  - STAT 61400 - Data Analysis Using Statistical Software

Graduation-in-Absentia

Undergraduate students who need 15 credits or fewer to fulfill their degree requirements and who have completed the Hunter Core Requirement (including pluralism and diversity, writing and foreign language) and the major requirements may apply for graduation-in-absentia if they must leave the city before completing their studies. They may attend an accredited college in the United States or abroad. Students who must leave before these criteria are met should apply for transfer to another college. Students should contact Advising Services, Room 1119 East http://www.hunter.cuny.edu/studentservices/advising for more information.

Health & Safety Policies and Procedures

- Drug-Free Schools and Campuses, Public Law 101-226

- Notice of Access to Campus Crime Statistics, the Campus Security Report and Information on Registered Sex Offenders

Health Careers Preparation Program
Post-Baccalaureate Certificate Program in Health Careers Preparation

Return to: Health Careers Preparation

The Post-Baccalaureate Certificate in Health Careers Preparation Program is designed for students who wish to enter a professional program in medicine, dentistry, optometry, podiatry or veterinary medicine but whose undergraduate education does not meet the requirements for these programs. Students interested in entering programs in nursing, nutrition, physical therapy, pharmacy or physician assistant studies are not eligible for the Post-Baccalaureate Certificate Program.

Admission Criteria

We encourage prospective students who meet the admission criteria to apply to our certificate program. All applicants must:

- Hold a baccalaureate degree from an accredited institution with a minimum overall GPA of 3.00 (students with undergraduate degrees in progress are not eligible to apply).
- Apply for admission to City University of New York (CUNY), Hunter College.
- Submit a completed Post-Baccalaureate Certificate Program supplemental application by the February 1st deadline.
- Demonstrate their commitment to a career in the health professions through paid or volunteer experience.

Application Procedures

Admission to the program is limited to the fall semester. Application to the program is a two-step process. For detailed, step-by-step instructions for completing the application procedures, please refer to the Prospective Post-Baccalaureate Student section of the Pre-Health Website.

All prospective students must submit a supplemental application directly to the Pre-Health Advising Office at Hunter College. The supplemental application is completed electronically and is available on the Pre-Health website in mid-fall. In addition to a supplemental application all candidates for the Post-Baccalaureate Certificate Program must apply to CUNY as transfer students. The 4-digit code for Hunter's Post-Baccalaureate Certificate Program is 0339, and this must be selected in order for the student to be considered for the program. All students must submit their official transcripts directly to CUNY through the CUNY Application Portal. High school transcripts are NOT required. The Admissions Committee may also request an interview and/or letters of recommendation for applicants sometime after the supplemental application has been submitted.

Deadlines

Both CUNY and supplemental applications must be received (by CUNY and the Hunter College Pre-Health Office) by February 1 of each year to be considered for admission to the Program in the fall. Applications received after February 1 may not be considered.

Program Requirements

To complete the Program, all Post-Baccalaureate Certificate students starting in fall 2010 and after must:

- Complete one year of college-level English. This requirement can be fulfilled by undergraduate transfer credit and/or by taking courses at Hunter College.
Complete one year of college-level mathematics beyond pre-calculus. This requirement can also be fulfilled by undergraduate transfer credit and/or by taking courses at Hunter. There are two ways to fulfill this requirement at Hunter:

1. MATH 15000 (STEM) (calculus) and MATH 15500 (STEM) (calculus II)

2. MATH 15000 (STEM) (calculus) and STAT 21300 (STEM) (*STAT 113 does not fulfill this requirement*)

- Complete 38 credits in science (biology, chemistry or physics) at Hunter College.
- Maintain a 3.3 GPA for every semester in the program with no individual course grade below B-.
- Provide 56 hours of service to the Hunter College Community during their time in the program. Tutoring in science courses, mentoring undergraduate students, and assisting with activities sponsored by the Pre-Health Advising Office are examples of activities that fulfill the service commitment requirements.
- Obtain a committee letter from the Pre-Health Advisory Committee at Hunter College.

### Courses and Requirements

The exact titles and sequence of courses for Post-Baccalaureate students depend on their individual academic needs and availability of courses at Hunter College each semester. Students typically take 9–12 credits of mathematics/science per semester but individual students' course loads can vary depending on their schedules of extracurricular activities and other factors.

In addition to the mathematics and English requirements stated above, typical course work for pre-health students includes the following:

- One year of general biology with lab: BIOL 10000 (STEM) and BIOL 10200 (STEM) (4.5 credits each, including lab) offered in spring and fall semesters, respectively.
- One year of general chemistry with lab: CHEM 10200 (STEM) and CHEM 10400 (STEM) (lecture, 3 credits each) and CHEM 10600 (STEM) (lab, 3 credits). CHEM 10400, which serves as a pre-requisite to CHEM 10600 may be taken concurrently to satisfy requirements.
- One year of Organic Chemistry lectures: CHEM 22200 and CHEM 22400 (4 credits each); and one year of Organic Chemistry labs: CHEM 22300 and CHEM 22500 (2.5 credits each).
- One year of general physics with lab: PHYS 11000 (STEM) and PHYS 12000 (STEM) (4.5 credits each, including lab).
- One semester of Biological Chemistry BIOL 30000 or a year of Biochemistry CHEM 37600, CHEM 37700 and CHEM 37800

### Additional Courses

Students may use classes from the following list of upper division biology and chemistry courses to fulfill the requirements for the program:

### Courses

**BIOL 30600 - Developmental Biology**

**GER**

3/B

Major topics include molecular and cellular mechanisms of early embryonic development in amphibians, mammals and model organisms such as Drosophila, as well as the related subjects of vertebrate organ system development, biology of stem cells and animal cloning. Emphasis is placed on seminal and current research in cell-cell communication, signal transduction and differential gene regulation in developmental processes.
prereq: BIOL 30000
3 hrs (lec)
3 cr.
fall only

BIOL 35000 - The Biology of Cancer

GER
3/B

When a normal cell becomes a cancer cell there are genetic changes that occur that alter the biology of the cell such that it behaves independent of its neighbors. This course will investigate the altered biology of cancer cells that lead to uncontrolled proliferation and cancer. Topics include: cell culture, the cell cycle, hormones, receptors, intracellular signal transduction, oncogenes, tumor suppressor genes, apoptosis, metastasis, and the etiology of human cancer.

prereq: BIOL 20000, 30000, or perm instr.
3 hrs (lec)
3 cr.

BIOL 36000 - Cellular and Molecular Immunology

GER
3/B

Study of the immune system from a molecular perspective. Molecular genetics of antibody and T cell receptor diversity, hematopoiesis and lymphocyte development, humoral and cellular immunity, histocompatibility.

prereq or coreq: BIOL 30000, perm instr.
4 hrs (3 lec, 1 disc)
3.5 cr.
spring only

BIOL 37000 - Physiology of the Nervous System

GER
3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.

prereq: BIOL 30000 or perm instr.
4 hrs (lec)
4 cr.
spring only

BIOL 37500 - Molecular Systematics

GER
3/B

An overview of the various methods and kinds of data used in systematics, the study of organism diversity and biological relationships. Emphasis is on modern molecular and genetic approaches to identification of individual
species and strains and full phylogenetic analyses of suites of species to determine their evolutionary history. The knowledge base is provided for experimental investigation of questions of current interest in phylogeny and population biology.

prereq: BIOL 30000 or perm instr.
3 hrs
3 cr.

**BIOL 37600 - Endocrinology**

GER
3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.

prereq: BIOL 20200 or perm instr.
3 hrs (lec)
3 cr.
spring only

**BIOL 38000 - Molecular Neurobiology**

GER
3/B

Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

prereq: BIOL 30000 or perm instr.
3 lec hrs
3 cr.
fall only

**CHEM 35000 - Biophysical Chemistry**

**Pluralism and Diversity**

GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better
5 hrs (4 lec, 1 rec)
4 cr

**CHEM 32200 - Organic Chemistry Lecture III**

GER
3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

prereq: Chem 22404 with a grade of C or better OR Chem 22406 with a grade of C or better
3 hrs
New Required Courses for Medical School

Students intending to apply to medical school are now required to complete

**PSYCH 10000 - Introduction to Psychology**

**GER**

2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs

3 cr.

and

**SOC 10100 - Introduction to Sociology**

**Hunter Core**

Individual and Society (Social Sciences) - I&SS SS

**GER**

2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.

3 hrs

3 cr.

Consult the Sociology department or the Pre-Health Advising Office for information about the specific section recommended. These courses can also be satisfied with equivalent transfer credits.

**Note:**

Please refer to the Pre-Health Office website and publications for information regarding the specific coursework and extracurricular activities required by the individual health professional schools.

**Time to Completion**

Students must complete all of the required courses within 36 months in order to receive the certificate. A typical post-baccalaureate student completes the minimum coursework required to take standardized tests such as the MCAT or DAT within this same time period. Many students also go on to take additional upper division courses recommended by many health professional schools during the third (application) year. Decisions about professional school admissions are usually made one year after applications are submitted. Hunter College also has linkage agreements with several medical schools, which allows highly qualified Post-Baccalaureates who have completed all pre-medical requirements to matriculate in the same year in which they apply.

**Additional Fees**
Hunter College Post-Baccalaureates are required to pay additional Academic Excellence fees, which are used to improve the resources available to them. Among other things, these fees entitle students to the additional support of a dedicated Post-Baccalaureate advisor and preparatory courses for standardized tests such as the MCAT. The following is a breakdown of the Academic Excellence Fee structure:

- Resident Full-time students: $500 per semester for 12 credits or more
- Resident Part-time students: $50 per credit
- Non Resident Full-time and Part-time students: $90 per credit

Health Regulations

Table of Contents

- Health Standards
- Meningococcal Disease
- Medical Records and Examinations
- Student Physical Activity Cards

Health Standards

The following are the general health standards for admission, readmission and continuing attendance at Hunter College:

- The student's health status shall not constitute a danger to any individual or group at Hunter College.

- The health condition shall not be such that it may be aggravated or intensified by the demands of attendance at the college.

- Any limitations of activity necessitated by a health problem shall be such that program adjustments will still enable the student to conform to the college's academic requirements.

- A student's health status shall be such that the student may be expected to continue his or her college work, taking a reasonable number of hours on a continuing basis. Immunizations Public Health Law 2165 requires college students to present a complete record of two live immunizations against measles and single immunization against mumps and rubella rubella or two doses of MMR vaccination; or titer (blood test) showing positive immunity to measles, mumps, and rubella. Students born on or after January 1, 1957 must submit a complete immunization record signed by a health practitioner. Noncompliance will prohibit a student from registering for classes.

Public Health Law 2167 requires institutions, including colleges and universities, to distribute information about meningococcal disease to all students meeting the enrollment criteria, whether they live on or off campus. Hunter College, CUNY, is required to maintain a record of the following for each student:

- A response to receipt of meningococcal disease and vaccine information signed by the student or student's parent or guardian. This must include information on the availability and cost of meningococcal meningitis B Series vaccine (MenACWY).

- and either-

- A record of meningococcal meningitis immunization within the last 5 years

- or-

- An acknowledgement of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student or student's parent or guardian.
Medical Records and Examinations
Matriculated students (including transfer students) are required to submit a medical report by a recognized physician upon admission into certain programs. If a student's medical report or other factors indicate a health problem, the college may require from the student's physician a report from a medical specialist in the area of the student's disability.

Student Physical Activity Cards
The Immunization Records Office no longer processes or issues Physical Activity Cards (PAC). All students, faculty, and staff interested in participating in recreational programs at Hunter College must obtain access to an electronic Physical Activity Card (PAC) from the OneCard Office or go to:

Physical Activity Card. If you have questions, call 212-650.3191, visit the OneCard office (203 west building), or contact the recreation office at 212.772.4912, located in (wb315 West Building).

Hebrew Program
Overview
The Hebrew Program offers a program of Hebrew language, literature and culture spanning the ancient through the modern periods. This program is designed to develop language skills, cultivate a critical appreciation of Hebraic and Judaic literature and thought and promote an understanding of Jewish cultural tradition against the background of world civilization. These courses may be applied to satisfy foreign language and other components of the General Education Requirement as well as to fulfill major and minor concentrations. This curriculum also meets the special needs of students majoring in other disciplines for courses dealing with the Hebraic or Judaic elements and influences on European culture. The wide variety of course offerings enables students to concentrate their attention on one major period, to aim for an overall proficiency or to strive for both objectives simultaneously.

HEGIS Code List

Degree, Certificate and Diploma Programs
The following undergraduate degree, graduate degree, advanced certificate and combined undergraduate/graduate degree programs are offered.
These programs have been approved by the New York State Education Department and are listed in the Inventory of Registered Programs http://www.nysed.gov/heds/irpsl1.html. The Higher Education General Information Survey (HEGIS) code numbers appear next to the appropriate program.

Students are advised that enrollment in other than registered or otherwise approved programs may jeopardize their eligibility for certain student aid awards.

For specific information on a particular undergraduate program – including faculty, admission and degree requirements and course descriptions – consult the appropriate section of this catalog.

For specific information on graduate and advanced certificate programs, consult the Hunter College Graduate Catalog.

**History for Adolescent Education (Social Studies)**

**Foundational Courses (9 credits)**

At least 6 credits of Foundational Courses must be completed to declare the major. The remaining 3 credits can be completed along with the major.

- HIST 15100 The United States from the Colonial Era to the Civil War (W)
- HIST 15200 The United States from the Civil War Era to the Present (W)
- GEOG 15000 World Regions in Global Context -or- GEOG 10100 People and Their Environment

**Major (33 credits)**

**Geography (6 credits)**

- GEOG 22100 Economic Geography and Globalization
- GEOG 24100 Population Geography (W)
- GEOG 24300 Urban Geography
- GEOG 24700 Cultural Geography
- GEOG 30500 Special Topics in Urban and Regional Dynamics
- GEOG 30600 Special Topics in Contemporary Regional Geographies
- GEOG 32800 Urban Environmental Problems: Evaluations and Solutions

**Political Science & Economics (6 credits)**

- ECO 10000 Introduction to Economics
- POLSC 11000 American Government: A Historical Introduction (W)

**History (21 credits)**

- A maximum of 6 credits in history courses at the 100-level and a minimum of 9 credits in history courses at the 300-level or above. Foundational courses do not count toward the History credits.

**World/Non-US History (12 credits)**

including a least three credits in each of the following categories (courses may be used to count toward only one category; described category must comprise 50% or more of course content for course to qualify):

- Pre-1800
- non-Europe
- Europe

One additional World/Non-US History

**US History (6 credits)**

- all above the 100-level

**Keystone Course in History (3 credits)**

SWIM or SYNC: History Practicum or any dedicated seminar or Honors course at the 400 level approved by the Undergraduate Advisor and/or the Department Chair, as involving significant writing in the major ("SWIM") or graduate-level history course (700-level) available with permission to graduating seniors (Senior Year Non-Traditional Course; "SYNC")

**Honor Societies**

Two kinds of honor societies are recognized at Hunter College: academic and professional. In general the requirements for nomination are: for academic societies, a cumulative GPA of 3.0 and a departmental GPA prescribed by the department concerned, although in no case less than 3.0; for professional societies, a cumulative GPA of 2.8 and a departmental GPA and professional qualifications that meet departmental requirements. All honor societies except Phi Beta Kappa and Sigma Xi are subject to the rules and regulations established by a committee of the Hunter College Senate. Students may qualify for the following honor societies:

- Alpha Kappa Delta - Sociology
- Omicron Delta Epsilon - Economics
- Dobro Slovo - Slavic Language and Literature
- Phi Alpha Theta - History
- Eta Beta Rho - Hebrew
- Pi Mu Epsilon - Mathematics
- Eta Sigma Phi - Latin and/or Greek
- Pi Sigma Alpha - Political Science
- Gamma Kappa Alpha - Italian
- Psi Chi - Psychology
- Gamma Theta Upsilon - Geography
- Sigma Delta Pi - Spanish
- Kappa Delta Pi - Education
- Sigma Epsilon Phi - German
- Kappa Pi - Art
- Sigma Pi Sigma - Physics
- Kappa Omicron Nu - Food Science
- Sigma Theta Tau - Nursing

and Human Nutrition

**Phi Beta Kappa** is the oldest undergraduate honors organization in the United States. Students do not apply for membership; they are elected on the basis of academic excellence. Eligibility is calculated on the basis of liberal arts courses under Phi Beta Kappa rules, which differ from those used in awarding other honors at Hunter College.

**Sigma Xi** The Scientific Research Society honors those who have made noteworthy contributions in research. Its purpose is "to encourage original investigation in science, to foster companionship and cooperation among scientists,
and to maintain honor, integrity and honesty in all scientific activities.” It has nearly 65,000 active members, scientists and engineers, whose goal is to improve the human condition. The Hunter College Chapter was installed in 1969.

Honors Programs

Hunter College provides a range of honors programs for students with strong academic records and the desire for stimulating courses and a host of special opportunities.

**Macaulay Honors College at Hunter College** Graduating high school seniors and others who have not yet attended college may apply to the Macaulay Honors College at Hunter College. The mission of this highly competitive program is to inspire and prepare outstanding leaders to confront and solve the social, economic, cultural, and scientific challenges of New York City and the world. Accepted students take a series of interdisciplinary seminars focused on New York City, and work closely with Honors Advisors inorder to learn about and access the diverse resources of CUNY. Generous financial support is provided, allowing students to concentrate on their studies and carefully selected co-curricular activities. For further information, call the Macaulay Honors College office at (212) 650-3556 or see the website: http://www.hunter.cuny.edu/honorscollege.

**Thomas Hunter Honors Program** (Special Honors Curriculum) This program provides superior students who are pursuing a Hunter BA degree with a course of study suited to their individual needs and interests. Open to students who have demonstrated academic excellence and an interest in interdisciplinary studies and who desire to be intellectually challenged, it offers the opportunity to design a personalized curriculum under the supervision of the Council on Honors. The program also offers its participants the chance to study with faculty members committed to working with outstanding undergraduates who wish to pursue interdisciplinary studies. For details, see the Thomas Hunter Honors Program.

**SciMON (Science and Mathematics Opportunities Network)**

**Honors Scholar Programs**

140 North Building

scholarprograms@hunter.cuny.edu  
http://www.hunter.cuny.edu/scholars

Hunter College provides scholarships, support, and enrichment activities through academically themed cohort programs for incoming freshmen who demonstrate high academic achievement and potential. Programs offer 4-year renewable scholarships, dedicated advisors and faculty and/or peer mentors, priority registration, priority access to residential housing, and an enriching academic experience through first-year seminar, common readings, and special co-curricular programming. There are six cohort programs:

Cohort Programs

- **Muse** Visual and Performing Arts
- **Yalow** Scientific Research and Medicine
- **Roosevelt** Civic Issues and Public Policy
- **Nursing** Leadership in the Field of Nursing
Human Rights Courses

Human Rights

Overview

The Human Rights Program examines the theory and practice of human rights, combining academic training with hands-on experience. By exploring the philosophical foundations and legal framework of human rights, as well as addressing current political, social and economic realities, the program seeks to give students the tools necessary to engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples' rights to natural resources, the limits of freedom of expression, the problem of corporate complicity in rights violations, the legitimacy of humanitarian intervention, and the problem of enforceability (both of economic, social, and cultural rights, and of civil and political rights).

An interdisciplinary program, the Human Rights Program offers courses in political science, anthropology, sociology and history, among other fields of study. Students may follow either of two academic tracks: a 15-credit Minor in human rights, or 24-credit Certificate. A key element of both tracks is the human rights internship, which gives students direct experience with the researchers, advocates, lawyers and analysts who make up the human rights movement. Both the Minor and Certificate in human rights are good preparation for a career in government, at a nongovernmental organization, or in a regional or international agency. Many students may choose to go on to law school, journalism school or a graduate program. Whatever their career choice, their knowledge of human rights will make them more thoughtful and informed citizens.

HR 20000 - Introduction to Human Rights: History, Discourse, Practice (W)

Pluralism and Diversity
PD/D
GER
3/B

An introduction to the study of human rights. It explores the historical, philosophical, and legal roots of human rights as a political idea and institutionalized practice. It also addressed the contested nature of human rights as an idea and practice in contemporary societies. In addition to providing an introduction to the subject, the course is a requirement for students minoring in Human Rights or pursuing a Human Rights Certificate.

In order to pursue a Human Rights minor or Certificate, a student must receive at least a B (3.0) in this course. Students should take this introductory course in their sophomore year but must take it no later than the first semester of their junior year. This is a writing intensive course.

prereq: ENGL 12000 or equivalent; one course in ethics, political philosophy, political theory, sociological theory, or permission from the instructors.
3 hrs
3 cr.
fall and spring; summer when possible

HR 22000 - Special Topics in Human Rights
This course covers special topics in human rights. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. The course may be repeated four times for credit with different topics.

*prereq: ENGL 12000; HR 20000 is recommended but not required*

3 hrs
3 cr.

**HR 25000 - Human Rights Internship**

This is a practicum course. It involves students participating in an organization that identifies its mission as the promotion of human rights. The aim of the course is to educate students in the practical dimension of translating human rights discourse and law into practice. The course is required for students seeking a Human Rights Certificate or a minor in Human Rights.

*prereq: ENGL 12000 or equivalent; HR 20000 or equivalent*

3 hrs
3 cr.

*fall, winter, spring, and summer*

**HR 26000 - Human Rights Internship Seminar (W)**

This course critically evaluates the role of human rights organizations and human rights practices in determining the meaning and value of human rights.

*prereq: ENGL 12000 and HR 20000
*prereq or coreq: HR 25000*

3 hrs
3 cr.

*fall semesters on Wednesdays, 10:10 a.m. – 1:00 p.m. It is recommended that students not take an earlier Wednesday morning class, as site visits off campus may start at 10:00 a.m.*

**HR 32000 - Special Topics in Human Rights**

This course covers special topics in human rights on an advanced undergraduate level. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. May be repeated four times for credit with different topics.

*prereq: ENGL 12000; HR 20000 or Permission of Instructor or Permission of Human Rights Program Director*

3 hrs
3 cr.

**HR 35000 - Human Rights Capstone Seminar (W)**

This course involves the theoretical examination of constitutive problems in the discourse and practice of human rights, especially as they would inform the composition of a human rights academic research project. It requires participating
students to present their research projects in the seminar and to compose a 20-25 page research paper on a human rights topic.

This course is specifically designed for students who are pursuing a Certificate in Human Rights. This is a writing intensive course.

prereq or coreq: HR 26000
Offered spring only

Hunter College Campus Schools

The Campus Schools are located at Park Avenue and 94th Street in Manhattan. They serve as a laboratory for observation, demonstration, research, curriculum design and other projects involving their students, all of whom score in the range of the gifted on intelligence and achievement tests. Students are admitted to the publicly supported schools on the basis of competitive testing. Efforts continue to identify gifted children from diverse backgrounds who meet the schools' rigorous standards for admission to kindergarten and grade 7 (the two levels at which students are admitted).

Hunter College Elementary School

Children must be five years of age to attend the kindergarten. Only Manhattan residents are eligible to apply. The age of an applicant is calculated according to the academic year. While some students continue on to the high school from the elementary school, high-achieving students from the five boroughs are invited to take a competitive examination in order to enter Hunter High School at the 7th grade.

Hunter College Foreign Language Requirement

Return to Department of Romance Languages
The college foreign language requirement may be fulfilled by completion of French, Italian or Spanish 202, 203 or 208 or by demonstrating equivalent proficiency through a departmental examination. Students with prior knowledge of one of the languages should see a departmental adviser and take a placement examination before registering for courses. Students who have a high school diploma in a language other than English or who have studied a foreign language in high school for four years have fulfilled the language requirement. Students should consult a departmental adviser to resolve all matters regarding placement, registration and course offerings.

Please contact the department for details on when placement examinations are offered.

- Students pursuing a new language will fulfill the language requirement in four college semesters by completing one of the following sequences:
  - French: FREN 10100-FREN 10200 or FREN 10300 and FREN 20100-FREN 20200, or FREN 20300;
  - Italian: ITAL 10100-ITAL 10200, or ITAL 10300 and ITAL 20100-ITAL 20200, or ITAL 20300;
  - Spanish: SPAN 10100-SPAN 10200, or SPAN 10300, or SPAN 10500-SPAN 10600 and SPAN 20100-SPAN 20200, or SPAN 20300, or SPAN 20700 and SPAN 20800.

Hunter College High School

The Hunter College High School is a six-year junior-senior high school. The academic program stresses both acceleration and enrichment and provides students with a rigorous education. Research focuses on the development of curriculum, teaching strategies and other educational practices that maintain and advance a "state of the art" approach to the education of intellectually gifted students.

Hunter College Libraries

The Hunter College Libraries, with locations at all of our campuses, offer the Hunter College community access to a wide variety of services, collections, and spaces for research and teaching. At the 68th Street campus, the Leon & Toby Cooperman Library occupies nine floors in the East Building, with entrances to the library on the 3rd and 7th floors. The Cooperman Library is home to the Hunter College Archives & Special Collections (Floor 2), the Silverstein Student Success Center (Floor 7), and the Education Library (Floor 6). Also at the 68th Street campus, the Zabar Art Library is located on the 16th Floor of the North Building. The Brookdale campus (425 East 25th Street) is home to the Health Professions Library, and the Silberman Building (2180 Third Avenue) houses the Social Work and Urban Public Health Library.

Our spaces include collaborative work areas, reservable study rooms, and areas for quiet study. Additionally, we provide desktop, laptop, and tablet computers as well as printers, photocopiers, scanners, whiteboards, and lots of electrical outlets.

Librarians are available for one-on-one and group research consultations. Request an appointment with a librarian by completing the Research Consultation form here: ask-a-librarian.

For more information about our services, including specifics about each of the libraries, please visit the Hunter College Libraries' website.

Please note that the Cooperman Library is undergoing a phased renovation project which involves temporary floor closures due to construction. Take note of posted signage in the library and check our website for up-to-date information.

Hunter College Mission Statement
Hunter College of the City University of New York, a distinguished public university, values learning in the liberal arts and sciences as a cornerstone of individual development and a vital foundation for a more just and inclusive society. Continuing our long tradition of expanding opportunity, we welcome students from all backgrounds to engage in a rigorous educational experience that prepares them to become leaders and innovators in their communities and in the world. Hunter also contributes to intellectual discourse by supporting excellent scholarship and creative activity by its accomplished faculty.

Hunter undergraduate, graduate, and professional curricula challenge students to think critically – to approach problems from multiple perspectives, distinguish the questions each raises, and recognize the kinds of evidence each values. The college's academic programs stress the significance of human diversity, emphasize research and artistic creation, and invite students to extend their education beyond campus. We cultivate the qualities our graduates need to thrive in their chosen careers and make a difference as active citizens.

We embrace our setting at the heart of New York City – we seek to draw on its energy, capitalize on its remarkable resources, weave it into the fabric of our teaching, research, and creative expression, and give back to it through our service and citizenship.

Hunter College Students' Rights Concerning Education Records

- Student Regulations and Rights

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

- The right to inspect and review the student's education records.

Students should submit to the registrar, the dean of students, or other appropriate college official, written requests that identify the record(s) they wish to inspect. If the records are not maintained by the college official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

All requests shall be granted or denied in writing within 45 days of receipt. If the request is granted, the student will be provided with copies of the requested records or notified of the time and place where the records may be inspected. Students will be charged a fee for copies of requested records. If the request is denied or not responded to within 45 days, the student may appeal to the college's FERPA appeals officer. Additional information regarding the appeal procedures will be provided by the college's FERPA appeals officer: Office of Legal Affairs, Hunter College, Room 1705 HE, 695 Park Avenue, New York, NY 10065.

- The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.
Students may ask the college to amend a record that they believe is inaccurate or misleading. They should write to the registrar, the dean of students, or other appropriate college official, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the college decides not to amend the record as requested by the student, the college will notify the student of the decision and advise the student of his or her right to a hearing before the college's FERPA appeals officer regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- The right to consent to disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to college officials with legitimate educational interests. A college official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position; a person or company with whom the university has contracted; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another college official in performing his or her tasks. A college official has a legitimate educational interest if access is reasonably necessary in order to perform his/her instructional, research, administrative or other duties and responsibilities. Upon request, the college discloses education records without consent to officials of another college or school in which a student seeks or intends to enroll.

- You may appeal the alleged denial of FERPA rights to the: General Counsel and Vice Chancellor for Legal Affairs, The City University of New York, 535 East 80th Street, New York, NY 10065.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the college to comply with the requirements of FERPA.

The name and address of the office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue SW, Washington, DC 20202-4605.

- The college will make the following "directory information" concerning current and former students available to those parties having a legitimate interest in the information: a student's name, attendance dates, telephone listing, home address, present address, e-mail address, major and minor fields of study, degrees and awards received, date of birth, place of birth, level of education and the most recent previous educational institution attended. By filing a form with the Registrar's Office, a student or former student may request that any or all of the above information not be released without his or her prior written consent. This form may be completed, withdrawn, or modified at any time.

This policy shall be effective as of September 2000 and shall supersede prior policy on this issue.

Students Regulations and Rights

Statement on the Rights of Students

The Hunter College Senate voted endorsement of the following statement on September 24, 1974:

Preamble

"Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals....Freedom to teach and freedom to learn are inseparable facets of academic freedom."
Students "have a distinctive role...which qualifies them to share in the responsible authority on campus; the exercise of the authority is part of their education."

Joint efforts among all groups in the institution—students, faculty, administration and governing board—is a prerequisite of sound academic government...Joint effort, to be effective, must be rooted in the concept of shared authority. The exercise of shared authority in college and university government, like the protection of (student and faculty) academic freedom, requires tolerance, respect and a sense of community."

"The responsibility to secure and respect general conditions conducive to the freedom to learn is shared by all members of the academic community."

Students’ rights are not limited by what is enumerated in this statement. The purpose of the statement is to outline some basic principles and guidelines, many of which are now met. Specific implementation will have to be continuously adjusted as conditions at the college change.

- Academic and Personal Files
  - Improper disclosure, even within the college, of academic, personal and disciplinary records is a serious invasion of privacy. To minimize the risk of improper disclosure, academic, personal and disciplinary records should be kept in separate files.
  - All files may be made available only to specially authorized college staff. Express consent of the student involved is otherwise required.
  - Academic records and transcripts should contain only information about scholastic achievement.
  - No records should be kept which reflect the political and off-campus activities or beliefs of students.
  - Non-current medical and disciplinary records should be periodically destroyed.
  - Students have the right to periodically review their academic, medical and disciplinary records and to appeal for removal of items improperly included. If the appeal fails the student has the right to append a written rebuttal to the record.

- Classroom, Grades, etc.
  - Students have the right, within the limits of available facilities, to pursue any course of study for which they are eligible according to college standards.
  - In order to permit eligible students unhindered access to courses, the costs of required materials should be kept within reasonable limits.
  - Students have the right to know, at the start of each course of study, the basis to be used by the instructor in determining grades.
  - Students' grades should be based solely on academic criteria, not on opinions or conduct in matters unrelated to academic standards.
  - Students should have the opportunity to take reasoned exception to facts or points of view offered in any course of study, but they are responsible for meeting the academic standards of any course of study for which they are enrolled.
  - Students should have the protection through formally established procedures against prejudiced or capricious academic standards or evaluations.
• Participation in Academic Affairs

• Students have the right, individually and collectively, to express their views on matters of general interest to the student body, including institutional policy, curriculum and personnel decisions.

• Students have the right to participate in the formulation and application of institutional policy affecting academic and student affairs.

• Students should share in the formation of policies regarding degree requirements, courses and curriculum, academic grading systems, standards of academic standing and calendar arrangements.

• Students should have the opportunity, individually and collectively, to assess the value of a course and to express their views on the form and conduct of a class which they have taken.

• The results of an institutional mechanism used for students to assess courses and faculty, such as evaluation questionnaires, should be accessible to all members of the college community and should be weighed in all decisions affecting faculty status and curriculum.

• Extracurricular Activities

• Students should be free to form and join associations to promote their common interests.

• Students have the right to express their opinions, individually and collectively and to support causes in a manner that does not disrupt the orderly operation of the college.

• Standards of Conduct

• Students should participate in the formulation of standards of behavior which are considered essential to the educational mission and community responsibilities of the college.

• The code of conduct, as a set of regulations and procedures, should be clearly stated and published in a handbook or other generally available set of institutional regulations.

• In all cases, disciplinary procedures should protect the student from capricious and prejudicial application of the rules of conduct. Such procedures should also satisfy the requirements of procedural due process, including written notice with details of charges, sufficient time to prepare a defense, right to assistance in the defense, right to cross-examine witnesses and to present evidence and the right to appeal the decision.

RESOLVED, That these rules and regulations be incorporated in each college bulletin.

Adopted by the Board of Trustees of The City University of New York on June 23, 1969 and amended on October 27, 1980 and May 22, 1989

Rules and Regulations for Students Pursuant to Article 224A of the NYS Education Law

• No person shall be expelled from or be refused admission as a student to an institution of higher education for the reason that he or she is unable, because of his or her religious beliefs, to register or attend classes or to participate in any examination, study or work requirements on a particular day or days.

• Any student in an institution of higher education who is unable, because of his or her religious beliefs, to attend classes on a particular day or days shall, because of such absence on the particular day or days, be excused from any
examination or any study or work requirements.

- It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his or her religious beliefs, an equivalent opportunity to register for classes or make up any examination, study or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.

- If registration, classes, examinations, study or work requirements are held on Friday after four o'clock post meridian or on Saturday, similar or makeup classes, examinations, study or work requirements or opportunity to register shall be made available on other days, where it is possible and practicable to do so. No special fees shall be charged to the student for these classes, examinations, study or work requirements or registration held on other days.

- In effectuating the provisions of this section, it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his or her availing himself or herself of the provisions of this section.

- Any student who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section, shall be entitled to maintain an action or proceeding in the supreme court of the county in which such institution of higher education is located for the enforcement of his or her rights under this section.

- It shall be the responsibility of the administrative officials of each institution of higher education to give written notice to students of their rights under this section, informing them that each student who is absent from school, because of his or her religious beliefs, must be given an equivalent opportunity to register for classes or make up any examination, study or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to such student such equivalent opportunity.

- As used in this section, the term "institution of higher education" shall mean any institution of higher education, recognized and approved by the regents of the university of the state of New York, which provides a course of study leading to the granting of a post-secondary degree or diploma. Such term shall not include any institution which is operated, supervised or controlled by a church or by a religious or denominational organization whose educational programs are principally designed for the purpose of training ministers or other religious functionaries or for the purpose of propagating religious doctrines.

- As used in this section, the term "religious belief " shall mean beliefs associated with any corporation organized and operated exclusively for religious purposes, which is not disqualified for tax exemption under section 501 of the United States code.

Equal Opportunity Programs

Hunter College is an Equal Opportunity and Affirmative Action Institution. The college does not discriminate on the basis of race, color, national or ethnic origin, religion, age, sex, sexual orientation, transgender, marital status, disability, genetic predisposition or carrier status, alienage or citizenship, military or veteran status, or status as victim of domestic violence in its student admissions, employment, access to programs and administration of educational policies.

Rules and Regulations for the Maintenance of Public Order Pursuant to Article 129A of the NYS Education Law
The tradition of the university as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedoms: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility and trust among teachers and students, only when members of the university community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the university campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the university has the right and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the Bylaws of the Board of Higher Education.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board of Higher Education provide that:

"THE PRESIDENT. The president, with respect to his educational unit, shall:

- Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his jurisdiction;
- Be the adviser and executive agent of the Board and of his respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the bylaws, resolutions and policies of the Board, the lawful resolutions of any of its committees and the policies, programs and lawful resolutions of the several faculties;
- Exercise general superintendence over the concerns, officers, employees and students of his educational unit...."

Rules

- A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he interfere with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational and community services.

- Individuals are liable for failure to comply with lawful directions issued by representatives of the university/college when they are acting in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.

- Unauthorized occupancy of university/college facilities or blocking access to and from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation and use of university/college equipment and/or supplies.

- Theft from or damage to university/college premises or property, or theft of or damage to property of any person on university/college premises is prohibited.

- Each member of the academic community or an invited guest has the right to advocate his position without having to fear abuse, physical, verbal, or otherwise from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.

- Action may be taken against any and all persons who have no legitimate reason for their presence on campus within the university/college, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of their rights or interferes with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational and community
services.

• Disorderly or indecent conduct on university/college-owned or controlled property is prohibited.

• No individual shall have in his possession a rifle, shotgun, or firearm or knowingly have in his possession any other dangerous instruments or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the university/college without the written authorization of such educational institution. Nor shall any individual have in his possession any other instrument or material which can be used or is intended to inflict bodily harm on an individual or damage upon a building or the grounds of the university/college.

• Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is prohibited.

• The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees on University/college premises, or as part of any University/college activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal drug statute conviction for a violation occurring in the workplace not later than five (5) days after such conviction.

• The unlawful possession, use, or distribution of alcohol by students or employees on university/college premises or as part of any university/college activities is prohibited.

Penalties

• Any student engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of sanctions as hereafter defined in the attached Appendix: admonition, warning, censure, disciplinary probation, restitution, suspension, expulsion, ejection and/or arrest by the civil authorities.

• Any tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of penalties: warning, censure, restitution, fine not exceeding those permitted by law or by the Bylaws of The City University of New York, or suspension with/without pay pending a hearing before an appropriate college authority, dismissal after a hearing, ejection and/or arrest by the civil authorities and for engaging in any manner in conduct prohibited under substantive.

Rule 10, may, in the alternative, be required to participate satisfactorily in an appropriately licensed drug treatment or rehabilitation program. A tenured or non-tenured faculty member or other member of the instructional staff, or member of the classified staff charged with engaging in any manner in conduct prohibited under substantive

Rules 1-11 he or she shall be entitled to be treated in accordance with applicable provisions of the Education Law, or the Civil Service Law, or the applicable collective bargaining agreement, or the Bylaws or written policies of The City University of New York.

• Any visitor, licensee, or invitee engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to ejection and/or arrest by the civil authorities.

• Any organization which authorized the conduct prohibited under substantive Rules 1-11 shall have its permission to operate on campus rescinded. Penalties 1-4 shall be in addition to any other penalty provided by law or The City University Trustees.

Sanctions Defined:
• **ADMONITION** An oral statement to the offender that he/she has violated university rules.

• **WARNING** Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may be cause for more severe disciplinary action.

• **CENSURE** Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any university regulation within a period stated in the letter of reprimand.

• **DISCIPLINARY PROBATION** Exclusion from participation in privileges or extracurricular university activities as set forth in the notice of disciplinary probation for a specified period of time.

• **RESTITUTION** Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

• **SUSPENSION** Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.

• **EXPULSION** Termination of student status for an indefinite period. The conditions for readmission, if any is permitted, shall be stated in the order of expulsion.

• **COMPLAINT TO CIVIL AUTHORITIES**

• **EJECTION**

### 504/ADA Grievance Procedures

Hunter College encourages the prompt and equitable settlement of all complaints and grievances of discrimination in college programs under Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. Section 706) and the Americans with Disabilities Act of 1990 as amended (42 U.S.C. Section 12101-02). Toward that end, both informal and formal grievance procedures are established for the college.

These procedures are available to any student of the college who alleges any action relating to handicap which is prohibited by Section 504, the ADA, or the rules and regulations implementing those laws. No other issues may be raised in these proceedings.

The resolution of a grievance may pass through several steps. Initially, students are encouraged to discuss a complaint with the supervisor of the office involved. Often, this conversation will lead to steps that will alleviate the difficulty. If this discussion does not lead to a result that is satisfactory to the student, he or she should then begin an informal complaint process with the director of the Office for Access and Accommodations. If the informal complaint process does not yield results satisfactory to the student, a written formal complaint may be filed with the Vice President for Student Affairs.

Students may obtain a written explanation of the entire grievance procedure and the accompanying form from Office for Access and Accommodations, Room 1124 Hunter East. The Section 504 and ADA Coordinator at Hunter College, Professor Bonnie Keilty, is responsible for policies related to the disabled. She can be contacted in Room 916 Hunter West; (212) 772-4709, bkeilty@hunter.cuny.edu.
Hunter College's Procedures for Reporting Academic Integrity Violations

- Procedures for Reporting Academic Integrity Violations
- Committee Structure
- CUNY Examples of Substantial Violations

Procedures for Reporting Academic Integrity Violations

To initiate the procedure for addressing an allegation of academic dishonesty, faculty members must complete the online Academic Integrity Form indicating the recommended academic sanction, which involves a grade penalty (i.e., a reduced grade). Disciplinary sanctions may only be pursued by the Dean of Students if the case merits them.

I. Procedure for Academic Sanctions

- When the faculty member suspects academic dishonesty and wants an academic sanction, the professor should first confer with the student. If the student admits to the violation, the instructor should inform the student of the grade penalty and report the action taken on the online Academic Integrity Form and upload all supporting documentation [pdf]. The faculty should submit the online reporting form within 30 days of discovery of the academic dishonesty. The Office of Student Conduct will contact the student once we receive a completed online form. Faculty members must submit the online form within 30 days of discovery of the academic dishonesty.
- If the student admits to academic dishonesty but believes the grade penalty is too severe, the instructor should select the appropriate option on the online Academic Integrity Form, upload supporting documentation, and submit it online. The Dean of Students shall submit a placeholder grade of "PEN" or "pending" if occurrence is during the middle of the semester. The instructor shall submit a placeholder grade of "INC" or "incomplete" if occurrence is towards the end of the semester AND the student contests or is unresponsive. The student may contest the grade sanction by appealing the course grade through the College's grade appeal procedure. Once the student has admitted the violation, s/he may contest only the severity of the grade sanction, not the dishonesty allegation itself. If the student appeals the grade, the Departmental and Senate Grade Appeals Committees should send copies of their findings to the Hunter College Academic Integrity Official.
- If the student denies the allegation of academic dishonesty, the faculty member will report that this is the student's position on the online Academic Integrity Form. The Office of Student Conduct will submit a placeholder grade of "PEN" if the occurrence is during the middle of the semester. The instructor shall submit a placeholder grade of "INC" if the occurrence is at the end of the semester and final course grades are due. The instructor must then report the alleged violation to the Office of Student Conduct (OSC) using the online academic integrity form. The OSC will then place a PEN grade as a place holder during the pending of the investigation. If the student admits or is proven responsible for violating the academic integrity policy the instructor will be notified. After which the instructor must submit a change of grade form changing the PEN grade to the final grade in the course. The matter will first be reviewed by the Academic Integrity Official who will conduct a fact finding investigation and attempt to resolve the matter. If the matter cannot be resolved then Mediation will be proposed between both parties with a third party member. If the case is not resolved through Mediation then it will be moved to an official hearing before the Faculty-Student Disciplinary Committee who will render judgment upon conclusion of the hearing. The student has the right to appeal the Committee's judgment by appealing with the President's Office.
- Students who either admit to an act of academic dishonesty or are found to have committed one by the Academic Integrity Official will receive a letter from Hunter College's Academic Integrity Official notifying them that this matter has been reported to the Dean of Students Office. When an academic integrity accusation is resolved by the Faculty-Student Disciplinary Committee, the student and faculty member will be notified of the findings.

II. Procedure for Disciplinary Sanctions

A. The Dean of Students has the right to pursue disciplinary sanctions against any student should the case deem appropriate, which includes substantial violations, if the student has prior violations or when academic sanctions were not executed because the student withdrew from the course.
III. Faculty-Student Disciplinary Committee

The purpose of the Faculty-Student Disciplinary Committee is to review evidence when an academic sanction is being sought and when the allegations of academic dishonesty are still in dispute after meetings with the Academic Integrity Official and Mediator have occurred. The Committee will proceed in the following manner:

- If the charge of academic dishonesty is denied by the student, the faculty member will advise the student that the matter has been referred to the Hunter College Academic Integrity Official, who will initiate the fact-finding process.
- If matter cannot be resolved the case may be referred to a mediator.
- The Faculty-Student Disciplinary Committee members will be selected and convened by Hunter College Academic Integrity Official to review the evidence for each case.
- The committee will deliberate in closed session (i.e., with neither student nor instructor present) and submit its findings, in writing, to the Hunter College Academic Integrity Official, who will then notify the faculty member and student. Although faculty members reserve the right to submit grades whenever they deem appropriate, they are encouraged not to submit grades for the disputed work or a final course grade until they have been notified of the committee's findings. Students may appeal the final course grade through the college's grade appeal process.

Each faculty-student disciplinary committee shall consist of two (2) faculty members or one (1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training training upon appointment and to serve in rotation as chairperson of the disciplinary committee. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

The faculty members shall be selected by lot from a panel of six elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. The HEO members shall be selected by lot from a panel of six (6) HEO appointed biennially by the president. The student members shall be selected by lot from a panel of six elected annually in an election in which all students registered at the college shall be eligible to vote. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than four(4) consecutive years.

Notwithstanding the above, in cases of sexual assault, stalking and other forms of sexual violence, the president shall designate from the panels one (1) chairperson, two (2) faculty/HEO members, and two (2) students, who shall be specially trained on an annual basis, and who shall constitute the faculty-student disciplinary committee in all such cases.

In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO or student panel by lottery.

Each academic year, the chief student affairs officer, and her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year.

Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.
IV. Clarification of the Process

All questions regarding these procedures or the College's disciplinary process should be referred to the Office of Student Conduct in the Vice President for Student Affairs and Dean of Students office (Room 1103 East, phone 212.772.4534/212.396.6484 or email at student.conduct@hunter.cuny.edu).

ACADEMIC SANCTIONS

- Reduced or “F” grade on academic exercise
- Reduced or “F” grade in course

CUNY Examples of substantial violations
These include but are not limited to:

- Forging any type of document
- Stealing an examination from faculty or a College Office
- Taking an examination for someone or having someone take it on your behalf
- Writing a paper for someone or having someone write your paper
- Purposely sabotaging another student's work that prevent his/her completion of an assignment
- The student has previously violated the policy
- Any violations made by a graduate and or professional student or a student who is pursuing professional licensure

Hunter Core Requirement - Fall 2013 to Spring 2019

(Effective Fall 2013, if you are a current Hunter student who started before fall 2013, see www.hunter.cuny.edu/academics/hunter-core-requirement for information concerning whether to "opt in" to the Hunter Core or continue with Hunter's General Education Requirements - Fall 2001 to Spring 2013 - GER)

All students who matriculate at Hunter College must fulfill the Hunter Core Requirement (Hunter Core, HCR). This is a set of courses Hunter College considers essential to the intellectual development of its undergraduates. The Hunter Core requirements and expectations are meant to support the professional and personal development of Hunter students, prepare them for advanced study, and enable them to become active participants in the world of ideas.

The Hunter Core provides students with opportunities to sharpen their essential academic skills in writing, mathematics, scientific reasoning, and critical thinking. The Hunter Core also introduces students to a spectrum of distinctive perspectives with which various academic disciplines view our world, its past, and its future.

The Hunter Core is distinguished by its emphasis on foreign language study and its encouragement of concentrated student achievement in a subject outside the student's first major. Hunter encourages all students to take an active role in planning their education, and to pursue and develop subjects of interest beyond what is required for their major.

Hunter Core

The Hunter Core includes:

- The CUNY Common Core, comprising 30 credits;
- The Hunter Focus comprising 12 credits
CUNY Common Core Requirement

consists of designated courses in:

A. English Composition consists of 2 courses English Composition 1 and 2 (6 credits)

B. Math and Quantitive Reasoning  MQR (3 credits) **

C. Life and Physical Sciences (3 credits) LPS **

D. Scientific World - SW (3 credits) **

E. Creative Expression (3 credits)

F. US Experience in Its Diversity  (3 credits)

G. World Cultures & Global Issues (3 credits)

H. Individual & Society consists of 6 credits, one course from each of the following categories: Individual and Society (Humanities), and Individual and Society (Social Sciences)

Note

- Students may take no more than two courses from one department or program to fulfill categories A through H. See CUNY Common Core by Department
- *Students who receive an "exemption" for ENGL 12000 or for a course in English Comp 2 are deemed to have fulfilled English Composition 1 or 2, respectively.
- **There are some courses in these categories that carry more than 3 credits (the "STEM variant" courses). Students who elect to take these courses may apply only three credits towards fulfilling the CUNY Common Core Requirement. — These courses, labeled STEM, may be found in three areas of the Common Core: 00000000000000, Math/Quantitative Reasoning, and Scientific World. A particular STEM variant course may appear in more than one area of the Common Core. When this occurs, students may choose which area of the Common Core they want the course to fulfill. STEM variant courses may be more than three credits. In such cases, three credits will apply to fulfilling the Common Core; all of the course's credits will apply to the major.

The Hunter Focus

Beyond the CUNY Common Core, Hunter requires students to complete 12 credits for the Hunter Focus. These credits are part of the CUNY College Option – an additional set of requirements in the baccalaureate programs that encourage students to delve more deeply in the specialties of the colleges. The Hunter focus emphasizes foreign language and concentrated study – two areas of study that highlight Hunter's current and historic focus on the liberal arts. Hunter students are expected to attain fourth-semester proficiency in a foreign language, regardless of where the learning took place. After this goal has been met, students should begin concentrated study in an area outside of their first major. The composition of the Hunter Focus will vary depending on students' language proficiency at the time of matriculation. Students who have to take a beginning language course must apply all their language credits to the Hunter Focus. Students in the Hunter College School of Nursing may fulfill their entire 12 credits of Hunter Focus by taking three "STEM variant" science courses in addition to the STEM courses used to fulfill the CUNY Common Core.

Hunter Focus in Foreign Language. The goal of the foreign language competency requirement is to help students attain cross-cultural knowledge and communicate in a language other than English. In studying foreign languages, their literatures and cultures, students acquire new perspectives on how people think, view the world, express themselves, and communicate with one another. Language study sensitizes students to the differences between their own culture
and that of others, an important factor in an interconnected and interdependent world. Students are required to complete up to 12 credits in a Foreign Language depending upon the student's language knowledge at the time of matriculation and a student's matriculation status. (See Considerations for Transfer Students below.) Students may apply only one course at each level (Elementary levels 1 and 2, Intermediate levels 3 and 4) toward the CUNY College Option. Intensive courses can be used to satisfy two levels. It is strongly recommended that students complete their foreign language study as early as possible so they can benefit from it in their college career. Foreign Language courses should be taken in consecutive semesters because gaps in language study are undesirable.

**Hunter Focus: Concentrated Study.** This requirement encourages students to begin concentrated study outside of their major. Students who have gained fourth semester language proficiency should make progress toward a minor, second major, or certificate (they will not complete such a program within Concentrated Study, but take first steps towards it). The number of credit hours that must be completed in the Concentrated Study requirement depends on a student's entry status and achievements prior to entering Hunter and ranges from 0 to 12. (See Considerations for Transfer Students below.) It is necessary for a student to indicate a minor, second major or certificate program. Credit for Concentrated Study is granted only for courses completed within that same declared course of study.

**Concurrent Course Requirements**

Hunter College requires students to take some courses that are writing intensive and some that deal with issues of Pluralism and Diversity. These courses can be part of the Hunter Core Requirement (HCR) or any major or minor requirements, or electives.

**Courses for Pluralism and Diversity.** This group of courses addresses topics that help students broaden their horizons and gain new perspectives. The Pluralism and Diversity courses are grouped into four categories (A, B, C and D) that focus on scholarship about major practical or theoretical issues that emerge from, are reflected in, or are principally derived from the historical conditions, perspectives, and/or intellectual traditions of:

A. Non-European societies, particularly those of Africa, Asia, Latin America, or those indigenous to the Americas

B. One or more of the following groups in the US: African Americans, Asian Americans, Latino Americans, and Native Americans,

C. Women and/or issues of gender or sexual orientation,

D. Europe, including ways in which pluralism and diversity have been addressed.

**Considerations for Transfer Students**

**2nd Degree Students.** Students who have earned a baccalaureate degree from an accredited institution are exempt from the Hunter Core Requirement and all concurrent requirements.

**CUNY Common Core.** All CUNY transfer students retain completion of the CUNY Common Core requirements when transferring to Hunter College. Transfer students who have earned an AA/AS degree from an accredited institution and who matriculate in fall 2013 and after will have fulfilled the CUNY Common Core requirements by obtaining the AA/AS degree.

**Hunter Focus**

All transfer students, including CUNY transfers, must complete the Hunter Focus. The number of credits required to complete the Hunter Focus varies with the number of credits transferred as indicated below:
• 12 credits of Hunter Focus for fewer than 30 credits transferred
• 9 credits of Hunter Focus for 30 or more credits transferred without an AA/AS degree*
• 6 credits of Hunter Focus for students with an AA/AS degree

*A transfer student who first matriculates in a baccalaureate program must complete 12 credits of Hunter Focus. The student can apply any "College Option" credits completed at a CUNY senior college toward the Hunter Focus.

Foreign Language. Hunter encourages all students to reach fourth-semester proficiency in a foreign language. Transfer students who have not attained fourth-semester proficiency in a foreign language at the time of transfer must apply the foreign language requirement towards the Hunter Focus. Students must either continue a language they have studied previously or begin the study of a different language at Hunter for the number of credits required by their transfer status.

Concentrated Study. Hunter encourages all students to delve deeply into another area in addition to their major by completing a minor, a second major, or a certificate program. Transfer students who have fulfilled the foreign language requirement should apply Hunter Focus courses towards a minor, second major or certificate program.

Writing Intensive. All students must take at least one course with a "W" designation from Hunter College. The number of "W" designated courses required are:

• 3 for students who transfer fewer than 31 credits
• 2 for students who transfer between 31-59 credits
• 1 for students who transfer 60 or more credits

Pluralism and Diversity. Transfer students must take courses in Pluralism and Diversity according to the schedule below:

• 4 courses for students who transfer fewer than 31 credits – one from each Group (A, B, C, and D).
• 2 courses for students who transfer 31 or more credits. These two courses must come from Groups A, B, or C and the two courses cannot come from the same Group.

Hunter Galleries

Main campus gallery: (212) 772-4991

The Hunter College Art Galleries, comprised of the Bertha and Karl Leubsdorf Gallery, The 205 Hudson Gallery, and The Artist's Institute are committed to a dynamic exhibition program that expands the classroom experience of undergraduate learning across the college. The Galleries are also integral to the graduate programs in Art and Art History, affording students the opportunity to work hands-on with faculty, guest curators, and gallery staff to develop exhibitions that encourage critical thinking, original research, and direct contact with both historical and contemporary art.

The Bertha and Karl Leubsdorf Gallery is located in the West Building of the main campus at 68th Street and Lexington Avenue and focuses on historical and scholarly exhibitions developed by faculty, students, and alumni.

The 205 Hudson Gallery is a new street level exhibition space, housed in the Studio MFA program building in Tribeca. 205 Hudson is dedicated to engaging contemporary art through diverse exhibitions, performance events, and programming, including exhibitions of graduating MFA students.

The Artist's Institute, located on the Lower East Side, was founded in 2010 by Hunter College and curator Anthony Huberman. The Artist's Institute is an experimental platform for thinking about art in the present moment, with an annual program that is divided into two six-month seasons, each of which is dedicated to the work of a single artist.

Located in the Silberman School of Social Work Building at 119th Street, The Hunter College East Harlem Art Gallery is a space for initiating partnerships between different departments and academic disciplines. The gallery
presents exhibitions and public events that foster academic collaboration at Hunter College while addressing subjects relevant to the East Harlem community.

**Hunter-Bellevue School of Nursing Administration**

**Location:**
Ida K. Lang Recital Hall

4th Floor Hunter North

The Lang Recital Hall, a 149-seat auditorium designed by the firm of Abramowitz Kingsland Schiff, opened in Spring 1995.

This state-of-the-art facility hosts jazz concerts, chamber music ensembles and film festivals and houses most of the Department of Music graduation and faculty recitals. Artists from throughout the world have performed at the Lang. Box office: (212) 772-4448; administrative office: (212) 772-4227.

Immunization Requirements

Prior to registration, the following health requirements must be met:

**Immunizations for Measles, Mumps and Rubella** New York State Public Health Law 2165 requires all students entering a post-secondary institution to provide their health services center with proof of immunity to measles, mumps and rubella. This law applies to students born on or after January 1, 1957, who are registered for 6 or more credits (or its equivalent) regardless of degree or non-degree status at a CUNY campus. Acceptable proof of immunity includes: immunization cards/records from childhood, from schools you attended previously, or from your health care provider, or a copy of a lab report showing immunity to measles, mumps and rubella.
Meningococcal Disease

Public Health Law 2167 requires institutions, including colleges and universities, to distribute information about meningococcal disease and vaccination to all students registering for 6 or more credits, whether they live on or off campus. Hunter College of the City University of New York is required to maintain a record of the following for each student: a) response to receipt of meningococcal disease and vaccine information signed by the student; b) record of meningococcal meningitis immunization within the past 10 years; OR c) acknowledgment of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student. Students can submit this information using the Health Services Immunization Form or can do so electronically through their CUNYfirst account. To learn more about meningitis and the vaccine, please consult your physician. You can also find information about the disease at http://www.cdc.gov.

Link for the Immunization Form: http://www.hunter.cuny.edu/studentservices/counseling-and-wellness/wellness/repository/files/ImmunizationRecord.pdf. The form must be returned to the Office of Health Services, Room 307 Hunter North. For updated office hours call (212) 772-4800. For further information please visit: http://www.hunter.cuny.edu/studentservices/counseling-and-wellness/wellness/immunization.

Immunizations for Measles, Mumps and Rubella (MMR)

New York State Public Health Law 2165 requires all students entering a post-secondary institution to provide their health services center with proof of immunity to measles, mumps and rubella. This law applies to students born on or after January 1, 1957, who are registered for 6 or more credits (or its equivalent) regardless of degree or non-degree status at a CUNY campus.

Acceptable proof of immunity includes:

- Immunization cards/records from childhood (signed and stamped)
- Immunization records from previously attended schools
- Signed and stamped records from health care provider, or a copy of a dated lab report (also known as titer or serology) showing positive immunity to measles, mumps and rubella.

Implementation of Policies and Procedures Concerning Sexual Assault and Other Forms of Violence Against Students

Incomplete Work in a Course

When a student for valid reason does not complete the work assigned in a course (including the final exam, papers, etc.) and in the view of the instructor still has a reasonable chance to pass the course, the student shall be given the grade INC (incomplete). The student must explain the reason to the instructor or, in the absence of the instructor, to the department chair and arrange a schedule for making up the missing coursework. These steps must be taken as soon as possible and no later than the end of the second week of the following semester. The student shall then be given the opportunity to complete the course without penalty beyond previously established penalties for lateness.

The length of time permitted for completing missing coursework remains at the discretion of the instructor and shall be indicated in writing to the student, but shall not extend beyond the end of the semester following the one in which the
course was taken. Unless the student submits the work by the date specified by the instructor, the grade will automatically become FIN on the student's permanent record. (Under certain circumstances, where the student must repeat class sessions or laboratories in a course not given during the following semester, the FIN grade may later be converted to the appropriate letter grade.)

Instructors and departments may choose to have make-up final examinations administered by the college. Such examinations will be given before Monday of the seventh week of the following semester. It is the responsibility of the student who must take an absentee examination to determine from the instructor or department whether it will be administered by the college, to file the appropriate form and to pay any required fee by the deadline specified by the college.

If the faculty member wishes to extend the deadline for the student to complete the coursework beyond one semester, the faculty member and the student must enter into a written contract clearly specifying the deadline. This contract must be written during the semester following the one in which the course was taken. The student must be aware that the INC grade will change to a FIN grade until the work is completed. The written contract must accompany the change of grade form. If a student has not filed a contract with the faculty member but still wishes to complete the work and have a FIN grade changed, the student can appeal to the Senate Grade Appeals Committee. The appeal must include the reason for failing to complete the work and must be accompanied by a supporting letter from the faculty member who issued the INC grade or, if the faculty member is no longer at the college, from the department chair. Appeals with no endorsement will be denied.

Information on Grades and Designations Not Resulting in Credit

W

A 'grade' of W is initiated by the student by "dropping" a course on CUNYfirst before the "W" deadline for withdrawal from courses. The deadline is announced every semester. The W does not affect the grade point average calculation and does not carry academic penalties. Withdrawing from a class may have serious implications for a student's financial aid eligibility.

WU

A 'grade' of WU is caused by student inaction. It is given by the instructor. The WU is given to students who

1. are on the class roster and have been verified by the instructor as having attended at least one class; and

2. have severed all ties with the course at any time during the semester, including failure to attend the final examination or other end-of-semester culminating academic assessment event (unless the syllabus explicitly states that the course requirements do not include participation in the final exam or other culminating academic assessment event); and

3. have not reached out to the instructor and been granted by the instructor alternative arrangements to complete work required for the course.

The assignment of the WU is not influenced by the question whether a student has done satisfactory or unsatisfactory work prior to severing ties with the course.

A 'grade' of WU is counted as a zero in the calculation of a student's GPA. Receiving a WU is likely to result in serious negative consequences for a student's financial aid award.

F
An **F** is given by the instructor for failing work by a student who has persisted in attending the class up to and including the final examination, even if the student's efforts were intermittent and/or earn 0 points on the grading scale. Unless the course syllabus explicitly states otherwise, participation in the final examination is required by the college.

**INC**

An **INC** grade is the result of student-instructor cooperation. It is given by the instructor. The student must confer with the instructor before the grades for the semester are submitted. The INC is given only if the instructor accepts a student's excuse for non-fulfillment of some course requirements as valid and if the instructor believes the student has a reasonable chance of passing the course. For details, see: Incomplete Work in a Course.

**NOTE:** A grade of INC will be automatically changed to **FIN** one semester after the INC was given, unless the instructor has assigned and recorded a different grade before then.

**GENERAL NOTE**

If a student feels that a grade has been assigned in error, the student may appeal the grading decision. All grade appeals should begin with a conversation with the course instructor, preferably within the first 3 weeks of the semester following the one when the grade was given. For details, see Appeals - Rules and Regulations

- Disclaimers and Statement of Rights
- Freedom of Information Law
- Equal Opportunity and Non-Discrimination Policy
- CUNY Policy on Sexual Misconduct
- CUNY Medical Withdrawal & Re-Entry Policy
- Bylaws of the Board of Trustees
- The City University of New York Policy on Acceptable Use of Computer Resources
- Notice of Non-Discrimination

---

**Instructional Computing and Information Technology Resources**

The Instructional Computing and Information Technology Department (ICIT) provides technology resources and services for students, staff and faculty. These include 1000 computers in open labs and through the Laptop Loan Program, Public Access computers, a 20-seat training facility, 250 technology equipped classrooms, and a center for online learning, to support faculty in creating and teaching hybrid and online courses. Other services accessible to staff, faculty and students include: e-mail, course management, computer training, consultation, audiovisual services, teleconferencing/videoconferencing services, telephone/voice mail services, computer networking services (on campus and off campus), software and student information services. Guidelines for access to and use of these services and facilities are posted at each facility and are subject to the rules and regulations of the college.
Hours, locations and a general description of the facilities available in each area are posted on the ICIT Web site: http://www.hunter.cuny.edu/icit

**Interdepartmental Majors**

**BA Degree** The following programs leading to the BA degree involve courses in more than one department. For details and names of advisers, see Programs of Study. In addition to the interdepartmental fields of study, the college also offers individual interdisciplinary courses in the humanities, social sciences, sciences and mathematics and health sciences.

- Archaeology
- Latin American and Caribbean Studies
- Comparative Literature
- Religion
- Human Biology
- Urban Studies
- Jewish Studies

**International Admission**

Admission of international students is based on two factors: meeting the academic criteria for admissions and English language proficiency. Although the guarantee of sufficient financial resources to meet the cost of attendance is essential to maintaining one's respective status; it does not solely determine admissions into Hunter College. For purposes of admission, an international student is defined as an applicant who currently holds a student (F-1) or Exchange visitor (J-1) visa or seeks to change such an immigration status upon enrollment. The United States Citizenship and Immigration Services (USCIS) requires documentation of financial support before approving the issuance of a F-1 or J-1 Exchange Visitor status within the United States (if the admitted student is within the United States) and the State Department reviews financial status and substantial home ties of the applicant before issuing a visa, if the admitted student is overseas.

International applicants whose primary language is not English must demonstrate a firm command of the English language by scoring a minimum of 500 or higher (for graduate level students) on the Test of English as a Foreign Language (TOEFL). No provisional admission is offered whereby a student may come to the college and spend a semester or year learning English. Applicants are responsible for the payment of all tuition and fees at the time of registration. Hunter College does not provide financial assistance to international students; they must be in a position to finance tuition, fees, room and board, insurance, books and incidental expenses. The estimated cost is $38,000 per year for undergraduate students and $43,564 and for graduate level students and is subject to change. Hunter College does not make housing arrangements for students; it is essential that students be prepared to make their own housing arrangements upon arrival.

For more information, contact the International Students Office, Hunter College, 695 Park Avenue, Room 1109 Hunter East, New York, NY 10065; telephone: (212) 772-4864; e-mail: intlss@hunter.cuny.edu. Policies governing the Office of Admissions and the International Students Office are based on policies and practices recommended by NAFSA, AACRAO and other educational organizations.

**International Admission: Criteria**
Admission of international students is based on two factors: meeting the academic criteria for admissions (see the freshman and transfer admission criteria section of the catalog) and English language proficiency.

Along with the admissions applications students educated outside of the U.S. need to submit:

- Copies of complete secondary school record
- Secondary school graduation diploma
- Any external examination certificates earned

If the documents were not issued in English, we require a word-for-word translation:

- Complete and literal (word-for-word) with no attempts to interpret or evaluate the credential
- Prepared in same format as the original document
- Typed on business or school letterhead stationery
- Signed by a translator attesting to familiarity with the foreign language

Official translations may be obtained from the following:

- Consulate or embassy of the country that is issuing the document
- Translation agency
- Immigrant or refugee association in the U.S. representing the country issuing the document
- The institution where the student studied
- Faculty member of U.S. high school, college, or university (must signify his/her academic department and rank)

Although the guarantee of sufficient financial resources to meet the cost of attendance is essential to maintaining one's respective status, it does not solely determine admissions into Hunter College. For purposes of admission, an international student is defined as an applicant who currently holds a student (F-1) or Exchange visitor (J-1) visa or seeks to change such an immigration status upon enrollment. The Student and Exchange Visitor Program (SEVP) requires documentation of financial support before approving the issuance of a F-1 or J-1 Exchange Visitor status within the United States (if the admitted student is within the United States) and the State Department reviews financial status and substantial home ties of the applicant before issuing a visa, if the admitted student is overseas.

Applicants are responsible for the payment of all tuition and fees at the time of registration. Hunter College does not provide financial assistance to international students; they must be in a position to finance tuition, fees, room and board, insurance, books and incidental expenses. The estimated cost is $41,247 per year for undergraduate students and is subject to change. Hunter College does not make housing arrangements for students; it is essential that students be prepared to make their own housing arrangements, preferably before pre-departure or upon arrival. Admitted undergraduate students may visit http://www.hunter.cuny.edu/livingathunter for more housing information.

International Students are not eligible to apply for fully online or hybrid (online and in class) programs at the College; this includes the Undergraduate RN to BSN Nursing Program.

**International Baccalaureate (IB)**

In accordance with CUNY policy, students have two ways to earn credit from an International Baccalaureate (IB) program:

- **30+ POINTS WITH AN IB DIPLOMA:** Students who have completed an IB Diploma with 30 points or higher may be awarded 30 credits (7 credits for each HL exam and 3 credits for each SL exam). See the International Baccalaureate Policy for more detailed information.
- **24-29 POINTS:** Students with 24-29 points may be awarded credits for HL (Higher Level) IB exams with a grade of "5" or better in accordance with the equivalencies in our International Baccalaureate Policy. SL (Standard Level) courses are not transferable with 29 points or less. An official IB transcript and diploma (if applicable) are required for credit review.
International Students Office (ISO)

Rooms 1109/1133 Hunter East Building
(212) 772-4864
E-mail: intiss@hunter.cuny.edu
Website: http://www.hunter.cuny.edu/studentservices/is

The International Students Office (ISO) provides vital immigration-related information to international students, including F-1 and J-1 Exchange Visitor status or visa holders, including Fulbright students and other students with questions about their statuses to assist them in learning advocacy and status maintenance skills. The ISO also advises faculty/staff on matters of F-1/J-1 employment eligibility. Since the students' academic progress is related to their respective immigration status, we refer all undergraduate international students to Academic Advising Services and graduate international students to their respective departments for educational planning for timely graduation from Hunter College.

The ISO is an important resource of immigration matters, such as the requirements for compliance with the Student Exchange and Visitors Information System (SEVIS) and the US Department of State. The ISO offers opportunities for off campus cross cultural and community engagement. The ISO issues SEVIS I-20/DS2019 forms to all newly admitted international students. It is also a strong liaison between the students and various offices within and off campus to help make the students' transition to Hunter College easier. It also provides individualized advising and holds topical small group discussions throughout the academic year, such as employment options, immigration law, tax issues, and adaptation to both the United States (U.S.) educational systems and to the U.S. We assist students with change of employment authorizations. We work closely with CUNY's Citizenship Now for matters regarding Permanent Residency and Naturalization.

We warmly welcome all students. For more information, visit the International Students Office and website.

Introduction

Return to CUNY Medical Withdrawal & Re-Entry Policy & Procedure Governing Dangerous Student Behavior

The City University of New York ("CUNY") is committed to the academic success and personal growth of its students. As part of that commitment, CUNY and its constituent campuses are responsible for providing a safe learning and working environment for students, faculty, staff and other members of the university community. Some students may, because of a medical condition, engage in behavior that presents a direct threat of harm to themselves or to others, or substantially disrupts the learning or working environment of others. In such situations, the safety and security of the campus community, including the individual student, is paramount. This policy does not replace or supersede reasonable and appropriate security and health and safety measures, such as calling 911 or taking other immediate action in case of imminent threat to life or limb.

In addition to taking action to protect the security and safety of the campus community, a college may address the student’s conduct to determine if action under this policy or under the student disciplinary process is appropriate. When a student’s conduct that directly threatens or substantially disrupts the learning or working environment of others appears to relate to a medical condition, the campus may, at its option, address the student’s conduct either in accordance with this policy, or through the student disciplinary process. If the student’s conduct constitutes a threat solely to him or herself, it should be addressed under this policy rather than the disciplinary process.

Islamic, Asian (including Chinese, Japanese, and Indian), and African
• ARTH 26000 - Islamic Art and Architecture
• ARTH 26200 - Art of East Asia: Ritual and Religion
• ARTH 26300 - Art of East Asia: Painting and Calligraphy
• ARTH 27000 - Art of Africa and Oceania
• ARTH 36100 - Special Topics Lecture in Islamic Art (W)
• ARTH 37100 - Special Topics Lecture in Asian Art (W)
• ARTH 46000 - Advanced Studies Seminar in Islamic Art (W)
• ARTH 47000 - Advanced Studies Seminar in Asian Art (W)

Italian - BA

Major

Preparation for Teaching French, Spanish or Italian Adolescent Education (grades 7-12)

Students pursuing adolescent education must complete the 30 or 36 credit major in one of these languages and, in addition, complete the course in second language acquisition (3 cr). The 23-credit pedagogical sequence in adolescent education will serve as the minor. See The School of Education section of the catalog for further information.

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

• ITAL 10100 Elementary Italian I
• ITAL 10200 Elementary Italian II
• ITAL 20100 Intermediate Italian I
• ITAL 20200 Intermediate Italian II -or- ITAL 10300 Intensive Elementary Italian
• ITAL 20300 Intensive Intermediate Italian

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Major: 30 credits

3 credits from

• ITAL 31100 Advanced Italian Grammar
• ITAL 31200 Advanced Italian Composition
• ITAL 33100 Italian Phonetics and Diction

9 credits from

• ITAL 34100 Introduction to Italian Literature from the Middle Ages to the 16th Century
• ITAL 34200 Introduction to Italian Literature from the 16th Century to the Present
• ITAL 34300 Dante's Vita Nuova and Inferno

3 credits from

• ITAL 34400 Dante's Purgatorio and Introduction to Paradiso -or- ITAL 34500 Dante's Paradiso and Major Prose Works

15 credits chosen from

• ITAL 34600 Petrarch, Boccaccio and the Literature of Humanism
ITAL 34700 16th Century Italian Literature
ITAL 34800 17th and 18th Century Literature
ITAL 34900 The Modern Italian Lyric
ITAL 35000 The Modern Italian Novel
ITAL 35100 The Modern Italian Theatre
ITAL 36000 The Middle Ages: Special Topics
ITAL 36100 The Renaissance: Special Topics
ITAL 36200 The 17th Century: Special Topics
ITAL 36300 The 18th Century: Special Topics
ITAL 36400 The 19th Century: Special Topics
ITAL 36500 The 20th Century: Special Topics
ITAL 37000 Italian Literature: Special Topics
ITAL 37500 Seminar in Italian Literary History
ITAL 49500 Independent Study in Italian Literature

Students planning to teach in grades 7-12 must also complete 3 credits in Second Language Acquisition:

ITAL 39900 Second Language Acquisition
ITAL 49500 Independent Study in Italian Literature or SEDC 21200 Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12 or SEDC 712 (see graduate catalog)

Latin and Classics courses

Classical and Oriental Studies

Overview

The Department of Classical and Oriental Studies offers programs in Arabic, Chinese, Classics, Hebrew, Japanese, and Russian. With over 20 full-time faculty and over 50 adjunct faculty, the department is able to offer nine BA degrees: Arabic, Chinese, Classical Archaeology, Classical Studies, Greek, Hebrew, Latin, Latin and Greek, and Russian. In addition, the department offers a three-year sequence in the Japanese language, and — in joint sponsorship with the Kosciuszko Foundation—a wide range of courses in Polish language, literature and culture. The department participates in several interdisciplinary programs, including Anthropology, Religion, Women and Gender Studies, Comparative Literature, Middle East Studies and Jewish Studies. All the programs of the department have as their common goal the teaching of the foreign languages and literatures, traditionally viewed as one of the cornerstones of the liberal arts curriculum. This goal is met in several ways. Each of the languages helps fulfill the 12-credit (normally four-semester) foreign-language requirement. The six-credit requirement in literature may be satisfied in part by a course in literature in the original language or by a course in literature in translation. Undergraduate majors are given a solid grounding in foreign languages, literature, and cultural studies in order to prepare them both for careers in which they will use these skills and for further study on the graduate level.

Programs Offered by the Department of Classical & Oriental Studies

- Arabic Language, Literature, and Culture Program
- Chinese Language and Literature Program
What can I do with my degree in Classical and Oriental Studies?

The programs prepare students for further studies in graduate school and professional careers in international trade, education, government service, diplomacy, private business, journalism and related fields. Careers in research, government and education use skills developed in classical studies, and a major in classics provides an excellent foundation for many professional programs such as law. Majors in our programs find employment in museums, archives, U.S. governmental agencies, the United Nations, broadcasting, banking, international commerce, education, library services, college and high school teaching, and other fields.

Classical and Oriental Studies Faculty

ARB 10100 - Beginning Arabic I

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Foreign Language Requirement

3 hrs
3 cr.
ARB 10200 - Beginning Arabic II

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

This class is not for native speakers.

prereq: ARB 10100 or permission of Head of Arabic Program.
3 hrs
3 cr.

ARB 14800 - Beginning Arabic for Heritage Speakers

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head
3 hrs
3 cr.

ARB 14900 - Spoken Egyptian Arabic

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

prereq: ARB 10200 and permission of instructor
3 hours
3 credits

ARB 15000 - Introduction to Modern Arab Cultures

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
P/D A
This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs
3 cr.

ARB 20000 - Topics in Arabic Literature and Culture

This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.
prereq: ENGL 12000 or equivalent
3 hrs.
3 cr.

ARB 20100 - Intermediate Arabic I

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.
prereq: ARB 10200 or equiv.
3 hrs
3 cr.

ARB 20200 - Intermediate Arabic II

Continuation of ARB 20100.
prereq: ARB 20100 or equiv.
3 hrs
3 cr.

ARB 24800 - Intermediate Arabic for Heritage Speakers

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: ARB 14800 or Arabic Program head's permission
3 hrs
3 cr.

ARB 24900 - Special Topics in Arabic Dialects

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

prereq: ARB 20200
3 hrs
3 cr.

ARB 25000 - The Arab Novel (in translation) (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.
prereq: ENG 22000 or equiv.
ARB 25100 - Arab Cinema (in translation)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

prereq: ENGL 12000 or equivalent
3 hrs
3 credits

ARB 25200 - Literatures from the Islamic World (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

prereq: ENGL 12000 or equivalent
3 hrs
3 credits

ARB 25300 - Literatures and Cultures of Muslim Spain (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.

prereq: ENGL 12000 or equivalent
3 hrs
3 credits

ARB 25400 - The Arabian Nights East and West (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.

** prerequisites or corequisites:** ENGL 12000 or equivalent

**3 hours**  
**3 credits**

**ARB 25500 - Modern Palestinian Culture**

**Hunter Core**  
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**  
PD/A

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

**3 hrs**  
**3 cr.**

**ARB 25600 - Modern Arab Theatre**

**Hunter Core**  
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**  
PD/A

Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.

**3 hrs**  
**3 cr.**

**ARB 25700 - Language and Culture in Contemporary North Africa**

**Pluralism and Diversity**  
P/D A

**GER**  
World Cultures and Global Issues (WCGI)

North Africa (Maghreb) is often described as a crossroads of many cultures - Arab, Berber, African, European, and others. Over the course of this semester, we will discuss important issues facing this region, including democratic reform efforts both before and following the Arab spring, Berber language movements and other language debates, colonial and post-colonial struggles, and social and cultural debates surrounding gender and religion. Through readings of key literary, historical, political, and cultural texts, as well as viewing important documentary and fictional film productions, we will examine this fascinating region from multiple vantage points.

**prereq: ENGL 12000**  
**3 hrs**  
**3 cr.**
ARB 30000 - Problems in Arabic Literature and Culture

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

*prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.*

ARB 30100 - Advanced Arabic I

Emphasis on increased proficiency in reading, speaking and writing Arabic

*prereq: ARB 20200 or equiv.*

3 hrs
3 cr.

ARB 30200 - Advanced Arabic II

Continuation of ARB 30100

*prereq: ARB 30100 or equiv.*

3 hrs
3 cr.

ARB 40100 - Focused Arabic Study for Advanced Students

**Pluralism and Diversity**
P/D A

A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

*prereq: ARB 30200*

3 hrs
3 cr.

ARB 49000 - The Arabic Senior Capstone

This capstone course is intended to have students integrate and synthesize the knowledge of the Arab world that they have developed through previous coursework into a final project in Arabic. Projects may include: academic papers synthesizing primary and secondary sources; artistic and/or documentary videos; source or archival surveys; annotated bibliographies; live and/or recorded artistic performances; exhibitions/installations; literary or cultural criticism; feature-length journalism; reports on services; websites or computer applications. The final project will evaluated mainly on the basis of the level, range, and linguistic accuracy of the Arabic that is used in it.

*prereq: ARB 15000 and one 200-level ARB course*

*coreq: ARB 40100*

3 hrs
3 cr.
ARB 49801, 49802, 49803 - Internship in Arab Studies

**Pluralism and Diversity**

PD/A

This course will give students real-world experience with Arab/Middle East-related organizations where they can apply their academic and linguistic experience, interact with and serve Arab communities, expand their professional network, and develop skills relevant to future professional jobs. This course may be taken for a maximum total of 6 credits.

**prereq:** Departmental permission

1-3

**Pluralism and Diversity**
PD/A
Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi.

*prereq: CHIN 30400 or equiv.*

3 hrs

3 cr.

**CHIN 31600 - Introduction to Business Translation (Chinese – English)**

This course introduces a broad scope of language support services pertaining to the business environment, specifically, to a variety of written documents and face-to-face verbal situations that call for translation between Chinese and English—from official stationery, daily correspondences, and meetings to press releases, press conferences, advertising copies, product manuals, and trade events. Students will learn to analyze source documents in real world indicators of the project in question: the client (commissioner of the work), targeted audience, purpose of document, and context of use; students will practice handling documents as an in-house language support staff, providing sight or summary translation, or general interpreting between Chinese and English in the context of business meetings. Through class discussions and practice, principles and approaches will emerge from a survey of key industry drivers of Chinese/English translation in real estate development, tourism, entertainment, digital gaming, and the art market. Students will complete a minimum of 6 short translation projects (300-400 words each) and 3 interpreting scenarios (performed in role-play with a written post analysis) based on written texts that they have translated. As a final project, students will orally present a study of a China- or Taiwan-based commercial website, identifying how and what parts of the site could be improved for the global market.

*prereq: CHIN 20200*

3 hrs

3 cr.

**CHIN 31700 - Community Interpreting and Sight Translation, Chinese – English**

This course provides a foundational skill-based grounding for the community interpreter who orally translates between English and Mandarin Chinese in both directions. This course will facilitate interpreting practice in a wide array of public, community, and commercial settings—from the adoption interview, real-estate closing, and arbitration proceedings to the pre-trial deposition and parent-teacher conference; the course will also emphasize sight translation, the oral translation of written texts, as a fundamental skill in community interpreting. As part of an experiential learning approach, students will role play and constitute their own "scenarios,“ practice self- and peer-assessment, and learn the multi-faceted process of interpreting, including note-taking, listening, voice production, the use of verbal and non-verbal cues, memory training, and paralinguistic applications. The course will survey the role of community interpreting in the US context addressing key sectors including healthcare, public education, social services, and the criminal justice and court system.

Students will practice weekly interpreting using online or improvised role-play materials. Through the course students will produce a minimum of six peer/self-assessments of recorded in-class interpreting exercises based on role-played scenarios; as a mid-term project, students will produce a high-level demonstration of formal interpreting (as in an official meeting) and submit this work to peer assessment; as a final project, students will make an analytical case study of a simulated interpreting assignment illustrating the multi-faceted role of the community interpreter.
CHIN 31800 - Intercultural and Interlingual Discourse in Chinese & English

This course addresses the structural and cultural aspects of language use with focus on dual-language communication involving Chinese and English. Interlingually, the course will explore given structural differences between Chinese and English, including aspects of speech habits (phonology), word-formation (morphology), vocabulary (lexicon), phraseology, and sentence structure (syntax); interculturally, the course will examine how dual-language speakers (and translators) negotiate and shape Chinese and English in the dynamic of time-and-place communication, including the navigation of different discourse styles, conventions governing idiom, coherence, or logic, and assumptions about gender relations, and power and status that determine who speaks when, who gets interrupted, and how rhetoric and voice are expressed in code switching and mixing between Chinese and English. In identifying rule-governed variance and strategies used to mediate differences in communication, students will also develop an articulate understanding of how the two languages function in their separate and yet intertwined evolution.

Students will constitute through role play a range of dual-language "scenarios" for oral practice and analysis; for close textual study and translation practice, students will work with a variety of English and Chinese text types—speech (script) and prose of different genres from the technical, and journalistic to modern literary writing. Students will produce a minimum of 4 oral scenario evaluations and 4 comparative analyses of written texts. These written papers will be 600-800 words based on analysis of 5-10 min oral materials or 800-1200 word written texts.

CHIN 35500 - Classical Chinese Fiction in English Translation (W)

Pluralism and Diversity
PD/A
GER
3/A

Introduction to Chinese fictional writings from early times to 19th century, e.g., Dream of the Red Chamber, Monkey, All Men Are Brothers, Romance of the Three Kingdoms.

CHIN 35700 - Chinese Poetry in English Translation (W)

Pluralism and Diversity
PD/A
GER
3/A

Major poets from the earliest times to the present day, with emphasis on the Tang period.
CHIN 39900 - Second Language Acquisition

A survey of issues and approaches to second language acquisition. For students planning to teach languages other than English in grades 7-12.

prereq: at least three courses at the 300 level in the language, ENGL 12000

3 hrs

3 cr.

CHIN 40100 - Advanced Studies in Chinese Literature

Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation.

prereq: CHIN 30200 or equiv, perm chair

3 hrs

3 cr.

CHIN 40200 - Independent Study in Chinese Literature

Independent study and research in Chinese literature under supervision of a faculty member.

For majors only.

prereq: CHIN 40100, perm chair

3 cr.

JPN 25100 - Japanese Culture Before 1600

Hunter Core
Individual and Society - Humanities (I&S H)
Pluralism and Diversity
PD/A
GER
2/C

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).
**JPN 25200 - Japanese Culture Since 1600**

**Pluralism and Diversity**  
**PD/A**  
**GER**  
**2/C**

This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures – that of the Japanese and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions that are celebrated today. Art, literature, and social reform will also play important roles throughout the semester.

**prereq:** ENGL 120  
**3 hrs**  
**3 cr**

**JPN 26100 - Special Topics in Japanese Culture**

**Pluralism and Diversity**  
**PD/A**  
**GER**  
**2/C**

Examination of specific areas of classical or contemporary Japanese culture, such as film or literature, and the economic, political, and social conditions that shaped them.

**prereq or coreq:** ENGL 12000  
**3 hrs**  
**3 cr**

**JPN 27100 - Japanese Reading: Recitation and Comprehension**

This course is targeted at students looking to strengthen their skills in reading and comprehension of Japanese books and periodicals. Additionally, reading aloud will be required in order to improve students' pronunciation and intonation.

**prereq:** JPN 20100 (Intermediate Japanese I) or permission from the instructor  
**3 hrs**  
**3 cr**

**JPN 30100 - Advanced Japanese I**

Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.

**prereq:** JPN 20200 or equiv.  
**3 hrs**  
**3 cr**
JPN 30200 - Advanced Japanese II

Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.

_prereq: JPN 30100 or equiv._

3 hrs
3 cr.

JPN 30300 - Special Topics in Japanese Culture

An in-depth examination of the key figures, social circumstances, politics, and various artistic forms that are integral to understanding Japan's traditions and culture.

_prereq: ENGL 12000 and one 200- or 300-level JPN course

3 hrs
3 cr.

JPN 30300 - Special Topics In Traditional Japanese Culture

An in-depth examination of the key figures, social circumstances, politics, and various artistic forms that are integral to understanding Japan's traditions and culture.

_prereq: ENGL 12000 and one 200 or 300 level JPN course

3 hrs
3 cr.

JPN 30400 - Special Topics in Japanese Language

Building on the foundational knowledge of grammar and writing taught in Japanese 10100-20200, this course will teach students ways to apply that knowledge to different areas including Japanese business, literature, news, and media. A primary aim of this course is to help students integrate and apply previous knowledge in real world contexts.

_prereq: JPN 20200

3 hrs.
3 cr.

JPN 35100 - Advanced Japanese Conversation

This course is designed for students looking to gain fluency in speaking Japanese in formal and informal situations. Speaking regularly in class is expected. Kanji radicals will also be covered.

_prereq: JPN 20200 (intermediate Japanese II) or perm instructor

3 hrs
3 cr.

JPN 40300 - Special Topics In Contemporary Japanese Culture

An in-depth examination of Japanese culture from 1900 to the present. Utilizing Japanese cultural theory, plays, manga, film, and performance writing, this course will examine the relationship of contemporary Japanese culture to shifts in the arenas of arts, society, economy, and politics.

_prereq: ENGL 12000 and one 200- or 300-level JPN course
JPN 40400 - Advanced Special Topics in Japanese Language

This course offers an in-depth examination and analysis of the Japanese language through topics such as linguistics, translation, and pedagogy. All of the topics offered in this course are aimed to equip students with practical tools to understand and analyze various topics related to the Japanese language with the aim of use after graduation for employment, graduate studies, and/or study abroad.

**prereq or coreq:** Any JPN 300 level class

| 3 hrs | 3 cr. |

JPN 42100 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.

**prereq:** Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.

| 1 hr | 1 cr. |

JPN 42101 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.

RUSS 27100 - East European Cinema (W)

Pluralism and Diversity
PD/ D

The ways in which East European filmmakers have used the medium of cinema to explore history, culture, politics, and social issues prevalent in their respective societies, starting with the immediate post-World War II period and covering both the Communist era and post-Communist period. By the end of the course students will have acquired critical tools to provide an informed verbal and written analysis of the films and discuss how various aesthetic and ideological approaches to filmmaking inform the cinema practice over time. The course will combine screening of East European films and class discussion of issues raised in these films. All students are expected to complete the assigned readings of chapters in history books and other material prior to each class and print out questionnaires for class discussions posted on the course blackboard after the film screenings. Informed class participation is strongly encouraged and will positively affect your final term grade.

prereq: ENGL 12000. The exams in this course consist of essay writing.

*prereq: RUSS 20200 or equiv.*

3 hrs

3 cr.

**RUSS 49800 - Internship in Russian and Slavic Studies**

Students who enroll in the course can work in corporations, government agencies and non-profit organizations. In addition to gaining work-related skills, students develop contacts for future employment and acquire job-related experience. No more than 6 total internship credits can be taken. 3 credits count toward Russian major or minor.

*prereq: Russian 20200 or an equivalent, or by permission of the head of the program; ENGL 12000*

3 cr.
UKR 30000 - Independent Study in Ukrainian Language and Literature

3 hrs
3 cr.

**Learning Community**

First-year students entering in the fall semester begin their college careers by enrolling in a cluster of courses called a Learning Community. Each Learning Community consists of four or five introductory-level courses designed to introduce students to areas of study or majors offered at the college. By enrolling in and completing these courses, first year students begin to explore potential areas of study as well as completing some of the Hunter Core courses needed to fulfill degree requirements for graduation. Additionally, since small groups of students are enrolled in many of the same course sections, these Learning Communities are designed to bring students together and make connections with peers who share their learning experiences and academic interests. Participation in a Learning Community does not limit a student's future area of study and can be tailored to fit a student's educational history.

**Liberal Arts and Sciences Test (LAST)**

Students should register to take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations during their junior year. Students will not be allowed to enroll in student teaching until their scores on the LAST have been received by the School of Education. Students who do not pass the LAST at least partly because of low scores on subtest 4 and/or 5 must enroll in a college writing course before being allowed to register for any additional courses.

**Licensing and Accreditation**

Hunter-Bellevue Baccalaureate graduates are prepared to practice as generalist nurses in health care settings. Graduates from the Generic and Accelerated 2nd Degree Programs are eligible to take the National Council Licensing Examination for Registered Nurses (NCLEX-RN). The program also provides a foundation for graduate study which also is offered at the School of Nursing. Graduates of the advanced practice nursing programs are eligible to take the certification examinations for nurse practitioners and clinical nurse specialist.

**Macaulay Honors College at Hunter College**

Graduating high school seniors and others who have not yet attended college may apply to the Macaulay Honors College at Hunter College. The mission of this highly competitive program is to inspire and prepare outstanding leaders to confront and solve the social, economic, cultural, and scientific challenges of New York City and the world. Accepted students take a series of interdisciplinary seminars focused on New York City, and work closely with Honors Advisors in order to learn about and access the diverse resources of CUNY. Generous financial support is provided, allowing students to concentrate on their studies and carefully selected co-curricular activities. For further information, call the Macaulay Honors College office at (212) 650-3556 or see the website: http://www.hunter.cuny.edu/honorscollege.

**Manhattan/Hunter College Science High School**

The Manhattan/Hunter Science High School, located on Amsterdam Avenue at 66th Street, provides instruction for grades 9 through 12. This science high school is grounded in the belief that individuals are better prepared to face life's
challenges when given the proper tools. Science offers the lens through which we may see, explore and meet the future. The New York City Department of Education and Hunter College have joined to create a school that provides an enriched, comprehensive college preparatory curriculum with a focus on science and the integration of science and the scientific method into all subject areas.

Mathematics and Statistics

Return to: Faculty of the School of Arts and Sciences

Ara Basmajian, Professor, Mathematics and Statistics; BA Queens, MA, PhD SUNY (Stony Brook)

Martin Bendersky, Professor, Mathematics and Statistics; BA City College, PhD California (Berkeley)

Patrick Burke, Doctoral Lecturer, Mathematics and Statistics; BS Duquesne, MA Pittsburgh, PhD Columbia

Barry Cherkas, Professor and Chair, Mathematics and Statistics; BS Worcester Polytech., MA, PhD Georgetown

Daniel S. Chess, Associate Professor, Mathematics and Statistics; AB Harvard, PhD Princeton

Richard Churchill, Professor, Mathematics and Statistics; BA George Washington, MS, MA, PhD Wisconsin (Madison)

Sandra Clarkson, Professor, Mathematics and Statistics; BS North Georgia, MEd, EdD Georgia
Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA

This concentration constitutes a mathematics major for students in the Quality Urban Elementary School Teacher (QUEST) program. QUEST students majoring in mathematics are not exempt from the MATH 10400 (STEM)/MATH 10500 requirement. To enter this major, the student should have completed one semester of calculus (MATH 15000 (STEM) or the equivalent). The specified collateral major is Childhood Education. This mathematics major consists of at least 32 credits of coursework: 20 credits of major core curriculum courses and at least 12 additional credits, as described below.

The student should consult the School of Education for the sequence of teacher education courses in the Childhood Education (QUEST) major.

Major Core Curriculum (20 credits)

- MATH 15400 An Introduction to Symbolic Computation
- MATH 15500 (STEM) Calculus II
- MATH 15600 Introduction to Mathematical Proof Workshop
- MATH 16000 Matrix Algebra
- MATH 25000 Calculus III
- MATH 26000 Linear Algebra
• STAT 21300 (STEM) Introduction to Applied Statistics

Additional Required Courses (at least 12 credits)

• STAT 21200 Discrete Probability
• STAT 22000 Statistical Analysis in Forensics

Two additional courses approved by a departmental adviser

Mathematics Placement Test

The Mathematics Placement Test is an untimed, multiple choice, computer-based test composed of four sections: Pre-Algebra, Algebra, College Algebra and Trigonometry. Starting with algebra, the test covers progressively advanced topics with placement into more advanced mathematics or mathematics-related courses. Students must take the Math Placement Test before they may register for math, science and certain liberal arts courses at Hunter College. SAT, ACT and New York State Regents test scores do not exempt a student from this test. Test results will be used to place students appropriately in coursework at Hunter College. The exam does not affect acceptance to Hunter College. Students may only take this exam one time throughout the City University of New York (CUNY).

The CUNY Assessment Test (CAT) and Mathematics Placement Test are administered in the Hunter College Testing Center, Room 150 Hunter North. Visit the Hunter College Testing Center's website at https://www.hunter.cuny.edu/testingcenter for sample questions, related information, as well as available dates and times to take examinations. Inquiries pertaining to testing at Hunter College may be addressed by calling the Testing Center at 212-772-4868 or sending an email to testing@hunter.cuny.edu.

Mathematics Track (34-50 credits)

Calculus Sequence (0-17 credits)

• MATH 101EN - Algebra for College Students - Enhanced
  - or -

• MATH 10100 - Algebra for College Students

• MATH 10150 - Mastery of Symbolic Computation

• MATH 12400 (STEM) - College Algebra and Trigonometry
  - or -

• MATH 12500 (STEM) - Precalculus
  - or -

• MATH 12550 (STEM) - Precalculus with Workshop

• MATH 14000 - Mathematical Reasoning Workshop unless students earn a grade of B- or above in MATH 12550
• MATH 15000 (STEM) - Calculus I
• MATH 15500 (STEM) - Calculus II

Other Required Math Courses (24 credits)
Elective Courses (9 credits)

The student must complete three 3-credit approved elective courses. The elective courses must be chosen from the 300- or 400-level courses in mathematics or statistics listed by the department. Factors affecting the choice of courses will include the student's career goals (preparation for graduate study; education; careers in business, government service or industry), the student's other major, where applicable, and the availability of courses due to the course rotation schedule. A 300-level course may be replaced by a graduate level course approved by a departmental adviser.

Note that students who switch from the BA in Adolescent Mathematics Education, Grades 7-12 to the BA in Mathematics will need to fulfill the Symbolic Computation Proficiency Requirement.

Mathematics-BA

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

- MATH 12500 (STEM) Precalculus  (prereq to MATH 15000)
- MATH 15000 (STEM) Calculus I
- MATH 15500 (STEM) Calculus II

Hunter Core Requirement

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Major

To enter the standard Mathematics Major, the student should have completed the Foundational Courses of one year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent). The major consists of at least 33
credits of coursework: 24 credits of core curriculum courses and at least 9 credits of advanced elective courses chosen by students according to their career plans. Proficiency in symbolic computation is also required.

**Major Core Curriculum (24)**

- MATH 15600 Introduction to Mathematical Proof Workshop
- MATH 25000 Calculus III
- MATH 25400 Ordinary Differential Equations
- MATH 25500 Vector Analysis
- MATH 26000 Linear Algebra
- MATH 31100 Abstract Algebra I
- MATH 35100 Mathematical Analysis I
- STAT 21300 (STEM) Introduction to Applied Statistics -or- STAT 31100 Probability Theory

**Elective Courses**

The student must complete three 3-credit approved elective courses. The elective courses must be chosen from the 300- or 400-level courses in mathematics or statistics listed by the department. Factors affecting the choice of courses will include the student's career goals (preparation for graduate study; education; careers in business, government service or industry), the student's other major, where applicable, and the availability of courses due to the course rotation schedule. A 300-level course may be replaced by a graduate level course approved by a departmental advisor.

**Symbolic Computation Proficiency Requirement**

As a requirement for graduation with a BA in Mathematics, students must demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of

- MATH 12600 Precalculus Technology Laboratory
- MATH 15400 An Introduction to Symbolic Computation
- MATH 38500 Numerical Methods I

b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)

**Graduate Requirements**

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. **Algebra Requirement**

- MATH 72100 - Modern Algebra I and at least one of MATH 72200 - Modern Algebra II or MATH 72500 - Advanced Linear Algebra

2. **Analysis Requirement**

- MATH 74600 - Theory of Functions of a Real Variable I and at least one of MATH 74200 - Analytic Functions or MATH 74700 - Theory of Functions of a Real Variable II

3. **Geometry and Topology Requirement**

- at least one of MATH 75100 - General Topology or MATH 75000 - Calculus on Manifolds

4. **Elective Course Requirement (15 credits)**

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department's course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.
5. Written comprehensive examination

Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Mathematics: Pure Mathematics - MA

Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in mathematics. But there are always several students with an undergraduate degree in a related topic and a few whose undergraduate background is completely unrelated. In both of these cases, the students filled out their mathematics background prior to applying for admissions.

Students use this program for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Admission Requirements for the MA in Pure Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. The Department's requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement

- MATH 72100 - Modern Algebra I
- and at least one of
  - MATH 72200 - Modern Algebra II
  - or
  - MATH 72500 - Advanced Linear Algebra
2. Analysis Requirement

- MATH 74600 - Theory of Functions of a Real Variable I
- and at least one of
  - MATH 74200 - Analytic Functions
  - or
  - MATH 74700 - Theory of Functions of a Real Variable II

3. Geometry and Topology Requirement

- at least one of
  - MATH 75100 - General Topology
  - or
  - MATH 75000 - Calculus on Manifolds

4. Elective Course Requirement (15 credits)

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department's course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

5. Written comprehensive examination

Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Note

For further information on the MA in Pure Mathematics, please contact Professor John Loustau: jloustau@msn.com.

Medical Laboratory Sciences

Return to: Faculty of the School of Arts and Sciences

Steven Einheber, Associate Professor and Chair, Medical Laboratory Sciences: BS George Washington; PhD Cornell

Chad Euler, Assistant Professor, Medical Laboratory Sciences: BS Vermont, PhD Rockefeller

Mukhtar Mahajan, Doctoral Lecturer, Medical Laboratory Sciences: MS University of Kashmir, India, PhD Indian Institute of Science

Shahana Mahajan, Associate Professor, Medical Laboratory Sciences: MS University of Hyderabad, India; PhD Indian Institute of Science

Robert Raffaniello, Associate Professor, Medical Laboratory Sciences; BS College of Staten Island; MS LIU; PhD NYU
Meningococcal Meningitis Disease

Public Health Law 2167 requires institutions, including colleges and universities, to distribute information about meningococcal disease and vaccination to all students registering for 6 or more credits, whether they live on or off campus. Hunter College of the City University of New York is required to maintain a record of the following for each student:

a) Response to receipt of meningococcal disease and vaccine information signed by the student or student's parent or guardian (if student is under 18 years old)

b) Record of meningococcal meningitis immunization within the past 5 years; OR

c) Acknowledgment of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student. Students can submit this information electronically through their CUNYfirst account or by completing Parts 1 and 3 of the Immunization Records office Immunization Form. To learn more about meningitis and the vaccine, please consult physician using the Health Services Immunization Form or can do so electronically through their CUNYfirst account. To learn more about meningitis and the vaccine, please consult physician. You can also find information about the disease at http://www.cdc.gov.

Link for the Immunization Form: The form must be returned to the Immunizations Records Office, Room 307 Hunter North. For updated office hours call (212) 772-4800 or email wellness@hunter.cuny.edu. For further information please visit: health services.

Modern: 19th, 20th and 21st century (including Modern Latin America)

- ARTH 24300 - Eighteenth-Century Art
- ARTH 24400 - Neo-Classicism and Romanticism: the Age of Revolution, 1789-1848
- ARTH 24600 - American Art 1760-1900
- ARTH 24700 - Modern Art in Latin American (until c. 1945)
- ARTH 24900 - Twentieth-Century Art I
- ARTH 25000 - Twentieth-Century Art II
- ARTH 25100 - Contemporary Art
- ARTH 25500 - Modern Architecture I (1850-1950)
- ARTH 25600 - Modern Architecture II (from 1950 until today)
- ARTH 25700 - Postwar and Contemporary Art in Latin America
- ARTH 35100 - Special Topics Lecture in Modern Art (W)
- ARTH 45000 - Advanced Studies Seminar in Modern Art (W)

Music 42-Credit Major (BA)

This degree is designed for students planning to pursue professional careers in music. It provides basic training in all areas of music and serves as a foundation for graduate study of any aspect of the field.

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

- ENGL 12000 Expository Writing

Music BA-42-credit Major

Music history:

- MUSHL 20100 Introduction to Music Research
- MUSHL 20500 Music History I
- MUSHL 20600 Music History II (W)
- MUSHL 30500 Music History III (W)
And any other 3-credit MUSHL course at the 300-level

**Music theory:**

- MUSTH 20100 Introduction to Music Technology
- MUSTH 22000 Music Theory I
- MUSTH 22100 Music Theory II
- MUSTH 23000 Musicianship I
- MUSTH 23100 Musicianship II
- MUSTH 32000 Music Theory III
- MUSTH 33000 Musicianship III
and any other 3-credit MUSTH course at the 300-level

**Performance:**

2 credits in

- MUSPF 40100 Individual Instruction in Instrument or Voice

2 credits in large ensembles

- MUSPF 22100 College Choir

2 credits in performance electives

- MUSPF 22100 College Choir
- MUSPF 24900 Jazz Ensemble
- MUSPF 25000 Jazz and Popular Music Combos
- MUSPF 25100 Jazz Vocal Workshop Ensemble
- MUSPF 35500 Chamber Singers
- MUSPF 35500 Chamber Music Workshop
- MUSPF 36500 Topics in Piano Performance
- MUSPF 36900 Topics in Vocal Performance or MUSPF 40100 Individual Instruction in Instrument or Voice

**Electives:**

4 credits in music courses above the 100-level

**Piano Proficiency Requirement**

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

**Graduate Curriculum**

MUS 64100, MUS 64300, MUS 64500, MUS 64700, MUS 64900, MUS 65100, MUS 72400, MUS 75100, MUS 75200, MUS 77900, 3 cr. Music elective chosen in consultation with graduate adviser. (For course descriptions, see graduate catalog)

**Music Bachelor's Degrees**

**Music**
Overview

The Music Department offers students the chance to explore musical expression through performance and academic study. Opportunities to learn from some of the best theorists, musicologists and ethnomusicologists in the field exist alongside exciting performance opportunities for every playing and singing ability. All undergraduate music majors include training in performance, aural skills, music theory, and music history, in the context of a strong liberal-arts degree program. Many other subjects, including composition, arranging, computer music, and ethnomusicology are available as electives. The undergraduate programs provide both the foundation for further study of any area of music and a liberal-arts background that can serve as a basis for careers in other fields.

Our ensembles include College Choir, Chamber Singers, Opera, Jazz Vocal Workshop, Jazz Ensemble, Jazz and Popular Music Combos, Chamber Music, and the Hunter Symphony. The BA degree can be completed evenings or days. In addition, the department sponsors numerous extracurricular events, including concerts, lectures, and master classes. Private lessons in instruments and voice are provided to all performance majors and many other music majors by a distinguished roster of performance teachers. Financial aid is available to qualified performance majors and other majors who need to study with private teachers not on the staff.

What can I do with my degree in Music?

Graduates of the department go on to a variety of careers in music and beyond. Graduates of the BA/MA dual degree program in Music/Music Teacher Education Pre-K-12 - BA/MA are qualified to teach in the public elementary and high schools of New York State.

Programs and Courses

Programs and Courses in Music

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Graduate Study

Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

Department Office:

416 North
(212)772-5020
fax: (212)772-5022
Web site: http://www.hunter.cuny.edu/music
E-mail: music@hunter.cuny.edu

Chair:
Minor in Music

The music minor consists of 15 credits in music: MUSTH 10100; MUSHL 10100 or MUSHL 10700; one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher. Prospective minors who have already mastered the material taught in the required 100-level courses (MUSTH 10100 and/or MUSHL 10100 or 10700) may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see Music 25-Credit Major - BA). Music minors must substitute more advanced courses in any area of music study, which may include private lessons and ensembles, for the courses from which they are exempt. PLEASE NOTE: Music minors who wish to take private lessons for credit (MUSPF 40100) must first pass both the performance audition and music theory portions of the entrance examination.

Music - BMus

This degree is designed for students planning to pursue careers as professional performers of music or as teachers of music performance. It provides intensive instruction in the student's instrument or voice; solid training in music history and theory; and a broad, liberal arts education. Admission to this program is conditional on passing an audition (preferably before the student enters college) demonstrating a high level of skill in performance.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses Required for the Major (60 cr.)

Music history:
MUSHL 20100 - Introduction to Music Research

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.
coreq: MUSHL 20500
prereq or coreq: ENGL 12000
1 hr
1 cr.
offered fall

MUSHL 20500 - Music History I

Pluralism and Diversity
PD/D
For music majors. Survey of the history of music in the European tradition to 1600.
prereq: elementary knowledge of music history and literature, demonstrated by dept. exam
coreq: MUSHL 20100
prereq or coreq: MUSTH 22000, 23000, ENGL 12000, perm dept.
3 hrs
3 cr.
offered fall

MUSHL 20600 - Music History II (W)

Pluralism and Diversity
PD/D
For music majors. Continuation of MUSHL 20500. Survey of the history of music in the European tradition from 1600 to 1800.
prereq: MUSHL 20100, 20500, ENGL 12000
prereq or coreq: MUSTH 22100, 23100
3 hrs
3 cr.
offered spring

MUSHL 30500 - Music History III (W)

Pluralism and Diversity
PD/D
Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.
prereq: MUSHL 20600, MUSTH 22100, 23100
3 hrs
3 cr.
offered fall
and any other 3-credit MUSHL course at the 300-level

Music theory:

MUSTH 20100 - Introduction to Music Technology
An introduction to basic music technology skills: music notation software, MIDI sequencing, and digital audio editing.

**prereq or coreq:** prereqs: MUSTH 22000 and 23000, or perm dept.
1 hr
1 cr.
offered spring

**MUSTH 22000 - Music Theory I**

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

**prereq:** ability to read music as demonstrated by dept. exam, perm dept.

**coreq:** MUSTH 23000
3 hrs
3 cr.
offered fall

**MUSTH 22100 - Music Theory II**

Continuation of MUSTH 22000.

**prereq:** MUSTH 22000

**coreq:** MUSTH 23100
3 hrs
3 cr.
offered spring

**MUSTH 23000 - Musicianship I**

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.

**coreq:** MUSTH 22000
3 hrs
2 cr.
offered fall

**MUSTH 23100 - Musicianship II**

Continuation of MUSTH 23000.

**prereq:** MUSTH 23000

**coreq:** MUSTH 22100
3 hrs
2 cr.
offered spring

**MUSTH 32000 - Music Theory III**

Intermediate-level study of melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

**prereq:** MUSTH 20100, MUSTH 22100

**coreq:** MUSTH 33000
3 hrs
3 cr.
offered fall
MUSTH 33000 - Musicianship III

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.

prereq: MUSTH 23100
coreq: MUSTH 32000
3 hrs
2 cr.
offered fall

and any other 3-credit MUSTH course at the 300-level

Private lessons:

MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

prereq: perm dept.
1 hr
3 cr.

Performance ensembles:

For instrumentalists - 6 credits in instrumental ensembles

Choose 6 credits from the following:

MUSPF 23100 - Hunter Symphony

Rehearsal and performance of orchestral works. May be taken 8 times.

prereq: audition, perm instr.
3 hrs
1 cr.

MUSPF 24900 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

2 hrs
1 cr.

MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

prereq: audition, perm instr.
2 hrs
1 cr.
MUSPF 25000 - Jazz and Popular Music Combos

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

*prereq or coreq: audition, dept. permission required*

2 hrs
1 cr.

MUSPF 36500 - Topics in Piano Performance

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

*coreq: MUSPF 40100 or 43100*

2 hrs
1 cr.

For singers

6 credits in vocal ensembles

MUSPF 22100 - College Choir

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs
1 cr.

MUSPF 25100 - Jazz Vocal Workshop Ensemble

Jazz performance and improvisation. May be taken 6 times.

*prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition*

2 hrs
1 cr.

MUSPF 35300 - Chamber Singers

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

*prereq: audition, perm instr.*

2 hrs
1 cr.

MUSPF 36900 - Topics in Vocal Performance

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

*prereq: ENGL 12000*
Electives:

- 4 credits in music courses above the 100-level.

Recital:

- A senior recital, for which no credit is given, is also required.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

Degree Map for Music 60 cr. BMus

Music 25-Credit Major - BA

This degree is designed for students who want to study music in the context of a general liberal arts education, but who do not plan to pursue careers in music. It may also be convenient for students who enter Hunter with a large number of transfer credits in music. Requirements are:

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses Required for the Major

Music History

MUSHL 20100 - Introduction to Music Research

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.
coreq: MUSHL 20500
prereq or coreq: ENGL 12000
1 hr
1 cr.
offered fall

MUSHL 20500 - Music History I

Pluralism and Diversity
PD/D
For music majors. Survey of the history of music in the European tradition to 1600.

- Music 25-Credit Major - BA
- Music 42-Credit Major - BA
- Music - BMus

Major Programs

The Department of Music offers three undergraduate programs and a BA/MA in Music Education for those going into a Music Education major at the graduate level. Students must take three examinations before declaring a music major:

- Music notation, rudimentary theory, and basic musicianship skills. This examination is prerequisite to MUSTH 22000 (Music Theory I). Students who do not pass it must take MUSTH 10100 (Music Theory Fundamentals) or learn the material on their own, then repeat the examination.
- Elementary music history and literature. This examination is prerequisite to MUSHL 20500 (Music History I). Students who do not pass it must take MUSHL 10100 (Introduction to Music) or learn the material on their own, then repeat the examination.
- Performance audition on an instrument or voice. This examination is prerequisite to MUSPF 40100 (Private Instruction in Instrument or Voice). Students whose performance skills fall below New York State School Music Association (NYSSMA) level 2, equivalent to about one year of study, must take MUSPF 21100-MUSPF 21200 (Voice I-II), MUSPF 21300-MUSPF 21400 (Piano III), or private lessons at their own expense (without credit), then repeat the examination. Students with no experience in performance may defer the audition until the end of their first semester of study. Prospective majors should consult the Music Department's undergraduate adviser as soon as possible to discuss these examinations and any prerequisite courses they may need before beginning the major.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Grading Policies
Students must have grades of C or better in all prerequisite courses in order to take courses that are required for the major. The grade of CR may not be elected in major courses. In accordance with Hunter College policy, a course may not be taken more than twice without permission of the department.

**Honors**

To qualify for departmental honors in music, a student must have a 3.5 grade point average in major courses and complete an honors project, taken under the following course number. The project, which must be approved in advance by the Policy Committee, may be a research paper on a historical, theoretical, or other topic; an original composition; or a recital. All projects should demonstrate an advanced level, a broad scope, and a high quality, and must be done under the supervision of a faculty member of the Music Department.

**MUSTH 49100 - Honors Project**

Upper Jr/Sr only. Individual project of large scope in music history, theory, composition, or performance.

*prereq: minimum music GPA of 3.5, perm undergrad adviser
1 sem
3 cr.*

**Graduate Study**

Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

**New York City Programs**

**Hunter College Scholarships, Awards, Prizes and Other Financial Assistance for Matriculated Students**

Hunter College recognizes academic merit and need through a growing number of scholarship and fellowship programs. In general, these fall into two categories: scholarships and fellowships for incoming students; and scholarships, fellowships, awards and prizes for continuing students.

**Incoming Students**

There are several four-year scholarship opportunities for incoming first-year, full-time students, including the CUNY Macaulay Honors College financial package, Honors Scholar Programs, and Dormitory Scholars Awards.

For more information on the Honors Scholar Programs, see Student Services section of this catalog or visit Scholar Programs or inquire at the Honors Scholar Program Office, Hunter North 140, (212) 396-6888, or by email scholarprograms@hunter.cuny.edu.

**Continuing Students**
Continuing students who wish to be considered for awards from scholarship funds administered through the college should submit a Hunter College Scholarship application, available online at

For more information, contact the coordinator of scholarship opportunities in the Office of Financial Aid (212) 772-4818.

**Other Sources of Financial Assistance** Hunter College is committed to providing its students with the maximum amount of financial assistance available from government grants, loans and work-study opportunities. Information and assistance in obtaining financial aid is available from the Office of Financial Aid, Hunter North Room 241 or by logging onto http://www.hunter.cuny.edu/onestop/finances/financial-aid

**Hunter College Foundation**

Established in 1991, the Hunter College Foundation is dedicated to ensuring continued access to the highest quality public higher education and to helping Hunter maintain its longstanding reputation for academic distinction. Undergraduate scholarships and graduate fellowships may be set up in the Hunter College Foundation.

**The Scholarship and Welfare Fund**

The Scholarship and Welfare Fund of the Alumni Association, a not-for-profit group established in 1949, administers a number of funds to provide scholarships to students who otherwise might not be able to complete their education. For over fifty years, the Scholarship and Welfare Fund has contributed substantially to the education of Hunter College students. Contributions from alumni, friends, chapters and classes have provided the funds needed for this support.

Many endowed scholarships have been established through funds donated in the names of individuals, classes and chapters of the Alumni Association to provide assistance to students on the basis of both scholarship and financial need. They include college-wide awards and awards to graduating seniors.

**New York State Certification**

Undergraduate teacher preparation programs have been approved by the New York State Education Department to lead to initial certification for teaching in New York State. To earn this certificate students must successfully complete the approved program of study, obtain a BA or BA/MA degree, have fingerprint clearance, complete the Dignity for All Students Act (DASA) workshop and pass the required New York State Teacher Certification Examinations (NYSTCE) including the EAS, CST and edTPA. The Office of Academic And Student Affairs (OASA) sends institutional recommendations for certification after students graduate from their teacher preparation program. The initial certificate permits the holder to teach for five years. Candidates must then complete three years of full-time teaching in the certificate title and a master's degree in order to be eligible for professional certification. NYS certification is reciprocally accepted by many other states upon application. Students with questions about certification should consult the School of Education website: http://www.hunter.cuny.edu/education.

**New York State Education Department Policy Statement on Liberal Arts and Sciences:**

This guidance is intended to assist institutions of higher education in New York State in meeting the requirements of the Rules of the Board of Regents, Section 3.47 (c), Requirements for Earned Degrees, Undergraduate degrees:

"Undergraduate degrees shall be distinguished, as follows, by the minimum amount of liberal arts content required for
each degree. The required liberal arts core shall not be directed toward specific occupational or professional objectives."

The liberal arts and sciences comprise the disciplines of the humanities, natural sciences and mathematics, and social sciences.

A. Examples of course types that are generally considered within the liberal arts and sciences:

1. Humanities:
   - English—composition, creative writing, history of language, journalism, linguistics, literature, literature in translation, playwriting
   - Fine arts—art appreciation, history or theory
   - Foreign languages—composition, conversation, grammar, history of the language, literature of the language, reading, translation studies
   - Music—music appreciation, history or theory
   - Philosophy—comparative philosophy, history of philosophy, logic, schools of philosophy
   - Religion—comparative religion, history of religion
   - Theater—dramatic interpretation, dramatic literature, dramaturgy, history of drama, playwriting

2. Natural sciences and mathematics:
   - Natural sciences—anatomy and physiology, biology, chemistry, earth science, geology, physics, zoology
   - Mathematics—calculus, mathematical theory, statistics
   - Computer Science—broad survey/theory courses

3. Social sciences:
   - Anthropology, cultural studies, economics, geography, government, history, political science, psychology, sociology
   - Criminal justice—introductory and broad survey courses
   - Communications—interpersonal communication, mass communication, public speaking, speech and rhetoric

B. Examples of course types that are generally not considered within the liberal arts and sciences:

- Agriculture
- Business—administration, finance, human resources, management, marketing, production
- Computer applications (e.g., word processing, database, spreadsheet), programming (e.g., specific languages)
• Health and physical education
• Home economics
• Education and teaching methods
• Library science
• Music—studio, performance, practice courses—voice, instrument, direction, conducting
• Office technologies and practice
• Performing and related arts—acting, costume design, dance, direction, lighting, production, scene construction, sound production
• Specialized professional courses in such fields as accounting, architecture, dental hygiene, dentistry, engineering, law, medicine, nursing, nutrition, pharmacy, podiatry, veterinary medicine
• Studio art—drawing, painting, ceramics, sculpture
• Technology/technician fields—construction, data processing, electrical, electronics, graphic arts, mechanical, medical, refrigeration repair
• Television and radio production
• Theology—pastoral counseling, ministry

New York State Financial Aid Programs

Tuition Assistance Program (TAP)

The TAP grant is awarded to New York State residents who are enrolled full-time in a degree-granting program and meet the income criteria. To be eligible for a TAP award, each semester students must register for 12 credits which are directly attributable to their degree.

Students should consult with an adviser in the Office of Advising or their major department when planning their programs to ensure continued TAP eligibility. SEEK students should consult with their SEEK counselor.

Awards ranging from $500 to $5,165 are made to dependent students and independent students with dependents whose New York State taxable income is $80,000 or less or to independent students with no dependents if the taxable income is $10,000 or less. Students may receive awards for eight semesters; SEEK students may receive awards for ten semesters. A student with a disability that prevents attendance on a full-time basis may be eligible to receive a prorated TAP while attending on a part-time basis.

Excelsior Scholarship Program

The Excelsior Scholarship, in combination with other student financial aid programs, allows students to attend a SUNY or CUNY college tuition-free. Applicant must be a resident of NYS and have resided in NYS for 12 continuous months prior to the beginning of the term. Eligible applicants must be a U.S. citizen or eligible non-citizen. In addition, they must graduate from high school in the United States, earned a high school equivalency diploma, or passed a federally approved "Ability to Benefit" test, as defined by the Commissioner of the State Education Department.

Applicants must have a combined federal adjusted gross income of $125,000 or less. In, addition be pursuing an undergraduate degree at a SUNY or CUNY college. Applicants be enrolled in at least 12 credits per term and complete at least 30 credits each year (successively), applicable toward his or her degree program;

A recipient of an Excelsior Scholarship may receive up to $5,500. A recipient of an Excelsior Scholarship is eligible to receive award payments for not more than two years of full-time undergraduate study in a program leading to an associate's degree or four years of full-time undergraduate study, or five years if the program of study normally requires five years, in a program leading to a bachelor's degree.
For more information see the HESC Web site at:

NYS Excelsior Scholarship

Senator José Peralta New York State DREAM Act

The Senator José Peralta New York State DREAM Act gives undocumented and other students access to New York State-administered grants and scholarships that support their higher education costs.

For more information see the HESC Web site at: http://Senator José Peralta New York State DREAM Act

CUNY Student Tuition Assistance (CUSTA)

Students who are otherwise eligible for a maximum TAP award but whose award is reduced because they have received four semesters of payment may be eligible for a CUSTA award up to $50 a semester.

Aid for Part-Time Study (APTS)

This award provides assistance to students who attend less than full time, have accrued a minimum of 6 credits (not equated) and have not exhausted their TAP eligibility. In order to be eligible, a student must be a New York State resident and enrolled for at least 6 credits.

The legislature established the Aid for Part-time Study (APTS) program in 1984 in a new section 666 of the Education Law. Aid for Part-time Study is a different program from Part-time TAP (established in 2006) with different requirements. One difference is that there is no prior study (prior earned credits) requirement for APTS.

The program is campus-based: that is, individual campuses that decide to participate in the program select recipients and determine award amounts after HESC allocates funds based on an institution's prior year part-time degree credit enrollment. APTS is not an entitlement program and not all potentially eligible students will necessarily receive an award. Institutions have the discretion to determine policy for administering the program, to make the decisions, and to provide awards to students who demonstrate the greatest financial need until the institution's allotted funds are exhausted. Statute does not define need or specify how the need is to be determined.

New York State World Trade Center Memorial Scholarship

The World Trade Center Memorial Scholarship Program for study at the City University of New York is intended for victims, spouses and children of the victims who died or were severely disabled as a result of the September 11 terrorist attacks. The program also provides scholarships to the spouses and children of those who died or were severely disabled during ongoing rescue and recovery efforts, including firefighters, police officers, peace officers and emergency medical service workers.

The scholarships cover the cost of tuition, fees, books, supplies, transportation and room and board, if applicable, for four years of full-time undergraduate study or for five academic years of a program of academic study as defined by the Commissioner of Education.
The scholarships were established by Governor George Pataki’s Executive Order 113 and related legislation to establish such a program, along with a CUNY Board of Trustees resolution.

Applications are available online at: New York State World Trade Center Memorial Scholarship

**Veterans Tuition Award Program**

Eligible students are those who are New York State residents and discharged under honorable conditions from the U.S. Armed forces and who are:

- Persian Gulf Veterans who served in the Persian Gulf on or after August 2, 1990.
- Afghanistan Veterans who served in Afghanistan during hostilities on or after September 11, 2001.
- Veterans of the armed forces of the United States who served in hostilities that occurred after February 28, 1961 as evidenced by receipt of an Armed Forces Expeditionary Medal, Navy Expeditionary Medal or a Marine Corps Expeditionary Medal.

They must satisfy all other eligibility requirements including filing for TAP and Federal Pell Grants. Students must demonstrate good academic standing and meet college guidelines for pursuit of this award program. Awards cannot exceed the cost of tuition. After the initial year eligibility is established, students must re-file a supplement yearly. Supplements are available on request from New York State Higher Education Services Corporation (HESC) at (888) 697-4372. All applications must be completed by June 30th of the academic year for which an award is sought.

For more information please visit the HESC Web site below the HESC Web site at: Veterans Tuition Awards.

**Army Reserve National Guard-Army Continuing Education System (ARNG-ACES)**

The New York State Army Reserve National Guard offers tuition assistance through two programs for full- and part-time students. All current and future members of the New York Army Reserve National Guard (ARNG) are eligible except for members serving on active or full-time duty and those on Active Guard Reserve status. ARNG members who also receive veterans' benefits are not eligible. For full time students, the program is limited to tuition costs, instructional fees in lieu of tuition and laboratory or shop fees specifically required as a condition of enrollment in a course. Part-time students must be enrolled half-time (7 or fewer credits).

Commissioned officers must agree to remain in the ARNG for four years after the last course for which tuition assistance has been provided is completed. For more information on these programs, contact the Civilian Education Office at (518) 786-4500.

**NYS Math & Science Teaching Incentive Program**

The NYS Math and Science Teaching Incentive Program is offered to encourage students to pursue careers as math and science teachers in secondary education (grades 7-12). Awards are made to students attending school at the undergraduate and/or graduate degree level in exchange for five years of full-time employment as math or science teachers in secondary education in NYS.

A recipient receives an annual award payment for full-time study equal to the annual tuition charged to a NYS resident student attending an undergraduate program at the State University of New York (SUNY), or actual tuition charged, whichever is less.

For more information please visit the HESC Web site below:
**State Aid to Native Americans**

Enrolled members of a New York State tribe and their children who are attending, or planning to attend, a college in New York State and are New York residents. Awards are made to all eligible applicants. There is no qualifying examination. Awards are available for two-, four- or five-year programs.

Eligible and/or certified American Indian students are eligible to receive grant awards of up to $2,000 per year for up to four years of full-time study (five years for specific programs requiring five years to complete degree requirements).

If funding is available, eligible students may receive aid for summer course work. Any aid a student receives for summer school study is deducted from the student's maximum entitlement for four years of full-time college study.

Prorated amounts are available for students taking fewer than 12 credits. Contact Native American Education Unit, New York State Education Department, Room 374 Education Building, Albany, NY 12234. Call (518) 474-0537 for information. The deadlines are July 15 for the fall semester, December 31 for the spring semester and May 20 for the summer semester.

**Congressional Teacher Scholarship**

Congressional Teacher Scholarships are available to undergraduate students who agree to teach in areas in which there is a critical shortage of teachers. Recipients must agree to teach two years in the U.S. for each annual payment received. The service obligation must be fulfilled within 10 years of completing the undergraduate education program. Recipients who fail to meet these requirements must repay all or part of the award plus accrued interest.

Applicants must be or have placed in the top 10 percent of their high school graduating class and be New York State residents who are or will be enrolled in a specific program during the upcoming academic year. Winners receive up to $5,000 a year for a period of no more than four years of full-time undergraduate study. For more information or for an application, contact the Bureau of Higher and Professional Education Testing, Albany, NY 12230; (518) 474-6394.

**NYS Regents Awards for Children of Deceased and Disabled Veterans**

Students, whose parent(s) served in the U.S. Armed Forces during specified periods of war or national emergency and, as a result of service, died or suffered a 40% or more disability, is classified as missing in action or was a prisoner of war, may be eligible for this award from New York State. The veteran must currently be a New York State resident or have been a New York State resident at the time of death, if death occurred during or as a result of service.

A recipient of a Child of Veteran Award can receive $450 a year for four years of undergraduate study without consideration of income or tuition costs. However, the combined Child of Veteran Award and TAP award may not exceed the amount of tuition charges. Students must initially establish eligibility by submitting a Child Of Veteran Award Supplement form with the New York State Higher Education Services Corporation (HESC) before applying for payment. For more information see the HESC Web site at: NYS Regents Awards for Children of Deceased and Disabled Veterans

**Memorial Scholarships for Families of Deceased Firefighters, Volunteer Firefighters, Police Officers,**
Peace Officers and Emergency Medical Service Workers

This award provides financial aid to children, spouses and financial dependents of deceased firefighters, volunteer firefighters, police officers, peace officers and emergency medical service workers who have died in the line of duty in service to the State of New York.

Memorial Scholarships provide funds to help meet the cost of attending college. The award covers up to four years of full-time undergraduate study (or five years in an approved five-year bachelor's degree program).

Students must establish eligibility by submitting a Memorial Scholarship Supplement, which is available from the New York State Higher Education Services Corporation (HESC). Once eligibility has been established, the student must submit an application for payment by May 1 of the academic year for which payment of the scholarship is sought.

To apply for payment, the student must complete the FAFSA and apply for TAP. For more information see the HESC Web site at: NYS Memorial Scholarship

Professional Opportunity Scholarships

Professional Opportunity Scholarships (for approved professional programs, e.g., accounting, architecture, engineering, nursing, occupational therapy, ophthalmic dispensing, pharmacy, physical therapy, dental hygiene, landscape architecture, physician's assistant, law, podiatry, optometry, psychology, social work, veterinary medicine, speech/language pathology/audiology) are available to U.S. citizens and permanent New York State residents. Students must be enrolled full-time (matriculated) in an approved program of study in New York State. Students must agree to practice in New York State for one year in their chosen profession for each annual payment received. Students must demonstrate good academic standing and meet college guidelines for pursuit of the program.

Recipients must be chosen in the following order of priority:

- Economically disadvantaged (prescribed criteria) and a minority group member historically underrepresented in the profession.
- Minority group member underrepresented in the profession.
- Candidate who is enrolled in or is a graduate of College Discovery (CD), Search for Education, Elevation and Knowledge (SEEK), Educational Opportunity Program (EOP), Higher Educational Opportunity Programs (HEOP). Awards range from $1,000 to $5,000 a year for up to four or five years in certain programs. TAP and some other benefits may supplement this award. Contact the college Financial Aid Office or the New York State Education Dept., Bureau of Post secondary Grants Administration, Cultural Education Center, Room 5B68, Albany, NY 12230, (518) 474-5705. Applications must be submitted each year. The deadline each year is May 1 of the award year. (Example: The deadline for 2020-2021 is May 1, 2021.)

Search for Education, Elevation and Knowledge (SEEK)

The SEEK Program provides financial aid and support services (concentrated counseling, remedial instruction, and tutoring) to educationally and economically disadvantaged students attending a senior or technical college. Applicants must be residents of New York State; have received a New York State high school diploma or equivalency; be
ineligible for admission under normal standards, but demonstrate potential for completing a college program; and meet family income guidelines as determined by the state.

Students apply for entry to the SEEK program through CUNY Admissions. Students must file a FAFSA and provide the Financial Aid Office with supporting documentation to have their financial eligibility confirmed.

**New York State Rule for Liberal Arts and Sciences Courses**

The following applies to all students who enter Hunter College either as freshmen or transfer students as of fall 2016: To obtain a Bachelor of Arts degree, students must have a minimum of ninety (90) credits in courses that are classified as Liberal Arts & Sciences courses. For a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts & Sciences. Credits taken at Hunter or credits transferred in are subject to this requirement, which is based on a New York State law. While most courses offered at Hunter will be Liberal Arts & Sciences courses, several academic programs offer a number of courses which do not count as Liberal Arts & Sciences. To make sure that your courses follow the New York State guidelines, you must see an adviser if you have many credits or are majoring in any one of the following programs. This is especially important if you transfer courses in these fields to Hunter (their status may depend on the school where you took them):

- Art & Art History (Studio Art)
- Economics (Accounting)
- Community Health
- Computer Science
- Dance
- Education
- Film and Media Studies
- Medical Laboratory Sciences
- Music
- Nursing
- Theatre

Students who entered Hunter College after 2009 are under the same requirements, but there is the possibility of a waiver; however this is not guaranteed. Please check with an adviser if you have many credits or are majoring or minorin in one of the above areas. Below is a list of courses that are NOT counted as Liberal Arts & Sciences, organized by Department, School, or Program:

**Art & Art History:**
All ARTCR courses

**Community Health:**
PH 40800 Digital Media and Health
PH 41200 Directed Fieldwork Practicum
COMHE 400.xx

**Economics (Accounting):**
ACCP 36700 Analysis of Financial Statements
ACCP 37100 Intermediate Accounting I
ACCP 37200 Intermediate Accounting II
ACCP 37300 Federal Income Taxation
ACCP 37400 Managerial Accounting (Cost Accounting)
ACCP 38000 Business Law II
ACCP 47100 Advanced Accounting I
ACCP 47200 Advanced Accounting II
ACCP 47300 Business Taxes
ACCP 47500 Auditing
ACCP 47600 Computer Accounting Systems
ACCP 48000 Business Law III
ACCP 49000 Accounting & Auditing Research

School of Education:

All courses in the School of Education are non Liberal Arts and Sciences, except:
QSTB 20280 Child Growth and Development
QSTB 40380 Social Foundations of Urban Education
QSTB 41380 Psychology of Teaching and Learning
SEDC 21000 Building the Foundations of Literacy in Grades 7-12
SEDF 20300 Social Foundations of Education, Grades 7-12 (W)
SEDF 20400 Adolescent Development
SEDF 20500 Educational Psychology: Applications in Grades 7-12
SEDF 20600 Assessment of the Teaching and Learning Process in Grades 7-12
SPED 30800 Teaching Students with Special Needs in Inclusive Settings

Film and Media Studies:

FILMP 25100 Film Production I
FILMP 28600 Location Sound
FILMP 31100 Directing Documentary Video Production
FILPL 31600 Experimental Production
FILMP 34100 Producing the Film
FILMP 35200 Film Production II
FILMP 37100 Screen Directing I
FILMP 37200 Screen Directing II
FILMP 38100 Techniques of Cinematography
FILMP 38200 Narrative Editing
FILMP 38300 Sound Design
FILMP 38400 Film and Video Production
FILMP 39900 Special Topics in Advanced Film Practice
MEDP 29900 Special Topics in Media Production
MEDP 25000 Digital Design and Usability
MEDP 26000 Introduction to 2D Animation
MEDP 28100 Documentary Video Production 1
MEDP 28500 Web Production I
MEDP 31100 Documentary Video Production 2
MEDP 33100 Web Production II
MEDP 34100 Web Programming
MEDP 36000 3D Animation and Modeling
MEDP 36500 3D Virtual Environments
MEDP 39900 Special Topics in Advanced Media Production
MEDP 39909 Game Design and Programming MEDP 39950 Motion Graphics
MEDP 34500 Web Design Projects
MEDP 34900 Introduction to Physical Computing
MEDP 35500 Physical Computing: Interactive Installation
MEDP 39950 Motion Graphics

**Medical Laboratory Sciences:**
MLSP 30000 Fundamental Concepts and Techniques in the Medical Laboratory
MLSP 34900 Hematology
MLSP 35100 Clinical Microbiology I
MLSP 35200 Clinical Microbiology II
MLSP 35400 Clinical Biochemistry I: Biomolecules & Metabolism
MLSP 35500 Clinical Biochemistry II: Genes to Proteins
MLSP 36100 Computers and Data Processing in the Medical Laboratory
MLSP 41000 Professional Practice Professional Practice
MLSP 43000 Immunohematology
MLSP 45700 Senior Seminar
MLSP 40000 Topics in Biomedical Sciences

**School of Nursing:**
All Nursing Courses.

**Non-English Speaking Applicants**

International applicants whose primary language is not English must demonstrate a firm command of the English language by scoring a minimum of 500 Paper-Based TOEFL, 6 (IELTS), 61 (IBT) and 44 Pearson Academic on the Test of English as a Foreign Language (TOEFL). No conditional admission is offered whereby a student may come to the college and spend a semester or year learning English.

All applicants to graduate programs in CUNY for whom English is not their first language must take one of three exams*: Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or Pearson Test of English (PTE). Hunter College has until now accepted only the TOEFL exam. The IELTS is accepted by 3,400 institutions in the U.S. including Harvard University, Yale University, Princeton University, Brooklyn College and John Jay. The Economics department has requested that Hunter College accept the IELTS in addition to the TOEFL.

*RESOLUTION ON THE INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) EXAM

Be it resolved that Hunter College will accept the following exams as proof of English Language proficiency as one of the graduate admissions requirements for international students: International English Language Testing System (IELTS) and Test of English as a Foreign Language (TOEFL). Departments will be given the option of using one or both of those exams.
Noncompliance of Immunization Requirements

Please note that students will not be allowed to continue at Hunter if they are not compliant with immunization requirements within 30 days from the first scheduled day of classes.

Nondegree and Second-Degree Students Acceptance

The School of Education does not accept nondegree or second-degree students.

Nondegree student transfers

Nondegree students who are in attendance at Hunter College as well as those who were previously enrolled, in addition to meeting the above stated criteria, must have had a minimum grade point average of 2.0 in their Hunter coursework.

Transfer admissions decisions and determinations of advanced standing are made by the Hunter College Admissions Office on the basis of work done as a matriculated student at regionally accredited two- and four-year colleges and universities. Only courses in which a student has earned a grade of C or better (or a passing grade with earned credit from a CUNY college) can be accepted for transfer. Transfer credit will not be granted for any remedial, developmental or ESL coursework.

Nondegree student transfers

Nondegree students who are in attendance at Hunter College as well as those who were previously enrolled, in addition to meeting the above stated criteria, must have had a minimum grade point average of 2.0 in their Hunter coursework.

Nondegree Students

Students who are not interested in earning a degree but wish to enroll in college credit bearing courses may be admitted as nondegree students. All students wishing to enroll at Hunter in a nondegree status must apply for nondegree admission from the Hunter College website www.hunter.cuny.edu. The application must be submitted along with verification of at least a high school diploma or 24 earned college credits. Neither a high school certification nor an IEP diploma is acceptable (see the nondegree application for further information.) A nondegree admission fee of $65 will be charged at the student's first registration. Nondegree students may register for any course for which space is available at the time of registration, provided they have met the prerequisites and have taken and passed applicable placement exams. (Check with the appropriate departments for more information concerning prerequisites and placement exams.) Such students are permitted to attempt up to 12 credit hours before they are required to prove proficiency in Reading Writing and Math (see the catalog section on Testing) and, must either matriculate or leave the college when they have attempted 24 credits. Courses in which the student receives a grade of "W" do not count toward the 12- or 24-credit limitations.

Baccalaureate, master's or doctoral degree holders (from a college or university accredited by a regional U.S. accrediting association) are exempt from the 24-credit limit, provided proof of the degree is submitted along with their application for admission.

Students in an F-1 or J-1 Visa status are not eligible to attend Hunter College in a non-degree status.
Credits earned at Hunter College as a non-degree student are automatically transferred into a degree program upon matriculation at Hunter. Those credits earned at Hunter will be accepted as residency credits.

The priority application deadlines for non-degree admission are:

Summer: March 15
Fall: May 1st
Winter: October 1st
Spring: November 1st

Applications submitted after the deadlines will be considered based on space available at the college.

**Nondegree Students and CUNY Proficiency Requirements**

Non-degree students may attempt up to 12 credits at Hunter College without demonstrating the CUNY proficiency requirements unless it is required for a particular course. Non-degree students are required to demonstrate CUNY proficiency requirements once 12 credits have been attempted; non-degree students must demonstrate proficiency requirements based on the same criteria set forth for **Degree Students**. Non-degree students who fail to demonstrate the CUNY proficiency requirements and who take and fail any part of the CUNY Assessment Tests before reaching the 12-credit limit will not be permitted to enroll in additional courses at Hunter College until they have met CUNY proficiency requirements as transfer students.

**Notice of Access to Campus Crime Statistics, the Campus Security Report and Information on Registered Sex Offenders**

The college Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the U.S. Department of Education, as well as the annual campus security report. The campus security report includes:

- the campus crime statistics for the most recent calendar year and the two preceding calendar years;
- campus policies regarding procedures and facilities to report criminal actions or other emergencies on campus;
- policies concerning the security of and access to campus facilities;
- policies on campus law enforcement;
- a description of campus programs to inform students and employees about campus security procedures and practices and to encourage students and employees to be responsible for their own security and the security of others;
- campus crime prevention programs;
- policy concerning the monitoring through the police of criminal activity at offcampus locations of students organizations officially recognized by the college;
- policies on illegal drugs, alcohol and underage drinking;
• where information provided by the State on registered sex offenders may be obtained (also see below); and

• policies on campus sexual assault programs aimed at the prevention of sex offenses and procedures to be followed when a sex offense occurs. This information is maintained pursuant to the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

The campus crime statistics and the annual campus security report are available at the Public Safety Office-West Building B122 and the college Web site.

If you wish pick up copies of the campus crime statistics and the annual campus security report, you should contact Joseph Foelsch, Jr., Director of Public Safety and Security at (212) 772-4521. Copies are available at the Main Campus, West Building, B-122. The U.S. Department of Education's Web site address for campus crime statistics is http://ope.ed.gov/campussafety/#/institution/search CUNY Hunter College, New York City, New York, then "Continue"

In accordance with the federal Campus Sex Crimes Prevention Act, registered sex offenders now are required to register the name and address of any college at which he or she is a student or employee. The New York State Division of Criminal Justice maintains a registry of convicted sex offenders and informs the college's chief security (public safety) officer of the presence on campus of a registered sex offender as a student or employee. You may contact the college's chief security officer, Joseph Foelsch, Jr., Director of Public Safety and Security, B122 West, (212) 772-4521 to obtain information about Level 2 or Level 3 registered sex offenders on campus. To obtain information about Level 3 offenders, you may contact the Division's registry Web site at http://www.criminaljustice.ny.gov/nsor/and then click on "Search for Level 3 Sex Offenders" or access the directory at the college's public safety department or police precinct. To obtain information about Level 2 offenders, you need to contact the public safety department, local police precinct in which the offender resides or attends college, or the Division's sex offender registry at 800-262-3257.

Notice of Access to Campus Crime Statistics, the Campus Security Report and Information on Registered Sex Offenders

The college Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the U.S. Department of Education, as well as the annual campus security report. The campus security report includes:

• the campus crime statistics for the most recent calendar year and the two preceding calendar years;

• campus policies regarding procedures and facilities to report criminal actions or other emergencies on campus;

• policies concerning the security of and access to campus facilities;

• policies on campus law enforcement;

• a description of campus programs to inform students and employees about campus security procedures and practices and to encourage students and employees to be responsible for their own security and the security of others;

• campus crime prevention programs;

• policy concerning the monitoring through the police of criminal activity at offcampus locations of students organizations officially recognized by the college;

• policies on illegal drugs, alcohol and underage drinking;
• where information provided by the State on registered sex offenders may be obtained (also see below); and

• policies on campus sexual assault programs aimed at the prevention of sex offenses and procedures to be followed when a sex offense occurs. This information is maintained pursuant to the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

The campus crime statistics and the annual campus security report are available at the Public Safety Office-West Building B122 and the college Web site at http://publicsafety.hunter.cuny.edu/subpages/annualcrimereport.shtml. If you wish pick up copies of the campus crime statistics and the annual campus security report, you should contact Joseph Foelsch, Jr, Director of Public Safety and Security at (212) 772-4521. Copies are available at the Main Campus, West Building, B-122. The U.S. Department of Education's Web site address for campus crime statistics is http://ope.ed.gov/campussafety/#/institution/search CUNY Hunter College, New York City, New York, then "Continue"

In accordance with the federal Campus Sex Crimes Prevention Act, registered sex offenders now are required to register the name and address of any college at which he or she is a student or employee. The New York State Division of Criminal Justice maintains a registry of convicted sex offenders and informs the college's chief security (public safety) officer of the presence on campus of a registered sex offender as a student or employee. You may contact the college's chief security officer, Joseph Foelsch, Jr., Director of Public Safety and Security, B122 West, (212) 772-4521 to obtain information about Level 2 or Level 3 registered sex offenders on campus. To obtain information about Level 3 offenders, you may contact the Division's registry Web site at http://www.criminaljustice.ny.gov/nsor/and then click on "Search for Level 3 Sex Offenders" or access the directory at the college's public safety department or police precinct. To obtain information about Level 2 offenders, you need to contact the public safety department, local police precinct in which the offender resides or attends college, or the Division's sex offender registry at 800-262-3257.

Notice of Non-Discrimination

It is the policy of The City University of New York—applicable to all colleges and units—to recruit, employ, retain, promote, and provide benefits to employees and to admit and provide services for students without discriminating on the basis of actual or perceived race, color, creed, national origin, ethnicity, ancestry, religion, age, sex, sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, pregnancy, status as a victim of domestic violence/stalking/sex offenses, unemployment status, caregiver or familial status, prior record of arrest or conviction, or any other legally prohibited basis in accordance with federal, state and city laws. This policy is set forth in CUNY's Policy on Equal Opportunity and Non-Discrimination.

CUNY's Policy on Sexual Misconduct prohibits all forms of sexual misconduct, including sexual harassment, gender harassment and sexual violence. Inquiries concerning sexual misconduct or sex discrimination may be made to the individuals specified in that Policy or may be referred to the U.S. Department of Education, Office for Civil Rights.

It is also the University's policy to provide reasonable accommodations and academic adjustments, when appropriate, to individuals with disabilities, individuals observing religious practices, individuals who have pregnancy or childbirth-related medical conditions and victims of domestic violence/stalking/sex offenses. The process for addressing these issues is set forth in CUNY's Procedures for Implementing Reasonable Accommodations and Academic Adjustments.

Retaliation for reporting or opposing discrimination, cooperating with an investigation of a discrimination complaint, or requesting an accommodation or academic adjustment is also prohibited.

To access CUNY's Policy and Procedures on Equal Opportunity and Non-Discrimination, Policy on Sexual Misconduct, and Procedures for Implementing Reasonable Accommodations and Academic Adjustments, please visit these links:
Nutrition and Food Science Program Description

The competitive, 54-credit Nutrition and Food Science bachelor of science major (NFS-BS), begun junior or senior year, is a diverse science-based program where students learn about nutrients, foods and their effect on health. It offers a comprehensive study of the fundamental principles of nutrition, food science and safety, food service management and community nutrition education. The major prepares students to work in a variety of career settings. NFS majors can work with athletes, weight control and fitness programs, special groups like WIC (Women, Infants & Children) in community settings, food service industries like hotels, airlines, universities, food service chains, and industrial cafeterias. Graduates can become food science technical specialists and conduct research, development and quality
control of food products for food companies. It is also possible to use foods and nutrition knowledge for jobs in advertising, marketing and in the mass media. Students can become consultants to television programs, or write articles on food for newspapers. Students may take steps after graduation to enter a graduate didactic program in dietetics (DPD) at Hunter or elsewhere to become registered dietitians (RD), or pursue graduate study in allied health, social work, scientific research, or other human service professions.

Note: The NFS-BS undergraduate major is not a didactic program in dietetics (DPD) and does not prepare the student to become a registered dietitian. At Hunter, the DPD is on graduate level (NUTR-MS).

Office of AccessABILITY (for Students with Disabilities)

1214 Hunter East; 212-772-4857
http://www.hunter.cuny.edu/access

In compliance with the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1975, the Office of AccessABILITY ensures the availability of variety of accommodations and services for students with documented disabilities or medical conditions who are currently registered at Hunter College. Disabilities include (but may not be limited to):

- Learning Disabilities, Physical Disabilities and Medical or Psychological conditions.

- Our office also accommodates students with temporary disabilities caused by an accident or short-term health conditions. To be eligible for reasonable accommodations, it is necessary for students to provide supporting documentation from a "qualified professional" (Physician, Psychiatrist, Psychologist, or Clinical Social Worker). Under the auspices of the Office of AccessABILITY, the Access and Technology Center, located in room 300 North building, houses equipment with adaptive software and hardware technologies and functions as a student hub, study area and testing accommodation center.

For more information regarding our services, please call (212) 772-4857/VP (646) 755-3129 or visit our Web site.

The Section 504 Coordinator at Hunter College, Professor Bonnie Keilty, is responsible for enforcement of the provisions of Section 504. She may be contacted in 929 Hunter West, (212) 772-4709. There is a 504 Grievance Procedure for students with disabilities at Hunter College. Students may obtain the necessary form, which contains instructions for filing, from the Office of Student Services in Room 1119 Hunter East. Students with disabilities at the School of Social Work may contact the director of admissions at (212) 396-7574 for assistance.

Office of the Provost

About the Office of the Provost

Dr. Lon S. Kaufman is the Acting Provost and Vice President for Academic Affairs at Hunter College.

As the Chief Academic Officer, the Provost works with the President and Deans to oversee academic policies and activities. The Associate Provosts, together with the Provost's administrative and operations staff, support the Provost in carrying out these responsibilities. The Office of the Provost oversees each of the college's academic units, together with major areas of institutional, academic and sponsored programs planning, assessment and support. Under the Provost are the two Roosevelt House academic Programs of Human Rights and Public Policy, and the SEEK Program (Search for Education, Elevation and Knowledge). Other areas under the Provost's leadership can be seen on the Hunter College website:

Opportunities for High School Students

College Now

Students at New York City public high schools may acquaint themselves with undergraduate life by participating in Hunter College Now. Activities range from workshops for sharpening writing or mathematics skills to college-level courses across the arts and sciences. Each summer, Hunter College Now focuses on the sciences and mathematics by hosting high-performing students at the Summer Institute for accelerated coursework that is complemented by tutoring, college guidance and co-curricular activities. Admission to college-level courses offered through College Now is competitive. To qualify for college-level coursework, including the Summer Institute, a student must demonstrate mastery of basic mathematics and/or verbal skills, depending on the discipline, as measured by the SAT, PSAT and English language arts and mathematics Regents exams. College Now offerings, including credit-bearing courses, are provided at no cost. Students interested in College Now can apply via the website at http://www.hunter.cuny.edu/college-now/apply.

College Credit Exams

A variety of exams are available for high school students to gain college credit before they enroll. Currently, Hunter College accepts the Advanced Placement (AP) exam, the International Baccalaureate (IB) exam, GCE (The General Certificate of Education Advanced Level generally termed the GCE Advanced Level or more commonly the A-level). Hunter students may be granted as much as a year of degree credit (normally 30 credits) for Advanced Placement, International Baccalaureate, GCE, College-Level Examination Program (CLEP), Regent College Examinations (RCE), and College-Level coursework. Students who completed college-level coursework offered by an accredited senior or community college while in high school will receive credit for courses in which grades of C or better are earned, provided that the courses were not used to satisfy their high school graduation requirements. Official college transcripts must be submitted to the Office of Undergraduate Admissions and Recruitment at Hunter for credits to be awarded. Students should not register for the same classes once they matriculate.

Advanced Placement

Hunter accepts AP credits for scores of 4 or 5 on the AP exams. If students have taken Advanced Placement (AP) examinations sponsored by the Educational Testing Services (ETS), they must ask ETS to forward their official scores to Hunter. Hunter College code is #2301. If they have also taken an AP exam but have not received their scores they
can call 1.888.308.0013. Students need to score at least a 4 on the AP exam to earn credit and/or exemptions from requirements (some exams may require a 5).

**International Baccalaureate Credit**

Students who have received an International Baccalaureate diploma may receive credit for higher level IB exams with scores of 5, 6, or 7. An official transcript and IB Diploma are required for the credit process. Credit will be granted for IB Higher Level Exams when the IB Diploma with a score of 30 or higher is submitted.

**GCE**

The GCE traditionally comprised two levels: the Ordinary Level (O Level) and the Advanced Level (A Level). Hunter College awards 3-4 credit for A-Level subject results of A-E.

**CLEP**

Hunter College participates in the College Level Examination Program (CLEP), under which registered Hunter matriculated students can receive college credit by taking CLEP Subject Examinations. Only the subject Examinations listed in our CLEP Examinations handbook are honored. Please see the handbook for the Hunter's minimum qualifying score for each exam. Hunter College does NOT accept CLEP GENERAL EXAMINATIONS. No student can earn more than 30 credits for CLEP plus AP, IB credit.

**Overview**

Over 16,000 undergraduate students attend Hunter College. These students vary widely in age, interests, background and educational goals. The Undergraduate Office of Admissions at Hunter College encourages all prospective students to meet with an admissions counselor to discuss their educational goals and opportunities at Hunter. Prospective students are also invited to visit the campus. Campus tours originate from the College Welcome Center, room 100 Hunter North.

**How to Apply**

To apply to Hunter College, students must complete the CUNY undergraduate application, which is available online at www.cuny.edu/apply.

Freshmen and transfer students are encouraged to apply by February 1 for the fall semester and September 15 for the spring semester. Students should complete the online application and submit the application processing fee and all supporting documentation as early as possible to guarantee full consideration for admission and scholarship aid. To apply as a part-time student contact the Hunter College Welcome Center for an appropriate application.

**Application Fees**

- $65 freshman
- $70 transfer

**Parliamo Italiano**
Parliamo Italiano, an Italian curriculum offers Italian Language courses using a proven method developed by the founding director, Francis Lally. Parliamo Italiano offers courses for all levels—days, evenings, and Saturdays. Cultural workshops provide students with an understanding of Italian history and traditions while conversation circles allow students to practice their speaking skills. For more information about the classes offered, call (212) 774-4793 or visit the web site at http://www.parliamo.com

**Persona Non Grata Guideline**

The College may restrict access to the campus by any visitor (i.e., a person who is neither a student nor an employee of Hunter College), including but not limited to guests, event attendees, and/or alumni whose conduct, after review by a panel of the Campus Safety Advisory Committee, is determined to be in violation of any rules and/or policies of Hunter College or the City University of New York or applicable New York State Law. This restriction may include revocation of alumni identification cards and/or other restrictions on access to Hunter College.

**Philosophy**

Return to: Faculty of the School of Arts and Sciences

Linda Martin Alcoff, Professor, Philosophy; BA, MA Georgia State, PhD Brown

Ian Blecher, Lecturer; BA Yale, MA, PhD Pittsburgh

Omar H. Dahbour, Professor, Philosophy; BA Trinity, MA Boston University, MA Columbia, PhD Chicago, PhD CUNY

David Egan, Lecturer; BA Harvard, PhD Oxford

James Freeman, Professor, Philosophy; MA Drew, BA, PhD Indiana

Justin Garson, Associate Professor; BA Evergreen State, MA, PhD University of Texas

Carol C. Gould, Distinguished Professor; BA University of Chicago, MPhil, PhD Yale

Daniel W. Harris, Assistant Professor; BA Simon Fraser, MA, PhD CUNY

Laura Keating, Associate Professor, Philosophy; BA Michigan State, MA, PhD Ohio State

Frank Kirkland, Associate Professor, Philosophy; BA Bucknell, MA, PhD New School

Gerald Press, Professor, Philosophy; BA California (Berkeley), MA, PhD California (San Diego)

Steven Ross, Professor, Philosophy; BA Brandeis, PhD Harvard

Sandra Shapshay, Professor; BA Pennsylvania, PhD Columbia

**Physics and Astronomy**

Return to: Faculty of the School of Arts and Sciences

Janos Bergou, Professor, Physics; MS, PhD Lorand Eotvos (Hungary)

Ying-Chih Chen, Professor; BA National Taiwan, PhD Columbia
The MA in physics is offered as a terminal degree, either separately or as part of the BA/MA program. The MA in physics may also, with the approval of the CUNY Graduate Center, form part of the degree work required for the CUNY PhD degree. Thesis research toward the CUNY PhD may also be carried out at Hunter College.

Admission Requirements

Applicants must meet Hunter's general admission requirements; however, the physics department no longer requires the Graduate Record Examination. In addition, the following departmental requirements must be met:

- A minimum of 36 credits total in undergraduate physics and mathematics courses. These should include intermediate mechanics, electricity, modern physics, and differential equations. A B average is required for these courses.

- Approval by the department's Graduate Physics Committee. If deficiencies are noted in certain undergraduate courses, the applicant may be required to take these courses without graduate credit.

Degree Requirements

1. Program of courses

A program of courses designed in consultation with the graduate adviser and approved by the department's Graduate Physics Committee.

2. Completion of 30 credits of graduate work including:
a. Not more than 6 credits earned at a graduate institution other than CUNY.

b. At least 15 credits earned at Hunter College.

c. The following courses or their equivalents:

- PHYS U70100 - Mathematical Physics
- PHYS U71100 - Analytical Dynamics
- PHYS U71500 - Electromagnetic Theory
- PHYS U72500 - Quantum Mechanics

d. No more than 6 credits in 600-level courses.

Note(s)

The courses listed in sections 2(c) and 2(d) are generally offered during the daytime hours.

A maximum of 9 credits may be accepted in physics department approved graduate courses in mathematics, astronomy, engineering, and physical chemistry.

4. Comprehensive examination

The candidate will be required to pass a comprehensive examination based on the required courses listed in section 2(c) above or complete a thesis, under a faculty member's supervision, that is approved by the department's Graduate Physics Committee. The first PhD exam may be substituted for the comprehensive examination.

5. Residence of two semesters

A minimum residence of two semesters at Hunter College. Courses taken as a nonmatriculant may be counted toward the degree upon matriculation with the approval of the department's Graduate Physics Committee.

6. There are no foreign language requirements
Policies and Procedures Concerning Sexual Assault, Stalking, Domestic and Intimate Partner Violence

Policy on Remediation

Beginning January 2000, students enrolling at Hunter College must prove their proficiency in reading, writing and mathematics through SAT scores, Regents scores or assessment tests prior to registration. Remedial courses are no longer offered by the college. ESL and non-proficient SEEK students are exempt from this policy, but must adhere to the following guidelines (see Admissions for information about ESL and SEEK designations): SEEK students must enroll in the appropriate basic skills workshop(s) prior to enrolling in their first semester at Hunter. SEEK students who do not gain proficiency in the pre-first semester workshops must take additional basic skills workshops during the semester. SEEK students must demonstrate proficiency within one year of enrollment at Hunter. SEEK students needing basic skills coursework must consult with the director of the SEEK Program for course access and availability. ESL students are placed in an appropriate developmental reading and/or writing course during their first semester and may continue taking developmental courses in their second semester, if needed. ESL students must demonstrate proficiency by the end of their fourth consecutive semester at Hunter. ESL students should see the ESL adviser in the English Department, Room 1212 Hunter West, for details about basic skills proficiency requirements.

Political Science

Return to: Faculty of the School of Arts and Sciences

Andrew Polsky, Professor and Dean, Arts & Sciences, Political Science; BA Wesleyan, MA, PhD Princeton

Carolyn M. Somerville, Associate Professor and Chair, Political Science; BA, MA, PhD Michigan

Charles Tien, Professor, Political Science; BA Michigan (Ann Arbor), PhD Iowa

Cynthia Roberts, Associate Professor, Political Science; BA Tufts, PhD Columbia

Erin Mayo-Adam, Assistant Professor, Political Science; BA California State (Long Beach), MA, JD, PhD, University of Washington

Jill Schwedler, Professor; New York University (PhD, MA, BA)

John R. Wallach, Professor, Political Science; BA California (Santa Cruz), MA, PhD Princeton

Kenneth Paul Erickson, Professor, Political Science; BA Michigan (Ann Arbor), PhD Columbia

Leonard Feldman, Associate Professor, BA Yale, MA, PhD University of Washington

Lina Newton, Associate Professor, Political Science; BA Wesleyan, MA, PhD California (Irvine)

Michael Lee, Assistant Professor, Political Science; BA University of Toronto, PhD Indiana University

Roger Karapin, Professor, Political Science; BA, MA Pennsylvania State, PhD MIT

Robyn Marasco, Assistant Professor, BA Smith College, PhD University of California, Berkeley

Rob Jenkins, Professor, BA Harvard, DPhil Sussex (UK)
Pre-Health Professions

Students preparing for a career in allopathic medicine or other health professions (osteopathy, dentistry, optometry, podiatry, physical therapy, physician assistant programs, veterinary medicine, pharmacology) may major or minor in any area (Biology, English, Urban Affairs, etc). Pre-Health is not a degree program and there is no special application for undergraduate students at Hunter College who are interested in following a pre-medical curriculum. Students can register with the Pre-Health Advising Office at Hunter College by going to the pre-health website. It is important that students maintain a close relationship with the premedical advising office from the time they become interested in such a career. Admission to professional schools is highly competitive so exceptional academic preparation is key, as is strong experience in leadership, research and community service. There are several premedical clubs on campus and students are encouraged to join one as soon as they enter Hunter.

The Pre-Health Professions Advising offices are located on the 7th floor of the Cooperman Library. All Students are encouraged to review the invaluable information on the pre-health website and to join the pre-health listserv. Students can make an appointment with an adviser on the pre-health website.

Pre-Law

There are no specific courses or a specific major required for entry to law school. Students applying to law school come from a variety of majors including those in the humanities, sciences, and social sciences. Legal educators agree that a broad and rigorous liberal arts education is the best preparation for admission to and success in law school. Students planning to attend law school should take courses that develop writing skills and the ability to think critically and creatively; they should discuss with the Pre-Law Advisor and with academic advisers which courses will best advance their educational and career goals. There is a 15-credit, interdisciplinary Legal Studies minor, housed in the Political Science Department, which, although not required, might be of interest to students who wish to explore legal themes in the context of their undergraduate work. There are some areas of legal practice for which a specific undergraduate major or coursework in a particular area is required or helpful. In order to be admitted to the Patent Bar, for example, an undergraduate degree or other training in science, computer science or engineering is required. More information regarding course selection is available at Hunter's Pre-Law Website: http://www.hunter.cuny.edu/prelaw/undergraduate-planning/course-selection. Students interested in law are encouraged to meet with the Pre-Law Adviser as early as possible to learn about opportunities to explore legal careers and to discuss preparation for applying to law school. To schedule an appointment with the Pre-Law Advisory Office, please phone (212) 772-4882. For quick questions, contact Hunter's Pre-Law Adviser, Elise Jaffe, at prelaw@hunter.cuny.edu. To keep up with Pre-Law events and opportunities on campus, students are also encouraged to subscribe to the Pre-Law Listserv by following the instructions that appear on the homepage of the Pre-Law Website. The Pre-Law Advising Office is located on the 7th floor of the Cooperman Library.

Pre-Professional Programs

- **Pre-Health Professions** Students preparing for a career in medicine or other health professions (osteopathy, dentistry, optometry, podiatry, physical therapy, physician assistant programs and veterinary medicine) may major or minor in any area (Biology, English, Urban Affairs, etc). Pre-Health is not a program and there is no special application for undergraduate students at Hunter College who are interested in following a pre-medical curriculum. Students can
Preparation for Social Work

An undergraduate BSW degree is now available at Hunter. It is an upper division program. Students apply for admission once they have completed between 50 and 80 of their undergraduate credits in liberal arts. Information about the BSW program can be accessed at http://sssw.hunter.cuny.edu/programs/bsw/.
If you are considering an MSW program after earning a BA, a major in one of the social or behavioral sciences is preferred. Specific entrance requirements vary for the different graduate schools of social work. Most schools recommend a minimum of 24 credits in social sciences. A major in sociology or psychology is desirable for those interested in specializing in work with individuals, families and groups; a major in sociology, political science, economics, or urban affairs is desirable for those interested in community organization. In addition, field internship courses that provide experience in social work agencies are highly recommended.

Students planning to go to a graduate school for social work, are encouraged to speak with an adviser in the Office of Advising.

**Procedures for Handling Student Complaints about Faculty Conduct in Academic Settings**

The university and its colleges have a variety of procedures for dealing with student-related issues, including grade appeals, academic integrity violations, student discipline, disclosure of student records, student elections, sexual harassment complaints, disability accommodations, and discrimination. One area not generally covered by other procedures concerns student complaints about faculty conduct in the classroom or other formal academic settings. The university respects the academic freedom of the faculty and will not interfere with it as it relates to the content or style of teaching activities. Indeed, academic freedom is and should be of paramount importance. At the same time the university recognizes its responsibility to provide students with a procedure for addressing complaints about faculty treatment of students that are not protected by academic freedom and are not covered by other procedures. Examples might include incompetent or inefficient service, neglect of duty, physical or mental incapacity and conduct unbecoming a member of the staff.

**Determination of Appropriate Procedure**

If students have any question about the applicable procedure to follow for a particular complaint, they should consult with the chief student affairs officer. In particular, the chief student affairs officer should advise a student if some other procedure is applicable to the type of complaint the student has.

**Informal Resolution**

Students are encouraged to attempt to resolve complaints informally with the faculty member or to seek the assistance of the department chairperson or campus ombudsman to facilitate informal resolution.

**Formal Complaint**

If the student does not pursue informal resolution, or if informal resolution is unsuccessful, the student may file a written complaint with the department chairperson or, if the chairperson is the subject of the complaint, with the academic dean or a senior faculty member designated by the college president. (This person will be referred to below as the "Fact Finder.") Only students in a faculty member's class or present in another academic setting where the alleged conduct occurred may file complaints against that faculty member.

The complaint shall be filed within 30 calendar days of the alleged conduct unless there is good cause shown for delay, including but not limited to delay caused by an attempt at informal resolution. The complaint shall be as specific as possible in describing the conduct complained of.
The Fact Finder shall promptly send a copy to the faculty member about whom the complaint is made, along with a letter stating that the filing of the complaint does not imply that any wrongdoing has occurred and that a faculty member must not retaliate in any way against a student for having made a complaint. If either the student or the faculty member has reason to believe that the department chairperson may be biased or otherwise unable to deal with the complaint in a fair and objective manner, he or she may submit to the academic dean or the senior faculty member designated by the college president a written request stating the reasons for that belief; if the request appears to have merit, that person may, in his or her sole discretion, replace the department chairperson as the Fact Finder. The chairperson may also submit a written request for recusal for good cause to the academic dean or senior faculty member designated by the college president to review such requests. If a recusal request is granted, a different department chairperson shall conduct the investigation, or, if no other chairperson is available, an administrator designated by the college president shall serve in the chairperson's stead. Further, the college president may re-assign investigations as necessary, including but not limited to situations in which a Fact Finder has not completed an investigation in a timely manner. In addition, during any time that no department chairperson is available to investigate a complaint, the college president may assign an administrator to investigate.

The Fact Finder shall meet with the complaining student and faculty member, either separately or together, to discuss the complaint and to try to resolve it. The Fact Finder may seek the assistance of the campus ombudsman or other appropriate person to facilitate informal resolution.

If resolution is not possible, and the Fact Finder concludes that the facts alleged by the student, taken as true and viewed in the light most favorable to the student, establish that the conduct complained of is clearly protected by academic freedom, he or she shall issue a written report dismissing the complaint and setting forth the reasons for dismissal and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. Otherwise, the Fact Finder shall conduct an investigation. The Fact Finder shall separately interview the complaining student, the faculty member and other persons with relevant knowledge and information and shall also consult with the chief student affairs officer and, if appropriate, the college ombudsman. The Fact Finder shall not reveal the identity of the complaining student and the faculty member to others except to the extent necessary to conduct the investigation. If the Fact Finder believes it would be helpful, he or she may meet again with the student and faculty member after completing the investigation in an effort to resolve the matter. The complaining student and the faculty member shall have the right to have a representative (including a union representative, student government representative or attorney) present during the initial meeting, the interview and any post-investigation meeting.

In cases where there is strong preliminary evidence that a student's complaint is meritorious and that the student may suffer immediate and irreparable harm, the Fact Finder may provide appropriate interim relief to the complaining student pending the completion of the investigation. The affected faculty member may appeal such interim relief to the chief academic officer.

At the end of the investigation, the Fact Finder shall issue a written report setting forth his or her findings and recommendations, with particular focus on whether the conduct in question is protected by academic freedom, and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. In ordinary cases, it is expected that the investigation and written report should be completed within 30 calendar days of the date the complaint was filed.

**Appeals Procedure**

If either the student or the faculty member is not satisfied with the report of the Fact Finder, the student or faculty member may file a written appeal to the chief academic officer within 10 calendar days of receiving the report. The chief academic officer shall convene and serve as the chairperson of an Appeals Committee, which shall also include the chief student affairs officer, two faculty members elected annually by the faculty council or senate and one student elected annually by the student senate. The Appeals Committee shall review the findings and recommendations of the report, with particular focus on whether the conduct in question is protected by academic freedom. The Appeals Committee shall not conduct a new factual investigation or overturn any factual findings contained in the report unless they are clearly erroneous. If the Appeals Committee decides to reverse the Fact Finder in a case where there has not been an investigation because the Fact Finder erroneously found that the alleged conduct was protected by academic...
freedom, it may remand to the Fact Finder for further proceedings. The committee shall issue a written decision within 20 calendar days of receiving the appeal. A copy of the decision shall be sent to the student, the faculty member, the department chairperson and the president.

Subsequent Action

Following the completion of these procedures, the appropriate college official shall decide the appropriate action, if any, to take. For example, the department chairperson may decide to place a report in the faculty member’s personnel file or the president may bring disciplinary charges against the faculty member. Disciplinary charges may also be brought in extremely serious cases even though the college has not completed the entire investigative process described above; in that case, the bringing of disciplinary charges shall automatically suspend that process. Any action taken by a college must comply with the bylaws of the university and the collective bargaining agreement between the university and the Professional Staff Congress.

Campus Implementation

Each campus shall implement these procedures and shall distribute them widely to administrators, faculty members and students and post them on the college Web site.

Procedures for Reporting Incidents of Sexual Assault and Other Forms of Violence

Professional and Pre-Professional Majors: BS, BFA, BSW and BMus Degrees

These programs, each requiring approximately 60 credits in the area of specialization, lead to the BS, BFA, BSW or BMus degree.

The following programs are available. For details and names of advisers, see Programs of Study

- Accounting BS (Economics Department)
- Studio Art BFA
- Community Health BS
- Music BMus
- Medical Laboratory Sciences BS
- Nursing BS
- Social Work BSW
- Nutrition and Food Science BS

*As of summer 2009 BS majors may declare up to two BA minors. See the minor department.

Program and Courses in Chemistry
Chemistry

Overview

The Department of Chemistry offers courses for undergraduates who plan to major or minor in Chemistry, as well as for students pursuing other degrees within the college. Courses for majors prepare the students for professional work and further study in chemistry and other fields of pure and applied science. Courses for the non-science major are designed to introduce students to those essentials of chemical fact and theory which will contribute to the student's understanding of present-day scientific knowledge. The department is the largest chemistry department in CUNY in terms of student enrollment, and routinely ranks in the top 40 in the United States in graduating chemistry majors. The Hunter College Chemistry community has access to state-of-the-art research facilities such as Nuclear Magnetic Resonance, Mass Spectrometry, high resolution Transmission Electron Microscopy, X-ray, and Scanning Probe Microscopes. Major I provides students with intensive training for professional research and graduate study and is accredited by the American Chemical Society. Major II consists of three options: Option 1 (Chemistry) for students interested in the chemical industry; Option 2 (Biochemistry) for students interested in the pharmaceutical industry (accredited by the American Society for Biochemistry and Molecular Biology), medicine, dentistry, veterinary medicine or physical therapy; Option 3 (Bioinformatics) for students interested in graduate studies in biochemistry and bioinformatics as well as pharmaceutical and biotechnology industries. Options 1-3 are all appropriate for students pursuing teacher education programs.

What can I do with my degree in Chemistry?

The department provides training for students planning careers in the chemical sciences, biology, medicine, earth sciences, secondary education, business, and law across the chemical enterprise in academia, industry, government, and private practice.

Undergraduate Major

Chemistry BA

Major

There are two chemistry majors: Major I, a 43-credit concentration in addition to an 11-credit general chemistry core, is designed to prepare the students with intensive training for professional research and graduate study. Major II consists of three options: Option 1 for students interested in the chemical industry; Option 2 (the biochemistry option) for students interested in the pharmaceutical industry, medicine, dentistry, veterinary medicine or physical therapy; Option 3 (bioinformatics option) for students interested in graduate studies in biochemistry and bioinformatics as well as pharmaceutical and biotechnology industry. Major II includes a minimum concentration of 28 credits (option 1), 29 credits (option 2), and 23.5 credits (option 3) in 200-level and above chemistry courses, in addition to an 11-credit general chemistry core. Options 1-3 are all appropriate for students pursuing teacher education programs.

Students considering a chemistry major should consult the departmental adviser during their first semester to plan the proper sequence of courses, and they are urged to consult with the adviser at least once each succeeding semester. A year of General Chemistry and the accompanying General Chemistry Laboratory are prerequisites for admission to both Major I and Major II.

- Chemistry Major I - BA
- Chemistry Major II - BA

Honors Work

Opportunity for an individual research experience is provided by an honors course

CHEM 49101 - Introduction to Research

Pluralism and Diversity

GER 3/B
Open to Jr/Sr only. Similar to CHEM 29101. Written report required. Fulfills requirement for departmental honors course.

prereq: CHEM 22400, 35400, 34900, perm chair
4 hrs
1 cr.
CHEM 49102 - Introduction to Research

Pluralism and Diversity
GER 3/B
Open to Jr/Sr only. Similar to CHEM 29102. Written report required. Fulfills requirement for departmental honors course.

_prereq: CHEM 22400, 35400, 34900, perm chair
8 hrs
2 cr.

Electives

Advanced lecture courses in special areas of chemistry, and lab courses providing training in inorganic and organic chemistry and in research techniques, are offered as electives for Major I and are open to students enrolled in Major II who have fulfilled the course prerequisites.

Graduate Study

Qualified chemistry majors may be admitted to 700-level courses in the graduate program. Permission of the department is required.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Chemistry Major I - BA

Return to: Programs of Study

Return to: Chemistry BA

The requirements for this major consist of a minimum of 54 credits in chemistry. This major is recommended for students preparing for admission to graduate school or for careers in chemical research. It will also be useful to students seeking a position in the chemical or allied industries, as it is accredited by the Committee on Professional Training of the American Chemical Society.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019

In the case of the Chemistry Major I, the courses that meet CCCR are:
Courses Required for the Chemistry Major I (80-96 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Introductory Math Sequence (0-9 credits)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.*

2 hrs

1 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**

**Hunter Core**

Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.

**prereq:** MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

**prereq:** MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

**Chemistry Courses**

**Chose one introductory sequence (11 credits)**

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

**prereq or coreq:** MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
**prereq:** CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.
CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)

GER
2/E

The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered spring

Required Chemistry Courses (42-45 credits)

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.
Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.
Note: Students must register
prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**CHEM 22500 - Organic Chemistry Laboratory II**

**GER**
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

**CHEM 24900 - Quantitative Analysis**

**GER**
GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

prereq: CHEM 10400 with grade of C or better, 10500
5 hrs (3 lab, 2 rec)
3 cr.
fall

**CHEM 34900 - Instrumental Analysis**

**Pluralism and Diversity**
GER 3/B

Principles of modern instrumental techniques; emphasis on spectroscopic and electrometric methods.

prereq: CHEM 35400 or 35600 with grade of C or better with 35500
8 hrs (2 lec, 6 lab)
CHEM 35200 - Physical Chemistry I

GER
3/B

Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.

prereq: CHEM 24900 and MATH 25000 and PHYS 12100 all with a grade of C or better
3 hrs
3 cr.
offered fall

CHEM 35400 - Physical Chemistry II - F

Pluralism and Diversity
GER 3/B

Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.

prereq: CHEM 35200, MATH 25000
3 hrs
3 cr.
offered fall

CHEM 35600 - Physical Chemistry II

GER
GER 3/B

Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 25000 all with grade of C or better
3 hrs
3 cr.
offered spring

CHEM 35500 - Physical Chemistry Laboratory I

GER
3/B

Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall
CHEM 35700 - Physical Chemistry Laboratory II

Pluralism and Diversity
GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.

prereq: CHEM 24900 or perm chair

prereq or coreq: CHEM 35600
3 hrs
1.5 cr.
offered spring

CHEM 36600 - Inorganic Chemistry

GER
GER 3/B
Treatment of structure, bonding and reactivity of inorganic compounds.

prereq: CHEM 35200 with grade of C or better
3 hrs
3 cr.
offered fall

CHEM 37600 - Biochemistry I

GER
3/B
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

One further laboratory course must be chosen from (research), (honors research) or the following

CHEM 29102 - Chemical Investigations

Pluralism and Diversity
GER 3/B
Original chemical investigations under supervision of faculty member. Written report required. Enrollment for maximum of two semesters.

prereq: CHEM 22400, perm chair
8 hrs
2 cr.
In addition, one additional lecture course must be chosen from among the following:

**CHEM 32200 - Organic Chemistry Lecture III**

**GER**

3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

- **prereq:** Chem 22404 with a grade of C or better OR Chem 22406 with a grade of C or better
- 3 hrs
- 3 cr.
- offered fall

**CHEM 35400 - Physical Chemistry II - F**

**Pluralism and Diversity**

**GER 3/B**

Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.

- **prereq:** CHEM 35200, MATH 25000
- 3 hrs
- 3 cr.
- offered fall

**CHEM 35600 - Physical Chemistry II**

**GER**

**GER 3/B**

Selected topics from quantum chemistry, molecular structure, and spectroscopy.

- **prereq:** PHYS 12100, CHEM 24900, MATH 25000 all with grade of C or better
- 3 hrs
- 3 cr.
- offered spring

**CHEM 37700 - Biochemistry II**

**GER**

3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

- **prereq:** CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
- 3 hrs
- 3 cr.

**CHEM 38800 - Topics of Current Interest in Chemistry**
Pluralism and Diversity
GER 3/B
Offered subject to adequate student interest and enrollment. Taught by specialists from department faculty. The specific topic will be listed in the schedule of classes for a given semester.

prereq or coreq: CHEM 35200 and CHEM 35600 or perm instr.
3 hrs
3 cr.

CHEM 39200 - Introduction to Radiochemistry

Introduction to Radiochemistry is a lecture course with a laboratory component. The course will provide an introduction to the fundamental principles of radiochemistry, radioactive counting instrumentation, radioisotope production and applications of radiochemistry.

prereq: CHEM 22400 and CHEM 22500
coreq: CHEM 35000 or CHEM 35200
5 hrs (2 lecture, 3 lab)
3 cr.

* Chem 32200 is the recommended elective but CHEM 37700, CHEM 39200 or CHEM 38800 can also be taken. All elective require departmental permission.

Also acceptable for completion of Major I are

PHYS 33000 - Atomic and Nuclear Physics

Examines experimental evidence and develops modern view of structure of atom and nucleus.
prereq: PHYS 12000 or 12100
prereq or coreq: MATH 25000
4 hrs
4 cr.

Note: Students should be aware, however, that if either of the philosophy courses is used to complete the Major I requirements, the major will not be eligible for accreditation by the American Chemical Society.

Physics and Math Requirement (26-28 credits)

One year of physics, and four semesters of mathematics, are also required for this major.

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.
prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.
PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER 2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.
prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 25000 - Calculus III
Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

*prereq: MATH 15500, MATH 15600
*4 hrs
*4 cr.

**MATH 25400 - Ordinary Differential Equations**

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

*prereq: MATH 25000
*3 hrs
*3 cr.

*These courses may be counted for credit in more than one program.

**Additional Information**

CHEM 24900, MATH 15000 (STEM) and MATH 15500 (STEM), and PHYS 12100 (STEM) are prerequisites for CHEM 35200 and should be completed by the end of the sophomore year.

Major I is required of all students who wish to be considered for certification by the American Chemical Society upon graduation. It is recommended for all students intending to enter the profession of chemistry through either graduate study or employment in industry or government. Students who can attend only in the evenings should consult the department adviser regarding the feasibility of completing Chemistry Major I.

**Degree Map for Chemistry Major I**

Degree Map for Chemistry Major I

**Chemistry Major II - BA**

Return to: Programs of Study

Return to: Chemistry BA

**Major II** offers three options. Option 1 is for students interested in the chemical industry. Option 2 is for students preparing for admission to medical, dental or veterinary schools or who are interested in the pharmaceutical industry. Option 3 is for students interested in biochemistry or bioinformatics. See details below.

**Chemistry Major II Options**

- Chemistry Major II- Chemistry Option 1
- Chemistry Major II: Biochemistry Option 2
- Chemistry Major II: Bioinformatics Option 3
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

In the case of the Chemistry Major II, the courses that meet CCCR are:

<table>
<thead>
<tr>
<th>Courses</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500</td>
<td>Math &amp; Quantitive Reasoning</td>
</tr>
<tr>
<td>CHEM 10200 (STEM)</td>
<td>Scientific World and Life and Physical Sciences</td>
</tr>
<tr>
<td>CHEM 10400 (STEM)</td>
<td>Scientific World and Life and Physical Sciences</td>
</tr>
<tr>
<td>CHEM 10600 (STEM)</td>
<td>Scientific World and Life and Physical Sciences</td>

<tr>
<td>CHEM 11100 (STEM)</td>
<td>Scientific World and Life and Physical Sciences</td>
</tr>
<tr>
<td>CHEM 11200 (STEM)</td>
<td>Scientific World and Life and Physical Sciences</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core requirement.

Courses Required for the Chemistry Major II

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students who are exempt from MATH 10100 and MATH 12500 (STEM) do not have to make up the credits.

Chemistry Major II- Chemistry Option 1

Courses Required for the Major (62-73 credits)

For students interested in a career in the chemical industry. It consists of a minimum of 28 credits in chemistry above the introductory level and an 11-credit general chemistry core for a minimum total of 39 credits of chemistry. One year of physics and three semesters of calculus are also required.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students who are exempt from MATH 10100/MATH 101EN, MATH 10150, MATH 12400 (STEM)/MATH 12500 (STEM)/MATH 12550 (STEM) and MATH 14000 do not have to make up the credits.
Required Chemistry Courses (39-41 cr.)

Choose One General Chemistry Sequence (11 cr.)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.

Primarily for pre-med, medical laboratory sciences and science majors.

\textit{prereq: CHEM 11100}

9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)

5.5

offered spring

Organic Chemistry (13 cr.)

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

\textit{prereq: CHEM 10400 with a grade of C or better}

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

\textit{prereq: CHEM 22200 with a grade of C or better}

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

Additional Required Courses (12 cr.)

**CHEM 24900 - Quantitative Analysis**

**GER**

GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

\textit{prereq: CHEM 10400 with grade of C or better, 10500}

5 hrs (3 lab, 2 rec)

3 cr.

fall
CHEM 35200 - Physical Chemistry I

GER
3/B

Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.

prereq: CHEM 24900 and MATH 25000 and PHYS 12100 all with a grade of C or better
3 hrs
3 cr.
offered fall

CHEM 35400 - Physical Chemistry II - F

Pluralism and Diversity
GER 3/B
Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.

prereq: CHEM 35200, MATH 25000
3 hrs
3 cr.
offered fall

CHEM 35500 - Physical Chemistry Laboratory I

GER
3/B

Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall

CHEM 35700 - Physical Chemistry Laboratory II

Pluralism and Diversity
GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.

prereq: CHEM 24900 or perm chair
prereq or coreq: CHEM 35600
3 hrs
1.5 cr.
offered spring

Required Elective Course (3-5 cr.)
Required Math Courses (12-22 cr.)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs
1 cr.
MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.
prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 25000 - Calculus III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500, MATH 15600
4 hrs
4 cr.

Required Physics Courses (11 cr.)

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

*prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

*prereq: PHYS 11000 or 11100
*prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

*Note: These courses may be counted for credit in more than one program.*

Choose One General Chemistry Sequence (11 cr.)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E
The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered spring

Organic Chemistry (13 cr.)

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy. Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously. Note: Students must register
prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B
Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

Additional Required Chemistry Courses (13 cr.)

**CHEM 35000 - Biophysical Chemistry**

Pluralism and Diversity
GER 3/B
Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.
prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better
5 hrs (4 lec, 1 rec)
4 cr

**CHEM 37600 - Biochemistry I**

GER
3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

**CHEM 37700 - Biochemistry II**

GER
3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
3 hrs
3 cr.

**CHEM 37800 - Biochemistry Laboratory (W)**

GER
3/B

A set of laboratory experiments, performed by individual students, covering important areas of biochemistry such as protein analysis, enzyme purification, enzymatic assays, recombinant DNA and the polymerase chain reaction.
**Required Elective Course (3 cr.)**

Any chemistry course at the 300 level or above excluding CHEM 34900 Instrumental Analysis and CHEM 49101 Introduction to Research. Also acceptable CHEM 24900 Quantitative Analysis

**Required Biology courses (9 cr.)**

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500**

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

*spring only*

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN**

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

Required Math Courses (8-17 cr.)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.
prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

Required Physics Courses (9 cr.)

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.  
*prereq: PHYS 11000 or 11100  
7 hrs (3 lec, 3 lab, 1 rec)  
4.5 cr.

*Note: These courses may be counted for credit in more than one program.

Degree Map for Chemistry Major II Option 2

Degree Map for Chemistry Major II - Option 2

Chemistry Major II: Bioinformatics Option 3

Return to: Programs of Study

Return to: Chemistry BA

Return to: Chemistry Major II - BA

Courses Required for the Major (72.5-81.5 credits)

For students interested in graduate studies in biochemistry and bioinformatics as well as the pharmaceutical and biotechnology industry. In order to enroll in this Option, students must earn an average grade of B- or above in CHEM 10400 (STEM), CHEM 22200, BIOL 10000 (STEM) and MATH 15000 (STEM). In addition, no more than one C grade is allowed in these four courses to declare Option 3. This option consists of a minimum of 23.5 credits above the introductory level and an 11-credit general chemistry core for a minimum total of 34.5 credits of chemistry. Three semesters of biology, one year of physics, one year of computer science, one year of calculus, and one semester of statistics are also required.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students who are exempt from MATH 10100/MATH 101EN, MATH 10150, MATH 12400 (STEM)/MATH 12500 (STEM)/MATH 12550 (STEM) and MATH 14000 do not have to make up the credits.

Required Chemistry Courses (34.5 cr.)

Choose One General Chemistry Sequence (11 cr.)

CHEM 10200 (STEM) - General Chemistry I

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)  
GER  
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500*
CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered spring

Organic Chemistry (10.5 cr.)

CHEM 22200 - Organic Chemistry Lecture I
GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER

3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.
Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.
Note: Students must register
prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 2204 OR CHEM 2206
3 hrs
2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

Additional Required Chemistry Courses (13 cr.)

CHEM 35000 - Biophysical Chemistry

Pluralism and Diversity
GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.
prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better
5 hrs (4 lec, 1 rec)
4 cr

CHEM 37600 - Biochemistry I

GER

3/B
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

*prereq:* CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

**CHEM 37700 - Biochemistry II**

**GER**
3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

*prereq:* CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
3 hrs
3 cr.

**CHEM 33300 - Computational Drug Discovery**

Computational exercises and literature analyses of drug-macromolecule interactions, computer-assisted drug design, metabolic engineering, and personalized medicine.

*prereq:* CHEM 37600 or BIOL 30000 or permission of the instructor
3 hrs
3 cr.
offered spring

**Required Biology Courses (12 cr.)**

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq:* CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only
BIOL 10200 (STEM) - Principles of Biology II

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

BIOL 42500 - Computational Molecular Biology

**GER**
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.

3 hrs

3 cr.

Required Mathematics and Statistics Courses (11-20 cr.)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 101EN - Algebra for College Students - Enhanced**

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the
function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100.

prereq: Department Permission

6 hrs
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
 preempt: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
 4 hrs
 4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
 preempt: grade of C or better in MATH 15000
 4 hrs
 4 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
 preempt: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
 3 hrs
 3 cr.

Required Physics Courses (9 cr.)

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.
 preempt: MATH 12400 or 12500 or 12550 or 15000 or 15500
 7 hrs (3 lec, 3 lab, 1 rec)
 4.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

**prereq:** PHYS 11000 or 11100

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

### Required Computer Science Courses (6 cr.)

**CSCI 13200 - Practical UNIX and Programming, with Lab**

**Hunter Core**

Scientific World (SW)

**GER**

2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

**prereq:** none

3 hrs

3 cr.

**CSCI 23200 - Relational Databases and SQL Programming, with Lab**

**GER**

3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

**prereq:** CSCI 12700 or CSCI 13200

3 hrs

3 cr.

*Note:* These courses may be counted for credit in more than one program.

### Degree Map for Chemistry Major II Option 3

Degree Map for Chemistry Major II Option 3 Bioinformatics BA

### Degree Map for Chemistry Major II Option 1
The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Chemistry major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)
**GER**
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express
themselves clearly and effectively. Introduction to documented research. 

**prereq:** successful completion of developmental courses, if required

3 hrs + conf

3 cr.

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**

Scientific World (SW) Life and Physical Sciences (LPS)

**GER**

2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

**prereq or coreq:** coreq (with perm dept.): MATH 15000

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

**Spring**

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**prereq:** grade of C or better in MATH 15000

4 hrs

4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**

Life and Physical Sciences (LPS) Scientific World (SW)

**GER**

2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

**prereq:** CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)

4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E
Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

Sophomore Year

Fall

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A
Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.
prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

MATH 25000 - Calculus III

GER
3/B
Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500, MATH 15600
4 hrs
4 cr.
CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.
Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.
Note: Students must register
prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.

Spring

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

• FOREIGN LANGUAGE Elementary Level 1
Junior Year

Fall

CHEM 24900 - Quantitative Analysis

GER
GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

prereq: CHEM 10400 with grade of C or better, 10500
5 hrs (3 lab, 2 rec)
3 cr.
fall

Spring

CHEM 34900 - Instrumental Analysis

Pluralism and Diversity
GER 3/B
Principles of modern instrumental techniques; emphasis on spectroscopic and electrometric methods.

prereq: CHEM 35400 or 35600 with grade of C or better with 35500
8 hrs (2 lec, 6 lab)
5 cr
offered spring

Senior Year

Fall

CHEM 35200 - Physical Chemistry I
Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.

prereq: CHEM 24900 and MATH 25000 and PHYS 12100 all with a grade of C or better
3 hrs
3 cr.
offered fall

CHEM 35500 - Physical Chemistry Laboratory I

Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall

- Creative Expression (CE)
- FOREIGN LANGUAGE Intermediate Level 4
- ELECTIVE

Spring

CHEM 35600 - Physical Chemistry II

Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 25000 all with grade of C or better
3 hrs
3 cr.
offered spring

CHEM 35700 - Physical Chemistry Laboratory II

Pluralism and Diversity
GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.

prereq: CHEM 24900 or perm chair

prereq or coreq: CHEM 35600
3 hrs
1.5 cr.
offered spring

- World Cultures & Global Issues (WCGI)
- Individual and Society (Humanities) I&S H
- ELECTIVE (if needed)
- ELECTIVE (if needed)

Notes:

For students who place below MATH 15000, please note the following Math sequence:

- MATH 10100 – MATH 12400, MATH 12500 or MATH 12550 – MATH 150. If you start with MATH 12500 Precalculus or MATH 12550 or MATH 12400, the degree map is shifted by one semester and still allows for completion of the major in 4 years.
- *CHEM 111 and CHEM 112 are sequence options in place of CHEM 102, CHEM 104 and CHEM 106
- If taking CHEM 111, this is a special honors course and is a prerequisite for CHEM 112.
- CHEM 34900 is the recommended elective but CHEM 32200, 36600, 39200, 37600 or 38800 are acceptable. All electives require departmental permission.
- In Junior and senior year, a 300-level chemistry course must be taken.

Degree Map for Chemistry Major II -Option 2

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Chemistry major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall

- CHEM 10200 (STEM) General Chemistry I
- MATH 15000 (STEM) Calculus I
- ENGL 12000

Spring

MATH 15500 (STEM) - Calculus II
**Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.**

*prereq: grade of C or better in MATH 15000*

4 hrs

4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**GER**

2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better*

5 hrs (4 lec, 1 rec)

4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**

**GER** 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200*

*coreq: CHEM 10400*

6 hrs

3 cr.

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**

**PD/C or D**

**GER**

2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

Sophomore Year

Fall

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.
prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER

3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy. Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.
Note: Students must register
prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.
**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq:** BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

**fall only**

---

**Spring**

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**prereq:** CHEM 22200 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

**CHEM 22500 - Organic Chemistry Laboratory II**

**GER**

3/B

Continuation of CHEM 22300.

**prereq:** CHEM 22300
**prereq or coreq:** CHEM 22400

4 hrs

2.5 cr

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E
First semester of two-semester introductory physics course using algebra.
prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
- FOREIGN LANGUAGE Elementary Level 1
- US Experience in Its Diversity (USED)

Junior Year

Fall

CHEM 37600 - Biochemistry I

GER
3/B
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
- CHEM elective (CHEM 24900 is recommended but CHEM 32200, CHEM 36600, CHEM 39200, CHEM 37700 or CHEM 38800 are acceptable.) All electives require departmental permission.
- Individual and Society (Social Sciences) I&S SS

Spring

CHEM 37700 - Biochemistry II

GER
3/B
Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
CHEM 37800 - Biochemistry Laboratory (W)

GER
3/B

A set of laboratory experiments, performed by individual students, covering important areas of biochemistry such as protein analysis, enzyme purification, enzymatic assays, recombinant DNA and the polymerase chain reaction.

prereq: ENGL 12000, CHEM 22500 with grade of C or better
prereq or coreq: CHEM 37700 or CHEM 64100
5 hrs (4 lab, 1 rec)
3 cr.

CHEM 35000 - Biophysical Chemistry

Pluralism and Diversity
GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better
5 hrs (4 lec, 1 rec)
4 cr

If taking CHEM 11100, this is a special honors course and is a prerequisite for CHEM 11200.

In junior and senior year, a 300-level chemistry course must be taken.

For Chemistry Elective, CHEM 24900 is recommended but CHEM 32200, CHEM 36600, CHEM 39200, CHEM 37700 or CHEM 38800 are acceptable.) All electives require departmental permission.

Undergraduate Minor

Minor in Chemistry

A minor in Chemistry consists of 27 – 27.5 credits as follow:

1. Before declaring the minor

Students must complete 11 cr of foundational courses

CHEM 10200 (STEM) General Chemistry I
CHEM 10400 (STEM) General Chemistry II
CHEM 10600 (STEM) General Chemistry Laboratory
-or-
CHEM 10200 (STEM) General Chemistry I
CHEM 10300 (STEM) General Chemistry Laboratory I
CHEM 10400 (STEM) General Chemistry II
CHEM 10500 (STEM) General Chemistry Laboratory II

2. An additional 13-13.5 credits of course work, including the required courses below

3. One 3-credit elective from Chemistry offerings numbered 300

Required courses for the Minor:

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
**CHEM 22300 - Organic Chemistry Laboratory I**

**GER**

3/B

Various organic syntheses, distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register

**prereq:** CHEM 10500 OR CHEM 10600 OR CHEM 11200

**coreq:** CHEM 22301

**prereq or coreq:** CHEM 22204 OR CHEM 22206

3 hrs

2.5 cr.

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**prereq:** CHEM 22200 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

**CHEM 22500 - Organic Chemistry Laboratory II**

**GER**

3/B

Continuation of CHEM 22300.

**prereq:** CHEM 22300

**prereq or coreq:** CHEM 22400

4 hrs

2.5 cr

- Elective: Any 300 Level (3 cr)

**Other Programs**

**Degree Map for Chemistry Major II Option 3 Bioinformatics BA**

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Chemistry major. The Degree Map is a tool to assist you and your advisor in planning your academic
path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

**Freshman Year**

**Fall**

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500*

5 hrs (4 lec, 1 rec)

4 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better; AND coreq MATH 14000; or the appropriate score on a mathematics placement test.*

4 hrs

4 cr.

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)

**GER**
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*
3 hrs + conf
3 cr.
• US Experience in Its Diversity (USED)

Spring

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

- Individual and Society (Humanities) I&S H

**Spring**

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E
First semester of two-semester introductory physics course using algebra.

**prereq:** MATH 12400 or 12500 or 12550 or 15000 or 15500  
7 hrs (3 lec, 3 lab, 1 rec)  
4.5 cr.

**CSCI 13200 - Practical UNIX and Programming, with Lab**

**Hunter Core**  
Scientific World (SW)  
GER  
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.  
This course cannot be counted towards the CSCI major.  
**prereq:** none  
3 hrs  
3 cr.

Foreign Language Requirement - Elementary Level 1

**Junior Year**

**Fall**

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
GER  
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.  
**prereq:** PHYS 11000 or 11100  
7 hrs (3 lec, 3 lab, 1 rec)  
4.5 cr.

**CHEM 37600 - Biochemistry I**

**GER**  
3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.  

**prereq:** CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better  
4 hrs (3 lec, 1 rec)  
3 cr.
BIOL 42500 - Computational Molecular Biology

GER
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of *in silico* biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

*prereq:* BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.

3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

*prereq:* CSCI 12700 or CSCI 13200

3 hrs
3 cr.

• FOREIGN LANGUAGE Elementary Level 2

Spring

CHEM 35000 - Biophysical Chemistry

Pluralism and Diversity
GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

*prereq:* CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better

5 hrs (4 lec, 1 rec)
4 cr

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

- Individual and Society (Social Sciences) I&S SS
- FOREIGN LANGUAGE Intermediate Level 3
- ELECTIVE

Senior Year

Fall

CHEM 37700 - Biochemistry II

GER
3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
3 hrs
3 cr.

- FOREIGN LANGUAGE Elementary Level 4
- Creative Expression (CE)

Spring

- World Cultures & Global Issues (WCGI) &nbsp;
- Individual and Society (Humanities)
- CHEM 33300 Computational Drug Discovery

Notes:

Students who place below MATH 15000, please note the following Math sequence:

MATH 10100 – MATH 12400, MATH 12500 or MATH 12550 – MATH 150. If you start with MATH 12500 Pre-calculus or MATH 12550 or MATH 12400, the degree map is shifted by one semester and still allows for completion of the major in 4 years.

*CHEM 11100 and CHEM 11200 are sequence options in place of CHEM 10200, CHEM 10400 and CHEM 10600

If taking CHEM 11100, this is a special honors course and is a prerequisite for CHEM 11200.
CHEM 10000 (STEM) - Essentials of General Chemistry Lecture

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
GER 2/E

Essential facts, laws, and theories of general chemistry. Primarily for nursing, nutrition and food science and community health education students. Core credit only if both lecture and the corresponding lab are completed.

*prereq or coreq: MATH 10100 or 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500*

4 hrs (3 lec, 1 rec)
3 cr.

CHEM 10100 - Inquiries into the Nature of Matter

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**GER**
GER 2/E

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students. Primarily for nursing, nutrition and food science and public health students.

3 hrs
3 cr.

CHEM 10200 (STEM) - General Chemistry I

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500*

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10300 (STEM) - General Chemistry Laboratory I

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
**Pluralism and Diversity**
GER 2/E

Study of experiments designed to illustrate fundamental laws and techniques of chemistry.
Core credit awarded only if CHEM 10200 (STEM) and CHEM 10300 (STEM) are completed. Primarily for pre-med, medical laboratory sciences and science majors.

Offered only for special honors.

prereq or coreq: CHEM 10200
3 hrs
1.5 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10500 (STEM) - General Chemistry Laboratory II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E

Laboratory experiments illustrating and applying theory of solutions to qualitative analysis.
Offered for transfer students who have completed only one semester of General Chemistry Laboratory.
prereq: One semester of General Chemistry Laboratory.
prereq or coreq: CHEM 10400
3 hrs
1.5 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 11100 (STEM) - Chemical Principles
**CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
*GER 2/E*

In-depth introduction to chemical principles including measurement, stoichiometric calculations, inorganic nomenclature, gas laws, equilibrium, acids, bases and buffers. Emphasis is placed on problem-solving, oral presentations, and collaborative work. Laboratory and coursework emphasize analysis and evaluation of data. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or 12500 or 12550*

9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)

5.5

offered fall

**CHEM 11500 - Introductory Chemistry**

An introduction to the fundamental concepts in chemistry including atomic and molecular structure, chemical bonding, stoichiometry, and solution chemistry.

This course is appropriate for students who have had no prior coursework in chemistry.

*prereq or coreq: MATH 12400 or 12500 or 12550*

4 hrs (3 lec, 1 rec)

3 cr.

**CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
*GER 2/E*

Course presents essential facts, laws and theories of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

*prereq: CHEM 10000*

4 hrs (3 lec, 1 rec)

3 cr.

**CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory**
**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E
Experiments designed to illustrate fundamental laws and techniques of organic chemistry.
Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and public health students.

*prereq: CHEM 10100
prereq or coreq: CHEM 12000
3 hrs (3 lab)
1.5 cr.*

**CHEM 15000 - Peer-Led Teaching in Chemistry**
Students learn to become peer-leaders for workshops held in either Essentials of Chemistry, General Chemistry, or Organic Chemistry Topics include: multiple intelligences and differences in learning styles; basic theory of learning; issues related to race, class and gender.

*prereq: CHEM 12000, CHEM 10400, or CHEM 11200 and perm dept.
2 hrs
1 cr.*

**CHEM 22200 - Organic Chemistry Lecture I**

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.*

**CHEM 22300 - Organic Chemistry Laboratory I**

GER
3/B
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.
Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.
Note: Students must register
*prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.*

**CHEM 22301 - Organic Chemistry 1 Lab Rec**
Recitation required for Organic 1 Laboratory

1 hr.
0 cr.
CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

CHEM 22501 - Organic Chemistry 2 Lab Rec

Recitation required for Organic 2 Laboratory
1
0

CHEM 24900 - Quantitative Analysis

GER
GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

prereq: CHEM 10400 with grade of C or better, 10500
5 hrs (3 lab, 2 rec)
3 cr.
fall

CHEM 29101 - Chemical Investigations

Pluralism and Diversity
GER 3/B
Original chemical investigations under supervision of faculty member. Written report required. Enrollment for maximum of two semesters.
CHEM 29102 - Chemical Investigations

Pluralism and Diversity
GER 3/B

Original chemical investigations under supervision of faculty member. Written report required. Enrollment for maximum of two semesters.

prereq: CHEM 22400, perm chair
4 hrs
1 cr.

CHEM 29500 - Introduction to Planning and Teaching of Laboratory Work in Chemistry

Participate in supervised teaching experiments that demonstrate important principles of chemistry.

prereq: CHEM 10400, CHEM 10500, two letters from faculty who have taught the student
8 hrs (2 planning, 3 lab)
2 cr.

CHEM 32200 - Organic Chemistry Lecture III

GER
3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

prereq: Chem 22404 with a grade of C or better OR Chem 22406 with a grade of C or better
3 hrs
3 cr.
offered fall

CHEM 33300 - Computational Drug Discovery

Computational exercises and literature analyses of drug-macromolecule interactions, computer-assisted drug design, metabolic engineering, and personalized medicine.

prereq: CHEM 37600 or BIOL 30000 or permission of the instructor
3 hrs
3 cr.
offered spring

CHEM 34900 - Instrumental Analysis

Pluralism and Diversity
GER 3/B

Principles of modern instrumental techniques; emphasis on spectroscopic and electrometric methods.
CHEM 35000 - Biophysical Chemistry

Pluralism and Diversity
GER 3/B
Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better

5 hrs (4 lec, 1 rec)

4 cr.

CHEM 35100 - Biophysics Laboratory

Basic theory and application of a variety of spectroscopic techniques used to determine structure, function and other properties of biological molecules.

prereq: CHEM 37600 and CHEM 22500
coreq: CHEM 35000

4 hrs (3 lab, 1 Rec)

3 cr.

CHEM 35200 - Physical Chemistry I

GER

Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.

prereq: CHEM 24900 and MATH 25000 and PHYS 12100 all with a grade of C or better

3 hrs

3 cr.

offered fall

CHEM 35400 - Physical Chemistry II - F
Pluralism and Diversity
GER 3/B
Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.

prereq: CHEM 35200, MATH 25000
3 hrs
3 cr.
offered fall

**CHEM 35500 - Physical Chemistry Laboratory I**

GER
3/B
Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall

**CHEM 35600 - Physical Chemistry II**

GER
GER 3/B
Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 25000 all with grade of C or better
3 hrs
3 cr.
offered spring

**CHEM 35700 - Physical Chemistry Laboratory II**

Pluralism and Diversity
GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.

prereq: CHEM 24900 or perm chair
prereq or coreq: CHEM 35600
3 hrs
1.5 cr.
offered spring

**CHEM 36000 - Introduction to Nanotechnology**

This course introduces students to the underlying principles and applications of the emerging fields of nanotechnology and nanoscience. Intended for a multidisciplinary audience with a variety of backgrounds, the course introduces tools and principles relevant at the nano scale dimension. The course discusses current and future nanotechnology
applications in engineering, materials, physics, chemistry, biology, electronics, and energy.

prereq: CHEM 35000 or CHEM 35200  
coreq: CHEM 35600  
3 hrs  
3 cr.  
offered fall

**CHEM 36600 - Inorganic Chemistry**

**GER**  
GER 3/B  

Treatment of structure, bonding and reactivity of inorganic compounds.

prereq: CHEM 35200 with grade of C or better  
3 hrs  
3 cr.  
offered fall

**CHEM 36700 - Inorganic Chemistry Laboratory (W) (Spring 2020)**

Inorganic Chemistry laboratory will provide an introduction to the fundamental principles of inorganic chemistry, synthesis and characterization of a variety of inorganic and organometallic compounds using analytical techniques including FTIR, NMR, UV-Visible spectroscopy, electrochemistry, and some simple methods such as melting and/or boiling points.

prereq: CHEM 36600 and CHEM 22500 all with C or better, ENGL 12000  
4 hrs, (4 lab)  
2 cr.

**CHEM 36800 - Structural Biology (W) (Spring 2020)**

This course introduces students to the applications of molecular spectroscopy and other emerging techniques used to study the structure, the molecular interactions and the self-assembly of biomolecules. The course will be taught in a mixed format including lectures, computer laboratory projects, student-led discussions on journal papers, and a final writing/oral presentation project.

prereq: Department Permission Required, CHEM 37600 and either CHEM 35000 or CHEM 35200 all with C or better, ENGL 12000  
prereq or coreq: CHEM 37700 with C or better  
3 hrs.  
3 cr.

**CHEM 36900 - Introduction to Polymer Chemistry**

This course will cover mechanisms of polymerization reactions of monomers and molecular weight distributions of products; principles, limitations and advantages of important reactions; relationship of physical properties to structure and composition; correlations of applications with chemical structure.

prereq: CHEM 22400 with C or better, Department Permission Required  
3
CHEM 37000 - Medicinal Chemistry

The course will cover principles of drug discovery, drug design and drug action.

prereq: CHEM 37600 with C or better -or- BIO 30000 with C or better; Department Permission Required
3 hrs
3 cr.

CHEM 37100 - Biological Spectroscopy

Covers basic theory and application of a variety of spectroscopic techniques used to determine structure, function and other properties of biological molecules.

prereq: CHEM 37600 with C or better -or- BIO 30000 with C or better
3 hrs
3 cr.

CHEM 37600 - Biochemistry I

GER
3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

CHEM 37700 - Biochemistry II

GER
3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
3 hrs
3 cr.

CHEM 37800 - Biochemistry Laboratory (W)

GER
3/B

A set of laboratory experiments, performed by individual students, covering important areas of biochemistry such as protein analysis, enzyme purification, enzymatic assays, recombinant DNA and the polymerase chain reaction.

prereq: ENGL 12000, CHEM 22500 with grade of C or better
prereq or coreq: CHEM 37700 or CHEM 64100
5 hrs (4 lab, 1 rec)
3 cr.
CHEM 38800 - Topics of Current Interest in Chemistry

Pluralism and Diversity
GER 3/B
Offered subject to adequate student interest and enrollment. Taught by specialists from department faculty. The specific topic will be listed in the schedule of classes for a given semester.

prereq or coreq: CHEM 35200 and CHEM 35600 or perm instr.
3 hrs
3 cr.

CHEM 39000 - Current Laboratory Methods in Chemistry

Pluralism and Diversity
GER 3/B
Offered subject to adequate student interest and enrollment. Taught by specialists from department faculty. The specific topic will be listed in the schedule of classes for a given semester.

prereq or coreq: CHEM 35700 or perm instr.
4 hrs
2 cr.
offered spring

CHEM 39200 - Introduction to Radiochemistry

Introduction to Radiochemistry is a lecture course with a laboratory component. The course will provide an introduction to the fundamental principles of radiochemistry, radioactive counting instrumentation, radioisotope production and applications of radiochemistry.

prereq: CHEM 22400 and CHEM 22500
coreq: CHEM 35000 or CHEM 35200
5 hrs (2 lecture, 3 lab)
3 cr.

CHEM 39200 - Introduction to Radiochemistry

Introduction to Radiochemistry is a lecture course with a laboratory component. The course will provide an introduction to the fundamental principles of radiochemistry, radioactive counting instrumentation, radioisotope production and applications of radiochemistry.

prereq: CHEM 22400 and CHEM 22500
coreq: CHEM 35000 or CHEM 35200
5 hrs (2 lecture, 3 lab)
3 cr.

Chemistry: Honors Course

CHEM 49101 - Introduction to Research

Pluralism and Diversity
GER 3/B
Open to Jr/Sr only. Similar to CHEM 29101. Written report required. Fulfills requirement for departmental honors course.

prereq: CHEM 22400, 35400, 34900, perm chair
4 hrs
1 cr.

CHEM 49102 - Introduction to Research

Pluralism and Diversity
GER 3/B
Open to Jr/Sr only. Similar to CHEM 29102. Written report required. Fulfills requirement for departmental honors course.

prereq: CHEM 22400, 35400, 34900, perm chair
8 hrs
2 cr.

Program and Courses in Human Rights

Human Rights

Overview

The Human Rights Program examines the theory and practice of human rights, combining academic training with hands-on experience. By exploring the philosophical foundations and legal framework of human rights, as well as addressing current political, social and economic realities, the program seeks to give students the tools necessary to engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples' rights to natural resources, the limits of freedom of expression, the problem of corporate complicity in rights violations, the legitimacy of humanitarian intervention, and the problem of enforceability (both of economic, social, and cultural rights, and of civil and political rights).

An interdisciplinary program, the Human Rights Program offers courses in political science, anthropology, sociology and history, among other fields of study. Students may follow either of two academic tracks: a 15-credit Minor in human rights, or 24-credit Certificate. A key element of both tracks is the human rights internship, which gives students direct experience with the researchers, advocates, lawyers and analysts who make up the human rights movement. Both the Minor and Certificate in human rights are good preparation for a career in government, at a nongovernmental organization, or in a regional or international agency. Many students may choose to go on to law school, journalism school or a graduate program. Whatever their career choice, their knowledge of human rights will make them more thoughtful and informed citizens.

Human Rights Certificate

24-credit Certificate in Human Rights

- 4 Core Required Courses from an approved list
- HR 20000 Introduction to Human Rights: History, Discourse, Practice (W)
- HR 25000 Human Rights Internship
- HR 26000 Human Rights Internship Seminar (W)
- HR 35000 Human Rights Capstone Seminar (W)
- 4 Elective Cognate Courses from an approved list
• The approved list of cognates comprises courses drawn from 18 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Certificate program, a student must have at least completed HR 20000 with a B and have a cumulative GPA of 3.0.

Course Listing

Courses in Human Rights

Minor in Human Rights

The 15 credit minor in Human Rights consists of five 3 credit courses:

• 2 Core Required Courses
• Introduction to Human Rights (HR 20000)
• Internship in Human Rights (HR 25000)
• Elective Cognate Courses from an approved list
• The approved list of cognates comprises courses drawn from 16 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Minor program, a student must have completed HR 20000 with a B and have a cumulative GPA of 3.0.

HR 20000 - Introduction to Human Rights: History, Discourse, Practice (W)

Pluralism and Diversity
PD/D
GER
3/B

An introduction to the study of human rights. It explores the historical, philosophical, and legal roots of human rights as a political idea and institutionalized practice. It also addressed the contested nature of human rights as an idea and practice in contemporary societies. In addition to providing an introduction to the subject, the course is a requirement for students minoring in Human Rights or pursuing a Human Rights Certificate.

In order to pursue a Human Rights minor or Certificate, a student must receive at least a B (3.0) in this course. Students should take this introductory course in their sophomore year but must take it no later than the first semester of their junior year. This is a writing intensive course.

prereq: ENGL 12000 or equivalent; one course in ethics, political philosophy, political theory, sociological theory, or permission from the instructors.

3 hrs
HR 22000 - Special Topics in Human Rights

This course covers special topics in human rights. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. The course may be repeated four times for credit with different topics.

prereq: ENGL 12000; HR 20000 is recommended but not required
3 hrs
3 cr.

HR 25000 - Human Rights Internship

This is a practicum course. It involves students participating in an organization that identifies its mission as the promotion of human rights. The aim of the course is to educate students in the practical dimension of translating human rights discourse and law into practice. The course is required for students seeking a Human Rights Certificate or a minor in Human Rights.

prereq: ENGL 12000 or equivalent; HR 20000 or equivalent
3 hrs
3 cr.
fall, winter, spring, and summer

HR 26000 - Human Rights Internship Seminar (W)

This course critically evaluates the role of human rights organizations and human rights practices in determining the meaning and value of human rights.

prereq: ENGL 12000 and HR 20000
prereq or coreq: HR 25000
3 hrs
3 cr.
fall semesters on Wednesdays, 10:10 a.m. – 1:00 p.m. It is recommended that students not take an earlier Wednesday morning class, as site visits off campus may start at 10:00 a.m.

HR 32000 - Special Topics in Human Rights

This course covers special topics in human rights on an advanced undergraduate level. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. May be repeated four times for credit with different topics.

prereq: ENGL 12000; HR 20000 or Permission of Instructor or Permission of Human Rights Program Director
3 hrs
3 cr.
HR 35000 - Human Rights Capstone Seminar (W)

This course involves the theoretical examination of constitutive problems in the discourse and practice of human rights, especially as they would inform the composition of a human rights academic research project. It requires participating students to present their research projects in the seminar and to compose a 20-25 page research paper on a human rights topic.

This course is specifically designed for students who are pursuing a Certificate in Human Rights. This is a writing intensive course.

prereq or coreq: HR 26000

Offered spring only

Program and Courses in Jewish Studies

Jewish Studies

Overview

Jewish Studies is an inter-departmental, multi-disciplinary program offering a 24-credit major leading to a BA degree in Jewish Studies with courses in such fields as history, Hebrew language and literature, English and other literatures, religion, sociology, and political science. It also offers independent study and fieldwork on Jewish subjects and a 12-credit minor.

What can I do with my degree in Jewish Studies?

Graduates continue to careers in education, law, business, religious life, academics, politics, publishing and the arts. Jewish Studies majors are well-prepared to apply for graduate studies in many fields.

Undergraduate Major

Degree Map for Jewish Studies

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Classical Archaeology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core

English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required

3 hrs + conf

3 cr.

• Math & Quantitative Reasoning
• Individual and Society/ Social Sciences
• US Experience in its Diversity
• Foreign Language Elementary Level 1

Spring

ENGL 22000 - Introduction to Writing about Literature (W)
Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

*prereq: ENGL 12000*  
3 hrs + one additional conference hour  
3 cr.

- Scientific World  
- Individual and Society/ Humanities  
- World Cultures & Global Issues  
- Foreign Language Elementary Level 2

Notes:
• Jewish Studies is an inter-departmental, multi-disciplinary program.
• Jewish Studies majors should work with a program advisor to decide upon a sequence of Jewish Studies electives totaling 18 credits (6 classes).
• Jewish Studies electives can be completed with courses in fields such as History, Hebrew language, Literatures, Religion, Sociology and Political Science.
At least 6 credits (2 classes) must be at the 300 level or above.

**Jewish Studies - BA**

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Jewish Studies major, the courses that meet CCCR are:

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (24 credits)**

The 6 core credits required of all majors are:

**HIST 20800 - History of the Jews**

**Hunter Core**

*World Culture and Global Issues (WCGI)*

**Pluralism and Diversity**

PD/A

**GER**

2/B

An introductory survey emphasizing how Jewish communities adapted to a wide range of environments during more than 3000 years of world history.

*prereq or coreq: ENGL 12000*

3 hours

3 credits

**HEBR 22200 - Introduction to Jewish Texts and Writings**
**Hunter Core**
World Culture and Global Issues (WCGI)
A broad survey of influential Jewish texts and literary masterpieces from ancient to modern times.
prereq or coreq: ENGL 120
3 hours
3 credits

**15 Credits in Jewish Studies**

In addition to the core courses, students must select 15 credits in Jewish studies in conjunction with the program adviser, at least 6 of which must be at the 300-level or above. Students are encouraged to select from, but are not limited to, the following:

**HEBR 21100 - Masterpieces of Medieval Hebraic Literature in Translation (W)**

Hunter Core
Individual and Society (Humanities) -I&S H

Pluralism and Diversity
PD/D

GER
2/C

Selections from major works reflecting Jewish life and thought in medieval Islamic world and Christendom.
3 hrs
3 cr.

**HEBR 21200 - Readings in Modern Hebrew Literature in Translation (W)**

GER
2/C

Survey of Hebraic literature from Enlightenment movement to present.
3 hrs
3 cr

**HEBR 21800 - Masterpieces of Yiddish Literature in Translation (W)**

Pluralism and Diversity
PD/D

GER
3/A

Study of major works in Yiddish literature from Mendele Mocher Seforim to present.
prereq: ENGL 22000
3 hrs
3 cr

**HEBR 28100 - Masterpieces of Ancient Hebraic Literature in Translation (W)**

GER
3/A
Study of Hebrew classics and collateral works against background of Jewish history and ancient civilization.

3 hrs
3 cr

HEBR 49100 - Honors Project

Individual study and research in Hebrew literature in consultation with staff member. Honors essay required. May be repeated as topics vary from semester to semester. There are "unlimited" repeats for this course.

prereq: Jr/Sr only; perm division
1 sem
3 cr.

HIST 21000 - History of Judaism

GER
2/B

Survey of the Jewish religious tradition with attention to interactions between Judaism and other religions and to the role of Judaism in the formation of Christianity and Islam. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

Pluralism and Diversity
PD/D
GER
3/B

From the 18th century to the present: Enlightenment, Jewish emancipation and nationalism, a Jewish state; anti-Semitism and the Holocaust; recent trends.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 32100 - History of the Holocaust

GER
3/B

Examination of the mass murder of 6 million Jews by the Nazi regime during World War II.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 32700 - Europe since 1914

GER
3/B

Europe in a century of total wars and cold war: the military, political, social, economic and intellectual scene.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

JS 31000 - Jewish Studies Fieldwork

Supervised experience in a Jewish community agency, periodic consultation with program director and preparation of report or term paper based on the experience. May be taken twice for a total of 6 cr.
prereq: qualified Jr/Sr.
hrs TBA
3-6 cr.
JS 40000 - Individual Honors Project

Not open to students who have completed fewer than 60 credits. Guided readings on a topic in Jewish studies under faculty supervision. May be repeated on different topics for a total of 6 credits. A substantial research paper is required. Selected topics and problems in Jewish studies. qualified Jr/Sr, perm instr. or program director

prereq: 12 cr. in Jewish Studies, perm program director
3-6 hrs
3-6 cr.

JS 41050 - Jewish Studies Seminar I

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director
3 hrs
3 cr. each

JS 41051 - Jewish Studies Seminar II

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director
3 hrs
3 cr. each

POLSC 26400 - Government and Politics of Israel (W)

GER
3/B

Historic evolution of the Jewish state and its political system, social issues and foreign policy.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

REL 25200 - Ancient Near Eastern Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity

PD/A
GER
2/C

Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).

prereq: ENGL 12000
3 hrs
3 cr.

REL 25300 - Abrahamic Religions (W)
Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Study of Judaism, Christianity, and Islam— with some considerations of Zoroastrian parallels.

prereq: ENGL 12000
3 hrs
3 cr.

More Options

Other courses that may be selected to meet this 15-credit requirement are ENGL 38663 (ENGL 38600), The Bible in British and American Literature, ENGL 39058 (ENGL 39000), Literature and Catastrophe (focus on Holocaust Studies), ENGL 39968 (ENGL 39900), Jewish American Literature, HIST 74000, Modern Jewish Social and Intellectual History (see graduate catalog) and HIST 74800, American Jewish History (see graduate catalog).

Note

Up to 6 credits of independent study and fieldwork may be taken with special permission from the program adviser.

Capstone Course (3 credits)

One of the following courses should be taken as a capstone course:

JS 40000 - Individual Honors Project

Not open to students who have completed fewer than 60 credits. Guided readings on a topic in Jewish studies under faculty supervision. May be repeated on different topics for a total of 6 credits. A substantial research paper is required.
Selected topics and problems in Jewish studies. qualified Jr/Sr, perm instr. or program director

prereq: 12 cr. in Jewish Studies, perm program director
3-6 hrs
3-6 cr.

JS 41050 - Jewish Studies Seminar I

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director
3 hrs
3 cr. each

JS 41051 - Jewish Studies Seminar II

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director
3 hrs
3 cr. each
Honors in Jewish Studies

Students will be eligible for honors in Jewish Studies upon completion of 24 credits in Jewish Studies with a 3.5 GPA and a 2.8 cumulative GPA at the time of graduation. To be eligible to graduate with honors in Jewish Studies, students can take the following JS 40000 (Individual Honors Project) or JS 41050/JS 41051 (Jewish Studies Seminar, I or II), HEBR 49100 (Honors Project) or graduate courses with special permission, with a grade of B or better. Eligible students should apply for honors at the time they file for graduation.

Undergraduate Minor

Minor in Jewish Studies

The minor in Jewish Studies consists of 12 credits in courses in Jewish studies of which at least 3 credits must be on topics in the history of the Jews or Judaism and at least 3 credits in Jewish literature, thought, religion, or one of the social sciences (sociology, anthropology, or political science). Students can apply to the minor up to 6 credits in Independent Studies (JS 30000 or JS 40000 ) or fieldwork (JS 31000 ). Up to six credits in Jewish studies taken at other institutions of higher learning may be applied to the minor. Jewish Studies minors cannot apply any 100-level courses to the minor.

Jewish Studies

JS 15000 - Special Topics in Jewish Studies

Pluralism and Diversity
PD/A
Special Topics related to Jewish Studies at the introductory level.

3 hrs
3 cr.

JS 25000 - Special Topics in Jewish Studies

Pluralism and Diversity
PD/A
Special Topics related to Jewish Studies that move beyond the introductory level into more detailed understandings of the subject.

3 hrs
3 cr.

JS 25000 - Special Topics in Jewish Studies

Pluralism and Diversity
PD/A
Special topics related to Jewish Studies that move beyond the introductory level into more detailed understandings of
the subject.

prereq: None
3 hrs
3 cr.

**JS 30000 - Independent Studies**

Not open to students who have completed fewer than 30 credits. Guided readings under faculty supervision on a topic in Jewish Social Studies. May be repeated up to 3 times for a total of not more than 9 credits.

prereq: 3 cr. in Jewish Studies recommended
1-6 hrs
1-6 cr.

**JS 31000 - Jewish Studies Fieldwork**

Supervised experience in a Jewish community agency, periodic consultation with program director and preparation of report or term paper based on the experience. May be taken twice for a total of 6 cr.

prereq: qualified Jr/Sr.
hrs TBA
3-6 cr.

**JS 35000 - Special Topics in Jewish Studies**

*Pluralism and Diversity*
PD/A
Special Topics related to Jewish Studies that go into advanced studies of the field.

3 hrs
3 cr.

**JS 40000 - Individual Honors Project**

Not open to students who have completed fewer than 60 credits. Guided readings on a topic in Jewish studies under faculty supervision. May be repeated on different topics for a total of 6 credits. A substantial research paper is required.

Selected topics and problems in Jewish studies. qualified Jr/Sr, perm instr. or program director

prereq: 12 cr. in Jewish Studies, perm program director
3-6 hrs
3-6 cr.

**JS 41050 - Jewish Studies Seminar I**

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director
3 hrs
3 cr. each

**JS 41051 - Jewish Studies Seminar II**

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director
Program and Courses in Religion

Religion

Overview

In the program in Religion, students examine the nature of religion and the forms its various expressions have taken. Religion is studied as an academic discipline and the program's approach reflects no doctrinal bias. The purposes of the program are to introduce the field of religion in general; to present the thoughts, documents and history of major religious traditions (both Eastern and Western, ancient and modern, missionary and tribal); and to give students insight into specific religious issues and thinkers. The program consists of a series of core courses taught by specialists in the field, augmented by other religion courses offered by faculty in 8 participating departments or divisions: Anthropology, Africana and Puerto Rican/Latino Studies, Chinese, Classics, Hebrew, History, Philosophy and Sociology. The program is divided into four categories of courses: Introduction to the field of religion (basic introductory courses); Theoretical studies in religion (courses focusing on different methodological approaches to the study of religion); Issues in religion (courses dealing with religious experience, faith, ethics, religion and the arts); and Religious traditions (courses in major religious traditions).

What can I do with my degree in Religion?

Studying theology and religious studies gives you a thorough understanding of the major world religions, their historical development and their relationship with the world we live in. Graduates continue to careers in religion, law, education, business, journalism, social work, medicine and health care.

Degree Map for Religion

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Religion major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Minor in Religion

The Minor in Religion consists of four courses for a total of 12 credits.

- The following two courses are required:
  - REL 11000 - Nature of Religion (W)
  - REL 11100 - Approaches to Religion (W)

- Also required for the Minor in Religion:
  a) one course to be chosen from those listed under the category “Religious Traditions”; and
  b) one course from the category “Issues in Religion” reflecting a theme central to the religious tradition in which the student has chosen to focus, to be selected in consultation with a Religion Program adviser.

At least one course presented in satisfaction of the minor must be a 300-level course.

Religion - BA

Return to: Religion Program Information

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Religion, the courses that meet CCCR are:

**REL 11000 - Nature of Religion (W)**

**Hunter Core**

Individual and Society (Humanities) - I&S H

**GER**

2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.

3 hrs

3 cr.

**REL 111000 - Approaches to Religion (W)**
Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.  
\textit{prereq: ENGL 12000}  
3 hrs  
3 cr.

\textbf{REL 20400 - Religious Experience (W)}

Cross-cultural analysis of religious experiences: Biblical, ancient Greek, Asian, modern Western.  
\textit{prereq: ENGL 12000}  
3 hrs  
3 cr.

\textbf{REL 20500 - Faith and Disbelief (W)}

Examination of questions of faith and disbelief in modern Western thought.  
\textit{prereq: ENGL 12000}  
3 hrs  
3 cr.

\textbf{REL 20600 - Ideas of God in Contemporary Western Thought (W)}

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.  
\textit{prereq: ENGL 12000}  
3 hrs  
3 cr.
REL 20700 - Religious Sources for Morality (W)

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C

Religious reasons for determining good and evil; religious sources for ethical decisions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20800 - Religion and Social Justice (W)

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20900 - Religion and Human Rights (W)

Hunter Core
Individual and Society - Humanities
GER
2/C

It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.
prereq: ENGL 12000
3 hrs
3 cr.

REL 21100 - The Sacred Sky: Astrology in World Religions (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

prereq: ENGL 12000
3 hrs
3 cr.

REL 25100 - Asian Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.

prereq: ENGL 12000
3 hrs
3 cr.

REL 25200 - Ancient Near Eastern Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).

prereq: ENGL 12000
3 hrs
3 cr.

REL 25300 - Abrahamic Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Study of Judaism, Christianity, and Islam— with some considerations of Zoroastrian parallels.
**REL 25400 - Tribal Religions: From Australia to the Americas (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A or B
GER
2/C

Study of indigenous religions of Pacific Islanders and North American Indians.

**prereq:** ENGL 12000
3 hrs
3 cr.

**REL 25500 - Religions of Two Gods (W)**

**Pluralism and Diversity**
PD/A
GER
2/C

A survey of historical varieties of dualistic religion both classical and modern which inquires into the moral grounds for their recurring appeal.

**prereq:** ENGL 12000
3 hrs
3 cr.

**REL 25600 - Afro-Caribbean Religions (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/B
GER
2/C

An introduction to the diversity of African-based religions in the Caribbean and beyond.

**prereq:** ENGL 12000
3 hrs
3 cr.

**REL 25700 - Religions of Ancient Central and South America (W)**

**Hunter Core**
World Cultures and Global Issues (WCGI)

**Pluralism and Diversity**
P/D B
GER
Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization. The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.

*prereq: ENGL 12000

3 hrs
3 cr.

**REL 25800 - Religions of Ancient Europe (W)**

**Hunter Core**
World Cultures and Global Issues (WCGI)

**Pluralism and Diversity**
P/D D

**GER**
2/C

Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples—the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe—as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.

*prereq: ENGL 12000

3 hrs
3 cr.

**REL 27000 - Religion and Psychology (W)**

**Pluralism and Diversity**
P/D/D

**GER**
2/C

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.

*prereq: ENGL 12000

3 hrs
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (30 credits)**

A major in religion consists of 30 credits. A sequence of courses for the major normally includes REL 11000-Nature of Religion, REL 11100-Approaches to Religion, REL 25100-Asian Religions, and REL 25300-Abrahamic Religions followed by at least one course in theoretical studies and at least one course in religious issues.

- Introduction to the Field of Religion
- Theoretical studies in Religion
• Issues in Religion
• Religious Traditions
On becoming a major the student, in consultation with the director, will select one member of the program in Religion staff as his or her major adviser. Each religion major is required to consult with this adviser at least twice a year.

I. Introduction to the Field of Religion

REL 11000 - Nature of Religion (W)

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20900 - Religion and Human Rights (W)

Hunter Core
Individual and Society - Humanities
GER
2/C

It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

prereq: ENGL 12000
3 hrs
3 cr.

REL 21000 - Atheism (W)

When a person, group, or idea is called 'atheist,' is that only a statement about theology or metaphysics, or do those who use that label intend to invoke the cultural power of God and, if so, to what end? How is the concept, 'atheism,' put into action in the world, and what does what we say about atheism say about what we think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.
Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.
Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.

*prereq: ENGL 12000
3 hrs
3 cr.*

**REL 31000 - The Religious Meanings of Death (W)**

*Pluralism and Diversity*  
*PD/D*  
*GER*  
*3/A*

Consideration of the meaning of death in major world religions.  

*prereq: ENGL 12000
3 hrs
3 cr.*

**REL 31100 - Women and Religion (W)**

*Pluralism and Diversity*  
*PD/C*  
*GER*  
*3/A*

An examination of the role of women and the concept of the feminine in world religions.  

*prereq: ENGL 12000
3 hrs
3 cr.*

**REL 31200 - Religion and Politics (W)**

*Pluralism and Diversity*  
*PD/D*  
*GER*  
*3/A*

The role of political ideology in the shaping of religious belief and theology’s influence on politics in Western and non-Western traditions, both conservative and radical.  

*prereq: ENGL 12000
3 hrs
3 cr.*

**REL 31300 - Spirit and Nature (W)**

*Pluralism and Diversity*  
*PD/D*  
*GER*  
*3/A*

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.
REL 31400 - Religion and Sports (W)

GER
3/A

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport. Course foci: a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of team sports against the background of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative; and d) an arguable implicit spirituality of sport.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31500 - The Problem of Evil (W)

Pluralism and Diversity
PD/D
GER
3/A

Exploration of the religious meaning of evil in different cultures.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31600 - Men and Religion (W)

Pluralism and Diversity
PD/C -or- PD/D

Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31700 - Religion and Film (W)

As human expressions, both religion and film attempt to describe the world and organize it into a meaningful place for human activity. This course will survey the mutual academic studies of both film and religion, as well as the emerging discipline of 'religion and film studies.' As such, students will explore the nature of vision, representation, and narrative
– topics central to both film and religious studies. Students will also view and analyze films as expressions of culture, including religious culture, and seek to understand the impact of ideology and social practice, gender and sexuality, as well as the economic structures underlying both film and religion.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31800 - Religion and Science (W)

A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31900 - Religion and the Body (W)

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.

prereq: ENGL 12000
3 hrs
3 cr.

REL 33400 - Mysticism (W)

Pluralism and Diversity
PD/D
GER
3/A

Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.

prereq: ENGL 12000

3 cr.

**REL 32600 - Religious Meanings of the Qurʾān (W)**

**GER**  
3/A

This course introduces students to the study of the Qurʾān based on the traditional Islamic "sciences of the Qurʾān" (ʿUlūm al-Qurʾān). Using an introductory text on the Qurʾānic sciences, the course will introduce the traditional areas of concern in the Qurʾānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the textbook. This material is chosen on the basis of (1) interest, (2) accessibility (especially the availability of English translations) and (3) the ability to give students some exposure to the variety of styles and approaches to the material available in the literature, introducing the students to representative examples of the types of material referred to in the introductory text. This material provides students with illustrative exposure to both classical and modern Muslim approaches to the Qurʾān and its exegesis.
REL 33700 - Sufism (W)

Prerequisite:
ENGL 12000
3 hrs
3 cr.

A course on the esoteric or mystical dimension of Islam, known among Muslims as ta'awwuf, attending to the history, doctrine and metaphysics of the Sufi path.

Prerequisite: ENGL 12000
3 hrs
3 cr.

Tribal Religions

REL 25400 - Tribal Religions: From Australia to the Americas (W)

Prerequisite:
ENGL 12000
3 hrs
3 cr.

Study of indigenous religions of Pacific Islanders and North American Indians.

Examination of religious themes in art, music, theatre, cinema, or literature. Different topics each time offered.
prereq: ENGL 12000
3 hrs
3 cr.

REL 30900 - The Religious Meanings of Love and Sex (W)

Pluralism and Diversity
PD/D
GER
3/A

Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31000 - The Religious Meanings of Death (W)

Pluralism and Diversity
PD/D
GER
3/A

Consideration of the meaning of death in major world religions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31100 - Women and Religion (W)

Pluralism and Diversity
PD/C
GER
3/A

An examination of the role of women and the concept of the feminine in world religions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31200 - Religion and Politics (W)
Pluralism and Diversity
PD/D
GER
3/A

The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31300 - Spirit and Nature (W)

Pluralism and Diversity
PD/D
GER
3/A

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31500 - The Problem of Evil (W)

Pluralism and Diversity
PD/D
GER
3/A

Exploration of the religious meaning of evil in different cultures.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31600 - Men and Religion (W)

Pluralism and Diversity
PD/C-or PD/D

Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31800 - Religion and Science (W)
A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 31900 - Religion and the Body (W)**

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 33400 - Mysticism (W)**

**Pluralism and Diversity**

PD/D

GER

3/A

Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 33500 - Myth and Ritual (W)**

**Pluralism and Diversity**

PD/D

GER

3/A

Cross-cultural exploration of myth and ritual and their place in various cultures; methodologies for analysis.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 34000 - Homosexuality in World Religions (W)**

**Pluralism and Diversity**

PD/C

GER

3/A
A survey and analysis of typical ways in which homosexuality has been understood, evaluated and in some cases institutionalized in a variety of religious traditions, attending especially to implicit constructions of gender.

**REL 36100 - Special Topics: Issues in Religion**

GER

3/A

Study of particular religious topics or thinkers. Different subject each time offered.

3 hrs

3 cr.

**Religion: Religious Traditions**

**REL 21100 - The Sacred Sky: Astrology in World Religions (W)**

**Hunter Core**

World Cultures and Global Issues (WCGI)

GER

2/C

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 25100 - Asian Religions (W)**

**Hunter Core**

World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

PD/A

GER

2/C

Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.

**prereq:** ENGL 12000

3 hrs

3 cr.

World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/B
GER
2/C

An introduction to the diversity of African-based religions in the Caribbean and beyond.
*prereq: ENGL 12000
3 hrs
3 cr.

REL 25700 - Religions of Ancient Central and South America (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
P/D B
GER
2/C

Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization.
The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.
*prereq: ENGL 12000
3 hrs
3 cr.

REL 25800 - Religions of Ancient Europe (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
P/D D
GER
2/C

Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples--the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe--as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.
*prereq: ENGL 12000
3 hrs
3 cr.
REL 25800 - Religions of Ancient Europe (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2C

Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples--the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe--as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.

3 hrs
3 cr.

REL 26200 - Special Topics: Religious Traditions

Specialized study of specific religious traditions or groups of traditions. Different topic each time offered.

3 hrs
3 cr.

REL 31400 - Religion and Sports (W)

GER
3/A

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport. Course foci: a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of team sports against the background of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative; and d) an arguable implicit spirituality of sport.

prereq: ENGL 12000

3 hrs
3 cr.

REL 32000 - Hinduism (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of Hinduism, its development, history, literature, philosophy and religious practices.

prereq: ENGL 12000

3 hrs
3 cr.

REL 32100 - Buddhism (W)
Pluralism and Diversity
PD/A
GER
3/A

Study of Buddhism, its development, history, literature, philosophy and religious practices.

REL 32400 - Islam and Buddhism (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of Islam and Buddhism, their founders, development, beliefs, rituals and interaction.
prereq: ENGL 12000
3 hrs
3 cr.

REL 32600 - Religious Meanings of the Qur'ān (W)

GER
3/A
This course introduces students to the study of the Qur'ān based on the traditional Islamic "sciences of the Qur'ān" (‘Ulim al-Qur’ān). Using an introductory text on the Qur'ānic sciences, the course will introduce the traditional areas of concern in the Qur'ānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the textbook. This material is chosen on the basis of (1) interest, (2) accessibility (especially the availability of English translations) and (3) the ability to give students some exposure to the variety of styles and approaches to the material available in the literature, introducing the students to representative examples of the types of material referred to in the introductory text. This material provides students with illustrative exposure to both classical and modern Muslim approaches to the Qur'ān and its exegesis.

**REL 33000 - New Testament Religion (W)**

**Pluralism and Diversity**

PD/D  
GER  
3/A

May be taken a second or third time with another subject.

*prereq:* perm chair

hrs TBA
1-6 cr.

**REL 45000 - Honors Seminar in Religion**

Specialized study in religion. For religion majors or other advanced religion students. Different topic each time offered. May be taken a second or third time with another subject. One topic offered under REL 45000 or 49000 satisfies the course requirements for departmental honors.

*prereq:* five courses in religion or a major/CUNY-BA focus in religion and perm instr. or program director

3 hrs
3 cr.

**REL 49000 - Honors Tutorial in Religion**

Open to majors only. Individual research and writing on topic in religion under supervision of Religion Honors Committee. REL 49000 or one topic offered under REL 45000 satisfies the course requirements for departmental honors.

*prereq:* perm chair

hrs TBA
3-6 cr.

Program and Courses in Social Work
Silberman School of Social Work

Overview

The Hunter College School of Social Work, founded in 1956, is the largest and oldest public graduate school of social work in New York City. The School's mission is to promote excellence in social work practice by preparing knowledgeable, ethical, and highly competent social work leaders for a variety of professional roles and settings. Our pedagogy, scholarship, and service reflect social work's historic commitment to human rights, cultural complexity, and social and economic justice. Commensurate with the missions of our host institutions, the School promotes community-engaged and practice-based scholarship that pursues policy and practice solutions to real world problems, thereby reinforcing the strengths of people and the communities in which they live, in New York and other major urban areas.

What Can I do with a BSW degree in Social Work?

The BSW program offers students the opportunity to link theory and practice by participating in a robust curriculum and established field placements. Students will learn the core skills of assessment, engagement, intervention, advocacy, and documentation through a generalist practice lens. The BSW program will prepare our students to become knowledgeable, caring front line workers in areas of Child Welfare and Care Coordination.

Faculty for the BSW program

BSW Faculty and BSW Committee
Bachelor of Social Work (BSW)

About the Program

The Silberman School of Social Work at Hunter College launched its Bachelor of Social Work (BSW) Program in Fall 2016. The BSW Program is open to matriculated Hunter College students with a credit range of 55 - 80 credits. The program offers students the opportunity to link theory and practice by participating in a robust curriculum and established field placements. Students learn the core skills of assessment, engagement, intervention, advocacy, and documentation through a generalist practice lens. The BSW Program will prepare undergraduate students to become knowledgeable, caring front line workers in areas of Child Welfare and Care Coordination; and it will prepare them to enter Master of Social Work (MSW) programs with advanced standing in the future. More details about the BSW Program can be found here.

Admissions Requirements

Applications are completely online.

- Students are admitted in the fall only.
- Students must be full-time, matriculated students at Hunter.
- Students will be considered for admission if they have between 55 and 80 credits and an overall GPA of at least 2.75.
- Students must have taken and received a grade of B or better, in the Introduction to Social Work course SW 20100. PSYCH 10000 or SOC 10100 are the prerequisite courses to register for the Introduction to Social Work course SW 20100. Transfer students must apply to Hunter College and be accepted as a Liberal Arts student in the previous fall from the semester they are applying to the BSW program. Human Services majors with associate degrees may be required to take the Introduction to Social Work course SW 20100 at Hunter College to complete the BSW application requirements if they do not apply to Hunter College in the previous fall from the semester they are applying.

- Transfer students with an associate degree, who graduated from a Human Services program, and received credit from Hunter for a Human Services course as the equivalent to the BSW prerequisite, Introduction to Social Work course may still be required to take the Introduction to Social Work course SW 20100, if the course they transferred in did not include at minimum, a required 32-hour, supervised, volunteer social services assignment.

Note: BMCC Human Service program graduates, who have been accepted to Hunter as full-time students are not required to register for the Introduction to Social Work course SW 20100

Required BSW Courses

SW 31000 - Social Work Practice and Learning LAB I

Social Work Practice Lab (PL) I, is the first part of a two-semester foundation course that introduces the BSW student to professional social work practice with individuals, families, groups, organizations and communities.

prereq: SW 20100 Introduction to Social Work
coreq: SW 33000 Human Behavior and the Social Environment I ; SW 32000 Social Work Policy I
3 hrs.
3 cr.
fall only

SW 31100 - Social Work Practice and Learning LAB II
Social Work Practice Lab (PL) II, is the second part of a two-semester foundation course and builds on the foundational issues and generalist practice approach in Social Work Practice Lab I.

**prereq:** SW 21000, SW 32000, SW 33000, SW 31000

3 hrs.
3 cr.
*spring only*

**SW 32000 - Introduction to Social Welfare Policy & Services**

Provides students with orienting knowledge and skills needed to examine social welfare policies and to understand their relevance to social service delivery and practice.

**prereq:** SW 20100

**coreq:** SW 31000, SW 33000

3 hrs.
3 cr.
*fall only*

**SW 33000 - Human Behavior in the Social Environment I**

Provides a foundation for students to make conceptual linkages between multiple formulations of the person-environment configuration in understanding the complexities of human behavior, while paying specific attention to both social diversity and human development.

**prereq:** SW 20100

**coreq:** SW 31000, SW 32000

3 hrs.
3 cr.
*fall only*

**SW 33100 - Human Behavior in the Social Environment II**

Continuation of the two-semester course (SW 33000/33100). It builds on a foundation of knowledge on "human behavior in the social environment" for social work practice with individuals, families, groups, organizations and communities.

**prereq:** SW 20100, SW 33000

**coreq:** SW 34000

3 hrs.
3 cr.

**SW 34000 - Social Work Policy in Child Welfare**

This course is designed to help students understand the current and historical context of child welfare policies and programs in New York and the United States; the major issues in child welfare; policy frameworks; and services and practices in the child welfare arena.

**prereq:** SW 20100, SW 31000, SW 32000

**coreq:** SW 31100, SW 33100

3 hrs.
3 cr.
*spring only*
SW 35000 - Social Work Policy II in Care Coordination

An overview of health care and care coordination systems and policies, with a specific focus on the role of social workers in implementing care coordination services to aging, health and mental health clients.

prereq: SW 20100, SW 31000, SW 33000
coreq: SW 31100, SW 33100
prereq or coreq: SW 32000
3 hrs.
3 cr.
spring only

SW 41000 - Social Work Practice in Child Welfare I

Social Work Practice in Child Welfare I is designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to Interventions and Services in child welfare.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 34000
coreq: SW 43000, 45000
3 hrs
3 cr.
fall only

SW 41100 - Social Work Practice in Child Welfare II

The 2nd semester of a year long practice course designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to Interventions and Services in child welfare.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 34000, 41000
coreq: SW 43100, 45100
3 hrs
3 cr.
spring only

SW 42000 - Social Work Practice in Care Coordination I

The first part of a two semester practice course. It is designed to help students apply the major psychological and sociological theories about illness, disease, policy frameworks, and evidence informed practices to care for older adults, the mentally ill and persons with chronic health issues.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 35000
coreq: SW 43000, 45000
fall only

SW 42100 - Social Work Practice in Care Coordination II

The second half of a two-semester practice course on Care Coordination. It deepens knowledge and skills of students learning how to apply psychological and sociological theories about illness, disease, policy frameworks, and evidence informed practice to care for older adults, mentally ill, and persons with chronic health issues.
prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 35000, 42000
coreq: SW 43100, 45100
3 hrs
3 cr.
spring only

**SW 43000 - Integrative Seminar I**

This is the first part of a two-semester Integrative Seminar taken in conjunction with field placements. Students are taught how to use assessment, planning, intervention and evaluation paradigms to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

prereq: SW 20100, 31000, 31100, 33000, 31100, 32000; 34000 -or- 35000
coreq: SW 41000 -or- 42000; SW 45000
3 hrs
3 cr.
fall only

**SW 43100 - Integrative Seminar II**

This is the second semester skills building Integrative Seminar taken in conjunction with field placements. The assessment, planning, intervention and evaluation paradigms are used to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

prereq: SW 20100, 31000, 31100, 33000, 31100, 32000; 35000 -or- 34000; 43000, 45000
coreq: SW 41100 -or- 42100; 45100
3 hrs
3 cr.
spring only

**SW 44000 - Social Work Research**

An introduction to basic research methods within the context of social work practice.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000; 34000 -or- 35000
3 hrs
3 cr.
fall only

**SW 45000 - Social Work Field Instruction I**

Field Work and Field Instruction is a 14 hour per week formal internship. It connects social work practice theory and concepts learned in the classroom, with the practical world, and skills building needs required for agency based social work practice.

prereq: SW 31000, 31100, 32000, 34000, or SW 35000, 33000, 33100
coreq: Social Work Practice in Child Welfare I, SW 41000 or Social Work Practice in Care Coordination I, SW 420, Social Work Research, SW 44000, Integrative Field Seminar I, SW 43000
3 hrs
3 cr.
SW 45100 - Social Work Field Instruction II

This is the second semester of the year-long, 14 hour per week, course in Field work and Field Instruction that integrates social work practice theory and concepts learned in the classroom, with the practical world, and skills building needs required for agency based social work practice.

prereq: SW 45000
coreq: SW 41100 or SW 42100, SW 43100
3 hrs
3 cr.

Attendance Requirements

BSW program is a full time program. All courses and field work are offered only during the day. Students must attend on a full-time basis. Courses are offered sequentially by semester, and must be taken in order.

- All BSW classes, except for the Introduction to Social Work course, SW 20100, are held at the Silberman School of Social Work.

Grading Policy

BSW students will receive a letter grade for course work. A minimum overall GPA of 3.0 is expected to remain in good academic standing. Students who do not pass a continuing course - offered over two semesters, sequentially - will not be allowed to repeat the course until it is offered again in the curriculum sequence. Students will be allowed to repeat a course only one time.

Accreditation

The Silberman School of Social Work Bachelor in Social Work degree is accredited by the Council on Social Work Education (CSWE).

Degree Map

Degree Map for Bachelor of Social Work (BSW)

Minor in Community Organizing

Requirements

Students are required to take the following courses in sequence (15 cr):

- SW 36000 Introduction to Community Organizing
- SW 37000 Community Organizing Internship and Field Seminar
- SW 46000 Advanced Community Organizing Theory & Practice

Students are required to select two 3 credit electives from a menu of 3 credit elective courses approved by 11 Departments and Programs (see list below): Africana & Latino/Puerto Rican Studies; Anthropology; Community Health; Film & Media Studies; History; Political Science; Public Policy; Psychology; Sociology; Urban
Community Health:

PH 30600 - Social Disparities in Health

In depth examination of the social, cultural and political factors that influence and lead to health disparities and health inequalities. Course explores demographic trends in mortality and morbidity and the role of history, race, class, policy, and socioeconomic and cultural factors, and health literacy levels in the development and continuation of disparities in health. This course uses a social justice lens to understand health, health care and health disparities.

prereq: PH 30100
3 hrs
3 cr.

PH 32500 - Environmental Public Health

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

Minimum GPA to enroll - 2.75

prereq: Any intro Statistic course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 101, or equivalent.
3 hrs
3 cr.

PH 41100 - Community Health Assessment

Introduction to assessing health needs of communities and populations, in preparation for fieldwork.

prereq: PH 33000
3 hrs
3 cr.

Urban Studies:

URBS 10100 - Urban Life: Personal and Observational View (W)

Hunter Core
Individual & Society - Social Science I&S SS
GER
2/B

Introduction to urban studies allowing students to translate personal knowledge and experience of New York City to more theoretical understanding of urbanism. Includes four projects dealing with mapping, immigration, census data analysis, and local development issues.
3 hrs
3 cr.

URBS 20100 - Urban Plans and Policies
Includes the study of the policy making process, major plans/policies (e.g. War on Poverty, urban renewal, neighborhood rezoning), "politics/power," the role of non-profits in urban planning and policy making.

prereq: URBS 10200 or 6 cr. intro social science courses or perm instr.

3 hrs
3 cr.

**URBS 31000 - Methods of Urban Research and Policy Analysis**

GER
3/B

Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.

prereq: URBS 10200 or perm instr.

3 hrs
3 cr.

**Sociology:**

**SOC 21700 - Race and Ethnicity**

Pluralism and Diversity
PD/B
GER
3/B

Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.

prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
PSYCH 33400 - Cultural Psychology

As our society becomes more multi-cultural, the question of how culture impacts psychological processes is increasingly important. The goal of this course is to expose students to the ways that cultural meanings, practices, and institutions influence and reflect individual human psychologies, with an emphasis on cultural variability in psychological theories and research findings. Topics include but are not limited to: a) What is cultural psychology; b) Research methods in cultural psychology; c) Historical and conceptual issues in cultural psychology d) cross-cultural models of self, attention, perception, morality, memory, human development and health, e) cultural differences in gender effects and f) policy implications of cultural psychology.

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000

3 hrs.
3 cr.

Public Policy:

PUPOP 10000 - Introduction to Public Policy

An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines.

Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).

Open only to students enrolled in the program. Cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0

3 hrs.
3 cr.

SOC 21800 - Social Inequality

GER
3/B

Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.

prereq: SOC 10100

3 hrs.
3 cr.

Film And Media Studies:

FILM 32700 - Representations of Race and Ethnicity in U.S. Media
Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

FILM 32800 - Images of Resistance in the Developing World

Pluralism and Diversity
PD/A
GER
3/A

Focuses on challenges by developing world films and filmmakers to Western media stereotypes. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

3 cr.

- **POLSC 27225** Comparative LGBT Politics *

**Women & Gender Studies:**

**WGS 24400 - Transnational Feminisms**

**Pluralism and Diversity**

PD/C

GER

3/A or B

Exploring the gender dynamics of racial, ethnic, and economic relations of power in domestic, international, and transnational settings. We will examine feminist scholarship produced by and about American women of color, Third World women, and other social and political actors whose experiences and thinking have shaped contemporary ideas about gender in different parts of the world.

*prereq: WGS 10000, ENGL 12000*

3 hrs

3 cr.

**WGSS 15000 - Introduction to LGBTQI Studies**

**Pluralism and Diversity**

PD/C

GER

2/B

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.

3 hrs

3 cr.

**WGSS 26600 - Our Bodies, Our Politics**

**Pluralism and Diversity**

PD/C

Sex and sexuality are commonly understood as an innate drive, but as science has recently begun to show, the way we experience sexuality is better understood as a series of connected cultural practices. It is the constructed meaning
attached to the act of sex that make up the foundation of our sexuality. This meaning changes across cultures and communities and has historically been a subject of political and legal struggle. From the battle for reproductive rights to laws limiting dildo ownership in Texas, our own bodies and the way we experience them are legislated and controlled.

prereq: ENGL 12000
3 hrs
3 cr.

WGSL 30600 - Gender and Migration

Pluralism and Diversity
PD/B
GER
3/B

This course will explore the multiple intersections between gender and migration. We will study how patterns of migration are fundamentally gendered, how migration affects men and women differently, and how migration policies in sending and destination countries can have gendered outcomes.

prereq: WGS 10000 and ENGL 12000
3 hrs
3 cr.

WGSP 39800 - Community Leadership Seminar (W)

Pluralism and Diversity
P/D C

By exposing students to scholars, advocates, organizers, service providers and activists involved in welfare policy and anti-poverty work, the course critically engages the social welfare system and its impact on women, people of color, queer people, and the poor. The seminar develops the required skills for leaders, trainers and community organizers.

prereq: ENGL 12000
3 hrs
3 cr.

3 hrs
3 cr.

Courses followed by "*" are experimental and will be offered only certain semesters. Please check the schedule of classes.

**Social Work**

**SW 20100 - Introduction to Social Work**

Introduces the beginning student to the philosophy, mission and challenges of social work. It provides a broad overview of the history, values, ethics, knowledge base, as well as populations we work with, and some of the practice methods and interventions we use to ameliorate problems.

course was formerly named SOC 23100

prereq: ENGL 12000; SOC 10100 or PSYCH 10000

3 hrs
3 cr.

**SW 31000 - Social Work Practice and Learning LAB I**

Social Work Practice Lab (PL) I, is the first part of a two-semester foundation course that introduces the BSW student to professional social work practice with individuals, families, groups, organizations and communities.

prereq: SW 20100 Introduction to Social Work

coreq: SW 33000 Human Behavior and the Social Environment I; SW 32000 Social Work Policy I

3 hrs.
3 cr.

fall only

**SW 31100 - Social Work Practice and Learning LAB II**

Social Work Practice Lab (PL) II, is the second part of a two-semester foundation course and builds on the foundational issues and generalist practice approach in Social Work Practice Lab I.

prereq: SW 21000, SW 32000, SW 33000, SW 31000

3 hrs.
SW 32000 - Introduction to Social Welfare Policy & Services

Provides students with orienting knowledge and skills needed to examine social welfare policies and to understand their relevance to social service delivery and practice.

prereq: SW 20100
coreq: SW 31000, SW 33000
3 hrs.
3 cr.
spring only

SW 33000 - Human Behavior in the Social Environment I

Provides a foundation for students to make conceptual linkages between multiple formulations of the person-environment configuration in understanding the complexities of human behavior, while paying specific attention to both social diversity and human development.

prereq: SW 20100
coreq: SW 31000, SW 32000
3 hrs.
3 cr.
fall only

SW 33100 - Human Behavior in the Social Environment II

Continuation of the two-semester course (SW 33000/33100). It builds on a foundation of knowledge on "human behavior in the social environment" for social work practice with individuals, families, groups, organizations and communities.

prereq: SW 20100, SW 33000
coreq: SW 34000
3 hrs.
3 cr.

SW 34000 - Social Work Policy in Child Welfare

This course is designed to help students understand the current and historical context of child welfare policies and programs in New York and the United States; the major issues in child welfare; policy frameworks; and services and practices in the child welfare arena.

prereq: SW 20100, SW 31000, SW 32000
coreq: SW 31100, SW 33100
3 hrs.
3 cr.
spring only

SW 35000 - Social Work Policy II in Care Coordination
An overview of health care and care coordination systems and policies, with a specific focus on the role of social workers in implementing care coordination services to aging, health and mental health clients.

**prereq:** SW 20100, SW 31000, SW 33000  
**coreq:** SW 31100, SW 33100  
**prereq or coreq:** SW 32000  
3 hrs.  
3 cr.  
spring only

**SW 36000 - Introduction to Community Organizing**

The purpose of this course is to provide an introduction the theory and practice of community organizing. It will explore the diverse roles, goals and strategies used by community organizers to affect social change from a Human Rights perspective. Models of community organizing include mass mobilization, social action, grass roots empowerment, leadership development and advocacy. Special attention will be paid to issues of gender, class, race, ethnicity and sexual orientation. The pedagogy requires a 20 hour volunteer field experience in a community-based organization.

3 hrs  
3 cr.

**SW 37000 - Community Organizing Internship and Field Seminar**

This is a one semester, 100 hour supervised Field Internship and a bi-weekly Community Organizing seminar. The purpose of the Internship is to develop skills and apply theory and concepts obtained in the Introduction to Community Organizing course (SW 360). Students choose their organization from a vetted list of community-based organizations provided by the Instructor. They negotiate the hours with the supervisor and approved by the Course Instructor. Among the acquired skills identified are: Organizing and Planning, Interpersonal, Analytical, Administrative and Tactics and Strategies. During the seminar, students have the opportunity to develop group facilitation and leadership skills, personal self-reflection and professional values and ethics using a social justice and human rights lens.

**prereq or coreq:** SW 36000  
3 hrs  
3 cr.

**SW 41000 - Social Work Practice in Child Welfare I**

Social Work Practice in Child Welfare I is designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to Interventions and Services in child welfare.

**prereq:** SW 20100, 31000, 31100, 33000, 33100, 32000, 34000  
**coreq:** SW 43000, 45000  
3 hrs  
3 cr.  
fall only

**SW 41100 - Social Work Practice in Child Welfare II**

The 2nd semester of a year long practice course designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices
to Interventions and Services in child welfare.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 34000, 41000
coreq: SW 43100, 45100
3 hrs
3 cr.
spring only

**SW 42000 - Social Work Practice in Care Coordination I**

The first part of a two semester practice course. It is designed to help students apply the major psychological and sociological theories about illness, disease, policy frameworks, and evidence informed practices to care for older adults, the mentally ill and persons with chronic health issues.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 35000
coreq: SW 43000, 45000
fall only

**SW 42100 - Social Work Practice in Care Coordination II**

The second half of a two-semester practice course on Care Coordination. It deepens knowledge and skills of students learning how to apply psychological and sociological theories about illness, disease, policy frameworks, and evidence informed practice to care for older adults, mentally ill, and persons with chronic health issues.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 35000, 42000
coreq: SW 43100, 45100
3 hrs
3 cr.
spring only

**SW 43000 - Integrative Seminar I**

This is the first part of a two-semester Integrative Seminar taken in conjunction with field placements. Students are taught how to use assessment, planning, intervention and evaluation paradigms to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

prereq: SW 20100, 31000, 31100, 33000, 31100, 32000; 35000 -or- 34000
coreq: SW 41000 -or- 42000; SW 45000
3 hrs
3 cr.
spring only

**SW 43100 - Integrative Seminar II**

This is the second semester skills building Integrative Seminar taken in conjunction with field placements. The assessment, planning, intervention and evaluation paradigms are used to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000; 35000 -or- 34000; 43000, 45000
coreq: SW 41100 -or- 42100; 45100
3 hrs
3 cr.
spring only

**SW 44000 - Social Work Research**

An introduction to basic research methods within the context of social work practice.

*prereq: SW 20100, 31000, 31100, 33000, 33100, 32000; 34000 -or- 35000
3 hrs
3 cr.
fall only

**SW 45000 - Social Work Field Instruction I**

Field Work and Field Instruction is a 14 hour per week formal internship. It connects social work practice theory and concepts learned in the classroom, with the practical world, and skills building needs required for agency based social work practice.

*prereq: SW 31000, 31100, 32000, 34000, or SW 35000, 33000, 33100
coreq: Social Work Practice in Child Welfare I, SW 41000 or Social Work Practice in Care Coordination I, SW 420, Social Work Research, SW 44000, Integrative Field Seminar I, SW 43000
3 hrs
3 cr.

**SW 45100 - Social Work Field Instruction II**

This is the second semester of the year-long, 14 hour per week, course in Field work and Field Instruction that integrates social work practice theory and concepts learned in the classroom, with the practical world, and skills building needs required for agency based social work practice.

*prereq: SW 45000
coreq: SW 41100 or SW 42100, SW 43100
3 hrs
3 cr.

**SW 46000 - Advanced Community Organizing Theory & Practice**

The purpose of this course is to deepen the knowledge and skills of students in the theory and practice of community organizing with an emphasis on critical thinking and reflection. It builds upon and extends the framework and basic concepts of the "Introduction to Community Organizing" course SW 36000. The course provides an overview of historical and contemporary community organizing practices in the United States, and analyzes power and oppression in social movements with special attention to the impact of structural discrimination on low income communities and communities of color. It also includes skills in community-based participatory action research and collaboration.

*prereq: SW 36000
prereq or coreq: SW 37000
3 hrs
3 cr.

**Program in Religion**
Religion - BA

Return to: Religion Program Information

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Religion, the courses that meet CCCR are:

REL 11000 - Nature of Religion (W)

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

REL 11100 - Approaches to Religion (W)

Hunter Core
Individual and Society (I&S) Humanities
GER
2/C

Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20400 - Religious Experience (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C

Cross-cultural analysis of religious experiences: Biblical, ancient Greek, Asian, modern Western.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20500 - Faith and Disbelief (W)
Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C

Examination of questions of faith and disbelief in modern Western thought.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20600 - Ideas of God in Contemporary Western Thought (W)

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20700 - Religious Sources for Morality (W)

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C

Religious reasons for determining good and evil; religious sources for ethical decisions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20800 - Religion and Social Justice (W)

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.
prereq: ENGL 12000
It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

**prereq:** ENGL 12000

**REL 21100 - The Sacred Sky: Astrology in World Religions (W)**

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

**prereq:** ENGL 12000

**REL 25100 - Asian Religions (W)**

Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.

**prereq:** ENGL 12000
REL 25200 - Ancient Near Eastern Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).
prereq: ENGL 12000
3 hrs
3 cr.

REL 25300 - Abrahamic Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Study of Judaism, Christianity, and Islam-- with some considerations of Zoroastrian parallels.
prereq: ENGL 12000
3 hrs
3 cr.

REL 25400 - Tribal Religions: From Australia to the Americas (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A or B
GER
2/C

Study of indigenous religions of Pacific Islanders and North American Indians.
prereq: ENGL 12000
3 hrs
3 cr.

REL 25500 - Religions of Two Gods (W)

Pluralism and Diversity
PD/A
GER
2/C
A survey of historical varieties of dualistic religion both classical and modern which inquires into the moral grounds for their recurring appeal.

_prereq: ENGL 12000
3 hrs
3 cr.

REL 25600 - Afro-Caribbean Religions (W)

_Hunter Core_
World Culture and Global Issues (WCGI)
_Pluralism and Diversity_
PD/B
GER
2/C

An introduction to the diversity of African-based religions in the Caribbean and beyond.

_prereq: ENGL 12000
3 hrs
3 cr.

REL 25700 - Religions of Ancient Central and South America (W)

_Hunter Core_
World Cultures and Global Issues (WCGI)
_Pluralism and Diversity_
P/D B
GER
2/C

Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization. The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.

_prereq: ENGL 12000
3 hrs
3 cr.

REL 25800 - Religions of Ancient Europe (W)

_Hunter Core_
World Cultures and Global Issues (WCGI)
_Pluralism and Diversity_
P/D D
GER
2/C

Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples--the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe--as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future
cultural developments.

Prereq: ENGL 12000
3 hrs
3 cr.

REL 27000 - Religion and Psychology (W)

Pluralism and Diversity
PD/D
GER
2/C

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.

Prereq: ENGL 12000
3 hrs
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30 credits)

A major in religion consists of 30 credits. A sequence of courses for the major normally includes REL 11000-Nature of Religion, REL 11100-Approaches to Religion, REL 25100-Asian Religions, and REL 25300-Abrahamic Religions followed by at least one course in theoretical studies and at least one course in religious issues.

- Introduction to the Field of Religion
- Theoretical studies in Religion
- Issues in Religion
- Religious Traditions

On becoming a major the student, in consultation with the director, will select one member of the program in Religion staff as his or her major adviser. Each religion major is required to consult with this adviser at least twice a year.

I. Introduction to the Field of Religion

REL 11000 - Nature of Religion (W)

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

REL 11100 - Approaches to Religion (W)

Hunter Core
Individual and Society (I&S) Humanities
GER
Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.

prereq: ENGL 12000
3 hrs
3 cr.

II. Theoretical Studies in Religion

REL 27000 - Religion and Psychology (W)

Pluralism and Diversity
PD/D
GER
2/C

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.

prereq: ENGL 12000
3 hrs
3 cr.

SOC 20500 - Sociology of Religion

GER
3/B

Comparative study of religion in human societies. Analysis of beliefs, myths and sacred attitudes.

prereq: SOC 10100
3 hrs
3 cr.

PHILO 26200 - Philosophy of Religion (W)

GER
3/A

Philosophical examination of some religious questions and beliefs.

prereq: one course in philosophy or religion (see statement under Program Prerequisites)
3 hrs
3 cr.

ANTHC 30700 - Anthropology of Religion

Pluralism and Diversity
PD/A
GER
3/B

Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.
REL 39000 - Modern Theories of Religion (W)

Pluralism and Diversity
PD/D
GER
3/A

An interdisciplinary continuation of the study of methodological and theoretical issues begun in REL 11100, focusing on current debates and contemporary literature.

prereq: ENGL 12000, REL 11100
3 hrs
3 cr.

REL 26000 - Special Topics: Theoretical Studies in Religion

Specialized study of a methodological approach to the study of religion. Different topic each time offered.
3 hrs
3 cr.

REL 36000 - Special Topics: Theoretical Studies in Religion

GER
3/A

Specialized study of a methodological approach to study of religion. Different topic each time offered.
3 hrs
3 cr.

III. Issues in Religion

REL 20400 - Religious Experience (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C

Cross-cultural analysis of religious experiences: Biblical, ancient Greek, Asian, modern Western.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20500 - Faith and Disbelief (W)

**REL 20600 - Ideas of God in Contemporary Western Thought (W)**

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.

*prereq: ENGL 12000*

3 hrs

3 cr.

**REL 20700 - Religious Sources for Morality (W)**

Religious reasons for determining good and evil; religious sources for ethical decisions.

*prereq: ENGL 12000*

3 hrs

3 cr.

**REL 20800 - Religion and Social Justice (W)**

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

*prereq: ENGL 12000*
It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

**prereq: ENGL 12000**

**REL 21000 - Atheism (W)**

When a person, group, or idea is called 'atheist,' is that only a statement about theology or metaphysics, or do those who use that label intend to invoke the cultural power of God and, if so, to what end? How is the concept, 'atheism,' put into action in the world, and what does what we say about atheism say about what we think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.

**prereq: ENGL 12000**

**REL 21100 - The Sacred Sky: Astrology in World Religions (W)**

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

**prereq: ENGL 12000**
Pluralism and Diversity
PD/D
GER
3/A

Exploration of religious themes in modern literature.
prereq: ENGL 12000
3 hrs
3 cr.

REL 30800 - Religion and the Arts (W)

Pluralism and Diversity
PD/D
GER
3/A

Examination of religious themes in art, music, theatre, cinema, or literature. Different topics each time offered.
prereq: ENGL 12000
3 hrs
3 cr.

REL 30900 - The Religious Meanings of Love and Sex (W)

Pluralism and Diversity
PD/D
GER
3/A

Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31000 - The Religious Meanings of Death (W)

Pluralism and Diversity
PD/D
GER
3/A

Consideration of the meaning of death in major world religions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31100 - Women and Religion (W)

Pluralism and Diversity
PD/C
GER
An examination of the role of women and the concept of the feminine in world religions.

**REL 31200 - Religion and Politics (W)**

**Pluralism and Diversity**
**PD/D**
**GER**

3/A

The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.

**prereq**: ENGL 12000

3 hrs

3 cr.

**REL 31300 - Spirit and Nature (W)**

**Pluralism and Diversity**
**PD/D**
**GER**

3/A

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.

**prereq**: ENGL 12000

3 hrs

3 cr.

**REL 31400 - Religion and Sports (W)**

**GER**

3/A

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport. Course foci: a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of team sports against the background of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative; and d) an arguable implicit spirituality of sport.

**prereq**: ENGL 12000

3 hrs

3 cr.

**REL 31500 - The Problem of Evil (W)**
Pluralism and Diversity
PD/D
GER
3/A

Exploration of the religious meaning of evil in different cultures.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31600 - Men and Religion (W)

Pluralism and Diversity
PD/C -or- PD/D

Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31700 - Religion and Film (W)

As human expressions, both religion and film attempt to describe the world and organize it into a meaningful place for human activity. This course will survey the mutual academic studies of both film and religion, as well as the emerging discipline of 'religion and film studies.' As such, students will explore the nature of vision, representation, and narrative—topics central to both film and religious studies. Students will also view and analyze films as expressions of culture, including religious culture, and seek to understand the impact of ideology and social practice, gender and sexuality, as well as the economic structures underlying both film and religion.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31800 - Religion and Science (W)

A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31900 - Religion and the Body (W)

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The
topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.

**REL 33400 - Mysticism (W)**

**Pluralism and Diversity**
**PD/D**
**GER**
3/A

Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.

**prereq:** ENGL 12000

3 hrs
3 cr.

**REL 33500 - Myth and Ritual (W)**

**Pluralism and Diversity**
**PD/D**
**GER**
3/A

Cross-cultural exploration of myth and ritual and their place in various cultures; methodologies for analysis.

**prereq:** ENGL 12000

3 hrs
3 cr.

**REL 34000 - Homosexuality in World Religions (W)**

**Pluralism and Diversity**
**PD/C**
**GER**
3/A

A survey and analysis of typical ways in which homosexuality has been understood, evaluated and in some cases institutionalized in a variety of religious traditions, attending especially to implicit constructions of gender.

**prereq:** ENGL 12000

3 hrs
3 cr.

**REL 26100 - Special Topics: Issues in Religion**

Study of particular religious topics or thinkers. Different subject each time offered.

3 hrs
3 cr.
REL 36100 - Special Topics: Issues in Religion

GER
3/A

Study of particular religious topics or thinkers. Different subject each time offered.
3 hrs
3 cr.

IV. Religious Traditions

Ancient Religions

REL 25200 - Ancient Near Eastern Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).
prereq: ENGL 12000
3 hrs
3 cr.

REL 25700 - Religions of Ancient Central and South America (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
P/D B
GER
2/C

Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization.
The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.
prereq: ENGL 12000
3 hrs
3 cr.

REL 25800 - Religions of Ancient Europe (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples--the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe--as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.

*prereq: ENGL 12000
3 hrs
3 cr.*

**CLA 30300 - Religion of Ancient Greece (W)**

*Pluralism and Diversity
GER 3/A
The Ancient Greek religious experience: official rites, mystery cults, oracles, personal religious belief, and practice.*

*prereq: ENGL 12000, CLA 10100 or 20100
3 hrs
3 cr.*

**CLA 30400 - Pagans and Christians (W)**

*Pluralism and Diversity
PD/D
GER
3/A
Transformation of classical culture in late antiquity: religion, philosophy, mysticism, magic, astrology.*

*prereq: ENGL 12000; CLA 20100 or 20300
3 hrs
3 cr.*

**HEBR 28600 - Ancient Near Eastern Literature and the Bible**

*Pluralism and Diversity
PD/A
GER
3/A
Comparative study of ancient Near Eastern literature and the Hebrew Bible.*

*3 hrs
3 cr*

**Asian Religions**

**REL 25100 - Asian Religions (W)**

*Hunter Core
World Culture and Global Issues (WCGI)*
Pluralism and Diversity  
PD/A  
GER  
2/C

Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.  
 prerequisites: ENGL 12000  
3 hrs  
3 cr.

REL 32000 - Hinduism (W)

Pluralism and Diversity  
PD/A  
GER  
3/A

Study of Hinduism, its development, history, literature, philosophy and religious practices.  
 prerequisites: ENGL 12000  
3 hrs  
3 cr.

REL 32100 - Buddhism (W)

Pluralism and Diversity  
PD/A  
GER  
3/A

Study of Buddhism, its development, history, literature, philosophy and religious practices.  
 prerequisites: ENGL 12000  
3 hrs  
3 cr.

REL 33600 - Zen (W)

Pluralism and Diversity  
PD/A  
GER  
3/A

An inquiry into the teachings of Chinese and Japanese Zen in light of their Buddhist and Daoist backgrounds.  
 prerequisites: ENGL 12000  
3 hrs  
3 cr.

PHILO 21900 - Chinese Philosophy (W)

Hunter Core  
World Cultures and Global Issues (WCGI)  
Pluralism and Diversity  
PD/A
GER
3/A

Readings from the classics of Chinese philosophy found in Confucian, Taoist and Buddhist traditions.

prereq: ENGL 12000
3 hrs
3 cr.

PHILO 22100 - Indian Philosophy (W)

Pluralism and Diversity
PD/A
GER
3/A

Readings from classics of Indian philosophy, drawn from the Vedic, Buddhist and IndoTibetan traditions.

prereq: ENGL 12000
3 hrs
3 cr.

African, Afro-Caribbean and Afro-American Religions

REL 25600 - Afro-Caribbean Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/B
GER
2/C

An introduction to the diversity of African-based religions in the Caribbean and beyond.

prereq: ENGL 12000

GER
3/B

Not offered to freshmen. Transformation of Christianity since the Reformation, Enlightenment and modern political and intellectual challenges.
3 hrs
3 cr.

HIST 31600 - History of Religion in the United States

GER
3/B

Changing European churches and indigenous American sects; their architecture, leaders and ideas.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

REL 32200 - Islam (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of Islam, its development, history, literature, philosophy and religious practices.
prereq: ENGL 12000
3 hrs
3 cr.

REL 32400 - Islam and Buddhism (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of Islam and Buddhism, their founders, development, beliefs, rituals and interaction.

prereq: ENGL 12000
3 hrs
3 cr.

REL 32600 - Religious Meanings of the Qur'ān (W)

GER
3/A

This course introduces students to the study of the Qur'ān based on the traditional Islamic "sciences of the Qur'ān" ("Ulūm al-Qur'ān). Using an introductory text on the Qur'ānic sciences, the course will introduce the traditional areas of concern in the Qur'ānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the textbook. This material is chosen on the basis of (1) interest, (2) accessibility (especially the availability of English translations) and (3) the ability to give students some exposure to the variety of styles and approaches to the material available in the literature, introducing the students to representative examples of the types of material referred to in the introductory text. This material provides students with illustrative exposure to both classical and modern Muslim approaches to the Qur'ān and its exegesis.

prereq: Engl 12000
3 hrs
3 cr.

REL 33700 - Sufism (W)

Pluralism and Diversity
PD/A
GER
3/A

A course on the esoteric or mystical dimension of Islam, known among Muslims as ta'awwuf, attending to the history, doctrine and metaphysics of the Sufi path.

prereq: ENGL 12000
3 hrs
3 cr.

Tribal Religions

REL 25400 - Tribal Religions: From Australia to the Americas (W)
Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A or B
GER
2/C

Study of indigenous religions of Pacific Islanders and North American Indians.

prereq: ENGL 12000
3 hrs
3 cr.

Special Topics in Traditions

REL 26200 - Special Topics: Religious Traditions

Specialized study of specific religious traditions or groups of traditions. Different topic each time offered.

3 hrs
3 cr.

REL 36200 - Special Topics: Religious Traditions

GER
3/A

Specialized study of specific religious tradition or groups of traditions. Different topic each time offered.

3 hrs
3 cr.

Independent Study

REL 41000 - Independent Study in Religion

Open to majors only. Individual research and writing on topic in religion under supervision of a religion professor.

May be taken a second or third time with another subject.

prereq: perm chair
hrs TBA
1-6 cr.

Honors

To be eligible for honors classes a student must have the director's permission and at least a 3.5 GPA in the major and cumulatively. To qualify for departmental honors, a student must complete one of the honors courses with a grade of B or above, achieving a final GPA in Religion and cumulatively of at least 3.5.

REL 45000 - Honors Seminar in Religion

Specialized study in religion. For religion majors or other advanced religion students. Different topic each time offered. May be taken a second or third time with another subject. One topic offered under REL 45000 or 49000 satisfies the
course requirements for departmental honors.

**prereq:** five courses in religion or a major/CUNY-BA focus in religion and perm instr. or program director

3 hrs

3 cr.

**REL 49000 - Honors Tutorial in Religion**

Open to majors only. Individual research and writing on topic in religion under supervision of Religion Honors Committee. REL 49000 or one topic offered under REL 45000 satisfies the course requirements for departmental honors.

**prereq:** perm chair

hrs TBA

3-6 cr.

Degree Map for Religion

Degree Map for Religion

**Programs and Courses in Africana and Puerto Rican/Latino Studies**

**Africana and Puerto Rican/Latino Studies**

**Overview**

Africana Studies as a "discipline" seeks to study, interpret, explain, and articulate the cultural, historical, political, economic, and spiritual experience of people of African descent throughout the world. Africana Studies is "Pan-Africanist" in approach and focus, seeking to emphasize the connections between African peoples and their cultures throughout the world, while acknowledging the differences that have evolved because of historical realities, geographical location, specific forms of colonial oppression, and cultural interaction. The African-centered perspective of the sequence implies an approach to reality which begins with the African and African-Diasporic experience. Its presupposition is that the meaning of that experience cannot be determined without reference to Africa as the source, its point of origin. As such, our sequence is lodged firmly within the African-Centered Movement; a liberatory and intellectual movement born out of the struggle, conflict, and victory of the decolonization process.

The Puerto Rican/Latino Sequence is geared towards a multidisciplinary pedagogical and philosophical approach which encompasses the study of Puerto Rico, the Dominican Republic and Cuba specifically, and the rest of the Caribbean in a comparative perspective. We also engage in the study and analysis of the Puerto Rican Diaspora and other Latino groups in the U.S. The study of the Puerto Rican experience is framed within the racial, historical, linguistic, religious, social and cultural syncretism that evolved from the interaction of the native Taino population, Africans, the Spanish colonizers and the U.S. presence.

**What can I do with my degree in Africana & Puerto Rican/Latino Studies?**
The Department of Africana & Puerto Rican Studies prepares students for a broad range of careers in the public and private sector; for entrance to professional schools such as law, social work, urban planning and medicine, and for graduate study and research in the social sciences and humanities. The department has a long history of nurturing students' intellectual discipline, creativity, and social and political awareness. Graduates of the department have pursued careers in journalism, counseling, teaching, public policy, community development, media, politics, psychology and international affairs. The department's interdisciplinary structure offers students an opportunity to satisfy the increasing expectations of admissions committees and prospective employers for a broad liberal arts perspective that complements the specialized knowledge of a field.

**Programs and Courses**

Programs and Courses in Africana and Puerto Rican/Latino Studies

**Honors**

The honors research course, AFPRL 499, is open to AFPRL upper seniors who have a 3.5 GPA in the major with a 3.0 GPA overall and have completed at least 24 credits including three AFPRL 300/400 level courses. In order to receive an honors endorsement, a student must receive a final grade of at least B+. Students who do not meet the requirement for an honors endorsement but have passed the course, will receive three credits without honors. The research theme changes every academic year. The project is supervised by one full-time AFPRL faculty member but is read and graded by the supervisor and two additional AFPRL full-time faculty members.

**Faculty**

Africana and Puerto Rican/Latino Studies

**HEGIS Code:** 2211

**Undergraduate Major**
Africana and Puerto Rican/Latino Studies-BA

Given the interdisciplinary organization of the department, students may elect to concentrate their program of study in the Africana sequence, Puerto Rican/Latino sequence or a combination of both with courses from social sciences and humanities offered by the department.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

In the case of the Africana and Puerto Rican/Latino Studies major, the courses that meet CCCR are:

Courses | CUNY Common Core
---------|---------------------
AFPRL 10000 Individual and Society (I&S SS)
AFPRL 10300 Individual and Society (I&S SS)
AFPRL 10400 Individual and Society (I&S H)
AFPRL 18100 Individual and Society (I&S SS)
AFPRL 18200 Individual and Society (I&S SS)
AFPRL 20100 World Culture and Global Issues (WCGI)
AFPRL 20200 World Culture and Global Issues (WCGI)
AFPRL 20500 Individual and Society (I&S SS)
AFPRL 20900 World Culture and Global Issues (WCGI)
AFPRL 21000 World Culture and Global Issues (WCGI)
AFPRL 22200 World Culture and Global Issues (WCGI)
AFPRL 23800 English Composition (EC)
AFPRL 24300 World Culture and Global Issues (WCGI)
AFPRL 26000 Individual and Society (I&S SS)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30 credits)

6 credits from among
AFPRL 20100 - African History from Human Origins to 1600 CE

Hunter Core  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity

3 cr.

AFPRL 20900 - Introduction to Caribbean History to 1900
Introduction to the major themes in Caribbean history to 1900.

**AFPRL 21000 - Introduction to Caribbean History: 1900 - Present**

**AFPRL 24100 - Puerto Rican History to 1897**

An examination of Taino society, Spanish colonialism, slave economy and the development of nationhood in the 19th century.

**AFPRL 24200 - Puerto Rican History Since 1898**

Sociohistorical, political and economic analysis of Puerto Rico dating from the U.S. invasion to the present.
AFPRL 28100 - Fieldwork in African American/Latino Communities

Fieldwork involvement and sociopolitical analysis of a community organization in the Black and/or Puerto Rican/Latino communities.
Course open to Majors and Minors Only
3 hrs
3 cr. each

21 credits

- Of which at least 12 must be taken at the 300 and/or 400 level. At least 3 credits must be taken in Puerto Rican/Latino studies if the student’s concentration is in Africana studies and vice versa.

Honors

The honors research course, AFPRL 49900, is open to AFPRL upper seniors who have a 3.5 GPA in the major with a 3.0 GPA overall and have completed at least 24 credits including three AFPRL 300/400 level courses. In order to receive an honors endorsement, a student must receive a final grade of at least B+. Students who do not meet the requirement for an honors endorsement but have passed the course, will receive three credits without honors. The research theme changes every academic year. The project is supervised by one full-time AFPRL faculty member but is read and graded by the supervisor and two additional AFPRL full-time faculty members.

Degree Map

Degree Map for Africana & Puerto Rican / Latino Studies

Degree Map for Africana & Puerto Rican / Latino Studies

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an AFPRL major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

**Hunter Core**
Individual and Society
**Pluralism and Diversity**
PD/B
Study of the relationship of US Latinos to the institution of American citizenship through history and examination of major issues today.
3 hrs
3 cr.

**AFPRL 27000 - Economic History of Puerto Ricans**

Stages of change in economic structures and labor conditions among Puerto Ricans in Puerto Rico and the U.S.
*prereq: AFPRL 24200 or 24400*
3 hrs
3 cr.

**AFPRL 28100 - Fieldwork in African American/Latino Communities**

Fieldwork involvement and sociopolitical analysis of a community organization in the Black and/or Puerto Rican/Latino communities.
Course open to Majors and Minors Only
3 hrs
3 cr. each

**AFPRL 29000 - Selected Topics in Africana and Puerto Rican/Latino Studies**

Pluralism and Diversity
PD/A or B
Topics change according to instructor.
3 hrs
3 cr.

**AFPRL 30400 - Leaders and Movements of Black Urban Communities (W)**

Pluralism and Diversity
PD/B
GER
3/B

Personalities and movements that have influenced Black communities of U.S.; focuses mainly on 20th century.
*prereq: AFPRL 20300 or 20400 or 20500*
3 hrs
3 cr.

**AFPRL 30600 - Modern African International Relations (W)**

Pluralism and Diversity
PD/A
GER
3/B

Factors affecting relations among African states and between African and non-African states within international system.
*prereq: AFPRL 20600 or perm instr.*
3 hrs
3 cr.

**AFPRL 30700 - Contemporary African Politics (W)**

GER
3/B

Study of post-independence nationalism, political systems, regional and inter-nation cooperation of African nations.
*prereq: AFPRL 20600 or perm instr.*
3 hrs
3 cr.

**AFPRL 30800 - Contemporary International Relations of the African-Caribbean (W)**

GER
3/B
Examination of the use of foreign policy for economic development in the Caribbean and as an instrument of transformation.

*prereq: AFPRL 20700 or 21000 or perm instr.*

*3 hrs*

*3 cr.*

**AFPRL 30900 - African-Americans and Africa (W)**

**Pluralism and Diversity**

**PD/A or B**

**GER**

*3/B*

Major evidence of Black American involvement and interest in Africa from 1775 to present.

*prereq: AFPRL 20300 or 20400*

*3 hrs*

*3 cr.*

**AFPRL 31000 - Modern Nigeria (W)**

**GER**

*3/B*

Detailed study of the historical development of modern Nigeria from the late 19th century to the present.

*prereq: perm instr.*

*3 hrs*

*3 cr.*

**AFPRL 31300 - Slavery (W)**

**Pluralism and Diversity**

**PD/A or B**

**GER**

*3/B*

Historical overview of slavery from Africa to the Americas.

*prereq: AFPRL 20300 or 20900 or perm instr.*

*3 hrs*

*3 cr.*

**AFPRL 31800 - Women in Africa (W)**

**Pluralism and Diversity**

**PD/C**

**GER**

*3/B*

Examination of African womanhood in traditional setting during colonialism and neo-colonialism, independence and revolution.

*cross-listed WGSC 31800 (A Writing-intensive Course)*

*prereq: AFPRL 20200 or 22200 or perm instr.*
3 hrs
3 cr.

**AFPRL 31900 - Women in the African Diaspora (W)**

Pluralism and Diversity  
PD/B or C  
GER  
3/B

The cultural-historical role of women of African descent in North America and the Caribbean in relation to the family, to political resistance and in sustaining African culture and values.  
*cross-listed* WGSC 32900 (W)  
*prereq: AFPRL 20400 or 20900 or 21000 or perm instr.*

3 hrs  
3 cr.

**AFPRL 32000 - African-Caribbean Culture (W)**

Pluralism and Diversity  
PD/A or B  
GER  
3/A

*prereq: AFPRL 20900 or 21000 or 22200*

3 hrs  
3 cr.

**AFPRL 32100 - Caribbean Migration and New York City (W)**

Pluralism and Diversity  
PD/A or B  
GER  
3/B

An historical examination of the lives of Caribbean immigrants in New York City from the causes for emigration to the development of an ethnic community in the City.  
*prereq: ENGL 12000; AFPRL 20700, 20800, 20900, 21000, 30700 or 30800*

3 hrs  
3 cr.

**AFPRL 33600 - African-American Women Writers (W)**

Pluralism and Diversity  
PD/C  
GER  
3/A

African-American female authors from slavery to present: novels, short stories, essays, plays, poetry, teenage fiction and children's books.
cross-listed WGS 33600 (W)
prereq: AFPRL 23600 or perm instr.
3 hrs
3 cr.

**AFPRL 33700 - Caribbean Women Writers (W)**

**GER**
3/A

A study of some of the major preoccupations of Caribbean fiction, such as history, migration/travel, creolization, memory and language, from the perspectives of selected women writers, paying close attention to the historical, intellectual and cultural contexts that stimulated the production of these works.

cross-listed WGS A 33700 (W)
prereq: AFPRL 23600 or 23700 or ENGL 22000 or WGS 10000
3 hrs
3 cr.

**AFPRL 34200 - Political Nationalism in Puerto Rico (W)**

**Pluralism and Diversity**
PD/A

**GER**
3/B

Nationalist ideology in Puerto Rico: its impact on contemporary political movements and economy.

prereq: AFPRL 24200 or perm instr.
3 hrs
3 cr.

**AFPRL 35100 - Major Puerto Rican Figures (W)**

**Pluralism and Diversity**
PD/A or B

**GER**
3/B

Theorists, poets and statesmen in formation of Puerto Rican nationality.

prereq: AFPRL 14300 or 24200 or 24300
3 hrs
3 cr.

**AFPRL 35200 - Power Structure in Puerto Rico (W)**

**GER**
3/B

Social analysis of class divisions, role of the economy and the United States presence in Puerto Rico.

prereq: AFPRL 24300 or 27000
3 hrs
3 cr.
**AFPRL 35500 - The African Image in 19th and 20th century Spanish Antillean Poetry (W)**

*Pluralism and Diversity*
GER
3/A

The portrayal of the African image in Spanish Antillean poetry seen through the work and poetic trends of its major exponents.

*prereq: AFPRL 14300 or SPAN 20800, reading knowledge of Spanish*

3 hrs
3 cr.

**AFPRL 35600 - Latino Literature in English (W)**

*Pluralism and Diversity*
PD/B
GER
3/A

Latino writing in English in the U.S.; analysis of cultural, linguistic and ideological factors as found in the work of such authors as Sandra Cisneros (Chicana), Pedro Pietri (Puerto Rican) and Oscar Hijuelos (Cuban-American).

3 hrs
3 cr.

**AFPRL 36000 - Politics in Puerto Rico (W)**

GER
3/B

Analysis of the political status issue, development of political parties, national leadership and participation.

*prereq: AFPRL 24200 or 34200 or perm instr.*

3 hrs
3 cr.

**AFPRL 36200 - Puerto Rican and Caribbean Religious Practices (W)**

*Pluralism and Diversity*
PD/A or B
GER
3/A

Reading knowledge of Spanish suggested. Analysis of roots of folk religion in Indian, African and Spanish cultures. Religious syncretisms, popular imagery and ritual practices.

*prereq: AFPRL 14100 or 24300*

3 hrs
3 cr.

**AFPRL 38400 - Poverty in Society (W)**
Causes and effects of deprivation, with emphasis on policy and program approaches for African Americans and Puerto Ricans/Latinos.

prereq: successful completion of any 2 AFPRL courses
3 hrs
3 cr.

**AFPRL 38700 - Puerto Rican/Latino Politics in the United States (W)**

Pluralism and Diversity
PD/B
GER
3/B

An analysis of the political participation and leadership of Puerto Ricans and other Latinos in the United States.

prereq: either AFPRL 10200, 24200 or 24400 or perm. Instr.
3 hrs
3 cr.

GER
3/A or B

Topics change according to instructor.
Open to Jr/Sr only.
3 hrs
3 cr.

**AFPRL 42800 - Selected Topics in Africana and Puerto Rican/Latino Studies: Social Science**

Pluralism and Diversity
PD/B
GER
3/A or B

Topics change according to instructor.
Pluralism and diversity requirements are dependent on the topic course.

prereq: perm dept.
3 hrs
3 cr.

**AFPRL 42863 - Afro-Latino Culture and History**

Pluralism and Diversity
PD/A
GER
3/A
AFPRL 44500 - Caribbean Short Story in Spanish: Readings and Theories

GER 3/A

A critical study of the short story genre in the Hispanic Caribbean viewed in conjunction with contemporary literary theory.

prereq or coreq: SPAN 20800

3 hrs
3 cr.

AFPRL 49900 - Honors

Individual research and 30 page honors essay based on assigned theme under supervision of a full-time AFPRL faculty member.

prereq: completion of 24 AFPRL credits including three 300/400 level courses; only open to AFPRL upper seniors with 3.5 major GPA and 3.0 cumulative GPA.

3 hrs
3 cr.

Africana and Puerto Rican/Latino Studies: Courses Less Frequently Offered

AFPRL 18100 - Language and Ethnic Identity

Hunter Core
Individual and Society (Social Sciences) -I&S SS

AFPRL 18200 - Culture and Ethnic Identity

Hunter Core
World Culture and Global Issues (WCGI)

AFPRL 24800 - Caribbean Spanish

AFPRL 27600 - The Puerto Rican Family

AFPRL 31400 - Blacks in Labor and Politics (W)

GER 3/B

Black labor from emancipation to present. Emphasis on period between New Deal and present.

prereq: AFPRL 20400 or 20500 or perm instr.
AFPRL 32200 - African World View: Philosophy and Symbolic Thought (W)

Pluralism and Diversity
PD/A
GER
3/A

Examination of African religious systems, metaphysical conceptions and philosophy.
prereq: AFPRL 22200 or perm instr.
3 hrs
3 cr.
offered every other sem.

AFPRL 32300 - Islam and Christianity in Africa (W)

GER
3/A

Examination of relationship of Islam and Christianity to primary African religion and their political role in African history.
prereq: AFPRL 201 or 202 or 222 or perm instr.
3 hrs
3 cr.

AFPRL 32400 - African-American Ethnohistory (W)

Ethnohistorical survey of development of Black culture in the diaspora; reinterpretation of African forms in Western European environment.
prereq: AFPRL 22000 or perm instr.
3 hrs
3 cr.

AFPRL 33000 - Autobiography as a Theme in Black Literature (W)

GER
3/A

Treatment of autobiographical works of Black authors in U.S., Caribbean and Africa during 19th and 20th centuries.
prereq: AFPRL 23600 or perm instr
3 hrs
3 cr.

AFPRL 37000 - Sociolinguistic Fieldwork in Black and Puerto Rican/Latino Speech Communities (W)

GER
3/B
Sociolinguistic theory applied to linguistic varieties spoken in African American, African-Caribbean, Puerto Rican and other Latino communities.

**AFPRL 40100 - Pan-Africanism**

**GER**

3/B

Seminar traces development of Pan-Africanism through the 20th century. Not open to freshmen.

**prereq:** AFPRL 20200 or 20400 or 20600

3 hrs

3 cr.

**AFPRL 40200 - African American Political Thought**

**GER**

3/B

Comparative theorists; methods and ideological currents.

**prereq:** AFPRL 20300 or 20400 or 20500

3 hrs

3 cr.

**AFPRL 40300 - Development Strategies in the African-Caribbean**

**GER**

3/B

Analysis of developmental strategies used by Caribbean nations after independence.

**prereq:** AFPRL 20700 or 20800 or 20900 or 21000 or perm instr.

3 hrs

3 cr.

**AFPRL 42000 - The Black Church and Social Change**

**GER**

3/B

In-depth study of the sociopolitical role of Black church in political struggle of Black people with special emphasis on America.

**prereq:** AFPRL 20300 or 20400 or 20500 or perm instr.

3 hrs

3 cr.

**AFPRL 44200 - History of Puerto Rican Labor Movements**
GER
3/B

Historic development of Puerto Rican working class, its movements and organizations from 19th century to present.
prereq: AFPRL 24200 or 27000
3 hrs
3 cr.

Swahili

SWA 10100 - Swahili I

Introduction to Swahili, pronunciation and elements of grammar.
SWA 101 is usually not credited without completing SWA 102. For details about credit policy, please see Foreign Language Requirement.
3 hrs
3 cr.

SWA 10200 - Swahili II

Introduction to Swahili, pronunciation and elements of grammar.
Each credit for SWA 10100 is not given until SWA 10200 completed
3 hrs
3 cr.

SWA 20100 - Swahili III

Grammar review, composition oral practice.
prereq: SWA 10200 or demonstrated competence in speaking and writing
3 hrs
3 cr.

SWA 20200 - Swahili IV

Review of morphology and syntax original composition, intensive oral practice.
prereq: SWA 20100 or demonstrated competence as a native speaker
3 hrs
3 cr.

Yoruba

YOR 10100 - Yoruba I

Elementary Yoruba. Introduction to language and culture of Yoruba People of Nigeria.
Each credit for YOR 10100 is not given until YOR 10200 is completed
YOR 10200 - Yoruba II

Elementary Yoruba. Introduction to language and culture of Yoruba People of Nigeria. Each credit for YOR 10100 is not given until YOR 10200 is completed

YOR 20100 - Yoruba III

Writing and reading of Yoruba language, including study of grammar and syntax.

prereq: YOR 10200 or demonstrated competence in speaking and writing

YOR 20200 - Yoruba IV

Intensive writing and reading of Yoruba language and continuation of study of grammar and syntax.

prereq: YOR 20100 or demonstrated competence as a native speaker

Programs and Courses in Anthropology

Anthropology

Overview

Anthropology is the study of humanity in all its cultural and biological diversity. In the United States, the discipline traditionally includes four fields: archaeological, biological, sociocultural, and linguistic anthropology, although research increasingly examines questions at the borders of the fields or which span more than one field. The Department of Anthropology offers B.A., B.A./M.A., and M.A. degree programs, all of which provide both a solid grounding in the four fields and a variety of opportunities for specialized study, practicums and internships, and participation in faculty research. Our undergraduate courses stress theoretical fundamentals, the nature and scope of cultural variation throughout the world and across historical and evolutionary time. The Anthropology curriculum emphasizes original research, scholarly writing, informed critical thinking, and the understanding of, and tolerance for diverse cultures and ways of life. The faculty is actively involved in interdisciplinary teaching, interdepartmental collaborative efforts, and individual and team research projects, including many that involve new information technologies, cultural resource management, environmental impact assessment, ethnicity and gender, regional and area studies, and economic development. Biological anthropology and archeology host state-of-the-art research labs that support student training and research. International field sites are also available for student research. The Department is also committed to involving undergraduate students in ongoing faculty-supported research, and in encouraging independent student-initiated research projects.

What can I do with my degree in Anthropology?
Known for its holistic approach, anthropology provides essential foundations and perspectives for the study of the social and natural sciences and the humanities, as well as for applied professions such as education, public health, journalism and social work.

**Undergraduate Major**

**Anthropology - BA**
The anthropology major is designed to give students an overview of the discipline, as well as training in all four fields of the subject (archaeology, cultural anthropology, biological anthropology and anthropological linguistics.) The anthropology major consists of 28 credits [see table below]. In order to graduate with a major in anthropology, students must earn a C grade or better in all required courses and electives counted toward the major.

**Hunter Core Requirement**

Note: Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019 .

In the case of the anthropology major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core</th>

**ANTHC 31800 - History of Anthropological Theory**

Pluralism and Diversity
PD/D
GER
3/B

Changing approaches to the study of society and culture. Political and historical context of the development of theory,
the link between theory and method and the impact of theory on policy.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

Elective courses (9 cr.)

Selected from the following fields: Cultural Anthropology, Biological Anthropology, Linguistics, Archaeology, Research Design, Anthropological Theory

Honors Work

Honors work is possible in each of the major branches of anthropology. The emphasis is on independent student research under the supervision of a faculty member. In order to graduate with departmental honors in anthropology, a student must: (1) have taken at least 2 credits of ANTHC 40000; (2) have a GPA in the major of not less than 3.5 and a cumulative GPA of not less than 2.8 at the time of graduation; and (3) complete a departmental honors form available from the departmental undergraduate adviser.

ANTHC 40000 Honors Project

(available to students in each of the four fields of anthropology) Open to qualified juniors and seniors every semester. Research under supervision of a faculty member. From 2 to 3 credits per semester, depending on the nature of the student's work. May be taken for 1, 2, or 3 semesters for a maximum of 6 credits. To apply, students must (1) present a research plan prepared in conjunction with a faculty member; (2) have this plan approved by the undergraduate adviser and the department chair; and (3) obtain approval prior to preregistration.

Interdepartmental Fields

Students who want to do work in anthropology as part of an interdepartmental field, such as Africana and Puerto Rican/Latino studies, Latin American and Caribbean studies, religion, urban affairs and planning, or women and gender studies, should refer to descriptions under the department or field of their interest.

Degree Map

Degree Map for Anthropology

Degree Map for Anthropology

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Anthropology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you

Notes:

Please note ANTHP 101, ANTHC 151 and ANTCH 126 are required for the major and will also satisfy the CUNY Common Core (CCC), however, no more than two courses from any one department will count for the CCC so an additional course will be needed.

Undergraduate Minor

Minor in Anthropological Archaeology

The Anthropological Archaeology Minor introduces students to the study of past human societies and cultural diversity from an anthropological perspective. The minor consists of a minimum of 12 credits from the courses listed below, or other courses with the approval of the departmental undergraduate advisor. Only one non-AN-C course from the following list may count towards the minor. In order to graduate with an Anthropological Archaeology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Courses for the Minor

Hunter Core
SW
Introduction to theory and method of scientific research in archaeology.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.
ANTHC 22600 - Archaeology of Africa

Pluralism and Diversity
PD/A
GER
3/B

Prehistory; origins, adaptations, cultural evolution of early hominids; origins of agriculture, early complex societies.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 23200 - Archaeology of South America and the Caribbean

GER
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 32000 - Problems in Anthropology

GER
3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.
prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 32600 - Rise of Old and New World Civilizations

GER
3/B

Theoretical and empirical examination of development of urbanism and state, in the Old and New Worlds.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 32700 - Prehistoric Cultural Ecology

GER
3/B

Survey of selected problems in human evolution and adaptation from an ecological perspective.
prereq: ANTHC 12600 or perm instr
ANTHC 34600 - Analytic Methods in Archaeology

GER
3/B

Theory and methods of analysis of materials recovered from archaeological excavations and surveys.

prereq: ANTHC 12600 or perm instr.

5 hrs (3 hrs lec, 2 lab)

4 cr.

ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity
See note below

Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.

The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

ANTHC 42659 Archaeology of North America meets PD/B
ANTHC 42660 Archaeology of Colonialism meets PD/D

prereq: ANTHC 12600 or perm instr.

3 hrs

3 cr.

Non ANTHC Courses:

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)

GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)

4 cr.

offered every sem.

CLARC 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)

Hunter Core
World Culture and Global Issues (WCGI)

GER
2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.

prereq: ENGL 12000
3 hrs
3 cr.

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.

GEOL 10000 - Introduction to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

Minor in Anthropology

The Anthropology Minor provides students an overview of the discipline through survey courses in each of the four primary subfields of anthropology. It is designed to help students appreciate the significance of, and relations between, language, biology, and culture, for human beings past and present. The minor consists of four courses for a total of 13 credits. In order to graduate with an Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

The minor includes the following three required courses:

ANTHC 10100 - Introduction to Cultural Anthropology
**Hunter Core**  
*Individual and Society (Social Sciences) - I&S SS*

**Pluralism and Diversity**  
PD/A  
GER  
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

*3 hrs*  
*3 cr.*  
*offered every sem.*

**ANTHC 12600 - Introduction to Prehistoric Archaeology**

**Hunter Core**  
*World Culture and Global Issues (WCGI)*  
GER  
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

*3 hrs*  
*3 cr.*  
*offered every sem.*

**ANTHC 15100 - Introduction to Linguistics**

**Hunter Core**  
*World Cultures and Global Issues (WCGI)*  
GER  
2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language universals.

*3 hrs*  
*3 cr.*

Plus one additional course selected from the following two options:

**ANTHP 10100 (STEM) - Human Evolution**

**Hunter Core**  
*Life and Physical Sciences (LPS) Scientific World (SW)*  
GER  
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

*6 hrs (3 hrs lec, 3 hrs lab)*  
*4 cr.*  
*offered every sem.*
ANTHP 10200 (STEM) - Human Variation

Hunter Core
Scientific World (SW) STEM; Life and Physical Sciences (LPS)
GER
2/E

Description and analysis of biological variation in living human populations. Both genetic and phenotypic variation will be examined. Lab experiments and demonstrations.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

Minor in Cultural Anthropology

The Cultural Anthropology Minor introduces students to the study of contemporary human cultures through a focus on cross-cultural similarities and differences in such areas as kinship, politics, economics, religion, sexuality, gender, and artistic production. The minor consists of a minimum of 12 credits from the courses listed below, as well as others that may be approved by the departmental undergraduate advisor. In order to graduate with a Cultural Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Courses (12 cr.):

ANTHC 10100 - Introduction to Cultural Anthropology

Hunter Core
Individual and Society (Social Sciences) - I&S SS
Pluralism and Diversity
PD/A
GER
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.
3 hrs
3 cr.
offered every sem.

ANTHC 20100 - The Middle East: Societies and Cultures

Pluralism and Diversity
PD/A
GER
3/B

Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.
3 hrs
3 cr.

ANTHC 21400 - The Caribbean: Societies and Cultures
Pluralism and Diversity
PD/A
GER
3/B

Indigenous peoples, colonization and slavery; minorities, race relations; family life, religion and economy.
3 hrs
3 cr.

ANTHC 21500 - The Anthropology of Black America (W)

Pluralism and Diversity
PD/B
GER
3/B

Examines anthropological knowledge about Black America and the various socio-political contexts in which this body of scholarship has been produced. Focuses on the politics of knowledge production on Black culture.
prereq: ENGL 12000
3 hrs
3 cr.

ANTHC 27500 - Reading Ethnographies (W)

GER
3/B

Examines the most significant mode of writing within cultural anthropology: the ethnography. Students explore interpretive, theoretical and political issues in the representation of cultures through close reading and analysis of ethnographic texts.
prereq: ANTHC 10100 or perm instr.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

ANTHC 30100 - Gender in Anthropological Perspective

Pluralism and Diversity
PD/C
GER
3/B

Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.
cross-listed WGSC 30100
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 30700 - Anthropology of Religion
Pluralism and Diversity
PD/A
GER
3/B

Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.
3 hrs
3 cr.

ANTHC 30900 - Countryside and City: Comparative Perspectives

Rural-urban connections and the transformations that affect rural areas and peoples in diverse parts of the world.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 31000 - Politics and Power in Anthropological Perspective

Pluralism and Diversity
PD/A
GER
3/B

Leadership, conflict, inequality, decision-making and law in different societies; interaction of local politics with state and global institutions.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 31100 - Anthropology of Art

Pluralism and Diversity
GER 3/B

Symbolic forms of human behavior; paleolithic cave art, tribal art, ethnomusicology.
3 hrs
3 cr.

ANTHC 31200 - Anthropological Approaches to Sexuality

Pluralism and Diversity
PD/C
GER
3/B

Documents the social construction of human sexuality through an examination of sexual variation cross-culturally and over recent history, including the development of sexually defined communities and identities within contemporary societies.

prereq: ANTHC 10100
3 hrs
3 cr.
ANTHC 31500 - Applied Anthropology

GER
3/B

Practical applications of theory and methods to contemporary social problems; community development; inter-cultural relations.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 31800 - History of Anthropological Theory

Pluralism and Diversity
PD/D
GER
3/B

Changing approaches to the study of society and culture. Political and historical context of the development of theory, the link between theory and method and the impact of theory on policy.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 32000 - Problems in Anthropology

GER
3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.

prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 32200 - Family and Household in Anthropology and History

Pluralism and Diversity
PD/C
GER
3/B

Examines variations in household structure and family relations across cultures and over time, focusing on the relationship between domestic arrangements and other aspects of society.

prereq or coreq: ANTHC 10100
3 hrs
3 cr.

ANTHC 32500 - Special Projects and Independent Research in Anthropology
GER
3/B

prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 35100 - Language in Culture and Society

GER
3/B

Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.
3 hrs
3 cr.

ANTHC 40000 - Honors Projects

prereq: perm chair
offered every sem.

ANTHC 40100 - Seminars in Selected Topics

Topics TBA.

Minor in Linguistic Anthropology

The Linguistic Anthropology Minor introduces students to the comparative and interdisciplinary study of language as a cultural resource and speaking as a cultural practice. In its study of the ways in which language and culture are interrelated, linguistic anthropology often draws from linguistics, sociology, psychology, philosophy, communication studies, as well as education, semiotics, and ethnic and literary studies.

Minor in Linguistic Anthropology

The Minor consists of a minimum of 12 credits from any of the following courses, or other courses with approval of the departmental undergraduate advisor. In order to graduate with a Linguistic Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor. Choose from courses below:

ANTHC 15100 - Introduction to Linguistics

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language universals.
ANTHC 32000 - Problems in Anthropology

GER
3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.

prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 35100 - Language in Culture and Society

GER
3/B

Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.

3 hrs
3 cr.

ANTHC 35400 - Grammatical Analysis and Theory

GER
3/B

Methods of syntax and morphology in work with diverse languages; syntactic theories and their development relative to universals, semantics, pragmatics, discourse.

prereq: ANTHC 15100 or equiv.
3 hrs
3 cr.

ANTHC 40100 - Seminars in Selected Topics

Topics TBA.

Minor in Middle East Studies

The Minor in Middle East Studies seeks to develop students' understanding of the complex and interconnected political, economic, cultural, environmental, linguistic, historical, and religious issues in the region by fostering critical, interdisciplinary and global approaches to the study of the Middle East and its diasporas. To this end, the Minor in Middle East Studies (MMES) requires completion of a minimum of 12 credits (4 courses). In addition, students are encouraged to fulfill the college language requirement through study of a regional language. However, there is no language requirement for the MMES. No grade below B- shall be considered to fulfill these requirements.

Admission to the Minor
Students who have completed at least 3 credits of relevant coursework in Middle East Studies (including regional languages) with an average GPA of 3.0 may apply for admission to the Minor. To declare the Minor, students will complete the Minor Declaration form and meet with the Director. For advising purposes students are encouraged to apply early in their academic careers. Any Middle East Studies related courses taken prior to declaring the Minor shall count toward the 12 credit minimum for the Minor in Middle East Studies. Credits earned toward the Minor in Middle East Studies shall not also count toward the fulfillment of Major or other Minor requirements.

Introductory survey course: 3 cr

All students will take one survey course in Middle East Studies chosen from among the following, or another general survey course subject to approval by the Director:

**ANTHC 20100 - The Middle East: Societies and Cultures**

**Pluralism and Diversity**
PD/A
GER
3/B

Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.
3 hrs
3 cr.

**HIST 27650 - Middle Eastern History from the Beginning of Islam to 1800 (W)**

**Pluralism and Diversity**
PD/A
Religious, cultural and social changes in the region. The emergence of the religion of Islam, the expansion of the Islamic realm and the rise and fall of subsequent Islamic states up to the 18th century.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 27651 - The Modern Middle East from 1800 to the Present (W)**

**Pluralism and Diversity**
PD/A
The transformation of states and peoples in the last two centuries in the region stretching from Turkey to Iran and including Iraq, Syria, Egypt and Arabia. Modern social and cultural trends, conflicts and reactions under the impact of imperialism, nationalism, economic trends and religious forces.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**MUSHL 24300 - Music of the Middle East**

Music and its relationship to tradition, modernity, gender, and politics in the major regions and ethnic groups of the Middle East and North Africa.

*prereq or coreq: MUSHL 10100, or MUSHL 10700, or MUSHL 20500, or MUST 10100, or permission of the instructor*
POLSC 26300 - Government and Politics in the Middle East (W)

Pluralism and Diversity
PD/A
GER
3/B

Introduction to Islamic societies and their politics with particular attention to cultures of region.  
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

Additional courses may be developed to fulfill this requirement

Electives: 9 cr

In addition, students will take a minimum of 9 credits in electives, and must choose at least one class focusing on the Middle East from each of the following three areas of concentration:

I) Historical Formations
II) Society and Politics
III) Arts, Literatures, and Cultures

Students may petition for other courses to fulfill the elective requirement. See list below for currently offered courses that meet these requirements:

- List of Selected Approved Courses for the Minor in Middle East Studies

Students may fulfill 3 of the 9 credit hour elective requirement with advanced language and literature classes (3rd year and beyond), for Area of Concentration III) Arts, Literatures and Cultures. With the approval of the Director, students may take an independent study and one course from outside Hunter College to satisfy the requirements for the Minor.

Minor in Physical Anthropology

The Physical Anthropology Minor introduces students to the study of human evolution, including human variation, paleontology, genetics, and primatology. The Minor consists of a minimum of 12 credits. These must include ANTHP 101 Human Evolution (4 Cr). The remaining credits can be filled by any AN-P courses. Also, one (and only one) non-ANTHP course from the following list may count towards the minor. In order to graduate with a Physical Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Required course for the Minor:

ANTHP 10100 (STEM) - Human Evolution

Hunter Core  
Life and Physical Sciences (LPS) Scientific World (SW)  
GER  
2/E
The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

8 or more credits from any of the following courses:

Note: Only one non-ANTHP may be used for the Physical Anthropology Minor.

**ANTHP 10200 (STEM) - Human Variation**

Hunter Core
Scientific World (SW) STEM; Life and Physical Sciences (LPS)
GER
2/E

Description and analysis of biological variation in living human populations. Both genetic and phenotypic variation will be examined. Lab experiments and demonstrations.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

**ANTHP 30100 - Human Fossil Record**

Pluralism and Diversity
PD/C
GER
3/B

The hominid fossil record of Africa, Asia and Europe. Human evolution as evidenced in fossil record.
prereq: ANTHP 10100, 10200, or equiv.
3 hrs
3 cr.

**ANTHP 30200 - Human Genetics**

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

prereq: ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500
3 hrs
3 cr.

**ANTHP 31000 - Primate Ecology and Behavior**

GER
3/B

Examination of ecological factors responsible for the distribution and behavior of living primate species.
prereq: ANTHP 10100 or 10200 or BIOL 10000 or 10200
3 hrs
3 cr.

**ANTHP 31100 - Primate Evolution**

GER
3/B

65 million years of evolution covering the appearance and radiation of our own mammalian Order. A detailed look at the primate fossil record and the evolution of primate anatomy, behavior, and ecology.

prereq: ANTHP 10100 or perm instr.
3 hrs
3 cr.

**ANTHP 31200 - Primate Evolutionary Genetics**

Examines evolutionary relationships, social behavior, natural selection, disease, population history, demography, medicine and genomics. This course draws on readings from the primary literature.

prereq: ANTHP 10100 OR ANTHP 10200 OR BIOL 10200 OR ANTHP 10500
3 hrs
3 cr.

**ANTHP 31600 - Human Evolutionary Adaptations**

GER
3/B

How does the human body work, and how did it get that way? This course investigates the workings and evolution of all aspects of human biology. Human physiology is considered in an evolutionary framework.

prereq: ANTHP 10100 or ANTHP 10500
3 hrs
3 cr.

**ANTHP 40100 - Seminars in Selected Topics**

Course provides in-depth study of specific topics in field of physical anthropology.

prereq: prereq; depends on topic
3 hrs
3 cr.

Non ANTHP Courses:

**ANTHC 12600 - Introduction to Prehistoric Archaeology**

**Hunter Core**
World Culture and Global Issues (WCGI)
**GER**
2/B
Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

3 hrs
3 cr.
offered every sem.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 12000 - Anatomy and Physiology I

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.

Not accepted for credit toward the biology major.

prereq: CHEM 10000, 10100

coreq: CHEM 12000, 12100

7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
fall only

GEOL 10000 - Introduction to Geology

Hunter Core
Scientific World (SW)

GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

**PSYCH 16000 - Evolution and Behavior**

**GER**
2/B

Aggression, sleep, learning, communication, emotion, motivation and social behavior in human and other species; underlying mechanisms, development, evolutionary history.

*prereq: PSYC 10000*

3 hrs
3 cr.

**Other Programs**

**List of Selected Approved Courses for the Minor in Middle East Studies**

(subject to Modification)

**Area I: Historical Formations**

**Anthropology**

**ANTHC 22800 - Archaeology of the Near East to 2000 BC**

**Pluralism and Diversity**
PD/A
**GER**
3/B

Sociocultural development of Near East from early hunter-gatherers to first states and empires.

*prereq: ANTHC 12600 or perm instr.*

3 hrs
3 cr.

**Classics**

**CLARC 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)
**GER**
2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.
CLARC 32500 - Archaeology of Eastern Mediterranean (W)

Pluralism and Diversity
PD/A  
GER  
3/A  
The Levant (Syria, Jordan, Lebanon, Israel) and Cyprus, from the Neolithic to the Persian era, ca. 10,000 – 500 BCE.

prereq: ENGL 12000, CLARC 20400
3 hrs  
3 cr.

CLARC 32200 - Archaeology of Mesopotamia and Iran (W)

Pluralism and Diversity
PD/A  
GER  
3/A  
Sites, cultures, and styles of ancient Mesopotamia and Iran. First cities, tombs of Ur, ziggurats, palaces, Elamites and Persians.

prereq: ENGL 12000, CLARC 20400
3 hrs  
3 cr.

CLARC 32300 - Archaeology of Anatolia (W)

Pluralism and Diversity
PD/A  
GER  
3/A  
Sites, cultures, and styles of ancient Anatolia: Catal Huyuk, Troy, the Hittites, royal tombs of Phrygia and Lycia.

prereq: ENGL 12000, CLARC 20400
3 hrs  
3 cr.

Hebrew

HEBR 29000 - Biblical Archaeology

Hunter Core  
Flexible Core: World Culture and Global Issues  
Pluralism and Diversity
Study of Biblical sources in translation in relation to major archaeological discoveries in Israel and Near East.

3 hrs
3 cr

History

HIST 21000 - History of Judaism

GER 2/B
Survey of the Jewish religious tradition with attention to interactions between Judaism and other religions and to the role of Judaism in the formation of Christianity and Islam.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 27650 - Middle Eastern History from the Beginning of Islam to 1800 (W)

Pluralism and Diversity
PD/A
Religious, cultural and social changes in the region. The emergence of the religion of Islam, the expansion of the Islamic realm and the rise and fall of subsequent Islamic states up to the 18th century.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 27651 - The Modern Middle East from 1800 to the Present (W)

Pluralism and Diversity
PD/A
The transformation of states and peoples in the last two centuries in the region stretching from Turkey to Iran and including Iraq, Syria, Egypt and Arabia. Modern social and cultural trends, conflicts and reactions under the impact of imperialism, nationalism, economic trends and religious forces.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 37300 - History of the Ottoman Empire (W)

Pluralism and Diversity
PD/A
GER 3/B
This course comprises, chronologically and thematically, the history of the Ottoman Empire from the Turkic migrations in the 12th-century to the end of the empire in 1923 and the rise of nationalism in the Middle East. Fundamental
knowledge of the history of the Middle East is recommended.

prereq: ENGL 12000
3 hrs
3 cr.

Area II: Society and Politics

Anthropology

ANTHC 20100 - The Middle East: Societies and Cultures

Pluralism and Diversity
PD/A
GER
3/B

Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.
3 hrs
3 cr.

ANTHC 401.78 Ethnology of the Middle East
ANTHC 400 Ethnographies of the Middle East

Hebrew

HEBR 25900 - Old Testament Religion

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

Comprehensive survey of ancient Israelite religious practice, expression and thought as reflected in Hebrew Bible.
3 hrs
3 cr

Political Science

POLSC 26300 - Government and Politics in the Middle East (W)

Pluralism and Diversity
PD/A
GER
3/B

Introduction to Islamic societies and their politics with particular attention to cultures of region.
prereq: ENGL 12000 or its equivalent
POLSC 26400 - Government and Politics of Israel (W)

GER
3/B

Historic evolution of the Jewish state and its political system, social issues and foreign policy.

prereq: ENGL 12000 or its equivalent

3 hrs
3 cr.

Religion

REL 25200 - Ancient Near Eastern Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).

prereq: ENGL 12000

3 hrs
3 cr.

REL 25300 - Abrahamic Religions (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Study of Judaism, Christianity, and Islam– with some considerations of Zoroastrian parallels.

prereq: ENGL 12000

3 hrs
3 cr.

REL 32200 - Islam (W)

Pluralism and Diversity
PD/A
GER
3/A
Study of Islam, its development, history, literature, philosophy and religious practices.  
prereq: ENGL 12000  
3 hrs  
3 cr.

REL 32400 - Islam and Buddhism (W)

Pluralism and Diversity  
PD/A  
GER  
3/A  

Study of Islam and Buddhism, their founders, development, beliefs, rituals and interaction.  
prereq: ENGL 12000  
3 hrs  
3 cr.

REL 33700 - Sufism (W)

Pluralism and Diversity  
PD/A  
GER  
3/A  

A course on the esoteric or mystical dimension of Islam, known among Muslims as ta'awwuf, attending to the history, doctrine and metaphysics of the Sufi path.  
prereq: ENGL 12000  
3 hrs  
3 cr.

Sociology

SOC 36200 - Sociology of Islam (W)

GER  
3/B  

Introduction to Islam as religion and culture with emphasis on how misconceptions have permeated our understanding of Islam. Analysis from a historical perspective which serves as a framework for comprehending Islam's dogma, rituals, and legal system.  
prereq: SOC 10100  
3 hrs  
3 cr.

Area III: Arts, Literatures and Cultures

Arabic

ARB 20000 - Topics in Arabic Literature and Culture
This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

prereq: ENGL 12000 or equivalent
3 hrs.
3 cr.

**ARB 25000 - The Arab Novel (in translation) (W)**

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

prereq: ENG 22000 or equiv.
3 hrs
3 cr.

**ARB 25100 - Arab Cinema (in translation)**

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

prereq: ENGL 12000 or equivalent
3 hrs
3 credits

**ARB 25200 - Literatures from the Islamic World (W)**

**Hunter Core**
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

prereq: ENGL 12000 or equivalent
3 hrs
3 credits

**ARB 25300 - Literatures and Cultures of Muslim Spain (W)**
ARB 25400 - The Arabian Nights East and West (W)

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.

prereq or coreq: ENGL 12000 or equivalent

3 hours
3 credits

ARB 25500 - Modern Palestinian Culture

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

3 hrs
3 cr.

ARB 30000 - Problems in Arabic Literature and Culture

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.

3 hours
3 credits
Art History

ARTH 20500 - Egyptian Art

Pluralism and Diversity
PD/A
GER
3/A

Geographical, historical and social conditions of the Nile. Influence of Egyptian art.

prereq: ARTH 11100
prereq or coreq: ENGL 12000 is a prerequisite or corequisite for all ARTH courses numbered 20500-20700.

3 hrs
3 cr.

ARTH 26000 - Islamic Art and Architecture

Pluralism and Diversity
PD/A
GER
3/A

Introduction to the art and architecture of Islamic lands (7th to 19th century).

prereq: ARTH 11100

3 hrs
3 cr.

Hebrew (partial listing)

HEBR 21000 - Selected Studies in Hebrew Literature in Translation

Pluralism and Diversity
PD/C (HEBR 21060 only)

Study of selected masterpieces or major themes in Hebrew literature in translation. May be repeated as topics vary from semester to semester. Some topics may meet a PD requirement; check with department.

3 hrs
3 cr.

HEBR 22000 - Israeli Cinema

Pluralism and Diversity
PD/A
GER
3/A

Israeli cinema and the development of Israeli cultural identity. Designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. The course is designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. This course will explore discourses on topics concerning the Israeli-Palestinian and Israeli-Arab conflicts, Zionist and post-Zionist trends, socio-economic gaps, religious controversies and aesthetic societal contexts, as well as women's issues. The course will employ a variety of
disciplines, including but not limited to formalist and semiotic film theories and literary analysis. The student will gain fundamental insight into Israeli culture. No knowledge of Hebrew is required but can be helpful. Students, who wish to do the reading and discussion in the Hebrew language, may have that option. Course will be conducted in English.

cross-listed cross-listed with FILM 21344
prereq: ENGL 12000
3 hrs
3 cr

HEBR 22100 - Modern Israeli Culture

Hunter Core
World Culture and Global Issues (WCGI)
A survey of contemporary Israeli culture, exploring topics relating to language, literature, history, rituals, politics, music and education.
prereq: ENGL 12000
3 hours
3 credits

HEBR 31000 - Modern Hebrew Literature I

Pluralism and Diversity
PD/D
GER
3/A

Reading and discussion of selected works in prose and poetry of 19th-century authors.
prereq: HEBR 20200 or equiv. or exemption
3 hrs
3 cr

HEBR 31100 - Modern Hebrew Literature II

GER
3/A

Reading and discussion of selected works in prose and poetry of 20th-century authors.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr.

HEBR 31500 - Biblical Literature: Pentateuch

Pluralism and Diversity
PD/A
GER
3/A

Selections from Pentateuch.
prereq: HEBR 20200 or equiv.
HEBR 32000 - The Modern Hebrew Short Story

GER
3/A

Extensive reading of short stories from late 19th century to present, illustrating different literary trends. 
prereq: HEBR 20200 or equiv.
3 hrs
3 cr.

HEBR 32200 - Medieval Literature

Pluralism and Diversity
PD/D
GER
3/A

Selections from literature of Golden Age in Spain.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32300 - Poetry of the Modern Hebrew Renaissance Period

Pluralism and Diversity
PD/D
GER
3/A

Study of major works of Bialik, Tschernichovsky, Kahan and Shneour.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32400 - The Modern Hebrew Essay

Pluralism and Diversity
PD/D
GER
3/A

Study of selected essays of Ahad ha'Am, Berdichevsky and Frischman. 
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32500 - History of Modern Hebrew Literature
GER
3/A
Evolution of Hebrew literature from period of Enlightenment to contemporary Hebrew letters.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32700 - The Modern Hebrew Novel

GER
3/A
Intensive study of a major novel by Agnon, Barash or Hazaz, with collateral readings in other Hebrew novels.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32800 - Contemporary Hebrew Prose

GER
3/A
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

Music

MUSHL 24300 - Music of the Middle East

Music and its relationship to tradition, modernity, gender, and politics in the major regions and ethnic groups of the Middle East and North Africa.

prereq or coreq: MUSHL 10100, or MUSHL 10700, or MUSHL 20500, or MUST 10100, or permission of the instructor
3 hrs
3 cr

Other Courses

Students may petition for other courses to fulfill the elective requirement. No more than two classes from other campuses or universities may be used to fulfill MMES requirements.

Anthropology: Archaeology

ANTHC 12600 - Introduction to Prehistoric Archaeology
Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.
3 hrs
3 cr.
offered every sem.

ANTHC 12700 - Methods In Archaeological Science

Hunter Core
SW
Introduction to theory and method of scientific research in archaeology.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 22600 - Archaeology of Africa

Pluralism and Diversity
PD/A
GER
3/B

Prehistory; origins, adaptations, cultural evolution of early hominids; origins of agriculture, early complex societies.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 22700 - Archaeology of Europe

Pluralism and Diversity
PD/D
GER
3/B

Prehistory; early hunting and gathering adaptations, beginnings of sedentary village life, development of complex societies.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 22800 - Archaeology of the Near East to 2000 BC

Pluralism and Diversity
PD/A
GER
3/B

Sociocultural development of Near East from early hunter-gatherers to first states and empires.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 23000 - Prehistory of North American Indians

GER
3/B

Examination of adaptation and change in prehistoric cultural systems, employing archaeological and ethnohistorical sources.

prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 23100 - Archaeology of Mesoamerica

GER
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 23200 - Archaeology of South America and the Caribbean

GER
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 32600 - Rise of Old and New World Civilizations

GER
3/B

Theoretical and empirical examination of development of urbanism and state, in the Old and New Worlds.

prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 32700 - Prehistoric Cultural Ecology

GER
3/B

Survey of selected problems in human evolution and adaptation from an ecological perspective.
prereq: ANTHC 12600 or perm instr
3 hrs
3 cr.

ANTHC 34600 - Analytic Methods in Archaeology

GER
3/B

Theory and methods of analysis of materials recovered from archaeological excavations and surveys.
prereq: ANTHC 12600 or perm instr.
5 hrs (3 hrs lec, 2 lab)
4 cr.

ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity
See note below
Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.

The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

ANTHC 42659 Archaeology of North America meets PD/B
ANTHC 42660 Archaeology of Colonialism meets PD/D
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

Anthropology: Biological Anthropology, Genetics and Paleontology

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

ANTHP 10200 (STEM) - Human Variation

Hunter Core
Scientific World (SW) STEM; Life and Physical Sciences (LPS)
GER
2/E
Description and analysis of biological variation in living human populations. Both genetic and phenotypic variation will be examined. Lab experiments and demonstrations.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

**ANTHP 10500 - The Human Species**

**Hunter Core**
Life and Physical Sciences (LPS)
GER
2/E

In this course we examine human biology and behavior from an evolutionary perspective, comparing our anatomy, physiology, and behavior to those of living primates and other mammals. We will discuss the relative roles of genes ("nature") and environment ("nurture"), the biological basis of behavior, local biological adaptations evident in modern human populations, growth and development, and diet and disease. Students will actively engage in the development of scientific hypotheses, data collection, and data synthesis analysis, as part of laboratory research experiences throughout the semester. Material covered will help prepare students to understand and evaluate recent advances in genetics, behavioral studies, medicine, and evolution.

3 hrs
3 cr.

**ANTHP 21000 - Biology of the Living Primates**

This survey-based course will examine the diversity of the Order: Primates. The course will focus on the habitats, life history, ecology, behavior, and conservation of the living primates from an evolutionary perspective.

3 hrs
3 cr.

**ANTHP 21400 - Theory of Evolution**

History of and major debates in evolutionary theory, with particular emphasis on human evolution.

prereq: ANTHP 10100, 10200, or equiv.

3 hrs
3 cr.

**ANTHP 30100 - Human Fossil Record**

Pluralism and Diversity
PD/C
GER
3/B

The hominid fossil record of Africa, Asia and Europe. Human evolution as evidenced in fossil record.

prereq: ANTHP 10100, 10200, or equiv.

3 hrs
3 cr.

**ANTHP 30200 - Human Genetics**
Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

**prereq:** ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500
3 hrs
3 cr.

**ANTHP 30500 - Evolution of the Human Skeleton**

The goal of this course is to understand the biology of the human skeleton: know all of the bones of the human body, how they work, and how they evolved. This course will cover basic bone and muscle biology, bone and bone landmark identification, basic dental anatomy, basic functional interpretation, and discuss the evolution of the human skeleton with comparisons to great ape and fossil material. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory-type setting where students can handle and work with real osteological specimens and/or fossil casts. Occasionally, the first half of a class period will be a lecture, and the second half will be a lab. Worksheets/Study Guides will be provided and are expected to be completed by the end of the lab. In order to become skilled in bone identification and do well in the course, additional study time with the bones will most likely be necessary. We will set up a system to encourage and facilitate study time outside of class.

**prereq:** ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or ANTHP 10200 (Intro. to Physical Anthropology: Human Variation) or ANTHP 10500 (The Human Species) or BIOL 10200 (Principles of Biology 2).
3 hrs.
3 cr.

**ANTHP 30600 - Human Anatomy**

The goal of this course is to understand basic human anatomy: know all of the bones, muscles, major nerves and vessels in the human body, how they are organized, and how they function. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory setting where students can handle and work with real osteological specimens and/or anatomical models. A given lecture will provide a synthesis of a particular anatomical region and the hands-on details of regional anatomy will then be learned in the associated laboratory session. To gain the most from each lecture and laboratory session, you must do the assigned readings and relevant exercises in the lab workbook beforehand. The laboratory workbook is a required acquisition. Any anatomy textbook will provide you with the necessary reading for lectures, and the purchase of an anatomy atlas is highly recommended as well. In order to do well in the course, additional study time with the anatomical models may be necessary. We will set up a system to encourage and facilitate study time outside of class.

**prereq:** ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or ANTHP 10200 (Intro. to Physical Anthropology: Human Variation) or ANTHP 10500 (The Human Species) or BIOL 102 (Principles of Biology 2) or BIOL 12200 (Anatomy & Physiology 2).
3 hrs.
3 cr.

**ANTHP 31000 - Primate Ecology and Behavior**

**GER**
3/B
Examination of ecological factors responsible for the distribution and behavior of living primate species.

**prereq:** ANTHP 10100 or 10200 or BIOL 10000 or 10200  
**3 cr.**

**ANTHP 31100 - Primate Evolution**

**GER**  
3/B

65 million years of evolution covering the appearance and radiation of our own mammalian Order. A detailed look at the primate fossil record and the evolution of primate anatomy, behavior, and ecology.  
**prereq:** ANTHP 10100 or perm instr.  
**3 hrs**  
**3 cr.**

**ANTHP 31200 - Primate Evolutionary Genetics**

Examines evolutionary relationships, social behavior, natural selection, disease, population history, demography, medicine and genomics. This course draws on readings from the primary literature.  
**prereq:** ANTHP 10100 OR ANTHP 10200 OR BIOL 10200 OR ANTHP 10500  
**3 hrs**  
**3 cr.**

**ANTHP 31600 - Human Evolutionary Adaptations**

**GER**  
3/B

How does the human body work, and how did it get that way? This course investigates the workings and evolution of all aspects of human biology. Human physiology is considered in an evolutionary framework.  
**prereq:** ANTHP 10100 or ANTHP 10500  
**3 hrs**  
**3 cr.**

**ANTHP 31800 - Primate Nutritional Ecology**

This course will examine how primates meet their nutritional needs through interactions with their environments. From an evolutionary perspective, the course will address primate feeding and digestion, foraging theory and dietary methods.  
**prereq:** ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or BIOL 10200 (Principles of Biology 2) or ANTHP105 (The Human Species) or ANTHP 21000 (Biology of the Living Primates)  
**3 hrs.**  
**3 cr.**

**ANTHP 40100 - Seminars in Selected Topics**
Course provides in-depth study of specific topics in field of physical anthropology.  
prereq: depends on topic  
3 hrs  
3 cr.

**Anthropology: Human Biology**

**HMBIO 40100 - Human Biology Senior Capstone**

Addresses some of the key contemporary topics and debates in human biology from multiple vantage points.  
prereq: ANTHP 10500 and 21 credits towards the Human Biology Major AND Permission of the Human Biology Program Director.  
3 hrs  
3 cr.

**HMBIO 40200 - Independent Study**

Research project directed by a Human Biology Program participating faculty member.  
prereq: Permission of the Human Biology Program Director. Human Biology majors only.  
1 - 3 hrs  
1 - 3 cr.

**HMBIO 40300 - Internship**

Opportunity to participate in an internship in institutions related to the Human Biology major.  
prereq: Permission of the Human Biology Program Director. Human Biology majors only.  
1 - 3 hrs  
1 - 3 cr.

**Anthropology: Cultural Anthropology and Ethnology**

**ANTHC 10000 - Cultural Diversity in the United States: Historical and Ethnographic Perspectives (W)**

Hunter Core  
US Experience in its Diversity (USED)  
Introduction to the critical and comparative study of cultural diversity in the United States.  
prereq: ENGL 12000  
3 hrs  
3 cr.

**ANTHC 10100 - Introduction to Cultural Anthropology**

Hunter Core  
Individual and Society (Social Sciences) -I&S SS  
Pluralism and Diversity  
PD/A  
GER  
2/B
Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

3 hrs
3 cr.
offered every sem.

ANTHC 20000 - Africa: Societies and Cultures

Pluralism and Diversity
PD/A
GER
3/B

Pre-colonial, colonial and contemporary communities, subsistence and exchange systems and ecological adaptations.

3 hrs
3 cr.

ANTHC 20100 - The Middle East: Societies and Cultures

Pluralism and Diversity
PD/A
GER
3/B

Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.

3 hrs
3 cr.

ANTHC 20400 - East Asia: Societies and Cultures

Pluralism and Diversity
PD/A
GER
3/B

Historical and regional variation in various East Asian societies, with a focus on political economy, family, kinship, community and national minorities.

3 hrs
3 cr.

ANTHC 20500 - Global Health & Culture

Global Health research examines how interactions between cultural, biological, and political factors affect the health and well-being of individuals and populations, and how biomedical science can be most effective in contexts of poverty, war, or epidemic disease. Topics covered in this class include environmental justice, consequences of war and displacement, and the global health response to emerging epidemics and climate change.

3 hrs.
3 cr.

ANTHC 20700 - Anthropology and Education
Cross-cultural study of schooling and non-formal education viewed through the lens of cultural anthropology. The course examines teaching and learning with an emphasis on the cultural components of what children are taught, and how they learn. Emphasis is placed on applications of anthropology to theory, policy, and practice in education.

3 hrs.
3 cr.

**ANTHC 21100 - Native North America: Societies and Cultures**

Pluralism and Diversity
PD/A or B
GER
3/B

Adaptive strategies and cultural variations in pre and post-contact periods; problems in contemporary societies.
3 hrs
3 cr.

**ANTHC 21300 - Latin America: Societies and Cultures**

Pluralism and Diversity
PD/A
GER
3/B

Development and organization of tropical forest Indians, hacienda and plantation economies, peasant and urban societies.
3 hrs
3 cr.

**ANTHC 21400 - The Caribbean: Societies and Cultures**

Pluralism and Diversity
PD/A
GER
3/B

Indigenous peoples, colonization and slavery; minorities, race relations; family life, religion and economy.
3 hrs
3 cr.

**ANTHC 21500 - The Anthropology of Black America (W)**

Pluralism and Diversity
PD/B
GER
3/B

Examines anthropological knowledge about Black America and the various socio-political contexts in which this body of scholarship has been produced. Focuses on the politics of knowledge production on Black culture.

*prereq: ENGL 12000*
3 hrs
3 cr.
ANTHC 21800 - The Anthropology of the Civil Rights Movement in the U.S.

Pluralism and Diversity
PD/B
GER
3/B

This course examines the grassroots struggle to gain equality and justice in the United States, viewed as a social protest movement, from the perspective of cultural anthropology. The course will focus on the major events, themes and issues of the Civil Rights Movement and examine their effect in challenging the American concept of democracy; in changing those who participated in it; and in spawning other social movements that transformed American society and culture.

prereq: ANTHC 10100 or departmental permission
prereq or coreq: ENG 120
3 hours
3 credits

ANTHC 22500 - Ethnicity and Nationalism

Ethnic and national categories are among the primary ways contemporary humans identify themselves and others, often with violent consequences. This course challenges explanations of such identifications (and conflicts) as "natural" and introduces students to the political, economic, symbolic and affective forces driving ethno-national dynamics.

coreq: ANTHC 10100
3 hrs.
3 cr.

ANTHC 27500 - Reading Ethnographies (W)

GER
3/B

Examines the most significant mode of writing within cultural anthropology: the ethnography. Students explore interpretive, theoretical and political issues in the representation of cultures through close reading and analysis of ethnographic texts.

prereq: ANTHC 10100 or perm instr.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

ANTHC 30100 - Gender in Anthropological Perspective

Pluralism and Diversity
PD/C
GER
3/B

Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.
cross-listed WGSC 30100
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.
ANTHC 30600 - Folklore and Myth

GER
3/B

Cultural and psychological functions and symbolic meanings.
3 hours
3 credits

ANTHC 30700 - Anthropology of Religion

Pluralism and Diversity
PD/A
GER
3/B

Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.
3 hrs
3 cr.

ANTHC 30800 - Human Ecology

Pluralism and Diversity
PD/A
GER
3/B

Relationship between human populations and environment; ecosystems, population interactions, resource management and environmental movements.
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 30900 - Countryside and City: Comparative Perspectives

Rural-urban connections and the transformations that affect rural areas and peoples in diverse parts of the world.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 31000 - Politics and Power in Anthropological Perspective

Pluralism and Diversity
PD/A
GER
3/B

Leadership, conflict, inequality, decision-making and law in different societies; interaction of local politics with state and global institutions.
prereq: ANTHC 10100 or perm instr.
ANTHC 31100 - Anthropology of Art

Pluralism and Diversity
GER 3/B
Symbolic forms of human behavior; paleolithic cave art, tribal art, ethnomusicology.
3 hrs
3 cr.

ANTHC 31200 - Anthropological Approaches to Sexuality

Pluralism and Diversity
PD/C
GER
3/B
Documents the social construction of human sexuality through an examination of sexual variation cross-culturally and over recent history, including the development of sexually defined communities and identities within contemporary societies.
prereq: ANTHC 10100
3 hrs
3 cr.

ANTHC 31300 - Race, Culture, Power

This course offers an anthropological approach to the study of racial phenomena, including racism, racialization, the formation of racial categories, identities and subjectivities, and anti-racism. The course presents theories of race and power, and highlights the importance of a cultural analysis and a comparative perspective.

prereq: ENGL 12000
coreq: ANTHC 10100
3 hrs
3 cr.

ANTHC 31400 - Research Design in Anthropology

Pluralism and Diversity
GER 3/B
Introduction to basic principles of research design employed in anthropology.
prereq: ANTHC 10100
3 hrs
3 cr.

ANTHC 31500 - Applied Anthropology

GER
3/B
Practical applications of theory and methods to contemporary social problems; community development; inter-cultural
relations.  
prereq: ANTHC 10100 or perm instr.  
3 hrs  
3 cr.

ANTHC 31800 - History of Anthropological Theory

Pluralism and Diversity  
PD/D  
GER  
3/B

Changing approaches to the study of society and culture. Political and historical context of the development of theory, the link between theory and method and the impact of theory on policy.  
prereq: ANTHC 10100 or perm instr.  
3 hrs  
3 cr.

ANTHC 32000 - Problems in Anthropology

GER  
3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.  
prereq: perm instr.  
3 hrs  
3 cr.  
offered every sem.

ANTHC 32100 - Women and Globalization

GER  
3/B

The situation of women from less developed countries with attention to the local and global forces shaping their lives. Topics include migration, the international division of labor and worldwide adoption. Includes both theoretical approaches and practical issues related to improving women's place in society.  
cross-listed WGSL 32100  
prereq: ANTHC 10100 or perm instr.  
3 hrs  
3 cr.

ANTHC 32200 - Family and Household in Anthropology and History

Pluralism and Diversity  
PD/C  
GER  
3/B

Examines variations in household structure and family relations across cultures and over time, focusing on the relationship between domestic arrangements and other aspects of society.
prereq or coreq: ANTHC 10100
3 hrs
3 cr.

ANTHC 32500 - Special Projects and Independent Research in Anthropology

GER
3/B

prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 32900 - Politics of Memory

How do groups and societies remember the past, and how and why do monuments and sites of historical memory become part of political processes and cultural struggles in the present? This class explores the role of cultural memory in diverse societies, examining how historical knowledge and other forms of relationship to the past are used to ask and answer questions about power and justice. Examples will include ethnographic accounts of people's shared reflections on their pasts and the traces of the past in the landscape and even in people's bodies.

prereq: ENGL 12000
3 hrs.
3 cr.

ANTHC 33000 - Food and Culture

Food and culture are examined in all their relations, from production to consumption, including how societies vary in their tastes and practices of distinction, how food is used to convey symbolic meanings and display power, and how global societies can meet challenges of scarcity, sustainability, and ethical management across the food system.

prereq: ENGL 12000
3 hrs.
3 cr.

ANTHC 33100 - Grassroots Movements and Social Change

Mass mobilizations — progressive and regressive — have been significant engines of historical transformation. This course examines social scientific theories about social movements and collective action, and case studies of racial, gender and environmental justice, transnational and local, indigenous peoples, and countercultural movements.

coreq: ENGL 12000 and ANTHC 10100
3 hrs.
3 cr.
coreq: ENGL 12000 and ANTHC 10100
3 hrs
3 cr.

ANTHC 33200 - East Asia: Societies and Cultures

GER
3/B

Historical and regional variation in various East Asian societies with a focus on political economy, kinship, community and national minorities.
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 33200 - Medical Anthropology

This course provides an advanced introduction to Medical Anthropology, a vast subfield of Anthropology with many applications in the health sciences and industries. The focus is on how social groups variously experience, act upon and make meaning of health, wellbeing, illness, disease, and healing. The course emphasizes the complexities of health and illness in the context of cultural beliefs and practices, as well as in relation to broader, macro-level processes on both local and global scales.
prereq: ENGL 12000
coreq: ANTHC 10100
3 hrs
3 cr.

ANTHC 33200 - Medical Anthropology

An advanced introduction to Medical Anthropology, a vast subfield of Anthropology with many applications in the health sciences and industries. 3 cr.

ANTHC 33400 - Latin America: Societies and Cultures

GER
3/B

Changing views of US and Latin American anthropologists on ethnic, class and gender relations, underdevelopment, migration and social movements.
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.
ANTHC 34500 - Anthropology of Science

This course examines how scientific knowledge is made in laboratories and other venues of scientific practice, while helping students develop critical evaluations of the power and authority of science and understand its role in current social problems. Students will examine scientific practices and notions of objectivity; make comparisons with indigenous, non-Western, and lay knowledge systems; and explore ethical and legal aspects of scientific innovation.

prereq: ENGL 12000
coreq: ANTHC 10100 OR ANTHP 10100
3 hrs.
3 cr.

ANTHC 35000 - Popular Culture: Anthropological Perspectives

GER
3/B

The comparative ethnographic and theoretical study of popular and expressive culture traditions from around the world.

prereq: ANTHC 10100, ENGL 12000, or perm instr.
3 hrs
3 cr.

ANTHC 35500 - Law, Justice, Reconciliation

An examination of how people pursue justice and reconciliation between perpetrators and victims after major wars, political violence, or colonialism, with particular attention to the uses of law in these processes, and the wider problems of attaining redress for deep historical wrongs like racism, genocide, and slavery.

prereq: ENGL 12000
3 hrs
3 cr.

ANTHC 40000 - Honors Projects

prereq: perm chair
offered every sem.

ANTHC 40100 - Seminars in Selected Topics

Topics TBA.

ANTHC 40196 - International Migration

3 hrs
3 cr.

Anthropology: Linguistics

ANTHC 15100 - Introduction to Linguistics
Hunter Core
World Cultures and Global Issues (WCGI)
GER

Programs and Courses in Art and Art History

Art and Art History

Overview
The Department of Art and Art History offers a wide variety of courses for majors and non-majors. Art History is the study of works of art and architectural monuments in their cultural environment. Students learn to develop their powers of critical visual analysis and how to apply these historically to works of Western and Non-western art. The 30-Credit Art History Major BA is intended for students interested in a liberal arts education in the humanities or students planning to continue their art history studies in a graduate program. A broad range of courses from different fields, rather than specialization in one area, is encouraged.

In Studio Art, two academic degrees are offered: the BA, either 24-credit or 42-credit; and the BFA, 61 credits. The 24-credit BA is recommended for the student interested in a liberal arts education, particularly those interested in double majoring in Art History, or in other majors. The 42-credit BA is an intensive major recommended for the student who prefers a greater concentration in studio art and particularly for the student who plans to do graduate study in art. The BFA gives students the prolonged, intense focus on studio practice, contemporary art and theoretical issues, which is the kind of training typically regarded as an excellent education in the field of fine arts. This competitive program prepares students to compete for entry into MFA programs nationwide.

What can I do with my degree in Art or Art History?

Students who major in Art or Art History develop skills that are highly valued by employers. These skills include: critical and creative thinking; oral, written, and visual communication skills; the ability to take multiple approaches to solving problems; adaptability; the ability to work effectively individually and collaboratively; the ability to interpret cultures; organization; research and synthesis. Graduates may find employment in museums and other arts organizations, government, nonprofits, educational institutions, and businesses. The new undergraduate Certificate in Arts Management and Leadership program consisting of courses drawn from several departments and housed in the Department of Urban Policy and Planning is intended for students interested in careers in both the visual and the performing arts; it relies on businesses and organizations in New York City for internships, events and exhibitions, and discussions with artists and other arts professionals. The BA in Art History and the 42-credit BA in Studio Art provide excellent preparation for students who plan to complete graduate studies in the field. The BFA prepares students for MFA programs.

Programs and Courses

Programs and Courses in Art and Art History

Honors

Students majoring in Art History who wish to graduate with honors must consult an adviser to make an official application for consideration by the faculty members on the Undergraduate Art History Committee on Honors. Major credits must have been completed with a 3.7 grade point average, and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Students must submit a research paper written for Research Methods of Art History or an Advanced Studies Seminar, with the instructor's comments, edits, and grade, to the department's Undergraduate Art History Committee on Honors. The paper must have received a minimum grade of A-. Papers written for other art history courses may be considered if they conform to the requirements for an Advanced Studies Seminar; consult with an adviser. The committee will review the complete application to determine if the student merits departmental honors.

Students majoring in Studio Art who wish to graduate with honors must consult with an adviser to make an official application. Major credits must have been completed with a 3.5 grade point average, and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Students must submit work from an advanced studio ARTCR 36000 or independent study project (ARTCR 40200).

Undergraduate Major

Art History - BA

The Department of Art and Art History offers introductory, intermediate and advanced courses in art history. The major consists of 33 credits. No more than 15 credits transferred from another institution may be applied to the major. The Art History BA is intended for students interested in a liberal arts education in the humanities or students planning to continue their art history studies in a graduate program. A broad range of courses from different fields, rather than specialization in one area, is encouraged. Majors who have completed 3 credits in art history beyond ARTH 11100 are eligible to take the required seminar, Research Methods of Art History ARTH 30000, to be programmed in consultation with an art history adviser. Majors planning graduate study in art history should discuss with an art history adviser the requirements for graduate admission, including graduate language requirements; this should be done during an early semester. Students may declare a double major in Studio Art (24 cr).

Note: At least one class numbered ARTH 31100 (W) - ARTH 38100 (W) must be taken in the major (either to fulfill a distribution area or as a major elective).

Hunter Core Requirement

Note: Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019
In the case of the art history major, the course that meets CCC is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARTH 11100 Individual and Society (H)</td>
<td></td>
</tr>
</tbody>
</table>

*Please note that no more than two courses from any one department will count for the CUNY Common Core.

Courses Required for the Major (33 credits)

1. Introduction to the History of Art

**ARTH 11100 - Introduction to History of Art**

**Hunter Core**
Individual and Society (Humanities) -I&S H

**Pluralism and Diversity**
PD/D
GER
2/D

Changing forms and subjects of art in several periods of Western civilization, including ancient Greece and Rome, Middle Ages in Western Europe, Renaissance, baroque, modern, American; also Islamic and African art.

3 hrs
3 cr. cr

2. One course in each of four distribution areas 12 cr.

**Distribution areas**

- Ancient and Medieval (including Egyptian, Greek, Roman)
- Renaissance, Baroque, and 18th century (including Colonial Latin American)
- Modern: 19th, 20th and 21st century (including Modern Latin America)
- Islamic, Asian (including Chinese, Japanese, and Indian), and African

Note: Distributions can be met via 20000, 31100-38100 or 41000-48000-level courses. If in doubt consult with an advisor.

3. Required Courses 6 cr.

**ARTLA 20100 - Art Foundations: Seeing, Thinking, Making**

This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000-level and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.

Material fee: $25.00
3 hrs.
3 cr.
**ARTH 30000 - Research Methods of Art History Seminar (W)**

**GER**  
3/A

Training in fundamental methods of learning and writing about works of art through visual analysis and art-historical research, focusing on a particular area in art history, and culminating in a substantial academic research paper.

*prereq: ARTH 11100 and one 200-level art history course*  
3 hrs  
3 cr.

4. At least one Advanced Studies Seminar (41000-48000 level) 3 cr.  
(Prerequisite: ARTH 30000 Research Methods)  3 cr.

5. Three additional courses 9 cr.

Students must take 3 additional courses, from any of the department offerings in art history at the 20000, 30000 or 40000 level

**Notes:**

- At least one class numbered 31100-38100 (W) must be taken in the major (either to fulfill a distribution area or as a major elective). Only grades of C and above can be counted toward the Art History major.
- Three credits in ARTH 40200 Independent Study in Art History -or- ARTH 49800 Internship In service (Internship) may count toward the major and up to 3 three additional credits in ARTH 49800 In service (Internship) may be approved as elective credit toward the BA degree (but not toward the major).
- ARTLA 20100 Art Foundations: Seeing, Thinking, Making, or any studio course taken for the Studio Art 24cr major, cannot count toward both the Studio Art (24cr) major and the Art History major. To replace the ARTLA 20100 requirement, Art History majors double-majoring in Studio Art (24cr) must choose a replacement course in consultation with the Art History adviser. The replacement course may be a Studio Course (ARTCR), an Art History course (ARTH), or a cognate in another department, such as Classics, Religion, or History.

**Graduate Study**

The Department of Art and Art History offers a number of courses, listed in the Graduate Catalog, that may be credited toward the degree of bachelor of arts. Qualified undergraduate art history students in the senior year may be admitted to these courses with the approval of the graduate art history adviser.

**Honors**

Art History Major students wishing to graduate with honors must consult an adviser to make an official application for consideration by the faculty members on the Undergraduate Art History Committee on Honors. Application forms are in the Art and Art History office, Room 11054 Hunter North. Major credits must have been completed with a 3.7 grade point average, and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Students must submit a research paper written for Research Methods of Art History ARTH 30000 or an Advanced Studies Seminar ARTH 41000-ARTH 48000 with instructor's comments, edits, and grade, to the department's Undergraduate Art History Committee on Honors. The paper must have received a minimum grade of A-. Papers written for other art
history courses may be considered if they conform to the requirements for an Advanced Studies Seminar; consult with an adviser. The committee will review the complete application to determine if the student merits departmental honors.

**Degree Map for Art History**

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Art History major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

**Freshman Year**

**Fall**

**ENGL 12000 - Expository Writing**

**Hunter Core**
English Comp (EC)
**GER**
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

Studio Art - BA
Return to Programs and Courses in Art and Art History

- Studio Art 24-Credit Major (BA)
- Studio Art 42-Credit Major (BA)

Electives

All courses, unless otherwise specified, are open to qualified students majoring in other areas.

Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

ARTCR 36000 - Special Topics

Topics in studio art are announced prior to registration each term. One Special Topics course may be taken to meet concentration requirements in the 42 credit degree.

Material Fee: $50
prereq: ARTLA 20100
3 hrs + 5 hrs open studio
3 cr.

ARTCR 40200 - Independent Study in Studio Art

prereq: ARTLA 20100
1-3 hrs
1-3 cr. per semester

Graduate Study

The Department of Art offers a number of courses, listed in the Graduate Catalog, that may be credited toward the degree of bachelor of arts. Qualified students in the senior year may be admitted to these courses with the approval of the graduate art history adviser.

Studio Art - BFA

This degree is open to the student who wants to complete work in studio art beyond the 42-credit major and particularly the student who intends to pursue a career as a professional artist and attend graduate school. Students follow the regular Hunter Core Requirement - Fall 2013 to Spring 2019 for the BA degree. Departmental approval of the 61-credit BFA concentration is required. Students who have successfully completed 90 credits may apply to the BFA program, pending an interview with the BFA adviser. Students are required to maintain a GPA of 3.0 in this program. Required courses are as follows:

Hunter Core Requirement
Courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

**Major: 61 credits**

**Year I: 6 cr**

**ARTLA 20100 - Art Foundations: Seeing, Thinking, Making**

This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000-level and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.

Material fee: $25.00

3 hrs.
3 cr.

**ARTCR 22100 - Drawing**

Basic principles in various media and subjects. Eye/hand coordination, perceptual acuity, spatial organization; interpretation of directly observed subjects.

Material Fee: $50

prereq: ARTLA 20100

4 hrs

3 cr. + 5 hrs open studio

**ARTH 11100 - Introduction to History of Art**

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/D

Changing forms and subjects of art in several periods of Western civilization, including ancient Greece and Rome, Middle Ages in Western Europe, Renaissance, baroque, modern, American; also Islamic and African art.

3 hrs
3 cr. cr

**Year II: 12 cr.**

four of the following six courses or 3 of the following 6 courses plus one 300-level course:

**ARTCR 22500 - Printmaking**
Techniques of woodcut, intaglio, lithography, silkscreen and related media.

Material Fee: $75

prereq: ARTLA 20100
4 hrs + 5 hrs open studio
3 cr.

**ARTCR 23500 - Painting**

Basic principles of painting. Studio practice using varied paint media, varied paint surfaces, paper and canvas.

Material Fee: $100

prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 25100 - Sculpture**

Basic principles of sculpture. Studio practice in varied materials.

Material Fee: $70

prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 25700 - Ceramics**

Introduction to pottery and ceramic sculpture, including hand forming, throwing on the wheel, glazing and kiln operation.

Material Fee: $95

prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 27100 - Principles of Photography**

Black and white photography as creative medium; camera and its functions; exposure and film development, contact printing and enlarging.

Material Fee: $75

prereq: ARTLA 20100
3 hrs
3 cr. + 6 hrs open studio

**ARTCR 29000 - New Genres**

An introduction to New Genres, including video art, sound art, conceptual art, performance, installation and other media based arts. Skills and tools explored in this course include the use of digital technologies, recording equipment, editing methods, work flow and output requirements as well as the ideation of conceptual projects.

Material fee: $40.00

prereq: ARTLA 20100
4 hrs + 5 hrs open studio
3 cr.
Year III

At least one area of concentration with two 300-level courses repeated in any one of the following: 6 cr

**ARTCR 32200 - Advanced Drawing**

Continued experience in drawing with emphasis on drawing from life.  
Material Fee: $50  
prereq: ARTLA 20100  
4 hrs  
3 cr. + 5 hrs open studio

**ARTCR 32600 - Advanced Printmaking**

Advanced study of one or more printmaking methods. Individual exploration emphasized. May be taken twice for credit.  
Material Fee: $85  
prereq: ARTLA 20100, ARTCR 22500  
4 hrs  
3 cr.

**ARTCR 33600 - Advanced Painting**

Continued experience in painting with possible concentration upon one medium and theme. Individual exploration emphasized.  
Material Fee: $100  
prereq: ARTLA 20100  
4 hrs  
3 cr. + 5 hrs open studio

**ARTCR 35200 - Advanced Sculpture**

Continued experience in sculpture with possible concentration in one material. Individual exploration emphasized.  
Material Fee: $70  
prereq: ARTLA 20100  
4 hrs  
3 cr. + 5 hrs open studio

**ARTCR 35700 - Advanced Ceramics**

Continued experimentation in form, surface and techniques. Individual exploration emphasized.  
Material Fee: $95  
prereq: ARTLA 20100  
4 hrs  
3 cr. + 5 hrs open studio

**ARTCR 37200 - Advanced Photography**
Techniques and aesthetics of black and white photography; self-expression and exploration; classroom critiques. Material Fee: $75
prereq: ARTLA 20100
3 hrs
3 cr. + 6 hrs open studio

**ARTCR 39000 - Advanced New Genres**

Continued experience in New Genres methods and tools in order to develop each student's unique process, with possible concentration in one approach and/or method. Individual exploration will be emphasized, as well as a greater mastery of equipment and programs. May be repeated once (i.e., taken twice).

Material fee: $40.00
prereq: ARTLA 20100, ARTCR 29000
4 hrs + 5 hrs open studio
3 cr.

Additional studio art requirements: 6 cr

- Courses chosen from all other 200- and 300-level studio art courses. Special-topic advanced studio courses will also be offered each semester for advanced art students; however they do not count toward the major concentration.

Art history requirements: 15 cr

To be completed by the end of year three.

Year IV: 16 cr

ARTCR 40500 - Art and Current Ideas II

Lecture and discussion; a non-studio course. Topics of concern in art today as brought forth by current exhibitions. Scheduled trips to galleries and museums. Reading assignments, papers and oral reports focus on issues relative to the exhibitions.
**prereq:** ARTLA 20100

3 hrs
3 cr.

ARTCR 45900 - Professional Experience in Art I

BFA majors, seniors only. Not credited toward BA degree. Advanced projects may include activities outside the college, as well as within the department.
Material Fee: $50
**prereq:** Admission into the BFA Program

4 hrs
6.5 cr.

ARTCR 46000 - Professional Experience in Art II

Continuation of ARTCR 45900.
Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

ARTCR 36000 - Special Topics

Topics in studio art are announced prior to registration each term. One Special Topics course may be taken to meet concentration requirements in the 42 credit degree.

Material Fee: $50
prereq: ARTLA 20100
3 hrs + 5 hrs open studio
3 cr.

ARTCR 40200 - Independent Study in Studio Art

prereq: ARTLA 20100
1-3 hrs
1-3 cr. per semester

Graduate Study

The Department of Art offers a number of courses, listed in the Graduate Catalog, that may be credited toward the degree of bachelor of fine arts. Qualified students in the senior year may be admitted to these courses with the approval of the graduate art history adviser.

Degree Map

Degree Map for Studio Art - BFA (60 cr.)

Studio Art 24-Credit Major (BA)

Return to Studio Art BA

The 24-Credit Major (BA) is recommended to the student interested in a liberal arts education, particularly those interested in double majoring in Art History, or in other majors in the college. It consists of eight courses in the major subject, normally one 3-credit course per semester, beginning with ARTLA 20100, followed by an additional 21 credits selected from 20000- and 30000-level ARTCR courses. ARTCR 22100 Drawing is recommended but not required. Repeated and additional courses cannot count towards the BA degree.

The 24-credit major in creative art consists of eight courses:
Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

Core Course (3 credits)

ARTLA 20100 - Art Foundations: Seeing, Thinking, Making

This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000-level and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.

Material fee: $25.00
3 hrs.
3 cr.

Studio Art Courses (21 credits)

7 courses selected from ARTCR 20000 and 30000 level courses.

Degree Map

Degree Map for Studio Art (24 cr.) BA

Studio Art 42-Credit Major (BA)

Return to Studio Art BA

The 42-credit Major (BA) is an intensive major recommended for the student who prefers a greater concentration in studio art and particularly for the student who plans to do graduate study in art.

The 42-credit major in creative art consists of fourteen courses

Core Courses (6 credits) - 6 cr.

ARTLA 20100 - Art Foundations: Seeing, Thinking, Making

This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000-level and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.

Material fee: $25.00
3 hrs.
3 cr.
Concentration Courses (9 credits)

3 courses in one study area
(e.g., painting, sculpture, drawing, graphics, ceramics, photography or combined media)

Example Concentration: Painting - ARTCR 23500, ARTCR 33600, ARTCR 33600

Advanced level courses may be repeated once with two different instructors.

Please note: ARTCR 360xx (special topic courses) cannot be used towards the concentration.

Art History (9 credits)

3 courses of ARTH

Studio Art Courses (18 credits):

6 other studio art courses, selected from 200- and 300-level to be determined in consultation with adviser.

Please note: ARTLA 36018 may be substituted for an ARTCR course with permission of the adviser.)

Total for Major: 42 credits

Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

ARTCR 36000 - Special Topics

Topics in studio art are announced prior to registration each term. One Special Topics course may be taken to meet concentration requirements in the 42 credit degree.

Material Fee: $50
prereq: ARTLA 20100
3 hrs + 5 hrs open studio
3 cr.

ARTCR 40200 - Independent Study in Studio Art

prereq: ARTLA 20100
1-3 hrs
1-3 cr. per semester

Note:
All ARTCR courses, unless otherwise specified, are open to qualified students majoring in other areas with instructor permission.

**Degree Map**

**Degree Map for Studio Art (42 cr.) BA**

**Courses Required for the Major**

- Two introductory classes:
  - ARTLA 20100 Art Foundations: Seeing, Thinking, Making
  - ARTLA 20200 Art Foundations: Methods and Techniques
- Four (ARTCR) classes (12 credits) in one area of study can include only one ARTCR 36000
- Please note that the core courses in an area of study can be repeated once for credit if taken with a different instructor.
- Four (ARTCR) (12 credits) studio classes outside the area of study
  - Please note that the courses to be taken in and out of the area of study should be determined in consultation with a departmental adviser.
- 9 credits of study in art history, at least one of which must be in contemporary or modern art, i.e. ARTH 24900, ARTH 25000, ARTH 25100, ARTH 24700, ARTH 25700, ARTH 35100, ARTH 45000. ARTLA 40600 2D-3D-4D Capstone Seminar 3 credits, to be taken towards the end of the degree.

**Undergraduate Minor**

**Minor in Art History**

The Art History minor requires students to take 12 credits in Art History as follows: ARTH 11100 - Introduction to History of Art, followed by 9 credits selected from the other department offerings. No more than 6 credits transferred from another institution may be applied to the minor.

**Art Theory and History**

3 hrs
3 cr.

ARTH 28000 - History of Photography

GER
3A

An historical survey of photography between 1839 and the present day with a focus on the visual revolution provoked by this new medium of representation and on photography's creative expression.
The course is organized chronologically from the beginnings of photography, in 1839, to our time. It gives full exposure to the main technologies of photography in the nineteenth-century, as they became accessible to a large public and introduced new aesthetics in portraiture, urban landscapes, and the representation of distant geographies. This history continues in the twentieth-century, when photography became more experimental and sought its own artistic autonomy. The course surveys chronologically the key moments at which photography reached the status of art, was used as social document, and fulfilled a wide social need. The dialogue between contemporary art and photography is brought to the present, exploring the strategies by which digital art is challenging the idea of photography as truthful representation of the world.

3 hrs
3 cr.

ARTH 49800 - Internship

GER
3/A

Qualified undergraduates work for academic credit in professional and community art institutions. Students must also contact and apply at the internship office, where all college-approved internships are listed. The credits earned cannot be used to fulfill the 24-credit major requirement. Three credits may be applied to the 42-credit major. A maximum of six art history Inservice credits may be applied to the degree. ARTH 11100 is the prerequisite for all advanced art history courses and may be used toward the General Education requirement for humanities and the arts (GER: Stage 2, Group D) by all students except those accepted into the 61-credit BFA program. It may not be credited toward art history major requirements.

prereq: perm dept. adviser
hrs TBA
(1-6) cr

Studio Art

ARTCR 22100 - Drawing

Basic principles in various media and subjects. Eye/hand coordination, perceptual acuity, spatial organization; interpretation of directly observed subjects.
Material Fee: $50
prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

ARTCR 22500 - Printmaking

Techniques of woodcut, intaglio, lithography, silkscreen and related media.
Material Fee: $75
prereq: ARTLA 20100
ARTCR 23500 - Painting

Basic principles of painting. Studio practice using varied paint media, varied paint surfaces, paper and canvas.
Material Fee: $100
prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

ARTCR 24000 - Watercolor Painting

Basic principles of watercolor painting.
Material Fee: $100
prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

ARTCR 25100 - Sculpture

Basic principles of sculpture. Studio practice in varied materials.
Material Fee: $70
prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

ARTCR 25700 - Ceramics

Introduction to pottery and ceramic sculpture, including hand forming, throwing on the wheel, glazing and kiln operation.
Material Fee: $95
prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

ARTCR 27100 - Principles of Photography

Black and white photography as creative medium; camera and its functions; exposure and film development, contact printing and enlarging.
Material Fee: $75
prereq: ARTLA 20100
3 hrs
3 cr. + 6 hrs open studio

ARTCR 29000 - New Genres

An introduction to New Genres, including video art, sound art, conceptual art, performance, installation and other media based arts. Skills and tools explored in this course include the use of digital technologies, recording equipment, editing methods, work flow and output requirements as well as the ideation of conceptual projects.
Material fee: $40.00

*prereq: ARTLA 20100
4 hrs + 5 hrs open studio
3 cr.

**ARTCR 30100 - Advanced Studio**

Student projects with emphasis on contemporary methods such as video, film, tape, conceptual art, environmental art, earth art.

Material Fee: $40

*prereq: ARTLA 20100
3 hrs
3 cr. + 5 hrs open studio

**ARTCR 32200 - Advanced Drawing**

Continued experience in drawing with emphasis on drawing from life.

Material Fee: $50

*prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 32600 - Advanced Printmaking**

Advanced study of one or more printmaking methods. Individual exploration emphasized. May be taken twice for credit.

Material Fee: $85

*prereq: ARTLA 20100, ARTCR 22500
4 hrs
3 cr.

**ARTCR 33600 - Advanced Painting**

Continued experience in painting with possible concentration upon one medium and theme. Individual exploration emphasized.

Material Fee: $100

*prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 35200 - Advanced Sculpture**

Continued experience in sculpture with possible concentration in one material. Individual exploration emphasized.

Material Fee: $70

*prereq: ARTLA 20100
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 35700 - Advanced Ceramics**
Continued experimentation in form, surface and techniques. Individual exploration emphasized.

**Material Fee:** $95

**prereq:** ARTLA 20100

**4 hrs**

**3 cr. + 5 hrs open studio**

**ARTCR 36000 - Special Topics**

Topics in studio art are announced prior to registration each term. One Special Topics course may be taken to meet concentration requirements in the 42 credit degree.

**Material Fee:** $50

**prereq:** ARTLA 20100

**3 hrs + 5 hrs open studio**

**3 cr.**

**ARTCR 37200 - Advanced Photography**

Techniques and aesthetics of black and white photography; self-expression and exploration; classroom critiques.

**Material Fee:** $75

**prereq:** ARTLA 20100

**3 hrs**

**3 cr. + 6 hrs open studio**

**ARTCR 38200 - Digital Photography**

Digital Photography as a means of personal expression. This course is designed to familiarize students with digital imaging capabilities and a critical awareness of how images in our culture are produced and constructed. The course will introduce and explore the aesthetic, historical, and conceptual layers embedded in digital images and their context, culminating in the student completing a portfolio of work by the end of the course, in which form, subject, and meaning are closely considered. Students will acquire the means to interpret, discuss and critique photographs. This course can be repeated once for credit.

**Material fee:** $100.00

**prereq:** ARTLA 20100 or (ARTLA 10100 and ARTCR 22100) and ARTCR 27100

**4 hrs**

**3 cr.**

**ARTCR 39000 - Advanced New Genres**

Continued experience in New Genres methods and tools in order to develop each student's unique process, with possible concentration in one approach and/or method. Individual exploration will be emphasized, as well as a greater mastery of equipment and programs. May be repeated once (i.e., taken twice).

**Material fee:** $40.00

**prereq:** ARTLA 20100, ARTCR 29000

**4 hrs + 5 hrs open studio**

**3 cr.**

**ARTCR 40200 - Independent Study in Studio Art**
prereq: ARTLA 20100
1-3 hrs
1-3 cr. per semester

ARTCR 40500 - Art and Current Ideas II

Lecture and discussion; a non-studio course. Topics of concern in art today as brought forth by current exhibitions. Scheduled trips to galleries and museums. Reading assignments, papers and oral reports focus on issues relative to the exhibitions.

prereq: ARTLA 20100
3 hrs
3 cr.

ARTCR 45900 - Professional Experience in Art I

BFA majors, seniors only. Not credited toward BA degree. Advanced projects may include activities outside the college, as well as within the department.

Material Fee: $50

prereq: Admission into the BFA Program
4 hrs
6.5 cr.

ARTCR 46000 - Professional Experience in Art II

Continuation of ARTCR 45900.

Material Fee: $50

prereq: Admission into the BFA Program
4 hrs
6.5 cr.

ARTLA 10100 - Introduction to Study of Visual Experience

Introduction to conceiving and formulating ideas for visual experience. Students work in 3 different areas in day session, 2 in evening session.

Material Fee: $25

6 hrs
3 cr. + 3 cr. hrs open studio

ARTLA 20100 - Art Foundations: Seeing, Thinking, Making

This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000-level and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.

Material fee: $25.00

3 hrs.
3 cr.

ARTLA 20200 - Art Foundations: Methods and Techniques
ARTLA 20200 is the second part of the foundation-year course requirement for 42-credit BA and BFA art majors. This class is open to any student who has taken ARTLA 20100 or the equivalent. The class will be taught by one instructor who will introduce the student to the fundamental skills of drawing, sculptural methods, new genres technologies. Museum/gallery visits, and written analysis of exhibitions will be assigned to help build an understanding of how skill and technique are implemented in the conceptual creation of art. This is a baseline course, and will facilitate learning as the student progresses to one of our study areas of Painting, Sculpture, New Genres, Ceramics, Drawing or Printmaking.

prereq: ARTLA 20100
3 (+ 5 hrs independent studio)
3 cr.

ARTLA 36018 - 2-D, 3-D, 4-D Seminar

prereq: ARTLA 20100
3 hrs.
3 cr.

ARTLA 40600 - 2D/3D/4D Capstone Seminar

This advanced seminar is intended to offer students a frame of reference for making and thinking about art beyond the specific concerns of any given medium or the specific assignments that structure most undergraduate studio courses. The main purpose of this seminar is to help students develop their creative interests beyond assignment-based instruction to their own, entirely self-defined and motivated creative work. For this purpose, students choose to work in the medium or mediums that best further their ideas.

prereq or coreq: 30 ARTCR credits and 6 ARTH credits
3 (+ 5 hrs independent studio)
3 cr.

ARTLA 49800 - Internship in the Visual Arts

Qualified undergraduates work for academic credit in professional and community art institutions.

prereq: ARTLA 20100
1-6 hrs
1-6 crs.

Programs and Courses in Asian American Studies

Asian American Studies

Overview

The Asian American Studies Program (AASP) is an interdisciplinary program and offers a range of courses on the history and contemporary experiences of Asian immigrants to the Americas, with close attention paid to how Asian immigrants are an integral part of the history of the United States, continuously redefining American culture and reconstituting American society.

The AASP is located in a global city, with unmatched cultural and intellectual resources and diverse and dynamic Asian populations: our faculty and students actively contribute to scholarship and advocacy in the field of Asian
American studies as engaged members of New York City's diverse Asian American communities and community-based organizations. Our courses are discussion-driven and firmly rooted in the belief that linkages between theory and practice must always be maintained; as a result, our program works actively to be a bridge between the Hunter College campus community and the city and nation's rapidly expanding APA populations.

The program draws its faculty and course offerings from traditional disciplines such as history, sociology, anthropology, political science, education and literature, as well as interdisciplinary fields such as American ethnic studies; women, gender, and sexuality studies; postcolonial studies; international human rights; and policy studies. The AASP grounds its curriculum in the firm belief that a rigorous intersectional approach to Asian American studies necessitates an alliance of these areas and methods of study.

**What can I do with my minor in Asian American Studies?**

Graduates who minor in Asian American Studies enter careers including business, international trade and industry, teaching and academic research, diplomacy, development agencies and immigration and social service.

**Programs and Courses**

v1923@hunter.cuny.edu

**Program Office:**

1338 Hunter West  
Web site: http://www.hunter.cuny.edu/aasp

**Affiliated Faculty**

Asian American Studies Faculty

**Undergraduate Minor**

**Minor in Asian American Studies**

The interdisciplinary Asian American Studies Minor provides students with focused competence in the histories and contemporary experiences of diverse Asian diasporic communities, including but not limited to those of North
As one of only a few Asian American Studies programs in the tri-state area, the AASP offers its Minors a unique opportunity to gain the knowledge and skills necessary to make meaningful contributions to the city and nation's growing APA communities.

A Minor consists of a minimum of 12 credits and can be made up of any courses offered by—or cross-listed with—the Asian American Studies Program, excluding ASIAN 360.02 (East Asia to 1600) and ASIAN 360.03 (China since 1800). No more than 6 Minor credits may be transferred from another institution. Please note that a number of 300-level courses in Asian American Studies may be used to satisfy requirements in the ENGL, POLSC, and WGS majors: see individual courses for details.

**ASIAN 21000 - Asians in the U.S.**

**Hunter Core**
I&S H

**Pluralism and Diversity**
PD/B
Critical interdisciplinary examination of Asian American experiences of discrimination and exclusion in the context of domestic and foreign U.S. policies regarding immigration, labor, and national identity. Through an examination of historical, theoretical and cultural texts, the course also looks at the impact of the current expansion of Asian American communities on America's social, cultural, and political order.

*Recommended for but not required of AASP Minors.*

3 hrs
3 cr.

**ASIAN 22001 - Asian American Women Writers**

**Pluralism and Diversity**
PD/B or C
Critical examination of Asian American women's identity formations in relation to factors such as racial ideology, global migrations of labor and capital, class status, sexuality, military conflict, constructions of family, and language.

3 hrs
3 cr.

**ASIAN 22004 - Arab American Literature**

**Pluralism and Diversity**
PD/B
Critical examination of a cross-section of literature and film/video/performance by Arab American writers and artists in an interdisciplinary investigation of the historical and contemporary experiences of Arab Americans in the United States and western diaspora.

3 hrs
3 cr.

**ASIAN 22005 - South Asian Women's Literature**

**Pluralism and Diversity**
PD/B or C
Close examination of literary, historical, and theoretical texts with a focus on the cultural production and social movements of South Asian women, with particular attention to how issues of race and nationalism are shaped and how they have overlapped with gender, class, sexuality, religion, and language.
ASIAN 22006 - Filipino American Literature

Pluralism and Diversity
PD/B
Close examination of the historical and social contexts in which Philippine-American literature has evolved, the diverse aesthetics and themes of individual writers, and analysis of how issues of Philippine-American cultural production take up issues of gender, class, sexuality, religion, language, and national identity.

3 hrs
3 cr.

ASIAN 22009 - Gender and Genre in Asian American Literature and Film

Pluralism and Diversity
PD/B, PD/C
Critical exploration of the social construction of Asian American identity in various genres: video art, prose, poetry, memoir, performance, and film. The emphasis of the course is on intersectional analyses that critically examine how race, gender, class, and sexuality inform Asian American artists' decisions regarding form and genre.

3 hrs
3 cr.

ASIAN 22012 - Asian American Literature

Pluralism and Diversity
PD/B or C
Critical examination of literary texts by Asians in the U.S. and western diaspora, tracing Asian American literary production in order to understand how these literatures are a formative site to engage in intersectional analyses of constructions of history, citizenship, and identity.

3 hrs
3 cr.

ASIAN 22100 - Introduction to Writing About Asian American Literature (W)

Hunter Core
English Composition (EC)
This course emphasizes close reading of and analytical writing about writing by Asian American writers. ASIAN 221 develops students' critical and interpretive skills necessary for meaningful written and verbal responses to literature in the context of Asian American history and experience.

prereq: ENGL 12000
3 hrs
3 cr.

ASIAN 22500 - Asian American Art (W)
**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**
P&D B
Introduction to Asian American artistic production through a survey of Asian American art and theory, including critical examinations of Asian American identity formation; transnationalism; constructions of race, gender, sexuality, class; and alternative artistic strategies.

*prereq: ENGL 12000*

3 hrs
3 cr.

**ASIAN 23001 - Globalization and Gender**

Pluralism and Diversity
PD/B

3 hrs
3 cr.

**ASIAN 23002 - Asian American Communities and Mental Health**

Hunter Core
Individual and Society (Social Sciences) -I&S SS

Pluralism and Diversity
PD/B
Introduction to psychological experiences of Asian Americans, including historical, sociopolitical, and cultural influences that shape personality and mental health. Specific topics include stereotypes and racism, processes of acculturation and enculturation, ethnic identity development, interracial relationships, stressors and social support systems within Asian American communities, and culturally competent mental health treatment and service delivery.

3 hrs
3 credits

**ASIAN 29000 - Asian American Studies Internship**

A semester-long course intended to give students practical experience participating in a local or national Asian American-serving organization. The objective of ASIAN 29000 is to train students to transform Asian American Studies scholarship into practice, and to realize the relevance of their classroom training in a broader social context. ASIAN 29000 will be required of students seeking a Certificate in Asian American Studies (pending), and will be recommended for students seeking a minor in Asian American Studies.

*prereq: ENGL 12000, ASIAN 210 or equiv.*

8-10 hrs
3 cr.

**ASIAN 32001 - Nation, Self, and Asian Identity**

Pluralism and Diversity
PD/B
Critical examination of literary constructions of Asian American identity in relation to the U.S. nation-state, with particular emphasis placed upon juridical constructions of citizenship, community, and belonging.

3 hrs
3 cr.
ASIAN 32005 - Asian American Memoir

Pluralism and Diversity
PD/B
Close examination of memory as an imagined and contested site that complicates and challenges how we constitute self and other. Students will analyze constructions of identity through Asian American narratives, and their relation to language, form and experience, including immigration and gendered narratives to transnational categories of homeland and belonging.

3 hrs
3 cr.

ASIAN 32100 - Asian American Social Protest Literature

Pluralism and Diversity
PD/B
Deconstruction and examination of historical and contemporary Asian American literatures of social protest and resistance. Students utilize readings as a framework for initiating, planning, and executing semester-long community-based projects.

3 hrs
3 cr.

ASIAN 33001 - Chinese in the U.S.

ASIAN 33003 - South Asians in the U.S.

ASIAN 33008 - Muslim Diasporas

Pluralism and Diversity
PD/B
Interdisciplinary course moving through the history of Islam and its expressions in many areas of the world (including Sufism), to the cultural identity, art, and literature of the Muslim Diaspora in the United States, their misrepresentations in the media, and fetishization by popular culture.

3 hrs
3 cr.

ASIAN 33052 - Oral History, Cultural Identity and the Arts

ASIAN 34001 - Asian Pacific American Media

Pluralism and Diversity
PD/B
Addresses Asian Pacific American experiences of assimilation, displacement, marginalization, multiculturalism, and resistance to the cultural 'norm' within Asian Pacific communities through screening a wide range of films and videos and reviewing critical and fictional writing. Guest artists may also lecture.

3 hrs
3 cr.
ASIAN 34003 - West Asian American Literature and Film

Pluralism and Diversity
PD/B
Interdisciplinary course that first examines the cultural, linguistic, and religious diversity of West Asia, sometimes called Central Asia and/or the Middle East, to then focus on the literature and film of their diasporic communities in the U.S.

3 hrs
3 cr.

ASIAN 35100 - Asian American History of Labor and Politics

Pluralism and Diversity
PD/B
This seminar explores the interconnected issues of race, class, and nationality through the study of the history of Asian immigrant labor in the U.S. in the context of American economic needs and political environment.

3 hrs
3 cr.

ASIAN 39001 - International Migration

Pluralism and Diversity
PD/B
This interdisciplinary course examines the origins and processes of migration and settlement, past and present. Includes a series of lectures by leading scholars from a variety of academic fields and immigrant communities. Topics include: immigration and labor, race and gender, social and cultural identity, immigration policy and political action, and the trans-nationalization of education and family life.

3 hrs
3 cr.

ASIAN 39002 - Asian American Civil Rights and the Law

Pluralism and Diversity
PD/B
Critical examination of major immigration and civil rights laws and Supreme Court cases that have affected Asian Americans.

3 hrs
3 cr.

ASIAN 39006 - Gender and Sexuality in Asian American Literature and Film

ASIAN 39015 - Immigration and the Economy

3

ASIAN 39016 - Ethnicity and American English
ASIAN 39018 - Asian American Poetics

ASIAN 39019 - Asian American Queerness

Pluralism and Diversity
PD/B
Explores the issues, struggles, political organizing, and theory of lesbian, gay, bisexual, transgender (LGBT) Asian Americans, South Asians, Southeast Asians, and Pacific Islanders. Through readings of historical and modern texts, law and public policy, film and video, guest speakers, and field work, students will come to understand the intersection between LGBT identity and racial/ethnic identity.

prereq: ENGL 12000
3 hrs
3 cr.

ASIAN 46000 - Independent Study

ASIAN 46000 - Independent Study

ASIAN 49000 - Immigration Policy

Pluralism and Diversity
PD/B

ASIAN 49100 - Asian American Movement and Community Organizations

Pluralism and Diversity
PD/B

Semester-long analysis of the development of pan-ethnic Asian American consciousness and institutions since the late 1960s, with a focus on this movement's impact on community organizations of Asian national sub-groups examined in the context of larger American racial and ethnic politics.

3 hrs
3 cr.

Programs and Courses in Biological Sciences

Biological Sciences

Overview

The Department of Biological Sciences offers a single major for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. The major in Biological Sciences has the following concentrations: Biological Sciences: Basic concentration; Behavioral Neurobiology; Bioinformatics; and Biophysics. The Department stresses excellence in both teaching and research. Fully equipped research laboratories are supported by major federal grants and students are strongly encouraged to become involved in laboratory research. State-of-the-art flow cytometry and bioimaging facilities are housed within the department. They have been created and are funded by federal grants, New York State and the Center for Basic and Translational Research. The Center consists
of faculty from the departments of Biological Sciences, Chemistry, Physics and Psychology working in the areas of biomolecular structure and function.

**What can I do with my degree in Biological Sciences?**

The core curriculum in biological sciences prepares students for admission to both graduate and medical schools and for careers in the biological sciences, including teaching and the growing industry of biotechnology. The curriculum emphasizes cell biology, molecular biology, developmental biology, genetics and neurobiology as the foundation for future careers in fields related to the biological sciences. The Biology BA prepares students who are interested in applying to graduate school in the biological sciences or professional schools of medicine, dentistry, veterinary medicine and other health professions as well as students who are interested in careers in the rapidly growing field of biotechnology. In conjunction with the Hunter College School of Education, the Biology department offers opportunities for students to prepare for teaching careers in elementary and secondary schools.

**Programs and Courses**

Programs and Courses in Biological Sciences

**Research Opportunities**

Undergraduate Research Students who wish to undertake a research project under the supervision of a faculty member must first obtain written permission from that faculty member and then register for BIOL 48000. Research opportunities for undergraduates at Hunter are available in cell and molecular biology, developmental biology, neuroscience, cancer biology, AIDS, microbiology and a variety of other contemporary areas. In some cases students may be permitted to work at one of the several neighboring research institutions. Synopses of faculty research interests can be obtained in the department office or from the Department of Biological Sciences Website (http://Biology.hunter.cuny.edu). In addition, there are summer research opportunities available at Cold Spring Harbor Laboratory and Woods Hole Research Center through the Howard Hughes Medical Institute. Please note that, to qualify for departmental honors at graduation, there is a research requirement.

**Honors**

In order to qualify for departmental honors, students must have a departmental GPA of at least 3.5 and an overall GPA of at least 3.0. They must also satisfy a research requirement.

Undergraduate Major

Biological Sciences- BA

The Department of Biological Sciences offers a single major for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. Students planning to pursue a Biology major are strongly encouraged to declare their major as soon as possible after completing one semester of Principles of Biology.

Declared majors are assigned a permanent faculty adviser who will assist in individual curriculum planning. Students are required to meet with their adviser at least once each semester throughout their undergraduate career to discuss their program and progress.

Biology Concentrations

The major in Biological Sciences has the following concentrations:

- Biological Sciences: Basic concentration
- Behavioral Neurobiology
- Bioinformatics
- Biophysics

CR/NC Policy

Only a letter grade (A, B, C, D, including + or -) will be accepted by the department in the required science and mathematics courses for the biology major.

Opportunities for Undergraduate Research

Undergraduate Research Students who wish to undertake a research project under the supervision of a faculty member must first obtain written permission from that faculty member and then register for BIOL 48000. Research opportunities for undergraduates at Hunter are available in cell and molecular biology, developmental biology, neuroscience, cancer biology, AIDS, microbiology and a variety of other contemporary areas. Students are also permitted to work at one of the several neighboring research institutions. Synopses of faculty research interests can be obtained in the department office or from the Department of Biological Sciences Website http://Biology.hunter.cuny.edu). In addition, there are summer research opportunities available at Cold Spring
Harbor Laboratory and Woods Hole Research Center through the Howard Hughes Medical Institute. Please note that, to qualify for departmental honors at graduation, there is a research requirement.

Honors Work

In order to qualify for departmental honors, students must have a departmental GPA of at least 3.5 and an overall GPA of at least 3.0. They must also satisfy a research requirement consisting of either, choose one (a) or (b):

(a) at least 2 research credits of

**BIOL 48000 - Introduction to Experimental Biology**

**GER**

3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted under auspices and supervision of a faculty member. Written report or presentation of work required for completion of course. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors and a maximum of 4 credits can count towards the Biology major. Since student research projects can take more than one semester, and students can develop and expand their research into continuing and related projects, this course may be repeated an unlimited number of times.

*prereq: BIOL 10000 and 10200, Departmental permission prior to registration.*

*hrs TBA*

*1-2 cr. per sem.*

**BIOL 48100 - Introduction to Experimental Biology**

**GER**

3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

*prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.*

*TBA*

*1-2 credits per semester*

**BIOL 48200 - Introduction to Experimental biology**

**GER**

3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

*prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.*

*TBA*

*1-2 credits per semester*
BIOL 48300 - Introduction to Experimental Biology

GER
3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.
hrs TBA
1-2 cr. per sem.

(b) at least one course chosen from among

BIOL 39000 - Laboratory in Cell Structure

GER
3/B

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

prereq or coreq: BIOL 30000 or BIOL 20200 and perm instr.
7 hrs (2 lecture, 5 lab)
4.5 cr.
fall only

BIOL 39100 - Laboratory in Cell Structure -- Biological Electron Microscopy

The students will learn basic concepts of transmission electron microscope, principles of biological sample preparation for transmission electron microscopy, various electron microscopy applications, to be familiar with the morphology of different organelles inside the mammalian cell, and understand the functions of each organelle.
Lab projects involve: (1) perfusion fixation of mouse tissues; (2) routine transmission electron microscopy sample preparation; (3) techniques and tools used for microtomy; (4) transmission electron microscope alignment; and (5) imaging various cellular ultra-structures using a transmission electron microscope.
prereq or coreq: Instructor Permission
7 hrs.
4 cr.
spring only

Additional Information

The research requirement includes a written report resulting from work in any of these courses.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recomendation for New York State Initial Certification required to be a lead teacher in NYS public schools.
MA Program in Biological Sciences

See Career Planning-Graduate Study.

**Biological Sciences: Basic concentration - BA**

Return to: Biological Sciences- BA

The basic major is for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. Students planning to pursue the biology major are strongly encouraged to declare their major as soon as possible. Declared majors are assigned a permanent faculty advisor who will assist in individual curriculum planning. Students are required to meet with their advisor at least once each semester throughout their undergraduate career to discuss their program and progress.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Biology major: Basic Concentration, the courses that meet CCCR are:

**BIOL 10000 (STEM) - Principles of Biology I**

- **Hunter Core**
  - Life and Physical Sciences (LPS); Scientific World (SW)
- **Pluralism and Diversity**
  - PD/C or D
- **GER**
  - 2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

_prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500_

_7 hrs (3 lec, 3 lab, 1 disc)_
_4.5 cr._
_spring only_

**BIOL 10200 (STEM) - Principles of Biology II**

- **Hunter Core**
  - Scientific World (SW); Life and Physical Sciences (LPS)
- **Pluralism and Diversity**
  - PD/C or D
- **GER**
Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Major (67-83 credits)

This major consists of 9 credits of introductory biology (BIOL 10000 (STEM)-BIOL 10200 (STEM) ) and a 24.5-credit concentration in biology at the 20000-level and higher. The biology concentration consists of a 13.5-credit core—BIOL 20300, BIOL 30000, BIOL 30300—and 11 credits of electives. Together, introductory biology and the concentration (33.5 credits) satisfy the major requirement for certification as a teacher of biology in grades 7-12. Additional science and math requirements for Major I are listed below.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Math Sequence (3-17 credits)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**
Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.
STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

A. Introductory Biology (9 credits)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

B. 200-level and higher Concentration in Biology and Additional Courses (55-57 credits)

1. Required Courses (44-46 credits)

**BIOL 20300 - Molecular Biology and Genetics**

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

*prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000, 12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

**BIOL 30000 - Biological Chemistry**

**GER**
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

*prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

**BIOL 30300 - Cell Biology**

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing an integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis. 3.
Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking. 5. Cell Communication: Cellular differentiation, cell-cell communication, and an introduction to development.

prereq: Advisor permission; BIOL 30000 or instructor permission
7 hrs
4.5 cr
spring only

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
CHEM 22200 - Organic Chemistry Lecture I

Ger
Ger 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Prereq: CHEM 10400 with a grade of C or better
3-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

Ger
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register

Prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
Coreq: CHEM 22301
Prereq or Coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

Ger
Ger 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Ger
2/E

First semester of two-semester introductory physics course using algebra.

Prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

*These courses may be counted for credit in more than one program.

2. Electives (11 credits)

Students select the remainder of their credits toward the Biology Major from advanced courses in the biological sciences so as to create a core area of study. Eleven credits are required to complete the major. A minimum of two elective lecture courses must be taken, with at least one course at the 30000 level or higher, in addition to BIOL 30000 and BIOL 30300, for a minimum of six credits. For the remaining elective credits, at least one special-topics course must be taken (BIOL 47000 or BIOL 47100 or BIOL 79000; various topics offered each semester) in addition to other lecture or research courses. There are some BIOL courses that do not count as electives towards the Biology Major (e.g. BIOL 12000, BIOL 12200 and BIOL 23000). Please read the course descriptions carefully to identify those courses. If you have any questions about which courses can be used as major electives, please speak to your Biology department advisor. Students with strong interdisciplinary interests may select advanced course offerings in other departments after approval by their adviser. Four credits of laboratory research are recommended and can count towards the total elective credits either from a laboratory elective course or from research within an approved research laboratory. Laboratory research credits are taken as a BIOL 48000 research course for a maximum of two credits per semester and require a written report or presentation of work required for completion of course. Laboratory research credits can also be obtained from BIOL 61000. Together, introductory biology and the concentration (64.5 credits) satisfy the major requirement for certification as a teacher of biology in grades 7-12.

Note(s)

*We recommend that math, physics and chemistry courses be completed as early as the student's schedule allows. Note that CHEM 22000 and CHEM 22300 must be taken prior to BIOL 30000; otherwise, instructor permission is
required. Students who are behind in the chemistry sequence are urged to take advantage of the summer session, during which these chemistry courses are usually offered.

Degree Map for Biological Sciences: Basic Concentration

Degree Map for Biology: Basic Concentration

**Biological Sciences: Concentration in Behavioral Neurobiology- BA**

Return to: Biological Sciences- BA

The concentration in Behavioral Neurobiology within the Department of Biological Sciences, one of the options for Major I, has the following required courses and schedule.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

**Courses Required for the Major (72.5-90.5 credits)**

**Math Sequence (0-13 credits)**

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)  
3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.*
MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

Other Required Courses (63.5-64.5 credits)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity

PD/C or D

GER

2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)

coreq: CHEM 22200, 22300 or perm instr.

7 hrs

4.5 cr.

spring only

BIOL 30000 - Biological Chemistry
Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

BIOL 30300 - Cell Biology

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing and integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and deregulation of cell growth the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking. 5. Cell Communication: Cellular differentiation, cell-cell communication, and an introduction to development.

prereq: Advisor permission; BIOL 30000 or instructor permission
7 hrs
4.5 cr
spring only

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II
Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
3 hrs
3 cr.

PSYCH 25000 - Experimental Psychology: General

GER
3/B

Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYCH 24800 with a minimum grade of C
6 hrs (2 lec, 4 lab)
4 cr.

PSYCH 24800 - Statistical Methods in Psychological Research
Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12400 or 12500 or 12550 or STAT 11300 with a C or better, or appropriate score on math placement exam

prereq or coreq: ENGL 12000

BIOL 47000 - Special Topics in Biology

GER

3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000

2 hrs (lec)

2 cr. per sem.

Electives

9 credits, 6 of which must be PSYCH

PSYCH 30100 - Sensation and Perception

GER

3/B

Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000. PSYCH 24900 or 25000

3 hrs

3 cr.

PSYCH 30900 - Behavioral Neuroendocrinology

Pluralism and Diversity

PD/C

GER
An overview of how behavior is influenced by differential hormone action and how hormones influence the development and expression of sexually dimorphic behaviors. While a biology background is not required, this course will be a biology-based discussion of behavioral endocrinology.

**prereq:** ENGL 12000. PSYCH 24900 or 25000 and PSYCH 22400
3 hrs
3 cr.

**PSYCH 32700 - Motivation and Emotion**

**GER**
3/B

The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

**prereq:** ENGL 12000. PSYCH 24900 or 25000 and PSYCH 22400
3 hrs
3 cr.

**PSYCH 36900 - Behavioral Pharmacology**

**GER**
3/B

This course will provide information on the interrelationship of pharmacology and behavior. The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and psychotherapeutic agents.

**prereq:** ENGL 12000, PSYCH 24900 or 25000, PSYCH 30000 or perm instr. and PSYCH 22400
3 hrs
3 cr.

**BIOL 37000 - Physiology of the Nervous System**

**GER**
3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.

**prereq:** BIOL 30000 or perm instr.
4 hrs (lec)
4 cr.

**spring only**

**BIOL 37600 - Endocrinology**
GER
3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.

prereq: BIOL 20200 or perm instr.
3 hrs (lec)
3 cr.
spring only

BIOL 38000 - Molecular Neurobiology

GER
3/B

Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

prereq: BIOL 30000 or perm instr.
3 lec hrs
3 cr.
fall only

* These courses may be counted for credit in more than one program.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Courses Required for the Major (66-86 credits)

Math Sequence (0-17 credits)

MATH 10100 - Algebra for College Students
Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

**prereq:** MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs  
1 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**

**Hunter Core**  
Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

**prereq:** MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.  
Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs  
4 cr.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

**prereq:** MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs  
1 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.  
4 hrs  
4 cr.

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
prereq: grade of C or better in MATH 15000  
4 hrs  
4 cr.

Other Required Courses (58-60 credits)

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.  
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam  
3 hrs  
3 cr.

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**Pluralism and Diversity**  
PD/C or D  
GER  
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.  
Material Fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.  
prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH
BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.

BIOL 30000 - Biological Chemistry

GER
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.

BIOL 30300 - Cell Biology

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing and integrated look at the molecular biology of the cell. Separated into 5 units. the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2.Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking. 5.Cell Communication: Cellular differentiation, cell-cell communication, and an introduction
An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.

3 hrs
3 cr.

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.
CHEM 10600 (STEM) - General Chemistry Laboratory

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CSCI 13200 - Practical UNIX and Programming, with Lab

**Hunter Core**
Scientific World (SW)

**GER**
2/E
An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.
This course cannot be counted towards the CSCI major.
prereq: none
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab
An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

**prereq:** CSCI 12700 or CSCI 13200

3 hrs

3 cr.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E

First semester of two-semester introductory physics course using algebra.

**prereq:** MATH 12400 or 12500 or 12550 or 15000 or 15500

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

**prereq:** PHYS 11000 or 11100

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

*These courses may be counted for credit in more than one program.

**BIOL 10200 (STEM) prerequisite is waived**

**Electives (8 -9 credits)**

**ANTHP 30200 - Human Genetics**

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

**prereq:** ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500

3 hrs

3 cr.
CHEM 33300 - Computational Drug Discovery

Computational exercises and literature analyses of drug-macromolecule interactions, computer-assisted drug design, metabolic engineering, and personalized medicine.

_prereq: CHEM 37600 or BIOL 30000 or permission of the instructor
3 hrs
3 cr.
offered spring

STAT 31900 - Bayesian Statistical Inference in the Sciences

GER
3/B

_prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).
Prerequisites waived for students who have passed STAT 311.
Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.
3 hrs
3 cr

BIOL 37500 - Molecular Systematics

GER
3/B

An overview of the various methods and kinds of data used in systematics, the study of organism diversity and biological relationships. Emphasis is on modern molecular and genetic approaches to identification of individual species and strains and full phylogenetic analyses of suites of species to determine their evolutionary history. The knowledge base is provided for experimental investigation of questions of current interest in phylogeny and population biology.

_prereq: BIOL 30000 or perm instr.
3 hrs
3 cr.

BIOL 47000 - Special Topics in Biology

GER
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

_prereq: BIOL 30000
2 hrs (lec)
2 cr. per sem.

*Special Topics course BIOL 47083 Bioinformatics Workshop, 3 cr.

BIOL 47100 - Special Topics in Biology
Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

`prereq: BIOL 30000
3 hrs (lec)
3 cr. per sem.

* Topics courses BIOL 47119 Biomedical Genomics I, 3 cr., BIOL 47120 Biomedical Genomics II, 3 cr., BIOL 47105 Python Programming for Bioinformatics

**BIOL 10200 pre-requisite is waived

** These courses may be counted for credit in more than one program.

Hunter Core

Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus
should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus. 
Note: This course is equivalent to MATH12500 for grade replacement purposes.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

**prereq:** MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs
1 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**prereq:** grade of C or better in MATH 15000

4 hrs
4 cr.

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

**prereq:** MATH 15000
Other Required Courses (64.5-67 credits)

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**Pluralism and Diversity**  
PD/C or D  
**GER**  
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq:** CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
**spring only**

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
**Pluralism and Diversity**  
PD/C or D  
**GER**  
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq:** BIOL 10000 or perm instr, MATH 10100 or MATH 101EN  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
**fall only**

**BIOL 30000 - Biological Chemistry**

**GER**  
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and
function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500*
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better*
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200*
coreq: CHEM 10400
6 hrs
3 cr.
CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.
prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 33000 - Atomic and Nuclear Physics
Examines experimental evidence and develops modern view of structure of atom and nucleus.

*prereq: PHYS 12000 or 12100
*prereq or coreq: MATH 25000

**PHYS 33600 - Thermodynamics and Statistical Mechanics**

Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.

*prereq: PHYS 12000 or 12100; MATH 25000

**PHYS 42000 - Introduction to Biophysics**

A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of macromolecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.

*prereq or coreq: PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600.

**Electives (any 2)**

**BIOL 39000 - Laboratory in Cell Structure**

*GER

3/B

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

*prereq or coreq: BIOL 30000 or BIOL 20200 and perm instr.

7 hrs (2 lecture, 5 lab)

4.5 cr.

fall only

**BIOL 47000 - Special Topics in Biology**

*GER

3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

*prereq: BIOL 30000

2 hrs (lec)

2 cr. per sem.

**MATH 25400 - Ordinary Differential Equations**
First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

*prereq:* MATH 25000

3 hrs
3 cr.

* Note: These courses may be counted for credit in more than one program.

Degree Map for Biological Sciences: Biophysics BA

Degree Map for Biological Sciences: Biophysics BA

Degree Map for Biological Sciences: Behavioral Neurobiology BA

Degree Map for Biology: Basic Concentration

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Biology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall

- CHEM 10200 (STEM) General Chemistry I
- MATH 12550 (STEM) Precalculus with Workshop

Spring

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**prereq:** grade of C or better in MATH 15000

4 hrs

4 cr.

- FOREIGN LANGUAGE Intermediate Level 4

**Junior Year**

**Fall**

**BIOL 30000 - Biological Chemistry**

**GER**

3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

**prereq:** Open only for majors.

7 hrs (3 lec, 3 lab, 1 disc)

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.
**CSCI 13200 - Practical UNIX and Programming, with Lab**

**Hunter Core**
Scientific World (SW)
GER
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

**prereq:** none

3 hrs
3 cr.

- ELECTIVE

**Spring**

**BIOL 30300 - Cell Biology**

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing and integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2.Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking. 5.Cell Communication: Cellular differentiation, cell-cell communication, and an introduction to development.

**prereq:** Advisor permission; BIOL 30000 or instructor permission

7 hrs
4.5 cr

spring only

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

- or -

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.

Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

**Fall**

**CHEM 10200 (STEM) - General Chemistry I**
**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
**GER**  
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq:* MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500  
5 hrs (4 lec, 1 rec)  
4 cr.

**MATH 12550 (STEM) - Precalculus with Workshop**

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem.

In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

*prereq:* MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500  
5 hrs (4 hrs lecture, 1 hr recitation)  
4 cr.

**Spring**

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**Pluralism and Diversity**
PD/C or D
**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER 2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200

coreq: CHEM 10400

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER 2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000

Sophomore Year
Fall

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D

GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

CHEM 22200 - Organic Chemistry Lecture I

GER

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER

3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register

prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200

coreq: CHEM 22301

prereq or coreq: CHEM 22204 OR CHEM 22206

3 hrs

2.5 cr.

• Foreign Language Intermediate Level 3

Spring

BIOL 20300 - Molecular Biology and Genetics
This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better. AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

- Foreign Language Intermediate Level 4

**Junior Year**

**Fall**

**BIOL 30000 - Biological Chemistry**

**GER**
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of
energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

- 300/400 level BIOL electives

**Spring**

**BIOL 30300 - Cell Biology**

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing and integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and
intracellular trafficking. 5. Cell Communication: Cellular differentiation, cell-cell communication, and an introduction to development.

**prereq:** Advisor permission; BIOL 30000 or instructor permission
7 hrs

- Elective (If needed)

**Degree Map for Chemistry Major I**

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Chemistry major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor
through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**  
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500*  
5 hrs (4 lec, 1 rec)  
4 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**  
Math/Quantitative Reasoning

**GER**  
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
*prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.*  
4 hrs  
4 cr.

**ENGL 12000 - Expository Writing**

**Hunter Core**  
English Comp (EC)

**GER**  
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.  
*prereq: successful completion of developmental courses, if required*  
3 hrs + conf  
3 cr.
PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
GER 2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

*prereq or coreq: coreq (with perm dept.): MATH 15000*

8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

Spring

MATH 15500 (STEM) - Calculus II

**Hunter Core**
Math/Quantitative Reasoning
GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000*

4 hrs
4 cr.

CHEM 10400 (STEM) - General Chemistry II

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
GER 2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better*

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

Sophomore Year

Fall

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.
prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
prereq: CHEM 10400 with a grade of C or better
5- 6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register

prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.

**CHEM 24900 - Quantitative Analysis**

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

prereq: CHEM 10400 with grade of C or better, 10500
5 hrs (3 lab, 2 rec)
3 cr.
fall

**MATH 25000 - Calculus III**

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500, MATH 15600
4 hrs
4 cr.

Spring

**CHEM 22400 - Organic Chemistry Lecture II**

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**CHEM 22500 - Organic Chemistry Laboratory II**
Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

**MATH 25400 - Ordinary Differential Equations**

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

prereq: MATH 25000
3 hrs
3 cr.

**CHEM 29101 - Chemical Investigations**

Pluralism and Diversity
GER 3/B

Original chemical investigations under supervision of faculty member. Written report required. Enrollment for maximum of two semesters.

prereq: CHEM 22400, perm chair
4 hrs
1 cr.

- US Experience in Its Diversity
- Foreign Language Elementary Level 1

**Junior Year**

**Fall**

**CHEM 35200 - Physical Chemistry I**

GER
3/B

Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.

prereq: CHEM 24900 and MATH 25000 and PHYS 12100 all with a grade of C or better
3 hrs
3 cr.

offered fall
CHEM 35500 - Physical Chemistry Laboratory I

GER
3/B

Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall

CHEM 36600 - Inorganic Chemistry

GER
GER 3/B

Treatment of structure, bonding and reactivity of inorganic compounds.

prereq: CHEM 35200 with grade of C or better
3 hrs
3 cr.
offered fall

- Individual and Society/ Social Sciences
- Foreign Language Elementary Level 2

Spring

CHEM 35600 - Physical Chemistry II

GER
GER 3/B

Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 25000 all with grade of C or better
3 hrs
3 cr.
offered spring

CHEM 35700 - Physical Chemistry Laboratory II

Pluralism and Diversity
GER 3/B

Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.

prereq: CHEM 24900 or perm chair

prereq or coreq: CHEM 35600
CHEM 29102 - Chemical Investigations

Pluralism and Diversity
GER 3/B

Original chemical investigations under supervision of faculty member. Written report required. Enrollment for maximum of two semesters.
prereq: CHEM 22400, perm chair

Fall

CHEM 37600 - Biochemistry I

GER
3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

- Creative Expression
- Foreign Language Intermediate Level 4

CHEM 32200 - Organic Chemistry Lecture III

GER
3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

prereq: Chem 22404 with a grade of C or better OR Chem 22406 with a grade of C or better
3 hrs
3 cr.
offered fall

Spring

CHEM 34900 - Instrumental Analysis
Pluralism and Diversity
GER 3/B
Principles of modern instrumental techniques; emphasis on spectroscopic and electrometric methods.

prereq: CHEM 35400 or 35600 with grade of C or better with 35500
8 hrs (2 lec, 6 lab)
5 cr
offered spring

- World Cultures & Global Issues
- Individual and Society/ Humanities
- Elective (If needed)
- Elective (If needed)

Notes:

Students who place below MATH 15000: please note the following Math sequence:

MATH 10100 – MATH 12400, MATH 12500 or MATH 12550– MATH 150. If you start with MATH 12500 Precalculus or MATH 12550 or MATH 12400, the degree map is shifted by one semester and still allows for completion of the major in 4 years.

*CHEM 11100 and CHEM 11200 are sequence options in place of CHEM 10200, CHEM 10400 and CHEM 10600

If taking CHEM 11100, this is a special honors course and is a prerequisite for CHEM 11200.

In Junior and senior year, a 300-level chemistry course must be taken.

CHEM 32200 is recommended elective but CHEM 37700, Chem 39200 or Chem 38800 can also be taken. All electives require departmental permission.

Human Biology - BA

Human Biology is a multidisciplinary major that provides students with a curriculum that emphasizes the analysis of humanity in a holistic framework that includes behavioral, cultural, social, and biological approaches. This major will guide students towards an integrated view of humans and our biology through a wide array of courses from departments including Anthropology, Biological Sciences, Psychology, Sociology, and Urban Public Health. The Human Biology major curriculum is built on a core foundation of courses in biology, anthropology, and statistics. Students will then choose one of the following three specialized tracks: Track I. Body, Mind, and Health, which emphasizes biological knowledge within the context of human biology, with coursework that addresses how social factors have an impact on humans and human health; Track II. Human Evolution and Variation, which emphasizes humans as an evolved species that is part of the natural world, with coursework focusing on physical anthropology; and Track III. Human Organizations, which emphasizes social phenomena, with coursework from multiple social science disciplines. Finally, students will complete a capstone course in human biology (HMBIO 40100), where they will analyze some of the key contemporary topics and issues in human biology from multiple vantage points. The knowledge and skills obtained by Human Biology majors will prepare students well for a range of future careers and educational paths, including graduate school in the sciences or social sciences; medical, public health, and allied health graduate training (possibly requiring additional course work); and careers in natural or social sciences research or related fields.
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (36-47 credits)

Students will be required to have C- or Credit grades or better in the Core Sequence to continue in the major. Transfer students will be required to take ANTHP 10500 and receive a C or better to continue in the major. Students may place out of MATH 10100, MATH 10150, MATH 101EN, MATH 14000, MATH 12500 (STEM), MATH 12550 (STEM), MATH 15000 (STEM) and MATH 15500 (STEM) requirements. See the Department of Mathematics and Statistics for details. Students with appropriate background may be exempted from some Chemistry or Biology introductory courses. See Human Biology Advising for proper placement.

A. Core Requirements (19-27.5 credits)
1. Introductory Course in the Major (3 credits)

**ANTHP 10500 - The Human Species**

**Hunter Core**
Life and Physical Sciences (LPS)
GER 2/E

In this course we examine human biology and behavior from an evolutionary perspective, comparing our anatomy, physiology, and behavior to those of living primates and other mammals. We will discuss the relative roles of genes ("nature") and environment ("nurture"), the biological basis of behavior, local biological adaptations evident in modern human populations, growth and development, and diet and disease. Students will actively engage in the development of scientific hypotheses, data collection, and data synthesis analysis, as part of laboratory research experiences throughout the semester. Material covered will help prepare students to understand and evaluate recent advances in genetics, behavioral studies, medicine, and evolution.

3 hrs
3 cr.

2. Required Math Courses (0-8 credits)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)
3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.*

2 hrs
1 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**

**Hunter Core**
Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.
prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

3. Choose One Biology Sequence (9-13.5 credits)

a) Option 1

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

CHEM 10200 (STEM) - General Chemistry I
**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.*

b) Option 2

**BIOL 12000 - Anatomy and Physiology I**

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
*prereq: CHEM 10000, 10100
coreq: CHEM 12000, 12100
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
fall only

**BIOL 12200 - Anatomy and Physiology II**

Structure and function of circulatory, digestive, exetary, endoine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
*prereq: BIOL 12000 or equiv.
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
spring only

**CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture**

**Hunter Core**
Life and Physical Sciences (LPS): Scientific World (SW)
**Pluralism and Diversity**
GER 2/E
Course presents essential facts, laws and theories of organic chemistry.
Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

*prereq: CHEM 10000
4 hrs (3 lec, 1 rec)
3 cr.*

**CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory**
**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**

GER 2/E

Experiments designed to illustrate fundamental laws and techniques of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and public health students.

*prereq: CHEM 10100
*prereq or coreq: CHEM 12000
3 hrs (3 lab)
1.5 cr.

**Note:**

*Students who transfer in BIOL 10000 (STEM) or BIOL 12000 are not required to complete CHEM 10200 (STEM), CHEM 12000 (STEM) or CHEM 12100 (STEM)*

4. Choose One Statistics course

**STAT 11300 - Elementary Probability and Statistics**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

*prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
*prereq or coreq: ENGL 12000
3 hrs
3 cr.

*Note: These courses may be counted for credit in more than one program.*

B. One of the Following Three Tracks

Choose ONE of the following THREE Tracks and complete 18 credits of coursework within that track (9 of the 18 credits must be at the 300+ level. The 18 credits must come from more than one department)

**Track I: Body, Mind, & Health**

**ANTHP 30200 - Human Genetics**

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.
**ANTHP 30500 - Evolution of the Human Skeleton**

The goal of this course is to understand the biology of the human skeleton: know all of the bones of the human body, how they work, and how they evolved. This course will cover basic bone and muscle biology, bone and bone landmark identification, basic dental anatomy, basic functional interpretation, and discuss the evolution of the human skeleton with comparisons to great ape and fossil material. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory-type setting where students can handle and work with real osteological specimens and/or fossil casts. Occasionally, the first half of a class period will be a lecture, and the second half will be a lab. Worksheets/Study Guides will be provided and are expected to be completed by the end of the lab. In order to become skilled in bone identification and do well in the course, additional study time with the bones will most likely be necessary. We will set up a system to encourage and facilitate study time outside of class.

**ANTHP 30600 - Human Anatomy**

The goal of this course is to understand basic human anatomy: know all of the bones, muscles, major nerves and vessels in the human body, how they are organized, and how they function. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory setting where students can handle and work with real osteological specimens and/or anatomical models. A given lecture will provide a synthesis of a particular anatomical region and the hands-on details of regional anatomy will then be learned in the associated laboratory session. To gain the most from each lecture and laboratory session, you must do the assigned readings and relevant exercises in the lab workbook beforehand. The laboratory workbook is a required acquisition. Any anatomy textbook will provide you with the necessary reading for lectures, and the purchase of an anatomy atlas is highly recommended as well. In order to do well in the course, additional study time with the anatomical models may be necessary. We will set up a system to encourage and facilitate study time outside of class.

**BIOL 12500 (STEM) - Human Biology**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E w/ lab

An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies
current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

6 hrs
4.5 cr.
spring only

BIOL 15000 (STEM) - CSI: HUNTER (Forensic Biology)

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
GER 2/E with lab

An introductory laboratory course for non-biology majors. This lecture/laboratory course will cover the techniques used by forensic scientists to analyze a crime scene, and the biological concepts behind them. Through the topics that are covered, students will learn how biological evidence like fingerprints, hair, blood, and DNA are collected, analyzed, and presented as evidence to solve crimes.

Required for this course is a 10 minutes PowerPoint presentation in groups in four students. In order to prepare for the presentation, a two page outline from each student is expected. In addition, a group assignment of less than 5 pages long will be assigned as preparation of the presentation. This assignment helps students prepare for a "crime scene" that will be designed by the group using the topics and materials provided in class. Further research for this project is encouraged using library materials or the WWW to provide supplemental information, ideas and images. The laboratory component of the course requires that students record their data, observations, and answer discussion questions (in a short answer format). The completion of their laboratory manual will constitute part of the laboratory grade.

6 hrs
4.5 cr.
fall only

BIOL 22000 - Topics in Genetics and Evolution

GER
3/B

prereq: BIOL 10000 or equiv.
3 hrs
3 cr.
spring only

BIOL 25000 - Current Topics in the Biosciences (W)

GER
3/B

Seminar focusing on topics of current relevance such as the science of pharmaceuticals, vaccine development, and
environmental quality standards. Coverage includes not only the science, but the social, legal, political and ethical issues associated with each topic. This course will also examine how government agencies (eg. FDA, USDA, EPA) use science to form public policy.

prereq or coreq: ENGL 12000 or equiv, and 2 sems intro lab science or equiv, or perm instr
3 hrs
3 cr.
fall only

**BIOL 30400 - Environmental Microbiology**

GER
3/B

Role of microorganisms in normal and polluted environments: bioremediation, waste and water treatment, heavy metals, nutrient cycles, microbes as a food source, algal toxins, microbial pesticides, microbial indicators of mutagens and pollutants, microbial leaching of ores.
prereq: BIOL 10000, 10200, 20000 or perm instr.
3 hrs
3 cr.

**BIOL 37600 - Endocrinology**

GER
3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.
prereq: BIOL 20200 or perm instr.
3 hrs (lec)
3 cr.
spring only

**PH 30300 - Social Structure and Health (W)**

An exploration of the roles of economic structure and social linkages that shape health -- including power relations, interactions between subgroups within society, and tensions within groups over institutional control and individual agency.
prereq: acceptance to the PH major, or permission of the instructor
3 hrs
3 cr.

**PH 30600 - Social Disparities in Health**

In depth examination of the social, cultural and political factors that influence and lead to health disparities and health inequalities. Course explores demographic trends in mortality and morbidity and the role of history, race, class, policy, and socioeconomic and cultural factors, and health literacy levels in the development and continuation of disparities in health. This course uses a social justice lens to understand health, health care and health disparities.
prereq: PH 30100
3 hrs
3 cr.
PH 32800 - Public Health Biology

Introduction to population biology and ecological principles underlying public health and the relationship of biology to public health. Offers a basic understanding of the biological basis of core public health issues including infectious diseases, vaccines, genetic illnesses, neoplastic processes and environmental illnesses.

Minimum GPA to enroll - 2.75
prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100, or equivalent.
3 hrs
3 cr.

PH 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases. Minimum GPA to enroll - 2.75
prereq: Any intro statistics course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 10100 or equivalent.
3 hrs
3 cr.

PH 40500 - Health Care Systems and Health Policy

Overview of U.S. health care system, official and voluntary agencies; introduction to administrative skills, especially those skills necessary for working the the health care field.

prereq: PH 30100
3 hrs
3 cr.

NFS 13100 - Food Science I

Basic principles of the chemical and physical nature of foods, food sanitation and safety; the nutritional value of food in relation to storage, processing and preparation.
Open to all students.
3 hrs
3 cr.

NFS 14100 - Nutrition

Hunter Core
Scientific World (SW)
Fundamentals of the science of nutrition as they apply to individuals and society.
Open to all students.
3 hrs
3 cr.

NFS 33200 - Cultural Aspects of Food and Nutrition
Study of the way in which cultural, social and technological factors influence food behavior and dietary patterns. Open to NFS majors only and need department permission.

\textit{prereq: NFS 13100, 14100, ANTHP 10100, SOC 101)}

3 hrs
3 cr.

**NFS 34200 - Nutrition and Human Development**

Nutritional needs throughout the life cycle: pregnancy, infancy, childhood, adolescence, adulthood and later years. Open to NFS majors only and need department permission.

\textit{prereq: NFS 13100, 14100}

3 hrs
3 cr.

**NFS 44100 - Community Nutrition**

Analysis of nutrition services, legislation and policy; role and function of community nutritionists; nutrition education in a community setting. Open to NFS majors only and need department permission.

\textit{prereq: NFS 13100, 14100}

3 hrs
3 cr.

**PHILO 25400 - Ethical Issues in Biology and Medical Care (W)**

\textbf{GER}

3/B

Treats issues such as abortion, euthanasia, extraordinary means, confidentiality, human experimentation, genetic control and allocation of limited life-saving therapy.

\textit{prereq: ENGL 12000}

3 hrs
3 cr.

**PSYCH 10000 - Introduction to Psychology**

\textbf{GER}

2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs
3 cr.

**PSYCH 15000 - Human Development**

\textbf{GER}

2/B
Development from conception to death; biological, physiological and social factors and their interactions at each stage.

**PSYCH 17000 - Psychology of Human Sexuality**

**Pluralism and Diversity**

PD/C
GER
2/B

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.

cross-listed WGS 17000

**prereq:** PSYC 10000
3 hrs
3 cr.

**PSYCH 18000 - Brain and Behavior**

**GER**
2/B

Brain structure, function and relation to behavior. Topics include the neural basis of perception, learning and memory, consciousness, motivation, emotion.

**prereq:** PSYC 10000
3 hrs
3 cr.

**PSYCH 21000 - Child Development**

**GER**
3/B

Emotional, social, motor and cognitive development as influenced by genetic, cultural and individual factors during the first twelve years of life. (May not be taken for credit by students who have a collateral major, or a minor, in education.)

Writing Intensive

**prereq:** PSYC 10000 and any other 3 cr PSYCH course

**prereq or coreq:** ENGL 12000
3 hrs
3 cr.

**PSYCH 22300 - Abnormal Psychology**

**GER**
3/B

Consideration of psychological abnormalities; symptoms, etiology, diagnostic procedures and therapy.

Writing Intensive

**prereq:** PSYC 10000 and any other 3 cr PSYCH course
**PSYCH 22400 - Neuroscience**

The aim of this course is to introduce you to the biological and physiological aspect of the science of Psychology. Biopsychology is the subarea of Psychology that takes a biological approach to understanding behavior. Biopsychologists study the biological events - genetic, neural, endocrine - that underlie each and every one of our thoughts, feelings, and actions. This course will explore what is currently known about the biological basis of emotional responses, mental illness, sexual behavior, memory, states of consciousness, sensory perception, thought and language, and several neurological disorders.

**prereq:** PSYCH 10000 and any other 3 CR PSYCH Course; completion of ENGL 12000 with a minimum grade of C

3 hrs

3 cr.

**PSYCH 23500 - The Psychology of Women**

**Pluralism and Diversity**

PD/C

GER

3/B

Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles, power.

Writing Intensive

cross-listed WGSP 23500 (W)

**prereq:** PSYCH 10000 and any other 3 cr PSYCH course

**prereq or coreq:** ENGL 12000

3 hrs

3 cr.

**PSYCH 24200 - Health Psychology**

GER

3/B

Psychological and behavioral factors related to physical illness and health promotion, including such areas as aging, stress and coping, pain, addiction and eating disorders.

Writing Intensive

**prereq:** PSYCH 10000 and any other 3 cr PSYCH course

**prereq or coreq:** ENGL 12000

3 hrs

3 cr.

**SOC 30100 - Medical Sociology**

GER

3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.

**prereq:** SOC 10100
WGSP 25100 - Women and Health

**Pluralism and Diversity**

PD/C

An exploration of health issues affecting women, particularly as these issues relate to the socialization of women, reproductive and sexual health, and medical practices.

cross-listed HED 20100

3 hrs

3 cr.

Track II: Human Evolution and Variation

ANTHP 10100 (STEM) - Human Evolution

**Hunter Core**

Life and Physical Sciences (LPS) Scientific World (SW)

GER

2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)

4 cr.

offered every sem.

ANTHP 10200 (STEM) - Human Variation

**Hunter Core**

Scientific World (SW) STEM; Life and Physical Sciences (LPS)

GER

2/E

Description and analysis of biological variation in living human populations. Both genetic and phenotypic variation will be examined. Lab experiments and demonstrations.

6 hrs (3 hrs lec, 3 hrs lab)

4 cr.

offered every sem.

ANTHP 21000 - Biology of the Living Primates

This survey-based course will examine the diversity of the Order: Primates. The course will focus on the habitats, life history, ecology, behavior, and conservation of the living primates from an evolutionary perspective.

3 hrs

3 cr.

ANTHP 30100 - Human Fossil Record
Pluralism and Diversity
PD/C
GER
3/B

The hominid fossil record of Africa, Asia and Europe. Human evolution as evidenced in fossil record.

prereq: ANTHP 10100, 10200, or equiv.
3 hrs
3 cr.

ANTHP 30200 - Human Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

prereq: ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500
3 hrs
3 cr.

ANTHP 30500 - Evolution of the Human Skeleton

The goal of this course is to understand the biology of the human skeleton: know all of the bones of the human body, how they work, and how they evolved. This course will cover basic bone and muscle biology, bone and bone landmark identification, basic dental anatomy, basic functional interpretation, and discuss the evolution of the human skeleton with comparisons to great ape and fossil material. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory-type setting where students can handle and work with real osteological specimens and/or fossil casts. Occasionally, the first half of a class period will be a lecture, and the second half will be a lab. Worksheets/Study Guides will be provided and are expected to be completed by the end of the lab. In order to become skilled in bone identification and do well in the course, additional study time with the bones will most likely be necessary. We will set up a system to encourage and facilitate study time outside of class.

prereq: ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or ANTHP 10200 (Intro. to Physical Anthropology: Human Variation) or ANTHP 10500 (The Human Species) or BIOL 10200 (Principles of Biology 2).
3 hrs.
3 cr.

ANTHP 30600 - Human Anatomy

The goal of this course is to understand basic human anatomy: know all of the bones, muscles, major nerves and vessels in the human body, how they are organized, and how they function. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory setting where students can handle and work with real osteological specimens and/or anatomical models. A given lecture will provide a synthesis of a particular anatomical region and the hands-on details of regional anatomy will then be learned in the associated laboratory session. To gain the most from each lecture and laboratory session, you must do the assigned readings and relevant exercises in the lab workbook beforehand. The laboratory workbook is a required acquisition. Any anatomy textbook will provide you with the necessary reading for lectures, and the purchase of an anatomy atlas is highly recommended as well. In order to do well in the course, additional study time with the anatomical models may be necessary. We will set up a system to encourage and facilitate study time outside of class.
prereq: ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or ANTHP 10200 (Intro. to Physical Anthropology: Human Variation) or ANTHP 10500 (The Human Species) or BIOL102 (Principles of Biology 2) or BIOL 12200 (Anatomy & Physiology 2).
3 hrs.
3 cr.

ANTHP 31000 - Primate Ecology and Behavior

GER
3/B

Examination of ecological factors responsible for the distribution and behavior of living primate species.
prereq: ANTHP 10100 or 10200 or BIOL 10000 or 10200
3 hrs
3 cr.

ANTHP 31100 - Primate Evolution

GER
3/B

65 million years of evolution covering the appearance and radiation of our own mammalian Order. A detailed look at the primate fossil record and the evolution of primate anatomy, behavior, and ecology.
prereq: ANTHP 10100 or perm instr.
3 hrs
3 cr.

ANTHP 31200 - Primate Evolutionary Genetics

Examines evolutionary relationships, social behavior, natural selection, disease, population history, demography, medicine and genomics. This course draws on readings from the primary literature.
prereq: ANTHP 10100 OR ANTHP 10200 OR BIOL 10200 OR ANTHP 10500
3 hrs
3 cr.

ANTHP 31600 - Human Evolutionary Adaptations

GER
3/B

How does the human body work, and how did it get that way? This course investigates the workings and evolution of all aspects of human biology. Human physiology is considered in an evolutionary framework.
prereq: ANTHP 10100 or ANTHP 10500
3 hrs
3 cr.

ANTHP 31800 - Primate Nutritional Ecology
This course will examine how primates meet their nutritional needs through interactions with their environments. From an evolutionary perspective, the course will address primate feeding and digestion, foraging theory and dietary methods.

*prereq: ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or BIOL 10200 (Principles of Biology 2) or ANTHP105 (The Human Species) or ANTHP 21000 (Biology of the Living Primates)

3 hrs.

3 cr.

**BIOL 12500 (STEM) - Human Biology**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E w/ lab

An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

6 hrs

4.5 cr.

spring only

**BIOL 22000 - Topics in Genetics and Evolution**

**GER**
3/B

*prereq: BIOL 10000 or equiv.

3 hrs

3 cr.

spring only

**BIOL 32200 - Evolution**

**GER**
3/B

Modern synthetic theory, genetic basis of variation, gene pool in populations.

*prereq: BIOL 30000

3 hrs (lec)

3 cr.

*not offered 2015-16

**PSYCH 15000 - Human Development**
Development from conception to death; biological, physiological and social factors and their interactions at each stage.

**GER 2/B**

prereq: PSYC 10000
3 hrs
3 cr.

**PSYCH 16000 - Evolution and Behavior**

Aggression, sleep, learning, communication, emotion, motivation and social behavior in human and other species; underlying mechanisms, development, evolutionary history.

**GER 2/B**

prereq: PSYC 10000
3 hrs
3 cr.

**PSYCH 17000 - Psychology of Human Sexuality**

Pluralism and Diversity
PD/C
**GER 2/B**

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.

cross-listed WGSS 17000

prereq: PSYC 10000
3 hrs
3 cr.

**PSYCH 22500 - Ethology: Animal Behavior**

**GER 3/B**

Adaptation, survival, reproduction and evolution of behavior, emphasizing development and species-comparison.

Writing Intensive
prereq: PSYC 10000 and any other 3 cr PSYCH course

prereq or coreq: ENGL 12000
3 hrs
3 cr.

**PSYCH 23500 - The Psychology of Women**

Pluralism and Diversity
PD/C
**GER 3/B**
Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles, power.

Writing Intensive cross-listed WGSP 23500 (W)

prereq: PSYCH 10000 and any other 3 cr PSYCH course

prereq or coreq: ENGL 12000

3 hrs

3 cr.

Track III: Human Organizations

ANTHC 10100 - Introduction to Cultural Anthropology

Hunter Core
Individual and Society (Social Sciences) -I&S SS

Pluralism and Diversity
PD/A

GER
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

3 hrs

3 cr.

offered every sem.

ANTHC 12600 - Introduction to Prehistoric Archaeology

Hunter Core
World Culture and Global Issues (WCGI)

GER
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

3 hrs

3 cr.

offered every sem.

ANTHC 12700 - Methods In Archaeological Science

Hunter Core
SW

Introduction to theory and method of scientific research in archaeology.

prereq: ANTHC 12600 or perm instr.

3 hrs

3 cr.

ANTHC 23200 - Archaeology of South America and the Caribbean

GER
3/B
Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

*prereq: ANTHC 12600 or perm instr.*

3 hrs

3 cr.

**ANTHC 30100 - Gender in Anthropological Perspective**

**Pluralism and Diversity**
PD/C
GER
3/B

Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.

*cross-listed WGSC 30100*

*prereq: ANTHC 10100 or perm instr.*

3 hrs

3 cr.

**ANTHC 30800 - Human Ecology**

**Pluralism and Diversity**
PD/A
GER
3/B

Relationship between human populations and environment; ecosystems, population interactions, resource management and environmental movements.

*prereq: ANTHC 10100 or perm instr.*

3 hrs

3 cr.

**ANTHC 30900 - Countryside and City: Comparative Perspectives**

Rural-urban connections and the transformations that affect rural areas and peoples in diverse parts of the world.

*prereq: ANTHC 10100 or perm instr.*

3 hrs

3 cr.

**ANTHC 31200 - Anthropological Approaches to Sexuality**

**Pluralism and Diversity**
PD/C
GER
3/B

Documents the social construction of human sexuality through an examination of sexual variation cross-culturally and over recent history, including the development of sexually defined communities and identities within contemporary societies.

*prereq: ANTHC 10100*
3 hrs  
3 cr.

**ANTHC 31500 - Applied Anthropology**

**GER**
3/B

Practical applications of theory and methods to contemporary social problems; community development; inter-cultural relations.

*prereq: ANTHC 10100 or perm instr.*

3 hrs  
3 cr.

**ANTHC 32700 - Prehistoric Cultural Ecology**

**GER**
3/B

Survey of selected problems in human evolution and adaptation from an ecological perspective.

*prereq: ANTHC 12600 or perm instr*

3 hrs  
3 cr.

**GEOG 24100 - Population Geography (W)**

**Pluralism and Diversity**
PD/B or C

**GER**
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

*prereq: GEOG 10100 or GEOG 15000 and ENGL 12000*

3 hrs  
3 cr.

**PSYCH 10000 - Introduction to Psychology**

**GER**
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs  
3 cr.
PSYCH 17000 - Psychology of Human Sexuality

Pluralism and Diversity
PD/C
GER
2/B

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.
cross-listed WGSS 17000
prereq: PSYCH 10000
3 hrs
3 cr.

PSYCH 19000 - Development of Gender Roles

Pluralism and Diversity
PD/C
GER
2/B

Social, cognitive, hormonal and personality factors in development of gender roles; determinants of behavioral and cognitive gender differences.
cross-listed WGSS 19000
prereq: PSYCH 10000
3 hrs
3 cr.

PSYCH 23000 - Social Psychology

GER
3/B

Problems of human experience and behavior in the social context; theories and current methodology in research on the influence of the group on cognitive processes, motivation, personality structure and the self; attitudes and prejudice; leadership; group processes.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 23500 - The Psychology of Women

Pluralism and Diversity
PD/C
GER
3/B

Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles, power.
Writing Intensive
cross-listed WGSP 23500 (W)
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000

3 hrs
3 cr.

**SOC 10100 - Introduction to Sociology**

**Hunter Core**

Individual and Society (Social Sciences) -I&S SS
GER
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.

3 hrs
3 cr.

**SOC 20100 - The Family**

**Pluralism and Diversity**

PD/C
GER
3/B

Family functions and interaction. Factors affecting stability and instability.
cross-listed WGSP 22300

prereq: SOC 10100

3 hrs
3 cr.

**SOC 21700 - Race and Ethnicity**

**Pluralism and Diversity**

PD/B
GER
3/B

Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.

prereq: SOC 10100

3 hrs
3 cr.

**SOC 25100 - Interpersonal Behavior**

GER
3/B

Study of interactional processes and the emergence and maintenance of selves and identities.

prereq: SOC 10100

3 hrs
3 cr.
**SOC 25700 - Sex and Gender Roles**

*Pluralism and Diversity*

PD/C  
GER  
3/B

Sex role differentiation: femininity, masculinity, marriage, child rearing.  
*cross-listed* WGSS 25700  
*prereq: SOC 10100*  
3 hrs  
3 cr.

**SOC 30100 - Medical Sociology**

GER  
3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.  
*prereq: SOC 10100*  
3 hrs  
3 cr.

**SOC 30700 - Migration**

*Pluralism and Diversity*

PD/B  
GER  
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.  
*prereq: SOC 10100*  
3 hrs  
3 cr.

**SOC 31100 - Population Dynamics**

GER  
3/B

Comparative analysis of fertility, mortality, migration trends, and related social factors.  
*prereq: SOC 10100*  
3 hrs  
3 cr.

**SOC 31700 - Class, Status, and Power**

GER  
3/B

Inquiry into the empirical and conceptual relation between the fundamental sociological constructs of 'class', 'status',
and 'power' through a case study of the upper class in the United States. Review of current research and relevant theoretical approaches.

*prereq: SOC 10100
*3 hrs
*3 cr.

**SOC 36100 - Development and Globalization (W)**

**Pluralism and Diversity**

PD/A

GER

3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

*prereq: SOC 10100
*3 hrs
*3 cr.

**C. Human Biology Senior Capstone**

- HMBIO 40100 Human Biology Senior Capstone

**Optional Courses**

- Independent Study (HMBIO402*) (1-3 Credits)
- Internship (HMBIO 403*) (1-3 Credits)
*(These do not count towards the credits listed above.)*

**Honors Requirements**

Complete Independent Study (HMBIO402*) (3 Credits) or Internship (HMBIO 403*) (3 Credits) AND Overall GPA 3.0 or higher AND Human Biology Major GPA 3.5 or higher.

**Degree Maps for Human Biology**

Degree Map for Human Biology BA (Biology Sequence Option 1: Principles of Biology and General Chemistry)

Degree Map for Human Biology BA (Biology Sequence Option 2: Anatomy & Physiology, and Essentials of Organic Chemistry)

**Undergraduate Major/Graduate Major**
BA/MA in Biological Sciences and Adolescent Education: Biology

This is an accelerated program leading to a BA in Biological Sciences and an MA in Adolescent Education: Biology. Undergraduates admitted to the program start graduate courses during their senior year and will be able to complete the MA degree one year after they complete the requirements for the BA degree. Interested students should contact a Biology Department adviser early in their undergraduate career.

Biological Sciences with Specialization in Biotechnology - Accelerated BA/MA

In this five-year program, qualified biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology and a foundation for application of these skills in careers in the biotechnology and pharmaceutical industries, academic research, or public health. Successful completion of the biotechnology workshop (BIOL 61000 see graduate catalog), an essential program component, entitles students to a summer internship in an industrial or private research laboratory. Interested biology majors should contact a departmental adviser as early as possible.

Biological Sciences: Basic concentration - BA

Biology with Specialization in Biotechnology - MA

Undergraduate Minor

Minor in Biological Sciences

The minor in Biological Sciences gives students a basic understanding of biology from the molecular and cellular to the organismal and population level. This includes both theoretical aspects presented in lecture as well as practical aspects presented in lab. Flexibility is built into the minor to allow students to select courses corresponding to their interests. In order to minor in Biological Sciences a student must pass four courses resulting in a minor GPA of 2.0 or higher. All students who want a Minor in Biological Sciences must take:

- BIOL 10000 (STEM) - Principles of Biology I and BIOL 10200 (STEM) - Principles of Biology II or BIOL 10000 (STEM) - Principles of Biology I and BIOL 16000 - Honors Principles of Biology II or the equivalent
- two additional courses in Biological Sciences, one of which must be at the 200 level or higher

Number of Credits: A minimum of 12 credits. Transfer credits may be applied. At least 2 courses must be taken at Hunter College.

Biological Sciences

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution. 
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology. 
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

BIOL 10500 - Introduction to Genome Biology

Hunter Core
Life and Physical Sciences (LPS)

A genome is the total genetic content of an organism. Driven by breakthroughs such as the decoding of the first human genome and rapid DNA-sequencing technologies, biomedical sciences are undergoing a rapid and profound transformation into a highly data-intensive field, which requires familiarity with concepts in both biology and computer science. Genome information is revolutionizing virtually all aspects of biology and medicine and will lead to major advances such as more efficient production of renewable energy, better cures for cancers, and longer and healthier life expectancy. This course will introduce genome-sequencing technologies, explore hundreds of genome projects online, and discuss both the benefits and challenges (e.g., ethical and legal) of the genomic revolution to society. 
3 hrs.
3 cr.

BIOL 10700 - The Human Barcode: Biology and Genetics of Personal Identification
Hunter Core
LPS
An introductory lecture/laboratory course for non-biology majors. This lecture/laboratory course will cover the techniques used by scientists to analyze how DNA or skin can uniquely lead to a person's identification, and the biological concepts behind them. For example, through the topics that are covered, students will learn how biological evidence like fingerprints and DNA is collected, analyzed, and presented as evidence to solve crimes. Students will learn important biological concepts such as DNA, development, and characteristics of body tissues.
3 hrs
3 cr.

BIOL 12000 - Anatomy and Physiology I

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program. 
Not accepted for credit toward the biology major.
prereq: CHEM 10000, 10100
coreq: CHEM 12000, 12100
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
fall only

BIOL 12200 - Anatomy and Physiology II

Structure and function of circulatory, digestive, exetory, endoine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
prereq: BIOL 12000 or equiv.
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
spring only

BIOL 12500 (STEM) - Human Biology

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E w/ lab
An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.
6 hrs
4.5 cr.
spring only

BIOL 15000 (STEM) - CSI: HUNTER (Forensic Biology)
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
GER 2/E with lab

An introductory laboratory course for non-biology majors. This lecture/laboratory course will cover the techniques used by forensic scientists to analyze a crime scene, and the biological concepts behind them. Through the topics that are covered, students will learn how biological evidence like fingerprints, hair, blood, and DNA are collected, analyzed, and presented as evidence to solve crimes.

Required for this course is a 10 minutes PowerPoint presentation in groups in four students. In order to prepare for the presentation, a two page outline from each student is expected. In addition, a group assignment of less than 5 pages long will be assigned as preparation of the presentation. This assignment helps students prepare for a "crime scene" that will be designed by the group using the topics and materials provided in class. Further research for this project is encouraged using library materials or the WWW to provide supplemental information, ideas and images. The laboratory component of the course requires that students record their data, observations, and answer discussion questions (in a short answer format). The completion of their laboratory manual will constitute part of the laboratory grade.

6 hrs
4.5 cr.
fall only

BIOL 16000 - Honors Principles of Biology II

Pluralism and Diversity
PD/C or D
GER
2/E

Physiological systems and their regulation: internal transport, hormones and gas exchange in plants and animals; osmoregulation; motility; nervous, neuroendocrine, immunological and sensory systems; behavior, reproduction and ecology. Students will read reviews of current research in addition to the required text. Guest speakers and class presentations.

Enrollment limited. Core credit awarded only if BIOL 10000 and 16000 are both completed. PD credit awarded only upon completion of BIOL 10000 and 16000.

prereq: grade of B or better in BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
not offered 2014-15

BIOL 17500 - Choreographing Genomics

Hunter Core
Scientific World (SW)

This course uses postmodern dance to model biological processes. It is an introductory biology course for non-majors studies in the biological science of molecular genome information through readings, quantitative assignments, movement exercises and artistic lenses. Students explore a detailed examination of heredity and cancer with a focus on contributions of DNA. Students are expected to articulate gene information flow through problem solving, written assignments, oral contributions, and movement forms. Topics covered include the definition of a gene, recombination of genes, the central dogma of genetic flow in a biological system, the 1:1 Pair Rule (Chargaff's rules), DNA sequencing, functional genomics and the relationships of genes to cancer and heredity, as well as ethical issues in medicine.

Each student is in charge of their own body and must recognize that they will have to use their body for assignments
and in class participation work. Students will be required to talk and move in class (comfortable clothes, flat shoes or bare feet, and a yoga mat are required). Students will have reflective assignments that include written work. Students will be required to develop visual and movement-based models.

prereq: MATH 10100 or MATH 101EN
3 hrs
3 cr.
spring only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

BIOL 23000 - Fundamentals of Microbiology

GER
3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program. Not accepted for credit toward the biology Major I.
prereq: CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200
5 hrs (2 lec, 3 lab)
3 cr.
spring only

BIOL 25000 - Current Topics in the Biosciences (W)

GER
3/B

Seminar focusing on topics of current relevance such as the science of pharmaceuticals, vaccine development, and environmental quality standards. Coverage includes not only the science, but the social, legal, political and ethical issues associated with each topic. This course will also examine how government agencies (eg. FDA, USDA, EPA) use science to form public policy.

prereq or coreq: ENGL 12000 or equiv, and 2 sems intro lab science or equiv, or perm instr
BIOL 27000 - Introduction to Neuroscience

This is a one-term introductory lecture course. The main focus is to provide an understanding of the principles underlying the function of the nervous system while comprehending certain experimental procedures that have led to this knowledge. In the first part of the course, the cellular and molecular mechanisms that regulate the activity of individual neurons will be discussed. Then, based on model systems, we will examine how neurons are assembled in networks to give rise to sensation and function. Finally, topics related to the development, maintenance, and plasticity of these networks will be covered. Accepted for credit toward the Biology Major.

prereq: BIOL 10000 and BIOL 10200

BIOL 30000 - Biological Chemistry

GER

3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

prereq: Open only for majors.

BIOL 30100 - Biological Chemistry

Not accepted for credit toward the Biology major and is recommended for post-bacs who need a one semester course, but do not need a lab and recitation. Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in molecular biology.

coreq: CHEM 22200

BIOL 30300 - Cell Biology

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing an integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for
examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking. 5. Cell Communication: Cellular differentiation, cell-cell communication, and an introduction to development.

_prereq: Advisor permission; BIOL 30000 or instructor permission
7 hrs
4.5 cr
spring only

BIOL 30400 - Environmental Microbiology

GER
3/B

Role of microorganisms in normal and polluted environments: bioremediation, waste and water treatment, heavy metals, nutrient cycles, microbes as a food source, algal toxins, microbial pesticides, microbial indicators of mutagens and pollutants, microbial leaching of ores.

_prereq: BIOL 10000, 10200, 20000 or perm instr.
3 hrs
3 cr.

BIOL 30600 - Developmental Biology

GER
3/B

Major topics include molecular and cellular mechanisms of early embryonic development in amphibians, mammals and model organisms such as Drosophila, as well as the related subjects of vertebrate organ system development, biology of stem cells and animal cloning. Emphasis is placed on seminal and current research in cell-cell communication, signal transduction and differential gene regulation in developmental processes.

_prereq: BIOL 30000
3 hrs (lec)
3 cr.
fall only

BIOL 35000 - The Biology of Cancer

GER
3/B

When a normal cell becomes a cancer cell there are genetic changes that occur that alter the biology of the cell such that it behaves independent of its neighbors. This course will investigate the altered biology of cancer cells that lead to uncontrolled proliferation and cancer. Topics include: cell culture, the cell cycle, hormones, receptors, intracellular signal transduction, oncogenes, tumor suppressor genes, apoptosis, metastasis, and the etiology of human cancer.

_prereq: BIOL 20000, 30000, or perm instr.
BIOL 36000 - Cellular and Molecular Immunology

GER
3/B

Study of the immune system from a molecular perspective. Molecular genetics of antibody and T cell receptor diversity, hematopoiesis and lymphocyte development, humoral and cellular immunity, histocompatibility.
prereq or coreq: BIOL 30000, perm instr.
4 hrs (3 lec, 1 disc)
3.5 cr.
spring only

BIOL 37000 - Physiology of the Nervous System

GER
3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.
prereq: BIOL 30000 or perm instr.
4 hrs (lec)
4 cr.
spring only

BIOL 37500 - Molecular Systematics

GER
3/B

An overview of the various methods and kinds of data used in systematics, the study of organism diversity and biological relationships. Emphasis is on modern molecular and genetic approaches to identification of individual species and strains and full phylogenetic analyses of suites of species to determine their evolutionary history. The knowledge base is provided for experimental investigation of questions of current interest in phylogeny and population biology.
prereq: BIOL 30000 or perm instr.
3 hrs
3 cr.

BIOL 37600 - Endocrinology

GER
3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.
prereq: BIOL 20200 or perm instr.
3 hrs (lec)
3 cr.
spring only

**BIOL 38000 - Molecular Neurobiology**

**GER**
3/B

Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

*prereq: BIOL 30000 or perm instr.*

3 lec hrs
3 cr.
fall only

**BIOL 39000 - Laboratory in Cell Structure**

**GER**
3/B

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

*prereq or coreq: BIOL 30000 or BIOL 20200 and perm instr.*

7 hrs (2 lecture, 5 lab)
4.5 cr.
fall only

**BIOL 39100 - Laboratory in Cell Structure -- Biological Electron Microscopy**

The students will learn basic concepts of transmission electron microscope, principles of biological sample preparation for transmission electron microscopy, various electron microscopy applications, to be familiar with the morphology of different organelles inside the mammalian cell, and understand the functions of each organelle.

Lab projects involve: (1) perfusion fixation of mouse tissues; (2) routine transmission electron microscopy sample preparation; (3) techniques and tools used for microtomy; (4) transmission electron microscope alignment; and (5) imaging various cellular ultra-structures using a transmission electron microscope.

*prereq or coreq: Instructor Permission*

7 hrs.
4 cr.
spring only

**BIOL 40000 - Special Topics in Advanced Laboratory Techniques**

**GER**
3/B

Advanced laboratory techniques used in contemporary biological research, including areas such as immunology, microbiology and molecular neurobiology. Topics change from term to term.

*prereq: BIOL 30000 or perm instr.*

4 hrs (lab)
2 cr
BIOL 42500 - Computational Molecular Biology

GER
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of *in silico* biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

*prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.*

3 hrs
3 cr.

BIOL 45000 - Individual Tutorial in Biology

GER
3/B

May be taken only once. Research paper written under the direction of a full-time faculty member in department of biological sciences.

*prereq: 18 credits in biology, approval of adviser in addition to the sponsor* 1-2 cr.

BIOL 46000 - Introduction to Planning and Teaching of Laboratory Work in Biology

GER
3/B

Participation in discussions and assisting in the teaching of laboratories in an introductory course, or peer mentoring in the undergraduate biological sciences research techniques facility.

*prereq: 16 credits in BIOL, 12 credits in CHEM, 2 letters from faculty*

5 hrs (2 planning, 3 lab)
2 cr.

BIOL 47000 - Special Topics in Biology

GER
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

*prereq: BIOL 30000*

2 hrs (lec)
2 cr. per sem.

BIOL 47100 - Special Topics in Biology
Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

**prereq:** BIOL 30000

3 hrs (lec)

3 cr. per sem.

**BIOL 48000 - Introduction to Experimental Biology**

Laboratory research under guidance of faculty member. Work at another institution may be permitted under auspices and supervision of a faculty member. Written report or presentation of work required for completion of course. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors and a maximum of 4 credits can count towards the Biology major. Since student research projects can take more than one semester, and students can develop and expand their research into continuing and related projects, this course may be repeated an unlimited number of times.

**prereq:** BIOL 10000 and 10200, Departmental permission prior to registration.

hrs TBA

1-2 cr. per sem.

**BIOL 48100 - Introduction to Experimental Biology**

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

**prereq:** BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.

TBA

1-2 credits per semester

**BIOL 48200 - Introduction to Experimental biology**

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

**prereq:** BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.

TBA

1-2 credits per semester

**Biological Sciences: Courses Less Frequently Offered**
BIOL 20800 - Ecology
GER
3/B

BIOL 22000 - Topics in Genetics and Evolution
GER
3/B

prereq: BIOL 10000 or equiv.
3 hrs
3 cr.
spring only

BIOL 23100 - Survey of Microbiology with Case Studies

BIOL 23100 utilizes the survey of microbial world content by adding case studies that will be investigated and discussed. Does not substitute BIOL 230 for Nursing Students.

prereq: BIOL 10200, CHEM 10400
3 hrs
3 cr.

BIOL 25200 - Comparative Anatomy of the Vertebrates
Pluralism and Diversity
GER 3/B

BIOL 28000 - Biochemistry of Health and Nutrition
GER
3/B

Basic biochemistry in areas related to human health and nutrition. Designed for students in the dietetics program. (Not accepted for credit toward biology Major I.)
prereq: BIOL 10000, 10200 or 12000, 12200; CHEM10000, 12000
3 hrs (lec)
3 cr.
not offered 2014-15

BIOL 32000 - Genetics

prereq: BIOL 20300
BIOL 32200 - Evolution

GER
3/B

Modern synthetic theory, genetic basis of variation, gene pool in populations.

prereq: BIOL 30000
3 hrs (lec)
3 cr.
not offered 2015-16

BIOL 33500 - Comparative Animal Physiology

GER
3/B

BIOL 34000 - Plant Physiology

GER
3/B

BIOL 37100 - Special Topics in Experimental Biology

This course is designed to further the understanding of a broad range of topics in biology. This is an interactive lecture course where students are initially taught tools used in any area of experimental biology. Students are then taught how to use these tools to study any subject matter (e.g.: cancer, neurobiology, molecular biology). Undergraduate students are required to design experiments during discussion periods and critically assess the negative and positive outcomes of an experimental design. Undergraduate-degree students seeking to pursue further graduate studies will greatly benefit and are highly encouraged to enroll.

Accepted for credit toward the Biology Major.

prereq: BIOL 20300
3 hrs
3 cr.

BIOL 38500 - Fundamentals of Developmental Neurobiology

GER
3/B

The course teaches the basic molecular processes underlying neural tissue specification, brain region-specific maturation, proper circuits formation and synapse assembly during the development of eukaryotic organisms.

3 hrs
3 cr.

BIOL 48300 - Introduction to Experimental Biology
Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

**prereq:** BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.

**hrs TBA**

1-2 cr. per sem.

**Chinese Language and Literature - BA**

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (24-30 credits)**

The major in Chinese language and literature consists of 24-30 credits chosen from the following CHIN-prefixed courses, 24 of which must be from courses above the 100-level. Courses must be taken in the sequence described below. Students who demonstrate proficiency in Chinese through a placement exam may be exempted from some courses.

**CHIN 10100 - Elementary Chinese I**

Beginning course in Mandarin.

CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs

3 cr.

offered fall

**CHIN 10200 - Elementary Chinese II**

Beginning course in Mandarin.

3 hrs

3 cr.

offered spring

**CHIN 20100 - Intermediate Chinese I**
Reading of literature in baihua (vernacular style) with emphasis on structural use of "function words" and vocabulary-building.

prereq: CHIN 10200 or equiv.
3 hrs
3 cr.
offered fall

**CHIN 20200 - Intermediate Chinese II**

Continued reading of literature in baihua.

prereq: CHIN 20100 or equiv.
3 hrs
3 cr.
offered spring

**CHIN 30100 - Journalistic Chinese Literature I**

Intensive reading of literature and essays written in journalistic style.

prereq: CHIN 20200 or equiv.
3 hrs
3 cr.

3 hrs
3 cr.

CHIN 35700 - Chinese Poetry in English Translation (W)

Pluralism and Diversity
PD/A
Major poets from the earliest times to the present day, with emphasis on the Tang period.

prereq: ENGL 12000
3 hrs
3 cr.

Degree Map for Chinese Language and Literature

Programs and Courses in Classical & Oriental Studies

Classical and Oriental Studies

Overview

The Department of Classical and Oriental Studies offers programs in Arabic, Chinese, Classics, Hebrew, Japanese, and Russian. With over 20 full-time faculty and over 50 adjunct faculty, the department is able to offer nine BA degrees: Arabic, Chinese, Classical Archaeology, Classical Studies, Greek, Hebrew, Latin, Latin and Greek, and Russian. In addition, the department offers a three-year sequence in the Japanese language, and — in joint sponsorship with the Kosciuszko Foundation—a wide range of courses in Polish language, literature and culture. The department participates in several interdisciplinary programs, including Anthropology, Religion, Women and Gender Studies, Comparative Literature, Middle East Studies and Jewish Studies. All the programs of the department have as their common goal the teaching of the foreign languages and literatures, traditionally viewed as one of the cornerstones of the liberal arts curriculum. This goal is met in several ways. Each of the languages helps fulfill the 12-credit (normally four-semester) foreign-language requirement. The six-credit requirement in literature may be satisfied in part by a course in literature in the original language or by a course in literature in translation. Undergraduate majors are given a solid grounding in foreign languages, literature, and cultural studies in order to prepare them both for careers in which they will use these skills and for further study on the graduate level.

Programs Offered by the Department of Classical & Oriental Studies

- Arabic Language, Literature, and Culture Program
- Chinese Language and Literature Program
- The Classics Program
- Hebrew Program
- The Japanese Studies Program
- The Russian and Slavic Studies Program

What can I do with my degree in Classical and Oriental Studies?
The programs prepare students for further studies in graduate school and professional careers in international trade, education, government service, diplomacy, private business, journalism and related fields. Careers in research, government and education use skills developed in classical studies, and a major in classics provides an excellent foundation for many professional programs such as law. Majors in our programs find employment in museums, archives, U.S. governmental agencies, the United Nations, broadcasting, banking, international commerce, education, library services, college and high school teaching, and other fields.

**Undergraduate Major**

**Arabic - BA**

The major in Arabic offers students the opportunity to engage in linguistic and cultural training focusing on the Arab Middle East, North Africa, and Diaspora through coursework in language, literature, and culture. In addition, students will benefit from the multiple resources for Arab Studies in the New York City area through internships and research. These resources include museums, cultural organizations, and academic centers, institutions, and organizations devoted to the study of the Arab Middle East and North Africa and its people, and Arab communities in the United States. Arabic, one of the six official languages of the United Nations, is the official language of 26 nations and is spoken by over 300 million people worldwide. Additionally, it is a liturgical language for over 1.8 billion Muslims. The Arabic speaking regions of the Middle East and North Africa are among the most significant regions shaping contemporary world politics. From the politics and economics of oil and religious movements, to the dynamics of the Arab uprisings and democratic transformations in the region, this area has played a central role in world history for centuries. The United States has been deeply involved in the region for many decades and plays a central role in current politics there. Graduates of the Arabic Major will have attained advanced linguistic training and will have a deep cultural knowledge that will prepare them for work in governmental and non-governmental organizations, business, human rights, and social services. In addition, graduates of the Arabic Program will have attained a broad array of knowledge and skills that will allow them to pursue advanced studies in a number of academic fields including anthropology, art history, religion, comparative literature, linguistics, history, Middle East Studies, philosophy, political science, and sociology.
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Arabic, the courses that meet CCCR are:

ARB 14800 - Beginning Arabic for Heritage Speakers

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

*prereq: perm of division head
3 hrs
3 cr.*

ARB 15000 - Introduction to Modern Arab Cultures

Hunter Core
World Cultures and Global Issues (WCGI)

Pluralism and Diversity
P/D A
This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs
3 cr.

ARB 25000 - The Arab Novel (in translation) (W)

Hunter Core
Creative Expression (CE)

Pluralism and Diversity

PD/A
GER
2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

*prereq: ENG 22000 or equiv.
3 hrs
3 cr.*

ARB 25100 - Arab Cinema (in translation)

Hunter Core
Creative Expression (CE)
This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

*prereq: ENGL 12000 or equivalent

3 hrs

3 credits

**ARB 25200 - Literatures from the Islamic World (W)**

**Hunter Core**
World Cultures and Global Issues (WCGI)

**Pluralism and Diversity**

**PD/A**

**GER**

2/C

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

*prereq: ENGL 12000 or equivalent

3 hrs

3 credits

**ARB 25300 - Literatures and Cultures of Muslim Spain (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

**PD/A**

**GER**

2/C

A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.

*prereq: ENGL 12000 or equivalent

3 hrs

3 credits

**ARB 25400 - The Arabian Nights East and West (W)**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**

**PD/A**

**GER**

2/C

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.

*prereq or coreq: ENGL 12000 or equivalent
War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

3 hrs
3 cr.

Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.

3 hrs
3 cr.

North Africa (Maghreb) is often described as a crossroads of many cultures - Arab, Berber, African, European, and others. Over the course of this semester, we will discuss important issues facing this region, including democratic reform efforts both before and following the Arab spring, Berber language movements and other language debates, colonial and post-colonial struggles, and social and cultural debates surrounding gender and religion. Through readings of key literary, historical, political, and cultural texts, as well as viewing important documentary and fictional film productions, we will examine this fascinating region from multiple vantage points.

prereq: ENGL 12000
3 hrs
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (27-33)
The Arabic Major at Hunter has three key components: A) a core sequence of Language courses, B) a choice of electives in both Arabic and English, and C) a capstone course. The total number of credits is 27-33 credits depending on the level of Arabic a student comes to the program with. The rationale for this curriculum is to prepare students to graduate having reached an Advanced level of proficiency on the ACTFL scale and a deep knowledge of Arab Culture.

A. Core Language Sequence

The major has two basic sequences: one for Heritage Learners and one for non-Heritage learners.

Core Language Sequence for Heritage Learners (15 credits assuming no exemptions):

**ARB 14800 - Beginning Arabic for Heritage Speakers**

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

*prereq: perm of division head
3 hrs
3 cr.*

**ARB 24800 - Intermediate Arabic for Heritage Speakers**

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB 10100-30200 sequence.

*prereq: ARB 14800 or Arabic Program head's permission
3 hrs
3 cr.*

**ARB 30100 - Advanced Arabic I**

Emphasis on increased proficiency in reading, speaking and writing Arabic

*prereq: ARB 20200 orequiv.
3 hrs
3 cr.*

**ARB 30200 - Advanced Arabic II**

Continuation of ARB 30100

*prereq: ARB 30100 or equiv.
3 hrs
3 cr.*

**ARB 40100 - Focused Arabic Study for Advanced Students**
P/D A

A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

prereq: ARB 30200

3 hrs

3 cr.

Core Language Sequence for non-Heritage Learners (21 credits assuming no exemptions)

ARB 10100 - Beginning Arabic I

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Foreign Language Requirement

3 hrs

3 cr.

ARB 10200 - Beginning Arabic II

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

This class is not for native speakers.

prereq: ARB 10100 or permission of Head of Arabic Program.

3 hrs

3 cr.

ARB 20100 - Intermediate Arabic I

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

prereq: ARB 10200 or equiv.

3 hrs

3 cr.

ARB 20200 - Intermediate Arabic II
Continuation of ARB 20100.
_prereq: ARB 20100 or equiv.
_3 hrs
_3 cr.

ARB 30100 - Advanced Arabic I

Emphasis on increased proficiency in reading, speaking and writing Arabic
_prereq: ARB 20200 or equiv.
_3 hrs
_3 cr.

ARB 30200 - Advanced Arabic II

Continuation of ARB 30100
_prereq: ARB 30100 or equiv.
_3 hrs
_3 cr.

ARB 40100 - Focused Arabic Study for Advanced Students

Pluralism and Diversity
P/D A
A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.
_prereq: ARB 30200
_3 hrs
_3 cr.

B. Electives in both Arabic and English (6 to 9 credits):

_Heritage Learners_ will choose, after the required ARB 15000 Introduction to Modern Arab Cultures, two other culture classes in English (chosen from among eight different classes that we currently offer on a regular basis). Heritage Learners will also choose one Arabic elective class (chosen from among four different advanced classes that we offer on a regular basis or our internship class). Both Heritage Learners and Non-Heritage Learners who come in having placed out of some of our core sequence will take a higher number of these electives to reach the 27 credit requirement for the major.

_Non-Heritage Learners_ will choose, after the required ARB 15000 Introduction to Modern Arab Cultures, one other culture class in English (chosen from among eight different classes that we currently offer on a regular basis). They will also choose one Arabic elective class (chosen from among four different advanced classes that we offer on a regular basis or our internship class).

C. Arabic Senior Capstone course

The Arabic Senior Capstone course, ARB 49000 (3 credits) is intended to have students integrate and synthesize the knowledge of the Arab world that they have developed through previous coursework into a final project (in Arabic). Projects may include: academic papers synthesizing primary and secondary sources; artistic and/or documentary videos; source or archival directories; annotated bibliographies; artistic performances whether live or recorded (or
both); exhibitions/installations; literary or cultural criticism; feature-length journalism; reports on services; websites or computer applications.

Hunter Core Requirement

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of Classical Archaeology, the course that meets CCCR is:

- CLARC 20400  World Culture and Global Issues (WCGI)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Major Requirements - 36 credits

12 credits from the following courses:

**CLARC 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)**

*Hunter Core*
World Culture and Global Issues (WCGI)
GER
2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.

*prereq: ENGL 12000*

3 hrs
3 cr.

**CLARC 22000 - Aegean Archaeology (W)**

*Pluralism and Diversity*
PD/D
GER
3/A
Crete, Greece, and the islands in Bronze Age. Knossos, Thera, Mycenae. Painting, jewelry, pottery, daily life.

prereq: ENGL 12000, CLARC 20400
3 hrs
3 cr.

**CLARC 22100 - Greek Archaeology (W)**

Pluralism and Diversity
PD/D
GER
3/A

Greece from Archaic to Hellenistic period: culture, Greek cities overseas, daily life; Delphi, Olympia, Athens.

prereq: ENGL 12000; CLARC 20400
3 hrs
3 cr.

**CLARC 22200 - Roman Archaeology I: Etruscans, Monarchy, Republic (W)**

Pluralism and Diversity
PD/D
GER
3/A

Etruscans and pre-Roman Italy; rise of Rome to the time of Julius Caesar: architecture, painting, sculpture; Pompeii and daily life.

prereq: ENGL 12000; CLARC 20300 -or- CLARC 20400
3 hrs
3 cr.

-or-

**CLARC 22300 - Roman Archaeology II: The Archaeology of the Roman Empire**

The Mediterranean world under the Roman Empire: capital city of Rome and the provinces; architecture, painting, sculpture, Pompeii and daily life.

prereq: ENGL 12000; CLARC 20300 -or- CLARC 20400
3 hrs
3 cr.

A corequisite of 12 credits of Greek or Latin*

*These courses may be counted for credit in more than one program.

• A total of 12 credits from the following Interdepartmental Course Pool:

**CLARC 32100 - Archaeology of Egypt (W)**
Pluralism and Diversity
PD/A
GER
3/A

Sites, cultures, and styles of ancient Egypt, Giza, Thebes, Amarna; hieroglyphs, literature, tombs, religion, daily life.

_prereq:_ ENGL 12000, CLARC 20400
3 hrs
3 cr.

CLARC 32400 - Archaeology of Western Mediterranean

Ancient Sicily, Sardinia, Malta, Spain, and Italy, chiefly in Bronze Age. Main sites and cultures.

_prereq:_ ENGL 12000, CLARC 20400
3 hrs
3 cr.

CLARC 32500 - Archaeology of Eastern Mediterranean (W)

Pluralism and Diversity
PD/A
GER
3/A

The Levant (Syria, Jordan, Lebanon, Israel) and Cyprus, from the Neolithic to the Persian era, ca. 10,000 – 500 BCE.

_prereq:_ ENGL 12000, CLARC 20400
3 hrs
3 cr.

CLARC 32200 - Archaeology of Mesopotamia and Iran (W)

Pluralism and Diversity
PD/A
GER
3/A

Sites, cultures, and styles of ancient Mesopotamia and Iran. First cities, tombs of Ur, ziggurats, palaces, Elamites and Persians.

_prereq:_ ENGL 12000, CLARC 20400
3 hrs
3 cr.

CLARC 32300 - Archaeology of Anatolia (W)

Pluralism and Diversity
PD/A
GER
3/A
Sites, cultures, and styles of ancient Anatolia: Catal Huyuk, Troy, the Hittites, royal tombs of Phrygia and Lycia.

prereq: ENGL 12000, CLARC 20400
3 hrs
3 cr.

CLARC 32900 - Problems in Archaeology

Exploration in depth of particular area or period in Old World archaeology. Topics vary.

prereq: ENGL 12000; CLARC 20400 and one other CLARC course
3 hrs
3 cr.

CLARC 23000 - Field Seminar in Archaeology

Fieldwork, undertaken during a school semester or summer, under auspices of department or in an approved program, teaching excavation, or field school. Open only to majors who have completed ENGL 12000 and CLARC 20400.

prereq: ENGL 12000, CLARC 20400. Open to majors only; with permission of dept.
1-6 hrs
1-6 cr.

CLARC 32600 - Hellenistic Archaeology (W)

The Mediterranean world from Alexander the Great through the rise of Rome; trends in architecture, sculpture, painting, mosaics and city planning, reflecting the period's history and philosophies (ca. 350 – 31 BCE). Focuses on the sites of Alexandria, Pergamon, Delos, Athens, Rome.

prereq: ENGL 12000 and CLARC 20400
3 hrs
3 cr.

CLARC 32800 - Theory and Methods in Classical Archaeology (W)

Archaeology as a comprehensive discipline of historical inquiry through analysis of material culture, as studied in the Mediterranean basin and the Ancient Near East. This course includes fieldwork strategies, survey, stratigraphic excavation, ceramic and numismatic analysis, artifact and data processing and documentation, management and protection of cultural heritage.

prereq: ENGL 12000 and CLARC 20400
3 hrs
3 cr.

CLA 49100 - Honors in Classics

Sr only. Individual research under direction of member of department, culminating in essay approved by Honors Committee.

prereq: ENGL 12000, perm dept.
**Honors in Classics (Archaeology) tutorials are open only to majors**

- and -

**ANTHC 12600 - Introduction to Prehistoric Archaeology**

**Hunter Core**
World Culture and Global Issues (WCGI)

**GER**
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

3 hrs
3 cr.

*offered every sem.*

**ANTHC 12700 - Methods In Archaeological Science**

**Hunter Core**
SW

Introduction to theory and method of scientific research in archaeology.

*prereq: ANTHC 12600 or perm instr.*

3 hrs
3 cr.

**ANTHC 22600 - Archaeology of Africa**

**Pluralism and Diversity**
PD/A

**GER**
3/B

Prehistory; origins, adaptations, cultural evolution of early hominids; origins of agriculture, early complex societies.

*prereq: ANTHC 12600 or perm instr.*

3 hrs
3 cr.

**ANTHC 22700 - Archaeology of Europe**

**Pluralism and Diversity**
PD/D

**GER**
3/B

Prehistory; early hunting and gathering adaptations, beginnings of sedentary village life, development of complex societies.

*prereq: ANTHC 12600 or perm instr.*
ANTHC 22800 - Archaeology of the Near East to 2000 BC

Pluralism and Diversity
PD/A
GER
3/B

Sociocultural development of Near East from early hunter-gatherers to first states and empires.

prereq: ANTHC 12600 or perm instr.

3 hrs
3 cr.

ANTHC 23100 - Archaeology of Mesoamerica

GER
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

prereq: ANTHC 12600 or perm instr.

3 hrs
3 cr.

ANTHC 23200 - Archaeology of South America and the Caribbean

GER
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

prereq: ANTHC 12600 or perm instr.

3 hrs
3 cr.

ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity
See note below

Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.

The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

ANTHC 42659 Archaeology of North America meets PD/B
ANTHC 42660 Archaeology of Colonialism meets PD/D

prereq: ANTHC 12600 or perm instr.

3 hrs
3 cr.

Honors and Tutorials
Departmental honors in classics and tutorials are open only to majors.

Degree Map for Classical Archaeology

Classical Studies - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019 Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement. In the case of Classical Studies, the courses that meet CCCR are:

CLA 20100 - Greek Civilization (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Ancient Greek culture: art and literature, religion, philosophy, economics, politics, education, and athletics.

prereq: ENGL 12000

3 hrs
3 cr.

CLA 20300 - Roman Civilization (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Ancient Roman culture: art and literature, law, architecture, engineering, economics, popular culture, leisure activities.

prereq: ENGL 12000

3 hrs
3 cr.
CLARC 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.

prereq: ENGL 12000
3 hrs
3 cr.

CLA 25000 - Greek and Roman Tragedy (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C

A study of plays of Aeschylus, Sophocles, Euripides, and Seneca in their literary, religious, and social contexts.

prereq: ENGL 12000 recom: CLA 10100
3 hrs
3 cr.

CLA 25100 - Ancient Comedy (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C

Aristophanes, Menander, Plautus, and Terence, with a consideration of their influence on Western comic tradition.

prereq: ENGL 12000
3 hrs
3 cr.

CLA 25300 - Homer and Vergil (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C

Ancient narrative song and poetry, with emphasis on the Iliad and Odyssey of Homer and the Aeneid of Vergil.

prereq: ENGL 12000 recom: CLA 10100
Courses Required for the Major (24 credits)

12 credits of Greek or 12 credits of Latin, including

GRK 10100 - Beginning Ancient Greek 1

Elementary course in grammar, syntax and morphology of Ancient Greek.

For credit policy on GRK 10100 without GRK 10200 please see Foreign Language Requirement.

GRK 10200 - Beginning Ancient Greek 2

Elementary course in grammar, syntax and morphology of Ancient Greek.

prereq: GRK 10100

LAT 10200 - Beginning Latin

12 credits of Classics courses given in English (with a CLA or a CLARC prefix), including two courses at the 300 level

Note: CLA 10100 and CLA 11000 do not count toward the major.

Honors and Tutorials

Departmental honors in classics and tutorials are open only to majors.

Note: Can serve as one of the 3-credit CLA elective courses.

CLA 49100 - Honors in Classics

Sr only. Individual research under direction of member of department, culminating in essay approved by Honors Committee.

prereq: ENGL 12000, perm dept.
Courses in Classical Studies

CLA 10100 - Classical Mythology

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
GER
2/C

Greek and Roman myth as represented in ancient art and literature, with emphasis on modern interpretations and theories.

3 cr.

**CLA 30800 - Magic and Science in the Ancient World (W)**

**GER**

3/A

The interaction of scientific and magical world views in Greek, Roman and Near Eastern antiquity from the invention of writing to the origins of alchemy.

*prereq: ENGL 12000; CLA 20100 or 20300*

3 hrs

3 cr.

**CLA 31000 - Ancient Sports and Spectacles (W)**

**Pluralism and Diversity**

PD/D

**GER**

3/A

An exploration of ancient Greek and Roman sports and spectacles, focusing on evidence supplied by literary texts, archaeology, and the visual arts.

*prereq: ENGL 12000; CLA 20100 or 20300*

3 hrs

3 cr.

**CLARC 32200 - Archaeology of Mesopotamia and Iran (W)**

**Pluralism and Diversity**

PD/A

**GER**

3/A

Sites, cultures, and styles of ancient Mesopotamia and Iran. First cities, tombs of Ur, ziggurats, palaces, Elamites and Persians.

*prereq: ENGL 12000, CLARC 20400*

3 hrs

3 cr.
CLARC 32300 - Archaeology of Anatolia (W)

Pluralism and Diversity
PD/A
GER
3/A

Sites, cultures, and styles of ancient Anatolia: Catal Huyuk, Troy, the Hittites, royal tombs of Phrygia and Lycia.

*prereq: ENGL 12000, CLARC 20400
3 hrs
3 cr.

CLARC 32900 - Problems in Archaeology

Exploration in depth of particular area or period in Old World archaeology. Topics vary.

*prereq: ENGL 12000; CLARC 20400 and one other CLARC course
3 hrs
3 cr.

CLARC 23000 - Field Seminar in Archaeology

Fieldwork, undertaken during a school semester or summer, under auspices of department or in an approved program, teaching excavation, or field school. Open only to majors who have completed ENGL 12000 and CLARC 20400.

*prereq: ENGL 12000, CLARC 20400. Open to majors only; with permission of dept.
1-6 hrs
1-6 cr.

CLA 42100 - Independent Study in Classics

Open to majors only.
*prereq: ENGL 12000, perm dept.
1-3 cr.

CLA 49100 - Honors in Classics

Sr only. Individual research under direction of member of department, culminating in essay approved by Honors Committee.
*prereq: ENGL 12000, perm dept.
3 hrs
3 cr.

CLA 49800 - Internship

*prereq: ENGL 12000, perm dept.
1-6 cr.

Degree Map
Degree Map for Classical Studies

Degree Map for Arabic BA (Heritage Learner)

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Arabic major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

ARB 14800 - Beginning Arabic for Heritage Speakers

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head
3 hrs
3 cr.

• Math/Quantitative Reasoning
• Scientific World
• Individual & Society/ Social Sciences

Spring

ENGL 22000 - Introduction to Writing about Literature (W)
**Hunter Core**

English Comp (EC)

GER

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

*prereq: ENGL 12000*

3 hrs + one additional conference hour

3 cr.

**ARB 24800 - Intermediate Arabic for Heritage Speakers**

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any textbook. The course is not open to students who have taken the ARB 10100-30200 sequence.

*prereq: ARB 14800 or Arabic Program head's permission*

3 hrs

3 cr.

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

_prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

ARB 10200 - Beginning Arabic II

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

_prereq: ARB 10100 or permission of Head of Arabic Program.
Sophomore Year

Fall

**ARB 15000 - Introduction to Modern Arab Cultures**

**Hunter Core**
World Cultures and Global Issues (WCGI)

**Pluralism and Diversity**
P/D A

This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

**ARB 20100 - Intermediate Arabic I**

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

*prereq: ARB 10200 or equiv.*

**Junior Year**

Senior Year

Fall

ARB 40100 - Focused Arabic Study for Advanced Students

Pluralism and Diversity
P/D A
A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.
prereq: ARB 30200
3 hrs
3 cr.

ARB 30000 - Problems in Arabic Literature and Culture

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.
prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051.
Spring

ARB 49000 - The Arabic Senior Capstone

This capstone course is intended to have students integrate and synthesize the knowledge of the Arab world that they have developed through previous coursework into a final project in Arabic. Projects may include: academic papers synthesizing primary and secondary sources; artistic and/or documentary videos; source or archival surveys; annotated bibliographies; live and/or recorded artistic performances; exhibitions/installations; literary or cultural criticism; feature-length journalism; reports on services; websites or computer applications. The final project will evaluated mainly on the basis of the level, range, and linguistic accuracy of the Arabic that is used in it.

prereq: ARB 15000 and one 200-level ARB course

Degree Map for Greek and Latin

Hebrew - BA

The major consists of 24-30 credits. In general, a Hebrew major is required to achieve proficiency in Biblical and/or modern Hebrew literature by successfully completing a minimum of four courses at the 300 level in Hebrew. Courses in Hebraic studies conducted in English may be applied toward partial fulfillment of the Hebrew major provided they are part of a coherent program approved by the head of the division. Qualified students interested in a more intensive program in the field of Hebraic or Judaic studies, particularly those preparing for graduate work in such specialized areas as Semitic languages and civilizations, Jewish history, Biblical studies and archaeology, medieval or modern Hebrew literature, Near Eastern studies or religious studies, should consult a division adviser regarding additional courses and supportive studies in related fields. Students who demonstrate proficiency in Hebrew through a placement exam may be exempted from some courses. Please see the Classical and Oriental Studies department for details.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Return to: Classical and Oriental Studies

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of Russian, the courses that meet CCC are:

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (24 credits)

The Russian major consists of at least 24 credits chosen among courses in the language beyond RUSS 10200 or RUSS 10300.

Russian Concentrations

There are four possible concentrations within the Russian Major, the requirements for which are outlined below. Students who demonstrate proficiency in Russian through a placement exam may be exempted from some courses.

1. Russian Language Concentration: for students who want to acquire native fluency in spoken and written Russian and a thorough knowledge of Russian literature.
   - RUSS 10100 and RUSS 10200 Elementary Russian -or- RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
   - 24 credits in courses beyond RUSS 10200 or RUSS 10300.

2. Russian Language and Culture Concentration: for students interested in the arts rather than in language. With the permission of the division head, a limited number of courses in translation may be applied to the major sequence.
   - RUSS 10100 and RUSS 10200 Elementary Russian -or- RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
   - 24 credits in courses beyond RUSS 10200 or RUSS 10300.

3. Russian and East Central European Studies (RECE) Concentration: For students interested in a variety of disciplines in combination with courses from the Division of Russian and Slavic Studies. Requirements for RECE include
   - Russian or Slavic language proficiency or 6 credits in Russian or Slavic language at the 20200 (intermediate) level or above
   - 18 credits distributed as follows:
     a. Russian or East Central European history (3 cr.);
     b. RECE area political science (3 cr.);
     c. Russian or East Central European literature, culture or arts (3 cr.);
     d. and three additional 200- or 300-level courses chosen from two of the following categories:
        i. anthropology,
ii. economics,
iii. geography,
iv. history,
v. political science and
vi. literature, culture or arts.

- Students should select courses in consultation with their RECE adviser. In addition to their 18-to 24-credit concentration, students are strongly urged to choose 12 minor credits from disciplines related to RECE.

4. **Russian Translation Concentration:** for students interested in acquiring training in Russian translation in a variety of professional fields. Requirements for the concentration in Russian translation include:

- RUSS 10100 and RUSS 10200 Elementary Russian -or- RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
- 6 credits in Russian language at the intermediate level (RUSS 20100 and RUSS 20200) or 6 credits in the intensive RUSS 20300 for heritage speakers.
- RUSS 21500 Translating Culture: Introduction to Theory and Practice of Translation
- RUSS 30100 Advanced Russian I
- RUSS 30200 Advanced Russian II
- RUSS 31700 Practical Aspects of Translation
- RUSS 31800 Advanced Translation
- RUSS 49800 Internship in Russian and Slavic Studies

*Students exempt from the Russian language requirement through proficiency testing or by permission of the Division Head are required to take 6 credits at the 300-level of either:

1. Two language courses from the following courses:
   - RUSS 31200
   - RUSS 31300
   - RUSS 31400
   - RUSS 31500 -or- RUSS 31900

2. Two literature courses in Russian
3. One literature course and one of the above language courses

**Undergraduate Minor**

**Minor in Arabic and Minor in Arabic Studies**

Return to Classical and Oriental Studies
Two 12-credit minors are offered by the Arabic Language, Literature, and Culture Division of the Department of Classical and Oriental Studies: Arabic and Arabic Studies.

**Minor in Arabic**

The minor in Arabic requires the successful completion of

**ARB 20100 - Intermediate Arabic I**

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.  
*prereq: ARB 10200 or equiv.*  
3 hrs  
3 cr.

**ARB 20200 - Intermediate Arabic II**

Continuation of ARB 20100.  
*prereq: ARB 20100 or equiv.*  
3 hrs  
3 cr.

**ARB 30100 - Advanced Arabic I**

Emphasis on increased proficiency in reading, speaking and writing Arabic  
*prereq: ARB 20200 or equiv.*  
3 hrs  
3 cr.

**ARB 30200 - Advanced Arabic II**

Continuation of ARB 30100  
*prereq: ARB 30100 or equiv.*  
3 hrs  
3 cr.  

or their equivalent as determined by the Arabic Program Head.

**ARB 24900 - Special Topics in Arabic Dialects**

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.  
*prereq: ARB 20200*  
3 hrs  
3 cr.

**ARB 40100 - Focused Arabic Study for Advanced Students**
Pluralism and Diversity

A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

**prereq:** ARB 30200

3 hrs
3 cr.

can count toward the minor

Arabic Studies Minor

At least 2 Arabic language classes taken at Hunter

- ARB 10100 Beginning Arabic I
- ARB 10200 Beginning Arabic II
- ARB 24900 Special Topics in Arabic Dialects
- ARB 20100 Intermediate Arabic I
- ARB 20200 Intermediate Arabic II
- ARB 30100 Advanced Arabic I
- ARB 30200 Advanced Arabic II

or at a program approved by the Arabic Program Head and at least two ARB courses taught in English.

For students who test out of ARB 30200 without having taken any Arabic courses at the university level, the Arabic Studies Minor can be achieved by taking at least 4 courses from the ARB courses taught in English.

Total credits for the minor: 12

Arabic Courses

**ARB 10100 - Beginning Arabic I**

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Foreign Language Requirement

3 hrs
3 cr.

**ARB 10200 - Beginning Arabic II**

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio
and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

This class is not for native speakers.

\textit{prereq: ARB 10100 or permission of Head of Arabic Program.}

3 hrs

3 cr.

\textbf{ARB 14800 - Beginning Arabic for Heritage Speakers}

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

\textit{prereq: perm of division head}

3 hrs

3 cr.

\textbf{ARB 14900 - Spoken Egyptian Arabic}

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

\textit{prereq: ARB 10200 and permission of instructor}

3 hours

3 credits

\textbf{ARB 15000 - Introduction to Modern Arab Cultures}

\textbf{Hunter Core}

World Cultures and Global Issues (WCGI)

\textbf{Pluralism and Diversity}

P/D A

This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs

3 cr.

\textbf{ARB 20000 - Topics in Arabic Literature and Culture}

This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

\textit{prereq: ENGL 12000 or equivalent}

3 hrs.

3 cr.

\textbf{ARB 20100 - Intermediate Arabic I}
Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

**prereq:** ARB 10200 or equiv.

3 hrs

3 cr.

**ARB 20200 - Intermediate Arabic II**

Continuation of ARB 20100.

**prereq:** ARB 20100 or equiv.

3 hrs

3 cr.

**ARB 24800 - Intermediate Arabic for Heritage Speakers**

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB 10100-30200 sequence.

**prereq:** ARB 14800 or Arabic Program head's permission

3 hrs

3 cr.

**ARB 24900 - Special Topics in Arabic Dialects**

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

**prereq:** ARB 20200

3 hrs

3 cr.

**ARB 25000 - The Arab Novel (in translation) (W)**

**Hunter Core**

Creative Expression (CE)

Pluralism and Diversity

PD/A

GER

2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

**prereq:** ENG 22000 or equiv.

3 hrs

3 cr.

**ARB 25100 - Arab Cinema (in translation)**
This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

**prereq:** ENGL 12000 or equivalent

3 hrs

3 credits

**ARB 25200 - Literatures from the Islamic World (W)**

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

**prereq:** ENGL 12000 or equivalent

3 hrs

3 credits

**ARB 25300 - Literatures and Cultures of Muslim Spain (W)**

A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.

**prereq:** ENGL 12000 or equivalent

3 hrs

3 credits

**ARB 25400 - The Arabian Nights East and West (W)**

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.
ARB 25500 - Modern Palestinian Culture

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

3 hrs
3 cr.

ARB 25600 - Modern Arab Theatre

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A

Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.

3 hrs
3 cr.

ARB 30000 - Problems in Arabic Literature and Culture

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.

Minor in Chinese

The Minor in Chinese consists of 12 credits. Students must take four courses at or above CHIN 200-level taught in Chinese. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor.

Minor in Classical Archaeology

These courses will provide the student with a broad overview of the material cultures of the ancient classical and near eastern civilizations and serve as an introduction to the methodologies, investigative techniques and analyses employed in the field of archaeology.

12 credits
1. CLARC 20400 Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)
2. CLARC 22100 Greek Archaeology (W)
3. CLARC 22200 Roman Archaeology I: Etruscans, Monarchy, Republic (W)
   -or-
   CLARC 22300 Roman Archaeology II: The Archaeology of the Roman Empire
4. One other course in Classical Archaeology at the 200- or 300-level.
   CLARC 22000 Aegean Archaeology (W)
   CLARC 32100 Archaeology of Egypt (W)
   CLARC 32200 Archaeology of Mesopotamia and Iran (W)
   CLARC 32300 Archaeology of Anatolia (W)
   CLARC 32400 Archaeology of Western Mediterranean
   CLARC 32500 Archaeology of Eastern Mediterranean (W)
CLARC 32800 Theory and Methods in Classical Archaeology (W)

CLARC 32900 Problems in Archaeology

Note: CLARC 20400 is a prerequisite for all other Classical Archaeology courses.

Minor in Classical Studies

12 Credits:

1. CLA 10100 - Classical Mythology
2. CLA 20100 - Greek Civilization (W)
3. CLA 20300 - Roman Civilization (W)
4. One course with a CLA or a CLARC prefix at the 200- or 300-level (e.g., literature in translation or upper-level culture courses or CLARC 20400)

Note: CLA 10100, CLA 20100, and CLA 20300 have no prerequisites

Minor in Hebraic Studies

Minor: 12 credits

The Hebraic Studies minor requires the successful completion of four HEBR literature and/or culture courses on the 200-level or above, taught in English or in Hebrew. Two Hebrew language courses on 300-level or above may be used toward the minor requirement in lieu of two literature or culture courses.

Minor in Hebrew

The Hebrew minor requires the successful completion of 12 credits at the 200-level or above. Courses counted toward the Hebrew minor must be either language courses or have Hebrew as their language of instruction.

Minor in Japanese Language

Fall 2019

The Japanese Language Minor seeks to develop students' understanding of the Japanese language at an advanced level. With higher-level language courses, students will be exposed to more complex oral and written Japanese that will lead to a greater fluency in the language. To this end, the Japanese Language Minor requires completion of a minimum of 12 credits (4 courses). By completing the Japanese Language Minor, students will also have fulfilled the Hunter College language requirement. No grade below B- shall be considered to fulfill the requirements for this minor.

Student must complete the following course
Students must take at least three of the following courses or an elective course approved by the department head (9 credit hours total):

- JPN 27100 Japanese Reading: Recitation and Comprehension
- JPN 30100 Advanced Japanese I
- JPN 30200 Advanced Japanese II
- JPN 35100 Advanced Japanese Conversation
- JPN 42103 Independent Study in Japanese

Effective Spring 2020

The Japanese Language Minor

To this end, the Japanese Language Minor requires completion of a minimum of 12 credits (4 courses). By completing the Japanese Language Minor, students will also have fulfilled the Hunter College language requirement. No grade below B- shall be considered to fulfill the requirements for this minor.

Students must complete the following course:

- JPN 20200 Intermediate Japanese II

Students must take at least three of the following courses or an elective course approved by the department head (9 credit hours total):

- JPN 27100 Japanese Reading: Recitation and Comprehension
- JPN 30100 Advanced Japanese I
- JPN 30200 Advanced Japanese II
- JPN 30400 Special Topics in Japanese Language
- JPN 35100 Advanced Japanese Conversation
- JPN 40400 Advanced Special Topics in Japanese Language
- JPN 42100 Independent Study in Japanese

Minor in Japanese Studies

The Japanese Studies Minor seeks to develop students' understanding of Japanese culture, while also fostering a broader understanding of Japan's influence in the world. The required culture classes (JPN 25100 and JPN 25200) will give students a foundation specifically in Japanese culture and society, and the additional elective courses offer students the option to customize the aspects of Japan they want to research. This minor is designed to be flexible and accommodate students who do not take Japanese language classes, but rather have an interest purely in Japanese culture. The majority of classes that satisfy this minor are taught in English, however some Japanese language classes
can be used to fulfill it. Students who complete the minor will have a well-rounded perspective on Japanese history and contemporary issues that will give insight into Japan. No grade below B- shall be considered to fulfill these requirements.

**Students must complete the following courses (6 credit hours)**

- JPN 25100 Japanese Culture Before 1600
- JPN 25200 Japanese Culture Since 1600

**Students must take at least two of the following elective courses or an elective course approved by the department head (6 credit hours total)**

- JPN 27100 Japanese Reading: Recitation and Comprehension
- JPN 35100 Advanced Japanese Conversation
- JPN 42103 Independent Study in Japanese
- ASIAN 21000 Asians in the U.S.
- ASIAN 22001 Asian American Women Writers
- ASIAN 32001 Nation, Self, and Asian Identity
- ASIAN 35152 Asian American Literature and Pop Culture
- FILM 21355 National Cinema: Asian Cinema
- HIST 27700 East Asia to 1600 (W)
- HIST 27800 East Asia, 1600 to the Present (W)

Note: Students may petition for other courses to fulfill the elective requirement. No more than one class from other campuses or universities may be used to fulfill requirements.

**Minor in Latin or Ancient Greek**

**Greek:** 12 credits beyond GRK 10100/GRK 10200

**Latin:** 12 credits beyond LAT 10100/LAT 10200 or LAT 10700

**Minor in Russian Language and Minor in Russian Literature and Culture**

The Program will encourage students to take the Russian minor. The minor consists of minimum of 12 credits. Students wishing to minor in Russian should either pass a proficiency test or take the language sequence of RUSS 10100 — RUSS 10200; RUSS 20100 — RUSS 20200. Courses taken toward the Russian minor could follow two tracks:

**Track I: Russian Language Minor**

Prerequisite: RUSS 20200 or equivalent. Students are expected to take: RUSS 30100 & RUSS 30200; RUSS 31700 or RUSS 31800 or RUSS 31900; plus one literature course taught in Russian.

**Track II: Russian Literature and Culture Minor**
Prerequisite: RUSS 20200 or equivalent. Students are expected to take: RUSS 30100 & RUSS 30200 and two literature or culture courses conducted either in Russian or in English. Literature courses may be substituted for language courses in the Literature and Culture Minor with permission by the head of the program.

Other Programs

Japanese Courses

Return to Classical and Oriental Studies

The following are the courses offered in Japanese language and culture.

Courses in Japanese Language/Culture

**JPN 10100 - Elementary Japanese I**

JPN 10100 not usually credited without JPN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs
3 cr.

**JPN 10200 - Elementary Japanese II**

Continuation of 10100.

*prereq: JPN 10100 or equiv.*

3 hrs
3 cr.

**JPN 20100 - Intermediate Japanese I**

Continuation of JPN 10100-10200. Extensive reading and writing practice, including at least 500 additional kanji; advanced grammar study.

*prereq: JPN 10200 or equiv.*

3 hrs
3 cr.

**JPN 20200 - Intermediate Japanese II**

Continuation of JPN 20100.

*prereq: JPN 20100 or equiv.*

3 hrs
3 cr.

**JPN 30100 - Advanced Japanese I**

Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.
prereq: JPN 20200 or equiv.
3 hrs
3 cr.

JPN 30200 - Advanced Japanese II

Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.
prereq: JPN 30100 or equiv.
3 hrs
3 cr.

JPN 25100 - Japanese Culture Before 1600

Hunter Core
Individual and Society - Humanities (I&S H)
Pluralism and Diversity
PD/A
GER
2/C

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).
prereq: ENGL 120
3 hrs
3 cr

JPN 25200 - Japanese Culture Since 1600

Pluralism and Diversity
PD/A
GER
2/C

This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures – that of the Japanese and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions that are celebrated today. Art, literature, and social reform will also play important roles throughout the semester.

prereq: ENGL 12000
3 hours
3 credits

Arabic
ARB 10100 - Beginning Arabic I

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Foreign Language Requirement

3 hrs
3 cr.

ARB 10200 - Beginning Arabic II

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

This class is not for native speakers.

prereq: ARB 10100 or permission of Head of Arabic Program.

3 hrs
3 cr.

ARB 14800 - Beginning Arabic for Heritage Speakers

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head

3 hrs
3 cr.

ARB 14900 - Spoken Egyptian Arabic

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

prereq: ARB 10200 and permission of instructor

3 hours
3 credits

ARB 15000 - Introduction to Modern Arab Cultures
Hunter Core
World Cultures and Global Issues (WCGI)

Pluralism and Diversity
P/D A
This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs
3 cr.

ARB 20000 - Topics in Arabic Literature and Culture

This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

prereq: ENGL 12000 or equivalent
3 hrs.
3 cr.

ARB 20100 - Intermediate Arabic I

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

prereq: ARB 10200 or equiv.
3 hrs
3 cr.

ARB 20200 - Intermediate Arabic II

Continuation of ARB 20100.

prereq: ARB 20100 or equiv.
3 hrs
3 cr.

ARB 24800 - Intermediate Arabic for Heritage Speakers

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: ARB 14800 or Arabic Program head's permission
3 hrs
3 cr.

ARB 24900 - Special Topics in Arabic Dialects

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

prereq: ARB 20200
ARB 25000 - The Arab Novel (in translation) (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

 prerequisite: ENG 22000 or equiv.
3 hrs
3 cr.

ARB 25100 - Arab Cinema (in translation)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

 prerequisite: ENGL 12000 or equivalent
3 hrs
3 credits

ARB 25200 - Literatures from the Islamic World (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

 prerequisite: ENGL 12000 or equivalent
3 hrs
3 credits

ARB 25300 - Literatures and Cultures of Muslim Spain (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.

**prereq:** ENGL 12000 or equivalent

*3 hrs*

*3 credits*

**ARB 25400 - The Arabian Nights East and West (W)**

**Hunter Core**  
Creative Expression (CE)  
Pluralism and Diversity  
PD/A  
GER  
2/C

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.

**prereq or coreq:** ENGL 12000 or equivalent

*3 hours*

*3 credits*

**ARB 25500 - Modern Palestinian Culture**

**Hunter Core**  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
PD/A

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

*3 hrs*

*3 cr.*

**ARB 25600 - Modern Arab Theatre**

**Hunter Core**  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
PD/A

Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.

*3 hrs*

*3 cr.*

**ARB 25700 - Language and Culture in Contemporary North Africa**
North Africa (Maghreb) is often described as a crossroads of many cultures - Arab, Berber, African, European, and others. Over the course of this semester, we will discuss important issues facing this region, including democratic reform efforts both before and following the Arab spring, Berber language movements and other language debates, colonial and post-colonial struggles, and social and cultural debates surrounding gender and religion. Through readings of key literary, historical, political, and cultural texts, as well as viewing important documentary and fictional film productions, we will examine this fascinating region from multiple vantage points.

**Prerequisites:**

- ENGL 12000

**3 hours**  
**3 credits**

**ARB 30000 - Problems in Arabic Literature and Culture**

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

**Prerequisites or Corequisites:**

- ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W.

**3 hours**  
**3 credits**

**ARB 30100 - Advanced Arabic I**

Emphasis on increased proficiency in reading, speaking and writing Arabic

**Prerequisites:**

- ARB 20200 or equiv.

**3 hours**  
**3 credits**

**ARB 30200 - Advanced Arabic II**

Continuation of ARB 30100

**Prerequisites:**

- ARB 30100 or equiv.

**3 hours**  
**3 credits**

**ARB 40100 - Focused Arabic Study for Advanced Students**

A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

**Prerequisites:**

- ARB 30200
ARB 49000 - The Arabic Senior Capstone

This capstone course is intended to have students integrate and synthesize the knowledge of the Arab world that they have developed through previous coursework into a final project in Arabic. Projects may include: academic papers synthesizing primary and secondary sources; artistic and/or documentary videos; source or archival surveys; annotated bibliographies; live and/or recorded artistic performances; exhibitions/installations; literary or cultural criticism; feature-length journalism; reports on services; websites or computer applications. The final project will be evaluated mainly on the basis of the level, range, and linguistic accuracy of the Arabic that is used in it.

prereq: ARB 15000 and one 200-level ARB course
coreq: ARB 40100

ARB 49801, 49802, 49803 - Internship in Arab Studies

Pluralism and Diversity
PD/A
This course will give students real-world experience with Arab/Middle East-related organizations where they can apply their academic and linguistic experience, interact with and serve Arab communities, expand their professional network, and develop skills relevant to future professional jobs. This course may be taken for a maximum total of 6 credits.

prereq: Departmental permission
1-3

Archaeology: Classical

CLARC 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.

3 hrs
3 cr.
offered fall

**CHIN 30400 - Classical Chinese Literature II**

Continuation of CHIN 303. Selected readings in literature written in wenyan or classical style.

**prereq:** CHIN 303 or equiv.
3 hrs
3 cr.
offered spring

**CHIN 30600 - 20th-century Chinese Literature**

Pluralism and Diversity
PD/A
Selected readings of leading thinkers and writers.

**prereq:** CHIN 20200 or equiv.
3 hrs
3 cr.

**CHIN 30700 - Classical Chinese Poetry**

Pluralism and Diversity
PD/A
Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi.
CHIN 31600 - Introduction to Business Translation (Chinese – English)

This course introduces a broad scope of language support services pertaining to the business environment, specifically, to a variety of written documents and face-to-face verbal situations that call for translation between Chinese and English—from official stationery, daily correspondences, and meetings to press releases, press conferences, advertising copies, product manuals, and trade events. Students will learn to analyze source documents in real world indicators of the project in question: the client (commissioner of the work), targeted audience, purpose of document, and context of use; students will practice handling documents as an in-house language support staff, providing sight or summary translation, or general interpreting between Chinese and English in the context of business meetings. Through class discussions and practice, principles and approaches will emerge from a survey of key industry drivers of Chinese/English translation in real estate development, tourism, entertainment, digital gaming, and the art market. Students will complete a minimum of 6 short translation projects (300-400 words each) and 3 interpreting scenarios (performed in role-play with a written post analysis) based on written texts that they have translated. As a final project, students will orally present a study of a China- or Taiwan-based commercial website, identifying how and what parts of the site could be improved for the global market.

prereq: CHIN 30400 or equiv.
3 hrs
3 cr.

CHIN 31700 - Community Interpreting and Sight Translation, Chinese – English

This course provides a foundational skill-based grounding for the community interpreter who orally translates between English and Mandarin Chinese in both directions. This course will facilitate interpreting practice in a wide array of public, community, and commercial settings—from the adoption interview, real-estate closing, and arbitration proceedings to the pre-trial deposition and parent-teacher conference; the course will also emphasize sight translation, the oral translation of written texts, as a fundamental skill in community interpreting. As part of an experiential learning approach, students will role play and constitute their own "scenarios," practice self- and peer-assessment, and learn the multi-faceted process of interpreting, including note-taking, listening, voice production, the use of verbal and non-verbal cues, memory training, and paralinguistic applications. The course will survey the role of community interpreting in the US context addressing key sectors including healthcare, public education, social services, and the criminal justice and court system. Students will practice weekly interpreting using online or improvised role-play materials. Through the course students will produce a minimum of six peer/self-assessments of recorded in-class interpreting exercises based on role-played scenarios; as a mid-term project, students will produce a high-level demonstration of formal interpreting (as in an official meeting) and submit this work to peer assessment; as a final project, students will make an analytical case study of a simulated interpreting assignment illustrating the multi-faceted role of the community interpreter.

prereq: CHIN 20200
3 hrs
3 cr.

CHIN 31800 - Intercultural and Interlingual Discourse in Chinese & English

This course addresses the structural and cultural aspects of language use with focus on dual-language communication involving Chinese and English. Interlingually, the course will explore given structural differences between Chinese and English, including aspects of speech habits (phonology), word-formation (morphology), vocabulary (lexicon),
phraseology, and sentence structure (syntax); interculturally, the course will examine how dual-language speakers (and translators) negotiate and shape Chinese and English in the dynamic of time-and-place communication, including the navigation of different discourse styles, conventions governing idiom, coherence, or logic, and assumptions about gender relations, and power and status that determine who speaks when, who gets interrupted, and how rhetoric and voice are expressed in code switching and mixing between Chinese and English. In identifying rule-governed variance and strategies used to mediate differences in communication, students will also develop an articulate understanding of how the two languages function in their separate and yet intertwined evolution.

Students will constitute through role play a range of dual-language "scenarios" for oral practice and analysis; for close textual study and translation practice, students will work with a variety of English and Chinese text types—speech (script) and prose of different genres from the technical, and journalistic to modern literary writing. Students will produce a minimum of 4 oral scenario evaluations and 4 comparative analyses of written texts. These written papers will be 600-800 words based on analysis of 5-10 min oral materials or 800-1200 word written texts.

prereq: CHIN 20200
3 hrs
3 cr.

CHIN 40100 - Advanced Studies in Chinese Literature

Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation.
prereq: CHIN 30200 or equiv, perm chair
3 hrs
3 cr.

CHIN 40200 - Independent Study in Chinese Literature

Independent study and research in Chinese literature under supervision of a faculty member.
For majors only.
prereq: CHIN 40100, perm chair
3 hrs
3 cr.

Classical Literature (in English)

CLA 25000 - Greek and Roman Tragedy (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C

A study of plays of Aeschylus, Sophocles, Euripides, and Seneca in their literary, religious, and social contexts.

**Pluralism and Diversity**
**PD/A**
**GER**
3/A

Israeli cinema and the development of Israeli cultural identity. Designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. The course is designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. This course will explore discourses on topics concerning the Israeli-Palestinian and Israeli-Arab conflicts, Zionist and post-Zionist trends, socio-economic gaps, religious controversies and aesthetic societal contexts, as well as women's issues. The course will employ a variety of disciplines, including but not limited to formalist and semiotic film theories and literary analysis. The student will gain fundamental insight into Israeli culture. No knowledge of Hebrew is required but can be helpful. Students, who wish to do the reading and discussion in the Hebrew language, may have that option. Course will be conducted in English.

*cross-listed cross-listed with FILM 21344*

JPN 25100 - Japanese Culture Before 1600

**Hunter Core**
Individual and Society - Humanities (I&S H)

**Pluralism and Diversity**
PD/A
GER
2/C

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).

*prereq:* ENGL 120

3 hrs
3 cr

JPN 25200 - Japanese Culture Since 1600

**Pluralism and Diversity**
PD/A
GER
2/C

This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures – that of the Japanese and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions that are celebrated today. Art, literature, and social reform will also play important roles throughout the semester.
prereq: ENGL 12000
3 hours
3 credits

JPN 26100 - Special Topics in Japanese Culture

Pluralism and Diversity
PD/A
GER
2/C

Examination of specific areas of classical or contemporary Japanese culture, such as film or literature, and the economic, political, and social conditions that shaped them.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

JPN 27100 - Japanese Reading: Recitation and Comprehension

This course is targeted at students looking to strengthen their skills in reading and comprehension of Japanese books and periodicals. Additionally, reading aloud will be required in order to improve students' pronunciation and intonation.

prereq: JPN 20100 (Intermediate Japanese I) or permission from the instructor
3 hrs
3 cr.

JPN 30100 - Advanced Japanese I

Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.
prereq: JPN 20200 or equiv.
3 hrs
3 cr.

JPN 30200 - Advanced Japanese II

Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.
prereq: JPN 30100 or equiv.
3 hrs
3 cr.

JPN 30300 - Special Topics in Japanese Culture

An in-depth examination of the key figures, social circumstances, politics, and various artistic forms that are integral to understanding Japan's traditions and culture.

prereq: ENGL 12000 and one 200- or 300-level JPN course
3 hrs
3 cr.
JPN 30300 - Special Topics In Traditional Japanese Culture

An in-depth examination of the key figures, social circumstances, politics, and various artistic forms that are integral to understanding Japan's traditions and culture.

*prereq: ENGL 12000 and one 200 or 300 level JPN course
3 hrs
3 cr.*

JPN 30400 - Special Topics in Japanese Language

Building on the foundational knowledge of grammar and writing taught in Japanese 10100-20200, this course will teach students ways to apply that knowledge to different areas including Japanese business, literature, news, and media. A primary aim of this course is to help students integrate and apply previous knowledge in real world contexts.

*prereq: JPN 20200
3 hrs.
3 cr.*

JPN 35100 - Advanced Japanese Conversation

This course is designed for students looking to gain fluency in speaking Japanese in formal and informal situations. Speaking regularly in class is expected. Kanji radicals will also be covered.

*prereq: JPN 20200 (intermediate Japanese II) or perm instructor
3 hrs
3 cr.*

JPN 40300 - Special Topics In Contemporary Japanese Culture

An in-depth examination of Japanese culture from 1900 to the present. Utilizing Japanese cultural theory, plays, manga, film, and performance writing, this course will examine the relationship of contemporary Japanese culture to shifts in the arenas of arts, society, economy, and politics.

*prereq: ENGL 12000 and one 200- or 300- level JPN course
3 hrs
3 cr.*

JPN 40400 - Advanced Special Topics in Japanese Language

This course offers an in-depth examination and analysis of the Japanese language through topics such as linguistics, translation, and pedagogy. All of the topics offered in this course are aimed to equip students with practical tools to understand and analyze various topics related to the Japanese language with the aim of use after graduation for employment, graduate studies, and/or study abroad.

*prereq or coreq: Any JPN 300 level class
3 hrs.
3 cr.*

JPN 42100 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.
prereq: Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.

1

JPN 42101 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.

prereq: Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.

RUSS 27100 - East European Cinema (W)

Pluralism and Diversity
PD/ D

The ways in which East European filmmakers have used the medium of cinema to explore history, culture, politics, and social issues prevalent in their respective societies, starting with the immediate post-World War II period and covering both the Communist era and post-Communist period. By the end of the course students will have acquired critical tools to provide an informed verbal and written analysis of the films and discuss how various aesthetic and ideological approaches to filmmaking inform the cinema practice over time. The course will combine screening of East European films and class discussion of issues raised in these films. All students are expected to complete the assigned readings of chapters in history books and other material prior to each class and print out questionnaires for class discussions posted on the course blackboard after the film screenings. Informed class participation is strongly encouraged and will positively affect your final term grade.
prereq: ENGL 12000. The exams in this course consist of essay writing.
3 hrs.
3 cr.

RUSS 29300 - Folklore in Translation: A Comparative Study

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A

Folklore of Australia, Oceania, Europe, Africa, North and South America and the Near East will be read in juxtaposition to Russian folklore.
prereq: ENGL 120
3 hrs
3 cr.

RUSS 29400 - Folklore and Literature (W)
Students will be introduced to basic concepts of literature and folklore to increase, through a comparative study, their understanding and appreciation of both art forms. Works in English of major Russian writers such as Pushkin, Gogol and Pilnyak will be read in juxtaposition with folklore genres in search of how literary texts mirror folklore subjects. European, African and South American literature and folklore will be introduced or comparative purposes.

**Programs and Courses in Comparative Literature**

**Comparative Literature**

**Overview**

The Department of Romance Languages at Hunter College offers a major in Comparative Literature.

**What can I do with my degree in Comparative Literature?**

The study of comparative literature prepares students for careers in teaching, interpreting, and translating, as well as those professions that recognize the importance of a broad humanistic education, including law and medicine.

**Programs and Courses**

Programs and Courses in Comparative Literature

**Honors**

Students are eligible for departmental honors if their GPA in the major is no less than 3.5. The student must also take at least 3 credits (but no more than 6 credits) in honors courses offered by the program and approved by the adviser. The offerings of the Comparative Literature Program are determined by the needs of students in the program and the faculty available. For specific information, consult the coordinator.

**Administration and Faculty**

Coordinator:
Undergraduate Major

Comparative Literature - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

</tbody>
</table>

Courses Required for the Major (33 credits)

All majors take a core course in methodology, but the remaining classes in a student's program are arranged with the coordinator in an effort to work out a balance between two different bodies of literature, two different literary periods, and two different genres. In addition to comparative literature courses in prose fiction, drama, myth and folklore, literary movements, and literature and the arts, majors may also elect appropriate classes from other literature departments, as well as from such disciplines as history, philosophy, art and anthropology, with the approval of the coordinator. Upon becoming a major, a student will, in consultation with the coordinator, choose one member of the comparative literature committee as an adviser and plan an individualized program. All majors are required to review their programs with their adviser once a semester.

The comparative literature major consists of 33 credits distributed as follows:
A. ENGL 22000

ENGL 22000 - Introduction to Writing about Literature (W)

B. Concentration in at least two periods and in two genres.

C. At least 9 credits in COMP-prefixed courses, beginning with the following

(all of these courses will be taught in English)

**COMPL 30100 - Seminar: Approaches to Comparative Literature**

Study of selected major works to demonstrate scope and various approaches of comparative literature. Focus on conscious imitation, treatment of similar themes, use of well-defined genres and conventions as well as of concepts from history of ideas. Emphasis on close reading of texts and development of critical vocabulary.

Required of all majors in comparative literature.

3 hrs

3 cr.

D. 21 credits in literature courses

distributed so that at least 12 credits are courses studied in the original language (be it a foreign language, if the student is proficient in that language, or English). Courses at the 300 level are strongly preferred, although exceptions may be granted by the adviser.

**Honors**

Students are eligible for departmental honors if their GPA in the major is no less than 3.5. The student must also take at least 3 credits (but no more than 6 credits) in honors courses offered by the program and approved by the adviser. The offerings of the Comparative Literature Program are determined by the needs of students in the program and the faculty available. For specific information, consult the coordinator.

**Degree Map for Comparative Literature**

Degree Map for Comparative Literature

**COMPL 30100 - Seminar: Approaches to Comparative Literature**

Study of selected major works to demonstrate scope and various approaches of comparative literature. Focus on conscious imitation, treatment of similar themes, use of well-defined genres and conventions as well as of concepts from history of ideas. Emphasis on close reading of texts and development of critical vocabulary.

Required of all majors in comparative literature.

3 hrs

3 cr.

**COMPL 32000 - Comparative Studies in Prose Fiction**
May be taken more than once when content varies.

3 hrs
3 cr.

COMPL 32100 - Comparative Studies in Prose Fiction

May be taken more than once when content varies.

3 hrs
3 cr.

COMPL 33000 - Comparative Studies in Drama

May be taken more than once when content varies.

3 hrs
3 cr.

COMPL 33100 - Comparative Studies in Drama

May be taken more than once when content varies.

3 hrs
3 cr.

COMPL 34000 - Perspectives on Literature and the Arts

May be taken more than once when content varies.

3 hrs
3 cr.

COMPL 34100 - Perspectives on Literature and the Arts

May be taken more than once when content varies.

3 hrs
3 cr.

COMPL 35000 - Comparative Studies in Literary Movements

May be taken more than once when content varies.

3 hrs
3 cr.

COMPL 35100 - Comparative Studies in Literary Movements

May be taken more than once when content varies.

3 hrs

**Programs and Courses in Computer Science**

**Computer Science**

**Overview**

The Department of Computer Science offers a comprehensive Bachelor of Arts degree in computer science. The core objectives of our curriculum are to:

- Provide a broad base in the design, implementation and application of computer software systems; a firm grasp of the essentials of computer architecture; and a solid foundation in the theoretical aspects of computer science;
- Prepare undergraduates for life after graduation in careers in business, government, and the computer industry or in the pursuit of graduate studies, and;
• Expose students to the excitement and challenge of computing technologies and theory through a variety of advanced topics courses and close participation with faculty in cutting-edge research.

What can I do with my degree in Computer Science?

The Department of Computer Science provides students with outstanding preparation both for employment as computer professionals and for graduate study. Students use a spectrum of programming languages and machine architectures and are expected to construct creative solutions to challenging problems in a variety of contexts. In addition, students are educated in the mathematics of computer science — the theoretical foundations that support current technology and will guide its future development.

Computer Science - BA

Return to: Programs of Study

Return to: Computer Science BA Programs

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Computer Science, the course that meets CCCR is:

CSCI 12700 - Introduction to Computer Science (STEM)

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (40-64 credits)

The computer science major consists of 40-50 credits in CSCI courses and 0-13 credits in MATH/STAT courses.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Students may obtain Credit by Examination for CSCI 12700, CSCI 13500 and CSCI 15000. See the Computer Science department for details.
Please note that the department of Computer Science does not accept Cr/NC grades in courses required for the Major. All computer science majors (except those following requirements for the Computer Science with Concentration in Bioinformatics - BA) must complete successfully the following courses with a grade of C or better:

Required Math Courses (0-13 credits)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.*

2 hrs

1 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**

**Hunter Core**

Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

*prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.*

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs

4 cr.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

*prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.*
MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

Computer Science Requirements (28-39 credits)

CSCI 12700 - Introduction to Computer Science (STEM)

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

CSCI 15000 - Discrete Structures

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

CSCI 13500 - Software Analysis and Design I

This course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language.

prereq: CSCI 12700 or equivalent and; MATH 12400, or 12500, or 12550, or 15000, or 15200, or 15500.

4 hrs (3 Lec. 1 Rec.)
4 cr.
**MATH 16000 - Matrix Algebra**

**GER**
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

*prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam*

3 hrs
3 cr.

**CSCI 16000 - Computer Architecture I**

**GER**
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

*prereq: CSCI 12700, CSCI 15000*

3 hrs
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

*prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam*

3 hrs
3 cr.

**CSCI 23500 - Software Analysis and Design II**

**GER**
3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

*prereq: CSCI 13500, 15000; MATH 15000*

3 hrs
3 cr.

**CSCI 26000 - Computer Architecture II**

**GER**
3/B
Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.

*prereq: CSCI 13500, 16000 or 24500; MATH 15000*  
3 hrs  
3 cr.

**CSCI 26500 - Computer Theory I**

**GER**  
3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

*prereq: CSCI 16000 or 14500; MATH 15000*  
3 hrs  
3 cr.

**CSCI 33500 - Software Analysis and Design III**

**GER**  
3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

*prereq: CSCI 23500, MATH 15500*  
3 hrs  
3 cr.

**CSCI 34000 - Operating Systems**

**GER**  
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

*prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300*  
3 hrs  
3 cr.

**CSCI 49900 - Advanced Applications: A Capstone for Majors**

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

*prereq: All non-elective courses in Computer Science required for graduation or permission of instructor.*  
4 hrs  
4 cr.

**Electives (12 credits)**
*These courses may be counted for credit in more than one program.

**Honors**

To graduate from Hunter College with honors in computer science, a student must have at least a 2.7 GPA overall and a 3.5 GPA or better in computer science/math and a grade of A in one of the CSCI 49300 series of courses.

**Additional Information**

The Computer Science Department will not accept a CR grade in any of the preliminary or required courses for the major (CSCI 13500, CSCI 15000, CSCI 16000, CSCI 23500, CSCI 26000, CSCI 26500, CSCI 33500, CSCI 34000, CSCI 36000). Any student wishing to declare computer science as a major who has received a grade of CR in any of the CSCI courses listed above, must ask the instructor of that course to change the CR grade to the appropriate letter grade. This must be done before the declaration of major form can be authorized.

*Please note: A grade of "D" is not considered a passing grade by this department for any of the computer science or math courses required for the major.*

**Degree Map**

Degree Map for Computer Science

**Computer Science BA Programs**

Return to: Programs of Study

The Department of Computer Science offers two major programs:

- Computer Science - BA
- Computer Science with Concentration in Bioinformatics - BA

**The BA in Computer Science**

Provides a broad base in the design, implementation and application of computer software systems; a firm grasp of the essentials of computer architecture; and a solid foundation in the theoretical aspects of computer science;

Prepares undergraduates for life after graduation in careers in business, government, and the computer industry or in the pursuit of graduate studies, and;

Exposes students to the excitement and challenge of computing technologies and theory through a variety of advanced topics courses and close participation with faculty in cutting-edge research.

**The BA in Computer Science with a Concentration in Bioinformatics**

In addition to the core objectives cited above, provides a fundamental understanding of the most important aspects of quantitative and computational biology, including a solid background in biology, chemistry, mathematics, statistics and computer science, with an emphasis on quantitative reasoning.
This course of study will provide computer science majors with a fundamental understanding of the most important aspects of quantitative and computational biology, including a solid background in biology, chemistry, mathematics, statistics, and computer science, with an emphasis on quantitative reasoning. Students opting to concentrate in bioinformatics are not required to take CSCI 26000, and CSCI 36000. Instead of 15 credits of 300-level and 400-level electives, the following requirements must be met:

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Computer Science, the course that meets CCCR is: CSCI 12700 (Scientific World). Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major (57-85 credits)**

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students may obtain Credit by Examination for CSCI 12700, CSCI 13500 and CSCI 15000. See Computer Science department for details. Please note that the department of Computer Science does not accept Cr/NC grades in courses required for the Major.

**I. Introductory Math Courses (0-9 credits)**

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.*

2 hrs

1 cr.
MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

Introductory Computer Science Courses (0-7 credits)

CSCI 12700 - Introduction to Computer Science (STEM)

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

CSCI 13500 - Software Analysis and Design I

This course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language.
II. Students must obtain a grade of C or better in the following courses:

A. Computer science component (21-25 credits)

**CSCI 15000 - Discrete Structures**

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

*prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500*

4 hrs (3 Lec. 1 Rec.)
4 cr.

**CSCI 16000 - Computer Architecture I**

**GER**
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

*prereq: CSCI 12700, CSCI 15000*

3 hrs
3 cr.

**CSCI 23500 - Software Analysis and Design II**

**GER**
3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

*prereq: CSCI 13500, 15000; MATH 15000*

3 hrs
3 cr.

**CSCI 26500 - Computer Theory I**

**GER**
3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

*prereq: CSCI 16000 or 14500; MATH 15000*

3 hrs
3 cr.
CSCI 33500 - Software Analysis and Design III

GER
3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

prereq: CSCI 23500, MATH 15500
3 hrs
3 cr.

CSCI 34000 - Operating Systems

GER
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300
3 hrs
3 cr.

CSCI 43500 - Database Management

GER
3/B

Hierarchical and network databases; theory of relational databases; normalization theory; query languages.

prereq: CSCI 33500
3 hrs
3 cr.

CSCI 49369 - Big Data Technology

The increasing availability of big data has changed fundamental practices in business, health care, policy making, and scientific research. The primary objective of this course is to enable students to efficiently process, manage, reformulate, and mine an extremely large data set. This is an interdisciplinary course that considers data from many different sources. Students are welcome to work with their own interested domains in addition to the required ones.

prereq: CSCI 13500 and CSCI 23200 or CSCI43500, or permission of the instructor
3 hrs
3 cr.

B. Math and statistics component (9-17 credits)

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**prereq:** grade of C or better in MATH 15000

4 hrs
4 cr.

**MATH 16000 - Matrix Algebra**

**GER**  
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

**prereq:** MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

**prereq:** MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs
3 cr.

**STAT 31900 - Bayesian Statistical Inference in the Sciences**

**GER**  
3/B

Fundamental principles and techniques of probability, statistical inference and data analysis, as pertains to the sciences,

prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).
Prerequisites waived for students who have passed STAT 311.
Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.

3 hrs
3 cr

C. Biology component (12 credits)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

BIOL 42500 - Computational Molecular Biology
An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

 prerequisites: B IOL 30000 or B IOL 30200 or CHEM 37600; S TAT 21300; C S CI 13200 or C S CI 23500 or UNIX proficiency permitted by instructor.

3 hrs

3 cr.

D. Chemistry component (15 credits)

CHEM 10200 (STEM) - General Chemistry I

 Hunter Core
 Scientific World (SW); Life and Physical Sciences (LPS)
 GER 2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

 prerequisites or corequisites: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec)

4 cr.

CHEM 10400 (STEM) - General Chemistry II

 Hunter Core
 Life and Physical Sciences (LPS) Scientific World (SW)
 GER 2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

 Primarily for premed, medical laboratory sciences and science majors.

 prerequisites: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)

4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

 Hunter Core
 Life and Physical Sciences (LPS); Scientific World (SW)
 Pluralism and Diversity
 GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general
chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200
*coreq: CHEM 10400
6 hrs
3 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

*These courses may be counted for credit in more than one program.

**Degree Map**

Degree Map for Computer Science: Bioinformatics

**Undergraduate Minor**

**Minor in Computer Science**

A minor in Computer Science consists of 13-14 credits of coursework. These credits include the following required courses:

- CSCI 12700 - Introduction to Computer Science (STEM) (3 credits, 3 hours)
- CSCI 13300 - Programming for Everyone (3 credits, 3 hours)
- CSCI 23200 - Relational Databases and SQL Programming, with Lab (3 credits, 3 hours)
- CSCI 23300 - Programming Projects Seminar for Minors (1 credit, 2 hours)

In addition, students will be required to take at least one 3 credit elective selected from Computer Science offerings numbered 13500 or above. Although minors may take any Computer Science course numbered 13500 or above, courses that require only one or more of the above courses as prerequisites include:

- CSCI 13500 - Software Analysis and Design I (4 credits, 5 hours)
- CSCI 15000 - Discrete Structures (4 credits, 4 hours)
- CSCI 26700 - Microprocessors and Embedded Systems (3 credits, 3 hours)
- CSCI 16000 - Computer Architecture I (3 credits, 3 hours)

**Computer Science**

**CSCI 11500 - Computer Technology in Childhood Education**
Open only to students in QUEST program. Students learn to use a number of software tools and applications that can be infused into the curriculum of the elementary school. Includes a focus on information retrieval using Internet resources and use of such application packages as Miosoft Excel, Miosoft Power Point, Inspiration and Timeliner.

**prereq or coreq:** QSTA 40000

3 hrs (1 lec, 2 lab)

2 cr.

### CSCI 12000 - Introduction to Computers

**Hunter Core**

Scientific World (SW)

**GER**

2/E

Intended for non-majors. Basic concepts of computer technology. Principles of hardware operation, software and networking. Roles of computers in society, including ethical and legal issues.

This course cannot be counted towards the CSCI major.

**prereq:** none

3 hrs

3 cr.

### CSCI 12100 - Computers and Money: Quantitative Reasoning in Context

**Hunter Core**

Math and Quantitative Reasoning (MQR)

**GER**

1/B

Quantitative reasoning tackled from a computer based perspective and focusing on practical financial topics-stocks, gambling, inflation, diversification, taxes, hedging, saving, real estate, retirement and others. Students take a hands-on, spreadsheet-based approach to understanding issues of money and personal finance.

This course cannot be counted towards the CSCI major.

**prereq:** none

3 hrs

3 cr.

### CSCI 12700 - Introduction to Computer Science (STEM)

**Hunter Core**

Scientific World (SW)

**GER**

2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)

3 cr.
CSCI 13200 - Practical UNIX and Programming, with Lab

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.

This course cannot be counted towards the CSCI major.

prereq: none
3 hrs
3 cr.

CSCI 13300 - Programming for Everyone

Hunter Core
Scientific World (SW)
GER
2/E

A comprehensive practical course in programming that concentrates on producing working software for games, simulations, animations, data manipulations, interacting with the Internet, graphical user interfaces and many other application areas. No programming experience is necessary. This course is required for Computer Science minors. This course does not count toward the computer science major.

3 hrs
3 cr.

CSCI 13500 - Software Analysis and Design I

This course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language.

prereq: CSCI 12700 or equivalent and; MATH 12400, or 12500, or 12550, or 15000, or 15200, or 15500.
5 hrs (3 hours lecture, 2 hours recitation)
4 cr.

CSCI 15000 - Discrete Structures

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500
4 hrs (3 Lec. 1 Rec.)
4 cr.

CSCI 16000 - Computer Architecture I
Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

prereq: CSCI 12700, CSCI 15000
3 hrs
3 cr.

CSCI 17200 - Topics in Creative Problem Solving

CSCI 172 is a pass/fail (CR/NC) faculty-supervised workshop that meets ten times per semester. Each workshop explores a different applied topic in computer science. An undergraduate peer leader presents slides, guides discussions, and engages the participants in activities that emphasize collaborative problem solving. This course explores the role of teamwork and in-class activities to improve student retention, with particular interest in underrepresented populations in computer science.

Special conditions: The course meets 10 times for 1 hour 15 minutes (75 minutes). Adjusted for credit hours, the semester total is the 15 hours required for a 1-credit course. The class meets on the bell schedule for ten 75-minute sessions per semester. The special conditions are that CSCI 172 meets once rather than twice a week and meets during only ten of the 15 weeks of the semester.
1 hr
1 cr.

CSCI 18100 - Independent Workshop

Outside internship in practical aspects of computing; e.g., systems programming, biomedical computing, computer-aided instruction.

Credits may not be used toward the computer science major.
prereq: declared computer science major with 18 credits completed in the department
1-3 hrs
1-3 cr.

CSCI 18200 - Independent Workshop

Outside internship in practical aspects of computing; e.g., systems programming, biomedical computing, computer-aided instruction.

Credits may not be used toward the computer science major.
prereq: declared computer science major with 18 credits completed in the department
1-3 hrs
1-3 cr.

CSCI 18300 - Independent Workshop

Outside internship in practical aspects of computing; e.g., systems programming, biomedical computing, computer-aided instruction.

Credits may not be used toward the computer science major.
prereq: declared computer science major with 18 credits completed in the department
1-3 hrs
1-3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab
An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

**prereq:** CSCI 12700 or CSCI 13200

3 hrs

3 cr.

**CSCI 23300 - Programming Projects Seminar for Minors**

This course will serve as a capstone for the minor, affording students the opportunity to write reasonably large and complex programs. Students will be expected to draw topics for these programs from their majors or other areas of interest. This course does not count toward the computer science major.

**prereq or coreq:** CSCI 13300 and 23200 and a declared Computer Science Minor.

2 hrs

1 credit

**CSCI 23500 - Software Analysis and Design II**

**GER**

3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

**prereq:** CSCI 13500, 15000; MATH 15000

3 hrs

3 cr.

**CSCI 24500 - Computer Architecture II**

**GER**

3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

**prereq:** CSCI 145, CSCI 150, MATH 150

3 hrs

3 cr.

**CSCI 26000 - Computer Architecture II**

**GER**

3/B

Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.

**prereq:** CSCI 13500, 16000 or 24500; MATH 15000
CSCI 26500 - Computer Theory I

GER
3/B
Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.
prereq: CSCI 16000 or 14500; MATH 15000
3 hrs
3 cr.

CSCI 26700 - Microprocessors and Embedded Systems

GER
3/B
Students will assemble and program a small single board computer to control, or simulate control of, some device.
prereq: CSCI 13300 or 26000
3 hrs
3 cr.

CSCI 27500 - Symbolic Logic

Sentential logic including symbolizations, truth-value tables, formal derivations. Predicate logic including symbolizations, interpretations, and formal derivations.
cross-listed MATH 27500, PHILO 27500
3 hrs
3 cr.

CSCI 33500 - Software Analysis and Design III

GER
3/B
The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.
prereq: CSCI 23500, MATH 15500
3 hrs
3 cr.

CSCI 34000 - Operating Systems

GER
3/B
Definition of functions and components of operating systems. Survey of contemporary multiprocessing/
multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

*prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300*

3 hrs

3 cr.

**CSCI 35000 - Artificial Intelligence**

**GER**

3/B

A survey of artificial intelligence including search and control, knowledge representation, logic and theorem proving, learning, natural language and AI programming.

*prereq: CSCI 235*

3 hrs

3 cr.

**CSCI 35300 - Machine Learning**

Machine learning is the subfield of artificial intelligence that learns to predict and classify from data. This interdisciplinary course explores how a machine learns to predict and classify.

*prereq: Prerequisites: CSCI 23500 and CSCI 15000, or permission of the instructor*

3 hrs.

3 cr.

**CSCI 35500 - Introduction to Linear Programming**

**GER**

3/B

Introduction to operations research and game theory. Simplex method; inconsistency, redundancy and degeneracy problems; two-phase method; duality; transportation problems.

*prereq: CSCI 235, MATH 160*

3 hrs.

3 cr.

**CSCI 36000 - Computer Architecture III**

**GER**

3/B

High performance computer architectures, including massively parallel SIMD and MIMD machines and distributed architectures.

*prereq: CSCI 26000 or 24500; MATH 15500*

3 hrs

3 cr.

**CSCI 36500 - Computer Theory II**

**GER**

3/B
Turing machines, Post machines, Post's theorem, Minsky's theorem. Determinism and non-determinism.
Undecidability, the halting problem. Recursive function theory.

**prereq:** CSCI 265
3 hrs
3 cr.

**CSCI 37100 - Advanced Symbolic Logic**

A survey of the central results and techniques of meta-logic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem theorem and Church's theorem on undecidability.

*cross-listed PHILO 37500*

**prereq:** PHILO 27500 or CSCI 27500 or MATH 27500
3 hrs
3 cr.

**CSCI 37200 - Logic and Computers**

This course introduces students to logic and its applications to modeling both computer and real-world systems. Topics include various logics and their applications to modeling systems and reasoning for artificial intelligence, along with proof systems and tools for automated or semi-automated reasoning in these logics.

*cross-listed MATH 37200 / PHILO 37200*

**prereq:** CSCI 15000 or PHILO/CSCI/MATH 27500
3 hrs
3 cr.

**CSCI 37700 - Non-classical Logic**

Logic is the systematic and precise study of reasoning—a topic of particular interest to mathematicians and computer scientists as well as philosophers. Philosophers have often functioned as the research and development wing of this collaboration, thinking up and formalizing new logical techniques and systems designed to solve problems that can't be solved by traditional (a.k.a. "classical") logic. This course will be an introduction to some of these non-classical logics, their philosophical motivations, and some of their applications.

*cross-listed PHILO 37700, MATH 37700*

**prereq:** PHILO 27500 or MATH 27500 or CSCI 27500
3 hrs
3 cr.

**CSCI 39100 - Independent Study in Computer Science**

**GER**

3/B

Independent work, under the direction of a faculty member, in practical aspects of computing. CSCI 39100 is repeatable up to a total of 6 credits; however, no more than a total of three Independent Study credits may be used toward the computer science major.

**prereq:** declared Computer Science major; perm instr. and dept.
1-3 hrs
1-3 cr.

**CSCI 39200 - Independent Study in Computer Science**
Independent work, under the direction of a faculty member, in practical aspects of computing.

**CSCI 39300 - Independent Study in Computer Science**

3 hrs
3 cr.

**CSCI 39400 - Topics in Computer Science**

An introduction to programming in Python, Perl and PHP.

**CSCI 39500 - Topics in Computer Science**

Topics include internet security, web programming, genetic algorithms, expert systems and others. Prerequisites vary with specific topics and are announced prior to registration.

**CSCI 40500 - Software Engineering**

Problems in large-scale software development including functional analysis of information processing systems, system design concepts, timing estimates, documentation and system testing.

**CSCI 41500 - Data Communications and Networks**
A broad technical introduction to the components, protocols, organization, industry and regulatory issues that are fundamental to the understanding of contemporary computer networks.

**CSCI 43500 - Database Management**

Hierarchical and network databases; theory of relational databases; normalization theory; query languages.

**CSCI 45000 - Language Translation**

The theory and application of language recognition and analysis techniques, as they pertain to both formal programming languages and to natural languages. Includes lexical, syntactic and semantic analysis methods, as well as discussions of efficient data representation.

**CSCI 46000 - Advanced Programming Languages**

Survey course on the design and implementation of modern programming languages. Includes object-oriented, functional, logic and concurrent/distributed paradigms.

**CSCI 49300 - Honors Seminar**

Topics include Unix systems programming, computer law, 3D vision, Windows programming, neural networks, speech and language processing, fuzzy systems and other areas. Prerequisites vary with specific topics and are announced prior to registration.
CSCI 49366 - UNIX System Programming

GER
3/B

An introduction to the key components of the UNIX application programming interface, including files, processes, terminal control, signals, interprocess communication, the ncurses library, and multi-threading. Includes basic of the internal structure of the UNIX operating system, and selected user-level utilities and commands for efficient programming and working in UNIX.

prereq or coreq: CSCI 23500, 34000
3 hours
3 credits

CSCI 49369 - Big Data Technology

The increasing availability of big data has changed fundamental practices in business, health care, policy making, and scientific research. The primary objective of this course is to enable students to efficiently process, manage, reformulate, and mine an extremely large data set. This is an interdisciplinary course that considers data from many different sources. Students are welcome to work with their own interested domains in addition to the required ones.

prereq: CSCI 13500 and CSCI 23200 or CSCI43500, or permission of the instructor
3 hrs
3 cr.

CSCI 49600 - Supervised Research

Supervised work under the direction of a faculty member on an original research project. Although student-initiated projects are acceptable, in most cases students will be expected to work within a faculty member's active research area. These courses are repeatable. However, no more than a total of nine (9) Supervised Research credits may be counted toward the computer science major.

prereq: declared Computer Science major, perm instr. and dept.
1-3 hrs
1-3 cr.

CSCI 49700 - Supervised Research

Supervised work under the direction of a faculty member on an original research project. Although student-initiated projects are acceptable, in most cases students will be expected to work within a faculty member's active research area. These courses are repeatable. However, no more than a total of nine (9) Supervised Research credits may be counted toward the computer science major.

prereq: declared Computer Science major, perm instr. and dept.
1-3 hrs
1-3 cr.

CSCI 49800 - Supervised Research

Supervised work under the direction of a faculty member on an original research project. Although student-initiated projects are acceptable, in most cases students will be expected to work within a faculty member's active research area.
These courses are repeatable. However, no more than a total of nine (9) Supervised Research credits may be counted toward the computer science major.

*prereq:* declared Computer Science major, perm instr. and dept.

1-3 hrs  
1-3 cr.

**CSCI 49900 - Advanced Applications: A Capstone for Majors**

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

*prereq:* All non-elective courses in Computer Science required for graduation or permission of instructor.

4 hrs  
4 cr.

**SCI 11100 - Brains, Minds, and Machines**

**Hunter Core**  
Scientific World (SW)

This course addresses current knowledge about how human brains, human minds, and artificially intelligent machines think. Students will learn about groundbreaking work that will provide insight into people, the apps they rely on, and the robots in their future. Highly recommended for students considering any science major, and for students interested in problem solving.

3 hrs  
3 cr.

**Programs and Courses in Dance**

**Dance**

**Overview**

The Hunter College Dance Department offers an opportunity to pursue a BA degree in dance with in the context of a strong liberal arts education. From a campus in the heart of New York City, the dance major or minor student has the unique opportunity of interfacing with many professional dance companies, choreographers and researchers who live and work in New York. The contemporary dance-based curriculum provides the student with the opportunities to pursue careers in performance, choreography, teaching, arts administration and production and is unique in its focus on individual creativity and reflection. All dance majors are required to choreograph, perform, and participate actively in the close-knit artistic community. The curriculum is enriched by community outreach performances, repertory classes with New York-based choreographers, guest artist workshops, and internship opportunities. Through our collaboration with Hunter's School of Education, students can also pursue BA or BA/MA degrees in Dance Education, leading to initial certification as a teacher in New York State.

**What can I do with my degree in Dance?**

Our curriculum provides students with a strong foundation that can lead to professional careers for performers, creators, scholars, educators, and arts advocates.

Undergraduate Major

Dance - BA

The BA in Dance at Hunter is open to all students who have been admitted to Hunter College. To be declared a BA Dance Major, students must be admitted into DAN 21500 Ballet 1 or DAN 21000 Contemporary Dance Technique I or higher as determined by placement audition open to all students. The student will meet with the adviser in the Dance Department as soon as they qualify for level 1 technique or higher and every semester thereafter. All Dance majors are required to earn 42 credits minimum in DAN courses and complete all requirements including:

- Be registered in at least one dance technique course every semester in order to remain a Dance major in good standing, unless granted exemption by the department;
- Perform in a minimum of 2 student choreographed pieces during their studies at Hunter College;
- Earn a C grade or better in all courses required for the major (grades below C will not count toward the major.)

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose
courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement. In the case of the dance major, the courses that meet CCCR are:

DAN 10200 Dance, Dancers and the Audience
DAN 23200 20th-Century Dance History

Courses Required for the Major (42-46 credits)

The BA Dance Degree Curriculum is divided into 4 areas of study:

- Dance Technique and Performance (20-24 credits minimum)
- Creative work: Improvisation, choreography, performance (11 credits)
- Dance Studies (8 credits)
- Electives (3 credits)

1. Dance Technique and Performance (20-24 credits)

- Must complete four credits minimum of any style at level I (or the appropriate level for the ability of the student as determined in the placement class) (4)
- Must complete four credits of dance technique any style in level 3.
- Must complete eight credits of dance technique any style at level I or higher (8)
- Must complete two credits of Repertory DAN 43200 (1) and DAN 43300 (1)
- Students who do not place into a dance technique level 1 class must take DAN 10100 Fundamentals of Contemporary Dance Technique and/or DAN 10500 Fundamentals of Ballet (0-3)

2. Creative Work (11 credits)

- DAN 12400 Production Crew (.5 x 2)*
- DAN 22100 Improvisation (1)
- DAN 22400 Stagecraft (1)
- DAN 32100 Composition I (2)
- DAN 42100 Composition II (2)
- DAN 42200 Dance Workshop (2)
- DAN 42400 Production (2)
*Please note that DAN 12400 Production Crew must be taken twice to complete the major.

3. Dance Studies (8 credits)

- DAN 21300 Basic Musicianship for Dancers (2)
- DAN 23200 20th-Century Dance History (3)
- DAN 35000 Anatomy and Kinesiology for Dancers (3)

4. Electives (3 credits)*

Dance Technique Electives
• DAN 15100 Global Dance 1
• DAN 25100 Global Dance 2
• DAN 25200 Special Topics: Traditional Dance I
• DAN 35200 Special Topics: Traditional Dance II

Other Electives

• DAN 34200 Teaching Dance
• DAN 25500 Dance Pedagogy
• DAN 46100 Seminar in Dance
• DAN 48000 Independent Study in Dance
• DAN 49000 Honors in Dance
• DAN 49800 Internship

*Dance Technique and Creative Work courses are repeatable for elective credit.

Note: All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Teacher Education Pathway

Students planning to teach this subject in grades PreK-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Degree Map for Dance BA

Degree Map for Dance

Degree Map for Dance

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate with a Dance major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

**ENGL 12000 - Expository Writing**

*Hunter Core

English Comp (EC)

GER*
Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

**prereq:** successful completion of developmental courses, if required

3 hrs + conf

3 cr.

DAN 10100 - Fundamentals of Contemporary Dance Technique

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**prereq:** minimum 12 cr.

3 hrs

2 cr.

- **HCR - Math & Quantitative Reasoning**
- **Foreign Language - Elementary Level I**
- **HCR - Life and Physical Sciences**

Spring

ENGL 22000 - Introduction to Writing about Literature (W)

**Hunter Core**

English Comp (EC)

**GER**

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

**prereq:** ENGL 12000

3 hrs + one additional conference hour

3 cr.

DAN 10100 - Fundamentals of Contemporary Dance Technique

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**prereq:** minimum 12 cr.

3 hrs

2 cr.

DAN 10500 - Fundamentals of Ballet

Introduction to fundamental skills and nomenclature of ballet. May be taken three times for credit with permission of the department.
4 hrs
2 cr.
- ICR - US Experience in its Diversity
- Foreign Language - Elementary Level II
- ELECTIVE

Sophomore Year

Fall

DAN 21000 - Contemporary Dance Technique I

GER
3/A

Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken twice for credit with permission of the department.

prereq: DAN 10100, perm dept., placement class
4 hrs
2 cr.

DAN 21300 - Basic Musicianship for Dancers

GER
3/A

Basic music theory in relation to dance. Development of auditory and kinesthetic understanding of melody, rhythm and harmony through movement. Open only to Dance majors and minors.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 21000
3 hrs
2 cr.

DAN 22100 - Improvisation

GER
3/A

Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential. May be taken 3 times for credit with permission of department.

prereq: Declaration of Dance Major or Dance Minor
4 hrs
1 cr.

of individual styles and cultural trends. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

3 hrs
3 cr.

DAN 25500 - Dance Pedagogy

The course traces the history of teaching dance in studios, dance schools, academies, public schools, arts schools, and in higher education in the US and internationally and explores the different kinds of programs that exist today. The course will discuss and observe differing teaching methodologies. Students will read, observe and comment on teachers, as well as present their thoughts about the pedagogy of Dance.

prereq: DAN 31000 and/or DAN 24500
4 hrs
2 cr.

DAN 34200 - Teaching Dance

Teaching Dance will be a combination of a lab and lecture course. Readings from the field will include the methodologies of teaching different genres for different populations. Students will present in class three times per semester. They will also perform extensive field work observing and interviewing teachers, studio owners, directors of professional training programs, etc.

prereq: DAN 31000 and/or DAN 24500
4.5 hrs
3 cr.

DAN 35000 - Anatomy and Kinesiology for Dancers

GER
3/A

Anatomy of skeletal, muscular and neuromuscular systems; anatomical analysis of basic movement; application of anatomical information to proper and successful performance of dance.

prereq or coreq: any course in DAN
3 hrs
3 cr.

DAN 46100 - Seminar in Dance

GER
3/A

Survey of dance careers, grant writing, arts administration, resume writing and relevant topics related to the socio-political climate of our times in relation to art. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 31000, DAN 32100
3 hrs
3 cr.
DAN 48000 - Independent Study in Dance

GER
3/A

In-depth study in area of special interest for qualified students under direction of faculty adviser. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 15 dance received at Hunter, major GPA 3.0, overall GPA 2.5. Open to dance majors and minors only.
3-9 hrs
1-3 cr.

DAN 49000 - Honors in Dance

GER
3/A

Open to Jr/Sr Dance majors only. Individual study leading to completion of honors essay or production book in creative performance. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 18 dance, major GPA 3.5, overall GPA 2.8
hrs TBA
1-3 cr.

DAN 49800 - Internship

GER
3/A

Open to dance majors with 15 credits in dance from Hunter. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 32400
hrs TBA
3-6 cr.

Programs and Courses in Economics

Economics

Overview

The department has two undergraduate programs, a BA in Economics and a BS in Accounting, as well as a BA/MA in Economics. All three programs equip students with analytic tools that can be applied in many different careers in both the private and public sectors.
Economics

Economics students become problem solvers. They learn to analyze a situation, figure out what is important and determine what can be abstracted away. The economics curriculum stresses the development of general problem-solving skills: finding, gathering and interpreting information; predicting the consequences of decisions; evaluating alternative courses of action; and analyzing the management of resources in both the public and private sectors. At the same time, economics students learn about the institutions and rules that shape daily life — the monetary system, the stock and bond markets and the regulatory system that mandates warning labels on cigarette packs and seat belts in automobiles.

What can I do with an Economics Degree?

While an undergraduate major in economics does not define the career a graduate may ultimately lead, it provides students with a point of view and a set of skills that will be useful in almost any path taken after graduation. A major in economics is especially valuable for those who plan careers in finance, management, law, journalism, or public policy. Many professional economists also enter government at the federal, state, or local level, either in research or policy-making positions. Still others are involved in teaching and research in colleges and universities.

Accounting

Accountants specialize in measuring, reporting and interpreting the financial aspects and transactions of businesses, governments, non-profits and other institutions. Accounting provides the information necessary to determine and evaluate both present and projected economic activities of organizations. Professional accountants develop and apply their skills in auditing, taxation, management policy, information systems, computer operations and many other areas.

What can I do with an Accounting Degree?

Nearly half of all accounting graduates are employed by public accounting firms. Others work for private firms, engage in research and consulting, practice in the government sector or with non-profit entities, or continue their education on the graduate level.

Programs and Courses

Programs and Courses in Economics

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

Internships
Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the department, to identify internship opportunities.

**Faculty**

Economics and Accounting

**HEGIS Codes:** 2204 (Economics), 0502 (Accounting)

**Undergraduate Major**

**Accounting-BS**

The degree of bachelor of science (accounting) offered at Hunter College fulfills educational requirements for the CPA examination in New York State. Candidates pursuing licensure in New York State will need to complete 150 college credits including ACCP 49000 - Accounting & Auditing Research. An appropriate masters degree, while not required,
is another path to licensure. For information on the MS in Accounting at Hunter College, see the Hunter College Graduate Catalog. All students contemplating a career in accounting should request an interview with the accounting program adviser during the lower freshman term. To assure completion of the BS (accounting) degree within four years, a full-time student should begin the accounting major sequence in the upper freshman term, if possible, and no later than the lower sophomore term, by registering for ACC 27100.

**Hunter Core Requirement**

Note: Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the accounting major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15000</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>ECO 20000</td>
<td>Scientific World</td>
</tr>
<tr>
<td>ECO 20100</td>
<td>Individual and Society (I&amp;S SS)</td>
</tr>
</tbody>
</table>

*Please note that no more than two courses from any one department will count for the CUNY Common Core.*

**Accounting Major**

The Department of Economics offers a major leading to the BS in accounting, requiring a minimum of 35 credits of accounting, 36 credits of other professional studies and an additional 3-13 credits of non-professional studies. Details are outlined below.

**Progression in the Major**

All courses that are prerequisites to courses required by the BS Program in Accounting must be passed with a grade of C, or CR, or better before students may progress to the next course in the sequence and in order to graduate. ECO 22100 is required for the major and must be completed with a grade of C, CR or better to be accepted for credit toward fulfillment of the major.

**Courses Required for the Major (74-84 credits)**

**Non-professional Studies (3 -13 cr)**

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*
4 hrs (2 lec, 2 lab)
3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.*

2 hrs
1 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**

**Hunter Core**
Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

*Note: This course is equivalent to MATH12500 for grade replacement purposes.*

*prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test. Not open to students who have taken MATH 12500 or MATH 12550.*

4 hrs
4 cr.

-and-

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

*prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.*

2 hrs
1 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning

GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

MATH 15200 (STEM) - Calculus for Life and Social Sciences

Limits, continuity and the derivative. The power rule, product and quotient rules, the chain rule, and implicit differentiation. The Mean Value Theorem and the Intermediate Value Theorem. Curve sketching and optimization, and linear approximation. Riemann integral and the Fundamental Theorem of Calculus. Various applications to economics, life sciences, and physical sciences. Students will not be allowed to obtain credit for both MATH 15200 and MATH 15000 (STEM). Students planning on taking more than one semester of calculus should take MATH 15000 (STEM) instead.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, and coreq MATH 14000; or appropriate score on placement exam.

Note:

Note: ECO 22000 Techniques of Economic Analysis may also be used to fulfill the calculus requirement.

IMPORTANT: Students who wish to take higher levels of Calculus are advised to take MATH 15000 (STEM) to satisfy the calculus requirement.

Additional Information

Majors are advised to complete MATH 15000 (STEM) (or MATH 15200 (STEM)) and ECO 22100 within their first 75 credits of college work. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major. The department may waive the requirement of any of the above or other courses upon satisfactory proof of course equivalency. Courses waived through substitution or examination do not provide course credit nor do they count toward the major.

Students may place out of MATH 10100, MATH 101EN, MATH 10150, MATH 12400 (STEM), MATH 12500 (STEM), MATH 12550 (STEM), MATH 14000 and MATH 12500 (STEM) requirements without replacing the credits. See the Department of Mathematics and Statistics for details. Students may place out of MATH 15000 (STEM) or MATH 15200 (STEM) but must replace the course with a 3 credit course approved by the Accounting Program.

Professional Studies (71 cr)

Accounting (35 cr)

ACC 27100 - Accounting I

Basic accounting concepts; preparation of financial statements. Emphasis on income determination and financial position.

prereq: upper freshman standing
3 hrs
3 cr.

**ACC 27200 - Accounting II**

Accounting concepts applied to partnerships and corporations; funds statements; financial statement analysis.

*effective term spring 2016*

*prereq: ACC 27100 with a grade of C or better*

3 hrs
3 cr.

**ACCP 37100 - Intermediate Accounting I**

In-depth study of current concepts relating to accounting for assets and current liabilities.

*effective term spring 2016*

*prereq: ACC 27100 and ACC 27200 all with a grade of C or better.*

3 hrs
3 cr.

**ACCP 37200 - Intermediate Accounting II**

Long-term liabilities, investments, revenue recognition; shareholders' equity, dilutive securities and earnings per share, income taxes, pensions, leases.

*effective term spring 2016*

*prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better.*

4 hrs
4 cr.

**ACCP 37300 - Federal Income Taxation**

Principles of federal income taxation and the impact of taxes on individuals.

*effective term spring 2016*

*prereq: Prereq: ACC 27100 and ACC 27200 and ACCP 37100, all with a grade of C or better*

3 hrs,
3 cr.

**ACCP 37400 - Managerial Accounting (Cost Accounting)**

Accumulation, analysis, presentation and use of cost data by management; budgets.

*effective term spring 2016*

*prereq: Prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better*

3 hrs
3 cr.

**ACCP 47100 - Advanced Accounting I**

ACCP 47200 - Advanced Accounting II

Accounting theory and practice focused on partnerships, joint ventures, multinationals, government and public sector entities; not-for-profit accounting; interim and segment reporting; SEC problems, fiduciary accounting, bankruptcy.

prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better
3 hrs
3 cr.

ACCP 47300 - Business Taxes

Federal income taxation of partnerships and corporations; other special tax issues.

prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 and ACCP 37300 all with a grade of C or better
3 hrs
3 cr.

ACCP 47500 - Auditing

Auditing theory and practices; ethics of accounting profession; procedures for auditing financial statements.

prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better
prereq or coreq: ACCP 47100 with a grade of C or better
4 hrs
4 cr.

ACCP 49000 - Accounting & Auditing Research

Acquisition of research, analytical and communication skills. Provides coverage of fundamental knowledge and skills to conduct research as well as their application through announced readings, cases and research discussions on selected topics. Requires extensive Internet and library research including the use of FASB codification database.

prereq: ECO 22100 with a grade of C or CR or better or STAT 21300 with a grade of C or CR or better and ACC 27100, ACC 27200, ACCP 37100, and ACCP 37200 all with a grade of C or better.
prereq or coreq: ACCP 47500
3 hrs
3 cr.

Grade Options

Accounting majors may not use CR/NC grades for any of the 35 accounting credits in the accounting major.

Additional Information
An overall Grade Point Average of at least 2.5 must be maintained in these 35 Accounting credits. Students who receive a grade of "D" or lower in any of the eleven required Accounting courses in the Professional Studies Requirement will be allowed to repeat the course only once. In total, students may repeat no more than three Accounting courses for which they received a grade of "D" or lower. Students who exceed this allowed number of course repeats will be dismissed from the BS program in Accounting. The Academic Adviser for the BS program in Accounting may, under extraordinary circumstances, make exceptions to this rule.

Other Professional Studies (36 cr)

Business Law (6 cr)

**ACC 28000 - Business Law I**

Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code.

*prereq: sophomore standing or perm chair*

3 hrs

3 cr.

**ACCP 38000 - Business Law II**

Legal aspects of business organizations; agency, partnership and corporate relationships.

*prereq: ACC 28000 with a grade of C, or CR, or better*

3 hrs

3 cr.

Statistics (3 cr)

**ECO 22100 - Economic Statistics**

**Hunter Core**

Mathematics and Quantitative Reasoning

**GER**

1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

*prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500

3hr lecture or 2hr lecture/1 hr discussion

3 cr.

Note: STAT 21300 (STEM) Introduction to Applied Statistics may also be used to fulfill this requirement.

**Additional Information:** For students already at or beyond this point when they become majors, the course should be taken within the first 12 credits following declaration of the major.

Finance (6 cr)

Required: ECO 36500 Corporate Finance and one additional course from the following:

**ECO 21000 - Money and Banking**
GER
3/B

Monetary and banking principles and practice; current issues; theory and policy.

prereq: ECO 20000, 20100

3 hrs
3 cr.

ECO 36600 - Security and Investment Analysis

GER
GER 3/B

Operation of the stock market; security analysis and evaluation; economic variables influencing security values.

prereq: ECO 36500

3 hrs
3 cr.

ACCP 36700 - Analysis of Financial Statements

GER
GER 3/B

Analysis, interpretation, and use of financial statements.

note: This course does not count as an elective towards the Economics major.

prereq: ECO 37200 and ECO 36500 or adviser's permission

3 hrs
3 cr.

Business Core-Required (12 cr)

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences) -I&S SS

GER
2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.
ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

prereq: Math/Writing Proficient/Non degree students

3 hrs
3 cr.

ECO 20000 - Principles of Microeconomics
Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets. May be taken prior to or concurrently with ECO 20100.

**prereq:** Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000

3 hrs  
3 cr.

**ECO 20100 - Principles of Macroeconomics**

Covers the fundamental principles and analytical tools of macroeconomics, with applications in economic growth; business cycles, inflation, unemployment, and monetary and fiscal policy. May be taken prior to or concurrently with ECO 20000.

**prereq:** Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000

3 hrs  
3 cr.

**ACCP 47600 - Computer Accounting Systems**

Accounting Information Systems. Development of facility with current spreadsheet and accounting software. **prereq:** ACC 27100 and ACC 27200, both with a grade of C or better, and declaration as an accounting major

3 hrs  
3 cr.

**Business electives (9 cr)**

Choose from the following:

- ECO 26000 - Business Organization and Management (offered prior to Spring 2019); course is now ECO 35900 Economics of Business Organization and Management)
- Any 300- or 400-level ACCP or ECO course (excluding ECO 49700 and ECO 49800; Note: ECO 35900 Economics of Business Organization and Management and ACCP 48000 Business Law III are strongly recommended)

**Note:**

- Students may not use any course to fulfill the business elective requirement that is also being used to satisfy any other requirement of the Accounting major.
- Students may not use both ECO 26000 and ECO 35900 to fulfill this requirement.

**Additional Information**
An overall average of at least "C+" (2.3 Grade Point Average) must be maintained in these 36 credits of Other Professional Studies (Business Law, Statistics, Finance, Business Core, and Business Elective). This requirement is separate and measured independently of the required 2.5 GPA for the 35 Accounting credits.

Note: There is no minimum required Grade Point Average for the three to thirteen Non-professional Studies credits.

Students enrolled in the BS (accounting) curriculum may use a CR/NC grade only one time toward the 36 credits in the Other Professional Studies requirement. If a student exceeds this limit, any additional CR grades in these 36 credits will be converted to a grade of C and any additional NC grades in these 36 credits will be converted to a grade of F.

**Interdepartmental Fields**

Students may take courses in economics as part of an interdepartmental program of study in Latin American and Caribbean studies, environmental studies (geography), women’s and gender studies and Jewish studies. Listings in each area discuss recommended courses.

**Internships**

Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the Department, to identify internship opportunities.

**Honors**

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

**ECO 49900 - Honors Project**

Jr/Sr only. Supervised individual research and directed reading. Honors essay.

`prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair`

3 hrs

3 cr.

**Degree Map**

Degree Map for Accounting

**Degree Map for Economics**

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Economics major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses
required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall

**ENGL 12000 - Expository Writing**

**Hunter Core**
- English Comp (EC)
- **GER**
  - 1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*
- 3 hrs + conf
- 3 cr.

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
- Math/Quantitative Reasoning
- **GER**
  - 1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*
- 4 hrs
- 4 cr.

**ECO 20000 - Principles of Microeconomics**

**GER**
- 2/B

Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets. May be taken prior to or concurrently with ECO 20100.

*prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000*
3 hrs
3 cr.

- Foreign Language Elementary Level 1
- US Experience in its Diversity

Spring

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.
prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

ECO 20100 - Principles of Macroeconomics

GER
2/B

May be taken prior to or concurrently with ECO 20000. Covers the fundamental principles and analytical tools of macroeconomics, with applications in economic growth; business cycles, inflation, unemployment, and monetary and fiscal policy.
May be taken prior to or concurrently with ECO 20000.

prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000
3 hrs
3 cr.

- Foreign Language Elementary Level 2
- Creative Expression
Sophomore Year

Fall

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.
prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500
3 hr lecture or 2 hr lecture/1 hr discussion
3 cr.
• ECO 200, 300, or 400 Level Elective
• Foreign Language Intermediate Level 3
• Individual and Society/ Humanities
• Elective

Spring

ECO 30000 - Intermediate Microeconomics

GER
3/B

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.
prereq: ECO 20000, 20100 and MATH 15000 or MATH 15200
3 hrs
3 cr.
• World Cultures & Global Issues
• Foreign Language Intermediate Level 4
• Life and Physical Sciences
• Elective

Junior Year

Fall

ECO 30100 - Intermediate Macroeconomics

GER
3/B

Growth, employment and prices in the short and long run; monetary and fiscal policy.
prereq: ECO 20000, 20100, MATH 15000 or MATH 15200
Spring

ECO 32100 - Introduction to Econometrics

GER
3/B

Linear and non-linear regression models in economics; statistical methods for estimation and inference.

prereq: ECO 22100 or STAT 21300 and MATH 15000 or MATH 15200 or MATH 15400 or MATH 15500 or MATH 25500

Notes:

• Students placing into MATH 101 or 101EN can still complete the major in four years – sequencing will be shifted by one semester.
Majors are advised to complete MATH 15000 (STEM) and ECO 22100 within their first 75 credits of college work and ECO 30000 or ECO 30100 within their first 90 credits. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major.

The remaining 12 credits needed to complete the 30-credit major shall be satisfied by other economics courses offered by the department. No courses in accounting or business law may be credited toward the economics major. No more than 3 credits may be at the 100-level (note: ECO 10000, ECO 19600, and ECO 29600 cannot be counted.)

Economics majors may find both the minor and the Certificate Program in Public Policy of particular interest.

The department strongly urges economics majors who plan to go on to graduate or professional school to choose letter grades rather than CR/NC.

For motivated students, the department offers the opportunity to complete both the BA and MA degrees simultaneously, where 30 of the 126 credits required for graduation are graduate credits. Please see the Accelerated BA/MA Economics Degree Map.

**Economics - BA**

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

**Courses/CUNY Common Core Requirement**

- MATH 12500 (STEM) Precalculus  
  Math & Quantitative Reasoning (MQR)
- MATH 15000 (STEM) Calculus I  
  Math & Quantitative Reasoning (MQR)
- MATH 15200 (STEM) Calculus for Life and Social Sciences
  Math & Quantitative Reasoning (MQR)
- ECO 10000 Introduction to Economics  
  Individual & Society
- ECO 20000 Principles of Microeconomics  
  Scientific World
- ECO 22100 Economic Statistics  
  Math & Quantitative Reasoning (MQR)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Majors**

The Department of Economics offers two Economics majors. The first, discussed below, is the Economics - BA, requiring a minimum of 33 credits. In addition, for motivated students, the department offers the opportunity to complete both the BA and MA degrees simultaneously, where 30 of the 126 credits required for graduation are graduate credits. Students interested in this option should click this link: Economics -BA/MA

**Grade Options**

The department strongly urges economics majors who plan to go on to graduate or professional school to choose letter grades rather than CR/NC.

**Courses Required for the Major (33- 46 credits)**
Students may place out of MATH 10100/MATH 101EN, MATH 10150, MATH 12400 (STEM)/MATH 12500 (STEM)/MATH 12550 (STEM), MATH 14000, MATH 15000 (STEM)/MATH 15200 (STEM) and MATH 15500 (STEM) requirements without replacing the credits. See the Mathematics and Statistics department for details.

Students majoring in economics must take:

**A. Math Sequence (0-13 credits)**

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.*

2 hrs

1 cr.

**MATH 12400 (STEM) - College Algebra and Trigonometry**

**Hunter Core**

Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

*prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.*

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs

4 cr.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.
prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

(MATH 15000 (STEM) or MATH 15200 (STEM) must be completed with a grade of C, or better to be accepted for credit towards the major. MATH 15000 (STEM) is preferred for students who will take additional MATH courses.)

B. Required Economics Courses (21 credits)

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.
ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).
prereq: Math/Writing Proficient/Non degree students
3 hrs
3 cr.

ECO 20000 - Principles of Microeconomics

GER
2/B

Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets.
May be taken prior to or concurrently with ECO 20100.

prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or
12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000
3 hrs
3 cr.

ECO 20100 - Principles of Macroeconomics

GER
2/B

May be taken prior to or concurrently with ECO 20000. Covers the fundamental principles and analytical tools of macroeconomics, with applications in economic growth; business cycles, inflation, unemployment, and monetary and fiscal policy.
May be taken prior to or concurrently with ECO 20000.

prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000
3 hrs
3 cr.

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHIL 27500 or MATH 29500
3hr lecture or 2hr lecture/1 hr discussion
3 cr.

ECO 30000 - Intermediate Microeconomics

GER
3/B

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.

prereq: ECO 20000, 20100 and MATH 15000 or MATH 15200
3 hrs
3 cr.

ECO 30100 - Intermediate Macroeconomics

GER
3/B

Growth, employment and prices in the short and long run; monetary and fiscal policy.

prereq: ECO 20000, 20100, MATH 15000 or MATH 15200
3 hrs
3 cr.
ECO 32100 - Introduction to Econometrics

GER
3/B

Linear and non-linear regression models in economics; statistical methods for estimation and inference.  
*prereq: ECO 22100 or STAT 21300 and MATH 15000 or MATH 15200 or MATH 15400 or MATH 15500 or MATH 25500
3 hrs
3 cr.

Notes:

• *must be completed with a grade of C or better to be accepted for credit towards the major.
• **must be completed with a grade of C, CR or better to be accepted for credit towards the major and to serve as prerequisites for other courses in the major.

C. Elective courses

The remaining 12 credits needed to complete the 30-credit major shall be satisfied by other economics courses offered by the department. No courses in accounting or business law may be credited toward the economics major. No more than 3 credits in elective courses may be at the 100-level. Students may take an optional capstone experience as part of their electives.

• ECO 49600 Honors Seminar in Economics
• ECO 49900 Honors Project
• ECO 40000 Senior Seminar: The big (economics) picture and getting ready for life after college

Note

*These courses may be counted for credit in more than one program. Students planning on taking more than one semester of calculus should take MATH 15000 (STEM) rather than MATH 15200 (STEM).

Additional Information

Majors are advised to complete MATH 15000 (STEM)/MATH 15200 (STEM) and ECO 22100 within their first 75 credits of college work and ECO 30000 or ECO 30100 within their first 90 credits. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major. The department may waive the requirement of any of the above or other courses upon satisfactory proof of course equivalency. Credits from courses waived through substitution or examination do not count toward the major.

The following courses may not be counted toward the major: ECO 19600, ECO 29600, ECO 26100, ECO 49700.

Interdepartmental Fields

Students with majors in other departments may take courses in economics as part of an interdepartmental program of study in public policy, Latin American and Caribbean studies, environmental studies (geography), women's and gender studies and Jewish social studies. Listings in each area discuss recommended courses.
Internships

Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the Department, to identify internship opportunities.

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

ECO 49900 - Honors Project

Jr/Sr only. Supervised individual research and directed reading. Honors essay. 
prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair
3 hrs
3 cr.

Public Policy

Economics majors may find both the minor and the Certificate Program in Public Policy Certificate of particular interest.

Degree Map

Degree Map for Economics

Undergraduate Major/Graduate Major

Economics - BA/MA

The Department of Economics offers promising students the opportunity to complete both the BA and MA degrees within 120 credits, 30 of which must be at the graduate level. Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index.

- Economics - BA
- Economics - MA

A minimum grade of B in the following, or their equivalents
ECO 30000 - Intermediate Microeconomics

GER
3/B

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.

prereq: ECO 20000, 20100 and MATH 15000 or MATH 15200
3 hrs
3 cr.

ECO 32100 - Introduction to Econometrics

GER
3/B

Linear and non-linear regression models in economics; statistical methods for estimation and inference.

prereq: ECO 22100 or STAT 21300 and MATH 15000 or MATH 15200 or MATH 15400 or MATH 15500 or MATH 25500
3 hrs
3 cr.

A minimum grade of C in the following, or their equivalents

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

Continuing in the program is contingent upon maintaining a 3.0 GPA in economics and the cumulative index and receiving

A minimum grade of B in

ECO 30100 - Intermediate Macroeconomics

GER
3/B

Growth, employment and prices in the short and long run; monetary and fiscal policy.

prereq: ECO 20000, 20100, MATH 15000 or MATH 15200
3 hrs
3 cr.
An average grade of B in

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
*prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.*  
4 hrs  
4 cr.

**MATH 16000 - Matrix Algebra**

**GER**  
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.  
*prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam*  
3 hrs  
3 cr.

All students in the BA/MA program must complete the following, or their equivalents, as well as the courses listed above

**MATH 15500 (STEM) - Calculus II**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
*prereq: grade of C or better in MATH 15000*  
4 hrs  
4 cr.

**MATH 16000 - Matrix Algebra**

**GER**  
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.  
*prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam*
Additional Information

An undergraduate major in economics is normally required. Thomas Hunter Honors Program students may be admitted without declaring an undergraduate economics major, provided that the above courses are completed. To apply, see the graduate adviser.

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

Note: Students enrolled in the BA/MA program may substitute enrollment in ECO 798 and an MA thesis for ECO 49900 and the Honors paper.

- ECO 49900 Honors Project

Please note:

*Modifications in these programs are awaiting approval by CUNY and NY State. Please consult the department for details.*

Undergraduate Minor

Minor in Accounting

A minor in accounting is available. These courses may be used for CPLicensure in New York State, but represent only 15 of the 69 credits required.

The Minor consists of 15 credits

with the following required courses:

- ACC 27100 - Accounting I
- ACC 27200 - Accounting II

and Three of the following courses for the Financial Accounting Track 1

- ACCP 37100 - Intermediate Accounting I
- ACCP 37200 - Intermediate Accounting II
- ACCP 37400 - Managerial Accounting (Cost Accounting)
• ACCP 47100 - Advanced Accounting I

or Three of the following courses for the Law and Taxation Track 2 (ACCP 37300 strongly recommended)
• ACC 28000 - Business Law I
• ACCP 37300 - Federal Income Taxation
• ACCP 38000 - Business Law II
• ACCP 47300 - Business Taxes
• ACCP 48000 - Business Law III

Minor in Economics

The economics minor consists of a minimum of 12 credits, including ECO 20000 - Principles of Microeconomics, ECO 20100 - Principles of Macroeconomics and two other courses in economics. Accounting and business law courses do not count towards the economics minor.

Undergraduate Certificate

Business Studies Certificate

The Certificate in Business Studies, a 15-credit program housed in the Economics department, consists of courses drawn from several departments. While the best foundation for any career is a liberal arts education, many students want to supplement their liberal arts education with business-specific skills and a credential signaling those skills to potential employers. We rely on businesses in New York City for work opportunities for students, and on the Cooperman Pre-Business Center for coordination of internships and workshops in business skills.

Eligibility

• Full-time students currently enrolled at Hunter College who have earned 25-95 credits. A minimum of 1/3 of these credits must have been earned at Hunter College. Graduate students and individuals with advanced degrees are not eligible to apply. Successful applicants will show evidence of the following:
  • Academic excellence and a minimum 3.2 cumulative GPA
  • Demonstrated interest in business
  • Required prerequisite course ECO 10000
  • Students selected for the Program must maintain a minimum overall GPA of 3.0.
  Note: BA/MA candidates are in fact undergraduates, and therefore eligible.

Application

• An electronic copy of their resumé, highlighting extra-curricular activities and interests
• An electronic copy of their official transcript
• One essay of 650 words or fewer, answering the following three questions:
  • What are you doing today that demonstrates your interest in business?
  • What are your professional aspirations upon graduating Hunter?
  • How will participating in the Business Studies Certificate help you achieve these goals?
• Based on written applications, select students may be invited to interview with the Business Certificate Admissions Committee. The Admissions Committee will select applicants subject to available resources. We expect to limit enrollment to 30 students per year, at least initially.

Curriculum

The certificate program will include three required 3-credit courses, plus one elective drawn from existing courses at the college and a 3-credit internship with an associated capstone course.

Required Courses

**ECO 10000 - Introduction to Economics**

**Hunter Core**
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.
ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

*prereq: Math/Writing Proficient/Non degree students

3 hrs
3 cr.

**ACC 22500 - Survey of Accounting**

An introductory accounting survey course designed specifically for non-majors to gain understanding of business terminology and the role of accounting in business environment. It will specifically focus on providing students with the ability to understand and effectively analyze financial information using the financial statements of a company (as an external user), as well as internal company information that will enhance business decision-making process such as budgeting (as an internal user), combining both financial and managerial accounting areas. It will also briefly introduce the basics of non-profit accounting while highlighting differences between for-profit and non-profit accounting information needs and presentations (See attached sample syllabus).
For non-accounting majors only.

*prereq: none (cannot be used towards Accounting major)

3 hrs
3 cr.

**ECO 26100 - Introduction to Entrepreneurship**

Business enterprise fundamentals through the lens of a new business; identifying market opportunities to meet consumer need and create economic value in a new way; methods to convert an opportunity into a viable new business. Does not count toward the Economics and Accounting majors.

*prereq: Open only to upper sophomores
ECO 22100 or MATH 10000 or MATH 10200 or MATH 10400 or MATH 12500 or MATH 15000 or MATH 15500 or
STAT 11300 or STAT 21200 or STAT 21300
3 hrs
3 cr.

ECO 49700 - Business Studies Capstone and Internship

The capstone experience for the Business Certificate is an internship in which students will do meaningful work and have opportunities to learn about the broader organization in order to develop an overview of the business and its challenges. The Internship seminar is designed to help students reflect on their collective experiences and gain a more global perspective on multiple businesses, their goals, and their role in helping to achieve those goals. Does not count for economics or accounting majors. Permission based on fulfillment of all other certificate course requirements and having a qualifying (96 hours or more over 15 weeks) internship or job in place.

3 hrs
3 cr.

Elective

Students choose one course from the following courses:

Technology and Data

CSCI 12700 - Introduction to Computer Science (STEM)

**Hunter Core**
Scientific World (SW)
GER
2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

CSCI 13300 - Programming for Everyone

**Hunter Core**
Scientific World (SW)
GER
2/E

A comprehensive practical course in programming that concentrates on producing working software for games, simulations, animations, data manipulations, interacting with the Internet, graphical user interfaces and many other application areas. No programming experience is necessary. This course is required for Computer Science minors. This course does not count toward the computer science major.
ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.
prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500
3hr lecture or 2hr lecture/1 hr discussion
3 cr.

POLSC 20600 - Research Design in Political Science (W)

GER
3/B

Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.
prereq: passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.

SOC 24100 - Social Statistics

GER
3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.
prereq: SOC 10100
3 hrs
3 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.
prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

*prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam*

3 hrs
3 cr.

**URBS 31100 - Quantitative Approaches to Urban Analysis**

**GER**

3/B

A survey of quantitative methods used to analyze urban policy and plans. Students are taught about demography, data analysis, and benefits cost analysis.

*prereq: Open only urban studies majors who have completed the URBS 10100/10200 sequence or perm instr.*

3 hrs
3 cr.

**Marketing and Communication**

**MEDPL 20100 - Reporting and Writing I (W)**

This course is an intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

*prereq or coreq: MEDIA 18000*

3 hrs
3 cr.

**MEDP 28500 - Web Production I**

An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.

*prereq: MEDP/FILMP 15000*

3 hrs
3 cr.

**PSYCH 33200 - Attitudes and Persuasion**
This course reviews basic theory and research applications on attitudes and attitude change processes, including how attitudes are measured, used to predict behavior, and, to persuade individuals.

prereq: ENGL 12000; PSYCH 24900 or 25000; and PSYCH 21000 -or- 23000
3 hrs
3 cr.

SOC 31300 - Consumer Behavior

GER
3/B

Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

prereq: SOC 10100
3 hrs
3 cr.

Management and Organizations

ECO 35900 - Economics of Business Organization and Management

GER
3/B

The economic theory of the firm, including the formal analysis of incentives and contracts. Particular focus on how the internal organization of the firm can mitigate the negative effects of conflicts of interest between different stakeholders in the firm.

prereq: ECO 20000 with a grade of C, CR or better
3 hrs
3 cr.

PSYCH 34000 - Industrial and Organizational Psychology

GER
3/B

A review of research and theories on the effects of leadership, human relations, motivation and organizational structures on behavior in business and industrial settings; applications of personnel psychology, motivational psychology and human factors engineering in the work place; job analysis, employee selection, leadership, performance appraisal, power and authority, work motivation and organizational communication.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 24900 or 25000
3 hrs
3 cr.

ACC 23000 - Essentials of Business Law
An introductory business law survey course designed specifically for non-majors to allow them to gain an understanding of basic legal concepts and terminology and the role of law in the business environment. It will specifically focus on the legal issues often encountered in business, including contract law, property law, negotiable instruments, secured transactions and bankruptcy, business entities.

For non-accounting majors only.

**prereq:** none (cannot be used towards Accounting Major)

3 hrs

3 cr.

### Economics: Introductory Course

**ECO 10000 - Introduction to Economics**

**Hunter Core**

Individual and Society (Social Sciences) - I&S SS

**GER**

2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.

ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

**prereq:** Math/Writing Proficient/Non degree students

3 hrs

3 cr.

**ECO 19600 - Special Topics in Economics**

Special topics and issues of research and policy interest. Topics vary each semester. Suitable for students who may have no prior background in economics. Does not count as credit toward the major.

3 hrs

3 cr.

### Economics: 200-Level Core Courses

**ECO 20000 - Principles of Microeconomics**

**GER**

2/B

Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets.

May be taken prior to or concurrently with ECO 20100.

**prereq:** Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000
ECO 20100 - Principles of Macroeconomics

GER
2/B

May be taken prior to or concurrently with ECO 20000. Covers the fundamental principles and analytical tools of macroeconomics, with applications in economic growth; business cycles, inflation, unemployment, and monetary and fiscal policy.
May be taken prior to or concurrently with ECO 20000.

prerequisite: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000

3 hrs
3 cr.

ECO 22000 - Techniques of Economic Analysis

GER
3/B

Mathematical techniques applied to economic models.

prerequisite: ECO 20000; MATH 12500 or exemption from the course

3 hrs
3 cr.

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning

GER
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

prerequisite: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 2500 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500

3 hr lecture or 2 hr lecture/1 hr discussion

3 cr.

Economics: 200-Level Elective Courses

ECO 21000 - Money and Banking

GER
3/B

Monetary and banking principles and practice; current issues; theory and policy.

prerequisite: ECO 20000, 20100
ECO 23300 - Economics of the Media

Provides an introduction to the economics of the media. The course uses the toolkit of economic analysis to understand the structure of media industries, the characteristics of media products, the effects of regulation in media markets, and changes brought about by digital technology.

Economics of the Media is a quantitative analytical course requiring a solid understanding of microeconomic principles and also basic statistics.

prereq: ECO 10000 or ECO 20000

3 hrs
3 cr.

ECO 26100 - Introduction to Entrepreneurship

Business enterprise fundamentals through the lens of a new business; identifying market opportunities to meet consumer need and create economic value in a new way; methods to convert an opportunity into a viable new business. Does not count toward the Economics and Accounting majors.

prereq: Open only to upper sophomores
ECO 22100 or MATH 10000 or MATH 10200 or MATH 10400 or MATH 12500 or MATH 15000 or MATH 15500 or STAT 11300 or STAT 21200 or STAT 21300

3 hrs
3 cr.

ECO 26600 - Personal Financial Economics

Introduction to financial decision-making. Economic and behavioral theories; empirical evidence; implications for policy makers and investors.

prereq: ECO 10000

3 hrs
3 cr.

ECO 29500 - Selected Topics in Economics

GER
3/B

Special topics and issues of research and policy interest. Topics vary each semester. May be repeated for a total of 6 credits.

prereq: ECO 20000 or 20100

3 hrs
3 cr.

ECO 29600 - Special Topics in Economics

Special topics and issues of research and policy interest. Topics vary each semester. Does not count as credit toward the major.
Economics: 300 and 400 Level Advanced and Elective Courses

ECO 30000 - Intermediate Microeconomics

GER
3/B

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.

prereq: ECO 20000, 20100 and MATH 15000 or MATH 15200
3 hrs
3 cr.

ECO 30100 - Intermediate Macroeconomics

GER
3/B

Growth, employment and prices in the short and long run; monetary and fiscal policy.

prereq: ECO 20000, 20100, MATH 15000 or MATH 15200
3 hrs
3 cr.

ECO 31000 - Financial Institutions

GER
3/B

Operation, administration and regulation of U.S. banking, investment and credit institutions.

prereq: ECO 21000
3 hrs
3 cr.

ECO 31500 - Public Finance

GER
3/B

Theory and application of fiscal policy; federal budgeting; state and local finance.

prereq: ECO 20000
3 hrs
3 cr.

ECO 32100 - Introduction to Econometrics
Linear and non-linear regression models in economics; statistical methods for estimation and inference.

prereq: ECO 22100 or STAT 21300 and MATH 15000 or MATH 15200 or MATH 15400 or MATH 15500 or MATH 25500
3 hrs
3 cr.

ECO 33000 - Economic Development

Pluralism and Diversity
PD/A
GER
3/B

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.

prereq: ECO 20000
3 hrs
3 cr.

ECO 33700 - Mathematical Foundations of Economics

An advanced undergraduate course in mathematical methods for economists. The course is designed to introduce students to the mathematical techniques used in advanced study of economics and in professional and academic economic research.

prereq: ECO 30000 or equivalent and MATH 15000 or exemption from the course.
3 hrs
3 cr.

ECO 33900 - Strategies and Games in Economics

A critical introduction to applications of game theory in economics. Applications include the analysis of conflict, trust and cooperation, firms' strategic behavior in concentrated markets, and herd behavior and panics in financial markets. We extend basic game-theoretic models to incorporate asymmetric information and mechanism-design, studying how the rules of a game or the initial distribution of information might affect equilibrium outcomes and therefore how to select optimal rules that govern interactions. Questions addressed include the design of compensation and incentive contracts; voting models and political-economic equilibria; how firms choose their financial structure; and how and why laws and constitutions are chosen to be what they are.

prereq: ECO 30000 or equivalent
3 hrs.
3 cr.

ECO 34000 - International Trade

GER
3/B

Theories of international trade and international trade policies.

prereq: ECO 20000
ECT 34100 - International Finance

GER
3/B

Theories of exchange-rate determination and open-economy macroeconomic theory and policy.

prereq: ECO 21000
3 hrs
3 cr.

ECT 34500 - Women and Men in the Labor Market

Pluralism and Diversity
PD/C
GER
3/B

Demand for labor, determination of wages and allocation of time between paid and unpaid activities, "human capital" investments, labor market policy issues.

cross-listed WGSL 34500

prereq: ECO 20000
3 hrs
3 cr.

ECT 35000 - Comparative Economic Systems

Pluralism and Diversity
PD/D
GER
3/B

Comparative analysis of market and planned economies in theory and practice. Process and problems of transitions between planned and market economies.

prereq: ECO 20000, 21000
3 hrs
3 cr.

ECT 35500 - Business Strategy & Industrial Organization

GER
3/B

Analysis of the strategic behavior of firms in markets with imperfect competition and the role of public policy in regulating these markets.

prereq: ECO 20000
3 hrs
3 cr.
ECO 35600 - Business and Public Policy

GER
3/B

Analysis of the intersection between business and government in market economies. Topics may include protection of intellectual property, economic regulation, health and safety regulation, antitrust, and the behavior of private firms in the political and social realms.
prereq: ECO 20000
3 hrs
3 cr.

ECO 35900 - Economics of Business Organization and Management

GER
3/B

The economic theory of the firm, including the formal analysis of incentives and contracts. Particular focus on how the internal organization of the firm can mitigate the negative effects of conflicts of interest between different stakeholders in the firm.
prereq: ECO 20000 with a grade of C, CR or better
3 hrs
3 cr.

ECO 36000 - Managerial Economics

GER
GER 3/B

Theory of the firm, risk and uncertainty; forecasting, capital allocation, analysis of costs and returns, pricing.
prereq: ECO 20000
3 hrs
3 cr.

ECO 36500 - Corporate Finance

Pluralism and Diversity
GER 3/B

Analysis of corporate investment and financing decisions.
prereq: ECO 20000 and either ECO 22100 or STAT 21300, all with a grade of C or CR or better
3 hrs
3 cr.

ECO 36600 - Security and Investment Analysis

GER
GER 3/B
Operation of the stock market; security analysis and evaluation; economic variables influencing security values.

**prereq:** ECO 36500

3 hrs

3 cr.

**ECO 37000 - Law and Economics**

**GER**

3/B

Analytical tools of microeconomics are used to examine various aspects of the law, including property, contracts, torts, liability, and criminal and family law.

**prereq:** ECO 20000

3 hrs

3 cr.

**ECO 37500 - Health Economics**

This course provides a microeconomic foundation for understanding health and health care decisions. The course covers how the market for health services differs from other markets, with an emphasis on the role of government. The course will use economic tools to evaluate key health issues, such as the demand for healthcare, the market for health insurance, the supply of health services, and the impact of health care policies.

**prereq:** ECO 20000

3 hrs

3 cr.

**ECO 39000 - Independent Study in Economics**

**GER**

3/B

Open to economics majors and minors. Individual readings, tutorials, research. Written report. May be repeated for total of 6 cr. Not open to accounting majors.

**prereq:** perm chair and faculty sponsor

3 hrs

3 cr.

**ECO 39500 - Selected Topics in Economics**

**GER**

3/B

Jr/Sr majors only. Special readings, research and seminar discussions on selected topics announced each semester. May be repeated for a total of 6 cr.

3 hrs

3 cr.

**ECO 40000 - Senior Seminar: The big (economics) picture and getting ready for life after college**
ECO 40000 is a seminar so class meetings will not be lecture-centered. Instead, each student will be expected to actively participate in class discussion, provide thoughtful comments on the readings, give polished oral presentations on their research, and offer detailed reflections on the work of their colleagues in the class. Upon completing this course, students will be able to synthesize and critically question views from some scholarly books and research articles in economics. Second, students will learn to critically examine and present ideas on an area of economics of their choice by gathering, organizing and analyzing data and writing, editing and giving oral presentations. Third, students will prepare for life after Hunter College by working on their resumes, interview skills, and public speaking.

**prereq:** ECO 30000, ECO 30100 and ECO 32100

3 hrs
3 cr.

**ECO 49700 - Business Studies Capstone and Internship**

The capstone experience for the Business Certificate is an internship in which students will do meaningful work and have opportunities to learn about the broader organization in order to develop an overview of the business and its challenges. The Internship seminar is designed to help students reflect on their collective experiences and gain a more global perspective on multiple businesses, their goals, and their role in helping to achieve those goals. Does not count for economics or accounting majors. Permission based on fulfillment of all other certificate course requirements and having a qualifying (96 hours or more over 15 weeks) internship or job in place.

3 hrs
3 cr.

**ECO 49800 - Internship in Economics of Accounting**

Opportunities for working in positions of responsibility in professional institutions (including government agencies, private firms and not-for-profit institutions) for academic credit. The position must provide opportunities for learning about some area of economics, accounting, business or related public policy. Credits may not be used towards the requirements for the economics or accounting major. CR/NC grading is mandatory.

**prereq:** Open only to qualified economics or accounting majors, upper Junior/Senior only. Enrollment is subject to approval of department adviser. Course may be taken no more than twice.

1 hr
1 cr.

**ECO 49900 - Honors Project**

Jr/Sr only. Supervised individual research and directed reading. Honors essay.

**prereq:** For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair

3 hrs
3 cr.

**Economics: Accounting and Business Law**

**ACC 22500 - Survey of Accounting**

An introductory accounting survey course designed specifically for non-majors to gain understanding of business terminology and the role of accounting in business environment. It will specifically focus on providing students with the ability to understand and effectively analyze financial information using the financial statements of a company (as an external user), as well as internal company information that will enhance business decision-making process such as
budgeting (as an internal user), combining both financial and managerial accounting areas. It will also briefly introduce the basics of non-profit accounting while highlighting differences between for-profit and non-profit accounting information needs and presentations (See attached sample syllabus).
For non-accounting majors only.

prereq: none (cannot be used towards Accounting major)
3 hrs
3 cr.

**ACC 23000 - Essentials of Business Law**

An introductory business law survey course designed specifically for non-majors to allow them to gain an understanding of basic legal concepts and terminology and the role of law in the business environment. It will specifically focus on the legal issues often encountered in business, including contract law, property law, negotiable instruments, secured transactions and bankruptcy, business entities.
For non-accounting majors only.

prereq: none (cannot be used towards Accounting Major)
3 hrs
3 cr.

**ACC 27100 - Accounting I**

Basic accounting concepts; preparation of financial statements. Emphasis on income determination and financial position.

prereq: upper freshman standing
3 hrs
3 cr.

**ACC 27200 - Accounting II**

Accounting concepts applied to partnerships and corporations; funds statements; financial statement analysis.

effective term spring 2016
prereq: ACC 27100 with a grade of C or better
3 hrs
3 cr.

**ACC 28000 - Business Law I**

Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code.

prereq: sophomore standing or perm chair
3 hrs
3 cr.

**ACCP 36700 - Analysis of Financial Statements**

**GER**

GER 3/B

Analysis, interpretation, and use of financial statements.

*note: This course does not count as an elective towards the Economics major.*
**ACCP 37100 - Intermediate Accounting I**

In-depth study of current concepts relating to accounting for assets and current liabilities.

*Effective term spring 2016*

*Prereq: ACC 27100 and ACC 27200 all with a grade of C or better.*

3 hrs

3 cr.

**ACCP 37200 - Intermediate Accounting II**

Long-term liabilities, investments, revenue recognition; shareholders' equity, dilutive securities and earnings per share, income taxes, pensions, leases.

*Effective term spring 2016*

*Prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better.*

4 hrs

4 cr.

**ACCP 37300 - Federal Income Taxation**

Principles of federal income taxation and the impact of taxes on individuals.

*Effective term spring 2016*

*Prereq: ACC 27100 and ACC 27200 and ACCP 37100, all with a grade of C or better*.

3 hrs

3 cr.

**ACCP 37400 - Managerial Accounting (Cost Accounting)**

Accumulation, analysis, presentation and use of cost data by management; budgets.

*Effective term spring 2016*

*Prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better*.

3 hrs

3 cr.

**ACCP 38000 - Business Law II**

Legal aspects of business organizations; agency, partnership and corporate relationships.

*Prereq: ACC 28000 with a grade of C, or CR, or better*

3 hrs

3 cr.

**ACCP 47100 - Advanced Accounting I**

effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better
3 hrs
3 cr.

ACCP 47200 - Advanced Accounting II

Accounting theory and practice focused on partnerships, joint ventures, multinationals, government and public sector entities; not-for-profit accounting; interim and segment reporting; SEC problems, fiduciary accounting, bankruptcy.
effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better
3 hrs
3 cr.

ACCP 47300 - Business Taxes

Federal income taxation of partnerships and corporations; other special tax issues.
effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 and ACCP 37300 all with a grade of C or better
3 hrs
3 cr.

ACCP 47500 - Auditing

Auditing theory and practices; ethics of accounting profession; procedures for auditing financial statements.
prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better
prereq or coreq: ACCP 47100 with a grade of C or better
4 hrs
4 cr.

ACCP 47600 - Computer Accounting Systems

prereq: ACC 27100 and ACC 27200, both with a grade of C or better, and declaration as an accounting major
3 hrs
3 cr.

ACCP 48000 - Business Law III

Sales and financing devices under Uniform Commercial Code; property; trusts and estates; bankruptcy; other selected topics.
prereq: ACCP 28000 with a grade of C or CR or better
3 hrs
3 cr.

ACCP 49000 - Accounting & Auditing Research

Acquisition of research, analytical and communication skills. Provides coverage of fundamental knowledge and skills to conduct research as well as their application through announced readings, cases and research discussions on selected topics. Requires extensive Internet and library research including the use of FASB codification database.
prereq: ECO 22100 with a grade of C or CR or better or STAT 21300 with a grade of C or CR or better and ACC 27100, ACC 27200, ACCP 37100, and ACCP 37200 all with a grade of C or better.
prereq or coreq: ACCP 47500
3 hrs
3 cr.

Economics: Courses Less Frequently Offered

ECO 30500 - Development of Economic Thought

GER
3/B

ECO 33100 - Economic History

GER
3/B

ECO 33600 - Regional Economics

GER
3/B

ECO 34600 - The Labor Movement

GER
3/B

ECO 35200 - Economics of the Caribbean

GER
3/B

ECO 42100 - Econometrics

ECO 49500 - Selected Topics in Economics

Jr/Sr majors only. Special readings, research papers and seminar discussions on selected advanced topics announced each semester. May be repeated for total of 6 cr.
prereq: ECO 30000 or 30100
3 hrs
3 cr.

ECO 49600 - Honors Seminar in Economics

Jr/Sr majors only. Special readings, research and seminar discussions on selected topics announced each semester. May be repeated for total of 6 cr.
prereq: 3.5 GPA in economics, perm chair
3 hrs
3 cr.

Programs and Courses in Education

The School of Education

UTEP (Undergraduate Teacher Education Pathways)

School of Education UTEP programs at Hunter College prepare prospective teachers to serve as highly effective educators, and provide opportunities to work with children of diverse backgrounds, abilities, and interests within an array of educational settings in New York State.

A student who completes an undergraduate School of Education program fulfills the academic requirements for New York State Initial Certification. All students in an education major or minor at Hunter must also fulfill both the Hunter Core requirement and the requirements for a liberal arts or sciences major.

The School of Education is committed to the development of teacher candidates that will be both educators and lifelong students. Teacher preparation that focuses on the unique challenges of working in NYC public school classrooms is at the core of Hunter College's educational mission, and the School of Education is a place for aspiring teachers to learn their craft and contribute to the future through the classroom.

School of Education students are held to the highest professional and academic standards, and will be expected to:

- Learn deep and broad content knowledge across academic disciplines.
- Develop professional knowledge and academic skills.
- Learn the theory and practice of effective pedagogy.
- Understand the history, philosophy, psychology, and sociology of education that will inform their teaching.

The School of Education also believes in preparing teacher candidates to work with a diverse student population in the modern classroom, and recognizes that learning takes place inside social and community networks that support student learning. Thus, our programs also provide teacher candidates with knowledge on how to:

- Manage their educational setting to provide effective instruction for all students.
- Design lessons and units of work for students and to adapt their instruction to students' prior knowledge and level of skill.
- Use research-based theories and methods of teaching students with special needs, including special education students and English language learners.
- Learn to create humane and ethical learning communities in which all students receive the support they need to achieve academically.
- Learn to communicate effectively with parents, families, community members, and other members of the school faculty and staff in order to provide this support.
- Master the use of technology as a tool for teaching.

Finally, becoming a Hunter College teacher candidate requires dedication to the continuous improvement of one's professional abilities. Our programs, therefore, ensure teacher candidates know how to:
Reflect on teaching practice in order to strengthen work with students and grow as professionals.
Gain expertise in analyzing and using assessments of student achievement to guide and inform instruction.

Admissions

- Admission to UTEP Programs

Programs and Courses in Education

- UTEP Program List
- School of Education Course List

Adolescent Biology, Grades 7-12 - BA
The BA program in Adolescent Biology Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Biology.
- Participation in a group interview.

Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.

In the case of Biology, the courses that meet CCCR are:

- BIOL 10000 (STEM) - Principles of Biology I
• BIOL 10200 (STEM) - Principles of Biology II
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan: BIOL1AE-BA & MHCB1AE-BA
Credits: 94 - 110

Biology Requirements (67-83 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

Math Courses (3-17 credits)

• MATH 10100 - Algebra for College Students*
  - or -
  • MATH 10150 - Mastery of Symbolic Computation*

• MATH 12400 (STEM) - College Algebra and Trigonometry*
  - or -
  • MATH 12500 (STEM) - Precalculus*
  - or -
  • MATH 12550 (STEM) - Precalculus with Workshop*

• MATH 14000 - Mathematical Reasoning Workshop * unless students earn a grade of B- or above in MATH 12550

• MATH 15000 (STEM) - Calculus I*
  - and -
  • MATH 15200 (STEM) - Calculus for Life and Social Sciences*
  - and -
  • STAT 21300 (STEM) - Introduction to Applied Statistics*

A. Introductory Biology (9)
• BIOL 10000 (STEM) - Principles of Biology I
• BIOL 10200 (STEM) - Principles of Biology II

B. 200-level and higher Concentration in Biology and additional courses (55-57 credits)

1. Required Courses (44-46)
• BIOL 20300 - Molecular Biology and Genetics
• BIOL 30000 - Biological Chemistry
• BIOL 30300 - Cell Biology
• CHEM 10200 (STEM) - General Chemistry I*
• CHEM 10400 (STEM) - General Chemistry II*
• CHEM 10600 (STEM) - General Chemistry Laboratory*
• CHEM 10600 (STEM) - General Chemistry Laboratory*
• CHEM 22200 - Organic Chemistry Lecture I*
• CHEM 22300 - Organic Chemistry Laboratory I*
• CHEM 22400 - Organic Chemistry Lecture II

• PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound*
  - and -
• PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics*
  - or -
• PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound*
  - and -
• PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics*
  *These courses may be counted for credit in more than one program.

2. Electives (11 credits)

Students select the remainder of their credits toward the Biology Major from advanced courses in the biological sciences so as to create a core area of study. Eleven credits are required to complete the major. A minimum of two elective lecture courses must be taken, with at least one course at the 30000 level or higher, in addition to BIOL 30000 and BIOL 30300, for a minimum of six credits. For the remaining elective credits, at least one special-topics course must be taken (BIOL 47000 or BIOL 47100 or BIOL 79000; various topics offered each semester) in addition to other lecture or research courses. There are some BIOL courses that do not count as electives towards the Biology Major (e.g. BIOL 12000, BIOL 12200 and BIOL 23000). Please read the course descriptions carefully to identify those courses. If you have any questions about which courses can be used as major electives, please speak to your Biology department advisor. Students with strong interdisciplinary interests may select advanced course offerings in other departments after approval by their adviser. Four credits of laboratory research are recommended and can count towards the total elective credits either from a laboratory elective course or from research within an approved research laboratory. Laboratory research credits are taken as a BIOL 48000 research course for a maximum of two credits per semester and require a written report or presentation of work required for completion of course. Laboratory research credits can also be obtained from BIOL 61000.
Education Requirements (27 credits)

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*3 hrs*
*3 cr.*

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*2 hrs per week plus 36 hrs fieldwork*
*2 cr.*

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

*prereq: SEDF 20300, 20400*

*2 hrs per week plus 36 hrs fieldwork*
*2 cr.*

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000*

*2 per week plus lab*
*2 cr.*

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*3 hrs*
*3 cr.*

**SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12**

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

*prereq or coreq: SEDF 20300, 20400*

*3 hrs*
*3 cr.*
**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

**prereq:** SEDF 20300, 20400

1 hr

1 cr.

**SEDC 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12**

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

**prereq:** SEDC 21300

**prereq or coreq:** SEDF 20500, SEDC 21000

2 hrs per week plus 48 hrs fieldwork

2 cr.

**SEDCP 34100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

**coreq:** SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500

15 hours of seminar; 48 hours of fieldwork

1 cr.

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**prereq:** 12 credits of coursework

45 hrs

3 cr.
SEDCP 45410 - Student Teaching in Biology, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32400
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Biology, Grades 7-12 - BA/MA

The BA program in Adolescent Biology Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major
• Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
• A Hunter College Grade Point Average (GPA) of 3.0 or better.
• Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
• Formal declaration of a major in Biology.
• Participation in a group interview.

Academic Progress Standards

• Students must maintain a GPA of at least 3.0.
• Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
• Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
• Any student who receives a grade of F in any education course will not be permitted to continue in the program.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of Biology, the courses that meet CCCR are:

• BIOL 10000 (STEM) - Principles of Biology I
• BIOL 10200 (STEM) - Principles of Biology II
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan: BIOAE-BAMA

Credits: 108 - 127

Biology Requirements (67-83 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

Math Courses (3-17 credits)

• MATH 10100 - Algebra for College Students*
  - or -
• MATH 101EN - Algebra for College Students - Enhanced*
• MATH 10150 - Mastery of Symbolic Computation*

• MATH 12400 (STEM) - College Algebra and Trigonometry*
  - or -
• MATH 12500 (STEM) - Precalculus*
  - or -
• MATH 12550 (STEM) - Precalculus with Workshop*

• MATH 14000 - Mathematical Reasoning Workshop * unless students earn a grade of B- or above in MATH 12550

• MATH 15000 (STEM) - Calculus I*
  - and -
• MATH 15500 (STEM) - Calculus II*
  - or -
• MATH 15200 (STEM) - Calculus for Life and Social Sciences*
  - and -
• STAT 21300 (STEM) - Introduction to Applied Statistics*

A. Introductory Biology (9)

• BIOL 10000 (STEM) - Principles of Biology I
• BIOL 10200 (STEM) - Principles of Biology II

B. 200-level and higher Concentration in Biology and additional courses (55-57 credits)

1. Required Courses (44-46)

• BIOL 20300 - Molecular Biology and Genetics
• BIOL 30000 - Biological Chemistry
• BIOL 30300 - Cell Biology
• CHEM 10200 (STEM) - General Chemistry I*
• CHEM 10400 (STEM) - General Chemistry II*
• CHEM 10600 (STEM) - General Chemistry Laboratory*
• CHEM 10600 (STEM) - General Chemistry Laboratory*
• CHEM 22200 - Organic Chemistry Lecture I*
• CHEM 22300 - Organic Chemistry Laboratory I*
• CHEM 22400 - Organic Chemistry Lecture II

• PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound*
  - and -
PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics*
- or -

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound*
- and -

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics*
*These courses may be counted for credit in more than one program.

2. Electives (11 credits)

Students select the remainder of their credits toward the Biology Major from advanced courses in the biological sciences so as to create a core area of study. Eleven credits are required to complete the major. A minimum of two elective lecture courses must be taken, with at least one course at the 30000 level or higher, in addition to BIOL 30000 and BIOL 30300, for a minimum of six credits. For the remaining elective credits, at least one special-topics course must be taken (BIOL 47000 or BIOL 47100 or BIOL 79000; various topics offered each semester) in addition to other lecture or research courses. There are some BIOL courses that do not count as electives towards the Biology Major (e.g. BIOL 12000, BIOL 12200 and BIOL 23000). Please read the course descriptions carefully to identify those courses. If you have any questions about which courses can be used as major electives, please speak to your Biology department advisor. Students with strong interdisciplinary interests may select advanced course offerings in other departments after approval by their adviser. Four credits of laboratory research are recommended and can count towards the total elective credits either from a laboratory elective course or from research within an approved research laboratory. Laboratory research credits are taken as a BIOL 48000 research course for a maximum of two credits per semester and require a written report or presentation of work required for completion of course. Laboratory research credits can also be obtained from BIOL 61000.

Graduate Biology Courses (15-17 credits)

For course descriptions please see the graduate catalog.

• BIOL 61055 - Laboratory Workshop in Biology Education (4)
• BIOL 63000 - Science and Society (3)
• American Museum of Natural History CUNY credit course: Genetics, Genomics or Evolution

Category A:
For students who have completed molecular biology and molecular genetics at the undergraduate level. Choose one:

• BIOL 70000 – Genetics (4)
• BIOL 710LC - Molecular Biology Lecture (5)
• BIOL 71400 - Cell Biology (4)
• BIOL 75003 - Developmental Biology (4)

Category B:
For students who have not taken either molecular biology or molecular genetics at the undergraduate level. Students must take both courses below:
- BIOL 60000 - Molecular Biology for Science Teachers (3)
- BIOL 60210 - Molecular Genetics for Science Teachers (3)

Education Requirements (26-27 credits)

For course descriptions please see the graduate catalog.

- SEDF 70300: Social Foundations of Education: Grades 7-12
- SEDF 70400: Adolescent Development
- SEDF 70500: Educational Psychology: Applications in Grades 7-12
- SEDF 70600: Assessment of the Teaching and Learning Process in Grades 7-12
- SEDC 71000: Building the Foundations of Literacy in Grades 7-12
- SEDC 72000: Adolescent Health and Safety
- SEDC 71300: Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science
- SEDC 72400: Methods II: Intensive Study of Teaching Diverse Learners in Science Grades 7-12
- SPED 70800: Teaching Students with Special Needs in Inclusive Settings
  - Take either -
  - SEDC 75401 - Student Teaching in Biology, Grades 7–12 (5)
  - Or -
  - SEDC 77411 - Practicum in Biology, Grades 7–9 (2)
  - Plus -
  - SEDC 77421 - Practicum in Biology, Grades 10-12 (2)

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Chemistry, Grades 7-12 - BA

The program in Adolescent Chemistry Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major
Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

• Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
• A Hunter College Grade Point Average (GPA) of 3.0 or better.
• Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
• Formal declaration of a major in Chemistry.
• Participation in a group interview.

Academic Progress Standards

• Students must maintain a GPA of at least 3.0.
• Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
• Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
• Any student who receives a grade of F in any education course will not be permitted to continue in the program.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.

In the case of the Mathematics, the courses that meet CCCR are:

• MATH 12500 (STEM) - Precalculus
• CHEM 10200 (STEM) - General Chemistry I
• CHEM 10400 (STEM) - General Chemistry II
• CHEM 10600 (STEM) - General Chemistry Laboratory
• CHEM 11100 (STEM) - Chemical Principles
• CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study
Academic Plan: CHEADED-BA & MHCCHEA-BA

Credits: 89 - 101

Chemistry Requirements (62-74 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

Choose One General Chemistry Sequence (11 credits)

- CHEM 10200 (STEM) - General Chemistry I
- CHEM 10400 (STEM) - General Chemistry II
- CHEM 10600 (STEM) - General Chemistry Laboratory
- OR
- CHEM 11100 (STEM) - Chemical Principles
- CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Organic Chemistry (13 cr.)

- CHEM 22200 - Organic Chemistry Lecture I and CHEM 22300 - Organic Chemistry Laboratory I
- CHEM 22400 - Organic Chemistry Lecture II and CHEM 22500 - Organic Chemistry Laboratory II

Additional Required Courses (12 cr.)

- CHEM 24900 - Quantitative Analysis
- CHEM 35200 - Physical Chemistry I
- CHEM 35400 - Physical Chemistry II - F
- or-
- CHEM 35600 - Physical Chemistry II
- CHEM 35500 - Physical Chemistry Laboratory I
- CHEM 35700 - Physical Chemistry Laboratory II

Required elective course (3-5 credits)

- Any chemistry course at the 300 level or above excluding CHEM 49101

Required Math Courses (12-22 credits)
• MATH 10100 - Algebra for College Students *
or
• MATH 101EN - Algebra for College Students - Enhanced *

• MATH 10150 - Mastery of Symbolic Computation *

• MATH 12400 (STEM) - College Algebra and Trigonometry *
or
• MATH 12500 (STEM) - Precalculus *
or
• MATH 12550 (STEM) - Precalculus with Workshop *

• MATH 14000 - Mathematical Reasoning Workshop * unless students earn a grade of B- or above in MATH 12550
• MATH 15000 (STEM) - Calculus I *
• MATH 15500 (STEM) - Calculus II *
• MATH 15600 - Introduction to Mathematical Proof Workshop *
• MATH 25000 - Calculus III *

Required Physics Courses (11 cr.)
• PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound*
• PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics*
*These courses may be counted for credit in more than one program.

Education Requirements (27 credits)

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)
Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool- community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
3 hrs
3 cr.

SEDF 20400 - Adolescent Development
The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.
2 hrs per week plus 36 hrs fieldwork
2 cr.
SEDFA 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDFA 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDFA 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

SEDFA 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

SEDFA 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDFA 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.
prereq: SEDC 21300
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

**SEDCP 34100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

*prereq: 12 credits of coursework*

45 hrs
3 cr.

**SEDCP 45420 - Student Teaching in Chemistry, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

*prereq: SEDC 32400*

*prereq or coreq: SEDF 20600*

2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

**School of Education Exit Standards**
Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

- SPED 70800: Teaching Students with Special Needs in Inclusive Settings
  - Take either -

- SEDC 75402 - Student Teaching in Chemistry, Grades 7–12 (5)
  - Or -

- SEDC 77412 - Practicum in Chemistry, Grades 7–9 (2)
  - Plus -

- SEDC 77422 - Practicum in Chemistry, Grades 10–12 (2)

**School of Education Exit Standards**

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

**Adolescent Earth Science, Grades 7-12 - BA/MA**
The BA/MA program in Earth Science Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

### Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

### Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Environmental Studies Earth Science Concentration.
- Participation in a group interview.

### Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

### Hunter Core Requirement

Courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019

In the case of the Environmental Studies major, the courses that meet CCCR are:

- GEOL 10100 - Introductory Geology Lab
Course of Study

Academic Plan: ESCAE-BAMA

Credits: 87 - 97

Earth Science Requirements (61-70 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

1. Math (0-8 credits)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate score on placement exam or exit from appropriate departmental workshop*

4 hrs (2 lec, 2 lab)

3 cr.

-or-

**MATH 101EN - Algebra for College Students - Enhanced**

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100.

*prereq: Department Permission*

6 hrs

3 cr.

**MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

*prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.*
MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs
4 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs
4 cr.

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.
Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

prereq: MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500

5 hrs (4 hrs lecture, 1 hr recitation)

4 cr.

2. Introductory Geography (3-4 credits)

These courses are prerequisites to PGEOG 25000. Either of these courses, or GEOG 22600 is acceptable.
GEOL 10100 - Introductory Geology Lab

Hunter Core
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.
3 cr.

-or-

PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $5
5 hrs (3 lec, 2 lab)
4 cr.
Offered in the Fall and Spring

3. Required courses including Capstone (24 credits)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II
Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

GEOG 22600 - Environmental Conservation: Resource Management

GER
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

PGEOG 25000 - Earth System Science I (W)

GER
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: ENGL 12000
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.
4 hrs
3.5 cr.

PGEOG 25100 - Earth System Science II

GER
3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

prereq: PGEO 25000 or perm instr.
4 hrs
3.5 cr.

Required Capstone course

PGEOG 49000 - Honors in Environmental Studies

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

prereq: perm dept.

-or-

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

4. Electives (18 credits)

A minimum of 18 credits from the list below. 12 credits must be taken at the 300-level or higher.

Note: It is strongly recommended that students take STAT 11300 - Elementary Probability and Statistics

GEOL 20500 - Environmental Geology

GER
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.
**GEOL 28000 - Marine Geology**

**GER**
3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

**prereq:** GEOL 10200 or perm instr.
3 hrs
3 cr.

**Fall**

**GEOL 38000 - Advanced Oceanography: Physics of the Oceans**

**GER**
3/B

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

**prereq:** one sem CHEM or PHYS, MATH 15000 or equiv.
3 hrs
3 cr.

**GEOL 38300 - Special Topics in Geology and Oceanography**

**GER**
3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

**prereq:** 200-level course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.
Material Fee: $15  
**prereq:** GEOG 10100 or GEOG 15000 and MATH 10100 or MATH 101EN  
6 hrs (2 lec, 4 lab)  
4 cr.  
Offered fall and spring

**GTECH 32100 - Remote Sensing of the Environment**

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.  
Material Fee: $15  
**prereq:** GTEC 32000 or perm instr.  
4 hrs (2 lec, 2 lab)  
3 cr.

**GTECH 36100 - GIS Analysis**

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geospatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee: $15  
**prereq:** GTECH 20100  
4 hrs (2 lec, 2 lab)  
3 cr.

**PGEOG 31300 - Biogeography**

**GER**  
3/B  
Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.

**prereq:** PGEOG 13000, GEOG 10100 or BIOL 10000/10200  
3 hrs  
3 cr.

**PGEOG 33200 - Introduction to Hydrology**
GER 3/B

Designed to provide the basic understanding of how water on the Earth moves, distributes, circulates and interacts with the environment. Focus will be on hydrological processes including precipitation, evapotranspiration (evaporation and transpiration), soil water, ground water, and runoff, which form the complete water cycle at global, regional and watershed scales. The course will also cover some topics on how water responds to environmental changes and strategies of integrated water resources.

prereq: GEOL 10100, PGEO 13000 or perm instr.
3 hrs
3 cr.

PGEOG 33500 - Urban and Metropolitan Coasts

GER 3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.

prereq or coreq: Prereq: GEOL 10100 or GEOG 10100
3 hrs
3 cr.

PGEOG 36100 - Global Climatic Change

GER 3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

prereq: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

PGEOG 36300 - Environmental Hazards

GER 3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

prereq: PGEO 13000 or equiv.
prereq or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.
PGEOG 38300 - Special Topics in Environmental Studies

GER
3/B

Open to Jr/Sr only. Topics to be announced.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

5. Graduate Earth Science Courses (16 credits)

For course descriptions please see the graduate catalog.

- PGEOG 70563 - Earth Science Today
- GTECH 71000 - Concepts and Theories in Geoinformatics
- PGEOG 63000 - Science and Society
- PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning
- One elective chosen from 600- or 700-level courses with a PEGOG or GTECH prefix, 3 or 4 crs.
Students lacking a significant background in geology or earth science may be required to take PGEOG 70564 - Introducing Earth Science at the Museum of Natural History as their elective:

Education Requirements (26-27 credits)

For course descriptions please see the graduate catalog.

- SEDF 70300: Social Foundations of Education: Grades 7-12
- SEDF 70400: Adolescent Development
- SEDF 70500: Educational Psychology: Applications in Grades 7-12
- SEDF 70600: Assessment of the Teaching and Learning Process in Grades 7-12
- SEDC 71000: Building the Foundations of Literacy in Grades 7-12
- SEDC 72000: Adolescent Health and Safety
- SEDC 71300: Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science
- SEDC 72400: Methods II: Intensive Study of Teaching Diverse Learners in Science Grades 7-12
- SPED 70800: Teaching Students with Special Needs in Inclusive Settings
- SEDC 75404: Student Teaching in Grades 7-12: Earth Sciences
  - or -
- SEDC 77414 - Practicum in Earth Science, Grades 7–9
  - Plus -
- SEDC 77424 - Practicum in Earth Science, Grades 10–12

School of Education Exit Standards
Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Education Programs, Grades 7-12 and Dance Education, Grades Pre K-12

List of Programs

- Adolescent Biology, Grades 7-12 - BA
- Adolescent Biology, Grades 7-12 - BA/MA
- Adolescent Chemistry, Grades 7-12 - BA
- Adolescent Chemistry, Grades 7-12 - BA/MA
- Adolescent Earth Science, Grades 7-12 - BA/MA
- Adolescent English, Grades 7-12 - BA
- Adolescent Mathematics, Grades 7-12 - BA
- Adolescent Mathematics, Grades 7-12 - BA/MA
- Adolescent Physics, Grades 7-12 - BA
- Adolescent Physics, Grades 7-12 - BA/MA
- Adolescent Social Studies, Grades 7-12
- Dance Pre-K - 12 - BA
- Dance Pre-K - 12 - BA/MA

Progress Standards

- Students must maintain a minimum overall GPA of 2.8 and an education sequence index of 2.8.

- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.

- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.

- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.

- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.

Students will be permitted to register for the second methods course in their subject area only after having met the following requirements:

- Completion of 18 credits of study in the major subject area;

- Approval of the major department adviser; and

- Maintenance of an overall GPA of 2.8 and an education sequence index of 2.8.
Students should register to take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations during their junior year. Students will not be allowed to enroll in student teaching until their scores on the LAST have been received by the School of Education. Students who do not pass the LAST at least partly because of low scores on subtest 4 and/or 5 must enroll in a college writing course before being allowed to register for any additional courses.

Admission Process

- Students interested in applying to the Adolescent Education program should apply at the beginning of the semester prior to the semester in which they plan to enroll.
- Students must participate in a group interview with several other students and School of Education faculty members.
- Students must complete an on-site writing sample that the School of Education faculty will use to assess written English skills.

Admission Requirements

Students who wish to enter the adolescent education sequence must meet all the criteria given below.

- Minimum of 65 credits but no more than 90 credits;
- GPA of at least 2.8. If a student has more than 6 credits of CR/NR grades, the excess of these grades will be calculated as C or F in determining whether the student meets the minimum GPA;
- A grade of at least B in ENGL 12000 (or a 200- or 300-level writing course such as ENGL 201);
- Formal declaration of a major in a subject area appropriate for certification: English, Languages Other than English (Chinese, French, German, Hebrew, Italian, Russian, Spanish), Mathematics, Biology, Chemistry, Physics, Social Studies (Geography Option 2), Dance; and
- Submission of an application for admission to the sequence (the application is available in the Office of Educational Services, Room 1000 Hunter West).

Program Overview

Students who major in an academic subject may also wish to complete a sequence of courses in education that will enable them to pursue a career teaching students in grades 7-12. The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools.

Programs in adolescent education at Hunter College prepare prospective teachers to serve as highly effective educators in urban middle and high schools. Through rigorous course work, fieldwork and student teaching experiences in New York City schools, students learn how to provide an academically rigorous education to students of diverse backgrounds, abilities and interests.

Content Knowledge

Courses in the academic discipline offered by the School of Arts & Sciences will deepen teacher candidates’ subject knowledge. They will learn how to use knowledge of their subject to design and implement classroom instruction that reflects State and professional standards.
Professional Knowledge

Teacher candidates will learn the theory and practice of effective pedagogy in their subject area. They will gain a grounding in the history, philosophy, psychology and sociology of education that will inform their teaching. They will study research-based theories and methods of teaching their subject to students with special needs, including special education students and English language learners.

Skills

Teacher candidates will learn to design lessons and units of work for students and to adapt their instruction to students’ prior knowledge and level of skill. They will gain expertise in analyzing and using assessments of student achievement to guide and inform their instruction. They will master the use of technology as a tool for teaching their subject. They will learn to manage their classrooms to provide effective instruction for all students. They will practice ways to assess and reflect on their teaching practice in order to strengthen their work with students and grow as professionals.

Creating Community

Teacher candidates will learn to create humane and ethical learning communities in their classrooms and schools in which all students receive the support they need to achieve academically. They will learn to communicate effectively with parents, families, community members and other members of the school faculty and staff in order to provide this support.

Programs

The Hunter College School of Education offers the following undergraduate programs leading to initial certification in adolescent education (grades 7-12): biology, chemistry, Chinese, English, French, German, Hebrew, Italian, mathematics, physics, Russian, social studies and Spanish. Hunter also offers an undergraduate program leading to initial certification in dance (pre-K-12). In addition, BA/MA programs in biology, chemistry, earth science, mathematics, music and physics are offered. These programs lead to initial and professional certification.

The program of study for the baccalaureate degree at Hunter College requires a minimum of 120 credits. This is a daytime program that includes fieldwork in New York City public schools designated by the Hunter College School of Education. Students who wish to pursue initial certification in one of the above areas must take a specified sequence of education courses, in addition to fulfilling the college’s General Education Requirement (GER) and the requirements of their liberal arts or sciences major. All relevant departments accept the adolescent education sequence as a minor.

Transfer Students

The program will conditionally admit transfer students with 60 or more credits who have a GPA of at least 3.3 without requiring that they complete 12 credits at Hunter College. However, they must establish a minimum GPA of 2.8 at Hunter College to continue in the program after the first semester. Any transfer student who has a GPA of 2.8-3.29 must complete 12 credits at Hunter College with a cumulative GPA of at least 2.8 before being admitted to the program in adolescent education.

Adolescent English, Grades 7-12 - BA
The BA program in Adolescent English Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in English.
- Participation in a group interview.

Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Course of Study

Academic Plan: ENGPREP-BA & MHCENGP-BA

Credits: 66
English Courses (39 Credits)

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Courses       CUNY Common Core  Foundational or Major

ENGL 12000  English Composition (EC)  Foundational

ENGL 22000  English Composition (EC)  Foundational

A. Introduction to Literary Studies (3 cr)

- ENGL 25200 Introduction to Literary Studies

B. Six Required Literature Courses (18 cr)

1. Three Required Courses (9 cr)

- ENGL 30300 Western Literary Backgrounds of British and American Literature
- ENGL 30600 Introduction to Literary Theory (W)
- ENGL 30400 Survey of British Literature I: Early Texts To the Eighteenth Century

2. One course chosen from the following (3 cr):

- ENGL 35200 Shakespeare Survey  
- ENGL 35300 Shakespeare I  
- ENGL 35400 Shakespeare II

3. One course chosen from the following (3 cr):

- ENGL 30700 Survey of American Literature: From Origins to the Civil War  
- ENGL 39600 American Prose from Reconstruction to World War I  
- ENGL 39700 Pre-20th Century American Poetry

4. One course chosen from the following (3 cr.)

- ENGL 32000 Multi-Ethnic American Literature (W)  
- ENGL 32500 Post-Colonial Literature in English (W)

C. Required Writing Courses (6 cr)

1. Theory and Practice of Expository Writing (3 cr)

- ENGL 30100 Composition Theory and Practice

2. One course chosen from the following (3 cr.)

- ENGL 28500 Introduction to Creative Writing  
- ENGL 34100 Rhetorical Criticism

D. Required Language Course (3 cr)

- ENGL 28000 The Structure of Modern English

E. Three Electives (9 cr)
Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements.

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 342.51 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from 300-level courses in other departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

Notes:

- Eligible students may pursue English Departmental Honors by taking ENGL 49400 Honors Seminar.
- The English Department strongly recommends that students take at least one modern or contemporary literature course.

**Education Courses (27 credits)**

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

*prereq: SEDF 20300, 20400*

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000*
2 per week plus lab
2 cr.

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*3 hrs*  
*3 cr.*

**SEDC 21100 - Young Adult Literature in Our Diverse Society**

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English language arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

*prereq or coreq: SEDF 20300, 20400*

*3 hrs*  
*3 cr.*

**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*prereq: SEDF 20300, 20400*

*1 hr*  
*1 cr.*

**SEDC 32100 - Teaching English Methods to a Diverse Population in Grades 7-12**

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. State and city teaching standards will be applied throughout the course.

*prereq: SEDC 21100*

*prereq or coreq: SEDF 20500, SEDC 21000*

*2 hrs per week plus 48 hrs fieldwork*  
*2 cr.*

**SEDCP 34100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only
Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SEDCP 45100 - Student Teaching in English, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified English teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32100
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Mathematics, Grades 7-12 - BA

The BA program in Adolescent Mathematics Education leads to initial certification as a teacher in New York State.
There are two tracks:

- Track I Mathematics
- Track II Statistics

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Mathematics or Statistics.
- Participation in a group interview.

Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.
In the case of the Mathematics, the courses that meet CCCR are:

- MATH 12500 (STEM) - Precalculus
- MATH 15000 (STEM) - Calculus I
- MATH 15500 (STEM) - Calculus II
- STAT 21300 (STEM) - Introduction to Applied Statistics

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan: MATADED-BA & MHCMATA-BA

Credits: 60 - 77

Mathematics Requirements (33/34 - 50 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

The following courses may be counted for credit in more than one program: MATH 101, 101EN, 10150, MATH 124, 125, 125, 140, 150, 155, 156, 250; STAT 213, 311

- Mathematics Track (34-50 credits)
- Statistics Track (33-50 credits)

Education Requirements (27 credits)

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool- community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.
prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.*

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*3 hrs 3 cr.*

**SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12**

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

*prereq or coreq: SEDF 20300, 20400
3 hrs 3 cr.*

**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*prereq: SEDF 20300, 20400
1 hr 1 cr.*

**SEDC 32300 - Methods II: Teaching Diverse Learners in Mathematics, Grades 7-12**

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 21300
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.*
SEDCP 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

SEDCP 45300 - Student Teaching in Mathematics, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified math teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32300
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

- Statistics Track (33-50 credits)

Graduate Mathematics Courses (15 credits)

- Graduate Mathematics Courses (15 credits)

Education Requirements (27 credits)

- SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)
- SEDF 20400 - Adolescent Development
- SEDF 20500 - Educational Psychology: Applications in Grades 7-12
- SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12
- SEDC 21000 - Building the Foundations of Literacy in Grades 7-12
- SEDC 22000 - Adolescent Health and Safety

Additional Education Courses for BA/MA in Adolescent Mathematics. For course descriptions please see the graduate catalog.
School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Physics, Grades 7-12 - BA

The BA program in Adolescent Physics Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Physics.
- Participation in a group interview.

Academic Progress Standards
• Students must maintain a GPA of at least 3.0.
• Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
• Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
• Any student who receives a grade of F in any education course will not be permitted to continue in the program.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.

In the case of the Physics, the courses that meet CCCR are:

• PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
• PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan: PHYSAED-BA & MHCPHYA-BA

Credits: 81 - 98

Physics Requirements (54-71 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Physics department for details.

The following courses may be counted for credit in more than one program: MATH 101, 101EN, 10150, MATH 124, 125, 125, 140, 150, 155, 156, 250; CHEM 102, 104, 106

A. Introductory Physics: Two Semesters (11 credits)

• PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
• PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

B. Concentration in physics courses at the 200 level and higher (22-24 Credits)

• PHYS 22100 - Electronics
• PHYS 33400 - Intermediate Electricity and Magnetism
• PHYS 33500 - Intermediate Mechanics
• PHYS 22200 - Electronics Laboratory
• PHYS 23000 - Classical Physics Laboratory
• PHYS 23500 - Modern Physics Laboratory
• PHYS 38500 - Numerical Methods I
• PHYS 48500 - Numerical Methods II

C. Required Math & Chemistry courses (21-36 credits)

• MATH 10100 - Algebra for College Students
  or
• MATH 101EN - Algebra for College Students - Enhanced

• MATH 10150 - Mastery of Symbolic Computation

• MATH 12400 (STEM) - College Algebra and Trigonometry
  or
• MATH 12500 (STEM) - Precalculus
  or
• MATH 12550 (STEM) - Precalculus with Workshop

• MATH 14000 - Mathematical Reasoning Workshop unless students earn a grade of B- or above in MATH 12550
• MATH 15000 (STEM) - Calculus I
• MATH 15500 (STEM) - Calculus II
• MATH 25000 - Calculus III
• MATH 25400 - Ordinary Differential Equations
• CHEM 10200 (STEM) - General Chemistry I
• CHEM 10400 (STEM) - General Chemistry II
• CHEM 10600 (STEM) - General Chemistry Laboratory

NOTE: The chemistry courses may be substituted by one year of high-school-level chemistry.

Students preparing to teach physics are advised to include the following courses or their equivalents in their undergraduate program:

• ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises
• GEOL 10000 - Introduction to Geology
• BIOL 10000 (STEM) - Principles of Biology I

**Education Requirements (27 credits)**

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn
to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

*prereq: SEDF 20300, 20400*

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000*

2 per week plus lab
2 cr.

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

**SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12**

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

*prereq or coreq: SEDF 20300, 20400*

3 hrs
3 cr.

**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*prereq: SEDF 20300, 20400*
1 hr
1 cr.

SED C 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 21300
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SED C 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

SED C 45430 - Student Teaching in Physics, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified physics teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume
significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32400
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Physics, Grades 7-12 - BA/MA

The BA/MA program in Adolescent Physics Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declar ing the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

• Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
• A Hunter College Grade Point Average (GPA) of 3.0 or better.
• Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
• Formal declaration of a major in Physics.
Participation in a group interview.

Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019

In the case of the Physics, the courses that meet CCCR are:

- PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
- PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan: PHYAE-BAMA

Credits: 97 - 114

Physics Requirements (54-71 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Physics department for details.

The following courses may be counted for credit in more than one program: MATH 101, 101EN, 10150, MATH 124, 125, 125, 140, 150, 155, 156, 250; CHEM 102, 104, 106

A. Introductory Physics: Two Semesters (11 credits)

- PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
- PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics
B. Concentration in physics courses at the 200 level and higher (22-24 Credits)

- PHYS 22100 - Electronics
- PHYS 33400 - Intermediate Electricity and Magnetism
- PHYS 33500 - Intermediate Mechanics
- PHYS 22200 - Electronics Laboratory
- PHYS 23000 - Classical Physics Laboratory
- PHYS 23500 - Modern Physics Laboratory
- PHYS 38500 - Numerical Methods I
- PHYS 48500 - Numerical Methods II

C. Required Math & Chemistry courses (21-36 credits)

- MATH 10100 - Algebra for College Students
  or
- MATH 101EN - Algebra for College Students - Enhanced

- MATH 10150 - Mastery of Symbolic Computation

- MATH 12400 (STEM) - College Algebra and Trigonometry
  or
- MATH 12500 (STEM) - Precalculus
  or
- MATH 12550 (STEM) - Precalculus with Workshop

- MATH 14000 - Mathematical Reasoning Workshop unless students earn a grade of B- or above in MATH 12550
- MATH 15000 (STEM) - Calculus I
- MATH 15500 (STEM) - Calculus II
- MATH 25000 - Calculus III
- MATH 25400 - Ordinary Differential Equations
- CHEM 10200 (STEM) - General Chemistry I
- CHEM 10400 (STEM) - General Chemistry II
- CHEM 10600 (STEM) - General Chemistry Laboratory

NOTE: The chemistry courses may be substituted by one year of high-school-level chemistry.

Students preparing to teach physics are advised to include the following courses or their equivalents in their undergraduate program:

- ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises
- GEOL 10000 - Introduction to Geology
- BIOL 10000 (STEM) - Principles of Biology I

Graduate Physics Courses (16 Credits)

For course descriptions please see the graduate catalog.
• PHYS 63000 - Science and Society
• PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning
  - Plus three electives (9 credits) from below –
• PHYS 60500 - Mathematical Physics
• PHYS 61500 - Electromagnetic Theory
• PHYS 62500 - Introduction to Quantum Mechanics
• PHYS 64500 - Solid State Physics
• PHYS 68500 - Numerical Methods I
Note: 700-level physics courses offered at the Graduate Center can be substituted for 600-level courses with permission of the graduate adviser.

Education Requirements (27 credits)

For course descriptions please see the graduate catalog.

• SEDF 70300: Social Foundations of Education: Grades 7-12
• SEDF 70400: Adolescent Development
• SEDF 70500: Educational Psychology: Applications in Grades 7-12
• SEDF 70600: Assessment of the Teaching and Learning Process in Grades 7-12
• SEDC 71000: Building the Foundations of Literacy in Grades 7-12
• SEDC 72000: Adolescent Health and Safety
• SEDC 71300: Methods I: Classroom Organization, Management and Assessment of Instruction in Mathematics and Science Grades 7-12
• SEDC 72400: Methods II: Teaching Diverse Learners in Science, Grades 7-12
• SPED 70800: Teaching Students with Special Needs in Inclusive Settings
• SEDC 75403: Student Teaching in Grades 7-12: Physics

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Social Studies, Grades 7-12

The BA program in Adolescent Social Studies Education leads to initial certification as a teacher in New York State. The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major
Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year. The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Students interested in an Education program should interview as early as possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter. The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

**Requirements to Declare the Major**

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in History.
- Participation in a group interview

**Academic Progress Standards**

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement. In the case of Social Studies, the courses that meet CCCR are:

**HIST 11100 - World History to 1500**

**Hunter Core**
World Culture and Global Issues (WCGI)
**Pluralism and Diversity**
PD/A
**GER**
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 11200 - World History from 1500 to the Present**

**Hunter Core**
World Culture and Global Issues (WCGI)
GER
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 12100 - Early Modern Europe 1500 to 1815**

**Hunter Core**
World Culture and Global Issues (WCGI)
**Pluralism and Diversity**
PD/D
GER
2/B

Transition from feudal society to national states; religious upheavals, expansion up to the French revolutionary era
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 12200 - 19th and 20th Century Europe (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)
**Pluralism and Diversity**
PD/D
GER
2/B

Scientific and industrial revolutions, liberalism, imperialism, socialism and fascism, total war, reconstruction.
Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

3 hrs
3 cr.

**HIST 15100 - The United States from the Colonial Era to the Civil War (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B
American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

HIST 20800 - History of the Jews

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

An introductory survey emphasizing how Jewish communities adapted to a wide range of environments during more than 3000 years of world history.

prereq or coreq: ENGL 12000

HIST 27700 - East Asia to 1600 (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600 AD. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 27800 - East Asia, 1600 to the Present (W)
Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**GEOG 10100 - People and Their Environment**

Hunter Core
Individual and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. 

Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.

**ECO 10000 - Introduction to Economics**

Hunter Core
Individual and Society (Social Sciences) - I&S SS
GER
2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.
ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

prereq: Math/Writing Proficient/Non degree students
3 hrs
3 cr.

**POLSC 11000 - American Government: A Historical Introduction (W)**
Hunter Core
US Experience in its Diversity (USED)

GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

Note

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan: HSSADED-BA & MHCHISA-BA

Credits: 69

Social Studies Courses (42 credits)

Introductory Courses (9 credits)

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)

GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)
Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present.
Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000
3 hrs
3 cr.

GEOG 15000 - World Regions in Global Context

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A or D
GER
2/B

This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. Geographic concepts (e.g., space, place, distance, scale, borders, and regions) are used to study environmental, economic, social, and political conditions and identify key concerns in the culturally diverse world. The course will examine geographic world regions (e.g., South America, Europe, the Middle East, Sub-Saharan Africa, and others), connections in and between these regions, and how these regions and their populations interact as parts of a global system. For each world region, you will learn major historical events, specific interactions between natural environment and social systems, and their potential for and challenges to sustainable development.

*prereq: ENGL 12000
3 hrs
3 cr.
Offered fall and spring

Geography (6 credits)

Choose two courses totaling six (6) credits from the list below:

GEOG 22100 - Economic Geography and Globalization

GER
2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen
*prereq: GEOG 10100 or perm instr.
3 hrs
3 cr.
Offered fall and spring

GEOG 24100 - Population Geography (W)

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 and ENGL 12000
3 hrs
3 cr.

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 24700 - Cultural Geography

GER
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016
prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000
3 hrs
3 cr.

GEOG 30500 - Special Topics in Urban and Regional Dynamics

Advanced topics in urban geography. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 24300 Urban Geography or instructor permission
GEOG 30600 - Special Topics in Contemporary Regional Geographies

Advanced topics in contemporary regional geographies and globalization. Topics will vary. Open to Jr/Sr only.

*prereq: GEOG 15000 World Regional Geography or instructor permission*

GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions

GER

3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

*prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing*

Politcal Science & Economics (6 credits)

ECO 10000 - Introduction to Economics

**Hunter Core**

Individual and Society (Social Sciences) -I&S SS

GER

2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings. ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

*prereq: Math/Writing Proficient/Non degree students*

3 hrs

3 cr.

POLSC 11000 - American Government: A Historical Introduction (W)

**Hunter Core**

US Experience in its Diversity (USED)

GER

1/C or 2/B
Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

History Courses (21 credits)

Choose seven (7) courses from the list below with a maximum of 6 credits in history courses at the 100-level (other than HIST 15100 and HIST 15200) and a minimum of 9 credits in history courses at the 300-level or above.

World/Non-US History (12 credits)

Choose at least three credits in each of the following categories (courses may be used to count toward only one category; described category must comprise 50% or more of course content for course to qualify):

- Pre-1800
- non-Europe
- Europe
- One additional World/Non-US History

Additional US History courses (6 credits)

all above the 100-level

Capstone Course in History (3 credits)

History Practicum or any dedicated seminar or Honors course at the 400 level approved by the Undergraduate Advisor and/or the Department Chair, as involving significant writing in the major, or graduate-level history course (700-level) available with permission to graduating seniors.

Education Courses (27 credits)

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.
SEDF 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.
prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.
prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.
3 hrs
3 cr.

SEDC 21500 - Methods I: Classroom Organization, Management, and Instruction in Social Studies, Grades 7-12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.
prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.
prereq: SEDF 20300, 20400
1 hr
1 cr.
SED 32500 - Methods II: Teaching Diverse Learners in Social Studies, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 21500
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDCP 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SEDPC 45500 - Student Teaching in Social Studies, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified social studies teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32500
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**prereq:** 12 credits of coursework
45 hrs
3 cr.

### School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

### Childhood Education, Grades 1-6 - BA

The *Childhood Education, Grades 1-6* (QUEST) undergraduate teacher education program prepares students to become New York State certified teachers of childhood education. This program is committed to the preparation of urban elementary school teachers who can deal effectively with the wide range of diverse learning needs found among the City's students. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools. This is a 42-45 credit program in which students have an option to complete the course of study over four or six semesters.

### Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

### Requirements to Declare the Major

- 30 credits in liberal arts and sciences (Students may apply to QUEST if the total of their completed credits plus credits in which they are currently enrolled is at least 30 credits.)
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Declaration of an appropriate liberal arts and sciences major.
- Participation in a group interview.

### Liberal Arts & Sciences Major Requirement
All students in School of Education programs must also declare a major in the School of Arts & Sciences. This major must lead to a BA degree.

See the School of Arts & Sciences for more information on major options.

**Academic Progress Standards**

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Students must receive grades of C or better in Childhood Education courses that do not include fieldwork. QUEST fieldwork courses require a grade of B or better. All QUEST courses are repeatable once by students who have received a grade of D in a non-fieldwork course or a grade below B in a fieldwork course. Students must officially re-register for these courses. Students who receive an F in any course may not continue in the program. Students who receive an F or D in fieldwork may not continue in the program.
- In order to register for QSTAP 40600 - Mathematics Teaching and Learning in Elementary School, students must have completed MATH 10400 (STEM) and MATH 10500. If progress through the QUEST program would be delayed by the requirement for MATH 10500 as a prerequisite, then the program coordinator may allow students to enroll in QSTAP 40600 after completing MATH 10400 (STEM) and registering for MATH 10500.

**Course of Study**

**Academic Plan: CHILDED-BA**

**Credits: 42-45**

**MATH 10400 (STEM) - Mathematics for Elementary Education I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers and number theory. Required of students planning to teach in elementary schools. Not open to other students.

*prereq: grade of C or better in MATH 10100 or MATH 101EN or appropriate score on the placement exam*

3 hrs
3 cr.

**MATH 10500 - Mathematics for Elementary Education II**

**GER**
1/B

Continuation of MATH 10400. Continuation of the content of the mathematics recommended by the NCTM for prospective elementary school teachers, including probability, statistics, plane and transformational geometry, congruence and similarity.

*prereq: grade of C or better in MATH 10400*
**HEDP 31400 - Health Education for the Classroom Teacher**

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

HED changed to HEDP - effective Spring 2018 -
coreq: QSTAP 40080
3 hrs
3 cr.

**QSTA 40080 - The Art of Effective Teaching**

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

3 hrs
3 cr.

**QSTA 40180 - Developmental Reading**

Theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology for literacy development will be stressed.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

coreq: QSTB 20280, QSTP 30000
prereq or coreq: QSTA 40080
2 hrs
2 cr.

**QSTB 20280 - Child Growth and Development**

The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical application of developmental theories and research to diverse populations will be emphasized. Contextual influences on children's development, including family, peers and the media will be included.

coreq: QSTA 40100, QSTAB 30000
prereq or coreq: QSTA 40000
2 hrs
2 cr.

**QSTP 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading**

Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.

*Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.*

**coreq:** QSTAP 40180, QSTB 20280
**prereq or coreq:** QSTAP 40080, HEDP 31400

75 hrs
1 cr.

**QSTA 41080 - Literacy Across the Content Areas**

Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

**prereq:** QSTA 40180, QSTB 20280, QSTP 30000
**coreq:** QSTA 41280, QSTP 30100

2 hrs
2 cr.

**QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools**

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

**prereq:** QSTA 40180, QSTB 20280, QSTP 30000
**coreq:** QSTA 41080, QSTP 30100
QSTP 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 40180, QSTB 20280, QSTP 30000
coreq: QSTAP 41080, 41280
75 hrs
1 cr.

QSTA 40680 - Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: MATH 10400, 10500, QSTA 41080, 41280, QSTP 30000
coreq: QSTB 41380, QSTP 30200
2 hrs
2 cr.

QSTB 41380 - Psychology of Teaching and Learning

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

prereq: QSTA 41000, 41200, QSTAB 30100
coreq: QSTA 40600, QSTF 30200
2 hrs
2 cr.

QSTP 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning
Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 41080, 41280, QSTP 30100
coreq: QSTAP 40680, QSTB 41380
75 hrs
1 cr.

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
3 hrs
3 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

QSTB 40380 - Social Foundations of Urban Education

Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000
3 hrs
3 cr.

QSTA 41480 - Teaching Science in Elementary Schools
This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their co-requisite student teaching in science.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40680, 41080, 41280, QSTP 30100
coreq: QSTAP 41580
2 hrs
2 cr.

QSTAP 41580 - Student Teaching

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 40680, 40780, QSTB 41380, QSTP 30200, HED 31400
coreq: QSTAP 41480
2 per week of seminar plus student teaching
4 cr.

Six-Semester Track

Semester 1

HEDP 31400 Health Education for the Classroom Teacher

QSTA 40080 The Art of Effective Teaching

MATH 10400 (STEM) - Mathematics for Elementary Education I (or its prerequisite, if required: MATH 10100 or MATH 101EN)

Semester 2

QSTA 40180 Developmental Reading

QSTB 20280 Child Growth and Development

QSTP 30000 Fieldwork I: Fieldwork for Child Development and Developmental Reading

MATH 10500 - Mathematics for Elementary Education II (or MATH 10400 if not yet taken)
Semester 3
QSTA 41080 Literacy Across the Content Areas
QSTA 41280 Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
QSTP 30100 Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
MATH 10500 - Mathematics for Elementary Education II (if not yet taken)

Semester 4
QSTB 41380 Psychology of Teaching and Learning
QSTA 40680 Mathematics Teaching and Learning in Elementary School
QSTP 30200 Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Semester 5
QSTA 40780 The Arts: An Interdisciplinary Learning Experience
QSTB 40380 Social Foundations of Urban Education
SPED 30800 Teaching Students with Special Needs in Inclusive Settings

Semester 6
QSTA 41480 Teaching Science in Elementary Schools
QSTAP 41580 Student Teaching

Four-Semester Track

Semester 1
HEDP 31400 Health Education for the Classroom Teacher
QSTA 40080 The Art of Effective Teaching
QSTA 40180 Developmental Reading
QSTB 20280 Child Growth and Development
QSTP 30000 Fieldwork I: Fieldwork for Child Development and Developmental Reading
MATH 10400 (STEM) - Mathematics for Elementary Education I (or its prerequisite, if required: MATH 10100 or MATH 101EN)
Semester 2

QSTB 40380 Social Foundations of Urban Education
QSTA 41080 Literacy Across the Content Areas
QSTA 41280 Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
QSTP 30100 Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

MATH 10500 - Mathematics for Elementary Education II (or MATH 104 if not yet taken)

Semester 3

QSTA 40780 The Arts: An Interdisciplinary Learning Experience
SPED 30800 Teaching Students with Special Needs in Inclusive Settings
QSTB 41380 Psychology of Teaching and Learning
QSTA 40680 Mathematics Teaching and Learning in Elementary School
QSTP 30200 Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

MATH 10500 - Mathematics for Elementary Education II (if not yet taken)

Semester 4

QSTA 41480 Teaching Science in Elementary Schools
QSTAP 41580 Student Teaching

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Dance Pre-K - 12 - BA

Dance Pre K-12 BA leads to initial certification as a teacher in New York State.
The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Dance.
- Participation in a group interview.

Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Course of Study

Academic Plan: DANCAE-BA & MHCDAAE-BA

Credits: 59

Dance Requirements (34 credits)

Foundational Courses
Foundational Courses include courses in dance and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. All students must take a technique placement class prior to the beginning of each semester in order to gain permission for registration. Students should check the department website for placement class dates.

**Note:** Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of Dance, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Courses</th>
<th>CUNY Common Core</th>
<th>Foundational or Major</th>
</tr>
</thead>
<tbody>
<tr>
<td>DAN 23200 20th-Century Dance History</td>
<td>Creative Expression</td>
<td>Foundational</td>
</tr>
<tr>
<td>DAN 10200 Dance, Dancers and the Audience</td>
<td>Creative Expression</td>
<td>Foundational</td>
</tr>
</tbody>
</table>

**Note:** All dance technique classes may be taken two times for credit.

- DAN 15100 Global Dance 1
- DAN 21000 Contemporary Dance Technique I
- DAN 21300 Basic Musicianship for Dancers
- DAN 22000 Contemporary Dance Technique II
- DAN 22100 Improvisation
- DAN 23200 20th-Century Dance History
- DAN 24500 - Ballet I
- DAN 31000 Contemporary Dance Technique III
- DAN 32000 - Contemporary Dance Technique IV
- DAN 32100 Composition I
- DAN 32400 - Production I
- DAN 34500 - Ballet II
- DAN 35000 Anatomy and Kinesiology for Dancers
- DAN 42200 Dance Workshop
- DAN 44000 Lecture/Demonstration Touring Group

A placement audition is required of all incoming majors. All dance majors are required to be registered in at least one technique class every semester they are in attendance at Hunter. Performance, choreography and technical production requirements are to be fulfilled prior to graduation. These requirements include:

- Performance in at least two (2) concerts.
- Choreography of at least two (2) works:
  - solo performed in open composition.
  - group work developed during fall and spring semesters and performed in formal concert.
- Production crew work in two (2) formal concerts.

**Note:** All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**Education Requirements (25 credits)**
SED 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

SED 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

SED 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

**prereq:** SEDF 20300, 20400

2 hrs per week plus 36 hrs fieldwork
2 cr.

SED 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

**prereq:** SEDF 20500, SEDC 21000

2 per week plus lab
2 cr.

SED 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

SED 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

**prereq:** SEDF 20300, 20400

1 hr
1 cr.

DANED 30200 - Theory and Practice of Teaching Dance (pre-K-12)
Methods of teaching dance in grades pre-K-12 to students with diverse backgrounds and abilities in diverse learning environments; the organization of instruction and classroom management strategies; technological resources; community and family resources.

Field work required.
DANED changed to DANEP - effective Spring 2018 -
prereq: completed 12 cr in dance or perm dance adviser
prereq or coreq: SEDF 20400
3 hrs plus 36 hours fieldwork
4 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.
prereq: 12 credits of coursework
45 hrs
3 cr.

SEDCP 45600 - Student Teaching in Dance, Grades Pre-K-12

Two 30-day supervised placements (one in grades pre-K-6 and one in grades 7-12) in New York City public schools selected by Hunter College. Special Conditions: Students must apply for student teaching the fall semester before enrolling in this course. Scores on the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examination must have been received by the coordinator of adolescent education prior to enrollment in student teaching.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq or coreq: SEDF 20600, SEDC 22000
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Dance Pre-K - 12 - BA/MA
The BA/MA program in PreK-12 Dance Education leads to initial certification as a teacher in New York State. This undergraduate program is designed to prepare prospective teachers to serve as high-quality educators for students in urban schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Dance.
- Participation in a group interview.

Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019

In the case of Dance, the courses that meet CCCR are:

**DAN 10200 - Dance, Dancers and the Audience**
Hunter Core
Creative Expression (CE)
Pluralism and Diversity
GER 2/D

Lecture demonstration course designed to introduce students to the art of dance through analysis of history, dance style and socio-political underpinnings. This course includes participation in both lecture and movement sessions. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 12 cr.
3 hrs
3 cr.

DAN 23200 - 20th-Century Dance History

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER 2/D

Readings, lectures, films, discussions of 20th century ballet, modern, social and popular theatre dance forms; analysis of individual styles and cultural trends. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

3 hrs
3 cr.

Course of Study

Academic Plan: DANCE-BAMA

Credits: 89 - 93

Dance Requirements (62-66 credits)

All Dance majors are required to earn 62 credits minimum in DAN courses and complete all requirements including:

- Be registered in at least one dance technique course every semester in order to remain a Dance major in good standing, unless granted exemption by the department
- Perform in a minimum of 2 student choreographed pieces during their studies at Hunter College
- Earn a C grade or better in all courses required for the major (grades below C will not count toward the major)

1. Dance Technique and Performance (20-24 credits)

- Four credits of any dance technique style at level I (all four credits must be in the same style) (4)
- Four credits of dance technique level III (all four credits must be in the same style) (4)
- Eight credits of dance technique any style at level I or higher (8)
DAN 43200 - Repertory I

GER 3/A

Open to dance majors and minors only. Performance course for intermediate and advanced students. Students are expected to participate with high level of professionalism and focus. The choreographer and choreographic material change every semester. Some casting may be done via audition. May be taken two times for credit with permission of the department.

prereq: permission of dept.
3 hrs, 3 hrs open studio
1 cr.

DAN 43300 - Repertory II

GER 3/A

Open to dance majors and minors only. A dance is learned from professional choreographer's repertory and performed in concert. Students are expected to participate with high level of professionalism and focus. The choreographer and choreographic material change every semester. Some casting may be done via audition. May be taken two times for credit with permission of the department.

prereq: permission of dept.
3 hrs, 3 hrs open studio
1 cr.

DAN 44000 - Lecture/Demonstration Touring Group

GER 3/A

Performance of prescribed choreography in lecture/demonstration format to be presented in public schools on a weekly basis during the fall semester. Open to dance majors/minors only. Students must be available to rehearse intensively for 1 week before classes begin. May be taken two times for credit with permission of the department.

prereq: permission of dept.
4 hrs
2 cr.

Students who do not place into a dance technique level 1 class must take DAN 10100 Fundamentals of Contemporary Dance Technique and/or DAN 10500 Fundamentals of Ballet (0-3)

2. Creative Work (11 credits)

DAN 12400 - Production Crew

Production Crew provides students with insights and firsthand experience as a participant in the physical production of theatre. This course allows students to build an understanding and appreciation of the practical function of theatrical production techniques.
prereq: permission of department
0.5 hrs
0.5 cr.

Please note that DAN 12400 Production Crew must be taken twice to complete the major

**DAN 22100 - Improvisation**

**GER**
3/A

Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential. May be taken 3 times for credit with permission of department.

prereq: Declaration of Dance Major or Dance Minor
4 hrs
1 cr.

**DAN 22400 - Stagecraft**

**GER**
3/A

This course focuses on the practical experience of dance production, including work backstage and other aspects of production. May be taken twice for credit with permission of the department.

prereq: perm dept.
3 hrs, 3 hrs open studio
1 cr.

**DAN 32100 - Composition I**

**Pluralism and Diversity**
GER 3/A

Introduction to dance composition. Students will compose solo, duet, and small group works, applying their understanding of basic compositional devices to projects developed during class time as well as during independent practice.

prereq: DAN 22100, permission of dept.
4 hrs, 2 hrs open studio
2 cr.

**DAN 42100 - Composition II**

**GER**
3/A

Continued application of basic principles of composition; conception, planning and realization of complete dances; preparation of dances for concert by integrating all aspects of production. Two additional hours of open studio are recommended for this course.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors
and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 32100, perm dept.
4 hrs, 2 hrs open studio
2 cr.

**DAN 42200 - Dance Workshop**

**GER**
3/A

This advanced composition course provides a structure for continued choreographic practice leading to public performance. The course concentrates on development of individual artistic voice, refining effective rehearsal practices, and seeing a choreographic project to completion in terms of thematic material, methodology, visual design, and production best practices. May be taken twice for credit with permission of the department.

prereq or coreq: DAN 42100
4 hrs
2 cr.

**DAN 42400 - Production**

**GER**
3/A

Practical application of advanced production skills: a design course for advanced dance and choreography students. Tools, techniques and skills required to produce live dance performances. May be taken twice for credit with permission of the department.

prereq: DAN 22400
3 hrs, 3 hrs open studio
2 cr.

3. Dance Studies (8 credits)

**DAN 21300 - Basic Musicianship for Dancers**

**GER**
3/A

Basic music theory in relation to dance. Development of auditory and kinesthetic understanding of melody, rhythm and harmony through movement. Open only to Dance majors and minors. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 21000
3 hrs
2 cr.

**DAN 23200 - 20th-Century Dance History**
Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

Readings, lectures, films, discussions of 20th century ballet, modern, social and popular theatre dance forms; analysis of individual styles and cultural trends.
All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.
3 hrs
3 cr.

DAN 35000 - Anatomy and Kinesiology for Dancers

GER
3/A

Anatomy of skeletal, muscular and neuromuscular systems; anatomical analysis of basic movement; application of anatomical information to proper and successful performance of dance.

prereq or coreq: any course in DAN
3 hrs
3 cr.

4. Electives (3 credits)

Dance Technique Electives

DAN 15100 - Global Dance 1

Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures. Open to Dance majors and minors only. May be taken three times for credit with permission of the department.

2 hrs
1 cr.

DAN 25100 - Global Dance 2

GER
3/A

Expanded progressions in folk forms of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.

prereq: DAN 15100
2 hrs
1 cr.
DAN 35200 - Special Topics: Traditional Dance II

Pluralism and Diversity
PD/A
GER
3/A

Continuation of DAN 25200. Further investigation of cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

prereq: DAN 25200, perm dept.
4 hrs
2 cr.

Other Electives

DAN 25500 - Dance Pedagogy

The course traces the history of teaching dance in studios, dance schools, academies, public schools, arts schools, and in higher education in the US and internationally and explores the different kinds of programs that exist today. The course will discuss and observe differing teaching methodologies. Students will read, observe and comment on teachers, as well as present their thoughts about the pedagogy of Dance.

prereq: DAN 31000 and/or DAN 24500
4 hrs
2 cr.

DAN 34200 - Teaching Dance

Teaching Dance will be a combination of a lab and lecture course. Readings from the field will include the methodologies of teaching different genres for different populations. Students will present in class three times per semester. They will also perform extensive field work observing and interviewing teachers, studio owners, directors of professional training programs, etc.

prereq: DAN 31000 and/or DAN 24500
4.5 hrs
3 cr.

DAN 46100 - Seminar in Dance

GER
3/A

Survey of dance careers, grant writing, arts administration, resume writing and relevant topics related to the socio-political climate of our times in relation to art.
All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 31000, DAN 32100
3 hrs
3 cr.

DAN 48000 - Independent Study in Dance
In-depth study in area of special interest for qualified students under direction of faculty adviser. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**prereq:** minimum 15 dance received at Hunter, major GPA 3.0, overall GPA 2.5. Open to dance majors and minors only.

3-9 hrs
1-3 cr.

**DAN 49000 - Honors in Dance**

Open to Jr/Sr Dance majors only. Individual study leading to completion of honors essay or production book in creative performance.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**prereq:** minimum 18 dance, major GPA 3.5, overall GPA 2.8

hrs TBA
1-3 cr.

**DAN 49800 - Internship**

Open to dance majors with 15 credits in dance from Hunter.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**prereq:** DAN 32400

hrs TBA
3-6 cr.

Dance Technique and Creative Work courses are repeatable for elective credit.

Note: All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

### 5. Graduate Dance Courses (20 credits)

(for descriptions please see the graduate catalog)

- **DAN 70100: Physical Training**
  (taken twice)

- **DAN 70500: Maintenance of the Instrument**
- **DAN 73000: Studies of Forms**
- **DAN 73500: Performance/Presentation**
- **DAN 74000: Aesthetics**
- DAN 74200: Dance History
- DAN 74600: Special Topics

Education Requirements (27 credits)

Undergraduate Courses

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs  
3 cr.

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork  
2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400  
2 hrs per week plus 36 hrs fieldwork  
2 cr.

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs  
3 cr.

**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400  
1 hr  
1 cr.

Graduate Courses (for descriptions please see the graduate catalog)
• SPED 70800: Teaching Students with Special Needs in Inclusive Settings
• SEDF 70600: Assessment of Teaching and Learning in Adolescent Education
• DANED 76000: Methods I
• DANED 76200: Methods II
• DANED 76605: Student Teaching

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Early Childhood Education, Birth-Grade 2 - BA

The Early Childhood, Birth through Grade 2 undergraduate teacher education program prepares students to become New York State certified teachers of early childhood education. This program is designed to prepare prospective teachers to serve as high-quality educators for students in urban schools and other childcare settings. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools. This is a 39-42 credit program in which students have an option to complete the course of study over four or six semesters.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

• Complete at least 30 credits toward the Bachelor's degree. Students with more than 72 credits should consider pursuing Early Childhood Education at the graduate level.
• Attain a Hunter College Grade Point Average (GPA) of 3.0 or better.
• Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
• Declare an appropriate liberal arts and sciences major either preceding admission or upon admission to the program.

Liberal Arts & Sciences Major Requirement
All students in School of Education programs must also declare a major in the School of Arts & Sciences. This major must lead to a BA degree.

See the School of Arts & Sciences for more information on major options.

**Academic Progress Standards**

Students must meet the following criteria in order to continue in the program:

- A minimum grade of C or better in all non-field courses (Courses can only be repeated once)
- A minimum grade of B or better in all fieldwork courses. (Fieldwork courses can only be repeated once)
- Maintain a cumulative GPA of at least 3.0
- Complete 6 credits of study in a foreign language (or be exempt from the foreign language requirement) prior to the completion of ECC 30600: Language and Literacy for Children of Diverse Backgrounds, K-2
- Complete Math 10400 (STEM) with a minimum grade of C prior to registering for ECC 31000: Mathematics in Early Childhood.
- Follow the course sequence, which represents the required classes that Early Childhood students must take each semester. The courses for each semester must be completed successfully in that term.

**Course of Study**

**Academic Plan: ECHEDB2-BA**

**Credits: 39-42**

**MATH 10400 (STEM) - Mathematics for Elementary Education I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers and number theory. Required of students planning to teach in elementary schools. Not open to other students.

*prereq: grade of C or better in MATH 10100 or MATH 101EN or appropriate score on the placement exam*

3 hrs
3 cr.

**ECF 20000 - Human Development and Theories of Learning, Prenatal-Age 8**

This course will examine the history of child development and the major theories and theorists in the area of child development. An understanding of research strategies and the impact of cultural, biological and environmental influences on the development of young children will also be examined. Current research in the areas of prenatal development, physical, cognitive, language, social, emotional and early brain development will also be discussed.

*prereq: ENGL 12000*
*coreq: ECF 20100, ECC 30000*
ECF 20100 - Social and Historical Foundations of Early Childhood Care and Education

An examination and analysis of the social and historical contexts of early childhood education including applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

coreq: ECF 20000; ECC 30000

2 hrs
2 cr

ECC 30000 - Early Childhood Programs and Curricular Frameworks

Students will gain an in-depth understanding of the array of early childhood programs that comprise the field of early care and education. In addition, students will learn about philosophies and approaches to curriculum that are commonly used in early childhood settings including Montessori education, Reggio Emilia, the Project Approach, High Scope Curriculum, and the Creative Curriculum.

coreq: ECF 20000, ECF 20100

3 hrs
3 cr.

ECC 30400 - Creative Arts and Play-Based Learning

Theoretical and practical aspects of play, creativity and arts-based learning are the central tenets of this course. Students will gain fundamental knowledge for constructing playful learning experiences across early learning settings, particularly within the context of the standards-based, high-stakes accountability climate of education in the United States and beyond.

prereq: ECC 30000, ECF 20000, ECF 20100

2 hrs
2 cr

ECC 30500 - Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)

This course is grounded in research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of literacy development between Birth and age 4 and the role of families, programs and schools in early literacy development.

prereq: 6 credits of foreign language; ECC 30000, ECF 20000, ECF 20100

3 hrs
3 cr.

ECC 30100 - Field work/Internship 1

This supervised experience gives students the means to connect conceptual and theoretical information about children in a preschool setting. Students will have the opportunity to examine the developmental progression of early and
emergent skills as they relate to infant, toddler, and preschoolers' development. Students will also have the opportunity to discuss developmentally appropriate assessments and how parents/caregivers can document developmental milestones of children birth through age 4.

Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

coreq: ECC 30500

prereq or coreq: ECF 20000, ECC 30000, ECC 30400

50 hrs.

1 cr.

Offered fall and spring

**ECC 30800 - Inclusionary Practices and Teaching Children of Diverse Backgrounds**

An overview of children with exceptional cognitive, physical, social, and/or emotional characteristics, including learning disabilities. Students will also gain knowledge and skills on working with children who are emerging language learners (ELLs). Assessment and screening strategies will be discussed to meet the educational needs of all students.

prereq: ECF 20000, ECC 30000, ECC 30500

3 hrs

3 cr.

**ECC 30600 - Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade**

Theoretical and practical aspects of early childhood literacy instruction with particular emphasis on teaching literacy to diverse populations between the grades of Kindergarten and 2nd grade will be addressed. In addition, the role of family and community involvement and the use of technology for literacy development.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500

3 hrs

3 cr.

**ECC 30200 - Field work/Internship 2**

This supervised experience gives students the means to connect conceptual and theoretical information about children in kindergarten through second grade. Students will have the opportunity to examine the listening, speaking, reading, and writing development of young children across a variety of cultural and linguistic communities. Students will examine the roles of families, programs, schools, and communities in urban environments, as well as the assessment of early literacy development.

Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.
prereq: ECF 20000, ECC 30000, ECC 30100, ECC 30400, ECC 30500
coreq: ECC 30600
prereq or coreq: ECF 20100
50 hrs.
1 cr.
Offered fall and spring

**ECC 31000 - Mathematics in Early Childhood**

Examines the theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth through second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings.

prereq: MATH 10400; ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800
3 hrs
3 cr.

**ECC 31100 - Early Childhood Science and Inquiry-Based Learning**

Explores the theories and research of scientific thinking in young children. Assessing science learning in diverse infant, toddler, preschool and grade K-2 settings and how to incorporate the use of community resources in scientific learning will be discussed.

prereq: Two semesters of natural science which must include: 3 credits eligible to meet CUNY Common Core in Life and Physical Sciences and 3 credits eligible to meet CUNY Common Core in Scientific World (CSCI and ECO courses do not qualify for this requirement); ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500, ECC 30600, ECC 30800
2 hrs
2 cr.

**ECC 30300 - Field work/Internship 3**

This supervised experience gives students the means to connect conceptual and theoretical information about children in first or second grade. Students will have the opportunity to examine developmentally appropriate activities for children and ways of assessing learning in diverse settings. Students will examine the roles of families, programs, schools, and communities in urban environments, as well as the assessment of mathematical and science development. Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30100, ECC 30200, ECC 30400, ECC 30500, ECC 30600, ECC 30800
coreq: ECC 31000
50 hrs.
1 cr.
Offered fall and spring

**ECC 31400 - Health, Family, and Community Partnerships**
This course gives students the means to understand how to promote children's health, safety, and nutrition. Students will also gain skills and knowledge needed to foster positive, reciprocal relationships with families of diverse backgrounds. In meeting the NYSDOE mandate, child abuse, drug abuse prevention, prevention of school violence, anti-bullying, and fire safety workshops are included.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.

**ECF 40000 - Assessment in Early Childhood, Birth through 2nd Grade**

Provides students with an understanding of the role of assessment for planning and implementing effective early childhood instruction for young children, ages birth to age eight, from culturally diverse environments and with varied learning needs.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.

**ECC 40100 - Student Teaching**

Students will complete one semester of student teaching in early childhood settings, including preK settings, kindergarten, first, and second grade classrooms. Students will complete their student teaching in at least two of the following early childhood settings: pre-kindergarten, kindergarten, first grade or second grade. Students will attend seminar for 30 hours during the semester to discuss topics that range from classroom management to supporting children with diverse learning needs. During student teaching, students will complete the Teacher Performance Assessment (edTPA).

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100, ECC 31400
3 hrs
3 cr.

**Six-Semester Track**

**Semester 1**

ECF 20000 Human Development and Theories of Learning, Prenatal-Age 8

ECC 30000 Early Childhood Programs and Curricular Frameworks

ECF 20100 Social and Historical Foundations of Early Childhood Care and Education

MATH 10400 (STEM) - Mathematics for Elementary Education I (or its prerequisite, if required: MATH 10100 or MATH 101EN)

**Semester 2**

ECC 30500 Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)
ECC 30400 Creative Arts and Play-Based Learning
ECC 30100 Field work/Internship 1
MATH 10400 (STEM) - Mathematics for Elementary Education I (if not yet taken)

**Semester 3**

ECC 30600 Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade
ECC 30800 Inclusionary Practices and Teaching Children of Diverse Backgrounds
ECC 30200 Field work/Internship 2

**Semester 4**

ECC 31000 Mathematics in Early Childhood
ECC 31100 Early Childhood Science and Inquiry-Based Learning
ECC 30300 Field work/Internship 3

**Semester 5**

ECC 31400 Health, Family, and Community Partnerships
ECF 40000 Assessment in Early Childhood, Birth through 2nd Grade

**Semester 6**

ECC 40100 Student Teaching

**Four-Semester Track**

**Semester 1**

ECF 20000 Human Development and Theories of Learning, Prenatal-Age 8
ECC 30000 Early Childhood Programs and Curricular Frameworks
ECC 30100 Field work/Internship 1
ECC 30400 Creative Arts and Play-Based Learning
ECC 30500 Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)
MATH 10400 (STEM) - Mathematics for Elementary Education I (or its prerequisite MATH 10100, if required)
Semester 2

ECF 20100 Social and Historical Foundations of Early Childhood Care and Education
ECC 30200 Field work/Internship 2
ECC 30600 Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade
ECC 30800 Inclusionary Practices and Teaching Children of Diverse Backgrounds
MATH 10400 (STEM) - Mathematics for Elementary Education I (if not yet taken)

Semester 3

ECF 40000 Assessment in Early Childhood, Birth through 2nd Grade
ECC 30300 Field work/Internship 3
ECC 31000 Mathematics in Early Childhood
ECC 31100 Early Childhood Science and Inquiry-Based Learning

Semester 4

ECC 31400 Health, Family, and Community Partnerships
ECC 40100 Student Teaching

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Mathematics (BA/MA): Additional Required Coursework and Student Teaching

Return to: Adolescent Education, Grades 7-12

Adolescent Education BA Course Requirements

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool- community relations, inclusion of
students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

*prereq: SEDF 20300, 20400*

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000*

2 per week plus lab
2 cr.

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*prereq: SEDF 20300, 20400*

1 hr
1 cr.

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit
course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels. 

**prereq:** 12 credits of coursework

45 hrs

3 cr.

**Note**

Please note that the parallel courses at the graduate level may be substituted for these undergraduate courses in the BA/MA Mathematics and the BA/MA Dance Programs.

**Additional Required Coursework and Student Teaching**

- SEDC 713 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science 3 cr
- SEDC 723 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7-12 2 cr
- SEDC 753 - Student Teaching in Mathematics, Grades 7-12 (60 days, 30 hrs seminar, plus workshops and conferences) 5 cr

**Note(s)**

**See the Graduate Catalog for these graduate course descriptions**

**Music Pre-K - 12 - BA/MA**

The BA MA program in Music Pre-K-12 Education leads to initial certification as a teacher in New York State. The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

**Declaring the Major**

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

**Requirements to Declare the Major**
• Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
• A Hunter College Grade Point Average (GPA) of 3.0 or better.
• Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
• Formal declaration of a major in Music.
• Participation in a group interview.

Academic Progress Standards

• Students must maintain a GPA of at least 3.0.
• Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
• Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
• Any student who receives a grade of F in any education course will not be permitted to continue in the program.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Course of Study

Academic Plan: MUSCT-BAMA

Credits: 82 - 89

Music Requirements (57-63 credits)

Piano Proficiency Requirement: All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

Please note that students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

As a culminating project, Music TEP students are required to prepare a portfolio containing examples of their work. These can include papers which have been graded and commented on by professors, lesson plans, and student reflections on their own growth and experiences throughout the program. It is important that you save all of your work
from all of your classes. During the semester in which you student teach, you will be guided in the preparation of your portfolio.

1. Music history (13 credits)

**MUSHL 20100 - Introduction to Music Research**

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.
- **coreq:** MUSHL 20500
- **prereq or coreq:** ENGL 12000
- **1 hr**
- **1 cr.**
- **offered fall**

**MUSHL 20500 - Music History I**

Pluralism and Diversity
- **PD/D**
- For music majors. Survey of the history of music in the European tradition to 1600.
- **prereq:** elementary knowledge of music history and literature, demonstrated by dept. exam
- **coreq:** MUSHL 20100
- **prereq or coreq:** MUSTH 22000, 23000, ENGL 12000, perm dept.
- **3 hrs**
- **3 cr.**
- **offered fall**

**MUSHL 20600 - Music History II (W)**

Pluralism and Diversity
- **PD/D**
- For music majors. Continuation of MUSHL 20500. Survey of the history of music in the European tradition from 1600 to 1800.
- **prereq:** MUSHL 20100, 20500, ENGL 12000
- **prereq or coreq:** MUSTH 22100, 23100
- **3 hrs**
- **3 cr.**
- **offered spring**

**MUSHL 30500 - Music History III (W)**

Pluralism and Diversity
- **PD/D**
- Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.
- **prereq:** MUSHL 20600, MUSTH 22100, 23100
- **3 hrs**
- **3 cr.**
- **offered fall**
- • And any other 3-credit MUSHL course at the 300-level.
2. Music Theory (19 credits)

**MUSTH 20100 - Introduction to Music Technology**

An introduction to basic music technology skills: music notation software, MIDI sequencing, and digital audio editing.

*prereq or coreq: prereqs: MUSTH 22000 and 23000, or perm dept.*
1 hr
1 cr.
offered spring

**MUSTH 22000 - Music Theory I**

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

*prereq: ability to read music as demonstrated by dept. exam, perm dept.*
*coreq: MUSTH 23000*
3 hrs
3 cr.
offered fall

**MUSTH 22100 - Music Theory II**

Continuation of MUSTH 22000.

*prereq: MUSTH 22000*
*coreq: MUSTH 23100*
3 hrs
3 cr.
offered spring

**MUSTH 23000 - Musicianship I**

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.

*coreq: MUSTH 22000*
3 hrs
2 cr.
offered fall

**MUSTH 23100 - Musicianship II**

Continuation of MUSTH 23000.

*prereq: MUSTH 23000*
*coreq: MUSTH 22100*
3 hrs
2 cr.
offered spring

**MUSTH 32000 - Music Theory III**
Intermediate-level study of melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

**prereq:** MUSTH 20100, MUSTH 22100
**coreq:** MUSTH 33000
3 hrs
3 cr.
offered fall

**MUSTH 33000 - Musicianship III**

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.

**prereq:** MUSTH 23100
**coreq:** MUSTH 32000
3 hrs
2 cr.
offered fall
• and any other 3-credit MUSTH course at the 300-level

**3. Performance (6 credits)**

2 credits in:

**MUSPF 40100 - Individual Instruction in Instrument or Voice**

Limited to the 42-credit BA music major, the 25-credit BA music major, the BA/MA music major and the music minor. Audition demonstrating performance skills equivalent to New York State School Music Association (NYSSMA) level 2 or higher. Students must make their own arrangements with department-listed teachers to receive credit for this course. Jury examination required. The jury examination following the second and subsequent semesters of private lessons must demonstrate performance skills equivalent to NYSSMA level 4 or higher. May be taken 8 times.

**prereq:** perm dept.
1 hr
1 cr.

2 credits in large ensembles:

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.
3 hrs
1 cr.

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

**prereq:** audition, perm instr.
3 hrs
1 cr.

2 credits in performance electives:

MUSPF 22100 - College Choir
MUSPF 23100 - Hunter Symphony

MUSPF 24900 - Jazz Ensemble
Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.
2 hrs
1 cr.

MUSPF 25000 - Jazz and Popular Music Combos
Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

prereq or coreq: audition, dept. permission required
2 hrs
1 cr.

MUSPF 25100 - Jazz Vocal Workshop Ensemble
Jazz performance and improvisation. May be taken 6 times.

prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition
2 hrs
1 cr.

MUSPF 35300 - Chamber Singers
Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

prereq: audition, perm instr.
2 hrs
1 cr.

MUSPF 35500 - Chamber Music Workshop
Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

prereq: audition, perm instr.
2 hrs
1 cr.

MUSPF 36500 - Topics in Piano Performance
Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance.

May be taken 4 times.
coreq: MUSPF 40100 or 43100
2 hrs
1 cr.

MUSPF 36900 - Topics in Vocal Performance
Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

prereq: ENGL 12000
coreq: MUSPF 40100 or 43100

2 hrs
1 cr.
- MUSPF 40100 - Individual Instruction in Instrument or Voice

4. Electives (4 credits)
- 4 credits in music courses above the 100-level

5. Graduate Music Courses (15-21 credits)

For course descriptions please see the graduate catalog.

* Students who have studied these subjects at the undergraduate level may be exempted from these requirements.

- MUS 64100 – Strings*
- MUS 64300 – Woodwinds*
- MUS 64500 - Brass*
- MUS 64700 - Percussion Skills*
- MUS 64900 - Piano Skills for Music Teachers*
- MUS 65100 – Conducting*
- MUS 72400 - Advanced Studies in Music Theory 1
- MUS 75100 - Advanced Studies in Music History 1
- MUS 75200 - Advanced Studies in Music History 2
- MUS 77900 - World Music Education
- Music electives: Courses chosen in consultation with graduate adviser (3 credits)

Education Requirements (25-26 credits)

For course descriptions please see the graduate catalog.

- SEDF 70300 - Social Foundations of Adolescent Education
- SEDF 70400 - Adolescent Development, Grades 7–12
- SEDF 70500 - Educational Psychology: Applications to Adolescent Education
- SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education
- SPED 70800 - Teaching Students with Special Needs in Inclusive Settings
- SEDC 71000 - Building the Foundations of Literacy in Adolescent Education
- SEDC 72000 - Adolescent Health and Safety
- MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12
- MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12
- Take either -

- SEDC 75600 - Student Teaching in Music, Pre-K–12
- or -
School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

QUEST Four-Semester Sequence for Students Entering the Program with More than 40 credits

Semester I

**QSTA 40080 - The Art of Effective Teaching**

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

3 hrs

3 cr.

**QSTB 20280 - Child Growth and Development**

The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical application of developmental theories and research to diverse populations will be emphasized. Contextual influences on children's development, including family, peers and the media will be included.

*coreq: QSTA 40100, QSTAB 30000
prereq or coreq: QSTA 40000

2 hrs

2 cr.

**QSTA 40180 - Developmental Reading**

Theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology for literacy development will be stressed.
Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

coreq: QSTB 20280, QSTP 30000
prereq or coreq: QSTA 40080
2 hrs
2 cr.

QSTP 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading

Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.

Please note that effective spring 2018 QSTAP will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

coreq: QSTAP 40180, QSTB 20280
prereq or coreq: QSTAP 40080, HEDP 31400
75 hrs
1 cr.

HEDP 31400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.
HED changed to HEDP - effective Spring 2018 -
coreq: QSTAP 40080
3 hrs
3 cr.

Total ED Credits 11

Fieldwork 75 hours

Semester II

QSTA 41080 - Literacy Across the Content Areas
Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
coreq: QSTA 41280, QSTP 30100
2 hrs
2 cr.

QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
coreq: QSTA 41080, QSTP 30100
2 hrs
2 cr.

QSTP 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

Please note that effective spring 2018 QSTAP will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 40180, QSTB 20280, QSTP 30000
coreq: QSTAP 41080, 41280
75 hrs
1 cr.

QSTB 40380 - Social Foundations of Urban Education
Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

*prereq: QSTA 40100, QSTB 20200, QSTAB 30000*

3 hrs
3 cr.

**Total ED Credits 8**

**Fieldwork 75 hours**

**Semester III**

**QSTB 41380 - Psychology of Teaching and Learning**

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

*prereq: QSTA 41000, 41200, QSTAB 30100*
*coreq: QSTA 40600, QSTF 30200*

2 hrs
2 cr.

**QSTA 40680 - Mathematics Teaching and Learning in Elementary School**

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

*prereq: MATH 10400, 10500, QSTA 41080, 41280, QSTP 30000*
*coreq: QSTB 41380, QSTP 30200*

2 hrs
2 cr.

**QSTP 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning**

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

*Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.*
prereq: QSTAP 41080, 41280, QSTP 30100
coreq: QSTAP 40680, QSTB 41380
75 hrs
1 cr.

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
3 hrs
3 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

Total ED Credits 11

Fieldwork 75 hours

Semester IV

QSTA 41480 - Teaching Science in Elementary Schools

This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their corequisite student teaching in science.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.
prereq: QSTA 40680, 41080, 41280, QSTP 30100
coreq: QSTAP 41580
2 hrs
2 cr.

QSTAP 41580 - Student Teaching

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 40680, 40780, QSTB 41380, QSTP 30200, HED 31400
coreq: QSTAP 41480
2 per week of seminar plus student teaching
4 cr.

Total ED Credits 6

Fieldwork 60 days

Total Credits 36

Note(s)

QSTA is a designation for courses offered by the Department of Curriculum and Teaching; QSTB is a designation for courses offered by the Department of Educational Foundations; QSTAB is a designation for fieldwork attached to two courses.

QUEST Six-Semester Sequence for Students Who Enter the Program with 30 - 40 credits

Semester I

QSTA 40080 - The Art of Effective Teaching

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.
HEDP 31400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama and folktale. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
coreq: QSTA 41080, QSTP 30100
2 hrs
2 cr.

QSTP 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 40180, QSTB 20280, QSTP 30000
coreq: QSTAP 41080, 41280
75 hrs
1 cr.

Total ED Credits 5

Fieldwork 75 hours

Semester IV

QSTB 41380 - Psychology of Teaching and Learning

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

prereq: QSTA 41000, 41200, QSTAB 30100
coreq: QSTA 40600, QSTF 30200
2 hrs
2 cr.

QSTA 40680 - Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.
prereq: MATH 10400, 10500, QSTA 41080, 41280, QSTP 30000
coreq: QSTB 41380, QSTP 30200
2 hrs
2 cr.

QSTP 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 41080, 41280, QSTP 30100
coreq: QSTAP 40680, QSTB 41380
75 hrs
1 cr.

Total ED Credits 5

Fieldwork 75 hours

Semester V

QSTB 40380 - Social Foundations of Urban Education

Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.
prereq: QSTA 40100, QSTB 20200, QSTAP 30000
3 hrs
3 cr.

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

_prereq: 12 credits of coursework_

3 hrs
3 cr.

Total ED Credits 9

Semester VI

QSTA 41480 - Teaching Science in Elementary Schools

This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their co-requisite student teaching in science.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

_prereq: QSTA 40680, 41080, 41280, QSTP 30100_

2 hrs
2 cr.

QSTAP 41580 - Student Teaching

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

_prereq: QSTAP 40680, 40780, QSTB 41380, QSTP 30200, HED 31400_

2 per week of seminar plus student teaching
4 cr.
Total ED Credits 6

Fieldwork minimum of 60 days

Total Credits 36

Note(s)

_QSTA is a designation for courses offered by the Department of Curriculum and Teaching; QSTB is a designation for courses offered by the Department of Educational Foundations; QSTAB is a designation for fieldwork attached to two courses._

**Teaching Languages Other Than English: French, Grades 7-12- BA**

Teaching Languages Other Than English Grades 7-12- French BA leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

**Declaring the Major**

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

**Requirements to Declare the Major**

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in French.
- Participation in a group interview.

**Academic Progress Standards**
• Students must maintain a GPA of at least 3.0.
• Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
• Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
• Any student who receives a grade of F in any education course will not be permitted to continue in the program.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Course of Study

Academic Plan: FRENAED-BA

Credits: 60-72

French Requirements (33-45 credits)

Students who demonstrate proficiency in French through a placement exam may be exempted from some courses.

0-12 credits from:

**FREN 10100 - Elementary French I**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language. FREN 10100 usually not credited without FREN 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs
3 cr.

**FREN 10200 - Elementary French II**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

*prereq: FREN 101 or one yr high school French.*
3 hrs
3 cr.
FREN 10300 - Intensive Elementary French

Equivalent to material covered in 10100 and 10200. Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

6 hrs
6 cr.

FREN 20100 - Intermediate French I

Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

prereq: FREN 10200 or two yrs high school French

3 hrs
3 cr.

FREN 20200 - Intermediate French II

Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

prereq: FREN 2000 or three yrs high school French

3 hrs
3 cr.

-or-

FREN 10300 - Intensive Elementary French may be substituted for FREN 10100 and FREN 10200
FREN 20300 - Intensive Intermediate French may be substituted for FREN 20100 and FREN 20200

3 credits from:

FREN 31100 - Advanced French Grammar

prereq: FREN 20200

3 hrs
3 cr.

FREN 31200 - French Oral and Written Expression

prereq: FREN 20200 or equiv.

3 hrs
3 cr.

FREN 32100 - French Translation

FREN 34600 - 18th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Beaumarchais, Buffon, Ch'nier, the Encyclopedists, Diderot, Laclos, Marivaux, Montesquieu, Provost, Rousseau, Sade, Voltaire.

prereq: FREN 34100 and 34200
FREN 34800 - 19th Century French Literature (1800-1850)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Balzac, Chateaubriand, Constant, Gautier, Hugo, Lamartine, Musset, Sand, Mme de Sta, Stendhal, Vigny.
FREN 34100 and 34200
3 hrs
3 cr.

FREN 34900 - 19th Century French Literature (1850-1900)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Barbey duerivilly, Barr's, Baudelaire, Daudet, Flaubert, France, Huysmans, Leconte de Lisle, Mallarm, Maupassant, Renan, Rimbaud, Sainte-Beuve, Taine, Verlaine, Villiers de Isle-Adam, Zola.
prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 35000 - 20th Century French Literature (1900-1950)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Apollinaire, Beauvoir, Breton, Claudel, Cocteau, Colette, Gide, Giraudoux, Malraux, Mauriac, Pguy, Proust, Sartre.
prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 35100 - Contemporary French Literature (1950-present)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Beckett, Bon, Butor, Camus, Duras, Echenoz, Ernaux, Kolt's, NDiaye, Perec, Redonnet, Robbe-Grillet, Sarraute.
prereq: FREN 34100 and 34200
3 hrs
3 cr.
FREN 35300 - Survey of Francophone Literature

GER 3/A

A study of literature produced in French-speaking regions and nations (other than France) such as North and West Africa, the Caribbean, Vietnam and Quebec.

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36000 - French Literature: Special Topics

Pluralism and Diversity
PD/D GER 3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36100 - Middle Ages and the Renaissance: Special Topics

Pluralism and Diversity
PD/D GER 3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36300 - The 18th Century: Special Topics

Pluralism and Diversity
PD/D GER 3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36500 - The 20th Century: Special Topics

Pluralism and Diversity
GER 3/A PD/D

Topics to be offered may include single authors, themes, genres, movements, or approaches.

prereq: FREN 34100 and 34200
FREN 37500 - Seminar in French Literary History

Pluralism and Diversity
PD/D
GER
3/A

Readings, discussion and reports.
prereq: FREN 34100 and 34200; five courses in French major
3 hrs
3 cr.

FREN 49100 - Honors Course in French

Pluralism and Diversity
PD/D
Open to Jr/Sr only. Research in history of French literature.
prereq: FREN 34400, 34600, 34800; major GPA 3.2, cum GPA 2.8; perm adviser
3 hrs
3 cr.

FREN 49500 - Independent Study in French Literature

prereq: perm adviser
1-3 cr.

3 credits in Second Language Acquisition chosen from:

FREN 39900 - Second Language Acquisition

prereq: at least three courses at the 300 level in the language; ENGL 12000
3 hrs
3 cr.
• FREN 49500 - Independent Study in French Literature

Education Requirements (27 credits)

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
3 hrs
3 cr.
SEDIF 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDIF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.
prereq: SEDIF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDIF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.
prereq: SEDIF 20500, SEDF 21000
2 per week plus lab
2 cr.

SEDIF 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.
3 hrs
3 cr.

SEDIF 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.
prereq or coreq: SEDIF 20300, 20400
3 hrs
3 cr.

SEDIF 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.
prereq: SEDF 20300, 20400
1 hr
1 cr.
SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.

prereq: SEDC 21200
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDCP 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

SEDCP 45220 - Student Teaching in French, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified French teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.
School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Teaching Languages Other Than English: Italian, Grades 7-12- BA

Teaching Languages Other Than English Grades 7-12- Italian BA leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary school. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Italian.
- Participation in a group interview.
Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Course of Study

Academic Plan: ITAADED-BA

Credits: 60 - 72

Italian Requirements (33-45 credits)

Students who demonstrate proficiency in Italian through a placement exam may be exempted from some courses.

0-12 credits from:

ITAL 10100 - Elementary Italian I

Language lab.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two. ITAL 10100 not usually credited without ITAL 10200. For details about credit policy, please see Foreign Language Requirement.

3 hrs
3 cr.

ITAL 10200 - Elementary Italian II

Language lab.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.

prereq: ITAL 10100 or one yr high school Italian

3 hrs
3 cr.
ITAL 20100 - Intermediate Italian I

Language lab mandatory.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.

**prereq:** ITAL 10200 or 2 yrs high school Italian

3 hrs
3 cr.

ITAL 20200 - Intermediate Italian II

Language lab mandatory.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an intensive sequence (ITAL 103-203) that covers in one semester material normally covered in two.

**prereq:** ITAL 201 or three yrs high school Italian

3 hrs
3 cr.

-or-
ITAL 10300 - Intensive Elementary Italian may be substituted for ITAL 10100 and ITAL 10200
ITAL 20300 - Intensive Intermediate Italian may be substituted for ITAL 20100 and ITAL 20200

3 credits from:

ITAL 31100 - Advanced Italian Grammar

**Education Requirements (27 credits)**
SED 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

SED 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

SED 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SED 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SED 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

SED 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.

prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.
**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*prereq: SEDF 20300, 20400*
*1 hr*
*1 cr.*

**SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12**

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.

*prereq: SEDC 21200*
*prereq or coreq: SEDC 20500, SEDC 21000*
*2 hrs per week plus 48 hrs fieldwork*
*2 cr.*

**SEDCP 34100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

*coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500*
*15 hours of seminar; 48 hours of fieldwork*
*1 cr.*

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

*prereq: 12 credits of coursework*
*45 hrs*
*3 cr.*
SEDCP 45260 - Student Teaching in Italian, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Italian teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Teaching Languages Other Than English: Spanish, Grades 7-12- BA

The BA program in Adolescent Teaching Languages Other Than English leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.
Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Spanish.
- Participation in a group interview.

Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Course of Study

Academic Plan: SPANAED-BA

Credits: 60 - 72

Spanish Requirements (33-45 credits)

1. Introductory Spanish (0-12 credits)

Students who demonstrate proficiency in Spanish through a placement exam or prior study may be exempted from some courses at the 100 and 200 level.

2 cr.

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.

prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.

prereq: SEDC 21200
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.
SEDCP 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

SEDCP 45280 - Student Teaching in Spanish, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Spanish teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

**Education: Adolescent**

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs

3 cr.

**SEDC 21100 - Young Adult Literature in Our Diverse Society**

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English language arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

*prereq or coreq: SEDF 20300, 20400*

3 hrs

3 cr.

**SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12**

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.

*prereq or coreq: SEDF 20300, 20400*

3 hrs

3 cr.

**SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12**

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

*prereq or coreq: SEDF 20300, 20400*

3 hrs

3 cr.

**SEDC 21500 - Methods I: Classroom Organization, Management, and Instruction in Social Studies, Grades 7-12**

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

*prereq or coreq: SEDF 20300, 20400*
3 hrs
3 cr.

**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*prereq: SEDF 20300, 20400*

1 hr
1 cr.

**SEDC 32100 - Teaching English Methods to a Diverse Population in Grades 7-12**

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. State and city teaching standards will be applied throughout the course.

*prereq: SEDC 21100*
*prereq or coreq: SEDF 20500, SEDC 21000*

2 hrs per week plus 48 hrs fieldwork
2 cr.

**SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12**

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.

*prereq: SEDC 21200*
*prereq or coreq: SEDF 20500, SEDC 21000*

2 hrs per week plus 48 hrs fieldwork
2 cr.

**SEDC 32300 - Methods II: Teaching Diverse Learners in Mathematics, Grades 7-12**

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 21300*
*prereq or coreq: SEDF 20500, SEDC 21000*

2 hrs per week plus 48 hrs fieldwork
2 cr.

**SEDC 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12**
Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 21300
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDC 32500 - Methods II: Teaching Diverse Learners in Social Studies, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 21500
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDCP 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SEDCP 45100 - Student Teaching in English, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified English teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than
one in the liberal arts.

prereq: SEDC 32100
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SEDCP 45210 - Student Teaching in Chinese, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Chinese teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SEDCP 45220 - Student Teaching in French, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified French teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SEDCP 45230 - Student Teaching in German, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified German teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

**SEDCP 45250 - Student Teaching in Hebrew, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Hebrew teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

*prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.*

**SEDCP 45260 - Student Teaching in Italian, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Italian teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

*prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.*

**SEDCP 45270 - Student Teaching in Russian, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Russian teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

*prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.*

**SEDCP 45280 - Student Teaching in Spanish, Grades 7-12**
Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Spanish teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

**prereq:** SEDC 32200  
**prereq or coreq:** SEDF 20600  
2 hrs per week, 60 days student teaching plus workshops and conferences  
5 cr.

**SEDCP 45300 - Student Teaching in Mathematics, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified math teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

**prereq:** SEDC 32300  
**prereq or coreq:** SEDF 20600  
2 hrs per week, 60 days student teaching plus workshops and conferences  
5 cr.

**SEDCP 45410 - Student Teaching in Biology, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

**prereq:** SEDC 32400  
**prereq or coreq:** SEDF 20600  
2 hrs per week, 60 days student teaching plus workshops and conferences  
5 cr.

**SEDCP 45420 - Student Teaching in Chemistry, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32400
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SEDCP 45430 - Student Teaching in Physics, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified physics teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32400
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SEDCP 45500 - Student Teaching in Social Studies, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified social studies teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32500
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool- community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
3 hrs
3 cr.

SEDF 20400 - Adolescent Development
The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

*prereq: SEDF 20300, 20400*

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000*

2 per week plus lab
2 cr.

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

*prereq: 12 credits of coursework*

45 hrs
3 cr.

**Education: Early Childhood**

**ECC 30000 - Early Childhood Programs and Curricular Frameworks**

Students will gain an in-depth understanding of the array of early childhood programs that comprise the field of early care and education. In addition, students will learn about philosophies and approaches to curriculum that are commonly used in early childhood settings including Montessori education, Reggio Emilia, the Project Approach, High Scope Curriculum, and the Creative Curriculum.

*coreq: ECF 20000, ECF 20100*

3 hrs
3 cr.

**ECC 30100 - Field work/Internship 1**
This supervised experience gives students the means to connect conceptual and theoretical information about children in a preschool setting. Students will have the opportunity to examine the developmental progression of early and emergent skills as they relate to infant, toddler, and preschoolers' development. Students will also have the opportunity to discuss developmentally appropriate assessments and how parents/caregivers can document developmental milestones of children birth through age 4.

Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

**ECC 30100, 30200, 30300 - Field work/Internships**

These field work experiences are companion courses for three content classes: ECC 30400, ECC 30800, and ECC 31100. Refer to the four and six-semester sequence charts for a detailed listing of other co-requisites. 

companion courses for three content classes: ECC 30400, ECC 30800, and ECC 31100.

1 per course
3 cr. total

**ECC 30200 - Field work/Internship 2**

This supervised experience gives students the means to connect conceptual and theoretical information about children in kindergarten through second grade. Students will have the opportunity to examine the listening, speaking, reading, and writing development of young children across a variety of cultural and linguistic communities. Students will examine the roles of families, programs, schools, and communities in urban environments, as well as the assessment of early literacy development.

Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

**ECC 30300 - Field work/Internship 3**

This supervised experience gives students the means to connect conceptual and theoretical information about children in first or second grade. Students will have the opportunity to examine developmentally appropriate activities for
children and ways of assessing learning in diverse settings. Students will examine the roles of families, programs, schools, and communities in urban environments, as well as the assessment of mathematical and science development. Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30100, ECC 30200, ECC 30400, ECC 30500, ECC 30600, ECC 30800

coreq: ECC 31000

50 hrs.

1 cr.

Offered fall and spring

ECC 30400 - Creative Arts and Play-Based Learning

Theoretical and practical aspects of play, creativity and arts-based learning are the central tenets of this course. Students will gain fundamental knowledge for constructing playful learning experiences across early learning settings, particularly within the context of the standards-based, high-stakes accountability climate of education in the United States and beyond.

prereq: ECC 30000, ECF 20000, ECF 20100

2 hrs

2 cr

ECC 30500 - Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)

This course is grounded in research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of literacy development between Birth and age 4 and the role of families, programs and schools in early literacy development.

prereq: 6 credits of foreign language; ECC 30000, ECF 20000, ECF 20100

3 hrs

3 cr.

ECC 30600 - Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade

Theoretical and practical aspects of early childhood literacy instruction with particular emphasis on teaching literacy to diverse populations between the grades of Kindergarten and 2nd grade will be addressed. In addition, the role of family and community involvement and the use of technology for literacy development.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500

3 hrs

3 cr.

ECC 30800 - Inclusionary Practices and Teaching Children of Diverse Backgrounds
An overview of children with exceptional cognitive, physical, social, and/or emotional characteristics, including learning disabilities. Students will also gain knowledge and skills on working with children who are emerging language learners (ELLs). Assessment and screening strategies will be discussed to meet the educational needs of all students.

**prereq:** ECF 20000, ECC 30000, ECC 30500

3 hrs

3 cr.

**ECC 31000 - Mathematics in Early Childhood**

Examines the theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth through second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings.

**prereq:** MATH 1040; ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800

3 hrs

3 cr.

**ECC 31100 - Early Childhood Science and Inquiry-Based Learning**

Explores the theories and research of scientific thinking in young children. Assessing science learning in diverse infant, toddler, preschool and grade K-2 settings and how to incorporate the use of community resources in scientific learning will be discussed.

**prereq:** Two semesters of natural science which must include: 3 credits eligible to meet CUNY Common Core in Life and Physical Sciences and 3 credits eligible to meet CUNY Common Core in Scientific World (CSCI and ECO courses do not qualify for this requirement); ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500, ECC 30600, ECC 30800

2 hrs

2 cr.

**ECC 31400 - Health, Family, and Community Partnerships**

This course gives students the means to understand how to promote children's health, safety, and nutrition. Students will also gain skills and knowledge needed to foster positive, reciprocal relationships with families of diverse backgrounds. In meeting the NYSDOE mandate, child abuse, drug abuse prevention, prevention of school violence, anti-bullying, and fire safety workshops are included.

**prereq:** ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31100

3 hrs

3 cr.

**ECC 40100 - Student Teaching**

Students will complete one semester of student teaching in early childhood settings, including preK settings, kindergarten, first, and second grade classrooms. Students will complete their student teaching in at least two of the following early childhood settings: pre-kindergarten, kindergarten, first grade or second grade. Students will attend seminar for 30 hours during the semester to discuss topics that range from classroom management to supporting children with diverse learning needs. During student teaching, students will complete the Teacher Performance Assessment (edTPA).

**prereq:** ECF 20000, ECF 20100, ECF 40200 ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC
ECF 20000 - Human Development and Theories of Learning, Prenatal-Age 8

This course will examine the history of child development and the major theories and theorists in the area of child development. An understanding of research strategies and the impact of cultural, biological and environmental influences on the development of young children will also be examined. Current research in the areas of prenatal development, physical, cognitive, language, social, emotional and early brain development will also be discussed.

_prereq: ENGL 12000
_coreq: ECF 20100, ECC 30000

ECF 20100 - Social and Historical Foundations of Early Childhood Care and Education

An examination and analysis of the social and historical contexts of early childhood education including applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

_coreq: ECF 20000; ECC 30000

ECF 40000 - Assessment in Early Childhood, Birth through 2nd Grade

Provides students with an understanding of the role of assessment for planning and implementing effective early childhood instruction for young children, ages birth to age eight, from culturally diverse environments and with varied learning needs.

_prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100

Education: Quest (Childhood)

EDUC 25000 - Introduction to Urban Education: Topics and Issues around Diversity and Equity (W)

Pluralism and Diversity

An introduction to urban education, specifically focusing on both current pedagogical approaches and the various historical, socioeconomic, sociocultural, and political factors that influence schools, with an eye to equity and justice as means to closing the achievement gap for marginalized populations of students.

This course is open to all Hunter students, and does not require admission to a School of Education program.

_prereq: ENGL 12000

3 hrs
3 cr.
QSTA 40080 - The Art of Effective Teaching

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

3 hrs
3 cr.

QSTA 40180 - Developmental Reading

Theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology for literacy development will be stressed.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

coreq: QSTB 20280, QSTP 30000
prereq or coreq: QSTA 40080
2 hrs
2 cr.

QSTA 40680 - Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: MATH 10400, 10500, QSTA 41080, 41280, QSTP 30000
coreq: QSTB 41380, QSTP 30200
2 hrs
2 cr.

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than
QSTA 41080 - Literacy Across the Content Areas

Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

QSTA 41480 - Teaching Science in Elementary Schools

This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their co-requisite student teaching in science.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.
2 hrs
2 cr.

**QSTAP 41580 - Student Teaching**

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

**prereq:** QSTAP 40680, 40780, QSTB 41380, QSTP 30200, HED 31400

**coreq:** QSTAP 41480

2 per week of seminar plus student teaching

4 cr.

**QSTB 20280 - Child Growth and Development**

The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical application of developmental theories and research to diverse populations will be emphasized. Contextual influences on children's development, including family, peers and the media will be included.

**coreq:** QSTA 40100, QSTAB 30000

**prereq or coreq:** QSTA 40000

2 hrs

2 cr.

**QSTB 40380 - Social Foundations of Urban Education**

Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

**prereq:** QSTA 40100, QSTB 20200, QSTAB 30000

3 hrs

3 cr.

**QSTB 41380 - Psychology of Teaching and Learning**

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

**prereq:** QSTA 41000, 41200, QSTAB 30100

**coreq:** QSTA 40600, QSTF 30200

2 hrs

2 cr.

**QSTP 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading**
Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

QSTP 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

QSTP 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.
75 hrs
1 cr.

Education: Dance Education

DANED 30200 - Theory and Practice of Teaching Dance (pre-K-12)

Methods of teaching dance in grades pre-K-12 to students with diverse backgrounds and abilities in diverse learning environments; the organization of instruction and classroom management strategies; technological resources; community and family resources.

Field work required.
DANED changed to DANEP - effective Spring 2018 -
prereq: completed 12 cr in dance or perm dance adviser
prereq or coreq: SEDF 20400
3 hrs plus 36 hours fieldwork
4 cr.

SEDCP 45600 - Student Teaching in Dance, Grades Pre-K-12

Two 30-day supervised placements (one in grades pre-K-6 and one in grades 7-12) in New York City public schools selected by Hunter College. Special Conditions: Students must apply for student teaching the fall semester before enrolling in this course. Scores on the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examination must have been received by the coordinator of adolescent education prior to enrollment in student teaching.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq or coreq: SEDF 20600, SEDC 22000
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

Education: Health Education

HED 20100 - Women and Health

Pluralism and Diversity
PD/C
An exploration of health issues affecting women, particularly as these issues relate to the socialization of women, reproductive and sexual health, and medical practices.
cross-listed WGSP 25100
3 hrs
3 cr.

HED 30500 - Sex Education

An overview of human sexuality through affective processes with an emphasis on social and cultural influences, and the role of family and school in sexuality education.
HED 30600 - Drugs and Drug Dependencies

The nature of addiction and dependency. The course focuses on social learning theory and the role of family, school, and community in drug prevention education.

HED 48000 - Independent Study in Health Education

An exploration in an area of special interest with faculty guidance. Topic to be approved by adviser.

HEDP 31400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

Education: Research Course

EDUC 49000 - Honors Course in Educational Research

Individual research in education. Admission by permission of the chairperson.

Programs and Courses in English

English

Overview

The Department of English offers students a variety of courses in the study of literature, literary theory, composition, rhetoric, linguistics and creative writing. The department is interdisciplinary in its offerings, with a diverse faculty whose areas of research and approaches to teaching offer Hunter students a wide spectrum of historical, post-modern, theoretical, textual, and socio-cultural approaches to literary study, rhetoric and composition, linguistics and language,
and creative writing. The department encourages disciplined, original thinking and writing while its small classes promote learning through stimulating discussions.

Introductory and intermediate courses present a wide range of literary forms, periods and genres. Students who major in English choose one of five concentrations: Literatures, Language and Criticism; Creative Writing; Adolescent Education (a concentration designed for prospective high school teachers), English Language Arts and Linguistics and Rhetoric. Qualified students may enroll in honors seminars and tutorials. The English Department participates in Hunter's interdisciplinary programs in Asian American Studies, Comparative Literature, Women's and Gender Studies, and Religion. The English major provides a foundation for careers in writing, teaching, journalism, publishing, law, business, or any other career that depends on the ability to read analytically and write effectively.

What can I do with my degree in English?

The ability to write well remains a rare but prized skill in almost every field, and English majors go on to careers in a variety of professions. The analytical, writing, and speaking skills honed in the major can lead graduates to careers in fields such as marketing, technology, publishing, teaching, the arts, law, venture capital, medicine, and policy making.

Undergraduate Major

Concentration in Creative Writing (42 credits)
The concentration in Creative Writing is designed to provide students with an informed appreciation of the depth and breadth of literature written in English, as well as the opportunity to develop their own interests and skills in creative writing. Students concentrating in Creative Writing take ENGL 22000 Introduction to Writing about Literature (W) and ENGL 25200 Introduction to Literary Studies, five required courses in literature, at least four creative writing workshops and three electives.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

B.A. in English: Concentration in Creative Writing

A. Introductory Courses (6 cr)

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core

English Comp (EC)

GER

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000

3 hrs + one additional conference hour

3 cr.

ENGL 25200 - Introduction to Literary Studies

GER

3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.
prereq: ENGL 22000
3 hrs.
3 cr.

B. Five Required Literature Courses (15 cr)

1. Required Course

**ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century**

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range of authors and genres in their cultural, social, and historical contexts. Required for all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

2. Choose 1 course from the following courses in American Literature

**ENGL 30700 - Survey of American Literature: From Origins to the Civil War**

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches. Required of all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 39600 - American Prose from Reconstruction to World War I**

GER
3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 39700 - Pre-20th Century American Poetry**

GER
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the
American Literature concentration.

prereq: ENGL 22000
3 hrs
3 cr.

3. Choose 1 course from the following courses in Multi-Ethnic or Transnational Literatures written in English

**ENGL 31800 - Topics in Literature of Non-European Americans (W)**

Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 32000 - Multi-Ethnic American Literature (W)**

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 32100 - Topics in African American Literature**

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 32500 - Post-Colonial Literature in English (W)**
Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

4. Choose 1 course from the following courses in Literary Theory, Linguistics, or Rhetoric

ENGL 30600 - Introduction to Literary Theory (W)

GER
3/A

An introduction to major theories of literature, with an emphasis on contemporary trends.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 28000 - The Structure of Modern English
This course offers an introduction to the study of the linguistic and rhetorical structures of English, in particular sound systems (phonology), word formation (morphology), grammatical constructions (syntax), and language as social and cultural practice (discourse analysis and stylistics).

**ENGL 33200 - History of the English Language (W)**

The diversity and spread of English across the globe. The effects of language contact on English.

**ENGL 34000 - History of Rhetoric**

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

**ENGL 34800 - English Across the World**

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.

**5. Choose one 300 or 400 level English course with a focus on literature or rhetoric before 1800**

Students may choose from among the following English courses:

**ENGL 31700 - Topics in Non-European Literary Traditions (W)**

Pluralism and Diversity
PD/A
GER
3/A
Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester.

**ENGL 31800 - Topics in Literature of Non-European Americans (W)**

**Pluralism and Diversity**
**PD/B**
**GER**
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

**prereq:** ENGL 22000
**3 hrs**
**3 cr.**

**ENGL 31900 - Topics in Literature by Women (W)**

**Pluralism and Diversity**
**PD/C**
**GER**
3/A

Study of selected works by women in relation to a particular literary, cultural, historical, or theoretical theme.

**cross-listed** WGSA 31900
**prereq:** ENGL 22000
**3 hrs**
**3 cr.**

**ENGL 32100 - Topics in African American Literature**

**Pluralism and Diversity**
**PD/B**
**GER**
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

**prereq:** ENGL 22000
**3 hrs**
**3 cr.**

**ENGL 32200 - Topics in Gender and Sexuality in Literature**

**Pluralism and Diversity**
**PD/C**

Study of selected works examining gender and sexuality in literature in relation to a particular literary, cultural,
ENGL 32300 - Topics in Asian American Literature

Pluralism and Diversity
PD/B
Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32400 - Topics in Native American Literature

Pluralism and Diversity
PD/B
GER
3/A
Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32600 - Topics in US Latina/o Literature

Pluralism and Diversity
PD/B
Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)

Pluralism and Diversity
PD/A
GER
3/A
Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.
ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

ENGL 33400 - Beowulf and Other Early Texts

This course will introduce students to the Old English language through the study of its literature, and it will be organized around a topic to be determined by a faculty member. Students will learn the fundamentals of Old English grammar and pronunciation so that they can read Old English texts with the aid of a dictionary; hence students will deepen their research and writing skills.

ENGL 33500 - Chaucer

Pluralism and Diversity
PD/D
GER
3/A
Study of Chaucer, with emphasis on The Canterbury Tales.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 33600 - Medieval Literature (1100-1500)**

**GER**

3/A

A survey of selected works from across the medieval period, encompassing a range of authors and literary genres

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 33700 - Literary Aspects of Folklore**

**GER**

3/A

Studies of folktales, ballads and legends in their relationship to written literature.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 34000 - History of Rhetoric**

**GER**

3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 34200 - Topics in Rhetoric**

**GER**

3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

*prereq:* ENGL 22000

3 hrs

3 cr.
ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 35000 - Renaissance Drama

Pluralism and Diversity
GER 3/A

A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35100 - The Age of Elizabeth I

Pluralism and Diversity
PD/D
GER
3/A

Major emphasis on the work of Spenser; readings in other Elizabethan poetry and prose.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35200 - Shakespeare Survey

Pluralism and Diversity
PD/D
GER
3/A

A survey of Shakespeare's works from across his career.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35300 - Shakespeare I
Pluralism and Diversity
PD/D
GER
3/A

Study of works from first half of Shakespeare's career.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35400 - Shakespeare II

Pluralism and Diversity
PD/D
GER
3/A

Study of works from second half of Shakespeare's career.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35500 - Topics in Shakespeare (W)

GER
3/A

Study of Shakespeare's works in relation to a particular literary, historical, or theoretical theme
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35900 - Topics in Seventeenth-Century Literature

Poetry, prose and/or drama of the seventeenth century. Representative authors may include John Donne, Ben Jonson, Amilia Lanyer, Katherine Philips, John Milton, George Herbert, Lady Mary Wroth, Francis Bacon and Andrew Marvell.
prereq: ENGL 22000
3 hrs
3 cr

ENGL 36000 - The 17th Century

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative works from the period in their cultural, social, and historical contexts. Authors may include Donne, Cary, Philips, Marvell, Herrick, Milton, and Rochester.
prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 36100 - Milton**

**Pluralism and Diversity**
**PD/D**
**GER**
3/A

Poetry and selected prose of Milton, with special emphasis on Paradise Lost.
*prereq: ENGL 22000*
3 hrs
3 cr.

**ENGL 36200 - English Drama of Restoration and 18th Century**

**Pluralism and Diversity**
**PD/D**
**GER**
3/A

A survey of representative works of the period in their cultural, social, and historical contexts. Authors may include Behn, Etherege, Wycherley, Dryden, Otway, Congreve, Centlivre, Gay, Goldsmith and Sheridan.
*prereq: ENGL 22000*
3 hrs
3 cr.

**ENGL 36300 - Topics in Milton**

Study of Milton's works in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.
*prereq: ENGL 22000*
3 hrs
3 cr

**ENGL 36400 - The Age of Satire**

**Pluralism and Diversity**
**PD/D**
**GER**
3/A

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Dryden, Manley, Pope, Montagu and Swift.
*prereq: ENGL 22000*
3 hrs
3 cr.

**ENGL 36500 - The Later 18th Century**
ENGL 36800 - The 18th Century English Novel

A survey of representative novels of the period in their cultural, social, and historical contexts. Authors may include Behn, Haywood, Fielding, Richardson, Sterne, Burney, and Austen.

prereq: ENGL 22000

ENGL 37100 - Topics in Romantic Literature

Study of selected works and writers of the British Romantic period in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

prereq: ENGL 22000

ENGL 37200 - Romantic Poetry

Study of major poets of the Romantic period in their cultural, social, and historical contexts. Authors may include Wordsworth, Coleridge, Byron, Shelley, Keats, Blake, Clare, Barbauld, Smith and Yearsley.

prereq: ENGL 22000

ENGL 38200 - Topics in Medieval Literature

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic. May include study of Old and/or
Middle English.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 38300 - Topics in Renaissance Literature**

**GER**

3/A

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 38400 - Topics in Restoration and 18th Century Literature**

**GER**

3/A

Topics vary from semester to semester.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 38600 - Topics in British and American Literature**

**Pluralism and Diversity**

PD/C or PD/D (some topics)

**GER**

3/A

Topics vary from semester to semester. Check the schedule of classes and with the undergraduate adviser to see which topics meet PD requirements.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 38700 - Topics in British and/or Irish Fiction**

**GER**

3/A

Study of selected works and writers in relation to a particular literary, cultural, historical or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with an undergraduate adviser.

May be repeated once for credit with a different topic.

*prereq:* ENGL 22000

3 hrs

3 cr.
ENGL 38800 - Topics in Multi-Genre British and/or Irish Literature

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38900 - One Major Writer (W)

Pluralism and Diversity
PD/C or D
GER
3/A

Authors vary from semester to semester. May be taken more than once with permission of dept. Some authors may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39100 - Topics in British and/or Irish Poetry

Study of selected works and poets in the British and/or Irish poetry canon in relation to a particular literary, cultural, historical, or theoretical theme

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39200 - Topics in American Poetry

Study of selected American poetry in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39400 - World Literature: Drama

GER
3/A

Selected plays, classical, medieval and modern, including dramatic criticism.
prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 39800 - Topics in American Fiction**

Pluralism and Diversity
PD/C
GER
3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000 ENGL 39500 or ENGL 39600
3 hrs
3 cr.

**ENGL 39900 - Topics in American Multi-Genre Literature (W)**

Pluralism and Diversity
PD/C
GER
3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000, ENGL 39500 or ENGL 39600
3 hrs
3 cr.

**ENGL 49000 - Advanced Seminar in Literature and Criticism**

Focused study of and research on a selected author or authors, texts and/or periods in relation to a particular literary, linguistic, rhetorical, cultural, historical, or theoretical theme.

prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 30400 (currently ENGL 33800), ENGL 30600, ENGL 30700 (currently ENGL 39500); and one of ENGL 31700, ENGL 31800, ENGL 32000, ENGL 32100, ENGL 32300, ENGL 32400, ENGL 32500, ENGL 32600, ENGL 32700, or ENGL 32900
3 hrs.
3 cr.

**ENGL 49400 - Honors Seminar: Special Studies**

Pluralism and Diversity
PD/C
GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
• Students may use a period appropriate Honors Seminar to satisfy this requirement. Students may not use ENGL 30400 or ENGL 30700 to satisfy this requirement.
• Topics courses must conform to the pre-1800 period requirement. Consult individual course descriptions or an English advisor for guidance.

C. Four Required Creative Writing Workshops (12 cr)

1. All students who are planning to concentrate in Creative Writing must first take:

ENGL 28500 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.
Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.
prereq: ENGL 22000
3 hrs
3 cr.

2. Students must then take 3 more creative writing workshops from the following, at least one of which must be a level-II workshop.

Note: Students may repeat level-II workshops once for credit. Students may not take a Level-II Workshop without first taking the Level-I Workshop in that genre. Students may not take ENGL 48400 without first taking a Level-II Workshop in that genre.

ENGL 30800 - Workshop in Non-Fiction I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.
prereq: ENGL 30000
3 hrs
3 cr.

ENGL 30900 - Workshop in Non-Fiction II
A continuation of Workshop in Non-Fiction I, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

**ENGL 31100 - Workshop in Fiction I**

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of fiction.

*prereq: ENGL 30000
3 hrs
3 cr.*

**ENGL 31300 - Workshop in Fiction II**

A continuation of ENGL 31100, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

*prereq: ENGL 30000 and ENGL 31100
3 hrs
3 cr.*

**ENGL 31400 - Workshop in Poetry I**

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of poetry.

*prereq: ENGL 30000
3 hrs
3 cr.*

**ENGL 31600 - Workshop in Poetry II**

A continuation of ENGL 31400, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

*prereq: ENGL 30000 and ENGL 31400*
ENGL 48400 - Advanced Seminar in Creative Writing

GER
3/A

Advanced seminar in a specific genre of creative writing (fiction, poetry, or creative non-fiction), with an emphasis on craft, style, and/or strategies for creative writers.

prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 28500 (formerly 30000), ENGL 30400, ENGL 30700, level I and level II workshops in specified genre (30800 and 30900; 31100 and 31300; or 31400 and 31600).

D. Three Electives (9 cr.)

Electives may be chosen from any of the department's 300- or 400-level courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). In special cases, full-time faculty may find it appropriate to supervise a student who is interested in taking on an individual creative project for 3 credits; this option is listed in the catalogue, and in semester-by-semester class postings, as ENGL 48500: Independent Tutorial Study. Successful completion of such a course may also, if arranged beforehand, qualify as an Honors course. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

Degree Map

Degree Map for English: Creative Writing

Concentration in English Language Arts (42 credits)

Return to Programs and Courses in English

The concentration in English Language Arts is designed to provide students with experience in the study of literature, language, rhetoric, and writing. While it is designed and intended primarily for prospective elementary school teachers, the concentration is open to all students. The English department strongly recommends that students choose at least one Language, Writing, or Modern/Contemporary Literature elective course.

Note: Double majors may count the course toward the requirements for only one of their majors. Students wishing to take a 300-level course that is not listed below must get prior written consent from an English advisor, and any such course is subject to the pre-requisites of the department in which the course is taken. Students also enrolled in the
QUEST major may satisfy one of their ELA elective requirements by taking any Art History, Music History, Theatre, or Dance History course. Taking one of these courses will also satisfy 3 credits of the QUEST Arts Distribution requirement. This option is available only to ELA majors who are also majoring in QUEST.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

BA in English: Concentration in English Language Arts

A. Introductory Courses (6 cr)

**ENGL 22000 - Introduction to Writing about Literature (W)**

**Hunter Core**

English Comp (EC)

**GER**

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

*prereq: ENGL 12000*

3 hrs + one additional conference hour

3 cr.

**ENGL 25200 - Introduction to Literary Studies**

**GER**

3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

*prereq: ENGL 22000*

3 hrs.

3 cr.

B. Four Required Literature Courses (12 cr)

1. Three Required Courses
ENGL 30500 - Studies in Children’s Literature

GER
3/A

Selected works of children's literature in relation to a special theme, technique, theoretical issue, or cultural consideration.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts. Required for all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

2. Choose 1 course from among the following courses in American Literature (3 cr)

ENGL 30700 - Survey of American Literature: From Origins to the Civil War

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches. Required of all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39600 - American Prose from Reconstruction to World War I
GER
3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin. 

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39700 - Pre-20th Century American Poetry

GER
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.

prereq: ENGL 22000
3 hrs
3 cr.

C. Two Required Language and/or Rhetoric Courses (6 cr)

1. Required Course

ENGL 28000 - The Structure of Modern English

This course offers an introduction to the study of the linguistic and rhetorical structures of English, in particular sound systems (phonology), word formation (morphology), grammatical constructions (syntax), and language as social and cultural practice (discourse analysis and stylistics).

prereq: ENGL 22000
3 hrs
3 cr.

2. Choose 1 course from among the following (3 cr):

ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000

ENGL 34000 - History of Rhetoric

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

prereq: ENGL 22000

ENGL 34200 - Topics in Rhetoric

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

prereq: ENGL 22000

ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.

prereq: ENGL 22000
D. Two Required Courses in Writing (6 cr.)

1. Required Course

**ENGL 30100 - Composition Theory and Practice**

GER
3/A

Study of the theory and practice of academic composition.

*prereq: ENGL 22000*
3 hrs
3 cr.

2. Choose 1 course from among the following (3 cr):

**ENGL 28500 - Introduction to Creative Writing**

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods. Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.

*prereq: ENGL 22000*
3 hrs
3 cr.

**ENGL 30800 - Workshop in Non-Fiction I**

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.

*prereq: ENGL 30000*
3 hrs
3 cr.

**ENGL 34100 - Rhetorical Criticism**

GER
3/A

This course will focus on rhetorical criticism as a genre of academic writing.

*prereq: ENGL 22000*
3 hrs
3 cr.

E. Four Electives (12 cr)

Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both.

NOTE: Students also enrolled in the QUEST major may satisfy one of their ELA elective requirements by taking any Art History, Music History, Theatre, or Dance History course. Taking one of these courses will also satisfy 3 credits of the QUEST Arts Distribution requirement. This option is available only to ELA majors who are also majoring in QUEST. To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

Degree Map

Degree Map for English: Language Arts

Concentration in English: Preparation for Secondary School Teaching (42 credits)

Return to Programs and Courses in English

The concentration in English: Preparation for Secondary School Teaching is designed to prepare students to teach English in grades 7-12 by providing a foundation in British, American, and Multi-Ethnic literatures, as well as writing and language studies. Students choosing this concentration take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies, 18 credits of required literature courses, 6 credits of required writing courses, a 3-credit language course, and three electives chosen from among 300- and 400-level courses offered by the Department, with the option to choose one of their three electives from a menu of courses in other departments and programs. When taken together with the requirements for the Secondary Education minor of the School of Education, this program meets initial certification requirements for New York State and New York City public schools. Students interested in the Education minor must apply to the School of Education for admission. Students who do not wish to pursue certification need not take the Secondary Education minor. Eligible English: Preparation for Secondary School Teaching majors may pursue English Departmental Honors by taking ENGL 49400 Honors Seminar.

Note: The English Department strongly recommends that students take at least one modern or contemporary literature course.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019
Courses  CUNY Common Core

prereq: ENGL 22000

3 hrs.

3 cr.

B. Six Required Literature Courses (18 cr)

1. Three Required Courses (9 cr)

ENGL 30300 - Western Literary Backgrounds of British and American Literature

Pluralism and Diversity
PD/D
Major works of Western drama, poetry, and prose in translation, which may include the Bible and Greek and Roman epic, and exploration of their influence on works from other periods

prereq: ENGL 22000

3 hrs

3 cr.
ENGL 30600 - Introduction to Literary Theory (W)

GER
3/A

An introduction to major theories of literature, with an emphasis on contemporary trends.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts. Required for all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

2. Choose 1 course from the following (3 cr):

ENGL 35200 - Shakespeare Survey

Pluralism and Diversity
PD/D
GER
3/A

A survey of Shakespeare's works from across his career.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35300 - Shakespeare I

Pluralism and Diversity
PD/D
GER
3/A

Study of works from first half of Shakespeare's career.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35400 - Shakespeare II

Pluralism and Diversity
PD/D
GER
Study of works from second half of Shakespeare's career.

*prereq: ENGL 22000
3 hrs
3 cr.*

3. Choose 1 course from the following (3 cr):

**ENGL 30700 - Survey of American Literature: From Origins to the Civil War**

*GER*
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches. Required of all English majors.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 39600 - American Prose from Reconstruction to World War I**

3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 39700 - Pre-20th Century American Poetry**

*GER*
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.

*prereq: ENGL 22000
3 hrs
3 cr.*

4. Choose 1 course from the following (3 cr)

**ENGL 32000 - Multi-Ethnic American Literature (W)**

*Pluralism and Diversity
PD/B
GER*
Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

prereq: ENGL 22000
3 hrs
3 cr.

C. Required Writing Courses (6 cr)

1. Theory and Practice of Expository Writing (3 cr)

ENGL 30100 - Composition Theory and Practice

GER
3/A

Study of the theory and practice of academic composition.

prereq: ENGL 22000
3 hrs
3 cr.

2. Choose 1 course from the following (3 cr.)

ENGL 28500 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.

Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.

prereq: ENGL 22000
3 hrs
3 cr.
ENGL 34100 - Rhetorical Criticism

GER
3/A

This course will focus on rhetorical criticism as a genre of academic writing.

prereq: ENGL 22000
3 hrs
3 cr.

D. Required Language Course (3 cr)

ENGL 28000 - The Structure of Modern English

This course offers an introduction to the study of the linguistic and rhetorical structures of English, in particular sound systems (phonology), word formation (morphology), grammatical constructions (syntax), and language as social and cultural practice (discourse analysis and stylistics).

prereq: ENGL 22000
3 hrs
3 cr.

E. Three Electives (9 cr)

Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Degree Map

Degree Map for English: Preparation for Secondary School Teaching BA

Concentration in Linguistics and Rhetoric (42 credits)
The concentration in Linguistics and Rhetoric is designed to provide students with a comprehensive course of study in the structures, uses, and ideologies of discourse in various types of texts, genres, and domains: from everyday talk to persuasive writing. Students will gain a complex understanding of spoken and written discourse by comparing a wide range of philosophical underpinnings, theoretical perspectives, and methodological approaches. This concentration is particularly suited for students who are interested in graduate study in Linguistics, Rhetoric, Applied Linguistics, and Teaching English to Speakers of Other Languages (TESOL).

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCC], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses  CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major

A. Required Courses

1. Required Courses (9 cr.)

**ENGL 22000 - Introduction to Writing about Literature (W)**

Hunter Core

English Comp (EC)

GER

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

*prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.*

**ENGL 25200 - Introduction to Literary Studies**

GER

3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

*prereq: ENGL 22000*
ENGL 28000 - The Structure of Modern English

This course offers an introduction to the study of the linguistic and rhetorical structures of English, in particular sound systems (phonology), word formation (morphology), grammatical constructions (syntax), and language as social and cultural practice (discourse analysis and stylistics).

prereq: ENGL 22000
3 hrs
3 cr.

2. Choose 2 additional courses in linguistics chosen from the following (6 cr)

ENGL 30100 - Composition Theory and Practice

GER
3/A

Study of the theory and practice of academic composition.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
Discourse analysis has been informed by several academic disciplines, including anthropology, linguistics, philosophy, literary theory, and sociology. Since there are many ways to define and analyze discourse, there exist multiple, and often conflicting, approaches to the study of language use. This course is an introduction to various methods of discourse analysis, which will be explored through critical reading and discussion, and through hands-on application of these methods on actual discourse data.

**prereq: ENGL 22000**

3 hrs
3 cr

### ENGL 34700 - Language and Ethnicity

**Pluralism and Diversity**

PD/B

GER

3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as code-switching, crossing, mocking, passing, interethnic communication, and language prejudice.

**prereq: ENGL 22000**

3 hrs
3 cr

### ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.

**prereq: ENGL 22000**

3 hrs
3 cr

### 3. Theory and Practice of Expository Writing (3 cr)

### ENGL 30100 - Composition Theory and Practice

GER

3/A

Study of the theory and practice of academic composition.
4. Choose 2 courses in rhetoric from the following (6 cr)

**ENGL 34000 - History of Rhetoric**

**GER**
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

**ENGL 34100 - Rhetorical Criticism**

**GER**
3/A

This course will focus on rhetorical criticism as a genre of academic writing.

**ENGL 34200 - Topics in Rhetoric**

**GER**
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

5. Survey of British Literature I (3 cr)

**ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century**

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts. Required for all English majors.
6. Choose 1 course in American literature chosen from the following (3 cr)

**ENGL 30700 - Survey of American Literature: From Origins to the Civil War**

**GER**
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches. Required of all English majors.

**ENGL 39600 - American Prose from Reconstruction to World War I**

**GER**
3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.

**ENGL 39700 - Pre-20th Century American Poetry**

**GER**
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.

7. Choose 1 additional course in literature chosen from the following (3 cr)

**ENGL 31700 - Topics in Non-European Literary Traditions (W)**

**Pluralism and Diversity**
**PD/A**
**GER**
3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural,
ENGL 31800 - Topics in Literature of Non-European Americans (W)

Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32100 - Topics in African American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32300 - Topics in Asian American Literature

Pluralism and Diversity
PD/B

Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
ENGL 32400 - Topics in Native American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32600 - Topics in US Latina/o Literature

Pluralism and Diversity
PD/B
Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.
ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34200 - Topics in Rhetoric

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

B. Three Elective Courses (9 Credits)

Students may select electives from any 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). ENGL 30600 - Introduction to Literary Theory (W) is strongly recommended for all Linguistics and Rhetoric students. Students may also choose from courses related to linguistics or rhetoric offered in other departments, such as Anthropology (e.g., ANTHC 15100 - Introduction to Linguistics; ANTHC 32076 - Language, Sex and Gender; ANTHC 35100 - Language in Culture and Society), Classics (e.g., CLA 11000 - The Greek and Latin Roots of English, and Philosophy (e.g., PHILO 10300 - Introduction to Logic and Critical Thinking); or from courses in foreign language study that are beyond those taken in fulfillment of the foreign language requirement (e.g., advanced courses in a second language, beginning courses in a third language). All English majors also have the option to take one of their elective courses in another department. In order to do this,
students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

**Note**

*ENGL 33300 and ENGL 34200 may be taken multiple times in different topics to fulfill both required and elective courses.

**Concentration in Literatures, Language and Criticism (42 credits)**

Return to Programs and Courses in English

Majors who choose the Concentration in Literatures, Language and Criticism (42 credits) take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3), four required courses (12), three courses in a specialized area of study (9), one 300- or 400-level English course with a focus on literature or rhetoric before 1800 (3), and 4-5 electives (12-15). The department recommends that students take the six required courses early in their major studies, preferably soon after they have declared the major. The Literatures, Language and Criticism concentration is designed to provide students with exposure to a range of literary texts and traditions, as well as to a specific area of study in which to focus. The first two areas of study reflect particular national literatures, and the remaining four are designed with broader approaches to literary study in mind. With prior approval, a student may also work with an adviser to design her own area.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major**

**A. Introductory Courses (6 cr)**

ENGL 22000 - Introduction to Writing about Literature (W)
Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

ENGL 25200 - Introduction to Literary Studies

GER
3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

prereq: ENGL 22000
3 hrs.
3 cr.

to be taken within one semester of declaring the major

B. Required Courses (12 cr)

The following four courses are required for all students in this concentration:

ENGL 30600 - Introduction to Literary Theory (W)

GER
3/A

An introduction to major theories of literature, with an emphasis on contemporary trends.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts. Required for all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32000 - Multi-Ethnic American Literature (W)
Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30700 - Survey of American Literature: From Origins to the Civil War

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches. Required of all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

C. Required Area of Study (9 cr)

Students in this concentration must take three additional courses in one of the areas below. Particularly motivated students may also obtain prior approval from an adviser to design an area of their own choosing (e.g. literature by genre or by historical period, literary theory, cultural studies).

1. British and/or Irish Literatures
2. American Literatures, including African American, Asian American, Latino, and Native American
3. Transnational and/or Postcolonial Studies
4. Gender and Sexuality Studies
5. Race, Ethnicity, and/or Class Studies
6. Linguistics, Language, and/or Rhetoric
7. Transatlantic Studies

D. One 300- or 400-level English course with a focus on literature or rhetoric before 1800 (3 cr)

Note: Students may use a period appropriate Area of Study course or Honors Seminar to satisfy this requirement. Students may not use ENGL 33800 or 39500 to satisfy this requirement. Students may choose from among the following English courses:

ENGL 31700 - Topics in Non-European Literary Traditions (W)
Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester.

**prereq: ENGL 22000**

3 hrs

3 cr.

ENGL 31800 - Topics in Literature of Non-European Americans (W)

**Pluralism and Diversity**

PD/B

GER

3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

**prereq: ENGL 22000**

3 hrs

3 cr.

ENGL 31900 - Topics in Literature by Women (W)

**Pluralism and Diversity**

PD/C

GER

3/A

Study of selected works by women in relation to a particular literary, cultural, historical, or theoretical theme.

*cross-listed WGS A 31900*

**prereq: ENGL 22000**

3 hrs

3 cr.

ENGL 32100 - Topics in African American Literature

**Pluralism and Diversity**

PD/B

GER

3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

**prereq: ENGL 22000**

3 hrs

3 cr.

ENGL 32200 - Topics in Gender and Sexuality in Literature

**Pluralism and Diversity**

PD/C

Study of selected works examining gender and sexuality in literature in relation to a particular literary, cultural,
historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq:* ENGL 22000

3 hrs
3 cr.

**ENGL 32300 - Topics in Asian American Literature**

**Pluralism and Diversity**

PD/B

Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq:* ENGL 22000

3 hrs
3 cr.

**ENGL 32400 - Topics in Native American Literature**

**Pluralism and Diversity**

PD/B

**GER**

3/A

Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq:* ENGL 22000

3 hrs
3 cr.

**ENGL 32600 - Topics in US Latina/o Literature**

**Pluralism and Diversity**

PD/B

Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq:* ENGL 22000

3 hrs
3 cr.

**ENGL 32700 - Topics in Caribbean Literature (W)**

**Pluralism and Diversity**

PD/A

**GER**

3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.
ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33400 - Beowulf and Other Early Texts

This course will introduce students to the Old English language through the study of its literature, and it will be organized around a topic to be determined by a faculty member. Students will learn the fundamentals of Old English grammar and pronunciation so that they can read Old English texts with the aid of a dictionary; hence students will deepen their research and writing skills.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33500 - Chaucer

Pluralism and Diversity
PD/D
GER
3/A
Study of Chaucer, with emphasis on The Canterbury Tales.
*prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 33600 - Medieval Literature (1100-1500)**

**GER**
3/A

A survey of selected works from across the medieval period, encompassing a range of authors and literary genres

*prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 33700 - Literary Aspects of Folklore**

**GER**
3/A

Studies of folktales, ballads and legends in their relationship to written literature.

*prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 34000 - History of Rhetoric**

**GER**
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

*prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 34700 - Language and Ethnicity**

**Pluralism and Diversity**

**PD/B**

**GER**
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

*prereq: ENGL 22000*
ENGL 35000 - Renaissance Drama

Pluralism and Diversity
GER 3/A
A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton.

*prereq: ENGL 22000*

3 hrs
3 cr.

ENGL 35100 - The Age of Elizabeth I

Pluralism and Diversity
PD/D
GER
3/A

Major emphasis on the work of Spenser; readings in other Elizabethan poetry and prose.

*prereq: ENGL 22000*

3 hrs
3 cr.

ENGL 35200 - Shakespeare Survey

Pluralism and Diversity
PD/D
GER
3/A

A survey of Shakespeare's works from across his career.

*prereq: ENGL 22000*

3 hrs
3 cr.

ENGL 35300 - Shakespeare I

Pluralism and Diversity
PD/D
GER
3/A

Study of works from first half of Shakespeare's career.

*prereq: ENGL 22000*

3 hrs
3 cr.

ENGL 35400 - Shakespeare II

**Pluralism and Diversity**

**PD/D**

**GER**

3/A

Study of works from second half of Shakespeare's career.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 35500 - Topics in Shakespeare (W)**

**GER**

3/A

Study of Shakespeare's works in relation to a particular literary, historical, or theoretical theme

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 35900 - Topics in Seventeenth-Century Literature**

Poetry, prose and/or drama of the seventeenth century. Representative authors may include John Donne, Ben Jonson, Amelia Lanyer, Katherine Philips, John Milton, George Herbert, Lady Mary Wroth, Francis Bacon and Andrew Marvell.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 36000 - The 17th Century**

**Pluralism and Diversity**

**PD/D**

**GER**

3/A

A survey of representative works from the period in their cultural, social, and historical contexts. Authors may include Donne, Cary, Philips, Marvell, Herrick, Milton, and Rochester.

*prereq:* ENGL 22000

3 hrs

3 cr.

**ENGL 36100 - Milton**

**Pluralism and Diversity**

**PD/D**

**GER**

3/A

Poetry and selected prose of Milton, with special emphasis on Paradise Lost.

*prereq:* ENGL 22000
ENGL 36200 - English Drama of Restoration and 18th Century

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative works of the period in their cultural, social, and historical contexts. Authors may include Behn, Etherege, Wycherley, Dryden, Otway, Congreve, Centlivre, Gay, Goldsmith and Sheridan.

*prereq: ENGL 22000*

ENGL 36300 - Topics in Milton

Study of Milton's works in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

*prereq: ENGL 22000*

ENGL 36400 - The Age of Satire

Pluralism and Diversity
PD/D
GER
3/A

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Dryden, Manley, Pope, Montagu and Swift.

*prereq: ENGL 22000*

ENGL 36500 - The Later 18th Century

Pluralism and Diversity
PD/D
GER
3/A

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Johnson, Boswell, Blake, and Smith.

*prereq: ENGL 22000*
ENGL 36800 - The 18th Century English Novel

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative novels of the period in their cultural, social, and historical contexts. Authors may include Behn, Haywood, Fielding, Richardson, Sterne, Burney, and Austen.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 37100 - Topics in Romantic Literature

Study of selected works and writers of the British Romantic period in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 37200 - Romantic Poetry

Pluralism and Diversity
PD/D
GER
3/A

Study of major poets of the Romantic period in their cultural, social, and historical contexts. Authors may include Wordsworth, Coleridge, Byron, Shelley, Keats, Blake, Clare, Barbauld, Smith and Yearsley.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38200 - Topics in Medieval Literature

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic. May include study of Old and/or Middle English.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38300 - Topics in Renaissance Literature

GER
3/A
Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme.

**prereq:** ENGL 22000

**3 hrs**

**3 cr.**

**ENGL 38400 - Topics in Restoration and 18th Century Literature**

**GER**

**3/A**

Topics vary from semester to semester.

**prereq:** ENGL 22000

**3 hrs**

**3 cr.**

**ENGL 38700 - Topics in British and/or Irish Fiction**

**GER**

**3/A**

Study of selected works and writers in relation to a particular literary, cultural, historical or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with an undergraduate adviser.

May be repeated once for credit with a different topic.

**prereq:** ENGL 22000

GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
1 sem
3 cr.

E. Electives (12-15 cr)

The remaining courses in the major are electives, chosen by the student. Unless a student uses an Area of Study course to fulfill the requirement, one of these courses must be a 300- or 400-level English course with a focus on literature or rhetoric before 1800.
All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.
Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English adviser and must meet all the prerequisites for the course.

Degree Map
Degree Map for English: Literature, Language, & Criticism

Degree Map for English: Creative Writing

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an English major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Notes:

One of your five 300 or 400 level electives (or, alternatively, one of your three Area of Study courses) needs to fulfill the pre 1800 course requirement.

English - BA

The English Department offers students five concentrations: (1) Literatures, Language and Criticism, (2) Creative Writing, (3) English: Preparation for Secondary School Teaching, (4) English Language Arts, and (5) Linguistics and Rhetoric. Students must take ENGL 22000 before taking any other English courses. Thirty-nine credits (13 classes) in 300- and 400-level courses are required for each concentration. Up to 6 credits in the major sequence may be taken for CR/NC.

- Concentration in Literatures, Language and Criticism (42 credits)
- Concentration in Creative Writing (42 credits)
- Concentration in English Language Arts (42 credits)
- Concentration in English: Preparation for Secondary School Teaching (42 credits)
- Concentration in Linguistics and Rhetoric (42 credits)

Literatures, Language and Criticism Concentration

Majors who choose the Concentration in Literatures, Language and Criticism (42 credits) take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3), four required courses (12), three courses in a specialized area of study (9), one 300- or 400-level English course with a focus on literature or rhetoric before 1800 (3), and 4-5 electives (12-15). The department recommends that students take the five required courses early in their major studies, preferably soon after they have declared the major.
Creative Writing Concentration

The Concentration in Creative Writing (42 credits) is designed to provide students with an informed appreciation of the depth and breadth of literature written in English, as well as the opportunity to develop their own interests and skills in creative writing. Students concentrating in Creative Writing take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3 cr), five required courses in literature (15 cr), at least four creative writing workshops (12 cr), and three electives (9 cr). The five literature requirements are: 1) ENGL 30400; 2) ENGL 30700, 39600, or 39700; 3) ENGL 31800, 32000, 32100, 32400, 32500, or 32700; 4) ENGL 30600, 28000, 33200, or 34000; and 5) One 300- or 400-level English course with a focus in literature or rhetoric before 1800. The first workshop for ALL students is the 3-genre workshop ENGL 28500: Introduction to Creative Writing, which must be passed with a grade of B or higher in order to qualify for this concentration. After successfully completing ENGL 28500, students are required to take a minimum of three additional workshops, beginning with the level-I workshop in the genre(s) in which they are interested: ENGL 30800, 31100, or 31400. Students are required to take at least one level-II workshop (ENGL 30900, 31300, or 31600) after completing the level-I workshop in that genre. Students may also take one of the special topics genre workshops (ENGL 48400) after completing both 300-level workshops in that genre. The remaining three courses for the major are electives and may be chosen from any of the department's 300- or 400-level courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). In special cases, full-time faculty may find it appropriate to supervise a student who is interested in taking on an individual creative project; this option is listed in the catalogue, and in semester-by-semester class postings, as ENGL 48500: Independent Tutorial Study. Successful completion of such a course may also, if arranged beforehand, qualify as an Honors course.

English Language Arts Concentration

The Concentration in English Language Arts (42 credits) is designed to provide students with experience in the study of literature, language, rhetoric, and writing. While it is designed and intended primarily for prospective elementary school teachers, the concentration is open to all students. Students take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3 cr), four required literature courses (12 cr), two required courses in language and/or rhetoric (6 cr), and two required courses in writing (6 cr). The remaining four courses (9 cr) are electives and may be chosen from among the following: any of the department's 300- or 400-level literature courses, including, if the student is eligible, one of the Honors seminars (ENGL 49400); any of the 300-level Creative Writing workshops for which the student has met the prerequisite(s); any 300- or 400-level courses in linguistics or literatures taught in English in other departments for which the student meets that department's prerequisite(s); and selected Theatre courses (16000, 16100, 32100, 37600, 37700, 37800) for which the student meets that department's prerequisite(s). The English department strongly recommends that students choose at least one Language, Writing, or Modern/Contemporary Literature elective course.

Concentration in Preparation for Secondary School Teaching

The Concentration in English: Preparation for Secondary School Teaching (42 credits) is designed to prepare students to teach English in grades 7-12 by providing a foundation in British, American, and Multi-Ethnic literatures, as well as writing and language studies. Students choosing this concentration take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3 cr), 18 credits of required literature courses, 6 credits of required writing courses, one 3-credit language course, and three electives chosen from among 300- and 400-level courses offered by the Department. When taken together with the requirements for the Secondary Education minor of the School of Education, this program meets initial certification requirements for New York State and New York City public schools. Students interested in the Education minor must apply to the School of Education for admission. Students who do not wish to pursue certification need not take the Secondary Education minor. Eligible
English: Preparation for Secondary School Teaching majors may pursue English Departmental Honors by taking ENGL 49400 - Honors Seminar: Special Studies.

**Teacher Education Pathway**

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

**Concentration in Linguistics and Rhetoric**

The Concentration in Linguistics and Rhetoric (42 credits) is designed to provide students with a comprehensive course of study in the structures, uses, and ideologies of discourse in various types of texts, genres, and domains: from everyday talk to persuasive writing. Students will gain a complex understanding of spoken and written discourse by comparing a wide range of philosophical underpinnings, theoretical perspectives, and methodological approaches. Students choosing this concentration will take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3 cr), three courses in linguistics (9 cr), three courses in composition and rhetoric (9 cr), three courses in literature (9 cr), and three electives (9 cr). This concentration is particularly suited for students who are interested in graduate study in Linguistics, Rhetoric, Applied Linguistics, and Teaching English to Speakers of Other Languages (TESOL).

*Note: The English Department strongly recommends that students take at least one modern or contemporary literature course.*

**Honors**

In order to qualify for departmental honors, students must take the Honors Seminar (ENGL 49400) and write an honors essay. The essay is normally written in relation to the Honors Seminar and under the supervision of the professor teaching the seminar. To take the Honors Seminar, students must first complete at least 24 credits of 300- and/or 400-level English classes with a GPA of at least 3.5 in those courses and an overall GPA of at least 2.8. Of these 24 credits, 21 must be taken at Hunter (in exceptional cases, 18 credits may suffice). The Honors Seminar requirement is in addition to the specified required courses in the student's concentration. Students interested in pursuing departmental honors should consult an undergraduate adviser. Please see the college rules on Academic Honors for more information in Academic Policies & Procedures.

**ENGL 49400 - Honors Seminar: Special Studies**

**Pluralism and Diversity**

*3 cr.*

**Note(s)**
The Honors Seminar requirement is in addition to the specified courses in the student’s major concentration. Students interested in departmental honors should consult the undergraduate adviser.

Undergraduate Minor

Minor in English

The English Department offers a 12-credit minor that provides students with an opportunity to pursue interests in literature, language, rhetoric, composition, and creative writing at the intermediate and advanced levels. The prerequisite to declare a minor is ENGL 22000 - Introduction to Writing about Literature (W). Students minoring in English may choose four courses (12 cr.) from among 200- and 300-level literature, language, or writing offerings, with a minimum of two 300-level courses necessary to satisfy the Minor requirements. Students who wish to take Creative Writing workshops in any of the three genres offered (Fiction, Poetry, and Creative Non-Fiction) must first pass ENGL 28500 - Introduction to Creative Writing , with a minimum grade of B.

NOTE: No course below English 22000 counts towards fulfillment of the Minor except ENGL 21800 - Advanced Expository Writing . English minors may not take 400-level courses.

English: Courses for English Language Learners

ENGL 00200SL - Reading II

3 hrs
2 cr.

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester
to semester. May be repeated for credit with a different topic.

**ENGL 3300 - Beowulf and Other Early Texts**

This course will introduce students to the Old English language through the study of its literature, and it will be organized around a topic to be determined by a faculty member. Students will learn the fundamentals of Old English grammar and pronunciation so that they can read Old English texts with the aid of a dictionary; hence students will deepen their research and writing skills.

**ENGL 33500 - Chaucer**

*Pluralism and Diversity*

PD/D

GER

3/A

Study of Chaucer, with emphasis on The Canterbury Tales.

**ENGL 33600 - Medieval Literature (1100-1500)**

GER

3/A

A survey of selected works from across the medieval period, encompassing a range of authors and literary genres

**ENGL 33700 - Literary Aspects of Folklore**

GER

3/A

Studies of folktales, ballads and legends in their relationship to written literature.

**ENGL 33900 - Survey of British Literature II: The Eighteenth Century to the Present**
A survey of British Literature from the eighteenth century to the present, encompassing a range of authors and genres, and employing a variety of interpretive strategies.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34000 - History of Rhetoric

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34100 - Rhetorical Criticism

GER
3/A

This course will focus on rhetorical criticism as a genre of academic writing.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34200 - Topics in Rhetoric

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34600 - Discourse Analysis

Discourse analysis has been informed by several academic disciplines, including anthropology, linguistics, philosophy, literary theory, and sociology. Since there are many ways to define and analyze discourse, there exist multiple, and often conflicting, approaches to the study of language use. This course is an introduction to various methods of discourse analysis, which will be explored through critical reading and discussion, and through hands-on application of these methods on actual discourse data.

prereq: ENGL 22000
ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.
prereq: ENGL 22000

ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.
prereq: ENGL 22000

ENGL 35000 - Renaissance Drama

Pluralism and Diversity
GER 3/A

A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton
prereq: ENGL 22000

ENGL 49000 - Advanced Seminar in Literature and Criticism

Focused study of and research on a selected author or authors, texts and/or periods in relation to a particular literary, linguistic, rhetorical, cultural, historical, or theoretical theme.

prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 30400 (currently ENGL 33800), ENGL 30600, ENGL 30700 (currently ENGL 39500); and one of ENGL 31700, ENGL 31800, ENGL 32000, ENGL 32100, ENGL 32300, ENGL 32400, ENGL 32500, ENGL 32600, ENGL 32700, or ENGL 32900
3 hrs.
3 cr.

ENGL 49200 - Advanced Seminar in Linguistics and/or Rhetoric

Advanced-level study of a special focus in Linguistics and/or Rhetoric, with a goal of producing a substantial piece of research writing. Focus may vary from semester to semester.

prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 28000, ENGL 30100; at least one of ENGL 34000, ENGL 34100, ENGL 34200, or ENGL 34300; and at least one of ENGL 33000, ENGL 33200, ENGL 33300, ENGL 34600, ENGL 34700, or ENGL 34800; and two courses at 300 or 400 level
ENGL 49400 - Honors Seminar: Special Studies

Pluralism and Diversity
PD/C
GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
1 sem
3 cr.

ENGL 49800 - Internship

GER
3/A

Opportunities of working in positions of responsibility in professional institutions for academic credit.
prereq: perm coordinator
1-6 hrs
1-6 cr.

English Composition Workshops

ENGL 34300 - Topics in Composition Studies

Focused study of aspects of composition theory and/or practice. Topics vary from semester to semester and may include the history of composition studies, new media and digital studies, and/or writing across the curriculum. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

English: Writing Courses

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.
prereq: successful completion of developmental courses, if required
ENGL 20100 - Intermediate Expository Writing Using Small-Group Methods

Additional practice in expository writing; small classes (8-10).

_prereq: ENGL 12000
3 hrs + conf
3 cr.

ENGL 21800 - Advanced Expository Writing

Frequent writing practice, with emphasis on clarity, style and organization.

_prereq: ENGL 12000
3 hrs + conf
3 cr.

ENGL 28500 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.

Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.

_prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30100 - Composition Theory and Practice

GER
3/A

Study of the theory and practice of academic composition.

_prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30800 - Workshop in Non-Fiction I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.

_prereq: ENGL 30000
ENGL 30900 - Workshop in Non-Fiction II

GER
3/A

A continuation of Workshop in Non-Fiction I, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

prereq: ENGL 30000 and 30800

3 hrs
3 cr.

ENGL 31100 - Workshop in Fiction I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of fiction.

prereq: ENGL 30000

3 hrs
3 cr.

ENGL 31300 - Workshop in Fiction II

GER
3/A

A continuation of ENGL 31100, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

prereq: ENGL 30000 and ENGL 31100

3 hrs
3 cr.

ENGL 31400 - Workshop in Poetry I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of poetry.

prereq: ENGL 30000

3 hrs
3 cr.

ENGL 31600 - Workshop in Poetry II
A continuation of ENGL 31400, with increasing emphasis on craft and revision. This course may be repeated once for credit.

**ENGL 48455 - Advanced Prose Writing**

400-Level Writing Course

**Programs and Courses in Film and Media**

**Film and Media Studies**

**Overview**

The Hunter College Department of Film and Media Studies offers three degree programs in the production and critical analysis of film and media. One program leads toward a major in Film, combining film history and theory with film production. The other leads toward a major in Media Studies, combining critical media analysis with creative practice using a mix of contemporary media forms (video, animation, digital imaging and graphics, web and interactive production). Students are encouraged to develop a creative voice that is socially aware and engaged and can find expression across a range of contemporary media technologies. Our curriculum is founded on the integration of theory and practice. Leading scholars in history, aesthetics, media policy, critical theory and alternative and international practices provide students with a broad base in analytical thinking. Courses deal with subjects such as the history and aesthetics of film, video, television and new media; genre studies; the history, production and distribution of print and broadcast news; media representations of race, class and gender; and the intricate relationships among the mass media, popular culture and society. The department's production courses encourage students to work creatively in a variety of existing and emerging media forms. Courses include narrative film production (including screenwriting and directing), documentary production, television production, journalism and emerging media (including web design, animation, physical computing and game programming). The department is distinguished by award-winning faculty who are active in their respective fields.

**What can I do with my degree in Film and Media Studies?**

Skills honed in the major include research and communication skills, critical thinking, project management, team building skills and the ability to organize time effectively. In addition to careers within the film and media industries, graduates are attractive to the publishing industry, advertising and communications fields and other related industries.

Undergraduate Major

Degree Map for Film

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Film major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and
Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

Fall

**ENGL 12000 - Expository Writing**

**Hunter Core**

English Comp (EC)

**GER**

1/A

Film - BA
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

In the case of the Film major, the course that meets CCCR is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>FILM 10100</td>
<td>Creative Expression</td>
</tr>
</tbody>
</table>

Courses Required for the Major (36 credits)

30-36 credits, combined total: up to 6 introductory, 12 credits analytical, 12 credits production and 6 credits electives from analytical and/or production courses. Students must receive a grade of B or better in FILM 10100 to continue a major in film. The major must be declared in person with an undergraduate film adviser (call (212) 772-4949 to schedule). The student must bring his or her transcript, and, where relevant, transcripts from other colleges attended, when meeting with the undergraduate film adviser to declare a film major. Students majoring in film must also take FILMP 16000/MEDP 16000 which is prerequisite for all film production courses. A maximum of 6 credits in MEDIA courses at the 200 or 300 level may be applied toward the major in film. Students must meet any prerequisites for these courses. Courses at the 100 level, independent study, and internship courses do not count toward the major. Students must see a program adviser to plan choice and sequence of courses.

I. Introductory Courses (6 credits)

**FILM 10100 - Introduction to Cinema**

- Hunter Core
- Creative Expression (CE)
- Pluralism and Diversity
- PD/D
- GER
- 2/D

Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.

3 hrs

3 cr.

**FILMP 16000 - Media & Film in a Digital Age II**

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.

*cross-listed* MEDP 16000

*prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)*

4 hrs

3 cr

II. Analytical Course Requirements (12 credits)
A) Film Style and Close Analysis (6 credits)

**FILM 20100 - Close Film Analysis**

**GER**

3/A

Close study of a selected motion picture.

*prereq: FILM 10100*

4 hrs

3 cr.

**FILM 22400 - Cinematic Space**

**GER**

3/A

Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.

*prereq: FILM 10100, 20100*

4 hrs

3 cr.

B) Film History (6 credits):

One course (3 cr) from the following 200-level courses:

**FILM 21100 - Film History I: 1895-1945**

**Pluralism and Diversity**

PD/D

**GER**

3/A

Survey of film history and theory from the silent era to 1945.

*prereq: FILM 10100*

4 hrs

3 cr.

**FILM 21200 - Film History II: Since 1945**

**Pluralism and Diversity**

PD/D

**GER**

3/A

Survey of film history and theory from 1946 to the present.

*prereq: FILM 10100 or MEDIA 18000*

4 hrs

3 cr.
**FILM 21300 - National Cinema**

**Pluralism and Diversity**

PD/D or A  
GER  
3/A

Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.

*prereq: FILM 10100*  
4 hrs  
3 cr.

One course (3 cr) from the following 300-level courses:

**FILM 34400 - History of Cinematography**

GER  
3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100 and FILM 20100*  
4 hrs  
3 cr.

**FILM 39700 - Topics in Film History**

**Pluralism and Diversity**

PD/D  
GER  
3/A

A focused examination of specific issues and moments in film history. May be taken twice for credit under a different topic.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100 and FILM 21100 or 21200 or 21300*  
4 hrs  
3 cr.

**III. Production Course Requirements (12 credits):**

**A) Required Production Sequence (9 credits):**

**FILMP 25100 - Film Production I**
Introduction to the fundamentals of filmmaking, writing, cinematography and editing.
Material Fee: $20
prereq: MEDP/FLMP 16000; open to majors only or perm instr.
4 hrs
3 cr.

**FILPL 27600 - Screen Writing I - The Short (W)**

The Short Fundamentals of writing for film; critiques of original student scripts.
prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.
4 hrs
3 cr.

**FILMP 35200 - Film Production II**

Further development of fundamental filmmaking skills: pre-production, directing, and syncsound production techniques.
Material Fee: $20
prereq: FLMP 25100, FILMP 27600 open to film/media majors only or perm instr.
prereq or coreq: Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.
4 hrs
3 cr.

**B) Advanced Production Cluster (3 credits):**

**FILMP 37100 - Screen Directing I**

Theory and practice of the film director's role as guiding force in creation of visual and aural images.
Except as otherwise noted, ENGL 120 is pre requisite for all 300- and 400-level courses in FILM.
prereq: FLMP 251, FILMP 276; open to film/media majors only or perm instr.
4 hrs
3 cr.

**FILPL 37700 - Screen Writing II The Feature (W)**

Continuation of workshop experience with emphasis on full-length screenplay.
Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.
prereq: FILMP 27600
4 hrs
3 cr.

**IV. Elective Course Requirements (6 credits):**

From analytical and/or production electives: At least one elective must be a 300 level or above course.

**A) Analytical Electives:**

**FILM 21400 - Multicultural Perspectives in Cinema**
Pluralism and Diversity
PD/B (214.51 only)
GER
3/A

Study of the contributions of minority groups to filmmaking, including examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.

prereq: FILM 10100
4 hrs
3 cr.

FILM 21500 - Women and Film

Pluralism and Diversity
PD/C
GER
3/A

Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.

prereq: FILM 10100
4 hrs
3 cr.

FILM 22200 - Topics in Genre Studies

GER
3/A

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be repeated for credit with a different topic.

prereq: FILM 10100
4 hrs
3 cr.

FILM 22252 - Topics in Genre Studies: "The Woman's Film" of the 1940s

Pluralism and Diversity
PD/C
GER
3/A

This course focuses on "the woman's film", from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator.
cross-listed WGSA 222.52
prereq: FILM 10100
4 hrs
3 cr.

FILM 23000 - Movies in American Culture
Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

prereq: FILM 10100
4 hrs
3 cr.

**FILM 23200 - Experimental Film and Video**

**Pluralism and Diversity**
PD/D
GER
3/A

Historical examination of pertinent films and videos with particular emphasis on current American productions.

prereq: FILM 20100 or MEDP/FILM 15000 (or MED/FILM 15100).
4 hrs
3 cr.

**FILM 29900 - Special Topics in Film**

GER
3/A

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester.

prereq: perm dept.
1-3 hrs
1-3 cr.

**FILM 32200 - Contemporary Film Theory**

**Pluralism and Diversity**
PD/D
GER
3/A

This course will address a range of theoretical writings on the cinema that were primarily produced during the 1970s and after.

Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.

**FILM 32400 - Narrative Strategies**

GER
3/A

Study of narrative techniques in cinema
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

_FILM 32600 - America in American Film and Video_

**GER**

3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

_**prereq:** FILM 10100, 21100 or 21200_

4 hrs

3 cr.

_FILM 32700 - Representations of Race and Ethnicity in U.S. Media_

**Pluralism and Diversity**

PD/B

**GER**

3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

_**prereq:** FILM 10100_

4 hrs

3 cr.

_FILM 32800 - Images of Resistance in the Developing World_

**Pluralism and Diversity**

PD/A

**GER**

3/A

Focuses on challenges by developing world films and filmmakers to Western media stereotypes. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

_**prereq:** FILM 10100_

4 hrs

3 cr.

_FILM 33200 - Myths and Images in the Media_

**GER**

3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
**FILM 33400 - Theatricality and the Presentation of Self**

**GER**  
3/A

Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 39100 - Problems in Film Research**

**GER**  
3/A

Study of basic methods of solving problems in the field of cinema studies.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 39900 - Studies in Film**

**GER**  
3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 40100 - Independent Research**

Open to majors only. Directed program of reading, research, or creative presentation, arranged on an individual basis.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 40200 - Honors Project**

Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
FILM 49900 - Advanced Seminar

Selected topics in cinema studies.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: perm instr.
4 hrs
3 cr.

These courses may be counted for credit in more than one program.

B) Film Production Electives:

A second course from the advanced production cluster may be taken as an elective course

FILMP 37100 - Screen Directing I

Theory and practice of the film director's role as guiding force in creation of visual and aural images.
Except as otherwise noted, ENGL 120 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 251, FILMP 276; open to film/media majors only or perm instr.
4 hrs
3 cr.

FILPL 37700 - Screen Writing II The Feature (W)

Continuation of workshop experience with emphasis on full-length screenplay.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 27600
4 hrs
3 cr.

FILMP 31100 - Directing Documentary Video Production

Exploration of the aesthetics of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: MEDP 28100; open to film/media majors only or perm instr.
4 hrs
3 cr.

or

FILMP 28600 - Location Sound

Basic sound theory and production sound recording techniques, concentrating on microphones, field mixers and recording equipment, boom operation and on-set procedures.
cross-listed MEDP 28600
**FILMP 34100 - Producing the Film**

Contracts, financing, distribution, copyright law, options, acquisition of rights, securities law requirements. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 25100, FILMP 27600*

3 hrs

3 cr.

**FILMP 37200 - Screen Directing II**

Continuation of FILMP 37100.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 37100 or permission of instructor*

4 hrs

3 cr.

**FILMP 38100 - Techniques of Cinematography**

Advanced cinematographic techniques such as sensitometry, effects lighting and special effects. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 35200 or permission of instructor*

4 hrs

3 cr.

**FILMP 38200 - Narrative Editing**

Narrative editing concepts, theories and techniques. Editing exercises explore the aesthetic and practical components of the craft and introduce advanced digital editing tools.

*prereq: FILMP 25100*

4 hrs

3 cr.

**FILMP 38300 - Sound Design**

Aesthetics of sound design with practical instruction in audio post-production technology. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 25100 or MEDIAP 28100 or perm. instr.*

3 hrs

3 cr.

**FILMP 38400 - Film and Video Production**

Production of short films with each student assigned to specific crew positions. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 35200, and permission of instructor.*
FILMP 39900 - Special Topics in Advanced Film Practice

Offered periodically with the specific topic listed in the schedule of classes. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: perm instr.
4 hrs
3 cr.

FILMP 45100 - Film and Video Production Seminar

Individual student films produced under faculty supervision. Material Fee: $20 May be taken twice for credit. cross-listed MEDP 45100
prereq: FILMP 35200 and perm instr.
prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
3 hrs
3 cr.

FILMP 49800 - Internship

Opportunity to gain professional experience
40 working per. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100, two other film courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.
*These courses may be counted for credit in more than one program.

Honors

To qualify for departmental honors in Film or Media Studies, a student must have a 3.5 grade point average in major courses and a 3.0 grade point average overall. The student must also either complete an Honors Project, approved by the Department Policy and Curriculum Committee, with a grade of A; or a 400-level production or analytical seminar course with a grade of A. See the department for more information.

FILM 40200 - Honors Project

Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: 3 advanced-level courses, 3.0 GPA and 3.5 major GPA perm dept.
3 hrs
3 cr.

Degree Map

Degree Map for Film

Media Studies -BA
Hunter Core Requirement

Courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.

Major (36 cr)

The major must be declared in person with an undergraduate media studies adviser. (see department website for adviser schedules http://fm.hunter.cuny.edu/). Students will be able to do a Media Studies BA: General Media Studies Major but may choose one of the concentrations in the major. These concentrations are:

- Media Studies BA: Concentration in Media Analysis and Criticism
- Media Studies BA: Concentration in Documentary and Television Production
- Media Studies BA: Concentration in Journalism
- Media Studies BA: Concentration in Emerging Media

However, these concentrations are optional; as long as they satisfy the General Media Studies Major requirements, students may combine courses from different concentrations. Students majoring in Media Studies must take the following introductory courses. These courses count toward the major.

- MEDIA 18000
- FILMP 15000/MEDP 15000
- FILMP 16000/MEDP 16000

A maximum of 6 credits in FILM or FILMP courses at the 200- or 300-level may be applied toward the major in media studies. Students must meet any prerequisites for these courses. Courses in Independent Study, Honors Project, and Internship do not count toward the major. Students must consult a program adviser to plan choice and sequence of courses.

Double Majors

Students may choose to complete a major in the Department of Film and Media Studies and a second major in another department. A student cannot declare a double major in film and media studies. Because of the intensive nature of the production courses in both Film and Media Studies, it is strongly recommended that all students take no more than two production courses per semester.

Honors

To qualify for departmental honors in Film or Media Studies, a student must have a 3.5 grade point average in major courses and a 3.0 grade point average overall. The student must also either complete an Honors Project FILM 40200 or MEDIA 40200, approved by the Department Policy and Curriculum Committee, with a grade of A; or a 400-level production or analytical seminar course with a grade of A. See the department for more information.

Media Studies BA: Concentration in Documentary and Television Production

Return to Media Studies -BA
This concentration is intended to give students foundational knowledge in the theory and practice of linear non-fiction video and related digital media skills. Students in this concentration will also specialize in one of three advanced areas: Documentary Production, Experimental Media Production or Studio Television Production.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Media Studies major, the course that meets CCCR is:

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**
Individual & Society - Humanities (I&S H)
**GER**
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.

**Courses Required for the Major (36 credits)**

**A. Introductory Courses (9 cr.)**

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**
Individual & Society - Humanities (I&S H)
**GER**
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

*cross-listed* FILMP 15000
**prereq or coreq:** MEDIA 18000, FILM 10100

4 hrs
3 cr.

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**
Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

*cross-listed* FILMP 16000

*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*

4 hrs

3 cr.

B. Required Production Courses (9 cr.)

**MEDP 28100 - Documentary Video Production 1**

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.

Material Fee: $20

*prereq: MEDP/FILMP 16000*

3 hrs

3 cr.

**MEDPL 29000 - Developing the Documentary (W)**

This workshop guides students through the research, writing and production planning essential for creating a video or film documentary.

*prereq: MEDIA 18000 and MEDP 16000*

3 hrs

3 cr.

**MEDP 31100 - Documentary Video Production 2**

Exploration of the aesthetics and practice of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.

Material Fee: $20

*prereq: MEDP 28100 or FILMP 35200*

*prereq or coreq: MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.*

4 hrs

3 cr.

C. Elective Production Courses (9 cr.)

These may be any regular 200- or 300-level MEDP or MEDPL courses. Any regular 200- or 300-level FILMP and FILPL courses course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.

D. Required Analytical Course (3 cr.)

**MEDIA 31500 - Nonfiction Film and Video**

*GER*

3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary,
E. Elective Analytical Courses (6 cr.)

Two regular analytical courses may be chosen from any analytical offering, however it is strongly recommended that students consider analytical courses in relation to their area of production.

Degree Map for Media Studies: Documentary Production

Media Studies BA: Concentration in Emerging Media

Return to Media Studies -BA

The Emerging Media concentration gives students foundational knowledge in the theory and practice of digital media as a creative and investigative form of production. Students in this concentration may elect to specialize in various areas of production including Web Production, Interactive Media Production and 3D Imaging Production or may elect a broad curriculum of study from the Emerging Media courses. The curriculum interweaves technical instruction with aesthetic, communicative and cultural production and research to help a student establish a cohesive portfolio in new media.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Emerging Media Concentration, the course that meets CCCR is:

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

Courses Required for the Major (36 credits)

A. Introductory Courses (9 cr.)
**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**  
Individual & Society - Humanities (I&S H)  
GER  
2/C

Social, political, and economic factors that determine and shape products of media organizations.

*3 hrs*  
*3 cr.*

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

*cross-listed FILMP 15000*  
*prereq or coreq: MEDIA 18000, FILM 10100*  
*4 hrs*  
*3 cr.*

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

*cross-listed FILMP 16000*  
*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*  
*4 hrs*  
*3 cr.*

*This course may be counted for credit in more than one program.*

**B. Required Production Courses**

**Select 4 from the list below for 12 credits:**

**MEDP 25000 - Digital Design and Usability**

This course introduces students to the fundamentals of 2D design and interaction design for digital media. The class approaches the subject from a creative and conceptual perspective. Students choose which digital production tools are most effective to address specific creative design problems.

*prereq: MEDP/FILMP 15000*  
*3 hrs.*  
*3 cr.*

**MEDP 26000 - Introduction to 2D Animation**

This hands-on class is an introduction to animation using 2D digital tools. Historical precursors to digital animation including experimental and animated film as well as contemporary animation will be screened. Class time will consist of screenings, in-class demonstration, production and critique.
prereq: MEDIA 18000. MEDP 15000, MEDP 16000
4 hrs.
3 cr.

**MEDP 28100 - Documentary Video Production I**

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.

Material Fee: $20

prereq: MEDP/FILMP 16000
3 hrs
3 cr.

**MEDP 28500 - Web Production I**

An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.

prereq: MEDP/FILMP 15000
3 hrs
3 cr.

**MEDP 33100 - Web Production II**

An exploration of the production of Internet-distributed media, especially animation, sound, and video, using GIF Animation, Flash, and sound tools.

prereq: MEDP 28500
3 hrs
3 cr.

**MEDP 34100 - Web Programming**

Advanced programming skills for website design. Dynamic content development explored through state of the art programming languages for the creation of interactive web sites. Students will create web pages that utilize the most current techniques in web development. The curriculum in this class emphasizes an integrated and creative approach to web programming, including detailed instruction and practice in the technical aspects. It is designed to give students a basic introduction to the tools and techniques used by web programmers.

prereq: MEDP 23400 and MEDP 33100
3 hrs
3 cr.

**MEDP 34500 - Web Design Projects**

A project-based class designed to give students the experience of solving practical problems in web production and to add to the advanced student's web design portfolio with a comprehensive project. Students will work independently and in teams on a large-scale collaborative project.

prereq: MEDP 33100 or perm instr.
MEDP 34900 - Introduction to Physical Computing

This course is intended to introduce students to programming and off-screen media. Some time will be spent producing screen based visual and interactive art, but most of our semester will be dedicated to hardware hacking and the Arduino. Theoretical readings will be assigned throughout and students are expected to respond thoughtfully in text and media.

prereq: MEDP 16000 and MEDP 23400
3 hrs
3 cr.

MEDP 35500 - Physical Computing: Interactive Installation

A hands-on course focusing on the current state of interactive media in a collaborative environment. Students will create projects integrating video, sound and text exploring design concepts and using sensors for real-time interactivity. Material Fee: $20

prereq: MEDIA 18000, MEDP 15000 and 16000, MEDP 28500
3 hrs
3 cr.

MEDP 36000 - 3D Animation and Modeling

This hands-on production course will examine concepts and practices that form the basis of 3D animation for video, graphic novels, filmmaking, and net based art.

prereq: MEDP 25000, MEDP 26000
3 hrs
3 cr.

MEDP 36500 - 3D Virtual Environments

This course is an introduction to skills and creative approaches for the development of computer-generated 3D interactive virtual environments. Students will develop 3D virtual environments using standard 3D game design techniques and technologies. This class approaches the subject from both a technical and creative perspective. It gives students an introduction to the tools and techniques used to design 3D computer games and how those processes may be applied to create artistically focused work.

prereq: MEDP 36000
3 hrs.
3 cr.

MEDP 39909 - Game Design and Programming

This class is an introduction to the practical and conceptual aspects of electronic game creation. Students learn a variety of game development tools and approaches while exploring a variety of theoretical, social, and other aspects of modern game culture.

prereq: MEDP 23400 and MEDP 25000
prereq or coreq: MEDIA 36300
3 hrs
3 cr.
- MEDP 39910 - Game Programming 2**

**MEDP 39950 - Motion Graphics**

This course examines the design and use of computer animation and effects for digital video. The course emphasizes the use of motion graphics to animate and render typography, effects and the compositing of distinct visual assets as well as its function within a greater narrative.

prereq: MEDP/FILMP 15000 and MEDP/FILMP 16000 and MEDP 25000
3 hrs
3 cr.

**MEDP 39900 - Special Topics in Advanced Media Production**

Taught periodically, with topic listed in Schedule of Classes.
prereq: MEDIA 18000, others variable
3 hrs
3 cr.

**This topics course under the MEDP 39900 Special Topics in Advanced Media Production umbrella counts towards the Required Production Courses. Consult the Schedule of Classes for availability.**

C. Elective Production Courses (6 cr.)

These may be any regular 200- or 300-level MEDP or MEDPL courses including those from the list of required courses (see B. above.) Any regular 200- or 300-level FILMP or FILPL course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.

D. Elective Analytical Courses (9 cr.)

Three analytical courses may be chosen from any analytical offering; however it is strongly recommended that students consider analytical courses in relation to their area of production.

**Degree Map for Media Studies: Emerging Media**

Degree Map for Media Studies: Emerging Media

**Media Studies BA: Concentration in Journalism**

Return to Media Studies -BA

The journalism concentration offers a liberal arts approach to the study of news. Students will learn to gather information through observation, interviews, and research, to evaluate it and to communicate it through clear and compelling writing enhanced by photography, video, audio, and interactive features. In addition to a toolkit for newsgathering and presentation, they will gain a critical perspective through courses that offer a critical analysis of media.
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Media Studies major, the course that meets CCCR is:

MEDIA 18000 - Introduction to Media Studies

**Hunter Core**
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

Courses Required for the Major (36 credits)

A. Introductory Courses (12 cr.)

MEDIA 18000 - Introduction to Media Studies

**Hunter Core**
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.
cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
MEDIA 21100 - News Literacy in a Digital Age (W)

**Hunter Core**

English Comp (EC)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

*prereq: ENGL 12000
3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)
3 cr.*

*This course may be counted for credit in more than one program.

**B. Required Production Courses (6 cr.)**

**MEDPL 20100 - Reporting and Writing I (W)**

This course is an intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

*prereq or coreq: MEDIA 18000
3 hrs
3 cr.*

**MEDPL 20200 - Reporting and Writing 2(W)**

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

*prereq: MEDPL 20100
3 hrs
3 cr.*

**C. Elective Production Courses (12 cr.)**

Choose Among the courses below (12 cr.):

**MEDPL 23900 - Entertainment Journalism (W)**

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.

*prereq: MEDPL 20100
3 hrs
3 cr.*
MEDPL 28300 - News Video Reporting

This course teaches students how to report and produce news video stories, including: hard news, features, formal interviews, and live shots.

prereq: MEDPL 16000 and MEDPL 20200
3 hrs
3 cr.

MEDPL 28400 - Radio Reporting and Podcasting

This course teaches students how to report and write a variety of audio news stories and podcasts for a live radio newscast.

prereq: MEDPL 20200
3 hrs
3 cr.

MEDPL 29400 - Magazine Writing (W)

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.

prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 29500 - Online Journalism (W)

This class teaches students to research, pitch, report and write web based stories that include some type of data visualization as well as multimedia elements. Students will also learn how to create a video that includes text and photos to tell a story and use social media to research news stories.

prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 29600 - Feature Writing (W)

A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

prereq: MEDPL 20100
3 hrs
3 cr

MEDPL 29700 - Data Journalism: Telling Stories with Numbers

This course covers the fundamentals of data journalism reporting and visual storytelling using emerging techniques and tools. Students will learn to work with data and basic design to uncover and illustrate news trends and tell interactive data-driven news stories.

prereq: MEDPL 20100
3 hrs
3 cr.

**MEDPL 37200 - Investigative Reporting (W)**

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.

*prereq*: MEDPL 20100

3 hrs
3 cr.

**MEDPL 37700 - Neighborhood News (W)**

An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.

*prereq*: MEDIA 18000 and MEDPL 20100

3 hrs
3 cr.

**MEDPL 38700 - Mobile Journalism**

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.

*prereq*: MEDPL 20200

3 hrs
3 cr.

**MEDPL 38800 - Studio News Production**

This course teaches students how to collectively produce and present a live newscast on deadline and how to create news content relevant to a Hunter College audience. Students may take this course twice for credit.

*prereq or coreq*: MEDPL 28300

3 hrs
3 cr.

**E. Elective Analytical Courses (6 cr.)**

Analytical courses may be chosen from any analytical offering; however, it is strongly recommended that students consider analytical courses in relation to their area of production.

**Media Studies BA: Concentration in Media Analysis and Criticism**

Return to Media Studies -BA
The media analysis concentration develops critical thinking in students and offers students an in-depth understanding of the field of media studies. It includes the study of Media Representations; Media Technologies, Industries, and Policies; and News, Politics, and Propaganda.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Media Studies major, the course that meets CCC is:

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

Courses Required for the Major (36 credits)

A. Introductory Courses (9 cr.)

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2
Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

cross-listed FILMP 16000

*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*

4 hrs
3 cr.

*These courses may be counted for credit in more than one program.

B. Required Analytical Courses (21 cr):

Analytical courses in 3 categories, as outlined below. Some courses are listed in more than 1 place, but each course fulfills a requirement in just 1 category. (Students may not double count a course.)

1. Media Representations (9 credits from the following)

**MEDIA 27100 - Television Culture**

**GER**

3/A

Theoretical analysis of the production and reception of televisual texts, with close reading of particular texts.

*prereq: MEDIA 18000*

3 hrs
3 cr.

**MEDIA 29853 - The Horror Film**

**GER**

3/A

A historically informed exploration of the international horror film genre in cultural context. Includes a consideration of filmic conventions, marketing practices, and audience reception. We will explore cultural fears, and how art and industry manage to express and profit from those fears.

*prereq: MEDIA 18000 or FILM 10100*

3 hrs
3 cr.

**MEDIA 31500 - Nonfiction Film and Video**

**GER**

3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

*prereq: MEDIA 18000*

4 hrs
3 cr.

**MEDIA 32600 - America in American Film and Video**
Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.

**prereq:** MEDIA 18000

3 hrs

3 cr.

**MEDIA 32700 - Representations of Race and Ethnicity in U.S. Media**

**Pluralism and Diversity**

PD/B

**GER**

3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism; and other forms of American popular culture.

**prereq:** MEDIA 18000

4 hrs

3 cr.

**MEDIA 33200 - Myths and Images in the Media**

**GER**

3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.

**prereq:** MEDIA 18000

3 hrs

3 cr.

**MEDIA 33300 - Typecasting**

**GER**

3/A

A history of the relationship between stereotyping as a social, cultural and psychological language and the rise of modern society.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

**prereq:** MEDIA 180 and either MEDIA 327 or MEDIA 384 or perm instr.

3 hrs

3 cr.

**MEDIA 37400 - Media, Sports, and Society**

**GER**

3/A

Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.
MEDIA 38400 - Women and Media

**Pluralism and Diversity**

PD/C

GER

3/A

Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.

cross-listed WGSA 38400 (W)

prereq: MEDIA 18000

3 hrs

3 cr.

MEDIA 39700 - Cult TV and its Audiences

GER

3/A

This course explores the historical and cross-cultural development of "cult" television, from cancelled programs whose narratives are kept alive by fan audiences, to the mainstreaming of cult audience behavior for high-rated programs today.

prereq: MEDIA 27100

3 hrs

3 cr.

MEDIA 39800 - Complex Television Narratives (W)

This course examines the historical emergence and characteristics of long-term arc-driven TV serials. Emphasis will be on the narrative strategies and formal features of dramatic serials, with some attention to complex comedies. This course falls under the Media Analysis and Criticism concentration of the Media major.

prereq: MEDIA 27100 (Television Culture, previously MEDIA 37100) or MEDIA 37100 or MEDIA 39700 (Cult Television Theory and Audiences) or Permission of instructor

3 hrs

3 cr.

MEDIA 39900 - Special Issues in Media Studies

GER

3/A

Taught periodically, with topic listed in Schedule of Classes.

prereq: MEDIA 18000, others variable

3 hrs

3 cr.
(These two topics courses under the MEDIA 39900 Special Issues in Media Studies umbrella can fulfill the Representations Area: MEDIA 39931 Women and Television & MEDIA 39940 TV Genres, Consult the Schedule of Classes for availability.)

2. Media Technologies, Industries, and Policies (6 credits from the following)

**MEDIA 26000 - Internet and Society**

**GER**

3/A

The Impact of the Internet on American and global society.

*prereq: MEDIA 18000 or permission of instr.*

3 hrs
3 cr.

**MEDIA 36500 - Digital Copyright**

**GER**

3/A

An introduction to the legal, economic and social principles at stake in the debate over copyright and digital technologies. The semester begins with an introduction to the basics of copyright law, the legal system, and legal research. Students then review some of the specifics of the digital copyright debate, including topics such as peer-to-peer trading, digital rights management, and third party liability for information service providers.

*prereq: MEDIA 18000*

3 hrs
3 cr.

**MEDIA 37400 - Media, Sports, and Society**

**GER**

3/A

Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

*prereq: MEDIA 18000*

3 hrs
3 cr.

**MEDIA 38000 - History of Broadcasting**

**GER**

3/A

Broadcasting's roots in industrialization and influence on modern society.

*prereq: MEDIA 18000*
MEDIA 38300 - Popular Music and the Music Industry

GER
3/A

Exploration of social and cultural significance of popular music; history, structure, and economics of music industry. Particular emphasis on popular music from fifties to present.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39400 - Mass Communications and the Law

GER
3/A

Relationship of mass media to significant constitutional problems.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39500 - Mass Media in Developing Countries

Pluralism and Diversity
PD/A
GER
3/A

Exploration of impact of transnational corporations on developing countries and issues of cultural domination.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39600 - Global Communication

GER
3/A

Structures, policies and impact of global communications. Areas covered include global news, film, TV and music industries; telecommunications and the Internet.
MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.
prereq: MEDIA 18000
3 hrs
3 cr.

3. News, Politics, and Propaganda (6 credits from the following)

MEDIA 21000 - Journalism and Society
This course focuses on industry issues and service to the public good. It is partly designed for students interested in careers in journalism, who can benefit from greater sophistication about the news industry. The course explores the way news is gathered and written, the way news organizations are structured and financed, and the way they relate to other forms of political and entertainment communication. It examines the ways that the news industry describes itself and its problems and surveys journalistic practice in different media, e.g. print, the Internet, etc. Many of the readings will be drawn from the news industry trade press as well as from cultural studies and media sociology. Students will be asked to address journalism as citizens, weighing the role of journalism in our democracy.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 21100 - News Literacy in a Digital Age (W)

Hunter Core
English Comp (EC)
In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

prereq: ENGL 12000
3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)
3 cr.

MEDIA 31300 - The Culture of Publicity

GER
3/A

An in-depth historical understanding of public relations, social image-management, and opinion engineering in the U.S. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37300 - Journalism as Literature

GER
3/A

An examination of the relationships between journalism and literature, including literary journalism, the journalistic prose of major imaginative writers, and the stylistic characteristics of hard news reporting.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37500 - Media and Politics
GER
3/A
The impact of the electronic media on American politics.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38000 - History of Broadcasting

GER
3/A
Broadcasting's roots in industrialization and influence on modern society.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38100 - Propaganda and the Mass Media

GER
3/A
Study of mass media (broadcast, film, print) as forms for propaganda.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39000 - Broadcast Journalism

GER
3/A
Broadcast Journalism is a focused study of how journalism has evolved from radio, television, cable television, and the Internet; how it is distributed on social media; the growing popularity of podcasts; and how news distribution on various platforms relates to the social, economic, and political context of American culture and society.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39100 - History of Print Journalism

GER
3/A
Development of newspapers and magazines as social force.

prereq: MEDIA 18000
3 hrs
3 cr.
C. Elective Analytical or Production Courses at the 200-level or higher (6 cr.)

Degree Map for Media Analysis and Criticism

Degree Map for Media Studies: Media, Analysis & Criticism

Media Studies BA: General Media Studies Major

Return to Media Studies -BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Media Studies major, the course that meets CCCR is:

**MEDIA 18000 - Introduction to Media Studies**

*Hunter Core*
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

*3 hrs*

*3 cr.*

Courses Required for the Major (36 credits)

A. Required Introductory Courses (9 cr.)

**MEDIA 18000 - Introduction to Media Studies**

*Hunter Core*
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

*3 hrs*

*3 cr.*

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**
Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
4 hrs
3 cr.

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

cross-listed FILMP 16000
preeq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

*This course may be counted for credit in more than one program.

**B. Required Analytical Courses (9 cr.)**

Students must take at least 9 credits of analytical courses. Any 200- and 300-level MEDIA courses may be used to meet this requirement. Any 200- or 300-level FILM course counts toward this requirement as well, though students may only count up to 6 credits total of FILM or FILMP or FILPL classes toward the major. MEDP, MEDPL, FILMP and FILPL courses do not count toward the analytical requirement.

**C. Elective Analytical or Production Courses (18 cr.)**

Students must take an additional 18 credits of analytical and/or production courses. These may be any 200- or 300-level MEDIA or MEDP or MEDPL courses. Any 200- or 300-level FILM or FILMP or FILPL course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.

**Degree Map for General Media Studies BA**

**Undergraduate Minor**

**Minor in Film**

**Requirements for the Minor in Film**

A. Required Introductory Course (3 cr.)

FiLM 10100 - Introduction to Cinema
Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.
3 hrs
3 cr.

*This course may be counted for credit in more than one program.

B. Other Requirements (15 cr)

Three 200-level courses from the following (9 cr)

FILM 20100 - Close Film Analysis

GER
3/A

Close study of a selected motion picture.

prereq: FILM 10100
4 hrs
3 cr.

FILM 21100 - Film History I: 1895-1945

Pluralism and Diversity
PD/D
GER
3/A

Survey of film history and theory from the silent era to 1945.
prereq: FILM 10100
4 hrs
3 cr.

FILM 21200 - Film History II: Since 1945

Pluralism and Diversity
PD/D
GER
3/A

Survey of film history and theory from 1946 to the present.
prereq: FILM 10100 or MEDIA 18000
4 hrs
3 cr.
FILM 22400 - Cinematic Space

GER
3/A

Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.

prereq: FILM 10100, 20100
4 hrs
3 cr.

FILM 23100 - Studies of Selected Directors

Pluralism and Diversity
GER 3/A

Study of aesthetic and cultural implications of authorship as developed and practiced in cinema. May be repeated for credit with a different topic.

prereq: FILM 10100, 20100
4 hrs
3 cr.

FILM 21300 - National Cinema

Pluralism and Diversity
PD/D or A
GER
3/A

Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.

prereq: FILM 10100
4 hrs
3 cr.

FILM 23000 - Movies in American Culture

GER
3/A

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

prereq: FILM 10100
4 hrs
3 cr.

FILM 21400 - Multicultural Perspectives in Cinema

Pluralism and Diversity
PD/B (214.51 only)
GER
Study of the contributions of minority groups to filmmaking, including examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.

**FILM 21500 - Women and Film**

**Pluralism and Diversity**
**PD/C**
**GER**
3/A

Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.

**prereq:** FILM 10100
4 hrs
3 cr.

**FILM 22200 - Topics in Genre Studies**

**GER**
3/A

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be repeated for credit with a different topic.

**prereq:** FILM 10100
4 hrs
3 cr.

**FILM 22252 - Topics in Genre Studies: "The Woman's Film" of the 1940s**

**Pluralism and Diversity**
**PD/C**
**GER**
3/A

This course focuses on "the woman's film", from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator.

**cross-listed** WGSA 222.52
**prereq:** FILM 10100
4 hrs
3 cr.

**FILM 23200 - Experimental Film and Video**

**Pluralism and Diversity**
**PD/D**
Historical examination of pertinent films and videos with particular emphasis on current American productions.

**FILM 29900 - Special Topics in Film**

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester.

**FILPL 27600 - Screen Writing I - The Short (W)**

The Short Fundamentals of writing for film; critiques of original student scripts.

**Two 300 level courses from the following (6 cr)**

**FILM 32200 - Contemporary Film Theory**

*Pluralism and Diversity*

**FILM 32300 - Film Technology and Aesthetic Theory**

Study of the relationship between film technology and film theory. May be repeated for credit with a different topic.
FILM 32351 - Aesthetics of Film Sound

GER
3/A

Examination of the history, theory and aesthetics of the relationship between film sound and image. Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100, 20100
4 hrs
3 cr.

FILM 32400 - Narrative Strategies

GER
3/A

Study of narrative techniques in cinema
Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and 20100 or 23100
4 hrs
3 cr.

FILM 32600 - America in American Film and Video

GER
3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points. Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 21100 or 21200
3 hrs
3 cr.

FILM 32700 - Representations of Race and Ethnicity in U.S. Media

Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

FILM 32800 - Images of Resistance in the Developing World
Pluralism and Diversity
PD/A
GER
3/A

Focuses on challenges by developing world films and filmmakers to Western media stereotypes.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

FILM 33200 - Myths and Images in the Media

GER
3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
3 hrs
3 cr.

FILM 33400 - Theatricality and the Presentation of Self

GER
3/A

Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and any 200-level FILM course
4 hrs
3 cr.

FILM 34400 - History of Cinematography

GER
3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.

FILM 39100 - Problems in Film Research

GER
3/A
Study of basic methods of solving problems in the field of cinema studies. 
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 39900 - Studies in Film**

GER  
3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester.

**FILPL 37700 - Screen Writing II The Feature (W)**

Continuation of workshop experience with emphasis on full-length screenplay.

**Minor in Journalism**

Training future journalists to report the news accurately and ethically is essential to the future of the news industry. While a major or minor in journalism is not a prerequisite to work in the news industry, many news organizations do prefer to hire students that have this credential because these employers are familiar with journalism curricula. This minor offers students the opportunity to pursue an 18-credit minor in Journalism, affording them a potentially beneficial credential when seeking internships, fellowships, or jobs with news organizations. The Journalism minor will attract students from other disciplines like Political Science, Urban Studies, and Public Policy that require a foundation in journalism for their expertise. Media Studies majors may earn the Journalism minor and in that event, will be able to count MEDIA 18000 for both the major and the minor.

**Courses Required for the Minor (18 credits)**

**Required courses - 12 credits**

**MEDIA 18000 - Introduction to Media Studies**

Hunter Core  
Individual & Society - Humanities (I&S H)  
GER  
2/C

Social, political, and economic factors that determine and shape products of media organizations.
MEDIA 21100 - News Literacy in a Digital Age (W)

Hunter Core
English Comp (EC)
In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

prereq: ENGL 12000
3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)
3 cr.

MEDPL 20100 - Reporting and Writing I (W)

This course is an intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

prereq or coreq: MEDIA 18000
3 hrs
3 cr.

MEDPL 20200 - Reporting and Writing 2(W)

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

prereq: MEDPL 20100
3 hrs
3 cr.

Electives - 6 credits

MEDPL 23900 - Entertainment Journalism (W)

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.
prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 28300 - News Video Reporting

This course teaches students how to report and produce news video stories, including: hard news, features, formal interviews, and live shots.

prereq: MEDPL 16000 and MEDPL 20200
3 hrs
3 cr.

**MEDPL 28400 - Radio Reporting and Podcasting**

This course teaches students how to report and write a variety of audio news stories and podcasts for a live radio newscast.

*prereq: MEDPL 20200*

3 hrs
3 cr.

**MEDPL 29400 - Magazine Writing (W)**

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**MEDPL 29500 - Online Journalism (W)**

This class teaches students to research, pitch, report and write web based stories that include some type of data visualization as well as multimedia elements. Students will also learn how to create a video that includes text and photos to tell a story and use social media to research news stories.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**MEDPL 29600 - Feature Writing (W)**

A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**MEDPL 29700 - Data Journalism: Telling Stories with Numbers**

This course covers the fundamentals of data journalism reporting and visual storytelling using emerging techniques and tools. Students will learn to work with data and basic design to uncover and illustrate news trends and tell interactive data-driven news stories.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**MEDIA 38600 - Media Ethics**
GER
3/A

An exploration of the moral issues surrounding media work, including truth-telling, social justice, cultural effects and conflicting rights.

_prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 49800 - Internship

Opportunity to gain professional experience.

_prereq: MEDIA 18000 and 2 other MEDIA or MEDP courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.

MEDPL 37200 - Investigative Reporting (W)

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.

_prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 37700 - Neighborhood News (W)

An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.

_prereq: MEDIA 18000 and MEDPL 20100
3 hrs
3 cr.

MEDPL 38700 - Mobile Journalism

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.

_prereq: MEDPL 20200
3 hrs
3 cr.

MEDPL 38800 - Studio News Production

This course teaches students how to collectively produce and present a live newscast on deadline and how to create news content relevant to a Hunter College audience. Students may take this course twice for credit.

_prereq or coreq: MEDPL 28300
3 hrs
3 cr.
Minor in Media Studies

The Minor in Media Studies consists of five courses for a total of 15 credits. At least one 200-level course and at least one 300-level course are required. The other three courses can be at any level. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor.

Film and Media: Film—Basic Courses

**FILM 10100 - Introduction to Cinema**

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.
3 hrs
3 cr.

**FILMP 15000 - Media & Film in a Digital Age I**

The first part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video and digital media production.
cross-listed MEDP 15000
prereq or coreq: MEDIA 18000, FILM 10100
3 cr
4 hrs

**FILMP 16000 - Media & Film in a Digital Age II**

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.
cross-listed MEDP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)
4 hrs
3 cr

Film and Media: Film—Intermediate Courses

**FILM 20100 - Close Film Analysis**

**GER**
3/A

Close study of a selected motion picture.
**FILM 21100 - Film History I: 1895-1945**

**Pluralism and Diversity**

PD/D  
GER  
3/A

Survey of film history and theory from the silent era to 1945.

**FILM 21200 - Film History II: Since 1945**

**Pluralism and Diversity**

PD/D  
GER  
3/A

Survey of film history and theory from 1946 to the present.

**FILM 21300 - National Cinema**

**Pluralism and Diversity**

PD/D or A  
GER  
3/A

Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.

**FILM 21305 - National Cinema: Italian Cinema**

**Pluralism and Diversity**

PD/D  
GER  
3/A

**prereq:** FILM 10100  
4 hrs  
3 cr.
FILM 21344 - Israeli Cinema

Pluralism and Diversity
PD/A
GER
3/A

Israeli cinema and the development of Israeli cultural identity. Designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema.
cross-listed HEBR 22000
prereq: FILM 10100

FILM 21351 - National Cinema: French New Wave

Pluralism and Diversity
PD/D
GER
3/A

prereq: FILM 10100
4 hrs
3 cr.

FILM 21355 - National Cinema: Asian Cinema

Pluralism and Diversity
PD/A
GER
3/A

prereq: FILM 10100
4 hrs
3 cr.

FILM 21400 - Multicultural Perspectives in Cinema

Pluralism and Diversity
PD/B (214.51 only)
GER
3/A

Study of the contributions of minority groups to filmmaking, including examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.
prereq: FILM 10100
4 hrs
3 cr.

FILM 21500 - Women and Film
Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.

**Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.**

*prereq: FILM 10100*

**4 hrs**

**3 cr.**

**FILM 22000 - Topics in Genre Studies**

**GER**

**3/A**

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be repeated for credit with a different topic.

*prereq: FILM 10100*

**4 hrs**

**3 cr.**

**FILM 22252 - Topics in Genre Studies: "The Woman's Film" of the 1940s**

**Pluralism and Diversity**

**PD/C**

**GER**

**3/A**

This course focuses on "the woman's film", from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator.

*cross-listed WGS A 222.52*

*prereq: FILM 10100*

**4 hrs**

**3 cr.**

**FILM 22400 - Cinematic Space**

**GER**

**3/A**

Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.

*prereq: FILM 10100, 20100*

**4 hrs**

**3 cr.**

**FILM 23000 - Movies in American Culture**

**GER**

**3/A**
Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

**prereq: FILM 10100**

4 hrs
3 cr.

**FILM 23100 - Studies of Selected Directors**

**Pluralism and Diversity**

GER 3/A

Study of aesthetic and cultural implications of authorship as developed and practiced in cinema. May be repeated for credit with a different topic.

**prereq: FILM 10100, 20100**

4 hrs
3 cr.

**FILM 23200 - Experimental Film and Video**

**Pluralism and Diversity**

PD/D

GER

3/A

Historical examination of pertinent films and videos with particular emphasis on current American productions.

**prereq: FILM 20100 or MEDP/FILMP 15000 (or MED/FILM 15100).**

4 hrs
3 cr.

**FILMP 25100 - Film Production I**

Introduction to the fundamentals of filmmaking, writing, cinematography and editing.

Material Fee: $20

**prereq: MEDP/FLMP 16000; open to majors only or perm instr.**

4 hrs
3 cr.

**FILMP 28600 - Location Sound**

Basic sound theory and production sound recording techniques, concentrating on microphones, field mixers and recording equipment, boom operation and on-set procedures.

**cross-listed MEDP 28600**

**prereq: FILMP 25100 or MEDP 28100**

3 hrs
3 cr.

**FILPL 27600 - Screen Writing I - The Short (W)**
The Short Fundamentals of writing for film; critiques of original student scripts.

prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.

4 hrs
3 cr.

Media 23000 - Movies in American Culture

GER
3/A

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

prereq or coreq: FILM 10100, 21100 or FILM 21200

3 hrs
3 cr.

Film and Media: Film—Upper-Level Courses

FILM 31500 - Nonfiction Film and Video

GER
3/A

Study of the history and theory of the nonfiction film and video, with screenings of examples of documentary, propaganda, and direct cinema and video.

Except as otherwise noted, ENGL 12000 is pre-requisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100

4 hrs
3 cr.

FILM 32200 - Contemporary Film Theory

Pluralism and Diversity
PD/D
GER
3/A

This course will address a range of theoretical writings on the cinema that were primarily produced during the 1970s and after.

Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100 and FILM 20100

4 hrs
3 cr.

FILM 32300 - Film Technology and Aesthetic Theory

GER
3/A
Study of the relationship between film technology and film theory. May be repeated for credit with a different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILM 10100 and 20100

*3 cr.*

**FILM 32351 - Aesthetics of Film Sound**

**GER**

*3/A*

Examination of the history, theory and aesthetics of the relationship between film sound and image. Except as otherwise noted, ENGL 12000 is prerequisite for all 30000- and 40000-level courses in FILM.

**prereq:** FILM 10100, 20100

*4 hrs*  
*3 cr.*

**FILM 32400 - Narrative Strategies**

**GER**

*3/A*

Study of narrative techniques in cinema  
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILM 10100 and 20100 or 23100

*4 hrs*  
*3 cr.*

**FILM 32600 - America in American Film and Video**

**GER**

*3/A*

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILM 10100, 21100 or 21200

*3 hrs*  
*3 cr.*

**FILM 32700 - Representations of Race and Ethnicity in U.S. Media**

**Pluralism and Diversity**

**PD/B**

**GER**

*3/A*

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
**FILM 32800 - Images of Resistance in the Developing World**

*Pluralism and Diversity*

**PD/A**

**GER**

3/A

Focuses on challenges by developing world films and filmmakers to Western media stereotypes. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 33200 - Myths and Images in the Media**

**GER**

3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 33300 - Styles and Theories of Film Acting**

**GER**

3/A

Study of film acting with regard to theoretical structures and aesthetic practice. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 33400 - Theatricality and the Presentation of Self**

**GER**

3/A

Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
**FILM 34400 - History of Cinematography**

**GER**
3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.*

**FILM 39100 - Problems in Film Research**

**GER**
3/A

Study of basic methods of solving problems in the field of cinema studies.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100, 20100, 21100 or 21200
3 hrs
3 cr.*

**FILM 39700 - Topics in Film History**

Pluralism and Diversity
PD/D

**GER**
3/A

A focused examination of specific issues and moments in film history. May be taken twice for credit under a different topic.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100 and FILM 21100 or 21200 or 21300
4 hrs
3 cr.*

**FILMP 31100 - Directing Documentary Video Production**

Exploration of the aesthetics of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: MEDP 28100; open to film/media majors only or perm instr.
4 hrs
3 cr.*

**FILMP 34100 - Producing the Film**
Contracts, financing, distribution, copyright law, options, acquisition of rights, securities law requirements. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 25100, FILMP 27600*

3 hrs

3 cr.

**FILMP 35200 - Film Production II**

Further development of fundamental filmmaking skills: pre-production, directing, and syncsound production techniques. 

Material Fee: $20

*prereq: FILMP 25100, FILMP 27600 open to film/media majors only or perm instr.  
prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.*

4 hrs

3 cr.

**FILMP 37100 - Screen Directing I**

Theory and practice of the film director's role as guiding force in creation of visual and aural images. Except as otherwise noted, ENGL 120 is prerequisite for all 300- and 400-level courses in FILM. 

*prereq: FILMP 251, FILMP 276; open to film/media majors only or perm instr.*

4 hrs

3 cr.

**FILMP 37200 - Screen Directing II**

Continuation of FILMP 37100. 

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM. 

*prereq: FILMP 37100 or permission of instructor*

4 hrs

3 cr.

**FILMP 38100 - Techniques of Cinematography**

Advanced cinematographic techniques such as sensitometry, effects lighting and special effects. 

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 35200 or permission of instructor*

4 hrs

3 cr.

**FILMP 38200 - Narrative Editing**

Narrative editing concepts, theories and techniques. Editing exercises explore the aesthetic and practical components of the craft and introduce advanced digital editing tools.

*prereq: FILMP 25100*

4 hrs

3 cr.

**FILMP 38300 - Sound Design**
Aesthetics of sound design with practical instruction in audio post-production technology.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 25100 or MEDIAP 28100 or perm. instr.
3 hrs
3 cr.

FILMP 38400 - Film and Video Production

Production of short films with each student assigned to specific crew positions.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 35200, and permission of instructor.
variable hrs
3 cr.

FILPL 31600 - Experimental Production

Experimental methods of film and video production, emphasizing innovative and non-traditional formal and conceptual practice.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 25100 or MEDIAP 28100 or perm. instr.
3 hrs
3 cr.

FILPL 37700 - Screen Writing II The Feature (W)

Continuation of workshop experience with emphasis on full-length screenplay.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 27600
4 hrs
3 cr.

MEDIA 36300 - Concepts in Gaming

This analytical seminar examines gaming through the study of the history of games, the role of narrative and language in games, game structures, interaction paradigms, rule-creation, and theories of play. It familiarizes students with important approaches to games and play developed by both the art world and popular culture during the 19th and 20th centuries. Students will be encouraged to play with these approaches in their written assignments. Each week we read, discuss, and study games to explore possibilities of gaming elements within media arts, artistic practice, and performance. A game is itself a language, and it is this language we seek to understand. This course explores all kinds of games, from artists’ games to common children’s games. Students examine historical and contemporary artist's projects, including dance, installation, computer games, and performance, as well as look at the game as a tool for abstraction, storytelling, and activism.
prereq: Media 18000, one other Media analytical course, or instructor permission. MEDIA 28000 recommended.
3 hrs
3 cr.

Film and Media: Film—Special Topics, Honors, and Advanced Studies

FILM 29900 - Special Topics in Film
GER
3/A

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester.
prereq: perm dept.
1-3 hrs
1-3 cr.

FILM 39900 - Studies in Film

GER
3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: variable
3 hrs
3 cr.

FILM 40100 - Independent Research

Open to majors only. Directed program of reading, research, or creative presentation, arranged on an individual basis. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: perm chair
1-3 cr.

FILM 40200 - Honors Project

Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: 3 advanced-level courses, 3.0 GPA and 3.5 major GPA perm dept.
3 hrs
3 cr.

FILM 49800 - Internship

Opportunity to gain professional experience. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100, two other FILM courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.

FILM 49900 - Advanced Seminar

Selected topics in cinema studies. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: perm instr.
4 hrs
3 cr.

FILMP 39900 - Special Topics in Advanced Film Practice
Offered periodically with the specific topic listed in the schedule of classes.
Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.

**prereq:** perm instr.

4 hrs
3 cr.

**FILMP 45100 - Film and Video Production Seminar**

Individual student films produced under faculty supervision.
Material Fee: $20 May be taken twice for credit.cross-listed MEDP 45100

**prereq:** FILMP 35200 and perm instr.

**prereq or coreq:** Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

3 hrs
3 cr.

**FILMP 49800 - Internship**

Opportunity to gain professional experience
40 working per. Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.

**prereq:** FILM 10100, two other film courses or equiv; perm dept and host institution

1-6 cr, 40 working hrs per cr.

**MEDP 29900 - Special Topics in Media Production**

Taught periodically, with topic listed in Schedule of Classes.

**prereq:** MEDIA 180, others variable

3 hrs
3 cr.

**Film and Media: Media—Basic Courses**

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 cr.

MEDIA 21000 - Journalism and Society

GER
3/A

This course focuses on industry issues and service to the public good. It is partly designed for students interested in careers in journalism, who can benefit from greater sophistication about the news industry. The course explores the way news is gathered and written, the way news organizations are structured and financed, and the way they relate to other forms of political and entertainment communication. It examines the ways that the news industry describes itself and its problems and surveys journalistic practice in different media, e.g. print, the Internet, etc. Many of the readings will be drawn from the news industry trade press as well as from cultural studies and media sociology. Students will be asked to address journalism as citizens, weighing the role of journalism in our democracy.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 21100 - News Literacy in a Digital Age (W)

Hunter Core
English Comp (EC)
In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

prereq: ENGL 12000
3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)
3 cr.

MEDIA 26000 - Internet and Society

GER
3/A

The Impact of the Internet on American and global society.

prereq: MEDIA 18000 or permission of instr.
3 hrs
3 cr.

MEDIA 27100 - Television Culture

GER
3/A

Theoretical analysis of the production and reception of televisual texts, with close reading of particular texts.
MEDIA 28000 - Understanding New Media

GER
3/A

The convergence of media, communications technologies, art, design, and culture. It is intended to familiarize students with important approaches in new media, focusing on the history of the medium and the conceptual history of interactivity in art and communication.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 29600 - Topics in LGBTQ Film and Media

Pluralism and Diversity
PD/C
An examination of various film and media topics as they relate to lesbian, gay, transgender and queer issues. May be repeated for credit under a different topic.

cross-listed FILM 22300
prereq: FILM 10100 -or- MEDIA 18000
4 hrs
3 cr.

MEDIA 29800 - Special Topics in Media Studies

GER
3/A

A course on film and media studies taught periodically, with topic listed in Schedule of Classes. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000 or FILM 10100
4 hrs
3 cr.

MEDIA 29853 - The Horror Film

GER
3/A

A historically informed exploration of the international horror film genre in cultural context. Includes a consideration of filmic conventions, marketing practices, and audience reception. We will explore cultural fears, and how art and industry manage to express and profit from those fears.

prereq: MEDIA 18000 or FILM 10100
3 hrs
3 cr.
MEDIA 29900 - Special Topics in Media Studies

GER
3/A

Taught periodically, with topic listed in Schedule of Classes.

prereq: MEDIA 18000, others variable
3 hrs
3 cr.

MEDIA 31300 - The Culture of Publicity

GER
3/A

An in-depth historical understanding of public relations, social image-management, and opinion engineering in the U.S. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 31400 - Public Relations: Theory and Practice (W)

GER
3/A

An examination of principal techniques and strategies in public relations, including critical analysis of its social uses. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000 & MEDP 20100
3 hrs
3 cr.

MEDIA 31500 - Nonfiction Film and Video

GER
3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000
4 hrs
3 cr.

MEDIA 32600 - America in American Film and Video

GER
3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.
**MEDIA 32700 - Representations of Race and Ethnicity in U.S. Media**

**Pluralism and Diversity**
**PD/B**
**GER**
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism; and other forms of American popular culture.

**MEDIA 32800 - Images of Resistance in the Developing World**

**Pluralism and Diversity**
**PD/A**
**GER**
3/A

Challenges by developing-world films and filmmakers to Western media stereotypes.

**MEDIA 33200 - Myths and Images in the Media**

**GER**
3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.

**MEDIA 33300 - Typecasting**

**GER**
3/A

A history of the relationship between stereotyping as a social, cultural and psychological language and the rise of modern society.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.
MEDIA 36500 - Digital Copyright

GER
3/A

An introduction to the legal, economic and social principles at stake in the debate over copyright and digital technologies. The semester begins with an introduction to the basics of copyright law, the legal system, and legal research. Students then review some of the specifics of the digital copyright debate, including topics such as peer-to-peer trading, digital rights management, and third party liability for information service providers.

_prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37000 - The Press and the Public

GER
3/A

Analysis and discussion of relationship of the press to great issues of our time.

_prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37300 - Journalism as Literature

GER
3/A

An examination of the relationships between journalism and literature, including literary journalism, the journalistic prose of major imaginative writers, and the stylistic characteristics of hard news reporting.

_prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37400 - Media, Sports, and Society

GER
3/A

Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

_prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37500 - Media and Politics

GER
3/A
The impact of the electronic media on American politics.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37800 - Television Genres

This course provides an overview of the array of genres that have defined and organized the television landscape across its history, considers how genre theory applies to the television industry, and examines genre-specific approaches to issues of representation.

prereq: MEDIA 27100 -or- 37100
3 hrs
3 cr.

MEDIA 38000 - History of Broadcasting

GER
3/A

Broadcasting's roots in industrialization and influence on modern society.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38100 - Propaganda and the Mass Media

GER
3/A

Study of mass media (broadcast, film, print) as forms for propaganda.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38300 - Popular Music and the Music Industry

GER
3/A

Exploration of social and cultural significance of popular music; history, structure, and economics of music industry. Particular emphasis on popular music from fifties to present.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38400 - Women and Media
**Pluralism and Diversity**  
PD/C  
GER  
3/A

Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.  
cross-listed WGSN 38400 (W)  
prereq: MEDIA 18000  
3 hrs  
3 cr.

**MEDIA 38600 - Media Ethics**

GER  
3/A

An exploration of the moral issues surrounding media work, including truth-telling, social justice, cultural effects and conflicting rights.  
prereq: MEDIA 18000  
3 hrs  
3 cr.

**MEDIA 39000 - Broadcast Journalism**

GER  
3/A

Broadcast Journalism is a focused study of how journalism has evolved from radio, television, cable television, and the Internet; how it is distributed on social media; the growing popularity of podcasts; and how news distribution on various platforms relates to the social, economic, and political context of American culture and society.  
prereq: MEDIA 18000

Structures, policies and impact of global communications. Areas covered include global news, film, TV and music industries; telecommunications and the Internet.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

**prereq:** MEDIA 18000

3 hrs

3 cr.

**MEDIA 39700 - Cult TV and its Audiences**

**GER**

3/A

This course explores the historical and cross-cultural development of "cult" television, from cancelled programs whose narratives are kept alive by fan audiences, to the mainstreaming of cult audience behavior for high-rated programs today.

**prereq:** MEDIA 27100

3 hrs

3 cr.
MEDIA 39800 - Complex Television Narratives (W)

This course examines the historical emergence and characteristics of long-term arc-driven TV serials. Emphasis will be on the narrative strategies and formal features of dramatic serials, with some attention to complex comedies. This course falls under the Media Analysis and Criticism concentration of the Media major.

\textit{prereq: MEDIA 27100 (Television Culture, previously MEDIA 37100) or MEDIA 37100 or MEDIA 39700 (Cult Television Theory and Audiences) or Permission of instructor}

3 hrs
3 cr.

MEDIA 39900 - Special Issues in Media Studies

GER 3/A

Taught periodically, with topic listed in Schedule of Classes.

\textit{prereq: MEDIA 18000, others variable}

3 hrs
3 cr.

MEDIA 49900 - Advanced Seminar

Readings, discussion, and papers on significant problems in fields of media studies.

\textit{prereq: perm instr.}

3 hrs
3 cr.

Film and Media: Media—Practice and Production Courses (MEDP)

MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

\textit{cross-listed FILMP 15000}

\textit{prereq or coreq: MEDIA 18000, FILM 10100}

4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

\textit{cross-listed FILMP 16000}

\textit{prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)}

4 hrs
3 cr.

MEDP 23400 - Creative Code

This course explores the expressive potential of computer programming in media production and provides a theoretical framework for interdisciplinary artistic practices that use generative systems in their creation including drawing, poetry, music, and video production.

*prereq: MEDP 15000
  3 hrs
  3 cr.*

**MEDP 25000 - Digital Design and Usability**

This course introduces students to the fundamentals of 2D design and interaction design for digital media. The class approaches the subject from a creative and conceptual perspective. Students choose which digital production tools are most effective to address specific creative design problems.

*prereq: MEDP/FILMP 15000
  3 hrs.
  3 cr.*

**MEDP 26000 - Introduction to 2D Animation**

This hands-on class is an introduction to animation using 2D digital tools. Historical precursors to digital animation including experimental and animated film as well as contemporary animation will be screened. Class time will consist of screenings, in-class demonstration, production and critique.

*prereq: MEDIA 18000, MEDP 15000, MEDP 16000
  4 hrs.
  3 cr.*

**MEDP 28100 - Documentary Video Production 1**

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.

Material Fee: $20

*prereq: MEDP/FILMP 16000
  3 hrs
  3 cr.*

**MEDP 28200 - Studio Television Production**

Elements of multi-camera studio production.

*prereq: MEDP/FILMP 15000
  3 hrs
  3 cr.*

**MEDP 28500 - Web Production I**
An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.

prereq: MEDP/FILMP 15000  
3 hrs  
3 cr.

MEDP 28600 - Location Sound

Basic sound theory and production sound recording techniques, concentrating on microphones, field mixers and recording equipment, boom operation and on-set procedures.  
cross-listed FILMP 28600  
prereq: FILMP 25100 or MEDP 28100  
3 hrs  
3 cr.

MEDP 31000 - Advanced TV Studio Production

An advanced multi-camera television studio workshop and a continuation of Studio Television Production.  
prereq: MEDP 28100, 28200  
3 hrs  
3 cr.

MEDP 31100 - Documentary Video Production 2

Exploration of the aesthetics and practice of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.  
Material Fee: $20  
prereq: MEDP 28100 or FILMP 35200  
prereq or coreq: MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.  
4 hrs  
3 cr.

MEDP 31200 - Advanced Documentary Digital Editing

The aesthetic and technical considerations in editing the documentary video using digital equipment.  
Material Fee: $20  
prereq: MEDP 31100 or perm instr.  
4 hrs  
3 cr.

MEDP 33100 - Web Production II

An exploration of the production of Internet-distributed media, especially animation, sound, and video, using GIF Animation, Flash, and sound tools.  
prereq: MEDP 28500  
3 hrs  
3 cr.
**MEDP 34100 - Web Programming**

Advanced programming skills for website design. Dynamic content development explored through state of the art programming languages for the creation of interactive websites. Students will create web pages that utilize the most current techniques in web development. The curriculum in this class emphasizes an integrated and creative approach to web programming, including detailed instruction and practice in the technical aspects. It is designed to give students a basic introduction to the tools and techniques used by web programmers.

prereq: MEDP 23400 and MEDP 33100
3 hrs
3 cr.

**MEDP 34500 - Web Design Projects**

A project-based class designed to give students the experience of solving practical problems in web production and to add to the advanced student's web design portfolio with a comprehensive project. Students will work independently and in teams on a large-scale collaborative project.

prereq: MEDP 33100 or perm instr.
3 hrs
3 cr.

**MEDP 34900 - Introduction to Physical Computing**

This course is intended to introduce students to programming and off-screen media. Some time will be spent producing screen based visual and interactive art, but most of our semester will be dedicated to hardware hacking and the Arduino. Theoretical readings will be assigned throughout and students are expected to respond thoughtfully in text and media.

prereq: MEDP 16000 and MEDP 23400
3 hrs
3 cr.

**MEDP 35500 - Physical Computing: Interactive Installation**

A hands-on course focusing on the current state of interactive media in a collaborative environment. Students will create projects integrating video, sound and text exploring design concepts and using sensors for real-time interactivity. Material Fee: $20

prereq: MEDIA 18000, MEDP 15000 and 16000, MEDP 28500
3 hrs
3 cr.

**MEDP 36000 - 3D Animation and Modeling**

This hands-on production course will examine concepts and practices that form the basis of 3D animation for video, graphic novels, filmmaking, and net based art.

prereq: MEDP 25000, MEDP 26000
3 hrs.
3 cr.
**MEDP 36500 - 3D Virtual Environments**

This course is an introduction to skills and creative approaches for the development of computer-generated 3D interactive virtual environments. Students will develop 3D virtual environments using standard 3D game design techniques and technologies. This class approaches the subject from both a technical and creative perspective. It gives students an introduction to the tools and techniques used to design 3D computer games and how those processes may be applied to create artistically focused work.

*prereq: MEDP 36000*  
3 hrs  
3 cr.

**MEDP 38300 - Sound Design**

Aesthetics of sound design with practical instruction in audio post-production technology.

*prereq: FILMP 25100 or MEDP 28100 or perm. instr.*  
3 hours  
3 credits

**MEDP 38700 - Mobile Journalism**

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.

*prereq: MEDP 20200*  
3 hrs  
3 cr.

**MEDP 39909 - Game Design and Programming**

This class is an introduction to the practical and conceptual aspects of electronic game creation. Students learn a variety of game development tools and approaches while exploring a variety of theoretical, social, and other aspects of modern game culture.

*prereq: MEDP 23400 and MEDP 25000*  
*prereq or coreq: MEDIA 36300*  
3 hrs  
3 cr.

**MEDP 39950 - Motion Graphics**

This course examines the design and use of computer animation and effects for digital video. The course emphasizes the use of motion graphics to animate and render typography, effects and the compositing of distinct visual assets as well as its function within a greater narrative.

*prereq: MEDP/FILMP 15000 and MEDP/FILMP 16000 and MEDP 25000*  
3 hrs  
3 cr.

**MEDP 45100 - Film and Video Production Seminar**
Individual student films produced under faculty supervision.
May be taken twice for credit. Material fee $20 cross-listed FILMP 45100
3 hrs
3 cr.

**MEDPL 20100 - Reporting and Writing I (W)**

This course is an intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

*prereq or coreq: MEDIA 18000*
3 hrs
3 cr.

**MEDPL 20200 - Reporting and Writing 2(W)**

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

*prereq: MEDPL 20100*
3 hrs
3 cr.

**MEDPL 23900 - Entertainment Journalism (W)**

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.

*prereq: MEDPL 20100*
3 hrs
3 cr.

**MEDPL 28300 - News Video Reporting**

This course teaches students how to report and produce news video stories, including: hard news, features, formal interviews, and live shots.

*prereq: MEDPL 16000 and MEDPL 20200*
3 hrs
3 cr.

**MEDPL 28400 - Radio Reporting and Podcasting**

This course teaches students how to report and write a variety of audio news stories and podcasts for a live radio newscast.

*prereq: MEDPL 20200*
3 hrs
3 cr.

**MEDPL 29000 - Developing the Documentary (W)**
This workshop guides students through the research, writing and production planning essential for creating a video or film documentary.

**prereq:** MEDIA 18000 and MEDP 16000

3 hrs

3 cr.

**MEDPL 29400 - Magazine Writing (W)**

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.

**prereq:** MEDPL 20100

3 hrs

3 cr.

**MEDPL 29500 - Online Journalism (W)**

This class teaches students to research, pitch, report and write web based stories that include some type of data visualization as well as multimedia elements. Students will also learn how to create a video that includes text and photos to tell a story and use social media to research news stories.

**prereq:** MEDPL 20100

3 hrs

3 cr.

**MEDPL 29600 - Feature Writing (W)**

A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

**prereq:** MEDPL 20100

3 hrs

3 cr

**MEDPL 29700 - Data Journalism: Telling Stories with Numbers**

This course covers the fundamentals of data journalism reporting and visual storytelling using emerging techniques and tools. Students will learn to work with data and basic design to uncover and illustrate news trends and tell interactive data-driven news stories.

**prereq:** MEDPL 20100

3 hrs

3 cr.

**MEDPL 31600 - Experimental Production**

Experimental methods of film and video production, emphasizing innovative and non-traditional formal and conceptual practice.

**prereq:** FILM 25100 or MEDP 28100 or perm. instr.

3 hrs

3 cr.
MEDPL 37200 - Investigative Reporting (W)

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.

prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 37700 - Neighborhood News (W)

An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.

prereq: MEDIA 18000 and MEDPL 20100
3 hrs
3 cr.

MEDPL 38700 - Mobile Journalism

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.

prereq: MEDPL 20200
3 hrs
3 cr.

MEDPL 38800 - Studio News Production

This course teaches students how to collectively produce and present a live newscast on deadline and how to create news content relevant to a Hunter College audience. Students may take this course twice for credit.

prereq or coreq: MEDPL 28300
3 hrs
3 cr.

Film and Media: Media—Special Topics, Honors and Advanced Studies

MEDIA 40100 - Independent Research

Directed research or creative endeavor.
Material Fee: $20
prereq: 2 advanced level courses, perm dept.
1-6 hrs
1 cr. per hr.

MEDIA 40200 - Honors Project
Open to Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Successful completion qualifies student for departmental honors at graduation.

prereq: 3 advanced-level courses; 3.0 GPA and 3.5 major GPA; perm dept.
3 hrs
3 cr.

MEDIA 49800 - Internship

Opportunity to gain professional experience.

prereq: MEDIA 18000 and 2 other MEDIA or MEDP courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.

MEDP 39900 - Special Topics in Advanced Media Production

Taught periodically, with topic listed in Schedule of Classes.

prereq: MEDIA 18000, others variable
3 hrs
3 cr.

Programs and Courses in Geography and Environmental Science

Geography and Environmental Science

Overview

The department offers majors in Geography and Environmental Studies, a five-year combined BA/MA program in Environmental Studies and Adolescent Education-Earth Science, and minors in Geography, Environmental Studies and Geology. Our programs focus on urban and social geography; globalization and international development; earth systems, environmental science, and physical geography; geographic information science and digital mapping; environmental policy and sustainability; and social studies and environmental education. In addition, students learn how to use advanced analytical skills, including quantitative, qualitative, modeling, and geospatial research methods in order to address the vital problems humanity is facing today. In addition to comprehensive classroom instruction, the department offers field trips and field courses in geography and environmental science.

A major in Geography is designed to prepare students to understand our world's changing social and natural environments in their interaction and using concepts of place, space, distance, and location. In many instances, geographers make maps to analyze differences between places and to seek explanations for those differences. Most importantly, Geography not only will broaden your knowledge of the world and how human and natural systems interact but will also equip you with the skills needed to seek solutions to many pressing problems, from the impacts and consequences of climate change, depletion of natural resources, and pollution to poverty, inequality, geopolitical crises, migration, and insecurity. These skills include critical thinking, spatial analysis, and analytical writing. In addition to classroom learning and field trips, students learn by doing research projects together with community advocacy groups in New York City.

Geography majors are encouraged to pursue the course of study that best fits their interests while also exploring the three concentration areas that the department offers: Cities and Globalization; Digital Mapping and Geographic Information Science; and Sustainability. There is an option that prepares students for temporary certification in New York State to teach social studies at grades K-12.
The Environmental Studies major offers a common core of courses and an interdisciplinary approach that allows students to focus on environmental policy and management or earth systems science. Our major prepares students to identify and describe the components of Earth's environment and their interconnections. Our goal is to equip students with theoretical and practical tools to synthesize the body of knowledge presented in the course work and to address real world problems. We seek to accomplish this goal by fostering classroom dynamics where assumptions, methods and findings are critically evaluated. After choosing a concentration, students take advanced physical science courses for the Environmental Earth Science concentration and human geography and social science courses for the Environmental Management Policy concentration. Coursework covers subjects that include weather and climate, climate change, environmental hazards, fluid dynamics, sustainability, ecology, oceanography, conservation, urban problems and their solutions and the global impact of humans on the Earth system.

What can I do with my degree in Geography and Environmental Studies?

Courses in all of these fields are valuable parts of a general liberal education, developing an awareness of earth phenomena and the role these play in people's lives. Through integration of content knowledge, applied skills, and internships, our graduates are prepared for both graduate study and immediate employment in the public, private, and non-profit sectors.

Our website features stories about our former students who equally excel in academic and professional worlds. Courses for Geography and Environmental Studies majors are valuable parts of a liberal arts education, developing an awareness of how earth systems work and the role these play in people's lives. They also educate students about the challenges humanity faces in the era of global climate change, geopolitical and public health crises, growing inequality, and migration. Both majors prepare students for graduate degrees in earth and environmental science, geography, geoinformatics, and related fields. Many students successfully pursue top graduate programs and receive prestigious internships and fellowships such as those from the National Center for Atmospheric Research (NCAR) and the National Atmospheric and Space Administration (NASA), U.S. Environmental Protection Agency and Department of Environmental Protection. Many also become professionals whose expertise in the above areas is widely used by the governments and administrations of New York City and New York State, the U.S. Bureau of the Census, and private industry; they also develop careers as geography/earth science teachers.

Programs and Courses

Programs and Courses in Geography and Environmental Science

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Bachelor of Arts - BA

Environmental Studies - BA

Return to: Programs of Study

The major offers two concentrations which are organized to promote an intensive understanding of contemporary physical science, specifically earth system science as it relates to environmental issues, and an intensive understanding of a system-based approach to the dynamic nature of human-environmental interactions particularly as manifest in contemporary politics and economics. The concentrations are Environmental Earth Science and Environmental Management and Policy. It is suggested that students select a concentration as they enter the major with the understanding that the choice is not final at this stage and students can switch concentrations as they advance in the
To aid in this process, the curriculum offers a common core of required courses, as well as sufficient overlap within the required elective courses. It is strongly recommended that students considering this major meet with the adviser to discuss their interests and program of studies as courses may be added or deleted as the college's and department's offerings change. One or more courses not listed below may be included in a student's concentration with the advice and consent of the adviser.

- Environmental Studies: Earth Science Concentration
- Environmental Studies: Management and Policy Concentration - BA

Internships

Students can receive from one to four credits for internships in government agencies, consumer and activist groups, business and industry and media organizations involved in energy issues (e.g., Council on the Environment of NYC, Energy Task Force, NY State Assembly, Sierra Club, International Earthcare Center, NY State Department of Energy, Brooklyn Union Gas, NYC Department of Environmental Protection and the American Museum of Natural History).

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Honors Work and Individual Study

To graduate with departmental honors, a major in the geography or environmental studies program must be admitted to

**GEOG 49000 - Honors in Geography**

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

*prereq: perm dept.*

1 sem
3 cr.

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*
- and have a 3.0 cumulative GPA and a 3.5 GPA in the major.

The following courses also offer students the opportunity of undertaking individual research in geography, geology or environmental studies.

**GEOG 39100 - Individual Study in Geography**
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sem of geography, perm dept.

1-3 cr

**GEOG 39200 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sem of geography, perm dept.

1-3 cr

**GEOG 39300 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sem of geography, perm dept.

1-3 cr

**GEOL 39100 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr

**GEOL 39200 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr

**PGEOG 39100 - Individual Study in Environmental Studies**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** GEOL 10500, GEOG 22600 or PGEOG 13000

1-3 cr

**PGEOG 39200 - Individual Study in Environmental Studies**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.

1-3 cr

**PGEOG 39300 - Individual Study in Environmental Studies**
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.
1-3 cr.

Fieldwork

Several courses offer students an opportunity to study geography, geology and environmental situations in the field. They are usually offered during intersession periods, summer session or on weekends (consult Schedule of Classes). In addition to the regular field courses, special-topic field courses are offered periodically and fieldwork is conducted in connection with a number of the other courses. The department participates in the Study Abroad Program. It offers a field geography of selected world regions course (check with adviser for current location). An additional fee for transportation, lodging and food allowance is attached to these courses, depending on the focus of the course and its itinerary.

Graduate Study

Graduate-level courses may be taken for credit toward the bachelor’s degree by highly qualified seniors. Written permission must be obtained from the undergraduate and graduate advisers.

Intern Program

Internship provides opportunities for qualified majors and minors in both geography and environmental studies to work in positions of responsibility in professional institutions while earning from 1 to 4 academic credits. See a departmental adviser for details.

GEOG 49800 - Internship

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

Return to: Environmental Studies - BA
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Environmental Studies major, the courses that meet CCCR are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 10100</td>
<td>Life and Physical Sciences</td>
</tr>
<tr>
<td>PGEOG 13000 (STEM)</td>
<td>Scientific World and Life and Physical Sciences</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (45-54 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students with appropriate background may be exempted from GEOG 10100 and/or PGEOG 13000 (STEM). Please see the Department of Geography and Environmental Science for details.

Required courses

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

Prerequisite: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning

GER

1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

Prerequisite: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs

4 cr.

MATH 12600 - Precalculus Technology Laboratory
Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: MATH 12400, MATH 12500, or MATH 12550 or appropriate score on placement exam
prereq or coreq: MATH 12500
2 hrs
1 cr.

**GEOL 10100 - Introductory Geology Lab**

**Hunter Core**
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.
3 hrs.
3 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

GEOG 22600 - Environmental Conservation: Resource Management
GER
2/B
Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

PGEOG 25000 - Earth System Science I (W)
GER
3/B
In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: ENGL 12000
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.
4 hrs
3.5 cr.

PGEOG 25100 - Earth System Science II
GER
3/B
The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

prereq: PGEO 25000 or perm instr.
4 hrs
3.5 cr.
*These courses are prerequisites to PGEOG 25000. Either of these courses or GEOG 22600 is acceptable.

Required Capstone Course - 3 credits

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*

Electives - 18 credits

A minimum of 18 credits from the list below. 12 credits must be taken at the 300-level or higher. *Note: It is strongly recommended that students take STAT 11300 - Elementary Probability and Statistics.*

**GEOL 20500 - Environmental Geology**

**GER**

3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

*prereq: GEOL 10100*

3 hrs

3 cr.

**GEOL 28000 - Marine Geology**

**GER**

3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

*prereq: GEOL 10200 or perm instr.*

3 hrs

3 cr.

*Fall*

**GEOL 38000 - Advanced Oceanography: Physics of the Oceans**
The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

prereq: one sem CHEM or PHYS, MATH 15000 or equiv.
3 hrs
3 cr.

GEOL 38300 - Special Topics in Geology and Oceanography

Intensive courses in various aspects of geology or oceanography. Topics to be announced.
prereq: 200-level course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or MATH 101EN
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

GTECH 32100 - Remote Sensing of the Environment

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.

Material Fee: $15
prereq: GTEC 32000 or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.
GTECH 36100 - GIS Analysis

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geospatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee: $15
prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.

PGEOG 31300 - Biogeography

GER
3/B

Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.

prereq: PGEOG 13000, GEOG 10100 or BIOL 10000/10200
3 hrs
3 cr.

PGEOG 33200 - Introduction to Hydrology

GER
3/B

Designed to provide the basic understanding of how water on the Earth moves, distributes, circulates and interacts with the environment. Focus will be on hydrological processes including precipitation, evapotranspiration (evaporation and transpiration), soil water, ground water, and runoff, which form the complete water cycle at global, regional and watershed scales. The course will also cover some topics on how water responds to environmental changes and strategies of integrated water resources.

prereq: GEOL 10100, PGEO 13000 or perm instr.
3 hrs
3 cr.

PGEOG 33500 - Urban and Metropolitan Coasts

GER
3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.

prereq or coreq: Prereq: GEOL 10100 or GEOG 10100
3 hrs
3 cr.
PGEOG 36100 - Global Climatic Change

GER
3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

prereq: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

PGEOG 36300 - Environmental Hazards

GER
3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

prereq: PGEO 13000 or equiv.
prereq or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.

PGEOG 38300 - Special Topics in Environmental Studies

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

Environmental Studies: Management and Policy Concentration - BA

Return to: Programs of Study

Return to: Environmental Studies - BA
Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Environmental Studies major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 10100</td>
<td>Life and Physical Sciences</td>
</tr>
<tr>
<td>PGEOG 13000</td>
<td>Scientific World and Life and Physical Sciences</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (45-54 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students with appropriate background may be exempted from GEOG 10100 and/or PGEOG 13000 (STEM). Please see the Department of Geography and Environmental Science for details.

Required courses

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq:* appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq:* grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs

4 cr.

**MATH 12600 - Precalculus Technology Laboratory**
Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: MATH 12400, MATH 12500, or MATH 12550 or appropriate score on placement exam
prereq or coreq: MATH 12500

2 hrs
1 cr.

**GEOL 10100 - Introductory Geology Lab**

**Hunter Core**
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.
3 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**
**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.

*prereq:* CHEM 10200  
*coreq:* CHEM 10400  
6 hrs  
3 cr.

**GEOG 22600 - Environmental Conservation: Resource Management**

GER 2/B
Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs  
3 cr.

**PGEOG 25000 - Earth System Science I (W)**

GER 3/B
In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

*prereq:* ENGL 12000  
*prereq or coreq:* GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.  
4 hrs  
3.5 cr.

**PGEOG 25100 - Earth System Science II**

GER 3/B
The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

*prereq:* PGEO 25000 or perm instr.  
4 hrs  
3.5 cr.
Note:

* these courses are prerequisites to PGEOG 25000 Earth System Science I (W). Either of these courses or GEOG 22600 Environmental Conservation: Resource Management is acceptable.

Required Capstone Course - 3 credits

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*

Electives - 18 credits

A minimum of 18 credits from the list of courses below. 12 credits must be taken at the 300-level or higher. Courses not listed may be included in a student's concentration with permission of the ES adviser. **Note: It is strongly recommended that students take STAT 11300 Probability and Statistics.**

**PH 32500 - Environmental Public Health**

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

Minimum GPA to enroll - 2.75

*prereq: Any intro Statistic course plus SOC 10100 or equivalent plus either PSYCH 10000 or PSYCH 15000 or ANTHC 101, or equivalent. 3 hrs 3 cr.*

**GEOG 24100 - Population Geography (W)**

Pluralism and Diversity

PD/B or C

*GER

3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

*prereq: GEOG 10100 or GEOG 15000 and ENGL 12000 3 hrs 3 cr.*

**GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions**
Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

*prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing*

3 hrs
3 cr.

**GEOG 33500 - International Pollution Issues**

A study of international trans-boundary pollution and the science, source terms, transport pathways and international impacts of contamination events. The regional focus will change yearly pending current global environmental events.

*prereq: GEOG 101 or GEOL 101 or PGEO 130 or perm instr.*

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

*prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only*

3 hrs
3 cr.

**GEOG 37000 - Geography of Sustainable Development in Developing Countries**

Pluralism and Diversity

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

*prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.*

3 hrs
3 cr.

**GEOG 37100 - Rural Water Supply in Developing Regions**
Covers concepts, methods and analysis of rural water utilization and related problems and challenges in developing countries. It will discuss water management and quality and their relationship with sanitation and hygiene education. The course will also discuss methods of providing drinking water in a sustainable manner.

**Prereq:** GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.

**3 hrs**

**3 cr.**

**GEOL 20500 - Environmental Geology**

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

**Prereq:** GEOL 10100

**3 hrs**

**3 cr.**

**GEOL 33400 - Geomorphology: The Study of Beaches and Coasts**

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.

**Prereq:** GEOL 23100 or PGEO 23100 or equiv. or perm dept.

**3 hrs**

**3 cr.**

**GEOL 38300 - Special Topics in Geology and Oceanography**

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

**Prereq:** 200-level course of which special topic is logical outgrowth; perm instr.

**1-4 hrs (lec or lec/lab)**

**1-3 cr.**

**GTECH 32100 - Remote Sensing of the Environment**
Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.

Material Fee: $15

**prereq:** GTEC 32000 or perm instr.

4 hrs (2 lec, 2 lab)

3 cr.

**GTECH 38500 - GIS Applications**

Selected topics in GIS applications to human and physical geographic problems. See department for topics offered. May be repeated for credit as topics change.

Material Fee: $15

**prereq:** GTEC 20100 or equiv.

3 hrs

3 cr.

**PGEOG 31300 - Biogeography**

**GER**

3/B

Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.

**prereq:** PGEOG 13000, GEOG 10100 or BIOL 10000/10200

3 hrs

3 cr.

**PGEOG 33500 - Urban and Metropolitan Coasts**

**GER**

3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.

**prereq or coreq:** Prereq: GEOL 10100 or GEOG 10100

3 hrs

3 cr.

**PGEOG 36100 - Global Climatic Change**

**GER**

3/B
Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

prereq: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

PGEOG 36300 - Environmental Hazards

GER
3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

prereq: PGEO 13000 or equiv.
prereq or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.

PGEOG 38300 - Special Topics in Environmental Studies

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

POLSC 24400 - Energy and Environmental Politics and Public Policy (W)

GER
3/B

Examination of political processes and public policies shaping energy production and consumption in the U.S. with comparative reference to other countries. Emphasis on political, economic, social, environmental and foreign policy aspects.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

SOC 36100 - Development and Globalization (W)
Pluralism and Diversity
PD/A  
GER  
3/B  
This course will examine the effort of poor countries to achieve economic and social development, and the possible outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

prereq: SOC 10100  
3 hrs  
3 cr.

URBS 31000 - Methods of Urban Research and Policy Analysis

GER  
3/B  
Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.

prereq: URBS 10200 or perm instr.  
3 hrs  
3 cr.

URBS 40100 - Managing Urban Physical Environment

GER  
3/B  
Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.

prereq: URBS 20100 or perm instr.  
3 hrs  
3 cr.

Geography - BA

The major in Geography is designed to prepare students to understand and respond to our world's changing social and natural environments using a range of quantitative, qualitative, and geospatial research methods. Students will study how social and natural systems interact using concepts of place, space, distance, location, and scale. They will also learn how to make (digital) maps in order to analyze and explain differences between places. Geographic knowledge and analytical skills are vital to solving the many problems our world is facing today, from consequences of climate change to geopolitical crises and migration. In addition to classroom learning, students explore urban and natural environments through our field-based classes and by doing research projects together with community advocacy groups in New York City.

Our department offers three concentration areas that Geography majors are encouraged to explore. These concentrations are: Cities and Globalization, Digital Mapping and Geographic Information Science, and Sustainability.
Students are encouraged to discuss with advisers and professors in our department the course of study that best fits their interests.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the General Education - Effective Fall 2019 can be found here: In the case of the Geography major, the courses that meet CCC are:

Please note that no more than two courses from any one department will count for the CUNY Common Core.

**Requirements for the Degree Program**

**Geography Core 15 credits**

1. One of the following courses (3 credits)

**GEOG 10100 - People and Their Environment**

*Hunter Core*

Individual and Society - Social Science

**GER**

2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. interact with it. Contemporary economic, political and social patterns and problems are discussed.

*3 hrs*

*3 cr.*

*offered fall and spring.*
2. Two of the following four courses (6 credits), where one course has to be a lecture and the other a lab

**PGEOG 14000 - Introduction to Weather, Climate and Climate Change**

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

3 hrs
3 cr.

3. Digital Earth Course

**GTECH 10100 - Digital Earth**

Digital Earth introduces students to the new suite of geospatial technologies and how they are being used to capture, store, process and display the vast amount of geospatial information about our planet, a wide variety of environmental and cultural phenomena, and how this information helps us to better understand natural and cultural characteristics of the world, address world problems, and make sound decisions. Students will learn how satellites take complete photographs of the entire planet, Geographic Information Systems (GIS) display geospatial data, Global Positioning Systems (GPS) track the location of environmental and cultural phenomena, Geovisualization tools map our 3-D planet, and how these technologies are applied to solve problems in diverse fields and phenomena in the physical and social sciences in exciting ways. The knowledge and skills learned in Digital Earth open the door toward a geotechnology-oriented career.

3 hr.
3 cr.

4. One Approved Capstone course from the following list (3 credits):

**GEOG 48000 - Capstone in Urban and Social Geography**

Individual or group research project as capstone experience in urban and social geography.

*prereq: Senior standing as a geography major, approval of undergraduate adviser, and signed project contract with faculty sponsor.*

3 hrs
3 cr.

**PGEOG 48000 - Capstone in Physical Geography**

Individual or group research project as capstone experience in physical and environmental geography.

*prereq: Senior standing as a geography or environmental studies major, approval of undergraduate adviser, and signed project contract with faculty sponsor.*

3 hrs
3 cr.
GTECH 48000 - Capstone in Geographic Information Science

Individual or group research project as capstone experience in geographic information science.

prereq: Senior standing, approval of undergraduate adviser, and signed project contract with faculty sponsor.

3 hrs
3 cr.

GEOG 49000 - Honors in Geography

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

prereq: perm dept.
1 sem
3 cr.

PGEOG 49000 - Honors in Environmental Studies

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

prereq: perm dept.

GTECH 49000 - Honors in Geographic Information Science

Open to qualified Track C geography majors.

prereq: Senior standing, a minimum GPA of 3.5 in the major, approval of undergraduate adviser, and signed project contract with faculty sponsor

3 hrs
3 cr.

GEOG 49800 - Internship

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

GTECH 49800 - Internship in Geographic Information Science

Open to qualified geography majors and minors. Opportunities for working in positions of responsibility in professional institutions for academic credit.

prereq: Senior standing, approval of undergraduate adviser, and signed project contract with faculty sponsor.
Note: To graduate with departmental honors, students must hold senior status, have a minimum GPA in the major of 3.5, and complete GEOG 49000 or PGEOG 49000 or GTECH 49000 as their capstone course.

**Geography Tracks: A-D**

- Track A: Urban and Social Geography (30 credits)
- Track B: Physical and Environmental Geography (30 credits)
- Track C: Geographic Information Science (30 credits)
- Track D: Sustainability Studies (30 credits)

**Options in Social Studies Education within the Geography Major**

The Department of Geography and the School of Education provide opportunities for students to prepare for a career in teaching social studies in grades 1-6 (Childhood Education) or in grades 7-12 (Adolescent Education).

- Option in Social Studies within the Geography Major for Childhood Education Teachers
- Option in Social Studies within the Geography Major for Adolescent Education Teachers

**Honors Work and Individual Study**

To graduate with departmental honors, a major in the geography or environmental studies program must be admitted to the following and have a 3.0 cumulative GPA and a 3.5 GPA in the major.

**GEOG 49000 - Honors in Geography**

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

*prereq: perm dept.*

*1 sem*

*3 cr.*

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*

**The following courses**

Also offer students the opportunity of undertaking individual research in geography, geology or environmental studies.

**GEOG 39100 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

*1-3 cr.*
GEOG 39200 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sem of geography, perm dept.
1-3 cr

GEOG 39300 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sems of geography, perm dept.
1-3 cr

GEOL 39100 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sems of geology, perm dept.
1-3 cr.

GEOL 39200 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sems of geology, perm dept.
1-3 cr.

GEOL 39300 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sems of geology, perm dept.
1-3 cr.

PGEOG 39100 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000
1-3 cr.

PGEOG 39200 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.
1-3 cr.

PGEOG 39300 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.
1-3 cr.

Fieldwork
Several courses offer students an opportunity to study geography, geology and environmental situations in the field. They are usually offered during intersession periods, summer session or on weekends (consult Schedule of Classes). In addition to the regular field courses, special-topic field courses are offered periodically and fieldwork is conducted in connection with a number of the other courses. The department participates in the Education Abroad Program. It offers a field geography of selected world regions course (check with adviser for current location). An additional fee for transportation, lodging and food allowance is attached to these courses, depending on the focus of the course and its itinerary.

Graduate Study

Graduate-level courses may be taken for credit toward the bachelor’s degree by highly qualified seniors. Written permission must be obtained from the undergraduate and graduate advisers.

Intern Program

Internship provides opportunities for qualified majors and minors in both geography and environmental studies to work in positions of responsibility in professional institutions while earning from 1 to 4 academic credits. See a departmental adviser for details.

GEOG 49800 - Internship

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

Degree Map

Degree Map for Geography BA

Option in Social Studies within the Geography Major for Adolescent Education Teachers

Return to: Geography - BA

In cooperation with the The School of Education, the Department of Geography provides opportunities for students to prepare for a career in teaching social studies in grades 7 – 12. In addition to mandatory course work provided by the School of Education, interested students must complete the course of study outlined below. At least 18 credits of these courses or equivalents must be satisfactorily completed (grade of C or better) before the student enrolls in the social studies methods courses. Refer to the catalog section specific to programs in the The School of Education.
Transfer students who enter Hunter College with more than 90 credits or who will exceed 90 credits in completing the prerequisites for this option in the Geography major, cannot apply for the Adolescent Education program of the School of Education. They may still complete this option within the Geography major but must complete a Master of Arts degree in Adolescent Education before certification as a New York State teacher. While New York State recognizes the regular major in Geography for certification in Childhood Education, students interested in becoming certified as Social Studies-Adolescent Education teachers in New York State must complete this interdisciplinary course of study.

Prerequisites for the Major 9 credits

**HIST 15100 - The United States from the Colonial Era to the Civil War (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

3 hrs
3 cr.

**HIST 15200 - The United States from the Civil War Era to the Present (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

3 hrs
3 cr.

**GEOG 15000 - World Regions in Global Context**

**Hunter Core**
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A or D
GER
2/B

This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. Geographic concepts (e.g., space, place, distance, scale, borders, and regions) are used to study environmental, economic, social, and political conditions and identify key concerns in the culturally diverse world. The course will examine geographic world regions (e.g., South America, Europe, the Middle East, Sub-Saharan Africa, and others), connections in and between these regions, and how these regions and their populations interact as parts of a global system. For each world region, you will learn major historical events, specific interactions between natural environment and social systems, and their potential for and challenges to sustainable development.
Requirements for the Major 36 credits

ECO 10000 - Introduction to Economics

**Hunter Core**
Individual and Society (Social Sciences) - I&S SS

**GER**
2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.
ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

**prereq: Math/Writing Proficient/Non degree students**

3 hrs
3 cr.

GEOG 24100 - Population Geography (W)

**Pluralism and Diversity**

PD/B or C

**GER**

3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

**prereq: GEOG 10100 or GEOG 15000 and ENGL 12000**

3 hrs
3 cr.

GEOG 25100 - Geography of the United States and Canada

**GER**

2/B

Seeks to familiarize students with the regional geography of the United States and Canada. More specifically, the goals are to acquaint students with the dynamic nature of human and physical features that characterize the study area; the ways in which human and natural phenomena interact to create unique place characteristics and sub-regions; the key environmental issues that characterize the study area and its constituent parts; major trends that are affecting the geography of the two countries; and the locations of principal features. The course begins with general overview
material, and then examines the various sub-regions of the study area in much greater detail, focusing on key characteristics and environmental challenges

*prereq: GEOG 10100 or GEOG 15000 or perm instr.*

3 hrs

3 cr.

**HIST 11100 - World History to 1500**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A
GER

2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.

Courses at the 300-level and above not offered to freshmen.

3 hrs

3 cr.

**HIST 11200 - World History from 1500 to the Present**

**Hunter Core**
World Culture and Global Issues (WCGI)

GER

2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.

Courses at the 300-level and above not offered to freshmen.

3 hrs

3 cr.

1. Required courses (18 cr.)

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**
US Experience in its Diversity (USED)

GER

1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements.
or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**ECO 10000 - Introduction to Economics**

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings. ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.

Courses at the 300-level and above not offered to freshmen.

3 hrs

3 cr.

2. **One 3-credit course in cultural anthropology (ANTHC) or Sociology (3 cr)**

- One 3-credit course in cultural anthropology (ANTHC) or Sociology (SOC) selected with approval of the Geography Undergraduate Adviser.

3. **Elective Courses in History (6 credits)**

- Any two 3-credit 300-level courses in history with approval of the Geography Undergraduate Adviser.

4. **Elective Courses in Geography (9 credits, at least 6 credits at the 300-level)**

**GEOG 27000 - Regional Geography of Mexico, Central America and the Caribbean**
Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of Mexico, Central America and West Indies.
3 hrs
3 cr.

**GEOG 27100 - Regional Geography of South America**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of South America.
3 hrs
3 cr.

**GEOG 27500 - Regional Geography of Sub-Saharan Africa**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of the relationship of natural environment to economic, social and political life of Africa south of Sahara.
3 hrs
3 cr.

**GEOG 27700 - Regional Geography of East Asia**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of East Asia's potentials in terms of natural resources, population, industry and agriculture, with emphasis on China.
3 hrs
3 cr.

**GEOG 27800 - Regional Geography of Russia and Central Asia**

Pluralism and Diversity
PD/A or D
GER
3/B

Analysis of the relationship of the natural environment to economic, social and political life of Russia, the former
Soviet republics of Central Asia and Mongolia.

3 hrs
3 cr.

### GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions

**GER**
3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

*prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing*

3 hrs
3 cr.

### GEOG 24300 - Urban Geography

**GER**
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

*prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only*

3 hrs
3 cr.

### GEOG 34200 - Geography of International Migration and Ethnicity

**Pluralism and Diversity**
PD/B
**GER**
3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.

*prereq: GEOG 24100 or perm instr.*

3 hrs
3 cr.

### GEOG 24700 - Cultural Geography

**GER**
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.
effective term 2016
prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000
3 hrs
3 cr.

GEOG 35700 - Geography of New York City and Vicinity
GER
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessability.)

Open to Jr/Sr only.
prereq: GEOG 10100 or GEOG 15000
3 hrs
3 cr.
Offered fall.

Option in Social Studies within the Geography Major for Childhood Education Teachers

In cooperation with the School of Education, the Department of Geography provides opportunities for students to prepare for a career in teaching in grades 1-6. Students may choose to complete the Geography - BA, in addition to successful completion of the QUEST program. Interested students may also choose to complete the course of study outlined below. The option in Social Studies for Childhood Education is available only to students who are accepted into the QUEST program.

Students not accepted to the QUEST program, or students not eligible to apply to the QUEST program, should complete the traditional Geography major outlined above. They must complete a Master of Arts degree in Childhood Education before being certified as a New York State teacher.

Program Prerequisites (9 credits)

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)
**Hunter Core**  
**US Experience in its Diversity (USED)**  
**GER**  
1/C or 2/B

American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

3 hrs  
3 cr.

**GEOG 15000 - World Regions in Global Context**

**Hunter Core**  
**World Cultures and Global Issues (WCGI)**  
**Pluralism and Diversity**  
PD/A or D  
**GER**  
2/B

This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B
Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

2. Elective Courses in Geography (6 credits)

Choose any two of the following:

**GEOG 24300 - Urban Geography**

**GER**

3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

**GEOG 34200 - Geography of International Migration and Ethnicity**

**Pluralism and Diversity**

PD/B

**GER**

3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.

prereq: GEOG 24100 or perm instr.
3 hrs
3 cr.

**GEOG 24700 - Cultural Geography**

**GER**

3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent
developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

**effective term 2016**

**prereq:** ENGL 12000, and GEOG 10100 or GEOG 15000
3 hrs
3 cr.

**GEOG 35700 - Geography of New York City and Vicinity**

**GER**
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessibility.)

Open to Jr/Sr only.

**prereq:** GEOG 10100 or GEOG 15000
3 hrs
3 cr.
Offered fall.

### 3. Elective Courses in History (6 credits)

Any two 3-credit 300-level courses in history with approval of the Geography Undergraduate Adviser.

### Track A: Urban and Social Geography (30 credits)

Five courses from the list below (15 credits)

- GEOG 22100 Economic Geography and Globalization
- GEOG 24100 Population Geography (W)
- GEOG 24300 Urban Geography
- GEOG 24700 Cultural Geography
- GEOG 25000 Geographic Research Methods
- GTECH 20100 Introduction to Geographic Information Science

Two courses with a GEOG 30600 course number (6 credits)

- GEOG 30600 Special Topics in Contemporary Regional Geographies

Three courses with a GEOG 30500, GEOG 38300, or GTECH 38500 course number (9 credits) with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals
• GEOG 30500 Special Topics in Urban and Regional Dynamics
• GEOG 38300 Special Topics in Geography
• GTECH 38500 GIS Applications

Note:

Most GEOG 30600 courses have GEOG 15000 or permission of instructor as a prerequisite. GEOG 30500 courses have GEOG 24300 or permission of instructor as a prerequisite. GTECH 38500 courses have GTECH 20100 as a prerequisite.

Track B: Physical and Environmental Geography (30 credits)

a) The following 15 credits

• PGEOG 21200 Geography of Soils and Vegetation
• PGEOG 25000 Earth System Science I (W)
• GEOL 23100 Principles of Geomorphology
• GTECH 20100 Introduction to Geographic Information Science
• GTECH 20300 Introduction to Remote Sensing

b) Five 300-level courses with a PGEOG, GEOL, and/or GTECH prefix with advice and approval of the undergraduate advisor as appropriate to student interests and professional goals (15 credits)

Track C: Geographic Information Science (30 credits)

The following 9 credits:

GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or MATH 101EN
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

GTECH 20300 - Introduction to Remote Sensing

Introduces remote sensing image interpretation and a basic understanding of the use of remote sensing technology in the study of environmental issues and the monitoring of Earth systems. The first half of the course focuses on aerial photography, photogrammetry and image interpretation. The second half focuses on the use of remote sensing in Earth system sciences. Extensive lab exercises include practical assignments and computer-based analysis of remote sensing
images. Students will learn basic image interpretation and some web-based image processing skills through various lab exercises.

Material Fee: $15

prereq: GTECH 20100
6 hrs (2 lec, 4 lab)
4 cr.

GEOG 25000 - Geographic Research Methods

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

prereq: ENGL 12000 and a 100-level GEOG, PGEOG, GTECH, or GEOL course
3 hrs
3 cr.

The following 15 credits:

GTECH 30100 - Quantitative Methods in Geography

Open to Jr/Sr only. Process of spatial analysis. Application of scientific methods to geographic research; sampling, distribution measurement; statistical analysis of spatial data.

prereq: GTEC 201, STAT 113 or 213 or perm instr.
3 hrs
3 cr.

GTECH 32100 - Remote Sensing of the Environment

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.

Material Fee: $15

prereq: GTEC 32000 or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 32200 - Digital Image Processing

Course emphasizes the acquisition and nature of digital image data and the tools required to process and analyze remotely sensed data. Topics include: image preprocessing, spectral mixture analysis, image transformation, image classification and accuracy assessment, change detection, information extraction from LIDAR and radar. At least one application for each image processing method will be introduced. This is an advanced remote sensing course. The course includes lab exercises through which students will obtain hands-on experience in digital image processing. The labs include practical assignments and computer-based analysis of remotely-sensed images, and also field work to evaluate the results. The lab will use ENVI, an image processing software, together with the comprehensive data
GTECH 36100 - GIS Analysis

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geospatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee: $15
prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 38000 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

Material Fee: $15
prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.

- Two additional 300-level GTECH courses with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals

Note:

GTECH 30100 has GTECH 20100 and STAT 11300 or STAT 21300 as prerequisites. Selected GTECH 38500 courses have GEOG or PGEOG prerequisites in addition to GTECH 20100.

Track D: Sustainability Studies (30 credits)

Five courses from the list below (15 credits):

GEOG 22100 - Economic Geography and Globalization

GER
2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is
capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen
prereq: GEOG 10100 or perm instr.
3 hrs
3 cr.
Offered fall and spring

GEOG 24500 - Geography of Development

Introduction to geographic concepts, methods, and theories of development, as well as failures and challenges for development in a changing world.

prereq: ENGL 12000, and GEOG 10100 or GEOG 15000 or permission of instructor
3 hrs
3 cr.

GEOG 22600 - Environmental Conservation: Resource Management

GER
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 24100 - Population Geography (W)

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why
these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 and ENGL 12000
3 hrs
3 cr.

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or MATH 101EN
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

**WGSL 20017 - Globalization and Gender**

Globalization has been the subject of intense debate within both academic and journalistic spheres. These debates have questioned whether globalization 'works for the greater good or not.' In this course we will examine globalization critically by looking at some of the academic debates. We will examine the claim that globalization has heralded the end of the nation-state, review the implications of globalization on gender and sexuality, and consider the formation of a 'global middle class.'

prereq: WGS 10000 and ENGL 12000
3 hrs
3 cr.

The following 9 credits:

**GEOG 38300 - Special Topics in Geography**

GER
3/B

Open to Jr/Sr only. Topics to be announced.
prereq: GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr

**GEOG 37000 - Geography of Sustainable Development in Developing Countries**

Pluralism and Diversity
PD/A
GER
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability
and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.
3 hrs
3 cr.

GEOG 37100 - Rural Water Supply in Developing Regions

Pluralism and Diversity
PD/A
GER
3/B

Covers concepts, methods and analysis of rural water utilization and related problems and challenges in developing countries. It will discuss water management and quality and their relationship with sanitation and hygiene education. The course will also discuss methods of providing drinking water in a sustainable manner.

prereq: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.
3 hrs
3 cr.

• Two courses with a GEOG 30500, GEOG 30600, GEOG 38300 or GTECH 38500 course number (6 credits) with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals
  * Note: GEOG 38328 Environmental Ethics is the required course; no other 38300 course will be acceptable.

Undergraduate Minor

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows:

• one course selected from PGEOG 13000, GEOL 10100, GEOL 10500, GEOL 18000; and
• at least one course (minimum of 3 credits) selected from PGEOG 25000, PGEOG 25100 *, GEOG 22600, GEOL 28000, or GTECH 20100; and
• at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program's Concentration A (Environmental Earth Science) or Concentration B (Environmental Management and Policy).

*PGEOG 25000 is a prerequisite for PGEOG 25100

Minor in Geography

A minor in geography consists of a minimum of 12 credits chosen from undergraduate courses that have a GEOG, PGEO or GTEC prefix. Prerequisites may apply. Thoughtful selection of courses may result in a minor program of study that will enhance the student's major. It is recommended that prospective geography minors consult with the geography undergraduate adviser concerning course selection.

Minor in Geology
A minor in geology consists of a minimum of 12 credits as follows:

One course selected (at least 3 credits) from

**GEOL 10000 - Introduction to Geology**

Hunter Core  
Scientific World (SW)  
GER 2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)  
3 cr.  
Offered fall and spring.

**GEOL 10100 - Introductory Geology Lab**

Hunter Core  
Life & Physical Sciences  
GER 2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.  
3 cr.

**GEOL 10200 - Plate Tectonics and the Earth’s Evolution**

GER 2/E

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth's evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes; depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.

Prereq: GEOL 10100  
5 hrs (3 lec, 2 lab)  
4 cr.  
Offered fall.

**GEOL 10500 - Introduction to Environmental Studies**
An introduction to environmental science focusing on aspects of global change and the interrelationships of earth systems, environmental problems and issues.

*prereq: ENGL 12000*

3 hrs.

3 cr.

**GEOL 18000 - Introduction to Oceanography**

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

*prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students*

3 hrs.

3 cr.

Offered fall and spring

and

at least one course (minimum of 3 credits) selected from

**GEOL 20500 - Environmental Geology**

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

*prereq: GEOL 10100*

3 hrs.

3 cr.

**GEOL 23100 - Principles of Geomorphology**
GER
2/E or 3/B

Investigates the geologic forces that shape the surface of the Earth. In the laboratory students will learn to analyze features of the landscape and deduce the processes that produced them. Students will use traditional laboratories as well as Google Earth to learn about a variety of surficial processes.

*prereq:* PGEO 13000 or GEOL 10100

4 hrs (2 lec, 2 lab)

3 cr.

**GEOL 28000 - Marine Geology**

GER
3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

*prereq:* GEOL 10200 or perm instr.

3 hrs

3 cr.

Fall

or other approved course, and

at least one course (minimum of 3 credits) from the following list of 300-level courses

**GEOL 33400 - Geomorphology: The Study of Beaches and Coasts**

GER
3/B

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.

*prereq:* GEOL 23100 or PGEO 23100 or equiv. or perm dept.

3 hrs

3 cr.

**GEOL 38000 - Advanced Oceanography: Physics of the Oceans**

GER
3/B

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This
science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

**prereq:** one sem CHEM or PHYS, MATH 15000 or equiv.

3 hrs
3 cr.

**GEOL 38300 - Special Topics in Geology and Oceanography**

**GER**

3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

**prereq:** 200-level course of which special topic is logical outgrowth; perm instr.

1-4 hrs (lec or lec/lab)
1-3 cr.

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr.

**GTECH 35100 - Field Techniques in Geography**

Observation and analysis of physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as ground-truthing of remotely sensed images, the use of maps, compasses and GPS to navigate. Fee for transportation, lodging and food allowance required.

Material Fee: $300-400

**prereq:** GTEC 20100, any two additional geography or geology courses, perm dept.

90 hrs field/lab work (3 days lab, 7 days field)

3 cr.

Offered summer intersession (check with dept. in April).

**PGEOG 36100 - Global Climatic Change**

**GER**

3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

**prereq:** PGEO 13000 or GEOL 10100 or 10500

3 hrs
3 cr.

**PGEOG 36300 - Environmental Hazards**

**GER**

3/B
The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

prereq: PGEO 13000 or equiv.
prereq or coreq: PGEOG 13000 or equiv.

3 hrs
3 cr.

or other approved course

Other

A minimum of one lab* or field course** or other approved course with a field component is required

‡PGEOG 25000 Earth System Science I (W) (while not counted toward the geology minor) is a prerequisite for PGEOG 36100.

Minors for Geography Majors

A minor course of study is no longer required at Hunter College. However, geography majors can elect to minor in any field of their choice. It is recommended, but not required, that the chosen field be related to the student's principal interest(s) in geography, and that the student consult with the Geography Undergraduate Adviser prior to selection of a minor course of study.

Minor in Geography

A minor in geography consists of a minimum of 12 credits chosen from undergraduate courses that have a GEOG, PGEOG or GTECH prefix. Prerequisites may apply. Thoughtful selection of courses may result in a minor program of study that will enhance the student's major. It is recommended that prospective geography minors consult with the geography undergraduate adviser concerning course selection.

Minor in Geology

A minor in geology consists of a minimum of 12 credits selected from courses with a GEOL prefix, or PGEOG 23100, or PGEOG 33400, or GTECH 3500. Prerequisites may apply. It is recommended that prospective geology minors consult with an undergraduate adviser from the Department of Geography.

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows:

- one course selected from PGEOG 13000 (STEM), GEOL 10000, GEOL 10500, GEOL 18000; and
- at least one course (minimum of 3 credits) selected from PGEOG 25000, PGEOG 25100*, GEOG 22600, GEOL 28000, or GTECH 20100; and
• at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program's Concentration A (Environmental Earth Science) or Concentration B (Environmental Management and Policy).

*PGEOG 25000 is a prerequisite for PGEOG 25100

**Geography**

**GEOG 10100 - People and Their Environment**

**Hunter Core**  
Individual and Society - Social Science  
**GER**  
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs  
3 cr.  
offered fall and spring.

**GEOG 15000 - World Regions in Global Context**

**Hunter Core**  
World Cultures and Global Issues (WCGI)  
**Pluralism and Diversity**  
PD/A or D  
**GER**  
2/B
