaubert, Zola, and Maupassant

Analysis of selected works. Study of Realism and Naturalism and their impact on French fiction.

Hours 30 hrs plus conferences,

Credits 3 cr

FREN 75500 - French Fiction from Romanticism to the Decadence

Impact of antipositivistic thought on novel and related genres of 19th-century French fiction. Works by Hugo, Sand, Mérimée, Nerval, Gautier, Barbey d'Aurevilly, Huysmans, Villiers de l'Isle-Adam.

Hours 30 hrs plus conferences,

Credits 3 cr

FREN 75600 - 19th-Century French Theatre

Main trends from Melodrama to Théâtre Libre. Readings from Pixérécourt, Hugo, Vigny, Musset, Scribe, Labiche, Dumas fils, Sardou, Becque, Feydeau, Maeterlinck, Courteline. Study of dramatic theory and styles of theatrical production.

Hours 30 hrs plus conferences,

Credits 3

FREN 76000 - Aspects of 20th-Century French Fiction

Analysis and discussion of novels by Mauriac, Duhamel, Alain-Fournier, Rolland, Colette, Saint-Exupéry, Malraux, Sartre, Camus and le Nouveau roman.

Programs Offered in the School of Education

Return to Geography Department

The Department of Geography contributes to three graduate level programs in conjunction with the School of Education: an M.A. Program for the Preparation of Teachers of Earth Science, an M.A. Program for the Preparation of Teachers of Social Studies, and a five-year combined BA/MA program in Environmental Studies and Adolescent Education in Earth Science. These programs provide certification for graduates to teach in New York State. The combined BA/MA program requires students to fulfill the requirements of the Department of Geography BA in Environmental Studies along with the School of Education's requirements. For more information on these programs, please check the web page of the School of Education <http://www.hunter.cuny.edu/school-of-education> or contact the Department of Geography.

Earth Science MA—Program for Teachers of Adolescent Education (Grades 7-12)

Psychology Department Description

[Return to Psychology](#)

The Psychology Department offers two MA degrees in Psychology: one in General Psychology and one in Animal Behavior and Conservation (ABC) as well as a Post-Baccalaureate Certificate program in ABC. These programs reflect the diversity of psychology as a science and profession. Course offerings range from clinical, social, and developmental psychology to animal behavior, biopsychology, and behavioral neuroscience. The General Psychology Program focuses on exposing students to the broad spectrum of approaches and areas in psychology: from behavioral, developmental, cognitive, and social approaches to applied, evaluative, and biological approaches. The Animal Behavior and Conservation Program is designed to provide students with the skills needed for successful careers in animal behavior, conservation and welfare.

The department's faculty members are actively involved in research both with human participants and a variety of animal species. A broad range of applied and research opportunities are available to our students within and beyond the department in the areas of developmental psychology, social psychology, animal behavior, physiological psychology, biopsychology and cognitive psychology. The program's departmental affiliations with community organizations and wildlife facilities make it possible for students to integrate their academic studies with supervised research experience by means of observational field placements and opportunities for research. The MA programs prepare our graduates for careers in psychology, education, social and welfare services, health services, conservation and animal welfare including work with animals in natural and custodial environments. For many of our students, the MA programs are a first step towards further study at the PhD level.

Psychology Faculty

[Return to Psychology](#)

Amber Alliger, Lecturer Doctoral; PhD, CUNY; Biopsychology/Behavioral Neuroscience: Laboratory animal welfare and husbandry

Christopher Braun, Professor and Chair; PhD, California (San Diego); Sensory Psychology: sensory systems in animals, neural substrates of vibration and sound detection, sensory variation, ecology, and evolution

Nesha Burghardt, Assistant Professor; PhD New York University; Biopsychology/Behavioral Neuroscience: Neurobiology of mood, anxiety and eating disorders; developmental effects of stress, serotonin and emotional learning

Sheila Chase, Professor; PhD, CUNY; Experimental Psychology: Animal cognition, memory and decision processes, computer models

Martin Chodorow, Professor; PhD, MIT; Experimental Cognition: Models of memory, psycholinguistics, computational linguistics

Darlene DeFour, Associate Professor; PhD, Illinois; Personality and Social Psychology: Coping with stress, psychology of women, social networks, Black psychology, culture and psychology

Tracy A. Dennis, Professor; PhD, Penn State; Clinical and Developmental Psychology: Emotion regulation, developmental psychopathology, affective neuroscience, parenting and contextual influences

Dawn Dugan, Lecturer Doctoral; PhD, Hofstra; Clinical Psychology; Impact of interparental conflict on parenting practices and communication

Joel Erblich, Associate Professor, PhD, USC; Clinical and Health Psychology: Nicotine dependence, risk for alcoholism, health psychology

Roseanne Flores, Associate Professor; PhD, CUNY; Developmental Psychology: Language acquisition, cognitive development, children and poverty, children and culture

Maria A. Giammarella, Associate Professor, Psychology; PhD SUNY (Albany); Social and Health Psychology: Counseling psychology; education and career development; multiculturalism; prevention and health

Sarit Golub, Professor; PhD, Harvard; Social and Health Psychology: Social, cognitive, and emotional factors that influence health behavior, with special emphasis on the interaction between behavior and the formation and maintenance of individual identity

James Gordon, Professor; PhD, Brown; Visual Psychophysiology: color vision, pattern vision, human visual development

Mark E. Hauber, Professor; PhD, Cornell, DSc Auckland; Animal behavior and conservation, social recognition systems, conservation, neuroethology of sound and color perception

Michael Hoyt, Associate Professor; PhD, Arizona State; Clinical and Health Psychology: Stress and coping process, psychological adjustment to chronic illness, biobehavioral mechanisms of psychological process and treatment

Rebecca Farmer Huselid, Associate Professor; PhD, Kansas; Social Psychology: Effects of social identity on health and academic achievement; Effects of race, gender, and immigration on stress, psychological adjustment, substance use and abuse

Shirzad Jenab, Professor; PhD, Mount Sinai School of Medicine; Drugs of abuse, gene expression, neurochemistry and neuropharmacology, CNS degenerative diseases

Joseph Lao, Senior Lecturer; PhD, Teachers College; Developmental and Cognitive Psychology: Parenting skills, cognitive development

Michael J. Lewis, Professor; PhD, Temple; Behavioral Neuroscience: Neurobiology of motivation and substance abuse; alcohol dependence and eating disorders.

Amber Martin, Lecturer Doctoral; PhD Minnesota; Cognitive and Developmental Psychology, Spatial language and spatial cognition, sign language acquisition, effects of delayed first language acquisition

Douglas Mennin, Professor; PhD, Temple; Clinical Psychology; Generalized anxiety disorders, major depression, emotion regulation, psychophysiology, biobehavioral mechanisms of treatment

Regina Miranda, Professor; PhD, NYU; Clinical Psychology: Adolescent depression and suicide, hopelessness, depressive future-event schemas, the social-cognitive process of transference in depression

Peter Moller, Professor; PhD, Free University of Berlin; Animal Behavior: Multisensory integration, electrolocation & electrocommunication in electric fish, behavioral physiology, behavioral endocrinology

Jeffrey T. Parsons, Distinguished Professor; PhD, Houston; Developmental and Health Psychology: Adolescent development, risk taking, HIV/AIDS prevention, health psychology, gay/lesbian issues, substance abuse, sexual behavior

Sandeep Prasada, Professor; PhD, MIT; Cognitive and Developmental Psychology: Conceptual & lexical representation in mind and brain, language acquisition

Thomas Preuss, Professor; PhD, Tübingen; Biopsychology/Behavioral Neuroscience: Neuroethology of escape behavior, neural decision making, neural plasticity, sensorimotor integration of biologically relevant visual and auditory inputs

Vanya Quiñones-Jenab, Professor and Acting Associate Provost for Student Success and Retention; PhD, Rutgers; Biopsychology/Behavioral Neuroscience: Drug abuse effects on maternal behaviors and CNS/endocrine mechanism, ovarian hormones and pain pathways

Diana Reiss, Professor; PhD, Temple; Experimental Psychology: Comparative cognition, animal behavior and communication, marine mammal cognition

Salomon Rettig, Emeritus Professor; PhD, Ohio State; Social Psychology: Philosophy of science in psychology; Small groups (group therapy); Ethical decision making

Tracey Revenson, Professor; PhD, New York University; Health and Social Psychology: Stress and coping; adaptation to chronic illness, particularly cancer, social support, psychological measurement

Kimberly Robinson, Lecturer Doctoral; PhD, Rutgers; Social and Developmental Psychology: The effects on minority stress on psychological well-being and health behaviors

Glenn Schafe, Professor; PhD, Washington; Biopsychology/ Behavioral Neuroscience: Neurobiological substrates of emotional learning and memory, fear, anxiety and stress

Stefan Schlussman, Lecturer Doctoral; PhD, New York Medical College; Biopsychology/Behavioral Neuroscience: Animal models of vulnerabilities to addictive diseases

Peter Serrano, Associate Professor; PhD, California (Berkeley); Biopsychology/ Behavioral Neuroscience: Long-term potentiation, depression and memory, developmental psychobiology and learning disorders; neural mechanisms of stress, fear, and post-traumatic stress disorder

Michael Siller, Associate Professor; PhD, California (Los Angeles); Developmental Psychology: Development of early social cognition and language; parent-child communication; children with autism

Tyrel Starks, Assistant Professor; PhD, Southern Illinois University (Carbondale); Social and Health Psychology: Substance use and sexual health in sexual minority populations, with a particular emphasis on relationship factors associated with sexual health in gay and bisexual men

Tricia Striano, Professor; PhD Emory; Cognitive and Developmental Psychology: Infant development, autism, social cognition

Ofer Tchernichovski, Professor; PhD, Tel Aviv University; DVM, The Hebrew University. Biopsychology/ Behavioral Neuroscience: Mechanisms of vocal learning; animal behavior; developmental learning; vocal learning; cultural evolution; brain imaging; sleep and learning; birdsong and music

Virginia Valian, Distinguished Professor; PhD, Northeastern; Cognition, Language, and Development: First and second language acquisition, sex differences in cognition and achievement, gender equity

Mariann Weierich, Associate Professor; PhD, Yale; Clinical and Cognitive Psychology: Neurobiology of stress, trauma, PTSD, anxiety, attention, neuroimaging, neuroendocrinology

Jason Young, Associate Professor; PhD, Minnesota; Social and Health Psychology: Attitudes and persuasion, political psychology, media influence, evolutionary psychology

H. Philip Zeigler, Distinguished Professor; PhD, Wisconsin (Madison); Biopsychology/Behavioral Neuroscience: Neuroethology of movement, sensory processing and motor control of active touch, development of a mobile sensory system

Re-Admission: Application

Applications may be downloaded at: <http://www.hunter.cuny.edu/graduateadmissions/applying/readmission-application/application-form>. The completed form needs to be submitted or mailed to Graduate Admissions, 223 North, 695 Park Ave., New York, NY 10065.

Re-Admission: Fees

There is a \$20 nonrefundable readmission fee. The fee is \$125.00 for nonmatriculants.

Re-Admission: Matriculated and Nonmatriculated Student

A student who has not been in attendance for one or more semesters must apply for readmission to the college. Students who registered for the previous semester and officially withdrew after the third week of classes are not required to file for readmission.

Applications may be downloaded at: <http://www.hunter.cuny.edu/graduateadmissions/applying/readmission-application/application-form>. The completed form needs to be submitted or mailed to Graduate Admissions, 223 North, 695 Park Ave., New York, NY 10065. There is a \$20 nonrefundable readmission fee. The fee is \$125.00 for nonmatriculants.

Students who are academically eligible (GPA at least 3.0) and are within their program's time limit (five years except for the program in the School of Arts and Sciences, which has a time limit of four years) are generally approved for readmission. Applications for readmission must be filed at least two months before the beginning of the semester in which the student plans to resume studies.

Re-Admission: Students Academically Eligible

Students who are academically eligible (GPA at least 3.0) and are within their program's time limit (five years except for the program in the School of Arts and Sciences, which has a time limit of four years) are generally approved for readmission. Applications for readmission must be filed at least two months before the beginning of the semester in which the student plans to resume studies.

Re-Admission: Students not in attendance for more than one semester

A student who has not been in attendance for one or more semesters must apply for readmission to the college. Students who registered for the previous semester and officially withdrew after the third week of classes are not required to file for readmission.

Reading/Writing Center

416 Thomas Hunter Building

The Hunter College Reading/Writing Center is a comprehensive service for the college community providing tutorial assistance and academic advisement to students as well as technical support and development to faculty, staff, and alumni. The center offers tutorial services to all registered students at the college and maintains an inclusive Web site comprising an extensive library of online handout materials and resource links in the areas of research information and techniques, writing tools and references, evaluating information sources, ESL and literary resources, and instructional resources regarding teaching and learning.

Students may utilize the center on an individual basis during scheduled hours of operation or register for an online weekly Chat session. The center also offers a series of workshops on various topics relating to academic reading and writing.

In addition to the center's extensive online resource file, students have direct access to the center's on-site library of textbooks and print materials.

Regional Autism Center

The Regional Center for Autism Spectrum Disorders aims to improve education services to children and youth with Autism Spectrum Disorders in New York City and to assist families in supporting their children in their home and community.

Registration

Registration instructions are e-mailed to students accepted into or continuing in the graduate programs at Hunter College. For registration instructions go to <http://www.hunter.cuny.edu/cunyfirst/students>. All registration is subject to space availability. For courses that require department permission, students must obtain approval from the academic department adviser prior to registration. Questions regarding course requirements and pre- or corequisites should be directed to the academic department adviser. A full listing of all academic and administrative departments and personnel is available at www.hunter.cuny.edu Select Directory.

Assistance regarding access to the CUNY Portal, CUNY First, Hunter College Student email and student BlackBoard accounts is available at Instructional Computing and Information Technology web page at <http://www.hunter.cuny.edu/icit/>. Select the Student Quick Link.

Requirements for Admission

An applicant for admission to Hunter College as a matriculated student in any of the master's programs must meet the following minimum requirements in order to be considered: (For admission to the School of Social Work, see Social Work - MSW.

1. The student must hold a bachelor's degree from a regionally accredited institution, comparable in standard and content to a bachelor's degree from Hunter College. Degrees granted on the basis of work completed at institutions which are not fully accredited, or on the basis of nonacademic prior learning, test scores, and other than organized supervised course work in academic subjects may not be considered comparable.
2. The student must demonstrate ability to pursue graduate work successfully. In general, the minimum requirements for consideration are an undergraduate average of B in the area in which the student wishes to specialize and an average of B minus in the undergraduate record as a whole. Applicants are required to submit official transcripts from all undergraduate and graduate institutions attended other than Hunter College.

3. For admission in the School of Arts and Sciences, the student is usually required to present at least 18 credits of previous work in the area of specialization acceptable to the school or department concerned and two letters of reference. See specific program descriptions for additional requirements. For admission to the School of Education, the student is usually required to present at least 36 credits of previous liberal arts and science courses and a liberal arts or science major of at least 30 credits. See specific program descriptions for detailed requirements.
4. Competency Examinations

Research and Training Centers: Introduction

A variety of programs in research and training in teacher education have attracted substantial support from federal, state and private sources. Projects currently in process include training in bilingual education, improvement of the teaching of secondary mathematics and science, educational technology, and preparation of rehabilitation counselors and teachers for children with disabilities. These projects afford graduate students an opportunity for advanced training or development of research skills.

Rules and Regulations for the Maintenance of Public Order

- Rules and Regulations for the Maintenance of Public Order: Introduction
- Rules
- Penalties
- Appendix

The City University of New York

Rules and Regulations for the Maintenance of Public Order Pursuant to Article 129-A of the Education Law

The tradition of the University as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedom: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility, and trust among teachers and students, only when members of the University community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the University campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the University has the right, and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the Bylaws of the Board of Trustees.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board provide that:

"THE PRESIDENT. The president, with respect to his education unit, shall:

1. Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his jurisdiction;
2. Be the advisor and executive agent of the Board and of his respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the Bylaws, resolutions, and policies of the Board, the lawful resolutions of any of its committees and the policies, programs, and lawful resolutions of the several faculties;
3. Exercise general superintendence over the concerns, officers, employees, and students of his educational unit."

I. Rules

1. A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he interfere with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.
2. Individuals are liable for failure to comply with lawful directions issued by representatives of the University/college when they are acting in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.
3. Unauthorized occupancy of University/college facilities or blocking access to or from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation, and use of University/college equipment and/or supplies.
4. Theft from, or damage to, University/college premises of property, or theft of or damage to property of any person on University/college premises is prohibited.
5. Each member of the academic community or an invited guest has the right to advocate his position without having to fear abuse, physical, verbal, or otherwise, from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.
6. Action may be taken against any and all persons who have no legitimate reason for their presence on any campus within the University/college, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of their rights or interferes with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.
7. Disorderly or indecent conduct on University/college-owned or controlled property is prohibited.
8. No individual shall have in his possession a rifle, shotgun, or firearm or knowingly have in his possession any other dangerous instruments or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the University/college without the written authorization of such educational institution. Nor shall any individual have in his possession any other instrument or material which can be used and is intended to inflict bodily harm on any individual or damage upon a building or the grounds of the University/college.
9. Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is

prohibited.

10. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees on University/college premises, or as part of any University/college activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal drug statute conviction for a violation occurring in the workplace not later than five (5) days after such conviction.
11. The unlawful possession, use, or distribution of alcohol by students or employees on University/college premises or as part of any University/college activities is prohibited.

II. Penalties

1. Any student engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of sanctions as hereafter defined in the attached Appendix: admonition, warning, censure, disciplinary probation, restitution, suspension, expulsions, ejection, and/or arrest by the civil authorities.
2. Any tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of penalties: warning, censure, restitution, fine not exceeding those permitted by law or by the Bylaws of The City University of New York or suspension with/without pay pending a hearing before an appropriate college authority, dismissal after a hearing, ejection, and/or arrest by the civil authorities, and, for engaging in any manner in conduct prohibited under substantive Rule 10, may, in the alternative, be required to participate satisfactorily in an appropriately licensed drug treatment or rehabilitation program. A tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff charged with engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be entitled to be treated in accordance with applicable provisions of the Education Law, or the Civil Service Law, or the applicable collective bargaining agreement, or the Bylaws or written policies of The City University of New York.
3. Any visitor, licensee, or invitee engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to ejection and/or arrest by the civil authorities.
4. Any organization which authorized the conduct prohibited under substantive Rules 1-11 shall have its permission to operate on campus rescinded.

Penalties 1-4 shall be in addition to any other penalty provided by law or The City University Trustees.

Appendix

Sanctions Defined:

1. **ADMONITION.** An oral statement to the offender that he has violated university rules.
2. **WARNING.** Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may cause far more severe disciplinary action.
3. **CENSURE.** Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any University regulation within a period stated in the letter of reprimand.

4. **DISCIPLINARY PROBATION.** Exclusion from participation in privileges or extracurricular University activities as set forth in the notice of disciplinary probation for a specified period of time.
5. **RESTITUTION.** Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.
6. **SUSPENSION.** Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.
7. **EXPULSION.** Termination of student status for an indefinite period. The conditions for readmission, if any is permitted, shall be stated in the order of expulsion.
8. **COMPLAINT TO CIVIL AUTHORITIES.**
9. **EJECTION.**

A true copy of resolution adopted by the Board of Trustees of The City University of New York on June 23, 1969, as amended on October 27, 1980, May 22, 1989, and June 25, 1990.

Scholarships and Grants

A number of student scholarships and fellowships are available from Hunter College and the Hunter College Foundation; these are in addition to the various federal and state grants and loans outlined in the Financial Aid section of this catalog.

Among the awards available to students are the Presidential Grants and Scholarships supported by the office of the Hunter College president. Guidelines for these awards are contained in "Hunter College Grant Competitions," a publication of the college Research Administration, 1424 East Building, 772-4020.

Information about grants, fellowships, and scholarships can be obtained from the Office of Student Services (11th floor, East Building, 772-4878).

Departmental Awards

Scholarships and other awards are available through individual academic departments. Interested students can obtain information directly from their department.

The George N. Shuster Master's Thesis Award

Contact school deans' offices for further information.

Graduate Assistantships

Graduate assistantships may be available in some departments and are awarded to master's and doctoral students on the basis of academic qualifications. The duties of graduate assistants may include teaching, research, laboratory work, graduate program administration and similar assignments as specified by the academic department. Students should contact their graduate advisers about such opportunities.

School of Social Work

Partial tuition waivers from the Dorothy and Alfred Silberman Fund are the principal source of tuition assistance available to students at the School of Social Work. These grants are based solely on financial need. In addition, various public and voluntary agencies and foundations provide some assistance in the form of scholarships and stipends. Inquiries concerning School of Social Work sponsored financial assistance should be addressed to The Scholarship Office, Hunter College School of Social Work, 129 East 79th Street, New York, NY 10021.

Schools of the Health Professions

Various forms of assistance, including traineeships, fellowships, and grants, are available to students in the Hunter-Bellevue School of Nursing and the School of Health Sciences, both located at 425 East 25th Street, New York, NY 10010. For information, contact the schools directly.

Veterans

A veteran who wishes benefits under the Veterans' Readjustment Act of 1966 (Public Law 89) should consult the Veterans' Administration. For further information, contact the office of the registrar at 217 Hunter North or (212) 650-3995.

External Scholarships

Other fellowship awards may be available through government and private organizations. For study in the fields of the art, humanities and social sciences, students may apply for the Jacob K. Javits Fellowship, www.ed.gov/programs/jacobjavits.html. For study in the fields of the social sciences and physical and natural sciences, students may apply for the National Science Foundation Graduate Research Fellowship, www.nsfgradfellows.org. Information on other scholarships from outside organizations are listed in the Grants Guide, available in the Office of Student Services, Room 1119 East or online at: <http://studentservices.hunter.cuny.edu/grant.htm>

rockwell@genectr.hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Biology in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Biology 7-12.

The master's program (Academic Plan: BIOAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: BIOAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 21 credits in biology to include a year of introductory biology with laboratory and a semester of organic chemistry (lecture only).
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one course in calculus.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in biology and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in introductory biology with laboratory and a semester of organic chemistry.
2. A general education core in the liberal arts and sciences to include the following (in addition to biology): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one course in calculus.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- **Master's Degree: BIOAE-MA**
- **Advanced Certificate: BIOAE-AC**

Total Credits

- **BIOAE-MA: 41-44**
- **BIOAE-AC: 26-27**

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr*

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300

prereq or coreq: SEDF 70500

Hours 30 hrs fieldwork

Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100

coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500

Hours 15 hours of seminar; 48 hours of fieldwork

Credits 1

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take Either -

SEDC 75401 - Student Teaching in Biology, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

- Or -

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77411 must also take SEDC 77421.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

- Plus -

SEDC 77421 - Practicum in Biology, Grades 10-12

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77421 must also take SEDC 77411.

Biology Courses

For Master's Degree Program Only

15-17 credits

BIOL 61055 - Laboratory Workshop in Biology Education

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

prereq: a graduate course in biology or permission of instructor

Hours 120 hrs,

Credits 3 cr

BIOL 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: BIOL 61055 or permission of instructor

- **American Museum of Natural History CUNY credit course:** *Genetics, Genomics or Evolution*

Category A:

For students who have completed molecular biology and molecular genetics at the undergraduate level. Choose one:

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

Category B:

For students who have not taken either molecular biology or molecular genetics at the undergraduate level. Students must take both courses below:

BIOL 60000 - Molecular Biology for Science Teachers

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.

Fall only

BIOL 60210 - Molecular Genetics for Science Teachers

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

prereq: BIOL 60000 or equivalent and permission of instructor

Spring only

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Chemistry - MA / Advanced Certificate

Education Adviser

Jeanne Weiler

1115 West

jweiler@hunter.cuny.edu

Chemistry Department Adviser (Master's Degree only)

Gabriela Smeureanu

(212) 650-3913

1320 North

gsmeurea@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Chemistry in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Chemistry 7-12.

The master's program (Academic Plan: CHEAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: CHEAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 29 credits in science and mathematics to include two years of chemistry (one year general chemistry with laboratory and one year organic chemistry with laboratory), one year of introductory physics with laboratory, and one semester of calculus.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in chemistry and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in introductory chemistry with laboratory, one year of introductory physics with laboratory, and one semester of calculus.
2. A general education core in the liberal arts and sciences to include the following (in addition to chemistry): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or better satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

SEDC 77412 - Practicum in Chemistry, Grades 7–9

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77412 must also take SEDC 77422.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

- Plus -

SEDC 77422 - Practicum in Chemistry, Grades 10–12

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400

Hours 30 hrs plus conferences,

Credits 2 cr

Students who take SEDC 77422 must also take SEDC 77412.

Chemistry Courses

For Master's Degree Program Only

Minimum of 15 credits

CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on

society and how social change directs science.

prereq: permission of instructor

Credits 3

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

Hours 4 hrs,

Credits 4 cr

- **Two electives chosen from 600- or 700-level courses in chemistry or biochemistry at least 5 cr.**

For students who have not taken physical chemistry, one of the electives must be:

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent

Hours 4 hrs,

Credits 4 cr

Fall

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Chinese - MA

Education Adviser

Jeanne Weiler

(212) 650-3459

1115 West

jweiler@hunter.cuny.edu

Chinese Program Adviser

Fang Dai

(212) 772-5062

1426 West

fdai@hunter.cuny.edu

The master's degree program (Academic Plan: CHINAE-MA) prepares candidates to teach Chinese in grades 7-12 to students of diverse backgrounds, abilities and interests. This program is not designed for individuals who already have NYS certification in Chinese 7-12.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 and a major in Chinese with a GPA of at least 3.0, including a minimum of 18 credits in Chinese literature above the intermediate level and oral proficiency at the advanced low level of the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI);

OR

Applicants who do not have a Chinese major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits can take two exams to meet the Chinese coursework requirement: the Oral Proficiency Interview (OPI) and the Written Proficiency Test (WPT) administered by American Council on the Teaching of Foreign Language (ACTFL). Candidates must achieve a minimum score of advanced-low on each to meet the admission requirement and must achieve a passing score on the on-site written test in Chinese/English about Chinese literature.

PLUS (for ALL applicants)

2. A general education core in the liberal arts and science to include the following: 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. An interview conducted in Chinese/English with program adviser.
6. An on-site English writing sample.
7. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr*

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
Credits 1 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3*

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12

The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

prereq or coreq: SEDF 70400 or permission of the adviser
Credits 3

CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

prereq or coreq: CHND 71200 and SEDF 70500 or permission of the adviser
Hours 30 hrs plus 36 hrs fieldwork
Credits 2

- Take either -

CHND 73100 - Student Teaching in Chinese, Grades 7-12

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

prereq or coreq: CHND 71300 or permission of the adviser.
Hours 60 days, 30 hrs seminar plus workshops and conferences,
Credits 5

- Or -

CHND 74110 - Practicum in Chinese, Grades 7-9

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take **CHND 74110** must also take **CHND 74120**.

prereq or coreq: CHND 71200 or permission of the adviser.
Hours 30 hrs plus conferences
Credits 2

- Plus -

CHND 74120 - Practicum in Chinese, Grades 10-12

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take **CHND 74120** must also take CHND 74110

prereq or coreq: CHND 71200 or permission of the adviser.

Hours 30 hrs plus conferences,

Credits 2

Chinese Courses

CHIN 70100 - Chinese Phonology and Romanization

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

Hours 3

Credits 3

CHIN 70300 - Chinese Orthography and Lexicology

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

Hours 3

Credits 3

CHIN 70200 - Modern Chinese Pedagogical Grammar

This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.

Hours 3

Credits 3

- Advanced Language and Culture Training (may choose 1 or more) -

CHIN 70500 - Topics in Advanced Conversation

This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve

advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70600 - Topics in Advanced Writing

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70700 - Topics in Advanced Reading

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70800 - Topics in Chinese Culture and Society

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.

Hours 3

Credits 3

CHIN 70900 - Independent Study

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

Notes:

1. Students who enter with initial or professional certification in adolescent education in another area will not be required to take any SEDC or SEDF courses. They will be required to take all CHIN and CHND courses in the program.
2. The minimum number of credits for the degree for students who enter with certification in adolescent education is 24 credits.

3. Students without certification may be exempted from up to 6 credits based on prior equivalent course work.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Earth Science - MA / Advanced Certificate

Education Adviser

Jeanne Weiler
(212) 650-3459
1115 West
jweiler@hunter.cuny.edu

Geography Department General Advising

Ines Miyares
(212) 772-5443
1005 North
geog@geo.hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Earth Science in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Earth Science 7-12.

The master's program (Academic Plan: ESCAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: ESCAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major of at least 30 credits in the liberal arts or sciences.
3. At least 21 credits in geology, physical geography, earth science, or environmental science, including geographic techniques.
4. A general education core in the liberal arts and sciences to include: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets this requirement).
5. Two professional references.
6. A personal statement.
7. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in earth science and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in introductory earth science with laboratory, one of introductory physics with laboratory, and one semester of calculus.
2. A general education core in the liberal arts and sciences to include the following (in addition to earth science): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or better satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- **Master's Degree: ESCAE-MA**
- **Advanced Certificate: ESCAE-AC**

Total Credits

- **ESCAE-MA: 42-44**
- **ESCAE-AC: 26-27**

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in

the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100

coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500

Hours 15 hours of seminar; 48 hours of fieldwork

Credits 1

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take either -

SEDC 75404 - Student Teaching in Earth Science, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

- Or -

SEDC 77414 - Practicum in Earth Science, Grades 7–9

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take **SEDC 77424**.

prereq: SEDC 72400

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences

Credits 3

- Plus -

SEDC 77424 - Practicum in Earth Science, Grades 10–12

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77424** must also take SEDC 77414.

prereq: SEDC 72400

Hours 30 hrs plus conferences,

Credits 2 cr

Earth Science Courses

For Master's Degree Program Only

Minimum of 16 credits

PGEOG 70563 - Earth Science Today

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth's lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.

Hours 45 hrs including conference,

Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

GTECH 71000 - Concepts and Theories in GeoInformatics

Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science.

coreq: GTECH 70900

Hours 60 hrs including conference (2 lectures, 2 labs),

Credits 3

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee:\$ 15

PGEOG 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the

prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,

Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

- **One elective chosen from 600- or 700-level courses with a PEGOG or GTECH prefix, 3 or 4 crs.**

Students lacking a significant background in geology or earth science may be required to take the following course as their elective:

PGEOG 70564 - Introducing Earth Science at the Museum of Natural History

This course is part of the MA Teacher Education Program in Earth Sciences.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent English - MA / Advanced Certificate

Education Adviser

Melissa Schieble

(212) 772-4044

902 West

mschiebl@hunter.cuny.edu

English Department Adviser (Master's Degree only)

Janet Neary

1204 HW

(212) 772-4039

jneary@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach English in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in English Language Arts 7-12.

The master's program (Academic Plan: ENGAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: ENGAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 21 credits of advanced courses in British, American or World Literature written in English (no more than 3 credits of the latter).
3. A general education core in the liberal arts and sciences to include the following (in addition to English major): 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Students must submit a writing sample of about 10 pages (preferably an undergraduate research paper of literary criticism).
5. Two references (preferably including at least one academic reference).
6. A personal statement.
7. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in English, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. A general education core in the liberal arts and sciences to include the following (in addition to English): 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or better fulfills this requirement), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

Hours 30 hrs, plus lab,

Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100

prereq or coreq: SEDF 70500

Hours 30 hrs fieldwork

Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Credits 1

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

English Courses

For Master's Degree Program Only

Minimum of 24 credits

- **Literature** Eighteen credits in literature courses given by the English department, including 3 credits in Shakespeare, 3 credits in literature with a multicultural/minority emphasis, 3 credits in American literature.

ENGL 60700 - English Linguistics

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

*Hours 45 hrs,
Credits 3 cr*

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

*Hours 45 hrs,
Credits 3 cr*

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent French - MA / Advanced Certificate

Education Adviser

Jenny Castillo
(212) 772-4614
905 West
jmcastil@hunter.cuny.edu

Romance Languages Department Adviser (Master's Degree only)

Marlene Barsoum
(212) 772-3511
1320 West
mbarsoum@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach French in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in French 7-12.

The master's program (Academic Plan: FRENAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: FREAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 and a major of at least 30 credits in French with a grade point average of 3.0, with a minimum of 18 credits in upper-level French literature (not to include courses in civilization/culture, linguistics or advanced language).
2. A general education core in the liberal arts and sciences to include the following (in addition to a French major): 6 credits in English, 3 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. Oral proficiency at the Advanced Low level on the American Council on the Teaching of Foreign Language (ACTFL) Advanced Level Check Oral Proficiency Interview (OPI).
6. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in French, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. A general education core in the liberal arts and sciences to include the following (in addition to French): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. Oral proficiency at the Advanced Low level on the American Council on the Teaching of Foreign Language (ACTFL) Advanced Level Check Oral Proficiency Interview (OPI).
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students

with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

Hours 30 hrs, plus lab,

Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum

in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200

prereq or coreq: SEDF 70500

Hours 30 hrs fieldwork

Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

This program is offered with the Classical and Oriental Studies Department and is designed to serve individuals who do not have certification in the teaching of Latin. The applicant must be admitted by both the School of Education and the Classical and Oriental Studies Department.

The master's and advanced certificate programs prepare candidates to teach Latin in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Latin 7-12.

The master's program (Academic Plan: LATINAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: LATAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. An index of at least 3.0 in an undergraduate major or the equivalent in Latin or classics. Students must have 30 credits of coursework in Latin.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 3 credits in the arts, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. Minimum of 30 credits in Latin at the undergraduate and/or graduate level, and a master's degree in Classics, Latin, or Ancient Greek with a GPA of at least 3.3 from an accredited institution.
2. A general education core in the liberal arts and sciences to include the following (in addition to Latin): 6 credits in English, 3 credits in the arts, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

*Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

LATED 71200 - Methods 1: Classroom Organization, Management, and Assessment of Instruction in Latin

Familiarizes prospective teachers of grades 7–12 with classroom organization patterns, rules and routines appropriate to the teaching of Latin. Close work with the design and evaluation of classroom lessons and materials in the context of national and state standards will be emphasized.

prereq: completion of 18 credits of graduate Latin courses

prereq or coreq: SEDF 70400

Hours 45 hrs, including conferences,

Credits 3

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

LATED 71300 - Methods 2: Teaching for Diverse Learners in Latin

Familiarizes prospective teachers of grades 7–12 with pedagogical approaches for teaching a diverse body of learners, in light of national and state standards, in part by utilizing aspects of diversity in the ancient world. Innovative uses of

technology, development of instructional units, individualizing for students with special needs, exploring aspects for a student-centered classroom will be emphasized.

prereq: LATED 71200

prereq or coreq: SEDF 70500

Hours 30 hrs plus 36 hrs fieldwork,

Credits 2

- Take either -

LATED 73100 - Student Teaching in Latin, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program.

prereq: LATED 71300

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

- Or -

LATED 74110 - Practicum in Latin, Grades 7-9

Supervised practicum in the teaching of Latin in grades 7–9. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take **LATED 74110** must also take **LATED 74120**.

prereq: LATED 71300

Hours 30 hrs plus conferences,

Credits 2 cr

- Plus -

LATED 74120 - Practicum in Latin, Grades 10-12

Supervised practicum in the teaching of Latin in grades 10–12. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take **LATED 74120** must also take **LATED 74110**.

prereq: LATED 71300

*Hours 30 hrs plus conferences,
Credits 2 cr*

Latin Courses

For Master's Degree Program Only

24 credits

- Latin 18 credits -

LAT 72700 - Speaking and Writing Latin

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.

LAT 71000 - Topics in Latin literature.

May be taken three times for credit.

- A. At least 3 credits from the following courses -

LAT 71100 - Literature of the Republic

Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

LAT 71200 - Literature of the Augustan Age

Selections from poetry and prose authors of the Augustan period.

LAT 71300 - Literature of the Empire

Selections from poetry and prose authors of the Imperial period.

- B. At least 3 credits from the following courses -

LAT 70500 - Caesar

Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70600 - Cicero

Selections from the orations, philosophical treatises, and letters of Cicero.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70700 - Vergil

Selections from the Aeneid, Eclogues, and Georgics.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 72500 - Ovid

Selections from the *Metamorphoses* and *Amores*.

LAT 72600 - Horace and Catullus

Selections.

- 6 additional credits from the courses in section A and/or B or LAT 708 or LAT 710 (LAT 708 and LAT 710 may each be taken up to 3 times total).

- Classical Culture 6 credits -

CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

Hours 45 hrs, including conferences,

Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

Hours 45 hrs, including conferences,

Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70700 - A Survey of Classical Literature in Translation

CLA 70600 - Supervised Reading

Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

Culminating Experiences

Comprehensive examination in Latin and Classical Culture: Classics Division

See Exit Criteria

Note (s)

Students who enter with initial or provisional certification in adolescent education in a language other than English will be required to take LATED 712, LATED 713, and either LATED 731 or two of the other student teaching/practicum courses that cover grades 7–9 and 10–12 (9–11 credits). Based on a transcript review by the School of Education, such students may be required to complete additional courses in the pedagogical sequence as well. The minimum number of credits for the degree for students who enter with certification in adolescent education is 39 credits. Students may be exempted from up to 6 credits based on prior equivalent course work.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Mathematics - MA / Advanced Certificate

Program Coordinator

Patrick Burke

927 East

(212) 396-6043

pburke@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Mathematics in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Mathematics 7-12.

The master's program (Academic Plan: MATAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: MATAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. 24 or more credits in mathematics approved by the graduate mathematics adviser, including a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra. Applicants may be admitted on the condition that they complete up to 12 credits of additional course work in mathematics. A transcript review will determine which additional credits, if any, are needed.

3. A grade point average of at least 2.7 in mathematics courses.
4. A general education core in the liberal arts and sciences to include the following in addition to math: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 6 credits in science/technology, 3 credits in the arts.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in mathematics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra.
2. A general education core in the liberal arts and sciences to include the following (in addition to mathematics): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or higher satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in science and technology.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3*

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education,

child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300

prereq or coreq: SEDF 70500

Hours 30 hrs fieldwork,

Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100

coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500

Hours 15 hours of seminar; 48 hours of fieldwork

Credits 1

- Take Either -

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

- Or -

SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

prereq: SEDC 72300

prereq or coreq: SEDF 70600

Hours 45 hrs plus conferences

Credits 3

- Plus -

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310 .

prereq: SEDC 723

Hours 30 hrs plus conferences,

Credits 2 cr

Mathematics and Statistics Courses

Master's Degree Program Only

15-17 credits

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission

Hours 3

Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none

Hours 3

Credits 3

- Plus -

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300

Hours 3

Credits 3

- Or -

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.

Hours 45

Credits 3

Note:

1. *Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser.*
2. *Although students are required to take EITHER STAT 612 or STAT 714, students are encouraged to take both courses.*

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.

3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Mathematics Professional Certificate- MA

Program Coordinator

Patrick Burke

(212) 772-4728

1138 West

patrick.burke@hunter.cuny.edu

This master's degree program provides advanced coursework in methods of teaching mathematics to those who already have NYS initial certification in Mathematics 7-12, or teachers who hold professional or permanent certification seeking to further their knowledge/skills, and gain additional graduate credits.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0
2. New York State Certification in Mathematics Grades 7-12.
3. Students must have at least 24 undergraduate credits in mathematics with a B average, including courses in Calculus and Linear Algebra.
4. Students with a master's degree in mathematics or mathematics education must have a GPA of at least 3.0 in their graduate courses, with a B average in mathematics courses.
5. Submission of official score report on the Graduate Record Examination (GRE).

Course of Study

Academic Plan

MATHAE-MA

Total Credits

30

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.

Credits 3

SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 45 hrs,

Credits 3 cr

Open only to Teacher Education Program students.

MATH 62300 - Theory of Numbers

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

prereq: a course in linear algebra

Hours 45 hrs,

Credits 3 cr

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45

Credits 3

Open only to Teacher Education Program students.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.

Hours 45

Credits 3

- **Electives (Choose 2): Any MATH or STAT 600 or 700 Level Course (6 cr)**

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Physics - MA / Advanced Certificate

Education Adviser

Jeanne Weiler

(212) 650-3459

1115 West

jweiler@hunter.cuny.edu

Physics and Astronomy Department Adviser (Master's Degree Only)

Hyungsik Lim

(212) 650-3518

1214 North

hli0036@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Physics in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Physics 7-12.

The master's program (Academic Plan: PHYAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: PHYAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major in physics.
3. A general education core in the liberal arts and sciences to include the following (in addition to a physics major): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in physics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. A general education core in the liberal arts and sciences to include the following (in addition to physics): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of "C" or higher satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets this requirement).
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

- Take either -

SEDC 75403 - Student Teaching in Physics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

- Or -

SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77423.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

- Plus -

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413 .

prereq: SEDC 72400

Hours 30 hrs plus conferences,

Credits 2 cr

Physics Courses

For Master's Degree Program Only

16 Credits

PHYS 63000 - Science and Society

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

prereq: one graduate-level physics course or permission of instructor

Hours 45

Credits 3

PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

prereq: PHYS 63000 and two elective courses in physics or permission of instructor

Hours 60

Credits 4

- Plus three electives 9 credits from below -

PHYS 60500 - Mathematical Physics

Introduction to basic mathematical techniques used in physics.

Hours 45

Credits 3

PHYS 61500 - Electromagnetic Theory

Electrostatics; electromagnetics; Maxwell's equations with application to waves; waves in guides; radiation.

Hours 45
Credits 3

PHYS 62500 - Introduction to Quantum Mechanics

Fundamental ideas in the study of atomic sized systems.

Hours 45
Credits 3

PHYS 64500 - Solid State Physics

Introduction to basic theory and techniques in study of matter on solid state.

Hours 45
Credits 3

PHYS 68500 - Numerical Methods I

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

Cross-listed (Cross-listed with MATH 68500.)

prereq: MATH 15500

Hours 45
Credits 3

Note: 700-level physics courses offered at the Graduate Center can be substituted for 600-level courses with permission of the graduate adviser.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Social Studies - MA / Advanced Certificate

Education Adviser

Debbie Sonu
(212) 772-5445
1112 West
dsonu@hunter.cuny.edu

History Department Adviser (Master's Degree only)

Jonathan Rosenberg
(212) 772-5546

1519 West
jrosen8637@aol.com

The master's and advanced certificate programs prepare candidates to teach Social Studies in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Social Studies 7-12.

The master's program (Academic Plan: SOCSTAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: SSTAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major of at least 30 credits in one of the areas of social studies (history, political science, geography, or economics) with a GPA of 3.0, including at least 12 credits in history, 3 credits in geography, 3 credits in political science, and 3 credits in economics. The course work in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in one of the areas of social studies, and a master's degree in the discipline (history, political science, geography, or economics) with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include 21 credits of history, 3 credits in geography, 3 credits in political science and 3 credits in economics. The coursework in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.
2. A general education core in the liberal arts and sciences to include the following (in addition to social studies): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school fulfills this requirement), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- **SSTAE-AC: 26-27**

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other

diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3*

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

*prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
Credits 1 cr*

SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12

Students who take SEDC 77520 must also take SEDC 77510.

prereq: SEDC 72500
Hours 30 hrs plus conferences,
Credits 2 cr

History And Geography Courses

For Master's Degree Program Only

18 Credits

History

15 credits in history including 3 credits in each of the following areas: U.S. history, European history, world or non-Western history. Students who have completed 6 credits in any one of these areas at the undergraduate level will have fulfilled this requirement for that particular area, but will still have to complete at least 15 credits in graduate history courses. Within the 15 credits in history, at least 3 credits should focus on gender in history and 3 credits should focus on an analysis of diversity in the U.S.

- Plus one course 3 Credits from the following -

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,

Credits 3 cr

fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70500 - Cultural and Social Geography

Review of recent work in cultural and social geography; emphasis on literature, critiques.

prereq: GEOG 34700 and 34100 or permission of instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 71200 - Geography of Sustainable Development in Developing Countries

Analysis of factors that influence sustainable development, e.g., available resources, environment, population, food production, water supply in developing countries.

prereq: graduate standing and one course focusing on development of a developing region, or permission of instructor

Hours 45 hrs including conference,

Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74200 - International Migration and Ethnicity

Asynchronous online seminar. Examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analyses of ethnic and racial minorities in the United States.

Hours 45 hrs including conference,

Credits 3 cr

GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the

middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Spanish - MA / Advanced Certificate

The master's and advanced certificate programs prepare candidates to teach Spanish in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Spanish 7-12.

The master's program (Academic Plan: SPANAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: SPAAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0, or better, and a major in Spanish with a GPA of 3.0, with a minimum of 18 credits in upper-level Spanish literature (not to include courses in civilization/culture, linguistics or advanced language)
Or
Applicants who do not have a Spanish major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) or at least 30 credits may take a Spanish literature exam designed and

administered by the Department of Romance Languages. Candidates must achieve a passing score on the Department's test of Spanish literature, which will be graded by the Department. They must also achieve a minimum grade of Advanced Low on the ACTFL Writing Proficiency Test.

Plus (for all applicants)

2. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. Oral proficiency at the Advanced Low level on the American Council on the Teaching of Foreign Language (ACTFL) Advanced Level Check Oral Proficiency Interview (OPI).
6. Submission of official score report on the Graduate Record Examination (GRE).

Advanced Certificate

1. An undergraduate major of at least 30 credits in Spanish, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. A general education core in the liberal arts and sciences to include the following (in addition to Spanish): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. Oral proficiency at the Advanced Low level on the American Council on the Teaching of Foreign Language (ACTFL) Advanced Level Check Oral Proficiency Interview (OPI).
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students

with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500

Hours 30 hrs, plus lab,

Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200

prereq or coreq: SEDF 70500

Hours 30 hrs fieldwork

Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7–12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100

coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500

Hours 15 hours of seminar; 48 hours of fieldwork

Credits 1

- Take Either -

SEDC 75203 - Student Teaching in Spanish, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,

Credits 5

- Or -

SEDC 77213 - Practicum in Spanish, Grades 7–9

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

prereq: SEDC 72200

prereq or coreq: SEDF 70600

Hours 45 hours plus conferences,

Credits 3

- Plus -

SEDC 77223 - Practicum in Spanish, Grades 10-12

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

prereq: SEDC 72200

Hours 30 hrs plus conferences,

Credits 2 cr

Spanish Courses

For Master's Degree Program Only

18 Credits

- 3 credits in Structures of Modern Spanish (SPAN 60100) to be taken during the first year.
- 15 credits in literature:
 - 2 courses in Spanish;
 - 2 courses in Latin American Literature; and
 - one in either.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Special Education Grades 7-12: Additional NYS Certification - Advanced Certificate

Program Coordinator

Kathy Furlong Silverio
(212) 650-3207
926 West
kfurlong@hunter.cuny.edu

This program (Academic Plan: ASE712-AC) leads to a post-master's Advanced Certificate degree in Adolescent Special Education Generalist, Grades 7-12. The program is designed for students with existing New York State certification in either Students with Disabilities Grades 1-6, or another certification content area at the adolescent level—such as Mathematics, Science, English Language Arts or Social Studies.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5.
2. New York State initial, professional or permanent certification in:
 - Childhood Special Education, Grades 1-6
 - Adolescent Education, Grades 7-12
3. A minimum of 24 liberal arts and sciences credits as follows: 6 credits English, 6 credits in historical and social sciences, 6 credits in science, 6 credits in math.
4. A personal statement.
5. A recommendation from a supervisor or academic professor.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
 2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
 3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
 4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
- NOTE: It is recommended that students with two or more INs take an official leave of absence.*

Course of Study

Academic Plan

ASE712-AC

Total Credits

17

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

- Or -*

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000

coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,

Credits 3 cr

- And -

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

- Or -*

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

- Plus the following -

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000

*Hours 15 hrs,
Credits 1 cr*

SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

*coreq: SPED 77200
prereq or coreq: SPED 70000
Hours 45 plus 10 field hours
Credits 3 cr.*

SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

*coreq: SPED 77100
prereq or coreq: SPED 70000
Hours 30 hours of seminar plus 25 field hours
Credits 2 cr.*

SPED 77300 - Methods of Teaching Writing, Math, and Organization for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing skills in (1) writing and (2) mathematics in grades 7–12, with special attention paid to organizational aspects of learning. Students will learn the writing process in general, along with various strategies that promote writing skills of adolescents across the content areas. In addition, students will learn specific strategies that support struggling learners in mathematics classrooms.

*prereq: SPED 77100 and 77200
coreq: SPED 77400
Hours 45
Credits 3*

SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

prereq: SPED 77100 and 77200

coreq: SPED 77300

Hours 30 hours of seminar plus 31 field hours working with a student

Credits 2

* These choices are based upon previous courses taken. Note that all applicants will already have taken one required special education course as part of general education certification programs. Therefore a choice allows each candidate to customize a plan of study with new material and avoid taking a course that would be redundant.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching (SPED 77200 and SPED 77400).
3. Completion of the Dignity for All Students Act (DASA) workshop.
4. Maintain valid and appropriate NYS certification.

Adolescent Special Education, Grades 7-12 (Generalist) - MSEd

Program Coordinator

Xuchilt Perez
(212) 396-6922
1104 West
xp29@hunter.cuny.edu

Program Advisor

Gina Riley
(212) 396-6921
1104 West
griley@hunter.cuny.edu

This master's degree program (Academic Plan: AG712-MSED) is designed to prepare individuals to become special education generalist teachers at the adolescent level. Graduates are eligible for NYS certification in Students with Disabilities Grades 7-12, Generalist, rather than certification in a specific subject area.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A liberal arts and sciences distributed to include: a minimum of 6 credits in English; 6 credits in political science, history, economics, or geography (with at least one course in history or geography); 6 credits in math (a college course in calculus meets this requirement); 6 credits in science; 3 credits in the arts; 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement); and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. A personal statement.
5. Two letters of recommendation.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Credits 2

- Or both of the following -

SPED 77551 - Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100, and 77200

Hours 30 hours seminar, plus conferences, plus 20 days student teaching

Credits 2 cr.

SPED 77552 - Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate cognitive impairment, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000, 77100, and 77200

Hours 30 hours seminar, plus conferences, plus 20 days student teaching
Credits 2 cr.

General Education Courses

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork
Credits 3

SEDF 71400 - Adolescent Development and Learning: Grades 7-12

This course prepares teacher candidates to think about how adolescents develop and learn by examining the process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and levels of ability. Emphasis will be placed on creating culturally compatible classrooms, motivating students, and assessing their learning.

Hours 45
Credits 3

SEDC 71600 - Math: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the contents of mathematics programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of mathematics. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3

SEDC 71700 - Social Studies: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of social studies programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of social studies. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45
Credits 3

SEDC 71800 - Science: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of science programs and curricula in grades 7–12 and formulate teaching methodology for the meaningful learning of science. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs

Credits 3

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Complete the Dignity for All Students Act (DASA) workshop.

Applied Behavior Analysis - Advanced Certificate

Program Coordinator

John Brown

(212) 650-3150

807 West

john.brown@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: APBEH-AC) provides intensive training to professionals in applied behavior analysis and its applications to working with children, youth and adults with autism spectrum disorder as well as to supervisors and administrators of Applied Behavior Analysis programs. This program is designed to prepare professionals to implement ABA intervention and to sit for the international Board Certified Behavior Analyst® exam. This program does not lead to NYS certification.

Admission Requirements

1. A master's degree from an accredited institution in education, psychology, or behavior analysis.
2. Completed a graduate level course in autism spectrum disorders. Applicants who have not completed such a course will be admitted with the condition of completing SPEDE 77100 , Autism Spectrum Disorders, during their first semester in the program.
3. An on-site interview.

Course of Study

Academic Plan

APBEH-AC

Total Credits

18

EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45

Credits 3

EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

prereq or coreq: SPEDE 77100

Hours 45

Credits 3

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

prereq: EDABA 79500

Hours 45

Credits 3

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

Hours 45

Credits 3

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.

Hours 45

Credits 3

- Take Either -

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

prereq: EDABA 79500 or EDABA 79800

Hours 45

Credits 3

- Or -

EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.

Hours 3 hrs

Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. No course grade below B.

Bilingual Childhood Education, Grades 1-6 - MSED

Program Coordinator

Brian Collins

(212) 772-4773

928 West

bcollins@hunter.cuny.edu

This graduate program in Bilingual Childhood Education (Academic Plan: CEBIL-MSED) is designed to prepare individuals to become effective teachers with high levels of teaching competencies using two languages of instruction at the childhood grade range. The programs are offered in three languages: Spanish/English, French/English and Chinese/English. The Bilingual Childhood Education program leads to NYS certification in Childhood Education with Bilingual Education Extension.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general core in the liberal arts and sciences of at least 27 credits, distributed as follows: 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); 6 credits in English including one course in English composition with a grade of B plus a writing intensive course in any discipline with a grade of B or better; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.
5. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and in Spanish, French or Chinese.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plan

CEBIL-MSED

Total Credits

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork
Credits 3 cr*

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr*

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

*prereq: BILED 77100, CEDCF 70050
Hours 45 hrs,
Credits 3 cr*

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr*

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator
Hours 30 hrs plus lab,
Credits 2 cr

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

Credits 3

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- And -

Spanish language

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

prereq or coreq: BILED 77100

Hours 30

Credits 2

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

- Or -

French language

BILED 71200 - Bilingual Literacy-French

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30

Credits 2

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MEd/Childhood Education Grades 1-6 with bilingual extension; for the MEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45

Credits 3

- Or -

Chinese language

BILED 71300 - Bilingual Literacy-Chinese

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150

Hours 30

Credits 2

For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

BILED 76900 - Instruction through the Native Language-Chinese

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork

Credits 3

Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSED in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

-Plus-

BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq or coreq: completion of 39 cr of course work or permission of the program coordinator

Hours 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar

Credits 4

- Or one of the following -

BILED 78500 - Student Teaching in Grades 1–3

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 30 days student teaching, 15 hrs of seminar plus conferences,

Credits 2 cr

BILED 78300 - Practicum in Grades 1–3

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator

*Hours 15 hrs of seminar plus conferences
Credits 2 cr*

- And one of the following -

BILED 78600 - Student Teaching in Grades 4–6

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

*prereq: completion of 39 credits of course work or permission of the program coordinator
Hours 30 days student teaching, 15 hrs of seminar plus conferences,
Credits 2 cr*

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500

*prereq: completion of 39 cr of course work or permission of the program coordinator
Hours 15 hrs of seminar plus conferences,
Credits 2 cr*

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of B or better in BILED 780 (Bilingual Research Seminar).
3. Complete the Dignity for All Students Act (DASA) workshop.

Bilingual Early Childhood Education, Birth-Grade 2 - MSED

Program Coordinator

Brian Collins
(212) 772-4773
928 West
bcollins@hunter.cuny.edu

This graduate program in Bilingual Early Childhood Education (Academic Plan: ECBB2-MSED) is designed to prepare individuals to become effective teachers with high levels of teaching competencies using two languages of instruction at the early childhood grade range. The program is offered in three languages: Spanish/English, French/English and Chinese/English. This program leads to NYS certification in Early Childhood Education with Bilingual Education Extension.

This program offers three tracks (or subplans):

TRACK 1 (Subplans: ECBB2LSPAN, ECBB2LFREN, ECBB2LCHIN) is for those without NYS certification.

TRACK 2 (Subplan: ECBB2OSPAN, ECBB2OFREN, ECBB2OCHIN) is for those with initial certification in Childhood Education, Special Education or TESOL.

TRACK 3 (Subplan: ECBB2ASSPAN, ECBB2AFREN, ECBB2ACHIN) is for those with initial certification in Early Childhood Education.

Admission Requirements

Track 1

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general core in the liberal arts and sciences distributed as follows: 9 credits in math and science (a college course in calculus meets 6 credits of this requirement); 6 credits in English; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. An on-site writing sample in English and in Spanish, French or Chinese.
5. Demonstration of satisfactory oral English and Spanish, French or Chinese through an interview conducted with at least two professors.
6. Submission of official score report on the Graduate Record Examination (GRE).

Track 2

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Childhood Education, Common Branches Pre-K-6, Special Education, or TESOL.
3. Completion of a satisfactory writing sample in English and in Spanish, French or Chinese.
4. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted with at least two professors.
5. Submission of official score report on the Graduate Record Examination (GRE).

Track 3

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with GPA of at least 3.5.
2. NYS initial certification in Early Childhood Education.
3. Completion of a satisfactory writing sample in English and in Spanish, French or Chinese.
4. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted with at least two professors.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plan

ECBB2-MSED

Subplans

- **TRACK 1:**
 - **SPANISH - ECBB2LSPAN**
 - **FRENCH - ECBB2LFREN**
 - **CHINESE - ECBB2LCHIN**
- **TRACK 2:**
 - **SPANISH - ECBB2OSPAN**
 - **FRENCH - ECBB2OFREN**
 - **CHINESE - ECBB2OCHIN**
- **TRACK 3:**
 - **SPANISH - ECBB2ASSPAN**
 - **FRENCH - ECBB2AFREN**
 - **CHINESE - ECBB2ACHIN**

Total Credits

- **TRACK 1 - ECBB2LSPAN, ECBB2LFREN, ECBB2LCHIN: 40-52**
- **TRACK 2 - ECBB2OSPAN, ECBB2OFREN, ECBB2OCHIN: 33-45**
- **TRACK 3 - ECBB2ASSPAN, ECBB2AFREN, ECBB2ACHIN: 30-36**

Master's candidates who have completed some pedagogical courses may be exempted from up to 12 credits (Track 2) or 6 credits (Track 3) of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Courses for All Tracks

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

Credits 3

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Credits 3

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100

Hours 75 hrs,

Credits 1 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100

Hours includes 5 hrs of fieldwork

Credits 3 cr

- Plus -

Spanish language

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

prereq or coreq: BILED 77100

Hours 30

Credits 2

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

- Or -

French language

BILED 71200 - Bilingual Literacy-French

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language,

spelling, grammar, and vocabulary.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30

Credits 2

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MEd/Childhood Education Grades 1-6 with bilingual extension; for the MEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45

Credits 3

- Or -

Chinese language

BILED 71300 - Bilingual Literacy-Chinese

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150

Hours 30

Credits 2

For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

BILED 76900 - Instruction through the Native Language-Chinese

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork

Credits 3

Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

- And take either -

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 30 days each at different age/grade levels (Pre-K–K and 1–2).

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 30 hrs of seminar plus 60 days of student teaching

Credits 3

- Or -

ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

Hours 15 hrs of seminar plus conferences,

Credits 1

- And -

ECC 71850 - Early Childhood Bilingual Student Teaching

Student teaching for 30 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 15 hrs of seminar plus 30 days of student teaching

Credits 2

Additional Courses for Track 1

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels

Credits 3

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

Hours 45 hrs

Credits 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs

Credits 3

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,
Credits 1 cr

Additional Courses for Track 2

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

Hours 45 hrs
Credits 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs

Credits 3

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs

Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

Additional Courses for Track 3

7-13 credits from the courses below based on a transcript review of prior coursework in early childhood education.

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs

Credits 3

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs

Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0
2. Completion of ECC 72000 (Integrative Seminar in Early Childhood Education) with a grade of B or better.

3. Track 2 and 3 students must maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Bilingual Education Extension: NYS Teachers - Advanced Certificate

Program Coordinator

Brian Collins

(212) 772-4773

928 West

bcollins@hunter.cuny.edu

The School of Education offers a post-baccalaureate program that lead to Bilingual Education Extension for classroom teachers with NYS certification (Academic Plan: BIEXT-AC). This program trains teachers to become effective bilingual practitioners with high levels of competence using two languages of instruction. The programs are offered in three language sets: Spanish/English, French/English and Chinese/English.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0
OR
A master's degree with a GPA of at least 3.5

AND
NYS teacher certification in:
 - Early Childhood Education (Birth-Grade 2)
 - Childhood Education (Grades 1- 6)
 - Common Branches PreK-Grade 6
 - Middle Childhood Education (Grades 5 - 9)
 - Adolescent Education (Grades 7 - 12)
 - Special Subjects
 - Literacy Education
 - Students with Disabilities in Early Childhood, Childhood, Middle Childhood, or Adolescent Education or Special Education K-12
 - Teachers of Students who are Blind or Visually Impaired, Deaf or Hard of Hearing, or Speech and Language Impaired
2. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and in Spanish, French or Chinese.
3. Two letters of recommendation, including one from a supervisor.

Course of Study

Academic Plan

BIEXT-AC

Total Credits

13-14

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork
Credits 3 cr*

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr*

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr*

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr*

- Plus one of the following -

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

prereq or coreq: BILED 77100

Hours 30

Credits 2

BILED 71200 - Bilingual Literacy-French

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30

Credits 2

BILED 71300 - Bilingual Literacy-Chinese

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150

Hours 30

Credits 2

For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

- Plus one of the following -

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MEd/Childhood Education Grades 1-6 with bilingual extension; for the MEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45

Credits 3

BILED 76900 - Instruction through the Native Language-Chinese

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork

Credits 3

Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSED in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in the field experience course BILED 71150.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Bilingual Education Extension: Pupil Personnel Services - Advanced Certificate

Program Coordinator

Brian Collins

(212) 772-4773

928 West

bcollins@hunter.cuny.edu

The School of Education offers a post-baccalaureate, advanced certificate program that lead to Bilingual Education Extension for those with NYS certification in Pupil Personnel Services (Academic Plan: BEPPS-AC). This program trains teachers to become effective bilingual practitioners with high levels of competence using two languages of instruction. The programs are offered in three language sets: Spanish/English, French/English and Chinese/English. Candidates must be employed and working in their area of certification in a bilingual setting at the time of application and during practicum semester.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5
2. Permanent or professional certification in:
 - School Administrator
 - School Building Leader
 - School Counselor
 - School Social Worker

- School Psychologist

OR

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 and provisional certification in one of the certification areas listed above.
2. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and Spanish, French or Chinese.
3. A recommendation from a supervisor.

Course of Study

Academic Plan

BEPPS-AC

Total Credits

15

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork
Credits 3 cr*

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

*prereq: BILED 77100, CEDCF 70050
Hours 45 hrs,
Credits 3 cr*

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr*

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs

Credits 3

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900

prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600

Hours 100

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Blind and Visually Impaired - MSEd

Program Coordinators

Ellen Trief

(212) 772-4110

911 West

etrief@hunter.cuny.edu

Rosanne K. Silberman (on leave)

(212) 772-4740

916 West

rsilberm@hunter.cuny.edu

The School of Education offers graduate programs that prepare students to become teachers of the Blind and Visually Impaired. Graduates of the Blind and Visually Impaired program will be prepared to teach learners who are blind or visually impaired in diverse PreK-12 settings including residential schools for the blind, classroom programs and itinerant teaching settings in public and private schools.

The master's degree in Blind and Visually Impaired offers two programs. Program 1 (Academic Plan: BVI-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and blind and visually impaired. Program 2 (Academic Plan: TCHBL-MSED) is for those who hold NYS certification and leads to single certification in blind and visually impaired.

Admission Requirements

Program 1

For applicants who do not hold NYS certification in Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5;
plus
A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
2. General education core in liberal arts and sciences to include a minimum of 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
3. Submission of official score report on the Graduate Record Examination (GRE).

Program 2

For applicants who hold Early Childhood, Childhood, PreK-Grade 6, Middle Childhood or Adolescent Education NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5;
plus
2. NYS initial, professional, or permanent certification in Early Childhood, Childhood, PreK-grade 6, Middle Childhood or Adolescent Education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmark

1. All field experiences and student teaching will take place in New York City public schools.

2. Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Students with a grade of F will not be allowed to continue.
3. In order to receive permission for student teaching or supervised practicum course students must:
 - Have an overall GPA of at least 3.0.
 - Have passed the EAS and the relevant CST certification exams.
 - Have no outstanding IN grades or admissions conditions.
 - Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Course of Study

Academic Plans

- **Program 1: BVI-MSED**
- **Program 2: TCHBL-MSED**

Total Credits

- **BVI-MSED: 47-60**
- **TCHBL-MSED: 40-41**

Courses for Programs 1 and 2

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience
Credits 3

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social

inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

Hours (includes 10 hours of field experience),

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

Credits 3

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience
Credits 3

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 15 hrs of field experience
Credits 3

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300
Hours 45 hrs,
Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300
Hours 15 hrs,
Credits 1 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

Credits 3

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100

Hours includes 10 hrs of field experience

Credits 3 cr

- Take either -

SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,

Credits 4 cr

- Or one of the following -

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field

placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

- Plus one of the following -

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours structured conferences, plus 20 days student teaching,

Credits 1

SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences, plus 20 days student teaching

Credits 1 cr

SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences

Credits 1 cr

SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences

Credits 1 cr

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an

understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700 , Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue

- *and either* -
 - an original written research proposal
 - *or* -
 - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Blind and Visually Impaired: NYS Teacher Certification - Advanced Certificate

Program Coordinators

Ellen Trief

(212) 772-4110
911 West
etrief@hunter.cuny.edu

Rosanne K. Silberman (on leave)

(212) 772-4740
916 West
rsilberm@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: TBVI-AC) is designed to prepare NYS certified teachers to serve as teachers of the blind and visually impaired, including those with multiple disabilities, in educational programs from birth to grade 12. Graduates of this program will be eligible for NYS professional certification in Blind and Visually Impaired.

Admission Requirements

1. New York State teaching certification in any area.
2. Master's degree in education or a related services field (speech and language pathology, physical therapy, nursing) with a GPA of at least 3.5.
3. Completion of SPED 70000 (Issues and Practices in Educating Students with Disabilities) or the equivalent with a grade of B or better for all applicants without a master's degree in special education.
4. A personal statement.
5. Three letters of recommendation.
6. Evidence of work, volunteer, or personal experience with individuals with visual impairments.
7. An on-site interview.
8. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
 2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
 3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
 4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
- NOTE: It is recommended that students with two or more INs take an official leave of absence.*

Course of Study

Academic Plan

TBVI-AC

Total Credits

22

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

Credits 3

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100

Hours Includes 15 hrs of field experience

Credits 3

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100

Hours Includes 10 hrs of field experience

Credits 3

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300

Hours 45 hrs,

Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300

Hours 15 hrs,

Credits 1 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment

Credits 1 cr

- And one of the following -

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field

placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of B or better in student teaching or practicum courses.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Student Act (DASA) workshop.

This post-master's, advanced certificate program (Academic Plan: ORMOb-AC) is designed to prepare rehabilitation teachers who have academy certification and/or NYS certification in Blind and Visually Impaired. Graduates of this program will be eligible to obtain national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals (ACVREP) as orientation and mobility specialists. This program does not lead to NYS certification.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0, plus teacher of the blind and visually impaired teaching certificate.

OR

- A master's degree from an accredited institution with a GPA of at least 3.5 in rehabilitation teaching or teacher of the blind and visually impaired with a GPA of at least 3.5.
2. A personal statement.
 3. Three letters of recommendation.
 4. Evidence of work, volunteer or personal experience with individuals with visual impairments.
 5. An on-site interview.

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
 2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
 3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
 4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
- NOTE: It is recommended that students with two or more INs take an official leave of absence.*

Course of Study

Academic Plan

ORMOB-AC

Total Credits

20

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs

Credits 3

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

Hours includes 10 hrs field experience, 45 hrs,

Credits 3 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

prereq or coreq: SPED 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr.

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

prereq or coreq: SPED 76500, 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq or coreq: SPED 76500, 76600, 76800, 76900

Hours 30 hrs seminar, plus conferences plus 340 hours of internship,

Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

prereq or coreq: permission of adviser

Hours 3 hrs

Credits 3 cr.

Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

prereq: SPED 76800

Hours 3 hrs

Credits 3 cr.

Two week summer course.

Exit Requirements

An overall GPA of 3.0

Childhood Education Grades 1-6 - MSED

Program Director

Karen Koellner

(212) 772-4675

913 West

kkoellne@hunter.cuny.edu

This program (Academic Plan: CHED-MSED) leads to NYS certification in Childhood Education. It is nationally recognized by the Association for Childhood Education International (ACEI) and prepares teachers for work in NYC public schools. This program is not designed for those with prior NYS certification in Childhood Education; Those who already hold Childhood Education certification should consider our programs in Literacy, Special Education, Early Childhood Education, TESOL, Elementary Math Specialist or Childhood Education STEM Specialization.

The Childhood Education program offers two tracks (or subplans).

- Track 1 (Subplan: CHEDTKONE) is an evening program designed with career changers in mind that allows students to adapt the pace of the program to their needs.
- Track 2 (Subplan: CHEDTKTWO) is a two-year, full-time, daytime, clinically-rich program.

Admission Requirements

1. A bachelor's degree from an accredited institution with a grade point average of at least 3.0.
2. A liberal arts or sciences major (or interdisciplinary concentration) of at least 30 credits.
3. A liberal arts core to include the following: 6 credits in English, including one course in English composition in with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better); 6 credits in social studies (one course in must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 3 credits in the arts; 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); and 3 credits in information retrieval (library studies, research, computer literacy or educational technology).
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

prereq: CEDF 70900

coreq: CEDC 73000 and 72200

Hours 75 hrs of fieldwork,

Credits 1

CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq: CEDF 70900

coreq: CEDC 71500 and CEDC 73000

Hours 30 hrs,

Credits 2

CEDC 73000 - Perspectives on Literacy Across the Content Areas

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

prereq: CEDF 70900; CEDC 70400

coreq: CEDC 71500 and 72200

Hours 30 hrs,

Credits 2

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

Credits 3

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900

Hours includes 5 hrs of field work

Credits 3

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs

Credits 3

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

prereq: completion of 31 cr. of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser

Hours 45 hrs

Credits 3

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take either -

CEDC 72400 - Student Teaching in Grades 1–3 and 4–6

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops.

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus a minimum of 60 days of student teaching

Credits 5

- Or one of the following -

CEDC 72500 - Student Teaching in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800 . Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Not for students who have completed EDC 72400 or 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching

Credits 3

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800.

Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Not for students who have completed CEDC 72400 or 72500.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences

Credits 2

- Plus one of the following -

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700 . Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3. Not for students who have completed CEDC 72400 or 72800.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching

Credits 3

CEDC 72800 - Practicum in Grades 4–6

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700 .

Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Not for students who have completed CEDC 72400 or 72600.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences

Credits 2

Track 2 - Clinically Rich

Subplan: CHEDTKTWO

CEDC 70100 - Beginning Elementary Literacy Methods

Beginning Elementary Literacy Methods is the first of a two-part sequence designed for pre-service graduate teacher candidates as an introduction to the content and procedures used to teach English language arts to elementary students. Students will learn how children develop reading and writing concepts and abilities, become familiar with children's literature, both nonfiction and fiction, and understand current practices of literacy instruction and assessment.

coreq: This course should be taken with CEDF 70900, CEDC 70500, EDSEL 79600, CEDC 77200 Fieldwork & Teaching Seminar 1.

Hours 45

Credits 3

CEDC 70200 - Advanced Elementary Literacy Methods

Advanced Elementary Literacy Methods is the second course of a two-part sequence designed for graduate, pre-service teacher candidates to expand and apply their understanding of the pedagogical strategies and content necessary to teach English language arts to elementary students. In this course, teacher candidates will demonstrate effective literacy instruction through assessing, planning, and teaching elementary students' learning in all facets of literacy and throughout the content areas.

coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600 Reflective Practice in Elementary School Social Studies Curriculum Development, SPED 70800, CEDC 77300 Fieldwork & Teaching Seminar 2.

Hours 45

Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000

Credits 3

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

Credits 3

CEDC 70600 - Reflective Practice in Elementary School Social Studies Curriculum Development

The course addresses the knowledge, skills, and attitudes for teaching the Social Studies curriculum to elementary grade students. This course is designed to introduce the content of the New York State Social Studies curriculum and the national standards for teaching Social Studies (<http://www.socialstudies.org/standards/strands/>) and focus on multiple instructional strategies to deliver this curriculum. There is an emphasis on integrating children's literature, the arts, and technology into the Social Studies curriculum and on experiencing the kinds of instructional methods and strategies recommended as current best practices for teaching the Social Studies curriculum.

prereq or coreq: To be taken with CEDF 71000, CEDC 70300, CEDC 72200, CEDC 70200, CEDC 77300.

Hours 45

Credits 3

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900

Hours 45 hrs,

Credits 3

CEDC 73900 - Advanced Methods in Elementary School: Mathematics, Science, and Social Studies

This graduate advanced methods builds on and extends the initial methods courses in the areas of mathematics, science, and social studies and also explicitly connects theory from mathematics, social studies, and science methods courses to practice by supporting teacher candidates to design and enact lessons in the context of the elementary school classroom. Students will grapple with the complexities of how students learn content and design/conduct assessments, develop lesson plans and unit plans, and critically reflect on their teaching practice. Students will face the realities of teaching content in schools given the school resources in terms of curriculum and technology and within the curriculum guidelines of the state and district.

prereq or coreq: CEDC 70300, CEDC 70600, CEDC 70500

Credits 3

In order to take this course students have to be accepted into the 'clinically rich' track of the Masters in Childhood Education program that leads to certification.

CEDC 77200 - Fieldwork & Teaching Seminar 1

Fieldwork & Teaching Seminar 1 is the initial experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

coreq: This course should be taken with CEDF 70900, CEDC 70500, CEDC 70100, EDESL 77100.

Hours 30

Credits 2

30 days (field) & 15 hrs (course)

CEDC 77300 - Fieldwork & Teaching Seminar 2

Fieldwork & Teaching Seminar 2 is the second experience in an elementary partner school for the clinically rich track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600, CEDC 70200.

Hours 30

Credits 2

30 days (field) & 15 hrs (course)

CEDC 77400 - Fieldwork & Teaching Seminar 3

Fieldwork & Teaching Seminar 3 is the third experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71600, CEDC 73900, CEDC 70700, CEDC 71300.

Hours 30

Credits 3

45 days (field) & 15 hrs (course)

CEDC 77500 - Fieldwork & Teaching Seminar 4

Fieldwork & Teaching Seminar 4 is the fourth and final experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDC 71000.

Hours 45

Credits 3

75 days (field) & 15 hrs (course)

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

Credits 3

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900

Hours includes 5 hrs of field work

Credits 3

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs

Credits 3

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610

Hours includes 20 hrs fieldwork in K-12 classrooms

Credits 4

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Exit Requirements

1. An overall GPA of at least 3.0.
2. Track 1 students only: a grade of B or better in CEDF 792.

3. Complete the Dignity for All Students Act (DASA) workshop.

Childhood Education with a Specialization in Science, Technology, Engineering and Mathematics (STEM) Professional Certificate- MSED

Program Coordinator

Dennis Robbins

(212) 772-4287

907 West

drobb@hunter.cuny.edu

This program (Academic Plan: CEMSC-MSED) prepares Childhood Education teachers to become better qualified in teaching STEM subjects in the elementary grades. It requires initial NYS certification in Childhood Education and leads to professional certification in that area.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. NYS initial, professional or permanent certification in Childhood Education.
3. A personal statement.
4. Two letters of recommendation including one from a supervisor.
5. Successful completion with a grade of C or better of college level mathematics course and a lab science course. Those who do not meet the mathematics requirement must successfully complete MATH 104 and MATH 105 in the School of Arts and Sciences. Those who do not meet the science requirement must take a one semester course in a lab science (biology, chemistry, physics or geology).
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
 2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
 3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
 4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
- NOTE: It is recommended that students with two or more INs take an official leave of absence.*

Course of Study

Academic Plan

CEMSC-MSED

Total Credits

CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

Hours 45 hrs.

Credits 3

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.

Credits 3

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

prereq: all program courses except CEDC 74300

Hours 45 hrs

Credits 3

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs

Credits 3

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300

Hours 45 hrs

Credits 3

CEDC 74700 - Number Theory and Algebra in Elementary Curriculum

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

Hours 45 hrs

Credits 3

CEDC 74800 - Geometry and Measurement in the Elementary

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

Hours 45

Credits 3

CEDC 77600 - Planet Earth: Earth and Space Sciences for Elementary School Teachers

Methods and content of teaching Earth and Space sciences topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3 hrs

Credits 3

CEDC 77700 - Physical Science Background for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

Hours 45 hrs

Credits 3

CEDC 77800 - Life Sciences

The methods and content of teaching life science topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3
Credits 3

CEDC 77900 - Robotics and Engineering

New methods of teaching innovative school curricula in robotics and engineering. Students will design and program their own robotic vehicles and learn elementary school materials by a hands-on process and project work. The curriculum is modeled on the First LEGO League competitions popular at the grade school-level. Engineering is Elementary, a school curriculum to improve children's understanding of engineering principles, is also explored from a student-centered perspective. These new STEM curriculum for elementary schools are supported by K-12 Next Generation Science Standards (2013). All students who enroll in the course will emerge with training to teach these curricula in elementary schools, in informal settings and after school programs.

Hours 3
Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Childhood Special Education: Additional NYS Certification - Advanced Certificate

Program Coordinator

Kathy Furlong Silverio
(212) 650-3207
926 West
kfurlong@hunter.cuny.edu

This post-master's, advanced certificate program in Childhood Special Education (Academic Plan: CSPE-AC) is designed for students with existing New York State certification in either Childhood Education Grades 1-6 or a different certification area of Special Education.

Admissions Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5
2. NYS certification in one of the following:
 - Students with Disabilities, Birth – Grade 2
 - Students with Disabilities, Grades 7-12 Generalist
 - Childhood Education, Grades 1-6
3. A minimum of 18 liberal arts and sciences credits as follows: 6 credits in historical and social sciences, 6 credits in science, 6 credits in math.
4. A personal statement.
5. A recommendation from a supervisor or academic professor.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses

NOTE: It is recommended that students with two or more INs take an official leave of absence.

Course of Study

Academic Plan

CSPE-AC

Total Credits

17

- Take either -

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

- Or* -

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000

coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,

Credits 3 cr

- And -

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

- Or* -

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

- Plus the following courses -

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000

Hours 15 hrs,

Credits 1 cr

SPED 78100 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

coreq: SPED 78200

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

Credits 3

Only in the fall semester (note: must take concurrently with SPED 78200 and must take SPED 78300/78400 in semester immediately following)

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100

prereq or coreq: SPED 70000

Hours 15 hrs seminar, plus 20 hrs lab,

Credits 2 cr

Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200

coreq: SPED 78400

Hours 45

Credits 3

Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/ 782

coreq: SPED 783

Hours 15 hrs seminar, plus 20 hrs lab,

Credits 2 cr

Spring only

*These choices are based upon previous courses taken. Note that all applicants will already have taken one required special education course as part of general education certification programs. Therefore a choice allows each candidate to customize a plan of study with new material and avoid taking a course that would be redundant.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching (SPED 78200 and SPED 78400).
3. Complete the Dignity for All Students Act (DASA) workshop.

Childhood Special Education: Behavior Disorders - MEd

Program Coordinator

Tom McIntyre

914 West Building

(212) 772-4706

thomas.mcintyre@hunter.cuny.edu

This graduate program (Academic Plan: CSPE-MSED and CSPED-MSED) prepares teacher candidates for effective teaching of students with behavior/mental challenges autism, and learning disabilities. Graduates from the behavior disorders track of the Childhood Special Education program are well prepared to teach in all educational settings, serving in hospitals, clinics, and public, charter, private, and parochial schools. They do so in roles such as collaborative teach teachers (CTT), inclusion support providers ("push in" teachers), head teachers in self-contained classrooms, behavior support personnel, and general education teachers.

The master's degree in Childhood Special Education: Behavior Disorders offers two programs. Program 1 (Academic Plan: CSPE-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSPED-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

Admission Requirements

Program 1

For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Submission of official score report on the Graduate Record Examination (GRE).

Program 2

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5;
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmark

1. All field experiences and student teaching will take place in New York City public schools.
2. Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Students with a grade of F will not be allowed to continue.
3. In order to receive permission for student teaching or supervised practicum course students must:
 - Have an overall GPA of at least 3.0.
 - Have passed the EAS and the relevant CST certification exams.
 - Have no outstanding IN grades or admissions conditions.
 - Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Courses for Programs 1 and 2

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000

coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral

characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000

Hours 15 hrs,

Credits 1 cr

SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000

Hours 30 hrs lab,

Credits 1 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 10 hours of field experience, 45 hrs,

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

SPED 75000 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

prereq or coreq: SPED 70000
Hours Includes 20 hrs of field experience

SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000
Hours Includes 20 hrs of field experience
Credits 3

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr

- Take either -

SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing

appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,

Credits 4 cr

- Or two of the following (must include two different grade levels) -

SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000

prereq or coreq: SPED 75100 or SPED 78150

Hours 30 hrs seminar plus conferences,

Credits 2 cr

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In

addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs,
Credits 1 cr*

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700 , Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
- *and either* -
an original written research proposal
- *or* -
a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Childhood Special Education: Learning Disabilities - MSED

Program Advisor

Timothy Lackaye
917 West Building
(212) 772-4777
tlachaye@hunter.cuny.edu

Student Teaching Coordinator

Kate Garnett
910 West Building
(212) 772-4700
kgarnett@hunter.cuny.edu

This graduate program prepares students to teach in Childhood Special Education environments, including self-contained and inclusion settings. Graduates from the learning disabilities program will be able to serve in such roles as inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics.

The master's degree in Childhood Special Education: Learning Disabilities offers two programs. Program 1 (Academic Plan: CSPE-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSPED-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

Admission Requirements

Program 1

For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Submission of official score report on the Graduate Record Examination (GRE).

Program 2

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5;
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmark

1. All field experiences and student teaching will take place in New York City public schools.
2. Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Students with a grade of F will not be allowed to continue.
3. In order to receive permission for student teaching or supervised practicum course students must:
 - Have an overall GPA of at least 3.0.

- Have passed the EAS and the relevant CST certification exams.
- Have no outstanding IN grades or admissions conditions.
- Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Course of Study

Academic Plans

- **Program 1: CSPE-MSED**
- **Program 2: CSPED-MSED**

Total Credits

- **CSPE-MSED: 42-56**
- **CSPED-MSED: 35-37**

Courses for Programs 1 and 2

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000

coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000

Hours 15 hrs,

Credits 1 cr

SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000

Hours 30 hrs lab,

Credits 1 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 10 hours of field experience, 45 hrs,

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

*Hours 45 hrs,
Credits 3 cr*

SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

*prereq or coreq: SPED 70000
Hours 45
Credits 3*

SPED 78100 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

*coreq: SPED 78200
prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience
Credits 3
Only in the fall semester (note: must take concurrently with SPED 78200 and must take SPED 78300/78400 in semester immediately following)*

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

*coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)*

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200

coreq: SPED 78400

Hours 45

Credits 3

Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/ 782

coreq: SPED 783

Hours 15 hrs seminar, plus 20 hrs lab,

Credits 2 cr

Spring only

- Take either -

SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching,

Credits 4 cr

- Or -

SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or

mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

- Or both of the following -

SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences, plus 30 days of student teaching,

Credits 2 cr

SPED 78552 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

prereq or coreq: SPED 700

Hours 30 hrs seminar, plus conferences, plus 30 days of student teaching,

Credits 2 cr

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700 , Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
- and either -
an original written research proposal
- or -
a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Childhood Special Education: Severe/Multiple Disabilities (including Deafblindness) - MSeD

Program Coordinators

Ellen Trief
921 West Building
(212) 772-4110
etrief@hunter.cuny.edu

Rosanne K. Silberman (on leave)
916 West Building

(212) 772-4740
rsilberm@hunter.cuny.edu

This graduate program prepares students to teach in Childhood Special Education environments, including self-contained and inclusion settings. Graduates from the severe/multiple disabilities program will be able to serve in such roles as specialized teachers of learners with severe disabilities, including deafblindness; inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics. This program leads to certification in Students with Disabilities Grades 1-6 and an extension annotation in Severe and Multiple Disabilities.

The master's degree in Childhood Special Education: Severe/Multiple Disabilities offers two programs. Program 1 (Academic Plan: CSed-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSedD-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

Admission Requirements

Program 1

For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Submission of official score report on the Graduate Record Examination (GRE).

Program 2

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5;
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

B. Fieldwork Benchmark

1. All field experiences and student teaching will take place in New York City public schools.
2. Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., CEDC 72900; SPED 79550; SPED 79551; SPED 79552; SPED 79553). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Students with a grade of F will not be allowed to continue.
3. In order to receive permission for student teaching or supervised practicum course students must:
 - Have an overall GPA of at least 3.0.
 - Have passed the EAS and the relevant CST certification exams.
 - Have no outstanding IN grades or admissions conditions.
 - Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, SPED 70250 and SPED 79100 and have taken or be registered concurrently for one methods course (e.g., SPED 70650; SPED 78150).

Course of Study

Academic Plans

- **Program 1: CSED-MSED**
- **Program 2: CSEDD-MSED**

Total Credits

- **CSED-MSED: 44-56**
- **CSEDD-MSED: 37**

Courses for Programs 1 and 2

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100

Hours Includes 20 hrs of field experience, 45 hrs,

Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

Hours (includes 10 hours of field experience),

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

Credits 3

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental

retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum- based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience

Credits 3

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 15 hrs of field experience

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000

Hours includes 10 hrs of field experience, 30 hrs

Credits 2 cr

SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

prereq: SPED 70600

Hours Includes 5 hrs of field experience,

Credits 1 cr

- Take two of the following (must include two different grade levels):

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus 20 days of student teaching,

Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hours seminar, plus conferences,

Credits 2 cr

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and

analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork

Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700 , Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
 - and either -
 - an original written research proposal
 - or -
 - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Dance Pre-K - 12 - MA

Program Coordinator

Kathleen Isaac

(212) 396-6635

TH 521

kathleen.isaac@hunter.cuny.edu

This graduate program (Academic Plan: DANCED-MA) prepares candidates to teach Dance PreK - Grade 12 to students of diverse backgrounds, abilities and interests. The curriculum is enriched by repertory classes with New York City-based choreographers, international performance opportunities and internships at various venues.

This program offers three tracks (or subplans):

- TRACK 1 (Subplan: DANEDLNYSC) is for those with at least 34 credits in Dance but who do not have NYS certification in Dance.
- TRACK 2 (Subplan: DANEDANYSM) is for those with initial NYS certification in Dance.
- TRACK 3 (Subplan: DANEDANYSC) is for those with at least 34 credits in Dance and have initial NYS certification in a subject area other than Dance.

Admission Requirements

Applicants must be admitted by both the School of Education and the Dance Department.

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 34 credits in dance with a GPA of at least 3.0 in dance.
3. **Track 1 Only:** A general education core in the liberal arts and sciences to include the following (in addition to dance): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (with at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
Track 2 Only: NYS certification in Dance Education.
Track 3 Only: NYS certification in a subject area other than Dance Education.
4. Applicants also need to submit a DVD or link to up to three clips of their creative work - between 5 and 15 minutes in total and a curriculum vitae.
5. A 3 credit course in special education that focuses on supporting students with disabilities in the general education classroom. Students without this course may be admitted conditionally and must take SPED 70800 in addition to other degree requirements.
6. Two professional references.
7. A personal statement.
8. An audition and interview.
9. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which

may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Course of Study

Academic Plan

DANCED-MA

Subplans

- **Track 1: DANEDLNYS**
- **Track 2: DANEDANYSM**
- **Track 3: DANEDANYSC**

Total Credits

Track 1: 49

Track 2: 30

Track 3: 30

Courses for All Tracks

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program

Hours 3

Credits 2

Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background

Hours 3

Credits 3

DAN 73000 - Studies of Forms

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department

Hours 3

Credits 3

This course is repeatable once for credit.

DAN 73500 - Performance and Presentation

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA, MA

Hours 3

Credits 1

This course is repeatable once for credit.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs

Hours 3

Credits 3

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.

Hours 3

Credits 3

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

prereq: Admission to one of the graduate dance programs

Hours 3

Credits 3

Can be repeated for credit with different content areas

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance

Hours 3 hrs + 36 hrs of fieldwork

Credits 3

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000

Credits 3

Additional Courses for Track 1

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200

Hours 60 days plus 15 hrs seminar

Credits 5

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,

Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

Hours 30 hrs, plus 36 hrs fieldwork,

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance

outcome measures and alternative forms of assessment.

prereq: SEDF 70500

Hours 30 hrs, plus lab,

Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Additional Course for Track 2

DANED 76400 - Practicum

Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: DANED 76000, DANED 76200

Hours 2 hrs plus 15 hrs seminar required

Credits 2

Additional Course for Track 3

DANED 76602 - Student Teaching

Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200

Hours 20 days plus 15 hrs seminar

Credits 2

Exit Requirements

1. An overall GPA of 3.0.
2. Successful completion of an online Dance Education Professional Teaching Portfolio (PTP).
3. Participation in a final performance event as a performer, choreographer, or technical production crew member.
4. Completion of the DASA workshop.
5. Tracks 2 and 3 must have valid and appropriate NYS certification.

Deaf and Hard-of-Hearing - MSEd

Program Coordinator

Elaine Gale

(866) 922-9043 (videophone)
918 West
egale@hunter.cuny.edu

The School of Education offers graduate programs that prepare students to become teachers of the Deaf and Hard of Hearing. Graduates of the Deaf and Hard of Hearing program typically become itinerant or classroom teachers for students who are deaf and hard of hearing with a wide range of hearing levels and communication modality, both signed and oral.

The master's degree in Deaf and Hard of Hearing offers two programs. Program 1 (Academic Plan: DEAFN-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and deaf and hard of hearing. Program 2 (Academic Plan: DEAFW-MSED) is for those who hold NYS certification and leads to single certification in deaf and hard of hearing.

Admission Requirements

Program 1

For applicants who do not hold NYS certification in Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5;
plus
A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
2. General education core in liberal arts and sciences to include a minimum of 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
3. Submission of official score report on the Graduate Record Examination (GRE).

Program 2

For applicants who hold Early Childhood, Childhood, PreK-Grade 6, Middle Childhood or Adolescent Education NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5;
plus
2. NYS initial, professional, or permanent certification in Early Childhood, Childhood, PreK-grade 6, Middle Childhood or Adolescent Education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmark

1. All field experiences and student teaching will take place in New York City public schools.
2. Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Students with a grade of F will not be allowed to continue.
3. In order to receive permission for student teaching or supervised practicum course students must:
 - Have an overall GPA of at least 3.0.
 - Have passed the EAS and the relevant CST certification exams.
 - Have no outstanding IN grades or admissions conditions.
 - Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Course of Study

Academic Plans

- **Program 1: DEAFN-MSED**
- **Program 2: DEAFW-MSED**

Total Credits

- **DEAFN-MSED: 40-58**
- **DEAFW-MSED: 33-39**

Courses for Programs 1 and 2

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience

Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience

Credits 3

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

SPED 72000 - American Sign Language I

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience, 90 hrs lab,

Credits 3 cr

SPED 72100 - American Sign Language II

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000

Hours Includes 10 hrs of field experience 90 hrs lab,

Credits 3 cr

SPED 72200 - The Study of ASL Educational Linguistics

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

prereq: SPED 72100

Hours 60 hrs lab,

Credits 2 cr

SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

Hours Includes 10 hours of field experience 45 hrs,

Credits 3 cr

SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

prereq: SPED 70000 and SPED 73000

coreq: must take SPED 73300 in semester immediately following.

Hours 3 hrs

Credits 3 cr.

Fall only

SPED 73300 - Math and Across-the Curriculum Adaptations for Students who are Deaf and Hard-of Hearing: Methods 2

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

prereq: (immediate preceding semester) SPED 73100

prereq or coreq: SPED 70000

Hours Includes 15 hrs of field experience

Spring only

SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000

Hours Includes 5 hrs of field experience

Credits 3

SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000

Hours Includes 5 hrs of field experience

- Take either -

SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,

Credits 4 cr

- Or two of the following (must include two different grade levels) -

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2 cr

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,

Credits 2

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching

Credits 2

SPED 73762 - Supervised Practicum: Deaf and Hard-of- Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences,

Credits 2

SPED 73763 - Supervised Practicum: Deaf and Hard-of- Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 7300, SPED 73300

Hours 30 hrs seminar, plus conferences,

Credits 2

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs

Credits 3

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,

Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills,

acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork

Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Notes(s)

Students entering program with ASL proficiency may be exempted from either or both of the ASL courses, without being required to replace those credits with other course work. Such students would, thus, complete the specialization sequence with either 24 or 21 credits.

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700 , Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
 - *and either* -
 - an original written research proposal
 - *or* -
 - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

This program (Academic Plan: ECEB2-MSED) leads to NYS certification in Early Childhood Education. It is recognized by the National Association for the Education of Young Children (NAEYC) and prepares candidates for teaching in a variety of educational settings within the birth to grade 2 levels. This program is not designed for those who already have NYS certification in Early Childhood Education.

ECEB2-MSED has two tracks (or subplans). Track 1 (Subplan: ECEB2LNYSC) is for applicants with no prior NYS certificate. Track 2 (Subplan: ECEB2ANYSC) is for applicants who have prior NYS certificate.

Admission Requirements

Track 1

For applicants who do not hold New York State Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general education core in the liberal arts and sciences distributed as follows: 9 credits in math, and science with at least one course in math and one course in science (a course in calculus meets 6 credits of this requirements); 6 credits in English; 6 credits in social studies (of which at least one course must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. A personal statement.
5. Two letters of recommendation.
6. Submission of official score report on the Graduate Record Examination (GRE).

Track 2

For applicants who hold NYS certification in Childhood Education, Common Branches PreK- Grade 6, Childhood or Early Childhood Special Education, or TESOL

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Childhood Education, Pre-K-Grade 6, Students with Disabilities Birth to Grade 2 or Grades 1-6, or TESOL.
3. A personal statement.
4. Two letters of recommendation.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plan

ECEB2-MSED

Subplans

- **Track 1: ECEB2LNYSC**
- **Track 2: ECEB2ANYSC**

Total Credits

- **ECEB2LNYSC: 36-42**
- **ECEB2ANYSC: 30-35**

Courses for Tracks 1 and 2

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

Hours 45 hrs

Credits 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

Credits 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs

Credits 1

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300

prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

Credits 3

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs

Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,

Credits 1 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Credits 3

- Take Either -

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 30 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700;

ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))

Hours 30 hrs of seminar plus 60 days of student teaching

Credits 3

- Or -

ECC 71700 - Supervised Practicum in Early Childhood

This course has two key components: (1) A full semester of practicum in Pre- K, K, or grades 1-2 and (2) biweekly seminar (30 hours). It builds on prior coursework and field experiences by providing guidance and reflective discussion that allow teacher candidates to enhance their teaching skills in early childhood education settings. Specific information regarding professional issues, ethical behaviors, and child advocacy is provided and reviewed. In addition, this course will align the practicum experience with the expectations of the edTPA in order to support teacher candidates with the preparation and submission of their portfolios.

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200

Hours Bi-weekly seminar (30 hrs)

Credits 2

- Plus -

ECC 71800 - Early Childhood Student Teaching

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700 . This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200

Hours Bi-weekly seminar (15 hrs)

Credits 1

Additional Courses for Track 1

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs

Credits 3

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs

Credits 3

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300

Hours 45 hrs

Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field

Credits 1

Additional Courses for Track 2

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs

Credits 3

Note(s)

Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Track 1) or 5 credits (Track 2) based on prior equivalent course work.

Exit Requirements

1. An overall GPA of 3.0.
2. Track 2 students must maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Early Childhood Education: Additional NYS Certification - Advanced Certificate

Program Coordinator

Christina Taharally

(212) 772-4679

1106 West

ctaharal@hunter.cuny.edu

This post-master's, advanced certificate program (ECEB2-AC) provides teachers who already possess New York State teaching certification in Childhood Education Grades 1-6 the additional coursework required for an additional teaching certificate in Early Childhood Education Birth to Grade 2.

Admissions Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5.

2. Permanent or professional certification in Childhood Education, Grades 1-6.
3. A personal statement.
4. Submission of official score report on the Graduate Record Examination (GRE).

1. An overall GPA of 3.0.
2. A grade of at least B in classes with clinical fieldwork hours (ECF 70000 and ECC 70300).
3. Must maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Early Childhood Special Education - MSED

Program Coordinator

Bonnie Keilty

(212) 772-4709

929 West Building

bkeilty@hunter.cuny.edu

These graduate programs prepare students to support infants, toddlers, preschoolers and early elementary children in inclusive, integrated, and self-contained classrooms, as well as homes and communities.

We offer two programs:

- Program 1 (Academic Plan: SENB2-MSED) leads to dual certification: early childhood and students with disabilities birth to grade 2, for those with no NYS certification or NYS certification in an area other than early childhood education.
- Program 2 (Academic Plan: SEWB2-MSED) leads to single certification in students with disabilities birth to grade 2, for those with NYS Early Childhood Education certification.

Admission Requirements

Program 1

For applicants who do not hold NYS certification in Early Childhood Education.

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Submission of official score report on the Graduate Record Examination (GRE).

OR

1. Any NYS teacher certificate other than Early Childhood Education.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.
3. Submission of official score report on the Graduate Record Examination (GRE).

Program 2

For applicants who hold NYS certification in Early Childhood Education, Birth to Grade 2

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.
2. NYS certification in Early Childhood Education or PreK-Grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

B. Curriculum Design Benchmark

Students must receive a grade of at least B in SPEDE 76900 and SPEDE 77000. Any student who receives a grade of B-, C+, or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Any student who receives a grade of F or WU in SPEDE 77000 will not be allowed to continue in the program.

C. Fieldwork Benchmark

1. All field experiences and student teaching will take place in New York City public schools.
2. Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., ECC 71200; SPEDE 77600; SPEDE 77800; SPEDE 77900). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Students with a grade of F will not be allowed to continue.
3. In order to receive permission for student teaching or supervised practicum course students must:
 - Have an overall GPA of at least 3.0.
 - Have passed the EAS and the relevant CST certification exams.
 - Have no outstanding IN grades or admissions conditions.
 - Complete the prerequisites of SPEDE 77800 and SPEDE 77900 as outlines in the course description.

Course of Study

Academic Plans

- **Program 1: SENB2-MSED**
- **Program 2: SEWB2-MSED**

Total Credits

- **SENB2-MSED: 42-54**
- **SEWB2-MSED: 36**

Courses for Programs 1 and 2

SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only)

Hours Includes 5 hrs field experience,

Credits 3

SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools,

observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768

Hours Includes 15 hrs field experience,

Credits 3

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790

Hours Includes 15 hrs field experience,

Credits 3

SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq or coreq: SPEDE 770

Hours Includes 5 hrs of field experience

Credits 3 cr

SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: SPEDE 768 OR SPED 700

Hours Includes 5 hrs of field experience

Credits 3 cr

SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices

This course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

prereq or coreq: SPEDE 770
Hours includes 5 hrs field experience
Credits 3 cr

SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

prereq: SPEDE 770 and SPEDE 772 (for all programs); and ECC 706 and ECC 709 (for Program 1 students only)
Hours Includes 5 hrs field experience
Credits 3 cr.

SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education

Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

prereq: ECC 71200 (for Program 1 students only)
prereq or coreq: SPEDE 77000
Hours 2 hrs.
Credits 2 cr.

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 10 hours of field experience, 45 hrs,
Credits 3 cr

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 15 hrs of field experience

- Plus -

One initial clinical experience course (SPEDE 77810 or SPEDE 77910) and one final clinical experience course (SPEDE 77820 or SPEDE 77920). The two experiences must be in different grade/age ranges.

SPEDE 77810 - Initial Student Teaching in Early Childhood Special Education

First, full semester, supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.10 must also take either SPEDE 77820 or SPEDE 77920 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77600

Hours 3 hrs. plus full semester of student teaching

Credits 3 cr.

SPEDE 77820 - Final Student Teaching in Early Childhood Special Education

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77400 and either SPEDE 77810 or SPEDE 77910

Hours 3 hrs. plus full semester of student teaching

Credits 3 cr.

SPEDE 77910 - Initial Practicum in Early Childhood Special Education

First intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.10 must also take SPEDE 77820 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPEDE 77600

Hours 3 hrs plus full semester of practicum experience in worksite

Credits 3 cr.

SPEDE 77920 - Final Practicum in Early Childhood Special Education

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for

the entire semester.)

prereq: SPEDE 77400 and SPEDE 77810

Hours 3 hrs. plus full semester of practicum experience in worksite

Credits 3 cr.

SPEDE 70700 - Research Seminar: Issues in Early Intervention and Early Childhood Special Education

Integration of theory, research and practice as related to the field of early childhood special education. Focus is on researching and applying evidence-based practices with fidelity across individuals and environments.

prereq or coreq: SPEDE 778.10 OR SPEDE 779.10

Hours 3 for 5 weeks

Credits 1 cr.

Additional Courses for Program 1

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

Credits 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs

Credits 1

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs

Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field

Credits 1

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs

Credits 3

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels

Credits 3

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily in the development of a comprehensive teaching portfolio (partial requirements of SPEDE 77820 and SPEDE 77920). The portfolio must demonstrate competence in assessment, program planning, intervention, and progress monitoring, as well as reflective practices.
4. Complete the Dignity for All Students Act (DASA) workshop.

Early Childhood Special Education: Additional NYS Certification - Advanced Certificate

Program Coordinator

Kathy Furlong Silverio

926 West Building

(212) 650-3207

kfurlong@hunter.cuny.edu

This program (Academic Plan: ECSB2-AC) leads to a post-master's Advanced Certificate in Special Education: Early Childhood, Birth – Grade 2 consistent with regulations of the New York State Education Department. The program is designed for students with existing New York State certification in early childhood general education; it leads to an additional teaching certificate in students with disabilities birth to grade 2.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5.
2. New York State initial, professional or permanent certification in Early Childhood Education, Birth – Grade 2.
3. A minimum of 18 liberal arts and sciences credits as follows: 6 credits in Historical and Social Sciences, 6 credits in Science, 6 credits in Math.
4. A personal statement.
5. A recommendation from a supervisor or academic professor.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
NOTE: It is recommended that students with two or more INs take an official leave of absence.

Credits 2 cr.

- Take either -

SPEDE 77820 - Final Student Teaching in Early Childhood Special Education

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77400 and either SPEDE 77810 or SPEDE 77910

Hours 3 hrs. plus full semester of student teaching

Credits 3 cr.

- Or -

SPEDE 77920 - Final Practicum in Early Childhood Special Education

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels –

Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPEDE 77400 and SPEDE 77810

Hours 3 hrs. plus full semester of practicum experience in worksite

Credits 3 cr.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon field work (SPEDE 77600) and clinical teaching (SPEDE 77820 or SPEDE 77920).
3. Completion of the Dignity for All Students Act (DASA) workshop.

Early Childhood Special Education: Severe/Multiple Disabilities - MSEd

Program Coordinators

Ellen Trief

921 West Building
(212) 772-4110
etrief@hunter.cuny.edu

Rosanne K. Silberman (on leave)

(212) 772-4740
916 West
rsilberm@hunter.cuny.edu

Graduates from the severe/multiple disabilities program (ECSB2-MSED) will be able to serve in such roles as specialized teachers of learners with severe disabilities, including deafblindness; inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics. This program also leads to an extension annotation certificate in Severe/Multiple Disabilities.

This program offers three tracks (or subplans):

- Track 1 (Subplan: ECSMDLNYSC) is a dual certification track for those with no NYS certification.
- Track 2 (Subplan: ECSMDANYSM) is for those with any other NYS certification.
- Track 3 (Subplan: ECSMDANYSC) is for those with Early Childhood Education certification.

Admission Requirements

Track 1

For applicants who do not hold NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.

2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Submission of official score report on the Graduate Record Examination (GRE).

Track 2

For applicants who hold NYS certification in an area other than Early Childhood

1. Any New York State teacher certificate other than Early Childhood Education.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.
3. Submission of official score report on the Graduate Record Examination (GRE).

Track 3

For applicants who hold NYS certification in Early Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
or
A master's degree from an accredited institution with a GPA of at least 3.5.
2. New York State initial/permanent teacher certification in Early Childhood or PreK-Grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmark

1. All field experiences and student teaching will take place in New York City public schools.
2. Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Students with a grade of F will not be allowed to continue.
3. In order to receive permission for student teaching or supervised practicum course students must:
 - Have an overall GPA of at least 3.0.
 - Have passed the EAS and the relevant CST certification exams.
 - Have no outstanding IN grades or admissions conditions.
 - Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Courses for Tracks 1, 2 and 3

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

Hours (includes 10 hours of field experience),

Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,

Credits 3 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

Credits 3

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience

Credits 3

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 15 hrs of field experience

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000

Hours includes 10 hrs of field experience, 30 hrs

Credits 2 cr

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790

Hours Includes 15 hrs field experience,

Credits 3

SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq or coreq: SPEDE 770

Hours Includes 5 hrs of field experience

Credits 3 cr

SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: SPEDE 768 OR SPED 700

Hours Includes 5 hrs of field experience

Credits 3 cr

SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices

This course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

prereq or coreq: SPEDE 770

Hours includes 5 hrs field experience

Credits 3 cr

SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

prereq: SPEDE 770 and SPEDE 772 (for all programs); and ECC 706 and ECC 709 (for Program 1 students only)

Hours Includes 5 hrs field experience

Credits 3 cr.

- And -

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days) Pre-K

Credits 2 cr.

- Or -

SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days) K-2
Credits 2

- Plus -

SPEDE 79552 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) Pre-K
Credits 2

- Or -

SPEDE 79553 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) K-2
Credits 2 cr.

Additional Courses for Track 1

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECC 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

Credits 3

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

Hours 45 hrs

Credits 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400

prereq or coreq: 70500 or 70600

Hours 15 hrs

Credits 1

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

Hours 45 hrs

Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field

Credits 1

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs

Credits 3

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,

Credits 1 cr

Additional Courses for Track 2

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field

Credits 1

Exit Requirements

1. An overall GPA of 3.0.
2. Tracks 2 and 3 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700 , Research Seminar: Issues in Special Education):

a comprehensive research-based oral presentation on a current special education issue
- and either -

an original written research proposal
- or -
a written proposal for competitive grant funding.

4. Complete the Dignity for All Students Act (DASA) workshop.

Educational Leadership: SBL/SDL - Advanced Certificate

Program Coordinator:

Benjamin Shuldiner
1129 West Building
(212) 772-4627
adsup@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: SBL-AC) is designed to prepare NYS certified teachers for roles in administration and supervision of preK-grade 12 educational settings. Graduates of this program are eligible for NYS certification in both School Building Leader and School District Leader.

***This program is no longer accepting new students for admission and will terminate 09/2018. The advanced certificate program is replaced by the Educational Leadership: SBL/SDL - MSED effective fall 2016 matriculation. Current students wishing to stay in the advanced certificate program can do so--please see Benjamin Shuldiner to discuss options.**

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. NYS certification as a teacher and/or pupil personnel service provider within grades PreK-12.
3. A minimum of three years of approved teaching and/or school service within grades PreK-12 under regular appointment (or its equivalent for counselors, social workers, and school psychologists) or two years approved teaching and/or school service and at least one year of relevant management/leadership experience.
4. Two letters of recommendation, including a letter of support from the candidate's immediate site supervisor.
5. An on-site interview process that includes both oral and written activities.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

Complete and pass comprehensive examination prior to enrollment into ADSUP 75100 , the internship seminar.

Course of Study

Academic Plan

SBL-AC

Total Credits

32

ADSUP 70400 - Leadership to Enhance Human Resources

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 71500 - Supervision for the Improvement of Instruction

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 71600 - Leadership Strategies for School Reform

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 71700 - Seminar in Evaluating and Applying Educational Research

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 72100 - Legal Issues, Finance, Facilities and Operations

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

ADSUP 74100 - School District Leadership: Problems and Issues

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract
Credits 4

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certificate.
3. The culminating experiences of the program consist of an oral exit interview and a program portfolio review of selected leadership experiences and reflections on the learning process.
4. Pass both parts of the NYSTCE School District Leader exam.
5. Pass the NYSTCE Educating All Students (EAS) exam.
6. Complete the Dignity for All Students Act (DASA) workshop.

Educational Leadership: SBL/SDL - MSEd

Program Coordinator:

Benjamin Shuldiner
1129 West Building

(212) 772-4627
adsup@hunter.cuny.edu

This master's degree program is designed to prepare NYS certified teachers for roles in administration and supervision of preK-grade 12 educational settings. Graduates of this program are eligible for NYS certification in both School Building Leader and School District Leader.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. Permanent or professional NYS certification as a teacher and/or pupil personnel service provider within grades PreK-12.
3. A minimum of three years of approved teaching and/or school service within grades PreK-12 under regular appointment (or its equivalent for counselors, social workers, and school psychologists) or two years approved teaching and/or school service and at least one year of relevant management/leadership experience.
4. Two letters of recommendation, including a letter of support from the candidate's immediate site supervisor.
5. An on-site interview process that includes both oral and written activities.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Complete and Pass Comprehensive Examination prior to enrollment into ADSUP 75110, the Internship Seminar.
2. Students must complete all Key Assessments built around accepted professional standards in the field of Education Leadership

*Note: Successful completion of ADSUP 75110 fulfills the culminating experiences requirement.

Educational Leadership: School District Leader - Advanced Certificate

Program Coordinator

Benjamin Shuldiner
1129 West Building
(212) 772-4627
adsup@hunter.cuny.edu

This post-master's, advanced certificate program is designed to prepare NYS certified administrators with SBL or SAS certification for roles in administration and supervision at the school district level. Graduates of this program are eligible for NYS certification in School District Leader.

Admissions Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 48 graduate credits completed prior to enrollment.
3. Proof of NYS certification in School Building Leader or School Administrator/Supervisor.
4. Two professional references.

5. A personal statement.
6. An on-site interview and writing sample may be requested by the program.
7. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
 2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
 3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
 4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
- NOTE: It is recommended that students with two or more INs take an official leave of absence.*

Educational Psychology - MA

Program Coordinator

Peggy Pei-I Chen

(212) 772-4754

1123 West

ppchen@hunter.cuny.edu

This program (Academic Plan: EDPSYCH-MA) provides a foundation of research, measurement, assessment, program evaluation and applied statistics for educational settings and related fields through two concentrations of study:

1. General Educational Psychology; and
2. Assessment, Research and Evaluation.

It is designed for students with no prior experience in education as well as those who have a background in education and want to expand their skills and knowledge. Students in this program may use the degree as a bridge to a doctoral program in Educational Psychology or a related discipline; or to prepare professional careers in program evaluation; institutional research; assessment-measurement and testing; and instruction an curriculum development in public and private institutions.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 2.8. Students who do not meet the minimum GPA requirement may submit scores on the general aptitude test of the Graduate Record Examination (GRE) to serve as evidence of their ability to complete graduate-level work.
2. On-site interview.

Progress Standards

1. Students must maintain an overall GPA of 3.0 to continue in the program.

2. Students with more than one course grade below B in the first 12 credits of EDPS coursework will not be allowed to continue in the program.
3. Any student who receives a grade of F in the first 12 credits will not be allowed to continue in the program.

Course of Study

Academic Plan

EDPSYCH-MA

Total Credits

32

Core Courses

- All students are required to take 3 core courses and a proseminar -

EDPS 70000 - Educational Psychology Proseminar

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits : none

EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

Hours 60

Credits 4

EDPS 70200 - Educational Research Methods

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

Hours 60

Credits 4

EDPS 70300 - Learning and Behavior Theories

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60

Credits 4

Concentration Area Courses

- Select 8 credits in their concentration area -

Concentration I: General Educational Psychology

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200

coreq: EDPS 70300

Hours 60

Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200

Hours 60

Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300

Hours 60

Credits 4

- Or -

Concentration II: Assessment, Research, and Evaluation

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200

Hours 60

Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100, EDPS 70200

Hours 60

Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60

Credits 4

Elective Courses in Educational Psychology

- Select 8 additional credits either from a concentration area or from the following electives -

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work

Credits 4

CEDF 71700 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

permission of faculty adviser and chairperson required

CEDF 71800 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

permission of faculty adviser and chairperson required

CEDF 71900 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

permission of faculty adviser and chairperson required

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300

Hours 60

Credits 4

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

- **EDPS 711, EDPS 712, EDPS 713, EDPS 721, EDPS 722 and EDPS 723** may count towards electives if not used to fulfill the concentration area requirement.

Culminating Courses

- Select either a thesis or a non-thesis option -

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits

Hours 60

Credits 4

- Or -

EDPS 79501 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits

Hours 30

Credits 2

- And -

EDPS 79502 - Educational Psychology Thesis Research 2

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits

Hours 30

Credits 2

Students electing Thesis Research (EDPS 79501) and (EDPS 79502) will prepare a report of a research investigation in which they design and execute an empirical study under the supervision of a faculty advisor. Students electing the non-thesis option will enroll in a seminar course (EDPS 79000) in which they prepare a scholarly publishable-quality review of the research literature on a topic approved by the faculty.

Exit Requirements

1. An overall GPA of 3.0.
2. Complete Culminating Experience.

Elementary Mathematics Specialist Professional Certificate - MSEd

Program Coordinator

Frank Gardella

(212) 772-4676

1101 West

fgardell@hunter.cuny.edu

This MSED program (Academic Plan: EMTSP-MSED) will provide certified elementary school teachers a substantial background in mathematics, pedagogy and leadership giving them the knowledge and skills necessary to be an effective professional development facilitator, coach, cluster teacher, and mentor. For those with Initial NYS Certification, this program will fulfill the master's degree requirement for Professional Certification. The New York State Education Department (NYSED) requires all certified teachers to obtain a master's degree within their first five years of teaching.

Admissions Requirements

1. A bachelor's degree from an accredited institution with an overall GPA of at least 3.0. Students with a master's degree must have an overall GPA of at least 3.3 in their graduate coursework.
2. NYS certification in Childhood Education Grades 1-6.
3. Submission of official score report on the Graduate Record Examination (GRE).
4. Preference will be given to candidates with teaching experience in grades 1-6.

Course of Study

Academic Plan

EMTSP-MSED

Total Credits

33

Entering students are expected to have college credit for at least two mathematics courses equivalent to Hunter's MATH 10400 and MATH 10500. If they do not have those courses, they will be conditioned in them and expected to complete the courses before taking other coursework in the program.

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.

Credits 3

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs

Credits 3

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300

Hours 45 hrs

Credits 3

CEDC 74700 - Number Theory and Algebra in Elementary Curriculum

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

Hours 45 hrs

Credits 3

CEDC 74800 - Geometry and Measurement in the Elementary

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

Hours 45

Credits 3

CEDC 74900 - Leadership in Elementary School Mathematics

A study of mathematics leadership and the development of mentors, coaches, and leaders of professional development.

prereq: This course is intended for students in the Elementary Mathematics Specialist program. Completion of at least 24 credits in the program.

Hours 45

Credits 3

MATH 61000 - Mathematics for the Elementary School from an Advanced Standpoint

Study, from an advanced standpoint, of the mathematics involved in the elementary school common core, with special focus on Numbers and Quantities; Algebra and Change. Open only to Teacher Education Program students.

prereq: MATH 10400 and MATH 10500 or their equivalent. Entry is by departmental permission.

Hours 3 hrs

Credits 3 cr.

The course is intended for students in the Elementary Mathematics Specialist Program.

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300

Hours 3

Credits 3

- Plus choose two (2) -

Substitutions in this category can be made with consent of the adviser

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission

Hours 3

Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none

Hours 3

Credits 3

MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

prereq: a course in multivariate calculus and a course in linear algebra

Hours 45

Credits 3

Familiarity with MAPLE or MATHEMATICA encouraged

- And choose one (1) -

STAT 61300 - An Introduction to Statistics

An Introduction to statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports..Data analysis uses appropriate statistical software. This course is intended for teachers.

Hours 3 hrs.

Credits 3 cr.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.

Hours 45

Credits 3

Note:

If a student has already taken a course with content comparable to a course in the program, documented by college catalog description, and the student attained a grade of B or better in the course as documented by an official college transcript, then the student will be allowed to choose a course approved by the program adviser as a substitute for the existing program course.

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Gifted Education Extension - Advanced Certificate

Program Coordinator

Elissa Brown

(212) 772-4618

919 West

eb177@hunter.cuny.edu

This advanced certificate program (Academic Plan: GIFTD-AC) is designed to provide educators with a solid background of expertise in gifted education, enabling them to work effectively with exceptionally capable learners, and to take leadership roles in the field. In addition to satisfying NYS certification requirements for 12 credits of coursework and field hours for the Gifted Extension certificate*, successful completion of this program will result in an advanced certificate degree in Gifted Education and an institutional recommendation for the Gifted Extension certificate.

*NYS certification in Gifted Extension requires a valid base NYS teacher certification and a passing score on the Gifted Content Specialty Test (CST).

Admission Requirements

1. NYS teacher certification and a minimum of 15 credits of graduate study (master's degree preferred) in education for a specific school population, with at least one course in human development (including child or adolescent development).
2. A GPA of at least 3.5 in graduate courses.
3. Two letters of recommendation from appropriate professional or academic sources.

Course of Study

Academic Plan

GIFTD-AC

Total Credits

12

SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed (Cross-listed with CEDF 75300.)

Hours 45 hrs includes 10 hrs field experience

Credits 3 cr

SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

Cross-listed (Cross-listed with CEDF 75400.)

Hours Includes 10 hrs field experience

Credits 3

SPED 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed (Cross-listed with CEDC 755.)

prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 20 hrs field experience

SPED 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 10 hrs field experience

Exit Requirements

1. An overall GPA of 3.0.
2. No course grade below B.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Instructional Leadership

Program Coordinators/Advisors

Marshall George
(212) 772-4659
1023 West Building
mg2003@hunter.cuny.edu

The Doctor of Education (Ed.D.) degree in Instructional Leadership prepares experienced educators to become effective practitioner leaders able to translate current research into policy and practice. The program prepares teacher leaders, department chairs, administrators and other education professionals to transform K-12 education, driving better educational experiences and outcomes across larger systems. The program provides clinically-focused doctoral training and a deep grounding in the research on educational practice, particularly as it applies to urban settings and suburban settings with increasingly diverse student populations. Students develop the ability to synthesize and apply new research to improve educational experiences and outcomes for students, and the skills to communicate their insights effectively as leaders in schools and communities.

Program Highlights

- Designed to meet the needs of working educators with a part-time cohort model and practice-focused curriculum over five years
- Focused on interpreting and translating current research into clinical practice.
- Leverages the strength and expertise of faculty with a wide range of research and practitioner areas who are engaged with current scholarship and practice.
- Provides opportunities to expand both the breadth of knowledge across the field and depth of knowledge in a particular area of interest.
- Institutionally committed to serving the needs of public education with an urban focus.

Program web site

Admission Requirements

1. A master's degree from an accredited institution in the field of education or related to your work in education with a GPA of at least 3.5.
2. A minimum of two letters of recommendation is required.
3. A personal statement.
4. Graduate Record Examination (GRE).
5. Prospective students whose native language is not English and who have completed all or part of their post-secondary education in a country where English is not the native language need to take the TOEFL.
6. A resume.
7. An on-site interview and writing activity may be required as part of the interview process.

SPED 80000 - Introduction to Doctoral Studies: Theory and Research in Curriculum and Teaching

This course provides a brief overview of theory and research in curriculum and teaching. Students will consider how their own positionality influences ways in which they read and interpret educational research. Conversely, students will also understand how a researcher's positionality influences all aspects of their research, including: questions asked; theoretical framework adopted; methodologies chosen; data collection; analysis and interpretation of data; results or findings; and implications. Students will also engage in studying selected influences of curriculum history, particularly post 1945-present. These influences include: The Cold War, Civil Rights Movement, The War on Poverty, No Child Left Behind, and the Standards Movement. This course will serve as a beginning to cultivating student interests in developing their own research studies by weaving together theory, research, practice, and policy within education.

Hours 3 hrs.

Credits 3 cr.

EDF 80400 - Analysis of Major Issues in Contemporary Education Reform

For hundreds of years, ever since the United States Constitution omitted any explicit reference to Education, the policies that shape our PK-12 education system have been largely debated and resolved at the state and local levels. To be sure, the Supreme Court of the United States has intervened – most often through the first amendment (on the 'separation' of church and state) and the fourteenth amendment (equal protection under the law) – on issues of segregation and the public funding of aspects of religious schools. Congress has also provided funding (largely through Title 1 grants to the states) to support the education of especially disadvantaged students. But the basic funding structures were state and local (even today, only about 7 cents on the education dollar come from Washington DC); the policies around testing, curricula, the hiring and firing of teachers, the preparation of teachers and principles, and all other major aspects of our PK-12 practices were locally resolved.

In the last several decades, much has changed. Since the publication of a now famous report "The Nation at Risk" in 1984; through the passage of the No Child Left Behind legislation, to the Federally funded "Race to the Top" and not excluding findings from the Supreme Court that have (largely) validated voucher programs of school choice, actions in

Washington DC have profoundly altered our education policies across the country. A deep concern for the relative performance of American students by contrast to their international peers combined with massive evidence of an ever-persisting performance gap between affluent and underprivileged students, especially from our African American and Hispanic families, have prompted waves of reform efforts, many of them driven from the US Dept. of Education.

After a brief review of the history of education reform efforts, we will study the major debates and policy initiatives that have shaped the contemporary structures of American public education. We will seek to understand what is at stake in these initiatives, the evidence behind their adoption and resistance to them.

Hours 3

Credits 3

EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

Hours 60

Credits 4

EDUC 80100 - Research on Curriculum and Teaching of English Language Learners

The focus of this course is on effective curriculum and instruction supporting the academic, social, and emotional development of ELLs. Topics and assignments provide a direct connection of research to programming, and policy for ELLs in P-12 school contexts. Analysis of research on ELL education, including review of quantitative and qualitative studies of instruction and curriculum for ELLs will provide the foundation for the course content. This course will prepare doctoral students to critically evaluate educational research on ELLs, deeply understand the core components of quality instruction for ELLs in P-12 classrooms, and be able to clearly identify appropriate methods for addressing and improving instruction and curriculum for ELLs. Topics and assignments are designed to provide theory that directly connects to the design of instructional models of and curricula for ELL instruction.

Hours 3

Credits 3

EDUC 80600 - Effective Professional Development of Teachers

In-depth study of research and practice in professional development for educators. Students will explore the literature about effective methods, contexts, and delivery of coaching, mentoring, and professional learning for teachers and other educators. Focus on understanding the strengths and weaknesses of different approaches to professional development, and on learning how to assess the appropriateness of a professional development strategy with respect to content and the teacher population to be served.

Hours 3

Credits 3

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

Hours 60

Credits 4

EDF 80200 - Quantitative Methods and Measurement

The purpose of this course is to increase students' understanding of quantitative research methods and design issues relevant to the pursuit of research in education, with a focus on correlational, experimental and quasi-experimental design. This course also addresses essential issues in the measurement of educational constructs, including the following topics: reliability, validation, item analysis, test bias, dimensionality, item response theory, and the use of high-stakes testing in educational policy.

prereq: Introduction to Statistics and Statistical Computing (EDPS 701)

Credits 4

SPED 80100 - Research on Effective Practice and Curriculum for Students with Disabilities

Throughout history, society has responded to students with disabilities in many ways—from placing them in specialized schools to providing no education whatsoever. Grounded within the Civil Rights Movement, the institution of special education evolved as society's response to children and youth with disabilities who had traditionally experienced a significantly inferior education in comparison to their non-disabled counterparts. In 1975, with the passage of P. L. 94-142, The Education of All Handicapped Children Act, children and youth with disabilities came to enjoy the same rights as children without disabilities, being guaranteed a "free and appropriate" public education. However, the institution of special education has always inspired disagreement among various constituents in society, including parents, policy makers, theoreticians, researchers, educators, and people with disabilities. It has offered hope to countless families whose disabled children. It also guarantees an education to all citizens, reduces the number of students with disabilities dropping out of school, increases the number attending college, and develops many forms of innovative pedagogy. Critics have pointed out special education's relationship to: stigmatizing difference; maintaining racial stratification in schools; segregating many migrant and indigenous children; diluting the curriculum; and contributing to the "school-to-prison pipeline" in which three-quarters of those incarcerated have significant struggles in literacy.

Given these tangled issues, some questions that they raise include: Who defines disability within schools? Who benefits? Who is disadvantaged? Where and how should students with disabilities be educated? What constitutes effective teaching practices and curriculum for students with disabilities? Whose responsibility are they? What are some differences among scholars who look at disability as scientific fact versus those who view it as a natural form of human variation? Most importantly, in what ways does how to understand disability impact upon creating and executing research upon students with disabilities?

This course provides the opportunity to consider disability in the context of schools and society—with view to engaging with, and critiquing, existing research in the fields of special education and disability studies in education (DSE). We will be mindful of how the disposition and paradigm of researchers influences all aspects of their work including: problems identified; questions asked; methods used; analysis employed; findings or results; interpretations, and: implications. This course focuses on the nature of evidence-based practice involving students with disabilities within specific contexts. The course is designed to provide a foundation for the course work, independent scholarship, and educational research that students will undertake in the process of completing the doctoral degree.

Hours 3 hrs.

Credits 3 cr.

- **XXX - Enhancing Achievement through Family and Community Relationships (3 cr)**

EDUC 80700 - Professional Communications for Educational Settings

This course explores a range of educational and school-based writing genres and writing for a variety of audiences. Resources and practices related to developing and writing within a variety of genres from traditional print publications to new media outlets will be introduced, explored and, most importantly, enacted.

Hours 3

Credits 3

- **XXX - Research on Effective Practice and Curriculum of Literacy (3 cr)**

EDUC 80300 - Research on Effective Practice and Curriculum in Math

The course will examine the current research on effective mathematical teaching, assessment practices, student learning, and curriculum design. Students will synthesize research and engage in research explorations focused on problems of practice.

Hours 3

Credits 3

EDF 83000 - Dissertation Proposal Seminar

This course is a seminar designed to provide students with a general overview of the structure and components of a dissertation proposal. It serves as common ground for all cohort members to prepare for highly individualized work with a dissertation advisor in subsequent semesters. Throughout this course, students will focus upon the following components: (1) the background of the problem to be investigated; (2) formulating a research question(s); (3) developing a theoretical framework; (4) conducting a literature review; (5) choosing research methods to collect data; (6) analyzing findings; and (7) generating implications. These elements will be taught in relation to a "traditional" five-chapter dissertation, along with variations and expansions of this structure. In addition, students will review and become certified in appropriate

IRB requirements. A major goal of this seminar is to individualize support with view to preparing each student to develop a topic for approval that will continue to be worked upon with a dissertation advisor during the following semester.

Hours 3

Credits 3

EDF 83100 - Dissertation Advisement I

Dissertation Advisement I is a customized course of study taken immediately after Dissertation Seminar. The purpose of this course is to provide individualized support to doctoral students as they continue to engage with components of their dissertation to develop a robust proposal. The dissertation proposal must minimally consist of the first three chapters that include the following components:

- the background of the problem to be investigated;
- research question(s);

- a theoretical framework, where appropriate;
- a literature review;
- selected research methods to collect data;
- tentative description of intended analysis. In addition, it should be sufficient to be the basis of creating an IRB research proposal.

Note: This course is cross listed with SPED 83100

prereq: Dissertation Proposa L Seminar (Pre-Requisite)

Hours 2

Credits 2

- Students will select elective courses with their advisors -

ECC 80100 - Research and Practice in Early Childhood Education

Overview of the historical and social influences on early childhood research and practice. Candidates will gain a comprehensive understanding of the significant policy, programmatic and pedagogical factors affecting the formal, symbolic and societal curricula, within and across early childhood education and care settings.

Hours 45

Credits 3

EDF 81000 - Mind, Brain, and Education

This course provides students with knowledge from the neuro and cognitive sciences that can be applied in practice. This course begins with an introduction to mapping the physical features of the brain before leading into contemporary research on "brain-based" research and educational curricula and programs. Students will engage in examining research and separate "nureomyth" from "neuroscience" in order to be informed by new knowledge from the science of learning.

Hours 3

Credits 3

EDUC 80400 - Research on Effective Practice and Curriculum in Arts and Humanities

This course examines current research in Arts and Humanities curriculum and its implementation. It addresses a host of theoretical and policy-oriented approaches to the teaching and learning of the arts and humanities Particular attention will be paid to research on arts and humanities instruction and interventions that serve the needs of diverse students in urban schools.

Hours 3

Credits 3

EDUC 80800 - Action Research

The purpose of this course is to explore various aspects of a movement in education and educational research in which educators (e.g., P-12 teachers, school administrators, etc.) actively participate in making change in their practice through conducting systematic inquiry and research. The course will provide a broad overview of the epistemological, political, and methodological issues associated with the idea of practitioner research.

prereq or coreq: EDS 80300 Qualitative Research Methods

Hours 3

Credits 3

EDUC 80900 - Case Studies in Education: Institutions, Schools, Programs, Classrooms, and Individuals.

This course examines case study as a research design in educational contexts. The unit of study can include institutions, schools, programs, and individuals. A variety of topics will be explored, including becoming familiar with types of case studies, conceptualizing case study research, creating research questions, generating data, use of analytic methods, and application of case study findings to leadership and practice. In addition, the course will feature related, sometimes overlapping, methodological approaches such as portraiture and narratives. The course engages students in substantial study and critique of current and "classic" cases in educational research based on candidates' fields of interest. Particular attention will be paid to ethical considerations in conducting case study research in urban schools and communities.

Hours 3

Credits 3

Literacy Education: Birth - Grade 6 - MSED

Program Coordinator

Jody Polleck

906 West

(212) 772-4639

jpolleck@hunter.cuny.edu

This master's degree program (Academic Plan: LTYB6-MSED) is designed for teachers with NYS certification in Early Childhood or Childhood Education to become teachers of literacy and reading at the Early Childhood and elementary grade levels. This program leads to certification in Literacy Birth to Grade 6.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Early Childhood Education, Childhood Education, PreK-Grade 6, TESOL or Special Education.
3. A letter of recommendation from a supervisor as one of the two letters of recommendation.
4. On-site writing sample after the application is reviewed.
5. On-site interview after the application is reviewed.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Must maintain a GPA of a minimum of 3.0 on all courses.
2. Students with any course grades below B- in literacy courses EDLIT 736, EDLIT 737, EDLIT 742 and EDLIT 740 will not be allowed to continue in the program.
3. Students with a grade of Incomplete in any course will be restricted from registering for more than one course. Those with two or more grades of Incomplete are prohibited from registering for more than one course. Those with two or more grades of Incomplete are prohibited from registering for any more courses

until the Incomplete grades are removed.

Note: It is recommended that students with two or more INs take an official leave of absence.

Course of Study

Academic Plan

LTYB6-MSED

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600 .)

prereq or coreq: ECF 70000

Hours 45 hrs

Credits 3

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500

Hours includes 10 hrs in the field analyzing language use of ESL learners

Credits 3 cr

EDLIT 73100 - Literacy Assessment: Birth–Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500

Hours 45 hrs and 15 hrs in the field assessing diverse learners

Credits 3 cr

EDLIT 73200 - Children's Literature

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

Hours Includes 5 hrs in a classroom-based dramatic demonstration
Credits 3 cr

EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

Hours Includes 15 hours in the field observing and analyzing writing development
Credits 3 cr

EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy
Credits 3 cr

EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork
Credits 3 cr

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

prereq: EDLIT 73100
Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties
Credits 3 cr

EDLIT 73700 - Practicum in Remedial Reading

Theoretical and practical consideration and procedures in the instruction of students with reading difficulties.

prereq: EDLIT 73600

Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College

Credits 3 cr

EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6

Exploration of historical and theoretical perspectives, and research-based teaching practices/issues related to literacy and language instruction for struggling readers and writers, including children with special needs. Study of assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcomes of struggling readers/writers and special needs students in pre-kindergarten and elementary school settings.

prereq or coreq: None

Credits 3

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: EDLIT 74500; minimum of 27 credits in the literacy program

Hours 45 hrs

Credits 3 cr

EDLIT 74200 - Practicum in Literacy

Fifty-hour college-supervised practicum divided into two 25-hour placements; one at early childhood level and one at the childhood level.

prereq: 15 credit hours in the literacy master's program

Hours 15 hr seminar plus 50 hrs in the field,

Credits 1 cr

EDLIT 74500 - Literacy Research for Change

This course aims at learning to understand and use research methodologies in literacy education--qualitative, quantitative and mixed methods. The culminating project is a comprehensive literature review in an area of literacy education, which will lead to a staff development project in the final course, EDLIT 74000, Leadership in Literacy. Course participants will not only become informed consumers of literacy research but also teacher researchers advocating for diverse, urban student populations.

prereq: EDLIT 73100 or EDLIT 75600

Hours 45

Credits 3

Note: Students may be exempted from up to 6 credits on the basis of prior or equivalent coursework.

Exit Requirements

1. Overall GPA of 3.0 or better.
2. Maintain a valid and appropriate NYS certification.
3. A grade of B or better in literacy courses EDLIT 736, EDLIT 737, EDLIT 742, and EDLIT 740.
4. Complete the Dignity for All Students Act (DASA) workshop.

Hours 45

Credits 3

EDLIT 75200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support

group.

prereq: 15 to 18 hours in the literacy Masters Program

Hours 15 hours in seminar and 50 hours of field experience

Credits 1

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork

Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

Hours includes 10 hours in classrooms focused on literacies within the disciplines

Credits 3 cr.

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork

Credits 3

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core

Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600

Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students

Credits 3

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of B or better in EDLIT 740 and EDLIT 756.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Mental Health Counseling - MSED

Program Coordinator

Elizabeth Cardoso

(212) 772-4736

1120 West

ecardoso@hunter.cuny.edu

The Mental Health Counseling Program (Academic Plan: MENHC-MSED) prepares graduates to work as mental health counselors in hospital, agency and community settings as well as in private practice. This program leads to professional licensure in New York State; professional licensure is required to practice mental health counseling.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Relevant work and/or volunteer experience is highly recommended.

Progress Standards

1. Maintain a 3.0 GPA to remain in the program.
2. Demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.
3. Active participation in small group seminars and community and professional activities is required.
4. A student receiving a grade below B, including WU, in any of the following courses cannot continue in the programs: COCO 70100, COCO 70600, COCO 71800, COCO 71900, COCO 72500 and COCO 72600.
5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.
6. Seven courses – COCO 70100, COCO 70600, COCO 70700 , COCO 71800, COCO 71900, COCO 72500 and COCO 72600 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

Course of Study

Academic Plan

MENHC-MSED

Total Credits

60

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs

Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs

Credits 3

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs

Credits 3

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self- concept, and adjustment in a handicapping world.

Hours 45 hrs
Credits 3

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200
Hours 45 hrs
Credits 3

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs
Credits 3

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs
Credits 3

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs
Credits 3

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800
Hours 45 hrs
Credits 3

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs
Credits 4

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs.
Credits 3 cr.

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600
Hours 100

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800
Hours 45
Credits 3

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900
prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100
Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500
Hours 45
Credits 3

COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

prereq or coreq: DSM-IV Workshop

Credits 3

COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

Hours 45

Credits 3

COUNM 72000 - Mental Health Counseling: Program Development and Evaluation

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

prereq or coreq: COUNM 71600 and COUNM 71700

Hours 45

Credits 3

Electives (Select One Course)

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs

Credits 3

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs

Credits 3

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800

Hours 45

Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. Must complete all required workshops.

Music Education PreK-12 - MA

Education Advisor

Jeanne Weiler

(212) 650-3459

1115 West

jweiler@hunter.cuny.edu

Music Department Advisor

Phil Ewell

(212) 772-6263

400D North

pewell@hunter.cuny.edu

The School of Education offers a program (Academic Plan: MUSPK12-MA) to prepare candidates to teach Music PreK - Grade 12 to students of diverse backgrounds, abilities and interests. The Music Education programs are run jointly by the Music Department and by the School of Education.

Track 1: Those who do not have NYS certification in Music.

Track 2: Those who have initial NYS certification in Music.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major in music or music education (with a minimum of 24 credits in music) or the equivalent. See <http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed> for specifics.
3. 3. A general education core in the liberal arts and sciences to include the following (in addition to music): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (with at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. A 3 credit course in special education that focuses on supporting students with disabilities in the general education classroom. Students without this course may be admitted conditionally and must take SPED 70800 in addition to other degree requirements.
5. Two professional references.
6. A personal statement.

7. An audition and interview.
8. Submission of official score report on the Graduate Record Examination (GRE).
9. **Program 2 only:** NYS certification in Music PreK-12

See <http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed> for more details on admissions and registering for an audition.

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plan

MUSPK12-MA

Total Credits

Track 1: 40-46

Track 2: 30

Program 1

For students with no NYS certification

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit*

course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
Credits 1 cr*

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

*prereq or coreq: SEDF 70400
Hours 45 hrs plus 18 hrs of fieldwork
Credits 2*

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

*prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 45 hrs plus 18 hrs fieldwork,
Credits 2*

- Take either -

SEDC 75600 - Student Teaching in Music, Pre-K–12

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800

Hours 30 hrs, 60 days student teaching plus workshops and conferences,

Credits 5 cr

- Or -

SEDC 77610 - Practicum in Music, Grades Pre-K–6

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620 .

prereq: MUSED 67800

Hours 30 hrs plus conferences,

Credits 2 cr

- Plus -

SEDC 77620 - Practicum in Music, Grades 7–12

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800

Hours 30 hrs plus conferences,

Credits 2 cr

Music Courses

MUS 64100 - Strings

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 225

Credits 1

MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

Hours 1.5 hrs

Credits 1 cr.

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

prereq: 4 sem. of undergraduate music theory courses

Hours 45 hrs,

Credits 3 cr

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 45

Credits 3

- **Music electives:** Courses chosen in consultation with graduate adviser (3 cr)

* Students who have studied these subjects at the undergraduate level may be exempted from these requirements.

** Please note that students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Program 2

For students who have NYS certification in Music PreK-12

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400

Hours 45 hrs plus 18 hrs of fieldwork

Credits 2

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 45 hrs plus 18 hrs fieldwork,
Credits 2

- Take either -

SEDC 77610 - Practicum in Music, Grades Pre-K–6

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620 .

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

- Or -

SEDC 77620 - Practicum in Music, Grades 7–12

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

Music Courses

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

prereq: 4 sem. of undergraduate music theory courses
Hours 45 hrs,
Credits 3 cr

MUS 72500 - Advanced Studies in Music Theory 2

Analysis and theory of compositional styles from 1900 to the present.

prereq: 4 sem. of undergraduate music theory courses
Hours 45
Credits 3

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 45

Credits 3

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 45

Credits 3

MUS 79200 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.

Hours 30 hrs,

Credits 2 cr

May be taken 4 times for credit. 8 cr maximum

- **3 Music Elective Credits**

Take 4 credits from the following, in consultation with the Director of Music Education

MUS 64100 - Strings

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 225

Credits 1

MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 225

Credits 1

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

Hours 1.5 hrs

Credits 1 cr.

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 68100 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,

Credits 1 cr

MUS 68200 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,

Credits 1 cr

MUS 68300 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,

Credits 1 cr

MUS 68400 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 15 hrs,

Credits 1 cr

MUS 71000 - Hunter Symphony

Rehearsal and performance of orchestral works.

prereq: audition and perm instr.

Hours 30 hrs,

Credits 1 cr

May be taken four times for credit.

MUS 71100 - Hunter College Choir

Rehearsal and public performance of major choral Works.

Hours 30

Credits 1

May be taken four times for credit.

MUS 71300 - Chamber Music

Rehearsal and public performance of instrumental chamber works.

Hours 30 hrs,

Credits 1 cr

May be taken four times for credit.

MUS 71400 - Collegium Musicum

Study and public performance of chamber chorus works from the medieval, Renaissance, and Baroque periods.

prereq: audition and perm instr.

Hours 30

Credits 1

May be taken four times for credit.

MUS 71500 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz and musical comedy. One public performance per semester.

*Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.*

MUS 71600 - Jazz Vocal Workshop Ensemble

Open to all vocalists and rhythm section instrumentalists by audition. Jazz performance and improvisation. One public performance per semester.

*Hours 30 hrs,
Credits 1 cr
May be taken four times for credit.*

Exit Requirements

1. An overall GPA of 3.0
2. Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. A project involving research is required of each student in the teacher education program. On completion of the courses of study and after approval of the project by the Graduate Faculty Committee, a candidate will be examined orally on the topic of the project and related issues. Students may register for independent study (MUS 79100 or MUS 79200) if they wish to receive credit toward the MA degree for work done in fulfilling the TEP Project.
4. Complete the Dignity for All Students Act (DASA) workshop.

This master's degree program (Academic Plan: SEAPR-MSED) is designed to provide advanced training to certified special education teachers who need graduate work leading to a master's degree for professional certification in special education. It is also designed for those with special education certification who are seeking to further their knowledge/skills and gain an additional age-level certificate (birth to grade 2 or grades 1-6).

This program offers three tracks:

- Track 1 (Learning Disabilities): Those seeking professional certification in Students with Disabilities Grades 1-6 with a concentration in Learning Disabilities.
- Track 2 (Behavior Disorders): Those seeking professional certification in Students with Disabilities Grades 1-6 with a concentration in Behavior Disorders.
- Track 3 (Early Childhood Special Education): Those seeking professional certification in Students with Disabilities Birth to Grade 2.

Admission Requirements

1. NYS initial or professional certification in students with disabilities grades 1-6 or birth to grade 2 or NYS permanent certification in special education, K-12.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0 **or** a master's degree in special education (any age-level) with a GPA of at least 3.5.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
NOTE: It is recommended that students with two or more INs take an official leave of absence.

Course of Study

Total Credits

30

Track 1 - Learning Disabilities

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45
Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45

Credits 3

Plus

14 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly in mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Track 2 - Behavior Disorders

SPED 75051 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45
Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

Plus

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Track 3 - Early Childhood Special Education

SPEDE 77151 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq: By permission

Hours 3 hrs

Credits 3 cr.

SPEDE 77251 - Positive Behavior Support (PBS) and Its Applications to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: By permission

Hours 3 hrs

Credits 3 cr.

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45

Credits 3

SPEDE 77951 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

prereq: By permission

Hours 3 hrs

Credits 3 cr.

- Plus -

SPEDE 77051 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.

prereq: By permission

Hours 3 hrs

Credits 3 cr.

SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

Hours includes 15 hrs of field experience

Credits 3

- Or -

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45

Credits 3

Plus

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity:
A comprehensive research-based oral presentation on a current special education issue
and either an original written research proposal
or a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Rehabilitation Counseling - MSED

Program Coordinator

Elizabeth Cardoso

(212) 772-4736

1114 West

ecardoso@hunter.cuny.edu

The Rehabilitation Counseling Program (Academic Plan: REHCN-MSED) prepares students to assist people with disabilities to realize personal goals and maximize their physical, emotional, social, intellectual and vocational potential. Rehabilitation counselors work with youth and adults in a variety of community-based settings such as hospitals, rehabilitation centers, colleges, chemical dependency agencies and career/vocational counseling programs. Students in this program may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.
6. Relevant work and/or volunteer experience is highly recommended.

Progress Standards

1. Maintain a 3.0 GPA to remain in the program and must complete the total number of credits of course work to graduate.
2. Demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.

3. Active participation in small group seminars and community and professional activities is required.
4. A student receiving a grade of below B including WU, in any of the following courses cannot continue in the programs: COCO 70100, COCO 70600, COCO 71800, COCO 71900, COCO 72500 and COCO 72600.
5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.
6. Seven courses – COCO 70100, COCO 70600, COCO 70700, COCO 71800, COCO 71900, COCO 72500 and COCO 72600 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

Course of Study

Academic Plan

REHCN-MSED

Total Credits

60

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs

Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs

Credits 3

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs

Credits 3

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self- concept, and adjustment in a handicapping world.

Hours 45 hrs

Credits 3

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200

Hours 45 hrs

Credits 3

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs

Credits 3

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs

Credits 3

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs

Credits 3

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800

Hours 45 hrs

Credits 3

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs

Credits 4

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs.

Credits 3 cr.

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900

prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600

Hours 100

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800

Hours 45

Credits 3

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900

prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100

Hours Each 300 hrs to be arranged in selected field settings

Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500

Hours 45

Credits 3

COUNR 71600 - Resources and Foundations of Rehabilitation

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

Hours 45 hrs
Credits 3

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs
Credits 3

- Electives: Select two courses from below -

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs
Credits 3

COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

Hours 45 hrs,
Credits 3 cr

COCO 72700 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

Hours 45 hrs.
Credits 3 cr.

Exit Requirements

1. An overall GPA of 3.0.
2. Complete all required workshops.

School Counseling - MEd

Program Coordinator

Tamara Buckley
(212) 772-4758
1116 West
tamara.buckley@hunter.cuny.edu

The School Counseling Program (Academic Plan: GSC-MSED) prepares graduates for careers in a variety of school settings, including elementary schools, middle schools, high schools and colleges. School counselors can also be employed by organizations that are not primarily educational, such as correctional facilities, hospitals, and a wide variety of community-based organizations. Students in this program may apply individually for the NYS provisional certification in School Counseling at the completion of 30 credits and a school based practicum experience. Recommendation for permanent certification is made after graduation. School counseling students fluent in Spanish and English have the option of obtaining NYS certification in Bilingual Education Extension for Pupil Personnel Services in addition to the School Counselor certification.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.
6. Relevant work and/or volunteer experience is highly recommended.

Progress Standards

1. Students must maintain a 3.0 GPA to remain in the program and must complete a minimum of 51 credits of course work to graduate.
2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.
3. Active participation in small group seminars and community and professional activities is required.
4. A student receiving a grade below B including WU in any of the following courses cannot continue in the programs. COCO 70100, COCO 70600, COCO 71800, COCO 71900, COCO 72500, COCO 72600 .
5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.
6. Seven courses – COCO 70100, COCO 70600, COCO 70700 , COCO 71900, COCO 72500, COCO 72600 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

Hours 45
Credits 3

COUNS 72200 - School Based Consultation

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

prereq or coreq: COCO 72500
Hours 45
Credits 3

Optional: Bilingual (Spanish/English) Extension In Pupil Personnel Services

6 additional credits

Students in the School Counselor Program at Hunter College may obtain a Bilingual (Spanish/English) Extension in Pupil Personnel Services. Students who elect to take this option will be evaluated for written and oral proficiency in both Spanish and English. Students who are determined to be bilingually proficient will take the following two courses in addition to the Counseling Programs Sequence of Courses:

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Complete the Dignity for All Students Act (DASA) workshop.

Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special school, special classes, resource rooms, pre-schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter have been nationally recognized by the Council for Exceptional Children.

Completion of any one of Hunter's for the master's degree in special education leads to New York State teacher certification. Hunter's specializations are:

- childhood special education: learning disabilities
- childhood special education: behavior disorders
- childhood special education with an annotation in severe/multiple disabilities (including deafblindness)
- early childhood special education
- early childhood with an annotation in severe/multiple disabilities (including deafblindness)
- deaf and hard-of-hearing

- blind and visually impaired

Students who enter the programs with no previous certification and subsequently complete the master's degree will meet the education requirements for New York State initial and professional certification in either childhood special education or early childhood special education and either childhood general education or early childhood general education. Students without prior teacher certification enter the Program 1 track.

Students who enter the childhood special education program with initial certification in grades 1-6 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in childhood/elementary education as well as for professional certification in childhood special education grades 1-6. Students with prior childhood certification enter the program 2 track.

Similarly, students who enter the early childhood special education program with initial certification in early childhood Birth to Grade 2 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in early childhood education as well as for professional certification in early childhood special education Birth to Grade 2. Students who hold early childhood certification enter the Program 2 track in early childhood special education.

The early childhood master's programs are designed for students whose primary interest is in teaching children from infancy through kindergarten. While students in the early childhood special education programs will also be prepared to teach grades 1 and 2, applicants whose primary interest is in these grades should apply to the childhood special education program, which encompasses grades 1-6.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a range of education settings; specializations provide in-depth preparation for working with students within a particularly disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.

Special Education: Severe and Multiple Disabilities Annotation Extension - Advanced Certificate

Program Coordinator

Ellen Trief

921 West Building
(212) 772-4110
etrief@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: SPEDSMD-AC) is designed to prepare NYS certified teachers to serve as teachers of students with severe and multiple disabilities, including those with deafblindness, in educational programs from birth to grade 12. Graduates of this program will be eligible for NYS annotation extension certification in Severe and Multiple Disabilities.

Admission Requirements

1. A master's degree in Special Education with a GPA of at least 3.5 in the degree that led to certification.
2. Initial, professional or permanent New York State certification in:
 - Early Childhood Special Education, Birth – Grade 2;
 - Students with Disabilities, Grades 1 – 6;
 - Students with Disabilities, Grades 7 - 12;
 - Blind and Visually Impaired;

- Deaf and Hard of Hearing; or
 - Teacher of Students with Speech and Language Disabilities PreK-12.
3. A personal statement that will be reviewed by a member of the department.

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
 2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
 3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
 4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
- NOTE: It is recommended that students with two or more INs take an official leave of absence.*

Course of Study

Academic Plan

SPEDSMD-AC

Total Credits

19

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum- based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience

Credits 3

- Or -

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 15 hrs of field experience

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000

Hours includes 10 hrs of field experience, 30 hrs

Credits 2 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

Hours (includes 10 hours of field experience),

Credits 3 cr

- Or -

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

Credits 3

- Or -

Elective in Special Education approved by Advisor

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,

Credits 2 cr

- Plus one of the courses below-

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus 20 days of student teaching,

Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus conferences,

Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hours seminar, plus conferences,

Credits 2 cr

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching.
3. Completion of the Dignity for All Students Act (DASA) workshop.
4. A valid and appropriate NYS certification.

TESOL Adult Track - MA

Program Coordinator

Virginia Tong

1012 West Building

(212) 772-4787

vtong@hunter.cuny.edu

The TESOL Adult Track (Academic Plan: TESOL-MA | Subplan TESOLADUNC) prepares students to teach adults in college, continuing education, literacy, business, private, and other community, academic and professional programs in the United States or abroad. It does not prepare teachers for New York State certification to teach in the public schools.

Links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter.

Admission Requirements

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language.
3. Two letters of recommendation.
4. A personal statement.
5. On-site oral interview and writing sample may be required.

Progress Standards

1. Maintain an overall GPA of at least 3.0 in order to continue the program.
 2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
 3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.
 4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses
- NOTE: It is recommended that students with two or more INs take an official leave of absence.*

Fieldwork Benchmarks

EDESL 77900 and EDESL 77800 must be passed with at least a B.

Course of Study

Academic Plan

TESOL-MA

Subplan

TESOLADUNC

Total Credits

36

EDESL 77000 - Content and Curriculum & Materials in Adult TESOL

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

prereq or coreq: pre- or coreq: EDESL 79600 or permission of TESOL adviser

Hours includes 10 hrs of fieldwork in Adult ESL classrooms

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610

Credits 4

10 hours of field experience.

EDESL 79630 - Methodology of Teaching English to Speakers of Other Languages

Hours 25 hrs fieldwork

Credits 4 cr.

EDESL 79800 - Student Teaching in Academic ESL

Hours 60 hrs fieldwork.

Credits 2

EDESL 79900 - Adult Fieldwork / Practicum

Hours 60 hrs fieldwork.

Credits 2 cr.

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork

Credits 4

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference of the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

5 hours of field work.

- At least two of the following (8 credits) -

EDESL 77600 - Language Assessment in Adult TESOL

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

prereq: EDESL 79600, LING 70200, EDESL 77000; coreqs: EDESL 77800, 77900, or permission of TESOL adviser

Hours includes 10 hrs of fieldwork in Adult ESL classrooms

Credits 4

EDESL 77800 - Teaching Oral Language Skills in Adult TESOL

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students' skills in these areas. For students in Program 3.

prereq: EDESL 79600

prereq or coreq: pre- or coreq: EDESL 77000

Credits 4

EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.

prereq: prereq: EDESL 79600

prereq or coreq: pre- or coreqs: EDESL 7700 or EDESL 78700 or EDESL 77500

Credits 4

Electives

- 4 credits from among (but not limited to) the following courses -

EDESL 70100 - Selected Topics in TESOL

EDESL 701-704 Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 1

EDESL 70200 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 2

EDESL 70300 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 3

EDESL 70400 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 4

EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser
Credits 4

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

Hours 45 hrs,
Credits 3 cr

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. Electronic Portfolio Evaluation or a master's essay (EDES 76000); the master's essay course may be used to fulfill the program elective requirement.

TESOL Pre-K-12: NYS Certification - Advanced Certificate

Program Coordinator

Laura Baecher

1103 West Building

(212) 772-4747

lbaecher@hunter.cuny.edu

The TESOL post-masters, advanced certificate programs are designed to educate people who wish to teach students for whom English is a second or foreign language – either children or adolescents. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the programs in TESOL which also lead to certification in ESOL PreK-12.

Program 1 (Academic Plan: TESOL-AC) is for those with a master's or doctoral degree in TESOL, Linguistics or Applied Linguistics with no prior NYS certification.

Program 2 (Academic Plan: TESFESL-AC) is for those with a master's degree and prior NYS certification.

Admission Requirements

Program 1

For applicants who do not hold NYS certification

1. A master's degree or doctoral degree from an accredited institution in TESOL, Linguistics, or Applied Linguistics, including specific coursework (of at least 3 credits each) in TESOL Methodology, Introduction to Linguistics, Analysis and Structure of English, Theories of Second Language Acquisition, and Sociolinguistics or Pragmatics. Any applicant lacking up to 8 credits of these pre-requisite content courses or fieldwork hours may be accepted into the program on the condition that they complete these credits before they begin their Student Teaching or Practicum requirement in the program.
2. Undergraduate GPA of at least 3.0 from an accredited bachelor's degree program; or a graduate GPA of at least 3.5 from an accredited master's or doctoral degree program in TESOL, Applied Linguistics, or Linguistics.
3. A liberal arts or sciences major of at least 30 credits.
4. A general education core in liberal arts and sciences to include: 12 credits of foreign language documented on a transcript or equivalent credits as demonstrated through a standardized proficiency test like the College Level Examination Program (CLEP); 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography); 3 credits in the arts; and 12 credits in math, science and technology (a college course in calculus satisfies 6 credits of this requirement).
5. An on-site oral interview and an on-site writing sample may be required.
6. Two professional references.
7. A personal statement, explaining why the applicant is interested in obtaining PreK-12 certification in TESOL.
8. Submission of official score report on the Graduate Record Examination (GRE).

Program 2

For students with prior NYS certification

1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. College coursework in Linguistics and English Grammar.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 12 credits in a language other than English at the college level, 6 credits in social studies (with at least one course in U.S. history or U.S. geography), and 12 credits in ath/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references.
5. A personal statement.
6. An on-site oral interview and an on-site writing sample may be required.
7. NYS initial certification in one of the following areas: early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy.
8. Submission of official score report on the Graduate Record Examination (GRE).

Prerequisite Courses

For Program 1 students only

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610

Credits 4

10 hours of field experience.

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications to the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

5 hours of field work.

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plans

- Program 1: TESOL-AC
- Program 2: TESFESL-AC

Total Credits

TESOL-AC: 17-29

TESFESL-AC: 17

Program 1

Program 1 (Academic Plan: TESOL-AC)

For students who do not hold NYS certification

CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

Hours includes 10 hrs of fieldwork

Credits 4

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work

Credits 4

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in **Program 1** and **Program 2**.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

includes 10 hrs fieldwork

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610

Hours includes 20 hrs fieldwork in K-12 classrooms

Credits 4

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: EDESL 79600/79610 and LING 70200 or permission of TESOL adviser

Hours includes 10 hrs fieldwork

Credits 4

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

Credits 4 cr.

includes 30 hours fieldwork

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- And -

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs seminar plus student teaching and conference

Credits 2
this is a year-long course
- Or -

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs seminar plus student teaching and conference

Credits 2

this is a year-long course

Note: Up to 12 credits of the required coursework above may be exempted if the teacher candidate has taken equivalent coursework and done fieldwork previously, in which case the minimum number of required credits would be 17.

Program 2

Program 2 (Academic Plan: TESFESL-AC)

For students with who hold NYS certification

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

Hours 45 hrs

Credits 3

Required for students in Program Two and Program Three (Adult Program).

EDESL 78700 - TESOL for Children: Pre-K–12

Applications of methods, techniques, and approaches for teaching English as a second/foreign language to children. Intensive treatment coverage of classroom management and the setting and exploitation of learning environments.

prereq: LING 70100, EDESL 78300 or permission of TESOL adviser

Hours Includes 25 hrs fieldwork

A field experience is a part of this course. Required of students in both Pre-K–12 Programs One and Two.

EDESL 79100 - Language Assessment in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

prereq: LING 70100 or BILED 77100

prereq or coreq: EDESL 70500 or permission of TESOL adviser

Hours 45 hrs,

Credits 3 cr

Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79200 - Second Language Literacy: Reading and Writing, Pre-K–12

An in-depth treatment of theory and practice in the teaching of literacy skills, specifically reading and writing, to English language learners in the public schools.

prereq: LING 70100, EDESL 70500 or permission of TESOL adviser; EDC 70400

Hours 45 hrs,

Credits 3 cr

Required of students in both Pre- K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs seminar plus student teaching and conference

Credits 2

this is a year-long course

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. A grade of B or better on fieldwork/clinical teaching courses.
4. Complete the Dignity for All Students Act (DASA) workshop.

TESOL PreK-12 - MA

Program Coordinator

Laura Baecher

1103 West Building

(212) 772-4747

lbaecher@hunter.cuny.edu

The TESOL PreK-12 program (Academic Plan: TESOL-MA) is designed to educate people who wish to teach students for whom English is a second or foreign language in a school setting. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the programs in TESOL.

In these programs, links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter. All fieldwork experience must be done in New York City public schools.

TESOL-MA has two tracks (or subplans). Track 1 (Subplan: TESOLLNYS) is for applicants with no prior NYS certificate. Track 2 (Subplan: TESOLANYSC) is for applicants who have prior NYS certificate.

Admission Requirements

Track 1

Applicants who do not hold NYS Certification

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include: 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language; 9 credits in communication and English with at least one course in written analysis and expression and one course in English literature; 9 credits in science and mathematics, with at least one course in math one course in science (a college course in calculus satisfies 6 credits of this requirement); 6 credits in social studies (to include at least one course in history or geography); 3 credits in the arts; 3 credits in information retrieval (library studies, research, computer literacy or educational technology).
4. An on-site oral interview and writing sample may be required.
5. Two letters of recommendation.
6. A personal statement.

Track 2

Applicants who hold NYS Certification

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language .
3. NYS teacher certification in subject areas other than TESOL (specifically early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy).
4. An on-site oral interview and writing sample may be required.
5. Two letters of recommendation.

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plan

TESOL-MA

Subplans

- Track 1: TESOLLNYSC
- Track 2: TESOLANYSC

Total Credits

- **TESOLLNYSC: 33-45**
- **TESOLANYSC: 25-37**

Courses for Track 1

Track 1 (Subplan: TESOLLNYSC)

CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current

educational policies and practices of educating English language learners. Required for TESOL Program 1.

Hours includes 10 hrs of fieldwork

Credits 4

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work

Credits 4

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in **Program 1** and **Program 2**.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

includes 10 hrs fieldwork

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610

Hours includes 20 hrs fieldwork in K-12 classrooms

Credits 4

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: EDESL 79600/79610 and LING 70200 or permission of TESOL adviser

Hours includes 10 hrs fieldwork

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610

Credits 4

10 hours of field experience.

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

Credits 4 cr.

includes 30 hours fieldwork

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork

Credits 4

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference of the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

5 hours of field work.

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Plus two of either courses -

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs seminar plus student teaching and conference

Credits 2

this is a year-long course

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs seminar plus student teaching and conference

Credits 2

this is a year-long course

- And one of the following -

EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser

Credits 4

- Or -

- **Electronic Portfolio Evaluation**

Courses for Track 2

Track 2 (Subplan: TESOLANYSC)

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork

Credits 4

20 hours fieldwork

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in **Program 1** and **Program 2**.

prereq: completion of 24 credits or permission of TESOL adviser

Credits 4

- Or -

- **Electronic Portfolio Evaluation**

Note(s)

Students may be exempted from up to eight credits if they have taken equivalent course work elsewhere. Taking EDESL 760 MA Essay adds 4 credits to total credits in degree.

*Student Teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.

**Practicum Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.

Exit Requirements

1. An overall GPA of 3.0.
2. Track 2 students only: Must maintain a valid and appropriate NYS certification.
3. Demonstrate graduate-level academic oral and written communication skills in their coursework, and the ability to serve as appropriate models of the English language for their future students.
4. Electronic Portfolio Evaluation or successful completion of a master's essay (EDESL 76000).
5. Complete the Dignity for All Students Act (DASA) workshop.

Theatre Education PreK-12 - MA

Education Adviser

Jeanne Weiler

(212) 650-3459

1115 West

jweiler@hunter.cuny.edu

The School of Education offers two master's degree programs for NYS certification for theatre teachers. These programs focus on practical approaches to the teaching of theatre education, while also providing graduate coursework in the foundations of education and in general education curriculum and content in grades PreK-12. Both programs leads to NYS certification in Theatre PreK-12.

Program 1 (Academic Plan: THEAED-MA) is for those with no prior NYS certification.

Program 2 (Academic Plan: THEDPC-MA) is for those with prior NYS certification.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major in theatre and 6 credits of English literature.
3. A liberal arts distribution to include the following: a minimum of 6 credits of English; 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement); 6 credits in political science, history, economics, or geography (with at least one course in history or geography); and 12 credits in math/science/technology (a college course in calculus meets this requirement).
4. Graduate Record Examination (GRE).
5. Two professional references.
6. A personal statement describing the applicant's past experiences in theatre and why the applicant is interested in pursuing an MA in Theatre Education.
7. Submission of official score report on the Graduate Record Examination (GRE).
8. **Program 2 Applicants Only:** NYS teaching certificate.

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plans

- **Program 1: THEAED-MA**
- **Program 2: THEDPC-MA**

Total Credits

- **THEAED-MA: 49-50**
- **THEDPC-MA: 32**

Courses for Programs 1 and 2

THC 70200 - History of Theatrical Theory

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,
Credits 3*

THC 72500 - Special Topics

Studies in specialized areas of theatre.

*Hours 30 hrs, including conferences,
Credits 3 cr
May be repeated for credit.*

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 75500 - Visual Elements of Theatre I

Study and practice of director's and playwright's conceptual approach to visual requirements of plays.

*Hours 30 hrs, including conferences,
Credits 3 cr*

THC 76000 - Studies in Theatre History and Production

Intensive study of history and theory of one of the component arts of theatre. Subjects announced in advance.

Hours 30 hrs, including conferences,

Credits 3 cr
May be repeated for credit.

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 79100 - Advanced Directing and Rehearsal

Study of problems in play direction, with practice in presentation of scenes and plays.

Hours 45 hrs,
Credits 3 cr

THC 79300 - Playwriting I

Study of techniques of playwriting based on student's own work with special emphasis on scenes and one-act form.

Hours 45 hrs,
Credits 3 cr

- Plus (new courses) -

- **THC 77600 - Creative Dramatics, Methods I** (3 credits)
- **THC 77700 - Theatre for Youth, Methods II** (3 credits)
- **THCED 78000 - Student Teaching** (5 credits)
- Or -
- **THCED 78100 - Practicum in Theatre** (2 credits) taken twice

Additional Courses for Program 1

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work
Credits 4

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
Credits 1 cr*

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework*

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Exit Requirements

1. An overall GPA of 3.0
2. Pass a comprehensive examination administered by the Theatre department.
3. Complete the Dignity for All Students Act (DASA) workshop.
4. Program 2 students must maintain valid and appropriate NYS certification.

The School of Education offers two master's degree programs for NYS certification for visual arts teachers. These programs focus on practical approaches to the teaching of visual arts education, while also providing graduate coursework in the foundations of education and in general education curriculum and content in grades PreK-12. Both programs leads to NYS certification in Visual Arts PreK-12.

Program 1 (Academic Plan: VSARTED-MA) is for those with no prior NYS certification.

Program 2 (Academic Plan: VAEDPC-MA) is for those with prior NYS certification.

Admissions Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.5 and a major in visual arts. For applicants with an MFA or other graduate degree, a GPA of at least 3.5.
2. A liberal arts distribution to include the following: a minimum of 6 credits of English; 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement); 6 credits in political science, history, economics, or geography (with at least one course in history or geography); and 12 credits in math/science/technology (a college course in calculus meets this requirement).

3. 9 credits of art history
4. 24 credits in studio art
5. Two professional references.
6. A personal statement.
7. A digital portfolio of 20 examples of artistic works is submitted as part of the application
8. An interview by faculty for qualified applicants.
9. Submission of official score report on the Graduate Record Examination (GRE).
10. **Program 2 Applicants Only:** NYS teaching certificate.

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plans

- **Program 1:** VSARTED-MA
- **Program 2:** VAEDPC-MA

Total Credits

VSARTED-MA: 44

VAEDPC-MA: 30-31

Program 1

Program 1 (Academic Plan: VSARTED-MA)

For students with no prior NYS certification

ARTH 62100 - Modern Art I

Origins and history of modern art in 19th century.

Hours 45

Credits 3

ARTH 73400 - Theory and Criticism of Art

Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

ARTH 78000 - Special Topics in Art

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

ARTCR 75100 - Special Topics in Studio Art

Special projects in photography, ceramics, color theory, three-dimensional form theory, collage, time-based media and related topics. Topics offered vary from semester to semester.

Hours 4

Credits 3

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work

Credits 4

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
Credits 1 cr*

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit*

course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Program 2

Program 2 (Academic Plan: VAEDPC-MA)

For students with prior NYS certification

ARTH 62100 - Modern Art I

Origins and history of modern art in 19th century.

Hours 45

Credits 3

ARTH 73400 - Theory and Criticism of Art

Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

ARTH 78000 - Special Topics in Art

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

ARTCR 75100 - Special Topics in Studio Art

Special projects in photography, ceramics, color theory, three-dimensional form theory, collage, time-based media and related topics. Topics offered vary from semester to semester.

Hours 4

Credits 3

- Plus -

- **Electives in ARTH or ARTCR**

ARTED 71000 - Methods for Childhood Art Education - Grades PreK-6

Introduction to pedagogical methods and practices that support productive teaching and learning in the arts for grades preK-6.

prereq or coreq: SEDF 70300 and SEDF 70400

Hours 3 hrs

Credits 3 cr.

ARTED 71100 - Methods of Teaching the Visual Arts

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for the adolescent. It emphasizes adolescent aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades 7-12.

prereq: ARTED 71000 and SEDF 70500

Hours 3 hrs

Credits 3 cr.

- Plus -

ARTED 71200 - Student Teaching in the Visual Arts Grades Pre-K-12

Teacher candidates complete a total of 60 days of student teaching Monday through Friday (30 days of student teaching at grades pre-K-6 and 30 days at grades 7-12) under the supervision of a Hunter College faculty member and a certified Art Educator in a New York City school selected by the college.

prereq: ARTED 71000 and ARTED 71100 plus 6 credits in ARTH and ARTCR

Hours 5 hrs

Credits 2 cr.

- Or -

- **ARTED 713.10 Practicum in the Visual Arts PreK-6 (2 credits)**

- And -

- **ARTED 713.20 Practicum in the Visual Arts Grades 7-12 (2 credits)**

Exit Requirements

1. An overall GPA of 3.0
2. Students must complete the Dignity for All Students Act (anti-bullying) workshop.
3. Students will develop a professional teaching portfolio that is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to integrate their artistic development with their growth and development as arts educators. Teacher candidates will be expected to connect these elements through critical reflection. Students will work with their instructors throughout their course of study on the portfolio. Students will arrange for a presentation and final review of their work during the last semester of the program.
4. Program 2 students must maintain valid and appropriate NYS certification.

Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSED

Program Coordinator

Rosanne K. Silberman (on leave)

(212) 772-4740

916 West

rsilberm@hunter.cuny.edu

Program Advisor

Grace Ambrose

(212) 772-4741

1140 West

gambrose@hunter.cuny.edu

This master's degree program (Academic Plan: REHOM-MSED) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments combined with the Orientation and Mobility sequence to prepare orientation and mobility specialists. This program prepares candidates for national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals as vision rehabilitation therapists (VRTs) and certified orientation and mobility specialists (COMS). This program does not lead to NYS teacher certification.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0, plus teacher of the blind and visually impaired teaching certificate.
OR
A master's degree with a GPA of at least 3.5.
2. Evidence of acceptable written languages skills.
3. Three letters of recommendation.
4. Evidence of work, volunteer or personal experience with individuals with visual impairments.
5. An interview with a special education faculty member.

Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students are required to attain a minimum grade of B in the internship courses (SPED 763 and 764). Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once.
5. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence.
6. Any student who receives an F will not be allowed to continue.
7. Students must complete all required days and hours for each of the internship courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

Course of Study

Academic Plan

REHOM-MSED

Total Credits

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

Credits 3

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000

Hours Includes 10 hrs of field experience

Credits 3

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100

Hours Includes 10 hrs of field experience

Credits 3

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300

Hours 45 hrs,

Credits 3 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100

Hours includes 10 hrs of field experience

Credits 3 cr

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100

Hours Includes 10 hrs field experience

Credits 3

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000

Hours includes 10 hrs field experience

Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100

*Hours 45 hrs,
Credits 3 cr*

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

*prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr*

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

*prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr*

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

*prereq or coreq: SPED 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr.*

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

*prereq or coreq: SPED 76500, 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr*

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq or coreq: SPED 76500, 76600, 76800, 76900

Hours 30 hrs seminar, plus conferences plus 340 hours of internship,

Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

prereq or coreq: permission of adviser

Hours 3 hrs

Credits 3 cr.

Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

prereq: SPED 76800

Hours 3 hrs

Credits 3 cr.

Two week summer course.

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs

Credits 3

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs
Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs
Credits 3

Exit Standards

An overall GPA of 3.0.

Department of Curriculum and Teaching

About the Department

Welcome to the Department of Curriculum and Teaching at Hunter College, the home of a wide variety of graduate and undergraduate programs that will prepare you for one of the highest callings in society: education. Along with the other departments in the School of Education, we carry on the original mission of Hunter College: the preparation of educators.

As part of the largest department in the Hunter College School of Education, Curriculum & Teaching programs prepare teachers and other school personnel in the areas of Childhood Education (elementary), Adolescent Education (secondary), Early Childhood Education, Literacy, Bilingual Education, Teaching English to Speakers of Other Languages (TESOL–K-12 and Adult), and Administration & Supervision. Our primary mission is to prepare teachers for any classroom environment, although we are particularly committed to preparing teachers for the challenges of public education in an urban setting.

The Department of Curriculum and Teaching houses the majority of the programs and courses in the Hunter College School of Education, working closely with departments in the School of Arts & Sciences to train teachers in content area knowledge, and in the methods of teaching such subject areas as English/Language Arts, Social Studies, Foreign Languages, Music, ESL, Bilingual Education, Math, and Science. Its programs ask future teachers and administrators to be thoughtful and knowledgeable educators, advocates for children and other learners, active promoters of social justice, knowledgeable resources, and effective future leaders in education.

Department of Educational Foundations

About the Department

The Department of Educational Foundations & Counseling Programs prepares students to enter the teaching and counseling professions, eventually to obtain the appropriate certification(s), which will help them establish, improve and maintain themselves within these professions.

Departmental courses are the basis of training in education and human services. The Department of Educational Foundations includes the disciplines of psychology, sociology, anthropology, history and philosophy. Research in these areas, when applied to education and counseling, provides the foundation for understanding individuals in the learning and counseling process and the social psychological context in which personal development and learning occur. In addition, the study of the history and the philosophic foundations of American education and counseling is essential for enabling future teachers and counselors to meet the ever-changing intellectual and social needs of a diverse body of individuals in a pluralistic, democratic society.

Departmental course offerings are offered in three distinct areas: psychological foundations; social foundations and counseling. All courses are anchored in theory and research-based knowledge from which we emphasize applications to the urban environment, the applied use of theory to influence policy and practice, and solutions to concrete and practical problems that school and counseling professionals experience in daily practice.

The department's preparation of teachers and counselors goes beyond the acquisition of specific skills and methods. The focus of the department is on the professional identity and development of students so that they understand and seek to influence the social, political and economic context in which they function.

Department of Special Education

About the Department

Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special schools, special classes/inclusive classrooms, resource rooms, pre-self-contained classrooms, special schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter College have been nationally recognized by the Council for Exceptional Children.

The School of Education offers master's degree and advanced certificate programs in special education that lead to New York State teacher certification. Specializations in special education include: early childhood special education; early childhood special education with an annotation in severe/multiple disabilities (including deafblindness); childhood special education, learning disabilities; childhood special education, behavior disorders; childhood special education with an annotation in severe/multiple disabilities (including deafblindness); deaf and hard-of-hearing; blind and visually impaired; and adolescent special education generalist.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a variety of disabilities to be applied across a range of education settings. Specializations provide in-depth preparation for working with students within a particular disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.

School of Education: Accreditation

The School of Education teacher preparation programs are accredited by the Council for Accreditation of Educator Preparation (CAEP) - formerly the National Council for Accreditation of Teacher Education (NCATE) – and approved by the New York State Department of Education (NYSED). Additionally, each major is accredited by its respective Specialized Professional Association (SPA).

The School Counseling Program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Rehabilitation Counseling is accredited by the Council on Rehabilitation Education (CORE).

School of Education: Admission General Information

Admission to our professional programs at the School of Education is based on evaluation of an applicant's promise for success as a graduate student and demonstrated commitment to the field of education. Applications are also evaluated on the basis of undergraduate (and any prior graduate) preparation and expressed focus in a particular area of education.

In general, those admitted have completed a bachelor's degree at a regionally accredited institution and are expected to present a grade point average (GPA) of 3.0 or better in undergraduate studies and 3.5 or better in graduate studies.

School of Education: Application Checklist

The following materials are required to complete an application:

- Statement of Purpose (approximately 500 words)
- Transcripts from each school attended (scanned and uploaded to the online application)
- Two letters of recommendation (if a student has been out of school for some time, professional references are acceptable)
- Official standardized test scores
- \$125 application fee paid by credit card or

School of Education: Application Deadlines

Fall Admission Deadlines

- **February 1st:** Instructional Leadership (Ed.D.), School Counseling, Mental Health Counseling and all International Students (who have completed more than 60 credits outside of the U.S.)
- **February 15th:** Dance Education
- **March 15th:** All other programs

Spring Admission Deadlines

- **September 1st:** International Students
- **October 15th:** All programs
- **NOTE:** The following programs do not accept Spring applications: Instructional Leadership (Ed.D.), School Counseling, Mental Health Counseling, Educational Psychology, Dance Education, and Childhood Education with STEM Specialization).

School of Education: Course Equivalency, Transfer Credit, Permit Credit

Return to the School of Education

Course Equivalency

Students who have taken graduate-level courses at another college may, with written approval, apply those courses to their program in two ways: "Transfer of Credit" or "Permit Credit."

Transfer Credit

Graduate courses taken prior to matriculation are considered "Transfer of Credit."

The following limitations apply:

1. No more than a total of 12 credits will be allowed for courses completed at other colleges, for courses taken on permit, or for Hunter College courses taken prior to matriculation.
2. Courses for which transfer and approval of credit are sought must have been completed within five years preceding the anticipated date of graduation.
3. Application for transfer and approval of course credits taken prior to matriculation may be made after registering for the first semester of matriculation.
4. Transfer of credit can only be granted for courses with grades of B or better.

Permit Credit

Graduate courses taken at other colleges or universities after matriculation are considered "Permit" credit. Students planning to take courses "on permit" at other colleges or universities during the period of matriculation must request and receive permission prior to taking the course. The student should obtain the appropriate form in Room 1000 West Building; attach course descriptions and obtain appropriate signatures from the department office; and return the completed form to Room 1000 West Building.

School of Education: Degree Requirements

[Return to School of Education](#)

Master's program requirements vary according to students' qualifications and the requirements of the specific program. Students must achieve a GPA of at least 3.0 in both graduate courses and undergraduate courses needed to satisfy admission conditions. Students should not expect to complete the master's degree requirements by attending full-time, although this may be possible in some cases.

Candidates should consult their program coordinator or advisor about exit requirements of their program at least one year in advance of the expected date of graduation.

School of Education: Graduation and New York State Certification

[Return to the School of Education](#)

Graduation

All potential graduates must apply for graduation within the first three weeks of the semester in which they plan to graduate. Degree audit is now processed on-line through myHunter accounts. Students may start their early audit review in their penultimate semester. Log in to your myHunter page to view your personalized graduation checklist.

New York State Certification

The graduate education programs described below (unless otherwise indicated) have been approved by the New York State Education Department to lead to initial and professional certification for teaching in New York State. To be recommended for certification the student must complete the approved program of study, and file an on-line application

for certification. Instructions for applying for certification are available in the Office of Educational Services and on the School of Education website.

Students must pass the required New York State Teacher Certification Examinations (NYSTCE) in order to be granted certification by the State. For an initial certificate, the State of New York requires the applicant to pass three examinations: the Academic Literacy Skills Test (ALST), the Educating All Students Test (EAS), the appropriate Content Specialty Test (CST) and the teacher performance assessment (edTPA) for their certificate.

Students must officially graduate from one of our approved preparation programs in order to receive a recommendation for NYS Teacher Certification.

New York State certification is reciprocally accepted by many other states upon application, although other states do not accept the NYSTCE. Students with questions about certification should contact the Office of Educational Services at tcert@hunter.cuny.edu.

School of Education: How to Apply

The Hunter College School of Education offers admission twice a year for most programs, in Fall and Spring. However, the following programs offer admission only in the Fall: Instructional Leadership, School Counseling, Mental Health Counseling, Educational Psychology, Dance Education, and Childhood Education with STEM Specialization.

Online Application: Hunter's graduate application is available online at:
hunter.cuny.edu/graduateadmissions/applying

Math Center

Hunter College established the Mathematics Center for Learning and Teaching to help promote the mathematics competency of PreKindergarten through grade twelve children. Working with teachers and principals, parent coordinators and math coaches, the Center provides professional development on math learning to schools throughout New York City and State, bringing the expertise of the School of Education into numerous math classrooms around the state.

School of Education: Open Houses

The School of Education holds Open Houses for Prospective Graduate Students in February and October. These events are held in the West Building at 68th Street and Lexington Avenue and are open to the public. Those attending have the opportunity to meet with faculty and alumni, see the campus, and get additional information about admission to specific programs.

School of Education: Partnership Programs

Return to the School of Education

The Office of Partnership Programs manages all of the alternative certification and partnership programs within the School of Education and supports students in these non-traditional programs. Working in partnership with a variety of local and national organizations, we offer special programs in a wide range of teacher certification areas and school

leadership certification. Our special programs offer participants the opportunity to gain hands-on experience in schools while enrolled in graduate coursework at Hunter College and many provide subsidized tuition.

Collaborative Leadership Advancing School Success. The Collaborative Leadership Advancing School Success (CLASS) program, offered in partnership with New Visions for Public Schools, is a unique school leadership certification program grounded in clinical experiences designed to illuminate the relationship between student learning and systems within a school. **East Harlem Teaching Residency** The East Harlem Teaching Residency, a partnership between the East Harlem Tutorial Program (EHTP) and Hunter College School of Education, is a highly selective teacher-training program that develops, supports and certifies aspiring educators to become elementary teachers in New York.

Lincoln Center Scholars/Hunter College Alternative Certification Preparation Program for Creative Arts Education. The Lincoln Center Scholars/Hunter College Alternative Certification Preparation Program for Creative Arts Education, a partnership between Lincoln Center Education and the Hunter College School of Education, provides carefully selected artists with graduate coursework, certification support, and assistance with finding jobs as certified arts teachers in New York City Schools.

Math and Science Teacher Education Residency The Math and Science Teacher Education Residency (MASTER) program is a two-year teacher-preparation program for prospective math and science teachers that integrates graduate coursework with intensive, hands-on experiences in New York City schools. MASTER is a partnership between Hunter College, New Visions for Public Schools, the New York Hall of Science and the New York City Department of Education.

New York City Teaching Fellows. The New York City Teaching Fellows (NYCTF) is a collaborative program among the NYC Department of Education, CUNY, SUNY, and certain private universities in New York City. Currently as a partner university, Hunter College hosts candidates in Special Education, TESOL, and Bilingual Education. **Subsidized Bilingual Extension Program** The Subsidized Bilingual Extension Program (SBEP) is a partnership with the NYDOE which offers currently certified content and classroom teachers the opportunity to gain a bilingual extension for their current New York State certification.

Teach for America. Teach for America (TFA) is a national alternative certification teacher preparation program with corps members teaching full time in public and charter schools while studying at partner universities and participating in continuous supervision and professional development. As a partner university, Hunter College hosts candidates in Special Education and Bilingual Education.

TESOL Intensive Teacher Institute. The Hunter College TESOL Intensive Teacher Institute (ITI) offers currently certified content and classroom teachers the opportunity to gain additional NYS certification in PreK-12 English as a Second Language (ESL). In addition to coursework, candidates receive specialized mentoring and coaching feedback to support ELL academic language development across the content areas.

Urban Teacher Residency. The Urban Teacher Residency (UTR) program is a two-year teacher-preparation program that integrates the graduate coursework of the aspiring teacher with intensive, hands-on experiences in New York City schools. UTR is a partnership between Hunter College, New Visions for Public Schools and the New York City Department of Education.

School of Education: Progress Standards & Student Teaching, Field Experiences and Practica

[Return to the School of Education](#)

Progress Standards

Students at Hunter College must maintain a cumulative GPA of 3.0. A student whose cumulative GPA falls below 3.0 at the end of any semester will be placed on probation. If the student fails to raise his/her cumulative GPA to 3.0 after one semester on probation, the student will be debarred and will not be allowed to continue at Hunter College.

All matriculated students in programs that lead to New York State Certification and who do not have prior NYS teacher certification must submit their scores on the Academic Literacy Skills Test (ALST) of the New York State Teacher Certification Examination (NYSTCE) within completion of 12 credits of study. Any student who fails the ALST may be required to enroll in a reading/writing course before being permitted to register for any additional courses.

Student Teaching, Field Experiences and Practica

All teacher preparation, counseling, and school leadership programs require field experiences and student teaching or practica. Students must apply for student teaching in the fall semester if they have completed prerequisite courses and expect to student teach in the spring, and in the spring semester if they wish to student teach in the fall. In some programs student teaching is offered only once a year. Consultation with a program adviser is necessary in developing a program plan. All field experiences, practica, and student teaching take place in New York City schools. Applicants for admission and teacher candidates should be aware of this policy when planning their programs.

School of Education: Readmission

Students who have taken a leave of absence must submit an application for readmission to the Graduate Admissions Office. Students should apply for readmission in April for the fall semester and October for the spring semester (check the Admissions Office for deadlines). A student with a GPA below 3.0 must apply for special permission for readmission while on probation.

School of Education: Research and Training Centers in Teacher Education

A variety of programs in research and training in teacher education have attracted substantial support from federal, state and private sources. Projects currently in process include training in bilingual education, improvement of the teaching of secondary mathematics and science, educational technology, and preparation of rehabilitation counselors and teachers for children with disabilities. These projects afford graduate students an opportunity for advanced training or development of research skills.

Autism Research Policy and Practice (HARPP) Center. The HARPP Center works to support the needs of children in public and private New York City schools, as well as adults who have autism spectrum disorder, by training intervention professionals, conducting and disseminating research, and creating outreach programs that serve a cross section of individuals affected by autism spectrum disorder. The HARPP Center aims to formulate a comprehensive and dedicated effort to support this special and deserving population of NYC children, adults, and their families.

Center for Gifted Studies and Education. The mission of the Hunter College Center for Gifted Studies and Education is to foster the talent development of gifted & talented students, their families, and educators. Through graduate courses, outreach, research, professional development, and creating systems of intra- and inter-agency collaboration, HCCGE encourages and supports gifted learners.

The Learning Lab. This award-winning program has been the heart of the Learning Disabilities teacher education programs for over thirty years. As part of their clinical work, graduate students are assigned a child or youth who struggles in one or more aspects of learning, and tutors twice a week for an academic year, overseen by a supervisor. Over 200 children and youth from NYC's diverse communities are served annually in this program.

Literacy Space. This reading lab of the Graduate Program in Literacy Education was created as a site for our practicum courses in literacy assessment and intervention. Literacy Space serves, free of charge, elementary and middle school struggling readers and writers, who are recommended to us by the local public and private schools. These children are paired with our graduate students, who are certified teachers, to begin a year-long or semester-long one-to-one intervention program. Professor Nadine Bryce serves as the coordinator of Literacy Space.

Math Center. Hunter College established the Mathematics Center for Learning and Teaching to help promote the mathematics competency of PreKindergarten through grade twelve children. Working with teachers and principals, parent coordinators and math coaches, the Center provides professional development on math learning to schools throughout New York City and State, bringing the expertise of the School of Education into numerous math classrooms around the state.

Frankfurt Video Analysis of Teaching and Counseling (VAT/VAC). The Frankfurt Video Analysis project of pre-certification teachers and counselors was initiated in 2007 and has since become a requirement for every degree and certificate candidate at the Hunter College School of Education. This innovative database has been improving professional development and teacher preparation via embedded rubrics and observation tools. The corresponding library of best practices and teachable moments is one of the nation's first archive of indexed student-teaching videos. The VAT/VAC was lauded by the NCTQ in their 2014 rankings of educational programs as a resource that comprises, "promising or exemplary materials from teacher preparation programs."

School of Education: Standardized Tests

In accordance with New York State law, most School of Education programs excluding Counseling and Educational Psychology require the GRE for admission. Applicants to Foreign Language programs (Chinese, French, Italian, Spanish) are required to take the Oral Proficiency Interview (OPI) from Language Testing International and achieve a minimum proficiency standard of Advanced Low.

International applicants whose education was completed in a country where English was not the native language must take the TOEFL and achieve the following minimum scores:

- 68 (less speaking component) on the IBT or
- 575 on the paper-administered test or
- 233 on the computer-administered test and
- A score of 22 or 4.5 on the IBT Writing Section (TWE)
- A score of 23 or 4.5 on the IBT Speaking Section (TSE).

School of Education: Walk-In Hours

Admissions Advisors are available during Walk-in Hours Monday through Wednesday from 12:00 p.m. - 2:00 p.m. and Thursdays from 12:00 p.m. – 5:30 p.m. in room 1000 of the West Building at 68th St. and Lexington Avenue. No appointment is necessary. Students can also contact Admissions Advisors via email at edadmissions@hunter.cuny.edu or phone at 212.772.4668. Admissions information is also available on our website: hunter.cuny.edu/education

Center for Communication Disorders

The Hunter College Center for Communication Disorders (Speech-Language-Hearing Clinic) is located at the Brookdale Health Sciences campus, 425 East 25 St., Room 133 North. The Center is an integral part of the Communication Sciences Program. The Center provides diagnostic and therapeutic services for a wide variety of language, speech, voice, fluency, swallowing, hearing, communication modality, and social communication disorders. Audiological services include complete audiological evaluations, auditory processing disorder testing, and auditory brainstem response assessment with state of the art instrumentation. Services are available to the Hunter College community as well as the general public. Appointments can be made by calling (212) 481-4464.

Academic Services for Faculty, Students and Staff

Hunter Health Professions Library (HPL)

The Hunter Health Professions Library (HPL) is located on the Brookdale Campus and is open 74 hours a week. HPL supports the curricular and research needs of the CUNY School of Public Health at Hunter College, Hunter-Bellevue School of Nursing and the Hunter School of Health Sciences. It also serves several research institutes at Brookdale, namely the Brookdale Center on Aging, the Center for Community and Urban Health, and the Center for Environmental & Occupational Health. The library has 26,500 volumes and 224 professional journals housed in its 10,000 sq./ft. In addition, full-text articles from over 50,000 journals are accessible via the library's electronic resources. The library provides seating for 212 (156 in the library and 56 computers).

The Health Professions Education Center (HPEC)

School of Health Professions: Tuition Assistance

Various forms of assistance, including traineeships, fellowships, and grants, are available to students in the Hunter-Bellevue School of Nursing and the School of Health Professions, both located at 425 East 25th Street, New York, NY 10010. For information, contact the schools directly.

Program and Courses in Speech-Language Pathology

Programs and Courses in Speech-Language Pathology and Audiology

PROGRAM OBJECTIVES

The primary objective of the Communication Sciences Program is to provide a broad theoretical background in human communication and its disorders that fulfill the academic and clinical requirements for the American

Speech-Language-Hearing Association (ASHA) professional certification (Certificate of Clinical Competence) and New York State licensure. The COMSC Master of Science (MS) degree program in Speech-Language Pathology (SLP) is accredited by the Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing Association. The course of study generally requires two years of full-time participation including summers.

Definition of a Speech-Language Pathologist

Speech-language pathologists (SLPs) are autonomous professionals who identify, assess, prevent, and manage communicative disorders as well as swallowing or other upper aerodigestive disorders. Speech-language pathologists seek to optimize the communicative abilities of individuals, across the lifespan. Speech-language pathologists provide services to individuals

in nine clinical areas: articulation and phonology, fluency and stuttering, voice and resonance, receptive and expressive language, swallowing, cognitive aspects of communication (e.g., executive functioning), hearing, social aspects of communication (e.g., communication opportunities, social skills), and communication modalities (i.e., oral, manual, augmentative and alternative communication; assistive technologies).

Center for Communication Disorders

The Hunter College Center for Communication Disorders (Speech-Language-Hearing Clinic) is located at the Brookdale Health Sciences campus, 425 East 25 St., Room 133 North. The Center is an integral part of the Communication Sciences Program. The Center provides diagnostic and therapeutic services for a wide variety of language, speech, voice, fluency, swallowing, hearing, communication modality, and social communication disorders. Audiological services include complete audiological evaluations, auditory processing disorder testing, and auditory brainstem response assessment with state of the art instrumentation. Services are available to the Hunter College community as well as the general public. Appointments can be made by calling (212) 481-4464.

Clinical Doctoral Program in Audiology (AuD)

The City University, through a joint program offered by Hunter College, Brooklyn College and the Graduate Center, offers a clinical doctoral program in audiology. For a description of the program, see the Bulletin of the Graduate Center or go to [http://www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Audiology-\(Au-D\)](http://www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Audiology-(Au-D))

Communication Sciences: Speech-Language Pathology - MS

The 68-credit Speech-Language Pathology (SLP) curriculum leading to an MS degree prepares individuals to become speech-language pathologists working in hospitals, rehabilitative centers, college or university clinics, health-care agencies, specialized clinical settings, or private practice and prepares students for professional practices in preschools, elementary and secondary schools, and early-intervention developmental centers. Successful completion of the SLP curriculum prepares students to meet the academic and clinical requirements for ASHA certification, New York State licensure, and recommendation for NY State certification as a teacher of students with speech and language disabilities (TSSLD). Additional requirements for certification following graduation include the completion of a clinical fellowship year and passage of PRAXIS examination in Speech Language Pathology. Students seeking TSSLD additionally must take the New York State Teacher Certification Examinations: LAST (Liberal Arts and Science Test) and Elementary (or Secondary) Assessment of Teaching Skills-Written (ATS-W) prior to graduation.

Admission Requirements

Hunter College maintains only electronic processes for Graduate Admissions. Applicants are responsible for creating an admissions account and correctly submitting the following:

- Official transcripts from undergraduate and graduate schools verifying completion of degrees, GPAs and coursework
- GRE scores
- Two letters of recommendation
- Narrative statement

Visit Hunter College's Graduate Admissions page for more information regarding the application process.

Individuals wishing to matriculate into the COMSC program must demonstrate completion of 45 credits of prerequisite coursework in Communications Sciences and Disorders as well as Liberal Arts and Sciences.

The breakdown of the prerequisite coursework is outlined below.

Fifteen credits of foundations courses in Communication Sciences and Disorders are required. Each of the following must be at least 3 credits.

- Introduction to Language
- Anatomy and Physiology of Speech Mechanisms
- Phonetics of American English
- Introduction to Speech Pathology
- Introduction to Audiology
- Language Acquisition

Thirty credits in Liberal Arts and Sciences courses are required of each applicant. Applicants should review catalog descriptions of courses they have taken to ensure correct matching of the following requirements:

- Biological science (3 credits)—examples are botany, biology, ecology, genetics, marine biology, nutrition, physiology, zoology
- Physical science (3 credits)—examples are chemistry, physics, earth science, oceanography, geology, astronomy, weather
- Mathematics or Statistics (3 credits)—examples are algebra, calculus, trigonometry, statistics (remedial, historical, or methods courses **do not** fulfill this requirement)
- Behavioral and/or social science (6 credits)—(study that pertains to understanding normal/abnormal human behavior, development across the life span, social interaction, and issues of culturally diverse populations)—examples include anthropology, criminology, sociology, psychology, human behavior, cultural diversity, gender issues
- English (6 credits)—at least 3 credits of intensive writing
- U.S. history or political science (3 credits)
- Art (3 credits)—examples include pottery, painting, drawing, theater performance, dance, musical instrument performance, art or music appreciation
- Language other than English (3 credits)—American Sign Language, Spanish, French, German, Hebrew, Arabic, Greek, etc.

When applying to become a matriculated student applicants should understand:

- Courses must be taken at an accredited college or university
- At least a B grade is necessary for all prerequisite coursework
- Advanced Placement (AP) credit will be accepted; however, AP must be recorded on the student's official undergraduate transcript(s)
- Pass/fail grades will not be considered as having fulfilled the Communication Sciences or Liberal Arts and Sciences prerequisite requirements

- Being a native speaker of a language will not fulfill the language requirement; the language requirement must be documented on an official transcript
- College-Level Examination Program (CLEP) scores will not be considered as having fulfilled admissions requirements

If unsure that a class meets a prerequisite course requirement, students applying to the SLPA Program may wish to include with their application a catalog description and/or syllabus for that course.

Suggested Curriculum

Fall 1 (15 credits)

COMSC 70000 - Introduction to Research Methods

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none

Hours 45

Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800

Hours 45

Credits 3

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none

Hours 45

Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none

Hours 45

Credits 3

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200

Hours 45

Credits 3

Spring 1 (15 credits)

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200
Hours 45 hrs,
Credits 3 cr

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72000, 73300
Credits 1 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

prereq: COMSC 72000
Hours 30
Credits 2

COMSC 75200 - Audiology for Speech-Language Pathologists

This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered. Particular emphasis will be on the role of speech-language pathologists in aural rehabilitative processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

prereq: none
Hours 45
Credits 3

Summer 1 (6)

COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals; and school-based

curriculum.

prereq: COMSC 73300

coreq: COMSC 77100

Hours 30

Credits 2

COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 73300

Credits 1 cr

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs

Credits 3

Fall 2 (16 credits)

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60

Credits 4

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none

Hours 60

Credits 4

COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1 cr

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none

Credits 3

Spring 2 (16 credits)

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter college will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300

Hours 45

Credits 3

COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one

script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45

Credits 3

COMSC 73700 - Clinical Seminar in Speech-Language Pathology: Alternative and Augmentative Communication (AAC)

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of AAC assessment, diagnostic intervention planning & implementation, data collection & interpretation, and follow-up assessment for monitoring progress across the life span. Presentation of no-tech (unaided communication), low-tech, mid-tech, and high-tech supports will be made available.

prereq: COMSC 73600

coreq: COMSC 73900

Hours 30 hrs,

Credits 2 cr

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900

coreq: COMSC 73700

Credits 1 cr

Total Credits: 68

TSSLD with Bilingual Extension (Spanish-English)

The Teachers of Students with Speech and Language Disabilities with Bilingual Extension (Spanish-English) option is available to students in the SLP curriculum who meet the admission requirements regarding demonstration of bilingual proficiency. A written and oral Spanish/English proficiency exam is administered to candidates by the Communication Sciences program. The bilingual requirements include an additional 12 credits of coursework:

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,

Credits 3

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100

Hours includes 5 hrs of fieldwork

Credits 3 cr

and a bilingual school-based practicum

COMSC 72904 - Clinical Practicum in Speech- Language Pathology 1

for students in the bilingual extension, designates a special section of **COMSC 72900** for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

Credits 4 cr.

includes 30 hours fieldwork

Additional Bilingual Examinations

Students seeking TSSLD with Bilingual Extension are required to take the Bilingual Content Specialty Test (CST). In addition to the requirements for TSSLD, candidates for a bilingual extension must also take two language examinations — one in the target language (Spanish) and the other in English.

Teachers of Students with Speech-Language Disabilities – Bilingual (English-Spanish Extension) MS

Requirements for Admission

In addition to all of the requirements for admission to the TSSLD curriculum, students applying for the bilingual (Spanish and English) extension must pass a Communication Sciences Program-administered evaluation of written and oral proficiency in Spanish and English.

Requirements for the Degree

In addition to all of the TSSLD requirements identified above, students must complete the following Extension requirements:

A. 12 additional credits of coursework:

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork

Credits 4

20 hours fieldwork

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Credits 3 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100

Hours 30 hrs plus 5 hrs of fieldwork and lab,

Credits 2 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100

*Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3*

B. School-based Language Practicum

A school-based language practicum (COMSC 72900 for 1 credit) must involve work with Spanish-speaking children eligible for bilingual education services.

C. NYSTCE Tests for English Language Proficiency

NYSTCE tests for English Language Proficiency Assessment (LPA) and the Target Language Proficiency Assessment (TLPA).

AUD 70000 - Anatomy and Physiology of the Audio-Vestibular System

Investigation of the embryology, structure, and function of the auditory and vestibular systems.

*Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 70300 - Acoustics and Psychoacoustics

Exploration of the decibel, sound transmission, complex stimuli, psychoacoustic methods, signal detection theory, auditory sensitivity, masking, loudness, pitch, binaural hearing.

*coreq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology
Hours 30 hours lecture, 15 hours laboratory,
Credits 3 cr*

AUD 70500 - Speech-Language Sciences

Exploration of phonological, lexical syntactic morphological, and pragmatic aspects of human communication associated with speech, language, hearing and related disorders, normal processes of speech and language comprehension and production over the life span.

*Hours 30 hours lecture plus conference,
Credits 3 cr*

AUD 70900 - Instrumentation in Audiology

Measurement and calibration of the physical characteristics of acoustic, electric, and other non-acoustic stimuli; instrumentation, digital technology; bio-electrical hazards.

*prereq: Psychoacoustics
coreq: Physiological Acoustics
Hours 15 hours lecture; 30 hours laboratory,
Credits 3 cr*

AUD 71000 - Diagnostic Audiology

Study of audiological test procedures and interpretation in the assessment of peripheral and functional hearing impairment.

prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology; Psychoacoustics
Hours 30 hours lecture plus conference; 15 hours laboratory,
Credits 4 cr

AUD 71200 - Speech-Language Pathology for Audiologists

Exploration of the effects of communication disorders and differences on audiological testing, treatment and counseling; screening and prevention of communication disorders across the life span. In accordance with the American Speech-Language-Hearing Association's certification standards, students will complete the hours of speech and language screenings in a variety of settings.

prereq: Speech-Languages Sciences
coreq: Diagnostic Audiology
Hours 15 hours lecture plus conference, 15 hours laboratory,
Credits 3 cr

AUD 71600 - Physiological Acoustics

Detailed study of the pneumatic/mechanical/hydraulic/electrical interfaces involved in the transduction of acoustic energy through the auditory system. In-depth investigation of the external ear biophysics, the middle ear transfer function, cochlear hydrodynamics and hydromechanics, auditory biopotentials, cochlear non linearity, neural transduction and neural coding in the peripheral and central auditory systems.

prereq: courses in Anatomy & Physiology of the Audio-Vestibular System and Psychoacoustics
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 71800 - Introduction to Research Methods

Exploration of issues and concepts in study design and analysis including types of research, controlling for confounding variables, measurement errors and their effects, statistical methods, and their applications to clinical populations.

prereq: 30 hours lecture plus conference
Credits 3 cr

AUD 72000 - Multicultural Issues for Audiologists

Examination of multicultural influences on the prevalence of auditory, vestibular, and otologic disorders; dialectical considerations for suprathreshold speech-recognition assessment; multicultural influences on attitudes toward health care providers, health care, disability, and deaf; ramifications of cultural diversity for professional practice; using culturally sensitive measures and protocols for assessment and management.

prereq: Diagnostic Audiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 73000 - Amplification I

Examination of hearing-aid components, hearing aid candidacy, output limiting/compression, electroacoustic and real-ear measures, prescriptive procedures, amplification, earmolds and earmold acoustics, cerumen management, binaural issues including deprivation and acclimatization, approaches to hearing aid evaluation.

prereq: Diagnostic Audiology, Physiological Acoustics, and 1 cr of Audiology Practicum

Hours 30 hours lecture plus conference; 15 hours laboratory,

Credits 4 cr

AUD 73300 - Communication Skills of Adults with Hearing Loss

A comprehensive approach to rehabilitation of adults with hearing impairment. Assessment of adult communicative function including auditory/visual speech perception, and use of selfassessment using cochlear implants and other sensory aids.

prereq: Diagnostic Audiology and 1 cr of Audiology Practicum

coreq: Amplification I

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 73500 - Auditory Electrophysiology

Advanced differential diagnosis of auditory disorders. Exploration of theoretical bases and clinical aspects of otoacoustic emissions and middle ear measurement.

prereq: Diagnostic Audiology and 1 cr of Audiology Practicum

coreq: 2nd cr of Audiology Practicum

Hours 15 hours lecture and conference; 15 hours laboratory,

Credits 3 cr

AUD 73700 - Prevention and Identification of Hearing Loss

Exploration of procedures to prevent the onset and minimize the development of hearing disorders; identifying individuals at risk for hearing impairment throughout the lifespan; screening individuals for hearing impairment and disability/handicap; administering hearing conservation programs.

prereq: courses in Diagnostic Audiology and Auditory Evoked Responses

coreq: course in Audiology Electrophysiology

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 74000 - Aural Habilitation

Roles and responsibilities of the audiologist in clinical and educational settings. Assessment and management of communicative function in children with hearing impairment, including those with minimal hearing loss. Development of strategies for improving speech perception skills, including usage of assistive technology.

prereq: Auditory Evoked Responses; Speech-Language Pathology for Audiologists; and, 2 cr of Audiology Practicum

coreq: Audiology Electrophysiology

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 74200 - Auditory Evoked Responses

Exploration of the theoretical bases and clinical applications of the auditory evoked potentials.

prereq: Audiology Electrophysiology and 2 cr of Audiology Practicum

Hours 15 hours lecture and conference; 15 hours laboratory,

Credits 3 cr

AUD 74600 - Pediatric Audiology

Exploration of the effects of hearing loss on child development, prevalence of hearing loss in childhood, embryology, genetic issues, development of auditory function, hearing and balance disorders in children, pediatric audiology assessment battery, pediatric considerations in amplification, assessment of special populations.

prereq: Amplification I, Auditory Evoked Responses and 2 cr of Audiology Practicum

coreq: Audiology Electrophysiology, Prevention and Identification of Hearing Loss

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 74800 - Amplification II

Advanced signal processing, verification, validation/outcome measures, pediatric amplification fitting, noise-reduction strategies, multi-microphone/directional technology, troubleshooting/repair, hearing-aid orientation.

prereq: Amplification I and 2 cr of Audiology Practicum

Hours 15 hours lecture and conference; 15 hours laboratory,

Credits 3 cr

AUD 75000 - Counseling

Contemporary theories of counseling. Application of principles and methods to problems faced by individuals with communication, hearing, vestibular and tinnitus disorders and their families. Counseling strategies to maximize individual's ability to understand, adapt and cope with his/her disorder.

prereq: Diagnostic Audiology

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 76000 - Medical Audiology

Medical and audiological aspects of hearing and balance disorders, including issues in genetics, otologic assessment and treatment, and use of imaging studies.

prereq: Auditory Evoked Responses and 2 cr of Audiology Practicum

coreq: Audiology Electrophysiology

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 76300 - Vestibular and Tinnitus Evaluation and Management

Investigation of balance tests including electronystagmography, posturography, and rotary chair; vestibular rehabilitation; electrophysiologic and behavioral techniques for the assessment of tinnitus; tinnitus management.

prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology, Diagnostic Audiology, Auditory Evoked Responses, Audiology Electrophysiology

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 76500 - Audiologic Research Proposal

Critiquing of research and the development of individual research proposals. Development of Institutional Review Board (IRB) application.

prereq: Introduction to Research Methods and completion of 45 Au.D. credits

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 76700 - Amplification III

Advanced programming. FM fitting and evaluation; special fittings; developing technologies; current research in amplification.

prereq: Amplification I and 2 cr of Audiology Practicum

Hours 15 hours lecture and conference; 15 hours laboratory,

Credits 3 cr

AUD 77000 - Cochlear Implants and other Sensory Aids

Effects of electrical stimulation on the auditory system; exploration of candidacy, principles of signal processing, and audiologic management for children and adults who use cochlear implants and other sensory aids.

prereq: courses in Anatomy & Physiology of the Audio-Vestibular System; Acoustics and Psychoacoustics; Speech-Language Sciences; Physiological Acoustics; Instrumentation in Audiology, Amplification I

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 77200 - Auditory Processing Disorders: Assessment and Treatment

Relevant neuroanatomy and physiology of auditory pathways; behavioral and physiological assessment techniques and management procedures for children and adults with auditory processing disorders.

prereq: Auditory Evoked Responses; Auditory Electrophysiology, Speech-Language Pathology for Audiologists, Pediatric Audiology, Audiologic Habilitation and 2 cr of Audiology Practicum

Hours 30 hours lecture plus conference,

Credits 3 cr

AUD 77400 - Hearing and Aging

Examination of the biological, physiological and sociological changes accompanying the aging process; protocols for evaluating and treating older adults with hearing impairment.

prereq: courses in Diagnostic Audiology and Anatomy & Physiology of the Audio-Vestibular System; Auditory Electrophysiology; Communication Skills of Adults with Hearing Loss
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 77600 - Seminar in Professional Practice - Business Practices

Issues of a professional nature that impact on the practice of audiology. Topics include licensure, accreditation/certification, quality assurance, reimbursement, establishing a private practice, professional liability, privacy/confidentiality and ethics.

prereq: courses in Diagnostic Audiology; Audiology Practicum; Audiology Seminar; Amplification II
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 78000 - Audiologic Research

Students, under the direction of their clinical research project committee, will carry out the proposal developed in Audiologic Research Proposal.

prereq: Audiologic Research Proposal
Hours 15 hours,
Credits 1 cr

AUD 79000 - Audiology Practicum

Clinical Practicum in assessment and management of a wide variety of hearing disorders under the supervision of an ASHA certified and New York licensed audiologist.

Hours 15 hours laboratory,
Credits 1 cr

AUD 79600 - Seminar in Audiology

Examination of ethical issues, certification standards, Center policies and procedures, infectious disease and infection control, history taking, report-writing, counseling, case studies, procedures and protocol in various settings.

Hours 15 hours,
Credits 1 cr

AUD 79800 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

Hours Conference,
Credits 1-3 cr

AUD 79900 - Audiology Residency

Students will be placed and supervised in setting(s), which will meet CAA standards for the certificate of Clinical Competence for the clinical residency year. Student must successfully complete this course two times.

coreq: Audiology Residency Seminar.

Credits 1-3 cr

prereq for the 1st semester of Audiology Residency: Completion of 6 credits of Audiology Practicum and 6 credits of Audiology Seminar

COMSC 60400 - Introduction to Language Science

An introduction to the nature of language and communication. Topics include components of the linguistic system, relationship between verbal and non-verbal communication, and language acquisition across the life span.

Hours 45

Credits 3

COMSC 60700 - Phonetics of American English

Phonetic features of oral American English and dialectal variations of American English and non-native English speech.

Hours 45

Credits 3

COMSC 61500 - Speech and Its Production

An overview of the structure of speech and the basic mechanisms involved the production of speech sounds; a foundation for a more in-depth study of speech science and its application to clinical practice in speech-language pathology and audiology; structure and organization of the ventilatory, laryngeal, supralaryngeal and orofacial mechanisms; issues in basic speech acoustics and perception.

Hours 45

Credits 3

COMSC 62000 - Introduction to Speech-Language Pathology

Introduction to organic and behavioral correlates of human communication; its development and disorders. The influence of culture, heritage, and socioeconomic status on the disorders of voice, articulation, fluency, and language.

Hours 45

Credits 3

COMSC 64000 - Introduction to Audiology

Etiology and pathology of hearing disorders, basic properties of the auditory stimulus: measurement of pure tone thresholds by air and bone conduction. Overview of the audiologist in diagnosis and management of hearing disorders.

Hours 45

Credits 3

COMSC 70000 - Introduction to Research Methods

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none

Hours 45

Credits 3

COMSC 70200 - Multicultural Issues in Counseling and Communication

This course presents a multicultural perspective of counseling theories, techniques and strategies for persons with disorders and their families. It addresses the impact of cultural, ethnic, gender, socioeconomic and individual variations in culturally appropriate delivery of services to individuals with speech-language disorders as well as those acquiring English as a second language.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800

Hours 45

Credits 3

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be

considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter college will be considered.

prereq or coreq: none

Hours 30

Credits 2

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none

Hours 45

Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none

Hours 45

Credits 3

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300

Hours 45

Credits 3

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000

Hours 45

Credits 3

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 71800 - Language and Literacy Disorders in School-Age Children

The impact of language disorders in school-age children and adolescents on their acquisition of academic skills required for the development of literacy skills and written language (reading, spelling and writing); cognitive and social aspects of communication; formal and informal assessment; collaborative management strategies; cultural diversity issues.

prereq: COMSC 71100

Hours 45

Credits 3

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60

Credits 4

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200

Hours 45

Credits 3

COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45

Credits 3

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none

Hours 60

Credits 4

COMSC 72500 - Developmental Motor Speech and Swallowing Disorders

Diagnosis and management of childhood dysarthrias, developmental apraxia of speech and related disorders of swallowing.

prereq: COMSC 70800, 71200

Hours 45 hrs,

Credits 3 cr

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of

severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200

Hours 45 hrs,

Credits 3 cr

COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200

Hours 30

Credits 2

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72000, 73300

Credits 1 cr

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1 cr

COMSC 72904 - Clinical Practicum in Speech- Language Pathology 1

for students in the bilingual extension, designates a special section of **COMSC 72900** for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300

coreq: COMSC 73600

Credits 1

COMSC 73000 - Cleft Palate and Craniofacial Disorders of Speech

Broad spectrum of velopharyngeal incompetence, including embryogenesis, classification of clefts, aspects of cleft palate speech, associated disorders, modes of formal and informal assessment and intervention strategies within the home, school, hospital and work environments; current surgical and prosthetic management of cleft lip, palate and related craniofacial disorders; impact on learning and literacy acquisition.

prereq: COMSC 70800, 71200

Hours 45 hrs,

Credits 3 cr

COMSC 73100 - Assessment and Management of Speech, Voice, and Swallowing Following Surgical Intervention for Head and Neck Cancer

Assessment and management of surgically based swallowing disorders in children, adolescents and adults; rehabilitation of speech, voice following oral and laryngeal surgery including the use of speech aids.

prereq: COMSC 70800, 71200

Hours 45 hrs,

Credits 3 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

prereq: COMSC 72000

Hours 30

Credits 2

COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals; and school-based curriculum.

prereq: COMSC 73300

coreq: COMSC 77100

Hours 30

Credits 2

COMSC 73600 - Clinical Seminar in Speech-Language Pathology 1

Assessment measures and intervention strategies for individuals with disorders of speech and language across the lifespan; development of professional oral and written communication skills.

prereq: COMSC 73300
Hours 30 hrs,
Credits 2 cr

COMSC 73700 - Clinical Seminar in Speech-Language Pathology: Alternative and Augmentative Communication (AAC)

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of AAC assessment, diagnostic intervention planning & implementation, data collection & interpretation, and follow-up assessment for monitoring progress across the life span. Presentation of no-tech (unaided communication), low-tech, mid-tech, and high-tech supports will be made available.

prereq: COMSC 73600
coreq: COMSC 73900
Hours 30 hrs,
Credits 2 cr

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none
Credits 3

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900
coreq: COMSC 73700
Credits 1 cr

COMSC 73904 - Clinical Practicum in Speech-Language Pathology 2

For students in the bilingual extension, designates a special section of COMSC 73900 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72900
coreq: COMSC 73700
Hours 45 hrs,
Credits 3 cr

COMSC 75200 - Audiology for Speech-Language Pathologists

This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered. Particular emphasis will be on the role of speech-language pathologists in aural rehabilitative processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

prereq: none

Hours 45

Credits 3

COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 73300

Credits 1 cr

COMSC 77200 - Summer Clinical Practicum in Speech-Language Pathology 2

Second year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood, adolescence, as well as with adults.

prereq: COMSC 77100

Credits 1 cr

COMSC 78100 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum

Hours Hours to be arranged

Credits 2 cr

COMSC 78200 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum

Hours Hours to be arranged

Credits 2 cr

COMSC 79000 - Special Topics in Speech-Language Pathology or Audiology

*Hours 45 hrs,
Credits 3 cr*

COMSC 79600 - Special Problems

Directed study under supervision of faculty members. For doctoral credit, must be supervised by member of doctoral faculty.

*Hours 45 hrs,
Credits 3 cr*

COMSC 79900 - Thesis Seminar

Individual research under supervision.

*Hours Hours to be arranged
Credits 3 cr*

Bernadette Hadden, Assistant Professor; PhD, Columbia; HIV/AIDS, Cognitive-Behavioral Skills-Building Group-Based HIV Prevention; Health and Mental Health; the Elderly

Dan Herman, Professor and Associate Dean for Scholarship and Research; PdD, Columbia; Mental Health Services Research; Intervention Research; Severe Mental Illness; Homelessness

Paul A. Kurzman, Professor; PhD, NYU; Occupational Social Work Policy and Practice; Professional Ethics and Risk-Management; Licensure; Organizational Theory; Management and Administration

Kenny Kwong, Assistant Professor; PhD, CUNY; Health Disparities; Culture, Immigration, Health and Mental Health Practices in the Asian American Community; Capacity Building, Asset-Mapping and Community Collaboration

Marina Lalayants, Assistant Professor; PhD, CUNY; International Social Work and Social Policy; Organization Management and Leadership; Program Evaluation

Michael A. Lewis, Associate Professor; PhD, CUNY; Social Policy; Quantitative Methods

Annette M. Mahoney, Assistant Professor; DSW, CUNY; Survivors of Trauma; Caribbean Immigrant Adolescents and Families; Incarcerated Women

Gary Mallon, Professor; DSW, CUNY; Child Welfare Policy and Practice; Practice with LGBT Populations; Animal-Assisted Therapy

Terry Mizrahi, Professor; PhD, Virginia Commonwealth; Community Organizing and Development; Health Policy and Services; Collaborations and Coalition-Building

Jacqueline B. Mondros, Professor and Dean; DSW, Pennsylvania; Urban Neighborhoods; Social Work Pedagogy, Social Work Leadership

Carmen Morano, Associate Professor; PhD, Florida International; Alzheimer's Disease Caregivers; Aging in the Urban Environment; Social Work Interventions for Older Adults with Chronic Health Conditions

George Patterson, Associate Professor; PhD, SUNY-Buffalo; Police Social Work; Criminal Justice; Cognitive and Behavioral Coping Strategies

Ana Paulino, Associate Professor; EdD, Columbia; Clinical Practice; School-Based Social Work; Immigration; Children, Youth and Families; Childhood Developmental Disorders, e.g. Autism Spectrum Disorders

Juan B. Pena, Associate Professor; PhD, Columbia University; Global Health and Mental Health; Adolescent Health and Mental Health; Health and Mental Health of Immigrants; Suicide

Jonathan D. Prince, Assistant Professor; PhD, UC Berkeley; Mental Health; Older Adults

Judith Rosenberger, Professor; PhD, Michigan; Development, Psychopathology, Psychodynamics; Brief Treatment

Anthony Sainz, Associate Professor; DSW, Columbia; Spirituality and Healing; Substance Abuse; Cross-Cultural Practice and Research

Andrea Savage, Associate Professor and Associate Dean for Academic and Faculty Affairs; PhD, Michigan; Human Service Organizations; Substance Abusing Women, Trauma and Co-Occurring Disorders

Roger J. Sherwood, Associate Professor; DSW, Columbia; Trauma and Post Traumatic Stress Disorder; Veterans and PTSD; Addictions and Recovery

Willie F. Tolliver, Associate Professor; DSW, CUNY; Human Diversity and Cultural Competence; Anti-Oppressive and Restorative Practice; Leadership Development; Spirituality

Deborah L. Tolman, Professor; EdD, Harvard; Adolescent Sexuality; Gender Development; Gender Equity; Research Methods

Roderick J. Watts, Professor PhD, Maryland; Sociopolitical development and activism, manhood development; Psychoeducational interventions; Social identity; Qualitative/action research methodology

School of Social Work: Partial Tuition Waivers

Partial tuition waivers from the Dorothy and Alfred Silberman Fund are the principal source of tuition assistance available to students at the School of Social Work. These grants are based solely on financial need. In addition, various public and voluntary agencies and foundations provide some assistance in the form of scholarships and stipends. Inquiries concerning School of Social Work sponsored financial assistance should be addressed to The Scholarship Office, Hunter College School of Social Work, 129 East 79th Street, New York, NY 10021.

School of Urban Public Health Courses

School of Urban Public Health

About the School

Hunter College's School of Urban Public Health educates students to contribute to improving urban health by addressing problems such as HIV, substance abuse, asthma, obesity, under-nutrition, violence, heart disease and cancer. The school offers programs in community health and in nutrition.

Hunter's School of Urban Public Health shares an eight-story, 147,000-square-foot green building on Third Avenue between East 118th and 119th Streets with the Silberman School of Social Work at Hunter College. Faculty, staff and students from both schools work closely with community organizations and health and social service agencies in East Harlem to strengthen existing and create new approaches to improving the well-being of East Harlem and other low-income communities.

The graduate program in the Hunter School of Urban Public Health is Nutrition - MS. An Accelerated BS/MS in Nutrition (DPD) is also available.

Accreditation

The NUTR-MS is a didactic program in dietetics (DPD), accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), formerly known as the Commission on Accreditation of Dietetics Education (CADE), the accrediting agency of the Academy of Nutrition and Dietetics. The Dietetic Internship is also accredited by ACEND. Both the DPD and DI programs are designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD).

Faculty

Faculty of School of Urban Public Health

BIOS 75000 - Applied Biostatistics I

A follow up course to PH 7500/75100 and PH 75200/75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

Cross-listed STAT 75000

prereq: PH 7500 or 75100 and PH 75200 or 75300

Credits 3

BIOS 75100 - Applied Biostatistics II

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

Cross-listed STAT 75100

prereq: BIOS 75000

Hours 3 hrs

Credits 3 cr.

BIOS 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression and log-linear models.

Cross-listed STAT 75200

prereq: BIOS 75000

BIOS 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal & random effects models, time-dependent covariates, missing values.

Cross-listed STAT 75300

prereq: BIOS 75000

BIOS 75400 - Design and Analysis of Complex Surveys

This course provides an introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

Cross-listed STAT 75400

prereq: BIOS 75000

BIOS 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data, using case studies.

Cross-listed STAT 75500

prereq: BIOS 75000

BIOS 75600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics include: data summaries; transformations; the jackknife and resampling schemes; robust estimation; and robust regression methods.

Cross-listed STAT 71600

prereq: BIOS 75000

BIOS 75800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics including: one, two and many way layouts; decomposition and partitioning of variance; fixed, random, and mixed effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

Cross-listed STAT 71800
prereq: BIOS 75000

BIOS 77000 - Topics in Biostatistics

Courses on current topics in biostatistics.

Offered periodically

BIOS 77001 - Applied Biostatistics III

An advanced biostatistics course that focuses on mixed models, GEE for analysis of correlated data, management of missing data and imputation, propensity scoring, and causal inference.

prereq: BIOS 75100 and EPI 75100
Credits 3

COMHE 75000 - Community Health Assessment

This course prepares students to collect and analyze data on community health from a variety of sources, to identify problems and assets, and to develop objectives for community health interventions.

prereq: PH 75500
Hours 45
Credits 3

COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000
Credits 3

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75500, COMHE 75000, COMHE 75100
Credits 3

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.
Credits 3 cr

COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200
Credits 3 cr

COMHE 77000 - Topics in Community Health Education

Courses on current topics in community health education.

offered periodically

COMHE 77025 - Maternal and Child Health

This course explores maternal and child health issues both domestically and internationally.

Credits 3

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

Credits 3

EOHS 70500 - Environmental Chemistry

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

Credits 3

EOHS 71000 - Industrial Safety and Safety Management

Fundamental concepts and principles of industrial accident prevention and loss control; safety program organization; hazard recognition and evaluation; accident investigation; machine guarding; tire protection; personal protective equipment.

Credits 3

EOHS 74100 - Environmental and Industrial Hygiene Laboratory

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

prereq or coreq: EOHS 70500
Hours 90 hrs lec and lab,
Credits 4 cr

EOHS 74300 - Air Resource Management

Air pollution sources, types of pollutants, transport phenomena, effects on health and on vegetation and materials; air quality monitoring, criteria, standards, and control methods.

Credits 3

EOHS 74500 - Hazardous Waste Management

A review of the sources, transportation and control of hazardous chemical wastes. Regulatory requirements, disposal methods and health effects will also be presented.

Credits 3

EOHS 74600 - Water Resources

Water and waste water technology related to public health. Sources of water supply, distribution, treatment, chemical, biological and physical water pollutants and their health consequences. Review of federal legislation. Field trip to waste water treatment plant.

EOHS 74700 - Hazard Evaluation and Instrumentation

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

prereq: PH 75000 or 75100, EOHS 70200, EOHS 70500

Credits 3

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

prereq: PH 75400 and EOHS 70500

Credits 3

EOHS 75500 - Industrial Ventilation and Indoor Air Quality

Advanced course. This course covers the fundamentals of design, operation and evaluation of air moving systems for local and dilution exhaust ventilation systems. Engineering controls are the preferred method for the control of airborne hazards in the workplace.

prereq: EOHS 70200 and PH 75400 or permission of the instructor

coreq: EOHS 70200 and PH 75400 with permission of the instructor

Hours 3 hrs

Credits 3 cr.

EOHS 75700 - Principles of Industrial Hygiene

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

prereq: EOHS 70200 and 70500

Credits 3

EOHS 75900 - Industrial Processes and Plant Visits

A review of major industrial processes and health hazards associated with each. Includes site visits to metropolitan NY industrial facilities during working hours.

prereq: EOHS 75700

Credits 3

EOHS 76200 - Noise and Radiation Hazards and Controls

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

prereq or coreq: EOHS 70500

Credits 3

EOHS 76500 - Environmental Audits and Remediation

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

prereq: PH 75000 or 75100

Credits 3

EOHS 77000 - Topics in Environmental and Occupational Health Sciences

Courses on current topics in environmental and occupational health sciences.

Offered periodically.

EOHS 77025 - Topics: Biohazards and Emergency Response

This cross-listed undergraduate/masters class covers the biology of microorganisms and toxins most frequently considered in perpetrated attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, emergency communication, and prevention. In addition to classroom activities, students participate in group projects to simulate bioterrorism events and responses; government regulation, chain of evidence, and related topics are covered.

Cross-listed MLS 40066

Hours 3

Credits 3

EOHS 77500 - Indoor Air Quality

A review of sources indoor air pollution and its evaluation and control. Topics include assessment techniques, air sampling, HVAC assessment and remediation approaches.

Credits 3

EPI 75000 - Epidemiologic Methods I: Study Research Design

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq: ,

Cross-listed GC PH 82000

prereq: PH 75100, PH 75300

Credits 3

EPI 75100 - Epidemiologic Methods II: Survey and Research Methods

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

Cross-listed GC PH 82100

prereq: EPI 75000

Credits 3

EPI 75200 - Applied Research: Data management and analysis

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it

prereq: BIOS 75100, EPI 75100 or instructor's permission

Credits 3

EPI 75300 - Clinical Trials and Experimental Design

This course provides students with the basic foundation of experimental design, with a focus on clinical trials (single and multi-center), intervention trials, and quasi experimental design, particularly in the field of public health. The strengths and limitations of these approaches in comparison with related observational epidemiologic studies will also be covered. Specific topics to be discussed include design options (sampling, treatment allocation, cluster randomization), sample size and power considerations, adverse event monitoring, and statistical analysis of trial data.

prereq: PH 75000/75100 and PH 75200/75300

Credits 3

EPI 75400 - Social Epidemiology

This course will introduce public health and other interested graduate students to the sub-discipline of social epidemiology, including theory and methods. Specifically, students will gain an understanding of how an individual's

interactions with factors associated with the social fabric of the society affect and shape health outcomes. This class will also examine the etiology and prevention of disease within both ecological (multi-level) and multidisciplinary frameworks.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75500 - Epidemiology of Chronic Diseases

This course provides students with epidemiological background information for the most common chronic disease conditions. In addition, the course provides students with hands on experience to characterize the frequency and impact of chronic diseases and their risk factors in New York City (NYC) using public data available through the Department of Health and Mental Hygiene.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75600 - Epidemiology of Infectious Diseases

This course will examine the role of epidemiology in understanding transmission, surveillance and control of infectious diseases. Special focus will be on emerging infectious diseases in urban settings.

prereq: PH 75000 or 75100, PH 75200 or 75300

Offered periodically.

EPI 75700 - Reproductive and Perinatal Epidemiology

This course covers current research, controversial issues, and methodological problems in the epidemiology of male and female reproduction and perinatal health. Topics include: epidemiology of fertility and infertility, contraception and hormone usage, reproductive cancers and other diseases, pregnancy complications, maternal mortality, adverse pregnancy outcomes and birth defects.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75800 - Nutritional Epidemiology

This course teaches concepts and principles used in nutritional epidemiology. It provides skills required to critically evaluate dietary assessment methodology and reviews current topics in nutritional epidemiology. In addition, the role of nutrition in health and how this applies to public health is discussed.

Cross-listed GC PH 81200

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75900 - Environmental and Occupational Epidemiology

Using a case study approach, this course will explore epidemiologic methods for studying environmentally and occupationally related diseases. Key methodologic issues, such as exposure and outcome assessment, cumulative and multiple exposures, exposure pathways, research ethics, and policy implications of epidemiological findings will also be discussed. The focus will be on the environmental and occupational health of urban populations.

prereq: PH 75000 or PH 75100, PH 75200 or 75300, PH 75400

EPI 76000 - Modeling and Making the Most of your Data with R

This course will provide students with a toolkit for making the most of their data using R when appropriate. This course will consolidate many of the skills previously taught in data analysis and modeling. It will focus on the practical application of these skills throughout the lifecycle of a research project, and provide illustrations and applications of relevant techniques in R. It will provide grounding in the use of R.

prereq: EPI75100 (Epidemiological Methods II) and BIOS75100 (Applied Biostatistics II)

Open to MPH and EOHS-MS or departmental permission.

Hours 3 hrs

Credits 3 cr.

EPI 76100 - Psychiatric and Mental Health Epidemiology

An introduction to the epidemiology of mental health and mental illness. This course takes an explicit epidemiologic perspective, focusing on the study of the burden and determinants of mental illness. It reviews the extant literature on the epidemiology of specific disorders and evaluates studies that investigate risk factors for mental illness. We will consider methodologic challenges involved in the study of mental health and illness such as limitations to diagnostic techniques and screening instruments and issues surrounding co-morbidity. The course will also address the social consequences of mental illness, and consider how we may apply epidemiologic methods to promoting psychological wellbeing in the general population.

prereq: EPI 75000 (Epidemiological Methods I) or equivalent

Open to MPH and EOHS-MS or departmental permission.

recommended prereq or coreq: experience with statistical software (e.g., SPSS, SAS or STATA) preferred but not required

Hours 3 hrs

Credits 3 cr.

EPI 76200 - Life Course Epidemiology

Provides a theoretical framework as to how life-course exposures affect vulnerability to disease, knowledge about life course influences on selected diseases and the implications for prevention and control. This course will also consider how intra- and inter-generational influences may be relevant to disparities in health. Readings will address empirical patterns, prevailing theories and controversies regarding life course influences, as well as addressing interventions or policies that may be applied to improve population health.

prereq: EPI 75000 (Epidemiological Methods I)

Open to MPH and EOHS-MS or departmental permission.

Hours 3 hrs

Credits 3 cr.

EPI 76300 - Public Health Surveillance

Public health surveillance is the fundamental mechanism that public health agencies use to monitor the health of the communities they serve. It is a core function of public health practice, and its purpose is to provide a factual basis from which agencies can appropriately set priorities, plan programs, and take actions to identify and reduce disparities, promote, and protect the public's health. This course will cover the principles of public health surveillance, including historical context, vital registration, disease reporting regulations and notifiable diseases, surveillance registries, surveillance for behaviors and risk factors, administrative data sources in surveillance, epidemiologic uses of surveillance data, legal and ethical issues, and dissemination of surveillance information.

prereq: PH 75300 (Principles of Epidemiology), PH 75200 (Introduction to Epidemiology), PH 75100 (Principles of Biostatistics), PH 75000 (Introduction to Biostatistics)

Open to MPH and EOHS-MS or departmental permission.

Hours 3 hrs

Credits 3 cr.

EPI 76400 - Epidemiology Methods III

This course exposes students to intermediate methods in epidemiologic research and provides students with an opportunity to consider how these strategies complement and advance the more commonly used strategies. Doctoral and master's students will apply these concepts and theoretical knowledge to quantitative analyses using different types of epidemiologic data. Emphasis will be placed on developing practical skills relevant to contemporary epidemiologic research. Students will explore individual-level exposure-disease associations using classic study designs and techniques, as well as more recent methods that shift away from identifying individual risk factors for disease causation to the description and analysis of environmental systems that give rise to both exposures and health states. Students will also examine potential mediators of these relations.

prereq: EPI 75100 (Epidemiological Methods II) and BIOS 75100 (Applied Biostatistics II)

Open to MPH and EOHS-MS or departmental permission.

Hours 3 hrs

Credits 3 cr.

EPI 77000 - Topics in Epidemiology

Courses on current topics in epidemiology.

Offered periodically.

EPI 77005 - Epidemiological Methods IV

This seminar is intended to help students integrate the concepts and methods of epidemiologic research with specific inquiry directed at understanding and improving the health of urban populations. This seminar requires students to develop proposals for epidemiologic research, identify strategies for data analysis that incorporate the lessons learned in Epidemiology Methods courses I, II, and III, and to examine the application of those strategies to existing research. This course helps to "bring together" the epidemiology theory and methods that have been discussed throughout the rest of curriculum with the particular exigencies of urban public health.

prereq: EPI 75000/77000 or PUBH 82200 (CUNY Graduate Center)

Credits variable credits

EPI 77200 - Topics Emerging in Epidemiology

This short course brings leading experts into classrooms to teach emerging methods in epidemiology, study controversial topics, or provide a rapid immersion into a specialized topic. Each course combines didactic teaching with applied hands-on training.

prereq: PH75000 (Introduction to Biostatistics)/PH75100 (Principles of Biostatistics) and PH75200 (Introduction to Epidemiology)/PH75300 (Principles of Epidemiology)

Open to MPH and EOHS-MS or departmental permission.

Hours 22.5 total; hours vary

Credits 1.5

HPM 75000 - Public Health Management

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

prereq: PH 75500, PH 75600

HPM 75100 - Public Health and Health Care Law

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

prereq or coreq: PH 75500, PH 75600 or with instructor's permission for those with at least one year of health care experience

HPM 75200 - Comparative Analyses of Urban Health Care Systems

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600

Students can take this course or HPM 75400

HPM 75300 - Public Health Policy Analysis

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

HPM 75400 - Public Health Advocacy

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600

Students can take this course or HPM 75200

HPM 75500 - Health Economics

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600

HPM 77000 - Topics in Public Health Policy and Management

Courses on current topics in public health policy and management.

Offered periodically

NUTR 70000 - Seminar in Dietetics Practice

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70300 - Pre-Professional Practice in Dietetics: Community

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

Credits 3

Open to DI students only.

NUTR 70500 - Nutrition and Biochemistry

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

NUTR 71000 - Principles of Public Health Nutrition

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

NUTR 71500 - Food Service and Management

An overview of good service operations and theories, functions and tasks of management

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 72500 - Nutrition Research

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR 73000 - Nutritional Assessment of Urban Communities and Populations at Risk

The collection and analysis of data for the purposes of identification of, and designing interventions for, individuals and urban populations at nutritional risk.

NUTR 73100 - Human Nutrition and Metabolism

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

prereq: NUTR 70500

NUTR 73200 - Advanced Nutrition II

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

prereq: NUTR 73100

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

NUTR 73400 - Clinical Nutrition I

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

NUTR 74600 - Nutrition and Disease

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

NUTR 74700 - Advanced Nutrition and Assessment Laboratory

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

NUTR 75600 - Food Science and the Environment

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

NUTR 75700 - Food Science and the Environment Laboratory

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600

Credits 1

NUTR 76000 - Practicum

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

NUTR 77000 - Topics in Public Health Nutrition

Courses on current topics in public health nutrition.

Offered periodically.

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community /Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3

PH 75300 - Principles of Epidemiology

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

prereq or coreq: PH 75100
Hours 3
Credits 3

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.
Hours 3
Credits 3

PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.
Hours 3
Credits 3

School of Urban Public Health: Accreditation

The Nutrition - MS is a didactic program in dietetics (DPD), accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), formerly known as the Commission on Accreditation of Dietetics Education (CADE), the accrediting agency of the Academy of Nutrition and Dietetics. The Dietetic Internship is also accredited by ACEND. Both the DPD and DI programs are designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD).

Social Work Course Descriptions

Silberman School of Social Work

About the School

The Hunter College School of Social Work, founded in 1956, is the largest and oldest public graduate school of social work in New York City. The School's mission is to promote excellence in social work practice by preparing knowledgeable, ethical, and highly competent social work leaders for a variety of professional roles and settings. Our pedagogy, scholarship, and service reflect social work's historic commitment to human rights, cultural complexity, and social and economic justice. Commensurate with the missions of our host institutions, the School promotes community-engaged and practice-based scholarship that pursues policy and practice solutions to real world problems, thereby reinforcing the strengths of people and the communities in which they live, in New York and other major urban areas.

The School of Social Work is fully accredited by the Council on Social Work Education.

The Building and Its Uses

The School is located in a new state-of-the-art building designed specifically to meet its needs in the community of East Harlem. The School was renamed the Lois V. and Samuel J. Silberman School of Social Work in honor of its benefactors, Lois and Samuel Silberman. The new building includes a well resourced and beautiful library, community meeting spaces, four computer labs with extensive software, state-of-the art classrooms and an art gallery. In addition, the building has both an interior courtyard garden and a large terrace. A café will be located in the building as well. The CUNY School of Public Health, Centro, and Brookdale Center on Healthy Aging and Longevity are co-located in the building. In addition to resources in the School of Social Work building, there are extensive resources at the main campus of Hunter College (East 68th St. and Lexington Ave.), the Graduate Center and the other units of the City University of New York (CUNY).

IMPORTANT: Please check the Hunter College School of Social Work website: www.hunter.cuny.edu/socwork and registration materials for up-to-date information on course offerings.

BILED 78500 - Student Teaching in Grades 1–3

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

*prereq: completion of 39 cr of course work or permission of the program coordinator
Hours 30 days student teaching, 15 hrs of seminar plus conferences,
Credits 2 cr*

SSW 70150 - Social Welfare Policy and Services I: Introduction to Social Welfare Policy and Services

Circumstances that give rise to social problems and their policy solutions; frameworks for analyzing these developments; values and skills needed to understand social policy and engage in advocacy and social change are stressed.

*Credits 3
SSW 70100 and one SSW 702xx course are required. SSW 70100 is a prerequisite for all SSW 702xx courses.*

Students may choose the following SSW 702 course to fulfill the advanced social policy requirement. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 70210 - The Organization and Delivery of Social Services to Workers and Their Families

Human and fiscal resources and opportunities for innovative policy and program development in the world of work. Issues of economic, social and political organization in the workplace; union and industry programs as models for creative occupational social work policy and practice.

*prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement*

SSW 70211 - Political Economy of Social Welfare

U.S. social welfare policy and the social work profession in the context of contradictions in political economy. History of economic development; analysis of current economic and political conflicts in the global economy; strategies for change.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70213 - Women and Social Welfare

U.S. social welfare policy through the lens of gender: women's rights, feminist perspective and the impact of gender stereotypes.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70214 - Health and Mental Health Systems

U.S. health and mental health systems; effect of major policy shifts in service delivery on both health care services and populations at risk.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70215 - Policy and Practice in Child Welfare

Interplay of child welfare policy, service and practice issues from historical, political, socioeconomic and legal perspectives. Organization; assessment; children's vs. parents' rights; and other issues.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70216 - Social Welfare Policy with the Homeless

Ways in which social welfare policies and social services have affected homelessness; the role of social work in this policy arena.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70217 - Social Welfare Policy in the Field of Aging

Aging policy and legislation; health care, retirement, work, and family issues. Organization, utilization and impact of services on the aging; attention given to special populations.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70218 - Seminar in Social Welfare

Social welfare policy and social change issues are studied. Topics vary each semester.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70219 - Immigrants and Refugees: Policies and Issues

History and development of immigration and social policies that affect immigrants and refugees in America. Policy theories, dynamics and patterns related to immigration policy; delivery of service; social welfare policy advocacy.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70220 - Clients' Rights, the Legal System and Social Policy

The role of legal rights in the welfare state with reference to special populations. Origins, history and the current status of the legal rights of clients; use of laws to promote social justice and social change; advocacy by social workers for clients' rights.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70221 - Social Welfare and Disabilities

Implications of the Americans with Disabilities Act (ADA) and other legislation on social work practice with people who have disabilities. Creation of effective service delivery systems.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70222 - International Social Welfare Policy and Services

International social welfare policy and services in social work. Review of past, present and future challenges produced by history, economic change, and globalization and their implication.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 71100 - Human Behavior and the Social Environment I

Identification and integration of pertinent concepts relevant to each phase of the life cycle; biological, psychological, and social systems theories within the conceptual framework of human behavior and its interaction with the social environment.

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71200 - Human Behavior and the Social Environment II

Required sequel to SSW 711. Exploration of normative life span progress from adolescence through older adulthood using theories of multicausality, gender, social class, and cultural pluralism and diversity.

prereq: SSW 711

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71300 - Human Behavior and the Social Environment III

Understanding dysfunction. Concepts of mental health and illness, deviance and conformity; classification systems; influences on the diagnosis and treatment processes. Theories of etiology and treatment in relation to the needs of families, groups and communities. Attendance at an additional 2-hour lecture on psychopharmacology is required.

prereq: SSW 711 and 712

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71500 - Seminar in Psychodynamics

Dimensions of psychodynamic theory: modern drive theory, ego psychology and object relations theory. Relationship to clinical practice.

prereq: SSW 71100 and 71200

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71700 - Social Work Practice Learning Lab 1

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

Credits 3

SSW 71700 and 71800 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71800 - Social Work Practice Learning Lab 2

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

prereq: SSW 71700

Credits 3

SSW 71700 and 71800 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71900 - Foundations of Social Work Practice

An orientation to the profession of social work, the use of research in practice, the multicultural context of practice, the common base of practice and some of the unique aspects of clinical work with individuals and families, group work, community organization and administration.

Credits 3

SSW 72100 - Clinical Practice with Individuals and Families I

Development and use of clinical theory, practice and process. Integration and application of the values that underpin social work practice to engagement, biopsychosocial assessment and intervention.

prereq: SSW 71700

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72200 - Clinical Practice with Individuals and Families II

Application of clinical principles, including those of psychodynamic and family systems theories. Knowledge from human behavior and the social environment and social welfare policy and services areas and research findings is applied to the assessment of clients and their situations.

prereq: SSW 72100

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72300 - Clinical Practice with Individuals and Families III

Expands and deepens knowledge and skills from multiple theoretical perspectives for professional practice. Exploration of contemporary time-limited clinical practice models with a focus on the interface of these approaches with contextual factors such as agency setting; socio-cultural specificity and the client-worker relationship in assessment and intervention will be emphasized.

prereq: SSW 72100 and 72200

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72400 - Clinical Practice with Individuals, Families and Groups IV Sections

Brief Therapies, Child Therapy, Cognitive/Behavioral, Family Therapy, Trauma Therapy, and Treatment of Pairs, Relational Therapy. Students identify professional issues and dilemmas in both knowledge and practice. Special emphasis is on assuring competence.

prereq: SSW 72100

Hours 45

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72700 - Social Work with Clients in Authoritarian Settings: Working with Mandated and Involuntary Clients

Services to individuals and groups involved with parole, probation, court clinics, institutions for offenders, and child and adult protection agencies.

Credits 3

SSW 74100 - Community Organizing, Planning and Development-I

Theory and practice of community organization and planning. Models and strategies for professional practice for community and client participation and empowerment. Community needs and resources; practice dynamics; dilemmas.

prereq: SSW 71700

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74250 - Community Organizing, Planning and Development II

Theoretical, strategic and technical aspects of planning with a focus on problem-solving analysis, design, implementation, and evaluation of community and service system interventions. Emphasizes impact of class, race, gender and sexual orientation on planning.

prereq: SSW 74100

Hours 3 hrs

Credits 3 cr.

SSW 74250 - Community Organizing, Planning and Development-II

Theoretical, strategic and technical aspects of planning with a focus on problem-solving analysis, design, implementation, and evaluation of community and service system interventions. Emphasizes impact of class, race, gender and sexual orientation on planning.

prereq: SSW 74100

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74350 - Community Organizing, Planning and Development-III

Uses Freirian methods to deepen students' strategic applications towards the creation of democratic experience, emphasizing leadership development, dynamics of power and privilege, and dilemmas/opportunities in working *with* not *for* the oppressed.

prereq: SSW 74100 and 74250

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information .

SSW 74700 - Community Organizing, Planning and Development for Non-Majors

The community as a dimension of professional practice. Models and strategies for community intervention on behalf of those seeking improved access to resources and services; knowledge and skills needed to build supports and programs.

Hours 45

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74800 - Grantsmanship and Proposal Writing

Techniques of fundraising, proposal preparation, and grantsmanship. Proposal writing and negotiation with funding sources.

prereq: one methods course

Hours 45

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75100 - Social Work Research I

Principles of social research methods in the context of social work practice. Problem formulation, research design and role of research in social work, ethical issues, sampling, measurement and data collection.

Credits 3

SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75200 - Social Work Research II

Measurement strategies, qualitative data analysis, descriptive and inferential statistics, and methods of quantitative data analysis; data management. Data collected by students from their research projects is analyzed.

prereq: SSW 75100 or equivalent

Credits 3

SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75800 - Tutorial

A reading and independent study course for students under faculty guidance.

prereq: completion of the first semester of graduate social work study and dept perm

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75801 - Tutorial

Credits 1

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75802 - Tutorial

Credits 2

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75803 - Tutorial

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76100 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information and full course descriptions.

SSW 76200 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76300 - Field Instruction III

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100 and 76200. Advanced standing program students enroll without prereq.

Credits 3

Material Fee: \$15

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76400 - Field Instruction IV

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76200 and 76300

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76700 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 6

OYR and Dual Degree students only. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76800 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76700

Credits 6

OYR and Dual Degree students only

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 77000 - Alcoholism and Substance Abuse

The state of knowledge relating to substance abuse: nature and extent of the problem, its complexity and strategies for intervention. Prevention and psychosocial treatment.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 77300 - Social Work Ethics and Values

Moral and philosophical analysis of ethical problems and value issues as presented in social work practice. Application of philosophical theories to the analysis of practice dilemmas; principles for decision-making.

Credits 3

SSW 78000 - Organizational Management and Leadership

For non-majors. Principles and processes of administration of administration in social work. Organization and administration; planning, personnel management, budget and financing, and relationships among boards, committees, executives, professional staff, and volunteers.

prereq: SSW 78100 or permission of the department

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78100 - Organizational Management and Leadership I

Theoretical understanding of the operation of social agencies. Organizational structure, authority, goal setting and service implementation, interorganizational positioning, stability and survival, and staff and administrative functioning.

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78200 - Organizational Management and Leadership II

Personnel management, staff training, volunteers and paraprofessionals, decision-making processes, budgeting, boards and committees, public relations and marketing, and methods of accountability.

prereq: SSW 78100 or dept perm

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78300 - Organizational Management and Leadership III

Program design in social agencies. Emphasis on assuring access, consistency, continuity and comprehensiveness of services, as well as client feedback mechanisms. Financial management, budgeting, strategic planning.

prereq: SSW 78100 and 78200

Credits 3

SSW 781, 782 and 783 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78600 - Advanced Administration for Non-Majors

Techniques of budgeting, public relations, staff training, working with paraprofessionals, hiring/firing, committee processes, working with boards, and developing personnel policies in social agencies.

prereq: SSW 78000 or 78700

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78700 - Supervision in Social Agencies

Basic techniques of supervising professional social workers.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79000 - Professional Seminar

Utilization and integration of practice, research and policy to determine how an issue may be ameliorated or resolved. Taken in the final semester.

Credits 3

This is a required course for all students.

SSW 79157 - Social Work with Victims of Violence against Women

Domestic violence and the complex interactions between affected individuals and their environments (children, families, communities). Interventions.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79158 - Human Sexuality

Human sexuality within the context of human behavior and the social environment; understanding unique client groups.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79171 - Social Work Practice with Immigrants and Refugees

Services for immigrants and refugees; assimilation, acculturation, bi-culturalism and ethnic identity; feelings for the homeland; resettlement and family reunification; problems of terrorism, immigration and anti-immigration.

prereq: One method course: SSW 72100, 74100, or 78100

Hours 45

Credits 3

SSW 79175 - Social Work and AIDS

The needs of people with AIDS and their families; confidentiality, mortality and human sexuality from a holistic clinical perspective.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79176 - Social Services to the Gay and Lesbian Community

Developmental models for positive lesbian, gay, bisexual or transgendered identity; social work skills for assessment and intervention.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79186 - Social Work and the Arts

Art forms are explored to provide services to populations at risk, including the elderly and the physically and mentally impaired.

Credits 3

SSW 79188 - Spirituality and Healing

Spiritual domain of human functioning. Viewing human need, strengths and experience with a spiritual lens. Spirituality and human striving for a sense of meaning and fulfillment; understanding and responsiveness to spiritual perspectives.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79189 - Perspectives on the Aging Process: Implications for Social Work Practice

Biopsychosocial relationship between health and aging with emphasis on family, culture, individual coping, and environmental stress and support.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79200 - Social Work Practice with Children and Adolescents

Effective practice with children and adolescents, adoptees, and those in foster and residential care. Social work skills needed when working with urban young people under the age of 19; strengths perspective; biopsychosocial model.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79400 - Social Work Practice: Family Treatment

An assessment of the family from a systems approach. Family developmental life cycle, family structure evaluation; tracking interactional patterns.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79652 - Social Work with Workers and Their Families

Significance of work, unemployment and the changing workplace in the lives of clients and communities. Opportunities for practice with labor and management in occupational social work settings.

prereq: SSW 71700 and one method course

Credits 3

SSW 79653 - Clinical Practice in Child Welfare

Issues in child abuse and neglect. Clinical work with families involved with the child welfare system. Treatment; transference and countertransference; development of empathy. Interventions.

prereq: SSW 71700 and one method course

Credits 3

SSW 79658 - Contemporary Psychosocial Approaches in the Treatment of Chronic Mental Illness

Evidence-based practices, within a recovery-oriented paradigm, as a general approach to practice. Specific evidence-based interventions to use for individuals with a diagnosis of serious mental illness.

prereq: SSW 71700 and one method course

Credits 3

SSW 79660 - The Aging Process: Clinical Issues in Social Work Practice with the Aged

Theoretical frameworks of human aging, including the myths and realities of major biopsychosocial problems facing older adults and their families. Practice implications.

prereq: SSW 71700 and one method course

Credits 3

SSW 79661 - Social Work Practice in School Settings

Roles and functions of social workers within a complex ecological system of home/school/community are explored with an emphasis on skill development for practice with urban children and their families.

prereq: SSW 71700 and one method course

Credits 3

SSW 79662 - Social Work Practice with AIDS and Chronic Illness

Unique approach in social work to HIV/AIDS. Illness trajectory of HIV with other epidemics and chronic illnesses. Practice techniques. Impact on women, people of color, and LGBT individuals.

prereq: SSW 71700 and one method course

Credits 3

SSW 79665 - Electoral Activism and Social Work Practice

Involvement in the electoral arena that advances social work values and empowers social workers, clients and communities to become active participants in civic life.

prereq: SSW 71700 and SSW 74100

Credits 3

SSW 79701 - Clinical Social Work Practice in Health Settings

Spectrum of reactions to illness; change and adaptation; loss, grief and bereavement; uncertainty; value dilemmas and ethical issues related to illness, health care and social work intervention.

prereq: One method course: SSW 72100, 74100, or 78100

Hours 45

Credits 3

SSW 79801 - Multicultural Social Work Practice

Trends, issues and concerns in social work practice with racially and ethnically diverse individuals, families and groups in the urban environment.

prereq: SSW 71700 and one method course

Credits 3

Social Work Programs and Courses

Return to: [Silberman School of Social Work](#)

Silberman School of Social Work

About the School

The Hunter College School of Social Work, founded in 1956, is the largest and oldest public graduate school of social work in New York City. The School's mission is to promote excellence in social work practice by preparing knowledgeable, ethical, and highly competent social work leaders for a variety of professional roles and settings. Our pedagogy, scholarship, and service reflect social work's historic commitment to human rights, cultural complexity, and social and economic justice. Commensurate with the missions of our host institutions, the School promotes community-engaged and practice-based scholarship that pursues policy and practice solutions to real world problems, thereby reinforcing the strengths of people and the communities in which they live, in New York and other major urban areas.

The School of Social Work is fully accredited by the Council on Social Work Education.

The Building and Its Uses

The School is located in a new state-of-the-art building designed specifically to meet its needs in the community of East Harlem. The School was renamed the Lois V. and Samuel J. Silberman School of Social Work in honor of its benefactors, Lois and Samuel Silberman. The new building includes a well resourced and beautiful library, community meeting spaces, four computer labs with extensive software, state-of-the art classrooms and an art gallery. In addition, the building has both an interior courtyard garden and a large terrace. A café will be located in the building as well. The CUNY School of Public Health, Centro, and Brookdale Center on Healthy Aging and Longevity are co-located in the building. In addition to resources in the School of Social Work building, there are extensive resources at the main campus of Hunter College (East 68th St. and Lexington Ave.), the Graduate Center and the other units of the City University of New York (CUNY).

Graduate Doctorate

Social Welfare PhD at the Graduate Center

Doctor of Philosophy

The PhD program in Social Welfare of the Graduate Center of City University of New York was established in 1973. The Graduate Center offers this doctoral program in social welfare at the Silberman School of Social Work. The PhD program draws the majority of its 22-member doctoral faculty from the Hunter College MSW program. For further information, go to: www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Social-Welfare

Requests for applications should be addressed to:

Admissions Office
The Graduate Center
The City University of New York
365 Fifth Avenue
New York, NY 10016

Specific inquiries about program details should be addressed to:

The Executive Officer
PhD Program in Social Welfare
Silberman School of Social Work at Hunter College
2180 Third Avenue
New York, New York 10035

Graduate Certificate

Post-Graduate Certificate Programs in Social Work

The Silberman School of Social Work at Hunter College offers post-graduate certificate programs designed for MSW's seeking to further their education in an area of interest to them, who wish to remain current in the field or who want to become certified within a specific area of study. Generally these programs are not part of any academic degree-granting program and do not carry academic credit. For detailed information see the program descriptions at www.hunter.cuny.edu/socwork/programs/post-masters-programs.html. Each program has separate criteria for admission.

In addition to these programs the School has launched **Center for Advanced Clinical Education**. This program is home base for a variety of classes, conferences, and other special events that address specific issues of current focus in clinical social work. The specific offerings change regularly and are responsive to both individual practitioners and agency training needs. Teleconferencing is available for distance as well as classroom learning. Upcoming offerings will be posted on the Silberman School of Social Work at Hunter College website.

Some classes within this Center satisfy the additional clinical education credit needs of those LMSW social workers who are seeking eligibility for the LCSW. These classes will be identified as such on the website, along with specific contact information.

Advanced Clinical Social Work: Individual and Family Treatment

This certificate program is designed to meet the needs of LMSWs and LCSWs who want to deepen their clinical practice knowledge for work in a variety of social work settings. The Post Master's Certificate Program in Advanced Clinical Practice is a one year program intended to provide continuing education to clinical practitioners working in multi-cultural urban settings. Collaboratively designed by social work educator-clinicians based in the university and the community, it reflects a commitment to the shared responsibility of the academic and practice sectors of the social work profession for continuing education.

It is designed to deepen skills for clinical social work practice with individuals and families through focusing on the integration of theory and practice. Course content includes assessment and diagnosis, treatment approaches, and trauma interventions through a developmental lens with an emphasis on the role of social-cultural factors. An integrative case seminar takes place during both semesters and includes group discussion, role play, observation and application of treatment strategies.

All courses are taught by instructors experienced in agency-based social work. This course takes place on Thursday evenings from 6 to 9 pm. For further information or application, please call 212-396-7610.

Social Work Administration

The Post Master's Certificate Program in Social Work Administration is given in conjunction with the Harold Weissman Center for the Study of Social Administration. This program was developed in response to a growing interest in raising the standards of administrative practice in the social welfare field and reflects a belief that management is rooted in the values and principles of social work practice. The program includes course work on supervision, strategic planning, non-profit financial management, program evaluation, policy analysis, fundraising and grant writing. All courses involve a practice component, and all faculty members are practicing managers.

For further information or application, please call 212-396-7588.

Graduate Masters

Social Work - MSW

The MSW curriculum reflects a commitment to social justice, diversity and practice in the urban environment. The school offers several program tracks leading to the master of social work (MSW) degree. These include the full-time Two-Year, the One-Year Residency (work study), the Advanced Standing Program for those possessing a BSW, and the Dual Degree programs with the Bank Street College of Education.

The social work curriculum is designed to assure for graduates to gain mastery of the core competencies and practice behaviors identified as essential for all social workers by the Council on Social Work Education, our accrediting body. The curriculum ensures that students also acquire advanced practice behaviors in their chosen method (Clinical

Practice with Individuals, Families and Small Groups, Community Organization, Planning, and Development, and Organizational Management and Leadership), and in a specialized field of practice (Aging; Child Welfare: Children, Youth, & Families; Health & Mental Health, & Global Social Work and Practice with Immigrants and Refugees). Please see Social Work Competencies and Associated Core Foundational Practice Behaviors for a listing of these competencies and advanced practice behaviors.

The curriculum includes courses in human behavior and the social environment, social welfare policy and services, social work research, social work practice, including four practice concentrations: clinical practice with individuals and families; group work; community organizing, planning and development; organizational management and leadership. In addition to course work, all students are expected to complete at least one field practicum that is an internship in an approved field agency. All two year program students and accelerated full time students are expected to have two fieldwork placements of two semesters each, which involve three days per week in a field agency. Students accepted into the work-study program (OYR) complete only one year of fieldwork with four day per week assignments. All students enroll in a year long Social Work Practice Learning Lab. All students are required to take three courses in one of four practice concentrations. The field practicum must be taken concurrently with a practice course. In addition, students must select advanced courses which focus on a field of practice: a specific social problem, population or institutional auspice. The fields of practice offered are: children, youth and families; gerontology; world of work; health and mental health; global social work and practice with immigrants and refugees. Elective courses in these areas and in specialized skills and problem areas such as family treatment, treatment of trauma, and substance abuse are also offered.

Admission Requirements

Successful performance in graduate social work education requires emotional maturity and stability, interest in working with people and readiness to assume professional responsibilities. The applicant's knowledge of professional social work and/or experience in social work settings is an important consideration for admission. The criteria for admission are as follows:

- Applicants must hold a bachelor's degree from an accredited college or university. Undergraduate preparation should demonstrate a liberal arts background and intellectual capacity for graduate study.
- Records of international students require special evaluation and should be submitted as early as possible. All applicants whose prior language of instruction was not English are required to take the TOEFL and achieve a minimum score of 213; 80 IBT (internet-based test).
- Good undergraduate preparation along with tested understanding of the profession gained through voluntary, internship and/or paid experience are the keys to a successful application for admission.
- Advanced Standing applicants, in addition, must have an overall GPA of 3.0 and GPA of 3.2 in the social work major and must have received the BSW degree within the last 5 years. Advanced Standing students must submit Core Competency forms from their faculty advisor and senior placement field instructor which rate the applicant on the core (foundational) practice behaviors identified by SSSW.
- one Year Residency (OYR) applicants, in addition, must have a minimum of two years full time work experience as a social service worker or supervisor of social service workers. OYR applicants must provide a letter from their agency executive documenting full time employment, and the Agency Executive Agreement Form which commits the agency to provide schedule flexibility for the student for classes and to collaborate with the school to develop meaningful learning assignments as part of the student's work assignment. The agency also commits to provide the student with a new field instructor during Time Frame II, the residency year.
- All applicants must submit an application, transcripts from all previous academic study, three professional letters of reference, and application fees. Completed applications for admission should be submitted by the deadline date established by the School each year. All admissions are subject to limitations of available seats

in the school and placement in a field practicum. Applications for admission into the MSW program must be submitted online.

Applicants may be required to participate in a group discussion as part of the admissions process.

For further information on admissions, e-mail admissions:grad.socworkadvisor@hunter.cuny.edu or swapp@hunter.cuny.edu or see the School's website at sssw.hunter.cuny.edu.

Transfer

Up to 12 non-matriculated credits of graduate social work courses, with a grade of B or better, completed within five years of MSW degree completion may be transferred from a social work program accredited by the Council on Social Work Education.

Students must complete a **Transfer of Credit Form** and supply a course description and syllabus for each course for which they are requesting transfer credit. Once all the documentation has been collected, the packet should be sent to the Admissions Office (for new students) or to the Student Affairs Office (for continuing students). The associate dean for academic and faculty affairs reviews all requests for transfer of credit. The maximum number of transfer credits is waived in the cases of applicants who apply and enter the program as transfer students. Once an applicant is accepted into the program and their documentation packet is collected, their transfer credits will be assessed, a course of study outlined, and the credits added to your Hunter College transcript as appropriate. Unfortunately, no academic credit can be given for life experience or previous work experience.

Professional Liability Insurance

As a condition of registration for fieldwork, students must have professional liability insurance. Professional liability insurance is provided through a school group policy, and payment for this policy is made at the time of registration. Cost of liability insurance does not exceed \$20 per year. Fieldwork agencies may also require that students undergo a background check and pay for fingerprinting. The cost of fingerprinting varies.

MSW Degree Program

Degree Requirements

All students in the MSW Program must complete 60 credits composed of 16 three-credit courses and a requirement for a field practicum designed to ensure that students master the core (foundation) and advanced practice behaviors. The curriculum is organized into content areas; each area includes one to three courses required for degree completion. These areas are:

Human Behavior and the Social Environment

Social Welfare Policy and Services

Social Work Ways of Knowing and Communicating

Social Work Practice Learning Lab

Research

Practice Methods

Professional Seminar

Field Education

All work must be completed within a five-year period with grades of "Credit" or "Honors".

Degree Program Tracks

Two-Year Full-time Program

One-Year Residence (OYR) Work-Study Program

Accelerated OYR

Accelerated Full-time and Accelerated OYR Programs

Advanced Standing Program

Dual Degree Program: Silberman School of Social Work at Hunter College and the Bank Street College of

Education Infant and Parent Development Program

Program for Non-matriculated Students

Two-Year Full-time Program

The two-year full-time program is for qualified students who can devote themselves to full-time academic and field study. Full-time students are expected to attend classes two days a week, and to be in a field placement three days a week, for two academic years.

One-Year Residence (OYR) Work-Study Program

The one-year residence (OYR) program is a work-study program designed to provide graduate social work education for experienced students whose personal responsibilities make the two year full-time program impractical. In this work-study model of social work education, the student's field work requirements are met at the agency of employment. As a result, the student is able to remain employed while earning MSW degree credits through all phases of the program until completion of the degree.

At the time of application OYR applicants must have completed at least two years of full-time employment in a recognized social welfare organization or agency and their current social welfare employer must agree to sponsor them. Sponsorship requires the agency to agree to provide the student with an educationally sound field work assignment. The field placement could expand on the student's current work assignment, incorporating new opportunities for learning in a social work capacity: for example, the addition of new cases, groups or projects. The agency must also provide a field instructor who is a licensed social worker as well as flexible scheduling for the student to attend classes during the residency year.

The program is organized around three "time frames," which include both part-time and full-time study. In total, in the standard OYR program students enroll in course work for five semesters and two summers. Students are permitted to take up to 30 hours of course work on a part-time basis while remaining in full-time employment. The program offers opportunity for acceleration for students who are in good academic standing.

Time Frame I is completed in evening or day classes over two semesters and one summer. Most students complete the first time frame in one year, earning 21 credits.

Time Frame II, also known as the "residency" year, occurs during the second year of matriculation. Students enroll in three courses while completing their single 900 hour field work requirement in their chosen method of practice. The requirement for a single practicum is based on the student's prior knowledge of social service organizations and the delivery of social services on a pre-professional level. The practicum requirement can be completed in four days a week (28 hours per week) during the fall and spring including January when classes may not be in session or three days a week in fall, spring, and summer. Students can take classes all on one day during the day, late afternoon and evening and/or Saturday.

Time Frame III represents the culmination of course work requirements. Classes are held in the evening.

The **Accelerated OYR** program takes 24 months to complete. Students enter in the spring and complete Time Frame I with intensive study in the evenings during spring and summer. Time Frame II is essentially the same as in the standard OYR program (see above) with additional study required in the winter session. Students complete their remaining requirements in their second summer and the following fall. Because of its acceleration, this program is intense and requires a significant commitment of time and energy.

Accelerated Full-Time and Accelerated OYR Programs

The Accelerated Programs are designed for outstanding students prepared to participate in an intensive, year-round learning experience beginning in January. The Accelerated Program option is available only to those students wishing to specialize in Clinical Practice with Individuals and Families. Full-time students complete the program in three semesters plus two summers of study. Availability for class in the afternoon and evening during the first semester and summer of enrollment is essential. These students are assigned field placements and complete their first year requirements by the end of the summer in their first 8 months of enrollment. They start their third semester in the fall and graduate in the following August.

Students who are already working in the human service field and meet the entry criteria for the One-Year Residency Program described above, complete the program in four semesters and two summers of study. They enter the Accelerated OYR program beginning with evening study in January through the summer and complete their Time Frame II studies in the following fall and spring. They are eligible to graduate in their second summer or the following December. Winter session study is also required.

Advanced Standing Program

The advanced standing program is an intensive program for outstanding students who have graduated from a baccalaureate social work program accredited by the Council on Social Work Education. A limited number of qualified applicants are accepted. Applicants must have received their undergraduate degree within the last five years.

Applicants to the advanced standing program must have an overall grade point average (GPA) of 3.0 and a GPA of 3.2 in the social work major. Applicants must meet all other admission criteria for acceptance into the graduate social work program at Hunter. Some courses required in the first year of the MSW program will be waived for applicants accepted in the advanced standing program. Hunter's advanced standing students either begin in the summer and continue through the following academic year of full-time study or start in the fall and complete their work the following summer.

Dual Degree Program: Silberman School of Social Work at Hunter College and the Bank Street College of Education Infant and Parent Development Program

This dual degree program is designed to prepare social workers to understand and work with the special needs and vulnerabilities of children from birth to age three and their families. The program prepares social workers for professional roles that combine both educational and clinical skills. The curriculum design incorporates theoretical and practice aspects of each degree into a cohesive educational and professional program. Applicants apply to each institution separately. The program requirements satisfy the accreditation standards for each degree.

In the first two years, students attend the two institutions sequentially, pursuing an intensive program at each of them. In the third year, students move between institutions to complete course work. Both institutions require a supervised field practicum. Applicants must meet all admission standards of the MSW program and are required to have experience in working with children.

Program for Non-matriculated Students

The School has learning opportunities for both pre- and post-masters students. Taking courses as a non-matriculated student can be a stimulating introduction to the MSW program and often motivates participants to apply for admission to a degree program. A maximum of nine credits is allowed and may be credited toward the degree upon matriculation. Only one course may be taken per semester.

Inquiries for pre-masters non-matriculation should be directed to the Admissions Office at the main campus (68th Street) of Hunter College. See <http://www.hunter.cuny.edu/graduateadmissions>.

Field Practicum

The Silberman School of Social Work has strong ties to many social agencies, which provide students with field placements in a variety of practice areas. Qualified agency staff members serve as student field instructors. The field practicum is an integral part of the social work curriculum. Agencies used as field practicum sites by the school are selected and approved by the school's Office of Field Education. Approval criteria include field learning opportunities and availability of qualified agency-based field instructors. Students are expected to follow agency policies, including conducting home visits.

MSW Curriculum

The School of Social Work holds that social work education must integrate core social work values and knowledge with practical application in the field. Professional, academic and field learning experiences must satisfy the highest standards of excellence. The curriculum is designed to instill a sense of respect for human integrity, a concern for social conditions and a commitment to service within the value system of the profession.

The curriculum is developed according to the standards of the Commission on Accreditation of the Council on Social Work Education. Copies of these standards and the Educational Policy Statement are available in the reserve section of the Social Work Library, and in the office of the dean. These are also available online at <http://www.cswe.org/File.aspx?id=13780>. Consistent with CSWE standards our curriculum is designed to assure that graduates master the core competencies and practice behaviors identified as essential for all social workers. The curriculum assures that students also acquire advanced practice behaviors in their practice concentration and a field of practice. Please see http://www.hunter.cuny.edu/socwork/download/Competencies_and_Practice_Behaviors.pdf for a listing of these competencies and advanced practice behaviors.

The orienting knowledge courses at the core of the curriculum are related to human needs, particularly to the problems of the more vulnerable and disadvantaged populations of New York City. The required courses, electives and majors are all constructed to teach the social work approach to meeting the needs of society.

In addition to courses offered for credit, the school provides workshops on topics such as child abuse and neglect, cultural diversity, ethics, and government benefits, as required by the New York State Department of Education, Division of Professional Licensing. Course work is augmented and reinforced by the all-important field practicum. Agencies and service organizations in the various areas of social work practice, with their qualified agency supervisors and field instructors, provide the vital training and experience for students. The curriculum is organized into five professional curriculum areas and five fields of practice that reflect human needs and values and their associated social institutions and services. The curriculum includes foundation and advanced courses in:

Human Behavior and the Social Environment

Social Welfare Policy and Services

Social Work Practice Learning Lab

Social Work Research

Practice Method Concentrations

Professional Seminar

Field Education

Human Behavior and the Social Environment

This three-course sequence SSW 71100 SSW 71200 SSW 71300 and its related electives address the person-in-situation matrix with a specific focus of attention on issues of diversity (culture, class, ethnicity, race, age, sexual orientation, spirituality, ability, and gender). Stages of development across the life span define one axis, while critical contexts (individual, family, function and role-based groups, communities, organizations, and society) define the other axis of environmental forces that may impinge on social functioning.

Social Welfare Policy and Services

This two-course sequence SSW 70150 and one course in the 70200 series explores the history, planning, intent and operations of the US social welfare system. The courses identify key ideological frameworks that shape the current public debates over social welfare policy, analyze the structure of the social welfare system, and explore issues of poverty in the context of oppression, diversity and social justice. The 70200 courses each focus on a selected social welfare issue or special population.

Social Work Practice Learning Lab

The development of foundation competence is required in cross methods practice. This is achieved through enrollment in the Social Work Practice Learning Lab 1 & 2 and related field practicum skill workshops.

In the first year all students take SSW 71700 and SSW 71800 Social Work Practice Learning Lab. This course explores the institutional and social context of social work practice, the problem areas and populations served by social workers, and the differential use of practice methods and builds foundation competencies in professional social work. After successful completion of SSW 71700 students commence courses in their concentration.

SSW 71700 - Social Work Practice Learning Lab 1

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

Credits 3

SSW 71700 and 71800 are required. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71800 - Social Work Practice Learning Lab 2

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

prereq: SSW 71700

Credits 3

SSW 71700 and 71800 are required. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work Research

SSW 75100 - Social Work Research I

Principles of social research methods in the context of social work practice. Problem formulation, research design and role of research in social work, ethical issues, sampling, measurement and data collection.

Credits 3

SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75200 - Social Work Research II

Measurement strategies, qualitative data analysis, descriptive and inferential statistics, and methods of quantitative data analysis; data management. Data collected by students from their research projects is analyzed.

prereq: SSW 75100 or equivalent

Credits 3

SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Practice Methods Concentrations

Development of advanced competence in one of the following practice method concentrations: clinical practice with individuals and families; community organization, planning, and development; and organizational management and leadership is required. Every student majors in one of these concentrations and must take three sequential courses in that concentration or (with permission) two sequential courses in that concentration and an approved multi-method practice elective. Additional method and practice courses are offered; sequencing of requirements varies according to the various programs.

Clinical Practice with Individuals and Families

The clinical practice with individuals and families concentration prepares students for agency-based clinical practice in the urban environment. Students in this concentration are prepared to counsel individuals, pairs and families in order to help with a variety of personal, interactional and social problems. Concepts of clinical assessment and intervention are taught from a biopsychosocial perspective. Students are exposed to a variety of theoretical modalities that are augmented by evidence-based-practice perspectives. Issues of diversity and oppression are integrated into the study of assessment, treatment planning and intervention as well as the professional relationship. Emphasis is placed on differential assessment and intervention with a variety of diverse client groups. Clinical services are offered in a wide range of practice settings, such as child and family agencies, unions, industries, hospitals, mental health and substance abuse clinics, courts and settlement houses. The setting of the service makes possible in-depth teaching about specific populations and problems, managing service needs and styles and such specific intervention models as crisis intervention, advocacy, and various brief and long-term treatment modalities.

SSW 72100 - Clinical Practice with Individuals and Families I

Development and use of clinical theory, practice and process. Integration and application of the values that underpin social work practice to engagement, biopsychosocial assessment and intervention.

prereq: SSW 71700

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72200 - Clinical Practice with Individuals and Families II

Application of clinical principles, including those of psychodynamic and family systems theories. Knowledge from human behavior and the social environment and social welfare policy and services areas and research findings is applied to the assessment of clients and their situations.

prereq: SSW 72100

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72300 - Clinical Practice with Individuals and Families III

Expands and deepens knowledge and skills from multiple theoretical perspectives for professional practice. Exploration of contemporary time-limited clinical practice models with a focus on the interface of these approaches with contextual factors such as agency setting; socio-cultural specificity and the client-worker relationship in assessment and intervention will be emphasized.

prereq: SSW 72100 and 72200

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Community Organization, Planning and Development

This concentration develops students' competence for community-based practice. It stresses the skills, techniques and strategies needed to mobilize people and resources to solve basic social problems at either the neighborhood or city-wide level. The social planning and social reform aspects of social work practice are underscored in seeking change to alleviate individual and family problems. Education and training are developed in collective action, advocacy, program evaluation, proposal writing, community outreach, legislative advocacy and other vital organizing roles. Field practicums occur in a number of settings in international organizations, city and state planning agencies, legislative offices, community engagement arms of human service organizations, and a wide variety of grassroots organizations. Students in these placements work on everything from local economic development issues, food and hunger projects, and tenant advocacy to LGBTQ issues and women's rights.

SSW 74100 - Community Organizing, Planning and Development-I

Theory and practice of community organization and planning. Models and strategies for professional practice for community and client participation and empowerment. Community needs and resources; practice dynamics; dilemmas.

prereq: SSW 71700

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74250 - Community Organizing, Planning and Development-II

Theoretical, strategic and technical aspects of planning with a focus on problem-solving analysis, design, implementation, and evaluation of community and service system interventions. Emphasizes impact of class, race, gender and sexual orientation on planning.

prereq: SSW 74100

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74350 - Community Organizing, Planning and Development-III

Uses Freirian methods to deepen students' strategic applications towards the creation of democratic experience, emphasizing leadership development, dynamics of power and privilege, and dilemmas/opportunities in working *with* not *for* the oppressed.

prereq: SSW 74100 and 74250

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information .

Organizational Management and Leadership

Students who elect to concentrate in Organizational Management and Leadership (OML) are prepared to assume varied management positions in social agencies, including the traditional supervisory, middle management, and executive positions as well as jobs as program planner and analyst, staff trainer, program director, or budget analyst. Those focusing on OML develop conscious and strategic use of self in managing the complex tasks of program managers. Students seeking to concentrate in OML should have some prior experience either in management and/or social work or human services line work. Field practicums are available in a wide range of public and private social agencies. Many students entering OML are in our One-Year Residency Program. A wide variety of placements are available for two-year OML students with the many graduates of SSSW in leadership roles around the city.

SSW 78100 - Organizational Management and Leadership I

Theoretical understanding of the operation of social agencies. Organizational structure, authority, goal setting and service implementation, interorganizational positioning, stability and survival, and staff and administrative functioning.

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78200 - Organizational Management and Leadership II

Personnel management, staff training, volunteers and paraprofessionals, decision-making processes, budgeting, boards and committees, public relations and marketing, and methods of accountability.

prereq: SSW 78100 or dept perm

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78300 - Organizational Management and Leadership III

Program design in social agencies. Emphasis on assuring access, consistency, continuity and comprehensiveness of services, as well as client feedback mechanisms. Financial management, budgeting, strategic planning.

prereq: SSW 78100 and 78200

Credits 3

SSW 781, 782 and 783 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Professional Seminar

The Professional Seminar is a capstone seminar that requires students to identify an emerging practice issue or concern, examine the known evidence, and design a study that better addresses the issue at hand. The course is designed as an integrating and synthesizing experience, wherein students consult with one another in addressing a specific concern. The course launches students into the profession with a keen sense that they can influence the context in which they will practice as social workers.

SSW 79000 - Professional Seminar

Utilization and integration of practice, research and policy to determine how an issue may be ameliorated or resolved. Taken in the final semester.

Credits 3

This is a required course for all students.

Field Education

This two-to-four-term sequence of on-site work in social service agencies is an integral component of all pathways to the MSW degree. Students in field placement must be concurrently enrolled in a practice course: Social Work Practice Learning Lab, methods course or other practice course. Training is provided by a field instructor; it is monitored by the instructional faculty and the student's adviser.

Two-Year and Advanced Standing Programs

SSW 76100 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information and full course descriptions.

SSW 76200 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76300 - Field Instruction III

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100 and 76200. Advanced standing program students enroll without prereq.

Credits 3

Material Fee: \$15

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76400 - Field Instruction IV

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76200 and 76300

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

One-Year Residency and Dual Degree Programs

SSW 76700 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 6

OYR and Dual Degree students only. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76800 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76700

Credits 6

OYR and Dual Degree students only

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Electives

Students may choose from a menu of courses within each curriculum area.

Fields of Practice Specializations

Students are, expected to specialize in one of the following Fields of Practice. This includes an appropriate field practicum, enrollment in two pre-designated courses, and a specialization focus in research or professional seminar. Students should consult their faculty adviser for details.

Children Youth and Families

Gerontology

Health and Mental Health

World of Work

Immigrants and Global Social Work

Children, Youth and Families

This field of practice is designed for students interested in working in public and/or private child welfare agencies, schools, or children, youth, and family organizations in direct service, supervisory, or administrative capacities. The developmental needs of children, youth and families; crises and disruptions in family life (broadly defined); conflicts and violence; child placement issues are a focus of attention. It prepares social workers to provide a broad range of services to individuals, groups and families in all phases of the family life cycle.

Gerontology

This specialization explores the aging process and the variety of issues affecting older adults and their family systems. It is guided by the principle that older adults are individuals and members of a family and community with rights and responsibilities—who must be afforded the necessary protection and assistance to participate fully in family, cultural and social life.

Health and Mental Health

This field of practice is designed for students interesting in meeting the changing needs of people with medical and psychiatric problems; addressing patients' rights, delivering services in hospitals, ambulatory care or primary care facilities, community-based clinics; chronic and long-term care settings.

World of Work

The theme of work over the life span including services to employed, unemployed, and underemployed adults, older adults and their families, often through management or labor-sponsored service programs.

Immigrants and Global Social Work

Indigenous perspectives from around the globe inform learning and practice in international contexts, and with immigrants and refugees in the urban environment. Special attention is paid to understanding the diverse meaning of adversity, strength and well-being towards developing sustainable, rights-driven and culturally relevant policy and practice.

Education: Bilingual Education

BILED 78500 - Student Teaching in Grades 1–3

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 30 days student teaching, 15 hrs of seminar plus conferences,

Credits 2 cr

Social Work: Clinical Practice With Individuals and Families

SSW 72100 - Clinical Practice with Individuals and Families I

Development and use of clinical theory, practice and process. Integration and application of the values that underpin social work practice to engagement, biopsychosocial assessment and intervention.

prereq: SSW 71700

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72200 - Clinical Practice with Individuals and Families II

Application of clinical principles, including those of psychodynamic and family systems theories. Knowledge from human behavior and the social environment and social welfare policy and services areas and research findings is applied to the assessment of clients and their situations.

prereq: SSW 72100

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72300 - Clinical Practice with Individuals and Families III

Expands and deepens knowledge and skills from multiple theoretical perspectives for professional practice. Exploration of contemporary time-limited clinical practice models with a focus on the interface of these approaches with contextual factors such as agency setting; socio-cultural specificity and the client-worker relationship in assessment and intervention will be emphasized.

prereq: SSW 72100 and 72200

Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 72400 - Clinical Practice with Individuals, Families and Groups IV Sections

Brief Therapies, Child Therapy, Cognitive/Behavioral, Family Therapy, Trauma Therapy, and Treatment of Pairs, Relational Therapy. Students identify professional issues and dilemmas in both knowledge and practice. Special emphasis is on assuring competence.

prereq: SSW 72100

Hours 45

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79200 - Social Work Practice with Children and Adolescents

Effective practice with children and adolescents, adoptees, and those in foster and residential care. Social work skills needed when working with urban young people under the age of 19; strengths perspective; biopsychosocial model.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79400 - Social Work Practice: Family Treatment

An assessment of the family from a systems approach. Family developmental life cycle, family structure evaluation; tracking interactional patterns.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Community Organization, Planning and Development

SSW 74100 - Community Organizing, Planning and Development-I

Theory and practice of community organization and planning. Models and strategies for professional practice for community and client participation and empowerment. Community needs and resources; practice dynamics; dilemmas.

prereq: SSW 71700

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74250 - Community Organizing, Planning and Development II

Theoretical, strategic and technical aspects of planning with a focus on problem-solving analysis, design, implementation, and evaluation of community and service system interventions. Emphasizes impact of class, race, gender and sexual orientation on planning.

prereq: SSW 74100

Hours 3 hrs

Credits 3 cr.

SSW 74250 - Community Organizing, Planning and Development-II

Theoretical, strategic and technical aspects of planning with a focus on problem-solving analysis, design, implementation, and evaluation of community and service system interventions. Emphasizes impact of class, race, gender and sexual orientation on planning.

prereq: SSW 74100

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74350 - Community Organizing, Planning and Development-III

Uses Freirian methods to deepen students' strategic applications towards the creation of democratic experience, emphasizing leadership development, dynamics of power and privilege, and dilemmas/opportunities in working *with* not *for* the oppressed.

prereq: SSW 74100 and 74250

Credits 3

SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information .

SSW 74700 - Community Organizing, Planning and Development for Non-Majors

The community as a dimension of professional practice. Models and strategies for community intervention on behalf of those seeking improved access to resources and services; knowledge and skills needed to build supports and programs.

Hours 45

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 74800 - Grantsmanship and Proposal Writing

Techniques of fundraising, proposal preparation, and grantsmanship. Proposal writing and negotiation with funding sources.

prereq: one methods course

Hours 45

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Field Education

SSW 76100 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information and full course descriptions.

SSW 76200 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76300 - Field Instruction III

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100 and 76200. Advanced standing program students enroll without prereq.

Credits 3

Material Fee: \$15

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76400 - Field Instruction IV

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76200 and 76300

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76700 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: \$15

Credits 6

OYR and Dual Degree students only. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 76800 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76700

Credits 6

OYR and Dual Degree students only

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Human Behavior and the Social Environment

SSW 71100 - Human Behavior and the Social Environment I

Identification and integration of pertinent concepts relevant to each phase of the life cycle; biological, psychological, and social systems theories within the conceptual framework of human behavior and its interaction with the social environment.

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71200 - Human Behavior and the Social Environment II

Required sequel to SSW 711. Exploration of normative life span progress from adolescence through older adulthood using theories of multicausality, gender, social class, and cultural pluralism and diversity.

prereq: SSW 711

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71300 - Human Behavior and the Social Environment III

Understanding dysfunction. Concepts of mental health and illness, deviance and conformity; classification systems; influences on the diagnosis and treatment processes. Theories of etiology and treatment in relation to the needs of families, groups and communities. Attendance at an additional 2-hour lecture on psychopharmacology is required.

prereq: SSW 711 and 712

Credits 3

SSW 71100, 71200 and 71300 are required. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79158 - Human Sexuality

Human sexuality within the context of human behavior and the social environment; understanding unique client groups.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Organizational Management and Leadership

SSW 78000 - Organizational Management and Leadership

For non-majors. Principles and processes of administration of administration in social work. Organization and administration; planning, personnel management, budget and financing, and relationships among boards, committees, executives, professional staff, and volunteers.

prereq: SSW 78100 or permission of the department

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78100 - Organizational Management and Leadership I

Theoretical understanding of the operation of social agencies. Organizational structure, authority, goal setting and service implementation, interorganizational positioning, stability and survival, and staff and administrative functioning.

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78200 - Organizational Management and Leadership II

Personnel management, staff training, volunteers and paraprofessionals, decision-making processes, budgeting, boards and committees, public relations and marketing, and methods of accountability.

prereq: SSW 78100 or dept perm

Credits 3

SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78300 - Organizational Management and Leadership III

Program design in social agencies. Emphasis on assuring access, consistency, continuity and comprehensiveness of services, as well as client feedback mechanisms. Financial management, budgeting, strategic planning.

prereq: SSW 78100 and 78200

Credits 3

SSW 781, 782 and 783 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78600 - Advanced Administration for Non-Majors

Techniques of budgeting, public relations, staff training, working with paraprofessionals, hiring/firing, committee processes, working with boards, and developing personnel policies in social agencies.

prereq: SSW 78000 or 78700

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 78700 - Supervision in Social Agencies

Basic techniques of supervising professional social workers.

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Professional Seminar

SSW 79000 - Professional Seminar

Utilization and integration of practice, research and policy to determine how an issue may be ameliorated or resolved. Taken in the final semester.

Credits 3

This is a required course for all students.

Social Welfare Policy and Services

SSW 70150 - Social Welfare Policy and Services I: Introduction to Social Welfare Policy and Services

Circumstances that give rise to social problems and their policy solutions; frameworks for analyzing these developments; values and skills needed to understand social policy and engage in advocacy and social change are stressed.

Credits 3

SSW 70100 and one SSW 702xx course are required. SSW 70100 is a prerequisite for all SSW 702xx courses.

Students may choose the following SSW 702 course to fulfill the advanced social policy requirement. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 70210 - The Organization and Delivery of Social Services to Workers and Their Families

Human and fiscal resources and opportunities for innovative policy and program development in the world of work. Issues of economic, social and political organization in the workplace; union and industry programs as models for creative occupational social work policy and practice.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70211 - Political Economy of Social Welfare

U.S. social welfare policy and the social work profession in the context of contradictions in political economy. History of economic development; analysis of current economic and political conflicts in the global economy; strategies for change.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70213 - Women and Social Welfare

U.S. social welfare policy through the lens of gender: women's rights, feminist perspective and the impact of gender stereotypes.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70214 - Health and Mental Health Systems

U.S. health and mental health systems; effect of major policy shifts in service delivery on both health care services and populations at risk.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70215 - Policy and Practice in Child Welfare

Interplay of child welfare policy, service and practice issues from historical, political, socioeconomic and legal perspectives. Organization; assessment; children's vs. parents' rights; and other issues.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70216 - Social Welfare Policy with the Homeless

Ways in which social welfare policies and social services have affected homelessness; the role of social work in this policy arena.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70217 - Social Welfare Policy in the Field of Aging

Aging policy and legislation; health care, retirement, work, and family issues. Organization, utilization and impact of services on the aging; attention given to special populations.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70218 - Seminar in Social Welfare

Social welfare policy and social change issues are studied. Topics vary each semester.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70219 - Immigrants and Refugees: Policies and Issues

History and development of immigration and social policies that affect immigrants and refugees in America. Policy theories, dynamics and patterns related to immigration policy; delivery of service; social welfare policy advocacy.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70220 - Clients' Rights, the Legal System and Social Policy

The role of legal rights in the welfare state with reference to special populations. Origins, history and the current status of the legal rights of clients; use of laws to promote social justice and social change; advocacy by social workers for clients' rights.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70221 - Social Welfare and Disabilities

Implications of the Americans with Disabilities Act (ADA) and other legislation on social work practice with people who have disabilities. Creation of effective service delivery systems.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

SSW 70222 - International Social Welfare Policy and Services

International social welfare policy and services in social work. Review of past, present and future challenges produced by history, economic change, and globalization and their implication.

prereq: SSW 70100

Credits 3

This course fulfills the advanced social policy requirement

Social Work Practice Learning Lab

SSW 71700 - Social Work Practice Learning Lab 1

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

Credits 3

SSW 71700 and 71800 are required. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71800 - Social Work Practice Learning Lab 2

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

prereq: SSW 71700

Credits 3

SSW 71700 and 71800 are required. Please consult the School of Social Work website:

<http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work Research

SSW 75100 - Social Work Research I

Principles of social research methods in the context of social work practice. Problem formulation, research design and role of research in social work, ethical issues, sampling, measurement and data collection.

Credits 3

SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75200 - Social Work Research II

Measurement strategies, qualitative data analysis, descriptive and inferential statistics, and methods of quantitative data analysis; data management. Data collected by students from their research projects is analyzed.

prereq: SSW 75100 or equivalent

Credits 3

SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Social Work: Electives

SSW 71500 - Seminar in Psychodynamics

Dimensions of psychodynamic theory: modern drive theory, ego psychology and object relations theory. Relationship to clinical practice.

prereq: SSW 71100 and 71200

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 71900 - Foundations of Social Work Practice

An orientation to the profession of social work, the use of research in practice, the multicultural context of practice, the common base of practice and some of the unique aspects of clinical work with individuals and families, group work, community organization and administration.

Credits 3

SSW 72700 - Social Work with Clients in Authoritarian Settings: Working with Mandated and Involuntary Clients

Services to individuals and groups involved with parole, probation, court clinics, institutions for offenders, and child and adult protection agencies.

Credits 3

SSW 77000 - Alcoholism and Substance Abuse

The state of knowledge relating to substance abuse: nature and extent of the problem, its complexity and strategies for intervention. Prevention and psychosocial treatment.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 77300 - Social Work Ethics and Values

Moral and philosophical analysis of ethical problems and value issues as presented in social work practice. Application of philosophical theories to the analysis of practice dilemmas; principles for decision-making.

Credits 3

SSW 79157 - Social Work with Victims of Violence against Women

Domestic violence and the complex interactions between affected individuals and their environments (children, families, communities). Interventions.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79171 - Social Work Practice with Immigrants and Refugees

Services for immigrants and refugees; assimilation, acculturation, bi-culturalism and ethnic identity; feelings for the homeland; resettlement and family reunification; problems of terrorism, immigration and anti-immigration.

prereq: One method course: SSW 72100, 74100, or 78100

Hours 45

Credits 3

SSW 79175 - Social Work and AIDS

The needs of people with AIDS and their families; confidentiality, mortality and human sexuality from a holistic clinical perspective.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79176 - Social Services to the Gay and Lesbian Community

Developmental models for positive lesbian, gay, bisexual or transgendered identity; social work skills for assessment and intervention.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79186 - Social Work and the Arts

Art forms are explored to provide services to populations at risk, including the elderly and the physically and mentally impaired.

Credits 3

SSW 79188 - Spirituality and Healing

Spiritual domain of human functioning. Viewing human need, strengths and experience with a spiritual lens. Spirituality and human striving for a sense of meaning and fulfillment; understanding and responsiveness to spiritual perspectives.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79189 - Perspectives on the Aging Process: Implications for Social Work Practice

Biopsychosocial relationship between health and aging with emphasis on family, culture, individual coping, and environmental stress and support.

prereq: SSW 71100

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 79652 - Social Work with Workers and Their Families

Significance of work, unemployment and the changing workplace in the lives of clients and communities. Opportunities for practice with labor and management in occupational social work settings.

prereq: SSW 71700 and one method course

Credits 3

SSW 79653 - Clinical Practice in Child Welfare

Issues in child abuse and neglect. Clinical work with families involved with the child welfare system. Treatment; transference and countertransference; development of empathy. Interventions.

prereq: SSW 71700 and one method course

Credits 3

SSW 79658 - Contemporary Psychosocial Approaches in the Treatment of Chronic Mental Illness

Evidence-based practices, within a recovery-oriented paradigm, as a general approach to practice. Specific evidence-based interventions to use for individuals with a diagnosis of serious mental illness.

prereq: SSW 71700 and one method course

Credits 3

SSW 79660 - The Aging Process: Clinical Issues in Social Work Practice with the Aged

Theoretical frameworks of human aging, including the myths and realities of major biopsychosocial problems facing older adults and their families. Practice implications.

prereq: SSW 71700 and one method course

Credits 3

SSW 79661 - Social Work Practice in School Settings

Roles and functions of social workers within a complex ecological system of home/school/community are explored with an emphasis on skill development for practice with urban children and their families.

prereq: SSW 71700 and one method course

Credits 3

SSW 79662 - Social Work Practice with AIDS and Chronic Illness

Unique approach in social work to HIV/AIDS. Illness trajectory of HIV with other epidemics and chronic illnesses. Practice techniques. Impact on women, people of color, and LGBT individuals.

prereq: SSW 71700 and one method course

Credits 3

SSW 79665 - Electoral Activism and Social Work Practice

Involvement in the electoral arena that advances social work values and empowers social workers, clients and communities to become active participants in civic life.

prereq: SSW 71700 and SSW 74100

Credits 3

SSW 79701 - Clinical Social Work Practice in Health Settings

Spectrum of reactions to illness; change and adaptation; loss, grief and bereavement; uncertainty; value dilemmas and ethical issues related to illness, health care and social work intervention.

prereq: One method course: SSW 72100, 74100, or 78100

Hours 45

Credits 3

SSW 79801 - Multicultural Social Work Practice

Trends, issues and concerns in social work practice with racially and ethnically diverse individuals, families and groups in the urban environment.

prereq: SSW 71700 and one method course

Credits 3

Social Work: Tutorials

SSW 75800 - Tutorial

A reading and independent study course for students under faculty guidance.

prereq: completion of the first semester of graduate social work study and dept perm

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75801 - Tutorial

Credits 1

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75802 - Tutorial

Credits 2

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

SSW 75803 - Tutorial

Credits 3

Please consult the School of Social Work website: <http://www.hunter.cuny.edu/socwork/> for additional information.

Sociology/Social Research Department Description

Return to Sociology/Social Research Department

The core agenda of the Hunter College Sociology Department is to instruct students in a major that develops critical skills and social awareness and is also part of a broad and rich liberal arts curriculum. The Sociology Department at Hunter College has been built with the comprehensive aim of including most of the various facets of the sociological enterprise, including: theoretical/philosophical sociologists, field and quantitative researchers, criminologists, critical and feminist theorists, specialists in media studies and consumer behavior, micro-sociologists, students of global and international studies, urban studies, and specialists in computer-based research programs.

At Hunter College, our Sociology Department faculty members fulfill a triple mission as teachers, researchers/scholars and as active members of the larger Hunter community. First, as teachers, we take seriously the rich diversity of Hunter's student body by offering courses that emphasize both local and global perspectives. We use New York City as a "laboratory" in many of our courses at both the undergraduate and master's levels including "Intro," urban sociology, quantitative methods and statistics, race/ethnicity, immigration, consumer behavior, criminology and gender studies. We also offer courses on international development and globalization. Our strength in the fields of race/ethnicity and immigration, as well as in a range of other established subfields, allows us to incorporate sociological perspectives with an appreciation of Hunter students' wonderfully diverse backgrounds and experience. Nearly all the courses that are given in these various specializations are offered on a more or less regular basis and are nearly always fully subscribed since students who are not majors also take our courses in large numbers. Both in our undergraduate and graduate

programs, we encourage faculty to develop new electives on a regular basis so as to keep our curriculum up to date and interesting for students.

At the graduate level, our Master of Science in Social Research program is successful at preparing students for careers in applied sociology, and at making it possible for students to secure jobs in the non-profit, governmental and corporate world that may have traditionally been closed to them. The Master's program ("GSR") is nationally recognized as a model for integrating the applied with the theoretical in training students for the professional world. Our combined BA/MS Program also gives students who already attend Hunter an opportunity to remain engaged with their studies while becoming integrated into a community of sociologists.

Sociology/Social Research Department Faculty

[Return to Sociology/Social Research Department](#)

Michael Owen Benediktsson, Assistant Professor; PhD, Princeton University; Urban and Cultural Sociology/Theory

Lynn Chancer, Professor; PhD, CUNY; Race/Class/Gender, Criminology/Delinquency

Erica Childs, Assistant Professor; PhD, Fordham; Race/Gender/Sexuality, Family, Media/Popular Culture

Margaret Chin, Assistant Professor; PhD Columbia; Family, Qualitative Research Methods

Thomas DeGloma, Assistant Professor; PhD, Rutgers; Culture, Cognition/memory, Symbolic Interaction, and Sociological Theory

Nancy Foner, Distinguished Professor; PhD, Chicago; Migration and Immigration, Race/Class/Gender, Urban Sociology; Joint Appointment with Graduate Center

- Early Childhood Special Education: Severe/Multiple Disabilities - MSED
- Gifted Education Extension - Advanced Certificate
- Visual Impairment: Rehabilitation Teaching Only - MSED
- Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSED

Student Eligibility

To be eligible for federal and state aid, a student must be a United States citizen or an eligible non-citizen, who is making satisfactory academic progress toward a degree. Students who have defaulted on a loan or owe a repayment of a federal grant at any post-secondary school must make satisfactory repayment arrangements with that institution before they will be eligible to receive aid at Hunter College.

Satisfactory Academic Progress

All recipients of financial aid must be making satisfactory progress toward a degree.

Student Regulations and Rights

Statement on the Rights of Students

The Hunter College Senate voted endorsement of the following statement on September 24, 1974:

Preamble

"Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well being of society. Free inquiry and free expression are indispensable to the attainment of these goals....Freedom to teach and freedom to learn are inseparable facets of academic freedom."

Students "have a distinctive role...which qualifies them to share in the responsible authority on campus; the exercise of the authority is part of their education....Joint efforts among all groups in the institution-students, faculty, administration, and governing board-is a prerequisite of sound academic government....Joint effort, to be effective, must be rooted in the concept of shared authority. The exercise of shared authority in college and university government, like the protection of (student and faculty) academic freedom, requires tolerance, respect, and a sense of community."

"The responsibility to secure and respect general conditions conducive to the freedom to learn is shared by all members of the academic community."

Students' rights are not limited by what is enumerated in this statement. The purpose of the statement is to outline some basic principles and guidelines, many of which are now met. Specific implementation will have to be continuously adjusted as conditions at the college change.

I. Academic and Personal Files

1. Improper disclosure, even within the college, of academic, personal, and disciplinary records is a serious invasion of privacy. To minimize the risk of improper disclosure, academic, personal, and disciplinary records should be kept in separate files.
2. All files may be made available only to specially authorized college staff. Express consent of the student involved is otherwise required.
3. Academic records and transcripts should contain only information about scholastic achievement.
4. No records should be kept which reflect the political and off-campus activities or beliefs of students.
5. Non-current medical and disciplinary records should be periodically destroyed.
6. Students have the right to periodically review their academic, medical and disciplinary records and to appeal for removal of items improperly included. If the appeal fails the student has the right to append a written rebuttal to the record.

II. Classroom, Grades, etc.

1. Students have the right, within the limits of available facilities, to pursue any course of study for which they are eligible according to college standards.
2. In order to permit eligible students unhindered access to courses, the costs of required materials should be kept within reasonable limits.
3. Students have the right to know, at the start of each course of study, the basis to be used by the instructor in determining grades.

4. Students' grades should be based solely on academic criteria, not on opinions or conduct in matters unrelated to academic standards.
5. Students should have the opportunity to take reasoned exception to facts or points of view offered in any course of study, but they are responsible for meeting the academic standards of any course of study for which they are enrolled.
6. Students should have the protection through formally established procedures against prejudiced or capricious academic standards or evaluations.

III. Participation in Academic Affairs

1. Students have the right, individually and collectively, to express their views on matters of general interest to the student body, including institutional policy, curriculum, and personnel decisions.
2. Students have the right to participate in the formulation and application of institutional policy affecting academic and student affairs.
3. Students should share in the formation of policies regarding degree requirements, courses and curriculum, academic grading systems, standards of academic standing, and calendar arrangements.
4. Students should have the opportunity, individually and collectively, to assess the value of a course and to express their views on the form and conduct of a class which they have taken.
5. The results of an institutional mechanism used for students to assess courses and faculty, such as evaluation questionnaires, should be accessible to all members of the college community, and should be weighed in all decisions affecting faculty status and curriculum.

IV. Extracurricular Activities

1. Students should be free to form and join associations to promote their common interests.
2. Students have the right to express their opinions, individually and collectively, and to support causes in a manner that does not disrupt the orderly operation of the college.

V. Standards of Conduct

1. Students should participate in the formulation of standards of behavior which are considered essential to the educational mission and community responsibilities of the college.
2. The code of conduct, as a set of regulations and procedures, should be clearly stated and published in a handbook or other generally available set of institutional regulations.
3. In all cases, disciplinary procedures should protect the student from capricious and prejudicial application of the rules of conduct. Such procedures should also satisfy the requirements of procedural due process, including written notice with details of charges, sufficient time to prepare a defense, right to assistance in the defense, right to cross-examine witnesses and to present evidence, and the right to appeal the decision.

RESOLVED, That these rules and regulations be incorporated in each college bulletin.

Adopted by the Board of Trustees of The City University of New York on June 23, 1969, and amended on October 27, 1980, and May 22, 1989.

Rules and Regulations for Students Pursuant to Article 224A

1. No person shall be expelled from or be refused admission as a student to an institution of higher education for the reason that he is unable, because of his religious beliefs, to attend classes or to participate in any examination, study or work requirements on a particular day or days.
2. Any student in an institution of higher education who is unable, because of his religious beliefs, to attend classes on a particular day or days shall, because of such absence on the particular day or days, be excused from any examination or any study or work requirements.
3. It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his religious beliefs, an equivalent opportunity to make up any examination, study or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.
4. If classes, examinations, study or work requirements are held on Friday after four o'clock post meridiem or on Saturday, similar or makeup classes, examinations, study or work requirements shall be made available on other days, where it is possible and practicable to do so. No special fees shall be charged to the student for these classes, examinations, study or work requirements held on other days.
5. In effectuating the provisions of this section, it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his availing himself or herself of provisions of this section.
6. Any student who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section shall be entitled to maintain an action or proceeding in the supreme court of the county in which such institution of higher education is located for the enforcement of his rights under this section.
 1. A copy of this section shall be published by each institution of higher education in the catalog of such institution containing the listing of available courses.
7. As used in this section, the term "institution of higher education" shall mean schools under the control of the Board of Trustees of the State University of New York or of the Board of Trustees of the City University of New York or any community college.

Equal Opportunity Programs

Hunter College does not discriminate on the basis of race, color, religion, sex, national or ethnic origin, age, handicap, marital status, or sexual orientation. Any student who is discriminated against on the basis of any of these attributes will be afforded due process in accordance with Section 15.3 of the Student Disciplinary Procedure.

Student Resources

In reviewing the student budget, a prospective student should consider the resources that will be available from earnings and savings, the amount that parents can contribute, and any benefits the prospective student receives, such as social security, veteran's benefits, unemployment, or welfare.

Summer employment can help to meet the first costs of enrollment, and the prospective student should plan to save money from summer earnings.

Cash will be needed right away for books, supplies, and transportation.

Students Matriculated at Hunter Taking Courses at Other Institutions

Hunter matriculated students in good standing (GPA 3.0) have the option of taking courses at other CUNY colleges on a "EPermit" basis and receiving credit toward their Hunter degree with permission of the graduate adviser. Instructions on permit requirements and procedures are available at <http://registrar.hunter.cuny.edu/>. Students who would like to enroll in courses at a non-CUNY college should inquire in the OASIS, room 217 North. The student registers at a non-CUNY college as a nonmatriculated student and at the end of the semester requests that a transcript be sent to Hunter College, Attention: Records Division/Permits, Room 223 North Building.

A schedule of classes, giving the days and times when each graduate course will meet, is published prior to each registration and posted on the Office of the Registrar website at <http://registrar.hunter.cuny.edu>.

Students Matriculated at Other Colleges of the City University

Students matriculated in a graduate program at any other branch of the City University who want to register for a course or courses at Hunter College are required to use the EPermit System available at www.cuny.edu/. Students must register for a CUNY Portal account and complete the EPermit process at this site. Information regarding their Epermit request will be e-mailed to their e-mail address. Deadline dates are available at <http://registrar.hunter.cuny.edu/> Tuition payment for courses is made at the student's home school. Grades will be collected by the City University and forwarded to Hunter College at the end of the semester, once grades become available.

Students' Rights Concerning Education Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

I. The right to inspect and review the student's education records.

Students should submit to the registrar, the dean of students, or other appropriate college official, written requests that identify the record(s) they wish to inspect. If the records are not maintained by the college official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

All requests shall be granted or denied in writing within 45 days of receipt. If the request is granted, the student will be provided with copies of the requested records or notified of the time and place where the records may be inspected.

Students will be charged a fee for copies of requested records. If the request is denied or not responded to within 45 days, the student may appeal to the college's FERPA appeals officer. Additional information regarding the appeal procedures will be provided by the college's FERPA appeals officer: Office of Legal Affairs, Hunter College, Room 1705E, 695 Park Avenue, New York, NY 10021.

II. The right to request the amendment of the student' s education records that the student believes are inaccurate or misleading.

Students may ask the college to amend a record that they believe is inaccurate or misleading. They should write to the registrar, the dean of students, or other appropriate college official, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the college decides not to amend the record as requested by the student, the college will notify the student of the decision and advise the student of his or her right to a hearing before the college's FERPA appeals officer regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

III. The right to consent to disclosure of personally identifiable information contained in the student' s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to college officials with legitimate educational interests. A college official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position; a person or company with whom the university has contracted; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another college official in performing his or her tasks. A college official has a legitimate educational interest if access is reasonably necessary in order to perform his/her instructional, research, administrative or other duties and responsibilities. Upon request, the college discloses education records without consent to officials of another college or school in which a student seeks or intends to enroll.

IV. You may appeal the alleged denial of FERPA rights to the:

General Counsel and Vice Chancellor for Legal Affairs, The City University of New York, 535 East 80th Street, New York, NY 10021.

V. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the college to comply with the requirements of FERPA.

The name and address of the office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue SW, Washington, DC 20202-4605.

VI. The college will make the following "directory information" concerning current and former students available to those parties having a legitimate interest in the information:

A student's name, attendance dates, telephone listing, home address, present address, e-mail address, major and minor fields of study, degrees and awards received, date of birth, place of birth, level of education, and the most recent previous educational institution attended. By filing a form with the Registrar's Office, a student or former student may request that any or all of the above information not be released without his or her prior written consent. This form may be completed, withdrawn, or modified at any time.

This policy shall be effective as of September 2000 and shall supersede prior policy on this issue.

Subsidized Bilingual Extension Program

The Subsidized Bilingual Extension Program (SBEP) is a partnership with the NYDOE which offers currently certified content and classroom teachers the opportunity to gain a bilingual extension for their current New York State certification.

Teach for America

Teach for America (TFA) is a national alternative certification teacher preparation program with corps members teaching full time in public and charter schools while studying at partner universities and participating in continuous supervision and professional development. As a partner university, Hunter College hosts candidates in Special Education and Bilingual Education.

TESOL Intensive Teacher Institute

The Hunter College TESOL Intensive Teacher Institute (ITI) offers currently certified content and classroom teachers the opportunity to gain additional NYS certification in PreK-12 English as a Second Language (ESL). In addition to coursework, candidates receive specialized mentoring and coaching feedback to support ELL academic language development across the content areas.

Test Programs and Courses in Biochemistry

Biochemistry

About the Program

The interdisciplinary program in Biochemistry is jointly administered and staffed by members of the Biological Sciences and Chemistry departments. The master's degree is offered as a terminal degree. Both first-year courses and advanced courses are available at Hunter College and/or at the Graduate Center, 365 Fifth Avenue, New York, NY 10016.

Graduate Masters

Biochemistry - MA

Return to: Biochemistry

Requirements for Admission for Plan 1 and Plan 2

General admission requirements to Hunter's graduate programs are observed including GRE (verbal and quantitative reasoning); TOEFL (for foreign students whose native language is other than English).

In addition, the student must have completed the following courses: general chemistry (including qualitative analysis) (one year), quantitative analysis, organic chemistry (one year), physical chemistry (one semester lecture and laboratory), biology (one year), biochemistry lecture and laboratory (one semester). Deficiencies may be made up during the first three semesters of graduate study.

Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission).

Requirements for Admission for Plan 3

The general guidelines for admission to Hunter College will be followed. Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission). (Note, this new policy on GRE waiver will be applied to all three study plans). Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission). Students interested in Plan 3 should submit a written letter-of-intent to the advisor after being admitted to the M.A. Program in Biochemistry before the ending of the first semester of study. To qualify for this option, students must have completed 9-12 credits of graduate-level courses that can be transferred upon approval. Credits that counted toward graduation requirements for a baccalaureate degree cannot be transferred. In addition, the student should provide an evaluation letter from the thesis mentor indicating the student can complete

the thesis within one year. In the event that the student fails to defend the thesis by the end of the first year of study, he/she could may request a one-year extension to graduate under the Accelerated Thesis Option. Alternatively, or in the event the request is denied, he/she has the option to chose to graduate under study Plan 2: The Thesis Option or Plan 1: the Comprehensive Exam Option, provided that he/she meets all requirements of the chosen Plan 2.

Requirements for the Degree

Comprehensive Examination or Thesis:

Students may complete the requirements for the MA through either of the following two plans:

- Plan (1): A minimum of 30 credits of course work plus a passing grade in a comprehensive examination.
- Plan (2): A minimum of 24 credits of course work, plus 6 credits from a thesis on an original research problem. The thesis must be approved by the student's adviser, and it must be defended before a thesis committee.

Courses:

The student must complete the following courses from the list below. Note that no more than 10 credits of 600-level courses may be taken.

Plan (1):

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

OR

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry

Hours 3 hrs,

Credits 3 cr

fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs,

Credits 3 cr

Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

OR

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000

Hours 3 hrs,

Credits 3 cr

Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center

- **BICM 77000 Physical Biochemistry**

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent

Hours 4 hrs,

Credits 4 cr

Fall

Minimum of two courses from the following:

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr
spring only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr

Additional Requirements:

- BIOCHEM 71551
- BIOCHEM 71552
- BIOCHEM 71553
- BIOCHEM 71554
- BIOCHEM 71100

Any remaining or additional credits may be taken by choosing courses in Biology or Chemistry as electives, or by taking additional research credits (BIOCHEM 71201, BIOCHEM 71202, BIOCHEM 71203, BIOCHEM 71204)

A passing grade of the Comprehensive Exam given at the end of the study.

Plan (2):

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry

Hours 3 hrs,

Credits 3 cr

fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000

Hours 3 hrs,

Credits 3 cr

*Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020
may be substituted, respectively by*

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs,

Credits 3 cr

*Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010
and BIOCHEM U71020.*

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs,

Credits 3 cr

*Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM
U71010 and BIOCHEM U71020.*

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry

Hours 3

Spring only, offered at the Graduate Center

Minimum of one course from:

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

*Hours 30 hrs/wk for 4 wks,
Credits 4 cr*

Additional Requirements:

- BIOCHEM 71551
- BIOCHEM 71552
- BIOCHEM 71553
- BIOCHEM 71554
- BIOCHEM 71100
- BIOCHEM 79901
- BIOCHEM 79902
- BIOCHEM 79903

Any remaining credits may be taken as research credits (BIOCHEM 71201, BIOCHEM 71202, BIOCHEM 71203, BIOCHEM 71204)

Plan (3)

Minimum of 9 cr. Graduate-level courses that may come from any combination of three courses from the following three lists:

Hunter Chemistry:

- CHEM 63300 Computational Drug Discovery 3 cr.
- CHEM 66800 Structural Biology 3 cr.
- CHEM 67000 Introduction to Nanotechnology 3 cr.
- BIOCHEM U71010 Advanced Biochemistry 1 3 cr
- BIOCHEM U71020 Advanced Biochemistry 2 3 cr
- BIOCHEM U75000 Bioorganic Chemistry 3 cr

No more than two from the following Hunter Biology courses:

- BIOL 71013 Molecular Biology Lecture 5 cr
- BIOL 71401 Cell Biology 4 cr
- BIOL 70005 Genetics 4 cr
- BIOL 75003 Developmental Biology 4 cr

Graduate Center - Chemistry and Biochemistry:

- CHEM 81900 Topics in inorganic chemistry: Radiochemistry 3 cr.
- BICM 77000 Physical Biochemistry 3cr.

Minimum of 21 cr. of research-related training:

- BIOCHEM 71551 Seminar in Biochemistry 1
- BIOCHEM 71553 Seminar in Biochemistry 1
- BIOCHEM 71554 Seminar in Biochemistry 1
- BIOCHEM 71100 Basic Laboratory Techniques for Research in Biochemistry 4

- BIOCHEM 71201 Advanced Laboratory Techniques for Research in Biochemistry 1 cr.
- BIOCHEM 71202 Advanced Laboratory Techniques for Research in Biochemistry 2 cr.
- BIOCHEM 71203 Advanced Laboratory Techniques for Research in Biochemistry 3 cr.
- BIOCHEM 71204 Advanced Laboratory Techniques for Research in Biochemistry 4 cr.
- CHEM 64900 Instrumental Analysis 5 cr. **OR** CHEM U79000 Basic Laboratory Techniques for Research in Biochemistry 4 cr
- BIOCHEM 79901 Thesis Research (*Master's*) 1
- BIOCHEM 79902 Thesis Research (*Master's*) 2
- BIOCHEM 79903 Thesis Research (*Master's*) 3

Biochemistry

Please consult Courses in Biological Sciences and Courses in Chemistry or the courses in the Biochemistry - MA program for additional required courses in the program

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs,

Credits 3 cr

Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,

Credits 3 cr

Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry

Hours 3

Spring only, offered at the Graduate Center

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8

Credits 4

BIOCHEM 71201 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology.
Students may register for 1 to 4 credits.

prereq: Department Permission Required

Hours 1 hr

Credits 1 cr.

BIOCHEM 71202 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology.
Students may register for 1 to 4 credits.

prereq: Department Permission Required

Hours 2 hrs

Credits 2 cr.

BIOCHEM 71203 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology.
Students may register for 1 to 4 credits.

prereq: Department Permission Required

Hours 3 hrs

Credits 3 cr.

BIOCHEM 71204 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology.
Students may register for 1 to 4 credits.

prereq: Department Permission Required

Hours 4 hrs

Credits 4 cr.

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1

Credits 1

offered Fall and Spring

BIOCHEM 79901 - Thesis Research

Credits (Master's) 1

BIOCHEM 79902 - Thesis Research

Credits (Master's) 2

BIOCHEM 79903 - Thesis Research

Credits (Master's) 3

offered Fall, Spring, and Summer Open only to students writing a thesis as part of the requirements

The Center for Puerto Rican Studies

The Centro de Estudios Puertorriqueños/Center for Puerto Rican Studies is a university-based research institute whose mission consists of two components. One is to collect, preserve and provide access to archival and library resources documenting the history and culture of Puerto Ricans and Latinos. The other is to produce, facilitate and disseminate interdisciplinary research about the Diaspora experiences of Puerto Ricans and to link this scholarly inquiry to social action and policy debates.

The Centro Library and Archives is the principal Puerto Rican Studies research collection in the United States and the most extensive Latino research and archival facility in the Northeast. It is also the only library and archives in the State of New York exclusively dedicated to Puerto Rican and Latino documentation. The Library and Archives is open to the public and serves diverse users, scholars and the general public from the New York area, from other parts of the U. S. and from abroad.

CENTRO participates in two exchange programs. (1) The CUNY/UPR Academic Exchange Program (Intercambio) is a program of academic interchange between the City University of New York (CUNY) and the University of Puerto Rico (UPR). The program serves all CUNY colleges. CUNY undergraduates may study for a semester, or the full academic year at the Rio Piedras Campus of the UPR and receive full credit from their home college. (2) The CUNY-Caribbean Exchange promotes institutional, faculty, and student intellectual and scientific exchange with academic institutions in the Caribbean.

The Cost of Attendance

Costs must be considered when a student is making decisions about whether, where, or when to attend college. A student budget is used as an estimate of the amount of money it will cost a student to attend college.

The budget includes allowances for tuition, fees, books, transportation, housing, food and personal expenses. Additional allowances may be made for unusual expenses such as dependent-care costs.

Student budgets are set each year by CUNY (City University of New York). They reflect the average expenses of all students who are living with their parents or living away from their parents. Students with disabilities should speak to a financial aid counselor about budget adjustments for their special needs.

The 2016-2017 Hunter College expense budgets for full-time graduate students, who are charged the NY State Resident tuition rate, are as follows for the 9-month period of the fall and spring semesters:

The Frederick Loewe Theatre

Ground Floor Thomas Hunter
Box office: (212) 772- 4448
administrative office:(212) 772-4227

The Frederick Loewe Theatre is a black-box theatre that seats an audience of 110. It has the ability to accommodate proscenium or thrust stage productions and houses most of the Department of Theatre events.

The George N. Shuster Master's Thesis Award

Contact school deans' offices for further information.

The Health Professions Education Center (HPEC)

Director: Martin Dornbaum; Mezzanine floor, Brookdale West Building; (212) 481-5129, mdornbau@hunter.cuny.edu
Evening Supervisor: Peter Marquez; edcenter@hunter.cuny.edu
Website: <http://www.hunter.cuny.edu/shp/centers/hpec/>

The center maintains regular office hours throughout the academic year, Monday-Thursday 9AM-9PM and Fridays 9AM-5PM.

The Health Professions Education Center (HPEC) is an academic learning center serving all students and faculty at the Hunter College Nursing and School of Health Professions. A variety of comprehensive support services and programs are offered at the HPEC to enhance student academic success, retention, and completion rates by applying best practices and addressing student learning needs from multiple pedagogical perspectives. Our services are designed to develop critical thinking, reinforce practice of clinical skills, and foster a supportive, professional environment for student collaboration and scholarship.

The HPEC combines traditional approaches to teaching with new instructional technologies that reflect the dynamic nature of all health professions. Services at the center include:

- Access to the largest collection of health-related videos and instructional media within CUNY.
- Computer-aided educational software and virtual training technologies.
- Access to state board testing preparation programs.
- Technology support at the Hunter College Brookdale Campus.

- Beta testing and evaluation of new instructional media.
- Faculty consultation for research and classroom media integration.
- Development and administration of e-learning initiatives, online testing, and digital content.
- Individual and group study support.
- Simulation laboratory support through the New York Simulation (NYSIM) Center.

Faculty and students from all Hunter College schools and departments are always welcome to view the many resources available at the HPEC.

The Hunter College Art Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, and the Hunter College/Times Square Gallery at the MFA Building (450 West 41st Street), house professionally organized exhibitions that support the educational programs of the Hunter College Department of Art. Hunter students regularly act as assistant curators and research assistants for these exhibitions, which have received wide critical acclaim. The Bertha and Karl Leubsdorf Art Gallery presents small-scale and historical exhibitions while the expansive Hunter College/Times Square Gallery specializes in large surveys and retrospectives. Both galleries offer students the opportunity to gain curatorial experience, while presenting exhibitions of scholarly and artistic significance.

The Kaye Playhouse

Ground Floor Hunter North
 68th Street, between Park & Lexington Aves.
 212.772.4471
 212.650.3919 Fax
 Email: kayeinfo@hunter.cuny.edu
<http://kayeplayhouse.hunter.cuny.edu>

The Kaye Playhouse at Hunter College, a fully-equipped theater with 624 seats, boasts an elegant 1940's design. It is home to a wide array of national and international events, including theatrical productions, dance performances, chamber music and opera, film/photo/television shoots, fashion shows, jazz concerts, lectures, corporate meetings, vocal concerts, and children's shows.

The Kaye's flexible and sophisticated sound and lighting systems enhance and improve the event experience for both performers and audiences. Each season, the Kaye Playhouse hosts over 200 events, bringing an eclectic mix of live performances to over 100,000 theatergoers annually.

The Learning Lab

This award-winning program has been the heart of the Learning Disabilities teacher education programs for over thirty years. As part of their clinical work, graduate students are assigned a child or youth who struggles in one or more aspects of learning, and tutors twice a week for an academic year, overseen by a supervisor. Over 200 children and youth from NYC's diverse communities are served annually in this program.

The Leona and Marcy Chanin Language Center

209 West Building; (212) 772-5700/01

The Chanin Language Center is a state-of-the-art multi-media foreign language learning facility. The Center includes two independent study labs equipped with a total of 66 multi-media workstations. In addition, the Chanin Center also houses the Cecile Insdorf Foreign Language Screening Room (B126 West Building).

Students can supplement their language learning from the elementary to an advanced level of study by working with CD-ROMs and digitized audio/video programs based on textbooks and/or lab manuals. The Chanin Center provides on-line access to ancillary course materials, dictionaries and other writing and research tools. Furthermore, the Center maintains an extensive collection of foreign language films and video programs on VHS and DVD. Audio resources are available for home borrowing to students enrolled in a foreign language course.

A 30 minute orientation session is required of all first time users.

Hours and additional information can be found on our website: <http://www.hunter.cuny.edu/~chanin>

The Office of Academic and Student Affairs

1000 West Building
(212) 772-4624
soe.oasa@hunter.cuny.edu

Melissa Boronkas, Assistant Director of Graduate Student Affairs
Jason Riffaterre, Assistant Director of Undergraduate Student Affairs
Valerie Lyons, Counseling Programs Advisor

The Office of Academic and Student Affairs (OASA) provides administrative services to all students in the School of Education. The primary areas of service provided include: advisement; assistance with registration; graduation audit; New York State certification; and various other student services such as course permits, transfers of credit, course waivers or exemptions, and leaves of absence.

The OASA staff maintains regular office hours throughout the year and the office is open from 10:00 AM - 6:00 PM Monday through Thursday and 10:00 AM - 4:00 PM on Fridays, whenever the college is open.

Hours may vary during the summer months, and when classes are not in session. Office hours are posted outside 1000 West Building and on our website.

The Office of Clinical Experiences

- The School of Education's Office of Clinical Experiences (OCE) is responsible for ensuring the quality of student experience in their clinical placements across programs – as these experiences are critically important to students' development as teachers, counselors, and school leaders. To that end, the faculty and staff work collaboratively to support students in the development as professionals by coordinating partnerships with schools and other clinical placement sites, identifying and training cooperating teachers for the important work of mentoring new teachers, and working with faculty and field supervisors to ensure alignment of placements to the curriculum and academic work of teacher, counselor, and leadership candidates. Candidates planning to enroll in clinical courses requiring placement in schools and other educational settings must complete and submit a request form or online application to the OCE, which will assign students to one of our collaborating schools. The OCE arranges fieldwork and student teaching placements in New York City

schools (within the five boroughs) and other educational settings. Clinical experience courses across programs require an online application with firm deadlines specific to each semester. Candidates are advised to plan ahead the semester prior to registering for a fieldwork, student teaching or practicum course. For further information please email oce@hunter.cuny.edu

- The School of Education provides a comprehensive student support program such as preparing teacher, leader, counseling and other professional candidates for the job market through career services such as workshops and/or orientations on professional topics [i.e. resume writing, interviewing strategies, demonstration lessons, etc.]. Each semester, the School of Education hosts a career fair, providing opportunities for partner organizations [schools, districts, non-profit organizations] to meet and network with our candidates from all programs. We also provide additional support to teacher candidates for all aspects of NYS certification [i.e. fingerprinting, NYS mandated workshops and specialized training, and required NYS certification testing].

The Office of Partnership Programs

The Office of Partnership Programs manages all of the alternative certification and partnership programs within the School of Education and supports students in these non-traditional programs. Working in partnership with a variety of local and national organizations, we offer special programs in a wide range of teacher certification areas and school leadership certification. Our special programs offer participants the opportunity to gain hands-on experience in schools while enrolled in graduate coursework at Hunter College and many provide subsidized tuition.

Theatre Faculty

Thesis

A master's thesis is usually required. After it is approved, the original and one copy of the thesis is deposited with the appropriate school. It must be accompanied by a receipt from the Bursar's Office for the payment of the fee for binding one copy of the thesis.

A thesis approval form and style sheet, the requirements of which must be met strictly, are available from the graduate advisers' and the school deans' offices.

When the thesis approval form has been signed by the department graduate adviser and school dean, the original must be sent to the Degree Audit Unit of the Registrar's Office.

Where a thesis does not appear to be an appropriate measure of achievement, the Graduate Course of Study Committee of the Hunter College Senate has approved an acceptable substitution or equivalent.

Time Considerations

Candidates for a master's degree in the School of Education must complete the program within a maximum of five years from the date of matriculation. Students may be granted a leave of absence by permission of their advisor and with the approval of the Office of Educational Services for serious illness, maternity, or military leave. In such cases, the time limit is extended by the duration of the leave, not to exceed one year.

Students exceeding the time limit may be required to repeat courses that have expired and take more than the number of credits normally required for the degree. Course credits more than five years old when the degree is to be awarded are not applicable to the degree unless a time extension is granted.

Time Limit

The total time for completing all degree requirements from the beginning of matriculation is four years. (For programs in education, nursing, health sciences, and social work it is five years.) Courses exceeding the limit at graduation will not be included in degree credits unless approved by the department and the appropriate dean.

Transfer of Credit

Students may request transfer credit for relevant graduate courses taken at regionally accredited institutions, including courses taken at Hunter College while matriculated in another degree program, whether or not the master's degree was awarded.

A form for such a transfer may be downloaded at <http://www.hunter.cuny.edu/graduateadmissions/applying/degree-application/transfer-credit>. Transfer of credits is subject to the approval of the department or graduate adviser and to the regulations of the Hunter program in which the student is matriculated. The following additional limitations apply:

1. In order to be counted toward graduation, the course(s) for which transfer credit is requested must have been completed within five years prior to the awarding of the Hunter graduate degree. (A four-year restriction applies to the School of Arts and Sciences.)
2. Credits for courses in which the student earned a grade below B, or took a non-letter grade such as a pass/fail option, are not transferable.
3. A maximum of 12 credits may be transferred.
4. Courses used to satisfy entrance requirements, as well as courses used as part of a previously completed bachelor's program, may not be transferred.

Note: Grades in courses transferred from other institutions, or from a prior master's degree program taken at Hunter College, will not be calculated into the student's grade point average (GPA), nor will these grades be posted on the current Hunter College record.

Transfer of Credit

Graduate courses taken prior to matriculation are considered "Transfer of Credit."

Students may request transfer credit for relevant graduate courses taken at regionally accredited institutions, including courses taken at Hunter College while matriculated in another degree program, whether or not the master's degree was awarded.

A form for such a transfer may be downloaded at <http://www.hunter.cuny.edu/graduateadmissions/applying/degree-application/transfer-credit>

The following limitations apply:

- No more than a total of 12 credits will be allowed for graduate courses completed at other colleges for courses taken on permit or for Hunter College courses taken prior to matriculation.
- Courses for which transfer and approval of credit are sought must have been completed within five years preceding the anticipated date of graduation.
- Application for transfer and approval of course credits taken prior to matriculation may be made after registering for the first semester of matriculation.
- Transfer of credit can only be granted for courses with grades of B or better.

Unapproved Leaves

Students failing to register for a regular semester will be dropped automatically from the active student file. If they wish to return, they must apply for readmission. In all cases of nonattendance, students must still observe the time limitations for the master's degree.

Undergraduates taking Graduate Courses

Upon the recommendation of the student's undergraduate major or program adviser, and with the approval of the adviser of the graduate program offering the course, highly qualified undergraduate degree students may take graduate

courses for credit toward the bachelor's degree. If it is determined that the courses were not used for the bachelor's degree and the graduate transfer is acceptable, then the student will be charged the difference between the undergraduate and graduate tuition rates at the time the student took the course. No course may be applied to both the undergraduate degree and the graduate degree.

Urban Policy and Planning Department Description

The Department of Urban Policy and Planning is a department within the School of Arts and Sciences at Hunter College. The department offers two graduate degrees, an accredited Master in Urban Planning degree, and a Master of Science in Urban Affairs degree. Both programs combine theory and practice in order to provide students with an in-depth understanding and appreciation of urban planning and policy. The department also offers an undergraduate urban studies major that prepares students for higher education and careers in public service.

Since its creation by advocacy planner Paul Davidoff, in 1965, the department has consistently upheld a vision of urban affairs and planning as a multi-disciplinary field. In keeping with this vision, the department's faculty members represent a wide range of disciplines including architecture, economics, political science, public policy, social work, urban planning, and public health. They collectively bring a wealth of academic and professional expertise to their teaching. The program also benefits greatly from a distinguished part-time faculty who bring practical experience and knowledge in both public and non-profit sectors into the classroom.

Urban Policy and Planning Faculty

Urban Teacher Residency

The Urban Teacher Residency (UTR) program is a two-year teacher-preparation program that integrates the graduate coursework of the aspiring teacher with intensive, hands-on experiences in New York City schools. UTR is a partnership between Hunter College, New Visions for Public Schools and the New York City Department of Education.

Veterans

A veteran who wishes benefits under the Veterans' Readjustment Act of 1966 (Public Law 89) should consult the Veterans' Administration. For further information, contact the office of the registrar at 217 Hunter North or (212) 650-3995.

Withdrawal from Courses

Any course from which a student officially withdraws after the third week of courses and before Monday of the 10th week of the term will be recorded as W, indicating that the withdrawal was without prejudice. Official withdrawal is accomplished by filing a withdrawal application in the OASIS, Room 217 HN, on or before the deadline.

A student should notify the graduate adviser of any such course withdrawal.

After the 10th week of the term, all official withdrawals must have the approval of the graduate adviser on an official withdrawal form and be recommended for documented reasons of illness or serious personal emergency. Unofficial withdrawal will result in a grade of WU.

Withdrawal from Courses

Once you register for a course it becomes part of your permanent record. If for any reason you do not attend, you must officially withdraw from the course on-line at your CUNYfirst Account before the term deadline date recorded in the Academic Calendar. A grade of W is posted to your record for the course(s) you have withdrawn from. There is no refund of tuition. W grades are not calculated in a student's GPA, however they may adversely influence a student's ability to receive financial aid or impede progress toward degree completion. For information regarding the possible effect of withdrawals upon financial aid, please visit: <http://www.hunter.cuny.edu/onestop/finances/financial-aid-old/how-does-withdrawal-affect-my-financial-aid> Failure to follow this procedure will result in a grade of "WU" which is equivalent to a failing grade of "F".

All official withdrawals after the official withdrawal period (3rd – 10th week of classes) must have the approval of your graduate divisional dean. Documentation supporting your reason for withdrawing after the official withdrawal date must be supported by the academic divisional dean. Consult with your graduate adviser, departmental chair or academic divisional dean as to which documentation is acceptable. All late withdrawal requests are received by the Office of the Registrar via inter-office delivery from the offices of the divisional dean.
