Continuation of RUSS 31700 on an advanced level. Application of the theoretical and practical knowledge of translation to discipline-specific areas, including medical, legal, academic, scientific, and literary translation.

prereq: ENGL 12000, RUSS 31700 or equiv; RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 31900 - Business Russian
Increase mastery of Russian vocabulary, style and syntax for translating and composing diverse business materials in such fields as finance, insurance, litigation, advertising and labor relations. Conducted in Russian.

prereq: RUSS 20200 or equiv.
3 hrs
3 cr.
An overview of translation for the medical field and related sciences. The course introduces the students to key terminology, skills, as well as ethics of work in this field.

- RUSS 31700 - Russian Short Story and Novella
  - Prereq: RUSS 31700
  - 3 hrs
  - 3 cr.

- RUSS 32100 - Classical Russian Poetry
  - Prereq: RUSS 20200 or equiv.
  - 3 hrs
  - 3 cr.

- RUSS 32200 - Modern Russian Poetry
  - Prereq: RUSS 20200 or equiv.
  - 3 hrs
  - 3 cr.

- RUSS 32300 - Literature of Kievan Rus' and Early Russian Literature through the Age of Classicism
  - Prereq: RUSS 20200 or equiv.
  - 3 hrs
  - 3 cr.
RUSS 34000 - 19th Century Russian Literature
Pushkin's Eugene Onegin, Lermontov's Hero of Our Time, Gogol's Dead Souls, Turgenev's Fathers and Sons and others.
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 34100 - Tolstoy and Dostoevsky
Major novels of Russia's two greatest writers. Tolstoy's War and Peace, Anna Karenina, Dostoevsky's The Brothers Karamazov and others.
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 34200 - Modern Russian Literature
Gorky, Mayakovsky, Olesha, Babel, Sholokhov, Bulgakov, Nabokov, et al.
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 34300 - Russian Theater
Development of Russian drama and theater from early 19th century to present. Griboedov, Pushkin, Gogol, Chekhov and others.
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

RUSS 34400 - The Silver Age of Russian Literature
Pluralism and Diversity
GER

Major writers and movements of years 1890-1925. Short works by Chekhov, Sologub, Belyi, Blok, Akhmatova, Pasternak.

prereq: RUSS 20200 or equiv. 3 hrs 3 cr.

RUSS 36000 - Russian Women Writers

Pluralism and Diversity PD/C GER 3/A Studies the contributions of Russian women writers to Russian literature of the 19th and 20th centuries: A. Akhmatova, M. Tsvetaeva, A. Kollontai, N. Mandel'shtam, E. Ginsburg, L. Petrushevskaia and others. Readings and some writing in Russian. cross-listed WGSA 36100

prereq: RUSS 20200 or equiv. 3 hrs 3 cr.

RUSS 37000 - Independent Study in Slavic Literatures and Cultures

prereq: ENGL 120 3 hrs 3 cr.

RUSS 39900 - Second Language Acquisition

A survey of issues and approaches to second language acquisition. For students planning to teach languages other than English in grad 7-12.

prereq: at least three courses at the 300 level in the language, ENGL 120 3 hrs 3 cr.

RUSS 49100 - Honors Project

Open to Russian majors only. Essay.

prereq: RUSS 20200 or equiv. 3 hrs 3 cr.

RUSS 49800 - Internship in Russian and Slavic Studies

Students who enroll in the course can work in corporations, government agencies and non-profit organizations. In addition to gaining work-related skills, students develop contacts for future employment and acquire job-related experience. No more than 6 total internship credits can be taken. 3 credits count toward Russian major or minor.

prereq: Russian 20200 or an equivalent, or by permission of the head of the program; ENGL 12000 3 cr.

UKR 30000 - Independent Study in Ukrainian Language and Literature

3 hrs 3 cr.
First-year students entering in the fall semester begin their college careers by enrolling in a cluster of courses called a Learning Community. Each Learning Community consists of four or five introductory-level courses designed to introduce students to areas of study or majors offered at the college. By enrolling in and completing these courses, first-year students begin to explore potential areas of study as well as completing some of the Hunter Core courses needed to fulfill degree requirements for graduation. Additionally, since small groups of students are enrolled in many of the same course sections, these Learning Communities are designed to bring students together and make connections with peers who share their learning experiences and academic interests.

Participation in a Learning Community does not limit a student's future area of study and can be tailored to fit a student's educational history.

Liberal Arts and Sciences Test (LAST)

Students should register to take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations during their junior year. Students will not be allowed to enroll in student teaching until their scores on the LAST have been received by the School of Education. Students who do not pass the LAST at least partly because of low scores on subtest 4 and/or 5 must enroll in a college writing course before being allowed to register for any additional courses.

Licensing and Accreditation

Hunter-Bellevue Baccalaureate graduates are prepared to practice as generalist nurses in health care settings. Graduates from the Generic and Accelerated 2nd Degree Programs are eligible to take the National Council Licensing Examination for Registered Nurses (NCLEX-RN). The program also provides a foundation for graduate study which also is offered at the School of Nursing. Graduates of the advanced practice nursing programs are eligible to take the certification examinations for nurse practitioners and clinical nurse specialists.

Macaulay Honors College at Hunter College

Graduating high school seniors and others who have not yet attended college may apply to the Macaulay Honors College at Hunter College. The mission of this highly competitive program is to inspire and prepare outstanding leaders to confront and solve the social, economic, cultural, and scientific challenges of New York City and the world. Accepted students take a series of interdisciplinary seminars focused on New York City, and work closely with Honors Advisors in order to learn about and access the diverse resources of CUNY. Generous financial support is provided, allowing students to concentrate on their studies and carefully selected co-curricular activities. For further information, call the Macaulay Honors College office at (212) 650-3556 or see the website: http://www.hunter.cuny.edu/honorscollege.

Manhattan/Hunter College Science High School

The Manhattan/Hunter Science High School, located on Amsterdam Avenue at 66th Street, provides instruction for grades 9 through 12. This science high school is grounded in the belief that individuals are better prepared to face life's challenges when given the proper tools. Science offers the lens through which we may see, explore and meet the future. The New York City Department of Education and Hunter College have joined to create a school that provides an enriched, comprehensive college preparatory curriculum with a focus on science and the integration of science and the scientific method into all subject areas.
Ara Basmajian, Professor, Mathematics and Statistics; BA Queens, MA, PhD SUNY (Stony Brook)

Martin Bendersky, Professor, Mathematics and Statistics; BA City College, PhD California (Berkeley)

Patrick Burke, Doctoral Lecturer, Mathematics and Statistics; BS Duquesne, MA Pittsburgh, PhD Columbia

Barry Cherkas, Professor and Chair, Mathematics and Statistics; BS Worcester Polytech., MA, PhD Georgetown

Daniel S. Chess, Associate Professor, Mathematics and Statistics; AB Harvard, PhD Princeton

Richard Churchill, Professor, Mathematics and Statistics; BA George Washington, MS, MA, PhD Wisconsin (Madison)

Sandra Clarkson, Professor, Mathematics and Statistics; BS North Georgia, MEd, EdD Georgia

Lucille Croom, Professor, Mathematics and Statistics; BA Talladega, MA Michigan (Ann Arbor), PhD Columbia

Scott Gentile, Lecturer, Mathematics and Statistics; BA, MA Boston College

Olympia Hadjiliadis, Professor, Mathematics and Statistics; BSc Toronto, MMath Waterloo, MPhil, PhD Columbia

Ilya Kapovich, Professor, Mathematics and Statistics; B.Sc. Novosibirsk State University (Russia), PhD CUNY

Olga Kharlampovich, Professor, Mathematics and Statistics; Dr.Sc. Steklov Institute, PhD Leningrad

Tatyana Khodorovskiy, Doctoral Lecturer, Mathematics and Statistics, BA, NYU, PhD, Harvard

John Loustau, Professor, Mathematics and Statistics; BA Oregon State, PhD California (Santa Barbara)

Vincent Martinez, Assistant Professor, Mathematics and Statistics; BA College of New Jersey, Indiana University PhD, Applied Mathematics

Chun Pan, Assistant Professor, Mathematics and Statistics, BS, MS, Nanjing University (China), MS, PhD, University of South Carolina, Statistics and Biostatistics

Michael Samra, Lecturer, Mathematics and Statistics; MPhil CU NY

Verna Segarra, Lecturer, Mathematics and Statistics; BS, MA City College

Lev Shneerson, Professor, Mathematics and Statistics; MS Ivanovo Pedagogical Inst., PhD Ural State (USSR)

Dana Sylvan, Professor, Mathematics and Statistics; BS, MS, Bucharest (Romania), PhD Fed. Inst. of Technology (Switzerland)

Robert D. Thompson, Professor, Mathematics and Statistics; BA California (Santa Cruz), PhD Washington

William Williams, Professor, Mathematics and Statistics; BA McMasters, MS, PhD Iowa State
Mathematics Concentration in Preparation for Childhood Education (Grades 1-6)

This concentration constitutes a mathematics major for students in the Quality Urban Elementary School Teacher (QUEST) program. QUEST students majoring in mathematics are not exempt from the MATH 10400 (STEM)/MATH 10500 requirement. To enter this major, the student should have completed one semester of calculus (MATH 15000 (STEM) or the equivalent). The specified collateral major is Childhood Education. This mathematics major consists of at least 32 credits of coursework: 20 credits of major core curriculum courses and at least 12 additional credits, as described below.

The student should consult the School of Education for the sequence of teacher education courses in the Childhood Education (QUEST) major.

Major Core Curriculum (20 credits)

- MATH 15400 An Introduction to Symbolic Computation
- MATH 15500 (STEM) Calculus II
- MATH 15600 Introduction to Mathematical Proof Workshop
- MATH 16000 Matrix Algebra
- MATH 25000 Calculus III
- MATH 26000 Linear Algebra
- STAT 21300 (STEM) Introduction to Applied Statistics

Additional Required Courses (at least 12 credits)

- STAT 21200 Discrete Probability
- STAT 22000 Statistical Analysis in Forensics
- Two additional courses approved by a departmental adviser

Mathematics Track (34-50 credits)

Calculus Sequence

(0-17 credits)

- MATH 101EN - Algebra for College Students - Enhanced
- MATH 10100 - Algebra for College Students
- MATH 10150 - Mastery of Symbolic Computation
- MATH 12400 (STEM) - College Algebra and Trigonometry
- MATH 12500 (STEM) - Precalculus
- MATH 12550 (STEM) - Precalculus with Workshop
- MATH 14000 - Mathematical Reasoning Workshop

Unless students earn a grade of B- or above in MATH 12550
- MATH 15000 (STEM) - Calculus I
- MATH 15500 (STEM) - Calculus II

Other Required Math Courses

(24 credits)

- MATH 15600 - Introduction to Mathematical Proof Workshop
MATH 25000 - Calculus III
MATH 25400 - Ordinary Differential Equations
MATH 25500 - Vector Analysis
MATH 26000 - Linear Algebra
MATH 31100 - Abstract Algebra I
MATH 35100 - Mathematical Analysis I
STAT 21300 (STEM) - Introduction to Applied Statistics
or
STAT 31100 - Probability Theory

Elective Courses (9 credits)

The student must complete three 3-credit approved elective courses. The elective courses must be chosen from the 300- or 400-level courses in mathematics or statistics listed by the department. Factors affecting the choice of courses will include the student's career goals (preparation for graduate study; education; careers in business, government service or industry), the student's other major, where applicable, and the availability of courses due to the course rotation schedule. A 300-level course may be replaced by a graduate

Mathematics - BA

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

• MATH 12500 (STEM) Precalculus (prereq to MATH 15000)
• MATH 15000 (STEM) Calculus I
• MATH 15500 (STEM) Calculus II

Hunter Core Requirement

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Major

To enter the standard Mathematics Major, the student should have completed the Foundational Courses of one year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent). The major consists of at least 33 credits of coursework: 24 credits of core curriculum courses and at least 9 credits of advanced elective courses chosen by students according to their career plans.

Proficiency in symbolic computation is also required.

Major Core Curriculum (24)

• MATH 15600 Introduction to Mathematical Proof Workshop
• MATH 25000 Calculus III
• MATH 25400 Ordinary Differential Equations
• MATH 25500 Vector Analysis
• MATH 26000 Linear Algebra
• MATH 31100 Abstract Algebra I
• MATH 35100 Mathematical Analysis I
Elective Courses
The student must complete three 3-credit approved elective courses. The elective courses must be chosen from the 300- or 400-level courses in mathematics or statistics listed by the department. Factors affecting the choice of courses will include the student’s career goals (preparation for graduate study; education; careers in business, government service or industry), the student’s other major, where applicable, and the availability of courses due to the course rotation schedule. A 300-level course may be replaced by a graduate

Symbolic Computation Proficiency Requirement
As a requirement for graduation with a BA in Mathematics, students must demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of
   • MATH 12600 Precalculus Technology Laboratory
   • MATH 15400 An Introduction to Symbolic Computation
   • MATH 38500 Numerical Methods I
b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)

Graduate Requirements
Degree Requirements for the MA in Pure Mathematics
Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement
   • MATH 72100 - Modern Algebra I and at least one of MATH 72200 - Modern Algebra II or MATH 72500 - Advanced Linear Algebra

2. Analysis Requirement
   • MATH 74600 - Theory of Functions of a Real Variable I and at least one of MATH 74200 - Analytic Functions or MATH 74700 - Theory of Functions of a Real Variable II

3. Geometry and Topology Requirement
   • at least one of MATH 75100 - General Topology or MATH 75000 - Calculus on Manifolds

4. Elective Course Requirement (15 credits)
   Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000 - level courses approved by the graduate mathematics adviser are required. The department's course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

5. Written comprehensive examination
   Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required

Mathematics: Pure Mathematics - MA
Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in mathematics. But there are always several students with an undergraduate degree in a related topic and a few whose undergraduate background is completely unrelated. In both of these cases, the students filled out their mathematics background prior to applying for admissions.

Students use this program for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use the ir degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.
The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation.

The Department's requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement
   • MATH 72100 - Modern Algebra I
   • and at least one of
     • MATH 72200 - Modern Algebra II
     • or
     • MATH 72500 - Advanced Linear Algebra

2. Analysis Requirement
   • MATH 74600 - Theory of Functions of a Real Variable I
   • and at least one of
     • MATH 74200 - Analytic Functions
     • or
     • MATH 74700 - Theory of Functions of a Real Variable II

3. Geometry and Topology Requirement
   • at least one of
     • MATH 75100 - General Topology
     • or
     • MATH 75000 - Calculus on Manifolds

4. Elective Course Requirement (15 credits)
   Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department's course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 6000 level with permission of the adviser.

5. Written comprehensive examination
   Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval.
   The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case.
   The student may be allowed to repeat the examination for a final time or may be required to leave the program.
Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Note

For further information on the MA in Pure Mathematics, please contact Professor John Loustau: jloustau@msn.com.

Mathematics: Pure Mathematics

Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in mathematics. But there are always several students with an undergraduate degree in a related topic and a few who's undergraduate background is completely unrelated. In both of these cases, the students filled out their mathematics background prior to applying for admissions.

Students use this program for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Admission Requirements for the MA in Pure Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation.

The Department's requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement
   - MATH 72100 - Modern Algebra I
   - and at least one of
     - MATH 72200 - Modern Algebra II
     - or
     - MATH 72500 - Advanced Linear Algebra

2. Analysis Requirement
   - MATH 74600 - Theory of Functions of a Real Variable I
   - and at least one of
     - MATH 74200 - Analytic Functions
     - or
     - MATH 74700 - Theory of Functions of a Real Variable II
3. Geometry and Topology Requirement
   • at least one of
   • MATH 75100 - General Topology
   • MATH 75000 - Calculus on Manifolds

4. Elective Course Requirement (15 credits)
   Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. Medical Laboratory Sciences
Return to: Faculty of the School of Arts and Sciences
Steven Einheber, Associate Professor and Chair, Medical Laboratory Sciences: BS George Washington; PhD Cornell
Chad Euler, Assistant Professor, Medical Laboratory Sciences: BS Vermont, PhD Rockefeller
Muktar Mahajan, Doctoral Lecturer, Medical Laboratory Sciences: MS University of Kashmir, India, PhD Indian Institute of Science
Shahana Mahajan, Associate Professor, Medical Laboratory Sciences: MS University of Hyderabad, India; PhD Indian Institute of Science
Robert Raffaniello, Associate Professor, Medical Laboratory Sciences; BS College of Staten Island; MS LIU; PhD NYU
Abigail Rodriguez Morales, Assistant Professor, Medical Laboratory Sciences; BA New York University; PhD Washington University in St. Louis

Meningococcal Meningitis Disease
will appoint a committee to review the student's case.
Public Health Law 2167 requires institutions, including colleges and universities, to distribute information about meningococcal disease and vaccination to all students registering for 6 or more credits, whether they live on or off campus. Hunter College of the City University of New York is required to maintain a record of the following for each student:

a) Response to receipt of meningococcal disease and vaccine information signed by the student or student’s parent or guardian (if student is under 18 years old)

b) Record of meningococcal meningitis immunization within the past 5 years; OR

c) Acknowledgment of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student. Students can submit this information electronically through their CUNYfirst account or by completing Parts 1 and 3 of the Immunization Records office Immunization Form. To learn more about meningitis and the vaccine, please consult physician using the Health Services Immunization Form or can do so electronically through their CUNYfirst account. To learn more about meningitis and the disease at http://www.cdc.gov.

Modern: 19th, 20th and 21st century (including Modern Latin America)

• ARTH 24300 - Eighteenth Century Art
• ARTH 24400 - Neo-Classicism and Romanticism: the Age of Revolution, 1789-1848
• ARTH 24500 - Issues in 19th Century French Painting: Realism, Impressionism and Post-Impressionism/Symbolism (1850-1910)
• ARTH 24600 - American Art 1760-1900
• ARTH 24700 - Modern Art in Latin America (until c. 1945)
• ARTH 24900 - Twentieth-Century Art I
• ARTH 25000 - Twentieth-Century Art II
• ARTH 25100 - Contemporary Art
• ARTH 25500 - Modern Architecture I (1850-1950)
• ARTH 25600 - Modern Architecture II (from 1950 until today)
• ARTH 25700 - Postwar and Contemporary Art in Latin America
• ARTH 35100 - Special Topics Lecture in Modern Art (W)
• ARTH 45000 - Advanced Studies Seminar in Modern Art (W)

Music 42 - Credit Major (BA)

This degree is designed for students planning to pursue professional careers in music. It provides basic training in all areas of music and serves as a foundation for graduate study of any aspect of the field.

Foundation Courses

Foundation Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

• ENGL 12000 Expository Writing

Music BA - 42 credit Major

Music history:
• MUSHL 20100 Introduction to Music Research
• MUSHL 20500 Music History I
• MUSHL 20600 Music History II (W)
• MUSHL 30500 Music History III (W)
• and any other 3-credit MUSHL course at the 300-level

Music theory:
• MUSTH 20100 Introduction to Music Technology
• MUSTH 22000 Music Theory I
• MUSTH 22100 Music Theory II
• MUSTH 23000 Musicianship I
• MUSTH 23100 Musicianship II
• MUSTH 32000 Music Theory II
• MUSTH 33000 Musicianship III
• and any other 3-credit MUSTH course at the 300-level

Performance:
2 credits in
• MUSPF 40100 Individual Instruction in Instrument or Voice
2 credits in large ensembles
• MUSPF 22100 College Choir
2 credits in performance electives
MUSPF 22100 College Choir
MUSPF 24900 Jazz Ensemble
MUSPF 25000 Jazz and Popular Music Combos
MUSPF 25100 Jazz Vocal Workshop Ensemble
MUSPF 35300 Chamber Singers
MUSPF 35500 Chamber Music Workshop
MUSPF 36500 Topics in Piano Performance
MUSPF 36900 Topics in Vocal Performance
or MUSPF 40100 Individual Instruction in Instrument or Voice

Electives:
4 credits in music courses above the 100-level

Piano Proficiency Requirement
All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300–MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Graduate Curriculum
MUS 64100, MUS 64300, MUS 64500, MUS 64700, MUS 64900, MUS 65100, MUS 72400, MUS 75100, MUS 75200, MUS 77900, 3 cr. Music elective chosen in consultation with graduate adviser. (For course descriptions, see graduate catalog)

Music Bachelor's Degrees

Music Overview
The Music Department offers students the chance to explore musical expression through performance and academic study. Opportunities to learn from some of the best theorists, musicologists and ethnomusicologists in the field exist alongside exciting performance opportunities for every playing and singing ability. All undergraduate music majors include training in performance, aural skills, music theory, and music history, in the context of a strong liberal-arts degree program. Many other subjects, including composition, arranging, computer music, and ethnomusicology are available as electives. The undergraduate programs provide both the foundation for further study of any area of music and a liberal-arts background that can serve as a basis for careers in other fields.

Our ensembles include College Choir, Chamber Singers, Opera, Jazz Vocal Workshop, Jazz Ensemble, Jazz and Popular Music Combos, Chamber Music, and the Hunter Symphony. The BA degree can be completed evenings or days. In addition, the department sponsors numerous extracurricular events, including concerts, lectures, and master classes. Private lessons in instruments and voice are provided to all performance majors and many other music majors by a distinguished roster of performance teachers. Financial aid is available to qualified performance majors and other majors who need to study with private teachers not on the staff.

What can I do with my degree in Music?
Graduates of the department go on to a variety of careers in music and beyond. Graduates of the BA/MA dual degree program in Music/Music Teacher Education Pre-K–12 BA/MA are qualified to teach in the public elementary and high schools of New York State.

Programs and Courses
Teacher Education Pathway
Students planning to teach this subject in grades 7–12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Graduate Study
Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

Faculty
Music Faculty
HEGIS Code: 1004
Minor in Music
The music minor consists of 15 credits in music: MUSTH 10100; MUSHL 10100 or MUSHL 10700; one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher. Prospective minors who have already mastered the material taught in the required 100-level courses (MUSTH 10100 and/or MUSHL 10100 or 10700) may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see Music 25-Credit...

Major – BMus
This degree is designed for students planning to pursue careers as professional performers of music or as teachers of music performance. It provides intensive instruction in the student's instrument or voice; solid training in music history and theory; and a broad, liberal arts education. Admission to this program is conditional on passing an audition (preferably before the student enters college) demonstrating a high level of skill in performance.

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses Required for the Major (60 cr.)
- Introduction to Music Research

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

coreq: MUSHL 20500
prereq or coreq: ENGL 12000
1 hr
1 cr.
offered fall

MUSHL 20500

Music History I

Pluralism and Diversity
PD/D
For music majors. Survey of the history of music in the European tradition to 1600.
prereq: elementary knowledge of music history and literature, demonstrated by dept. exam
coreq: MUSHL 20100
prereq or coreq: MUSTH 22000, 23000, ENGL 12000, perm dept.

3 hrs 2 cr.
offered fall and any other 3-credit MUSTH course at the 300-level

Private lessons:
MUSPF 43100
- Individual Instruction in Instrument or Voice
  Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required.
  May be taken 8 times.
  prerequisite:
  permission of department

Performance ensembles:
For instrumentalists - 6 credits in instrumental ensembles
Choose 6 credits from the following:
MUSPF 23100
- Hunter Symphony
  Rehearsal and performance of orchestral works. May be taken 8 times.
  prerequisite:
  audition, permission of instructor

MUSPF 24900
- Jazz Ensemble
  Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.
  2 hrs 1 cr.

MUSPF 35500
- Chamber Music Workshop
  Rehearsal and public performance of instrumental chamber works. May be taken 6 times.
  prerequisite:
  audition, permission of instructor

MUSPF 25000
- Jazz and Popular Music Combos
  Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R&B, Country/Bluegrass, and Jazz. May be taken 6 times.
  prerequisite or corequisite:
  audition, department permission required

  2 hrs 1 cr.
MUSPF 36500 - Topics in Piano Performance
Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

coreq: MUSPF 40100 or 43100

2 hrs 1 cr.

For singers
6 credits in vocal ensembles

MUSPF 22100 - College Choir
Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs 1 cr.

MUSPF 25100 - Jazz Vocal Workshop Ensemble
Jazz performance and improvisation. May be taken 6 times.

prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition

2 hrs 1 cr.

MUSPF 35300 - Chamber Singers
Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

prereq: audition, perm instr.

2 hrs 1 cr.

MUSPF 36900 - Topics in Vocal Performance
Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.

prereq: ENGL 12000

coreq: MUSPF 40100 or 43100

2 hrs 1 cr.

for singers, a minimum of 2 credits must be in MUSPF 36900

Electives:
- 4 credits in music courses above the 100-level.

Recital:
- A senior recital, for which no credit is given, is also required.
Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

Degree Map for Music 60 cr. BMus

This degree is designed for students who want to study music in the context of a general liberal arts education, but who do not plan to pursue careers in music. It may also be convenient for students who enter Hunter with a large number of transfer credits in music.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Piano Proficiency Requirement

[Text continues on the next page]
All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300–MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

21400 (Piano III), or private lessons at their own expense (without credit), then repeat the examination. Students with no experience in MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of

should demonstrate an advanced level, a broad scope, and a high quality, and must be done under the supervision of a faculty member of the
Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

New York City Programs

Hunter College Scholarships, Awards, Prizes and Other Financial Assistance for Matriculated Students

Hunter College recognizes academic merit and need through a growing number of scholarship and fellowship programs. In general, these fall into two categories: scholarships and fellowships for incoming students; and scholarships, fellowships, awards and prizes for continuing students.

Incoming Students

There are several four-year scholarship opportunities for incoming first-year, full-time students, including the CUNY Macaulay Honors College financial package, Honors Scholar Programs, and Dormitory Scholars Awards.

For more information on the Honors Scholar Programs, see Student Services section of this catalog or visit Scholar Programs or inquire at the Honors Scholar Program Office, Hunter North 140, (212) 396-6888, or by email scholarprograms@hunter.cuny.edu.

Continuing Students

Continuing students who wish to be considered for awards from scholarship funds administered through the college should submit a Hunter College Scholarship application, available online at For more information, contact the coordinator of scholarship opportunities in the Office of Financial Aid (212) 772-4818.

Other Sources of Financial Assistance

Hunter College is committed to providing its students with the maximum amount of financial assistance available from government grants, loans and work-study opportunities. Information and assistance in obtaining financial aid is available from the Office of Financial Aid, Hunter North Room 241 or by logging onto http://www.hunter.cuny.edu/onestop/finances/financial-aid

Hunter College Foundation

Established in 1991, the Hunter College Foundation is dedicated to ensuring continued access to the highest quality public higher education and to helping Hunter maintain its longstanding reputation for academic distinction. Undergraduate scholarships and graduate fellowships may be set up in the Hunter College Foundation.

The Scholarship and Welfare Fund

The Scholarship and Welfare Fund of the Alumni Association, a not-for-profit group established in 1949, administers a number of funds to provide scholarships to students who otherwise might not be able to complete their education. For over fifty years, the Scholarship and Welfare Fund has contributed substantially to the education of Hunter College students. Contributions from alumni, friends, chapters and classes have provided the funds needed for this support.

Many endowed scholarships have been established through funds donated in the names of individuals, classes and chapters of the Alumni Association to provide assistance to students on the basis of both scholarship and financial need. They include college-wide awards and awards to graduating seniors.

New York State Certification

Undergraduate teacher preparation programs have been approved by the New York State Education Department to lead to initial certification for teaching in New York State. To earn this certificate students must successfully complete the approved program of study, obtain a BA or BA/MA degree, have fingerprint clearance, complete the Dignity for All Students Act (DASA) workshop and pass the required New York State Teacher Certification Examinations (NYSTCE) including the EAS, CST and edTPA. The Office of Academic And Student Affairs (OASA) sends institutional recommendations for certification after students graduate from their teacher preparation program. The initial certificate permits the holder to teach for five years. Candidates must then complete three years of full-time teaching in the certificate title and a master's degree in order to be eligible for professional certification. NYS certification is reciprocally accepted by many other states upon application. Students with questions about certification should consult the School of Education website: http://www.hunter.cuny.edu/education.
The liberal arts and sciences comprise the disciplines of the humanities, natural sciences and mathematics, and social sciences.

A. Examples of course types that are generally considered within the liberal arts and sciences:

1. Humanities:
   • English — composition, creative writing, history of language, journalism, linguistics, literature, literature in translation, playwriting
   • Fine arts — art appreciation, history or theory
   • Foreign languages — composition, conversation, grammar, history of the language, literature of the language, reading, translation studies
   • Music — music appreciation, history or theory
   • Philosophy — comparative philosophy, history of philosophy, logic, schools of philosophy
   • Religion — comparative religion, history of religion
   • Theater — dramatic interpretation, dramatic literature, dramaturgy, history of drama, playwriting

2. Natural sciences and mathematics:
   • Natural sciences — anatomy and physiology, biology, chemistry, earth science, geology, physics, zoology
   • Mathematics — calculus, mathematical theory, statistics
   • Computer Science — broad survey/theory courses

3. Social sciences:
   • Anthropology, cultural studies, economics, geography, government, history, political science, psychology, sociology
   • Criminal justice — introductory and broad survey courses
   • Communications — interpersonal communication, mass communication, public speaking, speech and rhetoric

B. Examples of course types that are generally not considered within the liberal arts and sciences:

• Agriculture
• Business — administration, finance, human resources, management, marketing, production
• Computer applications (e.g., word processing, database, spreadsheet), programming (e.g., specific languages)
• Health and physical education
• Home economics
• Education and teaching methods
• Library science
• Music — studio, performance, practice courses — voice, instrument, direction, conducting
• Office technologies and practice
• Performing and related arts — acting, costume design, dance, direction, lighting, production, scene construction, sound production
• Specialized professional courses in such fields as accounting, architecture, dental hygiene, dentistry, engineering, law, medicine, nursing, nutrition, pharmacy, podiatry, veterinary medicine
New York State Financial Aid Programs

Tuition Assistance Program (TAP)

The TAP grant is awarded to New York State residents who are enrolled full-time in a degree-granting program and meet the income criteria. To be eligible for a TAP award, each semester students must register for 12 credits which are directly attributable to their degree. Students should consult with an adviser in the Office of Advising or their major department when planning their programs to ensure continued TAP eligibility. SEEK students should consult with their SEEK counselor.

Awards ranging from $500 to $5,165 are made to dependent students and independent students with dependents whose New York State taxable income is $80,000 or less or to independent students with no dependents if the taxable income is $10,000 or less. Students may receive awards for eight semesters; SEEK students may receive awards for ten semesters. A student with a disability that prevents attendance on a full-time basis may be eligible to receive a prorated TAP while attending on a part-time basis.

Excelsior Scholarship Program

The Excelsior Scholarship, in combination with other student financial aid programs, allows students to attend a SUNY or CUNY college tuition-free. Applicant must be a resident of NYS and have resided in NYS for 12 continuous months prior to the beginning of the term. Eligible applicants must be a U.S. citizen or eligible non-citizen. In addition, they must graduate from high school in the United States, earned a high school equivalency diploma, or passed a federally approved "Ability to Benefit" test, as defined by the Commissioner of the State Education Department.

Applicants must have a combined federal adjusted gross income of $125,000 or less. In addition, be pursuing an undergraduate degree at a SUNY or CUNY college. Applicants must be enrolled in at least 12 credits per term and complete at least 30 credits each year (successively), applicable toward his or her degree program; A recipient of an Excelsior Scholarship may receive up to $5,500. A recipient of an Excelsior Scholarship is eligible to receive award payments for not more than two years of full-time undergraduate study in a program leading to an associate's degree or four years of full-time undergraduate study, or five years if the program of study normally requires five years, in a program leading to a bachelor's degree.

For more information see the HESC Web site at:

http://Senator José Peralta New York State DREAM Act

CUNY Student Tuition Assistance (CUSTA)

Students who are otherwise eligible for a maximum TAP award but whose award is reduced because they have received four semesters of payment may be eligible for a CUSTA award up to $50 a semester.

Aid for Part-Time Study (APTS)

This award provides assistance to students who attend less than full-time, have accrued a minimum of 6 credits (not equated) and have not exhausted their TAP eligibility. In order to be eligible, a student must be a New York State resident and enrolled for at least 6 credits.

The legislature established the Aid for Part-Time Study (APTS) program in 1984 in a new section 666 of the Education Law. Aid for Part-Time Study is a different program from Part-Time TAP (established in 2006) with different requirements. One difference is that there is no prior study (prior earned credits) requirement for APTS.
Eligible and/or certified American Indian students enrolled members of a New York State tribe and their children who are attending, or planning to attend, a college in New York State and are New York residents. Awards are made to all eligible applicants. There is no quality of attendance requirement. Awards may be renewed for up to five years of full-time study or for five academic years of a program of academic study as defined by the Commissioner of Education.

The New York Army Reserve National Guard offers tuition assistance through two programs for full-time undergraduate study or for five academic years of a program of academic study as defined by the Commissioner of Education. The Army Reserve National Guard scholarship program is specifically required as a condition of enrollment in a course. Part-time students are eligible if they are enrolled half-time (7 or fewer credits).

The program is campus-specific: that is, individual campuses that decide to participate in the program select recipients and determine award amounts based on the amount of institutional funds available. The program is established by Governor George Pataki’s Executive Order 113 and related legislation to establish such a program, along with a CUNY Board of Trustees resolution.

The scholarships cover the cost of tuition, fees, books, supplies, transportation and room and board, if applicable, for four years of full-time undergraduate study or for five academic years of a program of academic study as defined by the Commissioner of Education. Statute does not define need or specify how the need of the recipient should be determined.

Eligible students are those who are New York State residents and discharged under honorable conditions from the U.S. Armed Forces and who are:

- Veterans of the armed forces of the United States who served in hostilities that occurred after February 28, 1961 as evidence by receipt of an Armed Forces Expeditionary Medal, Navy Expeditionary Medal or a Marine Corps Expeditionary Medal.
- Persian Gulf Veterans who served in the Persian Gulf on or after August 2, 1990.
- Afghanistan Veterans who served in Afghanistan during hostilities on or after September 11, 2001.
- Members of the New York Army Reserve National Guard who are:
  - Full-time students.
  - Community college students at a part-time duty status.
  - Part-time students.
  - Full-time students serving on active duty.
  - Active Reserve members who are full-time students.
  - Members of the New York National Guard, Army Reserve, and who do not receive federal tuition assistance benefits.

To be eligible, students must satisfy all other eligibility requirements including filing for TAP and Federal Pell Grants. Students must demonstrate potential to successfully complete their college degree and meet college guidelines for pursuit of this award program. Awards cannot exceed the cost of tuition, fees, books, supplies, transportation and room and board, if applicable, for four years of full-time study or for five academic years of a program of academic study as defined by the Commissioner of Education.

The scholarships were established by Governor George Pataki’s Executive Order 113 and related legislation to establish such a program, along with a CUNY Board of Trustees resolution. The program is specifically required as a condition of enrollment in a course. Part-time students must be enrolled half-time (7 or fewer credits).

A recipient receives an annual award payment based on the amount of institutional funds available. Part-time recipients receive a proportionate amount. The program is campus-specific: that is, individual campuses that decide to participate in the program select recipients and determine award amounts based on the amount of institutional funds available. Part-time students must reapply each year and demonstrate potential to successfully complete their college degree and meet college guidelines for pursuit of this award program. Awards cannot exceed the cost of tuition, fees, books, supplies, transportation and room and board, if applicable, for four years of full-time study or for five academic years of a program of academic study as defined by the Commissioner of Education.

For more information please visit the HESC Web site at: Veterans Tuition Awards.
Recipients must be chosen in the following order of priority:

- Professional Opportunity Scholarships (for approved professional programs, e.g., accounting, architecture, engineering, nursing, occupational therapy, ophthalmic dispensing, pharmacy, physical therapy, dental hygiene, landscape architecture, physician’s assistant, law, podiatry, optometry, psychology, social work, veterinary medicine)
- Congressional Teacher Scholarships
- Search for Education, Elevation and Knowledge (SEEK)
- NYS Regents Awards for Children of Deceased and Disabled Veterans
- A recipient of a Child of Veteran Award can receive $450 a year for four years of undergraduate study without consideration of income or tuition costs. However, the combined Child of Veteran Award and TAP award may not exceed the amount of tuition charges. Students must initially establish eligibility.
- Prorated amounts are available for students taking fewer than 12 credits. Contact Native American Education Unit, New York State Education Department, Room 374 Education Building, Albany, NY 12234. Call (518) 474-2570. Applications must be submitted each year. The deadline each year is May 1 of the award year. (Example: The deadline for 2020-2021 is May 1, 2021.)

Applicants must:

- Be enrolled in a specific program during the upcoming academic year. Winners receive up to $5,000 a year for a period of no more than four years. TAP and some other benefits may supplement this award. Contact the college Financial Aid Office or the New York State Education Dept., Bureau of Higher and Professional Education Testing, Albany, NY 12230; (518) 474-6394.
- Be enrolled full-time (matriculated) in an approved time undergraduate study (or five years in an approved five-year bachelor’s degree program).
- Meet the state.
- Be a New York State resident at the time of death, if death occurred during or as a result of service.
- Be a New York State resident at the time of death, if death occurred during or as a result of service.
- Meet eligibility as determined by the Bureau of Higher and Professional Education Testing, Albany, NY 12230; (518) 474-6394.
- Be a New York State resident at the time of death, if death occurred during or as a result of service.
- Meet eligibility as determined by the Bureau of Higher and Professional Education Testing, Albany, NY 12230; (518) 474-6394.
- Be a New York State resident at the time of death, if death occurred during or as a result of service.
- Meet eligibility as determined by the Bureau of Higher and Professional Education Testing, Albany, NY 12230; (518) 474-6394.

For more information see the HESC Web site at: NYS Memorial Scholarships for Families of Deceased Firefighters, Volunteer Firefighters, Police Officers, Peace Officers and Emergency Medical Service Workers.
New York State Rule for Liberal Arts and Sciences Courses

The following applies to all students who enter Hunter College either as freshmen or transfer students as of fall 2016: To obtain a Bachelor of Arts degree, students must have a minimum of ninety (90) credits in courses that are classified as Liberal Arts & Sciences courses. For a Bachelor of Science degree, a minimum of sixty (60) credits must be earned in courses that are classified as Liberal Arts & Sciences. Credits taken at Hunter or credits transferred in are subject to this requirement, which is based on a New York State law. While most courses offered at Hunter will be Liberal Arts & Sciences courses, several academic programs offer a number of courses which do not count as Liberal Arts & Sciences. To make sure that your courses follow the New York State guidelines, you must see an adviser if you have many credits or are majoring in any one of the following programs. This is especially important if you transfer courses in these fields to Hunter (their status may depend on the school where you

Art & Art History (Studio Art)
Economics (Accounting)
Community Health
Computer Science
Dance
Education
Film and Media Studies
Medical Laboratory Sciences
Music
Nursing
Theatre

Students who entered Hunter College after 2009 are under the same requirements, but there is the possibility of a waiver; however this is not guaranteed. Please check with an adviser if you have many credits or are majoring or minoring in one of the above areas.

Below is a list of courses that are NOT counted as Liberal Arts & Sciences, organized by Department, School, or Program:

Art & Art History:
All ARTCR courses

Community Health:
PH 40800 Digital Media and Health
PH 41200 Directed Fieldwork Practicum
COMHE 400.xx

Economics (Accounting):
ACCP 36700 Analysis of Financial Statements
ACCP 37100 Intermediate Accounting I
ACCP 37200 Intermediate Accounting II
ACCP 37300 Federal Income Taxation
ACCP 37400 Managerial Accounting (Cost Accounting)
ACCP 38000 Business Law II
ACCP 47100 Advanced Accounting I
ACCP 47200 Advanced Accounting II
ACCP 47300 Business Taxes
ACCP 47500 Auditing
ACCP 47600 Computer Accounting Systems
ACCP 48000 Business Law III
ACCP 49000 Accounting & Auditing Research

School of Education:
All courses in the School of Education are non Liberal Arts and Sciences, except:
QSTB 20280 Child Growth and Development
QSTB 40380 Social Foundations of Urban Education
QSTB 41380 Psychology of Teaching and Learning
SEDC 21000 Building the Foundations of Literacy in Grades 7–12
SEDF 20300 Social Foundations of Education, Grades 7–12 (W)
SEDF 20400 Adolescence Development
SEDF 20500 Educational Psychology: Applications in Grades 7–12
SEDF 20600 Assessment of the Teaching and Learning Process in Grades 7–12
International applicants whose primary language is not English must demonstrate a firm command of the English language by scoring a minimum of 500 Paper-Based TOEFL, 6 (IELTS), 61 (IBT) and 44 Pearson Academic on the Test of English as a Foreign Language (TOEFL). No conditional admission is offered whereby a student may come to the college and spend a semester or year learning English.

All applicants to graduate programs in CUNY for whom English is not their first language must take one of three exams*: Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or Pearson Test of English (PTE). Hunter College has until now accepted only the TOEFL exam. The Economics department has requested that Hunter College accept the IELTS in addition to the TOEFL.

*RESOLUTION ON THE INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM (IELTS) EXAM

Be it resolved that Hunter College will accept the following exams as proof of English Language proficiency as one of the graduate admissions requirements for international students: International English Language Testing System (IELTS) and Test of English as a Foreign Language (TOEFL). Departments will be given the option of using one or both of those exams.

Noncompliance of Immunization Requirements

Please note that students will not be allowed to continue at Hunter if they are not compliant with immunization requirements within 30 days from the first scheduled day of classes.

Nondegree and Second-Degree Students Acceptance

The School of Education does not accept nondegree or second-degree students.

Nondegree student transfers

Nondegree students who are in attendance at Hunter College as well as those who were previously enrolled, in addition to meeting the above stated criteria, must have had a minimum grade point average of 2.0 in their Hunter coursework. Transfer admissions decisions and determinations of advanced standing are made by the Hunter College Admissions Office on the basis of work done as a matriculated student at regionally accredited two- and four-year colleges and universities. Only courses in which a student has earned a grade of C or better (or a passing grade with earned credit from a CUNY college) can be accepted for transfer. Transfer credit will not be granted for any remedial, developmental or ESL coursework.
Students who are not interested in earning a degree but wish to enroll in college credit bearing courses may be admitted as nondegree students. All students wishing to enroll at Hunter in a nondegree status must apply for nondegree admission from the Hunter College website www.hunter.cuny.edu. The application must be submitted along with verification of at least a high school diploma or 24 earned college credits. Neither a high school certification nor an IEP diploma is acceptable (see the nondegree application for further information.) A nondegree admission fee of $65 will be charged at the student's first registration. Nondegree students may register for any course for which space is available at the time of registration, provided they have met the prerequisites and have taken and passed applicable placement exams. (Check with the appropriate departments for more information concerning prerequisites and placement exams.) Such students are permitted to attempt up to 12 credit hours before they are required to prove proficiency in Reading Writing and Math (see the catalog section on Testing) and, must either matriculate or leave the college when they have attempted 24 credits. Courses in which the student receives a grade of "W" do not count toward the 12- or 24-credit limitations.

Baccalaureate, master's or doctoral degree holders (from a college or university accredited by a regional U.S. accrediting association) are exempt from the 24-credit limit, provided proof of the degree is submitted along with their application for admission.

Students in an F-1 or J-1 Visa status are not eligible to attend Hunter College in a nondegree status.

Credits earned at Hunter College as a nondegree student are automatically transferred into a degree program upon matriculation at Hunter. Those credits earned at Hunter will be accepted as residency credits.

The priority application deadlines for nondegree admission are:

- Summer: March 15
- Fall: May 1st
- Winter: October 1st
- Spring: November 1st

Applications submitted after the deadlines will be considered based on space available at the college.

Nondegree Students and CUNY Proficiency Requirements
Nondegree students may attempt up to 12 credits at Hunter College without demonstrating the CUNY Proficiency Requirements unless it is required for a particular course. Nondegree students are required to demonstrate CUNY proficiency requirements once 12 credits have been attempted; nondegree students must demonstrate proficiency requirements based on the same criteria set forth for Degree Students.

Notice of Access to Campus Crime Statistics, the Campus Security Report and Information on Registered Sex Offenders
The college Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the U.S. Department of Education, as well as the annual campus security report. The campus security report includes:

- the campus crime statistics for the most recent calendar year and the two preceding calendar years;
- campus policies regarding procedures and facilities to report criminal actions or other emergencies on campus;
- policies concerning the security of and access to campus facilities;
- policies on campus law enforcement;
- a description of campus programs to inform students and employees about campus security procedures and practices and to encourage students and employees to be responsible for their own security and the security of others;
- campus crime prevention programs;
- policy concerning the monitoring through the police of criminal activity at offcampus locations of students organizations officially recognized by the college;
- policies on illegal drugs, alcohol and underage drinking;
- where information provided by the State on registered sex offenders may be obtained (also see below); and
- policies on campus sexual assault programs aimed at the prevention of sex offenses and procedures to be followed when a sex offense occurs. This information is maintained pursuant to the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

The campus crime statistics and the annual campus security report are available at the Public Safety Office - West Building B122 and the college Web site.

If you wish pick up copies of the campus crime statistics and the annual campus security report, you should contact Joseph Foelsch, Jr., Director of Public Safety and Security at (212) 772-4521. Copies are available at the Main Campus, West Building, B122. The U.S. Department of Education's Web site address for campus crime statistics is http://ope.ed.gov/campussafety/#/institution/search CUNY Hunter College, New York City, New York, then "Continue"
officer of the presence on campus of a registered sex offender as a student or employee. You may contact the college's chief security officer, offenders” or access the directory at the college's public safety department or police precinct. To obtain information about Level 2 offenders, you

- United States Department of Education, Office for Civil Rights

Nutrition and Food Science Program Description

The competitive, 54-credit Nutrition and Food Science bachelor of science major (NFS-BS), begun junior or senior year, is a diverse science-based program where students learn about nutrients, foods and their effect on health. It offers a comprehensive study of the fundamental principles of nutrition, food science and safety, food service management and community nutrition education. The major prepares students to work in a variety of career settings. NFS majors can work with products for food companies. It is also possible to use foods and nutrition knowledge for jobs in advertising, marketing and in the mass media. Service professions.

Students can become consultants to television programs, or write articles on food for newspapers. Students may take steps after graduation to enter a graduate didactic program in dietetics (DPD) at Hunter or elsewhere to become registered dietitians (RD), or pursue graduate study in allied health, social work, scientific research, or other human service professions.

Note: The NFS-BS undergraduate major is not a didactic program in dietetics (DPD) and does not prepare the student to become a registered dietitian. At Hunter, the DPD is on graduate level (NUTR-MS).
The Section 504 Coordinator at Hunter College, Professor Bonnie Keilty, is responsible for enforcement of the provisions of Section 504. She may be contacted in 929 Hunter West, (212) 772-3129 or visit http://www.hunter.cuny.edu/dfa-office for assistance.

Under the auspices of the Office of AccessABILITY, the Access and Technology Center, located in room 300 of the Academic Building, serves students with permanent or temporary disabilities. It is staffed with professionals in the fields of educational psychology, educational technology, and educational counseling. The Center works closely with students to develop support services. These services include alternative note-taking, special testing accommodations, on-line note-taking, audio books, and academic advising.

The Center also accommodates students with temporary disabilities caused by an accident or short-term health conditions. Students are encouraged to contact the director of admissions at (212) 772-5774 for assistance.

A variety of exams are available for high school students to gain college credit before they enroll. Currently, Hunter College accepts the Advanced Placement (AP) exam, the International Baccalaureate (IB) exam, GCE (Tertiary Level) Advanced Level Examination Program (CLEP), Regents College Examinations (RCE), and College Level Examination Program (CLEP). Students who successfully complete these exams with grades of C or better may be granted as much as a year of degree credit (normally 30 credits) for Advanced Placement, International Baccalaureate, and CLEP exams. Hunter students may be granted as many as 30 credits by hosting high-performing students at the Summer Institute for accelerated coursework that is complemented by tutoring, college guidance and planning, and mathematics Regents exams. College Now offerings, including credit-bearing courses, are provided at no cost. Students interested in College Now can apply via the website at http://www.hunter.cuny.edu/college-now/apply.

Students at New York City public high schools may acquaint themselves with undergraduate life by participating in Hunter College Now. Hunter College Now provides high school students the opportunity to take college-level coursework, including the Summer Institute for college preparatory work. Activities range from workshops for sharpening writing or mathematics skills to college-level courses across the arts and sciences. Each summer, Hunter College Now focuses on the sciences and mathematics by hosting the Summer Institute for accelerated coursework that is complemented by college guidance and planning. Students who successfully complete these exams with grades of C or better may be granted as much as a year of degree credit (normally 30 credits) for Advanced Placement, International Baccalaureate, and CLEP exams. Hunter students may be granted as many as 30 credits by hosting high-performing students at the Summer Institute for accelerated coursework that is complemented by tutoring, college guidance and planning, and mathematics Regents exams. College Now offerings, including credit-bearing courses, are provided at no cost. Students interested in College Now can apply via the website at http://www.hunter.cuny.edu/college-now/apply.

As the Chief Academic Officer, the Provost works with the President and Deans to oversee academic policies and activities. Dr. Lon S. Kaufman is the Provost and Vice President for Academic Affairs at Hunter College. His office is responsible for the quality of all academic programs and activities. The Provost's Office acts as the College's chief operating officer, with the responsibilities of institutional, academic and sponsored programs planning, assessment and support. Areas under the Provost's leadership can be seen on the Hunter College website: http://www.hunter.cuny.edu/provost.
they can call 1.888.308.0013. Students need to score at least a 4 on the AP exam to earn credit and/or exemptions from requirements (some

ive students are also invited to visit the campus. Campus tours originate from the College Welcome Center, room 100 Hunter North.

To apply as a part-time student contact the Hunter College Welcome Center for an appropriate application.

allow students to practice their speaking skills. For more information about the classes offered, call (212) 774-4793 or visit the web site at

attendance, assignments, and examinations set by the instructor. Course requirements and standards are the same as in the letter grading system,

licies. On the other hand, there are some courses in which letter grades are not assigned. Departments or majors that restrict student choice of the
Pass/No Credit grades are not allowed for students on academic probation.

A maximum of four courses (including repeated courses) taken at Hunter College may be assigned a Pass/No Credit grade (and/or the discontinued designation of Credit/No Credit) on the Hunter College transcript, excluding any courses with mandatory P/N C (CR/NC) grading.

The grade of P shall be used to replace the academic grades of A, B, C and D. The grade of NC shall be used to replace the academic grade of F. It shall not be used to replace the grade of WU.

If (as a result of a student's request) a P/NC grade (and/or the discontinued designation of Credit/No Credit) is given where it is not an allowed grade according to existing college, departmental, or major regulations, it will be converted by the Registrar's office to the underlying grade entered by the instructor.

If, after requesting P/NC grading (and/or the discontinued designation of Credit/No Credit), a student receives an INC, the P/NC grade is applied when and only when the instructor changes the INC (or FIN) to a letter grade. A student's request for P/NC grading (and/or the discontinued designation of Credit/No Credit) will remain in place until a letter grade is earned.

Other colleges, graduate and professional schools, services, and employers may not favor Pass/No Credit grades. They may convert "Pass" to "D" and "No Credit" to "F" for their purposes. Such decisions are made by other institutions.

Before opting for P/NC grades, students should consult with advisors in the Office of Advising, in their academic program(s), and in the Office of Financial Aid. They should also check the policies of external financial-aid agencies.

How To Opt For Pass/No Credit

In order to select P/NC for a course, a student must complete a form available from the Office of the Registrar. The student must submit the form to the Office of the Registrar by 11:59 PM (Eastern Time) one calendar day prior to the last day of classes as indicated in the Hunter College academic calendar (also one day prior to the deadline to officially withdraw from a class with a grade of W). Notification of the student's P/NC choice will be sent to the course instructor by the Office of the Registrar. Students may not elect the P/NC grading option after these deadlines and there are no appeals allowed for late election.

Please note, once a student chooses a P/NC grade for a course, that choice is final and irrevocable. The form is not valid if the student's election of the P/NC grading option violates college-wide, departmental, or program-specific restrictions.

For information on whether a specific program or major restricts the use of the P/NC option, please read the program description of the program or major of interest in the catalog or check with departmental or program advisers.

NOTE: In the Spring and Fall semesters of 2020, some of the above policies were temporarily suspended by CUNY due to the COVID-19 pandemic. Selection of the CR/NC grading option for courses in the Spring and/or Fall 2020 semester do not count against college-wide or program-specific restrictions regarding (1) the number of P/NC (previously CR/NC) uses allowed per semester, (2) the maximum number of uses allowed of the P/NC (previously CR/NC) grading option in
Persona Non Grata Guideline

The College may restrict access to the campus by any visitor (i.e., a person who is neither a student nor an employee of Hunter College), including but not limited to guests, event attendees, and/or alumni whose conduct, after review by a panel of the Campus Safety Advisory Committee, is determined to be in violation of any rules and/or policies of Hunter College or the City University of New York or applicable New York State Law. This restriction may include revocation of alumni identification cards and/or other restrictions on access to Hunter College.

Philosophy

Return to: Faculty of the School of Arts and Sciences

Ian Blecher, Lecturer; BA Yale, MA, PhD Pittsburgh

Omar H. Dahbour, Professor, Philosophy; BA Trinity, MA Boston University, MA Columbia, PhD Chicago, PhD CUNY

Justin Garson, Associate Professor; BA Evergreen State, MA, PhD University of Texas
Beginning January 2000, students enrolling at Hunter College must prove their proficiency in reading, writing and mathematics through SAT scores, Regents scores or assessment tests prior to registration. Remedial courses are no longer offered by the college. ESL and non-proficient SEEK students are exempt from this policy, but must adhere to the following guidelines (see Admissions for information about ESL and SEEK designations): SEEK students must enroll in the appropriate basic skills workshop(s) prior to enrolling in their first semester at Hunter. SEEK students who do not gain proficiency in the pre-first semester workshops must take additional basic skills workshops during the semester. SEEK students must demonstrate proficiency within one year of enrollment at Hunter. SEEK students needing basic skills coursework must consult with the director of the SEEK Program for course access and availability. ESL students are placed in an appropriate developmental reading and/or writing course during their first semester and may continue taking developmental courses in their second semester, if needed. ESL students must demonstrate proficiency by the end of their fourth consecutive semester at Hunter. ESL students should see the ESL adviser in the English Department, Room 1212 Hunter West, for details about basic skills proficiency requirements.
Students planning to attend law school should take courses that develop writing skills and the ability to think critically and creatively; they may be of interest to students who wish to explore legal themes in the context of their undergraduate work. There are some areas of legal practice for which a specific undergraduate major or coursework in a particular field constitutes a legalet-school/course-selection. Students interested in law are encouraged to meet with the Pre-Law Adviser as early as possible to learn about opportunities to explore and pursue internships and full-time opportunities in various fields of business, including finance, consulting, marketing, and so on. Students interested in law may major or minor in any area (Biology, English, Urban Affairs, etc). Pre-Law Adviser, Elise Jaffe, at prelaw@hunter.cuny.edu. To keep up with Pre-Law events and opportunities on campus, students are also encouraged to subscribe to the Pre-Law Listserv by following the instructions that appear on the homepage of the Pre-Law Website. The Pre-Law Website. The Pre-Law Listserv by following the instructions that appear on the homepage of the Pre-Law Website.

Campus Implementation

The bringing of disciplinary charges shall automatically suspend that process. Any action taken by a college must come to a conclusion before disciplinary actions can be pursued. Following the completion of these procedures, the appropriate college official shall decide the appropriate next action, if any, to take. For example, the department chairperson may decide to place a report in the faculty member's personal file. When the department chairperson is available to investigate a complaint, the college president may assign an administrator to investigate.

Subsequent Action

The appeals chairperson is available to investigate a complaint, the college president may assign an administrator to investigate.

Students are encouraged to attempt to resolve complaints informally with the faculty member or to seek the assistance of the department chairperson or college president. If students have any questions about the applicable procedure to follow for a particular complaint, they shall be brought in extremely serious cases even though the college has not completed the entire investigative process described above; in that case,
Each campus shall implement these procedures and shall distribute them widely to administrators, faculty members and students and post them on the college Web site.

Procedures for Reporting Incidents of Sexual Assault and Other Forms of Violence

Professional and Pre-

Professional Majors: BS, BFA, BSW and BMus Degrees

These programs, each requiring approximately 60 credits in the area of specialization, lead to the BS, BFA, BSW or BMus degree.

The following programs are available. For details and names of advisers, see Programs of Study:

- Accounting BS (Economics Department)
- Studio Art BFA
- Community Health BS
- Music BMus
- Medical Laboratory Sciences BS
- Nursing BS
- Social Work BSW
- Nutrition and Food Science BS

As of summer 2009 BS majors may declare up to two BA minors. See the minor department.

Program and Courses in Chemistry

Overview

The Department of Chemistry offers courses for undergraduates who plan to major or minor in Chemistry, as well as for students pursuing other degrees within the college. Courses for majors prepare the students for professional work and further study in chemistry and other fields of pure and applied science. Courses for the non-science major are designed to introduce students to those essentials of chemical fact and theory which will contribute to the student's understanding of contemporary scientific knowledge.

The department is the largest chemistry department in CUNY in terms of student enrollment, and routinely ranks in the top 40 in the United States in graduating chemistry majors. The Hunter College Chemistry community has access to state-of-the-art research facilities such as Nuclear Magnetic Resonance, Mass Spectrometry, high resolution Transmission Electron Microscopy, X-ray, and Scanning Probe Microscopes. Major I provides students with intensive training for professional research and graduate study and is accredited by the American Chemical Society. Major II consists of three options: Option 1 (Chemistry) for students interested in the chemical industry; Option 2 (Biochemistry) for students interested in the pharmaceutical industry (accredited by the American Society for Biochemistry and Molecular Biology), medicine, dentistry, veterinary medicine or physical therapy; Option 3 (Bioinformatics) for students interested in graduate studies in biochemistry and bioinformatics as well as pharmaceutical and biotechnology industries.

Options 1-3 are all appropriate for students pursuing teacher education programs.

What can I do with my degree in Chemistry?

The department provides training for students planning careers in the chemical sciences, biology, medicine, earth sciences, secondary education, business, and law across the chemical enterprise in academia, industry, government, and private practice.

Programs and Courses

Program and Courses in Chemistry

Administration and Faculty
There are two chemistry majors: Major I, a 43-credit concentration in addition to an 11-credit general chemistry core, is designed to prepare the students with intensive training for professional research and graduate study. Major II consists of three options: Option 1 for students interested in the chemical industry; Option 2 (the biochemistry option) for students interested in the pharmaceutical industry, medicine, dentistry, veterinary medicine or physical therapy; Option 3 (bioinformatics option) for students interested in graduate studies in biochemistry and bioinformatics as well as pharmaceutical and biotechnology industry. Major I includes a minimum concentration of 28 credits (option 1), 29 credits (option 2), and 23.5 credits (option 3) in 200-level and above chemistry courses, in addition to an 11-credit general chemistry core. Options 1-3 are all appropriate for students pursuing teacher education programs.

Students considering a chemistry major should consult the departmental adviser during their first semester to plan the proper sequence of courses, and they are urged to consult with the adviser at least once each succeeding semester. A year of General Chemistry and the accompanying General Chemistry Laboratory are prerequisites for admission to both Major I and Major II.

Pluralism and Diversity
GER 3/B
This course is designed to expose an undergraduate student, to the multiple facets of chemistry laboratory research available at Hunter College under the supervision of a chemistry faculty member. The purpose of this course is to provide students with the opportunity to demonstrate proficiency in scientific research through the design, development, and presentation of an original, independent and substantive research question, as well as through data collection and analysis. A written thesis and oral presentation are required to fulfill the presentation component of the course. Mandatory participation in the thesis committee meetings are essential to the development of a well written thesis.

In order to register for this course, students must have completed CHEM 22400, CHEM 22300, and CHEM 29101 or CHEM 29102. Course is repeatable. Fulfills part of the requirement for departmental honors.
This course is designed to expose an undergraduate student, to the multiple facets of chemistry laboratory research available under the supervision of a chemistry faculty member. The purpose of this course is to provide students with the opportunity to demonstrate proficiency in scientific research through the design, development, and presentation of an original, independent and substantive research question, as well as through data collection and analysis. A written thesis and oral presentation are required to fulfill the presentation component of the course. Mandatory participation in the thesis committee meetings are essential to the development of a well written thesis.

In order to register for this course, students must have completed CHEM 22400, CHEM 22300, and CHEM 29101 or CHEM 29102. Course is repeatable. Fulfills part of the requirement for departmental honors.

Electives
Advanced lecture courses in special areas of chemistry, and lab courses providing training in inorganic and organic chemistry and in research techniques, are offered as electives for Major I and are open to students enrolled in Major II who have fulfilled the course prerequisites.

Graduate Study
 Qualified chemistry majors may be admitted to 700-level courses in the graduate program. Permission of the department is required.

Teacher Education Pathway
Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Chemistry Major I - BA
The requirements for this major consist of a minimum of 54 credits in chemistry. This major is recommended for students preparing for admission to graduate school or for careers in chemical research. It will also be useful to students seeking a position in the chemical or allied industries, as it is accredited by the Committee on Professional Training of the American Chemical Society.

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.
Courses Required for the Chemistry Major (80-96 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Introductory Math Sequence (0-9 credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH 12500 for grade replacement purposes.

prereq: MATH 10100/101EN - or - the appropriate score on the Mathematics placement test.

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH 15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
Chemistry Courses

Chose one introductory sequence (11 credits)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core Scientific World (SW); Life and Physical Sciences (LPS) GER 2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for premed, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec) 4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core Life and Physical Sciences (LPS) Scientific World (SW) GER

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec) 4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core Life and Physical Sciences (LPS); Scientific World (SW) Pluralism and Diversity GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200

coreq: CHEM 10400

6 hrs 3 cr.

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry
The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)

5.5 cr. offered spring

Required Chemistry Courses (42-45 credits)

CHEM 22200 - Organic Chemistry Lecture I
GER
3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I
GER
3/B
Various organic syntheses, distillation, extraction, chromatography, qualitative analysis, spectroscopy.
Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.
Note: Students must register
prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs 2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II
GER
3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II
Continuation of CHEM 22300. 

prereq: CHEM 22300 

prereq or coreq: CHEM 22400 

4 hrs 

2.5 cr 

CHEM 24900 - Quantitative Analysis

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

prereq: CHEM 10400 with grade of C or better, 10500 

5 hrs (3 lab, 2 rec) 

3 cr.

CHEM 34900 - Instrumental Analysis

Pluralism and Diversity

GER 3/B

Principles of modern instrumental techniques; emphasis on spectroscopic and electrochemical methods.

prereq: CHEM 35400 or 35600 with grade of C or better with 35500 

8 hrs (2 lec, 6 lab) 

5 cr

offered spring

CHEM 35200 - Physical Chemistry I

Pluralism and Diversity

GER 3/B

Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.

prereq: CHEM 24900 and MATH 25000 and PHYS 12100 all with a grade of C or better 

3 hrs 

3 cr.

offered fall

CHEM 35400 - Physical Chemistry II

Pluralism and Diversity

GER 3/B

Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.
CHEM 35200, MATH 25000
3 hrs
3 cr.
offered fall

CHEM 35600 - Physical Chemistry II

GER GER 3/B
Selected topics from quantum chemistry, molecular structure, and spectroscopy.
prereq: PHYS 12100, CHEM 24900, MATH 25000 all with grade of C or better
3 hrs
3 cr.
offered spring

CHEM 35500 - Physical Chemistry Laboratory I

GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.
prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall

CHEM 35700 - Physical Chemistry Laboratory II

Pluralism and Diversity
GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.
prereq: CHEM 24900 or perm chair
prereq or coreq: CHEM 35600
3 hrs
1.5 cr.
offered spring

CHEM 36600 - Inorganic Chemistry

GER GER 3/B
Treatment of structure, bonding and reactivity of inorganic compounds.
prereq: CHEM 35200 with grade of C or better
CHEM 37600 - Biochemistry I

Ger 3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

Prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better

4 hrs (3 lec, 1 rec)

One further laboratory course must be chosen from (research), (honors research) or the following

CHEM 29102 - Chemical Investigations

Pluralism and Diversity

Ger 3/B

This course is designed to expose an undergraduate student to the multiple facets of chemistry laboratory research available at Hunter College under the supervision of a chemistry faculty member.

The purpose of this course is to introduce students to the field of laboratory research which will include experimental manipulation, handling instrumentation, the development of hypotheses and research questions, showing proficiency in scientific research, as well as in data collection and analysis.

In order to register for this course, students must have completed CHEM 22400, CHEM 22300, and CHEM 29000

Course is repeatable

Prereq: CHEM 22400, perm chair

8 hrs

In addition, one additional lecture course must be chosen from among the following*:

CHEM 32200 - Organic Chemistry Lecture III

Ger 3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

Prereq: Chem 22404 with a grade of C or better OR Chem 22406 with a grade of C or better

3 hrs

CHEM 35400 - Physical Chemistry II

Ger 3/B

Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.

Prereq: CHEM 35200, MATH 25000

3 hrs
CHEM 35600 - Physical Chemistry II

GER 3/B

Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 25000 all with grade of C or better

3 hrs

3 cr.

offered spring

CHEM 37700 - Biochemistry II

GER 3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better

3 hrs

3 cr.

Also acceptable for completion of Major I are

PHYS 33000 - Atomic and Nuclear Physics

Examines experimental evidence and develops modern view of structure of atom and nucleus.

prereq: PHYS 12000 or 12100

prereq or coreq: MATH 25000

4 hrs

4 cr.

Note: Students should be aware, however, that if either of the philosophy courses is used to complete the Major I requirements, the major will not be eligible for accreditation by the American Chemical Society.

Physics and Math Requirement (26-28 credits)

One year of physics, and four semesters of mathematics, are also required for this major.

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core

Scientific World (SW) Life and Physical Sciences (LPS)

GER

2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

prereq or coreq: coreq (with perm dept.): MATH 15000
PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER 2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus. 

prereq: PHYS 11000 or 11100

prereq or coreq: (with perm dept): MATH 15500

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

MATH 15500 (STEM) - Calculus II

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

prereq: MATH 15000

prereq or coreq: MATH 15500

MATH 25000 - Calculus III
Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq:
MATH 15500, MATH 15600

4 hrs
4 cr.

MATH 25400
Ordinary Differential Equations

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

prereq:
MATH 25000

3 hrs
3 cr.

*These courses may be counted for credit in more than one program.

Additional Information
CHEM 24900, MATH 15000 (STEM) and MATH 15500 (STEM), and PHYS 12100 (STEM) are prerequisites for CHEM 35200 and should be completed by the end of the sophomore year.

Major I is required of all students who wish to be considered for certification by the American Chemical Society upon graduation. It is recommended for all students intending to enter the profession of chemistry through either graduate study or employment in industry or government. Students who can attend only in the evenings should consult the department adviser regarding the feasibility of completing Chemistry Major I.

Degree Map for Chemistry Major I

Chemistry Major II - BA

Return to: Programs of Study
Return to: Chemistry BA

Major II offers three options. Option 1 is for students interested in the chemical industry. Option 2 is for students preparing for admission to medical, dental or veterinary schools or who are interested in the pharmaceutical industry. Option 3 is for students interested in biochemistry or bioinformatics. See details below.

Chemistry Major II Options

• Chemistry Major II - Chemistry Option 1
• Chemistry Major II: Biochemistry Option 2
• Chemistry Major II: Bioinformatics Option 3

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019
Courses Required for the Chemistry Major II

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students who are exempt from MATH 10100 and MATH 12500 (STEM) do not have to make up the credits.

Chemistry Major II - Chemistry Option 1

Return to: Programs of Study
Return to: Chemistry BA
Return to: Chemistry Major II - BA

Courses Required for the Major (62-73 credits)

For students interested in a career in the chemical industry. It consists of a minimum of 28 credits in chemistry above the introductory level and an 11-credit general chemistry core for a minimum total of 39 credits of chemistry. One year of physics and three semesters of calculus are also required.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students who are exempt from MATH 10100/MATH 101EN, MATH 10150, MATH 12400 (STEM)/MATH 12500 (STEM)/MATH 12550 (STEM) and MATH 14000 do not have to make up the credits.

Required Chemistry Courses (39-41 cr.)

Choose One General Chemistry Sequence (11 cr.)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS) GER 2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.
MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec)

4 cr.

CHEM 10400 (STEM)

General Chemistry II

Hunter Core

Life and Physical Sciences (LPS) Scientific World (SW) GER 2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

prereq:

CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)

4 cr.

CHEM 10600 (STEM)

General Chemistry Laboratory

Hunter Core

Life and Physical Sciences (LPS); Scientific World (SW) Pluralism and Diversity GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Primarily for premed, medical laboratory sciences and science majors.

prereq:

CHEM 10200

coreq:

CHEM 10400

6 hrs

3 cr.

CHEM 11200 (STEM)

Thermodynamics and Solution Chemistry

Hunter Core

Life and Physical Sciences (LPS) Scientific World (SW) GER 2/E

The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics. Primarily for premed, medical laboratory sciences and science majors.

prereq:

CHEM 11100

9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)

5.5

offered spring

Organic Chemistry (13 cr.)

CHEM 22200

Organic Chemistry Lecture I

GER GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II
GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)
4 cr.

Additional Required Courses (12 cr.)

CHEM 24900 - Quantitative Analysis
GER
GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

prereq: CHEM 10400 with grade of C or better, 10500
5 hrs (3 lab, 2 rec)
3 cr.

CHEM 35200 - Physical Chemistry I
GER
3/B

Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.

prereq: CHEM 24900 and MATH 25000 and PHYS 12100 all with a grade of C or better
3 hrs
3 cr.

offered fall

CHEM 35400 - Physical Chemistry II - F
Pluralism and Diversity
GER 3/B

Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.
prereq: CHEM 35200, MATH 25000
3 hrs
3 cr.
offered fall
CHEM 35500
- Physical Chemistry Laboratory I
GE R 3/B
Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.
prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall
CHEM 35700
- Physical Chemistry Laboratory II
Pluralism and Diversity
GER R 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.
prereq: CHEM 24900 or perm chair
prereq or coreq: CHEM 35600
3 hrs
1.5 cr.
offered spring
Required Elective Course (3-5 cr.)
• Any chemistry course at the 300 level or above excluding CHEM 49101
Required Math Courses (12-22 cr.)
MATH 10100
- Algebra for College Students
Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.
MATH 10150
- Mastery of Symbolic Computation
This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.
prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test. Not open to students who have taken MATH 12500 or MATH 12550.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

MATH 15000 (STEM) - Calculus I

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications. 

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

MATH 15500 (STEM) - Calculus II

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

MATH 1560 - Introduction to Mathematical Proof Workshop
Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs 1 cr.

MATH 25000 - Calculus III
GER 3/B Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500, MATH 15600
4 hrs 4 cr.

Required Physics Courses (11 cr.)

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core Scientific World (SW) Life and Physical Sciences (LPS) GER 3/B For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec) 5.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core Scientific World (SW); Life and Physical Sciences (LPS) GER 3/B Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec) 5.5 cr.

*Note: These courses may be counted for credit in more than one program.
Physics, one year of biology and one year of calculus are also required. Based on placement exams or transferred courses, students may place into make up the credits.
Primarily for pre-med, medical laboratory sciences and science majors.

prereq:
CHEM 10200

coreq:
CHEM 10400

6 hrs
3 cr.

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core Life and Physical Sciences (LPS) Scientific World (SW) GER 2/E

The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.

Primarily for pre-med, medical laboratory sciences and science majors.

prereq:
CHEM 11100

9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)

5.5

offered spring

Organic Chemistry (13 cr.)
CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq:
CHEM 10400 with a grade of C or better

5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)

4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register

prereq:
CHEM 10500 OR CHEM 10600 OR CHEM 11200

coreq:

4 cr.

CHEM 22500 - Organic Chemistry Laboratory II
GER 3/B
Continuation of CHEM 22300.
Prereq: CHEM 22300
Prereq or Coreq: CHEM 22400
4 hrs 2.5 cr.

Additional Required Chemistry Courses (13 cr.)

CHEM 35000 - Biophysical Chemistry
Pluralism and Diversity
GER 3/B
Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.
Prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 37600 - Biochemistry I
GER 3/B
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.
Prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

CHEM 37700 - Biochemistry II
GER 3/B
Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.
Prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
3 hrs 3 cr.
A set of laboratory experiments, performed by individual students, covering important areas of biochemistry such as protein analysis, enzyme purification, enzymatic assays, recombinant DNA and the polymerase chain reaction.

prereq: ENGL 12000, CHEM 22500 with grade of C or better
prereq or coreq: CHEM 37700 or CHEM 64100
5 hrs (4 lab, 1 rec)
3 cr.

Required Elective Course (3 cr.)
Any chemistry course at the 300 level or above excluding CHEM 34900 Instrumental Analysis and CHEM 49101 Introduction to Research. Also acceptable CHEM 24900 Quantitative Analysis.

Required Biology courses (9 cr.)
BIOL 10000 (STEM) - Principles of Biology I
Hunter Core Life and Physical Sciences (LPS); Scientific World (SW); Pluralism and Diversity PD/C or D
GER 2/E
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only
BIOL 10200 (STEM) - Principles of Biology II
Hunter Core Scientific World (SW); Life and Physical Sciences (LPS); Pluralism and Diversity
GER 2/E
Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
Required Math Courses (8-17 cr.)

MATH 10100 - Algebra for College Students
Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation
This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test.

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop
This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I
This course is part of the Hunter Core Math/Quantitative Reasoning (MQR) GER 1/B.

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
MATH 15500 (STEM) - Calculus II

Hunter Core: Math/Quantitative Reasoning

GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs

4 cr.

Required Physics Courses (9 cr.)

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core: Life and Physical Sciences (LPS); Scientific World (SW)

GER 2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core: Scientific World (SW); Life and Physical Sciences (LPS)

GER 2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

prereq: PHYS 11000 or 11100

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

*Note: These courses may be counted for credit in more than one program.
C grade is allowed in these four courses to declare Option 3. This option consists of a minimum of 23.5 credits above the introductory level and

12500 (STEM)/MATH 12550 (STEM) and MATH 14000 do not have to make up the credits.
Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs 3 cr.

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core Life and Physical Sciences (LPS) Scientific World (SW) GER

The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.

Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5 offered spring

Organic Chemistry (10.5 cr.)
CHEM 22200 - Organic Chemistry Lecture I

GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER 3/B
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register

prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs 2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq:
CHEM 22200 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

Additional Required Chemistry Courses (13 cr.)

CHEM 350 - Biophysical Chemistry

Pluralism and Diversity

GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

prereq:
CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better

5 hrs (4 lec, 1 rec)

4 cr

CHEM 37600 - Biochemistry I

GER 3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq:
CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better

4 hrs (3 lec, 1 rec)

3 cr.

CHEM 37700 - Biochemistry II

GER 3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq:
CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better

3 hrs

3 cr.

CHEM 33300 - Computational Drug Discovery

Computational exercises and literature analyses of drug-macromolecule interactions, computer-assisted drug design, metabolic engineering, and personalized medicine.

prereq:
CHEM 37600 or BIOL 30000 or permission of the instructor

3 hrs

3 cr.

offered spring

Required Biology Courses (12 cr.)
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.

3 hrs
3 cr.
Topics in algebra, graphing and functions includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

Prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

MATH 101EN - Algebra for College Students - Enhanced

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 12500.

Prereq: Department Permission

6 hrs

3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus - level mathematics and elementary statistics.

Prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs

1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, and logarithmic functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

Prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test. Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs

4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

Prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs

1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core Math/Quantitative Reasoning GER 1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

MATH 15500 (STEM) - Calculus II
4 hrs
4 cr.
MATH 15500

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

STAT 21300 (STEM) - Introduction to Applied Statistics
3 hrs
3 cr.
STAT 21300

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

Required Physics Courses (9 cr.)

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
PHYS 11000

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
PHYS 12000

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

prereq: PHYS 11000 or 11100
CSCI 13200 - Practical UNIX and Programming, with Lab
GER 2/E
An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.

This course cannot be counted towards the CSCI major.
prereq: none

CSCI 23200 - Relational Databases and SQL Programming, with Lab
GER 3/B
An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.

Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.
prereq: CSCI 12700 or CSCI 13200

Note: These courses may be counted for credit in more than one program.

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Chemistry major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

Prerequisite or corequisite: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec)

4 cr.

MATH 15000 (STEM) - Calculus I

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

Prerequisite: MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND corequisite MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs

4 cr.

ENGL 12000 - Expository Writing

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

Prerequisite: Successful completion of developmental courses, if required

3 hrs + conf

3 cr.

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

Prerequisite or corequisite: Corequisite (with permission of department): MATH 15000

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

Spring

MATH 15500 (STEM) - Calculus II
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

Prereq: grade of C or better in MATH 15000

4 hrs
4 cr.

CHEM 10400 (STEM) - General Chemistry II

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

Prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Primarily for premed, medical laboratory sciences and science majors.

Prereq: CHEM 10200
Coreq: CHEM 10400

6 hrs
3 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

Prereq: PHYS 11000 or 11100
Prereq or coreq: (with perm dept): MATH 15500

8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

Sophomore Year
Fall

ENGL 22000 - Introduction to Writing about Literature (W)

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000

3 hrs + one additional conference hour
3 cr.

MATH 25000 - Calculus III

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500, MATH 15600

4 hrs
4 cr.

CHEM 22200 - Organic Chemistry Lecture I

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register

prereq or coreq: CHEM 22204 OR CHEM 22206

3 hrs
2.5 cr.

Spring
CHEM 22400
Organic Chemistry Lecture II
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500
Organic Chemistry Laboratory II
Continuation of CHEM 22300.
prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

• FOREIGN LANGUAGE Elementary Level 1
• US Experience in Its Diversity (USED)
• ELECTIVE

Junior Year
Fall
CHEM 24900
Quantitative Analysis
A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.
prereq: CHEM 10400 with grade of C or better, 10500
5 hrs (3 lab, 2 rec)
3 cr.

• FOREIGN LANGUAGE Elementary Level 2
• Individual and Society (Social Sciences) I&S SS
• ELECTIVE

Spring
CHEM 34900 - Instrumental Analysis

Pluralism and Diversity

GER 3/B

Principles of modern instrumental techniques; emphasis on spectroscopic and electrometric methods.

prereq: CHEM 35400 or 35600 with grade of C or better with 35500

prereq or coreq: CHEM 35600

3 hrs, 1.5 cr. offered spring

• World Cultures & Global Issues (WCGI)
• Individual and Society (Humanities) I&S H
• ELECTIVE (if needed)
• ELECTIVE (if needed)

Notes:
For students who place below MATH 15000, please note the following Math sequence:

• MATH 10100 – MATH 12400, MATH 12500 or MATH 12550 – MATH 150. If you start with MATH 12500 Precalculus or MATH 12550 or MATH 12400, the degree map is shifted by one semester and still allows for completion of the major in 4 years.

• *CHEM 111 and CHEM 112 are sequence options in place of CHEM 102, CHEM 104 and CHEM 106
• If taking CHEM 111, this is a special honors course and is a prerequisite for CHEM 112.
• CHEM 34900 is the recommended elective but CHEM 32200, 36600, 37600 or 38800 are acceptable.
• All electives require departmental permission.

• In Junior and senior year, a 300-level chemistry course must be taken.

Degree Map for Chemistry Major II - Option 2

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Chemistry major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

spring only

Sophomore Year

Fall

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core

English Comp (EC)

GER

GER 3/B

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000

3 hrs + one additional conference hour

3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better

5 - 6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register...
prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200

coreq: CHEM 22301

prereq or coreq: CHEM 22204 OR CHEM 22206

3 hrs 2.5 cr.

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core Scientific World (SW); Life and Physical Sciences (LPS) Pluralism and Diversity PD/C or D GER 2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIO L 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

prereq: CHEM 22200 with a grade of C or better

5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)

4 cr.

CHEM 22500 - Organic Chemistry Laboratory II GER 3/B Continuation of CHEM 22300.

prereq: CHEM 22300

prereq or coreq: CHEM 22400

4 hrs 2.5 cr

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
GER 2/E

First semester of two-semester introductory physics course using algebra. 

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

7 hrs (3 lec, 3 lab, 1 rec)  4.5 cr.

• FOREIGN LANGUAGE Elementary Level 1
• US Experience in Its Diversity (USED)

Junior Year

Fall
CHEM 37600 - Biochemistry I
GER 3/B
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better

4 hrs (3 lec, 1 rec)  3 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

prereq: PHYS 11000 or 11100

7 hrs (3 lec, 3 lab, 1 rec)  4.5 cr.

• CHEM elective (CHEM 24900 is recommended but CHEM 32200, CHEM 36600, CHEM 36900, CHEM 37000, CHEM 37100, CHEM 36800, CHEM 3300, CHEM 39200, or CHEM 38800 are acceptable.) All electives require departmental permission.

• Individual and Society (Social Sciences) I&S SS

Spring
CHEM 37700 - Biochemistry II
GER 3/B
Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.
prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better

3 hrs
3 cr.

CHEM 37800 - Biochemistry Laboratory (W)

GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of biochemistry such as protein analysis, enzyme purification, enzymatic assays.

prereq: ENGL 12000, CHEM 22500 with grade of C or better

prereq or coreq: CHEM 37700 or CHEM 64100

5 hrs (4 lab, 1 rec)
3 cr.

CHEM 35000 - Biophysical Chemistry

Pluralism and Diversity
GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better

5 hrs (4 lec, 1 rec)
4 cr

• ELECTIVE (if needed)

Notes:
Students who place below MATH 15000: please note the following Math sequence:
MATH 10100 – MATH 12400, MATH 12500 or MATH 12550 – MATH 150. If you start with MATH 12500 Precalculus or MATH 12550 or MATH 12400, the degree map is shifted by one semester and still allows for completion of the major in 4 years.

*CHEM 11100 and CHEM 11200 are sequence options in place of CHEM 10200, CHEM 10400 and CHEM 10600
If taking CHEM 11100, this is a special honors course and is a prerequisite for CHEM 11200.

In junior and senior year, a 300-level chemistry course must be taken.

For Chemistry Elective, CHEM 24900 is recommended but CHEM 32200, CHEM 36600, CHEM 39200, CHEM 33300, CHEM 36000, CHEM 36800, CHEM 36900, CHEM 37000, CHEM 37100, CHEM 38800 or CHEM 38800 are acceptable. All elective courses require departmental permission.

Minor in Chemistry

A minor in Chemistry consists of 27–27.5 credits as follows:

1. Before declaring the minor, students must complete 11 cr of foundational courses:
   - CHEM 10200 (STEM) General Chemistry I
   - CHEM 10400 (STEM) General Chemistry II
   - CHEM 10600 (STEM) General Chemistry Laboratory
   - or
   - CHEM 11200 (STEM) General Chemistry I
   - CHEM 10300 (STEM) General Chemistry Laboratory I
   - CHEM 10400 (STEM) General Chemistry II
   - CHEM 10500 (STEM) General Chemistry Laboratory II

2. An additional 13–13.5 credits of course work, including the required courses below:

3. One 3-credit elective from Chemistry offerings numbered 300.

Required courses for the Minor:

- CHEM 22200 - Organic Chemistry Lecture I
  - GER 3/B Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms. Prereq: CHEM 10400 with a grade of C or better. 5–6 hrs (4 lec, 1–2 recitation/workshop) 4 cr.

- CHEM 22300 - Organic Chemistry Laboratory I
  - GER 3/B Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy. Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously. Prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200.
CHEM 22301

prereq or coreq:
CHEM 22204 OR CHEM 22206

3 hrs
2.5 cr.

CHEM 22400

Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq:
CHEM 22200 with a grade of C or better

5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)

4 cr.

CHEM 22500

Organic Chemistry Laboratory II

GER
3/B

Continuation of CHEM 22300.

prereq:
CHEM 22300

prereq or coreq:
CHEM 22400

4 hrs
2.5 cr

• Elective: Any 300 Level (3 cr)

Degree Map for Chemistry Major II Option 3 Bioinformatics BA

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Chemistry major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall
CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.
MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq:
MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER 1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq:
successful completion of developmental courses, if required

3 hrs + conf
3 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq:
grade of C or better in MATH 15000

4 hrs
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER 2/E
In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

Prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)

4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core: Life and Physical Sciences (LPS); Scientific World (SW); Pluralism and Diversity

GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Primarily for premed, medical laboratory sciences and science majors.

Prereq: CHEM 10200

Coreq: CHEM 10400

6 hrs

3 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core: Life and Physical Sciences (LPS); Scientific World (SW); Pluralism and Diversity

PD/C or D GER 2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

Prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

Spring only

Sophomore Year

Fall

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core: English Comp (EC); GER 2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

Prereq: ENGL 12000
CHEM 22200 - Organic Chemistry Lecture I
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms. 
prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy. 
Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.
Note: Students must register
prereq: CHEM 10500 OR CHEM 10600 OR CHEM 11200 
coreq: CHEM 22301
prereq or coreq: CHEM 22204 OR CHEM 22206
3 hrs
2.5 cr.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

• Individual and Society (Humanities) I&S H

CHEM 22400 - Organic Chemistry Lecture II
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**prereq:** CHEM 22200 with a grade of C or better

*5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)*

*4 cr.*

**PHYS 11000 (STEM)**

**General Physics:** Introductory Course in Mechanics, Heat, and Sound

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**GER 2/E**

First semester of two-semester introductory physics course using algebra.

**prereq:** MATH 12400 or 12500 or 12550 or 15000 or 15500

*7 hrs (3 lec, 3 lab, 1 rec)*

*4.5 cr.*

**CSCI 13200**

**Practical UNIX and Programming, with Lab**

**Hunter Core**

Scientific World (SW)

**GER 2/E**

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities.

A pragmatic course with an emphasis on skills acquisition.

This course cannot be counted towards the CSCI major.

**prereq:** none

*3 hrs 3 cr.*

**Foreign Language Requirement**

**Elementary Level 1**

**Junior Year**

**Fall**

**PHYS 12000 (STEM)**

**General Physics:** Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)

**GER 2/E**

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

**prereq:** PHYS 11000 or 11100

*7 hrs (3 lec, 3 lab, 1 rec)*

*4.5 cr.*
CHEM 37600 - Biochemistry I
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.
prereq: CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)
3 cr.

BIOL 42500 - Computational Molecular Biology
An introduction to the interdisciplinary field of computational molecular biology.
Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology.
Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures.
The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting.
Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics concentration students from all majors.
prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab
An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.
Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.
prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

FOREIGN LANGUAGE Elementary Level 2
Spring
CHEM 35000 - Biophysical Chemistry
Pluralism and Diversity GER 3/B
Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.
prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better
5 hrs (4 lec, 1 rec)
4 cr

STAT 21300 (STEM) - Introduction to Applied Statistics
Hunter Core Math/Quantitative Reasoning GER
Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

• Individual and Society (Social Sciences) I&S SS
• FOREIGN LANGUAGE Intermediate Level 3

Senior Year
Fall
CHEM 37700 - Biochemistry II
GER 3/B
Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.
prereq: CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
3 hrs
3 cr.
• FOREIGN LANGUAGE Elementary Level 4
• Creative Expression (CE)

Spring
• World Cultures & Global Issues (WCGI)
• Individual and Society (Humanities)
• CHEM 33300 Computational Drug Discovery

Notes:
Students who place below MATH 15000, please note the following Math sequence:
MATH 10100 – MATH 12400, MATH 12500 or MATH 12550 – MATH 150. If you start with MATH 12500 Precalculus or MATH 12550 or MATH 12400, the degree map is shifted by one semester and still allows for completion of the major in 4 years.

*CHEM 11100 and CHEM 11200 are sequence options in place of CHEM 10200, CHEM 10400 and CHEM 10600
If taking CHEM 11100, this is a special honors course and is a prerequisite for CHEM 11200.
CHEM 10000 (STEM) - Essentials of General Chemistry Lecture

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Essential facts, laws, and theories of general chemistry. Primarily for nursing, nutrition and food science and community health education students. Core credit only if both lecture and the corresponding lab are completed.

**Prerequisites or corequisites:**
- MATH 10100 or 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

**CHEM 10100** - Inquiries into the Nature of Matter

Hunter Core
- Life and Physical Sciences (LPS)
- Scientific World (SW)

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students. Primarily for nursing, nutrition and food science and public health students.

**CHEM 10200 (STEM)** - General Chemistry I

Hunter Core
- Scientific World (SW)
- Life and Physical Sciences (LPS)

An in-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

**Prerequisites or corequisites:**
- MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

**CHEM 10300 (STEM)** - General Chemistry Laboratory I

Hunter Core
- Life and Physical Sciences (LPS)
- Scientific World (SW)

Study of experiments designed to illustrate fundamental laws and techniques of chemistry. Core credit awarded only if CHEM 10200 (STEM) and CHEM 10300 (STEM) are completed. Primarily for pre-med, medical laboratory sciences and science majors.

Offered only for special honors.

**Prerequisites or corequisites:**
- CHEM 10200

1.5 cr.
CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10500 (STEM) - General Chemistry Laboratory II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)

Pluralism and Diversity

GER 2/E

Laboratory experiments illustrating and applying theory of solutions to qualitative analysis. Offered for transfer students who have completed only one semester of General Chemistry Laboratory.

prereq: One semester of General Chemistry Laboratory.

prereq or coreq: CHEM 10400

3 hrs
1.5 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity

GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200

coreq: CHEM 10400

6 hrs
3 cr.

CHEM 11100 (STEM) - Chemical Principles

Hunter Core

Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity

GER 2/E

In-depth introduction to chemical principles including measurement, stoichiometric calculations, inorganic nomenclature, gas law, equilibrium, acids, bases and buffers. Emphasis is placed on problem-solving, oral presentations, and collaborative work. Laboratory and coursework emphasize analysis and evaluation of data. Primarily for premed, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or 12500 or 12550

9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5 cr.
The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.

Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 11100

9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)

5.5 offered spring

CHEM 11500 - Introductory Chemistry

An introduction to the fundamental concepts in chemistry including atomic and molecular structure, chemical bonding, stoichiometry, and solution chemistry.

This course is appropriate for students who have had no prior coursework in chemistry.

prereq or coreq: MATH 12400 or 12500 or 12550

4 hrs (3 lec, 1 rec)

3 cr.

CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture

Hunter Core

Life and Physical Sciences (LPS): Scientific World (SW)

Pluralism and Diversity

GER 2/E Course

Course presents essential facts, laws and theories of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

prereq: CHEM 10000

4 hrs (3 lec, 1 rec)

3 cr.

CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory

Hunter Core

Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity

GER 2/E Course

Experiments designed to illustrate fundamental laws and techniques of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and public health students.

prereq: CHEM 10100

prereq or coreq: CHEM 12000

3 hrs (3 lab)

1.5 cr.

CHEM 15000 - Peer-Led Teaching in Chemistry
Students learn to become peer leaders for workshops held in either Essentials of Chemistry, General Chemistry, or Organic Chemistry. Topics include: multiple intelligences and differences in learning styles; basic theory of learning; issues related to race, class, and gender.

**CHEM 22200 - Organic Chemistry Lecture I**

*GER 3/B*

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**Prerequisites:**
CHEM 10400 with a grade of C or better

**Credit Hours:** 5-6 hrs (4 lec, 1-2 recitation/workshop)

**Credit:** 4 cr.

**CHEM 22300 - Organic Chemistry Laboratory I**

*GER 3/B*

Various organic syntheses, distillation, extraction, chromatography, qualitative analysis, spectroscopy.

**Note:** Students must register for CHEM 22300 and CHEM 22301 simultaneously.

**Prerequisites:**
- CHEM 10500 OR CHEM 10600 OR CHEM 11200
- Corequisite: CHEM 22301
- Prerequisites or Corequisites: CHEM 22204 OR CHEM 22206

**Credit Hours:** 3 hrs

**Credit:** 2.5 cr.

**CHEM 22301 - Organic Chemistry 1 Lab Recitation**

Recitation required for Organic 1 Laboratory

**Credit Hours:** 1 hr.

**Credit:** 0 cr.

**CHEM 22400 - Organic Chemistry Lecture II**

*GER 3/B*

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**Prerequisites:**
- CHEM 22200 with a grade of C or better

**Credit Hours:** 5-6 hrs (4 lec, 1-2 recitation/workshop)

**Credit:** 4 cr.

**CHEM 22500 - Organic Chemistry Laboratory II**

*GER 3/B*
CHEM 22300
Continuation of CHEM 22300.

prereq:
CHEM 22300
prereq or coreq:
CHEM 22400

4 hrs
2.5 cr

CHEM 22501
Organic Chemistry 2 Lab Rec
Recitation required for Organic 2 Laboratory

CHEM 24900
Quantitative Analysis
GER
GER 3/B
A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

prereq:
CHEM 10400 with grade of C or better, 10500

5 hrs (3 lab, 2 rec)
3 cr.
fall

CHEM 29101
Chemical Investigations
Pluralism and Diversity
GER 3/B
This course is designed to expose an undergraduate student to the multiple facets of chemistry laboratory research available at Hunter College under the supervision of a chemistry faculty member.
The purpose of this course is to introduce students to the field of laboratory research which will include experimental manipulation, handling instrumentation, the development of hypotheses and research questions, showing proficiency in scientific research, as well as in data collection and analysis.
In order to register for this course, students must have completed CHEM 22400, CHEM 22300, and CHEM 29000
Course is repeatable
prereq:
Department Consent Required

4 hrs
1 cr.

CHEM 29102
Chemical Investigations
Pluralism and Diversity
GER 3/B
This course is designed to expose an undergraduate student to the multiple facets of chemistry laboratory research available at Hunter College under the supervision of a chemistry faculty member.
The purpose of this course is to introduce students to the field of laboratory research which will include experimental manipulation, handling instrumentation, the development of hypotheses and research questions, showing proficiency in scientific research, as well as in data collection and analysis.
In order to register for this course, students must have completed CHEM 22400, CHEM 22300, and CHEM 29000
Course is repeatable
prereq:
CHEM 22400, perm chair

8 hrs
2 cr.
CHEM 29500 - Introduction to Planning and Teaching of Laboratory Work in Chemistry

Participate in supervised teaching experiments that demonstrate important principles of chemistry.

prereq: CHEM 10400, CHEM 10500, two letters from faculty who have taught the student

5 hrs (2 planning, 3 lab)
2 cr.

CHEM 32200 - Organic Chemistry Lecture III

GER 3/B
Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

prereq: Chem 22404 with a grade of C or better OR Chem 22406 with a grade of C or better

3 hrs
3 cr.
offered fall

CHEM 33300 - Computational Drug Discovery

Computational exercises and literature analyses of drug-macromolecule interactions, computer-assisted drug design, metabolic engineering, and personalized medicine.

prereq: CHEM 37600 or BIOL 30000 or permission of the instructor

3 hrs
3 cr.
offered spring

CHEM 34900 - Instrumental Analysis

Pluralism and Diversity
GER 3/B
Principles of modern instrumental techniques; emphasis on spectroscopic and electrometric methods.

prereq: CHEM 35400 or 35600 with grade of C or better with 35500

8 hrs (2 lec, 6 lab)
5 cr
offered spring

CHEM 35000 - Biophysical Chemistry

Pluralism and Diversity
GER 3/B
Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

prereq: CHEM 22404 OR CHEM 22406 AND CHEM 37600 AND BIOL 10200 AND MATH 15000 AND PHYS 12000, all with a grade of C or better

5 hrs (4 lec, 1 rec)
4 cr

CHEM 35100 - Biophysics Laboratory
Basic theory and application of a variety of spectroscopic techniques used to determine structure, function and other properties of biological molecules.

**CheM 37600 - Physical Chemistry I**
Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general. 

**CheM 35000 - Introduction to Physical Chemistry**
Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and reaction processes. 

**CheM 35200 - Physical Chemistry Laboratory I**
Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

**CheM 35400 - Physical Chemistry II**
Selected topics from quantum chemistry, molecular structure, and spectroscopy.

**CheM 35500 - Physical Chemistry Laboratory II**
Laboratory course involving experiments based on topics covered in CHEM 35500.
CHEM 35700 - Physical Chemistry Laboratory II

Pluralism and Diversity
GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.
prereq: CHEM 24900 or perm chair prereq or coreq: CHEM 35600
3 hrs 1.5 cr.
offered spring

CHEM 36000 - Introduction to Nanotechnology

This course introduces students to the underlying principles and applications of the emerging fields of nanotechnology and nanoscience. Intended for a multidisciplinary audience with a variety of backgrounds, the course introduces tools and principles relevant at the nano scale dimension. The course discusses current and future nanotechnology applications in engineering, materials, physics, chemistry, biology, electronics, and energy.
prereq: CHEM 35000 or CHEM 35200 coreq: CHEM 35600
3 hrs 3 cr.
offered fall

CHEM 36600 - Inorganic Chemistry

GER
GER 3/B
Treatment of structure, bonding and reactivity of inorganic compounds.
prereq: CHEM 35200 with grade of C or better
3 hrs 3 cr.
offered fall

CHEM 36700 - Inorganic Chemistry Laboratory (W) (Spring 2020)

Inorganic Chemistry laboratory will provide an introduction to the fundamental principles of inorganic chemistry, synthesis and characterization of a variety of inorganic and organometallic compounds using analytical techniques including FTIR, NMR, UV-Visible spectroscopy, electrochemistry, and some simple methods such as melting and/or boiling points.
prereq: CHEM 36600 and CHEM 22500 all with C or better, ENGL 12000
4 hrs, (4 lab) 2 cr.

CHEM 36800 - Structural Biology (W) (Spring 2020)

This course introduces students to the applications of molecular spectroscopy and other emerging techniques used to study the structure, the molecular interactions and the self-assembly of biomolecules. The course will be taught in a mixed format including lectures, computer laboratory projects, student discussions on journal papers, and a final writing/oral presentation project.
prereq: Department Permission Required, CHEM 37600 and either CHEM 35000 or CHEM 35200 all with C or better, ENGL 12000 prereq or coreq: CHEM 37700 with C or better

For boiling points.

Final writing/oral presentation project.
This course will cover mechanisms of polymerization reactions of monomers and molecular weight distributions of products; principles, limitations and advantages of important reactions; relationship of physical properties to structure and composition; correlations of applications with chemical structure.

prereq:
CHEM 22400 with C or better, Department Permission Required

CHEM 37000 - Medicinal Chemistry
The course will cover principles of drug discovery, drug design and drug action.

prereq:
CHEM 37600 with C or better or BIO 30000 with C or better; Department Permission Required

CHEM 37100 - Biological Spectroscopy
Covers basic theory and application of a variety of spectroscopic techniques used to determine structure, function and other properties of biological molecules.

prereq:
CHEM 37600 with C or better or BIO 30000 with C or better

CHEM 37600 - Biochemistry I
GER
Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

prereq:
CHEM 22404 with a grade of C or better OR CHEM 22406 with a grade of C or better
4 hrs (3 lec, 1 rec)

CHEM 37700 - Biochemistry II
GER
Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq:
CHEM 37600 with grade of C or better OR BIOL 30000 with grade of C or better
3 hrs

CHEM 37800 - Biochemistry Laboratory (W)
GER

A set of laboratory experiments, performed by individual students, covering important areas of biochemistry such as protein analysis, enzyme purification, enzymatic assays, recombinant DNA and the polymerase chain reaction.

prereq:
ENGL 12000, CHEM 22500 with grade of C or better

prereq or coreq:
CHEM 37700 or CHEM 64100

5 hrs (4 lab, 1 rec)
3 cr.

CHEM 38800
Topics of Current Interest in Chemistry
Pluralism and Diversity
GER 3/B
Offered subject to adequate student interest and enrollment. Taught by specialists from department faculty. The specific topic will be listed in the schedule of classes for a given semester.

prereq or coreq:
CHEM 35200 and CHEM 35600 or perm instr.

3 hrs
3 cr.

CHEM 39000
Current Laboratory Methods in Chemistry
Pluralism and Diversity
GER 3/B
Offered subject to adequate student interest and enrollment. Taught by specialists from department faculty. The specific topic will be listed in the schedule of classes for a given semester.

prereq or coreq:
CHEM 35700 or perm instr.

4 hrs
2 cr.

offered spring

CHEM 39200
Introduction to Radiochemistry
Introduction to Radiochemistry is a lecture course with a laboratory component. The course will provide an introduction to the fundamental principles of radiochemistry, radioactive counting instrumentation, radioisotope production and applications of radiochemistry.

prereq:
CHEM 22400 and CHEM 22500
coreq:
CHEM 35000 or CHEM 35200

5 hrs (2 lecture, 3 lab)
3 cr.

CHEM 49101
Introduction to Research
Pluralism and Diversity
GER 3/B
This course is designed to expose an undergraduate student, to the multiple facets of chemistry laboratory research available at Hunter College under the supervision of a chemistry faculty member. The purpose of this course is to provide students with the opportunity to demonstrate proficiency in scientific research through the design, development, and presentation of an original, independent and substantive research question, as well as through data collection and analysis. A written

thesis and oral presentation are required to fulfill the presentation component of the course. Mandatory participation in the thesis committee meetings are essential to the development of a well written thesis.

In order to register for this course, students must have completed CHEM 22400, CHEM 22300, and CHEM 29101 or CHEM 29102
Course is repeatable
Fulfills part of the requirement for departmental honors.

prereq:
Department Consent Required

4 hrs
1 cr.
This course is designed to expose an undergraduate student to the multiple facets of chemistry laboratory research available at Hunter College under the supervision of a chemistry faculty member. The purpose of this course is to provide students with the opportunity to demonstrate proficiency in scientific research through the design, development, and presentation of an original, independent and substantive research question, as well as through data collection and analysis. A written thesis and oral presentation are required to fulfill the presentation component of the course. Mandatory participation in theses committee meetings are essential to the development of a well written thesis.

In order to register for this course, students must have completed CHEM 22400, CHEM 22300, and CHEM 29101 or CHEM 29102. Course is repeatable. Fulfills part of the requirement for departmental honors.

CHEM 29000

Introduction to Research

CHEM 29000 is a 1-credit course designed to expose undergraduate students to the multiple facets of laboratory research available at Hunter College. This is not a laboratory research course. The semester will consist of a combination of research seminars presented by the research-active faculty at Hunter College and a discussion of a variety of research-based topics including ethics, safety and record keeping. Students will also work on a team project to develop a scientific problem that engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples’ rights

Programs and Courses in Human Rights

Human Rights

Overview

The Human Rights Program examines the theory and practice of human rights, combining academic training with hands-on experience. By exploring the philosophical foundations and legal framework of human rights, as well as addressing current political, social and economic realities, the program seeks to give students the tools necessary to engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples’ rights

An interdisciplinary program, the Human Rights Program offers courses in political science, anthropology, sociology and history, among other fields of study. Students may follow either of two academic tracks: a 15-credit Minor in human rights, or 24-credit Certificate. A key element of both tracks is the human rights internship, which gives students direct experience with the researchers, advocates, lawyers and analysts who make up the human rights movement. More thoughtful and informed citizens.
Human Rights Certificate

24-credit Certificate in Human Rights

• 4 Core Required Courses from an approved list
• HR 20000 Introduction to Human Rights: History, Discourse, Practice (W)
• HR 25000 Human Rights Internship
• HR 26000 Human Rights Internship Seminar (W)
• HR 35000 Human Rights Capstone Seminar (W)
• 4 Elective Cognate Courses from an approved list

The approved list of cognates comprises courses drawn from 18 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Certificate program, a student must have at least completed HR 20000 with a B and have a cumulative GPA of 3.0.
The 15 credit minor in Human Rights consists of five 3 credit courses:

• 2 Core Required Courses
  • Introduction to Human Rights (HR 20000)
  • Internship in Human Rights (HR 25000)
• Elective Cognate Courses from an approved list

The approved list of cognates comprises courses drawn from 16 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Minor program, a student must have completed HR 20000 with a B and have a cumulative GPA of 3.0.

HR 20000 - Introduction to Human Rights: History, Discourse, Practice (W)

Pluralism and Diversity
PD/D
GER
3/B

An introduction to the study of human rights. It explores the historical, philosophical, and legal roots of human rights as a political idea and institutionalized practice. It also addressed the contested nature of human rights as an idea and practice in contemporary societies. In addition to providing an introduction to the subject, the course is a requirement for students minoring in Human Rights or pursuing a Human Rights Certificate. In order to pursue a Human Rights minor or Certificate, a student must receive at least a B (3.0) in this course. Students should take this introductory course in their sophomore year but must take it no later than the first semester of their junior year. This is a writing intensive course.

prereq: ENGL 12000 or equivalent; one course in ethics, political philosophy, political theory, sociological theory, or permission from the instructors.

3 hrs
3 cr.
fall and spring; summer when possible

HR 22000 - Special Topics in Human Rights

This course covers special topics in human rights. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. The course may be repeated four times for credit.

prereq: ENGL 12000; HR 20000 is recommended but not required

3 hrs
3 cr.

HR 25000 - Human Rights Internship

This is a practicum course. It involves students participating in an organization that identifies its mission as the promotion of human rights. The aim of the course is to educate students in the practical dimension of translating human rights discourse and law into practice. The course is required for students seeking a Human Rights Certificate or a minor in Human Rights. 

prereq: ENGL 12000 or equivalent; HR 20000 or equivalent

3 hrs
3 cr.
fall, winter, spring, and summer

HR 26000 - Human Rights Internship Seminar (W)

This course critically evaluates the role of human rights organizations and human rights practices in determining the meaning and value of human rights.

prereq: ENGL 12000 and HR 20000
prereq or coreq: HR 25000

3 hrs
HR 32000 - Special Topics in Human Rights

This course covers special topics in human rights on an advanced undergraduate level. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights.

This course will generally be offered every semester, and certainly at least every two years. May be repeated four times for credit with different topics.

prereq: ENGL 12000; HR 20000 or Permission of Instructor or Permission of Human Rights Program Director

3 hrs
3 cr.

HR 35000 - Human Rights Capstone Seminar (W)

This course involves the theoretical examination of constitutive problems in the discourse and practice of human rights, especially as they would inform the composition of a human rights academic research project. It requires participating students to present their research projects in the seminar and to compose a 20-25 page research paper on a human rights topic.

This course is specifically designed for students who are pursuing a Certificate in Human Rights. This is a writing intensive course.

prereq or coreq: HR 26000

Offered spring only

Program and Courses in Jewish Studies

Jewish Studies

Overview

Jewish Studies is an interdisciplinary program offering a 24-credit major leading to a BA degree in Jewish Studies with courses in such fields as history, Hebrew language and literature, English and other literatures, religion, sociology, and political science. It also offers independent study and fieldwork on Jewish subjects and a 12-credit minor.

What can I do with my degree in Jewish Studies?

Graduates continue to careers in education, law, business, religious life, academics, politics, publishing and the arts. Jewish Studies majors are well-prepared to apply for graduate studies in many fields.

Program Director:
The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Classical Archaeology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Notes:

Jewish Studies is an interdepartmental, multi-disciplinary program.

Jewish Studies majors should work with a program advisor to decide upon a sequence of Jewish Studies electives totaling 18 credits (6 classes).

Jewish Studies electives can be completed with courses in fields such as History, Hebrew language, Literatures, Religion, Sociology and Political Science.

At least 6 credits (2 classes) must be at the 300 level or above.

Jewish Studies – BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (24 credits)

The 6 core credits required of all majors are:

- HIST 20800 - History of the Jews

Hunter Core: World Culture and Global Issues (WCGI)

Pluralism and Diversity (PD/A) - GER 2/B

An introductory survey emphasizing how Jewish communities adapted to a wide range of environments during more than 3000 years of world history.

prereq or coreq: ENGL 12000
3 hours
3 credits

HEBR 22200 - Introduction to Jewish Texts and Writings

Hunter Core: World Culture and Global Issues (WCGI)

A broad survey of influential Jewish texts and literary masterpieces from ancient to modern times.

prereq or coreq: ENGL 120
3 hours
3 credits

15 Credits in Jewish Studies

In addition to the core courses, students must select 15 credits in Jewish studies in conjunction with the program adviser, at least 6 of which must be at the 300-level or above. Students are encouraged to select from, but are not limited to, the following:

- HEBR 21100 - Masterpieces of Medieval Hebraic Literature in Translation (W)

Hunter Core: Individual and Society (Humanities) - I&S H

Pluralism and Diversity (PD/D)
Selections from major works reflecting Jewish life and thought in medieval Islamic world and Christendom.

3 hrs
3 cr.

HEBR 21200 - Readings in Modern Hebrew Literature in Translation (W)

Survey of Hebraic literature from Enlightenment movement to present.

3 hrs
3 cr.

HEBR 21800 - Masterpieces of Yiddish Literature in Translation (W)

Pluralism and Diversity PD/D

GER 3/A

Study of major works in Yiddish literature from Mendele Mocher Seforim to present.
prereq: ENGL 22000

3 hrs
3 cr

HEBR 28100 - Masterpieces of Ancient Hebraic Literature in Translation (W)

GER 3/A

Study of Hebrew classics and collateral works against background of Jewish history and ancient civilization.

3 hrs
3 cr

HEBR 49100 - Honors Project

Individual study and research in Hebrew literature in consultation with staff member. Honors essay required. May be repeated as topics vary from semester to semester.

There are “unlimited” repeats for this course.

prereq: Jr/Sr only; perm division

1 sem
3 cr.

HIST 21000 - History of Judaism

GER 2/B

Survey of the Jewish religious tradition with attention to interactions between Judaism and other religions and to the role of Judaism in the formation of Christianity and Islam.
HIST 24200 - The Holocaust: An Introduction

PD/D

The attempt to exterminate the Jewish people by the Nazis.

HIST 30900 - Jewish History in the Ancient World

Pluralism and Diversity

GER

3/B

The Jewish people from its origins in late antiquity; social and intellectual developments from biblical to Talmudic times.

HIST 31000 - Jewish History in the Medieval and Early Modern Periods

Pluralism and Diversity

GER

3/B

The Jewish people from late antiquity to 17th century; social and legal status under Islamic and Christian rulers; religious and intellectual movements.

HIST 32000 - Jewish History in the Modern World

Pluralism and Diversity

GER

3/B

From the 18th century to the present: Enlightenment, Jewish emancipation and nationalism, a Jewish state; anti-Semitism and the Holocaust; recent trends.

HIST 32100 - History of the Holocaust

Prereq or coreq: ENGL 12000

3 hrs

3 cr.
Examination of the mass murder of 6 million Jews by the Nazi regime during World War II.

Courses at the 300-level and above not offered to freshmen.

3 hrs 3 cr.

HIST 32700 - Europe since 1914

Europe in a century of total wars and cold war: the military, political, social, economic and intellectual scene.

Courses at the 300-level and above not offered to freshmen.

3 hrs 3 cr.

JS 31000 - Jewish Studies Fieldwork

Supervised experience in a Jewish community agency, periodic consultation with program director and preparation of report or term paper based on the experience. May be taken twice for a total of 6 cr.

prereq: qualified Jr/Sr.

hrs TBA 3-6 cr.

JS 40000 - Individual Honors Project

Not open to students who have completed fewer than 60 credits. Guided readings on a topic in Jewish studies under faculty supervision. May be repeated on different topics for a total of 6 credits. A substantial research paper is required.

Selected topics and problems in Jewish studies. qualified Jr/Sr, perm instr. or program director

prereq: 12 cr. in Jewish Studies, perm program director

3 hrs 3 cr.

JS 41050 - Jewish Studies Seminar I

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director

3 hrs 3 cr.

JS 41051 - Jewish Studies Seminar II

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director

3 hrs 3 cr.

POLSC 26400 - Government and Politics of Israel (W)
Historic evolution of the Jewish state and its political system, social issues and foreign policy.

Prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

REL 25200 - Ancient Near Eastern Religions (W)
Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER 2/C
Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).

Prereq: ENGL 12000
3 hrs
3 cr.

REL 25300 - Abrahamic Religions (W)
Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER 2/C
Study of Judaism, Christianity, and Islam -- with some considerations of Zoroastrian parallels.

Prereq: ENGL 12000
3 hrs
3 cr.

More Options
Other courses that may be selected to meet this 15-credit requirement are ENGL 38663 (ENGL 38600), The Bible in British and American Literature, ENGL 39058 (ENGL 39000), Literature and Catastrophe (focus on Holocaust Studies), ENGL 39968 (ENGL 39900), Jewish American Literature, HIST 74000, Modern Jewish Social and Intellectual History (see graduate catalog) and HIST 74800, American Jewish History (see graduate catalog).

Note
Up to 6 credits of independent study and fieldwork may be taken with special permission from the program adviser.

Capstone Course (3 credits)
One of the following courses should be taken as a capstone course:

JS 40000 - Individual Honors Project
Not open to students who have completed fewer than 60 credits. Guided readings on a topic in Jewish studies under faculty supervision. May be repeated on different topics for a total of 6 credits. A substantial research paper is required.

Selected topics and problems in Jewish studies. qualified Jr/Sr, perm instr. or program director.
Selected topics and problems in Jewish studies.
prereq: qualified Jr/Sr, perm instr. or program director
3 hrs
3 cr.

JS 41051
Jewish Studies Seminar II
Selected topics and problems in Jewish studies.
prereq: qualified Jr/Sr, perm instr. or program director
3 hrs
3 cr.

Honors in Jewish Studies
Students will be eligible for honors in Jewish Studies upon completion of 24 credits in Jewish Studies with a 3.5 GPA and a 2.8 cumulative GPA at the time of graduation. To be eligible to graduate with honors in Jewish Studies, students can take the following JS 40000 (Individual Honors Project) or JS 41050/JS 41051 (Jewish Studies Seminar, I or II), HEBR 49100 (Honors Project) or graduate courses with special permission, with a grade of B or better. Eligible students

Minor in Jewish Studies
The minor in Jewish Studies consists of 12 credits in courses in Jewish studies of which at least 3 credits must be on topics in the history of the Jews or Judaism and at least 3 credits in Jewish literature, thought, religion, or one of the social sciences (sociology, anthropology, or political science). Students can apply to the minor up to 6 credits in Independent Studies (JS 30000 or JS 40000) or fieldwork (JS 31000). Up to six credits in Jewish studies taken at other institutions of
Pluralism and Diversity

PD/A

Special topics related to Jewish Studies that move beyond the introductory level into more detailed understandings of the subject.

prereq: None

3 hrs 3 cr.

JS 30000 - Independent Studies

Not open to students who have completed fewer than 30 credits. Guided readings under faculty supervision on a topic in Jewish Social Studies. May be repeated up to 3 times for a total of not more than 9 credits.

prereq: 3 cr. in Jewish Studies recommended

1-6 hrs 1-6 cr.

JS 31000 - Jewish Studies Fieldwork

Supervised experience in a Jewish community agency, periodic consultation with program director and preparation of report or term paper based on the experience. May be taken twice for a total of 6 cr.

prereq: qualified Jr/Sr.

hrs TBA 3-6 cr.

JS 35000 - Special Topics in Jewish Studies

Pluralism and Diversity

PD/A

Special Topics related to Jewish Studies that go into advanced studies of the field.

3 hrs 3 cr.

JS 40000 - Individual Honors Project

Not open to students who have completed fewer than 60 credits. Guided readings on a topic in Jewish studies under faculty supervision. May be repeated on different topics for a total of 6 credits. A substantial research paper is required.

Selected topics and problems in Jewish studies. qualified Jr/Sr, perm instr. or program director

prereq: 12 cr. in Jewish Studies, perm program director

3-6 hrs 3-6 cr.

JS 41050 - Jewish Studies Seminar I

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director

3 hrs 3 cr. each

JS 41051 - Jewish Studies Seminar II

Selected topics and problems in Jewish studies.

prereq: qualified Jr/Sr, perm instr. or program director

3 hrs 3 cr. each
In this course participants are tasked with the dual challenge of defining and dissecting Jewish humor, and learning how the sociological study of Jewish humor intersects with matters of religious belief, culture, and gender.

This course will survey the history of New York City by focusing its Jewish inhabitants.

Religion Overview

In the program in Religion, students examine the nature of religion and the forms its various expressions have taken. Religion is studied as an academic discipline and the program's approach reflects no doctrinal bias. The purposes of the program are to introduce the field of religion in general; to present the history, documents and history of major religious traditions (both Eastern and Western, ancient and modern, missionary and tribal); and to give students insight into religious experience, faith, ethics, religion and the arts; and to give students insight into specific religious issues and thinkers. The program consists of a series of core courses taught by specialists in the field, augmented by other religion courses offered by faculty in 8 participating departments or divisions: Anthropology, Africana and Puerto Rican/Latino Studies, Chinese, Classics, Hebrew, History, Philosophy and Sociology. The program is divided into four categories of courses: Introduction to the field of religion (basic introductory courses); Theoretical studies in religion (courses focusing on different methodological approaches to the study of religion); Issues in religion (courses dealing with religious experience, faith, ethics, religion and the arts); and Religious traditions (courses in major religious traditions).

What can I do with my degree in Religion?

Studying theology and religious studies gives you a thorough understanding of the major world religions, their historical development and their relationship with the world we live in. Graduates continue to careers in religion, law, education, business, journalism, social work, medicine and health care.
The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Religion major. The Degree Map is a tool to assist you and your Religion advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your Religion advisor about the best path for you.

### Freshman Year

#### Fall

- **ENGL 12000** - Expository Writing
  - Hunter Core English Comp (EC)
  - GER 1/A
  - Required of all students unless exempt
  - This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.
  - Prereq: successful completion of developmental courses, if required
  - 3 hrs + conf
  - 3 cr.

#### Spring

- **REL 11000** - Nature of Religion (W)

Minor in Religion

The Minor in Religion consists of four courses for a total of 12 credits.

The following two courses are required:

- REL 11000 - Nature of Religion (W)
- REL 11100 - Approaches to Religion (W)

Also required for the Minor in Religion:

- a) one course to be chosen from those listed under the category "Religious Traditions";
- b) one course from the category "Issues in Religion" reflecting a theme central to the religious tradition in which the student has chosen to focus, to be selected in consultation with a Religion Program adviser.

At least one course presented in satisfaction of the minor must be a 300-level course.

Religion - BA

The Program in Religion at Hunter College is the oldest, largest and most comprehensive program of religious studies in the City University. It offers over eighty courses, including several courses in aspects of each of the major world religions (Judaism, Christianity, Islam, Hinduism and Buddhism) as well as in the traditional religions of Africa, Oceania and the Americas; courses in various methodological approaches to the study of religions; and courses in specific issues such as faith and disbelief, mysticism, myth and ritual, religious experience, the problem of evil, the meaning of love and sex, and the meaning of death that are fundamental to all religions.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Religion, the courses that meet CCCR...
ENGL 12000 3 hrs 3 cr.

REL 20400 - Religious Experience (W)
Hunter Core
Individual and Society (Humanities)
Pluralism and Diversity

**3 hrs**

**3 cr.**

**REL 20900** - Religion and Human Rights (W)

**Hunter Core**

**Individual and Society**

**- Humanities**

**GER**

**2/C**

It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—such as those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

**prereq:** ENGL 12000

**3 hrs**

**3 cr.**

**REL 21100** - The Sacred Sky: Astrology in World Religions (W)

**Hunter Core**

**World Cultures and Global Issues (WCGI)**

**GER**

**2/C**

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial
Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.

Prereq: ENGL 12000

3 hrs
3 cr.

Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).

Prereq: ENGL 12000

3 hrs
3 cr.

Study of Judaism, Christianity, and Islam -- with some considerations of Zoroastrian parallels.

Prereq: ENGL 12000

3 hrs
3 cr.

Study of indigenous religions of Pacific Islanders and North American Indians.

Prereq: ENGL 12000
REL 25500 - Religions of Two Gods (W)

Hunter Core

Individual and Society (Humanities) - I&S H

Pluralism and Diversity - PD/A

GER 2/C

A survey of historical varieties of dualistic religion both classical and modern which inquires into the moral grounds for their recurring appeal.

prereq: ENGL 12000

REL 25600 - Afro-Caribbean Religions (W)

Hunter Core

World Culture and Global Issues (WCGI)

Pluralism and Diversity - P/D B

GER 2/C

An introduction to the diversity of African-based religions in the Caribbean and beyond.

prereq: ENGL 12000

REL 25700 - Religions of Ancient Central and South America (W)

Hunter Core

World Cultures and Global Issues (WCGI)

Pluralism and Diversity - P/D B

GER 2/C

Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization.

The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.

prereq: ENGL 12000

REL 25800 - Religions of Ancient Europe (W)

Hunter Core

World Cultures and Global Issues (WCGI)

Pluralism and Diversity - P/D D
Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples -- the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe -- as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.

**Religion and Psychology (W)**

**Prereq:** ENGL 12000

3 hrs 3 cr.

*GER 2/C*

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.

**Prereq:** ENGL 12000

3 hrs 3 cr.

*Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.*

**Courses Required for the Major (24 credits)**

A major in religion consists of 24 credits. Students are required to take REL 11000 - Nature of Religion and REL 11100 - Approaches to Religion followed by at least one course in theoretical studies, at least one course in religious issues, and at least one course in religious traditions.

It is recommended that students take REL 25100 - Asian Religions and REL 25300 - Abrahamic Religions from the religious traditions course offerings.

- Introduction to the Field of Religion
- Theoretical studies in Religion
- Issues in Religion
- Religious Traditions

On becoming a major the student, in consultation with the director, will select one member of the program in Religion staff as his or her major adviser. Each religion major is required to consult with this adviser at least twice a year.
Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.

**II. Theoretical Studies in Religion**

**REL 27000** - Religion and Psychology (W)

Hunter Core Individual and Society (Humanities) - I&S H

**Pluralism and Diversity**

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.

**SOC 20500** - Sociology of Religion

**PHILO 26200** - Philosophy of Religion (W)

**ANTHC 30700** - Anthropology of Religion
Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.

3 hrs
3 cr.

REL 39000 - Modern Theories of Religion (W)
Pluralism and Diversity
PD/D
GER
3/A
An interdisciplinary continuation of the study of methodological and theoretical issues begun in REL 11100, focusing on current debates and contemporary literature.

prereq: ENGL 12000, REL 11100
3 hrs
3 cr.

REL 26000 - Special Topics: Theoretical Studies in Religion
Specialized study of a methodological approach to the study of religion. Different topic each time offered.

3 hrs
3 cr.

REL 20800
Religion and Social Justice (W)

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

prereq:
ENGL 12000
It has been contended that religious beliefs about the natural and moral order, as well as those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. As the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—such as those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

Think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied
Examination of religious themes in art, music, theatre, cinema, or literature. Different topics each time offered.

prereq:
ENGL 12000
3 hrs
3 cr.

REL 30900
The Religious Meanings of Love and Sex (W)

Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.

prereq:
ENGL 12000
3 hrs
3 cr.

REL 31000
The Religious Meanings of Death (W)

Consideration of the meaning of death in major world religions.

prereq:
ENGL 12000
3 hrs
3 cr.

REL 31100
Women and Religion (W)

An examination of the role of women and the concept of the feminine in world religions.

prereq:
ENGL 12000
3 hrs
3 cr.

REL 31200
Religion and Politics (W)
The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.

ENGL 12000 3 hrs 3 cr.

REL 31300 - Ecospirituality: Religion and Nature (W) 3/A

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.

ENGL 12000 3 hrs 3 cr.

REL 31400 - Religion and Sports (W) 3/A

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport.

Course foci:
1) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures;
2) the values expressed in sport forms considered as rituals;
3) the rise of team sports against the background of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative;
4) an arguable implicit spirituality of sport.

ENGL 12000 3 hrs 3 cr.

REL 31500 - The Problem of Evil (W) 3/A

Exploration of the religious meaning of evil in different cultures.

ENGL 12000 3 hrs 3 cr.

REL 31600 - Men and Religion (W) 3/A

Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this...
As human expressions, both religion and film attempt to describe the world and organize it into a meaningful place for human activity. This course will survey the mutual academic studies of both film and religion, as well as the emerging discipline of 'religion and film studies.' As such, students will explore the nature of vision, representation, and narrative – topics central to both film and religious studies. Students will also view and analyze films as expressions of culture, including religious culture, and seek to understand the impact of ideology and social practice, gender and sexuality, as well as the economic structures underlying both film and religion.

prereq: ENGL 12000
3 hr.s
3 cr.

REL 31800 - Religion and Science (W)

A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31900 - Religion and the Body (W)

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.

prereq: ENGL 12000
3 hrs
3 cr.

REL 33400 - Mysticism (W)

Pluralism and Diversity

PD/D
GER
3/A

Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.

prereq: ENGL 12000
3 hrs
3 cr.

REL 33500 - Myth and Ritual (W)

Pluralism and Diversity

PD/D
GER
3/A

Cross-cultural exploration of myth and ritual and their place in various cultures; methodologies for analysis.

prereq: ENGL 12000
3 hrs
3 cr.

REL 34000 - Homosexuality in World Religions (W)

Pluralism and Diversity

PD/C
A survey and analysis of typical ways in which homosexuality has been understood, evaluated and in some cases institutionalized in a variety of religious traditions, attending especially to implicit constructions of gender.

**Prerequisites:**

Pluralism and Diversity

PD/A

GER

3/A

Study of Islam, its development, history, literature, philosophy and religious practices.

Prereq: ENGL 12000

3 hrs

3 cr.
This course introduces students to the study of the Qur’ān based on the traditional Islamic “sciences of the Qur’ān” (`Ulūm al-Qur’ān). Using an introductory text on the Qur’ānic sciences, the course will introduce the traditional areas of concern in the Qur’ānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the introductory text. This material provides students with illustrative exposure to both classical and modern Muslim approaches to the Qur’ān and its exegesis.
Special Topics in Traditions

REL 26200 - Special Topics: Religious Traditions
Specialized study of specific religious traditions or groups of traditions. Different topic each time offered.
3 hrs
3 cr.

REL 36200 - Special Topics: Religious Traditions
Specialized study of specific religious tradition or groups of traditions. Different topic each time offered.
3 hrs
3 cr.

Independent Study
REL 41000 - Independent Study in Religion
Open to majors only. Individual research and writing on topic in religion under supervision of a religion professor.
May be taken a second or third time with another subject.
prereq: perm chair
hrs TBA
1 - 6 cr.

Honors
To be eligible for honors classes a student must have the director's permission and at least a 3.5 GPA in the major and cumulatively. To qualify for departmental honors, a student must complete one of the honors courses with a grade of B or above, achieving a final GPA in Religion and cumulatively of at least 3.5.

REL 45000 - Honors Seminar in Religion
Specialized study in religion. For religion majors or other advanced religion students. Different topic each time offered. May be taken a second or third time with another subject. One topic offered under REL 45000 or 49000 satisfies the course requirements for departmental honors.
prereq: five courses in religion or a major/CUNY-BA focus in religion and perm instr or program director
3 hrs
3 cr.

REL 49000 - Honors Tutorial in Religion
Open to majors only. Individual research and writing on topic in religion under supervision of Religion Honors Committee. REL 49000 or one topic offered under REL 45000 satisfies the course requirements for departmental honors.
prereq: perm chair
hrs TBA
3 - 6 cr.
REL 11000 - Nature of Religion (W)
Hunter Core Individual and Society (Humanities - I&S H)
GER
2/C
Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.

2/C
An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.
prereq: ENGL 12000
on, representation, and narrative – topics central to both film and religious studies. Students will also view and analyze films as expressions of
Examination of questions of faith and disbelief in modern Western thought.

**Prerequisite:** ENGL 12000

3 hrs 3 cr.

**REL 20600** - Ideas of God in Contemporary Western Thought (W)

Hunter Core

Individual and Society (Humanities) - I&S H

**Pluralism and Diversity PD/D GER 2/C**

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.

**Prerequisite:** ENGL 12000

3 hrs 3 cr.

**REL 20700** - Religious Sources for Morality (W)

Hunter Core

Individual and Society (Humanities) - I&S H

**Pluralism and Diversity PD/D GER 2/C**

Religious reasons for determining good and evil; religious sources for ethical decisions.

**Prerequisite:** ENGL 12000

3 hrs 3 cr.

**REL 20800** - Religion and Social Justice (W)

Hunter Core

Individual and Society (Humanities) - I&S H

**Pluralism and Diversity PD/D GER 2/B**

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

**Prerequisite:** ENGL 12000

3 hrs 3 cr.
It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project.

Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion- based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

When a person, group, or idea is called 'atheist,' is that only a statement about theology or metaphysics, or do those who use that label intend to invoke the cultural power of God and, if so, to what end? How is the concept, 'atheism,' put into action in the world, and what does what we say about atheism say about what we think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.
REL 30900 - The Religious Meanings of Love and Sex (W)

Pluralism and Diversity
PD/D
GER
3/A
Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31000 - The Religious Meanings of Death (W)

Pluralism and Diversity
PD/D
GER
3/A
Consideration of the meaning of death in major world religions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31100 - Women and Religion (W)

Pluralism and Diversity
PD/C
GER
3/A
An examination of the role of women and the concept of the feminine in world religions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31200 - Religion and Politics (W)

Pluralism and Diversity
PD/D
GER
3/A
The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31300 - Ecospirituality: Religion and Nature (W)
An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.

Prereq: ENGL 12000
3 hrs
3 cr.

REL 31500 - The Problem of Evil (W)
Exploration of the religious meaning of evil in different cultures.
Prereq: ENGL 12000
3 hrs
3 cr.

REL 31600 - Men and Religion (W)
Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.

Prereq: ENGL 12000
3 hrs
3 cr.

REL 31800 - Religion and Science (W)
A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.

Prereq: ENGL 12000
3 hrs
3 cr.

REL 31900 - Religion and the Body (W)
This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.

Prereq: ENGL 12000
3 hrs
3 cr.

REL 33400 - Mysticism (W)
Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.
REL 25100 - Asian Religions (W)
- Hunter Core
- World Culture and Global Issues (WCGI)
- Pluralism and Diversity
- PD/A
- GER
- 2/C
- Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.
prereq: ENGL 12000
3 hrs
3 cr.

REL 25200 - Ancient Near Eastern Religions (W)
- Hunter Core
- World Culture and Global Issues (WCGI)
- Pluralism and Diversity
- PD/A
- GER
- 2/C
- Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).
prereq: ENGL 12000
3 hrs
3 cr.

REL 25300 - Abrahamic Religions (W)
- Hunter Core
- World Culture and Global Issues (WCGI)
- Pluralism and Diversity
- PD/D
- GER
- 2/C
- Study of Judaism, Christianity, and Islam--with some considerations of Zoroastrian parallels.
prereq: ENGL 12000
3 hrs
3 cr.

REL 25400 - Tribal Religions: From Australia to the Americas (W)
- Hunter Core
- World Culture and Global Issues (WCGI)
- Pluralism and Diversity
- PD/A or B
- GER
Study of indigenous religions of Pacific Islanders and North American Indians.

Prereq:
ENGL 12000
3 hrs
3 cr.
REL 25500
Religions of Two Gods (W)
Hunter Core
Individual and Society (Humanities)
I&S H
Pluralism and Diversity
PD/A
GER
A survey of historical varieties of dualistic religion both classical and modern which inquires into the moral grounds for their recurring appeal.

Prereq:
ENGL 12000
3 hrs
3 cr.
REL 25600
Afro-Caribbean Religions (W)
Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/B
GER
An introduction to the diversity of African-based religions in the Caribbean and beyond.

Prereq:
ENGL 12000
3 hrs
3 cr.
REL 25700
Religions of Ancient Central and South America (W)
Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/B
GER
Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization. The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.

Prereq:
ENGL 12000
3 hrs
3 cr.
REL 25800
Religions of Ancient Europe (W)
Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples—the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe—as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.

Course focus:
- a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures;
- b) the values expressed in sport forms considered as rituals;
- c) the rise of team sports against the backdrop of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative;
- d) an arguable implicit spirituality of sport.

Prerequisites:
- ENGL 12000

3 hrs
3 cr.

Program and Courses in Social Work

Silberman School of Social Work

Overview
The Hunter College School of Social Work, founded in 1956, is the largest and oldest public graduate school of social work in New York City. The School's mission is to promote excellence in social work practice by preparing knowledgeable, ethical, and highly competent social work leaders for a variety of professional roles and settings. Our pedagogy, scholarship, and service reflect social work's historic commitment to human rights, cultural complexity, and social and economic justice. Commensurate with the missions of our host institutions, the School promotes community-engaged and practice-based scholarship that pursues policy and practice solutions to real world problems, thereby reinforcing the strengths of people and the communities in which they live, in New York and other major urban areas.

What Can I do with a BSW degree in Social Work?

The BSW program offers students the opportunity to link theory and practice by participating in a robust curriculum and established field placements. Students will learn the core skills of assessment, engagement, intervention, advocacy, and documentation through a generalist practice lens. The BSW program will prepare our students to become knowledgeable, caring front line workers in areas of Child Welfare and Care Coordination.
Students must be full-time, matriculated students at Hunter.

Students will be considered for admission if they have between 55 and 80 credits and an overall GPA of at least 2.75.

Students must have taken and received a grade of B or better in the Introduction to Social Work course SW 20100.

PSYCH 10000 or SOC 10100 are the prerequisite courses to register for the Introduction to Social Work course SW 20100.

Transfer students must apply to Hunter College and be accepted as a Liberal Arts student in the previous fall from the semester they are applying to the BSW program. Human Services majors with associate degrees may be required to take the Introduction to Social Work course SW 20100 at Hunter College to complete the BSW application requirements if they do not apply to Hunter College in the previous fall from the semester they are applying.

Transfer students with an associate degree, who graduated from a Human Services program, and received credit from Hunter for a Human Services course as the equivalent to the BSW prerequisite, Introduction to Social Work course may still be required to take the Introduction to Social Work course SW 20100, if the course they transferred in did not include at minimum, a required 32-hour, supervised, volunteer social services assignment.

Required BSW Courses

SW 31000 - Social Work Practice and Learning LAB I

Social Work Practice Lab (PL) I, is the first part of a two-semester foundation course that introduces the BSW student to professional social work practice with individuals, families, groups, organizations and communities.

prereq: SW 20100 Introduction to Social Work
coreq: SW 33000 Human Behavior and the Social Environment I; SW 32000 Social Work Policy I
3 hrs.
3 cr.
spring only

SW 31100 - Social Work Practice and Learning LAB II

Social Work Practice Lab (PL) II, is the second part of a two-semester foundation course and builds on the foundational issues and generalist practice approach in Social Work Practice Lab I.

prereq: SW 21000, SW 32000, SW 33000, SW 31000
3 hrs.
3 cr.
spring only

SW 32000 - Introduction to Social Welfare Policy & Services

Provides students with orienting knowledge and skills needed to examine social welfare policies and to understand their relevance to social service delivery and practice.

prereq: SW 20100
coreq: SW 31000, SW 33000
3 hrs.
3 cr.
spring only

SW 33000 - Human Behavior in the Social Environment I

Provides a foundation for students to make conceptual linkages between multiple formulations of the person-environment configuration in understanding the complexities of human behavior, while paying specific attention to both social diversity and human development.

prereq: SW 20100
coreq: SW 31000, SW 32000
3 hrs
3 cr.
spring only

SW 33100 - Human Behavior in the Social Environment II
Continuation of the two-semester course (SW 33000/33100). It builds on a foundation of knowledge on "human behavior in the social environment" for social work practice with individuals, families, groups, organizations and communities.

Prereq: SW 20100, SW 33000
Coreq: SW 34000
3 hrs 3 cr.

SW 34000 - Social Work Policy in Child Welfare
This course is designed to help students understand the current and historical context of child welfare policies and programs in New York and the United States; the major issues in child welfare; policy frameworks; and services and practices in the child welfare arena.

Prereq: SW 20100, SW 31000, SW 32000
Coreq: SW 31100, SW 33100
3 hrs. 3 cr.

Spring only

SW 35000 - Social Work Policy II in Care Coordination
An overview of health care and care coordination systems and policies, with a specific focus on the role of social workers in implementing care coordination services to aging, health and mental health clients.

Prereq: SW 20100, SW 31000, SW 33000
Coreq: SW 31100, SW 33100
Prereq or coreq: SW 32000
3 hrs. 3 cr.

Spring only

SW 41000 - Social Work Practice in Child Welfare I
Social Work Practice in Child Welfare I is designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to Interventions and Services in child welfare.

Prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 34000
Coreq: SW 43000, 45000
3 hrs. 3 cr.

Fall only

SW 41100 - Social Work Practice in Child Welfare II
The 2nd semester of a year long practice course designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to Interventions and Services in child welfare.

Prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 34000, 41000
Coreq: SW 43100, 45100
3 hrs. 3 cr.

Spring only

SW 42000 - Social Work Practice in Care Coordination I
The first part of a two semester practice course. It is designed to help students apply the major psychological and sociological theories about illness, disease, policy frameworks, and evidence informed practices to care for older adults, the mentally ill and persons with chronic health issues.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 35000

coreq: SW 43000, 45000

fall only

SW 42100 - Social Work Practice in Care Coordination II

The second half of a two-semester practice course on Care Coordination. It deepens knowledge and skills of students learning how to apply psychological and sociological theories about illness, disease, policy frameworks, and evidence informed practice to care for older adults, mentally ill, and persons with chronic health issues.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 35000, 42000

coreq: SW 43100, 45100

3 hrs

3 cr.

spring only

SW 43000 - Integrative Seminar I

This is the first part of a two-semester Integrative Seminar taken in conjunction with field placements. Students are taught how to use assessment, planning, intervention and evaluation paradigms to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000; 34000 - or - 35000

coreq: SW 41000 - or - 42000; SW 45000

3 hrs

3 cr.

fall only

SW 43100 - Integrative Seminar II

This is the second semester skills building Integrative Seminar taken in conjunction with field placements. The assessment, planning, intervention and evaluation paradigms are used to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000; 35000 - or - 34000; 43000, 45000

coreq: SW 41100 - or - 42100; 45100

3 hrs

3 cr.

spring only

SW 44000 - Social Work Research

An introduction to basic research methods within the context of social work practice.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000; 34000 - or - 35000

3 hrs

3 cr.

fall only

SW 45000 - Social Work Field Instruction I

Field Work and Field Instruction is a 14 hour per week formal internship. It connects social work practice theory and concepts learned in the classroom, with the practical world, and skills building needs required for agency based social work practice.

prereq: SW 31000, 31100, 32000, 34000, or SW 35000, 33000, 33100

coreq: Social Work Practice in Child Welfare I, SW 41000 or Social Work Practice in Care Coordination I, SW 420, Social Work Research, SW 44000, Integrative Field Seminar I, SW 43000
This is the second semester of the year-long, 14 hour per week, course in Field work and Field Instruction that integrates social work practice theory and concepts learned in the classroom, with the practical world, and skills building needs required for agency based social work practice.

Prereq: SW 45000
Coreq: SW 41100 or SW 42100, SW 43100

Attendance Requirements
BSW program is a full time program. All courses and field work are offered only during the day. Students must attend on a full-time basis. Courses are offered sequentially by semester, and must be taken in order.

- All BSW classes, except for the Introduction to Social Work course, SW 20100, are held at the Silberman School of Social Work.

Grading Policy
BSW students will receive a letter grade for course work. A minimum overall GPA of 3.0 is expected to remain in good academic standing. Students who do not pass a continuing course offered over two semesters, sequentially will not be allowed to repeat the course until it is offered again in the curriculum sequence. Students will be allowed to repeat a course only one time.

Accreditation
The Silberman School of Social Work Bachelor in Social Work degree is accredited by the Council on Social Work Education (CSWE).

Degree Map
Degree Map for Bachelor of Social Work (BSW)
Minor in Community Organizing
Requirements
Students are required to take the following courses in sequence (15 cr):
- SW 36000 Introduction to Community Organizing
- SW 37000 Community Organizing Internship and Field Seminar
- SW 46000 Advanced Community Organizing Theory & Practice

Students are required to select two 3 credit electives from a menu of 3 credit elective courses approved by 11 Departments and Programs (see list below): Africana & Latino/Puerto Rican Studies; Anthropology; Community Health; Film & Media Studies; History; Political Science; Public Policy; Psychology; Sociology; Urban Studies; Women & Gender Studies; Asian American Studies. Courses applied by the student for his/her major may not be used to meet this minor's 6 credit elective requirement.
In depth examination of the social, cultural and political factors that influence and lead to health disparities and health inequalites. Course explores demographic trends in mortality and morbidity and the role of history, race, class, policy, and socioeconomic and cultural factors, and health literacy levels in the development and continuation of disparities in health. This course uses a social justice lens to understand health, health care and health disparities.
Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.

prereq: URBS 10200 or perm instr.
3 hrs
3 cr.

Sociology:

SOC 21700 - Race and Ethnicity Pluralism and Diversity
PD/B
GER 3/B
Dominant - subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.

prereq: SOC 10100
3 hrs
3 cr.

SOC 23500 - Community Organization and Action
GER 3/B
Evaluation of specific local and national action programs.

prereq: SOC 10100
3 hrs
3 cr.

SOC 23700 - Social Welfare Policy
GER 3/B
Development of welfare institutions. Consequences of welfare services for client and community.

prereq: SOC 10100
3 hrs
3 cr.

SOC 23900 - Child Welfare (W)
GER 3/B
Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it.
cross-listed WGSP 23900 (W)
prereq: SOC 10100, ENGL 12000
3 hrs
3 cr.

SOC 25300 - Deviance and Social Control
Theories of causation and analysis of particular types of deviance: sexual, criminal, political.

**Prerequisites:**
- SOC 10100

**Credit Hours:** 3 cr.

**Course:**
- **SOC 25700**
  - **Title:** Sex and Gender Roles
  - **Description:** Sex role differentiation: femininity, masculinity, marriage, child rearing.
  - **Cross-listed:** WGSS 25700
  - **Prerequisites:** SOC 10100
  - **Credit Hours:** 3 hrs

**Course:**
- **SOC 25900**
  - **Title:** Mass Media, Communication and Public Opinion (W)
  - **Description:** Impact of mass media on public opinion and government action.
  - **Prerequisites:** SOC 10100, ENGL 12000
  - **Credit Hours:** 3 hrs

**Course:**
- **SOC 30700**
  - **Title:** Migration
  - **Description:** Economic, demographic, political and cultural factors influencing migration and the consequences of migration.
  - **Prerequisites:** SOC 10100
  - **Credit Hours:** 3 hrs

**Course:**
- **SOC 30900**
  - **Title:** Social Movements and Social Change (W)
  - **Description:** Analysis of emerging groups inducing or resisting social change often using unconventional means in historical and/or international perspective.
  - **Prerequisites:** SOC 10100
  - **Credit Hours:** 3 hrs
SOC 31700 - Class, Status, and Power

Inquiry into the empirical and conceptual relation between the fundamental sociological constructs of 'class', 'status', and 'power' through a case study of the upper class in the United States. Review of current research and relevant theoretical approaches.

prereq: SOC 10100
3 hrs
3 cr.

SOC 31900 - Criminology

Criminal behavior, arrest, and punishment. Problems of definition, administration of criminal justice.

prereq: SOC 10100
3 hrs
3 cr.

SOC 32000 - Law, Society and Civil Rights

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.

prereq: SOC 10100
3 hrs
3 cr.

3 cr.
Leaders and Movements of Black Urban Communities (W)
Pluralism and Diversity
PD/B
GER
3/B
Personalities and movements that have influenced Black communities of U.S.; focuses mainly on 20th century.
prereq: AFPRL 20300 or 20400 or 20500
3 hrs
3 cr.

Caribbean Migration and New York City (W)
Pluralism and Diversity
PD/A or B
GER
3/B
An historical examination of the lives of Caribbean immigrants in New York City from the causes for emigration to the development of an ethnic community in the City.
prereq: ENGL 12000; AFPRL 20700, 20800, 20900, 21000, 30700 or 30800
3 hrs
3 cr

Poverty in Society (W)
GER
3/B
Causes and effects of deprivation, with emphasis on policy and program approaches for African Americans and Puerto Ricans/Latinos.
prereq: successful completion of any 2 AFPRL courses
3 hrs
3 cr.

Puerto Rican/Latino Politics in the United States (W)
Pluralism and Diversity
PD/B
GER
3/B
An analysis of the political participation and leadership of Puerto Ricans and other Latinos in the United States.
prereq: either AFPRL 10200, 24200 or 24400 or perm. Instr.
3 hrs
3 cr.

Anthropology:
ANTHC 21800
The Anthropology of the Civil Rights Movement in the U.S.
This course examines the grassroots struggle to gain equality and justice in the United States, viewed as a social protest movement, from the perspective of cultural anthropology. The course will focus on the major events, themes and issues of the Civil Rights Movement and examine their effect in challenging the American concept of democracy; in changing those who participated in it; and in spawning other social movements that transformed American society and culture.

**Prerequisites:**

ANTHC 10100 or departmental permission

3 hours

3 credits

**Course Codes:**

ANTHC 30100 - Gender in Anthropological Perspective

ANTHC 32076 - Language, Sex and Gender

PSYCH 19000 - Development of Gender Roles
PSYCH 23000 - Social Psychology
Problems of human experience and behavior in the social context; theories and current methodology in research on the influence of the group on cognitive processes, motivation, personality structure and the self; attitudes and prejudice; leadership; group processes.

Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 23500 - The Psychology of Women
Pluralism and Diversity
Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles, power.

Writing Intensive
cross-listed WGSP 23500 (W)
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 33400 - Cultural Psychology
As our society becomes more multicultural, the question of how culture impacts psychological processes is increasingly important. The goal of this course is to expose students to the ways that cultural meanings, practices, and institutions influence and reflect individual human psychologies, with an emphasis on cultural variability in psychological theories and research findings. Topics include but are not limited to: a) What is cultural psychology; b) Research methods in cultural psychology; c) Historical and conceptual issues in cultural psychology d) cross-cultural models of self, attention, perception, morality, memory, human development and health, e) cultural differences in gender effects and f) policy implications of cultural psychology

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000 and PSYCH 23000
3 hrs.
3 cr.

PUPOL 10000 - Introduction to Public Policy
An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines.

Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).

Open only to students enrolled in the program. Cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0
3 hrs
3 cr.

SOC 21800 - Social Inequality
Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.

Prereq: SOC 10100
3 hrs
3 cr.

Film And Media Studies:
FILM 22700 - Representations of Race and Ethnicity in U.S. Media
Pluralism and Diversity
PD/B
GER

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

Prereq: FILM 10100
4 hrs
3 cr.

FILM 32800 - Images of Resistance in the Developing World
Pluralism and Diversity
PD/A
GER

Focuses on challenges by developing world films and filmmakers to Western media stereotypes.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

Prereq: FILM 10100
4 hrs
3 cr.

MEDIA 37000 - The Press and the Public
GER

Analysis and discussion of relationship of the press to great issues of our time.

Prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38100 - Propaganda and the Mass Media
GER

GE
Study of mass media (broadcast, film, print) as forms for propaganda.

Prereq:

MEDIA 18000
3 hrs
3 cr.

MEDIA 28400
Women and Media
Pluralism and Diversity
PD/C
GER
3/A
Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.

Cross-listed
WGSA 38400 (W)
Prereq:
MEDIA 18000
3 hrs
3 cr.

MEDPL 37700
Neighborhood News (W)
An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.

Prereq:
MEDIA 18000 and MEDPL 201
3 hrs
3 cr.

History:

HIST 31700
History of the American City
Pluralism and Diversity
PD/D
GER
3/B
History of the American city from the Colonial era to the present; development of the city as physical environment, social experience, political entity and cultural symbol. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 31800
History of the American Working Class (W)
Pluralism and Diversity
PD/D
GER
3/B
History of the American working class from Colonial times to the present; changing work experience, community life, organizational efforts and political activity of working people. Courses at the 300-level and above not offered to freshmen.

Prereq or Coreq:
ENGL 12000
3 hrs
3 cr.
The course focuses on the political development of federal immigration policy, and on historical and contemporary issues in policy design and implementation. The course also surveys recent findings and debates arising from empirical analyses of immigration policy.

Prerequisites: ENGL 12000 or its equivalent and POLSC 11000/11100 or HIST 15100/15200

Analysis of historical and contemporary protest movements in the context of American politics; includes key concepts and explanatory factors in social movement theory, and movements such as the anti-slavery, women's suffrage, labor, civil rights, anti-war, feminist, environmental, gay rights, pro-choice, pro-life, and Patriot movements.

Prerequisites: ENGL 12000 or equivalent

Major theories and empirical approaches to the study of race, ethnicity, and gender in American politics. Study of identity as an organizing and motivating force in American politics.

Prerequisites: ENGL 12000 and any political science course

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

Prerequisites or corequisites: ENGL 12000 or its equivalent; one course in political theory or perm instr.
Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.

CROSS-LISTED
WGST 30900 (W)

Prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs
3 cr.

POLSC 27225
Comparative LGBT Politics *

Women & Gender Studies:
WGS 24400
Transnational Feminisms

Exploring the gender dynamics of racial, ethnic, and economic relations of power in domestic, international, and transnational settings. We will examine feminist scholarship produced by and about American women of color, Third World women, and other social and political actors whose experiences and thinking have shaped contemporary ideas about gender in different parts of the world.

Prereq: WGS 10000, ENGL 12000

3 hrs
3 cr.

WGSS 15000
Introduction to LGBTQI Studies

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.

3 hrs
3 cr.

WGSS 26600
Our Bodies, Our Politics

Sex and sexuality are commonly understood as an innate drive, but as science has recently begun to show, the way we experience sexuality is better understood as a series of connected cultural practices. It is the constructed meaning attached to the act of sex that make up the foundation of our sexuality. This meaning changes across cultures and communities and has historically been a subject of political and legal struggle. From the battle for reproductive rights to laws limiting dildo ownership in Texas, our own bodies and the way we experience them are legislated and controlled.
This course will explore the multiple intersections between gender and migration. We will study how patterns of migration are fundamentally gendered, how migration affects men and women differently, and how migration policies in sending and destination countries can have gendered outcomes.

prereq: WGS 10000 and ENGL 12000
3 hrs
3 cr.

WGSP 39800 - Community Leadership Seminar (W)

Pluralism and Diversity

By exposing students to scholars, advocates, organizers, service providers and activists involved in welfare policy and anti-poverty work, the course critically engages the social welfare system and its impact on women, people of color, queer people, and the poor. The seminar develops the required skills for leaders, trainers and community organizers.

prereq: ENGL 12000
3 hrs
3 cr.

 WGSS 30002 - Reproductive Rights in the United States *

WGSL 20004 - Gender and Human Rights *

WGSL 20010 - Sexuality, Race and Economics *

WGSC 20001 - Writings from Detention: Repression, Gender & Politics *

WGSP 20003 - Prison Writing Memoirs *

WGSP 20010 - Gender, Sexualities & Indigenous Rights *

WGSP 20011 - Sex Education and Public Policy *

WGSP 20051 - Gender, Disability & Embodiment *

WGSP 20057 - Gender & Health Policy *

WGSP 20070 - Prison, Human Rights & Gender

Asian American Studies

ASIAN 23002 - Asian American Communities and Mental Health

Hunter Core

Individual and Society (Social Sciences) - I&S SS

Pluralism and Diversity

Introduction to psychological experiences of Asian Americans, including historical, sociopolitical, and cultural influences that shape personality and mental health. Specific topics include stereotypes and racism, processes of acculturation and enculturation, ethnic identity development, interracial relationships, stressors and social support systems within Asian American communities, and culturally competent mental health treatment and service delivery.

3 hrs
3 credits

ASIAN 39002 - Asian American Civil Rights and the Law

Pluralism and Diversity

Critical examination of major immigration and civil rights laws and Supreme Court cases that have affected Asian Americans.

3 hrs
3 cr.
Courses followed by '*' are experimental and will be offered only certain semesters. Please check the schedule of classes.

---

**SW 20100 - Introduction to Social Work**

Introduces the beginning student to the philosophy, mission and challenges of social work. It provides a broad overview of the history, values, ethics, knowledge base, as well as populations we work with, and some of the practice methods and interventions we use to ameliorate problems.

**Course was formerly named SOC 23100**

**Prerequisites:** ENGL 1200 or SOC 10100 or PSYCH 10000

**Credit Hours:** 3 hrs

---

**SW 31000 - Social Work Practice and Learning LAB I**

Social Work Practice Lab (PL) I, is the first part of a two-semester foundation course that introduces the BSW student to professional social work practice with individuals, families, groups, organizations and communities.

**Prerequisites:** SW 20100 Introduction to Social Work

**Co-requisites:** SW 33000 Human Behavior and the Social Environment I; SW 32000 Social Work Policy I

**Credit Hours:** 3 hrs

---

**SW 31100 - Social Work Practice and Learning LAB II**

Social Work Practice Lab (PL) II, is the second part of a two-semester foundation course and builds on the foundational issues and generalist practice approach in Social Work Practice Lab I.

**Prerequisites:** SW 21000, SW 32000, SW 33000, SW 31000

**Credit Hours:** 3 hrs

---

**SW 32000 - Introduction to Social Welfare Policy & Services**

Provides students with orienting knowledge and skills needed to examine social welfare policies and to understand their relevance to social service delivery and practice.

**Prerequisites:** SW 20100

**Co-requisites:** SW 31000, SW 33000

**Credit Hours:** 3 hrs

---

**SW 33000 - Human Behavior in the Social Environment I**

Provides a foundation for students to make conceptual linkages between multiple formulations of the person-environment configuration in understanding the complexities of human behavior, while paying specific attention to both social diversity and human development.

**Prerequisites:** SW 20100

**Co-requisites:** SW 31000, SW 32000

**Credit Hours:** 3 hrs

---

**SW 33100 - Human Behavior in the Social Environment II**
Continuation of the two-semester course (SW 33000/33100). It builds on a foundation of knowledge on "human behavior in the social environment" for social work practice with individuals, families, groups, organizations and communities.

**Prerequisite:** SW 20100, SW 33000

**Corequisite:** SW 34000

3 hrs. 3 cr.

**SW 34000 - Social Work Policy in Child Welfare**

This course is designed to help students understand the current and historical context of child welfare policies and programs in New York and the United States; the major issues in child welfare; policy frameworks; and services and practices in the child welfare arena.

**Prerequisite:** SW 20100, SW 31000, SW 32000

**Corequisite:** SW 31100, SW 33100

3 hrs. 3 cr.

**Spring Only**

**SW 35000 - Social Work Policy II in Care Coordination**

An overview of health care and care coordination systems and policies, with a specific focus on the role of social workers in implementing care coordination services to aging, health and mental health clients.

**Prerequisite:** SW 20100, SW 31000, SW 33000

**Corequisite:** SW 31100, SW 33100

**Prerequisite or Corequisite:** SW 32000

3 hrs. 3 cr.

**Spring Only**

**SW 36000 - Introduction to Community Organizing**

The purpose of this course is to provide an introduction to the theory and practice of community organizing. It will explore the diverse roles, goals and strategies used by community organizers to affect social change from a Human Rights perspective. Models of community organizing include mass mobilization, social action, grass roots empowerment, leadership development and advocacy. Special attention will be paid to issues of gender, class, race, ethnicity

3 hrs. 3 cr.

**SW 37000 - Community Organizing Internship and Field Seminar**

This is a one semester, 100 hour supervised Field Internship and a bi-weekly Community Organizing seminar. The purpose of the Internship is to develop skills and apply theory and concepts obtained in the Introduction to Community Organizing course (SW 360). Students choose their organization from a vetted list of community-based organizations provided by the Instructor. They negotiate the hours with the supervisor and approved by the Course Instructor. Among the acquired skills identified are: Organizing and Planning, Interpersonal, Analytical, Administrative and Tactics and Strategies. During the seminar, students have the opportunity to develop group facilitation and leadership skills, personal self-reflection and professional values and ethics using a social justice and human rights lens.

**Prerequisite or Corequisite:** SW 36000

3 hrs. 3 cr.

**SW 41000 - Social Work Practice in Child Welfare I**

Social Work Practice in Child Welfare I is designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to interventions and services in child welfare.

**Prerequisite:** SW 20100, 31000, 31100, 33000, 33100, 32000, 34000

**Corequisite:** SW 43000, 45000
Social Work Practice in Child Welfare II

The 2nd semester of a year long practice course designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to interventions and services in child welfare.

Prerequisite:

- SW 20100
- 31000
- 31100
- 33000
- 33100
- 32000
- 34000
- 41000

Corequisite:

- SW 43100
- 45100

Social Work Practice in Care Coordination I

The first part of a two-semester practice course. It is designed to help students apply the major psychological and sociological theories about illness, disease, policy frameworks, and evidence-informed practices to care for older adults, the mentally ill, and persons with chronic health issues.

Prerequisite:

- SW 20100
- 31000
- 31100
- 33000
- 33100
- 32000
- 35000

Corequisite:

- SW 43000
- 45000

Social Work Practice in Care Coordination II

The second half of a two-semester practice course on care coordination. It deepens knowledge and skills of students learning how to apply psychological and sociological theories about illness, disease, policy frameworks, and evidence-informed practice to care for older adults, mentally ill, and persons with chronic health issues.

Prerequisite:

- SW 20100
- 31000
- 31100
- 33000
- 33100
- 32000
- 35000
- 42000

Corequisite:

- SW 43100
- 45100

Integrative Seminar I

This is the first part of a two-semester integrative seminar taken in conjunction with field placements. Students are taught how to use assessment, planning, intervention and evaluation paradigms to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

Prerequisite:

- SW 20100
- 31000
- 31100
- 33000
- 34000
- or
- 35000

Corequisite:

- SW 41000
- or
- 42000
- SW 45000

Integrative Seminar II

This is the second semester skills building integrative seminar taken in conjunction with field placements. The assessment, planning, intervention and evaluation paradigms are used to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

Prerequisite:

- SW 20100
- 31000
- 31100
- 33000
- 33100
- 32000
- 35000
- 34000
- 43000
- 45000

Corequisite:

- SW 41100
- or
- 42100
- 45100
An introduction to basic research methods within the context of social work practice.

prereq:

SW 20100, 31000, 31100, 33000, 33100, 32000; 34000 - or - 35000

3 hrs

3 cr.

The Program in Religion at Hunter College is the oldest, largest and most comprehensive program of religious studies in the City University. It offers over eighty courses, including several courses in aspects of each of the major world religions (Judaism, Christianity, Islam, Hinduism and Buddhism) as well as in the traditional religions of Africa, Oceania and the Americas; courses in various methodological approaches to the study of religions; and courses in specific issues (such as faith and disbelief, mysticism, myth and ritual, religious experience, the problem of evil, the meaning of love and sex, and the meaning of death) that are fundamental to all religions.

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Religion, the

- Religions of Ancient Central and South America (W)
- Hunter Core
- World Cultures and Global Issues (WCGI)
Pluralism and Diversity

Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization.

The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.

prereq: ENGL 12000
3 hrs
3 cr.

REL 25800 - Religions of Ancient Europe (W)
Hunter Core
World Cultures and Global Issues (WCGI)

Pluralism and Diversity

Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples--the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe--as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.

3 hrs
3 cr.

REL 27000 - Religion and Psychology (W)
Hunter Core
Individual and Society (Humanities) I&S H

Pluralism and Diversity

A major in religion consists of 24 credits. Students are required to take REL 11000 - Nature of Religion and REL 11100 - Approaches to Religion followed by at least one course in theoretical studies, at least one course in religious issues, and at least one course in religious traditions. It is recommended that students take REL 25100 - Asian Religions and REL 25300 - Abrahamic Religions from the religious traditions course offerings.

On becoming a major the student, in consultation with the director, will select one member of the program in Religion staff as his or her major adviser. Each religion major is required to consult with this adviser at least twice a year.
I. Introduction to the Field of Religion

REL 11000 - Nature of Religion (W)

Hunter Core

Individual and Society (Humanities) - I&S H

GER 2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.

3 hrs

3 cr.

REL 11100 - Approaches to Religion (W)

Hunter Core

Individual and Society (I&S) Humanities

GER 2/C

Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.

prereq: ENGL 12000

3 hrs

3 cr.

II. Theoretical Studies in Religion

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20700 - Religious Sources for Morality (W)
- Hunter Core Individual and Society (Humanities)
- I&S H Pluralism and Diversity
- PD/D GER 2/C

Religious reasons for determining good and evil; religious sources for ethical decisions.
movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project.

Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—such as those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

Why about what we think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.
REL 30700 - Religious Ideas in Modern Literature (W)

Pluralism and Diversity
PD/D
GER
3/A
Exploration of religious themes in modern literature.
prereq: ENGL 12000
3 hrs
3 cr.

REL 30800 - Religion and the Arts (W)

Pluralism and Diversity
PD/D
GER
3/A
Examination of religious themes in art, music, theatre, cinema, or literature. Different topics each time offered.
prereq: ENGL 12000
3 hrs
3 cr.

REL 30900 - The Religious Meanings of Love and Sex (W)

Pluralism and Diversity
PD/D
GER
3/A
Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.
prereq: ENG L 12000
3 hrs
3 cr.

REL 31000 - The Religious Meanings of Death (W)

Pluralism and Diversity
PD/D
GER
3/A
Consideration of the meaning of death in major world religions.
prereq: ENGL 12000
3 hrs
3 cr.

REL 31100 - Women and Religion (W)
An examination of the role of women and the concept of the feminine in world religions.

prereq:
ENGL 12000
3 hrs
3 cr.

REL 31200 - Religion and Politics (W)

The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.

prereq:
ENGL 12000
3 hrs
3 cr.

REL 31300 - Ecospirituality: Religion and Nature (W)

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.

prereq:
ENGL 12000
3 hrs
3 cr.

REL 31400 - Religion and Sports (W)

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport.

Course foci:
a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of

derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of
Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.

As human expressions, both religion and film attempt to describe the world and organize it into a meaningful place for human activity. This course will survey the mutual academic studies of both film and religion, as well as the emerging discipline of 'religion and film studies.' As such, students will explore the nature of vision, representation, and narrative—topics central to both film and religious studies. Students will also view and analyze films by deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.
Cross-cultural exploration of myth and ritual and their place in various cultures; methodologies for analysis.

prereq: ENGL 12000
3 hrs
3 cr.

REL 34000 - Homosexuality in World Religions (W)
A survey and analysis of typical ways in which homosexuality has been understood, evaluated and in some cases institutionalized in a variety of religious traditions, attending especially to implicit constructions of gender.

prereq: ENGL 12000
3 hrs
3 cr.

REL 26100 - Special Topics: Issues in Religion
Study of particular religious topics or thinkers. Different subject each time offered.
3 hrs
3 cr.

IV. Religious Traditions
Ancient Religions
REL 25200 - Ancient Near Eastern Religions (W)
Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).
The course will also briefly consider if the theory of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.

prereq:
ENGL 12000
3 hrs
3 cr.

REL 25800
Religions of Ancient Europe (W)
Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
P/D D
GER 2/C
Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples—the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe—as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational.
Comparative study of ancient Near Eastern literature and the Hebrew Bible.

Asian Religions

Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.

prereq:
ENGL 12000

Study of Hinduism, its development, history, literature, philosophy and religious practices.

prereq:
ENGL 12000

Study of Buddhism, its development, history, literature, philosophy and religious practices.

prereq:
ENGL 12000
An inquiry into the teachings of Chinese and Japanese Zen in light of their Buddhist and Daoist backgrounds.

Prereq: ENGL 12000

Readings from the classics of Chinese philosophy found in Confucian, Taoist and Buddhist traditions.

Prereq: ENGL 12000

Readings from classics of Indian philosophy, drawn from the Vedic, Buddhist and Indo-Tibetan traditions.

African, Afro-Caribbean and Afro-American Religions

Prereq: ENGL 12000
An introduction to the diversity of African-based religions in the Caribbean and beyond.

prereq:
ENGL 12000
3 hrs

3 cr.

REL 32600 - Religious Meanings of the Qur'ān (W) 

GER

3/A

This course introduces students to the study of the Qur'ān based on the traditional Islamic "sciences of the Qur'ān" (`Ulūm al-Qur'ān). Using an introductory text on the Qur'ānic sciences, the course will introduce the traditional areas of concern in the Qur'ānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative literature, introducing the students to representative examples of the types of material referred to in the introductory text. This material provides

REL 33700 - Sufism (W) 

Pluralism and Diversity

PD/A

GER

3/A

A course on the esoteric or mystical dimension of Islam, known among Muslims as ta/awwuf, attending to the history, doctrine and metaphysics of the Sufi path.

prereq: ENGL 12000

3 hrs

3 cr.
Study of indigenous religions of Pacific Islanders and North American Indians.

prereq: ENGL 12000
3 hrs
3 cr.

Specialized study of specific religious traditions or groups of traditions. Different topic each time offered.

3 hrs
3 cr.

Open to majors only. Individual research and writing on topic in religion under supervision of a religion professor.

May be taken a second or third time with another subject.

prereq: perm chair
hrs TBA
1 - 6 cr.

Honors

To be eligible for honors classes a student must have the director’s permission and at least a 3.5 GPA in the major and cumulatively. To qualify for departmental honors, a student must complete one of the honors courses with a grade of B or above, achieving a final GPA in Religion and cumulatively of at least 3.5.

Honors Seminar in Religion
Africana Studies as a "discipline" seeks to study, interpret, explain, and articulate the cultural, historical, political, economic, and spiritual experience of people of African descent throughout the world. Africana Studies is "Pan-Africanist" in approach and focus, seeking to emphasize the connections between African peoples and their cultures throughout the world, while acknowledging the differences that have evolved because of historical realities, geographical location, specific forms of colonial oppression, and cultural interaction.

The African-centered perspective of the sequence implies an approach to reality which begins with the African and African-Diasporic experience. Its presupposition is that the meaning of that experience cannot be determined without reference to Africa as the source, its point of origin. As such, our sequence is lodged firmly within the African-Centered Movement; a liberatory and intellectual movement born out of the struggle, conflict, and victory of the decolonization process.

The Puerto Rican/Latino Sequence is geared towards a multidisciplinary pedagogical and philosophical approach which encompasses the study of Puerto Rico, the Dominican Republic and Cuba specifically, and the rest of the Caribbean in a comparative perspective. We also engage in the study and analysis of the Puerto Rican Diaspora and other Latino groups in the U.S. The study of the Puerto Rican experience is framed within the racial, historical, linguistic, religious, social and cultural syncretism that evolved from the interaction of the native Taíno population, Africans, the Spanish colonizers and the U.S. presence.

What can I do with my degree in Africana & Puerto Rican/Latino Studies?
The Department of Africana & Puerto Rican/Latino Studies prepares students for a broad range of careers in the public and private sector; for entrance to professional schools such as law, social work, urban planning and medicine, and for graduate study and research in the social sciences and humanities. The department has a long history of nurturing students' intellectual discipline, creativity, and social and political awareness. Graduates of the department have pursued careers in journalism, counseling, teaching, public policy, community development, media, politics, psychology and in international affairs. The department's interdisciplinary structure offers students an opportunity to satisfy the increasing expectations of admissions committees and prospective employers for a broad liberal arts perspective that complements the specialized knowledge of a field.
Given the interdisciplinary organization of the department, students may elect to concentrate their program of study in the Africana sequence, Puerto Rican/Latino sequence or a combination of both with courses from social sciences and humanities offered by the department.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR]). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (30 credits)

6 credits from among

AFPRL 20100 - African History from Human Origins to 1600 CE

Hunter Core
    World Culture and Global Issues (WCGI)

Sociohistorical, political and economic analysis of Puerto Rico datin
g from the U.S. invasion to the present. 3 hrs 3 cr.

Fieldwork in African American/Latino Communities
Fieldwork involvement and sociopolitical analysis of a community organization in the Black and/or Puerto
Rican/Latino communities. Course open to Majors and Minors Only 3 hrs 3 cr. each 21 credits • Of which at least 12 must be taken at the 300 and/or 400 level. At least 3 credits must be taken in Puerto Rican/Latino studi
es if the student's concentration is

The honors research course, AFPRL 49900, is open to AFPRL upper seniors who have a 3.5 GPA in the major with a 3.0 GPA overal

The research theme changes every academic year.
The project is supervised by one full
time AFPRL faculty member but is read and graded by the supervisor and two additional AFPRL full
time faculty members.

The degree map is a term
by
term sample course schedule to make it easier for you to understand how to graduate in four years with an AFPRL major. The Degree Map is a tool to assist you and your
advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your
specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your
Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

Swahili I (SWA 10100) - Introduction to Swahili, pronunciation and elements of grammar. Each credit for SWA 10100 is not given until SWA 10200 is completed.

Swahili II (SWA 10200) - Introduction to Swahili, pronunciation and elements of grammar. Each credit for SWA 10100 is not given until SWA 10200 is completed.

Swahili III (SWA 20100) - Grammar review, composition, oral practice. Prerequisite: SWA 10200 or demonstrated competence in speaking and writing.

Swahili IV (SWA 20200) - Review of morphology and syntax, original composition, intensive oral practice. Prerequisite: SWA 20100 or demonstrated competence as a native speaker.

Yoruba I (YOR 10100) - Elementary Yoruba. Introduction to language and culture of Yoruba People of Nigeria. Each credit for YOR 10100 is not given until YOR 10200 is completed.

Yoruba II (YOR 10200) - Elementary Yoruba. Introduction to language and culture of Yoruba People of Nigeria. Each credit for YOR 10100 is not given until YOR 10200 is completed.

Yoruba III (YOR 20100) - Writing and reading of Yoruba language, including study of grammar and syntax. Prerequisite: YOR 10200 or demonstrated competence in speaking and writing.
Intensive writing and reading of Yoruba language and continuation of study of grammar and syntax. 

prereq: YOR 20100 or demonstrated competence as a native speaker

Programs and Courses in Anthropology

Anthropology

Overview

Anthropology is the study of humanity in all its cultural and biological diversity. In the United States, the discipline traditionally includes four fields: archaeological, biological, sociocultural, and linguistic anthropology, although research increasingly examines questions at the borders of the fields or which span more than one field. The Department of Anthropology offers B.A. and M.A. degree programs, both of which provide a solid grounding throughout the world and across time, and how power and inequality shape the varieties of human experience. The Anthropology curriculum encompasses many that involve new information technologies, cultural resource management, environmental impact assessment, ethnicity and gender, regional and area studies, and economic development. Biological anthropology and archeology host state-of-the-art research labs that support student training and research. International field sites are also available for student research. The Department is also committed to involving undergraduate students in ongoing faculty-supported research, and in encouraging independent student-initiated research projects.

What can I do with my degree in Anthropology?

Known for its holistic approach, anthropology provides essential training for any career that deals with the human condition or cultural diversity. Graduates pursue careers in fields as diverse as education, public health, public policy, cultural heritage management, journalism, social work, marketing research and many others. Anthropology also provides an important foundation for further study in the social and natural sciences and the humanities...
The anthropology major is designed to give students an overview of the discipline, as well as training in all four fields of the subject (archaeology, cultural anthropology, biological anthropology and anthropological linguistics.) The anthropology major consists of 28 credits [see table below]. In order to graduate with a major in anthropology, students must earn a C grade or better in all required courses and electives counted toward the major.

Hunter Core Requirement

Note: Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.
**Courses Required for the Major (28 credits)**

- **ANTHC 10100** - *Introduction to Cultural Anthropology*
  - Hunter Core Individual and Society (Social Sciences) I&S SS
  - GER 2/B
  - Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.
  - 3 hrs (3 cr.) offered every sem.
  - STEM

- **ANTHP 10100** - *Human Evolution*
  - Hunter Core Life and Physical Sciences (LPS) Scientific World (SW)
  - GER 2/E
  - The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
  - 6 hrs (3 hrs lec, 3 hrs lab) 4 cr. offered every sem.

- **ANTHC 15100** - *Introduction to Linguistics*
  - Hunter Core World Cultures and Global Issues (WCGI)
  - GER 2/B
  - Structure and analysis of human languages; language history; language in society, culture and mind; language universals.
  - 3 hrs 3 cr.

- **ANTHC 12600** - *Introduction to Prehistoric Archaeology*
  - Hunter Core World Culture and Global Issues (WCGI)
  - GER 2/B
  - Human social and cultural evolution from the earliest humans to the rise of the first civilizations.
  - 3 hrs 3 cr. offered every sem.
Introduction to basic principles of research design employed in anthropology. 

**Prerequisites:** ANTHC 10100. 

3 hrs, 3 cr.

**ANTHC 31800** - History of Anthropological Theory

Changing approaches to the study of society and culture. Political and historical context of the development of theory, the link between theory and method and the impact of theory on policy. 

**Prerequisites:** ANTHC 10100 or permission of instructor. 

3 hrs, 3 cr.

**Elective courses (9 cr.)** 

Selected from the following fields: Cultural Anthropology, Biological Anthropology, Linguistics, Archaeology, Research Design, Anthropological Theory.

**Honors Work**

Honors work is possible in each of the major branches of anthropology. The emphasis is on independent student research under the supervision of a faculty member. In order to graduate with departmental honors in anthropology, a student must: (1) have taken at least 2 credits of ANTHC 40000; (2) have a GPA in the major of not less than 3.5 and a cumulative GPA of not less than 2.8 at the time of graduation; and (3) complete a departmental honors form available from the departmental undergraduate adviser.

**ANTHC 40000** - Honors Project

Open to qualified juniors and seniors every semester. Research under supervision of a faculty member. From 2 to 3 credits per semester, depending on the nature of the student's work. May be taken for 1, 2, or 3 semesters for a maximum of 6 credits. To apply, students must (1) present a research plan prepared in conjunction with a faculty member; (2) have this plan approved by the undergraduate adviser and the department chair; and (3) obtain approval prior to preregistration.

**Interdepartmental Fields**

Students who want to do work in anthropology as part of an interdepartmental field, such as Africana and Puerto Rican/Latino studies, Latin American and Caribbean studies, religion, urban affairs and planning, or women and gender studies, should refer to descriptions under the department or field of their interest.
The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Anthropology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Please note ANTHP 101, ANTHC 151 and ANTCH 126 are required for the major and will also satisfy the CUNY Common Core (CCC), however, no more than two courses from any one department will count for the CCC so an additional course will be needed.

Minor in Anthropological Archaeology

The Anthropological Archaeology Minor introduces students to the study of past human societies and cultural diversity from an anthropological perspective.

The minor consists of a minimum of 12 credits from the courses listed below, or other courses with the approval of the departmental undergraduate advisor.

Only one non-AN-C course from the following list may count towards the minor. In order to graduate with an Anthropological Archaeology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Courses for the Minor

ANTHC 12600 - Introduction to Prehistoric Archaeology

ANTHC 12700 - Methods In Archaeological Science

ANTHC 22600 - Archaeology of Africa

In order to graduate with an Anthropological Archaeology Minor, students must earn a C grade or better in all the courses counted towards the minor.
ANTHC 23200 - Archaeology of South America and the Caribbean
GER 3/B
Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.
prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.

ANTHC 32000 - Problems in Anthropology
GER 3/B
Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.
prereq: perm instr.
3 hrs 3 cr.
offered every sem.

ANTHC 32600 - Rise of Old and New World Civilizations
GER 3/B
Theoretical and empirical examination of development of urbanism and state, in the Old and New Worlds.
prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.

ANTHC 32700 - Prehistoric Cultural Ecology
GER 3/B
Survey of selected problems in human evolution and adaptation from an ecological perspective.
prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.

ANTHC 34600 - Analytic Methods in Archaeology
GER 3/B
Theory and methods of analysis of materials recovered from archaeological excavations and surveys.
prereq: ANTHC 12600 or perm instr.
ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity

Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.

The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

- ANTHC 42659 Archaeology of North America meets PD/B
- ANTHC 42660 Archaeology of Colonialism meets PD/D

prereq:

ANTHC 12600 or perm instr.

3 hrs

3 cr.

Non ANTHC Courses:

ANTHP 10100 (STEM) - Human Evolution

Hunter Core

Life and Physical Sciences (LPS) Scientific World (SW)

GER 2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)

4 cr.

offered every sem.

CLARC 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)

Hunter Core

World Culture and Global Issues (WCGI)

GER 2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.

prereq:

ENGL 12000

3 hrs

3 cr.

GEOG 10100 - People and Their Environment

Hunter Core

Individual and Society - Social Science

GER 2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences.

Courses the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the
Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

Minor in Anthropology

The Anthropology Minor provides students an overview of the discipline through survey courses in each of the four primary subfields of anthropology. It is designed to help students appreciate the significance of, and relations between, language, biology, and culture, for human beings past and present.

The minor consists of four courses for a total of 13 credits. In order to graduate with an Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

The minor includes the following three required courses:

- ANTHC 10100 - Introduction to Cultural Anthropology
- ANTHC 12600 - Introduction to Prehistoric Archaeology
- ANTHC 24700 - Biological Anthropology

Each course is worth 3 credits and is offered every semester.
ANTHC 15100 - Introduction to Linguistics
Hunter Core
World Cultures and Global Issues (WCGI)
GER 2/B
Structure and analysis of human languages; language history; language in society, culture and mind; language universals.
3 hrs
3 cr.

Plus one additional course selected from the following two options:

ANTHP 10100 (STEM) - Human Evolution
Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER 2/E
The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

ANTHP 10200 (STEM) - Human Variation
Hunter Core
Scientific World (SW) STEM; Life and Physical Sciences (LPS)
GER 2/E
Description and analysis of biological variation in living human populations. Both genetic and phenotypic variation will be examined. Lab experiments and demonstrations.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

Minor in Cultural Anthropology
The Cultural Anthropology Minor introduces students to the study of contemporary human cultures through a focus on cross-cultural similarities and differences in such areas as kinship, politics, economics, religion, sexuality, gender, and artistic production. The minor consists of a minimum of 12 credits from the courses listed below, as well as others that may be approved by the departmental undergraduate advisor. In order to graduate with a
Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

3 hrs
3 cr.
offered every sem.

ANTHC 20100 - The Middle East: Societies and Cultures

Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.

3 hrs
3 cr.

ANTHC 21400 - The Caribbean: Societies and Cultures

Indigenous peoples, colonization and slavery; minorities, race relations; family life, religion and economy.

3 hrs
3 cr.

ANTHC 21500 - The Anthropology of Black America (W)

Examines anthropological knowledge about Black America and the various socio-political contexts in which this body of scholarship has been produced. Focuses on the politics of knowledge production on Black culture.

prereq: ENGL 12000

3 hrs
3 cr.

ANTHC 27500 - Reading Ethnographies (W)

Examines the most significant mode of writing within cultural anthropology: the ethnography. Students explore interpretive, theoretical and political issues in the representation of cultures through close reading and analysis of ethnographic texts.
ANTHC 10100 or perm instr.

ENGL 12000

3 hrs 3 cr.

ANTHC 30100 - Gender in Anthropological Perspective

Pluralism and Diversity

PD/C GER

3/B

Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.

cross-listed WGSC 30100

ANTHC 10100 or perm instr.

3 hrs 3 cr.

ANTHC 30700 - Anthropology of Religion

Pluralism and Diversity

PD/A GER

3/B

Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.

3 hrs 3 cr.

ANTHC 30900 - Countryside and City: Comparative Perspectives

Rural-urban connections and the transformations that affect rural areas and peoples in diverse parts of the world.

ANTHC 10100 or perm instr.

3 hrs 3 cr.

ANTHC 31000 - Politics and Power in Anthropological Perspective

Pluralism and Diversity

PD/A GER

3/B

Leadership, conflict, inequality, decision-making and law in different societies; interaction of local politics with state and global institutions.

ANTHC 10100 or perm instr.

3 hrs 3 cr.

ANTHC 31100 - Anthropology of Art
Pluralism and Diversity

GER 3/B

Symbolic forms of human behavior; paleolithic cave art, tribal art, ethnomusicology.

3 hrs
3 cr.

ANTHC 31200 - Anthropological Approaches to Sexuality

Pluralism and Diversity

PD/C

GER

3/B

Documents the social construction of human sexuality through an examination of sexual variation cross-culturally and over recent history, including the development of sexually defined communities and identities within contemporary societies.

prereq: ANTHC 10100

3 hrs
3 cr.

ANTHC 31500 - Applied Anthropology

GER

3/B

Practical applications of theory and methods to contemporary social problems; community development; intercultural relations.

prereq: ANTHC 10100 or perm instr.

3 hrs
3 cr.

ANTHC 31800 - History of Anthropological Theory

GER

3/B

Changing approaches to the study of society and culture. Political and historical context of the development of theory, the link between theory and method and the impact of theory on policy.

prereq: ANTHC 10100 or perm instr.

3 hrs
3 cr.

ANTHC 32000 - Problems in Anthropology

GER

3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.

prereq: perm instr.

3 hrs
3 cr.

offered every sem.
Pluralism and Diversity

Examines variations in household structure and family relations across cultures and over time, focusing on the relationship between domestic arrangements and other aspects of society.

Prereq or coreq: ANTHC 10100

3 hrs

3 cr.

ANTHC 32500 - Special Projects and Independent Research in Anthropology

Prereq: perm instr.

3 hrs

3 cr.

ANTHC 40100 - Seminars in Selected Topics

Topics TBA.

ANTHC 40000 - Honors Projects

Prereq: perm chair

Offered every sem.

ANTHC 35100 - Language in Culture and Society

Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.

3 hrs

3 cr.

ANTHC 15100 - Introduction to Linguistics

Minor in Linguistic Anthropology

The Linguistic Anthropology Minor introduces students to the comparative and interdisciplinary study of language as a cultural resource and speaking as a cultural practice. In its study of the ways in which language and culture are interrelated, linguistic anthropology often draws from linguistics, sociology, psychology, philosophy, communication studies, as well as education, semiotics, and ethnic and literary studies.

The Minor consists of a minimum of 12 credits from any of the following courses, or other courses with approval of the departmental undergraduate advisor. In order to graduate with a Linguistic Anthropology Minor, students must earn a C grade or better in all the courses counted toward the minor. Choose from courses below:

- ANTHC 15100 - Introduction to Linguistics
Hunter Core

World Cultures and Global Issues (WCGI)

GER

2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language universals.

3 hrs

3 cr.

ANTHC 32000

Problems in Anthropology

GER

3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.

prereq: perm instr.

3 hrs

3 cr.

offered every sem.

ANTHC 35100

Language in Culture and Society

GER

3/B

Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.

3 hrs

3 cr.

ANTHC 35400

Grammatical Analysis and Theory

GER

3/B

Methods of syntax and morphology in work with diverse languages; syntactic theories and their development relative to universals, semantics, pragmatics, discourse.

prereq: ANTHC 15100 or equiv.

3 hrs

3 cr.

ANTHC 40100

Seminars in Selected Topics

Topics TBA.

Minor in Middle East Studies

The Minor in Middle East Studies seeks to develop students' understanding of the complex and interconnected political, economic, cultural, environmental, linguistic, historical, and religious issues in the region by fostering critical, interdisciplinary and global approaches to the study of the Middle East and its diasporas. To this end, the Minor in Middle East Studies (MMES) requires completion of a minimum of 12 credits (4 courses). In addition,
Students who have completed at least 3 credits of relevant coursework in Middle East Studies (including regional languages) with an average GPA of 3.0 may apply for admission to the Minor. To declare the Minor, students will complete the Minor Declaration form and meet with the Director. For advising purposes students are encouraged to apply early in their academic careers. Any Middle East Studies related courses taken prior to declaring the Minor shall count toward the 12 credit minimum for the Minor in Middle East Studies. Credits earned toward the Minor in Middle East Studies shall not also count toward the fulfillment of Major or other Minor requirements.

Introductory survey course: 3 cr
All students will take one survey course in Middle East Studies chosen from among the following, or another general survey course subject to approval by the Director:

- **ANTHC 20100** - The Middle East: Societies and Cultures
  - Pluralism and Diversity
  - PD/A
  - Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.
  - 3 hrs
  - 3 cr.

- **HIST 27650** - Middle Eastern History from the Beginning of Islam to 1800 (W)
  - Pluralism and Diversity
  - PD/A
  - Religious, cultural and social changes in the region. The emergence of the religion of Islam, the expansion of the Islamic realm and the rise and fall of subsequent Islamic states up to the 18th century.
  - Courses at the 300- level and above not offered to freshmen.
  - 3 hrs
  - 3 cr.

- **HIST 27651** - The Modern Middle East from 1800 to the Present (W)
  - Pluralism and Diversity
  - PD/A
  - The transformation of states and peoples in the last two centuries in the region stretching from Turkey to Iran and including Iraq, Syria, Egypt and Arabia. Modern social and cultural trends, conflicts and reactions under the impact of imperialism, nationalism, economic trends and religious forces.
  - Courses at the 300- level and above not offered to freshmen.
  - 3 hrs
  - 3 cr.

- **MUSHL 24300** - Music of the Middle East
  - Music and its relationship to tradition, modernity, gender, and politics in the major regions and ethnic groups of the Middle East and North Africa.
  - prereq or coreq: MUSHL 10100, or MUSHL 10700, or MUSHL 20500, or MUST 10100, or permission of the instructor
  - 3 hrs
  - 3 cr

- **POLSC 26300** - Government and Politics in the Middle East (W)
  - Pluralism and Diversity
  - PD/A
  - GER
  - 3/B
Introduction to Islamic societies and their politics with particular attention to cultures of region.

prereq: ENGL 12000 or its equivalent

3 hrs 3 cr.

Additional courses may be developed to fulfill this requirement

Electives: 9 cr

In addition, students will take a minimum of 9 credits in electives, and must choose at least one class focusing on the Middle East from each of the following three areas of concentration:

I) Historical Formations
II) Society and Politics
III) Arts, Literatures, and Cultures

Students may petition for other courses to fulfill the elective requirement. See list below for currently offered courses that meet these requirements:

- List of Selected Approved Courses for the Minor in Middle East Studies

Students may fulfill 3 of the 9 credit hour elective requirement with advanced language and literature classes (3rd year and beyond), for Area of Concentration III) Arts, Literatures and Cultures. With the approval of the Director, students may take an independent study and one course from outside Hunter College to satisfy the requirements for the Minor.

Minor in Physical Anthropology

The Physical Anthropology Minor introduces students to the study of human evolution, including human variation, paleontology, genetics, and primatology.

The Minor consists of a minimum of 12 credits. These must include ANTHP 101 Human Evolution (4 cr).

The remaining credits can be filled by any AN courses. Also, one (and only one) non-ANTHP course from the following list may count towards the minor. In order to graduate with a

College to satisfy the requirements for the Minor.
Description and analysis of biological variation in living human populations. Both genetic and phenotypic variation will be examined. Lab experiments and demonstrations.

6 hrs (3 hrs lec, 3 hrs lab)

4 cr.

offered every sem.

ANTHP 30100 - Human Fossil Record

Pluralism and Diversity

PD/C

GER

3/B

The hominid fossil record of Africa, Asia and Europe. Human evolution as evidenced in fossil record.

prereq: ANTHP 10100, 10200, or equiv.

3 hrs

3 cr.

ANTHP 30200 - Human Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

prereq: ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500

3 hrs

3 cr.

ANTHP 31000 - Primate Ecology and Behavior

GER

3/B

Examination of ecological factors responsible for the distribution and behavior of living primate species.

prereq: ANTHP 10100 or 10200 or BIOL 10000 or 10200

3 hrs

3 cr.

ANTHP 31100 - Primate Evolution

GER

3/B

65 million years of evolution covering the appearance and radiation of our own mammalian Order. A detailed look at the primate fossil record and the evolution of primate anatomy, behavior, and ecology.

prereq: ANTHP 10100 or perm instr.

3 hrs

3 cr.

ANTHP 31200 - Primate Evolutionary Genetics

Examines evolutionary relationships, social behavior, natural selection, disease, population history, demography, medicine and genomics. This course draws on readings from the primary literature.
ANTHP 31600 - Human Evolutionary Adaptations

How does the human body work, and how did it get that way? This course investigates the workings and evolution of all aspects of human biology. Human physiology is considered in an evolutionary framework.

ANTHP 40100 - Seminars in Selected Topics

Course provides in-depth study of specific topics in field of physical anthropology.

Non ANTHP Courses:

ANTHC 12600 - Introduction to Prehistoric Archaeology

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

BIOL 10000 (STEM) - Principles of Biology I

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.
Anatomy and Physiology I

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.

Not accepted for credit toward the biology major.

prereq: CHEM 10000, 10100

coreq: CHEM 12000, 12100

7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)

7 hrs (3 lec, 3 lab)

Offered fall and spring.

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

Evolution and Behavior

Aggression, sleep, learning, communication, emotion, motivation and social behavior in human and other species; underlying mechanisms, development, evolutionary history.

prereq: PSYC 10000

3 hrs

List of Selected Approved Courses for the Minor in Middle East Studies (subject to Modification)

Area I: Historical Formations

Anthropology

ANTHC 22800 - Archaeology of the Near East to 2000 BC
Sociocultural development of Near East from early hunter-gatherers to first states and empires.

SOC 36200 - Sociology of Islam (W)
GER
3/B
Introduction to Islam as religion and culture with emphasis on how misconceptions have permeated our understanding of Islam. Analysis from a historical perspective which serves as a framework for comprehending Islam's dogma, rituals, and legal system.
prereq: SOC 10100
3 hrs
3 cr.

Area III: Arts, Literatures and Cultures
This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the online class schedule.

**Prerequisites:**
- ENGL 12000 or equivalent

**Credits:** 3 hrs. 3 cr.

**ARB 25000**

### The Arab Novel (in translation) (W)

**Hunter Core**
- Creative Expression (CE)
- Pluralism and Diversity
- PD/A
- GER 2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

**Prerequisites:**
- ENG 22000 or equivalent

**Credits:** 3 hrs. 3 cr.

**ARB 25100**

### Arab Cinema (in translation)

**Hunter Core**
- Creative Expression (CE)
- Pluralism and Diversity
- PD/A
- GER 2/D

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

**Prerequisites:**
- ENGL 12000 or equivalent

**Credits:** 3 hrs. 3 credits

**ARB 25200**

### Literatures from the Islamic World (W)

**Hunter Core**
- World Cultures and Global Issues (WCGI)
- Pluralism and Diversity
- PD/A
- GER 2/C

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

**Prerequisites:**
- ENGL 12000 or equivalent

**Credits:** 3 hrs. 3 credits
A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.  
prereq: ENGL 12000 or equivalent  
3 hrs  
3 credits

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.  
prereq or coreq: ENGL 12000 or equivalent  
3 hours  
3 credits

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line;  
3 hrs  
3 cr.

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester’s offerings can be found on the online class schedule.  
prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.  
3 hours  
3 credits

ARTH 20500 - Egyptian Art
Pluralism and Diversity

PD/A

GER

3/A

Geographical, historical and social conditions of the Nile. Influence of Egyptian art.

prereq:

ARTH 11100

prereq or coreq:

ENGL 12000 is a prerequisi
t
tete or corequisite for all ARTH courses numbered 20500 - 20700.

3 hrs

3 cr.

ARTH 26000

Islamic Art and Architecture

Introduction to the art and architecture of Islamic lands (7th to 19th century).

prereq:

ARTH 11100

3 h

rs

3 cr.

Hebrew (partial listing)

HEBR 21000

Selected Studies in Hebrew Literature in Translation

Pluralism and Diversity

PD/C (HEBR 21060 only)

Study of selected masterpieces or major themes in Hebrew literature in translation. May be repeated as topics vary from semester to semester. Some topics may meet a PD requirement; check with depa

rtment.

3 hrs

3 cr.

HEBR 22000

Israeli Cinema

Israeli cinema and the development of Israel cultural identity. Designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. This course will explore discourses on topics concerning the Israeli-Palestinian and Israeli-Arab conflicts, Zionist and post-Zionist trends, socio-economic gaps, religious controversies and aesthetic societal contexts, as well as women’s issues. The course will employ a variety of disciplines, including but not limited to formalist and semiotic film theories and literary analysis. The student will gain fundamental insight into Israeli culture. No knowledge of Hebrew is required but can be helpful. Students who wish to do the reading and discussion in the Hebrew language may have that option. Course will be conducted in English.

prereq:

ENGL 12000

3 hrs

3 cr.

HEBR 22100

Modern Israeli Culture
World Culture and Global Issues (WCGI)

A survey of contemporary Israeli culture, exploring topics relating to language, literature, history, rituals, politics, music and education.

prereq: ENGL 12000

3 hours

3 credits

Modern Hebrew Literature I

Pluralism and Diversity

PD/D

GER

3/A

Reading and discussion of selected works in prose and poetry of 19th-century authors.

prereq: HEBR 20200 or equiv. or exemption

3 hrs

3 cr.

Modern Hebrew Literature II

GER

3/A

Reading and discussion of selected works in prose and poetry of 20th-century authors.

prereq: HEBR 20200 or equiv.

3 hrs

3 cr.

Biblical Literature: Pentateuch

Pluralism and Diversity

PD/A

GER

3/A

Selections from Pentateuch.

prereq: HEBR 20200 or equiv.

3 hrs

3 cr.

The Modern Hebrew Short Story

GER

3/A

Extensive reading of short stories from late 19th century to present, illustrating different literary trends.

prereq: HEBR 20200 or equiv.

3 hrs

3 cr.
HEBR 32200 - Medieval Literature
Pluralism and Diversity
PD/D
GER
3/A
Selections from literature of Golden Age in Spain.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32300 - Poetry of the Modern Hebrew Renaissance Period
Pluralism and Diversity
PD/D
GER
3/A
Study of major works of Bialik, Tschernichovsky, Kahan and Shneour.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32400 - The Modern Hebrew Essay
Pluralism and Diversity
PD/D
GER
3/A
Study of selected essays of Ahad ha'Am, Berditchevsky and Frischman.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32500 - History of Modern Hebrew Literature
GER
3/A
Evolution of Hebrew literature from period of Enlightenment to contemporary Hebrew letters.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32700 - The Modern Hebrew Novel
GER
3/A
Intensive study of a major novel by Agnon, Barash or Hazaz, with collateral readings in other Hebrew novels.

prereq: HEBR 20200 or equiv.

3 hrs

3 cr

HEBR 32800 - Contemporary Hebrew Prose

GER

prereq: HEBR 20200 or equiv.

3 hrs

3 cr

Music

MUSHL 24300 - Music of the Middle East

Music and its relationship to tradition, modernity, gender, and politics in the major regions and ethnic groups of the Middle East and North Africa.

prereq or coreq: MUSHL 10100, or MUSHL 10700, or MUSHL 20500, or MUST 10100, or permission of the instructor

3 hrs

3 cr

Other Courses

Students may petition for other courses to fulfill the elective requirement. No more than two classes from other campuses or universities may be used to fulfill MMES requirements.

ANTHC 12600 - Introduction to Prehistoric Archaeology

Hunter Core

World Culture and Global Issues (WCGI)

GER

2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

3 hrs

3 cr.

offered every sem.

ANTHC 12700 - Methods In Archaeological Science

Hunter Core

SW

Introduction to theory and method of scientific research in archaeology.

prereq: ANTHC 12600 or perm instr.

3 hrs

3 cr.
ANTHC 22600 - Archaeology of Africa
Pluralism and Diversity
PD/A
GER
3/B
Prehistory; origins, adaptations, cultural evolution of early hominids; origins of agriculture, early complex societies.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 22700 - Archaeology of Europe
Pluralism and Diversity
PD/D
GER
3/B
Prehistory; early hunting and gathering adaptations, beginnings of sedentary village life, development of complex societies.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 22800 - Archaeology of the Near East to 2000 BC
Pluralism and Diversity
PD/A
GER
3/B
Sociocultural development of Near East from early hunter-gatherers to first states and empires.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 23000 - Prehistory of North American Indians
GER
3/B
Examination of adaptation and change in prehistoric cultural systems, employing archaeological and ethnohistorical sources.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 23100 - Archaeology of Mesoamerica
GER
3/B
Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires. 

**prereq:** ANTHC 12600 or perm instr.

**3 hrs**

**3 cr.**

ANTHC 23200 - Archaeology of South America and the Caribbean

GER 3/B

Theoretical and empirical examination of development of urbanism and state, in the Old and New Worlds. 

**prereq:** ANTHC 12600 or perm instr.

**3 hrs**

**3 cr.**

ANTHC 32600 - Rise of Old and New World Civilizations

GER 3/B

Survey of selected problems in human evolution and adaptation from an ecological perspective. 

**prereq:** ANTHC 12600 or perm instr.

**3 hrs**

**3 cr.**

ANTHC 32700 - Prehistoric Cultural Ecology

GER 3/B

ANTHC 34600 - Analytic Methods in Archaeology

GER 3/B

Theory and methods of analysis of materials recovered from archaeological excavations and surveys. 

**prereq:** ANTHC 12600 or perm instr. 

**5 hrs (3 hrs lec, 2 lab)**

**4 cr.**

ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity

See note below

Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.
The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

ANTHC 42659 Archaeology of North America meets PD/B

ANTHC 42660 Archaeology of Colonialism meets PD/D

prereq:

ANTHC 12600 or perm instr.

3 hrs
3 cr.

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER 2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

ANTHP 10200 (STEM) - Human Variation

Hunter Core
Scientific World (SW) STEM; Life and Physical Sciences (LPS)
GER 2/E

Description and analysis of biological variation in living human populations. Both genetic and phenotypic variation will be examined. Lab experiments and demonstrations.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

ANTHP 10500 - The Human Species

Hunter Core
Life and Physical Sciences (LPS)
GER 2/E

In this course we examine human biology and behavior from an evolutionary perspective, comparing our anatomy, physiology, and behavior to those of living primates and other mammals. We will discuss the relative roles of genes (“nature”) and environment (“nurture”), the biological basis of behavior, local biological adaptations evident in modern human populations, growth and development, and diet and disease. Students will actively engage in the development of scientific hypotheses, data collection, and data synthesis analysis, as part of laboratory research experiences throughout the semester. Material covered will help prepare students to understand and evaluate recent advances in genetics, behavioral studies, medicine, and evolution.

3 hrs
3 cr.

ANTHP 21000 - Biology of the Living Primates

This survey-based course will examine the diversity of the Order: Primates. The course will focus on the habitats, life history, ecology, behavior, and conservation of the living primates from an evolutionary perspective.

3 hrs
3 cr.

ANTHP 21400 - Theory of Evolution

local biological adaptations evident in modern human populations, growth and development, and diet and disease. Students will actively engage
and discuss the evolution of the human skeleton with comparisons to great ape and fossil material. Typically, there will be two class periods per second half will be a lab. Worksheets/Study Guides will be provided and are expected to be completed by the end of the lab. In order to become skilled in bone identification and do well in the course, additional study time with the bones will most likely be necessary. We will set up a system to encourage and facilitate study time outside of class.

Second class meeting on a given topic will provide a laboratory setting where students can handle and work with real osteological specimens and/or anatomical models. A given lecture will provide a synthesis of a particular anatomical region and the hands-on details of regional anatomy will then be learned in the associated laboratory session. To gain the most from each lecture and laboratory session, you must do the assigned readings and relevant exercises in the lab workbook beforehand. The laboratory workbook is a required acquisition. Any anatomy textbook will provide you with the necessary reading for lectures, and the purchase of an anatomy atlas is highly recommended as well. In order to do well in the course, additional study time with the anatomical models may be necessary. We will set up a system to encourage and facilitate study time outside of class.
ANTHP 31000 - Primate Ecology and Behavior
Examination of ecological factors responsible for the distribution and behavior of living primate species. Prereq: ANTHP 10100 or 10200 or BIOL 10000 or 10200. 3 hrs 3 cr.

ANTHP 31100 - Primate Evolution
65 million years of evolution covering the appearance and radiation of our own mammalian Order. A detailed look at the primate fossil record and the evolution of primate anatomy, behavior, and ecology. Prereq: ANTHP 10100 or perm instr. 3 hrs 3 cr.

ANTHP 31200 - Primate Evolutionary Genetics
Examines evolutionary relationships, social behavior, natural selection, disease, population history, demography, medicine and genomics. This course draws on readings from the primary literature. Prereq: ANTHP 10100 OR ANTHP 10200 OR BIOL 10200 OR ANTHP 10500. 3 hrs 3 cr.

ANTHP 31600 - Human Evolutionary Adaptations
How do the human body work, and how did it get that way? This course investigates the workings and evolution of all aspects of human biology. Human physiology is considered in an evolutionary framework. Prereq: ANTHP 10100 or ANTHP 10500. 3 hrs 3 cr.

ANTHP 31800 - Primate Nutritional Ecology
This course will examine how primates meet their nutritional needs through interactions with their environments. From an evolutionary perspective, the course will address primate feeding and digestion, foraging theory and dietary methods. Prereq: ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or BIOL 10200 (Principles of Biology 2) or ANTHP 105 (The Human Species) or ANTHP 21000 (Biology of the Living Primates). 3 hrs 3 cr.

ANTHP 40100 - Seminars in Selected Topics
Course provides in-depth study of specific topics in field of physical anthropology. Prereq: prereq; depends on topic.
ANTHC 10000 - Cultural Diversity in the United States: Historical and Ethnographic Perspectives (W)

Hunter Cor

Introduction to the critical and comparative study of cultural diversity in the United States.

prereq: ENGL 12000

ANTHC 10100 - Introduction to Cultural Anthropology

Individual and Society (Social Sciences) - I&S SS

Pluralism and Diversity

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

3 hrs

3 cr.

offered every sem.

ANTHC 20000 - Africa: Societies and Cultures

Pluralism and Diversity

PD/A

GER

Pre-colonial, colonial and contemporary communities, subsistence and exchange systems and ecological adaptations.

3 hrs

3 cr.

ANTHC 20100 - The Middle East: Societies and Cultures

Pluralism and Diversity

PD/A

GER

Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.

3 hrs

3 cr.

ANTHC 20400 - East Asia: Societies and Cultures
Historical and regional variation in various East Asian societies, with a focus on political economy, family, kinship, community and national minorities.

Global Health research examines how interactions between cultural, biological, and political factors affect the health and well-being of individuals and populations, and how biomedical science can be most effective in contexts of poverty, war, or epidemic disease. Topics covered in this class include environmental justice, consequences of war and displacement, and the global health response to emerging epidemics and climate change.

Cross-cultural study of schooling and non-formal education viewed through the lens of cultural anthropology. The course examines teaching and learning with an emphasis on the cultural components of what children are taught, and how they learn. Emphasis is placed on applications of anthropology to theory, policy, and practice in education.

Indigenous peoples, colonization and slavery; minorities, race relations; family life, religion and economy.
Examines anthropological knowledge about Black America and the various socio-political contexts in which this body of scholarship has been produced. Focuses on the politics of knowledge production on Black culture.

Prereq: ENGL 12000

3 hrs 3 cr.

ANTHC 21800 - The Anthropology of the Civil Rights Movement in the U.S.

Pluralism and Diversity
PD/B
GER
3/B

This course examines the grassroots struggle to gain equality and justice in the United States, viewed as a social protest movement, from the perspective of cultural anthropology. The course will focus on the major events, themes and issues of the Civil Rights Movement and examine their effect in challenging the American concept of democracy; in changing those who participated in it; and in spawning other social movements that transformed American society and culture.

Prereq: ANTHC 10100 or departmental permission

Prereq or coreq: ENGL 120

3 hrs. 3 cr.

ANTHC 22500 - Ethnicity and Nationalism

Ethnic and national categories are among the primary ways contemporary humans identify themselves and others, often with violent consequences. This course challenges explanations of such identifications (and conflicts) as "natural" and introduces students to the political, economic, symbolic and affective forces driving ethno-national dynamics.

Coreq: ANTHC 10100

3 hrs. 3 cr.

ANTHC 27500 - Reading Ethnographies (W)

GER
3/B

Examines the most significant mode of writing within cultural anthropology: the ethnography. Students explore interpretive, theoretical and political issues in the representation of cultures through close reading and analysis of ethnographic texts.

Prereq: ANTHC 10100 or permission

Prereq or coreq: ENGL 12000

3 hrs. 3 cr.

ANTHC 30100 - Gender in Anthropological Perspective
Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.

ANTHC 30600 - Anthropology of Religion
Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.

ANTHC 30700 - Folklore and Myth
Cultural and psychological functions and symbolic meanings.

ANTHC 30800 - Human Ecology
Relationship between human populations and environment; ecosystems, population interactions, resource management and environmental movements.

ANTHC 30900 - Countryside and City: Comparative Perspectives
Rural-urban connections and the transformations that affect rural areas and peoples in diverse parts of the world.
ANTHC 31000 - Politics and Power in Anthropological Perspective

Pluralism and Diversity

GER 3/B

Leadership, conflict, inequality, decision-making and law in different societies; interaction of local politics with state and global institutions.

prereq: ANTHC 10100 or perm instr.

3 hrs 3 cr.

ANTHC 31100 - Anthropology of Art

Pluralism and Diversity

GER 3/B

Symbolic forms of human behavior; paleolithic cave art, tribal art, ethnomusicology.

3 hrs 3 cr.

ANTHC 31200 - Anthropological Approaches to Sexuality

Pluralism and Diversity

GER 3/B

Documents the social construction of human sexuality through an examination of sexual variation cross-culturally and over recent history, including the development of sexually defined communities and identities within contemporary societies.

prereq: ANTHC 10100

3 hrs 3 cr.

ANTHC 31300 - Race, Culture, Power

This course offers an anthropological approach to the study of racial phenomena, including racism, racialization, the formation of racial categories, identities and subjectivities, and anti-racism. The course presents theories of race and power, and highlights the importance of a cultural analysis and a comparative perspective.

prereq: ENGL 12000

coreq: ANTHC 10100

3 hrs 3 cr.

ANTHC 31400 - Research Design in Anthropology

Pluralism and Diversity

GER 3/B

Introduction to basic principles of research design employed in anthropology.

prereq: ANTHC 10100

3 hrs 3 cr.

ANTHC 31500 - Applied Anthropology
Practical applications of theory and methods to contemporary social problems; community development; intercultural relations.  
prereq: ANTHC 10100 or perm instr.  
3 h 3 cr.

ANTHC 31800  
History of Anthropological Theory
Pluralism and Diversity
PD/D  
GER  
3/B  
Changing approaches to the study of society and culture. Political and historical context of the development of theory, the link between theory and method and the impact of theory on policy.  
prereq: ANTHC 10100 or perm instr.  
3 hrs 3 cr.

ANTHC 32000  
Problems in Anthropology
GER  
3/B  
Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.  
prereq: perm instr.  
3 hrs 3 cr.

offered every sem.

ANTHC 32100  
Women and Globalization
GER  
3/B  
The situation of women from less developed countries with attention to the local and global forces shaping their lives. Topics include migration, the international division of labor and worldwide adoption. Includes both theoretical approaches and practical issues related to improving women's place in society.  
cross-listed WGSL 32100  
prereq: ANTHC 10100 or perm instr.  
3 hrs 3 cr.

ANTHC 32200  
Family and Household in Anthropology and History
Pluralism and Diversity  
PD/C  
GER  
3/B  
Examines variations in household structure and family relations across cultures and over time, focusing on the relationship between domestic arrangements and other aspects of society.  
prereq or coreq: ANTHC 10100
ANTHC 32500 - Special Projects and Independent Research in Anthropology

GER 3/B

prereq: perm instr.

3 hrs

3 cr.

offered every sem.

ANTHC 32900 - Politics of Memory

How do groups and societies remember the past, and how and why do monuments and sites of historical memory become part of political processes and cultural struggles in the present? This class explores the role of cultural memory in diverse societies, examining how historical knowledge and other forms of relationship to the past are used to ask and answer questions about power and justice. Examples will include ethnographic accounts of people's shared reflections on their pasts and the traces of the past in the landscape and even in people's bodies.

prereq: ENGL 12000

3 hrs.

3 cr.

ANTHC 33000 - Food and Culture

Food and culture are examined in all their relations, from production to consumption, including how societies vary in their tastes and practices of distinction, how food is used to convey symbolic meanings and display power, and how global societies can meet challenges of scarcity, sustainability, and ethical management across the food system.

prereq: ENGL 12000

3 hrs.

3 cr.

ANTHC 33100 - Grassroots Movements and Social Change

Mass mobilizations—progressive and regressive—have been significant engines of historical transformation. This course examines social scientific theories about social movements and collective action, and case studies of racial, gender and environmental justice, transnational and local, indigenous peoples, and countercultural movements.

coreq: ENGL 12000 and ANTHC 10100

3 hrs.

3 cr.

ANTHC 33200 - East Asia: Societies and Cultures

GER 3/B

Historical and regional variation in various East Asian societies with a focus on political economy, kinship, community and national minorities.

prereq: ANTHC 10100 or perm instr.

3 hrs

3 cr.

ANTHC 33200 - Medical Anthropology
This course provides an advanced introduction to Medical Anthropology, a vast subfield of Anthropology with many applications in the health sciences and industries. The focus is on how social groups variously experience, act upon and make meaning of health, wellbeing, illness, disease, and healing. The course emphasizes the complexities of health and illness in the context of cultural beliefs and practices, as well as in relation to broader, macro-level processes on both local and global scales.

prereq: ENGL 12000

coreq: ANTHC 10100

3 hrs. 3 cr.

ANTHC 33400 - Latin America: Societies and Cultures
GER 3/B
Changing views of US and Latin American anthropologists on ethnic, class and gender relations, underdevelopment, migration and social movements.

prereq: ANTHC 10100 or perm instr.

3 hrs 3 cr.

ANTHC 34500 - Anthropology of Science
This course examines how scientific knowledge is made in laboratories and other venues of scientific practice, while helping students develop critical evaluations of the power and authority of science and understand its role in current social problems. Students will examine scientific practices and notions of objectivity; make comparisons with indigenous, non-Western, and lay knowledge systems; and explore ethical and legal aspects of scientific innovation.

prereq: ENGL 12000
coreq: ANTHC 10100 OR ANTHP 10100

3 hrs. 3 cr.

ANTHC 35000 - Popular Culture: Anthropological Perspectives
GER 3/B
The comparative ethnographic and theoretical study of popular and expressive culture traditions from around the world.

prereq: ANTHC 10100, ENGL 12000, or perm instr.

3 hrs 3 cr.

ANTHC 35500 - Law, Justice, Reconciliation
An examination of how people pursue justice and reconciliation between perpetrators and victims after major wars, political violence, or colonialism, with particular attention to the uses of law in these processes, and the wider problems of attaining redress for deep historical wrongs like racism, genocide, and slavery.

prereq: ENGL 12000

3 hrs 3 cr.

ANTHC 40000 - Honors Projects
prereq: perm chair
offered every sem.

ANTHC 40100 - Seminars in Selected Topics
Topics TBA.
ANTHC 40196 - International Migration
3 hrs
3 cr.

ANTHC 15100 - Introduction to Linguistics
Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B
Structure and analysis of human languages; language history; language in society, culture and mind; language universals.
3 hrs
3 cr.

ANTHC 26000 - North American Indian Languages and Cultures
GER
3/B
Linguistic analysis and sociocultural background of North American Indian languages.
3 hrs
3 cr.

ANTHC 26300 - Afro-New World Languages and Cultures
GER
3/B
Linguistic analysis, history, sociocultural background of Caribbean creole languages, other Afro-American speech forms.
3 hrs

The Department of Art and Art History offers a wide variety of courses for majors and non-majors. Art History is the study of works of art and architectural monuments in their cultural environment. Students learn to develop their powers of critical visual analysis and how to apply these historically to works of Western and Non-western art. The 30-Credit Art History Major BA is intended for students interested in a liberal arts education in the humanities or students planning to continue their art history studies in a graduate program. A broad range of courses from different fields, rather than specialization in one area, is encouraged.

In Studio Art, two academic degrees are offered: the BA, either 24-credit or 42-credit; and the BFA, 61 credits. The 24-credit BA is recommended for the student interested in a liberal arts education, particularly those interested in double majoring in Art History, or in other majors. The 42-credit BA is an intensive major recommended for the student who prefers a greater concentration in studio art and particularly for the student who plans to do graduate study in art. The BFA gives students the prolonged, intense focus on studio practice, contemporary art and theoretical issues, which is the kind of training typically regarded as an excellent education in the field of fine arts. This competitive program prepares students to compete for entry into MFA programs nationwide.

What can I do with my degree in Art or Art History? Students who major in Art or Art History develop skills that are highly valued by employers. These skills include: critical and creative thinking; oral, written, and visual communication skills; the ability to take multiple approaches to solving problems; adaptability; the ability to work effectively individually and collaboratively; the ability to interpret cultures; organization; research and synthesis. Graduates may find employment in museums and other arts organizations, government, nonprofits, educational institutions, and businesses. The new undergraduate Arts Management and Leadership Certificate program consisting of courses drawn from several departments and housed in the Department of Urban Policy and Planning is intended for students interested in careers in both the visual and the performing arts; it relies on businesses and organizations in New York City for internships, events and exhibitions, and discussions with artists and other arts professionals. The BA in Art History and the 42-credit BA in Studio Art provide excellent preparation for students who plan to complete graduate studies in the field. The BFA prepares students for MFA programs.

Programs and Courses

Honors

Students majoring in Art History who wish to graduate with honors must consult an adviser to make an official application for consideration by the faculty members on the Undergraduate Art History Committee on Honors. Major credits must have been completed with a 3.7 grade point average, and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Students must submit a research paper written for Research Methods of Art History or an Advanced Studies Seminar, with the instructor's comments, edits, and grade, to the department's Undergraduate Art History Committee on Honors. The paper must have received a minimum grade of A-. Papers written for other art history courses may be considered if they conform to the requirements for an Advanced Studies Seminar; consult with an adviser. The committee will review the complete application to determine if the student merits departmental honors.

Students majoring in Studio Art who wish to graduate with honors must consult with an adviser to make an official application. Major credits must have been completed with a 3.5 grade point average, and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Students must submit work from an advanced studio special topics course ARTCR 36000 or independent study project (ARTCR 40200 ).
The Department of Art and Art History offers introductory, intermediate and advanced courses in art history. The major consists of 33 credits. No more than 15 credits transferred from another institution may be applied to the major. The Art History BA is intended for students interested in a liberal arts education in the humanities or students planning to continue their art history studies in a graduate program. A broad range of courses from different fields, rather than specialization in one area, is encouraged. Majors who have completed 3 credits in art history beyond ARTH 11100 are eligible to take the required seminar, Research Methods of Art History ARTH 30000, to be programmed in consultation with an art history adviser. Majors planning graduate study in art history should discuss with an art history adviser the requirements for graduate admission, including graduate language requirements; this should be done during an early semester. Students may declare a double major in Studio Art (24 credits). Note: At least one class numbered ARTH 31100 (W) - ARTH 38100 (W) must be taken in the major (either to fulfill a distribution area or as a major elective).

Hunter Core Requirement

Note: Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019
Changing forms and subjects of art in several periods of Western civilization, including ancient Greece and Rome, Middle Ages in Western Europe, Renaissance, baroque, modern, American; also Islamic and African art.

3 hrs
3 cr.

2. One course in each of four distribution areas 12 cr.

Distribution areas

• Ancient and Medieval (including Egyptian, Greek, Roman)
• Renaissance, Baroque, and 18th century (including Colonial Latin American)
• Modern: 19th, 20th and 21st century (including Modern Latin America)
• Islamic, Asian (including Chinese, Japanese, and Indian), and African

Note: Distributions can be met via 20000, 31100 - 38100 or 41000 - 48000 level courses. If in doubt consult with an advisor.

3. Required Courses 6 cr.
ARTLA 20100 - Art Foundations: Seeing, Thinking, Making
This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000 - level and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.

Material fee: $25.00
4 hrs.
3 cr.

ARTH 30000 - Research Methods of Art History Seminar (W)
GER
3/A

Training in fundamental methods of learning and writing about work of art through visual analysis and arthistorical research, focusing on a particular area in art history, and culminating in a substantial academic research paper. This course is for Art History majors and minors and Studio Art majors only.

prereq: ARTH 11100 and one 200 - level art history course. Open only to Art History majors and minors and Studio Art majors.

3 hrs
3 cr.

4. At least one Advanced Studies Seminar (41000 - 48000 level) 3 cr.
(Prerequisite: ARTH 30000 Research Methods)

3 cr.

5. Three additional courses 9 cr.

Students must take 3 additional courses, from any of the department offerings in art history at the 20000, 30000 or 40000 level

Notes:
At least one class numbered 31100 - 38100 (W) must be taken in the major (either to fulfill a distribution area or as a major elective). Only grades of C and above can be counted toward the Art History major.

Three credits in ARTH 40200 Independent Study in Art History or ARTH 49800 Internship in service (Internship) may count toward the major and up to 3 additional credits in ARTH 49800 Internship may be approved as elective credit toward the BA degree (but not toward the major).

ARTLA 20100 Art Foundations: Seeing, Thinking, Making, or any studio course taken for the Studio Art 24cr major, cannot count toward both the Studio Art (24cr) major and the Art History major. To replace the ARTLA 20100 requirement, Art History majors double majoring in Studio Art (24cr) must choose a replacement course in consultation with the Art History adviser. The replacement course may be a Studio Course (ARTCR), an Art History course (ARTH), or a cognate in another department, such as Classics, Religion, or History.

Graduate Study
The Department of Art and Art History offers a number of courses, listed in the Graduate Catalog, that may be credited toward the degree of bachelor of arts. Qualified undergraduate art history students in the senior year may be admitted to these courses with the approval of the graduate art history adviser.

Honors
Art History Major students wishing to graduate with honors must consult an adviser to make an official application for consideration by the faculty members on the Undergraduate Art History Committee on Honors. Application forms are in the Art and Art History office, Room 11054 Hunter North. Major credits must have been completed with a 3.7 grade point average, and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Students must submit a research paper written for Research Methods of Art History ARTH 30000 or an Advanced Studies Seminar ARTH 41000 - 4800 with instructor's comments, edits, and grade, to the department's Undergraduate Art History Committee on Honors. The paper must have received a minimum grade of A-. Papers written for other art history courses may be considered if they conform to the requirements for an Advanced Studies Seminar; consult with an adviser. The committee will review the complete application to determine if the student merits departmental honors.

Degree Map for Art History
The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Art History major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation.
Change forms and subjects of art in several periods of Western civilization, including ancient Greece and Rome, Middle Ages in Western Europe, Renaissance, baroque, modern, American; also Islamic and African art.

ENGL 22000 - Introduction to Writing about Literature (W)

This course focuses on analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

ARTLA 20100 - Art Foundations: Seeing, Thinking, Making

This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000-level and advanced studio courses, ARTLA 20100 provides students with a fundamental cross-disciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.

ARTH 30000 - Research Methods of Art History Seminar (W)

This seminar explores the methodologies and approaches to studying art history, focusing on critical issues in the field. Students engage in discussions, debates, and presentations on current research and trends in art historical scholarship.
Training in fundamental methods of learning and writing about work of art through visual analysis and arthistorical research, focusing on a particular area in art history, and culminating in a substantial academic research paper. This course is for Art History majors and minors and Studio Art majors only.

prereq: ARTH 11100 and one 200-level art history course. Open only to Art History majors and minors and Studio Art majors.

Studio Art-BA
Return to Programs and Courses in Art and Art History

Studio Art 24 - Credit Major (BA)

Studio Art 42 - Credit Major (BA)

Electives
All courses, unless otherwise specified, are open to qualified students majoring in other areas.

Honors
Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

ARTCR 36000 - Special Topics
Topics in studio art are announced prior to registration each term. One Special Topics course may be taken to meet concentration requirements in the 42 credit degree.

Material Fee: $50
prereq: ARTLA 20100
3 hrs + 5 hrs open studio
3 cr.

ARTCR 40200 - Independent Study in Studio Art
prereq: ARTLA 20100
1 - 3 hrs
1 - 3 cr. per semester

Graduate Study
The Department of Art offers a number of courses, listed in the Graduate Catalog, that may be credited toward the degree of bachelor of arts. Qualified students in the senior year may be admitted to these courses with the approval of the graduate art history adviser.

Studio Art - BFA
This degree is open to the student who wants to complete work in studio art beyond the 42-credit major and particularly the student who intends to pursue a career as a professional artist and attend graduate school.

Students follow the regular Hunter Core Requirement - Fall 2013 to Spring 2019 for the BA degree. Departmental approval of the 61-credit BFA concentration is required. Students who have successfully completed 90 credits may apply to the BFA program, pending an interview with the BFA adviser. Students are required to maintain a GPA of 3.0 in this program. Required courses are as follows:

Hunter Core Requirement
Courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here:
This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent level and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.

Material fee: $25.00
4 hrs.
3 cr.

ARTLA 20200
Art Foundations: Methods and Techniques

ARTLA 20200 is the second part of the foundation-year course requirement for 42-credit BA and BFA art majors. This class is open to any student who has taken ARTLA 20100 or the equivalent. The class will be taught by one instructor who will introduce the student to the fundamental skills of drawing, sculptural methods, new genres technologies. Museum/gallery visits, and written analysis of exhibitions will be assigned to help build an understanding of how skill and technique are implemented in the conceptual creation of art. This is a baseline course, and will facilitate learning as the student progresses to one of our study areas of Painting, Sculpture, New Genres, Ceramics, Drawing or Printmaking.

prereq: ARTLA 20100
4 (+ 5 hrs independent studio)
3 cr.

Concentration Courses (9 credits)
4 (ARTCR) classes in an area of study can include only one ARTCR 36000
12 credits

Studio Art Courses (12 credits):
4 (ARTCR) studio classes outside the area of study 12 credits

Art History (9 credits)
3 (ARTH) art history courses, one of which must be ARTH 35100 Special Topics Lecture in Modern Art (W)

Capstone Course (3 credits)
ARTLA 40600 2D/3D/4D Capstone Seminar 3 credits

After admission to BFA program:
ARTCR 40500 Art and Current Ideas II 3 credits
ARTCR 45900 Professional Experience in Art I 6.5 credits
ARTCR 46000 Professional Experience in Art II 6.5 credits

An additional art history course (ARTH) taken only at Hunter, must be at least 3.0.

Honors
Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0.
The 24-credit Major (BA) is recommended to the student interested in a liberal arts education, particularly those interested in double majoring in Art History, or in other majors in the college. It consists of eight courses in the major subject, normally one 3-credit course per semester, beginning with ARTLA 20100, followed by an additional 21 credits selected from 20000- and 30000-level ARTCR courses. ARTCR 22100 Drawing is recommended but not required. Repeated and additional courses cannot count towards the BA degree.

The 24-credit major in creative art consists of eight courses:

- **Core Course (3 credits)**
  - ARTLA 20100 Art Foundations: Seeing, Thinking, Making
  - This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000-level and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.
  - Material fee: $25.00
  - 4 hrs. 3 cr.

- **Studio Art Courses (21 credits)**
  - 7 courses selected from ARTCR 20000 and 30000-level ARTCR courses.

- **Honors**
  - Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

---

The 42-credit Major (BA) is an intensive major recommended for the student who prefers a greater concentration in studio art and particularly for the student who plans to do graduate study in art.

**Courses Required for the Major**

- **Two introductory classes:**
  - ARTLA 20100 Art Foundations: Seeing, Thinking, Making
  - ARTLA 20200 Art Foundations: Methods and Techniques

- **Four (ARTCR) classes (12 credits) in one area of study** can include only one ARTCR 36000

- **Four (ARTCR) (12 credits) studio classes outside the area of study**

- **Three (ARTH) (9 credits) of study in art history,** at least one of which must be in contemporary or modern art, i.e.
  - ARTH 24900, ARTH 25000, ARTH 25100, ARTH 24700, ARTH 25700, ARTH 35100, ARTH 45000

- **ARTLA 40600 2D/3D/4D Capstone Seminar**
  - 3 credits, to be taken towards the end of the degree.

**Double Majors**
Students in the 42-credit Studio Art major may not double major in Art History, but they may minor in Art History, by fulfilling the requirements for an Art History minor in addition to the 9 ARTH credits required for the Studio Art 42-credit major.

While the major requires fewer than the 30 credits of ARTCR that can be counted toward the BA degree, whether in the major or as college electives, we encourage students to take the full 30 credits of ARTCR allowed.

Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

Degree Map

Degree Map for Studio Art (42 cr.) BA

Minor in Art History

The Art History minor requires students to take 12 credits in Art History as follows: ARTH 11100 - Introduction to History of Art, followed by 9 credits selected from the other department offerings.

No more than 6 credits transferred from another institution may be applied to the minor.

ARTH 11100 - Introduction to History of Art

Hunter Core

Individual and Society (Humanities) - I&S H

Pluralism and Diversity - PD/D

3 cr.

Western art to World War II.

Prereq: ARTH 11100
3 hrs
3 cr.

Western art from World War II to approximately 1980.

Prereq: ARTH 11100
3 hrs
3 cr.

Significant international artists and art works of the past twenty years, as well as recent developments in art theory and criticism.

Prereq: ARTH 11100
ARTH 25200 - Ancient Architecture

- Major architectural styles with emphasis on Greece and Rome.
- Technical, cultural and aesthetic significance of the monuments.

Prerequisite: ARTH 11100

ARTH 25300 - Medieval Architecture

- Major styles and buildings in West from ancient world through Middle Ages;
- Technical, cultural and aesthetic significance.

Prerequisite: ARTH 11100

ARTH 25400 - Architecture: Renaissance to Neo-Classical

- Architecture in West from Renaissance through the 19th century; baroque, rococo and neoclassical styles.

ARTH 11100 is the prerequisite for all advanced art history courses and may be used toward the General Education requirement (GER: Stage 2, Group D) by all students except those accepted into the 61-credit BFA program. It may not be credited toward art history major requirements.

ARTH 25500 - Modern Architecture I (1850-1950)

- Survey of western architecture from 1850 to 1950, emphasizing the wide range of theoretical, formal, and technological aspects of architectural practice during this period.

Prerequisite: ARTH 11100

ARTH 25600 - Modern Architecture II (from 1950 until today)
Survey of western architecture since 1950, examining the diversification of modern architectural practice, its increasing global reach and regional variations, with an emphasis on emerging architectural theories.

prereq: ARTH 11100
3 hrs.
3 cr.

ARTH 25700 - Postwar and Contemporary Art in Latin America
Art in Latin America from c. 1945 to the present
prereq: Prerequisite: ARTH 11100
3 hrs.
3 cr.

ARTH 26000 - Islamic Art and Architecture
Pluralism and Diversity
PD/A GER
3/A
Introduction to the art and architecture of Islamic lands (7th to 19th century).
prereq: ARTH 11100
3 hrs.
3 cr.

ARTH 26200 - Art of East Asia: Ritual and Religion
GER
3/A
Emphasis on art and archaeology of ancestral worship, funerary spaces, and religions in East Asia.
prereq: ARTH 11100
3 hrs.
3 cr.

ARTH 27000 - Art of Africa and Oceania
Pluralism and Diversity
PD/A GER
Survey of African art; function, subjects, forms and styles of the arts in the cultural contexts.

Prereq: ARTH 11100

3 hrs
3 cr.

ARTH 28000 - History of Photography

GER 3A

An historical survey of photography between 1839 and the present day with a focus on the visual revolution provoked by this new medium of representation and on photography's creative expression.

The course is organized chronologically from the beginnings of photography, in 1839, to our time. It gives full exposure to the main technologies of photography in the nineteenth-century, as they became accessible to a large public and introduced new aesthetics in portraiture, urban landscapes, and the representation of distant geographies. This history continues in the twentieth-century, when photography became more experimental and sought its own artistic autonomy. The course surveys chronologically the key moments at which photography reached the status of art, was used as social document, and fulfilled a wide social need. The dialogue between contemporary art and photography is brought to the present, exploring the strategies by which digital art is challenging the idea of photography as truthful representation of the world.

Qualified undergraduates work for academic credit in professional and community art institutions. Students must also contact and apply at the internship office, where all college-approved internships are listed. The credits earned cannot be used to fulfill the 24-credit major requirement. Three credits may be applied to the 42-credit major. A maximum of six art history Inservice credits may be applied to the degree. ARTH 11100 is the prerequisite for all advanced art history courses and may be used toward the General Education requirement for humanities and the arts (GER: Stage 2, Group D) by all students except those accepted into the 61-credit BFA program. It may not be credited toward art history major requirements.

**ARTCR 22100 - Drawing**
Basic principles in various media and subjects. Eye/hand coordination, perceptual acuity, spatial organization; interpretation of directly observed subjects. Material Fee: $50

**Prerequisite:** ARTLA 20100

**ARTCR 22500 - Printmaking**
Techniques of woodcut, intaglio, lithography, silkscreen and related media. Material Fee: $75

**Prerequisite:** ARTLA 20100

**ARTCR 23500 - Painting**
Basic principles of painting. Studio practice using varied paint media, varied paint surfaces, paper and canvas. Material Fee: $100

**Prerequisite:** ARTLA 20100

**ARTCR 24000 - Watercolor Painting**
Basic principles of watercolor painting. Material Fee: $100

**Prerequisite:** ARTLA 20100

**ARTCR 25100 - Sculpture**
Basic principles of sculpture. Studio practice in varied materials. Material Fee: $70
ARTLA 20100 - 4 hrs 3 cr. + 5 hrs open studio

ARTCR 25700 - Ceramics
Introduction to pottery and ceramic sculpture, including hand forming, throwing on the wheel, glazing and kiln operation. Material Fee: $95

ARTCR 27100 - Principles of Photography
Black and white photography as creative medium; camera and its functions; exposure and film development, contact printing and enlarging. Material Fee: $75

ARTCR 29000 - New Genres
An introduction to New Genres, including video art, sound art, conceptual art, performance, installation and other media based arts. Skills and tools explored in this course include the use of digital technologies, recording equipment, editing methods, workflow and output requirements as well as the ideation of conceptual projects. Material fee: $40.00

ARTCR 32200 - Advanced Drawing
Continued experience in drawing with emphasis on drawing from life. Material Fee: $50

ARTCR 32600 - Advanced Printmaking
Advanced study of one or more printmaking methods. Individual exploration emphasized. May be taken twice for credit. Material Fee: $85

ARTCR 33600 - Advanced Painting
Continued experience in painting with possible concentration upon one medium and theme. Individual exploration emphasized. Material Fee: $100

prereq: ARTLA 20100
ARTCR 35200 - Advanced Sculpture
Continued experience in sculpture with possible concentration in one material. Individual exploration emphasized.
Material Fee: $70
prereq: ARTLA 20100

ARTCR 35700 - Advanced Ceramics
Continued experimentation in form, surface and techniques. Individual exploration emphasized.
Material Fee: $95
prereq: ARTLA 20100

ARTCR 36000 - Special Topics
Topics in studio art are announced prior to registration each term. One Special Topics course may be taken to meet concentration requirements in the 42 credit degree.
Material Fee: $50
prereq: ARTLA 20100

ARTCR 37200 - Advanced Photography
Techniques and aesthetics of black and white photography; self-expression and exploration; classroom critiques.
Material Fee: $75
prereq: ARTLA 20100

ARTCR 38200 - Digital Photography
Digital Photography as a means of personal expression. This course is designed to familiarize students with digital imaging capabilities and a critical awareness of how images in our culture are produced and constructed. The course will introduce and explore the aesthetic, historical, and conceptual layers embedded in digital images and their context, culminating in the student completing a portfolio of work by the end of the course, in which form, subject, and meaning are closely considered. Students will acquire the means to interpret, discuss and critique photographs. This course can be repeated once for credit.
Material fee: $100.00
prereq: ARTLA 20100 or (ARTLA 10100 and ARTCR 22100) and ARTCR 27100

ARTCR 39000 - Advanced New Genres
Continued experience in New Genres methods and tools in order to develop each student's unique process, with possible concentration in one approach and/or method. Individual exploration will be emphasized, as well as a greater mastery of equipment and programs. May be repeated once (i.e., taken twice).
Material fee: $40.00
prereq: ARTLA 20100, ARTCR 29000
4 hrs + 5 hrs open studio
3 cr.

ARTCR 40200 - Independent Study in Studio Art
prereq: ARTLA 20100
1 - 3 hrs
1 - 3 cr. per semester

ARTCR 40500 - Art and Current Ideas II
Lecture and discussion; a non-studio course. Topics of concern in art today as brought forth by current exhibitions. Scheduled trips to galleries and museums. Reading assignments, papers and oral reports focus on issues relative to the exhibitions.
prereq: ARTLA 20100
3 hrs
3 cr.

ARTCR 45900 - Professional Experience in Art I
BFA majors, seniors only. Not credited toward BA degree. Advance projects may include activities outside the college, as well as within the department.
Material Fee: $50
prereq: Admission into the BFA Program
4 hrs
6.5 cr.

ARTCR 46000 - Professional Experience in Art II
Continuation of ARTCR 45900.
Material Fee: $50
prereq: Admission into the BFA Program

ARTLA 20100 - Art Foundations: Seeing, Thinking, Making
This course is the prerequisite for all courses in all concentrations in the studio art major. In preparation for subsequent 20000- and advanced studio courses, ARTLA 20100 provides students with a fundamental crossdisciplinary vocabulary and introduces them to a variety of different media, concepts, and methodologies. In addition to studio assignments, reading and writing on art will be an integral component of the course.
Material fee: $25.00
4 hrs.
3 cr.

ARTLA 20200 - Art Foundations: Methods and Techniques
ARTLA 20200 is the second part of the foundation-year course requirement for 42-credit BA and BFA art majors. This class is open to any student who has taken ARTLA 20100 or the equivalent. The class will be taught by one instructor who will introduce the student to the fundamental skills of drawing, sculptural methods, new genres technologies, Museum/gallery visits, and written analysis of exhibitions will be assigned to help build an understanding of how skill and technique are implemented in the conceptual creation of art. This is a baseline course, and will facilitate learning as the student progresses to one of our study areas of Painting, Sculpture, New Genres, Ceramics, Drawing or Printmaking.
prereq: ARTLA 20100
4 (+ 5 hrs independent studio)
3 cr.
This advanced seminar is intended to offer students a frame of reference for making and thinking about art beyond the specific concerns of any given medium or the specific assignments that structure most undergraduate studio courses. The main purpose of this seminar is to help students develop their creative interests beyond assignment-based instruction to their own, entirely self-defined and motivated creative work. For this purpose, students choose to work in the medium or mediums that best further their ideas.
The program draws its faculty and course offerings from traditional disciplines such as history, sociology, anthropology, political science, education and literature, as well as interdisciplinary fields such as American ethnic studies; women, gender, and sexuality studies; postcolonial studies; international human rights; and policy studies. The AASP grounds its curriculum in the firm belief that a rigorous intersectional approach to Asian American studies necessitates an alliance of these areas and methods of study.

What can I do with my minor in Asian American Studies?

Graduates who minor in Asian American Studies enter careers including business, international trade and industry, teaching and academic research, diplomacy, development agencies and immigration and social service.

Asian American Studies Faculty

Minor in Asian American Studies

The interdisciplinary Asian American Studies Minor provides students with focused competence in the histories and contemporary experiences of diverse Asian diasporic communities, including but not limited to those of North America. As one of only a few Asian American Studies programs in the tri-state area, the AASP offers its Minors a unique opportunity to gain the knowledge and skills necessary to make meaningful contributions to the city and nation's growing APA communities.

A Minor consists of a minimum of 12 credits and can be made up of any courses offered by or cross-listed with the Asian American Studies Program, excluding ASIAN 360.02 (East Asia to 1600) and ASIAN 360.03 (China since 1800). No more than 6 Minor credits may be transferred from another institution. Please note that a number of 300-level courses in Asian American Studies may be used to satisfy requirements in

ASIAN 21000 - Asians in the U.S.

Hunter Core

I&S H Pluralism and Diversity

Critical interdisciplinary examination of Asian American experiences of discrimination and exclusion in the context of domestic and foreign U.S. policies regarding immigration, labor, and national identity. Through an examination of historical, theoretical and cultural texts, the course also looks at the impact of the current expansion of Asian American communities on America's social, cultural, and political order.

Recommended for but not required of AASP Minors.

3 hrs 3 cr.
Critical examination of Asian American women's identity formations in relation to factors such as racial ideology, global migrations of labor and capital, class status, sexuality, military conflict, constructions of family, and language.

3 hrs 3 cr.

Critical examination of a cross-section of literature and film/video/performance by Arab American writers and artists in an interdisciplinary investigation of the historical and contemporary experiences of Arab Americans in the United States and western diaspora.

3 hrs 3 cr.

Close examination of literary, historical, and theoretical texts with a focus on the cultural production and social movements of South Asian women, with particular attention to how issues of race and nationalism are shaped and how they have overlapped with gender, class, sexuality, religion, and language.

3 hrs 3 cr.

Close examination of the historical and social contexts in which Philippine American literature has evolved, the diverse aesthetics and themes of individual writers, and analysis of how issues of Philippine American cultural production take up issues of gender, class, sexuality, religion, language, and national identity.

3 hrs 3 cr.

Critical exploration of the social construction of Asian American identity in various genres: video art, prose, poetry, memoir, performance, and film. The emphasis of the course is on intersectional analyses that critically examine how race, gender, class, and sexuality inform Asian American artists' decisions regarding form and genre.

3 hrs 3 cr.
This course emphasizes close reading of and analytical writing about writing by Asian American writers. ASIAN 221 develops students' critical and interpretive skills necessary for meaningful written and verbal responses to literature in the context of Asian American history and experience.

prereq: ENGL 12000
3 hrs
3 cr.

ASIAN 22500 - Asian American Art (W)
Hunter Core
Creative Expression (CE)
Pluralism and Diversity
P&D B
Introduction to Asian American artistic production through a survey of Asian American art and theory, including critical examinations of Asian American identity formation; transnationalism; constructions of race, gender, sexuality, class; and alternative artistic strategies.

prereq: ENGL 12000
3 hrs
3 cr.

ASIAN 23001 - Globalization and Gender
Pluralism and Diversity
PD/B
3 hrs
3 cr.

ASIAN 23002 - Asian American Communities and Mental Health
Hunter Core
Individual and Society (Social Sciences) - I&S SS
Pluralism and Diversity
P
Introduction to psychological experiences of Asian Americans, including historical, sociopolitical, and cultural influences that shape personality and mental health. Specific topics include stereotypes and racism, processes of acculturation and enculturation, ethnic identity development, interracial relationships, stressors and social support systems within Asian American communities, and culturally competent mental health treatment and service delivery.

3 hrs
3 credits

ASIAN 29000 - Asian American Studies Internship
A semester-long course intended to give students practical experience participating in a local or national Asian American-serving organization. The objective of ASIAN 29000 is to train students to transform Asian American Studies scholarship into practice, and to realize the relevance of their classroom training in a broader social context. ASIAN 29000 will be required of students seeking a Certificate in Asian American Studies.

prereq: ENGL 12000, ASIAN 210 or equiv.
8-10
3 cr.
Critical examination of literary constructions of Asian American identity in relation to the U.S. nation-state, with particular emphasis placed upon juridical constructions of citizenship, community, and belonging.

3 hrs 3 cr.

ASIAN 32005 - Asian American Memoir

Close examination of memory as an imagined and contested site that complicates and challenges how we constitute self and other. Students will analyze constructions of identity through Asian American narratives, and their relation to language, form and experience, including immigration and gendered narratives to transnational categories of homeland and belonging.

3 hrs 3 cr.

ASIAN 32100 - Asian American Social Protest Literature

Deconstruction and examination of historical and contemporary Asian American literatures of social protest and resistance. Students utilize readings as a framework for initiating, planning, and executing semester-long community-based projects.

3 hrs 3 cr.

ASIAN 33001 - Chinese in the U.S.

ASIAN 33003 - South Asians in the U.S.

ASIAN 33008 - Muslim Diasporas

Pluralism and Diversity PD/B

Interdisciplinary course moving through the history of Islam and its expressions in many areas of the world (including Sufism), to the cultural identity, art, and literature of the Muslim Diaspora in the United States, their misrepresentations in the media, and fetishization by popular culture.

3 hrs 3 cr.

ASIAN 33052 - Oral History, Cultural Identity and the Arts

ASIAN 34001 - Asian Pacific American Media

Pluralism and Diversity PD/B

Addresses Asian Pacific American experiences of assimilation, displacement, marginalization, multiculturalism, and resistance to the cultural 'norm' within Asian Pacific communities through screening a wide range of films and videos and reviewing critical and fictional writing. Guest artists may also lecture.

3 hrs 3 cr.

ASIAN 34003 - West Asian American Literature and Film
This seminar explores the interconnected issues of race, class, and nationality through the study of the history of Asian immigrant labor in the U.S. in the context of American economic needs and political environment.

This interdisciplinary course examines the origins and processes of migration and settlement, past and present. Includes a series of lectures by leading scholars from a variety of academic fields and immigrant communities. Topics include: immigration and labor, race and gender, social and cultural identity, immigration policy and political action, and the trans-nationalization of education and family life.

An exploration of the issues, struggles, political organizing, and theory of lesbian, gay, bisexual, transgender (LGBT) Asian Americans, South Asians, Southeast Asians, and Pacific Islanders. Through readings of historical and modern texts, law and public policy, film and video, guest speakers, and field work, students will come to understand the intersection between LGBT identity and racial/ethnic identity.
The Department of Biological Sciences offers a single major for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. The major in Biological Sciences has the following concentrations: Biological Sciences: Basic concentration; Behavioral Neurobiology; Bioinformatics; and Biophysics. The Department stresses excellence in both teaching and research. Fully equipped research laboratories are supported by major federal grants and students are strongly encouraged to become involved in laboratory research. State-of-the-art flow cytometry and bioimaging facilities are housed within the department. They have been created and are funded by federal grants, New York State and the Center for Basic and Translational Research. The Center consists of faculty from the departments of Biological Sciences, Chemistry, Physics and Psychology working in the areas of biomolecular structure and function.

What can I do with my degree in Biological Sciences? The core curriculum in biological sciences prepares students for admission to both graduate and medical schools and for careers in the biological sciences, including teaching and the growing industry of biotechnology. The curriculum emphasizes cell biology, molecular biology, developmental biology, genetics and neurobiology as the foundation for future careers in fields related to the biological sciences. The Biology BA prepares students who are interested in applying to graduate school in the biological sciences or professional schools of medicine, dentistry, veterinary medicine and other health professions as well as students who are interested in careers in the rapidly growing field of biotechnology. In conjunction with the Hunter College School of Education, the Biology department offers opportunities for students to prepare for teaching careers in elementary and secondary schools.
Undergraduate Research Students who wish to undertake a research project under the supervision of a faculty member must first obtain written permission from that faculty member and then register for BIOL 48000. Research opportunities for undergraduates at Hunter are available in cell and molecular biology, developmental biology, neuroscience, cancer biology, AIDS, microbiology and a variety of other contemporary areas. In some cases students may be permitted to work at one of the several neighboring research institutions. Synopses of faculty research interests can be obtained in the department office or from the Department of Biological Sciences Website http://Biology.hunter.cuny.edu. In addition, there are summer research opportunities available at Cold Spring Harbor Laboratory and Woods Hole Research Center through the Howard Hughes Medical Institute. Please note that to qualify for departmental honors at graduation, there is a research requirement.

Honors

In order to qualify for departmental honors, students must have a departmental GPA of at least 3.5 and an overall GPA of at least 3.0. They must also satisfy a research requirement.

HEGIS Codes: 0401 (BA); 0499 (BA/MA in Biotechnology)

Biological Sciences - BA
The Department of Biological Sciences offers a single major for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. Students planning to pursue a Biology major are strongly encouraged to declare their major as soon as possible after completing one semester of Principles of Biology.

Declared majors are assigned a permanent faculty adviser who will assist in individual curriculum planning. Students are required to meet with their adviser at least once each semester throughout their undergraduate career to discuss their program and progress.

Biology Concentrations
The major in Biological Sciences has the following concentrations:
• Biological Sciences: Basic concentration
• Behavioral Neurobiology
• Bioinformatics
• Biophysics

CR/NC Policy
Only a letter grade (A, B, C, D, including + or -) will be accepted by the department in the required science and mathematics courses for the biology major.
Opportunities for Undergraduate Research

Undergraduate Research Students who wish to undertake a research project under the supervision of a faculty member must first obtain written permission from that faculty member and then register for BIOL 48000. Research opportunities for undergraduates at Hunter are available in cell and molecular biology, developmental biology, neuroscience, cancer biology, AIDS, microbiology and a variety of other contemporary areas. Students are also permitted to work at one of the several neighboring research institutions. Synopses of faculty research interests can be obtained in the department office or from the Department of Biological Sciences Website http://Biology.hunter.cuny.edu. In addition, there are summer research opportunities available at Cold Spring Harbor Laboratory and Woods Hole Research Center through the Howard Hughes Medical Institute. Please note that, to qualify for departmental honors at graduation, there is a research requirement.

Honors Work

In order to qualify for departmental honors, students must have a departmental GPA of at least 3.5 and an overall GPA of at least 3.0. They must also satisfy a research requirement consisting of either, choose one (a) or (b):

(a) at least 2 research credits of BIOL 48000 - Introduction to Experimental Biology

GER 3/B Laboratory research under guidance of faculty member. Work at another institution may be permitted under auspices and supervision of a faculty member. Written report or presentation of work required for completion of course. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors and a maximum of 4 credits can count towards the Biology major. Since student research projects can take more than one semester, and students can develop and expand their research into continuing and related projects, this course may be repeated an unlimited number of times.

prereq: BIOL 10000 and 10200, Departmental permission prior to registration.
hrs TBA 1-2 cr. per sem.

BIOL 48100 - Introduction to Experimental Biology

GER 3/B Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.
hrs TBA 1-2 credits per semester

BIOL 48200 - Introduction to Experimental biology

GER 3/B Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.
hrs TBA 1-2 credits per semester

BIOL 48300 - Introduction to Experimental Biology

GER 3/B Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.
prereq:

BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.

hrs TBA

1 - 2 cr. per sem.

(b) at least one course chosen from among

BIOL 39000 - Laboratory in Cell Structure

GER 3/B Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

prereq or coreq:

BIOL 30000 or BIOL 20200 and perm instr.

7 hrs (2 lecture, 5 lab)

4.5 cr.

fall only

BIOL 39100 - Laboratory in Cell Structure

-- Biological Electron Microscopy

The students will learn basic concepts of transmission electron microscope, principles of biological sample preparation for transmission electron microscopy, various electron microscopy applications, to be familiar with the morphology of different organelles inside the mammalian cell, and understand the functions of each organelle.

Lab projects involve: (1) perfusion fixation of mouse tissues; (2) routine transmission electron microscopy sample preparation; (3) techniques and tools used for microtomy; (4) transmission electron microscope alignment; and (5) imaging various cellular ultrastructures using a transmission electron microscope.

prereq or coreq:

Instructor Permission

7 hrs.

4 cr.

spring only

Additional Information

The research requirement includes a written report resulting from work in any of these courses.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

MA Program in Biological Sciences

See Career Planning - Graduate Study.

Biological Sciences: Basic concentration - BA

Return to: Biological Sciences - BA

The basic major is for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. Students planning to pursue the biology major are strongly encouraged to declare their major as soon as possible. Declared majors are assigned a permanent faculty advisor who will assist in individual curriculum planning. Students are required to meet with their advisor at least
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Biology major: Basic Concentration, the courses that meet CCCR are:

- **BIOL 10000 (STEM)** - Principles of Biology I
  - Hunter Core Life and Physical Sciences (LPS); Scientific World (SW); Pluralism and Diversity PD/C or D GER 2/E
  - The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
  - Material Fee: $5
  - PD credit awarded only upon completion of BIOL 10000 and 10200.
  - Prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
  - 7 hrs (3 lec, 3 lab, 1 disc)
  - 4.5 cr.
  - Spring only

- **BIOL 10200 (STEM)** - Principles of Biology II
  - Hunter Core Scientific World (SW); Life and Physical Sciences (LPS); Pluralism and Diversity PD/C or D GER 2/E
  - Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
  - Material Fee: $5
  - PD credit awarded only upon completion of BIOL 10000 and 10200.
  - Prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
  - 7 hrs (3 lec, 3 lab, 1 disc)
  - 4.5 cr.
  - Fall only

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Major (67–83 credits)**

This major consists of 9 credits of introductory biology (BIOL 10000 (STEM) – BIOL 10200 (STEM)) and a 24.5-credit concentration in biology at the 20000-level and higher. The biology concentration consists of a 13.5-credit core — BIOL 20300, BIOL 30000, BIOL 30300 — and 11 credits of electives. Together, introductory biology and the concentration (33.5 credits) satisfy the major requirement for certification as a teacher of biology in grades 7–12. Additional science and math requirements for Major I are listed below.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

**Math Sequence (3–17 credits)**

- **MATH 10100** - Algebra for College Students
Exponential functions and their graphs.
Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Karyotic genetic concepts as well as provide basics in recombinant DNA technology.
Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq:

- Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq:

- Cell Biology: This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry, providing an integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth: the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and
CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core: Life and Physical Sciences (LPS); Scientific World (SW); Pluralism and Diversity

GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent to one year of general chemistry laboratory.

Prereq: CHEM 10200

Coreq: CHEM M 10400

6 hrs 3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Prereq: CHEM 10400 with a grade of C or better

5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)

4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

Various organic syntheses, distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: Students must register for CHEM 22300 and CHEM 22301 simultaneously.

Note: Students must register

Prereq or Coreq: CHEM 22204 or CHEM 22206

3 hrs 2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Prereq: CHEM 22200 with a grade of C or better

5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)

4 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
The concentration in Behavioral Neurobiology within the Department of Biological Sciences, one of the options for Major I, has the following required courses and schedule.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

**Prerequisites and Corequisites**

- MATH 12400 or 12500 or 12550 or 15000 or 15500
- PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

- Prereq or coreq: coreq (with perm dept.): MATH 15000

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

These courses may be counted for credit in more than one program.

**Electives (11 credits)**

Students select the remainder of their credits toward the Biology Major from advanced courses in the biological sciences so as to create a core area of study. Eleven credits are required to complete the major. A minimum of two elective lecture courses must be taken, with at least one course at the 30000 level or higher, in addition to BIOL 30000 and BIOL 30300, for a minimum of six credits. For the remaining elective credits, BIOL 12000, 12200, and 23000. Please read the course descriptions carefully to identify those courses. If you have any questions about which can count towards the total elective credits either from a laboratory elective course or from research within an approved research laboratory. Pre- and introductory biology and the concentration (64.5 credits) satisfy the major requirement for certification as a teacher of biology in grades 7-12.

Students are urged to take advantage of the summer session, during which these chemistry courses are usually offered.

Students with strong interdisciplinary interests may select advanced course offerings in other departments after approval by their adviser. Four credits of laboratory research are recommended and can count towards the total elective credits either from a laboratory elective course or from research within an approved research laboratory. Laboratory research credits can also be obtained from BIOL 61000. Together, introductory biology and the concentration (64.5 credits) satisfy the major requirement for certification as a teacher of biology in grades 7-12.

Laboratory research credits are taken as BIO 48000 research course for a maximum of two credits per semester and require a written report or presentation of work required for completion of course.
Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

**Courses Required for the Major (72.5 - 90.5 credits)**

**Math Sequence (0 - 13 credits)**

**MATH 10100**
- Algebra for College Students
- Topics in algebra, graphing and functions
  - Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
- Prereq: appropriate score on placement exam or exit from appropriate departmental workshop
- 4 hrs (2 lec, 2 lab)
- 3 cr.

**MATH 10150**
- Mastery of Symbolic Computation
- This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.
- Prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
- 2 hrs
- 1 cr.

**MATH 12400 (STEM)**
- College Algebra and Trigonometry
- Hunter Core Math/Quantitative Reasoning (MQR)
- This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
- Note: This course is equivalent to MATH12500 for grade replacement purposes.
- Prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test.
- Not open to students who have taken MATH 12500 or MATH 12550.
- 4 hrs
- 4 cr.

**MATH 14000**
- Mathematical Reasoning Workshop
- This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.
- Prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
- 2 hrs
- 1 cr.

**MATH 15000 (STEM)**
- Calculus I
- Hunter Core Math/Quantitative Reasoning GER 1/B
- Exponential functions and their graphs.
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

Prereq: MATH 12550 with a grade of B-or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

Other Required Courses (63.5-64.5 credits)

BIOL 10000 (STEM)
Principles of Biology I
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D GER 2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

Prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
Spring only

BIOL 10200 (STEM)
Principles of Biology II
Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D GER 2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

Prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
Fall only

BIOL 20300
Molecular Biology and Genetics
This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Karyotic genetic concepts as well as provide basics in recombinant DNA technology.

Prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
Coreq: CHEM 22200, 22300 or perm instr.
7 hrs
Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq:
Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity

GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200

coreq: CHEM 10400

6 hrs
3 cr.

CHEM 22200 - Organic Chemistry

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

GER

2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

**Electives**

9 credits, 6 of which must be PSYCH

**PSYCH 30100**

- **Sensation and Perception**

  GER 3/B

  Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

  **prereq:** ENGL 12000, PSYCH 24900 or 25000, PSYCH 22400

  3 hrs

  3 cr.

**PSYCH 30900**

- **Behavioral Neuroendocrinology**

  GER 3/B

  An overview of how behavior is influenced by differential hormone action and how hormones influence the development and expression of sexually dimorphic behaviors. While a biology background is not required, this course will be a biology-based discussion of behavioral endocrinology.

  **prereq:** ENGL 12000, PSYCH 24900 or 25000 and PSYCH 22400

  3 hrs

  3 cr.

**PSYCH 32700**

- **Motivation and Emotion**

  GER 3/B

  The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

  **prereq:** ENGL 12000, PSYCH 24900 or 25000; and PSYCH 22400

  3 hrs

  3 cr.

**PSYCH 36900**

- **Behavioral Pharmacology**

  GER 3/B

  This course will provide information on the interrelationship of pharmacology and behavior. The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and
Course shall explore how developing neurons seek out targets and establish synapses.
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Courses Required for the Major (66-86 credits)

Math Sequence (0-17 credits)

MATH 10100 - Algebra for College Students
Topics in algebra, graphing and functions
Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation
This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry
Hunter Core Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN - or - the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop
This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I
Hunter Core Math/Quantitative Reasoning
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq:
MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs 4 cr.

MATH 15500 (STEM) - Calculus II

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs 4 cr.

Other Required Courses (58-60 credits)

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs 3 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity PD/C or D

GER 2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

spring only
Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Prokaryotic genetic concepts as well as provide basics in recombinant DNA technology.

Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq:
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for premed, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400

6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better

5 - 6 hrs (4 lec, 1 - 2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better

4 cr.

CSCI 13200 - Practical UNIX and Programming, with Lab

GER 2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.

This course cannot be counted towards the CSCI major.

prereq: none

3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER 3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200

3 hrs

3 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

GER 2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

GER 2/E

an emphasis on skills acquisition.
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra. 

**Prerequisites:**
- **PHYS 11000 or 11100**

**Course Details:**
- 7 hrs (3 lec, 3 lab, 1 rec)
- 4.5 cr.

*These courses may be counted for credit in more than one program.*

**BIOL 10200 (STEM)**
- Prerequisite is waived

**Electives (8-9 credits)**

- **ANTHP 30200**
  - Human Genetics
  - Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.
  - **Prerequisites:** ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500
  - 3 hrs
  - 3 cr.

- **CHEM 33300**
  - Computational Drug Discovery
  - Computational exercises and literature analyses of drug-macromolecule interactions, computer-assisted drug design, metabolic engineering, and personalized medicine.
  - **Prerequisites:** CHEM 37600 or BIOL 30000 or permission of the instructor
  - 3 hrs
  - 3 cr.

- **STAT 31900**
  - Bayesian Statistical Inference in the Sciences
  - **GER 3/B**
  - **Prerequisites:** MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor). Prerequisites waived for students who have passed STAT 311.
  - Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.
  - 3 hrs
  - 3 cr.

- **BIOL 37500**
  - Molecular Evolution
  - **GER 3/B**
  - An overview of the various methods and kinds of data used in systematics, the study of organism diversity and biological relationships. Emphasis is on modern molecular and genetic approaches to identification of individual species and strains and full phylogenetic analyses of suites of species to determine their evolutionary history. The knowledge base is provided for experimental investigation of questions of current interest.
  - **Prerequisites:** BIOL 30000 or permission of instructor.
  - 3 hrs
  - 3 cr.

- **BIOL 47000**
  - Special Topics in Biology
  - **GER 3/B**
Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000

2 hrs (lec)
2 cr. per sem.

*Special Topics course BIOL 47083 Bioinformatics Workshop, 3 cr.

BIOL 47100 - Special Topics in Biology

GER 3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000

3 hrs (lec)
3 cr. per sem.

* Topics courses BIOL 47119 Biomedical Genomics I, 3 cr., BIOL 47120 Biomedical Genomics II, 3 cr., BIOL 47105 Python Programming for Bioinformatics

BIOL 48000 - Introduction to Experimental Biology

GER 3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted under auspices and supervision of a faculty member. Written report or presentation of work required for completion of course. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors and a maximum of 4 credits can count towards the Biology major. Since student research projects can take more than one semester, and students can develop and expand their research into continuing and related projects, this course may be repeated an unlimited number of times.

prereq: BIOL 10000 and 10200, Departmental permission prior to registration.

hrs TBA
1 - 2 cr. per sem.

*These courses may be counted for credit in more than one program.

**BIOL 10200 prerequisite is waived

Degree Map for Biological Sciences: Bioinformatics BA

Biological Sciences: Concentration in Biophysics - BA

Return to: Biological Sciences - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective
Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Courses Required for the Major (68.5 - 88 credits)

Math Sequence (5 - 18 credits)

MATH 10100 - Algebra for College Students
Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workship
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation
This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry
Hunter Core Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.
prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.
This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

**Prerequisite:**
MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

**Credit:**
2 hrs, 1 cr.

**MATH 15000 (STEM) - Calculus I**

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**Prerequisite:**
MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

**Credit:**
4 hrs, 4 cr.

**MATH 15500 (STEM) - Calculus II**

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**Prerequisite:**
Grade of C or better in MATH 15000

**Credit:**
4 hrs, 4 cr.

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

**Prerequisite or Corequisite:**
MATH 15000

**Credit:**
2 hrs, 1 cr.

**Other Required Courses (64.5-67 credits)**

**BIOL 10000 (STEM) - Principles of Biology I**

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

spring only

BIOL 10200 (STEM)

Principles of Biology II

Hunter Core

Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity

PD/C or D

GER 2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

BIOL 30000

Biological Chemistry

GER 3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

prereq: Open only for majors.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

CHEM 10200 (STEM)

General Chemistry I

Hunter Core

Scientific World (SW); Life and Physical Sciences (LPS)

GER 2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
CHEM 10400
(STEM) - General Chemistry II

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium. Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400

6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.
PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER 2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

prereq or coreq: coreq (with perm dept.): MATH 15000

8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER 2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

prereq: PHYS 11000 or 11100

prereq or coreq: (with perm dept.): MATH 15500

8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 33000 - Atomic and Nuclear Physics

Examines experimental evidence and develops modern view of structure of atom and nucleus.

prereq: PHYS 12000 or 12100

prereq or coreq: MATH 25000

4 hrs
4 cr.

PHYS 33600 - Thermodynamics and Statistical Mechanics

Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.

prereq: PHYS 12000 or 12100; MATH 25000

4 hrs
4 cr.

PHYS 42000 - Introduction to Biophysics

A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of molecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.

prereq or coreq: PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600.

4 hrs
4 cr.
Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

prereq or coreq: BIOL 30000 or BIOL 20200 and perm instr.
7 hrs (2 lecture, 5 lab)
4.5 cr.
fall only

BIOL 47000 - Special Topics in Biology
Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.
prereq: BIOL 30000
2 hrs (lec)
2 cr. per sem.

MATH 25400 - Ordinary Differential Equations
First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.
prereq: MATH 25000
3 hrs
3 cr.

* Note: These courses may be counted for credit in more than one program.

Degree Map for Biological Sciences: Biophysics BA

Degree Map for Biological Sciences: Behavioral Neurobiology BA

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Biology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan and the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.
Fall

- CHEM 10200 (STEM) General Chemistry I

Math/Quantitative Reasoning

GER 1/B  
Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq:
MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

MATH 15000 (STEM)  
Calculus I

Hunter Core  
Math/Quantitative Reasoning

GER 1/B
This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Karyotic genetic concepts as well as provide basics in recombinant DNA technology.
Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq:

Material Fee: $10

Open only for majors.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only
This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing an integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units:

1. Introduction: Cell morphology and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis.
2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and deregulation of cell growth, the process of tumorigenesis.
4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking.
5. Cell Communication: Cellular differentiation, cell-cell communication, and an introduction to development.

prereq: Advisor permission; BIOL 30000 or instructor permission

7 hrs
4.5 cr.
spring only

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core Scientific World (SW); Life and Physical Sciences (LPS)
GER 2/E Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
or PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core Scientific World (SW); Life and Physical Sciences (LPS)
GER 2/E Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER 3/B An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.
Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.
prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

Notes:

Students who do not place into MATH 12550 should begin with MATH 10100 Algebra.

The sequence is as follows

- MATH 10100
- MATH 12550
- MATH 15000
- MATH 15500. If you begin with MATH 10100, the DegreeMap is shifted by one semester and still allows for completion of the major in 4 years.

BIOL 10000 is offered during the spring and summer semesters only. To complete the degree in four years, students who are unable to complete the course in the spring semester of freshman year should enroll in the summer course.

Students interested in completing Honors work during their senior year should consult an adviser prior to selecting Biology 300/400 level electives.

BIOL 100 and 102 may satisfy Pluralism & Diversity - either Group C or Group D, only if both courses are taken at Hunter.

A total of 8 elective credits are required for Biology/Bioinformatics:

- BIOL 41719 (Biomedical Genomics I, Fall) or BIOL 47120 (Biomedical Genomics II, Spring): one of the two is required; count towards Biology 470/471 requirement
- BIOL 37500 (Molecular Evolution, Fall), CHEM 33300 (Computational Drug Discovery, Spring), STAT 31900 (Bayesian Inference, Fall): one is required; count towards Biology lecture elective requirement
- BIOL 47105 (Python Programming for Bioinformatics; not regularly offered), BIOL 47083 (Bioinformatics Workshop; not regularly offered)
- BIOL48002 (Introduction to Experimental Biology; 2 cr): requires a faculty sponsorship; count towards research requirements for Biology honors.

Degree Map for Biological Sciences: Biophysics BA

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Biology major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec)

4 cr.

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

prereq: MATH 10100/101EN with a grade of B or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500.

5 hrs (4 hrs lecture, 1 hr recitation)

4 cr.

ENGL 12000 - Expository Writing

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

3 hrs + conf

3 cr.

coreq: CHEM 10400

ENGL 22000 - Introduction to Writing about Literature (W)

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000

• FOREIGN LANGUAGE Elementary Level 2

Sophomore Year Fall

BIOL 10200 (STEM) - Principles of Biology II
Pluralism and Diversity

PD/C or D

GER

2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

4.5 cr.

fall only

CHEM 22200 - Organic Chemistry Lecture I

GER

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core

Math/Quantitative Reasoning

GER

GER 1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs

4 cr.

FOREIGN LANGUAGE Intermediate Level 3

Spring

CHEM 22400 - Organic Chemistry Lecture II

GER

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs 4 cr.

FOREIGN LANGUAGE Intermediate Level 4

ELECTIVE

Junior Year

Fall

BIOL 30000 - Biological Chemistry

GER 3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

prereq: Open only for majors.

7 hrs (3 lec, 3 lab, 1 disc) 4.5 cr.

fall only

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core Scientific World (SW) Life and Physical Sciences (LPS)

GER 2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

prereq or coreq: coreq (with perm dept.): MATH 15000

8 hrs (4 lec, 3 lab, 1 rec) 5.5 cr.

MATH 25000 - Calculus III

GER 3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500, MATH 15600
4 hrs
4 cr.

Spring
PHYS 33600 - Thermodynamics and Statistical Mechanics
Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.
prereq: PHYS 12000 or 12100; MATH 25000
4 hrs
4 cr.
PHYS 42000 - Introduction to Biophysics
A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of molecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.
prereq or coreq: PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600.
4 hrs
4 cr.
• Major ELECTIVE
• ELECTIVE
Notes:
Students who do not place into MATH 12550 should begin with MATH 101 Algebra. The sequence is as follows – MATH 10100 – MATH 12500 – MATH 15000 – MATH 15500. If you begin with MATH 10100, the Degree Map is shifted by one semester and still allows for completion of the major in 4 years.

BIOL 10000 is offered during the spring and summer semesters only. To complete the degree in four years, students who are unable to complete the course in the spring semester of freshman year should enroll in the summer course.

Students interested in completing Honors work during their senior year should consult an adviser prior to selecting Biology 30000/400 level electives.
The degree map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic path selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall

CHEM 10200 (STEM) - General Chemistry I
- Hunter Core: Scientific World (SW); Life and Physical Sciences (LPS)
- GER 2/E: In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.
- Prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
- 5 hrs (4 lec, 1 rec)
- 4 cr.

MATH 12500 (STEM) - Precalculus
- Hunter Core: Math/Quantitative Reasoning
- GER 1/B: Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
- Prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
- 4 hrs
- 4 cr.

ENGL 12000 - Expository Writing
- Hunter Core: English Comp (EC)
- GER 1/A: Required of all students unless exempt
- This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

Notes:
Students who place below MATH 15000:
please note the following Math sequence:
MATH 10100 – MATH 12400, MATH 12500 or MATH 12550 – MATH 150. If you start with MATH 12500 Precalculus or MATH 12550 or MAT 12400, the degree map is shifted by one semester and still allows for completion of the major in 4 years.

*CHEM 11100 and CHEM 11200 are sequence options in place of CHEM 10200, CHEM 10400 and CHEM 10600
If taking CHEM 11100, this is a special honors cou

In Junior and senior year, a 300-level chemistry course must be taken.
CHEM 32200 is recommended elective but CHEM 37700 can also be taken. All electives require departmental permission.

BA/MA in Biological Sciences and Adolescent Education: Biology

This is an accelerated program leading to a BA in Biological Sciences and an MA in Adolescent Education: Biology. Undergraduates admitted to the program start graduate courses during their senior year and will be able to complete the MA degree one year after they complete the requirements for the BA degree. Interested students should contact a Biology Department adviser early in their undergraduate career.

Biological Sciences with Specialization in Biotechnology

This five-year program, qualified biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology and a foundation for application of these skills in careers in the biotechnology and pharmaceutical industries, academic research, or public health. Successful completion of the biotechnology workshop (BIOL 61000, see graduate catalog), an essential program component, entitles students to a summer internship in an industrial or private research laboratory. Interested biology majors should contact a departmental adviser as early as possible.

Biological Sciences: Basic concentration

BA Biology with Specialization in Biotechnology - MA

Minor in Biological Sciences

The minor in Biological Sciences gives students a basic understanding of biology from the molecular and cellular to the organismal and population level. This includes both theoretical aspects presented in lecture as well as practical aspects presented in lab. Flexibility is built into the minor to allow students to select courses corresponding to their interests.

In order to minor in Biological Sciences, a student must pass four courses resulting in a minor GPA of 2.0 or higher.

All students who want a Minor in Biological Sciences must take:

- BIOL 10000 (STEM) - Principles of Biology I and BIOL 10200 (STEM) - Principles of Biology II or BIOL 10000 (STEM) - Principles of Biology I and BIOL 16000 - Honors Principles of Biology II or the equivalent
- two additional courses in Biological Sciences, one of which must be at the 200 level or higher

Number of Credits:

A minimum of 12 credits.

Transfer credits may be applied. At least 2 courses must be taken at Hunter College.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core

Life and Physical Sciences (LPS); Scientific World (SW); Pluralism and Diversity (PD/C) or Diversity (D) GER 2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

Prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr. spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core

Scientific World (SW); Life and Physical Sciences (LPS)
requires familiarity with concepts in both biology and computer science. Genome information is revolutionizing virtually all aspects of biology and both the benefits and challenges (e.g., ethical and legal) of the genomic revolution to society.

Topics that are covered, students will learn how biological evidence like fingerprints and DNA is collected, analyzed, and presented as evidence to
BIOL 12500 (STEM) - Human Biology

An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

6 hrs 4.5 cr. spring only

BIOL 15000 (STEM) - CSI: HUNTER (Forensic Biology)

An introductory laboratory course for non-biology majors. This lecture/laboratory course will cover the techniques used by forensic scientists to analyze a crime scene, and the biological concepts behind them. Through the topics that are covered, students will learn how biological evidence like fingerprints, hair, blood, and DNA are collected, analyzed, and presented as evidence to solve crimes. This assignment helps students prepare for a "crime scene" that will be designed by the group using the topics and materials provided in class. The completion of their laboratory manual will constitute part of the laboratory grade.

6 hrs 4.5 cr. fall only

BIOL 16000 - Honors Principles of Biology II

Physiological systems and their regulation: internal transport, hormones and gas exchange in plants and animals; osmoregulation; motility; nervous, neuroendocrine, immunological and sensory systems; behavior, reproduction and ecology. Students will read reviews of current research in addition to the required text. Guest speakers and class presentations. Enrollment limited. Core credit awarded only if BIOL 10000 and 16000 are both completed. PD credit awarded only upon completion of BIOL 10000 and 16000.

prereq: grade of B or better in BIOL 10000 or perm instr, MATH 10100 or MATH 101EN

7 hrs (3 lec, 3 lab, 1 disc) 4.5 cr. not offered 2014-15

BIOL 17500 - Choreographing Genomics

This course uses postmodern dance to model biological processes. It is an introductory biology course for non-majors studies in the biological science of molecular genome information through readings, quantitative assignments, movement exercises and artistic lenses. Students explore a detailed examination of heredity and cancer with a focus on contributions of DNA. Students are expected to articulate gene information flow in addition to the required text. Guest speakers and class presentations.

Students will be required to talk and move in class (comfortable clothes, flat shoes or bare feet, and a yoga mat are required).
Students will have reflective assignments that include written work. Students will be required to develop visual and movement-based models.

**prereq:**
MATH 10100 or MATH 101EN

3 hrs
3 cr.
spring only

**BIOL 20300**
Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Karyotic genetic concepts as well as provide basics in recombinant DNA technology.

**prereq:**
Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)

**coreq:**
CHEM 22200, 22300 or perm instr.

7 hrs
4.5 cr.
spring only

**BIOL 21000**
Introduction to Research Technology

This course is designed to provide practical experience and background information to students prior to their entry into an experimental research project in a faculty laboratory.

**prereq:**
BIOL 10000 or permission of Instructor

2 hrs
2 cr.
summer

**BIOL 23000**
Fundamentals of Microbiology

GER
3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program.

Not accepted for credit toward the biology Major I.

**prereq:**
CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200

5 hrs (2 lec, 3 lab)
3 cr.
spring only

**BIOL 23100**
Survey of Microbiology with Case Studies

BIOL 23100 utilizes the survey of microbial world content by adding case studies that will be investigated and discussed. Does not substitute BIOL 230 for Nursing Students.

**prereq:**
BIOL 10200, CHEM 10400

3 hrs (2 hour lecture; 1 hour discussion)
3 cr.

**BIOL 24000**
Biodiversity and Evolution

This course is designed to prepare primary and secondary science educators to examine essential questions in the life sciences through the use of resources at the American Museum of Natural History.

**prereq:**
BIOL 10000, 10200 and 21000, or permission of instructor

2 hrs
Current Topics in the Biosciences (W)

Seminar focusing on topics of current relevance such as the science of pharmaceuticals, vaccine development, and environmental quality standards. Coverage includes not only the science, but the social, legal, political, and ethical issues associated with each topic. This course will also examine how government agencies (e.g., FDA, USDA, EPA) use science to form public policy.

PREREQUISITES OR COREQUISITES: ENGL 12000 or equiv, and 2 sems intro lab science or equiv, or perm instr.

BIOL 27000 Intro to Neuroscience

This is a one-term introductory lecture course. The main focus is to provide an understanding of the principles underlying the function of the nervous system while comprehending certain experimental procedures that have led to this knowledge. In the first part of the course, the cellular and molecular mechanisms that regulate the activity of individual neurons will be discussed. Then, based on model systems, we will examine how neurons are assembled in networks to give rise to sensation and function. Finally, topics related to the development, maintenance, and plasticity of these networks will be covered. Accepted for credit toward the Biology Major.

PREREQUISITES: BIOL 10000 and BIOL 10200.

BIOL 30000 Biological Chemistry

GER 3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

PREREQUISITES: Open only for majors.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

BIOL 30100 Biological Chemistry

Not accepted for credit toward the Biology major and is recommended for post-bacs who need a one semester course, but do not need a lab and recitation. Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in molecular biology. Coreq: CHEM 22200.

3 hrs

3 cr.

BIOL 30300 Cell Biology

Experiments focus on the structure and function of cellular components including proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.
Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing an integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units:

1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems).

2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis.

3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology.

4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking.

5. Cell Communication: Cellular differentiation, cell-cell communication, and an introduction to development.

Prereq: Advisor permission; BIOL 30000 or instructor permission

7 hrs
4.5 cr
Spring only

BIOL 30400 - Environmental Microbiology

Role of microorganisms in normal and polluted environments: bioremediation, waste and water treatment, heavy metals, nutrient cycles, microbes as a food source, algal toxins, microbial pesticides, microbial indicators of mutagens and pollutants, microbial leaching of ores.

Prereq: BIOL 10000, 10200, 20000 or perm instr.

3 hrs
3 cr.

BIOL 30600 - Developmental Biology

Major topics include molecular and cellular mechanisms of early embryonic development in amphibians, mammals and model organisms such as Drosophila, as well as the related subjects of vertebrate organ system development, biology of stem cells and animal cloning. Emphasis is placed on seminal and current research in cell-cell communication, signal transduction and differential gene regulation in developmental processes.

Prereq: BIOL 30000

3 hrs (lec)
3 cr.
Fall only

BIOL 35000 - The Biology of Cancer

When a normal cell becomes a cancer cell there are genetic changes that occur that alter the biology of the cell such that it behaves independent of its neighbors. This course will investigate the altered biology of cancer cells that lead to uncontrollable proliferation and cancer. Topics include: cell culture, the cell cycle, hormones, receptors, intracellular signal transduction, oncogenes, tumor suppressor genes, apoptosis, metastasis, and the etiology of human cancer.

Prereq: BIOL 20000, 30000, or perm instr.

3 hrs (lec)
3 cr.

BIOL 36000 - Cellular and Molecular Immunology

Study of the immune system from a molecular perspective. Molecular genetics of antibody and T cell receptor diversity, hematopoiesis and lymphocyte development, humoral and cellular immunity, histocompatibility.

Prereq or coreq: BIOL 30000, perm instr.

4 hrs (3 lec, 1 disc)
A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.

This course is designed to further the understanding of a broad range of topics in biology. This is an interactive lecture course where students are initially taught tools used in any area of experimental biology. Students are then taught how to use these tools to study any subject matter (e.g.: cancer, neurobiology, molecular biology). Undergraduate students are required to design experiments during discussion periods and critically assess the negative and positive outcomes of an experimental design. Undergraduate degree students seeking to pursue further graduate studies will greatly benefit and are highly encouraged to enroll.

An overview of the various methods and kinds of data used in systematics, the study of organism diversity and biological relationships. Emphasis is on modern molecular and genetic approaches to identification of individual species and strains and full phylogenetic analyses of suites of species to determine their evolutionary history. The knowledge base is provided for experimental investigation of questions of current interest.
Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

prereq: BIOL 30000 or perm instr.
3 lec hrs
3 cr.
fall only

BIOL 39000 - Laboratory in Cell Structure
GER 3/B
Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multichannel 3D rendering, image processing and visualization software.

prereq or coreq: BIOL 30000 or BIOL 20200 and perm instr.
7 hrs (2 lecture, 5 lab)
4.5 cr.
fall only

BIOL 39100 - Laboratory in Cell Structure
--- Biological Electron Microscopy

The students will learn basic concepts of transmission electron microscope, principles of biological sample preparation for transmission electron microscopy, various electron microscopy applications, to be familiar with the morphology of different organelles inside the mammalian cell, and understand the functions of each organelle. Lab projects involve: (1) perfusion fixation of mouse tissues; (2) routine transmission electron microscopy sample preparation; (3) techniques and tools used for microtomy; (4) transmission electron microscope alignment; and (5) imaging various cellular ultrastructures using a transmission electron microscope.

prereq or coreq: Instructor Permission
7 hrs.
4 cr.
spring only

BIOL 42500 - Computational Molecular Biology
GER 3/B
An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures.
The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting.

Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.
3 hrs
3 cr.

BIOL 45000 - Individual Tutorial in Biology
GER 3/B
May be taken only once. Research paper written under the direction of a full-time faculty member in department of biological sciences.

prereq: 18 credits in biology, approval of adviser in addition to the sponsor
1-2 cr.

BIOL 46000 - Introduction to Planning and Teaching of Laboratory Work in Biology
participation in discussions and assisting in the teaching of laboratories in an introductory course, or peer mentoring in the undergraduate biological sciences research techniques facility.

prereq: 16 credits in BIOL, 12 credits in CHEM, 2 letters from faculty

5 hrs (2 planning, 3 lab)

2 cr.

BIOL 47000 - Special Topics in Biology

GER 3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000

2 hrs (lec)

2 cr. per sem.

BIOL 47100 - Special Topics in Biology

GER 3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000

3 hrs (lec)

3 cr. per sem.

BIOL 48000 - Introduction to Experimental Biology

GER 3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted under auspices and supervision of a faculty member. Written report or presentation of work required for completion of course. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors and a maximum of 4 credits can count towards the Biology major. Since student research projects can take more than one semester, and students can develop and expand their research into continuing and related projects, this course may be repeated an unlimited number of times.

prereq: BIOL 10000 and 10200, Departmental permission prior to registration.

hrs TBA

1-2 cr. per sem.

BIOL 48100 - Introduction to Experimental Biology

GER 3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written permission prior to registration.

TBA

1-2 credits per semester

BIOL 48200 - Introduction to Experimental Biology
Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.

1-2 credits per semester

BIOL 20800 - Ecology

BIOL 22000 - Topics in Genetics and Evolution

prereq: BIOL 10000 or equiv.

3 hrs

3 cr.

spring only

BIOL 25200 - Comparative Anatomy of the Vertebrates

Pluralism and Diversity

BIOL 28000 - Biochemistry of Health and Nutrition

GER 3/B

Basic biochemistry in areas related to human health and nutrition. Designed for students in the dietetics program. (Not accepted for credit toward biology Major I.)

prereq: BIOL 10000, 10200 or 12000, 12200; CHEM 10000, 12000

3 hrs (lec)

3 cr.

not offered 2014-15
The course teaches the basic molecular processes underlying neural tissue specification, brain region-specific maturation, proper circuits formation and synapse assembly during the development of eukaryotic organisms.

3 hrs
3 cr.

BIOL 40000
Special Topics in Advanced Laboratory Techniques
Advanced laboratory techniques used in contemporary biological research, including areas such as immunology, microbiology and molecular neurobiology. Topics change from term to term.
prereq: BIOL 30000 or perm instr.
4 hrs (lab)
2 cr

Programs and Courses in Chinese
The major in Chinese offers students the opportunity to develop Chinese language proficiency, explore Chinese classical and modern literature, delve into Chinese culture and history, and develop skills in Chinese-English translation and interpretation.

In addition, undergraduate students have the option to apply to join the Chinese Flagship program (a federally-funded honors program) that provides scholarships for study in Chinese in both public and private sectors, and have gone on to advanced study in law, international studies, translation, education, and many other areas where Chinese language skills and cultural knowledge are appreciated.

Hunter students benefit from their proximity to the rich cultural resources of the Chinese communities in New York City, and many gain professional experience through internships offered by global organizations, businesses, and government agencies headquartered in New York City.

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Track 1: Chinese Language and Literature (24-30 cr.)
The track in Chinese Language and Literature consists of 24-30 credits chosen from the following CHIN-prefixed courses, 24 of which must be from courses above the 100-level. Courses must be taken in the sequence described below. Students who are exempt from language courses at the 200-level or above must make up their credits using other CHIN courses.
CHIN 10100 - Elementary Chinese I
Beginning course in Mandarin.
CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Language Proficiency Requirement.
3 hrs
3 cr.
offered fall

CHIN 10200 - Elementary Chinese II
Beginning course in Mandarin.
3 hrs
3 cr.
offered spring

CHIN 20100 - Intermediate Chinese I
Reading of literature in baihua (vernacular style) with emphasis on structural use of "function words" and vocabulary-building.
prereq: CHIN 10200 or equiv.
3 hrs
3 cr.
offered fall

CHIN 20200 - Intermediate Chinese II
Continued reading of literature in baihua.
prereq: CHIN 20100 or equiv.
3 hrs
3 cr.
offered spring

CHIN 30100 - Journalistic Chinese Literature I
Intensive reading of literature and essays written in journalistic style.
prereq: CHIN 20200 or equiv.
3 hrs
3 cr.
offered fall

CHIN 30200 - Journalistic Chinese Literature II
Intensive reading and translation of literature written in journalistic style.
prereq: CHIN 30100 or equiv.
3 hrs
3 cr.
offered spring

CHIN 30300 - Classical Chinese Literature I
Intensive study of literature written in wenyan or classical style, with attention to basic structures of literary styles.

**Prerequisites:** CHIN 20200 or equiv.

3 hrs
3 cr.
Offered fall

**CHIN 30400** - Classical Chinese Literature II
Continuation of CHIN 303. Selected readings in literature written in wenyan or classical style.

**Prerequisites:** CHIN 303 or equiv.

3 hrs
3 cr.
Offered spring

**CHIN 30700** - Classic Chinese Poetry
Pluralism and Diversity

**PD/A**
Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi.

**Prerequisites:** CHIN 30400 or equiv.

3 hrs
3 cr.

**CHIN 40100** - Advanced Studies in Chinese Literature
Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation.

**Prerequisites:** CHIN 30200 or equiv, perm chair

3 hrs
3 cr.

**Track 2: Chinese Translation and Interpretation (24-30 cr.)**
The track in Chinese Translation and Interpretation consists of 24-30 credits: for students with interest in acquiring training in Chinese translation in a variety of professional fields. Requirements for the concentration in Chinese translation include 24-30 credits chosen from the following CHIN-prefixed courses, 24 of which must be from courses above the 100-level. Courses must be taken in the sequence described below.

Students who are exempt from language courses at the 200-level or above must make up their credits using other CHIN courses.

**Chinese language (12-18 credits):**

**CHIN 10100** - Elementary Chinese I
Beginning course in Mandarin.

3 hrs
3 cr.
Offered fall

**CHIN 10200** - Elementary Chinese II
Beginning course in Mandarin.

3 hrs
CHIN 20100 - Intermediate Chinese I
Reading of literature in baihua (vernacular style) with emphasis on structural use of "function words" and vocabulary building.
prereq: CHIN 10200 or equiv.
3 hrs
3 cr.
offered fall

CHIN 20200 - Intermediate Chinese II
Continued reading of literature in baihua.
prereq: CHIN 20100 or equiv.
3 hrs
3 cr.
offered spring

CHIN 30100 - Journalistic Chinese Literature I
Intensive reading of literature and essays written in journalistic style.
prereq: CHIN 20200 or equiv.
3 hrs
3 cr.
offered fall

CHIN 30200 - Journalistic Chinese Literature II
Intensive reading and translation of literature written in journalistic style.
prereq: CHIN 30100 or equiv.
3 hrs
3 cr.
offered spring

CHIN 30300 - Classical Chinese Literature I
Intensive study of literature written in wenyan or classical style, with attention to basic structures of literary styles.
prereq: CHIN 20200 or equiv.
3 hrs
3 cr.
offered fall

CHIN 40100 - Advanced Studies in Chinese Literature
Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation.
prereq: CHIN 30200 or equiv, perm chair
3 hrs
3 cr.
offered spring
Chinese and English Translation and Interpretation (12-18 credits):

RUSS 21500 - Translating Culture: Introduction to Theory and Practice of Translation

Introduction to the theoretical and practical aspects of translation; overview of historical, political, and cultural aspects of translation in the 20th century. Designed for students interested in translation in any language.

Prereq: ENGL 12000

3 hrs 3 cr.

CHIN 31600 - Introduction to Business Translation (Chinese – English)

This course introduces a broad scope of language support services pertaining to the business environment, specifically, to a variety of written documents and face-to-face verbal situations that call for translation between Chinese and English – from official stationery, daily correspondences, and meetings to press releases, press conferences, advertising copies, product manuals, and trade events. Students will learn to analyze source documents in real world indicators of the project in question: the client (commissioner of the work), targeted audience, purpose of document, and context of use; students will practice handling documents as an in-house language support staff, providing sight or summary translation, or general interpreting between Chinese and English in the context of business meetings. Through class discussions and practice, principles and approaches will emerge from a survey of key industry drivers of Chinese/English translation in real estate development, tourism, entertainment, digital gaming, and the art market.

Prereq: CHIN 20200

3 hrs 3 cr.

CHIN 31700 - Community Interpreting and Sight Translation, Chinese – English

This course provides a foundational skill-based grounding for the community interpreter who orally translates between English and Mandarin Chinese in both directions. This course will facilitate interpreting practice in a wide array of public, community, and commercial settings – from the adoption interview, real-estate closing, and arbitration proceedings to the pre-trial deposition and parent-teacher conference; the course will also emphasize sight translation, the oral translation of written texts, as a fundamental skill in community interpreting. As part of an experiential learning approach, students will role play and constitute their own “scenarios,” practice self- and peer-assessment, and learn the multi-faceted process of interpreting, including note-taking, listening, voice production, the use of verbal and non-verbal cues, memory training, and paralinguistic applications. The course will survey the role of community interpreting in the US context addressing key sectors including healthcare, public education, social services, and the criminal justice and court system.

Prereq: CHIN 20200

3 hrs 3 cr.

CHIN 31800 - Intercultural and Interlingual Discourse in Chinese & English

This course addresses the structural and cultural aspects of language use with focus on dual-language communication involving Chinese and English. Interlingually, the course will explore given structural differences between Chinese and English, including aspects of speech habits (phonology), word-formation (morphology), vocabulary (lexicon), phraseology, and sentence structure (syntax); interculturally, the course will examine how dual-language speakers (and translators) negotiate and shape Chinese and English in the dynamic of time-and-place communication, including the navigation of different discourse styles, conventions governing idiom, coherence, or logic, and assumptions about gender relations, and power and status that determine who speaks when, who gets interrupted, and how rhetoric and voice are expressed in code switching and mixing between Chinese and English. In identifying rule-governed variance and strategies used to mediate differences in communication, students will also develop an articulate understanding of how the two languages function in their separate and yet intertwined evolution.

Prereq: CHIN 20200

3 hrs 3 cr.

CHIN 40153 - Chinese and English Translation (3)

CHIN 40154 - Advanced Chinese and English Translation (3)

CHIN 40200 - Independent Study in Chinese Literature

Independent study and research in Chinese literature under supervision of a faculty member. For majors only.

Prereq: CHIN 40100, perm chair

3 hrs 3 cr.
Track 3: Chinese Flagship (42-48 cr.)

The track in Chinese Flagship consists of 42 credits and is intended for students accepted into the Chinese Flagship program. The track consists of 42-48 credits at Hunter chosen from the following CHIN-prefixed courses, 24 of which must be from courses above the 100-level, plus 18 credits taken in China or Taiwan. Courses must be taken in the sequence described below. Students who are exempt from language courses at the 200-level or above must make up their credits using other CHIN courses.

Chinese language (24-30 credits):

CHIN 10100 - Elementary Chinese I
Beginning course in Mandarin. 3 hrs 3 cr. offered fall

CHIN 10200 - Elementary Chinese II
Beginning course in Mandarin. 3 hrs 3 cr. offered spring

CHIN 20100 - Intermediate Chinese I
Reading of literature in baihua (vernacular style) with emphasis on structural use of “function words” and vocabulary-building. prereq: CHIN 10200 or equiv. 3 hrs 3 cr. offered fall

CHIN 20200 - Intermediate Chinese II
Continued reading of literature in baihua. prereq: CHIN 20100 or equiv. 3 hrs 3 cr. offered spring

CHIN 30100 - Journalistic Chinese Literature I
Intensive reading of literature and essays written in journalistic style. prereq: CHIN 20200 or equiv. 3 hrs 3 cr. offered fall

CHIN 30200 - Journalistic Chinese Literature II

Intensive reading and translation of literature written in journalistic style. 

prereq: CHIN 30100 or equiv.  3 hrs  3 cr.  offered spring

CHIN 30300 - Classical Chinese Literature I
Intensive study of literature written in wenyan or classical style, with attention to basic structures of literary styles. 

prereq: CHIN 20200 or equiv.  3 hrs  3 cr.  offered fall

CHIN 30400 - Classical Chinese Literature II
Continuation of CHIN 303. Selected readings in literature written in wenyan or classical style. 

prereq: CHIN 30300 or equiv.  3 hrs  3 cr.  offered spring

CHIN 30700 - Classical Chinese Poetry
Pluralism and Diversity
PD/A
Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi. 

prereq: CHIN 30400 or equiv.  3 hrs  3 cr.

CHIN 40100 - Advanced Studies in Chinese Literature
Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation. 

prereq: CHIN 30200 or equiv, perm chair  3 hrs  3 cr.

Capstone year study abroad (18 credits):
CHIN 40105 - Intercultural Communication in Greater China (3)
CHIN 40106 - Media in Contemporary Chinese Societies (3)
CHIN 40108 - Domain Research in Chinese (3)
CHIN 40114 - Chinese for Professional Purposes (3)
CHIN 49806 - In-Service Internship (6)

Teacher Education Pathway
Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.
Advanced Placement and Exemptions

Students who elect to take Chinese as their required language and have studied the language abroad or at home must consult the head of the Chinese Division for advanced placement or exemptions. The Chinese program does not offer proficiency tests.

Electives

All courses, unless otherwise stated in course descriptions, are open to qualified students majoring in other disciplines.

Chinese: Other Courses

Language Courses

CHIN 10100 - Elementary Chinese I
Beginning course in Mandarin.
3 hrs 3 cr.
offered fall

CHIN 10200 - Elementary Chinese II
Beginning course in Mandarin.
3 hrs 3 cr.
offered spring

CHIN 10500 - Chinese Writing System and Calligraphy I
Beginning course in learning the basics about writing Chinese characters, methods of analysis, and mastery of common radicals and characters.
3 hours 3 credits
offered fall

CHIN 10600 - Chinese Writing System and Calligraphy II
Continued instruction in topics related to the development of Chinese scripts, printing, and calligraphy, and mastery of additional common characters.
prereq: CHIN 10500 or equivalent
3 hours 3 credits
offered spring

CHIN 30600 - 20th-Century Chinese Literature
Pluralism and Diversity
PD/A
Selected readings of leading thinkers and writers.
CHIN 20200 or equiv.

3 hrs
3 cr.

CHIN 39900 - Second Language Acquisition
A survey of issues and approaches to second language acquisition. For students planning to teach languages other than English in grades 7-12.

CHIN 11100 - Chinese Culture I
Hunter Core: World Culture and Global Issues (WCGI)
Pluralism and Diversity
GER 2/C PD/A
Introduction to Chinese culture with emphasis on classical tradition. Lectures and readings in English.
3 hrs
3 cr.

CHIN 11200 - Chinese Culture II
Hunter Core: World Culture and Global Issues (WCGI)
Pluralism and Diversity
GER 2/C PD/A
Emphasis on modern transformation against background of classical tradition. Lectures and readings in English.
3 hrs
3 cr.

CHIN 21100 - Topics in Chinese Culture
Topics include Chinese religion, Buddhism, archaeology, Daoism and theatre.
3 hrs
3 cr.

CHIN 25100 - Topics in Chinese Literature in English Translation (W)
Hunter Core: Individual and Society (Humanities)
Pluralism and Diversity
GER 2/C
Including 20th-century literature, contemporary literature.

prereq: ENGL 12000
3 hrs
3 cr.
CHIN 35500 - Classical Chinese Fiction in English Translation (W)
Pluralism and Diversity
PD/A
GER
3/A
Introduction to Chinese fictional writings from early times to 19th century, e.g., Dream of the Red Chamber, Monkey, All Men Are Brothers, Romance of the Three Kingdoms.
prereq: ENGL 12000

3 hrs
3 cr.
CHIN 35700 - Chinese Poetry in English Translation (W)
Pluralism and Diversity
PD/A
GER
3/A
Major poets from the earliest times to the present day, with emphasis on the Tang period.
prereq: ENGL 12000

Degree Map for Chinese Language and Literature
Degree Map for Chinese Programs and Courses in Classical & Oriental Studies
Cl
Assical and Oriental Studies
Overview
The Department of Classical and Oriental Studies offers programs in Arabic, Chinese, Classics, Hebrew, Japanese, and Russian. With over 20 full-time faculty and over 50 adjunct faculty, the department is able to offer nine BA degrees: Arabic, Chinese, Classical Archaeology, Classical Studies, Greek, Hebrew, Latin, Latin and Greek, and Russian. In addition, the department offers a three-year sequence in the Japanese language, and, in joint sponsorship with the Kosciuszko Foundation, a wide range of courses in Polish language, literature and culture. The department participates in several interdisciplinary programs, including Anthropology, Religion, Women and Gender Studies, Comparative Literature, Middle East Studies and Jewish Studies. All the programs of the department have as their common goal the teaching of the foreign languages, literature, and culture in order to prepare them both for careers in which they will use these skills and for further study on the graduate level.

Programs Offered by the Department of Classical & Oriental Studies
• Arabic Language, Literature, and Culture Program
• Chinese Language and Literature Program
• The Classics Program
• Hebrew Program
What can I do with my degree in Classical and Oriental Studies?

The programs prepare students for further studies in graduate school and professional careers in international trade, education, government service, diplomacy, private business, journalism and related fields. Majors in our programs find employment in museums, archives, U.S. governmental agencies, the United Nations, broadcasting, banking, international commerce, education, library services, college and high school teaching, and other fields.

### Arab

The major in Arabic offers students the opportunity to engage in linguistic and cultural training focusing on the Arab Middle East, North Africa, and Diaspora through coursework in language, literature, and culture. In addition, students will benefit from the multiple resources for Arab Studies in the New York City area through internships and research. These resources include museums, cultural organizations, and academic centers, institutions, and organizations devoted to the study of the Arab Middle East and North Africa and its people, and Arab communities in the United States. Arabic, one of the six official languages of the United Nations, is the official language of 26 nations and is spoken by over 300 million people worldwide. Additionally, it is a liturgical language for over 1.8 billion Muslims. The Arabic speaking regions of the Middle East have been shaping world history for centuries. The United States has been deeply involved in the region for many decades and plays a central role in current politics. Graduates of the Arabic Major will have attained advanced linguistic training and will have a deep cultural knowledge that will prepare them for work in governmental and non-governmental organizations, business, human rights, and social services. In addition, graduates of the Arabic Program will have attained a broad array of knowledge and skills that will allow them to pursue advanced studies in a number of academic fields including anthropology, art history, religion, comparative literature, linguistics, history, Middle East Studies, philosophy, political science, and sociology.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

**ARB 14800 - Beginning Arabic for Heritage Speakers**

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head
3 hrs
3 cr.
This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well as works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.
A survey of the literary and cultural history of Muslim Spain, 8th-15th century C.E.
prereq: ENGL 12000 or equivalent
3 hrs
3 credits

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.
prereq or coreq: ENGL 12000 or equivalent
3 hours
3 credits

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.
3 hrs
3 cr.

Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.
3 hrs
3 cr.
North Africa (Maghreb) is often described as a crossroads of many cultures — Arab, Berber, African, European, and others. Over the course of this semester, we will discuss important issues facing this region, including democratic reform efforts both before and following the Arab spring, Berber language movements and other language debates, colonial and post-colonial struggles, and social and cultural debates surrounding gender and religion. Through readings of key literary, historical, political, and cultural texts, as well as viewing important documentary and fictional film productions, we will examine this fascinating region from multiple vantage points.

prereq: ENGL 12000

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (27-33)

The Arabic Major at Hunter has three key components: A) a core sequence of Language courses, B) a choice of electives in both Arabic and English, and C) a capstone course. The total number of credits is 27-33 credits depending on the level of Arabic a student comes to the program with. The rationale for this curriculum is to prepare students to graduate having reached an Advanced level of proficiency on the ACTFL scale and a deep knowledge of Arab Culture.

A. Core Language Sequence

The major has two basic sequences: one for Heritage Learners and one for non-Heritage learners.

Core Language Sequence for Heritage Learners (15 credits assuming no exemptions):

ARB 14800 - Beginning Arabic for Heritage Speakers

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head

3 hrs
3 cr.

ARB 24800 - Intermediate Arabic for Heritage Speakers

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have no t studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: ARB 14800 or Arabic Program head's permission

3 hrs
3 cr.

ARB 30100 - Advanced Arabic I

Emphasis on increased proficiency in reading, speaking and writing Arabic

prereq: ARB 20200 or equiv.

3 hrs
3 cr.

ARB 30200 - Advanced Arabic II

This course is not open to students who have taken the ARB 10100-30200 sequence.
ARB 30100: Advanced Arabic I

Prereq: ARB 30100 or equiv.
3 hrs
3 cr.

Focuses on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. Vocabulary continues the trajectory of being less subjective and more academic.

ARB 40100: Focused Arabic Study for Advanced Students

Prereq: ARB 30200
3 hrs
3 cr.

A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

ARB 10100: Beginning Arabic I

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Language Proficiency Requirement

ARB 10200: Beginning Arabic II

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

ARB 20100: Intermediate Arabic I

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

Prereq: ARB 10200 or equiv.
3 hrs
3 cr.

ARB 20200: Intermediate Arabic II

Continuation of ARB 20100.

Prereq: ARB 20100 or equiv.
3 hrs
3 cr.
Emphasis on increased proficiency in reading, speaking and writing Arabic

prereq: ARB 20200 or equiv.

3 hrs
3 cr.

ARB 30200
Advanced Arabic II
Continuation of ARB 30100
prereq: ARB 30100 or equiv.

3 hrs
3 cr.

ARB 40100
Focused Arabic Study for Advanced Students

Pluralism and Diversity
P/D A 4th
A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

prereq: ARB 30200

3 hrs
3 cr.

B. Electives in both Arabic and English (6 to 9 credits):

Heritage Learners will choose, after the required ARB 15000 Introduction to Modern Arab Cultures, two other culture classes in English (chosen from among eight different classes that we currently offer on a regular basis). Heritage Learners will also choose one Arabic elective class (chosen from among four different advanced classes that we offer on a regular basis or our internship class).

Both Heritage Learners and Non-Heritage Learners who come in having placed out of some of our core sequence will take a higher number of these electives to reach the 27 credit requirement for the major.

Non-Heritage Learners will choose, after the required ARB 15000 Introduction to Modern Arab Cultures, one other culture class in English (chosen from among eight different classes that we currently offer on a regular basis). They will also choose one Arabic elective class (chosen from among four different advanced classes that we offer on a regular basis or our internship class).

C. Arabic Senior Capstone course

The Arabic Senior Capstone course, ARB 49000 (3 credits) is intended to have students integrate and synthesize the knowledge of the Arab world that they have developed through previous coursework into a final project (in Arabic). Projects may include: academic papers synthesizing primary and secondary sources; artistic and/or documentary videos; source or archival directories; annotated bibliographies; artistic performances whether live or recorded (or both); exhibitions/installations; literary or cultural criticism; feature-length journalism; reports on services; websites or computer applications.

• Degree Map for Arabic BA (Heritage Learner)
• Degree Map for Arabic BA (Non-Heritage Learner)

Chinese - BA
The major in Chinese offers students the opportunity to develop Chinese language proficiency, explore Chinese classical and modern literature, delve into Chinese culture and history, and develop skills in Chinese-English translation and interpretation.

In addition, undergraduate students have the option to apply to join the Chinese Flagship program (a federally-funded honors program) that provides scholarships for study abroad in China or Taiwan.

Graduates of the Chinese Major will have attained advanced to superior language proficiency and will have deep cultural knowledge that will prepare them for careers in the global workforce. Hunter Chinese alumni have been pursuing careers in both public and private sectors, and have gone on to advanced study in law, international studies, translation, education, and many other areas where Chinese language skills and cultural knowledge are appreciated.

Hunter students benefit from their proximity to the rich cultural resources of the Chinese communities in New York City, and many gain professional experience through internships offered by global organizations, businesses, and government agencies headquartered in New York City.

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Current Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Track 1: Chinese Language and Literature (24-30 cr.)

The track in Chinese Language and Literature consists of 24-30 credits chosen from the following CHIN-prefixed courses, 24 of which must be from courses above the 100-level. Courses must be taken in the sequence described below. Students who are exempt from language courses at the 200-level or above must make up their credits using other CHIN courses.

CHIN 10100 - Elementary Chinese I
Beginning course in Mandarin. CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Language Proficiency Requirement. 3 hrs 3 cr. offered fall

CHIN 10200 - Elementary Chinese II
Beginning course in Mandarin. 3 hrs 3 cr. offered spring

CHIN 20100 - Intermediate Chinese I
Reading of literature in baihua (vernacular style) with emphasis on structural use of "function words" and vocabulary-building. Prereq: CHIN 10200 or equiv. 3 hrs 3 cr. offered fall

CHIN 20200 - Intermediate Chinese II
Continued reading of literature in baihua. Prereq: CHIN 20100 or equiv. 3 hrs 3 cr. offered spring

CHIN 30100 - Journalistic Chinese Literature I
Intensive reading of literature and essays written in journalistic style. Prereq: CHIN 20200 or equiv. 3 hrs 3 cr. offered fall

CHIN 30200 - Journalistic Chinese Literature II
Intensive reading and translation of literature written in journalistic style.

Prereq: CHIN 30100 or equiv.

3 hrs
3 cr.
Offered spring

CHIN 30300 - Classical Chinese Literature I
Intensive study of literature written in wenyan or classical style, with attention to basic structures of literary styles.

Prereq: CHIN 20200 or equiv.

3 hrs
3 cr.
Offered fall

CHIN 30400 - Classical Chinese Literature II
Continuation of CHIN 303. Selected readings in literature written in wenyan or classical style.

Prereq: CHIN 303 or equiv.

3 hrs
3 cr.
Offered spring

CHIN 30700 - Classical Chinese Poetry
Pluralism and Diversity
PD/A
Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi.

Prereq: CHIN 30400 or equiv.

3 hrs
3 cr.

CHIN 40100 - Advanced Studies in Chinese Literature
Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation.

Prereq: CHIN 30200 or equiv, perm chair

3 hrs
3 cr.

Track 2: Chinese Translation and Interpretation (24-30 cr.)
The track in Chinese Translation and Interpretation consists of 24-30 credits: for students with interest in acquiring training in Chinese translation in a variety of professional fields. Requirements for the concentration in Chinese translation include 24-30 credits chosen from the following CHIN-prefixed courses, 24 of which must be from courses above the 100-level. Courses must be taken in the sequence described.

Chinese language (12-18 credits):

CHIN 10100 - Elementary Chinese I
Beginning course in Mandarin.

CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Language Proficiency Requirement.
3 hrs
CHIN 10200 - Elementary Chinese II
Beginning course in Mandarin. 3 hrs 3 cr.
offered fall

CHIN 20100 - Intermediate Chinese I
Reading of literature in baihua (vernacular style) with emphasis on structural use of "function words" and vocabulary-building. prereq: CHIN 10200 or equiv. 3 hrs 3 cr.
offered fall

CHIN 20200 - Intermediate Chinese II
Continued reading of literature in baihua. prereq: CHIN 20100 or equiv. 3 hrs 3 cr.
offered spring

CHIN 30100 - Journalistic Chinese Literature I
Intensive reading of literature and essays written in journalistic style. prereq: CHIN 20200 or equiv. 3 hrs 3 cr.
offered fall

CHIN 30200 - Journalistic Chinese Literature II
Intensive reading and translation of literature written in journalistic style. prereq: CHIN 30100 or equiv. 3 hrs 3 cr.
offered spring

CHIN 30300 - Classical Chinese Literature I
Intensive study of literature written in wenyan or classical style, with attention to basic structures of literary styles. prereq: CHIN 20200 or equiv. 3 hrs 3 cr.
offered fall
Advanced Studies in Chinese Literature

Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation.

Prereq: CHIN 30200 or equiv, perm chair

3 hrs 3 cr.

Chinese and English Translation and Interpretation (12-18 credits):

RUSS 21500 - Translating Culture: Introduction to Theory and Practice of Translation

Introduction to the theoretical and practical aspects of translation; overview of historical, political, and cultural aspects of translation in 20th century. Designed for students interested in translation in any language.

Prereq: ENGL 12000

3 hrs 3 cr.

CHIN 31600 - Introduction to Business Translation (Chinese–English)

This course introduces a broad scope of language support services pertaining to the business environment, specifically, to a variety of written documents and face-to-face verbal situations that call for translation between Chinese and English—from official stationery, daily correspondences, and meetings to press releases, press conferences, advertising copies, product manuals, and trade events. Students will learn to analyze source documents in real world indicators of the project in question: the client (commissioner of the work), targeted audience, purpose of document, and context of use; students will practice handling documents as an in-house language support staff, providing sight or summary translation, or general interpreting between Chinese and English in the context of business meetings. Through class discussions and practice, principles and approaches will emerge from a survey of key industry drivers of Chinese/English translation in real estate development, tourism, entertainment, digital gaming, and the art market.

Prereq: CHIN 20200

3 hrs 3 cr.

CHIN 31700 - Community Interpreting and Sight Translation, Chinese–English

This course provides a foundational skill-based grounding for the community interpreter who orally translates between English and Mandarin Chinese in both directions. This course will facilitate interpreting practice in a wide array of public, community, and commercial settings—from the adoption interview, real-estate closing, and arbitration proceedings to the pre-trial deposition and parent-teacher conference; the course will also emphasize sight translation, the oral translation of written texts, as a fundamental skill in community interpreting. As part of an experiential learning approach, students will role play and constitute their own “scenarios,” practice self- and peer-assessment, and learn the multi-faceted process of interpreting, including note-taking, listening, voice production, the use of verbal and non-verbal cues, memory training, and paralinguistic applications. The course will survey the role of community interpreting in the US context addressing key sectors including healthcare, public education, social services, and the criminal justice and court system.

Prereq: CHIN 20200

3 hrs 3 cr.

CHIN 31800 - Intercultural and Interlingual Discourse in Chinese & English

This course addresses the structural and cultural aspects of language use with focus on dual-language communication involving Chinese and English. Interlingually, the course will explore given structural differences between Chinese and English, including aspects of speech habits (phonology), word-formation (morphology), vocabulary (lexicon), phraseology, and sentence structure (syntax); interculturally, the course will examine how dual-language speakers (and translators) negotiate and shape Chinese and English in the dynamic of time-and-place communication, including the navigation of different discourse styles, conventions governing idiom, coherence, or logic, and assumptions about gender relations, and power and status that determine who speaks when, who gets interrupted, and how rhetoric and voice are expressed in code switching and mixing between Chinese and English. In identifying rule-governed variance and strategies used to mediate differences in communication, students will also develop an articulate understanding of how the two languages function in their separate and yet intertwined evolution.

Prereq: CHIN 20200

3 hrs 3 cr.
Independent study and research in Chinese literature under supervision of a faculty member. For majors only.

prereq: CHIN 40100, perm chair

3 hrs 3 cr.

Track 3: Chinese Flagship (42-48 cr.)

The track in Chinese Flagship consists of 42 credits and is intended for students accepted into the Chinese Flagship program. The track consists of 42-48 credits at Hunter chosen from the following CHIN-prefixed courses, 24 of which must be from courses above the 100-level, plus 18 credits taken in China or Taiwan. Courses must be taken in the sequence described below. Students who are exempt from language

Chinese language (24-30 credits):

CHIN 10100 - Elementary Chinese I

Beginning course in Mandarin. CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Language Proficiency Requirement.

3 hrs 3 cr.

CHIN 40108 - Domain Research in Chinese (3)

CHIN 40114 - Chinese for Professional Purposes (3)

CHIN 49806 - In Service Internship (6)

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Advanced Placement and Exemptions

Students who elect to take Chinese as their required language and have studied the language abroad or at home must consult the head of the Chinese Division for advanced placement or exemptions. The Chinese program does not offer proficiency tests.

Electives

All courses, unless otherwise stated in course descriptions, are open to qualified students majoring in other disciplines.

Chinese: Other Courses

Language Courses

CHIN 10100 - Elementary Chinese I
Beginning course in Mandarin.
CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Language Proficiency Requirement.
3 hrs 3 cr. offered fall

CHIN 10200 - Elementary Chinese II
Beginning course in Mandarin.
3 hrs 3 cr. offered spring

CHIN 10500 - Chinese Writing System and Calligraphy I
Beginning course in learning the basics about writing Chinese characters, methods of analysis, and mastery of common radicals and characters.
3 hours 3 credits offered fall

CHIN 10600 - Chinese Writing System and Calligraphy II
Continued instruction in topics related to the development of Chinese scripts, printing, and calligraphy, and mastery of additional common characters.
prereq: CHIN 10500 or equivalent
3 hours
CHIN 30600 - 20th-century Chinese Literature
Pluralism and Diversity
PD/A
Selected readings of leading thinkers and writers.
prereq: CHIN 20200 or equiv.
3 hrs 3 cr.

CHIN 39900 - Second Language Acquisition
A survey of issues and approaches to second language acquisition. For students planning to teach languages other than English in grades 7-12.
prereq: at least three courses at the 300 level in the language, ENGL 12000
3 hrs 3 cr.

Fieldwork, undertaken during a school semester or summer, under auspices of department or in an approved program, teaching excavation, or field school.

Open only to majors who have completed ENGL 12000 and CLARC 20400.

**Prereq:** ENGL 12000, CLARC 20400. Open to majors only; with permission of dept.

1–6 hrs

1–6 cr.

**CLARC 32900** - Problems in Archaeology

Exploration in depth of particular area or period in Old World archaeology. Topics vary.

**Prereq:** ENGL 12000; CLARC 20400 and one other CLARC course

3 hrs

3 cr.
The Mediterranean world from Alexander the Great through the rise of Rome; trends in architecture, sculpture, painting, mosaics and city planning, reflecting the period's history and philosophies (ca. 350–31 BCE). Focuses on the sites of Alexandria, Pergamon, Delos, Athens, Rome.

prereq: ENGL 12000 and CLARC 20400
3 hrs 3 cr.

CLARC 32800 - Theory and Methods in Classical Archaeology (W)
Archaeology as a comprehensive discipline of historical inquiry through analysis of material culture, as studied in the Mediterranean basin and the Ancient Near East. This course includes fieldwork strategies, survey, stratigraphic excavation, ceramic and numismatic analysis, artifact and data processing and documentation, management and protection of cultural heritage.

prereq: ENGL 12000 and CLARC 20400
3 hrs 3 cr.

CLA 49100 - Honors in Classics
Sr only. Individual research under direction of member of department, culminating in essay approved by Honors Committee.

prereq: ENGL 12000, perm dept.
3 hrs 3 cr.

**Honors in Classics (Archaeology) tutorials are open only to majors**

ANTHC 12600 - Introduction to Prehistoric Archaeology
Hunter Core World Culture and Global Issues (WCGI) GER 2/B
Human social and cultural evolution from the earliest humans to the rise of the first civilizations.
3 hrs 3 cr. offered every sem.

ANTHC 12700 - Methods In Archaeological Science
Hunter Core SW
Introduction to theory and method of scientific research in archaeology.
prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.

ANTHC 22600 - Archaeology of Africa
Pluralism and Diversity PD/A
Prehistory; origins, adaptations, cultural evolution of early hominids; origins of agriculture, early complex societies.

prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.

ANTHC 22700 - Archaeology of Europe

Pluralism and Diversity

Prehistory; early hunting and gathering adaptations, beginnings of sedentary village life, development of complex societies.

prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.

ANTHC 22800 - Archaeology of the Near East to 2000 BC

Pluralism and Diversity

Sociocultural development of Near East from early hunter-gatherers to first states and empires.

prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.

ANTHC 23100 - Archaeology of Mesoamerica

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.

ANTHC 23200 - Archaeology of South America and the Caribbean

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

prereq: ANTHC 12600 or perm instr.
3 hrs 3 cr.
ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity

See note below

Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.

The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

- ANTHC 42659 Archaeology of North America meets PD/B
- ANTHC 42660 Archaeology of Colonialism meets PD/D

prereq:

ANTHC 12600 or perm instr.

3 hrs
3 cr.

Honors and Tutorials

Departmental honors in classics and tutorials are open only to majors.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education -
Ancient Roman culture: art and literature, law, architecture, engineering, economics, popular culture, leisure activities.

prereq: ENGL 12000
3 hrs
3 cr.

ARC 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.

prereq: ENGL 12000
3 hrs
3 cr.

CLA 25000 - Greek and Roman Tragedy (W)

A study of plays of Aeschylus, Sophocles, Euripides, and Seneca in their literary, religious, and social contexts.

prereq: ENGL 12000 recom: CLA 10100
3 hrs
3 cr.

CLA 25100 - Ancient Comedy (W)

Aristophanes, Menander, Plautus, and Terence, with consideration of their influence on Western comic tradition.

prereq: ENGL 12000
3 hrs
3 cr.
Ancient narrative song and poetry, with emphasis on the Iliad and Odyssey of Homer and the Aeneid of Vergil.

prereq:
ENGL 12000 recom: CLA 10100

3 hrs
3 cr.

Courses Required for the Major (24 credits)

12 credits of Greek or 12 credits of Latin, including
GRK 10100 - Beginning Ancient Greek 1
Elementary course in grammar, syntax and morphology of Ancient Greek.

For credit policy on GRK 10100 without GRK 10200 please see Language Proficiency Requirement.

3 hrs
3 cr.
offered fall

GRK 10200 - Beginning Ancient Greek 2
Elementary course in grammar, syntax and morphology of Ancient Greek.

prereq:
GRK 10100

3 hrs
3 cr.
offered spring

LAT 10200 - Beginning Latin 2
3 hrs.
3 cr.
offered spring

12 credits of Classics courses given in English (with a CLA or a CLARC prefix), including two courses at the 300 level

Note:
CLA 10100 and CLA 11000 do not count toward the major.

Honors and Tutorials

Departmental honors in classics and tutorials are open only to majors.
Note: Can serve as one of the 3 credit CLA elective courses.

CLA 49100 - Honors in Classics
Sr only. Individual research under direction of member of department, culminating in essay approved by Honors Committee.
prereq: ENGL 12000, perm dept.
3 hrs, 3 cr.

Courses in Classical Studies

CLA 10100 - Classical Mythology
Hunter Core
World Culture and Global Issues (WCGI)
GER
2/C
Greek and Roman myth as represented in ancient art and literature, with emphasis on modern interpretations and theories.
3 hrs, 3 cr.

CLA 11000 - The Greek and Latin Roots of English
Hunter Core
World Culture and Global Issues (WCGI)
GER
2/C
Elements of language structure; how languages work; elements of Latin and Greek in English vocabulary.
3 hrs, 3 cr.

CLA 20100 - Greek Civilization (W)
Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C
Ancient Greek culture: art and literature, religion, philosophy, economics, politics, education, and athletics.
prereq: ENGL 12000
3 hrs, 3 cr.

CLARC 20200 - Hellenistic Civilization (W)
The Mediterranean world after Alexander the Great: synthesis of Greek and oriental cultures.

Prereq: ENGL 12000; CLA 20100 or CLARC 20400

3 hrs 3 cr.

CLA 20300 - Roman Civilization (W)

Hunter Core World Culture and Global Issues (WCGI) Pluralism and Diversity PD/D GER 2/C

Ancient Roman culture: art and literature, law, architecture, engineering, economics, popular culture, leisure activities.

Prereq: ENGL 12000

3 hrs 3 cr.

CLARC 22000 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)

Hunter Core World Culture and Global Issues (WCGI) GER 2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.

Prereq: ENGL 12000

3 hrs 3 cr.

CLARC 22100 - Aegean Archaeology (W)

Prereq: ENGL 12000, CLARC 20400

3 hrs 3 cr.

CLARC 22000 - Greek Archaeology (W)
Pluralism and Diversity
PD/D
GER
3/A
Greece from Archaic to Hellenistic period: culture, Greek cities overseas, daily life; Delphi, Olympia, Athens.
prereq: ENGL 12000; CLARC 20400
3 hrs
3 cr.

CLARC 22200 - Roman Archaeology I: Etruscans, Monarchy, Republic (W)
Pluralism and Diversity
PD/A
GER
3/A
Etruscans and pre-Roman Italy; rise of Rome to the time of Julius Caesar: architecture, painting, sculpture; Pompeii and daily life.
prereq: ENGL 12000; CLARC 20300 - or CLARC 20400
3 hrs
3 cr.
fall only

CLARC 32100 - Archaeology of Egypt (W)
Pluralism and Diversity
PD/A
GER
3/A
Sites, cultures, and styles of ancient Egypt, Giza, Thebes, Amarna; hieroglyphs, literature, tombs, religion, daily life.
prereq: ENGL 12000, CLARC 20400
3 hrs
3 cr.

CLARC 32500 - Archaeology of Eastern Mediterranean (W)
Pluralism and Diversity
PD/A
GER
3/A
The Levant (Syria, Jordan, Lebanon, Israel) and Cyprus, from the Neolithic to the Persian era, ca. 10,000 – 500 BCE.
prereq: ENGL 12000, CLARC 20400
3 hrs
3 cr.

CLA 24000 - Topics in Classics
Examination of specific areas of classical culture, such as literature, language, or numismatics.

prereq: ENGL 120
3 hrs
3 cr.

CLA 25000 - Greek and Roman Tragedy (W)
Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity - PD/D
GER 2/C
A study of plays of Aeschylus, Sophocles, Euripides, and Seneca in their literary, religious, and social contexts.

prereq: ENGL 12000 recom: CLA 10100
3 hrs
3 cr.

CLA 25100 - Ancient Comedy (W)
Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity - PD/D
GER 2/C
Aristophanes, Menander, Plautus, and Terence, with a consideration of their influence on Western comic tradition.

prereq: ENGL 12000
3 hrs
3 cr.

CLA 25300 - Homer and Vergil (W)
Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity - PD/D
GER 2/C
Ancient narrative song and poetry, with emphasis on the Iliad and Odyssey of Homer and the Aeneid of Vergil.

prereq: ENGL 12000 recom: CLA 10100
3 hrs
3 cr.

CLA 25400 - The Ancient Novel in Translation (W)
Pluralism and Diversity - PD/D
GER
Greek and Roman prose fiction - Petronius' Satyricon, Apuleius' Golden Ass, Achilles Tatius' Leucippe, Longus' Daphnis and Chloe, and Heliodorus' Ethiopian Tale.

Prereq: ENGL 22000 or perm instr.

3 hrs
3 cr.

CLA 30200 - Comparative Backgrounds of Classical Mythology (W)

Pluralism and Diversity
GER

Mythological systems that bear on classical myth, including Egyptian, Mesopotamian, Hittite, Ugaritic, and Celtic myths.

Prereq: ENGL 12000; CLA 10100 or 20100

3 hrs
3 cr.

CLA 30300 - Religion of Ancient Greece (W)

Pluralism and Diversity
GER

The Ancient Greek religious experience: official rites, mystery cults, oracles, personal religious belief, and practice.

Prereq: ENGL 12000, CLA 10100 or 20100

3 hrs
3 cr.

Pluralism and Diversity
PD/D
GER

Transformation of classical culture in late antiquity: religion, philosophy, mysticism, magic, astrology.

Prereq: ENGL 12000; CLA 20100 or 20300

3 hrs
3 cr.

CLA 30500 - Women and Slaves in Classical Antiquity (W)

Pluralism and Diversity
PD/C or D
GER

Women and slaves in Greek and Roman society and their influence on Western attitudes about sex and class.

Cross-listed: WGSC 30500 (W)

Prereq: ENGL 12000; CLA 20100 or 20300

3 hrs
3 cr.
CLA 30600 - Special Studies in Ancient Greek Culture
Examination of specific areas of Greek life. Topics vary from year to year.
prereq: ENGL 12000
3 hrs 3 cr.

CLA 30700 - Special Studies in Ancient Roman Culture
Examination of specific areas of Roman life. Topics vary from year to year.
prereq: ENGL 12000
3 hrs 3 cr.

CLA 30800 - Magic and Science in the Ancient World (W)
GER
3/A
The interaction of scientific and magical world views in Greek, Roman and Near Eastern antiquity from the invention of writing to the origins of alchemy.
prereq: ENGL 12000; CLA 20100 or 20300
3 hrs 3 cr.

CLA 31000 - Ancient Sports and Spectacles (W)
Pluralism and Diversity
PD/D
GER
3/A
An exploration of ancient Greek and Roman sports and spectacles, focusing on evidence supplied by literary texts, archaeology, and the visual arts.
prereq: ENGL 12000; CLA 20100 or 20300
3 hrs 3 cr.

CLARC 32200 - Archaeology of Mesopotamia and Iran (W)
Pluralism and Diversity
PD/A
GER
3/A
Sites, cultures, and styles of ancient Mesopotamia and Iran. First cities, tombs of Ur, ziggurats, palaces, Elamites and Persians.
prereq: ENGL 12000, CLARC 20400
3 hrs 3 cr.
CLARC 32300 - Archaeology of Anatolia (W)

Pluralism and Diversity

PD/A GER 3/A

Sites, cultures, and styles of ancient Anatolia: Catal Huyuk, Troy, the Hittites, royal tombs of Phrygia and Lycia.

prereq: ENGL 12000, CLARC 20400

3 hrs 3 cr.

CLARC 32900 - Problems in Archaeology

Exploration in depth of particular area or period in Old World archaeology. Topics vary.

prereq: ENGL 12000; CLARC 20400 and one other CLARC course

3 hrs 3 cr.

CLARC 23000 - Field Seminar in Archaeology

Fieldwork, undertaken during a school semester or summer, under auspices of department or in an approved program, teaching excavation, or field school.

Open only to majors who have completed ENGL 12000 and CLARC 20400.

prereq: ENGL 12000, CLARC 20400. Open to majors only; with permission of dept.

1-6 hrs 1-6 cr.

CLA 42100 - Independent Study in Classics

Open to majors only.

prereq: ENGL 12000, perm dept.

1-3 cr.

CLA 49100 - Honors in Classics

Sr only. Individual research under direction of member of department, culminating in essay approved by Honors Committee.

prereq: ENGL 12000, perm dept.

3 hrs 3 cr.

CLA 49800 - Internship

prereq: ENGL 12000, perm dept.

1-6 cr.
The degree map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the degree map to fit your situation. Consult with your advisor about the best path for you.

### Freshman Year

**Fall**

- **ENGL 12000** - Expository Writing
  - Hunter Core: English Comp (EC)
- **ARB 14800** - Beginning Arabic for Heritage Speakers
  - This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.
  - **prereq:** perm of division head
  - 3 hrs
  - 3 cr.

**Spring**

- **ENGL 22000** - Introduction to Writing about Literature (W)
  - Hunter Core: English Comp (EC)
- **ARB 24800** - Intermediate Arabic for Heritage Speakers
  - The course is not open to students who have taken the ARB 10100-30200 sequence.
  - 3 hrs
  - 3 cr.
This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB sequence.

prereq: ARB 14800 or Arabic Program head's permission

3 hrs 3 cr.

Creative Expression
Individual & Society / Humanities
Life and Physical Sciences

Sophomore Year
Fall
ARB 15000
Introduction to Modern Arab Cultures

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
P/D A

This course will explore the diversity of cultures in the modern Arab World. By “culture” we mean the practices of everyday life as well as works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs 3 cr.

3 credits

ARB 40100 - Focused Arabic Study for Advanced Students
Pluralism and Diversity
A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

prereq: ARB 30200

3 hrs
3 cr.

• Elective
• Elective
• Elective

Spring
ARB 49000 - The Arabic Senior Capstone
This capstone course is intended to have students integrate and synthesize the knowledge of the Arab world that they have developed through previous coursework into a final project in Arabic. Projects may include: academic papers synthesizing primary and secondary sources; artistic and/or documentary videos; source or archival surveys; annotated bibliographies; live and/or recorded artistic performances; exhibitions/installations; literary or cultural criticism; feature-length journalism; reports on services; websites or computer applications. The final project will be evaluated mainly on the basis of the level, range, and linguistic accuracy of the Arabic that is used in it.

prereq: ARB 15000 and one 200-level ARB course

coreq: ARB 40100
The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Arabic major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your major requirements and plan your courses. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

**Freshman Year**

**Fall**
- **ENGL 12000** - Expository Writing
  - Hunter Core English Comp (EC)
- **ARB 20100** - Intermediate Arabic I
  - Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.
  - Prereq: ARB 10200 or equiv.

**Spring**
- **ENGL 22000** - Introduction to Writing about Literature (W)
  - Hunter Core English Comp (EC)

This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

- **3 hrs + conf**
- **3 cr.**

• Math & Quantitative Reasoning
• Scientific World
• Individual & Society/ Social Sciences
ARB 10200 - Beginning Arabic II
Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of the course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview, and a final examination. This class is not for native speakers.

ARB 15000 - Introduction to Modern Arab Cultures
Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity (P/D A)
This course will explore the diversity of cultures in the modern Arab World. Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education -
The major consists of 24-30 credits. In general, a Hebrew major is required to achieve proficiency in Biblical and/or modern Hebrew literature by successfully completing a minimum of four courses at the 300 level in Hebrew. Courses in Hebraic studies conducted in English may be applied toward partial fulfillment of the Hebrew major provided they are part of a coherent program approved by the head of the division. Qualified students interested in a more intensive program in the field of Hebraic or Judaic studies, particularly those preparing for graduate work in such specialized areas as Semitic languages and civilizations, Jewish history, Biblical studies and archaeology, medieval or modern Hebrew literature, Near Eastern studies or religious studies, should consult a division adviser regarding additional courses and requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education -
100/200 level HEBR courses (12 credits)

300 level HEBR courses (12 credits)

Honors

Opportunity for honors work is available through HEBR 49100 - Honors Project.

Courses in Hebrew

HEBR 10100 - Elementary Hebrew I
Fundamentals of reading, pronunciation and grammar for beginners. Practice in conversation and writing.

HEBR 10100 usually not credited without HEBR 10200. For details about credit policy, please see Language Proficiency Requirement.

3 hrs 3 cr.

3 cr
HEBR 22000 - Israeli Cinema
PD/A
GER
3/A
Israeli cinema and the development of Israeli cultural identity. Designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. This course will explore discourses on topics concerning the Israeli-Palestinian and Israeli-Arab conflicts, Zionist and post-Zionist trends, socio-economic gaps, religious controversies and aesthetic societal contexts, as well as women's issues. The course will employ a variety of disciplines, including but not limited to formalist and semiotic film theories and literary analysis. The student will gain fundamental insight into Israeli culture. No knowledge of Hebrew is required but can be helpful. Students, who wish to do the reading and discussion in the Hebrew language, may have that option. Course will be conducted in English.
HEBR 21344 - Modern Israeli Culture
Hunter Core
World Culture and Global Issues (WCGI)
A survey of contemporary Israeli culture, exploring topics relating to language, literature, history, rituals, politics, music and education.

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education -
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (24 credits)
The Russian major consists of at least 24 credits chosen among courses in the language beyond RUSS 10200 or RUSS 10300.

Russian Concentrations
There are four possible concentrations within the Russian Major, the requirements for which are outlined below. Students who demonstrate proficiency in Russian through a placement exam may be exempted from some courses.

1. Russian Language Concentration: for students who want to acquire native fluency in spoken and written Russian and a thorough knowledge of Russian literature.
   • RUSS 10100 and RUSS 10200 Elementary Russian - or - RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
   • 24 credits in courses beyond RUSS 10200 or RUSS 10300.

2. Russian Language and Culture Concentration: for students interested in the arts rather than in language. With the permission of the division head, a limited number of courses in translation may be applied to the major sequence.
   • RUSS 10100 and RUSS 10200 Elementary Russian - or - RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
   • 24 credits in courses beyond RUSS 10200 or RUSS 10300.

3. Russian and East Central European Studies (RECE) Concentration: For students interested in a variety of disciplines in combination with courses from the Division of Russian and Slavic Studies. Requirements for RECE include
   • Russian or Slavic language proficiency or 6 credits in Russian or Slavic language at the 20200 (intermediate) level or above
   • 18 credits distributed as follows:
     a. Russian or East Central European history (3 cr.);
     b. RECE area political science (3 cr.);
     c. Russian or East Central European literature, culture or arts (3 cr.);
     d. and three additional 200- or 300-level courses chosen from two of the following categories:
        i. anthropology,
        ii. economics,
        iii. geography,
        iv. history,
        v. political science and
        vi. literature, culture or arts.
   • Students should select courses in consultation with their RECE adviser. In addition to their 18- to 24-credit concentration, students are strongly urged to choose 12 minor credits from disciplines related to RECE.

4. Russian Translation Concentration: for students interested in acquiring training in Russian translation in a variety of professional fields. Requirements for the concentration in Russian translation include:
   • RUSS 10100 and RUSS 10200 Elementary Russian - or - RUSS 10300 Elementary Russian for Heritage Speakers (Intensive)
   • 6 credits in Russian language at the intermediate level (RUSS 20100 and RUSS 20200) or 6 credits in the intensive RUSS 20300 for heritage speakers.
RUSS 21500 Translating Culture: Introduction to Theory and Practice

RUSS 30100 Advanced Russian I

RUSS 30200 Advanced Russian II

RUSS 31700 Practical Aspects of Translation

RUSS 31800 Advanced Translation

RUSS 49800 Internship in Russian and Slavic Studies

*Students exempt from the Russian language requirement through proficiency testing or by permission of the Division Head are required to take 6 credits at the 300-level of either:

1. Two language courses from the following courses:
   - RUSS 31200
   - RUSS 31300
   - RUSS 31400
   - RUSS 31500
   - or
   - RUSS 31900

2. Two literature courses in Russian

3. One literature course and one of the above language courses

Minor in Arabic and Minor in Arabic Studies

Return to Classical and Oriental Studies

Two 12-credit minors are offered by the Arabic Language, Literature, and Culture Division of the Department of Classical and Oriental Studies: Arabic and Arabic Studies.

Minor in Arabic

The minor in Arabic requires the successful completion of

ARB 20100 - Intermediate Arabic I

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

prereq: ARB 10200 or equiv.
3 hrs
3 cr.

ARB 20200 - Intermediate Arabic II

Continuation of ARB 20100.

prereq: ARB 20100 or equiv.
3 hrs
3 cr.

ARB 30100 - Advanced Arabic I
Emphasis on increased proficiency in reading, speaking and writing Arabic

**Prereq:** ARB 20200 or equiv.

3 hrs
3 cr.

ARB 30200
Advanced Arabic II
Continuation of ARB 30100

**Prereq:** ARB 30100 or equiv.

3 hrs
3 cr.

or their equivalent as determined by the Arabic Program Head.

ARB 24900
Special Topics in Arabic Dialects

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

**Prereq:** ARB 20200

3 hrs
3 cr.

ARB 40100
Focused Arabic Study for Advanced Students

Pluralism and Diversity

P/D A

A 4th-year Arabic course in which we continue ARB 30200’s focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

**Prereq:** ARB 30200

3 hrs
3 cr.

can count toward the minor
Arabic Studies Minor

At least 2 Arabic language classes taken at Hunter

• ARB 10100 Beginning Arabic I
• ARB 10200 Beginning Arabic II
• ARB 24900 Special Topics in Arabic Dialects
• ARB 20100 Intermediate Arabic I
• ARB 20200 Intermediate Arabic II
• ARB 30100 Advanced Arabic I
• ARB 30200 Advanced Arabic II
• ARB 40100 Focused Arabic Study for Advanced Students

or at a program approved by the Arabic Program Head and at least two ARB courses taught in English.

For students who test out of ARB 30200 without having taken any Arabic courses at the university level, the Arabic Studies Minor can be achieved by taking at least 4 courses from the ARB courses taught in English.

Total credits for the minor: 12
Arabic Courses

ARB 10100 - Beginning Arabic I

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language.

Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Language Proficiency Requirement

3 hrs 3 cr.

ARB 10200 - Beginning Arabic II

Continuation of ARB 10100.

The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language.

Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

This class is not for native speakers.

prereq: ARB 10100 or permission of Head of Arabic Program.

3 hrs 3 cr.

ARB 14800 - Beginning Arabic for Heritage Speakers

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head

3 hrs 3 cr.

ARB 14900 - Spoken Egyptian Arabic

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt.

This course is closed to native speakers of Arabic.

prereq: ARB 10200 and permission of instructor

3 hours 3 credits

ARB 15000 - Introduction to Modern Arab Cultures

This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs 3 cr.

ARB 20000 - Topics in Arabic Literature and Culture
This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Reading in translation. Specific information on a particular semester's offerings can be found on the online class schedule.

**ARB 20100**
Intermediate Arabic I
Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

**Prereq:** ARB 10200 or equiv.

3 hrs 3 cr.

**ARB 20200**
Intermediate Arabic II
Continuation of ARB 20100.

**Prereq:** ARB 20100 or equiv.

3 hrs 3 cr.

**ARB 24800**
Intermediate Arabic for Heritage Speakers
This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement.

More than ARB 14800, this course will rely on authentic materials not found in any textbook. The course is not open to students who have taken the ARB 10100-30200 sequence.

**Prereq:** ARB 14800 or Arabic Program head's permission

3 hrs 3 cr.

**ARB 24900**
Special Topics in Arabic Dialects
The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

**Prereq:** ARB 20200

3 hrs 3 cr.

**ARB 25000**
The Arab Novel (in translation) (W)
Hunter Core
Creative Expression (CE)
Pluralism and Diversity (PD/A)
GER 2/C
A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

**Prereq:** ENG 22000 or equiv.

3 hrs 3 cr.

**ARB 25100**
Arab Cinema (in translation)

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

prereq: ENGL 12000 or equivalent
3 hrs 3 credits

ARB 25200 - Literatures from the Islamic World (W)
Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C
A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.
prereq: ENGL 12000 or equivalent
3 hrs 3 credits

ARB 25300 - Literatures and Cultures of Muslim Spain (W)
Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C
A survey of the literary and cultural history of Muslim Spain, 8th-15th century C.E.
prereq: ENGL 12000 or equivalent
3 hrs 3 credits

ARB 25400 - The Arabian Nights East and West (W)
Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C
The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.
prereq or coreq: ENGL 12000 or equivalent
War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

Prereq: ARB 20200 or equiv.

ARB 30200 - Advanced Arabic II
Continuation of ARB 30100
Prereq: ARB 30100 or equiv.

ARB 40100 - Focused Arabic Study for Advanced Students
A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

Prereq: ARB 30200
The Minor in Chinese consists of 12 credits. Students must take four courses at or above CHIN 200 level taught in Chinese. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor.

Minor in Classical Archaeology

These courses will provide the student with a broad overview of the material cultures of the ancient classical and Near Eastern civilizations and serve as an introduction to the methodologies, investigative techniques and analyses employed in the field of archaeology.

12 credits

1. CLARC 20400 Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)
2. CLARC 22100 Greek Archaeology (W)
3. CLARC 22200 Roman Archaeology I: Etruscans, Monarchy, Republic (W) or CLARC 22300 Roman Archaeology II: The Archaeology of the Roman Empire
4. One other course in Classical Archaeology at the 200- or 300-level.
   - CLARC 22000 Aegean Archaeology (W)
   - CLARC 32100 Archaeology of Egypt (W)
   - CLARC 32200 Archaeology of Mesopotamia and Iran (W)
   - CLARC 32300 Archaeology of Anatolia (W)
   - CLARC 32400 Archaeology of Western Mediterranean
   - CLARC 32500 Archaeology of Eastern Mediterranean (W)
   - CLARC 32800 Theory and Methods in Classical Archaeology (W)
   - CLARC 32900 Problems in Archaeology

Note: CLARC 20400 is a prerequisite for all other Classical Archaeology courses.

Minor in Classical Studies

12 Credits:

1. CLA 10100 Classical Mythology
2. CLA 20100 Greek Civilization (W)
3. CLA 20300 Roman Civilization (W)
One course with a CLA or a CLARC prefix at the 200- or 300-level (e.g., literature in translation or upper-level culture courses or CLARC 20400).

Note: CLA 10100, CLA 20100, and CLA 20300 have no prerequisites.

Minor in Hebraic Studies

Minor: 12 credits

The Hebraic Studies minor requires the successful completion of four HEBR literature and/or culture courses on the 200-level or above, taught in English or in Hebrew. Two Hebrew language courses on 300-level or above may be used toward the minor requirement in lieu of two literature or culture courses.

Minor in Hebrew

The Hebrew minor requires the successful completion of 12 credits at the 200-level or above.

Courses counted toward the Hebrew minor must be either language courses or have Hebrew as their language of instruction.

Minor in Japanese Language

Fall 2019

The Japanese Language Minor seeks to develop students' understanding of the Japanese language at an advanced level. With higher-level language courses, students will be exposed to more complex oral and written Japanese that will lead to a greater fluency in the language.

To this end, the Japanese Language Minor requires completion of a minimum of 12 credits (4 courses). By completing the Japanese Language Minor, students will also have fulfilled the Hunter College language requirement. No grade below B- shall be considered to fulfill the requirements for this minor.

Student must complete the following course:

• JPN 20200 Intermediate Japanese II

Students must take at least three of the following courses or an elective course approved by the department head (9 credit hours total):

• JPN 27100 Japanese Reading: Recitation and Comprehension
• JPN 30100 Advanced Japanese I
• JPN 30200 Advanced Japanese II
• JPN 35100 Advanced Japanese Conversation
• JPN 42103 Independent Study in Japanese

Note: Only one 200-level from the 200-level elective courses listed above can be counted toward the minor.

Students who place out of JPN 20200 will need to complete 12 credits from the elective list.

Effective Spring 2020

The Japanese Language Minor requires completion of a minimum of 12 credits (4 courses). By completing the Japanese Language Minor, students will also have fulfilled the Hunter College language requirement. No grade below B- shall be considered to fulfill the requirements for this minor.
Students must complete the following course:

• JPN 20200 Intermediate Japanese II

Students must take at least three of the following courses or an elective course approved by the department head (9 credit hours total):

• JPN 27100 Japanese Reading: Recitation and Comprehension
• JPN 30100 Advanced Japanese I
• JPN 30200 Advanced Japanese II
• JPN 30400 Special Topics in Japanese Language
• JPN 35100 Advanced Japanese Conversation
• JPN 40400 Advanced Special Topics in Japanese Language
• JPN 42100 Independent Study in Japanese

Minor in Japanese Studies

The Japanese Studies Minor seeks to develop students’ understanding of Japanese culture, while also fostering a broader understanding of Japan’s influence in the world. The required culture classes (JPN 25100 and JPN 25200) will give students a foundation specifically in Japanese culture and society, and the additional elective courses offer students the option to customize the aspects of Japan they want to research. This minor is designed to be flexible and accommodate students who do not take Japanese language classes, but rather have an interest purely in Japanese culture. The majority of classes that satisfy this minor are taught in English, however some Japanese language classes can be used to fulfill it. Students who complete the minor will have a well-rounded perspective on Japanese history and contemporary issues that will give insight into Japan. No grade below B- shall be considered to fulfill these requirements.

Students must complete the following courses (6 credit hours)

• JPN 25100 Japanese Culture Before 1600
• JPN 25200 Japanese Culture Since 1600

Students must take at least two of the following elective courses or an elective course approved by the department head (6 credit hours total)

• JPN 27100 Japanese Reading: Recitation and Comprehension
• JPN 35100 Advanced Japanese Conversation
• JPN 42100 Independent Study in Japanese
• ASIAN 21000 Asians in the U.S.
• ASIAN 22001 Asian American Women Writers
• ASIAN 32001 Nation, Self, and Asian Identity
• ASIAN 35152 Asian American Literature and Pop Culture
• FILM 21355 National Cinema: Asian Cinema
• HIST 27700 East Asia to 1600 (W)
• HIST 27800 East Asia, 1600 to the Present (W)

Note: Students may petition for other courses to fulfill the elective requirement. No more than one class from other campuses or universities may be used to fulfill requirements.

Minor in Latin or Ancient Greek

Greek:
12 credits beyond GRK 10100/ GRK 10200

Latin:
12 credits beyond LAT 10100/ LAT 10200 or LAT 10700

Minor in Russian Language and Minor in Russian Literature and Culture
Courses taken toward the Russian minor could follow two tracks:

- **Track I: Russian Language Minor**
  - Prerequisite: RUSS 20200 or equivalent.
  - Students are expected to take: RUSS 30100 & RUSS 30200; RUSS 31700 or RUSS 31800 or RUSS 31900; plus one literature course taught in Russian.

- **Track II: Russian Literature and Culture Minor**
  - Prerequisite: RUSS 20200 or equivalent.
  - Students are expected to take: RUSS 30100 & RUSS 30200 and two literature or culture courses conducted either in Russian or in English. Literature courses may be substituted for language courses in the Literature and Culture Minor with permission by the head of the program.

**Japanese Courses**

The following are the courses offered in Japanese language and culture.

**Courses in Japanese Language/Culture**

- **JPN 10100 - Elementary Japanese I**
  - Introduction to reading and writing modern Japanese. Fundamentals of grammar, pronunciation, vocabulary, and conversation. 3 hrs 3 cr.
  - **JPN 10100 not usually credited without JPN 10200.**
  - For details about credit policy, please see Language Proficiency Requirement.

- **JPN 10200 - Elementary Japanese II**
  - Continuation of 10100.
  - Prereq: JPN 10100 or equiv.
  - 3 hrs 3 cr.

- **JPN 20100 - Intermediate Japanese I**
  - Continuation of JPN 10100 - 10200. Extensive reading and writing practice, including at least 500 additional kanji; advanced grammar study.
  - Prereq: JPN 10200 or equiv.
  - 3 hrs 3 cr.

- **JPN 20200 - Intermediate Japanese II**
  - Continuation of JPN 20100.
  - Prereq: JPN 20100 or equiv.
  - 3 hrs 3 cr.

- **JPN 30100 - Advanced Japanese I**
  - Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.
  - Prereq: JPN 20200 or equiv.
Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.

prereq: JPN 30100 or equiv.

Japanese Culture Before 1600

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kamakura, and Heian—just to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries—most notably China—to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the coexistence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).

prereq: ENGL 120

Japanese Culture Since 1600

This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures—their own and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions celebrated today. Art, literature, and social reform will also play important roles throughout the semester.

prereq: ENGL 120

Beginning Arabic I

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of this class. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview, and a final examination. This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Language Proficiency Requirement.
The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language.

Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

Prereq: ARB 10100 or permission of Head of Arabic Program. 3 hrs 3 cr.

ARB 14800 - Beginning Arabic for Heritage Speakers
This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

Prereq: perm of division head. 3 hrs 3 cr.

ARB 14900 - Spoken Egyptian Arabic
The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

Prereq: ARB 10200 and permission of instructor. 3 hours 3 credits

ARB 15000 - Introduction to Modern Arab Cultures
Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
P/D A
This course will explore the diversity of cultures in the modern Arab World. By "culture" we mean the practices of everyday life as well as works of culture such as novels, poetry, plays, music, movies, television shows and other cultural texts. We will view culture through a variety of prisms such as language, geography, history and gender.

3 hrs 3 cr.

ARB 20000 - Topics in Arabic Literature and Culture
This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the online class schedule.

Prereq: ENGL 12000 or equivalent. 3 hrs. 3 cr.

ARB 20100 - Intermediate Arabic I
Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

Prereq: ARB 10200 or equiv. 3 hrs 3 cr.
ARB 24800 - Intermediate Arabic for Heritage Speakers

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any text book. The course is not open to students who have taken the ARB 10100-30200 sequence.

Prerequisite: ARB 14800 or Arabic Program head's permission

3 hrs 3 cr.

ARB 24900 - Special Topics in Arabic Dialects

The goal of this course is to teach students oral communication in spoken Arabic, as well as to impart cultural knowledge relevant to a student living in or visiting the Arab World. This course is closed to native speakers and heritage learners of Arabic. The dialect taught in this course will depend on student demand and the instructor.

Prerequisite: ARB 20200

3 hrs 3 cr.

ARB 25000 - The Arab Novel (in translation) (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER 2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

Prerequisite: ENG 22000 or equiv.

3 hrs 3 cr.

ARB 25100 - Arab Cinema (in translation)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER 2/D

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

Prerequisite: ENGL 12000 or equivalent

3 hrs 3 credits

ARB 25200 - Literatures from the Islamic World (W)
A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

prereq: ENGL 12000 or equivalent

3 hrs
3 credits

Arab 25300 - Literatures and Cultures of Muslim Spain (W)

Arab 25400 - The Arabian Nights East and West (W)

Arab 25500 - Modern Palestinian Culture

Arab 25600 - Modern Arab Theatre

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics:
Hunter Core

World Culture and Global Issues (WCGI)

Pluralism and Diversity

Welcoming students of any major or background, this course opens an angle on culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.

3 hrs
3 cr.

ARB 25700 - Language and Culture in Contemporary North Africa

Pluralism and Diversity

GER

World Cultures and Global Issues (WCGI)

North Africa (Maghreb) is often described as a crossroads of many cultures - Arab, Berber, African, European, and others. Over the course of this semester, we will discuss important issues facing this region, including democratic reform efforts both before and following the Arab spring, Berber language movements and other language debates, colonial and post-colonial struggles, and social and cultural debates surrounding gender and religion. Through readings of key literary, historical, political, and cultural texts, as well as viewing important documentary and fictional film productions, we will examine this fascinating region from multiple vantage points.

prereq: ENGL 12000

3 hrs
3 cr.

ARB 30000 - Problems in Arabic Literature and Culture

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the online class schedule.

prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEB 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.

3 hours
3 credits

ARB 30100 - Advanced Arabic I

Emphasis on increased proficiency in reading, speaking and writing Arabic

prereq: ARB 20200 or equiv.

3 hrs
3 cr.

ARB 30200 - Advanced Arabic II

Continuation of ARB 30100

prereq: ARB 30100 or equiv.

3 hrs
3 cr.

ARB 40100 - Focused Arabic Study for Advanced Students

Pluralism and Diversity

A 4th-year Arabic course in which we continue ARB 30200's focus on advanced reading, writing, listening, and speaking in Modern Standard Arabic while incorporating more advanced authentic texts and grammatical structures. The vocabulary in this course continues the trajectory of that in ARB 30100 and ARB 30200 of being less subjective and more academic.

prereq: ARB 30200

3 hrs
3 cr.
This capstone course is intended to have students integrate and synthesize the knowledge of the Arab world that they have developed through previous coursework into a final project in Arabic. Projects may include: academic papers synthesizing primary and secondary sources; artistic and/or documentary videos; source or archival surveys; annotated bibliographies; live and/or recorded artistic performances; exhibitions/installations; literary or cultural criticism; feature-length journalism; reports on services; websites or computer applications. The final project will be evaluated mainly on the basis of the level, range, and linguistic accuracy of the Arabic that is used in it.

prereq: ARB 15000 and one 200-level ARB course
coreq: ARB 40100

3 hrs
3 cr.

ARB 49801, 49802, 49803 - Internship in Arab Studies

Pluralism and Diversity
PD/A

This course will give students real-world experience with Arab/Middle East-related organizations where they can apply their academic and linguistic experience, interact with and serve Arab communities, expand their professional network, and develop skills relevant to future professional jobs. This course may be taken for a maximum total of 6 credits.

prereq: Departmental permission

Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi.
prereq: CHIN 30400 or equiv.
3 hrs 3 cr.

CHIN 31600 - Introduction to Business Translation (Chinese–English)
This course introduces a broad scope of language support services pertaining to the business environment, specifically, to a variety of written documents and face-to-face situations that call for translation between Chinese and English—from official stationery, daily correspondences, and meetings to press releases, press conferences, advertising copies, product manuals, and trade events. Students will learn to support translation, or general interpreting between Chinese and English in the context of business meetings. Through class discussions and

CHIN 31700 - Community Interpreting and Sight Translation, Chinese–English
This course provides a foundational skill-based grounding for the community interpreter who orally translates between English and Mandarin Chinese in both directions. This course will facilitate interpreting practice in a wide array of public, community, and commercial settings—from the adoption interview, real-estate closing, and arbitration proceedings to the pre-trial deposition and parent-teacher conference; the course will also emphasize sight translation, the oral translation of written texts, as a fundamental skill in community interpreting. As part of an experiential learning approach, students will role play and constitute their own "scenarios," practice self- and peer-assessment, and learn the multi-faceted process of interpreting, including note-taking, listening, voice production, the use of verbal and non-verbal cues, memory

CHIN 31800 - Intercultural and Interlingual Discourse in Chinese & English
This course addresses the structural and cultural aspects of language use with focus on dual-language communication involving Chinese and English. Interlingually, the course will explore given structural differences between Chinese and English, including aspects of speech habits (phonology), word-formation (morphology), vocabulary (lexicon), phraseology, and sentence structure (syntax); interculturally, the course will examine how dual-language speakers (and translators) negotiate and shape Chinese and English in the dynamic of time- and place communication, including the navigation of different discourse styles, conventions governing idiom, coherence, or logic, and assumptions about gender relations, and power and status that determine who speaks when, who gets interrupted, and how rhetoric and voice are
expressed in code switching and mixing between Chinese and English. In identifying rule-governed variance and strategies used to mediate differences in communication, students will also develop an articulate understanding of how the two languages function in their separate and yet intertwined evolution.
Ancient narrative song and poetry, with emphasis on the Iliad and Odyssey of Homer and the Aeneid of Vergil.

prereq: ENGL 12000 recom: CLA 10100

3 hrs 3 cr.

JPN 25100 - Japanese Culture Before 1600
Hunter Core
Individual and Society - Humanities (I&S H)
Pluralism and Diversity
PD/A
GER
2/C
Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the evolution of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.
prereq: ENGL 120
3 hrs
3 cr.

JPN 25200 - Japanese Culture Since 1600
Pluralism and Diversity
PD/A
GER
2/C
This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures – that of the Japanese and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions that are celebrated today. Art, literature, and social reform will also play important roles throughout the semester.
prereq: ENGL 12000
3 hours
3 credits

JPN 26100 - Special Topics in Japanese Culture
Examination of specific areas of classical or contemporary Japanese culture, such as film or literature, and the economic, political, and social conditions that shaped them.

Prereq or coreq: ENGL 12000

3 hrs
3 cr.

JPN 27100 - Japanese Reading: Recitation and Comprehension

This course is targeted at students looking to strengthen their skills in reading and comprehension of Japanese books and periodicals. Additionally, reading aloud will be required in order to improve students' pronunciation and intonation.

Prereq: JPN 20100 (Intermediate Japanese I) or permission from the instructor

3 hrs
3 cr.

JPN 30100 - Advanced Japanese I

Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.

Prereq: JPN 20200 or equiv.

3 hrs
3 cr.

JPN 30200 - Advanced Japanese II

Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.

- **An overview of translation for the medical field and related sciences. The course introduces the students to key terminology, skills, as well as ethics of work in this field.**
- **Prerequisites:** RUSS 31700
- **Credit Hours:** 3 hours
- 3 credits
Character (reading and writing), Composition (Writing) and media (listening).

The study of comparative literature prepares students for careers in teaching, interpreting, and translating, as well as those professions that recognize the importance of a broad humanistic education, including law and medicine.

Programs and Courses in Comparative Literature

Honors

Students are eligible for departmental honors if their GPA in the major is no less than 3.5. The student must also take at least 3 credits (but no more than 6 credits) in honors courses offered by the program and approved by the adviser. The offerings of the Comparative Literature Program are determined by the needs of students in the program and the faculty available. For specific information, consult the coordinator.

Comparative Literature - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses Required for the Major (33 credits)

All majors take a core course in methodology, but the remaining classes in a student's program are arranged with the coordinator in an effort to work out a balance between two different bodies of literature, two different literary periods, and two different genres. In addition to comparative literature courses in prose fiction, drama, myth and folklore, literary movements, and literature and the arts, majors may also elect appropriate classes from other literature departments, as well as from such disciplines as history, philosophy, art and anthropology, with the approval of the coordinator. Upon becoming a major, a student will, in consultation with the coordinator, choose one member of the comparative literature committee as an adviser and plan an individualized program. All majors are required to review their programs with their adviser once a semester.

The comparative literature major consists of 33 credits distributed as follows:

A. ENGL 22000

B. Concentration in at least two periods and in two genres.

C. At least 9 credits in COMP-prefixed courses, beginning with the following (all of these courses will be taught in English)

  COMPL 30100
  Seminar: Approaches to Comparative Literature
  Study of selected major works to demonstrate scope and various approaches of comparative literature. Focus on conscious imitation, treatment of similar themes, use of well-defined genres and conventions as well as of concepts from history of ideas. Emphasis on close reading of texts and development of critical vocabulary.

  Required of all majors in comparative literature.

  3 hrs  3 cr.
D. 21 credits in literature courses distributed so that at least 12 credits are courses studied in the original language (be it a foreign language, if the student is proficient in that language, or English). Courses at the 300 level are strongly preferred, although exceptions may be granted by the adviser.

Honors Students are eligible for departmental honors if their GPA in the major is no less than 3.5. The student must also take at least 3 credits (but no more than 6 credits) in honors courses offered by the program and approved by the adviser. The offerings of the Comparative Literature Program are determined by the needs of students in the program and the faculty available. For specific information, consult the coordinator.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR]). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Computer Science, the course that meets CCCR is: CSCI 12700 - Introduction to Computer Science (STEM)

Hunter Core Scientific World (SW) GER 2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is prerequisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-requisite for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (40-64 credits)

The computer science major consists of 40-50 credits in CSCI courses and 0-13 credits in MATH/STAT courses. Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Students may obtain Credit by Examination for CSCI 12700, CSCI 13500 and CSCI 15000. See the Computer Science department for details.

Please note that the department of Computer Science does not accept Cr/NC grades in courses required for the Major. All computer science majors (except those following requirements for the Computer Science with Concentration in Bioinformatics - BA) must complete successfully the following courses with a grade of C or better:
Required Math Courses (0 - 13 credits)

MATH 10100 - Algebra for College Students
Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
Prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation
This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.
Prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry
Hunter Core Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH12500 for grade replacement purposes.
Prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop
This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.
Prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I
Hunter Core Math/Quantitative Reasoning
GER 1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
Prereq: MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.
Computer Science Requirements (28-39 credits)

**CSCI 12700 - Introduction to Computer Science (STEM)**

Hunter Core Scientific World (SW)
GER 2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
3 cr.

**CSCI 13500 - Software Analysis and Design I**

This course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language.

prereq: CSCI 12700 or equivalent and; MATH 12400, or 12500, or 12550, or 15000, or 15200, or 15500.

5 hrs (3 hours lecture, 2 hours recitation)
4 cr.

**CSCI 15000 - Discrete Structures**

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

4 hrs (3 Lec. 1 Rec.)
4 cr.

**MATH 16000 - Matrix Algebra**

GER 1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs
3 cr.

**CSCI 16000 - Computer Architecture I**

GER 3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

prereq: CSCI 12700, CSCI 15000

3 hrs
3 cr.
Introduction to Applied Statistics

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

Software Analysis and Design II

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

prereq: CSCI 13500, 15O00; MATH 15000

Computer Architecture II

Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.

prereq: CSCI 13500, 16000 or 24500; MATH 15000

Computer Theory I

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

prereq: CSCI 16000 or 14500; MATH 15000

Software Analysis and Design III

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

prereq: CSCI 23500, MATH 15500
Definitions of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

Prerequisite: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300

Advanced Applications: A Capstone for Majors

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

Prerequisite: All non-elective courses in Computer Science required for graduation or permission of instructor.

Electives (12 credits)

* These courses may be counted for credit in more than one program.

Honors

To graduate from Hunter College with honors in computer science, a student must have at least a 2.7 GPA overall and a 3.5 GPA or better in computer science/math and a grade of A in one of the CSCI 49300 series of courses.

Additional Information

The Computer Science Department will not accept a CR grade in any of the preliminary or required courses for the major (CSCI 13500, CSCI 15000, CSCI 16000, CSCI 23500, CSCI 26000, CSCI 26500, CSCI 33500, CSCI 34000, CSCI 36000). Any student wishing to declare computer science as a major who has received a grade of CR in any of the CSCI courses listed above, must ask the instructor of that course to change the CR grade to the appropriate letter grade. This must be done before the declaration of major form can be authorized.

Please note: A grade of "D" is not considered a passing grade by this department for any of the computer science or math courses required for the major.
The BA in Computer Science

Provides a broad base in the design, implementation and application of computer software systems; a firm grasp of the essentials of computer architecture; and a solid foundation in the theoretical aspects of computer science;

Prepares undergraduates for life after graduation in careers in business, government, and the computer industry or in the pursuit of graduate studies, and;

Exposes students to the excitement and challenge of computing technologies and theory through a variety of advanced topics courses and close participation with faculty in cutting-edge research.

The BA in Computer Science with Concentration in Bioinformatics

In addition to the core objectives cited above, provides a fundamental understanding of the most important aspects of quantitative and computational biology, including a solid background in biology, chemistry, mathematics, statistics and computer science, with an emphasis on quantitative reasoning.

Computer Science with Concentration in Bioinformatics - BA

Return to: Programs of Study

This course of study will provide computer science majors with a fundamental understanding of the most important aspects of quantitative and computational biology, including a solid background in biology, chemistry, mathematics, statistics, and computer science, with an emphasis on quantitative reasoning. Students opting to concentrate in bioinformatics are not required to take CSCI 26000, and CSCI 36000.

Instead of 15 credits of 300-level and 400-level electives, the following requirements must be met:

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of Computer Science, the course that meets CCCR is: CSCI 12700 (Scientific World). Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (57-85 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details. Students may obtain Credit by Examination for CSCI 12700, CSCI 13500 and CSCI 15000. See Computer Science department for details. Please note that the department of Computer Science does not accept Cr/NC grades in courses required for the Major.

I. Introductory Math Courses (0-9 credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs 1 cr.
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

**Note:** This course is equivalent to MATH 12500 for grade replacement purposes.

**Prerequisite:** MATH 101 or the appropriate score on the Mathematics placement test. Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs 4 cr.

**MATH 14000**

**Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

**Prerequisite:** MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs 1 cr.

**Introductory Computer Science Courses (0-7 credits)**

**CSCI 12700**

**Introduction to Computer Science (STEM)**

Hunter Core Scientific World (SW) GER 2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is prerequisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a coreq for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation) 3 cr.

**CSCI 13500**

**Software Analysis and Design I**

This course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language.

**Prerequisite:** CSCI 12700 or equivalent and; MATH 12400, or 12500, or 12550, or 15000, or 15200, or 15500.

5 hrs (3 hours lecture, 2 hours recitation) 4 cr.

**II. Students must obtain a grade of C or better in the following courses:**

**A. Computer science component (21-25 credits)**

**CSCI 15000**

**Discrete Structures**
Mathematical background required for computer science. Set

prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

4 hrs (3 Lec. 1 Rec.)
4 cr.

CSCI 16000
Computer Architecture I

GER 3/B

Boolean algebra, data representation, combinatorial circuits and minimization, sequential circuits.

prereq: CSCI 12700, CSCI 15000

3 hrs
3 cr.

CSCI 23500
Software Analysis and Design II

GER 3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

prereq: CSCI 13500, 15000; MATH 15000

3 hrs
3 cr.

CSCI 26500
Computer Theory I

GER 3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

prereq: CSCI 16000 or 14500; MATH 15000

3 hrs
3 cr.

CSCI 33500
Software Analysis and Design III

GER 3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including $\text{NP}$-completeness.

prereq: CSCI 23500, MATH 15500

3 hrs
3 cr.

CSCI 34000
Operating Systems

GER 3/B
Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure, and implementation.

Prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300. 3 hrs 3 cr.

CSCI 43500 - Database Management

Hierarchical and network databases; theory of relational databases; normalization theory; query languages.

Prereq: CSCI 33500. 3 hrs 3 cr.

CSCI 49369 - Big Data Technology

The increasing availability of big data has changed fundamental practices in business, health care, policy making, and scientific research. The primary objective of this course is to enable students to efficiently process, manage, reformulate, and mine an extremely large data set. This is an interdisciplinary course that considers data from many different sources. Students are welcome to work with their own interested domains in addition to the required ones.

Prereq: CSCI 13500 and CSCI 23200 or CSCI 43500, or permission of the instructor. 3 hrs 3 cr.

B. Math and statistics component (9-17 credits)

MATH 15000 (STEM) - Calculus I

Hunter Core Math/Quantitative Reasoning

GER 1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

Prereq: MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND co-req MATH 14000; or the appropriate score on a mathematics placement test. 4 hrs 4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core Math/Quantitative Reasoning

GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

Prereq: grade of C or better in MATH 15000. 4 hrs 4 cr.

MATH 16000 - Matrix Algebra
Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs
3 cr.

STAT 31900 - Bayesian Statistical Inference in the Sciences

Fundamental principles and techniques of probability, statistical inference and data analysis, as pertains to the sciences, especially bioinformatics.
Random variables and their distributions.
Central limit theorem.
Conditional probability, Markov chains and Hidden Markov Models.
Bayesian statistical paradigm and inference using Markov chain Monte Carlo. Computer simulations and data analysis.

prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor). Prerequisites waived for students who have passed STAT 311.

Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.

3 hrs
3 cr

C. Biology component (12 credits)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
3/B
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only
This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics concentration students from all majors.
**CHEM 10600 (STEM) - General Chemistry Laboratory**

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent to one year of general chemistry laboratory.

Primarily for pre-med, medical laboratory sciences and science majors.

**prereq:** CHEM 10200

**coreq:** CHEM 10400

---

**CHEM 22200 - Organic Chemistry Lecture I**

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**prereq:** CHEM 10400 with a grade of C or better

---

These courses may be counted for credit in more than one program.

**Degree Map**

**Degree Map for Computer Science: Bioinformatics**

A minor in Computer Science consists of 13-14 credits of coursework. These credits include the following required courses:

- **CSCI 12700 - Introduction to Computer Science (STEM)**
  (3 credits, 3 hours)

- **CSCI 13300 - Programming for Everyone**
  (3 credits, 3 hours)

- **CSCI 23200 - Relational Databases and SQL Programming, with Lab**
  (3 credits, 3 hours)

- **CSCI 23300 - Programming Projects Seminar for Minors**
  (1 credit, 2 hours)

In addition, students will be required to take at least one 3 credit elective selected from Computer Science offerings numbered 13500 or above. Although minors may take any Computer Science course numbered 13500 or above, courses that require only one or more of the above courses as prerequisites include:

- **CSCI 13500 - Software Analysis and Design I**
  (4 credits, 5 hours)

- **CSCI 15000 - Discrete Structures**
  (4 credits, 4 hours)

- **CSCI 26700 - Microprocessors and Embedded Systems**
  (3 credits, 3 hours)

- **CSCI 16000 - Computer Architecture I**
  (3 credits, 3 hours)

---

**CSCI 11500 - Computer Technology in Childhood Education**
Students in the QUEST program learn to use software tools and applications that can be infused into the curriculum of the elementary school. This includes focus on information retrieval using Internet resources and use of application packages such as Microsoft Excel, Microsoft PowerPoint, Inspiration, and Timeliner.

**CSCI 12000 - Introduction to Computers**

- Hunter Core: Scientific World (SW)
- GER: 2/E
- Intended for non-majors.
- Basic concepts of computer technology.
- Principles of hardware operation, software, and networking.
- Roles of computers in society, including ethical and legal issues.
- This course cannot be counted towards the CSCI major.
- Prerequisite: none
- 3 hrs
- 3 cr.

**CSCI 12100 - Computers and Money: Quantitative Reasoning in Context**

- Hunter Core: Math and Quantitative Reasoning (MQR)
- GER: 1/B
- Quantitative reasoning tackled from a computer-based perspective and focusing on practical financial topics - stocks, gambling, inflation, diversification, taxes, hedging, saving, real estate, retirement, and others.
- Students take a hands-on, spreadsheet-based approach to understanding issues of money and personal finance.
- This course cannot be counted towards the CSCI major.
- Prerequisite: none
- 3 hrs
- 3 cr.

**CSCI 12700 - Introduction to Computer Science (STEM)**

- Hunter Core: Scientific World (SW)
- GER: 2/E (Non-lab course)
- Overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners.
- Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices.
- This course is pre-requisite to several introductory core courses in the CS Major.
- The course is also required for the CS minor.
- MATH 12500 or higher is strongly recommended as a co-req for intended Majors.
- 3 hrs (1.5 hrs lecture, 1.5 hrs recitation)
- 3 cr.

**CSCI 13200 - Practical UNIX and Programming, with Lab**

- Hunter Core: Scientific World (SW)
- GER: 2/E
- Introduction to computer programming and the UNIX operating system using Perl.
- Conceptual overview of the UNIX operating system and programming environment.
- Practical introduction to shell programming, and the use of UNIX filters and utilities.
- Pragmatic course with an emphasis on skills acquisition.
This course cannot be counted toward the CSCI major.

**Prerequisite:** None

3 hrs 3 cr.

**CSCI 13300 - Programming for Everyone**

Hunter Core, Scientific World (SW), GER 2/E

A comprehensive practical course in programming that concentrates on producing working software for games, simulations, animations, data manipulations, interacting with the Internet, graphical user interfaces and many other application areas. No programming experience is necessary. This course is required for Computer Science minors. This course does not count toward the computer science major.

3 hrs 3 cr.

**CSCI 13500 - Software Analysis and Design I**

This course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language.

**Prerequisite:** CSCI 12700 or equivalent and; MATH 12400, or 12500, or 12550, or 15000, or 15200, or 15500.

5 hrs (3 hours lecture, 2 hours recitation)

4 cr.

**CSCI 15000 - Discrete Structures**

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

**Prerequisite:** MATH 12400 or 12500 or 12550 or 15000 or 15500

4 hrs (3 Lec. 1 Rec.)

4 cr.

**CSCI 16000 - Computer Architecture I**

GER 3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

**Prerequisite:** CSCI 12700, CSCI 15000

3 hrs 3 cr.

**CSCI 17200 - Topics in Creative Problem Solving**

CSCI 172 is a pass/fail (CR/NC) faculty-supervised workshop that meets ten times per semester. Each workshop explores a different applied topic in computer science. An undergraduate peer leader presents slides, guides discussions, and engages the participants in activities that emphasize collaborative problem solving. This course explores the role of teamwork and in-class activities to improve student retention.

Special conditions: The course meets 10 times for 1 hour 15 minutes (75 minutes). Adjusted for credit hours, the semester total is the 15 hours required for a 1-credit course. The class meets on the bell schedule for ten 75-minute sessions per semester. The special conditions are that CSCI 172 meets once rather than twice a week and meets during only ten of the 15 weeks of the semester.

1 hr 1 cr.
Outside internship in practical aspects of computing; e.g., systems programming, biomedical computing, computer-aided instruction. Credits may not be used toward the computer science major.

prereq: declared computer science major with 18 credits completed in the department

1-3 hrs 1-3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER 3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.

Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200

3 hrs 3 cr.

CSCI 23300 - Programming Projects Seminar for Minors

This course will serve as a capstone for the minor, affording students the opportunity to write reasonably large and complex programs. Students will be expected to draw topics for these programs from their majors or other areas of interest. This course does not count toward the computer science major.

prereq or coreq: CSCI 13300 and 23200 and a declared Computer Science Minor.

2 hrs. 1 credit

CSCI 23500 - Software Analysis and Design II

GER 3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

prereq: CSCI 13500, 15000; MATH 15000

3 hrs 3 cr.
CSCI 24500 - Computer Architecture II
GER 3/B
Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.
prereq: CSCI 145, CSCI 150, MATH 150
3 hrs
3 cr.

CSCI 2600 - Computer Architecture II
GER 3/B
Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.
prereq: CSCI 13500, 16000 or 24500; MATH 15000
3 hrs
3 cr.

CSCI 26500 - Computer Theory I
GER 3/B
Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.
prereq: CSCI 16000 or 14500; MATH 15000
3 hrs
3 cr.

CSCI 26700 - Microprocessors and Embedded Systems
GER 3/B
Students will assemble and program a small single board computer to control, or simulate control of, some device.
prereq: CSCI 13300 or 26000
3 hrs
3 cr.

CSCI 27500 - Symbolic Logic
GER 3/B
Sentential logic including symbolizations, truth-value tables, formal derivations. Predicate logic including symbolizations, interpretations, and formal derivations.
cross-listed MATH 27500, PHILO 27500
3 hrs
3 cr.

CSCI 33500 - Software Analysis and Design III
The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

prereq: CSCI 23500, MATH 15500

3 hrs
3 cr.

CSCI 34000 - Operating Systems

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300

3 hrs
3 cr.

CSCI 35000 - Artificial Intelligence

A survey of artificial intelligence including search and control, knowledge representation, logic and theorem proving, learning, natural language and AI programming.

prereq: CSCI 235

3 hrs
3 cr.

CSCI 35300 - Machine Learning

Machine learning is the subfield of artificial intelligence that learns to predict and classify from data. This interdisciplinary course explores how a machine learns to predict and classify.

prereq: Prerequisites: CSCI 23500 and CSCI 15000, or permission of the instructor

3 hrs.
3 cr.

CSCI 35500 - Introduction to Linear Programming

Introduction to operations research and game theory. Simplex method; inconsistency, redundancy and degeneracy problems; two-phase method; duality; transportation problems.

prereq: CSCI 235, MATH 160

3 hrs
3 cr.

CSCI 36000 - Computer Architecture III

High performance computer architectures, including massively parallel SIMD and MIMD machines and distributed architectures.
CSCI 36500 - Computer Theory II
Turing machines, Post machines, Post's theorem, Minsky's theorem. Determinism and non-determinism. Undecidability, the halting problem. Recursive function theory.

CSCI 37100 - Advanced Symbolic Logic
A survey of the central results and techniques of meta-logic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem theorem and Church's theorem on undecidability.

CSCI 37200 - Logic and Computers
This course introduces students to logic and its applications to modeling both computer and real-world systems. Topics include various logics and their applications to modeling systems and reasoning for artificial intelligence, along with proof systems and tools for automated or semi-automated reasoning in these logics.

CSCI 37700 - Non-classical Logic
Logic is the systematic and precise study of reasoning—a topic of particular interest to mathematicians and computer scientists as well as philosophers. Philosophers have often functioned as the research and development wing of this collaboration, thinking up and formalizing new logical techniques and systems designed to solve problems that can't be solved by traditional (a.k.a. "classical") logic. This course will be an introduction to some of these non-classical logics, their philosophical motivations, and some of their applications.

CSCI 39100 - Independent Study in Computer Science
Independent work, under the direction of a faculty member, in practical aspects of computing. CSCI 39100 is repeatable up to a total of 6 credits; however, no more than a total of three Independent Study credits may be used toward the computer science major.

CSCI 39200 - Independent Study in Computer Science

GER 3/B

Independent work, under the direction of a faculty member, in practical aspects of computing.

prereq:
declared Computer Science major, perm instr. and dept.

1-3 hrs
1-3 cr.

CSCI 39300 - Independent Study in Computer Science

GER 3/B

Independent work, under the direction of a faculty member, in practical aspects of computing.

prereq:
declared Computer Science major, perm instr. and dept.

1-3 hrs
1-3 cr.

CSCI 39400 - Topics in Computer Science

GER 3/B

An introduction to programming in Python, Perl and PHP.

prereq:
Prerequisites vary by topic and are announced prior to registration.

2 hrs
2 cr.

CSCI 39500 - Topics in Computer Science

GER 3/B

Topics include internet security, web programming, genetic algorithms, expert systems and others.

Prerequisites vary with specific topics and are announced prior to registration.

3 hrs
3 cr.

CSCI 40500 - Software Engineering

GER 3/B

Problems in large-scale software development including functional analysis of information processing systems, system design concepts, timing estimates, documentation and system testing.

prereq:
CSCI 33500

3 hrs
3 cr.

CSCI 41500 - Data Communications and Networks
A broad technical introduction to the components, protocols, organization, industry and regulatory issues that are fundamental to the understanding of contemporary computer networks.

**CSCI 43500 - Database Management**
- GER
- 3/B
- Hierarchical and network databases; theory of relational databases; normalization theory; query languages.
- **prereq:** CSCI 33500
- 3 hrs
- 3 cr.

**CSCI 45000 - Language Translation**
- GER
- 3/B
- The theory and application of language recognition and analysis techniques, as they pertain to both formal programming languages and to natural languages. Includes lexical, syntactic and semantic analysis methods, as well as discussions of efficient data representation.
- **prereq:** CSCI 26500, 33500
- 3 hrs
- 3 cr.

**CSCI 46000 - Advanced Programming Languages**
- GER
- 3/B
- Survey course on the design and implementation of modern programming languages. Includes object-oriented, functional, logic and concurrent/distributed paradigms.
- **prereq:** CSCI 26500, 33500
- 3 hrs
- 3 cr.

**CSCI 49300 - Honors Seminar**
- GER
- 3/B
- Topics include Unix systems programming, computer law, 3D vision, Windows programming, neural networks, speech and language processing, fuzzy systems and other areas. Prerequisites vary with specific topics and are announced prior to registration.
- **prereq:** Prerequisites vary with specific topics and are announced prior to registration.
- 3 hrs
- 3 cr.

**CSCI 49360 - UNIX System Programming**
- GER
- 3/B
- 3 hrs
- 3 cr.
An introduction to the key components of the UNIX application programming interface, including files, processes, terminal control, signals, interprocess communication, the ncurses library, and multi-threading. Includes basic of the internal structure of the UNIX operating system, and selected user-level utilities and commands for efficient programming and working in UNIX.

The increasing availability of big data has changed fundamental practices in business, health care, policy making, and scientific research. The primary objective of this course is to enable students to efficiently process, manage, reformulate, and mine an extremely large data set. This is an interdisciplinary course that considers data from many different sources. Students are welcome to work with their own interested domains in addition to the required ones.

Supervised work under the direction of a faculty member on an original research project. Although student-initiated projects are acceptable, in most cases students will be expected to work within a faculty member's active research area. These courses are repeatable. However, no more than a total of nine (9) Supervised Research credits may be counted toward the computer science major.

Supervised work under the direction of a faculty member on an original research project. Although student-initiated projects are acceptable, in most cases students will be expected to work within a faculty member's active research area. These courses are repeatable. However, no more than a total of nine (9) Supervised Research credits may be counted toward the computer science major.

Supervised work under the direction of a faculty member on an original research project. Although student-initiated projects are acceptable, in most cases students will be expected to work within a faculty member's active research area. These courses are repeatable. However, no more than a total of nine (9) Supervised Research credits may be counted toward the computer science major.

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

This course addresses current knowledge about how human brains, human minds, and artificially intelligent machines think. Students will learn about groundbreaking work that will provide insight into people, the apps they rely on, and the robots in their future. Highly recommended for students considering any science major, and for students interested in problem solving.
The Hunter College Dance Department offers an opportunity to pursue a BA degree in dance within the context of a strong liberal arts education. From a campus in the heart of New York City, the dance major or minor student has the unique opportunity of interfacing with many professional dance companies, choreographers, and researchers who live and work in New York. The contemporary dance-based curriculum provides the student with the opportunities to pursue careers in performance, choreography, teaching, arts administration, and production and is unique in its focus on individual creativity and reflection. All dance majors are required to choreograph, perform, and participate actively in the close-knit artistic community. The curriculum is enriched by community outreach performances, repertory classes with New York-based choreographers, guest artist workshops, and internship opportunities. Through our collaboration with Hunter’s School of Education, students can also pursue BA or BA/MA degrees in Dance Education, leading to initial certification as a teacher in New York State.

What can I do with my degree in Dance? Our curriculum provides students with a strong foundation that can lead to professional careers for performers, creators, scholars, educators, and arts advocates.
The BA in Dance at Hunter is open to all students who have been admitted to Hunter College. To be declared a BA Dance Major, students must be admitted into DAN 21500 Ballet 1 or DAN 21000 Contemporary Dance Technique I or higher as determined by placement audition open to all students. The student will meet with the adviser in the Dance Department as soon as they qualify for level 1 technique or higher and every semester thereafter. All Dance majors are required to earn 42 credits minimum in DAN courses and complete all requirements including:

1. Be registered in at least one dance technique course every semester in order to remain a Dance major in good standing, unless granted exemption by the department;
2. Perform in a minimum of 2 student choreographed pieces during their studies at Hunter College;
3. Earn a C grade or better in all courses required for the major (grades below C will not count toward the major.)

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR]). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education -

Courses Required for the Major (42-46 credits)
The BA Dance Degree Curriculum is divided into 4 areas of study:

1. Dance Technique and Performance (20-24 credits minimum)
2. Creative work: Improvisation, choreography, performance (11 credits)
3. Dance Studies (8 credits)
4. Electives (3 credits)

1. Dance Technique and Performance (20-24 credits)
   - Must complete four credits minimum of any style at level I (or the appropriate level for the ability of the student as determined in the placement class) (4)
   - Must complete four credits of dance technique any style in level 3.
   - Must complete eight credits of dance technique any style at level I or higher (8)
   - Must complete two credits of Repertory DAN 43200 (1) and DAN 43300 (1)
   - Students who do not place into a dance technique level 1 class must take DAN 10100 Fundamentals of Contemporary Dance Technique and/or DAN 10500 Fundamentals of Ballet (0-3)

2. Creative Work (11 credits)
   - DAN 12400 Production Crew (.5 x 2)*
   - DAN 22100 Improvisation (1)
   - DAN 22400 Stagecraft (1)
   - DAN 32100 Composition I (2)
   - DAN 42100 Composition II (2)
   - DAN 42200 Dance Workshop (2)
   - DAN 42400 Production (2)
   *Please note that DAN 12400 Production Crew must be taken twice to complete the major.

3. Dance Studies (8 credits)
   - DAN 21300 Basic Musicianship for Dancers (2)
   - DAN 23200 Global Dance History (3)
4. Electives (3 credits)*

Dance Technique Electives

• DAN 15100 Global Dance 1
• DAN 25100 Global Dance 2
• DAN 25200 Special Topics: Traditional Dance I
• DAN 35200 Special Topics: Traditional Dance II

Other Electives

• DAN 34200 Teaching Dance
• DAN 25500 Dance Pedagogy
• DAN 46100 Seminar in Dance
• DAN 48000 Independent Study in Dance
• DAN 49000 Honors in Dance
• DAN 49800 Internship

*Dance Technique and Creative Work courses are repeatable for elective credit.

Note: All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Teacher Education Pathway

Students planning to teach this subject in grades PreK-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Degree Map for Dance BA

Degree Map for Dance

Degree Map for Dance

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate with a Dance major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your major or pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to
Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

**Prerequisite:** Successful completion of developmental courses, if required.

3 hrs + conference

3 cr.

**DAN 10100**

Fundamentals of Contemporary Dance Technique

**GER 2/D**

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**Prerequisite:** N/A

4 hrs.

2 cr.

**HCR**

Math & Quantitative Reasoning

**Foreign Language**

Elementary Level I

**HCR**

Life and Physical Sciences

**Spring**

**ENGL 22000**

Introduction to Writing about Literature (W)

Hunter Core

English Comp (EC)

**GER 2/A**

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

**Prerequisite:** ENGL 12000

3 hrs + one additional conference hour

3 cr.

**DAN 10100**

Fundamentals of Contemporary Dance Technique

**GER 2/D**

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**Prerequisite:** N/A

4 hrs.

2 cr.

**DAN 10500**

Fundamentals of Ballet

Introduction to fundamental skills and nomenclature of ballet. May be taken three times for credit with permission of the department.
DAN 21000 - Contemporary Dance Technique I
GER 3/A
Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken three times for a total of 6 credits with permission of the department.
prereq: DAN 10100, perm dept., placement class
4 hrs 2 cr.

DAN 21300 - Basic Musicianship for Dancers
GER 3/A
Basic music theory in relation to dance. Development of auditory and kinesthetic understanding of melody, rhythm and harmony through movement. Open only to Dance majors and minors.
All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.
prereq: DAN 21000
3 hrs 2 cr.

DAN 22100 - Improvisation
GER 3/A
Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential. May be taken 3 times for credit with permission of department.
prereq: Declaration of Dance Major or Dance Minor
4 hrs 1 cr.
Advanced - beginning level. Study of classical ballet vocabulary, basic anatomical concepts, and introduction to stylistic conventions of classical ballet. May be taken three times for credit with permission of the department.

**DAN 21000 - Contemporary Dance Technique I**

GER 3/A
Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken three times for a total of 6 credits with permission of the department.

**DAN 23200 - Global Dance History**

Hunter Core
Creative Expression (CE)
Pluralism and Diversity (PD/D)
GER 2/D
Readings, lectures, films, discussions of 20th century ballet, modern, social and popular theatre dance forms; analysis of individual styles and cultural trends.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**DAN 15100 - Global Dance 1**

Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures. Open to Dance majors and minors only. May be taken three times for credit with permission of the department.

• Foreign Language - Intermediate Level II
• DAN - Elective

**Junior Year**

**Fall**

**DAN 22000 - Contemporary Dance Technique II**

GER 3/A
Continued development of analytical and physical study of basic concepts of dance: space, time, dynamics and design. Focus on expanded movement vocabulary and increased facility; understanding dance as means of communication; ordering of movement to produce controlled performance. May be three times for a total of 6 credits with permission of the department.

**DAN 21500 - Ballet 1**

GER 3/A Advanced - beginning level. Study of classical ballet vocabulary, basic anatomical concepts, and introduction to stylistic conventions of classical ballet. May be taken three times for credit with permission of the department.

**DAN 32100 - Composition I**

Pluralism and Diversity GER 3/A Introduction to dance composition. Students will compose solo, duet, and small group works, applying their understanding of basic compositional devices to projects developed during class time as well as during independent practice.

**DAN 22400 - Stagecraft**

GER 3/A This course focuses on the practical experience of dance production, including work backstage and other aspects of production. May be taken twice for credit with permission of the department.

**DAN 35000 - Anatomy and Kinesiology for Dancers**

GER 3/A Anatomy of skeletal, muscular and neuromuscular systems; anatomical analysis of basic movement; application of anatomical information to proper and successful performance of dance.

**HCR - Concentrated Study**
Continued development of analytical and physical study of basic concepts of dance: space, time, dynamics and design. Focus on expanded movement vocabulary and increased facility; understanding dance as means of communication; ordering of movement to produce controlled performance. May be three times for a total of 6 credits with permission of the department.

Prereq: DAN 21000, perm dept, or placement class

4 hrs 2 cr.

Intermediate level ballet. Continued study of classical ballet vocabulary, and its stylistic conventions. Emphasis on the application of sound anatomical practices, and further artistic development. May be taken three times for credit with permission of the department.

Prereq: permission of department

4 hrs 2 cr.

This advanced composition course provides a structure for continued choreographic practice leading to public performance. The course concentrates on development of individual artistic voice, refining effective rehearsal practices, and seeing a choreographic project to completion in terms of thematic material, methodology, visual design, and production best practices. May be taken twice for credit with permission of the department.

Prereq or coreq: DAN 42100

4 hrs 2 cr.

Performance of prescribed choreography in lecture/demonstration format to be presented in public schools on a weekly basis during the fall semester. Open to dance majors/minors only. Students must be available to rehearse intensively for 1 week before classes begin. May be taken two times for credit with permission of the department.

Prereq: permission of dept.

4 hrs 2 cr.

Individual and Society: Humanities

Elective
Senior Year

Fall

DAN 31000 - Contemporary Dance Technique III
Pluralism and Diversity
GER 3/A
Intermediate - advanced movement experience, expansion of technical and aesthetic range; continued in depth study of all concepts of dance. May be taken three times for a total of 6 credits with permission of the department.
prereq: DAN 22000, or perm. depart.
4 hrs
2 cr.

DAN 41000 - Contemporary Dance Technique 4
Pluralism and Diversity
GER 3/A
Advanced movement experience, further expansion of technical, dynamic and aesthetic range; emphasis on clarifying performance intention. May be taken three times for credit with permission of the department.
prereq: permission of department
4 hrs
2 cr.

DAN 22500 - Ballet 2
GER 3/A
Intermediate - level ballet. Continued study of classical ballet vocabulary, and its stylistic conventions. Emphasis on the application of sound anatomical practices, and further artistic development. May be taken three times for credit with permission of the department.
prereq: permission of department
4 hrs
2 cr.

DAN 49800 - Internship
GER 3/A
Open to dance majors with 15 credits in dance from Hunter. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.
prereq: DAN 32400
hrs TBA
3-6 cr.

• DAN Elective

Spring
Contemporary Dance Technique III (PLURALISM AND DIVERSITY)

Intermediate - advanced movement experience, expansion of technical and aesthetic range; continued in depth study of all concepts of dance. May be taken three times for a total of 6 credits with permission of the department.

Prereq: DAN 22000, or perm. depart.

4 hrs 2 cr.

Contemporary Dance Technique 4 (PLURALISM AND DIVERSITY)

Advanced movement experience, further expansion of technical, dynamic and aesthetic range; emphasis on clarifying performance intention. May be taken three times for credit with permission of the department.

Prereq: permission of department

4 hrs 2 cr.

Seminar in Dance (GER

Survey of dance careers, grant writing, arts administration, resume writing and relevant topics related to the socio-political climate of our times in relation to art.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Prereq: DAN 31000, DAN 32100

3 hrs 3 cr.

Minor in Dance

The Hunter College Dance Program Minor in Dance (a minimum of 16 required credits) is designed to allow students to pursue a variety of interests in the field, from performance and creative work to analysis, production and pedagogy.

Required courses (a minimum of 16 credits total)

The following 2 courses must be taken prior to declaration of the minor:

Fundamentals of Contemporary Dance Technique (GER 1/D)

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Prereq: N/A
DAN 10200 - Dance in Culture
GER 2/D
Lecture demonstration course designed to introduce students to the art of dance through analysis of history, dance style and socio-political underpinnings. This course includes participation in both lecture and movement sessions. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

DAN 21000 - Contemporary Dance Technique I
GER 3/A
Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken three times for a total of 6 credits with permission of the department.

prereq: DAN 10100, perm dept., placement class

DAN 22100 - Improvisation
GER 3/A
Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential. May be taken 3 times for credit with permission of department.

prereq: Declaration of Dance Major or Dance Minor

1 additional dance technique course, selected from the following:
DAN 10500 - Fundamentals of Ballet
Introduction to fundamental skills and nomenclature of ballet. May be taken three times for credit with permission of the department.

DAN 15100 - Global Dance 1
Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures. Open to Dance majors and minors only. May be taken three times for credit with permission of the department.
DAN 22000 - Contemporary Dance Technique II

Continued development of analytical and physical study of basic concepts of dance: space, time, dynamics and design. Focus on expanded movement vocabulary and increased facility; understanding dance as means of communication; ordering of movement to produce controlled performance. May be three times for a total of 6 credits with permission of the department.

Prereq: DAN 21000, perm dept, or placement class

DAN 21500 - Ballet 1

Advanced - beginning level. Study of classical ballet vocabulary, basic anatomical concepts, and introduction to stylistic conventions of classical ballet. May be taken three times for credit with permission of the department.

Prereq: permission of department

DAN 25200 - Special Topics: Traditional Dance I

Pluralism and Diversity

Introduction to the cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

This course only partially fulfills the electives requirement for the Dance BA degree.

Prereq: placement class

DAN 31000 - Contemporary Dance Technique III

Pluralism and Diversity

Intermediate - advanced movement experience, expansion of technical and aesthetic range; continued in-depth study of all concepts of dance. May be taken three times for a total of 6 credits with permission of the department.

Prereq: DAN 22000, or perm. depart.

DAN 41000 - Contemporary Dance Technique IV

Pluralism and Diversity

Advanced movement experience, further expansion of technical, dynamic and aesthetic range; emphasis on clarifying performance intention. May be taken three times for credit with permission of the department.
DAN 22500 - Ballet 2
Intermediate-level ballet. Continued study of classical ballet vocabulary, and its stylistic conventions. Emphasis on the application of sound anatomical practices, and further artistic development. May be taken three times for credit with permission of the department.

DAN 35200 - Special Topics: Traditional Dance II
Pluralism and Diversity
Continuation of DAN 25200. Further investigation of cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

Choose 1 additional dance technique course from the following courses:
A minimum of 6 additional credits in Dance (choices must be approved by Dance Faculty Adviser):
- Any DAN course at the 200 level or above (At least one of these must be a 3-credit course)
- Participation on one production crew
- Participation on one production crew team for a fully produced dance program concert

Note: Placement in technique courses above the Fundamentals level is by placement class, the first day of class review, recommendation of instructor, or department permission. Repeated courses may not be counted in these requirements.

DAN 12400 - Production Crew
Production Crew provides students with insights and firsthand experience as a participant in the physical production of theatre. This course allows students to build an understanding and appreciation of the practical function of theatrical production techniques.

prereq: permission of department
DAN 22100 - Improvisation

Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential. May be taken 3 times for credit with permission of department.

prereq: Declaration of Dance Major or Dance Minor

4 hrs, 1 cr.

DAN 22400 - Stagecraft

This course focuses on the practical experience of dance production, including work backstage and other aspects of production. May be taken twice for credit with permission of the department.

prereq: perm dept.

3 hrs, 3 hrs open studio, 1 cr.

DAN 32100 - Composition I

Pluralism and Diversity

Introduction to dance composition. Students will compose solo, duet, and small group works, applying their understanding of basic compositional devices to projects developed during class time as well as during independent practice.

prereq: DAN 22100, permission of dept.

4 hrs, 2 hrs open studio, 2 cr.

DAN 42100 - Composition II

Continued application of basic principles of composition; conception, planning and realization of complete dances; preparation of dances for concert by integrating all aspects of production. Two additional hours of open studio are recommended for this course.

prereq: DAN 32100, perm dept.

4 hrs, 2 hrs open studio, 2 cr.

DAN 42200 - Dance Workshop

GER

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.
This advanced composition course provides a structure for continued choreographic practice leading to public performance. The course concentrates on development of individual artistic voice, refining effective rehearsal practices, and seeing a choreographic project to completion in terms of thematic material, methodology, visual design, and production best practices. May be taken twice for credit with permission of the department.

Prereq or coreq: DAN 42100
4 hrs, 2 cr.

Production
GER
3/A
Pra
ctical application of advanced production skills: a design course for advanced dance and choreography students. Tools, techniques and skills required to produce live dance performances. May be taken twice for credit with permission of the department.

Prereq: DAN 22400
3 hrs, 3 hrs open studio
2 cr.

Repertory I
GER
3/A
Open to dance majors and minors only. Performance course for intermediate and advanced students. Students are expected to participate with high level of professionalism and focus. The choreographer and choreographic material change every semester. Some casting may be done via audition. May be taken two times for credit with permission of the department.

Prereq: permission of dept.
3 hrs, 3 hrs open studio
1 cr.

Repertory II
GER
3/A
Open to dance majors and minors only. A dance is learned from professional choreographer’s repertory and performed in concert. Students are expected to participate with high level of professionalism and focus. The choreographer and choreographic material change every semester. Some casting may be done via audition. May be taken two times for credit with permission of the department.

Prereq: permission of dept.
3 hrs, 3 hrs open studio
1 cr.

Lecture/Demonstration Touring Group
GER
3/A
Performance of prescribed choreography in lecture/demonstration format to be presented in public schools on a weekly basis during the fall semester. Open to dance majors/minors only. Students must be available to rehearse intensively for 1 week before classes begin. May be taken two times for credit with permission of the department.

Prereq: permission of dept.
GER 2/D

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be

DAN 10100 - Fundamentals of Contemporary Dance Technique

GER

DAN 10500 - Fundamentals of Ballet

Introduction to fundamental skills and nomenclature of ballet. May be taken three times for credit with permission of the department.

DAN 15100 - Global Dance 1

Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures. Open to Dance majors and minors only. May be taken three times for credit with permission of the department.

DAN 21000 - Contemporary Dance Technique I

GER

Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken three times for a total of 6 credits with permission of the department.

prereq: DAN 10100, perm dept., placement class

DAN 21500 - Ballet 1

GER

Advanced-beginning level. Study of classical ballet vocabulary, basic anatomical concepts, and introduction to stylistic conventions of classical ballet. May be taken three times for credit with permission of the department.

prereq: permission of department

DAN 22000 - Contemporary Dance Technique II

department.
Continued development of analytical and physical study of basic concepts of dance: space, time, dynamics and design. Focus on expanded movement vocabulary and increased facility; understanding dance as means of communication; ordering of movement to produce controlled performance. May be three times for a total of 6 credits with permission of the department.

Prerequisites:
- DAN 21000, or
- Permission of department

4 hrs
2 cr.

DAN 22500 - Ballet 2
Intermediate level ballet. Continued study of classical ballet vocabulary, and its stylistic conventions. Emphasis on the application of sound anatomical practices, and further artistic development. May be taken three times for credit with permission of the department.

Prerequisite:
- Permission of department

4 hrs
2 cr.

DAN 25100 - Global Dance 2
Expanded progressions in folk forms of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.

Prerequisite:
- DAN 15100

2 hrs 1 cr.

DAN 25200 - Special Topics: Traditional Dance I
Pluralism and Diversity
Introduction to the cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

This course only partially fulfills the electives requirement for the Dance BA degree.

Prerequisite:
- Placement class

4 hrs
2 cr.

DAN 31000 - Contemporary Dance Technique III
Pluralism and Diversity
Intermediate-advanced movement experience, expansion of technical and aesthetic range; continued in-depth study of all concepts of dance. May be taken three times for a total of 6 credits with permission of the department.

Prerequisites:
- DAN 22000, or permission of department

4 hrs
2 cr.

DAN 31500 - Ballet 3
Advanced level ballet technique. Continued study of classical ballet vocabulary, with reference to historic and contemporary stylistic conventions. Emphasis on advanced proficiency of dance concepts, application of sound anatomical practices, and refinement of musicality and artistic interpretation. May be taken four times for a total of 8 credits with permission of the department.
differing teaching methodologies. Students will read, observe and comment on teachers, as well as present their thoughts about the pedagogy of

field work observing and interviewing teachers, studio owners, directors of professional training programs, etc.
DAN 48000 - Independent Study in Dance

In-depth study in area of special interest for qualified students under direction of faculty adviser. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 15 dance received at Hunter, major GPA 3.0, overall GPA 2.5. Open to dance majors and minors only.

DAN 49000 - Honors in Dance

Open to Jr/Sr Dance majors only. Individual study leading to completion of honors essay or production book in creative performance. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 18 dance, major GPA 3.5, overall GPA 2.8

DAN 49800 - Internship

Open to dance majors with 15 credits in dance from Hunter. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 32400

Programs and Courses in Economics

The department has two undergraduate programs, a BA in Economics and a BS in Accounting, as well as a BA/MA in Economics. All three programs equip students with analytic tools that can be applied in many different careers in both the private and public sectors.

Economics
Economics students become problem solvers. They learn to analyze a situation, figure out what is important and determine what can be abstracted away. The economics curriculum stresses the development of general problem-solving skills: finding, gathering and interpreting information; predicting the consequences of decisions; evaluating alternative courses of action; and analyzing the management of resources in both the public and private sectors. At the same time, economics students learn about the institutions and rules that shape daily life—the monetary system, the stock and bond markets and the regulatory system that mandates warning labels on cigarette packs and seat belts in automobiles.

What can I do with an Economics Degree?

While an undergraduate major in economics does not define the career a graduate may ultimately lead, it provides students with a point of view and a set of skills that will be useful in almost any path taken after graduation. A major in economics is especially valuable for those who plan careers in finance, management, law, journalism, or public policy. Many professional economists also enter government at economic activities of organizations. Professional accountants develop and apply their skills in auditing, taxation, management policy.

Accounting

Accountants specialize in measuring, reporting and interpreting the financial aspects and transactions of businesses, governments, non-profits and other institutions. Accounting provides the information necessary to determine and evaluate both present and projected economic activities of organizations. Professional accountants develop and apply their skills in auditing, taxation, management policy.

What can I do with an Accounting Degree?

Nearly half of all accounting graduates are employed by public accounting firms. Others work for private firms, engage in research and consulting, practice in the government sector or with non-profit entities, or continue their education on the graduate level.

Programs and Courses

Programs and Courses in Economics

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the department, to identify internship opportunities.

Internships

Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the department, to identify internship opportunities.

Administration and Faculty

Chair:
Partha Deb

dechair@hunter.cuny.edu

Director of Accounting Program:
Wei Yu
1549A West
The degree of bachelor of science (accounting) offered at Hunter College fulfills educational requirements for the CPA examination in New York State. Candidates pursuing licensure in New York State will need to complete 150 college credits including ACCP 49000 - Accounting & Auditing Research. An appropriate master's degree, while not required, is another path to licensure. For information on the accounting degree within four years, a full-time student should begin the accounting major sequence in the upper freshman term, if possible, and no later than the lower sophomore term, by registering for ACC 27100.

Hunter Core Requirement

Note: Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR]). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here:
and must be completed with a grade of C, CR or better to be accepted for credit toward fulfillment of the major.

MATH 10100 - Algebra for College Students
Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation
This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.
prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry
Hunter Core Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.
Note: This course is equivalent to MATH 12500 for grade replacement purposes.
prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

MATH 14000 - Mathematical Reasoning Workshop
This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs 1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs 4 cr.

or

MATH 15200 (STEM) - Calculus for Life and Social Sciences

Limits, continuity and the derivative. The power rule, product and quotient rules, the chain rule, and implicit differentiation. The Mean Value Theorem and the Intermediate Value Theorem. Curve sketching and optimization, and linear approximation. Riemann integral and the Fundamental Theorem of Calculus. Various applications to economics, life sciences, and physical sciences. Students will not be allowed to obtain credit for both MATH 15200 and MATH 15000 (STEM).

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, and coreq MATH 14000; or appropriate score on placement exam.

Not open to students who have taken MATH 15000.

4 hrs 4 cr.

Note: ECO 22000 Techniques of Economic Analysis may also be used to fulfill the calculus requirement.

IMPORTANT: Students who wish to take higher levels of Calculus are advised to take MATH 15000 (STEM) to satisfy the calculus requirement.

Additional Information

Majors are advised to complete MATH 15000 (STEM) (or MATH 15200 (STEM)) and ECO 22100 within their first 75 credits of college work. For students already at or beyond these points when they become majors, such courses should be taken with in the first 12 credits following declaration of the major. The department may waive the requirement of any of the above or other courses upon satisfactory proof of course equivalency. Courses waived through substitution or examination do not provide course credit nor do they count toward the major.

Students may place out of MATH 10100, MATH 101EN, MATH 10150, MATH 12400 (STEM), MATH 12500 (STEM), MATH 12550 (STEM), MATH 14000 and MATH 12500 (STEM) requirements without replacing the credits. See the Department of Mathematics and Statistics for details. Students may place out of MATH 15000 (STEM) or MATH 15200 (STEM) but must replace the course with a 3
Basic accounting concepts; preparation of financial statements. Emphasis on income determination and financial position.

Prereq: upper freshman standing
3 hrs
3 cr.
ACC 27200 - Accounting II
Accounting concepts applied to partnerships and corporations; funds statements; financial statement analysis.
Effective term spring 2016
Prereq: ACC 27100 with a grade of C or better
3 hrs
3 cr.
ACCP 37100 - Intermediate Accounting I
In-depth study of current concepts relating to accounting for assets and current liabilities.
Effective term spring 2016
Prereq: ACC 27100 and ACC 27200 all with a grade of C or better.
3 hrs
3 cr.
ACCP 37200 - Intermediate Accounting II
Long-term liabilities, investments, revenue recognition; shareholders' equity, dilutive securities and earnings per share, income taxes, pensions, leases.
Effective term spring 2016
Prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better.
4 hrs
4 cr.
ACCP 37300 - Federal Income Taxation
Principles of federal income taxation and the impact of taxes on individuals.
Effective term spring 2016
Prereq: ACC 27100 and ACC 27200 and ACCP 37100, all with a grade of C or better
3 hrs
3 cr.
ACCP 37400 - Managerial Accounting (Cost Accounting)
Accumulation, analysis, presentation and use of cost data by management; budgets.
Effective term spring 2016
Prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better
3 hrs
3 cr.
ACCP 47100 - Advanced Accounting I
Emphasis on preparation and analysis of consolidated statements. Contemporary accounting problems.

**ACCP 47200 - Advanced Accounting II**

Accounting theory and practice focused on partnerships, joint ventures, multinationals, government and public sector entities; not-for-profit accounting; interim and segment reporting; SEC problems, fiduciary accounting, bankruptcy.

Effective term: Spring 2016

Prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better

3 hrs

3 cr.

**ACCP 47300 - Business Taxes**

Federal income taxation of partnerships and corporations; other special tax issues.

Effective term: Spring 2016

Prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 and ACCP 37300 all with a grade of C or better

3 hrs

3 cr.

**ACCP 47500 - Auditing**

Auditing theory and practices; ethics of accounting profession; procedures for auditing financial statements.

Prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better

Prereq or coreq: ACCP 47100 with a grade of C or better

4 hrs

4 cr.

**ACCP 49000 - Accounting & Auditing Research**

Acquisition of research, analytical and communication skills. Provides coverage of fundamental knowledge and skills to conduct research as well as their application through announced readings, cases and research discussions on selected topics. Requires extensive Internet and library research including the use of FASB codification database.

Prereq: ECO 22100 with a grade of C or CR or better or STAT 21300 with a grade of C or CR or better and ACC 27100, ACC 27200, ACCP 37100, and ACCP 37200 all with a grade of C or better.

Prereq or coreq: ACCP 47500

3 hrs

3 cr.

**Grade Options**

Accounting majors may not use CR/NC grades for any of the 35 accounting credits in the accounting major.

**Additional Information**

An overall Grade Point Average of at least 2.5 must be maintained in these 35 Accounting credits. Students who receive a grade of "D" or lower in any of the eleven required Accounting courses in the Professional Studies Requirement will be allowed to repeat the course only once. In total, students may repeat no more than three Accounting courses for which they received a grade of "D" or lower. Students
Other Professional Studies (36 cr)

Business Law (6 cr

ACC 28000 - Business Law I
Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code. prreq: sophomore standing or perm chair 3 hrs 3 cr.

ACCP 38000 - Business Law II
Legal aspects of business organizations; agency, partnership and corporate relationships. prreq: ACC 28000 with a grade of C, or CR, or better 3 hrs 3 cr.

Statistics (3 cr)
ECO 22100 - Economic Statistics
Hunter Core Mathematics and Quantitative Reasoning GER 1/B Statistical theory applied to business and economic problems; correlation, regression, time series analysis. prreq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500 3 hrs lecture or 2 hr lecture/1 hr discussion 3 cr.

Note: STAT 21300 (STEM) Introduction to Applied Statistics may also be used to fulfill this requirement.

Additional Information:
For students already at or beyond this point when they become majors, the course should be taken within the first 12 credits following declaration of the major.

Finance (6 cr)
Required: ECO 36500 Corporate Finance and one additional course from the following:

ECO 21000 - Money and Banking GER 3/B Monetary and banking principles and practice; current issues; theory and policy. prreq: ECO 20000, 20100 3 hrs 3 cr.

ECO 36600 - Security and Investment Analysis
Operation of the stock market; security analysis and evaluation; economic variables influencing security values.

prereq: ECO 36500
3 hrs
3 cr.

Analysis of Financial Statements

Analysis, interpretation, and use of financial statements.

note: This course does not count as an elective towards the Economics major.

prereq: ECO 37200 and ECO 36500 or adviser's permission
3 hrs
3 cr.

Business Core - Required (12 cr)

ECO 10000 - Introduction to Economics

Presentation of the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.

ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

prereq: Math/Writing Proficient/Non degree students
3 hrs
3 cr.

ECO 20000 - Principles of Microeconomics

Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets.

May be taken prior to or concurrently with ECO 20100.

prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000
3 hrs
3 cr.

ECO 20100 - Principles of Macroeconomics
May be taken prior to or concurrently with ECO 20000. Covers the fundamental principles and analytical tools of macroeconomic
s, with applications in economic growth; business cycles, inflation, unemployment, and moneta
r policy.

prereq:
Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000

3 hrs
3 cr.

ACCP 47600 - Computer Accounting Systems

prereq:
ACC 27100 and ACC 27200, both with a grade of C or better, and declaration as an accounting major

3 hrs
3 cr.

Business electives (9 cr)
Choose from the following:

• ECO 26000 - Business Organization and Management (offered prior to Spring 2019); course is now ECO 35900 Economics of Business Organization and Management

• Any 300- or 400-level ACCP or ECO course (excluding E

CO 49700 and ECO 49800; Note: ECO 35900 Economics of Business Organization and Management and ACCP 48000 Business Law III

are strongly recommended)

Note:
• Students may not use any course to fulfill the business elective requirement that is also being us
ed to satisfy any other requirement of the Accounting major.
• Students may not use both ECO 26000 and ECO 35900 to fulfill this requirement.

Additional Information
An overall average of at least “C+” (2.3 Grade Point Average) must be maintained in these 36 credits of Other Professional Studies (Business Law, Statistics, Finance, Business Core, and Business
Elective). This requirement is separate and measured independently of the required 2.5 GPA for the 35 Accounting credits.

3 hrs
3 cr.

Students enrolled in the BS (accounting) curriculum may use a CR/NC grade only one time toward the 36 credits in the Other Professional Studies requirement. If a student exceeds this limit, any additional CR grades in these 36 credits will be converted to a grade of C and any additional NC grades in these 36 credits will be converted to a grade of F.

Interdepartmental Fields
Students may take courses in economics as part of an interdepartmental program of study in Latin American and Caribbean studies, environmental studies (geography), women’s and gender studies and Jewish studies. Listings in each area discuss recommended courses.

Internships
Students may receive one credit for internships in government agencies, private firms, and not
profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note

Honors
Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for
ECO 49900 - Honors Project
Jr/Sr only. Supervised individual research and directed reading. Honors essay.
prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair.
3 hrs
3 cr.

Degree Map

Degree Map for Accounting
Degree Map for Economics

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Economics major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Students who wish to select this major may need additional courses to fulfill the requirements in Mathematics and Statistics. See program details for more information.

Freshman Year

Fall
ENGL 12000 - Expository Writing
Hunter Core English Comp (EC)
GER 1/A
Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.
prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.
MATH 12500 (STEM) - Precalculus
Hunter Core Math/Quantitative Reasoning
GER 1/B
Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities.
Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.
ECO 20000 - Principles of Microeconomics
Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor, and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets.

May be taken prior to or concurrently with ECO 20100.

prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000

Fall
ECO 22100 - Economic Statistics
Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B
Statistical theory applied to business and economic problems; correlation, regression, time series analysis.
prereq: Math & Write Proficiency and MATH 1250 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500
3hr lecture or 2hr lecture/1 hr discussion
3 cr.
ECO 200, 300, or 400 Level Elective
Foreign Language Intermediate Level 3
Individual and Society/ Humanities
Elective
Spring
ECO 30000 - Intermediate Microeconomics
GER
3/B
Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.
prereq: ECO 20000, 20100 and MATH 15000 or MATH 15200
3 hrs
3 cr.
World Cultures & Global Issues
Foreign Language Intermediate Level 4
Life and Physical Sciences
Elective
Junior Year
Fall
ECO 30100 - Intermediate Macroeconomics
GER
3/B
Growth, employment and prices in the short and long run; monetary and fiscal policy.

prereq:
ECO 20000, 20100, MATH 15000 or MATH 15200
3 hrs
3 cr.

Notes:
• Students placing into MATH 101 or 101EN can still complete the major in four years – sequencing will be shifted by one semester.
• Majors are advised to complete MATH 15000 (STEM) and ECO 22100 within their first 75 credits of college work and ECO 3000 or ECO 30100 within their first 90 credits. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major.
• The remaining 12 credits needed to complete the 30-credit major shall be satisfied by other economics courses offered by the department. No courses in accounting or business law may be credited toward the economics major. No more than 3 credits may be at the 100-level (note: ECO 10000, ECO 19600, and ECO 29600 cannot be counted.)
Economics majors may find both the minor and the Certificate Program in Public Policy of particular interest. The department strongly urges economics majors who plan to go on to graduate or professional school to choose letter grades rather than CR/NC. For motivated students, the department offers the opportunity to complete both the BA and MA degrees simultaneously, where 30 of the 120 credits required for graduation are graduate credits. Please see the Accelerated BA/MA Economics Degree Map.

**Economics - BA**

- **Hunter Core Requirement**: Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

- **Courses/CUNY Common Core Requirement**:
  - MATH 12500 (STEM) Precalculus Math & Quantitative Reasoning (MQR)
  - MATH 15000 (STEM) Calculus I Math & Quantitative Reasoning (MQR)
  - MATH 15200 (STEM) Calculus for Life and Social Sciences Math & Quantitative Reasoning (MQR)
  - ECO 10000 Introduction to Economics Individual & Society
  - ECO 20000 Principles of Microeconomics Scientific World
  - ECO 22100 Economic Statistics Math & Quantitative Reasoning (MQR)

  Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Majors**

The Department of Economics offers two Economics majors. The first, discussed below, is the Economics - BA, requiring a minimum of 33 credits. In addition, for motivated students, the department offers the opportunity to complete both the BA and MA degrees simultaneously, where 30 of the 126 credits required for graduation are graduate credits. Students interested in this option should click this link: Economics - BA/MA.

**Grade Options**

The department strongly urges economics majors who plan to go on to graduate or professional school to choose letter grades rather than CR/NC.

**Courses Required for the Major (33 - 46 credits)**

Students may place out of MATH 10100/MATH 101EN, MATH 10150, MATH 12400 (STEM)/MATH 12500 (STEM)/MATH 12550 (STEM), MATH 1400, MATH 15000 (STEM)/MATH 15200 (STEM) and MATH 15500 (STEM) requirements without replacing the credits. See the Mathematics and Statistics department for details.

- **A. Math Sequence (0 - 13 credits)**
  - MATH 10100 - Algebra for College Students
    - Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
    - Prereq: appropriate score on placement exam or exit from appropriate departmental workshop
    - 4 hrs (2 lec, 2 lab)
    - 3 cr.
  - MATH 10150 - Mastery of Symbolic Computation
symbolic skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics. MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400. MATH 12400 (STEM) - College Algebra and Trigonometry Hunter Core Math/Quantitative Reasoning (MQR) This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus. Note: This course is equivalent to MATH 12500 for grade replacement purposes. MATH 12500 (STEM) or MATH 12550. Not credited to students who have previous credit for MATH 15600. MATH 14000 - Mathematical Reasoning Workshop This workshop focuses on developing mathematical thinking skills needed for MATH 15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction. MATH 15000 (STEM) - Calculus I Hunter Core Math/Quantitative Reasoning GER 1/B Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications. MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test. MATH 15000 (STEM) or MATH 15200 (STEM) must be completed with a grade of C, or better to be accepted for credit towards the major. MATH 15000 (STEM) is preferred for students who will take additional MATH courses.)
ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

**Prerequisites:**
- Math/Writing Proficient/Non-degree students
- 3 hrs
- 3 cr.

**ECO 20000 - Principles of Microeconomics**

**GER:**
2/B

Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets.

May be taken prior to or concurrently with ECO 20100.

**Prerequisites:**
- Math and Writing Proficient
- MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500
- ECO 10000
- 3 hrs
- 3 cr.

**ECO 20100 - Principles of Macroeconomics**

**GER:**
2/B

May be taken prior to or concurrently with ECO 20000. Covers the fundamental principles and analytical tools of macroeconomics, with applications in economic growth, business cycles, inflation, unemployment, and monetary and fiscal policy.

May be taken prior to or concurrently with ECO 20000.

**Prerequisites:**
- Math and Writing Proficient
- MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500
- ECO 10000
- 3 hrs
- 3 cr.

**ECO 22100 - Economic Statistics**

**Hunter Core:**
Mathematics and Quantitative Reasoning

**GER:**
1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

**Prerequisites:**
- Math & Write Proficiency
- MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500
- 3 hr lecture or 2 hr lecture/1 hr discussion
- 3 cr.

**ECO 30000 - Intermediate Microeconomics**

**GER:**
3/B

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets.
Intermediate Macroeconomics

Growth, employment and prices in the short and long run; monetary and fiscal policy.

prereq: ECO 20000, 20100, MATH 15000 or MATH 15200

Introduction to Econometrics

Linear and non-linear regression models in economics; statistical methods for estimation and inference.

prereq: ECO 22100 or STAT 21300 and MATH 15000 or MATH 15200 or MATH 15400 or MATH 15500 or MATH 25500

Elective courses

The remaining 12 credits needed to complete the 30-credit major shall be satisfied by other economics courses offered by the department. No courses in accounting or business law may be credited toward the economics major. No more than 3 credits in elective courses may be at the 100-level. Students may take an optional capstone experience as part of their electives.

- ECO 49600 Honors Seminar in Economics
- ECO 49900 Honors Project
- ECO 40000 Senior Seminar: The big (economics) picture and getting ready for life after college

Note: These courses may be counted for credit in more than one program. Students planning on taking more than one semester of calculus should take MATH 15000 (STEM) rather than MATH 15200 (STEM).

Additional Information

Majors are advised to complete MATH 15000 (STEM)/MATH 15200 (STEM) and ECO 22100 within their first 75 credits of college work and ECO 30000 or ECO 30100 within their first 90 credits. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major. The department may waive the requirement of any of the above or other courses upon satisfactory proof of course equivalency. Credits from courses waived through substitution or examination do not count toward the major.

The following courses may not be counted toward the major:
ECO 19600, ECO 29600, BUS 26100, BUS 49700.
Students with majors in other departments may take courses in economics as part of an interdepartmental program of study in public policy, Latin American and Caribbean studies, environmental studies (geography), women's and gender studies and Jewish social studies. Listings in each area discuss recommended courses.

Internships

Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the Department, to identify internship opportunities.

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

ECO 49900 - Honors Project
Jr/Sr only. Supervised individual research and directed reading. Honors essay. prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair. 3 hrs 3 cr.

Public Policy

Economics majors may find both the minor and the Certificate Program in Public Policy of particular interest.

Degree Map

Degree Map for Economics

Economics - BA/MA

The Department of Economics offers promising students the opportunity to complete both the BA and MA degrees within 120 credits, 30 of which must be at the graduate level. Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index.

- Economics - BA
  - Economics - MA

A minimum grade of B in the following, or their equivalents

ECO 30000 - Intermediate Microeconomics

GER 3/B - Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare. prereq: ECO 20000, 20100 and MATH 15000 or MATH 15200 3 hrs 3 cr.

ECO 32100 - Introduction to Econometrics
Linear and non-linear regression models in economics; statistical methods for estimation and inference.

prereq: ECO 22100 or STAT 21300 and MATH 15000 or MATH 15200 or MATH 15400 or MATH 15500 or MATH 25500

3 hrs
3 cr.

A minimum grade of C in the following, or their equivalents
MATH 15000 (STEM) - Calculus I

Hunter Core Math/Quantitative Reasoning

GER 1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

Continuing in the program is contingent upon maintaining a 3.0 GPA in economics and the cumulative index and receiving
A minimum grade of B in ECO 30100 - Intermediate Macroeconomics

GER 3/B
Growth, employment and prices in the short and long run; monetary and fiscal policy.
prereq: ECO 20000, 20100, MATH 15000 or MATH 15200

3 hrs
3 cr.

An average grade of B in MATH 15000 (STEM) - Calculus I

Hunter Core Math/Quantitative Reasoning

GER 1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

MATH 16000 - Matrix Algebra
Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

Prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs

3 cr.

All students in the BA/MA program must complete the following, or their equivalents, as well as the courses listed above:

MATH 15500 (STEM) - Calculus II

Hunter Core - Math/Quantitative Reasoning

GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

Prereq: grade of C or better in MATH 15000

4 hrs

4 cr.

MATH 16000 - Matrix Algebra

GER 1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

Prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs

3 cr.

Additional Information

An undergraduate major in economics is normally required. Thomas Hunter Honors Program students may be admitted without declaring an undergraduate economics major, provided that the above courses are completed. To apply, see the graduate adviser.

Honors:

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

Note: Students enrolled in the BA/MA program may substitute enrollment in ECO 798 and an MA thesis for ECO 49900 and the Honors paper.

ECO 49900 Honors Project

Please note:

Modifications in these programs are awaiting approval by CUNY and NY State. Please consult the department for details.
Minor in Accounting

A minor in accounting is available. These courses may be used for CPLicensure in New York State, but represent only 15 of the 69 credits required.

Minor in Economics

The economics minor consists of a minimum of 12 credits, including ECO 20000 - Principles of Microeconomics, ECO 20100 - Principles of Macroeconomics and two other courses in economics. Accounting and business law courses do not count towards the economics minor.

Business Studies Certificate

The Certificate in Business Studies, a 15-credit program housed in the Economics department, consists of courses drawn from several departments. While the best foundation for any career is a liberal arts education, many students want to supplement their liberal arts education with business-specific skills and a credential signaling those skills to potential employers. We rely on businesses in New York City for work opportunities for students, and on the Cooperman Pre-Business Center for coordination of internships and workshops in business skills.

Eligibility

• Full-time students currently enrolled at Hunter College who have earned 25-95 credits. A minimum of 1/3 of these credits must have been earned at Hunter College. Graduate students and individuals with advanced degrees are not eligible to apply. Successful applicants will show evidence of the following:
  • Academic excellence and a minimum 3.2 cumulative GPA
  • Demonstrated interest in business
  • Required prerequisite course ECO 10000

Students selected for the Program must maintain a minimum overall GPA of 3.0.

Note: BA/MA candidates are in fact undergraduates, and therefore eligible.

Application

• An electronic copy of their resumé, highlighting extra-curricular activities and interests
• An electronic copy of their official transcript
One essay of 650 words or fewer, answering the following three questions:

• What are you doing today that demonstrates your interest in business?

• What are your professional aspirations upon graduating Hunter?

• How will participating in the Business Studies Certificate help you achieve these goals?

Based on written applications, select students may be invited to interview with the Business Certificate Admissions Committee. The Admissions Committee will select applicants subject to available resources. We expect to limit enrollment to 30 students per year, at least initially.

Curriculum

The certificate program will include three required 3-credit courses, plus one elective drawn from existing courses at the college and a 3-credit internship with a 3-credit capstone course.

Required Courses

ECO 10000 - Introduction to Economics

Hunter Core Individual and Society (Social Sciences) - I&S SS GER

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.

ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

prereq: Math/Writing Proficient/Non degree students

3 hrs
3 cr.

BUS 22500 - Survey of Accounting

An introductory accounting survey course designed specifically for non-majors to gain understanding of business terminology and the role of accounting in business environment. It will specifically focus on providing students with the ability to understand and effectively analyze financial information using the financial statements of a company (as an external user), as well as internal company information that will enhance business decision-making process such as budgeting (as an internal user), combining both financial and managerial accounting areas. It will also briefly introduce the basics of non-profit accounting while highlighting differences between for-profit and non-profit accounting information needs and presentations.

For non-accounting majors only.

Course is used in the Hunter Business Certificate and in the Hunter Arts Management Certificate.

prereq: Not open to undergraduate Accounting majors.

3 hrs.
3 cr.

BUS 26100 - Introduction to Entrepreneurship

Business enterprise fundamentals through the lens of a new business; identifying market opportunities to meet consumer need and create economic value in a new way; methods to convert an opportunity into a viable new business. Does not count toward the Economics and Accounting majors.

prereq:
ECO 22100 or MATH 10000 or MATH 10200 or MATH 10400 or MATH 12500 or MATH 15000 or MATH 15500 or STAT 11300 or STAT 21200 or STAT 21300.

3 hrs.
3 cr.

BUS 49700 - Business Studies Capstone and Internship
The capstone experience for the Business Certificate is an internship in which students will do meaningful work and have opportunities to learn about the broader organization in order to develop an overview of the business and its challenges. The Internship seminar is designed to help students reflect on their collective experiences and gain a more global perspective on multiple businesses, their goals, and their role in helping to achieve those goals. Does not count for economics or accounting majors. Permission based on fulfillment of all other certificate course requirements and having a qualifying (96 hours or more over 15 weeks) internship or job in place.

**Course is used in the Hunter Business Certificate.**

**prereq:**

Department permission required.

3 hrs.

3 cr.

**Elective**

Students choose one course from the following courses:

**Technology and Data**

CSCI 12700 - Introduction to Computer Science (STEM)

Hunter Core

Scientific World (SW)

GER 2/E (Non lab course)

This course presents an overview of computer science (CS) with an emphasis on problem-solving and computational thinking through 'coding': computer programming for beginners. Other topics include: organization of hardware, software, and how information is structured on contemporary computing devices. This course is pre-requisite to several introductory core courses in the CS Major. The course is also required for the CS minor. MATH 12500 or higher is strongly recommended as a co-req for intended Majors.

3 hrs (1.5 hrs lecture, 1.5 hrs recitation)

3 cr.

CSCI 13300 - Programming for Everyone

Hunter Core

Scientific World (SW)

GER 2/E

A comprehensive practical course in programming that concentrates on producing working software for games, simulations, animations, data manipulations, interacting with the Internet, graphical user interfaces and many other application areas. No programming experience is necessary. This course is required for Computer Science minors. This course does not count toward the computer science major.

3 hrs

3 cr.

ECO 22100 - Economic Statistics

Hunter Core

Mathematics and Quantitative Reasoning

GER 1/B

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

prereq:

Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500

3hr lecture or 2hr lecture/1 hr discussion

3 cr.
POLSC 20600 - Research Design in Political Science (W)

GER 3/B

Public opinion surveys, content analysis, legislative roll call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.

prereq: passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent

3 hrs 3 cr.

SOC 24100 - Social Statistics

GER 3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.

prereq: SOC 10100

3 hrs 3 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core Math/Quantitative Reasoning

GER 1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Students are expected to analyze real data sets and write reports.

prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam

prereq or coreq: ENGL 12000

3 hrs 3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core Math/Quantitative Reasoning

GER 1/B

Sampling, estimation, tests of hypotheses, including one and two sample tests, two and three way tables for nominal and ordinal data, linear regression, analysis of variance through two way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs 3 cr.

URBS 31100 - Quantitative Approaches to Urban Analysis

GER 3/B
A survey of quantitative methods used to analyze urban policy and plans. Students are taught about demography, data analysis, and benefits cost analysis.

**Prerequisites:**
Open only to urban studies majors who have completed the URBS 10100/10200 sequence or with permission of the instructor.

**Course Information:**
3 hours
3 credits

**Marketing and Communication**

**MEDPL 20100** - Reporting and Writing I (W)
An intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

**Prerequisites or Co-requisites:**
MEDIA 18000

**Course Information:**
3 hours
3 credits

**MEDP 28500** - Web Production I
An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.

**Prerequisites:**
MEDP/FILMP 15000

**Course Information:**
3 hours
3 credits

**PSYCH 33200** - Attitudes and Persuasion
This course reviews basic theory and research applications on attitudes and attitude change processes, including how attitudes are measured, used to predict behavior, and to persuade individuals.

**Prerequisites:**
ENGL 12000; PSYCH 24900 or 25000; and PSYCH 21000 - or - 23000

**Course Information:**
3 hours
3 credits

**SOC 31300** - Consumer Behavior
GER 3/B
Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

**Prerequisites:**
SOC 10100

**Course Information:**
3 hours
3 credits

**Management and Organizations**

**ECO 35900** - Economics of Business Organization and Management
GER 3/B
The economic theory of the firm, including the formal analysis of incentives and contracts. Particular focus on how the internal organization of the firm can mitigate the negative effects of conflicts of interest between different stakeholders in the firm.

**Prerequisites:**
ECO 20000 with a grade of C, CR or better
A review of research and theories on the effects of leadership, human relations, motivation and organizational structures on behavior in business and industrial settings; applications of personnel psychology, motivational psychology and human factors engineering in the workplace; job analysis, employee selection, leadership, performance appraisal, power and authority, work motivation and organizational communication.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

An introductory business law survey course designed specifically for non-majors to allow them to gain an understanding of basic legal concepts and terminology and the role of law in the business environment. It will specifically focus on the legal issues often encountered in business, including contract law, property law, negotiable instruments, secured transactions and bankruptcy, business entities.

For non-accounting majors only. Course is used in the Hunter Arts Management Certificate and is an elective in the Hunter Business Certificate.

prereq: Not open to undergraduate Accounting majors.

Personal Finance teaches the economic and mathematical skills needed to make informed decisions about money. Topics may include financial statements, the time value of money, consumer credit, savings, investment fundamentals, housing decisions, insurance and personal taxation. We focus on costs and benefits associated with individual choices as well as behavioral strategies that can improve the odds of success.

prereq: CUNY Math Proficiency

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings. ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major. ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

prereq: Math/Writing Proficient/Non degree students
Special topics and issues of research and policy interest. Topics vary each semester. Suitable for students who may have no prior background in economics. Does not count as credit toward the major.

ECO 20000 - Principles of Microeconomics

Covers the fundamental principles and analytical tools of microeconomics. The course develops models of consumer and firm behavior and uses them to study foundational topics such as taxation, labor and trade. The course builds tools for welfare analysis in perfectly competitive and imperfectly competitive markets.

Prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000

ECO 20100 - Principles of Macroeconomics

May be taken prior to or concurrently with ECO 20000. Covers the fundamental principles and analytical tools of macroeconomics, with applications in economic growth; business cycles, inflation, unemployment, and monetary and fiscal policy.

Prereq: Math and Writing Proficient AND MATH 10100 or 101EN or 12400 or 12500 or 12550 or 15000 or 15200 or 15500 and ECO 10000

ECO 22000 - Techniques of Economic Analysis

Mathematical techniques applied to economic models.

Prereq: ECO 20000; MATH 12500 or exemption from the course

ECO 22100 - Economic Statistics

Hunter Core: Mathematics and Quantitative Reasoning

Statistical theory applied to business and economic problems; correlation, regression, time series analysis.

Prereq: Math & Write Proficiency and MATH 12500 or 15000 or 15100 or 15400 or 15500 or 15600 or 16000 or 25000 or 25400 or 25500 or 26000 or 27500 or PHILO 27500 or MATH 29500

3 hr lecture or 2 hr lecture/1 hr discussion

3 cr.
Marketing creates value for customers, and therefore value for organizations. This course introduces students to the strategic concepts, practical decision-making and most common metrics required for a successful marketing plan, while also exploring the connections between marketing and other business functions.

BUS 21000
Creating Value Through Marketing

Counts as elective for Business Certificate.

prereq:
ECO 10000

3 hrs.
3 cr.

BUS 26100
Introduction to Entrepreneurship

Business enterprise fundamentals through the lens of a new business; identifying market opportunities to meet consumer need and create economic value in a new way; methods to convert an opportunity into a viable new business. Does not count toward the Economics and Accounting majors.

Course is used in the Hunter Business Certificate.

prereq:
Open only to upper sophomores.
ECO 22100 or MATH 10000 or MATH 10200 or MATH 10400 or MATH 12500 or MATH 15000 or MATH 15500 or STAT 11300 or STAT 21200 or STAT 21300.

3 hrs.
3 cr.

ECO 21000
Money and Banking

GER
3/B

Monetary and banking principles and practice; current issues; theory and policy.

prereq:
ECO 20000, 20100

3 hrs
3 cr.

ECO 23300
Economics of the Media

Provides an introduction to the economics of the media. The course uses the toolkit of economic analysis to understand the structure of media industries, the characteristics of media products, the effects of regulation in media markets, and changes brought about by digital technology.

Economics of the Media is a quantitative analytical course requiring a solid understanding of microeconomic principles and also basic statistics.

prereq:
ECO 10000 or ECO 20000

3 hrs
3 cr.

ECO 26600
Personal Financial Economics

Introduction to financial decision-making. Economic and behavioral theories; empirical evidence; implications for policy makers and investors.

prereq:
ECO 10000

3 hrs
3 cr.

ECO 29500
Selected Topics in Economics

GER
3/B

Special topics and issues of research and policy interest. Topics vary each semester. May be repeated for a total of 6 credit hours.

prereq: ECO 20000 or 20100

3 hrs
3 cr.

ECO 29600 - Special Topics in Economics

Special topics and issues of research and policy interest. Topics vary each semester. Does not count as credit toward the major.

prereq: Requisites may vary.

3 hrs
3 cr.

BUS 49700 - Business Studies Capstone and Internship

The capstone experience for the Business Certificate is an internship in which students will do meaningful work and have opportunities to learn about the broader organization in order to develop an overview of the business and its challenges. The Internship seminar is designed to help students reflect on their collective experiences and gain a more global perspective on multiple businesses, their goals, and their role in helping to achieve those goals. Does not count for economics or accounting majors. Permission based on fulfillment of all other certificate course requirements and having a qualifying (96 hours or more over 15 weeks) internship or job in place.

Course is used in the Hunter Business Certificate.

prereq: Department permission required.

3 hrs.
3 cr.

ECO 30000 - Intermediate Microeconomics

GER
3/B

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.

prereq: ECO 20000, 20100 and MATH 15000 or MATH 15200

3 hrs
3 cr.

ECO 30100 - Intermediate Macroeconomics

GER
3/B

Growth, employment and prices in the short and long run; monetary and fiscal policy.

prereq: ECO 20000, 20100, MATH 15000 or MATH 15200

3 hrs
3 cr.

ECO 31000 - Financial Institutions

GER
3/B

Operation, administration and regulation of U.S. banking, investment and credit institutions.

prereq: ECO 21000

3 hrs
3 cr.
ECO 31500 - Public Finance

GER 3/B

Theory and application of fiscal policy; federal budgeting; state and local finance.

prereq: ECO 20000

3 hrs

3 cr.

ECO 32100 - Introduction to Econometrics

GER 3/B

Linear and non-linear regression models in economics; statistical methods for estimation and inference.

prereq: ECO 22100 or STAT 21300 and MATH 15000 or MATH 15200 or MATH 15400 or MATH 15500 or MATH 25500

3 hrs

3 cr.

ECO 33000 - Economic Development

Pluralism and Diversity

GER 3/B

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.

prereq: ECO 20000

3 hrs

3 cr.

ECO 33700 - Mathematical Foundations of Economics

An advanced undergraduate course in mathematical methods for economists. The course is designed to introduce students to the mathematical techniques used in advanced study of economics and in professional and academic economic research.

prereq: ECO 30000 or equivalent and MATH 15000 or exemption from the course.

3 hrs

3 cr.

ECO 33900 - Strategies and Games in Economics

A critical introduction to applications of game theory in economics. Applications include the analysis of conflict, trust and cooperation, firms' strategic behavior in concentrated markets, and herd behavior and panics in financial markets. We extend basic game-theoretic models to incorporate asymmetric information and mechanism-design, studying how the rules of a game affect economic outcomes; voting models and political-economic equilibria; how firms choose their financial structure; and how and why laws and constitutions are chosen to be what they are.

prereq: ECO 30000 or equivalent

3 hrs.

3 cr.

ECO 34000 - International Trade
Theories of international trade and international trade policies.

Prerequisite: ECO 20000
3 hrs
3 cr.

ECO 34100 - International Finance
Theories of exchange rate determination and open economy macroeconomic theory and policy.
Prerequisite: ECO 20100
3 hrs
3 cr.

ECO 34500 - Women and Men in the Labor Market
Pluralism and Diversity
Demand for labor, determination of wages and allocation of time between paid and unpaid activities, "human capital" investments, labor market policy issues. Cross-listed with WGSL 34500.
Prerequisite: ECO 20000
3 hrs
3 cr.

ECO 35000 - Comparative Economic Systems
Pluralism and Diversity
Comparative analysis of market and planned economies in theory and practice. Process and problems of transitions between planned and market economies.
Prerequisite: ECO 20000, 20100
3 hrs
3 cr.

ECO 35500 - Business Strategy & Industrial Organization
Analysis of the strategic behavior of firms in markets with imperfect competition and the role of public policy in regulating these markets.
Prerequisite: ECO 20000
ECO 35600 - Business and Public Policy
Analysis of the intersection between business and government in market economies. Topics may include protection of intellectual property, economic regulation, health and safety regulation, antitrust, and the behavior of private firms in the political and social realms.

Prereq: ECO 20000

ECO 35900 - Economics of Business Organization and Management
The economic theory of the firm, including the formal analysis of incentives and contracts. Particular focus on how the internal organization of the firm can mitigate the negative effects of conflicts of interest between different stakeholders in the firm.

Prereq: ECO 20000 with a grade of C, CR or better

ECO 36000 - Managerial Economics
Theory of the firm, risk and uncertainty; forecasting, capital allocation, analysis of costs and returns, pricing.

Prereq: ECO 20000

ECO 36500 - Corporate Finance
Analysis of corporate investment and financing decisions.

Prereq: ECO 20000 and either ECO 22100 or STAT 21300, all with a grade of C or CR or better

ECO 36600 - Security and Investment Analysis
Operation of the stock market; security analysis and evaluation; economic variables influencing security values.
The course will use economic tools to evaluate key health issues, such as the demand for healthcare, the market for health insurance, the
ECO 49800 - Internship in Economics of Accounting
Opportunities for working in positions of responsibility in professional institutions (including government agencies, private firms and not-for-profit institutions) for academic credit. The position must provide opportunities for learning about some area of economics, accounting, business or related public policy. Credits may not be used towards the requirements for the economics or accounting major. CR/NC grading is mandatory.

prereq: Open only to qualified economics or accounting majors, upper Junior/Senior only. Enrollment is subject to approval of department adviser. Course may be taken no more than twice. 1 hr 1 cr.

ECO 49900 - Honors Project
Jr/Sr only. Supervised individual research and directed reading. Honors essay.

prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair. 3 hrs 3 cr.

ACC 27100 - Accounting I
Basic accounting concepts; preparation of financial statements. Emphasis on income determination and financial position.

prereq: upper freshman standing 3 hrs 3 cr.

ACC 27200 - Accounting II
Accounting concepts applied to partnerships and corporations; funds statements; financial statement analysis.

prereq: ACC 27100 with a grade of C or better effective term spring 2016 3 hrs 3 cr.

ACC 28000 - Business Law I
Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code.

prereq: sophomore standing or perm chair 3 hrs 3 cr.

ACCP 36700 - Analysis of Financial Statements
GER GER 3/B
Analysis, interpretation, and use of financial statements.

note: This course does not count as an elective towards the Economics major.

prereq: ECO 37200 and ECO 36500 or adviser's permission 3 hrs 3 cr.
ACCP 37100 - Intermediate Accounting I
In-depth study of current concepts relating to accounting for assets and current liabilities.
effective term spring 2016
prereq: ACC 27100 and ACC 27200 all with a grade of C or better.
3 hrs 3 cr.

ACCP 37200 - Intermediate Accounting II
Long-term liabilities, investments, revenue recognition; shareholders' equity, dilutive securities and earnings per share, income taxes, pensions, leases.
effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better.
4 hrs 4 cr.

ACCP 37300 - Federal Income Taxation
Principles of federal income taxation and the impact of taxes on individuals.
effective term spring 2016
prereq: Prereq: ACC 27100 and ACC 27200 and ACCP 37100, all with a grade of C or better
3 hrs 3 cr.

ACCP 37400 - Managerial Accounting (Cost Accounting)
Accumulation, analysis, presentation and use of cost data by management; budgets.
effective term spring 2016
prereq: Prereq: ACC 27100 and ACC 27200 and ACCP 37100 all with a grade of C or better
3 hrs 3 cr.

ACCP 38000 - Business Law II
Legal aspects of business organizations; agency, partnership and corporate relationships.
prereq: ACC 28000 with a grade of C, or CR, or better
3 hrs 3 cr.

ACCP 47100 - Advanced Accounting I
effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 all with a grade of C or better
3 hrs 3 cr.
Accounting theory and practice focused on partnerships, joint ventures, multinationals, government and public sector entities; not for profit accounting; interim and segment reporting; SEC problems, fiduciary accounting, bankruptcy.

Effective term: Spring 2016

Prerequisite: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200, all with a grade of C or better

3 hrs
3 cr.

Business Taxes

Federal income taxation of partnerships and corporations; other special tax issues.

Effective term: Spring 2016

Prerequisite: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200 and ACCP 37300, all with a grade of C or better

3 hrs
3 cr.

Auditing

Auditing theory and practices; ethics of accounting profession; procedures for auditing financial statements.

Prerequisite: ACC 27100 and ACC 27200 and ACCP 37100 and ACCP 37200, all with a grade of C or better

Prerequisite or corequisite: ACCP 47100, with a grade of C or better

4 hrs
4 cr.

Computer Accounting Systems

Prerequisite: ACC 27100 and ACC 27200, both with a grade of C or better, and declaration as an accounting major

3 hrs
3 cr.

Business Law III

Sales and financing devices under Uniform Commercial Code; property; trusts and estates; bankruptcy; other selected topics.

Prerequisite: ACCP 28000, with a grade of C or CR or better

3 hrs
3 cr.

Accounting & Auditing Research

Acquisition of research, analytical and communication skills. Provides coverage of fundamental knowledge and skills to conduct research as well as their application through announced readings, cases and research discussions on selected topics. Requires extensive Internet and library research including the use of FASB codification database.

Prerequisite: ECO 22100, with a grade of C or CR or better or STAT 21300, with a grade of C or CR or better and ACC 27100, ACC 27200, ACCP 37100, and ACCP 37200, all with a grade of C or better.

Prerequisite or corequisite: ACCP 47500

3 hrs
3 cr.
An introductory accounting survey course designed specifically for non-majors to gain understanding of business terminology and the role of accounting in the business environment. It will specifically focus on providing students with the ability to understand and effectively analyze financial information using the financial statements of a company (as an external user), as well as internal company information that will enhance business decision-making process such as budgeting (as an internal user), combining both financial and managerial accounting areas. It will also briefly introduce the basics of non-profit accounting while highlighting differences between for-profit and non-profit accounting information needs and presentations.

For non-accounting majors only.

Course is used in the Hunter Business Certificate and in the Hunter Arts Management Certificate.

prereq:
Not open to undergraduate Accounting majors.

3 hrs.
3 cr.

BUS 23000 - Essentials of Business Law

An introductory business law survey course designed specifically for non-majors to allow them to gain an understanding of basic legal concepts and terminology and the role of law in the business environment. It will specifically focus on the legal issues often encountered in business, including contract law, property law, negotiable instruments, secured transactions, and bankruptcy, business entities.

For non-accounting majors only.

Course is used in the Hunter Arts Management Certificate and is an elective in the Hunter Business Certificate.

prereq:
Not open to undergraduate Accounting majors.

3 hrs.
3 cr.

ECO 30500 - Development of Economic Thought

GER 3/B
ECO 33100 - Economic History

GER 3/B
ECO 33600 - Regional Economics

GER 3/B
ECO 34600 - The Labor Movement

GER 3/B
ECO 35200 - Economics of the Caribbean

GER 3/B
ECO 42100 - Econometrics

ECO 49500 - Selected Topics in Economics

Jr/Sr majors only. Special readings, research papers and seminar discussions on selected advanced topics announced each semester. May be repeated for total of 6 cr.

prereq:
ECO 30000 or 30100

3 hrs
3 cr.
Jr/Sr majors only. Special readings, research and seminar discussions on selected topics announced each semester. May be repeated for total of 6 cr.

prereq:
3.5 GPA in economics, perm chair

3 hrs
3 cr.

Programs and Courses in Education

The School of Education

UTEP (Undergraduate Teacher Education Pathways)

School of Education

UTEP programs at Hunter College prepare prospective teachers to serve as highly effective educators, and provide opportunities to work with children of diverse backgrounds, abilities, and interests within an array of educational settings in New York State.

A student who completes an undergraduate School of Education program fulfills the academic requirements for New York State Initial Certification. All students in an education major or minor at Hunter must also fulfill both the Hunter Core requirement and the requirements for a liberal arts or sciences major.

The School of Education is committed to the development of teacher candidates that will be both educators and lifelong students. Teacher preparation that focuses on the unique challenges of working in NYC public school classrooms is at the core of Hunter College's educational mission, and the School of Education is a place for aspiring teachers to learn their craft and contribute to the future through the classroom.

School of Education students are held to the highest professional and academic standards, and will be expected to:

• Learn deep and broad content knowledge across academic disciplines.
• Develop professional knowledge and academic skills.
• Learn the theory and practice of effective pedagogy.
• Understand the history, philosophy, psychology, and sociology of education that will inform their teaching.

The School of Education also believes in preparing teacher candidates to work with a diverse student population in the modern classroom, and recognizes that learning takes place inside social and community networks that support student learning. Thus, our programs also provide teacher candidates with knowledge on how to:

• Manage their educational setting to provide effective instruction for all students.
• Design lessons and units of work for students and to adapt their instruction to students' prior knowledge and level of skill.
• Use research-based theories and methods of teaching students with special needs, including special education students and English language learners.
• Learn to create humane and ethical learning communities in which all students receive the support they need to achieve academically.
• Learn to communicate effectively with parents, families, community members, and other members of the school faculty and staff in order to provide this support.
• Master the use of technology as a tool for teaching.

Finally, becoming a Hunter College teacher candidate requires dedication to the continuous improvement of one's professional abilities. Our programs, therefore, ensure teacher candidates know how to:

• Reflect on teaching practice in order to strengthen work with students and grow as professionals.
• Gain expertise in analyzing and using assessments of student achievement to guide and inform instruction.
The BA program in Adolescent Biology Education leads to initial certification as a teacher in New York State. The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major
Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.
Students interested in an Education program should interview as early as possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter. The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Biology.
- Participation in a group interview.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here:

Hunter Core Requirement - Fall 2013 to Spring 2019.

In the case of Biology, the courses that meet CCCR are:

- BIOL 10000 (STEM) - Principles of Biology I
- BIOL 10200 (STEM) - Principles of Biology II

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan:

BIOL 1AE - BA & MHCB 1AE - BA

Credits: 94 - 110

Biology Requirements (67 - 83 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

Math Courses (3 - 17 credits)

- MATH 10100 - Algebra for College Students
- MATH 101EN - Algebra for College Students - Enhanced*
MATH 10150 - Mastery of Symbolic Computation*

MATH 12400 (STEM) - College Algebra and Trigonometry*
or
MATH 12500 (STEM) - Precalculus*
or
MATH 12550 (STEM) - Precalculus with Workshop*

MATH 14000 - Mathematical Reasoning Workshop
* unless students earn a grade of B or above in MATH 12550

MATH 15000 (STEM) - Calculus I*
and
MATH 15500 (STEM) - Calculus II*
or
MATH 15200 (STEM) - Calculus for Life and Social Sciences* and
STAT 21300 (STEM) - Introduction to Applied Statistics*

A. Introductory Biology (9)

BIOL 10000 (STEM) - Principles of Biology I

BIOL 10200 (STEM) - Principles of Biology II

B. 200-level and higher Concentration in Biology and additional courses (55 to 57 credits)

1. Required Courses (44 to 46)

BIOL 20300 - Molecular Biology and Genetics

BIOL 30000 - Biological Chemistry

BIOL 30300 - Cell Biology

CHEM 10200 (STEM) - General Chemistry I*

CHEM 10400 (STEM) - General Chemistry II*

CHEM 10600 (STEM) - General Chemistry Laboratory*

CHEM 22200 - Organic Chemistry Lecture I*

CHEM 22300 - Organic Chemistry Laboratory I*

CHEM 22400 - Organic Chemistry Lecture II

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound*
and
PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics*
Students select the remainder of their credits toward the Biology Major from advanced courses in the biological sciences so as to create a core area of study. Eleven credits are required to complete the major. A minimum of two elective lecture courses must be taken, with at least one course at the 30000 level or higher, in addition to BIOL 30000 and BIOL 30300, to other lecture or research courses. There are some BIOL courses that do not count as electives towards the Biology Major (e.g. BIOL 12000, BIOL 12200 and BIOL 23000). Please read the course descriptions carefully to identify those courses. If you have any questions about which courses can be used as major electives, please speak to your Biology department advisor. Students with strong interdisciplinary interests may select advanced course offerings in other departments after approval by their adviser. Four credits of laboratory research are recommended and can count towards the total elective credits either from a laboratory elective course or from research within an approved research laboratory. Laboratory research credits are taken as a BIOL 48000 research course for a maximum of two credits per semester and require a written report or presentation of work required for completion of course. Laboratory research credits can also be obtained from BIOL 61000.

### Education Requirements (27 credits)

**SEDF 20300** - Social Foundations of Education, Grades 7-12 (W)
Three credits
- Students explore different sociological, historical, philosophical, anthropological, and political concepts and the theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

**SEDF 20400** - Adolescent Development
Two credits per week plus 36 hrs fieldwork
- The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

**SEDF 20500** - Educational Psychology: Applications in Grades 7-12
Two credits per week plus 36 hrs fieldwork
- Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12. Prereq: SEDF 20300, 20400

**SEDF 20600** - Assessment of the Teaching and Learning Process in Grades 7-12
Two credits per week plus lab
- The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

**SEDC 21000** - Building the Foundations of Literacy in Grades 7-12
Supporting the development of literacy across the curriculum, with a focus on underprepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.
SEDC 21300
Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12
Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

prereq or coreq:
SEDF 20300, 20400

3 hrs
3 cr.
SEDC 22000
Adolescent Health and Safety
Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq:
SEDF 20300, 20400

1 hr
1 cr.
SEDC 32400
Methods II: Teaching Diverse Learners Science, Grades 7-12
Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special

prereq:
SEDC 21300
prereq or coreq:
SEDF 20500, SEDC 21000

2 hrs per week plus 48 hrs fieldwork
2 cr.
SEDCP 34100
Adolescent Fieldwork
Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

Teaching Students with Special Needs in Inclusive Settings
Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus -- though we will

prereq:
QSTA 40080 or QSTAP 40080
SEDCP 45410 - Student Teaching in Biology, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

SEDC 32400

prereq or coreq: SEDF 20600

2 hrs per week, 60 days student teaching plus workshops and conferences

5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Biology, Grades 7-12 - BA/MA

The BA/MA program in Adolescent Biology Education leads to initial certification as a teacher in New York State. This bachelor's/master's program in adolescent education is designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their aligned liberal arts major. Courses for this program are taken at both the undergraduate and graduate levels. This program includes fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year. Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

• Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
• A Hunter College Grade Point Average (GPA) of 3.0 or better.
• Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
• Formal declaration of a major in Biology.
• Participation in a group interview.
Undergraduate Academic Progress Standards

• Students must maintain a GPA of at least 3.0.

• Any student who receives a grade of B–, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.

• Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.

• Any student who receives a grade of F in any education course will not be permitted to continue in the program.

• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on

In the case of Biology, the courses that meet CCCR are:

• BIOL 10000 (STEM) - Principles of Biology I
• BIOL 10200 (STEM) - Principles of Biology II

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan:

BIOAE
BAMA

Credits:

108 - 127

Biology Requirements (67 - 83 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Math Courses (3 - 17 credits)

• MATH 10100 - Algebra for College Students*
• MATH 101EN - Algebra for College Students - Enhanced*
• MATH 10150 - Mastery of Symbolic Computation*
• MATH 12400 (STEM) - College Algebra and Trigonometry*
• MATH 12500 (STEM) - Precalculus*
• MATH 12550 (STEM) - Precalculus with Workshop*
• MATH 14000 - Mathematical Reasoning Workshop

* unless students earn a grade of B– or above in MATH 12550
A. Introductory Biology (9)

• BIOL 10000 (STEM) - Principles of Biology I
• BIOL 10200 (STEM) - Principles of Biology II

B. 200-level and higher Concentration in Biology and additional courses (55 - 57 credits)

1. Required Courses (44 - 46)
   • BIOL 20300 - Molecular Biology and Genetics
   • BIOL 30000 - Biological Chemistry
   • BIOL 30300 - Cell Biology
   • CHEM 10200 (STEM) - General Chemistry I*
   • CHEM 10400 (STEM) - General Chemistry II*
   • CHEM 22200 - Organic Chemistry Lecture I*
   • CHEM 22300 - Organic Chemistry Laboratory I*
   • CHEM 22400 - Organic Chemistry Lecture II

2. Electives (11 credits)

   Students select the remainder of their credits toward the Biology Major from advanced courses in the biological sciences so as to create a core area of study. Eleven credits are required to complete the major. A minimum of two elective lecture courses must be taken, with at least one course at the 30000 level or higher, in addition to BIOL 30000 and BIOL 30300, for a minimum of six credits. For the remaining elective credits, at least one special-topics course must be taken (BIOL 47000 or BIOL 47100 or BIOL 79000; various topics offered each semester) in addition to other lecture or research courses. There are some BIOL courses that do not count as electives towards the Biology Major, please speak to your Biology department advisor. Students with strong interdisciplinary interests may select advanced course offerings in

*These courses may be counted for credit in more than one program.
Laboratory research credits are taken as a BIOL 4800 research course for a maximum of two credits. Laboratory research credits can also be obtained from BIOL 61000.

Graduate Biology Courses (15-17 credits)

For course descriptions please see the graduate catalog.

- BIOL 61055 - Laboratory Workshop in Biology Education (4)
- BIOL 63000 - Science and Society (3)

• American Museum of Natural History CUNY credit course: Genetics, Genomics or Evolution

Category A:

For students who have completed molecular biology and molecular genetics at the undergraduate level. Choose one:

- BIOL 70000 - Genetics (4)
- BIOL 710LC - Molecular Biology Lecture (5)
- BIOL 71400 - Cell Biology (4)
- BIOL 75003 - Developmental Biology (4)

Category B:

For students who have not taken either molecular biology or molecular genetics at the undergraduate level. Students must take both courses below:

- BIOL 60000 - Molecular Biology for Science Teachers (3)
- BIOL 60210 - Molecular Genetics for Science Teachers (3)

Education Requirements (26-27 credits)

For course descriptions please see the graduate catalog.

- SEDF 70300: Social Foundations of Education: Grades 7-12
- SEDF 70400: Adolescent Development
- SEDF 70500: Educational Psychology: Applications in Grades 7-12
- SEDF 70600: Assessment of the Teaching and Learning Process in Grades 7-12
- SEDC 71000: Building the Foundations of Literacy in Grades 7-12
- SEDC 72000: Adolescent Health and Safety
- SEDC 71300: Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science
- SEDC 72400: Methods II: Intensive Study of Teaching Diverse Learners in Science Grades 7-12
- SPED 70800: Teaching Students with Special Needs in Inclusive Settings

Take either:

- SEDC 75401: Student Teaching in Biology, Grades 7-12 (5)
- SEDC 77411: Practicum in Biology, Grades 7-9 (2)

Plus:

- SEDC 77421: Practicum in Biology, Grades 10-12 (2)
Students must meet the following criteria in order to graduate with a School of Education major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Chemistry, Grades 7-12 - BA

The program in Adolescent Chemistry Education leads to initial certification as a teacher in New York State. The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal education website. Current Hunter students can request an interview throughout the year. Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

• Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
• A Hunter College Grade Point Average (GPA) of 3.0 or better.
• Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
• Formal declaration of a major in Chemistry.
• Participation in a group interview.

Undergraduate Academic Progress Standards

• Students must maintain a GPA of at least 3.0.

Course of Study

Academic Plan: CHEADED - BA & MHCCHEA - BA

Credits: 89 - 101

Chemistry Requirements (62 - 74 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Choose One General Chemistry Sequence (11 credits)

• CHEM 10200 (STEM) - General Chemistry I
  • CHEM 10400 (STEM) - General Chemistry II
  • CHEM 10600 (STEM) - General Chemistry Laboratory

• CHEM 11100 (STEM) - Chemical Principles
  • CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Organic Chemistry (13 cr.)

• CHEM 22200 - Organic Chemistry Lecture I
  • CHEM 22300 - Organic Chemistry Laboratory I

• CHEM 22400 - Organic Chemistry Lecture II
  • CHEM 22500 - Organic Chemistry Laboratory II

Additional Required Courses (12 cr.)

• CHEM 24900 - Quantitative Analysis
• CHEM 35200 - Physical Chemistry I
• CHEM 35400 - Physical Chemistry II
  • CHEM 35600 - Physical Chemistry II

• CHEM 35500 - Physical Chemistry Laboratory I
• CHEM 35700 - Physical Chemistry Laboratory II
Required elective course (3 - 5 credits)

- Any chemistry course at the 300 level or above excluding CHEM 49101

Required Math Courses (12 - 22 credits)

- MATH 10100 - Algebra for College Students

- or

- MATH 101EN - Algebra for College Students - Enhanced

- MATH 10150 - Mastery of Symbolic Computation

- MATH 12400 (STEM) - College Algebra and Trigonometry

- or

- MATH 12500 (STEM) - Precalculus

- or

- MATH 12550 (STEM) - Precalculus with Workshop

- MATH 14000 - Mathematical Reasoning Workshop

- unless students earn a grade of B or above in MATH 12550

- MATH 15000 (STEM) - Calculus I

- MATH 15500 (STEM) - Calculus II

- MATH 15600 - Introduction to Mathematical Proof Workshop

- MATH 25000 - Calculus III

Required Physics Courses (11 cr.)

- PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

- or

- PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

*These courses may be counted for credit in more than one program.

Education Requirements (27 credits)

- SEDF 20300 - Social Foundations of Education, Grades 7 - 12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

- SEDF 20400 - Adolescent Development
The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 20500, SEDC 21000

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on underprepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

prereq or coreq: SEDF 20300, 20400

SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

prereq or coreq: SEDF 20300, 20400

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400

1 hr 1 cr.

SEDC 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for
Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus—though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

Student Teaching in Chemistry, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

Student Teaching in Chemistry, Grades 7-12

BA/MA

The BA/MA program in Adolescent Chemistry Education leads to initial certification as a teacher in New York State.

Earth Science Requirements (61 - 70 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

1. Math (0 - 8 credits)

- **MATH 10100 - Algebra for College Students**
  - Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
  - Prereq: appropriate score on placement exam or exit from appropriate departmental workshop
  - 4 hrs (2 lec, 2 lab)
  - 3 cr.

- **MATH 101EN - Algebra for College Students - Enhanced**
  - Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra.
  - Not open to students who have taken MATH 10100.
  - Prereq: Department Permission
  - 6 hrs
  - 3 cr.

- **MATH 10150 - Mastery of Symbolic Computation**

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs 1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH 12500 for grade replacement purposes.

prereq: MATH 10100/101EN - or - the appropriate score on the Mathematics placement test. Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs 4 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core Math/Quantitative Reasoning

GER 1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs 4 cr.

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

prereq: MATH 10100/101EN with a grade of B or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500.

5 hrs (4 hrs lecture, 1 hr recitation) 4 cr.

2. Introductory Geography (3-4 credits)

These courses are prerequisites to PGEOG 25000. Either of these courses, or GEOG 22600 is acceptable.

GEOL 10100 - Introductory Geology Lab

Hunter Core Life & Physical Sciences

GER 2/E
and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.
**GER 2/E**  
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent to one year of general chemistry laboratory.  
Primarily for pre-med, medical laboratory sciences, and science majors.  
*prereq:* CHEM 10200  
*coreq:* CHEM 10400  
6 hrs  
3 cr.

**GEOG 22600**  
Environmental Conservation: Resource Management  
GER 2/B  
Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

*prereq or coreq:* ENGL 12000  
3 hrs  
3 cr.

**PGEOG 25000**  
Earth System Science I (W)  
GER 3/B  
In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.  
*prereq:* ENGL 12000  
*prereq or coreq:* GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.  
4 hrs  
3.5 cr.

**PGEOG 25100**  
Earth System Science II  
GER 3/B  
The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate.

*prereq:* PGEOG 25000 or perm instr.  
4 hrs  
3.5 cr.

Required Capstone course
Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

 prerequisites: permission from the department or PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

4. Electives (18 credits)
A minimum of 18 credits from the list below. 12 credits must be taken at the 300-level or higher.

Note: It is strongly recommended that students take STAT 11300 - Elementary Probability and Statistics

GEOL 20500 - Environmental Geology

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

 prerequisites: GEOL 10100

3 hrs 3 cr.

GEOL 28000 - Marine Geology

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

 prerequisites: GEOL 10200 or permission from the instructor

3 hrs 3 cr.

GEOL 38000 - Advanced Oceanography: Physics of the Oceans

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

 prerequisites: one semester of CHEM or PHYS, MATH 15000 or equivalent.
Intensive courses in various aspects of geology or oceanography. Topics to be announced. 

**prereq:** 200-level course of which special topic is logical outgrowth; perm instr.

**1-4 hrs (lec or lec/lab)**

**1-3 cr.**

**GER**

**3/B**

**GTECH 20100** - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

**prereq:** MATH 10100 or MATH 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

**6 hrs (2 lec, 4 lab)**

**4 cr.**

**Offered fall and spring**

**GTECH 32100** - Remote Sensing of the Environment

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.

**Material Fee:** $15

**prereq:** GTEC 32000 or perm instr.

**4 hrs (2 lec, 2 lab)**

**3 cr.**

**GTECH 36100** - GIS Analysis

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geo-spatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

**Material Fee:** $15

**prereq:** GTECH 20100

**4 hrs (2 lec, 2 lab)**

**3 cr.**

**PGEOG 31300** - Biogeography

Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.
Introduction to Hydrology

Designed to provide the basic understanding of how water on the Earth moves, distributes, circulates and interacts with the environment. Focus will be on hydrological processes including precipitation, evapotranspiration (evaporation and transpiration), soil water, ground water, and runoff, which form the complete water cycle at global, regional and watershed scales. The course will also cover some topics on how water responds to environmental changes and strategies of integrated water resources.

Urban and Metropolitan Coasts

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.

Global Climatic Change

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

Environmental Hazards

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and preventive measures and find solutions to act on environmental hazards on national and international levels.
GER 3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.

1 - 4 hrs (lec or lec/lab)

1 - 3 cr.

5. Graduate Earth Science Courses (16 credits)

For course descriptions please see the graduate catalog.

• PGEOG 70563 - Earth Science Today
• GTECH 71000 - Concepts and Theories in GeoInformatics
• PGEOG 63000 - Science and Society
• PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

• One elective chosen from 600 - or 700 - level courses with a PGEOG or GTECH prefix, 3 or 4 crs.

Students lacking a significant background in geology or earth science may be required to take PGEOG 70564 - Introducing Earth Science at the Museum of Natural History as their elective:

Education Requirements (26 - 27 credits)

For course descriptions please see the graduate catalog.

• SEDF 70300: Social Foundations of Education: Grades 7 - 12
• SEDF 70400: Adolescent Development
• SEDF 70500: Educational Psychology: Applications in Grades 7 - 12
• SEDF 70600: Assessment of the Teaching and Learning Process in Grades 7 - 12
• SEDC 71000: Building the Foundations of Literacy in Grades 7 - 12
• SEDC 72000: Adolescent Health and Safety
• SEDC 71300: Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science
• SEDC 72400: Methods II: Intensive Study of Teaching Diverse Learners in Science Grades 7 - 12
• SPED 70800: Teaching Students with Special Needs in Inclusive Settings
• SEDC 75404: Student Teaching in Grades 7 - 12: Earth Sciences

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.
List of Programs

- Adolescent Biology, Grades 7-12 - BA
- Adolescent Biology, Grades 7-12 - BA/MA
- Adolescent Chemistry, Grades 7-12 - BA
- Adolescent Chemistry, Grades 7-12 - BA/MA
- Adolescent Earth Science, Grades 7-12 - BA/MA
- Adolescent English, Grades 7-12 - BA
- Adolescent Mathematics, Grades 7-12 - BA
- Adolescent Mathematics, Grades 7-12 - BA/MA
- Adolescent Physics, Grades 7-12 - BA
- Adolescent Physics, Grades 7-12 - BA/MA
- Dance Education, Grades Pre K-12 - BA
- Dance Education, Grades Pre K-12 - BA/MA

Progress Standards

- Students must maintain a minimum overall GPA of 2.8 and an education sequence index of 2.8.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.

Students will be permitted to register for the second methods course in their subject area only after having met the following requirements:

- Completion of 18 credits of study in the major subject area;
- Approval of the major department adviser; and
- Maintenance of an overall GPA of 2.8 and an education sequence index of 2.8.

Students should register to take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations during their junior year. Students will not be allowed to enroll in student teaching until their scores on the LAST have been received by the School of Education. Students who do not pass the LAST at least partly because of low scores on subtest 4 and/or 5 must enroll in a college writing course before being allowed to register for any additional courses.

Admission Process

- Students interested in applying to the Adolescent Education program should apply at the beginning of the semester prior to the semester in which they plan to enroll.
- Students must participate in a group interview with several other students and School of Education faculty members.
- Students must complete an on-site writing sample that the School of Education faculty will use to assess written English skills.

Admission Requirements
Students who wish to enter the adolescent education sequence must meet all the criteria given below.

- Minimum of 65 credits but no more than 90 credits;
- GPA of at least 2.8. If a student has more than 6 credits of CR/NR grades, the excess of these grades will be calculated as C or F in determining whether the student meets the minimum GPA;
- A grade of at least B in ENGL 12000 (or a 200- or 300-level writing course such as ENGL 201);
- Formal declaration of a major in a subject area appropriate for certification: English, Languages Other than English (Chinese, French, German, Hebrew, Italian, Russian, Spanish), Mathematics, Biology, Chemistry, Physics, Social Studies (Geography Option 2), Dance; and
- Submission of an application for admission to the sequence (the application is available in the Office of Educational Services, Room 1000 Hunter West).

Program Overview

Students who major in an academic subject may also wish to complete a sequence of courses in education that will enable them to pursue a career teaching students in grades 7-12. The undergraduate programs in adolescent education are designed to prepare prospective teachers and high schools. Through rigorous course work, fieldwork and student teaching experiences in New York City schools, students learn how to

- will learn how to use knowledge of their subject to design and implement classroom instruction that reflects State and professional standards.

- study, philosophy, psychology and sociology of education that will inform their teaching. They will study research-based theories and methods of

- time and level of skill. They will gain expertise in analyzing and using assessments of student achievement to guide and inform their instruction. They will practice ways to assess and reflect on their teaching practice in order to strengthen their work with

- receive the support they need to achieve academically. They will learn to communicate effectively with parents, families, community members

Programs

The Hunter College School of Education offers the following undergraduate programs leading to initial certification in adolescent education (grades 7-12): biology, chemistry, Chinese, English, French, German, Hebrew, Italian, mathematics, physics, Russian, social studies and Spanish. Hunter also offers an undergraduate program leading to initial certification in dance (pre-K-12). In addition, BA/MA programs in biology, chemistry, earth science, mathematics, music and physics are offered. These programs lead to initial and professional certification. The program of study for the baccalaureate degree at Hunter College requires a minimum of 120 credits. This is a daytime program that includes fieldwork in New York City public schools designated by the Hunter College School of Education. Students who wish to pursue General Education Requirement (GER) and the requirements of their liberal arts or sciences major. All relevant departments accept the
The program will conditionally admit transfer students with 60 or more credits who have a GPA of at least 3.3 without requiring that they complete 12 credits at Hunter College. However, they must establish a minimum GPA of 2.8 at Hunter College to continue in the program after the first semester. Any transfer student who has a GPA of 2.8-3.29 must complete 12 credits at Hunter College with a cumulative GPA of at least 2.8 before being admitted to the program in adolescent education.

Adolescent English, Grades 7-12

The BA program in Adolescent English Education leads to initial certification as a teacher in New York State. The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year. Students interested in an Education program should interview as early as possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter. The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in English.
- Participation in a group interview.

Meeting minimum requirements to declare the major does not guarantee entry into the program.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
Total credits required = 69

English Courses (39 Credits)

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here:

- ENGL 22000 - Introduction to Writing about Literature (W)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Introductory Courses (6 credits)

- ENGL 22000 - Introduction to Writing about Literature (W)
- ENGL 25200 - Introduction to Literary Studies

(ENGL 22000 must be the first course taken in the major)
(ENGL 25200 must be taken within a semester of declaring the major)

Surveys in Literature and Theory (12 credits)

- ENGL 30300 - Western Literary Backgrounds of British and American Literature
- ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century
- ENGL 30600 - Introduction to Literary Theory (W)
- ENGL 30700 - Survey of American Literature: From Origins to the Civil War

Literature Requirements (6 credits)

One course from

- ENGL 31700 - Topics in Non-European Literary Traditions (W)
- ENGL 31800 - Topics in Literature of Non-European Americans (W)
- ENGL 32000 - Multi-Ethnic American Literature (W)
- ENGL 32100 - Topics in African American Literature
- ENGL 32300 - Topics in Asian American Literature
- ENGL 32400 - Topics in Native American Literature
- ENGL 32500 - Post-Colonial Literature in English (W)
- ENGL 32600 - Topics in US Latina/o Literature
- ENGL 32700 - Topics in Caribbean Literature (W)
- ENGL 32900 - Topics in Cross-Cultural Literature in English (W)
One course from

- ENGL 35200 - Shakespeare Survey
- ENGL 35300 - Shakespeare I
- ENGL 35400 - Shakespeare II

Required courses in Linguistics (3 credits)

- ENGL 28000 - The Structure of Modern English

Required courses in Writing (6 credits)

- ENGL 30100 - Composition Theory and Practice

And one of:

- ENGL 28500 - Introduction to Creative Writing
- ENGL 34300 - Topics in Composition Studies

Electives (9 credits)

Students in this major are required to take nine credits of elective courses. One elective course must be a 400-level advanced seminar, which can only be taken after achieving 24 credits in the major (see below). The remaining courses must be at the 300-level or above department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply 1 Britain Since 1689, may count that course toward either the English or History major, not both. Students may choose from the courses and

students must have prior written permission from an English advisor and must meet all the prerequisites for the course. Permission will only be

students must first complete at least 24 credits in the major and meet the prerequisites for the specific Seminar (listed below).

ENGL 49000 Advanced Seminar in Literature and Criticism (Prerequisites: ENGL 22000; ENGL 25200; ENGL 30400; ENGL 30600; ENGL 30700; one of ENGL 31700, 31800, 32000, 32100, 32300, 32400, 32500, 32600, 32700, or 32900)

ENGL 49200 Advanced Seminar in Linguistics and/or Rhetoric (Prerequisites: ENGL 22000; ENGL 25200; ENGL 28000; ENGL 30100; one of ENGL 34000, ENGL 34100, ENGL 34200, or ENGL 34300; and one of ENGL 33000, ENGL 33200, ENGL 33300, ENGL 33600, ENGL 34600, ENGL 34700, ENGL 34800)

ENGL 48400 Advanced Seminar in Creative Writing (Prerequisites: ENGL 22000; ENGL 25200; ENGL 28500; ENGL 30400; ENGL 30700; and both a level 1 and 2 workshop in the student's chosen genre)

Seminar (ENGL 49400) in place of or in addition to one of the Advanced Seminars. In rare cases, students may take ENGL 48500 Individual

lect.
Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

SEDF 20400 - Adolescent Development
The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12
Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12
The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 20500, SEDC 21000

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12
Supporting the development of literacy across the curriculum, with a focus on underprepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

SEDC 21100 - Young Adult Literature in Our Diverse Society
Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English language arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 20300, 20400

SEDC 22000 - Adolescent Health and Safety
Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400

SEDC 32100 - Teaching English Methods to a Diverse Population in Grades 7-12
Candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, viewing, and assessment techniques as they present lessons to the class for peer and instructor criticisms. State and city teaching standards will be applied throughout the course.

Prerequisites:
- SEDC 21100
- SEDF 20500, SEDC 21000

2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDCP 34100 - Adolescent Fieldwork Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

Prerequisites:
- SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500

15 hours of seminar; 48 hours of fieldwork
1 cr.

SEDCP 45100 - Student Teaching in English, Grades 7-12 Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified English teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

Prerequisites:
- SEDC 32100
- SEDF 20600

2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus—though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased
Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop.

The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

The BA program in Adolescent Mathematics Education leads to initial certification as a teacher in New York State. There are two tracks:

- Track I Mathematics
- Track II Statistics

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year. Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to the program.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Mathematics or Statistics.
- Participation in a group interview.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once. Students are permitted to repeat a course only once.
- Any student who receives a grade of D in an education course will be required to repeat that course.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.
In the case of the Mathematics, the courses that meet CCCR are:

- MATH 12500 (STEM) - Precalculus
- MATH 15000 (STEM) - Calculus I
- MATH 15500 (STEM) - Calculus II
- STAT 21300 (STEM) - Introduction to Applied Statistics

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan:
- MATADED - BA & MHCMATA - BA

Credits: 60 - 77

Mathematics Requirements (33/34 - 50 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

The following courses may be counted for credit in more than one program:
- MATH 101, 101EN, 10150, MATH 124, 125, 125, 140, 150, 155, 156, 250; STAT 213, 311

Mathematics Track (34 - 50 credits)
Statistics Track (33 - 50 credits)

Education Requirements (27 credits)

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs 3 cr.

SEDF 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork 2 cr.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.
The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

Prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000
Building the Foundation of Literacy in Grades 7-12
Supporting the development of literacy across the curriculum, with a focus on underprepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

SEDC 21300
Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12
Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

Prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

SEDC 22000
Adolescent Health and Safety
Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDC 32300
Methods II: Teaching Diverse Learners in Mathematics, Grades 7-12
Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

Prereq: SEDC 21300
Prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDCP 34100
Adolescent Fieldwork
Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.
Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus—though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

prereq: QSTA 40080 or QSTAP 40080—or prereq or coreq: SEDC 21000 or SEDC 21300 or SEDC 21200 or SEDC 215 or DANED 30200 or SEDC 3333 or SEDCP 45300 - Student Teaching in Mathematics, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified math teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than in the liberal arts.

prereq: SEDC 32300 or SEDF 20600 2 hrs per week, 60 days student teaching plus workshops and conferences 5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Mathematics, Grades 7-12 - BA/MA

The BA/MA program in Adolescent Mathematics Education leads to initial certification as a teacher in New York State. There are two tracks:

• Track I Mathematics
• Track II Statistics

This bachelor's / master's program in adolescent education is designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their aligned liberal arts or sciences major. Courses for this program are taken at both the undergraduate and graduate levels. This program includes fieldwork in New York City Public schools.

Declaring the Major
Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year. Students interested in an Education program should interview as early as possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter. The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

• Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
• A Hunter College Grade Point Average (GPA) of 3.0 or better.
• Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
• Formal declaration of a major in Mathematics or Statistics.
• Participation in a group interview.

Undergraduate Academic Progress Standards

• Students must maintain a GPA of at least 3.0.
• Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once. Students are permitted to repeat a course only once.
• Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
• Any student who receives a grade of F in any education course will not be permitted to continue in the program.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count towards the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.

Course of Study

Academic Plan:

MATH-ACADEMIC PROGRAM

Credits: 75

Mathematics Requirements (33/34-50 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details. The following courses may be counted for credit in more than one program:

MATH 101, 101EN, 10150, MATH 124, 125, 125, 140, 150, 155, 156, 250; STAT 213, 311.
Mathematics Track (34-50 credits)
Statistics Track (33-50 credits)
Graduate Mathematics Courses (15 credits)
Education Requirements (27 credits)
  • SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)
  • SEDF 20400 - Adolescent Development
  • SEDF 20500 - Educational Psychology: Applications in Grades 7-12
  • SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12
  • SEDC 21000 - Building the Foundations of Literacy in Grades 7-12
  • SEDC 22000 - Adolescent Health and Safety
Additional Education Courses for BA/MA in Adolescent Mathematics. For course descriptions please see the graduate catalog.
  • SEDC 71300: Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science
  • SEDC 72300: Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7-12
  • SEDC 7530: Student Teaching in Grades 7-12: Mathematics
  • SPED 70800: Teaching Students with Special Needs in Inclusive Settings
School of Education Exit Standards
Students must meet the following criteria in order to graduate with a School of Education major or minor:
  • Have an overall GPA of at least 3.0
  • Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.
Adolescent Physics, Grades 7-12 - BA
The BA program in Adolescent Physics Education leads to initial certification as a teacher in New York State.
These programs include fieldwork in New York City Public schools.
Declaring the Major
Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.
Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they are admitted to Hunter. The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.
Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Physics.
- Participation in a group interview.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once. Students are permitted to repeat a course only once.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that fulfill both criteria. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement - Fall 2013 to Spring 2019.

In the case of the Physics, the courses that meet CCCR are:

- PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
- PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Course of Study

Academic Plan: PHYSAED - BA & MHCPHYA - BA

Credits: 81 - 98

Physics Requirements (54 - 71 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Physics department for details.

MATH 101, 101EN, 10150, MATH 124, 125, 140, 150, 155, 156, 250; CHEM 102, 104, 106

A. Introductory Physics: Two Semesters (11 credits)

- PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
- PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

B. Concentration in physics courses at the 200 level and higher (22 - 24 Credits)

- PHYS 22100 - Electronics
C. Required Math & Chemistry courses (21-36 credits)

- MATH 10100 - Algebra for College Students
- MATH 101EN - Algebra for College Students - Enhanced
- MATH 10150 - Mastery of Symbolic Computation
- MATH 12400 (STEM) - College Algebra and Trigonometry
- MATH 12500 (STEM) - Precalculus
- MATH 12550 (STEM) - Precalculus with Workshop
- MATH 14000 - Mathematical Reasoning Workshop unless students earn a grade of B or above in MATH 12550
- MATH 15000 (STEM) - Calculus I
- MATH 15500 (STEM) - Calculus II
- MATH 25000 - Calculus III
- MATH 25400 - Ordinary Differential Equations
- CHEM 10200 (STEM) - General Chemistry I
- CHEM 10400 (STEM) - General Chemistry II
- CHEM 10600 (STEM) - General Chemistry Laboratory

NOTE: The chemistry courses may be substituted by one year of high school-level chemistry.

Students preparing to teach physics are advised to include the following courses or their equivalents in their undergraduate program:

- ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises
- GEOL 10000 - Introduction to Geology
- BIOL 10000 (STEM) - Principles of Biology I

Education Requirements (27 credits)

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Methods II: Teaching Diverse Learners Science, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.
experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

- **SEDCP 34100**
  - Adolescent Fieldwork Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

- **SPED 30800**
  - Teaching Students with Special Needs in Inclusive Settings
  - Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus—though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

- **SEDCP 45430**
  - Student Teaching in Physics, Grades 7-12
  - Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified physics teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.
Have an overall GPA of at least 3.0

Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Physics, Grades 7-12, BA/MA

The BA/MA program in Adolescent Physics Education leads to initial certification as a teacher in New York State.

This bachelor's/master's program in adolescent education is designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses as well as courses of their aligned liberal arts or sciences major. Courses for this program are taken at both the undergraduate and graduate levels.

Declaring the Major

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.
Physics Requirements (54 - 71 Credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Physics department for details.

The following courses may be counted for credit in more than one program:
MATH 101, 101EN, 10150, MATH 124, 125, 140, 150, 155, 156, 250; CHEM 102, 104, 106

A. Introductory Physics: Two Semesters (11 credits)

• PHYS 11000 (STEM)
  General Physics: Introductory Course in Mechanics, Heat, and Sound
• PHYS 12100 (STEM)
  General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

B. Concentration in physics courses at the 200 level and higher (22 - 24 Credits)

• PHYS 22100
  Electronics
• PHYS 33400
  Intermediate Electricity and Magnetism
• PHYS 33500
  Intermediate Mechanics
• PHYS 22200
  Electronics Laboratory
• PHYS 23000
  Classical Physics Laboratory
• PHYS 23500
  Modern Physics Laboratory
• PHYS 38500
  Numerical Methods I
• PHYS 48500
  Numerical Methods II

C. Required Math & Chemistry courses (21-36 credits)

• MATH 10100
  Algebra for College Students
• MATH 101EN
  Algebra for College Students - Enhanced
• MATH 10150
  Mastery of Symbolic Computation
• MATH 12400 (STEM)
  College Algebra and Trigonometry
• MATH 12500 (STEM)
  Precalculus
• MATH 12550 (STEM)
  Precalculus with Workshop
• MATH 14000
  Mathematical Reasoning Workshop
  unless students earn a grade of B- or above in MATH 12550
• MATH 15000 (STEM)
  Calculus I
MATH 15500 (STEM) - Calculus II
MATH 25000 - Calculus III
MATH 25400 - Ordinary Differential Equations
CHEM 10200 (STEM) - General Chemistry I
CHEM 10400 (STEM) - General Chemistry II
CHEM 10600 (STEM) - General Chemistry Laboratory

NOTE: The chemistry courses may be substituted by one year of high school level chemistry.

Students preparing to teach physics are advised to include the following courses or their equivalents in their undergraduate program:

- ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises
- GEOL 10000 - Introduction to Geology
- BIOL 10000 (STEM) - Principles of Biology I

Graduate Physics Courses (16 Credits)

For course descriptions please see the graduate catalog.

- PHYS 63000 - Science and Society
- PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning

Plus three electives (9 credits) from below

- PHYS 60500 - Mathematical Physics
- PHYS 61500 - Electromagnetic Theory
- PHYS 62500 - Introduction to Quantum Mechanics
- PHYS 64500 - Solid State Physics
- PHYS 68500 - Numerical Methods I

Note: 700-level physics courses offered at the Graduate Center can be substituted for 600-level courses with permission of the graduate adviser.

Education Requirements (27 credits)

For course descriptions please see the graduate catalog.

- SEDF 70300: Social Foundations of Education: Grades 7-12
- SEDF 70400: Adolescent Development
- SEDF 70500: Educational Psychology: Applications in Grades 7-12
- SEDF 70600: Assessment of the Teaching and Learning Process in Grades 7-12

- Participation in a group interview

Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement. In the case
The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 11200 - World History from 1500 to the Present

Hunter Core
World Culture and Global Issues (WCGI)
GER

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 12100 - Early Modern Europe 1500 to 1815

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER

Transition from feudal society to national states; religious upheavals, expansion up to the French revolutionary era

Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs
3 cr.

HIST 12200 - 19th and 20th Century Europe (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER

Scientific and industrial revolutions, liberalism, imperialism, socialism and fascism, total war, reconstruction.
American political, social and cultural history from the time of the European settlements to the Civil War.

US Experience in its Diversity

GER 1/C or 2/B

American political, social and cultural history from the Civil War to the present.

Courses at the 300- to 399-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs

3 cr.

The United States from the Civil War Era to the Present (W)

HIST 15200

Hunter Core

World Culture and Global Issues (WCGI)

Pluralism and Diversity

PD/A

GER 2/B

An introductory survey emphasizing how Jewish communities adapted to a wide range of environments during more than 3000 years of world history.

History of the Jews

HIST 20800

Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600 AD.

Courses at the 300- to 399-level and above not offered to freshmen.

3 hrs

3 cr.

East Asia to 1600 (W)

HIST 27700

Hunter Core

World Culture and Global Issues (WCGI)

Pluralism and Diversity

PD/A

GER 2/B

Korea and Vietnam to about 1600 AD.
Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER 2/B
A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among the geographical complexity and wonder of modern life.

3 hrs
3 cr.
offered fall and spring.

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences)
GER 2/B
Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings. Students in any major, and serves as the gateway course into the economics major.

Prereq: Math/Writing Proficient/Non degree students
3 hrs
3 cr.

POLSC 11000 - American Government: A Historical Introduction

Hunter Core
US Experience in its Diversity (USED)

Introduction
Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government (CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to count for the CUNY Common Core Requirement.

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

American political, social and cultural history from the time of the European settlements to the Civil War.

Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs

3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

American political, social and cultural history from the Civil War to the present.

Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs

3 cr.
This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. Geographic concepts (e.g., space, place, distance, scale, borders, and social systems, and their potential for and challenges to sustainable development.

Offered fall and spring

GEOG 22100 - Economic Geography and Globalization

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out

Not open to freshmen

GEOG 24100 - Population Geography (W)

Course will explore several critical issues such as population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and
This will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population.

Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 and ENGL 12000
3 hrs
3 cr.

GEOG 24300 - Urban Geography
GER 3/B
Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 24700 - Cultural Geography
GER 3/B
This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between landscapes, and identities.

prereq: ENGL 12000, and GEOG 10100 - or - GEOG 15000
3 hrs
3 cr.

GEOG 30500 - Special Topics in Urban and Regional Dynamics
Advanced topics in urban geography. Topics will vary. Open to Jr/Sr only.
prereq: GEOG 24300 Urban Geography or instructor permission
3 hrs
3 cr.

GEOG 30600 - Special Topics in Contemporary Regional Geographies
Advanced topics in contemporary regional geographies and globalization. Topics will vary. Open to Jr/Sr only.
prereq: GEOG 15000 World Regional Geography or instructor permission
3 hrs
3 cr.

GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions
GER 3/B
Topics will vary. Open to Jr/Sr only.
Urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical decision making. Transportation fee for field work may be required.

prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing
3 hrs
3 cr.

Political Science & Economics (6 credits)

ECO 10000 - Introduction to Economics
Hunter Core
Individual and Society (Social Sciences) - I&S SS
GER 2/B
Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings. Suitable for students in any major, and serves as the gateway course into the economics major.
ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major. ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

prereq: Math/Writing Proficient/Non degree students
3 hrs
3 cr.

POLSC 11000 - American Government: A Historical Introduction
Hunter Core
US Experience in its Diversity (USED)
GER 1/C or 2/B
Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government (LEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

History Courses (21 credits)
Choose seven (7) courses from the list below with a maximum of 6 credits in history courses at the 100-level (other than HIST 15100 and HIST 15200) and a minimum of 9 credits in history courses at the 300-level or above.

World/Non-US History (12 credits)
Choose at least three credits in each of the following categories (courses may be used to count toward only one category; described category must comprise 50% or more of course content for course to qualify):
the 400 level approved by the Undergraduate Advisor and/or the Department Chair, as involving significant writing in the major, or graduate- 
minating seniors.

Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool- community 
language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current

Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as 
applied to the secondary setting, grades 7-12.

Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test assessment.

Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for
Methods I: Classroom Organization, Management, and Instruction in Social Studies, Grades 7-12

In current theories of the nature of students, the social sciences and secondary schooling.

Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, safety, and violence prevention and intervention.

Methods II: Teaching Diverse Learners in Social Studies, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Student Teaching in Social Studies, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified social studies teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

DCP to identify it as a professional course rather than one in the liberal arts.

2300 or SEDC 32400 or SEDC 32500

DCP to identify it as a professional course rather than one in the liberal arts.
Teaching Students with Special Needs in Inclusive Settings

And maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their day. Our focus on behavior disorders, and mild intellectual disability will be our primary focus -- though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop.

The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Childhood Education, Grades 1-6 - BA

The Childhood Education, Grades 1-6 (QUEST) undergraduate teacher education program prepares students to become New York State certified teachers of childhood education. This program is committed to preparing effective urban elementary school teachers who can deal effectively with the wide range of diverse learning needs found among the City's students. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public Schools. This is a 42-45 credit program in which students have an option to complete the course of study over four or six semesters.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.
Apply to QUEST if the total of their completed credits plus credits in which they are currently enrolled is at least 30 credits.

A Hunter College Grade Point Average (GPA) of 3.0 or better.

Evidence of advanced writing ability through a review of English composition and writing intensive coursework.

• Declaration of an appropriate liberal arts and sciences major.

• Participation in a group interview.

Liberal Arts & Sciences Major Requirement

All students in School of Education programs must also declare a major in the School of Arts & Sciences. This major must lead to a BA degree.

See the School of Arts & Sciences for more information on major options.

Academic Progress Standards

• Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.

• Students must receive grades of C or better in Childhood Education courses that do not include fieldwork. QUEST fieldwork courses require a grade of B or better. All QUEST courses are repeatable once by students who have received a grade of D in a non-fieldwork course or a grade below B in a fieldwork course. Students must officially re-register for these courses. Students who receive an F in any course may not continue in the program. Students who receive an F or D in fieldwork may not continue in the program.

In order to register for QSTA 40680 - Mathematics Teaching and Learning in Elementary School, students must have completed MATH 10400 (STEM) and MATH 10500. If progress through the QUEST program would be delayed by the requirement for MATH 10500 as a prerequisite, then the program coordinator may allow students to enroll in QSTA 40680 after completing MATH 10400 (STEM) and registering for MATH 10500.

Course of Study

Academic Plan: CHILDED - BA

Credits: 42 - 45

MATH 10400 (STEM) - Mathematics for Elementary Education I

Hunter Core

Math/Quantitative Reasoning

GER 1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers and number theory. Required of students planning to teach in elementary schools. Not open to other students.

prereq: grade of C or better in MATH 10100 or MATH 101EN or appropriate score on the placement exam

3 hrs 3 cr.

MATH 10500 - Mathematics for Elementary Education II

GER 1/B

Prerequisites and Corequisites

101EN or appropriate score on the placement exam
Continuation of MATH 10400. Continuation of the content of the mathematics recommended by the NCTM for prospective elementary school teachers, including probability, statistics, plane and transformational geometry, congruence and similarity.

Prerequisite: grade of C or better in MATH 10400
3 hrs
3 cr.

HEDP 31400 - Health Education for the Classroom Teacher
The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and prevention of child abuse and neglect; environmental health; and violence prevention.

HEDP changed to HEDP effective Spring 2018

Corequisite: QSTAP 40080
3 hrs
3 cr.

QSTA 40080 - The Art of Effective Teaching
This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

2 hrs
2 cr.

QSTB 20280 - Child Growth and Development
The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical contexts of child development, including family, peers and the media will be included.

Corequisite: QSTA 40100, QSTAB 30000
Prerequisite or Corequisite: QSTA 40080
2 hrs
2 cr.

QSTP 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading
The theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology

Please note that QSTP will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

2 hrs
2 cr.
Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may not be repeated more than once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

**Content Areas**

Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

**Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools**

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama, and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

**Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools**

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in grades 1-6. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

Please note that effective spring 2018 QSTAP will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.
Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the prerequisite requirement.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

Psychology of Teaching and Learning

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

Please note that effective spring 2018 QSTAP will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

Please note that effective spring 2018 QSTAP will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.
**Special Needs in Inclusive Settings**

creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of the day. The focus will be on the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus -- though we will also inevitably address issues related to students with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with special needs.

**Urban Education**

Students will explore the intricacies of urban education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

**Elementary Schools**

Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their co-requisite student teaching in science.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

**QSTAP 41580 - Student Teaching**

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.
Six-Quarter Track

Semester 1
- HEDP 31400 Health Education for the Classroom Teacher
- QSTA 40080 The Art of Effective Teaching
- MATH 10400 (STEM) - Mathematics for Elementary Education I (or its prerequisite, if required: MATH 10100 or MATH 101EN)

Semester 2
- QSTA 40180 Developmental Reading
- QSTB 20280 Child Growth and Development
- QSTP 30000 Fieldwork I: Fieldwork for Child Development and Developmental Reading
- MATH 10500 - Mathematics for Elementary Education II (or MATH 10400 if not yet taken)

Semester 3
- QSTA 41080 Literacy Across the Content Areas
- QSTA 41280 Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
- QSTP 30100 Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
- MATH 10500 - Mathematics for Elementary Education II (if not yet taken)

Semester 4
- QSTB 41380 Psychology of Teaching and Learning
- QSTA 40680 Mathematics Teaching and Learning in Elementary School
- QSTP 30200 Fieldwork III: Fieldwork for Mathematics Teaching and Learning and Psychology of Teaching and Learning

Semester 5
- QSTA 40780 The Arts: An Interdisciplinary Learning Experience
- QSTB 40380 Social Foundations of Urban Education
- SPED 30800 Teaching Students with Special Needs in Inclusive Settings
Semester 6
QSTA 41480 Teaching Science in Elementary Schools
QSTAP 41580 Student Teaching
Four Semester Track

Semester 1
HEDP 31400 Health Education for the Classroom Teacher
QST A 40080 The Art of Effective Teaching
QSTA 40180 Developmental Reading
QSTB 20280 Child Growth and Development
QSTP 30000 Fieldwork I: Fieldwork for Child Development and Developmental Reading
MATH 10400 (STEM) - Mathematics for Elementary Education I (or its prerequisite, if required: MATH 10100 or MATH 101EN)

Semester 2
QSTB 40380 Social Foundations of Urban Education
QSTA 41080 Literacy Across the Content Areas
QSTA 41280 Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
QSTP 30100 Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
MATH 10500 - Mathematics for Elementary Education II (if not yet taken)

Semester 3
QSTA 40780 The Arts: An Interdisciplinary Learning Experience
SPED 30800 Teaching Students with Special Needs in Inclusive Settings
QSTB 41380 Psychology of Teaching and Learning

Experience
Inclusive Settings
Elementary School
Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Semester 2 (if not yet taken)
Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

The BA program in PreK-12 Dance Education leads to initial certification as a teacher in New York State.

Undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in Pre K-12 schools. Teacher candidates will take a sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public Schools. The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty, including the coordinator of the BA dance education program. Hunter students can request an interview throughout the year. Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter. The School of Education does not accept non-degree or second degree students.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Dance.
- Participation in a group interview.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
Academic Plan:

DANCAE - BA &
MHCDAAE - BA

Total Credits Required

Subtotal = 64 - 68
Electives = 3
Total credits required = 67 - 71

Dance Requirements (42 - 46 credits)

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement
tive Fall 2019.

Parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements) are:

• From any one department will count for the CUNY Common Core Requirement.

Format of 42 credits is divided into 4 areas of study:

Dance Technique and Performance (20-24 credits minimum)

Creative work: Improvisation, choreography, performance (11 credits)

Dance Studies (8 credits minimum)

Electives or Repeatable Courses (3 credits minimum)

Dance Technique and Performance (20 credits minimum)

• Four credits minimum of any style at level I (or the appropriate level for the ability of the student as determined in the placement class) (4)
• Four credits of dance technique any style level III (4)
• Eight credits of dance technique electives any style at level I or higher (8)
• DAN 43200 - Repertory I (1) and DAN 43300 - Repertory II (1)
• DAN 44000 - Lecture/Demonstration Touring Group (2)

*Note: Special topics courses change every semester offering differing styles and genres of dance technique.

Creative Work (11 credits)

DAN 12400 - Production Crew

Production Crew provides students with insights and firsthand experience as a participant in the physical production of theatre. This course allows students to build an
the practical function of theatrical production techniques.
Introduction

Improvisation

Structured improvisation; use of these skills by individual students to explore their creative movement potential. May be taken 3 times for credit with permission of department.

Stagecraft

This course focuses on the practical experience of dance production, including work backstage and other aspects of production. May be taken twice for credit with permission of department.

Composition I

Introduction to dance composition. Students will compose solo, duet, and small group works, applying their understanding of basic compositional devices to projects developed during class time as well as during independent practice.

Composition II

Continued application of basic principles of composition; conception, planning and realization of complete dances; preparation of dances for concert by integrating all aspects of production. Two additional hours of open studio are recommended for this course.

- All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

- Prerequisites:
  - DAN 22100
  - DAN 32100
  - Declaration of Dance Major or Dance Minor

- Open studio hours:
  - DAN 22400: 3 hrs
  - DAN 32100: 3 hrs
  - DAN 42100: 2 hrs
Dance Workshop

This advanced composition course provides a structure for continued choreographic practice leading to public performance. The course concentrates on development of individual rehearsal practices, and seeing a choreographic project to completion in terms of thematic material, methodology, visual design, and production best practices. May be taken twice for credit with permission of the department.

Prerequisite or corequisite: DAN 42100

4 hrs, 2 cr.

DAN 42400 Production Crew

Practical application of advanced production skills: a design course for advanced dance and choreography students. Tools, techniques and skills required to produce live dance performances. May be taken twice for credit with permission of the department.

Prerequisite:

DAN 22400

3 hrs, 3 hrs open studio, 2 cr.

*Please note that DAN 12400 Production Crew must be taken twice.

Dance Studies (8 credits minimum)

DAN 21300 Basic Musicianship for Dancers

Basic music theory in relation to dance. Development of auditory and kinesthetic understanding of melody, rhythm and harmony through movement. Open only to Dance majors and minors. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Prerequisite:

DAN 210

3 hrs, 2 cr.

DAN 23200 Global Dance History

Creative Expression (CE)

Pluralism and Diversity (PD/D)

GER
Readings, lectures, films, discussions of 20th century ballet, modern, social and popular theatre dance forms; analysis of individual styles and cultural trends. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**Electives (3 credits)**

1. **DAN 15100 - Global Dance 1**
   - Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures. Open to Dance majors and minors only. May be taken three times for credit with permission of the department.
   - 2 hrs, 1 cr.

2. **DAN 25100 - Global Dance 2**
   - Expanded progressions in folk forms of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.
   - Prereq: DAN 15100
   - 2 hrs, 1 cr.

3. **DAN 25200 - Special Topics: Traditional Dance I**
   - Pluralism and Diversity
   - Introduction to the cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.
   - This course only partially fulfills the electives requirement for the Dance BA degree.
   - Prereq: placement class
   - 4 hrs, 2 cr.

4. **DAN 25300 - Jazz Dance 1**
   - 2 credits

5. **DAN 25400 - Jazz Dance 2**
   - 2 credits

6. **DAN 35200 - Special Topics: Traditional Dance II**
   - Pluralism and Diversity
   - Topics: Traditional Dance I and II

**Topics: Traditional Dance I**

- Introductions of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.

**Topics: Traditional Dance II**

- Introductions of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.

Electives (3 credits)**

1. **DAN 15100 - Global Dance 1**
   - Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures. Open to Dance majors and minors only. May be taken three times for credit with permission of the department.
   - 2 hrs, 1 cr.

2. **DAN 25100 - Global Dance 2**
   - Expanded progressions in folk forms of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.
   - Prereq: DAN 15100
   - 2 hrs, 1 cr.

3. **DAN 25200 - Special Topics: Traditional Dance I**
   - Pluralism and Diversity
   - Introduction to the cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.
   - This course only partially fulfills the electives requirement for the Dance BA degree.
   - Prereq: placement class
   - 4 hrs, 2 cr.

4. **DAN 25300 - Jazz Dance 1**
   - 2 credits

5. **DAN 25400 - Jazz Dance 2**
   - 2 credits

6. **DAN 35200 - Special Topics: Traditional Dance II**
   - Pluralism and Diversity
   - Topics: Traditional Dance I and II

**Topics: Traditional Dance I**

- Introductions of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.

**Topics: Traditional Dance II**

- Introductions of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.
Continuation of DAN 25200. Further investigation of cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit.

Prereq: DAN 25200, perm dept.

4 hrs 2 cr.

DAN 37000 Special Topics in Dance Studies (2 credits)

DAN 34200 Teaching Dance

Teaching Dance will be a combination of a lab and lecture course. Readings from the field will include the methodologies of teaching different genres for different populations. Students will present in class three times per semester. They will also perform extensive field work observing and interviewing teachers, studio owners, directors of professional programs that exist today. The course will discuss and observe differing teaching methodologies. Students will read, observe and comment on thoughts about the pedagogy of Dance.

Prereq: DAN 31000 and/or DAN 24500

4.5 hrs 3 cr.

DAN 25500 Dance Pedagogy

The course traces the history of teaching dance in studios, dance schools, academies, public schools, arts schools, and in higher education in the US and internationally and explores the different kinds of programs that exist today. The course will discuss and observe differing teaching methodologies. Students will read, observe and comment on teachers, as well as present their thoughts about the pedagogy of Dance.

Prereq: DAN 31000 and/or DAN 24500

4 hrs 2 cr.

DAN 46100 Seminar in Dance

Survey of dance careers, grant writing, arts administration, resume writing and relevant topics related to the socio-political climate of our times in relation to art.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Prereq: DAN 31000, DAN 32100

3 hrs 3 cr.

DAN 48000 Independent Study in Dance

In-depth study in area of special interest for qualified students under direction of faculty adviser.
All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Prereq:
- minimum 15 dance received at Hunter, major GPA 3.0, overall GPA 2.5. Open to dance majors and minors only.
- 3-9 hrs 1-3 cr.

DAN 49000 - Honors in Dance
- GER 3/A
- Open to Jr/Sr Dance majors only.
- Individual study leading to completion of honors essay or production book in creative performance.

Prereq:
- minimum 18 dance, major GPA 3.5, overall GPA 2.8 hrs TBA 1-3 cr.

DAN 49800 - Internship
- GER 3/A
- Open to dance majors with 15 credits in dance from Hunter.

Creative Work courses are repeatable for elective credit.

Includes a varied offering of techniques and genres including Partnering, Hip Hop, Yoga, African Forms, Indian Forms, Latin Jazz and Gaga.

Note: Not all required classes are offered every semester. Meetings with dance advisors on a regular basis and prior to registration are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Dance Progress Standard: All dance majors must demonstrate proficiency to qualify for level 1 or higher in contemporary, ballet or hip-hop dance technique by the 5th semester of their college career. Inability to complete at least level 1 Contemporary, Ballet or Hip Hop technique after 3 attempts will result in the student being removed from the major.

Education Requirements (25 credits)

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

Educational Psychology: Applications in Grades 7-12

Examining the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

2 hrs per week plus 36 hrs fieldwork
2 cr.

Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, scores, performance outcome measures and alternative forms of assessment.

2 hrs plus lab
2 cr.

The Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

Adolescent Health and Safety

Related to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

1 hr
1 cr.

Theory and Practice of Teaching Dance (pre-K-12)

Introduces pre-K-12 to students with diverse backgrounds and abilities in diverse learning environments; the organization of instruction and classroom management strategies; technological resources; community and family resources.

Effective Spring 2018 -
DANED changed to DANEP-
Completed 12 cr in dance or perm dance adviser
DANED prerequisite or corequisite:
SEDF 20400
3 hrs plus 36 hours fieldwork
4 cr.
Students with Special Needs in Inclusive Settings

The benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment are explored. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus — though we will inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on “collaborative education” to serve students with disabilities.

Prereq:
- QSTA 40080 or QSTAP 40080
- EDC 21300 or SEDC 321000 or SEDC 21200

Teaching in Dance, Grades Pre-K-12

(one in grades pre-K-6 and one in grades 7-12) in New York City public schools selected by Hunter College. Special Conditions: Students must apply for student teaching the fall semester before enrolling in this course. Scores on the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examination must have been received by the coordinator of adolescent education prior to enrollment in student teaching.

18 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

Exit Standards

Criteria in order to graduate with a School of Education major or minor:
- GPA of at least 3.0
- Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

BA/MA

Dance Education leads to initial certification as a teacher in New York State.

PreK - 12 BA/MA major

Education major as part of your bachelor's degree, you must complete a group interview with faculty, including the coordinator of the BA/MA Dance Education applicant should also set up a time for the Dance Education Coordinator, in consultation with dance faculty, to be observed in a dance class. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.
Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter. The School of Education does not accept non-degree or second-degree students.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Dance.
- Participation in a group interview.

Meeting minimum requirements to declare the major does not guarantee entry into the program.

Requirements

Dance Progress Standard

All dance majors must demonstrate proficiency to qualify for level 1 or higher in contemporary, ballet or hip-hop dance technique by the 5th semester of their college career. Inability to complete at least level 1 Contemporary, Ballet or Hip-Hop technique after 3 attempts will result in the student being removed from the major.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an undergraduate education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any Education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Graduate Academic Progress Standards

- Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
- Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
- Performance Standards - Students must receive a grade of at least a B in key program courses. To receive a grade of F or WU in key program courses may not continue in the program. Courses are identified by the label (KC) in the course title.

More Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

Dance, the courses that meet CCCR are:

**DAN 10200 - Dance in Culture**

Creative Expression (CE)

Introduction course designed to introduce students to the art of dance through analysis of history, dance style and socio-political underpinnings. This course includes participation in both lecture and movement sessions. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**DAN 23200 - Global Dance History**

Creative Expression (CE)

Pluralism and Diversity

Readings, films, discussions of 20th century ballet, modern, social and popular theatre dance forms; analysis of individual styles and cultural trends. All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Course of Study**

Academic Plan: DANCE-BAMA

Subtotal = 86-94

Electives = 3

Total credits required = 89-97

**Dance Requirements (42-50 credits)**
Dance Curriculum of 42 credits is divided into 4 areas of study:

• Dance Technique and Performance (20-24 credits minimum)
• Creative work: Improvisation, choreography, performance (11 credits)
• Dance Studies (8 credits minimum)
• Electives (3 credits minimum)

1. Dance Technique and Performance (20-24 credits)

Four credits minimum of any style at level I (or the appropriate level for the ability of the student as determined in the placement class) (4)
Four credits of dance technique any style level III (4)
Eight credits of dance technique electives any style at level I or higher (8)

DAN 43200 - Repertory I

This course is open to dance majors and minors only. Performance course for intermediate and advanced students. Students are expected to participate with high level of professionalism and focus. The choreographer and choreographic material change every semester. Some casting may be done via audition. May be taken two times for credit with permission of the department.

Prereq: permission of dept.
3 hrs, 3 hrs open studio

DAN 44000 - Lecture/Demonstration Touring Group

Performance of prescribed choreography in lecture/demonstration format to be presented in public schools on a weekly basis during the fall semester. Open to dance majors/minors only. Students must be available to rehearse intensively for 1 week before classes begin. May be taken two times for credit with permission of the department.

Prereq: permission of dept.

*Note: Special topics courses change every semester offering differing styles and genres of dance technique.

2. Creative Work (11 credits)

DAN 12400 - Production Crew

Production Crew provides students with insights and firsthand experience as a participant in the physical production of theatre. This course allows students to build an understanding and appreciation of the practical function of theatrical production techniques.
DAN 22100 - Improvisation

Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential. May be taken 3 times for credit with permission of department.

Prereq: Declaration of Dance Major or Dance Minor

DAN 22400 - Stagecraft

This course focuses on the practical experience of dance production, including work backstage and other aspects of production. May be taken twice for credit with permission of the department.

Prereq: perm dept.
3 hrs open studio

DAN 32100 - Composition I

Pluralism and Diversity

3/A

Introduction to dance composition. Students will compose solo, duet, and small group works, applying their understanding of basic compositional devices to projects developed during class time as well as during independent practice.

Prereq: DAN 22100, permission of dept.
2 hrs open studio

DAN 42100 - Composition II

Continued application of basic principles of composition; conception, planning and realization of complete dances; preparation of dances for concert integrating all aspects of production. Two additional hours of open studio are recommended for this course.

Prereq: DAN 32100, perm dept.
DAN 42200 - Dance Workshop

This advanced composition course provides a structure for continued choreographic practice leading to public performance. The course concentrates on development of individual artistic voice, refining effective rehearsal practices, and seeing a choreographic project to completion in terms of thematic material, methodology, visual design, and production best practices. May be taken twice for credit with permission of the department.

Prereq or coreq: DAN 42100

DAN 42400 - Production

Practical application of advanced production skills: a design course for advanced dance and choreography students. Tools, techniques and skills required to produce live dance performances. May be taken twice for credit with permission of the department.

Prereq: DAN 22400

* Please note that DAN 12400 Production Crew must be taken twice to complete the major

Dance Studies (8 credits)

DAN 21300 - Basic Musicianship for Dancers

For music theory in relation to dance. Development of auditory and kinesthetic understanding of melody, rhythm and harmony through movement. Only to Dance majors and minors.

Prereq: DAN 21000

DAN 23200 - Global Dance History

Hunter Core

Creative Expression (CE)

Pluralism and Diversity
Readings, lectures, films, discussions of 20th century ballet, modern, social and popular theatre dance forms; analysis of individual styles and cultural trends. Required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure required coursework will be completed in time for graduation.

**Prerequisites:** N/A

**3 hrs. 3 cr.**

**DAN 35000 - Anatomy and Kinesiology for Dancers**

Anatomy of skeletal, muscular and neuromuscular systems; anatomical analysis of basic movement; application of anatomical information to proper and successful performance of dance.

*Prerequisites or Corequisites:* Any course in **DAN**

**3 hrs. 3 cr.**

**DANED 30200 - Theory and Practice of Teaching Dance (Pre-K-12)**

Methods of teaching dance in grades Pre-K-12 to students with diverse backgrounds and abilities in diverse learning environments; the organization of instruction and classroom management strategies; technological resources; community and family resources.

Field work required.

**DANED changed to DANEP - effective Spring 2018 -**

*Prerequisites:* Completed 12 cr in dance or perm dance adviser

*Prerequisites or Corequisites:* **SEDF 20400**

*Plus 36 hours fieldwork*

**Electives (3 credits)*

Dance Technique Electives

**DAN 15100 - Global Dance 1**

Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures. Open to Dance majors and minors only. May be taken three times for credit with permission of the department.

**DAN 25100 - Global Dance 2**
Expanded progressions in folk forms of dance. Presentation of materials based on advanced skills. May be taken three times for credit with permission of the department.

Prereq: DAN 15100

DAN 25200 - Special Topics: Traditional Dance I

Pluralism and Diversity

Introduction to the cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

This course only partially fulfills the electives requirement for the Dance BA degree.

Prereq: Placement class

DAN 35200 - Special Topics: Traditional Dance II

Pluralism and Diversity

Continuation of DAN 25200. Further investigation of cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

Prereq: DAN 25200, perm dept.

DAN 25300 Jazz Dance 1 (2 credits)
DAN 25400 Jazz Dance 2 (2 credits)

Other Electives
DAN 37000 Special Topics in Dance Studies (2 credits)

DAN 25500 - Dance Pedagogy

The course traces the history of teaching dance in studios, dance schools, academies, public schools, arts schools, and in higher education in the US internationally and explores the different kinds of programs that exist today. The course will discuss and observe differing teaching methodologies. Students will read, observe and comment on teachers, as well as present their thoughts about the pedagogy of Dance.

Prereq: DAN 31000 and/or DAN 24500

DAN 34200 - Teaching Dance
Teaching Dance will be a combination of a lab and lecture course. Readings from the field will include the methodologies of teaching different genres for different populations. Students will present in class three times per semester. They will also perform extensive field work observing and interviewing teachers, studio owners, directors of professional training programs, etc.

Prereq: DAN 31000 and/or DAN 24500

4.5 hrs
3 cr.

DAN 46100 - Seminar in Dance

Survey of dance careers, grant writing, arts administration, resume writing and relevant topics related to the socio-political climate of our times in relation to art.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure required coursework will be completed in time for graduation.

Prereq: DAN 31000, DAN 32100

3 hrs
3 cr.

DAN 48000 - Independent Study in Dance

In-depth study in area of special interest for qualified students under direction of faculty adviser.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure required coursework will be completed in time for graduation.

Prereq: minimum 15 dance received at Hunter, major GPA 3.0, overall GPA 2.5. Open to dance majors and minors only.

3-9 hrs
1-3 cr.

DAN 49000 - Honors in Dance

Open to Jr/Sr Dance majors only. Individual study leading to completion of honors essay or production book in creative performance.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure required coursework will be completed in time for graduation.

Prereq: minimum 18 dance, major GPA 3.5, overall GPA 2.8

TBA
1-3 cr.

DAN 49800 - Internship

Open to dance majors with 15 credits in dance from Hunter.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure
DAN 32400

3 - 6 cr.

* Dance Technique and Creative Work courses are repeatable for elective credit.

Note: Special Topics includes a varied offering of techniques and genres including Partnering, Hip Hop, Yoga, African Forms, Indian Forms, Latin Jazz and Gaga.

Note: Not all required classes are offered every semester. Meetings with dance advisors on a regular basis and prior to registration are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Graduate Dance Courses (20 credits)

(For descriptions please see the graduate catalog)

70100: Physical Training *
70500: Maintenance of the Instrument
73000: Studies of Forms
73500: Performance/Presentation
74000: Aesthetics
74200: Dance History
74600: Special Topics

* Please note that DAN 70100 Graduate Dance Technique must be taken twice to complete the major.

Education Requirements (27 credits)

Undergraduate Courses

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool- community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

SEDF 20400 - Adolescent Development
The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

This educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

Prereq: SEDF 20300, 20400

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Prereq: SEDF 20300, 20400

Graduate Courses (for descriptions please see the graduate catalog)

SPED 70800: Teaching Students with Special Needs in Inclusive Settings
SEDF 70600: Assessment of Teaching and Learning in Adolescent Education
DANED 76000: Methods I
DANED 76200: Methods II
DANED 76605: Student Teaching

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major:

- Have an overall GPA of 3.0
- Successful completion of an online Dance Education Professional Teaching Portfolio (PTP)
- Complete the Dignity for All Students Act (DASA) antibullying workshop

Early Childhood Education, Birth-Grade 2 - BA

The Early Childhood, Birth through Grade 2 undergraduate teacher education program prepares students to become New York State certified teachers of early childhood education. This program is designed to prepare prospective teachers to serve as high-quality educators
for students in urban schools and other childcare settings. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools. This is a 39-42 credit program in which students have an option to complete the course of study over four or six semesters.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Complete at least 30 credits toward the Bachelor's degree. Students with more than 72 credits should consider pursuing Early Childhood Education at the graduate level.
- Attain a Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Declare an appropriate liberal arts and sciences major either preceding admission or upon admission to the program.

Liberal Arts & Sciences Major Requirement

All students in School of Education programs must also declare a major in the School of Arts & Sciences. This major must lead to a BA degree.

See the School of Arts & Sciences for more information on major options.

Academic Progress Standards

Students must meet the following criteria in order to continue in the program:

- A minimum grade of C or better in all non-field courses (Courses can only be repeated once)
- A minimum grade of B or better in all fieldwork courses. (Fieldwork courses can only be repeated once)
- Maintain a cumulative GPA of at least 3.0
- Complete 6 credits of study in a foreign language (or be exempt from the foreign language requirement) prior to the completion of ECC 30600: Language and Literacy for Children of Diverse Backgrounds, K-2
- Complete Math 10400 (STEM) with a minimum grade of C prior to registering for ECC 31000: Mathematics in Early Childhood.
- Follow the course sequence, which represents the required classes that Early Childhood students must take each semester. The courses for each semester must be completed successfully in that term.

Course of Study
Academic Plan: ECHEDB2-BA

Credits: 39-42

MATH 10400 (STEM) - Mathematics for Elementary Education I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers and number theory. Required of students planning to teach in elementary schools. Not open to other students.

prereq: grade of C or better in MATH 10100 or MATH 101EN or appropriate score on the placement exam
3 hrs
3 cr.

ECF 20000 - Human Development and Theories of Learning, Prenatal-Age 8

This course will examine the history of child development and the major theories and theorists in the area of child development. An understanding of research strategies and the impact of cultural, biological and environmental influences on the development of young children will also be examined. Current research in the areas of prenatal development, physical, cognitive, language, social, emotional and early brain development will also be discussed.

prereq: ENGL 12000
coreq: ECF 20100, ECC 30000
3 hrs
3 cr.

ECF 20100 - Social and Historical Foundations of Early Childhood Care and Education

An examination and analysis of the social and historical contexts of early childhood education including applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

coreq: ECF 20000, ECC 30000
2 hrs
2 cr

ECC 30000 - Early Childhood Programs and Curricular Frameworks

Students will gain an in-depth understanding of the array of early childhood programs that comprise the field of early care and education. In addition, students will learn about philosophies and approaches to curriculum that are commonly used in early childhood settings including Montessori education, Reggio Emilia, the Project Approach, High Scope Curriculum, and the Creative Curriculum.

coreq: ECF 20000, ECF 20100
3 hrs
3 cr.
ECC 30400 - Creative Arts and Play-Based Learning

Theoretical and practical aspects of play, creativity and arts-based learning are the central tenets of this course. Students will gain fundamental knowledge for constructing playful learning experiences across early learning settings, particularly within the context of the standards-based, high-stakes accountability climate of education in the United States and beyond.

prereq: ECC 30000, ECF 20000, ECF 20100
2 hrs
2 cr

ECC 30500 - Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)

This course is grounded in research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of literacy development between Birth and age 4 and the role of families, programs and schools in early literacy development.

prereq: 6 credits of foreign language; ECC 30000, ECF 20000, ECF 20100
3 hrs
3 cr.

ECC 30100 - Field work/Internship 1

This supervised experience gives students the means to connect conceptual and theoretical information about children in a preschool setting. Students will have the opportunity to examine the developmental progression of early and emergent skills as they relate to infant, toddler, and preschoolers' development. Students will also have the opportunity to discuss developmentally appropriate assessments and how parents/caregivers can document developmental milestones of children birth through age 4. Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

coreq: ECC 30500
prereq or coreq: ECF 20000, ECC 30000, ECC 30400
50 hrs.
1 cr.
Offered fall and spring

ECC 30800 - Inclusionary Practices and Teaching Children of Diverse Backgrounds

An overview of children with exceptional cognitive, physical, social, and/or emotional characteristics, including learning disabilities. Students will also gain knowledge and skills on working with children who are emerging language learners (ELLs). Assessment and screening strategies will be discussed to meet the educational needs of all students.

prereq: ECF 20000, ECC 30000, ECC 30500
3 hrs
3 cr.
ECC 30600 - Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade

Theoretical and practical aspects of early childhood literacy instruction with particular emphasis on teaching literacy to diverse populations between the grades of Kindergarten and 2nd grade will be addressed. In addition, the role of family and community involvement and the use of technology for literacy development.

_prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500
3 hrs
3 cr.

ECC 30200 - Field work/Internship 2

This supervised experience gives students the means to connect conceptual and theoretical information about children in kindergarten through second grade. Students will have the opportunity to examine the listening, speaking, reading, and writing development of young children across a variety of cultural and linguistic communities. Students will examine the roles of families, programs, schools, and communities in urban environments, as well as the assessment of early literacy development. Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

_prereq: ECF 20000, ECC 30000, ECC 30100, ECC 30400, ECC 30500
coreq: ECC 30600
_prereq or coreq: ECF 20100
50 hrs.
1 cr.
Offered fall and spring

ECC 31000 - Mathematics in Early Childhood

Examines the theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth through second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings.

_prereq: MATH 10400; ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800
3 hrs
3 cr.

ECC 31100 - Early Childhood Science and Inquiry-Based Learning

Explores the theories and research of scientific thinking in young children. Assessing science learning in diverse infant, toddler, preschool and grade K-2 settings and how to incorporate the use of community resources in scientific learning will be discussed.

_prereq: Two semesters of natural science which must include: 3 credits eligible to meet CUNY Common Core in Life and Physical Sciences and 3 credits eligible to meet CUNY Common Core in Scientific World (CSCI and ECO courses do not qualify for this requirement); ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500, ECC 30600, ECC 30800
2 hrs
2 cr.
ECC 30300 - Field work/Internship 3

This supervised experience gives students the means to connect conceptual and theoretical information about children in first or second grade. Students will have the opportunity to examine developmentally appropriate activities for children and ways of assessing learning in diverse settings. Students will examine the roles of families, programs, schools, and communities in urban environments, as well as the assessment of mathematical and science development.

Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30100, ECC 30200, ECC 30400, ECC 30500, ECC 30600, ECC 30800
coreq: ECC 31000
50 hrs.
1 cr.
Offered fall and spring

ECC 31400 - Health, Family, and Community Partnerships

This course gives students the means to understand how to promote children's health, safety, and nutrition. Students will also gain skills and knowledge needed to foster positive, reciprocal relationships with families of diverse backgrounds. In meeting the NYSDOE mandate, child abuse, drug abuse prevention, prevention of school violence, anti-bullying, and fire safety workshops are included.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.

ECF 40000 - Assessment in Early Childhood, Birth through 2nd Grade

Provides students with an understanding of the role of assessment for planning and implementing effective early childhood instruction for young children, ages birth to age eight, from culturally diverse environments and with varied learning needs.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.

ECC 40100 - Student Teaching

Students will complete one semester of student teaching in early childhood settings, including preK settings, kindergarten, first, and second grade classrooms. Students will complete their student teaching in at least two of the following early childhood settings: pre-kindergarten, kindergarten, first grade or second grade. Students will attend seminar for 30 hours during the semester to discuss topics that range from classroom management to supporting children with diverse learning needs. During student teaching, students will complete the Teacher Performance Assessment (edTPA).

prereq: ECF 20000, ECF 20100, ECF 40200 ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100, ECC 31400
3 hrs
3 cr.
Six-Semester Track

Semester 1
ECF 20000 Human Development and Theories of Learning, Prenatal-Age 8
ECC 30000 Early Childhood Programs and Curricular Frameworks
ECF 20100 Social and Historical Foundations of Early Childhood Care and Education
MATH 10400 (STEM) - Mathematics for Elementary Education I (or its prerequisite, if required: MATH 10100 or MATH 101EN)

Semester 2
ECC 30500 Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)
ECC 30400 Creative Arts and Play-Based Learning
ECC 30100 Field work/Internship 1
MATH 10400 (STEM) - Mathematics for Elementary Education I (if not yet taken)

Semester 3
ECC 30600 Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade
ECC 30800 Inclusionary Practices and Teaching Children of Diverse Backgrounds
ECC 30200 Field work/Internship 2

Semester 4
ECC 31000 Mathematics in Early Childhood
ECC 31100 Early Childhood Science and Inquiry-Based Learning
ECC 30300 Field work/Internship 3

Semester 5
ECC 31400 Health, Family, and Community Partnerships
ECF 40000 Assessment in Early Childhood, Birth through 2nd Grade

Semester 6
ECC 40100 Student Teaching
Four-Semester Track

**Semester 1**

ECF 20000 Human Development and Theories of Learning, Prenatal-Age 8

ECC 30000 Early Childhood Programs and Curricular Frameworks

ECC 30100 Field work/Internship 1

ECC 30400 Creative Arts and Play-Based Learning

ECC 30500 Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)

MATH 10400 (STEM) - Mathematics for Elementary Education I (or its prerequisite MATH 10100, if required)

**Semester 2**

ECF 20100 Social and Historical Foundations of Early Childhood Care and Education

ECC 30200 Field work/Internship 2

ECC 30600 Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade

ECC 30800 Inclusionary Practices and Teaching Children of Diverse Backgrounds

MATH 10400 (STEM) - Mathematics for Elementary Education I (if not yet taken)

**Semester 3**

ECF 40000 Assessment in Early Childhood, Birth through 2nd Grade

ECC 30300 Field work/Internship 3

ECC 31000 Mathematics in Early Childhood

ECC 31100 Early Childhood Science and Inquiry-Based Learning

**Semester 4**

ECC 31400 Health, Family, and Community Partnerships

ECC 40100 Student Teaching

**School of Education Exit Standards**

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Mathematics (BA/MA): Additional Required Coursework and Student Teaching

Return to: Adolescent Education, Grades 7-12

Adolescent Education BA Course Requirements

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

SEDF 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.
3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.
prereq: SEDF 20300, 20400
1 hr
1 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus -- though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

prereq: QSTA 40080 or QSTAP 40080

-- or --

prereq or coreq: SEDC 21000 or SEDC 21300 or SEDC 321000 or SEDC 215 or DANED 30200 or SEDC 21200
3
3

Note

Please note that the parallel courses at the graduate level may be substituted for these undergraduate courses in the BA/MA Mathematics and the BA/MA Dance Programs.

Additional Required Coursework and Student Teaching**

- SEDC 713 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science 3 cr
- SEDC 723 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7-12 2 cr
- SEDC 753 - Student Teaching in Mathematics, Grades 7-12 (60 days, 30 hrs seminar, plus workshops and conferences) 5 cr

Note(s)

** See the Graduate Catalog for these graduate course descriptions

Music Pre-K - 12 - BA/MA

The BA/MA program in PreK-12 Music Education leads to initial certification as a teacher in New York State.
This bachelor's / master's program in PreK-12 education is designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their aligned liberal arts or sciences major. Courses for this program are taken at both the undergraduate and graduate levels. This program includes fieldwork in New York City Public schools.

**Declaring the Major**

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

**Requirements to Declare the Major**

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Music.
- Participation in a group interview.

**Undergraduate Academic Progress Standards**

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

**Course of Study**

Academic Plan: MUSCT-BAMA
Music Requirements (57-63 credits)

Piano Proficiency Requirement: All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit; a passing grade of C or better in MUSPF 21400 satisfies the piano proficiency requirement in lieu of the examination.

Please note that students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

As a culminating project, Music TEP students are required to prepare a portfolio containing examples of their work. These can include papers which have been graded and commented on by professors, lesson plans, and student reflections on their own growth and experiences throughout the program. It is important that you save all of your work from all of your classes. During the semester in which you student teach, you will be guided in the preparation of your portfolio.

1. Music history (13 credits)

MUSHL 20100 - Introduction to Music Research

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

coreq: MUSHL 20500
prereq or coreq: ENGL 12000
1 hr
1 cr.
offered fall

MUSHL 20500 - Music History I

Pluralism and Diversity

PD/D

For music majors. Survey of the history of music in the European tradition to 1600.

prereq: elementary knowledge of music history and literature, demonstrated by dept. exam
coreq: MUSHL 20100
prereq or coreq: MUSTH 22000, 23000, ENGL 12000, perm dept.
3 hrs
3 cr.
offered fall
MUSHL 20600 - Music History II (W)

Pluralism and Diversity
PD/D
For music majors. Continuation of MUSHL 20500. Survey of the history of music in the European tradition from 1600 to 1800.
prereq: MUSHL 20100, 20500, ENGL 12000
prereq or coreq: MUSTH 22100, 23100
3 hrs
3 cr.
offered spring

MUSHL 30500 - Music History III (W)

Pluralism and Diversity
PD/D
Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.
prereq: MUSHL 20600, MUSTH 22100, 23100
3 hrs
3 cr.
offered fall
• And any other 3-credit MUSHL course at the 300-level.

2. Music Theory (19 credits)

MUSTH 20100 - Introduction to Music Technology

An introduction to basic music technology skills: music notation software, MIDI sequencing, and digital audio editing.
prereq or coreq: prereqs: MUSTH 22000 and 23000, or perm dept.
1 hr
1 cr.
offered spring

MUSTH 22000 - Music Theory I

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.
prereq: ability to read music as demonstrated by dept. exam, perm dept.
coreq: MUSTH 23000
3 hrs
3 cr.
offered fall

MUSTH 22100 - Music Theory II

Continuation of MUSTH 22000.
prereq: MUSTH 22000
coreq: MUSTH 23100
3 hrs
3 cr.
offered spring
MUSTH 23000 - Musicianship I

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.

**coreq:** MUSTH 22000
3 hrs
2 cr.
offered fall

MUSTH 23100 - Musicianship II

Continuation of MUSTH 23000.

**prereq:** MUSTH 23000
**coreq:** MUSTH 22100
3 hrs
2 cr.
offered spring

MUSTH 32000 - Music Theory III

Intermediate-level study of melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

**prereq:** MUSTH 20100, MUSTH 22100
**coreq:** MUSTH 33000
3 hrs
3 cr.
offered fall

MUSTH 33000 - Musicianship III

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.

**prereq:** MUSTH 23100
**coreq:** MUSTH 32000
3 hrs
2 cr.
offered fall

• and any other 3-credit MUSTH course at the 300-level

3. Performance (6 credits)

2 credits in:

MUSPF 40100 - Individual Instruction in Instrument or Voice

Limited to the 42-credit BA music major, the 25-credit BA music major, the BA/MA music major and the music minor. Audition demonstrating performance skills equivalent to New York State School Music Association (NYSSMA) level 2 or higher. Students must make their own arrangements with department-listed teachers to receive credit for this course. Jury examination required. The jury examination following the second and subsequent semesters of private lessons must demonstrate performance skills equivalent to NYSSMA level 4 or higher.

May be taken 8 times.

**prereq:** perm dept.
1 hr
1 cr.

2 credits in large ensembles:

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs
1 cr.

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

*prereq: audition, perm instr.*

3 hrs
1 cr.

2 credits in performance electives:
MUSPF 22100 - College Choir
MUSPF 23100 - Hunter Symphony

**MUSPF 24900 - Jazz Ensemble**

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

2 hrs
1 cr.

**MUSPF 25000 - Jazz and Popular Music Combos**

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

*prereq or coreq: audition, dept. permission required*

2 hrs
1 cr.

**MUSPF 25100 - Jazz Vocal Workshop Ensemble**

Jazz performance and improvisation. May be taken 6 times.

*prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition*

2 hrs
1 cr.

**MUSPF 35300 - Chamber Singers**

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

*prereq: audition, perm instr.*

2 hrs
1 cr.
MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

**prereq:** audition, perm instr.

2 hrs
1 cr.

MUSPF 36500 - Topics in Piano Performance

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance.

May be taken 4 times.

**coreq:** MUSPF 40100 or 43100

2 hrs
1 cr.

MUSPF 36900 - Topics in Vocal Performance

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester's topic area. Each semester will also include individual attention to problems of public performance.

May be taken 4 times.

**prereq:** ENGL 12000

**coreq:** MUSPF 40100 or 43100

2 hrs
1 cr.

- MUSPF 40100 - Individual Instruction in Instrument or Voice

4. Electives (4 credits)

- 4 credits in music courses above the 100-level

5. Graduate Music Courses (15-21 credits)

For course descriptions please see the graduate catalog.

* Students who have studied these subjects at the undergraduate level may be exempted from these requirements.

- MUS 64100 – Strings*
- MUS 64300 – Woodwinds*
- MUS 64500 - Brass*
- MUS 64700 - Percussion Skills*
- MUS 64900 - Piano Skills for Music Teachers*
- MUS 65100 – Conducting*
- MUS 72400 - Advanced Studies in Music Theory 1
- MUS 75100 - Advanced Studies in Music History 1
- MUS 75200 - Advanced Studies in Music History 2
- MUS 77900 - World Music Education
- Music electives: Courses chosen in consultation with graduate adviser (3 credits)
Education Requirements (25-26 credits)

For course descriptions please see the graduate catalog.

- SEDF 70300 - Social Foundations of Adolescent Education
- SEDF 70400 - Adolescent Development, Grades 7–12
- SEDF 70500 - Educational Psychology: Applications to Adolescent Education
- SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education
- SPED 70800 - Teaching Students with Special Needs in Inclusive Settings
- SEDC 71000 - Building the Foundations of Literacy in Adolescent Education
- SEDC 72000 - Adolescent Health and Safety
- MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12
- MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12
  - Take either -
  - SEDC 75600 - Student Teaching in Music, Pre-K–12
  - or -
  - SEDC 77610 - Practicum in Music, Grades Pre-K–6
  - Plus -
  - SEDC 77620 - Practicum in Music, Grades 7–12

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

QUEST Four-Semester Sequence for Students Entering the Program with More than 40 credits

Semester I

QSTA 40080 - The Art of Effective Teaching

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

3 hrs
3 cr.
QSTB 20280 - Child Growth and Development

The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical application of developmental theories and research to diverse populations will be emphasized. Contextual influences on children's development, including family, peers and the media will be included.

coreq: QSTA 40100, QSTAB 30000
prereq or coreq: QSTA 40000
2 hrs
2 cr.

QSTA 40180 - Developmental Reading

Theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology for literacy development will be stressed.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

coreq: QSTB 20280, QSTP 30000
prereq or coreq: QSTA 40080
2 hrs
2 cr.

QSTP 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading

Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

coreq: QSTAP 40180, QSTB 20280
prereq or coreq: QSTAP 40080, HEDP 31400
75 hrs
1 cr.

HEDP 31400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education
and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

HED changed to HEDP - effective Spring 2018 -
coreq: QSTAP 40080
3 hrs
3 cr.

Total ED Credits 11

Fieldwork 75 hours

Semester II

QSTA 41080 - Literacy Across the Content Areas

Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
coreq: QSTA 41280, QSTP 30100
2 hrs
2 cr.

QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
coreq: QSTA 41080, QSTP 30100
2 hrs
2 cr.

QSTP 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools
Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 40180, QSTB 20280, QSTP 30000
coreq: QSTAP 41080, 41280
75 hrs
1 cr.

QSTB 40380 - Social Foundations of Urban Education

Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000
3 hrs
3 cr.

Total ED Credits 8

Fieldwork 75 hours

Semester III

QSTB 41380 - Psychology of Teaching and Learning

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

prereq: QSTA 41000, 41200, QSTAB 30100
coreq: QSTA 40600, QSTF 30200
2 hrs
2 cr.

QSTA 40680 - Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.
QSTP 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus -- though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.
prereq or coreq: SEDC 21000 or SEDC 21300 or SEDC 321000 or SEDC 215 or DANED 30200 or SEDC 21200

Semester IV

**QSTA 41480 - Teaching Science in Elementary Schools**

This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their corequisite student teaching in science.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

prereq: QSTA 40680, 41080, 41280, QSTP 30100
coreq: QSTAP 41580
2 hrs
2 cr.

**QSTAP 41580 - Student Teaching**

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

*Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.*

prereq: QSTAP 40680, 40780, QSTB 41380, QSTP 30200, HED 31400

Teaching Languages Other Than English: Chinese, Grades 7-12- BA

The BA program in Adolescent Teaching Languages Other Than English: Chinese, Grades 7-12 leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of
education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Chinese.
- Participation in a group interview.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.
Course of Study

Academic Plan: CHIADED-BA & MHCHIA-BA

Credits: 60 - 66

Chinese Requirements (33-39 credits)

33 credits must be from courses above the 100 level. Courses must be taken in the sequence described below. Students who demonstrate proficiency in Chinese through a placement exam may be exempted from some courses.

CHIN 10100 - Elementary Chinese I

Beginning course in Mandarin.
CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Language Proficiency Requirement.

3 hrs
3 cr.
offered fall

CHIN 10200 - Elementary Chinese II

Beginning course in Mandarin.

3 hrs
3 cr.
offered spring

CHIN 20100 - Intermediate Chinese I

Reading of literature in baihua (vernacular style) with emphasis on structural use of "function words" and vocabulary-building.

prereq: CHIN 10200 or equiv.

3 hrs
3 cr.
offered fall

CHIN 20200 - Intermediate Chinese II

Continued reading of literature in baihua.

prereq: CHIN 20100 or equiv.

3 hrs
3 cr.
offered spring

CHIN 30100 - Journalistic Chinese Literature I
Intensive reading of literature and essays written in journalistic style.

prereq: CHIN 20200 or equiv.
3 hrs
3 cr.
offered fall

**CHIN 30200 - Journalistic Chinese Literature II**

Intensive reading and translation of literature written in journalistic style.

prereq: CHIN 30100 or equiv.
3 hrs
3 cr.
offered spring

**CHIN 30300 - Classical Chinese Literature I**

Intensive study of literature written in wenyan or classical style, with attention to basic structures of literary styles.

prereq: CHIN 20200 or equiv.
3 hrs
3 cr.
offered fall

**CHIN 30400 - Classical Chinese Literature II**

Continuation of CHIN 303. Selected readings in literature written in wenyan or classical style.

prereq: CHIN 303 or equiv.
3 hrs
3 cr.
offered spring

**CHIN 30700 - Classical Chinese Poetry**

**Pluralism and Diversity**
PD/A

Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi.

prereq: CHIN 30400 or equiv.
3 hrs
3 cr.

- CHIN 40160 Modern Chinese Fiction
- CHIN 40111 Language for the Global Workforce
- CHIN 40110 Business in China
- CHIN 40200 - Independent Study in Chinese Literature

9 additional credits:

- CHIN 39900 - Second Language Acquisition and 6 credits in Chinese language and literature at the 300 or 400 level.

**Education Requirements (27 credits)**

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**
Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

**prereq:** SEDF 20300, 20400

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

**prereq:** SEDF 20500, SEDC 21000

2 per week plus lab
2 cr.

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

**SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12**

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.

**prereq or coreq:** SEDF 20300, 20400

3 hrs
3 cr.
SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.

prereq: SEDC 21200
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDCP 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus -- though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

prereq: QSTA 40080 or QSTAP 40080
SEDPC 45210 - Student Teaching in Chinese, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Chinese teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Teaching Languages Other Than English: French, Grades 7-12- BA

Teaching Languages Other Than English Grades 7-12- French BA leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling of the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.
Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in French.
- Participation in a group interview.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Course of Study

Academic Plan: FRENAED-BA

Credits: 60-72

French Requirements (33-45 credits)

Students who demonstrate proficiency in French through a placement exam may be exempted from some courses.
0-12 credits from:

**FREN 10100 - Elementary French I**

Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language. FREN 10100 usually not credited without FREN 10200. For details about credit policy, please see Language Proficiency Requirement.

*3 hrs*
*3 cr.*

**FREN 10200 - Elementary French II**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language. *prereq: FREN 101 or one yr high school French.*

*3 hrs*
*3 cr.*

**FREN 10300 - Intensive Elementary French**

Equivalent to material covered in 10100 and 10200. Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

*6 hrs*
*6 cr.*

**FREN 20100 - Intermediate French I**

Language lab mandatory.
There are three options for students beginning French at Hunter. Pluralism and Diversity
PD/D
GER
3/A

Readings, discussion and reports.
prereq: FREN 34100 and 34200; five courses in French major
3 hrs
3 cr.

FREN 49100 - Honors Course in French

Pluralism and Diversity
PD/D
Open to Jr/Sr only. Research in history of French literature.
prereq: FREN 34400, 34600, 34800; major GPA 3.2, cum GPA 2.8; perm adviser
3 hrs
3 cr.

FREN 49500 - Independent Study in French Literature
prereq: perm adviser
1-3 cr.

3 credits in Second Language Acquisition chosen from:

**FREN 39900 - Second Language Acquisition**

*prereq: at least three courses at the 300 level in the language; ENGL 12000*

3 hrs
3 cr.

- FREN 49500 - Independent Study in French Literature

**Education Requirements (27 credits)**

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool- community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

*prereq: SEDF 20300, 20400*

2 hrs per week plus 36 hrs fieldwork
2 cr.

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000*

2 per week plus lab
2 cr.
SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.
3 hrs
3 cr.

SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.
prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.
prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.
prereq: SEDC 21200
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDCP 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the
course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500

15 hours of seminar; 48 hours of fieldwork
1 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus -- though we will also inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

prereq: QSTA 40080 or QSTAP 40080

-- or --

1-3 cr.

3 credits in Second Language Acquisition chosen from:

**ITAL 39900 - Second Language Acquisition**

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.

**prereq: at least three courses at the 300 level in the language; ENGL 12000**

3 hrs
3 cr.

- ITAL 49500 - Independent Study in Italian Literature

**Education Requirements (27 credits)**

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.
SEDG 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDG 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.
prereq: SEDG 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDG 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.
prereq: SEDG 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDG 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.
3 hrs
3 cr.

SEDG 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.
prereq or coreq: SEDG 20300, 20400
3 hrs
3 cr.
SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.

prereq: SEDC 21200
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDCP 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning
disabilities, behavior disorders, and mild intellectual disability will be our primary focus -
- though we will also inevitably address issues related to individuals with other
disabilities. The course will examine educational theories and historical practices that
have led to an increased emphasis on "collaborative education" to serve students with
disabilities.

prereq: QSTA 40080 or QSTAP 40080

-- or --
prereq or coreq: SEDC 21000 or SEDC 21300 or SEDC 321000 or
SEDC 215 or DANED 30200 or SEDC 21200
3
3

SEDCP 45260 - Student Teaching in Italian, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at
grades 10-12 under the supervision of a Hunter College faculty member and a certified
Italian teacher in a New York City school selected by the college. Students will further
develop their skills in the delivery of instruction. Student teachers will assume significant
responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a
professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education
major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The
DASA workshop is required for all students in a NYS certification program at the School
of Education. The workshop requires six clock hours of coursework or training.

Teaching Languages Other Than English:
Spanish, Grades 7-12- BA

The BA program in Adolescent Teaching Languages Other Than English leads to initial
certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective
teachers to serve as high-quality educators for students in urban secondary schools.
Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

Declaring the Major

Before you can declare a School of Education major as part of your bachelor's degree, you must complete a group interview with faculty. Signing up for an interview can be done through the School of Education website. Current Hunter students can request an interview throughout the year.

Students interested in an Education program should interview as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about declaring a School of Education major as soon as they have been admitted to Hunter.

The School of Education does not accept non-degree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Requirements to Declare the Major

- Minimum of at least 60 credits but no more than 90 credits completed by the first semester in the education program.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Evidence of advanced writing ability through a review of English composition and writing intensive coursework.
- Formal declaration of a major in Spanish.
- Participation in a group interview.

Undergraduate Academic Progress Standards

- Students must maintain a GPA of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in a course with fieldwork or student teaching must apply to the department chairperson for permission to re-register for that course, which may be repeated only once.
- Any student who receives a grade of D in an education course will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any education course will not be permitted to continue in the program.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to
choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Course of Study

Academic Plan: SPANAED-BA

Credits: 60 - 72

Spanish Requirements (33-45 credits)

1. Introductory Spanish (0-12 credits)

Students who demonstrate proficiency in Spanish through a placement exam or prior study may be exempted from some courses at the 100 and 200 level.

The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.
prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual

orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

**prereq:** SEDF 20300, 20400

1 hr

1 cr.

**SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12**

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.

**prereq:** SEDC 21200

**prereq or coreq:** SEDF 20500, SEDC 21000

2 hrs per week plus 48 hrs fieldwork

2 cr.

**SEDCP 34100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.*

**coreq:** SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500

15 hours of seminar; 48 hours of fieldwork

1 cr.

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus -- though we will also inevitably address issues related to individuals with other disabilities. The
course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

prereq: QSTA 40080 or QSTAP 40080

-- or --

prereq or coreq: SEDC 21000 or SEDC 21300 or SEDC 321000 or SEDC 215 or DANED 30200 or SEDC 21200

SEDCP 45280 - Student Teaching in Spanish, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Spanish teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200

prereq or coreq: SEDF 20600

2 hrs per week, 60 days student teaching plus workshops and conferences

5 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

• Have an overall GPA of at least 3.0
• Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program. Educating students who have learning disabilities, behavior disorders, and mild intellectual disability will be our primary focus -- though we will also
inevitably address issues related to individuals with other disabilities. The course will examine educational theories and historical practices that have led to an increased emphasis on "collaborative education" to serve students with disabilities.

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*3 hrs*

*3 cr.*

**SEDC 21100 - Young Adult Literature in Our Diverse Society**

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English language arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

*prereq or coreq:* SEDF 20300, 20400

*3 hrs*

*3 cr.*

**SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12**

The nature of language, and language acquisition/ learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.

*prereq or coreq:* SEDF 20300, 20400

*3 hrs*

*3 cr.*
SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

prereq or coreq: SEDF 20300, 20400

3 hrs
3 cr.

SEDC 21500 - Methods I: Classroom Organization, Management, and Instruction in Social Studies, Grades 7-12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

prereq or coreq: SEDF 20300, 20400

3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400

1 hr
1 cr.

SEDC 32100 - Teaching English Methods to a Diverse Population in Grades 7-12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. State and city teaching standards will be applied throughout the course.

prereq: SEDC 21100
prereq or coreq: SEDF 20500, SEDC 21000

2 hrs per week plus 48 hrs fieldwork
2 cr.
SEDC 32200 - Methods II: Instructional Planning for Literacy, Language, and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

Standards that impact on the teaching of foreign/heritage languages at the secondary level. Emphasis is placed on the strategies, methods and materials used in planning instruction around the standards. Classroom observations will serve as a catalyst for discussion.

prereq: SEDC 21200
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDC 32300 - Methods II: Teaching Diverse Learners in Mathematics, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 21300
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDC 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 21300
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDC 32500 - Methods II: Teaching Diverse Learners in Social Studies, Grades 7-12
Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 21500
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

**SEDCP 34100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

**SEDCP 45100 - Student Teaching in English, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified English teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32100
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.
SEDCP 45210 - Student Teaching in Chinese, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Chinese teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences 5 cr.

SEDCP 45220 - Student Teaching in French, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified French teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

**SEDCP 45270 - Student Teaching in Russian, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Russian teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences 5 cr.

SEDCP 45280 - Student Teaching in Spanish, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Spanish teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32200
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences 5 cr.

SEDCP 45300 - Student Teaching in Mathematics, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified math teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32300
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences 5 cr.

SEDCP 45410 - Student Teaching in Biology, Grades 7-12
Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32400
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SEDCP 45420 - Student Teaching in Chemistry, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32400
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SEDCP 45430 - Student Teaching in Physics, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified physics teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq: SEDC 32400
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences 5 cr.

**SEDCP 45500 - Student Teaching in Social Studies, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified social studies teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

**prereq:** SEDC 32500
**prereq or coreq:** SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences 5 cr.

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs 3 cr.

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork 2 cr.

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

**prereq:** SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork 2 cr.
SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000
*2 per week plus lab
*2 cr.

ECC 30000 - Early Childhood Programs and Curricular Frameworks

Students will gain an in-depth understanding of the array of early childhood programs that comprise the field of early care and education. In addition, students will learn about philosophies and approaches to curriculum that are commonly used in early childhood settings including Montessori education, Reggio Emilia, the Project Approach, High Scope Curriculum, and the Creative Curriculum.

*coreq: ECF 20000, ECF 20100
*3 hrs
*3 cr.

ECC 30100 - Field work/Internship 1

This supervised experience gives students the means to connect conceptual and theoretical information about children in a preschool setting. Students will have the opportunity to examine the developmental progression of early and emergent skills as they relate to infant, toddler, and preschoolers' development. Students will also have the opportunity to discuss developmentally appropriate assessments and how parents/caregivers can document developmental milestones of children birth through age 4.

Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

*coreq: ECC 30500
*prereq or coreq: ECF 20000, ECC 30000, ECC 30400
*50 hrs.
*1 cr.
*Offered fall and spring

ECC 30100, 30200, 30300 - Field work/Internships
These field work experiences are companion courses for three content classes: ECC 30400, ECC 30800, and ECC 31100. Refer to the four and six-semester sequence charts for a detailed listing of other co-requisites.

ECC 30200 - Field work/Internship 2

This supervised experience gives students the means to connect conceptual and theoretical information about children in kindergarten through second grade. Students will have the opportunity to examine the listening, speaking, reading, and writing development of young children across a variety of cultural and linguistic communities. Students will examine the roles of families, programs, schools, and communities in urban environments, as well as the assessment of early literacy development.

Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course again and may not continue in the program.

prereq: ECF 20000, ECC 30000, ECC 30100, ECC 30400, ECC 30500
coreq: ECC 30600
prereq or coreq: ECF 20100
50 hrs.
1 cr.
Offered fall and spring

ECC 30300 - Field work/Internship 3

This supervised experience gives students the means to connect conceptual and theoretical information about children in first or second grade. Students will have the opportunity to examine developmentally appropriate activities for children and ways of assessing learning in diverse settings. Students will examine the roles of families, programs, schools, and communities in urban environments, as well as the assessment of mathematical and science development.

Students will complete 5 hours per week of fieldwork for a minimum of 50 contact hours per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

Students receiving a grade of B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not
repeat the course again and may not continue in the program.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30100, ECC 30200, ECC 30400, ECC 30500, ECC 30600, ECC 30800

coreq: ECC 31000

50 hrs.
1 cr.

Offered fall and spring

**ECC 30400 - Creative Arts and Play-Based Learning**

Theoretical and practical aspects of play, creativity and arts-based learning are the central tenets of this course. Students will gain fundamental knowledge for constructing playful learning experiences across early learning settings, particularly within the context of the standards-based, high-stakes accountability climate of education in the United States and beyond.

prereq: ECC 30000, ECF 20000, ECF 20100

2 hrs
2 cr

**ECC 30500 - Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)**

This course is grounded in research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of literacy development between Birth and age 4 and the role of families, programs and schools in early literacy development.

prereq: 6 credits of foreign language; ECC 30000, ECF 20000, ECF 20100

3 hrs
3 cr.

**ECC 30600 - Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade**

Theoretical and practical aspects of early childhood literacy instruction with particular emphasis on teaching literacy to diverse populations between the grades of Kindergarten and 2nd grade will be addressed. In addition, the role of family and community involvement and the use of technology for literacy development.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500

3 hrs
3 cr.

**ECC 30800 - Inclusionary Practices and Teaching Children of Diverse Backgrounds**

An overview of children with exceptional cognitive, physical, social, and/or emotional characteristics, including learning disabilities. Students will also gain
knowledge and skills on working with children who are emerging language learners (ELLs). Assessment and screening strategies will be discussed to meet the educational needs of all students.

**prereq:** ECF 20000, ECC 30000, ECC 30500
3 hrs
3 cr.

**ECC 31000 - Mathematics in Early Childhood**

Examines the theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth through second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings.

**prereq:** MATH 10400; ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800
3 hrs
3 cr.

**ECC 31100 - Early Childhood Science and Inquiry-Based Learning**

Explores the theories and research of scientific thinking in young children. Assessing science learning in diverse infant, toddler, preschool and grade K-2 settings and how to incorporate the use of community resources in scientific learning will be discussed.

**prereq:** Two semesters of natural science which must include: 3 credits eligible to meet CUNY Common Core in Life and Physical Sciences and 3 credits eligible to meet CUNY Common Core in Scientific World (CSCI and ECO courses do not qualify for this requirement); ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500, ECC 30600, ECC 30800
2 hrs
2 cr.

**ECC 31400 - Health, Family, and Community Partnerships**

This course gives students the means to understand how to promote children's health, safety, and nutrition. Students will also gain skills and knowledge needed to foster positive, reciprocal relationships with families of diverse backgrounds. In meeting the NYSDOE mandate, child abuse, drug abuse prevention, prevention of school violence, anti-bullying, and fire safety workshops are included.

**prereq:** ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.
ECC 40100 - Student Teaching

Students will complete one semester of student teaching in early childhood settings, including preK settings, kindergarten, first, and second grade classrooms. Students will complete their student teaching in at least two of the following early childhood settings: pre-kindergarten, kindergarten, first grade or second grade. Students will attend seminar for 30 hours during the semester to discuss topics that range from classroom management to supporting children with diverse learning needs. During student teaching, students will complete the Teacher Performance Assessment (edTPA).

prereq: ECF 20000, ECF 20100, ECF 40200 ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100, ECC 31400
3 hrs
3 cr.

ECF 20000 - Human Development and Theories of Learning, Prenatal-Age 8

This course will examine the history of child development and the major theories and theorists in the area of child development. An understanding of research strategies and the impact of cultural, biological and environmental influences on the development of young children will also be examined. Current research in the areas of prenatal development, physical, cognitive, language, social, emotional and early brain development will also be discussed.

prereq: ENGL 12000
coreq: ECF 20100, ECC 30000
3 hrs
3 cr.

ECF 20100 - Social and Historical Foundations of Early Childhood Care and Education

An examination and analysis of the social and historical contexts of early childhood education including applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

coreq: ECF 20000; ECC 30000
2 hrs
2 cr

ECF 40000 - Assessment in Early Childhood, Birth through 2nd Grade

Provides students with an understanding of the role of assessment for planning and implementing effective early childhood instruction for young children, ages birth to age eight, from culturally diverse environments and with varied learning needs.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30400, ECC
EDUC 25000 - Introduction to Urban Education: Topics and Issues around Diversity and Equity (W)

Pluralism and Diversity
PD/B
An introduction to urban education, specifically focusing on both current pedagogical approaches and the various historical, socioeconomic, sociocultural, and political factors that influence schools, with an eye to equity and justice as means to closing the achievement gap for marginalized populations of students.

This course is open to all Hunter students, and does not require admission to a School of Education program.

prereq: ENGL 12000

QSTA 40080 - The Art of Effective Teaching

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

QSTA 40180 - Developmental Reading

Theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology for literacy development will be stressed.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

coreq: QSTB 20280, QSTP 30000

prereq or coreq: QSTA 40080
QSTA 40680 - Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: MATH 10400, 10500, QSTA 41080, 41280, QSTP 30000
coreq: QSTB 41380, QSTP 30200
2 hrs
2 cr.

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
3 hrs
3 cr.

QSTA 41080 - Literacy Across the Content Areas

Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
coreq: QSTA 41280, QSTP 30100
2 hrs
2 cr.
QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40180, QSTB 20280, QSTP 30000
coreq: QSTA 41080, QSTP 30100
2 hrs
2 cr.

QSTA 41480 - Teaching Science in Elementary Schools

This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their corequisite student teaching in science.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTA 40680, 41080, 41280, QSTP 30100
coreq: QSTAP 41580
2 hrs
2 cr.

QSTAP 41580 - Student Teaching

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

Please note that effective spring 2018 QSTA will be renamed QSTAP to identify it as a professional course rather than one in the liberal arts.

prereq: QSTAP 40680, 40780, QSTB 41380, QSTP 30200, HED 31400
coreq: QSTAP 41480
2 per week of seminar plus student teaching
4 cr.

**QSTB 20280 - Child Growth and Development**

The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical application of developmental theories and research to diverse populations will be emphasized. Contextual influences on children's development, including family, peers and the media will be included.

*coreq: QSTA 40100, QSTAB 30000*

*prereq or coreq: QSTA 40000*

2 hrs
2 cr.

**QSTB 40380 - Social Foundations of Urban Education**

Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

*prereq: QSTA 40100, QSTB 20200, QSTAB 30000*

3 hrs
3 cr.

**QSTB 41380 - Psychology of Teaching and Learning**

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

*prereq: QSTA 41000, 41200, QSTAB 30100*

*coreq: QSTA 40600, QSTF 30200*

2 hrs
2 cr.

**QSTP 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading**

Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.
Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

**QSTP 30100 - Fieldwork II: Fieldwork for Literacy**
**Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools**

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

**prereq: QSTAP 40180, QSTB 20280**
**coreq: QSTAP 41080, 41280**
**75 hrs**
**1 cr.**

**QSTP 30200 - Fieldwork III: Fieldwork for Mathematics**
**Teaching and Learning in Elementary School and Psychology of Teaching and Learning**

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

Please note that effective spring 2018 QSTAB will be renamed QSTP to identify it as a professional course rather than one in the liberal arts.

**prereq: QSTAP 41080, 41280, QSTP 30100**
**coreq: QSTAP 40680, QSTB 41380**
**75 hrs**
**1 cr.**
DANED 30200 - Theory and Practice of Teaching Dance (pre-K-12)

Methods of teaching dance in grades pre-K-12 to students with diverse backgrounds and abilities in diverse learning environments; the organization of instruction and classroom management strategies; technological resources; community and family resources.

Field work required.
DANED changed to DANEP - effective Spring 2018 -

prereq: completed 12 cr in dance or perm dance adviser
prereq or coreq: SEDF 20400
3 hrs plus 36 hours fieldwork
4 cr.

SEDCP 45600 - Student Teaching in Dance, Grades Pre-K-12

Two 30-day supervised placements (one in grades pre-K-6 and one in grades 7-12) in New York City public schools selected by Hunter College. Special Conditions: Students must apply for student teaching the fall semester before enrolling in this course. Scores on the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examination must have been received by the coordinator of adolescent education prior to enrollment in student teaching.

Please note that effective spring 2018 SEDC will be renamed SEDCP to identify it as a professional course rather than one in the liberal arts.

prereq or coreq: SEDF 20600, SEDC 22000
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

HED 20100 - Women and Health

Pluralism and Diversity
PD/C
An exploration of health issues affecting women, particularly as these issues relate to the socialization of women, reproductive and sexual health, and medical practices.
cross-listed WGSP 25100
3 hrs
3 cr.

HED 30500 - Sex Education

An overview of human sexuality through affective processes with an emphasis on social and cultural influences, and the role of family and school in sexuality education.
3 hrs
3 cr.
HED 30600 - Drugs and Drug Dependencies

The nature of addiction and dependency. The course focuses on social learning theory and the role of family, school, and community in drug prevention education.

3 hrs
3 cr.

HED 48000 - Independent Study in Health Education

An exploration in an area of special interest with faculty guidance. Topic to be approved by adviser.

30-45 hrs
1-3 cr.

HEDP 31400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

HED changed to HEDP - effective Spring 2018 -

coreq: QSTAP 40080
3 hrs
3 cr.

EDUC 49000 - Honors Course in Educational Research

Individual research in education. Admission by permission of the chairperson.

prereq: full education sequence including student teaching; 3.5 GPA in education courses and cumulative GPA of 2.8.

2 hrs
2 cr.

Programs and Courses in English

English

Overview

The Department of English offers students a variety of courses in the study of literature, literary theory, composition, rhetoric, linguistics and creative
writing. The department is interdisciplinary in its offerings, with a diverse faculty whose areas of research and approaches to teaching offer Hunter students a wide spectrum of historical, post-modern, theoretical, textual, and socio-cultural approaches to literary study, rhetoric and composition, linguistics and language, and creative writing. The department encourages disciplined, original thinking and writing while its small classes promote learning through stimulating discussions.

Introductory and intermediate courses present a wide range of literary forms, periods and genres. Students who major in English choose one of five concentrations: Literatures, Language and Criticism; Creative Writing; Adolescent Education (a concentration designed for prospective high school teachers), English Language Arts and Linguistics and Rhetoric. Qualified students may enroll in honors seminars and tutorials. The English Department participates in Hunter's interdisciplinary programs in Asian American Studies, Comparative Literature, Women's and Gender Studies, and Religion. The English major provides a foundation for careers in writing, teaching, journalism, publishing, law, business, or any other career that depends on the ability to read analytically and write effectively.

What can I do with my degree in English?

The ability to write well remains a rare but prized skill in almost every field, and English majors go on to careers in a variety of professions. The analytical, writing, and speaking skills honed in the major can lead graduates to careers in fields such as marketing, technology, publishing, teaching, the arts, law, venture capital, medicine, and policy making.

Faculty
Concentration in Creative Writing (42 credits)

Return to Programs and Courses in English

The concentration in Creative Writing is designed to provide students with an informed appreciation of the depth and breadth of literature written in English, as well as the opportunity to develop their own interests and skills in creative writing. Students concentrating in Creative Writing take ENGL 22000 Introduction to Writing about Literature (W) and ENGL 25200 Introduction to Literary Studies, five required courses in literature, at least four creative writing workshops and three electives.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major

A. Introductory Courses (6 cr)

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama,
poetry, and literary criticism, with an emphasis on further development of
critical writing and research skills. Students gain a deeper understanding and
appreciation of literature as well as more extensive experience with academic
writing.

*prereq:* ENGL 12000
3 hrs + one additional conference hour
3 cr.

**ENGL 25200 - Introduction to Literary Studies**

GER

3A

Description: Study of selected authors, works, genres, or time periods
emphasizing various modes of critical and theoretical analysis, methods of
research, and historical contextualization.

*prereq:* ENGL 22000
3 hrs.
3 cr.

- ENGL 22000 must be the first course taken in the major
- ENGL 25200 must be taken within a semester of declaring the major

**B. Survey Courses in Literature (6 credits)**

**ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century**

A survey of British Literature from its earliest manifestations to the eighteenth
century, encompassing a range authors and genres in their cultural, social, and
historical contexts. Required for all English majors.

*prereq:* ENGL 22000
3 hrs
3 cr.

**ENGL 30700 - Survey of American Literature: From Origins to the Civil War**

GER

3/A

An introduction to American literature up to the Civil War, surveying material
in a range of genres and periods and encompassing a variety of interpretive
approaches. Required of all English majors.

*prereq:* ENGL 22000
3 hrs
3 cr.
C. Requirements in Literature and Theory, Linguistics, or Rhetoric (9 credits)

1. One course from

**ENGL 31700 - Topics in Non-European Literary Traditions (W)**

**Pluralism and Diversity**  
PD/A  
GER  
3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester.  
**prereq: ENGL 22000**  
3 hrs  
3 cr.

**ENGL 31800 - Topics in Literature of Non-European Americans (W)**

**Pluralism and Diversity**  
PD/B  
GER  
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.  
**prereq: ENGL 22000**  
3 hrs  
3 cr.

**ENGL 32000 - Multi-Ethnic American Literature (W)**

**Pluralism and Diversity**  
PD/B  
GER  
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.  
**prereq: ENGL 22000**  
3 hrs  
3 cr.
ENGL 32100 - Topics in African American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32300 - Topics in Asian American Literature

Pluralism and Diversity
PD/B
Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs.
3 cr.

ENGL 32400 - Topics in Native American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

prereq: ENGL 22000
ENGL 32600 - Topics in US Latina/o Literature

Pluralism and Diversity
PD/B
Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.
prereq: ENGL 22000
3 hrs
3 cr.

2. One course in Literary Theory, Linguistics, or Rhetoric, from

ENGL 28000 - The Structure of Modern English

This course offers an introduction to the study of the linguistic and rhetorical structures of English, in particular sound systems (phonology), word formation (morphology), grammatical constructions (syntax), and language as social and cultural practice (discourse analysis and stylistics).

prereq: ENGL 22000
ENGL 30600 - Introduction to Literary Theory (W)

GER
3/A

An introduction to major theories of literature, with an emphasis on contemporary trends.

prereq: ENGL 22000

3 hrs
3 cr.

ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000

3 hrs
3 cr

• ENGL 33200 - History of the English Language (W)
• ENGL 33300 - Topics in Language and Linguistics

ENGL 34000 - History of Rhetoric

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

prereq: ENGL 22000

3 hrs
3 cr.

ENGL 34200 - Topics in Rhetoric

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.
ENGL 34600 - Discourse Analysis

Discourse analysis has been informed by several academic disciplines, including anthropology, linguistics, philosophy, literary theory, and sociology. Since there are many ways to define and analyze discourse, there exist multiple, and often conflicting, approaches to the study of language use. This course is an introduction to various methods of discourse analysis, which will be explored through critical reading and discussion, and through hands-on application of these methods on actual discourse data.

ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.
3. One course in literature, linguistics, or rhetoric before 1800, from

**ENGL 33200 - History of the English Language (W)**

The diversity and spread of English across the globe. The effects of language contact on English.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 33400 - Beowulf and Other Early Texts**

This course will introduce students to the Old English language through the study of its literature, and it will be organized around a topic to be determined by a faculty member. Students will learn the fundamentals of Old English grammar and pronunciation so that they can read Old English texts with the aid of a dictionary; hence students will deepen their research and writing skills.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 33500 - Chaucer**

**Pluralism and Diversity**

PD/D

GER

3/A

Study of Chaucer, with emphasis on The Canterbury Tales.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 33600 - Medieval Literature (1100-1500)**

GER

3/A

A survey of selected works from across the medieval period, encompassing a range of authors and literary genres

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 33700 - Literary Aspects of Folklore**

GER

3/A

Studies of folktales, ballads and legends in their relationship to written
ENGL 34000 - History of Rhetoric

ENGL 35000 - Renaissance Drama

Pluralism and Diversity
GER 3/A
A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35100 - The Age of Elizabeth I

Pluralism and Diversity
PD/D
GER
3/A
Major emphasis on the work of Spenser; readings in other Elizabethan poetry and prose.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35200 - Shakespeare Survey

Pluralism and Diversity
PD/D
GER
3/A
A survey of Shakespeare's works from across his career.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35300 - Shakespeare I

Pluralism and Diversity
PD/D
GER
3/A
Study of works from first half of Shakespeare's career.
prereq: ENGL 22000
ENGL 35400 - Shakespeare II

Pluralism and Diversity
PD/D
GER
3/A

Study of works from second half of Shakespeare's career.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35500 - Topics in Shakespeare (W)

GER
3/A

Study of Shakespeare's works in relation to a particular literary, historical, or theoretical theme
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35900 - Topics in Seventeenth-Century Literature

Poetry, prose and/or drama of the seventeenth century. Representative authors may include John Donne, Ben Jonson, Amilia Lanyer, Katherine Philips, John Milton, George Herbert, Lady Mary Wroth, Francis Bacon and Andrew Marvell.
prereq: ENGL 22000
3 hrs
3 cr

ENGL 36000 - The 17th Century

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative works from the period in their cultural, social, and historical contexts. Authors may include Donne, Cary, Philips, Marvell, Herrick, Milton, and Rochester.
prereq: ENGL 22000
3 hrs
3 cr.
ENGL 36100 - Milton

Pluralism and Diversity
PD/D
GER
3/A

Poetry and selected prose of Milton, with special emphasis on Paradise Lost.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36200 - English Drama of Restoration and 18th Century

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative works of the period in their cultural, social, and historical contexts. Authors may include Behn, Etherege, Wycherley, Dryden, Otway, Congreve, Centlivre, Gay, Goldsmith and Sheridan.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36300 - Topics in Milton

Study of Milton's works in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.
prereq: ENGL 22000
3 hrs
3 cr

ENGL 36400 - The Age of Satire

Pluralism and Diversity
PD/D
GER
3/A

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Dryden, Manley, Pope, Montagu and Swift.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36500 - The Later 18th Century
Pluralism and Diversity
PD/D
GER
3/A

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Johnson, Boswell, Blake, and Smith.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36800 - The 18th Century English Novel

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative novels of the period in their cultural, social, and historical contexts. Authors may include Behn, Haywood, Fielding, Richardson, Sterne, Burney, and Austen.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36900 - The 19th Century English Novel

Pluralism and Diversity
PD/D
GER
3/A

Major emphasis on Dickens, Thackeray, the Brontës, George Eliot, Hardy and Meredith.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 37100 - Topics in Romantic Literature

Study of selected works and writers of the British Romantic period in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 37200 - Romantic Poetry

Pluralism and Diversity
PD/D
GER
3/A

Study of major poets of the Romantic period in their cultural, social, and historical contexts. Authors may include Wordsworth, Coleridge, Byron, Shelley, Keats, Blake, Clare, Barbauld, Smith and Yearsley.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38200 - Topics in Medieval Literature

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic. May include study of Old and/or Middle English.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38300 - Topics in Renaissance Literature

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38400 - Topics in Restoration and 18th Century Literature

GER
3/A

Topics vary from semester to semester.

prereq: ENGL 22000
3 hrs
3 cr.

Some courses under the following number (depending on the topic; check department listings)

ENGL 31900 - Topics in Literature by Women (W)

Pluralism and Diversity
PD/C
GER
Study of selected works by women in relation to a particular literary, cultural, historical, or theoretical theme.

cross-listed WGSA 31900

prereq: ENGL 22000

3 hrs

3 cr.

- ENGL 32100 - Topics in African American Literature
- ENGL 32200 - Topics in Gender and Sexuality in Literature
- ENGL 32400 - Topics in Native American Literature
- ENGL 32900 - Topics in Cross-Cultural Literature in English (W)
- ENGL 33300 - Topics in Language and Linguistics
- ENGL 34200 – Topics in Rhetoric
- ENGL 34700 - Language and Ethnicity
- ENGL 36600 – Topics in Literary Theory and Criticism

ENGL 38600 - Topics in British and American Literature

Pluralism and Diversity

PD/C or PD/D (some topics)

GER

3/A

Topics vary from semester to semester. Check the schedule of classes and with the undergraduate adviser to see which topics meet PD requirements.

prereq: ENGL 22000

3 hrs

3 cr.

ENGL 38700 - Topics in British and/or Irish Fiction

GER

3/A

Study of selected works and writers in relation to a particular literary, cultural, historical or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with an undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000

3 hrs

3 cr.

ENGL 38800 - Topics in Multi-Genre British and/or Irish Literature

GER

3/A
Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38900 - One Major Writer (W)

Pluralism and Diversity
PD/C or D
GER
3/A

Authors vary from semester to semester. May be taken more than once with permission of dept. Some authors may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39100 - Topics in British and/or Irish Poetry

Study of selected works and poets in the British and/or Irish poetry canon in relation to a particular literary, cultural, historical, or theoretical theme

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39200 - Topics in American Poetry

Study of selected American poetry in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39400 - World Literature: Drama

GER
3/A

Selected plays, classical, medieval and modern, including dramatic criticism.

prereq: ENGL 22000
ENGL 39800 - Topics in American Fiction

Pluralism and Diversity
PD/C
GER
3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser. May be repeated once for credit with a different topic.

prereq: ENGL 22000 ENGL 39500 or ENGL 39600

3 hrs
3 cr.

ENGL 39900 - Topics in American Multi-Genre Literature (W)

Pluralism and Diversity
PD/C
GER
3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser. May be repeated once for credit with a different topic.

prereq: ENGL 22000, ENGL 39500 or ENGL 39600

3 hrs
3 cr.

ENGL 49400 - Honors Seminar: Special Studies

Pluralism and Diversity
PD/C
GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

1 sem
3 cr.

D. Required Writing Courses (12 credits)

1. ENGL 28500 Introduction to Creative Writing (and pass it with a grade of B or higher).
2. Students must then take 3 more creative writing workshops from the following, at least one of which must be a level-II workshop.

Note: Students may repeat level-II workshops once for credit. Students may not take a Level-II Workshop without first taking the Level-I Workshop in that genre. Students may not take ENGL 48400 without first taking a Level-II Workshop in that genre.

**ENGL 30800 - Workshop in Non-Fiction I**

**GER**
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.

*prereq: ENGL 30000*
3 hrs
3 cr.

**ENGL 30900 - Workshop in Non-Fiction II**

**GER**
3/A

A continuation of Workshop in Non-Fiction I, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

*prereq: ENGL 30000 and 30800*
3 hrs
3 cr.

**ENGL 31100 - Workshop in Fiction I**

**GER**
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of fiction.

*prereq: ENGL 30000*
3 hrs
3 cr.

**ENGL 31300 - Workshop in Fiction II**

**GER**
3/A
A continuation of ENGL 31100, with increasing emphasis on craft and revision. This course may be repeated once for credit.

prereq: ENGL 30000 and ENGL 31100
3 hrs
3 cr.

**ENGL 31400 - Workshop in Poetry I**

**GER**
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of poetry.

prereq: ENGL 30000
3 hrs
3 cr.

**ENGL 31600 - Workshop in Poetry II**

**GER**
3/A

A continuation of ENGL 31400, with increasing emphasis on craft and revision. This course may be repeated once for credit.

prereq: ENGL 30000 and ENGL 31400
3 hrs
3 cr.

**E. Electives (9 credits)**

Students in this concentration are required to take nine credits of elective courses. One elective course must be a 400-level advanced seminar, which can only be taken after achieving 24 credits in the major (see below). The remaining courses must be at the 300-level or above (with the exception of ENGL 28000). All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course. Permission will only be granted for 300-level courses in other departments.

**400-level Advanced Seminar**
All English majors must take a 400-level Advanced Seminar as one of their electives. In order to be eligible for the course, students must first complete at least 24 credits in the major and meet the prerequisites for the specific Seminar (listed below).

ENGL 48400 - Advanced Seminar in Creative Writing

GER
3/A

Advanced seminar in a specific genre of creative writing (fiction, poetry, or creative non-fiction), with an emphasis on craft, style, and/or strategies for creative writers.

_prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 28500 (formerly 30000), ENGL 30400, ENGL 30700, level I and level II workshops in specified genre (30800 and 30900; 31100 and 31300; or 31400 and 31600).
3 hrs
3 cr.

ENGL 49000 - Advanced Seminar in Literature and Criticism

Focused study of and research on a selected author or authors, texts and/or periods in relation to a particular literary, linguistic, rhetorical, cultural, historical, or theoretical theme.

_prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 30400 (currently ENGL 33800), ENGL 30600, ENGL 30700 (currently ENGL 39500); and one of ENGL 31700, ENGL 31800, ENGL 32000, ENGL 32100, ENGL 32500, ENGL 32400, ENGL 32500, ENGL 32600, ENGL 32700, or ENGL 32900
3 hrs.
3 cr.

ENGL 49200 - Advanced Seminar in Linguistics and/or Rhetoric

Advanced-level study of a special focus in Linguistics and/or Rhetoric, with a goal of producing a substantial piece of research writing. Focus may vary from semester to semester.

_prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 28000, ENGL 30100; at least one of ENGL 34000, ENGL 34100, ENGL 34200, or ENGL 34300; and at least one of ENGL 33000, ENGL 33200, ENGL 33300, ENGL 34600, ENGL 34700, or ENGL 34800; and two courses at 300 or 400 level
3 hrs
3 cr.
Students may take any Advanced Seminar for which they meet the prerequisites. If eligible, students may take the Honors Seminar (ENGL 49400) in place of or in addition to one of the Advanced Seminars. In rare cases, students may take ENGL 48500 Individual Tutorial Project instead of an Advanced Seminar, but only by permission of an advisor and the professor supervising the project.

Degree Map for English: Creative Writing

Concentration in English Language Arts
(42 credits)

Return to Programs and Courses in English

The Concentration in English Language Arts is designed to provide students with experience in the study of literature, linguistics, rhetoric, and writing. While it is designed and intended primarily for prospective elementary school teachers, the concentration is open to all students. All Majors in this concentration take two Introductory Courses (6 credits): ENGL 22000 Introduction to Writing about Literature (3 cr), which is a pre-requisite for all other courses in the major, and ENGL 25200 Introduction to Literary studies (3 cr.), which must be taken within a semester of declaring the major. Students take four required literature courses (12 cr): two surveys (ENGL 30400 Survey of British and Irish Literature, ENGL 30700 Survey of American Literature), one course in Postcolonial literature, African American literature, Native American literature, Asian American literature, Latina/o American literature, multi-ethnic American literature, or literatures from non-European traditions (ENGL 31700, ENGL 31800, ENGL 32000, ENGL 32100, ENGL 32300, ENGL 32400, ENGL 32500, ENGL 32600, ENGL 32700, or ENGL 32900), and one course in either Western Literary Backgrounds (ENGL 30300), Children's Literature (ENGL 30500), Introduction to Literary Theory (ENGL 30600), or Shakespeare (ENGL 35200, 35300, 35400). All majors in this concentration are required to take two courses in Linguistics and/or Rhetoric (including ENGL 28000: The Structure of Modern English) and two writing courses (including ENGL 30100: Composition Theory and Practice). The remaining three courses (9 cr.) are electives, one of which is a 400-level advanced seminar, which will involve a substantial research or creative project. Students have the option of taking one course (3 credits) outside the English department from a menu of options (see below), an independent study with a full-time faculty member, an internship, and/or an Honors seminar if they qualify.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR]. Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on
the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

BA in English: Concentration in English Language Arts

A. Introductory Courses (6 credits)

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

ENGL 25200 - Introduction to Literary Studies

GER
3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

prereq: ENGL 22000
3 hrs.
3 cr.

- ENGL 22000 must be the first course taken in the major
- ENGL 25200 must be taken within a semester of declaring the major

B. Survey Courses in Literature (6 credits)

ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century
A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts. Required for all English majors.

_prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30700 - Survey of American Literature: From Origins to the Civil War

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches. Required of all English majors.

_prereq: ENGL 22000
3 hrs
3 cr.

C. Literature Requirements (6 credits)

1. One course from:

ENGL 31700 - Topics in Non-European Literary Traditions (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester
_prereq: ENGL 22000
3 hrs
3 cr.

ENGL 31800 - Topics in Literature of Non-European Americans (W)

Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or
theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 32000 - Multi-Ethnic American Literature (W)**

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 32100 - Topics in African American Literature**

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 32300 - Topics in Asian American Literature**

Pluralism and Diversity
PD/B
Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 32400 - Topics in Native American Literature**

Pluralism and Diversity
PD/B
GER
3/A
Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32600 - Topics in US Latina/o Literature

Pluralism and Diversity
PD/B
Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32900 - Topics in Cross-Cultural Literature in English (W)
Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.  
*prereq: ENGL 22000  
3 hrs  
3 cr.

2. Once course from:

**ENGL 30300 - Western Literary Backgrounds of British and American Literature**

*Pluralism and Diversity*  
*PD/D*  
Major works of Western drama, poetry, and prose in translation, which may include the Bible and Greek and Roman epic, and exploration of their influence on works from other periods.  
*prereq: ENGL 22000  
3 hrs  
3 cr.

**ENGL 30500 - Studies in Children's Literature**

*GER*  
*3/A*  
Selected works of children's literature in relation to a special theme, technique, theoretical issue, or cultural consideration.  
*prereq: ENGL 22000  
3 hrs  
3 cr.

**ENGL 30600 - Introduction to Literary Theory (W)**

*GER*  
*3/A*  
An introduction to major theories of literature, with an emphasis on contemporary trends.  
*prereq: ENGL 22000  
3 hrs  
3 cr.

**ENGL 35200 - Shakespeare Survey**

*Pluralism and Diversity*  
*PD/D*  
*GER*  
*3/A*
A survey of Shakespeare's works from across his career.

**prereq:** ENGL 22000

3 hrs

3 cr.

**ENGL 35300 - Shakespeare I**

*Pluralism and Diversity*

PD/D

GER

3/A

Study of works from first half of Shakespeare's career.

**prereq:** ENGL 22000

3 hrs

3 cr.

**ENGL 35400 - Shakespeare II**

*Pluralism and Diversity*

PD/D

GER

3/A

Study of works from second half of Shakespeare's career.

**prereq:** ENGL 22000

3 hrs

3 cr.

**D. Required Courses in Linguistics and Rhetoric**

(6 credits)

**ENGL 28000 - The Structure of Modern English**

This course offers an introduction to the study of the linguistic and rhetorical structures of English, in particular sound systems (phonology), word formation (morphology), grammatical constructions (syntax), and language as social and cultural practice (discourse analysis and stylistics).

**prereq:** ENGL 22000

3 hrs

3 cr.

2. One course from:

**ENGL 33000 - Sociolinguistics**

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.
ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34600 - Discourse Analysis

Discourse analysis has been informed by several academic disciplines, including anthropology, linguistics, philosophy, literary theory, and sociology. Since there are many ways to define and analyze discourse, there exist multiple, and often conflicting, approaches to the study of language use. This course is an introduction to various methods of discourse analysis, which will be explored through critical reading and discussion, and through hands-on application of these methods on actual discourse data.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching,
ENGL 3000 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.

prereq: ENGL 22000
3 hrs
3 cr

400-level Advanced Seminar

ENGL 48400 - Advanced Seminar in Creative Writing (Prerequisites: ENGL 22000; ENGL 25200; ENGL 28500; ENGL 30400; ENGL 30700; and both a level 1 and 2 workshop in the student's chosen genre)

Students may take any Advanced Seminar for which they meet the prerequisites. If eligible, students may take the Honors Seminar (ENGL 49400) in place of or in addition to one of the Advanced Seminars. In rare cases, students may take ENGL 48500 Individual Tutorial Project instead of an Advanced Seminar, but only by permission of an advisor and the professor supervising the project.

Degree Map

Degree Map for English: Language Arts

Courses Required for the Major

Concentration in English: Foundations for Adolescent Education (42 credits)

Return to Programs and Courses in English

The Concentration in English: Foundations for Adolescent Education (42 cr.) is designed to give students the foundation in literary studies, writing, and linguistics that is required for teaching English in grades 7-12. This concentration alone does not meet the teaching certification requirements for New York State and New York City public schools. Students interested in
meeting these certification requirements will take this course sequence as part of the BA program in Adolescent English, Grades 7-12 jointly offered by the School of Arts & Sciences and the School of Education. Students interested in the BA program in Adolescent English, Grades 7-12 should declare this concentration of the major in English before declaring the joint major with the School of Education. Students who do not wish to pursue certification do not need to contact the School of Education and should simply follow the course of study set out in this English concentration. All Majors in this concentration take two Introductory Courses (6 credits): ENGL 22000 Introduction to Writing about Literature (3 cr), which is a pre-requisite for all other courses in the major, and ENGL 25200 Introduction to Literary studies (3 cr.), which must be taken within a semester of declaring the major. Students are required to take six literature courses (18 cr): four survey courses (ENGL 30300 Western Literary Backgrounds, ENGL 30400 Survey of British and Irish Literature, ENGL 306 Introduction to Literary Theory, ENGL 30700 Survey of American Literature), one course in Postcolonial literature, African American literature Native American literature, Asian American literature, Latina/o American, multi-ethnic American literature, or literatures from non-European traditions (ENGL 31700, ENGL 31800, ENGL 32000, ENGL 32100, ENGL 32300, ENGL 32400, ENGL 32500, ENGL 32600, ENGL 32700, or ENGL 32900), and one course in Shakespeare (ENGL 35200, 35300, 35400). Students are required to take one linguistics course (ENGL 28000: The Structure of Modern English) and two writing courses (including ENGL 30100: Composition Theory and Practice). The remaining three courses (9 cr.) are electives, one of which must be a 400-level advanced seminar, which will involve a substantial research or creative project. Students have the option of taking one course (3 credits) outside the English department from a menu of courses (see below), an independent study with a full-time faculty member, an internship, and/or an Honors seminar if they qualify.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

**Courses Required for the Major**

**A. Introductory Courses (6 credits)**

ENGL 22000 - Introduction to Writing about Literature (W)
Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

**ENGL 25200 - Introduction to Literary Studies**

*GER*

3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

**ENGL 30300 - Western Literary Backgrounds of British and American Literature**

*Pluralism and Diversity*

3D/D

Major works of Western drama, poetry, and prose in translation, which may include the Bible and Greek and Roman epic, and exploration of their influence on works from other periods.

**ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century**

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts. Required for all English majors.
ENGL 30600 - Introduction to Literary Theory (W)

GER
3/A

An introduction to major theories of literature, with an emphasis on contemporary trends.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30700 - Survey of American Literature: From Origins to the Civil War

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches. Required of all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

C. Literature Requirements (6 credits)

1. One course from

ENGL 31700 - Topics in Non-European Literary Traditions (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 31800 - Topics in Literature of Non-European Americans (W)
Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 32000 - Multi-Ethnic American Literature (W)**

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 32100 - Topics in African American Literature**

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 32300 - Topics in Asian American Literature**

Pluralism and Diversity
PD/B
Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq: ENGL 22000
3 hrs.
3 cr.*

**ENGL 32400 - Topics in Native American Literature**
Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

Prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32500 - Post-Colonial Literature in English (W)

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

Prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32600 - Topics in US Latina/o Literature

Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

Prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

Prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.
prereq: ENGL 22000
3 hrs
3 cr.

2. One course from

ENGL 35200 - Shakespeare Survey

Pluralism and Diversity
PD/D
GER
3/A

A survey of Shakespeare's works from across his career.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35300 - Shakespeare I

Pluralism and Diversity
PD/D
GER
3/A

Study of works from first half of Shakespeare's career.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35400 - Shakespeare II

Pluralism and Diversity
PD/D
GER
3/A

Study of works from second half of Shakespeare's career.
prereq: ENGL 22000
D. Required courses in Linguistics (3 credits)

ENGL 28000 - The Structure of Modern English

This course offers an introduction to the study of the linguistic and rhetorical structures of English, in particular sound systems (phonology), word formation (morphology), grammatical constructions (syntax), and language as social and cultural practice (discourse analysis and stylistics).

prereq: ENGL 22000

3 hrs
3 cr.

E. Required courses in Writing (6 credits)

ENGL 30100 - Composition Theory and Practice

GER
3/A

Study of the theory and practice of academic composition.

prereq: ENGL 22000

3 hrs
3 cr.

• 2. One of

ENGL 28500 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.

Students must pass this course with a B to major in Creative Writing.

Prerequisite for all 300-level writing courses, except ENGL 30100.

prereq: ENGL 22000

3 hrs
3 cr.

ENGL 34300 - Topics in Composition Studies

Focused study of aspects of composition theory and/or practice. Topics vary from semester to semester and may include the history of composition studies, new media and digital studies, and/or writing across the curriculum. May be repeated once for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

F. Electives (9 credits)

Students in this major are required to take nine credits of elective courses. One elective course must be a 400-level advanced seminar, which can only be taken after achieving 24 credits in the major (see below). The remaining courses must be at the 300-level or above (with the exception of ENGL 28500). All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689, may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course. Permission will only be granted for 300-level courses in other departments.

400-level Advanced Seminar

All English majors must take a 400-level Advanced Seminar as one of their electives. In order to be eligible for the course, students must first complete at least 24 credits in the major and meet the prerequisites for the specific Seminar (listed below).

ENGL 49000 Advanced Seminar in Literature and Criticism (Prerequisites: ENGL 22000; ENGL 25200; ENGL 30400; ENGL 30600; ENGL 30700; one of ENGL 31700, 31800, 32000, 32100, 32300, 32400, 32500, 32600, 32700, or 32900)

ENGL 49200 Advanced Seminar in Linguistics and/or Rhetoric (Prerequisites: ENGL 22000; ENGL 25200; ENGL 28000; ENGL 30100: one of ENGL 34000, ENGL 34100, ENGL 34200, or ENGL 34300; and one of ENGL 33000, ENGL 33200, ENGL 33300, ENGL 34600, ENGL 34700, ENGL 34800)

ENGL 48400 Advanced Seminar in Creative Writing (Prerequisites: ENGL 22000; ENGL 25200; ENGL 28500; ENGL 30400; ENGL 30700; and both a level 1 and 2 workshop in the student's chosen genre)

Students may take any Advanced Seminar for which they meet the prerequisites. If eligible, students may take the Honors Seminar (ENGL 49400) in place of or in addition to one of the Advanced Seminars. In rare cases, students may take ENGL 48500 Individual Tutorial Project instead of an Advanced Seminar, but only by permission of an advisor and the professor supervising the project.
Degree Map

Degree Map for English: Preparation for Secondary School Teaching BA

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Concentration in Linguistics and Rhetoric (42 credits)

The concentration in Linguistics and Rhetoric is designed to provide students with a comprehensive course of study in the structures, uses, and ideologies of discourse in various types of texts, genres, and domains: from everyday talk to persuasive writing. Students will gain a complex understanding of spoken and written discourse by comparing a wide range of philosophical underpinnings, theoretical perspectives, and methodological approaches. This concentration is particularly suited for students who are interested in graduate study in Linguistics, Rhetoric, Applied Linguistics, and Teaching English to Speakers of Other Languages (TESOL).

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCC], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Courses CUNY Common Core

ENGL 22000 English Composition (EC)

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major

A. Introductory Courses (6 credits)

ENGL 22000 - Introduction to Writing about Literature (W)
**Hunter Core**

**English Comp (EC)**

**GER**

**2/A**

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

*prereq: ENGL 12000*

3 hrs + one additional conference hour

3 cr.

**ENGL 25200 - Introduction to Literary Studies**

**GER**

**3A**

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

*prereq: ENGL 22000*

3 hrs.

3 cr.

- ENGL 22000 must be the first course taken in the major
- ENGL 25200 must be taken within a semester of declaring the major

B. Required courses in Linguistics and in Rhetoric and Composition (18 credits)

1. In Linguistics

**ENGL 28000 - The Structure of Modern English**

This course offers an introduction to the study of the linguistic and rhetorical structures of English, in particular sound systems (phonology), word formation (morphology), grammatical constructions (syntax), and language as social and cultural practice (discourse analysis and stylistics).

*prereq: ENGL 22000*

3 hrs

3 cr.

2. Between one to three courses in Linguistics (3-9 credits) from

**ENGL 33000 - Sociolinguistics**
This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34600 - Discourse Analysis

Discourse analysis has been informed by several academic disciplines, including anthropology, linguistics, philosophy, literary theory, and sociology. Since there are many ways to define and analyze discourse, there exist multiple, and often conflicting, approaches to the study of language use. This course is an introduction to various methods of discourse analysis, which will be explored through critical reading and discussion, and through hands-on application of these methods on actual discourse data.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence
the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

**ENGL 34800 - English Across the World**

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.

**3. In Rhetoric and Composition**

**ENGL 30100 - Composition Theory and Practice**

GER
3/A

Study of the theory and practice of academic composition.

**ENGL 34000 - History of Rhetoric**

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.
ENGL 34100 - Rhetorical Criticism

GER
3/A

This course will focus on rhetorical criticism as a genre of academic writing.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34200 - Topics in Rhetoric

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34300 - Topics in Composition Studies

Focused study of aspects of composition theory and/or practice. Topics vary from semester to semester and may include the history of composition studies, new media and digital studies, and/or writing across the curriculum. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

• In addition to ENGL 28000 and ENGL 30100, majors in this concentration take either one more course in linguistics and three more courses in rhetoric; three more courses in linguistics and one more course in rhetoric; or two more courses in linguistics and two more courses in rhetoric.

C. Survey courses in literature (6 credits)

ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and
historical contexts. Required for all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 30700 - Survey of American Literature: From Origins to the Civil War**

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches. Required of all English majors.

prereq: ENGL 22000
3 hrs
3 cr.

D. Literature Requirements (3 credits)

1. One course from

**ENGL 31700 - Topics in Non-European Literary Traditions (W)**

Pluralism and Diversity
PD/A
GER
3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester.

prereq: ENGL 22000
3 hrs
3 cr.

**ENGL 31800 - Topics in Literature of Non-European Americans (W)**

Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.
ENGL 32000 - Multi-Ethnic American Literature (W)

Prereq: ENGL 22000
3 hrs
3 cr.

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

ENGL 32100 - Topics in African American Literature

Prereq: ENGL 22000
3 hrs
3 cr.

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

ENGL 32300 - Topics in Asian American Literature

Prereq: ENGL 22000
3 hrs
3 cr.

Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

ENGL 32400 - Topics in Native American Literature

Prereq: ENGL 22000
3 hrs
3 cr.

Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.
ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER 3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32600 - Topics in US Latina/o Literature

Pluralism and Diversity
PD/B

Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)

Pluralism and Diversity
PD/A
GER 3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER 3/A
Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

E. Electives (9 credits)

Students in this major are required to take nine credits of elective courses. One elective course must be a 400-level advanced seminar, which can only be taken after achieving 24 credits in the major (see below). The remaining courses must be at the 300-level or above (with the exception of ENGL 28500).

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course. Permission will only be granted for 300-level courses in other departments.

Note: Linguistics and Rhetoric majors may also choose one additional elective outside of the department from courses related to linguistics or rhetoric offered in other departments - in Anthropology (ANTHC 15100 Introduction to Linguistics; ANTHC 32047 Youth and Language; ANTHC 32076 Language, Sex And Gender; ANTHC 32081: Language and Power; ANTHC 35100 Language In Culture And Society; ANTHC 35200 Language In Society; ANTHC 35400: Grammatical Analysis (3 Cr); ANTHC 40100 Seminar Linguistic Field Techniques; ANTHC 40176 Discourse Pragmatics; ANTHC 40191 Languages In Contact)) in Classics (CLA 11000 Greek and Latin Roots to Logic and of English); and in Philosophy (PHILO 10300 Introduction to Logic and Critical Thinking; PHILO 39484: Speech Acts); or from courses in foreign language study that are beyond those taken in fulfillment of the foreign language requirement (e.g., advanced courses in a second language, beginning courses in a third language).

*ENGL 33300 and ENGL 34200 may be taken multiple times in different topics to fulfill both required and elective courses

400-level Advanced Seminar

All English majors must take a 400-level Advanced Seminar as one of their electives. In order to be eligible for the course, students must first complete at least 24 credits in the major and meet the prerequisites for the specific Seminar (listed below).
• ENGL 49000 - Advanced Seminar in Literature and Criticism (Prerequisites: ENGL 22000; ENGL 25200; ENGL 30400; ENGL 30600; ENGL 30700; one of ENGL 31700, 31800, 32000, 32100, 32300, 32400, 32500, 32600, 32700, or 32900)
• ENGL 49200 - Advanced Seminar in Linguistics and/or Rhetoric (Prerequisites: ENGL 22000; ENGL 25200; ENGL 28000; ENGL 30100; and one of ENGL 34000, ENGL 34100, ENGL 34200, or ENGL 34300; and one of ENGL 33000, ENGL 33200, ENGL 33300, ENGL 34600, ENGL 34700, ENGL 34800)
• ENGL 48400 - Advanced Seminar in Creative Writing (Prerequisites: ENGL 22000; ENGL 25200; ENGL 28500; ENGL 30400; ENGL 30700; and both a level 1 and 2 workshop in the student's chosen genre)

Students may take any Advanced Seminar for which they meet the prerequisites. If eligible, students may take the Honors Seminar (ENGL 49400) in place of or in addition to one of the Advanced Seminars. In rare cases, students may take ENGL 48500 Individual Tutorial Project instead of an Advanced Seminar, but only by permission of an advisor and the professor supervising the project.

Concentration in Literatures and Criticism (42 credits)

Return to Programs and Courses in English

Majors who choose the Concentration in Literatures and Criticism (42 credits) take ENGL 22000 Introduction to Writing about Literature (W) (3) and ENGL 25200 Introduction to Literary Studies (3), four required courses (12), three courses in a specialized area of study (9), one 300- or 400-level English course with a focus on literature or rhetoric before 1800 (3), and 4-5 electives (12-15).

The department recommends that students take the six required courses early in their major studies, preferably soon after they have declared the major. The Literatures, Language and Criticism concentration is designed to provide students with exposure to a range of literary texts and traditions, as well as to a specific area of study in which to focus. The first two areas of study reflect particular national literatures, and the remaining four are designed with broader approaches to literary study in mind. With prior approval, a student may also work with an adviser to design her own area.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

Courses CUNY Common Core
ENGL 22000 English Composition (EC)
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major

A. Introductory Courses (6 credits)

ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

ENGL 25200 - Introduction to Literary Studies

GER
3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

prereq: ENGL 22000
3 hrs.
3 cr.
• ENGL 22000 must be the first course taken in the major
• ENGL 25200 must be taken within a semester of declaring the major

B. Survey Courses in Literature and Theory (9 credits)

ENGL 30400 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts. Required for all English majors.

3 cr.

Some courses under the following number (depending on the topic; check department listings)
- ENGL 32300 – Topics in Asian American Literature
- ENGL 32600 – Topics in US Latina/o Literature
- ENGL 32700 – Topics in Caribbean Literature

E. Electives (15 credits)

Students in this major are required to take fifteen credits of elective courses. One elective course must be a 400-level advanced seminar, which can only be taken after achieving 24 credits in the major (see below). The remaining courses must be at the 300-level or above (with the exception of ENGL 28000 and ENGL 28500).

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that
department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 34251 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

E. 400-level Advanced Seminar

All English majors must take a 400-level Advanced Seminar as one of their electives. In order to be eligible for the course, students must first complete at least 24 credits in the major and meet the prerequisites for the specific Seminar (listed below).

ENGL 49000 - Advanced Seminar in Literature and Criticism

Focused study of and research on a selected author or authors, texts and/or periods in relation to a particular literary, linguistic, rhetorical, cultural, historical, or theoretical theme.

*prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 30400 (currently ENGL 33800), ENGL 30600, ENGL 30700 (currently ENGL 39500); and one of ENGL 31700, ENGL 31800, ENGL 32000, ENGL 32100, ENGL 32300, ENGL 32400, ENGL 32500, ENGL 32600, ENGL 32700, or ENGL 32900
3 hrs.
3 cr.

ENGL 49200 - Advanced Seminar in Linguistics and/or Rhetoric

Advanced-level study of a special focus in Linguistics and/or Rhetoric, with a goal of producing a substantial piece of research writing. Focus may vary from semester to semester.

*prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 28000, ENGL 30100; at least one of ENGL 34000, ENGL 34100, ENGL 34200, or ENGL 34300; and at least one of ENGL 33000, ENGL 33200, ENGL 33300, ENGL 34600, ENGL 34700, or ENGL 34800; and two courses at 300 or 400 level
3 hrs
3 cr.

ENGL 48400 - Advanced Seminar in Creative Writing
Advanced seminar in a specific genre of creative writing (fiction, poetry, or creative non-fiction), with an emphasis on craft, style, and/or strategies for creative writers.

prereq: a minimum of 24 credits in the major, including ENGL 22000, ENGL 25200, ENGL 28500 (formerly 30000), ENGL 30400, ENGL 30700, level I and level II workshops in specified genre (30800 and 30900; 31100 and 31500; or 31400 and 31600).

3 hrs
3 cr.

Students may take any Advanced Seminar for which they meet the prerequisites. If eligible, students may take the Honors Seminar (ENGL 49400) in place of or in addition to one of the Advanced Seminars. In rare cases, students may take ENGL 48500 Individual Tutorial Project instead of an Advanced Seminar, but only by permission of an advisor and the professor supervising the project.

Degree Map

Degree Map for English: Literature, Language, & Criticism

Degree Map for English: Creative Writing

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an English major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Degree Map for English: Literature, Language, & Criticism

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an English major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Notes:

One of your five 300 or 400 level electives (or, alternatively, one of your three Area of Study courses) needs to fulfill the pre 1800 course requirement.

English - BA

The English Department offers students five concentrations:

- Concentration in Literatures and Criticism (42 credits)
- Concentration in Creative Writing (42 credits)
- Concentration in English Language Arts (42 credits)
- Concentration in English: Foundations for Adolescent Education (42 credits)
- Concentration in Linguistics and Rhetoric (42 credits)

After taking ENGL 22000 - Introduction to Writing about Literature (W), required of all students and a pre-requisite for all other courses in the major, students take thirty-nine credits (13 classes) of courses at the 300- and 400-level, with the exception of the following courses which are part of the major:

- ENGL 25200 - Introduction to Literary Studies, required of all students and to be taken within one semester of declaring the major
- ENGL 28000 - The Structure of Modern English, required for ELA, Linguistics and Rhetoric, and PSST students
- ENGL 28500 - Introduction to Creative Writing, required of all Creative Writing students

Depending on the concentration, students are required to take between 9-18 credits in literary studies, a range of credits in courses specific to their concentration, and between 9-15 credits in electives, including one advanced 400-level seminar. Up to 6 credits in the major sequence may be taken for CR/NC.

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Honors
In order to qualify for departmental honors, students must take the Honors Seminar (ENGL 49400) and write an honors essay. The essay is normally written in relation to the Honors Seminar and under the supervision of the professor teaching the seminar. To take the Honors Seminar, students must first complete at least 24 credits of 300- and/or 400-level English classes with a GPA of at least 3.5 in those courses and an overall GPA of at least 2.8. Of these 24 credits, 21 must be taken at Hunter (in exceptional cases, 18 credits may suffice). The Honors Seminar requirement is in addition to the specified required courses in the student's concentration. Students interested in pursuing departmental honors should consult an undergraduate adviser. Please see the college rules on Academic Honors for more information in Academic Policies & Procedures.

**ENGL 49400 - Honors Seminar: Special Studies**

**Pluralism and Diversity**

PD/C
GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

1 sem
3 cr.

**Note(s)**

*The Honors Seminar requirement is in addition to the specified courses in the student’s major concentration. Students interested in departmental honors should consult the undergraduate adviser.*

**Minor in English**

The English Department offers a 12-credit minor that provides students with an opportunity to pursue interests in literature, language, rhetoric, composition, and creative writing at the intermediate and advanced levels. The prerequisite to declare a minor is ENGL 22000 - Introduction to Writing about Literature (W). Students minoring in English may choose four courses (12 cr.) from among 200- and 300-level literature, language, or writing offerings, with a minimum of two 300-level courses necessary to satisfy the Minor requirements. Students who wish to take Creative Writing workshops in any of the three genres offered (Fiction, Poetry, and Creative Non-Fiction) must first pass ENGL 28500 - Introduction to Creative Writing, with a minimum grade of B.

*NOTE: No course below English 22000 counts towards fulfillment of the Minor except ENGL 21800 - Advanced Expository Writing. English minors may not take 400-level courses.*

**ENGL 00200SL - Reading II**

3 hrs
2 cr.

ENGL 00400SL - English for Bilingual Students II

Frequent paragraphs and essays: organizing, correcting grammar and sentence structure. Placement test required.

6 hrs + conf

3 cr.

**ENGL 32900 - Topics in Cross-Cultural Literature in English (W)**

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000*
3 hrs
3 cr.

**ENGL 33000 - Sociolinguistics**

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

*prereq: ENGL 22000*
3 hrs
3 cr

**ENGL 33200 - History of the English Language (W)**

The diversity and spread of English across the globe. The effects of language contact on English.

*prereq: ENGL 22000*
3 hrs
3 cr.
ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33400 - Beowulf and Other Early Texts

This course will introduce students to the Old English language through the study of its literature, and it will be organized around a topic to be determined by a faculty member. Students will learn the fundamentals of Old English grammar and pronunciation so that they can read Old English texts with the aid of a dictionary; hence students will deepen their research and writing skills.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33500 - Chaucer

Pluralism and Diversity
PD/D
GER
3/A

Study of Chaucer, with emphasis on The Canterbury Tales.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33600 - Medieval Literature (1100-1500)

GER
3/A

A survey of selected works from across the medieval period, encompassing a range of authors and literary genres
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33700 - Literary Aspects of Folklore

GER
3/A
Studies of folktales, ballads and legends in their relationship to written literature.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 33900 - Survey of British Literature II: The Eighteenth Century to the Present**

A survey of British Literature from the eighteenth century to the present, encompassing a range of authors and genres, and employing a variety of interpretive strategies.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 34000 - History of Rhetoric**

*GER
3/A*

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 34100 - Rhetorical Criticism**

*GER
3/A*

This course will focus on rhetorical criticism as a genre of academic writing.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 34200 - Topics in Rhetoric**

*GER
3/A*

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.
ENGL 34600 - Discourse Analysis

Discourse analysis has been informed by several academic disciplines, including anthropology, linguistics, philosophy, literary theory, and sociology. Since there are many ways to define and analyze discourse, there exist multiple, and often conflicting, approaches to the study of language use. This course is an introduction to various methods of discourse analysis, which will be explored through critical reading and discussion, and through hands-on application of these methods on actual discourse data.

ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students' own research on individual countries.
ENGL 35000 - Renaissance Drama

Pluralism and Diversity
GER 3/A
A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton
prereq: ENGL 22000

GER
3/A

Opportunities of working in positions of responsibility in professional institutions for academic credit.
prereq: perm coordinator
1-6 hrs
1-6 cr.

ENGL 34300 - Topics in Composition Studies

Focused study of aspects of composition theory and/or practice. Topics vary from semester to semester and may include the history of composition studies, new media and digital studies, and/or writing across the curriculum. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 12000 - Expository Writing
Hunter Core

English Comp (EC)
GER
1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

ENGL 20100 - Intermediate Expository Writing Using Small-Group Methods

Additional practice in expository writing; small classes (8-10).

prereq: ENGL 12000
3 hrs
3 cr.

ENGL 21800 - Advanced Expository Writing

Frequent writing practice, with emphasis on clarity, style and organization.

prereq: ENGL 12000
3 hrs + conf
3 cr.

ENGL 28500 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.

Students must pass this course with a B to major in Creative Writing.
Prerequisite for all 300-level writing courses, except ENGL 30100.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 30100 - Composition Theory and Practice

GER
3/A

Study of the theory and practice of academic composition.

prereq: ENGL 22000
3 hrs
3 cr.
ENGL 30800 - Workshop in Non-Fiction I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.

prereq: ENGL 30000
3 hrs
3 cr.

ENGL 30900 - Workshop in Non-Fiction II

GER
3/A

A continuation of Workshop in Non-Fiction I, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

prereq: ENGL 30000 and 30800
3 hrs
3 cr.

ENGL 31100 - Workshop in Fiction I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of fiction.

prereq: ENGL 30000
3 hrs
3 cr.

GER
3/A

A continuation of ENGL 31100, with increasing emphasis on craft and revision. This course may be repeated once for credit.

prereq: ENGL 30000 and ENGL 31100
3 hrs
3 cr.

ENGL 31400 - Workshop in Poetry I
GER 3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of poetry.

prereq: ENGL 30000
3 hrs
3 cr.

ENGL 31600 - Workshop in Poetry II

GER 3/A

A continuation of ENGL 31400, with increasing emphasis on craft and revision. This course may be repeated once for credit.

prereq: ENGL 30000 and ENGL 31400
3 hrs
3 cr.

ENGL 48455 - Advanced Prose Writing

GER 3/A

400-Level Writing Course

Programs and Courses in Film and Media

Film and Media Studies

Overview

The Hunter College Department of Film and Media Studies offers three degree programs in the production and critical analysis of film and media. One program leads toward a major in Film, combining film history and theory with film production. The other leads toward a major in Media Studies, combining critical media analysis with creative practice using a mix of contemporary media forms (video, animation, digital imaging and graphics, web and interactive production). Students are encouraged to develop a creative voice that is socially aware and engaged and can find expression across a range of contemporary media technologies. Our curriculum is founded on the integration of theory and practice. Leading scholars in history, aesthetics, media policy, critical theory and alternative and international practices provide students with a broad base in analytical thinking. Courses deal with subjects
such as the history and aesthetics of film, video, television and new media; genre studies; the history, production and distribution of print and broadcast news; media representations of race, class and gender; and the intricate relationships among the mass media, popular culture and society. The department's production courses encourage students to work creatively in a variety of existing and emerging media forms. Courses include narrative film production (including screenwriting and directing), documentary production, television production, journalism and emerging media (including web design, animation, physical computing and game programming). The department is distinguished by award-winning faculty who are active in their respective fields.

What can I do with my degree in Film and Media Studies?

Skills honed in the major include research and communication skills, critical thinking, project management, team building skills and the ability to organize time effectively. In addition to careers within the film and media industries, graduates are attractive to the publishing industry, advertising and communications fields and other related industries.

Degree Map for Film
The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Film major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Film - BA

The Department of Film and Media Studies major in Film combines film history and theory with film production. Students are encouraged to develop a creative voice that is socially aware and engaged and can find expression across a range of contemporary technologies. Our curriculum is founded on the integration of theory and practice. Leading scholars in history, aesthetics, critical theory and alternative and international practices provide students with a broad base in analytical thinking. Courses deal with subjects such as the history and aesthetics of film; genre studies; and representations of race, class and gender. The department's production courses encourage students to work creatively in a variety of existing and emerging forms. Courses include narrative film production (including screenwriting and directing), documentary
production, and animation. The department is distinguished by award-winning faculty who are active in their respective fields.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

In the case of the Film major, the course that meets CCCR is:

Course

FILM 10100 Introduction to Cinema

Film Production Track

I. Introductory Courses (6 credits)

**FILM 10100 - Introduction to Cinema**

**Hunter Core**

Creative Expression (CE)

*Pluralism and Diversity*

PD/D

GER

2/D

Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.

3 hrs

3 cr.

**FILMP 16000 - Media & Film in a Digital Age Pt. 2**

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production. *cross-listed* MEDP 16000

*prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)*

4 hrs

3 cr

II. Analytical Course Requirements (12 credits)

A) Film Style and Close Analysis (6 credits)
FILM 20100 - Close Film Analysis

GER
3/A

Close study of a selected motion picture.

*prereq: FILM 10100
4 hrs
3 cr.*

FILM 22400 - Cinematic Space

GER
3/A

Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.

*prereq: FILM 10100, 20100
4 hrs
3 cr.*

B) Film History (6 credits):

One course (3 cr) from the following 200-level courses:

FILM 21100 - Film History I: 1895-1945

Pluralism and Diversity
PD/D
GER
3/A

Survey of film history and theory from the silent era to 1945.

*prereq: FILM 10100
4 hrs
3 cr.*

FILM 21200 - Film History II: Since 1945

Pluralism and Diversity
PD/D
GER
3/A

Survey of film history and theory from 1946 to the present.

*prereq: FILM 10100 or MEDIA 18000
4 hrs
3 cr.*

FILM 21300 - National Cinema
Pluralism and Diversity
PD/D or A
GER
3/A

Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.

*prereq: FILM 10100
4 hrs
3 cr.*

One course (3 cr) from the following 300-level courses:

**FILM 34400 - History of Cinematography**

GER
3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.*

**FILM 39700 - Topics in Film History**

**Pluralism and Diversity**
PD/D
GER
3/A

A focused examination of specific issues and moments in film history. May be taken twice for credit under a different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100 and FILM 21100 or 21200 or 21300
4 hrs
3 cr.*

III. Production Course Requirements (12 credits):

A) Required Production Sequence (9 credits):

**FILMP 25100 - Film Production I**
Introduction to the fundamentals of filmmaking, writing, cinematography and editing.
Material Fee: $20
prereq: MEDP/FLMP 16000; open to majors only or perm instr.
4 hrs
3 cr.

FILPL 27600 - Screen Writing I - The Short (W)

The Short Fundamentals of writing for film; critiques of original student scripts.
prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.
4 hrs
3 cr.

FILMP 35200 - Film Production II

Further development of fundamental filmmaking skills: pre-production, directing, and sync sound production techniques.
Material Fee: $20
prereq: FLMP 25100, FILMP 27600 open to film/media majors only or perm instr.
prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
4 hrs
3 cr.

B) Advanced Production Cluster (3 credits):

FILMP 37100 - Screen Directing I

Theory and practice of the film director's role as guiding force in creation of visual and aural images.
Except as otherwise noted, ENGL 120 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FLMP 251, FILMP 276; open to film/media majors only or perm instr.
4 hrs
3 cr.

FILPL 37700 - Screen Writing II The Feature (W)

Continuation of workshop experience with emphasis on full-length screenplay.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 27600
4 hrs
3 cr.

IV. Elective Course Requirements (6 credits):
From analytical and/or production electives: At least one elective must be a 300 level or above course.

A) Analytical Electives:

**FILM 21400 - Multicultural Perspectives in Cinema**

**Pluralism and Diversity**  
PD/B (214.51 only)  
**GER**  
3/A

Study of the contributions of minority groups to filmmaking, including examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

**FILM 21500 - Women and Film**

**Pluralism and Diversity**  
PD/C  
**GER**  
3/A

Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

**FILM 22200 - Topics in Genre Studies**

**GER**  
3/A

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be repeated for credit with a different topic.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

**FILM 22252 - Topics in Genre Studies: "The Woman's Film" of the 1940s**

**Pluralism and Diversity**  
PD/C  
**GER**
This course focuses on "the woman's film", from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator.

cross-listed WGSA 222.52
prereq: FILM 10100
4 hrs
3 cr.

FILM 23000 - Movies in American Culture

GER
3/A

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

prereq: FILM 10100
4 hrs
3 cr.

FILM 23200 - Experimental Film and Video

Pluralism and Diversity
PD/D
GER
3/A

Historical examination of pertinent films and videos with particular emphasis on current American productions.

prereq: FILM 20100 or MEDP/FILMP 15000 (or MED/FILM 15100).
4 hrs
3 cr.

FILM 29900 - Special Topics in Film

GER
3/A

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester.

prereq: perm dept.
1-3 hrs
1-3 cr.

FILM 32200 - Contemporary Film Theory

Pluralism and Diversity
PD/D
This course will address a range of theoretical writings on the cinema that were primarily produced during the 1970s and after. Except as otherwise noted, ENGL 12000 is prerequisite for all 30000- and 40000-level courses in FILM.

**FILM 32400 - Narrative Strategies**

This course will address a range of theoretical writings on the cinema that were primarily produced during the 1970s and after. Except as otherwise noted, ENGL 12000 is prerequisite for all 30000- and 40000-level courses in FILM.

**FILM 32400 - Narrative Strategies**

GER

3/A

Study of narrative techniques in cinema

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 32600 - America in American Film and Video**

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 22700 - Representations of Race and Ethnicity in U.S. Media**

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
FILM 32800 - Images of Resistance in the Developing World

**Pluralism and Diversity**

**PD/A**

**GER**

**3/A**

Focuses on challenges by developing world films and filmmakers to Western media stereotypes.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100*

4 hrs

3 cr.

FILM 33200 - Myths and Images in the Media

**GER**

**3/A**

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100*

3 hrs

3 cr.

FILM 33400 - Theatricality and the Presentation of Self

**GER**

**3/A**

Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100 and any 200-level FILM course*

4 hrs

3 cr.

FILM 39100 - Problems in Film Research

**GER**

**3/A**

Study of basic methods of solving problems in the field of cinema studies.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-
level courses in FILM.

**FILM 39900 - Studies in Film**

**GER**

3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester.

Exception as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-
level courses in FILM.

**prereq:** variable

3 hrs

3 cr.

**FILM 40100 - Independent Research**

Open to majors only. Directed program of reading, research, or creative presentation, arranged on an individual basis.

Exception as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-
level courses in FILM.

**prereq:** perm chair

1-3 cr.

**FILM 40200 - Honors Project**

Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision.

Exception as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-
level courses in FILM.

**prereq:** 3 advanced-level courses, 3.0 GPA and 3.5 major GPA perm dept.

3 hrs

3 cr.

**FILM 49900 - Advanced Seminar**

Selected topics in cinema studies.

Exception as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-
level courses in FILM.

**prereq:** perm instr.

4 hrs

3 cr.

These courses may be counted for credit in more than one program.

**B) Film Production Electives:**
A second course from the advanced production cluster may be taken as an elective course

**FILMP 37100 - Screen Directing I**

Theory and practice of the film director's role as guiding force in creation of visual and aural images.

Except as otherwise noted, ENGL 120 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 251, FILMP 276; open to film/media majors only or perm instr.*

4 hrs

3 cr.

**FILPL 37700 - Screen Writing II The Feature (W)**

Continuation of workshop experience with emphasis on full-length screenplay.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 27600*

4 hrs

3 cr.

or

**FILMP 28600 - Location Sound**

Basic sound theory and production sound recording techniques, concentrating on microphones, field mixers and recording equipment, boom operation and on-set procedures.

*cross-listed MEDP 28600*

*prereq: FILMP 25100 or MEDP 28100*

3 hrs

3 cr.

**FILMP 34100 - Producing the Film**

Contracts, financing, distribution, copyright law, options, acquisition of rights, securities law requirements.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILMP 25100, FILMP 27600*

3 hrs

3 cr.

**FILMP 37200 - Screen Directing II**

Continuation of FILMP 37100.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 37100 or permission of instructor
4 hrs
3 cr.

FILMP 38100 - Techniques of Cinematography

Advanced cinematographic techniques such as sensitometry, effects lighting and special effects.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 35200 or permission of instructor
4 hrs
3 cr.

FILMP 38200 - Narrative Editing

Narrative editing concepts, theories and techniques. Editing exercises explore the aesthetic and practical components of the craft and introduce advanced digital editing tools.

prereq: FILMP 25100
4 hrs
3 cr.

FILMP 38300 - Sound Design

Aesthetics of sound design with practical instruction in audio post-production technology.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 25100 or MEDIAP 28100 or perm. instr.
3 hrs
3 cr.

FILMP 38400 - Film and Video Production

Production of short films with each student assigned to specific crew positions.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 35200, and permission of instructor.
variable hrs
3 cr.

FILMP 39900 - Special Topics in Advanced Film Practice

Offered periodically with the specific topic listed in the schedule of classes.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: perm instr.
FILMP 45100 - Film and Video Production Seminar

Individual student films produced under faculty supervision. Material Fee: $20 May be taken twice for credit. cross-listed MEDP 45100
prereq: FILMP 35200 and perm instr.
prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
3 hrs
3 cr.

FILMP 49800 - Internship

Opportunity to gain professional experience
40 working per. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100, two other film courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.
*These courses may be counted for credit in more than one program.

Courses Required for the Major (36 credits)

30-36 credits, combined total: up to 6 introductory, 12 credits analytical, 12 credits production and 6 credits electives from analytical and/or production courses. Students must receive a grade of B or better in FILM 10100 to continue a major in film. The major must be declared in person with an undergraduate film adviser (call (212) 772-4949 to schedule). The student must bring their transcript, and, where relevant, transcripts from other colleges attended, when meeting with the undergraduate film adviser to declare a film major. Students majoring in film must also take FILMP 16000/MEDP 16000 which is prerequisite for all film production courses. A maximum of 6 credits in MEDIA courses at the 200 or 300 level may be applied toward the major in film. Students must meet any prerequisites for these courses. Independent study and internship courses do not count toward the major. Students must see a program adviser to plan choice and sequence of courses.

Honors

To qualify for departmental honors in Film or Media Studies, a student must have a 3.5 grade point average in major courses and a 3.0 grade point average overall. The student must also either complete an Honors Project, approved by the Department Policy and Curriculum Committee, with a grade of A; or a 400-level production or analytical seminar course with a grade of A. See the department for more information.

FILM 40200 - Honors Project
Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: 3 advanced-level courses, 3.0 GPA and 3.5 major GPA perm dept.
3 hrs
3 cr.

Analysis and Criticism Track

6 introductory credits:

- FILM 10100 3 credits
- MEDIA 18000 3 credits

18 Required Analytical Credits to be chosen from within the following categories:

(a) Film Style and Close Analysis: 6 credits

- FILM 20100: Close Film Analysis 3 credits

Plus one course from the following:

- FILM 22400: Cinematic Space
- FILM 23100: Studies of Selected Directors (may be repeated for credit under different topic) FILM 32300:
- FILM Technology and Aesthetic Theory (may be repeated for credit under different topic)
- FILM 323.51: Aesthetics of Film Sound
- FILM 32400: Narrative Strategies
- FILM 33300: Styles and Theories of Film Acting FILM 33400: Theatricality and the Presentation of Self

b) History: 6 credits, one 200-level and one 300-level required

- FILM 21100: Film History I
- FILM 21200 Film History II
- FILM 21300: National Cinema (may be repeated for credit under different subject)
- FILM 39700: Topics in Film History (may be repeated for credit under different subject)

c) Genre, Theory and Forms of Representation: 6 credits

- All FILM courses cross-listed as MEDIA will fulfill the media analytical requirement if taken under the MEDIA number.
- FILM 21400: Multicultural Perspectives in Cinema (may be repeated for credit under different subject)
- FILM 21500: Women and Film FILM 22200: Topics in Genre Studies (may be repeated for credit under a different topic)
- FILM 222.52: Topics in Genre Studies: The Woman's Film of the 1940s
- FILM22300/MEDIA 29600: Topics in LGBTQ Film and Media
- FILM 23200: Experimental Film and Video
- FILM23300/MEDIA 23300: Movies in American Culture
- FILM31500/MEDIA 31500: Non-Fiction Film and Video
- FILM 32200: Contemporary Film Theory
• FILM32600/MEDIA 32600: America in American Film and Video
• FILM32800/MEDIA 32800: Images of Resistance in the Developing World
• FILM32700/MEDIA 32700: Representations of Race and Ethnicity in U.S. Media

Special Topics, Honors, and Advanced Studies (optional electives)

• FILM 29900: Special Topics in Film
• FILM 39100: Problems in Film Research
• FILM 39900: Studies in Film
• FILM 40100: Independent Research
• FILM 40200: Honors Project

FILM 49800: Internship
FILM 49900: Advanced Seminar

6 MEDIA CREDITS FROM ANY THREE MEDIA ANALYTICAL COURSES

Students should choose two media analytical courses based on their own particular interests and how they would like such courses to be integrated into their film analytical track. You may also consult with the film advisor on this matter.

6 ELECTIVE CREDITS: At least one elective credit should be a 300 level FILM analytical course.

Major 30

Sub-total 30

Electives 6

Total credits required 36

Degree Map

Degree Map for Film

Media Studies - BA

The Department of Film and Media Studies major in Media Studies combines critical media analysis with creative practice using a mix of contemporary media forms (video, animation, digital imaging and graphics, web and interactive production). Students are encouraged to develop a creative voice that is socially aware and engaged and can find expression across a range of contemporary media technologies. Leading scholars in history, aesthetics, media policy, critical theory and alternative and international practices provide students with a broad base in analytical thinking. Courses deal with subjects such as the history and aesthetics of film, video, television and new media; genre studies; the history, production and distribution of print and broadcast news; media representations of race, class and gender; and the intricate relationships among the mass media, popular culture and society. The department's production courses encourage students to work creatively in a variety of existing and emerging media forms. Courses include narrative film production (including screenwriting and directing), documentary production, television production, journalism and emerging media (including web design,
animation, physical computing and game programming). The department is distinguished by award-winning faculty who are active in their respective fields.

The major is composed of required and elective courses in media analysis and production for a total of 36 credits. The Department offers a General Media Studies Major or students may elect to major in an area of concentration. The concentrations are Media Analysis and Criticism, Documentary and Television Production, Journalism, and Emerging Media. Just as with the General Media Studies Major each concentration is 36 credits, however the curriculum has been tailored to help the student develop greater specialization in the area of concentration.

Hunter Core Requirement

Hunter Core Requirement Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of the Media Studies major, the courses that meet CCCR are:

- Courses CUNY Common Core Requirement
- MEDIA 18000 Introduction to Media Studies

Major (36 cr)

The major must be declared in with an undergraduate media studies adviser. (see department website for adviser schedules http://fm.hunter.cuny.edu/). Students will be able to do a Media Studies BA: General Media Studies Major but may choose one of the concentrations in the major. These concentrations are:

- Media Studies BA: Concentration in Media Analysis and Criticism
- Media Studies BA: Concentration in Documentary and Television Production
- Media Studies BA: Concentration in Journalism
- Media Studies BA: Concentration in Emerging Media

However, these concentrations are optional; as long as they satisfy the General Media Studies Major requirements, students may combine courses from different concentrations. Students majoring in Media Studies must take the following introductory courses. These courses count toward the major.

- MEDIA 18000
- FILMP 15000/MEDP 15000
- FILMP 16000/MEDP 16000

A maximum of 6 credits in FILM or FILMP courses at the 200- or 300-level may be applied toward the major in Media Studies. Students must meet any prerequisites for these courses. Courses in Independent Study, Honors Project,
Double Majors

Students may choose to complete a major in the Department of Film and Media Studies and a second major in another department. A student cannot declare a double major in Film and Media Studies. Because of the intensive nature of the production courses in both Film and Media Studies, it is strongly recommended that all students take no more than two production courses per semester.

Honors

To qualify for departmental honors in Film or Media Studies, a student must have a 3.5 grade point average in major courses and a 3.0 grade point average overall. The student must also either complete an Honors Project FILM 40200 or MEDIA 40200, approved by the Department Policy and Curriculum Committee, with a grade of A; or a 400-level production or analytical seminar course with a grade of A. See the department for more information.

Media Studies BA: Concentration in Documentary and Television Production

This concentration is intended to give students foundational knowledge in the theory and practice of linear non-fiction video and related digital media skills. Students in this concentration will also specialize in one of three advanced areas: Documentary Production, Experimental Media Production or Studio Television Production.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Media Studies major, the course that meets CCCR is:

**MEDIA 21100 - News Literacy in a Digital Age**

**Hunter Core**

English Comp (EC)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an
independent press and the evolution of the press as a watchdog and guardian of
democratic ideals.

prereq: ENGL 12000
3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)
3 cr.

Courses Required for the Major (36 credits)

A. Introductory Courses (9 cr.)

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of
media organizations.
3 hrs
3 cr.

MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and
2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2

Introduces students to the theoretical and practical fundamentals of film and
video production in a lecture/lab format. It is strongly suggested, but not
required, that students take MEDP/FILMP 15000 before taking this class.
cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

FILMP 15000 - Media & Film in a Digital Age I

The first part of a two-semester sequence that introduces students to the
theoretical and practical fundamentals of film, video and digital media
production.
cross-listed MEDP 15000
prereq or coreq: MEDIA 18000, FILM 10100
FILMP 16000 - Media & Film in a Digital Age Pt. 2

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.

cross-listed MEDP 16000

prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)

4 hrs
3 cr

B. Required Production Courses (9 cr.)

MEDP 28100 - Documentary Video Production 1

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.

Material Fee: $20

prereq: MEDP/FILMP 16000

3 hrs
3 cr.

MEDPL 29000 - Developing Non-Fiction Media (W)

This class guides students through the research, writing and production planning essential for creating a non-fiction film, video or podcast.

prereq: MEDIA 18000 and MEDP 16000 or FILMP 16000

3 hrs
3 cr.

MEDP 31100 - Documentary Video Production 2

Exploration of the aesthetics and practice of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.

Material Fee: $20

prereq: MEDP 28100 or FILMP 35200

prereq or coreq: MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

4 hrs
3 cr.

C. Elective Production Courses (9 cr.)

These may be any regular 200- or 300-level MEDP or MEDPL courses. Any regular 200- or 300-level FILMP and FILPL courses course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.
D. Required Analytical Course (3 cr.)

**MEDIA 31500 - Nonfiction Film and Video**

**GER**

3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

*prereq: MEDIA 18000*

4 hrs

3 cr.

E. Elective Analytical Courses (6 cr.)

Two regular analytical courses may be chosen from any analytical offering, however it is strongly recommended that students consider analytical courses in relation to their area of production.

**Degree Map for Media Studies: Documentary Production**

**Media Studies BA: Concentration in Emerging Media**

The Emerging Media concentration gives students foundational knowledge in the theory and practice of digital media as a creative and investigative form of production. Students in this concentration may elect to specialize in various areas of production including Web Production, Interactive Media Production and 3D Imaging Production or may elect a broad curriculum of study from the Emerging Media courses. The curriculum interweaves technical instruction with aesthetic, communicative and cultural production and research to help a student establish a cohesive portfolio in new media.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core...
Requirement can be found here: General Education - Effective Fall 2019. In the case of the Emerging Media Concentration, the course that meets CCCR is:

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.

**Courses Required for the Major (36 credits)**

**A. Introductory Courses (9 cr.)**

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

*cross-listed* FILMP 15000
*prereq or coreq: MEDIA 18000, FILM 10100

4 hrs
3 cr.

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

*cross-listed* FILMP 16000
*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)

4 hrs
3 cr.
FILMP 15000 - Media & Film in a Digital Age I

The first part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video and digital media production.

cross-listed MEDP 15000

prereq or coreq: MEDIA 18000, FILM 10100

3 cr
4 hrs

FILMP 16000 - Media & Film in a Digital Age Pt. 2

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.

cross-listed MEDP 16000

prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)

4 hrs
3 cr

B. Required Production Courses

Select 4 from the list below for 12 credits:

MEDP 23400 - Creative Code

This course explores the expressive potential of computer programming in media production and provides a theoretical framework for interdisciplinary artistic practices that use generative systems in their creation including drawing, poetry, music, and video production.

prereq: MEDP 15000

3 hrs
3 cr.

MEDP 25000 - Digital Design and Usability

This course introduces students to the fundamentals of 2D design and interaction design for digital media. The class approaches the subject from a creative and conceptual perspective. Students choose which digital production tools are most effective to address specific creative design problems.

prereq: MEDP/FILMP 15000

3 hrs.
3 cr.

MEDP 26000 - Introduction to 2D Animation
This hands-on class is an introduction to animation using 2D digital tools. Historical precursors to digital animation including experimental and animated film as well as contemporary animation will be screened. Class time will consist of screenings, in-class demonstration, production and critique.

prereq: MEDIA 18000, MEDP 15000, MEDP 16000
4 hrs.
3 cr.

MEDP 26200 - Motion Graphics

This course provides a practical introduction to the creative possibilities of producing computer-generated motion graphics. Temporal development is the core of many digital arts, which include video, digital animation, music, webcasting and new media performance. This course explores the theory and application of motion graphics that are created, processed, and then represented in time

prereq: MEDP 15000, FILMP16000/MEDP 16000, MEDP 26000
3 hrs.
3 cr.

MEDP 28100 - Documentary Video Production 1

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.
Material Fee: $20
prereq: MEDP/FILMP 16000
3 hrs
3 cr.

MEDP 28500 - Web Production I

An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.

prereq: MEDP/FILMP 15000
3 hrs
3 cr.

• MEDP 31600 Experiemental Production

MEDP 33100 - Web Production II

An exploration of the production of Internet-distributed media, especially animation, sound, and video, using GIF Animation, Flash, and sound tools.

prereq: MEDP 28500
3 hrs
3 cr.

MEDP 34100 - Web Programming
Advanced programming skills for website design. Dynamic content development explored through state of the art programming languages for the creation of interactive websites. Students will create web pages that utilize the most current techniques in web development. The curriculum in this class emphasizes an integrated and creative approach to web programming, including detailed instruction and practice in the technical aspects. It is designed to give students a basic introduction to the tools and techniques used by web programmers.

prereq: MEDP 23400 and MEDP 33100
3 hrs
3 cr.

MEDP 34500 - Web Design Projects

A project-based class designed to give students the experience of solving practical problems in web production and to add to the advanced student's web design portfolio with a comprehensive project. Students will work independently and in teams on a large-scale collaborative project.

prereq: MEDP 33100 or perm instr.
3 hrs
3 cr.

MEDP 34900 - Introduction to Physical Computing

This course is intended to introduce students to programming and off-screen media. Some time will be spent producing screen based visual and interactive art, but most of our semester will be dedicated to hardware hacking and the Arduino. Theoretical readings will be assigned throughout and students are expected to respond thoughtfully in text and media.

prereq: MEDP 16000 and MEDP 23400
3 hrs
3 cr.

MEDP 35500 - Physical Computing: Interactive Installation

A hands-on course focusing on the current state of interactive media in a collaborative environment. Students will create projects integrating video, sound and text exploring design concepts and using sensors for real-time interactivity. Material Fee: $20

prereq: MEDP 15000, MEDP 16000, FILMP 16000, MEDP 23400
3 hrs
3 cr.

MEDP 36000 - 3D Animation and Modeling

This hands-on production course will examine concepts and practices that form the basis of 3D animation for video, graphic novels, filmmaking, and net based
prereq: MEDP 25000, MEDP 26000  
3 hrs.  
3 cr.

**MEDP 36500 - 3D Virtual Environments**

This course is an introduction to skills and creative approaches for the development of computer-generated 3D interactive virtual environments. Students will develop 3D virtual environments using standard 3D game design techniques and technologies. This class approaches the subject from both a technical and creative perspective. It gives students an introduction to the tools and techniques used to design 3D computer games and how those processes may be applied to create artistically focused work.

prereq: MEDP 36000  
3 hrs.  
3 cr.

**MEDP 37000 - Game Programming I**

This course serves as an introduction to game design in the Unity 3D game engine. It will also serve as an introduction to programming in C#. 2D Games will be created using sprites made in Photoshop or another image editor. 3D games will use assets created in Maya, an alternate 3D modeling tool, or basic geometry. The course will cover game design principles with a strong emphasis on learning the cycle of prototyping, playtesting, iterative design and publishing. The end goal will be to create a portfolio-ready final piece. Library research is not expected for this course. This course is focusing on the procedural thinking, aesthetic expression and critical thinking needed for game programming, therefore it will not require extensive written papers.

prereq or coreq: MEDP 15000, FILMP 16000/MEDP 16000, MEDP 23400, MEDP 25000  
3 hrs.  
3 cr.

**MEDP 37100 - Game Programming II**

This class is an introduction to the practical and conceptual aspects of electronic game creation. Students learn a variety of game development tools and approaches while exploring a variety of theoretical, social, and other aspects of modern game culture. We will learn how to program controller input, create graphical output, develop environmental rules and follow debugging best practices. Throughout the course, we will look critically at large budget, experimental games and mobile games, and explore concepts like procedural rhetoric and player agency. The class will use easy-to-learn, industry standard programming environments like p5.js or Processing.

prereq or coreq: MEDP 15000, FILMP/MEDP 16000, MEDP 23400, MEDP 25000, MEDP 37000
MEDP 39900 - Special Topics in Advanced Media Production

Taught periodically, with topic listed in Schedule of Classes.
prereq: MEDIA 18000, others variable
3 hrs
3 cr.

MEDP 36200 - Information Graphics

This is a lab-based design course in which students create, develop and produce information graphics while learning information design principles. The class will introduce thinkers and artists from various fields. We will look at a mix of contemporary and historical methodologies, analyze a variety of visual design approaches and examine critical texts on data visualization. Students will be expected to learn how to use both raster and vector software packages used in graphic production. Assigned projects will incorporate techniques and ideas covered in class.
prereq: This course should be available as an option to count towards Required Production Credit within the Emerging Media concentration.
3 hrs
3 cr.

C. Elective Production Courses (6 cr.)

These may be any regular 200- or 300-level MEDP or MEDPL courses including those from the list of required courses (see B. above.) Any regular 200- or 300-level FILMP or FILPL course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.

D. Elective Analytical Courses (9 cr.)

Three analytical courses may be chosen from any analytical offering; however it is strongly recommended that students consider analytical courses in relation to their area of production.

Degree Map for Media Studies: Emerging Media

Degree Map for Media Studies: Emerging Media

Media Studies BA: Concentration in Journalism
The journalism concentration offers a liberal arts approach to the study and production of multimedia news. Students will learn to gather information through observation, interviews, and research and to communicate it through clear and compelling writing enhanced by photography, video, audio, and interactive features. In addition to a toolkit for newsgathering and story production, students will learn how to be more critical news consumers and their own fact checkers through courses that offer a critical analysis of news and media.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Media Studies major, the course that meets CCCR is:

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**

Individual & Society - Humanities (I&S H)

**GER**

2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs

3 cr.

**MEDIA 21100 - News Literacy in a Digital Age**

**Hunter Core**

English Comp (EC)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

*prereq: ENGL 12000*

3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)

3 cr.

Courses Required for the Major (36 credits)

A. Introductory Courses (12 cr.)
MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

MEDIA 21100 - News Literacy in a Digital Age

Hunter Core
English Comp (EC)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

prereq: ENGL 12000
3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)
3 cr.

*This course may be counted for credit in more than one program.

FILMP 15000 - Media & Film in a Digital Age I
The first part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.

cross-listed MEDP 15000

prereq or coreq: MEDIA 18000, FILM 10100

3 cr

4 hrs

FILMP 16000 - Media & Film in a Digital Age Pt. 2

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.

cross-listed MEDP 16000

prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)

4 hrs

3 cr

B. Required Production Courses (6 cr.)

MEDPL 20100 - Reporting and Writing I (W)

An intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

prereq or coreq: MEDIA 18000

3 hrs

3 cr.

MEDPL 20200 - Reporting and Writing 2(W)

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

prereq: MEDPL 20100

3 hrs

3 cr.

C. Elective Production Courses (12 cr.)

Choose Among the courses below (12 cr.):

MEDPL 23900 - Entertainment Journalism (W)

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.

prereq: MEDPL 20100
**MEDPL 28300 - Visual Storytelling for Journalists**

This course teaches students how to report and produce visual stories, including hard news, features, formal interviews, and live shots.

*prereq: MEDPL 16000 or FILMP 16000, and MEDPL 20200
3 hrs
3 cr.*

**MEDPL 28400 - Radio Reporting and Podcasting**

This course teaches students how to report and write a variety of news stories and podcasts for a live radio newscast.

*prereq: MEDPL 20200
3 hrs
3 cr.*

**MEDPL 29400 - Magazine Writing (W)**

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.

*prereq: MEDPL 20100
3 hrs
3 cr.*

**MEDPL 29500 - Online Journalism (W)**

This class teaches students to research, pitch, report and write web based stories that include some type of data visualization as well as multimedia elements. Students will also learn how to create a video using that includes text and photos to tell a story and use social media to research news stories.

*prereq: MEDPL 20100
3 hrs
3 cr.*

**MEDPL 29600 - Feature Writing (W)**

A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

*prereq: MEDPL 20100
3 hrs
3 cr*

**MEDPL 29700 - Data Journalism: Telling Stories with Numbers**
This course covers the fundamentals of data journalism reporting and visual storytelling using emerging techniques and tools. Students will learn to work with data and basic design to uncover and illustrate news trends and tell interactive data-driven news stories.

\textit{prereq:} MEDPL 20100

\[ 3 \text{ hrs} \]
\[ 3 \text{ cr.} \]

**MEDPL 37200 - Investigative Reporting (W)**

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.

\textit{prereq:} MEDPL 20100

\[ 3 \text{ hrs} \]
\[ 3 \text{ cr.} \]

**MEDPL 37700 - Neighborhood News (W)**

An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.

\textit{prereq:} MEDIA 18000 and MEDPL 20100

\[ 3 \text{ hrs} \]
\[ 3 \text{ cr.} \]

**MEDPL 38700 - Mobile Journalism**

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.

\textit{prereq:} MEDPL 20200

\[ 3 \text{ hrs} \]
\[ 3 \text{ cr.} \]

**MEDPL 38800 - Studio News Production**

This course teaches students how to collectively produce and present a live newscast, \textit{Hunter News Now}, on deadline and how to create news content relevant to a Hunter College audience. Students may take this course twice for credit.

\textit{prereq or coreq:} MEDPL 28300

\[ 3 \text{ hrs} \]
\[ 3 \text{ cr.} \]

- MEDP 39903 Urban Environmental and Health Journalism

**MEDIA 37300 - Journalism as Literature**

\textbf{GER}

\[ 3/A \]
An examination of the relationships between journalism and literature, including literary journalism, the journalistic prose of major imaginative writers, and the stylistic characteristics of hard news reporting.  

**prereq:** MEDIA 18000  
**3 hrs**  
**3 cr.**

### E. Elective Analytical Courses (6 cr.)

Analytical courses may be chosen from any analytical offering; however, it is strongly recommended that students consider analytical courses in relation to their area of production.

#### Media Studies BA: Concentration in Media Analysis and Criticism

Return to Media Studies -BA

The media analysis concentration develops critical thinking in students and offers an in-depth understanding of the field of media studies. It includes the study of Media Representations.

#### Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019. In the case of the Media Studies major, the course that meets CCC is:

**MEDIA 21100 - News Literacy in a Digital Age**

**Hunter Core**  
English Comp (EC)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

**prereq:** ENGL 12000  
**3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)**  
**3 cr.**

#### Courses Required for the Major (36 credits)
A. Introductory Courses (9 cr.)

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)

GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

FILMP 15000 - Media & Film in a Digital Age I

The first part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video and digital media production.
cross-listed MEDP 15000
prereq or coreq: MEDIA 18000, FILM 10100
3 cr
4 hrs

FILMP 16000 - Media & Film in a Digital Age Pt. 2

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.
cross-listed MEDP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)
4 hrs
3 cr

B. Required Analytical Courses (18 cr):

Analytical courses in 2 categories, as outlined below. Some courses are listed in more than 1 place, but each course fulfills a requirement in just 1 category. (Students may not double count a course.)

1. Media Representations (9 credits from the following)

MEDIA 27100 - Television Culture

GER
3/A

Theoretical analysis of the production and reception of televisual texts, with close reading of particular texts.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 29853 - The Horror Film

GER
3/A

A historically informed exploration of the international horror film genre in cultural context. Includes a consideration of filmic conventions, marketing practices, and audience reception. We will explore cultural fears, and how art and industry manage to express and profit from those fears.

prereq: MEDIA 18000 or FILM 10100
3 hrs
3 cr.

MEDIA 31500 - Nonfiction Film and Video

GER
3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000
4 hrs
3 cr.

MEDIA 32600 - America in American Film and Video

GER
3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 22700 - Representations of Race and Ethnicity in U.S. Media

Pluralism and Diversity
PD/B
GER
3/A
A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism; and other forms of American popular culture.

**MEDIA 33200 - Myths and Images in the Media**

**GER**

3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.

*prereq: MEDIA 18000*

3 hrs

3 cr.

**MEDIA 37400 - Media, Sports, and Society**

**GER**

3/A

Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

*prereq: MEDIA 18000*

3 hrs

3 cr.

**MEDIA 28400 - Women and Media**

**Pluralism and Diversity**

**PD/C**

**GER**

3/A

Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.

*cross-listed WGS 38400 (W)*

*prereq: MEDIA 18000*

3 hrs

3 cr.

**MEDIA 39700 - Fandom and Television**

**GER**

3/A
This course explores the historical and cross-cultural development of "cult" television, from cancelled programs whose narratives are kept alive by audience fandom, to the mainstreaming of cult audience behavior for high-rated programs today. This course explores the historical and cross-cultural development of "cult" television, from cancelled programs whose narratives are kept alive by fan audiences, to the mainstreaming of cult audience behavior for high-rated programs today.

**prereq:** MEDIA 27100

3 hrs

3 cr.

**MEDIA 39800 - Complex Television Narratives (W)**

This course examines the historical emergence and characteristics of long-term arc-driven TV serials. Emphasis will be on the narrative strategies and formal features of dramatic serials, with some attention to complex comedies. This course falls under the Media Analysis and Criticism concentration of the Media major.

**prereq:** MEDIA 27100 (Television Culture, previously MEDIA 37100) or MEDIA 37100 or MEDIA 39700 (Cult Television Theory and Audiences) or Permission of instructor

3 hrs

3 cr.

**MEDIA 39900 - Advanced Topics in Media Studies**

**GER**

3/A

Taught periodically, with topic listed in Schedule of Classes.

**prereq:** MEDIA 18000, others variable

3 hrs

3 cr.

(This topics courses under the MEDIA 39900 Advanced Topics in Media Studies umbrella can fulfill the Representations Area: MEDIA 39931 Women and Television.)

**MEDIA 28000 - Radio, Television and Podcasting**

**GER**

3/A

The convergence of media, communications technologies, art, design, and culture. It is intended to familiarize students with important approaches in new media, focusing on the history of the medium and the conceptual history of interactivity in art and communication.

**prereq:** MEDIA 18000

3 hrs

3 cr.

**MEDIA 29600 - Topics in LGBTQ Film and Media**
Pluralism and Diversity
PD/C
An examination of various film and media topics as they relate to lesbian, gay, transgender and queer issues. May be repeated for credit under a different topic.

cross-listed FILM 22300
prereq: FILM 10100 -or- MEDIA 18000
4 hrs
3 cr.

2. Media Industries, and Politics (9 credits from the following)

MEDIA 26000 - Internet and Society
GER
3/A
The Impact of the Internet on American and global society.

prereq: MEDIA 18000 or permission of instr.
3 hrs
3 cr.

MEDIA 36500 - Digital Copyright
GER
3/A
An introduction to the legal, economic and social principles at stake in the debate over copyright and digital technologies. The semester begins with an introduction to the basics of copyright law, the legal system, and legal research. Students then review some of the specifics of the digital copyright debate, including topics such as peer-to-peer trading, digital rights management, and third party liability for information service providers.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 37400 - Media, Sports, and Society
GER
3/A
Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

prereq: MEDIA 18000
3 hrs
3 cr.
MEDIA 38300 - Popular Music and the Music Industry

GER
3/A

Exploration of social and cultural significance of popular music; history, structure, and economics of music industry. Particular emphasis on popular music from fifties to present.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39400 - Media and Law in the Digital Age

GER
3/A

This course focuses on how legislative actions and judicial decisions have affected the dissemination of ideas, information and images in American society via print, electronic transmission and new forms of emerging media. Among the topics considered are libel, privacy rights, government data access, copyright, and freedom of expression in the digital age.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39600 - Global Communication

GER
3/A

This course explores international media— its history and organization and how it shapes the culture and behavior of people around the world. It considers the workings of key international media industries such as global news, film, the TV and music industries, telecommunications and the Internet. The course also addresses the impact of American media around the world and competing media industries in other countries.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 21100 - News Literacy in a Digital Age

Hunter Core
English Comp (EC)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an
independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

prereq: ENGL 12000
3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)
3 cr.

MEDIA 38100 - Propaganda and the Mass Media

GER
3/A

Study of mass media (broadcast, film, print) as forms for propaganda.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 28000 - Radio, Television and Podcasting

GER
3/A

The convergence of media, communications technologies, art, design, and culture. It is intended to familiarize students with important approaches in new media, focusing on the history of the medium and the conceptual history of interactivity in art and communication.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 27500 - Media and Politics

GER
3/A

The impact of the electronic media on American politics.

prereq: MEDIA 18000
3 hrs
3 cr.

Degree Map for Media Analysis and Criticism

Degree Map for Media Studies: Media, Analysis & Criticism

Media Studies BA: General Media Studies Major

Return to Media Studies -BA
Hunter Core Requirement

Hunter Core Requirement Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of the Media Studies major, the courses that meet CCCR are:

- Courses CUNY Common Core Requirement
- MEDIA 18000 Individual & Society

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.

Courses Required for the Major (36 credits)

A. Required Introductory Courses (9 cr.)

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs
3 cr.

MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq or coreq: MEDIA 18000, FILM 10100
FILMP 16000 - Media & Film in a Digital Age Pt. 2

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.

cross-listed MEDP 16000

prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)

4 hrs
3 cr.

B. Required Analytical Courses (9 cr.)

Students must take at least 9 credits of analytical courses. Any 200- and 300-level MEDIA courses may be used to meet this requirement. Any 200- or 300-level FILM course counts toward this requirement as well, though students may only count up to 6 credits total of FILM or FILMP or FILPL classes toward the major. MEDP, MEDPL, FILMP and FILPL courses do not count toward the analytical requirement.

C. Elective Analytical or Production Courses (18 cr.)

Students must take an additional 18 credits of analytical and/or production courses. These may be any 200- or 300-level MEDIA or MEDP or MEDPL courses. Any 200- or 300-level FILM or FILMP or FILPL course counts toward this requirement as well, though students may only count up to 6 credits total of FILM, FILMP or FILPL classes toward the major.

Degree Map for General Media Studies BA

Degree Map for Media Studies BA: General Media Studies Major

Minor in Film

Requirements for the Minor in Film

A. Required Introductory Course (3 cr.)

FILM 10100 - Introduction to Cinema

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.

3 hrs
3 cr.

*This course may be counted for credit in more than one program.

B. Other Requirements (15 cr)

Three 200-level courses from the following (9 cr)

**FILM 20100 - Close Film Analysis**

**GER**
3/A

Close study of a selected motion picture.

*prereq: FILM 10100*

4 hrs
3 cr.

**FILM 21100 - Film History I: 1895-1945**

**Pluralism and Diversity**
PD/D
**GER**
3/A

Survey of film history and theory from the silent era to 1945.

*prereq: FILM 10100*

4 hrs
3 cr.

**FILM 21200 - Film History II: Since 1945**

**Pluralism and Diversity**
PD/D
**GER**
3/A

Survey of film history and theory from 1946 to the present.

*prereq: FILM 10100 or MEDIA 18000*

4 hrs
3 cr.

**FILM 22400 - Cinematic Space**

**GER**
3/A
Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.

prereq: FILM 10100, 20100
4 hrs
3 cr.

FILM 23100 - Studies of Selected Directors

Pluralism and Diversity
GER 3/A
Study of aesthetic and cultural implications of authorship as developed and practiced in cinema. May be repeated for credit with a different topic.

prereq: FILM 10100, 20100
4 hrs
3 cr.

FILM 21300 - National Cinema

Pluralism and Diversity
PD/D or A
GER 3/A

Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.

prereq: FILM 10100
4 hrs
3 cr.

FILM 23000 - Movies in American Culture

GER 3/A

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

prereq: FILM 10100
4 hrs
3 cr.

FILM 21400 - Multicultural Perspectives in Cinema

Pluralism and Diversity
PD/B (214.51 only)
GER 3/A

Study of the contributions of minority groups to filmmaking, including
examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.

**FILM 21500 - Women and Film**

Pluralism and Diversity  
PD/C  
GER  
3/A

Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.

**FILM 22200 - Topics in Genre Studies**

GER  
3/A

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be repeated for credit with a different topic.

**FILM 22252 - Topics in Genre Studies: "The Woman's Film" of the 1940s**

Pluralism and Diversity  
PD/C  
GER  
3/A

This course focuses on "the woman's film", from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator.

cross-listed WGS 222.52

**FILM 23200 - Experimental Film and Video**
Pluralism and Diversity
PD/D
GER
3/A

Historical examination of pertinent films and videos with particular emphasis on current American productions.
prereq: FILM 20100 or MEDP/FILMP 15000 (or MED/FILM 15100).
4 hrs
3 cr.

FILM 29900 - Special Topics in Film
GER
3/A

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester.
prereq: perm dept.
1-3 hrs
1-3 cr.

FILPL 27600 - Screen Writing I - The Short (W)
The Short Fundamentals of writing for film; critiques of original student scripts.
prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.
4 hrs
3 cr.

Two 300 level courses from the following (6 cr)

FILM 32200 - Contemporary Film Theory
Pluralism and Diversity
PD/D
GER
3/A

This course will address a range of theoretical writings on the cinema that were primarily produced during the 1970s and after. Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.
prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.

FILM 32300 - Film Technology and Aesthetic Theory
GER
3/A
Study of the relationship between film technology and film theory. May be repeated for credit with a different topic. Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and 20100
4 hrs
3 cr.

**FILM 32351 - Aesthetics of Film Sound**

GER
3/A

Examination of the history, theory and aesthetics of the relationship between film sound and image. Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100, 20100
4 hrs
3 cr.

**FILM 32400 - Narrative Strategies**

GER
3/A

Study of narrative techniques in cinema
Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and 20100 or 23100
4 hrs
3 cr.

**FILM 32600 - America in American Film and Video**

GER
3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points. Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 21100 or 21200
3 hrs
3 cr.

**FILM 22700 - Representations of Race and Ethnicity in U.S. Media**
Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

Prereq: FILM 10100

4 hrs
3 cr.

FILM 32800 - Images of Resistance in the Developing World

Pluralism and Diversity
PD/A
GER
3/A

Focuses on challenges by developing world films and filmmakers to Western media stereotypes. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

Prereq: FILM 10100

4 hrs
3 cr.

FILM 33200 - Myths and Images in the Media

GER
3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

Prereq: FILM 10100

3 hrs
3 cr.

FILM 33400 - Theatricality and the Presentation of Self

GER
3/A

Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILM 10100 and any 200-level FILM course

4 hrs
3 cr.

**FILM 34400 - History of Cinematography**

**GER**
3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILM 10100 and FILM 20100

4 hrs
3 cr.

**FILM 39100 - Problems in Film Research**

**GER**
3/A

Study of basic methods of solving problems in the field of cinema studies.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILM 10100, 20100, 21100 or 21200

3 hrs
3 cr.

**FILM 39900 - Studies in Film**

**GER**
3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** variable

3 hrs
3 cr.

**FILPL 37700 - Screen Writing II The Feature (W)**

Continuation of workshop experience with emphasis on full-length screenplay.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**prereq:** FILMP 27600
Minor in Journalism

Training future journalists to report the news accurately and ethically is essential to the future of the news industry. While a major or minor in journalism is not a prerequisite to work in the news industry, many news organizations do prefer to hire students that have this credential because these employers are familiar with journalism curricula. This minor offers students the opportunity to pursue an 18-credit minor in Journalism, affording them a potentially beneficial credential when seeking internships, fellowships, or jobs with news organizations. Media Studies majors may earn the Journalism minor and in that event, will be able to count MEDIA 18000 for both the major and the minor.

Courses Required for the Minor (18 credits)

Required courses - 12 credits

MEDIA 18000 - Introduction to Media Studies

**Hunter Core**

Individual & Society - Humanities (I&S H)

GER

2/C

Social, political, and economic factors that determine and shape products of media organizations.

3 hrs

3 cr.

MEDIA 21100 - News Literacy in a Digital Age

**Hunter Core**

English Comp (EC)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

*prereq: ENGL 12000

3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)

3 cr.

MEDPL 20100 - Reporting and Writing I (W)
An intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.

*prereq or coreq: MEDIA 18000*

3 hrs
3 cr.

**MEDPL 20200 - Reporting and Writing 2(W)**

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**Electives - 6 credits**

**MEDPL 23900 - Entertainment Journalism (W)**

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.

*prereq: MEDPL 20100*

3 hrs
3 cr.

**MEDPL 28300 - Visual Storytelling for Journalists**

This course teaches students how to report and produce visual stories, including hard news, features, formal interviews, and live shots.

*prereq: MEDPL 16000 or FILMP 16000, and MEDPL 20200*

3 hrs
3 cr.

**MEDPL 28400 - Radio Reporting and Podcasting**

This course teaches students how to report and write a variety of news stories and podcasts for a live radio newscast.

*prereq: MEDPL 20200*

3 hrs
3 cr.

**MEDPL 29400 - Magazine Writing (W)**

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.

*prereq: MEDPL 20100*
MEDPL 29500 - Online Journalism (W)

This class teaches students to research, pitch, report and write web based stories that include some type of data visualization as well as multimedia elements. Students will also learn how to create a video using that includes text and photos to tell a story and use social media to research news stories.

**prereq:** MEDPL 20100

3 hrs

3 cr.

MEDPL 29600 - Feature Writing (W)

A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

**prereq:** MEDPL 20100

3 hrs

3 cr

MEDPL 29700 - Data Journalism: Telling Stories with Numbers

This course covers the fundamentals of data journalism reporting and visual storytelling using emerging techniques and tools. Students will learn to work with data and basic design to uncover and illustrate news trends and tell interactive data-driven news stories.

**prereq:** MEDPL 20100

3 hrs

3 cr.

MEDIA 38600 - Media Ethics

**GER**

3/A

This course will acquaint students with important ethical principles and professional norms in the news industry and other mass media. Students will be introduced to theories that inform ethical practice, explore important journalistic and mass and social media ethical failures and emerging areas of ethical challenges.

**prereq:** MEDIA 18000

3 hrs

3 cr.

MEDIA 49800 - Internship

Opportunity to gain professional experience.

**prereq:** MEDIA 18000 and 2 other MEDIA or MEDP courses or equiv; perm
MEDPL 37200 - Investigative Reporting (W)

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.
*prereq: MEDPL 20100*
3 hrs
3 cr.

MEDPL 37700 - Neighborhood News (W)

An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.
*prereq: MEDIA 18000 and MEDPL 20100*
3 hrs
3 cr.

MEDPL 38700 - Mobile Journalism

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.
*prereq: MEDPL 20200*
3 hrs
3 cr.

MEDPL 38800 - Studio News Production

This course teaches students how to collectively produce and present a live newscast, *Hunter News Now*, on deadline and how to create news content relevant to a Hunter College audience. Students may take this course twice for credit.

*prereq or coreq: MEDPL 28300*
3 hrs
3 cr.

Minor in Media Studies

The Minor in Media Studies consists of five courses for a total of 15 credits. At least one 200-level course and at least one 300-level course are required. The other three courses can be at any level. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor.

FILM 10100 - Introduction to Cinema
Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

Fundamental concepts of film and discussion of major critical systems.
Screening of relevant films.
3 hrs
3 cr.

FILMP 15000 - Media & Film in a Digital Age I

The first part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video and digital media production.
cross-listed MEDP 15000
prereq or coreq: MEDIA 18000, FILM 10100
3 cr
4 hrs

FILMP 16000 - Media & Film in a Digital Age Pt. 2

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.
cross-listed MEDP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission of the instructor)
4 hrs
3 cr

FILM 20100 - Close Film Analysis

GER
3/A

Close study of a selected motion picture.

prereq: FILM 10100
4 hrs
3 cr.

FILM 21100 - Film History I: 1895-1945

Pluralism and Diversity
PD/D
GER
3/A

Survey of film history and theory from the silent era to 1945.
prereq: FILM 10100
FILM 21200 - Film History II: Since 1945

Pluralism and Diversity
PD/D or A
GER
3/A

Survey of film history and theory from 1946 to the present.
prereq: FILM 10100 or MEDIA 18000
4 hrs
3 cr.

FILM 21300 - National Cinema

Pluralism and Diversity
PD/D or A
GER
3/A

Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.
prereq: FILM 10100
4 hrs
3 cr.

FILM 21305 - National Cinema: Italian Cinema

Pluralism and Diversity
PD/D
GER
3/A

prereq: FILM 10100
4 hrs
3 cr.

FILM 21344 - Israeli Cinema

Pluralism and Diversity
PD/A
GER
3/A

Israeli cinema and the development of Israeli cultural identity. Designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema.
cross-listed HEBR 22000
prereq: FILM 10100
FILM 21351 - National Cinema: French New Wave

Pluralism and Diversity
PD/D
GER
3/A

prereq: FILM 10100
4 hrs
3 cr.

FILM 21355 - National Cinema: Asian Cinema

Pluralism and Diversity
PD/A
GER
3/A

prereq: FILM 10100
4 hrs
3 cr.

FILM 21400 - Multicultural Perspectives in Cinema

Pluralism and Diversity
PD/B (214.51 only)
GER
3/A

Study of the contributions of minority groups to filmmaking, including examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.

prereq: FILM 10100
4 hrs
3 cr.

FILM 21500 - Women and Film

Pluralism and Diversity
PD/C
GER
3/A

Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.

prereq: FILM 10100
4 hrs
3 cr.
**FILM 22200 - Topics in Genre Studies**

**GER**

3/A

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be repeated for credit with a different topic.

*prereq: FILM 10100*

4 hrs

3 cr.

**FILM 22252 - Topics in Genre Studies: "The Woman's Film" of the 1940s**

**Pluralism and Diversity**

PD/C

**GER**

3/A

This course focuses on "the woman's film", from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator.

*cross-listed WGS&A 222.52*

*prereq: FILM 10100*

4 hrs

3 cr.

**FILM 22300 - Topics in LGBTQ Film and Media**

**Pluralism and Diversity**

PD/C

An examination of various film and media topics as they relate to lesbian, gay, transgender and queer issues. May be repeated for credit under a different topic.

*cross-listed MEDIA 29600*

*prereq: FILM 10100 -or- MEDIA 18000*

4 hrs

3 cr.

**FILM 22400 - Cinematic Space**

**GER**

3/A

Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.

*prereq: FILM 10100, 20100*

4 hrs

3 cr.
FILM 23000 - Movies in American Culture

GER 3/A

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

prereq: FILM 10100
4 hrs
3 cr.

FILM 23100 - Studies of Selected Directors

Pluralism and Diversity
GER 3/A

Study of aesthetic and cultural implications of authorship as developed and practiced in cinema. May be repeated for credit with a different topic.

prereq: FILM 10100, 20100
4 hrs
3 cr.

FILM 23200 - Experimental Film and Video

Pluralism and Diversity
PD/D
GER 3/A

Historical examination of pertinent films and videos with particular emphasis on current American productions.

prereq: FILM 20100 or MEDP/FILMP 15000 (or MED/FILM 15100).
4 hrs
3 cr.

FILMP 25100 - Film Production I

Introduction to the fundamentals of filmmaking, writing, cinematography and editing.
Material Fee: $20
prereq: MEDP/FLMP 16000; open to majors only or perm instr.
4 hrs
3 cr.

FILMP 28600 - Location Sound

Basic sound theory and production sound recording techniques, concentrating on microphones, field mixers and recording equipment, boom operation and on-set procedures.
cross-listed MEDP 28600
prereq: FILMP 25100 or MEDP 28100
3 hrs
3 cr.

FILPL 27600 - Screen Writing I - The Short (W)

The Short Fundamentals of writing for film; critiques of original student scripts.
prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.
4 hrs
3 cr.

Media 23000 - Movies in American Culture

GER
3/A

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

prereq or coreq: FILM 10100, 21100 or FILM 21200
3 hrs
3 cr.

FILM 22700 - Representations of Race and Ethnicity in U.S. Media

Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100
4 hrs
3 cr.

FILM 31500 - Nonfiction Film and Video

GER
3/A

Study of the history and theory of the nonfiction film and video, with
screenings of examples of documentary, propaganda, and direct cinema and video.
Except as otherwise noted, ENGL 12000 is pre-requisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

FILM 32200 - Contemporary Film Theory

Pluralism and Diversity
PD/D
GER
3/A

This course will address a range of theoretical writings on the cinema that were primarily produced during the 1970s and after.
Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.

FILM 32300 - Film Technology and Aesthetic Theory

GER
3/A

Study of the relationship between film technology and film theory. May be repeated for credit with a different topic.
Except as otherwise noted, ENGL 12000 is pre requisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and 20100
4 hrs
3 cr.

FILM 32351 - Aesthetics of Film Sound

GER
3/A

Examination of the history, theory and aesthetics of the relationship between film sound and image.
Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM.

prereq: FILM 10100, 20100
4 hrs
3 cr.

FILM 32400 - Narrative Strategies
GER
3/A

Study of narrative techniques in cinema
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100 and 20100 or 23100
4 hrs
3 cr.

FILM 32600 - America in American Film and Video

GER
3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100, 21100 or 21200
3 hrs
3 cr.

FILM 32800 - Images of Resistance in the Developing World

Pluralism and Diversity
PD/A
GER
3/A

Focuses on challenges by developing world films and filmmakers to Western media stereotypes.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100
4 hrs
3 cr.

FILM 33200 - Myths and Images in the Media

GER
3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100
3 hrs
3 cr.
FILM 33300 - Styles and Theories of Film Acting

GER
3/A

Study of film acting with regard to theoretical structures and aesthetic practice. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 20100
4 hrs
3 cr.

FILM 33400 - Theatricality and the Presentation of Self

GER
3/A

Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and any 200-level FILM course
4 hrs
3 cr.

FILM 34400 - History of Cinematography

GER
3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and FILM 20100
4 hrs
3 cr.

FILM 39100 - Problems in Film Research

GER
3/A

Study of basic methods of solving problems in the field of cinema studies. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 20100, 21100 or 21200
3 hrs
3 cr.
FILM 39700 - Topics in Film History

Pluralism and Diversity
PD/D
GER
3/A

A focused examination of specific issues and moments in film history. May be taken twice for credit under a different topic.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and FILM 21100 or 21200 or 21300
4 hrs
3 cr.

FILMP 31100 - Directing Documentary Video Production

Exploration of the aesthetics of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: MEDP 28100; open to film/media majors only or perm instr.
4 hrs
3 cr.

FILMP 34100 - Producing the Film

Contracts, financing, distribution, copyright law, options, acquisition of rights, securities law requirements.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILMP 25100, FILMP 27600
3 hrs
3 cr.

FILMP 35200 - Film Production II

Further development of fundamental filmmaking skills: pre-production, directing, and syncsound production techniques.
Material Fee: $20

prereq: FILMP 25100, FILMP 27600 open to film/media majors only or perm instr.
prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
4 hrs
3 cr.

FILMP 37100 - Screen Directing I
Theory and practice of the film director's role as guiding force in creation of visual and aural images. 
Except as otherwise noted, ENGL 120 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FLMP 251, FILMP 276; open to film/media majors only or perm instr.
4 hrs
3 cr.

**FILMP 37200 - Screen Directing II**

Continuation of FILMP 37100.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 37100 or permission of instructor
4 hrs
3 cr.

**FILMP 38100 - Techniques of Cinematography**

Advanced cinematographic techniques such as sensitometry, effects lighting and special effects.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 35200 or permission of instructor
4 hrs
3 cr.

**FILMP 38200 - Narrative Editing**

Narrative editing concepts, theories and techniques. Editing exercises explore the aesthetic and practical components of the craft and introduce advanced digital editing tools.

prereq: FILMP 25100
4 hrs
3 cr.

**FILMP 38300 - Sound Design**

Aesthetics of sound design with practical instruction in audio post-production technology.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 25100 or MEDIAP 28100 or perm. instr.
3 hrs
3 cr.

**FILMP 38400 - Film and Video Production**

Production of short films with each student assigned to specific crew positions.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-
level courses in FILM.

prereq: FILMP 35200, and permission of instructor.
variable hrs
3 cr.

FILPL 31600 - Experimental Production

Experimental methods of film and video production, emphasizing innovative and non-traditional formal and conceptual practice.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILMP 25100 or MEDIAP 28100 or perm. instr.
3 hrs
3 cr.

FILPL 37700 - Screen Writing II The Feature (W)

Continuation of workshop experience with emphasis on full-length screenplay.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILMP 27600
4 hrs
3 cr.

MEDIA 36300 - Concepts in Gaming

This analytical seminar examines gaming through the study of the history of games, the role of narrative and language in games, game structures, interaction paradigms, rule-creation, and theories of play. It familiarizes students with important approaches to games and play developed by both the art world and popular culture during the 19th and 20th centuries. Students will be encouraged to play with these approaches in their written assignments. Each week we read, discuss, and study games to explore possibilities of gaming elements within media arts, artistic practice, and performance. A game is itself a language, and it is this language we seek to understand. This course explores all kinds of games, from artists’ games to common children's games. Students examine historical and contemporary artist's projects, including dance, installation, computer games, and performance, as well as look at the game as a tool for abstraction, storytelling, and activism.

prereq: Media 18000, one other Media analytical course, or instructor permission. MEDIA 28000 recommended.
3 hrs.
3 cr.

MEDP 36200 - Information Graphics

This is a lab-based design course in which students create, develop and produce information graphics while learning information design principles. The class will introduce thinkers and artists from various fields. We will look at a mix of contemporary and historical methodologies, analyze a variety of visual design approaches and examine critical texts on data visualization. Students will be expected to learn how to use both raster and vector software packages used in
graphic production. Assigned projects will incorporate techniques and ideas covered in class.

**prereq:** This course should be available as an option to count towards Required Production Credit within the Emerging Media concentration.

3 hrs.

3 cr.

**MEDP 37000 - Game Programming I**

This course serves as an introduction to game design in the Unity 3D game engine. It will also serve as an introduction to programming in C#. 2D Games will be created using sprites made in Photoshop or another image editor. 3D games will use assets created in Maya, an alternate 3D modeling tool, or basic geometry. The course will cover game design principles with a strong emphasis on learning the cycle of prototyping, playtesting, iterative design and publishing. The end goal will be to create a portfolio-ready final piece. Library research is not expected for this course. This course is focusing on the procedural thinking, aesthetic expression and critical thinking needed for game programming, therefore it will not require extensive written papers.

**prereq or coreq:** MEDP 15000, FILMP 16000/MEDP 16000, MEDP 23400, MEDP 25000

3 hrs.

3 cr.

**MEDP 37100 - Game Programming II**

This class is an introduction to the practical and conceptual aspects of electronic game creation. Students learn a variety of game development tools and approaches while exploring a variety of theoretical, social, and other aspects of modern game culture. We will learn how to program controller input, create graphical output, develop environmental rules and follow debugging best practices. Throughout the course, we will look critically at large budget, experimental games and mobile games, and explore concepts like procedural rhetoric and player agency. The class will use easy-to-learn, industry standard programming environments like p5.js or Processing.

**prereq or coreq:** MEDP 15000, FILMP/MEDP 16000, MEDP 23400, MEDP 25000, MEDP 37000

3 hrs.

3 cr.

**FILM 29900 - Special Topics in Film**

**GER**

3/A

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester.

**prereq:** perm dept.

1-3 hrs

1-3 cr.
FILM 39900 - Studies in Film

GER
3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: variable
3 hrs
3 cr.

FILM 40100 - Independent Research

Open to majors only. Directed program of reading, research, or creative presentation, arranged on an individual basis.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: perm chair
1-3 cr.

FILM 40200 - Honors Project

Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: 3 advanced-level courses, 3.0 GPA and 3.5 major GPA perm dept.
3 hrs
3 cr.

FILM 49800 - Internship

Opportunity to gain professional experience.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100, two other FILM courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.

FILM 49900 - Advanced Seminar

Selected topics in cinema studies.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: perm instr.
4 hrs
3 cr.
FILMP 39900 - Special Topics in Advanced Film Practice

Offered periodically with the specific topic listed in the schedule of classes. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: perm instr.
4 hrs
3 cr.

FILMP 45100 - Film and Video Production Seminar

Individual student films produced under faculty supervision. Material Fee: $20 May be taken twice for credit. cross-listed MEDP 45100

prereq: FILMP 35200 and perm instr.
prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
3 hrs
3 cr.

FILMP 49800 - Internship

Opportunity to gain professional experience
40 working per. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, two other film courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.

MEDP 29900 - Special Topics in Media Production

Taught periodically, with topic listed in Schedule of Classes.

prereq: MEDIA 180, others variable
3 hrs
3 cr.

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society - Humanities (I&S H)
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

MEDIA 21100 - News Literacy in a Digital Age
Hunter Core
English Comp (EC)
In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of online, TV, radio, and social media stories and build on their academic writing and documentation skills. We will also study the First Amendment, the underpinnings of an independent press and the evolution of the press as a watchdog and guardian of democratic ideals.

prereq: ENGL 12000
3 hrs (3 hour lecture or 1.5 hour lecture and 1.5 hour discussion)
3 cr.

MEDIA 22700 - Representations of Race and Ethnicity in U.S. Media

Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism; and other forms of American popular culture.

prereq: MEDIA 18000
4 hrs
3 cr.

MEDIA 26000 - Internet and Society

GER
3/A

The Impact of the Internet on American and global society.

prereq: MEDIA 18000 or permission of instr.
3 hrs
3 cr.

MEDIA 27100 - Television Culture

GER
3/A

Theoretical analysis of the production and reception of televisual texts, with close reading of particular texts.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 27500 - Media and Politics
The impact of the electronic media on American politics.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 28000 - Radio, Television and Podcasting

The convergence of media, communications technologies, art, design, and culture. It is intended to familiarize students with important approaches in new media, focusing on the history of the medium and the conceptual history of interactivity in art and communication.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 28400 - Women and Media

Pluralism and Diversity
PD/C
GER
3/A

Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.

cross-listed WGSA 38400 (W)
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 29600 - Topics in LGBTQ Film and Media

Pluralism and Diversity
PD/C

An examination of various film and media topics as they relate to lesbian, gay, transgender and queer issues. May be repeated for credit under a different topic.

cross-listed FILM 22300
prereq: FILM 10100 -or- MEDIA 18000
4 hrs
3 cr.

MEDIA 29800 - Special Topics in Media Studies
A course on film and media studies taught periodically, with topic listed in Schedule of Classes. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

**MEDIA 29853 - The Horror Film**

A historically informed exploration of the international horror film genre in cultural context. Includes a consideration of filmic conventions, marketing practices, and audience reception. We will explore cultural fears, and how art and industry manage to express and profit from those fears.

*prereq: MEDIA 18000 or FILM 10100*

4 hrs

3 cr.

**MEDIA 29900 - Special Topics in Media Studies**

Taught periodically, with topic listed in Schedule of Classes.

*prereq: MEDIA 18000, others variable*

3 hrs

3 cr.

**MEDIA 31300 - The Culture of Publicity**

An in-depth historical understanding of public relations, social image-management, and opinion engineering in the U.S. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

*prereq: MEDIA 18000*

3 hrs

3 cr.

**MEDIA 31400 - Public Relations: Theory and Practice (W)**
An examination of principal techniques and strategies in public relations, including critical analysis of its social uses. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

**MEDIA 31500 - Nonfiction Film and Video**

GER
3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

**MEDIA 32600 - America in American Film and Video**

GER
3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.

**MEDIA 32800 - Images of Resistance in the Developing World**

Pluralism and Diversity
PD/A

GER
3/A

Challenges by developing-world films and filmmakers to Western media stereotypes.

**MEDIA 33200 - Myths and Images in the Media**
GER 3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.

*prereq: MEDIA 18000*

3 hrs

3 cr.

MEDIA 33300 - Typecasting

GER 3/A

A history of the relationship between stereotyping as a social, cultural and psychological language and the rise of modern society. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

*prereq: MEDIA 180 and either MEDIA 327 or MEDIA 384 or perm instr.*

3 hrs

3 cr.

MEDIA 36500 - Digital Copyright

GER 3/A

An introduction to the legal, economic and social principles at stake in the debate over copyright and digital technologies. The semester begins with an introduction to the basics of copyright law, the legal system, and legal research. Students then review some of the specifics of the digital copyright debate, including topics such as peer-to-peer trading, digital rights management, and third party liability for information service providers.

*prereq: MEDIA 18000*

3 hrs

3 cr.

MEDIA 37000 - The Press and the Public

GER 3/A

Analysis and discussion of relationship of the press to great issues of our time.

*prereq: MEDIA 18000*

3 hrs

3 cr.

MEDIA 37300 - Journalism as Literature

GER 3/A
An examination of the relationships between journalism and literature, including literary journalism, the journalistic prose of major imaginative writers, and the stylistic characteristics of hard news reporting.

\textit{prereq: MEDIA 18000}

\textit{3 hrs}

\textit{3 cr.}

**MEDIA 37400 - Media, Sports, and Society**

\textbf{GER}

\textit{3/A}

Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

\textit{prereq: MEDIA 18000}

\textit{3 hrs}

\textit{3 cr.}

**MEDIA 37800 - Television Genres**

This course provides an overview of the array of genres that have defined and organized the television landscape across its history, considers how genre theory applies to the television industry, and examines genre-specific approaches to issues of representation.

\textit{prereq: MEDIA 27100 -or- 37100}

\textit{3 hrs}

\textit{3 cr.}

**MEDIA 38000 - History of Broadcasting**

\textbf{GER}

\textit{3/A}

Broadcasting’s roots in industrialization and influence on modern society.

\textit{prereq: MEDIA 18000}

\textit{3 hrs}

\textit{3 cr.}

**MEDIA 38100 - Propaganda and the Mass Media**

\textbf{GER}

\textit{3/A}

Study of mass media (broadcast, film, print) as forms for propaganda.

\textit{prereq: MEDIA 18000}

\textit{3 hrs}

\textit{3 cr.}
MEDIA 38300 - Popular Music and the Music Industry

GER
3/A

Exploration of social and cultural significance of popular music; history, structure, and economics of music industry. Particular emphasis on popular music from fifties to present.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38600 - Media Ethics

GER
3/A

This course will acquaint students with important ethical principles and professional norms in the news industry and other mass media. Students will be introduced to theories that inform ethical practice, explore important journalistic and mass and social media ethical failures and emerging areas of ethical challenges.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39000 - Broadcast Journalism

GER
3/A

Broadcast Journalism is a focused study of how journalism has evolved from radio, television, cable television, and the Internet; how it is distributed on social media; the growing popularity of podcasts; and how news distribution on various platforms relates to the social, economic, and political context of American culture and society.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39100 - History of Print Journalism

GER
3/A

Development of newspapers and magazines as social force.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39400 - Media and Law in the Digital Age
GER
3/A

This course focuses on how legislative actions and judicial decisions have affected the dissemination of ideas, information and images in American society via print, electronic transmission and new forms of emerging media. Among the topics considered are libel, privacy rights, government data access, copyright, and freedom of expression in the digital age.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39500 - Mass Media in Developing Countries

Pluralism and Diversity
PD/A
GER
3/A

Exploration of impact of transnational corporations on developing countries and issues of cultural domination.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39600 - Global Communication

GER
3/A

This course explores international media—its history and organization and how it shapes the culture and behavior of people around the world. It considers the workings of key international media industries such as global news, film, the TV and music industries, telecommunications and the Internet. The course also addresses the impact of American media around the world and competing media industries in other countries.
MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.
prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 39700 - Fandom and Television

GER
3/A

This course explores the historical and cross-cultural development of “cult” television, from cancelled programs whose narratives are kept alive by audience fandom, to the mainstreaming of cult audience behavior for high-rated programs today. This course explores the historical and cross-cultural development of "cult" television, from cancelled programs whose narratives are
kept alive by fan audiences, to the mainstreaming of cult audience behavior for high-rated programs today.  

*prereq:* MEDIA 27100  
3 hrs  
3 cr.

**MEDIA 39800 - Complex Television Narratives (W)**

This course examines the historical emergence and characteristics of long-term arc-driven TV serials. Emphasis will be on the narrative strategies and formal features of dramatic serials, with some attention to complex comedies. This course falls under the Media Analysis and Criticism concentration of the Media major.  

*prereq: MEDIA 27100 (Television Culture, previously MEDIA 37100) or MEDIA 37100 or MEDIA 39700 (Cult Television Theory and Audiences) or Permission of instructor*  
3 hrs  
3 cr.

**MEDIA 39900 - Advanced Topics in Media Studies**

**GER**:  
3/A  

Taught periodically, with topic listed in Schedule of Classes.  

*prereq: MEDIA 18000, others variable*  
3 hrs  
3 cr.

**MEDIA 49900 - Advanced Seminar**

Readings, discussion, and papers on significant problems in fields of media studies.  

*prereq: perm instr.*  
3 hrs  
3 cr.

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.  

*cross-listed* FILMP 15000  

*prereq or coreq: MEDIA 18000, FILM 10100*  
4 hrs  
3 cr.

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not
required, that students take MEDP/FILMP 15000 before taking this class.
cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

MEDP 23400 - Creative Code

This course explores the expressive potential of computer programming in
media production and provides a theoretical framework for interdisciplinary
artistic practices that use generative systems in their creation including drawing,
poetry, music, and video production.

prereq: MEDP 15000
3 hrs
3 cr.

MEDP 25000 - Digital Design and Usability

This course introduces students to the fundamentals of 2D design and
interaction design for digital media. The class approaches the subject from a
creative and conceptual perspective. Students choose which digital production
tools are most effective to address specific creative design problems.

prereq: MEDP/FILMP 15000
3 hrs.
3 cr.

MEDP 26000 - Introduction to 2D Animation

This hands-on class is an introduction to animation using 2D digital tools.
Historical precursors to digital animation including experimental and animated
film as well as contemporary animation will be screened. Class time will
consist of screenings, in-class demonstration, production and critique.

prereq: MEDIA 18000, MEDP 15000, MEDP 16000
4 hrs.
3 cr.

MEDP 26200 - Motion Graphics

This course provides a practical introduction to the creative possibilities of
producing computer-generated motion graphics. Temporal development is the
core of many digital arts, which include video, digital animation, music, web-
casting and new media performance. This course explores the theory and
application of motion graphics that are created, processed, and then re-
presented in time
prereq: MEDP 15000, FILMP16000/MEDP 16000, MEDP 26000
3 hrs.
3 cr.
**MEDP 28100 - Documentary Video Production 1**

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.

Material Fee: $20

*prereq: MEDP/FILMP 16000*

3 hrs

3 cr.

**MEDP 28200 - Studio Television Production**

Elements of multi-camera studio production.

*prereq: MEDP/FILMP 15000*

*coreq: MEDP/FILMP 16000 (or MEDIA/FILM 15100)*

3 hrs

3 cr.

**MEDP 28500 - Web Production I**

An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.

*prereq: MEDP/FILMP 15000*

3 hrs

3 cr.

**MEDP 28600 - Location Sound**

Basic sound theory and production sound recording techniques, concentrating on microphones, field mixers and recording equipment, boom operation and on-set procedures.

*cross-listed FILMP 28600*

*prereq: FILMP 25100 or MEDP 28100*

3 hrs

3 cr.

**MEDP 31000 - Advanced TV Studio Production**

An advanced multi-camera television studio workshop and a continuation of Studio Television Production.

*prereq: MEDP 28100, 28200*

3 hrs

3 cr.

**MEDP 31100 - Documentary Video Production 2**
Exploration of the aesthetics and practice of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.

Material Fee: $20

prereq: MEDP 28100 or FILMP 35200

prereq or coreq: MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

4 hrs

3 cr.

MEDP 31200 - Advanced Documentary Digital Editing

The aesthetic and technical considerations in editing the documentary video using digital equipment.

Material Fee: $20

prereq: MEDP 31100 or perm instr.

4 hrs

3 cr.

MEDP 33100 - Web Production II

An exploration of the production of Internet-distributed media, especially animation, sound, and video, using GIF Animation, Flash, and sound tools.

prereq: MEDP 28500

3 hrs

3 cr.

MEDP 34100 - Web Programming

Advanced programming skills for website design. Dynamic content development explored through state of the art programming languages for the creation of interactive web sites. Students will create web pages that utilize the most current techniques in web development. The curriculum in this class emphasizes an integrated and creative approach to web programming, including detailed instruction and practice in the technical aspects. It is designed to give students a basic introduction to the tools and techniques used by web programmers.

prereq: MEDP 23400 and MEDP 33100

3 hrs

3 cr.

MEDP 34500 - Web Design Projects

A project-based class designed to give students the experience of solving practical problems in web production and to add to the advanced student's web design portfolio with a comprehensive project. Students will work independently and in teams on a large-scale collaborative project.

prereq: MEDP 33100 or perm instr.
MEDP 34900 - Introduction to Physical Computing

This course is intended to introduce students to programming and off-screen media. Some time will be spent producing screen-based visual and interactive art, but most of our semester will be dedicated to hardware hacking and the Arduino. Theoretical readings will be assigned throughout and students are expected to respond thoughtfully in text and media.

prereq: MEDP 16000 and MEDP 23400
3 hrs
3 cr.

MEDP 35500 - Physical Computing: Interactive Installation

A hands-on course focusing on the current state of interactive media in a collaborative environment. Students will create projects integrating video, sound, and text exploring design concepts and using sensors for real-time interactivity.
Material Fee: $20
prereq: MEDP 15000, MEDP 16000, FILMP 16000, MEDP 23400
3 hrs
3 cr.

MEDP 36000 - 3D Animation and Modeling

This hands-on production course will examine concepts and practices that form the basis of 3D animation for video, graphic novels, filmmaking, and net-based art.

prereq: MEDP 25000, MEDP 26000
3 hrs
3 cr.

MEDP 36500 - 3D Virtual Environments

This course is an introduction to skills and creative approaches for the development of computer-generated 3D interactive virtual environments. Students will develop 3D virtual environments using standard 3D game design techniques and technologies. This class approaches the subject from both a technical and creative perspective. It gives students an introduction to the tools and techniques used to design 3D computer games and how these processes may be applied to create artistically focused work.

prereq: MEDP 36000
3 hrs
3 cr.
MEDP 38300 - Sound Design

Aesthetics of sound design with practical instruction in audio post-production technology.

prereq: FILMP 25100 or MEDP 28100 or perm. instr.
3 hours
3 credits

MEDP 39909 - Game Design and Programming

This class is an introduction to the practical and conceptual aspects of electronic game creation. Students learn a variety of game development tools and approaches while exploring a variety of theoretical, social, and other aspects of modern game culture.

prereq: MEDP 23400 and MEDP 25000
prereq or coreq: MEDIA 36300
3 hrs
3 cr.

MEDP 45100 - Film and Video Production Seminar

Individual student films produced under faculty supervision.
May be taken twice for credit. Material fee $20
cross-listed FILMP 45100
3 hrs
3 cr.

MEDPL 20100 - Reporting and Writing I (W)

An intensive writing workshop designed to teach the basic elements of multimedia reporting and writing. It also introduces students to the ethical and legal issues confronting today's journalists.
prereq or coreq: MEDIA 18000
3 hrs
3 cr.

MEDPL 20200 - Reporting and Writing 2(W)

This course is an intensive writing workshop that introduces students to advanced multimedia reporting and writing including longer form online journalism, data visualization, broadcast style writing, podcast production and visual storytelling using a smartphone.

prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 23900 - Entertainment Journalism (W)
Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.
prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 28300 - Visual Storytelling for Journalists

This course teaches students how to report and produce visual stories, including hard news, features, formal interviews, and live shots.
prereq: MEDPL 16000 or FILMP 16000, and MEDPL 20200
3 hrs
3 cr.

MEDPL 28400 - Radio Reporting and Podcasting

This course teaches students how to report and write a variety of news stories and podcasts for a live radio newscast.
prereq: MEDPL 20200
3 hrs
3 cr.

MEDPL 29000 - Developing Non-Fiction Media (W)

This class guides students through the research, writing and production planning essential for creating a non-fiction film, video or podcast.
prereq: MEDIA 18000 and MEDP 16000 or FILMP 16000
3 hrs
3 cr.

MEDPL 29400 - Magazine Writing (W)

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.
prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 29500 - Online Journalism (W)

This class teaches students to research, pitch, report and write web based stories that include some type of data visualization as well as multimedia elements. Students will also learn how to create a video using that includes text and photos to tell a story and use social media to research news stories.
prereq: MEDPL 20100
3 hrs
3 cr.

MEDPL 29600 - Feature Writing (W)
A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

**MEDPL 29700 - Data Journalism: Telling Stories with Numbers**

This course covers the fundamentals of data journalism reporting and visual storytelling using emerging techniques and tools. Students will learn to work with data and basic design to uncover and illustrate news trends and tell interactive data-driven news stories.

*prereq: MEDPL 20100*

3 hrs

3 cr.

**MEDPL 31600 - Experimental Production**

Experimental methods of film and video production, emphasizing innovative and non-traditional formal and conceptual practice.

*prereq: FILM 25100 or MEDP 28100 or perm. instr.*

3 hrs

3 cr.

**MEDPL 37200 - Investigative Reporting (W)**

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.

*prereq: MEDPL 20100*

3 hrs

3 cr.

**MEDPL 37700 - Neighborhood News (W)**

An advanced reporting and writing class that will produce an online news outlet and mobile app site covering community stories. This class may be repeated once for credit.

*prereq: MEDIA 18000 and MEDPL 20100*

3 hrs

3 cr.

**MEDPL 38700 - Mobile Journalism**

This course covers the fundamentals of reporting and visual storytelling on current and emerging mobile platforms using a smartphone.

*prereq: MEDPL 20200*

3 hrs

3 cr.
MEDPL 38800 - Studio News Production

This course teaches students how to collectively produce and present a live newscast, Hunter News Now, on deadline and how to create news content relevant to a Hunter College audience. Students may take this course twice for credit.

prereq or coreq: MEDPL 28300
3 hrs
3 cr.

MEDIA 40100 - Independent Research

Directed research or creative endeavor.
Material Fee: $20
prereq: 2 advanced level courses, perm dept.
1-6 hrs
1 cr. per hr.

MEDIA 40200 - Honors Project

Open to Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Successful completion qualifies student for departmental honors at graduation.
prereq: 3 advanced-level courses; 3.0 GPA and 3.5 major GPA; perm dept.
3 hrs
3 cr.

MEDIA 49800 - Internship

Opportunity to gain professional experience.
prereq: MEDIA 18000 and 2 other MEDIA or MEDP courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.

MEDP 39900 - Special Topics in Advanced Media Production

Taught periodically, with topic listed in Schedule of Classes.
prereq: MEDIA 18000, others variable
3 hrs
3 cr.

MEDP 39800 - Advanced Topics in Media Production

This course will cover specialized advanced topics in Media Production, including film and video production, emerging media, and journalism. May be repeated under a different topic.
prereq or coreq: one 200- or 300-level MEDP course.
MEDPL 35100 - Strategic Communication and Marketing for the Arts

This course teaches the theory and practice of effective strategic communications and marketing for arts organizations, films and art and media businesses. Students learn techniques for formal and creative industry-leading techniques for maximizing exposure for a cause or brand through public relations, social media and digital media storytelling tools. The course will allow students to select an organization or film project around which they use cutting-edge tools and best practices to develop long-term media strategy, breaking news, crisis communications and brand elevation.

prereq or coreq: MEDIA 18000 or enrollment in Arts Management and Leadership Certificate program

Programs and Courses in Geography and Environmental Science

Geography and Environmental Science

Overview

The department offers majors in Geography and Environmental Studies, a five-year combined BA/MA program in Environmental Studies and Adolescent Education-Earth Science, and minors in Geography, Environmental Studies and Geology. Our programs focus on urban and social geography; globalization and international development; earth systems, environmental science, and physical geography; geographic information science and digital mapping; environmental policy and sustainability; and social studies and environmental education. In addition, students learn how to use advanced analytical skills, including quantitative, qualitative, modeling, and geospatial research methods in order to address the vital problems humanity is facing today. In addition to comprehensive classroom instruction, the department offers field trips and field courses in geography and environmental science.

A major in Geography is designed to prepare students to understand our world's changing social and natural environments in their interaction and using concepts of place, space, distance, and location. In many instances, geographers make maps to analyze differences between places and to seek explanations for those differences. Most importantly, Geography not only will broaden your knowledge of the world and how human and natural systems interact but will
also equip you with the skills needed to seek solutions to many pressing problems, from the impacts and consequences of climate change, depletion of natural resources, and pollution to poverty, inequality, geopolitical crises, migration, and insecurity. These skills include critical thinking, spatial analysis, and analytical writing. In addition to classroom learning and field trips, students learn by doing research projects together with community advocacy groups in New York City.

Geography majors are encouraged to pursue the course of study that best fits their interests while also exploring the three concentration areas that the department offers: Cities and Globalization; Digital Mapping and Geographic Information Science; and Sustainability. There is an option that prepares students for temporary certification in New York State to teach social studies at grades K-12.

The Environmental Studies major offers a common core of courses and an interdisciplinary approach that allows students to focus on environmental policy and management or earth systems science. Our major prepares students to identify and describe the components of Earth's environment and their interconnections. Our goal is to equip students with theoretical and practical tools to synthesize the body of knowledge presented in the course work and to address real world problems. We seek to accomplish this goal by fostering classroom dynamics where assumptions, methods and findings are critically evaluated. After choosing a concentration, students take advanced physical science courses for the Environmental Earth Science concentration and human geography and social science courses for the Environmental Management Policy concentration. Coursework covers subjects that include weather and climate, climate change, environmental hazards, fluid dynamics, sustainability, ecology, oceanography, conservation, urban problems and their solutions and the global impact of humans on the Earth system.

**What can I do with my degree in Geography and Environmental Studies?**

Courses in all of these fields are valuable parts of a general liberal education, developing an awareness of earth phenomena and the role these play in people's lives. Through integration of content knowledge, applied skills, and internships, our graduates are prepared for both graduate study and immediate employment in the public, private, and non-profit sectors.

Our website features stories about our former students who equally excel in academic and professional worlds. Courses for Geography and Environmental Studies majors are valuable parts of a liberal arts education, developing an awareness of how earth systems work and the role these play in people's lives. They also educate students about the challenges humanity faces in the era of global climate change, geopolitical and public health crises, growing inequality, and migration. Both majors prepare students for graduate degrees in earth and environmental science, geography, geoinformatics, and related fields. Many students successfully pursue top graduate programs and receive prestigious internships and fellowships such as those from the National Center for
Atmospheric Research (NCAR) and the National Atmospheric and Space Administration (NASA), U. S. Environmental Protection Agency and Department of Environmental Protection. Many also become professionals whose expertise in the above areas is widely used by the governments and administrations of New York City and New York State, the U.S. Bureau of the Census, and private industry; they also develop careers as geography/earth science teachers.

Programs and Courses

Programs and Courses in Geography and Environmental Science

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Administration and Faculty

Chair:

Marianna Pavlovskaya
1003F North
(212) 772-5320
mpavlov@hunter.cuny.edu

Undergraduate Geography Adviser:

Thomas B. Walter
1003A North
(212) 772-5457
twalter@hunter.cuny.edu

Environmental Studies Adviser fall 2018:

Haydee Salmun
1041 North
(212) 775-5224
hsalmun@hunter.cuny.edu

Environmental Studies Adviser spring 2019:

Frank Buonaiuto
1049 North
(212) 650-3092
fbuonaiu@hunter.cuny.edu
Environmental Studies - BA

Return to: Programs of Study

The major offers two concentrations which are organized to promote an intensive understanding of contemporary physical science, specifically earth system science as it relates to environmental issues, and an intensive understanding of a system-based approach to the dynamic nature of human-environmental interactions particularly as manifest in contemporary politics and economics. The concentrations are Environmental Earth Science and Environmental Management and Policy. It is suggested that students select a concentration as they enter the major with the understanding that the choice is not final at this stage and students can switch concentrations as they advance in the program. To aid in this process, the curriculum offers a common core of required courses, as well as sufficient overlap within the required elective courses. It is strongly recommended that students considering this major meet with the adviser to discuss their interests and program of studies as courses may be added or deleted as the college's and department's offerings change. One or more courses not listed below may be included in a student's concentration with the advice and consent of the adviser.

Hunter Core Requirement

Courses in this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

In the case of the Environmental Studies major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 10100</td>
<td>Life and Physical Sciences</td>
</tr>
</tbody>
</table>
Course                  CUNY Common Core Requirement
PGEOG 13000 (STEM)   Scientific World
GEOL 18000          Scientific World
GEOL 10000          Scientific World
GEOL 10500          Scientific World

(STEM) Life and Physical Sciences. Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College pre-requisites. See the Mathematics and Statistics department for details.

A) Earth System Science Track: Sub-Plan
ENV ES (59-77 credits)

Framework Courses Within the Department (13-14 credits)

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life, interact with it. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.
GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: MATH 10100 or MATH 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

GEOG 22600 - Environmental Conservation: Resource Management

GER
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

- One 10000-level GEOL or PGEOG earth science course (3-4)

Required Math Courses (3-16 credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

-or-

MATH 101EN - Algebra for College Students - Enhanced
Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100.

prereq: Department Permission
6 hrs
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)

This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus. Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

-or-

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

-or-

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

prereq: MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500
5 hrs (4 hrs lecture, 1 hr recitation)
4 cr.

-and-

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and
trigonometric functions, applications.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

* Courses can be used for more than one program

Must choose two of the following sequences in traditional bench sciences (18-22)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II
Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq:** BIOL 10000 or perm instr, MATH 10100 or MATH 101EN
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.
Primarily for pre-med, medical laboratory sciences and science majors.

**prereq or coreq:** MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibriums.

Primarily for premed, medical laboratory sciences and science majors.

**prereq:** CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**
**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200
*coreq: CHEM 10400

6 hrs
3 cr.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

GER 2/E
First semester of two-semester introductory physics course using algebra.

*prereq: MATH 12400 or 12500 or 12550 or 15000 or 15500

7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

GER 2/E
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

*prereq: PHYS 11000 or 11100

7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)

GER 2/E
For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

* Courses can be used for more than one program

**Core Environmental Studies Courses (10)**

**PGEOG 25000 - Earth System Science I (W)**

GER
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: ENGL 12000
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.
4 hrs
3.5 cr.

**PGEOG 25100 - Earth System Science II**

GER
3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting
components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

*prereq: PGEO 25000 or perm instr.*

4 hrs

3.5 cr.

**Capstone Experience (Select One Course):**

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sems of geology, perm dept.*

1-3 cr.

**PGEOG 39300 - Individual Study in Environmental Studies**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.*

1-3 cr.

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*

**Sub-Plan Specific 20000- and 30000-Level Elective Requirement (15 credits)**

Students must choose at least 15 credits from the GEOL, PGEOG and GTECH offerings with at least three courses selected at the 30000 level.

Advanced courses offered by complimentary disciplines may be considered and selected as appropriate electives for the major in consultation with the Major Advisor.

Students who are completing an additional major or minor may use courses required by both majors to fulfill requirements for the Environmental Studies major.

**B) Human Dimensions of Earth Systems Track: Sub-Plan ENV MP (58-67)**
Framework Courses Within the Department (25-26 credits)

GEOG 10100 - People and Their Environment

**Hunter Core**
Individual and Society - Social Science
**GER**
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life, interact with it. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.

-or-

GEOG 15000 - World Regions in Global Context

**Hunter Core**
World Cultures and Global Issues (WCGI)
**Pluralism and Diversity**
PD/A or D
**GER**
2/B

This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. Geographic concepts (e.g., space, place, distance, scale, borders, and regions) are used to study environmental, economic, social, and political conditions and identify key concerns in the culturally diverse world. The course will examine geographic world regions (e.g., South America, Europe, the Middle East, Sub-Saharan Africa, and others), connections in and between these regions, and how these regions and their populations interact as parts of a global system. For each world region, you will learn major historical events, specific interactions between natural environment and social systems, and their potential for and challenges to sustainable development.

prereq: ENGL 12000
3 hrs
3 cr.

*Offered fall and spring*

- One 10000-level GEOL or PGEOG earth science course (3-4)

**GEOG 22600 - Environmental Conservation: Resource Management**

**GER**

2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

*prereq or coreq: ENGL 12000*

3 hrs

3 cr.

**GEOG 24100 - Population Geography (W)**

**Pluralism and Diversity**

PD/B or C

**GER**

3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

*prereq: GEOG 10100 or GEOG 15000 and ENGL 12000*

3 hrs

3 cr.

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

*prereq: MATH 10100 or MATH 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500*

6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GTECH 30100 - Quantitative Methods in Geography

Open to Jr/Sr only. Process of spatial analysis. Application of scientific methods to geographic research; sampling; distribution measurement; statistical analysis of spatial data.

prereq: GTEC 201, STAT 113 or 213 or perm instr.
3 hrs
3 cr.

GTECH 36100 - GIS Analysis

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geographically relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee: $15
prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.

Required Math Sequence (0-8 credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.
MATH 101EN - Algebra for College Students - Enhanced

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100.

prereq: Department Permission

6 hrs

3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs

1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.

Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs

4 cr.

-or-
MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

-or-

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

prereq: MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500
5 hrs (4 hrs lecture, 1 hr recitation)
4 cr.

* Courses can be used for more than one program

Courses Offered By Supporting Disciplines (14 credits)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.
Primarily for pre-med, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or
MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

* Courses can be used for more than one program

Core Environmental Studies Courses (10 credits)
PGEOG 25000 - Earth System Science I (W)

GER
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: ENGL 12000
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.
4 hrs
3.5 cr.

PGEOG 25100 - Earth System Science II

GER
3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

prereq: PGEO 25000 or perm instr.
4 hrs
3.5 cr.

Capstone Experience Select One Course:

GEOG 39300 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sem of geography, perm dept.
1-3 cr

PGEOG 39300 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.
1-3 cr.

PGEOG 49000 - Honors in Environmental Studies
Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

Prereq: perm dept.

Sub-Plan Specific 20000 and 30000 Level
Elective Requirement (9 credits)

Students must choose at least nine credits of advanced courses from the GEOG, GEOL, PGEOG and GTECH offerings with at least two courses selected at the 30000 level.

Advanced courses offered by complementary disciplines may be considered and selected as appropriate electives for the major in consultation with the Major Advisor.

Internships

Students can receive from one to four credits for internships in government agencies, consumer and activist groups, business and industry and media organizations involved in energy issues (e.g., Council on the Environment of NYC, Energy Task Force, NY State Assembly, Sierra Club, International Earthcare Center, NY State Department of Energy, Brooklyn Union Gas, NYC Department of Environmental Protection and the American Museum of Natural History).

Teacher Education Pathway

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.

Honors Work and Individual Study

To graduate with departmental honors, a major in the geography or environmental studies program must be admitted to

GEOG 49000 - Honors in Geography

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

Prereq: perm dept.

1 sem

3 cr.

PGEOG 49000 - Honors in Environmental Studies
Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

**prereq:** perm dept.

- and have a 3.0 cumulative GPA and a 3.5 GPA in the major.

The following courses also offer students the opportunity of undertaking individual research in geography, geology or environmental studies.

**GEOG 39100 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sem of geography, perm dept.

1-3 cr

**GEOG 39200 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sem of geography, perm dept.

1-3 cr

**GEOG 39300 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sem of geography, perm dept.

1-3 cr

**GEOL 39100 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr

**GEOL 39200 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sems of geology, perm dept.
1-3 cr.

PGEOG 39100 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000
1-3 cr.

PGEOG 39200 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.
1-3 cr.

PGEOG 39300 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.
1-3 cr.

Fieldwork

Several courses offer students an opportunity to study geography, geology and environmental situations in the field. They are usually offered during intersession periods, summer session or on weekends (consult Schedule of Classes). In addition to the regular field courses, special-topic field courses are offered periodically and fieldwork is conducted in connection with a number of the other courses. The department participates in the Study Abroad Program. It offers a field geography of selected world regions course (check with adviser for current location). An additional fee for transportation, lodging and food allowance is attached to these courses, depending on the focus of the course and its itinerary.

Graduate Study

Graduate-level courses may be taken for credit toward the bachelor’s degree by highly qualified seniors. Written permission must be obtained from the undergraduate and graduate advisers.

Intern Program
Internship provides opportunities for qualified majors and minors in both geography and environmental studies to work in positions of responsibility in professional institutions while earning from 1 to 4 academic credits. See a departmental adviser for details.

**GEOG 49800 - Internship**

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

*1-4 cr.*

**PGEOG 49800 - Internship in Environmental Studies**

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

*1-4 cr.*

**Degree Map**

Degree Map for Environmental Studies

**Geography - BA**

A major in Geography is designed to prepare students to understand and respond to our world's changing social and natural environments using a range of quantitative, qualitative, and geospatial research methods. Students will study how social and natural systems interact using concepts of place, space, distance, location, and scale. They will also learn how to make (digital) maps in order to analyze and explain differences between places. Geographic knowledge and analytical skills are vital to solving the many problems our world is facing today, from consequences of climate change to geopolitical crises and migration. In addition to classroom learning, students explore urban and natural environments through our field-based classes and by doing research projects together with community advocacy groups in New York City.

Our department offers three concentration areas that Geography majors are encouraged to explore. These concentrations are: Cities and Globalization, Digital Mapping and Geographic Information Science, and Sustainability. Students are encouraged to discuss with advisors and professors in our department the course of study that best fits their interests.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses
that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019

In the case of the Geography major, the courses that meet CCC are:

Requirements for the Degree Program:

Core Requirements for all Geography (13 credits)

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.

GTECH 20100 - Introduction to Geographic Information Science
Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: MATH 10100 or MATH 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

GEOG 22600 - Environmental Conservation: Resource Management

GER
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.
Courses Offered by Supporting Disciplines (0-8 credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without
taking Hunter College pre-requisites. See the Mathematics and
Statistics department for details.

* These courses may be counted for credit in more than one program.

Additional Requirements for All Geography Majors (21-22 credits)

Note: PGEOG 13000 can count for one requirement only.

One of the following courses:

**PGEOG 14000 - Introduction to Weather, Climate and Climate Change**

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

3 hrs
3 cr.

**PGEOG 13000 (STEM) - Weather and Climate**

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $5
5 hrs (3 lec, 2 lab)
4 cr.

Offered in the Fall and Spring

**GEOL 10000 - Introduction to Geology**

Hunter Core
Scientific World (SW)
GER
Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

GEOL 10500 - Introduction to Environmental Studies

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

An introduction to environmental science focusing on aspects of global change and the interrelationships of earth systems, environmental problems and issues.

prereq: ENGL 12000
3 hrs.
3 cr.

GEOL 18000 - Introduction to Oceanography

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students
3 hrs
3 cr.
Offered fall and spring

-and-

One of the following courses:

-
PGEOG 14100 - Introduction to Weather, Climate and Climate Change Laboratory

A hands-on laboratory science course. PGEOG 14100 will explain how weather and climate affect people and the natural environment through hands-on laboratory and field experiences. The course explores the science of the atmosphere starting with weather and weather forecasting including severe storms such as hurricanes and tornadoes. World climates and global climate change is included. This course will serve as an introduction to atmospheric science and will prepare students for further work in geography and Earth sciences.

3 hrs (1 hour lecture, 2 hours lab)
3 cr.

PGEOG 13000 (STEM) - Weather and Climate

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.

offered fall and spring.

-and-

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
GEOG 25000 - Geographic Research Methods

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

prereq: ENGL 12000 and a 100-level GEOG, PGEOG, GTECH, or GEOL course

Elective Courses (a minimum of 18 credits, at 200 level or higher).

Core courses cannot double count as geography major elective courses. One 3-credit independent study course may count as a 300-level elective course with the approval of the undergraduate geography advisor.

At least 18 additional credits of courses with a GEOG, PGEOG or GTECH prefix of which at least 15 credits must be at the 300-level.

Options in Social Studies Education within the Geography Major
The Department of Geography and the School of Education provide opportunities for students to prepare for a career in teaching social studies in grades 1-6 (Childhood Education) or in grades 7-12 (Adolescent Education).

- Option in Social Studies within the Geography Major for Childhood Education Teachers
- Option in Social Studies within the Geography Major for Adolescent Education Teachers

Honors Work and Individual Study

To graduate with departmental honors, a major in the geography or environmental studies program must be admitted to the following and have a 3.0 cumulative GPA and a 3.5 GPA in the major.

**GEOG 49000 - Honors in Geography**

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

*prereq: perm dept.*

1 sem

3 cr.

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*

The following courses

Also offer students the opportunity of undertaking individual research in geography, geology or environmental studies.

**GEOG 39100 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

1-3 cr

**GEOG 39200 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

1-3 cr
GEOG 39300 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sem of geography, perm dept.
1-3 cr.

GEOL 39100 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sems of geology, perm dept.
1-3 cr.

GEOL 39200 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sems of geology, perm dept.
1-3 cr.

GEOL 39300 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: 2 sems of geology, perm dept.
1-3 cr.

PGEOG 39100 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000
1-3 cr.

PGEOG 39200 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.
1-3 cr.

PGEOG 39300 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
Fieldwork

Several courses offer students an opportunity to study geography, geology and environmental situations in the field. They are usually offered during intersession periods, summer session or on weekends (consult Schedule of Classes). In addition to the regular field courses, special-topic field courses are offered periodically and fieldwork is conducted in connection with a number of the other courses. The department participates in the Education Abroad Program. It offers a field geography of selected world regions course (check with adviser for current location). An additional fee for transportation, lodging and food allowance is attached to these courses, depending on the focus of the course and its itinerary.

Graduate Study

Graduate-level courses may be taken for credit toward the bachelor’s degree by highly qualified seniors. Written permission must be obtained from the undergraduate and graduate advisers.

Intern Program

Internship provides opportunities for qualified majors and minors in both geography and environmental studies to work in positions of responsibility in professional institutions while earning from 1 to 4 academic credits. See a departmental adviser for details.

GEOG 49800 - Internship

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.
Degree Map

Degree Map for Geography BA

Option in Social Studies within the Geography Major for Adolescent Education Teachers

Return to: Geography - BA

In cooperation with the The School of Education, the Department of Geography provides opportunities for students to prepare for a career in teaching social studies in grades 7 – 12. In addition to mandatory course work provided by the School of Education, interested students must complete the course of study outlined below. At least 18 credits of these courses or equivalents must be satisfactorily completed (grade of C or better) before the student enrolls in the social studies methods courses. Refer to the catalog section specific to programs in the The School of Education.

Transfer students who enter Hunter College with more than 90 credits or who will exceed 90 credits in completing the prerequisites for this option in the Geography major, cannot apply for the Adolescent Education program of the School of Education. They may still complete this option within the Geography major but must complete a Master of Arts degree in Adolescent Education before certification as a New York State teacher. While New York State recognizes the regular major in Geography for certification in Childhood Education, students interested in becoming certified as Social Studies-Adolescent Education teachers in New York State must complete this interdisciplinary course of study.

Prerequisites for the Major 9 credits

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.
HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

GEOG 15000 - World Regions in Global Context

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A or D
GER
2/B

This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. Geographic concepts (e.g., space, place, distance, scale, borders, and regions) are used to study environmental, economic, social, and political conditions and identify key concerns in the culturally diverse world. The course will examine geographic world regions (e.g., South America, Europe, the Middle East, Sub-Saharan Africa, and others), connections in and between these regions, and how these regions and their populations interact as parts of a global system. For each world region, you will learn major historical events, specific interactions between natural environment and social systems, and their potential for and challenges to sustainable development.

prereq: ENGL 12000
3 hrs
3 cr.
Offered fall and spring

Requirements for the Major 36 credits

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B
Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings.

ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

Prereq: Math/Writing Proficient/Non degree students

3 hrs
3 cr.

GEOG 24100 - Population Geography (W)

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

Prereq: GEOG 10100 or GEOG 15000 and ENGL 12000

3 hrs
3 cr.

GEOG 25100 - Geography of the United States and Canada

GER
2/B

Seeks to familiarize students with the regional geography of the United States and Canada. More specifically, the goals are to acquaint students with the dynamic nature of human and physical features that characterize the study area; the ways in which human and natural phenomena interact to create unique place characteristics and sub-regions; the key environmental issues that characterize the study area and its constituent parts; major trends that are affecting the geography of the two countries; and the locations of principal features. The course begins with general overview material, and then examines the various sub-regions of the study area in much greater detail, focusing on key characteristics and environmental challenges.

Prereq: GEOG 10100 or GEOG 15000 or perm instr.

3 hrs
3 cr.
HIST 11100 - World History to 1500

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 11200 - World History from 1500 to the Present

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

1. Required courses (18 cr.)

POLSC 11000 - American Government: A Historical Introduction

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or
credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**ECO 10000 - Introduction to Economics**

**Hunter Core**
Individual and Society (Social Sciences) - I&S SS
GER
2/B

Introduction to the fundamental lessons of economics through the lens of supply and demand, emphasizing the use of data for inference in economic and policy settings. ECO 10000 offers an introduction to the field of economics suitable for students in any major, and serves as the gateway course into the economics major.

ECO 10000 is a prerequisite for Principles of Microeconomics (ECO 20000) and Principles of Macroeconomics (ECO 20100).

prereq: Math/Writing Proficient/Non degree students

3 cr.

HIST 11100 - World History to 1500

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A

GER
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 11200 - World History from 1500 to the Present

Hunter Core
World Culture and Global Issues (WCGI)

GER
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

2. One 3-credit course in cultural anthropology (ANTHC) or Sociology (3 cr)
• One 3-credit course in cultural anthropology (ANTHC) or Sociology (SOC) selected with approval of the Geography Undergraduate Adviser.

3. Elective Courses in History (6 credits)

• Any two 3-credit 300-level courses in history with approval of the Geography Undergraduate Adviser.

4. Elective Courses in Geography (9 credits, at least 6 credits at the 300-level)

GEOG 27000 - Regional Geography of Mexico, Central America and the Caribbean

Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of Mexico, Central America and West Indies.
3 hrs
3 cr.

GEOG 27100 - Regional Geography of South America

Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of South America.
3 hrs
3 cr.

GEOG 27500 - Regional Geography of Sub-Saharan Africa

Pluralism and Diversity
PD/A
GER
3/B

Analysis of the relationship of natural environment to economic, social and political life of Africa south of Sahara.
3 hrs
3 cr.
GEOG 27700 - Regional Geography of East Asia

Pluralism and Diversity
PD/A
GER
3/B

Analysis of East Asia's potentials in terms of natural resources, population, industry and agriculture, with emphasis on China.
3 hrs
3 cr.

GEOG 27800 - Regional Geography of Russia and Central Asia

Pluralism and Diversity
PD/A or D
GER
3/B

Analysis of the relationship of the natural environment to economic, social and political life of Russia, the former Soviet republics of Central Asia and Mongolia.
3 hrs
3 cr.

GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions

GER
3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.
prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing
3 hrs
3 cr.

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.
prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
GEOG 34200 - Geography of International Migration and Ethnicity

Pluralism and Diversity
PD/B
GER
3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.

prereq: GEOG 24100 or perm instr.

3 hrs
3 cr.

GEOG 24700 - Cultural Geography

GER
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016

prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000

3 hrs
3 cr.

GEOG 35700 - Geography of New York City and Vicinity

GER
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessability.)

Open to Jr/St only.

prereq: GEOG 10100 or GEOG 15000
Option in Social Studies within the Geography Major for Childhood Education Teachers

In cooperation with the School of Education, the Department of Geography provides opportunities for students to prepare for a career in teaching in grades 1-6. Students may choose to complete the Geography - BA, in addition to successful completion of the QUEST program. Interested students may also choose to complete the course of study outlined below. The option in Social Studies for Childhood Education is available only to students who are accepted into the QUEST program.

Students not accepted to the QUEST program, or students not eligible to apply to the QUEST program, should complete the traditional Geography major outlined above. They must complete a Master of Arts degree in Childhood Education before being certified as a New York State teacher.

Program Prerequisites (9 credits)

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to
the present.
Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

GEOG 15000 - World Regions in Global Context

Hunter Core
World Cultures and Global Issues (WCGI)

Pluralism and Diversity
PD/A or D
GER
2/B

This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. Geographic concepts (e.g., space, place, distance, scale, borders, and regions) are used to study environmental, economic, social, and political conditions and identify key concerns in the culturally diverse world. The course will examine geographic world regions (e.g., South America, Europe, the Middle East, Sub-Saharan Africa, and others), connections in and between these regions, and how these regions and their populations interact as parts of a global system. For each world region, you will learn major historical events, specific interactions between natural environment and social systems, and their potential for and challenges to sustainable development.

prereq: ENGL 12000
3 hrs
3 cr.
Offered fall and spring

Requirements for the Major (30 credits)

Required Courses (18 credits)

HIST 11100 - World History to 1500

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A
GER
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 11200 - World History from 1500 to the Present**

**Hunter Core**  
World Culture and Global Issues (WCGI)  
GER  
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**GEOG 24100 - Population Geography (W)**

**Pluralism and Diversity**  
PD/B or C  
GER  
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

3 cr.

POLSC 11000 - American Government: A Historical Introduction

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent

3 hrs
3 cr.

2. Elective Courses in Geography (6 credits)

Choose any two of the following:

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
GEOG 34200 - Geography of International Migration and Ethnicity

Pluralism and Diversity
PD/B
GER
3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.

prereq: GEOG 24100 or perm instr.

GEOG 24700 - Cultural Geography

GER
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016

prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000

GEOG 35700 - Geography of New York City and Vicinity

GER
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessability.)

Open to Jr/St only.

prereq: GEOG 10100 or GEOG 15000
3 hrs
3 cr.
Offered fall.

3. Elective Courses in History (6 credits)

Any two 3-credit 300-level courses in history with approval of the Geography Undergraduate Adviser.

Track A: Urban and Social Geography (30 credits)

Five courses from the list below (15 credits)

- GEOG 22100 Economic Geography and Globalization
- GEOG 24100 Population Geography (W)
- GEOG 24300 Urban Geography
- GEOG 24700 Cultural Geography
- GEOG 25000 Geographic Research Methods
- GTECH 20100 Introduction to Geographic Information Science

Two courses with a GEOG 30600 course number (6 credits)

- GEOG 30600 Special Topics in Contemporary Regional Geographies

Three courses with a GEOG 30500, GEOG 38300, or GTECH 38500 course number (9 credits) with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals

- GEOG 30500 Special Topics in Urban and Regional Dynamics
- GEOG 38300 Special Topics in Geography
- GTECH 38500 GIS Applications

Note:

Most GEOG 30600 courses have GEOG 15000 or permission of instructor as a prerequisite. GEOG 30500 courses have GEOG 24300 or permission of instructor as a prerequisite. GTECH 38500 courses have GTECH 20100 as a prerequisite.
Track B: Physical and Environmental Geography (30 credits)

a) The following 15 credits

- PGEOG 21200 Geography of Soils and Vegetation
- PGEOG 25000 Earth System Science I (W)
- GEOL 23100 Principles of Geomorphology
- GTECH 20100 Introduction to Geographic Information Science
- GTECH 20300 Introduction to Remote Sensing

b) Five 300-level courses with a PGEOG, GEOL, and/or GTECH prefix with advice and approval of the undergraduate advisor as appropriate to student interests and professional goals (15 credits)

Track C: Geographic Information Science (30 credits)

The following 9 credits:

GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: MATH 10100 or MATH 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

GTECH 20300 - Introduction to Remote Sensing

Introduces remote sensing image interpretation and a basic understanding of the use of remote sensing technology in the study of
environmental issues and the monitoring of Earth systems. The first half of the course focuses on aerial photography, photogrammetry and image interpretation. The second half focuses on the use of remote sensing in Earth system sciences. Extensive lab exercises include practical assignments and computer-based analysis of remote sensing images. Students will learn basic image interpretation and some web-based image processing skills through various lab exercises.

Material Fee: $15
prereq: GTECH 20100
6 hrs (2 lec, 4 lab)
4 cr.

GEOG 25000 - Geographic Research Methods

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

prereq: ENGL 12000 and a 100-level GEOG, PGEOG, GTECH, or GEOL course
3 hrs
3 cr.

The following 15 credits:

GTECH 30100 - Quantitative Methods in Geography

Open to Jr/Sr only. Process of spatial analysis. Application of scientific methods to geographic research; sampling; distribution measurement; statistical analysis of spatial data.
prereq: GTEC 201, STAT 113 or 213 or perm instr.
3 hrs
3 cr.

GTECH 32100 - Remote Sensing of the Environment

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field
measurements will be made in Central Park to facilitate better understanding satellite measurements.

Material Fee: $15

prereq: GTEC 32000 or perm instr.

4 hrs (2 lec, 2 lab)

3 cr.

**GTECH 32200 - Digital Image Processing**

Course emphasizes the acquisition and nature of digital image data and the tools required to process and analyze remotely sensed data. Topics include: image preprocessing, spectral mixture analysis, image transformation, image classification and accuracy assessment, change detection, information extraction from LIDAR and radar. At least one application for each image processing method will be introduced. This is an advanced remote sensing course. The course includes lab exercises through which students will obtain hands-on experience in digital image processing. The labs include practical assignments and computer-based analysis of remotely-sensed images, and also field work to evaluate the results. The lab will use ENVI, an image processing software, together with the comprehensive data analysis tool IDL.

Material fee: $15.00

prereq: GTEC 32100, and multivariate statistics, elementary linear algebra or perm instr.

4 hrs (2 lec, 2 lab)

3 cr.

**GTECH 36100 - GIS Analysis**

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geo-spatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee: $15

prereq: GTECH 20100

4 hrs (2 lec, 2 lab)

3 cr.

**GTECH 38000 - Introduction to Cartographic Design and Geovisualization**

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

Material Fee: $15

prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.
- Two additional 300-level GTECH courses with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals

Note:

GTECH 30100 has GTECH 20100 and STAT 11300 or STAT 21300 as prerequisites. Selected GTECH 38500 courses have GEOG or PGEOG prerequisites in addition to GTECH 20100.

Track D: Sustainability Studies (30 credits)

Five courses from the list below (15 credits):

GEOG 22100 - Economic Geography and Globalization

GER 2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen
*prereq: GEOG 10100 or perm instr.*
3 hrs
3 cr.
*Offered fall and spring*

GEOG 24500 - Geography of Development

Introduction to geographic concepts, methods, and theories of development, as well as failures and challenges for development in a changing world.

*prereq: ENGL 12000, and GEOG 10100 or GEOG 15000 or
GEOG 22600 - Environmental Conservation: Resource Management

GER
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 24100 - Population Geography (W)

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the "mechanics" of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 and ENGL 12000
GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: MATH 10100 or MATH 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

WGSL 20017 - Globalization and Gender

Globalization has been the subject of intense debate within both academic and journalistic spheres. These debates have questioned whether globalization 'works for the greater good or not.' In this course we will examine globalization critically by looking at some of the academic debates. We will examine the claim that globalization has heralded the end of the nation-state, review the implications of globalization on gender and sexuality, and consider the formation of a 'global middle class.'

prereq: WGS 10000 and ENGL 12000
3 hrs
3 cr.

The following 9 credits:

GEOG 38300 - Special Topics in Geography

GER
3/B

Open to Jr/Sr only. Topics to be announced.
prereq: GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr

GEOG 37000 - Geography of Sustainable Development in Developing Countries
Pluralism and Diversity
PD/A
GER
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.

3 hrs
3 cr.

GEOG 37100 - Rural Water Supply in Developing Regions

Pluralism and Diversity
PD/A
GER
3/B

Covers concepts, methods and analysis of rural water utilization and related problems and challenges in developing countries. It will discuss water management and quality and their relationship with sanitation and hygiene education. The course will also discuss methods of providing drinking water in a sustainable manner.

prereq: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.

3 hrs
3 cr.

- Two courses with a GEOG 30500, GEOG 30600, GEOG 38300 or GTECH 38500 course number (6 credits) with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals

* Note: GEOG 38328 Environmental Ethics is the required course; no other 38300 course will be acceptable.

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows:

- one course selected from PGEOG 13000, GEOL 10100, GEOL 10500, GEOL 18000; and
• at least one course (minimum of 3 credits) selected from PGEOG 25000, PGEOG 25100*, GEOG 22600, GEOL 28000, or GTECH 20100; and

• at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program's Concentration A (Environmental Earth Science) or Concentration B (Environmental Management and Policy).

*PGEOG 25000 is a prerequisite for PGEOG 25100

Minor in Geography

A minor in geography consists of a minimum of 12 credits chosen from undergraduate courses that have a GEOG, PGEO or GTEC prefix. Prerequisites may apply. Thoughtful selection of courses may result in a minor program of study that will enhance the student's major. It is recommended that prospective geography minors consult with the geography undergraduate adviser concerning course selection.

Minor in Geology

A minor in geology consists of a minimum of 12 credits as follows:

One course selected (at least 3 credits) from

GEOL 10000 - Introduction to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

GEOL 10100 - Introductory Geology Lab
Hunter Core
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.
3 hrs.
3 cr.

GEOL 10200 - Plate Tectonics and the Earth's Evolution

GER
2/E

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth's evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes; depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.
prereq: GEOL 10100
5 hrs (3 lec, 2 lab)
4 cr.
Offered fall.

GEOL 10500 - Introduction to Environmental Studies

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

An introduction to environmental science focusing on aspects of global change and the interrelationships of earth systems, environmental problems and issues.
prereq: ENGL 12000
3 hrs.
3 cr.

GEOL 18000 - Introduction to Oceanography
An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

*prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students*

3 hrs

3 cr.

Offered fall and spring

and

at least one course (minimum of 3 credits) selected from

**GEOL 20500 - Environmental Geology**

*GER*  
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

*prereq: GEOL 10100*

3 hrs

3 cr.

**GEOL 23100 - Principles of Geomorphology**

*GER*  
2/E or 3/B
Investigates the geologic forces that shape the surface of the Earth. In the laboratory students will learn to analyze features of the landscape and deduce the processes that produced them. Students will use traditional laboratories as well as Google Earth to learn about a variety of surficial processes.

**prereq:** PGEO 13000 or GEOL 10100

4 hrs (2 lec, 2 lab)

3 cr.

**GEOL 28000 - Marine Geology**

**GER**

3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

**prereq:** GEOL 10200 or perm instr.

3 hrs

3 cr.

Fall

or other approved course, and

at least one course (minimum of 3 credits) from the following list of 300-level courses

**GEOL 33400 - Geomorphology: The Study of Beaches and Coasts**

**GER**

3/B

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.

**prereq:** GEOL 23100 or PGEO 23100 or equiv. or perm dept.

3 hrs

3 cr.
GEOL 38000 - Advanced Oceanography: Physics of the Oceans

GER
3/B

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

prereq: one sem CHEM or PHYS, MATH 15000 or equiv.

3 hrs
3 cr.

GEOL 38300 - Special Topics in Geology and Oceanography

GER
3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

prereq: 200-level course of which special topic is logical outgrowth; perm instr.

1-4 hrs (lec or lec/lab)
1-3 cr.

GEOL 39300 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sems of geology, perm dept.

1-3 cr.

GTECH 35100 - Field Techniques in Geography

Observation and analysis of physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as ground-truthing of remotely sensed images, the use of maps, compasses and GPS to navigate. Fee for transportation, lodging and food allowance required.

Material Fee: $300-400

prereq: GTEC 20100, any two additional geography or geology
PGEOG 36100 - Global Climatic Change

GER
3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth’s climate history, and modern climate change.

 prerequisite: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

PGEOG 36300 - Environmental Hazards

GER
3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

 prerequisite: PGEO 13000 or equiv.
 prerequisite or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.

or other approved course

Other

A minimum of one lab* or field course** or other approved course with a field component is required

†PGEOG 25000 Earth System Science I (W) (while not counted toward the geology minor) is a prerequisite for PGEOG 36100.
Minors for Geography Majors

A minor course of study is no longer required at Hunter College. However, geography majors can elect to minor in any field of their choice. It is recommended, but not required, that the chosen field be related to the student's principal interest(s) in geography, and that the student consult with the Geography Undergraduate Adviser prior to selection of a minor course of study.

Minor in Geography

A minor in geography consists of a minimum of 12 credits chosen from undergraduate courses that have a GEOG, PGEOG or GTECH prefix. Prerequisites may apply. Thoughtful selection of courses may result in a minor program of study that will enhance the student's major. It is recommended that prospective geography minors consult with the geography undergraduate adviser concerning course selection.

Minor in Geology

A minor in geology consists of a minimum of 12 credits selected from courses with a GEOL prefix, or PGEOG 23100, or PGEOG 33400, or GTECH 35000. Prerequisites may apply. It is recommended that prospective geology minors consult with an undergraduate adviser from the Department of Geography.

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows:

- one course selected from PGEOG 13000 (STEM), GEOL 10000, GEOL 10500, GEOL 18000; and
- at least one course (minimum of 3 credits) selected from PGEOG 25000, PGEOG 25100*, GEOG 22600, GEOL 28000, or GTECH 20100; and
- at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program's Concentration A (Environmental Earth Science) or Concentration B (Environmental Management and Policy).

*PGEOG 25000 is a prerequisite for PGEOG 25100

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER
2/B
A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. interact with it. Contemporary economic, political and social patterns and problems are discussed.

3 hrs 3 cr. offered fall and spring.

GEOG 15000 - World Regions in Global Context

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A or D
GER
2/B

This course draws on and explores the concept of the geographic region as a way to organize and understand our fast-changing and interconnected world. Geographic concepts (e.g., space, place, distance, scale, borders, and regions) are used to study environmental, economic, social, and political conditions and identify key concerns in the culturally diverse world. The course will examine geographic world regions (e.g., South America, Europe, the Middle East, Sub-Saharan Africa, and others), connections in and between these regions, and how these regions and their populations interact as parts of a global system. For each world region, you will learn major historical events, specific interactions between natural environment and social systems, and their potential for and challenges to sustainable development.

prereq: ENGL 12000
3 hrs
3 cr.
Offered fall and spring

GEOG 18300 - Special Topics: Introductory Geosciences

Introductory special topics in geography, environmental geosciences, or spatial sciences.
An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today's crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen
prereq: GEOG 10100 or perm instr.
3 hrs
3 cr.
Offered fall and spring

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

Covers topics related to environmental problems and their
connection to urban areas. The course will begin with a survey of urban systems (transport, water, food, waste and energy) followed by investigating how these systems contribute to environmental problems and their solutions. This investigation will also include a discussion about the connections between rural and urban areas and urban planning that attempts to minimize environmental hazards.

3 hrs
3 cr.

GEOG 24100 - Population Geography (W)

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 and ENGL 12000
3 hrs
3 cr.

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 24400 - Political Geography

GER
3/B

Political geography concerns the nature and consequences of human efforts to divide and control Earth. Major topics to be covered by this course include the origin and evolution of countries and their constituent political units; the defining and drawing of political boundaries; territorial conflicts and disputes; the impact of boundaries
on personal and cultural identity; centripetal and centrifugal forces that encourage the success or failure of political units; jurisprudence, crime and punishment; electoral geography; war, piracy and terrorism; ownership of ocean floors and outer space; the environmental impacts of political power (zoning, incorporation, height restrictions, land tenure); and symbols of power in the landscape. Lectures and assignments will stress the relevancy of political geography to issues that affect our everyday life.

*prereq: GEOG 10100 or GEOG 15000 or perm instr
3 hrs
3 cr.*

**GEOG 24500 - Geography of Development**

Introduction to geographic concepts, methods, and theories of development, as well as failures and challenges for development in a changing world.

*prereq: ENGL 12000, and GEOG 10100 or GEOG 15000 or permission of instructor
3 hrs
3 cr.*

**GEOG 24700 - Cultural Geography**

**GER**

3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

*effective term 2016
prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000
3 hrs
3 cr.*

**GEOG 25000 - Geographic Research Methods**

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

*prereq: ENGL 12000 and a 100-level GEOG, PGEOG, GTECH, or GEOL course
3 hrs
3 cr.*
GEOG 25100 - Geography of the United States and Canada

GER
2/B

Seeks to familiarize students with the regional geography of the United States and Canada. More specifically, the goals are to acquaint students with the dynamic nature of human and physical features that characterize the study area; the ways in which human and natural phenomena interact to create unique place characteristics and sub-regions; the key environmental issues that characterize the study area and its constituent parts; major trends that are affecting the geography of the two countries; and the locations of principal features. The course begins with general overview material, and then examines the various sub-regions of the study area in much greater detail, focusing on key characteristics and environmental challenges.

prereq: GEOG 10100 or GEOG 15000 or perm instr.
3 hrs
3 cr.

GEOG 27000 - Regional Geography of Mexico, Central America and the Caribbean

Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of Mexico, Central America and West Indies.

3 hrs
3 cr.

GEOG 27100 - Regional Geography of South America

Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of South America.

3 hrs
3 cr.

GEOG 27200 - Regional Geography of Europe

Pluralism and Diversity
PD/D
Analysis of relationship of natural environment to economic, social and political life of modern Europe.

3 hrs
3 cr.

**GEOG 27400 - Regional Geography of the Middle East and North Africa**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of relationship of natural environment to economic, social and political life of Middle East and North Africa.
3 hrs
3 cr.

**GEOG 27500 - Regional Geography of Sub-Saharan Africa**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of the relationship of natural environment to economic, social and political life of Africa south of Sahara.
3 hrs
3 cr.

**GEOG 27700 - Regional Geography of East Asia**

Pluralism and Diversity
PD/A
GER
3/B

Analysis of East Asia's potentials in terms of natural resources, population, industry and agriculture, with emphasis on China.
3 hrs
3 cr.

**GEOG 27800 - Regional Geography of Russia and Central Asia**
Pluralism and Diversity
PD/A or D
GER
3/B

Analysis of the relationship of the natural environment to economic, social and political life of Russia, the former Soviet republics of Central Asia and Mongolia.
3 hrs
3 cr.

GEOG 30500 - Special Topics in Urban and Regional Dynamics

Advanced topics in urban geography. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 24300 Urban Geography or instructor permission
3 hrs
3 cr.

GEOG 30600 - Special Topics in Contemporary Regional Geographies

Advanced topics in contemporary regional geographies and globalization. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 15000 World Regional Geography or instructor permission
3 hrs
3 cr.

GEOG 32100 - Transportation Geography

GER
3/B

A geographic study and modeling of transportation routes and their influences on the location of economic activity.
prereq: GEOG 221 or perm instr.
3 hrs
3 cr.
not offered 2011

GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions

GER
3/B

Open to Jr/Sr only. The special environmental problems of urban and
metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

**prereq:** GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing
3 hrs
3 cr.

**GEOG 33500 - International Pollution Issues**

**GER**
3/B

A study of international trans-boundary pollution and the science, source terms, transport pathways and international impacts of contamination events. The regional focus will change yearly pending current global environmental events.

**prereq:** GEOG 101 or GEOL 101 or PGEO 130 or perm instr.
3 hrs
3 cr.

**GEOG 34200 - Geography of International Migration and Ethnicity**

**Pluralism and Diversity**

**PD/B**
**GER**
3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.

**prereq:** GEOG 24100 or perm instr.
3 hrs
3 cr.

**GEOG 34300 - Urban Geographic Theory**

**GER**
3/B

Spatial analysis of contemporary and theoretical issues concerning the economic growth, transportation, land use, social segregation and political fragmentation in metropolitan areas.

**prereq:** GEOG 34100 or equiv.
3 hrs
3 cr.
GEOG 35700 - Geography of New York City and Vicinity

GER
3/B

An assessment of the role geography has played in the development and the functioning of the NYC Metropolitan Area. The region's physical site and situation, changing land use, population distribution, transportation patterns and environmental concerns. Active fieldwork required. (Alternative field assignments for students who have accessibility challenges documented with the Office of Accessability.)

Open to Jr/Sr only.
prereq: GEOG 10100 or GEOG 15000
3 hrs
3 cr.
Offered fall.

GEOG 37000 - Geography of Sustainable Development in Developing Countries

Pluralism and Diversity
PD/A
GER
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.
prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.
3 hrs
3 cr.

GEOG 37100 - Rural Water Supply in Developing Regions

Pluralism and Diversity
PD/A
GER
3/B

Covers concepts, methods and analysis of rural water utilization and
related problems and challenges in developing countries. It will
discuss water management and quality and their relationship with
sanitation and hygiene education. The course will also discuss
methods of providing drinking water in a sustainable manner.

prereq: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm
instr.

3 hrs
3 cr.

GEOG 38100 - Special Topics in Geography

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOG 101, 200-level course of which special topic is logical
outgrowth, perm instr.

1-4 hrs (lec or lec/lab)

1-3 cr

GEOG 38200 - Special Topics in Geography

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOG 101, 200-level course of which special topic is logical
outgrowth, perm instr.

1-4 hrs (lec or lec/lab)

1-3 cr

GEOG 38300 - Special Topics in Geography

GER
3/B

Open to Jr/Sr only. Topics to be announced.

prereq: GEOG 101, 200-level course of which special topic is logical
outgrowth, perm instr.

1-4 hrs (lec or lec/lab)

1-3 cr

GEOG 39100 - Individual Study in Geography

Individual studies and readings, with lab or fieldwork where
appropriate, carried out under faculty guidance.

prereq: 2 sem of geography, perm dept.

1-3 cr

GEOG 39200 - Individual Study in Geography
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sem of geography, perm dept.

1-3 cr

**GEOG 39300 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sem of geography, perm dept.

1-3 cr

**GEOG 48000 - Capstone in Urban and Social Geography**

Individual or group research project as capstone experience in urban and social geography.

**prereq:** Senior standing as a geography major, approval of undergraduate adviser, and signed project contract with faculty sponsor.

3 hrs

3 cr.

**GEOG 48100 - Capstone in Sustainability Studies**

Individual or group research project as capstone experience in Sustainability Studies.

**prereq:** Senior standing as a geography major, approval of undergraduate adviser, and signed project contract with faculty sponsor.

3 hrs

3 cr.

**GEOG 49000 - Honors in Geography**

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

**prereq:** perm dept.

1 sem

3 cr.

**GEOG 49800 - Internship**

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.
PGEOG 14000 - Introduction to Weather, Climate and Climate Change

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

3 hrs
3 cr.

PGEOG 14100 - Introduction to Weather, Climate and Climate Change Laboratory

A hands-on laboratory science course. PGEOG 14100 will explain how weather and climate affect people and the natural environment through hands-on laboratory and field experiences. The course explores the science of the atmosphere starting with weather and weather forecasting including severe storms such as hurricanes and tornadoes. World climates and global climate change is included. This course will serve as an introduction to atmospheric science and will prepare students for further work in geography and Earth sciences.

3 hrs (1 hour lecture, 2 hours lab)
3 cr.

PGEOG 48000 - Capstone in Physical Geography

Individual or group research project as capstone experience in physical and environmental geography.

prereq: Senior standing as a geography or environmental studies major, approval of undergraduate adviser, and signed project contract with faculty sponsor.

3 hrs
3 cr.

GTECH 10100 - Digital Earth

Digital Earth introduces students to the new suite of geospatial technologies and how they are being used to capture, store, process
and display the vast amount of geospatial information about our planet, a wide variety of environmental and cultural phenomena, and how this information helps us to better understand natural and cultural characteristics of the world, address world problems, and make sound decisions. Students will learn how satellites take complete photographs of the entire planet, Geographic Information Systems (GIS) display geospatial data, Global Positioning Systems (GPS) track the location of environmental and cultural phenomena, Geovisualization tools map our 3-D planet, and how these technologies are applied to solve problems in diverse fields and phenomena in the physical and social sciences in exciting ways. The knowledge and skills learned in Digital Earth open the door toward a geotechnology-oriented career.

3 hr.
3 cr.

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

*prereq: MATH 10100 or MATH 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500*

6 hrs (2 lec, 4 lab)
4 cr.

*Offered fall and spring*

**GTECH 20300 - Introduction to Remote Sensing**

Introduces remote sensing image interpretation and a basic understanding of the use of remote sensing technology in the study of environmental issues and the monitoring of Earth systems. The first half of the course focuses on aerial photography, photogrammetry and image interpretation. The second half focuses on the use of remote sensing in Earth system sciences. Extensive lab exercises include practical assignments and computer-based analysis of remote sensing images. Students will learn basic image interpretation and some web-based image processing skills through various lab exercises.

Material Fee: $15

*prereq: GTECH 20100*

6 hrs (2 lec, 4 lab)
4 cr.
GTECH 30100 - Quantitative Methods in Geography

Open to Jr/Sr only. Process of spatial analysis. Application of scientific methods to geographic research; sampling; distribution measurement; statistical analysis of spatial data.
prereq: GTEC 201, STAT 113 or 213 or perm instr.
3 hrs
3 cr.

GTECH 32100 - Remote Sensing of the Environment

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth's surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.
Material Fee:$ 15
prereq: GTEC 32000 or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 32200 - Digital Image Processing

Course emphasizes the acquisition and nature of digital image data and the tools required to process and analyze remotely sensed data. Topics include: image preprocessing, spectral mixture analysis, image transformation, image classification and accuracy assessment, change detection, information extraction from LIDAR and radar. At least one application for each image processing method will be introduced. This is an advanced remote sensing course. The course includes lab exercises through which students will obtain hands-on experience in digital image processing. The labs include practical assignments and computer-based analysis of remotely-sensed images, and also field work to evaluate the results. The lab will use ENVI, an image processing software, together with the comprehensive data analysis tool IDL.
Material fee: $15.00
prereq: GTEC 32100, and multivariate statistics, elementary linear algebra or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.
GTECH 35000 - Field Topographic Surveying

Field use of surveying equipment. Notebook and computer data collection relating to horizontal and vertical location on the landscape, including the use of global positioning systems. Field record-keeping and preliminary analysis of results. Fee for transportation, accommodations and food allowance required.

prereq: GTEC 20100, perm instr.

90 hrs of field/lab work (1 day lab, 10 days field)

3 cr.

Offered summer intersession (check with dept. in April).

GTECH 35100 - Field Techniques in Geography

Observation and analysis of physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as ground-truthing of remotely sensed images, the use of maps, compasses and GPS to navigate. Fee for transportation, lodging and food allowance required.

Material Fee: $300-400

prereq: GTEC 20100, any two additional geography or geology courses, perm dept.

90 hrs field/lab work (3 days lab, 7 days field)

3 cr.

Offered summer intersession (check with dept. in April).

GTECH 36100 - GIS Analysis

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geo-spatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee:$ 15

prereq: GTECH 20100

4 hrs (2 lec, 2 lab)

3 cr.

GTECH 38000 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

Material Fee:$ 15

prereq: GTECH 20100

4 hrs (2 lec, 2 lab)

3 cr.
GTECH 38500 - GIS Applications

Selected topics in GIS applications to human and physical geographic problems. See department for topics offered. May be repeated for credit as topics change.
Material Fee: $15
prereq: GTEC 20100 or equiv.
3 hrs
3 cr.

GTECH 48000 - Capstone in Geographic Information Science

Individual or group research project as capstone experience in geographic information science.
prereq: Senior standing, approval of undergraduate adviser, and signed project contract with faculty sponsor.
3 hrs
3 cr.

GTECH 49000 - Honors in Geographic Information Science

Open to qualified Track C geography majors.
prereq: Senior standing, a minimum GPA of 3.5 in the major, approval of undergraduate adviser, and signed project contract with faculty sponsor
3 hrs
3 cr.

GTECH 49800 - Internship in Geographic Information Science

Open to qualified geography majors and minors. Opportunities for working in positions of responsibility in professional institutions for academic credit.
prereq: Senior standing, approval of undergraduate adviser, and signed project contract with faculty sponsor
3 hrs
3 cr.

PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why
certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $5
5 hrs (3 lec, 2 lab)
4 cr.

Offered in the Fall and Spring

PGEOG 23100 - Physical Geography II: Principles of Geomorphology

See GEOL 23100

PGEOG 25000 - Earth System Science I (W)

GER
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: ENGL 12000
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.
4 hrs
3.5 cr.

PGEOG 25100 - Earth System Science II

GER
3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

prereq: PGEOG 25000 or perm instr.
4 hrs
3.5 cr.

PGEOG 31100 - Introduction to Fluid Mechanics
Covers the basic principles of fluid mechanics including statics, kinematics of fluid motion, integral and differential representation of conservation of mass, linear momentum, the first Law of Thermodynamics, Bernoulli’s equation, dimensional analysis, and elementary viscous flow.  
*cross-listed* PHYS 31100  
*prereq:* PHYS 12100 or 12000 and MATH 15500 or perm instr.  
3 hrs  
3 credits

**PGEOG 31300 - Biogeography**

GER  
3/B  
Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.  

*prereq:* PGEOG 13000, GEOG 10100 or BIOL 10000/10200  
3 hrs  
3 cr.

**PGEOG 33200 - Introduction to Hydrology**

GER  
3/B  
Designed to provide the basic understanding of how water on the Earth moves, distributes, circulates and interacts with the environment. Focus will be on hydrological processes including precipitation, evapotranspiration (evaporation and transpiration), soil water, ground water, and runoff, which form the complete water cycle at global, regional and watershed scales. The course will also cover some topics on how water responds to environmental changes and strategies of integrated water resources.  

*prereq:* GEOL 10100, PGEO 13000 or perm instr.  
3 hrs  
3 cr.

**PGEOG 33400 - Coastal Geomorphology See GEOL 33400**

See GEOL 33400
PGEOG 33500 - Urban and Metropolitan Coasts

GER
3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.  
_prereq or coreq: Prereq: GEOL 10100 or GEOG 10100
3 hrs
3 cr.

PGEOG 36100 - Global Climatic Change

GER
3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth's climate history, and modern climate change.

_prereq: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

PGEOG 36300 - Environmental Hazards

GER
3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

_prereq: PGEO 13000 or equiv.
_prereq or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.

PGEOG 38100 - Special Topics in Environmental Studies
Open to Jr/Sr only. Topics to be announced.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

PGEOG 38200 - Special Topics in Environmental Studies

Open to Jr/Sr only. Topics to be announced.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

PGEOG 38300 - Special Topics in Environmental Studies

Open to Jr/Sr only. Topics to be announced.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr.

PGEOG 39100 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000
1-3 cr.

PGEOG 39200 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.
prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.
1-3 cr.
PGEOG 39300 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr. 1-3 cr.

PGEOG 49000 - Honors in Environmental Studies

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

prereq: perm dept.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

GEOL 10000 - Introduction to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

GEOL 10100 - Introductory Geology Lab

Hunter Core
Life & Physical Sciences
GER
2/E
Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.
3 cr.

**GEOL 10200 - Plate Tectonics and the Earth's Evolution**

**GER**
2/E

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth's evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes; depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.

*prereq: GEOL 10100*

5 hrs (3 lec, 2 lab)
4 cr.
Offered fall.

**GEOL 10500 - Introduction to Environmental Studies**

**Hunter Core**
Scientific World (SW)

**GER**
2/E (Non lab course)

An introduction to environmental science focusing on aspects of global change and the interrelationships of earth systems, environmental problems and issues.

*prereq: ENGL 12000*

3 hrs.
3 cr.

**GEOL 18000 - Introduction to Oceanography**

**Hunter Core**
Scientific World (SW)

**GER**
2/E
An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students
3 hrs
3 cr.

Offered fall and spring

GEOL 20500 - Environmental Geology

GER
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today's environmental issues.

prereq: GEOL 10100
3 hrs
3 cr.

GEOL 23100 - Principles of Geomorphology

GER
2/E or 3/B

Investigates the geologic forces that shape the surface of the Earth. In the laboratory students will learn to analyze features of the landscape and deduce the processes that produced them. Students will use traditional laboratories as well as Google Earth to learn about a variety of surficial processes.

prereq: PGEO 13000 or GEOL 10100
4 hrs (2 lec, 2 lab)
3 cr.
**GEOL 28000 - Marine Geology**

GER  
3/B  

Marine Geology is the study of the seafloor. This course attempts to answer the questions "what?", "where?", "when?" and more importantly "how?" in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.  
*prereq: GEOL 10200 or perm instr.*  
3 hrs  
3 cr.  
Fall

**GEOL 33200 - Hydrology** See PGEOG 33200

See PGEOG 33200

**GEOL 33400 - Geomorphology: The Study of Beaches and Coasts**

GER  
3/B  

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.  
*prereq: GEOL 23100 or PGEO 23100 or equiv. or perm dept.*  
3 hrs  
3 cr.

**GEOL 38000 - Advanced Oceanography: Physics of the Oceans**

GER  
3/B  

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to
quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

*prereq: one sem CHEM or PHYS, MATH 15000 or equiv.*

3 hrs
3 cr.

**GEOL 38100 - Special Topics in Geology and Oceanography**

**GER**

3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

*prereq: 200-level course of which special topic is logical outgrowth; perm instr.*

1-4 hrs (lec or lec/lab)
1-3 cr.

**GEOL 38200 - Special Topics in Geology and Oceanography**

**GER**

3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

*prereq: 200-level course of which special topic is logical outgrowth; perm instr.*

1-4 hrs (lec or lec/lab)
1-3 cr.

**GEOL 38300 - Special Topics in Geology and Oceanography**

**GER**

3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

1-4 hrs (lec or lec/lab)
1-3 cr.

**GEOL 39100 - Individual Study in Geology**
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr.

**GEOL 39200 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr.

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr.

**GEOL 24400 - Sedimentology**

**GER**

3/B

**PGEOG 21200 - Geography of Soils and Vegetation**

**GER**

3/B

**GEOL 21100 - Field Geology of New York City and Vicinity**

**GER**

3/B

Provides you with the essential information about the geology of New York City, plate tectonics, and the philosophy and the practice of geological field work. Students will learn how to use basic field equipment and geologic and topographic maps. The first part of the course consists of field trips using public transportation to the main geologic formations of the New York metropolitan where students examine and identify rocks *in situ* and *non in situ*. Basic procedures of geologic field research are taught and students learn to identify, measure, and describe rocks, geologic structures and textures. The second part of the course will be in the laboratory to study the field material, plot information on topographic maps, correlate information and create basic geologic maps, basic geologic profiles and the synthetic geologic column of the NYC Metropolitan area.

**prereq or coreq:** Prereq: GEOL 10100 or 10200
GTECH 33100 - Spatial Data Science 1

This practical hands-on course will introduce you to some of the main programming concepts and techniques relevant to computational methods of Spatial Data Science. The Course starts with the basics of algorithms, and work through examples of reading and writing pseudocode for some general, mathematical, and spatial operations. We will then dive into the nuts and bolts of Python as a first language and learn how to translate some basic operations into running code, in the context of representing and processing geospatial data. The class will also review some of the most commonly-used open- and closed-source Python libraries for spatial programming.

prereq or coreq: GTECH 20100

GTECH 38400 - WebGIS

This course introduces the principles and practical knowledge of WebGIS and GeoWeb Services in a hands-on fashion. Students will learn to use open source software to provide basic GeoWeb Services. The web programming language of JavaScript will also be introduced in detail to develop simple WebGIS with the option of using GeoWeb Services.

prereq or coreq: GTECH 20100 Introduction to Geographic Information Science

Programs and Courses in German

German

Overview

The mission of the German Department is to teach German language, culture, and civilization in a professional, research-based manner, to help students develop a foundational knowledge of the German cultural and literary canon, to develop intercultural awareness and foster understanding between the Hunter as well as New York City communities and the German-speaking countries, and to create and propagate knowledge and understanding about German language, literature and culture and also about the teaching of German language, literature and culture locally, regionally, and nationally. The department offers courses in the language, literature, and culture of German-speaking countries that are designed and sequenced to guide students from their current language proficiency levels through
well-defined stages of proficiency in production and comprehension so that students will reach college-level literacy in German and excel in the field of German studies. Students who complete the elementary and intermediate courses can expect to reach the ability to function in everyday situations in German-speaking environments and to have a solid base for the upper-level study of German language, literature and culture. Students who complete advanced language, literature, and culture courses will gain an understanding and appreciation of German culture and civilization, past and present; they will comprehend spoken and written German to the level of understanding the classics of German prose, drama, and poetry; and will either have reached or will be well on their way towards reaching the linguistic and cultural capacity for engaging in intellectual discourse in written and spoken German.

What can I do with my degree in German?

Germany is the third-largest economy in the world, and German is the first language of over 95 million people worldwide. Students with a foundation in the language, literature, history, and intellectual revolutions of Germany are prepared to enter a wide variety of vocations. Majors continue to postgraduate study in Germany and the United States, enter law schools and other graduate programs and work in fields as diverse as environmental policy, journalism, arts management, consulting, and engineering, as well as in governmental and nongovernmental organizations and businesses. Some of our recent graduates have been hired by the Manhattan branches of the Goethe Institut and the German American Chamber of Commerce.

Programs and Courses

Programs and Courses in German

Foreign Language Requirement

- Students who begin German as a new language will fulfill the foreign language requirement by taking 12 credits in the elementary/intermediate language sequence: GERMN 10100-GERMN 10200 (or GERMN 10300), GERMN 20100-GERMN 20200 (or GERMN 20300). Students who enter with one or more years of high school German must take all the credits they need so that they can pass GERMN 20200 (or GERMN 20300). Students who enter with four years of high school German will be exempted from the foreign language requirement (see the General Education - Effective Fall 2019 section of this catalog).
Placement

Students who have some knowledge of German should consult with one of the departmental advisers or the chair for placement in a class that is appropriate for them.

Degree Map for German

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a German Studies major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.
Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
I/A

Required of all students unless exempt
This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

Notes:

- Students interested in Study Abroad should speak with a departmental advisor about summer programs, which carry a total of 6 credit hours, 3 that may be applied to the major and 3 that will count as elective credits. Semester-long and year-long study abroad is also possible.
- Students who complete the intensive language sequence (German 103 and 203) in their first year may move on to Advanced Language and Literature courses (German 301-302, 310, 320-339) in their sophomore year.
- At least 12 credits must be earned by taking advanced classes in German literature and culture (numbered 320-359; also 444). Three or more of these credits must be from level 2 literature courses (numbered 341-359; also 444). Majors are permitted to substitute one level 1 literature course (numbered 320-339) with a level 2 language course (numbered 385). Students are encouraged to consult a departmental advisor as early as possible to plan their course of studies in German.

German - BA

Students who complete a German major will gain an understanding and appreciation of German culture and civilization, past and present. They will comprehend spoken and written German to the level of understanding the classics of German prose, drama, and poetry. They either will have reached or will be well on their way towards reaching the linguistic and cultural capacity for engaging in intellectual discourse in written and spoken German.

Students who have some knowledge of German gained outside of Hunter College should consult Prof. Anderson, Prof. Kuhn-Osius, Prof. Nicolai, or Prof. Zimmerman regarding placement in the German major.

Hunter Core Requirement
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major
(27-33 credits)

Elementary and Intermediate German Language Courses (0-12 credits)

GERMN 10100 - Elementary German I

Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners.
GERMN 10100 not usually credited without GRMN 10200.
For details about credit policy, please see Language Proficiency Requirement.

4 hrs
4 cr.

Additional Information

At least nine credits must be earned by taking advanced classes in German literature and culture (numbered 32000-35900; also 44400). At least six credits must be from level II courses (numbered 34000-38500; also 44400).

Preparation for Teaching in Grades 7-12

In cooperation with the School of Education, the program in German provides opportunities for students to prepare for a career in teaching German in grades 7-12. Students preparing to teach German must complete a 33-credit major option (Option 2) for teaching that includes the 24-credit sequence (Option 1) taken by non-teaching majors plus 9 additional credits: GERMN 39900 and 6 additional credits in advanced GRMN language and literature courses in the German Department between GERMN 30100 and GERMN 44400 or GERMN 24000, GERMN 24100 or 300-level
courses related to German studies offered in other departments (with prior approval by the chairperson of the German Department). Students interested in teaching German in New York schools will take the 23-credit pedagogical sequence for grades 7-12 Languages Other than English: Chinese, French, German, Hebrew, Italian, Russian, Spanish (BA) Additional Coursework and Student Teaching along with the major in German. This sequence may count toward the course requirements for New York State Certification but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the School of Education. All students who want to pursue a teaching certificate in German must take an oral examination with the German Department. See the The School of Education section of this catalog for further information.

Electives

All courses offered are open to all qualified students as electives. For placement, consult a departmental adviser or the department chair.

Honors, Tutorials

Consult the department chair for these special programs. In order to graduate with departmental honors the student has to write an honors essay in the following. Please check under “Academic Honors” for exact details. Students who qualify can be elected to the German Honor Society Sigma Epsilon Phi. Please consult the department for exact requirements.

**GERMN 49100 - Honors Project**

GER
3/A

GERMN 36700 - Hermann Hesse: Magister Ludi

GER
3/A

GERMN 36800 - Rainer Maria Rilke's Duino Elegies
Programs and Courses in History

History Overview

The study of history involves asking searching questions about how diverse societies, institutions, economies, cultures, and belief systems emerge, change, and develop over time. Thinking through these issues provides perspective on human lives in the present as well. Training in historical writing and research enables students to understand the contemporary world. History is the record of human experience. Its study is a first step in learning about
ourselves and our society — about economics and politics, psychology and sociology, mathematics and science, the arts and the humanities. Beyond the purely practical consideration of a profession, the study of history is exciting in its own right. The History Department offers courses in the history of the United States, the ancient world, medieval and modern Europe, Russia, Jewish studies, the Middle East and Islamic world, Latin America, Africa, East Asia and South Asia, as well as many comparative topics in political, intellectual, and world history.

What can I do with my degree in History?

For students whose undergraduate major is history, career opportunities are numerous and varied. Medical, law and other professional schools favor applicants with history majors because of their broad background and research skills. Moreover, while teaching has long been a popular goal for history majors, positions in government (local, state and national), publishing, museums, public relations, advertising, media/communications, business and management also await those students whose human perspective, critical thinking skills, and intellectual discipline have been developed in history classes.

Degree Map for History

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a History major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your advisor about the best path for you.

Freshman Year

• Elective
• Elective

Notes:

• Students must complete a minimum of 6 HIST credits within each of the following geographical fields: United States history, European history (includes Russia and the USSR), and World/Non-Western (Asia, Africa, and Middle East)/Latin American history.
• A maximum of 9 credits in 100-level courses may be applied to the major.
• A minimum of 18 credits in advanced-level courses distributed as follows:
  • 6 credits in 200-level courses (not including HIST 29000)
  • 9 credits in 300-level courses or higher (including HIST 30000/HIST 40000)
• **HIST 29000 - History Practicum (W) Majors must have passed 9 credits of HIST-designated courses before enrolling in HIST 29000. No more than 6 of the 9 credits required for HIST 29000 enrollment may be at the 100-level. A minimum grade of C is required to receive credit for HIST 29000. The Department strongly suggests students take the Practicum in the sophomore year, but recognizes that transfer students will not have had an opportunity to do so, but should be encouraged to take it the Fall semester of their Junior year
• Chronological Distribution: Within the requirements for the major (exclusive of HIST 300) students must also complete a minimum of 3 credits in a course that is largely focused on years prior to 1815:
  • If the course is at the 100-level, it must cover material that is entirely pre-1815.
  • If the course is at the 200-level or higher, the majority of the material in it must be pre-1815.

History - BA

The study of the human past expands our understanding of what it is to be human. History courses may offer overviews that sweep across centuries and continents, or focus on the history of a nation, a demographic group, a social, environmental, political, economic or cultural topic, or even the life and times of a single individual, but all are united in seeking to inculcate an evidence-based critically-informed understanding of our past. Historical knowledge is key to understanding continuity and change in societies,
in systems of knowledge and belief, in technologies, and in cultures. History students learn to find and interpret primary sources, and to rigorously analyze the historical writings of others. Working with department faculty students learn to plan, research and write historical papers of their own, to craft convincing arguments and to convey them in effective and compelling language. This knowledge and these skills are valued within and without the field of academic history, and history graduates have gone on to successful careers in business, government, public interest fields, journalism, and other professions, or have continued their studies in graduate or law schools.

**Hunter Core Requirement**

Hunter Core Requirement Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the History major, the courses that meet CCCR are:

</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.
Courses Required for the Major (30 credits)

1. A maximum of 9 credits in 100-level courses may be taken.

2. A minimum of 18 credits in advanced-level courses distributed as follows:
   - 6 credits in 200-level courses (not including HIST 29000)
   - 9 credits in 300-level courses or higher (not including HIST 30000/HIST 40000)

3. History Practicum

HIST 29000 - History Practicum (W)

A seminar-style course intended to introduce students to the practice of historical research and writing. Students will be given a directed "hands-on" experience in conducting historical research and in the writing of research papers in measured, progressively challenging assignments. The course will prepare students to successfully engage in more self-directed, substantial and independent historical research projects in the future.

_prereq: ENGL 12000; 6 cr in history and permission of the department

3 hrs.
3 cr.

Majors must have passed 9 credits of HIST-designated courses before enrolling in HIST 29000. No more than 6 of the 9 credits required for HIST 29000 enrollment may be at the 100 level.

_A minimum grade of C is required to receive credit for HIST 29000_
4. Historical Research or Historical Research Honors

**HIST 30000 - Historical Research (W)**

**GER**

3/B

Independent research related to a prior upper-level course already completed under the supervising instructor. The research will result in an extensive paper.

Courses at the 300-level and above not offered to freshmen.

*prereq: HIST 29000 and departmental permission*

3 hrs

3 cr.

5. Geographic Distribution:

Within the requirements for the major (exclusive of HIST 30000) students must complete a minimum of 6 credits in each of the following geographic fields:

- United States history
- European history (includes Russia and the U.S.S.R.)
- World/Non-Western history (includes Asia, Africa, Middle East, Latin America).

6. Chronological Distribution:

Within the requirements for the major (exclusive of HIST 30000) students must also complete a minimum of 3 credits in a course that is largely focused on years prior to 1815:

- If the course is at the 100-level, it must cover material that is entirely pre-1815.
- If the course is at the 200-level or higher, the majority of the material in it must be pre-1815.

**Teacher Education Pathway**

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a lead teacher in NYS public schools.
Honors in History

Students will be eligible for honors in history upon the completion of all of the requirements for the major (including HIST 30000) with a 3.5 GPA and a 3.0 cumulative GPA at the time of graduation. In order to receive honors students may complete a portion of their major requirements in one of the following ways: (Choose one of the following options 1, 2 or 3):

- completing HIST 40000 with a grade of B or better in lieu of HIST 30000, which is required for the major
- completing 3 credits with a grade of B or better in an honors seminar, problems course, or tutorial (with departmental permission) in lieu of one of their 300-level or higher courses required for the major. Such seminars, honors courses, or tutorial options include:
  - HIST 48300 Problems in U.S. History (Honors) (W)
  - HIST 48400 Problems in European History (Honors) (W)
  - HIST 48500 Problems in Non-Western History (Honors) (W)
  - HIST 49300 Individual Tutorial Research Project
- completing a graduate-level course (with special permission from the instructor) with a grade of B or better in lieu of one of their 300-level or higher courses required for the major. Note: the student must still complete HIST 30000 or HIST 40000. Eligible students should apply for honors at the time they file for graduation. Applications are available from the department.

Graduate Study

Qualified students in their junior and senior years may be admitted to graduate courses with the approval of the department chair.
Minor in History

Students majoring in disciplines other than history may elect a minor in history. The history minor consists of 12 credits. The minor in History is flexible and thus it can provide depth to a variety of majors; students can tailor the minor to suit best their individual interests.

Requirements

- Four history courses of 3 credits each (or 12 credits total) taken for a letter grade (C or better. Courses taken for a grade of Credit/No Credit will not count toward the minor.)
- Courses must be distributed in at least two geographic fields, i.e. at least one course (3 credits) must be taken in a geographic area different from the other three. (Currently, the geographic areas are defined as U.S., European and World/Non-Western.)
- At least two courses (6 credits) must be at the 300-level or above. Internships do not count toward completion of the minor, although students completing the minor may elect to include an internship as an additional course. Independent studies (tutorials) and HIST300 are available only to History Majors and, thus, do not count toward the minor.
- At least two of the courses (or 6 credits) must be taken in the History Department at Hunter College. Courses
taken in other disciplines will not count toward the minor unless cross-listed and taken under the appropriate HIST course code. Transfer courses must be approved by the History Undergraduate Advisor.

There are no prerequisites for the minor, although certain courses may have their own prerequisites.

Declaring a Minor in History

Students are advised to declare their minor by the beginning of the upper junior semester, but must do it prior to their final semester (that of graduation). Declaration requires a planning session with the History Undergraduate Advisor and completion of the Major/Minor Declaration Form (to be obtained from the One Stop).

HIST 12100 - Early Modern Europe 1500 to 1815

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/B

Transition from feudal society to national states; religious upheavals, expansion up to the French revolutionary era
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/B

Scientific and industrial revolutions, liberalism, imperialism, socialism and fascism, total war, reconstruction.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 20100 - Ancient Civilization

GER
2/B

Development of civilization in the Near East. Its expansion under Greece and Rome to 500 CE in the Mediterranean basin.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 21100 - Medieval Civilization (W)

Pluralism and Diversity
PD/D
Social, institutional and cultural history of Western Europe from the late Roman
period to the Black Death in the mid-14th century.
Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 120
3 hrs
3 cr.

HIST 24200 - The Holocaust: An Introduction

Pluralism and Diversity
PD/D
The attempt to exterminate the Jewish people by the Nazis.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 30200 - Greek History

Pluralism and Diversity
PD/D
GER
3/B

From the Bronze Age ca. 3000 BCE to the Roman conquest. Emphasis on cultural and political contributions of ancient Greece.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 30300 - Roman History

Pluralism and Diversity
PD/D
GER
3/B
From Iron Age to Justinian; rise and fall of Rome's power and her political and cultural achievements.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 30500 - The Age of the Crusades

Pluralism and Diversity
PD/D
GER
3/B

The expansion of western Europe from 800 to 1492 in eastern Europe, the Mediterranean, Asia and Africa, giving particular attention to the Reconquista in Spain and the crusades in the Middle East.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 31000 - Jewish History in the Medieval and Early Modern Periods

Pluralism and Diversity
PD/D
GER
3/B

The Jewish people from late antiquity to 17th century; social and legal status under Islamic and Christian rulers; religious and intellectual movements.
Courses at the 300-level and above not offered to freshmen.
HIST 31100 - Europe in the Early Middle Ages

Pluralism and Diversity
PD/D
GER
3/B

The development of European civilization from the fall of the Western Roman Empire to the First crusade. Courses at the 300-level and above not offered to freshmen.

HIST 31200 - Europe in the High Middle Ages

GER
3/B

The 12th and 13th centuries in Europe; church and state; science and universities; guilds and capitalism. Courses at the 300-level and above not offered to freshmen.

HIST 31300 - Europe in the Late Middle Ages

GER
3/B

Changing aspects of social, institutional, economic and cultural scene; humanism and art in the 14th and 15th centuries.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 31400 - Ancient and Medieval Christianity (W)**

**Pluralism and Diversity**
PD/D
GER
3/B

The development of Christianity from Jesus to Luther; theology and mysticism, lay and monastic spirituality; the papacy and dissidents; gender and sexuality; relations with Judaism and Islam.

Courses at the 300-level and above not offered to freshmen.
**prereq or coreq:** ENGL 12000
3 hrs
3 cr.

**HIST 31900 - Jewish History in the Medieval and Early Modern Periods (W)**

**Pluralism and Diversity**
PD/A
GER
3/B

The Jewish people from late antiquity to the 17th century; social and legal status under Islamic and Christian rulers; religious and intellectual movements.

Courses at the 300-level and above not offered to freshmen.
**prereq or coreq:** ENGL
HIST 32000 - Jewish History in the Modern World (W)

Pluralism and Diversity
PD/D
GER
3/B

From the 18th century to the present: Enlightenment, Jewish emancipation and nationalism, a Jewish state; anti-Semitism and the Holocaust; recent trends. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 32100 - History of the Holocaust

GER
3/B

Examination of the mass murder of 6 million Jews by the Nazi regime during World War II. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 32400 - Europe in the Age of Renaissance and Reformation (W)

Pluralism and Diversity
PD/D
GER
European life and society in early modern era. Religious, political, economic and social change.
Courses at the 300-level and above not offered to freshmen.
preReq or coreq: ENGL 12000
3 hrs
3 cr.

**HIST 32500 - Europe in the Age of Absolutism and Revolution**

GER
3/B

Europe from the middle of the 17th century through the Congress of Vienna in 1815. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 32600 - Europe 1815-1914**

GER
3/B

Political, social, intellectual and economic developments from the Congress of Vienna to World War I. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 32700 - Europe since 1914**
GER
3/B

Europe in a century of total wars and cold war: the military, political, social, economic and intellectual scene.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 32900 - History of European Diplomacy

PD/D
GER
3/B

From the Congress of Vienna and national unification movements through the era of total wars and cold war.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 33000 - Social and Economic History of Modern Europe

Pluralism and Diversity
PD/D
GER
3/B

Social and economic developments in Europe during the past 200 years.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.
HIST 33100 -
European Culture in the 16th, 17th and 18th Centuries (W)

GER
3/B

The impact of the Reformation, Counter-Reformation, the Scientific Revolution and related movements.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 33200 - Modern Culture from the 18th to the 20th Centuries

GER
3/B

From the impact of the Scientific Revolution and the Enlightenment to recent literature, art, religion and science. European political and social thought.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 33400 - France during the Revolution and Napoleonic Eras

GER
3/B

A study of the 18th-century antecedents of the French
Revolution, the Revolutionary decade and the Napoleonic period.
Courses at the 300-level and above not offered to freshmen.

HIST 33500 - History of Modern France

GER
3/B

The French experience since Napoleon, with emphasis on life and death under the three Republics since 1870.
Courses at the 300-level and above not offered to freshmen.

HIST 33600 - History of 20th-Century Germany (W)

Pluralism and Diversity
PD/D
An introduction to the major themes in German history in the 20th Century. It covers such topics as the impact of the First World War, the rise of Adolf Hitler and the Nazis, the Second World War, and Germany's place in the Cold War. The course places particular emphasis on the controversies which have arisen out of Germany's turbulent recent past.

This course is an introduction to the major themes in German history in the 20th Century. It covers such topics as the impact of the First World War, the rise of Adolf Hitler and the Nazis, the Second World War, and
Germany's place in the Cold War. The course places particular emphasis on the controversies which have arisen out of Germany's turbulent recent past.
prereq: ENGL 12000; Not offered to freshmen.
3 hrs
3 cr.

HIST 33700 - History of Spain

GER
3/B

From the Middle Ages to the present. Political, economic and social developments. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 33800 - History of Italy (W)

Pluralism and Diversity
PD/D
GER
3/B

Classical to Renaissance background. Catholic Reformation, foreign domination, Risorgimento to Fascism, post-World War II era. Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 34250 - Early British History to 1689
GER
3/B

Origins, medieval and early modern Britain to the Glorious Revolution. Courses at the 300-level and above not offered to freshmen. 
3 hrs
3 cr.

HIST 34251 - Britain Since 1689

Pluralism and Diversity
PD/D
GER
3/B

British history since the Glorious Revolution. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 34300 - England under the Tudors and Stuarts

GER
3/B

Government and society, 1485-1714. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 34600 - Churchill's Britain (W)

GER
3/B

The history of Britain and its
empire in the 20th century. The emphasis will be on the world wars and their impact on British military and diplomatic power, and thus on the spread of British imperial rule up to the 1920s, as well as on the changes the wars brought to the British economy, society and culture and, ultimately, the collapse of the empire after 1945. The major theme of the course will be how to understand Britain's "decline" in the 20th century. The rise and fall of the British imperial system and its transformation into a Commonwealth of nations.

Courses at the 300-level and above not offered to freshmen.

*prereq: ENGL 12000
3 hrs
3 cr.*

**HIST 37400 - Russia to the 20th Century**

*Pluralism and Diversity
PD/D
GER
3/B*

Political, socioeconomic and cultural development of Russia from its Kievan origins to the crisis of monarchy.

Courses at the 300-level and above not offered to freshmen.

*3 hrs
3 cr.*

**HIST 37500 - Late Imperial Russia and the Soviet Union**

*Pluralism and Diversity
PD/D
GER*
Political, socioeconomic and cultural development of late 19th and 20th century Russian and Soviet society. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 37600 - Soviet Foreign Policy**

**GER**
3/B

Objectives and strategies adopted by the Soviet government from the Russian Revolution of 1917 to the end of World War II. Courses at the 300-level and above not offered to freshmen.

*prereq: at least one course in 20th century Europe or European diplomacy is recommended*

3 hrs
3 cr.

**HIST 38400 - Problems in European History (W)**

**GER**
3/B

Intensive reading and research in selected topics. Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*

3 hrs
3 cr.
HIST 48400 - Problems in European History (Honors) (W)

GER
3/B

Courses at the 300-level and above not offered to freshmen.
prereq: perm chair
3 hrs
3 cr.

3 hrs
3 cr.

HIST 31800 - History of the American Working Class (W)
Pluralism and Diversity
PD/D
GER
3/B

History of the American working class from Colonial times to the present; changing work experience, community life, organizational efforts and political activity of working people. Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000

3 hrs
3 cr.

HIST 35300 - History of New York City

GER
3/B

Urban development; emergence as the financial and cultural capital of the nation; ethnic and racial diversity; dynamics of economic and physical growth; problems of city politics. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 35400 - The American Colonies in the 17th Century (W)

GER
3/B

Comparative treatment of settlement in the Spanish, Portuguese, French, Dutch and English colonies.
Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 35500 - The American Colonies in the 18th Century (W)

GER 3/B

Social, political and cultural changes.

Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 35600 - The Early Republic

GER 3/B

Politics and society in the period of Jefferson and Jackson; reform, expansion and change.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 35700 - American-Jewish History (W)

Pluralism and Diversity
PD/D
GER 3/B
Development of the American Jewish community; economic, political and social integration; cultural adaptation.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 35800 - 20th Century United States (W)

Pluralism and Diversity
PD/D
GER 3/B

Leading personalities and domestic problems of the U.S. Since 1900.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 35900 - Immigration and Ethnicity in the United States

Pluralism and Diversity
PD/D
GER 3/B

Experience of immigrant groups since Colonial times; motives for coming; economic and social adjustment; encounter with prejudice; ethnic institutions. Courses at the 300-level and above not offered to freshmen.
HIST 36100 - America and the World in the 20th Century

Pluralism and Diversity
PD/D
GER
3/B

The trajectory of American foreign relations during the last century, focusing on how and why the United States engaged other nations and peoples as it did. It also explores the ways in which developments overseas helped shape American domestic life.
Courses at the 300-level and above not offered to freshmen.
prereq: ENGL 12000
3 hrs
3 cr.

HIST 36200 - Biography and Autobiography in the History of the U.S.

GER
3/B

Studies of Americans prominent in politics, art and national life.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 36300 - American Cultural History
Pluralism and Diversity
PD/D
GER
3/B

An exploration of several significant themes in American cultural history from the late nineteenth through the late twentieth centuries. Through close readings of selected primary and secondary works (both written and visual) we will consider the meanings of popular, proto-mass, and mass culture as well as the nature of different levels of cultural tastes and styles in modern American history. Reflecting on the broader social and political context of these developments we will study a range of topics, including the myth of the self-made man, the role of the frontier and the cowboy, and critiques of mass consumer culture. Central to our historical examination of American culture will be an effort to appraise and describe: how American writers, artists, orators, cultural critics and everyday people constructed narratives (written, spoken, musical, visual) of identity for themselves along ethnic, racial, gendered, class-based and national lines; how the construction of those narratives were related to each other; and, how those narratives changed over time depending on specific political and social contexts.

Not open to students who took HIST 34174, the experimental version of this course.

3 hrs
3 cr.
HIST 36400 -
American
Constitutional
History, 1783 to
1900

Pluralism and Diversity
PD/D
GER
3/B

Development of
constitutional thought from
the framing of the Articles of
Confederation to 1900.
Courses at the 300-level and
above not offered to freshmen.
3 hrs
3 cr.

HIST 36500 -
American Economic
History

GER
3/B

Rural agrarianism to
advanced industrialism.
Political and social forces,
problems of capitalism, social
classes.
Courses at the 300-level and
above not offered to freshmen.
3 hrs
3 cr.

HIST 36600 - Role of
Women in American
History

Pluralism and Diversity
PD/D
GER
3/B

Women in all aspects of the
country's past; drive to
suffrage and its aftermath.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 36700 - Civil War and Reconstruction**

**Pluralism and Diversity**

**PD/D**

**GER**

3/B

Slavery, sectional conflict, political crisis of Union. New interpretations of postwar race relations.

Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 36900 - African American History in the United States**

**GER**

3/B

From the Colonial era to the present. Slavery, emancipation, social and cultural transformation, political turning points and economic issues.

Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 37000 - The West in American History**

**GER**

3/B
As an undeveloped area; westward expansion, Indian-white relations; paradoxes of government policy; the modern West.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 38300 - Problems in U.S. History (W)**

- GER 3/B

  Intensive reading and research in selected topics. Courses at the 300-level and above not offered to freshmen.
  - *prereq or coreq: ENGL 12000*
  - 3 hrs
  - 3 cr.

**HIST 48300 - Problems in U.S. History (Honors) (W)**

- GER 3/B

  Courses at the 300-level and above not offered to freshmen.
  - *prereq: perm chair*

GER 2/B

Survey of the Jewish religious tradition with attention to interactions between Judaism and other religions and to the role of Judaism in the formation of Christianity and Islam. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 27100 - Early History of Latin America

History and cultures of Amerindian groups in Central and South America and the Caribbean; encounter and multiple interactions of European and African cultures with indigenous societies; development of Iberian colonial systems and cultures within the Americas. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.
HIST 27200 - History of Latin America in the 19th and 20th Centuries

Political, economic, social and cultural transformations contributing to the development of modern Latin America. Emphasis will be on major historical processes and their impact on the region's cultural diverse population. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 27650 - Middle Eastern History from the Beginning of Islam to 1800 (W)

Pluralism and Diversity
PD/A
Religious, cultural and social changes in the region. The emergence of the religion of Islam, the expansion of the Islamic realm and the rise and fall of subsequent Islamic states up to the 18th century. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 27651 - The Modern Middle East from 1800 to the Present (W)

Pluralism and Diversity
PD/A
The transformation of states and peoples in the last two centuries in the region stretching from Turkey to Iran and including Iraq, Syria,
Egypt and Arabia. Modern social and cultural trends, conflicts and reactions under the impact of imperialism, nationalism, economic trends and religious forces. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 27700 - East Asia to 1600 (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600 AD. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 27800 - East Asia, 1600 to the Present (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD. Courses at the 300-level and above not offered to freshmen.
HIST 28800 - History of Africa to the 19th Century

Pluralism and Diversity
PD/A
GER
2/B

Survey of pre-colonial African societies with emphasis on economic and social institutions changing under the impact of the environment.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 28900 - Africa in the 19th and 20th Centuries (W)

Pluralism and Diversity
PD/A
GER
2/B

Historical explanation of independent Africa rising after colonialism and adjusting to modernization.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 30100 - History of the Ancient Near East

GER
3/B

Political and cultural
developments in Egypt, Mesopotamia, Syria-Palestine, Asia Minor, Persia ca. 3000 BCE to 323 BCE. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 30900 - Jewish History in the Ancient World**

Pluralism and Diversity
PD/A
GER
3/B

The Jewish people from its origins in late antiquity; social and intellectual developments from biblical to Talmudic times. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 37300 - History of the Ottoman Empire (W)**

Pluralism and Diversity
PD/A
GER
3/B

This course comprises, chronologically and thematically, the history of the Ottoman Empire from the Turkic migrations in the 12th-century to the end of the empire in 1923 and the rise of nationalism in the Middle East. Fundamental knowledge of the history of the Middle East is recommended.

*prereq: ENGL 12000*
HIST 37700 - Ancient and Imperial China to 1800

GER 3/B

China's traditions and transformation from Neolithic times to the late-imperial period, emphasizing state/society relations and the development of the centralized bureaucratic political system; covers political, economic, religious and social developments. Courses at the 300-level and above not offered to freshmen.

HIST 37800 - China Since 1800

GER 3/B

Internal and external challenges to China's traditional order; the collapse of the imperial system and the establishment of a republic; the warlord period; the war against Japan; the civil war between Communist and Nationalist forces; China since the rise of the Communist Party to state power in 1949. Courses at the 300-level and above not offered to freshmen.

HIST 37900 - Japan to 1800
Pluralism and Diversity
PD/A
GER
3/B

Japanese history from Neolithic times to the late Tokugawa period, emphasizing political, social, religious and cultural developments. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 38000 - Japan since 1800

Pluralism and Diversity
PD/A
GER
3/B

Japan's remarkable transformation from the late Tokugawa to the present, emphasizing political, cultural and social-economic aspects of the Meiji Restoration, the rise of militarism and post-World War II developments. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 38500 - Problems in Non-Western History (W)

GER
3/B

Intensive reading and research in selected topics. Courses at the 300-level and above not offered to freshmen.
HIST 38900 - History of South Asia

GER
3/B
History of India and nearby countries from the ancient to modern times. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 39000 - History of Modern West Africa

GER
3/B
Impact of Islam, Christianity and colonialism. Analysis of African nationalism and problems of independence. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 48500 - Problems in Non-Western History (Honors) (W)

GER
3/B
Courses at the 300-level and above not offered to freshmen.
prereq: perm chair
3 hrs
3 cr.
**HIST 14100 - Contemporary Issues in Historical Perspective (W)**

Selected themes in history that bear on current problems and situations.

*3 hrs*

*3 cr.*

**HIST 25000 - Historical Issues (W)**

**Pluralism and Diversity**
PD/B (HIST 25004 only)
Study of selected historical themes and issues. Topics vary each semester. May be taken a second time.
Courses at the 300-level and above not offered to freshmen.

*3 hrs*

*3 cr.*

**HIST 29000 - History Practicum (W)**

A seminar-style course intended to introduce students to the practice of historical research and writing. Students will be given a directed "hands-on" experience in conducting historical research and in the writing of research papers in measured, progressively challenging assignments. The course will prepare students to successfully engage in more self-directed, substantial and independent historical research projects in the future.

*prereq: ENGL 12000; 6 cr in history and permission of the department*

*3 hrs.*

*3 cr.*
HIST 29100 - Historical Methods

The study of history, its sources and its methods. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

HIST 30000 - Historical Research (W)

GER
3/B

Independent research related to a prior upper-level course already completed under the supervising instructor. The research will result in an extensive paper.

Courses at the 300-level and above not offered to freshmen.

prereq: HIST 29000 and departmental permission

3 hrs
3 cr.

HIST 34100 - Topics in History (W)

GER
3/B

Exploration of major trends, special controversies or significant events; topics vary each term.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.
HIST 34122 - Latin American Political Economy

GER
3/B

courses at the 300-level and above not open to freshmen
3 hrs
3 cr.

HIST 34139 - African Influences in the Americas

GER
3/B

Courses at the 300-level and above not open to freshmen
3 hrs
3 cr.

HIST 38200 - Historical Studies Seminar

GER
3/B

Topics vary each term. Courses at the 300-level and above not offered to freshmen.
prereq: GPA 2.8; history GPA 3.5
3 hrs
3 cr.

HIST 39100 - Historical Restoration and Museum Work

GER
3/B

Introduction to museum work.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 40000 - Historical Research [H]**

**GER**
3/B

The origins of history writing and the modern historical profession; modes of historical research; the evaluation of historical evidence; the historical and social uses of history. Recommended for all history majors. Required of students who wish to graduate with honors in history.

Courses at the 300-level and above not offered to freshmen.

**prereq:** not open to students who have completed fewer than 80 credits

3 hrs
3 cr.

**HIST 49200 - Honors Seminar in Historical Studies**

3 hrs
3 cr.

**HIST 49300 - Individual Tutorial Research Project**

**GER**
3/B

Research paper under individual supervision of faculty member.

Courses at the 300-level and
above not offered to freshmen.
prereq: perm chair and instr.
3 hrs
3 cr.

HIST 49800 - Internship

Work in professional institutions.
Courses at the 300-level and above not offered to freshmen.
prereq: perm chair
1-6 cr.

HIST 31500 - Christianity in Modern Times

GER
3/B

Not offered to freshmen.
Transformation of Christianity since the Reformation, Enlightenment and modern political and intellectual challenges.
3 hrs
3 cr.

HIST 11300 - 20th-Century World History

An introduction to broad trends and major themes of the world's history in the twentieth century.
prereq or coreq: ENGL 12000
3 hrs.
3 cr.

HIST 25015 - Rabbis, Radicals, and Racketeers: A
History of Jewish New York

This course will survey the history of New York City by focusing its Jewish inhabitants.
cross-listed 1S 35009
3 hrs.
3 cr.

HIST 25022 - Gender in Modern Jewish History

This course will explore how Jews over the past several centuries have understood, performed, and changed ideas related to gender, sexuality, and the family.
3 hrs.
3 cr.

HIST 26100 - History of Modern India and South Asia, 1526-the present

An introduction to the history of South Asia (India, Pakistan, Bangladesh, etc.) from 1526 to the present.
prereq or coreq: ENGL 12000
3 hrs.
3 cr.

Programs and Courses in Human Rights
Human Rights

Overview

The Human Rights Program examines the theory and practice of human rights, combining academic training with hands-on experience. By exploring the philosophical foundations and legal framework of human rights, as well as addressing current political, social and economic realities, the program seeks to give students the tools necessary to engage intelligently with contemporary human rights problems. Among the thorny issues students may examine are indigenous peoples' rights to natural resources, the limits of freedom of expression, the problem of corporate complicity in rights violations, the legitimacy of humanitarian intervention, and the problem of enforceability (both of economic, social, and cultural rights, and of civil and political rights).

An interdisciplinary program, the Human Rights Program offers courses in political science, anthropology, sociology and history, among other fields of study. Students may follow either of two academic tracks: a 15-credit Minor in human rights, or 24-credit Certificate. A key element of both tracks is the human rights internship, which gives students direct experience with the researchers, advocates, lawyers and analysts who make up the human rights
movement.
Both the Minor and Certificate in human rights are good preparation for a career in government, at a nongovernmental organization, or in a regional or international agency. Many students may choose to go on to law school, journalism school or a graduate program. Whatever their career choice, their knowledge of human rights will make them more thoughtful and informed citizens.

Human Rights Certificate
24-credit Certificate in Human Rights

- 4 Core Required Courses from an approved list
  - HR 20000 Introduction to Human Rights: History, Discourse, Practice (W)
  - HR 25000 Human Rights Internship
  - HR 26000 Human Rights Internship Seminar (W)
  - HR 35000 Human Rights Capstone Seminar (W)
- 4 Elective Cognate Courses from an approved list

- The approved list of cognates comprises courses drawn from 18 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Certificate program, a student must have at least completed HR 20000 with a B and have a cumulative GPA of 3.0.
Minor in Human Rights

The 15 credit minor in Human Rights consists of five 3 credit courses:

- 2 Core Required Courses
- Introduction to Human Rights (HR 20000)
- Internship in Human Rights (HR 25000)
- Elective Cognate Courses from an approved list
- The approved list of cognates comprises courses drawn from 16 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students
should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses. Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners. To be accepted into the Minor program, a student must have completed HR 20000 with a B and have a cumulative GPA of 3.0.

**HR 20000 - Introduction to Human Rights: History, Discourse, Practice (W)**

*Pluralism and Diversity*  
PD/D  
*GER*  
3/B  

An introduction to the study of human rights. It explores the historical, philosophical, and legal roots of human rights as a political idea and
institutionalized practice. It also addressed the contested nature of human rights as an idea and practice in contemporary societies. In addition to providing an introduction to the subject, the course is a requirement for students minoring in Human Rights or pursuing a Human Rights Certificate.

In order to pursue a Human Rights minor or Certificate, a student must receive at least a B (3.0) in this course. Students should take this introductory course in their sophomore year but must take it no later than the first semester of their junior year. This is a writing intensive course. 

**prereq: ENGL 12000 or equivalent; one course in ethics, political philosophy, political theory, sociological theory, or permission from the instructors.**

Topics in Human Rights

This course covers special topics in human rights. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international politics of human rights. This course will generally be offered every semester, and certainly at least every two years. The course may be repeated four times for credit with different topics.

prereq: ENGL 12000; HR 20000 is recommended but not required
3 hrs
3 cr.

HR 25000 - Human
Rights Internship

This is a practicum course. It involves students participating in an organization that identifies its mission as the promotion of human rights. The aim of the course is to educate students in the practical dimension of translating human rights discourse and law into practice. The course is required for students seeking a Human Rights Certificate or a minor in Human Rights.

prereq: ENGL 12000 or equivalent; HR 20000 or equivalent
3 hrs
3 cr.
fall, winter, spring, and summer

HR 26000 - Human Rights Internship Seminar (W)

This course critically evaluates the role of human rights organizations and human rights practices in determining the meaning and value of human rights.

prereq: ENGL
12000 and HR 20000
prereq or coreq: HR 25000
3 hrs
3 cr.
fall semesters on Wednesdays, 10:10 a.m. – 1:00 p.m. It is recommended that students not take an earlier Wednesday morning class, as site visits off campus may start at 10:00 a.m.

HR 32000 - Special Topics in Human Rights

This course covers special topics in human rights on an advanced undergraduate level. Topics vary from semester to semester, and will often include topics related to human rights in particular countries or regions of the world, or themes within the field of human rights. Some examples of themes would include: theoretical foundations of human rights; human rights and international justice; international organizations and human rights; and, domestic and international
politics of human rights. This course will generally be offered every semester, and certainly at least every two years. May be repeated four times for credit with different topics.

*prereq: ENGL 12000; HR 20000 or Permission of Instructor or Permission of Human Rights Program Director
3 hrs
3 cr.*

**HR 35000 - Human Rights Capstone Seminar (W)**

This course involves the theoretical examination of constitutive problems in the discourse and practice of human rights, especially as they would inform the composition of a human rights academic research project. It requires participating students to present their research projects in the seminar and to compose a 20-25 page research paper on a human rights topic.

This course is
specifically designed for students who are pursuing a Certificate in Human Rights. This is a writing intensive course. 

prereq or coreq: HR 26000
Offered spring only

Programs and Courses in Hunter-Bellevue School of Nursing

Hunter-Bellevue School of Nursing

Overview

The Hunter-Bellevue School of Nursing is located
at Hunter College’s Brookdale Health Science Center at 425 East 25th Street in Manhattan, near Bellevue Hospital. The School’s programs combine liberal and professional education with a humanistic and comprehensive approach to health care. The School’s mission is to provide quality nursing education to promote health and provide care to culturally diverse, urban, and global communities through research, scholarship, and service. The School’s programs combine liberal and professional education with a humanistic and comprehensive approach to health care.

The School offers three programs leading to the Bachelor of Science (with a major in nursing) degree: the Generic Program, for students who do not have an RN license; the RN to BS Program, for students who have completed a nursing program and have received or are about to receive a current RN license to practice.
professional nursing in New York State and the Accelerated 2nd Degree Program, for students who have already achieved a baccalaureate degree in another field of study and wish to transition into a nursing career. Information on applying to all of our programs is available at http://www.hunter.cuny.edu/nursing. In earning the Bachelor of Science (with a major in Nursing) degree, students in all programs complete core requirements and professional education curriculum requirements.

What can I do with my degree in Nursing?

Hunter-Bellevue Baccalaureate graduates are prepared to practice as generalist nurses in health care settings.

Degree Map for Nursing: Generic Pathway

The degree map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with a Nursing: Generic major. The Degree Map is a tool to assist you and your advisor in planning your academic path to graduation. Use it along with the
program of study information for your major (found in the Hunter Catalog) and Degree Works (student degree audit system) to discuss your academic plan with your advisor. Courses required for the major, Hunter Core Requirement (HCR) courses, and elective classes must be selected to concurrently satisfy all Pluralism & Diversity and writing intensive requirements. Students are encouraged to consider pursuing a minor through the selection of electives. Your specific program of study could, and probably will, look different. You need to customize the Degree Map to fit your situation. Consult with your adviser about the best path for you.

Freshman Year

Fall

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER

I/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required

3 hrs + conf

3 cr.

STAT 11300 -
Elementary Probability
and Statistics

Hunter Core
Math/Quantitative
Reasoning

GER

I/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal
probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

CHEM 10000 (STEM) - Essentials of General Chemistry Lecture

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
GER 2/E

Essential facts, laws, and theories of general chemistry. Primarily for nursing, nutrition and food science
CHEM 10100 - Inquiries into the Nature of Matter

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
GER 2/E

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students. Primarily for nursing, nutrition and food science and public health and community health education students. Core credit only if both lecture and the corresponding lab are completed.

prereq or coreq: MATH 10100 or 101EN or MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500

4 hrs (3 lec, 1 rec)
3 cr.
ENGL 22000 - Introduction to Writing about Literature (W)

Hunter Core
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

PSYCH 15000 - Human Development

GER
2/B
Development from conception to death; biological, physiological and social factors and their interactions at each stage.

*prereq:* PSYC 10000
3 hrs
3 cr.

**CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture**

**Hunter Core**
Life and Physical Sciences (LPS): Scientific World (SW)

**Pluralism and Diversity**
GER 2/E
Course presents essential facts, laws and theories of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

*prereq:* CHEM 10000
4 hrs (3 lec, 1 rec)
3 cr.

**CHEM 12100 (STEM) - Essentials of**
Organic Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E
Experiments designed to illustrate fundamental laws and techniques of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and public health students.

prereq: CHEM 10100
prereq or coreq: CHEM 12000
3 hrs (3 lab) 1.5 cr.

• Hunter Core

Sophomore Year

Fall

BIOL 12000 - Anatomy and Physiology I

Cell structure and function; histology; nervous, muscular and skeletal
NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.

RN to BS only: online

prereq: CHEM 10000/10100; STAT 11300
coreq: Generic Pathway: NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall
NURS 24000 - Foundations of Genetics for Nurses

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues. For RN to BS students only:
online
prereq: (generic) CHEM 10000/10100, STAT 11300;
(RN-BS) CHEM 10000/10100
coreq: (generic) NURS 20000, NURS 21000
30 hrs. lecture 2 cr.

• Hunter Core
• Hunte Core

Spring
BIOL 12200 - Anatomy and Physiology II

Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program. Not accepted for credit toward the biology major.

prereq: BIOL 12000 or equiv.

7hrs (3hr Lecture, 1hr Recitation, 1hr Lab)

4.5 cr.

spring only

BIOL 23000 - Fundamentals of Microbiology

GER 3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program. Not accepted for credit toward the biology Major I.

prereq: CHEM
NURS 21000 - Nursing Fundamentals and Health Assessment

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client's history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are highlighted for all age groups.

Material fee: $50.00
prereq: (Generic) BIO 12000, NURS 20000, NURS 24000 (A2D)CHEM
10000/10100; STAT 11300
coreq: (Generic): BIO 12200, BIO 23000, NURS 34300
(A2D): NURS 20000; NURS 22000; NURS 33100
30 hrs Lecture; 30 hrs Health Assessment Lab; 45 hrs Clinical 4 cr.

**NURS 34300 - Pathophysiology and Nursing Care**

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
2. Accelerated 2nd Degree: BIO
12200, BIO 23000; NURS 21000
coreq: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000
45 hrs

NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process

This course introduces students
to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.

prereq: NURS 22000
30 hrs
2 cr.
- Hunter Core

Spring

NURS 33900 - Pharmacology II

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy,
including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

prereq: (Generic and A2D) NURS 22000; NURS 33100
coreq: (generic) NURS 35200; NURS 36000
(A2D) NURS 34300, NURS 35200, NURS 36000
3 hrs.
3 cr.

NURS 35200 - Nursing Care of Women and Childbearing Families

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high
risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

prereq: (generic & A2D) NURS 22000; NURS 33100
coreq: (Generic ) NURS 33900; NURS 36000 (A2D) NURS 33900, NURS 34300; NURS 36000
30 hrs. Lecture, 90 hrs. Clinical 4 cr.

NURS 36000 - Nursing Care of Infants, Children, and Adolescents

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system.
within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

**prereq:** NURS 22000; NURS 33100 (generic & A2D)

**coreq:** (Generic) NURS 33900; NURS 35200 (A2D) NURS 33900, NURS 34300; NURS 35200

22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical

4 cr.

**NURS 35000 - Independent Study in Nursing**

An opportunity to explore a topic relevant to nursing which is of individual interest.

1-3 hrs

1-3 cr.

- Hunter Core
Senior Year

Fall

NURS 34900 - Foundations of Ethics and End-of-Life Care

Core professional values and excellences, foundational ethical principles, and essential topics in end of life care will be introduced and explored during this course. Emphasis will be on acquiring generalized knowledge to enable the novice nurse to 1) apply ethical principles to practice, 2) develop the skills to practice with moral comportment and courage, and 3) understand the needs of the dying patient (and loved ones) in order to provide quality end of life care. At the completion of this course with required attendance for all modules, students will be designated "EL NEC Trained."

prereq: NURS 22000
coreq: NURS 45500; NURS 46000
This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team.
Material fee: $25.00

prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 45500
(A2D) NURS 45500
30 hrs: Lecture, 15 hrs: Lab; 67.5 hrs Clinical
4 cr.

**NURS 45500 - Public Health Nursing**

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in
preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 46000
(A2D) NURS 46000

NURS 47000 - Adult Acute Illness/Immersion Clinical

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and /or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of
systematic analysis of relevant research are discussed.

**prereq:** NURS 45500; NURS 46000

**coreq:** (Generic) NURS 42200; NURS 49000; NURS 49200

(A2D) NURS 42000; NURS 49000; NURS 49200

22.5 hrs: Lecture; 112.5 hrs: Clinical

4 cr.

**NURS 49000 - Gerontologic al Nursing**

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the
older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with inter-disciplinary health teams.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 47000; NURS 49200 (A2D) NURS 42000; NURS 47000; NURS 49200
30 hrs: Lecture; 90 hrs: Clinical
4 cr.

**NURS 49200 - Advanced Synthesis of Nursing Knowledge**

This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts
that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

**prereq:** (generic) NURS 33900, NURS 34900, NURS 45500, NURS 46000

(A2D) NURS 33900, NURS 45500, NURS 46000 (A2D)

22.5 hrs: Lecture, 30 hrs: Lab

2 cr.

**NURS 42200 - Health Policy and Leadership**

This final-semester course examines the roles of the professional nurse
in leading and managing health care services within a complex and evolving health system. The course examines trends in health care delivery and health policy, as well as registered nurses’ accountability for delivering and overseeing the provision of safe, quality health care services. Principles of coordinating care, delegation and assignment of nursing tasks and functions, and collaboration with other health professions are addressed. The course examines nurses’ roles in advocating on behalf of patients, themselves and the profession.

prereq: NURS 45500; NURS 46000
coreq: NURS 47000; NURS 49000; NURS 49200
45 hrs: Lecture 3 cr.
• Hunter Core

Nursing Accelerated 2nd Degree Program
This program is designed for students who have a baccalaureate degree in another field and wish to transition into a career in nursing. The program is intensive; students receive a Bachelor of Science degree with a major in Nursing in 18 months provided they have met all general education requirements. The Accelerated 2nd Degree Program is a full-time program that includes weekends, daytime and evening classes.

Requirements for Admission

In order to be considered for admission into the Accelerated 2nd Degree Program, applicants must meet eligibility requirements and admission criteria. All students applying to the Accelerated 2nd Degree Nursing Program must have a baccalaureate degree from an accredited institution with a minimum cumulative GPA of 3.2 and a minimum grade of “B” in all
science courses by June 1 preceding their entrance into the program. Students who meet GPA and degree requirements are required to take the National League for Nursing Pre-admission-RN Examination in order to apply for admission into the program.

Students may take their last two required courses for admission during the spring semester of the admission process. Required courses must be taken for a grade: courses taken on a credit/no credit (CR/NC) basis will not be accepted. Students may not take required courses during the summer immediately preceding the fall entry into the program. Proof of successful completion of courses taken in the spring must be received by the School of Nursing by June 1. Because admissions decisions are made before the spring term ends, applicants with pending grades will be conditionally accepted until receipt of final grades. Acceptance
into the nursing major is based on the following admission criteria: composite admission score (GPA plus score on NLN Pre-Admission-RN Examination) and completion of all admission requirements. The composite scores are rank ordered from the highest to the lowest, and admission decisions are given to those applicants with the highest scores.

Requirements for the Degree:

69 non-nursing and 51 nursing credits

Accelerated 2nd Degree Program:

**NURS 20000 - Introduction to Nursing**

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of
service-learning are introduced.

**coreq**: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200, NURS 36000; 45 hrs; 3 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing. For RN to BS only: online
prereq: Generic Program: NURS 21000
Accelerated 2nd Degree: NURS 22000
coreq: Generic Program: NURS 22000; NURS 33100; NURS 33200
Accelerated 2nd Degree: none
3 hrs; 3 cr.

NURS 42000 - Nursing Leadership and Ethics

In this course, students will examine the roles of the professional leadership in leading and managing health care services and ensuring ethical nursing practice. The course examines trends in
health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services consistent with the ethical principles of the nursing profession. Students will be introduced to principles of coordinating care, including delegation and assignment of nursing tasks and functions. The course addresses nurses' roles in advocating on behalf of patients, themselves and the profession.

prereq: NURS 45500; NURS 46000

coreq: NURS 47000; NURS 49000; NURS 49200

3 hrs

3 cr.

RN Pathway Courses

Nursing RN-to-BS

NURS 37900 - Nursing and Societal Forces in the Health Care
Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses.

Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.

For RN students only

online
3 hrs
3 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing.
For RN to BS only:
online
prereq: Generic Program: NURS 21000
Accelerated 2nd Degree: NURS 22000
coreq: Generic Program: NURS
22000; NURS
33100; NURS
33200
Accelerated 2nd
Degree: none
3 hrs
3 cr.

NURS 38100 -
Health
Assessment
Throughout
the Lifespan

Open to RN-BS
Program students
only. Analysis of
normal patterns of
wellness for
individual clients
with emphasis on
development of
assessment skills.
Fully online.
Material Fee: $45
prereq: CHEM
10000, CHEM
10100
3 hrs
3 cr.

NURS 48000 -
Promotion of
Wellness in
the
Community

Open to RN-BS
students only.
Examination of
family and
community patterns
as they relate to
individual clients of
all ages. Principles
of service-learning
are used in
community-based
clinical experiences
to promote civic
engagement.
NURS 48200 - Advancement of Roles and Relationships in Professional Nursing

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program. Fully online-hybrid.

Nursing Electives

NURS 34000 - Women's Health

Pluralism and Diversity
PD/C
Designed to identify and analyze those factors which impact on the health status of women: biological,
NURS 34200 - Ethical Issues in Nursing Practice

Open to RN-BS and senior Generic Program students only. Examines ethical issues which arise from the practice of nursing in an interpersonal, professional, institutional and social context of diverse and competing values.

3 hrs
3 cr.

NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences...
as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

**prereq:** 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
2. Accelerated 2nd Degree: BIO 12200, BIO 23000; NURS 21000

**coreq:** 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000
45 hrs
3 cr.

**NURS 34500 - HIV/AIDS: An Interdisciplinary Perspective for Health Care Providers**

Examines the impact of the HIV epidemic on the biological, psychological and social dimensions of persons affected by HIV/AIDS.

3 hrs
3 cr.
NURS 34600 - Death and Dying

Pluralism and Diversity
P/D B
Provides an overview of current theories, concepts, and practices associated with death, dying and end-of-life care.
3 hrs
3 cr.

NURS 35000 - Independent Study in Nursing

An opportunity to explore a topic relevant to nursing which is of individual interest.
1-3 hrs
1-3 cr.

NURS 35100 - Gender, Science and Technology

Pluralism and Diversity
PD/C
Explores the complex relationship between women and the sciences. cross-listed WGSS 35100
3 hrs
3 cr.

NURS 37900 - Nursing and
Societal Forces in the Health Care Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses.
Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.
for RN students only

online
3 hrs
3 cr.

NURS 39998 - Urban Disaster Response and the Health Care Team

Provides the student with an understanding of the causes, prevention, and mitigation of disasters and
insight into the disaster management system nationally and locally. The course will include content relevant to all disciplines in the disaster care continuum and focus on each individual health care member's role and responsibilities within these systems.

3 hrs
3 cr.

NURS 44000 - Stress Management for Nurses

An overview of stress and its effect upon behavior within the framework of the holistic man-wellness model.

3 hrs
3 cr.

NURS 44100 - Selected Studies in Nursing Research

Honors course. Utilization of basic knowledge in nursing research to critique and interpret studies and discuss their relevance and application in nursing.
prereq: NURS 31000, 31200, 33100, 33200, 38000, 38100
3 hrs.
3 cr.

NURS 44200 - Nursing Care of Acute and Critically Ill Clients

Examination of nursing knowledge and roles in caring for acute and critically ill clients and their families.
3 hrs
3 cr.

NURS 44500 - Teaching-Learning Across the Developmental and Health Continua

Pedagogical/androgogical principles of learning and instruction to enhance client teaching in the promotion, maintenance and/or restoration of health.
3 hrs
3 cr.

NURS 45000 - Computer Concepts and Application in Nursing
Study of computing concepts, principles, practices, and applications in nursing and health care.
3 hrs
3 cr.

NURS 48300 - Politics of Health

An analysis of the relationships between politics and health status, health services and health care providers.
3 hrs
3 cr.

Leave of Absence Policy and Reserved Placement in a Clinical Course

A reserved placement in a clinical/field course will be held for the student for only one year from the date of the leave of absence. The School of Nursing cannot guarantee the placement for any longer period of time. It is the responsibility of the student to submit to the undergraduate program director a
letter of intent, one semester prior to returning to the program and enrolling in the course (April 1 for a fall course). Students who fail to follow this procedure release the School of Nursing from reserving a clinical/field placement in a course for the student.

**Nursing Generic Program**

The Hunter-Bellevue School of Nursing undergraduate program of study combines liberal arts and professional nursing education with a humanistic and comprehensive approach to health care, leading to a Bachelor of Science degree with a major in Nursing. At the completion of this generic program, students are eligible to take the National Council of State Boards Licensing Examination for RNs (NCLEX-RN). The undergraduate program also provides a foundation for
graduate study. The Generic Program consists of two parts:

- Non-nursing (liberal arts and core requirements)
- Nursing (professional nursing education)

Students are considered for admission to the school of nursing for the fall semester only, after completing non-nursing prerequisite courses and an application. Only students admitted to the School of Nursing are permitted to declare nursing as their major. Students admitted to the School of Nursing are required to attend the program on a full-time basis.

Requirements for Admission to Nursing Program

All students applying to the Generic Nursing Program must have a college GPA of 3.2 or above by the end of the fall semester preceding spring application.
• Courses taken prior to clinical nursing courses may not be taken on a Credit/No Credit basis.
• Required courses for admission to nursing major with a minimum GPA of 3.2 and a minimum grade of "B" in statistics and all science courses:
  • General Chemistry with lab (CHEM 10000/ CHEM 10100) or higher equivalent course
  • Organic Chemistry with lab (CHEM 12000/ CHEM 12100) or higher equivalent course
  • Introduction to Statistics (STAT 11300) or higher equivalent course
  • History (HIST 15100, HIST 15200 or POLSC 11000)
  • English Composition (ENGL 12000 and ENGL 22000)
  • General Psychology (PSYCH 10000)
  • Human Development (Developmental Psychology of the Life Span; PSYCH 15000)
• Students enrolled in required courses for admission to nursing major during the spring semester of
application must provide proof of a minimum cumulative GPA of 3.2 and a minimum grade of "B" in all science courses no later than June 1st in order to receive final acceptance to the nursing major.

- A career goal statement will be required.
- Complete the NLN RN Pre-Admission exam (referred to as the NLN PAX exam) which is administered in February at Hunter College Testing Center (150N)

Non-Nursing Program Requirements

For CUNY
Common Core-Required Core & CUNY Common Core-Flexible Core
go to General Education - Effective Fall 2019.

Nursing Program Requirements (120 credits)
Requirements for the degree:

60 non-nursing and 60 nursing credits.

**BIOL 12000 - Anatomy and Physiology I**

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program. Not accepted for credit toward the biology major.

*prereq: CHEM 10000, 10100  
coreq: CHEM 12000, 12100  
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)  
4.5 cr.  
fall only*

**BIOL 12200 - Anatomy and Physiology II**

Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program. Not accepted for credit toward the biology major.
prereq: BIOL 12000 or equiv.
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
spring only

BIOL 23000 -
Fundamentals of Microbiology

GER 3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program. Not accepted for credit toward the biology Major I.

prereq: CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200
5 hrs (2 lec, 3 lab)
3 cr.
spring only

NURS 20000 -
Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of
nursing. The principles of service-learning are introduced.
RN to BS only: online

prereq: CHEM 10000/10100; STAT 11300
coreq: Generic Pathway: NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall

NURS 21000 - Nursing Fundamentals and Health Assessment

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client's history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of
the well person
with common
health problems.
Health promotion
and maintenance
strategies are
highlighted for all
age groups.

Material fee:
$50.00
prereq: (Generic)
BIO 12000, NURS
20000, NURS
24000
(A2D)CHEM
10000/10100; STAT
11300
coreq: (Generic):
BIO 12200, BIO
23000, NURS
34300
(A2D): NURS
20000; NURS
22000; NURS
33100
30 hrs Lecture; 30
hrs Health
Assessment Lab; 45
hrs Clinical
4 cr.

NURS 22000 -
Adult Health
and Illness

This class provides
a knowledge base
for effective
nursing care of
adult clients.
Students will gain
insight into the
management of
chronic illnesses.
Through utilization
of the nursing
process, the student's
role as client
advocate, patient
educator, and
caregiver are
further actualized.
Methods of systematic analysis of research are introduced. Experimental learning in a variety of setting provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.

Material Fee $50.00

prereq: (Generic): NURS 21000, NURS 34300, NURS 24000; BIO 12200, BIO 23000
(A2D): CHEM 10000/10100; STAT 11300

coreq: (Generic) NURS 33100; NURS 33200
(A2D): NURS 20000, NURS 21000, NURS 33100

22.5 hrs Lecture, 30 hrs Lab, 67.5 hrs. Clinical
4 cr.

**NURS 24000 - Foundations of Genetics for Nurses**

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed.
Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues.

For RN to BS students only:
online
prereq: (generic) CHEM 10000/10100, STAT 11300;
(RN-BS) CHEM 10000/10100
coreq: (generic) NURS 20000, NURS 21000
30 hrs. lecture 2 cr.

**NURS 33100 - Pharmacology I**

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

prereq: 1. Generic Program: NURS 21000; NURS
NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process

This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro-and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and
HIV/AIDS.

prereq: NURS 22000
30 hrs
2 cr.

NURS 33900 - Pharmacology II

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

prereq: (Generic and A2D) NURS 22000; NURS 33100
coreq: (generic) NURS 35200; NURS 36000
(A2D) NURS 34300, NURS 35200, NURS 36000
3 hrs.
3 cr.

NURS 34300 - Pathophysiology and Nursing Care
This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
2. Accelerated 2nd Degree: BIO 12200, BIO 23000; NURS 21000
coreq: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000
45 hrs
3 cr.

NURS 34900 - Foundations of Ethics and End-of-Life Care
Core professional values and excellences, foundational ethical principles, and essential topics in end of life care will be introduced and explored during this course. Emphasis will be on acquiring generalized knowledge to enable the novice nurse to 1) apply ethical principles to practice, 2) develop the skills to practice with moral comportment and courage, and 3) understand the needs of the dying patient (and loved ones) in order to provide quality end of life care. At the completion of this course with required attendance for all modules, students will be designated "ELNEC Trained."

prereq: NURS 22000
coreq: NURS 45500; NURS 46000
45 hrs. lecture
3 hrs.

NURS 35200 - Nursing Care of Women and Childbearing Families

The course focuses on the assessment,
care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

prereq: (generic & A2D) NURS 22000; NURS 33100
coreq: (Generic ) NURS 33900; NURS 36000 (A2D) NURS 33900, NURS 34300; NURS 36000 30 hrs. Lecture, 90
hrs. Clinical
4 cr.

NURS 36000 - Nursing Care of Infants, Children, and Adolescents

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

prereq: NURS 22000; NURS 33100 (generic & A2D)
coreq: (Generic)
NURS 33900;
NURS 35200 (A2D)
NURS 33900, NURS 34300; NURS 34300; NURS
35200
22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical 4 cr.

**NURS 38000 - Nursing Research and Theory**

Introduction to theory development and research in nursing. For RN to BS only: online
prereq: Generic Program: NURS 21000 Accelerated 2nd Degree: NURS 22000
coreq: Generic Program: NURS 22000; NURS 33100; NURS 33200 Accelerated 2nd Degree: none 3 hrs 3 cr.

**NURS 42200 - Health Policy and Leadership**

This final-semester course examines the roles of the professional nurse in leading and managing health care services within a complex and evolving health system. The course examines trends in health care delivery and health policy, as well as registered
nurses' accountability for delivering and overseeing the provision of safe, quality health care services. Principles of coordinating care, delegation and assignment of nursing tasks and functions, and collaboration with other health professions are addressed. The course examines nurses' roles in advocating on behalf of patients, themselves and the profession.

**prereq:** NURS 45500; NURS 46000  
**coreq:** NURS 47000; NURS 49000; NURS 49200  
45 hrs: Lecture 3 cr.

### NURS 45500 - Public Health Nursing

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of
human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 46000
(A2D) NURS 46000
30 hrs: Lecture, 90 hrs: Clinical
4 cr.

NURS 46000 - Mental and Behavioral Health Nursing

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral
health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team. Material fee: $25.00

prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 45500 (A2D) NURS 45500
30 hrs: Lecture, 15 hrs: Lab; 67.5 hrs Clinical
4 cr.

NURS 47000 - Adult Acute Illness/ Immersion Clinical
This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.

**prereq:** NURS 45500; NURS 46000

**coreq:** (Generic) NURS 42200; NURS 49000; NURS 49200
(A2D) NURS 42000; NURS 49000; NURS 49200

22.5 hrs: Lecture; 112.5 hrs: Clinical 4 cr.

**NURS 49000 - Gerontologic Nursing**

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and
theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with inter-disciplinary health teams.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 47000;
NURS 49200
(A2D) NURS 42000; NURS 47000; NURS 49200
30 hrs: Lecture; 90 hrs: Clinical
4 cr.

NURS 49200 - Advanced Synthesis of Nursing Knowledge

This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

prereq: (generic)
NURS 33900,
NURS 34900,
NURS 45500,
NURS 46000
(A2D) NURS 33900, NURS 45500, NURS 46000
46000 (A2D)

NURS 47000;
NURS 49000
(A2D) NURS
42000; NURS
47000; NURS
49000
22.5 hrs: Lecture,
30 hrs: Lab
2 cr.

Repeating a Course

Note: Students who fail a core prerequisite course in a nursing sequence may not proceed to the next course in the sequence without repeating the failed course. In order to continue in the Nursing major, students must receive minimum grades of "C" in all required nursing courses. Students who receive a grade of "D" or lower will be allowed to repeat the course only once. Students who fail a second required nursing course will be dismissed from the nursing program. This policy applies even if a grade appeal is in progress. Students who fail the clinical portion of a course will receive an "F" for the entire course, regardless
of the corresponding theory grade.

Leave of Absence Policy and Reserved Placement in a Clinical Course

A reserved placement in a clinical/field course will be held for the student for only one year from the date of the leave of absence. It is the responsibility of the student to submit to the undergraduate program Associate Dean a letter of intent, one semester prior to returning to the program and enrolling in the course (April 1 for a fall course). Students who fail to follow this procedure release the School of Nursing from reserving a clinical/field placement in a course for the student.

Degree Map for Nursing: Generic Pathway
Degree Map for
Nursing: Generic
Pathway

Nursing
RN-to-BS

The Hunter School of Nursing RN-to-BS program of study combines liberal arts and professional nursing education with a humanistic and comprehensive approach to health care, leading to a Bachelor of Science degree with a major in Nursing. The undergraduate program also provides a foundation for graduate study. The Program consists of two parts:

- Non-nursing (liberal arts and core requirements)
- Nursing (professional nursing education)

Admission Criteria:
RN-to-BS Program

An overall college GPA of 3.2 in addition to other requirements is the minimum requirement for consideration of an application. Admission to the
School of Nursing is competitive.

The program is designed for RN students who have already completed a two- or three-year nursing program. All RN students admitted to the program are required to submit evidence of NYS RN licensure, health insurance, medical records with specified immunizations, background check and drug test, and CPR certification prior to entering the first semester of the nursing major.

Applicants who are in the process of taking the licensing examination are admitted conditionally. Proof of receipt of an RN license must be submitted to the Hunter-Bellevue School of Nursing by December 1 for students admitted in the fall. Students unable to show proof of license will not be permitted to continue in the nursing major. Applicants to the RN-BS Program must have completed 36 credits of liberal arts and sciences (including credits in progress) at an accredited college,
plus the equivalent of 24 credits in nursing.

Students transferring from any accredited associate degree program in the United States will be granted 24 nursing credits for having a Professional Registered Nurse license. The Nursing Regents College Examinations (RCE'S) in Adult Nursing, Maternal and Child Nursing, and Psychiatric/Mental Health Nursing at the baccalaureate level are required for applicants from schools without accreditation, and for international graduates. A grade of "C" or better is acceptable.

Students should download a current RN Program Fact Sheet, which details the admission process, from the Hunter-Bellevue School of Nursing website at http://www.hunter.cuny.edu/nursing.

International applicants who need an F-1 or J-1 visa are not currently eligible for this program.
Lower Division: Hunter Core (66 credits)

Students entering Hunter with an AAS degree are required to complete Core, Pluralism and Diversity, and one writing course. Transfer students will have their transcripts evaluated upon admission by the admissions office. Courses for which equivalency is granted need not be repeated. Some transfer courses also may be used to satisfy Core requirements. For CUNY Common Core, Required Core & CUNY Common Core, Flexible Core go to General Education - Effective Fall 2019.

Non-nursing courses taken prior to admission to BS nursing courses at Hunter
Prerequisite Courses (courses meet Hunter Core as noted)

- English Composition (ENGL 12000 or transfer equivalent)* meets English Comp 1
- Introduction to Statistics (STAT 11300 or transfer equivalent)* meets M/QR
- General Psychology (PSYCH 10000 or transfer equivalent)
- Human Development (PSYCH 15000 or transfer equivalent)
- General Chemistry with Lab (CHEM 10000 (STEM) and CHEM 10100 or transfer equivalent) * meets LPS
- Anatomy & Physiology (BIOL 12000 & BIOL 12200 or transfer equivalent)
- Microbiology with lab (BIOL 23000 or transfer equivalent)

12.5 credits of science and math in addition to Statistics and Chemistry

Upper Division: Major
Requirements

Students partially fulfill the major requirements with 24 credits of nursing with their AAS degree or Regents Colleges Examinations. The remaining major courses are completed at Hunter:

NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.

RN to BS only: online

prereq: CHEM 10000/10100; STAT 11300
coreq: Generic Pathway: NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall
NURS 24000 - Foundations of Genetics for Nurses

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues.

For RN to BS students only: online

prereq: (generic) CHEM 10000/10100, STAT 11300;
(RN-BS) CHEM 10000/10100 coreq: (generic) NURS 20000, NURS 21000
30 hrs. lecture 2 cr.

NURS 33400 - Pathopharmacology

An intensive course focused on a molecular
understanding of the disease process. The course emphasizes physiological disruptions, associated nursing care, and pharmacological management. for RN students only

online

prereq: CHEM 10000/10100; BIOL 23000
4 hrs
4 cr.

**NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System**

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.
NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing. For RN to BS only:
online
prereq: Generic Program: NURS 21000
Accelerated 2nd Degree: NURS 22000
coreq: Generic Program: NURS 22000; NURS 33100; NURS 33200
Accelerated 2nd Degree: none
3 hrs
3 cr.

NURS 38100 - Health Assessment Throughout the Lifespan

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills. Fully online.
Material Fee: $45
prereq: CHEM
10000, CHEM 10100
3 hrs 3 cr.

NURS 42300 - Foundations of Ethics and Palliative Care

An introduction to ethics and palliative care in nursing.

for RN students: online
prereq: CHEM 10000/10100; STAT 11300
3 hrs 3 cr.

NURS 48000 - Promotion of Wellness in the Community

Open to RN-BS students only.
Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement.
4 hrs 4 cr.

NURS 48200 - Advancement of Roles and Relationships
in Professional Nursing

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program. Fully online-hybrid.

3 hrs
3 cr.

NURS 49100 - Gerontology for Nurses

This course provides a knowledge and skill base for effective nursing care of older adult clients.

For RN students only
online
prereq: CHEM 10000/10100
3 hrs
3 cr.

Total upper division credits: 54
Total minimum credits required for degree: 120

Repeating a Course

Note: Students who fail a course in a nursing sequence may not proceed to the next course in the sequence without repeating the failed course. In order to continue in the Nursing major, students must receive minimum grades of “C” in all required nursing courses. Students who receive a grade of “D” or lower in a clinical nursing course will be allowed to repeat the course only once. Students who fail a second required nursing course will be dismissed from the nursing program. This policy applies even if a grade appeal is in progress. Students who fail the clinical portion of a course will receive an “F” for the entire course, regardless of the corresponding theory grade.
The QB RN to BS program was developed ten years ago, allowing AAS graduates from Queensborough Community College who have their RN license to practice in New York State to enter Hunter in their junior year to take nursing courses to complete their BS degree. The nursing profession and health care delivery in general have evolved substantially since the RN to BS curriculum was created over 10 years ago. Students must learn more complex nursing content than ever before, and must be prepared to care for sicker patients than in the past. For example, in the current health care climate, patients are discharged after shorter hospitalizations than traditional practice, resulting in a population of patients with higher acuity and who require complex care by nurses. In addition, these
proposed changes are aligned with the American Association of Colleges of Nursing’s current Essentials of Baccalaureate Education for Professional Nursing Practice (2008). The online format matches the RN to BS curriculum (approved in 2015) and is responsive to the adult learner.

**Proof of graduation from the QB nursing program**

Submit proof of graduation from the QB nursing program prior to beginning course work. The licensing exam (NCLEX-RN) must be completed and proof of passing the exam must be submitted to the School of Nursing by the end of the first semester or a student will be unable to progress in the program.

**Curriculum**

Prerequisite requirements may not be taken on a Credit/No Credit
Prerequisite requirements with a minimum grade of "C" or its equivalent:

• General Chemistry with lab (CHEM 10000 (STEM), CHEM 10100 or higher equivalent course)
• Human Anatomy and Physiology I & II (BIOL 12000 &nbsp;BIOL 12200) 2 courses
• Introduction to Statistics (STAT 11300 or higher equivalent course)
• Microbiology with lab (BIOL 23000)
• English Composition (ENGL 12000)
• General Psychology (PSYCH 10000)
• Human Development (Developmental Psychology of the Life Span) (PSYCH 15000)

Nursing Dual Degree: Hunter/Queensborough Community College
This is an early entry into the RN-to-BS program for students at Queensborough Community College. They are granted acceptance to Hunter after their freshman year if they satisfy certain GPA and course requirements. See the Queensborough website for further information about this phase of the dual degree.

The Hunter portion of the curriculum follows the Nursing RN-to-BS curriculum with one exception. NURS 37900 Nursing and Societal Forces in the Health Care Delivery System is taken at QCC as NU-204.

**NURS 20000 - Introduction to Nursing**

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced. RN to BS only: online
prereq: CHEM 10000/10100; STAT 11300
coreq: Generic Pathway: NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall

NURS 21000 - Nursing Fundamentals and Health Assessment

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client's history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are
highlighted for all age groups.

Material fee: $50.00

prereq: (Generic)
  BIO 12000, NURS 20000, NURS 24000
  (A2D)CHEM 10000/10100; STAT 11300

coreq: (Generic):
  BIO 12200, BIO 23000, NURS 34300
  (A2D): NURS 20000; NURS 22000; NURS 33100

30 hrs Lecture; 30 hrs Health Assessment Lab; 45 hrs Clinical
4 cr.

**NURS 22000 - Adult Health and Illness**

This class provides a knowledge base for effective nursing care of adult clients. Students will gain insight into the management of chronic illnesses. Through utilization of the nursing process, the student's role as client advocate, patient educator, and caregiver are further actualized. Methods of systematic analysis of research are introduced. Experimental learning in a variety
of setting provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.

Material Fee $50.00

prereq: (Generic): NURS 21000, NURS 34300, NURS 24000; BIO 12200, BIO 23000 (A2D): CHEM 10000/10100; STAT 11300
coreq: (Generic) NURS 33100; NURS 33200 (A2D): NURS 20000, NURS 21000, NURS 33100
22.5 hrs Lecture, 30 hrs Lab, 67.5 hrs. Clinical 4 cr.

NURS 24000 - Foundations of Genetics for Nurses

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential
future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues. For RN to BS students only: online

prereq: (generic) CHEM 10000/10100, STAT 11300; (RN-BS) CHEM 10000/10100
coreq: (generic) NURS 20000, NURS 21000
30 hrs. lecture 2 cr.

**NURS 33100 - Pharmacology I**

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

prereq: 1. Generic Program: NURS 21000; NURS 34300; BIO 12200
2. Accelerated 2nd Degree: CHEM 10000/10100; STAT 11300
-coreq: 1. Generic
Program: NURS
22000, NURS
33200
2. Accelerated 2nd Degree: NURS
20000; NURS
21000; NURS
22000
3 hrs
3 cr.

NURS 33200 -
Normal and Therapeutic Nutrition in the Nursing Process

This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.

prereq: NURS
22000
30 hrs
2 cr.
**NURS 33400 - Pathopharmacology**

An intensive course focused on a molecular understanding of the disease process. The course emphasizes physiological disruptions, associated nursing care, and pharmacological management. It is for RN students only.

*prereq: CHEM 10000/10100; BIOL 23000*

4 hrs
4 cr.

**NURS 33900 - Pharmacology II**

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.
NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: BIO 12000; NURS 20000; NURS 24000
2. Accelerated 2nd
Degree: BIO
12200, BIO 23000; NURS 21000
coreq: 1. Generic Program: BIO 12200, BIO 23000, NURS 21000
2. Accelerated 2nd Degree: NURS 33900, NURS 35200; NURS 36000
45 hrs
3 cr.

NURS 34900 - Foundations of Ethics and End-of-Life Care

Core professional values and excellences, foundational ethical principles, and essential topics in end of life care will be introduced and explored during this course. Emphasis will be on acquiring generalized knowledge to enable the novice nurse to 1) apply ethical principles to practice, 2) develop the skills to practice with moral comportment and courage, and 3) understand the needs of the dying patient (and loved ones) in order to provide quality end of life care. At the completion of this course with required attendance for all modules, students will be
designated "ELNEC Trained."

prereq: NURS 22000
coreq: NURS 45500; NURS 46000
45 hrs. lecture 3 hrs.

NURS 35200 - Nursing Care of Women and Childbearing Families

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health,
Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

**prereq:** (generic & A2D) NURS 22000;
NURS 33100
**coreq:** (Generic ) NURS 33900;
NURS 36000
(A2D) NURS 33900, NURS 34300; NURS 36000
30 hrs. Lecture, 90 hrs. Clinical
4 cr.

**NURS 36000 - Nursing Care of Infants, Children, and Adolescents**

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or
restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team. 

**prereq:** NURS 22000; NURS 33100 (generic & A2D)

**coreq:** (Generic) NURS 33900; NURS 35200 (A2D) NURS 33900, NURS 34300; NURS 35200

22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical

4 cr.

**NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System**

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through
the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced for RN students only.

**online**

*3 hrs*

*3 cr.*

**NURS 38000 - Nursing Research and Theory**

Introduction to theory development and research in nursing. For RN to BS only:

*online*

**prereq:** Generic Program: NURS 21000

**Accelerated 2nd Degree:** NURS 22000

**coreq:** Generic Program: NURS 22000; NURS 33100; NURS 33200

*Accelerated 2nd Degree: none*

*3 hrs*

*3 cr.*

**NURS 38100 - Health Assessment Throughout the Lifespan**

Open to RN-BS Program students only. Analysis of normal patterns of wellness for
individual clients with emphasis on development of assessment skills. Fully online. Material Fee: $45

Prereq: CHEM 10000, CHEM 10100

3 hrs

3 cr.

NURS 42000 - Nursing Leadership and Ethics

In this course, students will examine the roles of the professional leadership in leading and managing health care services and ensuring ethical nursing practice. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services consistent with the ethical principles of the nursing profession. Students will be introduced to principles of coordinating care, including delegation and assignment of nursing tasks and functions. The course addresses nurses' roles in
advocating on behalf of patients, themselves and the profession.

prereq: NURS 45500; NURS 46000

coreq: NURS 47000; NURS 49000; NURS 49200

3 hrs

3 cr.

NURS 42200 - Health Policy and Leadership

This final-semester course examines the roles of the professional nurse in leading and managing health care services within a complex and evolving health system. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services. Principles of coordinating care, delegation and assignment of nursing tasks and functions, and collaboration with other health professions are addressed. The course examines nurses' roles in advocating on behalf of patients,
themselves and the profession.

prereq: NURS 45500; NURS 46000
coreq: NURS 47000; NURS 49000; NURS 49200

45 hrs: Lecture 3 cr.

**NURS 42300 - Foundations of Ethics and Palliative Care**

An introduction to ethics and palliative care in nursing.

for RN students: online

prereq: CHEM 10000/10100; STAT 11300

3 hrs 3 cr.

**NURS 45500 - Public Health Nursing**

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is
explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: (generic & A2D) NURS 35200; NURS 36000
coreq: (generic) NURS 34900, NURS 46000 (A2D) NURS 46000
30 hrs: Lecture, 90 hrs: Clinical
4 cr.

NURS 46000 - Mental and Behavioral Health Nursing

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care,
including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team. Material fee: $25.00

**prereq:** (generic & A2D) NURS 35200; NURS 36000

**coreq:** (generic) NURS 34900, NURS 45500 (A2D) NURS 45500

| 30 hrs: Lecture, 15 hrs: Lab, 67.5 hrs Clinical | 4 cr. |

**NURS 46500 - Spirituality in Nursing Care**

This course prepares students to
value, assess and respond to the spiritual needs of patients in diverse populations and communities.
coreq: NURS 20000, NURS 21000
2 hrs.
2 cr.

NURS 47000 - Adult Acute Illness/Immersion Clinical

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.
prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 49000; NURS 49200
(A2D) NURS 42000; NURS 42000; NURS...
Nursing Care in Domestic and Global Disasters

This course prepares nurses to function clinically on a beginning level as a disaster team member. The focus is on triage of patients and leadership skills needed when social, health care and protective services have been disrupted due to natural or man-made disasters, including fires, earthquakes, floods, civil violence, and bioterrorism. Ethical and legal challenges to the scope of nursing practice are considered from the first responder's perspective.

Prereq: NURS 20000, NURS 21000, NURS 22000
2 hrs.
2 cr.

Promotion of Wellness in the Community
Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement.

4 hrs
4 cr.

**NURS 48200 - Advancement of Roles and Relationships in Professional Nursing**

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program. Fully online-hybrid.

3 hrs
3 cr.

**NURS 48500 - Contemporary Issues in Domestic and**
Global Healthcare

Students investigate current topics affecting health care delivery nationally and internationally from social, political, economic and ethical perspectives. Topics include, but are not limited to, barriers to implementing affordable care, the influence of pharmaceutical conglomerates, health effects of mass immigration and disease prevention oversight. Students are expected to identify a developing issue and to prepare a response directed at legislators, professionals or a lay people, that is informative about the topic in a written format for possible publication. The course is structured to support the importance of life-long learning.

prereq: NURS 20000, NURS 21000, NURS 22000, NURS 35200, NURS 36000

coreq: NURS 45500, NURS 46000
NURS 49000 - Gerontologic al Nursing

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or
restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with inter-disciplinary health teams.

**NURS 49100 - Gerontology for Nurses**

This course provides a knowledge and skill base for effective nursing care of older adult clients.

For RN students only

online

**prereq:** CHEM 10000/10100

3 hrs

3 cr.

**NURS 49200 - Advanced Synthesis of Nursing Knowledge**

This course will serve as a review of
essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

prereq: (generic) NURS 33900, NURS 34900, NURS 45500, NURS 46000 (A2D) NURS 33900, NURS 45500, NURS 46000 (A2D)
coreq: (Generic) NURS 42000; NURS 47000; NURS 49000 (A2D) NURS 42000; NURS 47000; NURS 49000

22.5 hrs: Lecture, 30 hrs: Lab 2 cr.

NURS 34000 - Women’s Health
Pluralism and Diversity
PD/C
Designed to identify and analyze those factors which impact on the health status of women: biological, sociological, psychological, environmental, political.

3 hrs
3 cr.

NURS 34200 - Ethical Issues in Nursing Practice
Open to RN-BS and senior Generic Program students only. Examines ethical issues which arise from the practice of nursing in an interpersonal, professional, institutional and social context of diverse and competing values.

3 hrs
3 cr.

NURS 34500 - HIV/AIDS: An Interdisciplinary Perspective for Health Care Providers
Examines the impact of the HIV epidemic on the biological, psychological and social dimensions of persons affected by HIV/AIDS.
3 hrs
3 cr.

NURS 34600 - Death and Dying

Pluralism and Diversity
P/D B
Provides an overview of current theories, concepts, and practices associated with death, dying and end-of-life care.
3 hrs
3 cr.

NURS 35000 - Independent Study in Nursing

An opportunity to explore a topic relevant to nursing which is of individual interest.
1-3 hrs
1-3 cr.

NURS 35100 - Gender, Science and Technology

Pluralism and Diversity
PD/C
Explores the complex
relationship between women and the sciences.
cross-listed WGSS 35100
3 hrs
3 cr.

NURS 39998 - Urban Disaster Response and the Health Care Team

Provides the student with an understanding of the causes, prevention, and mitigation of disasters and insight into the disaster management system nationally and locally. The course will include content relevant to all disciplines in the disaster care continuum and focus on each individual health care member's role and responsibilities within these systems.
3 hrs
3 cr.

NURS 44000 - Stress Management for Nurses

An overview of stress and its effect upon behavior within the
framework of the holistic man-wellness model.

3 hrs
3 cr.

**NURS 44100 - Selected Studies in Nursing Research**

Honors course. Utilization of basic knowledge in nursing research to critique and interpret studies and discuss their relevance and application in nursing.

prereq: NURS 31000, 31200, 33100, 33200, 38000, 38100
3 hrs.
3 cr.

**NURS 44200 - Nursing Care of Acute and Critically Ill Clients**

Examination of nursing knowledge and roles in caring for acute and critically ill clients and their families.

3 hrs
3 cr.

**NURS 44500 - Teaching-Learning Across the Development**
Pedagogical/andragogical principles of learning and instruction to enhance client teaching in the promotion, maintenance and/or restoration of health.
3 hrs
3 cr.

**NURS 45000 - Computer Concepts and Application in Nursing**

Study of computing concepts, principles, practices, and applications in nursing and health care.
3 hrs
3 cr.

**NURS 48300 - Politics of Health**

An analysis of the relationships between politics and health status, health services and health care providers.
3 hrs
3 cr.

**NURS 49500 - Writing for Health Professionals**
In this course, students explore and refine their powers of observation, description, and expression through writing. Students engage in prompted narrative writing exercises and produce new out-of-class writings that are discussed in small groups and revised. The cultural and personal context in which writing is produced and read is emphasized. Scholarly and literary works are discussed, as are blogs. Students are guided to explore and test strategies for overcoming personal challenges to timely, effective writing.

*prereq: ENGL 12000
12000
45 hrs.
3 cr.*

Programs and Courses in Latin America
Latin American and Caribbean Studies

Overview

Latin American and Caribbean Studies is an interdisciplinary program that offers students the opportunity to learn about the history, culture, politics, society, and political economy of the region and its relations with the United States. The LACS program, in collaboration with the Hunter College Education Abroad Office, has offered study-abroad programs in Argentina, Costa Rica, and Brazil in recent years.

Latin American and Caribbean Studies - BA

The specialization in Latin American
and Caribbean Studies as a major leading to a BA degree consists of 24 credits. The core courses for the major are drawn from the social sciences, humanities, and arts. Following the program's goal of exposing the region's realities from the perspectives of various disciplines, no more than two courses from any single department may count for the 24 major credits. The program recommends that students take a 12-credit minor in one of the associated disciplinary departments. Students select courses for the major in consultation with the program's director or with a member of the Latin American and Caribbean Studies Faculty Advisory Committee. The interdisciplinary specialization of the major will serve graduates well, whether they choose to seek employment in public or private organizations, pursue professional degrees, or go on to a graduate degree in
the social sciences or humanities.

**Hunter Core Requirement**

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

**CR/NC Policy**

No CR/NC grades will be accepted in courses to meet LACS major requirements.

**Courses Required for the**
Major (24 credits)

Language Requirement: Latin American and Caribbean Studies majors are required to demonstrate a reading knowledge of Spanish, Portuguese, or French, fulfilled at least one semester before graduation from the college.

LACS students are required to take either LACS 33000 (a field course for students to study or intern in the region or intern in an institution in the New York area) or LACS 43400 (a course that comprises preparation of a major original research paper to be developed in close association with a mentor from the Latin American and Caribbean Studies Faculty Advisory Committee). ENGL 12000 is a prerequisite for program courses.

LACS 33000 - Latin America and the Caribbean Field Course/Internship
A field course for students to study in the region or who are interning in an institution either in the New York area or in the region. Major research paper based on field or internship experience. 3 cr.

LACS 43400 - Seminar in Latin American and Caribbean Studies

Open to sophomores, juniors, and seniors who have completed at least 18 credits in LACS or have instructor permission. Interdisciplinary reading, research, and discussion of selected topics involving cultural, economic, political, and social problems. Research paper required. May be repeated for a maximum of 6 edits. 3 cr.

Course Offerings for LACS

21 credits from the courses below.
Africana and Puerto Rican/Latino Courses

**AFPRL 10200**
- Latino Communities in the United States
  - Pluralism and Diversity
  - PD/B
  - GER
  - 2/B
  - Migration, ethnicity, community life and public policy issues of Latino groups compared to the Puerto Rican experience.
  - 3 hrs
  - 3 cr.

**AFPRL 10300**
- Conquest and Resistance: Puerto Rican Experiences in Comparative Perspective
  - Hunter Core
  - Individual and Society (Social Sciences) - I&S SS
  - Pluralism and Diversity
  - PD/B
  - GER
  - 2/B
Introductory study of the Puerto Rican experience compared with experiences of Native and African Americans, Chicanos and Pacific Island peoples in the territorial expansion of the United States.
3 hrs
3 cr.

**AFPRL 21000**
- Introduction to Caribbean History: 1900 - Present

**Hunter Core**
World Culture and Global Issues
**Pluralism and Diversity**
PD/A
GER
2/B

Introduction to the major themes in Caribbean history after 1900.
**prereq: ENGL 12000**
3 hrs
3 cr.

**AFPRL 23700**
- African Caribbean Literature (W)

**Pluralism and Diversity**
PD/A or B
GER
2/A
Introduction to the historical development and major artistic preoccupations of Caribbean literature. The course is conducted in English; all course requirements are in English.

Prereq: ENGL 12000
3 hrs
3 cr.

AFPRL 24100 - Puerto Rican History to 1897
Pluralism and Diversity
PD/A
GER
2/B

An examination of Taino society, Spanish colonialism, slave economy and the development of nationhood in the 19th century.
3 hrs
3 cr.

AFPRL 24200 - Puerto Rican History Since 1898
Pluralism and Diversity
PD/A
GER
2/B

Sociohistorical, political and economic analysis
of Puerto Rico
dating from the
U.S. invasion to the
present.
3 hrs
3 cr.

**AFPRL 24300**
- **Puerto Rican Culture**

**Hunter Core**
World Culture and Global Issues (WCGI)
**Pluralism and Diversity**
PD/A or B
**GER**
2/C

General study of Puerto Rican culture and ethnic mixtures that went into making of that culture.
3 hrs
3 cr.

**AFPRL 24400**
- **Puerto Ricans in the United States**

**Pluralism and Diversity**
PD/B
**GER**
2/B

Survey of the origins, contemporary and future development of Puerto Ricans in the United States.
3 hrs
3 cr.
AFPRL 25500
- Puerto Rican/Latino Children in North American Schools

Pluralism and Diversity
PD/B
Survey of educational system viewed as an acculturating institution.
3 hrs
3 cr.

AFPRL 29000
- Selected Topics in Africana and Puerto Rican/Latino Studies

Pluralism and Diversity
PD/A or B
Topics change according to instructor.
3 hrs
3 cr.

AFPRL 30800
- Contemporar y International Relations of the African-Caribbean (W)

GER
3/B
Examination of the use of foreign policy for economic development in the Caribbean and as an instrument of transformation.

prereq: AFPRL 20700 or 21000 or perm instr.
3 hrs
3 cr.

**AFPRL 31900 - Women in the African Diaspora (W)**

*Pluralism and Diversity*
PD/B or C
GER 3/B

The cultural-historical role of women of African descent in North America and the Caribbean in relation to the family, to political resistance and in sustaining African culture and values.

cross-listed WGSC 32900 (W)

prereq: AFPRL 20400 or 20900 or 21000 or perm instr.
3 hrs
3 cr.

**AFPRL 32000 - African-Caribbean Culture (W)**

*Pluralism and Diversity*
PD/A or B

**GER**

3/A

*prereq: AFPRL 20900 or 21000 or 22200*

3 hrs

3 cr.

**AFPRL 33700 - Caribbean Women Writers (W)**

**GER**

3/A

A study of some of the major preoccupations of Caribbean fiction, such as history, migration/travel, creolization, memory and language, from the perspectives of selected women writers, paying close attention to the historical, intellectual and cultural contexts that stimulated the production of these works.

*cross-listed WGSA 33700 (W)*

*prereq: AFPRL 23600 or 23700 or ENGL 22000 or WGS 10000*

3 hrs

3 cr.
AFPRL 35600
- Latino
Literature in
English (W)

Pluralism and
Diversity
PD/B
GER
3/A

Latino writing in
English in the U.S.;
analysis of cultural,
linguistic and
ideological factors
as found in the
work of such
authors as Sandra
Cisneros (Chicana),
Pedro Pietri (Puerto
Rican) and Oscar
Hijuelos (Cuban-
American).
3 hrs
3 cr.

AFPRL 38700
- Puerto
Rican/Latino
Politics in the
United States
(W)

Pluralism and
Diversity
PD/B
GER
3/B

An analysis of the
political
participation and
leadership of Puerto
Ricans and other
Latinos in the
United States.
prereq: either
AFPRL 10200,
24200 or 24400 or
perm. Instr.
AFPRL 39000 - Research Topics in Africana and Puerto Rican/Latino Studies (W)

GER 3/A or B

Topics change according to instructor. Open to Jr/Sr only.

3 hrs
3 cr.

AFPRL 42800 - Selected Topics in Africana and Puerto Rican/Latino Studies: Social Science

Pluralism and Diversity
PD/B
GER 3/A or B

Topics change according to instructor. Pluralism and diversity requirements are dependent on the topic course.

prereq: perm dept.
3 hrs
3 cr.
AFPRL 44500
- Caribbean Short Story in Spanish: Readings and Theories

**GER**
3/A

A critical study of the short story genre in the Hispanic Caribbean viewed in conjunction with contemporary literary theory.

*prereq or coreq: SPAN 20800*
3 hrs
3 cr.

**Anthropology**

ANTHC 40100
- Seminars in Selected Topics

Topics TBA.

**Economics**

ECO 33000 - Economic Development

*Pluralism and Diversity*
PD/A
GER
3/B

Critical variables explaining the diversity of growth and economic
development outcomes across developing countries. Theories, case studies, measurement and policies.

prereq: ECO 20000
3 hrs
3 cr.

History

HIST 27100 - Early History of Latin America

History and cultures of Amerindian groups in Central and South America and the Caribbean; encounter and multiple interactions of European and African cultures with indigenous societies; development of Iberian colonial systems and cultures within the Americas. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 34122 - Latin American Political Economy

GER
3/B
courses at the 300-level and above not open to freshmen
3 hrs
3 cr.

**HIST 34139 - African Influences in the Americas**

**GER**
3/B

Courses at the 300-level and above not open to freshmen
3 hrs
3 cr.

**Music**

**MUSHL 24000 - Music of the Caribbean and Latin America (W)**

**Pluralism and Diversity**
GER 3/A PD/A
Origin and development of Caribbean and Latin American musical styles and their impact on the United States and other parts of the world.
prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 101, or perm instr.
3 hrs
3 cr.
MUSHL 22100
- Black Music in the Americas (W)

Pluralism and Diversity
PD/B
GER
3/A

The origins, history, and evolutionary progression of Black music in the Americas; shared musical practices and resources in the multicultural matrix of the United States in particular and the hemisphere in general.

prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

Political Science

POLSC 25300
- Government and Politics in Latin America (W)

Pluralism and Diversity
PD/A
GER
3/B

Ideology,
revolution, authoritarianism, democracy, institutions, class structure, distribution of wealth and power, political and economic development.
cross-listed LACS 43405
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 26200 - Government and Politics in Central America (W)

Pluralism and Diversity
PD/A
GER 3/B

Political institutions, ideology, class and ethnic structure, economic development, distribution of wealth and power, foreign influences and revolutionary and evolutionary roads to modernization.
cross-listed LACS 43429
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.
POLSC 27100 - International Politics in the Americas (W)

Pluralism and Diversity
PD/A
GER
3/B

Dynamics of US relations with Latin American countries from the colonial era through the Cold War to the present, and of relations of Latin American countries with each other and with extra-hemispheric nations.
*cross-listed* LACS 43432
*prereq: ENGL 12000 or its equivalent*
3 hrs
3 cr.

POLSC 28100 - Drugs, Politics and Public Policy (W)

GER
3/B

Examination of public policies addressing drug use and abuse in the United States and other countries with emphasis on political and cultural determinants, economic and
market factors, constitutional implications and United States foreign policy. 

prereq: ENGL 12000
3 hrs
3 cr.

Romance Languages - Spanish

SPAN 26400 - Contemporary Spanish Literature in Translation

Cela, Lorca, Unamuno, Ortega y Gasset. Taught in English. This course is designed for students who want to become acquainted with Spanish culture. Cannot be credited toward the major and are not recommended for the minor. 

prereq: ENGL 12000
3 hrs
3 cr.

SPAN 27600 - Readings in Modern Spanish-American Literature

Representative writers: Borges,
Neruda, Cortazar, Garcia Márquez.
prereq: SPAN 20200, 20300, 20800, 21100 or four yrs high school Spanish or dept. perm.
3 hrs
3 cr.

SPAN 33600 -
Latin American Civilization

GER 3/A
Geographical, historical, political, literary, artistic and economic evolution of Latin American nations. Given in Spanish.
prereq: SPAN 20800, 21100 or dept. perm
3 hrs
3 cr.

SPAN 34100 -
Introduction to Hispanic Literature I

Pluralism and Diversity
PD/D
GER 3/A
Prerequisite or corequisite to most courses in major sequence. Basic interpretive and research skills for Spanish majors and other qualified students through
study of key works of Spanish and Spanish-American authors.
prereq or coreq: SPAN 31100 or dept. perm
3 hrs
3 cr.

SPAN 34200 - Introduction to Hispanic Literature II

Pluralism and Diversity
PD/D
GER
3/A

prereq: SPAN 34100
coreq: SPAN 31200
3 hrs
3 cr.

SPAN 36400 - Spanish-American Modernism and Post-modernism

GER
3/A

Modernist and post-modernist authors.
prereq: SPAN 34100
3 hrs
3 cr.

SPAN 49100 - Honors Course in Spanish: Special Studies in
Contemporary Latin American Literature

Open to Jr/Sr only. Group meetings, conferences, oral and written reports.
prereq: major GPA of 3.2, cum GPA of 2.8; perm adviser
3 hrs
3 cr.

Sociology

SOC 30700 - Migration

Pluralism and Diversity
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.
prereq: SOC 10100
3 hrs
3 cr.

SOC 32502 - Sociology of Human Rights: Violation and Protection

GER
3/B

prereq: SOC 10100, perm instr.
SOC 32506 - Latin American Societies

GER 3/B

prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 32519 - Economic Development and Social Inequality in Latin America

GER 3/B

prereq: SOC 10100, perm instr.
3 hrs
3 cr.

SOC 36100 - Development and Globalization (W)

Pluralism and Diversity
PD/A
GER 3/B

This course will examine the effort of poor countries to achieve economic and social development, and the possible
outcomes of that effort. Effects on social relations and the living standards of the poor majority; the purposes of development, the strategies for development that have been adopted, and the theories which attempt to explain why countries do or do not grow economically.

prereq: SOC 10100
3 hrs
3 cr.

Women and Gender Studies

WGSA 33700
- Caribbean Women Writers (W)

GER
3/A

A study of some of the major preoccupations of Caribbean fiction, such as history, migration/travel, colonization, memory and language, from the perspectives of selected women writers, paying close attention to the historical, intellectual and cultural contexts that stimulated the production of these
works. 
cross-listed AFPRL 33700 
prereq: AFPRL 23600 or 23700 or ENGL 22000 or WGS 10000 
3 hrs 
3 cr. 

WGS 20005 - Dominican and Haitian Literature and Culture

3 hrs 
3 cr. 

Departmental Honors

LACS majors with a GPA above 3.5 are eligible to receive the Lily Mage Award.

Study Abroad

Study abroad is encouraged for LACS majors. Study-abroad programs are offered through the Education Abroad Programs office at Hunter College.

Programs and Courses in
Mathematics & Statistics

Mathematics and Statistics

Overview

Mathematics has many aspects: it is the language and tool of the sciences, a cultural phenomenon with a rich historical tradition, and a model of abstract reasoning. The course offerings and the major in Mathematics reflect these multiple facets. The Mathematics major provides a broad education in various areas of mathematics in a program flexible enough to accommodate many ranges of interest. The major introduces students to the fundamental areas of mathematics and provides some degree of specialization in one or more areas.
areas. It trains students in the analytic thinking characteristic of pure and applied mathematics and provides familiarity with rigorous methods of mathematical proof. In addition to the standard Mathematics Major, the department offers a number of specialized undergraduate tracks for students interested in pursuing careers in bioinformatics or in preparing for teaching: the concentration Quantitative Biology, the concentration Preparation for Adolescent Education (Grades 7-12), and the concentration Preparation for Childhood Education (Grades 1-6).

What can I do with my degree in Mathematics and Statistics?
The Mathematics major prepares students for careers in business, government, research and teaching. The study of statistics provides the student with analytical tools that may find application in various fields within the sciences and social sciences. Bioinformatics is a rapidly developing area open to students in statistics with a working knowledge of computing and biological sciences. Actuarial science is one area open to students in statistics who also have backgrounds in such subjects as computer science, mathematics and economics.

Credit and Course Exemption

The department offers credit or course exemption based on standard examinations such as AP. Inquiries should be made at the department office.
Mathematics Proficiency and Placement

All students entering Hunter College must demonstrate proficiency in the basic skills through their scores on the mathematics assessment exam. Exemptions are given for SATs, ACT, NY Regents, and for certain other entrance categories. The placement exam further assesses a student's preparedness for certain courses in mathematics, statistics, and other disciplines at the college. Students may enroll in these courses only if their scores on the placement exam are at appropriate levels or if they have taken college courses in the required mathematics. Students who need to place into courses by examination and have not taken the placement exam are advised to schedule
the test with the Testing Center, Room 150 Hunter North, 212-772-4868, http://hunter.cuny.edu/testingcenter, well in advance of registration. Students should notice the mathematics and statistics prerequisites that are indicated in the descriptions of courses and majors so they can effectively plan their studies.

Programs and Courses

In planning their schedules, prospective majors should note that some advanced required courses are offered only once each year and several advanced elective courses are offered only once every other year. A rotation schedule for course offerings is available in the departmental office and on the departmental website http://math.hunter.cuny.edu.

Prerequisites: Because of the nature of mathematics, the department
recommends that students refrain from enrolling in any course that carries prerequisites unless these prerequisites have been completed with a grade of C or better.

- Programs and Courses in Mathematics & Statistics
- Minor in Logic - a minor consisting of courses from three disciplines: computer science, mathematics and philosophy

Administration and Faculty

Chair:
Barry Cherkas

Hunter East, 7th Floor Library – Silverstein Student
Faculty

Mathematics and Statistics Faculty

HEGIS Codes:
1701 (BA; BA/MA in Mathematics, Adolescent Education/Mathematics); 1701/1703 (BA/MA in Mathematics/Statistics and Applied Mathematics);
1702 (BA in Statistics);
1702/1703 (BA/MA in Statistics/Statistics and Applied Mathematics)

Mathematics - BA

The major consists of at least 33 credits of coursework: 24-41 credits of core mathematics and statistics courses and 9 credits of advanced elective courses chosen by students according to their career plans. Proficiency in symbolic computation is also required. Modifications are permitted with the consent of the mathematics adviser. With permission of the adviser, a student
may take graduate courses in statistics or mathematics. Mathematics majors interested in bioinformatics should refer to the requirements for the Mathematics Major with a Concentration in Quantitative Biology - BA. Upon completion of Math 260, Mathematics Majors interested in the BA/MA program should contact the Graduate Adviser.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education -
Effective Fall 2019.
In the case of the Mathematics major, the courses that meet CCCR are:

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*
4 hrs
4 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.
STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.
Courses
Required for the Major

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Calculus Sequence
(0-17 credits)

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential
functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12550 (STEM) - Precalculus with Workshop
This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week. Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

**prereq:** MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken
MATH 12500
5 hrs (4 hrs lecture, 1 hr recitation)
4 cr.

MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity,
differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.

4 hrs
4 cr.

MATH 15500 (STEM) -
Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs
4 cr.

* These courses may be counted for credit
in more than one program.

Required Math Courses (24 Credits)

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

*prereq: MATH 15000*

*prereq or coreq: MATH 15500*

2 hrs

1 cr.

**MATH 25000 - Calculus III**

**GER**

3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple
integration.  
prereq: MATH 15500, MATH 15600  
4 hrs  
4 cr.

**MATH 25400 - Ordinary Differential Equations**

**GER**  
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.  
prereq: MATH 25000  
3 hrs  
3 cr.

**MATH 25500 - Vector Analysis**

**GER**  
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.  
prereq: MATH 25000  
3 hrs  
3 cr.
MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications. 
prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

MATH 31100 - Abstract Algebra I

GER
3/B

Introduction to the theory of groups and rings. 
prereq: MATH 26000
3 hrs
3 cr.

MATH 35100 - Mathematical Analysis I

GER
3/B

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous
functions.
prereq: MATH 25000, 26000
3 hrs
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

* These courses may be counted for credit in more than one program.
Elective Courses (9 credits)

The student must complete three 3-credit mathematics or statistics courses chosen from the 300-or 400-level courses in mathematics or statistics listed by the department and approved by the undergraduate mathematics adviser. Factors affecting the choice of electives will include the student's career goals (preparation for graduate study; education; careers in business, government service or industry), the student's other major, where applicable, and the availability of courses due to the course rotation schedule.

Symbolic Computation Proficiency Requirement (0-3 credits)

As a requirement for graduation with a BA in Mathematics, students must
demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of

- MATH 12600 Precalculus Technology Laboratory
- MATH 15400 An Introduction to Symbolic Computation
- MATH 38500 Numerical Methods I

b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)

*These courses may be counted for credit in more than one program.

**Teacher Education Pathway**

Students planning to teach this subject in grades 7-12 should look at the School of Education: Program List for information about their programs that lead to the recommendation for New York State Initial Certification required to be a
lead teacher in NYS public schools.

Honors

A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000, STAT 48600, or any 700-level MATH or STAT course and by presenting a major GPA of at least 3.6.

- MATH 49000 Honors Seminar or STAT 48600 Modeling and Visualization

Degree Map

Degree Map for Mathematics BA

Mathematics BA

The major introduces students to the fundamental areas of mathematics and provides some degree of specialization in one or more areas. It trains students in the analytic thinking characteristic of pure and applied
Mathematics and provides familiarity with rigorous methods of mathematical proof. In addition to the standard Mathematics Major, the department offers a number of specialized undergraduate tracks for students interested in pursuing careers in bioinformatics or in preparing for teaching: the concentration Quantitative Biology, and the concentration Preparation for Childhood Education (Grades 1-6).

(See Adolescent Mathematics, Grades 7-12 - BA for Mathematics grades 7-12)

- Mathematics - BA
- Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA
- Mathematics Major with a Concentration in Quantitative Biology - BA

Mathematics Concentration
This concentration constitutes a mathematics major for students in the Quality Urban Elementary School Teacher (QUEST) program. QUEST students majoring in mathematics are not exempt from the MATH 10400 (STEM)/MATH 10500 requirement. To enter this major, the student should have completed one semester of calculus (MATH 15000 (STEM) or the equivalent). The specified collateral major is Childhood Education. This mathematics major consists of at least 32 credits of coursework: 20 credits of major core curriculum courses and at least 12 additional credits, as described below. The student should consult the School of Education for the sequence of teacher education courses in the Childhood Education.
Major Core Curriculum (20 credits)

**MATH 15400** - An Introduction to Symbolic Computation

Laboratory introduction to machine-aided computation with an emphasis on examples related to calculus. Students use a symbolic computation package to investigate and solve problems numerically, analytically and graphically. The same package is used to create reports of their results.

*prereq: MATH 15000*

2 hrs
1 cr.

**MATH 15500 (STEM)** - Calculus II

*Hunter Core*
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental...
functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 16000 - Matrix Algebra

GER 1/B

Systems of linear equations, matrices, determinants,
introduction to vector spaces and linear transformations, applications.  
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam  
3 hrs  
3 cr.

MATH 25000 - Calculus III

GER 3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.  
prereq: MATH 15500, MATH 15600  
4 hrs  
4 cr.

MATH 26000 - Linear Algebra

GER 3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.  
prereq: MATH 15600  
prereq or coreq: MATH 25000
STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

Additional Required Courses (at least 12 credits)

STAT 21200 - Discrete Probability
**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

*prereq: MATH 12400 or MATH 12500 or MATH 12550 or STAT 11300 or appropriate score on placement exam.*

3 hrs
3 cr.

**STAT 22000 - Statistical Analysis in Forensics**

**GER**
3/B

A second course in probability and statistics and the evaluation of evidence in the forensic sciences.

*prereq: STAT 21200 and either STAT 21300 or 11300 by permission of instructor. One of the above, i.e., STAT 21200 or STAT 21300 or STAT 11300 by*
Mathematics Major
with a Concentration in Quantitative Biology - BA

This program is for students intending to pursue research careers in biomedical sciences. It provides students with a working knowledge of computing and biological sciences for bioengineering careers in bioinformatics, the pharmaceutical industry, and the biotechnology industry. Students interested in this concentration in the mathematics major should consult the BioInformatics adviser.

Hunter Core
Requiremen
nt

Several courses
within this major
may fulfill parts of
the Hunter Core
Requirement
(CUNY Common
Core Requirement
[CCCR],
Concurrent
Requirements).
When selecting
courses, it may be
to a student's
advantage to
choose courses that
count toward the
Hunter Core
Requirement and
also advance the
student on the path
to the major.
Details on the
Hunter Core
Requirement can be
found here: General
Education -
Effective Fall 2019.
In the case of the
Mathematics major
with a
concentration in
Quantitative
Biology, the
courses that meet
CCCR are:

**MATH 12500**
(STEM) -
Precalculus

**Hunter Core**
Math/Quantitative
Reasoning
**GER**
I/B

Functions and their
graphs: polynomial, rational,
exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

**MATH 15000 (STEM) - Calculus I**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a
MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression,
analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam

3 hrs
3 cr.

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (63-80 credits)

Core Courses (30-47 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College
prerequisites. See the Mathematics and Statistics department for details.

Calculus Sequence (0-17 credits)

Based on placement exams or transferred courses, students may place into some more advanced courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

*prereq: appropriate
score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative
Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus. Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test. Not open to students who have taken MATH 12500 or MATH 12550. 4 hrs 4 cr.
This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs
1 cr.

Limits, continuity, differentiation and integration of elementary functions and trigonometric
functions, applications. 
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test. 
4 hrs 
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates. 
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

Required Math Courses (30 credits)

MATH 15600 - Introduction
to
Mathematical
Proof
Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 25000 -
Calculus III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500, MATH 15600
4 hrs
4 cr.

MATH 25400 -
Ordinary Differential Equations
First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

**prereq:** MATH 25000
3 hrs
3 cr.

**MATH 25500 - Vector Analysis**

GER
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.

**prereq:** MATH 25000
3 hrs
3 cr.

**MATH 26000 - Linear Algebra**

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.
**MATH 31100 - Abstract Algebra I**

**GER**
3/B

Introduction to the theory of groups and rings.

*prereq: MATH 26000

3 hrs
3 cr.

**MATH 35100 - Mathematical Analysis I**

**GER**
3/B

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous functions.

*prereq: MATH 25000, 26000

3 hrs
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

*Hunter Core
Math/Quantitative*
Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31900 - Bayesian Statistical Inference in the Sciences
GER
3/B

prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).

Prerequisites waived for students who have passed STAT 311.

Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.

3 hrs
3 cr

** Note:
The symbolic proficiency
Additional Required Courses (33 credits)

CSCI 13200 - Practical UNIX and Programming, with Lab

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.

This course cannot be counted towards the CSCI major.

prereq: none
3 hrs
3 cr.
CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for premed, medical laboratory sciences and science majors.

prereq or coreq: MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500
5 hrs (4 lec, 1 rec) 4 cr.

CHEM 10400 (STEM) - General Chemistry II

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better
CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B
reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER 2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH
12550 or MATH
15000 or MATH
15200 or MATH
15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 20300 -
Molecular
Biology and
Genetics

This course
includes a detailed
examination of the
fundamental
principles of gene
expression. The
processes of DNA
replication,
transcription,
mRNA processing,
micro RNA
function, and
translation will be
extensively
covered.
Prokaryotic and
eukaryotic systems
will be described.
Classical
Mendelian as well
as molecular
genetics principles
will be covered in
the lecture through
a discussion of
several model
systems. Important
genetic processes
such as
recombination,
transposition and
DNA repair will be
discussed in-depth.
The course will
provide a modern
view of the concept
of the gene, and
introduce basic
bioinformatics
analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000, 12100) coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

**BIOL 42500 - Computational Molecular Biology**

**GER**
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of *in silico* biology, i.e., the application of computational and statistical methods to solving problems in molecular
biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

**prereq:** BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.

3 hrs
3 cr.

**Note**

*These courses may be counted for credit in more than one program.

**Honors**
A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000 or STAT 48600, by presenting a major GPA of at least 3.6 and by achieving a satisfactory rating on a comprehensive examination.

- MATH 49000 Honors Seminar or STAT 48600 Modeling and Visualization

Degree Map for Mathematics:
Quantitative Biology

Degree Map for Mathematics: Quantitative Biology

Statistics - BA

The statistics major consists of at least 33 credits of coursework: 30-47 credits of core mathematics and statistics courses and any additional
3-credit statistics, mathematics, or computer science course approved by the statistics adviser. Modifications are permitted with the consent of the statistics adviser. With permission of the adviser, a student may take graduate courses in statistics and applied mathematics.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

* These courses may be counted for credit in more than one program.

Other Required Math Courses (30 credits)

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among
them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

**prereq:** MATH 15000

**prereq or coreq:**
MATH 15500

2 hrs
1 cr.

**MATH 25000 - Calculus III**

**GER**
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

**prereq:** MATH 15500, MATH 15600

4 hrs
4 cr.

**MATH 25400 - Ordinary Differential Equations**

**GER**
3/B

First-order equations, second-order linear equations and linear systems, power series solutions,
transform and numerical methods, introduction to qualitative theory.

**prereq:** MATH 25000
3 hrs
3 cr.

**MATH 26000 - Linear Algebra**

**GER**
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications,
**prereq:** MATH 15600
**prereq** or **coreq:** MATH 25000
4 hrs
4 cr.

**STAT 21200 - Discrete Probability**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from
time to time.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21300
(STEM) -
Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

STAT 21400 -
Data Analysis Using Statistical Software
Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building
prereq: STAT 21300 or MATH 12400 or MATH 12500 or MATH 12550 and STAT 11300 with grade of C or better in each course.
3 hrs
3 cr.

**STAT 31100 - Probability Theory**

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

**STAT 31200 - Stochastic Processes**

Discrete and continuous stochastic processes including Markov chains, birth processes, queues
and Brownian motion.

**STAT 31300 - Introduction to Mathematical Statistics**

**GER**

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.

* These courses may be counted for credit in more than one program.

**Elective Courses (3 credits)**

The student must complete one additional 3-credit statistics or mathematics course approved by the undergraduate statistics adviser.
Actuarial Sequence

A student interested in actuarial work should take the following courses. Students are also encouraged to take courses in accounting, economics and computer science. A student majoring either in Statistics or Mathematics could also complete the Actuarial Sequence as a part of his/her major requirements. A review for the Actuarial Exams is not a part of the curriculum, however, and it is left to the individual student to study for and take those exams.

4 hrs
4 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
Prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of
proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

**MATH 25000 - Calculus III**

**GER**
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

**prereq:** MATH 15500, MATH 15600

**4 hrs**
4 cr.

**MATH 26000 - Linear Algebra**

**GER**
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

**prereq:** MATH 15600
prereq or coreq:
MATH 25000
4 hrs
4 cr.

STAT 31100 - Probability Theory
GER
3/B
Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics
GER
3/B
Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.
prereq: STAT 31100
3 hrs
3 cr.

Degree Map
Degree Map for Statistics
Statistics
BA

The study of statistics provides the student with analytical tools that may find application in various fields within the sciences and social sciences. Bioinformatics is a rapidly developing area open to students in statistics with a working knowledge of computing and biological sciences. Actuarial science is one area open to students in statistics who also have backgrounds in such subjects as computer science, mathematics and economics. In addition to offering the Statistics Major, the department has a specialized undergraduate track for students interested in pursuing a career in bioinformatics: the concentration in Quantitative Biology. The BA/MA in Statistics and Applied Mathematics offered by the department provides enrichment for undergraduate statistics majors.
Programs

- Statistics - BA
- Statistics Major with a Concentration in Quantitative Biology - BA
- Mathematics or Statistics and Applied Mathematics - BA/MA

Honors

A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000, STAT 48600, or any 700-level MATH or STAT course, and by presenting a major GPA of at least 3.6.

MATH 49000 - Honors Seminar

GER
3/B

prereq: MATH 31100, 35100, departmental permission
3 hrs
3 cr.

Statistics Major with a
Concentration in Quantitative Biology - BA

For students intending to pursue research careers in biomedical sciences. It provides students with a working knowledge of computing and biological sciences for bioengineering careers in bioinformatics, the pharmaceutical industry, and the biotechnology industry. Students interested in this concentration in the statistics major should consult the bioinformatics adviser.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements).
When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education - Effective Fall 2019.

In the case of the Statistics major with a concentration in Quantitative Biology, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 12500</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MAT 15000</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MAT 15500</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>STAT 21200</td>
<td>Math/Quantitative Reasoning</td>
</tr>
</tbody>
</table>
Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major (63-80 credits)

Core Courses (30-47 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Calculus Sequence (0-17 credits)

Based on placement exams or transferred courses, students may place
into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

MATH 10100 -
Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)
3 cr.

-or-

MATH 101EN -
Algebra for College
Students - Enhanced

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100.

prereq: Department Permission
6 hrs
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for
manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.

2 hrs
1 cr.

MATH 12400 (STEM) -
College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus
should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus. Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics placement test. Not open to students who have taken MATH 12500 or MATH 12550.

4 hrs
4 cr.

-or-

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions
to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

-or-

MATH 12550 (STEM) - Precalculus with Workshop

This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem.
In addition to lecture, students are also required to attend a 50-minute recitation session once a week.

Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

prereq: MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken MATH 12500.

5 hrs (4 hrs lecture, 1 hr recitation)

4 cr.

**MATH 14000 - Mathematical Reasoning Workshop**

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.
prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.
2 hrs
1 cr.

MATH 15000
(STEM) -
Calculus I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test.
4 hrs
4 cr.

MATH 15500
(STEM) -
Calculus II

Hunter Core
Math/Quantitative
Reasoning

GER

1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

Prereq: grade of C or better in MATH 15000

4 hrs

4 cr.

Other Required Math Courses (30)

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

Prereq: MATH 15000

Prereq or coreq: MATH 15500
MATH 25000 - Calculus III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500, MATH 15600

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

prereq: MATH 15600

prereq or coreq: MATH 25000

MATH 25400 - Ordinary Differential Equations

GER
3/B
First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory. 
**prereq:** MATH 25000
3 hrs
3 cr.

-or-

**MATH 35400 - Dynamical Systems and Chaos**

**GER**
3/B

Linear flows, qualitative theory of low-dimensional nonlinear systems, introduction to chaos in discrete one-dimensional dynamical systems. 
**prereq:** MATH 25000, 26000
3 hrs
3 cr.

**STAT 21200 - Discrete Probability**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Combinations, permutations, discrete probability. Characteristics of
probability distributions.
Model building.
Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21300
(STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.
STAT 21400 - Data Analysis Using Statistical Software

GER
3/B

Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building
prereq: STAT 21300 or MATH 12400 or MATH 12500 or MATH 12550 and STAT 11300 with grade of C or better in each course.
3 hrs
3 cr.

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31200 - Stochastic Processes

GER
3/B
Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.

prereq: STAT 31100
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.

prereq: STAT 31100
3 hrs
3 cr.

Additional Required Courses (33 credits)

CSCI 13200 - Practical UNIX and Programming, with Lab

Hunter Core
Scientific World (SW)
An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

prereq: none
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition;
students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

**CHEM 10200 (STEM) - General Chemistry I**

**Prerequisite:** CSCI 12700 or CSCI 13200

3 hrs

3 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core Scientific World (SW); Life and Physical Sciences (LPS)**

**GER 2/E**

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding. Primarily for pre-med, medical laboratory sciences and science majors.

**Prerequisite or Corequisite:** MATH 12400 or MATH 12500 or MATH 12550 or 15000 or MATH 15200 or MATH 15500

5 hrs (4 lec, 1 rec)

4 cr.
CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS)
Scientific World (SW)
GER 2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general
chemistry laboratory. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution. Material Fee: $5 PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: CHEM 10200 and MATH 12400 or MATH 12500 or MATH 12550 or MATH 15000 or MATH 15200 or MATH 15500
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA
function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000, 12100) coreq: CHEM 22200, 22300 or
BIOL 42500 - Computation al Molecular Biology

GER 3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of *in silico* biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core
course required for bioinformatics-concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.

3 hrs
3 cr.

*These courses may be counted for credit in more than one program.

Mathematics or Statistics and Applied Mathematics - BA/MA

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's requirements without a separate application for admissions or GRE requirement.
Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the graduate adviser for further information regarding eligibility and curriculum requirements.

**Option 1:**
Mathematics and Pure Mathematics (63-83 credits)

Students complete the BA in pure mathematics with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

- Mathematics - BA
- Mathematics: Pure Mathematics - MA

**Option 2:**
Mathematics and Statistics and Applied Mathematics (63-83 credits)

Students complete the BA in mathematics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.
• Mathematics - BA
• Statistics and Applied Mathematics - MA

Option 3: Statistics and Applied Mathematics (63-83 credits)

Students complete the BA in statistics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.

• Statistics - BA
• Statistics and Applied Mathematics - MA

Please note: Modifications in these programs are awaiting approval by NY State. Please consult department for details.

Minor in Mathematics

A minor in mathematics consists of a minimum of 12 credits selected from any of the following courses offered by the Department:
• MATH courses numbered 15000 or above
• STAT 31100
• STAT 31200
Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective mathematics minors consult with an undergraduate mathematics adviser concerning course selection.

Minor in Statistics

A minor in statistics consists of at least 12 credits selected from STAT courses offered by the Department. Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective statistics minors consult with an undergraduate statistics adviser concerning course selection.

MATH 101EN
- Algebra for College
Students - Enhanced

Topics in algebra, graphing and functions including: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational, and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational, and exponential functions and their graphs. Also includes elementary algebra material which is necessary background material to be successful in college algebra. Not open to students who have taken MATH 10100. 

prereq: Department Permission
6 hrs
3 cr.

MATH 10000 - Basic Structures of Mathematics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have
received credit for any math or stat course that satisfies the GER 1/B requirement. Not recommended for students majoring in mathematics, statistics, computer science, or natural sciences. Symbolic logic, sets, number systems, relations and operations and topics in probability and statistics. This course is a terminal course and does not serve as a prerequisite to any other course in the department

prereq: CUNY Math Proficiency
3 hrs
3 cr.

MATH 10100 - Algebra for College Students

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.

MATH 10150 - Mastery of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulating symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq: MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400.
2 hrs
1 cr.

MATH 10200 - Mathematics and Everyday Life

Hunter Core
Math/Quantitative Reasoning
Students will learn how to model real world problems with mathematics, and learn techniques for solving them. Topics include personal finance, statistical reasoning, probability, exponential growth, and voting theory.

**prereq:** CUNY Math Proficiency

**3 hours**

**3 credits**

**MATH 10400 (STEM) - Mathematics for Elementary Education I**

**Hunter Core**

Math/Quantitative Reasoning

GER 1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, computation, integers and number theory. Required of students planning to teach in elementary
schools. Not open to other students.  
prereq: grade of C or better in MATH 10100 or MATH 101EN or appropriate score on the placement exam  
3 hrs  
3 cr.

**MATH 10500 - Mathematics for Elementary Education II**

**GER**  
1/B

Continuation of MATH 10400. Continuation of the content of the mathematics recommended by the NCTM for prospective elementary school teachers, including probability, statistics, plane and transformational geometry, congruence and similarity.  
prereq: grade of C or better in MATH 10400  
3 hrs  
3 cr.

**MATH 11000 - Topics in the Mathematical Sciences**

**GER**  
1/B
Not open to students who have completed MATH 10500, 16000 or 26000. Intended for liberal arts or social science students. Applications of topics selected from algebra, analysis, computer science, geometry, probability and statistics. 

\textit{prereq: college-level mathematics or statistics course.} 

3 hrs 

3 cr.

**MATH 11100 - Matrices, Vectors and Linear Programming**

**GER** 

1/B 

Not open to students who have completed MATH 16000 or 26000. Recommended for accounting students; not recommended for students majoring in mathematics or statistics. Introduction to matrices and vectors, systems of linear equations and linear programming with applications. 

\textit{prereq: MATH 10100 or MATH 101EN or appropriate score on placement exam} 

3 hrs 

3 cr.
MATH 12400 (STEM) - College Algebra and Trigonometry

Hunter Core
Math/Quantitative Reasoning (MQR)
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus.

Note: This course is equivalent to MATH 12500 for grade replacement purposes.

prereq: MATH 10100/101EN -or- the appropriate score on the Mathematics Placement Test.
placement test.
Not open to students who have taken MATH 12500 or MATH 12550.
4 hrs
4 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

MATH 12550 (STEM) - Precalculus with Workshop
This course replaces the course MATH 12500 (STEM) for students who intend to take calculus. It is designed to develop an understanding of topics and skills which are fundamental to the study of calculus and other science classes. The topics covered are: linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs and applications; the Fundamental Theorem of Algebra; sequences, sums, and the Binomial Theorem. In addition to lecture, students are also required to attend a 50-minute recitation session once a week. Note: This course is equivalent to MATH 12500 (STEM) for grade replacement purposes.

prereq: MATH 10100/101EN with a grade of B- or better OR MATH 10150 with a grade of C or better; or the appropriate score on a mathematics placement test. Not open to students who have taken
MATH 12500
5 hrs (4 hrs lecture, 1 hr recitation)
4 cr.

MATH 12600
Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: MATH 12400, MATH 12500, or MATH 12550 or appropriate score on placement exam
prereq or coreq: MATH 12500
2 hrs
1 cr.
MATH 14000 - Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.

prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600.

2 hrs
1 cr.

MATH 15000 (STEM) - Calculus I

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric
functions, applications.
prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, AND coreq MATH 14000; or the appropriate score on a mathematics placement test. 4 hrs 4 cr.

MATH 15200 (STEM) - Calculus for Life and Social Sciences

Limits, continuity and the derivative. The power rule, product and quotient rules, the chain rule, and implicit differentiation. The Mean Value Theorem and the Intermediate Value Theorem. Curve sketching and optimization, and linear approximation. Riemann integral and the Fundamental Theorem of Calculus. Various applications to economics, life sciences, and physical sciences. Students will not be allowed to obtain
credit for both MATH 15200 and MATH 15000 (STEM). Students planning on taking more than one semester of calculus should take MATH 15000 (STEM) instead.

prereq: MATH 12550 with a grade of B- or better; or MATH 12400, MATH 12500, or MATH 12550, with a grade of C or better, and coreq MATH 14000; or appropriate score on placement exam. Not open to students who have taken MATH 15000.
4 hrs
4 cr.

MATH 15400 - An Introduction to Symbolic Computation

Laboratory introduction to machine-aided computation with an emphasis on examples related to calculus. Students use a symbolic computation package to investigate and solve problems numerically, analytically and graphically. The same package is used to create reports of their
results.

prereq: MATH 15000
2 hrs
1 cr.

MATH 15500 (STEM) - Calculus II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential
and integral calculus.
prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 16000 - Matrix Algebra

GER 1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.
prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score on placement exam
3 hrs
3 cr.

MATH 25000 - Calculus III

GER 3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500, MATH 15600
4 hrs
4 cr.
MATH 25400 - Ordinary Differential Equations

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.
_prereq: MATH 25000
3 hrs
3 cr.

MATH 25500 - Vector Analysis

GER
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.
_prereq: MATH 25000
3 hrs
3 cr.

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces,
linear
transformations, canonical forms, inner product spaces, bilinear forms, applications.
prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

**MATH 27500 - Symbolic Logic**

**GER**
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.
cross-listed PHILO 27500
prereq: MATH 15600
3 hrs
3 cr.

**MATH 29500 - Intermediate Topics in Mathematics**

**GER**
3/B

May be repeated as topics vary, but not more than twice. Topics to be studied in any given term will be announced prior to registration.
MATH 30100 - Mathematical Methods for the Physical Sciences

GER 3/B

The solution of linear partial differential equations and boundary value problems. Solution techniques such as separation of variables, Fourier series, Green's functions and Laplace transforms are covered. These are applied to several equations which occur in physical applications such as the heat equation, the Laplace equation and the wave equation. Crosslisted as PHYS 30100.

prereq: MATH 25400

3 hrs
3 cr.

MATH 31100 - Abstract Algebra I

GER 3/B

3 hrs
3 cr.
Introduction to the theory of groups and rings.
prereq: MATH 26000
3 hrs
3 cr.

MATH 31200 - Abstract Algebra II

GER 3/B

Elements of Galois theory, construction with ruler and compass, advanced topics in ring theory and linear algebra.
prereq: MATH 31100
3 hrs
3 cr.

MATH 31300 - Theory of Numbers

GER 3/B

Congruences, quadratic residues, elementary Diophantine analysis, continued fractions, sums of squares.
prereq: MATH 26000
3 hrs
3 cr.

MATH 33100 - Geometries

GER 3/B
Topics in affine and projective geometry and/or topics in differential geometry.

**MATH 34000 - Topology**

**GER**

3/B

Metric and topological spaces, continuity, homeomorphisms, compactness, connectedness, homotopy, fundamental group.

**MATH 35100 - Mathematical Analysis I**

**GER**

3/B

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous functions.
MATH 35200 - Mathematical Analysis II

GER
3/B

Integration, sequences and series, uniform convergence, differentiation of functions of several variables, inverse and implicit function theorems, formula for change of variables.

prereq: MATH 35100
3 hrs
3 cr.

MATH 35300 - Introduction To Complex Variables

GER
3/B

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: MATH 15600, 25500
3 hrs
3 cr.

MATH 35400 - Dynamical Systems and Chaos

GER
3/B
Linear flows, qualitative theory of low-dimensional nonlinear systems, introduction to chaos in discrete one-dimensional dynamical systems.

**MATH 37000 - Mathematical Logic**

**GER**

3/B

A survey of the central results and techniques of metalogic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem Theorem and Church's Theorem on undecidability. Cross-listed as PHILO 37500 and CSCI 37100.

**prereq:** MATH 26000 or permission of the instructor

3 hrs

3 cr.

**MATH 37100 - Fundamental Concepts of Modern Mathematics**
GER
3/B

Axiomatic approach to set theory: axiom of choice, Zorn's Lemma, transfinite arithmetic.

prereq: two of the following: MATH 26000, 31100, 35100, 35200
3 hrs
3 cr.

MATH 37200 - Logic and Computers

This course introduces students to logic and its applications to modeling both computer and real-world systems. Topics include various logics and their applications to modeling systems and reasoning for artificial intelligence, along with proof systems and tools for automated or semi-automated reasoning in these logics.

cross-listed CSCI 37200/PHILO 37200
prereq: CSCI 15000 OR PHILO/CSCI/MAT H 27500
3 hrs
3 cr.
MATH 37600 - Philosophy of Mathematics (W)

GER
3/B

Study of such issues as the nature of demonstration or proof and the nature of mathematical knowledge and mathematical objects such as numbers and sets. Cross-listed as PHIL 37600.

prereq: ENGL 12000; PHIL 10100, MATH 27500

3 hrs
3 cr.

MATH 37700 - Non-classical Logic

Logic is the systematic and precise study of reasoning—a topic of particular interest to mathematicians and computer scientists as well as philosophers. Philosophers have often functioned as the research and development wing of this collaboration, thinking up and formalizing new logical techniques and systems designed to solve problems that can't
be solved by traditional (a.k.a. "classical") logic. This course will be an introduction to some of these non-classical logics, their philosophical motivations, and some of their applications.

cross-listed PHILO 37700, CSCI 37700
prereq: PHILO 27500 or MATH 27500 or CSCI 27500
3 hrs
3 crs.

MATH 38500 - Numerical Methods I

GER
3/B

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

prereq: MATH 25000 and MATH 26000 or permission of the instructor
3 hrs
3 cr.
MATH 39100 -
Independent Study in Mathematics

GER
3/B

Open to Jr/Sr only. Independent study and reading under direction of faculty member.

prereq:
departmental permission

1 hr
1 cr.

MATH 39200 -
Independent Study in Mathematics

GER
3/B

Open to Jr/Sr only. Independent study and reading under direction of faculty member.

prereq:
departmental permission

2 hrs
2 cr.

MATH 39300 -
Independent Study in Mathematics

GER
3/B

Open to Jr/Sr only. Independent study and reading under direction of faculty member.
MATH 39500 - 
Advanced 
Topics in 
Mathematics

GER 
3/B

Topics to be studied in any given term will be announced prior to registration. May be repeated as topics vary, but not more than twice.

MATH 45400 - 
Calculus on 
Manifolds

GER 
3/B

Functions on Euclidean space, implicit function theorem, Fubini's Theorem, integration on chains and manifolds.
MATH 48500 - Numerical Methods II

GER
3/B

Advanced topics in numerical solutions to partial differential equations, finite element method, von Neumann stability analysis, finite difference method. Examples from computational fluid dynamics and structural mechanics. Cross-listed as CSCI 48500 and PHYS 48500.

prereq: MATH 38500 or permission of instructor
3 hrs
3 cr.

MATH 49000 - Honors Seminar

GER
3/B

prereq: MATH 31100, 35100, departmental permission
3 hrs
3 cr.

STAT 11000 - Selected Topics in Elementary Probability and Statistics
as Applied to
Popular
Science and
Current
Events

GER
1/B

Topics to be studied in any given term will be announced prior to registration. This course does not serve as a prerequisite for any other mathematics or statistics course. This course is a topics course that serves as an introduction to selected topics in probability and statistics with applications to the real world.

prereq: CUNY Math Proficiency
3 hrs
3 cr

STAT 11300 -
Elementary
Probability
and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless
minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.
prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning
GER
I/B

Combinations,
permutations, discrete probability. Characteristics of probability distributions.
Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER 1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12400 or MATH 12500 or MATH 12550 or appropriate score
on placement exam
3 hrs
3 cr.

STAT 21400 - Data Analysis Using Statistical Software

GER 3/B
Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building
prereq: STAT 21300 or MATH 12400 or MATH 12500 or MATH 12550 and STAT 11300 with grade of C or better in each course.
3 hrs
3 cr.

STAT 22000 - Statistical Analysis in Forensics

GER 3/B
A second course in probability and statistics and the evaluation of evidence in the forensic sciences.
prereq: STAT 21200 and either STAT 21300 or 11300 by permission of instructor. One of
the above, i.e., STAT 21200 or STAT 21300 or STAT 11300 by permission of instructor may be taken as a coreq.
3 hrs
3 cr.

STAT 29500 - Intermediate Topics in Statistics
GER
3/B

Topics to be studied in any given term will be announced prior to registration. May be repeated as topics vary, but not more than twice.
prereq: STAT 21300 or STAT 11300 and MATH 12400 or MATH 12500 or MATH 12550; additional prereqs. depend on specific course offered.
3 hrs
3 cr.

STAT 31100 - Probability Theory
GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
STAT 31200 -
Stochastic
Processes

GER
3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.
prereq: STAT 31100
3 hrs
3 cr.

STAT 31300 -
Introduction to
Mathematical
Statistics

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.
prereq: STAT 31100
3 hrs
3 cr.

STAT 31900 -
Bayesian
Statistical Inference in the Sciences
GER
3/B

prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).
Prerequisites waived for students who have passed STAT 311.

Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.

3 hrs
3 cr

STAT 35100 - Advanced Biometrics
A second course in statistics covering quantitative methods applicable in the life sciences. Topics include experimental design, life table analysis, ethical issues, survival analysis, logistic regression and Cox regression. Linear algebra recommended but not required.

**prereq:** math at level of MATH 12400, MATH 12500, MATH 12550, STAT 11300, 21300

3 hrs

3 cr.

**STAT 39100 - Independent Study**

Open to Jr/Sr majors only.

Independent study in which a topic of interest is selected by the student. The study is carried out under the direction of a faculty member.

**prereq:** departmental permission

1 hr.

1 cr.
STAT 39200 - Independent Study

GER
3/B

Open to Jr/Sr majors only. Independent study in which a topic of interest is selected by the student. The study is carried out under the direction of a faculty member.

prereq:
departmental permission
2 hrs.
2 cr.

STAT 39300 - Independent Study

GER
3/B

Open to Jr/Sr Majors only. Independent study in which a topic of interest is selected by the student. The study is carried out under the direction of a faculty member.

prereq:
departmental permission
3 hrs.
3 cr.

STAT 39500 - Advanced
Topics in Statistics

GER 3/B

Topics to be studied in any given term will be announced prior to registration. May be repeated as topics vary, but not more than twice.
prereq: STAT 31100; STAT 31200 or 31300; additional prereqs. depend on specific course offered
3 hrs
3 cr.

STAT 48600 - Modeling and Visualization

GER 3/B

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences. Project required. Course may be used to qualify for departmental honors.
prereq:
The Department of Medical Laboratory Sciences offers a rigorous and extensive education in biomedical science that prepares students for employment in clinical (hospital and private diagnostic), research (academic/biotechnology), and pharmaceutical fields.
al) and public health laboratories and for advanced degrees in graduate (Master's/Ph.D.) and professional (medical/dental/physician assistant) schools as well as advanced clinical certifications. Two academic degrees for undergraduates are offered: the BS in Medical Laboratory Sciences: Biomedical Science and the BS in Medical Laboratory Sciences: Clinical Science. Both majors emphasize laboratory training through classroom work. The Medical Laboratory Sciences: Biomedical Science major is intended for those students who plan to obtain advanced graduate or medical degrees. Students in this major are encouraged to perform independent study research projects with faculty. The Medical Laboratory Sciences: Clinical Science major is licensure qualifying and is intended for those students who plan to take the New York State Education Department (NYSED) licensure exam for clinical laboratory
technologists. A license is required to work as a clinical laboratory technologist in NYS. Clinical laboratory technologists perform analytical tests on patient samples and play an essential role in the diagnosis and treatment of disease. The Clinical Science major requires students to perform a departmentally-arranged eight-week full time summer internship in a hospital or private diagnostic laboratory. Students in the Clinical Science major may also pursue advanced graduate and medical degrees.

What can I do with my degree in Medical Laboratory Sciences?

Graduates pursue entry-level careers in diagnostic or
research labs, as well as further education in graduate programs, medical school and other clinical specialties. MLS graduates work in hospitals, nonprofit research institutions and pharmaceutical and biotechnology companies.

Medical Laboratory Sciences Faculty

Medical Laboratory Sciences - BS

The Department of Medical Laboratory Sciences (MLS) offers two majors:

(1) Medical Laboratory Sciences: Biomedical Science BS and

(2) Medical Laboratory Sciences: Clinical Science BS.

The Clinical Science major is intended for students pursuing careers in the diagnostic laboratory and meets the requirements for NY State licensure of clinical laboratory technologists. The Biomedical Science major is appropriate for students seeking other careers or graduate education in the biomedical field.
Professional Outcomes

Entry-Level Positions

Students completing the MLS degree are prepared for positions in a variety of settings. These include clinical laboratory (medical) technologists of diagnostic laboratories in hospitals and commercial environments, and research assistants in medical center and university labs, pharmaceutical and biotechnology companies and public health laboratories. Personnel shortages are severe in several of these areas, and opportunities are predicted to grow. The Bureau of Labor Statistics projects growth of 12% for clinical laboratory positions from 2016 to 2026.

The passage of the Clinical Laboratory Technology Practice Act in 2005 created a transparent professional pathway defining the education, experience and examination to qualify as a clinical laboratory technologist in New
York State NYSED
Office of the Professions. The course of study in the Medical Laboratory Sciences: Clinical Science major fulfills the educational and practice components for licensure.

Further Education

MLS students are encouraged to plan for postbaccalaureate education, and are guided to complete prerequisites. MLS alumni have been successful in medical and dental school, graduate programs in biomedical science (master's and PhD), management and clinical specialties (PA, forensic science, etc.) and advanced laboratory diagnostics such as cytotechnology.

Opportunities for Pre-Professional
Experience

- **Professional Practice:** Qualified students planning for careers in the diagnostic lab enroll in MLSP 41000 to fulfill the practical experience requirement of the clinical laboratory technologist license. Students are assigned to hospital, reference or public health labs for summer or semester-long internship experience in an area consistent with their interests.

- **Student Research:** Qualified students are encouraged to participate in faculty research projects through independent study and honors courses in such areas as innate immune regulation, bacteriophage, microbial pathogenesis, antimicrobials, gastric secretion and cancer, glutamate receptors in neurological diseases and cancer, and myelination in the peripheral and central nervous systems.

- **Academic Advising:** MLS majors meet each
semester with a faculty adviser to review progress and plan the next semester's program. The adviser helps students pace their studies appropriately. Counseling for graduate school, employment and reference support is ongoing for our alumni. A strong professional network exists among MLS alumni.

Admission Requirements

Students must meet the following minimum requirements to be considered for admission to the Medical Laboratory Sciences-BS majors:

Completion of 60 credits before enrolling in MLS, including: one year of general chemistry with lab (CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM), or equivalent) 1 year of general biology with lab BIOL 10000
(STEM), BIOL 10200 (STEM), or equivalent) and an overall GPA of at least 2.5. Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Laboratory Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.

Students can enter the Medical Laboratory Sciences major in fall and spring semesters. Advisors welcome e-mail inquiries anytime. To apply, both current Hunter College students and transfer students must complete the CUNY Transfer Application. Applicants should log in with their CUNYfirst account or create a CUNY Application account if they have never attended a CUNY institution. Be sure to select "Medical Laboratory Sciences" at Hunter College as the intended major. Admissions
decisions are made on a rolling basis so students should apply and complete the application as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively. Students are encouraged to complete most of their Hunter Core Requirement (HCR) General Education - Effective Fall 2019 which includes the CUNY Common Core, the Hunter Focus on foreign language and the concurrent requirements before entering the program, but liberal arts classes can be interspersed with major courses.

Students are encouraged to contact the Department Chair or Undergraduate Advisor listed below to ask any questions or learn more about the MLS majors before applying.

Scholastic Requirements
Student grades are reviewed each semester to determine eligibility for remaining in the program. Each student must maintain an overall GPA of 2.0 for each semester and a grade of C or better in each major course. Major courses must be taken for letter grades except, at the discretion of the chair, for clinic, field or independent study. Departmental permission is required in order to register for courses. Faculty advisers authorize course permissions during the pre-registration and registration periods.

Web site:
http://www.hunter.cuny.edu/mls
The Medical Laboratory Sciences (MLS): Biomedical Science major prepares students for careers in biomedical laboratories and other health-related professions. The MLS curriculum builds upon the basic science courses required to
Courses in the major fall into the following categories:

- fundamental lab skills
- clinical subspecialties
- advanced biomedical courses

Emphasis is placed on problem solving and development of laboratory strategies, in addition to theoretical knowledge and practical skills in each of the disciplines in the curriculum. The Biomedical Science major is appropriate for students seeking graduate education in enter the program.
biomedical or health-related fields. This major does not meet the requirements for NY State licensure of clinical laboratory technologists. For the licensure-qualifying program, please see the Medical Laboratory Sciences: Clinical Science BS major. The academic demands of MLS courses often require students to carry lighter credit loads than they are accustomed to. Part-time attendance and some evening classes are
mechanisms for assisting students to complete the challenging curriculum. See course descriptions and the MLS Web site for more detail.

Admission Requirements

The requirements for consideration for admission to Medical Laboratory Sciences - BS programs are as follows:

• Completion of 60 credits before enrolling in MLS, including: one year of general
chemistry with lab
CHEM 10200 (STEM),
CHEM 10400 (STEM),
CHEM 10600 (STEM) or equivalent

• 1 year of general biology
with lab (BIOL 10000 (STEM),
BIOL 10200 (STEM) or equivalent)

• Overall GPA of at least 2.5.

Students can enter the Medical Laboratory
Sciences major in fall and spring semesters.
Advisers welcome e-mail inquiries anytime.
To apply both current Hunter College students
and transfer
students must complete a Transfer Application with the CUNY University Application Processing Center. Visit http://www.hunter.cuny.edu/prospectives/ug_students/transfer.shtml and select On-Line Application from the choices. Be sure to select "Medical Laboratory Sciences" at Hunter College as the choice of curriculum. Use CUNY curriculum code 0344 when applying. Admissions take place on a rolling basis so students should
apply as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively. Students are encouraged to complete most of their General Education - Effective Fall 2019 (HC R) which includes the CUNY Common Core Requirement, the Hunter Focus on foreign language and the Concurrent Requirements before entering the program, but liberal arts classes can be
interspersed with major courses. Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Lab Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.

Hunter Core Requirement

Several courses
within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: General Education -
Effective Fall 2019.

Courses Required for the Major (79-92 credits)

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

Math Courses
MATH 10100
Algebra for College Students

Topics in algebra, graphing and functions. Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomials.
rational and exponential functions and their graphs. 

prereq: appropriate score on placement exam or exit from appropriate departmental workshop

4 hrs (2 lec, 2 lab)

3 cr.

MATH 10150
- Master of Symbolic Computation

This online course focuses on developing increased mastery of symbolic computational skills and strategies needed for manipulation.
ing symbols and solving equations and inequalities in precalculus-level mathematics and elementary statistics.

prereq:
MATH 10100/MATH 101EN with a grade of C or better. Not credited for students who have previously passed any course number at or above MATH 12400. 2 hrs 1 cr.

MATH 12400 (STEM) - College Algebra and Trigonometry
This course is replacing the course MATH 12500 (STEM) for students who do not intend to take calculus. Functions and their graphs; linear, quadratic, polynomial, rational, exponential, logarithmic, and trigonometric functions; topics in trigonometry; graphical and analytical solutions to systems of equations. Students who would plan on taking calculus should register for
MATH 12550 (STEM) instead of this course. Students who complete this course will need to register for MATH 14000 in order to take calculus. Note: This course is equivalent to MATH12500 for grade replacement purposes.

prereq: MATH 10100/101EN or the appropriate score on the Mathematics placement test. Not open to students who have taken MATH 12500 or MATH 12550.
MATH 14000
- Mathematical Reasoning Workshop

This workshop focuses on developing mathematical thinking skills needed for MATH 15000. Students will learn applications with formal mathematical logic and mathematical reasoning, including proofs that use methods of direct proof, indirect proof, and mathematical induction.
prereq: MATH 12400, MATH 12500, or MATH 12550. Not credited to students who have previous credit for MATH 15600. 2 hrs 1 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core Math/Quantitative Reasoning

GER 1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited
for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken
calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300. 
prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam 
prereq or coreq: ENGL 12000 3 hrs 3 cr.

Courses in Other Departments (31 cr.)

Biomedical Science Curriculum (40-42 cr.)

MLSP 30000 Funda
mental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment.

MLS 60000 is the graduate component of this course

prereq: BIOL 10000, 10200, CHEM 10200,
10300, 10400, 10500 or equiv.  
3 hrs (2 lec, 1 lab)  
3 cr.

MLS 31200  
Human Physiology: Integration and Control  
Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.  
prereq: BIOL 10000 and 10200, CHEM 10400,
MLS 34700
- Human Histology

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.

coreq:
MLS 31200
5 hrs (2 lec, 3 lab) 3 cr.

MLSP 34900
- Hematology

Study of normal and pathological conditions of blood. Use of current diagnostic
techniques to analyze peripheral blood and bone marrow, differential counting and blood banking. 

prereq or coreq: MLSP 30000
5 hrs (2 lec, 3 lab)
3 cr.

MLSP 35100
- Clinical Microbiology

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them. 

prereq or coreq: MLSP 30000
MLSP 35200 - Clinical Microbiology II

Continuation of MLSP 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.

prereq: MLSP 30000, 35100 or equiv.

5 hrs (2 lec, 3 lab) 4 cr.

MLSP 35400 - Clinical Bioche...
I: Biomo lecule s & Metab olism

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods. 

prereq: CHEM 22200
5 hrs (2 lec, 3 lab)
3.5 cr.

MLSP 35500 - Clinical
Biochemistry II: Genes to Proteins

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.

prereq: MLSP 35400
5 hrs (2 lec, 3 lab)
3.5 cr.

MLSP 36100
- Computers and Data
Proces sing in the Medical Laboratory

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.

prereq:
MATH 15000 or STAT 11300
3 hrs (1 lec, 2 lab)
3 cr.

MLS 45000 - Cell and Tissue Culture

Cell and tissue culture
theory and technique(s), including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.

prereq: MLS 35100
Coreq: MLS 34700, 35200
5 hrs (2 lec, 3 lab) 4 cr.

MLSP 45700 - Senior Seminar
Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science. 

prereq: perm instr.

2 hrs

3 cr.

**MLS 46000 - Immunology**

Cellular reactions in immunology, structure of antibodies and antigens, and
laboratory determination of immune functions.

prereq: MLS 34900, 35100
coreq: MLS 35200, 35400
5 hrs (2 lec, 3 lab)
3 cr.

PH 33000
- Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases. Minimum GPA to enroll - 2.75

prereq: Any intro statistics course plus SOC 10100 or equivalent
t plus either
PSYCH 10000 or
PSYCH 15000 or
ANTHC 10100 or equivalent.
3 hrs
3 cr.

Electives

5-6 hrs (4 lec, 1-2 recitation /workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER 3/B
Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

MATH 15500 (STEM) - Calculus II
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

STAT 11300
- Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation.
n and hypothesis testing.
Linear regression.
Students are expected to analyze real data sets and write reports.
Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.
prereq: A grade of C or better in MATH 10100 or MATH 101EN or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.
Degree Map

Degree Map for Medical Laboratory Sciences: Biomedical Science

Medical Laboratory Sciences: Clinical Science BS

Go to Medical Laboratory Sciences - BS

Overview
Medical Laboratory Sciences (MLS): Clinical Science is a pre-professional major, preparing students for careers in laboratories devoted to promoting, maintaining and restoring human health. The MLS curriculum builds upon the basic science courses required to enter the program. Courses in the major fall into the following categories:

- fundamentals and ame...
ion to theoretical knowledge and practical skills
tended for, but not limited to, students pursuing careers in the
diagnostic laboratory and is designed to meet these requirements.
for New York State licensing of clinical laboratory technologists.
academic demands of MLS courses often require students to carry...
tendance and some evening classes are mechanisms for assistance.
escriptions and the MLS Website:

Elementary knowledge of music history and literature,
From our recent survey of music majors, we have observed a significant increase in the number of students choosing to specialize in electronic music. This trend is particularly evident among younger students, who are more inclined towards innovative and experimental approaches in their musical careers. The rise in popularity of music technology is thus fostering a new era of creative expression in the field of music.

No point in having a special CLE part.
A seçenek, which means "option" or "choice" in Turkish, is a type of multiple-choice question that requires the examinee to select the correct answer from a list of options. It is widely used in educational assessments, online quizzes, or standardized tests to evaluate knowledge or comprehension of a particular subject. Unlike true/false questions, A seçenek questions offer a range of possible answers, making it essential for the examinee to carefully analyze and consider each option before making a selection. This type of question is designed to test not only the factual knowledge of the examinee but also their ability to differentiate between facts and fictions, identify the correct information, and apply logic to determine the correct response.

Almost the whole area of the world, especially the polar regions, is white. This is because the Earth's atmosphere absorbs a great deal of solar energy, which is then redistributed through the atmosphere and ultimately dispersed as heat. The Earth's climate is influenced by a number of factors, including the tilt of the Earth's axis, the distance of the Earth from the sun, and the composition of the Earth's atmosphere. The Earth's atmosphere is composed of a mixture of gases, including nitrogen, oxygen, argon, and carbon dioxide. The Earth's atmosphere also contains a number of other gases, including water vapor, carbon monoxide, and ozone. The Earth's atmosphere plays a crucial role in the Earth's climate, as it helps to regulate the Earth's temperature and help to keep the Earth's climate in a relatively stable state.

The world and our civilization depend on themutable properties of natural materials. These substancesare crucial for the functioning of our technology,from the electronics that drive our smartphones tothe materials that make up our buildings and roadways. In this chapter, we will explore the use of materials in construction, manufacturing, and consumer goods, and how the properties of these materials determine their suitability for different applications.

Materials can be classified based on their properties and their ability to perform specific functions. Some common categories of materials include metals, polymers, ceramics, and composites. Each type of material has unique properties that make it suitable for certain applications. For example, metals are known for their strength and durability, while polymers are lightweight and flexible.

In this chapter, we will examine the properties of different materials and how they can be engineered to meet specific performance requirements. We will also look at the environmental impact of material use and the efforts being made to develop sustainable alternatives. By understanding the properties of materials and how they can be optimized, we can design more efficient and sustainable products that meet the needs of our society.

In the next section, we will discuss the properties of metals and their role in construction and manufacturing. We will explore how the properties of different metals, such as iron, aluminum, and copper, can be tailored to meet specific requirements.

---

**Table of Contents**

1. Introduction to Materials
2. Properties of Metals
3. Properties of Polymers
4. Properties of Ceramics
5. Properties of Composites
6. Environmental Impact of Materials
7. Sustainable Alternatives
8. Conclusion

---

In conclusion, the properties of materials are crucial for the functioning of our technology and our society. By understanding the properties of different materials and how they can be optimized, we can design more efficient and sustainable products that meet the needs of our society.

The image is a page with text that appears to be a scientific or technical document. The text is partially visible and includes symbols and abbreviations such as "PHE3000", "OPEFT", and "PTMB, MHC-PHE". Without more context, it's difficult to determine the exact content or subject matter of the document. The text appears to be a series of numbers and letters, possibly representing chemical formulas or technical specifications.

Facts about cats and dogs.

In contrast, the natural habitat of dogs is often described as a pack society, where leaders emerge and social structures are more rigidly defined. Cats, on the other hand, are typically more independent and less likely to form strong hierarchical social structures. This difference in social behavior can greatly influence the way these animals interact with their owners.

As pets, dogs are known for their loyalty and willingness to please their owners. They are often trained for various tasks, such as herding, hunting, and even police work. Cats, while also trainable, are less likely to perform such tasks, but they are certainly able to learn many tricks and commands.

In terms of domestication, cats and dogs have been kept as pets for thousands of years, with evidence of domestication as early as 9500 BC. However, the reasons for keeping cats and dogs as pets have evolved over time, with modern pet owners often keeping these animals as companions for emotional support and companionship.

In summary, while both cats and dogs make great pets, they have distinct characteristics and behaviors that make them unique. Understanding these differences can help pet owners make informed decisions about which animal is best suited for their lifestyle and needs.

The paper presents a novel approach to address the challenges in computer vision, particularly focusing on the integration of machine learning and deep learning techniques. The authors propose a framework that significantly improves the accuracy and efficiency of image recognition tasks. They achieve this by refining existing algorithms and developing new models that leverage the power of deep neural networks. The results demonstrate a substantial enhancement in performance compared to current state-of-the-art methods.
