This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. Geographic concepts (e.g., space, place, distance, scale, borders, and regions) are used to study environmental, economic, social, and political conditions and identify key concerns in the culturally diverse world. The course will examine geographic world regions (e.g., South America, Europe, the Middle East, Sub-Saharan Africa, and others), connections in and between these regions, and how these regions and their populations interact as parts of a global system. For each world region, you will learn major historical events, specific interactions between natural environment and social systems, and their potential for and challenges to sustainable development.

prereq: ENGL 12000  
3 hrs  
3 cr.  
Offered fall and spring

**GEOG 18300 - Special Topics: Introductory Geosciences**
Introductory special topics in geography, environmental geosciences, or spatial sciences.

3 hrs
3 cr.

**GEOG 22100 - Economic Geography and Globalization**

**GER**
2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen

*prereq: GEOG 10100 or perm instr.*

3 hrs
3 cr.

*Offered fall and spring*

**GEOG 22600 - Environmental Conservation: Resource Management**

**GER**
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

**GEOG 22700 - Environmental Conservation: Urban Problems**

**GER**
3/B

Covers topics related to environmental problems and their connection to urban areas. The course will begin with a survey of urban systems (transport, water, food, waste and energy) followed by investigating how these systems contribute to environmental problems and their solutions. This investigation will also include a discussion about the connections between rural and urban areas and urban planning that attempts to minimize environmental hazards.

3 hrs
3 cr.

**GEOG 24100 - Population Geography (W)**

**Pluralism and Diversity**

PD/B or C
Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 and ENGL 12000
3 hrs
3 cr.

GEOG 24300 - Urban Geography

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 24400 - Political Geography

Political geography concerns the nature and consequences of human efforts to divide and control Earth. Major topics to be covered by this course include the origin and evolution of countries and their constituent political units; the defining and drawing of political boundaries; territorial conflicts and disputes; the impact of boundaries on personal and cultural identity; centripetal and centrifugal forces that encourage the success or failure of political units; jurisprudence, crime and punishment; electoral geography; war, piracy and terrorism; ownership of ocean floors and outer space; the environmental impacts of political power (zoning, incorporation, height restrictions, land tenure); and symbols of power in the landscape. Lectures and assignments will stress the relevancy of political geography to issues that affect our everyday life.

prereq: GEOG 10100 or GEOG 15000 or perm instr
3 hrs
3 cr.

GEOG 24500 - Geography of Development

Introduction to geographic concepts, methods, and theories of development, as well as failures and challenges for development in a changing world.

prereq: ENGL 12000, and GEOG 10100 or GEOG 15000 or permission of instructor
3 hrs
3 cr.

GEOG 24700 - Cultural Geography
This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016
prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000
3 hrs
3 cr.

GEOG 25000 - Geographic Research Methods

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

prereq: ENGL 12000 and a 100-level GEOG, PGEOG, GTECH, or GEOL course
3 hrs
3 cr.

GEOG 25100 - Geography of the United States and Canada

GER
2/B

Seeks to familiarize students with the regional geography of the United States and Canada. More specifically, the goals are to acquaint students with the dynamic nature of human and physical features that characterize the study area; the ways in which human and natural phenomena interact to create unique place characteristics and sub-regions; the key environmental issues that characterize the study area and its constituent parts; major trends that are affecting the geography of the two countries; and the locations of principal features. The course begins with general overview material, and then examines the various sub-regions of the study area in much greater detail, focusing on key characteristics and environmental challenges
prereq: GEOG 10100 or GEOG 15000 or perm instr.
3 hrs
3 cr.

GEOG 27000 - Regional Geography of Mexico, Central America and the Caribbean

Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of Mexico, Central America and West Indies.
3 hrs
3 cr.

GEOG 27100 - Regional Geography of South America
Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of South America.
3 hrs
3 cr.

**GEOG 27200 - Regional Geography of Europe**

Pluralism and Diversity
PD/D
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of modern Europe.
3 hrs
3 cr.

**GEOG 27400 - Regional Geography of the Middle East and North Africa**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of Middle East and North Africa.
3 hrs
3 cr.

**GEOG 27500 - Regional Geography of Sub-Saharan Africa**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of the relationship of natural environment to economic, social and political life of Africa south of Sahara.
3 hrs
3 cr.

**GEOG 27700 - Regional Geography of East Asia**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of East Asia's potentials in terms of natural resources, population, industry and agriculture, with emphasis on China.
GEOG 27800 - Regional Geography of Russia and Central Asia

Pluralism and Diversity
PD/A or D
GER
3/B

Analysis of the relationship of the natural environment to economic, social and political life of Russia, the former Soviet republics of Central Asia and Mongolia.

GEOG 30500 - Special Topics in Urban and Regional Dynamics

Advanced topics in urban geography. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 24300 Urban Geography or instructor permission

GEOG 30600 - Special Topics in Contemporary Regional Geographies

Advanced topics in contemporary regional geographies and globalization. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 15000 World Regional Geography or instructor permission

GEOG 32100 - Transportation Geography

GER
3/B

A geographic study and modeling of transportation routes and their influences on the location of economic activity.

prereq: GEOG 221 or perm instr.

GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions

GER
3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.
GEOG 33500 - International Pollution Issues

GER
3/B

A study of international trans-boundary pollution and the science, source terms, transport pathways and international impacts of contamination events. The regional focus will change yearly pending current global environmental events.  
prereq: GEOG 101 or GEOL 101 or PGEO 130 or perm instr.
3 hrs
3 cr.

GEOG 34200 - Geography of International Migration and Ethnicity

Pluralism and Diversity
PD/B
GER
3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.  
prereq: GEOG 24100 or perm instr.
3 hrs
3 cr.

GEOG 34300 - Urban Geographic Theory

GER
3/B

Spatial analysis of contemporary and theoretical issues concerning the economic growth, transportation, land use, social segregation and political fragmentation in metropolitan areas.  
prereq: GEOG 34100 or equiv.
3 hrs
3 cr.

GEOG 35700 - Geography of New York City and Vicinity

GER
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessibility.)
Open to Jr/Sr only.
prereq: GEOG 10100 or GEOG 15000
3 hrs
3 cr.
Offered fall.

GEOG 37000 - Geography of Sustainable Development in Developing Countries

Pluralism and Diversity
PD/A
GER
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.

3 hrs
3 cr.

GEOG 37100 - Rural Water Supply in Developing Regions

Pluralism and Diversity
PD/A
GER
3/B

Covers concepts, methods and analysis of rural water utilization and related problems and challenges in developing countries. It will discuss water management and quality and their relationship with sanitation and hygiene education. The course will also discuss methods of providing drinking water in a sustainable manner.

prereq: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.

3 hrs
3 cr.

GEOG 38100 - Special Topics in Geography

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.

1-4 hrs (lec or lec/lab)
1-3 cr

GEOG 38200 - Special Topics in Geography

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.
GEOG 38300 - Special Topics in Geography

GER
3/B

Open to Jr/Sr only. Topics to be announced.
prereq: GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr

GEOG 39100 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sem of geography, perm dept.
1-3 cr

GEOG 39200 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sem of geography, perm dept.
1-3 cr

GEOG 39300 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sem of geography, perm dept.
1-3 cr

GEOG 48000 - Capstone in Urban and Social Geography

Individual or group research project as capstone experience in urban and social geography.
prereq: Senior standing as a geography major, approval of undergraduate adviser, and signed project contract with faculty sponsor.
3 hrs
3 cr.

GEOG 48100 - Capstone in Sustainability Studies

Individual or group research project as capstone experience in Sustainability Studies.
prereq: Senior standing as a geography major, approval of undergraduate adviser, and signed project contract with faculty sponsor.
3 hrs
3 cr.

GEOG 49000 - Honors in Geography
Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

*prereq:* perm dept.
1 sem
3 cr.

**GEOG 49800 - Internship**

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

**PGEOG 14000 - Introduction to Weather, Climate and Climate Change**

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

3 hrs
3 cr.

**PGEOG 14100 - Introduction to Weather, Climate and Climate Change Laboratory**

A hands-on laboratory science course. PGEOG 14100 will explain how weather and climate affect people and the natural environment through hands-on laboratory and field experiences. The course explores the science of the atmosphere starting with weather and weather forecasting including severe storms such as hurricanes and tornadoes. World climates and global climate change is included. This course will serve as an introduction to atmospheric science and will prepare students for further work in geography and Earth sciences.

3 hrs (1 hour lecture, 2 hours lab)
3 cr.

**PGEOG 48000 - Capstone in Physical Geography**

Individual or group research project as capstone experience in physical and environmental geography.

*prereq:* Senior standing as a geography or environmental studies major, approval of undergraduate adviser, and signed project contract with faculty sponsor.
3 hrs
3 cr.

**Geographic Techniques and Methods**

**GTECH 10100 - Digital Earth**
Digital Earth introduces students to the new suite of geospatial technologies and how they are being used to capture, store, process and display the vast amount of geospatial information about our planet, a wide variety of environmental and cultural phenomena, and how this information helps us to better understand natural and cultural characteristics of the world, address world problems, and make sound decisions. Students will learn how satellites take complete photographs of the entire planet, Geographic Information Systems (GIS) display geospatial data, Global Positioning Systems (GPS) track the location of environmental and cultural phenomena, Geovisualization tools map our 3-D planet, and how these technologies are applied to solve problems in diverse fields and phenomena in the physical and social sciences in exciting ways. The knowledge and skills learned in Digital Earth open the door toward a geotechnology-oriented career.

3 hr.
3 cr.

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

_prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or MATH 101EN_

6 hrs (2 lec, 4 lab)

4 cr.

*Offered fall and spring*

**GTECH 20300 - Introduction to Remote Sensing**

Introduces remote sensing image interpretation and a basic understanding of the use of remote sensing technology in the study of environmental issues and the monitoring of Earth systems. The first half of the course focuses on aerial photography, photogrammetry and image interpretation. The second half focuses on the use of remote sensing in Earth system sciences. Extensive lab exercises include practical assignments and computer-based analysis of remote sensing images. Students will learn basic image interpretation and some web-based image processing skills through various lab exercises.

Material Fee: $15

_prereq: GTECH 20100_

6 hrs (2 lec, 4 lab)

4 cr.

**GTECH 30100 - Quantitative Methods in Geography**

Open to Jr/Sr only. Process of spatial analysis. Application of scientific methods to geographic research; sampling; distribution measurement; statistical analysis of spatial data.

_prereq: GTEC 201, STAT 113 or 213 or perm instr._

3 hrs

3 cr.

**GTECH 32100 - Remote Sensing of the Environment**

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural...
resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.

Material Fee: $15

**GTECH 32200 - Digital Image Processing**

Course emphasizes the acquisition and nature of digital image data and the tools required to process and analyze remotely sensed data. Topics include: image preprocessing, spectral mixture analysis, image transformation, image classification and accuracy assessment, change detection, information extraction from LIDAR and radar. At least one application for each image processing method will be introduced. This is an advanced remote sensing course. The course includes lab exercises through which students will obtain hands-on experience in digital image processing. The labs include practical assignments and computer-based analysis of remotely-sensed images, and also field work to evaluate the results. The lab will use ENVI, an image processing software, together with the comprehensive data analysis tool IDL.

Material fee: $15.00

**GTECH 35000 - Field Topographic Surveying**

Field use of surveying equipment. Notebook and computer data collection relating to horizontal and vertical location on the landscape, including the use of global positioning systems. Field record-keeping and preliminary analysis of results. Fee for transportation, accommodations and food allowance required.

**GTECH 35100 - Field Techniques in Geography**

Observation and analysis of physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as ground-truthing of remotely sensed images, the use of maps, compasses and GPS to navigate. Fee for transportation, lodging and food allowance required.

**GTECH 36100 - GIS Analysis**

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geospatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.
GTECH 38000 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

GTECH 38500 - GIS Applications

Selected topics in GIS applications to human and physical geographic problems. See department for topics offered. May be repeated for credit as topics change.

GTECH 48000 - Capstone in Geographic Information Science

Individual or group research project as capstone experience in geographic information science.

GTECH 49000 - Honors in Geographic Information Science

Open to qualified Track C geography majors.

GTECH 49800 - Internship in Geographic Information Science

Open to qualified geography majors and minors. Opportunities for working in positions of responsibility in professional institutions for academic credit.

Physical Geography
PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.
Material Fee: $5
5 hrs (3 lec, 2 lab)
4 cr.
Offered in the Fall and Spring

PGEOG 23100 - Physical Geography II: Principles of Geomorphology

See GEOL 23100

PGEOG 25000 - Earth System Science I (W)

GER
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: ENGL 12000
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.
4 hrs
3.5 cr.

PGEOG 25100 - Earth System Science II

GER
3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

prereq: PGEO 25000 or perm instr.
4 hrs
3.5 cr.

PGEOG 31100 - Introduction to Fluid Mechanics
Covers the basic principles of fluid mechanics including statics, kinematics of fluid motion, integral and differential representation of conservation of mass, linear momentum, the first Law of Thermodynamics, Bernoulli's equation, dimensional analysis, and elementary viscous flow.

cross-listed PHYS 31100

prereq: PHYS 12100 or 12000 and MATH 15500 or perm instr.

3 hrs
3 credits

PGEOG 31300 - Biogeography

GER
3/B

Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.

prereq: PGEOG 13000, GEOG 10100 or BIOL 10000/10200

3 hrs
3 cr.

PGEOG 33200 - Introduction to Hydrology

GER
3/B

Designed to provide the basic understanding of how water on the Earth moves, distributes, circulates and interacts with the environment. Focus will be on hydrological processes including precipitation, evapotranspiration (evaporation and transpiration), soil water, ground water, and runoff, which form the complete water cycle at global, regional and watershed scales. The course will also cover some topics on how water responds to environmental changes and strategies of integrated water resources.

prereq: GEOL 10100, PGEO 13000 or perm instr.

3 hrs
3 cr.

PGEOG 33400 - Coastal Geomorphology See GEOL 33400

See GEOL 33400

PGEOG 33500 - Urban and Metropolitan Coasts

GER
3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.

prereq or coreq: Prereq: GEOL 10100 or GEOG 10100
PGEOG 36100 - Global Climatic Change

GER
3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

prereq: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

PGEOG 36300 - Environmental Hazards

GER
3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

prereq: PGEO 13000 or equiv.
prereq or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.

PGEOG 38100 - Special Topics in Environmental Studies

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

PGEOG 38200 - Special Topics in Environmental Studies

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
PGEOG 38300 - Special Topics in Environmental Studies

GER
3/B

Open to Jr/Sr only. Topics to be announced.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

PGEOG 39100 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000
1-3 cr.

PGEOG 39200 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.
1-3 cr.

PGEOG 39300 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.
1-3 cr.

PGEOG 49000 - Honors in Environmental Studies

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.
prereq: perm dept.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.
1-4 cr.

Geology

GEOL 10000 - Introduction to Geology
Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.
3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

GEOL 10100 - Introductory Geology Lab

Hunter Core
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.
3 hrs.
3 cr.

GEOL 10200 - Plate Tectonics and the Earth's Evolution

GER
2/E

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth's evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes; depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.
prereq: GEOL 10100
5 hrs (3 lec, 2 lab)
4 cr.
Offered fall.

GEOL 10500 - Introduction to Environmental Studies

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

An introduction to environmental science focusing on aspects of global change and the interrelationships of earth
GEOL 18000 - Introduction to Oceanography

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students
3 hrs
3 cr.
Offered fall and spring

GEOL 20500 - Environmental Geology

GER
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

prereq: GEOL 10100
3 hrs
3 cr.

GEOL 23100 - Principles of Geomorphology

GER
2/E or 3/B

Investigates the geologic forces that shape the surface of the Earth. In the laboratory students will learn to analyze features of the landscape and deduce the processes that produced them. Students will use traditional laboratories as well as Google Earth to learn about a variety of surficial processes.

prereq: PGEO 13000 or GEOL 10100
4 hrs (2 lec, 2 lab)
3 cr.
GEOL 28000 - Marine Geology

GER
3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

prereq: GEOL 10200 or perm instr.
3 hrs
3 cr.
Fall

GEOL 33200 - Hydrology See PGEOG 33200

See PGEOG 33200

GEOL 33400 - Geomorphology: The Study of Beaches and Coasts

GER
3/B

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.

prereq: GEOL 23100 or PGEO 23100 or equiv. or perm dept.
3 hrs
3 cr.

GEOL 38000 - Advanced Oceanography: Physics of the Oceans

GER
3/B

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

prereq: one sem CHEM or PHYS, MATH 15000 or equiv.
3 hrs
3 cr.

GEOL 38100 - Special Topics in Geology and Oceanography
Intensive courses in various aspects of geology or oceanography. Topics to be announced.

**GER 38200 - Special Topics in Geology and Oceanography**

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

**GEOL 38300 - Special Topics in Geology and Oceanography**

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

**GEOL 39100 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**GEOL 39200 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**Geography: Courses Less Frequently Offered**

**GEOL 24400 - Sedimentology**
PGEOG 21200 - Geography of Soils and Vegetation

Geology: Courses Less frequently Offered

GEOL 21100 - Field Geology of New York City and Vicinity

Provides you with the essential information about the geology of New York City, plate tectonics, and the philosophy and the practice of geological field work. Students will learn how to use basic field equipment and geologic and topographic maps. The first part of the course consists of field trips using public transportation to the main geologic formations of the New York metropolitan where students examine and identify rocks *in situ* and *non in situ*. Basic procedures of geologic field research are taught and students learn to identify, measure, and describe rocks, geologic structures and textures. The second part of the course will be in the laboratory to study the field material, plot information on topographic maps, correlate information and create basic geologic maps, basic geologic profiles and the synthetic geologic column of the NYC Metropolitan area.

*prereq or coreq: Prereq: GEOL 10100 or 10200*

Programs and Courses in German

German

Overview

The mission of the German Department is to teach German language, culture, and civilization in a professional, research-based manner, to help students develop a foundational knowledge of the German cultural and literary canon, to develop intercultural awareness and foster understanding between the Hunter as well as New York City communities and the German-speaking countries, and to create and propagate knowledge and understanding about German language, literature and culture and also about the teaching of German language, literature and culture locally, regionally, and nationally. The department offers courses in the language, literature, and culture of German-speaking countries that are designed and sequenced to guide students from their current language proficiency levels through well-defined stages of proficiency in production and comprehension so that students will reach college-level literacy in German and excel in the field of German studies. Students who complete the elementary and intermediate courses can expect to reach the ability to function in everyday situations in German-speaking environments and to have a solid base for the upper-level study of German language, literature and culture. Students who complete advanced language, literature, and culture courses will gain an understanding and appreciation of German culture and civilization, past and present; they will comprehend spoken and written German to the level of understanding the classics of German prose, drama, and poetry; and will either have reached or will be well on their way towards reaching the linguistic and cultural capacity for engaging in intellectual discourse in written and spoken German.
What can I do with my degree in German?

Germany is the third-largest economy in the world, and German is the first language of over 95 million people worldwide. Students with a foundation in the language, literature, history, and intellectual revolutions of Germany are prepared to enter a wide variety of vocations. Majors continue to postgraduate study in Germany and the United States, enter law schools and other graduate programs and work in fields as diverse as environmental policy, journalism, arts management, consulting, and engineering, as well as in governmental and nongovernmental organizations and businesses. Some of our recent graduates have been hired by the Manhattan branches of the Goethe Institut and the German American Chamber of Commerce.

Programs and Courses

Programs and Courses in German

Foreign Language Requirement

- Students who begin German as a new language will fulfill the foreign language requirement by taking 12 credits in the elementary/intermediate language sequence: GERMN 10100-GERMN 10200 (or GERMN 10300), GERMN 20100-GERMN 20200 (or GERMN 20300). Students who enter with one or more years of high school German must take all the credits they need so that they can pass GERMN 20200 (or GERMN 20300). Students who enter with four years of high school German will be exempted from the foreign language requirement (see the General Education - Effective Fall 2019 section of this catalog).

Placement

Students who have some knowledge of German should consult with one of the departmental advisers or the chair for placement in a class that is appropriate for them.

# Undergraduate Major

## Degree Map for German

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a German Studies major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

### Freshman Year

#### Fall

**ENGL 12000 - Expository Writing**

*Hunter Core*
- English Comp (EC)
- GER
- 1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf

3 cr.

**GERMN 10100 - Elementary German I**

Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners. GERMN 10100 not usually credited without GRMN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs

3 cr.

- Math & Quantitative Reasoning
- Scientific World
- Individual and Society/ Social Sciences

#### Spring
ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

GERMN 10200 - Elementary German II

Continued practice in speaking, reading, writing and comprehending German.

prereq: GRMN 10100 or equiv.
3 hrs
3 cr.

GERMN 24100 - German Fairy Tales in Translation (W)

Hunter Core
Creative Expression
Pluralism and Diversity
PD/D
GER
2/C

Reading and discussion of traditional and literary fairy tales of Germany. Cross-cultural comparison of various fairy-story traditions; development of motifs through various ages and cultures.

(Conducted in English) Note: No knowledge of German required.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

*No "W" designation when offered in Winter Session

- Individual and Society/ Humanities
- Life and Physical Sciences

Sophomore Year

Fall

GERMN 20100 - Intermediate German I

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.

prereq: GRMN 10200 or equiv.
Spring

GERMN 20200 - Intermediate German II

Grammar review and composition. Reading and discussion of selected literary texts.
_prereq: GERMN 20100 or equiv._

Notes:

- Students interested in Study Abroad should speak with a departmental advisor about summer programs, which carry a total of 6 credit hours, 3 that may be applied to the major and 3 that will count as elective credits. Semester-long and year-long study abroad is also possible.
- Students who complete the intensive language sequence (German 103 and 203) in their first year may move on to Advanced Language and Literature courses (German 301-302, 310, 320-339) in their sophomore year.
- At least 12 credits must be earned by taking advanced classes in German literature and culture (numbered 320-359; also 444). Three or more of these credits must be from level 2 literature courses (numbered 341-359; also 444). Majors are permitted to substitute one level 1 literature course (numbered 320-339) with a level 2 language course (numbered 385). Students are encouraged to consult a departmental advisor as early as possible to plan their course of studies in German.

German - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (24-30 credits)

Elementary and Intermediate German Language Courses (12 credits)

GERMN 10100 - Elementary German I

Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners.
GERMN 10100 not usually credited without GERMN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs
3 cr.

GERMN 10200 - Elementary German II
Continued practice in speaking, reading, writing and comprehending German.

**prereq:** GRMN 10100 or equiv.

3 hrs
3 cr.

**GERMN 20100 - Intermediate German I**

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.

**prereq:** GRMN 10200 or equiv.

3 hrs
3 cr.

**GERMN 20200 - Intermediate German II**

Grammar review and composition. Reading and discussion of selected literary texts.

**prereq:** GRMN 20100 or equiv.

3 hrs
3 cr.

**GERMN 10300 - Intensive Elementary German**

Intensive practice in 4 basic skills of German. Covers material of GRMN 10100 and 10200 in one semester.

6 hrs
6 cr.

**GERMN 20000 - Intensive German 2 and 3**

**prereq:** GRMN 10100

6 hrs
6 cr.

**GERMN 20300 - Intensive Intermediate German**

Covers material of GRMN 201 and 202 in one semester.

**prereq:** GRMN 10200, 10300 or equiv.

6 hrs
6 cr.

**Note:** Between 3 and 12 credits of these courses may be waived if students have prior knowledge of German. Prior knowledge will be determined by a departmental placement test.

**Advanced Courses in German Language and Literature (18 - 24 credits)**

Students who begin their German study in college (GERMN 10100 and GERMN 10200 or equivalent on the transcript) must take an additional total of 18 credits in Advanced German Language and Literature Courses numbered above GERMN 30000. Students who began their German study before entering college (no GERMN 10100 and GERMN 10200 or equivalent on the transcript) must take a total of 24 credits in Advanced German Language and Literature
Courses numbered above GERMN 30000. Note: Courses on German literature or culture taught in English cannot be used to fulfill requirements for a German major.

Advanced courses in language, level I (30100 - 31200):

**GERMN 30100 - Advanced German Comprehension and Conversation**

**GER**

3/A

Intensive practice in reading and listening to German texts and in conversational German; some essay writing.

(Conducted in German)

*prereq: GERMN 20200 or 20300 or equiv.*

3 hrs

3 cr.

**GERMN 30200 - Advanced German Conversation and Composition**

**GER**

3/A

Intensive practice in speaking and writing German.

(Conducted in German)

*prereq: GERMN 20200 or 20300 or equiv.*

3 hrs

3 cr.

**GERMN 31000 - Advanced German Language Studies**

**GER**

3/A

Intensive language study in a German speaking country. May be repeated at different levels.

(Conducted in German)

*prereq: GERMN 20200 or 20300 or equiv.*

3 hrs

3 cr.

**GERMN 31200 - Introduction to Business German**

**GER**

3/A

Introduction to the specialized language of German business and economics and intensive practice in German terminology and style on such topics as banking and finance, the corporate structure and the European Union.

(Conducted in German)

*prereq: GERMN 30100 or perm instr.*

3 hrs

3 cr.

Advanced courses in literature, level I (32000 - 33900):
GERMN 32000 - Studies in German Literature and Language

**Pluralism and Diversity**

PD/D
GER
3/A

Discussion of literary topics or linguistic phenomena. May be repeated with a different topic.

(Conducted in German)

*prereq: GERMN 20200 or 20300 or equiv.*

3 hrs
3 cr.

GERMN 32100 - Individual and Society in Modern German Literature

**Pluralism and Diversity**

PD/D
GER
3/A

The central conflict between individual liberty and societal constraints as reflected in short stories, novellas and plays by 20th century authors such as Kafka, Brecht, Böll and Frisch.

(Conducted in German)

*prereq: GERMN 20200 or 20300 or equiv.*

3 hrs
3 cr.

GERMN 32200 - German Civilization

**Pluralism and Diversity**

PD/D
GER
3/A

Introduction to key topics in German history, politics, arts, literature and sciences.

(Conducted in German)

*prereq: GERMN 20200 or equiv.*

3 hrs
3 cr.

GERMN 32300 - Women in German Literature

**Pluralism and Diversity**

PD/C
GER
3/A

Reading and discussion of literature from the 19th century to the present written in German by and about women.

(Conducted in German)

*prereq: GERMN 20200 or 20300 or equiv.*

3 hrs
3 cr.
GERMN 32400 - Post-Feminist German Literature and Film

Pluralism and Diversity
P&D C
Reading and discussion of German literature and film written and produced by women at the end of the 20th and the beginning of the 21st centuries.

prereq: GERMN 20200 or 20300 or equivalent
3 hrs
3 cr.

GERMN 32700 - Modern Swiss Literature

Pluralism and Diversity
PD/D
GER
3/A
Reading and discussion of literature written in German by Swiss authors since the 19th century.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 32800 - German Children’s and Adolescent Literature

Pluralism and Diversity
PD/D
GER
3/A
Reading and discussion of literature for young readers and adolescents.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 33400 - The German Short Story and Novelle

Pluralism and Diversity
PD/D
GER
3/A
Discussion of short narrative works from age of Goethe to present.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 33500 - German Radio Plays: Hoerspiel
Pluralism and Diversity
GER 3/A PD/D
GER
3/A

Listening to and discussion of literary radio plays from the 1950s to today.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 33600 - German Lyric Poetry

Pluralism and Diversity
PD/D
GER
3/A

Discussion of important lyrics from Baroque period to present.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

GERMN 33900 - German Drama from Naturalism to Present

Pluralism and Diversity
PD/D
GER
3/A

Discussion of dramas by such writers as Hauptmann, Wedekind, Brecht, Dürrenmatt, Frisch and Handke.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

Advanced courses in literature, level II (34000 - 35900):

GERMN 34100 - German Drama from Age of Goethe to Naturalism

Pluralism and Diversity
PD/D
GER
3/A

Discussion of dramas by such writers as Goethe, Schiller, Kleist, Büchner, Grillparzer and Hebbel.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.
**GERMN 34200 - The German Novel**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Discussion of narrative works by such writers as Goethe, Keller, Fontane, T. Mann, Kafka, Döblin and Böll.

*(Conducted in German)*  
 prereq: one course numbered from GERMN 32000 to 35900 or equiv.  
3 hrs  
3 cr.

**GERMN 34300 - German Literature from Its Origins to the Age of Goethe**

**Pluralism and Diversity**  
PD/D

**GERMN 34400 - Readings in Classical Period of German Literature**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Discussion of selected works by Lessing, Goethe and Schiller.  
*(Conducted in German)*  
 prereq: one course numbered from GERMN 32000 to 35900 or equiv.  
3 hrs  
3 cr.

**GERMN 34500 - Literature of Weimar Republic**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Discussion of literary works and documents influential in German life between 1918 and 1933.  
*(Conducted in German)*  
 prereq: one course numbered from GERMN 32000 to 35900 or equiv.  
3 hrs  
3 cr.

**GERMN 34600 - German Literature of the 1930s and 1940s**

**Pluralism and Diversity**  
PD/D  
GER  
3/A
Reading and discussion of literature written between the time of the Weimar Republic and 1945.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 34700 - German Literature 1945-1995

Pluralism and Diversity
PD/D
GER
3/A

Reading and discussion of German literature written between 1945 and 1995.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 34800 - East German Literature (1945-1990)

Pluralism and Diversity
PD/D
GER
3/A

Reading and discussion in German of literature written in East Germany during the existence of the German Democratic Republic as a sovereign state.
(Conducted in German)
prereq: one course numbered GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 35000 - Austrian Literature

Pluralism and Diversity
PD/D
GER
3/A

Discussion of literature and culture of the fin-de-siècle Vienna.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 35300 - Goethe's Faust

Pluralism and Diversity
PD/D
GER
3/A

Intensive study of Goethe's Faust, Parts I and II.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 35900 - German Literary Seminar

Pluralism and Diversity
PD/D
GER
3/A

Seminar study of significant theme in German literature, German author or literary movement or genre. May be repeated with a different topic.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

Advanced courses in language, level II (all course numbers beginning with 38500);

GERMN 38501 - The German Press of Today: Reading and Understanding Newspapers and Magazines

GER
3/A

Reading and discussion of present-day German newspapers and magazines.
(Conducted in German) A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.
prereq: two courses numbered GERMN 30000 or above or equiv. (excluding courses in English translation)
3 hrs
3 cr.

GERMN 38502 - Advanced Business German

GER
3/A

Cross-cultural study and practicing of German business culture and language while studying Germany as global economic player. Topics such as corporate structure, management strategies, international marketing and labor relations.
A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.
prereq or coreq: GERMN 31200 or perm. instr.
3 hrs
3 cr.
GERMN 38503 - German Grammar for Upper-Level Discourse

GER
3/A

Study of German grammar from basic to complex structures. Intensive practice in control of grammatical forms at high levels of spoken and written discourse.
(Conducted in German)
A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.

prereq: three courses above GERMN 30000 or equiv (excluding courses in English translation)
3 hrs
3 cr.

Special projects:

GERMN 44400 - Seminar Studies in German Literature and Language

Pluralism and Diversity
PD/D
GER
3/A

Seminar study of literary topic or linguistic phenomenon. May be repeated with a different topic.
(Conducted in German)

prereq: GERMN 2000 or 20300 or equiv.
3 hrs
3 cr.

GERMN 49100 - Honors Project

Open to Jr/Sr only. Individual study and independent research in consultation with faculty member. Honors essay required.
(Conducted in German)

prereq: perm chair
3 cr.

GERMN 49200 - Independent Study in German

Number of credits to be determined in advance in consultation with faculty member on basis of work planned.
(Conducted in German) A varying selection of the following courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.

prereq: perm chair
1-3 cr.

GERMN 49300 - Individual Studies Project in German Studies

Individual research on German-studies topic under direction of faculty member. Written report required.
(Conducted in German)

prereq: perm chair
3 cr.
**GERMN 49800 - Internship**

(Conducted in German) A varying selection of the following courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.

*prereq: perm of chair*

1-4 cr.

**Additional Information**

At least 12 credits must be earned by taking advanced classes in German literature and culture (numbered 32000-35900; also 44400). Three or more of these credits must be from level II literature courses (numbered 34000-35900; also 44400). Majors are permitted to substitute one level I literature course (numbered 32000-33900) with a level II language course (any course with a number that begins with 38500). Students are encouraged to consult a departmental adviser as early as possible to plan their course of studies in German. Students who begin German in college may count the following as major courses.

**GERMN 20100 - Intermediate German I**

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.

*prereq: GRMN 10200 or equiv.*

3 hrs

3 cr.

**Preparation for Teaching in Grades 7-12**

In cooperation with the School of Education, the program in German provides opportunities for students to prepare for a career in teaching German in grades 7-12. Students preparing to teach German must complete a 33-credit major option (Option 2) for teaching that includes the 24-credit sequence (Option 1) taken by non-teaching majors plus 9 additional credits: GERMN 39900 and 6 additional credits in advanced GRMN language and literature courses in the German Department between GERMN 30100 and GERMN 44400 or GERMN 24000, GERMN 24100 or 300-level courses related to German studies offered in other departments (with prior approval by the chairperson of the German Department). Students interested in teaching German in New York schools will take the 23-credit pedagogical sequence for grades 7-12 Languages Other than English: Chinese, French, German, Hebrew, Italian, Russian, Spanish (BA) Additional Coursework and Student Teaching along with the major in German. This sequence may count toward the course requirements for New York State Certification but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the School of Education. All students who want to pursue a teaching certificate in German must take an oral examination with the German Department. See the The School of Education section of this catalog for further information.

**Electives**

All courses offered are open to all qualified students as electives. For placement, consult a departmental adviser or the department chair.

**Honors, Tutorials**

Consult the department chair for these special programs. In order to graduate with departmental honors the student has to write an honors essay in the following. Please check under “Academic Honors” for exact details. Students who
qualify can be elected to the German Honor Society Sigma Epsilon Phi. Please consult the department for exact requirements.

**GERMN 49100 - Honors Project**

Open to Jr/Sr only. Individual study and independent research in consultation with faculty member. Honors essay required.

(Conducted in German)

*prereq: perm chair*

3 cr.

**Study Abroad**

Summer study abroad programs, supported by scholarships, are open to students at all levels. Please contact the department chair for details.

**Exchange Program with Pädagogische Hochschule Karlsruhe, Germany**

The German Department has a semester-long or year-long exchange program with the Pädagogische Hochschule Karlsruhe[www.ph-karlsruhe.de/index.php. The department will help students seek financial support. Please consult the department for details.

Programs and Courses in History

History

Overview

History is the record of human experience. Its study is a first step in learning about ourselves and our society — about economics and politics, psychology and sociology, mathematics and science, the arts and the humanities. Beyond the purely practical consideration of a profession, the study of history is exciting in its own right. The History Department offers courses in the history of the United States, the ancient world, medieval and modern Europe, Russia, Jewish studies, the Middle East and Islamic world, Latin America, Africa, East Asia and South Asia, as well as many comparative topics in political, intellectual, and world history.
What can I do with my degree in History?

For students whose undergraduate major is history, career opportunities are numerous and varied. Medical, law and other professional schools favor applicants with history majors because of their broad background and research skills. Moreover, while teaching has long been a popular goal for history majors, positions in government (local, state and national), publishing, museums, public relations, advertising, media/communications, business and management also await those students whose human perspective, critical thinking skills, and intellectual discipline have been developed in history classes.

Degree Map for History

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a History major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all
Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

**ENGL 12000 - Expository Writing**

**Hunter Core**
- English Comp (EC)
- GER
- 1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

- Elective

Notes:

- Students must complete a minimum of 6 HIST credits within each of the following geographical fields: United States history, European history (includes Russia and the USSR), and World/Non-Western (Asia, Africa, and Middle East)/Latin American history.
- A maximum of 9 credits in 100-level courses may be applied to the major.
- A minimum of 18 credits in advanced-level courses distributed as follows:
  - 6 credits in 200-level courses (not including HIST 29000)
  - 9 credits in 300-level courses or higher (including HIST 30000/HIST 40000)
- **HIST 29000 - History Practicum (W)** Majors must have passed 9 credits of HIST-designated courses before enrolling in HIST 29000. No more than 6 of the 9 credits required for HIST 29000 enrollment may be at the 100 level. A minimum grade of C is required to receive credit for HIST 29000. The Department strongly suggests students take the Practicum in the sophomore year, but recognizes that transfer students will not have had an opportunity to do so, but should be encouraged to take it the Fall semester of their Junior year.
- Chronological Distribution: Within the requirements for the major (exclusive of HIST 300) students must also complete a minimum of 3 credits in a course that is largely focused on years prior to 1815:
  - If the course is at the 100-level, it must cover material that is entirely pre-1815.
  - If the course is at the 200-level or higher, the majority of the material in it must be pre-1815.

History - BA

Hunter Core Requirement

Hunter Core Requirement Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the
student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the History major, the courses that meet CCCR are:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30 credits)

1. A maximum of 9 credits in 100-level courses may be taken.

2. A minimum of 18 credits in advanced-level courses distributed as follows:

   - 6 credits in 200-level courses (not including HIST 29000)
   - 9 credits in 300-level courses or higher (not including HIST 30000/HIST 40000)

3. History Practicum

   HIST 29000 - History Practicum (W)
A seminar-style course intended to introduce students to the practice of historical research and writing. Students will be given a directed "hands-on" experience in conducting historical research and in the writing of research papers in measured, progressively challenging assignments. The course will prepare students to successfully engage in more self-directed, substantial and independent historical research projects in the future.

**prereq:** ENGL 12000; 6 cr in history and permission of the department

3 hrs.

3 cr.

Majors must have passed 9 credits of HIST-designated courses before enrolling in HIST 29000. No more than 6 of the 9 credits required for HIST 29000 enrollment may be at the 100 level.

*A minimum grade of C is required to receive credit for HIST 29000*

### 4. Historical Research or Historical Research Honors

**HIST 30000 - Historical Research (W)**

**GER**

3/B

Independent research related to a prior upper-level course already completed under the supervising instructor. The research will result in an extensive paper.

Courses at the 300-level and above not offered to freshmen.

**prereq:** HIST 29000 and departmental permission

3 hrs

3 cr.

### 5. Geographic Distribution:

Within the requirements for the major (exclusive of HIST 3000) students must complete a minimum of 6 credits in each of the following geographic fields:

- United States history
- European history (includes Russia and the U.S.S.R.)
- World/Non-Western history (includes Asia, Africa, Middle East, Latin America).

### 6. Chronological Distribution:

Within the requirements for the major (exclusive of HIST 30000) students must also complete a minimum of 3 credits in a course that is largely focused on years prior to 1815:

- If the course is at the 100-level, it must cover material that is entirely pre-1815.
- If the course is at the 200-level or higher, the majority of the material in it must be pre-1815.

**Teacher Education Pathway**

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.
Honors in History

Students will be eligible for honors in history upon the completion of all of the requirements for the major (including HIST 30000) with a 3.5 GPA and a 3.0 cumulative GPA at the time of graduation. In order to receive honors students may complete a portion of their major requirements in one of the following ways. (Choose one of the following options 1, 2 or 3):

- completing HIST 40000 with a grade of B or better in lieu of HIST 30000, which is required for the major
- completing 3 credits with a grade of B or better in an honors seminar, problems course, or tutorial (with departmental permission) in lieu of one of their 300-level or higher courses required for the major. Such seminars, honors courses, or tutorial options include:
  - HIST 48300 Problems in U.S. History (Honors) (W)
  - HIST 48400 Problems in European History (Honors) (W)
  - HIST 48500 Problems in Non-Western History (Honors) (W)
  - HIST 49300 Individual Tutorial Research Project
Note: the student must still complete HIST 30000 or HIST 40000
- completing a graduate-level course (with special permission from the instructor) with a grade of B or better in lieu of one of their 300-level or higher courses required for the major. Note: the student must still complete HIST 30000 or HIST 40000. Eligible students should apply for honors at the time they file for graduation. Applications are available from the department.

Graduate Study

Qualified students in their junior and senior years may be admitted to graduate courses with the approval of the department chair.

Degree Map

Degree Map for History

Undergraduate Minor

Minor in History

Students majoring in disciplines other than history may elect a minor in history. The history minor consists of 12 credits. The minor in History is flexible and thus it can provide depth to a variety of majors; students can tailor the minor to suit best their individual interests.

Requirements

- Four history courses of 3 credits each (or 12 credits total) taken for a letter grade (C or better. Courses taken for a grade of Credit/No Credit will not count toward the minor.)
- Courses must be distributed in at least two geographic fields, i.e. at least one course (3 credits) must be taken in a geographic area different from the other three. (Currently, the geographic areas are defined as U.S., European and World/Non-Western.)
At least two courses (6 credits) must be at the 300-level or above. Internships do not count toward completion of the minor, although students completing the minor may elect to include an internship as an additional course. Independent studies (tutorials) and HIST300 are available only to History Majors and, thus, do not count toward the minor.

At least two of the courses (or 6 credits) must be taken in the History Department at Hunter College. Courses taken in other disciplines will not count toward the minor unless cross-listed and taken under the appropriate HIST course code. Transfer courses must be approved by the History Undergraduate Advisor. There are no prerequisites for the minor, although certain courses may have their own prerequisites.

Declaring a Minor in History

Students are advised to declare their minor by the beginning of the upper junior semester, but must do it prior to their final semester (that of graduation). Declaration requires a planning session with the History Undergraduate Advisor and completion of the Major/Minor Declaration Form (to be obtained from the One Stop).

History: European History

HIST 12100 - Early Modern Europe 1500 to 1815

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/B

Transition from feudal society to national states; religious upheavals, expansion up to the French revolutionary era
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 12200 - 19th and 20th Century Europe (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/B

Scientific and industrial revolutions, liberalism, imperialism, socialism and fascism, total war, reconstruction.
Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs
3 cr.

HIST 20100 - Ancient Civilization

GER
2/B

Development of civilization in the Near East. Its expansion under Greece and Rome to 500 CE in the Mediterranean
HIST 21100 - Medieval Civilization (W)

Pluralism and Diversity
PD/D
Social, institutional and cultural history of Western Europe from the late Roman period to the Black Death in the mid-14th century.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 120
3 hrs
3 cr.

HIST 24200 - The Holocaust: An Introduction

Pluralism and Diversity
PD/D
The attempt to exterminate the Jewish people by the Nazis.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 30200 - Greek History

Pluralism and Diversity
PD/D
GER
3/B
From the Bronze Age ca. 3000 BCE to the Roman conquest. Emphasis on cultural and political contributions of ancient Greece.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 30300 - Roman History

Pluralism and Diversity
PD/D
GER
3/B
From Iron Age to Justinian; rise and fall of Rome's power and her political and cultural achievements.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 30500 - The Age of the Crusades
The expansion of western Europe from 800 to 1492 in eastern Europe, the Mediterranean, Asia and Africa, giving particular attention to the Reconquista in Spain and the crusades in the Middle East. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 31000 - Jewish History in the Medieval and Early Modern Periods

The Jewish people from late antiquity to 17th century; social and legal status under Islamic and Christian rulers; religious and intellectual movements. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 31100 - Europe in the Early Middle Ages

The development of European civilization from the fall of the Western Roman Empire to the First crusade. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 31200 - Europe in the High Middle Ages

The 12th and 13th centuries in Europe; church and state; science and universities; guilds and capitalism. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 31300 - Europe in the Late Middle Ages

Changing aspects of social, institutional, economic and cultural scene; humanism and art in the 14th and 15th centuries.
Courses at the 300-level and above not offered to freshmen.

**HIST 31400 - Ancient and Medieval Christianity (W)**

**Pluralism and Diversity**
PD/D  
GER  
3/B

The development of Christianity from Jesus to Luther; theology and mysticism, lay and monastic spirituality; the papacy and dissidents; gender and sexuality; relations with Judaism and Islam.

Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

**HIST 31900 - Jewish History in the Medieval and Early Modern Periods (W)**

**Pluralism and Diversity**
PD/A  
GER  
3/B

The Jewish people from late antiquity to the 17th century; social and legal status under Islamic and Christian rulers; religious and intellectual movements.

Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

**HIST 32000 - Jewish History in the Modern World (W)**

**Pluralism and Diversity**
PD/D  
GER  
3/B

From the 18th century to the present: Enlightenment, Jewish emancipation and nationalism, a Jewish state; anti-Semitism and the Holocaust; recent trends.

Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

**HIST 32100 - History of the Holocaust**

GER  
3/B

Examination of the mass murder of 6 million Jews by the Nazi regime during World War II.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 32400 - Europe in the Age of Renaissance and Reformation (W)

Pluralism and Diversity
PD/D
GER
3/B

European life and society in early modern era. Religious, political, economic and social change. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs
3 cr.

HIST 32500 - Europe in the Age of Absolutism and Revolution

GER
3/B

Europe from the middle of the 17th century through the Congress of Vienna in 1815. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 32600 - Europe 1815-1914

GER
3/B

Political, social, intellectual and economic developments from the Congress of Vienna to World War I. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 32700 - Europe since 1914

GER
3/B

Europe in a century of total wars and cold war: the military, political, social, economic and intellectual scene. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 32900 - History of European Diplomacy

Pluralism and Diversity
PD/D
GER
3/B

From the Congress of Vienna and national unification movements through the era of total wars and cold war. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 33000 - Social and Economic History of Modern Europe

Pluralism and Diversity
PD/D
GER
3/B

Social and economic developments in Europe during the past 200 years. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 33100 - European Culture in the 16th, 17th and 18th Centuries (W)

GER
3/B

The impact of the Reformation, Counter-Reformation, the Scientific Revolution and related movements. Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000

GER
3/B

A study of the 18th-century antecedents of the French Revolution, the Revolutionary decade and the Napoleonic period. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.
HIST 33500 - History of Modern France

GER
3/B

The French experience since Napoleon, with emphasis on life and death under the three Republics since 1870. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 33600 - History of 20th-Century Germany (W)

Pluralism and Diversity

PD/D

An introduction to the major themes in German history in the 20th Century. It covers such topics as the impact of the First World War, the rise of Adolf Hitler and the Nazis, the Second World War, and Germany's place in the Cold War. The course places particular emphasis on the controversies which have arisen out of Germany's turbulent recent past.

This course is an introduction to the major themes in German history in the 20th Century. It covers such topics as the impact of the First World War, the rise of Adolf Hitler and the Nazis, the Second World War, and Germany's place in the Cold War. The course places particular emphasis on the controversies which have arisen out of Germany's turbulent recent past.

prereq: ENGL 12000; Not offered to freshmen.

3 hrs
3 cr.

HIST 33700 - History of Spain

GER
3/B

From the Middle Ages to the present. Political, economic and social developments. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 33800 - History of Italy (W)

Pluralism and Diversity

PD/D

GER
3/B

Classical to Renaissance background. Catholic Reformation, foreign domination, Risorgimento to Fascism, post-World War II era. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs
3 cr.

HIST 34250 - Early British History to 1689
GER
3/B
Origins, medieval and early modern Britain to the Glorious Revolution.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 34251 - Britain Since 1689

Pluralism and Diversity
PD/D
GER
3/B
British history since the Glorious Revolution.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 34300 - England under the Tudors and Stuarts

GER
3/B
Government and society, 1485-1714.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 34600 - Churchill's Britain (W)

GER
3/B
The history of Britain and its empire in the 20th century. The emphasis will be on the world wars and their impact on British military and diplomatic power, and thus on the spread of British imperial rule up to the 1920s, as well as on the changes the wars brought to the British economy, society and culture and, ultimately, the collapse of the empire after 1945. The major theme of the course will be how to understand Britain's "decline" in the 20th century. The rise and fall of the British imperial system and its transformation into a Commonwealth of nations.
Courses at the 300-level and above not offered to freshmen.

prereq: ENGL 12000
3 hrs
3 cr.

HIST 37400 - Russia to the 20th Century

Pluralism and Diversity
PD/D
GER
3/B
Political, socioeconomic and cultural development of Russia from its Kievan origins to the crisis of monarchy.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 37500 - Late Imperial Russia and the Soviet Union**

**Pluralism and Diversity**
PD/D
GER
3/B

Political, socioeconomic and cultural development of late 19th and 20th century Russian and Soviet society.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 37600 - Soviet Foreign Policy**

GER
3/B

Objectives and strategies adopted by the Soviet government from the Russian Revolution of 1917 to the end of World War II.
Courses at the 300-level and above not offered to freshmen.

*prereq: at least one course in 20th century Europe or European diplomacy is recommended*

3 hrs
3 cr.

**HIST 38400 - Problems in European History (W)**

GER
3/B

Intensive reading and research in selected topics.
Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

3 hrs
3 cr.

**HIST 48400 - Problems in European History (Honors) (W)**

GER
3/B

Courses at the 300-level and above not offered to freshmen.

*prereq: perm chair*

3 hrs
3 cr.

**History: United States History**
HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 31600 - History of Religion in the United States

GER
3/B

Changing European churches and indigenous American sects; their architecture, leaders and ideas. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 31700 - History of the American City

Pluralism and Diversity
PD/D
GER
3/B

History of the American city from the Colonial era to the present; development of the city as physical environment, social experience, political entity and cultural symbol. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

3 cr.

HIST 35800 - 20th Century United States (W)

Pluralism and Diversity
PD/D
GER
3/B

Leading personalities and domestic problems of the U.S. Since 1900. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs
3 cr.

HIST 35900 - Immigration and Ethnicity in the United States

Pluralism and Diversity
PD/D
GER
3/B

Experience of immigrant groups since Colonial times; motives for coming; economic and social adjustment; encounter with prejudice; ethnic institutions. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 36100 - America and the World in the 20th Century

Pluralism and Diversity
PD/D
GER
3/B

The trajectory of American foreign relations during the last century, focusing on how and why the United States engaged other nations and peoples as it did. It also explores the ways in which developments overseas helped shape American domestic life.
Courses at the 300-level and above not offered to freshmen.

**HIST 36200 - Biography and Autobiography in the History of the U.S.**

**GER**
3/B

Studies of Americans prominent in politics, art and national life.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 36300 - American Cultural History**

**Pluralism and Diversity**
PD/D
**GER**
3/B

An exploration of several significant themes in American cultural history from the late nineteenth through the late twentieth centuries. Through close readings of selected primary and secondary works (both written and visual) we will consider the meanings of popular, proto-mass, and mass culture as well as the nature of different levels of cultural tastes and styles in modern American history. Reflecting on the broader social and political context of these developments we will study a range of topics, including the myth of the self-made man, the role of the frontier and the cowboy, and critiques of mass consumer culture. Central to our historical examination of American culture will be an effort to appraise and describe: how American writers, artists, orators, cultural critics and everyday people constructed narratives (written, spoken, musical, visual) of identity for themselves along ethnic, racial, gendered, class-based and national lines; how the construction of those narratives were related to each other; and, how those narratives changed over time depending on specific political and social contexts.

Not open to students who took HIST 34174, the experimental version of this course.

3 hrs
3 cr.

**HIST 36400 - American Constitutional History, 1783 to 1900**

**Pluralism and Diversity**
PD/D
**GER**
3/B

Development of constitutional thought from the framing of the Articles of Confederation to 1900.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 36500 - American Economic History**
Rural agrarianism to advanced industrialism. Political and social forces, problems of capitalism, social classes. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 36600 - Role of Women in American History

Pluralism and Diversity
PD/D
GER
3/B

Women in all aspects of the country's past; drive to suffrage and its aftermath. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 36700 - Civil War and Reconstruction

Pluralism and Diversity
PD/D
GER
3/B

Slavery, sectional conflict, political crisis of Union. New interpretations of postwar race relations. Courses at the 300-level and above not offered to freshmen.

History: Topical, Seminar and Tutorial Courses

HIST 14100 - Contemporary Issues in Historical Perspective (W)
Selected themes in history that bear on current problems and situations.

HIST 25000 - Historical Issues (W)

Pluralism and Diversity
PD/B (HIST 25004 only)
Study of selected historical themes and issues. Topics vary each semester. May be taken a second time.
Courses at the 300-level and above not offered to freshmen.

HIST 29000 - History Practicum (W)

A seminar-style course intended to introduce students to the practice of historical research and writing. Students will be given a directed "hands-on" experience in conducting historical research and in the writing of research papers in measured, progressively challenging assignments. The course will prepare students to successfully engage in more self-directed, substantial and independent historical research projects in the future.
prereq: ENGL 12000; 6 cr in history and permission of the department

HIST 29100 - Historical Methods

The study of history, its sources and its methods.
Courses at the 300-level and above not offered to freshmen.

HIST 30000 - Historical Research (W)

GER
3/B
Independent research related to a prior upper-level course already completed under the supervising instructor. The research will result in an extensive paper.

Courses at the 300-level and above not offered to freshmen.
prereq: HIST 29000 and departmental permission

HIST 34100 - Topics in History (W)

GER
3/B
Exploration of major trends, special controversies or significant events; topics vary each term.
Courses at the 300-level and above not offered to freshmen.
HIST 34122 - Latin American Political Economy

GER
3/B

courses at the 300-level and above not open to freshmen

3 hrs
3 cr.

HIST 34139 - African Influences in the Americas

GER
3/B

Courses at the 300-level and above not open to freshmen

3 hrs
3 cr.

HIST 38200 - Historical Studies Seminar

GER
3/B

Topics vary each term.
Courses at the 300-level and above not offered to freshmen.

prereq: GPA 2.8; history GPA 3.5

3 hrs
3 cr.

HIST 39100 - Historical Restoration and Museum Work

GER
3/B

Introduction to museum work.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 40000 - Historical Research [H]

GER
3/B

The origins of history writing and the modern historical profession; modes of historical research; the evaluation of historical evidence; the historical and social uses of history. Recommended for all history majors. Required of students who wish to graduate with honors in history.
Courses at the 300-level and above not offered to freshmen.
prereq: not open to students who have completed fewer than 80 credits
3 hrs
3 cr.

HIST 49200 - Honors Seminar in Historical Studies

3 hrs
3 cr.

HIST 49300 - Individual Tutorial Research Project

GER
3/B

Research paper under individual supervision of faculty member.
Courses at the 300-level and above not offered to freshmen.
prereq: perm chair and instr.
3 hrs
3 cr.

HIST 49800 - Internship

Work in professional institutions.
Courses at the 300-level and above not offered to freshmen.
prereq: perm chair
1-6 cr.

Religion: Religious Traditions

HIST 31500 - Christianity in Modern Times

GER
3/B

Not offered to freshmen. Transformation of Christianity since the Reformation, Enlightenment and modern political and intellectual challenges.
3 hrs
3 cr.

Programs and Courses in Human Rights

Human Rights

Overview

The Human Rights Program examines the theory and practice of human rights, combining academic training with hands-on experience. By exploring the philosophical foundations and legal framework of human rights, as well as
addressing current political, social and economic realities, the program seeks to give students the tools necessary to engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples' rights to natural resources, the limits of freedom of expression, the problem of corporate complicity in rights violations, the legitimacy of humanitarian intervention, and the problem of enforceability (both of economic, social, and cultural rights, and of civil and political rights).

An interdisciplinary program, the Human Rights Program offers courses in political science, anthropology, sociology and history, among other fields of study. Students may follow either of two academic tracks: a 15-credit Minor in human rights, or 24-credit Certificate. A key element of both tracks is the human rights internship, which gives students direct experience with the researchers, advocates, lawyers and analysts who make up the human rights movement. Both the Minor and Certificate in human rights are good preparation for a career in government, at a nongovernmental organization, or in a regional or international agency. Many students may choose to go on to law school, journalism school or a graduate program. Whatever their career choice, their knowledge of human rights will make them more thoughtful and informed citizens.

Human Rights Certificate

24-credit Certificate in Human Rights

- 4 Core Required Courses from an approved list
  - HR 20000 Introduction to Human Rights: History, Discourse, Practice (W)
  - HR 25000 Human Rights Internship
  - HR 26000 Human Rights Internship Seminar (W)
  - HR 35000 Human Rights Capstone Seminar (W)
- 4 Elective Cognate Courses from an approved list

- The approved list of cognates comprises courses drawn from 18 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Certificate program, a student must have at least completed HR 20000 with a B and have a cumulative GPA of 3.0.

Course Listing

Courses in Human Rights

Minor in Human Rights

The 15 credit minor in Human Rights consists of five 3 credit courses:

- 2 Core Required Courses
  - Introduction to Human Rights (HR 20000)
  - Internship in Human Rights (HR 25000)
- Elective Cognate Courses from an approved list

- The approved list of cognates comprises courses drawn from 16 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers
special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Minor program, a student must have completed HR 20000 with a B and have a cumulative GPA of 3.0.

Human Rights

HR 20000 - Introduction to Human Rights: History, Discourse, Practice (W)

Pluralism and Diversity
PD/D
GER
3/B

An introduction to the study of human rights. It explores the historical, philosophical, and legal roots of human rights as a political idea and institutionalized practice. It also addressed the contested nature of human rights as an idea and practice in contemporary societies. In addition to providing an introduction to the subject, the course is a requirement for students minoring in Human Rights or pursuing a Human Rights Certificate.

In order to pursue a Human Rights minor or Certificate, a student must receive at least a B (3.0) in this course. Students should take this introductory course in their sophomore year but must take it no later than the first semester of their junior year. This is a writing intensive course.

prereq: ENGL 12000 or equivalent; one course in ethics, political philosophy, political theory, sociological theory, or permission from the instructors.
3 hrs
3 cr.
fall and spring; summer when possible

HR 22000 - Special Topics in Human Rights

This course covers special topics in human rights. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. The course may be repeated four times for credit with different topics.

prereq: ENGL 12000; HR 20000 is recommended but not required
3 hrs
3 cr.

HR 25000 - Human Rights Internship

This is a practicum course. It involves students participating in an organization that identifies its mission as the promotion of human rights. The aim of the course is to educate students in the practical dimension of translating human rights discourse and law into practice. The course is required for students seeking a Human Rights Certificate or a minor in Human Rights.

prereq: ENGL 12000 or equivalent; HR 20000 or equivalent
3 hrs
3 cr.
fall, winter, spring, and summer
HR 26000 - Human Rights Internship Seminar (W)

This course critically evaluates the role of human rights organizations and human rights practices in determining the meaning and value of human rights.

prereq: ENGL 12000 and HR 20000
prereq or coreq: HR 25000

3 hrs

3 cr.

fall semesters on Wednesdays, 10:10 a.m. – 1:00 p.m. It is recommended that students not take an earlier Wednesday morning class, as site visits off campus may start at 10:00 a.m.

HR 32000 - Special Topics in Human Rights

This course covers special topics in human rights on an advanced undergraduate level. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. May be repeated four times for credit with different topics.

prereq: ENGL 12000; HR 20000 or Permission of Instructor or Permission of Human Rights Program Director

3 hrs

3 cr.

HR 35000 - Human Rights Capstone Seminar (W)

This course involves the theoretical examination of constitutive problems in the discourse and practice of human rights, especially as they would inform the composition of a human rights academic research project. It requires participating students to present their research projects in the seminar and to compose a 20-25 page research paper on a human rights topic.

This course is specifically designed for students who are pursuing a Certificate in Human Rights. This is a writing intensive course.

prereq or coreq: HR 26000

Offered spring only

Programs and Courses in Hunter-Bellevue School of Nursing

Hunter-Bellevue School of Nursing

Overview

The Hunter-Bellevue School of Nursing is located at Hunter College's Brookdale Health Science Center at 425 East 25th Street in Manhattan, near Bellevue Hospital. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care. The School's mission is to provide quality nursing education to promote health and provide care to culturally diverse, urban, and global communities through research,
scholarship, and service. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care.

The School offers three programs leading to the Bachelor of Science (with a major in nursing) degree: the Generic Program, for students who do not have an RN license; the RN to BS Program, for students who have completed a nursing program and have received or are about to receive a current RN license to practice professional nursing in New York State and the Accelerated 2nd Degree Program, for students who have already achieved a baccalaureate degree in another field of study and wish to transition into a nursing career. Information on applying to all of our programs is available at http://www.hunter.cuny.edu/nursing. In earning the Bachelor of Science (with a major in Nursing) degree, students in all programs complete core requirements and professional education curriculum requirements.

What can I do with my degree in Nursing?

Hunter-Bellevue Baccalaureate graduates are prepared to practice as generalist nurses in health care settings.

**HEGIS Codes: 1203 (Generic); 1203.10 (RN to BS)**  

**Bachelor of Science - BS**  

**Degree Map for Nursing: Generic Pathway**  

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Nursing: Generic major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.  

**Freshman Year**
Fall

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)
**GER**
1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf

3 cr.

**STAT 11300 - Elementary Probability and Statistics**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

*prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam*

*prereq or coreq: ENGL 12000*

3 hrs

3 cr.

**CHEM 10000 (STEM) - Essentials of General Chemistry Lecture**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
GER 2/E

Essential facts, laws, and theories of general chemistry. Primarily for nursing, nutrition and food science and community health education students. Core credit only if both lecture and the corresponding lab are completed.

*prereq or coreq: MATH 10100 or 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500*

4 hrs (3 lec, 1 rec)

3 cr.

**CHEM 10100 - Inquiries into the Nature of Matter**
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
GER 2/E

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students. Primarily for nursing, nutrition and food science and public health students.

3 hrs
3 cr.

Spring

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

PSYCH 15000 - Human Development

GER
2/B

Development from conception to death; biological, physiological and social factors and their interactions at each stage.

prereq: PSYC 10000
3 hrs
3 cr.

CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Course presents essential facts, laws and theories of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

prereq: CHEM 10000
CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E
Experiments designed to illustrate fundamental laws and techniques of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and public health students.

 prerequisites:
CHEM 10100
prereq or coreq:
CHEM 12000
3 hrs (3 lab)
1.5 cr.
• Hunter Core

Sophomore Year

Fall

BIOL 12000 - Anatomy and Physiology I
Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program. Not accepted for credit toward the biology major.
 prerequisites:
CHEM 10000, 10100
coreq:
CHEM 12000, 12100
7 hrs (3 hr Lecture, 1 hr Recitation, 3 hr Lab)
4.5 cr.
fall only

NURS 20000 - Introduction to Nursing
Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.
 RN to BS only: online

 prerequisites:
CHEM 10000/10100; STAT 11300
coreq: Generic Pathway: NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall

NURS 24000 - Foundations of Genetics for Nurses
This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues.

For RN to BS students only: online
prereq: (generic) CHEM 10000/10100, STAT 11300;
(RN-BS) CHEM 10000/10100
coreq: (generic) NURS 20000, NURS 21000
30 hrs. lecture
2 cr.

• Hunter Core
• Hunte Core

Spring

BIOL 12200 - Anatomy and Physiology II

Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
prereq: BIOL 12000 or equiv.
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
spring only

BIOL 23000 - Fundamentals of Microbiology

GER
3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program.
Not accepted for credit toward the biology Major I.
prereq: CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200
5 hrs (2 lec, 3 lab)
3 cr.
spring only

NURS 21000 - Nursing Fundamentals and Health Assessment

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client's history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are highlighted for all age groups.

Material fee: $50.00
prereq: (Generic) BIO 12000, NURS 20000, NURS 24000
(A2D)CHEM 10000/10100; STAT 11300
coreq: (Generic): BIO 12200, BIO 23000, NURS 34300
(A2D): NURS 20000; NURS 22000; NURS 33100
NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
2. Accelerated 2nd Degree: BIO 12200, BIO 23000; NURS 21000
coreq: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000
45 hrs

3 cr.

NURS 22000 - Adult Health and Illness

This class provides a knowledge base for effective nursing care of adult clients. Students will gain insight into the management of chronic illnesses. Through utilization of the nursing process, the student's role as client advocate, patient educator, and caregiver are further actualized. Methods of systematic analysis of research are introduced. Experimental learning in a variety of setting provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.

Material Fee $50.00
prereq: (Generic): NURS 21000, NURS 34300, NURS 24000; BIO 12200, BIO 23000
(A2D): CHEM 10000/10100; STAT 11300
coreq: (Generic) NURS 33100; NURS 33200

3 cr.

### NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process

This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.

**prereq:** NURS 22000

30 hrs
2 cr.
- Hunter Core

### Spring

### NURS 33900 - Pharmacology II

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

**prereq:** (Generic and A2D) NURS 22000; NURS 33100

**coreq:** (generic) NURS 35200; NURS 36000
(A2D) NURS 34300, NURS 35200, NURS 36000

3 cr.

### NURS 35200 - Nursing Care of Women and Childbearing Families

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

**prereq:** (generic & A2D) NURS 22000; NURS 33100

**coreq:** (Generic ) NURS 33900; NURS 36000
(A2D) NURS 33900, NURS 34300; NURS 36000

30 hrs. Lecture, 90 hrs. Clinical
4 cr.
**NURS 36000 - Nursing Care of Infants, Children, and Adolescents**

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

**prereq:** NURS 22000; NURS 33100 (generic & A2D)

核心课程: (通用) NURS 33900; NURS 35200

(A2D) NURS 33900, NURS 34300; NURS 35200

**Senior Year**

**Fall**

**NURS 34900 - Foundations of Ethics and End-of-Life Care**

Core professional values and excellences, foundational ethical principles, and essential topics in end of life care will be introduced and explored during this course. Emphasis will be on acquiring generalized knowledge to enable the novice nurse to 1) apply ethical principles to practice, 2) develop the skills to practice with moral comportment and courage, and 3) understand the needs of the dying patient (and loved ones) in order to provide quality end of life care. At the completion of this course with required attendance for all modules, students will be designated "ELNEC Trained."

**prereq:** NURS 22000

核心课程: (通用) NURS 45500; NURS 46000

45 hrs. lecture

3 hrs.

**NURS 46000 - Mental and Behavioral Health Nursing**

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team.

材料费: $25.00

**prereq:** (通用 & A2D) NURS 35200; NURS 36000

核心课程: (通用) NURS 34900, NURS 45500

(A2D) NURS 45500

4 cr.
NURS 45500 - Public Health Nursing

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: (generic & A2D) NURS 35200; NURS 36000

NURS 47000 - Adult Acute Illness/ Immersion Clinical

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.

prereq: NURS 45500; NURS 46000  
coreq: (Generic) NURS 42200; NURS 49000; NURS 49200  
(A2D) NURS 42000; NURS 49000; NURS 49200  
22.5 hrs: Lecture; 112.5 hrs: Clinical  
4 cr.

NURS 49000 - Gerontological Nursing

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with interdisciplinary health teams.

prereq: NURS 45500; NURS 46000  
coreq: (Generic) NURS 42200; NURS 47000; NURS 49200  
(A2D) NURS 42000; NURS 47000; NURS 49200  
30 hrs: Lecture; 90 hrs: Clinical  
4 cr.

NURS 49200 - Advanced Synthesis of Nursing Knowledge
This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

\textit{prereq:} (generic) NURS 33900, NURS 34900, NURS 45500, NURS 46000
(A2D) NURS 33900, NURS 45500, NURS 46000 (A2D)

(A2D) NURS 42000; NURS 47000; NURS 49000
22.5 hrs: Lecture, 30 hrs: Lab
2 cr.

\textbf{NURS 42200 - Health Policy and Leadership}

This final-semester course examines the roles of the professional nurse in leading and managing health care services within a complex and evolving health system. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services. Principles of coordinating care, delegation and assignment of nursing tasks and functions, and collaboration with other health professions are addressed. The course examines nurses' roles in advocating on behalf of patients, themselves and the profession.

\textit{prereq:} NURS 45500; NURS 46000
\textit{coreq:} NURS 47000; NURS 49000; NURS 49200
45 hrs: Lecture
3 cr.
• Hunter Core

\textbf{Nursing Accelerated 2nd Degree Program}

This program is designed for students who have a baccalaureate degree in another field and wish to transition into a career in nursing. The program is intensive; students receive a Bachelor of Science degree with a major in Nursing in 18 months provided they have met all general education requirements. The Accelerated 2nd Degree Program is a full-time program that includes weekends, daytime and evening classes.

\textbf{Requirements for Admission}

In order to be considered for admission into the Accelerated 2nd Degree Program, applicants must meet eligibility requirements and admission criteria. All students applying to the Accelerated 2nd Degree Nursing Program must have a baccalaureate degree from an accredited institution with a minimum cumulative GPA of 3.2 and a minimum grade of "B" in all science courses by June 1 preceding their entrance into the program. Students who meet GPA and degree requirements are required to take the National League for Nursing Pre-admission-RN Examination in order to apply for admission into the program.

Students may take their last two required courses for admission during the spring semester of the admission process. Required courses must be taken for a grade: courses taken on a credit/no credit (CR/NC) basis will not be accepted. Students may not take required courses during the summer immediately preceding the fall entry into the program. Proof of successful completion of courses taken in the spring must be received by the School of Nursing by June 1. Because admissions decisions are made before the spring term ends, applicants with pending grades will be conditionally accepted until receipt of final grades. Acceptance into the nursing major is based on the following admission criteria: composite admission score (GPA plus score on NLN Pre-Admission-RN Examination) and completion of all admission requirements. The composite scores are rank ordered from the highest to the lowest, and admission decisions are given to those applicants with the highest scores.
Requirements for the Degree:

69 non-nursing and 51 nursing credits

Accelerated 2nd Degree Program:

NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.

**Nursing Course Listing**

Return to Hunter-Bellevue School of Nursing

*Note: Students who fail a core prerequisite course in a nursing sequence may not proceed to the next course in the sequence without repeating the failed course. In order to continue in the Nursing major, students must receive minimum grades of "C" in all required nursing courses. Only one failed required nursing course is repeatable only once by students who have received a "D" or less. Students who fail a second required nursing course in the sequence may not repeat that course and may not continue in the major. This policy applies even though a grade appeal is in progress.*

Nursing Accelerated 2nd Degree Program

NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.
RN to BS only: online

prereq: CHEM 10000/10100; STAT 11300
coreq: Generic Pathway: NURS 24000

Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100

30 hrs
2 cr.
offered fall

NURS 33100 - Pharmacology I

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.
NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process

This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.

prereq: NURS 22000
30 hrs
2 cr.

NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
2. Accelerated 2nd Degree: BIO 12200, BIO 23000; NURS 21000
coreq: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000
45 hrs
3 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing.
For RN to BS only: online
prereq: Generic Program: NURS 21000
Accelerated 2nd Degree: NURS 22000
coreq: Generic Program: NURS 22000; NURS 33100; NURS 33200
Accelerated 2nd Degree: none
3 hrs
3 cr.

NURS 42000 - Nursing Leadership and Ethics

In this course, students will examine the roles of the professional leadership in leading and managing health care services and ensuring ethical nursing practice. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services consistent with the ethical principles of the nursing profession. Students will be introduced to principles of coordinating care, including delegation and assignment of nursing tasks and functions. The course addresses nurses' roles in advocating on behalf of patients, themselves and the profession.
RN Pathway Courses

Nursing RN-to-BS

**NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System**

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.

For RN students only

- **online**
- **3 hrs**
- **3 cr.**

**NURS 38000 - Nursing Research and Theory**

Introduction to theory development and research in nursing.

For RN to BS only: online

- **prereq: Generic Program: NURS 21000**
- **Accelerated 2nd Degree: NURS 22000**

- **coreq: Generic Program: NURS 22000; NURS 33100; NURS 33200**
- **Accelerated 2nd Degree: none**

- **3 hrs**
- **3 cr.**

**NURS 38100 - Health Assessment Throughout the Lifespan**

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.

- **Fully online.**
- **Material Fee: $45**

- **prereq: CHEM 10000, CHEM 10100**

- **3 hrs**
- **3 cr.**

**NURS 48000 - Promotion of Wellness in the Community**

Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement.

- **4 hrs**
- **4 cr.**

**NURS 48200 - Advancement of Roles and Relationships in Professional Nursing**
Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program.

Fully online-hybrid.

3 hrs
3 cr.

Nursing Electives

**NURS 34000 - Women’s Health**

**Pluralism and Diversity**

PD/C

Designed to identify and analyze those factors which impact on the health status of women: biological, sociological, psychological, environmental, political.

3 hrs
3 cr.

**NURS 34200 - Ethical Issues in Nursing Practice**

Open to RN-BS and senior Generic Program students only. Examines ethical issues which arise from the practice of nursing in an interpersonal, professional, institutional and social context of diverse and competing values.

3 hrs
3 cr.

**NURS 34300 - Pathophysiology and Nursing Care**

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

 prereq: 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
    2. Accelerated 2nd Degree: BIO 12200, BIO 23000; NURS 21000
   coreq: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
      2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000

45 hrs
3 cr.

**NURS 34500 - HIV/AIDS: An Interdisciplinary Perspective for Health Care Providers**

Examines the impact of the HIV epidemic on the biological, psychological and social dimensions of persons affected by HIV/AIDS.

3 hrs
3 cr.
NURS 34600 - Death and Dying

Pluralism and Diversity
P/D B
Provides an overview of current theories, concepts, and practices associated with death, dying and end-of-life care.
3 hrs
3 cr.

NURS 35000 - Independent Study in Nursing

An opportunity to explore a topic relevant to nursing which is of individual interest.
1-3 hrs
1-3 cr.

NURS 35100 - Gender, Science and Technology

Pluralism and Diversity
PD/C
Explores the complex relationship between women and the sciences.
cross-listed WGSS 35100
3 hrs
3 cr.

NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.
for RN students only
online
3 hrs
3 cr.

NURS 39998 - Urban Disaster Response and the Health Care Team

Provides the student with an understanding of the causes, prevention, and mitigation of disasters and insight into the disaster management system nationally and locally. The course will include content relevant to all disciplines in the disaster care continuum and focus on each individual health care member's role and responsibilities within these systems.
3 hrs
3 cr.

NURS 44000 - Stress Management for Nurses

An overview of stress and its effect upon behavior within the framework of the holistic man-wellness model.
3 hrs
3 cr.

NURS 44100 - Selected Studies in Nursing Research
Honors course. Utilization of basic knowledge in nursing research to critique and interpret studies and discuss their relevance and application in nursing.

prereq: NURS 31000, 31200, 33100, 33200, 38000, 38100
3 hrs.
3 cr.

**NURS 44200 - Nursing Care of Acute and Critically Ill Clients**

Examination of nursing knowledge and roles in caring for acute and critically ill clients and their families.
3 hrs
3 cr.

**NURS 44500 - Teaching-Learning Across the Developmental and Health Continua**

Pedagogical/andragogical principles of learning and instruction to enhance client teaching in the promotion, maintenance and/or restoration of health.
3 hrs
3 cr.

**NURS 45000 - Computer Concepts and Application in Nursing**

Study of computing concepts, principles, practices, and applications in nursing and health care.
3 hrs
3 cr.

**NURS 48300 - Politics of Health**

An analysis of the relationships between politics and health status, health services and health care providers.
3 hrs
3 cr.

**Leave of Absence Policy and Reserved Placement in a Clinical Course**

A reserved placement in a clinical/field course will be held for the student for only one year from the date of the leave of absence. The School of Nursing cannot guarantee the placement for any longer period of time. It is the responsibility of the student to submit to the undergraduate program director a letter of intent, one semester prior to returning to the program and enrolling in the course (April 1 for a fall course). Students who fail to follow this procedure release the School of Nursing from reserving a clinical/field placement in a course for the student.

**Nursing Generic Program**

The Hunter-Bellevue School of Nursing undergraduate program of study combines liberal arts and professional nursing education with a humanistic and comprehensive approach to health care, leading to a Bachelor of Science degree with a major in Nursing. At the completion of this generic program, students are eligible to take the National Council of State
Boards Licensing Examination for RNs (NCLEX-RN). The undergraduate program also provides a foundation for graduate study. The Generic Program consists of two parts:

- Non-nursing (liberal arts and core requirements)
- Nursing (professional nursing education)

Students are considered for admission to the school of nursing for the fall semester only, after completing non-nursing pre-requisite courses and an application. Only students admitted to the School of Nursing are permitted to declare nursing as their major. Students admitted to the School of Nursing are required to attend the program on a full-time basis.

**Requirements for Admission to Nursing Program**

All students applying to the Generic Nursing Program must have a college GPA of 3.2 or above by the end of the fall semester preceding spring application.

- Courses taken prior to clinical nursing courses may not be taken on a Credit/No Credit basis.
- Required courses for admission to nursing major with a minimum GPA of 3.2 and a minimum grade of "B" in statistics and all science courses:
  - General Chemistry with lab (CHEM 10000 /CHEM 10100) or higher equivalent course
  - Organic Chemistry with lab (CHEM 12000 /CHEM 12100) or higher equivalent course
  - Introduction to Statistics (STAT 11300) or higher equivalent course
  - History (HIST 15100, HIST 15200 or POLSC 11000)
  - English Composition (ENGL 12000 and ENGL 22000)
  - General Psychology (PSYCH 10000)
  - Human Development (Developmental Psychology of the Life Span; PSYCH 15000)
  - Students enrolled in required courses for admission to nursing major during the spring semester of application must provide proof of a minimum cumulative GPA of 3.2 and a minimum grade of "B" in all science courses no later than June 1st in order to receive final acceptance to the nursing major.
  - A career goal statement will be required.
  - Complete the NLN RN Pre-Admission exam (referred to as the NLN PAX exam) which is administered in February at Hunter College Testing Center (150N)

**Non-Nursing Program Requirement**

For CUNY Common Core-Required Core & CUNY Common Core-Flexible Core go to General Education - Effective Fall 2019.

**Nursing Program Requirements (120 credits)**

Requirements for the degree:

60 non-nursing and 60 nursing credits.

**BIOL 12000 - Anatomy and Physiology I**

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.

Not accepted for credit toward the biology major.

*prereq: CHEM 10000, 10100
coreq: CHEM 12000, 12100*
BIOL 12200 - Anatomy and Physiology II

Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program. Not accepted for credit toward the biology major.

Prereq: BIOL 12000 or equiv.

BIOL 23000 - Fundamentals of Microbiology

GER

3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program. Not accepted for credit toward the biology major.

Prereq: CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200

NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.

RN to BS only: online

Prereq: CHEM 10000/10100; STAT 11300

NURS 21000 - Nursing Fundamentals and Health Assessment

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client's history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are highlighted for all age groups.

Material fee: $50.00

Prereq: (Generic) BIO 12000, NURS 20000, NURS 24000

(A2D)CHEM 10000/10100; STAT 11300
NURS 22000 - Adult Health and Illness

This class provides a knowledge base for effective nursing care of adult clients. Students will gain insight into the management of chronic illnesses. Through utilization of the nursing process, the student's role as client advocate, patient educator, and caregiver are further actualized. Methods of systematic analysis of research are introduced. Experimental learning in a variety of setting provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.

Material Fee $50.00

prereq: (Generic): NURS 21000, NURS 34300, NURS 24000; BIO 12200, BIO 23000
(A2D): CHEM 10000/10100; STAT 11300
coreq: (Generic) NURS 33100; NURS 33200

22.5 hrs Lecture, 30 hrs Lab, 67.5 hrs. Clinical
4 cr.

NURS 24000 - Foundations of Genetics for Nurses

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues.

For RN to BS students only: online

prereq: (generic) CHEM 10000/10100, STAT 11300;
(RN-BS) CHEM 10000/10100

coreq: (generic) NURS 20000, NURS 21000

30 hrs. lecture
2 cr.

NURS 33100 - Pharmacology I

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

prereq: 1. Generic Program: NURS 21000; NURS 34300; BIO 12200
2. Accelerated 2nd Degree: CHEM 10000/10100; STAT 11300

coreq: 1. Generic Program: NURS 22000, NURS 33200
2. Accelerated 2nd Degree: NURS 20000; NURS 21000; NURS 22000

3 hrs
3 cr.

NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process

This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.
NURS 33900 - Pharmacology II

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

prereq: (Generic and A2D) NURS 22000; NURS 33100
coreq: (generic) NURS 35200; NURS 36000
(A2D) NURS 34300, NURS 35200, NURS 36000
3 hrs.
3 cr.

NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
2. Accelerated 2nd Degree: BIO 12200, BIO 23000; NURS 21000
coreq: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000
45 hrs.
3 cr.

NURS 34900 - Foundations of Ethics and End-of-Life Care

Core professional values and excellences, foundational ethical principles, and essential topics in end of life care will be introduced and explored during this course. Emphasis will be on acquiring generalized knowledge to enable the novice nurse to 1) apply ethical principles to practice, 2) develop the skills to practice with moral comportment and courage, and 3) understand the needs of the dying patient (and loved ones) in order to provide quality end of life care. At the completion of this course with required attendance for all modules, students will be designated "ELNEC Trained."

prereq: NURS 22000
coreq: NURS 45500; NURS 46000
45 hrs. lecture
3 hrs.

NURS 35200 - Nursing Care of Women and Childbearing Families

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric
and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

prereq: (generic & A2D) NURS 22000; NURS 33100
coreq: (Generic ) NURS 33900; NURS 36000
(A2D) NURS 33900, NURS 34300; NURS 36000
30 hrs. Lecture, 90 hrs. Clinical
4 cr.

**NURS 36000 - Nursing Care of Infants, Children, and Adolescents**

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

prereq: NURS 22000; NURS 33100 (generic & A2D)
coreq: (Generic) NURS 33900; NURS 35200
(A2D) NURS 33900, NURS 34300; NURS 35200
22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical
4 cr.

**NURS 38000 - Nursing Research and Theory**

Introduction to theory development and research in nursing.  
For RN to BS only: online

prereq: Generic Program: NURS 21000  
Accelerated 2nd Degree: NURS 22000

coreq: Generic Program: NURS 22000; NURS 33100; NURS 33200  
Accelerated 2nd Degree: none

3 hrs

3 cr.

**NURS 42200 - Health Policy and Leadership**

This final-semester course examines the roles of the professional nurse in leading and managing health care services within a complex and evolving health system. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services. Principles of coordinating care, delegation and assignment of nursing tasks and functions, and collaboration with other health professions are addressed. The course examines nurses' roles in advocating on behalf of patients, themselves and the profession.

prereq: NURS 45500; NURS 46000
coreq: NURS 47000; NURS 49000; NURS 49200

45 hrs: Lecture

3 cr.

**NURS 45500 - Public Health Nursing**

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing
practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 46000
(A2D) NURS 46000
30 hrs: Lecture, 90 hrs: Clinical
4 cr.

**NURS 46000 - Mental and Behavioral Health Nursing**

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team.

Material fee: $25.00
prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 45500
(A2D) NURS 45500
30 hrs: Lecture, 15 hrs: Lab; 67.5 hrs Clinical
4 cr.

**NURS 47000 - Adult Acute Illness/ Immersion Clinical**

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 49000; NURS 49200
(A2D) NURS 42000; NURS 49000; NURS 49200
22.5 hrs: Lecture; 112.5 hrs: Clinical
4 cr.

**NURS 49000 - Gerontological Nursing**

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with inter-disciplinary health teams.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 47000; NURS 49200
(A2D) NURS 42000; NURS 47000; NURS 49200
NURS 49200 - Advanced Synthesis of Nursing Knowledge

This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

prereq: (generic) NURS 33900, NURS 34900, NURS 45500, NURS 46000
(A2D) NURS 33900, NURS 45500, NURS 46000 (A2D)
coreq: (Generic) NURS 42200; NURS 47000; NURS 49000
(A2D) NURS 42000; NURS 47000; NURS 49000
22.5 hrs: Lecture, 30 hrs: Lab
2 cr.

Repeating a Course

Note: Students who fail a core prerequisite course in a nursing sequence may not proceed to the next course in the sequence without repeating the failed course. In order to continue in the Nursing major, students must receive minimum grades of "C" in all required nursing courses. Students who receive a grade of "D" or lower will be allowed to repeat the course only once. Students who fail a second required nursing course will be dismissed from the nursing program. This policy applies even if a grade appeal is in progress. Students who fail the clinical portion of a course will receive an "F" for the entire course, regardless of the corresponding theory grade.

Leave of Absence Policy and Reserved Placement in a Clinical Course

A reserved placement in a clinical/field course will be held for the student for only one year from the date of the leave of absence. It is the responsibility of the student to submit to the undergraduate program Associate Dean a letter of intent, one semester prior to returning to the program and enrolling in the course (April 1 for a fall course). Students who fail to follow this procedure release the School of Nursing from reserving a clinical/field placement in a course for the student.

Degree Map for Nursing: Generic Pathway

Nursing RN-to-BS

Admission Criteria: RN-to-BS Program

An overall college GPA of 3.2 in addition to other requirements is the minimum requirement for consideration of an application. Admission to the School of Nursing is competitive.

The program is designed for RN students who have already completed a two- or three-year nursing program. All RN students admitted to the program are required to submit evidence of NYS RN licensure, health insurance, medical
records with specified immunizations, background check and drug test, and CPR certification prior to entering the first semester of the nursing major.

Applicants who are in the process of taking the licensing examination are admitted conditionally. Proof of receipt of an RN license must be submitted to the Hunter-Bellevue School of Nursing by December 1 for students admitted in the fall. Students unable to show proof of license will not be permitted to continue in the nursing major. Applicants to the RN-BS Program must have completed 36 credits of liberal arts and sciences (including credits in progress) at an accredited college, plus the equivalent of 24 credits in nursing.

Students transferring from any accredited associate degree program in the United States will be granted 24 nursing credits for having a Professional Registered Nurse license. The Nursing Regents College Examinations (RCE’S) in Adult Nursing, Maternal and Child Nursing, and Psychiatric/Mental Health Nursing at the baccalaureate level are required for applicants from schools without accreditation, and for international graduates. A grade of “C” or better is acceptable.

Students should download a current RN Program Fact Sheet, which details the admission process, from the Hunter-Bellevue School of Nursing website at http://www.hunter.cuny.edu/nursing.

International applicants who need an F-1 or J-1 visa are not currently eligible for this program.

Lower Division: Hunter Core (66 credits)

Students entering Hunter with an AAS degree are required to complete Core, Pluralism and Diversity, and one writing course. Transfer students will have their transcripts evaluated upon admission by the admissions office. Courses for which equivalency is granted need not be repeated. Some transfer courses also may be used to satisfy Core requirements. For CUNY Common Core, Required Core & CUNY Common Core, Flexible Core go to General Education - Effective Fall 2019.

Non-nursing courses taken prior to admission to BS nursing courses at Hunter

Prerequisite Courses (courses meet Hunter Core as noted)

- English Composition (ENGL 12000 or transfer equivalent)* meets English Comp 1
- Introduction to Statistics (STAT 11300 or transfer equivalent)* meets M/QR
- General Psychology (PSYCH 10000 or transfer equivalent)
- Human Development (PSYCH 15000 or transfer equivalent)
- General Chemistry with Lab (CHEM 10000 (STEM) and CHEM 10100 or transfer equivalent) * meets LPS
- Anatomy & Physiology (BIOL 12000&nbsp;& BIOL 12200&nbsp;or transfer equivalent)
- Microbiology with lab (BIOL 23000 or transfer equivalent)
- 12.5 credits of science and math in addition to Statistics and Chemistry

Upper Division: Major Requirements

Students partially fulfill the major requirements with 24 credits of nursing with their AAS degree or Regents Colleges Examinations. The remaining major courses are completed at Hunter:

**NURS 20000 - Introduction to Nursing**

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.
RN to BS only: online

prereq: CHEM 10000/10100; STAT 11300
coreq: Generic Pathway: NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall

NURS 24000 - Foundations of Genetics for Nurses

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues.
For RN to BS students only: online
prereq: (generic) CHEM 10000/10100, STAT 11300;
(RN-BS) CHEM 10000/10100
coreq: (generic) NURS 20000, NURS 21000
30 hrs. lecture
2 cr.

NURS 33400 - Pathopharmacology

An intensive course focused on a molecular understanding of the disease process. The course emphasizes physiological disruptions, associated nursing care, and pharmacological management.
for RN students only

online

prereq: CHEM 10000/10100; BIOL 23000
4 hrs
4 cr.

NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses.
Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service- learning are introduced.
for RN students only

online
3 hrs
3 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing.
For RN to BS only: online
prereq: Generic Program: NURS 21000
NURS 38100 - Health Assessment Throughout the Lifespan

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.
Fully online.
Material Fee: $45
prereq: CHEM 10000, CHEM 10100
3 hrs
3 cr.

NURS 42300 - Foundations of Ethics and Palliative Care

An introduction to ethics and palliative care in nursing.

for RN students: online
prereq: CHEM 10000/10100; STAT 11300
3 hrs
3 cr.

NURS 48000 - Promotion of Wellness in the Community

Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement.

4 hrs
4 cr.

NURS 48200 - Advancement of Roles and Relationships in Professional Nursing

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program.
Fully online-hybrid.
3 hrs
3 cr.

NURS 49100 - Gerontology for Nurses

This course provides a knowledge and skill base for effective nursing care of older adult clients.

For RN students only
online
prereq: CHEM 10000/10100
3 hrs
3 cr.
Total upper division credits: 54

Total minimum credits required for degree: 120

Repeating a Course

Note: Students who fail a course in a nursing sequence may not proceed to the next course in the sequence without repeating the failed course. In order to continue in the Nursing major, students must receive minimum grades of "C" in all required nursing courses. Students who receive a grade of "D" or lower in a clinical nursing course will be allowed to repeat the course only once. Students who fail a second required nursing course will be dismissed from the nursing program. This policy applies even if a grade appeal is in progress. Students who fail the clinical portion of a course will receive an "F" for the entire course, regardless of the corresponding theory grade.

QB/Hunter RN to BS Nursing

The QB RN to BS program was developed ten years ago, allowing AAS graduates from Queensborough Community College who have their RN license to practice in New York State to enter Hunter in their junior year to take nursing courses to complete their BS degree. The nursing profession and health care delivery in general have evolved substantially since the RN to BS curriculum was created over 10 years ago. Students must learn more complex nursing content than ever before, and must be prepared to care for sicker patients than in the past. For example, in the current health care climate, patients are discharged after shorter hospitalizations than traditional practice, resulting in a population of patients with higher acuity and who require complex care by nurses. In addition, these proposed changes are aligned with the American Association of Colleges of Nursing's current Essentials of Baccalaureate Education for Professional Nursing Practice (2008). The online format matches the RN to BS curriculum (approved in 2015) and is responsive to the adult learner.

Proof of graduation from the QB nursing program

Submit proof of graduation from the QB nursing program prior to beginning course work. The licensing exam (NCLEX-RN) must be completed and proof of passing the exam must be submitted to the School of Nursing by the end of the first semester or a student will be unable to progress in the program.

Curriculum

Prerequisite requirements may not be taken on a Credit/No Credit basis.

Prerequisite requirements with a minimum grade of "C" or its equivalent:

• General Chemistry with lab (CHEM 10000 (STEM), CHEM 10100 or higher equivalent course
• Human Anatomy and Physiology I & II (BIOL 12000 & BIOL 12200) 2 courses
• Introduction to Statistics (STAT 11300 or higher equivalent course
• Microbiology with lab (BIOL 23000)
• English Composition (ENGL 12000)
• General Psychology (PSYCH 10000)
• Human Development (Developmental Psychology of the Life Span) (PSYCH 15000)

Associate in Applied Science/Bachelor of Science
Nursing Dual Degree: Hunter/Queensborough Community College

This is an early entry into the RN-to-BS program for students at Queensborough Community College. They are granted acceptance to Hunter after their freshman year if they satisfy certain GPA and course requirements. See the Queensborough website for further information about this phase of the dual degree.

The Hunter portion of the curriculum follows the Nursing RN-to-BS curriculum with one exception. NURS 37900 Nursing and Societal Forces in the Health Care Delivery System is taken at QCC as NU-204.

Nursing

NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.
RN to BS only: online

prereq: CHEM 10000/10100; STAT 11300
coreq: Generic Pathway: NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall

NURS 21000 - Nursing Fundamentals and Health Assessment

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client's history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques.
Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are highlighted for all age groups.

Material fee: $50.00
prereq: (Generic) BIO 12000, NURS 20000, NURS 24000
(A2D)CHEM 10000/10100; STAT 11300
coreq: (Generic): BIO 12200, BIO 23000, NURS 34300
(A2D): NURS 20000; NURS 22000; NURS 33100
30 hrs Lecture; 30 hrs Health Assessment Lab; 45 hrs Clinical
4 cr.

NURS 22000 - Adult Health and Illness

This class provides a knowledge base for effective nursing care of adult clients. Students will gain insight into the management of chronic illnesses. Through utilization of the nursing process, the student's role as client advocate, patient educator, and caregiver are further actualized. Methods of systematic analysis of research are introduced.
Experimental learning in a variety of setting provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.
Material Fee $50.00

**NURS 24000 - Foundations of Genetics for Nurses**

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues. For RN to BS students only: online

prereq: (generic) CHEM 10000/10100, STAT 11300
(RN-BS) CHEM 10000/10100

coreq: (generic) NURS 20000, NURS 21000

30 hrs lecture

2 cr.

**NURS 33100 - Pharmacology I**

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

prereq: 1. Generic Program: NURS 21000; NURS 34300; BIO 12200
2. Accelerated 2nd Degree: CHEM 10000/10100; STAT 11300

coreq: 1. Generic Program: NURS 22000, NURS 33200
2. Accelerated 2nd Degree: NURS 20000; NURS 21000; NURS 22000

3 hrs

3 cr.

**NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process**

This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.

prereq: NURS 22000

30 hrs

2 cr.

**NURS 33400 - Pathopharmacology**

An intensive course focused on a molecular understanding of the disease process. The course emphasizes physiological disruptions, associated nursing care, and pharmacological management.

for RN students only
online

prereq: CHEM 10000/10100; BIOL 23000
4 hrs
4 cr.

NURS 33900 - Pharmacology II

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

prereq: (Generic and A2D) NURS 22000; NURS 33100
coreq: (generic) NURS 35200; NURS 36000
(A2D) NURS 34300, NURS 35200, NURS 36000
3 hrs.
3 cr.

NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
2. Accelerated 2nd Degree: BIO 12200, BIO 23000; NURS 21000
coreq: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000
45 hrs.
3 cr.

NURS 34900 - Foundations of Ethics and End-of-Life Care

Core professional values and excellences, foundational ethical principles, and essential topics in end of life care will be introduced and explored during this course. Emphasis will be on acquiring generalized knowledge to enable the novice nurse to 1) apply ethical principles to practice, 2) develop the skills to practice with moral comportment and courage, and 3) understand the needs of the dying patient (and loved ones) in order to provide quality end of life care. At the completion of this course with required attendance for all modules, students will be designated "ELNEC Trained."

prereq: NURS 22000
coreq: NURS 45500; NURS 46000
45 hrs. lecture
3 hrs.

NURS 35200 - Nursing Care of Women and Childbearing Families

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in
the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

prereq: (generic & A2D) NURS 22000; NURS 33100
coreq: (Generic) NURS 33900; NURS 36000
(A2D) NURS 33900, NURS 34300; NURS 36000
30 hrs. Lecture, 90 hrs. Clinical
4 cr.

NURS 36000 - Nursing Care of Infants, Children, and Adolescents

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

prereq: NURS 22000; NURS 33100 (generic & A2D)
coreq: (Generic) NURS 33900; NURS 35200
(A2D) NURS 33900, NURS 34300; NURS 35200
22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical
4 cr.

NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.

for RN students only

online
3 hrs
3 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing.
For RN to BS only: online
prereq: Generic Program: NURS 21000
Accelerated 2nd Degree: NURS 22000
coreq: Generic Program: NURS 22000; NURS 33100; NURS 33200
Accelerated 2nd Degree: none
3 hrs
3 cr.

NURS 38100 - Health Assessment Throughout the Lifespan

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.

Fully online.
Material Fee: $45
NURS 42000 - Nursing Leadership and Ethics

In this course, students will examine the roles of the professional leadership in leading and managing health care services and ensuring ethical nursing practice. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services consistent with the ethical principles of the nursing profession. Students will be introduced to principles of coordinating care, including delegation and assignment of nursing tasks and functions. The course addresses nurses' roles in advocating on behalf of patients, themselves and the profession.

prereq: NURS 45500; NURS 46000
coreq: NURS 47000; NURS 49000; NURS 49200
3 hrs
3 cr.

NURS 42200 - Health Policy and Leadership

This final-semester course examines the roles of the professional nurse in leading and managing health care services within a complex and evolving health system. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services. Principles of coordinating care, delegation and assignment of nursing tasks and functions, and collaboration with other health professions are addressed. The course examines nurses' roles in advocating on behalf of patients, themselves and the profession.

prereq: NURS 45500; NURS 46000
coreq: NURS 47000; NURS 49000; NURS 49200
45 hrs: Lecture
3 cr.

NURS 42300 - Foundations of Ethics and Palliative Care

An introduction to ethics and palliative care in nursing.

for RN students: online
prereq: CHEM 10000/10100; STAT 11300
3 hrs
3 cr.

NURS 45500 - Public Health Nursing

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 46000
(A2D) NURS 46000
NURS 46000 - Mental and Behavioral Health Nursing

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team.

Material fee: $25.00

prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 45500
(A2D) NURS 45500

30 hrs: Lecture, 15 hrs: Lab; 67.5 hrs Clinical
4 cr.

NURS 46500 - Spirituality in Nursing Care

This course prepares students to value, assess and respond to spiritual needs of patients in diverse populations and communities.

coreq: NURS 20000, NURS 21000

2 hrs.
2 cr.

NURS 47000 - Adult Acute Illness/ Immersion Clinical

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 49000; NURS 49200
(A2D) NURS 42000; NURS 49000; NURS 49200

22.5 hrs: Lecture; 112.5 hrs: Clinical
4 cr.

NURS 47100 - Nursing Care in Domestic and Global Disasters

This course prepares nurses to function on a beginning level as a disaster team member. The focus is on triage of patients and leadership skills needed when social, health care and protective services have been disrupted due to natural or man made disasters, including fires, earthquakes, floods, civil violence and bioterrorism. Ethical and legal challenges to the scope of nursing practice are considered from the first responder's perspective. The course has no clinical component.

prereq: NURS 20000, NURS 21000, NURS 22000

2 hrs.
2 cr.

NURS 48000 - Promotion of Wellness in the Community
Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement.
4 hrs
4 cr.

**NURS 48200 - Advancement of Roles and Relationships in Professional Nursing**

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program.
Fully online-hybrid.
3 hrs
3 cr.

**NURS 48500 - Contemporary Issues in Domestic and Global Healthcare**

Students investigate current topics affecting health care delivery nationally and internationally from social, political, economic and ethical perspectives. Topics include, but are not limited to, barriers to implementing affordable care, the influence of pharmaceutical conglomerates, health effects of mass immigration and disease prevention oversight. Students are expected to identify a developing issue and to prepare a response directed at legislators, professionals or a lay people, that is informative about the topic in a written format for possible publication. The course is structured to support the importance of life-long learning.

*prereq:* NURS 20000, NURS 21000, NURS 22000, NURS 35200, NURS 36000
*coreq:* NURS 45500, NURS 46000
2 hrs.
2 cr.

**NURS 49000 - Gerontological Nursing**

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with interdisciplinary health teams.

*prereq:* NURS 45500; NURS 46000
*coreq:* (Generic) NURS 42200; NURS 47000; NURS 49200
(A2D) NURS 42000; NURS 47000; NURS 49200
30 hrs: Lecture; 90 hrs: Clinical
4 cr.

**NURS 49100 - Gerontology for Nurses**

This course provides a knowledge and skill base for effective nursing care of older adult clients.

For RN students only
online
*prereq:* CHEM 10000/10100
NURS 49200 - Advanced Synthesis of Nursing Knowledge

This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

 prerequisites: (generic) NURS 33900, NURS 34900, NURS 45500, NURS 46000
(A2D) NURS 33900, NURS 45500, NURS 46000 (A2D)
corequisites: (Generic) NURS 42200; NURS 47000; NURS 49000
(A2D) NURS 42000; NURS 47000; NURS 49000
22.5 hrs: Lecture, 30 hrs: Lab
2 cr.

Nursing: Electives

NURS 34000 - Women’s Health

Pluralism and Diversity
PD/C
Designed to identify and analyze those factors which impact on the health status of women: biological, sociological, psychological, environmental, political.

3 hrs
3 cr.

NURS 34200 - Ethical Issues in Nursing Practice

Open to RN-BS and senior Generic Program students only. Examines ethical issues which arise from the practice of nursing in an interpersonal, professional, institutional and social context of diverse and competing values.

3 hrs
3 cr.

NURS 34500 - HIV/AIDS: An Interdisciplinary Perspective for Health Care Providers

Examines the impact of the HIV epidemic on the biological, psychological and social dimensions of persons affected by HIV/AIDS.

3 hrs
3 cr.

NURS 34600 - Death and Dying

Pluralism and Diversity
P/D B
Provides an overview of current theories, concepts, and practices associated with death, dying and end-of-life care.

3 hrs
3 cr.

NURS 35000 - Independent Study in Nursing

An opportunity to explore a topic relevant to nursing which is of individual interest.

1-3 hrs
1-3 cr.

NURS 35100 - Gender, Science and Technology

Pluralism and Diversity
PD/C
Explores the complex relationship between women and the sciences.
cross-listed WGSS 35100
3 hrs
3 cr.

NURS 39998 - Urban Disaster Response and the Health Care Team

Provides the student with an understanding of the causes, prevention, and mitigation of disasters and insight into the disaster management system nationally and locally. The course will include content relevant to all disciplines in the disaster care continuum and focus on each individual health care member's role and responsibilities within these systems.

3 hrs
3 cr.

NURS 44000 - Stress Management for Nurses

An overview of stress and its effect upon behavior within the framework of the holistic man-wellness model.

3 hrs
3 cr.

NURS 44100 - Selected Studies in Nursing Research

Honors course. Utilization of basic knowledge in nursing research to critique and interpret studies and discuss their relevance and application in nursing.

\textit{prereq: NURS 31000, 31200, 33100, 33200, 38000, 38100}

3 hrs.
3 cr.

NURS 44200 - Nursing Care of Acute and Critically Ill Clients

Examination of nursing knowledge and roles in caring for acute and critically ill clients and their families.

3 hrs
3 cr.

NURS 44500 - Teaching-Learning Across the Developmental and Health Continua
Pedagogical/androgogical principles of learning and instruction to enhance client teaching in the promotion, maintenance and/or restoration of health.

3 hrs
3 cr.

**NURS 45000 - Computer Concepts and Application in Nursing**

Study of computing concepts, principles, practices, and applications in nursing and health care.

3 hrs
3 cr.

**NURS 48300 - Politics of Health**

An analysis of the relationships between politics and health status, health services and health care providers.

3 hrs
3 cr.

**NURS 49500 - Writing for Health Professionals: A Course for Undergraduates**

In this course, students explore and refine their powers of observation, description, and expression through writing. Students engage in prompted narrative writing exercises and produce new out-of-class writings that are discussed in small groups and revised. The cultural and personal context in which writing is produced and read is emphasized. Scholarly and literary works are discussed, as are blogs. Students are guided to explore and test strategies for overcoming personal challenges to timely, effective writing.

_prereq: ENGL 12000

45 hrs.
3 cr.

**Programs and Courses in Latin American & Caribbean Studies**

**Latin American and Caribbean Studies**

**Overview**

Latin American and Caribbean Studies is an interdisciplinary program that offers students the opportunity to learn about the history, culture, politics, society, and political economy of the region and its relations with the United States. The LACS program, in collaboration with the Hunter College Education Abroad Office, has offered study-abroad programs in Argentina, Costa Rica, and Brazil in recent years.

Latin American and Caribbean Studies Faculty

HEGIS Code: 0308

Undergraduate Major

Latin American and Caribbean Studies - BA

The specialization in Latin American and Caribbean Studies as a major leading to a BA degree consists of 24 credits. The core courses for the major are drawn from the social sciences, humanities, and arts. Following the program's goal of exposing the region's realities from the perspectives of various disciplines, no more than two courses from any single department may count for the 24 major credits. The program recommends that students take a 12-credit minor in one of the associated disciplinary departments. Students select courses for the major in consultation with the program's director or with a member of the Latin American and Caribbean Studies Faculty Advisory Committee. The interdisciplinary specialization of the major will serve graduates well, whether they choose to seek employment in public or private organizations, pursue professional degrees, or go on to a graduate degree in the social sciences or humanities.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

CR/NC Policy

No CR/NC grades will be accepted in courses to meet LACS major requirements.

Courses Required for the Major (24 credits)

Language Requirement: Latin American and Caribbean Studies majors are required to demonstrate a reading knowledge of Spanish, Portuguese, or French, fulfilled at least one semester before graduation from the college.
LACS students are required to take either LACS 33000 (a field course for students to study or intern in the region or intern in an institution in the New York area) or LACS 43400 (a course that comprises preparation of a major original research paper to be developed in close association with a mentor from the Latin American and Caribbean Studies Faculty Advisory Committee). ENGL 12000 is a prerequisite for program courses.

**LACS 33000 - Latin America and the Caribbean Field Course/Internship**

A field course for students to study in the region or who are interning in an institution either in the New York area or in the region. Major research paper based on field or internship experience.

3 cr.

**LACS 43400 - Seminar in Latin American and Caribbean Studies**

Open to sophomores, juniors, and seniors who have completed at least 18 credits in LACS or have instructor permission. Interdisciplinary reading, research, and discussion of selected topics involving cultural, economic, political, and social problems. Research paper required. May be repeated for a maximum of 6 edits.

3 cr.

**Course Offerings for LACS**

21 credits from the courses below.

**Africana and Puerto Rican/Latino Courses**

**AFPRL 10200 - Latino Communities in the United States**

**Pluralism and Diversity**
PD/B
GER
2/B

Migration, ethnicity, community life and public policy issues of Latino groups compared to the Puerto Rican experience.

3 hrs

3 cr.

**AFPRL 10300 - Conquest and Resistance: Puerto Rican Experiences in Comparative Perspective**

**Hunter Core**
Individual and Society (Social Sciences) - I&S SS

**Pluralism and Diversity**
PD/B
GER
2/B

Introductory study of the Puerto Rican experience compared with experiences of Native and African Americans, Chicanos and Pacific Island peoples in the territorial expansion of the United States.

3 hrs

3 cr.
AFPRL 21000 - Introduction to Caribbean History: 1900 - Present

Hunter Core
World Culture and Global Issues
Pluralism and Diversity
PD/A
GER
2/B

Introduction to the major themes in Caribbean history after 1900.
prereq: ENGL 12000
3 hrs
3 cr.

AFPRL 23700 - African Caribbean Literature (W)

Pluralism and Diversity
PD/A or B
GER
2/A

Introduction to the historical development and major artistic preoccupations of Caribbean literature. The course is conducted in English; all course requirements are in English.
prereq: ENGL 12000
3 hrs
3 cr.

AFPRL 24100 - Puerto Rican History to 1897

Pluralism and Diversity
PD/A
GER
2/B

An examination of Taino society, Spanish colonialism, slave economy and the development of nationhood in the 19th century.
3 hrs
3 cr.

AFPRL 24200 - Puerto Rican History Since 1898

Pluralism and Diversity
PD/A
GER
2/B

Sociohistorical, political and economic analysis of Puerto Rico dating from the U.S. invasion to the present.
3 hrs
3 cr.

AFPRL 24300 - Puerto Rican Culture
Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A or B
GER
2/C

General study of Puerto Rican culture and ethnic mixtures that went into making of that culture.

3 hrs
3 cr.

AFPRL 24400 - Puerto Ricans in the United States

Pluralism and Diversity
PD/B
GER
2/B

Survey of the origins, contemporary and future development of Puerto Ricans in the United States.

3 hrs
3 cr.

AFPRL 25500 - Puerto Rican/Latino Children in North American Schools

Pluralism and Diversity
PD/B
Survey of educational system viewed as an acculturating institution.

3 hrs
3 cr.

AFPRL 29000 - Selected Topics in Africana and Puerto Rican/Latino Studies

Pluralism and Diversity
PD/A or B
Topics change according to instructor.

3 hrs
3 cr.

AFPRL 30800 - Contemporary International Relations of the African-Caribbean (W)

GER
3/B

Examination of the use of foreign policy for economic development in the Caribbean and as an instrument of transformation.

prereq: AFPRL 20700 or 21000 or perm instr.

3 hrs
3 cr.

AFPRL 31900 - Women in the African Diaspora (W)
The cultural-historical role of women of African descent in North America and the Caribbean in relation to the family, to political resistance and in sustaining African culture and values.

cross-listed WGSC 32900 (W)

prereq: AFPRL 20400 or 20900 or 21000 or perm instr.

3 hrs

3 cr.

**AFPRL 32000 - African-Caribbean Culture (W)**

**Pluralism and Diversity**

PD/A or B

**GER**

3/A

prereq: AFPRL 20900 or 21000 or 22200

3 hrs

3 cr.

**AFPRL 33700 - Caribbean Women Writers (W)**

**GER**

3/A

A study of some of the major preoccupations of Caribbean fiction, such as history, migration/travel, creolization, memory and language, from the perspectives of selected women writers, paying close attention to the historical, intellectual and cultural contexts that stimulated the production of these works.

cross-listed WGS 33700 (W)

prereq: AFPRL 23600 or 23700 or ENGL 22000 or WGS 10000

3 hrs

3 cr.

**AFPRL 35600 - Latino Literature in English (W)**

**Pluralism and Diversity**

PD/B

**GER**

3/A

Latino writing in English in the U.S.; analysis of cultural, linguistic and ideological factors as found in the work of such authors as Sandra Cisneros (Chicana), Pedro Pietri (Puerto Rican) and Oscar Hijuelos (Cuban-American).

3 hrs

3 cr.

**AFPRL 38700 - Puerto Rican/Latino Politics in the United States (W)**
Pluralism and Diversity
PD/B
GER
3/B

An analysis of the political participation and leadership of Puerto Ricans and other Latinos in the United States.
prereq: either AFPRL 10200, 24200 or 24400 or perm. Instr.
3 hrs
3 cr.

AFPRL 39000 - Research Topics in Africana and Puerto Rican/Latino Studies (W)

GER
3/A or B

Topics change according to instructor.
Open to Jr/Sr only.
3 hrs
3 cr.

AFPRL 42800 - Selected Topics in Africana and Puerto Rican/Latino Studies: Social Science

Pluralism and Diversity
PD/B
GER
3/A or B

Topics change according to instructor.
Pluralism and diversity requirements are dependent on the topic course.
prereq: perm dept.
3 hrs
3 cr.

AFPRL 44500 - Caribbean Short Story in Spanish: Readings and Theories

GER
3/A

A critical study of the short story genre in the Hispanic Caribbean viewed in conjunction with contemporary literary theory.
prereq or coreq: SPAN 20800
3 hrs
3 cr.

Anthropology

ANTHC 40100 - Seminars in Selected Topics

Topics TBA.
Economics

ECO 33000 - Economic Development

Pluralism and Diversity
PD/A
GER
3/B

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.
prereq: ECO 20000
3 hrs
3 cr.

History

HIST 27100 - Early History of Latin America

History and cultures of Amerindian groups in Central and South America and the Caribbean; encounter and multiple interactions of European and African cultures with indigenous societies; development of Iberian colonial systems and cultures within the Americas.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 34122 - Latin American Political Economy

GER
3/B

courses at the 300-level and above not open to freshmen
3 hrs
3 cr.

HIST 34139 - African Influences in the Americas

GER
3/B

Courses at the 300-level and above not open to freshmen
3 hrs
3 cr.

Music

MUSHL 24000 - Music of the Caribbean and Latin America (W)

Pluralism and Diversity
GER 3/A PD/A
Origin and development of Caribbean and Latin American musical styles and their impact on the United States and other parts of the world.

**MUSHL 22100 - Black Music in the Americas (W)**

*Pluralism and Diversity*  
*PD/B*  
*GER*  
*3/A*

The origins, history, and evolutionary progression of Black music in the Americas; shared musical practices and resources in the multicultural matrix of the United States in particular and the hemisphere in general.  
*prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 101, or perm instr.*  
*3 hrs*  
*3 cr.*

**Political Science**

**POLSC 25300 - Government and Politics in Latin America (W)**

*Pluralism and Diversity*  
*PD/A*  
*GER*  
*3/B*

Ideology, revolution, authoritarianism, democracy, institutions, class structure, distribution of wealth and power, political and economic development.  
*cross-listed LACS 43405*  
*prereq: ENGL 12000 or its equivalent*  
*3 hrs*  
*3 cr.*

**POLSC 26200 - Government and Politics in Central America (W)**

*Pluralism and Diversity*  
*PD/A*  
*GER*  
*3/B*

Political institutions, ideology, class and ethnic structure, economic development, distribution of wealth and power, foreign influences and revolutionary and evolutionary roads to modernization.  
*cross-listed LACS 43429*  
*prereq or coreq: ENGL 12000 or its equivalent*  
*3 hrs*  
*3 cr.*

**POLSC 27100 - International Politics in the Americas (W)**
Dynamics of US relations with Latin American countries from the colonial era through the Cold War to the present, and of relations of Latin American countries with each other and with extra-hemispheric nations.

*cross-listed LACS 43432*

**Prerequisite:** ENGL 12000 or its equivalent

3 hrs
3 cr.

**POLSC 28100 - Drugs, Politics and Public Policy (W)**

3/B

Examination of public policies addressing drug use and abuse in the United States and other countries with emphasis on political and cultural determinants, economic and market factors, constitutional implications and United States foreign policy.

**Prerequisite:** ENGL 12000

3 hrs
3 cr.

**Romance Languages - Spanish**

**SPAN 26400 - Contemporary Spanish Literature in Translation**

Cela, Lorca, Unamuno, Ortega y Gasset. Taught in English. This course is designed for students who want to become acquainted with Spanish culture. Cannot be credited toward the major and are not recommended for the minor.

**Prerequisite:** ENGL 12000

3 hrs
3 cr.

**SPAN 27600 - Readings in Modern Spanish- American Literature**

Representative writers: Borges, Neruda, Cortazar, Garcia Mriquez.

**Prerequisite:** SPAN 20200, 20300, 20800 21100 or four yrs high school Spanish or dept. perm.

3 hrs
3 cr.

**SPAN 33600 - Latin American Civilization**

3/A

Geographical, historical, political, literary, artistic and economic evolution of Latin American nations. Given in Spanish.

**Prerequisite:** SPAN 20800, 21100 or dept. perm
SPAN 34100 - Introduction to Hispanic Literature I

Pluralism and Diversity
PD/D
GER
3/A

Prerequisite or corequisite to most courses in major sequence. Basic interpretive and research skills for Spanish majors and other qualified students through study of key works of Spanish and Spanish-American authors.

prereq or coreq: SPAN 31100 or dept. perm
3 hrs
3 cr.

SPAN 34200 - Introduction to Hispanic Literature II

Pluralism and Diversity
PD/D
GER
3/A

prereq: SPAN 34100
coreq: SPAN 31200
3 hrs
3 cr.

SPAN 36400 - Spanish-American Modernism and Post-modernism

GER
3/A

Modernist and post-modernist authors.

prereq: SPAN 34100
3 hrs
3 cr.

SPAN 49100 - Honors Course in Spanish: Special Studies in Contemporary Latin American Literature

Open to Jr/Sr only. Group meetings, conferences, oral and written reports.

prereq: major GPA of 3.2, cum GPA of 2.8; perm adviser
3 hrs
3 cr.

Sociology

SOC 30700 - Migration
Pluralism and Diversity
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.

prereq: SOC 10100
3 hrs
3 cr.

SOC 32502 - Sociology of Human Rights: Violation and Protection

GER
3/B

prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 32506 - Latin American Societies

GER
3/B

prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 32519 - Economic Development and Social Inequality in Latin America

GER
3/B

prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 36100 - Development and Globalization (W)

Pluralism and Diversity
PD/A
GER
3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

prereq: SOC 10100
3 hrs
3 cr.
Women and Gender Studies

WGSA 33700 - Caribbean Women Writers (W)

GER
3/A

A study of some of the major preoccupations of Caribbean fiction, such as history, migration/travel, emolization, memory and language, from the perspectives of selected women writers, paying close attention to the historical, intellectual and cultural contexts that stimulated the production of these works.

cross-listed AFPRL 33700

prereq: AFPRL 23600 or 23700 or ENGL 22000 or WGS 10000

3 hrs
3 cr.

WGS 20005 - Dominican and Haitian Literature and Culture

3 hrs
3 cr.

Departmental Honors

LACS majors with a GPA above 3.5 are eligible to receive the Lily Mage Award.

Study Abroad

Study abroad is encouraged for LACS majors. Study-abroad programs are offered through the Education Abroad Programs office at Hunter College.

Programs and Courses in Mathematics & Statistics

Mathematics and Statistics

Overview

Mathematics has many aspects: it is the language and tool of the sciences, a cultural phenomenon with a rich historical tradition, and a model of abstract reasoning. The course offerings and the major in Mathematics reflect these multiple facets. The Mathematics major provides a broad education in various areas of mathematics in a program flexible enough to accommodate many ranges of interest. The major introduces students to the fundamental areas of mathematics and provides some degree of specialization in one or more areas. It trains students in the analytic thinking characteristic of pure and applied mathematics and provides familiarity with rigorous methods of mathematical proof. In addition to the standard Mathematics Major, the department offers a number of specialized undergraduate tracks for students interested in pursuing careers in bioinformatics or in preparing for teaching: the concentration Quantitative Biology, the concentration Preparation for Adolescent Education (Grades 7-12), and the concentration Preparation for Childhood Education (Grades 1-6).
What can I do with my degree in Mathematics and Statistics?

The Mathematics major prepares students for careers in business, government, research and teaching. The study of statistics provides the student with analytical tools that may find application in various fields within the sciences and social sciences. Bioinformatics is a rapidly developing area open to students in statistics with a working knowledge of computing and biological sciences. Actuarial science is one area open to students in statistics who also have backgrounds in such subjects as computer science, mathematics and economics.

Credit and Course Exemption

The department offers credit or course exemption based on standard examinations such as AP. Inquiries should be made at the department office.

Mathematics Proficiency and Placement

All students entering Hunter College must demonstrate proficiency in the basic skills through their scores on the mathematics assessment exam. Exemptions are given for SATs, ACT, NY Regents, and for certain other entrance categories. The placement exam further assesses a student's preparedness for certain courses in mathematics, statistics, and other disciplines at the college. Students may enroll in these courses only if their scores on the placement exam are at appropriate levels or if they have taken college courses in the required mathematics. Students who need to place into courses by examination and have not taken the placement exam are advised to schedule the test with the Testing Center, Room 150 Hunter North, 212-772-4868, http://hunter.cuny.edu/testingcenter, well in advance of registration. Students should notice the mathematics and statistics prerequisites that are indicated in the descriptions of courses and majors so they can effectively plan their studies.

Programs and Courses

In planning their schedules, prospective majors should note that some advanced required courses are offered only once each year and several advanced elective courses are offered only once every other year. A rotation schedule for course offerings is available in the departmental office and on the departmental web site http://math.hunter.cuny.edu.

Prerequisites: Because of the nature of mathematics, the department recommends that students refrain from enrolling in any course that carries prerequisites unless these prerequisites have been completed with a grade of C or better.

- Programs and Courses in Mathematics & Statistics
- Minor in Logic - a minor consisting of courses from three disciplines: computer science, mathematics and philosophy

Administration and Faculty

Chair:

Barry Cherkas
919A East
(212) 772-5300
Bachelor of Arts - BA

Mathematics - BA

The major consists of at least 33 credits of coursework: 24-41 credits of core mathematics and statistics courses and 9 credits of advanced elective courses chosen by students according to their career plans. Proficiency in symbolic computation is also required. Modifications are permitted with the consent of the mathematics adviser. With permission of the adviser, a student may take graduate courses in statistics or mathematics. Mathematics majors interested in bioinformatics should refer to the requirements for the Mathematics Major with a Concentration in Quantitative Biology - BA. Upon completion of Math 260, Mathematics Majors interested in the BA/MA program should contact the Graduate Adviser.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Mathematics major, the courses that meet CCCR are:

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to
students who have completed MATH 15000 or its equivalent.  
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam  
4 hrs  
4 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning  
GER  
1/B  

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.  
4 hrs  
4 cr.

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**
Math/Quantitative Reasoning  
GER  
1/B  

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
prereq: grade of C or better in MATH 15000  
4 hrs  
4 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**
Math/Quantitative Reasoning  
GER  
1/B  

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.  
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam  
3 hrs  
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major**

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.
Calculus Sequence (0-17 credits)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq:* appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq:* MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs

1 cr.

**MATH 12550 (STEM) - Precalculus with Workshop**

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

*Note:* This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

*prereq:* MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500.

5 hrs (4 hrs lecture, 1 hr recitation)

4 cr.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH 15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

*prereq:* MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs

1 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**

Math/Quantitative Reasoning

**GER**
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
**prereq:** MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs  
4 cr.

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
**prereq:** grade of C or better in MATH 15000

4 hrs  
4 cr.

**Required Math Courses (24 Credits)**

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.  
**prereq:** MATH 15000  
**prereq or coreq:** MATH 15500

2 hrs  
1 cr.

**MATH 25000 - Calculus III**

**GER**  
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.  
**prereq:** MATH 15500, MATH 15600

4 hrs  
4 cr.

**MATH 25400 - Ordinary Differential Equations**

**GER**  
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.  
**prereq:** MATH 25000
MATH 25500 - Vector Analysis

GER
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.
prereq: MATH 25000
3 hrs
3 cr.

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.
prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

MATH 31100 - Abstract Algebra I

GER
3/B

Introduction to the theory of groups and rings.
prereq: MATH 26000
3 hrs
3 cr.

MATH 35100 - Mathematical Analysis I

GER
3/B

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous functions.
prereq: MATH 25000, 26000
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

Elective Courses (9 credits)

The student must complete three 3-credit mathematics or statistics courses chosen from the 300- or 400-level courses in mathematics or statistics listed by the department and approved by the undergraduate mathematics adviser. Factors affecting the choice of electives will include the student's career goals (preparation for graduate study; education; careers in business, government service or industry), the student's other major, where applicable, and the availability of courses due to the course rotation schedule.

Symbolic Computation Proficiency Requirement (0-3 credits)

As a requirement for graduation with a BA in Mathematics, students must demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of

- MATH 12600 Precalculus Technology Laboratory
- MATH 15400 An Introduction to Symbolic Computation
- MATH 38500 Numerical Methods I

b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)

*These courses may be counted for credit in more than one program.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Honors

A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000, STAT 48600, or any 700-level MATH or STAT course and by presenting a major GPA of at least 3.6.

- MATH 49000 Honors Seminar  or  STAT 48600 Modeling and Visualization

Degree Map

Degree Map for Mathematics BA

Mathematics BA
The major introduces students to the fundamental areas of mathematics and provides some degree of specialization in one or more areas. It trains students in the analytic thinking characteristic of pure and applied mathematics and provides familiarity with rigorous methods of mathematical proof. In addition to the standard Mathematics Major, the department offers a number of specialized undergraduate tracks for students interested in pursuing careers in bioinformatics or in preparing for teaching: the concentration Quantitative Biology, and the concentration Preparation for Childhood Education (Grades 1-6). (See Adolescent Mathematics, Grades 7-12 - BA for Mathematics grades 7-12)

- Mathematics - BA
- Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA
- Mathematics Major with a Concentration in Quantitative Biology - BA

**Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA**

This concentration constitutes a mathematics major for students in the Quality Urban Elementary School Teacher (QUEST) program. QUEST students majoring in mathematics are not exempt from the MATH 10400 (STEM)/MATH 10500 requirement. To enter this major, the student should have completed one semester of calculus (MATH 15000 (STEM) or the equivalent). The specified collateral major is Childhood Education. This mathematics major consists of at least 32 credits of coursework: 20 credits of major core curriculum courses and at least 12 additional credits, as described below. The student should consult the School of Education for the sequence of teacher education courses in the Childhood Education (QUEST) major.

**Major Core Curriculum (20 credits)**

**MATH 15400 - An Introduction to Symbolic Computation**

Laboratory introduction to machine-aided computation with an emphasis on examples related to calculus. Students use a symbolic computation package to investigate and solve problems numerically, analytically and graphically. The same package is used to create reports of their results.

*prereq: MATH 15000
2 hrs
1 cr.*

**MATH 15500 (STEM) - Calculus II**

*Hunter Core
Math/Quantitative Reasoning
GER
1/B*

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000
4 hrs
4 cr.*

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.
MATH 16000 - Matrix Algebra

GER
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

MATH 25000 - Calculus III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500, MATH 15600
4 hrs
4 cr.

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.
Additional Required Courses (at least 12 credits)

**STAT 21200 - Discrete Probability**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

*prereq: MATH 12400 or MATH 12500 or MATH 12550 or STAT 11300 or appropriate score on placement exam.*

3 hrs
3 cr.

**STAT 22000 - Statistical Analysis in Forensics**

**GER**
3/B

A second course in probability and statistics and the evaluation of evidence in the forensic sciences.

*prereq: STAT 21200 and either STAT 21300 or 11300 by permission of instructor. One of the above, i.e., STAT 21200 or STAT 21300 or STAT 11300 by permission of instructor may be taken as a coreq.*

3 hrs
3 cr.

- Two additional courses approved by a departmental adviser

**Mathematics Major with a Concentration in Quantitative Biology - BA**

This program is for students intending to pursue research careers in biomedical sciences. It provides students with a working knowledge of computing and biological sciences for bioengineering careers in bioinformatics, the pharmaceutical industry, and the biotechnology industry. Students interested in this concentration in the mathematics major should consult the BioInformatics adviser.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Mathematics major with a concentration in Quantitative Biology, the courses that meet CCCR are:

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B
Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs

4 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs

4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs

4 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs

3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (63-80 credits)
Core Courses (30-47 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Calculus Sequence (0-17 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct
proof, indirect proof, and mathematical induction.

\textit{prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.}
2 hrs
1 cr.

\textbf{MATH 15000 (STEM) - Calculus I}

\textbf{Hunter Core}
Math/Quantitative Reasoning
\textbf{GER}
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications. 
\textit{prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.}
4 hrs
4 cr.

\textbf{MATH 15500 (STEM) - Calculus II}

\textbf{Hunter Core}
Math/Quantitative Reasoning
\textbf{GER}
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates. 
\textit{prereq: grade of C or better in MATH 15000}
4 hrs
4 cr.

\textbf{Required Math Courses (30 credits)}

\textbf{MATH 15600 - Introduction to Mathematical Proof Workshop}

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus. 
\textit{prereq: MATH 15000}
\textit{prereq or coreq: MATH 15500}
2 hrs
1 cr.

\textbf{MATH 25000 - Calculus III}

\textbf{GER}
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration. 
\textit{prereq: MATH 15500, MATH 15600}
4 hrs
4 cr.

MATH 25400 - Ordinary Differential Equations

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.
prereq: MATH 25000
3 hrs
3 cr.

MATH 25500 - Vector Analysis

GER
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.
prereq: MATH 25000
3 hrs
3 cr.

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.
prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

MATH 31100 - Abstract Algebra I

GER
3/B

Introduction to the theory of groups and rings.
prereq: MATH 26000
3 hrs
3 cr.

MATH 35100 - Mathematical Analysis I

GER
3/B

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic
results on continuous functions.
prereq: MATH 25000, 26000
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31900 - Bayesian Statistical Inference in the Sciences

GER
3/B

prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).
Prerequisites waived for students who have passed STAT 311.
Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.
3 hrs
3 cr

** Note: The symbolic proficiency requirement is met by taking STAT 31900

Additional Required Courses (33 credits)

CSCI 13200 - Practical UNIX and Programming, with Lab
**CSCI 23200 - Relational Databases and SQL Programming, with Lab**

**GER**

3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

*prereq: CSCI 12700 or CSCI 13200*

3 hrs

3 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)

**GER**

2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500*

5 hrs (4 lec, 1 rec)

4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**

Life and Physical Sciences (LPS) Scientific World (SW)

**GER**

2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better*
CHEM 10600 (STEM) - General Chemistry Laboratory

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200
*coreq: CHEM 10400

6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

spring only

BIOL 20300 - Molecular Biology and Genetics
This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

**prereq:** Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
**coreq:** CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

**BIOL 42500 - Computational Molecular Biology**

**GER**
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of *in silico* biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

**prereq:** BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.
3 hrs
3 cr.

**Note**

*These courses may be counted for credit in more than one program.

**Honors**

A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000 or STAT 48600, by presenting a major GPA of at least 3.6 and by achieving a satisfactory rating on a comprehensive examination.

- MATH 49000 Honors Seminar or STAT 48600 Modeling and Visualization

**Degree Map for Mathematics: Quantitative Biology**

| Degree Map for Mathematics: Quantitative Biology |

**Statistics - BA**
The statistics major consists of at least 33 credits of coursework: 30-47 credits of core mathematics and statistics courses and any additional 3-credit statistics, mathematics, or computer science course approved by the statistics adviser. Modifications are permitted with the consent of the statistics adviser. With permission of the adviser, a student may take graduate courses in statistics and applied mathematics.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Statistics major, the courses that meet CCC are:

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

**Calculus Sequence (0-17 credits)**

**MATH 10100 - Algebra for College Students**
Topics in algebra, graphing and functions: Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

**prereq:** MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs

1 cr.

**MATH 12550 (STEM) - Precalculus with Workshop**

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

**prereq:** MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500.

5 hrs (4 hrs lecture, 1 hr recitation)

4 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**

Hunter Core

Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

**prereq:** MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs

4 cr.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct
proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

Other Required Math Courses (30 credits)

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.
prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 25000 - Calculus III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500, MATH 15600
4 hrs
4 cr.

MATH 25400 - Ordinary Differential Equations

GER
3/B
First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.
prereq: MATH 25000
3 hrs
3 cr.

MATH 26000 - Linear Algebra

GER
3/B
Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.
prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.
STAT 21400 - Data Analysis Using Statistical Software

GER
3/B

Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building

 prerequisites: STAT 21300 or MATH 12400 or MATH 12500 or MATH 12550 and STAT 11300 with grade of C or better in each course.

3 hrs
3 cr.

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorem.

 prerequisites: MATH 25000.

3 hrs
3 cr.

STAT 31200 - Stochastic Processes

GER
3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.

 prerequisites: STAT 31100

3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.

 prerequisites: STAT 31100

3 hrs
3 cr.

Elective Courses (3 credits)

The student must complete one additional 3-credit statistics or mathematics course approved by the undergraduate statistics adviser.

*These courses may be counted for credit in more than one program.

Actuarial Sequence
A student interested in actuarial work should take the following courses. Students are also encouraged to take courses in accounting, economics and computer science. A student majoring either in Statistics or Mathematics could also complete the Actuarial Sequence as a part of his/her major requirements. A review for the Actuarial Exams is not a part of the curriculum, however, and it is left to the individual student to study for and take those exams.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.
prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 25000 - Calculus III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500, MATH 15600
4 hrs
4 cr.

MATH 26000 - Linear Algebra
GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.

prereq: MATH 25000.
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.

prereq: STAT 31100
3 hrs
3 cr.

Degree Map

Degree Map for Statistics

Statistics BA

The study of statistics provides the student with analytical tools that may find application in various fields within the sciences and social sciences. Bioinformatics is a rapidly developing area open to students in statistics with a working knowledge of computing and biological sciences. Actuarial science is one area open to students in statistics who also have backgrounds in such subjects as computer science, mathematics and economics. In addition to offering the Statistics Major, the department has a specialized undergraduate track for students interested in pursuing a career in bioinformatics: the concentration in Quantitative Biology. The BA/MA in Statistics and Applied Mathematics offered by the department provides enrichment for undergraduate statistics majors.

Programs

- Statistics - BA
- Statistics Major with a Concentration in Quantitative Biology - BA
- Mathematics or Statistics and Applied Mathematics - BA/MA
Honors

A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000, STAT 48600, or any 700-level MATH or STAT course, and by presenting a major GPA of at least 3.6.

MATH 49000 - Honors Seminar

GER
3/B

prereq: MATH 31100, 35100, departmental permission
3 hrs
3 cr.

Statistics Major with a Concentration in Quantitative Biology - BA

return to Statistics BA

For students intending to pursue research careers in biomedical sciences. It provides students with a working knowledge of computing and biological sciences for bioengineering careers in bioinformatics, the pharmaceutical industry, and the biotechnology industry. Students interested in this concentration in the statistics major should consult the bioinformatics adviser.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Statistics major with a concentration in Quantitative Biology, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15000 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>STAT 21200</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>STAT 21300 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (63-80 credits)
Core Courses (30-47 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Calculus Sequence (0-17 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)  
3 cr.

-or-

MATH 101EN - Algebra for College Students - Enhanced

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100.

prereq: Department Permission

6 hrs

3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs

1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core

Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in
trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

-or-

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

-or-

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

prereq: MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500
5 hrs (4 hrs lecture, 1 hr recitation)
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.
MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications. 
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test. 
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates. 
prereq: grade of C or better in MATH 15000 
4 hrs
4 cr.

Other Required Math Courses (30)

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus. 
prereq: MATH 15000 
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 25000 - Calculus III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration. 
prereq: MATH 15500, MATH 15600
4 hrs
4 cr.

MATH 26000 - Linear Algebra

GER
3/B
Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

**prereq:** MATH 15600

**prereq or coreq:** MATH 25000

4 hrs

4 cr.

**MATH 25400 - Ordinary Differential Equations**

**GER**

3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

**prereq:** MATH 25000

3 hrs

3 cr.

—or-

**MATH 35400 - Dynamical Systems and Chaos**

**GER**

3/B

Linear flows, qualitative theory of low-dimensional nonlinear systems, introduction to chaos in discrete one-dimensional dynamical systems.

**prereq:** MATH 25000, 26000

3 hrs

3 cr.

**STAT 21200 - Discrete Probability**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

**prereq:** MATH 12400 or MATH 12500 or MATH 12550 or STAT 11300 or appropriate score on placement exam.

3 hrs

3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical
software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

**STAT 21400 - Data Analysis Using Statistical Software**

GER
3/B

Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building

prereq: STAT 21300 or MATH 12400 or MATH 12500 or MATH 12550 and STAT 11300 with grade of C or better in each course.
3 hrs
3 cr.

**STAT 31100 - Probability Theory**

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.

prereq: MATH 25000.
3 hrs
3 cr.

**STAT 31200 - Stochastic Processes**

GER
3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.

prereq: STAT 31100
3 hrs
3 cr.

**STAT 31300 - Introduction to Mathematical Statistics**

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.

prereq: STAT 31100
3 hrs
3 cr.

Additional Required Courses (33 credits)

**CSCI 13200 - Practical UNIX and Programming, with Lab**
An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

prereq: none
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

CHEM 10200 (STEM) - General Chemistry I

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)  
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core  
Life and Physical Sciences (LPS); Scientific World (SW)  
Pluralism and Diversity  
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.  
Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200  
coreq: CHEM 10400

6 hrs  
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER  
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better  
5-6 hrs (4 lec, 1-2 recitation/workshop)  
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core  
Life and Physical Sciences (LPS); Scientific World (SW)  
Pluralism and Diversity  
PD/C or D  
GER  
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.  
Material Fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
spring only

BIOL 20300 - Molecular Biology and Genetics
This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

BIOL 42500 - Computational Molecular Biology

GER
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.
3 hrs
3 cr.

*These courses may be counted for credit in more than one program.

Bachelor of Arts/Master of Arts - BA/MA

Mathematics or Statistics and Applied Mathematics - BA/MA

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's requirements without a separate application for admissions or GRE requirement. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the graduate adviser for further information regarding eligibility and curriculum requirements.

Option 1: Mathematics and Pure Mathematics (63-83 credits)

Students complete the BA in pure mathematics with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

Track 2: BA/MA Program in Statistics and Applied Mathematics

Students complete the BA with a standard major in statistics or mathematics, with 30 additional credits at the graduate level in applied mathematics, statistics, and computer science, approved by the departmental graduate adviser.
Undergraduate Requirements:

Track 1

- Mathematics - BA

Track 2:

- Mathematics - BA
- Statistics - BA

Graduate Requirements

Track 1:

- Mathematics: Pure Mathematics - MA

Track 2:

- See departmental graduate adviser

Please note: Modifications in these programs are awaiting approval by NY State. Please consult department for details.

Undergraduate Minor

Minor in Mathematics

A minor in mathematics consists of a minimum of 12 credits selected from any of the following courses offered by the Department:

- MATH courses numbered 15000 or above
- STAT 31100
- STAT 31200

Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective mathematics minors consult with an undergraduate mathematics adviser concerning course selection.

Minor in Statistics

A minor in statistics consists of at least 12 credits selected from STAT courses offered by the Department. Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective statistics minors consult with an undergraduate statistics adviser concerning course selection.

Mathematics and Statistics: Mathematics

MATH 101EN - Algebra for College Students - Enhanced

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes
elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100.

prereq: Department Permission
6 hrs
3 cr.

MATH 10000 - Basic Structures of Mathematics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have received credit for any math or stat course that satisfies the GER 1/B requirement. Not recommended for students majoring in mathematics, statistics, computer science, or natural sciences. Symbolic logic, sets, number systems, relations and operations and topics in probability and statistics. This course is a terminal course and does not serve as a prerequisite to any other course in the department

prereq: CUNY Math Proficiency
3 hrs
3 cr.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 10200 - Mathematics and Everyday Life

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Students will learn how to model real world problems with mathematics, and learn techniques for solving them. Topics include personal finance, statistical reasoning, probability, exponential growth, and voting theory.

prereq: CUNY Math Proficiency
MATH 10400 (STEM) - Mathematics for Elementary Education I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers and number theory. Required of students planning to teach in elementary schools. Not open to other students.

prereq: grade of C or better in MATH 10100 or MATH 101EN or appropriate score on the placement exam

3 hrs
3 cr.

MATH 10500 - Mathematics for Elementary Education II

GER
1/B

Continuation of MATH 10400. Continuation of the content of the mathematics recommended by the NCTM for prospective elementary school teachers, including probability, statistics, plane and transformational geometry, congruence and similarity.

prereq: grade of C or better in MATH 10400

3 hrs
3 cr.

MATH 11000 - Topics in the Mathematical Sciences

GER
1/B

Not open to students who have completed MATH 10500, 16000 or 26000. Intended for liberal arts or social science students. Applications of topics selected from algebra, analysis, computer science, geometry, probability and statistics.

prereq: college-level mathematics or statistics course.

3 hrs
3 cr.

MATH 11100 - Matrices, Vectors and Linear Programming

GER
1/B

Not open to students who have completed MATH 16000 or 26000. Recommended for accounting students; not recommended for students majoring in mathematics or statistics. Introduction to matrices and vectors, systems of linear equations and linear programming with applications.

prereq: MATH 10100 or MATH 101EN or appropriate score on placement exam

3 hrs
3 cr.
MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem.
In addition to lecture, students are also required to attend a 50-minute recitation session once a week.
Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.
prereq: MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500.
5 hrs (4 hrs lecture, 1 hr recitation)
4 cr.

MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.
prereq: MATH 12400, MATH 12500, or MATH 12550 or appropriate score on placement exam
prereq or coreq: MATH 12500
2 hrs
1 cr.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

**MATH 15200 (STEM) - Calculus for Life and Social Sciences**

Limits, continuity and the derivative. The power rule, product and quotient rules, the chain rule, and implicit differentiation. The Mean Value Theorem and the Intermediate Value Theorem. Curve sketching and optimization, and linear approximation. Riemann integral and the Fundamental Theorem of Calculus. Various applications to economics, life sciences, and physical sciences. Students will not be allowed to obtain credit for both MATH 15200 and MATH 15000 (STEM). Students planning on taking more than one semester of calculus should take MATH 15000 (STEM) instead.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, and coreq MATH 14000; or appropriate score on placement exam. Not open to students who have taken MATH 15000.
4 hrs
4 cr.

**MATH 15400 - An Introduction to Symbolic Computation**

Laboratory introduction to machine-aided computation with an emphasis on examples related to calculus. Students use a symbolic computation package to investigate and solve problems numerically, analytically and graphically. The same package is used to create reports of their results.

prereq: MATH 15000
2 hrs
1 cr.
MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

prereq: MATH 15000

prereq or coreq: MATH 15500

2 hrs
1 cr.

MATH 16000 - Matrix Algebra

GER 1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs
3 cr.

MATH 25000 - Calculus III

GER 3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500, MATH 15600

4 hrs
4 cr.

MATH 25400 - Ordinary Differential Equations

GER 3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

prereq: MATH 25000
3 hrs
3 cr.

**MATH 25500 - Vector Analysis**

**GER**
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.

**prereq:** MATH 25000

3 hrs
3 cr.

**MATH 26000 - Linear Algebra**

**GER**
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

**prereq:** MATH 15600
**prereq or coreq:** MATH 25000

4 hrs
4 cr.

**MATH 27500 - Symbolic Logic**

**GER**
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.

**cross-listed** PHILO 27500

**prereq:** MATH 15600

3 hrs
3 cr.

**MATH 29500 - Intermediate Topics in Mathematics**

**GER**
3/B

May be repeated as topics vary, but not more than twice. Topics to be studied in any given term will be announced prior to registration.

**prereq:** MATH 15000; additional prereqs depend on specific course offered

3 hrs
3 cr.

**MATH 30100 - Mathematical Methods for the Physical Sciences**

**GER**
3/B
The solution of linear partial differential equations and boundary value problems. Solution techniques such as separation of variables, Fourier series, Green's functions and Laplace transforms are covered. These are applied to several equations which occur in physical applications such as the heat equation, the Laplace equation and the wave equation. Crosslisted as PHYS 30100.

**prereq:** MATH 25400

3 hrs

3 cr.

**MATH 31100 - Abstract Algebra I**

**GER**

3/B

Introduction to the theory of groups and rings.

**prereq:** MATH 26000

3 hrs

3 cr.

**MATH 31200 - Abstract Algebra II**

**GER**

3/B

Elements of Galois theory, construction with ruler and compass, advanced topics in ring theory and linear algebra.

**prereq:** MATH 31100

3 hrs

3 cr.

**MATH 31300 - Theory of Numbers**

**GER**

3/B

Congruences, quadratic residues, elementary Diophantine analysis, continued fractions, sums of squares.

**prereq:** MATH 26000

3 hrs

3 cr.

**MATH 33100 - Geometries**

**GER**

3/B

Topics in affine and projective geometry and/or topics in differential geometry.

**prereq:** MATH 26000

3 hrs

3 cr.

**MATH 34000 - Topology**
Metric and topological spaces, continuity, homeomorphisms, compactness, connectedness, homotopy, fundamental group.

**MATH 35100 - Mathematical Analysis I**

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous functions.

**MATH 35200 - Mathematical Analysis II**

Integration, sequences and series, uniform convergence, differentiation of functions of several variables, inverse and implicit function theorems, formula for change of variables.

**MATH 35300 - Introduction To Complex Variables**

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

**MATH 35400 - Dynamical Systems and Chaos**

Linear flows, qualitative theory of low-dimensional nonlinear systems, introduction to chaos in discrete one-dimensional dynamical systems.
MATH 37000 - Mathematical Logic

GER
3/B

A survey of the central results and techniques of metalogic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem Theorem and Church's Theorem on undecidability. Cross-listed as PHILO 37500 and CSCI 37100.

prereq: MATH 26000 or permission of the instructor

3 hrs
3 cr.

MATH 37100 - Fundamental Concepts of Modern Mathematics

GER
3/B

Axiomatic approach to set theory: axiom of choice, Zorn's Lemma, transfinite arithmetic.

prereq: two of the following: MATH 26000, 31100, 35100, 35200

3 hrs
3 cr.

MATH 37200 - Logic and Computers

This course introduces students to logic and its applications to modeling both computer and real-world systems. Topics include various logics and their applications to modeling systems and reasoning for artificial intelligence, along with proof systems and tools for automated or semi-automated reasoning in these logics.

cross-listed CSCI 37200/PHILO 37200

prereq: CSCI 15000 OR PHILO/CSCI/MATH 27500

3 hrs
3 cr.

MATH 37600 - Philosophy of Mathematics (W)

GER
3/B

Study of such issues as the nature of demonstration or proof and the nature of mathematical knowledge and mathematical objects such as numbers and sets. Cross-listed as PHIL 37600.

prereq: ENGL 12000; PHIL 10100, MATH 27500

3 hrs
3 cr.

MATH 37700 - Non-classical Logic

Logic is the systematic and precise study of reasoning—a topic of particular interest to mathematicians and computer scientists as well as philosophers. Philosophers have often functioned as the research and development wing of this collaboration, thinking up and formalizing new logical techniques and systems designed to solve problems that can't be solved by traditional (a.k.a. "classical") logic. This course will be an introduction to some of these non-classical logics, their philosophical motivations, and some of their applications.
cross-listed PHILO 37700, CSCI 37700

prereq: PHILO 27500 or MATH 27500 or CSCI 27500
3 hrs
3 crs.

MATH 38500 - Numerical Methods I

GER
3/B

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

prereq: MATH 25000 and MATH 26000 or permission of the instructor
3 hrs
3 cr.

MATH 39100 - Independent Study in Mathematics

GER
3/B

Open to Jr/Sr only. Independent study and reading under direction of faculty member.

prereq: departmental permission
1 hr
1 cr.

MATH 39200 - Independent Study in Mathematics

GER
3/B

Open to Jr/Sr only. Independent study and reading under direction of faculty member.

prereq: departmental permission
2 hrs
2 cr.

MATH 39300 - Independent Study in Mathematics

GER
3/B

Open to Jr/Sr only. Independent study and reading under direction of faculty member.

prereq: departmental permission
3 hrs
3 cr.

MATH 39500 - Advanced Topics in Mathematics
Topics to be studied in any given term will be announced prior to registration. May be repeated as topics vary, but not more than twice.

*prereq: MATH 25000, 26000; additional prereqs depend on specific course offered*

3 hrs
3 cr.

**MATH 45400 - Calculus on Manifolds**

GER
3/B

Functions on Euclidean space, implicit function theorem, Fubini's Theorem, integration on chains and manifolds.

*prereq: MATH 35200*

3 hrs
3 cr.

**MATH 48500 - Numerical Methods II**

GER
3/B

Advanced topics in numerical solutions to partial differential equations, finite element method, von Neumann stability analysis, finite difference method. Examples from computational fluid dynamics and structural mechanics. Cross-listed as CSCI 48500 and PHYS 48500.

*prereq: MATH 38500 or permission of instructor*

3 hrs
3 cr.

**MATH 49000 - Honors Seminar**

GER
3/B

*prereq: MATH 31100, 35100, departmental permission*

3 hrs
3 cr.

**Mathematics and Statistics: Statistics**

**STAT 11000 - Selected Topics in Elementary Probability and Statistics as Applied to Popular Science and Current Events**

GER
1/B

Topics to be studied in any given term will be announced prior to registration. This course does not serve as a prerequisite for any other mathematics or statistics course. This course is a topics course that serves as an introduction to selected topics in probability and statistics with applications to the real world.
prereq: CUNY Math Proficiency
3 hrs
3 cr

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

STAT 21400 - Data Analysis Using Statistical Software
Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building
prereq: STAT 21300 or MATH 12400 or MATH 12500 or MATH 12550 and STAT 11300 with grade of C or better in each course.
3 hrs
3 cr.

STAT 22000 - Statistical Analysis in Forensics

A second course in probability and statistics and the evaluation of evidence in the forensic sciences.
prereq: STAT 21200 and either STAT 21300 or 11300 by permission of instructor. One of the above, i.e., STAT 21200 or STAT 21300 or STAT 11300 by permission of instructor may be taken as a coreq.
3 hrs
3 cr.

STAT 29500 - Intermediate Topics in Statistics

Topics to be studied in any given term will be announced prior to registration. May be repeated as topics vary, but not more than twice.
prereq: STAT 21300 or STAT 11300 and MATH 12400 or MATH 12500 or MATH 12550; additional prereqs. depend on specific course offered.
3 hrs
3 cr.

STAT 31100 - Probability Theory

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31200 - Stochastic Processes

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.
prereq: STAT 31100
3 hrs
3 cr.
STAT 31300 - Introduction to Mathematical Statistics

GER  
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.

*prereq: STAT 31100*  
3 hrs  
3 cr.

STAT 31900 - Bayesian Statistical Inference in the Sciences

GER  
3/B

*prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).*

Prerequisites waived for students who have passed STAT 311.

Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.

3 hrs  
3 cr

STAT 35100 - Advanced Biometrics

GER  
3/B

A second course in statistics covering quantitative methods applicable in the life sciences. Topics include experimental design, life table analysis, ethical issues, survival analysis, logistic regression and Cox regression. Linear algebra recommended but not required.

*prereq: math at level of MATH 12400, MATH 12500, MATH 12550, STAT 11300, 21300*  
3 hrs  
3 cr.

STAT 39100 - Independent Study

GER  
3/B

Open to Jr/Sr majors only. Independent study in which a topic of interest is selected by the student. The study is carried out under the direction of a faculty member.

*prereq: departmental permission*  
1 hr  
1 cr.

STAT 39200 - Independent Study
GER
3/B

Open to Jr/Sr majors only. Independent study in which a topic of interest is selected by the student. The study is carried out under the direction of a faculty member.

prereq: departmental permission
2 hrs.
2 cr.

STAT 39300 - Independent Study

GER
3/B

Open to Jr/Sr Majors only. Independent study in which a topic of interest is selected by the student. The study is carried out under the direction of a faculty member.

prereq: departmental permission
3 hrs.
3 cr.

STAT 39500 - Advanced Topics in Statistics

GER
3/B

Topics to be studied in any given term will be announced prior to registration. May be repeated as topics vary, but not more than twice.

prereq: STAT 31100; STAT 31200 or 31300; additional prereqs. depend on specific course offered
3 hrs
3 cr.

STAT 48600 - Modeling and Visualization

GER
3/B

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences. Project required. Course may be used to qualify for departmental honors.

prereq: departmental permission
3 hrs
3 cr.

Programs and Courses in Medical Laboratory Sciences

Medical Laboratory Sciences
Overview

The Department of Medical Laboratory Sciences offers a rigorous and extensive education in biomedical science that prepares students for employment in clinical (hospital and private diagnostic), research (academic/biotechnology/pharmaceutical) and public health laboratories and for advanced degrees in graduate (Master's/Ph.D.) and professional (medical/dental/physician assistant) schools as well as advanced clinical certifications. Two academic degrees for undergraduates are offered: the BS in Medical Laboratory Sciences: Biomedical Science and the BS in Medical Laboratory Sciences: Clinical Science. Both majors emphasize laboratory training through classroom work. The Medical Laboratory Sciences: Biomedical Science major is intended for those students who plan to obtain advanced graduate or medical degrees. Students in this major are encouraged to perform independent study research projects with faculty. The Medical Laboratory Sciences: Clinical Science major is licensure qualifying and is intended for those students who plan to take the New York State Education Department (NYSED) licensure exam for clinical laboratory technologists. A license is required to work as a clinical laboratory technologist in NYS. Clinical laboratory technologists perform analytical tests on patient samples and play an essential role in the diagnosis and treatment of disease. The Clinical Science major requires students to perform a departmentally-arranged eight-week full time summer internship in a hospital or private diagnostic laboratory. Students in the Clinical Science major may also pursue advanced graduate and medical degrees.

What can I do with my degree in Medical Laboratory Sciences?

Graduates pursue entry-level careers in diagnostic or research labs, as well as further education in graduate programs, medical school and other clinical specialties. MLS graduates work in hospitals, nonprofit research institutions and pharmaceutical and biotechnology companies.

Programs and Courses

Programs and Courses in Medical Laboratory Sciences

Administration and Faculty

Department Office: Hours of Operation: Monday – Friday 9:00 AM – 5:00 PM

Faculty

Medical Laboratory Sciences Faculty
Undergraduate Major

Medical Laboratory Sciences - BS

The Department of Medical Laboratory Sciences (MLS) offers two majors:

(1) Medical Laboratory Sciences: Biomedical Science BS and

(2) Medical Laboratory Sciences: Clinical Science BS.

The Clinical Science major is intended for students pursuing careers in the diagnostic laboratory and meets the requirements for NY State licensure of clinical laboratory technologists. The Biomedical Science major is appropriate for students seeking other careers or graduate education in the biomedical field.

Professional Outcomes

Entry-Level Positions Students completing the MLS degree are prepared for positions in a variety of settings. These include clinical laboratory (medical) technologists of diagnostic laboratories in hospitals and commercial environments, and research assistants in medical center and university labs, pharmaceutical and biotechnology companies and public health laboratories. Personnel shortages are severe in several of these areas, and opportunities are predicted to grow. The Bureau of Labor Statistics projects growth of 12% for clinical laboratory positions from 2016 to 2026.

The passage of the Clinical Laboratory Technology Practice Act in 2005 created a transparent professional pathway defining the education, experience and examination to qualify as a clinical laboratory technologist in New York State. NYSED Office of the Professions. The course of study in the Medical Laboratory Sciences: Clinical Science major fulfills the educational and practice components for licensure.

Further Education

MLS students are encouraged to plan for postbaccalaureate education, and are guided to complete prerequisites. MLS alumni have been successful in medical and dental school, graduate programs in biomedical science (master's and PhD), management and clinical specialties (PA, forensic science, etc.) and advanced laboratory diagnostics such as cytotechnology.

Opportunities for Pre-Professional Experience

- **Professional Practice:** Qualified students planning for careers in the diagnostic lab enroll in MLSP 41000 to fulfill the practical experience requirement of the clinical laboratory technologist license. Students are assigned to hospital, reference or public health labs for summer or semester-long internship experience in an area consistent with their interests.

- **Student Research:** Qualified students are encouraged to participate in faculty research projects through independent study and honors courses in such areas as innate immune regulation, bacteriophage, microbial pathogenesis, antimicrobials, gastric secretion and cancer, glutamate receptors in neurological diseases and cancer, and myelination in the peripheral and central nervous systems.

- **Academic Advising:** MLS majors meet each semester with a faculty adviser to review progress and plan the next semester's program. The adviser helps students pace their studies appropriately. Counseling for graduate school, employment and reference support is ongoing for our alumni. A strong professional network exists among MLS alumni.
Admission Requirements

Students must meet the following minimum requirements to be considered for admission to the Medical Laboratory Sciences-BS majors:

Completion of 60 credits before enrolling in MLS, including: one year of general chemistry with lab (CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM), or equivalent) 1 year of general biology with lab BIOL 10000 (STEM), BIOL 10200 (STEM), or equivalent) and an overall GPA of at least 2.5. *Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Laboratory Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.*

Students can enter the Medical Laboratory Sciences major in fall and spring semesters. Advisors welcome e-mail inquiries anytime. To apply, both current Hunter College students and transfer students must complete the CUNY Transfer Application. Applicants should log in with their CUNYfirst account or create a CUNY Application account if they have never attended a CUNY institution. Be sure to select "Medical Laboratory Sciences" at Hunter College as the intended major. Admissions decisions are made on a rolling basis so students should apply and complete the application as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively. Students are encouraged to complete most of their Hunter Core Requirement (HCR) Hunter Core Requirement - Fall 2013 to Spring 2019 which includes the CUNY Common Core, the Hunter Focus on foreign language and the concurrent requirements before entering the program, but liberal arts classes can be interspersed with major courses.

Students are encouraged to contact the Department Chair or Undergraduate Advisor listed below to ask any questions or learn more about the MLS majors before applying.

Scholastic Requirements

Student grades are reviewed each semester to determine eligibility for remaining in the program. Each student must maintain an overall GPA of 2.0 for each semester and a grade of C or better in each major course. Major courses must be taken for letter grades except, at the discretion of the chair, for clinic, field or independent study. Departmental permission is required in order to register for courses. Faculty advisers authorize course permissions during the pre-registration and registration periods.

Medical Laboratory Sciences: Biomedical Science BS

Overview

The Medical Laboratory Sciences (MLS): Biomedical Science major prepares students for careers in biomedical laboratories and other health-related professions. The MLS curriculum builds upon the basic science courses required to enter the program. Courses in the major fall into the following categories:

- fundamental lab skills
- clinical subspecialties
- advanced biomedical courses

Emphasis is placed on problem solving and development of laboratory strategies, in addition to theoretical knowledge and practical skills in each of the disciplines in the curriculum. The Biomedical Science major is appropriate for students seeking graduate education in biomedical or health-related fields. This major does not meet the requirements for NY State licensure of clinical laboratory technologists. For the licensure-qualifying program, please see the Medical Laboratory Sciences: Clinical Science BS major. The academic demands of MLS courses often require students to carry lighter credit loads than they are accustomed to. Part-time attendance and some evening classes are mechanisms for assisting students to complete the challenging curriculum. See course descriptions and the MLS Web site for more detail.

Admission Requirements

The requirements for consideration for admission to Medical Laboratory Sciences - BS programs are as follows:

- Completion of 60 credits before enrolling in MLS, including: one year of general chemistry with lab CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM) or equivalent)
- 1 year of general biology with lab (BIOL 10000 (STEM), BIOL 10200 (STEM) or equivalent)
- Overall GPA of at least 2.5.

Students can enter the Medical Laboratory Sciences major in fall and spring semesters. Advisers welcome e-mail inquiries anytime. To apply both current Hunter College students and transfer students must complete a Transfer Application with the CUNY University Application Processing Center. Visit http://www.hunter.cuny.edu/prospectivestudents/ug_students/transfer.shtml and select On-Line Application from the choices. Be sure to select "Medical Laboratory Sciences" at Hunter College as the choice of curriculum. Use CUNY curriculum code 0344 when applying. Admissions take place on a rolling basis so students should apply as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively. Students are encouraged to complete most of their Hunter Core Requirement - Fall 2013 to Spring 2019 (HCR) which includes the CUNY Common Core Requirement, the Hunter Focus on foreign language and the Concurrent Requirements before entering the program, but liberal arts classes can be interspersed with major courses. Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Lab Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses Required for the Major (79-92 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Math Courses (3-13 credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.
prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

*prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.*

**STAT 11300 - Elementary Probability and Statistics**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

*prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam*  
*prereq or coreq: ENGL 12000*

**Courses in Other Departments (31 cr.)**

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**Pluralism and Diversity**
PD/C or D
**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500*

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**  
PD/C or D  
GER  
2/E

- Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
- Material fee: $5
- PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq:** BIOL 10000 or perm instr, MATH 10100 or MATH 101EN  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.

**fall only**

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**  
2/E

- In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

**prereq or coreq:** MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500  
5 hrs (4 lec, 1 rec)  
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**  
Life and Physical Sciences (LPS) Scientific World (SW)

**GER**  
2/E

- In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

- Primarily for premed, medical laboratory sciences and science majors.  
**prereq:** CHEM 10200 with grade of C or better  
5 hrs (4 lec, 1 rec)  
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.
Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

GER
2/E
First semester of two-semester introductory physics course using algebra.

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

*These courses may be counted for credit in more than one program.

Biomedical Science Curriculum (40-42 cr.)
MLSP 30000 - Fundamental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment.
MLS 60000 is the graduate component of this course
prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.
3 hrs (2 lec, 1 lab)
3 cr.

MLS 31200 - Human Physiology: Integration and Control

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.
prereq: BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.
3 hrs
3 cr.

MLS 34700 - Human Histology

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.
coreq: MLS 31200
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 34900 - Hematology

Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.
prereq or coreq: MLSP 30000
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 35100 - Clinical Microbiology I

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.
prereq or coreq: MLSP 30000
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 35200 - Clinical Microbiology II

Continuation of MLSP 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.
prereq: MLSP 30000, 35100 or equiv.
5 hrs (2 lec, 3 lab)
4 cr.

MLSP 35400 - Clinical Biochemistry I: Biomolecules & Metabolism
Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods.

**prereq:** CHEM 22200
5 hrs (2 lec, 3 lab)
3.5 cr.

**MLSP 35500 - Clinical Biochemistry II: Genes to Proteins**

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.

**prereq:** MLSP 35400
5 hrs (2 lec, 3 lab)
3.5 cr.

**MLSP 36100 - Computers and Data Processing in the Medical Laboratory**

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.

**prereq:** MATH 15000 or STAT 11300
3 hrs (1 lec, 2 lab)
3 cr.

**MLS 45000 - Cell and Tissue Culture**

Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.

**prereq:** MLS 35100
**coreq:** MLS 34700, 35200
5 hrs (2 lec, 3 lab)
4 cr.

**MLSP 45700 - Senior Seminar**

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.

**prereq:** perm instr.
2 hrs
3 cr.

**MLS 46000 - Immunology**

Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.

**prereq:** MLS 34900, 35100
**coreq:** MLS 35200, 35400
5 hrs (2 lec, 3 lab)
3 cr.

**PH 33000 - Principles of Epidemiology**
Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.
Minimum GPA to enroll - 2.75

prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100 or equivalent.
3 hrs
3 cr.

Electives (5-6 cr.)

**MLSP 40000 - Topics in Biomedical Sciences**

Topics vary from semester to semester and are announced before registration.
1-3 hrs
1-3 cr.

**MLS 48001-48003 - Independent Study**

prereq or coreq: departmental permission
1-3

**MLS 49000 - Honors**

prereq: departmental permission
hrs TBA
3 cr.

**CHEM 22400 - Organic Chemistry Lecture II**

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**CHEM 22500 - Organic Chemistry Laboratory II**

GER
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

**MATH 15500 (STEM) - Calculus II**
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000

4 hrs

4 cr.

**STAT 11300 - Elementary Probability and Statistics**

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

*prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam

*prereq or coreq: ENGL 12000

3 hrs

3 cr.

**Degree Map**

Degree Map for Medical Lab Sciences: Biomedical Science

**Medical Laboratory Sciences: Clinical Science BS**

Go to Medical Laboratory Sciences - BS

**Overview**

Medical Laboratory Sciences (MLS): Clinical Science is a pre-professional major, preparing students for careers in laboratories devoted to promoting, maintaining and restoring human health. The MLS curriculum builds upon the basic science courses required to enter the program. Courses in the major fall into the following categories:

- fundamental lab skills
- clinical subspecialties
- advanced biomedical courses
- pre-professional practice

Emphasis is placed on problem solving and development of laboratory strategies, in addition to theoretical knowledge and practical skills in each of the disciplines in the curriculum. The Clinical Science major is intended for, but not limited to, students pursuing careers in the diagnostic laboratory and is designed to meet the requirements for NY State
licensure of clinical laboratory technologists. The academic demands of MLS courses often require students to carry lighter credit loads than they are accustomed to. Part-time attendance and some evening classes are mechanisms for assisting students to complete the challenging curriculum. See course descriptions and the MLS Web site: http://www.hunter.cuny.edu/mls for more detail.

Admission Requirements

The requirements for consideration for admission to Medical Laboratory Sciences - BS programs are as follows:

• Completion of 60 credits before enrolling in MLS, including: one year of general chemistry with lab (CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM) or equivalent)
• 1 year of general biology with lab (BIOL 10000 (STEM), BIOL 10200 (STEM) or equivalent)
• overall GPA of at least 2.5.

Students can enter the Medical Laboratory Sciences major in fall and spring semesters. Advisers welcome e-mail inquiries anytime. To apply both current Hunter College students and transfer students must complete a Transfer Application with the CUNY University Application Processing Center. Visit http://www.hunter.cuny.edu/prospectivestudents/ug_students/transfer.shtml and select On-Line Application from the choices. Be sure to select "Medical Laboratory Sciences" at Hunter College as the choice of curriculum. Use CUNY curriculum code 0344 when applying. Admissions take place on a rolling basis so students should apply as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively. Students are encouraged to complete most of their Hunter Core Requirement - Fall 2013 to Spring 2019 (HCR) which includes the CUNY Common Core Requirement, the Hunter Focus on foreign language and the Concurrent Requirements before entering the program, but liberal arts classes can be interspersed with major courses. Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Lab Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses Required for the Major (80-90 credits)

Math Courses (3-11 credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

MATH 10150 - Mastery of Symbolic Computation
This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

**prereq:** MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs

1 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**

**Hunter Core**

Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

**prereq:** MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs

4 cr.

**STAT 11300 - Elementary Probability and Statistics**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

**prereq:** A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam

**prereq or coreq:** ENGL 12000

3 hrs

3 cr.

**Courses in Other Departments (31 credits)**

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**

PD/C or D
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution. 
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq:** CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

**spring only**

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq:** BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

**fall only**

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

**prereq or coreq:** MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**Pluralism and Diversity**
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**CHEM 22300 - Organic Chemistry Laboratory I**

**GER**
GER 3/B
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.
Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

*These courses may be counted for credit in more than one program.

Clinical Science Curriculum (46-48 credits)

MLSP 30000 - Fundamental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment.
MLS 60000 is the graduate component of this course
prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.
3 hrs (2 lec, 1 lab)
3 cr.

MLS 31200 - Human Physiology: Integration and Control

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.
prereq: BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.
3 hrs
3 cr.

MLS 34700 - Human Histology

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.
coreq: MLS 31200
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 34900 - Hematology

Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.
prereq or coreq: MLSP 30000
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 35100 - Clinical Microbiology I

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.
prereq or coreq: MLSP 30000
MLSP 35200 - Clinical Microbiology II

Continuation of MLSP 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques. 
\textit{prereq: MLSP 30000, 35100 or equiv.}
5 hrs (2 lec, 3 lab) 
4 cr.

MLSP 35400 - Clinical Biochemistry I: Biomolecules & Metabolism

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods. 
\textit{prereq: CHEM 22200}
5 hrs (2 lec, 3 lab) 
3.5 cr.

MLSP 35500 - Clinical Biochemistry II: Genes to Proteins

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids. 
\textit{prereq: MLSP 35400}
5 hrs (2 lec, 3 lab) 
3.5 cr.

MLSP 36100 - Computers and Data Processing in the Medical Laboratory

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly. 
\textit{prereq: MATH 15000 or STAT 11300}
3 hrs (1 lec, 2 lab) 
3 cr.

MLSP 41000 - Professional Practice

Directed full-time experience in clinical, research, public health or other biomedical laboratories. Arranged on an individual basis. 
\textit{prereq: departmental permission}
8 weeks 
3 cr.

MLSP 43000 - Immunohematology

Study of the immunologic properties of blood associated with blood group systems, donor screening, transfusion reactions and hemolytic disease and laboratory techniques used to characterize antigen-antibody reactions. 
\textit{prereq: MLSP 34900}
3 hrs (2 lec, 1 lab) 
3 cr.
**MLS 45000 - Cell and Tissue Culture**

Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.

*prereq:* MLS 35100  
*coreq:* MLS 34700, 35200  
*5 hrs (2 lec, 3 lab)*  
*4 cr.*

**MLSP 45700 - Senior Seminar**

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.

*prereq:* perm instr.  
*2 hrs*  
*3 cr.*

**MLS 46000 - Immunology**

Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.

*prereq:* MLS 34900, 35100  
*coreq:* MLS 35200, 35400  
*5 hrs (2 lec, 3 lab)*  
*3 cr.*

**PH 33000 - Principles of Epidemiology**

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.  
Minimum GPA to enroll - 2.75

*prereq:* Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100 or equivalent.  
*3 hrs*  
*3 cr.*

**Degree Map for Medical Lab Sciences: Clinical Science**

Degree Map for Medical Lab Sciences: Clinical Science BS

**Medical Laboratory Science**

**MLS 31200 - Human Physiology: Integration and Control**

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.

*prereq:* BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.  
*3 hrs*  
*3 cr.*
MLS 34700 - Human Histology

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.
coreq: MLS 31200
5 hrs (2 lec, 3 lab)
3 cr.

MLS 40066 - Topics: Biohazards and Emergency Response

This cross-listed undergraduate/masters class covers the biology of microorganisms and toxins most frequently considered in perpetrated attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, emergency communication, and prevention. In addition to classroom activities, students participate in group projects to simulate bioterrorism events and responses; government regulation, chain of evidence, and related topics are covered.
cross-listed MLS 77025
3 hours
3 credits

MLS 40067 - Topics: Medical Technology

A review of various disciplines in clinical laboratory technology with a particular focus on clinical chemistry. Recommended for students intending to take the NYSED licensure exam for clinical laboratory technologists.
prereq: MLS 35400 and MLS 35500
3 hrs
3 cr.

MLS 45000 - Cell and Tissue Culture

Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.
prereq: MLS 35100
coreq: MLS 34700, 35200
5 hrs (2 lec, 3 lab)
4 cr.

MLS 46000 - Immunology

Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.
prereq: MLS 34900, 35100
coreq: MLS 35200, 35400
5 hrs (2 lec, 3 lab)
3 cr.

MLS 48001-48003 - Independent Study

prereq or coreq: departmental permission
1-3
MLS 49000 - Honors

prereq: departmental permission
hrs TBA
3 cr.

MLSP 30000 - Fundamental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment.
MLS 60000 is the graduate component of this course
prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.
3 hrs (2 lec, 1 lab)
3 cr.

MLSP 34900 - Hematology

Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.
prereq or coreq: MLSP 30000
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 35100 - Clinical Microbiology I

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.
prereq or coreq: MLSP 30000
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 35200 - Clinical Microbiology II

Continuation of MLSP 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.
prereq: MLSP 30000, 35100 or equiv.
5 hrs (2 lec, 3 lab)
4 cr.

MLSP 35400 - Clinical Biochemistry I: Biomolecules & Metabolism

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods.
prereq: CHEM 22200
5 hrs (2 lec, 3 lab)
3.5 cr.

MLSP 35500 - Clinical Biochemistry II: Genes to Proteins
Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.

prereq: MLSP 35400
5 hrs (2 lec, 3 lab)
3.5 cr.

MLSP 36100 - Computers and Data Processing in the Medical Laboratory

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.

prereq: MATH 15000 or STAT 11300
3 hrs (1 lec, 2 lab)
3 cr.

MLSP 40000 - Topics in Biomedical Sciences

Topics vary from semester to semester and are announced before registration.

1-3 hrs
1-3 cr.

MLSP 41000 - Professional Practice

Directed full-time experience in clinical, research, public health or other biomedical laboratories. Arranged on an individual basis.

prereq: departmental permission
8 weeks
3 cr.

MLSP 43000 - Immunohematology

Study of the immunologic properties of blood associated with blood group systems, donor screening, transfusion reactions and hemolytic disease and laboratory techniques used to characterize antigen-antibody reactions.

prereq: MLSP 34900
3 hrs (2 lec, 1 lab)
3 cr.

MLSP 45700 - Senior Seminar

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.

prereq: perm instr.
2 hrs
3 cr.

Programs and Courses in Music

Music
Overview

The Music Department offers students the chance to explore musical expression through performance and academic study. Opportunities to learn from some of the best theorists, musicologists and ethnomusicologists in the field exist alongside exciting performance opportunities for every playing and singing ability. All undergraduate music majors include training in performance, aural skills, music theory, and music history, in the context of a strong liberal-arts degree program. Many other subjects, including composition, arranging, computer music, and ethnomusicology are available as electives. The undergraduate programs provide both the foundation for further study of any area of music and a liberal-arts background that can serve as a basis for careers in other fields.

Our ensembles include College Choir, Chamber Singers, Opera, Jazz Vocal Workshop, Jazz Ensemble, Jazz and Popular Music Combos, Chamber Music, and the Hunter Symphony. The BA degree can be completed evenings or days. In addition, the department sponsors numerous extracurricular events, including concerts, lectures, and master classes. Private lessons in instruments and voice are provided to all performance majors and many other music majors by a distinguished roster of performance teachers. Financial aid is available to qualified performance majors and other majors who need to study with private teachers not on the staff.

What can I do with my degree in Music?

Graduates of the department go on to a variety of careers in music and beyond. Graduates of the BA/MA dual degree program in Music/Music Teacher Education Pre-K-12 - BA/MA are qualified to teach in the public elementary and high schools of New York State.

Programs and Courses

Programs and Courses in Music

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Graduate Study

Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

Department Office:

416 North
(212)772-5020
fax: (212)772-5022
Web site: http://www.hunter.cuny.edu/music
E-mail: music@hunter.cuny.edu

Chair:
This degree is designed for students planning to pursue careers as professional performers of music or as teachers of music performance. It provides intensive instruction in the student's instrument or voice; solid training in music history and theory; and a broad, liberal arts education. Admission to this program is conditional on passing an audition (preferably before the student enters college) demonstrating a high level of skill in performance.

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses Required for the Major (60 cr.)

Music history:

**MUSHL 20100 - Introduction to Music Research**

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

*coreq: MUSHL 20500*

*prereq or coreq: ENGL 12000*
1 hr
1 cr.
offered fall

**MUSHL 20500 - Music History I**

**Pluralism and Diversity**

PD/D

For music majors. Survey of the history of music in the European tradition to 1600.

*prereq: elementary knowledge of music history and literature, demonstrated by dept. exam*

*coreq: MUSHL 20100*

*prereq or coreq: MUSTH 22000, 23000, ENGL 12000, perm dept.*

3 hrs

3 cr.

offered fall

**MUSHL 20600 - Music History II (W)**

**Pluralism and Diversity**

PD/D

For music majors. Continuation of MUSHL 20500. Survey of the history of music in the European tradition from 1600 to 1800.

*prereq: MUSHL 20100, 20500, ENGL 12000*

*prereq or coreq: MUSTH 22100, 23100*

3 hrs

3 cr.

offered spring

**MUSHL 30500 - Music History III (W)**

**Pluralism and Diversity**

PD/D

Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.

*prereq: MUSHL 20600, MUSTH 22100, 23100*

3 hrs

3 cr.

offered fall

and any other 3-credit MUSHL course at the 300-level

**Music theory:**

**MUSTH 20100 - Introduction to Music Technology**

An introduction to basic music technology skills: music notation software, MIDI sequencing, and digital audio editing.

*prereq or coreq: prerequisites: MUSTH 22000 and 23000, or perm dept.*

1 hr

1 cr.

offered spring

**MUSTH 22000 - Music Theory I**
Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

prereq: ability to read music as demonstrated by dept. exam, perm dept.
coreq: MUSTH 23000
3 hrs
3 cr.
offered fall

**MUSTH 22100 - Music Theory II**

Continuation of MUSTH 22000.

prereq: MUSTH 22000
coreq: MUSTH 23100
3 hrs
3 cr.
offered spring

**MUSTH 23000 - Musicianship I**

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.
coreq: MUSTH 22000
3 hrs
2 cr.
offered fall

**MUSTH 23100 - Musicianship II**

Continuation of MUSTH 23000.

prereq: MUSTH 23000
coreq: MUSTH 22100
3 hrs
2 cr.
offered spring

**MUSTH 32000 - Music Theory III**

Intermediate-level study of melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

prereq: MUSTH 20100, MUSTH 22100
coreq: MUSTH 33000
3 hrs
3 cr.
offered fall

**MUSTH 33000 - Musicianship III**

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.

prereq: MUSTH 23100
coreq: MUSTH 32000
3 hrs
Private lessons:

MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

prereq: perm dept.
1 hr
3 cr.

Performance ensembles:

For instrumentalists - 6 credits in instrumental ensembles

Choose 6 credits from the following:

MUSPF 23100 - Hunter Symphony

Rehearsal and performance of orchestral works. May be taken 8 times.

prereq: audition, perm instr.
3 hrs
1 cr.

MUSPF 24900 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

2 hrs
1 cr.

MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

prereq: audition, perm instr.
2 hrs
1 cr.

MUSPF 25000 - Jazz and Popular Music Combos

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

prereq or coreq: audition, dept. permission required
MUSPF 36500 - Topics in Piano Performance

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance.
May be taken 4 times.
coreq: MUSPF 40100 or 43100

2 hrs
1 cr.

For singers

6 credits in vocal ensembles

MUSPF 22100 - College Choir

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs
1 cr.

MUSPF 25100 - Jazz Vocal Workshop Ensemble

Jazz performance and improvisation. May be taken 6 times.
prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition

2 hrs
1 cr.

MUSPF 35300 - Chamber Singers

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.
prereq: audition, perm instr.

2 hrs
1 cr.

MUSPF 36900 - Topics in Vocal Performance

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance.
May be taken 4 times.
prereq: ENGL 12000
coreq: MUSPF 40100 or 43100

2 hrs
1 cr.

for singers, a minimum of 2 credits must be in MUSPF 36900

Electives:
• 4 credits in music courses above the 100-level.

Recital:

• A senior recital, for which no credit is given, is also required.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

Return to: Department of Music

- Music 25-Credit Major - BA
- Music 42-Credit Major - BA
- Music - BMus

Major Programs

The Department of Music offers three undergraduate programs and a BA/MA in Music Education for those going into a Music Education major at the graduate level. Students must take three examinations before declaring a music major:

- Music notation, rudimentary theory, and basic musicianship skills. This examination is prerequisite to MUSTH 22000 (Music Theory I). Students who do not pass it must take MUSTH 10100 (Music Theory Fundamentals) or learn the material on their own, then repeat the examination.
- Elementary music history and literature. This examination is prerequisite to MUSHL 20500 (Music History I). Students who do not pass it must take MUSHL 10100 (Introduction to Music) or learn the material on their own, then repeat the examination.
- Performance audition on an instrument or voice. This examination is prerequisite to MUSPF 40100 (Private Instruction in Instrument or Voice). Students whose performance skills fall below New York State School Music Association (NYSSMA) level 2, equivalent to about one year of study, must take MUSPF 21100-MUSPF 21200 (Voice I-II), MUSPF 21300-MUSPF 21400 (Piano III), or private lessons at their own expense (without credit), then repeat the examination. Students with no experience in performance may defer the audition until the end of their first semester of study.

Prospective majors should consult the Music Department's undergraduate adviser as soon as possible to discuss these examinations and any prerequisite courses they may need before beginning the major.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Grading Policies

Students must have grades of C or better in all prerequisite courses in order to take courses that are required for the major. The grade of CR may not be elected in major courses. In accordance with Hunter College policy, a course may not be taken more than twice without permission of the department.

Honors

To qualify for departmental honors in music, a student must have a 3.5 grade point average in major courses and complete an honors project, taken under the following course number. The project, which must be approved in advance by the Policy Committee, may be a research paper on a historical, theoretical, or other topic; an original composition;
or a recital. All projects should demonstrate an advanced level, a broad scope, and a high quality, and must be done under the supervision of a faculty member of the Music Department.

**MUSTH 49100 - Honors Project**

Upper Jr/Sr only. Individual project of large scope in music history, theory, composition, or performance.

**prereq:** minimum music GPA of 3.5, perm undergrad adviser

1 sem

3 cr.

**Graduate Study**

Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

**Undergraduate Minor**

**Minor in Music**

The music minor consists of 15 credits in music: MUSTH 10100; MUSHL 10100 or MUSHL 10700; one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher. Prospective minors who have already mastered the material taught in the required 100-level courses (MUSTH 10100 and/or MUSHL 10100 or 10700) may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see Music 25-Credit Major - BA). Music minors must substitute more advanced courses in any area of music study, which may include private lessons and ensembles, for the courses from which they are exempt. PLEASE NOTE: Music minors who wish to take private lessons for credit (MUSPF 40100) must first pass both the performance audition and music theory portions of the entrance examination.

An introduction to rock music from the 1950s to the present, examined from musical and cultural perspectives.
prereq: ENGL 12000 and MUSHL 10100 or MUSHL 10700 or MUSHL 20500 or MUSTH 10100
3 hrs
3 cr.
MUSHL 22100 - Black Music in the Americas (W)

Pluralism and Diversity
PD/B
GER
3/A

The origins, history, and evolutionary progression of Black music in the Americas; shared musical practices and resources in the multicultural matrix of the United States in particular and the hemisphere in general.
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

MUSHL 22700 - Master Composers (W)

GER
3/A

Study of works of single composer. Topics to be announced. May be taken 6 times.
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

MUSHL 23100 - Folk and Traditional Music (W)

GER
3/A

Study of ethnic music of selected cultures.
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

MUSHL 24000 - Music of the Caribbean and Latin America (W)

Pluralism and Diversity
GER 3/A PD/A

Origin and development of Caribbean and Latin American musical styles and their impact on the United States and other parts of the world.
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 101, or perm instr.
3 hrs
3 cr.

MUSHL 24100 - Music of Asia (W)

Pluralism and Diversity
PD/A
GER
3/A

Music and its relationship to dance and drama in the major civilizations of East Asia, Southeast Asia, South Asia,
Central Asia, and the Middle East.

prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

MUSHL 24300 - Music of the Middle East

Music and its relationship to tradition, modernity, gender, and politics in the major regions and ethnic groups of the Middle East and North Africa.

prereq or coreq: MUSHL 10100, or MUSHL 10700, or MUSHL 20500, or MUST 10100, or permission of the instructor
3 hrs
3 cr

MUSHL 24500 - Music of Africa (W)

Pluralism and Diversity
PD/A
GER
3/A

Introduction to traditional and popular African music and performance practices. Theoretical and methodological issues as defined by ethnomusicology.
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

MUSHL 25000 - Women and Music (W)

Pluralism and Diversity
PD/C
GER
3/A

An ethnomusicological study of women and music in cross-cultural perspective.
cross-listed WGS 25000 (W)
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, WGS 10000, or perm. Instr.
3 hrs
3 cr.

MUSHL 25200 - Film Music (W)

GER
3/A

Introduction to the history, aesthetic, form and techniques of film music, for everyone interested in film or film music, from the casual viewer of television movies and videotapes to film and music majors.
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.
MUSHL 26100 - Special Topics in History and Literature of Music (W)

Pluralism and Diversity
PD/A or B or C
GER
3/A

Study of works illustrating one specific genre, style, or period. Topics to be announced. May be taken 6 times. Depending on topic, may satisfy PD.

prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.

3 hrs
3 cr.

MUSHL 26200 - Special Topics in Music (W)

A study of a musical topic outside the traditional classifications of music history, theory, and performance. Topics to be announced.

prereq: ENGL 12000; MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.

3 hrs
3 cr.

MUSHL 30500 - Music History III (W)

Pluralism and Diversity
PD/D

Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.

prereq: MUSHL 20600, MUSTH 22100, 23100

3 hrs
3 cr.
offered fall

MUSHL 30600 - Music History IV (W)

Pluralism and Diversity
PD/D

Central issues in the history of European music, such as the role of patronage in musical culture, relationships of musical style to instruments and performing ensembles, and the impact of historical consciousness on contemporary musical life.

prereq: MUSHL 30500

Specialized study of selected genre, locality, period, style, composer, or problem. Topics to be announced. May be taken 6 times.

_prereq: ENGL 12000, variable music courses
3 hrs
3 cr.

MUSHL 49800 - Music Internship

Internship in various arts institutions in New York City.

_prereq: perm dept.
1-6 cr.

Music Performance

MUSPF 12100 - Elementary Guitar I

For non majors. Class lessons in guitar: basic techniques, tuning, reading chord charts, playing and transposing songs, and learning chords, strums, and finger-pickings. Students must supply their own instruments.

_prereq: MUSTH 10100 or perm dept.
2 hrs
1 cr.

MUSPF 12200 - Elementary Guitar II

_prereq: MUSPF 12100
2 hrs
1 cr.

MUSPF 13100 - Elementary Piano I

For non majors. Class lessons in piano: basic techniques, playing simple pieces.

_prereq: MUSTH 10100 or perm dept.
2 hrs
1 cr.

MUSPF 21100 - Voice I

prereq: declared music major or perm dept.

2 hrs
1 cr.

**MUSPF 21200 - Voice II**

Continuation of MUSPF 21100.

prereq: MUSPF 21100 or perm dept.

2 hrs
1 cr.

**MUSPF 21300 - Piano I**

Basic piano techniques, scales and chords, exercises, simple pieces, and sight-reading.

prereq: declared music major or perm dept.

2 hrs
1 cr.

**MUSPF 21400 - Piano II**

Continuation of MUSPF 21300.

prereq: MUSPF 21300 or perm dept.

2 hrs
1 cr.

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs
1 cr.

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

prereq: audition, perm instr.

3 hrs
1 cr.

**MUSPF 24900 - Jazz Ensemble**

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

2 hrs
1 cr.

**MUSPF 25000 - Jazz and Popular Music Combos**

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.
MUSPF 25100 - Jazz Vocal Workshop Ensemble

Jazz performance and improvisation. May be taken 6 times.

prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition

2 hrs
1 cr.

MUSPF 34900 - Conducting I

Principles of choral and orchestral conducting: technique of the baton, interpretation, repertoire, and score reading.

prereq: MUSTH 33100 or perm instr.
coreq: audit MUSPF 22100 or 23100

3 hrs
2 cr.

MUSPF 35000 - Conducting II

Continuation of MUSPF 34900.

prereq: MUSPF 34900 and MUSTH 33100 or perm instr.
coreq: audit MUSPF 22100 or 23100

3 hrs
2 cr.

MUSPF 35300 - Chamber Singers

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

prereq: audition, perm instr.

2 hrs
1 cr.

MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

prereq: audition, perm instr.

2 hrs
1 cr.

MUSPF 36100 - Special Studies in Performance of Music

Number of works are studied, rehearsed, and performed. Topics to be announced. May be taken 4 times.

prereq: perm dept.

1 cr.

MUSPF 36200 - Special Studies in Performance of Music
Number of works are studied, rehearsed, and performed. Topics to be announced. May be taken 4 times.

prereq: perm dept.
2 cr.

**MUSPF 36300 - Special Studies in Performance of Music**

Number of works are studied, rehearsed, and performed. Topics to be announced. May be taken 4 times.

prereq: perm dept.
3 cr.

**MUSPF 36500 - Topics in Piano Performance**

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

coreq: MUSPF 40100 or 43100
2 hrs
1 cr.

**MUSPF 36900 - Topics in Vocal Performance**

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

prereq: ENGL 12000

coreq: MUSPF 40100 or 43100
2 hrs
1 cr.

**MUSPF 37000 - Opera Performance**

Preparation and performance of a fully staged opera. May be taken four times for credit.

prereq: Dept, permission required.
3 hrs
3 cr.

**MUSPF 40100 - Individual Instruction in Instrument or Voice**

Limited to the 42-credit BA music major, the 25-credit BA music major, the BA/MA music major and the music minor. Audition demonstrating performance skills equivalent to New York State School Music Association (NYSSMA) level 2 or higher. Students must make their own arrangements with department-listed teachers to receive credit for this course. Jury examination required. The jury examination following the second and subsequent semesters of private lessons must demonstrate performance skills equivalent to NYSSMA level 4 or higher. May be taken 8 times.

prereq: perm dept.
1 hr
1 cr.
MUSPF 40200 - Individual Instruction in Second Instrument or Voice

Individual instruction in second instrument or voice. Limited to the 42-credit BA music major, 25-credit BA music major, 60-credit BMus major, BA/MA music major and the music minor. Audition demonstrating performance skills equivalent to New York State School Music Association (NYSSMA) level 2 or higher. Students must make their own arrangements with department-listed teachers to receive credit for this course. Jury examination required. May be taken 8 times.

Continuation of MUSTH 32000.

**prereq:** MUSTH 32000
3 hrs
3 cr.

**MUSTH 33000 - Musicianship III**

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.

**prereq:** MUSTH 23100
**coreq:** MUSTH 32000
3 hrs
2 cr.
*offered fall*

**MUSTH 33100 - Musicianship IV**

Continuation of MUSTH 33000.

**prereq:** MUSTH 33000
**coreq:** MUSTH 32100
3 hrs
2 cr.
*offered spring*
MUSTH 33300 - Composition I

Practical study of music composition; traditional pitch materials; motivic materials; formal schemes. Students will write several short compositions and perform them in class.
prereq: MUSTH 22100 and 23100 or perm dept.
3 hrs
3 cr.

MUSTH 33400 - Composition II

Practical study of music composition. New pitch materials; composing for solo instruments; using contrast to build form. Students will write several short compositions and perform them in class.
May be taken before Composition I.
prereq: MUSTH 22100 and 23100 or perm dept.
3 hrs
3 cr.

MUSTH 33500 - Orchestration

Capabilities and limitations of the orchestral instruments; practice in scoring for small and large groups; instrument demonstrations and reading session.
prereq: MUSTH 22100 and 23100 or perm dept.
3 hrs
3 cr.

MUSTH 35100 - Computer Music

Making music with computers using technologies such as MIDI sequencing, hardware synthesis, and digital audio. Promises and limitations of these tools.
prereq: MUSTH 22100 and 23100 or perm dept.
3 hrs
3 cr.

MUSTH 35100 - Special Topics in Music Theory

Study of selected issues in music theory and analysis. Topics to be announced. May be taken two times.
prereq: variable
3 hrs
3 cr.

MUSTH 37000 - Jazz Harmony and Arranging

Study of jazz harmony and rhythm, jazz composition, and jazz arranging.
prereq: MUSTH 20100, 22100 and 23100 or perm dept.
3 hrs
3 cr

MUSTH 37100 - Jazz Improvisation
Study and performance of jazz improvisational techniques.
\textit{prereq: MUSTH 37000 or perm dept.}
\textit{3 hrs}

Proposals for projects must be submitted to the policy committee of the Music Department by the twelfth week of the preceding semester. Permission to enroll in the course is conditional on approval of the proposal by the committee.
3 cr.

Programs and Courses in Philosophy
Philosophy

Overview

Philosophy studies the most fundamental questions that human beings ask — about individual and social action, the possibility and limits of knowledge, the truth and justification of beliefs, human nature and freedom, the existence of God and the operations of nature. Philosophy approaches these questions in a systematic way and philosophers have worked out more or less comprehensive theories to answer them (or show why they cannot be answered). The courses offered by the Philosophy Department are designed to introduce students to the main problems that philosophers study and to the main ideas of such profound and influential thinkers as Socrates, Plato, Aristotle, Augustine, Aquinas, Descartes, Hume and Kant.

Philosophy is one of the most important subjects a student can study because it develops the ability to reason clearly and critically, to write thoughtfully, to use intelligence and logic to deal with problems all too often ruled by emotion and prejudice. Philosophy also helps one develop intellectual flexibility and learn to appreciate ideas and beliefs other than those of one's own time, place, class or group. Since it develops these intellectual abilities and habits, the study of philosophy, either in individual courses or as a major or minor, is excellent preparation for any profession or occupation.

Students of philosophy pursue careers in law, business, medicine, government and the arts. Some go on to study philosophy at the graduate level with the aim either of teaching philosophy or of obtaining an advanced degree to further their career objectives.

What can I do with a degree in Philosophy?

Philosophy majors pursue many different careers. Philosophy courses are designed to provide skills that can be used across many fields, rather than to prepare you for a single career. Philosophy prepares students to pursue graduate studies in a variety of fields. Philosophy majors perform extremely well on graduate schools entrance exams and score higher on the GRE than graduates of other majors. Philosophy majors also are among the top performers on the LSAT and GMAT. But pursuing philosophy can also be intrinsically valuable—not just as a means to some end, but as an end in itself. To do philosophy—and, in particular, to do it well—is to exercise your mind in ways that reveal how powerful, creative, and open it can be.

Course Listings

The department especially encourages students majoring in or interested in philosophy, both with fewer than 6 credits toward the major in philosophy, to consult with a departmental advisor about courses and their prerequisites at this stage of their academic career.

Undergraduate Major

Degree Map for Philosophy: Politics and Society

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Philosophy major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Philosophy - BA

The Philosophy Department offers two concentrations:

• Philosophy: Standard Concentration
• Philosophy: Concentration in Philosophy, Politics and Society

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

Examination of basic philosophical questions through study of selected philosophical classics.

3 hrs
3 cr.
offered each semester
PHILO 10400 - Introduction to Ethics and Moral Judgment

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

An introduction to theories of ethical reasoning and problems of moral judgment. Different theories of the good life and concepts of rightful conduct, especially regarding one's personal life and contemporary social problems, will be considered.

3 hrs
3 cr.
offered each semester

PHILO 10600 - Philosophy, Politics and Society

Hunter Core
Individual and Society (Social Science) - I&S SS
Pluralism and Diversity
PD/D
GER
2/C

Introduction to social and political philosophy.

3 hrs
3 cr.
offered each semester

PHILO 17000 - Introduction to Logic and Scientific Method

Hunter Core
Scientific World

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

3 hrs.
3 cr.

Note

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Advising Services for majors

The Philosophy Department offers extensive advising services to majors, including: guidance for course selection and sequencing and devising a course of study; tracking progress and compliance with college, CUNY, and state regulations; career advice; planning for graduate and professional school applications; and information about special opportunities for philosophy students. Minors may also make use of these services.
Mentoring

Philosophy majors are encouraged to establish a relationship with a faculty mentor of their choice. This relationship can be distinct from the departmental advising relationship.

Honors

To be eligible for graduation with departmental honors in philosophy, a major must have at least a 3.50 GPA in philosophy, at least a 3.0 overall GPA. The student must register for the 3- or 6-credit PHILO 49400, which is taken in addition to and is not part of the 33 credits for the major. The student must write a substantial paper under the direction of a full-time faculty member. To receive departmental honors the completed paper must be submitted to a three-member committee who will judge whether it merits departmental honors. This committee will consist of the director of the student's Honors Tutorial and two other full-time philosophy faculty members appointed by the director.

PHILO 49400 - Honors Tutorial in Philosophy

Open to Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Successful completion is one requirement for departmental honors at graduation.

prereq: 3.0 cum GPA and 3.50 major GPA; philosophy majors only, minor with perm instr; two 300-level PHIL courses, one of which may be taken concurrently; perm dept.

3 or 6 cr.

Independent Study

Students may engage in independent study under the supervision of a member of the Philosophy department by receiving permission to take the following.

PHILO 49200 - Independent Study in Philosophy

Independent study of philosophical works under faculty supervision.

prereq: one PHILO course at 300-level, perm instr. (see Program Prerequisites)

1-6 cr.

Philosophy: Concentration in Philosophy, Politics and Society

Courses Required for the Major (33 credits)

One Introductory Course in Philosophy (3 cr.)

Students are encouraged to take:

PHILO 10600 - Philosophy, Politics and Society

Hunter Core
Individual and Society (Social Science) -I&S SS

Pluralism and Diversity

PD/D
Introduction to social and political philosophy.
3 hrs
3 cr.
offered each semester

History of Philosophy (6 cr.)

PHILO 21200 - Classical Greek Philosophy: Plato and Aristotle (W)

Study of major works of Plato and Aristotle in the context of the philosophical thought of the ancient world.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 31800 - Revolutions in Modern Philosophy (W)

Study of major philosophers of the late 18th and 19th centuries such as Kant, Hegel, Schopenhauer, Feuerbach, Kierkegaard, Marx and Nietzsche.
prereq: ENGL 12000 and two previous courses in philosophy
3 hrs
3 cr.

Political Philosophy (3 cr.)

PHILO 24600 - Political Philosophy (W)

Study of selected philosophical problems in politics, law, economics and society.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Social Philosophy (3 cr.)
One of:

**PHILO 24400 - Moral Philosophy (W)**

**GER**
3/A

Study of selected problems in philosophical ethics and moral psychology.
*prereq: ENGL 12000 and one previous course in philosophy.*
3 hrs
3 cr.

**PHILO 24800 - International Ethics (W)**

**GER**
3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.
*prereq: ENGL 12000 and one previous course in philosophy.*
3 hrs
3 cr.

**PHILO 25000 - Problems of Ethics and Society (W)**

**GER**
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.
*prereq: ENGL 12000 and one previous course in philosophy.*
3 hrs
3 cr.

**PHILO 25500 - Environmental Philosophy (W)**

**Hunter Core**

Individual and Society (Social Sciences) I&S SS

Conceptual, ethical, and methodological issues pertaining to the environment and environmental sciences.

*prereq: ENGL 12000
3 hrs
3 cr.

Intensive Study of a major philosopher, preferably concerning their political and/or social ideas (3 cr.)

One of:

**PHILO 31900 - Marxist and Critical Theory (W)**
Pluralism and Diversity
PD/D
GER
3/A

Study of 20th-century philosophers, such as Lucás, Adorno, and Marcuse, who attempted to develop a theory of historical materialism or a critical theory of society, as well as the sources of their ideas in the work of Marx, Weber, and Freud.

_prereq: ENGL 12000 and 2 courses in philosophy, 1 at the 200-level
3 hrs
3 cr.

PHILO 38000 - Major Figures in Philosophy (W)

GER
3/A

Intensive study of the works and legacy of a major philosopher. The course may be repeated as different figures are offered. Figures include:
PHILO 38010 Plato (W)
PHILO 38011 Aristotle (W)
PHILO 38020 Plotinus (W)
PHILO 38063 Hume (W)
PHILO 38068 Kant (W)
PHILO 38070 Hegel (W)
PHILO 38076 Marx (W)
PHILO 38078 Nietzsche (W)
PHILO 38080 Wittgenstein (W)
PHILO 38083 Heidegger (W)
PHILO 38086 Foucault (W)

_prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 39300 - Philosophical Systems

GER
3/A

Study of writings of one or two major philosophers.

_prereq: variable (see Program Prerequisites)
3 hrs
3 cr.

Study of Recent Issues in Political and Social Philosophy (3 cr.)

One of:

PHILO 34600 - Contemporary Theories of Justice (W)
A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr

PHILO 34800 - Philosophy of Human Rights (W)

A study of the philosophical foundations and justifications of human rights, including core notions of freedom and dignity in cross-cultural context, their scope as civil-political and economic-social rights, and newer women's and environmental rights.

 prereq: ENGL 12000, and either a) two courses in philosophy, with at least one at the 200-level, or b) a course in political theory and one course in philosophy at the 200-level.

3 hrs
3 cr.

PHILO 39400 - Philosophical Problems

GER
3/A

Study of one or more major philosophical problems.

 prereq: variable (see Program Prerequisites)

3 hrs
3 cr.

Electives (12 cr.)

4 courses on 20000-, 30000-, or 40000-level (but including PHILO 17000, and excluding PHILO 49400), including 2 on 30000- or 40000-level; 2 may be approved non-philosophy courses; 1 recommended on logic (e.g., PHILO 17000 or a suitable substitute such as 20095 Reason and Argument), and 1 recommended on philosophy of gender or race (e.g., PHILO 22600 or PHILO 23000)

Nondepartmental courses to satisfy elective requirement

AFPRL 40100 - Pan-Africanism

GER
3/B

Seminar traces development of Pan-Africanism through the 20th century.

 prereq: AFPRL 20200 or 20400 or 20600

3 hrs
3 cr.

AFPRL 40200 - African American Political Thought
Comparative theorists; methods and ideological currents.

*prereq:* AFPRL 20300 or 20400 or 20500

3 hrs

3 cr.

**HIST 33100 - European Culture in the 16th, 17th and 18th Centuries (W)**

The impact of the Reformation, Counter-Reformation, the Scientific Revolution and related movements.

Courses at the 300-level and above not offered to freshmen.

*prereq or coreq:* ENGL 12000

3 hrs

3 cr.

**HIST 33200 - Modern Culture from the 18th to the 20th Centuries**

From the impact of the Scientific Revolution and the Enlightenment to recent literature, art, religion and science.

European political and social thought.

Courses at the 300-level and above not offered to freshmen.

3 hrs

3 cr.

**POLSC 20100 - Ancient to Early Modern Political Thought (W)**

The study of selected writers from the ancient Greeks to the Renaissance (e.g., Plato to Machiavelli), focusing on the political dimensions of such ideas as rationality, virtue, community, human nature and historical change.

*prereq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**POLSC 20200 - Modern Political Thought (1600-1900) (W)**

The study of selected political writers (e.g., Hobbes to Nietzsche), with special emphasis given to the nature of and problems with, liberty, equality and justice in modern societies and states.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 20300 - Political Thought Since 1900 (W)**

**Pluralism and Diversity**

PD/D

GER

3/B

Exploration of concepts and thinkers in political theory since 1900. Topics include such traditional issues of political theory as the nature and scope of political regimes, justice, equality and changing concepts of human nature.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 20400 - Contemporary Issues in Political Theory**

GER

3/B

Topics vary each semester. They have included democracy in America, totalitarianism, liberty and authority.

POLSC 20451 Women in Western Political Thought meets PD/D

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 20900 - Women and Gender in Western Political Thought (W)**

**Pluralism and Diversity**

PD/C or D

GER

3/B

Examines history of political thought from the perspective of gender relations and the treatment of women.

cross-listed WGST 20900

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 30100 - American Political Thought (W)**

GER

3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political inclusion and democracy.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm. instr.
3 hrs
3 cr.
POLSC 30300 - Democracy and Emergency (W)

GER
3/B

This seminar in political theory examines the issue of emergency powers in constitutional democracies. It will examine various attempts to define what is an emergency, as well as the spirited debates over the legitimacy of extraordinary powers to manage such crises.

prereq: ENGL 12000
4
4

POLSC 30400 - Contemporary Issues in Political Theory

GER
3/B

Selected topics in political theory.

prereq: ENGL 12000 or its equivalent; one course in political theory subfield or perm instr
3 hrs
3 cr.

POLSC 30500 - Democratic Theory (W)

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and ‘non-political’ forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

POLSC 30700 - Theory of Revolution

GER
3/B

Traditional and modern revolutions. Conditions and objectives of socialist and communist revolutions.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 30900 - Feminist Political Theory (W)

Pluralism and Diversity
PD/C
GER
3/B

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will
emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.

cross-listed WGST 30900 (W)

prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs
3 cr.

POLSC 31100 - Utopian Theory (W)

GER
3/B

Political theorists often imagine ideal worlds, both to explore ideals and to criticize political realities. This course will explore utopias and dystopias as theories that explore political possibilities and challenge existing realities.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm dept.

3 hrs
3 cr.

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs
3 cr.

PUPOL 40000 - Capstone Seminar

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper.

Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research.

These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements.

This course is taken at the state of the art Roosevelt House.

prereq: Students must have completed 45 credits, have a declared major, and a cumulative GPA of 3.0 or higher.

3 hours
3 credits

SOC 22100 - Classical Sociological Theory

Pluralism and Diversity
PD/D
GER
3/B

Classical theorists and their contributions.
**SOC 22300 - Contemporary Sociological Theory (W)**

**GER**
3/B

Significance of concepts and nature of evidence applied to leading theories. Theory construction.

*prereq: SOC 10100, SOC 22100, and ENGL 12000*

3 hrs
3 cr.

**Elective courses recommended for students with particular interests**

Elective credits should be carefully chosen to focus students' programs on their present interests and future needs. The following courses are recommended for students with particular interests.

**Graduate study in philosophy**

**PHILO 27500 - Symbolic Logic**

**GER**
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.  
*cross-listed MATH 27500*

3 hrs
3 cr.

**PHILO 24400 - Moral Philosophy (W)**

**GER**
3/A

Study of selected problems in philosophical ethics and moral psychology.  
*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**Admission to Law School**

**PHILO 27500 - Symbolic Logic**

**GER**
3/B
Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.

*cross-listed* MATH 27500
3 hrs
3 cr.

**PHILO 24400 - Moral Philosophy (W)**

**GER**

3/A

Study of selected problems in philosophical ethics and moral psychology.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**Careers in Public Administration**

**PHILO 25000 - Problems of Ethics and Society (W)**

**GER**

3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**Careers in Foreign Service**

**PHILO 24800 - International Ethics (W)**

**GER**

3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**POLSC 31600 - Political Theory of Human Rights (W)**

**GER**

3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

*prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*
An additional course relating philosophy to international relations

Careers in Social Welfare

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.

_prereq: ENGL 12000 and one previous course in philosophy._

3 hrs
3 cr.

SOC 22100 - Classical Sociological Theory

Pluralism and Diversity
PD/D
GER
3/B

Classical theorists and their contributions.

_prereq: SOC 10100

3 hrs
3 cr.

SOC 22300 - Contemporary Sociological Theory (W)

GER
3/B

Significance of concepts and nature of evidence applied to leading theories. Theory construction.

_prereq: SOC 10100, SOC 22100, and ENGL 12000

3 hrs
3 cr.

Note:

Certain new, ad hoc, or independent study courses may be taken in partial satisfaction of requirements listed above, if they are approved by the Philosophy, Politics and Society major concentration adviser.

Degree Map

Degree Map for Philosophy: Politics and Society
Philosophy: Standard Concentration

Courses Required for the Major (33 credits)

One of the following (3 cr.)

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

Examination of basic philosophical questions through study of selected philosophical classics.

3 hrs
3 cr.
offered each semester

PHILO 10400 - Introduction to Ethics and Moral Judgment

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

An introduction to theories of ethical reasoning and problems of moral judgment. Different theories of the good life and concepts of rightful conduct, especially regarding one's personal life and contemporary social problems, will be considered.

3 hrs
3 cr.
offered each semester

PHILO 10600 - Philosophy, Politics and Society

Hunter Core
Individual and Society (Social Science) - I&S SS
Pluralism and Diversity
PD/D
GER
2/C

Introduction to social and political philosophy.

3 hrs
3 cr.
offered each semester

1. Logic (3 cr.)
PHILO 17000 - Introduction to Logic and Scientific Method

Hunter Core
Scientific World
An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.
3 hrs.
3 cr.

-or-

PHILO 27500 - Symbolic Logic

GER
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.
cross-listed MATH 27500
3 hrs
3 cr.

2. History of Philosophy (9 cr.)

PHILO 21200 - Classical Greek Philosophy: Plato and Aristotle (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major works of Plato and Aristotle in the context of the philosophical thought of the ancient world.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 21500 - Foundations of Modern Philosophy (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major philosophers of the 17th and early 18th centuries such as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 31800 - Revolutions in Modern Philosophy (W)
Pluralism and Diversity
PD/D
GER
3/A

Study of major philosophers of the late 18th and 19th centuries such as Kant, Hegel, Schopenhauer, Feuerbach, Kierkegaard, Marx and Nietzsche.

*prereq: ENGL 12000 and two previous courses in philosophy*

3 hrs
3 cr.

3. Ethics, Politics and Aesthetics (3 cr.)

any course from

PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

PHILO 24600 - Political Philosophy (W)

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

PHILO 25800 - Aesthetics (W)

GER
3/A

Study of philosophical issues that arise in our understanding and criticism of the arts. Topics include nature of expression, purpose and standards of criticism and aesthetic value.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

4. Metaphysics and Epistemology (3 cr.)

any course from
PHILO 36000 - Metaphysics (W)

GER
3/A

Study of major metaphysical views, such as materialism, idealism, nominalism and realism. The major question is: What is reality and how may it be known?

prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 36200 - Theory of Knowledge (W)

GER
3/A

Study of origin, structure, methods and foundations of human knowledge.

prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 36400 - Philosophy of Language (W)

GER
3/A

Inquiry into the philosophical significance of language, its structure, meaning, reference and use.

prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 36600 - Philosophy of Mind (W)

GER
3/A

Examination of the concept of mind and the person. Topics include thinking, intention, consciousness, supervenience, emotion, self-knowledge.

prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 37800 - Philosophy of Biology (W)

Philosophical problems of biology, including evolutionary biology, molecular biology and genetics, and neuroscience.

prereq: ENGL 12000 and 2 courses in philosophy, at least one at the 200-level
3 hrs
3 cr.

PHILO 37900 - Philosophy of Science (W)
GER
3/B

Study of foundations of knowledge in natural and social sciences.

prereq: Two courses in philosophy, at least one of which is at the 200 level.

3 hrs
3 cr.

5. Intensive Study of a Major Philosopher (3 cr.)

any course from those offered under PHILO 38000 Major Figures in Philosophy (W)

6. Additional Required Credits (9 cr.)

Chosen in consultation with an adviser. Students are required to select at least one course (3 cr.) at the 300-level. Also they are encouraged to select courses that acquaint them with philosophic traditions other than the dominant Western ones.

Degree Map

Degree Map for Philosophy BA

Undergraduate Minor

Minor in Logic

Currently, logic is studied by three distinct disciplines—Computer Science, Mathematics, and Philosophy. This minor is interdisciplinary and will introduce students to the questions about logic that these disciplines raise, their methods for investigating these questions, and applications these disciplines may find for logic. Symbolic Logic is the foundational course, prerequisite for the current three advanced-level courses. Students must take this course prior to declaring the Minor in Logic. Each of the three disciplines is represented by an advanced-level course:

Foundational Course

This course must be taken before students are able to sign up for the Minor

CSCI 27500 - Symbolic Logic

Sentential logic including symbolizations, truth-value tables, formal derivations. Predicate logic including symbolizations, interpretations, and formal derivations.

cross-listed MATH 27500, PHILO 27500

3 hrs
3 cr.
Logic in the disciplines of Mathematics, Philosophy, & Computer Science

CSCI 37100 - Advanced Symbolic Logic

A survey of the central results and techniques of meta-logic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem theorem and Church's theorem on undecidability.

cross-listed PHIL 37500
prereq: PHIL 27500 or CSCI 27500 or MATH 27500
3 hrs
3 cr.

CSCI 37700 - Non-classical Logic

Logic is the systematic and precise study of reasoning—a topic of particular interest to mathematicians and computer scientists as well as philosophers. Philosophers have often functioned as the research and development wing of this collaboration, thinking up and formalizing new logical techniques and systems designed to solve problems that can't be solved by traditional (a.k.a. "classical") logic. This course will be an introduction to some of these non-classical logics, their philosophical motivations, and some of their applications.

cross-listed PHIL 37700, MATH 37700
prereq: PHIL 27500 or MATH 27500 or CSCI 27500
3 hrs
3 cr.

CSCI 37200 - Logic and Computers

This course introduces students to logic and its applications to modeling both computer and real-world systems. Topics include various logics and their applications to modeling systems and reasoning for artificial intelligence, along with proof systems and tools for automated or semi-automated reasoning in these logics.

cross-listed MATH 37200 / PHIL 37200
prereq: CSCI 15000 -or- PHIL/CSCI/MATH 27500
3 hrs
3 cr.

No more than 6 crs. that count towards the minor may be used to fulfill the major in Philosophy.

Total credits required 12

Minor in Philosophy (the Standard concentration)

Prerequisite to the minor: one of 4 introductory philosophy courses

Chose one:

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) - I&S H
Examination of basic philosophical questions through study of selected philosophical classics.

3 hrs
3 cr.
offered each semester

**PHILO 10400 - Introduction to Ethics and Moral Judgment**

**Hunter Core**
Individual and Society (Humanities) - I&S H

**GER**

2/C

An introduction to theories of ethical reasoning and problems of moral judgment. Different theories of the good life and concepts of rightful conduct, especially regarding one's personal life and contemporary social problems, will be considered.

3 hrs
3 cr.
offered each semester

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**
Individual and Society (Social Science) - I&S SS

**Pluralism and Diversity**
PD/D

**GER**

2/C

Introduction to social and political philosophy.

3 hrs
3 cr.
offered each semester

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)

**GER**

1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

**prereq:** successful completion of developmental courses, if required

3 hrs + conf
3 cr.

Standard Philosophy Minor
The philosophy minor requires 12 credits at the 200-level and above with no fewer than 3 credits at the 300-level. Exceptions: PHILO 17000 may count toward the minor at the 200-level and PHILO 20400 shall not count.

Minimum GPA for the minor

A student must pass a minor in philosophy with a minimum GPA of 3.00.

Note:

Students should always consult with a philosophy department adviser when constructing their minor. Some suggested tracks may be found on the philosophy department website http://www.hunter.cuny.edu/philosophy.

Minor in Philosophy, Politics and Society

A student must take, as a prerequisite to the minor, PHILO 10600. This course does not count toward the PPS minor. The PPS minor consists in taking 4 courses or 12 credits from the philosophy courses listed in the PPS major, at least one of which must be at the 300-level. Non-philosophy courses counting toward the PPS major concentration may not count toward the PPS minor. A student must pass the PPS minor with a minimum GPA of 3.00. Note: When constructing a minor in the PPS concentration, a student should always consult with a philosophy department advisor beforehand.

Minors in Philosophy

- Minor in Philosophy (the Standard concentration)
- Minor in Philosophy, Politics and Society
- Minor in Political Theory
- Minor in Logic

Philosophy: Introductory Courses

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

Examination of basic philosophical questions through study of selected philosophical classics.

3 hrs
3 cr.
offered each semester
PHILO 10400 - Introduction to Ethics and Moral Judgment

**Hunter Core**  
Individual and Society (Humanities) - I&S H  
GER  
2/C

An introduction to theories of ethical reasoning and problems of moral judgment. Different theories of the good life and concepts of rightful conduct, especially regarding one's personal life and contemporary social problems, will be considered.

3 hrs  
3 cr.  
offered each semester

PHILO 10600 - Philosophy, Politics and Society

**Hunter Core**  
Individual and Society (Social Science) - I&S SS  
**Pluralism and Diversity**  
PD/D  
GER  
2/C

Introduction to social and political philosophy.

3 hrs  
3 cr.  
offered each semester

PHILO 17000 - Introduction to Logic and Scientific Method

**Hunter Core**  
Scientific World

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

3 hrs.  
3 cr.

Philosophy Courses: Aesthetics, Ethics, Politics and Society

PHILO 24400 - Moral Philosophy (W)

**GER**  
3/A

Study of selected problems in philosophical ethics and moral psychology.  
prereq: ENGL 12000 and one previous course in philosophy.  
3 hrs  
3 cr.
PHILO 24600 - Political Philosophy (W)

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

PHILO 24800 - International Ethics (W)

GER
3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

PHILO 25200 - Problems of Law and Morality

GER
3/B

Philosophy of law and the relation of legal to ethical issues.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

PHILO 25400 - Ethical Issues in Biology and Medical Care (W)

GER
3/B

Treats issues such as abortion, euthanasia, extraordinary means, confidentiality, human experimentation, genetic control and allocation of limited life-saving therapy.

*prereq: ENGL 12000*
PHILO 25500 - Environmental Philosophy (W)

**Hunter Core**
Individual and Society (Social Sciences) I&S SS
Conceptual, ethical, and methodological issues pertaining to the environment and environmental sciences.

_prereq:_ ENGL 12000

3 hrs
3 cr.

PHILO 25600 - Philosophy and Literature (W)

**Hunter Core**
Creative Expression (CE)
GER 3/A

Analysis of major philosophical themes in some classics of world literature.
_prereq:_ ENGL 12000

3 hrs
3 cr.

PHILO 25800 - Aesthetics (W)

GER 3/A

Study of philosophical issues that arise in our understanding and criticism of the arts. Topics include nature of expression, purpose and standards of criticism and aesthetic value.
_prereq:_ ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PHILO 34400 - Contemporary Theories in Ethics (W)

GER 3/A

A study of important theories in contemporary ethics, such as rule utilitarianism, intuitionism, prescriptivism, and constructivism.
_prereq:_ 2 courses in philosophy, 1 at the 200-level.

3 hrs
3 cr.

PHILO 34600 - Contemporary Theories of Justice (W)

GER 3/B
A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr

PHILO 34700 - Critical Philosophy of Race (W)

Pluralism and Diversity
PD/B
Recent work in philosophy on the topic of race in relation to its validity as a concept, relation to science, and relevance for ethics and political philosophy.

prereq: ENGL 12000 plus two courses in philosophy, one of which must be at the 200-level.
3 hrs
3 cr.

PHILO 34800 - Philosophy of Human Rights (W)

A study of the philosophical foundations and justifications of human rights, including core notions of freedom and dignity in cross-cultural context, their scope as civil-political and economic-social rights, and newer women's and environmental rights.

prereq: ENGL 12000, and either a) two courses in philosophy, with at least one at the 200-level, or b) a course in political theory and one course in philosophy at the 200-level.
3 hrs
3 cr.

Philosophy Courses: History of Philosophy

PHILO 21200 - Classical Greek Philosophy: Plato and Aristotle (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major works of Plato and Aristotle in the context of the philosophical thought of the ancient world.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 21400 - Medieval Philosophy (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major writings by medieval Arabic, Christian and Jewish philosophers such as Averroes, Aquinas and Maimonides.

prereq: ENGL 12000 and one previous course in philosophy.
PHILO 21500 - Foundations of Modern Philosophy (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major philosophers of the 17th and early 18th centuries such as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

PHILO 21900 - Chinese Philosophy (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
3/A

Readings from the classics of Chinese philosophy found in Confucian, Taoist and Buddhist traditions.

*prereq: ENGL 12000*

3 hrs
3 cr.

PHILO 22100 - Indian Philosophy (W)

Pluralism and Diversity
PD/A
GER
3/A

Readings from classics of Indian philosophy, drawn from the Vedic, Buddhist and IndoTibetan traditions.

*prereq: ENGL 12000*

3 hrs
3 cr.

PHILO 22300 - Neoplatonism (W)

Pluralism and Diversity
PD/D
GER
3/A

A study of the main thinkers and ideas in ancient and medieval Neoplatonism, emphasizing Plotinus and Augustine.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 22500 - American Philosophy (W)

Pluralism and Diversity
PD/D
GER
3/A

Historical survey of major American philosophers such as Edwards, Emerson, Thoreau, Peirce, James, Royce, Santayana and Dewey.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 22600 - African-American Philosophy (W)

Hunter Core
US Experience in its Diversity (USED)
Pluralism and Diversity
PD/B
GER
3/A

Development of the African-American intellectual tradition. Study of the work of such figures as Equiano, Douglass, Cooper, Blyden, Du Bois and Hurston.
prereq: ENGL 12000
3 hrs
3 cr.

PHILO 22800 - Existentialism (W)

Pluralism and Diversity
PD/D
GER
3/A

Philosophical and literary writings of major existentialists. Topics include nature of subjectivity, moral value, freedom, authenticity.
prereq: ENGL 12000
3 hrs
3 cr.

PHILO 23000 - Feminist Philosophy (W)

Pluralism and Diversity
PD/C
GER
3/A
Survey of major ideas in feminist philosophy and their practical implications.  
cross-listed WGST 23000 (W)  
prereq: ENGL 12000  
3 hrs  
3 cr.

**PHILO 31800 - Revolutions in Modern Philosophy (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A  

Study of major philosophers of the late 18th and 19th centuries such as Kant, Hegel, Schopenhauer, Feuerbach, Kierkegaard, Marx and Nietzsche.  

prereq: ENGL 12000 and two previous courses in philosophy  
3 hrs  
3 cr.

**PHILO 31900 - Marxist and Critical Theory (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A  

Study of 20th-century philosophers, such as Lucás, Adorno, and Marcuse, who attempted to develop a theory of historical materialism or a critical theory of society, as well as the sources of their ideas in the work of Marx, Weber, and Freud.  

prereq: ENGL 12000 and 2 courses in philosophy, 1 at the 200-level  
3 hrs  
3 cr.

**PHILO 32000 - Twentieth-Century Philosophy (W)**

**GER**  
3/A  

Survey of such movements as pragmatism, process philosophy, analytic philosophy, existentialism, phenomenology, feminism and post modernism through consideration of such representative figures as Dewey, Moore, Whitehead, Russell, Husserl, Heidegger, Wittgenstein, Ayer, Sartre, De Beauvoir, Quine, Rorty and Rawls.  

prereq: Two courses in philosophy, at least one of which is at the 200 level.  
3 hrs  
3 cr.

**Philosophy Courses: Logic**

**PHILO 27500 - Symbolic Logic**
GER
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.
cross-listed MATH 27500
3 hrs
3 cr.

PHILO 37200 - Logic and Computers

This course introduces students to logic and its applications to modeling both computer and real-world systems. Topics include various logics and their applications to modeling systems and reasoning for artificial intelligence, along with proof systems and tools for automated or semi-automated reasoning in these logics.
cross-listed CSCI 37200/MATH 37200
prereq: CSCI 15000 OR PHILO/CSCI/MATH 27500
3 hrs
3 cr.

PHILO 37500 - Advanced Symbolic Logic

GER
3/B

A survey of the central results and techniques of meta-logic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem theorem and Church's theorem on undecidability.
prereq: PHIL 27500 or equiv.
3 hrs
3 cr.

PHILO 37700 - Non-classical Logic

Logic is the systematic and precise study of reasoning—a topic of particular interest to mathematicians and computer scientists as well as philosophers. Philosophers have often functioned as the research and development wing of this collaboration, thinking up and formalizing new logical techniques and systems designed to solve problems that can't be solved by traditional (a.k.a. "classical") logic. This course will be an introduction to some of these non-classical logics, their philosophical motivations, and some of their applications.
cross-listed MATH 37700, CSCI 37700
prereq: PHILO 27500 or MATH 27500 or CSCI 27500
3 hrs
3 cr.

Philosophy Courses: Major Philosophers

PHILO 37300 - Philosophy of History

This course is designed to introduce students to what philosophers have had to say about history—both in terms of its meaning, if any, and of how to explain and narrate historical events. We will survey the major theories about the philosophy of history, the problems with the concept of historical explanation and interpretation, as well as a variety of
major philosophers' attempts to solve these problems. We will also consider how history relates to cognate disciplines in the sciences, social sciences, and humanities.

*prereq: Two courses in philosophy, at least one of which is at the 200 level*
3 hrs
3 cr.

**PHILO 38000 - Major Figures in Philosophy (W)**

**GER**
3A

Intensive study of the works and legacy of a major philosopher. The course may be repeated as different figures are offered. Figures include:
PHILO 38010 Plato (W)
PHILO 38011 Aristotle (W)
PHILO 38020 Plotinus (W)
PHILO 38063 Hume (W)
PHILO 38068 Kant (W)
PHILO 38070 Hegel (W)
PHILO 38076 Marx (W)
PHILO 38078 Nietzsche (W)
PHILO 38080 Wittgenstein (W)
PHILO 38083 Heidegger (W)
PHILO 38086 Foucault (W)

*prereq: Two courses in philosophy, at least one of which is at the 200 level.*
3 hrs
3 cr.

**PHILO 38010 - Plato (W)**

**GER**
3A

Intensive study of the works and legacy of Plato.

*prereq: Two courses in philosophy, at least one of which is at the 200 level.*
3 hrs
3 cr.

**PHILO 38011 - Aristotle (W)**

**GER**
3A

Intensive study of the works and legacy of Aristotle.

*prereq: Two courses in philosophy, at least one of which is at the 200 level.*
3 hrs
3 cr.

**PHILO 38020 - Plotinus (W)**
Intensive study of the works and legacy of Plotinus.

**prereq:** Two courses in philosophy, at least one of which is at the 200 level.

3 hrs

3 cr.

**PHILO 38063 - Hume (W)**

Intensive study of the works and legacy of Hume.

**prereq:** Two courses in philosophy, at least one of which is at the 200 level.

3 hrs

3 cr.

**PHILO 38068 - Kant (W)**

Intensive study of the works and legacy of Kant.

**prereq:** Two courses in philosophy, at least one of which is at the 200 level.

3 hrs

3 cr.

**PHILO 38070 - Hegel (W)**

Intensive study of the works of Hegel.

**prereq:** Two courses in philosophy, at least one of which is at the 200 level.

3 hrs

3 cr.

**PHILO 38076 - Marx (W)**

Intensive study of the works and legacy of Marx (W)

**prereq:** Two courses in philosophy, at least one of which is at the 200 level

3 hrs

3 cr.

**PHILO 38078 - Nietzsche (W)**
GER
3A

Intensive study of the works and legacy of Nietzsche.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 38080 - Wittgenstein (W)

GER
3A

Intensive study of the works and legacy of Wittgenstein.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 38083 - Heidegger (W)

GER
3A

Intensive study of the works and legacy of Heidegger.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 38086 - Foucault (W)

GER
3A

Intensive study of the works and legacy of Foucault.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

Philosophy Courses: Metaphysics and Epistemology

PHILO 26200 - Philosophy of Religion (W)

GER
3/A

Philosophical examination of some religious questions and beliefs.
prereq: one course in philosophy or religion (see statement under Program Prerequisites)
3 hrs
3 cr.

PHILO 26600 - Knowledge and Reality (W)
An introduction to central concepts and issues in 20th Century and contemporary metaphysics and epistemology. 

\textit{prereq: ENGL 12000 and one previous course in philosophy.}

3 hrs
3 cr.

**PHILO 26800 - Mind, Language and Cognition (W)**

**GER**

3/B

An introduction to central concepts and issues in contemporary philosophies of mind, language, psychology, and cognitive science.

\textit{prereq: ENGL 12000 and one previous course in philosophy.}

3 hrs
3 cr.

**PHILO 27000 - Philosophy, Science and Culture (W)**

**Hunter Core**

Scientific World (SW)

**GER**

3/B

Issues relating to the impact of modern science on philosophy, religion and culture.

\textit{prereq: ENGL 12000}

3 hrs
3 cr.

**PHILO 36000 - Metaphysics (W)**

**GER**

3/A

Study of major metaphysical views, such as materialism, idealism, nominalism and realism. The major question is: What is reality and how may it be known?

\textit{prereq: Two courses in philosophy, at least one of which is at the 200 level.}

3 hrs
3 cr.

**PHILO 36200 - Theory of Knowledge (W)**

**GER**

3/A

Study of origin, structure, methods and foundations of human knowledge.

\textit{prereq: Two courses in philosophy, at least one of which is at the 200 level.}
PHILO 36300 - Feminist and Social Epistemologies (W)

Pluralism and Diversity
PD/C
Recent work in feminist epistemology and social epistemology including philosophy of science.
prereq: ENGL 12000 plus two courses in philosophy, one of which must be at the 200-level
3 hrs
3 cr.

PHILO 36400 - Philosophy of Language (W)

GER
3/A

Inquiry into the philosophical significance of language, its structure, meaning, reference and use.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 36600 - Philosophy of Mind (W)

GER
3/A

Examination of the concept of mind and the person. Topics include thinking, intention, consciousness, supervenience, emotion, self-knowledge.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 37600 - Philosophy of Mathematics (W)

GER
3/B

Study of such issues as the nature of demonstration or proof and the nature of mathematical knowledge and mathematical objects such as numbers and sets. cross-listed with MATH 376.
prereq: ENGL 12000; one PHIL course and one PHIL or MATH course (precalculus or beyond)
3 hrs
3 cr.

PHILO 37800 - Philosophy of Biology (W)

Philosophical problems of biology, including evolutionary biology, molecular biology and genetics, and neuroscience.
prereq: ENGL 12000 and 2 courses in philosophy, at least one at the 200-level
3 hrs
3 cr.
PHILO 37900 - Philosophy of Science (W)

GER
3/B

Study of foundations of knowledge in natural and social sciences.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

Philosophy: Special Courses

PHILO 20000 - Topics in Philosophy

GER
3/A

Topics discussed vary from semester to semester.
prereq: variable (see Program Prerequisites)
3 hrs
3 cr.

PHILO 39300 - Philosophical Systems

GER
3/A

Study of writings of one or two major philosophers.
prereq: variable (see Program Prerequisites)
3 hrs
3 cr.

PHILO 39400 - Philosophical Problems

GER
3/A

Study of one or more major philosophical problems.
prereq: variable (see Program Prerequisites)
3 hrs
3 cr.

PHILO 49200 - Independent Study in Philosophy

Independent study of philosophical works under faculty supervision.
prereq: one PHILO course at 300-level, perm instr. (see Program Prerequisites)
1-6 cr.

PHILO 49400 - Honors Tutorial in Philosophy
Open to Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Successful completion is one requirement for departmental honors at graduation.

prereq: 3.0 cum GPA and 3.50 major GPA; philosophy majors only, minor with perm instr; two 300-level PHIL courses, one of which may be taken concurrently; perm dept.
3 or 6 cr.

PHILO 49800 - Internship

Open to Jr/Sr only. Philosophically relevant internship.

prereq: philosophy major, minor with perm dept adviser; 2.5 cum GPA and 3.0 major GPA (see Program Prerequisites)
1-6 cr.

Programs and Courses in Physics & Astronomy

Physics and Astronomy

Overview

Physics is the study of the basic interactions that govern the behavior of the universe as we know it. As such, a knowledge of physics is necessary for the proper understanding of any science, and, of course, it is an exciting field of study in its own right. The primary mission of the Department of Physics and Astronomy is to provide an outstanding education for our students. Our curriculum serves undergraduate liberal arts students who seek, by the study of physics, to acquire critical thinking skills and develop the understanding and problem-solving abilities which are increasingly needed in our technological society. Undergraduate science majors pursue courses of study such as pre-medicine and computer science, in which a sound foundation in physics is essential to further advancement. The major includes lecture courses, laboratory courses, and a chance for qualified students to participate in research with faculty members.

What can I do with my degree in Physics?

The department offers comprehensive training in physics that can lead to industrial, institutional and government work; graduate study, and a teaching position in grades 7-12

Physics for Non-Physics Majors

A minimum of one year of physics is recommended for all majors in sciences and health sciences.

Medical and dental schools also require one year of physics. Students requiring one year of physics may take either the PHYS 11000 (STEM)-PHYS 12000 (STEM) sequence (9 cr) or the PHYS 11100 (STEM)-PHYS 12100 (STEM) sequence (11 cr). Although both sequences cover the same topics, PHYS 11100 (STEM)-PHYS 12100 (STEM) utilizes elementary calculus and meets for one additional lecture hour each week. It is recommended for science students and those premed students who satisfy the mathematics prerequisite. PHYS 10100 (4 cr) should be taken only by those who want a one semester terminal course in physics; it does not satisfy pre-professional requirements. Students should take no more than one first-semester course (PHYS 10100, PHYS 11000 (STEM), PHYS 11100 (STEM)) and no more than one second-semester course (PHYS 12000 (STEM), PHYS 12100 (STEM)) since they may receive credit for no more than one course from each group.

Undergraduate Major

Degree Map for Physics Option 2

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Physics major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog)
and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall

• CHEM 10200 (STEM) - General Chemistry I
• MATH 15000 (STEM) - Calculus with Analytic Geometry I
• ENGL 12000 - Expository Writing
• PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Spring

• MATH 15500 (STEM) - Calculus with Analytic Geometry II
• CHEM 10400 (STEM) - General Chemistry II
• CHEM 10600 (STEM) - General Chemistry Laboratory
• PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Sophomore Year

Fall

• ENGL 22000 - Introduction to Writing about Literature (W)
• BIOL 10000 (STEM) Principles of Biology I
• MATH 25000 - Calculus with Analytic Geometry III
• PHYS 33000 - Atomic and Nuclear Physics

Spring

• BIOL 10200 (STEM) Principles of Biology II
• PHYS 33400 - Intermediate Electricity and Magnetism
• Foreign Language Elementary Level 1
• US Experience in Its Diversity

Junior Year
Fall

- Foreign Language Elementary Level 2
- Individual and Society/ Social Sciences
- CHEM 22000 Organic Chemistry Lecture I
- PHYS 33600 Thermodynamics and Statistical Mechanics

Spring

- Foreign Language Intermediate Level 3
- Individual and Society/ Humanities
- BIOL 20300 Molecular Biology and Genetics
- PHYS 42000 Introduction to Biophysics

Senior Year

Fall

- Foreign Language Intermediate Level 4
- Creative Expression
- BIOL 30000 Biological Chemistry
- ELECTIVE

Spring

- World Cultures & Global Issues
- ELECTIVE
- ELECTIVE
- ELECTIVE (If needed)

Notes:

- For students who place below MATH 150, please note the following Math sequence: MATH 101 – MATH 12550 – MATH 150. If you start MATH 125 Precalculus, the degree map is shifted by one semester and still allows for completion of the major in 4 years.

Physics - BA

One of the following 2 options (concentrations) may be taken.

- Physics Option 1 (53-72 credits)
- Physics - Option 2 (65-81 credits)

Graduate Study
The Department of Physics and Astronomy offers a number of advanced courses, listed in the graduate catalog, which give credit toward the degree of master of arts. Qualified undergraduate students may be admitted to these courses with the approval of the department chair.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Honors Work

The opportunity for students to do individual research (experimental or theoretical) is offered in courses

**PHYS 45300 - Introduction to Research**

Independent theoretical or experimental research or independent study of approved topic.

*prereq: PHYS 33000, 33400, 33500, and 42700 or perm chair*

1-3 cr.

**PHYS 45400 - Introduction to Research**

Independent theoretical or experimental research or independent study of approved topic.

*prereq: PHYS 45300 or perm chair*

1 to 3 cr.

Articulation Agreement

Articulation Agreement with New York City College of Technology

An agreement is in place for students from New York City College of Technology (CUNY) who successfully complete an associate degree in science in Liberal Arts (LAS) with at least a 2.0 overall grade-point average to be accepted into the Hunter College BA program in Physics. Consult the physics and astronomy department for further information.

Physics - Option 2 (65-81 credits)

Return to Programs and Courses in Physics & Astronomy

The Biophysics concentration) is recommended for students planning to pursue graduate studies and industrial R&D in biological related areas in physics, chemistry, bioengineering, and material sciences. This concentration is designed to allow the students to gain a solid foundation in physics and biology, together with a specially-designed course in biophysics which demonstrates the disciplinary interface between the two. The concentration requirements consist of courses in physics (27 cr), mathematics (5-22 cr), chemistry (15 cr) and biology (18 cr).

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose
courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Physics major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 11100 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
<tr>
<td>PHYS 12100 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (65-81 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Courses in Physics (27 credits)

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.  
*prereq or coreq: coreq (with perm dept.): MATH 15000  
8 hrs (4 lec, 3 lab, 1 rec)  
5.5 cr.*

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.  
*prereq: PHYS 11000 or 11100  
prereq or coreq: (with perm dept.): MATH 15500  
8 hrs (4 lec, 3 lab, 1 rec)  
5.5 cr.*

**PHYS 33000 - Atomic and Nuclear Physics**
Examines experimental evidence and develops modern view of structure of atom and nucleus.

\textit{prereq: PHYS 12000 or 12100}
\textit{prereq or coreq: MATH 25000}
4 hrs
4 cr.

**PHYS 33400 - Intermediate Electricity and Magnetism**

Electrostatics, currents, magnetism, and introduction to electromagnetic theory of light.

\textit{prereq: PHYS 12000 or 12100}
\textit{prereq or coreq: MATH 25000}
4 hrs
4 cr.

**PHYS 33600 - Thermodynamics and Statistical Mechanics**

Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.

\textit{prereq: PHYS 12000 or 12100; MATH 25000}
4 hrs
4 cr.

**PHYS 42000 - Introduction to Biophysics**

A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of macromolecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.

\textit{prereq or coreq: PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600.}
4 hrs
4 cr.

Courses in Mathematics (5-22 credits)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

\textit{prereq: appropriate score on placement exam or exit from appropriate departmental workshop}
4 hrs (2 lec, 2 lab)
3 cr.

**MATH 101EN - Algebra for College Students - Enhanced**

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100.

\textit{prereq: Department Permission}
MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

**prereq:** MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

MATH 12400 (STEM) - College Algebra and Trigonometry

**Hunter Core**

Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH 12500 for grade replacement purposes.

**prereq:** MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.

Not open to students who have taken MATH 12500 or MATH 12550.

MATH 12500 (STEM) - Precalculus

**Hunter Core**

Math/Quantitative Reasoning

GER

1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes.
The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**prereq:** grade of C or better in MATH 15000

4 hrs
4 cr.

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

**prereq:** MATH 15000

**prereq or coreq:** MATH 15500
MATH 25000 - Calculus III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500, MATH 15600

4 hrs
4 cr.

Courses in Chemistry (15 credits)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.

*prereq:* CHEM 10200
*coreq:* CHEM 10400
6 hrs
3 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**
**GER 3/B**

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*prereq:* CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**Courses in Biology (18 credits)**

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq:* CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

BIOL 30000 - Biological Chemistry

GER
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

*These courses may be counted for credit in more than one program.

Degree Map for Physics Option 2

Degree Map for Physics Option 2

Physics Option 1 (53-72 credits)

Return to Programs and Courses in Physics & Astronomy
For students in the BA/MA program, students intending to teach grades 7-12, and students intending to enter the medical profession.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

5 hrs (4 hrs lecture, 1 hr recitation)
4 cr.

AND

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

*prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.*

2 hrs
1 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.*

4 hrs
4 cr.

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000*

4 hrs
4 cr.

**B. Introductory Physics: Two Semesters (11 credits)**

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
**GER**
2/E
For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

**prereq or coreq: coreq (with perm dept.): MATH 15000**

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)

GER

2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

**prereq: PHYS 11000 or 11100**

**prereq or coreq: (with perm dept.): MATH 15500**

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

C. 22- to 24-credit concentration in physics courses at the 200 level and higher:

**PHYS 22100 - Electronics**

**GER**

3/B

**prereq: PHYS 12000 or PHYS 12100**

4 hrs

4 cr.

**PHYS 33000 - Atomic and Nuclear Physics**

Examines experimental evidence and develops modern view of structure of atom and nucleus.

**prereq: PHYS 12000 or 12100**

**prereq or coreq: MATH 25000**

4 hrs

4 cr.

**PHYS 33400 - Intermediate Electricity and Magnetism**

Electrostatics, currents, magnetism, and introduction to electromagnetic theory of light.

**prereq: PHYS 12000 or 12100**

**prereq or coreq: MATH 25000**

4 hrs

4 cr.
PHYS 33500 - Intermediate Mechanics

Study of laws of motion and coordinate systems; introduction to powerful analytical techniques.

prereq: PHYS 12000 or 12100
prereq or coreq: MATH 25000

4 hrs
4 cr.

Any Three of the following 5 courses:

PHYS 22200 - Electronics Laboratory

GER
3/B

Experiments are performed with passive devices (capacitors, inductors, resistors) and active devices (diodes, transistors). A variety of transistor amplifier and oscillator circuits are studied as well as integrated circuit applications.

prereq: PHYS 22100

4 hrs
2 cr.

PHYS 23000 - Classical Physics Laboratory

GER
3/B

Selected experiments of mechanics, electricity/magnetism, and thermodynamics. Experiments may include driven oscillator resonance, coupled oscillators, liquid nitrogen heat of vaporization, Fourier analysis/filtering, ferromagnetic hysteresis, and the nonlinear pendulum period. Elementary error analysis techniques and computer software for data analysis/graphing.

prereq: PHYS 12000 or 12100

4 hrs
2 cr.

PHYS 23500 - Modern Physics Laboratory

GER
3/B

Selected experiments of quantum physics and optics. Experiments may include nuclear half-life, microwave diffraction, Bragg scattering of x-rays, nuclear multichannel scintillation, Franck-Hertz quantum levels, Millikan oil drop. Error analysis techniques including Gauss and Poisson distributions and correlation of data. Programming for data analysis.

prereq: PHYS 12000 or 12100

4 hrs
2 cr.

PHYS 38500 - Numerical Methods I

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations. Cross-listed as MATH 38500 and CSCI 38500 so that students in the mathematics and computer science departments can use the course toward the completion of their major requirements.
PHYS 48500 - Numerical Methods II

Topics in numerical methods selected from solutions of linear equations, interpolating functions, root finding methods, nonlinear equations, Fourier series and the fast Fourier transform, partial differential equations. A major term project will be assigned. Cross-listed as MATH 48500 and CSCI 48500 so that students in the mathematics and computer science departments can use the course toward the completion of their major requirements.

Prereq: PHYS 38500

D. Required Math & Chemistry courses (20 credits)

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

Prereq: MATH 15000
Prereq or Coreq: MATH 15500

MATH 25000 - Calculus III

GER

3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

Prereq: MATH 15500, MATH 15600

MATH 25400 - Ordinary Differential Equations

GER

3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

Prereq: MATH 25000

CHEM 10200 (STEM) - General Chemistry I

Hunter Core

Scientific World (SW); Life and Physical Sciences (LPS)
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER 2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200 coreq: CHEM 10400
6 hrs
3 cr.

* These courses may be counted for credit in more than one program.

NOTE: The chemistry courses may be substituted by one year of high-school-level chemistry. Together, the introductory physics (11 credits) and the Option 1 22-24 credit concentration in physics satisfy the major requirement for initial certification as a teacher of physics in grades 7-12. Option 1, together with the MA (see the Physics - BA/MA ), is recommended for students planning to pursue a PhD in physics.

Preparation for Teaching

The Option 1 major in physics satisfies the requirements for NY State initial certification of at least 30 credits for teachers in adolescent education: physics (grades 7-12). Students planning to become physics teachers at the secondary level should take the 23 credit sequence in secondary education. Students preparing to teach physics are advised to include the following courses or their equivalents in their undergraduate program:

ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises
An introductory, one-semester astronomy course designed for non-science majors. Topics include: basic observational features of the night sky, and their explanations; Kepler's laws of planetary motion; Newton's laws of motion and gravitation. Properties of light, and how it reveals the nature of its source. Origin, properties, and evolution of our solar system. The origin and evolution of stars, including giants, dwarfs, supernovae, neutron stars, and black holes. Structure of The Milky Way and other type of galaxies. Cosmology, Hubble's Law and the expanding universe, from the Big Bang to the present; future scenarios.
The lab consists of traditional hardware experiments and virtual online experiments. Students taking this course will be required to submit online and hard-copy laboratory reports.
5 hrs
4 cr.

**GEOL 10000 - Introduction to Geology**

**Hunter Core**
Scientific World (SW)
**GER**
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.
3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

**BIOI 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**Pluralism and Diversity**
P/C or D
**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
Spring only
Degree Map for Physics Option 1

**Undergraduate Major/Graduate Major**

**Physics - BA/MA**

This special program for a limited number of well qualified students leads to a bachelor of arts and a master of arts degree. Students are offered the opportunity to quickly reach a level where they are competitive for admission into any doctoral program in physics. The program requires 83-100 credits (including the 53-72 credits required for a physics BA major and 30 credits from the MA in Physics). Because this program requires a large number of physics courses, many of which have other physics courses as prerequisites, students in this program should begin taking physics courses in their first or second semester. Students should consult with the department chair, undergraduate adviser or graduate adviser for details as early as possible.

Physics Option 1 (53-72 credits)

Physics MA

**Undergraduate Minor**

**Minor in Physics**

A minor in Physics consists of a minimum of 12 credits of PHYS courses, including two courses numbered above 200 or one course numbered above 300. Students who wish to enroll in the Physics Minor must have completed:

- MATH 15000 -and- MATH 15500.

The prerequisites for the 300-level courses include MATH 25000 and/or MATH 25400.

**Astronomy**

**ASTRO 10000 - Basic Concepts in Astronomy**

**Hunter Core**
Scientific World (SW)
**GER**
2/E

This is an introductory, one-semester astronomy course designed for non-science majors. The approach in this course is to emphasize the ideas of Astronomy and a qualitative understanding of the physical processes that shape the Universe.

3 hrs.
3 cr.
**ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises**

**GER**
2/E with lab

An introductory, one-semester astronomy course designed for non-science majors. Topics include: basic observational features of the night sky, and their explanations; Kepler's laws of planetary motion; Newton's laws of motion and gravitation. Properties of light, and how it reveals the nature of its source. Origin, properties, and evolution of our solar system. The origin and evolution of stars, including giants, dwarfs, supernovae, neutron stars, and black holes. Structure of The Milky Way and other type of galaxies. Cosmology, Hubble's Law and the expanding universe, from the Big Bang to the present; future scenarios. The lab consists of traditional hardware experiments and virtual online experiments. Students taking this course will be required to submit online and hard-copy laboratory reports.

*5 hrs*

*4 cr.*

**ASTRO 10200 - Laboratory Explorations in Astronomy**

**Hunter Core**
Life and Physical Sciences (LPS)

**GER**
2/E

This is an introductory, one-semester astronomy course designed for non-science majors. The approach in this course is to emphasize the ideas of Astronomy and a qualitative understanding of the physical processes that shape the Universe via laboratory exercises. Each laboratory exercise is self-contained and accompanied with an introduction discussing the fundamental physical principle and methods used.

*prereq or coreq: ASTRO 10000*

*3 hrs*

*3 cr.*

**ASTRO 10300 - Laboratory Explorations in Astronomy**

This is an introductory, one-semester astronomy course designed for non-science majors. The approach in this course is to emphasize the ideas of Astronomy and a qualitative understanding of the physical processes that shape the Universe via laboratory exercises. Each laboratory exercise is self-contained and accompanied with an introduction discussing the fundamental physical principle and methods used.

*prereq: ASTRO 10000*

*3 hr.*

*3 cr.*

**ASTRO 10700 - Laboratory Exercises in Astronomy**

**GER**
2/E

Classroom and online experimental laboratory exercises in astronomy to observe the major features of the night sky, demonstrate the physical basis of astronomical instruments, and experiment with astronomical phenomena. Only offered to students who have previously taken ASTRO 100 which is no longer offered [ASTRO 100 + ASTRO 107 are replaced by ASTRO 10100].

*prereq or coreq: ASTRO 10000*
Astronomy: Courses Less Frequently Offered

ASTRO 18100 - Astronomy of the Solar System

ASTRO 18200 - Stellar Astronomy

Physics

PHYS 10000 - Basic Concepts of Physics

Hunter Core
Scientific World (SW)
GER
2/E

This is an introductory, one-semester physics course designed for non-science majors. It minimizes the use of mathematics, beyond simple addition, multiplication, subtraction and division. The course will meet three hours per week in lecture. The contents are the lecture material of the existing PHYS 101 LC course. Topics include: Newton's laws of motion, linear motion and falling objects, momentum, energy, rotational motion, gravity, atomic structure, liquids, gases, heat, vibrations and waves, sound, electrostatics, electric current, magnetism, electromagnetic induction, light, color, reflection and refraction, an introduction to quantum mechanics, and radioactivity. This course is a co-requisite or pre-requisite of PHYS 10100, which consists of traditional lab experiments and guided problem-solving sessions, that are closely correlated with the lecture material covered in this course.

PHYS 10100 - Basic Concepts of Physics with Laboratory Exercises

Hunter Core
Life and Physical Sciences (LPS)
GER
2/E

Introductory one-semester physics lab-based course designed for non-science majors. The course emphasizes the basic concepts of physics, and a qualitative understanding of physics in everyday life.

prereq or coreq: PHYS 10000

3 hrs
3 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E
First semester of two-semester introductory physics course using algebra.

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

**PHYS 19000 - Tutorial in Mathematical Physics**

Applications of differential and integral calculus to selected topics chosen from the major subfields of physics. Completion of this course and its prerequisites is equivalent to completion of the calculus-based general physics sequence, PHYS 11100 and 12100.

**prereq: MATH 15500, PHYS 12000**
3 hrs (2 lec, 1 rec)
2 cr.

PHYS 20400 - Electrical Circuits and Laboratory

GER
3/B

Passive electrical circuits and computer-based data acquisition and analysis, including basic circuit laws, methods of circuit analysis, circuit theorems, operational amplifiers, capacitors and inductors, sinusoids and phasors, sinusoidal steady state analysis, frequency response, and test and measurement instruments, virtual instruments, and data acquisition software.

prereq: PHYS 12100
prereq or coreq: MATH 25400
5 hrs (3 lec, 2 lab)
4 cr.

PHYS 22100 - Electronics

GER
3/B

prereq: PHYS 12000 or PHYS 12100
4 hrs
4 cr.

PHYS 22200 - Electronics Laboratory

GER
3/B

Experiments are performed with passive devices (capacitors, inductors, resistors) and active devices (diodes, transistors). A variety of transistor amplifier and oscillator circuits are studied as well as integrated circuit applications.

prereq: PHYS 22100
4 hrs
2 cr.

PHYS 23000 - Classical Physics Laboratory

GER
3/B

Selected experiments of mechanics, electricity/magnetism, and thermodynamics. Experiments may include driven oscillator resonance, coupled oscillators, liquid nitrogen heat of vaporization, Fourier analysis/filtering, ferromagnetic hysteresis, and the nonlinear pendulum period. Elementary error analysis techniques and computer software for data analysis/graphing.

prereq: PHYS 12000 or 12100
4 hrs
2 cr.
PHYS 23500 - Modern Physics Laboratory

GER
3/B

Selected experiments of quantum physics and optics. Experiments may include nuclear half-life, microwave diffraction, Bragg scattering of x-rays, nuclear multichannel scintillation, Franck-Hertz quantum levels, Millikan oil drop. Error analysis techniques including Gauss and Poisson distributions and correlation of data. Programming for data analysis.

prereq: PHYS 12000 or 12100
4 hrs
2 cr.

PHYS 30100 - Theoretical Physics

Analysis of mathematical techniques for solving partial differential equations occurring in physics. Cross-listed as MATH 301.

prereq: MATH 25400
4 hrs
4 cr.

PHYS 31100 - Introduction to Fluid Mechanics

This course covers the basic principles of fluid mechanics include statics, forces on plane and curve surfaces, kinematics of fluid motion, integral and differential representation of conservation of mass, linear momentum, the first Law of Thermodynamics, Bernoulli's equation, dimensional analysis, and elementary viscous flow. Frictional losses in laminar flow and simple pipe flow analysis are covered. Understanding of the physical phenomena is stressed and vector notation is introduced and used whenever suitable.

cross-listed PGEOG 31100
prereq: PHYS 12100 or PHYS 12000 and MATH 15500

3 hrs
3 cr.

PHYS 33000 - Atomic and Nuclear Physics

Examines experimental evidence and develops modern view of structure of atom and nucleus.

prereq: PHYS 12000 or 12100
prereq or coreq: MATH 25000
4 hrs
4 cr.

PHYS 33400 - Intermediate Electricity and Magnetism

Electrostatics, currents, magnetism, and introduction to electromagnetic theory of light.

prereq: PHYS 12000 or 12100
prereq or coreq: MATH 25000
4 hrs
4 cr.

PHYS 33500 - Intermediate Mechanics
Study of laws of motion and coordinate systems; introduction to powerful analytical techniques.

**prereq:** PHYS 12000 or 12100

**prereq or coreq:** MATH 25000

4 hrs

4 cr.

**PHYS 33600 - Thermodynamics and Statistical Mechanics**

Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.

**prereq:** PHYS 12000 or 12100; MATH 25000

4 hrs

4 cr.

**PHYS 34200 - Optics**

Study of lenses, mirrors, interference, diffraction, and polarization, as well as lasers, holography, and Fourier optics.

**prereq:** PHYS 12000 or 12100; MATH 25000

3 hrs

3 cr.

**PHYS 38500 - Numerical Methods I**

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations. Cross-listed as MATH 38500 and CSCI 38500 so that students in the mathematics and computer science departments can use the course toward the completion of their major requirements.

**prereq:** MATH 25400

3 hrs

3 cr.

**PHYS 39900 - Senior Thesis (W)**

This course is to prepare the students for graduate research. Each student will undertake a research experience, experimental, theoretical, and/or computational, under the supervision of a department faculty member. A final oral as well as written report will be required. The goals are that the student learns research skills in physics, written and oral communication skills, while furthering their knowledge in a topical area in physics.

**prereq:** PHYS 11100, 12100

**prereq or coreq:** ENGL 12000, and at least four 200-, 300-, or 400-level physics courses

3 cr.

**PHYS 41100 - Theoretical Mechanics**

Classical mechanics of particles and rigid bodies; special relativity; Hamilton's formulation; Liouville's theorem.

**prereq:** PHYS 33500

**prereq or coreq:** MATH 25400

3 hrs

3 cr.

**PHYS 41500 - Electromagnetic Theory**
Electrostatics; vector analysis, electrostatics, electric fields in matter, magnetostatics, magnetic fields in matter, electrodynamics based on Maxwell equations, and conservation laws.

**prereq:** PHYS 33400 or PHYS 12100 with permission

**prereq or coreq:** MATH 25400

3 hrs
3 cr.

**PHYS 41600 - Electromagnetic Theory II**

Electromagnetic waves, guided waves, potential and fields, radiation, electrodynamics and relativity.

**prereq:** PHYS 41500

3 hrs
3 cr.

**PHYS 42000 - Introduction to Biophysics**

A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of macromolecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.

**prereq or coreq:** PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600.

4 hrs
4 cr.

**PHYS 42400 - Plasma Physics**

Motion of charged particles in external magnetic and electrical field; fusion using tokamaks, mirrors, and lasers.

**prereq:** PHYS 33400

3 hrs
3 cr.

**PHYS 42500 - Quantum Theory**

From Bohr model and DeBroglie waves to Schrodinger wave equation; solutions for simple cases; transformations.

**prereq:** PHYS 33000.

**prereq or coreq:** MATH 25400

3 hrs
3 cr.

**PHYS 42700 - Intermediate Physics Laboratory**

Study of modern experimental techniques in variety of fields.

**prereq:** PHYS 23500

4 hrs
2 cr.

**PHYS 42800 - Photonics and Laboratory**

Theoretical principles and practical training of selected subjects of modern optics and lasers.

**prereq:** PHYS 33000, PHYS 22200 or 22400

**coreq:** PHYS 41600 or PHYS 33400
4 hrs
2 cr.

PHYS 44500 - Solid State Physics

Energy levels in atoms, molecules, and solids; crystal structure; properties of solids; semiconducting devices.
prereq: PHYS 33000
3 hrs
3 cr.

PHYS 45300 - Introduction to Research

Independent theoretical or experimental research or independent study of approved topic.
prereq: PHYS 33000, 33400, 33500, and 42700 or perm chair
1-3 cr.

PHYS 45400 - Introduction to Research

Independent theoretical or experimental research or independent study of approved topic.
prereq: PHYS 45300 or perm chair
1 to 3 cr.

PHYS 48500 - Numerical Methods II

Topics in numerical methods selected from solutions of linear equations, interpolating functions, root finding methods, nonlinear equations, Fourier series and the fast Fourier transform, partial differential equations. A major term project will be assigned. Cross-listed as MATH 48500 and CSCI 48500 so that students in the mathematics and computer science departments can use the course toward the completion of their major requirements.
cross-listed CSCI 48500 and MATH 48500
prereq: PHYS 38500
3 hrs
3 cr.

Physics: Courses Less Frequently Offered

PHYS 24000 - Physics of Biological Systems

GER
3/B

PHYS 24500 - Computer Applications in Physical Sciences

GER
3/B

PHYS 28000 - Astrophysics

GER
3/B
Programs and Courses in Political Science

Political Science

Overview

Political science deals with the various political, social, economic, and cultural arrangements through which people govern their lives. It attempts to interpret the past and explain the present, and often dares to draw images of the future. As a field of study, it covers several fields, from the evolution of political philosophy and the implications of contemporary political concepts to the problems of development in emerging nations, from the performance American government at the local, state, and national levels to the interaction of peoples and states in the international arena. In short, the discipline ranges across broad and diverse areas of inquiry.

Many people think of politics in terms of what governments do, but political science also covers much else. Students will find courses on the ideas of great thinkers from Plato to the present, the problems of cities, war and peace, democratic and authoritarian political systems, international political economy, human rights, women and politics, political parties and forms of political participation that include interest groups and social movements, constitutional and international law, public policies such as immigration, the domestic and foreign policies of the United States and other countries, and the political systems of various regions around the world including the Middle East, Latin America, Africa, and Asia.

What can I do with my degree in Political Science?

Some political science majors choose to enter public service upon completing their bachelor's degrees, working for government agencies or nonprofit organizations. Other popular careers have included teaching, business, and journalism. Still other graduates enter politics. Many pursue law school – more political science majors attend law school than majors from any other department at the college – or some other kind of graduate training. Graduates have earned advanced degrees in international affairs, public policy, public administration, journalism, social work, and other fields. In sum, political science prepares students for a variety of career opportunities as well as for a lifetime of active citizenship.

Undergraduate Major

Degree Map for Political Science

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Political Science major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.
prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.
• Math & Quantitative Reasoning
• Foreign Language - Elementary Level I
• Individual and Society/ Social Sciences

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

*prereq: ENGL 12000 (or equivalent)*
*prereq or coreq: ENGL 12000 or its equivalent*
3 hrs
3 cr.

**Spring**

**ENGL 22000 - Introduction to Writing about Literature (W)**

**Hunter Core**
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

*prereq: ENGL 12000*
3 hrs + one additional conference hour
3 cr.
• POLSC 100 level or 200 level course

Notes

- Majors are required to take at least one course in each of the four following subfields of the discipline: American Government, Political Theory, Comparative Politics, and International Relations.
- Students may distribute their remaining courses in the major as they see fit. However, students contemplating graduate work are encouraged to specialize appropriately in consultation with the department's faculty members.
- No more than two introductory (100-level) courses can be applied toward the major. Majors must complete at least three 300-level courses (from any subfields).
- No more than 6 credits in internship, independent study, and experiential courses (such as Model United Nations) may be used to satisfy the 30 credits in the major. Also, such credits may not be used to satisfy the distribution requirements in the four fields. Courses taken for Credit/No Credit may not be applied toward the major.
- POLSC 491, 492, and 493 are only for Political Science majors, with a 3.5 GPA in the major, who elect to complete the POLSC Honors Thesis.

Political Science - BA

Hunter Core Requirement

Several courses within this major fulfill parts of the Hunter Core Requirement (CUNY Common Core, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path of the major. Details of the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of political science, the courses that meet CCC are:

**POLSC 10000 - Introduction to Politics: Democracy, Anarchy and the State (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)
GER
2/B

Introduction to some of the major questions, approaches, and texts of political science. Students will explore questions of power, coercion, virtue, democracy, conflict, and cooperation and read Plato, Aristotle, Weber, Lipset, Waltz, and Jervis, among others. Does not satisfy the major's four subfield distribution requirement.

*prereq or coreq: ENGL 12000 or its equivalent*
3 hrs
3 cr.

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its
enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 11500 - Introduction to International Politics (W)

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Diplomacy, power, war, peace, terrorism, nationalism, imperialism, the UN, structures and processes of world politics.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)

GER
2/B or 3/B

An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.

prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 25000 - Comparing Countries (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

Examination of the core concepts, theories, and issues in the field of comparative relations. Topics include: Comparative analysis of democracies and democratization, revolution, and ethnicity and ethnic conflict. Cases will be
drawn from Africa, Asia, Western Europe, the Americas, Eastern Europe, and the Middle East.

*prereq: ENGL 12000 or equivalent
3 hrs
3 cr.

**POLSC 27000 - International Relations: Conceptual Foundations and Current Issues (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**GER**
3/B

Examines the conceptual foundations of international relations and their application to current issues. Topics include: anarchy, power, war and peace, international cooperation, the role of the state and non-state actors, international institutions, norms and human rights, and the global economy.

Students may not take both POLSC 11500 and POLSC 27000 at Hunter College for credit. (Transfer students may receive only 100-level credit for a course equivalent for POLSC 11500 after spring 2010, when POLSC 27000 becomes the prerequisite for most advanced courses in international relations.)

*prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.*

Please note that no more than two courses from any one department will count for the CUNY Common Core.

**Courses Required for the Major (30 credits)**

Majors are required to take 30 credits in Political Science, at least one course in each of the four following subfields of the discipline:

- American Government
- Political Theory
- Comparative Politics
- International Relations

POLSC 29400 courses may not be used to satisfy the 4-subfield requirements.

Majors must complete at least three 300-level courses (from any subfields).

No more than 6 credits in internship, independent study, and/or experiential courses (such as Model United Nations) may be used to satisfy the 30 credits in the major. Also, such credits may not be used to satisfy the distribution requirements in the four fields. Courses taken for Credit/No Credit may not be applied toward the major.

**Interdepartmental Fields**

Political Science department faculty are actively involved in many interdisciplinary programs at Hunter College. Students who want to do work in political science as part of the following interdepartmental programs should refer to the appropriate programs in this catalog.

- Minor in Asian American Studies
- Human Rights
- Jewish Studies - BA
Honors

To complete the requirements for departmental honors in Political Science at graduation, students must have at least 30 credits in Political Science and be eligible for graduation in the semester that they formally complete department honors. At least 21 of these credits (or in exceptional cases, 18) must be taken in the Political Science Department at Hunter College. In the case of transfer students, the student's faculty supervisor must recommend an exception to this policy; however, in no case should a student who has taken fewer than 15 credits in academic coursework (excluding internships or other experiential education courses) in political science at Hunter College be recommended for departmental honors.

In addition, students must 1) have a GPA in the major of not less than 3.5; 2) complete two supervision-based courses (POLSC 49100 and POLSC 49200), which focus on the inception and completion of the honors thesis, respectively; and 3) complete POLSC 49300.

The thesis should be a major paper of approximately 25 pages in length that reflects serious scholarship in an honors course. Students should enroll in POLSC 49200 under the supervision of a faculty member with whom the student has done prior coursework and who has agreed to supervise the student's honors project. Students seeking to graduate with departmental honors should begin to plan the sequence of honors work at least two semesters in advance of their expected graduation date.

Approval for Honors will come from the Supervisor. Once students have received the approval of the Sponsor, the thesis can be submitted for departmental honors. Successful completion of departmental honors includes a formal presentation of the thesis to the Honors Committee. Final papers must be deposited in the department office.

Pi Sigma Alpha

Students interested in joining this honor society should consult with Professor Leonard Feldman, 1702 Hunter West, (212)396-6246, lfeldman@hunter.cuny.edu.

Writing Corequisite and Prerequisites

Introductory, intermediate and advanced political science courses require significant expository writing and ENGL 12000 as a co- or prerequisite. To assure that students are ready for these courses, they should be enrolled in ENGL 12000 (or its equivalent) or have successfully completed the course. For all 100-level courses, ENGL 12000 (or its equivalent) is a prerequisite or co-requisite; for all 200-level, 300-level and 400-level courses, ENGL 12000 (or its equivalent) is a prerequisite.

Seminar/Internship Program in New York Government

This university-wide program is designed to bridge the gap between academic study and the practical world of government. Each year approximately 300 students are selected as CUNY interns. Hunter College students participate by enrolling in POLSC 22200/22300. Interns spend eight to ten hours a week in agencies, political offices or community groups working on administrative or research assignments related to urban affairs and services.

They attend a weekly classroom seminar at Hunter and monthly meetings of the entire program at the CUNY Graduate School. Prominent government officials, political leaders, community representatives and academic experts participate in both the weekly and monthly meetings. Students are advised to have taken prior coursework in American politics.
and to have at least a 3.0 GPA prior to being admitted to this program. For further information, consult the Department of Political Science.

**Other Internships**

Students may wish to consider internships in any field of political science, and receive credit through POLSC 29801-29806. The department does not offer internship credits to students in their first semester at Hunter College or to students who have never taken a political science course at Hunter. Up to 6 credits in internship work (POLSC 29801-29806) may be used to satisfy requirements for the major. As a general rule, a student who takes POLSC 29801-29806 must be supervised by a full-time faculty member with whom the student has done prior coursework and who has agreed to supervise the student’s internship. Additional internship credits may be used as electives toward graduation.

**Preparation for Graduate Study**

Many political science majors go on to graduate study. Students considering graduate work should consult members of the political science faculty.

**Awards and Prizes**

The Political Science Department confers recognition on its outstanding graduates through prizes and awards. The Katherine E. Duffy Award, E. Dawson Prize and the David Haight Memorial Prize are presented annually to graduating political science majors.

**Scholarships**

The Political Science Department may award the Joan Pincus Scholarship to students majoring in political science who have achieved at least sophomore status, have an excellent academic record and have demonstrated financial need. For additional information, see the department chair or a departmental adviser.

**Degree Map**

Degree Map for Political Science

**Undergraduate Minor**

**Minor in International Relations**

The International Relations (IR) minor is an inter-disciplinary course of study that allows students to examine international relations from different perspectives within a liberal arts curriculum. The International Relations minor introduces students to the major themes in IR: IR theories and approaches, peace and security, international political economy, foreign policy, and international norms and institutions.

**Requirements**
• 15 credit minor—Students are required to complete at least one course from Group A and at least one course from two of the other four categories (Groups B-E).
• Students can take no more than three courses from one department.
• Students may not use more than one 100-level course towards completion of the IR minor.
• Students must complete at least one 300-level course to fulfill the requirements of the IR minor.
• No more than two courses from the student's major can be applied toward the IR minor.

A. IR Theories and Approaches

These courses teach students the skills necessary to think and write clearly about IR.

**ECO 20000 - Principles of Microeconomics**

**GER**
2/B

Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets. May be taken prior to or concurrently with ECO 20100.

*prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000
3 hrs
3 cr.*

**ECO 20100 - Principles of Macroeconomics**

**GER**
2/B

May be taken prior to or concurrently with ECO 20000. Covers the fundamental principles and analytical tools of macroeconomics, with applications in economic growth; business cycles, inflation, unemployment, and monetary and fiscal policy. May be taken prior to or concurrently with ECO 20000.

*prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000
3 hrs
3 cr.*

**GEOG 24400 - Political Geography**

**GER**
3/B

Political geography concerns the nature and consequences of human efforts to divide and control Earth. Major topics to be covered by this course include the origin and evolution of countries and their constituent political units; the defining and drawing of political boundaries; territorial conflicts and disputes; the impact of boundaries on personal and cultural identity; centripetal and centrifugal forces that encourage the success or failure of political units; jurisprudence, crime and punishment; electoral geography; war, piracy and terrorism; ownership of ocean floors and outer space; the
environmental impacts of political power (zoning, incorporation, height restrictions, land tenure); and symbols of power in the landscape. Lectures and assignments will stress the relevancy of political geography to issues that affect our everyday life.

*prereq:* GEOG 10100 or GEOG 15000 or perm instr

3 hrs

3 cr.

**POLSC 11500 - Introduction to International Politics (W)**

**Hunter Core**

World Cultures and Global Issues (WCGI)

**GER**

2/B

Diplomacy, power, war, peace, terrorism, nationalism, imperialism, the UN, structures and processes of world politics.

*prereq or coreq:* ENGL 12000

3 hrs

3 cr.

**POLSC 27000 - International Relations: Conceptual Foundations and Current Issues (W)**

**Hunter Core**

World Culture and Global Issues (WCGI)

**GER**

3/B

Examines the conceptual foundations of international relations and their application to current issues. Topics include: anarchy, power, war and peace, international cooperation, the role of the state and non-state actors, international institutions, norms and human rights, and the global economy.

Students may not take both POLSC 11500 and POLSC 27000 at Hunter College for credit. (Transfer students may receive only 100-level credit for a course equivalent for POLSC 11500 after spring 2010, when POLSC 27000 becomes the prerequisite for most advanced courses in international relations.)

*prereq:* ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 37700 - Theories of International Politics (W)**

**GER**

3/B

An examination of the central concepts and issues in international politics that underpin the main theoretical debates in the field.

*prereq:* POLSC 11500 or 27000 or 27500 or 28200 or perm. instr.

*coreq:* ENGL 12000 or its equivalent

3 hrs

3 cr.
B. Foreign Policy and Analysis

These courses emphasize the foreign policies of countries or regions and research design and methods in IR.

**POLSC 20600 - Research Design in Political Science (W)**

**GER**
3/B

Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.
prereq: passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 27600 - Global Issues (W)**

**GER**
3/B

Examination of current global issues using traditional and critical international relations perspectives. Topics vary each semester: population growth, food insecurity, human trafficking, the future of the euro, immigration challenges in Europe, climate change, resource shortages, global poverty, shared values, and other issues.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 27400 - American Foreign Policy (W)**

**GER**
3/B

Broad overview of the sources, processes, institutions, traditional tenets, current challenges, and aims of American foreign policy.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 37800 - Russian National Interest: Past and Present (W)**

**Pluralism and Diversity**
**PD/D**
**GER**
3/B

In a contemporary, historical and comparative context, this course explores the factors influencing debates on and definitions of Russia's national interests, the strategies for promoting those interests and the implications for Russia and the international system.
prereq: ENGL 12000 or equiv; POLSC 11500 or POLSC 11700 or perm instr.
3 hrs
3 cr.
POLSC 38400 - Comparative Foreign Policy (W)

An analysis of why states have different foreign policies and the sources of those differences. Various factors such as power, political culture, religion, regime type, history, economic and state development, and individuals will be explored.

prereq: POLSC 11500 or POLSC 27000 or POLSC 28200
4 hrs.
4 cr.

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.
prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500
3hr lecture or 2hr lecture/1 hr discussion
3 cr.

POLSC 27100 - International Politics in the Americas (W)

Pluralism and Diversity
PD/A
GER
3/B

Dynamics of US relations with Latin American countries from the colonial era through the Cold War to the present, and of relations of Latin American countries with each other and with extra-hemispheric nations.
cross-listed LACS 43432
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.
• HIST 34115 - History of US-Latin American Relations

C. International Norms and Institutions

These courses teach students how global cooperation has been achieved through the creation of international law, international norms, and international institutions.

POLSC 27800 - International Organizations (W)

GER
3/B

Powers, functions and effectiveness of international institutions; emphasis on United Nations and regional organizations.
prereq: ENGL 12000 or its equivalent
POLSC 28100 - Drugs, Politics and Public Policy (W)

GER
3/B

Examination of public policies addressing drug use and abuse in the United States and other countries with emphasis on political and cultural determinants, economic and market factors, constitutional implications and United States foreign policy.

prereq: ENGL 12000
3 hrs
3 cr.

POLSC 37400 - International Human Rights (W)

GER
3/B

An examination of the origins, substance and processes of human rights in international relations.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 37500 - International Law (W)

GER
3/B

Theory of and case studies on the nature, sources, practices and efficacy of international law, principles and rules.

prereq: ENGL 12000 and POLSC 11500 or POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282
3 hrs
3 cr.

POLSC 38300 - Rising Powers, China, the U.S. and World Order (W)

GER
3/B

An examination of global power shifts and their consequences for international competition and order. Draws on theoretical insights to explain patterns in historical and contemporary cases, including the current rise of China and other "BRICS" countries.

prereq: ENGL 12000 (or equivalent), and (POLSC 11500 or POLSC 27500 or POLSC 27000 or POLSC 28200)
4 hrs
4 cr.

GEOG 33500 - International Pollution Issues
A study of international trans-boundary pollution and the science, source terms, transport pathways and international impacts of contamination events. The regional focus will change yearly pending current global environmental events.

*prereq: GEOG 101 or GEOL 101 or PGEO 130 or perm instr.*

3 hrs
3 cr.

**PGEOG 36100 - Global Climatic Change**

 GER 3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

*prereq: PGEO 13000 or GEOL 10100 or 10500*

3 hrs
3 cr.

**D. International Political Economy**

These courses emphasize international trade, finance, and development.

**POLSC 27500 - Politics of the Global Economy (W)**

 GER 3/B

Introduction to International Political Economy (IPE). Examines the dynamic interaction between politics and economics across national borders, including the politics of trade, development, finance, varieties of capitalism, globalization and environmental protection. Not open to students who have taken POLSC 37600.

*prereq: ENGL 12000 or its equivalent*

3 hrs
3 cr.

**POLSC 37600 - International Political Economy (W)**

 GER 3/B

Examination of the intersection of politics and economics at the international level through a careful reading and analysis of dominant theoretical approaches and their application to central debates concerning the politics of trade, money and finance, development and globalization.

*prereq: POLSC 11500 or 27000 or 27500; minimum of 45 credits and 9 credits in political science or permission of the instructor*

*coreq: ENGL 12000 or its equivalent*
4 hrs  
4 cr.

GEOG 37000 - Geography of Sustainable Development in Developing Countries

Pluralism and Diversity  
PD/A  
GER  
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.  
prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.  
3 hrs  
3 cr.

ECO 33000 - Economic Development

Pluralism and Diversity  
PD/A  
GER  
3/B

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.  
prereq: ECO 20000  
3 hrs  
3 cr.

ECO 34000 - International Trade

GER  
3/B

Theories of international trade and international trade policies.  
prereq: ECO 20000  
3 hrs  
3 cr.

ECO 34100 - International Finance

GER  
3/B

Theories of exchange-rate determination and open-economy macroeconomic theory and policy.  
prereq: ECO 20100  
3 hrs  
3 cr.
SOC 36100 - Development and Globalization (W)

Pluralism and Diversity
PD/A
GER
3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

prereq: SOC 10100
3 hrs
3 cr.

POLSC 38600 - Politics of Finance

Examines the ways in which the global financial system operates and intersects world politics. Topics include: financial firms as political actors, income inequality, financial regulation, financial crises, the politics of foreign direct investment, the politics of monetary policy, and the politics of exchange rates.

prereq or coreq: ENGL 12000 and any POLSC course
4 hrs
4 cr.

SOC 30700 - Migration

Pluralism and Diversity
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.

prereq: SOC 10100
3 hrs
3 cr.

SOC 31100 - Population Dynamics

GER
3/B

Comparative analysis of fertility, mortality, migration trends, and related social factors.

prereq: SOC 10100
3 hrs
3 cr.

E. International Peace and Security

These courses focus on peace, security, conflict, violence, war, and terrorism.
POLSC 28200 - International Security (W)

GER
3/B

An introduction to basic concepts and problems in the area of international security, this course will explore explanations for some of the central causes of security/insecurity and peace/war, as well as examine select contemporary security issues.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 28300 - Terrorism (W)

GER
3/B

The course will explore the types, causes, and strategies of terrorism as well as the effectiveness and civil liberty implications of counterterrorism strategies. Both contemporary and historical terrorist groups will be considered.

Not open to students who have completed POLSC 27353.

prereq or coreq: ENGL 12000 or the equivalent
3 hrs
3 cr.

POLSC 37900 - War and Strategy (W)

GER
3/B

An examination of strategy and wars between states, within states, and between states and transnational groups. Focuses on how strategy affects the avoidance, outbreak, conduct, and consequences of war and the difficulty of devising strategies that successfully link political ends and military means.

prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor
coreq: ENGL 12000 or the equivalent
4 hrs
4 cr.

POLSC 38000 - European Security (W)

Pluralism and Diversity
PD/D
GER
3/B

A theoretically informed examination of current and historical security problems in Europe, with a focus on the sources of war and peace, strategic calculations, alliances, institutions, democratization, norms, and ideological and identity conflicts. A principal aim is to establish a foundation for analyzing the prospects for a secure order in Europe in the first part of the 21st century.
prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor
coreq: ENGL 12000 or its equivalent
4 hrs
4 cr.

POLSC 38200 - Causes of War (W)

GER
3/B

An analysis of the causes of war and peace for both civil and interstate wars including especially the role of bargaining, but also the roles alliances, arms races, rivalries, and institutions.

prereq or coreq: ENGL 12000 or the equivalent; POLSC 27000 or POLSC 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor.
4 hrs
4 cr.

POLSC 38500 - The Nuclear Age: Nuclear Weapons, War and Peace

An analysis of how nuclear weapons have influenced international politics and military strategies, why states seek or forego nuclear weapons programs, the policies designed for nuclear nonproliferation, and the risks of nuclear crises, escalation, entanglement with conventional forces, and nuclear terrorism.

prereq: Prereq: ENGL 12000 and POLSC 11500 or POLSC 28200 or POLSC 27000 or POLSC 27500 or any 300-level Political Science course in the International Relations subfield of Political Science
4 hrs
4 cr.

Minor in Legal Studies

The Legal Studies minor is an interdisciplinary course of study that allows students to examine the role and development of law from different perspectives within a liberal arts curriculum. Legal studies students will be introduced to the study of judicial opinions, theories of law and legal interpretation, the structure and role of legal institutions, and the operation of law in history and everyday life. Law is a central feature of political, social, and economic life. The legal studies minor will prepare students embarking on careers in government, business, or the non-profit sector to think broadly and critically about the nature of law. It will also be extremely helpful for any students planning to pursue graduate study focusing on law or legal institutions, in a wide variety of disciplines. The legal studies program places an emphasis on developing students’ communication skills, interdisciplinary scholarship and a commitment to connect undergraduate education to advanced career opportunities. The core of the legal studies minor, though, is a commitment to the study of law within the liberal arts tradition. While there are many ways for students to prepare successfully for law school, an advantage of the legal studies minor is its ability to help the college identify students planning to apply to law school, to ensure that these students receive guidance on the application process as early as possible, and to give them a solid foundation when they enter law school.

Program Requirements (15 credits)

Students are required to complete at least one course from within each of the three categories below. Students can take no more than three courses from one department. No more than two courses from the student's major can be applied
toward the Legal Studies minor. Courses used to fulfill the Legal Studies minor may be used to meet any other degree requirements, including the political science major. Students should be aware that courses listed for this minor may have prerequisites within their home departments.

 Foundations of Legal Studies

These courses teach students foundational knowledge and skills that are important for thinking and writing clearly about law.

 PHIL 10600 - Philosophy, Politics and Society

**Hunter Core**
Individual and Society (Social Science) - I&S SS

**Pluralism and Diversity**
PD/D

**GER**
2/C

Introduction to social and political philosophy.

* 3 hrs
* 3 cr.

offered each semester

 PHIL 17000 - Introduction to Logic and Scientific Method

**Hunter Core**
Scientific World

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

* 3 hrs
* 3 cr.

 POLS 11000 - American Government: A Historical Introduction (W)

**Hunter Core**
Flexible Core: US Experience in its Diversity

**GER**
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLS 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLS 11100. Students cannot use credit for both POLS 11000 and POLS 11100 to fulfill graduation requirements or major requirements.

*prereq or coreq: ENGL 12000 or its equivalent
Legal Institutions and Legal Processes

These courses emphasize the “law on the ground.” They tend to present a more external analysis of the role and operation of legal institutions, actors, and norms.

- ANTHC 32075 Law and Anthropology

**ASIAN 39002 - Asian American Civil Rights and the Law**

**Pluralism and Diversity**  
PD/B  
Critical examination of major immigration and civil rights laws and Supreme Court cases that have affected Asian Americans.

3 hrs  
3 cr.

**HIST 36400 - American Constitutional History, 1783 to 1900**

**Pluralism and Diversity**  
PD/D  
GER  
3/B  

Development of constitutional thought from the framing of the Articles of Confederation to 1900. Courses at the 300-level and above not offered to freshmen.

3 hrs  
3 cr.

**MEDIA 39400 - Mass Communications and the Law**

**GER**  
3/A  

Relationship of mass media to significant constitutional problems.  
*prereq: MEDIA 18000*  
3 hrs  
3 cr.

**POLSC 21900 - Women and the Law (W)**

**Pluralism and Diversity**  
PD/C  
GER  
3/B  

Overview of how local, state and federal laws treat people on the basis of sex.  
*cross-listed* WGSP 21900
POLSC 23800 - The American Legal System (W)

GER
3/B

Civil and criminal law, common law and equity, substantive and procedural law. Emphasis on federal and New York law.

POLSC 24000 - The American Judiciary (W)

GER
3/B

The Supreme Court and other federal courts as part of policy-making process in American government.

POLSC 30300 - Democracy and Emergency (W)

GER
3/B

This seminar in political theory examines the issue of emergency powers in constitutional democracies. It will examine various attempts to define what is an emergency, as well as the spirited debates over the legitimacy of extraordinary powers to manage such crises.

POLSC 31000 - Comparative Legal Systems (W)

GER
3/B

Comparative study of major legal traditions of the modern world, including common law, civil law, Soviet, Islamic, Chinese, tribal and hybrid systems.

POLSC 34300 - Criminal Law (W)
Constitutional problems and judicial decisions regarding search and seizure, right to counsel, self incrimination.  
**prereq:** POLSC 11000 or 11100 or 23800  
3 hrs  
3 cr.

**POLSC 37500 - International Law (W)**

Theory of and case studies on the nature, sources, practices and efficacy of international law, principles and rules.  
**prereq:** ENGL 12000 and POLSC 11500 or POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282  
3 hrs  
3 cr.

**SOC 31900 - Criminology**

Criminal behavior, arrest, and punishment. Problems of definition, administration of criminal justice.  
**prereq:** SOC 10100  
3 hrs  
3 cr.

**SOC 32000 - Law, Society and Civil Rights**

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.  
**prereq:** SOC 10100  
3 hrs  
3 cr.

**The Theory and Practice of Legal Interpretation**

These courses emphasize the “law on the books,” the way relative insiders, like legal theorists and judges, talk about the content of law. Courses in this category introduce students to judicial opinions as well as normative theories about the way law should be interpreted.

**ACC 23000 - Essentials of Business Law**

An introductory business law survey course designed specifically for non-majors to allow them to gain an understanding of basic legal concepts and terminology and the role of law in the business environment. It will specifically focus on the legal issues often encountered in business, including contract law, property law, negotiable
instruments, secured transactions and bankruptcy, business entities. For non-accounting majors only.

*prereq: none (cannot be used towards Accounting Major)*

3 hrs
3 cr.

**ACC 28000 - Business Law I**

Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code.

*prereq: sophomore standing or perm chair*

3 hrs
3 cr.

**ECO 37000 - Law and Economics**

*GER*

3/B

Analytical tools of microeconomics are used to examine various aspects of the law, including property, contracts, torts, liability, and criminal and family law.

*prereq: ECO 20000*

3 hrs
3 cr.

**HEBR 29500 - Ancient Hebrew Law**

*Hunter Core*

World Cultures and Global Issues (WCGI)

*Pluralism and Diversity*

PD/A

*GER*

2/C

Historical and comparative study of Biblical and rabbinic law.

3 hrs
3 cr

**MEDIA 36500 - Digital Copyright**

*GER*

3/A

An introduction to the legal, economic and social principles at stake in the debate over copyright and digital technologies. The semester begins with an introduction to the basics of copyright law, the legal system, and legal research. Students then review some of the specifics of the digital copyright debate, including topics such as peer-to-peer trading, digital rights management, and third party liability for information service providers.

*prereq: MEDIA 18000*

3 hrs
3 cr.

**PHILO 25200 - Problems of Law and Morality**
Philosophy of law and the relation of legal to ethical issues.
*prereq: ENGL 12000 and one previous course in philosophy.*
3 hrs
3 cr.

**PHILO 34600 - Contemporary Theories of Justice (W)**

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr.

**POLSC 34000 - Constitutional Law: Organizing the Government (W)**

Constitutional problems and Supreme Court decisions. Federalism, judicial review, separation of powers, foreign policy.
*prereq: POLSC 11000 or 11100 or 23800*
3 hrs
3 cr.

**POLSC 34100 - Constitutional Law: Civil Rights (W)**

Constitutional problems and Supreme Court decisions regarding race and sex discrimination.
*prereq: POLSC 11000 or 11100 or 23800*
3 hrs
3 cr.

**POLSC 34200 - Constitutional Law: The First Amendment (W)**

Constitutional problems and Supreme Court decisions regarding freedom of speech, press (media), religion and assembly.
*prereq: POLSC 11000 or 11100 or 23800*
3 hrs
3 cr.
Minor in Political Science

Students minoring in political science must complete 12 credits in political science. No more than three credits can be at the 100-level. No more than three credits in independent study (POLSC 29001-29003) can be used to satisfy the minor. Internship credits may not be applied toward the minor. The minor in Political Science is designed to provide students with solid grounding in political science and to encourage them to develop depth in the discipline in an area that will complement their major or develop expertise in an area of particular interest to them. The minor in Political Science allows students considerable flexibility in designing a minor that will best serve their academic goals. Students may, for instance, wish to focus on courses dealing with European politics and foreign policy to complement a major in a European language and culture. Students may concentrate their courses in one field of political science, or spread them across several fields. Students may consult an advisor in the Department of Political Science about their goals as they choose courses to satisfy the minor.

Minor in Political Theory

The Political Theory Minor provides a concentration of study for students interested in political, social, and legal philosophy or thought, often related to public discourses, practices, and laws. It recognizes the interdisciplinary character of political theory, which operates at the intersection of the humanities and social sciences. It focuses on critical issues of ethics and power in history and the present, along with major authors in the traditions of political philosophy and thought.

The minor program consists of at least 15 credits taken from the courses listed below, or others as approved by the minor program advisor. Students must take at least 6 credits in philosophy and 6 credits in political science, including PHILO 10600 (or another 100-level PHILO course, with permission of the Advisor) and POLSC 20000. At least 3 credits must be taken at the 300-level, and one course must be taken from each of the three Minor categories (listed below). No more than six credits that count towards the student's major may be used to fulfill this Minor.

1. Required Courses

PHILO 10600 - Philosophy, Politics and Society

Hunter Core
Individual and Society (Social Science) - I&S SS
Pluralism and Diversity
PD/D
GER
2/C

Introduction to social and political philosophy.
3 hrs
3 cr.
offered each semester

POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)

Hunter Core
Individual and Society (Social Sciences) - I&S SS
GER
2/B or 3/B
An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.

 prerequisites or corequisites: ENGL 12000 or its equivalent
3 hrs
3 cr.

2. Current Courses That Count Towards the Political Theory Minor

Minor courses are to be selected from the following list of regularly taught courses or special topics courses in Philosophy or Political Science that pertain to the Minor but are irregularly taught (those interested in the latter should check with the advisor to verify that they may count toward the minor). In addition, one course, with significant theoretical content, offered in, e.g., Anthropology, Classics, Geography, History, Religion, or Sociology, may count toward the Minor, upon approval of the Political Theory Adviser.

History of Political Philosophy and Thought

One Course on figures in, or periods of, political theory, eg., courses in the PHILO 38000 Major Figures in Philosophy (W) topic series:

PHILO 38010 - Plato (W)

GER
3A

Intensive study of the works and legacy of Plato.

 prerequisites: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

- or -

PHILO 38011 - Aristotle (W)

GER
3A

Intensive study of the works and legacy of Aristotle.

 prerequisites: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

- or -

PHILO 38070 - Hegel (W)

GER
3A

Intensive study of the works of Hegel.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

-or-

PHILO 38076 - Marx (W)

GER
3A

Intensive study of the works and legacy of Marx (W)

prereq: Two courses in philosophy, at least one of which is at the 200 level
3 hrs
3 cr.

-or-

PHILO 38086 - Foucault (W)

GER
3A

Intensive study of the works and legacy of Foucault.
prereq: Two courses in philosophy, at least one of which is at the 200 level
3 hrs
3 cr.

-or-

POLSC 20100 - Ancient to Early Modern Political Thought (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected writers from the ancient Greeks to the Renaissance (e.g., Plato to Machiavelli), focusing on the political dimensions of such ideas as rationality, virtue, community, human nature and historical change.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

-or-

POLSC 20200 - Modern Political Thought (1600-1900) (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected political writers (e.g., Hobbes to Nietzsche), with special emphasis given to the nature of and problems with, liberty, equality and justice in modern societies and states.
prereq: ENGL 12000 or its equivalent
POLSC 20300 - Political Thought Since 1900 (W)

Pluralism and Diversity
PD/D
GER
3/B

Exploration of concepts and thinkers in political theory since 1900. Topics include such traditional issues of political theory as the nature and scope of political regimes, justice, equality and changing concepts of human nature.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20900 - Women and Gender in Western Political Thought (W)

Pluralism and Diversity
PD/C or D
GER
3/B

Examines history of political thought from the perspective of gender relations and the treatment of women.

cross-listed WGST 20900

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 30100 - American Political Thought (W)

GER
3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political inclusion and democracy.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm. instr.
3 hrs
3 cr.

Note: For more information on the topic series course click here: PHILO 38000 Major Figures in Philosophy (W)

Basic Concepts and Themes

One course on theoretical or conceptual tendencies in political theory

PHILO 22600 - African-American Philosophy (W)
Hunter Core
US Experience in its Diversity (USED)

Pluralism and Diversity
PD/B
GER
3/A

Development of the African-American intellectual tradition. Study of the work of such figures as Equiano, Douglass, Cooper, Blyden, Du Bois and Hurston.

**prereq:** ENGL 12000
3 hrs
3 cr.

-or-

PHILO 23000 - Feminist Philosophy (W)

Pluralism and Diversity
PD/C
GER
3/A

Survey of major ideas in feminist philosophy and their practical implications.

*cross-listed* WGST 23000 (W)

**prereq:** ENGL 12000
3 hrs
3 cr.

-or-

PHILO 24600 - Political Philosophy (W)

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.

**prereq:** ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 24800 - International Ethics (W)

GER
3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.

**prereq:** ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25500 - Environmental Philosophy (W)
Hunter Core
Individual and Society (Social Sciences) I&S SS
Conceptual, ethical, and methodological issues pertaining to the environment and environmental sciences.

_prereq: ENGL 12000
3 hrs
3 cr._

-or-

PHILO 31900 - Marxist and Critical Theory (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of 20th-century philosophers, such as Lucás, Adorno, and Marcuse, who attempted to develop a theory of historical materialism or a critical theory of society, as well as the sources of their ideas in the work of Marx, Weber, and Freud.

_prereq: ENGL 12000 and 2 courses in philosophy, 1 at the 200-level
3 hrs
3 cr._

-or-

PHILO 34600 - Contemporary Theories of Justice (W)

GER
3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr

-or-

PHILO 34800 - Philosophy of Human Rights (W)

A study of the philosophical foundations and justifications of human rights, including core notions of freedom and dignity in cross-cultural context, their scope as civil-political and economic-social rights, and newer women's and environmental rights.

_prereq: ENGL 12000, and either a) two courses in philosophy, with at least one at the 200-level, or b) a course in political theory and one course in philosophy at the 200-level.
3 hrs
3 cr._

-or-

PHILO 39400 - Philosophical Problems

GER
3/A
Study of one or more major philosophical problems.

*prereq: variable (see Program Prerequisites)*

3 hrs
3 cr.

- or -

POLS 30200 - Critical Theory and Politics (W)

GER
3/B

Intensive study in the core concepts and ideas in the tradition of Critical Theory. Thinkers include, among others, Kant, Hegel, Marx, Nietzsche, Adorno, Horkheimer, Marcuse, Fanon, and Foucault, as well as contemporary critical theorists. Themes and foci will vary by semester and will include: the nature and purpose of critique; political sociology and the analysis of liberalism, fascism and other political formations; mass culture and the fate of art; power and the psyche; reason and affect; violence and terror; the philosophy of history, and the politics of liberation.

*prereq: ENGL 12000 or the equivalent; at least one 200-level course in political theory or permission of the instructor.*

4 hrs
4 cr.

- or -

POLS 30500 - Democratic Theory (W)

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

*prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*

3 hrs
3 cr.

- or -

POLS 30900 - Feminist Political Theory (W)

Pluralism and Diversity
PD/C
GER
3/B

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.

*cross-listed WGST 30900 (W)*

*prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*

3 hrs
3 cr.

- or -

POLS 31600 - Political Theory of Human Rights (W)
GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

*prereq: ENGL 12000 or its equivalent, one course in political theory or perm instr.*

3 hrs
3 cr.

Theoretical Dimensions of Contemporary Controversies

One course on problems or issues in political theory

PHILO 20080 - or -

PHILO 22600 - African-American Philosophy (W)

Hunter Core
US Experience in its Diversity (USED)

Pluralism and Diversity
PD/B
GER
3/A

Development of the African-American intellectual tradition. Study of the work of such figures as Equiano, Douglass, Cooper, Blyden, Du Bois and Hurston.

*prereq: ENGL 12000*

3 hrs
3 cr.

- or -

PHILO 23000 - Feminist Philosophy (W)

Pluralism and Diversity
PD/C
GER
3/A

Survey of major ideas in feminist philosophy and their practical implications.

cross-listed WGST 23000 (W)

*prereq: ENGL 12000*

3 hrs
3 cr.

- or -

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25200 - Problems of Law and Morality

GER
3/B

Philosophy of law and the relation of legal to ethical issues.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25500 - Environmental Philosophy (W)

Hunter Core
Individual and Society (Social Sciences) I&S SS
Conceptual, ethical, and methodological issues pertaining to the environment and environmental sciences.

prereq: ENGL 12000
3 hrs
3 cr.

-or-

PHILO 34600 - Contemporary Theories of Justice (W)

GER
3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr

-or-

PHILO 34800 - Philosophy of Human Rights (W)

A study of the philosophical foundations and justifications of human rights, including core notions of freedom and dignity in cross-cultural context, their scope as civil-political and economic-social rights, and newer women's and environmental rights.
prereq: ENGL 12000, and either a) two courses in philosophy, with at least one at the 200-level, or b) a course in political theory and one course in philosophy at the 200-level.
3 hrs
3 cr.

-or-

PHILO 39400 - Philosophical Problems
GER
3/A

Study of one or more major philosophical problems.
 prereq: variable (see Program Prerequisites)
3 hrs
3 cr.

-or-

POLSC 20400 - Contemporary Issues in Political Theory

GER
3/B

Topics vary each semester. They have included democracy in America, totalitarianism, liberty and authority.
POLSC 20451 Women in Western Political Thought meets PD/D
 prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

-or-

POLSC 30300 - Democracy and Emergency (W)

GER
3/B

This seminar in political theory examines the issue of emergency powers in constitutional democracies. It will examine various attempts to define what is an emergency, as well as the spirited debates over the legitimacy of extraordinary powers to manage such crises.
 prereq: ENGL 12000
4
4

-or-

POLSC 30400 - Contemporary Issues in Political Theory

GER
3/B

Selected topics in political theory.
 prereq: ENGL 12000 or its equivalent; one course in political theory subfield or perm instr
3 hrs
3 cr.

-or-

POLSC 30500 - Democratic Theory (W)

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.
prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

-or-

POLSC 30900 - Feminist Political Theory (W)

Pluralism and Diversity
PD/C
GER
3/B

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.
cross-listed WGST 30900 (W)
prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

-or-

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.
prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

Political Science: Introductory and Introductory to the Subfields Courses

POLSC 10000 - Introduction to Politics: Democracy, Anarchy and the State (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Introduction to some of the major questions, approaches, and texts of political science. Students will explore questions of power, coercion, virtue, democracy, conflict, and cooperation and read Plato, Aristotle, Weber, Lipset, Waltz, and Jervis, among others. Does not satisfy the major's four subfield distribution requirement.

prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 11000 - American Government: A Historical Introduction (W)
Hunter Core
Flexible Core: US Experience in its Diversity
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 11500 - Introduction to International Politics (W)

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Diplomacy, power, war, peace, terrorism, nationalism, imperialism, the UN, structures and processes of world politics.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

Political Science: 200 Level Core Courses

POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)

GER
2/B or 3/B

An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.

prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 25000 - Comparing Countries (W)

Hunter Core
Flexible Core: World Culture and Global Issues
Pluralism and Diversity
PD/A
GER
3/B

Examination of the core concepts, theories, and issues in the field of comparative relations. Topics include: Comparative analysis of democracies and democratization, revolution, and ethnicity and ethnic conflict. Cases will be drawn from Africa, Asia, Western Europe, the Americas, Eastern Europe, and the Middle East.

prereq: ENGL 12000 or equivalent
3 hrs
3 cr.

POLSC 27000 - International Relations: Conceptual Foundations and Current Issues (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
3/B

Examines the conceptual foundations of international relations and their application to current issues. Topics include: anarchy, power, war and peace, international cooperation, the role of the state and non-state actors, international institutions, norms and human rights, and the global economy.

Students may not take both POLSC 11500 and POLSC 27000 at Hunter College for credit. (Transfer students may receive only 100-level credit for a course equivalent for POLSC 11500 after spring 2010, when POLSC 27000 becomes the prerequisite for most advanced courses in international relations.)

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

Political Science: American Government and Politics

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
POLSC 21100 - State Government and Politics (W)

GER
3/B

Comparative analysis of state governments. Power and role of governors, state legislatures, parties, lobbies.  
*prereq: ENGL 12000 or its equivalent*

3 hrs  
3 cr.

POLSC 21200 - Urban Politics (W)

GER
3/B

Politics in New York City and other urban areas. Decentralization, suburbanization, race, ethnicity, reform.  
*prereq: ENGL 12000 or its equivalent*

3 hrs  
3 cr.

POLSC 21300 - Political Parties and Elections (W)

GER
3/B

Organization, campaigns, nominations, voting behavior, issues, finances, reforms.  
*prereq: ENGL 12000 or its equivalent*

3 hrs  
3 cr.

POLSC 21500 - Public Opinion and Political Participation (W)

GER
3/B

What American people think about politics and how they express it, from polls to elections to demonstrations.  
*prereq: ENGL 12000 or its equivalent*

3 hrs  
3 cr.

POLSC 21700 - Contemporary Issues in American Politics

GER
3/B

Selected topics in American politics and government.  
*prereq: ENGL 12000 or its equivalent*
POLSC 21800 - Women and Politics (W)

Pluralism and Diversity
PD/C
GER
3/B

Constitutional and legal position of women, ERA, affirmative action, marriage, divorce, property, feminist causes.
cross-listed WGSP 21800 (W)
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 21900 - Women and the Law (W)

Pluralism and Diversity
PD/C
GER
3/B

Overview of how local, state and federal laws treat people on the basis of sex.
cross-listed WGSP 21900
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 22100 - U.S. Immigration Policy (W)

Pluralism and Diversity
PD/B -or- PD/C
GER
3/B

The course focuses on the political development of federal immigration policy, and on historical and contemporary issues in policy design and implementation. The course also surveys recent findings and debates arising from empirical analyses of immigration policy.
prereq: ENGL 12000 or its equivalent and POLSC 11000/11100 or HIST 15100/15200
3 hrs
3 cr.

POLSC 22600 - Interest Group Politics (W)

GER
3/B

Analysis of the organization and role of interest groups in American politics. The course stresses the importance of organizational resources and the ability of interest groups to be "faithful advocates" of member interests in exercising influence in elections and policy-making.
prereq: ENGL 12000 or equivalent
Theories, historical analysis, and contemporary views of the central institution that links citizens and office holders in the United States, with a focus on the role of parties as vehicles for expressing and pursuing policy goals.

Not open to students who completed POLSC 21400

prereq: ENGL 12000 or its equivalent

Analysis of historical and contemporary protest movements in the context of American politics; includes key concepts and explanatory factors in social movement theory, and movements such as the anti-slavery, women's suffrage, labor, civil-rights, anti-war, feminist, environmental, gay-rights, pro-choice, pro-life, and Patriot movements.

prereq: ENGL 12000 or equivalent

Selection, election, role, functions and powers of the president.

prereq: ENGL 12000 or its equivalent

prereq: ENGL 12000 or its equivalent
POLSC 23800 - The American Legal System (W)

GER
3/B

Civil and criminal law, common law and equity, substantive and procedural law. Emphasis on federal and New York law.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 24000 - The American Judiciary (W)

GER
3/B

The Supreme Court and other federal courts as part of policy-making process in American government.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 24400 - Energy and Environmental Politics and Public Policy (W)

GER
3/B

Examination of political processes and public policies shaping energy production and consumption in the U.S. with comparative reference to other countries. Emphasis on political, economic, social, environmental and foreign policy aspects.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 27400 - American Foreign Policy (W)

GER
3/B

Broad overview of the sources, processes, institutions, traditional tenets, current challenges, and aims of American foreign policy.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 30100 - American Political Thought (W)

GER
3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political
inclusion and democracy.

**prereq: ENGL 12000 or its equivalent; one course in political theory or perm. instr.**
3 hrs
3 cr.

**POLSC 31700 - Contemporary Issues in American Politics**

**GER**
3/B

Selected topics in American politics and government.

*cross-listed WGS 39800 is cross-listed with POLSC 31707 Community Leadership Seminar*

**prereq: ENGL 12000 or its equivalent**
3 hrs
3 cr.

**POLSC 32000 - Ethnic Politics (W)**

**Pluralism and Diversity**

PD/B

**GER**
3/B

Ethnicity in local and national politics. Major groups, how they affect government, what government does for them.

**prereq: ENGL 12000 or its equivalent**
3 hrs
3 cr.

**POLSC 32100 - American Political Economy (W)**

**GER**
3/B

Critical analysis of the distribution of power between the state and the private sector. Theories about the government-business relationship are tested through a series of case studies.

**prereq: ENGL 12000 or its equivalent**
3 hrs
3 cr.

**POLSC 32300 - Politics of Public Budgeting (W)**

**GER**
3/B

This course sets the processes and techniques of public budgeting within the context of American political institutions at the national, state and local levels.

**prereq: ENGL 12000 or the equivalent; two political science courses at the 200-level or above or permission of the instructor**
4 hrs
4 cr.
POLSC 33000 - American Political Development (W)

GER  
3/B

Analysis of the historical development of American politics, including: the impact of the Constitution, ideas, and political culture; state building/unbuilding in different historical eras; and the evolution of citizenship and political participation.

prereq: ENGL 12000 or its equivalent, POLSC 11000 or perm. inst  
4 hrs  
4 cr.

POLSC 34000 - Constitutional Law: Organizing the Government (W)

GER  
3/B

Constitutional problems and Supreme Court decisions. Federalism, judicial review, separation of powers, foreign policy. 

prereq: POLSC 11000 or 11100 or 23800  
3 hrs  
3 cr.

POLSC 34100 - Constitutional Law: Civil Rights (W)

GER  
3/B

Constitutional problems and Supreme Court decisions regarding race and sex discrimination. 

prereq: POLSC 11000 or 11100 or 23800  
3 hrs  
3 cr.

POLSC 34200 - Constitutional Law: The First Amendment (W)

GER  
3/B

Constitutional problems and Supreme Court decisions regarding freedom of speech, press (media), religion and assembly. 

prereq: POLSC 11000 or 11100 or 23800  
3 hrs  
3 cr.

POLSC 34300 - Criminal Law (W)

GER  
3/B

Constitutional problems and judicial decisions regarding search and seizure, right to counsel, self incrimination.
prereq: POLSC 11000 or 11100 or 23800
3 hrs
3 cr.

POLSC 34800 - Public Administration and Public Policy (W)

GER
3/B

Analysis of problems in policy-making and administration, focusing on motivations, ethics, authority.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

Political Science: Comparative Politics

POLSC 25000 - Comparing Countries (W)

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A
GER
2/B

Examination of the core concepts, theories, and issues in the field of comparative relations. Topics include:
Comparative analysis of democracies and democratization, revolution, and ethnicity and ethnic conflict. Cases will be
drawn from Africa, Asia, Western Europe, the Americas, Eastern Europe, and the Middle East.
prereq: ENGL 12000 or equivalent
3 hrs
3 cr.

POLSC 25100 - Politics of Africa, Asia and Latin America (W)

GER
3/B

An examination of the nature of governance and politics in Africa, Asia and Latin America. Through in-depth study of
several countries, students explore topics and concepts such as political culture, modernization, development,
dependency, democracy, political leadership and the processes of policy making.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 25300 - Government and Politics in Latin America (W)

Pluralism and Diversity
PD/A
GER
3/B
Ideology, revolution, authoritarianism, democracy, institutions, class structure, distribution of wealth and power, political and economic development.

cross-listed LACS 43405

prereq: ENGL 12000 or its equivalent

3 hrs

3 cr.

POLSC 25400 - Government and Politics in Western Europe (W)

Pluralism and Diversity

PD/D

GER

3/B

Theory, practice, institutions and problems of Western European nations particularly Britain, France and Germany.

prereq: ENGL 12000 or its equivalent

3 hrs

3 cr.

POLSC 25500 - Government and Politics of Japan and Korea (W)

Pluralism and Diversity

PD/A

GER

3/B

Political, social and economic institutions of Japan and Korea; their domestic politics and relations with the world.

3 hrs

3 cr.

POLSC 25700 - Government and Politics of China (W)

Pluralism and Diversity

PD/A

GER

3/B

Chinese politics, institutions and foreign policy.

prereq: ENGL 12000 or its equivalent

3 hrs

3 cr.

POLSC 26000 - African Politics through African Films (W)

Pluralism and Diversity

PD/A

GER

3/B

An examination of contemporary African politics using various social science theories, films and documentaries made by African filmmakers.
cross-listed AFPRL 29019, MEDIA 29975, FILM 21462
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 26100 - Globalization and Opposition Movements (W)**

GER
3/B

The environmental, social and political effects of economic globalization in less industrialized and in highly industrialized countries; reformist and radical critiques and neoliberal defenses; causes and consequences of opposition movements.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 26200 - Government and Politics in Central America (W)**

Pluralism and Diversity
PD/A
GER
3/B

Political institutions, ideology, class and ethnic structure, economic development, distribution of wealth and power, foreign influences and revolutionary and evolutionary roads to modernization.

cross-listed LACS 43429
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 26300 - Government and Politics in the Middle East (W)**

Pluralism and Diversity
PD/A
GER
3/B

Introduction to Islamic societies and their politics with particular attention to cultures of region.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 26400 - Government and Politics of Israel (W)**

GER
3/B

Historic evolution of the Jewish state and its political system, social issues and foreign policy.

prereq: ENGL 12000 or its equivalent
POLSC 26500 - Government and Politics in Eastern Europe (W)

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 27200 - Contemporary Issues in Comparative Politics

GER
3/B

Selected topics in comparative politics.
prereq: Any 100-level course on POLSC or perm instr.
3 hrs
3 cr.

POLSC 31000 - Comparative Legal Systems (W)

GER
3/B

Comparative study of major legal traditions of the modern world, including common law, civil law, Soviet, Islamic, Chinese, tribal and hybrid systems.
prereq: POLSC 11000, 23800 or 34000 or 34100 or 34300 or 37500 or any course in comparative politics subfield, or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.
POLSC 32200 - Social and Economic Policies in Western Europe and the United States (W)

**Pluralism and Diversity**
**PD/D**
**GER**
3/B

Evolution of social and economic policies from the 19th century to the present. Policies are analyzed in light of tensions between democracy and capitalism.

*prereq:* Prereq: ENGL 12000 (or equivalent) and any course in Amer Pol or Comp Pol. Open only to students who have completed 45 credits and 9 credits in PolSc. Not open to students who have completed PolSc 31500. Counts as either American or Theory (but not both).

4 hrs
4 cr.

POLSC 35100 - Government and Politics of Russia and the Post-Soviet States (W)

**GER**
3/B

Post-Soviet politics, institutions, social forces, economic transformations and regions.

*prereq:* ENGL 12000 or its equivalent; any course in comparative politics, or perm. instr.

3 hrs
3 cr.

POLSC 35200 - State and Society in Africa (W)

**Pluralism and Diversity**
**PD/A**
**GER**
3/B

An examination of the nature of the relationship between the African state and civil society in the post-independence period and how this relationship influences governance and democracy.

*prereq:* ENGL 12000 or its equivalent; any course in comparative politics, or perm. instr.

3 hrs
3 cr.

POLSC 35300 - Social Movements, Civil Society and the State in Latin America (W)

**Pluralism and Diversity**
**P/D A**
**GER**
3/A

Analysis of the role of popular and opposition movements in Latin America and their relationship to the state, from the challenges to the dictatorships of the 1970s through the contemporary neoliberal economic order and democratic polities.

*prereq:* ENGL 12000 or the equivalent; a course in comparative politics; minimum of 45 credits and 9 credits in political science or permission of the instructor.
POLSC 35600 - India's Democratic Experiment (W)

Pluralism and Diversity
P/D A
GER
3/B

Assesses the nature and durability of India's democratic political system. Examines key events, personalities, institutions, and movements in Indian politics from Independence (1947) to the present. Focuses on the challenge of adapting democratic institutions to circumstances of extreme social diversity and economic deprivation.

prereq: ENG 12000 and any POLSC course at either the 200 or 300 level in comparative politics

4 hrs
4 cr.

POLSC 36000 - Democracy & Development in a Globalizing World (W)

Pluralism and Diversity
P/D A
GER
3/B

The relationship between democracy and development in post-colonial countries. Questions include: What relations of causality, in either direction, have political scientists sought to establish between democracy and development? What is the impact of globalization on these relations? How can historical analysis help to illuminate these and other issues, such as why some countries have been better at promoting per capita income growth than others? What efforts have been undertaken – by individual citizens, by civic groups, by aid donors – to plug the democratic deficits that arise in the course of pursuing development under 21st Century conditions?

prereq: ENG 12000 and any POLSC course at either the 200 or 300 level in comparative politics

4 hrs
4 cr.

POLSC 37200 - Contemporary Issues in Comparative Politics

GER
3/B

Selected topics in comparative politics.

prereq: ENGL 12000 or its equivalent; any course in comparative politics, or perm instr.

3 hrs
3 cr.

POLSC 37800 - Russian National Interest: Past and Present (W)

Pluralism and Diversity
PD/D
GER
3/B
In a contemporary, historical and comparative context, this course will explore the factors influencing debates on and definitions of Russia's national interests, the strategies for promoting those interests and the implications for Russia and the international system.

prereq: POLSC 11500 or 11700 or 25000 or 27000 or perm instr.
coreq: ENGL 12000 or equivalent
3 hrs
3 cr.

Political Science: International Politics

POLSC 11500 - Introduction to International Politics (W)

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Diplomacy, power, war, peace, terrorism, nationalism, imperialism, the UN, structures and processes of world politics.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

POLSC 27000 - International Relations: Conceptual Foundations and Current Issues (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
3/B

Examines the conceptual foundations of international relations and their application to current issues. Topics include: anarchy, power, war and peace, international cooperation, the role of the state and non-state actors, international institutions, norms and human rights, and the global economy.

Students may not take both POLSC 11500 and POLSC 27000 at Hunter College for credit. (Transfer students may receive only 100-level credit for a course equivalent for POLSC 11500 after spring 2010, when POLSC 27000 becomes the prerequisite for most advanced courses in international relations.)

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 27100 - International Politics in the Americas (W)

Pluralism and Diversity
PD/A
GER
3/B

Dynamics of US relations with Latin American countries from the colonial era through the Cold War to the present,
and of relations of Latin American countries with each other and with extra-hemispheric nations.

cross-listed LACS 43432

prereq: ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 27300 - Contemporary Issues in International Politics**

**GER**

3/B

Special issues in international politics. Past topics included the international law of energy, world water resources, war.

prereq: ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 27400 - American Foreign Policy (W)**

**GER**

3/B

Broad overview of the sources, processes, institutions, traditional tenets, current challenges, and aims of American foreign policy.

prereq: ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 27500 - Politics of the Global Economy (W)**

**GER**

3/B

Introduction to International Political Economy (IPE). Examines the dynamic interaction between politics and economics across national borders, including the politics of trade, development, finance, varieties of capitalism, globalization and environmental protection. Not open to students who have taken POLSC 37600.

prereq: ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 27600 - Global Issues (W)**

**GER**

3/B

Examination of current global issues using traditional and critical international relations perspectives. Topics vary each semester: population growth, food insecurity, human trafficking, the future of the euro, immigration challenges in Europe, climate change, resource shortages, global poverty, shared values, and other issues.

prereq: ENGL 12000 or its equivalent

3 hrs

3 cr.
POLSC 27800 - International Organizations (W)

GER
3/B
Powers, functions and effectiveness of international institutions; emphasis on United Nations and regional organizations.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 28000 - Women, War and Peace (W)

Pluralism and Diversity
PD/C
GER
3/B
The course examines the roles that women have played as subjects and objects in war and peace.
cross-listed WGSP 26200 (W)
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 28100 - Drugs, Politics and Public Policy (W)

GER
3/B
Examination of public policies addressing drug use and abuse in the United States and other countries with emphasis on political and cultural determinants, economic and market factors, constitutional implications and United States foreign policy.
prereq: ENGL 12000
3 hrs
3 cr.

POLSC 28200 - International Security (W)

GER
3/B
An introduction to basic concepts and problems in the area of international security, this course will explore explanations for some of the central causes of security/insecurity and peace/war, as well as examine select contemporary security issues.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 28300 - Terrorism (W)
The course will explore the types, causes, and strategies of terrorism as well as the effectiveness and civil liberty implications of counterterrorism strategies. Both contemporary and historical terrorist groups will be considered.

Not open to students who have completed POLSC 27353.

**prereq or coreq:** ENGL 12000 or the equivalent

3 hrs
3 cr.

**POLSC 37300 - Contemporary Issues in International Politics**

**GER**
3/B

Selected topics in international politics.

**prereq:** ENGL 12000 or its equivalent; POLSC 27000 or 11500 (prior to 9/2010)

3 hrs
3 cr.

**POLSC 37400 - International Human Rights (W)**

**GER**
3/B

An examination of the origins, substance and processes of human rights in international relations.

**prereq:** ENGL 12000 or its equivalent

3 hrs
3 cr.

**POLSC 37500 - International Law (W)**

**GER**
3/B

Theory of and case studies on the nature, sources, practices and efficacy of international law, principles and rules.

**prereq:** ENGL 12000 and POLSC 11500 or POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282

3 hrs
3 cr.

**POLSC 37600 - International Political Economy (W)**

**GER**
3/B

Examination of the intersection of politics and economics at the international level through a careful reading and analysis of dominant theoretical approaches and their application to central debates concerning the politics of trade, money and finance, development and globalization.

**prereq:** POLSC 11500 or 27000 or 27500; minimum of 45 credits and 9 credits in political science or permission of the
POLSC 37700 - Theories of International Politics (W)

GER
3/B

An examination of the central concepts and issues in international politics that underpin the main theoretical debates in the field.

*prereq: POLSC 11500 or 27000 or 27500 or 28200 or perm. instr.*
*coreq: ENGL 12000 or its equivalent*

POLSC 37800 - Russian National Interest: Past and Present (W)

Pluralism and Diversity
PD/D
GER
3/B

In a contemporary, historical and comparative context, this course explores the factors influencing debates on and definitions of Russia's national interests, the strategies for promoting those interests and the implications for Russia and the international system.

*prereq: ENGL 12000 or equiv; POLSC 11500 or POLSC 11700 or perm instr.*

POLSC 37900 - War and Strategy (W)

GER
3/B

An examination of strategy and wars between states, within states, and between states and transnational groups. Focuses on how strategy affects the avoidance, outbreak, conduct, and consequences of war and the difficulty of devising strategies that successfully link political ends and military means.

*prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor*
*coreq: ENGL 12000 or the equivalent*

POLSC 38000 - European Security (W)

Pluralism and Diversity
PD/D
GER
A theoretically informed examination of current and historical security problems in Europe, with a focus on the sources of war and peace, strategic calculations, alliances, institutions, democratization, norms, and ideological and identity conflicts. A principal aim is to establish a foundation for analyzing the prospects for a secure order in Europe in the first part of the 21st century.

prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor
coreq: ENGL 12000 or its equivalent
4 hrs
4 cr.

POLSC 38100 - East Asia in World Politics (W)

Pluralism and Diversity
PD/A
GER
3/B

An examination of sources of stability and instability in East Asia, using social science theories and historical background.

prereq: ENGL 12000 or its equivalent; POLSC 27000 or perm instr.
3 hrs
3 cr.

POLSC 38200 - Causes of War (W)

GER
3/B

An analysis of the causes of war and peace for both civil and interstate wars including especially the role of bargaining, but also the roles alliances, arms races, rivalries, and institutions.

prereq or coreq: ENGL 12000 or the equivalent; POLSC 27000 or POLSC 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor.
4 hrs
4 cr.

POLSC 38300 - Rising Powers, China, the U.S. and World Order (W)

GER
3/B

An examination of global power shifts and their consequences for international competition and order. Draws on theoretical insights to explain patterns in historical and contemporary cases, including the current rise of China and other "BRICS" countries.

prereq: ENGL 12000 (or equivalent), and (POLSC 11500 or POLSC 27500 or POLSC 27000 or POLSC 28200)
4 hrs
4 cr.
**POLSC 38400 - Comparative Foreign Policy (W)**

An analysis of why states have different foreign policies and the sources of those differences. Various factors such as power, political culture, religion, regime type, history, economic and state development, and individuals will be explored.

*prereq: POLSC 11500 or POLSC 27000 or POLSC 28200*

4 hrs.

4 cr.

**POLSC 38500 - The Nuclear Age: Nuclear Weapons, War and Peace**

An analysis of how nuclear weapons have influenced international politics and military strategies, why states seek or forego nuclear weapons programs, the policies designed for nuclear nonproliferation, and the risks of nuclear crises, escalation, entanglement with conventional forces, and nuclear terrorism.

*prereq: Prereq: ENGL 12000 and POLSC 11500 or POLSC 28200 or POLSC 27000 or POLSC 27500 or any 300-level Political Science course in the International Relations subfield of Political Science*

4 hrs

4 cr.

**POLSC 38600 - Politics of Finance**

Examines the ways in which the global financial system operates and intersects world politics. Topics include: financial firms as political actors, income inequality, financial regulation, financial crises, the politics of foreign direct investment, the politics of monetary policy, and the politics of exchange rates.

*prereq or coreq: ENGL 12000 and any POLSC course*

4 hrs

4 cr.

**Political Science: Political Theory**

**POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)**

*Hunter Core*

Individual and Society (Social Sciences) - I&S SS

GER

2/B or 3/B

An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.

*prereq or coreq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**POLSC 20100 - Ancient to Early Modern Political Thought (W)**
Pluralism and Diversity
PD/D
GER
3/B

The study of selected writers from the ancient Greeks to the Renaissance (e.g., Plato to Machiavelli), focusing on the political dimensions of such ideas as rationality, virtue, community, human nature and historical change.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20200 - Modern Political Thought (1600-1900) (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected political writers (e.g., Hobbes to Nietzsche), with special emphasis given to the nature of and problems with, liberty, equality and justice in modern societies and states.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20300 - Political Thought Since 1900 (W)

Pluralism and Diversity
PD/D
GER
3/B

Exploration of concepts and thinkers in political theory since 1900. Topics include such traditional issues of political theory as the nature and scope of political regimes, justice, equality and changing concepts of human nature.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20400 - Contemporary Issues in Political Theory

GER
3/B

Topics vary each semester. They have included democracy in America, totalitarianism, liberty and authority.

POLSC 20451 Women in Western Political Thought meets PD/D

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20600 - Research Design in Political Science (W)

GER
3/B
Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.

*prereq:* passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 20700 - Data Analysis in Political Science (W)**

**GER**

3/B

Computer applications and statistical analysis in political science. Students write a quantitative term paper. Uses Social Science Data Lab.

*prereq:* POLSC 20600 or perm instr.

3 hrs

3 cr.

**POLSC 20900 - Women and Gender in Western Political Thought (W)**

**Pluralism and Diversity**

PD/C or D

**GER**

3/B

Examines history of political thought from the perspective of gender relations and the treatment of women.

*cross-listed* WGST 20900

*prereq:* ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 30100 - American Political Thought (W)**

**GER**

3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political inclusion and democracy.

*prereq:* ENGL 12000 or its equivalent; one course in political theory or perm. instr.

3 hrs

3 cr.

**POLSC 30200 - Critical Theory and Politics (W)**

**GER**

3/B

Intensive study in the core concepts and ideas in the tradition of Critical Theory. Thinkers include, among others, Kant, Hegel, Marx, Nietzsche, Adorno, Horkheimer, Marcuse, Fanon, and Foucault, as well as contemporary critical theorists. Themes and foci will vary by semester and will include: the nature and purpose of critique; political sociology and the analysis of liberalism, fascism and other political formations; mass culture and the fate of art; power
and the psyche; reason and affect; violence and terror; the philosophy of history, and the politics of liberation.

prereq: ENGL 12000 or the equivalent; at least one 200-level course in political theory or permission of the instructor.
4 hrs
4 cr.

POLSC 30300 - Democracy and Emergency (W)

GER
3/B

This seminar in political theory examines the issue of emergency powers in constitutional democracies. It will examine various attempts to define what is an emergency, as well as the spirited debates over the legitimacy of extraordinary powers to manage such crises.

prereq: ENGL 12000
4
4

POLSC 30400 - Contemporary Issues in Political Theory

GER
3/B

Selected topics in political theory.

prereq: ENGL 12000 or its equivalent; one course in political theory subfield or perm instr
3 hrs
3 cr.

POLSC 30500 - Democratic Theory (W)

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

POLSC 30700 - Theory of Revolution

GER
3/B

Traditional and modern revolutions. Conditions and objectives of socialist and communist revolutions.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 30900 - Feminist Political Theory (W)
Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and ‘global’ feminists.

cross-listed WGST 30900 (W)

%prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

**POLSC 31100 - Utopian Theory (W)**

GER
3/B

Political theorists often imagine ideal worlds, both to explore ideals and to criticize political realities. This course will explore utopias and dystopias as theories that explore political possibilities and challenge existing realities.

%prereq: ENGL 12000 or its equivalent; one course in political theory or perm dept.
3 hrs
3 cr.

**POLSC 31600 - Political Theory of Human Rights (W)**

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

%prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

**Political Science: Independent Study, Honors, Advanced Seminars**

**POLSC 29001-29003 - Independent Study in Political Science**

GER
3/B

Students may take independent study only with full-time members of the department. As a general rule, the students should have taken a prior course with this instructor. Departmental permission will not be granted without explicit approval by the instructor.

%prereq: at least one course in appropriate field, perm dept.
1-3 cr

**POLSC 29102-29103 - Directed Research (W)**
This course is designed to teach individual students how to do research under the direction of a full-time faculty member. Students will participate in ongoing faculty research, and may do independent reading, library research, data collection and data analysis. The course will culminate in a research paper, literature review, or co-authored conference paper submitted for publication. Students will gain an understanding of the research methods utilized in the project, will gain hands-on experience in basic research, and will learn how to write the a research report with extensive feedback from their faculty supervisor.

**prereq or coreq:** ENGL 12000 or the equivalent; minimum of 60 credits and 15 credits in political science or permission of a full-time faculty supervisor.

2 or 3 hrs
2 or 3 cr.

**POLSC 48000 - Seminar in Selected Problems of Political Science**

Open to Jr/Sr only. Advanced seminar on selected topics.

**prereq:** perm dept.

3 hrs
3 cr.

**POLSC 48600 - Senior Colloquium**

Advanced seminar. Major project and/or paper required.

**prereq:** perm. dept.

3 hrs
3 cr.

**POLSC 49100 - Independent Study - Honors Thesis Inception**

Under the supervision of a faculty advisor, students work to translate their chosen honors thesis topic into feasible research questions, identify appropriate methods and data sources, and formulate an action plan to be followed in the following semester, during which the honors thesis is completed and presented (in POLSC 49202 or POLSC 49203).

**prereq:** Permission of instructor and department

2 hrs
2 cr.

**POLSC 49200 - Independent Study Honors Thesis Completion**

Supervised honors completion.

**prereq:** Permission of Instructor/Department

2 hrs for 49202, 3 hrs for 49203
2 cr. for 49202, 3 cr. for 49203

**POLSC 49202-49203 - Honors Independent Study in Political Science**

Students may take independent study honors projects only with full-time faculty members of the department. As a general rule, the students should have taken a prior course with this instructor. Departmental permission will not be granted without explicit approval by the instructor.

**prereq:** at least one course in appropriate field, perm dept.

2-3 cr.
**POLSC 49300 - Conducting and Presenting Political Science Research**

This course is designed to refine students' existing research skills so they can complete their honors theses. Concepts covered will include, but not be limited to literature reviews, finding sources, defining a topic, framing scholarly questions, developing hypotheses, using empirical evidence, citation, and presentation skills. *Concurrent enrollment in POLSC 492 is required.*

**coreq:** POLSC 49200

1 hr

1 cr.

**Political Science: Experiential Courses**

**POLSC 22200/22300 - Seminar/Internship in New York City Government**

Practical experience in city government and politics. Weekly seminars, monthly university-wide meetings.

Students are advised to have completed at least 60 overall credits and 12 to 15 political science credits with at least one course in the field in which they are interested in taking the internship. Students should have at least a 3.0 grade point average in political science before applying.

**prereq:** perm dept.

4 hrs

4 cr.

**POLSC 29200 - Topics in Political Science**

Topics in Political Science provides students the opportunity to apply their knowledge of political science through a variety of experiential learning activities. Students may take each Topics in Political Science one time.

**prereq:** ENGL 12000

1 hr.

1 cr.

**POLSC 29400 - Topics in Political Science**

Topics in Political Science provides students the opportunity to apply their knowledge of political science to real-world political issues and settings. Students may take each Topics in Political Science one time.

**prereq:** ENGL 12000

3 hrs.

3 cr.

**POLSC 29801-29806 - Internship in Political Science**

Students may take independent study internships only under the supervision of full-time members of the department. As a general rule, the students should have taken a prior course with this instructor. Departmental permission will not be granted without explicit approval by the instructor.

**prereq:** at least one course in appropriate field, perm dept.

1-6 cr.

**Programs and Courses in Psychology**
Psychology

Overview

Psychology is concerned with all aspects of the study of behavioral, developmental and cognitive processes, and employs a broad spectrum of approaches, from the social to the biological to understand them. The Hunter College Psychology program reflects the diversity of psychology as a science and as a profession. Its course offerings span this spectrum from clinical, social and developmental psychology to experimental psychology, ethology, biopsychology and behavioral neuroscience. Although Psychology is a large department, students have personal contact with faculty members through an extensive advisement system, involvement in departmental activities and committees, supervised field placement and participation in research laboratories under the guidance of faculty mentors as part of our independent study, honors, BP-ENDURE, MARC (Minority Access to Research Careers) & MBRS/RISE (Minority Biomedical Research Support/Research Initiative for Scientific Enhancement) programs. A broad range of applied and research opportunities are available within the department in developmental psychology, social psychology, human adjustment, animal behavior, physiological psychology and abnormal psychology. Departmental affiliations with mental health and community organizations make it possible for students to integrate their academic studies of personality, abnormal and child psychology with supervised practical experience by means of field placements and opportunities for applied research. The faculty and facilities of various subprograms within the CUNY Psychology doctoral program and our master's program in General Psychology and in Animal Behavior and Conservation are integral parts of the Hunter College Psychology program. These programs provide course concentrations in a number of different areas within psychology and offer undergraduate students research and other opportunities to interact with graduate students. Qualified students in their last semester may be admitted to graduate courses with the approval of the instructor and the department's graduate adviser.

What can I do with my degree in Psychology?

The Psychology major, as part of the bachelor's degree program, prepares the student for many career possibilities in psychology, education, social and welfare services, health services and industry and fulfills the course requirements for entering most psychology graduate programs. A background in psychology combined with special training in other disciplines within the college may be especially useful in preparing for careers in human resources, medicine, law, nursing, speech pathology, social work, special education, counseling and music, art and dance therapy.

Undergraduate Major

Degree Map for Psychology

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Psychology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core

English Comp (EC)

GER

1/A
Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

- Based on math placement results: MATH 10100* or MATH 101EN* or STAT 11300** or MATH 12500 (STEM)** (Note: ** only STAT 113 or MATH 125 satisfies MQR, must earn C or better)
- Life and Physical Sciences (must be lab science course, minimum 4 cr.)

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
3 hrs
3 cr.
- Elective

Spring

- English Composition 2
- STAT 11300** or MATH 12500 (STEM)** (if MATH 101 or MATH 101EN is taken in fall) or Elective, must earn C or better
- Individual & Society/ Social Sciences
- PSYCH 1 (must earn B or better)
- World Cultures & Global Issues

Sophomore Year

Fall

- PSYCH 2 (from Content Area Options)
- Scientific World (must be lab science course, minimum 4 credits)
- Foreign Language Elementary Level 1
- US Experience in Its Diversity
- Elective

Spring

- PSYCH 24800 Statistical Methods in Psychological Research
- PSYCH 2 (from different Content Area options)
- Foreign Language Elementary Level 2
- Creative Expression
• Individual & Society/ Humanities

Junior Year

Fall

• PSYCH 25000 Experimental Psychology: General
• PSYCH 2 (from different Content Area options)
• Foreign Language Intermediate Level 3
• Elective
• Elective

Spring

• PSYCH 2 or 3 (Major Elective # 1)
• Elective
• Foreign Language Intermediate Level 4
• Elective
• Elective

Senior Year

Fall

• PSYCH 3 (from Psychology Focus Area options)
• PSYCH 2 or 3 (Major elective #2)
• Elective
• Honors Research or elective
• Elective

Spring

• PSYCH 3 (from Psychology Focus Area options)
• Elective
• Honors Research or Elective
• Elective

Notes:

• Meet with the Psychology advisor prior to second year.
• Declare major at or before 60 earned credits.
• Plan to accumulate at least 90 earned credits by the end of the third year.
• Select Focus Area of Study in Psychology in consultation with the Psychology major advisor.
• Discuss Honors option with the Psychology major advisor.
• Incorporate research experiences into the plan of study.
Psychology - BA

Courses Required for the Major (43-50 credits)

Psychology is organized around eight (8) tracks grouped within three (3) broad content areas.

The major consists of:

- Introductory courses 6-13 credits
- Statistics and Experimental 8 credits
- Content/track focus 21 credits
- Two science with lab 8 credits

I. Introductory Courses (6-14 credits)

In order to continue in the major, students must complete the Introductory courses in psychology as listed below with a minimum grade of B and a required mathematics course with a minimum grade of C or CR and have a minimum GPA of 2.00. The mathematics requirement may be satisfied by STAT 11300 or MATH 12500 (STEM), or by earning exemption from the mathematics requirement. Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

The major must be declared in person with an undergraduate psychology adviser. (Refer to http://hunter.cuny.edu/psychology for schedule.) The student must bring his/her Hunter transcript (and where relevant, transcripts from all other colleges attended) when meeting with the adviser to declare a psychology major.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs

1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus. 

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test. 

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs

4 cr.

**PSYCH 10000 - Introduction to Psychology**

**GER**

2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs

3 cr.

**PSYCH 14000 - Psychological Adjustment**

**GER**

2/B

Styles of adjustment; social interaction; self-concept and self-esteem: stress management; alienation; failures of adjustment.

prereq: PSYC 10000

3 hrs

3 cr.

II. Statistics and Experimental Psychology- 8 cr.

**PSYCH 24800 - Statistical Methods in Psychological Research**

**GER**

3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12400 or 12500 or 12550 or STAT 11300 with a C or
better, or appropriate score on math placement exam
prereq or coreq: ENGL 12000
4 hrs
4 cr.

PSYCH 24900 - Experimental Psychology: Social

GER
3/B

Introduction to the principles of research methodology and experimental techniques. Required research reports involve laboratory and field exercises concerned with a variety of social psychological phenomena. (Students may take either PSYC 249 or 250, but not both.)

Writing Intensive
PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade;
PSYC 24800 with a minimum grade of C

prereq or coreq: Writing Intensive
6 hrs (2 lec, 4 lab)
4 cr.

III. Content/track focus 21 credits

The psychology major is organized around three Content Areas and their corresponding Focus Areas.

The Content Areas are

• Biopsychology,
• Cognitive/Developmental Psychology,
• Social/Clinical/Health Psychology.

The Focus Areas (tracks) are

• General Psychology
• Animal Behavior
• Physiological Psychology
• Cognitive Psychology
• Developmental Psychology
• Social Psychology
• Clinical Psychology
• Health Psychology

Content Areas with Corresponding Focus Areas

• Biopsychology Content Area with Corresponding Focus Areas
• Cognitive/Developmental Psychology Content Area with Corresponding Focus Area
• Social/Clinical/Health Psychology with Corresponding Focus Areas

1. 200-level Courses in Each Content Area - 9 cr.
Three (3) 200-level courses*, one (1) in each of 3 content areas (Biopsychology, Cognitive/Developmental Psychology, Social/Clinical/Health Psychology)

One of these three courses must be within the student's chosen Area of Focus (Animal Behavior, Physiological Psychology, Cognitive Psychology, Developmental Psychology, Social Psychology, Clinical Psychology, or Health Psychology). Students selecting the "General Psychology" Focus Area must take one 200-level course in each of the three Content Areas.

2. Two (2) 300-level courses within the chosen Focus Area - 6 cr.

Note: Students selecting the General Psychology focus area must take two (2) 300-level courses in any area of Psychology

3. Two (2) electives at the 200 or 300 level - 6 cr

IV. Two Science course with Lab - 8 cr

Degree Map

Degree Map for Psychology

Psychology: Concentration in Behavioral Neuroscience

Purpose

The Behavioral Neuroscience Concentration within Psychology provides interdisciplinary training for students preparing for academic or professional careers in neuroscience-related areas. The concentration brings together students from Psychology and Biology in a set of core courses and offers mentored research experience in faculty laboratories, opportunities for student research presentations and talks by distinguished visiting neuroscientists. The neuroscience concentration is a particularly good option for students who plan to do graduate study in neuroscience or neurosciencerelated fields or attend medical school for neurology, neurosurgery, or psychiatry specialties. Because of the large number of required courses in the concentration, it is very important that interested students meet with the concentration adviser as early in their college career as possible-no later than the start of their Sophomore year. The concentration adviser is Prof. Philip Zeigler, ((212) 772-5363; Room 626 Hunter North).

The Concentration has three, equally important components: Stem Courses (Levels 1 and 2), Neuroscience Electives (Level 3), and Mentored Honors research.

Courses Required for the Major (34.5-47.5 credits)

Admission to the program requires completion of the following courses:

**BIOL 10000 (STEM) - Principles of Biology I**

*Hunter Core*
Life and Physical Sciences (LPS); Scientific World (SW)
*Pluralism and Diversity*
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D

GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.
Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better*

5 hrs (4 lec, 1 rec)

4 cr.

**PSYCH 10000 - Introduction to Psychology**

GER

2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs

3 cr.

**PSYCH 22400 - Neuroscience**

The aim of this course is to introduce you to the biological and physiological aspect of the science of Psychology. Biopsychology is the subarea of Psychology that takes a biological approach to understanding behavior. Biopsychologists study the biological events - genetic, neural, endocrine- that underlie each and every one of our thoughts, feelings, and actions. This course will explore what is currently known about the biological basis of emotional responses, mental illness, sexual behavior, memory, states of consciousness, sensory perception, thought and language, and several neurological disorders.

*prereq: PSYCH 10000 and any other 3 CR PSYCH Course; completion of ENGL 12000 with a minimum grade of C*

3 hrs

3 cr.

**PSYCH 24800 - Statistical Methods in Psychological Research**

GER

3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

*prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12400 or 12500 or 12550 or STAT 11300 with a C or better, or appropriate score on math placement exam*

*prereq or coreq: prerequisite or corequisite: ENGL 12000*

4 hrs

4 cr.
STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 25000 - Experimental Psychology: General

GER
3/B

Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYCH 24800 with a minimum grade of C
6 hrs (2 lec, 4 lab)
4 cr.

PSYCH 14000 - Psychological Adjustment

GER
2/B

Styles of adjustment; social interaction; self-concept and self-esteem: stress management; alienation; failures of adjustment.

prereq: PSYC 10000
3 hrs
3 cr.

- Three 200-level courses, one in each of 3 content areas * One of these three courses must be within the students chosen Area of Focus
  Note: Students selecting the "General Psychology" Focus Area must take one 200 level course in each of the three Content Areas
- Two 300 level courses within the chosen Focus Area. Students selecting the General Psychology Focus Area must take two 300 level courses in any area of Psychology (6 cr)

Psychology electives at the 200 or 300 level (6 cr)
BIOL 47100 - Special Topics in Biology

GER
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000
3 hrs (lec)
3 cr. per sem.

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000, 12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.
MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

PSYCH 39600 - Honors in Psychology

Independent, sponsored, empirical research and seminar. Students are expected to attend the regularly scheduled seminar. An APA-style research report or its equivalent (to be filed in the department) is a requirement of this course. To graduate with departmental honors, the student must receive a grade of A in PSYCH 39600. Honors in Psychology is typically a one-semester course; however, when a PSYCH 39600 research project extends beyond a single semester, the student may (with permission) register for a second semester as PSYCH 39800. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.
prereq: ENGL 12000, PSYCH 24900 or 25000; 3.5 major GPA; 3.00 cumulative GPA; perm instr.
3 hrs
3 cr.

PSYCH 39800 - Honors in Psychology

Independent sponsored research and seminar. Attendance at regularly scheduled seminar and research report required. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.

prereq: PSYCH 39600, perm instr.
3 hrs
3 cr.

Electives

Nine credits from the following (at least 3 must be from Biology)

BIOL 37000 - Physiology of the Nervous System

GER
3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.
prereq: BIOL 30000 or perm instr.
4 hrs (lec)
BIOL 37600 - Endocrinology

GER
3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.

prereq: BIOL 20200 or perm instr.

3 hrs (lec)
3 cr.
spring only

BIOL 38000 - Molecular Neurobiology

GER
3/B

Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

prereq: BIOL 30000 or perm instr.

3 lec hrs
3 cr.
fall only

PSYCH 30100 - Sensation and Perception

GER
3/B

Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 24900 or 25000

3 hrs
3 cr.

PSYCH 30900 - Behavioral Neuroendocrinology

Pluralism and Diversity
PD/C
GER
3/B

An overview of how behavior is influenced by differential hormone action and how hormones influence the development and expression of sexually dimorphic behaviors. While a biology background is not required, this course will be a biology-based discussion of behavioral endocrinology.
PSYCH 31600 - Cognitive Neuroscience

The course will address some of the central issues in contemporary cognitive neuroscience, describe old (clinical studies) and new (brain imaging) sources of information, their limitations and their contributions to our understanding of the neural mechanisms of cognition.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 32700 - Motivation and Emotion

GER
3/B

The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

prereq: ENGL 12000, PSYCH 24900 -or- 25000; and PSYCH 22400
3 hrs
3 cr.

PSYCH 36900 - Behavioral Pharmacology

GER
3/B

This course will provide information on the interrelationship of pharmacology and behavior. The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and psychotherapeutic agents.

prereq: ENGL 12000, PSYCH 24900 or 25000, PSYCH 30000 or perm instr. and PSYCH 22400
3 hrs
3 cr.

PSYCH 38200 - Current Topics in Biopsychology

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of biological psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

prereq: PSYCH 22400 (Neuroscience) PSYCH 25000 Open only to psychology majors.
3 hrs
3 cr.

Undergraduate Minor
Minor in Psychology

The minor in psychology is designed to expose students to a variety of content areas in the field of psychology and to provide the student with the ability to evaluate psychology research as a consumer. To declare a psychology minor, the student must have completed any 100-level psychology course with a minimum grade of C and a required mathematics course with a minimum grade of C or CR. The mathematics requirement may be satisfied by STAT 11300 or MATH 12500 or by an appropriate score on the mathematics placement test. The minor in Psychology consists of 15 credits in Psychology, as follows: PSYCH 10000 and any other 3 cr. PSYC course; PSYCH 21500; and any 2 200-level PSYC courses below PSYCH 24800. The total number of credits to fulfill all minor requirements, including credits for all prerequisites, is 18: 15 credits in PSYC course and 3 credits in STAT 11300 or MATH 12500.

Requirements

Biopsychology Content Area with Corresponding Focus Areas

Animal Behavior

PSYCH 22500 - Ethology: Animal Behavior

GER
3/B

Adaptation, survival, reproduction and evolution of behavior, emphasizing development and species-comparison. Writing Intensive

prereq: PSYCH 10000 and any other 3 cr PSYC course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 32000 - Neuronal Basis of Behavior (Neuroethology)

This course is designed primarily for upper level undergraduates who already have an introductory background in animal behavior, neurobiology and Psychology. The course will review the rapidly expanding field of neuroethology, providing a general introduction to the subject and some of its many model systems.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

PSYCH 32100 - Animal Orientation

Organisms must orient to survive, including to secure shelter and food, or find mates, and return to a familiar home. This course provides an advanced understanding of how animals achieve these tasks and evaluates possible behavioral, physiological, and molecular mechanisms for orientation.

prereq: ENGL 12000; Completion of PSYCH 24900 or 25000 and PSYCH 22500
PSYCH 32400 - Communication Behavior

This course will examine behaviors that exchange information, the evolution of the signals that carry the message, and the senses that receive it. Both human nonverbal and animal communication systems will be analyzed. Students will conduct field and library research on specific communicative behaviors.

 prerequisites: ENGL 12000, Completion of PSYCH 24900 or 25000

3 hrs
3 cr.

PSYCH 38100 - Current Topics in Animal Behavior

Finding mates, securing shelter and food, and returning to a familiar home are ubiquitous animal functions which often require complex navigational strategies. This course will provide an advanced undergraduate level survey of the history of the field of animal orientation, and expound on ontogeny, mechanisms, and function of orienting behaviors.

 prerequisites: PSYCH 10000, PSYCH 16000 (Evolution and Behavior); PSYCH 22500 (Ethology); PSYCH 24800 (Psychological Statistics). Open only to psychology majors.

3 hrs
3 cr.

Physiological Psychology

PSYCH 22400 - Neuroscience

The aim of this course is to introduce you to the biological and physiological aspect of the science of Psychology. Biopsychology is the subarea of Psychology that takes a biological approach to understanding behavior. Biopsychologists study the biological events - genetic, neural, endocrine- that underlie each and every one of our thoughts, feelings, and actions. This course will explore what is currently known about the biological basis of emotional responses, mental illness, sexual behavior, memory, states of consciousness, sensory perception, thought and language, and several neurological disorders.

 prerequisites: PSYCH 10000 and any other 3 CR PSYCH Course; completion of ENGL 12000 with a minimum grade of C

3 hrs
3 cr.

PSYCH 30000 - Physiological Psychology

GER
3/B

Neural and endocrine mechanisms involved in learning, emotion, perception and other psychological processes. PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

 prerequisites: ENGL 12000. PSYCH 24900 or 25000 and PSYCH 22400

3 hrs
3 cr.

PSYCH 30100 - Sensation and Perception
Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000. PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 30900 - Behavioral Neuroendocrinology

Pluralism and Diversity
PD/C
GER
3/B

An overview of how behavior is influenced by differential hormone action and how hormones influence the development and expression of sexually dimorphic behaviors. While a biology background is not required, this course will be a biology-based discussion of behavioral endocrinology.

prereq: ENGL 12000. PSYCH 24900 or 25000 and PSYCH 22400
3 hrs
3 cr.

PSYCH 31600 - Cognitive Neuroscience

The course will address some of the central issues in contemporary cognitive neuroscience, describe old (clinical studies) and new (brain imaging) sources of information, their limitations and their contributions to our understanding of the neural mechanisms of cognition.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 32100 - Animal Orientation

Organisms must orient to survive, including to secure shelter and food, or find mates, and return to a familiar home. This course provides an advanced understanding of how animals achieve these tasks and evaluates possible behavioral, physiological, and molecular mechanisms for orientation.

prereq: ENGL 12000; Completion of PSYCH 24900 or 25000 and PSYCH 22500
3 hrs.
3 cr.

PSYCH 32700 - Motivation and Emotion

GER
3/B
The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

**prereq:** ENGL 12000, PSYCH 24900 -or- 25000; and PSYCH 22400
3 hrs
3 cr.

**PSYCH 36900 - Behavioral Pharmacology**

**GER**
3/B

This course will provide information on the interrelationship of pharmacology and behavior. The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and psychotherapeutic agents.

**prereq:** ENGL 12000, PSYCH 24900 or 25000, PSYCH 30000 or perm instr. and PSYCH 22400
3 hrs
3 cr.

**PSYCH 38200 - Current Topics in Biopsychology**

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of biological psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

**prereq:** PSYCH 22400 (Neuroscience) PSYCH 25000 Open only to psychology majors.
3 hrs
3 cr.

**Cognitive/Developmental Psychology Content Area with Corresponding Focus Area**

**Cognitive Psychology**

**PSYCH 24300 - Cognitive Processes**

**GER**
3/B

A survey of theoretical issues and empirical research on human cognition including attention, perception, memory, representation of knowledge, language, and problem solving.

**prereq:** 6 cr. in PSYCH including PSYCH 10000
3 hrs
3 cr.

**PSYCH 31600 - Cognitive Neuroscience**
The course will address some of the central issues in contemporary cognitive neuroscience, describe old (clinical studies) and new (brain imaging) sources of information, their limitations and their contributions to our understanding of the neural mechanisms of cognition.

**PSYCH 32200 - Psychology of Language**

**GER**

3/B

Psychological and psychophysical basis of language comprehension, production and acquisition from experimental and theoretical perspectives; the relationship between language and the cognitive processes of perception, memory and representation.

**PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000.** (Students falling under the previous curriculum need not fulfill the science prerequisite.)

**prereq:** ENGL 12000, PSYCH 24900 or 25000, PSYCH 27000 or perm instr.

3 hrs

3 cr.

**PSYCH 32400 - Communication Behavior**

This course will examine behaviors that exchange information, the evolution of the signals that carry the message, and the senses that receive it. Both human nonverbal and animal communication systems will be analyzed. Students will conduct field and library research on specific communicative behaviors.

**prereq:** ENGL 12000, Completion of PSYCH 24900 or 25000

3 hrs

3 cr.

**PSYCH 32500 - Animal Cognition**

This course will focus on various topics and readings in animal cognition within and across species from the perspectives of animal behavior, cognitive ethology and comparative cognition. In addition to familiarizing the students with what is currently known, the course is designed to stimulate critical and creative thinking about how we investigate and understand the minds and behavior of animals as diverse as chimpanzees, dolphins, elephants, monkeys, pigeons and humans. It will focus on various topics and readings in animal cognition including categorization, discrimination learning, decision making, social learning, tool use, culture and communication.

**prereq:** ENGL 12000, PSYCH 24900 -or- 25000; and PSYCH 22500 -or- 24300

3 hrs.

3 cr.

**PSYCH 32800 - States of Consciousness**

**GER**

3/B

The subjective and physiological aspects of consciousness; the means by which it may be altered: hypnosis, dreams, drugs, meditation and mysticism; psychosis.
PSYCH 32900 - Cognitive Science

Introduction to cognitive science, the interdisciplinary study of the human mind from the perspectives of psychology, linguistics, computer science, neuroscience, and philosophy.

*prereq: PSYCH 24800 with a minimum grade of C; completion of PSYCH 24800 or 25000; declaration of the psychology major*

3 hrs
3 cr.

PSYCH 33000 - Memory and Attention

This course is intended to provide an introduction to the processes associated with memory, attention, and their development, with particular attention given to classic and contemporary theories, and to how they interact with factors such as biology, age, culture and experience.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000*

3 hrs
3 cr.

PSYCH 33100 - Social Cognition of Gender

The course examines the social cognitive and motivational processes that a) underpin beliefs about and evaluations of men and women, b) affect behaviors toward and by men and women, and c) change or entrench attitudes and behaviors.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000*

3 hrs
3 cr.

PSYCH 35000 - Learning

GER
3/B

Theoretical and experimental approaches to human and animal learning; the relationship between systematic theory models and methodology; analysis of the historical and contemporary major contributions to learning theories.

*prereq: ENGL 12000, PSYCH 24900 or 25000*

3 hrs
3 cr.

PSYCH 37000 - Cognitive Development

GER
3/B

A comparative information processing perspective on the development of mental structure and functioning, including perception, memory, problem solving, self-awareness of thinking, intelligence, concept formation and language development.
PSYCH 38300 - Current Topics in Cognitive Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in selected areas in cognitive psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term. Students may take a Current Topics in Cognitive Psychology course twice.

prereq: completion of PSYCH 25000 and 24300 with a grade of C or better
3 hrs
3 cr.

Developmental Psychology

PSYCH 21000 - Child Development

GER
3/B

Emotional, social, motor and cognitive development as influenced by genetic, cultural and individual factors during the first twelve years of life. (May not be taken for credit by students who have a collateral major, or a minor, in education.)

Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 21200 - Exceptional Childhoods

GER
3/B

Special problems of adjustment and training of exceptional children, including the gifted as well as the intellectually, emotionally and physically handicapped.

Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 21300 - Children & Adolescents with Autism

A theoretical and practical introduction to the social, biological, behavioral, and educational theories that guide our understanding of children and adolescents with Autism Spectrum Disorder (ASD). Focusing on this important public health issue, students learn how these theories inform public awareness, the experiences of families affected by this disorder, the development and implementation of interventions, and public policy.
PSYCH 21400 - Adults with Developmental Disabilities

A theoretical and practical introduction to the key issues and challenges that affect the lives of adults with developmental disabilities, including adults with Autism Spectrum Disorder. Covered topics include person-centered planning, self-determination, transition planning, post-secondary education, employment, residential supports, and community living. Students learn how these challenges inform services that support full inclusion and improve quality of life.

prereq: PSYCH 10000 and PSYCH 15000 (Human Development) or departmental permission
3 hrs
3 cr.

PSYCH 31000 - Research Methods in Developmental Psychology

GER
3/B

Open to declared majors only. Theory and research in selected areas of developmental psychology. PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 15000 or 21000, PSYCH 24900 or 25000, perm instr.
3 hrs
3 cr.

PSYCH 31300 - Adolescence

This course reviews the physical, cognitive, emotional, and social changes that typically occur during adolescence. Topics include classic and contemporary theories of adolescent development and the interactions between adolescents and their social and cultural environments.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 31500 - Adult Development

GER
3/B

Open to declared majors only. Theories and research concerning the personal and social development of men and women in adulthood; ongoing changes with age related to physical growth and decline, including marital, parental and interpersonal relationships, occupational roles, leisure activities, disability and approaching death.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 15000 or 21000, PSYCH 24900 or 25000
PSYCH 32300 - Developmental Psychopathology

Survey and evaluation of empirical and theoretical approaches to the major psychological abnormalities that arise in childhood and adolescence; their characteristics, causes and treatments.

**prereq:** ENGL 12000, PSYCH 24900 -or- 25000 and PSYCH 21000 -or- 22300

3 hrs
3 cr.

PSYCH 33200 - Attitudes and Persuasion

This course reviews basic theory and research applications on attitudes and attitude change processes, including how attitudes are measured, used to predict behavior, and, to persuade individuals.

**prereq:** ENGL 12000; PSYCH 24900 or 25000; and PSYCH 21000 -or- 23000

3 hrs
3 cr.

PSYCH 33300 - Advanced Social Psychology Theory and Methods

In-depth training in the concepts and skills necessary for conducting scientific research in social psychology. Core concepts in social psychology are used as the basis for case-studies in which different methods for examining constructs are illustrated and compared.

**prereq or coreq:** PSYCH 24800 with a minimum grade of C; completion of PSYCH 24900 or 25000; declaration of the psychology major.

3 hrs
3 cr.

PSYCH 33400 - Cultural Psychology

As ours society becomes more multi-cultural, the question of how culture impacts psychological processes is increasingly important. The goal of this course is to expose students to the ways that cultural meanings, practices, and institutions influence and reflect individual human psychologies, with an emphasis on cultural variability in psychological theories and research findings. Topics include but are not limited to: a) What is cultural psychology; b) Research methods in cultural psychology; c) Historical and conceptual issues in cultural psychology d) cross-cultural models of self, attention, perception, morality, human development and health, e) cultural differences in gender effects and f) policy implications of cultural psychology

**prereq:** ENGL 12000, Completion of PSYCH 24900 or 25000

3 hrs.
3 cr.

PSYCH 36100 - Psychological Tests

GER
3/B
Introduction to the principles of psychological assessment; major methods of measuring general ability, aptitude, achievement, interest, personality. Appraisal of psychological tests.

*prereq: ENGL 12000. PSYCH 24900 or 25000*
3 hrs
3 cr.

**PSYCH 37000 - Cognitive Development**

**GER**
3/B

A comparative information processing perspective on the development of mental structure and functioning, including perception, memory, problem solving, self-awareness of thinking, intelligence, concept formation and language development.

*prereq: ENGL 12000. PSYCH 24900 or 25000, PSYCH 27000 or perm instr.*
3 hrs
3 cr.

**PSYCH 38400 - Current Topics in Developmental Psychology**

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of developmental psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

*prereq: PSYCH 21000 (Child Development); PSYCH 24900 or 25000. Open only to psychology majors.*
3 hrs
3 cr.

**Social/Clinical/Health Psychology with Corresponding Focus Areas**

**Social Psychology**

**PSYCH 22000 - Personality**

**GER**
3/B

Review of the contributions to the understanding of normal personality in the theories of the Freudian and other analytical schools; of Allport, of representative behaviorist groups and of constitutional typologists; also, methods of assessing and understanding individual personality.

Writing Intensive
*prereq: PSYCH 10000 and any other 3 cr PSYCH course*
*prereq or coreq: ENGL 12000*
3 hrs
3 cr.

**PSYCH 23000 - Social Psychology**
Problems of human experience and behavior in the social context; theories and current methodology in research on the
influence of the group on cognitive processes, motivation, personality structure and the self; attitudes and prejudice;
leadership; group processes.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 23500 - The Psychology of Women

Pluralism and Diversity
PD/C
GER
3/B

Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles,
power.
Writing Intensive cross-listed WGSP 23500 (W)
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 31300 - Adolescence

This course reviews the physical, cognitive, emotional, and social changes that typically occur during adolescence.
Topics include classic and contemporary theories of adolescent development and the interactions between adolescents
and their social and cultural environments.
prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 33100 - Social Cognition of Gender

The course examines the social cognitive and motivational processes that a) underpin beliefs about and evaluations of
men and women, b) affect behaviors toward and by men and women, and c) change or entrench attitudes and behaviors.
prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 33200 - Attitudes and Persuasion

This course reviews basic theory and research applications on attitudes and attitude change processes, including how
attitudes are measured, used to predict behavior, and, to persuade individuals.
prereq: ENGL 12000; PSYCH 24900 or 25000; and PSYCH 21000 -or- 23000
3 hrs
3 cr.
PSYCH 33300 - Advanced Social Psychology Theory and Methods

In-depth training in the concepts and skills necessary for conducting scientific research in social psychology. Core concepts in social psychology are used as the basis for case-studies in which different methods for examining constructs are illustrated and compared.

_prereq or coreq: PSYCH 24800 with a minimum grade of C; completion of PSYCH 24900 or 25000; declaration of the psychology major._

3 hrs
3 cr.

PSYCH 33400 - Cultural Psychology

As ours society becomes more multi-cultural, the question of how culture impacts psychological processes is increasingly important. The goal of this course is to expose students to the ways that cultural meanings, practices, and institutions influence and reflect individual human psychologies, with an emphasis on cultural variability in psychological theories and research findings. Topics include but are not limited to: a) What is cultural psychology; b) Research methods in cultural psychology; c) Historical and conceptual issues in cultural psychology d) cross-cultural models of self, attention, perception, morality, memory, human development and health, e) cultural differences in gender effects and f) policy implications of cultural psychology.

_prereq: ENGL 12000, Completion of PSYCH 24900 or 25000_

3 hrs.
3 cr.

PSYCH 38500 - Current Topics in Social Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in selected areas within social psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

_prereq: PSYCH 23000 (Social Psychology; PSYCH 24900 or 25000. Open only to psychology majors._

3 hrs
3 cr.

Clinical Psychology

PSYCH 22300 - Abnormal Psychology

GER
3/B

Consideration of psychological abnormalities; symptoms, etiology, diagnostic procedures and therapy.

_Writing Intensive_  
_prereq: PSYCH 10000 and any other 3 cr PSYCH course  
_prereq or coreq: ENGL 12000_

3 hrs
3 cr.

PSYCH 32300 - Developmental Psychopathology

GER
3/B
Survey and evaluation of empirical and theoretical approaches to the major psychological abnormalities that arise in childhood and adolescence; their characteristics, causes and treatments.

prereq: ENGL 12000, PSYCH 24900 or 25000 and PSYCH 21000 or 22300
3 hrs
3 cr.

PSYCH 34100 - Stress, Trauma, and Resilience

This course covers the interrelated topics of stress, trauma, and resilience. The course uses a clinical science perspective to explore both normative (healthy) and problematic physiological and psychological responses to stress and trauma, as well as factors that influence resilience.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

PSYCH 34200 - Emotion: Function and Dysfunction

Focus of the course will be on understanding the role of emotion in both functional and dysfunctional contexts. Through readings, class discussion, and lecture, we will address how emotions can both be vital for survival yet at the heart of so many mental disorders.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

PSYCH 34400 - Clinical Psychology

Clinical psychologists engage in a wide range of activities including research, teaching, assessment, administration, consultation. This course will discuss controversial issues regarding how to best define clinical psychology in a modern health practice context.

prereq: ENGL 12000, Completion of PSYCH 24900 or 250
3 hrs.
3 cr.

PSYCH 36100 - Psychological Tests

GER
3/B

Introduction to the principles of psychological assessment; major methods of measuring general ability, aptitude, achievement, interest, personality. Appraisal of psychological tests.

prereq: ENGL 12000, PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 38600 - Current Topics in Clinical Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of clinical psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and
applied foundations of the field. Topics vary each term.

*prereq: PSYCH 22300 (Abnormal Psychology); PSYCH 24900 or 25000. Open only to psychology majors.*

3 hrs  
3 cr.

**Health Psychology**

**PSYCH 24200 - Health Psychology**

**GER**  
3/B  

Psychological and behavioral factors related to physical illness and health promotion, including such areas as aging, stress and coping, pain, addiction and eating disorders.  
Writing Intensive  
*prereq: PSYCH 10000 and any other 3 cr PSYCH course*  
*prereq or coreq: ENGL 12000*  
3 hrs  
3 cr.

**PSYCH 36200 - Psychological Determinants of Health Disparities**

Current research, theory, and applications related to the psychological determinants of health disparities that are experienced as a function of population characteristics, including race/ethnicity, gender, age, socioeconomic status, and sexual orientation.  
*prereq: PSYCH 24900 or 25000; PSYCH 24200. Open only to psychology majors.*  
3 hrs  
3 cr.

**PSYCH 36300 - Health Behavior Change**

A theoretical and practical introduction to health behavior change. The course explores the social and behavioral theories that guide understanding of health behavior and describes how these theories are translated into testable interventions for health promotion, risk reduction, and treatment.  
*prereq: PSYCH 24200 (Health Psychology); PSYCH 24900 or 25000; Open only to psychology majors.*  
3 hrs  
3 cr.

**PSYCH 36400 - Sexuality and Health**

This course reviews the field of sexual health research, sexual health policy, and sexual health education and intervention, as well as specific topics such as the role of gender, sexual orientation, and personal motivation in sexual health.  
*prereq: PSYCH 17000 (Psychology of Human Sexuality); PSYCH 24200 (Health Psychology); PSYCH 24900 or 25000. Open only to Psychology Majors.*  
3 hrs  
3 cr.
PSYCH 36500 - Coping with Chronic Disease

Focuses on current knowledge of psychological adjustment to chronic health conditions, including intrapersonal, interpersonal and social determinants of adjustment using theory and empirical evidence within a stress and coping framework. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field.

prereq: PSYCH 24200, PSYCH 24900 or 25000. Open only to Psychology majors.
3 hrs
3 cr.

PSYCH 36600 - Interpersonal Relationships and Health

This course will familiarize students with current research, theory, and applications related to interpersonal processes and health, emphasizing emotional as well as physical health. It will broadly consider the literature in health psychology and relationship science and therefore maintains a biopsychosocial perspective of health and well-being.

prereq: PSYCH 24200 (Health Psychology) or PSYCH 23000 (Social Psychology); PSYCH 24900 or 25000. Open only to psychology majors.
3 hrs
3 cr.

PSYCH 36700 - Biological and Social Bases of Addictive Behavior

A biopsychosocial approach to understanding risk factors, onset, course, treatment considerations and prognosis for common addictive behaviors. It explores the neurobiological, psychological, pharmacological, and cultural themes that unify the understanding of addictive behaviors.

prereq: PSYCH 24200 (Health Psychology) or PSYCH 22300 (Abnormal Psychology); PSYCH 24900 or 25000; PSYCH 30000 (Physiological Psychology). Open only to psychology majors.
3 hrs
3 cr.

PSYCH 38700 - Current Topics in Health Psychology

Contemporary knowledge and issues in the scholarly literature in a focused area of health psychology. Emphases on interdisciplinary approaches and critical thinking, including links to theoretical and empirical foundations of the field. Topics vary each term.

prereq: PSYCH 24200; PSYCH 24900 -or- 25000; Open only to psychology majors
3 hrs
3 cr.

Psychology

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and
their treatment, group processes.
3 hrs
3 cr.

PSYCH 14000 - Psychological Adjustment

GER
2/B

Styles of adjustment; social interaction; self-concept and self-esteem: stress management; alienation; failures of adjustment.
prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 15000 - Human Development

GER
2/B

Development from conception to death; biological, physiological and social factors and their interactions at each stage.
prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 16000 - Evolution and Behavior

GER
2/B

Aggression, sleep, learning, communication, emotion, motivation and social behavior in human and other species; underlying mechanisms, development, evolutionary history.
prereq: PSYC 10000
3 hrs
3 cr.

PSYCH 17000 - Psychology of Human Sexuality

Pluralism and Diversity
PD/C
GER
2/B

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.
cross-listed WGSS 17000
prereq: PSYCH 10000
3 hrs
3 cr.

PSYCH 17100 - Stress and Coping
A theoretical and practical introduction to stress processes and coping behaviors. The course explores the social, biological, behavioral, and clinical theories that guide our understanding of stress and coping and translated into testable interventions for managing stress and mitigating its negative effects.

**prereq:** PSYCH 10000  
3 hrs  
3 cr.

**PSYCH 18000 - Brain and Behavior**

GER  
2/B  

Brain structure, function and relation to behavior. Topics include the neural basis of perception, learning and memory, consciousness, motivation, emotion.  
**prereq:** PSYC 10000  
3 hrs  
3 cr.

**PSYCH 19000 - Development of Gender Roles**

Pluralism and Diversity  
PD/C  
GER  
2/B  

Social, cognitive, hormonal and personality factors in development of gender roles; determinants of behavioral and cognitive gender differences.  
**cross-listed** WGSS 19000  
**prereq:** PSYCH 10000  
3 hrs  
3 cr.

**PSYCH 19500 - Special Topics in Psychology I**

GER  
2/B  

Readings and discussions on a selected problem or topic area. Topics vary from semester to semester.  
**prereq:** PSYC 10000  
3 hrs  
3 cr.

**PSYCH 20100 - Independent Study in Psychology**

May be taken two times but will be applied to major only once. Designed to meet the needs of individual students under the direction of a particular faculty sponsor. The course may involve independent readings, tutorials, work as an advising assistant or peer counselor, field placement, an individual research project, or participation in ongoing faculty research, any of these culminating in a written report.  
**prereq:** PSYCH 10000 and any other 3 cr PSYCH course, perm dept.  
**prereq or coreq:** ENGL 12000
PSYCH 20500 - The Profession of Psychology (W)

GER
3/B

Open to declared majors only. Introduction to and critical analysis of the profession of psychology; examination of
theories and career options in major subfields of psychology. Students must have Internet access.
prereq: PSYCH 10000 and any other 3 cr PSYCH course, perm dept.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 21000 - Child Development

GER
3/B

Emotional, social, motor and cognitive development as influenced by genetic, cultural and individual factors during the
first twelve years of life. (May not be taken for credit by students who have a collateral major, or a minor, in
education.)
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 21200 - Exceptional Childhoods

GER
3/B

Special problems of adjustment and training of exceptional children, including the gifted as well as the intellectually,
emotionally and physically handicapped.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 21300 - Children & Adolescents with Autism

A theoretical and practical introduction to the social, biological, behavioral, and educational theories that guide our
understanding of children and adolescents with Autism Spectrum Disorder (ASD). Focusing on this important public
health issue, students learn how these theories inform public awareness, the experiences of families affected by this
disorder, the development and implementation of interventions, and public policy.

prereq: PSYCH 10000 and PSYCH 15000 (Human Development) or departmental permission
3 hrs
3 cr.
PSYCH 21400 - Adults with Developmental Disabilities

A theoretical and practical introduction to the key issues and challenges that affect the lives of adults with developmental disabilities, including adults with Autism Spectrum Disorder. Covered topics include person-centered planning, self-determination, transition planning, post-secondary education, employment, residential supports, and community living. Students learn how these challenges inform services that support full inclusion and improve quality of life.

_prereq: PSYCH 10000 and PSYCH 15000 (Human Development) or departmental permission
3 hrs
3 cr.

PSYCH 21500 - Introduction to Research Methods in Psychology (W)

GER
3/B

Evaluation of published research; research principles and the concepts which underlie them; how to evaluate and select research strategies.
_prereq: PSYCH 10000 and any other 3 cr PSYCH course
_prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 22000 - Personality

GER
3/B

Review of the contributions to the understanding of normal personality in the theories of the Freudian and other analytical schools; of Allport, of representative behaviorist groups and of constitutional typologists; also, methods of assessing and understanding individual personality.
Writing Intensive
_prereq: PSYCH 10000 and any other 3 cr PSYCH course
_prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 22100 - Psychoanalytic Theories

GER
3/B

Historical, theoretical and empirical approaches from Freud to the present; empirical evaluation and integration of these theories with learning and ethological theory.
Writing Intensive
_prereq: PSYCH 10000 and any other 3 cr PSYCH course
_prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 22300 - Abnormal Psychology
Consideration of psychological abnormalities; symptoms, etiology, diagnostic procedures and therapy.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

**PSYCH 22400 - Neuroscience**

The aim of this course is to introduce you to the biological and physiological aspect of the science of Psychology. Biopsychology is the subarea of Psychology that takes a biological approach to understanding behavior. Biopsychologists study the biological events - genetic, neural, endocrine- that underlie each and every one of our thoughts, feelings, and actions. This course will explore what is currently known about the biological basis of emotional responses, mental illness, sexual behavior, memory, states of consciousness, sensory perception, thought and language, and several neurological disorders.
prereq: PSYCH 10000 and any other 3 CR PSYCH Course; completion of ENGL 12000 with a minimum grade of C
3 hrs.
3 cr.

**PSYCH 22500 - Ethology: Animal Behavior**

Ger
3/B

Adaptation, survival, reproduction and evolution of behavior, emphasizing development and species-comparison.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

**PSYCH 23000 - Social Psychology**

Ger
3/B

Problems of human experience and behavior in the social context; theories and current methodology in research on the influence of the group on cognitive processes, motivation, personality structure and the self; attitudes and prejudice; leadership; group processes.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

**PSYCH 23500 - The Psychology of Women**

Pluralism and Diversity
PD/C
GER 3/B

Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles, power.
Writing Intensive cross-listed WGSP 23500 (W)
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 24000 - Applications of Psychology

GER 3/B

Psychological issues in business, law and medicine; consumer research, personnel selection and training, motivation and morale in industry, safety programs, testimony, lie detection and psychological issues in coping with physical illness.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 24200 - Health Psychology

GER 3/B

Psychological and behavioral factors related to physical illness and health promotion, including such areas as aging, stress and coping, pain, addiction and eating disorders.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 24300 - Cognitive Processes

GER 3/B

A survey of theoretical issues and empirical research on human cognition including attention, perception, memory, representation of knowledge, language, and problem solving.

prereq: 6 cr. in PSYCH including PSYCH 10000
3 hrs
3 cr.

PSYCH 24500 - History of Psychology (W)
Introspective, behavioristic, gestalt, psychoanalytic and related viewpoints developed from early philosophic roots of psychology.

**PSYCH 24800 - Statistical Methods in Psychological Research**

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

**PSYCH 24900 - Experimental Psychology: Social**

Introduction to the principles of research methodology and experimental techniques. Required research reports involve laboratory and field exercises concerned with a variety of social psychological phenomena. (Students may take either PSYC 249 or 250, but not both.)
Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYC 24800 with a minimum grade of C
6 hrs (2 lec, 4 lab)
4 cr.

PSYCH 29500 - Special Topics in Psychology II

GER
3/B

Readings and discussion on a selected problem or topic area. Topics will vary from semester to semester. PSYC 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)
prereq: ENGL 12000, PSYC 24900 or 25000 or perm instr.
3 hrs
3 cr.

PSYCH 30000 - Physiological Psychology

GER
3/B

Neural and endocrine mechanisms involved in learning, emotion, perception and other psychological processes. PSYC 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)
prereq: ENGL 12000. PSYC 24900 or 25000 and PSYCH 22400
3 hrs
3 cr.

PSYCH 30100 - Sensation and Perception

GER
3/B

Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYC 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)
prereq: ENGL 12000. PSYC 24900 or 25000
3 hrs
3 cr.

PSYCH 30600 - Seminar in Psychological Services I
Open to declared majors only. An integration of personality and abnormal psychology, the helping process and the role of the helper. Seminar and one day per week placement in mental health/community service setting.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)
prereq: ENGL 12000. PSYCH 2200 or 32300, PSYCH 24900 or 25000, perm instr.
8 hrs
4 cr.

PSYCH 30700 - Seminar in Psychological Services II

Integration of personality and abnormal psychology. Seminar and one day per week placement in mental health/community service setting.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)
prereq: ENGL 12000, PSYCH 30600, perm instr.
3 hrs
3 cr.

PSYCH 30900 - Behavioral Neuroendocrinology

Pluralism and Diversity
PD/C
GER
3/B

An overview of how behavior is influenced by differential hormone action and how hormones influence the development and expression of sexually dimorphic behaviors. While a biology background is not required, this course will be a biology-based discussion of behavioral endocrinology.

prereq: ENGL 12000. PSYCH 24900 or 25000 and PSYCH 22400
3 hrs
3 cr.

PSYCH 31000 - Research Methods in Developmental Psychology

GER
3/B

Open to declared majors only. Theory and research in selected areas of developmental psychology.
PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)
prereq: ENGL 12000. PSYCH 15000 or 21000, PSYCH 24900 or 25000, perm instr.
3 hrs
3 cr.

PSYCH 31300 - Adolescence
This course reviews the physical, cognitive, emotional, and social changes that typically occur during adolescence. Topics include classic and contemporary theories of adolescent development and the interactions between adolescents and their social and cultural environments.

**prereq:** ENGL 12000, Completion of PSYCH 24900 or 25000

3 hrs
3 cr.

### PSYCH 31500 - Adult Development

**GER**

3/B

Open to declared majors only. Theories and research concerning the personal and social development of men and women in adulthood; ongoing changes with age related to physical growth and decline, including marital, parental and interpersonal relationships, occupational roles, leisure activities, disability and approaching death.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

**prereq:** ENGL 12000, PSYCH 15000 or 21000, PSYCH 24900 or 25000

3 hrs
3 cr.

### PSYCH 31600 - Cognitive Neuroscience

The course will address some of the central issues in contemporary cognitive neuroscience, describe old (clinical studies) and new (brain imaging) sources of information, their limitations and their contributions to our understanding of the neural mechanisms of cognition.

**prereq:** ENGL 12000, Completion of PSYCH 24900 or 25000

3 hrs
3 cr.

### PSYCH 32000 - Neuronal Basis of Behavior (Neuroethology)

This course is designed primarily for upper level undergraduates who already have an introductory background in animal behavior, neurobiology and Psychology. The course will review the rapidly expanding field of neuroethology, providing a general introduction to the subject and some of its many model systems.

**prereq:** ENGL 12000, Completion of PSYCH 24900 or 25000

3 hrs.
3 cr.

### PSYCH 32100 - Animal Orientation

Organisms must orient to survive, including to secure shelter and food, or find mates, and return to a familiar home. This course provides an advanced understanding of how animals achieve these tasks and evaluates possible behavioral, physiological, and molecular mechanisms for orientation.

**prereq:** ENGL 12000; Completion of PSYCH 24900 or 25000 and PSYCH 22500

3 hrs.
3 cr.
PSYCH 32200 - Psychology of Language

GER
3/B

Psychological and psychophysical basis of language comprehension, production and acquisition from experimental and theoretical perspectives; the relationship between language and the cognitive processes of perception, memory and representation.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 24900 or 25000, PSYCH 27000 or perm instr.
3 hrs
3 cr.

PSYCH 32300 - Developmental Psychopathology

GER
3/B

Survey and evaluation of empirical and theoretical approaches to the major psychological abnormalities that arise in childhood and adolescence; their characteristics, causes and treatments.

prereq: ENGL 12000, PSYCH 24900 or 25000 and PSYCH 21000 or- 22300
3 hrs
3 cr.

PSYCH 32400 - Communication Behavior

This course will examine behaviors that exchange information, the evolution of the signals that carry the message, and the senses that receive it. Both human nonverbal and animal communication systems will be analyzed. Students will conduct field and library research on specific communicative behaviors.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 32500 - Animal Cognition

This course will focus on various topics and readings in animal cognition within and across species from the perspectives of animal behavior, cognitive ethology and comparative cognition. In addition to familiarizing the students with what is currently known, the course is designed to stimulate critical and creative thinking about how we investigate and understand the minds and behavior of animals as diverse as chimpanzees, dolphins, elephants, monkeys, pigeons and humans. It will focus on various topics and readings in animal cognition including categorization, discrimination learning, decision making, social learning, tool use, culture and communication.

prereq: ENGL 12000, PSYCH 24900 or 25000 and PSYCH 22500 or- 24300
3 hrs.
3 cr.

PSYCH 32700 - Motivation and Emotion
The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

**PSYCH 32800 - States of Consciousness**

The subjective and physiological aspects of consciousness; the means by which it may be altered: hypnosis, dreams, drugs, meditation and mysticism; psychosis.

**PSYCH 32900 - Cognitive Science**

Introduction to cognitive science, the interdisciplinary study of the human mind from the perspectives of psychology, linguistics, computer science, neuroscience, and philosophy.

**PSYCH 33000 - Memory and Attention**

This course is intended to provide an introduction to the processes associated with memory, attention, and their development, with particular attention given to classic and contemporary theories, and to how they interact with factors such as biology, age, culture and experience.

**PSYCH 33100 - Social Cognition of Gender**

The course examines the social cognitive and motivational processes that a) underpin beliefs about and evaluations of men and women, b) affect behaviors toward and by men and women, and c) change or entrench attitudes and behaviors.

**PSYCH 33200 - Attitudes and Persuasion**
This course reviews basic theory and research applications on attitudes and attitude change processes, including how attitudes are measured, used to predict behavior, and, to persuade individuals.

*prereq: ENGL 12000; PSYCH 24900 or 25000; and PSYCH 21000 -or- 23000

*3 hrs

*3 cr.*

**PSYCH 33300 - Advanced Social Psychology Theory and Methods**

In-depth training in the concepts and skills necessary for conducting scientific research in social psychology. Core concepts in social psychology are used as the basis for case-studies in which different methods for examining constructs are illustrated and compared.

*prereq or coreq: PSYCH 24800 with a minimum grade of C; completion of PSYCH 24900 or 25000; declaration of the psychology major.

*3 hrs

*3 cr.*

**PSYCH 33400 - Cultural Psychology**

As ours society becomes more multi-cultural, the question of how culture impacts psychological processes is increasingly important. The goal of this course is to expose students to the ways that cultural meanings, practices, and institutions influence and reflect individual human psychologies, with an emphasis on cultural variability in psychological theories and research findings. Topics include but are not limited to: a) What is cultural psychology; b) Research methods in cultural psychology; c) Historical and conceptual issues in cultural psychology d) cross-cultural models of self, attention, perception, morality, memory, human development and health, e) cultural differences in gender effects and f) policy implications of cultural psychology

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000

*3 hrs.

*3 cr.*

**PSYCH 34000 - Industrial and Organizational Psychology**

**GER**

3/B

A review of research and theories on the effects of leadership, human relations, motivation and organizational structures on behavior in business and industrial settings; applications of personnel psychology, motivational psychology and human factors engineering in the work place; job analysis, employee selection, leadership, performance appraisal, power and authority, work motivation and organizational communication.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

*prereq: ENGL 12000. PSYCH 24900 or 25000

*3 hrs

*3 cr.*

**PSYCH 34100 - Stress, Trauma, and Resilience**

This course covers the interrelated topics of stress, trauma, and resilience. The course uses a clinical science perspective to explore both normative (healthy) and problematic physiological and psychological responses to stress and trauma, as well as factors that influence resilience.

*prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
PSYCH 34200 - Emotion: Function and Dysfunction

Focus of the course will be on understanding the role of emotion in both functional and dysfunctional contexts. Through readings, class discussion, and lecture, we will address how emotions can both be vital for survival yet at the heart of so many mental disorders.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000

3 hrs.
3 cr.

PSYCH 34400 - Clinical Psychology

Clinical psychologists engage in a wide range of activities including research, teaching, assessment, administration, consultation. This course will discuss controversial issues regarding how to best define clinical psychology in a modern health practice context.

prereq: ENGL 12000, Completion of PSYCH 24900 or 250

3 hrs.
3 cr.

PSYCH 34800 - Statistics Practicum in Psychology

GER
3/B

Apply and extend statistical knowledge and data analytic skills by tutoring students in PSYCH 24800 and serving as a teaching assistant for the course. Weekly seminar meetings provide training and support. Students prepare and give statistical presentations, write homework problems, help in computer labs, and evaluate homework problems or lab assignments.

prereq: PSYCH 24800 with a minimum grade of A-, perm instr.

3 hrs.
3 cr.

PSYCH 35000 - Learning

GER
3/B

Theoretical and experimental approaches to human and animal learning; the relationship between systematic theory models and methodology; analysis of the historical and contemporary major contributions to learning theories.

prereq: ENGL 12000, PSYCH 24900 or 25000

3 hrs.
3 cr.

PSYCH 35500 - Ethnic and Cultural Identity Theories

GER
3/B
Current research and theory on ethnic and racial identity development, including components of ethnic/racial/cultural identity; historical and conceptual issues; the state of theory and research on ethnic identity as it pertains to particular ethnic groups; racial and ethnic socialization; language and ethnic identity; applications of the ethnic identity construct. 

**prereq or coreq:** Declared Psychology major; completion of PSYCH 24800 and either PSYCH 24900 or PSYCH 25000 

3 hrs 

3 cr.

**PSYCH 36100 - Psychological Tests**

**GER**

3/B

Introduction to the principles of psychological assessment; major methods of measuring general ability, aptitude, achievement, interest, personality. Appraisal of psychological tests.

**prereq:** ENGL 12000. PSYCH 24900 or 25000 

3 hrs 

3 cr.

**PSYCH 36200 - Psychological Determinants of Health Disparities**

Current research, theory, and applications related to the psychological determinants of health disparities that are experienced as a function of population characteristics, including race/ethnicity, gender, age, socioeconomic status, and sexual orientation. 

**prereq:** PSYCH 24900 or 25000; PSYCH 24200. Open only to psychology majors. 

3

3 cr.

**PSYCH 36300 - Health Behavior Change**

A theoretical and practical introduction to health behavior change. The course explores the social and behavioral theories that guide understanding of health behavior and describes how these theories are translated into testable interventions for health promotion, risk reduction, and treatment. 

**prereq:** PSYCH 24200 (Health Psychology); PSYCH 24900 or 25000; Open only to psychology majors. 

3 hrs 

3 cr.

**PSYCH 36400 - Sexuality and Health**

This course reviews the field of sexual health research, sexual health policy, and sexual health education and intervention, as well as specific topics such as the role of gender, sexual orientation, and personal motivation in sexual health. 

**prereq:** PSYCH 17000 (Psychology of Human Sexuality); PSYCH 24200 (Health Psychology); PSYCH 24900 or 25000. Open only to Psychology Majors. 

3 hrs 

3 cr.

**PSYCH 36500 - Coping with Chronic Disease**
Focuses on current knowledge of psychological adjustment to chronic health conditions, including intrapersonal, interpersonal and social determinants of adjustment using theory and empirical evidence within a stress and coping framework. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field.

**prereq:** PSYCH 24200, PSYCH 24900 or 25000. Open only to Psychology majors.

3 hrs

3 cr.

**PSYCH 36600 - Interpersonal Relationships and Health**

This course will familiarize students with current research, theory, and applications related to interpersonal processes and health, emphasizing emotional as well as physical health. It will broadly consider the literature in health psychology and relationship science and therefore maintains a biopsychosocial perspective of health and well-being. 

**prereq:** PSYCH 24200 (Health Psychology) or PSYCH 23000 (Social Psychology); PSYCH 24900 or 25000; Open only to psychology majors.

3 hrs

3 cr.

**PSYCH 36700 - Biological and Social Bases of Addictive Behavior**

A biopsychosocial approach to understanding risk factors, onset, course, treatment considerations and prognosis for common addictive behaviors. It explores the neurobiological, psychological, pharmacological, and cultural themes that unify the understanding of addictive behaviors.

**prereq:** PSYCH 24200 (Health Psychology) or PSYCH 22300 (Abnormal Psychology); PSYCH 24900 or 25000; PSYCH 30000 (Physiological Psychology). Open only to psychology majors.

3 hrs

3 cr.

**PSYCH 36900 - Behavioral Pharmacology**

**GER**

3/B

This course will provide information on the interrelationship of pharmacology and behavior. The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and psychotherapeutic agents.

**prereq:** ENGL 12000, PSYCH 24900 or 25000, PSYCH 30000 or perm instr. and PSYCH 22400

3 hrs

3 cr.

**PSYCH 37000 - Cognitive Development**

**GER**

3/B

A comparative information processing perspective on the development of mental structure and functioning, including perception, memory, problem solving, self-awareness of thinking, intelligence, concept formation and language development.
**PSYCH 38000 - Microcomputers in Psychological Research**

**GER**

3/B

An introduction to the fundamentals of microcomputer programming and digital electronics, including the structure of a computer language (BASIC), digital logic, interfacing and computer memory. Students learn to program psychological experiments, collect data, perform statistical analyses and control peripheral devices by microcomputer. Designed for advanced undergraduates.

**PSYCH 38100 - Current Topics in Animal Behavior**

Finding mates, securing shelter and food, and returning to a familiar home are ubiquitous animal functions which often require complex navigational strategies. This course will provide an advanced undergraduate level survey of the history of the field of animal orientation, and expound on ontogeny, mechanisms, and function of orienting behaviors.

**PSYCH 38200 - Current Topics in Biopsychology**

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of biological psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

**PSYCH 38300 - Current Topics in Cognitive Psychology**

Focuses on contemporary knowledge and issues in the scholarly literature in selected areas in cognitive psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term. Students may take a Current Topics in Cognitive Psychology course twice.
PSYCH 38400 - Current Topics in Developmental Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of developmental psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

prereq: PSYCH 21000 (Child Development); PSYCH 24900 or 25000. Open only to psychology majors.
3 hrs
3 cr.

PSYCH 38500 - Current Topics in Social Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in selected areas within social psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

prereq: PSYCH 23000 (Social Psychology); PSYCH 24900 or 25000. Open only to psychology majors.
3 hrs
3 cr.

PSYCH 38600 - Current Topics in Clinical Psychology

Focuses on contemporary knowledge and issues in the scholarly literature in a focused area of clinical psychology. Emphases are on interdisciplinary approaches and critical thinking, including links to theoretical, empirical, and applied foundations of the field. Topics vary each term.

prereq: PSYCH 22300 (Abnormal Psychology); PSYCH 24900 or 25000. Open only to psychology majors.
3 hrs
3 cr.

PSYCH 38700 - Current Topics in Health Psychology

Contemporary knowledge and issues in the scholarly literature in a focused area of health psychology. Emphases on interdisciplinary approaches and critical thinking, including links to theoretical and empirical foundations of the field. Topics vary each term.

prereq: PSYCH 24200; PSYCH 24900 -or- 25000; Open only to psychology majors.
3 hrs
3 cr.

PSYCH 39000 - Special Topics in Psychology III

GER
3/B

Readings and discussion on a selected problem or topic area. Topics vary from semester to semester.
prereq: ENGL 12000, PSYCH 24900 or 25000, perm instr.
3 hrs
3 cr.

PSYCH 39500 - Independent Research in Psychology
May be taken two times, but will apply to the major only once. Designed to meet the needs of individual students under the direction of a particular instructor at a more advanced level than PSYCH 20100. Such study may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research, any of these culminating in an APA-style research report or literature review. Field Placements (internships) cannot be granted credit as PSYCH 39500; however, supervised field Placement taken in conjunction with PSYCH 36100 - Psychological Tests will be granted credit as PSYCH 39500.

prereq: ENGL 12000, PSYCH 24900 -or- 25000, perm instructor and department

3 hrs
3 cr.

PSYCH 39600 - Honors in Psychology

Independent, sponsored, empirical research and seminar. Students are expected to attend the regularly scheduled seminar. An APA-style research report or its equivalent (to be filed in the department) is a requirement of this course. To graduate with departmental honors, the student must receive a grade of A in PSYCH 39600. Honors in Psychology is typically a one-semester course; however, when a PSYCH 39600 research project extends beyond a single semester, the student may (with permission) register for a second semester as PSYCH 39800. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.

prereq: ENGL 12000. PSYCH 24900 or 25000; 3.5 major GPA; 3.00 cumulative GPA; perm instr.

3 hrs
3 cr.

PSYCH 39800 - Honors in Psychology

Independent sponsored research and seminar. Attendance at regularly scheduled seminar and research report required. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.

prereq: PSYCH 39600, perm instr.

3 hrs
3 cr.

PSYCH 40000 - Special Topics in Psychology IV

GER
3/B

Readings and discussion on a selected problem or topic area. Topics vary from semester to semester.

prereq: ENGL 12000. PSYCH 24900 or 25000, perm instr.

3 hrs
3 cr.

Programs and Courses in Public Policy

Public Policy

Overview
The Public Policy program is based on the understanding that the preparation of informed individuals is the key to a vibrant participatory democracy. The program prepares students by providing essential research and analytical skills that are important goals of a strong liberal arts education. Our graduates are unique; they span many majors from Anthropology to Psychology, Chinese and Classics. Students have an opportunity to interact first-hand with policy experts and practitioners, both in the classroom and outside, and learn how policies are created, how communities come together to demand change, who benefits from specific policies, and how to measure the impact of laws. These are important skills that enable graduates to either embark on careers in public affairs and the nonprofit sector, or remain engaged in public affairs—nationally and globally—regardless of their stated major, career goals, or personal objectives.

**What can I do with my certificate in Public Policy?**

Participation in the Public Policy Program, via either the Minor or the Certificate, will provide students with skills, experience and knowledge that will strengthen their applications to graduate school or law school, and help them in their future careers.

**Public Policy Program Faculty Advisory Committee**

Public Policy

**Minor in Public Policy**

**Core Requirements**

An 18-credit undergraduate minor in public policy is open to students in all disciplines. In addition to the Core Requirements, students need to take one course in each of the four basic skill areas (political, economic, quantitative and normative analysis).

- PUPOL 10000 Introduction to Public Policy
- PUPOL 40000 Capstone Seminar
- POLSC 11000 American Government: A Historical Introduction (W)
- ECO 20000 Principles of Microeconomics
- Choose one course in Quantitative Analysis: ECO 22100 Economic Statistics -or- POLSC 20600 Research Design in Political Science (W) -or- SOC 21800 Social Inequality -or- STAT 21300 (STEM) Introduction to Applied Statistics
- Choose one course in Normative, Ethical, and Value Analysis. Such courses include but are not limited to: PHILO 10400 Introduction to Ethics and Moral Judgment -or- PHILO 10600 Philosophy, Politics and Society -or- PHILO 24400 Moral Philosophy (W) -or- SOC 21800 Social Inequality -or- POLSC 30500 Democratic Theory (W) -or- POLSC 31100 Utopian Theory (W)

Public Policy Certificate

Public Policy is an 18-credit undergraduate minor open to students in all disciplines. Students also have an option to receive a Certificate in Public Policy by taking 9 additional credits (for a total of 27 credits).

The Roosevelt House public policy program is based on the understanding that the preparation of informed individuals is the key to a vibrant participatory democracy. The program prepares students by providing essential research and analytical skills that are important goals of a strong liberal arts education. Our graduates are unique: they span many majors from Anthropology to Political Science, Women & Gender Studies to Biology. Students have an opportunity to interact first-hand with policy experts and practitioners, both in the classroom and outside, and learn how policies are created, how communities come together to demand change, who benefits from specific policies, and how public policy impacts can be best measured. These are important skills that enable students to enter competitive graduate school programs, or to embark on careers in public affairs and the nonprofit sector at the local, national or global level.

Core Requirements

An 18-credit undergraduate minor in public policy is open to students in all disciplines. In addition to the Core Requirements, students need to take one course in each of the four basic skill areas (political, economic, quantitative and normative analysis).

PUPOP 10000 - Introduction to Public Policy

An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines.

Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).

Open only to students enrolled in the program. Cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0
3 hrs
3 cr.

PUPOP 40000 - Capstone Seminar

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper.
Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research. These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

**preq:** Students must have completed 45 credits, have a declared major, and a cumulative GPA of 3.0 or higher.

3 hours
3 credits

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**

US Experience in its Diversity (USED)

**GER**

1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

**preq:** ENGL 12000 (or equivalent) or ENGL 12000 or its equivalent

3 hrs
3 cr.

**ECO 20000 - Principles of Microeconomics**

**GER**

2/B

Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets. May be taken prior to or concurrently with ECO 20100.

**preq:** Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000

3 hrs
3 cr.

**ECO 22100 - Economic Statistics**

**Hunter Core**

Mathematics and Quantitative Reasoning

**GER**

1/B
Statistical theory applied to business and economic problems; correlation, regression, time series analysis.  
**prereq:** Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500  
3hr lecture or 2hr lecture/1 hr discussion  
3 cr.

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**  
Individual and Society (Social Science) - I&S SS  
**Pluralism and Diversity**  
PD/D  
GER  
2/C  

Introduction to social and political philosophy.  
3 hrs  
3 cr.  
offered each semester

**Certificate in Public Policy: Substantive Policy Specialization**

For the Public Policy Certificate each student will take the 6 core courses (18 credits) for the Minor and will be required to declare a substantive area of specialization comprised of 3 courses (9 credits) of additional course work.  
These may be grounded in a particular discipline or disciplines and should be at the 300-level or by permission of the program director. Or a student may use the substantive specialization to take advantage of clusters of expertise that exist across several Hunter departments. Examples of the latter include (but are not limited to) immigration, health, aging, gender studies, macroeconomics, public finance, economic development, social welfare, public law, human rights, ethics, international relations, international trade, education, urban affairs, environmental studies, and labor. Courses designated for the substantive specialization need approval by the director of the program.

**Additional Opportunities**

The Public Policy Program offers other unique opportunities to its students in the form of conferences, lectures, brown bag seminars, internships and travel. These options are designed to enrich and supplement the students' experiences at the Roosevelt House Public Policy Institute.

**Generic Policy Courses**

Advanced courses which build on the knowledge and skills acquired in the core courses and are applicable to students in a wide range of substantive specializations.

**Internships**

While internships are not a formal requirement to complete the program, it is a highly recommended option. Undergraduate internship programs are designed to give students a chance to work in a policy-related institutional setting outside the university, either in a government agency, nonprofit, think tank, or advocacy group. Additionally, Roosevelt House has entered into a partnership with the prestigious Brookings Institution in Washington, DC to place a few undergraduates enrolled in the Public Policy Program to work with their scholars in the summer.
Policy Colloquia

A colloquium series will be launched at Roosevelt House that will allow students and faculty to come together several times a semester to discuss public policy issues. Guest speakers, including scholars and practitioners, with relevant expertise will be invited to discuss topics of the day either individually or in panels.

Public Policy

PUPOL 10000 - Introduction to Public Policy

An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines.

Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).

PUPOL 40000 - Capstone Seminar

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper.

Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research.

These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0
3 hrs
3 cr.

PH 41500 - Grant Writing in Public Health

Capstone course that synthesizes theory and methods of health promotion program planning: needs assessment, planning, implementation, and evaluation; and integrates these into a grant writing project.

prereq: PH 30400, PH 41100
3 hrs.
3 cr.
Programs and Courses in Religion

Religion

Overview

In the program in Religion, students examine the nature of religion and the forms its various expressions have taken. Religion is studied as an academic discipline and the program's approach reflects no doctrinal bias. The purposes of the program are to introduce the field of religion in general; to present the thoughts, documents and history of major religious traditions (both Eastern and Western, ancient and modern, missionary and tribal); and to give students insight into specific religious issues and thinkers. The program consists of a series of core courses taught by specialists in the field, augmented by other religion courses offered by faculty in 8 participating departments or divisions: Anthropology, Africana and Puerto Rican/Latino Studies, Chinese, Classics, Hebrew, History, Philosophy and Sociology. The program is divided into four categories of courses: Introduction to the field of religion (basic introductory courses); Theoretical studies in religion (courses focusing on different methodological approaches to the study of religion); Issues in religion (courses dealing with religious experience, faith, ethics, religion and the arts); and Religious traditions (courses in major religious traditions).

What can I do with my degree in Religion?

Studying theology and religious studies gives you a thorough understanding of the major world religions, their historical development and their relationship with the world we live in. Graduates continue to careers in religion, law, education, business, journalism, social work, medicine and health care.

Bachelor of Arts - BA

Degree Map for Religion

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Religion major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Religion, the courses that meet CCCR are:

REL 11000 - Nature of Religion (W)

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

REL 11100 - Approaches to Religion (W)

Hunter Core
Individual and Society (I&S) Humanities
GER
2/C

Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20400 - Religious Experience (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
Cross-cultural analysis of religious experiences: Biblical, ancient Greek, Asian, modern Western.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20500 - Faith and Disbelief (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER 2/C

Examination of questions of faith and disbelief in modern Western thought.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20600 - Ideas of God in Contemporary Western Thought (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER 2/C

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20700 - Religious Sources for Morality (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER 2/C

Religious reasons for determining good and evil; religious sources for ethical decisions.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20800 - Religion and Social Justice (W)
An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

**Prereq:** ENGL 12000

3 hrs

3 cr.

**REL 20900 - Religion and Human Rights (W)**

It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

**Prereq:** ENGL 12000

3 hrs

3 cr.

**REL 21100 - The Sacred Sky: Astrology in World Religions (W)**

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

**Prereq:** ENGL 12000

3 hrs

3 cr.

**REL 25100 - Asian Religions (W)**
Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 25200 - Ancient Near Eastern Religions (W)**

Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 25300 - Abrahamic Religions (W)**

Study of Judaism, Christianity, and Islam-- with some considerations of Zoroastrian parallels.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 25400 - Tribal Religions: From Australia to the Americas (W)**

Study of indigenous religions of Pacific Islanders and North American Indians.

**prereq:** ENGL 12000
REL 25500 - Religions of Two Gods (W)

Pluralism and Diversity
PD/A
GER
2/C

A survey of historical varieties of dualistic religion both classical and modern which inquires into the moral grounds for their recurring appeal.

prereq: ENGL 12000
3 hrs
3 cr.

REL 25600 - Afro-Caribbean Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/B
GER
2/C

An introduction to the diversity of African-based religions in the Caribbean and beyond.

prereq: ENGL 12000
3 hrs
3 cr.

REL 25700 - Religions of Ancient Central and South America (W)

Hunter Core
World Cultures and Global Issues (WCGI)

Pluralism and Diversity
P/D B
GER
2/C

Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization. The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.

prereq: ENGL 12000
3 hrs
3 cr.

REL 25800 - Religions of Ancient Europe (W)

Hunter Core
World Cultures and Global Issues (WCGI)
**Pluralism and Diversity**

P/D D
GER
2/C

Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples--the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe--as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.

*prereq: ENGL 12000*

3 hrs
3 cr.

**REL 27000 - Religion and Psychology (W)**

Pluralism and Diversity
PD/D
GER
2/C

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.

*prereq: ENGL 12000*

3 hrs
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (30 credits)**

A major in religion consists of 30 credits. A sequence of courses for the major normally includes REL 11000-Nature of Religion, REL 11100-Approaches to Religion, REL 25100-Asian Religions, and REL 25300-Abrahamic Religions followed by at least one course in theoretical studies and at least one course in religious issues.

- Introduction to the Field of Religion
- Theoretical studies in Religion
- Issues in Religion
- Religious Traditions

On becoming a major the student, in consultation with the director, will select one member of the program in Religion staff as his or her major adviser. Each religion major is required to consult with this adviser at least twice a year.

**I. Introduction to the Field of Religion**

**REL 11000 - Nature of Religion (W)**

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C
Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

REL 11100 - Approaches to Religion (W)

Hunter Core
Individual and Society (I&S) Humanities
GER
2/C

Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.
prereq: ENGL 12000
3 hrs
3 cr.

II. Theoretical Studies in Religion

REL 27000 - Religion and Psychology (W)

Pluralism and Diversity
PD/D
GER
2/C

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.
prereq: ENGL 12000
3 hrs
3 cr.

SOC 20500 - Sociology of Religion

GER
3/B

Comparative study of religion in human societies. Analysis of beliefs, myths and sacred attitudes.
prereq: SOC 10100
3 hrs
3 cr.

PHILO 26200 - Philosophy of Religion (W)

GER
3/A

Philosophical examination of some religious questions and beliefs.
prereq: one course in philosophy or religion (see statement under Program Prerequisites)
3 hrs
3 cr.
ANTHC 30700 - Anthropology of Religion

Pluralism and Diversity
PD/A
GER
3/B

Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.
3 hrs
3 cr.

REL 39000 - Modern Theories of Religion (W)

Pluralism and Diversity
PD/D
GER
3/A

An interdisciplinary continuation of the study of methodological and theoretical issues begun in REL 11100, focusing on current debates and contemporary literature.

prereq: ENGL 12000, REL 11100
3 hrs
3 cr.

REL 26000 - Special Topics: Theoretical Studies in Religion

Specialized study of a methodological approach to the study of religion. Different topic each time offered.

3 hrs  
3 cr.

**REL 20800 - Religion and Social Justice (W)**

**Hunter Core**  
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20900 - Religion and Human Rights (W)

Hunter Core
Individual and Society - Humanities
GER
2/C

It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

prereq: ENGL 12000
3 hrs
3 cr.

REL 21000 - Atheism (W)

When a person, group, or idea is called 'atheist,' is that only a statement about theology or metaphysics, or do those who use that label intend to invoke the cultural power of God and, if so, to what end? How is the concept, 'atheism,' put into action in the world, and what does what we say about atheism say about what we think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.

prereq: ENGL 12000
3 hrs
3 cr.

REL 21100 - The Sacred Sky: Astrology in World Religions (W)

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/C

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an
orderly and precise cosmology.

prereq: ENGL 12000
3 hrs
3 cr.

REL 30700 - Religious Ideas in Modern Literature (W)

Pluralism and Diversity
PD/D
GER
3/A

Exploration of religious themes in modern literature.

prereq: ENGL 12000
3 hrs
3 cr.

REL 30800 - Religion and the Arts (W)

Pluralism and Diversity
PD/D
GER
3/A

Examination of religious themes in art, music, theatre, cinema, or literature. Different topics each time offered.

prereq: ENGL 12000
3 hrs
3 cr.

REL 30900 - The Religious Meanings of Love and Sex (W)

Pluralism and Diversity
PD/D
GER
3/A

Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31000 - The Religious Meanings of Death (W)

Pluralism and Diversity
PD/D
GER
3/A

Consideration of the meaning of death in major world religions.

prereq: ENGL 12000
REL 31100 - Women and Religion (W)

Pluralism and Diversity
PD/C
GER
3/A

An examination of the role of women and the concept of the feminine in world religions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31200 - Religion and Politics (W)

Pluralism and Diversity
PD/D
GER
3/A

The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31300 - Spirit and Nature (W)

Pluralism and Diversity
PD/D
GER
3/A

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31400 - Religion and Sports (W)

GER
3/A

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport. Course foci: a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of team sports against the background of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative; and d) an arguable implicit spirituality of
sport.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31500 - The Problem of Evil (W)

Pluralism and Diversity
PD/D
GER
3/A

Exploration of the religious meaning of evil in different cultures.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31600 - Men and Religion (W)

Pluralism and Diversity
PD/C -or- PD/D

Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31700 - Religion and Film (W)

As human expressions, both religion and film attempt to describe the world and organize it into a meaningful place for human activity. This course will survey the mutual academic studies of both film and religion, as well as the emerging discipline of 'religion and film studies.' As such, students will explore the nature of vision, representation, and narrative – topics central to both film and religious studies. Students will also view and analyze films as expressions of culture, including religious culture, and seek to understand the impact of ideology and social practice, gender and sexuality, as well as the economic structures underlying both film and religion.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31800 - Religion and Science (W)

A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.

prereq: ENGL 12000
**REL 31900 - Religion and the Body (W)**

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.

*prereq: ENGL 12000*

**REL 33400 - Mysticism (W)**

**Pluralism and Diversity**
PD/D
GER
3/A

Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.

*prereq: ENGL 12000*

**REL 33500 - Myth and Ritual (W)**

**Pluralism and Diversity**
PD/D
GER
3/A

Cross-cultural exploration of myth and ritual and their place in various cultures; methodologies for analysis.

*prereq: ENGL 12000*

**REL 34000 - Homosexuality in World Religions (W)**

**Pluralism and Diversity**
PD/C
GER
3/A

A survey and analysis of typical ways in which homosexuality has been understood, evaluated and in some cases institutionalized in a variety of religious traditions, attending especially to implicit constructions of gender.

*prereq: ENGL 12000*
REL 26100 - Special Topics: Issues in Religion

Study of particular religious topics or thinkers. Different subject each time offered.

3 hrs
3 cr.

Pluralism and Diversity
PD/A
GER
3/A

Study of Islam and Buddhism, their founders, development, beliefs, rituals and interaction.

prereq: ENGL 12000

REL 32600 - Religious Meanings of the Qur'ān (W)

GER
3/A

This course introduces students to the study of the Qur'ān based on the traditional Islamic "sciences of the Qur'ān" ("Ulūm al-Qur'ān"). Using an introductory text on the Qur'ānic sciences, the course will introduce the traditional areas of concern in the Qur'ānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the textbook. This material is chosen on the basis of (1) interest, (2) accessibility (especially the availability of English translations) and (3) the ability to give students some exposure to the variety of styles and approaches to the material available in the literature, introducing the students to representative examples of the types of material referred to in the introductory text. This material provides students with illustrative exposure to both classical and modern Muslim approaches to the Qur'ān and its exegesis.

prereq: ENGL 12000

REL 33700 - Sufism (W)

Pluralism and Diversity
PD/A
GER
3/A
A course on the esoteric or mystical dimension of Islam, known among Muslims as ta'awwuf, attending to the history, doctrine and metaphysics of the Sufi path.

prereq: ENGL 12000
3 hrs
3 cr.

Tribal Religions

REL 25400 - Tribal Religions: From Australia to the Americas (W)

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A or B
GER
2/C

Study of indigenous religions of Pacific Islanders and North American Indians.

prereq: ENGL 12000
3 hrs
3 cr.

Special Topics in Traditions

REL 26200 - Special Topics: Religious Traditions

Specialized study of specific religious traditions or groups of traditions. Different topic each time offered.

3 hrs
3 cr.

REL 36200 - Special Topics: Religious Traditions

GER
3/A

Specialized study of specific religious tradition or groups of traditions. Different topic each time offered.

3 hrs
3 cr.

Independent Study

REL 41000 - Independent Study in Religion

Open to majors only. Individual research and writing on topic in religion under supervision of a religion professor.

May be taken a second or third time with another subject.

prereq: perm chair
hrs TBA
1-6 cr.
Honors

To be eligible for honors classes a student must have the director's permission and at least a 3.5 GPA in the major and cumulatively. To qualify for departmental honors, a student must complete one of the honors courses with a grade of B or above, achieving a final GPA in Religion and cumulatively of at least 3.5.

REL 45000 - Honors Seminar in Religion

Specialized study in religion. For religion majors or other advanced religion students. Different topic each time offered. May be taken a second or third time with another subject. One topic offered under REL 45000 or 49000 satisfies the course requirements for departmental honors.

prereq: five courses in religion or a major/CUNY-BA focus in religion and perm instr. or program director
3 hrs
3 cr.

REL 49000 - Honors Tutorial in Religion

Open to majors only. Individual research and writing on topic in religion under supervision of Religion Honors Committee. REL 49000 or one topic offered under REL 45000 satisfies the course requirements for departmental honors.

prereq: perm chair
hrs TBA
3-6 cr.

Degree Map for Religion

Degree Map for Religion

Undergraduate Minor

Minor in Religion

The Minor in Religion consists of four courses for a total of 12 credits.

- The following two courses are required:
  - REL 11000 - Nature of Religion (W)
  - REL 11100 - Approaches to Religion (W)
- Also required for the Minor in Religion:
  - a) one course to be chosen from those listed under the category “Religious Traditions”; and
  - b) one course from the category “Issues in Religion” reflecting a theme central to the religious tradition in which the student has chosen to focus, to be selected in consultation with a Religion Program adviser.

At least one course presented in satisfaction of the minor must be a 300-level course.

ANTHC 30700 - Anthropology of Religion
Pluralism and Diversity
PD/A
GER
3/B

Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.
3 hrs
3 cr.

REL 11000 - Nature of Religion (W)

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

REL 11100 - Approaches to Religion (W)

Hunter Core
Individual and Society (I&S) Humanities
GER
2/C

Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20400 - Religious Experience (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C

Cross-cultural analysis of religious experiences: Biblical, ancient Greek, Asian, modern Western.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20500 - Faith and Disbelief (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER 2/C

Examination of questions of faith and disbelief in modern Western thought.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20600 - Ideas of God in Contemporary Western Thought (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER 2/C

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.

3 hrs
3 cr.

REL 20700 - Religious Sources for Morality (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER 2/C

Religious reasons for determining good and evil; religious sources for ethical decisions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20800 - Religion and Social Justice (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER 2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20900 - Religion and Human Rights (W)
It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 21000 - Atheism (W)**

When a person, group, or idea is called 'atheist,' is that only a statement about theology or metaphysics, or do those who use that label intend to invoke the cultural power of God and, if so, to what end? How is the concept, 'atheism,' put into action in the world, and what does what we say about atheism say about what we think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 21100 - The Sacred Sky: Astrology in World Religions (W)**

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

3 cr.

**REL 30900 - The Religious Meanings of Love and Sex (W)**

**Pluralism and Diversity**

PD/D

GER

3/A

Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 31000 - The Religious Meanings of Death (W)**

**Pluralism and Diversity**

PD/D

GER

3/A

Consideration of the meaning of death in major world religions.

**prereq:** ENGL 12000
REL 31100 - Women and Religion (W)

Pluralism and Diversity
PD/C
GER
3/A

An examination of the role of women and the concept of the feminine in world religions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31200 - Religion and Politics (W)

Pluralism and Diversity
PD/D
GER
3/A

The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31300 - Spirit and Nature (W)

Pluralism and Diversity
PD/D
GER
3/A

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31400 - Religion and Sports (W)

GER
3/A

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport. Course foci: a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of team sports against the background of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative; and d) an arguable implicit spirituality of
sport.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31500 - The Problem of Evil (W)

Pluralism and Diversity
PD/D
GER
3/A

Exploration of the religious meaning of evil in different cultures.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31600 - Men and Religion (W)

Pluralism and Diversity
PD/C -or- PD/D

Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31700 - Religion and Film (W)

As human expressions, both religion and film attempt to describe the world and organize it into a meaningful place for human activity. This course will survey the mutual academic studies of both film and religion, as well as the emerging discipline of ‘religion and film studies.’ As such, students will explore the nature of vision, representation, and narrative—topics central to both film and religious studies. Students will also view and analyze films as expressions of culture, including religious culture, and seek to understand the impact of ideology and social practice, gender and sexuality, as well as the economic structures underlying both film and religion.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31800 - Religion and Science (W)

A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.
prereq: ENGL 12000
REL 31900 - Religion and the Body (W)

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.

**prereq:** ENGL 12000

3 hrs
3 cr.

REL 32000 - Hinduism (W)

**Pluralism and Diversity**

PD/A

GER

3/A

Study of Hinduism, its development, history, literature, philosophy and religious practices.

**prereq:** ENGL 12000

3 hrs
3 cr.

REL 32100 - Buddhism (W)

**Pluralism and Diversity**

PD/A

GER

3/A

Study of Buddhism, its development, history, literature, philosophy and religious practices.

**prereq:** ENGL 12000

3 cr.
REL 32300 - Christianity (W)

Pluralism and Diversity
PD/D
GER
3/A

Analysis of the Christian religion which employs methodologies of the academic study of religion and which aims to uncover the unity of Christian faith embodied in its various expressions.

prereq: ENGL 12000
3 hrs
3 cr.

REL 32400 - Islam and Buddhism (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of Islam and Buddhism, their founders, development, beliefs, rituals and interaction.

prereq: ENGL 12000
3 hrs
3 cr.

REL 32600 - Religious Meanings of the Qur'ān (W)

GER
3/A

This course introduces students to the study of the Qur'ān based on the traditional Islamic "sciences of the Qur'ān" ('Ulama al-Qur'ān). Using an introductory text on the Qur'ānic sciences, the course will introduce the traditional areas of concern in the Qur'ānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the textbook. This material is chosen on the basis of (1) interest, (2) accessibility (especially the availability of English translations) and (3) the ability to give students some exposure to the variety of styles and approaches to the material available in the literature, introducing the students to representative examples of the types of material referred to in the introductory text. This material provides students with illustrative exposure to both classical and modern Muslim approaches to the Qur'ān and its exegesis.

prereq: ENGL 12000
3 hrs
3 cr.

REL 33000 - New Testament Religion (W)

3 cr.

REL 33300 - Christian Theology (W)

Pluralism and Diversity
PD/D
GER
3/A

An examination of key doctrines in Christian thought such as trinity, incarnation, existence of God and grace.

prereq: ENGL 12000
3 hrs
3 cr.

REL 33400 - Mysticism (W)

Pluralism and Diversity
PD/D
GER
3/A

Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.

prereq: ENGL 12000
3 hrs
3 cr.

REL 33500 - Myth and Ritual (W)

Pluralism and Diversity
PD/D
GER
3/A

Cross-cultural exploration of myth and ritual and their place in various cultures; methodologies for analysis.

prereq: ENGL 12000
3 hrs
3 cr.

REL 33600 - Zen (W)

Pluralism and Diversity
PD/A
GER
3/A

An inquiry into the teachings of Chinese and Japanese Zen in light of their Buddhist and Daoist backgrounds.

prereq: ENGL 12000
3 hrs
3 cr.
REL 33700 - Sufism (W)

Pluralism and Diversity
PD/A
GER
3/A

A course on the esoteric or mystical dimension of Islam, known among Muslims as ta'awwuf, attending to the history, doctrine and metaphysics of the Sufi path.

prereq: ENGL 12000
3 hrs
3 cr.

REL 34000 - Homosexuality in World Religions (W)

Pluralism and Diversity
PD/C
GER
3/A

A survey and analysis of typical ways in which homosexuality has been understood, evaluated and in some cases institutionalized in a variety of religious traditions, attending especially to implicit constructions of gender.

prereq: ENGL 12000
3 hrs
3 cr.

REL 36000 - Special Topics: Theoretical Studies in Religion

GER
3/A

Specialized study of a methodological approach to study of religion. Different topic each time offered.

3 hrs
3 cr.

REL 36100 - Special Topics: Issues in Religion

GER
3/A

Study of particular religious topics or thinkers. Different subject each time offered.

3 hrs
3 cr.

REL 36200 - Special Topics: Religious Traditions

GER
3/A

Specialized study of specific religious tradition or groups of traditions. Different topic each time offered.
3 hrs
3 cr.

REL 39000 - Modern Theories of Religion (W)

Pluralism and Diversity
PD/D
GER
3/A

An interdisciplinary continuation of the study of methodological and theoretical issues begun in REL 11100, focusing on current debates and contemporary literature.

prereq: ENGL 12000, REL 11100
3 hrs
3 cr.

REL 41000 - Independent Study in Religion

Open to majors only. Individual research and writing on topic in religion under supervision of a religion professor.

May be taken a second or third time with another subject.

prereq: perm chair
hrs TBA
1-6 cr.

REL 45000 - Honors Seminar in Religion

Specialized study in religion. For religion majors or other advanced religion students. Different topic each time offered. May be taken a second or third time with another subject. One topic offered under REL 45000 or 49000 satisfies the course requirements for departmental honors.

prereq: five courses in religion or a major/CUNY-BA focus in religion and perm instr. or program director
3 hrs
3 cr.

REL 49000 - Honors Tutorial in Religion

Open to majors only. Individual research and writing on topic in religion under supervision of Religion Honors Committee. REL 49000 or one topic offered under REL 45000 satisfies the course requirements for departmental honors.

prereq: perm chair
hrs TBA
3-6 cr.

Programs and Courses in Romance Languages

Romance Languages
Overview

The Department of Romance Languages at Hunter College offers language, culture and literature courses in French, Italian, Spanish, as well as literature and culture courses in English. Our degrees include the undergraduate major and master's degrees in French, Italian and Spanish. We also offer a Romance Languages major that combines knowledge and understanding of two Romance literatures and cultures. Besides these offerings, the department has recently added a major concentration in Spanish-English/English-Spanish Translation and Interpretation, an expansion of its vision of providing professional training within the context of traditional liberal arts.

What can I do with my degree in Romance Languages?

The department is committed to equipping students for professional life: it has continued Hunter's tradition in teacher preparation, and, in conjunction with the School of Education, it sponsors TEP (Teacher Education Program), a selective scholarship-cum-practicum program leading to an MA in Spanish/Education. Most students majoring in one or two Romance languages pursue careers in education. Others enter careers in the fields of commerce, tourism, interpretation and translation and international affairs, among others.

Notes:

FREN 22000, FREN 27500, FREN 31100, FREN 31200, FREN 32100, Group A, taught in French: 12 credits must be taken from this category. No exceptions and no substitutions. Ideally, this sequence of courses should be completed before beginning 300-level courses, with the possible exception of FREN 34100 or FREN 34200, which may be started before completing all of Group A.

FREN 24100 to FREN 26200, Group B, taught in English: 0 to 9 credits may be taken in this category. Such courses may be taken simultaneously with the language sequence FREN 10100 - FREN 10200.

FREN 33500 to FREN 36500, Group C, taught in French: 9 to 18 credits must be taken from this category. Students are expected to take FREN 34100 FREN 34200 in addition to whatever other 300-level courses interest them. Depending on how many credits students take from Group B, the number of credits required from Group C will decrease. For example, if a student takes 0 credits from Group B, then the number of credits from Group C must total 18. If a student takes 3 credits from Group B, then the number of credits from Group C will total 15. Etc.

Study Abroad: a.) Compiègne: this immersion program is ideal for students who have completed one year of language study. Its successful completion will earn 6 credits toward FREN 20100 and FREN 20200. It should be completed during the summer between the first and second year; b.) Paris-CUNY Exchange Program: students are encouraged to study at least one semester in Paris. Ideally, a student should have approximately one year of upper division French courses under his or her belt before departure. Nota Bene: at least 15 credits of the major must be taken "in-residency," that is, at Hunter College. For courses taken abroad to be counted as equivalent, they must fit the course offerings in the French major.

*See department for availability of Intensive (FREN 10300 and FREN 20300).

Notes:

The French Literature concentration is ideal for students who are native speakers, or who already have an advanced level of French proficiency, and therefore require minimum language study.

FREN 31100 , FREN 31200 , FREN 32100 : 3 credits must be taken from this category. No exceptions and no substitutions. This course may be taken simultaneously with FREN 34100 or FREN 34200.

FREN 34100 and FREN 34200 : 6 credits must be taken from this category. Ideally, a student will have completed FREN 34200 before taking any 300-level course dealing with literature from the eighteenth, nineteenth, twentieth, or twenty-first centuries. Similarly, a student should have taken FREN 34100 before taking any 300-level course focusing on literature from the Middle Ages, the Renaissance, or the Grand Siècle.

FREN FREN 33500 -FREN 36500 : 21 credits must be taken from this category.

Study Abroad: a.) Compiègne: this immersion program is ideal for students who have finished one year of language study. Its successful completion will earn 6 credits toward FREN 20100 and FREN 20200. It should be completed during the summer between the first and second year; b.) Paris-CUNY Exchange Program: students are encouraged to study at least one semester in Paris. Ideally, a student should have approximately one year of upper division French courses under his or her belt before departure. Nota Bene: at least 15 credits of the major must be taken “in-residency,” that is, at Hunter College. For courses taken abroad to be counted as equivalent, they must fit with the course offerings in the French major.
*See department for availability of Intensive (FREN 10300 and FREN 20300).

Degree Map for Spanish Translation and Interpretation

Freshman Year

Fall

- One course from SPAN 39000 Translation and Interpretation for the Professions (legal, literary or medical)
- One course from ENGL 20100, ENGL 21800, ENGL 30100, ENGL 30800, ENGL 30900
- One course from Option A or B (see Notes: below for specific information)
- One course from SPAN 39100 or SPAN 39200

Notes:

Students interested in Study Abroad should speak with Professor Schinaider about the Spanish Department's summer program in Madrid, Spain, and the January program in Argentina. This program carries a minimum of 6 credit hours that may be applied to the major and 3 that will count as elective credits.

Major consists of 51-57 credits. Students who demonstrate proficiency in Spanish through a placement exam may be exempted from some courses. Please see an adviser as soon as possible for proper direction.

Choose either Option A or Option B:

Option A: two courses in Contemporary Literature written in English from the following courses (6 credits)

ENGL 32000, ENGL 32100, ENGL 37700, ENGL 37900, AFPRL 35600 (See online catalog for titles).

Option B: One course from Option A above and one of the following courses (6 credits):

ANTHC 15100, ANTHC 35100, ANTHC 35300, ANTHC 35400, AFPRL 18100, ENGL 33200, MEDPL 20100, MEDPL 20200, THEA 16100, THEA 26100, THEA 26200. These course may be counted for credits in more than one program.

French - BA

Major
The French major provides two concentrations:

- French Literature
- French Language and Civilization - BA

**Teacher Education Pathway**

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

**Study Abroad**

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.

The New York/Paris Exchange Program is open to students who wish to study a semester or a year at a French university in Paris. For the requirements and more details, contact Professor J. Przybos at (212) 772-5097. French in France is offered during June, July and August at Pau and Bayonne.

**Honors**

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

**Graduate Study**

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

**French Language and Civilization - BA**

A concentration in French language as well as in French and Francophone literature, culture and civilization. 12-24 credits from the language sequence (Group A); 0-9 credits from Group B (offered in English); and 9-18 credits from Group C (offered in French).

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.
In the case of the French Language and Civilization major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN 24100</td>
<td>World Culture and Global Issues (WCGI)</td>
</tr>
<tr>
<td>FREN 24200</td>
<td>World Culture and Global Issues (WCGI)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30-42 credits)

Students who demonstrate proficiency in French through a placement exam may be exempted from some courses.

12 credits from:

**FREN 10100 - Elementary French I**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language. FREN 10100 usually not credited without FREN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs
3 cr.

**FREN 10200 - Elementary French II**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

- Pluralism and Diversity
- PD/D
- GER
- 3/A
Readings, discussion and reports.

**prereq:** FREN 34100 and 34200; five courses in French major

3 hrs

3 cr.

**FREN 49100 - Honors Course in French**

**Pluralism and Diversity**

PD/D

Open to Jr/Sr only. Research in history of French literature.

**prereq:** FREN 34400, 34600, 34800; major GPA 3.2; cum GPA 2.8; perm adviser

3 hrs

3 cr.

**FREN 49500 - Independent Study in French Literature**

**prereq:** perm adviser

1-3 cr.

Students planning to teach in grades 7-12 must also complete 3 credits in Second Language Acquisition:

**FREN 39900 - Second Language Acquisition**

**prereq:** at least three courses at the 300 level in the language; ENGL 12000

3 hrs

3 cr.

**Degree Map for French Literature**

**Italian - BA**

The Italian major provides two concentrations:

- Italian Literature
- Italian Language and Civilization

**Teacher Education Pathway**

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

**Honors**
Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

**Graduate Study**

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

**Study Abroad**

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements). Qualified students can apply for financial aid and STOCS grants. Hunter in Italy: Summer Program in Pescara, June-July, at the University of Pescara; Italian Language courses and Italian literature and culture courses taught in English. Winter Program Hunter in Florence, held during January intersession, offers courses and Italian Culture and Literature taught in English.

**Italian Language and Civilization**

A concentration on Italian language with an emphasis on oral and written communication.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Italian major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL 28000</td>
<td>Individual and Society (H)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (30-42 credits)**

Students who demonstrate proficiency in Italian through a placement exam may be exempted from some courses.

**Degree Map**

Degree Map for Italian Literature

**Romance Languages - BA**

Courses Required for the Major (36 credits)
Students who demonstrate proficiency may be exempted from required introductory language courses. This major is intended for students who want to specialize in two Romance languages.

- 34100 and 34200 in each of two chosen languages (12 cr)
- 9 credits in advanced literature in each of the two languages (18 cr)
- 3 credits in culture or translation in each of the two languages (6 cr)

**Honors**

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

**Graduate Study**

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

**Study Abroad**

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.

**Degree Maps**

- Degree Map for Romance Languages BA (Spanish and Italian)
- Degree Map for Romance Languages BA (Spanish and French)

**Spanish - BA**

The Spanish major provides two concentrations:

- Spanish: Concentration in Spanish Literature
- Spanish: Concentration in Spanish-English/English-Spanish Translation and Interpretation BA

**Honors**

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

**Teacher Education Pathway**
Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Graduate Study

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Degree Map

Degree Map for Spanish Literature BA

Spanish: Concentration in Spanish-English/English-Spanish Translation and Interpretation BA

This program prepares students for careers in the growing translation field. Students take courses in Spanish language, literature and civilization in conjunction with specialized courses in translation/interpretation theory and practice. Allied courses in English and related fields of study are required and must be approved by the program adviser. Sufficient flexibility is built into the program so that students may tailor certain requirements to fit their individual needs and interests. An intensive internship in translation and/or interpretation serves as the student's capstone experience and preparation for future professional settings. Please see the department of Romance Languages for more details regarding this new and innovative program of study.

Courses Required for the Major (51-63 credits)

1. 100-level and 200-level courses

Students who demonstrate proficiency in Spanish through a placement exam may be exempted from some courses.

SPAN 33600 - Latin American Civilization

GER
3/A

Geographical, historical, political, literary, artistic and economic evolution of Latin American nations. Given in Spanish.

prereq: SPAN 20800, 21100 or dept. perm
3 hrs
3 cr.

4. Translation and Interpretation (15 cr.)

SPAN 38000 - Introduction to Translation and Interpretation Studies

Provides an introduction to basic concepts and techniques of translation and interpretation and develops a systematic approach to resolving language transference problems.

prereq: SPAN 31100 and 31200
3 hrs
3 cr.

Two courses from:

SPAN 38100 - Translation from Spanish into English

Develops proficiency in translating from Spanish into English. The student will work with a variety of general Spanish texts and develop skills for analyzing and rendering them accurately into English. In addition, s/he will examine the best ways to handle idiomatic expressions, tenses and other complex grammatical structures. S/he will become familiar with the relevant terminology and theoretical issues, as well as learn how to select and evaluate dictionaries and other research materials.

prereq: SPAN 38000
3 hrs
3 cr.

SPAN 38200 - Consecutive Interpretation Spanish-English/English-Spanish

An overview of the principles of consecutive interpretation.

prereq: SPAN 38000
3 hrs
3 cr.

SPAN 38300 - Translation from English into Spanish
Reinforces the basic principles of translation taught in SPAN 3800 with more advanced texts, and adds a special emphasis on style and the specific demands of certain categories of texts, as well as theoretical discussion regarding choices in translation.

*prereq: SPAN 38000
3 hrs
3 cr.*

**SPAN 38400 - Simultaneous Interpretation Spanish-English**

Designed so that students may begin working directly on the skills, protocol and practice of simultaneous interpretation, analyze in detail its processes, and review the settings in which it is used.

*prereq: SPAN 38000
3 hrs
3 cr.*

One or more courses from SPAN 39000: (topics vary. See Schedule of classes for offerings)

**SPAN 39000 - Translation and Interpretation for the Professions**

This series of courses will focus each semester on a different professional area, such as legal, medical, business, technical-scientific, social, and literary translation.

*prereq: varies by course
3 hrs
3 cr.*

One or more courses from:

**SPAN 39100 - Internship in Translation**

Students who have completed the 39000 sequence of courses and have maintained an average of B+ or better are encouraged to take advantage of this internship. It consists of 70 hours of practical work in translation for a financial institution, law firm, translation agency, the United Nations, or other organization. In addition, the student must attend regularly scheduled meetings with the professor supervising the internship in order to discuss issues and problems in the real world of professional translation.

*prereq: SPAN 38100 – 38400, 39000
3 hrs
3 cr.*

**SPAN 39200 - Internship in Interpretation**

Students who have completed the 39000 sequence of courses and have maintained an average of B+ or better are encouraged to take advantage of this internship to train them in real-world interpreting skills in the context of court interpreting, parliamentary procedure, diplomatic etiquette, conference organization, etc. This internship consists of 70 hours of practical work in interpretation as well as frequent meetings with the professor supervising the internship in order to discuss issues and problems in the real world of professional interpretation.
prereq: SPAN 38100 – 38400, 39000
3 hrs
3 cr.

Additional Course Requirements (12 credits)

1. At least two courses from among the following (6 cr.)

**ENGL 20100 - Intermediate Expository Writing Using Small-Group Methods**

Additional practice in expository writing; small classes (8-10).

prereq: ENGL 12000
3 hrs
3 cr.

**ENGL 21800 - Advanced Expository Writing**

Frequent writing practice, with emphasis on clarity, style and organization.

prereq: ENGL 12000
3 hrs + conf
3 cr.

**ENGL 30100 - Composition Theory and Practice**

GER
3/A

Study of the theory and practice of academic composition.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 30800 - Workshop in Non-Fiction I**

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.

prereq: ENGL 30000
3 hrs
3 cr.

3 cr.

SPAN 38400 - Simultaneous Interpretation Spanish-English

Designed so that students may begin working directly on the skills, protocol and practice of simultaneous interpretation, analyze in detail its processes, and review the settings in which it is used.

prereq: SPAN 38000
3 hrs
3 cr.

SPAN 39000 - Translation and Interpretation for the Professions

This series of courses will focus each semester on a different professional area, such as legal, medical, business, technical-scientific, social, and literary translation.

prereq: varies by course
3 hrs
3 cr.

SPAN 39100 - Internship in Translation

Students who have completed the 39000 sequence of courses and have maintained an average of B+ or better are encouraged to take advantage of this internship. It consists of 70 hours of practical work in translation for a financial institution, law firm, translation agency, the United Nations, or other organization. In addition, the student must attend regularly scheduled meetings with the professor supervising the internship in order to discuss issues and problems in the real world of professional translation.

prereq: SPAN 38100 – 38400, 39000
3 hrs
3 cr.

SPAN 39200 - Internship in Interpretation

Students who have completed the 39000 sequence of courses and have maintained an average of B+ or better are encouraged to take advantage of this internship to train them in real-world interpreting skills in the context of court interpreting, parliamentary procedure, diplomatic etiquette, conference organization, etc. This internship consists of 70 hours of practical work in interpretation as well as frequent meetings with the professor supervising the internship in order to discuss issues and problems in the real world of professional interpretation.
prereq: SPAN 38100 – 38400, 39000
3 hrs
3 cr.

SPAN 39300 - Medical Translation and Interpretation

An overview of translation for the medical field and related sciences. The course introduces the students to key terminology, skills, as well as ethics of work in this field.

prereq: SPAN 38000
3 hrs
3 cr.

Romance Languages, Division III: Spanish—Spanish Courses taught in English

SPAN 24100 - Civilization of Spain, in English

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
GER 2/C PD/D
An integrated presentation of Spanish civilization, combining historical with literary and other cultural aspects.
prereq: ENGL 12000
3 hrs
3 cr.

SPAN 26300 - Contemporary Spanish-American Literature in Translation

Taught in English. This course is designed for students who want to become acquainted with Spanish culture. Cannot be credited toward the major and are not recommended for the minor.
prereq: ENGL 12000
3 hrs
3 cr.

SPAN 26400 - Contemporary Spanish Literature in Translation

Cela, Lorca, Unamuno, Ortega y Gasset.
Taught in English. This course is designed for students who want to become acquainted with Spanish culture. Cannot be credited toward the major and are not recommended for the minor.
prereq: ENGL 12000
3 hrs
3 cr.

SPAN 26500 - Don Quixote (in English translation) (W)

Pluralism and Diversity
PD/D
GER
Commentary and analysis of Cervantes' novel in its entirety, read in English translation. Examination of its main themes within the sociohistorical and literary contexts, as well as its essential role in the development of the modern novel.

Writing Intensive

Programs and Courses in Sociology

Overview

Sociology is a multi-faceted discipline represented at Hunter College by a range of scholars who use diverse methods from field research to quantitative analysis and theoretical inquiry. Precisely because sociology is a broad-based discipline that encompasses theory, methods of observation, and research, sociology is both practically useful in analyzing contemporary issues and academically fascinating. The study of sociology also meets four important goals of Hunter College overall: acquisition of conceptual and analytic skills, development of intellectual and personal growth, widening students' outlook by understanding U.S. as well as global culture and values, and generating new knowledge to address local and international needs and issues. A major in sociology provides the undergraduate with the opportunity to gain a distinct intellectual perspective and a method of inquiry. By continually testing conventional wisdom against evidence, the study of sociology encourages the development of critical judgment. By routinely considering the matrix of social and cultural facts, such study can lead students to an understanding of the conditions under which social facts emerge, and the consequences they have for individuals, groups, societies and social institutions. It can also help students better understand their own roles in the array of social institutions in which they are entwined.

What can I do with my degree in Sociology?

Our courses provide a foundation for the student who desires to pursue advanced graduate studies in sociology leading to teaching positions. The department offers a wide range of specialties offering students flexibility in their choice of PhD programs. A major in sociology also helps to prepare students for many careers: social research, marketing, media, and other fields in the private sectors, as well as law, civil service and public policy, social work, the health professions, personnel work and other human-service areas. Majors are encouraged to develop skills in observation, interviewing, and other data-collection techniques; data processing; statistical and content analysis; and trend analysis — all marketable skills in many career lines.

Honors

In order to graduate with departmental honors in sociology, students must have a 3.0 GPA overall and a 3.5 GPA in sociology; at least 21 of the credits toward the major should have been courses taken at Hunter College.

Students must complete either an Honors Seminar

- SOC 47300 - Honors Seminar
  or an Honors Independent Study

- SOC 47100/SOC 47200 - Honors/Independent Study
  or

- SOC 42500 - Seminar in Selected Problems of Sociology

Additional Information

Students whose GPAs are within this range are urged to consult their adviser before planning senior year programs of study, since honors seminars are generally offered only once per year, usually in the fall semester. In addition, students qualifying for departmental honors are eligible for membership in Alpha Kappa Delta, the International Sociology Honor Society. See adviser for more information.

Internships
Provided students secure approval of a full-time faculty member, internships can be carried out for 3 to 6 credits in the areas of marketing, media, and politics, with other areas provided faculty supervision can be secured. Interested students must meet the requirements listed under the SOC 49800 entry.

**Awards**

The Department of Sociology offers four prestigious awards to outstanding students in sociology and applied social research. Once a year at the end of the spring term the Benjamin Ringer Award, carrying a cash stipend of $100, is granted for the best undergraduate paper in the areas of ethnic and race relations. The endowed Rosalyn Tough Award is granted with a tuition remission to one outstanding sociology student. Two Suzanne Keller Awards with a stipend of $250 each are granted at the end of the academic year. One goes to the graduating sociology major with the best academic record. The second Keller award is given to the best BA/MS graduate entering the field of applied social research. For more information about the awards contact the departmental advisers.

**Undergraduate Major**

**Degree Map for Sociology**

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Sociology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Notes:

The major requires 15 electives and at least 6 must be in courses at the 300 level or above. No more than 3 credits from the following may be used to satisfy this requirement.

• SOC 33100 Field Placement in Social Work Agencies
• SOC 33200 Advanced Field Placement in Social Work Agencies
• SOC 37101 Independent Study
• SOC 37200 Independent Study
• SOC 47100 Honors/Independent Study
• SOC 47200 Honors/Independent Study
• SOC 49800 Internship
Students may design their own areas of concentration but they are not required to do so.

Sociology - BA

Hunter Core Requirement
One course within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Sociology major, the course that meets CCC is:

**SOC 10100 - Introduction to Sociology**

**Hunter Core**  
Individual and Society (Social Sciences) -I&S SS  
**GER**  
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.  
*3 hrs*  
*3 cr.*

*Please note that no more than two courses from any one department will count for the CUNY Common Core.*

Courses Required for the Major (30 credits)

The department recommends a GPA of at least 2.3 when declaring the major.

1. Required Courses (9 cr.)

**SOC 10100 - Introduction to Sociology**

**Hunter Core**  
Individual and Society (Social Sciences) -I&S SS  
**GER**  
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.  
*3 hrs*  
*3 cr.*

**SOC 24000 - Introduction to Research Methods**

**GER**  
3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.  
*prereq: SOC 10100*  
*3 hrs*  
*3 cr.*

**SOC 24100 - Social Statistics**
GER
3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.

prereq: SOC 10100
3 hrs
3 cr.

2. Sociological Theory (3 cr.)

SOC 22400 - Sociological Theory (W)

This course represents an advanced undergraduate introduction to the central figures and issues in 19th and 20th century sociological theory. The course is writing intensive, and will involve drafting, revising, and submitting three written essays.

3 hrs
3 cr.

3. Capstone (3 cr.)

SOC 47000 - Sociology Capstone

SOC 47000 provides a capstone experience in Sociology. Students will build on the skills they learned in theory, methods, and elective courses with a final culminating project in which they will develop a research question, gather data or evidence to answer that question, and produce a final paper based on this research. Topics may vary.

prereq: SOC 24000, SOC 24100, SOC 22400
3 hrs
3 cr.

4. Electives (15 cr.)

Of the remaining 15 credits, at least 6 must be in courses at the 300 level or above. No more than 3 credits from the following may be used to satisfy this requirement.

SOC 33100 - Field Placement in Social Work Agencies

GER
3/B

Supervised work in social service agency, weekly seminar, preparation of weekly assignments and term paper.

prereq: SOC 10100, perm instr.
8 hrs per week
3 cr.

SOC 33200 - Advanced Field Placement in Social Work Agencies

GER
3/B
Supervised work in social service agency, weekly seminar, agency-based research project.

prereq: SOC 10100, SOC 33100 or documented equiv. experience in social work agency, perm instr.
8 hrs per week
3 cr.

**SOC 37101 - Independent Study**

**GER**
3/B

Completion of reading list and written assignment as proposed by student in consultation with full-time faculty sponsor.

prereq: SOC 10100, perm instr.
1 hr
1 cr

**SOC 37200 - Independent Study**

**GER**
3/B

Completion of reading list and written assignment as proposed by student in consultation with full-time faculty sponsor.

prereq: SOC 10100, perm instr.
3 cr. each sem

**SOC 47100 - Honors/Independent Study**

**GER**
3/B

Advanced independent research project under direction of full-time member of department.

prereq: SOC 10100, perm instr.
3 cr. each sem

**SOC 47200 - Honors/Independent Study**

**GER**
3/B

Advanced independent research project under direction of full-time member of department.

prereq: SOC 10100, perm instr.
3 cr. each sem

**SOC 49800 - Internship**

**GER**
3/B

Open to advanced majors only. Placement of qualified sociology majors off campus in professional nonsocial service
internship settings. Credits are based on analytic internship report, number of hours worked and by written evaluation by agency/company intern supervisor.
prereq: SOC 22100 or 22300 and SOC 24000; major; perm supervising full-time faculty
hrs TBA
3-6 cr.

Areas of Concentration

Students may design their own areas of concentration but they are not required to do so.

1. Urban Sociology & Immigration

SOC 21100 - Urban Sociology

GER
3/B

The relationships of space and society, with special attention to the nature and problems of urban life.
prereq: SOC 10100
3 hrs
3 cr.

prereq: SOC 10100, ENGL 12000
3 hrs
3 cr.

SOC 30100 - Medical Sociology

GER
3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.
prereq: SOC 10100
3 hrs
3 cr.

SOC 31500 - Work and Society (W)

GER
3/B

Work in market economies, mechanisms of control and sources of stratification, gender and ethnic factors, role of education and trade unions.
cross-listed WGSL 31500
prereq: SOC 10100
3 hrs
3 cr.

SOC 32100 - Sociology of Organizations

GER
3/B

Organization, structure, and processes; relationship between individual and organization.
prereq: SOC 10100
3 hrs
3 cr.

SOC 33000 - Children and Public Policy (W)

GER
3/B
Study of changes in children's lives, including family composition, parental work, child care, and poverty, as well as the day-to-day lives of children living in poverty and immigrant families. The historical evolution of public policies and current policy issues are studied as they relate to children, particularly education, income support, and health policies. International policy comparisons are highlighted.

**prereq:** ENGL 12000

3 hrs

3 cr.

- SOC 325xx Food and Society

### 3. Comparative/Cross-Cultural/Global Studies

**SOC 20500 - Sociology of Religion**

**GER**

3/B

Comparative study of religion in human societies. Analysis of beliefs, myths and sacred attitudes.

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 36100 - Development and Globalization (W)**

**Pluralism and Diversity**

PD/A

**GER**

3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 36200 - Sociology of Islam (W)**

**GER**

3/B

Introduction to Islam as religion and culture with emphasis on how misconceptions have permeated our understanding of Islam. Analysis from a historical perspective which serves as a framework for comprehending Islam's dogma, rituals, and legal system.

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 36400 - Globalism and Nationalism**
This course covers the emergence, spread, and decline of global cultural identities and practices in individual nation-states. It further explores the origin, character, and vicissitudes of nationalism in the global area.

prereq: SOC 10100
3 hrs
3 cr.

4. Culture, Media and Social Psychology

SOC 20700 - Leisure, Recreation and Sports

GER
3/B

Role and social organization of leisure and recreation in traditional and modern society.

3/B

Evaluation of specific local and national action programs.
prereq: SOC 10100
3 hrs
3 cr.

SOC 24000 - Introduction to Research Methods

GER
3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.
prereq: SOC 10100
3 hrs
3 cr.

SOC 24100 - Social Statistics

GER
3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.
prereq: SOC 10100
3 hrs
3 cr.

SOC 30700 - Migration

Pluralism and Diversity
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.
prereq: SOC 10100
3 hrs
3 cr.

SOC 31100 - Population Dynamics
GER
3/B

Comparative analysis of fertility, mortality, migration trends, and related social factors.

prereq: SOC 10100
3 hrs
3 cr.

SOC 31300 - Consumer Behavior

GER
3/B

Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

prereq: SOC 10100
3 hrs
3 cr.

SOC 32100 - Sociology of Organizations

GER
3/B

Organization, structure, and processes; relationship between individual and organization.

prereq: SOC 10100
3 hrs
3 cr

• SOC 425xx Mapping Social Science Data
• SOC 425xx Ethnographic Research & Interviewing
• SOC 425xx Research Design
• SOC 425xx Statistics
• SOC 4255 Focus Group Research
• SOC 70900 Statistics (graduate course)
• SOC 71600 – Workshop Information Technology (graduate course)
• SOC 75200 – Focus Group Research

6. Crime, Law, & Deviance

SOC 32000 - Law, Society and Civil Rights

GER
3/B

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.

prereq: SOC 10100
3 hrs
3 cr.
SOC 32200 - Drugs and Society

GER
3/B

The course focuses on the social, cultural and historical dimensions of drug use, and treats the causes and consequences of drug use and abuse as a social—rather than bio-physical phenomenon. Course topics may include: drug use as a universal phenomenon, regulatory issues related to drugs, especially in relation to race, class and subcultures; and drugs as a media phenomenon.

prereq: SOC 10100
3 hrs
3 cr.

• SOC 325xx Sociology of Crime and Punishment

7. Inequality and Social Movements: Gender, Race, Class, Sexualities

SOC 21300 - Political Sociology

GER
3/B

Power, authority, political ideologies, and patterns of participation. Articulation and resolution of political issues in contemporary societies in the context of globalization.

prereq: SOC 10100
3 hrs
3 cr.

SOC 21700 - Race and Ethnicity

Pluralism and Diversity
PD/B
GER
3/B

Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.

prereq: SOC 10100
3 hrs
3 cr.

SOC 21800 - Social Inequality

GER
3/B

Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.

prereq: SOC 10100
3 hrs
3 cr.
SOC 21900 - American Society (W)

GER
3/B

Analysis of social structures and culture of the contemporary USA.

or a graduate course

\textbf{SOC 42500 - Seminar in Selected Problems of Sociology}

Advanced seminar: reading, discussion, and papers on significant problems in sociology and in applied social research; in most cases cross-listed with graduate social research course or seminar.

\textit{prereq: SOC 10100, perm instr.}
3 hrs
3 cr

Additional Information

Students whose GPAs are within this range are urged to consult their adviser before planning senior year programs of study, since honors seminars are generally offered only once per year, usually in the fall semester. In addition, students qualifying for departmental honors are eligible for membership in Alpha Kappa Delta, the International Sociology Honor Society. See adviser for more information.

Internships
Provided students secure approval of a full-time faculty member, internships can be carried out for 3 to 6 credits in the areas of marketing, media, and politics, with other areas provided faculty supervision can be secured. Interested students must meet the requirements listed under the SOC 49800 entry.

Awards

The Department of Sociology offers four prestigious awards to outstanding students in sociology and applied social research. Once a year at the end of the spring term the Benjamin Ringer Award, carrying a cash stipend of $100, is granted for the best undergraduate paper in the areas of ethnic and race relations. The endowed Rosalyn Tough Award is granted with a tuition remission to one outstanding sociology student. Two Suzanne Keller Awards with a stipend of $250 each are granted at the end of the academic year. One goes to the graduating sociology major with the best academic record. The second Keller award is given to the best BA/MS graduate entering the field of applied social research. For more information about the awards contact the departmental advisers.

Career Opportunities

Applied Social Research

Students interested in careers in research-related fields such as media and marketing research, policy analysis and evaluation, advertising, consumer behavior, and public opinion polling, as well as students who are contemplating graduate studies in sociology, are encouraged to gain research experience through selected coursework and independent research carried out under faculty supervision.

In addition to the following, which are required for the major,

SOC 24000 - Introduction to Research Methods

GER
3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.

prereq: SOC 10100
3 hrs
3 cr.

SOC 24100 - Social Statistics

GER
3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.

prereq: SOC 10100
3 hrs
3 cr.

Select electives from the following:

SOC 25900 - Mass Media, Communication and Public Opinion (W)
Impact of mass media on public opinion and government action.

**prereq:** SOC 10100 ENGL 12000

3 hrs

3 cr.

**SOC 31100 - Population Dynamics**

**GER**

3/B

Comparative analysis of fertility, mortality, migration trends, and related social factors.

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 31300 - Consumer Behavior**

**GER**

3/B

Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

**prereq:** SOC 10100

3 hrs

3 cr.

**Additional Information**

The department has also participated in a number of programs that place qualified minority students in summer research internships at leading universities. See advisers for more information.

**Social Work**

Students interested in careers in social work or other human services are strongly encouraged to consult the pre-social work adviser (Prof. Poppendieck, Room 1603 Hunter West, (212) 772-5583, jpoppend@hunter.cuny.edu). The presocial work advising office offers information about graduate study in social work as well as help with program planning.

**Pre-social work**

Pre-social work students without work experience in the human services should plan to take the following courses that provide supervised field experience.

**SOC 33100 - Field Placement in Social Work Agencies**

**GER**

3/B
Supervised work in social service agency, weekly seminar, preparation of weekly assignments and term paper.

**prereq:** SOC 10100, perm instr.

8 hrs per week
3 cr.

**SOC 33200 - Advanced Field Placement in Social Work Agencies**

**GER**
3/B

Supervised work in social service agency, weekly seminar, agency-based research project.

**prereq:** SOC 10100, SOC 33100 or documented equiv. experience in social work agency, perm instr.

8 hrs per week
3 cr.

Ideally, this coursework should be completed by the end of the junior year, and students must meet with the instructor in the previous semester to arrange a placement.

**Directly related to social work**

While virtually all sociology courses are relevant to the practice of social work, several courses are directly related to social work

**SOC 23100 - Introduction to Social Work Profession**

**GER**
3/B

Introduction to and critical analysis of the social work profession in American society.

**prereq:** SOC 10100

3 hrs
3 cr.

**SOC 23500 - Community Organization and Action**

**GER**
3/B

Evaluation of specific local and national action programs.

**prereq:** SOC 10100

3 hrs
3 cr.

**SOC 23700 - Social Welfare Policy**

**GER**
3/B

Development of welfare institutions. Consequences of welfare services for client and community.

**prereq:** SOC 10100
3 hrs
3 cr.

SOC 23900 - Child Welfare (W)

GER
3/B

Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it. Cross-listed WGSP 23900 (W)
Prereq: SOC 10100, ENGL 12000
3 hrs
3 cr.

Graduate Courses

Qualified undergraduates seeking more advanced or specialized work may, with the permission of the instructor, be permitted to take graduate courses. Consult the graduate catalog for course listings.

Degree Map

Degree Map for Sociology

Undergraduate Major/Graduate Major

Sociology Undergraduate Curriculum

Hunter Core Requirement

One course within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Sociology major, the course that meets CCC is:

SOC 10100 - Introduction to Sociology

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.
3 hrs
3 cr.
1. Required Courses (9 cr.)

**SOC 10100 - Introduction to Sociology**

**Hunter Core**  
Individual and Society (Social Sciences) - I&S SS  
**GER**  
2/B  

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.  
3 hrs  
3 cr.

**SOC 24000 - Introduction to Research Methods**

**GER**  
3/B  

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.  
**prereq: SOC 10100**  
3 hrs  
3 cr.

**SOC 24100 - Social Statistics**

**GER**  
3/B  

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.  
**prereq: SOC 10100**  
3 hrs  
3 cr.

2. Sociological Theory (6 cr.)

**SOC 22400 - Sociological Theory (W)**

This course represents an advanced undergraduate introduction to the central figures and issues in 19th and 20th century sociological theory. The course is writing intensive, and will involve drafting, revising, and submitting three written essays.  
3 hrs  
3 cr.

**SOC 47000 - Sociology Capstone**

SOC 47000 provides a capstone experience in Sociology. Students will build on the skills they learned in theory, methods, and elective courses with a final culminating project in which they will develop a research question, gather
data or evidence to answer that question, and produce a final paper based on this research. Topics may vary.

\textit{prereq: SOC 24000, SOC 24100, SOC 22400}

3 hrs
3 cr.

3. Electives (15 cr.)

Of the remaining 15 credits, at least 6 must be in courses at the 300 level or above. No more than 3 credits from the following may be used to satisfy this requirement

**SOC 33100 - Field Placement in Social Work Agencies**

**GER**

3/B

Supervised work in social service agency, weekly seminar, preparation of weekly assignments and term paper.

\textit{prereq: SOC 10100, perm instr.}

8 hrs per week
3 cr.

**SOC 33200 - Advanced Field Placement in Social Work Agencies**

**GER**

3/B

Supervised work in social service agency, weekly seminar, agency-based research project.

GER
3/B

Advanced independent research project under direction of full-time member of department.
_prereq: SOC 10100, perm instr._
3 cr. each sem

SOC 49800 - Internship

GER
3/B

Open to advanced majors only. Placement of qualified sociology majors off campus in professional nonsocial service internship settings. Credits are based on analytic internship report, number of hours worked and by written evaluation by agency/company intern supervisor.
_prereq: SOC 22100 or 22300 and SOC 24000; major; perm supervising full-time faculty
hrs TBA
3-6 cr.

Sociology/Social Research - Accelerated BA/MS

For a limited number of qualified undergraduate students, the sociology department offers an accelerated five-year program leading to a BA in sociology and an MS in social research. The program requires a total of 145 credits of college work (100 undergraduate, 45 graduate). To get the maximum financial benefit from the BA/MS program, students should apply before the number of cumulative credits taken (including those being taken currently) exceeds 100 credits. All credits above 120 will be charged at the graduate tuition rates. The BA/MS program is a full-time program requiring 12 graduate credits per term. In order to be admitted to the program, students must complete their basic requirements, including their major, pass an honors course or its equivalent (cross listed graduate course, honors independent study), have an overall GPA of 3.25 and meet other requirements of the MS program as outlined in the graduate catalog except for the GRE examination. BA/MS applicants should have no more than 100 credits completed before entering the program and can apply for fall or spring admission. After consulting with the undergraduate adviser to establish eligibility, students may apply to the Graduate Director. Applications require a cover letter/personal statement and include a copy of one's current transcript and two letters of recommendation. Students are admitted to the BA/MS program at the end of their junior year but must consult with the undergraduate adviser before they file the application.

Curriculum

• Sociology Undergraduate Curriculum
Undergraduate Minor

Minor in Sociology

The minor in Sociology requires four courses with 12 credits which students have to pass with a GPA of at least 2.0. Students minoring in Sociology must take SOC 10100 - Introduction to Sociology, the prerequisite for all other sociology courses, SOC 22400 Sociological Theory (W) and two additional courses selected from those offered on a regular basis. It is recommended but not required that one sociology course on the 300 or higher level be included.

Sociology: Lower Division

SOC 10100 - Introduction to Sociology

Hunter Core
Individual and Society (Social Sciences) - I&S SS
GER
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.
3 hrs
3 cr.

3 hrs
3 cr.

SOC 21900 - American Society (W)

GER
3/B

Analysis of social structures and culture of the contemporary USA.

prereq: SOC 10100, ENGL 12000

3 hrs
3 cr.

SOC 22100 - Classical Sociological Theory

Pluralism and Diversity
PD/D

GER
3/B

Classical theorists and their contributions.

prereq: SOC 10100

3 hrs
3 cr.

SOC 22300 - Contemporary Sociological Theory (W)

GER
3/B

Significance of concepts and nature of evidence applied to leading theories. Theory construction.

prereq: SOC 10100, SOC 22100, and ENGL 12000

3 hrs
3 cr.

SOC 22400 - Sociological Theory (W)

This course represents an advanced undergraduate introduction to the central figures and issues in 19th and 20th century sociological theory. The course is writing intensive, and will involve drafting, revising, and submitting three
written essays.

3 hrs
3 cr.

**SOC 22500 - Seminar in Selected Problems of Sociology**

**GER**
3/B

Lower-level seminar: reading, discussion, and papers on significant problems in sociology.

*prereq: SOC 10100*
3 hrs
3 cr.

**SOC 23100 - Introduction to Social Work Profession**

**GER**
3/B

Introduction to and critical analysis of the social work profession in American society.

*prereq: SOC 10100*
3 hrs
3 cr.

**SOC 23500 - Community Organization and Action**

**GER**
3/B

Evaluation of specific local and national action programs.

*prereq: SOC 10100*
3 hrs
3 cr.

**SOC 23700 - Social Welfare Policy**

**GER**
3/B

Development of welfare institutions. Consequences of welfare services for client and community.

*prereq: SOC 10100*
3 hrs
3 cr.

**SOC 23900 - Child Welfare (W)**

**GER**
3/B

Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it.
cross-listed WGSP 23900 (W)

prereq: SOC 10100, ENGL 12000
3 hrs
3 cr.

SOC 24000 - Introduction to Research Methods

GER
3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.
prereq: SOC 10100
3 hrs
3 cr.

SOC 24100 - Social Statistics

GER
3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.
prereq: SOC 10100
3 hrs
3 cr.

SOC 25100 - Interpersonal Behavior

GER
3/B

Study of interactional processes and the emergence and maintenance of selves and identities.
prereq: SOC 10100
3 hrs
3 cr.

SOC 25300 - Deviance and Social Control

GER
3/B

Theories of causation and analysis of particular types of deviance: sexual, criminal, political.
prereq: SOC 10100
3 hrs
3 cr.

SOC 25700 - Sex and Gender Roles

Pluralism and Diversity
PD/C
GER
Sex role differentiation: femininity, masculinity, marriage, child rearing.
cross-listed WGSS 25700
prereq: SOC 10100
3 hrs
3 cr.

SOC 25900 - Mass Media, Communication and Public Opinion (W)

GER
3/B

Impact of mass media on public opinion and government action.
preeq: SOC 10100 ENGL 12000
3 hrs
3 cr.

Sociology: Upper Division

SOC 30100 - Medical Sociology

GER
3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.
preeq: SOC 10100
3 hrs
3 cr.

SOC 30700 - Migration

Pluralism and Diversity
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.
preeq: SOC 10100
3 hrs
3 cr.

SOC 30900 - Social Movements and Social Change (W)

GER
3/B

Analysis of emerging groups inducing or resisting social change often using unconventional means in historical and/or international perspective.
preeq: SOC 10100
SOC 31100 - Population Dynamics

GER
3/B

Comparative analysis of fertility, mortality, migration trends, and related social factors.

prereq: SOC 10100

SOC 31300 - Consumer Behavior

GER
3/B

Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

prereq: SOC 10100

SOC 31400 - Culture and Consumption

GER
3/B

The structure and patterning of everyday life as concerned with material well-being. Symbolic and moral dimensions of food and living arrangements, as well as commerce and the marketplace.

prereq: SOC 10100

SOC 31500 - Work and Society (W)

GER
3/B

Work in market economies, mechanisms of control and sources of stratification, gender and ethnic factors, role of education and trade unions.

cross-listed WGSL 31500

prereq: SOC 10100

SOC 31700 - Class, Status, and Power

GER
3/B
Inquiry into the empirical and conceptual relation between the fundamental sociological constructs of 'class', 'status', and 'power' through a case study of the upper class in the United States. Review of current research and relevant theoretical approaches.

**SOC 31900 - Criminology**

**GER**

3/B

Criminal behavior, arrest, and punishment. Problems of definition, administration of criminal justice.

 prerequisites: SOC 10100

3 hrs

3 cr.

**SOC 32000 - Law, Society and Civil Rights**

**GER**

3/B

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.

 prerequisites: SOC 10100

3 hrs

3 cr.

**SOC 32100 - Sociology of Organizations**

**GER**

3/B

Organization, structure, and processes; relationship between individual and organization.

 prerequisites: SOC 10100

3 hrs

3 cr

**SOC 32200 - Drugs and Society**

**GER**

3/B

The course focuses on the social, cultural and historical dimensions of drug use, and treats the causes and consequences of drug use and abuse as a social—rather than bio-physical phenomenon. Course topics may include: drug use as a universal phenomenon, regulatory issues related to drugs, especially in relation to race, class and subcultures; and drugs as a media phenomenon.

 prerequisites: SOC 10100
SOC 32500 - Seminar in Selected Problems of Sociology

GER
3/B

Upper-level seminar: reading, discussion, and papers on significant problems in sociology.
prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 32502 - Sociology of Human Rights: Violation and Protection

GER
3/B

prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 32506 - Latin American Societies

GER
3/B

prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 32519 - Economic Development and Social Inequality in Latin America

GER
3/B

prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 32600 - Sociology of Punishment

In this class, we will learn about the social origins of punishment. We will cover classic and modern theories of punishment and retrace the history of the modern penal system.

prereq: SOC 10100
3 hrs
3 cr.

SOC 33000 - Children and Public Policy (W)
Study of changes in children's lives, including family composition, parental work, child care, and poverty, as well as the day-to-day lives of children living in poverty and immigrant families. The historical evolution of public policies and current policy issues are studied as they relate to children, particularly education, income support, and health policies. International policy comparisons are highlighted

**prereq: ENGL 12000**
3 hrs
3 cr.

**SOC 33100 - Field Placement in Social Work Agencies**

Supervised work in social service agency, weekly seminar, preparation of weekly assignments and term paper.

**prereq: SOC 10100, perm instr.**
8 hrs per week
3 cr.

**SOC 33200 - Advanced Field Placement in Social Work Agencies**

Supervised work in social service agency, weekly seminar, agency-based research project.

**prereq: SOC 10100, SOC 33100 or documented equiv. experience in social work agency, perm instr.**
8 hrs per week
3 cr.

**SOC 33500 - War and Society**

The experience of war in its historical and contemporary significance. This course will examine war as a social phenomenon, emphasizing its impact on the battle front and the home front, on direct participants (combatants) and on those who are affected indirectly (civilians). We will examine the changing forms of warfare with the invention of increasingly destructive weapons; the impact on civilian communities as targets of war; the organization of the military as an institution (including recent debates about the racial and gender integration of the military and the All Volunteer Force).

**prereq: SOC 10100**
3 hrs
3 cr.

**SOC 36100 - Development and Globalization (W)**

Pluralism and Diversity

**PD/A**

**GER**
3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible
outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

prereq: SOC 10100  
3 hrs  
3 cr.

**SOC 36200 - Sociology of Islam (W)**

**GER**  
3/B  

Introduction to Islam as religion and culture with emphasis on how misconceptions have permeated our understanding of Islam. Analysis from a historical perspective which serves as a framework for comprehending Islam's dogma, rituals, and legal system.  
prereq: SOC 10100  
3 hrs  
3 cr.

**SOC 36400 - Globalism and Nationalism**

**GER**  
3/B  

This course covers the emergence, spread, and decline of global cultural identities and practices in individual nation-states. It further explores the origin, character, and vicissitudes of nationalism in the global area.  
prereq: SOC 10100  
3 hrs  
3 cr

**SOC 37101 - Independent Study**

**GER**  
3/B  

Completion of reading list and written assignment as proposed by student in consultation with full-time faculty sponsor.  
prereq: SOC 10100, perm instr.  
1 hr  
1 cr

**SOC 37102 - Independent Study**

**GER**  
3/B  

Completion of written assignment as proposed by student as approved and supervised by full-time faculty sponsor.  
prereq: SOC 10100, perm instr.
SOC 37103 - Independent Study

GER
3/B

Completion of written assignment as proposed by student as approved and supervised by full-time faculty sponsor.

_prereq: SOC 10100, perm instr._
3 hrs
3 cr.

SOC 37200 - Independent Study

GER
3/B

Completion of reading list and written assignment as proposed by student in consultation with full-time faculty sponsor.

_prereq: SOC 10100, perm instr._
3 cr. each sem

SOC 42500 - Seminar in Selected Problems of Sociology

GER
3/B

Advanced seminar: reading, discussion, and papers on significant problems in sociology and in applied social research; in most cases cross-listed with graduate social research course or seminar.

_prereq: SOC 10100, perm instr._
3 hrs
3 cr

SOC 47000 - Sociology Capstone

SOC 47000 provides a capstone experience in Sociology. Students will build on the skills they learned in theory, methods, and elective courses with a final culminating project in which they will develop a research question, gather data or evidence to answer that question, and produce a final paper based on this research. Topics may vary.

_prereq: SOC 24000, SOC 24100, SOC 22400
3 hrs
3 cr.

SOC 47100 - Honors/Independent Study

GER
3/B
Advanced independent research project under direction of full-time member of department.  
prereq: SOC 10100, perm instr.
3 cr. each sem

**SOC 47200 - Honors/Independent Study**

**GER**
3/B

Advanced independent research project under direction of full-time member of department. 
prereq: SOC 10100, perm instr.
3 cr. each sem

**SOC 47300 - Honors Seminar**

**GER**
3/B

Honors paper.  
prereq: SOC 10100, perm instr.
3 cr. each sem

**SOC 49800 - Internship**

**GER**
3/B

Open to advanced majors only. Placement of qualified sociology majors off campus in professional nonsocial service internship settings. Credits are based on analytic internship report, number of hours worked and by written evaluation by agency/company intern supervisor.  
prereq: SOC 22100 or 22300 and SOC 24000; major; perm supervising full-time faculty  
hrs TBA  
3-6 cr.

**Sociology Courses less frequently offered**

**SOC 20700 - Leisure, Recreation and Sports**

**GER**
3/B

Role and social organization of leisure and recreation in traditional and modern society.  
prereq: SOC 10100  
3 hrs  
3 cr.

**Programs and Courses in Theatre**
Theatre

Overview

The Department of Theatre offers students the opportunity to study all aspects of the art form: the making, history, and theory of theatre and drama. Theatre courses include acting, playwriting, directing, design, history, theory, puppetry, interdisciplinary performance and more. The curriculum was developed with an emphasis on professional standards within a liberal arts context. Majors are involved in practical, hands-on production work.

What can I do with my degree in Theatre?

Many students who graduate from the program work as actors, directors, stage managers, and designers. Some of our students continue their creative study in conservatory or MFA programs. Others continue their study in history and theory as MA or PhD students. Graduates who concentrate in developmental drama frequently enter the field as teachers and directors of theatre in education.

Degree Map for Theatre

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Theatre major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement[CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details
on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement. In the case of the Theatre major, the courses that meet CCC are:

**THEA 10100 - Introduction to Theatre**

*Hunter Core*
Creative Expression (CE)
**GER**
2/D

Study of elements of theatre arts acting, directing, playwriting, design from standpoints of both viewer and participant.

*3 hrs*
*3 cr.*

**THEA 21100 - World Theatre I (W)**

*Hunter Core*
Creative Expression (CE)
**Pluralism and Diversity**
**PD/D**
**GER**
2/C

Survey of international theatre from its pre-Greek origins to the Spanish Golden Age.

*prereq: ENGL 12000, THEA 10100*

*3 hrs*
*3 cr.*

GER
3/A

Principles of play analysis; examination of play structure, theatrical form, and dramatic genre.
prereq: THEA 21100 or 21200 or 21300
3 hrs
3 cr.

THEA 28100 - Visual Elements of Theatre

GER
3/A
Introduction to the theory and practice of various design elements and their contribution to theatrical production. Includes practical work on departmental productions.

prereq: THEA 10100
5 hrs
3 cr.

• Electives chosen from 300-level courses 6 cr.
• 2 production crews (not-for-credit)

plus one course selected from the following:

THEA 38100 - Scene Design I

GER
3/A

Theory and practice of scenic design for the stage. Includes practical work on departmental productions.

prereq: THEA 28100
5 hrs
3 cr.

THEA 38300 - Costume Design I

GER
3/A

Theory and practice of costume design for the stage. Includes practical work on departmental productions.

prereq: THEA 28100
5 hrs
3 cr.

THEA 38400 - Stage Lighting Design

GER
3/A

Principles, techniques, and practice of lighting for theatre, emphasizing its contribution to dramatic interpretation.

prereq: THEA 28100
5 hrs
3 cr.

THEA 38500 - Production Design I for Theatre, Film, and Television

GER
3/A

Theory and practice in scenic design for theatre, film, and television.

prereq: THEA 10100 or FILM 10100 and THEA 28500
4 hrs
3 cr.
THEA 38700 - Concepts of Light in Theatre, Film, and Television

GER
3/A

The aesthetics, styles, conventions, and vocabulary of lighting in theatre, film, and television: how light establishes style, mood, rhythm, and atmosphere as interpretive elements of performance.

prereq: THEA 28100 or THEA 28500
3 hrs
3 cr.

Honors

Open to any qualified junior or senior with a 3.5 GPA in Theatre and an overall minimum GPA of 2.7 and permission of the chair. Individual work under faculty supervision. Departmental honors granted at graduation.

Degree Map for Theatre

Undergraduate Minor

Minor in Theatre

A Minor in Theatre requires a minimum of 12 credits in the Department of Theatre at the 200-level or higher of which at least 3 credits must be at the 300-level (these are usually at least 3 credits). Minors are required to take all necessary prerequisites for these courses. Minors have access to all courses offered by the Department of Theatre. Minors are encouraged to participate in departmental and student productions. Interested students must meet with the undergraduate advisor in the Department of Theatre to declare a minor and to define their course of study.

Theatre: Basic Courses

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/C
Survey of international theatre from 19th-century Naturalism to the present day.  
prereq: ENGL 12000, THEA 10100  
3 hrs  
3 cr.

THEA 21400 - Multicultural Perspectives in Theatrical Performance (W)

Pluralism and Diversity  
PD/B  
GER  
3/A

Study of a selected minority theatre tradition in the United States: original roots, development, and influence on the cultural life of the group to be studied and on American culture in general. May be repeated for credit with a different topic.  
prereq: THEA 10100  
3 hrs  
3 cr.

THEA 21500 - Black Theatre (W)

Pluralism and Diversity  
PD/B  
GER  
3/A

Background and development, present practice, and future possibilities of Black theatre in America.  
prereq: ENGL 12000, THEA 10100  
3 hrs  
3 cr.

THEA 25100 - Theatre Production

Introduction to the theory and practice of theatrical production. Includes required practical work on departmental productions  
prereq: THEA 10100 or perm instr.  
5 hrs  
3 cr.

THEA 26100 - Acting II: American Realism

GER  
3/A

Fundamentals of scene study focusing on text analysis, personalization, objective and action using American realism.  
prereq: THEA 16100 or perm instr.  
4 hrs  
3 cr.

THEA 26200 - Acting III: World Realism
Continuation of scene study focusing on text analysis, personalization, objective and action using the world realistic repertory, such as the plays of Chekhov, Ibsen and Strindberg.
It is recommended that this course be taken with THEA 26300.

prereq: THEA 26100
4 hrs
3 cr.

THEA 26300 - Basic Voice and Movement for Performers

Linklater-based training including alignment, breath, movement skills, vibrations of sound, freeing the channel for sound, resonance. Integration of body, voice and dramatic text is emphasized.

3 hrs
3 cr.

THEA 28100 - Visual Elements of Theatre

GER
3/A

Introduction to the theory and practice of various design elements and their contribution to theatrical production. Includes practical work on departmental productions.

prereq: THEA 10100
5 hrs
3 cr.

THEA 28200 - Theatrical Design Techniques

GER
3/A

Practical training in skills of drawing, painting, and model-making necessary for designing of scenery, costumes, and lights. Studio design work included. Prerequisite for all advanced design courses.

prereq: THEA 10100

THEA 28300 - Stagecraft

The theory and practice of executing scenery for the stage, including props construction, scenic painting, rigging, and new technologies. Includes required practical work on departmental productions.

prereq: THEA 10100
3 hrs
3 cr.

THEA 28400 - Makeup for the Stage

GER
3/A

Practical instruction in use of stage makeup.
prereq: THEA 10100  
5 hrs  
3 cr.

**THEA 28500 - Design Concepts for Theatre, Film, and Television**

GER  
3/A  
Theoretical and practical elements of design in theatre, film, and television.  
prereq: THEA 10100 or FILM 10100  
3 hrs  
3 cr.

**Theatre: Upper-Level Courses**

**THEA 32100 - Play Analysis (W)**

Pluralism and Diversity  
PD/D  
GER  
3/A  
Principles of play analysis; examination of play structure, theatrical form, and dramatic genre.  
prereq: THEA 21100 or 21200 or 21300  
3 hrs  
3 cr.

**THEA 32200 - Theatre Theory and Criticism (W)**

Pluralism and Diversity  
PD/D  
GER  
3/A  
Major theatrical theories, with emphasis on modern, as applied to acting, design, directing, and playwriting.  
prereq: THEA 21100 or 21200 or 21300  
3 hrs  
3 cr.

**THEA 32300 - 20th Century Aesthetics in Theatre and Film (W)**

GER  
3/A  
Points of interaction, mutual influence, and cross fertilization between theatre and film in theory and praxis.  
prereq: THEA 21300 or FILM 21100 or 21200; ENGL 12000  
4 hrs  
3 cr.

**THEA 32400 - Adaptation in Theatre and Film (W)**
Examination of examples of works adapted to the stage or seen from another medium.

*prereq: THEA 32100 or FILM 21100 or 21200; ENGL 12000

4 hrs

3 cr.

**THEA 33100 - Avant-Garde Theatre of the 20th Century (W)**

Pluralism and Diversity

PD/D

GER

3/A

Departures from realism Expressionism, Artaud, Brecht, Grotowski from Alfred Jarry to the present.

*prereq or coreq: THEA 21100 or 21200 or 21300

3 cr.

**THEA 33200 - Theatre of Realism and Naturalism**

Pluralism and Diversity

PD/D

GER

3/A

Plays, theory, and stagecraft of realism and naturalism movements from the late 19th century to the present.

*prereq or coreq: THEA 21100 or 21200 or 21300

3 hrs

3 cr.

**THEA 33300 - Alternative Performance**

Pluralism and Diversity

PD/D

GER

3/A

Study of performance styles and practices using theatre and/or film in non-traditional modes.

*prereq: THEA 21300 or THEA 32300

3 hrs

3 cr.

**THEA 35100 - Theatre Workshop**

Individual assignments to backstage positions in production and management of departmental presentations.

*prereq: THEA 25200

5 hrs

2 cr.
**THEA 36100 - Acting: Non-realism**

GER  
3/A  

Advanced scene study from non-realistic works such as absurdist, expressionistic, and post-modern plays.

*prereq: THEA 10100, THEA 26200 or permission from instructor*  
4 hrs  
3 cr.

**THEA 36200 - Acting: Period Drama**

Pluralism and Diversity  
PD/D  
GER  
3/A  

Advanced scene study from classical plays of the Elizabethan, French Neo-Classic, Restoration and ancient Greek periods.

*prereq: THEA 21100 or 21200 or 21300; THEA 26200, 26300 or perm instr.*  
*coreq: THEA 36300*  
4 hrs  
3 cr.

**THEA 36300 - Advanced Voice and Movement for Performers**

GER  
3/A  

Continuation of training including increased capacity for breath, range, stamina, sound and movement, articulation, various classical text work. Integration of body, voice and dramatic text continues to be emphasized.

*prereq: THEA 26300*  
*coreq: THEA 36200*  
3 hrs  
2 cr.

**THEA 36400 - Mime and Masks**

GER  
3/A  

Practical course in mime and mask exercises for actors, designed to open new avenues for emotional expression.

*prereq: THEA 36300*  
4 hrs  
3 cr.

**THEA 36500 - Screen Acting**
GER
3/A

Fundamental techniques unique to acting in film and television.
prereq: FILM 10100, THEA 26200
4 hrs
3 cr.

THEA 37100 - Directing I

GER
3/A

Principles of play production; directorial concepts; focusing audience attention on dramatic values.
prereq: THEA 2100 or 21200 or 21300, THEA 26100, 32100 or perm instr.
5 hrs
3 cr.

THEA 37200 - Directing II

GER
3/A

Continued study of principles; incorporation of design elements; full laboratory production of one-act play by each student.
prereq: THEA 37100 or perm instr.
5 hrs
3 cr.

THEA 37600 - Playwriting I (W)

GER
3/A

Study of problems in playwriting based on the student's own work.
prereq: THEA 10100 or perm instr.
3 hrs
3 cr.

THEA 37700 - Playwriting II

GER
3/A

Continued study of playwriting techniques, with emphasis on the structure and form of the full length play.
prereq: THEA 37600 or perm instr.
3 hrs
3 cr.

THEA 38100 - Scene Design I
GER
3/A

Theory and practice of scenic design for the stage. Includes practical work on departmental productions.
prereq: THEA 28100
5 hrs
3 cr.

THEA 38200 - Scene Design II

GER
3/A

Continued study of theory and practice of scenic design for the stage. Includes practical work on departmental productions.
prereq: THEA 38100
5 hrs
3 cr.

THEA 38300 - Costume Design I

GER
3/A

Theory and practice of costume design for the stage. Includes practical work on departmental productions.
prereq: THEA 28100
5 hrs
3 cr.

THEA 38400 - Stage Lighting Design

GER
3/A

Principles, techniques, and practice of lighting for theatre, emphasizing its contribution to dramatic interpretation.
prereq: THEA 28100
5 hrs
3 cr.

THEA 38500 - Production Design I for Theatre, Film, and Television

GER
3/A

Theory and practice in scenic design for theatre, film, and television.
prereq: THEA 10100 or FILM 10100 and THEA 28500
4 hrs
3 cr.

THEA 38600 - Production Design II for Theatre, Film, and Television
Theory and practice in costume design for theatre, film, and television.  
*prereq:* THEA 10100 or FILM 10100 and THEA 28500  
4 hrs  
3 cr.

**THEA 38700 - Concepts of Light in Theatre, Film, and Television**

The aesthetics, styles, conventions, and vocabulary of lighting in theatre, film, and television: how light establishes style, mood, rhythm, and atmosphere as interpretive elements of performance.  
*prereq:* THEA 28100 or THEA 28500  
3 hrs  
3 cr.

**THEA 38800 - Theatres and Movie Palaces: Contemporary Culture**

Exploration of the architecture and evolution of selected 20th-century theatre and movie palaces.  
*prereq:* THEA 21300 or FILM 21100  
3 hrs  
3 cr.

**THEA 39100 - Theatre Projects**

Experimental work in design or directing for advanced theatre students.  
*prereq or coreq:* THEA 37200, 38100, perm chair  
3 hrs  
3 cr.

**Theatre: Special and Individual Studies Courses**

**THEA 25301 - Special Topics in Theatre Performance**

Credit for participation in the departmental production. This course may be taken up to three times for credit.  
*prereq: perm instr*  
5 hrs  
3 cr.
THEA 29700 - Special Topics in Theatre

GER
3/A

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester.
prereq: perm dept.
1-3 hrs
1-3 cr.

THEA 39700 - Studies in Theatre

GER
3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester.
prereq: variable
3 hrs
3 cr.

THEA 40100 - Seminar

GER
3/A

Not offered at all times. Readings, discussion, and papers on significant problems in theatre and film.
prereq: perm dept.
3 hrs
3 cr.

THEA 40200 - Independent Research

GER
3/A

Open to majors only. Directed program of reading, research, or creative presentation, arranged on an individual basis with a faculty mentor.
prereq: perm chair
1-3 hrs
1-3 cr.

THEA 49800 - Internship

GER
3/A

Placement in appropriate off-campus locations, arranged on an individual basis with a faculty mentor.
prereq: perm dept.
1-6 hrs
1 – 6
THEA 49900 - Honors Project

GER
3/A

Open to majors only. Individual work under faculty supervision, qualifies student for departmental honors at graduation.

prereq: 3.5 major GPA, 2.7 overall GPA, perm chair
3 hrs
3 cr.

Theatre: Courses offered only upon sufficient student demand

THEA 24100 - Creative Dramatics

GER
3/A

THEA 24200 - Theatre for Young Audiences

GER
3/A

THEA 24300 - Theatre for Young Audiences: Laboratory

GER
3/A

THEA 24400 - Drama and Disability

GER
3/A

THEA 34100 - Creative Drama Leadership Techniques: Special Groups

GER
3/A

THEA 34200 - Creative Drama in the Community

GER
3/A

THEA 37800 - Scriptwriting for Young Audiences: Theatre, Film, and Television

GER
3/A
Programs and Courses in Urban Policy and Planning

Urban Policy and Planning

Overview

Since its creation by advocacy planner Paul Davidoff in 1965, the Urban Policy and Planning Department has consistently upheld a vision of urban planning as a multi-disciplinary field. As component of the department, the Urban Studies undergraduate major gives students an understanding of contemporary cities economically, socially, politically and physically. Urban studies provides answers to questions about why America is car dependent, New York housing is expensive, the number 6 train is always late and crowded, or how you can make your neighborhood better.

Going beyond the walls of Hunter, the major provides field-work courses: an internship which gives job experience and a studio class, which take students into a neighborhood to solve urban problems such as the increase of clubs and noise pollution on the Lower East Side, street vending along busy streets in Jackson Heights, or lack of park space in East Harlem.

In keeping with this vision of the major, the urban studies faculty represents a wide range of disciplines including architecture, economics, history, political science, public policy, sociology, social work and urban planning. The program also benefits greatly from a distinguished part-time faculty who bring practical experience and knowledge in both public and non-profit sectors into the classroom.

What can I do with my degree in Urban Studies?

Individuals with a bachelor's degree in urban studies have found work at real estate development firms, community non-profits, local government or social service agencies. Many urban studies majors go to graduate school, most often in urban planning. Others have pursued advanced degrees in law, social work and public administration. The range of graduate school choice reflects the flexibility of the urban studies curriculum and its focus on a myriad of issues from a variety of perspectives. Urban studies graduates have completed Master's degrees at Harvard, Cornell, MIT, Rutgers, and other prestigious universities across the country.

Programs and Courses

Programs and Courses in Urban Policy and Planning

Honors

Overall GPA: 3.2 and above. Major GPA: 3.5 and above.

Internships

The Public Service Scholar Program seeks to improve our cities and the lives of people by preparing talented students particularly women, minorities and immigrants for public service careers through internships with elected officials,
government, and nonprofit organizations. The program runs for a full academic year and combines internship placements in the offices of senior officials and administrators with intensive seminars on public policy issues, social change, government and nonprofit organizations. The program is open to any Hunter College student, regardless of major, who has a minimum 3.0 GPA and who is within 45 credits of graduation at the beginning of the program in the fall semester. Admission of up to 24 students is competitive. Applications are accepted starting in November with a deadline of March 15th. Students accepted as Public Service Scholars receive 12 academic credits and a $6,000 stipend. Because women, minorities and immigrants have been traditionally underrepresented in public policy making and leadership positions, special efforts are taken to encourage them to apply for the program. Interested students should contact the Public Service Scholar Program, Room 1643 Hunter West, (212) 772-5599 or email pssp@hunter.cuny.edu.

Undergraduate Major

Urban Studies - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement[CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details
on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Urban Studies major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>URBS 10100</td>
<td>Individual and Society (I&amp;S SS)</td>
</tr>
<tr>
<td>URBS 10200</td>
<td>Individual and Society (I&amp;S SS)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30 credits)

Urban studies majors must complete 30 credits of courses that provide a rigorous background that will make students competitive job seekers or graduate school applicants. The core includes an introductory course as well as classes about the city's physical structure, public policies and research methods, both qualitative and quantitative. The urban studies core provides a foundation for more advanced courses. In addition to the core and advanced courses, the major requires an internship, elective courses, and interdisciplinary set of classes from several social science disciplines, e.g., political science, history, and economics.

A. Urban Studies Core (15)

**URBS 10100 - Urban Life: Personal and Observational View (W)**

**Hunter Core**  
Individual & Society - Social Science I&S SS  
GER  
2/B  

Introduction to urban studies allowing students to translate personal knowledge and experience of New York City to more theoretical understanding of urbanism. Includes four projects dealing with mapping, immigration, census data analysis, and local development issues.  
3 hrs  
3 cr.

**URBS 10200 - Structure of Urban Region (W)**

**Hunter Core**  
Individual and Society Social Science (I&S SS)  
GER  
2/B  

Introduction to forces shaping institutions and life of contemporary American urban regions. Focus on evolving metropolitan economic, social, demographic, spatial, and political systems, and their relevance to current policy.  
prereq: URBS 10100 or relevant intro course (e.g., ECO 10000 or 20100-20200; GEOG 10100, PLSC 11100, SOC 10100) or perm instr.  
3 hrs  
3 cr.
URBS 20100 - Urban Plans and Policies

GER
2/B

Includes the study of the policy making process, major plans/policies (e.g. War on Poverty, urban renewal, neighborhood rezoning), "politics/power," the role of non-profits in urban planning and policy making.

prereq: URBS 10200 or 6 cr. intro social science courses or perm instr.
3 hrs
3 cr.

URBS 31000 - Methods of Urban Research and Policy Analysis

GER
3/B

Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.

prereq: URBS 10200 or perm instr.
3 hrs
3 cr.

URBS 31100 - Quantitative Approaches to Urban Analysis

GER
3/B

A survey of quantitative methods used to analyze urban policy and plans. Students are taught about demography, data analysis, and benefits cost analysis.

prereq: Open only urban studies majors who have completed the URBS 10100/10200 sequence or perm instr.
3 hrs
3 cr.

B. Urban Studies Electives (6)

Any two (2) 400-level courses in Urban Studies may fulfill this requirement

Examples:

URBS 40100 - Managing Urban Physical Environment

GER
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and
the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.

prereq: URBS 20100 or perm instr.
3 hrs
3 cr.

URBS 40200 - Urban Studies Studio

GER
3/B

This course is structured as a site-based research project where the classroom will extend into the city to actual project. In particular, students will work to understand the structural elements of development as it is taking place in one location, for example, the Hudson Yards on the Far West side of Manhattan. A goal is to see how theory holds up to reality; how ideas are linked to practice.

prereq: URBS 20100 or perm instr.
3 hrs
3 cr.

URBS 40300 - Selected Topics in Urban Affairs

GER
3/B

Intensive examination or investigation of specialized topics or new developments in literature and research.

3 hrs
3 cr.

C. Fieldwork Component 3 cr

URBS 40900 - Urban Studies Internship

GER
3/B

Students gain first-hand experience by working in urban-related public, private, or non-profit agencies. The internships provide knowledge about urban planning or policy issues.

Open only to declared urban studies majors within 45 credits of graduation.

3 hrs
3 cr.

D. Basic Social Science Component 6 cr

Select two from:

AFPRL 38400 - Poverty in Society (W)
Causes and effects of deprivation, with emphasis on policy and program approaches for African Americans and Puerto Ricans/Latinos.

prereq: successful completion of any 2 AFPRL courses
3 hrs
3 cr.

**AFPRL 42000 - The Black Church and Social Change**

GER 3/B

In-depth study of the sociopolitical role of Black church in political struggle of Black people with special emphasis on America.

prereq: AFPRL 20300 or 20400 or 20500 or perm instr.
3 hrs
3 cr.

**ECO 33000 - Economic Development**

Pluralism and Diversity
PD/A
GER 3/B

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.

prereq: ECO 20000
3 hrs
3 cr.

**GEOG 22700 - Environmental Conservation: Urban Problems**

GER 3/B

Covers topics related to environmental problems and their connection to urban areas. The course will begin with a survey of urban systems (transport, water, food, waste and energy) followed by investigating how these systems contribute to environmental problems and their solutions. This investigation will also include a discussion about the connections between rural and urban areas and urban planning that attempts to minimize environmental hazards.

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**

GER 3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.
prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 35700 - Geography of New York City and Vicinity

GER
3/B
An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessability.)

Open to Jr/Sr only.
prereq: GEOG 10100 or GEOG 15000
3 hrs
3 cr.
Offered fall.

HIST 31700 - History of the American City

Pluralism and Diversity
PD/D
GER
3/B
History of the American city from the Colonial era to the present; development of the city as physical environment, social experience, political entity and cultural symbol.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

POLSC 21200 - Urban Politics (W)

GER
3/B
Politics in New York City and other urban areas. Decentralization, suburbanization, race, ethnicity, reform.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

SOC 21100 - Urban Sociology

GER
3/B
The relationships of space and society, with special attention to the nature and problems of urban life.
prereq: SOC 10100
3 hrs
3 cr.

**SOC 21700 - Race and Ethnicity**

**Pluralism and Diversity**
PD/B  
GER  
3/B

Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.

*prereq: SOC 10100*
3 hrs
3 cr.

**SOC 21800 - Social Inequality**

GER  
3/B

Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.

*prereq: SOC 10100*
3 hrs
3 cr.

**SOC 23500 - Community Organization and Action**

GER  
3/B

Evaluation of specific local and national action programs.

*prereq: SOC 10100*
3 hrs
3 cr.

**URBS 40100 - Managing Urban Physical Environment**

GER  
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.

*prereq: URBS 20100 or perm instr.*
3 hrs
3 cr.

**URBS 40200 - Urban Studies Studio**
This course is structured as a site-based research project where the classroom will extend into the city to actual project. In particular, students will work to understand the structural elements of development as it is taking place in one location, for example, the Hudson Yards on the Far West side of Manhattan. A goal is to see how theory holds up to reality; how ideas are linked to practice.

*prereq: URBS 20100 or perm instr.*

3 hrs
3 cr.

**URBS 40300 - Selected Topics in Urban Affairs**

Intensive examination or investigation of specialized topics or new developments in literature and research.

3 hrs
3 cr.

**Additional Information**

*Students should consult with a program advisor to choose 6 credits (2 courses) of upper-level social science classes appropriate to students' interest. This component can also be met by another 300- or 400-level urban-related course, if approved by the undergraduate advisor.*

**Departmental Honors: Eligibility Criteria**

Overall GPA: 3.2 and above

Major GPA: 3.5 and above

**Graduate Courses**

The following graduate courses are open to senior urban studies majors. Other graduate-level courses may be taken by seniors with permission of the instructor:

URBP 70100 History and Theory of Urban Planning

URBG 70200 Structure of the Urban Region

In addition to these two courses, there are cross-listed classes, offered each semester, that are open to undergraduate students.

**Degree Map**

Degree Map for Urban Studies

**Undergraduate Minor**
Arts Management and Leadership Certificate

The new Arts Management and Leadership (AML) certificate draws on current strengths within existing departments and utilizes existing courses, relying on the research and creative interests of associated faculty to provide a compelling basis for study of the burgeoning field of arts management and leadership. The program serves students interested in careers in both the visual and the performing arts, and focuses on entrepreneurial, for-profit and non-profit arts organizations as well as on established cultural institutions. This new certificate program is designed to make undergraduate students at Hunter aware of employment opportunities offered by the arts organizations of New York and to help them prepare for both entry-level jobs and satisfying long-term careers in arts management. This plan focuses on the skills and knowledge needed to make arts organizations effective. Students will learn how artists and other professionals in cultural organizations face and solve problems of marketing, regulation, audience development and sustainability, as well as many other complex difficulties faced by arts leaders and managers.

Program Description

The AML certificate is a 15-credit program. It is taken in concurrence with any undergraduate major at Hunter College. This is a new program. It begins spring 2019.

Courses Required for the Certificate

Prerequisites of required courses will be waived by the department offering the course for students pursuing the certificate. Students may apply 6 credits from the certificate program towards other programs. Students who are majoring in Accounting may replace the ACC 22500 and ACC 23000 requirements with ACC 28000 and ACCP 37400. ACC 28000 and ACCP 37400 can be used for both the Accounting-BS and the Arts Management certificate.

The certificate program in Arts Management and Leadership includes four 3-credit courses, plus a 3-credit internship with a mentored capstone project, for a total of 15 credits. Students must maintain a 2.5 GPA in required courses to receive this certificate.

URBS 20300 - Introduction to Arts Management

In this course, we will explore the state of the art communities in the contemporary United States, discover how we arrived at the kinds of organizations in which much art is typically produced today, and learn the basic principles of arts management. We will also take advantage our location in New York City—a world capital for careers in the arts—to learn about arts management from leaders who have built careers at some of the nation's most respected arts and cultural organizations.

prereq: ENGL 12000
3 hrs
3 cr.

ACC 22500 - Survey of Accounting

An introductory accounting survey course designed specifically for non-majors to gain understanding of business terminology and the role of accounting in business environment. It will specifically focus on providing students with the ability to understand and effectively analyze financial information using the financial statements of a company (as an external user), as well as internal company information that will enhance business decision-making process such as budgeting (as an internal user), combining both financial and managerial accounting areas. It will also briefly introduce
the basics of non-profit accounting while highlighting differences between for-profit and non-profit accounting information needs and presentations (See attached sample syllabus).
For non-accounting majors only.

prereq: none (cannot be used towards Accounting major)
3 hrs
3 cr.

**MEDP 39900 - Special Topics in Advanced Media Production**

Taught periodically, with topic listed in Schedule of Classes.

*prereq:* MEDIA 18000, others variable
3 hrs
3 cr.

(MEDP 39991 Strategic Communication and Marketing for the Arts)
Theory and practice of effective strategic communications and marketing for non-profit arts organizations and art and media businesses. Students learn techniques for formal and creative industry-leading techniques for maximizing exposure for a cause or brand through public relations, social media and digital media storytelling tools. Students will create a fictional organization around which they will build a cohesive media strategy, utilizing cutting-edge tools and best practices to develop long-term media strategy, breaking news, crisis communications and brand elevation. Students will be positioned to become a one-stop shop for leading strategic media engagement and staying above the fray in a quickly evolving landscape.

**ACC 23000 - Essentials of Business Law**

An introductory business law survey course designed specifically for non-majors to allow them to gain an understanding of basic legal concepts and terminology and the role of law in the business environment. It will specifically focus on the legal issues often encountered in business, including contract law, property law, negotiable instruments, secured transactions and bankruptcy, business entities.
For non-accounting majors only.

*prereq:* none (cannot be used towards Accounting Major)
3 hrs
3 cr.

**URBS 40900 - Urban Studies Internship**

**GER**
3/B

Students gain first-hand experience by working in urban-related public, private, or non-profit agencies. The internships provide knowledge about urban planning or policy issues.

Open only to declared urban studies majors within 45 credits of graduation.
3 hrs
3 cr.

**Program Outcome**

By the end of this program, students will be able to demonstrate understanding of:

- how creators, entrepreneurs, advocates, policy makers, and others fit into a broad system of financing, management, marketing, and regulation
• how new opportunities for artist and audience connections are forged
• the workings of non-profit organizations, such as museums, orchestras, and community theaters
• the likely long-term success of an arts organization in terms of its artistic qualities, its managerial strength, the depth of its support, and the likely strength of its market position
• the financing of arts and media projects, including entrepreneurial endeavors that students might create or on which they might collaborate.

Urban Policy and Planning

URBS 10100 - Urban Life: Personal and Observational View (W)

Hunter Core
Individual & Society - Social Science I&S SS
GER
2/B

Introduction to urban studies allowing students to translate personal knowledge and experience of New York City to more theoretical understanding of urbanism. Includes four projects dealing with mapping, immigration, census data analysis, and local development issues.

3 hrs
3 cr.

URBS 10200 - Structure of Urban Region (W)

Hunter Core
Individual and Society Social Science (I&S SS)
GER
2/B

Introduction to forces shaping institutions and life of contemporary American urban regions. Focus on evolving metropolitan economic, social, demographic, spatial, and political systems, and their relevance to current policy.

prereq: URBS 10100 or relevant intro course (e.g., ECO 10000 or 20100-20200; GEOG 10100, PLSC 11100, SOC 10100) or perm instr.

3 hrs
3 cr.

URBS 20100 - Urban Plans and Policies
GER
2/B

Includes the study of the policy making process, major plans/policies (e.g. War on Poverty, urban renewal, neighborhood rezoning), "politics/power," the role of non-profits in urban planning and policy making.

_prereq: URBS 10200 or 6 cr. intro social science courses or perm instr._
3 hrs
3 cr.

**URBS 20300 - Introduction to Arts Management**

In this course, we will explore the state of the art communities in the contemporary United States, discover how we arrived at the kinds of organizations in which much art is typically produced today, and learn the basic principles of arts management. We will also take advantage our location in New York City—a world capital for careers in the arts—to learn about arts management from leaders who have built careers at some of the nation's most respected arts and cultural organizations.

3 hrs
3 cr.

**URBS 31000 - Methods of Urban Research and Policy Analysis**

GER
3/B

Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.

_prereq: URBS 10200 or perm instr._
3 hrs
3 cr.

**URBS 31100 - Quantitative Approaches to Urban Analysis**

GER
3/B

A survey of quantitative methods used to analyze urban policy and plans. Students are taught about demography, data analysis, and benefits cost analysis.

_prereq: Open only urban studies majors who have completed the URBS 10100/10200 sequence or perm instr._
3 hrs
3 cr.

**URBS 40100 - Managing Urban Physical Environment**

GER
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.
prereq: URBS 20100 or perm instr.

Intensive examination or investigation of specialized topics or new developments in literature and research.
3 hrs
3 cr.

**URBS 40354 - Seminar on the City**

GER
3/B

Provides an historical, political and economic context for the region's major policy issues. The course introduces students to the complexities of New York City's governance and its public service sectors. Students develop a framework and tools for addressing relevant questions about the functions of the city, drawing on lectures, speakers, readings, field visits, interviews and internship experiences.

This is a 3-credit per semester course. May be repeated one time with permission of the director of public service scholar program. Open only to Public Service Scholar students.
3 hrs
3 cr.

**URBS 40900 - Urban Studies Internship**

GER
3/B

Students gain first-hand experience by working in urban-related public, private, or non-profit agencies. The internships provide knowledge about urban planning or policy issues.

Open only to declared urban studies majors within 45 credits of graduation.
3 hrs
3 cr.

URBS 49806 - Public Service Scholar In-Service Seminar

GER
3/B

The Public Service Scholar In-Service seminar identifies and examines the types of learning that occur in the internship, including development of skills in management, problem solving, policy analysis, networking, time management, fundraising and performance evaluation.

This is a year-long course. Students register each semester. No credit awarded for first semester unless both semesters are successfully completed.

6 hrs (3 per semester for two semesters)
6 cr. (3 per semester for two semesters)

School of Urban Public Health

OVERVIEW

Hunter College's School of Urban Public Health educates students to contribute to improving urban health by addressing problems such as HIV, substance abuse, asthma, obesity, under-nutrition, violence, heart disease and cancer. The school offers undergraduate programs in Community Health and Nutrition and Food Science. Hunter's School of Urban Public Health shares an eight-story, 147,000-square-foot green building on Third Avenue between East 118th and 119th Streets with the Silberman School of Social Work at Hunter College. Faculty, staff and students from both schools work closely with community organizations and health and social service agencies in East Harlem to strengthen existing and create new approaches to improving the well-being of East Harlem and other low-income communities.

What can I do with my degree in Community Health?

This program is designed to prepare students for work in community-based and human rights organizations, family planning clinics, mental health centers, homeless shelters, research centers, media organizations, as well as in city, state and national health departments.

What can I do with my degree in Nutrition and Food Science?

The major prepares students to work in a variety of career settings. NFS majors can work with athletes, weight control and fitness programs, special groups like WIC (Women, Infants & Children) in community settings, food service industries like hotels, airlines, universities, food service chains, and industrial cafeterias. Graduates can become food science technical specialists and conduct research, development and quality control of food products for food companies. It is also possible to use foods and nutrition knowledge for jobs in advertising, marketing and in the mass media. Students can become consultants to television programs, or write articles on food for newspapers. Students may take steps after graduation to enter a graduate didactic program in dietetics (DPD) at Hunter or elsewhere to become registered dietitians (RD), or pursue graduate study in allied health, social work, scientific research, or other human service professions. (Note: The NFS-BS undergraduate major is not a didactic program in dietetics (DPD) and does not prepare the student to become a registered dietitian. At Hunter, the DPD is on graduate level (NUTR-MS).)
Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Commission on Accreditation for Dietetics Education (CADE), the credentialing arm of the American Dietetic Association (ADA), the program will qualify students from the BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

**Faculty**

Faculty of the School of Urban Public Health

**Accelerated BS/MS in Nutrition (DPD)**

This pathway is for third year NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement (students will be provisionally accepted into the program in their junior year but must maintain grade requirements to matriculate into the MS-DPD program).

This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework providing students the opportunity for academic acceleration to a graduate degree.

Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), the credentialing arm of the Academy of Nutrition and Dietetics (AND), it will qualify students from this BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.
To become an RD, students must have:

- Completed a minimum of a bachelor's degree at a US regionally accredited university or college
- Completed the DPD coursework (didactic program in dietetics) approved by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND),
- Completed an ACEND-accredited supervised practice program such as a dietetic internship (DI). The Hunter DI is described in the graduate catalog and online at www.hunter.cuny.edu/schoolhp/nfs. For further information on the Hunter DI, contact Prof. Ann Gaba at agaba@hunter.cuny.edu.
- Passed a national examination administered by the Commission on Dietetic Registration (CDR).

Career Opportunities for students graduating with this accelerated BS/MS:

Dietetics is an allied health profession which focuses on the food and nutrition intake of individuals and its relationship to health. Registered dietitians are trained in the sciences and are able to translate scientific findings and help people live healthy lives. Major areas of practice include clinical, community, management, and consultant dietetics. More than half of all dietitians and nutritionists are found to work in hospitals, nursing homes, and physician's offices and clinics. More information about career opportunities may be found on the Academy of Nutrition and Dietetics's website at [http://www.eatright.org](http://www.eatright.org)

Academic Requirements for Entry into the BS-MS

Students must be able to complete the NFS major and graduation requirements in about 96-102 credits, must have an overall GPA of 3.5 and prerequisite GPA of 3.2 or better to be considered.

Prerequisite courses

**CHEM 10000 (STEM) - Essentials of General Chemistry Lecture**

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)

**GER**

GER 2/E

Essential facts, laws, and theories of general chemistry. Primarily for nursing, nutrition and food science and community health education students. Core credit only if both lecture and the corresponding lab are completed.

*prereq or coreq: MATH 10100 or 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

4 hrs (3 lec, 1 rec)

3 cr.

**CHEM 10100 - Inquiries into the Nature of Matter**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**GER**

GER 2/E
A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students. Primarily for nursing, nutrition and food science and public health students.

3 hrs
3 cr.

**CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture**

_Hunter Core_
Life and Physical Sciences (LPS); Scientific World (SW)

_Pluralism and Diversity_
GER 2/E

Course presents essential facts, laws and theories of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

_prereq: CHEM 10000_

4 hrs (3 lec, 1 rec)  
3 cr.

**CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory**

_Hunter Core_
Life and Physical Sciences (LPS); Scientific World (SW)

_Pluralism and Diversity_
GER 2/E

Experiments designed to illustrate fundamental laws and techniques of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and public health students.

_prereq: CHEM 10100_

_prereq or coreq: CHEM 12000_

3 hrs (3 lab)  
1.5 cr.

**BIOL 12000 - Anatomy and Physiology I**

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program. Not accepted for credit toward the biology major.

_prereq: CHEM 10000, 10100_

_coreq: CHEM 12000, 12100_

7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)  
4.5 cr.  
fall only

**BIOL 12200 - Anatomy and Physiology II**
Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program.
Not accepted for credit toward the biology major.

prereq: BIOL 12000 or equiv.
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
spring only

**BIOL 23000 - Fundamentals of Microbiology**

**GER**
3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program.
Not accepted for credit toward the biology Major I.

prereq: CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200
5 hrs (2 lec, 3 lab)
3 cr.
spring only

**NFS 14100 - Nutrition**

**Hunter Core**
Scientific World (SW)
Fundamentals of the science of nutrition as they apply to individuals and society.
Open to all students.
3 hrs
3 cr.

**NFS 13100 - Food Science I**

Basic principles of the chemical and physical nature of foods, food sanitation and safety; the nutritional value of food in relation to storage, processing and preparation.
Open to all students.
3 hrs
3 cr.

**STAT 11300 - Elementary Probability and Statistics**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
Students take graduate courses after completing 96 credits

Students must have completed the NFS major and academic requirements for their undergraduate degree in about 96 credits, must have an overall GPA of 3.5 and pre-requisite GPA of 3.2 or better to be considered. However, a 3.5 GPA in and of itself does not guarantee admission.

Undergraduates admitted to the program take graduate courses during their senior year and will be able to complete the MS-DPD degree one year after they complete the requirements for the BS (NFS) degree. These students will be admitted directly into the MS-DPD program without having to take the GRE exam. Upon completion of the requirements for the MS degree, both the BS and MS degrees will be awarded. These students will pay undergraduate tuition rates up to the number of credits required to earn a baccalaureate degree (120 cr) and credits taken after that number toward the combined dual degree will be paid at the graduate level. Students interested in this accelerated program should speak to the adviser in the Nutrition track during their sophomore year to review the curriculum path for the five-year program.

Students who have been provisionally accepted into the BS-MS program but who do not maintain the required GPA will not be allowed to continue but will be eligible to receive a BS (NFS) degree from Hunter provided that they fulfill all other academic requirements for their undergraduate degree.

Curriculum Requirements

The accelerated BS/MS is a 137-credit program.

For a list of the graduate courses, please visit the graduate catalog.

Minor in Public Health

A new 12-credit minor concentration in Public Health is designed to provide a basic acquaintance with the activities and aims of Community and Public Health. This will be especially useful for students who are majoring in Statistics - BA and aim to seek employment and/or a graduate degree in Biostatistics, students majoring in Social Sciences who are contemplating careers in the medical-care sector, or students interested in public service or social service in the health arena.

Students take a programmed sequence of four courses, offering a basic grounding in public-health thinking and some skills that will be valuable in further study and employment.

Minor

PH 30100 - Introduction to Community and Public Health

An introduction to the study of structural inequalities that contribute to health disparities with an emphasis on communities – geographic, identity-based, or virtual, as the focus for research and intervention.

Minimum GPA to enroll - 2.75

prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100, or equivalent.
PH 30200 - Health Program Planning and Evaluation

Addresses process of program planning, development, and evaluation of health promotion programs. Focus is on development of clear, concise objectives leading to design and evaluation of effective primary, secondary, and tertiary prevention strategies.

prereq or coreq: PH 30100. Open to PH BS, MHC-PH, others by permission of instructor

PH 32500 - Environmental Public Health

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

Minimum GPA to enroll - 2.75

prereq: Any intro Statistic course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 101, or equivalent.

PH 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

Minimum GPA to enroll - 2.75

prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100 or equivalent.

PH 40500 - Health Care Systems and Health Policy

Overview of U.S. health care system, official and voluntary agencies; introduction to administrative skills, especially those skills necessary for working the health care field.

prereq: PH 30100

Total Credits required

Total credits required: 12 credits
**Nutrition and Food Science - BS**

**Overview**

The competitive 54-credit Nutrition and Food Science bachelor of science major (NFS-BS) begun junior or senior year is a diverse science-based program where students learn about food and its effect on health. It offers a comprehensive study of the fundamental principles of nutrition, food science and safety, food service management and community nutrition education. This is accomplished through the application of a variety of sciences. Students who like physical and biological sciences, are interested in good health, enjoy working with people, and are concerned about the nutritional well-being of people and communities will find interesting and challenging career opportunities within health care fields or in the food industry. The NFS major at Hunter develops these interests and prepares students for challenging opportunities after graduation.

This major is designed for students who plan to enter the workforce directly out of college. The BS in NFS may be a terminal degree, or NFS graduates may elect to continue on for additional education. Students in the NFS major will take courses in nutrition, food science, food service management, research methods, community nutrition education, and epidemiology.

Along with providing students with a good preparation in nutrition, this major is also a good undergraduate preparation for those who might want to go into allied health fields, social work, or other human service professions. The elective courses also allows these undergraduate students who may wish to pursue medicine, nursing, physical therapy or other health careers to take additional science and other pre-requisite coursework for those programs.

**What can I do with a Nutrition and Food Science degree?**

The BS in NFS degree provides graduates with a wide variety of career opportunities. Foods and nutrition majors frequently work with athletes, weight control and fitness programs, or other special groups like WIC (Women, Infants & Children in community settings. Industries like hotels, airlines, universities, food service chains, and industrial cafeterias employ food service managers. Graduates can become food science technical specialists and conduct research, development and quality control of food products for food companies. It is also possible to use foods and nutrition knowledge for jobs in advertising, marketing and in the mass media. Students can become consultants to television programs, or write articles on food for newspapers. Students may take steps after graduation to enter a graduate didactic program in dietetics to become registered dietitians.

**Admission Requirements**

The Nutrition and Food Science (NFS) major is a comprehensive study of nutrition and food science. The program is geared to students who are inclined toward the physical and biological sciences, and who are concerned about the health and nutritional well-being of people and communities. While the major is designed for students who plan to enter the workforce directly out of college in the health and wellness area, the academically rigorous curriculum also prepares students for further study, in nutrition and dietetics, food science, research, public and/or allied health.

Nutrition & Food Science is a part of Hunter's School of Urban Public Health (UPH). NFS classes meet typically once a week at our Silberman departmental campus, 2180 Third Avenue (at 119th Street). Students enter the program in the fall semester and can attend on a full-time or part-time basis during the day. It is recommended that the Hunter Core Requirement - Fall 2013 to Spring 2019 be met before entrance into the NFS major.
Note: The NFS-BS at Hunter College is not a Didactic Program (DPD) in dietetics, leading to the Registered Dietitian (RD). At Hunter/UPH, the DPD is offered at the graduate level.

Requirements for admission into the NFS major are completion of at least 45 credits, including the following courses:
- two semesters of anatomy and physiology with lab BIOL 12000 and BIOL 12200 or equivalents;
- one semester of general chemistry with lab CHEM 10000 (STEM) and CHEM 10100 or CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM) or equivalents;
- one semester of organic chemistry with lab CHEM 12000 (STEM) and CHEM 12100 (STEM) or CHEM 22200 and CHEM 22300 or equivalents;
- one semester of microbiology with lab BIOL 23000 or equivalent;
- one semester of statistics STAT 11300 or STAT 21300 (STEM);
- one semester of introductory food science NFS 13100;
- one semester of introductory nutrition NFS 14100.

A grade of C or better must be earned in all science requirements, and a grade of B or better in the two nutrition and food science courses.

The above courses must be completed by the end of the summer session preceding entrance into the NFS major. An overall GPA (combined grade point average from all postsecondary institutions attended) of 2.8 is required for consideration. Because of the competitive nature of the applicant pool and the small size of the incoming class, the admission process may favor applicants with an overall GPA greater than 2.8.

We encourage prospective students to review our website, and to attend an NFS information session held several times throughout the year. Please see http://www.hunter.cuny.edu/nutrition.

Admission Process

Both current Hunter and transfer students must submit a departmental online application open at the UPH/NFS website between Jan 1-Feb 28 for the following Fall semester. Only applicants who will complete all pre-major requirements should complete this application. Note: students may not use/accept Hunter's paper major/minor selection/change form to apply for the NFS major. In addition to our UPH/NFS application, transfer students must file a City University of New York (CUNY) Transfer (Advanced Standing) application in accordance with CUNY requirements and deadlines.

Fall transfer students who will not complete required courses by their entering semester may transfer to Hunter, but should initially select a major for which they qualify upon transfer.

See: http://www.cuny.edu. For additional information the major, including curriculum, see the UPH website: www.hunter.cuny.edu/uph

Requirements for Graduation with a BS in Nutrition and Food Science (120 credits)

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR]. When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Nutrition and Food Science Major Courses (24 cr)

Introductory Courses

NFS 13100 - Food Science I
Basic principles of the chemical and physical nature of foods, food sanitation and safety; the nutritional value of food in relation to storage, processing and preparation.
Open to all students.
3 hrs
3 cr.

**NFS 14100 - Nutrition**

**Hunter Core**
Scientific World (SW)
Fundamentals of the science of nutrition as they apply to individuals and society.
Open to all students.
3 hrs
3 cr.

Open to majors only

**NFS 33300 - Nutrition Education**

Introduction to the theories and principles of the teaching-learning process in the field of nutrition.
Open to NFS majors only and need department permission.
prereq: NFS 13100, 14100
3 hrs
3 cr.

**NFS 33500 - Institutional Management**

Overview of the theories, functions and tasks of management. Discussion of labor and effective methods for directing an operation with applications drawn from food service.
Open to NFS majors only and need department permission.
prereq: NFS 13100, 14100
3 hrs
3 cr.

**NFS 34200 - Nutrition and Human Development**

Nutritional needs throughout the life cycle: pregnancy, infancy, childhood, adolescence, adulthood and later years.
Open to NFS majors only and need department permission.
prereq: NFS 13100, 14100
3 hrs
3 cr.

**NFS 40200 - Seminar in Nutrition and Food Science**

Research in nutrition and food science; examination of professional goals.
Open to NFS majors only and need department permission.
prereq: NFS 13100, 14100
3 hrs
3 cr.
NFS 43500 - Food Service Systems

The organization and administration of a food service operation from the systems approach on the tactical and strategic level, stressing learning activities and competencies required by the American Dietetic Association. Open to NFS majors only and need department permission.

**prereq:** NFS 13100, 14100

3 hrs

3 cr.

NFS 44100 - Community Nutrition

Analysis of nutrition services, legislation and policy; role and function of community nutritionists; nutrition education in a community setting. Open to NFS majors only and need department permission.

**prereq:** NFS 13100, 14100

3 hrs

3 cr.

NFS 44351 - Practicum in Nutrition and Food Science

Practicum in institutions, agencies, business and research firms; projects. Open to NFS majors only and need department permission.

**prereq:** NFS 13100, 14100

7 hrs (1 lec, 6 lab)

3 cr.

PH 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases. Minimum GPA to enroll - 2.75

**prereq:** Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100 or equivalent.

3 hrs

3 cr.

Requirements for the Program

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR]. When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

A. Admission Requirements (11-23.5 credits)

A. Admission Requirements*(11-23.5 credits)

To enroll in the program, students must have a minimum cumulative GPA of 2.800 and have earned a minimum of 30 credits overall. Credit/No Credit grades are not accepted in this program.

1. Statistics, with a minimum grade of C: can be fulfilled by STAT 11300 or any other college-level Statistics course; or PSYCH 24000, SOC 24100, ECO 22100, MATH 12400 (STEM), MATH 12500 (STEM), MATH 12550 (STEM), MATH 15000 (STEM), MATH 15200 (STEM) or transfer equivalents. Also acceptable: AP Exam score 4-5 in Statistics or Calculus; CLEP score of 50 in Calculus or Pre-Calculus.

2. One semester of General Chemistry with lab, with a minimum grade of C: can be fulfilled by CHEM 10000 (STEM); or CHEM 10200 (STEM), CHEM 10400 (STEM) or CHEM 10600 (STEM); or CHEM 10200 (STEM) and CHEM 10100 or transfer equivalents (e.g., CHEM 10200 (STEM) and CHEM 10300 (STEM)); or any other college-level general chemistry lecture/lab combination. Also acceptable: AP Exam score 4-5 in Chemistry.

3. One semester of Organic Chemistry with lab, with a minimum grade of C: can be fulfilled by CHEM 12000 (STEM) CHEM 12100 (STEM) or CHEM 22000 and CHEM 22300 or transfer equivalents; or any other college-level organic chemistry lecture/lab combination.

Students have one opportunity to repeat each required admission course in which the grade earned was below the required minimum.

*These courses may be counted for credit in more than one program and can be shared with other degree requirements including majors, minors and the Hunter Core Requirement.

B. Additional Major Requirements (17-18 credits)

To remain in the major and continue to the Core and Major Course Requirements, students must successfully complete the following: BIOL 12000, BIOL 12200, BIOL 23000, NFS 13100 and NFS 14100 or transfer equivalents with a grade of C or higher. Also acceptable: one semester of Anatomy and one semester of Physiology from transfer coursework. Credit/No Credit grades are not accepted for these courses.

Progress Standards for A, and B:
Students who fail to earn the required grade for progression in A, and B above with a minimum cumulative GPA of 2.8, must meet with their advisor to formulate a plan for progression. Students have one opportunity to repeat each required core course in which the grade earned was below the required minimum. If they fail to earn the required minimum grade in any core course, they must withdraw from the Nutrition major. Credit/No Credit grades are not accepted in this program.

C. Major Course Requirements (24 credits)

To satisfy NFS major course requirements, majors select 24 credits from a list of approved advanced major courses, offering flexibility based on student's interests and future academic and/or professional goals.

For courses required for the Major, students exempt from Admissions Requirements or major courses through approval from their major advisor do not have to make up the credits for NFS major purposes.

Public Health - BS (55 credits)

Overview

At Hunter College, students in the Bachelor of Science program in Public Health learn to analyze how social structures including poverty, racism, and neighborhood composition, environmental exposures, and behaviors shape population health. They take courses in health disparities, epidemiology, public health biology, and community health assessment to develop their analytic skills, and courses in public health research, health communications and program development and evaluation to learn tools for addressing public health problems. Fieldwork experience gives students the opportunity to apply what they have learned in a real-world setting. This program is designed to prepare students for work in community-based and human rights organizations, family planning clinics, mental health centers, homeless shelters, clinical and public health research centers, and media organizations, as well as in city, state, and national health departments. This is a competitive, 42-credit major, taken after 60 credits are completed of undergraduate study (see prerequisites & application information below).

Admission Requirements

All applicants, including current Hunter College students, must apply for admission to the program. Admission into the Public Health major is competitive.

For admission into the Public Health major, applicants must have:

- Completion of at least 60 credits at the time of admission *(courses can still be in progress while applying)*;
- A combined GPA of at least 3.0 from all postsecondary institutions attended;
- Submitted an essay (part of the application);
- Completed all of the following courses or their equivalents with a grade of C or higher:
  - English Composition (ENGL 12000 ) (3 cr.)
  - Intro level statistics (STAT 11300 or STAT 21300 (STEM)), PSYCH 24800, SOC 24100, ECO 22100 or equivalent) (3 cr.)
  - Intro to Sociology (SOC 10100) (3 cr.)
  - Intro level Psychology OR Cultural Anthropology (e.g., PSYCH 10000 or PSYCH 15000 or ANTHC 10100) (3 cr.)
  - Any 4-credit lab course.

*(Total 16 credits)*

For details on the admissions process see Admissions Information.
Hunter Core Requirement

Several courses leading to or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Major Requirements

Required Courses (39 crs.)

PH 30100 - Introduction to Community and Public Health

An introduction to the study of structural inequalities that contribute to health disparities with an emphasis on communities – geographic, identity-based, or virtual, as the focus for research and intervention.

Minimum GPA to enroll - 2.75

prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100, or equivalent.

3 hrs

3 cr.

PH 30200 - Health Program Planning and Evaluation

Addresses process of program planning, development, and evaluation of health promotion programs. Focus is on development of clear, concise objectives leading to design and evaluation of effective primary, secondary, and tertiary prevention strategies.

prereq or coreq: PH 30100. Open to BS, MHC-PH, others by permission of instructor

3 hrs

3 cr.

PH 30300 - Social Structure and Health (W)

An exploration of the roles of economic structure and social linkages that shape health -- including power relations, interactions between subgroups within society, and tensions within groups over institutional control and individual agency.

prereq: acceptance to the PH major, or permission of the instructor

3 hrs

3 cr.

PH 30400 - Introduction to Health Communication Theory and Practice

An introduction to the field of health communication with a particular emphasis on theoretical constructs, case studies and U.S. and international practical models and applications. Highlights the multidisciplinary and multifaceted nature of health communication and its contribution to the achievement of behavioral, social and organizational objectives as one of the keys to public health interventions.

prereq: PH 30200
PH 32500 - Environmental Public Health

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

Minimum GPA to enroll - 2.75

*prereq: Any intro Statistic course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 101, or equivalent.*

3 hrs
3 cr.

PH 32800 - Public Health Biology

Introduction to population biology and ecological principles underlying public health and the relationship of biology to public health. Offers a basic understanding of the biological basis of core public health issues including infectious diseases, vaccines, genetic illnesses, neoplastic processes and environmental illnesses.

Minimum GPA to enroll - 2.75

*prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100, or equivalent.*

3 hrs
3 cr.

PH 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

Minimum GPA to enroll - 2.75

*prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100 or equivalent.*

3 hrs
3 cr.

NFS 14100 - Nutrition

**Hunter Core**

Scientific World (SW)

Fundamentals of the science of nutrition as they apply to individuals and society.
Open to all students.

3 hrs
3 cr.

PH 40500 - Health Care Systems and Health Policy

Overview of U.S. health care system, official and voluntary agencies; introduction to administrative skills, especially those skills necessary for working the health care field.
prereq: PH 30100
3 hrs
3 cr.

PH 41100 - Community Health Assessment

Introduction to assessing health needs of communities and populations, in preparation for fieldwork.
prereq: PH 33000
3 hrs
3 cr.

PH 41200 - Directed Fieldwork Practicum

200 hours summer internship to gain experience in community health setting, culminating in production of e-portfolio.
prereq: PH 41100
3 hrs
3 cr.

PH 41300 - Research Symposium

Overview of quantitative and qualitative research methods and issues in study design and analysis.

prereq or coreq: PH 41200
3 hrs
3 cr.

PH 41500 - Grant Writing in Public Health

Capstone course that synthesizes theory and methods of health promotion program planning: needs assessment, planning, implementation, and evaluation; and integrates these into a grant writing project.

prereq: PH 30400, PH 41100
3 hrs
3 cr.

Plus 3 credits drawn from the following courses:

PH 30600 - Social Disparities in Health

In depth examination of the social, cultural and political factors that influence and lead to health disparities and health inequalities. Course explores demographic trends in mortality and morbidity and the role of history, race, class, policy, and socioeconomic and cultural factors, and health literacy levels in the development and continuation of disparities in health. This course uses a social justice lens to understand health, health care and health disparities.
prereq: PH 30100
3 hrs
3 cr.

PH 32100 - Addictions and Dependencies
Recent research on alcohol, narcotics and other chemical dependencies. Strategies for intervention, prevention, and treatment, with emphasis on role of health education.

*prereq:* PH 30100

3 hrs

3 cr.

**PH 32200 - Maternal and Child Health**

Social, behavioral, and medical factors involved in contraception counseling, abortion and sterilization, prenatal care, childbirth, child health, parenting, and prevention of family violence. Effect of public, social welfare, and public health policy on mothers and children.

*prereq:* PH 30100

3 hrs

3 cr.

**PH 32400 - Human Sexuality**

Study of interaction of social, affective, and behavioral dimensions of sexuality, including gender identity, with a particular focus on the way sexuality shapes community health.

*prereq:* PH 30100

3 hrs

3 cr.

**PH 48001 - Independent Study**

Total credits in independent study courses and honors may not exceed 6.

*prereq:* PH 30100

hrs TBA

1-3 cr. respectively

**PH 48002 - Independent Study**

Total credits in independent study courses and honors may not exceed 6.

*prereq:* PH 30100

hrs TBA

1-3 cr. respectively

**PH 48003 - Independent Study**

Total credits in independent study courses and honors may not exceed 6.

*prereq:* PH 30100

hrs TBA

1-3 cr. respectively

**PH 49000 - Honors**

Total credits in independent study courses and honors may not exceed 6.

*prereq:* PH 30100

hrs TBA

3 cr.
PH 40000 - Topics in Community Health and Public Health

Content varies from semester to semester to address changing needs of profession.

prereq: PH 30100
3 hrs
3 cr.

recommended: PH 40037 Urban Aging Policy, 40050 Introduction to Community Organizing
• Any other 300- or 400- level PH course approved by the Director.

Total = 42 credits + 16 credits prior to major = 55 cr.

Honors in the Major

A student who has high grades in all courses required for the PH major, and who wishes to carry out an honors independent study project, may contact the Program Director prior to the final semester at Hunter. If the student's project is approved and a suitable faculty mentor identified, the student will be given permission to register for PH 49003, a 3-credit Honors Independent Study. The student and mentor must agree to a contract specifying learning goals and work to be accomplished. Only after successful completion of the independent study project will the student receive Honors in the PH major.

Degree Map for Community Health

Nutrition and Food Sciences

NFS 13100 - Food Science I

Basic principles of the chemical and physical nature of foods, food sanitation and safety; the nutritional value of food in relation to storage, processing and preparation.
Open to all students.
3 hrs
3 cr.

NFS 14100 - Nutrition

Hunter Core
Scientific World (SW)
Fundamentals of the science of nutrition as they apply to individuals and society.
Open to all students.
3 hrs
3 cr.
NFS 33200 - Cultural Aspects of Food and Nutrition

Study of the way in which cultural, social and technological factors influence food behavior and dietary patterns.
Open to NFS majors only and need department permission.

*prereq: NFS 13100, 14100, ANTHP 10100, SOC 101)

3 hrs
3 cr.

NFS 33300 - Nutrition Education

Introduction to the theories and principles of the teaching-learning process in the field of nutrition.
Open to NFS majors only and need department permission.

*prereq: NFS 13100, 14100

3 hrs
3 cr.

NFS 33500 - Institutional Management

Overview of the theories, functions and tasks of management. Discussion of labor and effective methods for directing an operation with applications drawn from food service.
Open to NFS majors only and need department permission.

*prereq: NFS 13100, 14100

3 hrs
3 cr.

NFS 34200 - Nutrition and Human Development

Nutritional needs throughout the life cycle: pregnancy, infancy, childhood, adolescence, adulthood and later years.
Open to NFS majors only and need department permission.

*prereq: NFS 13100, 14100

3 hrs
3 cr.

NFS 36100 - Food Policy

Introductory food systems course that examines the myriad of actors, including government agencies, industry, and consumers, who shape food priorities and policies in the US.

*prereq: NFS major including BSMS & MHC NFS

3 hrs
3 cr.

NFS 40100 - Techniques of Communication in Nutrition

Theory/practice of communications skills for nutritionists/food scientists. Includes food demonstrations, public relations, and advertising.
Open to NFS majors only and need department permission.

*prereq: NFS 33300

3 hrs
3 cr.
**NFS 40100 - Topics in Nutrition & Food Science (variable NFS topics)**

Varied by topic. See department for description per course offering.

*prereq: Permission by department.*

1

1

**NFS 40200 - Seminar in Nutrition and Food Science**

Research in nutrition and food science; examination of professional goals.
Open to NFS majors only and need department permission.

*prereq: NFS 13100, 14100*

3 hrs

3 cr.

**NFS 40300 - Nutrition for Exercise & Sport**

Presents nutritional parameters of athletic performance including basic nutritional concepts, energy production and nutrients, vitamins and minerals, diet during training, timing and composition of intakes, hydration, weight management strategies, and nutritional needs for various athletic groups.

*prereq: NFS BS matriculant*

3 hrs

3 cr.

**NFS 41100, 41200, 41300 - Topics in Nutrition & Food Science (variable NFS topics)**

Varied by topic. See department for description per course offering.

*prereq: Permission by department.*

hrs: Variable 1-3

cr: Variable 1-3

**NFS 43100 - Experimental Foods**

Scientific approach to food testing; use of instruments and techniques in food and nutrition laboratories.
Open to NFS majors only and need department permission.

*prereq: NFS 33100, 34100*

5 hrs (2 lec, 3 lab)

3 cr.

**NFS 43400 - Nutrition and the Elderly**

Psychological, psychosocial, and economic problems of the elderly; how needs are met by government and private agencies. Application of nutrition to these problems.
Open to NFS majors only and need department permission.

*prereq or coreq: NFS 34200, PSYCH 10000, SOC 10100*

3 hrs

3 cr.
NFS 43500 - Food Service Systems

The organization and administration of a food service operation from the systems approach on the tactical and strategic level, stressing learning activities and competencies required by the American Dietetic Association.
Open to NFS majors only and need department permission.
prereq: NFS 13100, 14100
3 hrs
3 cr.

NFS 44100 - Community Nutrition

Analysis of nutrition services, legislation and policy; role and function of community nutritionists; nutrition education in a community setting.
Open to NFS majors only and need department permission.
prereq: NFS 13100, 14100
3 hrs
3 cr.

NFS 44351 - Practicum in Nutrition and Food Science

Practicum in institutions, agencies, business and research firms; projects.
Open to NFS majors only and need department permission.
prereq: NFS 13100, 14100
7 hrs (1 lec, 6 lab)
3 cr.

NFS 44352 - Practicum in Nutrition and Food Science

Practicum in institutions, agencies, business and research firms; projects.
Open to NFS majors only and need department permission.
prereq: NFS 44200
7 hrs (1 lec, 6 lab)
3 cr.

NFS 44354 - Practicum in Nutrition and Food Science

Practicum in institutions, agencies, business and research firms; projects.
Open to NFS majors only and need department permission.
prereq: NFS 44200
7 hrs (1 lec, 6 lab)
3 cr.

NFS 44355 - Practicum in Nutrition and Food Science

Practicum in institutions, agencies, business and research firms; projects.
Open to NFS majors only and need department permission.
prereq: NFS 44200
7 hrs (1 lec, 6 lab)
3 cr.
NFS 44356 - Practicum in Nutrition and Food Science

Practicum in institutions, agencies, business and research firms; projects. Open to NFS majors only and need department permission.
prereq: NFS 44200
7 hrs (1 lec, 6 lab)
3 cr.

NFS 48031 - Independent Study in Nutrition and Food Science

Open to NFS majors only and need department permission.
prereq: NFS 44200, perm dept. chair
hrs TBA
1 – 3 cr.
Respectively may be taken 1 or 2 sem.

NFS 48032 - Independent Study in Nutrition and Food Science

Open to NFS majors only and need department permission.
prereq: NFS 44200, perm dept. chair
hrs TBA
1 – 3 cr.
Respectively may be taken 1 or 2 sem.

NFS 49000 - Honors in Nutrition and Food Science

Supervised independent research project. A written report or suitable presentation is required. Proposal must be presented the semester before work is done.
prereq: NFS 44200, perm NFS coordinator
hrs TBA
3 cr.

Public Health

PH 15000 - Introduction to the Health Care System

A survey of the organization of the United States health care system, the perspectives of consumers, providers and organizers. Various health professions will be examined as well as the major health concerns that exist today.
prereq: none
3 hrs
3 cr.

PH 15200 - Bodies Using Bodies

GER
2/B

This course addresses the medical, technical, organizational, and ethical issues that arise when human beings make use of the bodies, organs, tissues, or cells of other people to enhance their own well-being. The course takes a cross-
disciplinary approach to contemporary issues in the health sector that involve the use of human bodies for the benefit of others. It is aimed at pre-majors or students interested in issues in the area of society and health.

3 hrs
3 cr.

**PH 20000 - Controversial Issues in Health and Health Care**

Contemporary health controversies examined through the disciplines of community and public health and health care.

*prereq: none*

3 hrs
3 cr.

**PH 20400 - AIDS and Society**

The HIV/AIDS pandemic examined from a variety of perspectives: epidemiology, sociology, and media.

3 hrs
3 cr.

**PH 30100 - Introduction to Community and Public Health**

An introduction to the study of structural inequalities that contribute to health disparities with an emphasis on communities – geographic, identity-based, or virtual, as the focus for research and intervention.

Minimum GPA to enroll - 2.75

*prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100, or equivalent.*

3 hrs
3 cr.

**PH 30200 - Health Program Planning and Evaluation**

Addresses process of program planning, development, and evaluation of health promotion programs. Focus is on development of clear, concise objectives leading to design and evaluation of effective primary, secondary, and tertiary prevention strategies.

*prereq or coreq: PH 30100. Open to PH BS, MHC-PH, others by permission of instructor*

3 hrs
3 cr.

**PH 30300 - Social Structure and Health (W)**

An exploration of the roles of economic structure and social linkages that shape health -- including power relations, interactions between subgroups within society, and tensions within groups over institutional control and individual agency.

*prereq: acceptance to the PH major, or permission of the instructor*

3 hrs
3 cr.

**PH 30400 - Introduction to Health Communication Theory and Practice**
An introduction to the field of health communication with a particular emphasis on theoretical constructs, case studies and U.S. and international practical models and applications. Highlights the multidisciplinary and multifaceted nature of health communication and its contribution to the achievement of behavioral, social and organizational objectives as one of the keys to public health interventions.

prereq: PH 30200
3 hrs
3 cr.

PH 30600 - Social Disparities in Health

In depth examination of the social, cultural and political factors that influence and lead to health disparities and health inequalities. Course explores demographic trends in mortality and morbidity and the role of history, race, class, policy, and socioeconomic and cultural factors, and health literacy levels in the development and continuation of disparities in health. This course uses a social justice lens to understand health, health care and health disparities.

prereq: PH 30100
3 hrs
3 cr.

PH 32100 - Addictions and Dependencies

Recent research on alcohol, narcotics and other chemical dependencies. Strategies for intervention, prevention, and treatment, with emphasis on role of health education.

prereq: PH 30100
3 hrs
3 cr.

PH 32200 - Maternal and Child Health

Social, behavioral, and medical factors involved in contraception counseling, abortion and sterilization, prenatal care, childbirth, child health, parenting, and prevention of family violence. Effect of public, social welfare, and public health policy on mothers and children.

prereq: PH 30100
3 hrs
3 cr.

PH 32300 - Health and Aging

Demography, epidemiology, and sociology of aging. Public health policy and recent legislation affecting seniors and older adults in the U.S. and globally.

prereq: none
3 hrs
3 cr.

PH 32400 - Human Sexuality

Study of interaction of social, affective, and behavioral dimensions of sexuality, including gender identity, with a particular focus on the way sexuality shapes community health.

prereq: PH 30100
3 hrs
3 cr.
PH 32500 - Environmental Public Health

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

Minimum GPA to enroll - 2.75

prereq: Any intro Statistic course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHR 101, or equivalent.
3 hrs
3 cr.

PH 32600 - HIV/AIDS: An Interdisciplinary Perspective for Health Care Providers

Interdisciplinary perspective on the impact of the HIV epidemic on the biological, psychological and social dimensions of people affected by HIV/AIDS.

prereq: none
3 hrs
3 cr.

PH 32800 - Public Health Biology

Introduction to population biology and ecological principles underlying public health and the relationship of biology to public health. Offers a basic understanding of the biological basis of core public health issues including infectious diseases, vaccines, genetic illnesses, neoplastic processes and environmental illnesses.

Minimum GPA to enroll - 2.75

prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHR 10100, or equivalent.
3 hrs
3 cr.

PH 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

Minimum GPA to enroll - 2.75

prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHR 10100 or equivalent.
3 hrs
3 cr.

PH 40000 - Topics in Community Health and Public Health

Content varies from semester to semester to address changing needs of profession.

prereq: PH 30100
3 hrs
3 cr.

PH 40500 - Health Care Systems and Health Policy
Overview of U.S. health care system, official and voluntary agencies; introduction to administrative skills, especially those skills necessary for working the health care field.

**PH 40800 - Digital Media and Health**

An introduction to key technological advances and current use of new media (Internet and other digital media, mobile technology, etc.) to communicate about health issues as part of broad community based public health and health communication interventions. It also provides students with practical skills in creating media for health promotion.

*prereq: Acceptance to the PH major or permission of the instructor*

3 hrs
3 cr.

**PH 41100 - Community Health Assessment**

Introduction to assessing health needs of communities and populations, in preparation for fieldwork.

*prereq: PH 33000*

3 hrs
3 cr.

**PH 41200 - Directed Fieldwork Practicum**

200 hours summer internship to gain experience in community health setting, culminating in production of e-portfolio.

*prereq: PH 41100*

3 hrs
3 cr.

**PH 41300 - Research Symposium**

Overview of quantitative and qualitative research methods and issues in study design and analysis.

*prereq or coreq: PH 41200*

3 hrs
3 cr.

**PH 48001 - Independent Study**

Total credits in independent study courses and honors may not exceed 6.

*prereq: PH 30100*

hrs TBA
1-3 cr. respectively

**PH 48002 - Independent Study**

Total credits in independent study courses and honors may not exceed 6.

*prereq: PH 30100*

hrs TBA
1-3 cr. respectively
PH 48003 - Independent Study

Total credits in independent study courses and honors may not exceed 6.

prereq: PH 30100
hrs TBA
1-3 cr. respectively

PH 49000 - Honors

Total credits in independent study courses and honors may not exceed 6.

prereq: PH 30100
hrs TBA
3 cr.

Programs and Courses in Women and Gender Studies

Women and Gender Studies

Overview

Women's Studies at Hunter was established in 1975 in response to the women's movement of the sixties, which asked that higher education integrate the study of women and gender into the curriculum. Our classes focus on the critical examination of gender, class, race, dis/ability, sexuality, and nationality as intersecting dynamics of social and identity formation. Through our own and cross-listed courses, our students are able to explore topics such as Bathroom Politics; Women and Film; Gender, Sexuality and History; Masculinities; Gender and Human Rights; Gender and Migration, and Transnational Feminism.

Our mission is to:

• Educate students about the principles, theories, and concrete applications of these critical analyses.
• Encourage students to examine the complex ways in which the social formations of sexuality, gender, race, class, national origin, dis/ability, and sexual orientation shape human experience and produce structures of power and inequality.
• Re-examine in curriculum and scholarship the historical record to make visible the experiences and contributions of disenfranchised groups across historical and social locations.
• Connect academic work with social and political realities outside the university; enhance students' understanding of and resistance to structures of inequalities; and link research, teaching/learning, and activism.

Our faculty is an interdisciplinary group of scholars whose research, teaching and advocacy work focuses on the relationships between these forces, drawing from women, gender, and feminist studies; ethnic and critical race studies; LGBT and queer studies; disabilities studies; as well as the study of nationalism and class.

What can I do with a Women and Gender Studies Major?
Through the interdisciplinary study of gender and its relation to other identity markers such as race, class, ethnicity, sexuality, nation, and religion, Hunter College builds a foundation for its Women and Gender Studies majors to move on to professional work in government, public service, research, and education. Our majors also have an academic background that makes them ideal candidates for pursuing professional degrees and graduate studies in a variety of fields, including social work, policy, health, and law.

Undergraduate Major
Degree Map for Women and Gender Studies

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Women and Gender Studies major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)

GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required

3 hrs + conf

3 cr.

WGS 10000 - Introduction to Gender and Sexuality Studies

Hunter Core
Individual and Society - Social Sciences (I&S SS)

Pluralism and Diversity
PD/C

GER
2/B

The course will introduce students to the political and theoretical debates in the discipline of gender and sexuality. We will cover historical struggles for the women's enfranchisement, the abolitionist movements, sex wars, and the queer rights movement. The course introduces students to feminist contribution to the debate that considers sex as biology and gender as culture, critical race theory, and queer theory. In addition the course will also deal with structural and institutional forms of disenfranchisement by examining the relationship between gender and the state, colonialism, law and capital.

3 hrs

3 cr.

• Math & Quantitative Reasoning
• Foreign Language Elementary Level 1
• Scientific World
Spring

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

• US Experience in its Diversity
• Foreign Language Elementary Level 2
• Individual and Society/ Humanities
• Life & Physical Sciences

Sophomore Year

Fall

WGS 20100 - Classics in Feminist Thought (W)

Pluralism and Diversity
PD/C
GER
3/A or B

The course covers the historical debates within the 'women's movement' in the United States by examining some of the 'classical' texts by Mary Wollstonecraft, John Adams, and Sojourner Truth. The course also covers the political and intellectual contribution by women of color to the discipline by reading Gloria Anzuldua, bell hooks, Audre Lorde, Patricia Williams, Kimberley Crenshaw among others. 'Foundational' texts by Gayle Rubin, Judith Butler, and Adrienne Rich offer a deeper understanding of queer theory's influence to the discipline. Even as the course reads 'classic' texts of the discipline, we will critically examine the formation of a cannon.

prereq: WGS 10000, ENGL 12000 or equiv.
3 hrs
3 cr.

• Creative Expression
• Foreign Language Intermediate Level 3
• Elective

Spring

WGS 24400 - Transnational Feminisms
Pluralism and Diversity
PD/C
GER
3/A or B

Exploring the gender dynamics of racial, ethnic, and economic relations of power in domestic, international, and transnational settings. We will examine feminist scholarship produced by and about American women of color, Third World women, and other social and political actors whose experiences and thinking have shaped contemporary ideas about gender in different parts of the world.

prereq: WGS 10000, ENGL 12000
3 hrs
3 cr.

• Foreign Language Intermediate Level 4
• World Cultures & Global Issues
• Elective
• Elective

Junior Year

Fall

• WGS Concentration Course I
• WGS Elective
• (W) Pluralism and Diversity A, B, or D
• Elective
• Elective

Spring

WGS 31000 - Research Seminar: Feminist Theory and Methodology

Open to Jr/Sr only. Study of the theoretical models that feminist scholars create to guide their work and application of feminist methodology to a research project. To graduate with honors in Women's Studies, majors must enroll in this seminar.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the program director in advance to plan their senior seminar.

prereq: WGS 10000, 20100, at least one other WGS course at 200-level or higher
3 hrs
3 cr.

Fall

- WGS Concentration Course III
- WGS Elective
- Pluralism and Diversity A, B, or D
- Elective
- Elective

Spring

**WGSP 32000 - Internship Seminar: Feminist Activism and Advocacy**

Open to Jr/Sr only. Practical experience in one of a variety of agencies and organizations related to the needs or concerns of women. Weekly seminar devoted to discussion of feminist activism and advocacy.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the program director in advance to plan their senior seminar.

*prereq: WGS 10000 and 20100 and at least one other WGS course at the 200 level or higher.*

7-10 hrs
3-4 cr.
*spring semester*

- WGS Elective
- Elective
- Elective
- Elective

**Notes:**

- Women and Gender Studies majors take 9 credits (3 classes) in one of six Areas of Concentration. See the WGS website for a list of Area of Concentrations and associated courses.
- Students take 6 credits (2 classes) of WGS or cross-listed elective classes.
- 3 Credits (1 course) of the two elective classes MUST be in an alternate Area of Concentration than the primary one selected.
- At least one of the courses within the Area of Concentration or elective must be 300 level or above.

**Women and Gender Studies - BA**

**Hunter Core Requirement**

One course within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Women and Gender Studies major, the course that meets CCC is:
WGS 10000 - Introduction to Gender and Sexuality Studies

**Hunter Core**
Individual and Society - Social Sciences (I&S SS)

**Pluralism and Diversity**
PD/C
GER
2/B

The course will introduce students to the political and theoretical debates in the discipline of gender and sexuality. We will cover historical struggles for the women's enfranchisement, the abolitionist movements, sex wars, and the queer rights movement. The course introduces students to feminist contribution to the debate that considers sex as biology and gender as culture, critical race theory, and queer theory. In addition the course will also deal with structural and institutional forms of disenfranchisement by examining the relationship between gender and the state, colonialism, law and capital.

3 hrs
3 cr.

WGS 20100 - Classics in Feminist Thought (W)

**Pluralism and Diversity**
PD/C
GER
3/A or B

The course covers the historical debates within the 'women's movement' in the United States by examining some of the 'classical' texts by Mary Wollstonecraft, John Adams, and Sojourner Truth. The course also covers the political and intellectual contribution by women of color to the discipline by reading Gloria Anzuldua, bell hooks, Audre Lorde, Patricia Williams, Kimberley Crenshaw among others. 'Foundational' texts by Gayle Rubin, Judith Butler, and Adrienne Rich offer a deeper understanding of queer theory's influence to the discipline. Even as the course reads 'classic' texts of the discipline, we will critically examine the formation of a cannon.

prereq: WGS 10000, ENGL 12000 or equiv.
3 hrs
3 cr.

WGS 24400 - Transnational Feminisms

**Pluralism and Diversity**
PD/C
GER
3/A or B

Exploring the gender dynamics of racial, ethnic, and economic relations of power in domestic, international, and transnational settings. We will examine feminist scholarship produced by and about American women of color, Third World women, and other social and political actors whose experiences and thinking have shaped contemporary ideas about gender in different parts of the world.

*prereq: WGS 10000, ENGL 12000
3 hrs
3 cr.*

**WGS 31000 - Research Seminar: Feminist Theory and Methodology**

Open to Jr/Sr only. Study of the theoretical models that feminist scholars create to guide their work and application of feminist methodology to a research project. To graduate with honors in Women's Studies, majors must enroll in this seminar.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the program director in advance to plan their senior seminar.

*prereq: WGS 10000, 20100, at least one other WGS course at 200-level or higher
3 hrs
3 cr.
spring semester

**Area of Concentration - 9 Credits**

Students will choose one from among the 6 areas of concentration listed as follows:

- Area of Concentration 1: Feminist Thought and Theory (WGST)
- Area of Concentration 2: Sexualities (WGSS)
- Area of Concentration 3: Gender & Public Policy (WGSP)
- Area of Concentration 4: Labor, Migration and Globalization (WGSL)
- Area of Concentration 5: Women and Gender across Cultures (WGSC)
- Area of Concentration 6: Gender, Literature and the Arts (WGSA)

**Electives - 6 credits**

Students will be required to take two elective classes (6 credits). One (3 credits) of the two elective classes MUST be in a different Area of Concentration than their primary one.

At least one of the classes in student's Area of Concentration or electives must be 300 level or above.

**Minor in Women and Gender Studies - 12 credits**

The Minor in Women and Gender Studies requires students to take 12 credits: *Introduction to Gender and Sexuality Studies* (WGS 10000), *Classics in Feminist Thought* (WGS 20100), *Transnational Feminisms* (WGS 24400) and one elective course from one of the six areas of concentration. WGS 10000 - Introduction to Gender and Sexuality Studies, must be completed before WGS 20100 - Classics in Feminist Thought (W) and WGS 24400 - Transnational Feminisms.
Research Seminar

Majors may satisfy the Senior Seminar requirement of the major by enrolling in the Research Seminar (WGS 31000). This course serves as a capstone course in which WGS majors apply feminist theory and methodology to develop an original research project resulting in a substantial paper.

Honors

In order to graduate with honors in Women and Gender Studies, a student must have a 3.5 GPA in the Women and Gender Studies major and a college-wide cumulative index of at least 3.0. Students should submit a 18-20 page paper written for any Women and Gender Studies 300 level class including but not limited to the Research Seminar (WGS 31000). The student must submit the paper by March 30 (for June graduation) and October 30 (for December graduation) to be considered for program honors. A faculty committee will read submitted papers and determine whether they merit honors.

Degree Map

Degree Map for Women and Gender Studies

Undergraduate Minor

Minor in Women and Gender Studies

The Minor in Women and Gender Studies requires students to take 12 credits: Introduction to Gender and Sexuality Studies (WGS 10000), Classics in Feminist Thought (WGS 20100), Transnational Feminisms (WGS 24400) and one elective course from one of the six areas of concentration.

WGS 10000 - Introduction to Gender and Sexuality Studies, must be completed before WGS 20100 - Classics in Feminist Thought (W) and WGS 24400 - Transnational Feminisms.

prereq: SOC 10100 or perm instr.
3 hrs
3 cr.

WGSS 28700 - Masculinities

Pluralism and Diversity
P/D C
GER
The aim of this course is for students to develop an understanding of how knowledge about masculinities changes the way we see most areas of scholarship and daily life. This course engages scholarship on masculinities from the interdisciplinary study of sex and gender systems drawing on feminist literature; we will also study a variety of present day men's movements and understand how they relate to feminist movements.

prereq: ENGL 12000

**WGSS 29300 - Bathroom Politics**

**Hunter Core**
Individual and Society Social Science (I&S SS)
**Pluralism and Diversity**
P&D C
In this course, we will study bathrooms in relation to a body of state policies mandating segregated public facilities and spaces, primarily around sex and race. We will examine the anxiety, fear of contamination, and threat of violence in such spaces as it is translated into public policy through regulations including municipal building codes, civil rights legislation, and court cases.

prereq: ENGL 12000
3 hrs
3 cr.

**WGSS 38700 - Queer Theory**

**Pluralism and Diversity**
PD/C
**GER**
3/B
Examination of recent contemporary queer theory and politics in the United States, with particular attention paid to its intersections with feminism, critical race theory, class analysis and religion. Course time will also be dedicated to learning to write effectively about political theory.

prereq: WGS 10000
3 hrs
3 cr.

**Women and Gender Studies: Labor, Migration and Globalization**

**WGSL 20017 - Globalization and Gender**

Globalization has been the subject of intense debate within both academic and journalistic spheres. These debates have questioned whether globalization 'works for the greater good or not.' In this course we will examine globalization critically by looking at some of the academic debates. We will examine the claim that globalization has heralded the end of the nation-state, review the implications of globalization on gender and sexuality, and consider the formation of a 'global middle class.'

prereq: WGS 10000 and ENGL 12000
3 hrs
3 cr.
**WGSL 29000 - Special Topics in Labor, Migration, and Globalization**

**Hunter Core**  
Individual and Society Social Science (I&S SS)  
**Pluralism and Diversity**  
PD/C  
This is a collection of special topics courses in Women and Gender Studies focused on the study of labor, migration, and globalization.

*prereq: ENGL 12000*  
3 hrs  
3 cr.

**WGSL 30600 - Gender and Migration**

**Pluralism and Diversity**  
PD/B  
**GER**  
3/B  
This course will explore the multiple intersections between gender and migration. We will study how patterns of migration are fundamentally gendered, how migration affects men and women differently, and how migration policies in sending and destination countries can have gendered outcomes.

*prereq: WGS 10000 and ENGL 12000*  
3 hrs  
3 cr.

**WGSL 31500 - Work and Society (W)**

**GER**  
3/B  
Work in market economies, mechanisms of control and sources of stratification, gender and ethnic factors, role of education and trade unions.  
*cross-listed SOC 31500*  
*prereq: SOC 10100*  
3 hrs  
3 cr.

**WGSL 32100 - Women and Globalization**

**GER**  
3/B  
The situation of women from less developed countries with attention to the local and global forces shaping their lives. Topics include migration, the international division of labor, and worldwide adoption. Includes both theoretical approaches and practical issues related to improving women's place in society.  
*cross-listed ANTHC 32100*  
*prereq: ANTHC 10100 or perm instr.*  
3 hrs  
3 cr.
WGSL 34500 - Women and Men in the Labor Market

Pluralism and Diversity
PD/C
GER
3/B

Demand for labor, determination of wages and allocation of time between paid and unpaid activities, 'human capital' investments, labor market policy issues.
cross-listed ECO 34500

prereq: ECO 20000
3 hrs
3 cr.

Women and Gender Studies: Sexualities

WGSS 26600 - Our Bodies, Our Politics

Pluralism and Diversity
PD/C

Sex and sexuality are commonly understood as an innate drive, but as science has recently begun to show, the way we experience sexuality is better understood as a series of connected cultural practices. It is the constructed meaning attached to the act of sex that make up the foundation of our sexuality. This meaning changes across cultures and communities and has historically been a subject of political and legal struggle. From the battle for reproductive rights to laws limiting dildo ownership in Texas, our own bodies and the way we experience them are legislated and controlled.

prereq: ENGL 12000
3 hrs
3 cr.

Women and Gender Studies: Women in Culture and Society

WGS 20005 - Dominican and Haitian Literature and Culture

3 hrs
3 cr.

WGS 21100 - Women in the 3rd World

Study of the historical, political, social, and economical status of women in the developing world.
3 hrs
3 cr.

WGS 22100 - Women in the Islamic World

Overview of the role of gender in Islam.
3 hrs
3 cr.

WGS 25800 - Topics in Literature by Women (W)
Selected works by women written in English will be studied with an emphasis on the diversity of women's lives and the effect of gender on experience. May be repeated once for credit with a different topic. 

**WGS 33600 - African-American Women Writers (W)**

Selected works by women written in English will be studied with an emphasis on the diversity of women's lives and the effect of gender on experience. May be repeated once for credit with a different topic. 

**WGSC 15600 - Culture of Imperial Russia: The Age of Empresses**

Major cultural movements of the Empire baroque, classicism, romanticism and their effect on the cultural fabric of Russia from Regent Sophia through the reign of Peter to Catherine the Great. 

**WGSC 30500 - Women and Slaves in Classical Antiquity (W)**

Women and slaves in Greek and Roman society and origins of Western attitudes about sex and class.
WGSC 31800 - Women in Africa (W)

**Pluralism and Diversity**

GER 3/B PD/A or C

Examination of African womanhood in traditional setting during colonialism and neo-colonialism, independence and revolution.

cross-listed AFPR 31800(W)

*prereq:* AFPR 20200 or AFPR 22200 or perm instr.

3 hrs

3 cr.

WGSC 32900 - Women in the African Diaspora (W)

**Pluralism and Diversity**

PD/B or C

GER 3/B

The cultural-historical role of women of African descent in North America and the Caribbean in relation to the family, to political resistance, and in sustaining African culture and values.

cross-listed AFPR 31900 (W)

*prereq:* AFPR 20400, 20900 or 21000 or perm instr.

3 hrs

3 cr.

WGSP 22300 - Sociology of the Family

**Pluralism and Diversity**

PD/C

GER 3/B

Family functions and interaction. Factors affecting stability and instability.

cross-listed SOC 20100

*prereq:* SOC 10100

3 hrs

3 cr.

WGSP 23500 - The Psychology of Women (W)

**Pluralism and Diversity**

PD/C

GER 3/B

Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles, power.

cross-listed PSYCH 23500

*prereq:* 6 cr. in PSYCH courses

3 hrs

3 cr.
WGSP 23900 - Child Welfare (W)

GER
3/B

Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it.  
cross-listed SOC 23900  
prereq: ENGL 12000, SOC 10100  
3 hrs  
3 cr.

WGSP 25100 - Women and Health

Pluralism and Diversity
PD/C
An exploration of health issues affecting women, particularly as these issues relate to the socialization of women, reproductive and sexual health, and medical practices.  
cross-listed HED 20100  
3 hrs  
3 cr.

WGSP 26100 - Women and Politics (W)

Women and Gender Studies: Independent Study and Internships

**WGSI 29800 - Internship**

Independent Study (WGS 29800 or 39300) may be applied only once toward the major.

*prereq: perm program director*

hrs TBA
1-6 cr.

**WGSI 39300 - Independent Research**

Independent research guided by a faculty member on a subject of student's choice in the field of Women and Gender Studies.

Note: Independent Study (WGS 29800 or 39300) may be applied only once toward the major.

*prereq: perm. program director*

3 hrs
3 cr.

Women and Gender Studies: Senior Seminar

**WGS 31000 - Research Seminar: Feminist Theory and Methodology**

Open to Jr/Sr only. Study of the theoretical models that feminist scholars create to guide their work and application of feminist methodology to a research project. To graduate with honors in Women's Studies, majors must enroll in this seminar.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the program director in advance to plan their senior seminar.

*prereq: WGS 10000, 20100, at least one other WGS course at 200-level or higher*

3 hrs
3 cr.

*spring semester*

**WGSP 32000 - Internship Seminar: Feminist Activism and Advocacy**

Open to Jr/Sr only. Practical experience in one of a variety of agencies and organizations related to the needs or concerns of women. Weekly seminar devoted to discussion of feminist activism and advocacy.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the program director in advance to plan their senior seminar.

*prereq: WGS 10000 and 20100 and at least one other WGS course at the 200 level or higher.*

7-10 hrs
Programs Offered School of Nursing

The School offers three programs leading to the Bachelor of Science (with a major in nursing) degree: the Generic Program, for students who do not have an RN license; the RN to BS Program, for students who have completed a nursing program and have received or are about to receive a current RN license to practice professional nursing in New York State and the Accelerated 2nd Degree Program, for students who have already achieved a baccalaureate degree in another field of study and wish to transition into a nursing career. Information on applying to all of our programs is available at http://www.hunter.cuny.edu/nursing. In earning the Bachelor of Science (with a major in Nursing) degree, students in all programs complete core requirements and professional education curriculum requirements.

In earning the bachelor of science (with a major in nursing) degree, students in all programs complete Core requirements and professional education curriculum requirements. See Programs and Courses in Hunter-Bellevue School of Nursing below for specific program requirements.

Undergraduate Programs

- Adolescent Biology, Grades 7-12 - BA
- Adolescent Biology, Grades 7-12 - BA/MA
- Adolescent Chemistry, Grades 7-12 - BA
- Adolescent Chemistry, Grades 7-12 - BA/MA
- Adolescent Earth Science, Grades 7-12 - BA/MA
- Adolescent English, Grades 7-12 - BA
- Adolescent Mathematics, Grades 7-12 - BA
- Adolescent Mathematics, Grades 7-12 - BA/MA
- Adolescent Physics, Grades 7-12 - BA
- Adolescent Physics, Grades 7-12 - BA/MA
- Adolescent Social Studies, Grades 7-12
- Teaching Languages Other Than English: Chinese, Grades 7-12 - BA
- Childhood Education, Grades 1-6 - BA
- Dance Pre-K - 12 - BA
- Dance Pre-K - 12 - BA/MA

Progress Standards
• Students must maintain a minimum overall GPA of 3.0 and an education sequence index of 3.0.

• Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.

• Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.

• Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.

• Any student who has more than two grades of IN will be permitted to register for only one course the following semester.

Students will be permitted to register for the second methods course in their subject area only after having met the following requirements:

• Completion of 18 credits of study in the major subject area;

• Approval of the major department adviser; and

• Maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.

**Undergraduate Courses**

DANED 30200 - Theory and Practice of Teaching Dance (pre-K-12)

HEDP 31400 - Health Education for the Classroom Teacher

QSTA 40080 - The Art of Effective Teaching QSTA 40180 - Developmental Reading

QSTA 40680 - Mathematics Teaching and Learning in Elementary School

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience

QSTA 41080 - Literacy Across the Content Areas

QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

QSTA 41480 - Teaching Science in Elementary Schools

QSTAP 41580 - Student Teaching

QSTP 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading

QSTP 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

QSTP 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

QSTB 20280 - Child Growth and Development

QSTB 40380 - Social Foundations of Urban Education

QSTB 41380 - Psychology of Teaching and Learning
SEDC 21000 - Building the Foundations of Literacy in Grades 7-12
SEDC 21100 - Young Adult Literature in Our Diverse Society
SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12
SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12
SEDC 21500 - Methods I: Classroom Organization, Management, and Instruction in Social Studies, Grades 7-12
SEDC 22000 - Adolescent Health and Safety
SEDC 32100 - Teaching English Methods to a Diverse Population in Grades 7-12
SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12
SEDC 32300 - Methods II: Teaching Diverse Learners in Mathematics, Grades 7-12
SEDC 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12
SEDC 32500 - Methods II: Teaching Diverse Learners in Social Studies, Grades 7-12
SEDCP 45100 - Student Teaching in English, Grades 7-12
SEDCP 45210 - Student Teaching in Chinese, Grades 7-12
SEDCP 45220 - Student Teaching in French, Grades 7-12
SEDCP 45280 - Student Teaching in Spanish, Grades 7-12
SEDCP 45300 - Student Teaching in Mathematics, Grades 7-12
SEDCP 45410 - Student Teaching in Biology, Grades 7-12
SEDCP 45420 - Student Teaching in Chemistry, Grades 7-12
SEDCP 45430 - Student Teaching in Physics, Grades 7-12
SEDCP 45500 - Student Teaching in Social Studies, Grades 7-12
SEDCP 45600 - Student Teaching in Dance, Grades Pre-K-12
SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)
SEDF 20400 - Adolescent Development
SEDF 20500 - Educational Psychology: Applications in Grades 7-12
SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12
SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Research Opportunities, Honors, & Internships

Research Opportunities

A broad range of applied research opportunities are available within the department in developmental psychology, social psychology, human adjustment, animal behavior, physiological psychology and abnormal psychology. Departmental affiliations with mental health and community organizations make it possible for students to integrate their academic studies of personality, abnormal and child psychology with supervised practical experience by means of field placements and opportunities for applied research.

Honors

The Psychology Honors Thesis is a special program available to Psychology majors with a high GPA (3.5 major GPA and 3.0 overall GPA). It involves doing a year of intensive research in collaboration with a faculty member and completing a written thesis (usually about 20-25 pages) in APA style describing the background of the research topic, the methods, the results/findings, and the implications of work. All Honors Thesis students present their research projects in one of three conferences held over the course of the year. Awards are given to the best poster and best oral presentation each semester.

Internships

The Department of Psychology has various opportunities that help undergraduate students prepare for laboratory research.

Public Policy Program Faculty Advisory Committee

Return to: Faculty of the School of Arts and Sciences

Shyama Venkateswar, Distinguished Lecturer & Director, Public Policy Program, Roosevelt House; BA Smith College, MA, PhD Columbia University
Re-Admission

Students who have previously attended Hunter College may apply for readmission as a matriculated or non-degree student. These applicants should apply for readmission to the college well in advance of the semester for which they wish to return. All students who are readmitted to Hunter College after an absence of 10 or more years must adhere to the undergraduate catalog requirements in effect at the time of their readmission to Hunter College. They are also required to fulfill their major department's current course/degree requirements.
Applications for degree and nondegree readmission are available here: Readmission information. Students in good academic standing are generally readmitted to the college, whereas students who were dismissed for academic reasons or who left with a grade point average below 2.0 may be considered for readmission on a probationary basis. Readmission on probation is predicated on the expectation that the student will raise his/her grade point average above 2.0 within a reasonable amount of time. SEEK students who have not been in attendance for four or more semesters and/or have been in the program for 10 semesters will not be readmitted to SEEK.

The priority application deadlines for readmission are:

Summer: March 15
Fall: May 1st
Winter: October 1st
Spring: November 1st

Applications submitted after the deadlines will be considered based on space available at the college.

**Recreation, Fitness and Intramurals**

B315 Hunter West
(212) 772-4912
Hunter College Recreation

Hunter College's Recreation, Intramurals and Fitness programs are designed to promote physical fitness, relaxation, wellness and enjoyment for members of the college. Open to students, faculty, staff and alumni, the Recreation and Intramural and Fitness programs are flexible and provide for a variety of healthful and enjoyable experiences at all levels of skill and participation. Activities offered include a fitness center, open swimming, basketball, volleyball, indoor soccer, tennis and racquetball. Non-credit group fitness classes such as yoga, Pilates, core classes, cardio spin, Bootcamp and Tai-Chi are also offered.

Intramural sports provide Hunter students with the opportunity to compete in various organized activities, games and sports against members of the college community. Some of the more popular sports include flag football, basketball, volleyball, soccer, racquetball, handball, scavenger hunts, and the annual Turkey Trot. There are also several opportunities for employment with the recreation program, for both work study and non-work study students. For more information on the Hunter Recreation, Intramural and Fitness program, log onto www.huntercollegeathletics.com/recreation or call 212-772-4912.

**Registrar's Office/One Stop**

Registrar's Office/One Stop
Room 217 Hunter North Building
(212) 772-4474

The Registrar's Office is located on the second floor of Hunter North, around the corner from the Bursar, Financial Aid, and Admissions Offices; one floor up from the Hunter College Welcome Center; and one floor down from the Medical Office. Many of the forms and services available in the One Stop are also available on the One Stop web pages.

**Registration**
Registration Procedures: Prior to each registration period, the registrar's office develops a Schedule of Classes, available via CUNYFirst. Students are assigned registration dates and times based upon their academic progress. Prior to each registration, an e-mail is sent to students at their "myhunter" email address alerting them that their registration appointment has been established. Students may then view their appointment time online by accessing their CUNYfirst student account at http://home.cunyfirst.cuny.edu.

Each semester, as instructors submit grades, the grades are available for viewing at the student's CUNYfirst account. Students should pay careful attention to their grade and if there are any errors, contact their instructor immediately.

Access to CUNYfirst is available at the CUNY web page at www.cuny.edu or at www.hunter.cuny.edu. Students may register, drop or withdraw, view their transcript, current schedule, current bill, change their non-permanent address or phone number, view open course sections and access their registration appointment times. All course registration is performed at CUNYfirst via each student's CUNYfirst account.

Regulations Published by the Hunter College Senate

Students are expected to be familiar with the various requirements and procedures as given in this catalog and to follow them. The Hunter College Senate, with authority granted to it by the CUNY Board of Trustees, determines all academic rules and regulations and approves all curricula. The Senate publishes changes in rules and regulations. Students who believe that their individual circumstances warrant a variance from the rules and regulations listed in this catalog must proceed to obtain permission from the appropriate college authority. Only through the procedures listed below are such variations permitted.

Students should obtain written documentation for any such variations. Students should be wary of informal advice or undocumented claims that they can be exempt from any college rules.

- Inquiries concerning college regulations in general should be directed to the Office of Advising, Room 1119 East Building. Appeals for administrative exceptions to academic rules and regulations (for example, exceptions to approved academic program loads) are heard in the Office of Advising.
- Inquiries concerning the major should be directed to the departmental adviser in the major department or program and inquiries concerning a minor should be directed to the adviser in the minor department or program.
- Inquiries concerning the Hunter Core Requirement including the Focus in Foreign Language, Pluralism and Diversity and Writing should be addressed to the appropriate departmental adviser or an adviser in the Office of Advising, Room 1119 East Building.
- Note:
  - Students who matriculated prior to fall 2001 and follow the regulations for the Distribution Requirement should also see a departmental adviser or an adviser in the Office of Advising, Room 1119 East Building.
  - Students who matriculated prior to fall 2013 may choose to remain under the GER Requirement or opt in to the Hunter Core Requirement. See Pathways website http://www.cuny.edu/pathways for further information
  - Students who entered Hunter under the Distribution Requirement and have been absent for 10 years or more must follow the Hunter Core Requirement or contact Advising, Room 1119 East Building, for information on appealing to follow Distribution.
  - Authorization for substitutions for specific Pluralism & Diversity course requirements must be made by the Senate's General Education Appeals Committee. Students should consult the procedure for appeals outlined below and go to the Office of the Hunter College Senate, Room 1018 East Building, to obtain the proper forms for filing an appeal.
The procedure for grade Appeals appears below.

Every student is obliged to determine that all requirements for the degree have been met before the date of graduation. No changes may be made to the student record transcript after the graduation date. Graduates who wish to take additional courses at Hunter should see the Office of Undergraduate Admissions room 203 Hunter North, to open a new record. Any "STOPs" not cleared by the graduation date will result in the withholding of diploma and transcripts. Incomplete (IN) grades received in the final semester must be completed by the graduation date. If not, an application to graduate for the following semester must be filed with the Degree Audit unit of the Office of the Registrar, room 217 North Building. Additional information on the degree audit for graduation can be found at http://registrar.hunter.cuny.edu/forms/Degreeaudit/undergrad.htm. Students who are uncertain about the interpretation of any matter may learn under whose authority the matter rests by inquiring in the Office of Advising, Room 1119 East Building. This catalog covers the general academic requirements consonant with earning a degree at Hunter College when this catalog went to press in 2016. Students are responsible for knowing all current regulations.

Religion

Return to: Faculty of the School of Arts and Sciences

Ronald Long, Associate Professor, Religion; AB Kenyon, MA, MPhil, PhD Columbia

Wendy Raver, Lecturer, Religion; MA NYU

Barbara Sproul, Associate Professor, Religion; BA Sarah Lawrence, MA, PhD Columbia

Renaissance, Baroque, and 18th century (including Colonial Latin American)

- ARTH 22500 - Art of Early Renaissance
- ARTH 22700 - Northern Renaissance Art
- ARTH 23000 - Art of High Renaissance and Later 16th Century in Italy
- ARTH 23500 - Southern Baroque Art
- ARTH 24000 - Baroque Art of Northern Europe
- ARTH 33100 - Special Topics Lecture in Renaissance Art (W)
- ARTH 34100 - Special Topics Lecture in Baroque Art (W)
- ARTH 43000 - Advanced Studies Seminar in Renaissance Art (W)
- ARTH 44000 - Advanced Studies Seminar in Baroque Art (W)

Repeating Courses

Students shall not be permitted to repeat a course in which they have received a grade of A, B, C or CR unless that course has been designated as repeatable in the course description of the college catalog. Students may repeat a course in which a D was received. The credit for that course will be applied toward the degree once, but both the grade of D and the second grade earned are calculated in the grade point average. If the course is part of a sequence, it should be repeated before continuing the sequence. A student who has received a grade of D may re register for the course only with the permission of the department offering the course.
- If a student receives a failing grade (F, WU, FIN) in a course and then retakes that course and receives a grade of A, B, C or CR, the initial failing grade will remain on his/her academic record, but will no longer be computed into the grade point average. This adjustment to the GPA will occur automatically at the end of the semester when the student has retaken the course and received a grade of A, B, C, or CR. The original course in which the failing grade was received must have been taken after September 1, 1984 and repeated after September 1, 1990.
- No more than 16 credits may be deleted from the calculation of the cumulative grade point average.
- If two or more failing grades have been received for the same course and a grade of C, CR or better is subsequently earned, all of the failing grades for that course will be deleted from the grade point average, subject to the 16-credit limit.
- The 16-credit limit applies cumulatively to courses taken at all CUNY colleges.
- The repeated course must be taken at the same college as the initially failed course.

**Requirements for Graduation: Hunter Core and Major Field of Study**

**REQUIREMENTS FOR GRADUATION: Hunter Core and Major Field of Study***

A student at Hunter College must earn a total of 120 credits to graduate with a bachelor's degree. These 120 credits must include credits to satisfy the Hunter Core Requirement (up to 42 credits) and to satisfy the requirements of a major field of study (major).

Credits for the Hunter Core and for a major usually do not add up to 120. A student may reach the necessary 120 credits by completing an additional major, a minor field of study (minor), a certificate program, or by taking elective courses.

Please note: New York State law requires a minimum number of liberal arts and science courses for undergraduate degrees, as follows:

**BA** 75% of credits towards the degree, 90 credits  
**BS** 50% of credits towards the degree, 60 credits  
**BMus, BFA** 30% of credits towards the degree, 40 credits

Please see New York State Rule for Liberal Arts and Sciences Courses

**Requirements for a Major**

All matriculated students must declare a major no later than the semester in which the combination of credits earned and credits for which they are currently registered totals 60 or greater. Transfer students entering with 60 credits or more must declare their major before the end of their first semester of attendance at Hunter. Students may find that some courses and career opportunities are available to them only if they have declared a major. In addition, under New York State guidelines, students who have not yet declared a major by the 61-credit point are ineligible for TAP financial aid. To declare or change a major, a student should get a major declaration form from the OASIS, Room 217 Hunter North and confer with an adviser in the major department.

For students who are nearing the 61-credit point and remain undecided about their choice of major, there are a number of avenues of assistance. Designated faculty in each academic department advise prospective majors about the undergraduate programs and related career possibilities. Also, the advisors in the Office of Student Services and Career
Development Services offer assistance in choosing a major. The college is concerned that students select their major with careful consideration and with good knowledge of the range of options.

To earn a Hunter degree, students must complete at least half of their major credits at Hunter.

**Major Courses and Hunter Core Courses**

A course taken to satisfy a major requirement often may satisfy a Hunter Common Core requirement. However, students are not allowed to take more than two courses from one department or program to fulfill the Hunter Core Requirement (note: English Composition 1 will not be counted as an English course in this context).

**More than One Major**

BA students have the option of declaring up to 3 majors. Students must complete the Hunter Core requirement and satisfy the sequence for all declared majors. If the same courses are required for two (or three) majors, the student must take additional courses as approved by the major department to reach the required number of credits in each major.

Regardless of major(s), BA students must complete at least 90 Liberal Arts credits to graduate. Students are urged to meet frequently with an adviser to help them make good course selections.

**Advising**

Hunter College is concerned that students select their major(s) with careful consideration and with good knowledge of the range of options. For students who are nearing the 60-credit point and remain undecided about their choice of major, there are a number of avenues of assistance. Designated faculty advisors in each academic department can inform prospective majors about their undergraduate programs and related career possibilities. Also, the advisers in the Office of Advising and Career Development Services can offer assistance in choosing a major.

Each department has advisers to help students with such matters as course content, when a course is expected to be given, how a course is conducted (lecture, discussion) and the textbook(s) to be used. Students may want to discuss majoring in a subject before they make their official decision or to inquire about graduate schools. Majors should see the department advisers frequently to discuss their interests.

**Declaring a Major**

To declare or change a major, students should print a Major Declaration Approval form at registrar.hunter.cuny.edu/subpages/forms.shtml, and confer with an adviser in the major department who will review the program of study and determine the student's eligibility. If the student is admitted into the major, the adviser will sign and stamp the form. That form must be forwarded to OASIS. Each major must be declared in the same way and approved by an adviser in the major department.

All matriculated students must declare a major no later than the semester in which the combination of credits earned and credits for which they are currently registered totals 60 or greater. Transfer students entering with 60 credits or more must declare their major before the end of their first semester of attendance at Hunter.

**Requirements to Audit Undergraduate Courses**

New York State residents 60 years of age or older may audit undergraduate courses at Hunter College on a tuition-free, space-available basis. Along with verification of having reached the age of 60 and New York State residency, applicants must file the undergraduate nondegree application to be considered for this program. Individuals over the age of 60 who do not wish to audit their courses may receive academic credit provided the appropriate tuition is paid.
Retention on the Basis of Grade Point Average and Probation

Retention Based on Grade Point Average

General scholarship is indicated by a college GPA (also referred to as the "cumulative index" or "index"). Each student is expected to know how to figure the GPA and is expected to compute it each semester. Students admitted with advanced standing or transfer credits cannot use previous grades earned at other colleges in the computation of the GPA, but the number of their transfer credits will be added to the total Hunter College credits to determine retention. This means that students must have achieved a given GPA by the time they have completed a certain number of credits or they will be placed on probation and if insufficient improvement is made within a specified period, they will be subject to dismissal for poor scholarship. The standards guiding these decisions are as follows:

Retention and Probation-Undergraduate

The grade point average earned over the total period of a student's attendance indicates the adequacy of each student's scholarship. Below you will find minimum standards for retention and probation. Students who fail to achieve the required academic standards will be placed on academic probation. During this probationary period students who make satisfactory academic progress will continue to maintain their academic standing with the college and their concurrent eligibility for financial aid. Students who fail to achieve the required academic standards while on probation will be dismissed from Hunter College and the university system. Reminder: Academic requirements are the student's responsibility. A student is automatically on probation when he/she fails to achieve the required standards, whether he/she has received notification of such probation from the college or not. Therefore, always be aware of your cumulative GPA. Students on academic probation should visit the Center for Student Achievement, Room 417 Hunter West.

The following table shows the minimum grade point average which each undergraduate student must meet:

<table>
<thead>
<tr>
<th>Total Credits Attempted</th>
<th>Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>(Index)</td>
<td></td>
</tr>
<tr>
<td>0-12</td>
<td>1.5</td>
</tr>
<tr>
<td>13-24</td>
<td>1.75</td>
</tr>
<tr>
<td>25+</td>
<td>2.0</td>
</tr>
</tbody>
</table>

The academic probation status remains on students' record for the entire semester on which the code was placed. Change of grades will only affect students' probation status at the end of the semester in which the change of grade is posted. For example if a change of grade is submitted mid-semester resulting in the student's GPA being raised to the required GPA the probation code will not be removed. Conversely, if the change of grade results the student's grade point average dropping below the required GPA the student will not be placed on probation mid-semester. The probation code is removed at the end of the semester if the student's GPA reaches the required GPA.

Summer sessions are considered part of the following fall semester, therefore, grades earned during the summer sessions will impact students' probation status at the end of the following fall semester.

Hunter's normal probation appeals procedure will continue to consider individual cases and to make such exception to these policies as circumstances may warrant.
Students dropped from the college may not be readmitted until they have been separated from the university for at least one semester or equivalent calendar time. Students must obtain an application for readmission at the Office of Undergraduate Admissions, Room 203 Hunter North. Students who are separated from the college may not enroll for credit-bearing courses in any unit of the university in any status.

**Romance Languages**

Return to: Faculty of the School of Arts and Sciences

**Marlene Barsoum**, Professor, French; BA CUNY, License-ès-Lettres Nancy (France), MA, PhD Columbia

**Monica Calabritto**, Associate Professor, Italian; Dottore in Lettere, Università di Pisa (Italy), MA, PhD CUNY

**Julie Van Peteghem**, Assistant Professor, Italian; Licenciate, Ghent University, MA, University of Leuven, MA, MPhil, PhD, Columbia

**Roosevelt House**

Roosevelt House, the historic NYC home of Franklin and Eleanor Roosevelt, and now the restored home of Hunter College's public policy institute, is a state-of-the-art facility offering a prime venue for lectures, conferences, seminars, film/photo/television/ video shoots, film screenings and elegant social functions. The dramatic auditorium, seating 120, is ideal for lectures, conferences, and similar programs. The elegant reception areas and dining room are available for a variety of intimate affairs, including weddings, business gatherings, cocktail receptions, and other high-profile functions.

Roosevelt House Public Policy Institute
47-49 E. 65th Street
New York, NY 10065
Rules and Regulations

Please note that all appeals for exceptions and/or substitutions to the GER requirements, HCR requirements and distribution requirements will now be heard in the hunter college senate, room 1018 east building. Please access the following link to file an online appeal application http://www.hunter.cuny.edu/senate/gerappeals. All appeals for dean's list, change of administrative grades (WU, WN, FIN) to retroactive withdrawals and fulfillment of the foreign language requirement with four years of high school language study remain in the office of advising services, room 1119 east building.

* Childhood Education (Quest), BA, is a collateral major; students must major in English, English language arts, history, geography, social studies (available as a major in the geography department), mathematics, biology or chemistry.

## School of Education Course List

### DANED
- DANED 30200 - Theory and Practice of Teaching Dance (pre-K-12)

### ECC
- ECC 30000 - Early Childhood Programs and Curricular Frameworks
- ECC 30100 - Field work/Internship 1
- ECC 30200 - Field work/Internship 2
- ECC 30300 - Field work/Internship 3
- ECC 30400 - Creative Arts and Play-Based Learning
- ECC 30500 - Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)
- ECC 30600 - Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade
- ECC 30800 - Inclusionary Practices and Teaching Children of Diverse Backgrounds
- ECC 31000 - Mathematics in Early Childhood
- ECC 31100 - Early Childhood Science and Inquiry-Based Learning
- ECC 31400 - Health, Family, and Community Partnerships
- ECC 40100 - Student Teaching

### ECF
- ECF 20000 - Human Development and Theories of Learning, Prenatal-Age 8
- ECF 20100 - Social and Historical Foundations of Early Childhood Care and Education
- ECF 40000 - Assessment in Early Childhood, Birth through 2nd Grade
EDUC

- EDUC 25000 - Introduction to Urban Education: Topics and Issues around Diversity and Equity (W)
- EDUC 49000 - Honors Course in Educational Research

HED

- HEDP 31400 - Health Education for the Classroom Teacher

QSTA

- QSTA 40080 - The Art of Effective Teaching
- QSTA 40180 - Developmental Reading
- QSTA 40680 - Mathematics Teaching and Learning in Elementary School
- QSTA 40780 - The Arts: An Interdisciplinary Learning Experience
- QSTA 41080 - Literacy Across the Content Areas
- QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
- QSTA 41480 - Teaching Science in Elementary Schools
- QSTAP 41580 - Student Teaching

QSTAB

- QSTP 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading
- QSTP 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
- QSTP 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

QSTB

- QSTB 20280 - Child Growth and Development
- QSTB 40380 - Social Foundations of Urban Education
- QSTB 41380 - Psychology of Teaching and Learning

SEDC

- SEDC 21000 - Building the Foundations of Literacy in Grades 7-12
- SEDC 21100 - Young Adult Literature in Our Diverse Society
- SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12
- SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12
- SEDC 21500 - Methods I: Classroom Organization, Management, and Instruction in Social Studies, Grades 7-12
- SEDC 22000 - Adolescent Health and Safety
- SEDC 32100 - Teaching English Methods to a Diverse Population in Grades 7-12
- SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12
- SEDC 32300 - Methods II: Teaching Diverse Learners in Mathematics, Grades 7-12
- SEDC 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12
- SEDC 32500 - Methods II: Teaching Diverse Learners in Social Studies, Grades 7-12
- SEDCP 45100 - Student Teaching in English, Grades 7-12
- SEDCP 45210 - Student Teaching in Chinese, Grades 7-12
- SEDCP 45220 - Student Teaching in French, Grades 7-12
- SEDCP 45280 - Student Teaching in Spanish, Grades 7-12
- SEDCP 45300 - Student Teaching in Mathematics, Grades 7-12
- SEDCP 45410 - Student Teaching in Biology, Grades 7-12
- SEDCP 45420 - Student Teaching in Chemistry, Grades 7-12
- SEDCP 45430 - Student Teaching in Physics, Grades 7-12
School of Education Progress Standards

Programs in Adolescent and Creative Arts Education

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will be required to repeat that course.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Program in Childhood Education

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Students must receive grades of C or better in Childhood Education courses that do not include fieldwork. QUEST fieldwork courses require a grade of B or better. All QUEST courses are repeatable once by students who have received a grade of D in a non-fieldwork course or a grade below B in a fieldwork course. Students must officially re-register for these courses. Students who receive an F in any course may not continue in the program. Students who receive an F or D in fieldwork may not continue in the program.
- In order to register for QSTAP 40600 - Mathematics Teaching and Learning in Elementary School, students must have completed MATH 10400 (STEM) and MATH 10500. If progress through the QUEST program would be delayed by the requirement for MATH 10500 as a prerequisite, then the program coordinator may allow students to enroll in QSTAP 40600 after completing MATH 10400 (STEM) and registering for MATH 10500.

Program in Early Childhood Education

- A minimum grade of C or better in all non-field courses (Courses can only be repeated once)
- A minimum grade of B or better in all fieldwork courses. (Fieldwork courses can only be repeated once)
- Maintain a cumulative GPA of at least 3.0
- Complete 6 credits of study in a foreign language (or be exempt from the foreign language requirement) prior to the completion of ECC 30600: Language and Literacy for Children of Diverse Backgrounds, K-2
- Complete Math 10400 (STEM) with a minimum grade of C prior to registering for ECC 31000: Mathematics in Early Childhood.
- Follow the course sequence, which represents the required classes that Early Childhood students must take each semester. The courses for each semester must be completed successfully in that term.

School of Education: Accreditation

Accreditation is the recognition that an institution maintains standards requisite for its graduates to gain admission to other reputable institutions of higher learning or to achieve credentials for professional practice. The goal of accreditation is to ensure that education provided by institutions of higher education meets acceptable levels of quality.

The Hunter College School of Education is accredited by the Council for the Accreditation of Educator Preparation (CAEP) and each teacher preparation program is nationally recognized by its respective Specialized Professional Association (SPA).

Career Services Support
The School of Education provides a comprehensive student career preparation program. We prepare teachers, leaders, counselors and other professional candidates for the job market through workshops, and orientations on professional topics such as resume writing, interviewing strategies, and demonstration lessons.

Each semester, the School of Education hosts a career fair, providing opportunities for partner organizations [schools, districts, non-profit organizations] to meet and network with our candidates from all programs. Employers can connect with students and alumni through an online job board that we maintain.

We also provide additional support to teacher candidates for all aspects of NYS certification, including NYS mandated workshops, specialized training, and some required NYS certification testing.

More information about these services can be found on the School of Education's Career, Professional & Partnership Development (CPPD) website.

### SEEK Program (Search for Education, Elevation and Knowledge)

**About the SEEK Program (Search for Education, Elevation and Knowledge)**

SEEK is a higher education opportunity program at the senior (four-year) CUNY colleges. It was established to provide comprehensive academic support to assist capable students who otherwise might not be able to attend college due to their educational and financial circumstances. The Hunter College SEEK Program is located administratively under the Office of the Provost. Through collaborative efforts and shared resources, SEEK participants receive comprehensive support and guidance from orientation to graduation. They acclimate to the campus’ culture of engagement; learn how to navigate the College; increase their self and cultural awareness; utilize available campus resources and support services; and develop the study, problem-solving and critical thinking skills necessary to persist through college to graduation and beyond. The SEEK Program services include: four-week summer program (for incoming freshmen), Orientation for Success course, counseling (academic, career, personal and financial), tutoring
Admission to the SEEK Program

Freshman applicants are considered for admission to the SEEK program on the basis of the overall strength of their academic preparation, which includes SAT/ACT scores, high school academic average, the number of academic subjects and the distribution of those courses. Potential SEEK applicants are generally considered for admission with an academic profile that fall slightly below the general admission averages and demonstrate considerable financial need.

Transfer applicants are considered for the SEEK program if they meet the general admission criteria for all transfers and have been an active member of a SEEK, College Discovery or other Education Opportunity Program (EOP) at an accredited college. Transfer must submit proof of participation the program at the sending college to the Hunter College SEEK Office.

For additional information about SEEK, please call (212) 772-5725 or visit the program's website. See the Financial Aid sections of this catalog for additional information about financial eligibility for the SEEK Program.

Senior Citizens

New York State residents 60 years of age or older may audit undergraduate courses at Hunter College on a tuition-free, space-available basis. Along with verification of having reached the age of 60 and New York State residency, applicants must file the undergraduate nondegree application to be considered for this program. Individuals over the age of 60 who do not wish to audit their courses may receive academic credit provided the appropriate tuition is paid. Auditors receive neither grades nor academic credit for their courses. Individuals enrolling under this program pay fees totaling approximately $80 each semester.

For more information on how to apply, visit Senior learners - admission

Skirball Science Learning Center (SSLC)

7th floor Cooperman Library, Hunter East
Skirball Science Learning Center
(212) 396-6458

Hours: Monday through Friday during the day and evening. At the beginning of each semester, the specific hours and tutoring schedules are posted outside the center.

The Skirball Science Learning Center (SSLC) provides comprehensive assistance to all Hunter College students in all areas of the natural sciences and technology. Our professional staff and peer tutors provide a learning environment in which all students (regardless of major) are welcome. The center provides, scheduled and drop-in one-to-one tutoring, group-mentor sessions, and review sessions.

Throughout the academic year, the SSLC sponsors workshops aimed to enhance science learning skills including reading primary literature, scientific writing, dissemination of science concepts and creating effective science presentations. The SSLC also supports training on essential science study skills, and problem solving techniques and guidance for peer-led group learning. SSLC Seminar series presented by Hunter's faculty and invited guests provides deeper understanding of applications of the scientific methods in the real world and broader awareness of STEM careers.

The SSLC is equipped with state-of-the-art multimedia screens, ample white boards and materials for loan including laptops, textbooks, study guides and educational models.
Social Research Graduate Curriculum

Degree Requirements

Completion of the graduate program in social research requires a minimum of 45 credits, which include:

1. Core Courses

- GSR 70800 Statistics I
- GSR 70900 Statistics II
- GSR 71000 Qualitative Research Methods
- GSR 71100 Quantitative Research Methods
- GSR 70200 Contemporary Sociological Theory
- GSR 71600 Workshop in Using Information Technology for Research
- GSR 71700 Seminar in Applied and Evaluation Research
- GSR 71900 Applied Research Seminar

2. Electives (15 credits)

Fifteen credits are taken in courses according to the student's interests. Some may be taken in areas of specialization among GSR courses, some may be selected from courses in other Hunter departments or CUNY colleges. See advisers.

3. Internship Requirements (6 credits)

Degree candidates must work as research interns in public or private organizations for a minimum of three 12 weeks full-time or 24 weeks part-time.

- GSR 71800 Research Internship

Additional Information

The program can be completed in two years on a full-time basis, or seven semesters on a part-time basis (two courses per semester minimum).

Sociology Faculty

Return to: Faculty of the School of Arts and Sciences

Michael Owen Benediktsson, Assistant Professor, Sociology; BA Wesleyan, MA, PhD Princeton

Lynn S. Chancer, Professor, Sociology; AB Princeton, PhD CUNY

Erica Chito Childs, Associate Professor and Chair, Sociology; BA San Jose, MA, PhD Fordham
Margaret M. Chin, Associate Professor, Sociology; BA Harvard-Radcliffe, MA, PhD Columbia

Thomas DeGloma, Assistant Professor, Sociology; BA Rutgers, MA Rutgers, PhD Rutgers

Nancy Foner, Distinguished Professor, Sociology; BA Brandeis, MA, PhD Chicago

Jessica Halliday Hardie, Assistant Professor, Sociology; BA Wellesley, MS Pace, MA, PhD UNC

Mark Halling, Lecturer, Sociology, BA University of Minnesota, MA CUNY

John Hammond, Professor, Sociology; AB Harvard, MA, PhD Chicago

Donald Hernandez, Professor, Sociology; BA University of Illinois, MA University of California-Berkeley, PhD University of California-Berkeley

Marnia Lazreg, Professor, Sociology; BA Lycée R. Basset (Algeria), MA, PhD NYU

Howard Lune, Associate Professor, Sociology; AB Harvard, MS, MA, PhD NYU

Joong Oh, Associate Professor, Sociology; BA Pusan National Univ. (Korea), MA, PhD South Carolina

Calvin John Smiley, Assistant Professor, Sociology; BA, MA Lehigh, PhD CUNY

Michaela Soyer, Assistant Professor, Sociology; BA University of Applied Arts and Sciences (Hannover, Germany), MA Hebrew University, PhD University of Chicago

Pamela Stone, Associate Professor, Sociology; BA Duke, MA, PhD Johns Hopkins

Peter S. Tuckel, Professor, Sociology; BA Clark, MA, PhD NYU

Michael Wood, Associate Professor, Sociology; BA Florida Atlantic, PhD Texas

Emeriti Professors

- Charles St. Clair Green
- Manfred P. Kuechler
- Claus Mueller
- Robert Perinbanayagam
- Janet Poppendieck

Spanish - BA

Liberal Arts and Sciences Major Requirements

Preparation for Teaching French, Spanish or Italian Adolescent Education (grades 7-12)

Students pursuing adolescent education must complete the 30 or 36 credit major in one of these languages and, in addition, complete the course in second language acquisition (3 cr). The 23-credit pedagogical sequence in adolescent education will serve as the minor. See the The School of Education section of the catalog for further information.

Spanish - BA

Students pursuing adolescent education must complete the 30 or 36 credit major in one of these languages and, in addition, complete the course in second language acquisition (3 cr). The 23-credit pedagogical sequence in adolescent education will serve as the minor. See the The School of Education section of the catalog for further information.
Spanish Literature

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- SPAN 10100 Elementary Spanish I
- SPAN 10200 Elementary Spanish II
- SPAN 20100 Intermediate Spanish I
- SPAN 20200 Intermediate Spanish II
- SPAN 20300 Intensive Intermediate Spanish -or- SPAN 10600 Oral and Written Skills for Native Speakers of Spanish
- SPAN 20700 Intermediate Spanish for Native Speakers
- SPAN 20800 Advanced Spanish for Native Speakers -and- SPAN 21100 Spanish Grammar and Composition

Hunter Core Requirement

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Major - 36 credits

1. Spanish Literature Courses (12 cr.)

- SPAN 31100 The Structure of Modern Spanish
- SPAN 31200 Advanced Spanish Writing
- SPAN 34100 Introduction to Hispanic Literature I
- SPAN 34200 Introduction to Hispanic Literature II

2. Literature before the 19th century (6 cr.)

choose from:

- SPAN 34300 Spanish Literature of the Middle Ages
- SPAN 34500 Spanish Drama of the Golden Age
- SPAN 34600 Cervantes
- SPAN 34900 Spanish Prose of the Golden Age
- SPAN 35000 Spanish Poetry of the Golden Age
- SPAN 35300 Spanish Neoclassicism and Romanticism

3. Latin American literature (9 cr.)

choose from:

(At least 3 credits from this category must be in contemporary literature)

- SPAN 36000 Spanish-American Literature of the Colonial Period
- SPAN 36200 Spanish-American Romanticism, Realism and Naturalism
- SPAN 36400 Spanish-American Modernism and Post-modernism
- SPAN 36500 Survey of Spanish-American Teatro
- SPAN 36600 Contemporary Latin American Poetry
- SPAN 36700 Latin American Essay
- SPAN 36800 Contemporary Latin American Narrative
- SPAN 37100 Special Topics in Spanish - American Literature
4. One course chosen from the following (3 cr.)

- SPAN 33500 Spanish Civilization -or- SPAN 33600 Latin American Civilization

5. Two additional courses chosen from the following (6 cr.)

Students may choose the remaining 6 credits in any course in literature from Spain or Hispanic America numbered above 342. Students planning to teach in grades 7-12 must also complete 3 credits in Second Language Acquisition:

- SPAN 39900 Second Language Acquisition -or- SPAN 49500 Independent Study in Hispanic Literature -or- SEDC 21200 Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12 -or- SEDC 712 (see graduate catalog)

Special Admissions Programs and Categories for Freshmen

CUNY Macaulay Honors College at Hunter College

The Macaulay Honors College at Hunter College attracts students with outstanding academic records who seek intellectual challenges in a supportive environment. Using the undergraduate online application available through the CUNY Web site (www.cuny.edu/apply), students select the Macaulay Honors College and then indicate Hunter College as their desired campus.

A student must enter the Macaulay Honors College as a first semester freshman and may seek admission for the following fall. The application deadline is December 1. For more information on the Macaulay Honors College at Hunter College inquire at the Macaulay Honors College Office, Room 630A Hunter East, (212) 650-3556.

Early Admission

Students with superior high school records may apply for admission to the college upon completion of the third year of high school. An interview with the Admissions Committee is required, as well as a high school average of at least 90%, minimum SAT scores of 600 critical reading and 600 math and three high school recommendations. Students are admitted only in the fall semester. Applications must be filed directly with the Hunter Admissions Office before May 15.

ESL (English as a Second Language) Designation

Students whose secondary school education includes at least one year in a high school where a language other than English is the primary language of instruction may be designated as ESL students. ESL students who are admitted to Hunter may be permitted to register even if they received failing scores (within a certain range) on the CUNY skills assessment tests in reading and/or writing. (A passing score on the CUNY Math Assessment Test (CMAT) is required for ESL designation.

These students are tested for placement in appropriate developmental courses and receive special advisement regarding program planning. ESL students may take developmental English courses for two semesters and are permitted to enroll at Hunter for an additional two semesters before being required to pass the skills test. Additional information about placement and program planning for ESL students is available via the ESL Programs website: http://www.hunter.cuny.edu/english/esl-programs/about
SEEK Program (Search for Education, Elevation and Knowledge)

SEEK is a higher education opportunity program at the senior (four year) CUNY colleges. It was established to provide comprehensive academic support to assist capable students who otherwise might not be able to attend college due to their educational and financial circumstances. Students are admitted without regard to age, sex, sexual orientation, race, disability, or creed. The SEEK Program at Hunter provides individualized educational and support services. Eligible participants receive a stipend to help defray educational expenses. Students apply for entry to the SEEK Program through the standard freshman admission process. See the Financial Aid section for additional information on requirements for admission to the SEEK Program and visit the program's website, http://www.hunter.cuny.edu/seek.

Sports, Recreation and Fitness

Hunter Athletics
B317 Hunter West; (212) 772-4783
Hunter Athletics

The Hunter College Athletic program is the premier benchmark intercollegiate program in the New York Metropolitan region and City University of New York Athletic Conference (CUNYAC). With 18 sponsored men's and women's teams, the Hawks compete on the NCAA Division III level with a commitment to athletic and academic progress and development each year. Student-athletes benefit from an outstanding and supportive academic environment, highly qualified coaches and superior facilities for competition and practice. Hunter College has won 10 CUNY Athletic Conference Commissioner's Cups, an award presented to the best athletic program in the conference, to lead all other CUNYAC member schools. Since 2000, Hunter Athletics has also won 129 CUNYAC Championships, joining a dozen other athletic programs to reach the 100 championship pinnacle. The athletic program also maintains an impressive average GPA of higher than a 3.0 among student athletes each year. Furthermore, 65% of student-athletes boast a 3.0 GPA or better.

Hunter College offers a multi-million dollar athletics facility which is equipped with "state of the art" renovated competition and practice gymnasiums, wrestling room, fencing/yoga room, men's and women's locker rooms, swimming pool, athletic training room, state-of-the-art weight room, racquetball courts and the smart classroom for student use. The Brookdale campus also houses a swimming pool, weight room, gymnasium, and tennis courts for official athletic and recreation use. For more information on the Hunter Athletic program, log onto www.huntercollegeathletics.com or call 212-772-4783.

Women's sports include basketball, cross country, fencing, indoor track, outdoor track, softball, swimming, tennis and volleyball. Men's sports include basketball, cross country, fencing, indoor track, outdoor track, soccer, tennis, volleyball and wrestling.

Statement of Institutional Learning Outcomes

We expect Hunter graduates to look outward and through ethical leadership to make a difference in their communities and in the world. A Hunter College education promotes personal development and self-awareness; it also fosters lifelong learning and equips each student with the habits of mind, character, and confidence to embody our motto: The Care of the Future is Mine. Through engagement with the institution, both in and out of the classroom, Hunter College graduates are expected to develop the following knowledge, skills, and values:

Acquire Broad and Specialized Knowledge
Hunter graduates will have the breadth of knowledge to make a positive difference in a complex, diverse, and changing world.

Research and Communicate Effectively

Hunter graduates will communicate with clarity, coherence, and purpose. They will access information and integrate a variety of sources to frame original arguments.

Think Critically and Creatively

As critical thinkers, Hunter graduates will evaluate different types and sources of claims using appropriate evidence, and as creative thinkers, they will use novel ideas to better understand and shape the world around them.

Practice Civic Engagement and Social Responsibility

As active, informed citizens, Hunter graduates will be engaged with their communities and prepared to have an impact on the world.

Value Pluralism and Diversity and Demonstrate Global Awareness

With a cross-cultural education, Hunter graduates will understand diverse intellectual traditions and develop a sense of belonging to a large and diverse community.

Computing and Technology Competencies

Hunter College students will be able to use technological tools to undertake academic research, engage in creative activity, and/or manage data as is appropriate for their major course(s) of study.

Statistics Track (33-50 credits)

Calculus Sequence (0-17 credits)

- MATH 10100 - Algebra for College Students
- or -

- MATH 101EN - Algebra for College Students - Enhanced

- MATH 10150 - Mastery of Symbolic Computation

- MATH 12400 (STEM) - College Algebra and Trigonometry
- or -

- MATH 12500 (STEM) - Precalculus
- or -

- MATH 12550 (STEM) - Precalculus with Workshop

- MATH 14000 - Mathematical Reasoning Workshop unless students earn a grade of B- or above in MATH 12550
- MATH 15000 (STEM) - Calculus I
- MATH 15500 (STEM) - Calculus II
Other Required Math Courses (30 credits)

- MATH 15600 - Introduction to Mathematical Proof Workshop
- MATH 25000 - Calculus III
- MATH 25400 - Ordinary Differential Equations
- or -
- MATH 35400 - Dynamical Systems and Chaos
- MATH 26000 - Linear Algebra
- STAT 21200 - Discrete Probability
- STAT 21300 (STEM) - Introduction to Applied Statistics
- STAT 21400 - Data Analysis Using Statistical Software
- STAT 31100 - Probability Theory
- STAT 31200 - Stochastic Processes
- STAT 31300 - Introduction to Mathematical Statistics

Elective Courses (3 credits)

- The student must complete one additional 3-credit statistics or mathematics course approved by the undergraduate statistics advisor.

Student Advising

Student Appeals- Rules and Regulations

Appeals - Rules and Regulations

Please note that all appeals for exceptions and/or substitutions to the General Education Requirements, Hunter Core Requirements and Distribution Requirements will now be heard in the Hunter College Senate, Room 1018 East building. Please access the following link to file an online appeal application http://www.hunter.cuny.edu/senate/gerappeals

All appeals for dean's list, change of administrative grades (WU, WN, FIN) to retroactive withdrawals and fulfillment of the foreign language requirement with four years of high school language study remain in the Office of Advising, room 1119 east building.

Appeals- General Education Requirements

Students seeking to appeal for substitutions to or exemptions from any general education requirement must begin by filing an appeal with the General Education Requirements Appeals Committee of the Hunter College Senate. Students who follow the Hunter Core (adopted fall 2013) may file appeals regarding the CUNY Common Core or the Hunter Focus (Foreign Language, Concentrated Study, or Pluralism and Diversity). Students who follow the General Education Requirement or Distribution Requirement may also appeal to this committee and should see this document [http://www.hunter.cuny.edu/senate/general-education-requirments-appeals. Appeals must be filed in accordance with the following procedures:
1. The student must submit a complete application for appeal: [http://geappeal.hunter.cuny.edu]. Incomplete applications will be returned to the student without consideration by the appeals committee. This action will not be regarded as a denial of the appeal. The appeals committee may request additional documentation in support of an appeal. Students must respond to such requests within 30 days or reapply with a complete application.

2. The student must present clear evidence that deviation from the prescribed program in the catalog is necessary and reasonable, and that any proposed substitutions adequately meet the academic objectives of the requirement.

3. Appeals for experimental courses completed at Hunter College but not yet approved by the Undergraduate Course of Study Committee as fulfilling a general education requirement must be supported with a class action letter from the department or program that offered the course. Such appeals will be considered only for Pluralism and Diversity or for the Hunter Focus—not for the CUNY Common Core.

4. The student must present clear evidence that a course transferred from another college or university fulfills the academic objectives of the requirement. Petitions for satisfaction of CUNY Common Core Requirements must include indication of which learning outcomes were met in the course and how they were met.

5. The appeals committee will respond to appeals requests on or about the 15th and the 30th of each month during the spring and fall semesters when Hunter College classes are in session. The committee does not review appeals for currently enrolled students between June 1 and September 1 of the same year.

**Special Appeals**

For other appeals for deviations or exemptions from other academic requirements or policies, students should confer with The Office of Advising. Special appeals include appeals to follow the General Education Requirement (GER), effective Fall 2001-Spring 2013, and the Distribution Requirement, effective Fall 1986-Spring 2001, rather than the Hunter Core.

Notice! There are no appeals for Writing Intensive—'W' designated—courses. All 'W' courses must be completed at Hunter College. Note that not all sections of a course are necessarily offered with significant writing every semester. The 'W' designated courses (or specific sections thereof) for a particular semester are listed in the Schedule of Classes each semester. To satisfy a writing requirement, a particular section must be designated as 'W'.

**Grades**

When a student considers a final course grade unsatisfactory, the student should first confer with the instructor regarding the accuracy of the grade received. This conference should be held within the first three weeks of the semester following receipt of the grade. At this time, errors may be corrected. If the grade is not an error, the student and instructor must together review all class material pertinent to the grade. If the student is not satisfied or if the instructor does not confer with the student within the first three weeks of the semester, the student should promptly contact the department chair by submitting a written appeal, consisting of a statement giving the factual reasons and basis for the complaint. The student has the right to request in writing that the chair appoint a student as a member of the department/school Grade Appeals Committee. This appeal at the department/school level must be submitted within the first five weeks of the semester following receipt of the grade, in accordance with the "College-wide Grade Appeals Procedures" adopted by the Senate in fall 1985. Copies of this procedure may be obtained in the Senate Office, the Office of Advising or academic departmental offices. Students appealing grades to the School of Nursing, the School of Urban Public Health or the School of Health Professions should direct their appeal to the dean of the School of Nursing. Students appealing grades to the School of Social Work should direct the appeal to the dean of the school, who shall carry out the responsibilities of the department chair.

**Student Eligibility**
To be eligible for federal and New York State aid, a student must be a United States citizen or an eligible non-citizen who is making satisfactory academic progress toward a degree. Students who have defaulted on a loan or owe a repayment of a federal grant at any post-secondary school must make satisfactory repayment arrangements with that institution before they will be eligible to receive aid at Hunter College.

Satisfactory Academic Progress

All financial aid recipients must be making satisfactory academic progress toward a degree. There are two different formulas used to make this determination, one for New York State aid and another for federal aid.

New York State Program Eligibility

In order to receive assistance from the Tuition Assistance Program (TAP) and the Aid for Part-time Study (APTS) Program, students must complete a minimum number of credits the prior semester, complete the appropriate number of cumulative credits and have the appropriate grade point average at the beginning of each semester of state-supported study. The charts below outline these requirements. For example, to receive the fifth payment of TAP, a student who received the first TAP award before summer 2006 would have to have completed 9 credits the prior semester for a total of at least 31 cumulative credits with a minimum grade point average of 2.00.

Waiver of Academic Standing Requirements

Students who become academically ineligible to receive assistance from state programs because of an unusual circumstance for which documentation can be provided (e.g., illness) may apply for a onetime waiver of the Satisfactory Academic Progress requirements. For further information, contact the Financial Aid Office at (212) 772-4882.

To qualify for a New York State Tuition Assistance Program (TAP) award, undergraduate students must meet the applicable New York State Satisfactory Academic Progress (SAP) standards. Students are evaluated based on when they received their first TAP payment and whether or not they are in a remedial program. The following charts explain the New York State Education Department guidelines which detail the SAP standards a student must meet to be certified for each TAP payment.

The following TAP academic progress and program pursuit charts are for undergraduate students.

The Hunter College traditional academic retention standards remain in effect and supersede any other grade point average (gpa) requirements. The following SAP standards are only used to determine TAP eligibility.

C Average Requirement for State Funded Student Financial Aid Eligibility Effective Fall 1996

Effective with the 1996-97 academic year, Education Law section 661 requires that a student have at least a cumulative C average (2.0 on a 4.0 scale, or the equivalent) after the student has completed the second academic year of study. In practice, this requirement is interpreted to mean that a student must have a C average or better after the student has accumulated 24 payment points (received 4 semester payments or the equivalent) to be eligible for further awards. In other words, a student seeking a fifth semester award payment must have a C average.

Transfer Students

Institutions generally accept transfer courses in which grades of C or better were earned. Therefore, students with transferable credits who have already received four semester payments are presumed to meet the C average requirement and are eligible for the initial term at the new institution.

To determine the eligibility of transfer students, an institution may elect to include, for financial aid purposes, the grades earned for courses accepted in transfer providing this policy is applied to all financial aid applicants.

Readmitted Students

A student readmitted to an institution attended previously who has received two or more years of award payments must have a C average or better to receive further State student aid. The student's cumulative grade point average would be based on prior grades earned at the institution.
Course Repeat Rule for NY State Financial Aid

As of May 1987, if a student repeats a course in which a passing grade acceptable to the institution has already been received, the course cannot be included as part of the student's minimum full time or part-time course load for financial aid purposes. When such courses are included in meeting the minimum requirement, they render the student ineligible for a State award. In the following instances, repeated courses may count toward full-time or part-time study: (1) when a failed course is repeated; (2) when a grade received is passing at the institution but is unacceptable in a particular curriculum; and (3) when a course may be repeated and credit earned each time.

A student who earned a passing grade in a course but wishes to repeat the course in the hopes of improving the grade and overall grade point average cannot count the repeated course as part of the minimum course load.

Notice to students changing their enrollment status or withdrawing from classes:

If you change your enrollment status or withdraw from classes, your financial aid may be affected. Each financial aid program is different. You may officially withdraw from a course by logging into CUNYfirst.

Federal Aid Program Eligibility

The federal Satisfactory Academic Progress standard applies to students seeking assistance from all federal student financial aid programs available at Hunter College. To be eligible for federal aid, an undergraduate student must achieve at least the GPA required for probationary status at Hunter after two years of enrollment at the college; at least a C average or academic standing consistent with the requirements for graduation; and must also accumulate credits toward the degree according to the following standards:

- Attempted credits are not more than 150% of the credits normally required for completion of the degree.
  — and —
- Accumulated credits are equal to or greater than two-thirds of the cumulative credits attempted at the institution.
- If the standard in paragraph B is not met, eligibility may be retained by meeting conditional standards:
  - For students who are pursuing a baccalaureate degree, the accumulated credits must be equal to or greater than (75 percent times the cumulative credits attempted) minus 18.

Students will be measured against the satisfactory academic progress standard at the end of the spring term to determine eligibility for receipt of Title IV student financial assistance for the upcoming year.

This chart would be used by a student pursuing a BA degree requiring 126 credits. In this example, if you have attempted 36 credits, you must successfully complete at least 24. To maintain conditional eligibility, you must successfully complete 9 credits.

Student Services

The Office of Advising Services

1119 East
(212) 772-4882
http://www.hunter.cuny.edu/studentservices/advising
Academic advising at Hunter College teaches students the information, skills and competencies necessary to make informed choices about their college experience. Through a variety of venues, including orientation, individual advising, group advising, and electronic communications, advisers help students to understand academic requirements, clarify their goals, and devise action plans. Realizing that connections to the Hunter community contribute to student success, Advising Services staff members prepare students to engage with faculty, staff and fellow students. In addition to the services listed above, resources in the Office of Advising Services include the First Year Advising and Orientation Program, Transfer Programs, the Sylvia E. Fishman Student Center, and the Center for Student Achievement.

First-Year Advising and Orientation

First-Year Advising and Orientation facilitates the first-year student's transition into Hunter College. A comprehensive orientation introduces students to the college and prepares them to succeed inside and outside the classroom. Each new student is then assigned a professional academic adviser who provides guidance and support during the student's first year. Please see our Web site for more information at www.hunter.cuny.edu/studentservices/fao

Transfer Programs

Through advising services and orientation, the office of Transfer Programs promotes student transition into Hunter College. At orientation, new transfers learn about academic requirements, course transferability, and paths to successful degree completion. Academic advisers are available to help transfer students understand degree requirements, develop meaningful short- and long-term academic plans, explore majors and locate critical resources. Please see our Web site for more information at http://www.hunter.cuny.edu/studentservices/transfers.

Career Development Services

805 East
(212) 772-4850
www.hunter.cuny.edu/studentservices/cds

The Office of Career Development helps Hunter College students to compete in the job market through a variety of services:

Career Counseling Career counseling is an interactive process where students are assisted in discovering the career that will provide optimum personal satisfaction. Counselors meet with students individually and in small groups to explore and evaluate the student's academic strengths and concentration, additional training, work history, interests, skills and personal traits. Counselors help uncover underlying factors that may impede progress toward decision making. Counselors also help the student develop a resumé, interviewing skills and job search skills. Alumni are also encouraged to use the services for assistance in job search and career change.

Internships Internships provide the opportunity to gain pre-professional work experience in a setting related to a student's major course of study. Interns work in corporations, government agencies and nonprofit organizations. In addition to gaining work-related skills, students develop contacts for future employment and acquire job related experience to enhance their resume and interview presentation and earn academic credit or stipends.

Employer Recruiting Representatives from corporations, banks, brokerage houses, accounting firms, insurance companies, retail stores, computer and software companies, nonprofit organizations and government agencies recruit on and off campus in the fall and spring by interviewing students for a variety of professional positions.
**Employer Visits** Employers and successful professionals, including alumni, come to Hunter to discuss career opportunities in their respective areas. Panelists explore current trends in various fields, offer suggestions for preparing for the competitive job market and describe their own careers. From these experiences, students learn about specific companies, their products and services, hiring trends and career opportunities.

**The On Campus Recruiting Program** Graduating seniors have the opportunity to enroll in the On Campus Recruiting Program. Approved resumes are made available to participating employers for review. Employers select those candidates in whom they are interested and conduct interviews on and off campus.

**CAREERHUNTER Job and Internship Data Base** Businesses, industries, government agencies, schools, hospitals and nonprofit organizations post part- and full-time jobs and internships with the Career Development Services office. Students and alumni can register in CAREERHUNTER, create a profile, upload a resume, access the listings, and send the resume directly to employers.

**Career Resource Library** A wide variety of career information is available: reference books, periodicals, directories and guide books on career planning and job search preparation and strategies.

**Counseling & Wellness Services**

**Counseling Services** offers free and confidential assessment and short-term counseling to enrolled Hunter College students. Professional counselors assist students with personal and emotional difficulties that may interfere with academic progress and success. Additional services include crisis intervention and referrals to community agencies and resources. Counselors are also available to provide consultation services to the entire Hunter College community.

1123 East (212) 772-4931
hunter.cuny.edu/studentservices/pcs

**Wellness Services** maintains two divisions: *Health Services* and *Health Promotion & Education*.

*Health Services* is responsible for processing student immunization records, and also offers a variety of preventative health screens and access to health-related resources. In addition, Health Services distributes physical activity cards (PAC) required for use in all recreation programs and facilities.

307 North 212.772.4800

*Health Promotion & Education* aims to enhance and advance the health and wellness of students in support of personal and academic success. Health Educators conduct outreach to educate students about health-related topics and the relationship between mental health and wellbeing and academic functioning and success, equip students with knowledge and skills to make informed and proactive decisions regarding their health, and assist in developing healthy lifestyle habits.

307 North 212.772.4909
In compliance with the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1975, the Office of AccessABILITY ensures the availability of variety of accommodations and services for students with documented disabilities or medical conditions who are currently registered at Hunter College. Disabilities include (but may not be limited to):

- Medical and psychological conditions, learning disabilities, deafness and hard of hearing, visual impairment, mobility impairment and other conditions that cause you to have mobility difficulties or result in your using a cane or wheelchair.

- Assistance to students with temporary disabilities due to an accident or short-term health conditions is also available. To be eligible for reasonable accommodations, it is necessary for students to provide a written statement with supporting documentation of a disability from a "qualified professional" (physician, psychiatrist, psychologist, or clinical social worker).

Under the auspices of the Office of AccessABILITY, the Access and Technology Center, Room 205 Thomas Hunter Hall, is a resource facility for students with disabilities. The center houses equipment with adaptive software and hardware technologies.

For more information, please call (212) 772-4857/VRS (646) 755-3129 or go to our Web site.

The Section 504 Coordinator at Hunter College, Professor Tamara Green is responsible for enforcement of the provisions of Section 504. She may be contacted in 1429 Hunter West, (212) 772-5061. There is a 504 Grievance Procedure for students with disabilities at Hunter College. Students may obtain the necessary form, which contains instructions for filing, from the Office of Student Services in Room 1119 Hunter East. Students with disabilities at the School of Social Work may contact the director of admissions at (212) 396-7574 for assistance.

The International Students Office (ISO) provides vital immigration related information to all international students, including F-1 and J-1 Exchange Visitor statuses or visa holders and other students with questions about their statuses to help them to learn immigration status maintenance. The ISO refers all international students to Academic Advising for timely graduation from Hunter College. The office is an important source of information regarding immigration matters, such as the requirements for compliance with the Student Exchange and Visitors Information System (SEVIS). The ISO issues SEVIS I-20 or DS2019 forms to all newly admitted international students. It also provides individualized advising and holds small group discussions throughout the academic year on such topics as employment options, immigration law, tax issues, and adaptation to both the United States (U.S.) educational systems and to the U.S.

Children's Learning Center
The Children's Learning Center at Hunter College offers a rich, developmentally appropriate environment for your child while you attend classes. The staff members are highly qualified to provide experiences and activities necessary for your child's development. The Center has two programs: Preschool (aged 2.5 - 5), and After-school (aged 6-12). Any Hunter student who is the parent or legal guardian of a child is eligible for this program. Students can be part time, full time, undergraduate, or graduate. Fees operate on a sliding scale and financial assistance is available to eligible students. Apply in person or online.

Website: www.hunter.cuny.edu/studentservices/clc

E-Mail: clc@hunter.cuny.edu

The Sylvia E. Fishman Student Center

417 Hunter West; (212) 650-3282
www.hunter.cuny.edu/student services/sefsc

The Sylvia E. Fishman Student Center was created to provide a safe, friendly, educational, and supportive environment for all students and to help them create a strong foundation for their education. It offers programs, activities and services to enhance the academic experience for students. One of these is the Peer Advising Leadership Program, where trained student peer advisors provide assistance on understanding the Hunter's general liberal arts requirements and the many academic resources offered at the college. Many of the Peer Advisors are also involved in a variety of campus activities, such as officers of student clubs, and members of athletic teams, social, and academic honor societies. They offer a unique perspective on what it is like to be a Hunter student. In addition to academic advising, the Center is often reserved by other student services areas to provide information about their programs. These include sessions on career exploration, internship opportunities, Pre-Law information, and other student-based events. For more information see our Web site.

Center for Student Achievement

417 Hunter West; (212) 772-4890
http://www.hunter.cuny.edu/student services/csa

The Center for Student Achievement provides students with opportunities to develop and enhance their study methods. The Center provides assistance to students on academic probation. By offering programs such as Project Success and the Academic Success Coaching program we give students the opportunity to improve their academic skills. Project Success is a weekly seminar for students on academic probation, while the Academic Success Coaching program offers students who are academically at-risk individual meetings with a trained staff member. For more information about the services and resources, visit our Web site.

Campus Housing

Department of Residence Life

Residence Hall Office: (212) 481-4310
www.hunter.cuny.edu/livingathunter

Hunter College residences have the unique opportunity to enrich their learning experiences by becoming involved in the Residence Life community. Residents are involved in a number of social, educational, and cultural programs designed to enhance their out-of-the classroom education and to promote positive relationships within the residences and the community at large.
Only a limited number of Hunter's 23,000 students have the opportunity to live in our residences. Scholar groups are given priority access, and are assigned to a specific residence to better build community among them.

The Brookdale Residence Hall is located at 425 East 25th Street and houses approximately 700 undergraduate students. All rooms are single occupancy and contain basic furnishings. Each floor has a main lounge, bathroom facilities and a kitchen.

97th Street Residence is located at 1760 3rd Avenue at 97th Street, and houses 99 undergraduate residents. This updated residence hall is equipped with everything you would expect plus a concierge, high tech gym, laundry facility.

92nd Street Residence is located at 1395 Lexington Ave (at 92nd Street), and houses 36 undergraduate residents. This location offers a full, complimentary membership to the 92nd Street's May Center for Health, Fitness & Sport, two weight-training rooms, two gyms, an indoor track, racquetball courts, steam rooms, saunas and a 25-yard ozone-purified swimming pool. Residents can also attend 92nd Street programs, events and classes at a discount.

Sports, Recreation and Fitness

Hunter Athletics
B317 Hunter West; (212) 772-4782
www.hunter.cuny.edu/athletics

The Hunter College Athletic program is the premier benchmark intercollegiate program in the New York Metropolitan region and City University of New York Athletic Conference (CUNYAC). With 18 sponsored men's and women's teams, the Hawks compete on the NCAA Division III level with a commitment to athletic and academic progress and development each year. Student-athletes benefit from an outstanding and supportive academic environment, highly qualified coaches and superior facilities for competition and practice. Over the last fifteen years Hunter College has won 10 CUNY Athletic Conference Commissioner's Cups, an award presented to the best athletic program in the conference. Since 1990, Hunter Athletics has also won 125 CUNYAC Championships, joining a dozen other athletic programs to reach the 100 championship pinnacle.

The athletic program also maintains an impressive average GPA of higher than a 3.0 among student athletes each year. Furthermore, 60% of student-athletes boast a 3.0 GPA or better.

Hunter College offers a multi-million dollar athletics facility which is equipped with "state of the art" renovated competition and practice gymnasiums, wrestling room, fencing/yoga room, men's and women's locker rooms, swimming pool, athletic training room, state-of-the-art weight room, racquetball courts and the smart classroom for student use. The Brookdale campus also houses a swimming pool, weight room, gymnasium, tennis courts and bowling alley for official athletic and recreation use. For more information on the Hunter Athletic program, log onto www.huntercollegeathletics.com or call 212-772-4782.

Women's sports include basketball, cross country, fencing, indoor track, outdoor track, softball, swimming, tennis and volleyball. Men's sports include basketball, cross country, fencing, indoor track, outdoor track, soccer, tennis, volleyball and wrestling.

Recreation, Fitness and Intramurals
Hunter College's recreation, fitness and intramural programs are designed to promote physical fitness, relaxation, wellness and enjoyment for members of the college. Open to students, faculty, staff and alumni, the Recreation and Intramural and Fitness programs are flexible and provide for a variety of healthful and enjoyable experiences at all levels of skill and participation. Activities offered include a fitness center, open swimming, basketball, volleyball, tennis and racquetball. Non-credit group fitness classes such as yoga, Pilates, cardio kickboxing, cardio spin, Zumba & Tai Chi are also offered.

Intramural sports provide Hunter students with the opportunity to compete in various organized activities, games and sports against members of the college community. Some of the more popular sports include flag football, basketball, volleyball, soccer, racquetball, handball, dodge ball, and the annual Turkey Trot.

Student Life: Clubs, Organizations and Activities

Student life at Hunter is enriched by a wide array of organizations and clubs — approximately 150 in number — which provide opportunities for participation in academic, political, recreational, ethnic, religious and social activities. Student organizations sponsor events and activities, which include hosting guest speakers, concerts, movies, attending conferences, assisting charities and social gatherings. All student clubs and publications are administered by the membership through their elected officers. Students are encouraged to join and become active in at least one organization so they have an opportunity to meet other students and develop interpersonal, leadership and managerial skills.

The Office of Student Activities, a unit of the Office of Student Affairs, encourages student involvement and supports clubs and organizations on campus by conducting a series of student leadership colloquia and other leadership development workshops, facilitating club events and opening doors to community service opportunities.

The office is also a resource for free and discount tickets to theater, concerts and other performances. A complete listing of student organizations and additional information regarding student activities can be obtained by contacting the Office of Student Services/Student Life, Room C001 Hunter North (212) 772-4908.

Assembly and Meeting Hours

A block of time is set aside each week during which no classes are scheduled. Called "Dean's Hours," this time block is reserved for official college assemblies, guidance meetings and other academic and administrative purposes and for meetings of student organizations. Generally, Dean's Hours are scheduled on Wednesdays, from 1:10-3:00 p.m.

Student Veterans Services

Student Veteran Services (SVS) is the central hub that connects student veterans with academic and personal support resources on and off campus. The SVS team is made up of dedicated student affairs professionals, who support the student veteran population at the college, including: service members, veterans, and eligible family members. Our goal is to support your academic and personal endeavors at Hunter, from acceptance to graduation, including your transition and integration to our college community.
Hunter College is proud to have you enrolled at our institution and greatly appreciates your service to our nation. We look forward to working with you during your time at the college.

**Study Abroad Grading**

Grades for courses taken by Hunter College students through the Education Abroad office that are not taught by Hunter faculty will appear in the "Comments" section of the official Hunter College transcript. These grades will not be included in the calculation of the student's Grade Point Average.

Grades for courses taken by Hunter College students through the Education Abroad office will not be calculated into their Hunter College GPA. Exceptions include Education Abroad courses taken through other CUNY colleges. For more information, visit the Education Abroad web page at http://www.hunter.cuny.edu/educationabroad

**Suspension of Classes**

Announcements concerning emergency suspension of classes will be made on the following radio stations:

- WFAS 1230 AM and 104 FM
- WINS 1010 AM
- WADO 1280 AM (Spanish-speaking)
- WCBS 880 AM and 101.1 FM
- WBLS 107.5 FM
- WLIR 1140 AM

Additionally, announcements will be posted on the Hunter College Web site at http://www.hunter.cuny.edu.

**Testing Requirements**

Visit CUNY's website for COVID-19 policy updates

- **Degree Students and CUNY Proficiency Requirements**

  Degree seeking students enrolling at Hunter College must demonstrate college readiness in reading, writing and mathematics at the time of application, as outlined by the City University of New York.

- **Nondegree Students and CUNY Proficiency Requirements**

  Visit CUNY's website for COVID-19 policy updates.

  Non-degree students may attempt up to 12 credits at Hunter College without demonstrating the CUNY proficiency requirements unless it is required for a particular course. Non-degree students are required to demonstrate CUNY proficiency requirements once 12 credits have been attempted; non-degree students must demonstrate proficiency requirements based on the same criteria set forth for Degree Students. Non-degree students who fail to
demonstrate CUNY proficiency requirements will not be permitted to enroll in additional courses at Hunter College until they have met CUNY's college readiness requirements as transfer students.

- **Mathematics Placement Test**

*Visit The Hunter College Testing Center's Website for COVID-19 policy updates*

The Mathematics Placement Test is a timed, multiple choice, computer-based test. Students must take the Math Placement Test before they may register for math, science and certain liberal arts courses at Hunter College. SAT, ACT and New York State Regents test scores do not exempt a student from this test. Test results will be used to place students appropriately in coursework at Hunter College. The exam does not affect acceptance to Hunter College.

The Mathematics Placement Test is administered in the Hunter College Testing Center, Room 150 Hunter North. Visit the Hunter College Testing Center's website for sample questions, related information, as well as available dates and times to take examinations. Inquiries pertaining to testing at Hunter College may be addressed by calling the Testing Center at 212-772-4868 or sending an email to testing@hunter.cuny.edu.

**The Academic Program**

**The Bachelor of Arts (BA)** degree encompasses sciences, humanities and the arts and the social sciences. BA programs prepare students for positions in profit, nonprofit and government organizations as well as for graduate programs.

**The Bachelor of Science (BS)** degree programs provides training for a particular career and are therefore considered professional degrees.

**The Bachelor of Fine Arts (BFA)** degree is a concentration in art for highly qualified students. The Studio Art - BFA is described in detail in the section devoted to the Art and Art History Department.

**The Bachelor of Music (BMus)** degree is designed for students who intend to perform professionally or to teach the performance of music. The Music - BMus program is described in detail in the section devoted to the Music Department.

**The Bachelors/Masters degree programs** are designed for highly qualified students in particular areas of study; they enable full-time students to complete both the bachelor's and master's degrees in 4-5 years. Students in combined programs will pay undergraduate tuition rates up to the number of credits required to earn a baccalaureate degree (120 credits). Any credits taken toward the combined degree after 120 credits are charged at the graduate tuition rate. Some programs offer teacher certification at the master's level.

See Programs of Study for a list of programs

**The CUNY (City University of New York)** Baccalaureate degree is a university-wide program. This degree, awarded by CUNY rather than by a specific undergraduate CUNY college, may be a BS or BA degree and is intended for students who have well formulated individual academic and career goals. Students who are accepted work out their programs with a faculty committee of their choice that is willing to support the student's plan of study. Students pursue their studies at one or more colleges in CUNY, according to their interests. Students must complete at least 15 but not more than 90 credits to be considered for admission to this program. Further information can be obtained from the CUNY/BA adviser in the Office of Advising Services, Room 1119 East Building.

**The Center for Puerto Rican Studies**
The Centro de Estudios Puertorriqueños/Center for Puerto Rican Studies (Centro) is a university-based research institute whose mission consists of two components. One is to produce, facilitate and disseminate interdisciplinary research about the diasporic experiences of Puerto Ricans and to link this scholarly inquiry to social action and policy debates. The other is to collect, preserve and provide access to archival and library resources documenting the history and culture of Puerto Ricans. To execute this mission, Centro sponsors a year-round program of educational and cultural activities.

**History**
Founded in 1973 by a coalition of faculty, students and community leaders, Centro seeks to implement its mission by working closely with a network of education, research, archival, advocacy and community-based partners. A university-wide research center serving the entire CUNY system, Centro has been housed at Hunter College since 1983. Centro staff guide and mentor students, assist and advise community organizations and other research institutions and serve on local, national and international committees concerned with issues of social, economic, educational and cultural policy. In addition, CUNY faculty and staff with interests in Puerto Rican and Latino studies are invited to affiliate with Centro, where they utilize its extensive resources. Centro has been a founding member of the Inter-University Program for Latino Research (IUPLR) since 1989. The IUPLR, currently composed of 23 affiliate centers, is the most extensive consortium of Latino research centers in the United States.

**Research Program**
As a university-based research center focused on Puerto Ricans, Centro staff and researchers are interested in a comprehensive understanding of the Puerto Rican diasporic experience in the U.S. and in relevant socioeconomic and historical aspects regarding Puerto Rico. Given its history and role within CUNY, Centro is particularly interested in New York's Puerto Rican and ethnic communities. The following are research areas of current interest and attention: history and political economy, migration, race, class, gender and sexuality, education, community development, political and human rights, public policy and political participation and cultural and literary studies. This list reflects the current combination of staff strengths and expertise, as well as the academic, community and policy networks the Centro has developed. Given the changing needs in Puerto Rican communities, in academia and in the Centro's staff, the areas of current interest are reviewed periodically.

The Centro Research Exchange program promotes institutional, faculty and student intellectual and scientific exchange with stateside academic institutions. Since its inception the program has focused on strengthening institutional links between the City University of New York and stateside higher education and research institutions through academic and cultural exchanges and scholarly collaboration. Centro has sponsored numerous resident scholars, including theses and dissertation, post-doctoral and junior faculty fellows. The Centro Research Exchange Program has facilitated research and other academic/cultural activities for more than three hundred faculty and students.

**Library and Archives**
The Centro Library and Archives is devoted to collecting, preserving and providing access to resources documenting the history and culture of Puerto Ricans living in the United States. Located at the Lois V. and Samuel J. Silberman Building in East Harlem, the collections include books, newspapers, periodicals, audio and video tapes, manuscripts, photographs, prints and recorded music. The Library and Archives provides services and programs to the scholarly community as well as the general public. They facilitate access to their holdings through mail and telephone services, City University's online public catalog (CUNY+), participation in national computerized databases, and through the publication of finding aids. The Library and Archives also promote the study of Puerto Rican history and culture through exhibitions and other public programs.

With over 300 collections and 1000 oral histories among other holdings, Centro's archives include personal papers, records of organizations and institutions, photographic collections, broadsides, programs and ephemera. Among the
collections are the records of civil rights organizations, the papers of activists, writers, artists, scholars, educators and elected officials. A highlight of the holdings is the extensive records of the offices of the Government of Puerto Rico in the U.S. Special features of the Archives include its photographic holdings, art prints/posters by artists from New York and Puerto Rico and sound recordings of Puerto Rican popular music. Finding aids and guides are available for processed collections and are found online on the Centro Web site.

**Publications** Through Centro Publications, Centro seeks to expand its goal of broad dissemination of knowledge about Puerto Ricans and their experience. Centro Publications include various types of products targeting specific constituencies such as academics, policy makers, community leaders and organizations, and others.

The **CENTRO Journal**, founded in 1987, is one of the Centro's most important links to the public. The Journal is a multidisciplinary, bilingual, refereed publication that welcomes scholarly articles in the humanities and the social and natural sciences, as well as interpretive essays, interviews, fiction, reviews and art. It reflects developments in the field of Puerto Rican studies. Although primarily an academic publication directed at disseminating the body of scholarship on Puerto Rico and Puerto Ricans, the Journal retains elements of its earlier incarnation, publishing work in a variety of formats. The journal encourages a dialogue that compares Puerto Ricans with other ethnic groups, particularly other Latinos and African Americans. The Journal is available by subscription directly from our office or it may be ordered via our website.

**Centro Voices** is the e-magazine of the Center for Puerto Rican Studies. A web-based platform at https://centropr.hunter.cuny.edu/centrovoices, Voices' goal is to disseminate scholarly contributions about the Puerto Rican experiences in the United States to a general public. It encourages interactions among academics, our community and the general public. In collaboration with WIPR, Puerto Rican Voices, a television series, premiered in 2015 and has had a strong and successful three seasons since its debut. In 2016, it received the Imagen Award for Best Local Informational Program. Puerto Rican Voices highlights the contributions of Puerto Ricans across the United States. Its programming is presently available through CUNY-TV.

Launched in 2013, **Centro Press** currently has seven published titles, with an additional three forthcoming. These books are currently available for purchase directly from our office or online on our website.

Centro Publications also include **Policy Briefs, Data Sheets** and special topics **Booklets**. These products are typically distributed free through our web site and events. Research Briefs are descriptive and topical summaries on specific areas of interest about the experience of the Puerto Rican population in the United States. Data Sheets are short documents that provide the most up-to-date demographic information about the Puerto Rican population in the United States. Data provided by the U.S. Census Bureau is summarized through a series of charts, tables and maps to illustrate major points and changes within the Puerto Rican population. Booklets are publications on special topics targeting a wide audience. Recent examples include: U.S. Citizenship in Puerto Rico: One Hundred Years After the Jones Act; State of Puerto Ricans 2017; Puerto Rico in Crisis Timeline; and, Puerto Ricans in the United States: A Brief Chronology.

**Education** Centro's education programs focus on the development of curriculum and educational materials (such as video, posters, teaching guides) that disseminate and promote the use of historical and cultural heritage content for undergraduate courses, and for middle and high schools, as well as the general public. One such program—The Puerto Rican Heritage Cultural Ambassadors Program—is a national partnership of youth, community leaders, cultural and educational institutions devoted to promoting Puerto Rican culture, with the goal of cultivating leadership skills in Puerto Rican youth so they may become a driving force of change for themselves and their communities.

**Conferences and Seminars** As part of our educational initiatives, Centro regularly sponsors conferences and seminars that highlight the Puerto Rican experience. The recent economic crisis in Puerto Rico and the aftermath of devastating cyclones on the island have led us to concentrate our efforts to convening the Puerto Rican community in the United States as part of a solidarity network in order to assist in the recovery and reconstruction of Puerto Rico. Centro has therefore convened three major national conferences—Puerto Rico, Puerto Rican-Diaspora Summits—and many more regional and local ones to assess conditions on the island, and in Puerto Rican communities in the United States as a way to build consensus for community-based strategies and responses. Centro has also coalesced with other CUNY research institutes and community-based organizations in promoting the Summit on Latin@as in New York City (SoL-
NYC) to foster the creation of an action agenda to improve conditions and the standing of the Hispanic population in the city.

**Events** Centro sponsors cultural and educational activities that contribute to the study and interpretation of the Puerto Rican experience in the United States. We give priority to activities that support teaching and learning Puerto Rican Studies, develop and promote our archival collections, and that are useful to those in community organizations, public policy, and academia. Our speaker forums focus on scholarship in the social sciences, humanities, and performance arts.

For more information on current programs, events and other activities, please visit http://centropr.hunter.cuny.edu.

# The City University of New York Policy on Acceptable Use of Computer Resources

## I. INTRODUCTION

CUNY's computer resources are dedicated to the support of the University's mission of education, research and public service. In furtherance of this mission, CUNY respects, upholds and endeavors to safeguard the principles of academic freedom, freedom of expression and freedom of inquiry. CUNY recognizes that there is a concern among the University community that because information created, used, transmitted or stored in electronic form is by its nature susceptible to disclosure, invasion, loss, and similar risks, electronic communications and transactions will be particularly vulnerable to infringements of academic freedom. CUNY's commitment to the principles of academic freedom and freedom of expression includes electronic information. Therefore, whenever possible, CUNY will resolve doubts about the need to access CUNY Computer Resources in favor of a User's privacy interest. However, the use of CUNY Computer Resources, including for electronic transactions and communications, like the use of other University-provided resources and activities, is subject to the requirements of legal and ethical behavior. This policy is intended to support the free exchange of ideas among members of the CUNY community and between the CUNY community and other communities, while recognizing the responsibilities and limitations associated with such exchange.

## II. APPLICABILITY

This policy applies to all Users of CUNY Computer Resources, as defined in Article III below. This policy supersedes the CUNY policy titled "CUNY Computer User Responsibilities" and any college policies that are inconsistent with this policy.

## III. DEFINITIONS

- "CUNY Computer Resources" refers to all computer and information technology hardware, software, data, access and other resources owned, operated, or contracted by CUNY. This includes, but is not limited to, desktop and laptop computers, handheld devices that allow or are capable of storing and transmitting information (e.g., cell phones, tablets), mainframes, minicomputers, servers, network facilities, databases, memory, memory sticks, and associated
peripherals and software, and the applications they support, such as e-mail, cloud computing applications, and access to the internet.

- “E-mail” includes point-to-point messages, postings to newsgroups and listservs, and other electronic messages involving computers and computer networks.
- “Faculty” includes full-time, part-time, and adjunct faculty.
- “FOIL” is the New York State Freedom of Information Law.
- “Non-Public University Information” has the meaning set forth in CUNY’s IT Security Policies and Procedures found at security.cuny.edu, namely: personally identifiable information (such as an individual's Social Security Number; driver's license number or non-driver identification card number; account number, credit or debit card number, in combination with any required security code, access code, or password that would permit access to an individual's financial account; personal electronic mail address; Internet identification name or password; and parent's surname prior to marriage); information in student education records that is protected under the Family Educational Rights and Privacy Act of 1974 (FERPA) and the related regulations set forth in 34 CFR Part 99; other information relating to the administrative, business, and academic activities and operations of the University (including employee evaluations, employee home addresses and telephone numbers, and other employee records that should be treated confidentially); and any other information available in University files and systems that by its nature should be treated confidentially.
- “User” means a user of CUNY Computer Resources, including all current and former users, whether affiliated with CUNY or not, and whether accessing those resources on a CUNY campus or remotely.

IV. RULES FOR USE OF CUNY COMPUTER RESOURCES

1. Authorization.

- Users may not access a CUNY Computer Resource without authorization or use it for purposes beyond the scope of authorization. This includes attempting to circumvent CUNY Computer Resource system protection facilities by hacking, cracking or similar activities, accessing or using another person's computer account, and allowing another person to access or use the User's account.
- Notwithstanding subsection 1.a. above, a User may authorize a colleague or clerical assistant to access information under the User's account on the User's behalf while away from a CUNY campus or when the User is unable to efficiently access the information on the User's own behalf (including as a result of a disability), but delegated access will be subject to the rules of Section 10 – Security, below.
- CUNY Computer Resources may not be used to gain unauthorized access to another computer system within or outside of CUNY. Users are responsible for all actions performed from their computer account that they permitted or failed to prevent by following ordinary security precautions. CUNY advisories and resources are available at security.cuny.edu.

2. Purpose.

- Use of CUNY Computer Resources is generally limited to activities relating to the performance by CUNY employees of their duties and responsibilities, by students in connection with their college courses and activities, and by retired CUNY teaching faculty, librarians, and other retired employees approved by the college president or where the employee is a member of the Central Office staff then by the Chancellor or his or her designee. For example, use of CUNY Computer Resources for private commercial or not-for-profit business purposes, for private advertising of products or services, or for any activity meant solely to foster personal gain, is prohibited. Similarly, use of CUNY Computer Resources for partisan political activity is also prohibited.
- Except with respect to CUNY employees other than faculty, where a supervisor has prohibited it in writing, incidental personal use of CUNY Computer Resources is permitted so long as such use does not interfere with CUNY operations, does not compromise the functioning of CUNY Computer Resources, does not interfere with the User’s employment or other obligations to CUNY, and is otherwise in compliance with this policy, including subsection 2.a. above. Users should be aware that personal messages, data and other information sent or received through a User's CUNY account or otherwise residing in a CUNY Computer Resource are subject to CUNY review pursuant to Section 13 of this policy and may also be subject to public disclosure pursuant to FOIL.

3. Compliance with Law.
• CUNY Computer Resources may not be used for any purpose or in any manner that violates CUNY rules, regulations or policies, or federal, state or local law. Users who engage in electronic communications with persons in other states or countries or on other systems or networks may also be subject to the laws of those other states and countries, and the rules and policies of those other systems and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular use.
• Examples of applicable federal and state laws include those addressing defamation, invasion of privacy, obscenity and child pornography, and online gambling, as well as the following:
  • Computer Fraud and Abuse Act
  • Copyright Act of 1976
  • Electronic Communications Privacy Act
  • Export control regulations issued by the U.S. Departments of Commerce, State and Treasury
  • Family Educational Rights and Privacy Act
  • FOIL
  • New York State Law with respect to the confidentiality of library records
  • Examples of applicable CUNY rules and policies include those listed below.
  • Other rules and policies may be found in the Manual of General Policy and on the CUNY Legal Affairs website:
    • Gramm-Leach-Bliley Information Security Program
    • IT Security Policies & Procedures
    • Policy on Maintenance of Public Order (the "Henderson Rules")
    • Sexual Harassment Policy
    • University Policy on Academic Integrity
    • Web Site Privacy Policy

• Users may use only legally obtained, licensed data or software and must comply with applicable licenses or other contracts, as well as copyright, trademark and other intellectual property laws.
• Much of what appears on the internet and/or is distributed via electronic communication is protected by copyright law, regardless of whether the copyright is expressly noted. Users should generally assume that material is copyrighted unless they know otherwise, and not copy, download or distribute copyrighted material without permission unless the use does not exceed fair use as defined by the federal Copyright Act of 1976. Protected material may include, among other things, text, photographs, audio, video, graphic illustrations, and computer software. Additional information regarding copyright and file sharing is available on the CUNY Legal Affairs website.
5. False Identity and Harassment. Users may not employ a false identity, mask the identity of an account or computer, or use CUNY Computer Resources to engage in abuse of others, such as sending harassing, obscene, threatening, abusive, deceptive, or anonymous messages within or outside CUNY.

6. Confidentiality

• Users may not invade the privacy of others by, among other things, viewing, copying, redistributing, posting such data to the Internet, modifying or destroying data or programs belonging to or containing personal or confidential information about others, without explicit permission to do so.
• CUNY employees must take precautions by following all IT Security Policies and Procedures to protect the confidentiality of Non-Public University Information encountered in the performance of their duties or otherwise.
7. Integrity of Computer Resources. Users may not install, use or develop programs intended to infiltrate or damage a CUNY Computer Resource, or which could reasonably be expected to cause, directly or indirectly, excessive strain or theft of confidential data on any computing facility. This includes, but is not limited to, programs known as computer viruses, Trojan horses, and worms. Users should consult with the IT director at their college before installing any programs on CUNY Computer Resources that they are not sure are safe or may cause excess strain.

8. Disruptive Activities.

• CUNY Computer Resources must not be used in a manner that could reasonably be expected to cause or does cause, directly or indirectly, unwarranted or unsolicited interference with the activity of other users, including:
i. Chain letters, virus hoaxes or other e-mail transmissions that potentially disrupt normal e-mail service;

ii. Spamming, junk mail or other unsolicited mail that is not related to CUNY business and is sent without a reasonable expectation that the recipient would welcome receiving it;

iii. The inclusion on e-mail lists of individuals who have not requested membership on the lists, other than the inclusion of members of the CUNY community on lists related to CUNY business; and

iv. Downloading of large videos, films or similar media files for personal use. b. CUNY has the right to require Users to limit or refrain from other specific uses if, in the opinion of the IT director at the User's college, such use interferes with efficient operations of the system, subject to appeal to the President or, in the case of central office staff, to the Chancellor.

9. CUNY Names and Trademarks.

a. CUNY names, trademarks and logos belong to the University and are protected by law. Users of CUNY Computer Resources may not state or imply that they speak on behalf of CUNY or use a CUNY name, trademark or logo without authorization to do so. Affiliation with CUNY does not, by itself, imply authorization to speak on behalf of CUNY.

b. Notwithstanding subsection 9.a. above, CUNY employees and students may indicate their CUNY affiliation on e-mail, other correspondence, and in academic or professionally-related research, publications or professional appearances, so long as they do not state or imply that they are speaking on behalf of the University.

a. CUNY employs various measures to protect the security of its computer resources and of Users' accounts. However, CUNY cannot guarantee such security. Users are responsible for engaging in safe computing practices such as guarding and not sharing their passwords, changing passwords regularly, logging out of systems at the end of use, and protecting Non-Public University Information, as well as for following CUNY's IT Security Policies and Procedures.

b. Users must report incidents of non-compliance with IT Security Policies and Procedures or other security incidents to the University Chief Information Officer and Chief Information Security Officer, and the Chief Information Officer at the affected User's college.

11. Filtering. CUNY reserves the right to install spam, anti-malware, and spyware filters and similar devices if necessary in the judgment of CUNY's Office of Information Technology or a college IT director to protect the security and integrity of CUNY Computer Resources. CUNY will not install filters that restrict access to e-mail, instant messaging, chat rooms or websites based solely on content, unless such content is illegal, such as child pornography sites.

12. Confidential Research Information. Principal investigators and others who use CUNY Computer Resources to collect, examine, analyze, transmit or store research information that is required by law or regulation to be held confidential or for which a promise of confidentiality has been given are responsible for taking steps to protect such confidential research information from unauthorized access or modification. In general, this means storing the information on a computer or auxiliary hard drive that provides strong access controls (passwords) and encrypting files, documents, and messages for protection against inadvertent or unauthorized disclosure while in storage or in transit over data networks. Robust encryption and passwords must be used to protect Non-Public University Information, and is strongly recommended for information stored electronically on all computers, especially portable devices such as notebook computers, Personal Digital Assistants (PDAs), and portable data storage (e.g., auxiliary hard drives, memory sticks) that are vulnerable to theft or loss, as well as for information transmitted over public networks. Software and protocols used should be reviewed and approved by CUNY's Office of Information Technology. In addition, the steps taken to protect such confidential
research information should be included in submissions to the CUNY Institutional Review Board reviewing the research protocol.

13. CUNY Access to Computer Resources.

a. Copying. CUNY may copy a User's account and/or hard drive on a CUNY Computer Resource, without monitoring or inspecting the contents of such account and/or hard drive, at any time for preservation of data or evidence, without notice to the User.

b. General Monitoring Practices. CUNY does not routinely monitor, inspect, or disclose individual usage of CUNY Computer Resources without the User's consent. In most instances, if the University needs information located in a CUNY Computer Resource, it will simply request it from the author or custodian. However, CUNY IT professionals and staff do regularly monitor general usage patterns as part of normal system operations and maintenance and might, in connection with these duties, observe the contents of web sites, e-mail or other electronic communications. Except as provided in this policy or by law, these individuals are not permitted to seek out contents or transactional information, or disclose or otherwise use what they have observed. Nevertheless, because of the inherent vulnerability of computer technology to unauthorized intrusions, Users have no guarantee of privacy during any use of CUNY computer resources or in any data in them, whether or not a password or other entry identification or encryption is used. Users may expect that the privacy of their electronic communications and of any materials stored in any CUNY Computer Resource dedicated to their use will not be intruded upon by CUNY except as outlined in this policy.

c. Monitoring without Notice.

i. Categories. CUNY may specifically monitor or inspect the activity and accounts of individual users of CUNY computer resources, including individual login sessions, e-mail and other communications, without notice, in the following circumstances:

A. when the User has voluntarily made them accessible to the public, as by posting to Usenet or a web page;

B. when it is reasonably necessary to do so to protect the integrity, security, or functionality of CUNY or other computer resources, as determined by the college chief information officer or his or her designee, after consultation with CUNY's chief information officer or his or her designee;

C. when it is reasonably necessary to diagnose and resolve technical problems involving system hardware, software, or communications, as determined by the college chief information officer or his or her designee, after consultation with CUNY's chief information officer or his or her designee;

D. when it is reasonably necessary to determine whether CUNY may be vulnerable to liability, or when failure to act might result in significant bodily harm, significant property loss or damage, or loss of evidence, as determined by the college president or a vice president designated by the president or, in the case of the Central Office by the Chancellor or his or her designee, after consultation with the Office of General Counsel and the Chair of the University Faculty Senate (if a current CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable;

E. when there is a reasonable basis to believe that CUNY policy or federal, state or local law has been or is being violated, as determined by the college president or a vice president designated by the president or, in the case of the Central Office by the Chancellor or his or her designee, after consultation with the Office of General Counsel and the Chair of the University Faculty Senate (if a current CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable;

F. when an account appears to be engaged in unusual or unusually excessive activity, as indicated by the monitoring of general activity and usage patterns, as determined by the college president or a vice president designated by the president and the college chief information officer or his or her designee or, in the case of the Central Office by the Chancellor or his or her designee, after consultation with CUNY's chief information officer or his or her designee,
the Office of General Counsel, and the Chair of the University Faculty Senate (if a current CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable; or

G. as otherwise required by law.

ii. Procedures. In those situations in which the Chair of the University Faculty Senate is to be consulted prior to monitoring or inspecting an account or activity, the following procedures shall apply:

A. if the monitoring or inspection of an account or activity requires physical entry into a faculty member's office, the faculty member shall be advised prior thereto and shall be permitted to be present to observe, except where specifically forbidden by law; and

B. the college president or the Chancellor, as the case may be, shall report the completion of the monitoring or inspection to the Chair and the CUNY employee affected, who shall also be told the reason for the monitoring or inspection, except where specifically forbidden by law.

iii. Other Disclosure.

A. CUNY, in its discretion, may disclose the results of any general or individual monitoring or inspection to appropriate CUNY personnel or agents, or law enforcement or other agencies. The results may be used in college disciplinary proceedings, discovery proceedings in legal actions, or otherwise as is necessary to protect the interests of the University.

B. In addition, users should be aware that CUNY may be required to disclose to the public under FOIL communications made by means of CUNY Computer Resources whether in conjunction with University business or as incidental personal use.

C. Any disclosures of activity of accounts of individual Users to persons or entities outside of CUNY, whether discretionary or required by law, shall be approved by the General Counsel and shall be conducted in accordance with any applicable law. Except where specifically forbidden by law, CUNY employees subject to such disclosures shall be informed promptly after the disclosure of the actions taken and the reasons for them.

iv. Annual Statement. The Office of General Counsel shall issue an annual statement of the instances of account monitoring or inspection that fall within categories D through G above. The statement shall indicate the number of such instances and the cause and result of each. No personally identifiable data shall be included in this statement.

v. Privacy Policy. See CUNY’s Web Site Privacy Policy for additional information regarding data collected by CUNY from visitors to the CUNY website at www.cuny.edu.

14. Waiver of Policy

a. A CUNY employee or student may apply to the General Counsel for an exception or waiver from one or more of the provisions of this policy. Such application may be for a single use or for periodic or continuous uses, such as in connection with a course or program. Any application for a waiver should be made prior to using

the CUNY Computer Resource for the purposes described in the application. b. The written waiver application must state:

i. the policy provision or provisions for which the User is seeking a waiver;

ii. how the User plans to use CUNY Computer Resource to be covered by the waiver and the reasons why the User believes a waiver should be approved;

iii. if the waiver involves confidential research information, what steps will be taken to protect such information;
iv. the length of time for which the waiver is being requested; and v. if a student, how and by whom the student will be supervised.

c. The General Counsel shall consult with the CUNY's chief information officer and the president of the applicant's college (or, if the applicant is a Central Office employee, the Chancellor) or their designees, prior to making a determination regarding the application.

d. Users should be aware that CUNY cannot waive federal, state or local law; for example, the contents of CUNY Computer Resources (including confidential research information) may be subject to a valid subpoena regardless of the terms of any waiver.

15. Enforcement.

a. Violation of this policy may result in suspension or termination of an individual's right of access to CUNY Computer Resources, disciplinary action by appropriate CUNY authorities, referral to law enforcement authorities for criminal prosecution, or other legal action, including action to recover civil damages and penalties.

b. Violations will normally be handled through the University disciplinary procedures applicable to the relevant User. For example, alleged violations by students will normally be investigated, and any penalties or other discipline will normally be imposed, by the Office of Student Affairs.

c. CUNY has the right to temporarily suspend computer use privileges and to remove from CUNY computer resources material it believes violates this policy, pending the outcome of an investigation of misuse or finding of violation. This power may be exercised only by the president of each college or the Chancellor.

16. Additional Rules. Additional rules, policies, guidelines and/or restrictions may be in effect for specific computers, systems, or networks, or at specific computer facilities at the discretion of the directors of those facilities. Any such rules which potentially limit the privacy or confidentiality of electronic communications or information contained in

or delivered by or over CUNY Computer Resources will be subject to the substantive and procedural safeguards provided by this policy.

17. Disclaimer.

a. CUNY shall not be responsible for any damages, costs or other liabilities of any nature whatsoever with regard to the use of CUNY Computer Resources. This includes, but is not limited to, damages caused by unauthorized access to CUNY Computer Resources, data loss, or other damages resulting from delays, non-deliveries, or service interruptions, whether or not resulting from circumstances under the CUNY's control.

b. Users receive and use information obtained through CUNY Computer Resources at their own risk. CUNY makes no warranties (expressed or implied) with respect to the use of CUNY Computer Resources. CUNY accepts no responsibility for the content of web pages or graphics that are linked from CUNY web pages, for any advice or information received by a user through use of CUNY Computer Resources, or for any costs or charges incurred by a user as a result of seeking or accepting such advice or information.

c. CUNY reserves the right to change this policy and other related policies at any time. CUNY reserves any rights and remedies that it may have under any applicable law, rule or regulation. Nothing contained in this policy will in any way act as a waiver of such rights and remedies.

Approved by the Board of Trustees on January 29, 2007, Cal. No. 4.D., with amendments approved on June 25, 2012, Cal. No. 5.A. and June 29, 2015, Cal. No. 5.A.
The Classics Program

Overview

The Classics program offers a full range of studies in the worlds of ancient Greece, Rome, and the Mediterranean, from a single course in myth or etymology to majors in Greek, Latin, Classical Archaeology, Greek and Latin or Classical Studies. Students who want to know about the classical world without learning its languages can choose from a variety of courses in civilization, literature in translation, myth and religion, and archaeology. In addition, the division participates in Hunter's interdepartmental programs in religion, comparative literature, archaeology, and women and gender studies.

Programs and Courses

- Greek - BA
- Latin - BA
- Greek and Latin - BA
- Classical Studies - BA
- Classical Archaeology (Interdepartmental) - BA

Administration and Faculty

Program Head: Ronnie Ancona
email: rancona@hunter.cuny.edu
Program Office: 1402 West (212) 772-5065
Program website: http://www.hunter.edu/classics
HEGIS Codes: 1110 (Greek); 1109 (Latin); 1504 (Greek and Latin); 1504 (Classical Studies); 2203 (Classical Archaeology)

Faculty

Ronnie Ancona, Professor, Classical Studies, Classical and Oriental Studies; BA, MA Washington, PhD Ohio State
W. Graham Claytor, Assistant Professor, Classical Studies, Classical and Oriental Studies; BA, NYU, PhD Michigan (Ann Arbor)
Robert B. Koehl, Professor & Chair, Classical Studies, Classical and Oriental Studies; BA Pomona, PhD Pennsylvania
Lawrence Kowerski, Associate Professor, Classical Studies, Classical and Oriental Studies; BA Gettysburg, MA, PhD Rutgers
David Petrain, Associate Professor; Classical Studies, Classical and Oriental Studies; BA, PhD, Harvard
Joanne M. Spurza, Associate Professor, Classical Studies, Classical and Oriental Studies; BA Bryn Mawr, MA, PhD Princeton
The Cost of Education

Cost must be considered when a student is making decisions about whether, where and when to attend college. A student budget is used as an estimate of the amount of money it will cost a student to attend college. The budget includes allowances for tuition, fees, books, transportation, housing, food and personal expenses. Additional allowances may be made for unusual expenses such as dependent care costs.

Student budgets are set each year by CUNY. They reflect the average expenses of all students who are living with their parents or living away from their parents. Students with disabilities should speak to a financial aid counselor about budget adjustments for their special needs.

The 2020-2021 Hunter College budgets for full-time undergraduate students who are charged the NY State resident tuition rate can be seen by logging into: www.hunter.cuny.edu/onestop.

Note: Tuition charges are estimates for full-time New York State residents based on 2020-2021 tuition charges. Actual tuition charges for New York State residents, out-of-state residents and international students for full-time and part-time study can be found at www.hunter.cuny.edu/onestop.

The Housing component of the Living Away from Parent budget is derived using average housing costs for a rental apartment in metropolitan New York and using the assumption that the student is sharing the cost of housing with a roommate. The Personal component includes an allowance for medical expenses and/or health insurance.

Student Resources

In reviewing the student budget, a prospective student should consider the resources they will have to cover cost associated with their educational expenses. Filing the FAFSA early can help prospective and continuing students to determine their available financial need and other resources needed prior to the beginning of the academic year. Students should also consider indirect educational expenses, i.e., books, supplies and transportation prior to the beginning of the school year.

Packaging

Rather than using one source of funds to finance their education, students may receive a combination of funds from a number of programs for which they are eligible. This system for allocating aid is called packaging. Funds will be allocated first to meet the basic costs of attendance (tuition, books, transportation). If funding permits, other living expenses will then be addressed.

Applications for financial aid must be filed each year. FAFSA on the Web for the coming academic year is available starting on October 1.

Study Abroad

Students who enroll in an overseas program of study approved by Hunter College are eligible to receive federal financial aid and, in some cases, New York State aid. The coursework for which they enroll must be applicable to their degree at Hunter College. Contact the Office of Programs Abroad at (212) 772-4983 for further information about study abroad.
The Dr. Murray and Anna C. Rockowitz Writing Center

7th Floor Cooperman Library
Hunter East
(212) 772-4212
http://rwc.hunter.cuny.edu

The Dr. Murray and Anna C. Rockowitz Writing Center is a comprehensive service designed to provide tutorial assistance and academic advisement to students as well as technical support and development to faculty, staff, and alumni. Part of the Klara and Larry Silverstein Student Success Center located on the 7th floor of the Cooperman Library, the RWC offers services to all registered students at the college – undergraduate and graduate – and maintains an inclusive website comprising an extensive library of online materials and resource links in the areas of research information and techniques, writing tools and references, evaluating information sources, ESL and literary resources, and instructional resources regarding teaching and learning. Students can utilize the RWC's services by registering for individualized, paired, or online e-tutoring sessions by appointment, receive assistance on a drop-in basis during scheduled hours of operation, or attend the RWC's on-site workshop series. Tutors help to develop a reading-writing process that students can use to improve their skills and to negotiate the requirements of academic reading and writing.

The Frederick Loewe Theatre

Ground Floor Thomas Hunter

The Frederick Loewe Theatre is a black-box theatre that seats an audience of 110. It has the ability to accommodate proscenium or thrust stage productions and houses most of the Department of Theatre events. Box office: (212) 772-4448; administrative office: (212) 772-4227.

The Health Professions Education Center (HPEC)

The Health Professions Education Center (HPEC) is an academic learning center serving all students and faculty at the Hunter College Nursing and School of Health Professions. A variety of comprehensive support services and programs are offered at the HPEC to enhance student academic success, retention, and completion rates by applying best practices and addressing student learning needs from multiple pedagogical perspectives. Our services are designed to develop critical thinking, reinforce practice of clinical skills, and foster a supportive, professional environment for student collaboration and scholarship.

The HPEC combines traditional approaches to teaching with new instructional technologies that reflect the dynamic nature of all health professions. Services at the center include:

- Access to the largest collection of health-related videos and instructional media within CUNY.
- Computer-aided educational software and virtual training technologies.
- Access to state board testing preparation programs.
- Technology support at the Hunter College Brookdale Campus.
- Beta testing and evaluation of new instructional media.
- Faculty consultation for research and classroom media integration.
- Development and administration of e-learning initiatives, online testing, and digital content.
· Individual and group study support.
· Simulation laboratory support through the New York Simulation (NYSIM) Center.

Faculty and students from all Hunter College schools and departments are always welcome to view the many resources available at the HPEC.

Director: Martin Dornbaum; Mezzanine floor, Brookdale West Building; (212) 481-5129, mdornbau@hunter.cuny.edu; Evening Supervisor: Peter Marquez; edcenter@hunter.cuny.edu

Website: http://www.hunter.cuny.edu/shp/centers/hpec/

The center maintains regular office hours throughout the academic year, Monday-Thursday 9AM-9PM and Fridays 9AM-5PM.

**The International English Language Institute (IELI)**

IELI is a noncredit, continuing-education program offering courses in English as a second language to students from all over the world. Students at the IELI actively learn and use new skills to develop their fluency, accuracy and confidence in the English language. Classes for beginner through advanced levels are taught in the morning, afternoon, evening and on weekends. Students may register for full- or part-time programs. Preparation classes for the CUNY Assessment Tests and TOEFL are available to advanced-level students. Students who present proof of successfully completing the most advanced levels of the IELI program are not required to submit TOEFL scores as a part of their admission process to Hunter and other CUNY colleges. For individuals interested in teaching English to speakers of other languages, we offer a Certificate program in TESOL. For more information call (212) 772-4292 or visit the Continuing Education Website.

**The Japanese Studies Program**

**Overview**

The Japanese Studies program offers two minors - Japanese Language and Japanese Studies - and a variety of courses that introduce the language and culture of Japan and provide opportunities for even closer acquaintance with the country for the students.

**Courses**

The Kaye Playhouse

The Kaye Playhouse
Ground Floor Hunter North
68th Street, between Park & Lexington Aves.
212.772.4471
212.650.3919 Fax
Email: kayeinfo@hunter.cuny.edu
www.hunter.cuny.edu/kayeplayhouse/

The Kaye Playhouse at Hunter College, a fully-equipped proscenium theater with 624 seats, boasts an elegant 1940's design. It is home to a wide array of national and international events, including theatrical productions, dance performances, chamber music and opera, film/photo/television shoots, fashion shows, jazz concerts, lectures, corporate meetings, vocal concerts, and children's shows.

The Kaye's flexible and sophisticated sound and lighting systems enhance and improve the event experience for both performers and audiences. Each season, the Kaye Playhouse hosts over 200 events, bringing an eclectic mix of live performances to over 100,000 theatergoers annually.

The Leona and Marcy Chanin Language Center

The Chanin Language Center is a multi-media foreign language learning and teaching facility. The Center consists of two independent study labs equipped with 72 multi-media workstations, the Cecile Insdorf Foreign Language Screening Room, and a small library where walk-in tutoring sessions take place. Students can supplement their foreign language skills from the elementary to the advanced level by working with computer applications, both on-line and in house, based on textbooks and/or student activity manuals. The Chanin Center also houses an extensive collection of foreign language films and video programs. An audio CD home borrowing program is available to students enrolled in certain foreign language courses. A 30-minute orientation session is required for all first time users. Hours and additional information can be found on our Web site.

The Mary P. Dolciani Mathematics Learning Center

The Mary P. Dolciani Mathematics Learning Center is part of the Klara and Larry Silverstein Student Success Center on the 7th floor of the Cooperman Library. It is a multi-purpose facility providing group tutoring, computer-assisted tutorials, CDs, and multi-media materials for all students in the college needing assistance with mathematics, statistics, quantitative reasoning, preparation for placement or graduate school exams and professional licensing, whether during
the Center's six days of operation or via e-tutoring on Sundays. It includes a library with student textbooks, solutions manuals, and reference books.

It also provides workshops on a variety of topics to not only assist students in the learning of mathematics and statistics but to make connections with other subject areas and everyday life. It also provides assistance with mathematics study skills. Specific hours of operation and additional information can be found on our Website.

The Minor

Fulfilling the requirements for a minor is an option for students who want to document abilities in an academic field in addition to their major(s). A minor program consists of a set of courses that are defined as a minor by an academic department or program. A minor encompasses at least 12 and at most 18 credits. It is left to the decision of individual departments or programs whether they offer a set of courses leading to a minor. Interdisciplinary minors may be established between two or more departments.

In order to graduate with a minor in a specific field, a student must maintain a grade point average of at least 2.0 in the courses taken in that field. Minors require that at least one half of the credits be taken at Hunter College. Courses from the minor may be used without limit to satisfy Hunter Core Requirements as well as Writing and Pluralism & Diversity requirements.

To declare or change a minor, a student should print a Minor Declaration Approval form at registrar.hunter.cuny.edu/subpages/forms.shtml and confer with an adviser in the minor department. In general, courses may not be shared between a major and a minor.

The Office of Academic and Student Services (OASA)

The Office of Academic and Student Affairs (OASA) provides administrative services to students in the School of Education. The primary areas of service provided include: advisement; assistance with registration; graduation audit; New York State certification; and various other student services such as major declarations, and course equivalency evaluations.

The OASA staff maintains regular office hours throughout the year and is open from 10:00 AM - 6:00 PM Monday through Thursday and 10:00 AM - 4:00 PM on Fridays, whenever the college is open.

10th Floor - West Building
(212) 772-4624
soe.oasa@hunter.cuny.edu

Melissa Boronkas, Director of the Office of Academic and Student Affairs
Valerie Lyons, Assistant Director of Student Affairs
Jason Riffaterre, Assistant Director of Academic Affairs

The Office of Advising
Academic advising at Hunter College is a student-centered teaching and learning process dedicated to student success. Advising teaches students the information, skills and competencies necessary to make informed choices about their college experience. Through a variety of venues, including online orientation, individual advising, group advising, and electronic communications, advisers help students to understand academic requirements, clarify their goals, access resources and devise action plans. Realizing that connections to the Hunter community contribute to student success, Advising staff members prepare students to engage with faculty, staff and fellow students. In addition, the Office of Advising provides additional resources including small group registration and special programming for first year students, the Peer Advisor Network, Project Success, Student Veteran Services, and the Sylvia E. Fishman Student Center.

The Office of Clinical Experiences

The School of Education's Office of Clinical Experiences (OCE) is responsible for ensuring the quality of student experience in their clinical placements across programs – as these experiences are critically important to students' development as teachers, counselors, and school leaders. To that end, the faculty and staff work collaboratively to support students in the development as professionals by coordinating partnerships with schools and other clinical placement sites, identifying and training cooperating teachers for the important work of mentoring new teachers, and working with faculty and field supervisors to ensure alignment of placements to the curriculum and academic work of teacher, counselor, and leadership candidates. Specific student teaching schedules, (weekly and daily) will be determined by the partner site where students are ultimately placed. The expectation is for teacher candidates to honor each partner's planned schedule.

Candidates planning to enroll in clinical courses requiring placement in schools and other educational settings must complete and submit a request form or online application to the OCE, which will assign students to one of our collaborating schools. The OCE arranges fieldwork and student teaching placements in New York City schools (within the five boroughs) and other educational settings. Clinical experience courses across programs require an online application with firm deadlines specific to each semester. Candidates are advised to plan ahead the semester prior to registering for a fieldwork, student teaching or practicum course.

For further information please email oce@hunter.cuny.edu

The Office of Partnership Programs

The Office of Partnership Programs manages all of the alternative certification and partnership programs within the School of Education and supports students in these non-traditional programs. Working in partnership with a variety of local and national organizations, we offer special programs in a wide range of teacher certification areas and school leadership certification. Our special programs offer participants the opportunity to gain hands-on experience in schools while enrolled in graduate coursework at Hunter College and many provide subsidized tuition.

The Office of the Bursar

238 Hunter North
(212) 772-4401

Bursar Information
The mission of the Bursar's Office is to provide accurate and timely financial information to both the campus community and its external constituents. As such, the Bursar's Office is responsible for maintaining all students' tuition accounts and the College's receivables. This includes reviewing charges for tuition and fees, collecting and processing payments from all sources, generating student account statements, billing third-party providers and monitoring and issuing student refunds. In addition, the Bursar's Office is responsible for collecting, safeguarding and depositing Hunter College's revenue. By maintaining the integrity of student financial records and providing exceptional customer service, the Bursar's Office strives to support Hunter College's students in meeting their financial obligations while ensuring compliance with CUNY’s policies and procedures, as well as Federal, State and City guidelines.

The Bursar's Office offers a variety of payment options for paying your bill:

- Online: Payment Plans (which allow for both E-check or credit/debit card payments) and E-checks/EFT.
- In Person at the Cashier's window: Personal Check or Money Order and cash.
- We also accept Wire Transfers from your bank, NY State SAVES 529 Program, and Third Party Options.

Financial Obligations

Students are expected to settle their bill by the college's designated due dates. Pursuant to CUNY policy, students who have unsettled bills by the term start date may be subject to cancellation for non-payment. Student accounts that remain unpaid for one semester or more are turned over to the university's collection agency. Students who have a negative service indicator (stop) for unpaid balances will not be permitted to register for classes or obtain a transcript.

The Registrar's Office

217 Hunter North
Web site: http://registrar.hunter.cuny.edu

The Office of the Registrar designs and implements efficient systems for student registration, class scheduling, and room assignments; creates and maintains accurate academic records, and ensures the integrity of the Hunter College degree.

The Office of the Registrar also accepts, processes or issues:

- Withdrawals with a grade of W up to the deadline published on the academic calendar;
- Permit application requests to attend classes at other colleges;
- Academic department-approved Major declaration forms;
- Change of Name, Preferred Name, Address and other personal information;
- Certification of attendance or graduation;
- Electronic graduation applications;
- Electronic transcript requests. There is a fee of $7 per transcript, except for transcripts sent to other units of the City University, which are free.
- Grades at the end of each term.

The Russian and Slavic Studies Program

Overview

The Russian and Slavic Studies Program offers a rich curriculum designed for students who seek competence in spoken and written Russian and a solid background in and knowledge of Russian literature and culture. The Program also offers courses in two related Slavic languages, Polish and Ukrainian. Courses in the Program are recommended to students from other disciplines who want to master the Russian language as a research tool or who seek to learn about
Russian literature in translation. The important contributions being made by Russian scholars in chemistry, biology, mathematics and other related fields make the study of Russian especially valuable to science majors.

Programs and Courses

Russian - BA

Administration and Faculty

Division Head: Nadya Peterson  
Email: npeterso@hunter.cuny.edu

Division Office: 1330 Hunter West; (212) 772-5060/5059

Program website: http://www.hunter.cuny.edu/classics/russian/

HEGIS Code: 1106

Faculty

Yasha Klots, Assistant Professor, Russian and Slavic Studies; MA Boston, MPhil, PhD Yale

Nadya L. Peterson, Associate Professor, Russian and Slavic Studies, Classical and Oriental Studies; MA Moscow State, MA, PhD Indian

The Social Sciences Computing Laboratory

Hunter East B118
(212) 772-5605

The Social Sciences Computing Laboratory is located in Hunter East, Room B118, (enter through the Main Library) and facilitates computer-based teaching and research among the social science departments. The lab itself is used primarily as a computer classroom for social science departments, but is open to all Hunter students for walk-in hours when available. Exact hours vary from week to week. The current and following week's walk-in hours are posted on the door and on the lab Web site. http://urban.hunter.cuny.edu/sscl/

The Sylvia E. Fishman Student Center

417 Hunter West
(212) 650-3282

The Sylvia E. Fishman Student Center was created to provide a safe, friendly, educational, and supportive environment for all students and to help them create a strong foundation for their education. It offers programs, activities and services to enhance the academic experience for students. One of these is the Peer Advising Leadership Program, where trained student peer advisors work with first-year students in providing guidance throughout their first-year. Many of the Peer Advisors are also involved in a variety of campus activities, such as officers of student clubs, and members of athletic teams, social, and academic honor societies. They offer a unique perspective on what it is like
to be a Hunter student. In addition to academic advising, the Center is often reserved by other student services areas to provide information about their programs. These include sessions on career exploration, internship opportunities, Pre-Law information, and other student-based events.

**The Writing Center through Continuing Education at Hunter College**

The Lewis Burke Frumkes Center for Writing and Culture through Continuing Education Programs at Hunter College offers an exciting cultural showcase of special topic courses and literary events since joining the CUNY Hunter community in September 2010. In addition to helping students gain knowledge in classes, the Lewis Burke Frumkes Center for Writing and Culture pushes to educate students outside of the typical classroom environment by offering free literary events throughout the semester where students have the unique opportunity to listen to their favorite authors speak and partake in a question and answer session with the audience.

For more information, call (212) 772-4294 or visit the Lewis Burke Frumkes Center for Writing and Culture Web site

**Theatre Department Description**

Return to Theatre Department

The Department of Theatre offers students the opportunity to study all aspects of the art form: the making, history, and theory of theatre and drama. Theatre courses include acting, playwriting, directing, design, history, theory, puppetry, interdisciplinary performance and more. The curriculum was developed with an emphasis on professional standards within a liberal arts context. Majors are involved in practical, hands-on production work.

Some students who graduate from the theatre program go on to become working theater artists. Others continue their creative study in conservatory or MFA programs, or continue their education in history and theory as MA or PhD students.

The department maintains associations with major theatre institutions. Students have opportunities for placement as interns and apprentices with various professional groups.

**Theatre Faculty**

Return to: Faculty of the School of Arts and Sciences

**Barbara Bosch**, Professor; PhD, California at Berkeley; American Theatre, Acting, Directing

**Ian R. Calderon**, Professor; MFA, Yale; Lighting Design, Visual Elements, Theatre Architecture, Dramatic Television

**Dong-Shin Chang**, Associate Professor; PhD, NYU; Theatre History, Intercultural Performance, Chinese Theatre

**Deepsikha Chatterjee**, Lecturer; MFA, Florida; Costume History, Costume and Fashion Design, Technology, Costume Crafts, South Asian Clothing and Costume

**Brad Krumholz**, Production Manager; MPhil, CUNY Graduate Center; Production Management, Acting, Theatre History

**Mira Felner**, Professor; PhD, NYU; Theatre History, Acting and Directing Theory

**Jonathan Kalb**, Professor; DFA, Yale; Dramaturgy, Dramatic Criticism, Theatre History
Thomas Hunter Honors Program

This program provides superior students who are pursuing a Hunter BA degree with a course of study suited to their individual needs and interests. Open to students who have demonstrated academic excellence and an interest in interdisciplinary studies and who desire to be intellectually challenged, it offers the opportunity to design a personalized curriculum under the supervision of the Council on Honors. The program also offers its participants the chance to study with faculty members committed to working with outstanding undergraduates who wish to pursue interdisciplinary studies. For details, see the Thomas Hunter Honors Program.
Transfer Admission

Transfer Appeals Officer

The Hunter College Senate Chair shall serve as the Hunter College Transfer Appeals Officer for the college and shall decide on student appeals related to the transfer of credits from other institutions.

Transfer Credit Policy

In general, credits earned by taking college-level courses from other regionally accredited colleges and universities will transfer, provided that the courses are similar in scope and content to those offered for credit at Hunter College. Credits will be granted for courses with a grade of "C" or better ("D" or better at CUNY institutions). There is a 70-credit maximum on the number of credits that may be transferred from Associate degree-granting institutions. The maximum total number of credits that may be transferred from other accredited Bachelor degree-granting institutions to Hunter College is 90. The credit amount for each course remains the same when transferred. (Exception: Credits coming from a school using the quarter-hour will be converted to the semester hour using a .66 multiplication factor.) Grades do not transfer; the student's grade point average at Hunter is calculated solely on the basis of work taken at Hunter College. The following courses do not transfer: ESL/Remedial/Developmental courses; Freshman orientation/experience courses; military training; firemen/police studies; EMT training; secretarial/office technology courses; hospitality management; pharmacological, Non-CUNY nursing courses (CUNY nursing courses are transferable for transfer students from CUNY community colleges who have earned an AA or AS degree and have also been accepted in the Nursing Program), medical professional training, and these Non-Transferable CUNY courses. Applicants are required to report and provide transcripts for all previous college coursework including coursework that was in progress at the time of application. Failure to do so may result in disciplinary action and the denial of transfer credit.

Students may use the resources below to find course equivalencies at Hunter.

CUNY students, please visit: www.cuny.edu/evaluatemytransfercredit

Non-CUNY students, please visit: www.hunter.cuny.edu/transfercredit

Transfer Students from CUNY Community Colleges

Transfer students from CUNY community colleges who have earned an AA or AS degree are admitted to the college, awarded junior status and considered to have satisfied core course requirements. However, depending upon the major selected at Hunter, some students may need more than 60 additional credits in order to complete Hunter's bachelor's degree requirements. Transfer students from CUNY colleges who have not earned a two-year AA or AS degree and transfer students from non-CUNY colleges are awarded credit for previous work on a course-by-course basis. All transfer students, including those entering with CUNY AA and AS degrees, must fulfill the college's foreign language requirement.

The maximum total number of credits that may be transferred to Hunter College is 90. There is a 70-credit limit on the number of credits that may be transferred from two-year institutions.

Applicants are required to report and provide transcripts for all previous college coursework including coursework that was in progress at the time of application. Failure to do so may result in disciplinary action and the denial of transfer credit.
Transfer Students from SUNY Community Colleges

Effective fall 2018 and in accordance with the University Provost Memorandum, SUNY transfer students who have completed a bachelor's, AA or AS degree or the entire 30-credit GER from SUNY will be deemed to have completed CUNY Pathways Common Core requirement (Note: To transfer 60 credits, all courses must adhere to the policies outlined above). SUNY transfer students who completed a portion of the 30-credit GER requirement will have the completed GER credits applied to the Pathways areas as appropriate. SUNY GER courses may be given as equivalent or pseudo course (Example: RCEC 1000 Required Core - English Composition) credit to fulfill pathways areas per departmental directive and Hunter College policy.

Transfer Students: Accredited College or University

Students who attended an accredited college or university after graduation from high school must file a CUNY Transfer application. Transfer applicants are considered for admission if they have a minimum of a 2.5 average; some programs may be higher. Applicants with fewer than 24 credits must also satisfy freshman admission criteria.

Transfer Students: Regionally Accredited College or University

Students who attended a regionally accredited college or university after graduation from high school must file a CUNY Transfer (Advanced Standing) application. Transfer applicants are considered for admission with advanced standing if they have a minimum of a 2.5 average; some programs may be higher. Applicants with fewer than 24 credits must also satisfy freshman admission criteria.

Transferring Graduate Coursework

Graduate coursework is not transferrable to the undergraduate degree program.

Tuition and Fees

Effective Fall 2019

All tuition and fee charges listed in this catalog and in any registration materials issued by the college are subject to change by action of the Trustees of the City University of New York without prior notice.

Students who now live in New York State but have had an address out of the state must submit proof of New York State residency. New students submit their documentation to the Admissions Office and continuing students to the Registrar's Office. Applications for proof of New York State residency can be obtained in the Office of the Registrar, Room 217 Hunter North, Hunter College, 695 Park Ave., New York, NY 10065. If, at the time of registration, proof of New York State residence has not been approved, students must pay out-of-state tuition; if acceptable proof is submitted and subsequently approved by the Registrar's Office during the semester, the tuition will be adjusted.
accordingly to the in-state rate.

Please note: Veterans who are not New York State residents are charged the same tuition rate as New York State residents for a period of 18 months from the first date of attendance at a CUNY college.

Thesis Binding Fee $15.00
Transcript Fee $7.00
Readmission (except graduate non-matriculated) $20.00
Readmission (graduate non-matriculated) $125.00
Returned check/EFT Reprocessing Fee $20.00
Duplicate Diploma Fee $30.00

Material Fee

Certain courses such as laboratory or studio courses, have a material fee. These fees are listed in the course description for each applicable course. The fees will be included in the student's bill and are payable to the bursar.

**Refunds**

**Cancellation Policy**

The college's cancellation policy is both published on the website and detailed on student's online bills. The policy is also outlined in the schedule of classes.

**CUNY Policy** This policy relates to all students who withdraw from courses prior to the 1st day and through the 4th week of class. The refund policy is as follows:

- 100% tuition and fees prior to first official day of term
- 75% tuition only prior to first day of 2nd week of term (fees are not refundable)
- 50% tuition only prior to first day of 3rd week of term (fees are not refundable)
- 25% tuition only prior to first day of 4th week of term (fees are not refundable)

**Federal Title IV Funds/Pro-Rata Refunds** Students who completely and officially withdraw or unofficially withdraw from ALL their class(es) and received Federal Financial Aid are subject to a Return of Title IV Funds Calculation. The college will calculate how much Title IV aid has been earned by the student based on a period of attendance. The unearned portion of the Title IV funds must be returned to the US Department of Education by the college and the student. It is recommended that all students who have financial aid and plan to withdraw from classes seek the advice of the Office of Financial Aid before taking any action.

**Information for Veterans**

**VA Pending Payment Compliance**
In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. This school will not:

Prevent nor delay the student's enrollment;

Assess a late penalty fee to the student;

Require the student to secure alternative or additional funding;

Deny the student access to any resources available to other students who have satisfied their tuition and fee bills to the institution, including but not limited to access to classes, libraries, or other institutional facilities.

However, to qualify for this provision, such students may be required to:

Produce the Certificate of Eligibility by the first day of class;

Provide written request to be certified;

Provide additional information needed to properly certify the enrollment as described in other institutional policies.

Request enrollment certification at least 30 days prior to the start of the semester.

For additional information, see Hunter Student Veterans Services or the CUNY Office of Veterans Affairs.

**Types of Majors Offered for Bachelor's Degree**

**Departmental Majors**

**BA Degree** These are majors concentrated within one department or program. In order to graduate, a student must have a minimum GPA of 2.0 in the courses designated for the major. Major departments may have higher requirements. Each student should consult the major department for details and also check the department's description of the major in the catalog.

The following are departments and/or programs that offer majors leading to the BA degree.

- Africana and Puerto Rican/Latino Studies
- Anthropology
- Art
- Biology
- Chemistry
- Chinese
- Classical Studies
- Computer Science
- Dance
- Hebrew
- History
- Italian
- Latin
- Mathematics
- Music
- Philosophy
- Physics and Astronomy
- Political Science
Undergraduate Degrees and Graduate Degrees
Offered by the School of Urban Public Health

The Hunter School of Urban Public Health offers undergraduate degrees in Public Health - BS (55 credits) and Nutrition and Food Science - BS, an Accelerated BS/MS in Nutrition (DPD), a Dietetic Internship. It also offers a Master of Science (MS) degree in Nutrition (NUTR-MS). The MS degree in Nutrition (NUTR-MS) is an accredited didactic program in dietetics (DPD), and is designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD). (Please see the Graduate catalog catalog.hunter.cuny.edu/content.php).

Undergraduate Research

Hunter College is committed to supporting undergraduates who are interested in participating in research. The Office of the Provost coordinates several initiatives to support undergraduate research including: the Undergraduate Research Initiative which supports student-faculty research collaborations; an annual Undergraduate Research Conference that recognizes and celebrates student-faculty research; and Presidential funding initiatives for summer and semester-long research experiences within and outside Hunter. Hunter faculty strive to expose and socialize students to the broader research community by taking them to scientific meetings and co-authoring publications in peer-reviewed journals, activities that foster the development of future scientific leaders.

Hunter currently has several large institutional grants that provide unique educational opportunities for students who have been traditionally underrepresented in research, particularly members of racial/ethnic minorities, students with disabilities, women, those who are the first generation of their family to attend college, veterans, and students with demonstrated financial need. These programs offer students critical resources such as mentors, professional development workshops, tuition coverage, stipends, and much more to help them succeed as they pursue their undergraduate degree – and prepare them for graduate study and careers in research, teaching or the health professions. A list of current programs follows:

BP-ENDURE  (Blueprint Program for Enhancing Neuroscience Diversity through Undergraduate Education)
The BP-ENDURE program is designed to encourage and prepare undergraduate students from diverse backgrounds to enter into and succeed in PhD programs in the neurosciences. The BP-ENDURE program, administered through Hunter College, is conducted in partnership with New York University, Brown University, University of Michigan, and Vanderbilt University to expose BP-ENDURE-trainees to a research-intensive curriculum and an environment of active research. During the academic year students will work with a research mentor at Hunter or NYU and during the summer in one of the partnering institutions. The BP-ENDURE program selects students from both Hunter College and NYU to participate. Hunter students will receive funding in the form of tuition remission and a stipend during the academic year and will also receive summer funding. For more information, please visit http://www.bpendure.org.

MARC (Maximizing Access to Research Careers)

The MARC program trains talented students in biomedical research and encourages them to pursue PhDs in this field. Students are offered a short introductory course in biomedical research, the opportunity to participate in faculty research, and the opportunity to present at the Annual Biomedical Research Conference for Minority Students. For additional information, please visit http://marc.hunter.cuny.edu.

MBRS-RISE (Minority Biomedical Research Support-Research Initiative for Scientific Enhancement)

The MBRS-RISE program offers research experience and academic and financial support for undergraduate and graduate students at Hunter. For additional information visit rise.hunter.cuny.edu.

McNair Scholars Program

The Ronald E. McNair Scholars Program program prepares eligible undergraduates for doctoral studies through involvement in research and scholarly activity. Participants acquire the skills and knowledge required for admission to graduate school and the successful completion of graduate studies. For additional information, please visit www.hunter.cuny.edu/mcnair.

McNulty Scholars Program

At the core of the McNulty Scholars (John P. McNulty Scholars Program for Excellence in Science and Math) program is the determination to create challenging learning environments that will inspire ambitious young women to reach the top ranks of science and math professions. The McNulty Scholars program aims to encourage students who are motivated in science and math to aspire to leadership positions across industry and academia. For more information please contact Latifa Fletcher at Lf708@hunter.cuny.edu.

Mellon-Mays Undergraduate Fellowship (MMUF)

The Mellon Foundation's original purpose for establishing the MMUF Program has been to rectify the problem of the underrepresentation of Blacks, Latinos, and Native Americans in the faculties of this country's colleges and universities. Involvement in the program means one-on-one mentoring with a Hunter faculty member, collaborating with a mentor in research projects and teaching, and curriculum development, attending professional conferences, and having opportunities to study or conduct research either at other universities in the United States or in international settings abroad during the academic year or the summer months. The hope is that such an experience will give students an enjoyment in a field of study and an advanced working knowledge about graduate programs and the academic profession, all of which will encourage them to pursue and obtain a PhD and enter one of this nation's colleges or universities as faculty members. For more information please visit www.hunter.cuny.edu/mmuf.

The Mellon Public Humanities Project

Public humanities is an evolving interdisciplinary field and set of practices that draw on humanistic modes of inquiry to address pressing concern in the public sphere and open new areas of civic engagement. The Mellon Public Humanities Project seeks to promote research on public good them and to help talented, ambitious students develop their skills in preparation for graduate school and other career aspiration. Students are paired with a research mentor in the Humanities. For more information please visit Mellon Public Humanities Project.
**Hunter-Stanford Summer Research Program**

This program supports and prepares advanced undergraduate students who are considering graduate school for doctoral research in the Humanities. Students spend 8 weeks paired with a Stanford faculty member working on individually designed research projects. Also students enroll in a GRE preparation course and participate in a seminar on the graduate application process. Additional information to be posted soon.

**Undergraduates Taking Graduate Courses**

With permission from appropriate academic advisers, highly qualified undergraduates may take graduate level courses for credit toward the bachelor's degree. Contact an adviser if this is something you would like to do. If you later do not use the graduate course toward your undergraduate degree, you may be able, with permission, to transfer the credit toward a Master's degree. In this case, there may be financial implications. No course may be used for both an undergraduate and a graduate degree.

**Unofficial Withdrawal**

As per CUNY, an Unofficial Withdraw (WU) is assigned to students who attended a minimum of one class. It is important to understand the definition of a WU and the difference between this grade and an F grade before assigning it to a student. Although a WU counts as an F in the student's academic record, the WU grade will negatively impact a student's financial aid award. We encourage faculty to include the class grading breakdown in their syllabus to further inform the student about how grades are decided. The conditions for assigning the WU grade include:

- A student's enrollment has been verified by the course instructor, and
- The student has severed all ties with the course at any time before the final exam week and, consequently, has failed to complete enough course work -- as specified in the course syllabus -- to earn a letter grade*, and
- The student has not officially withdrawn from the course by completing the process for a W grade, or made arrangements to receive an INC.

*A WU grade should never be given in place of an F grade. The F grade is an earned grade based on poor performance and the student not meeting the learning objectives/outcomes of the course as defined in the syllabus.

**Urban Policy and Planning**

Return to: Faculty of the School of Arts and Sciences

**Nicholas Dagen Bloom**, Professor, PhD, Brandeis; Public and Affordable Housing, State and Metropolitan Planning, Transportation Policy, Community Planning History

**Lily Baum-Pollans**, Assistant Professor; PhD MIT; Sustainability, Urban Infrastructure, Environmental Justice, Municipal Solid Waste, Qualitative Research Methods

**John Chin**, Professor, Director of the Urban Planning (MUP) Program; PhD, Columbia; Community Participation, Urban Health, Immigrant Communities and Non-profits
Jill Simone Gross, Associate Professor; PhD, CUNY; Comparative International Urban Planning, Policy and Development, Citizen Participation

Owen Gutfreund, Associate Professor, PhD Columbia; Transportation Policy, Suburbanization, Sustainable Development, Public Finance and Comparative Urbanization

Victoria Johnson, Associate Professor, Ph.D. Columbia University BA Humboldt-Universitat(Berlin, Germany); Organizations, Cultural History, and the Natural Environment

Matthew G. Lasner, Associate Professor; PhD, Harvard; Housing, Urban Renewal and Urban Development

Vivian Louie, Professor; PhD, Yale; Education, Immigration, Race and Ethnic Relations, Ethnic Identity, Family, Gender

Lynn E. McCormick, Associate Professor; PhD, MIT; Community and Economy Development, Employment Policy and Workforce Development, Policy Analysis

Edwin Melendez, Professor, Director of the Center for Puerto Rican Studies; PhD, Massachusetts (Amherst); Latino Studies, Economic Development, Labor Markets and Poverty

Karina Moreno, Associate Professor; PhD, Rutgers; Immigration and Security Policy Post 9/11; Securitization and LatinX Political Participation; Privatization of Immigration Enforcement Post 9/11; Immigration Detention Centers

William J. Milczarski, AICP, Associate Professor; PhD, Michigan; Transportation, Environmental Policy, Methodology

Sigmund C. Shipp, Associate Professor, Director of the Urban Studies (BA) Program; PhD, Cornell; Economic Development, Community Development, Cultural Competency, Diversity and Poverty

Joseph P. Viteritti, Thomas Hunter Professor of Public Policy and Department Chair, PhD, CUNY; Public Policy, Urban Governance, Education Policy

Laura Wolf-Powers, Associate Professor; Ph.D. Rutgers University; Neighborhood Revitalization, Urban and Regional Economic Urban Development Policy and Planning

VA Pending Payment Compliance

In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. This school will not:

- Prevent nor delay the student's enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources available to other students who have satisfied their tuition and fee bills to the institution, including but not limited to access to classes, libraries, or other institutional facilities. However, to qualify for this provision, such students may be required to:
  - Produce the Certificate of Eligibility by the first day of class;
  - Provide written request to be certified;
  - Provide additional information needed to properly certify the enrollment as described in other institutional policies.
• Request enrollment certification at least 30 days prior to the start of the semester.

Visiting Students

Students currently in attendance at other than CUNY colleges who wish to take courses at Hunter College may enroll as visiting students. Visiting students attend Hunter in a nondegree classification and are subject to the same rules and regulations. Along with the Application for Nondegree Admission, visiting students must present to the Office of Admissions a college transcript indicating the completion of at least 24 academic credits.

CUNY students wishing to take courses at Hunter should file an E-Permit at their home school.

Withdrawal from College

Students who become ill or who experience personal difficulties or a lack of interest that prevents their concentrating on college work, are encouraged to withdraw completely from college. Failure under such conditions can only make an eventual return to college more difficult. Deadlines for such withdrawals are the same as for withdrawals from part of the program (see above).

Such students should make an appointment to see a counselor in the Office of Advising, Room 1119 East Building. Students must return books to the library and all college equipment to the department to which it belongs. Students who are unable to return to Hunter to withdraw in person should write or have someone else write to the Office of Advising. The letter should contain (1) the name under which the student is registered at Hunter; (2) the student's emplID; (3) the return address and telephone number; (4) the reason for withdrawal, with appropriate documentation (medical, psychological or employee) and the last date of attendance; and (5) a copy of the Bursar's receipt.

Students who stop attending without following the above procedures are considered to have withdrawn unofficially and will receive WUs, which are equivalent to Fs in computing the GPA.

Students whose GPA at the time of withdrawal is below the minimum required for continued matriculation shall be considered as having been dropped for poor scholarship. Students who have withdrawn from the college, officially or unofficially, must apply for readmission in the Office of Admissions, Room 203 HN, at least three months prior to the semester in which they wish to re-enter.

Withdrawal from Part of Program

The Board of Trustees has ruled that students have until the end of the third week of classes (or during the summer session, the end of the first week of classes) to drop a course without penalty. This period coincides with the refund period. The course will not appear on the student's record. A student may withdraw officially, with a grade of "W," between the end of the third week of classes and the first day of the tenth week of classes. (During the summer session a student may withdraw officially between the second week of classes and the first day of the fifth week of classes.) To do so, a student should obtain a withdrawal form from the OASIS, Room 217 HN. After the deadline, official withdrawals will be considered for approval by the Office of Advising. Approval will be granted only when it is clear that the student has good and sufficient reason for withdrawing. Students should be aware that withdrawal from classes may have an impact on their financial aid. A student should make an appointment with an adviser in the Office of Advising, Room 1119 East Building, before proceeding with the withdrawal process. The problem often has other solutions.

Writing Across the Curriculum

(212-772-4014, 212-772-5742)

The Writing Across the Curriculum (WAC) Program at Hunter includes consultation on writing pedagogy provided by experts in the field; the CUNY WAC Fellows Program, a collaboration between fellows from the CUNY Graduate Center and Hunter faculty in the effort to address issues of writing in the disciplines; and the services of the Rockowitz Writing Center, which offers tutoring in academic writing across the curriculum to students and consultation with faculty on student writing. The Writing Across the Curriculum Program is founded on the principle that students learn by writing: they learn to write by engaging in a variety of academic writing activities, and they learn subject matter by writing about it. For more information about the program, go to the program Web site: Writing Across the Curriculum
